MAINTENANCE OF FACILITIES	Required school districts to set aside two percent of their general fund for ongoing maintenance.	Requires school districts to set aside three percent of their general funds for 20 years for ongoing maintenance.
PROPERTY LIENS	State maintains a lien to properties it funds.	State does not hold liens, and existing liens are released.
ARCHITECTURAL APPROVAL	Division of State Architect approved all plans.	The Division of State Architect or a state approved private engineering firm may approve plans.

	LEASE PURCHASE PROGRAM	SCHOOL FACILITIES PROGRAM PROP 1A
DEVELOPER FEES	The cap on fees was $1.93 per square foot; however, cities or counties could levy a higher fee and pass it to schools districts.	The cap on fees is $1.93 per square foot, adjusted biannually. Fees may be assessed up to 50 percent of the costs of a project if a school district has accessed other forms of financing including Mello-Roos, G. O. bonds, and parcel taxes. In order to increase fees, school districts must meet two of four criteria, including MTYRE, local school bond positive votes of 50 + 1 percent, 20 percent of students are housed in portables, 15 percent of bond debt used.
WHEN STATE FUNDS RUN DRY	Projects were placed on a pending state-funding list or charged a city-based developer fee.	Modernization projects may be placed on a pending state-funding list. Growth projects may be placed on a priority points list, or the school district may collect 100 percent of financing from a developer.
CONTAINING DEVELOPMENT (MIRA, HART MURRIETA COURT CASES)	Cities and counties on behalf of school districts were able to contain residential development by suspending the building of new facilities.	School districts can not request cities or counties to prohibit residential development based on a lack of funds or school facilities until 2006.
ARCHITECT & CONSTRUCTION MANAGEMENT FEES	Percentage caps on fees based on size of projects	No caps.
MODERNIZATION PROGRAM	Provides funding to building over 30 years old, and portables over 25 years old. Calculations done on a district basis.	Provides funding for buildings over 25 years old and portables over 20 years old. Provides funding on a site-specific basis.
AIRCONDITIONING-ASBESTOS PROGRAM	Allotted funds specifically to install AC and remove asbestos.	These are now incorporated in the modernization program.

Simplification

To further simplify the process, the Proposition reduced the number of school facility financing phases from three to one.[100] This is now possible because school districts receive a flat grant from the State based on the number of students they enroll, rather than on the estimated cost of a project. Under the previous program, each phase of a project was evaluated independently; thus the cost to the State for any given project could change. Under the new program, a school district receives a single grant for a single project, and cannot request that the state fund additional need beyond the original request.[101]

The Proposition also explicitly requires that the State Allocation Board initiate a public hearing process that notices any policy changes considered by the Board. It requires that the Board make available to school districts written up-to-date documentation that clearly explains its policies, and specifically describes how its new programs work.

Consolidation

Until Proposition 1A, the State Allocation Board administered as many as 13 programs. The most current six are discussed above. With the enactment of Proposition 1A, the number of programs has been reduced to two, along with a special category for hardship cases. This consolidation of programs makes it easier for school districts to choose a program that best suits their needs. It precludes the type of creative tactics that school districts were forced to pursue to match their projects to the right program in order for them to receive funding.

A More Open Process

The Proposition causes a major shift in policy direction for the State Allocation Board. Under its previous programs, the Board funded both new construction and modernization on a 50/50 matching basis. Under Proposition 1A, the Board is required to fund modernization projects more generously than new construction projects, in that the State will fund 80 percent of the cost for modernization compared to 50 percent for new construction.

Another major outcome of Proposition 1A is that the State Allocation Board no longer has the authority to offer grants to school districts that may seek funds for special projects without any real statutory framework. Now school districts must demonstrate that they meet specific hardship criteria set out in the new law. The practical effect of this change will depend on how the Board interprets this provision.

Previous legislation implicitly required that the State Allocation Board follow guidelines set forth in the Administrative Procedures Act (APA); however, the Board did not do so. Proposition 1A explicitly requires the Board to follow APA guidelines. This means that any change in policy or regulation considered by the Board must be properly noticed to the public before the Board can act. This requirement, if the Board follows the full spirit, will allow school districts to be fully informed of Board policies and procedures, as well as its rules and regulations.

PITFALLS IN THE PROCESS PRIOR TO PROPOSITION 1A

This section discusses the State Allocation Board's attempts to improve its system and the pitfalls that existed under the previous programs.

Until recently, rules governing the application process were labor-intensive, both for school districts and the state agency personnel (including the Office of Public School Construction and the Division of the State Architect). In 1989, the Legislature received a report outlining the complex application.[102] The report identified 54 steps school districts had to perform in order to receive application approval and eventual financing. In addition, the process required 24 separate forms.

Process Streamlined Recently

Since 1992, the OPSC has tried to be more efficient. Changes implemented by OPSC included: simplified and streamlined applications; improved response time for application review; improved policy information dissemination; and school districts were empowered to complete their own applications.

The most concrete indication that the Office of Public School Construction was becoming more efficient was in the application process. The application process for the Growth Program was reduced from 54 steps to nine. In addition, the number of forms that were needed to apply for funding was reduced from 24 to four.

School districts complained and begged for applications to be checked and approved for a State Allocation Board meeting agenda in an expeditious fashion. As part of the efficiency movement, the Office of Public School Construction set a goal to reduce the time from when a school district filed a completed application until it was placed on a State Allocation Board meeting agenda from over 400 days to 60 days.[103] Prior to Proposition 1A, applications on average still took longer than the 60 days to be reviewed. However, the office's efficiency achievement by reducing application review days is noteworthy.

In addition, the Office of Public School Construction worked more closely with school districts in the decision making process and provided greater leeway. In particular, school district personnel could self-certify certain information pertaining to a project rather than rely on state agency personnel. The self-certification process removed the time a school district would wait for a response from the Office of Public School Construction. It thereby shortened the application process.

Under its previous programs, it was difficult for school districts to get information pertaining to the funding process from the Office of Local Assistance (OLA) staff or from written materials. The Office of Public School Construction is now more service-oriented.[104] One can obtain information in person or from the office's Internet site.[105] In fact, the staff of the Office of Public School Construction is continually placing more information on the Internet. This information includes an automated project tracking system, Senate Bill 50 regulations, office contacts, and old board policy changes.

School Districts in Line Stand on Shifting Sands

Under the previous allocation system, school districts that completed their applications and were placed in queue were never guaranteed funding in the order their applications were received. The State Allocation Board dictated that school district applications were placed in an unfunded application list on a first-come/first-served basis. However, there were four general ways that school district applications could be "bumped" up or down in the queue.

Broad Classification Decisions

The first way a school district could get bumped was if the State Allocation Board decided to redirect its emphasis and fund a broad category of projects. For instance, the SAB could decide to fund all application projects from small school districts (no matter where they were in queue). If a school district was large, hundreds of proposed school projects could jump ahead in the funding queue.

The second way a school district could get bumped was if the State Allocation Board shifted the specific funding program allocations. Thus, for example, the State Allocation Board could decide to shift funds earmarked for the Growth Program to the State Portable Classroom Program.

Specific School District Decisions

The third way a school district could get bumped was if another school district application in queue with a later application filing date appealed to the State Allocation Board to change its application filing date to be ahead of other school districts. That school district application would be funded first.

The fourth way a school district could get bumped was if an emergency situation occurred and a school district requested critical hardship money from the State Allocation Board. The Board could provide these funds when available.

The application process requires equity and balance in order to ensure fair competition by school districts for State funds. The process needs to be flexible enough to handle emergency situations, yet firm enough to prohibit jockeying among school districts for better placement in the queue.

Proposition 1A halts the movement of funds from one program to another. However, the other examples are still feasible. Jockeying of school districts by consultants for better placement in line may continue to occur. This is especially true as Proposition 1A cannot handle the pent up demand for State funds. The next section discusses options that the Legislature may consider in order to improve this system.

OPTIONS FOR IMPROVING THE SCHOOL FACILITY FINANCING SYSTEM

A Separate List for Small and Rural School Districts

When the Proposition 1A funds are exhausted, new construction project applications will receive priority points for future funding. Small and rural school districts may require separate lists to ensure that they are placed near the front of a funding queue. This is necessary because there is no guarantee that the entire queue would receive future funding. Small and rural school districts, based on the current priority points system, may not receive enough priority points to approach the front of the queue. Larger school district applications, with greater per pupil need, may be able to position themselves high enough in the queue for funding by receiving favorable OPSC evaluations. Proposition 1A allows schools to skip to higher positions in the funding queue if they score higher priority points based on their number of unhoused students or if they can demonstrate a special hardship. *The Legislature may wish to create a separate list for small and rural school districts to create a more equitable system.*

Annual Report and Independent Accounting

In the early 1990s, many state agencies, boards, and commissions, because of budget cuts, postponed writing annual reports to the Legislature. These reports provided financial and policy information to the public. The State Allocation Board was one government entity that has not prepared regular audited reports of its programs' operations and expenditures for public review. The State Allocation Board will receive $6.7 billion over the next four years to fund school construction projects. *The Legislature may wish to require the Board to prepare for the Governor and Legislature an annual report that details how and to whom bond funds were distributed. The Legislature may wish to require that an independent accounting firm or the State Auditor General prepare the Board's report.*

On-Line Technical Assistance

Although the application and funding process administered by the Office of Public School Construction has been streamlined and simplified in recent years, certain components of the process are still cumbersome. The process should be simple enough that school districts do not need to hire consultants or lobbyists to advise them or to shepherd their proposals. *The Legislature may wish to pass legislation that would require the OPSC to develop a technical assistance program to provide school districts with the necessary information and advice they need in order to qualify for and receive bond funds. Such a system could include an automated Internet help-line.*

A Special General Fund Appropriation for School Construction

The State's bond capacity may not be able to fund every State infrastructure need, including schools, transportation, prisons, and water during the next decade. School facility needs are estimated conservatively at roughly $10 billion, while some estimates have put the figure at $40 billion for the next decade alone. According to the Department of Finance, the State can afford to service approximately $25 billion in additional debt. Thus, school facility financing alone could incur the entire debt capacity of the State. *The Legislature may wish to create a special appropriation fund for public school capital outlay as part of the State General Fund to augment the State's bond programs. In addition, the State may wish to design a school construction reserve fund, which is funded from budget surplus revenues.*

ENDNOTES

[1] Chapter 243, Statutes of 1947.
[2] If a school district wants state funding for construction or repair of a school, it must apply to the State Allocation Board for the money. There are school districts that repair and construct school buildings without the assistance of the State Allocation Board (i.e., San Diego Unified School District, San Luis Unified School District). However, this report will focus on a school district that requires state support.
[3] Chapter 243, Statutes of 1947. Initially, the State Allocation Board administered a number of Public Works programs for the State ranging from housing and employment assistance to school facilities construction. Various programs include: the Postwar Planning and Acquisition, Construction and Employment Act, Veterans Temporary Housing, State School Building Construction Programs, Emergency Relief Programs, and Community Assistance Programs (State Allocation Annual Report 1983-1984, p. 1).
[4] California Government Code 15502.
[5] Government Code 15490.
[6] While the State Allocation Board submitted policy changes to school districts, an up-to-date handbook was not made available. In addition, turnover of board members and school administrators may lead to ignorance of programs and the program changes.

[10] California School K-12 enrollment grew from 1.689 million students in 1950, to 4.633 million students in 1970 (State of California. Department of Education. Education Demographics Unit. CBEDS Data Collection. "Enrollment in California Public Schools 1950 through 1997").
[11] This is defined by California Education Code, Section 15102, as the legal limit of debt that a school district can incur based on the assessed value of property in that school district.
[12] Known as the State School Building Aid Program. The Legislature determined qualifications in order for school districts to participate in this program. They include the following provisions:

1. To qualify for a loan from the State a school district must have voted local bonds to 95 percent of its bonding ability.
2. Borrowing districts financially able to do so must repay the money to the State. Terms of 30 or 40 years of repayments are provided.
3. No money can be borrowed by a school district unless the proposed loan is approved by two-thirds vote of the electors of the district.
4. School construction, financed in any part by State loans will be subject to cost controls to be established by State Allocation Board (includes restrictions on the number of square feet of construction allowed per pupil).

[25] Property rich communities often have more poor people than property poor communities. The presence of commercial and industrial development can make an otherwise poor district "rich" in its tax base. Conversely, affluent communities often discourage industrial development that would make them property rich, but environmentally poorer. The lack of correlation between poor people and property poor districts is often overlooked in discussions of school finance issues. Even though the distinction has been known for a long time. Campbell, Colin D.; Fischel, William A. National Tax Journal "Preferences for School Finance Systems; Voters Versus Judges." Footnotes from Helen Ladd. The New York Times, June 30, 1983, p. A–14. However, some school districts that were academically and fiscally well managed prior to Proposition 13 faced problems. In 1983, the San Jose Unified School District filed for bankruptcy. The National School Boards Association stated that it was the first insolvency of a large school district since the depression. The San Jose Unified School District, at the time, held a reputation for excellence in education. It ranked 14th in the state in the ratio of students to teachers, and its teachers' salaries ranked second highest in Santa Clara County. However, since Proposition 13, the school district set aside maintenance and construction projects, laid off teachers and non-teaching administration, until it could not make further reductions and still continue to pay its staff.

[42] This evaluation was amended annually. The State developed a formula that was based on standards that considered how a facility was used and how many pupils were unhoused. In some years, the State gave preference to unhoused pupils, while in other years, the state gave first consideration to how a facility was used. Facility use included childcare, before and after school programs, adult education, and traditional K-12 programming.

[45] California Department of Education. California Year-Round Education Directory 1997-98.
[46] For example, a school district that needed to build a new elementary school that cost $4 million could receive $400,000 from the state if it chose to redirect students to existing facilities that incorporated the MTYRE program.

[47] Chapter 886, Statutes of 1986, added provisions that capped the grant at $125 per student.
[48] School districts that could not offer to cover any expenses (now referred to as a Priority 2) could conceivably wait years. MTYRE continues today, and has been a successful program. In 1997, more than 1.19 million or about 22 percent of California students attended schools with year-round calendars. The State Department of Education estimates that the MTYRE program has saved that State more than $1.8 billion in construction costs since its inception. In 1997-98, $66 million was allocated from the "mega item" of the state budget. About $40 million was sent to Los Angeles Unified School District to cover the reported 40,872 excess students. However, once students are "excess," they can not be counted as students for the Office of Public School Construction in the erection of new facilities. Approximately 102,000 students are "excess." While the program has provided relief for school construction, it remains a controversy whether educationally the program is successful.

[65] Substantial enrollments are defined as at least 30 percent of the district's enrollment in kindergarten or any of the grades one to six, inclusive, or 40 percent of the students in the high school attendance area, see Education Code, Section 17717.7g.
[66] Conversation with Mike Vail, on January 21, 1999. Mr. Vail is the Assistant Superintendent of Facilities and Governmental Relations at the Santa Ana Unified School District.
[67] The class size reduction program reduced the ratio of students to teachers in kindergarten to third grades. It exacerbated the obstacles for school districts that were growing in size, but lacked facilities to house the new students. School districts that were not growing had to provide additional classroom space to account for smaller ratios of teachers to students in kindergarten to third grades. The State Allocation Board provided portable classrooms to cover the smaller-sized classes. The State Allocation Board estimates that thousands more classrooms are needed.

[84] This included the type of facility and the number of teaching stations (classrooms).

[85] The Department of Education, School Facilities Planning Division is responsible for site review and site plan review and is required to recommend all school locations for new schools and additions to schools site regardless of the funding source.

[86] For example, in 1988, the Los Angeles Unified School District wanted to rehabilitate a hotel into a school. The State Allocation Board paid $48 million to an escrow account in an attempt to hold the price to acquire the Ambassador Hotel. When the school district and State Allocation Board realized that the site was not acceptable and decided to back out of the contract, they found that the developer had removed the money placed in the escrow account. In addition, when the district attempted to backpedal out of the contract, the owner sued for a breach of contract. Currently, there are negotiations between the school district and the owner of the property, Donald Trump.

[87] A school district was responsible for developing detailed cost estimates for the proposed school or addition. Site support costs provided funds for the preparation of environmental impact documents, development of relocation reports, determination of relocation claims, and negotiation of site purchases. The state reimburses up to 85 percent of the amount expended for eligible sites.

[88] This list was limited to those school facility components that have approached or exceeded their normal life expectancy.

[89] Applications for projects and appeals with correspondence from Carol A. Fisher, Apple Valley Unified School District, Author.

[90] Reimbursable fees and costs related to plans include architect fees, Division of State Architect/ORS Plan Check fee, CDE Plan Check Fee, Preliminary Tests (like soil, foundation, and exploratory borings) and other fees, for instance, advertising construction bids, and printing of plans.

[91] Pascual, Psyche. "Funding to Build High School Finally Approved By State." Los Angeles Times, June 17, 1993.

[92] Understanding the board's other five opinions would be difficult to track if not impossible to uncover.

[93] To evaluate the State Allocation Board's policies and procedures, it was necessary to obtain the State Allocation Board Handbook. The Handbook contains procedures and policies for reviewing and criteria for approving applications from school districts for bond funds to build new schools. When this report was initiated, the Handbook that the State Allocation Board provided was dated 1995, but contained policies adopted in 1993. Further, the State Allocation Board changes its policies and procedures often, and has no administrative process by which it updates its Handbook. An up-to-date, comprehensive list of policies and procedures was not available in any other format. A new handbook for the Lease Purchase Program was available on line - however, it also suffered from a lack of regular updating. The State Allocation Board meets every month and, hypothetically, policy changes can occur each month. Prior to Proposition 1A, despite being subject to the Administrative Procedures Act, the State Allocation Board had no public notice or participation requirements for the procedures by which it changes its policies. Only long-term policies are published in the California Regulatory Notice Register. Such policies included contracting and affirmative action requirements. Furthermore, staff reported that policies change so frequently, that it would be impossible to include relevant policies in the reporter or any other document.

[94] The number of students above the maximum number set by CDE to be in a classroom.
[95] The priority points ranking mechanism is based on, among other things, the percentage of currently and projected unhoused students relative to the total population of the applicant district or attendance area.
[96] In hardship cases, the State will fund more than 50 percent of new construction if a school district is unable to come up with its 50 percent match and had gone through a reasonable effort. Similarly, districts that are unable to offer a 20 percent match for modernization can seek relief from the State. Financial hardship is defined for those school districts that cannot afford to build, repair, or replace facilities because of fiscal restrictions (for example, an inability to match state funding because of an inability to pass local bonds or a lack of bonding capacity). Facility hardship can also apply to school districts that lack adequate housing for their pupils due to a lack of health and public safety conditions; or because of a natural disaster, traffic safety, or the remote geographic location of pupils (i.e., rural). Excessive costs may be attributed to geographic location, size of project, the cost associated with a new project in urban locations that may require high security or toxic cleanup, and sites that may require seismic retrofitting.
[97] The State Supreme Court ruled that school districts that were unable to accommodate enrollment growth could ask their city and county councils to limit real estate developers from building additional housing. Some developers found it necessary to offer additional resources (land or money) to get support from school districts and city councils for their projects.
[98] In three legal challenges, the courts have ruled that cities were not precluded from making zoning or other land-use decisions, because of the availability of classroom space, see Mira Development Corporation v. City of San Diego, William S. Hart Union High School District v. Regional Planning Commission of the County of Los Angeles, Murietta Valley Unified School District v. County of Riverside. The practical effect of the rulings was that cities could limit development on the basis of the supply of classrooms. Some developers found it necessary to offer additional resources, land or money, to get support from school districts and city councils for their projects.
[99] If the State expends all of its Proposition 1A resources prior to 2006, school districts can ask developers to pay 100 percent of site acquisition and school construction costs. In order to receive developer support under these conditions, school districts must participate in the Multi-Track Year-Round Education program. The Proposition includes language that the State may reimburse developers for up to 50 percent of their costs if subsequent bond funds become available.
[100] Under the old program, school districts had three application phases for each of their projects – planning, site, and construction. Under the new program, there is only one application phase for the entire project proposal, except under hardship provisions.
[101] However, once the funds are distributed to the school district, the school district keeps the interest accrued on the funds.
[102] Price Waterhouse. Joint Legislative Budget Committee Office of the Legislative Analyst. Final Report of the Study of the School Facilities Application Process. January 10, 1988.
[103] One streamlined step is the self-certification process in the Lease Purchase Program.
[104] However, in light of the office's accomplishments, the author had to request information routinely more than once.

APPENDIX A

School District Financing Mechanisms

In addition to state bond funds, school districts have a variety of other alternatives for funding school construction. These include developer fees, certificate of participation, general obligation bonds, and Mello-Roos taxes. Also, a developer may simply build a school rather than consider other financing alternatives.

Local General Obligation Bonds

In 1986, after an eight-year hiatus, school districts could once again use general obligation bonds to finance school facilities. Bonds are a favorable method of financing, even though they require a two-thirds vote and proceeds cannot be used for items such as buses and furnishings. In 1986, 14 school districts offered bond initiatives. In 1987 and 1988, this number grew to 51 and 54 school districts, respectively. In November 1998, 36 school districts held bond elections.[106]

Developer Fees

In 1978, the Wilsona School District was the first to use developer fees. These fees added about $2,000 to the cost of a typical home in the Lancaster area. While school districts were exacting developer fees, there was no statute that explicitly permitted this activity. The Legislature standardized the authority by giving school districts direct authority to charge developer fees. School districts welcomed developer fees especially because they did not require an election, and the funds associated with the fees could be used for a wide variety of facilities that were associated with enrollment growth. In response to a growing number of complaints from developers, the Legislature capped the amount that could be collected in 1986. Proposition 1A prohibited local agencies from using the inadequacy of school facilities as a reason for not approving housing development projects. The authority to raise developer fees was placed with the State Allocation Board. However, developer fees generally are not enough to cover the full costs of constructing a school.

Certificates of Participation

Certificates of Participation (COPs) are another, though complicated, tool for districts to raise money without voter consent. The most common arrangement is that the district leases a new school owned by another government agency or a nonprofit agency, which in turn raises the capital to build the school by selling shares (certificates of participation). In the long run, lien revenues COPs are remarkably like bonds. One disadvantage of the COP arrangement is that it does not provide a new revenue source for the lease payments. Funds usually come from the school district's general fund.

Mello-Roos

The Mello-Roos Community Facilities Act, established in 1982, authorized school districts and local governments to form "community facilities districts." Subject to the approval of two-thirds of the voters, these special districts could sell bonds to raise revenues for the purpose of financing new buildings, or to rehabilitate existing school facilities. A majority of Mello-Roos districts are created in inhabitable areas that are proposed for development where voting is by the landowners. The district sets a specific tax per house.

Dear Mr. Peterson:

Commission staff is currently preparing a draft staff analysis on the *Prevailing Wage Rate* test claim, tentatively scheduled for the December 6, 2007 Commission hearing. The test claim asserts that several regulatory provisions impose reimbursable state-mandated activities. Exhibit 5 provides a copy of the regulations claimed.

The version of the regulations that was provided, however, shows that sections were added or amended at various times since 1976. Thus, it is unclear from the test claim what version of the regulations, as identified by the effective date and register number of the change to the regulations, the claimant is pleading. Without this information, staff is

unable to determine the activities in the regulations that the claimant is alleging to be reimbursable under article XIII B, section 6.

So that staff may complete the analysis, we are requesting that no later than August 1, 2007, the Commission be provided with the effective date and register number of the change to or addition of each specific regulatory provision which is alleged to create a newly mandated activity, as well as a copy of the regulation identifying that regulatory change or addition.

Please note that a similar claim, *Prevailing Wages* (03-TC-13), was filed by the City of Newport Beach and is also tentatively scheduled for the December 6, 2007 Commission hearing. The mailing list has been updated to reflect interested parties and persons for both test claims.

Please contact Deborah Borzelleri at (916) 322-4230 if you have questions.

Sincerely,

Paula Higashi
Executive Director

REQUEST FOR SUPPLEMENTAL INFORMATION

In a letter dated July 1, 2007, the Commission on State Mandates requested the claimant to provide "the effective date and register number of the change to or addition of each specific regulatory provision which is alleged to create a newly mandated activity, as well as a copy of the regulation identifying that regulatory change or addition."

In response, this supplement to the test claim (filed June 28, 2002 and as amended July 21, 2003) provides an index and copy of each change to the Title 8, CCR, sections included in the test claim. The Registers cited are attached as Exhibit A. Amended language is underlined (new language) or stricken out (deleted language).

HISTORY OF TITLE 8, CCR, SECTIONS INCLUDED IN THE TEST CLAIM

Register 56-08 Added §§ 16000-16004, 16100-16101 and 16200-16205, also known as "Group 3."

Register 72-13 No apparent change to Group 3. Added §§ 16209, 16209.1-16209.6 as emergency regulations, see Register 72-23.

Register 72-23 Certificate of Compliance for §§ 16209, 16209.1-16209.6 as added by 72-13.

Register 77-02 Repealed §§ 16000-16004, 16100-16101 and 16200-16205, previous Group 3. Added new Group 3, §§ 16000-16013, 16100-16109, 16200-16206 and 16300-16305, as emergency regulations.

Register 77-49 Added new "Group 5", §§ 17000-17299 regarding conflict of interest code disclosure.

Register 78-06	Repeals old Group 3 added by 56-8 and repeals new Group 3 added as emergency regulations by 77-02. Adds new Group 3, §§ 16000-16014, 16100-16109, 16200-16207.9.
Register 79-19	Added § 16015.
Register 80-06	Added §§ 16016-16019, 16207.10-16207.19. Repealed § 16207.9
Register 81-09	Repealed Group 5, §§ 17000-17311, previously added by 77-9. Adds new § 17000 and appendix, regarding conflict of interest code.
Register 82-51	Repealed Group 4, §§ 16209, 16209.1-16209.6, regarding employment of aliens.
Register 86-07	Renumbered and Amended: Former §§ 16000-16006 and 16008-16019 to § 16000. Former § 16100 to § 16002. Former § 16101 to § 16203. Former §§ 16102-16105 to § 16200. Former § 16106 to §16206. Former §§ 16107 (a), (b) and (c) to §§ 16201, 16202 and 16205. Former § 16108 to § 16204. Former § 16200 to § 16300. Former §§ 16007, 16201, 16202, 16204, and 16206 to § 16302. Former § 16207 to § 16303. Former §§ 16207.2 and 16207.3 to § 16304.

Former § 16207.5 to § 16100.

Former § 16207.7 to § 16301.

Former §§ 16207.10 - 16207.14 to § 16400.

Former §§ 16207.15 and 16207.16 to § 16401.

Former § 16207.17 to § 16402.

Former § 16207.18 to § 16403.

Former § 16207.19 to § 16500.

Repealed §§ 16100.1, 16109, 16203, 16205, 16207.1, 16207.4, 16207.6, and 16207.8.

Added new §§ 16001, 16101 and 16102.

Register 88-35 Repealed § 16200(a)(8)(e).

Register 90-14 Added §§ 16800 - 16802 as emergency regulations.

Register 90-42 Added §§ 16800 - 16802 again as emergency regulations.

Register 91-12 Repealed emergency regulations §§ 16800 - 16802. Added new §§ 16800 - 16802.

Register 92-13 Amended:

§ 16000, various new definitions

§ 16001: added subsection (a))(1)-(3) and subsection (e) and renumbered former subsection (e) to (f).

§ 16100: amended subsection (b)(2)(B).

§ 16200: amended subsections (a)(1), (a)(3) and (b).

§ 16204: amended subsections (a)(3) and (b).

§ 16205

§ 16302: amended subsection (a).

§ 16500

Added §§ 16002.5, 16003, 16425-16439

Register 96-52 Amended:

§ 16000: Amended the definition of "prevailing rate"; repealed the definition of "predetermined changes".

§ 16001: Amended subsection (b) and (d).

16200: Repealer of subsection (a)(3)(B), subsection lettering, and amendment of newly designated subsections (a)(3)(B), (a)(3)(D), and (a)(3)(F)(3). Amendment of subsection (b).

§ 16204: Amendment of subsection (a)(3), repealer and new subsection (b).

Register 99-08 Pursuant to Sacramento Superior Court Order in Case 97CS00471 the amendments filed in 96-52 were invalidated and the prior regulations were reinstated.

Amended:

§ 16000: Change without regulatory effect restoring definition of "predetermined changes" and repealing amendments to definition of

"prevailing rate."

§ 16001: Change without regulatory effect repealing amendments to subsections (b) and (d) and

§ 16200: Change without regulatory effect repealing amendments in 96-52.

§ 16204: Change without regulatory effect repealing amendments in 96-52.

Added §§ 16410 - 16414 as emergency regulations.

Register 99-25 Repealed emergency regulations for §§ 16410 - 16414 and added new emergency regulations for §§ 16410 - 16414.

Register 99-41 Repealed emergency regulations for §§ 16410 - 16414 and added new emergency regulations for §§ 16410 - 16414.

Register 00-03 Repealed emergency regulations for §§ 16410 - 16414 and added new emergency regulations for §§ 16410 - 16414.

Register 00-18 Added §§ 16410 - 16414. Certificate of Compliance.

Register 02-03 Added new subchapter, §§ 17201 - 17212

Added new article 2, §§ 17220 - 17237

Added new article 3, §§ 17240 - 17253

Added new article 6, §§ 17260 - 17264

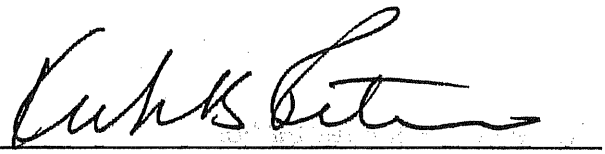
CERTIFICATION

By my signature below, I hereby declare, under penalty of perjury under the laws of the State of California, that the information in this document is true and complete to the best of my own knowledge or information or belief, and that the attached regulations are true and correct copies of documents from archives of a recognized law library.

EXECUTED this 28 day of August 2007, at Sacramento, California



FOR THE TEST CLAIMANT

Keith Petersen, President

SixTen and Associates

ATTACHMENTS

Exhibit A Title 8, CCR Registers

Distributed to COSM mailing list dated 08/01/07

DECLARATION OF SERVICE

Re: Test Claim 01-TC-28
Prevailing Wage Rate
Clovis Unified School District

I declare:

I am employed in the office of SixTen and Associates, which is the appointed representative of the above named claimants. I am 18 years of age or older and not a party to the entitled matter. My business address is 3841 North Freeway Blvd, Suite 170, Sacramento, CA 95834.

On the date indicated below, I served the attached letter dated August 28, 2007, with attachments, to Paula Higashi, Executive Director, Commission on State Mandates, to the Commission mailing list dated 8/01/07 for this test claim, and to:

Paula Higashi, Executive Director
Commission on State Mandates
980 Ninth Street, Suite 300
Sacramento, CA 95814

☒ **U.S. MAIL:** I am familiar with the business practice at SixTen and Associates for the collection and processing of correspondence for mailing with the United States Postal Service. In accordance with that practice, correspondence placed in the internal mail collection system at SixTen and Associates is deposited with the United States Postal Service that same day in the ordinary course of business.

☐ **OTHER SERVICE:** I caused such envelope(s) to be delivered to the office of the addressee(s) listed above by:

(Describe)

☐ **FACSIMILE TRANSMISSION:** On the date below from facsimile machine number (858) 514-8645, I personally transmitted to the above-named person(s) to the facsimile number(s) shown above, pursuant to California Rules of Court 2003-2008. A true copy of the above-described document(s) was(were) transmitted by facsimile transmission and the transmission was reported as complete and without error.

☐ A copy of the transmission report issued by the transmitting machine is attached to this proof of service.

☐ **PERSONAL SERVICE:** By causing a true copy of the above-described document(s) to be hand delivered to the office(s) of the addressee(s).

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct and that this declaration was executed on August 28, 2007, at Sacramento, California.

Jason R. Cale

Attachment to the Supplement dated August 28, 2007
No. CSM. 01-TC -28
As amended July 21, 2003
Prevailing Wage Rate

Title 8, CCR, Register 56-08

§§ 16000 - 16004

§§ 16100 - 16101

§§ 16200 - 16205

expense of the self-insurer, not more frequently than once each calendar year, and the expense incurred in making such examination and audit shall be paid by the self-insurer.

GROUP 3. PAYMENT OF PREVAILING WAGES UPON PUBLIC WORKS

Article 1. Definitions

16000. Person. The term "person" means any individual, partnership, corporation, association, or any local state, regional, national or international labor union, or any other organization, or any agent or officer thereof, authorized to act for and on behalf of any of the foregoing.

NOTE: Authority cited for group 3: Section 1773.5, Labor Code.

History: New group 3 (§§ 16000-16004, 16100-16101 and 16200-16205) filed 4-27-56; effective thirtieth day thereafter (Register 56, No. 8).

16001. Filing. Except where otherwise specifically provided by these Rules, the term "filing" means the deposit in the United States mail, postage prepaid and addressed to the person or agency with whom a paper or document is to be filed, except that in any event any paper or document required or permitted to be filed pursuant to these rules or pursuant to the prevailing wage provisions of the Labor Code, shall be deemed filed upon actual delivery to and receipt by such person or agency.

16002. Nearest Labor Market Area. The term "nearest labor market area" means that geographical area from which workmen of the crafts, classifications, and types to be used in the performance and execution of the public work will be drawn for employment upon such public work.

16003. Prevailing Rate. The term "prevailing rate" means the rate being paid to a majority of workmen engaged in the particular craft, classification or type of work within the locality if a majority of such workmen be paid at a single rate; if there be no single rate being paid to a majority, then the rate being paid the greater number.

16004. Wages. The term "wages" means all compensation of whatever description or form, and however ascertained or calculated, paid by employers to, for or on behalf of the employees.

Article 2. Determination and Publication of Prevailing Wage Rates

16100. Hourly Rates. Whenever there is no daily rate of wages generally prevailing for a given craft, classification or type of work, then the general prevailing rate of wages per hour shall be ascertained by the body awarding the contract or authorizing the public work for such craft, classification or type of work, and in such event the general prevailing rate of per diem wages shall be expressed as an hourly rate and shall be identified accordingly in the call for bids.

16101. Publication of Rates. In specifying wage rates in the published call for bids pursuant to Section 1773 of the Labor Code, the body awarding any contract for public work or otherwise undertaking public work shall directly list, identify and separately state in each published call for bids the prevailing rate of wages for each craft, classification or type of workmen needed to execute the contract.

Article 3. Petitions to Review Prevailing Wage Rate Determinations

16200. Authority Delegated to Labor Commissioner. The Labor Commissioner is the authorized representative of the Director of Industrial Relations for the purpose of acting on petitions filed pursuant to Labor Code Section 1773.4.

16201. Manner of Filing. Every petition pursuant to Section 1773.4 of the Labor Code shall be filed in triplicate with the director by delivery to the Labor Commissioner, 965 Mission Street, San Francisco 3, California. Petitions may be filed in person or by mail. The date of receipt of the petition by the Labor Commissioner shall constitute the date on which the petition is deemed filed.

16202. Form. Every petition or other document filed or served pursuant to these rules shall be printed or written upon good white paper of letter or legal size. The petition or other document, and all copies thereof served or filed, shall be clear and legible and if typewritten, shall be double-spaced, paged at the bottom, and all copies shall conform in all respects to the original petition or document. The petition or document shall be securely bound or stapled. The name, address and telephone of the organization filing the petition, or its attorney if the petition is filed by an attorney shall appear in the upper left-hand corner of the first page of the petition.

16203. Content. Every petition filed pursuant to Section 1773.4 of the Labor Code shall contain and separately state the following:

(a) The name and address of the person filing the petition, together with the name and address of the person verifying the petition if different from the person filing the same.

(b) Whether the petitioner is a prospective bidder or the representative of a prospective bidder, or the representative of one or more crafts, classifications or types of workmen involved in the public work contract, together with a specific designation of the nature of petitioner's business, if he be a prospective bidder, or a designation of each craft, classification or type of workmen represented by him if the petitioner be a representative of one or more crafts, classifications or types of workmen involved in the public works project.

(c) The official name of the awarding body, together with the date on which the call for bids was first published and the name and location of the newspaper in which such publication was made. A true and correct full copy of the call for bids as published shall be attached to the petition.

(d) If petitioner be an awarding body which is a department, board, authority or political subdivision other than a county, city and county, city or township, the awarding body shall describe the parent or principal organization of which it is a part, and shall specify the statutory authority for undertaking public works.

(e) The manner in which the wage rate determination by the awarding body fails to comply with the provisions of Labor Code Section 1773.

(1) Every petition asserting that the applicable prevailing rate for one or more crafts, classifications or types of work needed to execute a contract is different from that ascertained by the awarding body shall set forth the rate the petitioner claims to be correct for each disputed rate, together with specific reference to particular facts providing the basis for such claim. Whenever such facts relate to a particular employer of such craft, classification or type of work, the facts stated must identify the employer by name and address and give the number or approximate number of workers involved.

(2) Every petition asserting that the awarding body has failed to ascertain and consider all applicable rates required to be considered by it shall specifically state in the petition which rates have not been considered by the awarding body.

(3) Where the rates ascertained by the awarding body are the same as the applicable rates established by the collective bargaining agreement and rates of pay determined for federal public works within the locality and the nearest labor market area where the public work is to be performed, the petition shall specifically describe the manner and extent to which such rates do not constitute the rates actually prevailing in the locality where the public work is to be performed, and shall set forth and fully identify the existence of any rates asserted by petitioner to be prevailing in the locality and relied upon in support of the petition.

16204. Failure to Include Copy of Call for Bids. If the petition fails to contain a copy of the call for bids as provided in Section 16203(c), the director may dismiss the petition forthwith or may, if in his judgment good cause is shown, permit the petition to be amended to include such copy.

16205. Filing Copy With Awarding Body. If the petitioner be other than an awarding body, the petitioner may concurrently with the filing of the original petition, or otherwise shall within two days thereafter, file a copy of the petition with the awarding body. Immediately upon the filing of such copy with the awarding body, and not later than five days after the filing of the original petition, the petitioner shall file with the Labor Commissioner an affidavit of the filing with the awarding body.

(Next page is 901)

16101. Publication of Rates. In specifying wage rates in the published call for bids pursuant to Section 1773 of the Labor Code, the body awarding any contract for public work or otherwise undertaking public work shall directly list, identify and separately state in each published call for bids the prevailing rate of wages for each craft, classification or type of workmen needed to execute the contract.

Article 3. Petitions to Review Prevailing Wage Rate Determinations

16200. Authority Delegated to Labor Commissioner. The Labor Commissioner is the authorized representative of the Director of Industrial Relations for the purpose of acting on petitions filed pursuant to Labor Code Section 1773.4.

16201. Manner of Filing. Every petition pursuant to Section 1773.4 of the Labor Code shall be filed in triplicate with the director by delivery to the Labor Commissioner, 965 Mission Street, San Francisco 3, California. Petitions may be filed in person or by mail. The date of receipt of the petition by the Labor Commissioner shall constitute the date on which the petition is deemed filed.

16202. Form. Every petition or other document filed or served pursuant to these rules shall be printed or written upon good white paper of letter or legal size. The petition or other document, and all copies thereof served or filed, shall be clear and legible and if typewritten, shall be double-spaced, paged at the bottom, and all copies shall conform in all respects to the original petition or document. The petition or document shall be securely bound or stapled. The name, address and telephone of the organization filing the petition, or its attorney if the petition is filed by an attorney shall appear in the upper left-hand corner of the first page of the petition.

16203. Content. Every petition filed pursuant to Section 1773.4 of the Labor Code shall contain and separately state the following:

(a) The name and address of the person filing the petition, together with the name and address of the person verifying the petition if different from the person filing the same.

(b) Whether the petitioner is a prospective bidder or the representative of a prospective bidder, or the representative of one or more crafts, classifications or types of workmen involved in the public work contract, together with a specific designation of the nature of petitioner's business, if he be a prospective bidder, or a designation of each craft, classification or type of workmen represented by him if the petitioner be a representative of one or more crafts, classifications or types of workmen involved in the public works project.

(c) The official name of the awarding body, together with the date on which the call for bids was first published and the name and location of the newspaper in which such publication was made. A true and correct full copy of the call for bids as published shall be attached to the petition.

(d) If petitioner be an awarding body which is a department, board, authority or political subdivision other than a county, city and county, city or township, the awarding body shall describe the parent or principal organization of which it is a part, and shall specify the statutory authority for undertaking public works.

(e) The manner in which the wage rate determination by the awarding body fails to comply with the provisions of Labor Code Section 1773.

(1) Every petition asserting that the applicable prevailing rate for one or more crafts, classifications or types of work needed to execute a contract is different from that ascertained by the awarding body shall set forth the rate the petitioner claims to be correct for each disputed rate, together with specific reference to particular facts providing the basis for such claim. Whenever such facts relate to a particular employer of such craft, classification or type of work, the facts stated must identify the employer by name and address and give the number or approximate number of workers involved.

(2) Every petition asserting that the awarding body has failed to ascertain and consider all applicable rates required to be considered by it shall specifically state in the petition which rates have not been considered by the awarding body.

(3) Where the rates ascertained by the awarding body are the same as the applicable rates established by the collective bargaining agreement and rates of pay determined for federal public works within the locality and the nearest labor market area where the public work is to be performed, the petition shall specifically describe the manner and extent to which such rates do not constitute the rates actually prevailing in the locality where the public work is to be performed, and shall set forth and fully identify the existence of any rates asserted by petitioner to be prevailing in the locality and relied upon in support of the petition.

16204. Failure to Include Copy of Call for Bids. If the petition fails to contain a copy of the call for bids as provided in Section 16203(c), the director may dismiss the petition forthwith or may, if in his judgment good cause is shown, permit the petition to be amended to include such copy.

16205. Filing Copy With Awarding Body. If the petitioner be other than an awarding body, the petitioner may concurrently with the filing of the original petition, or otherwise shall within two days thereafter, file a copy of the petition with the awarding body. Immediately upon the filing of such copy with the awarding body, and not later than five days after the filing of the original petition, the petitioner shall file with the Labor Commissioner an affidavit of the filing with the awarding body.

(Register 72, No. 23—6-3-72)

GROUP 4. EMPLOYMENT OF ALIENS NOT ENTITLED TO LAWFUL RESIDENCE

Article 1. Obligation of Employer

16209. Definition of Alien Entitled to Lawful Residence. An alien entitled to lawful residence shall mean any non-citizen of the United States who is in possession of a Form I-151, Alien Registration Receipt Card, or any other document issued by the United States Immigration and Naturalization Service which authorizes him to work.

NOTE: Authority cited: Sections 55 and 59, Labor Code. Reference: Section 2805, Labor Code.

History: 1. New Group 4 (§§16209, 16209.1–16209.6) filed 3-24-72 as an emergency; effective upon filing (Register 72, No. 13).
2. Certificate of Compliance filed 6-2-72 (Register 72, No. 23).

16209.1. Inquiry of Applicant for Employment. In ascertaining whether an applicant for employment is not entitled to lawful residence in the United States, an employer shall, contemporaneous with the hiring, make inquiry of such applicant as to whether he is a citizen or an alien.

16209.2. Inquiry of Employee. In ascertaining whether an employee is not entitled to lawful residence in the United States, an employer shall make inquiry of such employee as to whether he is a citizen or an alien.

16209.3. Applicant or Employee Citizen. If the applicant for employment or employee claims to be a citizen, he may be employed or continued in the employ of the employer upon signing a declaration under penalty of perjury that he is a citizen of the United States. An employer who knowingly employs an alien not entitled to lawful residence shall not be exonerated from prosecution for violation of Labor Code Section 2805 notwithstanding his having obtained a signed declaration of citizenship from the alien.

16209.4. Applicant Alien—Requirement of Proof. If the applicant acknowledges that he is an alien, he shall be requested to produce a document which shows that the applicant is entitled to lawful residence in the United States. A document such as specified in Section 16209 shall be sufficient proof of lawful resident status. The applicant shall furnish such documentation within three days from the date of employment. In the event that he fails to furnish such documentation and employment is nevertheless continued and he is found to be an unlawful resident, the employer shall be presumed to have had knowledge of the employee's unlawful resident status.

16209.5. Employee Alien—Requirement of Proof. If the employee acknowledges that he is an alien, he shall be requested to produce a document which shows that he is entitled to reside in the United States. A document such as specified in Section 16209 shall be sufficient proof of lawful resident status. The employee shall furnish such documentation within three days. In the event that he fails to furnish

such documentation and employment is nevertheless continued and he is found to be an unlawful resident, the employer shall be presumed to have had knowledge of the employee's unlawful resident status.

16209.6. Definition of Adverse Effect. Employment of an alien not entitled to lawful residence under any of the following circumstances shall be deemed to have an adverse effect on lawful resident workers:

(a) Employment in any category of employment not enumerated on Schedule A in Labor Department Regulations 29 CFR § 60.7. Schedule A may be obtained from the Manpower Administration, U.S. Department of Labor, Washington, D.C.

(b) Payment by an employer to such employee of less than the federal or state minimum wage, whichever is higher.

History: 1. Amendment to subsection (a) filed 4-13-72 as procedural and organizational; effective upon filing (Register 72, No. 16).
2. Certificate of compliance filed 6-2-72 (Register 72, No. 23).

(Next page is 901)

Title 8, CCR, Register 77-02

§§ 16000 - 16013

§§ 16100 - 16109

§§ 16200 - 16206

§§ 16300 - 16305

GROUP 3. PAYMENT OF PREVAILING WAGES UPON PUBLIC WORKS

Article 1. Definitions

16000. Director. The term "Director" means the Director of the Department of Industrial Relations or a duly authorized representative.

NOTE: Authority cited for Group 3: Sections 54 and 1773.5, Labor Code. Reference: Sections 1770–1773.8, Labor Code.

History: 1. Repealer of Group 3, (Articles 1–3, Sections 16000–16004, 16100–16101 and 16200–16205) and new Group 3 (Articles 1–4, Sections 16000–16013, 16100–16109, 16200–16206 and 16300–16305) filed 1-3-77 as an emergency; effective upon filing (Register 77, No. 2). For prior history, see Register 56, No. 8.

16001. Division. The term "Division" means the Division of Labor Statistics and Research within the Department of Industrial Relations.

16002. Chief. The term "Chief" means the Chief of the Division of Labor Statistics and Research or a duly authorized representative, within the Department of Industrial Relations.

16003. Person. The term "person" means any individual, partnership, corporation, association, or any local, state, regional, national or international organization, public or private, or any awarding body, or any agent or officer thereof, authorized to act for or on behalf of any of the foregoing.

16004. Public Works. The term "public works" as used in these regulations shall be as defined in Sections 1720, 1720.2 and 1720.3 of the Labor Code.

16005. Political Subdivision. The term "political subdivision" includes any county, city, district, township, public housing authority, or public agency of the State, and assessment or improvement districts.

16006. Awarding Body. The term "awarding body" means any state or local governmental agency, department, board, commission, bureau, district, office, authority, political subdivision, officer or agent awarding a contract for public work.

16007. Filing. Where any paper, letter, petition, or document is required or permitted to be filed pursuant to these rules or pursuant to the prevailing wage provisions of the Labor Code, it shall be deemed filed with any person, awarding body, or the Division upon actual delivery to and receipt by such person, awarding body, or the Division.

16008. Nearest Labor Market Area. The term "nearest labor market area", for the purpose of following the procedures specified in Section 1773 of the Labor Code, means the nearest geographical area from which workers of the crafts, classifications, and types to be used in the performance and execution of the public work can be drawn for employment upon such public work.

16009. Locality. "Locality" or "locality in which public work is performed" means the county in which the public work is done in cases in which the contract is awarded by the State, and means the limits of the political subdivision on whose behalf the contract is awarded in other cases.

16010. Employer Payments. The term "employer payments" includes:

(a) The rate of contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a fund, plan, or program for the benefit of employees, their families and dependents, or retirees.

(b) The rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing benefits to employees, their families and dependents, or to retirees pursuant to an enforceable commitment or agreement to carry out a financially responsible plan or program which was communicated in writing to the workers affected.

16011. Prevailing Rate. The term "prevailing rate" shall have the following meaning:

(a) When applied to the basic hourly rate of pay, the term means the rate being paid to a majority of workers engaged in the particular craft, classification or type of work within the locality and in the nearest labor market area, if a majority of such workers be paid at a single rate; if there be no single rate being paid to a majority, then the single rate being paid the greater number.

(b) When applied to other employer payments included in per diem wages pursuant to Section 1773.1 of the Labor Code and enumerated in Section 16012, (3), below, the term means, for each such type of payment, the single rate of contribution or cost being paid to or for the greater number of workers in the particular craft, classification or type of work who are paid the prevailing basic hourly rate of pay as defined in Section 16011(a), above.

(c) When applied to the rate for holiday or overtime work, the term means the single rate paid to or for the greater number of workers in the particular craft, classification or type of work who are paid the prevailing basic hourly rate of pay as defined in Section 16011(a), above.

16012. General Prevailing Rate of Per Diem Wages. (a) The term "general prevailing rate of per diem wages", and similar terms descriptive of determinations made by the Director pursuant to Sections 1773, 1773.1 and 1773.8 of the Labor Code and these rules and regulations, includes:

(1) the prevailing basic straight-time hourly rate of pay; and

(2) the prevailing rate for holiday and overtime work; and

(3) the prevailing rate of employer payments for any or all programs or benefits for employees, their families and dependents, and retirees which are of the types enumerated below:

(A) medical and hospital care, prescription drugs, dental care, vision care, diagnostic services, and other health and welfare benefits;

(B) retirement plan benefits;

(C) vacations and holidays with pay, or cash payments in lieu thereof;

(D) compensation for injuries or illnesses resulting from occupational activity;

(E) life, accidental death and dismemberment, and disability or sickness and accident insurance;

(F) supplemental unemployment benefits;

(G) thrift, security savings, supplemental trust, and beneficial trust funds otherwise designated, provided all of the money except that used for reasonable administrative expenses is returned to the employees;

(H) occupational health and safety research, safety training, monitoring job hazards, and the like;

(I) apprenticeship or other training programs authorized by Section 3093 of the Labor Code;

(J) other bona fide benefits for employees, their families and dependents, or retirees as the Director may determine; and

(4) travel time and subsistence pay as provided for in Labor Code Section 1773.8.

(b) *Provided,* that the term "general prevailing rate of per diem wages" does not include any employer payments for:

(1) job related expenses other than travel time and subsistence pay;

(2) contract administration, operation of hiring halls, grievance processing, or similar purposes except for those amounts specifically earmarked and actually used for administration of those types of employee or retiree benefit plans enumerated above in Section 16012;

(3) union, organizational, professional or other dues except as they may be included in and withheld from the basic hourly wage rate;

(4) industry or trade promotion;

(5) political contributions or activities;

(6) any benefit for employees, their families and dependents, or retirees, including any benefit enumerated above in Section 16012(3), where the contractor or subcontractor is required by Federal, State, or local law to provide such benefit;

(7) such other payments as the Director may determine to exclude.

16013. Interested Party. Except where otherwise specifically provided by these rules and regulations, the term "interested party" means, when used with reference to a particular prevailing wage determination made by the Director,

(1) Any contractor or subcontractor, or any organization, association, or other representative of any contractor or subcontractor likely to bid on or to perform a contract for public work which is subject to the particular prevailing wage determination, and/or

(2) Any worker in the particular craft, classification, or type of work, who may be employed on a public work project subject to the particular prevailing wage determination, or any labor organization or other representative of such a person, including the recognized collective bargaining representative for the particular craft, classification, or type of work, and/or

(3) Any awarding body concerned with the administration of a public works contract or proposed contract, which is subject to the particular prevailing wage determination.

Article 2. Determination of General Prevailing Rate of Per Diem Wages. Requesting and Publishing Determinations

16100. Recognized Crafts. The determinations of the Director will be limited to those crafts, classifications or types of workers employed in public works pursuant to Sections 1720, 1720.2 and 1720.3 of the Labor Code.

16101. Form of Expression. (a) All determinations made by the Director of the general prevailing rate of per diem wages for a particular craft, classification, or type of worker will separately specify each of the following components:

(1) The prevailing basic straight-time hourly wage rate.

(2) The formula or method for calculating the prevailing hourly wage rate for overtime and holiday work and determining the hours of work for which overtime is paid.

(3) The following statement when applicable: "In accordance with Labor Code Section 1773, holidays upon which the prevailing hourly wage rate for holiday work shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of worker employed on the project, which is on file with the Director of Industrial Relations."

(4) The prevailing employer payments for benefits included in the general prevailing rate of per diem wages pursuant to Section 1773.1 of the Labor Code and enumerated in Section 16012, (3), of these rules and regulations.

(5) The following statement when applicable: "The contractor shall make travel and subsistence payments to each worker needed to execute the work, as such travel and subsistence payments are defined in the applicable collective bargaining agreements filed with the Director of Industrial Relations in accordance with Labor Code Section 1773.8".

(b) Where the prevailing employer payment for any benefit is expressed in a formula or method of payment other than an hourly rate the Director may (1) express the rate in the determination by specifying the formula or method used or (2) convert the rate to an hourly rate whenever such action would facilitate the administration of the law.

(c) As a supplement to each determination the Director will make available to any awarding body upon request, a list of all holidays recognized and the provision for travel and subsistence payments, taken from the applicable collective bargaining agreement.

16102. Method of Determination. The Director shall follow those procedures specified in Section 1773 of the Labor Code and in these rules and regulations when making prevailing wage determinations.

16103. Collective Bargaining Agreements. Filing. (a) To enable the Director to ascertain and consider the applicable wage rates established by collective bargaining agreements when making prevailing wage determinations, the representatives of any crafts, classifications, or types of workers needed to execute any public works contracts shall file with the Department of Industrial Relations fully executed copies of all of their collective bargaining agreements including any addenda which modify the agreements, as soon as practicable after their execution.

(b) Copies of collective bargaining agreements filed with the Department of Industrial Relations pursuant to Sections 1773.1 and 1773.8 of the Labor Code and Section 16103, (a), of these rules and regulations shall be filed with and addressed to: Chief, Division of Labor Statistics and Research, P. O. Box 603, San Francisco, CA 94101.

(c) Collective bargaining agreements filed with the Division must be accompanied by a signed statement which is certified as true and correct to the best of the knowledge and belief of the person preparing the statement, under penalty of perjury, and which:

(1) certifies that the agreement filed is fully executed and in effect, unless it is a signed original agreement or a photocopy thereof, or a printed copy of a fully executed agreement showing the names of signatory parties, except in the case of a printed agreement the Director may require certification.

(2) names or otherwise identifies all California counties within the jurisdiction of the local union or unions signatory to the agreement and provides any maps or additional information that may be needed to determine its precise geographic scope, if this is not clearly specified in the agreement;

(3) names and provides the address of the signatory employer association or, if there be no signatory employer association, provides the names and addresses of all contractors signatory to the agreement, unless such information is contained in the agreement;

(4) provides an estimate of the approximate number of workers currently employed under the terms of the agreement in California and, if practicable, in each county within the jurisdiction of the signatory local union or unions;

(5) provides any other information not contained in the agreement that the Director may need to give proper consideration to applicable wage rates established by collective bargaining.

16104. Consideration of Other Data. Pursuant to Section 1773 of the Labor Code, the Director may also obtain and consider further data from interested parties, and will give consideration to data submitted by any interested party, concerning the rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area. Such data may be obtained by holding a hearing, instituting an investigation, or by such other means as the Director determines will best serve the purposes of the law. Information submitted by interested parties for the Director's consideration shall include but not be limited to the following for each project:

(a) The name, address, and telephone number of the interested party submitting the information and the basis for qualification as an interested party under Section 16013;

(b) The basic hourly wage rate, overtime and holiday pay rates, and employer payments as enumerated in Section 16012 of these rules and regulations for each classification in question as effective for the last payroll period, or most recent payroll period, for which payments based on such rates were actually made;

(c) The number of workers employed on the project in each classification in question during the payroll period for which data is submitted;

(d) The location of the project;

(e) The name and address of the contractor or subcontractor making the payments, and of all other contractors or subcontractors on the project;

(f) The type of construction (e.g. residential, commercial building, etc.);

(g) The approximate cost of construction;

(h) The beginning date and completion date, or estimated completion date, of the project;

(i) The source of data (e.g. "payroll records");

(j) The method of selection of the projects for which data is submitted, when data is not submitted for all projects recently completed or in progress in the locality or in the nearest labor market area.

16105. Collective Bargaining Agreements. Adoption. (a) If the Director determines pursuant to Section 1773 of the Labor Code that the rate established by a collective bargaining agreement is the general prevailing rate of per diem wages for any craft, classification or type of worker and the Director adopts such rate by referral, the Director will publish such rate in the form prescribed by these rules and regulations. Only those rates and employer payments specifically enumerated in Section 16012 of these rules and regulations shall be included in the rate adopted.

(b) When such rate is adopted, and in the case where the collective bargaining agreement contains definite and predetermined changes during its term which will affect the rate adopted, the Director will incorporate such changes in the determination.

(c) When such rate is adopted, and in the case where the collective bargaining agreement contains changes during its term which will affect the rate adopted, which are not definite or predetermined, the changes shall not be adopted. The determination of the Director will remain in effect until a new determination is issued. Any interested party may request that the Director make a new determination when said changes become definite and determined. A statement must be filed in the same manner as collective bargaining agreements are filed under Section 16103 of these rules and regulations. The statement must summarize the amounts and effective dates of any cost-of-living adjustments, allocations of interim wage increases to wages and employer payments, and other relevant changes which will affect the rate adopted by the Director. The statement must be signed by an officer or agent of the bargaining representative and certified, under penalty of perjury, as true and correct to the best of his or her knowledge and belief.

16106. Errors. Corrections. Upon his or her own initiative or at the request of any interested party, the Director shall correct any error in a published determination that is the result of clerical error, such as a typographical error or a transposition of letters or digits, by issuing a corrected determination or a modification of the determination.

16107. Requesting Determinations. (a) When the Director determines that the general prevailing rate of per diem wages for a particular craft, classification, or type of worker is uniform throughout a large geographic area, the Director will issue an "area" determination based on that agreement. Area determinations will ordinarily be made for an entire county or group of counties and shall constitute the Director's determination for all localities in which public work is performed within that county or counties except as the geographic application of the determination may be specifically limited by the determination itself.

(b) An awarding body may request the Director to make a determination for particular crafts, classifications, or types of workers for which an area determination has not been made or issued, or has expired.

(c) Any awarding body may request to be put on a mailing list for all area wage determinations for a specific county or counties or may request that a prevailing wage determination be furnished when needed, by writing to Chief, Division of Labor Statistics and Research, P.O. Box 603, San Francisco, CA 94101. All requests for prevailing wage determinations must be in writing and must specify the location where the public work is to be performed, including the county, and the particular crafts, classifications, or types of workers for which a determination is needed.

16108. Effective Dates of Determinations. Area determinations issued by the Director will ordinarily show an issue date and an expiration date and will be effective until that expiration date, unless earlier modified, corrected, rescinded, or superseded by the Director; other determinations made on request will show an issue date but may not show an expiration date; *provided;* that determinations modified, corrected, rescinded, or superseded on the basis of information contained in copies of collective bargaining agreements filed with the Department shall not be effective as to any project in which the call for bids takes place less than 30 days after the filing of the agreement (see Section 1773.1 of the Labor Code).

16109. Publication of Prevailing Rates by Awarding Bodies. To the extent that an awarding body is required to specify the general prevailing rate of per diem wages in the published call for bids, in the bid specifications, and in the contract itself, pursuant to Section 1773.2 of the Labor Code, the rates as determined by the Director for each craft, classification, or type of worker needed to execute the contract, and in the form of expression adopted by the Director, shall be used. In lieu of specifying the rates in the call for bids, the bid specifications, and the contract, the awarding body may, pursuant to Section 1773.2 refer to copies of the applicable determinations of the Director on file at its principal office.

Article 3. Delegation of Authority: Petition to Review

16200. Delegation of Authority. Chief, Division of Labor Statistics and Research. (a) The Chief of the Division of Labor Statistics and Research is the authorized representative of the Director for the purpose of receiving collective bargaining agreements, petitions, and other documents and papers pertinent to making prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these rules and regulations.

(b) The Chief is the authorized representative of the Director for the purpose of gathering information needed to make prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code or these rules and regulations, and may for that purpose institute investigations, conduct hearings, or employ such other means as shall best serve the purposes of the law.

(c) The Chief is the authorized representative of the Director for the purpose of responding to petitions to review determinations filed pursuant to Section 1773.4 of the Labor Code.

(d) All final determinations shall be made by the Director.

16201. Petition to Review. Those interested parties enumerated in Section 1773.4 of the Labor Code may file with the Chief, within 20 days after commencement of advertising of a call for bids by any awarding body, a petition to review a determination of any rate or rates made by the Director, pursuant to Section 1773 of the Labor Code, which is specified in or referred to in the call for bids.

16202. Manner of Filing. Petition to Review. Every petition filed pursuant to Section 1773.4 of the Labor Code shall be filed in triplicate with the Director by delivery to the Chief, Division of Labor Statistics and Research, P.O. Box 603, San Francisco, CA 94101. Petitions may be filed in person or by mail.

16203. Form. Every petition or other document filed or served pursuant to Section 1773.4 of the Labor Code and Article 3 of these rules and regulations shall be printed or written upon good white paper of letter size (8½ × 11), except as such is a copy of a prior executed petition, document, letter or paper. The petition or other document, and all copies thereof served or filed, shall be clear and legible and if typewritten, shall be double-spaced, paged at the bottom, and all copies shall conform in all respects to the original petition or document. Where attachments are referred to and used, they must be noted, attached and identified properly. The petition or document shall be securely bound or stapled. The name, address and telephone number of the person filing the petition or other document, letter or paper, or of the attorney representing the person, shall appear in the upper left-hand corner of the first page of said item. The signature of the person verifying said item shall appear in the lower right-hand corner of the last page.

16204. Content. Petition to Review. Every petition filed pursuant to Section 1773.4 of the Labor Code shall contain and separately state the following:

(a) The name, address, and telephone number of the person filing the petition, together with the name, address and telephone number of the person verifying the petition, if different from the person filing the same.

(b) Whether the petitioner is an awarding body, or a prospective bidder or the representative of a prospective bidder, or the representative of one or more crafts, classifications or types of workers involved in the public work contract together with a specific designation of the nature of petitioner's business, if a prospective bidder, or a designation of each craft, classification or type of worker represented, if the petitioner be a representative of one or more crafts, classifications or types of workers involved in the public works project.

(c) The official name of the awarding body, together with the date on which the call for bids was first published and the name and location of the newspaper in which such publication was made. A true and correct full copy of the call for bids as published shall be attached to the petition.

(d) If petitioner be an awarding body which is a department, board, authority or political subdivision other than a county, city and county, city or township, the awarding body shall describe the parent or principal organization of which it is a part, and shall specify the statutory authority for undertaking public works.

(e) The manner in which the wage rate determination by the director fails to comply with the provisions of Labor Code Section 1773.

(1) Every petition asserting that the applicable prevailing rate for one or more crafts, classifications or types of workers needed to execute a contract is different from that ascertained by the Director shall set forth the rate the petitioner claims to be correct for each disputed rate, together with specific reference to particular facts providing the basis for such claim.

(A) Whenever such facts relate to a particular employer of such crafts, classifications or types of workers, the facts stated must identify the employer by name and address and give the number or approximate number of workers involved.

(B) Whenever such facts relate to an applicable collective bargaining agreement which the petitioner alleges was not considered by the Director pursuant to Section 1773 of the Labor Code, a copy of the agreement, if not already filed with the Director, should be filed concurrently with the petition in the manner provided in Section 16103 of these rules and regulations.

(C) Whenever such facts relate to rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area, the facts stated should include all of the items of information enumerated in Section 16105 of these rules and regulations.

(2) Every petition asserting that the Director has failed to ascertain and consider all applicable rates required to be considered by it shall specifically state in the petition which rates have not been considered by the Director.

(3) Where the rates ascertained by the Director are the same as the applicable rates established by the collective bargaining agreement and rates of pay determined for federal public works within the locality and the nearest labor market area where the public work is to be performed, the petition shall specifically describe the manner and extent to which such rates do not constitute the rates actually prevailing in the locality where the public work is to be performed, and shall set forth and fully identify the existence of any rates asserted by petitioner to be prevailing in the locality and relied upon in support of the petition.

16205. Failure to Include Copy of Call for Bids. If the petition fails to contain a copy of the call for bids as provided in Section 16204(c), the Director may dismiss the petition forthwith or may, if good cause is shown, permit the petition to be amended to include such copy.

16206. Filing Copy With Awarding Body. If the petitioner be other than an awarding body, the petitioner may concurrently with the filing of the original petition, or otherwise shall within two days thereafter, file a copy of the petition with the awarding body. Immediately upon the filing of such copy with the awarding body, and not later than five days after the filing of the original petition, the petitioner shall file with the Chief an affidavit of the filing with the awarding body.

Article 4. Hearing Procedures, Decision, Miscellaneous

16300. Director's Discretion to Act. The Director may in his or her discretion initiate an investigation or hold a hearing or take such other action as is reasonably necessary which would best effectuate the purposes of the law and of these rules and regulations, except as such action may be expressly prohibited by the law.

16301. Director's Choice of Action. In any matter or proceeding under these regulations, whether it be on the initiative of the Director, petition, or request by an interested party the Director shall take those actions he or she deems necessary in the best interest of the law and these regulations except as may be specifically provided otherwise by the law or these regulations.

16302. Hearings. When a hearing is held, it shall be in accordance with the following procedures:

(a) A time and place of the hearing shall be fixed.

(b) All interested parties made known to the Director shall be notified by registered or certified mail, return receipt requested, of the time and place of the hearing.

(c) Notification shall be at least one week in advance.

(d) The interested parties shall be given an opportunity to present evidence and oral or written arguments in support of their positions.

(e) The hearing need not be conducted according to technical rules relating to evidence and witnesses.

(f) All witnesses testifying before the hearing officer shall testify under oath.

(g) A full transcript of the hearing shall be recorded.

16303. Hearing Officer. Decision. (a) The appointed hearing officer shall conduct the hearing and submit to the Director the entire record of the hearing together with written recommendations.

(b) The decisions of the Director shall reflect a summary of the evidence, findings, or matters of fact and or law.

(c) The decision shall be sent, by certified or registered mail with return receipt requested, to all parties no later than 20 days after the hearing, except as may be earlier required in a Petition to Review pursuant to Section 1773.4 of the Labor Code.

(d) The decision of the Director shall be final, for the purposes of judicial review, except that the Director upon his or her initiative only, may reconsider and take whatever action is appropriate or necessary to facilitate a decision on reconsideration. Notice of reconsideration shall be given all parties in the same manner as the notice of hearings as specified in Sections 16302, (b), (c), and (d) above and the decision upon reconsideration shall be as specified in (b), and (c) of this Section.

16304. Public Hearings. The hearing procedures enumerated in Sections 16302 and 16303, above, shall in no way be construed to affect the responsibilities or procedures pursuant to Title 2, Division 3, Part 1, Chapter 4.5 of the Government Code (commencing with Section 11371).

16305. Severability. If any provision of these regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these regulations which can be given effect without the invalid provision or application, and to this end the provisions of these regulations are severable.

GROUP 5. DEPARTMENT OF INDUSTRIAL RELATIONS— CONFLICT OF INTEREST CODE

Article 1. General Provisions

17000. Purposes. The Political Reform Act of 1974, Government Code Section 81000 *et seq.*, seeks to ensure that public employees will perform their duties in an impartial manner free from bias caused by their personal financial interests.

To achieve this goal the Act requires that the Department of Industrial Relations, as a state agency, adopt and promulgate a Conflict of Interest Code applicable to public employees within the Department and its related boards, commissions, and agencies, and that the Department's Code require:

(1) That employees disclose their assets and income which may be materially affected by their official actions; and

(2) That employees be disqualified from acting, in appropriate circumstances, to avoid conflicts of interest.

To accomplish the goals and satisfy the requirements of the Political Reform Act of 1974, to maintain the integrity of and public trust in the employees of the Department of Industrial Relations, and to assure that the Department enforces the laws with which it is charged in a uniform and adequate manner, the Department of Industrial Relations hereby adopts and promulgates the following Conflict of Interest Code.

This Code has the force of law. Any violation of the Code by a designated employee may subject the employee to the sanctions provided by law. These sanctions may include dismissal, criminal conviction leading to incarceration and fine, and civil penalties. See Government Code section 91000 *et seq.* and Article 6 of this Code. Nothing in this Code shall exempt compliance from applicable provisions of any statute or Section 5.25 of the Policy and Procedural Manual of the Department of Industrial Relations (Incompatible Activities).

NOTE: Authority cited: Section 87311, Government Code. Reference: Section 87300, *et seq.*, Government Code.

History: 1. New Group 5 (Articles 1–7, Sections 17000–17800, not consecutive) filed 12-2-77; effective thirtieth day thereafter. Approved by the Fair Political Practices Commission 1-19-77 (Register 77, No. 49).

17100. General Prohibition. No employee of the Department shall make, participate in making, or in any way attempt to use his or her official position to influence a departmental decision if the employee knows, or has reason to know that it is reasonably foreseeable that the decision will have a material financial effect, distinguishable from its effect on the public generally, on a financial interest of the employee.

Article 2. Designation of Employees and Their Financial Disclosure Requirements

(Office of the Director)

17200. Designated Employees. Persons holding the following positions within the Office of the Director of the Department of Industrial Relations are designated employees and must file financial disclosure statements pursuant to this Code:

(a) Director, Chief Deputy Director, Deputy Director, all legal classes, Senior Management Analyst

(b) Special consultant, Staff Services Manager III, (Fiscal Officer), Associate Budget Analyst, Business Service Officer III, I, Accounting Technician (procurement).

17201. Section 17200(a) Reporting Requirements. Employees designated in Section 17200(a) shall report, in the manner specified in Article 3 of this Code, all their investments in business entities and their sources of income doing business in the State of California.

17202. Section 17200(b) Reporting Requirements. Employees designated in Section 17200(b) shall report, in the manner specified in Article 3 of this Code, investments in and income from any business entity which they know or have reason to know has within the preceding two years contracted, or plans to contract, with the Department of Industrial Relations to provide services, supplies, materials or machinery of any type to the Department.

(Labor Standards and Industrial Welfare)

17210. Designated Employees. Persons holding the following positions within the Division of Labor Standards Enforcement and Industrial Welfare Commission are designated employees and must file financial disclosure statements pursuant to this Code:

(a) Chief, Deputy Chief, Assistant Chief, Staff Counsel I, II, and III, Legal Counsel;

(b) Deputy Labor Commissioner II, III, and IV and Senior Special Investigator;

(c) Chairman, Commissioner, Executive Secretary, of Industrial Welfare Commission;

(d) Public member, wage board (Industrial Welfare Commission).

17211. Section 17210(a) Reporting Requirements. Employees designated in Sec. 17210(a) shall report, in the manner specified in Article 3 of this Code, any investment in business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by or has within the preceding 2 years contracted or plans to contract with the Division of Labor Standards Enforcement.

17212. Section 17210(b) Reporting Requirements. Employees designated in Sec. 17210(b) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Labor Standards Enforcement within the geographic area over which they exercise jurisdiction.

17213. Section 17210(c) Reporting Rquirements. Employees designated in Sec. 17210(c) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Industrial Welfare Commission.

17214. Section 17210(d) Reporting Requirements. The public member of each wage board shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that he or she knows or has reason to know is directly and materially subject to regulation by the Industrial Welfare Commission based on consideration of the recommendations of the wage board to which the public members belongs.

(Industrial Accidents and Workers' Compensation)

17220. Designated Employees. Persons holding the following positions within the Division of Industrial Accidents, the Workers' Compensation Appeals Board, and the office of the Manager, Self-Insurance Plans, are designated employees and must file financial disclosure statements pursuant to this Code:

(a) Administrative Director, Assistant Chief, Medical Director, Chief of Permanent Disability Rating Bureau, Chief, Rehabilitation Bureau, Permanent Disability Rating Specialist, (assigned to Benefit Notice Unit);

(b) District Medical Director, Medical Examiner, P.D.R. Area Supervisor, P.D.R. Specialist, Information Attorney, Referee WCAB, Referee-In-Charge WCAB (also known as Worker Compensation Judge and Presiding Worker Compensation Judge);

(c) Staff Services Manager, Administrative Assistant;

(d) Chairman, Commissioner, Secretary and Deputy Commissioner, Deputy Commissioner, Special Counsel, Staff Counsel;

(e) Program Manager, Consultant, and Field Representative of office of Self-Insurance Plans.

17221. Section 17220(a) Reporting Requirements. Employees designated in Sec. 17220(a) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that and they know or have reasons to know (1) is directly subject to regulation by the Division of Industrial Accidents; (2) engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business or (3) has within the preceding 2 years contracted or plans to contract with the Division of Industrial Accidents.

17222. Section 17220(b) Reporting Requirements. Employees designated in Section 17220(b) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that and they know or have reasons to know (1) is directly subject to regulation by the Division of Industrial Accidents; (2) engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business or (3) has within the preceding 2 years contracted or plans to contract with the Division of Industrial Accidents, *to the extent that* the business entity or source of income is subject to such regulation or engages in or derives its incomes from such insurance business within the geographic area over which the employee exercises jurisdiction. Workers' compensation judges perform judicial functions are also subject to the provisions of the California Code of Judicial Conduct.

17223. *Section 17220(c) Reporting Requirements. Employees designated in Section 17220(c) shall report, in the manner specified in* Article 3 of this Code, investments in and income from any business entity which they know or have reason to know has within the preceding 2 years contracted, or plans to contract, with the Division of Industrial Accidents to provide services, supplies, materials or machinery of any type to the Division, or has so contracted or plans to contract with the Department to serve the Division in said manner.

17224. Section 17220(d) Reporting. Employees designated in Section 17220(d) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that and they know or have reasons to know (1) is directly subject to regulation by the Division of Industrial Accidents; (2) engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business or (3) has within the preceding 2 years contracted or plans to contract with the Division of Industrial Accidents.

17225. Section 17220(e) Reporting Requirements. Employees designated in Section 17220(e) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is a Self-Insurer for purposes of workers' compensation liability, has applied in the last two years or plans to apply for self-insurer status, or engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business or the administration or operation of self-insurance plans.

(Industrial Safety)

17230. Designated Employees. Persons holding the following positions within the Division of Industrial Safety are designated employees and must file financial disclosure statements pursuant to this Code:

(a) Chief, Deputy Chief, Assistant Chief for Consulting Education and Research, Administrative Assistant, Staff Services Manager;

(b) Staff Counsel (I, II, III), Senior Special Investigator, Special Investigator, Administrative Chief of Bureau of Investigation;
(c) Assistant Chief, Regional Manager, District Manager;
(d) Principal Engineer;
(e) Senior Safety Engineer, Safety Engineer, Senior Health Physicist, Associate Health Physicist.

17231. Section 17230(a) Reporting Requirements. Employees designated in Sec. 17230(a) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety or has within the preceding two years contracted or plans to contract with the Division of Industrial Safety.

17232. Section 17230(b) Reporting Requirements. Employees designated in Sec. 17230(b) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety.

17233. Section 17230(c) Reporting Requirements. Employees designated in Sec. 17230(c) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety within the geographic area over which they exercise jurisdiction.

17234. Section 17230(d) Reporting Requirements. Employees designated in Sec. 17230(d) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety within the subject matter area over which they exercise jurisdiction.

17235. Section 17230(e) Reporting Requirements. Employees designated in Sec. 17230(e) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety within the subject matter and geographic area over which they exercise jurisdiction.

(Occupational Safety and Health)

17240. Designated Employees. Persons holding the following positions within the Occupational Safety and Health Standards Board, the Occupational Safety and Health Appeals Board, and the Occupational Safety and Health Administrative Unit are designated employees and must file financial disclosure statements pursuant to this Code:

(a) Standards Board: Chairman and members of the Board, Executive Officer, Senior Safety Engineer, Staff Services Analyst;
(b) Appeals Board: Chairman and members of the Board, Executive Officer, Staff Counsel I, II, and III, Administrative Law Judge (Presiding, I, II), Forensic Engineer;
(c) Administrative Unit: Program manager, assistant program manager, senior research analyst, senior safety engineer.

17241. Section 17240 Reporting Requirements. Employees designated in Sec. 17240 shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Board or Unit for which they work.

(Apprenticeship)

17250. Designated Employees. Persons holding the following positions within the California Apprenticeship Council and the Division of Apprenticeship Standards are designated employees and must file financial disclosure statements pursuant to this Code:
(a) Chief, Chief Deputy, Assistant Chief, Special Assistant to Chief;
(b) Intergroup Relations Coordinator, Area Administrator, Senior Consultant;
(c) Staff Services Manager.

17251. Section 17250(a) Reporting Requirements. Employees designated in Sec. 17250(a) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Apprenticeship Standards or has within the preceding two years contracted or plans to contract with the Division of Apprenticeship Standards.

17252. Section 17250(b) Reporting Requirements. Employees designated in Sec. 17250(b) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Apprenticeship Standards within the geographic area over which they exercise jurisdiction.

17253. Section 17250(c) Reporting Requirements. The Staff Services Manager shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that she or he knows or has reason to know has within the preceding two years contracted, or plans to contract, with the Division of Apprenticeship Standards to provide services, supplies, materials or machinery of any type to the Division, or has so contracted or plans to contract with the Department to so serve the Division.

(Labor Statistics and Research)

17260. Designated Employees. Persons holding the following positions within the Division of Labor Statistics and Research are designated employees and must file financial disclosure statements pursuant to this Code:

(a) Chief, Assistant Chief, Senior Research Analyst (Industrial Relations Research);

(b) Data Processing Manager, Associate Systems Analyst, Associate Programmer Analyst.

17261. Section 17260(a) Reporting Requirements. The Division Chief shall report, in the manner specified in Article 3 of this Code, any investments in a business entity and any source of income that she or he knows or has reason to know is directly and materially subject to regulation by the Department of Industrial Relations, engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business, or has within the preceding two years contracted or plans to contract with the Division of Labor Statistics and Research.

17262. Section 17260(b) Reporting Requirements. Employees designated in Sec. 17260(b) shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reasons to know has within the preceding two years contracted or plans to contract with the Division of Labor Statistics and Research to provide services, supplies, materials, or machinery or any type for purposes of data processing, reproduction, or microfilming, to the Division, or has so contracted or plans to contract with the Department to so serve the Division.

(Conciliation)

17270. Designated Employees. Persons holding the following positions within the State Conciliation Service are designated employees and must file financial disclosure statements pursuant to this Code: Supervisor of Conciliation, Conciliator.

17271. Section 17270 Reporting Requirements. Employees designated in Sec. 17270 shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know engages in or derives its income from, in whole or in part, a Transit District subject to the jurisdiction of the State Conciliation Service.

(Fair Employment Practices)

17280. Designated Employees. Persons holding the following positions within the Fair Employment Practices Commission and the Division of Fair Employment Practices are designated employees and must file financial disclosure statements pursuant to this Code:

Chairman and Members of Commission, Legal Affairs Officer (Commission), Chief, Assistant Chief, All Legal Classes.

17281. Section 17280 Reporting Requirements. Employees designated in Sec. 17280 shall report, in the manner specified in Article 3 of this Code, any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Fair Employment Practices Commission.

(New Positions)

17299. Designation of New Positions. It is expressly recognized that new employment positions will be created from time to time within the Department. With respect to each new position, the Director or his designee shall determine within 30 days of the filling of such position whether the employee is a designated employee for purposes of this Code. A copy of this determination shall be forwarded to the Fair Political Practices Commission. The Director or his designee shall make such determination in accord with the requirements and spirit of the Act and shall inform any employee so designated of the employee's disclosure obligations. An employee objecting to the designation shall be entitled to a hearing before the Director, whose decision shall be final for purposes of the grievance. Each employee so designated shall file reports and shall act as provided in the Code. Each February the Department shall amend its Code officially to include all such designations made in the previous year.

Article 3. Financial Disclosure Statements

(Contents of Statement)

17310. Contents of Initial Statement. The first statement filed under this Code shall disclose only reportable investments, not income.

17311. Investments. The term "investment" is defined in Section 17714 of this Code, consistent with Government Code Section 82034. Investments under $1,000 in market value need not be disclosed.

When an employee is required to disclose types of investments pursuant to Article 2 of this Code, the disclosure statement shall contain:

(a) A statement of the nature of the investment or interest;

(b) The name of the business entity in which each investment is held, and a general description of the business activity in which the business entity is engaged;

(c) A statement whether the fair market value of the investment exceeds ten thousand dollars ($10,000), and whether it exceeds one hundred thousand dollars ($100,000).

(d) In the case of an investment which constitutes fifty percent or more of the ownership interest in a business entity, a statement of the investments and interests in real property of the business entity;

(e) If the investment was partially or wholly acquired or disposed of during the period covered by the statement, the date of acquisition or disposal.

Title 8, CCR, Register 78-06

§§ 16000 - 16014

§§ 16100 - 16109

§§ 16200 - 16207.9

GROUP 3. PAYMENT OF PREVAILING WAGES UPON PUBLIC WORKS

Article 1. Definitions

16000. Director. The term "Director" means the Director of the Department of Industrial Relations or a duly authorized representative.

NOTE: Authority cited for Group 3: Sections 54 and 1773.5, Labor Code. Reference: Sections 1770–1773.8, Labor Code.

History: 1. Repealer of Group 3, (Articles 1–3, Sections 16000–16004, 16100–16101 and 16200–16205) and new Group 3 (Articles 1–4, Sections 16000–16013, 16100–16109, 16200–16206 and 16300–16305) filed 1-3-77 as an emergency; effective upon filing (Register 77, No. 2). For prior history, see Register 56, No. 8.

2. New Group 3 (Sections 16000–16014, 16100–16109, 16200–16207.9) filed 2-8-78; effective thirtieth day thereafter (Register 78, No. 6).

16001. Division. The term "DLSR" means the Division of Labor Statistics and Research within the Department of Industrial Relations. The term "DLSE" means the Division of Labor Standards Enforcement within the Department of Industrial Relations. The term "DAS" means the Division of Apprenticeship Standards within the Department of Industrial Relations.

16002. Chief. The term "Chief DLSR" means the Chief of the Division of Labor Statistics and Research or a duly authorized representative, within the Department of Industrial Relations. The term "Chief DLSE" means the Chief of the Division of Labor Standards Enforcement or a duly authorized representative within the Department of Industrial Relations. The term "Chief DAS" means the Chief of the Division of Apprenticeship Standards or a duly authorized representative within the Department of Industrial Relations.

16003. Person. The term "person" means any individual, partnership, corporation, association, or any local, state, regional, national or international organization, public or private, or any awarding body, or any agent or officer thereof, authorized to act for or on behalf of any of the foregoing.

16004. Public Works. The term "public works" as used in these regulations shall be as defined in Sections 1720, 1720.2, 1720.3 and 1771 of the Labor Code.

16005. Political Subdivision. The term "political subdivision" includes any county, city, district, township, public housing authority, regional district, or public agency of the State, and assessment or improvement districts.

16006. Awarding Body. The term "awarding body" means any state or local government agency, department, board, commission, bureau, district, office, authority, political subdivision, regional district officer or agent awarding a contract for public work.

16007. Filing. Where any paper, letter, petition, or document is required or permitted to be filed pursuant to these rules or pursuant to the prevailing wage provisions of the Labor Code, it shall be deemed filed with any person, awarding body or division upon actual delivery to and receipt by such person, awarding body, or division.

16008. Nearest Labor Market Area. The term "nearest labor market area", for the purpose of following the procedures specified in Section 1773 of the Labor Code, means the nearest geographical area from which workers of the crafts, classifications, and types to be used in the performance and execution of the public work can be drawn for employment upon such public work.

16009. Locality. "Locality" or "locality in which public work is performed" means the county in which the public work is done in cases in which the contract is awarded by the State, and means the limits of the political subdivision on whose behalf the contract is awarded in other cases.

16010. Employer Payments. The term "employer payments" includes:

(a) The rate of contribution made by a contractor or subcontractor to employees, their families and dependents, or retirees.

(b) The rate of contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a fund, plan, or program for the benefit of employees, their families and dependents, or retirees.

(c) The rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing benefits to employees, their families and dependents or to retirees pursuant to an enforceable commitment or agreement to carry out a financially responsible plan or program which was communicated in writing to the workers affected.

(d) Notwithstanding subdivisions (a), (b) and (c) of this section, should there be any conflict, the express provisions of Labor Code Section 1777.5 regarding the wage rate of apprentices shall prevail.

16011. Prevailing Rate. The term "prevailing rate" shall have the following meaning:

(a) When applied to the basic hourly rate of pay, the term means the rate being paid to a majority of workers engaged in the particular craft, classification or type of work within the locality and in the nearest labor market area, if a majority of such workers be paid at a single rate; if there be no single rate being paid to a majority, then the single rate being paid the greater number.

(b) When applied to other employer payments included in per diem wages pursuant to Section 1773.1 of the Labor Code and enumerated in Section 16012 below, the term means, for each such type of payment, the single rate of contribution or cost being paid to or for the greater number of workers in the particular craft, classification or type of work who are paid the prevailing basic hourly rate of pay as defined in Section 16011(a), above.

(c) When applied to the rate for holiday or overtime work, the term means a single rate paid to or for the greater number of workers in the particular craft, classification or type of work who are paid the prevailing basic hourly rate of pay as defined in Section 16011(a) above.

(d) Notwithstanding subdivisions (a), (b) and (c) of this section, should there be any conflict, the express provisions of Labor Code Section 1777.5 regarding the wage rate of apprentices shall prevail.

16012. General Prevailing Rate of Per Diem Wages. (a) The term "general prevailing rate of per diem wages", and similar terms descriptive of determinations made by the Director pursuant to Sections 1773, 1773.1, 1773.8 and express provisions of 1777.5 of the Labor Code and these rules and regulations, includes:

(1) the prevailing basic straight-time hourly rate of pay; and

(2) the prevailing rate for holiday and overtime work; and

(3) the prevailing rate of employer payments for any or all programs or benefits for employees, their families and dependents, and retirees which are of the types enumerated below:

(A) medical and hospital care, prescription drugs, dental care, vision care, diagnostic services, and other health and welfare benefits;

(B) retirement plan benefits;

(C) vacations and holidays with pay, or cash payments in lieu thereof;

(D) compensation for injuries or illnesses resulting from occupational activity;

(E) life, accidental death and dismemberment, and disability or sickness and accident insurance;

(F) supplemental unemployment benefits;

(G) thrift, security savings, supplemental trust, and beneficial trust funds otherwise designated, provided all of the money except that used for reasonable administrative expenses is returned to the employees;

(H) occupational health and safety research, safety training, monitoring job hazards, and the like;

(I) apprenticeship or other training programs authorized by Sections 3071 and/or 3093 of the Labor Code;

(J) other bona fide benefits for employees, their families and dependents, or retirees as the Director may determine; and

(4) travel time and subsistence pay as provided for in Labor Code Section 1773.8.

(b) *Provided,* that the term "general prevailing rate of per diem wages" does not include any employer payments for:

(1) job related expenses other than travel time and subsistence pay;

(2) contract administration, operation of hiring halls, grievance processing, or similar purposes except for those amounts specifically earmarked and actually used for administration of those types of employee or retiree benefit plans enumerated above in Section 16012;

(3) union, organizational, professional or other dues except as they may be included in and withheld from the basic hourly wage rate;

(4) industry or trade promotion;
(5) political contributions or activities;
(6) any benefit for employees, their families and dependents, or retirees, including any benefit enumerated above in Section 16012, where the contractor or subcontractor is required by Federal, State, or local law to provide such benefit;
(7) such other payments as the Director may determine to exclude.

16013. Interested Party. Except where otherwise specifically provided by these rules and regulations, the term "interested party" means, when used with reference to a particular prevailing wage determination made by the Director,

(1) any contractor or subcontractor, or any organization, association, or other representative of any contractor or subcontractor likely to bid on or to perform a contract for public work which is subject to the particular prevailing wage determination, and/or
(2) any worker in the particular craft, classification, or type of work, who may be employed on a public work project subject to the particular prevailing wage determination, or any labor organization or other representative of such a person, including the recognized collective bargaining representative for the particular craft, classification, or type of work, and/or
(3) any awarding body concerned with the administration of a public works contract or proposed contract, which is subject to the particular prevailing wage determination.

16014. Issue Date-Issuance. The issue date (issuance as used in Section 16108 below) shall be the date upon which copies of the determinations of the Director are deposited in the mail.

Article 2. Determination of General Prevailing Rate of Per Diem Wages. Requesting and Publishing Determinations

16100. Recognized Crafts. The determinations of the Director will be limited to those crafts, classifications or types of workers employed in public works pursuant to Sections 1720, 1720.2, 1720.3 and 1771 of the Labor Code.

16101. Format. (a) All determinations made by the Director of the general prevailing rate of per diem wages for a particular craft, classification, or type of worker will separately specify each of the following components:

(1) The prevailing basic straight-time hourly wage rate.
(2) The formula or method for calculating the prevailing hourly wage rate for overtime and holiday work and determining the hours of work for which overtime is paid.
(3) The following statement when applicable: "In accordance with Labor Code Section 1773, holidays upon which the prevailing hourly wage rate for holiday work shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of worker employed on the project, which is on file with the Director of Industrial Relations."

(4) The prevailing employer payments for benefits included in the general prevailing rate of per diem wages pursuant to Section 1773.1 of the Labor Code and enumerated in Section 16012 (3), of these rules and regulations.

(5) The following statement when applicable: "The contractor shall make travel and subsistence payments to each worker needed to execute the work, as such travel and subsistence payments are defined in the applicable collective bargaining agreements filed with the Director of Industrial Relations in accordance with Labor Code Section 1773.8".

(b) Where the prevailing employer payment for any benefit is expressed in a formula or method of payment other than an hourly rate the Director may (1) express the rate in the determination by specifying the formula or method used, or (2) convert the rate to an hourly rate whenever such action would facilitate the administration of the law.

(c) The applicability of the apprentice rate of per diem wages shall be indicated and furnished upon request.

(d) The dates between which the applicable rate shall be paid for work performed in those periods shall be indicated.

(e) As a supplement to each determination the Director shall make available to any awarding body upon request, a list of all holidays recognized and the provision for travel and subsistence payments, taken from the applicable collective bargaining agreement.

16102. Method of Determination. The Director shall follow those procedures specified in Section 1773 and 1777.5 of the Labor Code and in these rules and regulations when making prevailing wage determinations.

16103. Collective Bargaining Agreements. Filing. (a) To enable the Director to ascertain and consider the applicable wage rates established by collective bargaining agreements when making prevailing wage determinations, the representatives of any crafts, classifications, or types of workers needed to execute any public works contracts shall file with the Department of Industrial Relations fully executed copies of all their collective bargaining agreements including any addenda which modify the agreements, as soon as practicable after their execution.

(b) Copies of collective bargaining agreements filed with the Department of Industrial Relations pursuant to Sections 1773.1 and 1773.8 of the Labor Code, and Section 16103 (a) of these rules and regulations shall be filed with and addressed to: Chief, Division of Labor Statistics and Research, P. O. Box 603, San Francisco, CA 94101.

(c) Collective bargaining agreements filed with the DLSR must be accompanied by a signed statement which is certified as true and correct to the best of the knowledge and belief of the person preparing the statement, under penalty of perjury, and which:

(1) certifies that the agreement filed is fully executed and in effect, unless it is a signed original agreement or a photocopy thereof, or a printed copy of a fully executed agreement showing the names of the signatory parties, except in the case of a printed agreement the Director may require certification;

(2) names or otherwise identifies all California counties within the jurisdiction of the local union or unions signatory to the agreement and provides any maps or additional information that may be needed to determine its precise geographical scope, if this is not clearly specified in the agreement;

(3) names and provides the address of the signatory employer association or, if there be no signatory employer association, provides the names and addresses of all contractors signatory to the agreement, unless such information is contained in the agreement;

(4) provides the number of workers currently employed, and employed within the past 6 months if different, under the terms of the agreement in California and, if practicable, in each county within the jurisdiction of the signatory local union or unions;

(5) provides any other information not contained in the agreement that the Director may need to give proper consideration to applicable wage rates established by collective bargaining.

(d) Copies of collective bargaining agreements which are not bona fide shall not be deemed filed. The party filing a contract may be asked to substantiate the assertion that such collective bargaining agreement is bona fide.

16104. Consideration of Other Data. Pursuant to Section 1773 of the Labor Code, the Director may also obtain and consider further data from interested parties, and shall give consideration to data submitted by any interested party, concerning rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area. Such data may be obtained by holding a hearing, instituting an investigation, or by such other means as the Director determines will best serve the purposes of the law. Information submitted by interested parties for the Director's consideration shall include but not be limited to the following for each project:

(a) the name, address, job title, and telephone number of the interested party submitting the information and the basis for qualification as an interested party under Section 16013;

(b) the basic hourly wage rate, overtime and holiday pay rates, and employer payments as enumerated in Section 16012 of these rules and regulations for each classification in question as effective for the last payroll period, or most recent payroll period, for which payments based on such rates were actually made;

(c) the number of workers employed on the project in each classification in question during the payroll period for which data is submitted;

(d) the location of the project;

(e) the name and address of the contractor or subcontractor making the payments; and of all other contractors or subcontractors on the project;

(f) the type of construction (e.g. residential, commercial building, etc.);

(g) the approximate cost of construction;

(h) the beginning date and completion date, or estimated completion date of the project;

(i) the source of data (e.g. "payroll records");
(j) the method of selection of the projects for which data is submitted, when data is not submitted for all projects recently completed or in progress in the locality or in the nearest labor market area.

16105. Collective Bargaining Agreements. Adoption. (a) If the Director determines pursuant to Section 1773 of the Labor Code that the rate established by a collective bargaining agreement is the general prevailing rate of per diem wages for each craft, classification or type of worker and the Director adopts such rate by referral, the Director will publish such rate in the form prescribed by these rules and regulations. Only those rates and employer payments specifically enumerated in Section 16012 of these rules and regulations shall be included in the rate adopted.

(b) When such rate is adopted, and in the case where the collective bargaining agreement contains definite and predetermined changes during its term which will affect the rate adopted, the Director shall incorporate such changes in the determination.

(c) When such rate is adopted, and in the case where the collective bargaining agreement contains changes during its term which will affect the rate adopted, which are not definite or predetermined, the changes shall not be adopted. The determination of the Director will remain in effect until a new determination is issued. Any interested party may request that the Director make a new determination when said changes become definite and determined. A statement must be filed in the same manner as collective bargaining agreements are filed under Section 16103 of these rules and regulations. The statement must summarize the amounts and effective dates of any cost-of-living adjustments, allocations of interim wage increases to wages and employer payments, and other relevant changes which will affect the rate adopted by the Director. The statement must be signed by an officer or agent of the bargaining representative and certified, under penalty of perjury, as true and correct to the best of his or her knowledge and belief.

16106. Errors. Corrections. Upon his or her own initiative or at the request of any interested party, the Director shall correct any error in a published determination that is the result of clerical error, such as a typographical error or a transposition of letters or digits, by issuing a corrected determination or a modification of the determination. The Director may correct any error issued in a determination by reissuing such determination.

16107. Determinations and Mailing List Requests. (a) When the Director determines that the general prevailing rate of per diem wages for a particular craft, classification, or type of worker is uniform throughout a large geographical area, the Director shall issue an "area" determination. Area determinations will ordinarily be made for an entire county or group of counties and shall constitute the Director's determination for all localities in which public work is performed within that county or counties except as the geographic application of the determination may be specifically limited by the determination itself.

(b) An awarding body may request the Director to make a determination for particular crafts, classifications, or types of workers for which an area determination has not been made or issued, or has expired.

(c) An awarding body may request to be put on a mailing list for all area wage determinations for a specific county or counties or may request that a prevailing wage determination be furnished when needed, by writing to Chief, Division of Labor Statistics and Research, P.O. Box 603, San Francisco, CA 94101. All requests for prevailing wage determinations must be in writing and must specify the location where the public work is to be performed, including the county and the particular crafts, classifications, or types of workers for which a determination is needed.

16108. Effective Dates of Determinations. (a) All determinations issued will be effective ten (10) days after issuance, provided that requests for copies, reprints or reissuance of prior determinations shall not affect the original effective date unless a new effective date is reflected upon the determination (see subdivision (c) below). Any call for bids put out on or after the effective date of the determination must reflect that determination unless the Director determines that subdivision (d) of this section is applicable, after notification and request by an awarding body.

(b) Determinations issued by the Director will show an issue date and will ordinarily show an expiration date.

(c) All determinations will be effective until their expiration date unless earlier modified, corrected, rescinded or superseded by the Director.

(d) Determinations modified, corrected, rescinded or superseded on the basis of information contained in copies of collective bargaining agreements filed with the Department shall not be effective as to any project in which a call for bids takes place less than 30 days after the filing of the agreement (see Section 1773.1 of the Labor Code).

