RE: Request for Extension to Provide Comments on Proposed Parameters and Guidelines  
Integrated Waste Management, 00-TC-07  
Santa Monica and South Lake Tahoe Community College Districts, Co-Claimants

Dear Ms. Patton:

This will serve as a formal request to extend the comment period on the proposed parameters and guidelines, pursuant to Title 2, California Code of Regulations, section 1183.01.

This request is based on the variety and complexity of the proposed reimbursable activities, coupled with the potential for significant offsetting revenues. The California Integrated Waste Management Board (Board) staff is working diligently to provide detailed and comprehensive comments, in light of the Commission's direction at the original Test Claim hearing to identify potential offsetting revenues in particular. This work necessitates a longer period of time for the Board to provide a full response to the proposal.
