NOTE 5 – INTERFUND TRANSACTIONS

Interfund Receivables/Payables (Due to/Due From)
Interfund receivables and payable balances consist of amounts owed between funds as a result of the time lag between the date that: (1) interfund goods and services are provided or reimbursable expenditures occur; (2) transactions recorded in the accounting system; and (3) payments between funds occur. These interfund transactions have been eliminated through consolidation within the entity-wide financial statements.

Operating Transfers
Operating transfers between District are used to: (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them; and (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, to finance various programs accounted for in other funds in accordance with budgetary authorizations. These operating transfers have been eliminated through consolidation within the entity-wide financial statements.

10% of Student's who receive BOGG waivers have problems receiving their BOGG, Because before it was implemented the student drops some or all classes. When this happens it negates the Bogg from completing In order for this process to be completed I must do research to find out what semesters should be rebilled and then switch screens & remove the "drops" from those semesters. Once the drops are removed then re-bill the student for those semesters. The next step would be to re-enter the drops into the student records. Once this is done if the student has not yet paid their fees they can do so at that time, if the student has paid ... an email must be sent to finance informing them to refund the student. Each student who must be rebilled in this fashion takes on average 15 minutes and can only be corrected by myself & the Director of Admissions & Record

10% of Students who receive BOGG waivers have problems receiving their BOGG, Because before it was implemented the student drops some or all classes. When this happens it negates the Bogg from completing In order for this process to be completed I must do research to find out what semesters should be rebilled and then switch screens & remove the "drops" from those semesters. Once the drops are removed then re-bill the student for those semesters. The next step would be to re-enter the drops into the student records. Once this is done if the student has not yet paid their fees they can do so at that time, if the student has paid... an email must be sent to finance informing them to refund the student. Each student who must be rebilled in this fashion takes on average 15 minutes and can only be corrected by myself & the Director of Admissions & Record

10% of Student's who receive BOGG waivers have problems receiving their BOGG, Because before it was implemented the student drops some or all classes. When this happens it negates the Bogg from completing In order for this process to be completed I must do research to find out what semesters should be rebilled and then switch screens & remove the "drops" from those semesters. Once the drops are removed then re-bill the student for those semesters. The next step would be to re-enter the drops into the student records. Once this is done if the student has not yet paid their fees they can do so at that time, if the student has paid... an email must be sent to finance informing them to refund the student. Each student who must be rebilled in this fashion takes on average 15 minutes and can only be corrected by myself & the Director of Admissions & Record