(e) It shall be the responsibility of the awarding body to ensure that the correct determination is used.

16109. Publication of Prevailing Rates by Awarding Bodies.

(a) To the extent that an awarding body is required to publish the general prevailing rate of per diem wages pursuant to Section 1773.2 of the Labor Code, it must use the rates as determined by the Director for each craft, classification or type of worker needed to execute the contract and in the format adopted by the Director.

(b) The awarding body shall have on file, at its principal office, copies of all applicable determinations of the Director.

(c) The awarding body shall ensure that copies of the applicable rates are posted on the job site. If more than one location exists as to any project, then the applicable rates shall be posted at a location which is readily available to the workers.

Article 3. Delegation of Authority: Petition to Review

16200. Delegation of Authority. Chief, Division of Labor Statistics and Research. (a) The Chief of the Division of Labor Statistics and Research is the authorized representative of the Director for the purpose of receiving collective bargaining agreements and other documents and papers pertaining to making prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these rules and regulations.

(b) The Chief of DLSR is the authorized representative of the Director for the purpose of gathering information needed to make prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code or these rules and regulations, and may for that purpose institute investigations, conduct hearings, or employ such other means as shall best serve the purposes of the law.

(c) The Chief of DLSR is an authorized representative of the Director for the purpose of responding to petitions regarding determinations.

(d) All final determinations shall be made by the Director.

16201. Petition to Review. Those interested parties enumerated in Section 1773.4 of the Labor Code may file with the Director or the Chief of DLSR, within 20 days after commencement of advertising of a call for bids by any awarding body, a petition to review a determination of any rate or rates made by the Director, pursuant to Section 1773 of the Labor Code, which is specified in or referred to in the call for bids.

16202. Manner of Filing. Petition to Review. Every petition filed pursuant to Section 1773.4 of the Labor Code shall be filed in triplicate with the Director by delivery to the Director or to the Chief, Division of Labor Statistics and Research, P.O. Box 603, San Francisco, CA 94101. Petitions may be filed in person or by mail.

16203. Form. Every petition or other document filed or served pursuant to Section 1773.4 of the Labor Code and Article 3 of these rules and regulations shall be legibly presented and typed upon good white paper, except as such consists of exhibits. Exhibits must be identified properly. The name, address, job title and telephone number of the person filing the petition or other document, and the name of the attorney representing the person, if any, shall be included and the petition or document shall be verified at the end.

16204. Content. Petition to Review. Every petition filed pursuant to Section 1773.4 of the Labor Code shall contain and separately state the following:

(a) The name, address, telephone number and job title of the person filing the petition, together with the name, address, telephone number and job title of the person verifying the petition, if different from the person filing the same.

(b) Whether the petitioner is an awarding body, a prospective bidder, or the representative of one or more crafts, classifications or types of workers involved in the public works contract. The petition shall also include the nature of petitioner's business, if a prospective bidder, and a designation of each craft, classification or type of worker represented, if the petitioner be a representative of one or more crafts, classifications or types of workers involved in the public works project.

(c) The official name of the awarding body, together with the date on which the call for bids was first published and the name and location of the newspaper in which such publication was made. An accurate copy of the call for bids as published shall be attached to the petition.

(d) If petitioner be an awarding body which is a department, board, authority or political subdivision other than a county, city and county, city, township, or regional district, the awarding body shall describe the parent or principal organization of which it is a part, and shall specify the statutory authority for undertaking public works. If the petitioner be a prospective bidder, then the parent or subsidiary corporations or associations related to such craft, classification or type of work, if any, shall be specified.

(e) The manner in which the wage rate determined by the Director fails to comply with the provisions of Labor Code Section 1773.

(1) Every petition asserting that the applicable prevailing rate for one or more crafts, classifications or types of workers needed to execute a contract is different from that ascertained by the Director shall set forth the rate the petitioner claims to be correct for each disputed rate, together with specific reference to particular facts providing the basis for such claim.

(A) Whenever such facts relate to a particular employer of such crafts, classifications or types of workers, the facts stated must identify the employer by name and address and give the number of workers involved.

(B) Whenever such facts relate to an applicable collective bargaining agreement which the petitioner alleges was not considered by the Director pursuant to Section 1773 of the Labor Code, a copy of the agreement, if not already filed with the Director, should be filed concurrently with the petition in the manner provided in Section 16103 of these rules and regulations.

(C) Whenever such facts relate to rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area, the facts stated should include all of the items of information enumerated in Section 16104 of these rules and regulations.

(2) Every petition asserting that the Director has failed to ascertain and consider all applicable rates required to be considered by it shall specifically state in the petition which rates have not been considered by the Director.

(3) Where the rates ascertained by the Director are the same as the applicable rates established by the collective bargaining agreement and rates of pay determined for federal public works within the locality and the nearest labor market area where the public work is to be performed, the petition shall specifically describe the manner and extent to which such rates do not constitute the rates actually prevailing in the locality where the public work is to be performed, and shall set forth and fully identify the existence of any rates asserted by petitioner to be prevailing in the locality and relied upon in support of the petition.

16205. Failure to Include Copy of Call for Bids. If the petition fails to contain a copy of the call for bids as provided in Section 16204(c), the Director may dismiss the petition forthwith or may, if good cause is shown, permit the petition to be amended to include such copy.

16206. Filing Copy With Awarding Body. If the petitioner be other than an awarding body, the petitioner may concurrently with the filing of the original petition, or otherwise shall within two days thereafter, excluding Saturdays, Sundays and holidays, file a copy of the petition with the awarding body and not later than five days, excluding Saturdays, Sundays and holidays, after the filing of the original petition, the petitioner shall file with the Chief of DLSR an affidavit of the filing with the awarding body. The Director may waive this requirement upon receipt of written confirmation, including a copy of such notification by the petitioner.

Article 4. Hearing Procedures, Decision, Miscellaneous

16207. Director's Discretion to Act. The Director may in his or her discretion initiate an investigation or hold a hearing or take such other action as is reasonably necessary which would best effectuate the purposes of the law and of these rules and regulations, except as such action may be expressly prohibited by the law.

16207.1. Director's Choice of Action. In any matter or proceeding under these regulations, whether it be on the initiative of the Director, petition or request by an interested party, the Director shall take those actions he or she deems necessary in the best interest of the law and these regulations except as may be specifically provided otherwise by the law or these regulations.

16207.2. Hearings. When a hearing is held, it shall be in accordance with the following procedures:

(a) A time and place of the hearing shall be fixed.

(b) All interested parties made known to the Director shall be notified by registered or certified mail, return receipt requested, of the time and place of the hearing except that in the event of numerous interested parties or in the event that mailing notices by registered or certified mail could cause an undue delay adverse to the interest of the parties or a timely hearing, the Director may send certified or registered notice to the petitioner and other directly interested parties that have been made known to the Director and may mail notices to the other parties, and publish in newspapers.

(c) Notification shall be at least one week in advance.

(d) The interested parties shall be given an opportunity to present evidence and oral or written arguments in support of their positions. The hearing officer may fairly allocate time for such witnesses' testimony according to the interests of receiving testimony from all who wish to be heard and in the interest of introducing relevant evidence.

(e) The hearing need not be conducted according to technical rules relating to evidence and witnesses.

(f) All witnesses testifying before the hearing officer shall testify under oath.

(g) A full transcript of the hearing shall be recorded.

16207.3. Hearing Officer. Decision. (a) The appointed hearing officer shall conduct the hearing and submit to the Director the entire record of the hearing together with written recommendations. Either the appointed hearing officer or the Director may request documentation subsequent to the hearing to complete the record, and shall send copies of such additional information to the petitioner, awarding body or other designated interested party or parties.

(b) The decision of the Director shall reflect a summary of the evidence, findings, or matters of fact and/or law.

(c) The decision shall be sent, by certified or registered mail with return receipt requested, to all parties no later than 20 days after the hearing, except earlier or later as special circumstances warrant.

(d) The decision of the Director shall be final, for the purposes of judicial review, except that the Director upon his or her initiative only, may reconsider and take whatever action is appropriate or necessary to facilitate a decision on reconsideration. Notice of reconsideration shall be given to all parties in the same manner as the notice of hearings as specified in Sections 16207.2 (b), (c) and (d) above and the decision upon reconsideration shall be as specified in subdivisions (b) and (c) of this section.

16207.4. Public Hearings. The hearing procedures enumerated in Sections 16207.2 and 16207.3, above, shall in no way be construed to affect the responsibilities or procedures pursuant to Title 2, Division 3, Part 1, Chapter 4.5 of the Government Code (commencing with Section 11371 pertaining to the adoption of rules and regulations).

Article 5. Department and Division Authority

16207.5. Department and Division Authority in Prevailing Wage Issues. The Director shall establish and coordinate the administration of the State's prevailing wage law, including the determination of coverage issues. The lead agency for the determination of prevailing wage rates shall be the Division of Labor Statistics and Research. The lead agency for the enforcement of the payment of prevailing wages is the division of Labor Standards Enforcement. The lead agency for the coordination on Apprenticeship is the Division of Apprenticeship Standards. This section shall not be construed to preclude any filing requirements with the DLSR of appropriate agreements or petitions regarding determinations or any other documents, papers, books, etc. otherwise required by law or these rules.

16207.6. Issuance of Prevailing Wage Guidelines. The Director shall issue periodically guidelines for the interpretation of the prevailing wage law, in consultation with the lead divisions involved in the administration of the law.

16207.7. Referral of Prevailing Wage Issues to Director's Office. Any issue as to coverage of or amount of the prevailing wage raised by an awarding body or other interested party shall be referred to the Director, except that, if it involves an issue raised after a contract is let, DLSE shall exercise discretion in the enforcement of the law pursuant to the established guideline. DLSE shall refer any issue not falling within such guideline and any issue as to coverage which is not routine to the Director's office as soon as practical to coordinate with Departmental policy.

16207.8. Referral of Appeals to Director's Office. Appeals of any determination under Section 1773 of the Labor Code relating either to coverage or rate of the prevailing wage shall be referred to the Director. The form and content of such appeal shall include the information required under Sections 16203 and 16204 of these rules and regulations.

16207.9. Severability. If any provision of these rules and regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these rules and regulations which can be given effect without the invalid provision or application, and to this end the provisions of these rules and regulations are severable.

NOTE: Section 9 of Chapter 281, 1976 Stats., states:

"Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the duties, obligations or responsibilities imposed on local governmental entities or school districts by this act are such that related costs are incurred as a part of their normal operating procedures."

Title 8, CCR, Register 79-19

§§ 16012 - 16015

§§ 16100 - 16101

(c) When applied to the rate for holiday or overtime work, the term means a single rate paid to or for the greater number of workers in the particular craft, classification or type of work who are paid the prevailing basic hourly rate of pay as defined in Section 16011(a) above.

(d) Notwithstanding subdivisions (a), (b) and (c) of this section, should there be any conflict, the express provisions of Labor Code Section 1777.5 regarding the wage rate of apprentices shall prevail.

16012. General Prevailing Rate of Per Diem Wages.

(a) The term "general prevailing rate of per diem wages", and similar terms descriptive of determinations made by the Director pursuant to Sections 1773, 1773.1, 1773.8 and express provisions of 1777.5 of the Labor Code and these rules and regulations, includes:

(1) the prevailing basic straight-time hourly rate of pay; and

(2) the prevailing rate for holiday and overtime work; and

(3) the prevailing rate of employer payments for any or all programs or benefits for employees, their families and dependents, and retirees which are of the types enumerated below:

(A) medical and hospital care, prescription drugs, dental care, vision care, diagnostic services, and other health and welfare benefits;

(B) retirement plan benefits;

(C) vacations and holidays with pay, or cash payments in lieu thereof;

(D) compensation for injuries or illnesses resulting from occupational activity;

(E) life, accidental death and dismemberment, and disability or sickness and accident insurance;

(F) supplemental unemployment benefits;

(G) thrift, security savings, supplemental trust, and beneficial trust funds otherwise designated, provided all of the money except that used for reasonable administrative expenses is returned to the employees;

(H) occupational health and safety research, safety training, monitoring job hazards, and the like;

(I) apprenticeship or other training programs authorized by Sections 3071 and/or 3093 of the Labor Code;

(J) other bona fide benefits for employees, their families and dependents, or retirees as the Director may determine; and

(4) travel time and subsistence pay as provided for in Labor Code Section 1773.8.

(b) *Provided,* that the term "general prevailing rate of per diem wages" does not include any employer payments for:

(1) job related expenses other than travel time and subsistence pay;

(2) contract administration, operation of hiring halls, grievance processing, or similar purposes except for those amounts specifically earmarked and actually used for administration of those types of employee or retiree benefit plans enumerated above in Section 16012;

(3) union, organizational, professional or other dues except as they may be included in and withheld from the basic hourly wage rate;

(4) industry or trade promotion;

(5) political contributions or activities;

(6) any benefit for employees, their families and dependents, or retirees, including any benefit enumerated above in Section 16012, where the contractor or subcontractor is required by Federal, State, or local law to provide such benefit;

(7) such other payments as the Director may determine to exclude.

16013. Interested Party.

Except where otherwise specifically provided by these rules and regulations, the term "interested party" means, when used with reference to a particular prevailing wage determination made by the Director,

(1) any contractor or subcontractor, or any organization, association, or other representative of any contractor or subcontractor likely to bid on or to perform a contract for public work which is subject to the particular prevailing wage determination, and/or

(2) any worker in the particular craft, classification, or type of work, who may be employed on a public work project subject to the particular prevailing wage determination, or any labor organization or other representative of such a person, including the recognized collective bargaining representative for the particular craft, classification, or type of work, and/or

(3) any awarding body concerned with the administration of a public works contract or proposed contract, which is subject to the particular prevailing wage determination.

16014. Issue Date-Issuance.

The issue date (issuance as used in Section 16108 below) shall be the date upon which copies of the determinations of the Director are deposited in the mail.

16015. Maintenance.

(a) Section 1771 of the Labor Code provides that public works contracts for maintenance work are subject to prevailing wage rate payments under Section 1720 et seq. of the Labor Code. This Administrative Code section specifies types of work which may be considered maintenance work and are also public works for prevailing wage payment purposes. This section does not and is not intended to affect the classification and categories of workers for which appropriate wage rates are set. Rather, this section solely clarifies the fact that certain work is subject to prevailing wage payment requirements.

(b) Maintenance is defined as routine, recurring and usual work for the preservation, protection and keeping of any publicly owned or publicly operated facility (plant, building, structure, ground facility, utility system or any real property) for its intended purposes in a safe and continually usable condition for which it has been designed, improved, constructed, altered or repaired.

(c) This definition expressly includes but is not limited to:

(1) carpentry, electrical, plumbing, glazing, and other craft work designed, consistent with the definitions set forth above, to preserve the facility in a safe, efficient and continuously usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures.

(2) landscape maintenance such as mowing, watering, trimming, pruning, planting, replacement of plants, servicing of irrigation and sprinkler systems, repairing of equipment used in such landscape maintenance, and janitorial work incidental to such landscape maintenance.

(d) This definition does not cover, among other types of work:

(1) janitorial or custodial services of a routine, recurring or usual nature;

(2) protection of the sort provided by guards or other security forces;

(3) painting, repainting or decorating other than "touch-up". (These activities are excluded from the definition of maintenance solely because they are already included in the definition of a public work.)

NOTE: Authority cited: Labor Code Sections 54, 1773.5. Reference: Labor Code Section 1771.

HISTORY:

1. New section filed 5-11-79; effective thirtieth day thereafter (Register 79, No. 19).

Article 2. Determination of General Prevailing Rate of Per Diem Wages. Requesting and Publishing Determinations

16100. Recognized Crafts.

The determinations of the Director will be limited to those crafts, classifications or types of workers employed in public works pursuant to Sections 1720, 1720.2, 1720.3 and 1771 of the Labor Code.

16101. Format.

(a) All determinations made by the Director of the general prevailing rate of per diem wages for a particular craft, classification, or type of worker will separately specify each of the following components:

(1) The prevailing basic straight-time hourly wage rate.

(2) The formula or method for calculating the prevailing hourly wage rate for overtime and holiday work and determining the hours of work for which overtime is paid.

(3) The following statement when applicable: "In accordance with Labor Code Section 1773, holidays upon which the prevailing hourly wage rate for holiday work shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of worker employed on the project, which is on file with the Director of Industrial Relations."

Title 8, CCR, Register 80-06

§§ 16016 -16019

§§ 16100 - 16101

§§ 16207 - 16207.19

(2) landscape maintenance such as mowing, watering, trimming, pruning, planting, replacement of plants, servicing of irrigation and sprinkler systems, repairing of equipment used in such landscape maintenance, and janitorial work incidental to such landscape maintenance.

(d) This definition does not cover, among other types of work:

(1) janitorial or custodial services of a routine, recurring or usual nature;

(2) protection of the sort provided by guards or other security forces;

(3) painting, repainting or decorating other than "touch-up". (These activities are excluded from the definition of maintenance solely because they are already included in the definition of a public work.)

NOTE: Authority cited: Sections 54, 1773.5, Labor Code. Reference: Section 1771, Labor Code.

HISTORY:

1. New section filed 5-11-79; effective thirtieth day thereafter (Register 79, No. 19).

16016. Payroll Records.

Payroll records shall mean all time cards, cancelled checks, cash receipt, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidences which reflect job assignments, work schedules by days and hours, and the disbursement by way of cash, check, or in whatever form or manner, of funds to a person(s) by job classification and/or skill pursuant to a public works project (Labor Code Section 1720 *et seq.*).

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Sections 1776 and 1812, Labor Code.

HISTORY:

1. New section filed 2-8-80; effective thirtieth day thereafter (Register 80, No. 6).

16017. Certified.

Certified shall mean the affirmation of a person with the authority to so affirm, under the penalty of perjury that the records are originals or are full, true and correct copies of the original and depict truly, fully and correctly the craft or type of work performed, hours and days worked, and the amounts by category listed, disbursed by way of cash, check, or in whatever form or manner to each person by job classification and/or skill pursuant to a public works contract.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

HISTORY:

1. New section filed 2-8-80; effective thirtieth day thereafter (Register 80, No. 6).

16018. Public Entity.

Public entity for the purpose of processing requests for inspection of payroll records or furnishing certified copies thereof, shall mean any of the following: the body awarding the contract; the Division of Apprenticeship Standards (DAS), or the Division of Labor Standards Enforcement (DLSE) within the Department of Industrial Relations.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

HISTORY:

1. New section filed 2-8-80; effective thirtieth day thereafter (Register 80, No. 6).

16019. Contractor—Subcontractor.

The terms "contractor" and "subcontractor" shall include a contractor, subcontractor, licensee, officer, agent, or representative thereof, acting in such capacity, when working on public works pursuant to Article 1 (commencing with Section 1720) and Article 2 (commencing with Section 1770) of Chapter 1 of Part 7 of Division 2 of the Labor Code.

NOTE: Authority cited: Sections 54, 1722.1 and 1776, Labor Code. Reference: Sections 1722.1 and 1776, Labor Code.

HISTORY:

1. New section filed 2-8-80; effective thirtieth day thereafter (Register 80, No. 6).

Article 2. Determination of General Prevailing Rate of Per Diem Wages. Requesting and Publishing Determinations

16100. Recognized Crafts.

The determinations of the Director will be limited to those crafts, classifications or types of workers employed in public works pursuant to Sections 1720, 1720.2, 1720.3 and 1771 of the Labor Code.

16100.1. Determination.

The surveyor classifications of certified chief of party, chief of party, rodman/chainman and instrumentman are covered by the public works law by the determination of the Director (the determination of the Director of May 30, 1979 is hereby incorporated by reference). Copies of this document are available on request from:

Division of Labor Statistics and Research
Attention: James Roeckel
P.O. Box 603
San Francisco, CA 94101

NOTE: Authority cited: Sections 1720, 1723, 1770, 1771, 1772, 1773 and 1773.1, Labor Code. Reference: Sections 1720, 1723, 1770, 1771, 1772, 1773 and 1773.1, Labor Code.

HISTORY:

1. New section filed 6-13-79; designated effective 8-1-79 (Register 79, No. 24).

16101. Format.

(a) All determinations made by the Director of the general prevailing rate of per diem wages for a particular craft, classification, or type of worker will separately specify each of the following components:

(1) The prevailing basic straight-time hourly wage rate.

(2) The formula or method for calculating the prevailing hourly wage rate for overtime and holiday work and determining the hours of work for which overtime is paid.

(3) The following statement when applicable: "In accordance with Labor Code Section 1773, holidays upon which the prevailing hourly wage rate for holiday work shall be paid shall be all holidays recognized in the collective bar[illegible]g agreement applicable to the particular craft, classification or type of w[illegible]employed on the project, which is on file with the Director of Industrial Re[illegible]ions."

Article 5. Department and Division Authority

16207.5. Department and Division Authority in Prevailing Wage Issues.
The Director shall establish and coordinate the administration of the State's prevailing wage law, including the determination of coverage issues. The lead agency for the determination of prevailing wage rates shall be the Division of Labor Statistics and Research. The lead agency for the enforcement of the payment of prevailing wages is the division of Labor Standards Enforcement. The lead agency for the coordination on Apprenticeship is the Division of Apprenticeship Standards. This section shall not be construed to preclude any filing requirements with the DLSR of appropriate agreements or petitions regarding determinations or any other documents, papers, books, etc. otherwise required by law or these rules.

16207.6. Issuance of Prevailing Wage Guidelines.
The Director shall issue periodically guidelines for the interpretation of the prevailing wage law, in consultation with the lead divisions involved in the administration of the law.

16207.7. Referral of Prevailing Wage Issues to Director's Office.
Any issue as to coverage of or amount of the prevailing wage raised by an awarding body or other interested party shall be referred to the Director, except that, if it involves an issue raised after a contract is let, DLSE shall exercise discretion in the enforcement of the law pursuant to the established guideline. DLSE shall refer any issue not falling within such guideline and any issue as to coverage which is not routine to the Director's office as soon as practical to coordinate with Departmental policy.

16207.8. Referral of Appeals to Director's Office.
Appeals of any determination under Section 1773 of the Labor Code relating either to coverage or rate of the prevailing wage shall be referred to the Director. The form and content of such appeal shall include the information required under Sections 16203 and 16204 of these rules and regulations.

16207.9. Severability.

NOTE: Authority cited: Sections 54 and 1776, Labor Code; Section 11421, Government Code; Section 2231, Revenue and Taxation Code. Reference: Section 11421, Government Code; Section 2237, Revenue and Taxation Code; Section 9, Chapter 281, 1976 Statutes.

HISTORY:
1. Repealer filed 2-8-80; effective thirtieth day thereafter (Register 80, No. 6).

Article 6. Payroll Records—Forms—Reporting

16207.10. Request for Payroll Records.
Requests from the public for certified copies of payroll records shall be made to any of the following:
(a) the body awarding the contract,
(b) any office of the Division of Labor Standards Enforcement, or
(c) any office of the Division of Apprenticeship Standards of the Department of Industrial Relations.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

HISTORY:
1. New Article 6 (Sections 16207.10–16207.19) filed 2-8-80; effective thirtieth day thereafter (Register 80, No. 6).

16207.11. Request in Writing.

Any request for payroll records pursuant to Section 1776 of the Labor Code shall be in writing and contain at least the following information:

(a) the body awarding the contract;
(b) the contract number and/or description;
(c) the particular job location if more than one;
(d) the name of the contractor;
(e) the regular business address, if known.

Requests for records of more than one contractor or subcontractor must list the information regarding that contractor individually, even if all requests pertain to the same particular public works project. Blanket requests covering an entire public works project will not be entertained unless the records are requested by each separate contractor employer with the information as outlined above provided for each.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.12. Acknowledgment of Request.

The public entity receiving a request for payroll records shall acknowledge receipt of such. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16207.13 below, to the person who requested said records.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.13. Request to Contractor.

The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following:

(a) specify the records to be provided and the form upon which the information is to be provided;
(b) conspicuous notice of the following:
(1) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and
(2) that failure to provide certified copies of the records to the requesting public entity within 10 working days of the receipt of the request will subject the contractor to a penalty of twenty-five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.14. Inspection of Payroll Records.

Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of Section 1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice.

NOTE: Authority cited: Sections 54, 1776, and 1812, Labor Code. Reference: Sections 1776 and 1812, Labor Code.

16207.15. Reporting Format.

The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research
Post Office Box 603
San Francisco, California 94101
ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be at the discretion of the public entity provided the form can be readily understood by the person requesting the copies of the payroll records and the privacy considerations pursuant to Section 16207.18 below are complied with.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.16. Words of Certification.

The form of certification shall be as follows:

I, _____ (Name—print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named.

Date: _____ Signature: _____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.17. Fees.

The public entity furnishing copies of payroll records to the person requesting them may charge no more than one ($1.00) dollar initial processing fee (per contractor) and twenty-five (25¢) cents per page side copied.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.18. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation including arbitration, mediation or other methods of dispute resolution are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number of each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code; Section 6250 et seq., Government Code; and Section 1798 et seq., Civil Code.

16207.19. Severability.

If any provision of these regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these regulations which can be given effect without the invalid provisions or application, and to this end the provisions of these regulations are severable.

Pursuant to Section 9 of Chapter 281, Statutes 1976, and Chapter 1249, Statutes 1978, the Director has determined that the proposed action will create no additional costs to any local agency or school district as provided by Section 2231 of the Revenue and Taxation Code.

NOTE: Authority cited: Sections 54 and 1776, Labor Code; Section 9, Chapter 281, Statutes 1976; and Chapter 1249, Statutes 1978. Reference: Section 1776, Labor Code; Section 9, Chapter 281, Statutes 1976; and Chapter 1249, Statutes 1978 (8 Cal Admin. §16207.9. prior).

(Register 81, No. 9—2-28-81)

GROUP 5. DEPARTMENT OF INDUSTRIAL RELATIONS— CONFLICT OF INTEREST CODE

17000. General Provisions.

The Political Reform Act, Government Code Sections 81000, *et seq.*, requires state and local government agencies to adopt and promulgate Conflict of Interest Codes. The Fair Political Practices Commission has adopted a regulation, 2 Cal. Adm. Code Section 18730, which contains the terms of a standard Conflict of Interest Code, which can be incorporated by reference, and which may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act after public notice and hearings. Therefore, the terms of 2 Cal. Adm. Code Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission, along with the attached Appendix in which officials and employees are designated and disclosure categories are set forth, are hereby incorporated by reference and constitute the Conflict of Interest Code of the Department of Industrial Relations.

Pursuant to Section 4(A) of the standard Code, designated employees shall file statements of economic interests with the agency. Upon receipt of the statement of the Director, the agency shall make and retain a copy and forward the original of this statement to the Fair Political Practices Commission.

NOTE: Authority cited: Sections 87300 and 87304, Government Code. Reference: Section 87300, *et seq.*, Government Code.

HISTORY:

1. New Group 5 (Articles 1–7, Sections 17000–17800, not consecutive) filed 12-2-77; effective thirtieth day thereafter. Approved by the Fair Political Practices Commission 1-19-77 (Register 77, No. 49).

2. Repealer of Group 5 (Articles 1–7, Sections 17000–17300, not consecutive) and new Group 5 (Section 17000 and Appendix) filed 2-26-81; effective thirtieth day thereafter. Approved by Fair Political Practices Commission 12-1-80 (Register 81, No. 9).

Disclosure Categories

Category 1

Designated employees assigned to this category must report:

All investments and sources of income.

Category 2

Designated employees assigned to this category must report:

Investments in business entities and sources of income which they know or have reason to know have within the preceding two years contracted, or plan to contract, with the Department of Industrial Relations to provide services, supplies, materials or machinery of any type to the Department.

Category 3

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by or has within the preceding 2 years contracted or plans to contract with the Division of Labor Standards Enforcement.

Category 4

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Labor Standards Enforcement within the geographic area over which they exercise jurisdiction.

Category 5

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Industrial Welfare Commission.

Category 6

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that he or she knows or has reason to know is directly and materially subject to regulation by the Industrial Welfare Commission based on consideration of the recommendations of the wage board to which the public member belongs.

Category 7

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know: (1) is directly subject to regulation by the Division of Industrial Accidents; (2) engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business; or (3) has within the preceding 2 years contracted or plans to contract with the Division of Industrial Accidents.

Category 8

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know: (1) is directly subject to regulation by the Division of Industrial Accidents; (2) engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business; or (3) has within the preceding 2 years contracted or plans to contract with the Division of Industrial Accidents, to the extent the business entity or source of income is subject to such regulation or engages in or derives its income from such insurance business within the geographic area over which the employee exercises jurisdiction. Workers' compensation judges performing judicial functions are also subject to the provisions of the California Code of Judicial Conduct.

Category 9

Designated employees assigned to this category must report:

Investments in business entities and sources of income which they know or have reason to know have within the preceding 2 years contracted, or plan to contract, with the Division of Industrial Accidents to provide services, supplies, materials, or machinery of any type to the Division, or have so contracted or plan to contract with the Department to serve the Division in said manner.

Category 10

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know: (1) is directly subject to regulation by the Division of Industrial Accidents; (2) engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business; or (3) has within the preceding 2 years contracted or plans to contract with the Division of Industrial Accidents.

Category 11

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is a Self-Insurer for purposes of workers' compensation liability, has applied in the last two years or plans to apply for self-insurer status, or engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business or the administration or operation of self-insurance plans.

Category 12

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety or has within the preceding two years contracted or plans to contract with the Division of Industrial Safety.

(Register 81, No. 8—2-28-81)

Category 13

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety.

Category 14

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety within the geographic area over which they exercise jurisdiction.

Category 15

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety within the subject matter area over which they exercise jurisdiction.

Category 16

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety within the subject matter and geographic area over which they exercise jurisdiction.

Category 17

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Board or Unit for which they work.

Category 18

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Apprenticeship Standards or has within the preceding two years contracted or plans to contract with the Division of Apprenticeship Standards.

Category 19

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Apprenticeship Standards within the geographic area over which they exercise jurisdiction.

Category 20

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that she or he knows or has reason to know has within the preceding 2 years contracted, or plans to contract, with the Division of Apprenticeship Standards to provide services, supplies, materials or machinery of any type to the Division, or has so contracted or plans to contract with the Department to so serve the Division.

Category 21

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that he or she knows or has reason to know is directly and materially subject to regulation by the Department of Industrial Relations, engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business, or has within the preceding two years contracted or plans to contract with the Division of Labor Statistics and Research.

Category 22

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know has within the preceding two years contracted or plans to contract with the Division of Labor Statistics and Research to provide services, supplies, materials, or machinery of any type for purposes of data processing, reproduction, or microfilming, to the Division, or has so contracted or plans to contract with the Department to so serve the Division.

Category 23

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know engages in or derives its income from, in whole or in part, a Transit District subject to the jurisdiction of the State Conciliation Service.

Category 24

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Fair Employment Practices Commission.

(Next page is 1001)

16207.15. Reporting Format.

The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research
Post Office Box 603
San Francisco, California 94101
ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be at the discretion of the public entity provided the form can be readily understood by the person requesting the copies of the payroll records and the privacy considerations pursuant to Section 16207.18 below are complied with.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.16. Words of Certification.

The form of certification shall be as follows:

I, _____ (Name—print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record (s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named.

Date: _____ Signature: _____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.17. Fees.

The public entity furnishing copies of payroll records to the person requesting them may charge no more than one ($1.00) dollar initial processing fee (per contractor) and twenty-five (25¢) cents per page side copied.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.18. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation including arbitration, mediation or other methods of dispute resolution are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number of each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code; Section 6250 et seq., Government Code; and Section 1798 et seq., Civil Code.

16207.19. Severability.

If any provision of these regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these regulations which can be given effect without the invalid provisions or application, and to this end the provisions of these regulations are severable.

Pursuant to Section 9 of Chapter 281, Statutes 1976, and Chapter 1249, Statutes 1978, the Director has determined that the proposed action will create no additional costs to any local agency or school district as provided by Section 2231 of the Revenue and Taxation Code.

NOTE: Authority cited: Sections 54 and 1776, Labor Code; Section 9, Chapter 281, Statutes 1976; and Chapter 1249, Statutes 1978. Reference: Section 1776, Labor Code; Section 9, Chapter 281, Statutes 1976; and Chapter 1249, Statutes 1978 (8 Cal Admin. §16207.9. prior).

GROUP 4. EMPLOYMENT OF ALIENS NOT ENTITLED TO LAWFUL RESIDENCE

NOTE: Authority cited: Sections 55 and 59, Labor Code. Reference: Section 2805, Labor Code.

HISTORY:

1. New Group 4 (§§ 16209, 16209.1–16209.6) filed 3-24-72 as an emeregency; effective upon filing Register 72, o. 13.
2. Certificate of Compliance filed 6-2-72 (Register 72, No. 23).
3. Repealer of Group 4 (Article 1, Sections 16209, 16209.1–16209.6) filed 12-15-82 by OAL pursuant to Government Code Section 11349.7(j) (Register 82, No. 51).

GROUP 3. PAYMENT OF PREVAILING WAGES UPON PUBLIC WORKS

Article 1. Definitions

16000. Definitions.

The following terms are defined for general use in these regulations within Group 3, Payment of Prevailing Wages Upon Public Works:

Area of Determination. The area of determining the prevailing wage is the "locality" and/or the "nearest labor market area" as determined by the Director. In determining the area, the mobility of each craft, classification and type of work will be considered.

Awarding body. Any state or local government agency, department, board, commission, bureau, district, office, authority, political subdivision, regional district officer, employee, or agent awarding/letting a contract/purchase order for public works.

Bid. Any proposal submitted to an awarding body in competitive bidding for the construction, alteration, demolition, repair, maintenance, or improvement of any structure, building, road, property, or other improvement of any kind.

Certified. The affirmation of a person with the authority to so affirm, under the penalty of perjury that the records are originals or are full, true and correct copies of the original and depict truly, fully and correctly the craft or type of work performed, hours and days worked, and the amounts by category listed, disbursed by way of cash, check, or in whatever form or manner to each person by job classification and/or skill pursuant to a public works contract.

Chief of DAS. Chief of Division of Apprenticeship Standards or a duly authorized representative.

Chief of DLSE/Labor Commissioner. Chief of the Division of Labor Standards Enforcement or a duly authorized representative.

Chief of DLSR. Chief of the Division of Labor Statistics and Research or a duly authorized representative.

Date of Notice or Call for Bids. The date the notice inviting bids was published in a newspaper of general circulation.

DAS. Division of Apprenticeship Standards.

DLSE. The Division of Labor Standards Enforcement.

DLSR. The Division of Labor Statistics and Research.

Director. The Director of the Department of Industrial Relations or his/her duly authorized representative.

Duly Authorized Representative. An employee of the Department of Industrial Relations.

Employer Payments. Includes:

(1) The rate of contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a fund, plan, or program for the benefit of employees, their families and dependents, or retirees;

(2) The rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing benefits to employees, their families and dependents or to retirees pursuant to an enforceable commitment or agreement to carry out a financially responsible plan or program which was communicated in writing to the workers affected; and

(3) The rate of contribution irrevocably made by the contractor or subcontractor for apprenticeship or other training programs authorized by Section 3071 and/or 3093 of the Labor Code.

General Prevailing Rate of Per Diem Wages. Includes:

(1) The prevailing basic straight-time hourly rate of pay; and

(2) The prevailing rate for holiday and overtime work; and

(3) The prevailing rate of employer payments for any or all programs or benefits for employees, their families and dependents, and retirees which are of the types enumerated below:

(A) medical and hospital care, prescription drugs, dental care, vision care, diagnostic services, and other health and welfare benefits;

(B) retirement plan benefits;

(C) vacations and holidays with pay, or cash payments in lieu thereof;

(D) compensation for injuries or illnesses resulting from occupational activity;

(E) life, accidental death and dismemberment, and disability or sickness and accident insurance;

(F) supplemental unemployment benefits;

(G) thrift, security savings, supplemental trust, and beneficial trust funds otherwise designated, provided all of the money except that used for reasonable administrative expenses is returned to the employees;

(H) occupational health and safety research, safety training, monitoring job hazards, and the like, as specified in the applicable collective bargaining agreement;

(I) See definition of "Employer Payments," (3).

(J) other bonafide benefits for employees, their families and dependents, or retirees as the Director may determine; and

(4) travel time and subsistence pay as provided for in Labor Code Section 1773.8.

(b) The term "general prevailing rate of per diem wages" does not include any employer payments for:

(1) Job related expenses other than travel time and subsistence pay;

(2) Contract administration, operation of hiring halls, grievance processing, or similar purposes except for those amounts specifically earmarked and actually used for administration of those types of employee or retiree benefit plans enumerated above;

(3) Union, organizational, professional or other dues except as they may be included in and withheld from the basic taxable hourly wage rate;

(4) Industry or trade promotion;

(5) Political contributions or activities;

(6) Any benefit for employees, their families and dependents, or retirees including any benefit enumerated above where the contractor or subcontractor is required by Federal, State, or local law to provide such benefit; or

(7) Such other payments as the Director may determine to exclude.

Interested Party. When used with reference to a particular prevailing wage determination made by the Director, includes:

(1) Any contractor or subcontractor, or any organization, association, or other representative of any contractor or subcontractor likely to bid on or to perform a contract for public work which is subject to the particular prevailing wage determinations, and/or

(2) Any worker in the particular craft, classification, or type of work, who may be employed on a public work project subject to the particular prevailing wage determination, or any labor organization or other representative of such a person, including the recognized collective bargaining representative for the particular craft, classification, or type of work; and/or

(3) Any awarding body or association or other representative of awarding bodies concerned with the administration of a pubic works contract or proposed contract, which is subject to the particular prevailing wage determination.

Issue Date-Issuance. The date upon which copies of the determination of the Director are deposited in the mail.

Locality. See Labor Code Section 1724.

Maintenance. Includes:

(1) Routine, recurring and usual work for the preservation, protection and keeping of any publicly owned or publicly operated facility (plant, building, stucture, ground facility, utility system or any real property) for its intended purposes in a safe and continually usable condition for which it has been designed, improved, constructed, altered or repaired.

(2) Carpentry, electrical, plumbing, glazing, [touchup painting,] and other craft work designed to preserve the publicly owned or publicly operated facility in a safe, efficient and continuously usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures.

EXCEPTION 1: Janitorial or custodial services of a routine, recurring or usual nature is excluded.

EXCEPTION 2: Protection of the sort provided by guards or other security forces is excluded.

(3) Landscape maintenance. See Public Contract Code Section 21002.

EXCEPTION: Landscape maintenance work by "sheltered workshops" is excluded.

Nearest labor market Area. The nearest geographical area from which workers of the crafts, classifications, and types to be used in the performance and execution of the public work can be drawn for employment upon such public work.

Payroll Records. All time cards, cancelled checks, cash receipts, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidences which reflect job assignments, work schedules by days and hours, and the disbursement by way of cash, check, or in whatever form or manner, of funds to a person(s) by job classification and/or skill pursuant to a public works project.

Person. Any individual [or legal entity, including a] partnership, corporation, association, or any local, state, regional, national or international organization, public or private, or any awarding body, or any agent or officer thereof, authorized to act for or on behalf of any of the foregoing.

Political Subdivision. See Labor Code Section 1721.

Prevailing Rate. Includes:

(1) The basic hourly rate being paid to a majority of workers engaged in the particular craft, classification or type of work within the locality and in the nearest labor market area, if a majority of such workers is paid at a single rate; if there is no single rate being paid to a majority, then the single rate (modal rate) being paid to the greater number of workers is prevailing. If there is no modal rate, then an alternate rate will be established by considering the appropriate collective bargaining agreements, Federal rates, or other data such as wage survey data, including the nearest labor market area or expanded survey as provided in Article 4 of these regulations.

(2) Other employer payments as defined in Section 16000 of these regulations and as included as part of the total hourly wage rate from which the prevailing basic hourly wage rate was derived. In the event the total hourly wage rate does not include any employer payments, then the Director may establish a prevailng employer payment rate by the same procedure outlined in subsection (1) above.

(3) The rate for holiday or overtime work shall be those rates specified in the collective bargaining agreement when the basic hourly rate is based on a collective bargaining agreement rate. In the event the basic hourly rate is not based on a collective bargaining agreement, holidays and overtime (if any) included with the prevailing basic hourly rate of pay shall be prevailing.

Public Entity. For the purpose of processing requests for inspection of payroll records or furnishing certified copies thereof, "public entity" includes: the body awarding the contracts; the Division of Apprenticeship Standards (DAS), or the Division of Labor Standards Enforcement (DLSE).

Public Funds. Includes state, local and/or federal monies.

NOTE: Public funds do not include money loaned to a private entity where work is to be performed under private contract, and where no portion of the work is supervised, owned, utilized, or managed by an awarding body.

Public Works. See Sections 1720, 1720.2, 1720.3, and 1771 of the Labor Code.

Sheltered workshop. A nonprofit organization licensed by the Chief of DLSE employing mentally and/or physically handicapped workers.

Worker. See Labor Code Sections 1723 and 1772.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1191.5, 1720, 1720.2, 1720.3, 1721, 1722, 1722.1, 1723, 1724, 1770, 1771, 1772, 1773.5, 1776, 2750.5, 3071 and 3093, Labor Code; and Section 21002, Public Contract Code.

HISTORY:

1. Repealer of Group 3 (Articles 1–3, Sections 16000–16004, 16100–16101 and 16200–16205) and new Group 3 (Articles 1–4, Sections 16000–16013, 16100–16109, 16200–16206 and 16300–16305) filed 1-3-77 as an emergency; effective upon filing (Register 77, No 2). For prior history, see Register 56, No. 8.

2. New Group 3 (Sections 16000–16014, 16100–16109, 16200–16207.9) filed 2-8-78; effective thirtieth day thereafter (Register 78, No. 6).

3. Renumbering and amendment of former Sections 16000–16006 and 16008–16019 to Section 16000; renumbering and amendment of former Section 16100 to Section 16002; renumbering and amendment of former Section 16101 to Section 16203; renumbering and amendment of former Sections 16102–16105 to Section 16200; renumbering and amendment of former Section 16106 to Section 16206; renumbering and amendment of former Sections 16107(a), (b) and (c) to Sections 16201, 16202 and 16205; renumbering and amendment of former Section 16108 to Section 16204; renumbering and amendment of former Section 16200 to Section 16300; renumbering and amendment of former Sections 16007, 16201, 16202, 16204 and 16206 to Section 16302; renumbering and amendment of former Section 16207 to Section 16303; renumbering and amendment of former Sections 16207.2 and 16207.3 to Section 16304; renumbering and amendment of former Section 16207.5 to Section 16100; renumbering and amendment of former Section 16207.7 to Section 16301; renumbering and amendment of former Sections 16207.10–16207.14 to Section 16400; renumbering and amendment of former Sections 16207.15 and 16207.16 to Section 16401; renumbering and amendment of former Section 16207.17 to Section 16402; renumbering and amendment of former Section 16207.18 to Section 16403; renumbering and amendment of former Section 16207.19 to Section 16500; repealer of former sections 16100.1, 16109, 16203, 16205, 16207.1, 16207.4, 16207.6 and 16207.8; and new Sections 16001, 16101 and 16102 filed 2-11-86; effective thirtieth day thereafter (Register 86, No. 7). For prior history, see Registers 82, No. 51; 80, No. 6; 79, No. 19; 72, No. 23 and 72, No. 13.

Article 2. Work Subject to Prevailing Wages

16001. Public Works Subject to Prevailing Wage Law.

(a) General Coverage. State prevailing wage rates apply to all public works contracts as set forth in Labor Code Sections 1720, 1720.2, 1720.3, and 1771.

(b) Federally Funded or Assisted Projects. The application of state prevailing wage rates when higher is required whenever federally funded or assisted projects are controlled or carried out by California awarding bodies of any sort.

(c) Field Surveying Projects. Field survey work traditionally covered by collective bargaining agreements is subject to prevailng wage rates when it is integral to the specific public works project in the design, preconstruction, or construction phase.

(d) Residential Projects. Residential projects consisting of single family homes and apartments up to and including four stories are subject to payment of prevailing wages when paid for in whole or in part out of public funds, including federally-funded or assisted residential projects controlled or carried out by an awarding body.

NOTE: Such projects may require a special determination by the Director which should be requested by the awarding body at least 45 days before the commencement of advertising of the call for bids by the awarding body.

(e) Maintenance. Public works contracts for maintenance are subject to prevailing wage rate payment as set forth in Section 1771 of the Labor Code.

NOTE: See Article 1 for definition of term "maintenance".

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3 and 1771, Labor Code.

16002. Coverage of Worker.

The determinations of the Director will cover those crafts, classifications or types of workers employed in public works as set forth in Sections 1720, 1720.2, 1720.3, and 1771 of the Labor Code.

NOTE: Authority cited: Sections 1723 and 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3 and 1771, Labor Code.

Article 3. Duties, Responsibilities, and Rights of Parties

16100. Duties, Responsibilities and Rights.

The parties listed in this section must comply with the provisions of the Labor Code applicable to the payment of prevailing wages on public works contracts.

(a) Department and Division Authority in Prevailing Wage Issues. The Director shall establish and coordinate the administration of the State's prevailing wage law, including the determination of coverage issues. The lead agency for the determination of prevailing wage rates shall be the Division of Labor Statistics and Research. The lead agency for the enforcement of the payment of prevailing wages is the Division of Labor Standards Enforcement. The lead agency for the coordination on apprenticeship is the Division of Apprenticeship Standards. This section shall not be construed to preclude any filing requirements with DLSR of appropriate agreements or petitions regarding determinations or any other documents, papers, books, etc. otherwise required by the law or these regulations.

(b) The Awarding Body shall:

(1) Obtain the prevailing wage rate from the Director in accordance with Labor Code Sections 1771 and 1773.

(2) Specify the appropriate prevailing wage rates, in accordance with Labor Code Sections 1773.2 and 1777.5.

(A) The posting requirement is applicable for each job site.

EXCEPTION: If more than one worksite exists on any project, then the applicable rates may be posted at a single location which is readily available to all workers.

(B) If a wage rate for a craft, classification or [type of] worker is not published in the Director's general prevailing wage determinations, a request for a special determination should be made by the awarding body to Chief, Division of Labor Statistics and Research, P. O. Box 603, San Francisco, CA 94101, at least 45 days prior to the project bid advertisement date.

(3) Notify DAS. See Labor Code Section 1773.3.

(4) Inform prime contractors, to the extent feasible, of relevant public work requirements:

NOTE: Requirement information may be disseminated at a preacceptance of bid conference or in a call for bids or at an award of bid conference.

The public works requirements are:

(A) the appropriate number of apprentices are on the job site, as set forth in Labor Code Section 1777.5.

(B) worker's compensation coverage, as set forth in Labor Code Sections 1860 and 1861.

(C) keep accurate records of the work performed on the public works project, as set forth in Labor Code Section 1812.

(D) inspection of payroll records pursuant to Labor Code Section 1776, and as set forth in Section 16400 (e) of these regulations.

(E) and other requirements imposed by law.

(5) Withhold monies. See Labor Code Section 1727.

(6) Ensure that public works projects are not split or separated into smaller work orders or projects for the purpose of evading the applicable provisions of Labor Code Section 1771.

(7) Deny the right to bid on public work contracts to contractors or subcontractors who have violated public work laws, as set forth in Labor Code Section 1777.7.

(8) Not permit workers on public works to work more than eight hours a day or 40 hours in any one calendar week, unless compensated at not less than time and a half as set forth in Labor Code Section 1815.

EXCEPTION: If the prevailing wage determination requires a higher rate of pay for overtime work than is required under Labor Code Section 1815, then that higher overtime rate must be paid [, as specified in subsection 16200(a) (3) (F) of these regulations.]

(9) Not take or receive any portion of the workers' wages or accept a fee in connection with a public works project, as set forth in Labor Code Sections 1778 and 1779.

(10) Comply with those requirements as specified in Labor Code Sections 1776(g), 1777.5, 1810, 1813, and 1860.

(c) Contractor-subcontractor.

The contractor and subcontractor shall:

(1) Pay not less than the prevailing wage to all workers, as defined in Section 16000(a) of these regulations, and as set forth in Labor Code Sections 1771 and 1774;

(2) Comply with the provisions of Labor Code Sections 1773.5, 1775, and 1777.5 regarding public works jobsites;
(3) Provide workers' compensation coverage as set forth in Labor Code Section 1861;
(4) Comply with Labor Code Sections 1778 and 1779 regarding receiving a portion of wages or acceptance of a fee;
(5) Maintain and make available for inspection payroll records, as set forth in Labor Code Section 1776;
(6) Pay workers overtime pay, as set forth in Labor Code Section 1815 or as provided in the collective bargaining agreement adopted by the Director as set forth in Section 16200 (a) (3) of these regulations; and
(7) Comply with Section 16101 of these regulations regarding discrimination.
(8) Be subject to provisions of Labor Code Section 1777.7 which specifies the penalties imposed on a contractor who willfully fails to comply with provisions of Section 1777.5.
(9) Comply with those requirements as specified in Labor Code Sections 1810 and 1813.
(10) Comply with other requirements imposed by law.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1726, 1727, 1728, 1729, 1771, 1773, 1773.2, 1773.3, 1773.4, 1773.5, 1774, 1775, 1776, 1777.5, 1777.7, 1778, 1779, 1810, 1811, 1812, 1813, 1815, 1860 and 1861, Labor Code.

16101. Discrimination.

See Labor Code Sections 1735, 1777.5, 1777.6, and 3077.5.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1735, 1777.5, 1777.6 and 3077.5, Labor Code.

16102. Interested Party.

An interested party, as defined in Section 16000 of these regulations, may be a source of wage data information, as provided in Section 16200(e) of these regulations.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.4, Labor Code.

Article 4. Wage Determinations

16200. General; Basis For Determining Prevailing Wage Rate.

The Director shall follow those procedures specified in Sections 1773 and 1777.5 of the Labor Code and in these regulations when making a prevailing wage determination.
(a) Collective Bargaining Agreements.
(1) Filing of collective bargaining agreements.
(A) To enable the Director to ascertain and consider the applicable wage rates established by collective bargaining agreements when making prevailing wage determinations, the representatives of any crafts, classifications, or types of workers needed to execute any public works contracts shall file with the Department of Industrial Relations fully executed copies of all their collective bargaining agreements, including any addenda which modify the agreements, as soon as practicable after their execution.

(B) Copies of collective bargaining agreements filed with the Department of Industrial Relations pursuant to Sections 1773.1 and 1773.8 of the Labor Code, and Section 16200(a)(1)(A) of these regulations shall be filed with and addressed to: Chief, Division of Labor Statistics and Research, P.O. Box 603, San Francisco, CA 94101.

(C) Collective bargaining agreements filed with the Division of Labor Statistics and Research must be accompanied by a signed statement which is certified as true and correct to the best of the knowledge and belief of the person preparing the statement, under penalty of perjury, and which:

1. certifies that the agreement filed is fully executed and in effect, unless it is a signed original agreement or photocopy thereof, or a printed copy of a fully executed agreement showing the names of the signatory parties, except in the case of a printed agreement the Director may require certification;

2. names or otherwise identifies all California counties within the jurisdiction of the local union or unions signatory to the agreement;

3. names and provides the address of the signatory employer association or, if there be no signatory employer association, provides the names and addresses of all contractors signatory to the agreement, unless such information is contained in the agreement;

4. provides the number of workers currently employed under the terms of the agreement and, if practicable, the number of workers in each county within the jurisdiction of the signatory local union or unions;

5. provides any other information not contained in the agreement that the Director may need to give proper consideration to applicable wage rates established by collective bargaining.

(D) Copies of collective bargaining agreements which are not bona fide shall not be deemed filed. The party filing a contract may be asked to substantiate the assertion that such collective bargaining agreement is bona fide.

(2) Criteria for using collective bargaining agreement wage rates as basis of prevailing wage determinations. Before accepting the collective bargaining agreement wage rate for the applicable craft and locality, DLSR shall take the following factors into consideration:

(A) The geographical area(s) specified in the agreement;

(B) The number of workers covered by the agreement;

(C) If signatory parties to the agreement have workers in the geographical area(s);

(D) If work has been performed in the geographical area(s) specified in the agreement in the past 12 months;

(E) The wage rates determined by the federal government as set forth in Section 16200(b).

(3) Adoption of Collective Bargaining Agreements.

(A) If the Director determines pursuant to Section 1773 of the Labor Code that the rate established by a collective bargaining agreement is the general prevailing rate of per diem wages for each craft, classification or type of worker and the Director adopts such rate by referral, the Director will publish such rate. Only those rates and employer payments specifically enumerated in the definition of "general prevailing rate of per diem wages" in Section 16000 shall be included in the rate adopted.

(B) When such rate is adopted, and in the case where the collective bargaining agreement contains definite and predetermined changes during its term which will affect the rate adopted, the Director shall incorporate such changes in the determination.

NOTE: A statement must be filed with the Director for any adjustments made to a contract which are not contained in the agreement currently on file with DLSR.

(C) When such rate is adopted, and in the case where the collective bargaining agreement contains changes during its term which will affect the rate adopted, which are not definite or predetermined, the changes shall not be adopted. The prior determination will remain in effect until a new determination is issued. Any interested party may request that the Director make a new determination when contract changes become definite and determined by filing a statement as set forth in Section 16200(a)(1). The statement must summarize the amounts and effective dates of any cost-of-living adjustments, allocations of interim wage increases to wages and employer payments, and other relevant changes which will affect the rate adopted by the Director. The statement must be signed by an officer or agent of the bargaining representative and certified, under penalty of perjury, as true and correct to the best of his or her knowledge and belief.

(D) When such agreement is adopted as the basis of the prevailing wage determination, all wage classifications, work rules, and manning requirements may be considered. In such cases, the Chief of DLSR may include such provisions in the prevailing wage determination.

(E) Holidays. Only Federal and/or State legally recognized holidays specifically named in the collective bargaining agreement or determined by wage surveys shall be included in the wage determination. Overtime pay may be required as provided in 16200(a)(3)(F) of these regulations.

(F) Overtime. Overtime will be paid as indicated in the wage determination.

EXCEPTION 1: If a workweek other than Monday through Friday is a fixed business practice or is required by the awarding body, or if the collective bargaining agreement provides for Saturday and Sunday work at straight-time, no overtime payment is required for the first eight hours on Saturday or Sunday if approved in advance by the Director.

EXCEPTION 2: If work cannot be performed during normal business hours and work is necessary at off hours to avoid danger to life or property.

EXCEPTION 3: Nonwork days specified in collective bargaining agreements.

EXCEPTION 4: No overtime payment required for less than 40 hours in a standard work week or for less than eight hours in a calendar workday unless specified in the collective bargaining agreement used as the basis for the prevailing wage determination.

(G) Wage rates, training contributions and apprenticeship contributions. Apprenticeship rates shall be determined by the Director of Industrial Relations using apprentice wage standards set forth in the collective bargaining agreement and/or approved by the California Apprenticeship Council. A contractor or subcontractor on a public works contract must pay training fund contributions or apprenticeship contributions in one of the following manners:

1. into the appropriate craft apprenticeship program in the area of the site of the public work; or

2. (if the trust fund is unable to accept such contributions) an equivalent amount shall be paid to the California Apprenticeship Council (CAC) administered by DAS.

3. If neither of the above will accept the funds, cash pay shall be as provided for in Section 16200(a)(3)(I) of these regulations.

(H) Rates for helpers. Rates for helpers will be published when the information available to the Director indicates that a practice of using such a subclassification prevails in a particular area, such as contained in a collective bargaining agreement, and within the parameters of the applicable collective bargaining agreement. In the absence of such determination, the helper classification may not be used as a substitute for a journeyman or apprentice. This section does not exempt the contractor from the 1-5 apprentice-journeyman ratio requirements set forth in Labor Code Section 1777.5.

(I) Payment of cash in lieu of employer payments. A contractor that is nonsignatory to a collective bargaining agreement or does not contribute to a trust fund may pay that amount of fringe benefits required, either in cash to the employee, or pay the particular fringe benefit amount designated in the appropriate wage determination to a benefit plan on behalf of the worker. Under no circumstance shall the contractor pay any amount less than is established by the applicable wage determination for the particular fringe benefit to a benefit plan, account, trust fund, or cash payment to the employee.

(b) Federal rates. In reviewing rates predetermined for federal public works, the Director will consider those rates published in the Federal Register.

(c) Data collection shall be in accordance with Labor Code Section 1773.

(d) Wage rate factors.

NOTE: Wage surveys are conducted by DLSR.

(1) The following factors shall be considered:

(A) Type of work to be performed;

(B) Classification(s) of worker(s) needed;

(C) Geographical area of project;

(D) Nearest labor market area;

(E) If work has been performed in the geographical area in the past 12 months.

(F) Mobility of craft, classification, or type of worker needed for project;

(G) Number of workers in craft or job classification;

(H) Normal industry practice in selection of craft and classification of worker;

(I) Size (dollar amount) of project;

(J) Degree of project's remoteness from survey area.

(2) Time period used in determining prevailing wage by survey. The time period reference for establishing the prevailing wage in the area of determination shall be the 12-month period prior to the request for a wage determination unless another time period is necessary. In such cases, the Director shall establish the appropriate time period.

(e) Other information. Pursuant to Section 1773 of the Labor Code, the Director may also obtain and consider other data from interested parties, and shall give consideration to data submitted by any interested party, concerning rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area. Such data may be obtained by holding a hearing, instituting an investigation, or by such other

means as the Director determines will best serve the purposes of the law. Information submitted by interested parties for the Director's consideration shall include, but not be limited to the following for each project:

(1) the name, address, job title, and telephone number of the interested party submitting the information and the basis for qualification as an interested party under Section 16102;

(2) the basic hourly wage rate, overtime and holiday pay rates, and employer payments as enumerated in Section 16000 of these regulations for each classification in question as effective for the last payroll period, or most recent payroll period, for which payments based on such rates were actually made;

(3) the number of workers employed on the project in each classification in question during the payroll period for which data is submitted;

(4) the location of the project;

(5) the name and address of the contractor or subcontractor making the payments, and of all other contractors or subcontractors on the project;

(6) the type of construction (e.g. residential, commercial building, etc.);

(7) the approximate cost of construction;

(8) the beginning date and completion date, or estimated completion date of the project;

(9) the source of data (e.g. "payroll records");

(10) the method of selection of the projects for which data is submitted, when data is not submitted for all projects recently completed or in progress in the locality or in the nearest labor market area.

NOTE: Authority cited: Sections 1773 and 1773.5, Labor Code. Reference: Sections 1770, 1771, 1773, 1773.1, 1773.5, 1777.5, 1810 and 1815, Labor Code.

16201. General Area Determinations.

When the Director determines that the general prevailing rate of per diem wages for a particular craft, classification, or type of worker is uniform throughout an area, the Director shall issue a determination enumerated county by county, but covering the entire area. Such determinations will ordinarily be made for an entire county or group of counties and shall constitute the Director's determination for all localities in which public work is performed within that county or counties except as the geographic application of the determination may be specifically limited by the determination itself.

NOTE: General determinations are usually issued on a quarterly basis. However, the Director may issue an interim wage determination following the procedures set forth in Section 1773 of the Labor Code, and in these regulations. See Section 16000 as to issue date, and Section 16204 as to effective date of determination. The general determination usually applies where a collective bargaining agreement has been filed and adopted as the prevailing wage rate.

NOTE: Authority cited: Sections 1773.5 and 1773.6, Labor Code. Reference: Section 1773, Labor Code.

16202. Special Determinations.

(a) Awarding body request. The awarding body shall request the Director to make a determination for a particular craft, classification or type of worker not covered by a general determination. Any such request shall be submitted at least 45 days prior to the bid advertisement date.

(b) Department of Industrial Relations initiated determination. Where an awarding body does not specify the prevailing wage rate as set forth in Labor

Code Section 1773.2, any interested party (as defined in Section 16000 of these regulations) may petition the Director as set forth in Labor Code Section 1773.4 and Section 16302 of these regulations. The Labor Commissioner may, prior to the letting of the bid, request such a determination of the Director.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1773 and 1773.4, Labor Code.

16203. Format.

(a) All determinations made by the Director of the general prevailing rate of per diem wages for a particular craft, classification, or type of worker will separately specify each of the following components:

(1) The prevailing basic straight-time hourly wage rate.

(2) The following statement when applicable: "In accordance with Labor Code Section 1773, holidays upon which the prevailing hourly wage rate for holiday work shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workers employed on the project, which is on file with the Director of Industrial Relations."

(3) The prevailing employer payments for benefits included in the general prevailing rate of per diem wages pursuant to Section 1773.1 of the Labor Code and enumerated in Section 16000 of these regulations.

(4) The following statement when applicable. "The contractor shall make travel and subsistence payments to each worker needed to execute the work, as such travel and subsistence payments are defined in the applicable collective bargaining agreements filed with the Director of Industrial Relations in accordance with Labor Code Section 1773.8."

(b) Where the prevailing employer payment for any benefit is expressed in a formula or method of payment other than an hourly rate the Director may convert the rate to an hourly rate whenever such action would facilitate the administration of the law.

(c) The applicability of the apprentice rate of per diem wages shall be indicated and furnished upon request.

(d) The dates between which the applicable rate shall be paid for work performed in those periods shall be indicated.

(e) As a supplement to each determination the Director shall make available to any awarding body upon request, a list of all holidays recognized and the provision for travel and subsistence payments, taken from the applicable collective bargaining agreement.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.5, Labor Code.

16204. Effective Dates of Determination and of Rates Within Determination.

(a) Effective date of determination.

(1) All determinations issued will be effective ten (10) days after issuance, provided that requests for copies, reprints or reissuance of prior determinations shall not affect the original effective date unless a new effective date is reflected upon the determination (see subdivision (3) below). Any call for bids put out on or after the effective date of the determination must reflect that determination unless the Director determines that subdivision (4) of this section is applicable, after notification and request by an awarding body.

(2) Determinations issued by the Director will show an issue date and will ordinarily show an expiration date.

(3) All determinations will remain in effect until their expiration date unless earlier modified, corrected, rescinded or superseded by the Director.

(4) Determinations modified, corrected, rescinded or superseded on the basis of information contained in copies of collective bargaining agreements filed with the Department shall not be effective as to any project in which a call for bids takes place less than 30 days after the filing of the agreement.

NOTE: See Section 1773.1 of the Labor Code.

(5) It shall be the responsibility of the awarding body to ensure that the correct determination is used.

(b) Modification of Effective Date of Determination by Asterisks. Meaning of single and double asterisks. Prevailing wage determinations with a single asterisk (*) after the expiration date are in effect on the date of advertisement for bids and are good for the life of the project. Prevailing wage determinations with double asterisks (**) after the expiration date indicate that the wage rate to be paid for work performed after this date has been determined. If work is to extend past this date, the new rate must be paid and should be incorporated in contracts entered into now. The contractor should contact the Prevailing Wage Unit, DLSR, to obtain predetermined wage changes. All determinations that do not have double asterisks (**) after the expiration date are good for the life of the project.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1773 and 1773.1, Labor Code.

16205. Procedures for Obtaining Prevailing Wage Determinations.

An awarding body may request to be put on a mailing list for all area wage determinations for a specific county or counties or may request that a special or general prevailing wage determination be furnished when needed, by writing to Chief, Division of Labor Statistics and Research, P.O. Box 603, San Francisco, CA 94101. All requests for special prevailing wage determinations must be confirmed in writing and must specify the location where the public work is to be performed, including the county and the particular crafts, classifications, or types of workers for which a determination is needed.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770 and 1773, Labor Code.

16206. Corrections.

Upon his or her own initiative or at the request of any interested party, the Director shall correct any error in a published determination that is the result of clerical error, such as a typographical error or a transposition of letters or digits, by issuing a corrected determination or a modification of the determination. The Director may correct any error issued in a determination by reissuing such determination.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770 and 1773, Labor Code.

Article 5. Petitions to Review Prevailing Wage Determinations

16300. Delegation of Authority.

(a) The Chief of DLSR is the authorized representative of the Director for the purpose of:

(1) Receiving collective bargaining agreements and other documents and papers pertaining to making prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these regulations;

(2) Gathering information needed to make prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these regulations, and may for that purpose institute investigations, conduct hearings, or employ such other means as shall best serve the purpose of the law;

(3) Issuing prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these regulations; and

(4) Responding to petitions regarding determinations.

(b) The Director reserves the right to make all final determinations.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1771, 1772, 1773 et seq., 1774, 1775, 1776, 1777, 1777.5 et seq., 1778, 1779 and 1780, Labor Code.

16301. Referral of Prevailing Wage Issues to Director's Office.

Any new or unresolved issue other than of a routine nature as to coverage of or amount of the prevailing wage raised by an awarding body or other interested party may be referred to the Chief of DLSR as the Director's duly authorized representative for final determination, including appeals of any determination relating either to coverage or to the rate of the prevailing wage rate, subject only to Section 16300(b) of these regulations.

Note: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.4, Labor Code.

16302. Petition to Review Prevailing Wage Determinations.

Those interested parties enumerated in Section 1773.4 of the Labor Code, and defined in Section 16000 of these regulations, may file with the Director or the Chief of DLSR, within 20 days after commencement of advertising of a call for bids by any awarding body, a petition to review a determination of any rate or rates made by the Director, pursuant to Section 1773 of the Labor Code, which is specified in or referred to in the call for bids.

(a) Manner of Filing. Every petition filed pursuant to Section 1773.4 of the Labor Code shall be filed with the Director by mail to the Chief, Division of Labor Statistics and Research, P.O. Box 603, San Francisco, CA 94101, or may be filed in person at 525 Golden Gate Avenue, 4th Floor, San Francisco, CA 94102.

(b) Filing. Where any paper, letter, petition, or document is required or permitted to be filed pursuant to these regulations or pursuant to the prevailing wage provisions of the Labor Code, it shall be deemed filed with any person, awarding body or division upon actual delivery to and receipt by such person, awarding body, or division.

(c) Content of Petition. Every petition filed pursuant to Section 1773.4 of the Labor Code shall contain and separately state the following:

(1) The name, address, telephone number and job title of:

(A) the person filing the petition;

(B) the person verifying the petition, if different from the person filing;

(C) if applicable, petitioner's attorney or authorized representative.

(2) Whether the petitioner is an awarding body, a prospective bidder, or the representative of one or more crafts, classifications or types of workers involved in the public works contract;

(3) The nature of petitioner's business, if a prospective bidder, and a designation of each craft, classification, or type of worker represented, or types of workers involved in the public works project.

(4) (A) the official name of the awarding body;
(B) the date on which the call for bids was first published;
(C) the name and location of the newspaper in which such publication was made. An accurate copy of the call for bids as published shall be attached to the petition.

(5) If petitioner is an awarding body which is a department, board, authority or political subdivision other than a county, city and county, city, township, or regional district, the awarding body shall describe the parent or principal organization of which it is a part, and shall specify the statutory authority for undertaking public works.

(6) If the petitioner is a prospective bidder, then the parent or subsidiary corporations or associations related to such craft, classification or type of work, if any, shall be specified.

(7) The manner in which the wage rate determined by the Director fails to comply with the provisions of Labor Code Section 1773.

(A) Every petition asserting that the applicable prevailing rate for one or more crafts, classifications or types of workers needed to execute a contract is different from that ascertained by the Director shall set forth the rate the petitioner claims to be correct for each disputed rate, together with specific reference to particular facts providing the basis for such claim.

1. Whenever such facts relate to a particular employer of such crafts, classifications, or types of workers, the facts stated must identify the employer by name and address and give the number of workers involved.

2. Whenever such facts relate to an applicable collective bargaining agreement which the petitioner alleges was not considered by the Director pursuant to Section 1773 of the Labor Code, a copy of the agreement, if not already filed with the Director, should be filed concurrently with the petition in the manner provided in Section 16200(a)(1) of these regulations.

3. Whenever such facts relate to rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area, the facts stated should include all of the items of information enumerated in Section 16200(e) of these regulations.

(B) Every petition asserting that the Director has failed to ascertain and consider all applicable rates required to be considered by it shall specifically state in the petition which rates have not been considered by the Director.

(C) Where rates ascertained by the Director are the same as the applicable rates established by the collective bargaining agreement and rates of pay determined for federal public works within the locality and the nearest labor market area where the public work is performed, the petition shall specifically describe the manner and extent to which such rates do not constitute the rates actually prevailing in the locality where the public work is to be performed, and shall set forth and fully identify the existence of any rates asserted by petitioner to be prevailing in the locality and relied upon in support of the petition.

(d) Filing Copy With Awarding Body. If the petitioner is not an awarding body, the petitioner may concurrently with the filing of the original petition, or otherwise shall within two days thereafter, excluding Saturdays, Sundays and holidays, file a copy of the petition with the awarding body and not later than five days, excluding Saturdays, Sundays and holidays, after the filing of the original petition, the petitioner shall file with the Chief of DLSR an affidavit of the filing with the awarding body. The Director may waive this requirement upon receipt of written confirmation, including a copy of such notification by the petitioner.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1773, 1773.1, 1773.4, 1773.5, 1773.8 and 1776, Labor Code.

16303. Quasi-Legislative Nature of Authority.

(a) The authority of the Director to establish the prevailing wage for any craft, classification, or type of worker is quasi-legislative. The Director has the discretion to establish these prevailing wages in a quasi-legislative manner which may include an investigation, hearing, or other action. Any hearing under this process is quasi-legislative and is subject to review pursuant to the Code of Civil Procedure Section 1085.

(b) The Director may in his or her discretion initiate an investigation or hold a hearing or take such other action as is reasonably necessary which would best effectuate the purposes of the law and of these regulations, except as such action may be expressly prohibited by law.

NOTE: Authority cited: Section 1773.5, Labor Code; and Winzler & Kelly (1981) 121 C.A. 3d 120; *Western Assn. of Engineers & Land Surveyors* v. *DIR*, Judicial Council Coord. Proceeding No. 449, Sac. Superior Court No. 285433. Reference: Sections 1770, 1773 and 1773.4, Labor Code; and Section 1085, Code of Civil Procedure.

16304. Hearings.

When a hearing is held, including a petition to review under Labor Code Section 1773.4, it shall be in accordance with the following procedures:

(a) Hearing Procedures.

(1) A time and place of the hearing shall be fixed.

(2) All interested parties made known to the Director shall be notified by registered or certified mail, return receipt requested, of the time and place of the hearing except that, in the event of numerous interested parties or in the event that mailing notices by registered or certified mail could cause an undue delay adverse to the interest of the parties or a timely hearing, the Director may send certified or registered notices to the petitioner and other directly interested parties that have been made known to the Director and mail notices to the other parties, and publish such notices in newspapers.

(3) Notification of the time and place of the hearing shall be at least one week in advance.

(4) The interested parties shall be given an opportunity to present evidence and oral or written arguments in support of their positions. The hearing officer may fairly allocate time for such witnesses' testimony in the interest of introducing relevant evidence. Cross examination will be permitted at the discretion of the hearing officer.

(5) The hearing need not be conducted according to technical rules relating to evidence and witnesses.

(6) All witnesses testifying before the hearing officer shall testify under oath.

(7) A full transcript of the hearing shall be recorded.

(b) Hearing Officer. The Director may appoint a hearing officer(s). The appointed hearing officer(s) shall conduct the hearing and submit to the Director the entire record of the hearing together with written recommendations. Either the appointed hearing officer(s) or the Director may request documentation subsequent to the hearing to complete the record, and shall send copies of such additional information to the petitioner, awarding body or other designated interested party or parties.

(c) Subject Matter. The subject matter of a hearing may be initiated by a petition to review, as set forth in Labor Code Section 1773.4.

(d) Decision. The decision of the Director shall reflect a summary of the evidence, findings, or matters of fact and/or law.

The decision shall be sent to all parties no later than 20 days after the hearing, except earlier or later as special circumstances warrant. The decision of the Director shall be final, for the purposes of judicial review, except that the Director upon his or her initiative only, may consider and take whatever action is appropriate or necessary to facilitate a decision on reconsideration. Notice of reconsideration shall be given to all parties in the same manner as the notice of hearings as specified in Sections 16304(a)(2) and (a)(3) above and the decision upon reconsideration shall be as specified in subdivisions (a)(2) and (a)(3) of this section.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1773.4 and 1773.5, Labor Code.

Article 6. Certified Payroll Records: Requests, Content, and Cost

16400. Request for Payroll Records.

(a) Requests may be made by any person for certified copies of payroll records. Requests shall be made to any of the following:

(1) the body awarding the contract, or

(2) any office of the Division of Labor Standards Enforcement, or the Division of Apprenticeship Standards.

(b) Requests for certified copies of payroll records pursuant to Section 1776 of the Labor Code may be made by any person. However, any such request shall be in writing and contain at least the following information:

(1) The body awarding the contract;

(2) The contract number and/or description;

(3) The particular job location if more than one;

(4) The name of the contractor;

(5) The regular business address, if known.

NOTE: Requests for records of more than one contractor of subcontractor must list the information regarding that contractor individually, even if all requests pertain to the same particular public works project. Blanket requests covering an entire public works project will not be accepted; unless contractor and subcontractor responsibilities regarding the project are not clearly defined.

(c) Acknowledgment of Request. The public entity receiving a request for payroll records shall acknowledge receipt of such, and indicate the cost of providing the payroll records based on an estimate by the contractor, subcontractor or public entity. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16400(d) below, to the person who requested said records.

(d) Request to Contractor. The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following:

(1) Specify the records to be provided and the form upon which the information is to be provided;

(2) Conspicuous notice of the following:

(A) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and

(B) that failure to provide certified copies of the records to the requesting public entity within 10 working days of the receipt of the request will subject the contractor to a penalty of twenty-five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated;

(3) Cost of preparation as provided in Section 16402; and
(4) Provide for inspection.
(e) Inspection of Payroll Records. Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of Section 1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

16401. Reporting of Payroll Requests.

(a) Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research
P.O. Box 603
San Francisco, CA 94101
ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be conditioned upon the requirement that the alternate format contain all of the information required pursuant to Labor Code Section 1776. If, however, the contractor does not comply with the provisions of Labor Code Section 1776, the Labor Commissioner may require the use of DIR's suggested format, "Public Works Payroll Reporting Form" (Form A-1-131).

(b) Words of Certification. The form of certification shall be as follows:

I, _____ (Name-print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash. check, or whatever form to the individual or individuals named.

Date: _____ Signature: _____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1776, Labor Code.

16402. Cost.

The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

NOTE: Authority cited: Section 1776, Labor Code. Reference: Section 1776(h), Labor Code.

16403. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed

unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Section 1776, Labor Code.

Article 7. Severability

16500. Severability.

If any provision of these regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these regulations which can be given effect without the invalid provisions or application, and to this end the provisions of these regulations are severable.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

(Register 86, No. 7—2-15-86)

GROUP 5. DEPARTMENT OF INDUSTRIAL RELATIONS— CONFLICT OF INTEREST CODE

17000. General Provisions.

The Political Reform Act, Government Code Sections 81000, *et seq.*, requires state and local government agencies to adopt and promulgate Conflict of Interest Codes. The Fair Political Practices Commission has adopted a regulation, 2 Cal. Adm. Code Section 18730, which contains the terms of a standard Conflict of Interest Code, which can be incorporated by reference, and which may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act after public notice and hearings. Therefore, the terms of 2 Cal. Adm. Code Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission, along with the attached Appendix in which officials and employees are designated and disclosure categories are set forth, are hereby incorporated by reference and constitute the Conflict of Interest Code of the Department of Industrial Relations.

Pursuant to Section 4(A) of the standard Code, designated employees shall file statements of economic interests with the agency. Upon receipt of the statement of the Director, the agency shall make and retain a copy and forward the original of this statement to the Fair Political Practices Commission.

NOTE: Authority cited: Sections 87300 and 87304, Government Code. Reference: Section 87300, *et seq.*, Government Code.

HISTORY:

1. New Group 5 (Articles 1–7, Sections 17000–17800, not consecutive) filed 12-2-77; effective thirtieth day thereafter. Approved by the Fair Political Practices Commission 1-19-77 (Register 77, No. 49).

2. Repealer of Group 5 (Articles 1–7, Sections 17000–17800, not consecutive) and new Group 5 (Section 17000 and Appendix) filed 2-26-81; effective thirtieth day thereafter. Approved by Fair Political Practices Commission 12-1-80 (Register 81, No. 9).

Deputy Labor Commissioner II, III and IV and Senior Special Investigator	4
Chairman, Commissioner, Executive Secretary, (Industrial Welfare Commission)	5
Public Member, wage board (Industrial Welfare Commission)	6

(B) When such rate is adopted, and in the case where the collective bargaining agreement contains definite and predetermined changes during its term which will affect the rate adopted, the Director shall incorporate such changes in the determination.

NOTE: A statement must be filed with the Director for any adjustments made to a contract which are not contained in the agreement currently on file with DLSR.

(C) When such rate is adopted, and in the case where the collective bargaining agreement contains changes during its term which will affect the rate adopted, which are not definite or predetermined, the changes shall not be adopted. The prior determination will remain in effect until a new determination is issued. Any interested party may request that the Director make a new determination when contract changes become definite and determined by filing a statement as set forth in Section 16200(a)(1). The statement must summarize the amounts and effective dates of any cost-of-living adjustments, allocations of interim wage increases to wages and employer payments, and other relevant changes which will affect the rate adopted by the Director. The statement must be signed by an officer or agent of the bargaining representative and certified, under penalty of perjury, as true and correct to the best of his or her knowledge and belief.

(D) When such agreement is adopted as the basis of the prevailing wage determination, all wage classifications, work rules, and manning requirements may be considered. In such cases, the Chief of DLSR may include such provisions in the prevailing wage determination.

(E) (Reserved)

(F) Overtime. Overtime will be paid as indicated in the wage determination.

EXCEPTION 1: If a workweek other than Monday through Friday is a fixed business practice or is required by the awarding body, or if the collective bargaining agreement provides for Saturday and Sunday work at straight-time, no overtime payment is required for the first eight hours on Saturday or Sunday if approved in advance by the Director.

EXCEPTION 2: If work cannot be performed during normal business hours and work is necessary at off hours to avoid danger to life or property.

EXCEPTION 3: Nonwork days specified in collective bargaining agreements.

EXCEPTION 4: No overtime payment required for less than 40 hours in a standard work week or for less than eight hours in a calendar workday unless specified in the collective bargaining agreement used as the basis for the prevailing wage determination.

(G) Wage rates, training contributions and apprenticeship contributions. Apprenticeship rates shall be determined by the Director of Industrial Relations using apprentice wage standards set forth in the collective bargaining agreement and/or approved by the California Apprenticeship Council. A contractor or subcontractor on a public works contract must pay training fund contributions or apprenticeship contributions in one of the following manners:

1. into the appropriate craft apprenticeship program in the area of the site of the public work; or

2. (if the trust fund is unable to accept such contributions) an equivalent amount shall be paid to the California Apprenticeship Council (CAC) administered by DAS.

3. If neither of the above will accept the funds, cash pay shall be as provided for in Section 16200(a)(3)(I) of these regulations.

(H) Rates for helpers. Rates for helpers will be published when the information available to the Director indicates that a practice of using such a subclassification prevails in a particular area, such as contained in a collective bargaining

agreement, and within the parameters of the applicable collective bargaining agreement. In the absence of such determination, the helper classification may not be used as a substitute for a journeyman or apprentice. This section does not exempt the contractor from the 1-5 apprentice-journeyman ratio requirements set forth in Labor Code Section 1777.5.

(f) Payment of cash in lieu of employer payments. A contractor that is nonsignatory to a collective bargaining agreement or does not contribute to a trust fund may pay that amount of fringe benefits required, either in cash to the employee, or pay the particular fringe benefit amount designated in the appropriate wage determination to a benefit plan on behalf of the worker. Under no circumstance shall the contractor pay any amount less than is established by the applicable wage determination for the particular fringe benefit to a benefit plan, account, trust fund, or cash payment to the employee.

(b) Federal rates. In reviewing rates predetermined for federal public works, the Director will consider those rates published in the Federal Register.

(c) Data collection shall be in accordance with Labor Code Section 1773.

(d) Wage rate factors.

NOTE: Wage surveys are conducted by DLSR.

(1) The following factors shall be considered:

(A) Type of work to be performed;

(B) Classification(s) of worker(s) needed;

(C) Geographical area of project;

(D) Nearest labor market area;

(E) If work has been performed in the geographical area in the past 12 months.

(F) Mobility of craft, classification, or type of worker needed for project;

(G) Number of workers in craft or job classification;

(H) Normal industry practice in selection of craft and classification of worker;

(I) Size (dollar amount) of project;

(J) Degree of project's remoteness from survey area.

(2) Time period used in determining prevailing wage by survey. The time period reference for establishing the prevailing wage in the area of determination shall be the 12-month period prior to the request for a wage determination unless another time period is necessary. In such cases, the Director shall establish the appropriate time period.

(e) Other information. Pursuant to Section 1773 of the Labor Code, the Director may also obtain and consider other data from interested parties, and shall give consideration to data submitted by any interested party, concerning rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area. Such data may be obtained by holding a hearing, instituting an investigation, or by such other means as the Director determines will best serve the purposes of the law. Information submitted by interested parties for the Director's consideration shall include, but not be limited to the following for each project:

(1) the name, address, job title, and telephone number of the interested party submitting the information and the basis for qualification as an interested party under Section 16102;

(2) the basic hourly wage rate, overtime and holiday pay rates, and employer payments as enumerated in Section 16000 of these regulations for each classification in question as effective for the last payroll period, or most recent payroll period, for which payments based on such rates were actually made;
(3) the number of workers employed on the project in each classification in question during the payroll period for which data is submitted;
(4) the location of the project;
(5) the name and address of the contractor or subcontractor making the payments, and of all other contractors or subcontractors on the project;
(6) the type of construction (e.g. residential, commercial building, etc.);
(7) the approximate cost of construction;
(8) the beginning date and completion date, or estimated completion date of the project;
(9) the source of data (e.g. "payroll records");
(10) the method of selection of the projects for which data is submitted, when data is not submitted for all projects recently completed or in progress in the locality or in the nearest labor market area.

NOTE: Authority cited: Sections 1773 and 1773.5, Labor Code. Reference: Sections 1770, 1771, 1773, 1773.1, 1773.5, 1777.5, 1810 and 1815, Labor Code.

HISTORY:

1. Order of Repeal of subsection (a) (3) (E) filed 8-24-88 by OAL pursuant to Government Code Section 11340.15 (Register 88, No. 35).

16201. General Area Determinations.

When the Director determines that the general prevailing rate of per diem wages for a particular craft, classification, or type of worker is uniform throughout an area, the Director shall issue a determination enumerated county by county, but covering the entire area. Such determinations will ordinarily be made for an entire county or group of counties and shall constitute the Director's determination for all localities in which public work is performed within that county or counties except as the geographic application of the determination may be specifically limited by the determination itself.

NOTE: General determinations are usually issued on a quarterly basis. However, the Director may issue an interim wage determination following the procedures set forth in Section 1773 of the Labor Code, and in these regulations. See Section 16000 as to issue date, and Section 16204 as to effective date of determination. The general determination usually applies where a collective bargaining agreement has been filed and adopted as the prevailing wage rate.

NOTE: Authority cited: Sections 1773.5 and 1773.6, Labor Code. Reference: Section 1773, Labor Code.

16202. Special Determinations.

(a) Awarding body request. The awarding body shall request the Director to make a determination for a particular craft, classification or type of worker not covered by a general determination. Any such request shall be submitted at least 45 days prior to the bid advertisement date.

(b) Department of Industrial Relations initiated determination. Where an awarding body does not specify the prevailing wage rate as set forth in Labor Code Section 1773.2, any interested party (as defined in Section 16000 of these regulations) may petition the Director as set forth in Labor Code Section 1773.4 and Section 16302 of these regulations. The Labor Commissioner may, prior to the letting of the bid, request such a determination of the Director.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1773 and 1773.4, Labor Code.

16203. Format.

(a) All determinations made by the Director of the general prevailing rate of per diem wages for a particular craft, classification, or type of worker will separately specify each of the following components:

(1) The prevailing basic straight-time hourly wage rate.

(2) The following statement when applicable: "In accordance with Labor Code Section 1773, holidays upon which the prevailing hourly wage rate for holiday work shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workers employed on the project, which is on file with the Director of Industrial Relations."

(3) The prevailing employer payments for benefits included in the general prevailing rate of per diem wages pursuant to Section 1773.1 of the Labor Code and enumerated in Section 16000 of these regulations.

(4) The following statement when applicable. "The contractor shall make travel and subsistence payments to each worker needed to execute the work, as such travel and subsistence payments are defined in the applicable collective bargaining agreements filed with the Director of Industrial Relations in accordance with Labor Code Section 1773.8."

(b) Where the prevailing employer payment for any benefit is expressed in a formula or method of payment other than an hourly rate the Director may convert the rate to an hourly rate whenever such action would facilitate the administration of the law.

(c) The applicability of the apprentice rate of per diem wages shall be indicated and furnished upon request.

(d) The dates between which the applicable rate shall be paid for work performed in those periods shall be indicated.

(e) As a supplement to each determination the Director shall make available to any awarding body upon request, a list of all holidays recognized and the provision for travel and subsistence payments, taken from the applicable collective bargaining agreement.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.5, Labor Code.

16204. Effective Dates of Determination and of Rates Within Determination.

(a) Effective date of determination.

(1) All determinations issued will be effective ten (10) days after issuance, provided that requests for copies, reprints or reissuance of prior determinations shall not affect the original effective date unless a new effective date is reflected upon the determination (see subdivision (3) below). Any call for bids put out on or after the effective date of the determination must reflect that determination unless the Director determines that subdivision (4) of this section is applicable, after notification and request by an awarding body.

(2) Determinations issued by the Director will show an issue date and will ordinarily show an expiration date.

ties or in the event that mailing notices by registered or certified mail could cause an undue delay adverse to the interest of the parties or a timely hearing, the Director may send certified or registered notices to the petitioner and other directly interested parties that have been made known to the Director and mail notices to the other parties, and publish such notices in newspapers.

(3) Notification of the time and place of the hearing shall be at least one week in advance.

(4) The interested parties shall be given an opportunity to present evidence and oral or written arguments in support of their positions. The hearing officer may fairly allocate time for such witnesses' testimony in the interest of introducing relevant evidence. Cross examination will be permitted at the discretion of the hearing officer.

(5) The hearing need not be conducted according to technical rules relating to evidence and witnesses.

(6) All witnesses testifying before the hearing officer shall testify under oath.

(7) A full transcript of the hearing shall be recorded.

(b) Hearing Officer. The Director may appoint a hearing officer(s). The appointed hearing officer(s) shall conduct the hearing and submit to the Director the entire record of the hearing together with written recommendations. Either the appointed hearing officer(s) or the Director may request documentation subsequent to the hearing to complete the record, and shall send copies of such additional information to the petitioner, awarding body or other designated interested party or parties.

(c) Subject Matter. The subject matter of a hearing may be initiated by a petition to review, as set forth in Labor Code Section 1773.4.

(d) Decision. The decision of the Director shall reflect a summary of the evidence, findings, or matters of fact and/or law.

The decision shall be sent to all parties no later than 20 days after the hearing, except earlier or later as special circumstances warrant. The decision of the Director shall be final, for the purposes of judicial review, except that the Director upon his or her initiative only, may consider and take whatever action is appropriate or necessary to facilitate a decision on reconsideration. Notice of reconsideration shall be given to all parties in the same manner as the notice of hearings as specified in Sections 16304(a)(2) and (a)(3) above and the decision upon reconsideration shall be as specified in subdivisions (a)(2) and (a)(3) of this section.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1773.4 and 1773.5, Labor Code.

Article 6. Certified Payroll Records: Requests, Content, and Cost

§ 16400. Request for Payroll Records.

(a) Requests may be made by any person for certified copies of payroll records. Requests shall be made to any of the following:

(1) the body awarding the contract, or

(2) any office of the Division of Labor Standards Enforcement, or the Division of Apprenticeship Standards.

(b) Requests for certified copies of payroll records pursuant to Section 1776 of the Labor Code may be made by any person. However, any such request shall be in writing and contain at least the following information:

(1) The body awarding the contract;

(2) The contract number and/or description;

(3) The particular job location if more than one;

(4) The name of the contractor;

(5) The regular business address, if known.

NOTE: Requests for records of more than one contractor of subcontractor must list the information regarding that contractor individually, even if all requests pertain to the same particular public works project. Blanket requests covering an entire public works project will not be accepted; unless contractor and subcontractor responsibilities regarding the project are not clearly defined.

(c) Acknowledgment of Request. The public entity receiving a request for payroll records shall acknowledge receipt of such, and indicate the cost of providing the payroll records based on an estimate by the contractor, subcontractor or public entity. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16400(d) below, to the person who requested said records.

(d) Request to Contractor. The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following:

(1) Specify the records to be provided and the form upon which the information is to be provided;

(2) Conspicuous notice of the following:

(A) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and

(B) that failure to provide certified copies of the records to the requesting public entity within 10 working days of the receipt of the request will subject the contractor to a penalty of twenty–five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated;

(3) Cost of preparation as provided in Section 16402; and

(4) Provide for inspection.

(e) Inspection of Payroll Records. Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of Section 1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

§ 16401. Reporting of Payroll Requests.

(a) Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research P.O. Box 603 San Francisco, CA 94101

ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be conditioned upon the requirement that the alternate format contain all of the information required pursuant to Labor Code Section 1776. If, however, the contractor does not comply with the provisions of Labor Code Section 1776, the Labor Commissioner may require the use of DIR's suggested format, "Public Works Payroll Reporting Form" (Form A–1–131).

(b) Words of Certification. The form of certification shall be as follows: I, _____ (Name–print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named. Date:_____Signature:_____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1776, Labor Code.

§ 16402. Cost.

The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

6800. Definitions.

...n addition to the definitions of "Contractor," "Subcontractor," ...warding Body," "Political Subdivision," "Public Works," and any ...r applicable terms, found in Group 3, Payment of Prevailing Wages ...n Public Works, article 1, section 16000, the following terms are de...d ...neral use in this article.

"Su...ntial Interest" means an interest of twenty percent (20%) of a ...poration, limited partnership or similar entity and includes an individ...holding the position of responsible managing employee, qualifying ...onsible managing officer or general partner regardless of the per...inge interest in the entity.

"Fraud" means a suggestion, as a fact, of that which is not true, by one ... does not believe it to be true; or the assertion, as a fact, of that which ...t true, by one who has no reasonable ground for believing it to be true; ...he suppression of a fact, by one who is bound to disclose it, or who ...s information of other facts which are likely to mislead for want of ...municating that fact; or a promise, made without any intention of ...forming it.

"Person" means an individual or legal entity, including, but not limited ...ny firm, corporation, partnership, limited partnership, agency, asso...ion, organization or trust, and includes, where applicable, the public ...ncies, awarding bodies and any agent or officer thereof authorized to ...for or on behalf of any of the foregoing.

"Fi... ...means, but is not limited to, any individual, corporation, part...h... ...ited partnership, agency, association, organization or trust ...rating a business in the State of California whether or not licensed or ...i...d to do so.

"... ...o Defraud" means the intent to deceive another person or enti...s ...ned in this article, and to induce such other person or entity, in reliance upon such deception, to assume, create, transfer, alter or terminate a right, obligation or power reference to property of any kind.

"Deliberately" means premeditated and intentional and does not include inadvertent error.

"Respondent" means any person or entity subject to the proceedings set forth in this article.

NOTE: Authority cited: Section 1777.1(e), Labor Code. Reference: Section 1777.1, Labor Code.

HISTORY

1. New section filed 4–5–90 as an emergency; operative 4–5–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8–3–90.

§ 16801. Investigations: Duties, Responsibilities and Rights of the Parties.

(a) Division of Labor Standards Enforcement. The Division of Labor Standards Enforcement (hereinafter "DLSE") may investigate any alleged violation of the provisions of chapter 1, part 7 of the California Labor Code for purposes of enforcing Labor Code section 1777.1. Investigations pursuant to section 1777.1 are for the purpose of determining a Respondent's willful violation, or violation with the intent to defraud, of the provisions of chapter 1, part 7 of the California Labor Code, with the exception of section 1777.5.

(1) Where a preliminary investigation reveals that there is insufficient evidence to continue the investigation, DLSE may close the investigation and shall notify the Respondent and awarding body in writing.

(2) In the event an investigation of any Respondent reveals a violation of Labor Code section 1777.1, DLSE shall notify the awarding body in writing and shall serve upon the Respondent a Notice of Hearing together with a Statement of Alleged Violations, which shall specifically set forth DLSE's allegations against the Respondent.

(A) Service of both the Notice of Hearing and Statement of Alleged Violations shall be complete when mailed, by first class postage, to the last address of record for the Respondent listed with the State Contractors License Board or, in the event the Respondent is not licensed by the State Contractors License Board, the last known address of the Respondent available to the awarding body or, in the case of a subcontractor, the last known address available to the general contractor with whom the subcontractor contracted in the performance of the public works project under investigation. In the event there is neither an address of record with the State Contractors License Board or the awarding body or general contractor, the Notice of Hearing and Statement of Alleged Violations shall be served pursuant to the provisions of the Code of Civil Procedure concerning the service of civil summons.

(B) The Notice of Hearing shall list the date, time and place of the hearing which shall not be scheduled sooner than forty–five days after the date of the mailing of the Notice of Hearing and Statement of Alleged Violations.

(C) The Respondent shall have the opportunity to review and copy such records from the investigative file of DLSE which are not subject to either attorney—client or work product privileges. The Respondent shall be entitled to a reasonable number of subpoenas but shall be liable for any costs of service of the subpoenas, or any other witness or mileage fees incurred. In the exercise of his or her discretion, the Hearing Officer may limit the number of witnesses subpoenaed either for the purpose of corroboration or for establishing a single material fact in issue, or where the Respondent has not furnished satisfactory evidence that the witness will be able to give necessary and competent testimony material to the issue at the hearing.

(D) In presiding over a hearing conducted pursuant to section 1777.1(c), the Hearing Officer shall control the order of presentation of evidence, and shall direct and rule on matters concerning the conduct of the hearing and of those persons appearing. The hearing shall be conducted in an informal setting preserving the rights of the Respondent. The formal rules of evidence shall not apply and any relevant evidence may be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the

existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions. However, no determination shall be made based solely upon any evidence which would not be admissible, over objection, in a court of law in this state.

(E) The hearing shall be phonographically recorded. The Respondent may request a copy of the recording, and shall bear all costs incidental to the preparation of same. The Respondent may arrange to have the hearing reported by a certified court reporter and shall bear all cost incidental thereto. If the record of the hearing is transcribed by the Respondent, a copy thereof shall be provided to the Labor Commissioner free of any cost within five (5) days of such transcription.

(F) Oral evidence at the hearing shall be taken only upon oath or affirmation. The Respondent shall have the right to call and examine witnesses, to introduce exhibits and to rebut the evidence against him or her.

(G) Any Respondent to a proceeding hereunder may, but need not, be represented by legal counsel during the entire course of the investigation, including the hearing.

(H) Continuances of hearings scheduled pursuant to Labor Code section 1777.1(c) ordinarily will not be granted. The Hearing Officer, in the exercise of his or her sound discretion, may grant a continuance of the hearing only upon a showing of extraordinary circumstances and good cause.

(I) At the conclusion of the hearing, the Hearing Officer may take the matter under submission or allow the introduction of post hearing briefs. The Hearing Officer shall prepare a Findings of Fact and Conclusions and a proposed Determination which shall contain the recommended penalty, if applicable. The Labor Commissioner or his designee shall have the right to modify, change or adopt the proposed Findings of Fact and Conclusions, the proposed Determination and any recommended penalty. No Determination or penalty shall be final until adopted by the State Labor Commissioner.

(J) The Determination of the Labor Commissioner after the hearing shall be served on the Respondent as provided in subdivision (A), above.

(K) In the event that the Determination of the Labor Commissioner results in an order to debar the Respondent, DLSE shall notify through the Division of Labor Statistics and Research all awarding bodies of such Determination immediately upon service of the Determination on the Respondent. In addition, DLSE shall maintain a record of each and every debarment under the provisions of Labor Code section 1777.1 for a period of 5 years from the date of the debarment, and shall list the name and last known address of the debarred contractor or subcontractor, the date of the debarment and the term of the debarment, and shall make that information available, upon written request, which encloses a self-addressed and stamped envelope.

(b) Awarding Bodies. Any awarding body which has awarded or let a contract or purchase order to be paid for in whole or in part from public funds calling for the construction, alteration, demolition, repair, maintenance, or improvement of any structure, building, road, property, or other improvement of any kind (including the laying of carpet and the hauling of refuse from a public works site to an outside disposal location with respect to contracts involving any state agency, including the California State University and University of California) shall, in accordance with Labor Code section 1776(g), inform prime contractors of the requirements of Labor Code section 1776, and any other requirements imposed by law, in order to assist DLSE with an investigation pursuant to Labor Code section 1777.1. The awarding body shall have the right to review the records from the investigative file of DLSE which are not covered by attorney-client or work product privileges, and which are not being utilized in the ongoing investigation of a criminal offense.

