RE: 08-PGA-02 (99-TC-13 and 00-TC-15)
Enrollment Fee Collection and Waivers
Request to Amend the Parameters and Guidelines
to Adopt a Reasonable Reimbursement Methodology.
Los Rios Community College District, et al.

Dear Ms. Halsey:

On May 21, 2009, I submitted on behalf of 16 community college districts a Request to Amend the Parameters and Guidelines to Adopt a Reasonable Reimbursement Methodology for the above referenced mandate.

The unit cost rate proposed for the RRM is based on the filed annual claims for FY 2004-05, FY 2005-06, and FY 2006-07, for 24 college districts. This letter transmits printed copies of the annual claims and supporting documentation for the 24 districts. This information has also been scanned onto the enclosed data stick.

By my signature below, I hereby declare, under penalty of perjury under the laws of the State of California, that the information in this submission is true and complete to the best of my own knowledge or information or belief, and that the attached documents are true and correct copies of documents received from the claimants by SixTen and Associates and used for the preparation of the referenced annual reimbursement claims.

There should be delivered to you today by FedEx ground from me 3 document boxes that contain hardcopy of the annual claims used to establish the unit cost rate for the Enrollment Fee Collection and Wavier RRM.

The first box contains the transmittal letter and a data stik that has all of the hard copy scanned. Files are too large to email using the Commission drop box procedure.

The Contract Documents shall include amendments or modifications issued after the date of this Agreement.

ARTICLE 3. CONTRACT TIME.

3.1 CONTRACT TIME. The Contractor shall commence the Work on the date set forth in the District's Notice to Proceed (NTP) issued to the Contractor. The Contractor shall achieve Substantial Completion of the Work within the Contract Time which is (to be determined) consecutive days after the date for commencement of the Work as set forth in the NTP. Adjustment of the Contract Time, if any, shall be made only in strict conformity with the applicable provisions of the Contract Documents.

3.2 LIQUIDATED DAMAGES. Time is of the essence in the Contractor's performance and completion of the Work and all other obligations to be performed by the Contractor under the Contract Documents. The Contractor acknowledges and agrees that if Substantial Completion of the Work is not achieved within the Contract Time for each Site within the Contract Time, the District will sustain losses, damages and other costs which are difficult to ascertain. If Substantial Completion of the Work is not achieved within the Contract Time for any Site, the Contractor shall be liable for Liquidated Damages to the District at the rate of Five Hundred Dollars ($200.00) for each calendar day beyond the Contract Time at each Site until Substantial Completion of the Work for each Site is achieved. The Contractor acknowledges and agrees that the foregoing per diem rate of Liquidated Damages for delayed Substantial Completion at each Site is reasonable under the circumstances existing at the time of the execution of this Agreement. If Substantial Completion of the Work is not achieved on or prior to the Contract Time for each Site, the District may thereafter assess and withhold Liquidated Damages from any portion of the Contract Price then or thereafter due the Contractor. The Contractor and the Performance Bond Surety shall be jointly and severally liable and responsible to the District for payment of any assessment of Liquidated Damages which exceeds the remaining undisbursed Contract Price.

ARTICLE 4. Contract Price.

4.1 Contract Price. The Contract Price payable by District to Contractor for the Contractor's full, complete and timely performance of the Work under the Contract Documents is **FIFTY SEVEN THOUSAND TWO HUNDRED FORTY THREE 75/100 Dollars ($57,243.75)**. The Contract Price shall be subject to adjustment only in strict conformity with applicable terms of the Contract Documents.

In accordance with the General Conditions, the District will review Applications for Progress Payment to determine if they are proper and will verify that the amount requested by any such Application for Progress Payment is actually due and payable to the Contractor based upon the Work actually completed, installed and in place as of the date of the Application for Progress

Payment and the value of such Work as determined by the Schedule of Values. The District will make payment to the Contractor on each proper Application for Progress Payment an amount equal to Ninety Percent (90%) of the value of the Work actually completed, installed and in place as verified by the District, less the aggregate amount of previous Progress Payments.