(c) Contractors and Subcontractors. All contractors and subcontractors, including Respondents, who have contracted to perform services on a public works project shall comply with Labor Code section 1776, and any other requirements imposed by law, in order to assist DLSE with an investigation pursuant to Labor Code section 1777.1.

NOTE: Authority cited: Section 1777.1(e), Labor Code. Reference: Section 1777.1, Labor Code.

HISTORY

1. New section filed 4-5-90 as an emergency; operative 4-5-90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8-3-90.

§ 16802. Penalties.

In the event that the Labor Commissioner determines that a violation of chapter 1 of part 7 of the Labor Code has occurred, the Hearing Officer may recommend the penalty to be imposed on the Respondent.

(a) In setting a penalty, due consideration shall be given to the nature of the offense; the amount of underpayment of wages per worker; the experience of the Respondent in the area of public works; and the Respondent's compliance with Labor Code section 1776. The above considerations shall be based upon evidence presented at the hearing and made a part of the record.

NOTE: Authority cited: Section 1777.1(e), Labor Code. Reference: Section 1777.1, Labor Code.

HISTORY

1. New section filed 4-5-90 as an emergency; operative 4-5-90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8-3-90.

Subchapter 4. Employment of Aliens Not Entitled to Lawful Residence

NOTE: Authority cited: Sections 55 and 59, Labor Code. Reference: Section 2805, Labor Code.

HISTORY

1. New Group 4 (§§ 16209, 16209.1-16209.6) filed 3-24-72 as an emergency; effective upon filing (Register 72, No. 13).
2. Certificate of Compliance filed 6-2-72 (Register 72, No. 23).
3. Repealer of Group 4 (Article 1, Sections 16209, 16209.1-16209.6) filed 12-15-82 by OAL pursuant to Government Code Section 11349.7(j) (Register 82, No. 51).

Subchapter 5. Department of Industrial Relations—Conflict of Interest Code

§ 17000. General Provisions.

The Political Reform Act, Government Code Sections 81000, et seq., requires state and local government agencies to adopt and promulgate Conflict of Interest Codes. The Fair Political Practices Commission has adopted a regulation, 2 Cal. Adm. Code Section 18730, which contains the terms of a standard Conflict of Interest Code, which can be incorporated by reference, and which may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act after public notice and hearings. Therefore, the terms of 2 Cal. Adm. Code Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission, along with the attached Appendix in which officials and employees are designated and disclosure categories are set forth, are hereby incorporated by reference and constitute the Conflict of Interest Code of the Department of Industrial Relations.

Pursuant to Section 4(A) of the standard Code, designated employees shall file statements of economic interests with the agency. Upon receipt of the statement of the Director, the agency shall make and retain a copy and forward the original of this statement to the Fair Political Practices Commission.

NOTE: Authority cited: Sections 87300 and 87304, Government Code. Reference: Section 87300, et seq., Government Code.

HISTORY

1. New Group 5 (Articles 1-7, Sections 17000-17800, not consecutive) filed 12-2-77; effective thirtieth day thereafter. Approved by the Fair Political Practices Commission 1-19-77 (Register 77, No. 49).
2. Repealer of Group 5 (Articles 1-7, Sections 17000-17800, not consecutive) and new Group 5 (Section 17000 and Appendix) filed 2-26-81; effective thirtieth day thereafter. Approved by Fair Political Practices Commission 12-1-80 (Register 81, No. 9).

ties or in the event that mailing notices by registered or certified mail could cause an undue delay adverse to the interest of the parties or a timely hearing, the Director may send certified or registered notices to the petitioner and other directly interested parties that have been made known to the Director and mail notices to the other parties, and publish such notices in newspapers.

(3) Notification of the time and place of the hearing shall be at least one week in advance.

(4) The interested parties shall be given an opportunity to present evidence and oral or written arguments in support of their positions. The hearing officer may fairly allocate time for such witnesses' testimony in the interest of introducing relevant evidence. Cross examination will be permitted at the discretion of the hearing officer.

(5) The hearing need not be conducted according to technical rules relating to evidence and witnesses.

(6) All witnesses testifying before the hearing officer shall testify under oath.

(7) A full transcript of the hearing shall be recorded.

(b) Hearing Officer. The Director may appoint a hearing officer(s). The appointed hearing officer(s) shall conduct the hearing and submit to the Director the entire record of the hearing together with written recommendations. Either the appointed hearing officer(s) or the Director may request documentation subsequent to the hearing to complete the record, and shall send copies of such additional information to the petitioner, awarding body or other designated interested party or parties.

(c) Subject Matter. The subject matter of a hearing may be initiated by a petition to review, as set forth in Labor Code Section 1773.4.

(d) Decision. The decision of the Director shall reflect a summary of the evidence, findings, or matters of fact and/or law.

The decision shall be sent to all parties no later than 20 days after the hearing, except earlier or later as special circumstances warrant. The decision of the Director shall be final, for the purposes of judicial review, except that the Director upon his or her initiative only, may consider and take whatever action is appropriate or necessary to facilitate a decision on reconsideration. Notice of reconsideration shall be given to all parties in the same manner as the notice of hearings as specified in Sections 16304(a)(2) and (a)(3) above and the decision upon reconsideration shall be as specified in subdivisions (a)(2) and (a)(3) of this section.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1773.4 and 1773.5, Labor Code.

Article 6. Certified Payroll Records: Requests, Content, and Cost

§ 16400. Request for Payroll Records.

(a) Requests may be made by any person for certified copies of payroll records. Requests shall be made to any of the following:

(1) the body awarding the contract, or

(2) any office of the Division of Labor Standards Enforcement, or the Division of Apprenticeship Standards.

(b) Requests for certified copies of payroll records pursuant to Section 1776 of the Labor Code may be made by any person. However, any such request shall be in writing and contain at least the following information:

(1) The body awarding the contract;

(2) The contract number and/or description;

(3) The particular job location if more than one;

(4) The name of the contractor;

(5) The regular business address, if known.

NOTE: Requests for records of more than one contractor of subcontractor must list the information regarding that contractor individually, even if all requests pertain to the same particular public works project. Blanket requests covering an entire public works project will not be accepted; unless contractor and subcontractor responsibilities regarding the project are not clearly defined.

(c) Acknowledgment of Request. The public entity receiving a request for payroll records shall acknowledge receipt of such, and indicate the cost of providing the payroll records based on an estimate by the contractor, subcontractor or public entity. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16400(d) below, to the person who requested said records.

(d) Request to Contractor. The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following:

(1) Specify the records to be provided and the form upon which the information is to be provided;

(2) Conspicuous notice of the following:

(A) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and

(B) that failure to provide certified copies of the records to the requesting public entity within 10 working days of the receipt of the request will subject the contractor to a penalty of twenty–five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated;

(3) Cost of preparation as provided in Section 16402; and

(4) Provide for inspection.

(e) Inspection of Payroll Records. Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of Section 1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

§ 16401. Reporting of Payroll Requests.

(a) Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research P.O. Box 603 San Francisco, CA 94101

ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be conditioned upon the requirement that the alternate format contain all of the information required pursuant to Labor Code Section 1776. If, however, the contractor does not comply with the provisions of Labor Code Section 1776, the Labor Commissioner may require the use of DIR's suggested format, "Public Works Payroll Reporting Form" (Form A–1–131).

(b) Words of Certification. The form of certification shall be as follows: I, _____ (Name–print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named. Date:_____Signature:_____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1776, Labor Code.

§ 16402. Cost.

The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

Authority cited: Section 1776, Labor Code. Reference: Section 1776(h), Labor Code.

§ 16403. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

Note: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Section 1776, Labor Code.

Article 7. Severability

§ 16500. Severability.

If any provision of these regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these regulations which can be given effect without the invalid provisions or application, and to this end the provisions of these regulations are severable.

Note: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

Article 8. Debarment

§ 16800. Definitions.

In addition to the definitions of "Contractor," "Subcontractor," "Awarding Body," "Political Subdivision," "Public Works," and any other applicable terms, found in Group 3, Payment of Prevailing Wages on Public Works, article 1, section 16000, the following terms are defined for general use in this article.

"Substantial Interest" means an interest of twenty percent (20%) of a corporation, limited partnership or similar entity and includes an individual holding the position of responsible managing employee, qualifying responsible managing officer or general partner regardless of the percentage interest in the entity.

"Fraud" means a suggestion, as a fact, of that which is not true, by one who does not believe it to be true; or the assertion, as a fact, of that which is not true, by one who has no reasonable ground for believing it to be true; or the suppression of a fact, by one who is bound to disclose it, or who gives information of other facts which are likely to mislead for want of communication of that fact; or a promise, made without any intention of performing it.

"Person" means an individual or legal entity, including, but not limited to, any firm, corporation, partnership, limited partnership, agency, association, organization or trust, and includes, where applicable, the public agencies, awarding bodies and any agent or officer thereof authorized to act for or on behalf of any of the foregoing.

"Firm" means, but is not limited to, any individual, corporation, partnership, limited partnership, agency, association, organization or trust operating a business in the State of California whether or not licensed or permitted to do so.

"Intent to Defraud" means the intent to deceive another person or entity, as defined in this article, and to induce such other person or entity, in reliance upon such deception, to assume, create, transfer, alter or terminate a right, obligation or power reference to property of any kind.

"Deliberately" means premeditated and intentional and does not include inadvertent error.

"Respondent" means any person or entity subject to the proceedings set forth in this article.

Note: Authority cited: Section 1777.1(e), Labor Code. Reference: Section 1777.1, Labor Code.

History

1. New section filed 4–5–90 as an emergency; operative 4–5–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8–3–90.
2. New section filed 9–4–90 as an emergency readoption effective 9–4–90 (Register 90, No. 42). A Certificate of Compliance must be transmitted to OAL by 1–2–91 or emergency language will be repealed on the following day.

§ 16801. Investigations: Duties, Responsibilities and Rights of the Parties.

(a) Division of Labor Standards Enforcement. The Division of Labor Standards Enforcement (hereinafter "DLSE") may investigate any alleged violation of the provisions of chapter 1, part 7 of the California Labor Code for purposes of enforcing Labor Code section 1777.1. Investigations pursuant to section 1777.1 are for the purpose of determining a Respondent's willful violation, or violation with the intent to defraud, of the provisions of chapter 1, part 7 of the California Labor Code, with the exception of section 1777.5.

(1) Where a preliminary investigation reveals that there is insufficient evidence to continue the investigation, DLSE may close the investigation and shall notify the Respondent and awarding body in writing.

(2) In the event an investigation of any Respondent reveals a violation of Labor Code section 1777.1, DLSE shall notify the awarding body in writing and shall serve upon the Respondent a Notice of Hearing together with a Statement of Alleged Violations, which shall specifically set forth DLSE's allegations against the Respondent.

(A) Service of both the Notice of Hearing and Statement of Alleged Violations shall be complete when mailed, by first class postage, to the last address of record for the Respondent listed with the State Contractors License Board or, in the event the Respondent is not licensed by the State Contractors License Board, the last known address of the Respondent available to the awarding body or, in the case of a subcontractor, the last known address available to the general contractor with whom the subcontractor contracted in the performance of the public works project under investigation. In the event there is neither an address of record with the State Contractors License Board or the awarding body or general contractor, the Notice of Hearing and Statement of Alleged Violations shall be served pursuant to the provisions of the Code of Civil Procedure concerning the service of civil summons.

(B) The Notice of Hearing shall list the date, time and place of the hearing which shall not be scheduled sooner than forty–five days after the date of the mailing of the Notice of Hearing and Statement of Alleged Violations.

(C) The Respondent shall have the opportunity to review and copy such records from the investigative file of DLSE which are not subject to either attorney–client or work product privileges. The Respondent shall be entitled to a reasonable number of subpoenas but shall be liable for any costs of service of the subpoenas, or any other witness or mileage fees incurred. In the exercise of his or her discretion, the Hearing Officer may limit the number of witnesses subpoenaed either for the purpose of corroboration or for establishing a single material fact in issue, or where the Respondent has not furnished satisfactory evidence that the witness will be able to give necessary and competent testimony material to the issue at the hearing.

(D) In presiding over a hearing conducted pursuant to section 1777.1(c), the Hearing Officer shall control the order of presentation of evidence, and shall direct and rule on matters concerning the conduct of the hearing and of those persons appearing. The hearing shall be conducted in an informal setting preserving the rights of the Respondent. The formal rules of evidence shall not apply and any relevant evidence may

be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions. However, no determination shall be made based solely upon any evidence which would not be admissible, over objection, in a court of law in this state.

(E) The hearing shall be phonographically recorded. The Respondent may request a copy of the recording, and shall bear all costs incidental to the preparation of same. The Respondent may arrange to have the hearing reported by a certified court reporter and shall bear all cost incidental thereto. If the record of the hearing is transcribed by the Respondent, a copy thereof shall be provided to the Labor Commissioner free of any cost within five (5) days of such transcription.

(F) Oral evidence at the hearing shall be taken only upon oath or affirmation. The Respondent shall have the right to call and examine witnesses, to introduce exhibits and to rebut the evidence against him or her.

(G) Any Respondent to a proceeding hereunder may, but need not, be represented by legal counsel during the entire course of the investigation, including the hearing.

(H) Continuances of hearings scheduled pursuant to Labor Code section 1777.1(c) ordinarily will not be granted. The Hearing Officer, in the exercise of his or her sound discretion, may grant a continuance of the hearing only upon a showing of extraordinary circumstances and good cause.

(I) At the conclusion of the hearing, the Hearing Officer may take the matter under submission or allow the introduction of post hearing briefs. The Hearing Officer shall prepare a Findings of Fact and Conclusions and a proposed Determination which shall contain the recommended penalty, if applicable. The Labor Commissioner or his designee shall have the right to modify, change or adopt the proposed Findings of Fact and Conclusions, the proposed Determination and any recommended penalty. No Determination or penalty shall be final until adopted by the State Labor Commissioner.

(J) The Determination of the Labor Commissioner after the hearing shall be served on the Respondent as provided in subdivision (A), above.

(K) In the event that the Determination of the Labor Commissioner results in an order to debar the Respondent, DLSE shall notify through the Division of Labor Statistics and Research all awarding bodies of such Determination immediately upon service of the Determination on the Respondent. In addition, DLSE shall maintain a record of each and every debarment under the provisions of Labor Code section 1777.1 for a period of 5 years from the date of the debarment, and shall list the name and last known address of the debarred contractor or subcontractor, the date of the debarment and the term of the debarment, and shall make that information available, upon written request, which encloses a self-addressed and stamped envelope.

(b) Awarding Bodies. Any awarding body which has awarded or let a contract or purchase order to be paid for in whole or in part from public funds calling for the construction, alteration, demolition, repair, maintenance, or improvement of any structure, building, road, property, or other improvement of any kind (including the laying of carpet and the hauling of refuse from a public works site to an outside disposal location with respect to contracts involving any state agency, including the California State University and University of California) shall, in accordance with Labor Code section 1776(g), inform prime contractors of the requirements of Labor Code section 1776, and any other requirements imposed by law, in order to assist DLSE with an investigation pursuant to Labor Code section 1777.1. The awarding body shall have the right to review the records from the investigative file of DLSE which are not covered by attorney-client or work product privileges, and which are not being utilized in the ongoing investigation of a criminal offense.

(c) Contractors and Subcontractors. All contractors and subcontractors, including Respondents, who have contracted to perform services on a public works project shall comply with Labor Code section 1776, and any other requirements imposed by law, in order to assist DLSE with an investigation pursuant to Labor Code section 1777.1.

NOTE: Authority cited: Section 1777.1(e), Labor Code. Reference: Section 1777.1, Labor Code.

HISTORY

1. New section filed 4-5-90 as an emergency; operative 4-5-90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8-3-90.
2. New section filed 9-4-90 as an emergency readoption effective 9-4-90 (Register 90, No. 42). A Certificate of Compliance must be transmitted to OAL by 1-2-91 or emergency language will be repealed on the following day.

§ 16802. Penalties.

In the event that the Labor Commissioner determines that a violation of chapter 1 of part 7 of the Labor Code has occurred, the Hearing Officer may recommend the penalty to be imposed on the Respondent.

(a) In setting a penalty, due consideration shall be given to the nature of the offense; the amount of underpayment of wages per worker; the experience of the Respondent in the area of public works; and the Respondent's compliance with Labor Code section 1776. The above considerations shall be based upon evidence presented at the hearing and made a part of the record.

NOTE: Authority cited: Section 1777.1(e), Labor Code. Reference: Section 1777.1, Labor Code.

HISTORY

1. New section filed 4-5-90 as an emergency; operative 4-5-90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8-3-90.
2. New section filed 9-4-90 as an emergency readoption effective 9-4-90 (Register 90, No. 42). A Certificate of Compliance must be transmitted to OAL by 1-2-91 or emergency language will be repealed on the following day.

Subchapter 4. Employment of Aliens Not Entitled to Lawful Residence

NOTE: Authority cited: Sections 55 and 59, Labor Code. Reference: Section 2805, Labor Code.

HISTORY

1. New Group 4 (§§ 16209, 16209.1-16209.6) filed 3-24-72 as an emergency; effective upon filing (Register 72, No. 13).
2. Certificate of Compliance filed 6-2-72 (Register 72, No. 23).
3. Repealer of Group 4 (Article 1, Sections 16209, 16209.1-16209.6) filed 12-15-82 by OAL pursuant to Government Code Section 11349.7(j) (Register 82, No. 51).

Subchapter 5. Department of Industrial Relations—Conflict of Interest Code

§ 17000. General Provisions.

The Political Reform Act, Government Code Sections 81000, et seq., requires state and local government agencies to adopt and promulgate Conflict of Interest Codes. The Fair Political Practices Commission has adopted a regulation, 2 Cal. Adm. Code Section 18730, which contains the terms of a standard Conflict of Interest Code, which can be incorporated by reference, and which may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act after public notice and hearings. Therefore, the terms of 2 Cal. Adm. Code Section 18730 and any amendments to it duly adopted by the Fair Political Practices Commission, along with the attached Appendix in which officials and employees are designated and disclosure categories are set forth, are hereby incorporated by reference and constitute the Conflict of Interest Code of the Department of Industrial Relations.

Pursuant to Section 4(A) of the standard Code, designated employees shall file statements of economic interests with the agency. Upon receipt of the statement of the Director, the agency shall make and retain a copy and forward the original of this statement to the Fair Political Practices Commission.

NOTE: Authority cited: Sections 87300 and 87304, Government Code. Reference: Section 87300, et seq., Government Code.

ties or in the event that mailing notices by registered or certified mail could cause an undue delay adverse to the interest of the parties or a timely hearing, the Director may send certified or registered notices to the petitioner and other directly interested parties that have been made known to the Director and mail notices to the other parties, and publish such notices in newspapers.

(3) Notification of the time and place of the hearing shall be at least one week in advance.

(4) The interested parties shall be given an opportunity to present evidence and oral or written arguments in support of their positions. The hearing officer may fairly allocate time for such witnesses' testimony in the interest of introducing relevant evidence. Cross examination will be permitted at the discretion of the hearing officer.

(5) The hearing need not be conducted according to technical rules relating to evidence and witnesses.

(6) All witnesses testifying before the hearing officer shall testify under oath.

(7) A full transcript of the hearing shall be recorded.

(b) Hearing Officer. The Director may appoint a hearing officer(s). The appointed hearing officer(s) shall conduct the hearing and submit to the Director the entire record of the hearing together with written recommendations. Either the appointed hearing officer(s) or the Director may request documentation subsequent to the hearing to complete the record, and shall send copies of such additional information to the petitioner, awarding body or other designated interested party or parties.

(c) Subject Matter. The subject matter of a hearing may be initiated by a petition to review, as set forth in Labor Code Section 1773.4.

(d) Decision. The decision of the Director shall reflect a summary of the evidence, findings, or matters of fact and/or law.

The decision shall be sent to all parties no later than 20 days after the hearing, except earlier or later as special circumstances warrant. The decision of the Director shall be final, for the purposes of judicial review, except that the Director upon his or her initiative only, may consider and take whatever action is appropriate or necessary to facilitate a decision on reconsideration. Notice of reconsideration shall be given to all parties in the same manner as the notice of hearings as specified in Sections 16304(a)(2) and (a)(3) above and the decision upon reconsideration shall be as specified in subdivisions (a)(2) and (a)(3) of this section.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1773.4 and 1773.5, Labor Code.

Article 6. Certified Payroll Records: Requests, Content, and Cost

§ 16400. Request for Payroll Records.

(a) Requests may be made by any person for certified copies of payroll records. Requests shall be made to any of the following:

(1) the body awarding the contract, or

(2) any office of the Division of Labor Standards Enforcement, or the Division of Apprenticeship Standards.

(b) Requests for certified copies of payroll records pursuant to Section 1776 of the Labor Code may be made by any person. However, any such request shall be in writing and contain at least the following information:

(1) The body awarding the contract;

(2) The contract number and/or description;

(3) The particular job location if more than one;

(4) The name of the contractor;

(5) The regular business address, if known.

NOTE: Requests for records of more than one contractor of subcontractor must list the information regarding that contractor individually, even if all requests pertain to the same particular public works project. Blanket requests covering an entire public works project will not be accepted; unless contractor and subcontractor responsibilities regarding the project are not clearly defined.

(c) Acknowledgment of Request. The public entity receiving a request for payroll records shall acknowledge receipt of such, and indicate the cost of providing the payroll records based on an estimate by the contractor, subcontractor or public entity. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16400(d) below, to the person who requested said records.

(d) Request to Contractor. The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following:

(1) Specify the records to be provided and the form upon which the information is to be provided;

(2) Conspicuous notice of the following:

(A) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and

(B) that failure to provide certified copies of the records to the requesting public entity within 10 working days of the receipt of the request will subject the contractor to a penalty of twenty–five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated;

(3) Cost of preparation as provided in Section 16402; and

(4) Provide for inspection.

(e) Inspection of Payroll Records. Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of Section 1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

§ 16401. Reporting of Payroll Requests.

(a) Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research P.O. Box 603 San Francisco, CA 94101

ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be conditioned upon the requirement that the alternate format contain all of the information required pursuant to Labor Code Section 1776. If, however, the contractor does not comply with the provisions of Labor Code Section 1776, the Labor Commissioner may require the use of DIR's suggested format, "Public Works Payroll Reporting Form" (Form A–1–131).

(b) Words of Certification. The form of certification shall be as follows: I, _____ (Name–print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named. Date:_____Signature:_____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1776, Labor Code.

§ 16402. Cost.

The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

NOTE: Authority cited: Section 1776, Labor Code. Reference: Section 1776(h), Labor Code.

§ 16403. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Section 1776, Labor Code.

Article 7. Severability

§ 16500. Severability.

If any provision of these regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these regulations which can be given effect without the invalid provisions or application, and to this end the provisions of these regulations are severable.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

Article 8. Debarment

§ 16800. Definitions.

In addition to the definitions of "Contractor," "Subcontractor," "Awarding Body," "Political Subdivision," "Public Works," and any other applicable terms, found in Group 3. Payment of Prevailing Wages upon Public Works, article 17 section 16000, the following terms are defined for general use in this article.

"Substantial Interest" means an interest of twenty percent (20%) of a corporation, limited partnership or similar entity and includes an individual holding the position of responsible managing employee, qualifying responsible managing officer or general partner regardless of the percentage interest in the entity.

"Fraud" means a suggestion, as a fact, of that which is not true, by one who does not believe it to be true; or the assertion, as a fact, of that which is not true, by one who has no reasonable ground for believing it to be true; or the suppression of a fact, by one who is bound to disclose it, or who gives information of other facts which are likely to mislead for want of communication of that fact; or a promise, made without any intention of performing it.

"Person" means an individual or legal entity, including, but not limited to, any firm, corporation, partnership, limited partnership, agency, association, organization or trust, and includes, where applicable, the public agencies, awarding bodies and any agent or officer thereof authorized to act for or on behalf of any of the foregoing.

"Firm" means, but is not limited to, any individual, corporation, partnership, limited partnership, agency, association, organization or trust operating a business in the State of California whether or not licensed or permitted to do so.

"Intent to Defraud" means the intent to deceive another person or entity, as defined in this article, and to induce such other person or entity, in reliance upon such deception, to assume, create, transfer, alter or terminate a right, obligation or power with reference to property of any kind.

"Deliberately" means premeditated and intentional and does not include inadvertent error.

"Respondent" means any person or entity subject to the proceedings set forth in this article.

NOTE: Authority cited: Section 1777.1(e), Labor Code. Reference: Section 1777.1, Labor Code.

HISTORY

1. New section filed 4–5–90 as an emergency; operative 4–5–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8–3–90.
2. New section filed 9–4–90 as an emergency readoption effective 9–4–90 (Register 90, No. 42). A Certificate of Compliance must be transmitted to OAL by 1–2–91 or emergency language will be repealed on the following day.
3. Repealed on January 3, 1991 by operation of Government Code section 11346.1(g) (Register 91, No. 12).
4. New section filed 2–13–91; operative 2–13–91 (Register 91, No. 12).

§ 16801. Investigations: Duties, Responsibilities and Rights of the Parties.

(a) Division of Labor Standards Enforcement. The Division of Labor Standards Enforcement (hereinafter "DLSE") may investigate any alleged violation of the provisions of chapter 1, part 7 of the California Labor Code for purposes of enforcing Labor Code section 1777.1. Investigations pursuant to section 1777.1 are for the purpose of determining a Respondent's willful violation, or violation with the intent to defraud, of the provisions of chapter 1, part 7 of the California Labor Code, with the exception of section 1777.5.

(1) Where a preliminary investigation reveals that there is insufficient evidence to continue the investigation, DLSE may close the investigation and shall notify the Respondent and awarding body in writing.

(2) In the event an investigation of any Respondent reveals a violation of Labor Code section 1777.1, DLSE shall notify the awarding body in writing and shall serve upon the Respondent a Notice of Hearing together with a Statement of Alleged Violations, which shall specifically set forth DLSE's allegations against the Respondent.

(A) Service of both the Notice of Hearing and Statement of Alleged Violations shall be complete when mailed, by first class postage, to the last address of record for the Respondent listed with the State Contractors License Board or, in the event the Respondent is not licensed by the State Contractors License Board, the last known address of the Respondent available to the awarding body or, in the case of a subcontractor, the last known address available to the general contractor with whom the subcontractor contracted in the performance of the public works project under investigation. In the event there is neither an address of record with the State Contractors License Board or the awarding body or general contractor, the Notice of Hearing and Statement of Alleged Violations shall be served pursuant to the provisions of the Code of Civil Procedure, sections 415.10 – 415.50. concerning the service of civil summons.

(B) The Notice of Hearing shall list the date, time and place of the hearing which shall not be scheduled sooner than forty–five days after the date of the mailing of the Notice of Hearing and Statement of Alleged Violations.

(C) The Respondent shall have the opportunity to review and copy such records from the investigative file of DLSE which are not subject to either attorney–client or work product privileges. The Respondent shall be entitled to a reasonable number of subpoenas but shall be liable for any costs of service of the subpoenas, or any other witness or mileage fees incurred.

Mileage and Witness fees shall be set as specified in Government Code section 68093. In the exercise of his or her discretion, the Hearing Officer may limit the number of witnesses subpoenaed either for the purpose of corroboration or for establishing a single material fact in issue, or where the Respondent has not furnished satisfactory evidence that the witness will be able to give necessary and competent testimony material to the issues at the hearing.

(D) In presiding over a hearing conducted pursuant to section 1777.1(c), the Hearing Officer shall control the order of presentation of evidence, and shall direct and rule on matters concerning the conduct of the hearing and of those persons appearing. The hearing shall be conducted in an informal setting preserving the rights of the Respondent. The formal rules of evidence shall not apply and any relevant evidence may be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions. However, no determination shall be made based solely upon any evidence which would not be admissible, over objection, in a court of law in this state.

(E) The hearing shall be phonographically recorded. The Respondent may request a copy of the recording, and shall bear all costs incidental to the preparation of same. The Respondent may arrange to have the hearing reported by a certified court reporter and shall bear all cost incidental thereto. If the record of the hearing is transcribed by the Respondent, a copy thereof shall be provided to the Labor Commissioner free of any cost within five (5) days of such transcription.

(F) Oral evidence at the hearing shall be taken only upon oath or affirmation. The Respondent shall have the right to call and examine witnesses, to introduce exhibits and to rebut the evidence against him or her.

(G) Any Respondent to a proceeding hereunder may, but need not, be represented by legal counsel during the entire course of the investigation, including the hearing.

(H) Continuances of hearings scheduled pursuant to Labor Code section 1777.1(c) ordinarily will not be granted. The Hearing Officer, in the exercise of his or her sound discretion, may grant a continuance of the hearing only upon a showing of extraordinary circumstances and good cause.

(I) At the conclusion of the hearing the Hearing Officer may take the matter under submission or allow the introduction of post hearing briefs. The Hearing Officer shall prepare a Findings of Fact and Conclusions and a proposed Determination which shall contain the recommended penalty, if applicable. The Labor Commissioner or his designee shall have the right to modify, change or adopt the proposed Findings of Fact and Conclusions, the proposed Determination and any recommended penalty. No Determination or penalty shall be final until adopted by the State Labor Commissioner.

(J) The Determination of the Labor Commissioner after the hearing shall be served on the Respondent as provided in subdivision (A), above.

(K) In the event that the Determination of the Labor Commissioner results in an order to debar the Respondent, DLSE shall notify through the Division of Labor Statistics and Research all awarding bodies of such Determination immediately upon service of the Determination on the Respondent. In addition, DLSE shall maintain a record of each and every debarment under the provisions of Labor Code section 1777.1 for a period of 5 years from the date of the debarment, and shall list the name and last known address of the debarred contractor or subcontractor, the date of the debarment and the term of the debarment, and shall make that information available to the public, upon written request, which encloses a self-addressed and stamped envelope.

(b) Awarding Bodies. Any awarding body which has awarded or let a contract or purchase order to be paid for in whole or in part from public funds calling for the construction, alteration, demolition, repair, maintenance, or improvement of any structure, building, road, property, or other improvement of any kind (including the laying of carpet and the hauling of refuse from a public works site to an outside disposal location with respect to contracts involving any state agency, including the California State University and University of California) shall, in accordance with Labor Code section 1776(g), inform prime contractors of the requirements of Labor Code section 1776, and any other requirements imposed by law, in order to assist DLSE with an investigation pursuant to Labor Code 1777.1. The awarding body shall have the right to review the records, excluding any records which are protected by attorney–client or work product privileges, and which are not being utilized in the ongoing investigation of a criminal offense.

(c) Contractors and Subcontractors. All contractors and subcontractors, including Respondents, who have contracted to perform services on a public works project shall comply with Labor Code 1776, and any other requirements imposed by law, in order to assist DLSE with an investigation pursuant to Labor Code section 1777.1.

NOTE: Authority cited: Section 1777.1(e), Labor Code. Reference: Section 1777.1, and Section 92, Labor Code.

HISTORY

1. New section filed 4–5–90 as an emergency; operative 4–5–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8–3–90.
2. New section filed 9–4–90 as an emergency readoption effective 9–4–90 (Register 90, No. 42). A Certificate of Compliance must be transmitted to OAL by 1–2–91 or emergency language will be repealed on the following day.
3. Repealed on January 3, 1991 by operation of Government Code section 11346.1(g) (Register 91, No. 12).
4. New section filed 2–13–91; operative 2–13–91 (Register 91, No. 12).

§ 16802. Penalties.

In the event that the Labor Commissioner determines that a violation of chapter 1 of part 7 of the Labor Code has occurred, the Hearing Officer may recommend the penalty to be imposed on the Respondent.

(a) In setting a penalty, due consideration shall be given to the nature of the offense; the amount of underpayment of wages per worker; the experience of the Respondent in the area of public works; and the Respondent's compliance with Labor Code section 1776. The above considerations shall be based upon evidence presented at the hearing and made a part of the record.

NOTE: Authority cited: Section 1777.1(e), Labor Code. Reference: Section 1777.1, Labor Code.

HISTORY

1. New section filed 4–5–90 as an emergency; operative 4–5–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8–3–90.
2. New section filed 9–4–90 as an emergency readoption effective 9–4–90 (Register 90, No. 42). A Certificate of Compliance must be transmitted to OAL by 1–2–91 or emergency language will be repealed on the following day.
3. Repealed on January 3, 1991 by operation of Government Code section 11346.1(g) (Register 91, No. 12).
4. New section filed 2–13–91; operative 2–13–91 (Register 91, No. 12).

Subchapter 4. Employment of Aliens Not Entitled to Lawful Residence

NOTE: Authority cited: Sections 55 and 59, Labor Code. Reference: Section 2805, Labor Code.

HISTORY

1. New Group 4 (§§ 16209, 16209.1–16209.6) filed 3–24–72 as an emergency; effective upon filing (Register 72, No. 13).
2. Certificate of Compliance filed 6–2–72 (Register 72, No. 23).
3. Repealer of Group 4 (Article 1, Sections 16209, 16209.1–16209.6) filed 12–15–82 by OAL pursuant to Government Code Section 11349.7(j) (Register 82, No. 51).

Subchapter 5. Department of Industrial Relations—Conflict of Interest Code

§ 17000. General Provisions.

The Political Reform Act, Government Code Sections 81000, et seq., requires state and local government agencies to adopt and promulgate Conflict of Interest Codes. The Fair Political Practices Commission has adopted a regulation, 2 Cal. Adm. Code Section 18730, which contains the terms of a standard Conflict of Interest Code, which can be incorporated by reference, and which may be amended by the Fair Political Practices Commission to conform to amendments in the Political Reform Act after public notice and hearings. Therefore, the terms of 2 Cal. Adm.

cal Practices Commission, along with the attached Appendix in which officials and employees are designated and disclosure categories are set forth, are hereby incorporated by reference and constitute the Conflict of Interest Code of the Department of Industrial Relations.

Pursuant to Section 4(A) of the standard Code, designated employees shall file statements of economic interests with the agency. Upon receipt of the statement of the Director, the agency shall make and retain a copy and forward the original of this statement to the Fair Political Practices Commission.

NOTE: Authority cited: Sections 87300 and 87304, Government Code. Reference: Section 87300, et seq., Government Code.

HISTORY

1. New Group 5 (Articles 1–7, Sections 17000–17800, not consecutive) filed 12–2–77; effective thirtieth day thereafter. Approved by the Fair Political Practices Commission 1–19–77 (Register 77, No. 49).
2. Repealer of Group 5 (Articles 1–7, Sections 17000–17800, not consecutive) and new Group 5 (Section 17000 and Appendix) filed 2–26–81; effective thirtieth day thereafter. Approved by Fair Political Practices Commission 12–1–80 (Register 81, No. 9).

§ 16500

been filed, and after consideration of such exceptions the director shall decide that the exceptions to the report of the service do raise substantial and material factual issues, he shall direct the hearing officer to issue a notice of hearing, whereupon the procedures for a hearing and the issuance of the hearing officer's report provided for in subsection (e) of this section (including the provision for filing exceptions to the hearing officer's report) shall be followed. The director may adopt the recommendations of the hearing officer issued under subsection (d) or the report of the hearing officer issued under subsection (e) as his own. The service shall thereafter promptly proceed to take such action as may be called for by the decision of the director, after which the proceedings will be closed.

NOTE: Authority and reference cited: Section 54, Labor Code; and Sections 4.4, 13.91, 25052, 28851, 30751, 40122, 50121, 70122, 90300b, 95651, 100301, 101344, 102403, 103401, 120505 and 125521, Public Utilities Code. HISTORY

1. Amendment filed 7–29–83; effective thirtieth day thereafter (Register 83, No. 31).

§ 15875. Runoff Elections.

(a) The service shall conduct a runoff election, without further order of the director, when an election in which a ballot providing for not less than three choices (i.e. at least two representatives and "neither" or "none") results in no choice receiving a majority of the valid ballots cast, which runoff election shall be held promptly following final disposition of any challenges, objections or exceptions which followed the prior election as provided in Section 15870. Only one runoff election shall be held pursuant to this section.

(b) Employees who were eligible to vote in the election and who are employed in an eligible category on the date of the runoff election shall be the only employees eligible to vote in the runoff election.

(c) The ballot in the runoff election shall provide for a selection between the two choices receiving the largest and second largest number of votes.

(d) In the event the number of votes cast in an inconclusive election in which the ballot provided for a choice among two or more representatives and "neither" or "none" is equally divided among the several choices, or in the event the number of ballots cast for one choice in such election is equal to the number cast for another of the choices but less than the number cast for the third choice, the director shall declare the first election a nullity and shall conduct another election among the three choices which received the greatest number of ballots in the original election; provided that in the event there was a tie in the original election between the third and fourth choices or among the third, fourth and other choices, the director shall in the runoff election include on the ballot all such tied choices. In the event two or more choices receive the same number of ballots, and if either (1) there are no challenged ballots which would affect the results of the election, or (2) after all challenges have been disposed of it is found that all eligible voters have cast valid ballots, there shall be no runoff election and the petition shall be dismissed. Only one such further election pursuant to this subsection (d) may be held.

(e) The provisions of Section 15870 above shall be applicable to a runoff election.

NOTE: Authority and reference cited: Section 54, Labor Code; and Sections 4.4, 13.91, 25052, 28851, 30751, 40122, 50121, 70122, 90300b, 95651, 100301, 101344, 102403, 103401, 120505 and 125521, Public Utilities Code. Subchapter 2.3. Election Procedure Under San Francisco Bay Area Rapid Transit District Law

NOTE: Authority cited for Group 2.3: Section 54, Labor Code and Section 28851, Public Utilities Code.

HISTORY

1. New Group 2.3 (§§ 15900–15926) filed 1–5–73; effective thirtieth day thereafter (Register 73, No. 1).
2. Repealer of Group 2.3 (Sections 15900–15926) filed 7–29–83; effective thirtieth day thereafter (Register 83, No. 31).

Subchapter 3. Payment of Prevailing Wages upon Public Works

Article 1. Definitions

§ 16000. Definitions.

The following terms are defined for general use in these regulations within Group 3, Payment of Prevailing Wages Upon Public Works and Group 4, Awarding Body Labor Compliance Programs:

Area of Determination. The area of determining the prevailing wage is the "locality" and/or the "nearest labor market area" as determined by the Director. In determining the area, the mobility of each craft, classification and type of work will be considered.

Awarding body. Any state or local government agency, department, board, commission, bureau, district, office, authority, political subdivision, regional district officer, employee, or agent awarding/letting a contract/purchase order for public works.

Bid. Any proposal submitted to an awarding body in competitive bidding for the construction, alteration, demolition, repair, maintenance, or improvement of any structure, building, road, property, or other improvement of any kind.

Certified. The affirmation of a person with the authority to so affirm, under the penalty of perjury that the records are originals or are full, true and correct copies of the original and depict truly, fully and correctly the craft or type of work performed, hours and days worked, and the amounts by category listed, disbursed by way of cash, check, or in whatever form or manner to each person by job classification and/or skill pursuant to a public works contract.

Chief of DAS. Chief of Division of Apprenticeship Standards or a duly authorized representative.

Chief of DLSE/Labor Commissioner. Chief of the Division of Labor Standards Enforcement or a duly authorized representative.

Chief of DLSR. Chief of the Division of Labor Statistics and Research or a duly authorized representative.

Coverage. This means being subject to the requirements of Part 7, Chapter 1 of the Labor Code as a "public work." This includes all formal coverage determinations issued by the Director of Industrial Relations.

DAS. Division of Apprenticeship Standards.

Date of Notice or Call for Bids. The date the first notice inviting bids was published in a newspaper of general circulation or promulgated in a legally sufficient manner which results in a contract being awarded with or without competitive bidding. This may also be referred to as the Bid Advertisement Date.

Days. Unless otherwise specified means calendar days.

DLSE. The Division of Labor Standards Enforcement.

DLSR. The Division of Labor Statistics and Research.

Director. The Director of the Department of Industrial Relations or his/her duly authorized representative.

Duly Authorized Representative. An employee of the Department of Industrial Relations.

Effective Date. The date upon which the determinations of the Director go into effect. This date is ten days after the issue date of the determination.

Employer Payments. Includes:

(1) The rate of contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a fund, plan, or program for the benefit of employees, their families and dependents, or retirees;

(2) The rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing benefits to employees, their families and dependents or to retirees pursuant to an enforceable commitment or agreement to carry out a financially responsible plan or program which was communicated in writing to the workers affected; and

(3) The rate of contribution irrevocably made by the contractor or subcontractor for apprenticeship or other training programs authorized by Section 3071 and/or 3093 of the Labor Code.

Expiration Date. The date upon which the determinations of the Director are subject to change.

General Prevailing Rate of Per Diem Wages. Includes:

(1) The prevailing basic straight-time hourly rate of pay; and

(2) The prevailing rate for holiday and overtime work; and

(3) The prevailing rate of employer payments for any or all programs or benefits for employees, their families and dependents, and retirees which are of the types enumerated below:

(A) medical and hospital care, prescription drugs, dental care, vision care, diagnostic services, and other health and welfare benefits;

(B) retirement plan benefits;

(C) vacations and holidays with pay, or cash payments in lieu thereof;

(D) compensation for injuries or illnesses resulting from occupational activity;

(E) life, accidental death and dismemberment, and disability or sickness and accident insurance;

(F) supplemental unemployment benefits;

(G) thrift, security savings, supplemental trust, and beneficial trust funds otherwise designated, provided all of the money except that used for reasonable administrative expenses is returned to the employees;

(H) occupational health and safety research, safety training, monitoring job hazards, and the like, as specified in the applicable collective bargaining agreement;

(I) See definition of "Employer Payments," (3).

(J) other bonafide benefits for employees, their families and dependents, or retirees as the Director may determine; and

(4) travel time and subsistence pay as provided for in Labor Code Section 1773.8.

(b) The term "general prevailing rate of per diem wages" does not include any employer payments for:

(1) Job related expenses other than travel time and subsistence pay;

(2) Contract administration, operation of hiring halls, grievance processing, or similar purposes except for those amounts specifically earmarked and actually used for administration of those types of employee or retiree benefit plans enumerated above;

(3) Union, organizational, professional or other dues except as they may be included in and withheld from the basic taxable hourly wage rate;

(4) Industry or trade promotion;

(5) Political contributions or activities;

(6) Any benefit for employees, their families and dependents, or retirees including any benefit enumerated above where the contractor or subcontractor is required by Federal, State, or local law to provide such benefit; or

(7) Such other payments as the Director may determine to exclude. Interested Party. When used with reference to a particular prevailing wage determination made by the Director, includes:

(1) Any contractor or subcontractor, or any organization, association, or other representative of any contractor or subcontractor likely to bid on or to perform a contract for public work which is subject to the particular prevailing wage determinations, and/or

(2) Any worker in the particular craft, classification, or type of work, who may be employed on a public work project subject to the particular prevailing wage determination, or any labor organization or other representative of such a person, including the recognized collective bargaining representative for the particular craft, classification, or type of work; and/or

(3) Any awarding body or association or other representative of awarding bodies concerned with the administration of a pubic works contract or proposed contract, which is subject to the particular prevailing wage determination.

Helper. Any subjourneyman classification traditionally used to assist a journeyman. Under no circumstance may the Helper classification be used to replace statutorily required Apprentices.

Identify or Give Notice of Identity. This means to state the name, job title, address and current telephone number of a person or entity.

Interim Determination. Those determinations of the Director issued between the quarterly updates.

Issue Date-Issuance. The date upon which copies of the determination of the Director are deposited in the mail.

LCP. A labor compliance program initiated and enforced by an awarding body in accordance with these regulations.

Locality. See Labor Code Section 1724.

Maintenance. Includes:

(1) Routine, recurring and usual work for the preservation, protection and keeping of any publicly owned or publicly operated facility (plant, building, structure, ground facility, utility system or any real property) for its intended purposes in a safe and continually usable condition for which it has been designed, improved, constructed, altered or repaired.

(2) Carpentry, electrical, plumbing, glazing, [touchup painting,] and other craft work designed to preserve the publicly owned or publicly operated facility in a safe, efficient and continuously usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures.

EXCEPTION 1: Janitorial or custodial services of a routine, recurring or usual nature is excluded.

EXCEPTION 2: Protection of the sort provided by guards, watchmen, or other security forces is excluded.

(3) Landscape maintenance. See Public Contract Code Section 21002.

EXCEPTION: Landscape maintenance work by "sheltered workshops" is excluded.

Mistake, Inadvertence, or Neglect. Mistake, inadvertence, or neglect in failing to pay the correct general rate of per diem wages means the lack of knowledge that any reasonable person would also be expected to have under the same or similar circumstances.

Nearest labor market Area. The nearest geographical area from which workers of the crafts, classifications, and types to be used in the performance and execution of the public work can be drawn for employment upon such public work.

Payroll Records. All time cards, cancelled checks, cash receipts, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidences which reflect job assignments, work schedules by days and hours, and the disbursement by way of cash, check, or in whatever form or manner, of funds to a person(s) by job classification and/or skill pursuant to a public works project.

Person. Any individual [or legal entity, including a] partnership, corporation, association, or any local, state, regional, national or international organization, public or private, or any awarding body, or any agent or officer thereof, authorized to act for or on behalf of any of the foregoing.

Political Subdivision. See Labor Code Section 1721.

Predetermined Changes. Definite changes to the basic hourly wage rate, overtime, holiday pay rates, and employer payments which are known and enumerated in the applicable collective bargaining agreement

time of the bid advertisement date and which are referenced in the general prevailing rate of per diem wages as defined in Section 16000 of these regulations. Contractors are obligated to pay up to the amount that was predetermined if these changes are modified prior to their effective date. Predetermined changes which are rescinded prior to their effective date shall not be enforced.

Prevailing Rate. Includes:

(1) The basic hourly rate being paid to a majority of workers engaged in the particular craft, classification or type of work within the locality and in the nearest labor market area, if a majority of such workers is paid at a single rate; if there is no single rate being paid to a majority, then the single rate (modal rate) being paid to the greater number of workers is prevailing. If there is no modal rate, then an alternate rate will be established by considering the appropriate collective bargaining agreements, Federal rates, or other data such as wage survey data, including the nearest labor market area or expanded survey as provided in Article 4 of these regulations.

(2) Other employer payments as defined in Section 16000 of these regulations and as included as part of the total hourly wage rate from which the prevailing basic hourly wage rate was derived. In the event the total hourly wage rate does not include any employer payments, then the Director may establish a prevailing employer payment rate by the same procedure outlined in subsection (1) above.

(3) The rate for holiday or overtime work shall be those rates specified in the collective bargaining agreement when the basic hourly rate is based on a collective bargaining agreement rate. In the event the basic hourly rate is not based on a collective bargaining agreement, holidays and overtime (if any) included with the prevailing basic hourly rate of pay shall be prevailing.

Public Entity. For the purpose of processing requests for inspection of certified records or furnishing certified copies thereof, "public entity" includes the body awarding the contracts; the Division of Apprenticeship Standards (DAS), or the Division of Labor Standards Enforcement (DLSE).

Public Funds. Includes state, local and/or federal monies.

Note: Public funds do not include money loaned to a private entity where work is to be performed under private contract, and where no portion of the work is supervised, owned, utilized, or managed by an awarding body.

Public Works. See Sections 1720, 1720.2, 1720.3, and 1771 of the Labor Code.

Service upon a Contractor or Subcontractor. This is the process defined in Title 8, California Code of Regulations, (CCR) Section 16[illegible](a)(2)(A).

Serve upon the Labor Commissioner. Delivery of all documents including legal process to the Headquarters of the Labor Commissioner.

Sheltered workshop. A nonprofit organization licensed by the Chief of DLSE employing mentally and/or physically handicapped workers.

Wage Survey. An investigation conducted pursuant to Labor Code Sections 1773 and/or 1773.4 to determine the general prevailing rate of per diem wages for the crafts/classifications in the county(ies) for which the survey questionnaire was designed.

Willful. See Labor Code Section 1777.1(d).

Worker. See Labor Code Sections 1723 and 1772.

Note: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1191.5, 1720, 1720.2, 1720.3, 1721, 1722, 1722.1, 1723, 1724, 1770, 1771, 1772, 1773.5, 1776, 2750.5, 3071 and 3093, Labor Code; and Section 21002, Public Contract Code.

History

1. Repealer of group 3 (articles 1–3, sections 16000–16004, 16100–16101 and 16200–16205) and new group 3 (articles 1–4, sections 16000–16013, 16100–16109, 16200–16206 and 16300–16305) filed 1–3–77 as an emergency effective upon filing (Register 77, No 2). For prior history, see Register 56, [illegible] 8.
2. New group 3 (sections 16000–16014, 16100–16109, 16200–16207.9) filed [illegible]-78; effective thirtieth day thereafter (Register 78, No. 6).
3. Renumbering and amendment of former sections 16000–16006 and 16008–16019 to section 16000; renumbering and amendment of former section 16100 to section 16002; renumbering and amendment of former section 16101 to section 16203; renumbering and amendment of former sections 16102–16105 to section 16200; renumbering and amendment of former section 16106 to section 16206; renumbering and amendment of former sections 16107(a), (b) and (c) to sections 16201, 16202 and 16205; renumbering and amendment of former section 16108 to section 16204; renumbering and amendment of former section 16200 to section 16300; renumbering and amendment of former sections 16007, 16201, 16202, 16204 and 16206 to section 16302; renumbering and amendment of former section 16207 to section 16303; renumbering and amendment of former sections 16207.2 and 16207.3 to section 16304; renumbering and amendment of former section 16207.5 to section 16100; renumbering and amendment of former section 16207.7 to section 16301; renumbering and amendment of former sections 16207.10–16207.14 to section 16400; renumbering and amendment of former sections 16207.15 and 16207.16 to section 16401; renumbering and amendment of former section 16207.17 to section 16402; renumbering and amendment of former section 16207.18 to section 16403; renumbering and amendment of former section 16207.19 to section 16500; repealer of former sections 16100.1, 16109, 16203, 16205, 16207.1, 16207.4, 16207.6 and 16207.8; and new sections 16001, 16101 and 16102 filed 2–11–86; effective thirtieth day thereafter (Register 86, No. 7). For prior history, see Registers 82, No. 51; 80, No. 6; 79, No. 19; 72, No. 23 and 72, No. 13.
4. Amendment filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Article 2. Work Subject to Prevailing Wages

§ 16001. Public Works Subject to Prevailing Wage Law.

(a) General Coverage. State prevailing wage rates apply to all public works contracts as set forth in Labor Code Sections 1720, 1720.2, 1720.3, 1720.4, and 1771.

(1) Any interested party enumerated in Section 16000 of these regulations may file with the Director of Industrial Relations or the Director's duly authorized representative, as set forth in Section 16301 of these regulations, a request to determine coverage under the prevailing wage laws regarding either a specific project or type of work to be performed which that interested party believes may be subject to or excluded from coverage as public works under the Labor Code. If such a request is filed by any party other than the awarding body, a copy of the request must be served upon the awarding body, in accordance with the filing procedures set forth in Section 16302(d) of these regulations, when it is filed with the Director.

(2) Within 15 days of receipt of a copy of the request for a coverage determination, the awarding body shall forward to the Director or his/her duly authorized representative as provided for in Section 16301 of these regulations, any documents, arguments, or authorities it wishes to have considered in the coverage determination process.

(3) All parties to the coverage determination request shall have a continuing duty to provide the Director or his/her duly authorized representative as provided for in Section 16301 of these regulations, with relevant documents in their possession or control, until a determination is made. Where any party or parties' agent has a document in their possession, but refuses to release a copy, the Department shall consider that the documents, if released, would contain information adverse to the withholding party's position and may close the record and render a decision on the basis of that inference and the information received.

(b) Federally Funded or Assisted Projects. The application of state prevailing wage rates when higher is required whenever federally funded or assisted projects are controlled or carried out by California awarding bodies of any sort.

(c) Field Surveying Projects. Field survey work traditionally covered by collective bargaining agreements is subject to prevailing wage rates when it is integral to the specific public works project in the design, preconstruction, or construction phase.

(d) Residential Projects. Residential projects consisting of single family homes and apartments up to and including four stories are subject to payment of prevailing wages when paid for in whole or in part out of public funds, including federally–funded or assisted residential projects controlled or carried out by an awarding body.

Note: Such projects may require a special determination by the Director which should be requested by the awarding body at least 45 days before the commencement of advertising of the call for bids by the awarding body.

(e) Commercial Projects. All non-residential construction projects including new work, additions, alterations, reconstruction and repairs. Includes residential projects over four stories.

(f) Maintenance. Public works contracts for maintenance are subject to prevailing wage rate payment as set forth in Section 1771 of the Labor Code.

NOTE: See Article 1 for definition of term "maintenance."

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1720.4 and 1771, Labor Code.

HISTORY

1. Amendment of subsection (a) and NOTE and adoption of subsections (a)(1)–(3) and (e) and relettering former subsection (e) to (f) filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16002. Coverage of Worker.

The determinations of the Director will cover those crafts, classifications or types of workers employed in public works as set forth in Sections 1720, 1720.2, 1720.3, and 1771 of the Labor Code.

NOTE: Authority cited: Sections 1723 and 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3 and 1771, Labor Code.

§ 16002.5. Appeal of Public Work Coverage Determination.

(a) Those interested parties enumerated in Section 16000 of these regulations may appeal to the Director of Industrial Relations or the Director's duly authorized representative as set forth in Section 16301 of these regulations a determination of coverage under the public works laws (Labor Code Section 1720 et seq.) regarding either a specific project or type of work under Section 16001(a) of these regulations. Such notice of appeal must be served within 30 days of the issuance of the coverage determination. The party appealing the determination must, in accordance with the filing procedures set forth in Section 16302(d) of these regulations, give written notification to the awarding body and any other identifiable parties.

(b) The notice of appeal shall state the full factual and legal grounds upon which the determination is appealed, and whether a hearing is desired. The decision to hold a hearing is within the Director's sole discretion. The Director may appoint a hearing officer to conduct the hearing and propose a decision on the appeal. The Director shall make the final decision on the appeal.

(c) The authority of the Director to determine coverage of projects under the prevailing wage laws is quasi–legislative, and a final determination on any appeal is subject to judicial review pursuant to the Code of Civil Procedure, Section 1085.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1720.4 and 1771, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16003. Requests for Approval of Volunteer Labor.

(a) An awarding body wishing to use volunteer labor on what would otherwise be a public works project, pursuant to Labor Code Section 1720.4 shall serve a written request for approval on the Director, not less than 45 days prior to the commencement of work on the facilities or structures.

(b) The request for approval shall fully set forth the awarding body's grounds for belief that the requirements of Labor Code Section 1720.4(a), (b), and (c) are satisfied, and shall list all the crafts and classifications of workers that typically perform the types of work needed for the project.

(c) The request for approval shall identify the unions which represent workers in the crafts or classifications listed in (b) within the locality in which the public work is performed.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1720, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Article 3. Duties, Responsibilities, and Rights of Parties

§ 16100. Duties, Responsibilities and Rights.

The parties listed in this section must comply with the provisions of the Labor Code applicable to the payment of prevailing wages on public works contracts.

(a) Department and Division Authority in Prevailing Wage Issues. The Director shall establish and coordinate the administration of the State's prevailing wage law, including the determination of coverage issues. The lead agency for the determination of prevailing wage rates shall be the Division of Labor Statistics and Research. The lead agency for the enforcement of the payment of prevailing wages is the Division of Labor Standards Enforcement. The lead agency for the coordination on apprenticeship is the Division of Apprenticeship Standards. This section shall not be construed to preclude any filing requirements with DLSR of appropriate agreements or petitions regarding determinations or any other documents, papers, books, etc. otherwise required by the law or these regulations.

(b) The Awarding Body shall:

(1) Obtain the prevailing wage rate from the Director in accordance with Labor Code Sections 1771 and 1773.

(2) Specify the appropriate prevailing wage rates, in accordance with Labor Code Sections 1773.2 and 1777.5.

(A) The posting requirement is applicable for each job site.

EXCEPTION: If more than one worksite exists on any project, then the applicable rates may be posted at a single location which is readily available to all workers.

(B) If a wage rate for a craft, classification or type of worker is not published in the Director's general prevailing wage determinations, a request for a special determination should be made by the awarding body to Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142, at least 45 days prior to the project bid advertisement date.

(3) Notify DAS. See Labor Code Section 1773.3.

(4) Inform prime contractors, to the extent feasible, of relevant public work requirements:

NOTE: Requirement information may be disseminated at a preacceptance of bid conference or in a call for bids or at an award of bid conference.

The public works requirements are:

(A) the appropriate number of apprentices are on the job site, as set forth in Labor Code Section 1777.5.

(B) worker's compensation coverage, as set forth in Labor Code Sections 1860 and 1861.

(C) keep accurate records of the work performed on the public works project, as set forth in Labor Code Section 1812.

(D) inspection of payroll records pursuant to Labor Code Section 1776, and as set forth in Section 16400 (e) of these regulations.

(E) and other requirements imposed by law.

(5) Withhold monies. See Labor Code Section 1727.

(6) Ensure that public works projects are not split or separated into smaller work orders or projects for the purpose of evading the applicable provisions of Labor Code Section 1771.

(7) Deny the right to bid on public work contracts to contractors or subcontractors who have violated public work laws, as set forth in Labor Code Section 1777.7.

(8) Not permit workers on public works to work more than eight hours a day or 40 hours in any one calendar week, unless compensated at not less than time and a half as set forth in Labor Code Section 1815.

EXCEPTION: If the prevailing wage determination requires a higher rate of pay for overtime work than is required under Labor Code Section 1815, then that higher overtime rate must be paid [, as specified in subsection 16200(a)(3)(F) of these regulations.]

(9) Not take or receive any portion of the workers' wages or accept a fee in connection with a public works project, as set forth in Labor Code Sections 1778 and 1779.

(10) Comply with those requirements as specified in Labor Code Sections 1776(g), 1777.5, 1810, 1813, and 1860.

(c) Contractor–subcontractor.

The contractor and subcontractor shall:

(1) Pay not less than the prevailing wage to all workers, as defined in Section 16000(a) of these regulations, and as set forth in Labor Code Sections 1771 and 1774;

(2) Comply with the provisions of Labor Code Sections 1773.5, 1775, and 1777.5 regarding public works jobsites;

(3) Provide workers' compensation coverage as set forth in Labor Code Section 1861;

(4) Comply with Labor Code Sections 1778 and 1779 regarding receiving a portion of wages or acceptance of a fee;

(5) Maintain and make available for inspection payroll records, as set forth in Labor Code Section 1776;

(6) Pay workers overtime pay, as set forth in Labor Code Section 1815 or as provided in the collective bargaining agreement adopted by the Director as set forth in Section 16200 (a) (3) of these regulations; and

(7) Comply with Section 16101 of these regulations regarding discrimination.

(8) Be subject to provisions of Labor Code Section 1777.7 which specifies the penalties imposed on a contractor who willfully fails to comply with provisions of Section 1777.5.

(9) Comply with those requirements as specified in Labor Code Sections 1810 and 1813.

(10) Comply with other requirements imposed by law.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1726, 1727, 1728, 1729, 1770, 1771, 1773, 1773.2, 1773.3, 1773.5, 1774, 1775, 1776, 1777.5, 1777.7, 1778, 1779, 1810, 1811, 1812, 1815, 1860 and 1861, Labor Code.

HISTORY

Amendment of subsection (b)(2)(B) filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16101. Discrimination.

See Labor Code Sections 1735, 1777.5, 1777.6, and 3077.5.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1735, 1777.5, 1777.6 and 3077.5, Labor Code.

§ 16102. Interested Party.

An interested party, as defined in Section 16000 of these regulations, may be a source of wage data information, as provided in Section 16000(e) of these regulations.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.4, Labor Code.

Article 4. Wage Determinations

§ 16200. General; Basis for Determining Prevailing Wage Rate.

The Director shall follow those procedures specified in Sections 1773 and 1777.5 of the Labor Code and in these regulations when making a prevailing wage determination.

(a) Collective Bargaining Agreements or Wage Surveys.

(1) Filing of collective bargaining agreements.

(A) To enable the Director to ascertain and consider the applicable wage rates established by collective bargaining agreements when making prevailing wage determinations, the representatives of any crafts, classifications, or types of workers needed to execute any public works contracts shall file with the Department of Industrial Relations fully executed copies of all their collective bargaining agreements, including any and all addenda which modify the agreements, within 10 days of their execution and shall be considered as the basis for a prevailing wage determination whenever on file 30 days before the call for bids on a project.

(B) Copies of collective bargaining agreements filed with the Department of Industrial Relations pursuant to Sections 1773.1 and 1773.8 of the Labor Code, and Section 16200(a)(1)(A) of these regulations shall be addressed to: Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142.

(C) Collective bargaining agreements filed with the Division of Labor Statistics and Research must be accompanied by a signed statement which is certified as true and correct to the best of the knowledge and belief of the person preparing the statement, under penalty of perjury, and which:

1. certifies that the agreement filed is fully executed and in effect, unless it is a signed original agreement or photocopy thereof, or a printed copy of a fully executed agreement showing the names of the signatory parties, except in the case of a printed agreement the Director may require certification;

2. names or otherwise identifies all California counties within the jurisdiction of the local union or unions signatory to the agreement;

3. names and provides the address of the signatory employer association or, if there be no signatory employer association, provides the names and addresses of all contractors signatory to the agreement, unless such information is contained in the agreement;

4. provides the number of workers currently employed under the terms of the agreement and, if practicable, the number of workers in each county within the jurisdiction of the signatory local union or unions;

5. provides any other information not contained in the agreement that the Director may need to give proper consideration to applicable wage rates established by collective bargaining.

(D) Copies of collective bargaining agreements which are not bona fide shall not be deemed filed. The party filing a contract may be asked to substantiate the assertion that such collective bargaining agreement is bona fide.

(2) Criteria for using collective bargaining agreement wage rates as basis of prevailing wage determinations. Before accepting the collective bargaining agreement wage rate for the applicable craft and locality, DLSR shall take the following factors into consideration:

(A) The geographical area(s) specified in the agreement;

(B) The number of workers covered by the agreement;

(C) If signatory parties to the agreement have workers in the geographical area(s);

(D) If work has been performed in the geographical area(s) specified in the agreement in the past 12 months;

(E) The wage rates determined by the federal government as set forth in Section 16200(b).

(3) Adoption of Collective Bargaining Agreements or Wage Surveys.

(A) If the Director determines pursuant to Section 1773 of the Labor Code that the rate established by a collective bargaining agreement is the general prevailing rate of per diem wages for each craft, classification or type of worker and the Director adopts such rate by referral, the Director will publish such rate. Only those rates and employer payments specifically enumerated in the definition of "general prevailing rate of per diem wages" in Section 16000 shall be included in the rate adopted.

(B) When such rate is adopted, and in the case where the collective bargaining agreement contains definite and predetermined changes during its term which will affect the rate adopted, the Director shall incorporate such changes in the determination.

NOTE: A statement must be filed with the Director for any adjustments made to a contract which are not contained in the agreement currently on file with DLSR.

(C) When such rate is adopted, and in the case where the collective bargaining agreement contains changes during its term which will affect the rate adopted, which are not definite or predetermined, the changes shall not be adopted. The prior determination will remain in effect until a new determination is issued. Any interested party may request that the Director make a new determination when contract changes become definite and determined by filing a statement as set forth in Section 16200(a)(1). The statement must summarize the amounts and effective dates of any cost–of–living adjustments, allocations of interim wage increases to wages and employer payments, and other relevant changes which will affect the rate adopted by the Director. The statement must be signed by an officer or agent of the bargaining representative and certified, under pen-

alty of perjury, as true and correct to the best of his or her knowledge and belief.

(D) When such agreement is adopted as the basis of the prevailing wage determination, all wage classifications may be considered.

(E) Holidays. Holidays specifically named in the collective bargaining agreement or determined by wage surveys shall be included in the wage determination. Overtime pay may be required as provided in Section 16200(a)(3)(F) of these regulations.

(F) Overtime. Overtime will be paid as indicated in the wage determination.

EXCEPTION 1: If a workweek other than Monday through Friday is a fixed business practice or is required by the awarding body, no overtime payment is required for the first eight hours on Saturday or Sunday.

EXCEPTION 2: If the collective bargaining agreement provides for Saturday and Sunday work at straight-time, no overtime payment is required for the first eight hours on Saturday or Sunday.

EXCEPTION 3: If the awarding body determines that work cannot be performed during normal business hours or work is necessary at off hours to avoid danger to life or property, no overtime is required for the first eight hours in any one calendar day, and 40 hours during any one calendar week.

EXCEPTION 4: No overtime payment is required for less than 40 hours in a standard work week or for less than eight hours in a calendar workday unless specified in the collective bargaining agreement used as the basis for the prevailing wage determination.

(G) Wage rates, training contributions and apprenticeship contributions. Apprenticeship rates shall be determined by the Director of Industrial Relations using apprentice wage standards set forth in the collective bargaining agreement and/or approved by the California Apprenticeship Council. A contractor or subcontractor on a public works contract must pay training fund contributions or apprenticeship contributions in one of the following manners:

1. into the appropriate craft apprenticeship program in the area of the site of the public work; or

2. (if the trust fund is unable to accept such contributions) an equivalent amount shall be paid to the California Apprenticeship Council (CAC) administered by DAS.

3. If neither of the above will accept the funds, cash pay shall be as provided for in Section 16200(a)(3)(I) of these regulations.

(H) Rates for helpers. Rates for helpers will be published when the information available to the Director indicates that a practice of using such a subclassification prevails in a particular area, such as contained in a collective bargaining agreement, and within the parameters of the applicable collective bargaining agreement. In the absence of such determination, the helper classification may not be used as a substitute for a journeyman or apprentice. This section does not exempt the contractor from the 1–5 apprentice–journeyman ratio requirements set forth in Labor Code Section 1777.5.

(I) Credit Available For Actual Payment of Fringe Benefit Costs up to the Prevailing Amount. The contractor obligated to pay the full prevailing rate of per diem wages may take credit for amounts up to the total of all fringe benefit amounts listed as prevailing in the appropriate wage determination. This credit may be taken only as to amounts which are actual payments under Employer Payments Section 16000(1)–(3). In the event the total of Employer Payments by a contractor for the fringe benefits listed as prevailing is less than the aggregate amount set out as prevailing in the wage determination, the contractor must pay the difference directly to the employee. No amount of credit for payments over the aggregate amount of employer payments shall be taken nor shall any credit decrease the amount of direct payment of hourly wages of those amounts found to be prevailing for straight time or overtime wages.

(b) Federal Rates. In reviewing rates predetermined for federal public works, the Director will consider those rates published pursuant to the Davis–Bacon Act.

(c) Data collection shall be in accordance with Labor Code Section 1773.

(d) Wage rate factors.

NOTE: Wage surveys are conducted by DLSR.

(1) The following factors shall be considered:

(A) Type of work to be performed;

(B) Classification(s) of worker(s) needed;

(C) Geographical area of project;

(D) Nearest labor market area;

(E) If work has been performed in the geographical area in the past 12 months.

(F) Mobility of craft, classification, or type of worker needed for project;

(G) Number of workers in craft or job classification;

(H) Normal industry practice in selection of craft and classification of worker;

(I) Size (dollar amount) of project;

(J) Degree of project's remoteness from survey area.

(2) Time period used in determining prevailing wage by survey. The time period reference for establishing the prevailing wage in the area of determination shall be the 12–month period prior to the request for a wage determination unless another time period is necessary. In such cases, the Director shall establish the appropriate time period.

(e) Other information. Pursuant to Section 1773 of the Labor Code, the Director may also obtain and consider other data from interested parties, and shall give consideration to data submitted by any interested party, concerning rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area. Such data may be obtained by holding a hearing, instituting an investigation, or by such other means as the Director determines will best serve the purposes of the law. Information submitted by interested parties for the Director's consideration shall include, but not be limited to the following for each project:

(1) the name, address, job title, and telephone number of the interested party submitting the information and the basis for qualification as an interested party under Section 16102;

(2) the basic hourly wage rate, overtime and holiday pay rates, and employer payments as enumerated in Section 16000 of these regulations for each classification in question as effective for the last payroll period, or most recent payroll period, for which payments based on such rates were actually made;

(3) the number of workers employed on the project in each classification in question during the payroll period for which data is submitted;

(4) the location of the project;

(5) the name and address of the contractor or subcontractor making the payments, and of all other contractors or subcontractors on the project;

(6) the type of construction (e.g. residential, commercial building, etc.);

(7) the approximate cost of construction;

(8) the beginning date and completion date, or estimated completion date of the project;

(9) the source of data (e.g. "payroll records");

(10) the method of selection of the projects for which data is submitted, when data is not submitted for all projects recently completed or in progress in the locality or in the nearest labor market area.

NOTE: Authority cited: Sections 1773 and 1773.5, Labor Code. Reference: Sections 1770, 1771, 1773, 1773.1, 1773.5, 1773.8, 1777.5, 1810 and 1815, Labor Code.

HISTORY

1. Order of Repeal of subsection (a)(3)(E) filed 8–24–88 by OAL pursuant to Government Code section 11340.15 (Register 88, No. 35).

2. Amendment of subsections (a)(1), (a)(3) and (b) filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16201. General Area Determinations.

When the Director determines that the general prevailing rate of per diem wages for a particular craft, classification, or type of worker is uniform throughout an area, the Director shall issue a determination enumerated county by county, but covering the entire area. Such determinations will ordinarily be made for an entire county or group of counties and shall constitute the Director's determination for all localities in which public work is performed within that county or counties except as the geograph-

application of the determination may be specifically limited by the determination itself.

NOTE: General determinations are usually issued on a quarterly basis. However, the Director may issue an interim wage determination following the procedures set forth in Section 1773 of the Labor Code, and in these regulations. See Section 16000 as to issue date, and Section 16204 as to effective date of determination. The general determination usually applies where a collective bargaining agreement has been filed and adopted as the prevailing wage rate.

NOTE: Authority cited: Sections 1773.5 and 1773.6, Labor Code. Reference: Section 1773, Labor Code.

§ 16202. Special Determinations.

(a) Awarding body request. The awarding body shall request the Director to make a determination for a particular craft, classification or type of worker not covered by a general determination. Any such request shall be submitted at least 45 days prior to the bid advertisement date.

(b) Department of Industrial Relations initiated determination. Where an awarding body does not specify the prevailing wage rate as set forth in Labor Code Section 1773.2, any interested party (as defined in Section 16000 of these regulations) may petition the Director as set forth in Labor Code Section 1773.4 and Section 16302 of these regulations. The Labor Commissioner may, prior to the letting of the bid, request such a determination of the Director.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1773 and 1773.4, Labor Code.

§ 16203. Format.

(a) All determinations made by the Director of the general prevailing rate of per diem wages for a particular craft, classification, or type of worker will separately specify each of the following components:

(1) The prevailing basic straight–time hourly wage rate.

(2) The following statement when applicable: "In accordance with Labor Code Section 1773, holidays upon which the prevailing hourly wage for holiday work shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workers employed on the project, which is on file with the Director of Industrial Relations."

(3) The prevailing employer payments for benefits included in the general prevailing rate of per diem wages pursuant to Section 1773.1 of the Labor Code and enumerated in Section 16000 of these regulations.

(4) The following statement when applicable. "The contractor shall make travel and subsistence payments to each worker needed to execute the work, as such travel and subsistence payments are defined in the applicable collective bargaining agreements filed with the Director of Industrial Relations in accordance with Labor Code Section 1773.8."

(b) Where the prevailing employer payment for any benefit is expressed in a formula or method of payment other than an hourly rate the Director may convert the rate to an hourly rate whenever such action would facilitate the administration of the law.

(c) The applicability of the apprentice rate of per diem wages shall be indicated and furnished upon request.

(d) The dates between which the applicable rate shall be paid for work performed in those periods shall be indicated.

(e) As a supplement to each determination the Director shall make available to any awarding body upon request, a list of all holidays recognized and the provision for travel and subsistence payments, taken from the applicable collective bargaining agreement.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.5, Labor Code.

§ 16204. Effective Dates of Determination and of Rates Within Determination.

Effective Date of Determination.

(1) All determinations issued will be effective ten (10) days after issuance, provided that requests for copies, reprints or reissuance of prior determinations shall not affect the original effective date unless a new effective date is reflected upon the determination (see subdivision (3) below). Any call for bids put out on or after the effective date of the determination must reflect that determination unless the Director determines that subdivision (4) of this section is applicable, after notification and request by an awarding body.

(2) Determinations issued by the Director will show an issue date and will ordinarily show an expiration date.

(3) All determinations will remain in effect until their expiration date or until modified, corrected, rescinded or superseded by the Director.

(4) Determinations modified, corrected, rescinded or superseded on the basis of information contained in copies of collective bargaining agreements filed with the Department shall not be effective as to any project in which a call for bids takes place less than 30 days after the filing of the agreement.

NOTE: See Section 1773.1 of the Labor Code.

(5) It shall be the responsibility of the awarding body to ensure that the correct determination is used.

(b) Modification of Effective Date of Determination by Asterisks. Meaning of single and double asterisks. Prevailing wage determinations with a single asterisk (*) after the expiration date which are in effect on the date of advertisement for bids remain in effect for the life of the project. Prevailing wage determinations with double asterisks (**) after the expiration date indicate that the basic hourly wage rate, overtime and holiday pay rates, and employer payments to be paid for work performed after this date have been predetermined. If work is to extend past this date, the new rate must be paid and should be incorporated in contracts entered into now. The contractor should contact the Prevailing Wage Unit, DLSR, or the awarding body to obtain predetermined wage changes. All determinations that do not have double asterisks (**) after the expiration date remain in effect for the life of the project.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1773 and 1773.1, Labor Code.

HISTORY

1. Amendment of subsections (a)(3) and (b) filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16205. Procedures for Obtaining Prevailing Wage Determinations.

An awarding body may request to be put on a mailing list for all area wage determinations for a specific county or counties or may request that a special or general prevailing wage determination be furnished when needed, by writing to Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142. All requests for special prevailing wage determinations must be confirmed in writing and must specify the location where the public work is to be performed, including the county and the particular crafts, classifications, or types of workers for which a determination is needed.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770 and 1773, Labor Code.

HISTORY

1. Amendment filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16206. Corrections.

Upon his or her own initiative or at the request of any interested party, the Director shall correct any error in a published determination that is the result of clerical error, such as a typographical error or a transposition of letters or digits, by issuing a corrected determination or a modification of the determination. The Director may correct any error issued in a determination by reissuing such determination.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770 and 1773, Labor Code.

Article 5. Petitions to Review Prevailing Wage Determinations

§ 16300. Delegation of Authority.

(a) The Chief of DLSR is the authorized representative of the Director for the purpose of:

(1) Receiving collective bargaining agreements and other documents and papers pertaining to making prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these regulations;

(2) Gathering information needed to make prevailing wage determinations under Part, Chapter 1, Article 2 of the Labor Code and these regulations, and may for that purpose institute investigations, conduct hearings, or employ such other means as shall best serve the purpose of the law;

(3) Issuing prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these regulations; and

(4) Responding to petitions regarding determinations.

(b) The Director reserves the right to make all final determinations.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1771, 1772, 1773 et seq., 1774, 1775, 1776, 1777, 1777.5 et seq., 1778, 1779 and 1780, Labor Code.

§ 16301. Referral of Prevailing Wage Issues to Director's Office.

Any new or unresolved issue other than of a routine nature as to coverage of or amount of the prevailing wage raised by an awarding body or other interested party may be referred to the Chief of DLSR as the Director's duly authorized representative for final determination, including appeals of any determination relating either to coverage or to the rate of the prevailing wage rate, subject only to Section 16300(b) of these regulations.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.4, Labor Code.

§ 16302. Petition to Review Prevailing Wage Determinations.

Those interested parties enumerated in Section 1773.4 of the Labor Code, and defined in Section 16000 of these regulations, may file with the Director or the Chief of DLSR, within 20 days after commencement of advertising of a call for bids by any awarding body, a petition to review a determination of any rate or rates made by the Director, pursuant to Section 1773 of the Labor Code, which is specified in or referred to in the call for bids.

(a) Manner of Filing. Every petition filed pursuant to Section 1773.4 of the Labor Code shall be filed with the Director by mail to the Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142, or may be filed in person at 455 Golden Gate Avenue, 5th Floor, San Francisco, CA 94102.

(b) Filing. Where any paper, letter, petition, or document is required or permitted to be filed pursuant to these regulations or pursuant to the prevailing wage provisions of the Labor Code, it shall be deemed filed with any person, awarding body or division upon actual delivery to and receipt by such person, awarding body, or division.

(c) Content of Petition. Every petition filed pursuant to Section 1773.4 of the Labor Code shall contain and separately state the following:

(1) The name, address, telephone number and job title of:

(A) the person filing the petition;

(B) the person verifying the petition, if different from the person filing;

(C) if applicable, petitioner's attorney or authorized representative.

(2) Whether the petitioner is an awarding body, a prospective bidder, or the representative of one or more crafts, classifications or types of workers involved in the public works contract;

(3) The nature of petitioner's business, if a prospective bidder, and a designation of each craft, classification, or type of worker represented, or types of workers involved in the public works project.

(4) (A) the official name of the awarding body;

(B) the date on which the call for bids was first published;

(C) the name and location of the newspaper in which such publication was made. An accurate copy of the call for bids as published shall be attached to the petition.

(5) If petitioner is an awarding body which is a department, board, authority or political subdivision other than a county, city and county, city, township, or regional district, the awarding body shall describe the parent or principal organization of which it is a part, and shall specify the statutory authority for undertaking public works.

(6) If the petitioner is a prospective bidder, then the parent or subsidiary corporations or associations related to such craft, classification or type of work, if any, shall be specified.

(7) The manner in which the wage rate determined by the Director fails to comply with the provisions of Labor Code Section 1773.

(A) Every petition asserting that the applicable prevailing rate for one or more crafts, classifications or types of workers needed to execute a contract is different from that ascertained by the Director shall set forth the rate the petitioner claims to be correct for each disputed rate, together with specific reference to particular facts providing the basis for such claim.

1. Whenever such facts relate to a particular employer of such crafts, classifications, or types of workers, the facts stated must identify the employer by name and address and give the number of workers involved.

2. Whenever such facts relate to an applicable collective bargaining agreement which the petitioner alleges was not considered by the Director pursuant to Section 1773 of the Labor Code, a copy of the agreement, if not already filed with the Director, should be filed concurrently with the petition in the manner provided in Section 16200(a)(1) of these regulations.

3. Whenever such facts relate to rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area, the facts stated should include all of the items of information enumerated in Section 16200(e) of these regulations.

(B) Every petition asserting that the Director has failed to ascertain and consider all applicable rates required to be considered by it shall specifically state in the petition which rates have not been considered by the Director.

(C) Where rates ascertained by the Director are the same as the applicable rates established by the collective bargaining agreement and rates of pay determined for federal public works within the locality and the nearest labor market area where the public work is performed, the petition shall specifically describe the manner and extent to which such rates do not constitute the rates actually prevailing in the locality where the public work is to be performed, and shall set forth and fully identify the existence of any rates asserted by petitioner to be prevailing in the locality and relied upon in support of the petition.

(d) Filing Copy With Awarding Body. If the petitioner is not an awarding body, the petitioner may concurrently with the filing of the original petition, or otherwise shall within two days thereafter, excluding Saturdays, Sundays and holidays, file a copy of the petition with the awarding body and not later than five days, excluding Saturdays, Sundays and holidays, after the filing of the original petition, the petitioner shall file with the Chief of DLSR an affidavit of the filing with the awarding body. The Director may waive this requirement upon receipt of written confirmation, including a copy of such notification by the petitioner.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1773, 1773.1, 1773.4, 1773.5, 1773.8 and 1776, Labor Code.

HISTORY

1. Amendment of subsection (a) filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16303. Quasi–Legislative Nature of Authority.

(a) The authority of the Director to establish the prevailing wage for any craft, classification, or type of worker is quasi–legislative. The Director has the discretion to establish these prevailing wages in a quasi–legislative manner which may include an investigation, hearing, or other action. Any hearing under this process is quasi–legislative and is subject to review pursuant to the Code of Civil Procedure Section 1085.

(b) The Director may in his or her discretion initiate an investigation or hold a hearing or take such other action as is reasonably necessary which would best effectuate the purposes of the law and of these regulations, except as such action may be expressly prohibited by law.

NOTE: Authority cited: Section 1773.5, Labor Code; and Winzler & Kelly (1981) 121 C.A. 3d 120; *Western Assn. of Engineers & Land Surveyors v. DIR*, Judicial Council Coord. Proceeding No. 449, Sac. Superior Court No. 285433. Reference:

S 1770, 1773 and 1773.4, Labor Code; and Section 1085, Code of Civil P .e.

§ 16304. Hearings.

When a hearing is held, including a petition to review under Labor Code Section 1773.4, it shall be in accordance with the following procedures:

(a) Hearing Procedures.

(1) A time and place of the hearing shall be fixed.

(2) All interested parties made known to the Director shall be notified by registered or certified mail, return receipt requested, of the time and place of the hearing except that, in the event of numerous interested parties or in the event that mailing notices by registered or certified mail could cause an undue delay adverse to the interest of the parties or a timely hearing, the Director may send certified or registered notices to the petitioner and other directly interested parties that have been made known to the Director and mail notices to the other parties, and publish such notices in newspapers.

(3) Notification of the time and place of the hearing shall be at least one week in advance.

(4) The interested parties shall be given an opportunity to present evidence and oral or written arguments in support of their positions. The officer may fairly allocate time for such witnesses' testimony in the interest of introducing relevant evidence. Cross examination will be permitted at the discretion of the hearing officer.

(5) The hearing need not be conducted according to technical rules relating to evidence and witnesses.

(6) All witnesses testifying before the hearing officer shall testify under oath.

(7) A full transcript of the hearing shall be recorded.

(aring Officer. The Director may appoint a hearing officer(s). The ointed hearing officer(s) shall conduct the hearing and submit to h tor the entire record of the hearing together with written recommendations. Either the appointed hearing officer(s) or the Director may equest documentation subsequent to the hearing to complete the record, nd shall send copies of such additional information to the petitioner, warding body or other designated interested party or parties.

(c) Subject Matter. The subject matter of a hearing may be initiated by petition to review, as set forth in Labor Code Section 1773.4.

(d) Decision. The decision of the Director shall reflect a summary of he evidence, findings, or matters of fact and/or law.

The decision shall be sent to all parties no later than 20 days after the e except earlier or later as special circumstances warrant. The decision of the Director shall be final, for the purposes of judicial review, xcept that the Director upon his or her initiative only, may consider and ake whatever action is appropriate or necessary to facilitate a decision n reconsideration. Notice of reconsideration shall be given to all parties n the same manner as the notice of hearings as specified in Sections 6304(a)(2) and (a)(3) above and the decision upon reconsideration shall e as specified in subdivisions (a)(2) and (a)(3) of this section.

Article 6. Certified Payroll Records: Requests, Content, and Cost

16400. Request for Payroll Records.

(a) Requests may be made by any person for certified copies of payroll ec Requests shall be made to any of the following:

(body awarding the contract, or

(2) any office of the Division of Labor Standards Enforcement, or the ivi on of Apprenticeship Standards.

quests for certified copies of payroll records pursuant to Section 776 of the Labor Code may be made by any person. However, any such quest shall be in writing and contain at least the following information:

(1) The body awarding the contract;

(2) The contract number and/or description;

(3) The particular job location if more than one;

(4) The name of the contractor;

(5) The regular business address, if known.

Note: Requests for records of more than one contractor of subcontractor must list the information regarding that contractor individually, even if all requests pertain to the same particular public works project. Blanket requests covering an entire public works project will not be accepted; unless contractor and subcontractor responsibilities regarding the project are not clearly defined.

(c) Acknowledgment of Request. The public entity receiving a request for payroll records shall acknowledge receipt of such, and indicate the cost of providing the payroll records based on an estimate by the contractor, subcontractor or public entity. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16400(d) below, to the person who requested said records.

(d) Request to Contractor. The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following:

(1) Specify the records to be provided and the form upon which the information is to be provided;

(2) Conspicuous notice of the following:

(A) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and

(B) that failure to provide certified copies of the records to the requesting public entity within 10 working days of the receipt of the request will subject the contractor to a penalty of twenty–five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated;

(3) Cost of preparation as provided in Section 16402; and

(4) Provide for inspection.

(e) Inspection of Payroll Records. Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of Section 1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice.

Note: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

§ 16401. Reporting of Payroll Requests.

(a) Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research P.O. Box 603 San Francisco, CA 94101

ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be conditioned upon the requirement that the alternate format contain all of the information required pursuant to Labor Code Section 1776. If, however, the contractor does not comply with the provisions of Labor Code Section 1776, the Labor Commissioner may require the use of DIR's suggested format, "Public Works Payroll Reporting Form" (Form A–1–131).

(b) Words of Certification. The form of certification shall be as follows: I, _____ (Name–print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named. Date:_____Signature:_____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1776, Labor Code.

§ 16402. Cost.

The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

NOTE: Authority cited: Section 1776, Labor Code. Reference: Section 1776(h), Labor Code.

§ 16403. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Section 1776, Labor Code.

Subchapter 4. Awarding Body Labor Compliance Programs

Article 1. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs

§ 16425. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs.

(a) No contracts shall be subject to LCP jurisdiction nor shall the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) apply to any contract of an awarding body until after the LCP has received initial or final approval under these regulations.

(b) Contracts for which the Date of Notice or the Call for Bids are subsequent to the date of initial or final approval of a LCP are subject to Labor Code Section 1771.5. In the case of a contract for which there is no Call for Bids, the applicable date shall be the date of execution of the contract.

(c) Revocation of approval of a LCP by the Director shall not affect the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) if the date of such revocation is subsequent to the Date of Notice or Call for Bids or, in the case of a contract for which there is no Call for Bids, subsequent to the date of execution of the contract.

(d) If the Director revokes approval of a LCP, the Director shall give notice to the awarding body specifying enforcement responsibilities, including enforcement actions pending hearing, as of the date of revocation.

(e) An awarding body may voluntarily terminate its LCP. With respect to each contract pending on the date of termination, the awarding body shall:

(1) Notify the Director of its intention and the effective date of the termination;

(2) Notify the contractor(s) and the DLSE of the identity of the agent who will carry out the compliance enforcement obligations of Labor Code Section 1771.5 on the remaining contracts; and

(3) Specify the general fund into which penalties or forfeitures withheld from any contract payments shall be deposited.

(f) The Labor Commissioner may, in writing, agree to assume enforcement obligations on pending contracts of an awarding body which has voluntarily terminated its LCP. In such case, penalties and forfeitures shall be deposited in the general fund of the state.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13). For prior history of subchapter 4 (sections 16209-16209.6), see Register 82, No. 51.

Article 2. Approval and Revocation of Approval of Labor Compliance Programs by Director

§ 16426. Initial Approval.

(a) An awarding body seeking approval of a LCP shall submit evidence of its ability to operate its LCP. Prior to granting approval, the Director shall consider the following factors:

(1) Experience and training of the awarding body's personnel on public works labor compliance issues;

(2) The average number of public works contracts the awarding body annually administers;

(3) Whether the LCP is a joint or cooperative venture among awarding bodies, and how the resources and expanded responsibilities of the LCP compare to the awarding bodies involved;

(4) The awarding body's record of taking cognizance of Labor Code violations and of withholding in the preceding five years;

(5) The availability of legal support for the LCP;

(6) The availability and quality of a manual outlining the responsibilities and procedures of the LCP to the awarding body; and

(7) The method by which the awarding body will transmit notice to the Labor Commissioner of willful violations as defined in Labor Code Section 1777.1(d).

(b) The Director shall notify the awarding body within 30 days of receipt of the request for approval that initial approval is granted and the effective date of initial approval, or that the request is incomplete and of the materials necessary to complete the request or that the request is disapproved for other reasons.

(c) Initial approval of a LCP shall automatically expire one year after approval unless an extension is requested in writing and granted in writing by the Director at least thirty days prior to the anniversary date of the approval. Where necessary to coordinate with the local government's fiscal year or existing public works procedures, initial approval may be for a period up to 18 months.

(d) The Director will maintain a list of all initially approved LCPs for distribution to interested parties upon request.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5, 1771.6 and 1777.1, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16427. Final Approval.

(a) An awarding body which has operated a LCP for 11 continuous months after initial approval may apply to the Director for final approval.

awarding body bears the burden of producing evidence that it meets criteria in (b).

(b) The Director will grant final approval if the awarding body has satisfactorily demonstrated its ability to monitor compliance with the requirements of the Labor Code and these regulations, and has filed timely, complete, and accurate reports as required by these regulations.

(c) The Director shall notify the awarding body within 30 days of the receipt of a request for final approval that final approval is granted and the effective date of final approval, or that the request for final approval is denied, the reason for the denial and the status of the LCP program.

(d) An awarding body which has received final approval of its LCP may enter into an agreement with the Labor Commissioner which may provide for procedures and for securing approval of forfeitures in a manner different from that set forth in Section 16437, and for alternate procedures for appeals of enforcement actions to the Director.

(e) The Director will maintain a list of all finally approved LCPs, for distribution to interested parties upon request. The Director may agree to alternative reporting formats under Section 16431 of these regulations and shall maintain a list of interested parties who wish notification of alternative reporting formats before adoption.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 1771.6, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16428. Revocation of Final Approval.

(a) The Director may revoke final approval of a LCP only after giving due notice to the awarding body, conducting a hearing, and finding cause for revocation.

) Cause for revocation of final approval includes, but is not limited

A) Failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take appropriate enforcement action for violations of which it becomes or should have become cognizant;

(B) Failure of the awarding body to file timely, complete, and accurate reports to the Director as required by Section 16431 or elsewhere in these regulations.

(b) Interested parties may request the Director revoke final approval of a LCP. A request for revocation shall include evidence of failure of the arding body to monitor compliance with the requirements of the Labor le and these regulations or to take enforcement action after becoming cognizant of a violation of the Labor Code or these regulations. A request for revocation shall also include any other relevant evidence.

(1) Final approval of a LCP may be revoked by the Director based on a request by an interested party after a proceeding conducted as provided in subdivision (a). A copy of the request for revocation shall be provided to the awarding body as part of the notice required under subdivision (a).

(2) As part of a proceeding for revocation of final approval based on a request by an interested party, the Director may require the awarding body to furnish a supplemental report for the period between the ending date of the last annual report filed by the awarding body pursuant to Section 16431 and the date of notice by the Director, and containing the information listed in subdivision (a) of said Section 16431.

(3) Revocation of final approval of a LCP based on a request by an interested party is solely within the discretion of the Director. The duty of an awarding body to carry out its LCP runs solely to the Director and not to any worker, contractor, or interested party. The sole remedy for failure n awarding body's duty is revocation of approval by the Director.

) Upon determining that the request for revocation will be denied without hearing, the Director shall notify the LCP, awarding body and re- esting party of the decision and of the reasons therefore by mail.

) Upon determining that a hearing is necessary, the parties will be ified and a hearing on cause for revocation of final LCP approval will be held in accordance with the procedures for notice and hearing proceedings set forth in 8 CCR Section 16304.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Article 3. Notice and Components of LCP

§ 16429. Notice of LCP Approval.

(a) Notice of initial or final approval of an awarding body's LCP shall be given in the Call for Bids and in the contract or purchase order and shall also be posted at the job site. If more than one job site exists or where such posting would endanger public safety, the notice may be posted in the manner prescribed by 8 CCR Section 16100(b).

(b) Notice of an approved LCP shall contain, at the minimum, the effective date of the Director's initial or final approval, a statement that the limited exemption from prevailing wages pursuant to Labor Code Section 1771.5(a) applies to the contract, a telephone number to call for inquiries, questions, or assistance with regard to the LCP, and the name of the agent or office administering the LCP, if different from the awarding body.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16430. Components of LCP.

(a) In accordance with Labor Code Section 1771.5(b), a LCP shall include, but not be limited to, the following requirements:

(1) The Call for Bids and the contract or purchase order shall contain appropriate language concerning the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(2) A prejob conference shall be conducted before commencement of the work with contractors and subcontractors listed in the bid, at which time federal and state labor law requirements applicable to the contract shall be discussed, and copies of suggested reporting forms furnished. A checklist, showing which federal and state labor law requirements were discussed, shall be kept for each conference. A checklist in the format of Appendix A presumptively meets this requirement;

(3) A requirement that certified payroll records be kept by the contractor in accordance with Labor Code Section 1776 and furnished to the awarding body at times designated in the contract or within 10 days of request by the awarding body. The awarding body may create a form meeting the minimum requirements of (a) hereinafter "Certified Weekly Payroll." Use of the current version of DIR's "Public Works Payroll Reporting Form" (A–1–131) (New 2–80) constitutes full compliance with this requirement by the awarding body. A copy of this suggested form follows Title 8 CCR Section 16500;

(4) A program for orderly review of payroll records and, if necessary, for audits to verify compliance with the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(5) A prescribed routine for withholding penalties, forfeitures, and underpayment of wages for violations of the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(6) All contracts to which prevailing wage requirements apply shall include a provision that contract payments shall not be made when payroll records are delinquent or inadequate.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5(b), Labor Code.

HISTORY

1. New section and Appendix filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Appendix A

Suggested Checklist of Labor Law Requirements to Review at Prejob Conference, Section 16430.

The federal and state labor law requirements applicable to the contract are composed of but not limited to the following items:

(1) The contractor's duty to pay prevailing wages under Labor Code Section 1770 et seq., should the project exceed the exemption amounts;

(2) The contractor's duty to employ registered apprentices on the public works project under Labor Code Section 1777.5;

(3) The penalties for failure to pay prevailing wages (for non-exempt projects) and employ apprentices including forfeitures and debarment under Labor Code Sections 1775 and 1777.7;

(4) The requirement to keep and submit copies upon request of certified payroll records under Labor Code Section 1776, and penalties for failure to do so under Labor Code Section 1776(f);

(5) The prohibition against employment discrimination under Labor Code Section 1777.6; the Government Code, and Title VII of the Civil Rights Act of 1964;

(6) The prohibition against accepting or extracting kickback from employee wages under Labor Code Section 1778;

(7) The prohibition against accepting fees for registering any person for public work under Labor Code 1779; or for filling work orders on public works under Labor Code Section 1780;

(8) The requirement to list all subcontractors under Government Section 4100 et seq;

(9) The requirement to be properly licensed and to require all subcontractors to be properly licensed and the penalty for employing workers while unlicensed under Labor Code Section 1021 and under the California Contractors License Law, found at Business and Professions Code Section 7000 et seq;

(10) The prohibition against unfair competition under Business and Professions Code Section 17200–17208;

(11) The requirement that the contractor be properly insured for Workers Compensation under Labor Code Section 1861;

(12) The requirement that the contractor abide by the Occupational, Safety and Health laws and regulations that apply to the particular construction project;

(13) The requirement to provide affirmative action for women and minorities as required in the Public Contracts Code and in the contract;

(14) The prohibition against hiring undocumented workers, and the requirement to secure proof of eligibility/citizenship from all workers.

§ 16431. Annual Report.

The awarding body shall submit to the Director an annual report on the operation of its LCP within 60 days after the close of its fiscal year, or accompany its request for an extension of initial approval, whichever comes first. The annual report shall contain, at the minimum, the following information:

(1) Number of contracts awarded, and their total value;

(2) The number, description, and total value of contracts awarded which were exempt from the requirement of payment of prevailing wages pursuant to Labor Code Section 1771.5(a);

(3) A summary of penalties and forfeitures imposed and withheld, or recovered in a court of competent jurisdiction;

(4) A summary of wages due to employees resulting from failure by contractors to pay prevailing wage rates, the amount withheld from money due the contractors, and the amount recovered by action in any court of competent jurisdiction.

(b) A LCP whose contract responsibilities are statewide, or which involves widely dispersed and numerous contracts, or which is required to report contract enforcement to federal authorities in a federal format, may adopt a summary reporting format to aggregate small contracts and estimate numbers and dollar values required by (a)(1) and (2). A summary reporting format may be adopted by agreement with the Director after advance notice to interested parties, and a list of parties requesting such notice shall be kept by the Director.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5, 1771.6 and 1777.1, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16432. Audits.

(a) Audits may be conducted when deemed necessary by the awarding body and shall be conducted upon request of the Labor Commissioner.

(1) An audit consists of a comparison of payroll records to the best available information as to the actual hours worked and classifications of workers employed on the contract. An audit is sufficiently detailed when it enables the LCP, and the Labor Commissioner in reviewing proposed penalties, to draw reasonable conclusions as to compliance with the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code, and to enable accurate computation of underpayment of wages to workers and of applicable penalties and forfeitures. Records shall be made available to show that the audits conducted are sufficiently detailed to verify compliance with the requirements of Chapter 1 of Part 7 of Division 2. An audit record in the form set out in Appendix B presumptively demonstrates sufficiency.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 224, 226, 1773.2, 1776, 1777.5, 1778, 1810, 1815, 1860 and 1861, Labor Code.

HISTORY

1. New section and Appendix filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Appendix B

Audit Record Form (suggested for use with Section 16432 audits)

An audit record is sufficiently detailed to "verify compliance with the requirements of Chapter"1, Public Works, of Part 7 of Division 2, when the audit record displays that the following procedures were accomplished:

(1) Audits of the obligation to secure workers' compensation means demanding written evidence of a binder issued by the carrier, or telephone or written inquiry to the Workers' Compensation Insurance Rating Bureau;

(2) Audits of the obligations to employ and train apprentices means inquiry to the program sponsor for the apprenticeable craft or trade in the area of the public works as to: whether contract award information was received, including an estimate of journeyperson hours to be performed and the number of apprentices to be employed; whether apprentices have been requested, and whether the request has been met; whether the program sponsor knows of any amounts sent by the contractor or subcontractor to it for the training trust, or the California Apprenticeship Council; and whether persons listed on the certified payroll in that craft or trade as being paid less than the journeyperson rate are apprentices registered with that program and working under apprentice agreements approved by the Division of Apprenticeship Standards;

(3) Audits of the obligation to pass through amounts made part of the bid for apprenticeship training contributions, to either the training trust or the California Apprenticeship Council, means asking for copies of checks sent, or when the audit occurs more than 30 days after the month in which payroll has been paid, copies of canceled checks;

(4) Audits of "illegal taking of wages" means inspection of written authorizations for deductions (listed in Labor Code Section 224) in the contractor or subcontractor's files and comparison to wage deduction statements furnished employees (Labor Code Section 226), together with an interview of several employees as to any payments not shown on the wage deduction statements;

(5) Audits of the obligation to keep records of working hours, and pay not less than required by Title 8 CCR Section 16200(a)(3)(F) for hours worked in excess of 8 hours are the steps for review and audit of Certified Weekly Payrolls under Title 8 CCR Section 16432;

(6) Audits of the obligations to pay the prevailing per diem wage, means such steps for review and audit of Certified Weekly Payrolls which will produce a report covering compliance in the areas of:

(A) All elements defined as the "General Prevailing Rate of Per Diem Wages" in Title 8 CCR Section 16000, which were determined to be prevailing in the Director's determination which was in effect on the date of the call for bids, available in its principal office, and posted;

elements defined as "Employer Payments" set forth in Section 16. these regulations, which were determined to be prevailing in the Director's determination which was in effect on the date of the call for bids, and pursuant to Labor Code Section 1773.2 was to be specified in the call for bids, made available in its principal office and posted.

Article 4. Limited Exemption from the Requirement to Pay Prevailing Wages

16433. Limited Exemption.

(a) As provided in Labor Code Section 1771.5, an awarding body having a LCP approved by the Director in accordance with these regulations shall not require payment of the general rate of per diem wages or the general rate of per diem wages for holiday and overtime work for any public works project of $25,000 or less when the project is for construction work, or of $15,000 or less when the project is for alteration, demolition, repair, or maintenance work.

(b) A project for construction, alteration, demolition, repair, or maintenance work shall be identified as such in the call for bids, and in the contract or purchase order.

(e amount of a contract subject to subdivision (a) is changed and, a result, exceeds the applicable limit under which the payment of the neral rate of per diem wages is not required, workers employed on the ntract after the amount due the contractor has reached the applicable nit shall be paid the general rate of per diem wages for regular, holiday overtime work, as the case may be.

History

Ne on filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Article 5. Enforcement

16434. Duty of Awarding Body.

(a) An awarding body having an initially or finally approved LCP shall ve a duty to the Director to enforce the requirements of Chapter 1 of rt 7 of Division 2 of the Labor Code and these regulations in a manner nsistent with the practice of DLSE, as set forth in Divisions 2 and 3 of Labor Code, and published regulations thereunder, where substantive n are not set out by regulations under this Title 8, group 4.

te. thority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 1771.6, Labor Code.

History

New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

16435. Withholding Contract Payments When Payroll Records are Delinquent or Inadequate.

(a) "Withhold" means to cease payments by the awarding body, or others who pay on its behalf, or agents, to the general contractor. Where the olation is by a subcontractor, the general contractor shall be notified of nature of the violation and reference made to its rights under Labor de Section 1729.

(b) "Contracts." Except as otherwise provided by agreement, only ntracts under a single master contract, or contracts entered into as ges of a single project, may be the subject of withholding.

(c) "Delinquent payroll records" means those not submitted on the date in the contract.

(d) " dequate payroll records" are any one of the following:

(1) ord lacking the information required by Labor Code Section 76;

(2) ecord which contains the required information but not certified, c by someone not an agent of the contractor or subcontractor;

(3) A record remaining uncorrected for one payroll period, after the arding body has given the contractor notice of inaccuracies detected udit or record review. Provided, however, that prompt correction will stop any duty to withhold if such inaccuracies do not amount to 1 percent of the entire Certified Weekly Payroll in dollar value and do not affect more than half the persons listed as workers employed on that Certified Weekly Payroll, as defined in Labor Code Section 1776 and Title 8 CCR Section 16401.

Note: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1729, 1776, 1777.5, 1778, 1813 and 1815, Labor Code.

History

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16435.5. Withholding Contract Payments Equal to the Amount of Underpayment and Applicable Penalties When, After Investigation, It Is Established That Underpayment Has Occurred.

(a) "Withhold" as defined in Section 16435(a) of these regulations.

(b) "Contracts" as defined in Section 16435(b) of these regulations.

(c) "Amount equal to the underpayment" is the total of the following determined by payroll review, audit, or admission of contractor or subcontractor:

(1) The difference between amounts paid workers and the correct General Prevailing Rate of Per Diem Wages, as defined in Title 8 CCR Section 16000, and determined to be the prevailing rate due workers in such craft, classification or trade in which they were employed and the amounts paid;

(2) The difference between amounts paid on behalf of workers and the correct amounts of Employer Payments, as defined in Title 8 CCR Section 16000 and determined to be part of the prevailing rate costs of contractors due for employment of workers in such craft, classification or trade in which they were employed and the amounts paid;

(3) Estimated amounts of "illegal taking of wages";

(4) Amounts of apprenticeship training contributions paid to neither the program sponsor's training trust nor the California Apprenticeship Council;

(5) Estimated penalties under Labor Code Sections 1775, 1776, 1777.7 and 1813.

Note: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1729, 1775, 1776, 1777.5, 1777.7, 1778, 1813 and 1815, Labor Code.

History

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16436. Forfeitures Requiring Approval by the Labor Commissioner.

(a) "Forfeitures" are the amounts of unpaid penalty and wage money assessed by the awarding body for violations of the prevailing wage laws, whether collected by withholding from the contract amount or by suit under the contract, or provisions of this Chapter.

(b) "Failing to pay the correct rate of prevailing wages" means those public works violations which the Labor Commissioner has exclusive authority to approve before they are recoverable by the Labor Compliance Program, and which are appealable by the contractor in court or before the Director under Labor Code Section 1771.7. Regardless of what are defined as "prevailing wages" in contract terms, non–compliance with the following are failures to pay prevailing wages.

(1) Nonpayment of items defined as "Employer Payments" and "General Prevailing Rate of Per Diem Wages" in Title 8 CCR Section 16000 and Labor Code Section 1771.

(2) Payroll records required by Labor Code Section 1776.

(3) Labor Code Section 1777.5, but only insofar as the failure consisted of paying apprentice wages lower than the journeyperson rate to a person who is not an apprentice as defined in Labor Code Section 3077, working under an apprentice agreement in a recognized program.

(4) Labor Code Section 1778, Kickbacks.

(5) Labor Code Section 1779, Fee for registration.

(6) Labor Code Sections 1813, 1815, and Title 8 CCR Section 16200(a)(3)(F) overtime for work over 8 hours in any one day or 40 hours in any one week.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771, 1771.5, 1777.5, 1776, 1779, 1813, 1815 and 3077, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16437. Determination of Amount of Forfeiture by the Labor Commissioner.

(a) Where the LCP of the awarding body requests a determination of the amount of forfeiture, the request shall include a file or report to the Labor Commissioner which contains at least the following information:

(1) The deadline by which contract acceptance of filing of a notice of completion, under Labor Code Section 1775, plus 90 days, will occur;

(2) Any other deadline which if missed would impede collection;

(3) Evidence of violation, in narrative form;

(4) Evidence that an "audit" or "investigation," as defined in Section 16432 of these regulations, occurred;

(5) Evidence that the contractor was given the opportunity to explain why there was no violation, or that any violation was caused by mistake, inadvertence, or neglect, before the forfeiture was sent to the Labor Commissioner, and the contractor either did not do so, or failed to convince the awarding body of its position;

(6) Where the LCP of the awarding body seeks not only amounts of wages but also a penalty as part of the forfeiture, and the contractor has unsuccessfully contended that the cause of violation was mistake, inadvertence, or neglect, a short statement should accompany the proposal for a forfeiture, with a recommended penalty amount pursuant to Labor Code Section 1775;

(7) Where the LCP of the awarding body seeks only wages or a penalty less than $50 per day as part of the forfeiture, and the contractor has successfully contended that the cause of the violation was mistake, inadvertence, or neglect, then the file should include the evidence as to the contractor's knowledge of his or her obligation, including the program's communication to the contractor of the obligation in the bid invitations, at the prejob conference agenda and records, and any other notice given as part of the contracting process. With the file should be a statement, similar to that described in (6), and recommended penalty amounts, pursuant to Labor Code Section 1775;

(8) The previous record of the contractor in meeting his or her prevailing wage obligations.

(9) Whether the LCP has been granted initial, extended initial or final approval.

(b) The file or report shall be served on the Labor Commissioner not less than 30 days before the final payment or, if that deadline has passed, not less than 90 days before the expiration of the deadline to file suit under Labor Code Section 1775.

(c) A copy of the recommended forfeiture and the file or report shall be served on the contractor at the same time as it is sent to the Labor Commissioner. The awarding body may exclude from the documents served on the contractor copies of documents secured from the contractor during an audit, investigation, or meeting if those are clearly referenced in the file or report. Along with the copy served on the contractor shall be a notice stating all deadlines and rights of the contractor to contest the amount of forfeiture. A Notice of Deadlines in the format set out in Appendix C will presumptively fulfill the requirements of this subsection;

(d) The Labor Commissioner shall affirm, reject, or modify the forfeiture in whole or in part as to penalty, and/or wages due.

(e) The Labor Commissioner's determination of the forfeiture is effective on one of the two following dates:

(1) For programs with initial approval or an extension of initial approval pursuant to Section 16426 of these regulations, on the date the Labor Commissioner serves by first class mail, on the political subdivision and on the contractor, an endorsed copy of the proposed forfeiture, or a newly drafted forfeiture statement which sets out the amount of forfeiture approved. Service on the contractor is effective if made on the last address supplied by the contractor in the record. The Labor Commissioner's approval, modification or disapproval of the proposed forfeiture shall be served within 30 days of receipt of the proposed forfeiture or no more than 30 days after the notice of completion has been filed.

(2) For programs with final approval, approval is effective 20 days after the requested forfeitures are served upon the Labor Commissioner, unless the Labor Commissioner serves a notice upon the parties, within that time period, that this forfeiture request is subject to further review. For such programs, a notice that approval will follow such a procedure will be included in the transmittal of the forfeiture request to the contractor. The Labor Commissioner's final approval, modification or disapproval of the proposed forfeiture shall be served within 30 days of the date of receipt of the proposed forfeiture or no more than 30 days after the notice of completion has been filed, unless some other procedure has been adopted pursuant to 8 CCR Section 16427(d).

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1775, Labor Code.

HISTORY

1. New section and Appendix filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

Appendix C

Notice of Deadlines

(To Go to Contractor for Forfeitures under Section 16437)

"This document requests the Labor Commissioner of California to approve a forfeiture of money you otherwise would be paid. The [name of the labor compliance program] for the [name of the awarding body having this work done] is asking the Labor Commissioner of California to agree, in 20 days, that the enclosed package of materials indicates that you have violated the law."

"Failure to respond to the [name of the labor compliance program's] request that the Labor Commissioner approve a forfeiture by writing to the Labor Commissioner within 20 days of the date of service (date of postmark) of this document on you may lead the Labor Commissioner to affirm the proposed forfeiture, and may also end your right to contest those amounts further. You must serve any written response on the Labor Commissioner, the [name of the labor compliance program] and [name of the awarding body] by return receipt requested/certified mail. If you serve a written explanation, with evidence, as to why the violation did not occur, or why the penalties should not be assessed, within the 20 day period, it will be considered,"

and

"If you change address, or decide to hire an attorney, it is your responsibility to advise both the [name of the Labor Compliance Program] and the Labor Commissioner by certified mail. Otherwise, notices will be served at your last address on file, and deadlines might pass before you receive such notices."

§ 16438. Deposits of Penalties and Forfeitures Withheld.

(a) Where the involvement of the Labor Commissioner has been limited to a determination of the actual amount of penalty, forfeiture or underpayment of wages, and the matter has been resolved without litigation by or against the Labor Commissioner, the awarding body having a LCP shall deposit penalties and forfeitures in its general fund. If an approved LCP is operated through an agent, penalties and forfeitures shall be deposited as provided in the agreement designating the agent for the awarding bodies involved.

(b) Where collection of fines, penalties or forfeitures results from court action to which the Labor Commissioner and awarding body are both parties, the fines, penalties or forfeitures shall be divided between the general funds of the state and the awarding body, as the court may decide.

(c) All amounts recovered by suit brought by the Labor Commissioner and to which the awarding body is not a party, shall be deposited in the general fund of the state.

(d) All wages and benefits which belong to an employee and are withheld or collected from a contractor or sub-contractor, either by withholding or as a result of court action pursuant to Labor Code Section 1775, and which have not been paid to the employee or irrevocably committed

...e employee's behalf to a benefit fund, shall be deposited with the Labor Commissioner, who shall handle such wages and benefits in accordance with Labor Code Section 96.7.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.6 and 1775, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16439. Appeals of a Labor Compliance Program Enforcement Action.

(a) A contractor may appeal the result of a LCP enforcement action by serving a notice of appeal on the Director of Industrial Relations as an alternative to going to court under Labor Code Section 1732. Such notice must be served within 20 days of the date a determination of forfeiture has been approved by the Labor Commissioner. A copy of the notice of appeal shall be served on the awarding body and the LCP at the same time as it is sent to the Director. Appeal of a LCP enforcement action to the Director of Industrial Relations waives the contractor's right to file suit pursuant to Labor Code Section 1732.

(b) The notice shall state the grounds for the appeal, and whether a hearing is desired. The decision to hold a hearing is within the sole discretion of the Director and shall be dependent upon whether the appeal is timely, the matter is within the scope of Labor Code Section 1732, and the material furnished by the record already in the file is insufficient for a fully informed decision. The Director may appoint a hearing officer to review the record below (subsection (c)), hold a hearing and recommend a decision. The Director shall make the final decision on the appeal.

(c) Upon receipt of a copy of the notice of appeal, the awarding body within 30 days, forward to the Director a full copy of the record of enforcement proceedings and any further documents, arguments, or ...rities it wishes to have considered in the appeals process. Accompanying those materials shall be a declaration of service on the contractor although materials already served in the process of seeking Labor Commissioner approval may be listed rather than re–served.

(d) The Director may request a supplemental report on the activities of the Labor Compliance Program. This report will be an update of the annual report required in 8 CCR Section 16431.

(e) Upon receipt of the notice of appeal, and all documentation referred to in section (c) above, the Director shall have 90 days in which to issue ...termination. If additional time is required due to the complexity of ...sues, or for other good cause, the Director shall have the right, upon notice to the parties to one 30 day extension of the time in which to issue the determination.

(f) The Director's ruling on the appeal shall be final.

HISTORY

1. Amendment filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Article 8. Debarment

§ 16800. Definitions.

In addition to the definitions of "Contractor," "Subcontractor," "Awarding Body," "Political Subdivision," "Public Works," and any other applicable terms, found in Group 3. Payment of Prevailing Wages upon Public Works, article 17 section 16000, the following terms are defined for general use in this article.

"Substantial Interest" means an interest of twenty percent (20%) of a corporation, limited partnership or similar entity and includes an individual holding the position of responsible managing employee, qualifying responsible managing officer or general partner regardless of the percentage interest in the entity.

"Fraud" means a suggestion, as a fact, of that which is not true, by one who does not believe it to be true; or the assertion, as a fact, of that which is not true, by one who has no reasonable ground for believing it to be true; or the suppression of a fact, by one who is bound to disclose it, or who gives information of other facts which are likely to mislead for want of communication of that fact; or a promise, made without any intention of performing it.

"Person" means an individual or legal entity, including, but not limited to, any firm, corporation, partnership, limited partnership, agency, association, organization or trust, and includes, where applicable, the public agencies, awarding bodies and any agent or officer thereof authorized to act for or on behalf of any of the foregoing.

"Firm" means, but is not limited to, any individual, corporation, partnership, limited partnership, agency, association, organization or trust operating a business in the State of California whether or not licensed or permitted to do so.

"Intent to Defraud" means the intent to deceive another person or entity, as defined in this article, and to induce such other person or entity, in reliance upon such deception, to assume, create, transfer, alter or terminate a right, obligation or power with reference to property of any kind.

"Deliberately" means premeditated and intentional and does not include inadvertent error.

"Respondent" means any person or entity subject to the proceedings set forth in this article.

HISTORY

1. New section filed 4–5–90 as an emergency; operative 4–5–90 (Register 90, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8–3–90.
2. New section filed 9–4–90 as an emergency readoption effective 9–4–90 (Register 90, No. 42). A Certificate of Compliance must be transmitted to OAL by 1–2–91 or emergency language will be repealed on the following day.
3. Repealed on January 3, 1991 by operation of Government Code section 11346.1(g) (Register 91, No. 12).
4. New section filed 2–13–91; operative 2–13–91 (Register 91, No. 12).

§ 16801. Investigations: Duties, Responsibilities and Rights of the Parties.

(a) Division of Labor Standards Enforcement. The Division of Labor Standards Enforcement (hereinafter "DLSE") may investigate any alleged violation of the provisions of chapter 1, part 7 of the California Labor Code for purposes of enforcing Labor Code section 1777.1. Investigations pursuant to section 1777.1 are for the purpose of determining a Respondent's willful violation, or violation with the intent to defraud, of the provisions of chapter 1, part 7 of the California Labor Code, with the exception of section 1777.5.

(1) Where a preliminary investigation reveals that there is insufficient evidence to continue the investigation, DLSE may close the investigation and shall notify the Respondent and awarding body in writing.

(2) In the event an investigation of any Respondent reveals a violation of Labor Code section 1777.1, DLSE shall notify the awarding body in writing and shall serve upon the Respondent a Notice of Hearing together

with a Statement of Alleged Violations, which shall specifically set forth DLSE's allegations against the Respondent.

(A) Service of both the Notice of Hearing and Statement of Alleged Violations shall be complete when mailed, by first class postage, to the last address of record for the Respondent listed with the State Contractors License Board or, in the event the Respondent is not licensed by the State Contractors License Board, the last known address of the Respondent available to the awarding body or, in the case of a subcontractor, the last known address available to the general contractor with whom the subcontractor contracted in the performance of the public works project under investigation. In the event there is neither an address of record with the State Contractors License Board or the awarding body or general contractor, the Notice of Hearing and Statement of Alleged Violations shall be served pursuant to the provisions of the Code of Civil Procedure, sections 415.10 – 415.50. concerning the service of civil summons.

(B) The Notice of Hearing shall list the date, time and place of the hearing which shall not be scheduled sooner than forty–five days after the date of the mailing of the Notice of Hearing and Statement of Alleged Violations.

(C) The Respondent shall have the opportunity to review and copy such records from the investigative file of DLSE which are not subject to either attorney–client or work product privileges. The Respondent shall be entitled to a reasonable number of subpoenas but shall be liable for any costs of service of the subpoenas, or any other witness or mileage fees incurred.

Mileage and Witness fees shall be set as specified in Government Code section 68093. In the exercise of his or her discretion, the Hearing Officer may limit the number of witnesses subpoenaed either for the purpose of corroboration or for establishing a single material fact in issue, or where the Respondent has not furnished satisfactory evidence that the witness will be able to give necessary and competent testimony material to the issues at the hearing.

[The next page is 1415.]

been filed, and after consideration of such exceptions the director shall decide that the exceptions to the report of the service do raise substantial and material factual issues, he shall direct the hearing officer to issue a notice of hearing, whereupon the procedures for a hearing and the issuance of the hearing officer's report provided for in subsection (e) of this section (including the provision for filing exceptions to the hearing officer's report) shall be followed. The director may adopt the recommendations of the hearing officer issued under subsection (d) or the report of the hearing officer issued under subsection (e) as his own. The service shall thereafter promptly proceed to take such action as may be called for by the decision of the director, after which the proceedings will be closed.

NOTE: Authority and reference cited: Section 54, Labor Code; and Sections 4.4, 13.91, 25052, 28851, 30751, 40122, 50121, 70122, 90300b, 95651, 100301, 101344, 102403, 103401, 120505 and 125521, Public Utilities Code. Additional reference: Labor Management Relations Act, 1947, Section 9, 29 USC Section 159; 29 CFR Sections 102.60–102.72.

HISTORY

1. Amendment filed 7–29–83; effective thirtieth day thereafter (Register 83, No. 31).

§ 15875. Runoff Elections.

(a) The service shall conduct a runoff election, without further order of the director, when an election in which a ballot providing for not less than three choices (i.e. at least two representatives and "neither" or "none") results in no choice receiving a majority of the valid ballots cast, which runoff election shall be held promptly following final disposition of any challenges, objections or exceptions which followed the prior election as provided in Section 15870. Only one runoff election shall be held pursuant to this section.

(b) Employees who were eligible to vote in the election and who are employed in an eligible category on the date of the runoff election shall be the only employees eligible to vote in the runoff election.

(c) The ballot in the runoff election shall provide for a selection between the two choices receiving the largest and second largest number of votes.

(d) In the event the number of votes cast in an inconclusive election in which the ballot provided for a choice among two or more representatives and "neither" or "none" is equally divided among the several choices, or in the event the number of ballots cast for one choice in such election is equal to the number cast for another of the choices but less than the number cast for the third choice, the director shall declare the first election a nullity and shall conduct another election among the three choices which received the greatest number of ballots in the original election; provided that in the event there was a tie in the original election between the third and fourth choices or among the third, fourth and other choices, the director shall in the runoff election include on the ballot all such tied choices. In the event two or more choices receive the same number of ballots, and if either (1) there are no challenged ballots which would affect the results of the election, or (2) after all challenges have been disposed of it is found that all eligible voters have cast valid ballots, there shall be no runoff election and the petition shall be dismissed. Only one such further election pursuant to this subsection (d) may be held.

(e) The provisions of Section 15870 above shall be applicable to a runoff election.

Subchapter 2.3. Election Procedure Under San Francisco Bay Area Rapid Transit District Law

NOTE: Authority cited for Group 2.3: Section 54, Labor Code and Section 28851, Public Utilities Code.

HISTORY

1. New Group 2.3 (§§ 15900–15926) filed 1–5–73; effective thirtieth day thereafter (Register 73, No. 1).
2. Repealer of Group 2.3 (Sections 15900–15926) filed 7–29–83; effective thirtieth day thereafter (Register 83, No. 31).

Subchapter 3. Payment of Prevailing Wages upon Public Works

Article 1. Definitions

§ 16000. Definitions.

The following terms are defined for general use in these regulations within Group 3, Payment of Prevailing Wages Upon Public Works and Group 4, Awarding Body Labor Compliance Programs:

Area of Determination. The area of determining the prevailing wage is the "locality" and/or the "nearest labor market area" as determined by the Director. In determining the area, the mobility of each craft, classification and type of work will be considered.

Awarding body. Any state or local government agency, department, board, commission, bureau, district, office, authority, political subdivision, regional district officer, employee, or agent awarding/letting a contract/purchase order for public works.

Bid. Any proposal submitted to an awarding body in competitive bidding for the construction, alteration, demolition, repair, maintenance, or improvement of any structure, building, road, property, or other improvement of any kind.

Certified. The affirmation of a person with the authority to so affirm, under the penalty of perjury that the records are originals or are full, true and correct copies of the original and depict truly, fully and correctly the craft or type of work performed, hours and days worked, and the amounts by category listed, disbursed by way of cash, check, or in whatever form or manner to each person by job classification and/or skill pursuant to a public works contract.

Chief of DAS. Chief of Division of Apprenticeship Standards or a duly authorized representative.

Chief of DLSE/Labor Commissioner. Chief of the Division of Labor Standards Enforcement or a duly authorized representative.

Chief of DLSR. Chief of the Division of Labor Statistics and Research or a duly authorized representative.

Coverage. This means being subject to the requirements of Part 7, Chapter 1 of the Labor Code as a "public work." This includes all formal coverage determinations issued by the Director of Industrial Relations.

DAS. Division of Apprenticeship Standards.

Date of Notice or Call for Bids. The date the first notice inviting bids was published in a newspaper of general circulation or promulgated in a legally sufficient manner which results in a contract being awarded with or without competitive bidding. This may also be referred to as the Bid Advertisement Date.

Days. Unless otherwise specified means calendar days.

DLSE. The Division of Labor Standards Enforcement.

DLSR. The Division of Labor Statistics and Research.

Director. The Director of the Department of Industrial Relations or his/her duly authorized representative.

Duly Authorized Representative. An employee of the Department of Industrial Relations.

Effective Date. The date upon which the determinations of the Director go into effect. This date is ten days after the issue date of the determination.

Employer Payments. Includes:

(1) The rate of contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a fund, plan, or program for the benefit of employees, their families and dependents, or retirees;

(2) The rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing benefits to employees, their families and dependents or to retirees pursuant to an enforceable commitment or agreement to carry out a financially responsible plan or program which was communicated in writing to the workers affected; and

(3) The rate of contribution irrevocably made by the contractor or subcontractor for apprenticeship or other training programs authorized by Section 3071 and/or 3093 of the Labor Code.

Expiration Date. The date upon which the determinations of the Director are subject to change.

General Prevailing Rate of Per Diem Wages. Includes:

(1) The prevailing basic straight-time hourly rate of pay; and

(2) The prevailing rate for holiday and overtime work; and

(3) The prevailing rate of employer payments for any or all programs or benefits for employees, their families and dependents, and retirees which are of the types enumerated below:

(A) medical and hospital care, prescription drugs, dental care, vision care, diagnostic services, and other health and welfare benefits;

(B) retirement plan benefits;

(C) vacations and holidays with pay, or cash payments in lieu thereof;

(D) compensation for injuries or illnesses resulting from occupational activity;

(E) life, accidental death and dismemberment, and disability or sickness and accident insurance;

(F) supplemental unemployment benefits;

(G) thrift, security savings, supplemental trust, and beneficial trust funds otherwise designated, provided all of the money except that used for reasonable administrative expenses is returned to the employees;

(H) occupational health and safety research, safety training, monitoring job hazards, and the like, as specified in the applicable collective bargaining agreement;

(I) See definition of "Employer Payments," (3).

(J) other bonafide benefits for employees, their families and dependents, or retirees as the Director may determine; and

(4) travel time and subsistence pay as provided for in Labor Code Section 1773.8.

(b) The term "general prevailing rate of per diem wages" does not include any employer payments for:

(1) Job related expenses other than travel time and subsistence pay;

(2) Contract administration, operation of hiring halls, grievance processing, or similar purposes except for those amounts specifically earmarked and actually used for administration of those types of employee or retiree benefit plans enumerated above;

(3) Union, organizational, professional or other dues except as they may be included in and withheld from the basic taxable hourly wage rate;

(4) Industry or trade promotion;

(5) Political contributions or activities;

(6) Any benefit for employees, their families and dependents, or retirees including any benefit enumerated above where the contractor or subcontractor is required by Federal, State, or local law to provide such benefit; or

(7) Such other payments as the Director may determine to exclude. Interested Party. When used with reference to a particular prevailing wage determination made by the Director, includes:

(1) Any contractor or subcontractor, or any organization, association, or other representative of any contractor or subcontractor likely to bid on or to perform a contract for public work which is subject to the particular prevailing wage determinations, and/or

(2) Any worker in the particular craft, classification, or type of work, who may be employed on a public work project subject to the particular prevailing wage determination, or any labor organization or other representative of such a person, including the recognized collective bargaining representative for the particular craft, classification, or type of work; and/or

(3) Any awarding body or association or other representative of awarding bodies concerned with the administration of a pubic works contract or proposed contract, which is subject to the particular prevailing wage determination.

Helper. Any subjourneyman classification traditionally used to assist a journeyman. Under no circumstance may the Helper classification be used to replace statutorily required Apprentices.

Identify or Give Notice of Identity. This means to state the name, job title, address and current telephone number of a person or entity.

Interim Determination. Those determinations of the Director issued between the quarterly updates.

Issue Date–Issuance. The date upon which copies of the determination of the Director are deposited in the mail.

LCP. A labor compliance program initiated and enforced by an awarding body in accordance with these regulations.

Locality. See Labor Code Section 1724.

Maintenance. Includes:

(1) Routine, recurring and usual work for the preservation, protection and keeping of any publicly owned or publicly operated facility (plant, building, structure, ground facility, utility system or any real property) for its intended purposes in a safe and continually usable condition for which it has been designed, improved, constructed, altered or repaired.

(2) Carpentry, electrical, plumbing, glazing, [touchup painting,] and other craft work designed to preserve the publicly owned or publicly operated facility in a safe, efficient and continuously usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures.

EXCEPTION 1: Janitorial or custodial services of a routine, recurring or usual nature is excluded.

EXCEPTION 2: Protection of the sort provided by guards, watchmen, or other security forces is excluded.

(3) Landscape maintenance. See Public Contract Code Section 21002.

EXCEPTION: Landscape maintenance work by "sheltered workshops" is excluded.

Mistake, Inadvertence, or Neglect. Mistake, inadvertence, or neglect in failing to pay the correct general rate of per diem wages means the lack of knowledge that any reasonable person would also be expected to have under the same or similar circumstances.

Nearest labor market Area. The nearest geographical area from which workers of the crafts, classifications, and types to be used in the performance and execution of the public work can be drawn for employment upon such public work.

Payroll Records. All time cards, cancelled checks, cash receipts, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidences which reflect job assignments, work schedules by days and hours, and the disbursement by way of cash, check, or in whatever form or manner, of funds to a person(s) by job classification and/or skill pursuant to a public works project.

Person. Any individual [or legal entity, including a] partnership, corporation, association, or any local, state, regional, national or international organization, public or private, or any awarding body, or any agent or officer thereof, authorized to act for or on behalf of any of the foregoing.

Political Subdivision. See Labor Code Section 1721.

Prevailing Rate. Includes:

(1) The basic hourly rate being paid to a majority of workers engaged in the particular craft, classification or type of work within the locality

and in the nearest labor market area to the public work, if a majority of such workers is paid at a single rate; if a single wage rate is not paid to a majority then the average of the wages paid, weighted by the total employed in the craft, classification or type of worker, is prevailing. If a single wage rate is not paid to a majority, the average wage, weighted as set forth above, may be established by considering one or more of the following: the payments made under appropriate collective bargaining agreements, rates paid to workers on federal public works jobs, other data such as wage survey data, including the nearest labor market area to the public work, or expanded survey as provided in Article 4 of these regulations; or by adopting federal rates which have been obtained by procedures of similar accuracy to ones provided under Article 4 of these regulations.

(2) Other employer payments as defined in Section 16000 of these regulations are included as part of the total hourly wage rate, only if a majority of workers engaged in the particular craft, classification or type of work are receiving such payments. When such employer payments are included as part of the total hourly wage rate, the employer payment rate for the particular craft, classification or type of work shall be determined as follows:

(A) If, among those workers who receive employer payments, a majority receives the same employer payments, then those payments prevail.

(B) If, among those workers who receive employer payments, there is no majority receiving the same employer payments, then the average of the employer payments, weighted by the total employees receiving such payments, is prevailing; or

(C) When federal basic hourly rates have been adopted as provided for in subsection (1), by adopting federal employer payments which have been obtained by procedures of similar accuracy to ones provided under Article 4 of these regulations.

(3) The rate for holiday or overtime work shall be those rates specified in the collective bargaining agreement when the basic hourly rate is based on a collective bargaining agreement rate. In the event the basic hourly rate is not based on a collective bargaining agreement, holidays and overtime (if any) included with the prevailing basic hourly rate of pay shall be prevailing.

Public Entity. For the purpose of processing requests for inspection of payroll records or furnishing certified copies thereof, "public entity" includes: the body awarding the contracts; the Division of Apprenticeship Standards (DAS), or the Division of Labor Standards Enforcement (DLSE).

Public Funds. Includes state, local and/or federal monies.

NOTE: Public funds do not include money loaned to a private entity where work is to be performed under private contract, and where no portion of the work is supervised, owned, utilized, or managed by an awarding body.

Public Works. See Sections 1720, 1720.2, 1720.3, and 1771 of the Labor Code.

Service upon a Contractor or Subcontractor. This is the process defined in Title 8, California Code of Regulations, (CCR) Section 16801(a)(2)(A).

Serve upon the Labor Commissioner. Delivery of all documents including legal process to the Headquarters of the Labor Commissioner.

Sheltered workshop. A nonprofit organization licensed by the Chief of DLSE employing mentally and/or physically handicapped workers.

Wage Survey. An investigation conducted pursuant to Labor Code Sections 1773 and/or 1773.4 to determine the general prevailing rate of per diem wages for the crafts/classifications in the county(ies) for which the survey questionnaire was designed.

Willful. See Labor Code Section 1777.1(d).

Worker. See Labor Code Sections 1723 and 1772.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1191.5, 1720, 1720.2, 1720.3, 1721, 1722, 1722.1, 1723, 1724, 1770, 1771, 1772, 1773.5, 1776, 2750.5, 3071 and 3093, Labor Code; and Section 21002, Public Contract Code.

HISTORY

1. Repealer of group 3 (articles 1–3, sections 16000–16004, 16100–16101 and 16200–16205) and new group 3 (articles 1–4, sections 16000–16013, 16100–16109, 16200–16206 and 16300–16305) filed 1–3–77 as an emergency; effective upon filing (Register 77, No 2). For prior history, see Register 56, No. 8.
2. New group 3 (sections 16000–16014, 16100–16109, 16200–16207.9) filed 2–8–78; effective thirtieth day thereafter (Register 78, No. 6).
3. Renumbering and amendment of former sections 16000–16006 and 16008–16019 to section 16000; renumbering and amendment of former section 16100 to section 16002; renumbering and amendment of former section 16101 to section 16203; renumbering and amendment of former sections 16102–16105 to section 16200; renumbering and amendment of former section 16106 to section 16206; renumbering and amendment of former sections 16107(a), (b) and (c) to sections 16201, 16202 and 16205; renumbering and amendment of former section 16108 to section 16204; renumbering and amendment of former section 16200 to section 16300; renumbering and amendment of former sections 16007, 16201, 16202, 16204 and 16206 to section 16302; renumbering and amendment of former section 16207 to section 16303; renumbering and amendment of former sections 16207.2 and 16207.3 to section 16304; renumbering and amendment of former section 16207.5 to section 16100; renumbering and amendment of former section 16207.7 to section 16301; renumbering and amendment of former sections 16207.10–16207.14 to section 16400; renumbering and amendment of former sections 16207.15 and 16207.16 to section 16401; renumbering and amendment of former section 16207.17 to section 16402; renumbering and amendment of former section 16207.18 to section 16403; renumbering and amendment of former section 16207.19 to section 16500; repealer of former sections 16100.1, 16109, 16203, 16205, 16207.1, 16207.4, 16207.6 and 16207.8; and new sections 16001, 16101 and 16102 filed 2–11–86; effective thirtieth day thereafter (Register 86, No. 7). For prior history, see Registers 82, No. 51; 80, No. 6; 79, No. 19; 72, No. 23 and 72, No. 13.
4. Amendment filed 2–20–92; operative 3–23–92 (Register 92, No. 13).
5. Repealer of definition of "Predetermined Changes" filed 12–27–96; operative 1–26–97 (Register 96, No. 52).
6. Amendment of definition of "Prevailing Rate" filed 12–27–96; operative 1–26–97 (Register 96, No. 52).

Article 2. Work Subject to Prevailing Wages

§ 16001. Public Works Subject to Prevailing Wage Law.

(a) General Coverage. State prevailing wage rates apply to all public works contracts as set forth in Labor Code Sections 1720, 1720.2, 1720.3, 1720.4, and 1771.

(1) Any interested party enumerated in Section 16000 of these regulations may file with the Director of Industrial Relations or the Director's duly authorized representative, as set forth in Section 16301 of these regulations, a request to determine coverage under the prevailing wage laws regarding either a specific project or type of work to be performed which that interested party believes may be subject to or excluded from coverage as public works under the Labor Code. If such a request is filed by any party other than the awarding body, a copy of the request must be served upon the awarding body, in accordance with the filing procedures set forth in Section 16302(d) of these regulations, when it is filed with the Director.

(2) Within 15 days of receipt of a copy of the request for a coverage determination, the awarding body shall forward to the Director or his/her duly authorized representative as provided for in Section 16301 of these regulations, any documents, arguments, or authorities it wishes to have considered in the coverage determination process.

(3) All parties to the coverage determination request shall have a continuing duty to provide the Director or his/her duly authorized representative as provided for in Section 16301 of these regulations, with relevant documents in their possession or control, until a determination is made. Where any party or parties' agent has a document in their possession, but refuses to release a copy, the Department shall consider that the documents, if released, would contain information adverse to the withholding party's position and may close the record and render a decision on the basis of that inference and the information received.

(b) Federally Funded or Assisted Projects. The application of state prevailing wage rates when higher is required whenever federally funded or assisted projects are controlled or carried out by California awarding bodies of any sort, unless applicable federal law does not permit payment of state rates in excess of federal prevailing rates.

(c) Field Surveying Projects. Field survey work traditionally covered by collective bargaining agreements is subject to prevailing wage rates when it is integral to the specific public works project in the design, preconstruction, or construction phase.

(d) Residential Projects. Residential projects consisting of single family homes and apartments up to and including four stories are subject to payment of prevailing wages when paid for in whole or in part out of public funds, including federally-funded or assisted residential projects controlled or carried out by an awarding body, unless applicable federal law does not permit payment of state rates in excess of the residential construction rates determined by the federal Department of Housing and Urban Development.

NOTE: Such projects may require a special determination by the Director which should be requested by the awarding body at least 45 days before the commencement of advertising of the call for bids by the awarding body.

(e) Commercial Projects. All non-residential construction projects including new work, additions, alterations, reconstruction and repairs. Includes residential projects over four stories.

(f) Maintenance. Public works contracts for maintenance are subject to prevailing wage rate payment as set forth in Section 1771 of the Labor Code.

NOTE: See Article 1 for definition of term "maintenance."

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1720.4 and 1771, Labor Code; and 24 CFR Section 941.503.

HISTORY

1. Amendment of subsection (a) and NOTE and adoption of subsections (a)(1)-(3) and (e) and relettering former subsection (e) to (f) filed 2-20-92; operative 3-23-92 (Register 92, No. 13).
2. Amendment of subsection (b) and (d) and NOTE filed 12-27-96; operative 1-26-97 (Register 96, No. 52).

§ 16002. Coverage of Worker.

The determinations of the Director will cover those crafts, classifications or types of workers employed in public works as set forth in Sections 1720, 1720.2, 1720.3, and 1771 of the Labor Code.

NOTE: Authority cited: Sections 1723 and 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3 and 1771, Labor Code.

§ 16002.5. Appeal of Public Work Coverage Determination.

(a) Those interested parties enumerated in Section 16000 of these regulations may appeal to the Director of Industrial Relations or the Director's duly authorized representative as set forth in Section 16301 of these regulations a determination of coverage under the public works laws (Labor Code Section 1720 et seq.) regarding either a specific project or type of work under Section 16001(a) of these regulations. Such notice of appeal must be served within 30 days of the issuance of the coverage determination. The party appealing the determination must, in accordance with the filing procedures set forth in Section 16302(d) of these regulations, give written notification to the awarding body and any other identifiable parties.

(b) The notice of appeal shall state the full factual and legal grounds upon which the determination is appealed, and whether a hearing is desired. The decision to hold a hearing is within the Director's sole discretion. The Director may appoint a hearing officer to conduct the hearing and propose a decision on the appeal. The Director shall make the final decision on the appeal.

(c) The authority of the Director to determine coverage of projects under the prevailing wage laws is quasi-legislative, and a final determination on any appeal is subject to judicial review pursuant to the Code of Civil Procedure, Section 1085.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1720.4 and 1771, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16003. Requests for Approval of Volunteer Labor.

(a) An awarding body wishing to use volunteer labor on what would otherwise be a public works project, pursuant to Labor Code Section 1720.4 shall serve a written request for approval on the Director, not less than 45 days prior to the commencement of work on the facilities or structures.

(b) The request for approval shall fully set forth the awarding body's grounds for belief that the requirements of Labor Code Section 1720.4(a), (b), and (c) are satisfied, and shall list all the crafts and classifications of workers that typically perform the types of work needed for the project.

(c) The request for approval shall identify the unions which represent workers in the crafts or classifications listed in (b) within the locality in which the public work is performed.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1720.4, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

Article 3. Duties, Responsibilities, and Rights of Parties

§ 16100. Duties, Responsibilities and Rights.

The parties listed in this section must comply with the provisions of the Labor Code applicable to the payment of prevailing wages on public works contracts.

(a) Department and Division Authority in Prevailing Wage Issues. The Director shall establish and coordinate the administration of the State's prevailing wage law, including the determination of coverage issues. The lead agency for the determination of prevailing wage rates shall be the Division of Labor Statistics and Research. The lead agency for the enforcement of the payment of prevailing wages is the Division of Labor Standards Enforcement. The lead agency for the coordination on apprenticeship is the Division of Apprenticeship Standards. This section shall not be construed to preclude any filing requirements with DLSR of appropriate agreements or petitions regarding determinations or any other documents, papers, books, etc. otherwise required by the law or these regulations.

(b) The Awarding Body shall:

(1) Obtain the prevailing wage rate from the Director in accordance with Labor Code Sections 1771 and 1773.

(2) Specify the appropriate prevailing wage rates, in accordance with Labor Code Sections 1773.2 and 1777.5.

(A) The posting requirement is applicable for each job site.

EXCEPTION: If more than one worksite exists on any project, then the applicable rates may be posted at a single location which is readily available to all workers.

(B) If a wage rate for a craft, classification or type of worker is not published in the Director's general prevailing wage determinations, a request for a special determination should be made by the awarding body to Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142, at least 45 days prior to the project bid advertisement date.

(3) Notify DAS. See Labor Code Section 1773.3.

(4) Inform prime contractors, to the extent feasible, of relevant public work requirements:

NOTE: Requirement information may be disseminated at a preacceptance of bid conference or in a call for bids or at an award of bid conference.

The public works requirements are:

(A) the appropriate number of apprentices are on the job site, as set forth in Labor Code Section 1777.5.

(B) worker's compensation coverage, as set forth in Labor Code Sections 1860 and 1861.

(C) keep accurate records of the work performed on the public works project, as set forth in Labor Code Section 1812.

(D) inspection of payroll records pursuant to Labor Code Section 1776, and as set forth in Section 16400 (e) of these regulations.

(E) and other requirements imposed by law.

(5) Withhold monies. See Labor Code Section 1727.

(6) Ensure that public works projects are not split or separated into smaller work orders or projects for the purpose of evading the applicable provisions of Labor Code Section 1771.

(7) Deny the right to bid on public work contracts to contractors or subcontractors who have violated public work laws, as set forth in Labor Code Section 1777.7.

(8) Not permit workers on public works to work more than eight hours a day or 40 hours in any one calendar week, unless compensated at not less than time and a half as set forth in Labor Code Section 1815.

EXCEPTION: If the prevailing wage determination requires a higher rate of pay for overtime work than is required under Labor Code Section 1815, then that higher overtime rate must be paid [, as specified in subsection 16200(a)(3)(F) of these regulations.]

(9) Not take or receive any portion of the workers' wages or accept a fee in connection with a public works project, as set forth in Labor Code Sections 1778 and 1779.

(10) Comply with those requirements as specified in Labor Code Sections 1776(g), 1777.5, 1810, 1813, and 1860.

(c) Contractor–subcontractor.

The contractor and subcontractor shall:

(1) Pay not less than the prevailing wage to all workers, as defined in Section 16000(a) of these regulations, and as set forth in Labor Code Sections 1771 and 1774;

(2) Comply with the provisions of Labor Code Sections 1773.5, 1775, and 1777.5 regarding public works jobsites;

(3) Provide workers' compensation coverage as set forth in Labor Code Section 1861;

(4) Comply with Labor Code Sections 1778 and 1779 regarding receiving a portion of wages or acceptance of a fee;

(5) Maintain and make available for inspection payroll records, as set forth in Labor Code Section 1776;

(6) Pay workers overtime pay, as set forth in Labor Code Section 1815 or as provided in the collective bargaining agreement adopted by the Director as set forth in Section 16200 (a) (3) of these regulations; and

(7) Comply with Section 16101 of these regulations regarding discrimination.

(8) Be subject to provisions of Labor Code Section 1777.7 which specifies the penalties imposed on a contractor who willfully fails to comply with provisions of Section 1777.5.

(9) Comply with those requirements as specified in Labor Code Sections 1810 and 1813.

(10) Comply with other requirements imposed by law.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1726, 1727, 1728, 1729, 1770, 1771, 1773, 1773.2, 1773.3, 1773.4, 1773.5, 1774, 1775, 1776, 1777.5, 1777.7, 1778, 1779, 1810, 1811, 1812, 1813, 1815, 1860 and 1861, Labor Code.

HISTORY

1. Amendment of subsection (b)(2)(B) filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16101. Discrimination.

See Labor Code Sections 1735, 1777.5, 1777.6, and 3077.5.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1735, 1777.5, 1777.6 and 3077.5, Labor Code.

§ 16102. Interested Party.

An interested party, as defined in Section 16000 of these regulations, may be a source of wage data information, as provided in Section 16200(e) of these regulations.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.4, Labor Code.

Article 4. Wage Determinations

§ 16200. General; Basis for Determining Prevailing Wage Rate.

The Director shall follow those procedures specified in Sections 1773 and 1777.5 of the Labor Code and in these regulations when making a prevailing wage determination.

(a) Collective Bargaining Agreements or Wage Surveys.

(1) Filing of collective bargaining agreements.

(A) To enable the Director to ascertain and consider the applicable wage rates established by collective bargaining agreements when making prevailing wage determinations, the representatives of any crafts, classifications, or types of workers needed to execute any public works contracts shall file with the Department of Industrial Relations fully executed copies of all their collective bargaining agreements, including any and all addenda which modify the agreements, within 10 days of their execution and shall be considered as the basis for a prevailing wage determination whenever on file 30 days before the call for bids on a project.

(B) Copies of collective bargaining agreements filed with the Department of Industrial Relations pursuant to Sections 1773.1 and 1773.8 of the Labor Code, and Section 16200(a)(1)(A) of these regulations shall be addressed to: Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142.

(C) Collective bargaining agreements filed with the Division of Labor Statistics and Research must be accompanied by a signed statement which is certified as true and correct to the best of the knowledge and belief of the person preparing the statement, under penalty of perjury, and which:

1. certifies that the agreement filed is fully executed and in effect, unless it is a signed original agreement or photocopy thereof, or a printed copy of a fully executed agreement showing the names of the signatory parties, except in the case of a printed agreement the Director may require certification;

2. names or otherwise identifies all California counties within the jurisdiction of the local union or unions signatory to the agreement;

3. names and provides the address of the signatory employer association or, if there be no signatory employer association, provides the names and addresses of all contractors signatory to the agreement, unless such information is contained in the agreement;

4. provides the number of workers currently employed under the terms of the agreement and, if practicable, the number of workers in each county within the jurisdiction of the signatory local union or unions;

5. provides any other information not contained in the agreement that the Director may need to give proper consideration to applicable wage rates established by collective bargaining.

(D) Copies of collective bargaining agreements which are not bona fide shall not be deemed filed. The party filing a contract may be asked to substantiate the assertion that such collective bargaining agreement is bona fide.

(2) Criteria for using collective bargaining agreement wage rates as basis of prevailing wage determinations. Before accepting the collective bargaining agreement wage rate for the applicable craft and locality, DLSR shall take the following factors into consideration:

(A) The geographical area(s) specified in the agreement;

(B) The number of workers covered by the agreement;

(C) If signatory parties to the agreement have workers in the geographical area(s);

(D) If work has been performed in the geographical area(s) specified in the agreement in the past 12 months;

The wage rates determined by the federal government as set forth in section 16200(b).

(3) Adoption of Collective Bargaining Agreements or Wage Surveys.

(A) If the Director determines pursuant to Section 1773 of the Labor Code that the rate established by a collective bargaining agreement is the general prevailing rate of per diem wages for each craft, classification or type of worker and the Director adopts such rate by referral, the Director will publish such rate. Only those rates and employer payments specifically enumerated in the definition of "general prevailing rate of per diem wages" in Section 16000 shall be included in the rate adopted.

NOTE: A statement must be filed with the Director for any adjustments made to a contract which are not contained in the agreement currently on file with DLSR.

(B) When such rate is adopted, and in the case where the collective bargaining agreement contains changes during its term which will affect the rate adopted, the changes shall not be adopted. The prior determination will remain in effect until a new determination is issued. Any interested party may request that the Director make a new determination when contract changes become definite and determined by filing a statement as set forth in Section 16200(a)(1). The statement must summarize the amounts and effective dates of any cost-of-living adjustments, allocations of interim wage increases to wages and employer payments, and other rele- changes which will affect the prevailing wage rate adopted by the ctor. The statement must be signed by an officer or agent of the bargaining representative and certified, under penalty of perjury, as true and correct to the best of his or her knowledge and belief.

(C) When such agreement is adopted as the basis of the prevailing wage determination, all wage classifications may be considered.

(D) Holidays. Holidays specifically named in the collective bargaining agreement or determined by wage surveys shall be included in the w determination. Overtime pay may be required as provided in Sec- 5200(a)(3)(E) of these regulations.

) Overtime. Overtime will be paid as indicated in the wage determi- n.

XCEPTION: 1: If a workweek other than Monday through Friday is a fixed business practice or is required by the awarding body, no overtime payment is required for the first eight hours on Saturday or Sunday.

EXCEPTION: 2: If the collective bargaining agreement provides for Saturday and Sunday work at straight-time, no overtime payment is required for the first eight hours on Saturday or Sunday.

EXCEPTION: 3: If the awarding body determines that work cannot be performed during normal business hours or work is necessary at off hours to avoid danger to life or property, no overtime is required for the first eight hours in any one calendar day, and 40 hours during any one calendar week.

EPTION: 4: No overtime payment is required for less than 40 hours in a stan- work week or for less than eight hours in a calendar workday unless specified in the collective bargaining agreement used as the basis for the prevailing wage determination.

(F) Wage rates, training contributions and apprenticeship contributions. Apprenticeship rates shall be determined by the Director of Industrial Relations using apprentice wage standards set forth in the collective bargaining agreement and/or approved by the California Apprenticeship Council. A contractor or subcontractor on a public works contract must pay training fund contributions or apprenticeship contributions in one of the following manners:

1. into the appropriate craft apprenticeship program in the area of the site of the public work; or

2. (if the trust fund is unable to accept such contributions) an equivalent amount shall be paid to the California Apprenticeship Council (CAC) administered by DAS.

3. If neither of the above will accept the funds, cash pay shall be as provided for in Section 16200(a)(3)(H) of these regulations.

(G) Rates for helpers. Rates for helpers will be published when the in- ation available to the Director indicates that a practice of using such oclassification prevails in a particular area, such as contained in a collective bargaining agreement, and within the parameters of the applicable llective bargaining agreement. In the absence of such determination, helper classification may not be used as a substitute for a journeyman or apprentice. This section does not exempt the contractor from the 1-5 apprentice-journeyman ratio requirements set forth in Labor Code Section 1777.5.

(H) Credit Available For Actual Payment of Fringe Benefit Costs up to the Prevailing Amount. The contractor obligated to pay the full prevailing rate of per diem wages may take credit for amounts up to the total of all fringe benefit amounts listed as prevailing in the appropriate wage determination. This credit may be taken only as to amounts which are actual payments under Employer Payments Section 16000(1)-(3). In the event the total of Employer Payments by a contractor for the fringe benefits listed as prevailing is less than the aggregate amount set out as prevailing in the wage determination, the contractor must pay the difference directly to the employee. No amount of credit for payments over the aggregate amount of employer payments shall be taken nor shall any credit decrease the amount of direct payment of hourly wages of those amounts found to be prevailing for straight time or overtime wages.

(b) Federal Rates and Surveys. In reviewing rates predetermined for federal public works, the Director shall consider those rates published pursuant to the Davis-Bacon Act. For purposes of establishing state prevailing wage rates, the Director may, in his or her discretion, adopt the results of wage surveys conducted by the United States Department of Labor in lieu of conducting separate state surveys.

(c) Data collection shall be in accordance with Labor Code Section 1773.

(d) Wage rate factors.

NOTE: Wage surveys are conducted by DLSR.

(1) The following factors shall be considered:

(A) Type of work to be performed;

(B) Classification(s) of worker(s) needed;

(C) Geographical area of project;

(D) Nearest labor market area;

(E) If work has been performed in the geographical area in the past 12 months.

(F) Mobility of craft, classification, or type of worker needed for project;

(G) Number of workers in craft or job classification;

(H) Normal industry practice in selection of craft and classification of worker;

(I) Size (dollar amount) of project;

(J) Degree of project's remoteness from survey area.

(2) Time period used in determining prevailing wage by survey. The time period reference for establishing the prevailing wage in the area of determination shall be the 12-month period prior to the request for a wage determination unless another time period is necessary. In such cases, the Director shall establish the appropriate time period.

(e) Other information. Pursuant to Section 1773 of the Labor Code, the Director may also obtain and consider other data from interested parties, and shall give consideration to data submitted by any interested party, concerning rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area. Such data may be obtained by holding a hearing, instituting an investigation, or by such other means as the Director determines will best serve the purposes of the law. Information submitted by interested parties for the Director's consideration shall include, but not be limited to the following for each project:

(1) the name, address, job title, and telephone number of the interested party submitting the information and the basis for qualification as an interested party under Section 16102;

(2) the basic hourly wage rate, overtime and holiday pay rates, and employer payments as enumerated in Section 16000 of these regulations for each classification in question as effective for the last payroll period, or most recent payroll period, for which payments based on such rates were actually made;

(3) the number of workers employed on the project in each classification in question during the payroll period for which data is submitted;

(4) the location of the project;

(5) the name and address of the contractor or subcontractor making the payments, and of all other contractors or subcontractors on the project;

(6) the type of construction (e.g. residential, commercial building, etc.);

(7) the approximate cost of construction;

(8) the beginning date and completion date, or estimated completion date of the project;

(9) the source of data (e.g. "payroll records");

(10) the method of selection of the projects for which data is submitted, when data is not submitted for all projects recently completed or in progress in the locality or in the nearest labor market area.

NOTE: Authority cited: Sections 1773 and 1773.5, Labor Code. Reference: Sections 1770, 1771, 1773, 1773.1, 1773.5, 1773.8, 1777.5, 1810 and 1815, Labor Code.

HISTORY

1. Order of Repeal of subsection (a)(3)(E) filed 8–24–88 by OAL pursuant to Government Code section 11340.15 (Register 88, No. 35).
2. Amendment of subsections (a)(1), (a)(3) and (b) filed 2–20–92; operative 3–23–92 (Register 92, No. 13).
3. Repealer of subsection (a)(3)(B), subsection relettering, and amendment of newly designated subsections (a)(3)(B), (a)(3)(D), and (a)(3)(F)(3) filed 12–27–96; operative 1–26–97 (Register 96, No. 52).
4. Amendment of subsection (b) filed 12–27–96; operative 1–26–97 (Register 96, No. 52).

§ 16201. General Area Determinations.

When the Director determines that the general prevailing rate of per diem wages for a particular craft, classification, or type of worker is uniform throughout an area, the Director shall issue a determination enumerated county by county, but covering the entire area. Such determinations will ordinarily be made for an entire county or group of counties and shall constitute the Director's determination for all localities in which public work is performed within that county or counties except as the geographic application of the determination may be specifically limited by the determination itself.

NOTE: General determinations are usually issued on a quarterly basis. However, the Director may issue an interim wage determination following the procedures set forth in Section 1773 of the Labor Code, and in these regulations. See Section 16000 as to issue date, and Section 16204 as to effective date of determination. The general determination usually applies where a collective bargaining agreement has been filed and adopted as the prevailing wage rate.

NOTE: Authority cited: Sections 1773.5 and 1773.6, Labor Code. Reference: Section 1773, Labor Code.

§ 16202. Special Determinations.

(a) Awarding body request. The awarding body shall request the Director to make a determination for a particular craft, classification or type of worker not covered by a general determination. Any such request shall be submitted at least 45 days prior to the bid advertisement date.

(b) Department of Industrial Relations initiated determination. Where an awarding body does not specify the prevailing wage rate as set forth in Labor Code Section 1773.2, any interested party (as defined in Section 16000 of these regulations) may petition the Director as set forth in Labor Code Section 1773.4 and Section 16302 of these regulations. The Labor Commissioner may, prior to the letting of the bid, request such a determination of the Director.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1773 and 1773.4, Labor Code.

§ 16203. Format.

(a) All determinations made by the Director of the general prevailing rate of per diem wages for a particular craft, classification, or type of worker will separately specify each of the following components:

(1) The prevailing basic straight–time hourly wage rate.

(2) The following statement when applicable: "In accordance with Labor Code Section 1773, holidays upon which the prevailing hourly wage rate for holiday work shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workers employed on the project, which is on file with the Director of Industrial Relations."

(3) The prevailing employer payments for benefits included in the general prevailing rate of per diem wages pursuant to Section 1773.1 of the Labor Code and enumerated in Section 16000 of these regulations.

(4) The following statement when applicable. "The contractor shall make travel and subsistence payments to each worker needed to execute the work, as such travel and subsistence payments are defined in the applicable collective bargaining agreements filed with the Director of Industrial Relations in accordance with Labor Code Section 1773.8."

(b) Where the prevailing employer payment for any benefit is expressed in a formula or method of payment other than an hourly rate the Director may convert the rate to an hourly rate whenever such action would facilitate the administration of the law.

(c) The applicability of the apprentice rate of per diem wages shall be indicated and furnished upon request.

(d) The dates between which the applicable rate shall be paid for work performed in those periods shall be indicated.

(e) As a supplement to each determination the Director shall make available to any awarding body upon request, a list of all holidays recognized and the provision for travel and subsistence payments, taken from the applicable collective bargaining agreement.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.5, Labor Code.

§ 16204. Effective Dates of Determination and of Rates Within Determination.

(a) Effective Date of Determination.

(1) All determinations issued will be effective ten (10) days after issuance, provided that requests for copies, reprints or reissuance of prior determinations shall not affect the original effective date unless a new effective date is reflected upon the determination (see subdivision (3) below). Any call for bids put out on or after the effective date of the determination must reflect that determination unless the Director determines that subdivision (4) of this section is applicable, after notification and request by an awarding body.

(2) Determinations issued by the Director will show an issue date and will ordinarily show an expiration date.

(3) All determinations will remain in effect until their expiration date or until modified, corrected, rescinded or superseded by the Director. New determinations are not applicable to contracts upon which the notice to bidders has been published, unless the determination is issued pursuant to Labor Code Section 1773.4.

(4) Determinations modified, corrected, rescinded or superseded on the basis of information contained in copies of collective bargaining agreements filed with the Department shall not be effective as to any project in which a call for bids takes place less than 30 days after the filing of the agreement.

NOTE: See Section 1773.1 of the Labor Code.

(5) It shall be the responsibility of the awarding body to ensure that the correct determination is used.

(b) No Adoption of Predetermined Changes in Collective Bargaining Agreements. The rate fixed for each craft, classification, or type of worker as prevailing in a determination shall remain in effect for the life of the project. When the rate is based on a collective bargaining agreement, it does not include predetermined changes in the basic hourly wages, overtime, holiday pay rates, or amounts of employer payments, even if known and enumerated in the applicable collective bargaining agreement.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1773, 1773.1, 1773.4 and 1773.6, Labor Code.

HISTORY

1. Amendment of subsections (a)(3) and (b) filed 2–20–92; operative 3–23–92 (Register 92, No. 13).
2. Amendment of subsection (a)(3), repealer and new subsection (b) and amendment of NOTE filed 12–27–96; operative 1–26–97 (Register 96, No. 52).

§ 16205. Procedures for Obtaining Prevailing Wage Determinations.

An awarding body may request to be put on a mailing list for all area wage determinations for a specific county or counties or may request that

a special or general prevailing wage determination be furnished when needed, by writing to Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142. All requests for special prevailing wage determinations must be confirmed in writing and must specify the location where the public work is to be performed, including the county and the particular crafts, classifications, or types of workers for which a determination is needed.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770 and 1773, Labor Code.

HISTORY

1. Amendment filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16206. Corrections.

Upon his or her own initiative or at the request of any interested party, the Director shall correct any error in a published determination that is the result of clerical error, such as a typographical error or a transposition of letters or digits, by issuing a corrected determination or a modification of the determination. The Director may correct any error issued in a determination by reissuing such determination.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770 and 1773, Labor Code.

Article 5. Petitions to Review Prevailing Wage Determinations

§ 16300. Delegation of Authority.

(a) The Chief of DLSR is the authorized representative of the Director for the purpose of:

(1) Receiving collective bargaining agreements and other documents and papers pertaining to making prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these regulations;

[The next page is 1413.]

Title 8, CCR, Register 99-08

§ 16000

§ 16001

§ 16200

§ 16204

§§ 16410 - 16414

ed, and after consideration of such exceptions the director shall d. that the exceptions to the report of the service do raise substantial and material factual issues, he shall direct the hearing officer to issue a notice of hearing, whereupon the procedures for a hearing and the issuance of the hearing officer's report provided for in subsection (e) of this section (including the provision for filing exceptions to the hearing officer's report) shall be followed. The director may adopt the recommendations of the hearing officer issued under subsection (d) or the report of the hearing officer issued under subsection (e) as his own. The service shall thereafter promptly proceed to take such action as may be called for by the decision of the director, after which the proceedings will be closed.

NOTE: Authority and reference cited: Section 54, Labor Code; and Sections 4.4, 13.91, 25052, 28851, 30751, 40122, 50121, 70122, 90300b, 95651, 100301, 101344, 102403, 103401, 120505 and 125521, Public Utilities Code. Additional reference: Labor Management Relations Act, 1947, Section 9, 29 USC Section 159; 29 CFR Sections 102.60–102.72.

HISTORY

1. Amendment filed 7–29–83; effective thirtieth day thereafter (Register 83, No. 31).

§ 15875. Runoff Elections.

(a) The service shall conduct a runoff election, without further order of director, when an election in which a ballot providing for not less th. ree choices (i.e. at least two representatives and "neither" or "none") results in no choice receiving a majority of the valid ballots cast, which runoff election shall be held promptly following final disposition of any challenges, objections or exceptions which followed the prior election as provided in Section 15870. Only one runoff election shall be held pursuant to this section.

(b) Employees who were eligible to vote in the election and who are em d in an eligible category on the date of the runoff election shall be ly employees eligible to vote in the runoff election.

The ballot in the runoff election shall provide for a selection between the two choices receiving the largest and second largest number of votes.

(d) In the event the number of votes cast in an inconclusive election in which the ballot provided for a choice among two or more representatives and "neither" or "none" is equally divided among the several choices, or in the event the number of ballots cast for one choice in such election is equal to the number cast for another of the choices but less than the number cast for the third choice, the director shall declare the first election a nullity and shall conduct another election among the three c s which received the greatest number of ballots in the original election. rovided that in the event there was a tie in the original election between the third and fourth choices or among the third, fourth and other choices, the director shall in the runoff election include on the ballot all such tied choices. In the event two or more choices receive the same number of ballots, and if either (1) there are no challenged ballots which would affect the results of the election, or (2) after all challenges have been disposed of it is found that all eligible voters have cast valid ballots, there shall be no runoff election and the petition shall be dismissed. Only one such further election pursuant to this subsection (d) may be held.

(e) The provisions of Section 15870 above shall be applicable to a runoff election.

Subchapter 3. Payment of Prevailing Wages upon Public Works

Article 1. Definitions

§ 16000. Definitions.

The following terms are defined for general use in these regulations within Group 3, Payment of Prevailing Wages Upon Public Works and Group 4, Awarding Body Labor Compliance Programs:

Area of Determination. The area of determining the prevailing wage is the "locality" and/or the "nearest labor market area" as determined by the Director. In determining the area, the mobility of each craft, classification and type of work will be considered.

Awarding body. Any state or local government agency, department, board, commission, bureau, district, office, authority, political subdivision, regional district officer, employee, or agent awarding/letting a contract/purchase order for public works.

Bid. Any proposal submitted to an awarding body in competitive bidding for the construction, alteration, demolition, repair, maintenance, or improvement of any structure, building, road, property, or other improvement of any kind.

Certified. The affirmation of a person with the authority to so affirm, under the penalty of perjury that the records are originals or are full, true and correct copies of the original and depict truly, fully and correctly the craft or type of work performed, hours and days worked, and the amounts by category listed, disbursed by way of cash, check, or in whatever form or manner to each person by job classification and/or skill pursuant to a public works contract.

Chief of DAS. Chief of Division of Apprenticeship Standards or a duly authorized representative.

Chief of DLSE/Labor Commissioner. Chief of the Division of Labor Standards Enforcement or a duly authorized representative.

Chief of DLSR. Chief of the Division of Labor Statistics and Research or a duly authorized representative.

Coverage. This means being subject to the requirements of Part 7, Chapter 1 of the Labor Code as a "public work." This includes all formal coverage determinations issued by the Director of Industrial Relations.

DAS. Division of Apprenticeship Standards.

Date of Notice or Call for Bids. The date the first notice inviting bids was published in a newspaper of general circulation or promulgated in a legally sufficient manner which results in a contract being awarded with or without competitive bidding. This may also be referred to as the Bid Advertisement Date.

Days. Unless otherwise specified means calendar days.

DLSE. The Division of Labor Standards Enforcement.

DLSR. The Division of Labor Statistics and Research.

Director. The Director of the Department of Industrial Relations or his/her duly authorized representative.

Duly Authorized Representative. An employee of the Department of Industrial Relations.

Effective Date. The date upon which the determinations of the Director go into effect. This date is ten days after the issue date of the determination.

Employer Payments. Includes:

(1) The rate of contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a fund, plan, or program for the benefit of employees, their families and dependents, or retirees;

(2) The rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing benefits to employees, their families and dependents or to retirees pursuant to an enforceable commitment or agreement to carry out a financially responsible plan or program which was communicated in writing to the workers affected; and

(3) The rate of contribution irrevocably made by the contractor or subcontractor for apprenticeship or other training programs authorized by Section 3071 and/or 3093 of the Labor Code.

Expiration Date. The date upon which the determinations of the Director are subject to change.

General Prevailing Rate of Per Diem Wages. Includes:

(1) The prevailing basic straight-time hourly rate of pay; and

(2) The prevailing rate for holiday and overtime work; and

(3) The prevailing rate of employer payments for any or all programs or benefits for employees, their families and dependents, and retirees which are of the types enumerated below:

(A) medical and hospital care, prescription drugs, dental care, vision care, diagnostic services, and other health and welfare benefits;

(B) retirement plan benefits;

(C) vacations and holidays with pay, or cash payments in lieu thereof;

(D) compensation for injuries or illnesses resulting from occupational activity;

(E) life, accidental death and dismemberment, and disability or sickness and accident insurance;

(F) supplemental unemployment benefits;

(G) thrift, security savings, supplemental trust, and beneficial trust funds otherwise designated, provided all of the money except that used for reasonable administrative expenses is returned to the employees;

(H) occupational health and safety research, safety training, monitoring job hazards, and the like, as specified in the applicable collective bargaining agreement;

(I) See definition of "Employer Payments," (3).

(J) other bonafide benefits for employees, their families and dependents, or retirees as the Director may determine; and

(4) travel time and subsistence pay as provided for in Labor Code Section 1773.8.

(b) The term "general prevailing rate of per diem wages" does not include any employer payments for:

(1) Job related expenses other than travel time and subsistence pay;

(2) Contract administration, operation of hiring halls, grievance processing, or similar purposes except for those amounts specifically earmarked and actually used for administration of those types of employee or retiree benefit plans enumerated above;

(3) Union, organizational, professional or other dues except as they may be included in and withheld from the basic taxable hourly wage rate;

(4) Industry or trade promotion;

(5) Political contributions or activities;

(6) Any benefit for employees, their families and dependents, or retirees including any benefit enumerated above where the contractor or subcontractor is required by Federal, State, or local law to provide such benefit; or

(7) Such other payments as the Director may determine to exclude. In-

ited Party. When used with reference to a particular prevailing wage determination made by the Director, includes:

(1) Any contractor or subcontractor, or any organization, association, or other representative of any contractor or subcontractor likely to bid on or to perform a contract for public work which is subject to the particular prevailing wage determinations, and/or

(2) Any worker in the particular craft, classification, or type of work, who may be employed on a public work project subject to the particular prevailing wage determination, or any labor organization or other representative of such a person, including the recognized collective bargaining representative for the particular craft, classification, or type of work; and/or

(3) Any awarding body or association or other representative of awarding bodies concerned with the administration of a pubic works contract or proposed contract, which is subject to the particular prevailing wage determination.

Helper. Any subjourneyman classification traditionally used to assist a journeyman. Under no circumstance may the Helper classification be used to replace statutorily required Apprentices.

Identify or Give Notice of Identity. This means to state the name, job title, address and current telephone number of a person or entity.

Interim Determination. Those determinations of the Director issued between the quarterly updates.

Issue Date–Issuance. The date upon which copies of the determination of the Director are deposited in the mail.

LCP. A labor compliance program initiated and enforced by an awarding body in accordance with these regulations.

Locality. See Labor Code Section 1724.

Maintenance. Includes:

(1) Routine, recurring and usual work for the preservation, protection and keeping of any publicly owned or publicly operated facility (plant, building, structure, ground facility, utility system or any real property) for its intended purposes in a safe and continually usable condition for which it has been designed, improved, constructed, altered or repaired.

(2) Carpentry, electrical, plumbing, glazing, [touchup painting,] and other craft work designed to preserve the publicly owned or publicly operated facility in a safe, efficient and continuously usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures.

EXCEPTION: 1: Janitorial or custodial services of a routine, recurring or usual nature is excluded.

EXCEPTION: 2: Protection of the sort provided by guards, watchmen, or other security forces is excluded.

(3) Landscape maintenance. See Public Contract Code Section 21002.

EXCEPTION: Landscape maintenance work by "sheltered workshops" is excluded.

Mistake, Inadvertence, or Neglect. Mistake, inadvertence, or neglect in failing to pay the correct general rate of per diem wages means the lack of knowledge that any reasonable person would also be expected to have under the same or similar circumstances.

Nearest labor market Area. The nearest geographical area from which workers of the crafts, classifications, and types to be used in the performance and execution of the public work can be drawn for employment upon such public work.

Payroll Records. All time cards, cancelled checks, cash receipts, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidences which reflect job assignments, work schedules by days and hours, and the disbursement by way of cash, check, or in whatever form or manner, of funds to a person(s) by job classification and/or skill pursuant to a public works project.

Person. Any individual [or legal entity, including a] partnership, corporation, association, or any local, state, regional, national or international organization, public or private, or any awarding body, or any agent or officer thereof, authorized to act for or on behalf of any of the foregoing.

Political Subdivision. See Labor Code Section 1721.

Predetermined Changes. Definite changes to the basic hourly wage rate, overtime, holiday pay rates, and employer payments which are known and enumerated in the applicable collective bargaining agreement

it ' ie of the bid advertisement date and which are referenced in the ic. prevailing rate of per diem wages as defined in Section 16000 of nese regulations. Contractors are obligated to pay up to the amount that vas predetermined if these changes are modified prior to their effective ate. Predetermined changes which are rescinded prior to their effective ate shall not be enforced.

Prevailing Rate. Includes:

(1) The basic hourly rate being paid to a majority of workers engaged i the particular craft, classification or type of work within the locality nd in the nearest labor market area, if a majority of such workers is paid : a single rate; if there is no single rate being paid to a majority, then the ngle rate (modal rate) being paid to the greater number of workers is revailing. If there is no modal rate, then an alternate rate will be estabshed by considering the appropriate collective bargaining agreements, ederal rates or other data such as wage survey data, including the nearest bor market area, or expanded survey as provided in Article 4 of these gulations;

(2) Other employer payments as defined in Section 16000 of these regations and as included as part of the total hourly wage rate, from which e prevailing basic hourly wage rate was derived. In the event the total ourly wage rate does not include any employer payments, then the Di- cl y establish a prevailing employer payment rate by the same pro- edure outlined in subsection (1) above.

(3) The rate for holiday or overtime work shall be those rates specified the collective bargaining agreement when the basic hourly rate is based i a collective bargaining agreement rate. In the event the basic hourly te is not based on a collective bargaining agreement, holidays and over- me (if any) included with the prevailing basic hourly rate of pay shall e prevailing.

P Entity. For the purpose of processing requests for inspection of ayr cords or furnishing certified copies thereof, "public entity" in- u e body awarding the contracts; the Division of Apprenticeship ai s (DAS), or the Division of Labor Standards Enforcement DLSE).

Public Funds. Includes state, local and/or federal monies.

OTE: Public funds do not include money loaned to a private entity where work to be performed under private contract, and where no portion of the work is su- rvised, owned, utilized, or managed by an awarding body.

Public Works. See Sections 1720, 1720.2, 1720.3, and 1771 of the La- or Code.

Service upon a Contractor or Subcontractor. This is the process de- ne Title 8, California Code of Regulations, (CCR) Section 58((2)(A).

Serve upon the Labor Commissioner. Delivery of all documents in- uding legal process to the Headquarters of the Labor Commissioner.

Sheltered workshop. A nonprofit organization licensed by the Chief DLSE employing mentally and/or physically handicapped workers.

Wage Survey. An investigation conducted pursuant to Labor Code ections 1773 and/or 1773.4 to determine the general prevailing rate of r diem wages for the crafts/classifications in the county(ies) for which e survey questionnaire was designed.

Willful. See Labor Code Section 1777.1(d).

Worker. See Labor Code Sections 1723 and 1772.

OTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1191.5, 20, 1720.2, 1720.3, 1721, 1722, 1722.1, 1723, 1724, 1770, 1771, 1772, 1773.5, 76, 2750.5, 3071 and 3093, Labor Code; and Section 21002, Public Contract ode.

HISTORY

Repealer of group 3 (articles 1–3, sections 16000–16004, 16100–16101 and 16200–16205) and new group 3 (articles 1–4, sections 16000–16013, If 16109, 16200–16206 and 16300–16305) filed 1–3–77 as an emergen- cy tive upon filing (Register 77, No 2). For prior history, see Register 56, No. .

New group 3 (sections 16000–16014, 16100–16109, 16200–16207.9) filed ; effective thirtieth day thereafter (Register 78, No. 6).

mbering and amendment of former sections 16000–16006 and 16008–16019 to section 16000; renumbering and amendment of former section 16100 to section 16002; renumbering and amendment of former section 16101 to section 16203; renumbering and amendment of former sections 16102–16105 to section 16200; renumbering and amendment of former section 16106 to section 16206; renumbering and amendment of former sections 16107(a), (b) and (c) to sections 16201, 16202 and 16205; renumbering and amendment of former section 16108 to section 16204; renumbering and amendment of former section 16200 to section 16300; renumbering and amendment of former sections 16007, 16201, 16202, 16204 and 16206 to section 16302; renumbering and amendment of former section 16207 to section 16303; renumbering and amendment of former sections 16207.2 and 16207.3 to section 16304; renumbering and amendment of former section 16207.5 to section 16100; renumbering and amendment of former section 16207.7 to section 16301; renumbering and amendment of former sections 16207.10–16207.14 to section 16400; renumbering and amendment of former sections 16207.15 and 16207.16 to section 16401; renumbering and amendment of former section 16207.17 to section 16402; renumbering and amendment of former section 16207.18 to section 16403; renumbering and amendment of former section 16207.19 to section 16500; repealer of former sections 16100.1, 16109, 16203, 16205, 16207.1, 16207.4, 16207.6 and 16207.8; and new sections 16001, 16101 and 16102 filed 2–11–86; effective thirtieth day thereafter (Register 86, No. 7). For prior history, see Registers 82, No. 51; 80, No. 6; 79, No. 19; 72, No. 23 and 72, No. 13.

4. Amendment filed 2–20–92; operative 3–23–92 (Register 92, No. 13).
5. Repealer of definition of "Predetermined Changes" filed 12–27–96; operative 1–26–97 (Register 96, No. 52).
6. Amendment of definition of "Prevailing Rate" filed 12–27–96; operative 1–26–97 (Register 96, No. 52).
7. Change without regulatory effect restoring definition of "Predetermined Changes" and repealing amendments to definition of "Prevailing Rate" filed 2–19–99 (Register 99, No. 8). Pursuant to Sacramento Superior Court Order Issued 6–4–97 in Case 97CS 00471 the amendments filed 12–27–96 and effective 1–27–97 were invalidated and the prior regulations were reinstated.

Article 2. Work Subject to Prevailing Wages

§ 16001. Public Works Subject to Prevailing Wage Law.

(a) General Coverage. State prevailing wage rates apply to all public works contracts as set forth in Labor Code Sections 1720, 1720.2, 1720.3, 1720.4, and 1771.

(1) Any interested party enumerated in Section 16000 of these regulations may file with the Director of Industrial Relations or the Director's duly authorized representative, as set forth in Section 16301 of these regulations, a request to determine coverage under the prevailing wage laws regarding either a specific project or type of work to be performed which that interested party believes may be subject to or excluded from coverage as public works under the Labor Code. If such a request is filed by any party other than the awarding body, a copy of the request must be served upon the awarding body, in accordance with the filing procedures set forth in Section 16302(d) of these regulations, when it is filed with the Director.

(2) Within 15 days of receipt of a copy of the request for a coverage determination, the awarding body shall forward to the Director or his/her duly authorized representative as provided for in Section 16301 of these regulations, any documents, arguments, or authorities it wishes to have considered in the coverage determination process.

(3) All parties to the coverage determination request shall have a continuing duty to provide the Director or his/her duly authorized representative as provided for in Section 16301 of these regulations, with relevant documents in their possession or control, until a determination is made. Where any party or parties' agent has a document in their possession, but refuses to release a copy, the Department shall consider that the documents, if released, would contain information adverse to the withholding party's position and may close the record and render a decision on the basis of that inference and the information received.

(b) Federally Funded or Assisted Projects. The application of state prevailing wage rates when higher is required whenever federally funded or assisted projects are controlled or carried out by California awarding bodies of any sort.

(c) Field Surveying Projects. Field survey work traditionally covered by collective bargaining agreements is subject to prevailing wage rates when it is integral to the specific public works project in the design, preconstruction, or construction phase.

(d) Residential Projects. Residential projects consisting of single family homes and apartments up to and including four stories are subject to payment of prevailing wages when paid for in whole or in part out of public funds, including federally-funded or assisted residential projects controlled or carried out by an awarding body.

NOTE: Such projects may require a special determination by the Director which should be requested by the awarding body at least 45 days before the commencement of advertising of the call for bids by the awarding body.

(e) Commercial Projects. All non-residential construction projects including new work, additions, alterations, reconstruction and repairs. Includes residential projects over four stories.

(f) Maintenance. Public works contracts for maintenance are subject to prevailing wage rate payment as set forth in Section 1771 of the Labor Code.

NOTE: See Article 1 for definition of term "maintenance."

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1720.4 and 1771, Labor Code.

HISTORY

1. Amendment of subsection (a) and NOTE and adoption of subsections (a)(1)-(3) and (c) and relettering former subsection (c) to (f) filed 2-20-92; operative 3-23-92 (Register 92, No. 13).
2. Amendment of subsection (b) and (d) and NOTE filed 12-27-96; operative 1-26-97 (Register 96, No. 52).
3. Change without regulatory effect repealing amendments to subsections (b) and (d) and NOTE filed 2-19-99 (Register 99, No. 8). Pursuant to Sacramento Superior Court Order Issued 6-4-97 in Case 97CS 00471 the amendments filed 12-27-96 and effective 1-27-97 were invalidated and the prior regulations were reinstated.

§ 16002. Coverage of Worker.

The determinations of the Director will cover those crafts, classifications or types of workers employed in public works as set forth in Sections 1720, 1720.2, 1720.3, and 1771 of the Labor Code.

NOTE: Authority cited: Sections 1723 and 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3 and 1771, Labor Code.

§ 16002.5. Appeal of Public Work Coverage Determination.

(a) Those interested parties enumerated in Section 16000 of these regulations may appeal to the Director of Industrial Relations or the Director's duly authorized representative as set forth in Section 16301 of these regulations a determination of coverage under the public works laws (Labor Code Section 1720 et seq.) regarding either a specific project or type of work under Section 16001(a) of these regulations. Such notice of appeal must be served within 30 days of the issuance of the coverage determination. The party appealing the determination must, in accordance with the filing procedures set forth in Section 16302(d) of these regulations, give written notification to the awarding body and any other identifiable parties.

(b) The notice of appeal shall state the full factual and legal grounds upon which the determination is appealed, and whether a hearing is desired. The decision to hold a hearing is within the Director's sole discretion. The Director may appoint a hearing officer to conduct the hearing and propose a decision on the appeal. The Director shall make the final decision on the appeal.

(c) The authority of the Director to determine coverage of projects under the prevailing wage laws is quasi-legislative, and a final determination on any appeal is subject to judicial review pursuant to the Code of Civil Procedure, Section 1085.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1720.4 and 1771, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16003. Requests for Approval of Volunteer Labor.

(a) An awarding body wishing to use volunteer labor on what would otherwise be a public works project, pursuant to Labor Code Section 1720.4 shall serve a written request for approval on the Director, not less than 45 days prior to the commencement of work on the facilities or structures.

(b) The request for approval shall fully set forth the awarding body's grounds for belief that the requirements of Labor Code Section 1720.4(a), (b), and (c) are satisfied, and shall list all the crafts and classifications of workers that typically perform the types of work needed for the project.

(c) The request for approval shall identify the unions which represent workers in the crafts or classifications listed in (b) within the locality in which the public work is performed.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1720.4, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

Article 3. Duties, Responsibilities, and Rights of Parties

§ 16100. Duties, Responsibilities and Rights.

The parties listed in this section must comply with the provisions of the Labor Code applicable to the payment of prevailing wages on public works contracts.

(a) Department and Division Authority in Prevailing Wage Issues. The Director shall establish and coordinate the administration of the State's prevailing wage law, including the determination of coverage issues. The lead agency for the determination of prevailing wage rates shall be the Division of Labor Statistics and Research. The lead agency for the enforcement of the payment of prevailing wages is the Division of Labor Standards Enforcement. The lead agency for the coordination on apprenticeship is the Division of Apprenticeship Standards. This section shall not be construed to preclude any filing requirements with DLSR of appropriate agreements or petitions regarding determinations or any other documents, papers, books, etc. otherwise required by the law or these regulations.

(b) The Awarding Body shall:

(1) Obtain the prevailing wage rate from the Director in accordance with Labor Code Sections 1771 and 1773.

(2) Specify the appropriate prevailing wage rates, in accordance with Labor Code Sections 1773.2 and 1777.5.

(A) The posting requirement is applicable for each job site.

EXCEPTION: If more than one worksite exists on any project, then the applicable rates may be posted at a single location which is readily available to all workers.

(B) If a wage rate for a craft, classification or type of worker is not published in the Director's general prevailing wage determinations, a request for a special determination should be made by the awarding body to Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142, at least 45 days prior to the project bid advertisement date.

(3) Notify DAS. See Labor Code Section 1773.3.

(4) Inform prime contractors, to the extent feasible, of relevant public work requirements:

NOTE: Requirement information may be disseminated at a preacceptance of bid conference or in a call for bids or at an award of bid conference.

The public works requirements are:

(A) the appropriate number of apprentices are on the job site, as set forth in Labor Code Section 1777.5.

(B) worker's compensation coverage, as set forth in Labor Code Sections 1860 and 1861.

(C) keep accurate records of the work performed on the public works project, as set forth in Labor Code Section 1812.

(D) inspection of payroll records pursuant to Labor Code Section 1776, and as set forth in Section 16400 (e) of these regulations.

(E) and other requirements imposed by law.

(5) Withhold monies. See Labor Code Section 1727.

(6) Ensure that public works projects are not split or separated into smaller work orders or projects for the purpose of evading the applicable provisions of Labor Code Section 1771.

') Deny the right to bid on public work contracts to contractors or subcontractors who have violated public work laws, as set forth in Labor Code Section 1777.7.

(8) Not permit workers on public works to work more than eight hours a day or 40 hours in any one calendar week, unless compensated at not less than time and a half as set forth in Labor Code Section 1815.

EXCEPTION: If the prevailing wage determination requires a higher rate of pay for overtime work than is required under Labor Code Section 1815, then that higher overtime rate must be paid [, as specified in subsection 16200(a)(3)(F) of these regulations.]

(9) Not take or receive any portion of the workers' wages or accept a fee in connection with a public works project, as set forth in Labor Code Sections 1778 and 1779.

(10) Comply with those requirements as specified in Labor Code Sections 1776(g), 1777.5, 1810, 1813, and 1860.

(c) Contractor–subcontractor.

The contractor and subcontractor shall:

(1) Pay not less than the prevailing wage to all workers, as defined in Section 16000(a) of these regulations, and as set forth in Labor Code Sections 1771 and 1774;

(2) Comply with the provisions of Labor Code Sections 1773.5, 1775, [1777.5 regarding public works jobsites;

(3) Provide workers' compensation coverage as set forth in Labor Code Section 1861;

(4) Comply with Labor Code Sections 1778 and 1779 regarding receiving a portion of wages or acceptance of a fee;

(5) Maintain and make available for inspection payroll records, as set forth in Labor Code Section 1776;

(6) Pay workers overtime pay, as set forth in Labor Code Section 1815 [provided in the collective bargaining agreement adopted by the Director as set forth in Section 16200 (a) (3) of these regulations; and

7) Comply with Section 16101 of these regulations regarding discrimination.

(8) Be subject to provisions of Labor Code Section 1777.7 which specifies the penalties imposed on a contractor who willfully fails to comply with provisions of Section 1777.5.

(9) Comply with those requirements as specified in Labor Code Sections 1810 and 1813.

(10) Comply with other requirements imposed by law.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1726, 1727, 1728, 1729, 1770, 1771, 1773, 1773.2, 1773.3, 1773.4, 1773.5, 1774, 1775, 1776, 1777.5, 1777.7, 1778, 1779, 1810, 1811, 1812, [], 1815, 1860 and 1861, Labor Code.

HISTORY

1. Amendment of subsection (b)(2)(B) filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16101. Discrimination.

See Labor Code Sections 1735, 1777.5, 1777.6, and 3077.5.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1735, 1777.5, 1777.6 and 3077.5, Labor Code.

§ 16102. Interested Party.

An interested party, as defined in Section 16000 of these regulations, may be a source of wage data information, as provided in Section 16200(e) of these regulations.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.4, Labor Code.

Article 4. Wage Determinations

16200. General; Basis for Determining Prevailing Wage Rate.

The Director shall follow those procedures specified in Sections 1773 [1777.5 of the Labor Code and in these regulations when making a prevailing wage determination.

(a) Collective Bargaining Agreements or Wage Surveys.

(1) Filing of collective bargaining agreements.

(A) To enable the Director to ascertain and consider the applicable wage rates established by collective bargaining agreements when making prevailing wage determinations, the representatives of any crafts, classifications, or types of workers needed to execute any public works contracts shall file with the Department of Industrial Relations fully executed copies of all their collective bargaining agreements, including any and all addenda which modify the agreements, within 10 days of their execution and shall be considered as the basis for a prevailing wage determination whenever on file 30 days before the call for bids on a project.

(B) Copies of collective bargaining agreements filed with the Department of Industrial Relations pursuant to Sections 1773.1 and 1773.8 of the Labor Code, and Section 16200(a)(1)(A) of these regulations shall be addressed to: Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142.

(C) Collective bargaining agreements filed with the Division of Labor Statistics and Research must be accompanied by a signed statement which is certified as true and correct to the best of the knowledge and belief of the person preparing the statement, under penalty of perjury, and which:

1. certifies that the agreement filed is fully executed and in effect, unless it is a signed original agreement or photocopy thereof, or a printed copy of a fully executed agreement showing the names of the signatory parties, except in the case of a printed agreement the Director may require certification;

2. names or otherwise identifies all California counties within the jurisdiction of the local union or unions signatory to the agreement;

3. names and provides the address of the signatory employer association or, if there be no signatory employer association, provides the names and addresses of all contractors signatory to the agreement, unless such information is contained in the agreement;

4. provides the number of workers currently employed under the terms of the agreement and, if practicable, the number of workers in each county within the jurisdiction of the signatory local union or unions;

5. provides any other information not contained in the agreement that the Director may need to give proper consideration to applicable wage rates established by collective bargaining.

(D) Copies of collective bargaining agreements which are not bona fide shall not be deemed filed. The party filing a contract may be asked to substantiate the assertion that such collective bargaining agreement is bona fide.

(2) Criteria for using collective bargaining agreement wage rates as basis of prevailing wage determinations. Before accepting the collective bargaining agreement wage rate for the applicable craft and locality, DLSR shall take the following factors into consideration:

(A) The geographical area(s) specified in the agreement;

(B) The number of workers covered by the agreement;

(C) If signatory parties to the agreement have workers in the geographical area(s);

(D) If work has been performed in the geographical area(s) specified in the agreement in the past 12 months;

(E) The wage rates determined by the federal government as set forth in Section 16200(b).

(3) Adoption of Collective Bargaining Agreements.

(A) If the Director determines pursuant to Section 1773 of the Labor Code that the rate established by a collective bargaining agreement is the general prevailing rate of per diem wages for each craft, classification or type of worker and the Director adopts such rate by referral, the Director will publish such rate. Only those rates and employer payments specifically enumerated in the definition of "general prevailing rate of per diem wages" in Section 16000 shall be included in the rate adopted.

(B) When such rate is adopted, and in the case where the collective bargaining agreement contains definite and predetermined changes during its term which will affect the rate adopted, the Director shall incorporate such changes in the determination.

NOTE: A statement must be filed with the Director for any adjustments made to a contract which are not contained in the agreement currently on file with DLSR.

(C) When such rate is adopted, and in the case where the collective bargaining agreement contains changes during its term which will affect the rate adopted, which are not definite or predetermined, the changes shall not be adopted. The prior determination will remain in effect until a new determination is issued. Any interested party may request that the Director make a new determination when contract changes become definite and determined by filing a statement as set forth in Section 16200(a)(1). The statement must summarize the amounts and effective dates of any cost-of-living adjustments, allocations of interim wage increases to wages and employer payments, and other relevant changes which will affect the rate adopted by the Director. The statement must be signed by an officer or agent of the bargaining representative and certified, under penalty of perjury, as true and correct to the best of his or her knowledge and belief.

(D) When such agreement is adopted as the basis of the prevailing wage determination, all wage classifications may be considered.

(E) Holidays. Holidays specifically named in the collective bargaining agreement or determined by wage surveys shall be included in the wage determination. Overtime pay may be required as provided in Section 16200(a)(3)(F) of these regulations.

(F) Overtime. Overtime will be paid as indicated in the wage determination.

EXCEPTION 1: If a workweek other than Monday through Friday is a fixed business practice or is required by the awarding body, no overtime payment is required for the first eight hours on Saturday or Sunday.

EXCEPTION 2: If the collective bargaining agreement provides for Saturday and Sunday work at straight-time, no overtime payment is required for the first eight hours on Saturday or Sunday.

EXCEPTION 3: If the awarding body determines that work cannot be performed during normal business hours or work is necessary at off hours to avoid danger to life or property, no overtime is required for the first eight hours in any one calendar day, and 40 hours during any one calendar week.

EXCEPTION 4: No overtime payment is required for less than 40 hours in a standard work week or for less than eight hours in a calendar workday unless specified in the collective bargaining agreement used as the basis for the prevailing wage determination.

(G) Wage rates, training contributions and apprenticeship contributions. Apprenticeship rates shall be determined by the Director of Industrial Relations using apprentice wage standards set forth in the collective bargaining agreement and/or approved by the California Apprenticeship Council. A contractor or subcontractor on a public works contract must pay training fund contributions or apprenticeship contributions in one of the following manners:

1. into the appropriate craft apprenticeship program in the area of the site of the public work; or

2. (if the trust fund is unable to accept such contributions) an equivalent amount shall be paid to the California Apprenticeship Council (CAC) administered by DAS.

3. If neither of the above will accept the funds, cash pay shall be as provided for in Section 16200(a)(3)(I) of these regulations.

(H) Rates for helpers. Rates for helpers will be published when the information available to the Director indicates that a practice of using such a subclassification prevails in a particular area, such as contained in a collective bargaining agreement, and within the parameters of the applicable collective bargaining agreement. In the absence of such determination, the helper classification may not be used as a substitute for a journeyman or apprentice. This section does not exempt the contractor from the 1-5 apprentice-journeyman ratio requirements set forth in Labor Code Section 1777.5.

(I) Credit Available For Actual Payment of Fringe Benefit Costs up to the Prevailing Amount. The contractor obligated to pay the full prevailing rate of per diem wages may take credit for amounts up to the total of all fringe benefit amounts listed as prevailing in the appropriate wage determination. This credit may be taken only as to amounts which are actual payments under Employer Payments Section 16000(1)-(3). In the event the total of Employer Payments by a contractor for the fringe benefits listed as prevailing is less than the aggregate amount set out as prevailing in the wage determination, the contractor must pay the difference directly to the employee. No amount of credit for payments over the aggregate amount of employer payments shall be taken nor shall any credit decrease the amount of direct payment of hourly wages of those amounts found to be prevailing for straight time or overtime wages.

(b) Federal Rates. In reviewing rates predetermined for federal public works, the Director will consider those rates published pursuant to the Davis-Bacon Act.

(c) Data collection shall be in accordance with Labor Code Section 1773.

(d) Wage rate factors.

NOTE: Wage surveys are conducted by DLSR.

(1) The following factors shall be considered:

(A) Type of work to be performed;

(B) Classification(s) of worker(s) needed;

(C) Geographical area of project;

(D) Nearest labor market area;

(E) If work has been performed in the geographical area in the past 12 months.

(F) Mobility of craft, classification, or type of worker needed for project;

(G) Number of workers in craft or job classification;

(H) Normal industry practice in selection of craft and classification of worker;

(I) Size (dollar amount) of project;

(J) Degree of project's remoteness from survey area.

(2) Time period used in determining prevailing wage by survey. The time period reference for establishing the prevailing wage in the area of determination shall be the 12-month period prior to the request for a wage determination unless another time period is necessary. In such cases, the Director shall establish the appropriate time period.

(e) Other information. Pursuant to Section 1773 of the Labor Code, the Director may also obtain and consider other data from interested parties, and shall give consideration to data submitted by any interested party, concerning rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area. Such data may be obtained by holding a hearing, instituting an investigation, or by such other means as the Director determines will best serve the purposes of the law. Information submitted by interested parties for the Director's consideration shall include, but not be limited to the following for each project:

(1) the name, address, job title, and telephone number of the interested party submitting the information and the basis for qualification as an interested party under Section 16102;

(2) the basic hourly wage rate, overtime and holiday pay rates, and employer payments as enumerated in Section 16000 of these regulations for each classification in question as effective for the last payroll period, or most recent payroll period, for which payments based on such rates were actually made;

(3) the number of workers employed on the project in each classification in question during the payroll period for which data is submitted;

(4) the location of the project;

(5) the name and address of the contractor or subcontractor making the payments, and of all other contractors or subcontractors on the project;

(6) the type of construction (e.g. residential, commercial building, etc.);

(7) the approximate cost of construction;

(8) the beginning date and completion date, or estimated completion date of the project;

(9) the source of data (e.g. "payroll records");

(10) the method of selection of the projects for which data is submitted, when data is not submitted for all projects recently completed or in progress in the locality or in the nearest labor market area.

NOTE: Authority cited: Sections 1773 and 1773.5, Labor Code. Reference: Sections 1770, 1771, 1773, 1773.1, 1773.5, 1773.8, 1777.5, 1810 and 1815, Labor Code.

History

...der of Repeal of subsection (a)(3)(E) filed 8-24-88 by OAL pursuant to Government Code section 11340.15 (Register 88, No. 35).

2. Amendment of subsections (a)(1), (a)(3) and (b) filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

3. Repealer of subsection (a)(3)(B), subsection relettering, and amendment of newly designated subsections (a)(3)(B), (a)(3)(D), and (a)(3)(F)(3) filed 12-27-96; operative 1-26-97 (Register 96, No. 52).