4.3 DISBURSEMENT OF FINAL PAYMENT. Spring 1996 to Fall 1998	$13 Differential fee eliminated	Period of economic boom
Spring 1999 to Fall 1999	$12	
Spring 2000 to Spring 2003	$11	
Fall 2003 – Spring 2003	$18	Recession/State Budget Crisis of 2001-04
Fall 2004 – present	$26	

Analysis of Fee History. A cyclical pattern of fee increases has developed in the CCC system. Budget crises experienced by the State invariably affect fees; during each recessionary period, per unit student fees have been increased by the Legislature. These fee increases tend to raise to levels that go beyond merely keeping up with inflationary pressures, and represent true increases in cost to the consumer.

Subject: Enrollment Fee Collection

Pages: 1 (including coversheet)

Hi Sergio:
Well, we have been looking over the figures you sent and are comfortable with you using the Chancellor's data for students enrolled and number of enrollment fee waivers. For the total enrollment fees waived there are conflicting figures. The following represent data I received from financial aid yesterday and can be substantiated. Please look them over and let me know how you want to proceed. It is the consensus of many that reporting to the Chancellor's office has not always been accurate or at the least incomplete.

1.8-4 4A

99-00 = $724,019.00
00-01 = $739,833.00
01-02 = $769,930.00
02-03 = $1,443,175.00
03-04 = $1,472,740.00
04-05 = $2,532,435.00

These figures more accurately match the Chancellor's except for 02-03 year. Again they can be substantiated. Thank you for your help with this most (crazy?) mandate!

Hi Sergio,

My part in the Enterprise Resource Planning system started in February 2006 and the 06-07 fiscal year was definitely affected by Wingspan (the new campus database system).

Wingspan changed the entire fee collection process—the greatest impact for enrollment fee collection was my desk. I oversee all areas of the cash collection/accounts receivable on campus but am now 90% + on Wingspan and provide only guidance for other A/R areas so my hours in comparison to other staff show the greatest change. All hours will probably change for any staff member that collects fees since processing a student in the new system actually takes longer—we just hope that eventually students will use our self-service system.

The implementation of Wingspan impacted all of our policies and procedures since it is now where fee collection and student accounts are contained. SunGardHE provided a shell, so to speak, but all rules, policies and procedures needed to be created, entered and tested so that fees assessed correctly. This was done repeatedly in different environments: Train, Mock, Test, PROD and Patch. Since only the framework was provided in Wingspan inputting all aspects of fee collection was necessary.

I will give you a quick list of activities that were affected by Wingspan and in turn created the change in the mandated activity hours.

Wingspan Procedures:

- Conversion of old fee information to Wingspan
- Detail codes (with a general ledger interface) were built—charges and payments are built on these codes
- Bill-schedule built so students receive a receipt of payment for collection of enrollment fees
- Run daily processes in Banner so student accounts (affecting fee payments) are correct and updated.
- Troubleshooting to correct any errors or problems associated with an incorrect fee due to a new system
- Create and prepare rules that affect fee collection: 3rd party payments, BOGW, installment plans, invoices, schedules, etc.

Staff training:

- Attended training on average 6-9 days each month (during fiscal year 06-07 from July 2007 to April 2007-GO live was May 2007)
- Training "homework" assignments were given and completed on days not physically in training (e.g. reviewing 15+ Wingspan training manuals)
- Conducted 32 hours of training for staff
- Train new employees intermittently

Change and update all fee payment policies and procedures in:

- Class schedule
- Web site
- Student handouts
- Forms

Data standards
Procedure books for staff

We also changed credit card processors during this time and did training to implement the policies and procedures for this aspect of fee collection as well.

We were also running our regular business from July 2006 to May 2007 in the old system since we did not go live until May 2007. I am missing so much more but this is just a quick overview of why the hours changed so dramatically. Please let me know if you have any questions or need further information--basically I eat sleep and dream about Wingspan. ☺

Hi Sergio,
Our college has gone live on a new Enterprise Resource Planning system called WingSpan. WingSpan is built on an application product named, Banner. Rosalind confirmed with me that most of her time is spent on Banner. Banner tracks everything having to do with enrollment and fee collection. I don't want any red flags raised with the Controller's office, if you need to speak to Rosalind for more clarification her number is 626 914-8896 and email rzuniga@citruscollege.edu.

ubject: Clarification on stafftime for EFCW 06-07

Hello Carol,

I'm presently reviewing your district's 06-07 EFCW claim and I noted that Rosalind Zuniga, District Bursar, reported a total of 1,600 hours of "actual" time on the attached 1.6B form. We will need clarification on this reported time, since a 12 month employee usually works approximately only 1,800 hours in a year. Including this amount of time for one individual would definitely raise a red flag at the Controller's Office in Sacramento.