4. Amendment of subsection (b) filed 12-27-96; operative 1-26-97 (Register 96, No. 52).

5. Change without regulatory effect repealing 12-27-96 amendments filed 2-19-99 (Register 99, No. 8). Pursuant to Sacramento Superior Court Order Issued 6-4-97 in Case 97CS 00471 the amendments filed 12-27-96 and effective 1-27-97 were invalidated and the prior regulations were reinstated.

§ 16201. General Area Determinations.

When the Director determines that the general prevailing rate of per diem wages for a particular craft, classification, or type of worker is uniform throughout an area, the Director shall issue a determination enumerated county by county, but covering the entire area. Such determinations will ordinarily be made for an entire county or group of counties and shall constitute the Director's determination for all localities in which public ... is performed within that county or counties except as the geograph... plication of the determination may be specifically limited by the determination itself.

Note: General determinations are usually issued on a quarterly basis. However, the Director may issue an interim wage determination following the procedures set forth in Section 1773 of the Labor Code, and in these regulations. See Section 16000 as to issue date, and Section 16204 as to effective date of determination. The general determination usually applies where a collective bargaining agreement has been filed and adopted as the prevailing wage rate.

Note: Authority cited: Sections 1773.5 and 1773.6, Labor Code. Reference: Sec... 773, Labor Code.

...202. Special Determinations.

... Awarding body request. The awarding body shall request the Director to make a determination for a particular craft, classification or type of worker not covered by a general determination. Any such request shall be submitted at least 45 days prior to the bid advertisement date.

(b) Department of Industrial Relations initiated determination. Where an awarding body does not specify the prevailing wage rate as set forth in Labor Code Section 1773.2, any interested party (as defined in Section 16000 of these regulations) may petition the Director as set forth in Labor Code Section 1773.4 and Section 16302 of these regulations. The Labor ... missioner may, prior to the letting of the bid, request such a determi...on of the Director.

Note: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1773 and 1773.4, Labor Code.

§ 16203. Format.

(a) All determinations made by the Director of the general prevailing rate of per diem wages for a particular craft, classification, or type of worker will separately specify each of the following components:

(1) The prevailing basic straight-time hourly wage rate.

(2) The following statement when applicable: "In accordance with Labor Code Section 1773, holidays upon which the prevailing hourly wage rate for holiday work shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workers employed on the project, which is on file with the Director of Industrial Relations."

(3) The prevailing employer payments for benefits included in the general prevailing rate of per diem wages pursuant to Section 1773.1 of the ... Code and enumerated in Section 16000 of these regulations.

... The following statement when applicable. "The contractor shall make travel and subsistence payments to each worker needed to execute ... work, as such travel and subsistence payments are defined in the ...icable collective bargaining agreements filed with the Director of Industrial Relations in accordance with Labor Code Section 1773.8."

(b) Where the prevailing employer payment for any benefit is expressed in a formula or method of payment other than an hourly rate the Director may convert the rate to an hourly rate whenever such action would facilitate the administration of the law.

(c) The applicability of the apprentice rate of per diem wages shall be indicated and furnished upon request.

(d) The dates between which the applicable rate shall be paid for work performed in those periods shall be indicated.

(e) As a supplement to each determination the Director shall make available to any awarding body upon request, a list of all holidays recognized and the provision for travel and subsistence payments, taken from the applicable collective bargaining agreement.

Note: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.5, Labor Code.

§ 16204. Effective Dates of Determination and of Rates Within Determination.

(a) Effective Date of Determination.

(1) All determinations issued will be effective ten (10) days afte... issuance, provided that requests for copies, reprints or reissuance of prior determinations shall not affect the original effective date unless a new effective date is reflected upon the determination (see subdivision (3) below). Any call for bids put out on or after the effective date of the determination must reflect that determination unless the Director determines that subdivision (4) of this section is applicable, after notification and request by an awarding body.

(2) Determinations issued by the Director will show an issue date and will ordinarily show an expiration date.

(3) All determinations will remain in effect until their expiration date or until modified, corrected, rescinded or superseded by the Director.

(4) Determinations modified, corrected, rescinded or superseded on the basis of information contained in copies of collective bargaining agreements filed with the Department shall not be effective as to any project in which a call for bids takes place less than 30 days after the filing of the agreement.

Note: See Section 1773.1 of the Labor Code.

(5) It shall be the responsibility of the awarding body to ensure that the correct determination is used.

(b) Modification of Effective Date of Determination by Asterisks. Meaning of single and double asterisks. Prevailing wage determinations with a single asterisk (*) after the expiration date which are in effect on the date of advertisement for bids remain in effect for the life of the project. Prevailing wage determinations with double asterisks (**) after the expiration date indicate that the basic hourly wage rate, overtime and holiday pay rates, and employer payments to be paid for work performed after this date have been predetermined. If work is to extend past this date, the new rate must be paid and should be incorporated in contracts entered into now. The contractor should contact the Prevailing Wage Unit, DLSR, or the awarding body to obtain predetermined wage changes. All determinations that do not have double asterisks (**) after the expiration date remain in effect for the life of the project.

Note: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1773 and 1773.1, Labor Code.

History

1. Amendment of subsections (a)(3) and (b) filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

2. Amendment of subsection (a)(3), repealer and new subsection (b) and amendment of Note filed 12-27-96; operative 1-26-97 (Register 96, No. 52).

3. Change without regulatory effect repealing 12-27-96 amendments to section and Note filed 2-19-99 (Register 99, No. 8). Pursuant to Sacramento Superior Court Order Issued 6-4-97 in Case 97CS 00471 the amendments filed 12-27-96 and effective 1-27-97 were invalidated and the prior regulations were reinstated.

§ 16205. Procedures for Obtaining Prevailing Wage Determinations.

An awarding body may request to be put on a mailing list for all area wage determinations for a specific county or counties or may request that a special or general prevailing wage determination be furnished when needed, by writing to Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142. All requests for special pre-

vailing wage determinations must be confirmed in writing and must specify the location where the public work is to be performed, including the county and the particular crafts, classifications, or types of workers for which a determination is needed.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770 and 1773, Labor Code.

HISTORY

1. Amendment filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16206. Corrections.

Upon his or her own initiative or at the request of any interested party, the Director shall correct any error in a published determination that is the result of clerical error, such as a typographical error or a transposition of letters or digits, by issuing a corrected determination or a modification of the determination. The Director may correct any error issued in a determination by reissuing such determination.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770 and 1773, Labor Code.

Article 5. Petitions to Review Prevailing Wage Determinations

§ 16300. Delegation of Authority.

(a) The Chief of DLSR is the authorized representative of the Director for the purpose of:

(1) Receiving collective bargaining agreements and other documents and papers pertaining to making prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these regulations;

(2) Gathering information needed to make prevailing wage determinations under Part, Chapter 1, Article 2 of the Labor Code and these regulations, and may for that purpose institute investigations, conduct hearings, or employ such other means as shall best serve the purpose of the law;

(3) Issuing prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these regulations; and

(4) Responding to petitions regarding determinations.

(b) The Director reserves the right to make all final determinations.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1771, 1772, 1773 et seq., 1774, 1775, 1776, 1777, 1777.5 et seq., 1778, 1779 and 1780, Labor Code.

§ 16301. Referral of Prevailing Wage Issues to Director's Office.

Any new or unresolved issue other than of a routine nature as to coverage of or amount of the prevailing wage raised by an awarding body or other interested party may be referred to the Chief of DLSR as the Director's duly authorized representative for final determination, including appeals of any determination relating either to coverage or to the rate of the prevailing wage rate, subject only to Section 16300(b) of these regulations.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.4, Labor Code.

§ 16302. Petition to Review Prevailing Wage Determinations.

Those interested parties enumerated in Section 1773.4 of the Labor Code, and defined in Section 16000 of these regulations, may file with the Director or the Chief of DLSR, within 20 days after commencement of advertising of a call for bids by any awarding body, a petition to review a determination of any rate or rates made by the Director, pursuant to Section 1773 of the Labor Code, which is specified in or referred to in the call for bids.

(a) Manner of Filing. Every petition filed pursuant to Section 1773.4 of the Labor Code shall be filed with the Director by mail to the Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142, or may be filed in person at 455 Golden Gate Avenue, 5th Floor, San Francisco, CA 94102.

(b) Filing. Where any paper, letter, petition, or document is required or permitted to be filed pursuant to these regulations or pursuant to the prevailing wage provisions of the Labor Code, it shall be deemed filed with any person, awarding body or division upon actual delivery to and receipt by such person, awarding body, or division.

(c) Content of Petition. Every petition filed pursuant to Section 1773.4 of the Labor Code shall contain and separately state the following:

(1) The name, address, telephone number and job title of:

(A) the person filing the petition;

(B) the person verifying the petition, if different from the person filing;

(C) if applicable, petitioner's attorney or authorized representative.

(2) Whether the petitioner is an awarding body, a prospective bidder, or the representative of one or more crafts, classifications or types of workers involved in the public works contract;

(3) The nature of petitioner's business, if a prospective bidder, and a designation of each craft, classification, or type of worker represented, or types of workers involved in the public works project.

(4) (A) the official name of the awarding body;

(B) the date on which the call for bids was first published;

(C) the name and location of the newspaper in which such publication was made. An accurate copy of the call for bids as published shall be attached to the petition.

(5) If petitioner is an awarding body which is a department, board, authority or political subdivision other than a county, city and county, city, township, or regional district, the awarding body shall describe the parent or principal organization of which it is a part, and shall specify the statutory authority for undertaking public works.

(6) If the petitioner is a prospective bidder, then the parent or subsidiary corporations or associations related to such craft, classification or type of work, if any, shall be specified.

(7) The manner in which the wage rate determined by the Director fails to comply with the provisions of Labor Code Section 1773.

(A) Every petition asserting that the applicable prevailing rate for one or more crafts, classifications or types of workers needed to execute a contract is different from that ascertained by the Director shall set forth the rate the petitioner claims to be correct for each disputed rate, together with specific reference to particular facts providing the basis for such claim.

1. Whenever such facts relate to a particular employer of such crafts, classifications, or types of workers, the facts stated must identify the employer by name and address and give the number of workers involved.

2. Whenever such facts relate to an applicable collective bargaining agreement which the petitioner alleges was not considered by the Director pursuant to Section 1773 of the Labor Code, a copy of the agreement, if not already filed with the Director, should be filed concurrently with the petition in the manner provided in Section 16200(a)(1) of these regulations.

3. Whenever such facts relate to rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area, the facts stated should include all of the items of information enumerated in Section 16200(e) of these regulations.

(B) Every petition asserting that the Director has failed to ascertain and consider all applicable rates required to be considered by it shall specifically state in the petition which rates have not been considered by the Director.

(C) Where rates ascertained by the Director are the same as the applicable rates established by the collective bargaining agreement and rates of pay determined for federal public works within the locality and the nearest labor market area where the public work is performed, the petition shall specifically describe the manner and extent to which such rates do not constitute the rates actually prevailing in the locality where the public work is to be performed, and shall set forth and fully identify the existence of any rates asserted by petitioner to be prevailing in the locality and relied upon in support of the petition.

(d) Filing Copy With Awarding Body. If the petitioner is not an awarding body, the petitioner may concurrently with the filing of the original

on, or otherwise shall within two days thereafter, excluding Saturdays, Sundays and holidays, file a copy of the petition with the awarding body and not later than five days, excluding Saturdays, Sundays and holidays, after the filing of the original petition, the petitioner shall file with the Chief of DLSR an affidavit of the filing with the awarding body. The Director may waive this requirement upon receipt of written confirmation, including a copy of such notification by the petitioner.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1773, 1773.1, 1773.4, 1773.5, 1773.8 and 1776, Labor Code.

HISTORY

1. Amendment of subsection (a) filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16303. Quasi-Legislative Nature of Authority.

(a) The authority of the Director to establish the prevailing wage for any craft, classification, or type of worker is quasi-legislative. The Director has the discretion to establish these prevailing wages in a quasi-legislative manner which may include an investigation, hearing, or other action. Any hearing under this process is quasi-legislative and is subject to review pursuant to the Code of Civil Procedure Section 1085.

(b) The Director may in his or her discretion initiate an investigation or hold a hearing or take such other action as is reasonably necessary which would best effectuate the purposes of the law and of these regulations, except as such action may be expressly prohibited by law.

NOTE: Authority cited: Section 1773.5, Labor Code; and Winzler & Kelly (1981) 121 C.A. 3d 120; *Western Assn. of Engineers & Land Surveyors v. DIR*, Judicial Council Coord. Proceeding No. 449, Sac. Superior Court No. 285433. Reference: Sections 1770, 1773 and 1773.4, Labor Code; and Section 1085, Code of Civil Procedure.

§ 16304. Hearings.

When a hearing is held, including a petition to review under Labor Code Section 1773.4, it shall be in accordance with the following procedures:

(a) Hearing Procedures.

(1) A time and place of the hearing shall be fixed.

(2) All interested parties made known to the Director shall be notified by registered or certified mail, return receipt requested, of the time and place of the hearing except that, in the event of numerous interested parties or in the event that mailing notices by registered or certified mail would cause an undue delay adverse to the interest of the parties or a timely hearing, the Director may send certified or registered notices to the petitioner and other directly interested parties that have been made known to the Director and mail notices to the other parties, and publish such notices in newspapers.

(3) Notification of the time and place of the hearing shall be at least one week in advance.

(4) The interested parties shall be given an opportunity to present evidence and oral or written arguments in support of their positions. The hearing officer may fairly allocate time for such witnesses' testimony in the interest of introducing relevant evidence. Cross examination will be permitted at the discretion of the hearing officer.

(5) The hearing need not be conducted according to technical rules relating to evidence and witnesses.

(6) All witnesses testifying before the hearing officer shall testify under oath.

(7) A full transcript of the hearing shall be recorded.

(b) Hearing Officer. The Director may appoint a hearing officer(s). The appointed hearing officer(s) shall conduct the hearing and submit to the Director the entire record of the hearing together with written recommendations. Either the appointed hearing officer(s) or the Director may request documentation subsequent to the hearing to complete the record, and shall send copies of such additional information to the petitioner, awarding body or other designated interested party or parties.

(c) Subject Matter. The subject matter of a hearing may be initiated by a petition to review, as set forth in Labor Code Section 1773.4.

(d) Decision. The decision of the Director shall reflect a summary of the evidence, findings, or matters of fact and/or law.

The decision shall be sent to all parties no later than 20 days after the hearing, except earlier or later as special circumstances warrant. The decision of the Director shall be final, for the purposes of judicial review, except that the Director upon his or her initiative only, may consider and take whatever action is appropriate or necessary to facilitate a decision on reconsideration. Notice of reconsideration shall be given to all parties in the same manner as the notice of hearings as specified in Sections 16304(a)(2) and (a)(3) above and the decision upon reconsideration shall be as specified in subdivisions (a)(2) and (a)(3) of this section.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1773.4 and 1773.5, Labor Code.

Article 6. Certified Payroll Records: Requests, Content, and Cost

§ 16400. Request for Payroll Records.

(a) Requests may be made by any person for certified copies of payroll records. Requests shall be made to any of the following:

(1) the body awarding the contract, or

(2) any office of the Division of Labor Standards Enforcement, or the Division of Apprenticeship Standards.

(b) Requests for certified copies of payroll records pursuant to Section 1776 of the Labor Code may be made by any person. However, any such request shall be in writing and contain at least the following information:

(1) The body awarding the contract;

(2) The contract number and/or description;

(3) The particular job location if more than one;

(4) The name of the contractor;

(5) The regular business address, if known.

NOTE: Requests for records of more than one contractor of subcontractor must list the information regarding that contractor individually, even if all requests pertain to the same particular public works project. Blanket requests covering an entire public works project will not be accepted; unless contractor and subcontractor responsibilities regarding the project are not clearly defined.

(c) Acknowledgment of Request. The public entity receiving a request for payroll records shall acknowledge receipt of such, and indicate the cost of providing the payroll records based on an estimate by the contractor, subcontractor or public entity. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16400(d) below, to the person who requested said records.

(d) Request to Contractor. The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following:

(1) Specify the records to be provided and the form upon which the information is to be provided;

(2) Conspicuous notice of the following:

(A) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and

(B) that failure to provide certified copies of the records to the requesting public entity within 10 working days of the receipt of the request will subject the contractor to a penalty of twenty-five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated;

(3) Cost of preparation as provided in Section 16402; and

(4) Provide for inspection.

(e) Inspection of Payroll Records. Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of Section 1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

§ 16401. Reporting of Payroll Requests.

(a) Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research P.O. Box 603 San Francisco, CA 94101

ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be conditioned upon the requirement that the alternate format contain all of the information required pursuant to Labor Code Section 1776. If, however, the contractor does not comply with the provisions of Labor Code Section 1776, the Labor Commissioner may require the use of DIR's suggested format, "Public Works Payroll Reporting Form" (Form A–1–131).

(b) Words of Certification. The form of certification shall be as follows: I, _____ (Name–print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named. Date:_____Signature:_____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1776, Labor Code.

§ 16402. Cost.

The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

NOTE: Authority cited: Section 1776, Labor Code. Reference: Section 1776(h), Labor Code.

§ 16403. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Section 1776, Labor Code.

Article 7. Withholding of Funds from Contractor—Hearing Procedure

§ 16410. Definitions.

As used in these regulations, the terms "awarding body," "contractor," and "subcontractor" shall have the same meaning as in Part 7 of Division 2 of the Labor Code. The term "affected subcontractor" shall mean a subcontractor whose alleged failure to pay the prevailing wage or to otherwise comply with the provisions of Labor Code §§ 1720–1815 resulted in the withholding of funds pursuant to Labor Code § 1727.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New article 7 (sections 16410–16414) and section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.

§ 16411. Notice to Contractor and Affected Subcontractor.

(a) Upon the decision to withhold, retain or forfeit any sum from a payment due to a contractor as permitted by Labor Code § 1727, the Division of Labor Standards Enforcement shall give written notice to the awarding body, the contractor, and to any affected subcontractor, of the withholding, retention, or forfeiture.

(b) Said notice shall include the following information:

(1) The amount to be withheld, retained or forfeited.

(2) A short statement of the factual basis upon which said amount is to be withheld, retained, or forfeited, including, but not limited to, the computation of any wages found to be due, and the computation of any penalties assessed under Labor Code § 1775.

(3) Notice of the right to request a hearing under these regulations, and of the manner in which, and the time within which a hearing must be requested.

(c) Said notice shall be sent by certified mail to the last known address of the contractor, and to the last known address of any affected subcontractor. The records of the State Contractors' License Board may be used to determine the address of a contractor or affected subcontractor.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.

§ 16412. Withholding, Retention, or Forfeiture.

(a) When notice has been sent as provided in section 16411, above, the awarding body shall proceed to withhold, retain, or forfeit the amount stated in the notice, pursuant to Labor Code § 1727. Such withholding, retention, or forfeiture shall be subject to the right of a contractor or affected subcontractor to request a hearing, as provided in section 16413, below, and further subject to the right of a contractor or a contractor's assignee to bring suit against the awarding body as provided by Labor Code §§ 1731–1733.

(b) Nothing in these regulations shall extend, or affect in any way, the statutory time limits provided by Labor Code §§ 1731–1733.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.

§ 16413. Request for Hearing.

(a) A contractor or subcontractor desiring a hearing regarding the withholding, retention, or forfeiture of an amount may request such a hearing by letter postmarked within 30 days of the date of the mailing of

he notice provided by section 16411, above, mailed to the awarding body, and to:

DIVISION OF LABOR STANDARDS ENFORCEMENT
LEGAL SECTION
455 GOLDEN GATE AVENUE, 9TH FLOOR
SAN FRANCISCO, CALIFORNIA 94102

(b) A request for hearing shall contain a statement of all factual and legal grounds upon which the withholding is contested, identifying the specific element or elements, issue or issues, being contested, including, but not limited to:

(1) the classification of workers included in the computation of wages found to be due;

(2) the hours worked by such workers;

(3) the prevailing wage requirements applicable to such classifications;

(4) the amounts paid to such workers;

(5) the assessment and computation of statutory penalties;

(6) any erroneous mathematical calculations.

Assertions of fact included in the statement shall be supported by documentary evidence, e.g., time cards, canceled checks, cash receipts, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidence which reflect job assignments, work schedules by days and hours, and evidence of the disbursement by way of cash, check, or in whatever form or manner, of funds to a person or persons by job classification and/or skill, and, if appropriate, declarations under penalty of perjury.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99,). A Certificate of Compliance must be transmitted to OAL by 6-16-99 emergency language will be repealed by operation of law on the following

§ 16414. Hearing.

(a) Upon receipt of a timely request for a hearing, the Labor Commissioner, or his or her deputy or agent shall, within 30 days, hold a hearing to determine whether reasonable cause exists to withhold and retain the funds identified in the notice provided under section 16411, above.

(b) The hearing date may be continued at the request of the party seeking the hearing upon a showing of good cause.

The burden of proof at such hearing shall be as provided in Labor C. § 1733.

(d) The decision of the Labor Commissioner shall consist of a notice of findings, findings, and an order, which shall be served on the awarding body and all parties to the hearing within 15 days after the conclusion of the hearing by regular first class mail at the last known address of the party on file with the Labor Commissioner. The awarding body shall promptly abide by any decision of the Labor Commissioner with respect to the notice to withhold.

(e) The hearing pursuant to this section shall only determine whether reasonable cause exists for the withholding, retention, or forfeiture of funds pursuant to Labor Code § 1727. A hearing pursuant to this section shall not be deemed to be dispositive as to the contractor's (or affected subcontractor's) compliance with prevailing wage laws. Any decision rendered shall have no res judicata or collateral estoppel effect, and will not preclude the Labor Commissioner from pursuing any action provided by Labor Code § 1775 or any other statutory or common law remedy against any party. Neither the failure of a party to request a hearing nor Labor Commissioner's decision after a hearing shall preclude the contractor or affected subcontractor from pursuing any other remedy provided by existing law.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following

Subchapter 4. Awarding Body Labor Compliance Programs

Article 1. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs

§ 16425. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs.

(a) No contracts shall be subject to LCP jurisdiction nor shall the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) apply to any contract of an awarding body until after the LCP has received initial or final approval under these regulations.

(b) Contracts for which the Date of Notice or the Call for Bids are subsequent to the date of initial or final approval of a LCP are subject to Labor Code Section 1771.5. In the case of a contract for which there is no Call for Bids, the applicable date shall be the date of execution of the contract.

(c) Revocation of approval of a LCP by the Director shall not affect the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) if the date of such revocation is subsequent to the Date of Notice or Call for Bids or, in the case of a contract for which there is no Call for Bids, subsequent to the date of execution of the contract.

(d) If the Director revokes approval of a LCP, the Director shall give notice to the awarding body specifying enforcement responsibilities, including enforcement actions pending hearing, as of the date of revocation.

(e) An awarding body may voluntarily terminate its LCP. With respect to each contract pending on the date of termination, the awarding body shall:

(1) Notify the Director of its intention and the effective date of the termination;

(2) Notify the contractor(s) and the DLSE of the identity of the agent who will carry out the compliance enforcement obligations of Labor Code Section 1771.5 on the remaining contracts; and

(3) Specify the general fund into which penalties or forfeitures withheld from any contract payments shall be deposited.

(f) The Labor Commissioner may, in writing, agree to assume enforcement obligations on pending contracts of an awarding body which has voluntarily terminated its LCP. In such case, penalties and forfeitures shall be deposited in the general fund of the state.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13). For prior history of subchapter 4 (sections 16209-16209.6), see Register 82, No. 51.

Article 2. Approval and Revocation of Approval of Labor Compliance Programs by Director

§ 16426. Initial Approval.

(a) An awarding body seeking approval of a LCP shall submit evidence of its ability to operate its LCP. Prior to granting approval, the Director shall consider the following factors:

(1) Experience and training of the awarding body's personnel on public works labor compliance issues;

(2) The average number of public works contracts the awarding body annually administers;

(3) Whether the LCP is a joint or cooperative venture among awarding bodies, and how the resources and expanded responsibilities of the LCP compare to the awarding bodies involved;

(4) The awarding body's record of taking cognizance of Labor Code violations and of withholding in the preceding five years;

(5) The availability of legal support for the LCP;

(6) The availability and quality of a manual outlining the responsibilities and procedures of the LCP to the awarding body; and

(7) The method by which the awarding body will transmit notice to the Labor Commissioner of willful violations as defined in Labor Code Section 1777.1(d).

(b) The Director shall notify the awarding body within 30 days of receipt of the request for approval that initial approval is granted and the effective date of initial approval, or that the request is incomplete and of the materials necessary to complete the request or that the request is disapproved for other reasons.

(c) Initial approval of a LCP shall automatically expire one year after approval unless an extension is requested in writing and granted in writing by the Director at least thirty days prior to the anniversary date of the approval. Where necessary to coordinate with the local government's fiscal year or existing public works procedures, initial approval may be for a period up to 18 months.

(d) The Director will maintain a list of all initially approved LCPs for distribution to interested parties upon request.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5, 1771.6 and 1777.1, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16427. Final Approval.

(a) An awarding body which has operated a LCP for 11 continuous months after initial approval may apply to the Director for final approval. The awarding body bears the burden of producing evidence that it meets the criteria in (b).

(b) The Director will grant final approval if the awarding body has satisfactorily demonstrated its ability to monitor compliance with the requirements of the Labor Code and these regulations, and has filed timely, complete, and accurate reports as required by these regulations.

(c) The Director shall notify the awarding body within 30 days of the receipt of a request for final approval that final approval is granted and the effective date of final approval, or that the request for final approval is denied, the reason for the denial and the status of the LCP program.

(d) An awarding body which has received final approval of its LCP may enter into an agreement with the Labor Commissioner which may provide for procedures and for securing approval of forfeitures in a manner different from that set forth in Section 16437, and for alternate procedures for appeals of enforcement actions to the Director.

(e) The Director will maintain a list of all finally approved LCPs, for distribution to interested parties upon request. The Director may agree to alternative reporting formats under Section 16431 of these regulations and shall maintain a list of interested parties who wish notification of alternative reporting formats before adoption.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16428. Revocation of Final Approval.

(a) The Director may revoke final approval of a LCP only after giving due notice to the awarding body, conducting a hearing, and finding cause for revocation.

(1) Cause for revocation of final approval includes, but is not limited to:

(A) Failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take appropriate enforcement action for violations of which it becomes or should have become cognizant;

(B) Failure of the awarding body to file timely, complete, and accurate reports to the Director as required by Section 16431 or elsewhere in these regulations.

(b) Interested parties may request the Director revoke final approval of a LCP. A request for revocation shall include evidence of failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take enforcement action after becoming cognizant of a violation of the Labor Code or these regulations. A request for revocation shall also include any other relevant evidence.

(1) Final approval of a LCP may be revoked by the Director based on a request by an interested party after a proceeding conducted as provided in subdivision (a). A copy of the request for revocation shall be provided to the awarding body as part of the notice required under subdivision (a).

(2) As part of a proceeding for revocation of final approval based on a request by an interested party, the Director may require the awarding body to furnish a supplemental report for the period between the ending date of the last annual report filed by the awarding body pursuant to Section 16431 and the date of notice by the Director, and containing the information listed in subdivision (a) of said Section 16431.

(3) Revocation of final approval of a LCP based on a request by an interested party is solely within the discretion of the Director. The duty of an awarding body to carry out its LCP runs solely to the Director and not to any worker, contractor, or interested party. The sole remedy for failure of an awarding body's duty is revocation of approval by the Director.

(c) Upon determining that the request for revocation will be denied without hearing, the Director shall notify the LCP, awarding body and requesting party of the decision and of the reasons therefore by mail.

(d) Upon determining that a hearing is necessary, the parties will be notified and a hearing on cause for revocation of final LCP approval will be held in accordance with the procedures for notice and hearing proceedings set forth in 8 CCR Section 16304.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

Article 3. Notice and Components of LCP

§ 16429. Notice of LCP Approval.

(a) Notice of initial or final approval of an awarding body's LCP shall be given in the Call for Bids and in the contract or purchase order and shall also be posted at the job site. If more than one job site exists or where such posting would endanger public safety, the notice may be posted in the manner prescribed by 8 CCR Section 16100(b).

(b) Notice of an approved LCP shall contain, at the minimum, the effective date of the Director's initial or final approval, a statement that the limited exemption from prevailing wages pursuant to Labor Code Section 1771.5(a) applies to the contract, a telephone number to call for inquiries, questions, or assistance with regard to the LCP, and the name of the agent or office administering the LCP, if different from the awarding body.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16430. Components of LCP.

(a) In accordance with Labor Code Section 1771.5(b), a LCP shall include, but not be limited to, the following requirements:

(1) The Call for Bids and the contract or purchase order shall contain appropriate language concerning the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(2) A prejob conference shall be conducted before commencement of the work with contractors and subcontractors listed in the bid, at which time federal and state labor law requirements applicable to the contract shall be discussed, and copies of suggested reporting forms furnished. A checklist, showing which federal and state labor law requirements were

discussed, shall be kept for each conference. A checklist in the format of Appendix A presumptively meets this requirement;

(3) A requirement that certified payroll records be kept by the contractor in accordance with Labor Code Section 1776 and furnished to the awarding body at times designated in the contract or within 10 days of request by the awarding body. The awarding body may create a form meeting the minimum requirements of (a) hereinafter "Certified Weekly Payroll." Use of the current version of DIR's "Public Works Payroll Reporting Form" (A-1-131) (Nov 2-80) constitutes full compliance with this requirement by the awarding body. A copy of this suggested form follows Title 8 CCR Section 16500;

(4) A program for orderly review of payroll records and, if necessary, for audits to verify compliance with the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(5) A prescribed routine for withholding penalties, forfeitures, and underpayment of wages for violations of the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(6) All contracts to which prevailing wage requirements apply shall include a provision that contract payments shall not be made when payroll records are delinquent or inadequate.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5(b), Labor Code.

HISTORY

1. New section and Appendix filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

Appendix A

Suggested Checklist of Labor Law Requirements to Review at Prejob Conference, Section 16430.

The federal and state labor law requirements applicable to the contract are composed of but not limited to the following items:

[The next page is 1414.3.]

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

§ 16401. Reporting of Payroll Requests.

(a) Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research P.O. Box 603 San Francisco, CA 94101

ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be conditioned upon the requirement that the alternate format contain all of the information required pursuant to Labor Code Section 1776. If, however, the contractor does not comply with the provisions of Labor Code Section 1775, the Labor Commissioner may require the use of DIR's suggested format, "Public Works Payroll Reporting Form" (Form A-1-131).

(b) Words of Certification. The form of certification shall be as follows: I, _____ (Name-print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named. Date:_____ Signature:_____

public entity may require a more strict and/or more extensive form of tification.

OTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1776, Labor Code.

§ 16402. Cost.

The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of sh, check or certified money order shall be made prior to release of the cuments to cover the actual costs of preparation.

NOTE: Authority cited: Section 1776, Labor Code. Reference: Section 1776(b), Labor Code.

§ 16403. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Section 1776, Labor Code.

Article 7. Withholding of Funds from Contractor—Hearing Procedure

§ 16410. Definitions.

As used in these regulations, the terms "awarding body," "contractor," and "subcontractor" shall have the same meaning as in Part 7 of Division 2 of the Labor Code. The term "affected subcontractor" shall mean a subcontractor whose alleged failure to pay the prevailing wage or to otherwise comply with the provisions of Labor Code §§ 1720–1815 resulted in the withholding of funds pursuant to Labor Code § 1727.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New article 7 (sections 16410–16414) and section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following day.
2. New article 7 (sections 16410–16414) and section refiled 6-14-99 as an emergency, operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day.

§ 16411. Notice to Contractor and Affected Subcontractor.

(a) Upon the decision to withhold, retain or forfeit any sum from a payment due to a contractor as permitted by Labor Code § 1727, the Division of Labor Standards Enforcement shall give written notice to the awarding body, the contractor, and to any affected subcontractor, of the withholding, retention, or forfeiture.

(b) Said notice shall include the following information:

(1) The amount to be withheld, retained or forfeited.

(2) A short statement of the factual basis upon which said amount is to be withheld, retained, or forfeited, including, but not limited to, the computation of any wages found to be due, and the computation of any penalties assessed under Labor Code § 1775.

(3) Notice of the right to request a hearing under these regulations, and of the manner in which, and the time within which a hearing must be requested.

(c) Said notice shall be sent by certified mail to the last known address of the contractor, and to the last known address of any affected subcontractor. The records of the State Contractors' License Board may be used to determine the address of a contractor or affected subcontractor.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day.

§ 16412. Withholding, Retention, or Forfeiture.

(a) When notice has been sent as provided in section 16411, above, the awarding body shall proceed to withhold, retain, or forfeit the amount stated in the notice, pursuant to Labor Code § 1727. Such withholding, retention, or forfeiture shall be subject to the right of a contractor or affected subcontractor to request a hearing, as provided in section 16413, below, and further subject to the right of a contractor or a contractor's assignee to bring suit against the awarding body as provided by Labor Code §§ 1731–1733.

(b) Nothing in these regulations shall extend, or affect in any way, the statutory time limits provided by Labor Code §§ 1731–1733.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2-16-99 as an emergency, operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99

or emergency language will be repealed by operation of law on the following day.

2. New section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-1-99 or emergency language will be repealed by operation of law on the following day

§ 16413. Request for Hearing.

(a) A contractor or subcontractor desiring a hearing regarding the withholding, retention, or forfeiture of an amount may request such a hearing by letter postmarked within 30 days of the date of the mailing of the notice provided by section 16411, above, mailed to the awarding body, and to:

DIVISION OF LABOR STANDARDS ENFORCEMENT
LEGAL SECTION
455 GOLDEN GATE AVENUE, 9TH FLOOR
SAN FRANCISCO, CALIFORNIA 94102

(b) A request for hearing shall contain a statement of all factual and legal grounds upon which the withholding is contested, identifying the specific element or elements, issue or issues, being contested, including, but not limited to:

(1) the classification of workers included in the computation of wages found to be due;

(2) the hours worked by such workers;

(3) the prevailing wage requirements applicable to such classifications;

(4) the amounts paid to such workers;

(5) the assessment and computation of statutory penalties;

(6) any erroneous mathematical calculations.

Assertions of fact included in the statement shall be supported by documentary evidence, e.g., time cards, canceled checks, cash receipts, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidence which reflect job assignments, work schedules by days and hours, and evidence of the disbursement by way of cash, check, or in whatever form or manner, of funds to a person or persons by job classification and/or skill, and, if appropriate, declarations under penalty of perjury.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code

HISTORY

1. New section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following day

2. New section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day.

16414. Hearing.

(a) Upon receipt of a timely request for a hearing, the Labor Commissioner, or his or her deputy or agent shall, within 30 days, hold a hearing determine whether reasonable cause exists to withhold and retain the nds identified in the notice provided under section 16411, above.

(b) The hearing date may be continued at the request of the party seeking the hearing upon a showing of good cause.

(c) The burden of proof at such hearing shall be as provided in Labor ode § 1733.

(d) The decision of the Labor Commissioner shall consist of a notice findings, findings, and an order, which shall be served on the awarding dy and all parties to the hearing within 15 days after the conclusion of hearing by regular first class mail at the last known address of the rty on file with the Labor Commissioner. The awarding body shall mptly abide by any decision of the Labor Commissioner with respect the notice to withhold.

(e) The hearing pursuant to this section shall only determine whether asonable cause exists for the withholding, retention, or forfeiture of nds pursuant to Labor Code § 1727. A hearing pursuant to this section ll not be deemed to be dispositive as to the contractor's (or affected tor's) compliance with prevailing wage laws. Any decision rendered shall have no res judicata or collateral estoppel effect, and will not preclude the Labor Commissioner from pursuing any action provided by Labor Code § 1775 or any other statutory or common law remedy against any party. Neither the failure of a party to request a hearing nor the Labor Commissioner's decision after a hearing shall preclude the contractor or affected subcontractor from pursuing any other remedy provided by existing law.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code

HISTORY

2. New section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day

Subchapter 4. Awarding Body Labor Compliance Programs

Article 1. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs

§ 16425. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs.

(a) No contracts shall be subject to LCP jurisdiction nor shall the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) apply to any contract of an awarding body until after the LCP has received initial or final approval under these regulations.

(b) Contracts for which the Date of Notice or the Call for Bids are subsequent to the date of initial or final approval of a LCP are subject to Labor Code Section 1771.5. In the case of a contract for which there is no Call for Bids, the applicable date shall be the date of execution of the contract.

(c) Revocation of approval of a LCP by the Director shall not affect the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) if the date of such revocation is subsequent to the Date of Notice or Call for Bids or, in the case of a contract for which there is no Call for Bids, subsequent to the date of execution of the contract.

(d) If the Director revokes approval of a LCP, the Director shall give notice to the awarding body specifying enforcement responsibilities, including enforcement actions pending hearing, as of the date of revocation.

(e) An awarding body may voluntarily terminate its LCP. With respect to each contract pending on the date of termination, the awarding body shall:

(1) Notify the Director of its intention and the effective date of the termination;

(2) Notify the contractor(s) and the DLSE of the identity of the agent who will carry out the compliance enforcement obligations of Labor Code Section 1771.5 on the remaining contracts; and

(3) Specify the general fund into which penalties or forfeitures withheld from any contract payments shall be deposited.

(f) The Labor Commissioner may, in writing, agree to assume enforcement obligations on pending contracts of an awarding body which has voluntarily terminated its LCP. In such case, penalties and forfeitures shall be deposited in the general fund of the state.

Article 2. Approval and Revocation of Approval of Labor Compliance Programs by Director

§ 16426. Initial Approval.

(a) An awarding body seeking approval of a LCP shall submit evidence of its ability to operate its LCP. Prior to granting approval, the Director shall consider the following factors:

(1) Experience and training of the awarding body's personnel on public works labor compliance issues;

(2) The average number of public works contracts the awarding body annually administers;

(3) Whether the LCP is a joint or cooperative venture among awarding bodies, and how the resources and expanded responsibilities of the LCP compare to the awarding bodies involved;

(4) The awarding body's record of taking cognizance of Labor Code violations and of withholding in the preceding five years;

(5) The availability of legal support for the LCP;

(6) The availability and quality of a manual outlining the responsibilities and procedures of the LCP to the awarding body; and

(7) The method by which the awarding body will transmit notice to the Labor Commissioner of willful violations as defined in Labor Code Section 1777.1(d).

(b) The Director shall notify the awarding body within 30 days of receipt of the request for approval that initial approval is granted and the effective date of initial approval, or that the request is incomplete and of the materials necessary to complete the request or that the request is disapproved for other reasons.

(c) Initial approval of a LCP shall automatically expire one year after approval unless an extension is requested in writing and granted in writing by the Director at least thirty days prior to the anniversary date of the approval. Where necessary to coordinate with the local government's fiscal year or existing public works procedures, initial approval may be for a period up to 18 months.

(d) The Director will maintain a list of all initially approved LCPs for distribution to interested parties upon request.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5, 1771.6 and 1777.1, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13)

§ 16427. Final Approval.

(a) An awarding body which has operated a LCP for 11 continuous months after initial approval may apply to the Director for final approval. The awarding body bears the burden of producing evidence that it meets the criteria in (b).

(b) The Director will grant final approval if the awarding body has satisfactorily demonstrated its ability to monitor compliance with the requirements of the Labor Code and these regulations, and has filed timely, complete, and accurate reports as required by these regulations.

(c) The Director shall notify the awarding body within 30 days of the receipt of a request for final approval that final approval is granted and the effective date of final approval, or that the request for final approval is denied, the reason for the denial and the status of the LCP program.

(d) An awarding body which has received final approval of its LCP may enter into an agreement with the Labor Commissioner which may provide for procedures and for securing approval of forfeitures in a manner different from that set forth in Section 16437, and for alternate procedures for appeals of enforcement actions to the Director.

(e) The Director will maintain a list of all finally approved LCPs, for distribution to interested parties upon request. The Director may agree to alternative reporting formats under Section 16431 of these regulations and shall maintain a list of interested parties who wish notification of alternative reporting formats before adoption.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13)

§ 16428. Revocation of Final Approval.

(a) The Director may revoke final approval of a LCP only after giving due notice to the awarding body, conducting a hearing, and finding cause for revocation.

(1) Cause for revocation of final approval includes, but is not limited to:

(A) Failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take appropriate enforcement action for violations of which it becomes or should have become cognizant;

(B) Failure of the awarding body to file timely, complete, and accurate reports to the Director as required by Section 16431 or elsewhere in these regulations.

(b) Interested parties may request the Director revoke final approval of a LCP. A request for revocation shall include evidence of failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take enforcement action after becoming cognizant of a violation of the Labor Code or these regulations. A request for revocation shall also include any other relevant evidence.

(1) Final approval of a LCP may be revoked by the Director based on a request by an interested party after a proceeding conducted as provided in subdivision (a). A copy of the request for revocation shall be provided to the awarding body as part of the notice required under subdivision (a).

(2) As part of a proceeding for revocation of final approval based on a request by an interested party, the Director may require the awarding body to furnish a supplemental report for the period between the ending date of the last annual report filed by the awarding body pursuant to Section 16431 and the date of notice by the Director, and containing the information listed in subdivision (a) of said Section 16431.

(3) Revocation of final approval of a LCP based on a request by an interested party is solely within the discretion of the Director. The duty of an awarding body to carry out its LCP runs solely to the Director and not to any worker, contractor, or interested party. The sole remedy for failure of an awarding body's duty is revocation of approval by the Director.

(c) Upon determining that the request for revocation will be denied without hearing, the Director shall notify the LCP, awarding body and requesting party of the decision and of the reasons therefore by mail.

(d) Upon determining that a hearing is necessary, the parties will be notified and a hearing on cause for revocation of final LCP approval will be held in accordance with the procedures for notice and hearing proceedings set forth in 8 CCR Section 16304.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13)

Article 3. Notice and Components of LCP

§ 16429. Notice of LCP Approval.

(a) Notice of initial or final approval of an awarding body's LCP shall be given in the Call for Bids and in the contract or purchase order and shall also be posted at the job site. If more than one job site exists or where such posting would endanger public safety, the notice may be posted in the manner prescribed by 8 CCR Section 16100(b).

(b) Notice of an approved LCP shall contain, at the minimum, the effective date of the Director's initial or final approval, a statement that the limited exemption from prevailing wages pursuant to Labor Code Section 1771.5(a) applies to the contract, a telephone number to call for inquiries, questions, or assistance with regard to the LCP, and the name of the agent or office administering the LCP, if different from the awarding body.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

History

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13)

§ 16430. Components of LCP.

(a) In accordance with Labor Code Section 1771.5(b), a LCP shall include, but not be limited to, the following requirements:

(1) The Call for Bids and the contract or purchase order shall contain appropriate language concerning the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(2) A prejob conference shall be conducted before commencement of the work with contractors and subcontractors listed in the bid, at which time federal and state labor law requirements applicable to the contract shall be discussed, and copies of suggested reporting forms furnished. A checklist, showing which federal and state labor law requirements were discussed, shall be kept for each conference. A checklist in the format of Appendix A presumptively meets this requirement;

(3) A requirement that certified payroll records be kept by the contractor in accordance with Labor Code Section 1776 and furnished to the awarding body at times designated in the contract or within 10 days of request by the awarding body. The awarding body may create a form meeting the minimum requirements of (a) hereinafter "Certified Weekly Payroll." Use of the current version of DIR's "Public Works Payroll Reporting Form" (A-1-131) (New 2-80) constitutes full compliance with this requirement by the awarding body. A copy of this suggested form follows Title 8 CCR Section 16500;

(4) A program for orderly review of payroll records and, if necessary, for audits to verify compliance with the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(5) A prescribed routine for withholding penalties, forfeitures, and underpayment of wages for violations of the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(6) All contracts to which prevailing wage requirements apply shall include a provision that contract payments shall not be made when payroll records are delinquent or inadequate.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5(b), Labor Code.

History

1. New section and Appendix filed 2-20-92; operative 3-23-92 (Register 92, No. 13)

Appendix A

Suggested Checklist of Labor Law Requirements to Review at Prejob Conference, Section 16430.

The federal and state labor law requirements applicable to the contract are composed of but not limited to the following items:

[The next page is 1414.3.]

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

§ 16401. Reporting of Payroll Requests.

(a) Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research P.O. Box 603 San Francisco, CA 94101

ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be conditioned upon the requirement that the alternate format contain all of the information required pursuant to Labor Code Section 1776. If, however, the contractor does not comply with the provisions of Labor Code Section 1776, the Labor Commissioner may require the use of DIR's suggested format, "Public Works Payroll Reporting Form" (Form A-1-131).

(b) Words of Certification. The form of certification shall be as follows: I, _____ (Name-print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named. Date:_____Signature:_____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1776, Labor Code.

§ 16402. Cost.

The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

NOTE: Authority cited: Section 1776, Labor Code. Reference: Section 1776(h), Labor Code.

§ 16403. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Section 1776, Labor Code.

Article 7. Withholding of Funds from Contractor—Hearing Procedure

§ 16410. Definitions.

As used in these regulations, the terms "awarding body," "contractor," and "subcontractor" shall have the same meaning as in Part 7 of Division 2 of the Labor Code. The term "affected subcontractor" shall mean a subcontractor whose alleged failure to pay the prevailing wage or to otherwise comply with the provisions of Labor Code §§ 1720–1815 resulted in the withholding of funds pursuant to Labor Code § 1727.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New article 7 (sections 16410–16414) and section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following day.
2. New article 7 (sections 16410–16414) and section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day.
3. New article 7 (sections 16410–16414) and section refiled 10-4-99 as an emergency; operative 10-4-99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2-1-2000 or emergency language will be repealed by operation of law on the following day.

§ 16411. Notice to Contractor and Affected Subcontractor.

(a) Upon the decision to withhold, retain or forfeit any sum from a payment due to a contractor as permitted by Labor Code § 1727, the Division of Labor Standards Enforcement shall give written notice to the awarding body, the contractor, and to any affected subcontractor, of the withholding, retention, or forfeiture.

(b) Said notice shall include the following information:

(1) The amount to be withheld, retained or forfeited.

(2) A short statement of the factual basis upon which said amount is to be withheld, retained, or forfeited, including, but not limited to, the computation of any wages found to be due, and the computation of any penalties assessed under Labor Code § 1775.

(3) Notice of the right to request a hearing under these regulations, and of the manner in which, and the time within which a hearing must be requested.

(c) Said notice shall be sent by certified mail to the last known address of the contractor, and to the last known address of any affected subcontractor. The records of the State Contractors' License Board may be used to determine the address of a contractor or affected subcontractor.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10-4-99 as an emergency; operative 10-4-99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2-1-2000 or emergency language will be repealed by operation of law on the following day.

§ 16412. Withholding, Retention, or Forfeiture.

(a) When notice has been sent as provided in section 16411, above, the awarding body shall proceed to withhold, retain, or forfeit the amount stated in the notice, pursuant to Labor Code § 1727. Such withholding, retention, or forfeiture shall be subject to the right of a contractor or affected subcontractor to request a hearing, as provided in section 16413, below, and further subject to the right of a contractor or a contractor's assignee to bring suit against the awarding body as provided by Labor Code §§ 1731–1733.

(b) Nothing in these regulations shall extend, or affect in any way, the ory time limits provided by Labor Code §§ 1731–1733.

... Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, ...0, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10-4-99 as an emergency; operative 10-4-99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2-1-2000 or emergency language will be repealed by operation of law on the following day.

§ 16413. Request for Hearing.

(a) A contractor or subcontractor desiring a hearing regarding the withholding, retention, or forfeiture of an amount may request such a hearing by letter postmarked within 30 days of the date of the mailing of the notice provided by section 16411, above, mailed to the awarding body, and to:

DIVISION OF LABOR STANDARDS ENFORCEMENT

LEGAL SECTION

455 GOLDEN GATE AVENUE, 9TH FLOOR

SAN FRANCISCO, CALIFORNIA 94102

(b) A request for hearing shall contain a statement of all factual and legal grounds upon which the withholding is contested, identifying the specific element or elements, issue or issues, being contested, including, but not limited to:

(1) the classification of workers included in the computation of wages f... to be due;

...he hours worked by such workers;

... the prevailing wage requirements applicable to such classifica-

(4) the amounts paid to such workers;

(5) the assessment and computation of statutory penalties;

(6) any erroneous mathematical calculations.

Assertions of fact included in the statement shall be supported by documentary evidence, e.g., time cards, canceled checks, cash receipts, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidence which reflect job assignments, work schedules by days and hours, and evidence of the disbursement by way of cash, check, or in ...hatever form or manner, of funds to a person or persons by job classifi... and/or skill, and, if appropriate, declarations under penalty of perjury.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the fo... day.
3. New section refiled 10-4-99 as an emergency; operative 10-4-99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2-1-2000 or emergency language will be repealed by operation of law on the following day.

§ 16414. Hearing.

(a) Upon receipt of a timely request for a hearing, the Labor Commis... or, or his or her deputy or agent shall, within 30 days, hold a hearing ...ermine whether reasonable cause exists to withhold and retain the funds identified in the notice provided under section 16411, above.

(b) The hearing date may be continued at the request of the party seek... he hearing upon a showing of good cause.

(c) The burden of proof at such hearing shall be as provided in Labor Code § 1733.

(d) Within 15 days after the conclusion of the Hearing the Hearing Officer shall issue a decision which affirms, modifies or dismisses the Notice to Withhold. This decision shall consist of a notice of findings, findings, and an order which shall be served on the awarding and on all parties to the hearing by first class mail at the last known address of the party on file with the Labor Commissioner. The awarding body shall promptly abide by any decision of the Labor Commissioner with respect to the notice to withhold.

(e) The hearing pursuant to this section shall only determine whether reasonable cause exists for the withholding, retention, or forfeiture of funds pursuant to Labor Code § 1727. A hearing pursuant to this section shall not be deemed to be dispositive as to the contractor's (or affected subcontractor's) compliance with prevailing wage laws. Any decision rendered shall have no res judicata or collateral estoppel effect, and will not preclude the Labor Commissioner from pursuing any action provided by Labor Code § 1775 or any other statutory or common law remedy against any party. Neither the failure of a party to request a hearing nor the Labor Commissioner's decision after a hearing shall preclude the contractor or affected subcontractor from pursuing any other remedy provided by existing law.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10-4-99 as an emergency, including amendment of subsection (d); operative 10-4-99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2-1-2000 or emergency language will be repealed by operation of law on the following day.

Subchapter 4. Awarding Body Labor Compliance Programs

Article 1. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs

§ 16425. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs.

(a) No contracts shall be subject to LCP jurisdiction nor shall the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) apply to any contract of an awarding body until after the LCP has received initial or final approval under these regulations.

(b) Contracts for which the Date of Notice or the Call for Bids are subsequent to the date of initial or final approval of a LCP are subject to Labor Code Section 1771.5. In the case of a contract for which there is no Call for Bids, the applicable date shall be the date of execution of the contract.

(c) Revocation of approval of a LCP by the Director shall not affect the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) if the date of such revocation is subsequent to the Date of Notice or Call for Bids or, in the case of a contract for which there is no Call for Bids, subsequent to the date of execution of the contract.

(d) If the Director revokes approval of a LCP, the Director shall give notice to the awarding body specifying enforcement responsibilities, including enforcement actions pending hearing, as of the date of revocation.

(c) An awarding body may voluntarily terminate its LCP. With respect to each contract pending on the date of termination, the awarding body shall:

(1) Notify the Director of its intention and the effective date of the termination;

(2) Notify the contractor(s) and the DLSE of the identity of the agent who will carry out the compliance enforcement obligations of Labor Code Section 1771.5 on the remaining contracts; and

(3) Specify the general fund into which penalties or forfeitures withheld from any contract payments shall be deposited.

(f) The Labor Commissioner may, in writing, agree to assume enforcement obligations on pending contracts of an awarding body which has voluntarily terminated its LCP. In such case, penalties and forfeitures shall be deposited in the general fund of the state.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13). For prior history of subchapter 4 (sections 16209-16209.6), see Register 82, No. 51.

Article 2. Approval and Revocation of Approval of Labor Compliance Programs by Director

§ 16426. Initial Approval.

(a) An awarding body seeking approval of a LCP shall submit evidence of its ability to operate its LCP. Prior to granting approval, the Director shall consider the following factors:

(1) Experience and training of the awarding body's personnel on public works labor compliance issues;

(2) The average number of public works contracts the awarding body annually administers;

(3) Whether the LCP is a joint or cooperative venture among awarding bodies, and how the resources and expanded responsibilities of the LCP compare to the awarding bodies involved;

(4) The awarding body's record of taking cognizance of Labor Code violations and of withholding in the preceding five years;

(5) The availability of legal support for the LCP;

(6) The availability and quality of a manual outlining the responsibilities and procedures of the LCP to the awarding body; and

(7) The method by which the awarding body will transmit notice to the Labor Commissioner of willful violations as defined in Labor Code Section 1777.1(d).

(b) The Director shall notify the awarding body within 30 days of receipt of the request for approval that initial approval is granted and the effective date of initial approval, or that the request is incomplete and of the materials necessary to complete the request or that the request is disapproved for other reasons.

(c) Initial approval of a LCP shall automatically expire one year after approval unless an extension is requested in writing and granted in writing by the Director at least thirty days prior to the anniversary date of the approval. Where necessary to coordinate with the local government's fiscal year or existing public works procedures, initial approval may be for a period up to 18 months.

(d) The Director will maintain a list of all initially approved LCPs for distribution to interested parties upon request.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5, 1771.6 and 1777.1, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16427. Final Approval.

(a) An awarding body which has operated a LCP for 11 continuous months after initial approval may apply to the Director for final approval. The awarding body bears the burden of producing evidence that it meets the criteria in (b).

(b) The Director will grant final approval if the awarding body has satisfactorily demonstrated its ability to monitor compliance with the requirements of the Labor Code and these regulations, and has filed timely, complete, and accurate reports as required by these regulations.

(c) The Director shall notify the awarding body within 30 days of the receipt of a request for final approval that final approval is granted and the effective date of final approval, or that the request for final approval is denied, the reason for the denial and the status of the LCP program.

(d) An awarding body which has received final approval of its LCP may enter into an agreement with the Labor Commissioner which may provide for procedures and for securing approval of forfeitures in a manner different from that set forth in Section 16437, and for alternate procedures for appeals of enforcement actions to the Director.

(e) The Director will maintain a list of all finally approved LCPs, for distribution to interested parties upon request. The Director may agree to alternative reporting formats under Section 16431 of these regulations and shall maintain a list of interested parties who wish notification of alternative reporting formats before adoption.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16428. Revocation of Final Approval.

(a) The Director may revoke final approval of a LCP only after giving due notice to the awarding body, conducting a hearing, and finding cause for revocation.

(1) Cause for revocation of final approval includes, but is not limited to:

(A) Failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take appropriate enforcement action for violations of which it becomes or should have become cognizant;

(B) Failure of the awarding body to file timely, complete, and accurate reports to the Director as required by Section 16431 or elsewhere in these regulations.

(b) Interested parties may request the Director revoke final approval of a LCP. A request for revocation shall include evidence of failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take enforcement action after becoming cognizant of a violation of the Labor Code or these regulations. A request for revocation shall also include any other relevant evidence.

(1) Final approval of a LCP may be revoked by the Director based on a request by an interested party after a proceeding conducted as provided in subdivision (a). A copy of the request for revocation shall be provided to the awarding body as part of the notice required under subdivision (a).

(2) As part of a proceeding for revocation of final approval based on a request by an interested party, the Director may require the awarding body to furnish a supplemental report for the period between the ending date of the last annual report filed by the awarding body pursuant to Section 16431 and the date of notice by the Director, and containing the information listed in subdivision (a) of said Section 16431.

(3) Revocation of final approval of a LCP based on a request by an interested party is solely within the discretion of the Director. The duty of an awarding body to carry out its LCP runs solely to the Director and not to any worker, contractor, or interested party. The sole remedy for failure of an awarding body's duty is revocation of approval by the Director.

(c) Upon determining that the request for revocation will be denied without hearing, the Director shall notify the LCP, awarding body and requesting party of the decision and of the reasons therefore by mail.

(d) Upon determining that a hearing is necessary, the parties will be notified and a hearing on cause for revocation of final LCP approval will be held in accordance with the procedures for notice and hearing proceedings set forth in 8 CCR Section 16304.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

Article 3. Notice and Components of LCP

§ 16429. Notice of LCP Approval.

(a) Notice of initial or final approval of an awarding body's LCP shall be given in the Call for Bids and in the contract or purchase order and shall also be posted at the job site. If more than one job site exists or where such posting would endanger public safety, the notice may be posted in the manner prescribed by 8 CCR Section 16100(b).

(b) Notice of an approved LCP shall contain, at the minimum, the effective date of the Director's initial or final approval, a statement that the limited exemption from prevailing wages pursuant to Labor Code Section 1771.5(a) applies to the contract, a telephone number to call for inquiries, questions, or assistance with regard to the LCP, and the name of the agent or office administering the LCP, if different from the awarding body.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16430. Components of LCP.

(a) In accordance with Labor Code Section 1771.5(b), a LCP shall include, but not be limited to, the following requirements:

(1) The Call for Bids and the contract or purchase order shall contain appropriate language concerning the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(2) A prejob conference shall be conducted before commencement of the work with contractors and subcontractors listed in the bid, at which time federal and state labor law requirements applicable to the contract shall be discussed, and copies of suggested reporting forms furnished. A checklist, showing which federal and state labor law requirements were discussed, shall be kept for each conference. A checklist in the format of Appendix A presumptively meets this requirement;

(3) A requirement that certified payroll records be kept by the contractor in accordance with Labor Code Section 1776 and furnished to the awarding body at times designated in the contract or within 10 days of request by the awarding body. The awarding body may create a form meeting the minimum requirements of (a) hereinafter "Certified Weekly Payroll." Use of the current version of DIR's "Public Works Payroll Reporting Form" (A-1-131) (New 2-80) constitutes full compliance with this requirement by the awarding body. A copy of this suggested form follows Title 8 CCR Section 16500;

(4) A program for orderly review of payroll records and, if necessary, for audits to verify compliance with the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(5) A prescribed routine for withholding penalties, forfeitures, and underpayment of wages for violations of the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(6) All contracts to which prevailing wage requirements apply shall include a provision that contract payments shall not be made when payroll records are delinquent or inadequate.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5(b), Labor Code.

HISTORY

1. New section and Appendix filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

Appendix A

Suggested Checklist of Labor Law Requirements to Review at Prejob Conference, Section 16430.

The federal and state labor law requirements applicable to the contract are composed of but not limited to the following items:

[The next page is 1414.3.]

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

§ 16401. Reporting of Payroll Requests.

(a) Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research P.O. Box 603 San Francisco, CA 94101

ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be conditioned upon the requirement that the alternate format contain all of the information required pursuant to Labor Code Section 1776. If, however, the contractor does not comply with the provisions of Labor Code Section 1776, the Labor Commissioner may require the use of DIR's suggested format, "Public Works Payroll Reporting Form" (Form A-1-131).

(b) Words of Certification. The form of certification shall be as follows: I, _____ (Name-print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named. Date:_____Signature:_____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1776, Labor Code.

§ 16402. Cost.

The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

NOTE: Authority cited: Section 1776, Labor Code. Reference: Section 1776(h), Labor Code.

§ 16403. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Section 1776, Labor Code.

Article 7. Withholding of Funds from Contractor—Hearing Procedure

§ 16410. Definitions.

As used in these regulations, the terms "awarding body," "contractor," and "subcontractor" shall have the same meaning as in Part 7 of Division 2 of the Labor Code. The term "affected subcontractor" shall mean a subcontractor whose alleged failure to pay the prevailing wage or to otherwise comply with the provisions of Labor Code §§ 1720–1815 resulted in the withholding of funds pursuant to Labor Code § 1727.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New article 7 (sections 16410–16414) and section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.
2. New article 7 (sections 16410–16414) and section refiled 6–14–99 as an emergency; operative 6–14–99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–12–99 or emergency language will be repealed by operation of law on the following day.
3. New article 7 (sections 16410–16414) and section refiled 10–4–99 as an emergency; operative 10–4–99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–1–2000 or emergency language will be repealed by operation of law on the following day.
4. New article 7 (sections 16410–16414) and section refiled 1–20–2000 as an emergency; operative 2–2–2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6–1–2000 or emergency language will be repealed by operation of law on the following day.

§ 16411. Notice to Contractor and Affected Subcontractor.

(a) Upon the decision to withhold, retain or forfeit any sum from a payment due to a contractor as permitted by Labor Code § 1727, the Division of Labor Standards Enforcement shall give written notice to the awarding body, the contractor, and to any affected subcontractor, of the withholding, retention, or forfeiture.

(b) Said notice shall include the following information:

(1) The amount to be withheld, retained or forfeited.

(2) A short statement of the factual basis upon which said amount is to be withheld, retained, or forfeited, including, but not limited to, the computation of any wages found to be due, and the computation of any penalties assessed under Labor Code § 1775.

(3) Notice of the right to request a hearing under these regulations, and of the manner in which, and the time within which a hearing must be requested.

(c) Said notice shall be sent by certified mail to the last known address of the contractor, and to the last known address of any affected subcontractor. The records of the State Contractors' License Board may be used to determine the address of a contractor or affected subcontractor.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6–14–99 as an emergency; operative 6–14–99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–12–99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10–4–99 as an emergency; operative 10–4–99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–1–2000 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–20–2000 as an emergency; operative 2–2–2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6–1–2000 or emergency language will be repealed by operation of law on the following day.

§ 16412. Withholding, Retention, or Forfeiture.

(a) When notice has been sent as provided in section 16411, above, the awarding body shall proceed to withhold, retain, or forfeit the amount

stated in the notice, pursuant to Labor Code § 1727. Such withholding, retention, or forfeiture shall be subject to the right of a contractor or affected subcontractor to request a hearing, as provided in section 16413, below, and further subject to the right of a contractor or a contractor's assignee to bring suit against the awarding body as provided by Labor Code §§ 1731–1733.

(b) Nothing in these regulations shall extend, or affect in any way, the statutory time limits provided by Labor Code §§ 1731–1733.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6–14–99 as an emergency; operative 6–14–99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–12–99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10–4–99 as an emergency; operative 10–4–99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–1–2000 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–20–2000 as an emergency; operative 2–2–2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6–1–2000 or emergency language will be repealed by operation of law on the following day.

§ 16413. Request for Hearing.

(a) A contractor or subcontractor desiring a hearing regarding the withholding, retention, or forfeiture of an amount may request such a hearing by letter postmarked within 30 days of the date of the mailing of the notice provided by section 16411, above, mailed to the awarding body, and to:

DIVISION OF LABOR STANDARDS ENFORCEMENT
LEGAL SECTION
455 GOLDEN GATE AVENUE, 9TH FLOOR
SAN FRANCISCO, CALIFORNIA 94102

(b) A request for hearing shall contain a statement of all factual and legal grounds upon which the withholding is contested, identifying the specific element or elements, issue or issues, being contested, including, but not limited to:

(1) the classification of workers included in the computation of wages found to be due;

(2) the hours worked by such workers;

(3) the prevailing wage requirements applicable to such classifications;

(4) the amounts paid to such workers;

(5) the assessment and computation of statutory penalties;

(6) any erroneous mathematical calculations.

Assertions of fact included in the statement shall be supported by documentary evidence, e.g., time cards, canceled checks, cash receipts, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidence which reflect job assignments, work schedules by days and hours, and evidence of the disbursement by way of cash, check, or in whatever form or manner, of funds to a person or persons by job classification and/or skill, and, if appropriate, declarations under penalty of perjury.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6–14–99 as an emergency; operative 6–14–99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–12–99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10–4–99 as an emergency; operative 10–4–99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–1–2000 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–20–2000 as an emergency; operative 2–2–2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6–1–2000 or emergency language will be repealed by operation of law on the following day.

§ 16414. Hearing.

(a) Upon receipt of a timely request for a hearing, the Labor Commissioner, or his or her deputy or agent shall, within 30 days, hold a hearing to determine whether reasonable cause exists to withhold and retain the funds identified in the notice provided under section 16411, above.

(b) The hearing date may be continued at the request of the party seeking the hearing upon a showing of good cause.

(c) The burden of proof at such hearing shall be as provided in Labor Code § 1733.

(d) Within 15 days after the conclusion of the Hearing the Hearing Officer shall issue a decision which affirms, modifies or dismisses the Notice to Withhold. This decision shall consist of a notice of findings, findings, and an order which shall be served on the awarding and on all parties to the hearing by first class mail at the last known address of the party on file with the Labor Commissioner. The awarding body shall promptly abide by any decision of the Labor Commissioner with respect to the notice to withhold.

(e) The hearing pursuant to this section shall only determine whether reasonable cause exists for the withholding, retention, or forfeiture of funds pursuant to Labor Code § 1727. A hearing pursuant to this section shall not be deemed to be dispositive as to the contractor's (or affected subcontractor's) compliance with prevailing wage laws. Any decision rendered shall have no res judicata or collateral estoppel effect, and will not preclude the Labor Commissioner from pursuing any action provided by Labor Code § 1775 or any other statutory or common law remedy against any party. Neither the failure of a party to request a hearing nor the Labor Commissioner's decision after a hearing shall preclude the contractor or affected subcontractor from pursuing any other remedy provided by existing law.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6–14–99 as an emergency; operative 6–14–99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–12–99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10–4–99 as an emergency, including amendment of subsection (d); operative 10–4–99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–1–2000 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–20–2000 as an emergency; operative 2–2–2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6–1–2000 or emergency language will be repealed by operation of law on the following day.

Subchapter 4. Awarding Body Labor Compliance Programs

Article 1. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs

§ 16425. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs.

(a) No contracts shall be subject to LCP jurisdiction nor shall the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) apply to any contract of an awarding body until after the LCP has received initial or final approval under these regulations.

(b) Contracts for which the Date of Notice or the Call for Bids are subsequent to the date of initial or final approval of a LCP are subject to Labor Code Section 1771.5. In the case of a contract for which there is no Call for Bids, the applicable date shall be the date of execution of the contract.

(c) Revocation of approval of a LCP by the Director shall not affect the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) if the date of such revocation is subsequent to the Date of Notice or Call for Bids or, in the case of a contract for which there is no Call for Bids, subsequent to the date of execution of the contract.

(d) If the Director revokes approval of a LCP, the Director shall give notice to the awarding body specifying enforcement responsibilities, including enforcement actions pending hearing, as of the date of revocation.

(e) An awarding body may voluntarily terminate its LCP. With respect to each contract pending on the date of termination, the awarding body shall:

(1) Notify the Director of its intention and the effective date of the termination;

(2) Notify the contractor(s) and the DLSE of the identity of the agent who will carry out the compliance enforcement obligations of Labor Code Section 1771.5 on the remaining contracts; and

(3) Specify the general fund into which penalties or forfeitures withheld from any contract payments shall be deposited.

(f) The Labor Commissioner may, in writing, agree to assume enforcement obligations on pending contracts of an awarding body which has voluntarily terminated its LCP. In such case, penalties and forfeitures shall be deposited in the general fund of the state.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13). For prior history of subchapter 4 (sections 16209-16209.6), see Register 82, No. 51.

Article 2. Approval and Revocation of Approval of Labor Compliance Programs by Director

§ 16426. Initial Approval.

(a) An awarding body seeking approval of a LCP shall submit evidence of its ability to operate its LCP. Prior to granting approval, the Director shall consider the following factors:

(1) Experience and training of the awarding body's personnel on public works labor compliance issues;

(2) The average number of public works contracts the awarding body annually administers;

(3) Whether the LCP is a joint or cooperative venture among awarding bodies, and how the resources and expanded responsibilities of the LCP compare to the awarding bodies involved;

(4) The awarding body's record of taking cognizance of Labor Code violations and of withholding in the preceding five years;

(5) The availability of legal support for the LCP;

(6) The availability and quality of a manual outlining the responsibilities and procedures of the LCP to the awarding body; and

(7) The method by which the awarding body will transmit notice to the Labor Commissioner of willful violations as defined in Labor Code Section 1777.1(d).

(b) The Director shall notify the awarding body within 30 days of receipt of the request for approval that initial approval is granted and the effective date of initial approval, or that the request is incomplete and of the materials necessary to complete the request or that the request is disapproved for other reasons.

(c) Initial approval of a LCP shall automatically expire one year after approval unless an extension is requested in writing and granted in writing by the Director at least thirty days prior to the anniversary date of the approval. Where necessary to coordinate with the local government's fiscal year or existing public works procedures, initial approval may be for a period up to 18 months.

(d) The Director will maintain a list of all initially approved LCPs for distribution to interested parties upon request.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5, 1771.6 and 1777.1, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16427. Final Approval.

(a) An awarding body which has operated a LCP for 11 continuous months after initial approval may apply to the Director for final approval. The awarding body bears the burden of producing evidence that it meets the criteria in (b).

(b) The Director will grant final approval if the awarding body has satisfactorily demonstrated its ability to monitor compliance with the requirements of the Labor Code and these regulations, and has filed timely, complete, and accurate reports as required by these regulations.

(c) The Director shall notify the awarding body within 30 days of the receipt of a request for final approval that final approval is granted and the effective date of final approval, or that the request for final approval is denied, the reason for the denial and the status of the LCP program.

(d) An awarding body which has received final approval of its LCP may enter into an agreement with the Labor Commissioner which may provide for procedures and for securing approval of forfeitures in a manner different from that set forth in Section 16437, and for alternate procedures for appeals of enforcement actions to the Director.

(e) The Director will maintain a list of all finally approved LCPs, for distribution to interested parties upon request. The Director may agree to alternative reporting formats under Section 16431 of these regulations and shall maintain a list of interested parties who wish notification of alternative reporting formats before adoption.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16428. Revocation of Final Approval.

(a) The Director may revoke final approval of a LCP only after giving due notice to the awarding body, conducting a hearing, and finding cause for revocation.

(1) Cause for revocation of final approval includes, but is not limited to:

(A) Failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take appropriate enforcement action for violations of which it becomes or should have become cognizant;

(B) Failure of the awarding body to file timely, complete, and accurate reports to the Director as required by Section 16431 or elsewhere in these regulations.

(b) Interested parties may request the Director revoke final approval of a LCP. A request for revocation shall include evidence of failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take enforcement action after becoming cognizant of a violation of the Labor Code or these regulations. A request for revocation shall also include any other relevant evidence.

(1) Final approval of a LCP may be revoked by the Director based on a request by an interested party after a proceeding conducted as provided in subdivision (a). A copy of the request for revocation shall be provided to the awarding body as part of the notice required under subdivision (a).

(2) As part of a proceeding for revocation of final approval based on a request by an interested party, the Director may require the awarding body to furnish a supplemental report for the period between the ending date of the last annual report filed by the awarding body pursuant to Section 16431 and the date of notice by the Director, and containing the information listed in subdivision (a) of said Section 16431.

(3) Revocation of final approval of a LCP based on a request by an interested party is solely within the discretion of the Director. The duty of an awarding body to carry out its LCP runs solely to the Director and not to any worker, contractor, or interested party. The sole remedy for failure of an awarding body's duty is revocation of approval by the Director.

(c) Upon determining that the request for revocation will be denied without hearing, the Director shall notify the LCP, awarding body and requesting party of the decision and of the reasons therefore by mail.

(d) Upon determining that a hearing is necessary, the parties will be notified and a hearing on cause for revocation of final LCP approval will be held in accordance with the procedures for notice and hearing proceedings set forth in 8 CCR Section 16304.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Article 3. Notice and Components of LCP

§ 16429. Notice of LCP Approval.

(a) Notice of initial or final approval of an awarding body's LCP shall be given in the Call for Bids and in the contract or purchase order and shall also be posted at the job site. If more than one job site exists or where such posting would endanger public safety, the notice may be posted in the manner prescribed by 8 CCR Section 16100(b).

(b) Notice of an approved LCP shall contain, at the minimum, the effective date of the Director's initial or final approval, a statement that the limited exemption from prevailing wages pursuant to Labor Code Section 1771.5(a) applies to the contract, a telephone number to call for inquiries, questions, or assistance with regard to the LCP, and the name of the agent or office administering the LCP, if different from the awarding body.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16430. Components of LCP.

(a) In accordance with Labor Code Section 1771.5(b), a LCP shall include, but not be limited to, the following requirements:

(1) The Call for Bids and the contract or purchase order shall contain appropriate language concerning the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(2) A prejob conference shall be conducted before commencement of the work with contractors and subcontractors listed in the bid, at which time federal and state labor law requirements applicable to the contract shall be discussed, and copies of suggested reporting forms furnished. A checklist, showing which federal and state labor law requirements were discussed, shall be kept for each conference. A checklist in the format of Appendix A presumptively meets this requirement;

(3) A requirement that certified payroll records be kept by the contractor in accordance with Labor Code Section 1776 and furnished to the awarding body at times designated in the contract or within 10 days of request by the awarding body. The awarding body may create a form meeting the minimum requirements of (a) hereinafter "Certified Weekly Payroll." Use of the current version of DIR's "Public Works Payroll Reporting Form" (A–1–131) (New 2–80) constitutes full compliance with this requirement by the awarding body. A copy of this suggested form follows Title 8 CCR Section 16500;

(4) A program for orderly review of payroll records and, if necessary, for audits to verify compliance with the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(5) A prescribed routine for withholding penalties, forfeitures, and underpayment of wages for violations of the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(6) All contracts to which prevailing wage requirements apply shall include a provision that contract payments shall not be made when payroll records are delinquent or inadequate.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5(b), Labor Code.

HISTORY

1. New section and Appendix filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Appendix A

Suggested Checklist of Labor Law Requirements to Review at Prejob Conference, Section 16430.

The federal and state labor law requirements applicable to the contract are composed of but not limited to the following items:

[The next page is 1414.3.]

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

§ 16401. Reporting of Payroll Requests.

(a) Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research P.O. Box 603 San Francisco, CA 94101

ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be conditioned upon the requirement that the alternate format contain all of the information required pursuant to Labor Code Section 1776. If, however, the contractor does not comply with the provisions of Labor Code Section 1776, the Labor Commissioner may require the use of DIR's suggested format, "Public Works Payroll Reporting Form" (Form A-1-131).

(b) Words of Certification. The form of certification shall be as follows: I, _____ (Name-print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named. Date:_____Signature:_____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1776, Labor Code.

§ 16402. Cost.

The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

NOTE: Authority cited: Section 1776, Labor Code. Reference: Section 1776(h), Labor Code.

§ 16403. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Section 1776, Labor Code.

Article 7. Withholding of Funds from Contractor—Hearing Procedure

§ 16410. Definitions.

As used in these regulations, the terms "awarding body," "contractor," and "subcontractor" shall have the same meaning as in Part 7 of Division 2 of the Labor Code. The term "affected subcontractor" shall mean a subcontractor whose alleged failure to pay the prevailing wage or to otherwise comply with the provisions of Labor Code §§ 1720–1815 resulted in the withholding of funds pursuant to Labor Code § 1727.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New article 7 (sections 16410–16414) and section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.
2. New article 7 (sections 16410–16414) and section refiled 6–14–99 as an emergency; operative 6–14–99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–12–99 or emergency language will be repealed by operation of law on the following day.
3. New article 7 (sections 16410–16414) and section refiled 10–4–99 as an emergency; operative 10–4–99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–1–2000 or emergency language will be repealed by operation of law on the following day.
4. New article 7 (sections 16410–16414) and section refiled 1–20–2000 as an emergency; operative 2–2–2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6–1–2000 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–20–2000 order transmitted to OAL 3–29–2000 and filed 5–4–2000 (Register 2000, No. 18).

§ 16411. Notice to Contractor and Affected Subcontractor.

(a) Upon the decision to withhold, retain or forfeit any sum from a payment due to a contractor as permitted by Labor Code § 1727, the Division of Labor Standards Enforcement shall give written notice to the awarding body, the contractor, and to any affected subcontractor, of the withholding, retention, or forfeiture.

(b) Said notice shall include the following information:

(1) The amount to be withheld, retained or forfeited.

(2) A short statement of the factual basis upon which said amount is to be withheld, retained, or forfeited, including, but not limited to, the computation of any wages found to be due, and the computation of any penalties assessed under Labor Code § 1775.

(3) Notice of the right to request a hearing under these regulations, and of the manner in which, and the time within which a hearing must be requested.

(c) Said notice shall be sent by certified mail to the last known address of the contractor, and to the last known address of any affected subcontractor. The records of the State Contractors' License Board may be used to determine the address of a contractor or affected subcontractor.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6–14–99 as an emergency; operative 6–14–99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–12–99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10–4–99 as an emergency; operative 10–4–99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–1–2000 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–20–2000 as an emergency; operative 2–2–2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6–1–2000 or emergency language will be repealed by operation of law on the following day.

5. Certificate of Compliance as to 1-20-2000 order transmitted to OAL 3-29-2000 and filed 5-4-2000 (Register 2000, No. 18).

§ 16412. Withholding, Retention, or Forfeiture.

(a) When notice has been sent as provided in section 16411, above, the awarding body shall proceed to withhold, retain, or forfeit the amount stated in the notice, pursuant to Labor Code § 1727. Such withholding, retention, or forfeiture shall be subject to the right of a contractor or affected subcontractor to request a hearing, as provided in section 16413, below, and further subject to the right of a contractor or a contractor's assignee to bring suit against the awarding body as provided by Labor Code §§ 1731–1733.

(b) Nothing in these regulations shall extend, or affect in any way, the statutory time limits provided by Labor Code §§ 1731–1733.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10-4-99 as an emergency; operative 10-4-99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2-1-2000 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1-20-2000 as an emergency; operative 2-2-2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6-1-2000 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1-20-2000 order transmitted to OAL 3-29-2000 and filed 5-4-2000 (Register 2000, No. 18).

§ 16413. Request for Hearing.

(a) A contractor or subcontractor desiring a hearing regarding the withholding, retention, or forfeiture of an amount may request such a hearing by letter postmarked within 30 days of the date of the mailing of the notice provided by section 16411, above, mailed to the awarding body, and to:

DIVISION OF LABOR STANDARDS ENFORCEMENT
LEGAL SECTION
455 GOLDEN GATE AVENUE, 9TH FLOOR
SAN FRANCISCO, CALIFORNIA 94102

(b) A request for hearing shall contain a statement of all factual and legal grounds upon which the withholding is contested, identifying the specific element or elements, issue or issues, being contested, including, but not limited to:

(1) the classification of workers included in the computation of wages found to be due;

(2) the hours worked by such workers;

(3) the prevailing wage requirements applicable to such classifications;

(4) the amounts paid to such workers;

(5) the assessment and computation of statutory penalties;

(6) any erroneous mathematical calculations.

Assertions of fact included in the statement shall be supported by documentary evidence, e.g., time cards, canceled checks, cash receipts, trust and forms, books, documents, schedules, forms, reports, receipts or other evidence which reflect job assignments, work schedules by days and overtime evidence of the disbursement by way of cash, check, or in whatever form or manner, of funds to a person or persons by job classification and/or skill, and, if appropriate, declarations under penalty of perjury.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10-4-99 as an emergency; operative 10-4-99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2-1-2000 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1-20-2000 as an emergency; operative 2-2-2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6-1-2000 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1-20-2000 order transmitted to OAL 3-29-2000 and filed 5-4-2000 (Register 2000, No. 18).

§ 16414. Hearing.

(a) Upon receipt of a timely request for a hearing, the Labor Commissioner, or his or her deputy or agent shall, within 30 days, hold a hearing to determine whether reasonable cause exists to withhold and retain the funds identified in the notice provided under section 16411, above.

(b) The hearing date may be continued at the request of the party seeking the hearing upon a showing of good cause.

(c) The burden of proof at such hearing shall be as provided in Labor Code § 1733.

(d) Within 15 days after the conclusion of the Hearing the Hearing Officer shall issue a decision which affirms, modifies or dismisses the Notice to Withhold. This decision shall consist of a notice of findings, findings, and an order which shall be served on the awarding body and on all parties to the hearing by first class mail at the last known address of the parties on file with the Labor Commissioner. The awarding body shall promptly abide by any decision of the Labor Commissioner with respect to the notice to withhold.

(e) The hearing pursuant to this section shall only determine whether reasonable cause exists for the withholding, retention, or forfeiture of funds pursuant to Labor Code § 1727. A hearing pursuant to this section shall not be deemed to be dispositive as to the contractor's (or affected subcontractor's) compliance with prevailing wage laws. Any decision rendered shall have no res judicata or collateral estoppel effect, and will not preclude the Labor Commissioner from pursuing any action provided by Labor Code § 1775 or any other statutory or common law remedy against any party. Neither the failure of a party to request a hearing nor the Labor Commissioner's decision after a hearing shall preclude the contractor or affected subcontractor from pursuing any other remedy provided by existing law.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2-16-99 as an emergency; operative 2-16-99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6-16-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10-4-99 as an emergency, including amendment of subsection (d); operative 10-4-99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2-1-2000 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1-20-2000 as an emergency; operative 2-2-2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6-1-2000 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1-20-2000 order, including amendment of subsection (d), transmitted to OAL 3-29-2000 and filed 5-4-2000 (Register 2000, No. 18).

Subchapter 4. Awarding Body Labor Compliance Programs

Article 1. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs

§ 16425. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs.

(a) No contracts shall be subject to LCP jurisdiction nor shall the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) apply to any contract of an awarding body until after the LCP has received initial or final approval under these regulations.

(b) Contracts for which the Date of Notice or the Call for Bids are subsequent to the date of initial or final approval of a LCP are subject to Labor Code Section 1771.5. In the case of a contract for which there is no Call for Bids, the applicable date shall be the date of execution of the contract.

(c) Revocation of approval of a LCP by the Director shall not affect the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) if the date of such revocation is subsequent to the Date of Notice or Call for Bids or, in the case of a contract for which there is no Call for Bids, subsequent to the date of execution of the contract.

(d) If the Director revokes approval of a LCP, the Director shall give notice to the awarding body specifying enforcement responsibilities, including enforcement actions pending hearing, as of the date of revocation.

(e) An awarding body may voluntarily terminate its LCP. With respect to each contract pending on the date of termination, the awarding body shall:

(1) Notify the Director of its intention and the effective date of the termination;

(2) Notify the contractor(s) and the DLSE of the identity of the agent who will carry out the compliance enforcement obligations of Labor Code Section 1771.5 on the remaining contracts; and

(3) Specify the general fund into which penalties or forfeitures withheld from any contract payments shall be deposited.

(f) The Labor Commissioner may, in writing, agree to assume enforcement obligations on pending contracts of an awarding body which has voluntarily terminated its LCP. In such case, penalties and forfeitures shall be deposited in the general fund of the state.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13). For prior history of subchapter 4 (sections 16209-16209.6), see Register 82, No. 51.

Article 2. Approval and Revocation of Approval of Labor Compliance Programs by Director

§ 16426. Initial Approval.

(a) An awarding body seeking approval of a LCP shall submit evidence of its ability to operate its LCP. Prior to granting approval, the Director shall consider the following factors:

(1) Experience and training of the awarding body's personnel on public works labor compliance issues;

(2) The average number of public works contracts the awarding body annually administers;

(3) Whether the LCP is a joint or cooperative venture among awarding bodies, and how the resources and expanded responsibilities of the LCP compare to the awarding bodies involved;

(4) The awarding body's record of taking cognizance of Labor Code violations and of withholding in the preceding five years;

(5) The availability of legal support for the LCP;

(6) The availability and quality of a manual outlining the responsibilities and procedures of the LCP to the awarding body; and

(7) The method by which the awarding body will transmit notice to the Labor Commissioner of willful violations as defined in Labor Code Section 1777.1(d).

(b) The Director shall notify the awarding body within 30 days of receipt of the request for approval that initial approval is granted and the effective date of initial approval, or that the request is incomplete and of the materials necessary to complete the request or that the request is disapproved for other reasons.

(c) Initial approval of a LCP shall automatically expire one year after approval unless an extension is requested in writing and granted in writing by the Director at least thirty days prior to the anniversary date of the approval. Where necessary to coordinate with the local government's fiscal year or existing public works procedures, initial approval may be for a period up to 18 months.

(d) The Director will maintain a list of all initially approved LCPs for distribution to interested parties upon request.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5, 1771.6 and 1777.1, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16427. Final Approval.

(a) An awarding body which has operated a LCP for 11 continuous months after initial approval may apply to the Director for final approval. The awarding body bears the burden of producing evidence that it meets the criteria in (b).

(b) The Director will grant final approval if the awarding body has satisfactorily demonstrated its ability to monitor compliance with the requirements of the Labor Code and these regulations, and has filed timely, complete, and accurate reports as required by these regulations.

(c) The Director shall notify the awarding body within 30 days of the receipt of a request for final approval that final approval is granted and the effective date of final approval, or that the request for final approval is denied, the reason for the denial and the status of the LCP program.

(d) An awarding body which has received final approval of its LCP may enter into an agreement with the Labor Commissioner which may provide for procedures and for securing approval of forfeitures in a manner different from that set forth in Section 16437, and for alternate procedures for appeals of enforcement actions to the Director.

(e) The Director will maintain a list of all finally approved LCPs, for distribution to interested parties upon request. The Director may agree to alternative reporting formats under Section 16431 of these regulations and shall maintain a list of interested parties who wish notification of alternative reporting formats before adoption.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16428. Revocation of Final Approval.

(a) The Director may revoke final approval of a LCP only after giving due notice to the awarding body, conducting a hearing, and finding cause for revocation.

(1) Cause for revocation of final approval includes, but is not limited to:

(A) Failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take appropriate enforcement action for violations of which it becomes or should have become cognizant;

(B) Failure of the awarding body to file timely, complete, and accurate reports to the Director as required by Section 16431 or elsewhere in these regulations.

(b) Interested parties may request the Director revoke final approval of a LCP. A request for revocation shall include evidence of failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take enforcement action after becoming cognizant of a violation of the Labor Code or these regulations. A request for revocation shall also include any other relevant evidence.

(1) Final approval of a LCP may be revoked by the Director based on a request by an interested party after a proceeding conducted as provided in subdivision (a). A copy of the request for revocation shall be provided to the awarding body as part of the notice required under subdivision (a).

(2) As part of a proceeding for revocation of final approval based on a request by an interested party, the Director may require the awarding body to furnish a supplemental report for the period between the ending date of the last annual report filed by the awarding body pursuant to Section 16431 and the date of notice by the Director, and containing the information listed in subdivision (a) of said Section 16431.

(3) Revocation of final approval of a LCP based on a request by an interested party is solely within the discretion of the Director. The duty of an awarding body to carry out its LCP runs solely to the Director and not to any worker, contractor, or interested party. The sole remedy for failure of an awarding body's duty is revocation of approval by the Director.

(c) Upon determining that the request for revocation will be denied without hearing, the Director shall notify the LCP, awarding body and requesting party of the decision and of the reasons therefore by mail.

(d) Upon determining that a hearing is necessary, the parties will be notified and a hearing on cause for revocation of final LCP approval will be held in accordance with the procedures for notice and hearing proceedings set forth in 8 CCR Section 16304.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

Article 3. Notice and Components of LCP

§ 16429. Notice of LCP Approval.

(a) Notice of initial or final approval of an awarding body's LCP shall be given in the Call for Bids and in the contract or purchase order and shall also be posted at the job site. If more than one job site exists or where such posting would endanger public safety, the notice may be posted in the manner prescribed by 8 CCR Section 16100(b).

(b) Notice of an approved LCP shall contain, at the minimum, the effective date of the Director's initial or final approval, a statement that the limited exemption from prevailing wages pursuant to Labor Code Section 1771.5(a) applies to the contract, a telephone number to call for inquiries, questions, or assistance with regard to the LCP, and the name of the agent or office administering the LCP, if different from the awarding body.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5, Labor Code.

HISTORY

1. New section filed 2-20-92; operative 3-23-92 (Register 92, No. 13).

§ 16430. Components of LCP.

(a) In accordance with Labor Code Section 1771.5(b), a LCP shall include, but not be limited to, the following requirements:

(1) The Call for Bids and the contract or purchase order shall contain appropriate language concerning the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(2) A prejob conference shall be conducted before commencement of the work with contractors and subcontractors listed in the bid, at which time federal and state labor law requirements applicable to the contract shall be discussed, and copies of suggested reporting forms furnished. A checklist, showing which federal and state labor law requirements were discussed, shall be kept for each conference. A checklist in the format of Appendix A presumptively meets this requirement;

(3) A requirement that certified payroll records be kept by the contractor in accordance with Labor Code Section 1776 and furnished to the awarding body at times designated in the contract or within 10 days of request by the awarding body. The awarding body may create a form meeting the minimum requirements of (a) hereinafter "Certified Weekly Payroll." Use of the current version of DIR's "Public Works Payroll Reporting Form" (A-1-131) (New 2-80) constitutes full compliance with this requirement by the awarding body. A copy of this suggested form follows Title 8 CCR Section 16500;

(4) A program for orderly review of payroll records and, if necessary, for audits to verify compliance with the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(5) A prescribed routine for withholding penalties, forfeitures, and underpayment of wages for violations of the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code;

(6) All contracts to which prevailing wage requirements apply shall include a provision that contract payments shall not be made when payroll records are delinquent or inadequate.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1771.5(b), Labor Code.

HISTORY

Appendix A

Suggested Checklist of Labor Law Requirements to Review at Prejob Conference, Section 16430.

The federal and state labor law requirements applicable to the contract are composed of but not limited to the following items:

[The next page is 1414.3.]

Title 8, CCR, Register 2002-03

§§ 17201 - 17212

§§ 17220 - 17237

§§ 17240 - 17253

§§ 17260 - 17264

tion by or has within the preceding 2 years contracted or plans to contract with the Division of Labor Standards Enforcement.

Category 4

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Labor Standards Enforcement within the geographic area over which they exercise jurisdiction.

Category 5

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Industrial Welfare Commission.

Category 6

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that he or she knows or has reason to know is directly and materially subject to regulation by the Industrial Welfare Commission based on consideration of the recommendations of the wage board to which the public member belongs.

Category 7

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know: (1) is directly subject to regulation by the Division of Industrial Accidents; (2) engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business; or (3) has within the preceding 2 years contracted or plans to contract with the Division of Industrial Accidents.

Category 8

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know: (1) is directly subject to regulation by the Division of Industrial Accidents; (2) engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business; or (3) has within the preceding 2 years contracted or plans to contract with the Division of Industrial Accidents, to the extent the business entity or source of income is subject to such regulation or engages in or derives its income from such insurance business within the geographic area over which the employee exercises jurisdiction. Workers' compensation judges performing judicial functions are also subject to the provisions of the California Code of Judicial Conduct.

Category 9

Designated employees assigned to this category must report:

Investments in business entities and sources of income which they know or have reason to know have within the preceding 2 years contracted, or plan to contract, with the Division of Industrial Accidents to provide services, supplies, materials, or machinery of any type to the Division, or have so contracted or plan to contract with the Department to serve the Division in said manner.

Category 10

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know: (1) is directly subject to regulation by the Division of Industrial Accidents; (2) engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business; or (3) has within the preceding 2 years contracted or plans to contract with the Division of Industrial Accidents.

Category 11

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is a Self–Insurer for purposes of workers' compensation liability, has applied in the last two years or plans to apply for self–insurer status, or engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business or the

Category 12

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety or has within the preceding two years contracted or plans to contract with the Division of Industrial Safety.

Category 13

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety.

Category 14

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety within the geographic area over which they exercise jurisdiction.

Category 15

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety within the subject matter area over which they exercise jurisdiction.

Category 16

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Industrial Safety within the subject matter and geographic area over which they exercise jurisdiction.

Category 17

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Board or Unit for which they work.

Category 18

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Apprenticeship Standards or has within the preceding two years contracted or plans to contract with the Division of Apprenticeship Standards.

Category 19

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Division of Apprenticeship Standards within the geographic area over which they exercise jurisdiction.

Category 20

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that she or he knows or has reason to know has within the preceding 2 years contracted, or plans to contract, with the Division of Apprenticeship Standards to provide services, supplies, materials or machinery of any type to the Division, or has so contracted or plans to contract with the Department to so serve the Division.

Category 21

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that he or she knows or has reason to know is directly and materially subject to regulation by the Department of Industrial Relations, engages in or derives its income from, in whole or in part, the workers' compensation liability insurance business, or has within the preceding two years contracted or plans to contract with the Division of Labor Statistics and Re-

Subchapter 6. Prevailing Wage Hearings

Article 1. General

7201. Scope and Application of Rules.
a) These Rules govern proceedings for review of civil wage and pen- assessments and the withholding of contract payments under Ar- s 1 and 2 of Division 2, Part 7, Chapter 1 (commencing with section) of the Labor Code, as well as any notice assessing penalties for compliance with payroll record obligations under Labor Code sec- 1776. The provisions of Labor Code section 1742 and these Rules y to all such assessments and notices served on a contractor or sub- ractor on or after July 1, 2001 and provide the exclusive method for ffected Contractor or Subcontractor to obtain review of any such no- or assessment. These Rules also apply to transitional cases in which es were served but no court action was filed under Labor Code sec- 1731–1733 prior to July 1, 2001, in accordance with Section 17270 70) below.
) These Rules do not govern debarment proceedings under Labor section 1777.1, nor proceedings to review determinations with re- to the violation of apprenticeship obligations under Labor Code ns 1777.5 and 1777.7, nor any criminal prosecution.
) These Rules do not preclude any remedies otherwise authorized by remedy violations of Division 2, Part 7, Chapter 1 of the Labor .
For easier reference, individual sections within these prevailing hearing regulations are referred to as "Rules" using only their last igits. For example, this Section 17201 may be referred to as Rule

Authority cited: sections 55, 59, 1742(b) and 1773.5, Labor Code. Refer- Sections 1742, 1771.5, 1771.6(b), 1773.5, 1776 and 1777.1–1777.7, Labor and Stats. 2000, Chapter 954, §1.

HISTORY

w subchapter 6 (articles 1–7, sections 17201–17270), article 1 (sections 01–17212) and section filed 1–15–2002; operative 1–15–2002 pursuant to vernment Code section 11343.4 (Register 2002, No. 3).

202. Definitions.
the purpose of these Rules:
1850ed Contractor or Subcontractor" means a contractor or sub- ctor (as defined under Labor Code section 1722.1) to whom the La- mmissioner has issued a civil wage and penalty assessment pur- Code section 1771.6, or to whom the Labor Commissioner or the Division of Apprentice Standards has issued a notice assessing penalties for noncompliance with payroll record obligations under Labor Code section 1776;
(b) "Assessment" means a civil wage and penalty assessment issued by the Labor Commissioner or his or her designee pursuant to Labor Code section 1741, and it also includes a notice issued by either the Labor Commissioner or the Division of Apprenticeship Standards pursuant to Labor Code section 1776;
(c) "Awarding Body" means an awarding body or body awarding the contract (as defined in Labor Code section 1722) that exercises enforcement authority under Labor Code section 1726 or 1771.5;
(d) "Department" means the Department of Industrial Relations;
(e) "Director" means the Director of the Department of Industrial Relations;
(f) "Enforcing Agency" means the entity which has issued an Assessment or Notice of Withholding of Contract Payments and with which a Request for Review has been filed; *i.e.*, it refers to the Labor Commissioner when review is sought from an Assessment, the Awarding Body when review is sought from a Notice of Withholding of Contract Payments, and the Division of Apprenticeship Standards when review is sought from a notice issued by that agency that assesses penalties under Labor Code section 1776;
(g) "Hearing Officer" means any person appointed by the Director pursuant to Labor Code section 1742(b) to conduct hearings and other proceedings under Labor Code section 1742 and these Rules;
(h) "Joint Labor–Management Committee" means a joint labor–management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (section 175a of Title 29 of the United States Code).
(i) "Labor Commissioner" means the Chief of the Division of Labor Standards Enforcement and includes his or her designee who has been authorized to carry out the Labor Commissioner's functions under Chapter 1, Part 7 of Division 2 (commencing with section 1720) of the Labor Code;
(j) "Party" means an Affected Contractor or Subcontractor who has requested review of either an Assessment or a Notice of Withholding of Contract Payments, the Enforcing Agency that issued the Assessment or the Notice of Withholding of Contract Payments from which review is sought, and any other Person who has intervened under subparts (a), (b), or (c) of Rule 08 [Section 17208];
(k) "Person" means an individual, partnership, limited liability company, corporation, governmental subdivision or unit of a governmental subdivision, or public or private organization or entity of any character;
(l) "Representative" means a person authorized by a Party to represent that Party in a proceeding before a Hearing Officer or the Director, and includes the Labor Commissioner when the Labor Commissioner has intervened to represent the Awarding Body in a review proceeding pursuant to Labor Code section 1771.6(b).
(m) "Rule" refers to a section within this subchapter 6. The Rule number corresponds to the last two digits of the full section number. (For example, Rule 08 is the same as section 17208.)
(n) "Surety" has the meaning set forth in Civil Code section 2787 and refers to the entity that issues the public works bond provided for in Civil Code sections 3247 and 3248 or any other surety bond that guarantees the payment of wages for labor.
(o) "Working Day" means any day that is not a Saturday, Sunday, or State holiday, as determined with reference to Code of Civil Procedure sections 12(a) and 12(b) and Government Code sections 6700 and 6701.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 2787, 3247 and 3248, Civil Code; Sections 12a and 12b, Code of Civil Procedure; Sections 6700, 6701, 11405.60 and 11405.70, Government Code; Sections 1720 et seq., 1722, 1722.1, 1726, 1741, 1742, 1742(b), 1771.5, 1771.6, 1771.6(b) and 1776, Labor Code; and 29 U.S.C. §175a.