Please contact Ms. Zuniga and ask her to clarify or revise the reported time. If needed, she can simply revise and initial the original amounts noted on this 1.6B form. For reference, I've included the form from the previous fiscal year for an idea of what she's reported before.

Please call me if you have any questions.

Thank you.

Bill-schedule built so students receive a receipt of payment for collection of enrollment fees
Run daily processes in Banner so student accounts (affecting fee payments) are correct and updated.
Troubleshooting to correct any errors or problems associated with an incorrect fee due to a new system
Create and prepare rules that affect fee collection: 3rd party payments, BOGW, installment plans, invoices, schedules, etc.

Staff training:

Attended training on average 6-9 days each month (during fiscal year 06-07 from July 2007 to April 2007-GO Live was May 2007)
Training "homework" assignments were given and completed on days not physically in training (e.g. reviewing 15+ Wingspan training manuals)
Conducted 32 hours of training for staff
Train new employees intermittently

Change and update all fee payment policies and procedures in:

Class schedule
Web site
Student handouts
Forms

Data standards
Procedure books for staff

We also changed credit card processors during this time and did training to implement the policies and procedures for this aspect of fee collection as well.

We were also running our regular business from July 2006 to May 2007 in the old system since we did not go live until May 2007. I am missing so much more but this is just a quick overview of why the hours changed so dramatically. Please let me know if you have any questions or need further information--basically I eat sleep and dream about Wingspan. ☺

Hi Sergio,
Our college has gone live on a new Enterprise Resource Planning system called WingSpan. WingSpan is built on an application product named, Banner. Rosalind confirmed with me that most of her time is spent on Banner. Banner tracks everything having to do with enrollment and fee collection. I don't want any red flags raised with the Controller's office, if you need to speak to Rosalind for more clarification her number is 626 914-8896 and email rzuniga@citruscollege.edu.

Subject: Clarification on stafftime for EFCW 06-07

Hello Carol,

I'm currently reviewing your district's 06-07 EFCW claim and I noted that Rosalind Zuniga, District Bursar, reported a total of 1,60[illegible] hours of "actual" time on the attached 1.6B form. We will need clarification on this reported time, since a 12 month employee usually works approximately only 1,800 hours in a year. Including this amount of time for one individual would definitely raise a red flag at the Controller's Office in Sacramento.

Please contact Ms. Zuniga and ask her to clarify or revise the reported time. If needed, she can simply revise and initial the original amounts noted on this 1.6B form. For reference, I've included the form from the previous fiscal year for an idea of what she's reported before.

Please call me if you have any questions.

Thank you.

APPENDIX 1

Resolution of the Board of Governors of the California Community Colleges No. 2006-02

Whereas, California Education Code section 76300 was recently amended by Assembly Bill 1802 (Stats. 2006, ch. 79) to reduce the enrollment fee from $26 per unit to "($20) per unit per semester, effective with the spring term of the 2006-07 academic year;" and

Whereas, There are indications that the Legislature actually intended to have the reduction in the enrollment fee begin with any term beginning on or after January 1, 2007, even if that term begins before the "Spring 2007" semester or quarter; and

Whereas, Many colleges with intersessions beginning before the Spring 2007 term will soon begin early registration during which students will be simultaneously enrolling in classes for both the intersession and for the regular Spring term; and

Whereas, Under these circumstances it will be administratively difficult and confusing to students to require colleges to charge $26 per unit for intersessions and $20 for the Spring term; and

Whereas, California Education Code section 76300 also gives the Board of Governors authority to proportionately adjust the per unit enrollment fee for intersessions; *now therefore, be it*

Resolved, That the Board of Governors of the California Community Colleges hereby takes the following actions:

For any term or intersession beginning on or after January 1, 2007, and prior to the Spring 2007 semester or quarter, a community college district may charge an enrollment fee of $20 per semester unit or $13 per quarter unit. In addition, for any subsequent term or intersession for which the Legislature has authorized a fee of $20 per semester unit, a community college district shall charge an enrollment fee of $13 per quarter unit if applicable.

Craig,

CCC has not tracked the number of BOGW applications requested or the number of applications denied. After speaking with the staff, discussing the issue and including all input, our educated guess is that 3 out of 10 applications are denied or approximately 30%.