§ 17203. Computation of Time and Extensions of Time to Respond or Act.

(a) In computing the time within which a right may be exercised or an act is to be performed, the first day shall be excluded and the last day shall be included. If the last day is not a Working Day, the time shall be extended to the next Working Day.

(b) Unless otherwise indicated by proof of service, if the envelope was properly addressed, the mailing date shall be presumed to be: a postmark date imprinted on the envelope by the U.S. Postal Service if first–class postage was prepaid; or the date of delivery to a common carrier promising overnight delivery as shown on the carrier's receipt.

(c) Where service of any notice, decision, pleading or other document is by first class mail, and if within a given number of days after such service, a right may be exercised, or an act is to be performed, the time within which such right may be exercised or act performed is extended five days if the place of address is within the State of California, and 10 days if the place of address is outside the State of California but within the United States. However, this Rule shall not extend the time within which the Director may reconsider or modify a decision to correct an error (other than a clerical error) under Labor Code section 1742(b).

(d) Where service of any notice, pleading, or other document is made by an authorized method other than first class mailing, extensions of time to respond or act shall be calculated in the same manner as provided under section 1013 of the Code of Civil Procedure, unless a different requirement has been specified by the appointed Hearing Officer or by another provision of these Rules.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1010–1013, Code of Civil Procedure; and Section 1742(b), Labor Code.

HISTORY

New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17204. Appointment of Hearing Officers; Delegation of Appointment Authority to Chief Counsel.

(a) Upon receipt of a Request for Review of an Assessment or of a Notice of Withholding of Contract Payments, the Director, acting through the Chief Counsel (*see* subpart (c) below), shall appoint an impartial Hearing Officer to conduct the review proceeding.

(b) The appointed Hearing Officer shall be an attorney employed by the Office of the Director — Legal Unit. However, if no attorney employed by the Office of the Director — Legal Unit is available or qualified to serve in a particular matter, the appointed Hearing Officer may be any attorney or administrative law judge employed by the Department, other than an employee of the Division of Labor Standards Enforcement.

(c) Any person appointed to serve as a Hearing Officer in any matter shall possess at least the minimum qualifications for service as an administrative law judge pursuant to Government Code section 11502(b) and shall be someone who is not precluded from serving under Government Code section 11425.30.

(d) The Director's authority under Labor Code section 1742(b) to appoint an impartial Hearing Officer, is delegated in all cases to the Chief Counsel of the Office of the Director or to the Chief Counsel's designated Assistant or Acting Chief Counsel when the Chief Counsel is unavailable or disqualified from participating in a particular matter. This delegation includes all related authority under Rule 40 [Section 17240] below to appoint a different Hearing Officer to conduct all or any part of a review proceeding as well as the authority to consider and decide or to assign to another Hearing Officer for consideration and decision any motion to disqualify an appointed Hearing Officer.

NOTE: Authority cited: Sections 7, 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 11425.30 and 11502(b), Government Code; and Sections 7, 55, 59 and 1742(b), Labor Code.

HISTORY

§ 17205. Authority of Hearing Officers.

(a) In any proceeding assigned for hearing and decision under the provisions of Labor Code section 1742, the appointed Hearing Officer shall have full power, jurisdiction and authority to hold a hearing and ascertain facts for the information of the Director, to hold a prehearing conference, to issue a subpoena and subpoena duces tecum for the attendance of a Person and the production of testimony, books, documents, or other things, to compel the attendance of a Person residing anywhere in the state, to certify official acts, to regulate the course of a hearing, to grant a withdrawal, disposition or amendment, to order a continuance, to approve a stipulation voluntarily entered into by the Parties, to administer oaths and affirmations, to rule on objections, privileges, defenses, and the receipt of relevant and material evidence, to call and examine a Party or witness and introduce into the hearing record documentary or other evidence, to request a Party at any time to state the respective position or supporting theory concerning any fact or issue in the proceeding, to extend the submittal date of any proceeding, to exercise such other and additional authority as is delegated to Hearing Officers under these Rules or by an express written delegation by the Director, and to prepare a recommended decision, including a notice of findings, findings, and an order for approval by the Director.

(b) There shall be no right of appeal to or review by the Director of any decision, order, act, or refusal to act by an appointed Hearing Officer other than through the Director's review of the record in issuing or reconsidering a written decision under Rules 60 [Section 17260] and 61 [Section 17261] below.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 11512, Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17206. Access to Hearing Records.

(a) Hearing case records shall be available for inspection and copying by the public, to the same extent and subject to the same policies and procedures governing other records maintained by the Department. Hearing case records normally will be available for review in the office of the appointed Hearing Officer; *provided however*, that a case file may be temporarily unavailable when in use by the appointed Hearing Officer or by the Director or his or her designee.

(b) Nothing in this Rule shall authorize the disclosure of any record or exhibit that is required to be kept confidential or is otherwise exempt from disclosure by law or that has been ordered to be kept confidential by an appointed Hearing Officer.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 6250 et seq. Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17207. Ex Parte Communications.

(a) Except as provided in this Rule, once a Request for Review is filed, and while the proceeding is pending, there shall be no direct or indirect communication regarding any issue in the proceeding to the appointed Hearing Officer or the Director, from the Enforcing Agency or any other Party or other interested Person, without notice and the opportunity for all Parties to participate in the communication.

(b) A communication made on the record in the hearing is permissible.

(c) A communication concerning a matter of procedure or practice is presumed to be permissible, unless the topic of the communication appears to the Hearing Officer to be controversial in the context of the specific case. If so, the Hearing Officer shall so inform the other participant and may terminate the communication or continue it until after giving all Parties notice and an opportunity to participate. Any written communication concerning a matter of procedure or practice, and any written response, or a written memorandum identifying the participants and stating the substance of any such oral communication or response, shall be added

earing Officer may determine a matter of procedure or practice based on a permissible ex-parte communication. The term "matters of procedure or practice" shall be liberally construed.

(d) A communication from the Labor Commissioner to the Hearing Officer or the Director which is deemed permissible under Government Code section 11430.30 is permitted only if any such written communication and any written response, or a written memorandum identifying the participants and stating the substance of any such oral communication or response, is added to the case file so that all Parties have a reasonable opportunity to review it.

(e) If the Hearing Officer or the Director receives a communication in violation of this Rule, he or she shall comply with the requirements of Government Code section 11430.50.

(f) To the extent not inconsistent with Labor Code section 1742, the provisions of Article 7 of Chapter 4.5 of Title 2, Division 3, Part 1 (commencing with section 11430.10) of the Government Code governing ex parte communications in administrative adjudication proceedings shall apply to review proceedings conducted under these Rules.

(g) This Rule shall not be construed as prohibiting communications between the Director and the Labor Commissioner or between the Director and any other interested Person on issues or policies of general interest that coincide with issues involved in a pending review proceeding; *provided that* (1) the communication does not directly or indirectly seek to influence the outcome of any pending proceeding; (2) the communication does not directly or indirectly identify or otherwise refer to any pending proceeding; and (3) the communication does not occur at a time when the Director or the other party to the communication knows that a proceeding in which the other party to the communication is interested is under active consideration by the Director.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 11430.10–11430.80, Government Code, and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

17208. Intervention and Participation by Other Interested Persons.

(a) The Labor Commissioner may intervene as a matter of right in any review from a Notice of Withholding of Contract Payments, either as the representative of the Awarding Body or as an interested third Party.

(b) A bonding company and any Surety on a bond that secures the payment of wages covered by the Assessment or Notice of Withholding of Contract Payments shall be permitted to intervene as a matter of right in a pending review filed by the contractor or subcontractor from the Assessment or Withholding of Contract Payments in question; *provided* that intervention is sought at or before the first prehearing conference held pursuant to Rule 31 [Section 17231] below and within either 30 days after the bonding company or Surety was served with a copy of the Assessment or Notice of Withholding of Contract Payments or 30 days after the filing of the Request for Review, whichever is later. Thereafter, any request to intervene by such a bonding company or Surety shall be treated as a motion for permissive participation under subpart (d) of this Rule. The bonding company or Surety shall have the burden of proof with respect to its claim that it did not receive notice of the Assessment or Notice of Withholding of Contract Payments until after the filing of the Request for Review.

(c) The employee(s), labor union, or Joint Labor–Management Committee who filed the formal complaint which led the Enforcing Agency to issue the Assessment or Notice of Withholding of Contract payments may be permitted to intervene in a pending review filed by the contractor or subcontractor from the Assessment or Withholding of Contract Payments in question; *provided that*, intervention is sought at or before the first prehearing conference held pursuant to Rule 31 [Section 17231] below and there is no good cause to deny the request. Thereafter, any request to intervene by such employee(s), labor union, or Joint Labor–Management Committee shall be treated as a motion for permissive participation as an interested Person under subpart (d) of this Rule.

(d) Any other Person may move to participate as an interested Person in a proceeding in which that Person claims a substantial interest in the issues or underlying controversy and in which that Person's participation is likely to assist and not hinder or protract the hearing and determination of the case by the Hearing Officer and the Director. Interested Persons who are permitted to participate under this Rule shall *not* be regarded as Parties to the proceeding for any purpose, but may be provided notices and the opportunity to present arguments under such terms as the Hearing Officer deems appropriate.

(e) Rights to intervene or participate as an interested party are only in accordance with this Rule. Intervention or permissive participation under this Rule shall not expand the scope of issues under review nor shall it extend any rights or interests which have been forfeited as a result of an Affected Contractor or Subcontractor's own failure to file a timely Request for Review. The Hearing Officer may impose conditions on an intervener's or other interested Person's participation in the proceeding, including but not limited to those conditions specified in Government Code § 11440.50(c).

(f) No Person shall be required to seek intervention in a review proceeding as a condition for pursuing any other remedy available to that Person for the enforcement of the prevailing wage requirements of Division 2, Part 7, Chapter 1 (starting with section 1720) of the Labor Code.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 11440.50(c), Government Code; and Sections 1720 et seq., 1741, 1742 and 1771.6, Labor Code.

§ 17209. Representation at Hearing.

(a) A Party may appear in person or through an authorized Representative, who need not be an attorney at law; *however*, a Party shall use the form Authorization for Representation by Non–Attorney [8 CCR 17209(b) (New 1/15/02)] to authorize representation by any non–attorney who is not an owner, officer, or managing agent of that Party.

(b) Upon formal notification that a Party is being represented by a particular individual or firm, service of subsequent notices in the matter shall be made on the Representative, either in addition to or instead of the Party, unless and until such authorization is terminated or withdrawn by further written notice. Service upon an authorized Representative shall be effective for all purposes and shall control the determination of any notice period or the running of any time limit for the performance of any acts, regardless of whether or when such notice may also have been served directly on the represented Party.

(c) An authorized Representative shall be deemed to control all matters respecting the interests of the represented Party in the proceedings.

(d) Parties and their Representatives shall have a continuing duty to keep the appointed Hearing Officer and all other Parties to the proceeding informed of their current address and telephone number.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 1742(b), Labor Code.

Article 2. Assessment or Notice and Request for Review

§ 17220. Service and Contents of Assessment or Notice of Withholding of Contract Payments.

(a) An Assessment, a Notice of Withholding of Contract Payments, or a notice assessing penalties under Labor Code section 1776 shall be served on the contractor and subcontractor, if applicable, by first class and certified mail pursuant to the requirements of Code of Civil Procedure section 1013. A copy of the notice shall also be served by certified mail on any bonding company issuing a bond that secures the payment of the wages covered by the Assessment or Notice and to any Surety on a bond, if the identities of such companies are known or reasonably ascertainable. The identity of any Surety issuing a bond for the benefit of an Awarding Body as designated obligee, shall be deemed "known or reasonably ascertainable," and the Surety shall be deemed to have received the notice required under this subpart if sent to the address appearing on the face of the bond.

(b) An Assessment or Notice of Withholding of Contract Payments shall be in writing and shall include the following information:

(1) a description of the nature of the violation and basis for the Assessment or Notice; and

(2) the amount of wages, penalties, and forfeitures due, including a specification of amounts that have been or will be withheld from available contract payments, as well as all additional amounts that the Enforcing Agency has determined are due, including the amount of any liquidated damages that potentially may be awarded under Labor Code section 1742.1.

(c) An Assessment or Notice of Withholding of Contract Payments shall also include the following information:

(1) the name and address of the office to whom a Request for Review may be sent;

(2) information on the procedures for obtaining review of the Assessment or Withholding of Contract Payments;

(3) notice of the Opportunity to Request a Settlement Meeting under Rule 21 [Section 17221] below; and

(4) the following statement which shall appear in bold or another type face that makes it stand out from the other text:

Failure by a contractor or subcontractor to submit a timely Request for Review will result in a final order which shall be binding on the contractor and subcontractor, and which shall also be binding, with respect to the amount due, on a bonding company issuing a bond that secures the payment of wages and a surety on a bond. Labor Code section 1743.

HISTORY

1. New article 2 (sections 17220–17229) and section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17221. Opportunity for Early Settlement.

(a) The Affected Contractor or Subcontractor may, within 30 days following the service of an Assessment or Notice of Withholding of Contract Payments, request a meeting with the Enforcing Agency for the purpose of attempting to settle the dispute regarding the Assessment or Notice.

(b) Upon receipt of a timely written request for a settlement meeting, the Enforcing Agency shall afford the Affected Contractor or Subcontractor a reasonable opportunity to meet for such purpose. The settlement meeting may be held in person or by telephone and shall take place before expiration of the 60–day limit for filing a Request for Review under Rule 22 [Section 17222].

(c) Nothing herein shall preclude the Parties from meeting or attempting to settle a dispute after expiration of the time for making a request or after the filing of a Request for Review.

(d) Neither the making or pendency of a request for a settlement meeting, nor the fact that the Parties have met or have failed or refused to meet as required by this Rule shall serve to extend the time for filing a Request for Review under Rule 22 [Section 17222] below.

(e) No evidence of anything said or any admission made for the purpose of, in the course of, or pursuant to, such a settlement meeting shall be admissible or subject to discovery in any administrative or civil proceeding. No writing prepared for the purpose of, in the course of, or pursuant to, such a settlement meeting, other than a final settlement agreement, shall be admissible or subject to discovery in any administrative or civil proceeding.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17222. Filing of Request for Review.

(a) Any Request for Review of an Assessment or of a Notice of Withholding of Contract Wages shall be transmitted in writing to the Enforcing Agency within 60 days after service of the Assessment or Notice. Failure to request review within 60 days shall result in the Assessment or the Withholding of Contract Wages becoming final and not subject to further review under these Rules.

(b) A Request for Review shall be transmitted to the office of the Enforcing Agency designated on the Assessment or Notice of Withholding of Contract Payments from which review is sought.

(c) A Request for Review shall be deemed filed on the date of mailing, as determined by the U.S. Postal Service postmark date on the envelope or the overnight carrier's receipt in accordance with Rule 03(b) [Section 17203(b)] above, or on the date of receipt by the designated office of the Enforcing Agency, whichever is earlier.

(d) An additional courtesy copy of the Request for Review may be served on the Department by mailing to the address specified in Rule 23 [Section 17223] below at any time on or after the filing of the Request for Review with the Enforcing Agency. The service of a courtesy copy on Department shall *not* be effective for invoking the Director's review thority under Labor Code section 1742; however, it may determine the time within which the hearing shall be commenced under Rule 41(a) ction 17241(a)] below.

e) A Request for Review either shall clearly identify the Assessment or Notice from which review is sought, including the date of the Assessment or Notice, or it shall include a copy of the Assessment or Notice as an attachment. A Request for Review shall also set forth the basis upon which the Assessment or Notice is being contested. A Request for Review shall include a specification of the issues or claims being contested and a specification of the basis for contesting those matters.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1742 and 1771.6(a), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17223. Transmittal of Request for Review to Department.

Within ten (10) days followings its receipt of a Request for Review, the Enforcing Agency shall transmit to the Office of the Director – Legal Unit, the Request for Review and copies of the Assessment or Notice of Withholding of Contract Wages, any Audit Summary that accompanied the Assessment or Notice, and a Proof of Service or other document showing the name and address of any bonding company or Surety entitled to notice under Rule 20(a) [Section 17220(a)] above. The Enforcing Agency shall transmit these items to the following address.

DEPARTMENT OF INDUSTRIAL RELATIONS
OFFICE OF THE DIRECTOR - LEGAL UNIT
ATTENTION: LEAD HEARING OFFICER
P.O. BOX 420603
SAN FRANCISCO, CA 94142–0603

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1742(a) and 1771.6(a), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17224. Disclosure of Evidence.

(a) Within ten (10) days following its receipt of a Request for Review, the Enforcing Agency shall also notify the Affected Contractor or Subcontractor of its opportunity and the procedures for reviewing evidence to be utilized by the Enforcing Agency at the hearing on the Request for Review.

(b) An Enforcing Agency shall be deemed to have provided the opportunity to review evidence required by this Rule if it (1) gives the Affected Contractor or Subcontractor the option, at the Affected Contractor or Subcontractor's own expense, to either (A) obtain copies of all such evidence through a commercial copying service or (B) inspect and copy such evidence at the office of the Enforcing Agency during normal business hours; or if (2) the Enforcing Agency at its own expense forwards copies of all such evidence to the Affected Contractor or Subcontractor.

(c) The evidence required to be provided under this Rule shall include the identity of witnesses whose testimony the Enforcing Agency intends to present, either in person at the hearing or by declaration or affidavit. This provision shall not be construed as requiring the Enforcing Agency to prepare or provide any separate listing of witnesses whose identities are disclosed within the written materials made available under subpart (a).

(d) The Enforcing Agency shall make evidence available for review as specified in subparts (a) through (c) within 20 days of its receipt of the Request for Review; *provided that*, this deadline may be extended by written request or agreement of the Affected Contractor or Subcontractor. The Enforcing Agency's failure to make evidence available for review as required by Labor Code section 1742(b) and this Rule, shall preclude the Enforcing Agency from introducing such evidence in proceedings before the Hearing Officer or the Director.

(e) This Rule shall not preclude the Enforcing Agency from relying upon or presenting any evidence first obtained after the initial disclosure of evidence under subparts (a) through (d), *provided that*, such evidence is promptly disclosed to the Affected Contractor or Subcontractor. This Rule also shall not preclude the Enforcing Agency from presenting previously undisclosed evidence to rebut new or collateral claims raised by another Party in the proceeding.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1742(b) and 1771.6, Labor Code.

17225. Withdrawal of Request for Review; Reinstatement.

(a) An Affected Contractor or Subcontractor may withdraw a Request or Review by written notification at any time before a decision is issued r by oral motion on the hearing record. The Hearing Officer may grant ıch withdrawal by letter, order or decision served on the Parties.

(b) For good cause, a Request for Review so dismissed may be reinated by the Hearing Officer or the Director upon a showing that the ithdrawal resulted from misinformation given by the Enforcing gency or otherwise from fraud or coercion. A motion for reinstatement ust be filed within 60 days of service of the letter, order or decision anting withdrawal of the Request for Review or, in the event of fraud hich could not have been suspected or discovered with the exercise of asonable diligence, within 60 days of discovery of such fraud. The mo-ın shall be accompanied by a declaration containing a statement that y facts therein are based upon the personal knowledge of the declarant.

(c) Notwithstanding any application or showing made under subpart) of this Rule, neither the Hearing Officer nor the Director may reinstate y Request for Review where the underlying Assessment or Withhold-; of Contract Payments has become final and entered as a court judg-ınt.

HISTORY

New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

7226. Dismissal or Amendment of Assessment or of Notice of Withholding of Contract Payments.

a) Upon motion to the appointed Hearing Officer, an Enforcing ency may dismiss or amend an Assessment or Notice of Withholding Contract Payments as follows:

1) An Assessment or Notice of Withholding may be dismissed or ended to eliminate or reduce all or part of any claim for wages, dam-s, or penalties that has been satisfied or that is not warranted under the s and circumstances of the case or to conform to an order of the Hear-Officer or the Director.

2) An Assessment or Notice of Withholding may be amended to elim-e a claim for penalties as to the affected contractor upon a determina-that the affected contractor is not liable for same under either Labor e section 1775(b) [subcontractor's failure to pay prevailing rate] or or Code section 1776 (g) [failure to comply with request for certified oll records].

) For good cause, an Assessment or Notice of Withholding of Con-Payments may be amended to revise or increase any claim for es, damages, or penalties based upon a recomputation or the discov-of new evidence subsequent to the issuance of the original Assess-t or Notice.

) The Hearing Officer shall grant any motion to dismiss or amend an ssment or Notice of Withholding downward under subparts (a)(1))(2) absent a showing that such dismissal or amendment will result e forfeiture of substantial substantive rights of another Party to the eeding. The Hearing Officer may grant a motion to amend an As-nent or Notice of Withholding upward under subpart (a)(3) under terms as are just, including where appropriate the extension of an ional opportunity for early settlement under Rule 21 [Section 1]. Unless the Hearing Officer determines otherwise, an amended ssment or Notice of Withholding shall be deemed fully controverted ut need for filing an additional or amended Request for Review.

HISTORY

New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17227. Early Disposition of Untimely Assessment, Withholding, or Request for Review.

(a) Upon the application of any Party or upon his or her own motion, the appointed Hearing Officer may issue an Order to Show Cause why an Assessment, a Withholding of Contract Payments, or a Request for Review should not be dismissed as untimely under the relevant statute.

(b) An Order to Show Cause issued under subpart (a) of this Rule shall be served on all Parties who have appeared or been served with any prior notice in the matter and shall provide the Parties with at least 10 days to respond in writing to the Order to Show Cause and an additional 5 days following the service of such responses to reply to any submission by any other Party. Evidence submitted in support or opposition to an Order to Show Cause shall be by affidavit or declaration under penalty of perjury. There shall be no oral hearing on an Order to Show Cause issued under this Rule unless requested by a Party or by the Hearing Officer.

(c) After the time for submitting responses and replies to the Order to Show Cause has passed or after the oral hearing, if any, the Hearing Officer may do one of the following: (1) recommend that the Director issue a decision setting aside the Assessment or Withholding of Contract Payments or dismissing the Request for Review as untimely under the statute; (2) find the Assessment, Withholding, or Request for Review timely and direct that the matter proceed to hearing on the merits; or (3) reserve the timeliness issue for further consideration and determination in connection with the hearing on the merits.

(d) A decision by the Director which sets asides an Assessment or Withholding of Contract Payments or which dismisses a Request for Review as untimely shall be subject to reconsideration and to judicial review in the same manner as any other Final Order or Decision of the Director. A determination by the Hearing Officer that the Assessment, Withholding, or Request for Review was timely or that the timeliness issue should be reserved for further consideration and determination in connection with the hearing on the merits shall *not* be subject to appeal or review except as part of any reconsideration or appeal from the Decision of the Director made after the hearing on the merits.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1741, 1742, 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17228. Finality of Assessment or of Withholding of Contract Payments When No Timely Request for Review is Filed; Authority of Awarding Body to Disburse Withheld Funds.

(a) Upon the failure of an Affected Contractor or Subcontractor to file a timely Request for Review under Labor Code section 1742(a) and Rule 22(a) [Section 17222(a)] above, the Assessment or Notice of Withholding of Contract Payments shall become a "final order" as to the Affected Contractor or Subcontractor that the Labor Commissioner may certify and file with the superior court in accordance with Labor Code section 1742(d).

(b) Where an Assessment or Notice of Withholding of Contract Payments has become final as to at least one but not as to every Affected Contractor or Subcontractor, the Awarding Body shall continue to withhold and retain the amounts required to satisfy any wages and penalties at stake in a review proceeding initiated by any other Affected Contractor or Subcontractor until there is a final order in that proceeding that is no longer subject to judicial review.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1727, 1742 and 1771.6, Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17229. Finality of Notice of Withholding of Contract Payments; Authority of Awarding Body to Recover Additional Funds.

Where a Notice of Withholding of Contract Payments seeks to recover wages, penalties, or damages in excess of the amounts withheld from available contract payments (*see* Rule 20(b)(2) [Section 17220(b)(2)] above), an Awarding Body may recover any excess amounts that become or remain due when the Notice of Withholding of Contract Payments has become final under Labor Code section 1771.6. To recover the excess amounts, the Awarding Body shall transmit to the Labor Commissioner the Notice together with any decision of the Director or court that has become final and not subject to further review. The Labor Commissioner in turn shall certify and file the final order with the superior court in accordance with Labor Code section 1742(d).

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1742(d) and 1771.6, Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

Article 3. Prehearing Procedures

§ 17230. Scheduling of Hearing; Continuances and Tolling.

(a) The appointed Hearing Officer shall establish the place and time of the hearing on the merits, giving due consideration to the needs of all Parties and the statutory time limits for hearing and deciding the matter. rties are encouraged to communicate scheduling needs to the Hearing fficer and all other Parties at the earliest opportunity. It shall not be a olation of Rule 07 [Section 17207]'s prohibition on ex parte communications for the Hearing Officer or his or her designee to communicate with Parties individually for purposes of clearing dates and times and proposing locations for the hearing. The Hearing Officer may also conduct a prehearing conference by telephone or any other expeditious means for purposes of establishing the time and place of the hearing.

(b) Once a hearing date is set, a request for a continuance that is not joined in by all other Parties or that is for more than 30 days will not be granted absent a showing of extraordinary circumstances, giving due re- d to the potential prejudice to other Parties in the case and other Per- ons affected by the matter under review. Absent an enforceable waiver (*see* subpart (d) below), no continuance will be granted nor any proceeding otherwise delayed if doing so is likely to prevent the Hearing Officer from commencing the hearing on the matter within the statutory time limit.

(c) A request for a continuance that is for 30 days or less and is joined by all Parties shall be granted upon a showing of good cause. Notwithstanding subpart (b) above, a unilateral request for a continuance made by the Party who filed the Request for Review shall be granted upon a showing of good cause if the new date for commencing the hearing is no more than 150 days after the date of service of the Assessment or Notice of Withholding of Contract Payments.

(d) If a Party makes or joins in any request that would delay or otherwise extend the time for hearing or deciding a review proceeding beyond any prescribed time limit, such request shall also be deemed a waiver by that Party of that time limit.

) The time limits for hearing and deciding a review proceeding shall be deemed tolled (1) when proceedings are suspended to seek judicial enforcement of a subpoena or other order to compel the attendance, mony, or production of evidence by a necessary witness; (2) when proceedings are stayed or enjoined by any court order; (3) between the time that a proceeding is dismissed and then ordered reinstated under Rule 25 [Section 17225] above; (4) upon the order of a court reinstating or requiring rehearing of the merits of a proceeding; or (5) during the pen- tor or any appointed Hearing Officer from carrying out his or her responsibilities under these Rules.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 1742(b), Labor Code.

HISTORY

1. New article 3 (sections 17230–17237) and section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17231. Prehearing Conference.

(a) Upon the application of any Party or upon his or her own motion, the appointed Hearing Officer may conduct a prehearing conference for any purpose that may expedite or assist the preparation of the matter for hearing or the disposition of the Request for Review. The prehearing conference may be conducted by telephone or other means that is convenient to the Hearing Officer and the Parties.

(b) The Hearing Officer shall provide reasonable advance notice of any prehearing conference conducted pursuant to this Rule. The Notice shall advise the Parties of the matters which the Hearing Officer intends to cover in the prehearing conference, but the failure of the Notice to enumerate some matter shall not preclude its discussion or consideration at the conference.

(c) With or without a prehearing conference, the Hearing Officer may issue such procedural Orders as are appropriate for the submission of evidence or briefs and conduct of the hearing, consistent with the substantial rights of the affected Parties.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 11511.5, Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17232. Consolidation and Severance.

(a) The Hearing Officer may consolidate for hearing and decision any number of proceedings where the facts and circumstances are similar and consolidation will result in conservation of time and expense. Where the Hearing Officer proposes to consolidate proceedings on his or her own motion, the Parties shall be given reasonable notice and an opportunity to object before consolidation is ordered.

(b) The Hearing Officer may sever consolidated proceedings for good cause.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 11507.3, Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17233. Prehearing Motions; Cut Off Date.

(a) Any motion made in advance of the hearing on the merits, any opposition thereto, and any further reply shall be in writing and directed to the appointed Hearing Officer. No particular format shall be required; however, the following information shall appear prominently on the first page: (1) the case name (*i.e.*, names of the Parties); (2) any assigned case number; (3) the name of the Hearing Officer to whom the paper is being submitted; (4) the identity of the Party submitting the paper; (5) the nature of the relief sought; and (6) the scheduled date, if any, for the hearing on the merits of the Request for Review. The motion shall also include a Proof of Service, as defined in Rule 10 [Section 17210] above, showing that copies have been served on all other Parties to the proceeding.

(b) Prehearing motions shall be served and filed no later than 20 days prior to the hearing on the merits of the Request for Review. Any opposition shall be served and filed no later than 10 days after service of the motion or at least 7 days prior to the hearing on the merits, whichever is earlier. The Hearing Officer may in his or her discretion decide the motion in writing in advance of the hearing on the merits or reserve the matter for further consideration and determination at the hearing on the merits.

(c) There shall be no right to a separate oral hearing on any prehearing

; Officer determines that such an oral hearing is necessary or propriate, it may be conducted by telephone or other manner that is nvenient to the Parties.

(d) With the exception of timeliness challenges under Rule 27 [Section 227], prehearing motions which seek to dispose of a Request for Review or any related claim or defense are disfavored and ordinarily will be considered prior to the hearing on the merits.

HISTORY

New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

7234. Evidence by Affidavit or Declaration.

a) At any time 20 or more days prior to commencement of a hearing, rty may serve upon all other Parties a copy of any affidavit or declara- which the proponent proposes to introduce in evidence, together n a notice as provided in subpart (b). Unless another Party, within 10 s after service of such notice, delivers to the proponent a request to ss-examine the affiant or declarant, the right to cross–examine such ant or declarant is waived and the affidavit or declaration, if oduced in evidence, shall be given the same effect as if the affiant or larant had testified in person. If an opportunity to cross–examine an ant or declarant is not afforded after request therefor is made as herein vided, the affidavit or declaration may be introduced in evidence, but ll be given only the same effect as other hearsay evidence.

b) The notice referred to in subpart (a) shall be substantially in the following form with the appropriate information inserted in the places enclosed by brackets:

The accompanying affidavit or declaration of [name of affiant or declarant] will be introduced as evidence at the hearing in [title and other rmation identifying the proceeding]. [Name of affiant or declarant] not be called to testify orally, and you will not be entitled to question affiant or declarant unless you notify [name of the proponent, Representative, agent or attorney] at [address] that you wish to cross–examine affiant or declarant. Your request must be mailed or delivered to ne of proponent, Representative, agent or attorney] on or before cify date *at least* 10 days after anticipated date of service of this no- on the other Parties]."

) If a timely request is made to cross–examine an affiant or declarant r this Rule, the burden of producing that witness at the hearing shall pon the proponent of the witness. If the proponent fails to produce witness, the affidavit or declaration may be introduced in evidence, hall be given only the same effect as other hearsay evidence under 44 [Section 17244].

E: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Refer- Rule 1613, California Rules of Court; Section 11514, Government Code; ection 1742(b), Labor Code.

235. Subpoena and Subpoena Duces Tecum.

Subpoenas and subpoenas duces tecum may be issued for attenat a hearing and for the production of documents at any reasonable and place or at a hearing.

Subpoenas and subpoenas duces tecum shall be issued by the Hearfficer at the request of a Party, or by the attorney of record for a in accordance with sections 1985 to 1985.6, inclusive, of the Code vil Procedure. The burden of serving a subpoena that has been isby the Hearing Officer shall be upon the Party who requested the ena.

1858 e of subpoenas and subpoenas duces tecum, objections o, and mileage and witness fees shall be governed by the provisions [illegible] Code sections 11450.20 through 11450.40.

al of any witness to obey a subpoena or subpoena duces tecum shall have the burden of showing to the satisfaction of the Hearing Officer that the subpoena or subpoena duces tecum was properly issued and served and that the testimony or evidence sought was necessary to prove or disprove a significant claim or defense in the proceeding.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1985–1988, Code of Civil Procedure; Section 1563, Evidence Code; Sections 11450.20–11455.30, Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17236. Written Notice to Party in Lieu of Subpoena.

(a) In the case of the production of a Party of record in the proceeding or of a Person for whose benefit a proceeding is prosecuted or defended, the service of a subpoena upon any such witness is not required if written notice requesting the witness to attend, with the time and place of the hearing, is served on the attorney of the Party or Person. For purposes of this Rule, a Party of record in the proceeding or Person for whose benefit a proceeding is prosecuted or defended includes an officer, director, or managing agent of any such Party or Person.

(b) Service of written notice to attend under this Rule shall be made in the same manner and subject to the same conditions provided in section 1987 of the Code of Civil Procedure for service of written notice to attend in a civil action or proceeding.

(c) The Hearing Officer shall have authority under Rule 47 [Section 17247] below to sanction a Party who fails or refuses to comply with a written notice to attend that meets the requirements of this Rule and has been timely served in accordance with section 1987 of the Code of Civil Procedure. However, the Hearing Officer may not initiate contempt proceedings against the witness for failing to appear based solely on non–compliance with a written notice to attend served on the Party's attorney. A Party seeking sanctions for another Party's failure or refusal to comply with a written notice to attend shall have the burden of showing to the satisfaction of the Hearing Officer that the written notice to attend was properly issued and timely served and that the testimony or evidence sought was necessary to prove or disprove a significant claim or defense in the proceeding.

Article 4. Hearings

§ 17240. Notice of Appointment of Hearing Officer;

cable and no later than when the matter is noticed for a prehearing conference or hearing.

(b) The Director may appoint a different Hearing Officer to conduct and hear the review or to conduct and dispose of any preliminary or procedural matter in a given case.

(c) A Party wishing to object to the appointment of a particular Hearing Officer, including for any one or more of the grounds specified in sections 11425.30 and 11425.40 of the Government Code or section 1742(b) of the Labor Code, shall within 10 days after receiving notice of the appointment and no later than the start of any hearing on the merits, *whichever is earlier*, file a motion to disqualify the appointed Hearing Officer together with a supporting affidavit or declaration. The motion shall be filed with the Chief Counsel of the Office of the Director at the address indicated in Rule 23 [Section 17223] above. Notwithstanding the foregoing time limits, if a Party subsequently discovers facts constituting grounds for the disqualification of the appointed Hearing Officer, including but not limited to that the Hearing Officer has received a prohibited ex parte communication in the pending case, the motion shall be filed as soon as practicable after the facts constituting grounds for disqualification are discovered.

(d) Upon receipt of a motion to disqualify the appointed Hearing Officer, the Director may: (1) consider and decide the motion or appoint another Hearing Officer to consider and decide the motion, in which case the challenged Hearing Officer shall first be given an opportunity to respond to the motion, but no proceedings shall be conducted by the challenged Hearing Officer until the motion is determined; or (2) appoint another Hearing Officer to hear the Request for Review, in which case the motion shall be deemed moot.

HISTORY

1. New article 4 (sections 17240–17249) and section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17241. Time and Place of Hearing.

(a) A hearing on the merits of a timely Request for Review shall be commenced within 90 days after the date it is received by the Office of the Director. The hearing shall be conducted at a suitable location within the county where the appointed Hearing Officer maintains his or her regular office, unless the hearing is moved to a different county in accordance with subpart (b) below.

(b) Upon the agreement of the Parties or upon a showing of good cause by either the Party who filed the Request for Review or the Enforcing Agency, the hearing shall be conducted at a suitable location within either (1) the county where a majority of the subject public works employment was performed, or (2) any other county that is proximate to or convenient for the Parties and necessary witnesses.

(c) A suitable location under this section means one that is open and accessible to members of the public and which includes appropriate facilities for the recording of testimony. Any facility that is regularly used by any state agency or by the Awarding Body for public hearings and that will reasonably accommodate the anticipated number of Parties and witnesses involved in the proceeding, is presumed suitable in the absence of a contrary showing. Parties seeking to change the location of a hearing under subpart (b) shall make reasonable efforts to identify, agree upon, and arrange for the availability of a suitable location within a county specified in subpart (b)(1) or (b)(2).

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 11425.20, Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17242. Open Hearing; Confidential Evidence and

television, or other electronic means, the Hearing Officer shall conduct the hearing from a location where members of the public may be physically present, and members of the public shall also have a reasonable right of access to the hearing record and any transcript of the proceedings.

(b) Notwithstanding the provisions of subpart (a), the Hearing Officer may order closure of a hearing or make other protective orders to the extent necessary to: (1) preserve the confidentiality of information that is privileged, confidential, or otherwise protected by law; (2) ensure a fair hearing in the circumstances of the particular case; or (3) protect a minor witness or a witness with a developmental disability from intimidation or other harm, taking into account the rights of all persons.

(c) Upon motion of any Party or upon his or her own motion, the Hearing Officer may exclude from the hearing room any witnesses not at the time under examination. However, a Party to the proceeding and the Party's Representative shall not be excluded.

(d) This section does not apply to any prehearing or settlement conference.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 777, Evidence Code, Section 11425.20, Government Code, and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17243. Conduct of Hearing.

(a) Testimony shall be taken only on oath or affirmation under penalty of perjury.

(b) Every Party shall have the right to call and examine witnesses; to introduce exhibits; to question opposing witnesses on any matter relevant to the issues even though that matter was not covered in the direct examination; to impeach any witness regardless of which Party first called the witness to testify; and to rebut any opposing evidence. A Party may be called by an opposing Party and examined as if under cross–examination, whether or not the Party called has testified or intends to testify on his or her own behalf.

(c) The Hearing Officer may call and examine any Party or witness and may on his or her own motion introduce exhibits.

(d) The Hearing Officer shall control the taking of evidence and other course of proceedings in a hearing and shall exercise that control in a manner best suited to ascertain the facts and safeguard the rights of the Parties. Prior to taking evidence, the Hearing Officer shall define the issues and explain the order in which evidence will be presented; *provided that*, for good cause the Hearing Officer later may vary the order of presentation as circumstances warrant.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 11513, Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17244. Evidence Rules; Hearsay.

(a) The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions.

(b) The rules of privilege shall be recognized to the same extent and applied in the same manner as in the courts of this state.

(c) The Hearing Officer may exclude evidence if its probative value is substantially outweighed by the probability that its admission will necessitate undue consumption of time.

(d) Hearsay evidence is admissible but shall not be sufficient in itself to support a finding unless it either would be admissible over objection in a civil action or no Party raises an objection to such use. Unless pre-

47. Contempt and Monetary Sanctions.

f any Person in proceedings before an appointed Hearing Officer ys or resists any lawful order or refuses, without substantial justifi-1860 ond to a subpoena, subpoena duces tecum, or refuses to e oath or affirmation as a witness or thereafter refuses to be ex-l or is guilty of misconduct during a hearing or so near the place facts to the Superior Court in and for the county where the proceedings are held for contempt proceedings pursuant to Government Code section 11455.20; (2) exclude the Person from the hearing room; (3) prohibit the Person from testifying or introducing certain matters in evidence; and/or (4) establish certain facts, claims, or defenses if the Person in contempt is a Party.

(b) Either the appointed Hearing Officer by separate order or the Director in his or her decision may order a Party, the Party's authorized Representative, or both, to pay reasonable expenses, including attorney's fees, incurred by another Party as a result of bad faith actions or tactics that are frivolous or solely intended to cause unnecessary delay as defined in section 128.5 of the Code of Civil Procedure. Such order or the denial of such an order shall be subject to judicial review in the same manner as a decision of the Director on the merits. The order shall be enforceable in the same manner as a money judgment or by the contempt sanction.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 128.5, Code of Civil Procedure; Sections 11455.10–11455.30, Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17248. Interpreters.

(a) Proceedings shall be conducted in the English language. The notice advising a Party of the hearing date shall also include notice of the Party's right to request an interpreter for a Party or witness who cannot speak or understand English, or who can do so only with difficulty, or who is deaf or hearing impaired as defined under Evidence Code section 754.

(b) A request for an interpreter for a Party or witness shall be submitted as soon as possible after the requesting Party becomes aware of the need for an interpreter and prior to the commencement of the hearing. The request should include information that (1) will enable the Hearing Officer and Department to obtain an interpreter with appropriate skills; and (2) will assist the Hearing Officer in determining whether the Department or the requesting Party should pay for the cost of the interpreter.

(c) Upon receipt of a timely request, the Hearing Officer shall direct the Department to provide an interpreter and shall also decide whether the Department or the requesting Party shall pay the cost of the interpreter, based upon an equitable consideration of all the circumstances, including the requesting Party's ability to pay.

(d) A person is qualified to serve as an interpreter if he or she (1) is on the current State Personnel Board List of Certified Administrative Hearing Interpreters maintained pursuant to Government Code section 11435.25; and (2) has also been examined and determined by the Department to be sufficiently knowledgeable of the terminology and procedures generally used in these proceedings.

(e) In the event that a qualified interpreter under subpart (d) is unavailable or if there are no certified interpreters for the language in which assistance is needed, the Hearing Officer may qualify and appoint another interpreter to serve as needed in a single hearing or case.

(f) Before appointment of an interpreter, the Hearing Officer or a Party may conduct a brief supplemental examination of the prospective interpreter to see if that person has the qualifications necessary to serve as an interpreter, including whether he or she understands terms and procedures generally used in these proceedings, can explain those terms and procedures in English and the other language being used, and can interpret those terms and procedures into the other language. An interpreter shall not have had any prior substantive involvement in the matter under review, and shall disclose to the Hearing Officer and the Parties any actual conflict of interest or appearance of conflict. Any condition that interferes with the objectivity of an interpreter constitutes a conflict of interest. A conflict may exist if an interpreter is an employee of, acquainted with, or related to a Party or witness to the proceeding, or if an interpreter has an interest in the outcome of the proceeding.

tial communications, or has engaged in conduct which, in the judgment of the Hearing Officer, creates an appearance of bias, prejudice, or partiality.

(h) Nothing in this section limits any further rights extended by Evidence Code section 754 to a Party or witness who is deaf or hard of hearing.

§ 17249. Hearing Record; Recording of Testimony and Other Proceedings.

(a) The Hearing Officer and the Director shall maintain an official record of all proceedings conducted under these Rules. In the absence of a determination under subpart (b) below, all testimony and other proceedings at any hearing shall be recorded by audiotape. Recorded testimony or other proceedings need not be transcribed unless requested for purposes of further court review of a decision or order in the same case.

(b) Upon the application of any Party or upon his or her own motion, the Hearing Officer may authorize the use of a certified court reporter, videotape, or other appropriate means to record the testimony and other proceedings. Any application by a Party under this subpart shall be made at a prehearing conference or by prehearing motion filed no later than 10 days prior to the scheduled date of hearing. Upon the granting of any such application, it shall be the responsibility of the Party or Parties who made e application to procure and pay for the services of a qualified person d any additional equipment needed to record the testimony and proedings by the requested means. Ordinarily the granting of such applicaion will be conditioned on the applicant's paying for certified copies of the transcript for the official record and for the other Parties. The failure of a requesting Party to comply with this requirement shall not be cause for delaying the hearing on the merits, but instead shall result in the proceedings being tape recorded in accordance with subpart (a).

(c) The Parties may, at their own expense, arrange for the recording of testimony and other proceedings through a different means other than the one authorized by the Hearing Officer, *provided that* it does not in any ay interfere with the Hearing Officer's control and conduct of the proedings, and *further provided that*, it shall not be regarded as an official record for any purpose absent a stipulation by all of the Parties or order of the Hearing Officer.

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17250. Burdens of Proof on Wages and Penalties.

(a) The Enforcing Agency has the burden of coming forward with evidence that the Affected Contractor or Subcontractor (1) was served with an Assessment or Notice of Withholding of Contract Payments in accordance with Rule 20 [Section 17220]; (2) was provided a reasonable opportunity to review evidence to be utilized at the hearing in accordance with Rule 24 [Section 17224]; and (3) that such evidence provides prima facie support for the Assessment or Withholding of Contract Payments.

(b) If the Enforcing Agency meets its initial burden under (a), the Affected Contractor or Subcontractor has the burden of proving that the basis for the Civil Wage and Penalty Assessment or for the Withholding of ntract Payments is incorrect.

(c) With respect to any civil penalty established under Labor Code section 1775, the Affected Contractor or Subcontractor shall have the burden of proving that the Labor Commissioner abused his or her discretion in determining that a penalty was due or in determining the amount of the Code, and the quantum of proof required to establish the existence or non–existence of any fact shall be by a preponderance of the evidence, unless a higher standard is prescribed by law.

§ 17251. Liquidated Damages.

(a) With respect to any liquidated damages for which an Affected Contractor, Subcontractor, or Surety on a bond becomes liable under Labor Code section 1742.1, the Enforcing Agency shall have a further burden of coming forward with evidence to show the amount of wages that remained unpaid as of 60 days following the service of the Assessment or Notice of Withholding of Contract Payments. The Affected Contractor or Subcontractor shall have the burden of demonstrating that he or she had substantial grounds for believing the Assessment or Notice to be in error.

(b) To demonstrate "substantial grounds for believing the Assessment or Notice to be in error," the Affected Contractor or Subcontractor must establish (1) that it had a reasonable subjective belief that the Assessment or Notice was in error; (2) that there is an objective basis in law and fact for the claimed error; and (3) that the claimed error is one that would have substantially reduced or eliminated any duty to pay additional wages under the Assessment or Notice.

§ 17252. Oral Argument and Briefs.

(a) Parties may submit prehearing briefs of reasonable length under such conditions as the appointed Hearing Officer shall prescribe. Parties shall also be permitted to present a closing oral argument of reasonable length at or following the conclusion of the hearing.

(b) There shall be no automatic right to file a post–hearing brief. However, the Hearing Officer may permit the Parties to submit written post–hearing briefs, under such terms as are just. The Hearing Officer shall have discretion to determine, among other things, the length and format of such briefs and whether they will be filed simultaneously or on a staggered (opening, response, and reply) basis.

(c) In addition to or as an alternative to post–hearing briefs, the Hearing Officer may also prepare proposed findings or a tentative decision or may designate a Party to prepare proposed findings and thereafter give the Parties a reasonable opportunity to present arguments in support of or opposition to any proposed findings or tentative decision prior to the issuance of a decision by the Director under Rule 60 [Section 17260] below.

262. Final Decision; Time for Seeking Review.

The decision of the Director issued pursuant to Section Rule 60 ion 17260] above shall be the final decision of the Director from any Party may seek judicial review pursuant to the provisions of Code section 1742(c) and Code of Civil Procedure section 1094.5; *ded however,* that if the Director has issued a modified decision pur-to and within the 15–day limit of the Director's reconsideration au-y under Section Rule 61 [Section 17261] above and Labor Code 1862(b), the right of review and time for seeking such review extend from the date of service of the modified decision rather than the original decision.

(c) The time for seeking judicial review shall be determined from the date of service of the decision of the Director under Code of Civil Procedure section 1013, including any applicable extension of time provided in that statute.

(d) Any petition seeking judicial review of a decision under these Rules may be served (1) upon the Director by serving the Office of the Director — Legal Unit where the appointed Hearing Officer who conducted the hearing on the merits regularly maintains his or her office; and (2) upon the Labor Commissioner (in cases in which the Labor Commissioner was the Enforcing Agency) by the serving the regular office of the attorney who represented the Labor Commission at the hearing on the merits. The intent of this subpart is to authorize and designate a preferred method for giving the Director and the Labor Commissioner formal notice of a court action seeking review of a decision of the Director under these Rules; it does not preclude the use any other service method authorized by law.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5. Reference: Sections 1013 and 1094.5, Code of Civil Procedure; and Section 1742, Labor Code.

§ 17263. Preparation of Record for Review.

(a) Upon notice that a Party intends to seek judicial review of a decision of the Director and the payment of any required deposit, the Department, under the direction of the appointed Hearing Officer, shall immediately prepare a hearing record consisting of all exhibits and other papers and a transcript of all testimony which the Party has designated for the inclusion in the record on review.

(b) The Party who has requested the record or any part thereof shall bear the cost of its preparation, including but not necessarily limited to any court reporter transcription fees and reasonable charges for the copying, binding, certification, and mailing of documents. Absent good cause, no record will be released to a Party or filed with a court until adequate funds to cover the cost of preparing the record have been paid by the requesting Party to the Department or to any third party designated to prepare the record. However, upon notice that a Party seeking judicial review has been granted *in forma pauperis* status under California Rule of Court 985, the Department shall bear the cost of preparing and filing the record where necessary for a proper review of the proceedings.

(c) The pendency of any request for the Department to prepare a hearing record shall *not* extend the time limits for filing a petition for review under Labor Code section 1742(c) and Code of Civil Procedure section 1094.5.

Article 7. Transitional Rule

§ 17270. Applicability of These Rules to Notices Issued Between April 1, 2001 and June 30, 2001.

(a) These Rules shall apply to any notice issued by the Labor Commissioner or an Awarding Body with respect to the withholding or forfeiture of contract payments for unpaid wages or penalties under the prevailing wage laws in effect prior to July 1, 2001; *provided that,* the party seeking review has not commenced a civil action with respect to such notice under the provisions of Labor Code sections 1731–1733 [repealed effective July 1, 2001].

(b) An Affected Contractor or Subcontractor may appeal any such notice served between April 1, 2001 and June 30, 2001 by filing a Request for Review with the Enforcing Agency that issued the notice, in the manner and form specified in Rule 22 [Section 17222] above. Any such Request for Review shall be in writing and shall include a statement indicating the date upon which the contractor or subcontractor was served with the notice of withholding or forfeiture.

(c) This Rule shall *not* extend the time available to appeal the notice under the former law. A Request for Review of a notice issued prior to July 1, 2001 must be filed with the Enforcing Agency within ninety (90) days after service of the notice.

(d) A contractor or subcontractor who has sought review of a notice issued prior to July 1, 2001 by filing a court action under the repealed provisions of Labor Code sections 1731–1733 on or after July 1, 2001, shall, if said action would have been timely under those sections, be afforded the opportunity to dismiss the action without prejudice, after entering into a stipulation that the proceeding be transferred to the Director for hearing in accordance with these Rules. The stipulation shall also provide that the time for commencing a hearing under Rule 41 [Section 17241] shall not begin to run until the case has been formally transferred to and received by the Office of the Director.

(e) Any hearing request made pursuant to Labor Code section 1771.7 [repealed effective July 1, 2001] that has not been heard and decided by a Hearing Officer prior to July 1, 2001 shall be handled in accordance with these Rules.

Dear Mr. Peterson:

The draft staff analysis for this test claim is enclosed for your review and comment.

Written Comments

Any party or interested person may file written comments on the draft staff analysis by **Tuesday, April 1, 2008**. You are advised that comments filed with the Commission are required to be simultaneously served on the other interested parties on the mailing list, and to be accompanied by a proof of service. (Cal. Code Regs., tit. 2, § 1181.2.) If you

would like to request an extension of time to file comments, please refer to section 1183.01, subdivision (c)(1), of the Commission's regulations.

Hearing

This test claim is set for hearing on **Thursday, May 29, 2008** at 9:30 a.m. in Room 126 of the State Capitol, Sacramento, California. The final staff analysis will be issued on or about May 16, 2008. Please let us know in advance if you or a representative of your agency will testify at the hearing, and if other witnesses will appear. If you would like to request postponement of the hearing, please refer to section 1183.01, subdivision (c)(2), of the Commission's regulations.

Please contact Deborah Borzelleri at (916) 322-4230 with any questions regarding the above.

Sincerely,

Paula Higashi
Executive Director

Prevailing Wage Rate

01-TC-28

Clovis Unified School District, Claimant

EXECUTIVE SUMMARY

This test claim addresses changes to the California Prevailing Wage Law (CPWL), which is "a comprehensive statutory scheme designed to enforce minimum wage standards on construction projects funded in whole or in part with public funds." Contractors for public works projects that exceed $1,000 are required to pay local prevailing wages to construction workers on those projects. The requirement to pay prevailing wages is only applicable to work performed under contract, and is not applicable to work carried out by a public agency with its own forces; the requirement is applicable to contracts let for maintenance work. Local prevailing wage rates are set by the Director of the Department of Industrial Relations.

The Test Claim Statutes, Regulations and Alleged Executive Orders Impose a Partially Reimbursable State-Mandated Program on K-12 School Districts or Community College Districts Within the Meaning of Article XIII B, Section 6 of the California Constitution

The provisions of the CPWL are only applicable when a district contracts with a private entity to carry out a public works project. The cases have consistently held that when a district makes an underlying discretionary decision that triggers mandated costs, no state mandate is imposed. The underlying decision to undertake a public works project is mandated by the state only when the public works project is for the purpose of repair or maintenance of school buildings or property. The underlying decision to contract for such a project is mandated by the state under the Public Contract Code, only when the project is not an emergency as defined and under other specified conditions related to the size of the student body and cost of the project.

The test claim statutes and regulations mandate certain activities when the CPWL provisions are triggered under the above circumstances, and some of those activities impose a new program or higher level of service on districts within the meaning of article XIII B, section 6 of the California Constitution. For some of those activities, however, the test claim statutes and regulations allow the districts to levy fees sufficient to pay for the costs of the newly-mandated activities, and Government Code section 17556, subdivision (d), is applicable to deny reimbursement for them. The remaining three activities do impose costs mandated by the state, thus imposing a partially reimbursable state-mandated program on K-12 school districts and community college districts.

Conclusion

Staff concludes that Labor Code section 1776, subdivisions (g) and (h), and section 16403, subdivision (a), of the Department of Industrial Relations' regulations constitute a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution, but only when those activities are triggered by projects for repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, and when the project must be let to contract under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and

    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or

b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000. (Pub. Contract Code, § 20114.)

2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and

   a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or

   b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000. (Pub. Contract Code, § 20655.)

3. For any K-12 school district or community college district that is subject to the Uniform Public Contract Cost Accounting Act (UPCCAA), when a public project, as defined, is not an emergency as set forth in Public Contract Code section 20113 or 20654, and the project cost will exceed $30,000.[1] (Pub. Contract Code, § 22032.)

Only the following activities for the foregoing projects are reimbursable:

1. Retain copies of payroll records requested by the public and provided by the awarding body for at least 6 months. (Cal. Code Regs., tit. 8, § 16403, subd. (a).)

2. Withhold penalties from contractor progress payments for noncompliance with Labor Code section 1776, upon request of the Department of Industrial Relations' Division of Apprenticeship Standards or Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g).)

3. Insert in the contract stipulations regarding the contractor's and subcontractor's requirements pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h).)

None of the other test claim statutes, regulations or alleged executive orders that were pled mandate a new program or higher level of service subject to article XIII B, section 6.

Recommendation

Staff recommends the Commission adopt this analysis to partially approve the test claim.

[1] Prior to January 1, 2007, the dollar limit for public projects that could be performed by the district with its own forces was $25,000.

01/28/04	The Department of Industrial Relations requested an extension of time, for an additional 30 days, to file comments on the test claim
01/30/04	Commission staff approved extension of time, to March 3, 2004, to file comments on the test claim
07/11/07	Commission staff requested claimant to provide specific versions of regulations claimed
07/23/07	The Department of Industrial Relations requested postponement of the December 6, 2007 hearing on the test claim
07/26/07	Commission staff denied the request to postpone hearing the test claim
07/25/07	Claimant requested an extension of time, for an additional four weeks, to file regulations information requested by Commission staff
08/01/07	Commission staff approved extension of time, to August 29, 2007, to file the information requested
08/30/07	Claimant submitted additional regulations information requested by Commission staff
03/11/08	Commission staff issued draft staff analysis

Background

This test claim addresses changes to the California Prevailing Wage Law (CPWL),[2] which is "a comprehensive statutory scheme designed to enforce minimum wage standards on construction projects funded in whole or in part with public funds."[3] Contractors for public works projects that exceed $1,000 are required to pay local prevailing wages to construction workers on those projects.[4] The requirement to pay prevailing wages is only applicable to work performed under contract, and is not applicable to work carried out by a public agency with its own forces; the requirement is applicable to contracts let for maintenance work.[5] Local prevailing wage rates are set by the Director of the Department of Industrial Relations.[6]

In addition to state agencies, the CPWL applies to "political subdivisions," which include any county, city, district, public housing authority, or public agency of the state, and assessment or improvement districts.[7] Thus, the CPWL applies to both school districts and community college districts. The agency or authority awarding the contract for public work is known as the "awarding body."[8]

The overall purpose of the CPWL is to benefit and protect employees on public works projects.[9] Its specific goals are to: 1) protect employees from substandard wages that might be paid if contractors could recruit from cheap-labor areas; 2) permit union contractors to compete with nonunion contractors; 3) benefit the public through the superior efficiency of well-paid employees; and 4) compensate nonpublic employees with higher wages for the absence of job security and benefits enjoyed by public employees.[10]

The CPWL does not generally cover federal projects. Those projects are addressed in the federal Davis-Bacon Act (40 USC § 276a(a)), which was enacted for a similar purpose, i.e., to protect local wage standards by preventing federal contractors from basing their bids on wages lower than those prevailing in the area.[11] However, the application of state prevailing wage rates when higher is required whenever federally funded or assisted projects are controlled or carried out by California awarding bodies.[12]

Public Works Defined

The Labor Code generally defines "public works" as construction, alteration, demolition, installation or repair work done under contract and paid for in whole or in part out of public funds,[13] and includes: 1) design and preconstruction work;[14] 2) work done for irrigation, utility, reclamation and improvement districts;[15] 3) street, sewer, or other improvement work for public agencies;[16] 4) laying of carpet;[17] 5) certain public transportation demonstration projects;[18] and 6) hauling of refuse from a public works site to an outside disposal location.[19] Public works projects also include maintenance,[20] as defined.[21]

The Labor Code also defines "paid for in whole or in part out of public funds" as payment of funds directly to or on behalf of a public works contractor, subcontractor or developer,[22] including various other types of payments,[23] and provides several types of projects that are excluded from that definition.[24]

Prevailing Wage Rates

Prevailing wage rates are set by the Director of the Department of Industrial Relations (DIR),[25] generally by reviewing local wage rates established by collective bargaining agreements and

rates that may have been predetermined for federal public works.[26] The awarding body for any contract for public works is required to specify in the call for bids, the bid specifications and the contract itself, what the prevailing wage rate is for each craft, classification or type of worker needed to execute the contract.[27] In lieu of specifying the wage rates in the call for bids, bid specifications and the contract itself, the awarding body may include a statement in those documents that copies of the prevailing wage rates are on file at its principal office, which shall be made available to any interested party on request.[28] The awarding body is required to post at each job site a copy of the determination by the DIR Director of the prevailing wage rates.[29]

Prospective bidders, representatives of any craft classification or type of worker involved, or the awarding body may challenge the declared prevailing wage rates with DIR within 20 days after commencement of advertising of the bids.[30] The Director of DIR begins an investigation and within 20 days, or longer if agreed upon by all the parties, makes a determination and transmits it in writing to the awarding body and the interested parties, which delays the closing date for submitting bids or starting of work until five days after the determination.[31] The Director's determination is final, and shall be considered the determination of the awarding body.[32]

Payroll Records

Contractors and subcontractors subject to the CPWL are required to keep accurate payroll records showing name, address, social security number, work classification, straight time and overtime hours worked each day and week and actual wages paid to each worker in connection with the public work,[33] and provide certified copies or make such records available for inspection, upon request of the employee, the awarding body, Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards.[34] Requests by the public are required to be made through the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement,[35] and shall be redacted to prevent disclosure of an individual's name, address and social security number.[36] The requesting party is required to reimburse the costs of preparing the records by the contractor, subcontractors, and the entity

through which the request was made.[37] The awarding body is required to insert stipulations in the contract to effectuate these provisions.[38]

Discrimination on Public Works Employment Prohibited

Labor Code section 1735 prohibits contractors from discriminating on public works employment for particular categories of persons, and every contractor violating the section is subject to all the penalties imposed for a violation of the CPWL.

Enforcement of CPWL

The awarding body is required to "take cognizance" of violations of the CPWL committed in the course of the public works contract, and shall promptly report any suspected violations to the Labor Commissioner.[39]

The Labor Commissioner is charged with enforcing the CPWL.[40] If the Labor Commissioner determines after an investigation that there has been a violation of the CPWL, the Labor Commissioner issues a civil wage and penalty assessment to the contractor or subcontractor or both.[41] Prior to July 1, 2001, the only way to challenge such an assessment was in court. On and after July 1, 2001, contractors or subcontractors may obtain review of a civil wage and penalty assessment through an informal settlement meeting with the Labor Commissioner,[42] or via an administrative hearing.[43] Until January 1, 2009, hearings are conducted before the DIR Director with an impartial hearing officer; thereafter the hearing will be conducted by an administrative law judge.[44] An affected contractor or subcontractor may appeal the administrative decision within 45 days of service of the decision by filing a petition for writ of mandate under Code of Civil Procedure section 1094.5.[45] This process provides the exclusive remedy for review of a civil wage and penalty assessment by the Labor Commissioner.[46]

When the Labor Commissioner issues a civil wage and penalty assessment, the awarding body is required to withhold and retain such moneys from contractor payments sufficient to satisfy the assessment.[47] The amounts withheld cannot be disbursed until receipt of a final order that is no longer subject to judicial review.[48] The awarding body that has withheld funds in

response to a civil wage and penalty assessment, upon receipt of the final order, shall remit withheld funds to the Labor Commissioner.[49]

Labor Compliance Program

The awarding body can avoid paying prevailing wages for public works projects of $25,000 or less when the project is for construction, and $15,000 or less when the project is for alteration, demolition, repair or maintenance work, if the awarding body elects to initiate and enforce a labor compliance program (LCP) for all of its public works projects.[50] As part of its duties as an LCP, the awarding body is required to do the following: 1) place appropriate language concerning CPWL in all bid invitations and public works contracts; 2) conduct a prejob conference with the contractor and subcontractors to discuss federal and state labor law requirements applicable to the contract; 3) review and audit payroll records (that the contractor is required to keep) to verify compliance with CPWL; 4) withhold contract payments when payroll records are delinquent or inadequate; and 5) withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment has occurred.[51]

If the awarding body enforces the CPWL as an LCP, the awarding body is entitled to keep any penalties assessed. Before taking any action, the awarding body is required to provide notice of the withholding of any contract payments to the contractor and any subcontractor.[52] The same process for review of a civil wage and penalty assessment made by the Labor Commissioner, as set forth in Labor Code sections 1742 and 1742.1, is invoked.[53] Any amount recovered from the contractor shall first satisfy the wage claim, before being applied to penalties, and if insufficient money is recovered to pay each worker in full, the money shall be prorated among all workers.[54] Wages for workers who cannot be located are placed in the Industrial Relations Unpaid Wage Fund and held in trust.[55] Penalties of not more than $50 per day for each worker paid less than the prevailing wage rates[56] are paid into the general fund of the awarding body that enforced the CPWL.[57]

Awarding bodies that choose to use funds derived from the Kindergarten-University Public Education Facilities Bond Acts of 2002[58] or 2004[59] for public works projects are required to

[59] Proposition 55, approved by the voters at the March 2004 statewide direct primary election.

adopt and enforce an LCP or contract with a third party to adopt and enforce an LCP.[60] These funds are allocated through the School Facility Program established by Chapter 12.5 of the Education Code. The State Allocation Board was required to increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts to accommodate the state's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of the LCP.[61] Awarding bodies that choose to use funds derived from the Kindergarten-University Public Education Facilities Bond Act of 2006,[62] however, are not subject to this requirement.

Employment of Apprentices on Public Works Projects

Properly registered apprentices are allowed to work on public works projects and must be paid prevailing wages for apprentices in the trade.[63] Apprenticeship standards are established by the DIR Division of Apprenticeship Standards,[64] and ratios of apprentices to journey level workers in a particular craft or trade on the public work are established by the particular apprenticeship program.[65] Contractors must meet various requirements with regard to employing apprentices, and the awarding body is required to include stipulations to that effect in the contract.[66]

School Facility Construction, Repairs and Funding

Beginning in 1947, the Legislature authorized the State Allocation Board to allocate funds for building and repairing schools. Legislation enacted in the late 1940s and early 1950s established a loan-grant program "to aid school districts of the State in providing necessary and adequate school sites and buildings for the pupils of the public school system..."[67] The State Department of General Services[68] administers and the State Allocation Board (SAB) allocates and apportions the funds made available to the districts with priority given to districts where the children will benefit most from additional facilities.[69]

The School Facilities Act[70] establishes a state program to provide state per pupil funding for new construction and modernization of existing school facilities[71] to be administered by the SAB.[72]

[68] Education Code section 15702.

[69] Education Code section 15704.

[70] Education Code sections 17070.10 et seq.

The Education Code sets out requirements that potential school building sites must meet.[73] Prior to commencing acquisition of real property for a new schoolsite or addition to an existing schoolsite, the governing board of a school district is required to evaluate property at a public hearing using the site selection standards established by the Department of Education.[74] Moreover, in the exercise of its police power, the state may through legislative action control the protection of public health, safety, and comfort in the erection of school buildings.[75] The Department of General Services is generally required to supervise the design and construction of any school building or the reconstruction or alteration of or addition to any school building.[76] Nevertheless, *whether* a school district decides to engage in a project to construct a school building is within the discretion of its governing board.[77]

Education Code section 17366 states the Legislature's intent to provide safe educational facilities for California schoolchildren as follows:

> [T]he Legislature intends that the governing board of each school district adopt a plan for the orderly repair, reconstruction, or replacement of school buildings not repaired, reconstructed, or replaced in accordance with this article.

Whenever the structural condition of any school building has been examined by designated entities or under the authorization of law and a report of the examination has been made to the governing board showing the building is unsafe for use, the governing board is required to immediately prepare an estimate of the cost necessary to make such repairs to the building(s) as are necessary, or, if necessary, to reconstruct or replace the building so that the building when repaired or reconstructed, or any building erected to replace it, shall meet such standards of structural safety as are established in accordance with law.[78] Using the information from the examination and report, the governing board is required to establish a system of priorities for the repair, reconstruction, or replacement of unsafe school buildings.[79] If the governing board of the school district complies with these provisions, no member of that governing board may be held personally liable for injury to persons or damage to property resulting from the fact that a school building was not constructed under the requirements of Education Code sections 17280 et seq.[80]

[78] Education Code section 17367.

[79] *Ibid.*

[80] Education Code section 17371

Education Code section 17593 requires K-12 school districts to keep schools in repair:

> The clerk of each district except a district governed by a city or city and county board of education shall, under the direction of the governing board, keep the schoolhouses in repair during the time school is taught therein, and exercise a general care and supervision over the school premises and property during the vacations of the school.

Education Code section 17565 requires the governing board of any school district to "furnish, repair, insure against fire, and in its discretion rent the school property of its districts."

Education Code section 17002 defines "good repair" to mean:

> [T]he facility is maintained in a manner that assures that it is clean, safe, and functional as determined pursuant to an interim evaluation instrument developed by the Office of Public School Construction. The instrument shall not require capital enhancements beyond the standards for which the facility was designed and constructed.

With regard to community college districts, Education Code section 81601 states:

> The governing board of a community college district shall furnish, repair, insure against fire, and in its discretion rent the school property of its districts. ...

Thus, both K-12 school districts and community college districts are required by statute to repair the school property of their districts.

The Education Code authorizes the County Superintendent of Schools to provide for the maintenance and repair of the property of school districts under his or her jurisdiction that elect to take advantage of this service by paying into the school maintenance and repair fund established for this purpose.[81] The superintendent is authorized to hire labor for such maintenance and repair:

> The superintendent of schools of the county may employ such extra help as is necessary to perform the labor for the maintenance and repair work, as well as to provide for the supervision and transportation of the labor together with the equipment and materials for the work. The cost price of the maintenance and repair services to any school district is the original cost thereof and in addition a sum sufficient to reimburse the county superintendent of schools for all supervision, transportation, equipment, and other expenses, but the sum added shall not in any case exceed 10 percent of the cost of labor and supplies.[82]

Contracting Out for Public Works Projects

The Public Contract Code establishes contracting requirements for school districts and community college districts.[83] Depending on the purpose of the project and estimated dollar

---

[81] Education Code section 1266.

[82] Education Code section 1269.

[83] Public Contract Code sections 20110 et seq. and 20650 et seq.

amount, the district may be required to contract out to the lowest responsible bidder to accomplish the project. The major requirements are outlined below.

The governing board of any school district or any community college district shall let any contracts involving an expenditure of more than $50,000[84] to the lowest responsible bidder,[85] for any of the following: 1) the purchase of equipment, materials, or supplies to be furnished, sold or leased to the district; 2) services, except construction services; or 3) repairs, including maintenance,[86] that are not a public project as defined in section 22002, subdivision (c).[87, 88] Any contract for a public project, as defined, involving an expenditure of $15,000 or more shall be let to the lowest responsible bidder who shall give security as required by the board or the board shall reject all bids.[89]

Notwithstanding the preceding requirements, in the case of an emergency when any repairs, alterations, work, or improvement is necessary to any facility of the college or public schools to permit the continuance of existing classes, or to avoid danger to life or property, the governing board of a school district or community college district may, by unanimous vote, with the approval of the county superintendent of schools, either: 1) make a contract in writing or otherwise on behalf of the district for the performance of labor and furnishing materials or

---

[84] Adjusted annually for inflation pursuant to Public Contract Code sections 20111, subdivision (d), and 20651, subdivision (d).

[85] The lowest responsible bidder shall provide security as the board requires, or all bids shall be rejected. (Pub. Contract Code, § 20111 and 20651.)

[86] Public Contract Code sections 21115 and 20656 define "maintenance" as "routine, recurring, and usual work for the preservation, protection, and keeping of any publicly owned or publicly operated facility for its intended purposes in a safe and continually usable condition for which it was designed, improved, constructed, altered, or repaired." It includes but is not limited to: "carpentry, electrical, plumbing, glazing, and other craftwork designed consistent with the definition set forth above to preserve the facility in a safe, efficient, and continually usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures." It does not include, among other types of work: "janitorial or custodial services and protection of the sort provided by guards or other security forces." It further does not include painting, repainting, or decorating other than touchup, but instead it is the intent of the Legislature that such activities be controlled directly by the provisions of section 20114 or 20655.

[87] Public Contract Code sections 20111, subdivision (a), and 20651, subdivision (a).

[88] Section 22002, subdivision (c) defines "public project" as:
(1) Construction, reconstruction, erection, alteration, renovation, improvement, demolition, and repair work involving any publicly owned, leased, or operated facility.
(2) Painting or repainting of any publicly owned, lease, or operated facility.
(3) In the case of a publicly owned utility system, "public project" shall include only construction, erection, improvement, or repair of dams, reservoirs, powerplants, and electrical transmission lines of 230,000 volts and higher.

[89] Public Contract Code sections 20111, subdivision (b), and 20651, subdivision (b).

supplies without advertising for or inviting bids; or 2) without regard to the number of hours needed for the job, authorize the use of day labor or force account to carry out the project.[90]

Moreover, the governing board of a school district or community college district may make repairs, alteration, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance by day labor or by force account[91] whenever the total number of hours on the job does not exceed 350 hours; for any school district having an average daily attendance of 35,000 or more, or for any community college district whose number of full-time equivalent students is 15,000 or greater, the governing board may perform the above activities by day labor or force account whenever the total number of hours on the job does not exceed 750 hours or when the cost of material for the job does not exceed $21,000.[92]

The Uniform Public Construction Cost Accounting Act (UPCCAA)[93]

The Uniform Public Construction Cost Accounting Act was enacted to "promote uniformity of the cost accounting standards and bidding procedures on construction work performed or contracted by public entities in the state."[94] The Act provides for developing such cost accounting standards by the California Uniform Construction Cost Accounting Commission, and an alternative method for the bidding of public works projects by public entities.[95] A public agency whose governing board has by resolution elected to become subject to this Act may use its own employees to perform public projects of $30,000 or less.[96]

Test Claim Statutes, Regulations and Alleged Executive Orders

Statutes

The test claim statutes encompass changes to the CPWL in the Labor Code beginning in 1976. The relevant provisions are summarized below.

Labor Code Sections 1720, 1720.2 and 1720.3: New types of public works projects were added with these sections:

---

[90] Public Contract Code sections 20113 and 20654.

[91] In the context of the CPWL, work done by "force account" means work done by the local agency's own employees as distinguished from work performed pursuant to contract with a commercial firm for similar services. (70 Ops.Cal.Atty.Gen. 92, 97 (1987).)

[92] Public Contract Code sections 20114 and 20655.

[93] Public Contract Code sections 22000 et seq.

[94] Public Contract Code section 22001.

[95] *Ibid.*

[96] Public Contract Code section 22032; prior to January 1, 2007, the dollar limit for public projects that could be performed by the district was $25,000.

- Section 1720 was modified to add public transportation demonstration projects, design and preconstruction, including land surveying,[97] and installation projects.
- Section 1720.2 was amended to include projects done under private contract where the property subject to the contract is privately owned but upon completion of the construction work more than 50 percent of the property is leased to the state or a political subdivision for its use, and the construction work is performed according to plans or specifications furnished by the state or a political subdivision with a lease agreement that is entered into between a lessor and the state or political subdivision as lessee, during or upon completion of the project.
- Section 1720.3 was amended to include the removal of refuse from the public works construction site.

Labor Code Section 1726: A requirement was added for the awarding body, which was already required to "take cognizance" of violations, to promptly *report* suspected violations to the Labor Commissioner. The section was further amended to state that if the awarding body determines as a result of its own investigation (under a Labor Compliance Program) that there has been a violation and withholds contract payments, the Labor Compliance Program procedures in section 1771.6 shall be followed.

Labor Code Section 1727: This section was amended to state that if the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a *subcontractor's* violations, the *contractor* is required to withhold money upon request of the Labor Commissioner and transfer that money to the awarding body. In either case, the awarding body is limited to disbursing such withheld assessments until after receipt of a final order that is no longer subject to judicial review.

Labor Code Section 1735: This section, as added and amended, prohibits discrimination on public works employment for specified categories of persons, and every contractor violating the section is subject to all the penalties imposed for violations of the chapter.

---

[97] Design and preconstruction was added by Statutes 2000, Chapter 881. The Senate Rules Committee Analysis stated that the bill codified current DIR practice and regulation by including construction inspectors and land surveyors among those workers deemed to be employed upon public works and by insuring that workers entitled to prevailing wage during the construction phase of a public works project will get prevailing wage on the design and pre-construction phases of a project. (Senate Rules Committee, Office of Senate Floor Analyses, SB 1999, August 29, 2000, page 2.) On June 9, 2000, the DIR issued a decision (Public Works Case No. 99-046) finding that construction inspectors hired to do inspection for compliance with applicable building codes and other standards for a public works project were deemed to be employed upon public works and therefore entitled to prevailing wage. This DIR decision was the subject of a lawsuit, *City of Long Beach v. Department of Industrial Relations* (2004) 34 Cal.4th 942, which held that even though the DIR had interpreted preexisting statute to include the pre-construction activities as public works and argued that the new statute merely clarified existing law, the Supreme Court found the change in the statute operated prospectively only.

Labor Code Sections 1733, 1741, 1742, 1742.1 and 1743: These sections provide for an administrative process to challenge wage and penalty assessments as set forth:

- Section 1733, relating to court challenges to wage and penalty assessments, was repealed since a new administrative procedure was established.
- Section 1741 established that the Labor Commissioner, after an investigation, shall issue a civil wage and penalty assessment on contractors and/or subcontractors that violate the CPWL, and sets for the procedures for issuing the assessment.
- Section 1742 provided that contractors or subcontractors may obtain review of a civil wage and penalty assessment by the Labor Commissioner, and established procedures and additional appeal provisions. The hearing is conducted before the DIR Director with an impartial hearing officer until January 1, 2009; thereafter the hearing is conducted by an administrative law judge. Subdivision (f) provides that the awarding body that has withheld funds in response to a civil wage and penalty assessment, upon receipt of the final order, shall remit withheld funds to the Labor Commissioner. Subdivision (g) provides that the section is the exclusive remedy for review of a civil wage and penalty assessment by the Labor Commissioner or the awarding body when it acts under a Labor Compliance Program pursuant to section 1771.5.
- Section 1742.1 established procedures to allow for the contractor or subcontractor to meet with the Labor Commissioner to settle a dispute over the civil wage and penalty assessment without the need for formal proceedings. Additional procedures were established to require the awarding body, when enforcing under a Labor Compliance Program, to afford the contractor or subcontractor, upon request of such contractor or subcontractor, the opportunity to meet with the awarding body to attempt to settle any dispute without the need for formal proceedings.
- Section 1743 provided that the contractor and subcontractor shall be joint and severally liable for all amounts due pursuant to a final order, but the Labor Commissioner shall first exhaust all reasonable remedies to collect the amount due from the subcontractor before pursuing the claim against the contractor.

Labor Code Section 1750: This section allows the second lowest bidder a right of action against a successful bidder, when the successful bidder has violated the Unemployment Insurance Code. It does not require any activities of awarding bodies.

Labor Code Sections 1770, 1773, 1773.1, 1773.2, 1773.5 and 1773.6: These sections were amended to require the Director of the Department of Industrial Relations to determine the general prevailing rate of per diem wages, using specified criteria, rather than the pre-1975 requirement of having this responsibility rest with the awarding body. Section 1773.2 was thus amended to remove the requirement that the awarding body annually publish prevailing wage rate determinations in the newspaper. Section 1773.5, which previously gave the Director of DIR authority to establish rules and regulations, was amended to add "including, but not limited to, the responsibilities and duties of awarding bodies under this chapter."

Labor Code Section 1771: This section was amended to establish the threshold dollar amount for contracts subject to prevailing wages at $1,000.

Labor Code Sections 1771.5, 1771.6 and 1771.7: These new sections established the ability of an awarding body to elect to initiate and enforce a Labor Compliance Program (LCP). In

exchange, payment of prevailing wages is not required for any public works project of $25,000 or less when the project is for construction, or for any public works project of $15,000 or less when the project is for alteration, demolition, repair or maintenance work. An awarding body that establishes an LCP is also allowed to keep any fines or penalties assessed when it takes enforcement action. As part of its duties as an LCP, the awarding body is required to do the following: 1) place appropriate language concerning CPWL in all bid invitations and public works contracts; 2) conduct a prejob conference with the contractor and subcontractors to discuss federal and state labor law requirements applicable to the contract; 3) review and audit payroll records (that the contractor is required to keep) to verify compliance with CPWL; 4) withhold contract payments when payroll records are delinquent or inadequate; and 5) withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment has occurred. A contractor may appeal an enforcement action by a political subdivision to the Director of DIR.

Section 1771.6 was repealed and added to establish notice and withholding procedures for an awarding body that elects to enforce the CPWL under an LCP.

Section 1771.7 was repealed and later added to require that an awarding body that chooses to use funds derived from either the Kindergarten-University Public Education Facilities Bond Act of 2002 or 2004 for a public works project shall initiate and enforce, or contract with a third party to initiate and enforce, an LCP with respect to that public works project. The provision applies to public works that commence on or after April 1, 2003.

Any awarding body choosing to use such bond funds is required to make a written finding that the awarding body has initiated and enforced, or has contracted with a third party to initiate and enforce, the Labor Compliance Program. If the awarding body is a school district, the governing body of that district shall transmit to the State Allocation Board a copy of the finding. If the awarding body is a community college district, that awarding body shall transmit a copy of the written finding to the Director of the Department of Industrial Relations.

Labor Code Section 1772: This section, which existed prior to 1975, establishes that workers employed by contractors or subcontractors in the execution of any public works project are deemed to be employed on the public work.

Labor Code Section 1775: This section was amended to increase penalty amounts assessed by the Labor Commissioner to be paid by contractors and/or subcontractors for violations of the requirement to pay prevailing wages, and to delete a requirement that the awarding body provide notice to a worker making a wage claim that there is insufficient money available from the contractor to pay such claim. Additionally, the section was changed to extend to subcontractors the liability for insufficient wage payments, and to require contractors to withhold monies due a subcontractor for such insufficient payments that are the subject of a claim filed with the Division of Labor Standards Enforcement.

Labor Code Section 1776: This section was amended to expand the requirements for contractors and subcontractors to keep certified payroll records for public works projects and furnish copies of those records to the awarding body, the Division of Labor Standards Enforcement, or the Division of Apprenticeship Standards. The amendments also require that copies of such payroll records be made available to the public through the awarding body, the Division of Labor Standards Enforcement or the Division of Apprenticeship Standards (but not by the contractor or subcontractor); if the records have not already been made available to

those entities, then the requesting party is required to reimburse the costs of preparation by the contractor, subcontractors and the entity through which the request was made. Any records made available to the public must be marked or obliterated to prevent disclosure of an individual's name, address or social security number. Any records made available to a joint labor-management committee must be marked or obliterated to prevent disclosure of an individual's social security number. The body awarding the contract is required to place stipulations to effectuate these provisions in the contract. In addition, the Director of the Department of Industrial Relations was required to adopt regulations consistent with the California Public Records Act and the Information Practices Act of 1977 governing release of the records including establishment of reasonable fees to be charged for reproducing copies of the records.

Labor Code Section 1777.1: This section was added and amended to deny a contractor or subcontractor the ability to bid on or be awarded a contract for a public works project, or perform work as a subcontractor on a public works project, when the contractor or subcontractor is found by the Labor Commissioner to be in violation of prevailing wage requirements with intent to defraud or in willful violation of the requirements. The section was also modified to require the Labor Commissioner to semi-annually publish and distribute to awarding bodies a list of contractors who are ineligible to bid on or be awarded a public works contract, or to perform work as a subcontractor on a public works project.

Labor Code Sections 1773.3, 1777.5, 1777.6 and 1777.7: These sections generally address apprenticeship requirements that must be met by contractors, and penalties that may be assessed for violation of those requirements. Section 1773.3, a renumbered version of pre-1975 Labor Code section 3098, requires an awarding body whose public works contract will employ apprentices to send a copy of the award to the Division of Apprenticeship Standards within five days of the award.

Labor Code Sections 1812 and 1813: These provisions, which existed prior to 1975, deal with contractor violations of the 8-hour work day limit and 40-hour work week limit. Section 1813 requires the awarding body to cause stipulations regarding these requirements to be placed in the contract, to take cognizance of violations and to report such violations to the Division of Labor Standards Enforcement.

Labor Code Section 1861: This section, which existed prior to 1975, requires contractors to sign and file with the awarding body a certification that the contractor will provide workers' compensation or equivalent insurance.

Public Contract Code Section 22002 (previously section 21002): For purposes of contracting by public agencies and school districts, this section added a definition of "public project:"

> (1) Construction, reconstruction, erection, alteration, renovation, improvement, demolition, and repair work involving any publicly owned, lease, or operated facility.
> (2) Painting or repainting of any publicly owned, leased, or operated facility.
> (3) Construction, erection, improvement or repair of dams, reservoirs, powerplants and electrical transmission lines of 230,000 volts or higher that are publicly owned utility systems.

"Public project" does not include maintenance work; for purposes of the section, "maintenance work" includes:

> (1) Routine, recurring, and usual work for the preservation or protection of any publicly owned or publicly operated facility for its intended purposes.
> (2) Minor repainting.
> (3) Resurfacing of streets and highways at less than one inch.
> (4) Landscape maintenance, including mowing, watering, trimming, pruning, planting, replacement of plants, and servicing of irrigation and sprinkler systems.

For purposes of the chapter, "facility" is defined as any plant, building, structure, ground facility, publicly owned utility system as limited above, real property, streets and highways, or other public work improvement.

Regulations

California Code of Regulations, Title 8, sections 16000 through 17264, as pled in the test claim, implement and make specific the statutory provisions cited above.

Alleged Executive Orders

School Facility Program Substantial Progress and Expenditure Audit Guide (May 2003): This document, prepared by the Department of General Services' Office of Public School Construction (OPSC), was developed to assist school districts in meeting program reporting requirements for the School Facilities Program (SFP).

Section 3.9 of the document states that for SFP projects that require the district to implement a Labor Compliance Program, the district must submit a copy of the Department of Industrial Relations approved Labor Compliance Program to which the project conformed and, if applicable, a copy of the third party provider contract. The district must also be prepared to submit, upon request: 1) all bid invitation and contracts that must contain language alluding to Labor Code section 1770 through 1780 compliance and verification; 2) evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set in Labor Code section 1770 through 1780; and 3) evidence of weekly submittals of certified copies of payroll for all contractors and subcontractors. If the district uses its own employees to implement and administer the Labor Compliance Program, the district must account for the name of the district employee performing the Labor Compliance Program duties, the salary and benefits of that employee including transportation costs, and a specific breakdown of hours spent by project subject to the Labor Compliance Program requirements.

AB 1506 Labor Compliance Program Guidebook (February 2003): The guidebook was issued by the DIR to address newly enacted Labor Code section 1771.7. Page 3 of the document states:

> This guidebook was prepared by the [Division of Labor Standards Enforcement] and knowledgeable individuals in the private and public sector with a wide range of experience in school district issues, construction projects, public works and labor compliance. This guidebook was intended to facilitate requests to the DIR director from awarding

bodies seeking approval of their own LCPs to conform to the requirements of Labor Code section 1771.7.

This guidebook is not intended to be used as a substitute for the full text of statutes and regulations which comprise the prevailing wage system, or the continually developing body of law which prevailing wage enforcement has generated over the past six decades and will continue to generate in the future. Rather, this information should be viewed as a framework for implementation of an effective LCP designed to enforce prevailing wage requirements consistent with the practice of DLSE.

The guidebook summarizes the relevant provisions of the Labor Code and Title 8, California Code of Regulations, provides instructional materials and practical advice for implementing an LCP, identifies contact and resource information, includes appendices with recommended forms, commonly used terms and a checklist of labor law requirements.

Antioch Unified School District Labor Compliance Program (January 17, 2003): This document was provided as an example of a recently approved LCP, and the DIR stated in its transmittal of the document that Antioch's LCP manual "could be a model for other districts because it contains the most up-to-date information about compliance with labor standards on public works projects."

Prior Test Claim

On December 6, 2007, the Commission heard and denied the *Prevailing Wages (03-TC-13)* test claim, filed by the City of Newport Beach. This test claim alleged various changes to the CPWL, but was applicable only to local agencies and did not show that the underlying decisions to undertake public works projects subject to the CPWL are mandated by the state. The Statement of Decision found the following:

> The provisions of the CPWL are only applicable when a local agency contracts with a private entity to carry out a public works project. The test claim statutes and regulations modified several provisions of the CPWL, and local agencies that contract out for their public works projects are affected by these changes. However, the cases have consistently held that when a local agency makes an underlying discretionary decision that triggers mandated costs, no state mandate is imposed.
>
> Public works projects can arise in a myriad of ways, but there is no evidence in the record or in law to demonstrate that the test claim statutes and regulations legally or practically compel a local agency to undertake a public works project, with a private contractor, subject to the CPWL. In fact, like the exercise of eminent domain in *City of Merced*, the local agency has discretion to undertake public works projects. The courts have underscored the fact that a state mandate is found when the state, rather than a local official, has made the decision that requires the costs to be incurred. Therefore, the Commission finds that the test claim statutes and regulations do not mandate a new program or higher level of service, and thus do not impose a reimbursable state-mandated program on local agencies within the meaning of article XIII B, section 6.

Claimant's Position

Claimant asserts that the test claim statutes and regulations result in school districts and community college districts incurring costs mandated by the state by creating new state-mandated duties related to the uniquely governmental function of providing for public works. When contracting with third parties for public works as an awarding body, school districts, county offices of education and community colleges are required to do the following:

1. Obtain the applicable general prevailing rate of per diem wages from the Director of Industrial Relations before awarding a contract for public works, pursuant to Labor Code section 1773 and Title 8, California Code of Regulations, section 16202.
2. Ensure that the correct prevailing wage rates have been determined by the Director of Industrial Relations, pursuant to Title 8, California Code of Regulations, section 16204.
3. Request from the Director of Industrial Relations a coverage determination regarding a specific project or type of work to be performed, pursuant to Title 8, California Code of Regulations, section 16001.
4. File a petition for review of a determination of the Director of Industrial Relations of any rate or rates, pursuant to Title 8, California Code of Regulations, section 16302.
5. Appeal an incorrect determination made by the Director of Industrial Relations, pursuant to Labor Code section 1773.4 and Title 8, California Code of Regulations, section 16002.5.
6. Pursuant to Labor Code section 1773.2, include a statement of prevailing rates of per diem wages in the call and advertisements for bids, the bid specifications and in the public works contract itself, or, in lieu of those requirements, the district may include in the call for bids, bid specifications and the contract itself a statement to the effect that copies of the prevailing rate of wages are on file in its principal office, and in that case the district must post the statement of prevailing wages at all job sites.
7. Maintain records of ineligible contractors and subcontractors and refuse to grant them public works projects of the district, pursuant to Labor Code section 1777.1 and Title 8, California Code of Regulations, sections 16800 through 16802.
8. Send copies of all awards to the Division of Apprenticeship Standards and notify the Division of any discrepancies, pursuant to Labor Code section 1777.3.
9. Inspect and audit payroll records of contractors and subcontractors working on district public works projects, when necessary or requested by the Director of Industrial Relations, pursuant to Labor Code section 1776.
10. Obtain and provide copies of the payroll records of the contractors and subcontractors working on district public works projects, when requested by appropriate parties; the records provided are required to be marked or obliterated to prevent disclosure of an individual's name, address and social security number, pursuant to Labor Code section 1776 and Title 8, California Code of Regulations, section 16402.

11. Pay the reasonable fees of a third party when contracting with that third party to initiate and enforce a Labor Compliance Program (LCP), pursuant to Labor Code sections 1771.5 and 1771.7.

12. For works commencing on or after April 1, 2003, oversee compliance with all the requirements of Labor Code sections 1771.5 and 1771.7, Title 8, California Code of Regulations, sections 16425 through16439, and Chapters 2, 3 and 5 of the AB 1506 Labor Compliance Program Guidebook ("Program Guidebook") when contracting with a third party to initiate and enforce an LCP, including but not necessarily limited to the withholding of contract payments and collecting and disbursing penalties and wages at the direction of the third party LCP.

13. Pursuant to Title 8, California Code of Regulations, section 16426, subdivision (a), when seeking approval of an LCP, submit evidence of the district's ability to operate its LCP and offering evidence on the following factors:

    a. Experience and training of the awarding body's personnel on public works labor compliance issues.

    b. The average number of public works contracts the awarding body annually administers.

    c. Whether the LCP is a joint or cooperative venture among awarding bodies, and how the resources and expanded responsibilities of the LCP compare to the awarding bodies involved.

    d. The awarding body's record of taking cognizance of Labor Code violations and withholding in the preceding five years.

    e. The availability of legal support for the LCP.

    f. The availability and quality of a manual outlining the responsibilities and procedures of the LCP to the awarding body.

    g. The method by which the awarding body will transmit notices to the Labor Commissioner of willful violations as defined in Labor Code section 1777.1, subdivision (d).

14. Complete a request for approval deemed by the Director of DIR to be deficient, or make other corrections as required, and resubmitting the request for approval of a LCP, pursuant to Title 8, California Code of Regulations, section 16426, subdivision (b).

15. Submit a request for an extension of an LCP at least 30 days prior to the anniversary date of the initial approval, pursuant to Title 8, California Code of Regulations,
section 16426, subdivision (c).

16. Make a written finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, an LCP as described in Labor Code section 1771.5, subdivision (b), pursuant to Labor Code section 1771.7, subdivision (d)(1). Transmit a copy of such written finding for school districts to the State Allocation Board, in the manner determined by that board, pursuant to

Labor Code section 1771.7, subdivision (d)(2)(A). Transmit a copy of such written finding for community college districts to the Director of DIR, in the manner determined by DIR, pursuant to Labor Code section 1771.7, subdivision (d)(3).

17. Comply with all the requirements of an LCP, when initiated and enforced by the district, pursuant to Labor Code sections 1771.5 or 1771.7 (for works commencing on or after April 1, 2003), Title 8, California Code of Regulations, sections 16425 through 16439, and Chapters 2, 3, and 5 of the Program Guidebook. These requirements include:

    a. Place in all bid invitations and public works contracts appropriate language concerning the requirements of the prevailing wage laws comprising Labor Code sections 1720 through 1861.

    b. Conduct a pre-job conference with the contractor and the subcontractors to discuss federal and state labor requirements applicable to the contract.

    c. Project contractors and subcontractors shall maintain and furnish, at a designated time, a certified copy of each weekly payroll containing a statement of compliance signed under penalty of perjury.

    d. Review and, if appropriate, audit payroll records to verify compliance with prevailing wage laws. These investigations shall be conducted by monitoring certified payroll records, investigating complaints from workers, and monitoring agencies and contractors, pursuant to the Program Guidebook, Chapter 4, Parts (A) and (B). Upon conclusion of the audit, prepare audits and findings and obtain the approval of recommended forfeitures from the Labor Commissioner.

    e. Withhold contract payments when payroll records are delinquent or inadequate.

    f. Withhold contract payments equal to the amount of underpayments and applicable penalties when, after investigation, it is established that underpayment has occurred. Withhold contract payments when payroll records are delinquent or inadequate, pursuant to Chapter 3 of the Program Guidebook.

    g. Serve on the contractor, any affected subcontractor, and any bonding company issuing a bond securing the payment of wages, a Notice of Withholding of Contract Payments using the form attached in Appendix 2 of the Program Guidebook.

    h. Mail a notice to DIR on a form titled Notice of Transmittal, found in Appendix 3 of the Program Guidebook, pursuant to Chapter 4 of the Program Guidebook.

    i. When a party requests review, mail a form titled Notice of Opportunity to Review Evidence, found in Appendix 4 of the Program Guidebook, pursuant to Chapter 4 of the Program Guidebook.

18. Provide contractors and subcontractors, bonding companies and sureties with Notice of Withholding of Contract Payments, using the form found in Appendix 2 of the Program Guidebook, when minimum wage law violations are discovered by the district, pursuant to Labor Code section 1771.6 and Title 8, California Code of

Regulations, section 17220. The notice shall be in writing and include the following information:

a. a description of the nature of the violation and basis for the notice;

b. the amount of wages, penalties and forfeitures due, including a specification of amounts that have been or will be withheld from available contract payments, as well as all additional amounts that the enforcing agency has determined are due, including the amount of any liquidated damages that potentially may be awarded under Labor Code section 1742.1, using the form found in Appendix 4 of the Program Guidebook;

c. the name and address of the office to whom a Request for Review may be sent;

d. information on the procedures for obtaining review of an Assessment or a Notice of Withholding of Contract Payments;

e. Notice of Opportunity to request a settlement meeting under Title 8, California Code of Regulations, section 17221; and

f. a statement appearing in bold, or another type face that makes it stand out from other text, to the effect that failure to submit a timely request for review will result in a final order that is binding on the contractor and subcontractor, and on the bonding company.

19. Complete and mail a Notice of Transmittal, as found in Appendix 3 of the Program Guidebook, to the DIR to begin the administrative review process.

20. Defend Notices to Withhold Contract Payments in administrative review proceedings and in court, pursuant to Chapter 4, paragraph iv(d) of the Program Guidebook.

21. Pursuant to Chapter 6 of the Program Guidebook, when investigating worker complaints of underpayment of prevailing wage rates: a) gather supporting documents from all available sources and analyze them for authenticity; and b) conduct a complete certified payroll record and/or project audit. This includes reviewing certified payroll records for errors, inconsistencies, discrepancies, falsification, misclassification, under-reporting, and any other omissions that render the records inaccurate where needed by comparing the inspector of records' daily log with all available records.

22. Pursuant to Chapter 6 of the Program Guidebook, conduct investigations on an as-needed basis by:

a. Calculating back wages and penalties.

b. Reviewing findings with the contractor and any subcontractor.

c. Writing a complete summary of the investigation with a statement of findings and recommended action for submission to DIR's Division f Labor Standards Enforcement for approval of withholdings.

d. Conducting settlement negotiations.

e. Testifying on behalf of the school district in appeal hearings and litigation.

f. Attending pre-bid and job-start meetings and monitoring active construction projects.

g. Interviewing workers to validate complaints.

23. Pursuant to Chapter 9 of the Program Guidebook, conduct audits on a random or as-needed basis, to include comparing certified payroll records to source documents such as front and back copies of canceled checks, time cards, copies of pay check stubs, payroll registers, personnel sign in sheets, daily logs and any other document which authenticates or corroborates that which has been reported.

24. Pursuant to Chapter 9 of the Program Guidebook, prepare cases and documentation to include:

a. Copies of workers' complaints.

b. Copies of all correspondence to the contractor.

c. Certified payroll records.

d. Inspector's daily log.

e. Correct prevailing wage determination and applicable increases.

f. Scope of work for trade classifications used.

g. Tabulation of bids.

h. Notice to proceed.

i. Notice of Completion (if applicable).

j. Surety company information.

k. Contractor's previous record of violations (if applicable).

l. The Notice of Withholding of Contract Payments (if applicable).

m. Release of Notice of Withholding of Contract Payments (if applicable).

n. Memo(s) to file.

25. Pursuant to Section 3.9 of the School Facility Program Substantial Progress and Expenditure Audit Guide ("Audit Guide"), in the event of any postaward audit of a school district by the State Allocation Board, pursuant to Labor Code section 1771.7, subdivision (d)(2)(C), submit a copy of the DIR approved LCP to which the project conformed and a copy of any third party provider contract.

26. Pursuant to Section 3.9 of the Audit Guide, at the time of an OSPC audit, be prepared to submit, upon request, the following:

a. All bid invitations and contracts that must contain language alluding to Labor Code sections 1770 through 1780 compliance and verification.

b. Evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set forth in Labor Code sections 1770 through 1780.

c. Evidence of weekly submittals of certified copies of payrolls for all contractors and subcontractors.

27. Pursuant to Section 3.9 of the Audit Guide, if a district elects to use its own employees for its LCP, provide the following additional information:

    a. The name of the district employee performing the LCP duties.

    b. The salary and benefits of the employee including transportation costs.

    c. A specific breakdown of hours spent by project subject to the LCP requirements.

28. Report any suspected violations of the prevailing wage laws to the Labor Commissioner, pursuant to Labor Code section 1726.

29. Withhold contract payments for underpaid wages and for penalties when, through the district's own investigation, the district determines a violation of prevailing wage laws has occurred, pursuant to Labor Code section 1726.

30. Withhold amounts necessary to satisfy Civil Wage and Penalty Assessments issued by the Labor Commissioner, pursuant to Labor Code section 1727.

31. Retain amounts withheld to satisfy a Civil Wage and Penalty Assessment until receiving a final order no longer subject to judicial review, pursuant to Labor Code section 1727.

32. After July 1, 2001, comply with all due process requirements for the benefit of contractors and subcontractors when amounts are withheld pursuant to a Civil Wage and Penalty Assessment or a Notice of Withholding of Contract Payments, including the providing of proper and timely notices, allowing review of evidence relied upon, appearance and participation at hearings and the appeals therefrom, pursuant to Labor Code section 1742 and Title 8, California Code of Regulations, section 17220.

33. After July 1, 2001, respond to petitions for writs of mandate filed by contractors and subcontractors seeking review of orders of the Labor Commissioner, including the retention of counsel to file timely responses, participating in pre-trial discovery matters, the trial of the cause, pre-trial and post-trial briefing, and the preparation of findings and judgment, pursuant to Labor Code section 1742.

34. Grant and participate in settlement meetings requested by contractors or subcontractors in an attempt to settle any disputed issue before formal hearing procedures, pursuant to Labor Code section 1742.1 and Title 8, California Code of Regulations, section 16413.

35. As a necessary party, appear and participate in legal proceedings resulting from any action against contractor or subcontractor filed by a joint labor-management committee for failure to pay prevailing wages, pursuant to Labor Code section 1771.2.

36. Furnish copies of payroll records of a contractor or subcontractor to a joint labor-management committee, when requested, obliterated only to prevent disclosure of social security numbers, pursuant to Labor Code section 1776.

Claimant stated in the original test claim it is estimated that the district has incurred, or will incur, in excess of $200 in staffing and other costs in excess of revenues annually, for the period from July 1, 2000 through June 2002, to implement the new duties mandated by the state, for which the district has not been reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement. In an amendment filed on July 31, 2003, page 7 of the Second Declaration of William McGuire states:

> To the extent that Clovis Unified School District commences a public works project subject to Labor Code Section 1771.7, it is estimated that Clovis Unified School District will incur in excess of $1,000, annually, in staffing and other costs to implement these new duties mandated by the state for which the district will not be reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement.

In that amendment, an additional declaration was provided by Thomas J. Donner from the Santa Monica Community College District alleging costs mandated by the state.

Claimant filed rebuttal comments to the comments submitted by the Department of Finance, the Department of Industrial Relations, and the Department of General Services, Office of Public School Construction. These rebuttal comments are addressed, as necessary, in the following analysis.

Position of Department of Finance

The Department of Justice filed comments on behalf of the Department of Finance, generally stating that the test claim statutes do not impose a new program or higher level of service on school districts or community college districts since there is no reimbursable mandate for costs of programs or services incurred as a result of the exercise of local discretion, citing *City of Merced v. State of California* (1984) 153 Cal.App.3d 777, 783. The Department then provides a specific response to each claim; those responses are addressed, as necessary, in the following analysis.

With regard to the test claim amendment addressing Labor Code section 1771.7, the Department states the section does not create a state mandate because districts voluntarily participate in the underlying program, i.e., the construction of schools with state bond money, citing *Department of Finance v. Commission on State Mandates* (2003) 30 Cal.4th 727, 740. Even assuming there was a mandate, the Department points out that the state has provided additional funds for the costs of LCPs, and LCPs also generate revenues and costs savings. The Department argues that the claimant has not shown that it has any costs above these additional funds, revenues and cost savings.

Position of Department of Industrial Relations (DIR)

The DIR states that, since 1975, the state has taken on more of local agencies' historic responsibilities for determining and enforcing prevailing wages to make the prevailing wage duties clearer and less onerous, and leaving behind only minimal recordkeeping tasks. This type of shift from local agencies to the state does not trigger reimbursement under the requirements of article XIII B of the California Constitution. DIR points out that to the extent there has been any expansion in the scope of public works, the consequent obligation to pay prevailing wages directly affects private contractors and only indirectly affects local

governments. DIR then provides specific responses to each claim, which are addressed, as necessary, in the following analysis.

In additional comments, DIR applies the principles of the *Department of Finance v. Commission on State Mandates* case to the test claim, concluding that claimant has not met its burden of showing districts are compelled to participate in the underlying programs, i.e., either engage in construction of school facilities or engage in such projects via contract. DIR further notes that state funding for school construction is already provided through the State Allocation Board, which allocates money to districts based on formulas that pay between 40% to 80% of the cost of construction. DIR argues that the claimant has not made a credible case that such funding does not take care of whatever costs they have incurred.

With regard to the test claim amendment addressing Labor Code section 1771.7, the DIR states that no reimbursement is required because the newly created LCPs are voluntary programs for local school districts, and districts already receive state construction bond funding for their activities from the State Allocation Board. DIR further points out that district LCPs also are allowed to retain any penalties assessed and collected while enforcing the CPWL.

Position of Department of General Services, Office of Public School Construction

The Office of Public School Construction (OSPC), in commenting on the test claim amendment addressing Labor Code section 1771.7, states that participation by a school district in the School Facility Program (SFP), established by Chapter 12.5 of the Education Code, is voluntary:

> The Education Code does not compel a district to obtain funding from the State through the SFP as a condition of building schools. School districts may choose to build facilities through the use of district raised funds. Program elements are only required if a district chooses to participate in the program. Additionally, Labor Code … Section 1771.7 states "an awarding body that *chooses* to use funds derived from either the Kindergarten-University Public Education Facilities Bond Act of 2002 … for a public works project, shall initiate and enforce … a labor compliance program".[98]

The OSPC further states that the State Allocation Board (SAB) has authority to increase the per pupil grant amount to accommodate the State's share for the additional costs due to the initiation and enforcement of an LCP; the increases were approved by the SAB on July 2, 2003, and are currently being provided.

Interested Person -- State Building and Construction Trades Council of California (AFL-CIO)

The State Building and Construction Trades Council (SBCTC) filed comments on the test claim as an interested person, pursuant to Title 2, California Code of Regulations, section 1181.1, subdivision (*l*). The SBCTC states that the test claim should be denied for the following reasons:

---

[98] Comments from Department of General Services, Office of Public School Construction, Luisa M. Park, Executive Officer, September 15, 2003, page 1.

1. Any "mandate" imposed by the CPWL is on private contractors, not the local agency. It is possible that if private contractors have higher labor costs, such costs might be passed on to their customers; however, the contractor's cost of paying higher wages to workers on a project may well be offset by the increased skill and productivity of those workers. Several recent studies conclude that the prevailing wage law does not actually increase total school construction costs, and the claimant has presented no evidence to the contrary. SBCTC provided a copy of one study: "A Comparison of Public School Construction Costs" by Peter Philips, Ph.D., Professor of Economics, University of Utah, February, 2001.
2. Although the CPWL does impose minor direct costs on school districts to administer and enforce the law, what has occurred since 1975 is the opposite of an unfunded state mandate since the state has taken upon itself responsibilities that were formerly borne by local agencies — i.e., determining prevailing wage rates and enforcing the CPWL.
3. It is correct to state that there has been some expansion in the definition of "public work" since 1975; however, many of the changes to that definition were actually clarifications of the pre-1975 statutory language and claimant has not presented any evidence that these minor changes have had any practical effect on school district construction projects.

Discussion

The courts have found that article XIII B, section 6 of the California Constitution[99] recognizes the state constitutional restrictions on the powers of local government to tax and spend.[100] "Its purpose is to preclude the state from shifting financial responsibility for carrying out governmental functions to local agencies, which are 'ill equipped' to assume increased financial responsibilities because of the taxing and spending limitations that articles XIII A and XIII B impose."[101]

A test claim statute or executive order may impose a reimbursable state-mandated program if it orders or commands a local agency or school district to engage in an activity or task.[102] In

---

[99] Article XIII B, section 6, subdivision (a), (as amended by Proposition 1A in November 2004) provides: "Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the State shall provide a subvention of funds to reimburse that local government for the costs of the program or increased level of service, except that the Legislature may, but need not, provide a subvention of funds for the following mandates: (1) Legislative mandates requested by the local agency affected. (2) Legislation defining a new crime or changing an existing definition of a crime. (3) Legislative mandates enacted prior to January 1, 1975, or executive orders or regulations initially implementing legislation enacted prior to January 1, 1975."

[100] *Department of Finance v. Commission on State Mandates* (*Kern High School Dist.*) (2003) 30 Cal.4th 727, 735.

[101] *County of San Diego v. State of California* (*County of San Diego*) (1997) 15 Cal.4th 68, 81.

[102] *Long Beach Unified School Dist. v. State of California* (1990) 225 Cal.App.3d 155, 174.

addition, the required activity or task must be new, constituting a "new program," or it must create a "higher level of service" over the previously required level of service.[103]

The courts have defined a "program" subject to article XIII B, section 6, of the California Constitution, as one that carries out the governmental function of providing public services, or a law that imposes unique requirements on local agencies or school districts to implement a state policy, but does not apply generally to all residents and entities in the state.[104] To determine if the program is new or imposes a higher level of service, the test claim requirements must be compared with the legal requirements in effect immediately before the enactment of the test claim statutes.[105] A "higher level of service" occurs when there is "an increase in the actual level or quality of governmental services provided."[106]

Finally, the newly required activity or increased level of service must impose costs mandated by the state.[107]

The Commission is vested with exclusive authority to adjudicate disputes over the existence of state-mandated programs within the meaning of article XIII B, section 6.[108] In making its decisions, the Commission must strictly construe article XIII B, section 6 and not apply it as an "equitable remedy to cure the perceived unfairness resulting from political decisions on funding priorities."[109]

The analysis addresses the following issues:

- Do the test claim statutes, regulations or alleged executive orders impose a state-mandated program on K-12 school districts or community college districts within the meaning of article XIII B, section 6 of the California Constitution?
- Do the test claim statutes or regulations impose a new program or higher level of service within the meaning of article XIII B, section 6 of the California Constitution?

- Do the test claim statutes or regulations impose costs mandated by the state within the meaning of Government Code section 17514 and article XIII B, section 6 of the California Constitution?

Issue 1: Do the test claim statutes, regulations or alleged executive orders impose a state-mandated program on K-12 school districts or community college districts within the meaning of article XIII B, section 6 of the California Constitution?

For the test claim statutes, regulations or alleged executive orders to impose a state-mandated program, the language must order or command a school district or community college district to engage in an activity or task. If the language does not do so, then article XIII B, section 6 is not triggered. Moreover, where program requirements are only invoked after the district has made an underlying discretionary decision causing the requirements to apply, or where participation in the underlying program is voluntary, courts have held that resulting new requirements do not constitute a reimbursable state mandate.[110] Stated another way, a reimbursable state mandate is created when the test claim statutes or regulations establish conditions under which the state, rather than a local entity, has made the decision requiring the district to incur the costs of the new program.[111]

The claimant asserts the test claim statutes, regulations and alleged executive orders require districts to perform new activities to comply with state prevailing wage requirements, the costs of which are reimbursable under article XIII B, section 6. Since the provisions of the CPWL are only applicable to public works projects performed under contract, and not to work carried out by a public agency with its own forces,[112] the analysis must first address whether the state is requiring a school district or community college district to engage in any public works projects or to contract out for such projects. Then, the alleged new activities must be analyzed to determine whether they are required or mandated by the plain language of the test claim statutes, regulations, or alleged executive orders.

Do Districts Have Discretion to Undertake Public Works Projects?

Types of Public Works Projects Subject to CPWL

The Labor Code sets forth the types of projects that are considered "public works," subject to the CPWL. Prior to 1975, public works projects subject to prevailing wages generally included: 1) construction; 2) alteration; 3) demolition; 4) repair work; 5) work done for irrigation, utility, reclamation and improvement districts; 6) street, sewer or other improvement work; 7) laying of carpet; and 8) maintenance work.[113] Since 1975, the test claim statutes added new types of public works projects:

- Labor Code section 1720 was modified to add:

---

[110] *City of Merced v. State of California* (1984) 153 Cal.App.3d 777, 783; *Kern High School Dist., supra,* 30 Cal.4th 727, 727.

[111] *San Diego Unified School Dist., supra* (2004) 33 Cal.4th 859, 880.

[112] Labor Code section 1771.

[113] Labor Code sections 1720 and 1771 in effect as of January 1, 1975.

- public transportation demonstration projects (effective August 7, 1989);
- design and preconstruction, including land surveying (effective January 1, 2001); and
- installation projects (effective January 1, 2002).

- Effective January 1, 1981, Labor Code section 1720.2 was amended to include projects done under private contract where the property subject to the contract is privately owned but upon completion of the construction work more than 50 percent of the property is leased to the state or a political subdivision for its use *and* the construction work is performed according to plans or specifications furnished by the state or a political subdivision with a lease agreement that is entered into between a lessor and the state or political subdivision as lessee during or upon completion of the project.
- Effective January 1, 2000, Labor Code section 1720.3 was amended to state that contracts for the removal of refuse from a public works construction site entered into by "any political subdivision" – which includes K-12 school districts and community college districts – are public works projects.

Each of these new types of public works projects is now subject to the CPWL.[114] The timing for CPWL coverage is significant here for purposes of the mandates analysis. The pre-existing public works projects were already subject to the pre-existing CPWL administrative requirements, while the new public works projects only became subject to and therefore triggered the pre-existing requirements at the time they were enacted.[115] Thus, for pre-existing public works projects, only the *newly-imposed* CPWL administrative requirements that are claimed could be subject to reimbursement. For *newly-covered* public works projects, however, all CPWL administrative requirements *that are claimed*, both pre-existing and new, could be subject to reimbursement.

Discretion to Undertake Public Works Projects

The foregoing provisions show that the CPWL covers a broad range of public works projects. The decision to undertake such projects could arise in a myriad of ways, from a district-level decision to an initiative enacted by the voters.

With regard to K-12 school districts, Education Code section 17593 requires those districts to keep schools in repair:

> The clerk of each district except a district governed by a city or city and county board of education shall, under the direction of the governing board, keep the schoolhouses in repair during the time school is taught therein, and exercise a general care and supervision over the school premises and property during the vacations of the school.

---

[114] Labor Code section 1771: "... not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the public work is performed ... shall be paid to all workers employed on public works."

[115] See footnote 97 regarding effective date for CPWL coverage of design and pre-construction, including land surveying.

Moreover, Education Code section 17565 requires the governing board of any school district to "furnish, repair, insure against fire, and in its discretion rent the school property of its districts."

Education Code section 17002 defines "good repair" to mean:

> [T]he facility is maintained in a manner that assures that it is clean, safe, and functional as determined pursuant to an interim evaluation instrument developed by the Office of Public School Construction. The instrument shall not require capital enhancements beyond the standards for which the facility was designed and constructed.

With regard to community college districts, Education Code section 81601 states:

> The governing board of a community college district shall furnish, repair, insure against fire, and in its discretion rent the school property of its districts. ...

Thus, both K-12 school districts and community college districts are required by statute to repair the school property of their districts. Since "property" includes "any external thing over which the rights of possession, use, and enjoyment are exercised,"[116] the requirement to repair includes real property as well as facilities owned by the district. Moreover, because the term "repair" is defined as "to restore to sound condition after damage or injury" and "to renew or refresh,"[117] staff finds that "repair" includes "maintenance" for purposes of these provisions.

These statutes, therefore, constitute legal compulsion for K-12 school districts and community college districts to repair and maintain their facilities and property.

Aside from the above statutory requirements, however, there is no evidence in the test claim statutes, regulations, alleged executive orders, or in the record that the state has legally compelled districts to undertake other public works projects that *do not* involve repair or maintenance, including the newly-covered public works projects. In fact, with regard to new construction of school buildings, the Second District Court of Appeal has stated: "Where, when or how, if at all, a school district shall construct school buildings is within the sole competency of its governing board to determine."[118]

Absent such legal compulsion, the courts have ruled that at times, based on the particular circumstances, "practical" compulsion might be found. The Supreme Court in *Kern High School Dist.* addressed the issue of "practical" compulsion in the context of a school district that had participated in optional funded programs in which new requirements were imposed. In *Kern,* the court determined there was no "practical" compulsion to participate in the underlying programs, since a district that elects to discontinue participation in a program does not face "certain and severe ... penalties" such as "double ... taxation" or other "draconian" consequences.[119]

[116] Black's Law Dictionary, Seventh Edition, 1999, page 1232, column 2.

[117] Webster's II, New Collegiate Dictionary, 1999, page 939, column 2.

[118] *People v. Oken, supra,* 159 Cal.App.2d 456, 460.

[119] *Kern High School Dist., supra,* 30 Cal.4th 727, 754.

In the case of *San Diego Unified School Dist.*, the test claim statutes required school districts to afford to a student specified hearing procedures whenever an expulsion recommendation was made and before a student could be expelled.[120] The Supreme Court held that hearing costs incurred as a result of statutorily required expulsion recommendations, e.g., where the student allegedly possessed a firearm, constituted a reimbursable state-mandated program.[121] Regarding expulsion recommendations that were discretionary on the part of the district, the court stated that in the absence of legal compulsion, compulsion *might* nevertheless be found when a school district exercised its discretion in deciding to expel a student for a serious offense to other students or property, in light of the state constitutional requirement to provide safe schools.[122] Ultimately, however, the Supreme Court decided the discretionary expulsion issue on an alternative basis.[123]

There is no evidence in the record to indicate that failure to undertake public works projects that are not otherwise legally compelled would result in certain and severe penalties such as double taxation or other draconian consequences as set out in the *Kern* case. Nor does the record show that the circumstances here are similar to those faced by the *San Diego* court regarding school safety. Although school safety was mentioned in the context of the statutory repair and maintenance requirements, nothing in the record indicates that failure to undertake *other* public works projects that are not required in statute would result in unsafe schools.

Instead, staff finds that public works projects that are entered into for purposes other than repair and maintenance are discretionary, analogous to the situation in *City of Merced*. There, the issue before the court was whether reimbursement was required for new statutory costs imposed on the local agency to pay a property owner for loss of goodwill, when a local agency exercised the power of eminent domain.[124] The court stated:

> Whether a city or county decides to exercise eminent domain is, essentially, an option of the city or county, rather than a mandate of the state. The fundamental concept is that the city or county is not required to exercise eminent domain. If, however, the power of eminent domain is exercised, then the city will be required to pay for loss of goodwill. Thus, payment for loss of goodwill is not a state-mandated cost.[125]

The Supreme Court in *Kern High School District* reaffirmed the *City of Merced* rule in applying it to voluntary education-related funded programs:

> The truer analogy between [*Merced*] and the present case is this: In *City of Merced*, the city was under no legal compulsion to resort to eminent domain – but when it elected to employ that means of acquiring property, its obligation to compensate for lost business goodwill was not a

[122] *Id.* at page 887, footnote 22.

[123] *Id.* at page 888.

[124] *City of Merced, supra,* (1984) 153 Cal.App.3d 777, 777.

[125] *Id.* at 783.

> reimbursable state mandate, because the city was not required to employ eminent domain in the first place. Here as well, if a school district elects to participate in or continue participation in any underlying *voluntary* education-related funded program, the district's obligation to comply with the notice and agenda requirements related to that program does not constitute a reimbursable state mandate.[126]

The Code of Civil Procedure provision that was cited in *City of Merced* states:

> Nothing in this title requires that the power of eminent domain be exercised to acquire property necessary for public use. Whether property necessary for public use is to be acquired by purchase or other means or by eminent domain is a decision left to the discretion of the person authorized to acquire the property.[127]

The Law Revision Commission's comment on this provision stated:

> Section 1230.030 makes clear that whether property is to be acquired by purchase or other means, or by exercise of the power of eminent domain, is a discretionary decision. Nothing in this title requires that the power of eminent domain be exercised; but, if the decision is that the power of eminent domain is to be used to acquire property for public use, the provisions of this title apply except as otherwise specifically provided by statute. ...[128]

The holding in *City of Merced* applies in this instance. A K-12 school district's or community college district's decision to undertake a public works project, other than for repair or maintenance of school buildings and property, is analogous to the discretionary decision to acquire property via eminent domain, and there is no evidence in the law or in the record that districts are practically compelled to engage in such public works projects.

Therefore, staff finds that the state has required K-12 school districts and community college districts to undertake public works projects to repair or maintain facilities and property of K-12 school districts and community college districts. The state has *not* required these districts to undertake any other public works projects. Consequently, any prevailing wage requirements, *when triggered by a public works project that does not address repair or maintenance*, are not mandated by the state and are not subject to article XIII B, section 6.

Moreover, since repair and maintenance types of public works projects were covered by the CPWL prior to 1975, only those CPWL administrative requirements claimed that were imposed *on or after January 1, 1975*, could be subject to reimbursement.

[127] Code of Civil Procedure section 1230.030.

[128] California Law Revision Commission comment, 19 West's Annotated Code of Civil Procedure (1982 ed.) following section 1230.030, p. 414.

Do Districts Have Discretion to Contract Out for Repair or Maintenance Public Works Projects?

Since the requirement to pay prevailing wages is limited to work performed under contract, the next question is whether the state requires K-12 school districts or community college districts to contract out for public works projects for repair or maintenance of school facilities or property, or whether the district can use its own forces for the project. As more fully described below, staff finds there are some circumstances under which K-12 school districts and community college districts cannot use their own forces and are required to contract out for maintenance and repair public works projects.

The Public Contract Code governs when districts are required to contract out, and sets forth various definitions for projects that encompass repair and maintenance public works projects. Section 22002, subdivision (c), defines "public project" as:

> (1) Construction, reconstruction, erection, alteration, renovation, improvement, demolition, and *repair* work involving any publicly owned, leased, or operated facility.[129]
> (2) Painting or repainting of any publicly owned, lease, or operated facility.
> (3) In the case of a publicly owned utility system, "public project" shall include only construction, erection, improvement, or repair of dams, reservoirs, powerplants, and electrical transmission lines of 230,000 volts and higher. (Emphasis added.)

Subdivision (d) of section 22002 states that "public project" does not include "maintenance work" which includes all of the following:

> (1) Routine, recurring, and usual work for the preservation or protection of any publicly owned or publicly operated facility for its intended purposes.
> (2) Minor repainting.
> (3) Resurfacing of streets and highways at less than one inch.
> (4) Landscape maintenance, including mowing, watering, trimming, pruning, planting, replacement of plants, and servicing of irrigation and sprinkler systems.
> (5) Work performed to keep, operate, and maintain publicly owned water, power, or waste disposal systems, including, but not limited to, dams, reservoirs, powerplants, and electrical transmission lines of 230,000 volts and higher.

Thus, "public project" for purposes of the Public Contract Code is generally characterized as construction work on public property. Public projects are clearly distinguished from "maintenance."

The Public Contract Code generally requires school districts and community college districts to contract out with the lowest responsible bidder for construction, repairs and maintenance.[130]

---

[129] Public Contract Code section 22002, subdivision (e), defines "facility" as "any plant, building, structure, ground facility, utility system, subject to the limitation found in paragraph (3) of subdivision (c), real property, streets and highways, or other public work improvement.

[130] Public Contract Code sections 20111 and 20651.

There are exceptions, however. For instance, when emergency repairs are needed for any facility to permit the continuance of existing classes or to avoid danger to life or property, the governing board of a school district or community college district is allowed to use its own forces to make such repairs.[131] In addition, the governing board of a school district or community college district is allowed to use its own forces to make repairs and other improvements under certain "work limits." For K-12 school districts, Public Contract Code section 20114 provides the following work limits:

> (a) In each school district, the governing board may make repairs, alterations, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance as defined in Section 20115[132, 133] by day labor, or by force account, whenever the total number of hours on the job

---

[131] Public Contract Code sections 20113 and 20654.

[132] Public Contract Code section 20115 defines "maintenance" in this instance as "routine, recurring, and usual work for the preservation, protection, and keeping of any publicly owned or publicly operated facility for its intended purpose in a safe and continually usable condition for which it was designed, improved, constructed, altered, or repaired." This includes, but is not limited to: "carpentry, electrical, plumbing, glazing, and other craftwork designed consistent with the definition set forth above to preserve the facility in a safe, efficient, and continually usable condition for which it was intended, including repairs, cleaning, and other operations on machinery and other equipment permanently attached to the building or realty as fixtures." These provisions express the Legislature's intent that maintenance does not include painting, repainting, or decorating other than touchup, but instead those activities are to be controlled directly by the work limits under section 20114.

[133] For purposes of the Labor Code, "maintenance" is similarly defined:

> (1) Routine, recurring and usual work for the preservation, protection and keeping of any publicly owned or publicly operated facility (plant, building, structure, ground facility, utility system or any real property) for its intended purposes in a safe and continually usable condition for which it has been designed, improved, constructed, altered or repaired.
> (2) Carpentry, electrical, plumbing, glazing, touchup painting, and other craft work designed to preserve the publicly owned or publicly operated facility in a safe, efficient and continually usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures.
> EXCEPTION: 1: Janitorial or custodial services of a routine, recurring or usual nature is excluded.
> EXCEPTION: 2: Protection of the sort provided by guards, watchmen, or other security forces is excluded.
> (3) Landscape maintenance. See Public Contract Code Section 21002 [subsequently renumbered to section 22002].
> EXCEPTION: Landscape maintenance work by "sheltered workshops" is excluded. (Title 8, Cal. Code Regs., tit. 8, § 16000.)

does not exceed 350 hours. Moreover, in any school district having an average daily attendance of 35,000 or greater, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment, including painting or repainting, and perform maintenance, as defined in Section 20115, by day labor or by force account whenever the total number of hours on the job does not exceed 750 hours, or when the cost of material does not exceed twenty-one thousand dollars ($21,000).
(b) For purposes of this section, day labor shall include the use of maintenance personnel employed on a permanent or temporary basis.

For community college districts, Public Contract Code section 20655 provides the following work limits:

(a) In each community college district, the governing board may make repairs, alterations, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance as defined in Section 20656[134] by day labor, or by force account, whenever the total number of hours on the job does not exceed 350 hours. Moreover, in any district whose number of full-time equivalent students is 15,000 or greater, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment, including painting or repainting, and perform maintenance, as defined in Section 20656, by day labor or by force account whenever the total number of hours on the job does not exceed 750 hours, or when the cost of materials does not exceed twenty-one thousand dollars ($21,000).
(b) For purposes of this section, day labor shall include the use of maintenance personnel employed on a permanent or temporary basis.

Notwithstanding the above provisions, the limits can be *increased* for public projects when a K-12 school district or community college district operates under the Uniform Public Construction Cost Accounting Act (UPCCAA).[135] The UPCCAA provides that public projects, which exclude maintenance, of $30,000 or less may be performed by a school district or community college district by its own forces.[136] Thus, for those districts subject to the UPCCAA, when the project is not an emergency as set forth in sections 20113 or 20654, contracting out is only required for a public project, as defined, when the cost of such project will exceed $30,000.

---

[134] Public Contract Code section 20656 defines "maintenance" for this purpose in the same manner as Public Contract Code section 20115. Section 20656 expresses the Legislature's intent that maintenance does not include painting, repainting, or decorating other than touchup, but instead those activities are to be controlled directly by the work limits under section 20655.

[135] Public Contract Code sections 22000 et seq.

[136] Public Contract Code section 22032; prior to January 1, 2007, the dollar limit for public projects that could be performed by the district was $25,000.

In summary, school districts and community college districts are required by state statute to contract out for repairs or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or
    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000.
2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and
    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or
    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000.
3. For any K-12 school district or community college district that is subject to the UPCCAA, when a public project, as defined, is not an emergency as set forth in Public Contract Code section 20113 or 20654, and the project cost will exceed $30,000.

Staff finds these requirements constitute legal compulsion since the state, through the Education Code and Public Contract Code, requires K-12 school districts and community college districts to undertake public works projects to repair or maintain their facilities and property via contract under the circumstances specified above.

Thus, repair or maintenance public works projects, when contracted for under the circumstances set forth above, are not discretionary. Moreover, since repair and maintenance public works projects were covered by the CPWL prior to 1975, only those CPWL administrative requirements claimed, that were imposed *on or after January 1, 1975*, could be subject to reimbursement.

Do the Test Claim Statutes, Regulations and Alleged Executive Orders Mandate Any Activities When a District is Required to Contract Out for Repairs or Maintenance of School Buildings or Property?

The next question is whether the plain language of the test claim statutes, regulations or alleged executive orders, on or after January 1, 1975, mandates any activities on K-12 school districts or community college districts when a district is required by law to contract out for repair or maintenance public works projects.

A. Determining Prevailing Wage Coverage and Rates

1. Obtain Correct Prevailing Wage Rates – Labor Code Section 1773 and Title 8, California Code of Regulations, Sections 16202 and 16204

Labor Code section 1773 states in relevant part:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall obtain the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality in which the public work is to be performed for each craft, classification, or type of worker needed to execute the contract from the Director of Industrial Relations.

Section 16202 of the regulations states in relevant part:

> (a) Awarding body request. The awarding body shall request the Director to make a determination for a particular craft, classification or type of worker not covered by a general determination. Any such request shall be submitted at least 45 days prior to the bid advertisement date.

Section 16204 of the regulations, dealing with effective dates of rate determinations and rates, states in relevant part:

> (a)(5) It shall be the responsibility of the awarding body to ensure that the correct determination is used.

The plain language of this regulation requires the awarding body to "ensure" that the correct determination is used. This provision does not impose the activity of ensuring that the Director of Industrial Relations made a correct determination, as claimant asserts; rather it imposes the activity of ensuring that the appropriate wage rates, as determined by Director of Industrial Relations and as obtained by the awarding body, are properly used in the contract.

Thus, the plain language of the statute and regulations cited require the awarding body to obtain both the general prevailing wage rate and any special rates from the Director of Industrial Relations, and ensure that the appropriate rates are used in the contract.

2. Coverage Determinations – Title 8, California Code of Regulations, Section 16001

Section 16001 of the regulations states in relevant part:

> (a)(1) Any interested party ... *may* file with the Director of Industrial Relations ... a request to determine coverage under the prevailing wage laws regarding either a specific project or type of work to be performed which that interested party believes may be subject to or excluded from coverage as a public works under the Labor Code. ...
>
> (2) Within 15 days of receipt of a copy of the request for a coverage determination, the awarding body shall forward to the Director ... any documents, arguments, or authorities it *wishes* to have considered in the coverage determination process. (Emphasis added.)

Thus, the plain language of this provision shows that an awarding body may, but is not required to, request a coverage determination from the Director of Industrial Relations. The

awarding body must provide documentation to the Director by a date certain if it *wishes* to have that documentation considered. Thus, no activities are required of the awarding body by this regulation.

3. Review of Prevailing Wage Rate Determination – Title 8, California Code of Regulations, Section 16302

Section 16302 of the regulations provides that an interested party, including an awarding body, "*may* file with the Director or the Chief of DLSR, within 20 days after commencement of advertising of a call for bids by any awarding body, a petition to review a determination of any rate or rates made by the Director ..." (Emphasis added.) Thus, the awarding body is not required to file such a petition, and no activities are required.

4. Appeal of Public Work Coverage Determination – Labor Code Section 1773.4 and Title 8, California Code of Regulations, Section 16002.5

Section 16002.5 of the regulations, as it interprets Labor Code section 1773.4, provides that an interested party, including an awarding body, "*may* appeal to the Director of Industrial Relations ... a determination of coverage under the public works laws ... regarding either a specific project or type of work ..." (Emphasis added.) Thus, the awarding body is not required to make such appeal, and no activities are required.

B. Notices and Reports

1. Statement of Prevailing Wage Rates – Labor Code Section 1773.2

Labor Code section 1773.2 states:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall specify in the call for bids for the contract, and in the bid specifications and in the contract itself, what the general rate of per diem wages is for each craft, classification, or type of worker needed to execute the contract.
>
> In lieu of specifying the rate of wages in the call for bids, and in the bid specifications and in the contract itself, the awarding body may, in the call for bids, bid specifications, and contract, include a statement that copies of the prevailing rate of per diem wages are on file at its principal office, which shall be made available to any interested party on request. The awarding body shall also cause a copy of the determination of the director of the prevailing rate of per diem wages to be posted at each job site.

Labor Code section 1773.2 does impose on the awarding body the activity of providing notice, in either of the fashions set forth.

2. Ineligible Contractors and Subcontractors – Labor Code Section 1777.1 and Title 8, California Code of Regulations, Sections 16800 through 16802.

Labor Code section 1777.1, subdivision (d), requires the Labor Commissioner, not less than semi-annually, to "publish and distribute to awarding bodies a list of contractors who are ineligible to bid on or be awarded a public works contract, or to perform work as a subcontractor on a public works project ..." Sections 16800 through 16802 set forth

procedures for the Division of Labor Standards Enforcement to investigate and conduct hearings for debarment of contractors and subcontractors.

The plain language of the test claim statute and regulations does not impose any activities on the awarding body.

3. Notice Regarding Apprenticeship Standards – Labor Code Sections 1773.3 and 1777.5, Subdivision (n)

Labor Code section 1773.3 states:

> An awarding agency whose public works contract falls within the jurisdiction of Section 1777.5 shall, within five days of the award, send a copy of the award to the Division of Apprenticeship Standards. ... Within five days of a finding of any discrepancy regarding the ratio of apprentices to journeymen, pursuant to the certificated fixed number of apprentices to journeymen, the awarding agency shall notify the Division of Apprenticeship Standards.

Section 1777.5 sets apprenticeship standards. Subdivision (n) states:

> The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. The stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.

The plain language of the test claim statute requires the awarding body, when apprentices will be used in the contract, to include language in the contract regarding apprenticeship requirements and provide a copy of the contract award to the Division of Apprenticeship Standards.

4. Take Cognizance of and Report Suspected Violations — Labor Code Section 1726

Labor Code section 1726 states in relevant part:

> The body awarding the contract for public work shall take cognizance of violations of this chapter committed in the course of the execution of the contract, and shall promptly report any suspected violations to the Labor Commissioner.

Thus, the plain language of this test claim statute requires the awarding body to take cognizance of and report any suspected violations to the Labor Commissioner.

D. Payroll Records – Labor Code Section 1776 and Title 8, California Code of Regulations, Sections 16400 - 16403

Labor Code section 1776 states in relevant part:

> (a) Each contractor and subcontractor shall keep accurate payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public

work. Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury ...

(b) The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor on the following basis:

(1) A certified copy of an employee's payroll record shall be made available for inspection or furnished to the employee or his or her authorized representative on request.

(2) A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.

(3) A certified copy of all payroll records enumerated in subdivision (a) *shall* be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the body awarding the contract, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. If the requested payroll records have not been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through which the request was made. The public shall not be given access to the records at the principal office of the contractor.

...

(e) Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement *shall* be marked or obliterated to prevent disclosure of an individual's name, address, and social security number. The name and address of the contractor awarded the contract or the subcontractor performing the contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal labor Management Cooperation Act of 1978 ... *shall* be marked or obliterated only to prevent disclosure of an individual's social security number. ...

...

(g) The contractor or subcontractor shall have 10 days in which to comply subsequent to receipt of a written notice requesting the records enumerated in subdivision (a). In the event that the contractor or subcontractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portion thereof,

for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties *shall* be withheld from progress payments then due. A contractor is not subject to a penalty assessment pursuant to this section due to the failure of a subcontractor to comply with this section.

(h) The body awarding the contract *shall* cause to be inserted in the contract stipulations to effectuate this section.

(i) The director shall adopt rules consistent with the California Public Records Act ... and the Information Practices Act of 1977 ... governing the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section. (Emphasis added.)

Section 16400 of the regulations states in relevant part:

(c) Acknowledgment of Request. The public entity receiving a request for payroll records *shall* acknowledge receipt of such, and indicate the cost of providing the payroll records based on an estimate by the contractor, subcontractor or public entity. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16400(d) below, to the person who requested said records.

(d) Request to Contractor. The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following:

(1) Specify the records to be provided and the form upon which the information is to be provided;

(2) Conspicuous notice of the following:

(A) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and

(B) that failure to provide certified copies of the records to the requesting public entity within 10 working days of the receipt of the request will subject the contractor to a penalty of twenty-five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated;

(3) Cost of preparation as provided in Section 16402; and

(4) Provide for inspection.

(e) Inspection of Payroll Records. Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of

> Section 1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice. (Emphasis added.)

Section 16401 provides that the format for reporting payroll records by the contractor shall be on a form provided by the public entity and that copies of such forms are available at any office of the Division of Labor Standards Enforcement throughout the state. The section also provides specified words for the required certification, but allows the public entity to require a more strict or extensive form of certification.

Section 16402 of the regulations states:

> The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

Section 16403 of the regulations states:

> (a) Records received from the employing contractor *shall* be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;
>
> (b) copies provided to the public upon written request *shall* be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;
>
> (c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information. (Emphasis added.)

In summary, requests by the public for certified payroll records can only be made through the awarding body, Division of Labor Standards Enforcement, or the Division of Apprenticeship Standards, and any copies provided to the public shall be redacted to prevent disclosure of an individual's name, address, social security number and other private information. Once the awarding body receives a request for the records from the public, the awarding body is required to send an acknowledgment to the requesting party and indicate to the requestor the costs for preparing the records. The awarding body's request to the contractor for the records must include specified information. The requesting party is required to reimburse the costs of preparing the records by the contractor, subcontractors, and the awarding body or other entity through which the request was made; the regulation establishes those costs, and requires that

payment be made by the person seeking the record prior to release of the documents to cover the actual costs of preparation. The regulations further require that the awarding body keep unredacted copies of any such payroll records on file for at least 6 months following completion and acceptance of the project, or longer if the project is disputed. Upon request of the Division of Apprenticeship Standards or the Division of Labor Standards, the awarding body is required to withhold from contractor progress payments any penalties for the contractor's noncompliance. The body awarding the contract is also required to include in the contract stipulations regarding the contractor's requirements regarding payroll records.

With regard to providing certified payroll records to a joint labor-management committee under Labor Code section 1776, subdivision (e), it is unclear from the plain language of the statute whether such records must be provided by the awarding body or if such records may be provided by the contractor, since subdivision (b)(3) states: "The public shall not be given access to the records at the principal office of the contractor."

In interpreting statutes, the primary rule is to ascertain the intent of the Legislature so as to effectuate the purpose of the statute.[137] The first step is to examine the statutory language, giving the words their usual and ordinary meaning.[138] If there is ambiguity, extrinsic sources including legislative history may be used so that the general purpose of the statute is promoted rather than defeated.[139]

In this case, the Legislature enacted statutes to allow a joint labor-management committee the ability to independently enforce prevailing wage requirements under Labor Code section 1771.2.[140] As part of that enactment, section 1776 was modified to address certified payroll records released to a joint labor-management committee. The Senate Rules Committee bill analysis stated:

> This bill provides that a federally recognized joint labor-management committee may obtain a copy of a certified payroll from a *contractor* on a public works project, but with names and social security numbers deleted. If the committee discovers unpaid prevailing wages or fringe benefits due, and related penalties, it may file a civil action to collect them. ...[141] (Emphasis added.)

Thus it is clear from the legislative history that the provisions were intended to allow the joint labor-management committee to obtain certified payroll records directly from the contractor rather than the awarding body.

[139] *Ibid.*

[140] Statutes 2001, chapter 804.

[141] Senate Rules Committee, Office of Senate Floor Analyses, SB 588 Bill Analysis, September 12, 2001, page 2.

Therefore, the test claim statutes and regulations require awarding bodies to perform the following activities:

- Upon a request made to the awarding body by the public for payroll records:
  - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
  - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
  - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e), Cal. Code Regs., tit. 8, § 16403, subd. (b));
  - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3)); and
  - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).
- Withhold penalties from contractor progress payments for noncompliance with section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's requirements pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h).)

E. Withholdings

1. Withhold Contract Payments Based on District Determination – Labor Code Section 1726

Labor Code section 1726 states in relevant part that "if the awarding body determines as a result of its own investigation that there has been a violation of this chapter and withholds contract payments, the procedures in Section 1771.6 shall be followed." The plain language of this statute does not require the awarding body to engage in the activity of investigating a potential violation of the chapter.

2. Withhold and Retain Contract Payments to Satisfy Civil Wage and Penalty Assessments – Labor Code Section 1727

Labor Code section 1727 states:

> (a) Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom all amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner under this chapter. The amounts required to satisfy a civil wage and penalty assessment shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.
>
> (b) If the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a subcontractor's violations, the contractor shall, upon the request of the Labor Commissioner, withhold sufficient money due the subcontractor

> under the contract to satisfy the assessment and transfer the money to the awarding body. These amounts shall not be disbursed until receipt of a final order that is no longer subject to judicial review.

Thus, the plain language of the statute requires the awarding body to withhold from contractor payments the amount necessary to satisfy a civil wage and penalty assessment issued by the Labor Commissioner, or receive from the contractor any money withheld for such purpose by the contractor from the subcontractor. However, where the plain language of the test claim statute *prohibits* the awarding body from disbursing the withheld money until a final order that is no longer subject to judicial review, no activities are required of the awarding body.

3. Release Withheld Funds – Labor Code Section 1742, Subdivision (f)

Labor Code section 1742, subdivision (f), states in relevant part that "[a]n awarding body that has withheld funds in response to a civil wage and penalty assessment … shall, upon receipt of a certified copy of a final order that is no longer subject to judicial review, promptly transmit the withheld funds … to the Labor Commissioner."

The plain language of this statute requires the activity of releasing funds to the Labor Commissioner upon receipt of the final order.

F. Labor Compliance Program

Claimant pled several activities required of districts when they implement a Labor Compliance Program pursuant to Labor Code section 1771.5.[142] Ordinarily, the prevailing wage requirements are applicable for every public works project that exceeds $1,000.[143] Section 1771.5 states in pertinent part that if an awarding body *elects* to initiate and enforce a Labor Compliance Program, the awarding body can avoid prevailing wage requirements for public works projects of up to $25,000 for construction work or up to $15,000 for alteration, demolition, repair or maintenance work. Section 1771.7 further provides that an awarding body that *chooses* to use funds derived from the Kindergarten-University Public Education Facilities Bond Acts of 2002 and 2004 *shall* initiate and enforce a Labor Compliance Program. Nothing in the plain language of section 1771.5 *requires* the awarding body to elect to initiate or enforce, and therefore undertake any activities related to, a Labor Compliance Program, nor does the plain language of sections 1771.5 or 1771.7 *require* the awarding body to use funds derived from the referenced bond measures. Staff therefore finds there is no "legal" compulsion for K-12 school districts or community colleges to initiate and enforce a Labor Compliance Program.

Absent such legal compulsion, the courts have ruled at times that "practical" compulsion might be found. As noted above, the Supreme Court in *Kern High School Dist.* addressed the issue of "practical" compulsion in the context of a school district that had participated in optional funded programs in which new requirements were imposed. In *Kern,* the court

---

[142] With regard to initiating and enforcing a Labor Compliance Program, claimant pled Labor Code sections 1771.5, 1771.6 and 1771.7, Title 8, California Code of Regulations sections 16425 – 16439 and 17220 – 17221, "AB 1506 Labor Compliance Program Guidebook," "School Facility Program Substantial Progress and Expenditure Audit Guide," and "Antioch Unified School District Labor Compliance Program."

[143] Labor Code section 1771.

determined there was no "practical" compulsion to participate in the underlying programs, since a district that elects to discontinue participation in a program does not face "certain and severe ... penalties" such as "double ... taxation" or other "draconian" consequences.[144]

The Department of General Services, Office of Public School Construction, asserts that the law does not compel a district to obtain funding from the state as a condition of building schools, and school districts may choose to build facilities through the use of district raised funds. Claimant argues that the use of *district* raised funds is not realistic, citing several Education Code provisions which "strictly limit" the district's ability to issue local school bonds and manifest the Legislature's intent that the state should provide financing for school construction. Claimant summarized the argument as follows:

> In summary, the last 60 years of legislative history shows repeated and consistent recognition that school districts are unable to meet the school construction needs of their pupils. The history repeatedly reveals an admission that the education of school children is the primary responsibility of the state. The history of the inability of school districts and the obligation of the state to educate children results in the above recited litany of state money for school construction at low or no interest rates, repayment requirements of less than the amounts apportioned, and repayment terms unavailable anywhere else. Education of children is an obligation and function of the state. Classrooms are required to provide that education. Therefore, building classrooms is a state obligation.[145]

In the foregoing analysis regarding public works projects, however, staff found that the only public works projects mandated by the state are projects the districts undertake for repair and maintenance. Since no compulsion to undertake other types of public works projects was found, the only issue here is whether K-12 school districts and community college districts are compelled to use Kindergarten-University Public Education Facilities Bond Act of 2002 and 2004 funds for repair and maintenance projects, thereby triggering the requirement for the district to implement an LCP. For the reasons stated below, staff finds no such compulsion exists under the test claim statutes, regulations, or alleged executive orders, or under other law or in the record.

Claimant argues that requiring the district to use district-raised funds rather than state funds "results in non-legal compulsion in the form of double taxation which is prohibited by *City of Sacramento v. State of California* (1990) 50 Cal.3d 51, 70-76."[146] That California Supreme Court case dealt with a claim seeking subvention of costs imposed as a result of a state statute which extended federally-mandated coverage of the state's unemployment insurance law to include state and local agencies.[147] The court noted that federal law provides powerful incentives to enactment of unemployment insurance protection by the individual states, i.e., "certified" state programs, and described the current situation as follows:

---

[144] *Kern High School Dist., supra,* 30 Cal.4th 727, 754.

[145] Claimant comments, submitted October 20, 2003, page 10.

[146] *Ibid.*

[147] *City of Sacramento v. State of California, supra,* 50 Cal.3d 51, 51.

> In current form, the Federal Unemployment Tax Act (hereafter FUTA) ... assesses an annual tax upon the gross wages paid by covered private employers nationwide. The tax rate, which has varied over the years, stands at 6.2 percent for calendar year 1990. (Citations omitted.) However, employers in a state with a federally "certified" unemployment insurance program may credit their contributions to the state system against up to 90 percent of the federal tax. ... A "certified" state program also qualifies for federal administrative funds. (Citations omitted.)[148]

One of the questions before the court was whether the new state law, because of the federal incentives for enacting it, was in fact a "federal" mandate.[149] The court ruled that the state statute in question was actually a federal mandate; since the statute was not subject to the tax and spend limitations of articles XIII A and B, the local agency could tax and spend as necessary to meet expenses of the new legislation.[150] The court reasoned that "certain regulatory standards imposed by the federal government under 'cooperative federalism' schemes are coercive on the states and localities in every practical sense,"[151] and provided the following explanation:

> If California failed to conform its plan to new federal requirements as they arose, its businesses faced a new and serious penalty – full, double unemployment taxation by both state and federal governments. Besides constituting an intolerable expense against the state's economy on its face, this double taxation would place California employers at a serious competitive disadvantage against their counterparts in states which remained in federal compliance.
>
> ...
>
> Here, the state simply did what was necessary to avoid certain and severe federal penalties upon its resident businesses. The alternatives were so far beyond the realm of practical reality that they left the state "without discretion" to depart from federal standards. We therefore conclude that the state acted in response to a federal "mandate" for purposes of article XIII B.[152]

Claimant points out that in November of 2002 the voters approved Proposition 47, the Kindergarten-University Public Education Facilities Bond Act of 2002, which allocated more than $8 billion for new construction and more than $3 billion for the modernization of school facilities, which is a state general obligation bond measure to be repaid by taxation levied on all residents of the state, including school district constituents.[153] In response to Department of

[149] *Id.* at 70.

[150] *Id.* at 76.

[151] *Id.* at 73-74.

[152] *Id.* at 74.

[153] Claimant comments, submitted October 20, 2003, page 14.

General Services' suggestion that a school district has the discretion to build new facilities through the use of district raised funds, claimant argues that any district raised funds "would need to be repaid from taxes raised only from the constituents of that school district."[154] Claimant further argues that since any election to use district funds does not relieve the residents of that district from still paying taxes to reduce the state bonds, the citizens of the district would then be subject to "double taxation."[155] Claimant concludes that the "only reasonable alternative to school districts is to use available Proposition 47 state funds and to enforce a labor compliance program."[156]

Staff disagrees that using local general obligation bonds constitutes the "intolerable expense" of "double taxation" as described by the Supreme Court in *City of Sacramento*, or that school districts have no reasonable alternative to using funds available from Proposition 47 (2002 Kindergarten-University measure) or Proposition 55 (2004 Kindergarten-University measure). In fact, the ballot measure that enacted Proposition 47 states that, in addition to funding from state and local general obligation bonds, school districts also receive significant funds from developer fees and special local bonds known as "Mello-Roos" bonds.[157] The School Facility Program Handbook, which provides assistance to districts in applying for and obtaining these bond funds, notes that additional sources of funds for districts include, in addition to general obligation bonds, proceeds from the sale of surplus property and federal grants.[158] Under the Deferred Maintenance Program, K-12 school districts and community college districts can receive state matching funds, on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components so that the educational process may safely continue.[159] None of these additional sources of funds triggers the requirement to initiate and establish an LCP.

Moreover, the purposes for the 2002 and 2004 bond measures, as stated in the ballot materials, were to provide funds for K-12 school districts to buy land, construct new buildings, reconstruct or modernize existing buildings, provide relief for critically overcrowded schools, and construct buildings for joint use; and for community college districts, the funds were intended to construct new buildings and related infrastructure, alter existing buildings, and purchase equipment for use in these buildings.[160]

[158] School Facility Program Handbook, A guide to assist with applying for and obtaining grant funds, prepared by the Office of Public School Construction, July 2007, page 12.

[159] Education Code sections 17582 – 17588 and 84660 et seq.; Deferred Maintenance Program Handbook, A guide to assist school districts in applying for and obtaining "grant" funds for the purposes of performing deferred maintenance work on school facilities, prepared by the Office of Public School Construction, June 2007, page 1.

[160] Official Voter Information Guide, General Election, Tuesday, November 5, 2002, Proposition 47, Analysis by the Legislative Analyst, page 2; Official Voter Information Guide,

Thus, although some of the 2002 and 2004 bond funds will likely be used for repairs, that was not their primary purpose. Furthermore, as noted above, K-12 school districts and community college districts have several funding alternatives to accomplish repair and maintenance. The Supreme Court in *Kern* stated that school districts, in the exercise of their discretion, will make the choices that are ultimately the most beneficial for the district:

> As to each of the optional funded programs here at issue, school districts are, and have been, free to decide whether to (i) continue to participate and receive program funding, even though the school district also must incur program-related costs associated with the [new] requirements or (ii) decline to participate in the funded program. Presumably, a school district will continue to participate only if it determines that the best interests of the district and its students are served by participation – in other words, if, *on balance*, the funded program, even with strings attached, is deemed beneficial. And, presumably, a school district will decline participation if and when it determines that the costs of program compliance outweigh the funding benefits. (Emphasis in original.)[161]

Therefore, staff finds there is no evidence in the record or in law to demonstrate that districts are legally or practically compelled to use Kindergarten-University Public Education Facilities Bond Act of 2002 or 2004 funds to undertake repair or maintenance public works projects. Since none of the activities that flow from implementation of an LCP pursuant to the test claim statutes, regulations or alleged executive orders[162] have been triggered by a state-mandated requirement, none of those statutes, regulations or alleged executive orders are subject to article XIII B, section 6.

G. Hearings and Court Proceedings

Claimant pled several activities related to a new administrative hearing process pursuant to Labor Code sections 1742 and 1742.1 and Title 8, California Code of Regulations, sections 16413 and 17220, et seq. This new process was established for contractors and subcontractors to obtain review of civil wage and penalty assessments issued by the Labor Commissioner, or decisions of the awarding body to withhold contract payments when enforcing under a Labor Compliance Program pursuant to Labor Code section 1771.5, or under Labor Code section 1726.

Labor Code section 1742 states in relevant part:

> (a) An affected contractor or subcontractor may obtain review of a civil wage and penalty assessment under this chapter by transmitting a written request to the office of the Labor Commissioner that appears on the

---

California Primary Election, Tuesday, March 2, 2004, Proposition 55, Analysis by the Legislative Analyst, page 6.

[161] *Kern High School Dist., supra,* 30 Cal. 4th 727, 753.

[162] Labor Code sections 1771.5, 1771.6 and 1771.7, Title 8, California Code of Regulations sections 16425 – 16439 and 17220 – 17221, "AB 1506 Labor Compliance Program Guidebook," "School Facility Program Substantial Progress and Expenditure Audit Guide," and "Antioch Unified School District Labor Compliance Program."

assessment within 60 days after service of the assessment. If no hearing is requested within 60 days after service of the assessment, the assessment shall become final.

(b)(1) Upon receipt of a timely request, a hearing shall be commenced within 90 days before an administrative law judge ... The contractor or subcontractor shall be provided an opportunity to review evidence to be utilized by the Labor Commissioner at the hearing within 20 days of the receipt of the written request for a hearing. Any evidence obtained by the Labor Commissioner subsequent to the 20-day cutoff shall be promptly disclosed to the contractor or subcontractor.

(2) The contractor or subcontractor shall have the burden of proving that the basis for the civil wage and penalty assessment is incorrect. The assessment shall be sufficiently detailed to provide fair notice to the contractor or subcontractor of the issues at the hearing.

(3) Within 45 days of the conclusion of the hearing, the administrative law judge shall issue a written decision affirming, modifying, or dismissing the assessment. The decision of the administrative law judge shall consist of a notice of findings, findings, and an order. This decision shall be served on all parties and the awarding body pursuant to Section 1013 of the Code of Civil Procedure by first-class mail at the last known address of the party on file with the Labor Commissioner. Within 15 days of the issuance of the decision, the administrative law judge may reconsider or modify the decision to correct an error except that a clerical error may be corrected at any time.

(4) The Director of Industrial Relations shall adopt regulations setting forth procedures for hearings under this subdivision.

(c) An affected contractor or subcontractor may obtain review of the decision of the administrative law judge by filing a petition for a writ of mandate to the appropriate superior court pursuant to Section 1094.5 of the Code of Civil Procedure within 45 days after service of the decision. If no petition for writ of mandate is filed within 45 days after service of the decision, the order shall become final. If it is claimed in a petition for writ of mandate that the findings are not supported by the evidence, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record.

(d) A certified copy of a final order may be filed by the Labor Commissioner in the office of the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the filing, shall enter judgment for the state against the person assessed in the amount shown on the certified order.

(e) A judgment entered pursuant to this section shall bear the same rate of interest and shall have the same effect as other judgments and shall be

given the same preference allowed by law on other judgments rendered for claims for taxes. The clerk shall not charge for the service performed by him or her pursuant to this section.

...

(g) This section shall provide the exclusive method for review of a civil wage and penalty assessment by the Labor Commissioner under this chapter or the decision of an awarding body to withhold contract payments pursuant to Section 1771.5.

...

Section 16413 of the regulations further establishes procedures for a contractor or subcontractor to follow when requesting a hearing under Labor Code section 1742.

Labor Code section 1742.1 requires the Labor Commissioner to afford the affected contractor or subcontractor, upon his or her request, to meet with the Labor Commissioner to attempt to settle the dispute without the need for formal proceedings. The section further states in relevant part:

> The awarding body shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a notice of withholding under subdivision (a) of Section 1771.6 [i.e., under a Labor Compliance Program], afford the contractor or subcontractor the opportunity to meet with the designee of the awarding body to attempt to settle a dispute regarding the notice without the need for formal proceedings. ...

Sections 17220 et seq. of the regulations set forth procedures for an awarding body to follow when enforcing under a Labor Compliance Program pursuant to Labor Code section 1771.6.

The plain language of Labor Code sections 1742 and 1742.1, and the regulations cited, does not require awarding bodies to engage in any hearing activities, respond to writs of mandate, or participate in settlement meetings, unless the awarding body is voluntarily exercising enforcement authority under Labor Code section 1726 or 1771.5.[163] As noted above, Labor Code section 1726 *does not* require an awarding body to investigate potential violations of the chapter, nor does Labor Code section 1771.5 require an awarding body to initiate and enforce a Labor Compliance Program. Since both of these underlying activities are discretionary, Labor Code sections 1742 and 1742.1, and sections 16413 and 17220 et seq. of the regulations, do not mandate any activities on the awarding body.

Labor Code section 1771.2 allows a joint labor-management committee, established pursuant to federal law, to bring an action in court against an employer, i.e., a contractor or subcontractor, that fails to pay the prevailing wage to its employees as required. Nothing in that statute requires the awarding body to appear or participate in legal proceedings from such action by the joint labor-management committee. Thus, Labor Code section 1771.2 does not mandate any activities on the awarding body.

---

[163] Labor Code section 1771.6, Title 8, California Code of Regulations, section 17202, subdivision (c).

Summary of Required Activities

Therefore, staff finds only the following activities are required by the plain language of the test claim statutes and regulations:

- Obtain both the general prevailing wage rate and any special rates from the Director of Industrial Relations, and ensure that the appropriate rates are used in the contract. (Lab. Code, § 1773, tit. 8, Cal. Code Regs., §§ 16202 & 16204.)
- Include a statement of prevailing rates of per diem wages in the call and advertisement for bids, the bid specifications, and in the public works contract itself, or, in lieu of those requirements, the district may include in the call for bids, bid specifications, and the contract itself a statement to the effect that copies of the prevailing rate of wages are on file in the awarding body's principal office, and in that case the district must post the statement at all job sites. (Lab. Code, § 1773.2.)
- Provide a copy of the contract award to the Division of Apprenticeship Standards, when apprentices will be used in the contract, and include language in the contract regarding apprenticeship requirements. (Lab. Code, §§ 1773.3 & 1777.5, subd. (n).)
- Take cognizance of violations of the prevailing wage laws in the course of the execution of the contract, and report any suspected violations to the Labor Commissioner. (Lab. Code, § 1726.)
- Regarding certified payroll records, perform the following activities:
    - Upon a request made to the awarding body by the public for payroll records:
        - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
        - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
        - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e), Cal. Code Regs., tit. 8, § 16403, subd. (b))
        - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3)); and
        - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).
    - Withhold penalties from contractor progress payments for noncompliance with Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g).)
    - Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h).).

- Withhold amounts necessary to satisfy Civil Wage and Penalty Assessments issued by the Labor Commissioner and receive from the contractor any money withheld for such purpose by the contractor from the subcontractor. (Lab. Code, § 1727.)
- Transmit funds withheld in response to a civil wage and penalty assessment to the Labor Commissioner upon receipt of a certified copy of a final order that is no longer subject to judicial review. (Lab. Code, § 1742, subd. (f))

Staff further finds that these activities are only mandated by the state for repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or
    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000.
2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and
    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or
    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000.
3. For any K-12 school district or community college district that is subject to the UPCCAA, when a public project, as defined, is not an emergency as set forth in Public Contract Code section 20113 or 20654, and the project cost will exceed $30,000.

Issue 2: Do the test claim statutes or regulations impose a "new program or higher level of service" within the meaning of article XIII B, section 6 of the California Constitution?

A "new program or higher level of service" is imposed when the mandated activities: a) are new in comparison with the pre-existing scheme; *and* b) result in an increase in the actual level or quality of governmental services provided by the district.[164] To make this determination, the mandated activities must be compared with the legal requirements in effect immediately before the enactment of the test claim statutes or regulations.

[164] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 877; *Lucia Mar, supra*, 44 Cal.3d 830, 835.

Obtain Prevailing Wage Rate (Lab. Code, § 1773, Cal. Code Regs, tit. 8, §§ 16202 & 16204)

The statute and regulations require the awarding body to obtain both the general prevailing wage rate and any special rates from the Director of Industrial Relations, and ensure that the appropriate rates are used in the contract.

Prior to 1975, Labor Code section 1773 stated in relevant part:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall *ascertain* the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality in which the public work is to be performed for each craft, classification or type of workman needed to execute the contract. ...
>
> In determining such rates, the *awarding body* shall ascertain and consider the applicable wage rates established by collective bargaining agreements and such rates as may have been predetermined for federal public works, within the locality and in the nearest labor market area. Where such rates do not constitute the rates actually prevailing in the locality, the *awarding body* shall obtain and consider further data from the labor organizations and employers or employer associations concerned, including the recognized collective bargaining representatives for the particular craft, classification or type of work involved. The rate fixed for each craft, classification or type of work shall be not less than the prevailing rate paid in such craft, classification or type of work.
>
> If the *awarding body* determines that the rate of prevailing wage for any craft, classification or type of workman is the rate established by a collective bargaining agreement, the *awarding body* may adopt such rate by reference as provided for in such agreement and such determination shall be effective for the life of such agreement or until the *awarding body* determines that another rate should be adopted. (Emphasis added.)[165]

The Department of Industrial Relations explains how this pre-existing process worked:

> Labor Code section 1773 required the local agency to consider the "rates established by collective bargaining agreements and such rates as may have been predetermined for federal public works." [Citations.] If these two mandatory sources of information were insufficient to determine the rate actually prevailing, local agencies had to "obtain and consider further data from the labor organizations and employers or employer associations concerned." *Id.* Local agencies had to obtain further information on what rates to pay each craft for overtime and holiday work, depending on which collective bargaining agreement, if any, applied.[166]

In this pre-existing law, the burden was on the awarding body to ascertain and determine the prevailing wage rates for public works projects.

---

[165] Statutes 1971, chapter 785

[166] Department of Industrial Relations comments, submitted January 15, 2003, page 9.

Labor Code section 1773 now requires the awarding body to "obtain" the general prevailing rate of per diem wages from the Director of Industrial Relations.[167] Section 16202 of the regulations requires the awarding body to request the Director to make a determination for a particular craft, classification or type of worker not covered by a general determination.

Thus, the test claim statute and regulation shifted this responsibility for ascertaining and determining prevailing wage rates *from* the awarding body *to* the Director of Industrial Relations. The Department of Industrial Relations explains the current process as follows:

> Currently, the Director performs this arduous task of determining what are prevailing wages. [Citations.] The definition of prevailing wages has not changed substantially since prior to 1975, including the requirement that the wages be set for each local geographic area. The Director, through the Division of Labor Statistics and Research ("DLSR") publishes general prevailing wage determinations twice each year for each craft or trade, by county. [Citations.] In addition, DLSR provides special determinations when requested. [Citations.] This work costs the Department approximately $2,071,082.39 per year, based on the prior two and a half fiscal years. [Citations.] This is work local agencies no longer do. Instead, local agencies are required simply to check the most recent determination before advertising a request for bids.

With regard to the obligation to "ensure" that the correct rate is used, the Department states:

> Prior to 1975, when local agencies determined local prevailing wages, the duty to obtain the correct prevailing wage was subsumed in the requirement that agencies ensure they were using the correct rate. However, any interested party could request review of the local agency's determination, and the local agency then had to justify its determination. [Citations.]
>
> In exchange for the Director's making rate determinations, local agencies now obtain the correct prevailing wages from the Director. [Citations.] This task no longer requires local agencies to do the actual investigations, surveys, and calculation ("determination") of the prevailing wage. That is, while the local agencies assume the burden of sending a letter, making a phone call, or checking the Department's website, this writing, sending or calling is substantially less expensive than was their prior obligation to investigate and calculate prevailing wages for each craft or trade on public works projects. ...[168]

The Supreme Court has stated that a reimbursable "higher level of service" must result in an increase in the actual level or quality of governmental services provided.[169] Here that has not occurred. Rather, the test claim statute accomplishes a shift of responsibility *from* school

---

[167] Statutes 1976, chapter 281.

[168] *Id.* at page 10.

[169] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 877; *Lucia Mar, supra*, 44 Cal.3d 830, 835.

districts *to* the state. And, although the district is left with the responsibility for obtaining the prevailing wage rates from the state and continuing to ensure that the proper rate is used in the contract, this result constitutes not a higher level of service but a lower level of service on the part of the district.

Based on the foregoing, staff finds Labor Code section 1773 and sections 16202 and 16204, mandating the activity of obtaining the prevailing wage rates from the Department of Industrial Relations and ensuring the proper rate is used in the contract, do not impose a new program or higher level of service on school districts.

Statement of Prevailing Wages (Lab. Code, § 1773.2)

The statute requires the awarding body to include a statement of prevailing rates of per diem wages in the call and advertisement for bids, the bid specifications, and in the public works contract itself, or, in lieu of those requirements, the awarding body may include in the call for bids, bid specifications, and the contract itself a statement to the effect that copies of the prevailing rate of wages are on file in the awarding body's principal office, and in that case must post the statement at all job sites.

Prior to 1975, Labor Code section 1773.2 stated:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall specify in the call for bids for the contract, and in the bid specifications and in the contract itself, what the general rate of per diem wages is for each craft, classification or type of workman needed to execute the contract.
>
> In lieu of specifying the rate of wages in the call for bids, and in the bid specifications and in the contract itself, the awarding body may refer to copies thereof on file at its principal office, which shall be made available to any interested party on request. In the event that the awarding body chooses to refer to a copy of the prevailing rate of per diem wages on file at its principal office, in lieu of specifying them in each call for bids, and in the bid specifications and in the contract itself, the awarding body shall publish its determination of the prevailing rate of wages at least one time in a newspaper of general circulation during each year, and in such event, the awarding body shall cause a copy thereof to be posted at each jobsite.[170]

In the 1977 test claim statute, section 1773.2 was amended *solely* to remove the requirement that the awarding body publish prevailing wage rate determinations in the newspaper each year when the awarding body chooses the option of referring to a copy of the prevailing wage rates on file at its principal office.[171]

A reimbursable "higher level of service" must result in an increase in the actual level or quality of governmental services provided. Here, that has not occurred. Instead, the burden on school districts has been lessened by removing the requirement to annually publish their prevailing

---

[170] Statutes 1974, chapter 876.

[171] Statutes 1977, chapter 423.

wage rates in the newspaper under specified circumstances. This result constitutes not a higher level of service but a lower level of service. Therefore, staff finds Labor Code section 1773.2 does not impose a new program or higher level of service on school districts.

Certified Payroll Records (Lab. Code, § 1776, subdivisions (b), (e), (g) & (h), Cal. Code Regs., tit. 8, §§ 16400 & 16403)

The statute and regulations require the awarding body to perform the following activities:

- Upon a request made to the awarding body by the public for payroll records:
  - send an acknowledgment to the requestor including the costs to be paid for preparing the records;
  - obtain certified payroll records from the contractor, including specified information in the request;
  - mark or obliterate the records to prevent disclosure of an individual's private information
  - provide copies of the records to the requestor; and
  - retain copies of the records for at least 6 months.
- Withhold penalties from contractor progress payments for noncompliance with Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement.
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776.

Prior to 1975, Labor Code section 1776 stated:

> Every contractor and subcontractor shall keep an accurate record showing the name, occupation, and the actual per diem wages paid to each workman employed by him in connection with the public work. The record shall be kept open at all reasonable hours to the inspection of the body awarding the contract and to the Division of Labor Law Enforcement.[172]

The test claim statutes modified section 1776 to require: 1) the contractor to *furnish* certified copies of payroll records to the awarding body upon request,[173] at which point the payroll records become subject to the California Public Records Act;[174] 2) the awarding body to *obtain and provide copies of the records to the public* upon request[175] but marked or obliterated to prevent disclosure of an individual's name, address, and social security number;[176] 3) the awarding body, upon the request of the Division of Apprenticeship

---

[172] Statutes 1949, chapter 127.

[173] Labor Code section 1776, subdivision (b)(2).

[174] Government Code sections 6250 et seq.

[175] Labor Code section 1776, subdivision (b)(3).

[176] Labor Code section 1776, subdivision (e).

Standards or the Division of Labor Standards Enforcement, to withhold from progress payments any penalties assessed for noncompliance;[177] and 4) the awarding body to insert stipulations in the contract regarding the contractor's requirements.[178] Sections 16400 through 16403 of the regulations were added to: 1) require the awarding body to acknowledge a request for payroll records to the requestor, and provide the costs the requestor must pay for the awarding body and contractor to prepare the records; 2) specify the information required in a request to the contractor for the records; 3) establish fees to be charged for preparing and reproducing the records; and 4) require the awarding body to keep unredacted copies of requested payroll records for at least 6 months following completion and acceptance of the project. These requirements are new in comparison to the preexisting law.

The Department of Industrial Relations states that the test claim statutes modifying Labor Code section 1776 did not significantly change any awarding body requirement:

> Prior to 1975, there was no provision for local agencies to obtain or copy [Certified Payroll Records]. Since local agencies did their own enforcement, however, they routinely obtained them. ... Before 1975, the Public Records Act made such information disclosable on demand from the public. See Government Code §§ 6252 ["Local agency" includes school district], 6252 (d) [definition of public record]. The post 1975 amendments to § 1776 did not change local agencies' pre-existing requirements to provide copies of public records (including payroll records) to the public. ...
>
> Labor Code § 1776 did not change any local agency requirement in any meaningful way. Test Claimant claims that there is a new mandate because local agencies now have to make copies of the [Certified Payroll Records] on request by members of the public and obliterate certain personal information. First, the requirement to obliterate personal information is not necessarily with the local agency. Labor Code § 1776(e) merely requires that the copy provided to the public by DLSE or the local agency "be obliterated," which can be done by the private contractor. ...[179]

Staff disagrees with the Department. The previous statute did not provide for the awarding body to *obtain a copy* of the payroll records, merely the ability to inspect them. The California Public Records Act[180] provides public access only to writings that are in the *possession* of state or local agencies.[181] Consequently, there was no pre-existing duty on the district to provide public access to the records. The fact that such copies were routinely obtained by the

---

[177] Labor Code section 1776, subdivision (g).

[178] Labor Code section 1776, subdivision (h).

[179] Department of Industrial Relations comments, submitted January 15, 2003, pages 14-15.

[180] Government Code section 6250 et seq.

[181] Government Code section 6252, subdivision (e); "public records" includes any writing containing information relating to the conduct of the public's business prepared, owned, used or retained by any state or local agency regardless of physical form or characteristics.

awarding body in the course of enforcing the CPWL does not change the duties imposed by the previous statute, which plainly did not require the awarding body to obtain the records on behalf of the public or make the specified redactions. Moreover, Government Code section 17565 provides that if a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the school district for those costs incurred after the operative date of the mandate. Additionally, although it is true that personal information could be "obliterated" by the contractor, the test claim statutes require the awarding body to provide the record to the public, in a form that prevents disclosure of individual information. Therefore, staff finds it is the awarding body's responsibility to mark or obliterate the record to prevent disclosure of individual information.

Thus, there are new requirements of school districts as awarding bodies that were not required under pre-existing law:

- Perform the following activities upon a request by the public for payroll records:
  - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
  - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
  - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e), Cal. Code Regs., tit. 8, § 16403, subd. (b))
  - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3)); and
  - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).
- Withhold penalties from contractor progress payments for noncompliance, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g)).
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776 (Lab. Code, § 1776, subd. (h)).

These new requirements do provide a higher level of service to the public since the public now has access to certified payroll records through the awarding body, and the individual employee's rights to privacy are protected by the awarding body obliterating certain information. Withholding penalties from progress payments helps enforce the law to ultimately ensure contractors' cooperation. Moreover, placing stipulations in the contract provides notice to the contractor of his or her requirements before the contract is signed. Staff therefore finds that the new requirements imposed on school districts as awarding bodies constitute a new program or higher level of service within the meaning of article XIII B, section 6.

Apprenticeship Requirements (Lab. Code, §§ 1773.3 & 1777.5, subd. (n))

The statutes require the awarding body to provide a copy of the contract award to the Division of Apprenticeship Standards when apprentices will be used in the contract, and include language in the contract regarding apprenticeship requirements.

Prior to 1975, Labor Code section 3098 stated:

> An awarding agency whose public works contract falls within the jurisdiction of Section 1777.5 shall, within five days of the award, send a copy of the award to the Division of Apprenticeship Standards. ... Within five days of a finding of any discrepancy regarding the ratio of apprentices to journeymen, pursuant to the certificated fixed number of apprentices to journeymen, the awarding agency shall notify the Division of Apprenticeship Standards.[182]

Section 3098 was renumbered to section 1773.3 in Statutes 1978, chapter 1249, with substantially the same language. Therefore, the requirements existed prior to 1975 and no new program or higher level of service is imposed.

Prior to 1975, Labor Code section 1777.5 stated in relevant part:

> The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. Such stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.[183]

This exact language was ultimately renumbered to subdivision (n) in Statutes 1999, chapter 903. Therefore, the requirements existed prior to 1975 and no new program or higher level of service is imposed.

Take Cognizance of and Report Suspected Violations (Lab. Code, § 1726), Withhold Funds for Civil Wage and Penalty Assessments (Lab. Code, § 1727), and Transmit Funds to Labor Commissioner (Lab. Code, § 1742, subd. (f))

These statutes require the awarding body to: 1) take cognizance of violations of the prevailing wage laws in the course of the execution of the contract, and report any suspected violations to the Labor Commissioner; 2) withhold any amounts necessary to satisfy a Civil Wage and Penalty Assessment issued by the Labor Commissioner and receive from the contractor any money withheld for such purpose by the contractor from the subcontractor; and 3) transmit funds withheld in response to a civil wage and penalty assessment to the Labor Commissioner upon receipt of a certified copy of a final order that is no longer subject to judicial review.

---

[182] Statutes 1974, chapter 1095.

[183] Statutes 1974, chapter 965.

With regard to the awarding body's role in reporting CPWL violations, prior to 1975, Labor Code section 1726 stated:

> The body awarding the contract for public work shall take cognizance of violations of the provisions of this chapter committed in the course of the execution of the contract.[184]

The test claim statute, Statutes 2000, chapter 954, modified section 1726 to state in relevant part:

> The body awarding the contract for public work shall take cognizance of violations of the provisions of this chapter committed in the course of execution of the contract, and *shall promptly report* any suspected violations to the Labor Commissioner. (Emphasis added.)

Thus, there was a pre-existing requirement for awarding bodies to "take cognizance" of violations, and this requirement does not impose a new program or higher level of service. There is, however, a new requirement to "report" suspected violations to the Labor Commissioner.

With regard to withholding funds from contractor payments for CPWL violations, prior to 1975, Labor Code section 1727 stated:

> Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom all amounts which have been forfeited pursuant to any stipulation in a contract for public work, and the terms of this chapter. But no sum shall be withheld, retained or forfeited, except from the final payment, without a full investigation by either the Division of Labor Law Enforcement or by the awarding body.[185]

The test claim statute, Statutes 2000, chapter 954, modified section 1727, which states:

> (a) Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom any amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner under this chapter. The amounts required to satisfy a civil wage and penalty assessment shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.
>
> (b) If the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a subcontractor's violations, the contractor shall, upon the request of the Labor Commissioner, withhold sufficient money due the subcontractor under the contract to satisfy the assessment and transfer the money to the awarding body. These amounts shall not be disbursed by the awarding

---

[184] Statutes 1937, chapter 90.

[185] Statutes 1945, chapter 1431.

body until receipt of a final order that is no longer subject to judicial review.

Thus, the only change in the awarding body's responsibility is to now withhold amounts required to satisfy a civil wage and penalty assessment made by the Labor Commissioner, rather than the previous requirement to withhold amounts forfeited pursuant to a stipulation in the contract or for other violations of the CPWL, once a full investigation was conducted by the Division of Labor Law Enforcement or by the awarding body.

In the same test claim statute, Statutes 2000, chapter 954, Labor Code section 1742 was added to provide a hearing procedure for contractors or subcontractors to appeal a civil wage and penalty assessment. Subdivision (f) of that section requires an awarding body that has withheld funds in response to a civil wage and penalty assessment to transmit the withheld funds to the Labor Commissioner, upon receipt of a certified copy of a final order that is no longer subject to judicial review.

The Department of Industrial Relations argues that these are not new requirements, explaining the historical and current processes as follows:

> Prior to 1975, local agencies were required both to "take cognizance" of violations and to withhold funds owed to contractors for prevailing wage violations. Labor Code §§ 1726, 1727. If there were insufficient funds available for withholding, then local agencies notified the Labor Commissioner of the violation. The local agency, with the Labor Commissioner's assistance filed civil lawsuits against the offending contractors. *Id.*
>
> This obligation to report violations to the Labor Commissioner has not changed. Enforcement of prevailing wage violations was removed from local agencies as of 2001, Stats. 2000, ch. 954. In exchange for this reduction in work for local agencies, the [L]egislature added a reporting responsibility. ...
>
> Prior to 1975, local agencies withheld funds owed contractors for prevailing wage violations. Labor Code § 1727. This obligation did not change after 1975. In 2000, as part of the overall change in enforcement, private contractors had to withhold funds from offending subcontractors if the local agency had not withheld sufficient funds. The local agency had no role in this process. [Citations.]
>
> ... [T]he Labor Commissioner did not issue citations against contractors prior to 1975. Local agencies did the bulk of the enforcement.
>
> Currently, the Labor Commissioner does all the enforcement work, and local agencies do no more than withhold funds when the Labor Commissioner informs them of violations. This is identical to local agencies' historic responsibility to "take cognizance" of violations and withhold payments. [186]

[186] Department of Industrial Relations comments, submitted January 15, 2003, pages 16-17.

Under the previous process, the awarding body would take cognizance of CPWL violations pursuant to Labor Code section 1726, do its own investigations and enforcement, and withhold any penalties from contractor payments pursuant to Labor Code section 1727, seeking assistance from the Labor Commissioner as needed. Currently, according to the Department of Industrial Relations, the Labor Commissioner does all the enforcement work, unless the awarding body enforces the CPWL violations by voluntarily establishing a Labor Compliance Program. Thus, the test claim statutes have shifted primary enforcement of the CPWL from local agencies to the state, leaving awarding bodies the option to implement a Labor Compliance Program. In addition, there is no substantive change in the requirement that awarding bodies withhold funds from contractors for CPWL violations; the triggering mechanism is now a civil wage and penalty assessment issued by the Labor Commissioner rather than the completion of an investigation by the Division of Labor Law Enforcement or by the awarding body.

The Supreme Court has stated that a reimbursable "higher level of service" must result in an increase in the actual level or quality of governmental services provided.[187] Here that has not occurred. Rather, the test claim statute accomplishes a shift of responsibility *from* school districts *to* the state with regard to enforcement of the CPWL. And, although the district is left with some minor responsibility for reporting suspected violations of the CPWL to the Labor Commissioner and transmitting withheld funds at the appropriate time, this result constitutes not a higher level of service but a lower level of service. With regard to withholding funds from contractors for CPWL violations, there is no change in that level of service.

Based on the foregoing, staff finds that Labor Code sections 1726, 1727 and 1742, subdivision (f), do not impose a new program or higher level of service on school districts.

Summary

Therefore, staff finds the activities listed below that are required of K-12 school districts or community college districts when acting as an awarding body, constitute a new program or higher level of service within the meaning of article XIII B, section 6, but only when triggered by repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, and when the project must be let to contract under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or
    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000.

[187] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 877; *Lucia Mar, supra*, 44 Cal.3d 830, 835.

2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and

    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or

    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000.

3. For any K-12 school district or community college district that is subject to the UPCCAA, when a public project, as defined, is not an emergency as set forth in Public Contract Code section 20113 or 20654, and the project cost will exceed $30,000.

Activities constituting a new program or higher level of service under the foregoing circumstances:

- Perform the following tasks upon a request made to the awarding body by the public for certified payroll records:
    - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
    - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
    - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e), Cal. Code Regs., tit. 8, § 16403, subd. (b))
    - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3)); and
    - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).
- Withhold penalties from contractor progress payments for noncompliance with Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h).)

Issue 3: Do the test claim statutes or regulations impose costs mandated by the state within the meaning of Government Code section 17514 and article XIII B, section 6 of the California Constitution?

For these statutes to impose a reimbursable, state-mandated program, two additional elements must be satisfied. First, the statutes must impose "costs mandated by the state" pursuant to Government Code section 17514. Second, the statutory exceptions to reimbursement listed in Government Code section 17556 cannot apply.

Government Code section 17514 defines "costs mandated by the state" as any increased cost a local agency is required to incur as a result of a statute that mandates a new program or higher

level of service. The claimant alleged in the original test claim "it is estimated that the district has incurred, or will incur, in excess of $200 in staffing and other costs in excess of revenues annually, for the period from July 1, 2000 through June 2002, to implement the new duties mandated by the state, for which the district has not been reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement."[188]

Thus, there is evidence in the record, signed under penalty of perjury that the claimant will or has incurred "costs mandated by the state."

Government Code section 17556 states in relevant part that the Commission shall not find costs mandated by the state if, after a hearing, the Commission finds:

> (d) the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service.

The increased level of service at issue is the preparation and copying of certified payroll records under Labor Code section 1776, subdivisions (b) and (e). Subdivision (e) states "the requesting party shall, prior to being provided the records, reimburse the costs of *preparation* by ... the entity through which the request was made." Subdivision (i) of that section provides that the Director of the Department of Industrial Relations "shall adopt rules consistent with the California Public Records Act ... and the Information Practices Act of 1977, ... governing the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section." Section 16402 of those regulations states:

> The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

Thus, the Department has established "reasonable fees to be charged" of the requesting party to cover the costs of preparation of the records. Construction of a statute by the administrative officials charged with its enforcement or interpretation may not be controlling but is entitled to

---

[188] On page 7 of Exhibit 6, "Second Declaration of William McGuire," of the test claim amendment filed July 31, 2003, claimant states:

> To the extent that Clovis Unified School District commences a public works project subject to Labor Code Section 1771.7, it is estimated that Clovis Unified School District will incur in excess of $1,000, annually, in staffing and other costs to implement these new duties mandated by the state for which the district will not be reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement.

great weight and will be followed unless it is clearly erroneous or unauthorized.[189] There is no evidence in the record to show that the costs allowed by the Department's regulation are not sufficient to cover the actual costs of preparation of these payroll records.

In the ordinary sense, "preparation" is defined as "the act or process of preparing."[190] "Prepare" is defined as "to make ready in advance for a particular purpose, event or occasion."[191] Based on these definitions, and absent any other information in the record, staff finds that all activities leading up to getting the records ready to be released, including reproduction and actually providing the records, are included in the fees that can be recovered from the requesting party. Thus includes the following activities:

- obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (c));
- send an acknowledgment to the requestor including notification of the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (d));
- make the specified redactions (Lab. Code, § 1776, subd. (e), Cal. Code Regs., tit. 8, § 16403, subd. (b)) ; and
- provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3)).

Therefore, staff finds that a school district has authority to charge fees sufficient to pay for this portion of the increased level of service, and Government Code section 17556, subdivision (d), is applicable to deny reimbursement for those activities.

Staff finds the following remaining activities do impose costs mandated by the state, but only when such activities result from a public works project for repair or maintenance that must be contracted for pursuant to the Public Contract Code:

- Retain copies of payroll records requested by the public and provided by the awarding body for at least 6 months. (Cal. Code Regs., tit. 8, § 16403, subd. (a).)
- Withhold penalties from contractor progress payments for noncompliance with Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h).)

Conclusion

Staff concludes that Labor Code section 1776, subdivisions (g) and (h), and section 16403, subdivision (a), of the Department of Industrial Relations' regulations constitute a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution, but only when those activities are triggered by projects for repair or maintenance to school facilities and property, pursuant to Education Code sections 17002,

---

[189] *State Compensation Insurance Fund v. Workers' Compensation Appeals Board* (1995) 37 Cal.App.4th 675, 683.

[190] Webster's II, New Collegiate Dictionary, 1999, page 873, column 1.

[191] *Ibid.*

17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, and when the project must be let to contract under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or
    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000. (Pub. Contract Code, § 20114.)
2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and
    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or
    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000. (Pub. Contract Code, § 20655.)
3. For any K-12 school district or community college district that is subject to the Uniform Public Contract Cost Accounting Act (UPCCAA), when a public project, as defined, is not an emergency as set forth in Public Contract Code section 20113 or 20654, and the project cost will exceed $30,000.[192] (Pub. Contract Code, § 22032.)

Only the following activities for the foregoing projects are reimbursable:

- Retain copies of payroll records requested by the public and provided by the awarding body for at least 6 months. (Cal. Code Regs., tit. 8, § 16403, subd. (a).)
- Withhold penalties from contractor progress payments for noncompliance with Labor Code section 1776, upon request of the Department of Industrial Relations' Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's requirements pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h).)

None of the other test claim statutes, regulations or alleged executive orders that were pled mandate a new program or higher level of service subject to article XIII B, section 6.

Recommendation

Staff recommends the Commission adopt this analysis to partially approve the test claim.

[192] Prior to January 1, 2007, the dollar limit for public projects that could be performed by the district with its own forces was $25,000.

RE: Clovis Unified School District
Test Claim No.: 01-TC-28
Prevailing Wage Rates

Dear Ms. Higashi:

The Department of Industrial Relations generally agrees with the Draft Analysis. However, we believe there is historical evidence that would show that certain activities identified as mandate are in fact not new or substantial. We are unable to provide declarations or other evidence to show how prevailing wages were enforced prior to 1976 by April 1, 2008, however. We therefore request an extension of the time provided for filing comments on the Commission's Draft Staff Analysis.

Thank you for you consideration in this matter.

Yours truly,

Andrew Holmes-Swanson

And Affected Parties and State Agencies

I am employed in the City and County of Sacramento, California. I am over the age of eighteen years and not a party to the within action; my business address is 320 W. Fourth Street, Suite 600, Los Angeles, CA 90013.

On March 28, 2008, I served the enclosed **Letter to Paula Higashi, Executive Director, dated March 28, 2008,** on the parties listed below, through their attorneys of record, by placing true copies thereof in sealed envelopes addressed as shown below for service as designated below:

(A) By First Class Mail: I am readily familiar with the practice of the Department of Industrial Relations, Office of the Director Legal Unit, for the collection and processing of correspondence for mailing with the United States Postal Service. I caused each such envelope, with first-class postage thereon fully prepared, to be deposited in a recognized place of deposit of the U.S. Mail in Loa Angeles, California, for collection and mailing to the office of the addressee on the date shown herein.

(B) By Personal Service: I caused each such envelope to be personally delivered to the office of the addressee by a member of the staff of the Department of Industrial Relations, Office of the Director Legal Unit, on the date last written below.

(C) By Messenger Service: I am readily familiar with the practice of the Department of Industrial Relations, Office of the Director Legal Unit for messenger delivery, and I caused each such envelope to be delivered to a courier employed by Golden State Overnight, with whom we have a direct billing account, who personally delivered each such envelope to the office of the address at the place and on the date last written below.

(D) By Facsimile Transmission: I caused such document to be served via facsimile electronic equipment transmission (fax) on the parties in this action, pursuant to oral and/or written agreement between such parties regarding service by facsimile by transmitting a true copy to the following fax numbers:

April 1, 2008

RECEIVED
APR 01 2008
COMMISSION ON STATE MANDATES

Ms. Paula Higashi, Executive Director
Commission on State Mandates
980 Ninth Street, Suite 300
Sacramento, CA 95814

Dear Ms. Paula Higashi:

The Office of Public School Construction (OPSC) would like to submit minor revisions to our previous comments regarding test claim *Prevailing Wage Rate, 01-TC-28.* In September 15, 2003, when the comments were submitted, Proposition 47 was the only bond in effect. However, in 2004 and 2006, Propositions 55 and 1D were passed. Therefore, we would like to update our previous comments to include the following revisions listed below in bold:

> The Education Code does not compel a district to obtain funding from the State through SFP as a condition of building schools. School districts may choose to build facilities through the use of district raised funds. Program elements are only required if a district chooses to participate in the program. Additionally, Labor Code ... Section 1771.7 states "an awarding body that *chooses* to use funds derived from the Kindergarten-University Public Education Facilities Bond Act of **either** 2002 **or 2004**... for a public works project, shall initiate and enforce ... a labor compliance program".
>
> The OPSC further states that the State Allocation Board (SAB) has authority to increase the per pupil grant amount to accommodate the State's share for the additional costs due to the initiation and enforcement of a LCP **for school projects funded from Proposition 47 or Proposition 55. Proposition 1D does not require school districts to enforce a LCP; therefore, projects that include LCPs are not eligible for funding increases under this bond.**

Thank you for the opportunity to comment on this claim to update our previous comments on this test claim.

Please do not hesitate to call me at (916) 323-7252 with any questions you may have regarding this request.

Re: Clovis Unified School District
Test Claim No.: 01-TC-28
Prevailing Wage Rates

Dear Ms. Higashi:

The Department of Industrial Relations ("DIR") is in general agreement with the Draft Analysis ("Draft") but wishes to comment on two aspects of the Draft: The specific elements of the Test Claim that the Draft recommends the Commission find to be reimbursable and the breadth of the alleged mandate under the Public Contracts Code. The three elements of the California Public Works Law ("CPWL") the Draft describes as mandates are in fact not mandates subject to reimbursement. Additionally, the requirement to hire private contractors under the Public Contracts Code is smaller than the Draft describes. DIR therefore asks that the Draft be modified to recommend the Commission find no mandate to changes in the CPWL.

Any Mandate That Exists Is So Negligible As To Not Require Subvention: The Draft concludes that only three obligations in the CPWL constitute reimbursable mandates. Assuming this is correct (but see, *infra* p. 2-4), these remaining obligations do not qualify as reimbursable mandates because the state already is providing funding that would include these activities or that reduces any increased mandate to negligible levels.

Partial state funding already exists for maintenance and repair projects in school districts and community colleges. (Ed. Code, §§ 17582 -17588, 84660).[1] Any additional

[1] Education Code section 17582 is "for the purpose of major repair or replacement of plumbing, heating, air conditioning, electrical, roofing, and floor systems, the exterior and interior painting of school buildings, the inspection, sampling, and analysis of building materials to determine the presence of asbestos-containing materials, the encapsulation or removal of asbestos-containing materials, the inspection, identification, sampling, and analysis of building materials to determine the presence of lead-containing materials, the control, management, and removal of lead-containing materials, and any other items of maintenance approved by the State Allocation Board." While Education Code section 84660 funds "unusual, nonrecurring work to restore a facility to a safe and continually

increase in cost to maintenance and repair projects is not reimbursable because it is negligible next to the entirety of a project's cost. In *Dept. of Finance v. Com. on State Mandates* (2003), 30 Cal.4th 727 ("*Kern*"), the California Supreme Court determined that the notice and agenda costs at issue were not unfunded because the state funded the program associated with these new services, and there was no barrier to shifting that money to cover them. Diverting funds for these inexpensive tasks did not make the mandate reimbursable. When discussing the costs imposed by notice and agenda compliance the court stated:

> At most, claimants, by being compelled to incur notice and agenda compliance costs - and pay those costs from program funds - have suffered a relatively minor diminution of program funds available to them for substantive program purposes. The circumstance that the program funds claimants may have wished to use exclusively for substantive program activities are thereby reduced, does not in itself transform the related costs into a reimbursable state mandate. (citations excluded.)
>
> *Kern, supra*, 30 Cal.4th at 748.

Kern's analysis equally applies here. State funds are available for maintenance and repair projects, and the asserted mandates (primarily record-keeping) are negligible. Shifting small amounts of money for compliance with allegedly new CPWL provisions does not create a reimbursable state mandate.

The Draft proposes that out of all of the amendments to the CPWL only three specific provisions of the Labor Code create mandates that are subject to subvention: two are primarily record-keeping and one is a simple extension of long standing obligations. While DIR agrees with the Draft where it finds no mandate in changes to the CPWL, DIR disagrees with the Draft's conclusion that three sections of the CPWL are subject to subvention.

Retaining Certified Payroll Records ("CPRs") For Six Months At Most Results In A Negligible Increase In Levels of Service: *Kern*'s analysis also applies to the record retention provisions in California Code of Regulations, title 8, section 16403, the Draft proposes to find a mandate.[2] In addition to the funding discussed above, school districts and community colleges can charge private parties for all but one provision of California Code of Regulations, title 8, section 16403.[3] (Cal. Code Regs, tit. 8, § 16402.) These CPRs are either in a paper form (which are usually not more than 150 pages long) or in an electronic form. The cost of storing such a small quantity of documents is insignificant, especially for the electronic versions. The reimbursement already provided is more than

---

useable condition," there is no indication that these monies from either source cannot be applied to the administrative costs directly associated with such projects.

[2] School districts and community colleges are to retain copies of CPRs that are requested and paid for by private parties for six months.

[3] See attached 1985 Regulatory Review discussing these regulatory sections.

enough to cover the requirements cited in the Draft and therefore there is no need for subvention. Thus school districts and community colleges are receiving money in *two* ways that reduces any mandate under California Code of Regulations, title 8, section 16402, to a *de minimis* level: through state funding for the project itself and from the CPR fees charges to private parties.

Segregating the minimal costs to retain records for the purpose of subvention creates a further dilemma. How might an Awarding Body separate the costs of retaining CPRs that meet the Draft's parameters from the countless other documents it retains? If *de minimis* has any meaning, it has to include some balance of the relative cost of subvention versus the administrative cost to the local agencies to track the alleged mandate's costs.

Inserting A Clause In Public Works Contracts (Labor Code section 1776(h)) At Most Results In A Negligible Increase In Levels of Service: Labor Code section 1776(h) requires that an Awarding Body insert in its contracts a restatement of the requirements of Labor Code section 1776; this is obviously a stock paragraph that only is drafted one time and repeatedly inserted. The obligation to include a clause in a contract is not unique to Labor Code section 1776(h). Awarding Bodies' contracts for public works already must specify in the contract "what the general rate of per diem wages is for each craft, classification, or type of worker" (Lab. Code, § 1773.2) and the limitation that work not exceed eight hours in a workday (Lab. Code, § 1810). These requirements existed in the 1975 Labor Code. Therefore, inserting an additional requirement into a public works contract is at best a *de minimis* increase; given the reimbursement already provided as well as the difficultly determining the cost, it does not merit subvention.

Retaining Contract Payments For CPR Violations (Labor Code Section 1776(g)) Is Not A Mandate: The Draft recommends that Labor Code section 1727 [retention of contract payments for the failure to pay prevailing wages] is not a mandate because it does not require any action by an Awarding Body. The Draft recommends that nearly identical action, retention of contract amounts for CPR violations, by an Awarding Body, however, is a mandate.

The same analysis of Labor Code section 1727 applies to Labor Code section 1776(g). The Draft recommends that Labor Code section 1727 is not a mandate because it does not require the Awarding Body to take any action. ("[W]here the plain language of the test claim statute *prohibits* the awarding body from disbursing the withheld money until a final order that is no longer subject to judicial review, no activities are required of the awarding body." Draft, p. 49.) Although the language of each of these statutes may differ slightly, in reality, they do the same thing: prohibit payments by the Awarding Body at the Labor Commissioner's instruction.

While Labor Code section 1776(g) deals with a specific situation, it does not actually result in an increase in service because the obligation already was subsumed in Labor Code section 1727. Under the pre-1975 statutory scheme, Labor Code section

1727 required "*the awarding body shall withhold and retain thereform all amounts which have been forfeited pursuant to ... the terms of this chapter.*" Labor Code section 1776(g) is part of the same chapter as section 1727. Retention of contract payments therefore is not a new or increased level of service because the obligation to withhold for violations of the prevailing wage statute does not impose a new program or higher level of service. (*City of Merced v. State of California* (1984) 153 Cal.App.3d 777.)