For the coming academic year 06-07 we will be documenting that information on Datatel and retaining all applications that are denied.

ell, this is the final week to get the claim submitted and I have one more request for you. Have any of your departments llected information regarding the number of student refunds to be processed due to the BOGG waivers? These are students no paid their tuition and subsequently received their waivers. I believe these are the students that A&R would have to run BILL get the students' accounts to reflect the credit. This is a required statistic for the claim and the information is not accessible on atatel. The information is needed back to 98-99; however, any available data would be tremendously helpful. If you have any ormation, I would be very grateful if you could submit it to me by Thursday, May 18. Thanks in advance for your cooperation.

Subject: XBOG Screen Time Estimate

Craig,

Based on my e-mails and my best recollection, I estimate the total time spent programming and debugging the on-line BOGW import process to be about 4 hours. The actual testing (by the campuses) of the process lasted from November 2004 through about March of 2005, but much of that was time spent actually trying to convince them to test the results.

The total time of four hours includes setting up the XAP project for creating the download file, and creating the Envision front-end screen and import batch process, as well as testing and debugging.

Well, this is the final week to get the claim submitted and I have one more request for you. Have any of your departments collected information regarding the number of student refunds to be processed due to the BOGG waivers? These are students who paid their tuition and subsequently received their waivers. I believe these are the students that A&R would have to run BILL to get the students' accounts to reflect the credit. This is a required statistic for the claim and the information is not accessible on Datatel. The information is needed back to 98-99; however, any available data would be tremendously helpful. If you have any information, I would be very grateful if you could submit it to me by Thursday, May 18. Thanks in advance for your cooperation.

SixTen & Assoc. is requesting that CCCCD provide 2005-06 data by November 2, 2006 on its form EFCW 1.8-3. We had previously provided the information for the prior years. They need to know the # of enrollment fee waivers requested and the # of enrollment fee waivers approved.

Derek, you provided the # of enrollment fee waivers approved for each of the colleges based on the Chancellor's Office's Data Mart. I queried it for '05-'06 and got nothing back. I'm assuming the state doesn't have the info yet. Will you provide the '05-'06 numbers? Also, you provided Felipe with the number of enrollment fee waivers denied as of 3/29/06. Will you provide the '05-'06 denials as of year end?

Viviane, you previously stated that CCC did not track that info, but that it would begin tracking it in '06-'07. We didn't submit prior year data; however, we included your email that CCC estimated that 30% were denied. Do you have any current data that we could use as a basis for '05-'06 or do you want to use the same estimate of 30%?

Marcia/Derek, a report titled BOGB was included as backup to the previous EFCW 1.8-3 provided by IT that lists the students' names and reasons for denial. I'm not sure who prepared that report, but it may need to be run for the '05-'06 numbers.

Please let me know if you have any questions or need additional information. Once again, I need to provide this information to SixTen & Assoc. by **November 2, 2006**. Thanks.

Krista:

Attached is a pdf file with a copy of our Datatel Enhancement and Support Services Agreement (ESSA) for 2005/06. Page #1 lists the various products and corresponding annual fee. The fourth item is "California Student System Maintenance....$39,475". This module contains nine major functions, including the Accounts Receivable/Cash Receipts functionality.

Therefore, our estimate is 1/9th of $39,475 = $4,386. The total invoice has increased from 6% to 17% each year.

I hope this helps. Let me know if you have any questions or need additional information.

Craig,

CCC has not tracked the number of BOGW applications requested or the number of applications denied. After speaking with the staff, discussing the issue and including all input, our educated guess is that 3 out of 10 applications are denied or approximately 30%.

For the coming academic year 06-07 we will be documenting that information on Datatel and retaining all applications that are denied.

ell, this is the final week to get the claim submitted and I have one more request for you. Have any of your departments llected information regarding the number of student refunds to be processed due to the BOGG waivers? These are students no paid their tuition and subsequently received their waivers. I believe these are the students that A&R would have to run BILL get the students' accounts to reflect the credit. This is a required statistic for the claim and the information is not accessible on atatel. The information is needed back to 98-99; however, any available data would be tremendously helpful. If you have any ormation, I would be very grateful if you could submit it to me by Thursday, May 18. Thanks in advance for your cooperation.