Public Contracts Code: The Public Contracts Code requirement that a school district or community college put certain projects out for bid is narrower than the Draft describes. The Draft states there is no requirement to contract (and thus fall under the CPWL) unless a project is for maintenance or repair (as required by Education Code sections 17002, 17565, 17593, and 18601), is not an "emergency" (as set forth in either Education Code section 20113 or 20654) and meets one of three thresholds. The K-12 threshold (Pub. Contracts Code, § 20114) and Community College threshold (Pub. Contracts Code, § 20655) contain both enrollment and material cost minimums before contracting with private parties is required. The Uniform Public Construction Cost Accounting Act ("UPCCAA") threshold (Pub. Contracts Code, § 20032) has only minimum project costs requirements. (See, Draft, pgs. 37-40.)

A project can meet the K-12 or Community College thresholds without meeting the project cost threshold under the UPCCAA; in such a situation, a mandate only occurs under one set of thresholds. It is also possible for a project's cost to trigger the UPCCAA threshold without meeting enrollment and material cost requirements of the K-12 and Community College thresholds.

Public Contracts Code section 22030 allows a public agency to decide whether to subject itself to the UPCCAA thresholds or the K-12 and Community College thresholds. The Draft recognized this section as being applicable to "[a] public agency whose governing board has by resolution *elected* to become subject to this Act." (Draft, p. 15 (emphasis added).) Thus, the decision to be subject to one or the other set of thresholds is a choice. Therefore, any project that does not create a mandate to contract with private parties under both sets of thresholds should not be considered a mandate for subvention purposes. To the extent that the Draft does not make this clear, DIR recommends it be modified to clearly state that a project must meet both sets of thresholds before it is considered a mandate.

Parsing the cost to include one clause in a contract from the cost to include another clause, retaining contract payments for CPR violations as opposed to wage payment violations, and retaining some CPRs, presents the problem of whether the cost to administer any subvention heavily outweighs the benefit to local agencies. While the original Test Claim included a general, non-specific declaration of the increased cost, a new declaration, limited to whatever mandates the Commission believes might exist,

should be required to justify the Test Claim.[4] DIR believes that such a declaration would show that, in the limited circumstances in which a mandate might exist to contract with private parties, the three alleged CPWL mandates cause virtually no increased costs.

Yours Truly,

Anthony Mischel
Attorney At Law

INITIAL STATEMENT OF REASONS

TITLE 8: Chapter 8, Group 3, Articles 1-7
Sections 16000-16500 of the Regulations
of the Office of the Director Regarding Payment
of Prevailing Wages Upon Public Works

Problems Addressed by Proposed Action

Recently enacted legislation (Chapter 681 S.1983) requires regulations to set forth cost (fees) for the reproduction and preparation of certified payroll records for determining compliance with prevailing wage requirements on public works jobs.

Existing regulations allow for the Director to adopt collective bargaining agreements to determine the prevailing wage rates, however, no criteria is set forth to determine how the Director will adopt such agreements or to what extent (geographical or otherwise) such agreements will constitute the prevailing wage determination.

Some collective bargaining agreements: (1) allow weekend or night work at regular wage rates on public works projects; or (2) permit the use of "helper" labor classifications; or (3) include future changes in the wage rate structure (upwards or downwards) during the length of the collective bargaining agreement. Existing regulations are not clear or do not address these provisions.

In addition, existing regulations in Articles 1-6 are poorly organized, repeat statutory requirements and are in need of revision for greater clarity and understanding. Existing sections also lack statutory authority and reference citations after each numbered section, now required by the Government Code.

Specific Purpose of Proposed Action

The purpose of the proposed action is to remedy the problems enumerated above in the "Problems Addressed" statement. Specifically, the proposed regulations include new provisions setting forth charges (costs) to be paid for the preparation and reproduction of certified payroll records to implement legislative mandate in Chapter 681 S.1983.

The proposed regulations set forth criteria for the Director to follow when adopting collective bargaining agreements as the prevailing wage rates for public works projects.

The proposed regulations also clarify provisions to permit weekend work at regular (day) wage rates on public works projects. The regulations would also permit the use of "helper" labor classifications that are included in some collective bargaining agreements, but have not previously been addressed in prevailing wage regulations. The proposed regulations also would identify future changes in prevailing wage rates that are included in collective bargaining agreements, when such agreements are adopted by the Director.

clearly defined. If the responsibilities are clearly defined, the blanket request would not be accepted. The reason for the change is to discourage blanket requests for all contractors' payroll records when only one employer's records are needed. Blanket requests are very time consuming and costly to process. The Department believes that the interests of all affected parties would be better served if these "fishing expeditions" were curtailed.

Substantive new language is proposed to be added to existing Section 16207.12, which would require the public entity to include in an acknowledgment letter to the party requesting payroll records, the contractor's cost estimate for reproducing and furnishing such documents. The purpose for the inclusion of the new language is to inform the affected public that there are reimbursement costs associated in the request process.

Substantive new language is proposed to be added to newly renumbered subsection 16400(d) [existing Section 16207.13] to require the public entity to include in its request to contractors for certified copies of payroll records, the cost of providing the copies, and that the contractor is to make available for inspection copies of the records.

The reason for the proposed additional language is to place the burden of responsibility on the public entity for informing the contractor of his/her duty to estimate the copying cost, and the requirement to make the records available for inspection.

Section 16401. Reporting of Payroll Requests.

Existing Section 16207.15 is proposed to be amended with both substantive and nonsubstantive changes. The nonsubstantive changes are proposed for organizational consistency and style.

A substantive change is proposed to be made to allow the Labor Commissioner, instead of the public entity, to specify an acceptable payroll record format when the contractor does not comply with statutory informational requirements for providing certified payroll records. The intent is to centralize the decision-making process so that a myriad of different formats is not used.

By applying the same standards for the reporting format, more efficient investigation by enforcement agencies will be achieved, which will reduce costs to those enforcement bodies.

Section 16402. Cost.

Existing Section 16207.17 is proposed to be amended and renumbered to new Section 16402, and substantial revisions are proposed to be made to the text. The processing fee of $1.00 is proposed to be changed to $10.00 to more realistically reflect the handling costs to the contractor for furnishing payroll record copies. An additional provision for advance payment for contractor's reproduction costs by the requesting party is proposed to be included to discourage frivolous, time-consuming requests.

Section 16403. Privacy Considerations.

Existing Section 16207.18 is proposed to be renumbered to new Section 16403 to be consistent with the new organizational structures of the proposed regulations. No other changes are proposed to be made, except to require that other employee private information should be obliterated from any payroll record furnished to the public. The purpose of obliterating other private information is to protect individual employees from being identified.

Article 7. Severability

Section 16500. Severability.

It is proposed to adopt new Article 7 to include existing Section 16207.19, which is proposed to be amended and renumbered to new Section 16500.

The text referring to costs to a local agency and school districts is proposed to be repealed as unnecessary, as it is a cost disclaimer which should not have been included in the existing text.

~~16207.16~~ (b) Words of Certification. The form of certification shall be as foll
I, _____ (Name-print), the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named.

Date: _____ Signature: _____

A public entity may require a more strict and/or more extensive form of certification.

AUTHORITY CITED: Labor Code Sections 54 and 1773.5.
Reference: Labor Code Section 1776.

Renumber and amend existing Section 16207.17 to new Section 16402 to read:

~~16207.17. Fees. The public entity furnishing copies of payroll records to the person requesting them may charge no more than one ($1.00) dollar initial processing fee (per contractor) and twenty five (25¢) cents per page side copied.~~

16402. Cost. The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. An additional cost of $10 for handling may be required where the volume of information is large. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

AUTHORITY CITED: Labor Code Section 1776.
Reference: Labor Code Section 1776 (h).

Renumber and amend existing Section 16207.18 to new Section 16403 to read:

~~16207.18.~~ 16403. Privacy Considerations. (a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to of each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

AUTHORITY CITED: Labor Code Sections 54, 1773.5, and 1776.
Reference: Labor Code Section 1776.

Adopt new Article 7:

Article 7. SEVERABILITY

Renumber and amend existing Section 16207.19 to new Section 16500 to read:

~~16207.19.~~ 16500. Severability. If any provision of these regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these regulations which can be given effect without the invalid provisions or application, and to this end the provisions of these regulations are severable.
~~Pursuant to Section 9 of Chapter 281, Statutes 1976, and Chapter 1249, statutes 1978, the Director has determined that the proposed action will create no additional costs to any local agency or school district as provided by Section 2231 of the Revenue and Taxation Code.~~

AUTHORITY CITED: Labor Code Sections 54, 1773.5, and 1776.
Reference: Labor Code Sections 1773.5 and 1776.

FINAL STATEMENT OF REASONS

TITLE 8: Chapter 8, Group 3, Articles 1-7
Sections 16000-16500 of the Regulations
of the Office of the Director Regarding Payment
of Prevailing Wages Upon Public Works

Problems Addressed by Proposed Action

Recently enacted legislation (Chapter 681 S.1983) requires regulations to set forth cost (fees) for the reproduction and preparation of certified payroll records for determining compliance with prevailing wage requirements on public works jobs.

Existing regulations allow for the Director to adopt collective bargaining agreements to determine the prevailing wage rates, however, no criteria is set forth to determine how the Director will adopt such agreements or to what extent (geographical or otherwise) such agreements will constitute the prevailing wage determination.

Some collective bargaining agreements: (1) allow weekend or night work at regular wage rates on public works projects; or (2) permit the use of "helper" labor classifications; or (3) include future changes in the wage rate structure (upwards or downwards) during the length of the collective bargaining agreement. Existing regulations are not clear or do not address these provisions.

In addition, existing regulations in Articles 1-6 are poorly organized, repeat statutory requirements, and are in need of revision for greater clarity and understanding. Existing sections also lack statutory authority and reference citations after each numbered section, now required by the Government Code.

Specific Purpose of Proposed Action

The purpose of the proposed action is to remedy the problems enumerated above in the "Problems Addressed" statement. Specifically, the proposed regulations include new provisions setting forth charges (costs) to be paid for the preparation and reproduction of certified payroll records to implement legislative mandate in Chapter 681 S.1983.

The proposed regulations set forth criteria for the Director to follow when adopting collective bargaining agreements as the prevailing wage rates for public works projects.

The proposed regulations also clarify provisions to permit weekend work at regular (day) wage rates on public works projects. The regulations would also permit the use of "helper" labor classifications that are included in some collective bargaining agreements, but have not previously been addressed in prevailing wage regulations. The proposed regulations also would identify future changes in prevailing wage rates that are included in collective bargaining agreements, when such agreements are adopted by the Director.

Mr. Bolli, HBMWD

Mr. Bolli comments that a uniform, acceptable accounting procedure or format should be developed for use in public reporting requirements.

Response: Such a procedure is set forth in newly renumbered Section 16401, Reporting of Payroll Requests. New language is added to existing regulation to specify that if a contractor does not comply with reporting requirements as set forth in Labor Code Section 1776, the Labor Commissioner may require use of the Department's suggested format "Public Works Payroll Reporting Form" (Form A-1-131).

Section 16402. Cost.

Existing Section 16207.17 is amended and renumbered to new Section 16402, and substantial revisions are made to the text. The processing fee of $1.00 is changed to $10.00 to more realistically reflect the handling costs to the contractor for furnishing payroll record copies. An additional provision for advance payment for contractor's reproduction costs by the requesting party is included to discourage frivolous, time-consuming requests.

Response to Public Comment

WRITTEN COMMENTS

Mr. Smith, ACWA

Mr. Smith comments that his association members advise him that the rates proposed by the Department are insufficent to recover costs involved since costs tend to change, and may vary in different situations.

1/

Mr. Smith, instead, suggests that Section 16402 be revised to provide for the charging of the actual cost of providing the service.

Response: Mr. Smith's proposal cannot be adopted. The Department is instructed by Labor Code Section 1776(h) to establish reasonable fees to be charged for reproducing copies of certified payroll records.

It is therefore, necessary, for the Director to specify in regulation, a standard cost to contractors for providing these copies to avoid overstatement on the contractor's part of such costs. This regulation is also necessary because labor costs for providing the service may vary among different contractors.

The addition of a $10.00 handing fee is consistent with the California Public Records Act, which governs release of records, and establishes reasonable fees to be assessed for reproduction of records.

It will be the responsibility of each awarding body to establish flexible guidelines for imposing an additional $10.00 fee if the volume of information required is large.

[ROBBINS-Ca. Records Act]

Mr. O'Shea, Building & Construction Trades Department

Mr. O'Shea recommends that Section 16402 be changed to limit the cost of securing certified payroll records to $1.00 for the first page and 25¢ per each additional page.

Response: Mr. O'Shea's proposal cannot be adopted. In establishing reasonable fees for the reproduction of certified payroll records, the Director must take cognizance of costs incurred by contractors, in addition to their actual reproduction costs. The proposed $10.00 fee is believed to cover the contractor's cost for supplying these records, and is consistent with the California Public Records Act governing the release of records.

[ROBBINS-does this regulation conflict with Government Code 6257?]

Mr. Center, FFC

Mr. Center proposes deletion of the term "in advance by the person" (sic), on the basis that this term creates confusion since payment is covered under the last sentence of this section [Payment.... shall be made prior to release of the document to cover the actual costs of preparation."].

Response: The first sentence in Section 16402 is necessary as it specifies to whom the cost of preparation applies, and states, in general, that the person seeking the records must pay in advance.

It does not duplicate the final sentence in this section since the final sentence does not specify who are the payers/payees.

Legal authority for requiring advance payment is set forth in Labor Code Section 1776(b)(3):

> ...The requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractor, and the entity through which the request was made.

Advance payment in person is a necessary element in this regulation to preclude collection problems on the part of the contractor. It would not be fair for a requestor to put a contractor through the trouble of reproducing certified payroll records, and if the requestor changed his/her mind about wanting the records, the contractor would be left to bear the financial burden for reproduction, as well as labor costs.

The purpose of requiring advance payment is to discourage frivolous, time-consuming requests made to "harass" public entities, as well as contractors. The Department's records show that certain interested parties were submitting an inordinate number of requests for payroll records without legitimate substantiation. The advance payment requirement is proposed to resolve this problem administratively.

Mr. Richardson, Labor Research Group (IBEW 595)

Mr. Richardson recommends deletion of all language beyond the term "thereafter" in this subsection on the basis that imposition of this amendment, referring to the $10.00 handling fee, and an additional $10.00 fee if the volume of information is large, is contrary to the intent of Labor Code Section 1776 and Government Code Section 6750 (California Public Records Act), which are designed to allow public access to government records.

Mr. Richardson asserts that proposed Section 16402 is designed to inhibit access.

Response:

ROBBINS: does our regulation conflict with Gvt. Code 6257? 1776(b)(3) vs. Gvt. Code 6257 which prevails? Please address issue of public access. Unable to locate Gvt. Code 6750 is it an incorrect reference?

Ms. Gates, PDWPF

Ms. Gates recommends deletion of both $10.00 handling charges on the basis that the fees will be as a source of disagreement and delay, and enforcement will be difficult. Ms. Gates questions who would decide when the volume of information is large enough to require a $20.00 handling fee.

Response: As presently proposed, a $10.00 fee to the contractor would be required in addition to reproduction costs as specified. An additional $10.00 fee would be required if the volume of information requested is large.

It will be the awarding body's responsibility to establish flexible guidelines for imposing the additional $10.00 fee.

[Robbins-is Gates' argument valid re definition of "large". Is this Section, as written, open to too broad of an interpretation?]

Mr. Ouye, SMUD

Mr. Ouye believes that the reimbursement schedule is unreasonably low as it would not cover operating expenses, and, instead, proposes a survey of agencies to set a more reasonable payment schedule for providing payroll records.

Response: The Director is instructed by Labor Code Section 1776(h) to establish reasonable fees to be charged for reproducing copies of certified payroll records. This statute does not require that a specific method be used to establish such a fee.

This Section sets forth standard costs which were established consistent with the statutory mandate, and determined by the Director to be reasonable. Since operating expenses vary among contractors and awarding bodies, it is necessary that a cost be specified in regulation so that such costs are not inflated.

[ROBBINS-how did CC arrive at $10.00 fee? Should we define "if volume is large"?. How can we argue inclusion of "large"? Should we respond to conducting a survey?]

ORAL COMMENTS

Mr. Bassett, Caltrans

Mr. Bassett requests that the word "public entity" be included as the beneficiary of the $10.00 handling fee proposed to reimburse contractors or subcontractors on the basis that his agency would want to at least recover a minimal portion of some of the time demands generated by this request process.

Response: [Carmody, ROBBINS-See memo on issues]
Do we want to do this?

Section 16403. Privacy Considerations.

Existing Section 16207.18 is renumbered to new Section 16403 to be consistent with the new organizational structure of the proposed regulations. No other changes are made, except to require that other employee private information should be obliterated from any paytoll record furnished to the public. The purpose of obliterating other private information is to protect individual employees from being identified.

Response to Public Comment

WRITTEN COMMENTS

Mr. Spruance; Minasian, et al

Mr. Spruance comments:

Privacy is subjective. It should not be the public agency's responsibility to ascertain what is private with respect to individual employees of various contractors. Therefore, the proposed regulation should be redrafted to define specific categories of private information, or else require the contractor to indicate what information is considered to be private.

The "Statement of Reasons" indicates that the purpose of the change is to protect individual employees from being identified. If so, the regulation could be amended by requiring deletion or obliteration of "other private information which tends to identify individual employees."

Response: Private information is as defined in the Public Records Act.

Privacy is not subjective.

ROBBINS-Help!

please respond to this comment.

ORAL COMMENTS

Subsection 16403(b)

Mr. O'Shea, Building & Construction Trades Dept.

Mr. O'Shea asks whether "other private information" obliterated would include an employee's work classification.

Response: "Other private information" obliterated would not include an employee's work classification. A work classification is a necessary element in a certified payroll record.

[ROBBINS-Public Records act]

This is a critical element in establishing PW's are paid. It is unless coupled w/ identifying employee factors not confidential [illegible] information

Subsection 16403(c)

Mr. Bassett, Caltrans

Mr. Bassett proposes inclusion of the following double-underlined text:

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractors) when asked, so long as the entity requires such information of an identifying nature from the inquiring party which will reasonably preclude release of private or confidential information.

Mr. Bassett comments that the public entity should find out who is requesting the information.

State of California

Department of Industrial Relations

PAYMENT OF PREVAILING WAGES

Excerpts from California Labor Code,
California Administrative Code, California
Public Utilities Code, and
California Government Code

Issued by

Division of Labor Standards Enforcement
Division of Labor Statistics and Research
455 Golden Gate Avenue
P.O. Box 603
San Francisco, California 94101
July 1980

1983

FOREWORD

California law requires that not less than the general prevailing rate of per diem wages be paid to all workers employed on public works. Awarding bodies must obtain determinations for each craft, classification and type of worker needed to execute any contract for public work from the Director of the State Department of Industrial Relations.

Excerpts from the *Labor Code* and the *California Administrative Code* contained in this booklet have been published primarily to acquaint the more than 6,000 public awarding bodies with their responsibilities under the State's prevailing wage law. The booklet can also serve as a useful reference for contractors who undertake public works and craft representatives. These excerpts incorporate all amendments effective up to and including January 1, 1980, including amendments to Sections 1775 and 1777.7, the addition of Section 1722.1, and the renumbering of Section 3098 to Section 1773.3 in the *Labor Code*, and the adoption of Sections 16016–16019, 16207.10–16207.19 and the repeal of Section 16207.9 of the *California Administrative Code*.

Excerpts from the *Public Utilities Code* and the *Government Code* contained in this booklet have been published to acquaint public utilities, janitorial contractors, and other interested parties of prevailing wage requirements.

Awarding bodies may obtain prevailing wage determinations of the Director by writing to Chief, Division of Labor Statistics and Research, P.O. Box 603, San Francisco, CA 94101. Each request must specify the location where the work is to be performed, including the county, and the particular crafts, classifications, or types of workers for which a determination is needed.

Enforcement problems should be referred to the nearest district office of the Division of Labor Standards Enforcement. Addresses of these offices are listed at the end of this booklet.

District offices of the Division of Apprenticeship Standards are also listed at the end of this booklet.

Donald Vial

July 1980

Donald Vial
Director of Industrial Relations

16207.15. Reporting Format.

The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research
Post Office Box 603
San Francisco, California 94101
ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be at the discretion of the public entity provided the form can be readily understood by the person requesting the copies of the payroll records and the privacy considerations pursuant to Section 16207.18 below are complied with.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.16. Words of Certification.

The form of certification shall be as follows:

I, _____ (Name—print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____ (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named.

Date: _____ Signature: _____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.17. Fees.

The public entity furnishing copies of payroll records to the person requesting them may charge no more than one ($1.00) dollar initial processing fee (per contractor) and twenty-five (25¢) cents per page side copied.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code.

16207.18. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation including arbitration, mediation or other methods of dispute resolution are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number of each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person (s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54 and 1776, Labor Code. Reference: Section 1776, Labor Code; Section 6250 et seq., Government Code; and Section 1798 et seq., Civil Code.

16207.19. Severability.

If any provision of these regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these regulations which can be given effect without the invalid provisions or application, and to this end the provisions of these regulations are severable.

Pursuant to Section 9 of Chapter 281, Statutes 1976, and Chapter 1249, Statutes 1978, the Director has determined that the proposed action will create no additional costs to any local agency or school district as provided by Section 2231 of the Revenue and Taxation Code.

NOTE: Authority cited: Sections 54 and 1776, Labor Code; Section 9, Chapter 281, Statutes 1976; and Chapter 1249, Statutes 1978. Reference: Section 1776, Labor Code; Section 9, Chapter 281, Statutes 1976; and Chapter 1249, Statutes 1978 (8 Cal Admin. §16207.9. prior).

Date : January 21, 1980

Subject : AB 3174 - RULES AND REGULATIONS

From : Department of Industrial Relations
Ernie E. Vivas, Staff Counsel

Attached is a copy of the final draft. The changes made on the original proposal were brought about by the testimony at the hearings. Only one written comment was received. It, however, was addressed at the law rather than rules.

Please EXPEDITE any comments. I would like to file no later than the 31st of January.

I have not included the form, but the changes are not problematic in any way. As for the final draft, I feel that the rules are a better expression as a result of the few changes made and should present no real problems.

FORM A 5-1001 (3-88)

PROPOSED RULES AND REGULATIONS

AB 3174

Definitions

Add to Article 1:

16015. Payroll Records. Payroll records shall mean all time cards, cancelled checks, cash receipts, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidences which reflect job assignments, work schedules by days and hours, and the disbursement by way of cash, check, or in whatever form or manner, of funds to a person(s) by job classification and/or skill pursuant to a public works project (Labor Code §1720 et seq.).

16016. Certified. Certified shall mean the affirmation of a person with the authority to so affirm, under the penalty of perjury that the records are originals or are full, true and correct copies of the original and depict truly, fully and correctly the craft or type of work performed, hours and days worked, and the amounts by category listed, disbursed by way of cash, check, or in whatever form or manner to each person by job classification and/or skill pursuant to a public works contract.

16017. Public Entity. Public entity for the purpose of processing requests for inspection of payroll records or

furnishing certified copies thereof, shall mean any of the following: the body awarding the contract; the Division of Apprenticeship Standards (DAS), or the Division of Labor Standards Enforcement (DLSE) within the Department of Industrial Relations.

16018. Contractor - Subcontractor. The terms "contractor" and "subcontractor" shall include a contractor, subcontractor, licensee, officer, agent, or representative thereof, acting in such capacity, when working on public works pursuant to Article 1 (commencing with Section 1720) and Article 2 (commencing with Section 1770) of Chapter 1 of Part 7 of Division 2 of the Labor Code.

ARTICLE 5.

Section 16207.5 is Repealed

ARTICLE 6.

Payroll Records - Forms - Reporting

§16207.10. Request for Payroll Records. Requests from the public for certified copies of payroll records shall be made to any of the following: (a) the body awarding the contract, (b) any office of the Division of Labor Standards Enforcement, or (c) any office of the Division of Apprenticeship Standards of the Department of Industrial Relations.

§16207.11. Request in Writing. Any request for payroll records pursuant to §1776 of the Labor Code shall be in writing and contain at least the following information: (a) the body awarding the contract; (b) the contract number and/or description; (c) the particular job location if more than one; (d) the name of the contractor; (e) the regular business address, if known. Requests for records of more than one contractor or subcontractor must list the information regarding that contractor individually, even if all requests pertain to the same particular public works project. Blanket requests covering an entire public works project will not be

entertained unless the records are requested by each separate contractor employer with the information as outlined above provided for each.

§16207.12. Acknowledgment of Request. The public entity receiving a request for payroll records shall acknowledge receipt of such. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16207.13 below, to the person who requested said records.

§16207.13. Request to Contractor. The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following: (a) specify the records to be provided and the form upon which the information is to be provided; (b) conspicuous notice of the following: (1) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and (2) that failure to provide certified copies of the records to the requesting public entity within 10 working days of receipt of the request will subject the contractor

to a penalty of twenty-five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated.

§16207.14. Inspection of Payroll Records. Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of §1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice.

§16207.15. Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code §1776 shall be on a form provided by the public entity, which shall be substantially as follows:

(Insert Copy of Form Here)

Acceptance of any other format shall be at the discretion of the public entity provided the form can be readily understood by the person requesting the copies of the payroll records and the privacy considerations pursuant to Section 16207.18 below are complied with.

§16207.16. Words of Certification. The form of certification shall be as follows:

1992

I, _____ the undersigned, am
(Name - print)

_____ with the authority to act
(position in business)

for and on behalf of _____,
(name of business and/or contractor)

certify under penalty of perjury that the records or copies thereof submitted and consisting of _____
(description, no of pages)

are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named.

Date:_____ Signature:_____

A public entity may require a more strict and/or more extensive form of certification.

§16207.17. Fees. The public entity furnishing copies of payroll records to the person requesting them may charge no more than one ($1.00) dollar initial processing fee (per contractor) and twenty-five (25¢) cents per page side copied.

§16207.18. Privacy Considerations. (a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation including

arbitration, mediation or other methods of dispute resolution are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below; (b) Copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number of each employee cannot be identified. All other information including identification of the contractor shall not be obliterated; (c) The public entity may verify by affirmation or negation (yes or no) that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

§16207.19. Severability. If any provision of these regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these regulations which can be given effect without the invalid provisions or application, and to this end the provisions of these regulations are severable.

Pursuant to Section 9 of Chapter 281, Statutes 1976, and Chapter 1249, Statutes 1978, the Director has determined that the proposed action will create no additional costs to any local agency or school district as provided by Section 2231 of the Revenue and Taxation Code.

DO NOT WRITE IN THIS SPACE

(11) §16207.10. Request for Payroll Records. Requests from the public for certified copies of payroll records shall be made to any of the following: (a) the body awarding the contract, (b) any office of the Division of Labor Standards Enforcement, or (c) any office of the Division of Apprenticeship Standards of the Department of Industrial Relations.

NOTE: Authority cited: Labor Code Sections 54 and 1776

Reference: Labor Code Section 1776.

(12) §16207.11. Request in Writing. Any request for payroll records pursuant to §1776 of the Labor Code shall be in writing and contain at least the following information: (a) the body awarding the contract; (b) the contract number

and/or description; (c) the particular job location if more than one; (d) the name of the contractor; (e) the regular business address, if known." Requests for records of more than one contractor or subcontractor must list the information regarding that contractor individually, even if all requests pertain to the same particular public works project. Blanket requests covering an entire public works project will not be entertained unless the records are requested by each separate contractor employer with the information as outlined above provided for each.

NOTE: Authority cited: Labor Code Sections 54 and 1776
Reference: Labor Code Section 1776.

(13) §16207.12. Acknowledgment of Request. The public entity receiving a request for payroll records shall acknowledge receipt of such. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16207.13 below, to the person who requested said records.

NOTE: Authority cited: Labor Code Sections 54 and 1776
Reference: Labor Code Section 1776.

(14) §16207.13. Request to Contractor. The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following: (a) specify the records to be provided and the form upon which the information is to be provided; (b) conspicuous notice of the following: (1) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and (2) that failure to provide certified copies of the records to the requesting public entity within 10 working days of receipt of the request will subject the contractor to a penalty of twenty-five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated.

NOTE: Authority cited: Labor Code Sections 54 and 1776
Reference: Labor Code Section 1776.

(15) §16207.14. Inspection of Payroll Records. Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of §1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice.

NOTE: Authority cited: Labor Code Sections 54, 1776, and 1812
Reference: Labor Code Sections 1776 and 1812.

DO NOT WRITE IN THIS SPACE

(16) §16207.15. Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code §1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research
Post Office Box 603
San Francisco, California 94101
ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be at the discretion of the public entity provided the form can be readily understood by the person requesting the copies of the payroll records and the privacy considerations pursuant to Section 16207.18 below are complied with.

NOTE: Authority cited: Labor Code Sections 54 and 1776
Reference: Labor Code Section 1776.

(17) §16207.16. Words of Certification. The form of certification shall be as follows:

I, _____ the undersigned, am
(Name - print)
_____ with the authority to act
(position in business)
for and on behalf of _____,
(name of business and/or contractor)
certify under penalty of perjury that the records or copies thereof submitted and consisting of
(description, no. of pages)

are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named.

Date: _____ Signature: _____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Labor Code Sections 54 and 1776
Reference: Labor Code Section 1776.

(18) §16207.17. Fees. The public entity furnishing copies of payroll records to the person requesting them may charge no more than one ($1.00) dollar initial processing fee (per contractor) and twenty-five (25¢) cents per page side copied.

NOTE: Authority cited: Labor Code Sections 54 and 1776
Reference: Labor Code Section 1776.

(19) §16207.18. Privacy Considerations. (a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation including arbitration, mediation or other methods of dispute resolution

DO NOT WRITE IN THIS SPACE

are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below; (b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number of each employee cannot be identified. All other information including identification of the contractor shall not be obliterated; (c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Labor Code Sections 54 and 1776
Reference: Labor Code Section 1776, Government Code Section 6250 et seq; and Civil Code Section 1798 et seq.

(20) §16207.19. Severability. If any provision of these regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these regulations which can be given effect without the invalid provisions or application, and to this end the provisions of these regulations are severable.

Pursuant to Section 9 of Chapter 281, Statutes 1976, and Chapter 1249, Statutes 1978, the Director has determined

that the proposed action will create no additional costs to any local agency or school district as provided by Section 2231 of the Revenue and Taxation Code.

NOTE: Authority cited: Labor Code Sections 54 and 1776; Section 9, Chapter 281, Statutes 1976 and Chapter 1249, Statutes 1978.

Reference: Labor Code Section 1776; Section 9, Chapter 281, Statutes 1976 and Chapter 1249, Statutes 1978; (8 Cal Admin. §16207.9. prior).

State of California

Memorandum

To : Bill Becker, Chief Deputy Director
DIR Headquarters

Date : November 21, 1979

Subject: AB 3174 Rules

From : Department of Industrial Relations
Division of Apprenticeship Standards

Edward W. Wallace, Chief EW

1. Definition of "public entity" should be included to forestall misunderstanding.

2. 16207.13 Request to Contractor

   Who would enforce and collect the penalty of $25 per day, per worker portion of this section if the contractor does not respond to the request in ten (10) days?

   The Division responsible for collection of the penalties needs to be specified.

3. Section 16207.16 Fees

   At this time, DAS has no procedure for district offices to receive or keep monies. Unless the regulations required the fees be paid by cashiers check or money order, procedures will have to be developed.

4. The regulations would formalize some parts of the method DAS used in responding to the request for payroll records in the agreement between DAS and DLSE. (See attached)

Memorandum

To : Assistant Chiefs
Area Administrators
Senior Consultants
Consultants
District Offices

Date : April 19, 1979

Subject: Request for Certified Payroll Records

Telephone: ATSS (415) 557-1700

From : Department of Industrial Relations
Division of Apprenticeship Standards

Edward W. Wallace, Chief EWW

An agreement has been reached between the Division of Apprenticeship Standards and the Division of Labor Standards Enforcement on responsibility for "Request for Certified Payroll Records" as provided for in Section 1776 of the Labor Code:

Division of Labor Standards Enforcement will be the responsible Division for processing the request. DLSE has the mechanism to assess penalties, collect fines or recover wages.

Division of Apprenticeship Standards district offices should refer all request to the local DLSE offices.

If the Division of Apprenticeship Standards district offices should receive a request through the mail, reply to the requestor acknowledging receipt of the request, and advising that the request has been forwarded to DLSE for processing and any questions regarding the request should be directed to them.

April 15, 2008

RECEIVED

APR 15 2008

COMMISSION ON STATE MANDATES

Ms. Paula Higashi
Executive Director
Commission on State Mandates
980 Ninth Street, Suite 300
Sacramento, CA 95814

Dear Ms. Higashi:

As requested in your letter dated March 28, 2008, the Department of Finance has reviewed the draft staff analysis for Claim No. 01-TC-28, "Prevailing Wage Rate", and respectfully submits the following comments. As a result of our review, Finance concurs with the Commission staff's recommendation to deny the relevant test claim statutes and regulations that were pled as mandating a new program or higher level of service within the meaning of Article XIIIB, Section 6 of the California Constitution.

Additionally, we note that the State School Deferred Maintenance Program (Education Code section 17582, et seq.) and the Community Colleges Facility Deferred Maintenance and Special Repair Program (Education Code section 84660, et seq.) provide State-matching funds, on a dollar-for-dollar basis, to assist school and community college districts with expenditures for major repair or replacement of existing school building components. Therefore, any projects funded through the State School Deferred Maintenance Program or the Community Colleges Facility Deferred Maintenance and Special Repair Program would have received funding to cover the State's share of any related costs resulting from the activities as recommended by the Commission to be a reimbursable state-mandated program on pages 70-71 of the draft staff analysis. We suggest the Commission consider the availability of funding provided from the State School Deferred Maintenance Program and the Community Colleges Facility Deferred Maintenance and Special Repair Program to school districts and community colleges as offsetting revenues, should the Commission adopt a decision finding a reimbursable mandate.

As required by the Commission's regulations, a "Proof of Service" has been enclosed indicating that the parties included on the mailing list which accompanied your March 28, 2008 letter have been provided with copies of this letter via either United States Mail or, in the case of other state agencies, Interagency Mail Service.

If you have any questions regarding this letter, please contact Lenin Del Castillo, Principal Program Budget Analyst at (916) 445-0328.

Sincerely,

Jeannie Oropeza
Program Budget Manager

RE: Clovis Unified School District
Test Claim No.: 01-TC-28
Prevailing Wage Rates

Dear Ms. Higashi:

I received the Commission's agenda last night showing the above Test Claim on the Commission's agenda for its June 26, 2008, meeting. Unfortunately, I will be out of state that week on a preplanned vacation (for which I have already purchased airline tickets) and cannot attend. As I am the primary attorney on this matter, and the one designated by the Department to represent it at the hearing, I am requesting that the matter be continued to the August or October agenda (I am out of the country at the time of the September meeting).

Thank you in advance for your anticipated cooperation.

Yours truly,

Anthony Mischel

Re: Prevailing Wage Rate, 01-TC-28
Clovis Unified School District, Claimant
Labor Code Section 1720, et al.
Public Contract Code Section 22022
Title 8, CCR, Section 16000 et al.
Statutes 2001, Chapter 938 et al.

And Affected Parties and State Agencies

I am employed in the City and County of Sacramento, California. I am over the age of eighteen years and not a party to the within action; my business address is 320 W. Fourth Street, Suite 600, Los Angeles, CA 90013.

On May 22, 2008, I served the enclosed **Letter to Paula Higashi, Executive Director, dated May 22, 2008,** on the parties listed below, through their attorneys of record, by placing true copies thereof in sealed envelopes addressed as shown below for service as designated below:

(A) By First Class Mail: I am readily familiar with the practice of the Department of Industrial Relations, Office of the Director Legal Unit, for the collection and processing of correspondence for mailing with the United States Postal Service. I caused each such envelope, with first-class postage thereon fully prepared, to be deposited in a recognized place of deposit of the U.S. Mail in Loa Angeles, California, for collection and mailing to the office of the addressee on the date shown herein.

(B) By Personal Service: I caused each such envelope to be personally delivered to the office of the addressee by a member of the staff of the Department of Industrial Relations, Office of the Director Legal Unit, on the date last written below.

(C) By Messenger Service: I am readily familiar with the practice of the Department of Industrial Relations, Office of the Director Legal Unit for messenger delivery, and I caused each such envelope to be delivered to a courier employed by Golden State Overnight, with whom we have a direct billing account, who personally delivered each such envelope to the office of the address at the place and on the date last written below.

(D) By Facsimile Transmission: I caused such document to be served via facsimile electronic equipment transmission (fax) on the parties in this action, pursuant to oral and/or written agreement between such parties regarding service by facsimile by transmitting a true copy to the following fax numbers:

Estate of DENIS H. GRISWOLD, Deceased.
NORMA B. DONER-GRISWOLD, Petitioner and Respondent, v. FRANCIS V. SEE, Objector and Appellant.
Cal. 2001.

Estate of DENIS H. GRISWOLD, Deceased.
NORMA B. DONER-GRISWOLD, Petitioner and Respondent,
v.
FRANCIS V. SEE, Objector and Appellant.
No. S087881.

Supreme Court of California
June 21, 2001.

SUMMARY

After an individual died intestate, his wife, as administrator of the estate, filed a petition for final distribution. Based on a 1941 judgment in a bastardy proceeding in Ohio, in which the decedent's biological father had confessed paternity, an heir finder who had obtained an assignment of partial interest in the estate from the decedent's half siblings filed objections. The biological father had died before the decedent, leaving two children from his subsequent marriage. The father had never told his subsequent children about the decedent, but he had paid court-ordered child support for the decedent until he was 18 years old. The probate court denied the heir finder's petition to determine entitlement, finding that he had not demonstrated that the father was the decedent's natural parent pursuant to Prob. Code, § 6453, or that the father had acknowledged the decedent as his child pursuant to Prob. Code, § 6452, which bars a natural parent or a relative of that parent from inheriting through a child born out of wedlock on the basis of the parent/child relationship unless the parent or relative acknowledged the child and contributed to the support or care of the child. (Superior Court of Santa Barbara County, No. B216236, Thomas Pearce Anderle, Judge.) The Court of Appeal, Second Dist., Div. Six, No. B128933, reversed.

The Supreme Court affirmed the judgment of the Court of Appeal. The court held that, since the father had acknowledged the decedent as his child and contributed to his support, the decedent's half siblings were not subject to the restrictions of Prob. Code, § 6452. Although no statutory definition of "acknowledge" appears in Prob. Code, § 6452, the word's common meaning is: to admit to be true or as stated; to confess. Since the decedent's father had confessed paternity in the 1941 bastardy proceeding, he had acknowledged the decedent under the plain terms of the statute. The court also held that the 1941 Ohio judgment established the decedent's biological father as his natural parent for purposes of intestate succession under Prob. Code, § 6453, subd. (b). Since the identical issue was presented both in the Ohio proceeding and in this California proceeding, the Ohio proceeding bound the parties in this proceeding. (Opinion by Baxter, J., with George, C. J., Kennard, Werdegar, and Chin, JJ., concurring. Concurring opinion by Brown, J. (see p. 925).)

HEADNOTES

Classified to California Digest of Official Reports

(1a, 1b, 1c, 1d) Parent and Child § 18--Parentage of Children-- Inheritance Rights--Parent's Acknowledgement of Child Born Out of Wedlock:Descent and Distribution § 3--Persons Who Take--Half Siblings of Decedent.
In a proceeding to determine entitlement to an intestate estate, the trial court erred in finding that the half siblings of the decedent were precluded by Prob. Code, § 6452, from sharing in the intestate estate. Section 6452 bars a natural parent or a relative of that parent from inheriting through a child born out of wedlock unless the parent or relative acknowledged the child and contributed to that child's support or care. The decedent's biological father had paid court-ordered child support for the decedent until he was 18 years old. Although no statutory definition of "acknowledge" appears in § 6452, the word's common meaning is: to admit to be true or as stated; to confess. Since the decedent's father had appeared in a 1941 bastardy proceeding in another state, where he confessed paternity, he had acknowledged the decedent under the plain terms of § 6452. Further, even though the father had not had contact with the decedent and had not told his other children about him, the record disclosed no evidence that he

disavowed paternity to anyone with knowledge of the circumstances. Neither the language nor the history of § 6452 evinces a clear intent to make inheritance contingent upon the decedent's awareness of the relatives who claim an inheritance right.
[See 12 Witkin, Summary of Cal. Law (9th ed. 1990) Wills and Probate, §§ 153, 153A, 153B.]
(2) Statutes § 29--Construction--Language--Legislative Intent.
In statutory construction cases, a court's fundamental task is to ascertain the intent of the lawmakers so as to effectuate the purpose of the statute. A court begins by examining the statutory language, giving the words their usual and ordinary meaning. If the terms of the statute are unambiguous, the court presumes the lawmakers meant what they said, and the plain meaning of the language governs. If there is ambiguity, however, the court may then look to extrinsic sources, including the ostensible objects to be achieved and the legislative history. In such cases, the court selects the construction that comports most closely with the apparent intent of the Legislature, with a view to promoting rather than defeating the general purpose of the statute, and avoids an interpretation that would lead to absurd consequences.

(3) Statutes § 46--Construction--Presumptions--Legislative Intent--Judicial Construction of Certain Language.
When legislation has been judicially construed and a subsequent statute on the same or an analogous subject uses identical or substantially similar language, a court may presume that the Legislature intended the same construction, unless a contrary intent clearly appears.

(4) Statutes § 20--Construction--Judicial Function.
A court may not, under the guise of interpretation, insert qualifying provisions not included in a statute.

(5a, 5b) Parent and Child § 18--Parentage of Children--Inheritance Rights--Determination of Natural Parent of Child Born Out of Wedlock:Descent and Distribution § 3--Persons Who Take--Half Siblings of Decedent.
In a proceeding to determine entitlement to an intestate estate, the trial court erred in finding that the half siblings of the decedent, who had been born out of wedlock, were precluded by Prob. Code, § 6453 (only "natural parent" or relative can inherit through intestate child), from sharing in the intestate estate. Prob. Code, § 6453, subd. (b), provides that a natural parent and child relationship may be established through Fam. Code, § 7630, subd. (c), if a court order declaring paternity was entered during the father's lifetime. The decedent's father had appeared in a 1941 bastardy proceeding in Ohio, where he confessed paternity. If a valid judgment of paternity is rendered in Ohio, it generally is binding on California courts if Ohio had jurisdiction over the parties and the subject matter, and the parties were given reasonable notice and an opportunity to be heard. Since the Ohio bastardy proceeding decided the identical issue presented in this California proceeding, the Ohio proceeding bound the parties in this proceeding. Further, even though the decedent's mother initiated the bastardy proceeding prior to adoption of the Uniform Parentage Act, and all procedural requirements of Fam. Code, § 7630, may not have been followed, that judgment was still binding in this proceeding, since the issue adjudicated was identical to the issue that would have been presented in an action brought pursuant to the Uniform Parentage Act.

(6) Judgments § 86--Res Judicata--Collateral Estoppel--Nature of Prior Proceeding--Criminal Conviction on Guilty Plea.
A trial court in a civil proceeding may not give collateral estoppel effect to a criminal conviction involving the same issues if the conviction resulted from a guilty plea. The issue of the defendant's guilt was not fully litigated in the prior criminal proceeding; rather, the plea bargain may reflect nothing more than a compromise instead of an ultimate determination of his or her guilt. The defendant's due process right to a civil hearing thus outweighs any countervailing need to limit litigation or conserve judicial resources.

(7) Descent and Distribution § 1--Judicial Function.
Succession of estates is purely a matter of statutory regulation, which cannot be changed by the courts.

COUNSEL
Kitchen & Turpin, David C. Turpin; Law Office of Herb Fox and Herb Fox for Objector and Appellant.
Mullen & Henzell and Lawrence T. Sorensen for Petitioner and Respondent.
BAXTER, J.
Section 6452 of the Probate Code (all statutory

references are to this code unless otherwise indicated) bars a "natural parent" or a relative of that parent from inheriting through a child born out of wedlock on the basis of the parent and child relationship unless the parent or relative "acknowledged the child" and "contributed to the support or the care of the child." In this case, we must determine whether section 6452 precludes the half siblings of a child born out of wedlock from sharing in the child's intestate estate where the record is undisputed that their father appeared in an Ohio court, admitted paternity of the child, and paid court-ordered child support until the child was 18 years old. Although the father and the out-of-wedlock child apparently never met or communicated, and the half siblings did not learn of the child's existence until after both the child and the father died, there is no indication that the father ever denied paternity or knowledge of the out-of-wedlock child to persons who were aware of the circumstances.

Since succession to estates is purely a matter of statutory regulation, our resolution of this issue requires that we ascertain the intent of the lawmakers who enacted section 6452. Application of settled principles of statutory ***908** construction compels us to conclude, on this uncontroverted record, that section 6452 does not bar the half siblings from sharing in the decedent's estate.

Factual and Procedural Background

Denis H. Griswold died intestate in 1996, survived by his wife, Norma B. Doner-Griswold. Doner-Griswold petitioned for and received letters of administration and authority to administer Griswold's modest estate, consisting entirely of separate property.

In 1998, Doner-Griswold filed a petition for final distribution, proposing a distribution of estate property, after payment of attorney's fees and costs, to herself as the surviving spouse and sole heir. Francis V. See, a self-described "forensic genealogist" (heir hunter) who had obtained an assignment of partial interest in the Griswold estate from Margaret Loera and Daniel Draves, [FN1] objected to the petition for final distribution and filed a petition to determine entitlement to distribution.

FN1 California permits heirs to assign their interests in an estate, but such assignments are subject to court scrutiny. (See § 11604.)

See and Doner-Griswold stipulated to the following background facts pertinent to See's entitlement petition.

Griswold was born out of wedlock to Betty Jane Morris on July 12, 1941 in Ashland, Ohio. The birth certificate listed his name as Denis Howard Morris and identified John Edward Draves of New London, Ohio as the father. A week after the birth, Morris filed a "bastardy complaint" [FN2] in the juvenile court in Huron County, Ohio and swore under oath that Draves was the child's father. In September of 1941, Draves appeared in the bastardy proceeding and "confessed in Court that the charge of the plaintiff herein is true." The court adjudged Draves to be the "reputed father" of the child, and ordered Draves to pay medical expenses related to Morris's pregnancy as well as $5 per week for child support and maintenance. Draves complied, and for 18 years paid the court-ordered support to the clerk of the Huron County court.

FN2 A "bastardy proceeding" is an archaic term for a paternity suit. (Black's Law Dict. (7th ed. 1999) pp. 146, 1148.)

Morris married Fred Griswold in 1942 and moved to California. She began to refer to her son as "Denis Howard Griswold," a name he used for the rest of his life. For many years, Griswold believed Fred Griswold was his father. At some point in time, either after his mother and Fred Griswold ***909** divorced in 1978 or after his mother died in 1983, Griswold learned that Draves was listed as his father on his birth certificate. So far as is known, Griswold made no attempt to contact Draves or other members of the Draves family.

Meanwhile, at some point after Griswold's birth, Draves married in Ohio and had two children, Margaret and Daniel. Neither Draves nor these two children had any communication with Griswold, and the children did not know of Griswold's existence until after Griswold's death in 1996. Draves died in 1993. His last will and testament, dated July 22, 1991, made no mention of Griswold by name or other reference. Huron County probate documents identified Draves's surviving spouse and two

children-Margaret and Daniel-as the only heirs.

Based upon the foregoing facts, the probate court denied See's petition to determine entitlement. In the court's view, See had not demonstrated that Draves was Griswold's "natural parent" or that Draves "acknowledged" Griswold as his child as required by section 6452.

The Court of Appeal disagreed on both points and reversed the order of the probate court. We granted Doner-Griswold's petition for review.

Discussion

(1a) Denis H. Griswold died without a will, and his estate consists solely of separate property. Consequently, the intestacy rules codified at sections 6401 and 6402 are implicated. Section 6401, subdivision (c) provides that a surviving spouse's share of intestate separate property is one-half "[w]here the decedent leaves no issue but leaves a parent or parents or their issue or the issue of either of them." (§ 6401, subd. (c)(2)(B).) Section 6402, subdivision (c) provides that the portion of the intestate estate not passing to the surviving spouse under section 6401 passes as follows: "If there is no surviving issue or parent, to the issue of the parents or either of them, the issue taking equally if they are all of the same degree of kinship to the decedent ...."

As noted, Griswold's mother (Betty Jane Morris) and father (John Draves) both predeceased him. Morris had no issue other than Griswold and Griswold himself left no issue. Based on these facts, See contends that Doner-Griswold is entitled to one-half of Griswold's estate and that Draves's issue (See's assignors, Margaret and Daniel) are entitled to the other half pursuant to sections 6401 and 6402.

Because Griswold was born out of wedlock, three additional Probate Code provisions-section 6450, section 6452, and section 6453-must be considered. ***910**

As relevant here, section 6450 provides that "a relationship of parent and child exists for the purpose of determining intestate succession by, through, or from a person" where "[t]he relationship of parent and child exists between a person and the person's natural parents, regardless of the marital status of the natural parents." (*Id.*, subd. (a).)

Notwithstanding section 6450's general recognition of a parent and child relationship in cases of unmarried natural parents, section 6452 restricts the ability of such parents and their relatives to inherit from a child as follows: "If a child is born out of wedlock, neither a *natural parent* nor a relative of that parent inherits from or through the child on the basis of the parent and child relationship between that parent and the child unless both of the following requirements are satisfied: [¶] (a) The parent or a relative of the parent *acknowledged the child.*[¶] (b) The parent or a relative of the parent contributed to the support or the care of the child." (Italics added.)

Section 6453, in turn, articulates the criteria for determining whether a person is a "natural parent" within the meaning of sections 6450 and 6452. A more detailed discussion of section 6453 appears *post*, at part B.

It is undisputed here that section 6452 governs the determination whether Margaret, Daniel, and See (by assignment) are entitled to inherit from Griswold. It is also uncontroverted that Draves contributed court-ordered child support for 18 years, thus satisfying subdivision (b) of section 6452. At issue, however, is whether the record establishes all the remaining requirements of section 6452 as a matter of law. First, did Draves acknowledge Griswold within the meaning of section 6452, subdivision (a)? Second, did the Ohio judgment of reputed paternity establish Draves as the natural parent of Griswold within the contemplation of sections 6452 and 6453? We address these issues in order.

A. *Acknowledgement*

As indicated, section 6452 precludes a natural parent or a relative of that parent from inheriting through a child born out of wedlock unless the parent or relative "acknowledged the child." (*Id.*, subd. (a).) On review, we must determine whether Draves acknowledged Griswold within the contemplation of the statute by confessing to paternity in court, where the record reflects no other acts of acknowledgement, but no disavowals either.

(2) In statutory construction cases, our

fundamental task is to ascertain the intent of the lawmakers so as to effectuate the purpose of the statute. (*Day v. City of Fontana* (2001) 25 Cal.4th 268, 272 [*911105 Cal.Rptr.2d 457, 19 P.3d 1196].) "We begin by examining the statutory language, giving the words their usual and ordinary meaning." (*Ibid.*;*People v. Lawrence* (2000) 24 Cal.4th 219, 230 [99 Cal.Rptr.2d 570, 6 P.3d 228].) If the terms of the statute are unambiguous, we presume the lawmakers meant what they said, and the plain meaning of the language governs. (*Day v. City of Fontana*, *supra*,25 Cal.4th at p. 272; *People v. Lawrence*, *supra*,24 Cal.4th at pp. 230-231.)If there is ambiguity, however, we may then look to extrinsic sources, including the ostensible objects to be achieved and the legislative history. (*Day v. City of Fontana*, *supra*,25 Cal.4th at p. 272.)In such cases, we " ' "select the construction that comports most closely with the apparent intent of the Legislature, with a view to promoting rather than defeating the general purpose of the statute, and avoid an interpretation that would lead to absurd consequences." ' " (*Ibid.*)

(1b) Section 6452 does not define the word "acknowledged." Nor does any other provision of the Probate Code. At the outset, however, we may logically infer that the word refers to conduct other than that described in subdivision (b) of section 6452, i.e., contributing to the child's support or care; otherwise, subdivision (a) of the statute would be surplusage and unnecessary.

Although no statutory definition appears, the common meaning of "acknowledge " is "to admit to be true or as stated; confess." (Webster's New World Dict. (2d ed. 1982) p. 12; see Webster's 3d New Internat. Dict. (1981) p. 17 ["to show by word or act that one has knowledge of and agrees to (a fact or truth) ... [or] concede to be real or true ... [or] admit"].) Were we to ascribe this common meaning to the statutory language, there could be no doubt that section 6452's acknowledgement requirement is met here. As the stipulated record reflects, Griswold's natural mother initiated a bastardy proceeding in the Ohio juvenile court in 1941 in which she alleged that Draves was the child's father. Draves appeared in that proceeding and publicly " confessed" that the allegation was true. There is no evidence indicating that Draves did not confess knowingly and voluntarily, or that he later denied paternity or knowledge of Griswold to those who were aware of the circumstances. [FN3] Although the record establishes that Draves did not speak of Griswold to Margaret and Daniel, there is no evidence suggesting he sought to actively conceal the facts from them or anyone else. Under the plain terms of section 6452, the only sustainable conclusion on this record is that Draves acknowledged Griswold.

FN3 Huron County court documents indicate that at least two people other than Morris, one of whom appears to have been a relative of Draves, had knowledge of the bastardy proceeding.

Although the facts here do not appear to raise any ambiguity or uncertainty as to the statute's application, we shall, in an abundance of caution, ***912** test our conclusion against the general purpose and legislative history of the statute. (See *Day v. City of Fontana*, *supra*,25 Cal.4th at p. 274; *Powers v. City of Richmond* (1995) 10 Cal.4th 85, 93 [40 Cal.Rptr.2d 839, 893 P.2d 1160].)

The legislative bill proposing enactment of former section 6408.5 of the Probate Code (Stats. 1983, ch. 842, § 55, p. 3084; Stats. 1984, ch. 892, § 42, p. 3001), the first modern statutory forerunner to section 6452, was introduced to effectuate the Tentative Recommendation Relating to Wills and Intestate Succession of the California Law Revision Commission (the Commission). (See 17 Cal. Law Revision Com. Rep. (1984) p. 867, referring to 16 Cal. Law Revision Com. Rep. (1982) p. 2301.) According to the Commission, which had been solicited by the Legislature to study and recommend changes to the then existing Probate Code, the proposed comprehensive legislative package to govern wills, intestate succession, and related matters would "provide rules that are more likely to carry out the intent of the testator or, if a person dies without a will, the intent a decedent without a will is most likely to have had." (16 Cal. Law Revision Com. Rep., *supra*, at p. 2319.)The Commission also advised that the purpose of the legislation was to "make probate more efficient and expeditious." (*Ibid.*) From all that appears, the Legislature shared the Commission's views in enacting the legislative bill of which former section 6408.5 was a part. (See 17 Cal. Law Revision Com. Rep., *supra*, at p. 867.)

Typically, disputes regarding parental

acknowledgement of a child born out of wedlock involve factual assertions that are made by persons who are likely to have direct financial interests in the child's estate and that relate to events occurring long before the child's death. Questions of credibility must be resolved without the child in court to corroborate or rebut the claims of those purporting to have witnessed the parent's statements or conduct concerning the child. Recognition that an in-court admission of the parent and child relationship constitutes powerful evidence of an acknowledgement under section 6452 would tend to reduce litigation over such matters and thereby effectuate the legislative objective to "make probate more efficient and expeditious." (16 Cal. Law Revision Com. Rep., *supra*, at p. 2319.)

Additionally, construing the acknowledgement requirement to be met in circumstances such as these is neither illogical nor absurd with respect to the intent of an intestate decedent. Put another way, where a parent willingly acknowledged paternity in an action initiated to establish the parent-child relationship and thereafter was never heard to deny such relationship (§ 6452, subd. (a)), and where that parent paid all court-ordered support for that child for 18 years (*id.*, subd. (b)), it cannot be said that the participation ***913** of that parent or his relative in the estate of the deceased child is either (1) so illogical that it cannot represent the intent that one without a will is most likely to have had (16 Cal. Law Revision Com. Rep., *supra*, at p. 2319) or (2) "so absurd as to make it manifest that it could not have been intended" by the Legislature (*Estate of De Cigaran* (1907) 150 Cal. 682, 688 [89 P. 833] [construing Civ. Code, former § 1388 as entitling the illegitimate half sister of an illegitimate decedent to inherit her entire intestate separate property to the exclusion of the decedent's surviving husband]).

There is a dearth of case law pertaining to section 6452 or its predecessor statutes, but what little there is supports the foregoing construction. Notably, *Lozano v. Scalier* (1996) 51 Cal.App.4th 843 [59 Cal.Rptr.2d 346](*Lozano*), the only prior decision directly addressing section 6452's acknowledgement requirement, declined to read the statute as necessitating more than what its plain terms call for.

In *Lozano*, the issue was whether the trial court erred in allowing the plaintiff, who was the natural father of a 10-month-old child, to pursue a wrongful death action arising out of the child's accidental death. The wrongful death statute provided that where the decedent left no spouse or child, such an action may be brought by the persons "who would be entitled to the property of the decedent by intestate succession." (Code Civ. Proc., § 377.60, subd. (a).) Because the child had been born out of wedlock, the plaintiff had no right to succeed to the estate unless he had both "acknowledged the child " and "contributed to the support or the care of the child" as required by section 6452. *Lozano* upheld the trial court's finding of acknowledgement in light of evidence in the record that the plaintiff had signed as "Father" on a medical form five months before the child's birth and had repeatedly told family members and others that he was the child's father. (*Lozano*, *supra*,51 Cal.App.4th at pp. 845, 848.)

Significantly, *Lozano* rejected arguments that an acknowledgement under Probate Code section 6452 must be (1) a witnessed writing and (2) made after the child was born so that the child is identified. In doing so, *Lozano* initially noted there were no such requirements on the face of the statute.(*Lozano*, *supra*,51 Cal.App.4th at p. 848.)*Lozano* next looked to the history of the statute and made two observations in declining to read such terms into the statutory language. First, even though the Legislature had previously required a witnessed writing in cases where an illegitimate child sought to inherit from the father's estate, it repealed such requirement in 1975 in an apparent effort to ease the evidentiary proof of the parent-child relationship. (*Ibid.*) Second, other statutes that required a parent-child relationship expressly contained more formal acknowledgement requirements for the assertion of certain other rights or privileges. (See *id.* at p. 849, citing ***914**Code Civ. Proc., § 376, subd. (c), Health & Saf. Code, § 102750, & Fam. Code, § 7574.) Had the Legislature wanted to impose more stringent requirements for an acknowledgement under section 6452, *Lozano* reasoned, it certainly had precedent for doing so. (*Lozano*, *supra*,51 Cal.App.4th at p. 849.)

Apart from Probate Code section 6452, the Legislature had previously imposed an acknowledgement requirement in the context of a statute providing that a father could legitimate a child born out of wedlock for all purposes "by publicly

acknowledging it as his own." (See Civ. Code, former § 230.) [FN4]Since that statute dealt with an analogous subject and employed a substantially similar phrase, we address the case law construing that legislation below.

> FN4 Former section 230 of the Civil Code provided: "The father of an illegitimate child, by publicly acknowledging it as his own, receiving it as such, with the consent of his wife, if he is married, into his family, and otherwise treating it as if it were a legitimate child, thereby adopts it as such; and such child is thereupon deemed for all purposes legitimate from the time of its birth. The foregoing provisions of this Chapter do not apply to such an adoption." (Enacted 1 Cal. Civ. Code (1872) § 230, p. 68, repealed by Stats. 1975, ch. 1244, § 8, p. 3196.)
> In 1975, the Legislature enacted California's Uniform Parentage Act, which abolished the concept of legitimacy and replaced it with the concept of parentage. (See *Adoption of Kelsey S.* (1992) 1 Cal.4th 816, 828-829 [4 Cal.Rptr.2d 615, 823 P.2d 1216].)

In *Blythe v. Ayres* (1892) 96 Cal. 532 [31 P. 915], decided over a century ago, this court determined that the word "acknowledge," as it appeared in former section 230 of the Civil Code, had no technical meaning. (*Blythe v. Ayers*, *supra*,96 Cal. at p. 577.)We therefore employed the word's common meaning, which was " 'to own or admit the knowledge of.' " (*Ibid.* [relying upon Webster's definition]; see also *Estate of Gird* (1910) 157 Cal. 534, 542 [108 P. 499].) Not only did that definition endure in case law addressing legitimation (*Estate of Wilson* (1958) 164 Cal.App.2d 385, 388-389 [330 P.2d 452]; see *Estate of Gird*, *supra*,157 Cal. at pp. 542-543), but, as discussed, the word retains virtually the same meaning in general usage today-"to admit to be true or as stated; confess." (Webster's New World Dict., *supra*, at p. 12; see Webster's 3d New Internat. Dict., *supra*, at p. 17.)

Notably, the decisions construing former section 230 of the Civil Code indicate that its public acknowledgement requirement would have been met where a father made a single confession in court to the paternity of a child.

In *Estate of McNamara* (1919) 181 Cal. 82 [183 P. 552, 7 A.L.R. 313], for example, we were emphatic in recognizing that a single unequivocal act could satisfy the acknowledgement requirement for purposes of statutory legitimation. Although the record in that case had contained additional evidence of the father's acknowledgement, we focused our attention on his ***915** one act of signing the birth certificate and proclaimed: "A more public acknowledgement than the act of [the decedent] in signing the child's birth certificate describing himself as the father, it would be difficult to imagine." (*Id.* at pp. 97-98.)

Similarly, in *Estate of Gird*, *supra*,157 Cal. 534, we indicated in dictum that "a public avowal, made in the courts" would constitute a public acknowledgement under former section 230 of the Civil Code. (*Estate of Gird*, *supra*,157 Cal. at pp. 542-543.)

Finally, in *Wong v. Young* (1947) 80 Cal.App.2d 391 [181 P.2d 741], a man's admission of paternity in a verified pleading, made in an action seeking to have the man declared the father of the child and for child support, was found to have satisfied the public acknowledgement requirement of the legitimation statute. (*Id.* at pp. 393-394.)Such admission was also deemed to constitute an acknowledgement under former Probate Code section 255, which had allowed illegitimate children to inherit from their fathers under an acknowledgement requirement that was even more stringent than that contained in Probate Code section 6452. [FN5](*Wong v. Young*, *supra*,80 Cal.App.2d at p. 394; see also *Estate of De Laveaga* (1904) 142 Cal. 158, 168 [75 P. 790] [indicating in dictum that, under a predecessor to Probate Code section 255, father sufficiently acknowledged an illegitimate child in a single witnessed writing declaring the child as his son].) Ultimately, however, legitimation of the child under former section 230 of the Civil Code was not found because two other of the statute's express requirements, i.e., receipt of the child into the father's family and the father's otherwise treating the child as his legitimate child (see *ante*, fn. 4), had not been established. (*Wong v. Young*, *supra*,80 Cal.App.2d at p. 394.)

> FN5 Section 255 of the former Probate Code provided in pertinent part: " 'Every

> illegitimate child, whether born or conceived but unborn, in the event of his subsequent birth, is an heir of his mother, and also of the person who, in writing, signed in the presence of a competent witness, acknowledges himself to be the father, and inherits his or her estate, in whole or in part, as the case may be, in the same manner as if he had been born in lawful wedlock ....' " (*Estate of Ginochio* (1974) 43 Cal.App.3d 412, 416 [117 Cal.Rptr. 565], italics omitted.)

Although the foregoing authorities did not involve section 6452, their views on parental acknowledgement of out-of-wedlock children were part of the legal landscape when the first modern statutory forerunner to that provision was enacted in 1985. (See former § 6408.5, added by Stats. 1983, ch. 842, § 55, p. 3084, and amended by Stats. 1984, ch. 892, § 42, p. 3001.) (3) Where, as here, legislation has been judicially construed and a subsequent statute on the same or an analogous subject uses identical or substantially similar language, we may presume that the Legislature intended the ***916** same construction, unless a contrary intent clearly appears. (*In re Jerry R.* (1994) 29 Cal.App.4th 1432, 1437 [35 Cal.Rptr.2d 155]; see also *People v. Masbruch* (1996) 13 Cal.4th 1001, 1007 [55 Cal.Rptr.2d 760, 920 P.2d 705]; *Belridge Farms v. Agricultural Labor Relations Bd.* (1978) 21 Cal.3d 551, 557 [147 Cal.Rptr. 165, 580 P.2d 665].) (1c) Since no evidence of a contrary intent clearly appears, we may reasonably infer that the types of acknowledgement formerly deemed sufficient for the legitimation statute (and former § 255, as well) suffice for purposes of intestate succession under section 6452. [FN6]

> FN6 Probate Code section 6452's acknowledgement requirement differs from that found in former section 230 of the Civil Code, in that section 6452 does not require a parent to "publicly" acknowledge a child born out of wedlock. That difference, however, fails to accrue to Doner-Griswold's benefit. If anything, it suggests that the acknowledgement contemplated in section 6452 encompasses a broader spectrum of conduct than that associated with the legitimation statute.

Doner-Griswold disputes whether the acknowledgement required by Probate Code section 6452 may be met by a father's single act of acknowledging a child in court. In her view, the requirement contemplates a situation where the father establishes an ongoing parental relationship with the child or otherwise acknowledges the child's existence to his subsequent wife and children. To support this contention, she relies on three other authorities addressing acknowledgement under former section 230 of the Civil Code: *Blythe v. Ayers*, *supra*,96 Cal. 532,*Estate of Wilson*, *supra*,164 Cal.App.2d 385, and *Estate of Maxey* (1967) 257 Cal.App.2d 391 [64 Cal.Rptr. 837].

In *Blythe v. Ayres*, *supra*,96 Cal. 532, the father never saw his illegitimate child because she resided in another country with her mother. Nevertheless, he "was garrulous upon the subject" of his paternity and "it was his common topic of conversation." (*Id.* at p. 577.)Not only did the father declare the child to be his child, "to all persons, upon all occasions," but at his request the child was named and baptized with his surname. (*Ibid.*) Based on the foregoing, this court remarked that "it could almost be held that he shouted it from the house-tops." (*Ibid.*) Accordingly, we concluded that the father's public acknowledgement under former section 230 of the Civil Code could "hardly be considered debatable." (*Blythe v. Ayres*, *supra*,96 Cal. at p. 577.)

In *Estate of Wilson*, *supra*,164 Cal.App.2d 385, the evidence showed that the father had acknowledged to his wife that he was the father of a child born to another woman. (*Id.* at p. 389.)Moreover, he had introduced the child as his own on many occasions, including at the funeral of his mother. (*Ibid.*) In light of such evidence, the Court of Appeal upheld the trial court's finding that the father had publicly acknowledged the child within the contemplation of the legitimation statute. ***917**

In *Estate of Maxey*, *supra*,257 Cal.App.2d 391, the Court of Appeal found ample evidence supporting the trial court's determination that the father publicly acknowledged his illegitimate son for purposes of legitimation. The father had, on several occasions, visited the house where the child lived with his mother and asked about the child's school attendance and general welfare.(*Id.* at p. 397.)The father also, in the presence of others, had asked for permission to

take the child to his own home for the summer, and, when that request was refused, said that the child was his son and that he should have the child part of the time. (*Ibid.*) In addition, the father had addressed the child as his son in the presence of other persons. (*Ibid.*)

Doner-Griswold correctly points out that the foregoing decisions illustrate the principle that the existence of acknowledgement must be decided on the circumstances of each case. (*Estate of Baird* (1924) 193 Cal. 225, 277 [223 P. 974].) In those decisions, however, the respective fathers had not confessed to paternity in a legal action. Consequently, the courts looked to what other forms of public acknowledgement had been demonstrated by fathers. (See also *Lozano*, *supra*,51 Cal.App.4th 843 [examining father's acts both before and after child's birth in ascertaining acknowledgement under § 6452].)

That those decisions recognized the validity of different forms of acknowledgement should not detract from the weightiness of a father's in-court acknowledgement of a child in an action seeking to establish the existence of a parent and child relationship. (See *Estate of Gird*, *supra*,157 Cal. at pp. 542-543; *Wong v. Young*, *supra*,80 Cal.App.2d at pp. 393-394.)As aptly noted by the Court of Appeal below, such an acknowledgement is a critical one that typically leads to a paternity judgment and a legally enforceable obligation of support. Accordingly, such acknowledgements carry as much, if not greater, significance than those made to certain select persons (*Estate of Maxey*, *supra*,257 Cal.App.2d at p. 397) or "shouted ... from the house-tops " (*Blythe v. Ayres*, *supra*,96 Cal. at p. 577).

Doner-Griswold's authorities do not persuade us that section 6452 should be read to require that a father have personal contact with his out-of-wedlock child, that he make purchases for the child, that he receive the child into his home and other family, or that he treat the child as he does his other children. First and foremost, the language of section 6452 does not support such requirements. (See *Lozano*, *supra*,51 Cal.App.4th at p. 848.)(4) We may not, under the guise of interpretation, insert qualifying provisions not included in the statute. (*California Fed. Savings & Loan Assn. v. City of Los Angeles* (1995) 11 Cal.4th 342, 349 [45 Cal.Rptr.2d 279, 902 P.2d 297].)

(1d) Second, even though *Blythe v. Ayres*, *supra*,96 Cal. 532,*Estate of Wilson*, *supra*,164 Cal.App.2d 385, and *Estate of Maxey*, *supra*,*918257 Cal.App.2d 391, variously found such factors significant for purposes of legitimation, their reasoning appeared to flow directly from the express terms of the controlling statute. In contrast to Probate Code section 6452, former section 230 of the Civil Code provided that the legitimation of a child born out of wedlock was dependent upon three distinct conditions: (1) that the father of the child "publicly acknowledg[e] it as his own"; (2) that he "receiv[e] it as such, with the consent of his wife, if he is married, into his family"; and (3) that he "otherwise treat[] it as if it were a legitimate child." (*Ante*, fn. 4; see *Estate of De Laveaga*, *supra*,142 Cal. at pp. 168-169 [indicating that although father acknowledged his illegitimate son in a single witnessed writing, legitimation statute was not satisfied because the father never received the child into his family and did not treat the child as if he were legitimate].) That the legitimation statute contained such explicit requirements, while section 6452 requires only a natural parent's acknowledgement of the child and contribution toward the child's support or care, strongly suggests that the Legislature did not intend for the latter provision to mirror the former in all the particulars identified by Doner-Griswold. (See *Lozano*, *supra*,51 Cal.App.4th at pp. 848-849; compare with Fam. Code, § 7611, subd. (d) [a man is "presumed" to be the natural father of a child if "[h]e receives the child into his home and openly holds out the child as his natural child"].)

In an attempt to negate the significance of Draves's in-court confession of paternity, Doner-Griswold emphasizes the circumstance that Draves did not tell his two other children of Griswold's existence. The record here, however, stands in sharp contrast to the primary authority she offers on this point.*Estate of Baird*, *supra*,193 Cal. 225, held there was no public acknowledgement under former section 230 of the Civil Code where the decedent admitted paternity of a child to the child's mother and their mutual acquaintances but actively concealed the child's existence and his relationship to the child's mother from his own mother and sister, with whom he had intimate and affectionate relations. In that case, the decedent not only failed to tell his relatives,

family friends, and business associates of the child (193 Cal. at p. 252), but he affirmatively denied paternity to a half brother and to the family coachman (*id.* at p. 277). In addition, the decedent and the child's mother masqueraded under a fictitious name they assumed and gave to the child in order to keep the decedent's mother and siblings in ignorance of the relationship. (*Id.* at pp. 260-261.)In finding that a public acknowledgement had not been established on such facts, *Estate of Baird* stated: "A distinction will be recognized between a mere failure to disclose or publicly acknowledge paternity and a willful misrepresentation in regard to it; in such circumstances there must be no purposeful concealment of the fact of paternity. " (*Id.* at p. 276.)***919**

Unlike the situation in *Estate of Baird*, Draves confessed to paternity in a formal legal proceeding. There is no evidence that Draves thereafter disclaimed his relationship to Griswold to people aware of the circumstances (see *ante*, fn. 3), or that he affirmatively denied he was Griswold's father despite his confession of paternity in the Ohio court proceeding. Nor is there any suggestion that Draves engaged in contrivances to prevent the discovery of Griswold's existence. In light of the obvious dissimilarities, Doner-Griswold's reliance on *Estate of Baird* is misplaced.

Estate of Ginochio, *supra*,43 Cal.App.3d 412, likewise, is inapposite. That case held that a judicial determination of paternity following a vigorously contested hearing did not establish an acknowledgement sufficient to allow an illegitimate child to inherit under section 255 of the former Probate Code. (See *ante*, fn. 5.) Although the court noted that the decedent ultimately paid the child support ordered by the court, it emphasized the circumstance that the decedent was declared the child's father *against his will* and at no time did he admit he was the father, or sign any writing acknowledging publicly or privately such fact, or otherwise have contact with the child. (*Estate of Ginochio*, *supra*,43 Cal.App.3d at pp. 416-417.)Here, by contrast, Draves did not contest paternity, vigorously or otherwise. Instead, Draves stood before the court and openly admitted the parent and child relationship, and the record discloses no evidence that he subsequently disavowed such admission to anyone with knowledge of the circumstances. On this record, section 6452's acknowledgement requirement has been satisfied by a showing of what Draves did and did not do, not by the mere fact that paternity had been judicially declared.

Finally, Doner-Griswold contends that a 1996 amendment of section 6452 evinces the Legislature's unmistakable intent that a decedent's estate may not pass to siblings who had no contact with, or were totally unknown to, the decedent. As we shall explain, that contention proves too much.

Prior to 1996, section 6452 and a predecessor statute, former section 6408, expressly provided that their terms did not apply to "a natural brother or a sister of the child" born out of wedlock. [FN7] In construing former section 6408, *Estate of Corcoran* (1992) 7 Cal.App.4th 1099 [9 Cal.Rptr.2d 475] held that a half sibling was a "natural brother or sister" within the meaning of such ***920** exception. That holding effectively allowed a half sibling and the issue of another half sibling to inherit from a decedent's estate where there had been no parental acknowledgement or support of the decedent as ordinarily required. In direct response to *Estate of Corcoran*, the Legislature amended section 6452 by eliminating the exception for natural siblings and their issue. (Stats. 1996, ch. 862, § 15; see Sen. Com. on Judiciary, Analysis of Assem. Bill No. 2751 (1995-1996 Reg. Sess.) as amended June 3, 1996, pp. 17-18 (Assembly Bill No. 2751).) According to legislative documents, the Commission had recommended deletion of the statutory exception because it "creates an undesirable risk that the estate of the deceased out-of-wedlock child will be claimed by siblings with whom the decedent had no contact during lifetime, and of whose existence the decedent was unaware." (Assem. Com. on Judiciary, Analysis of Assem. Bill No. 2751 (1995-1996 Reg. Sess.) as introduced Feb. 22, 1996, p. 6; see also Sen. Com. on Judiciary, Analysis of Assem. Bill No. 2751, *supra*, at pp. 17-18.)

> FN7 Former section 6408, subdivision (d) provided: "If a child is born out of wedlock, neither a parent nor a relative of a parent (except for the issue of the child *or a natural brother or sister of the child or the issue of that brother or sister*) inherits from or through the child on the basis of the relationship of parent and child between that

> parent and child unless both of the following requirements are satisfied: [¶] (1) The parent or a relative of the parent acknowledged the child. [¶] (2) The parent or a relative of the parent contributed to the support or the care of the child. " (Stats. 1990, ch. 79, § 14, p. 722, italics added.)

This legislative history does not compel Doner-Griswold's construction of section 6452. Reasonably read, the comments of the Commission merely indicate its concern over the "undesirable risk" that unknown siblings could rely on the statutory exception to make claims against estates. Neither the language nor the history of the statute, however, evinces a clear intent to make inheritance contingent upon the decedent's awareness of or contact with such relatives. (See Assem. Com. on Judiciary, Analysis of Assem. Bill No. 2751, *supra*, at p. 6; see also Sen. Com. on Judiciary, Analysis of Assem. Bill No. 2751, *supra*, at pp. 17-18.)Indeed, had the Legislature intended to categorically preclude intestate succession by a natural parent or a relative of that parent who had no contact with or was unknown to the deceased child, it could easily have so stated. Instead, by deleting the statutory exception for natural siblings, thereby subjecting siblings to section 6452's dual requirements of acknowledgement and support, the Legislature acted to prevent sibling inheritance under the type of circumstances presented in *Estate of Corcoran*, *supra*,7 Cal.App.4th 1099, and to substantially reduce the risk noted by the Commission. [FN8]*921

> FN8 We observe that, under certain former versions of Ohio law, a father's confession of paternity in an Ohio juvenile court proceeding was not the equivalent of a formal probate court "acknowledgement" that would have allowed an illegitimate child to inherit from the father in that state. (See *Estate of Vaughan* (2001) 90 Ohio St.3d 544 [740 N.E.2d 259, 262-263].) Here, however, Doner-Griswold does not dispute that the right of the succession claimants to succeed to Griswold's property is governed by the law of Griswold's domicile, i.e., California law, not the law of the claimants' domicile or the law of the place where Draves's acknowledgement occurred. (Civ. Code, §§ 755, 946; see *Estate of Lund* (1945) 26 Cal.2d 472, 493-496 [159 P.2d 643, 162 A.L.R. 606] [where father died domiciled in California, his out-of-wedlock son could inherit where all the legitimation requirements of former § 230 of the Civ. Code were met, even though the acts of legitimation occurred while the father and son were domiciled in two other states wherein such acts were not legally sufficient].)

B. *Requirement of a Natural Parent and Child Relationship*

(5a) Section 6452 limits the ability of a "natural parent" or "a relative of that parent" to inherit from or through the child "on the basis of the parent and child relationship between that parent and the child."

Probate Code section 6453 restricts the means by which a relationship of a natural parent to a child may be established for purposes of intestate succession. [FN9] (See *Estate of Sanders* (1992) 2 Cal.App.4th 462, 474-475 [3 Cal.Rptr.2d 536].) Under section 6453, subdivision (a), a natural parent and child relationship is established where the relationship is presumed under the Uniform Parentage Act and not rebutted. (Fam. Code, § 7600 et seq.) It is undisputed, however, that none of those presumptions applies in this case.

> FN9 Section 6453 provides in full: "For the purpose of determining whether a person is a 'natural parent' as that term is used is this chapter: [¶] (a) A natural parent and child relationship is established where that relationship is presumed and not rebutted pursuant to the Uniform Parentage Act, Part 3 (commencing with Section 7600) of Division 12 of the Family Code. [¶] (b) A natural parent and child relationship may be established pursuant to any other provisions of the Uniform Parentage Act, except that the relationship may not be established by an action under subdivision (c) of Section 7630 of the Family Code unless any of the following conditions exist: [¶] (1) A court order was entered during the father's lifetime declaring paternity. [¶] (2) Paternity is established by clear and convincing evidence that the father has openly held out

> the child as his own. [¶] (3) It was impossible for the father to hold out the child as his own and paternity is established by clear and convincing evidence."

Alternatively, and as relevant here, under Probate Code section 6453, subdivision (b), a natural parent and child relationship may be established pursuant to section 7630, subdivision (c) of the Family Code, [FN10] if a court order was entered during the father's lifetime declaring paternity. [FN11] (§ 6453, subd. (b)(1).)

> FN10 Family Code section 7630, subdivision (c) provides in pertinent part: "An action to determine the existence of the father and child relationship with respect to a child who has no presumed father under Section 7611 ... may be brought by the child or personal representative of the child, the Department of Child Support Services, the mother or the personal representative or a parent of the mother if the mother has died or is a minor, a man alleged or alleging himself to be the father, or the personal representative or a parent of the alleged father if the alleged father has died or is a minor. An action under this subdivision shall be consolidated with a proceeding pursuant to Section 7662 if a proceeding has been filed under Chapter 5 (commencing with Section 7660). The parental rights of the alleged natural father shall be determined as set forth in Section 7664."

> FN11 See makes no attempt to establish Draves's natural parent status under other provisions of section 6453, subdivision (b).

See contends the question of Draves's paternity was fully and finally adjudicated in the 1941 bastardy proceeding in Ohio. That proceeding, he *922 argues, satisfies both the Uniform Parentage Act and the Probate Code, and should be binding on the parties here.

If a valid judgment of paternity is rendered in Ohio, it generally is binding on California courts if Ohio had jurisdiction over the parties and the subject matter, and the parties were given reasonable notice and an opportunity to be heard. (*Ruddock v. Ohls* (1979) 91 Cal.App.3d 271, 276 [154 Cal.Rptr. 87].) California courts generally recognize the importance of a final determination of paternity. (E.g., *Weir v. Ferreira* (1997) 59 Cal.App.4th 1509, 1520 [70 Cal.Rptr.2d 33](*Weir*);*Guardianship of Claralyn S.* (1983) 148 Cal.App.3d 81, 85 [195 Cal.Rptr. 646]; cf. *Estate of Camp* (1901) 131 Cal. 469, 471 [63 P. 736] [same for adoption determinations].)

Doner-Griswold does not dispute that the parties here are in privity with, or claim inheritance through, those who are bound by the bastardy judgment or are estopped from attacking it. (See *Weir*, *supra*,59 Cal.App.4th at pp. 1516-1517, 1521.)Instead, she contends See has not shown that the issue adjudicated in the Ohio bastardy proceeding is identical to the issue presented here, that is, whether Draves was the natural parent of Griswold.

Although we have found no California case directly on point, one Ohio decision has recognized that a bastardy judgment rendered in Ohio in 1950 was res judicata of any proceeding that might have been brought under the Uniform Parentage Act. (*Birman v. Sproat* (1988) 47 Ohio App.3d 65 [546 N.E.2d 1354, 1357] [child born out of wedlock had standing to bring will contest based upon a paternity determination in a bastardy proceeding brought during testator's life]; see also Black's Law Dict., *supra*, at pp. 146, 1148 [equating a bastardy proceeding with a paternity suit].) Yet another Ohio decision found that parentage proceedings, which had found a decedent to be the "reputed father" of a child, [FN12] satisfied an Ohio legitimation statute and conferred standing upon the illegitimate child to contest the decedent's will where the father-child relationship was established prior to the decedent's death. (*Beck v. Jolliff* (1984) 22 Ohio App.3d 84 [489 N.E.2d 825, 829]; see also *Estate of Hicks* (1993) 90 Ohio App.3d 483 [629 N.E.2d 1086, 1088-1089] [parentage issue must be determined prior to the father's death to the extent the parent-child relationship is being established under the chapter governing descent and distribution].) While we are not bound to follow these Ohio authorities, they persuade us that the 1941 bastardy proceeding decided the identical issue presented here.

> FN12 The term "reputed father" appears to have reflected the language of the relevant Ohio statute at or about the time of the 1941

bastardy proceeding. (See *State ex rel. Discus v. Van Dorn* (1937) 56 Ohio App. 82 [8 Ohio Op. 393, 10 N.E.2d 14, 16].)

Next, Doner-Griswold argues the Ohio judgment should not be given res judicata effect because the bastardy proceeding was quasi-criminal in nature. ***923** It is her position that Draves's confession may have reflected only a decision to avoid a jury trial instead of an adjudication of the paternity issue on the merits.

To support this argument, Doner-Griswold relies upon *Pease v. Pease* (1988) 201 Cal.App.3d 29 [246 Cal.Rptr. 762](*Pease*). In that case, a grandfather was sued by his grandchildren and others in a civil action alleging the grandfather's molestation of the grandchildren. When the grandfather cross-complained against his former wife for apportionment of fault, she filed a demurrer contending that the grandfather was collaterally estopped from asserting the negligent character of his acts by virtue of his guilty plea in a criminal proceeding involving the same issues. On appeal, the judgment dismissing the cross-complaint was reversed. (6) The appellate court reasoned that a trial court in a civil proceeding may not give collateral estoppel effect to a criminal conviction involving the same issues if the conviction resulted from a guilty plea. "The issue of appellant's guilt was not fully litigated in the prior criminal proceeding; rather, appellant's plea bargain may reflect nothing more than a compromise instead of an ultimate determination of his guilt. Appellant's due process right to a hearing thus outweighs any countervailing need to limit litigation or conserve judicial resources." (*Id.* at p. 34, fn. omitted.)

(5b) Even assuming, for purposes of argument only, that *Pease*'s reasoning may properly be invoked where the father's admission of paternity occurred in a bastardy proceeding (see *Reams v. State ex rel. Favors* (1936) 53 Ohio App. 19 [6 Ohio Op. 501, 4 N.E.2d 151, 152] [indicating that a bastardy proceeding is more civil than criminal in character]), the circumstances here do not call for its application. Unlike the situation in *Pease*, neither the in-court admission nor the resulting paternity judgment at issue is being challenged by the father (Draves). Moreover, neither the father, nor those claiming a right to inherit through him, seek to litigate the paternity issue. Accordingly, the father's due process rights are not at issue and there is no need to determine whether such rights might outweigh any countervailing need to limit litigation or conserve judicial resources. (See *Pease*, *supra*,201 Cal.App.3d at p. 34.)

Additionally, the record fails to support any claim that Draves's confession merely reflected a compromise. Draves, of course, is no longer living and can offer no explanation as to why he admitted paternity in the bastardy proceeding. Although Doner-Griswold suggests that Draves confessed to avoid the publicity of a jury trial, and not because the paternity charge had merit, that suggestion is purely speculative and finds no evidentiary support in the record. ***924**

Finally, Doner-Griswold argues that See and Griswold's half siblings do not have standing to seek the requisite paternity determination pursuant to the Uniform Parentage Act under section 7630, subdivision (c) of the Family Code. The question here, however, is whether the judgment in the bastardy proceeding initiated by Griswold's mother forecloses Doner-Griswold's relitigation of the parentage issue.

Although Griswold's mother was not acting pursuant to the Uniform Parentage Act when she filed the bastardy complaint in 1941, neither that legislation nor the Probate Code provision should be construed to ignore the force and effect of the judgment she obtained. That Griswold's mother brought her action to determine paternity long before the adoption of the Uniform Parentage Act, and that all procedural requirements of an action under Family Code section 7630 may not have been followed, should not detract from its binding effect in this probate proceeding where the issue adjudicated was identical with the issue that would have been presented in a Uniform Parentage Act action. (See *Weir*, *supra*,59 Cal.App.4th at p. 1521.)Moreover, a prior adjudication of paternity does not compromise a state's interests in the accurate and efficient disposition of property at death. (See *Trimble v. Gordon* (1977) 430 U.S. 762, 772 & fn. 14 [97 S.Ct. 1459, 1466, 52 L.Ed.2d 31] [striking down a provision of a state probate act that precluded a category of illegitimate children from participating in their intestate fathers' estates where the parent-child

relationship had been established in state court paternity actions prior to the fathers' deaths].)

In sum, we find that the 1941 Ohio judgment was a court order "entered during the father's lifetime declaring paternity" (§ 6453, subd. (b)(1)), and that it establishes Draves as the natural parent of Griswold for purposes of intestate succession under section 6452.

Disposition

(7) " 'Succession to estates is purely a matter of statutory regulation, which cannot be changed by the courts.' " (*Estate of De Cigaran*, *supra*,150 Cal. at p. 688.)We do not disagree that a natural parent who does no more than openly acknowledge a child in court and pay court-ordered child support may not reflect a particularly worthy predicate for inheritance by that parent's issue, but section 6452 provides in unmistakable language that it shall be so. While the Legislature remains free to reconsider the matter and may choose to change the rules of succession at any time, this court will not do so under the pretense of interpretation.

The judgment of the Court of Appeal is affirmed.

George, C. J., Kennard, J., Werdegar, J., and Chin, J., concurred. ***925BROWN, J.**

I reluctantly concur. The relevant case law strongly suggests that a father who admits paternity in court with no subsequent disclaimers "acknowledge[s] the child" within the meaning of subdivision (a) of Probate Code section 6452. Moreover, neither the statutory language nor the legislative history supports an alternative interpretation. Accordingly, we must affirm the judgment of the Court of Appeal.

Nonetheless, I believe our holding today contravenes the overarching purpose behind our laws of intestate succession-to carry out "the intent a decedent without a will is most likely to have had." (16 Cal. Law Revision Com. Rep. (1982) p. 2319.) I doubt most children born out of wedlock would have wanted to bequeath a share of their estate to a "father" who never contacted them, never mentioned their existence to his family and friends, and only paid court-ordered child support. I doubt even more that these children would have wanted to bequeath a share of their estate to that father's other offspring. Finally, I have *no* doubt that most, if not all, children born out of wedlock would have balked at bequeathing a share of their estate to a "forensic genealogist."

To avoid such a dubious outcome in the future, I believe our laws of intestate succession should allow a parent to inherit from a child born out of wedlock only if the parent has some sort of parental connection to that child. For example, requiring a parent to treat a child born out of wedlock as the parent's own before the parent may inherit from that child would prevent today's outcome. (See, e.g., *Bullock v. Thomas* (Miss. 1995) 659 So.2d 574, 577 [a father must "openly treat" a child born out of wedlock "as his own " in order to inherit from that child].) More importantly, such a requirement would comport with the stated purpose behind our laws of succession because that child likely would have wanted to give a share of his estate to a parent that treated him as the parent's own.

Of course, this court may not remedy this apparent defect in our intestate succession statutes. Only the Legislature may make the appropriate revisions. I urge it to do so here. ***926**

END OF DOCUMENT

Hall v. City of Taft
Cal.

GUY HALL, Respondent,
v.
THE CITY OF TAFT et al., Appellants.
L. A. No. 24244.

Supreme Court of California
Oct. 19, 1956.

HEADNOTES

(1) Schools § 2--Legislative Control.
The public schools are a matter of statewide rather than local or municipal concern; their establishment, regulation and operation are covered by the Constitution, and the Legislature is given plenary powers in relation thereto, subject only to constitutional restrictions.
See **Cal.Jur.,** Schools, § 4 et seq.; **Am.Jur.,** Schools, § 7 et seq.
(2) Schools § 2--Legislative Control.
The public school system is of statewide supervision and concern, and legislative enactments thereon control over attempted regulation by local government units.

(3) Schools § 10--School Districts.
School districts are agencies of the state for local operation of the state school system.

(4) Schools § 52--School Property.
The beneficial ownership of property of public schools is in the state.

(5) Schools § 60--School Property--Buildings and Construction.
While a large degree of autonomy is granted school districts by the Legislature, no statute or constitutional provision expressly makes school buildings or their construction any more amenable to regulation by a municipal corporation than structures built and maintained by the state generally for its use.
See **Cal.Jur.,** Schools, § 70 et seq.; **Am.Jur.,** Schools, § 71 et seq.
(6) Municipal Corporations § 237--Local Regulations--Conflicts With Statute.
When the state engages in such sovereign activities as construction and maintenance of its buildings as differentiated from enacting laws for conduct of the public at large, it is not subject to local regulations unless the Constitution says it is or the Legislature has consented to such regulation; neither Const., art. XI, § 11, relating to police power of cities and other local subdivisions, nor Gov. Code, §§ 38601, 38660, empowering a city to regulate the construction of buildings within its limits, should be considered as conferring such powers on local government agencies.
See **Cal.Jur.2d,** Buildings, § 6; **Am.Jur.,** Municipal Corporations, § 287.
(7) Schools § 60--School Property--Buildings and Construction.
Construction of school buildings by school districts is not subject to building regulations of a municipal corporation in which the building is constructed, because the state has completely occupied the field by general laws and such regulations conflict with such laws.

(8) Municipal Corporations § 237--Local Regulations--Conflicts With Statute.
A city may not enact ordinances which conflict with general laws on statewide matters.

(9) Schools § 60--School Property--Buildings and Construction.
The Health and Safety Code provisions relating to structural design aimed at procuring buildings less dangerous from the standpoint of earthquakes (§§ 19150, 19151) and requiring that building permits be obtained from the proper city or county officers (§ 19120) do not limit or modify the provisions of the Education Code (§§ 5021, 5041, 18001 et seq.) which set forth a complete system for the construction of school buildings.

(10) Schools § 60--School Property--Buildings and Construction.
Rules and regulations adopted for the construction of school buildings under the Education and Health and Safety Codes (Cal. Administrative Code, tit. 21, ch. 1) may not be interpreted to mean that a city's building regulations must be met in the construction of a school building; they tend more to indicate that school districts could follow such regulations as well as those of the state but are not bound to do so.

(11) Statutes § 112(1)--Construction.
The final construction of a statute is the function of courts.

SUMMARY

APPEAL from a judgment of the Superior Court of Kern County. William L. Bradshaw, Judge. Affirmed.

Action to enjoin a city from enforcing its building ordinance. Judgment for plaintiff affirmed.

COUNSEL
Henry G. Baron, City Attorney, and Allen Grimes for Appellants.
Mack, Bianco, King & Eyherabide and Dominic Bianco for Respondent.
Edmund G. Brown, Attorney General, Richard H. Perry, Deputy Attorney General, Johnson & Stanton, Gardiner Johnson and Thomas E. Stanton, Jr., as Amici Curiae on behalf of Respondent. *179
CARTER, J.
Defendants, Taft, a nonchartered city of the sixth class, its council and chief of police, appeal from a judgment enjoining it from enforcing against plaintiff, a building contractor, its building ordinance.

There is no dispute as to the facts. On April 22, 1955, plaintiff as contractor entered into a contract with Taft Union High School and Junior College District, hereafter called district, a school district duly organized under the state laws, to construct in Taft for the district, a school building for $614,113. The plans and specifications for the building were approved by the State Department of Education and State Division of Architecture. Plaintiff commenced construction which was to be completed in 320 days, but work was "stopped" by Taft, the city, demanding that plaintiff obtain a building permit from it involving a $300 fee and submission to the building ordinance [FN*] of Taft. The district has employed an inspector to assure that the building is constructed according to the plans and specifications. Defendants assert that plaintiff has refused to obtain a permit from the city for the construction of the building and they intend to enforce the penal and civil provisions of the building ordinance of the city.

> FN* Taft by ordinance had adopted the "Uniform Building Code 1952 edition adopted and published by the Pacific Coast Officials Conference in 1952."

The issue is whether a municipal corporation's building regulations are applicable to the construction of a public school building by a school district in the municipality. Taft argues that it had power to adopt police regulations-building construction regulations under the Constitution. [FN†]

> FN† "Any county, city, town, or township may make and enforce within its limits all such local, police, sanitary, and other regulations as are not in conflict with general laws." (Cal. Const., art. XI, § 11.)

(1) The public schools of this state are a matter of statewide rather than local or municipal concern; their establishment, regulation and operation are covered by the Constitution and the state Legislature is given comprehensive powers in relation thereto. The Legislature shall not pass local or special laws "Providing for the management of common schools." (Cal. Const., art. IV, § 25, subd. 27.) "A general diffusion of knowledge and intelligence being essential to the preservation of the rights and liberties of the people, *the Legislature* shall encourage by all suitable means the promotion of intellectual, scientific, moral, and agricultural improvement." (Emphasis added; *id.*, art. IX, § 1.) There *180 is a State Board of Education, an elected superintendent of public instruction and there are county superintendents whose salary and qualifications are prescribed by the Legislature (*id.*, art. IX, §§ 3, 3.1, 7). The proceeds of all public lands that have been or may be granted by the United States to the state and other property is "inviolably" appropriated to the support of the common schools (*id.*, art. IX, § 4) and "Out of the revenue from state taxes for which provision is made in this article, together with all other state revenues, there shall first be set apart the moneys to be applied by the State to the support of the Public School System and the State University." (*Id.*, art. XIII, § 15.) "The *Legislature* shall provide for a system of common schools by which a free school shall be kept up and supported in each district at least six months in every year, after the first year in which a school has been established." (Emphasis added; *id.*, art. IX, § 5.) "The Public School System shall include all kindergarten schools, elementary schools, secondary schools, technical schools, and state colleges, established in accordance with law and, in addition, the school districts and the other agencies authorized to maintain them. No school or

college or any other part of the Public School System shall be, directly or indirectly, transferred from the Public School System *or placed under the jurisdiction of any authority* other than one included within the Public School System. ...

"The Legislature shall provide for the levying annually by the governing body of each county, and city and county, of such school district taxes, at rates not in excess of the maximum rates of school district tax fixed or authorized by the Legislature, as will produce in each fiscal year such revenue for each school district as the governing board thereof shall determine is required in such fiscal year for the support of all schools and functions of said district authorized or required by law." (Emphasis added; *id.*, art. IX, § 6.) A school district may lie in more than one county and may issue bonds. (*Id.*, art. IX, § 6 1/2.) No money shall ever be appropriated for "any school not under the exclusive control of the officers of the public schools. ..." (*Id.*, art. IX, § 8.) "The *Legislature* shall have power, by general law, to provide for the incorporation and organization of school districts, high school districts, and junior college districts, of every kind and class, and may classify such districts." (Emphasis added; *id.*, art. IX, § 14.) In harmony with those provisions it has been held that the power of the state Legislature over ***181** the public schools is plenary, subject only to any constitutional restrictions. (*Pass School Dist. v. Hollywood City School Dist.*, 156 Cal. 416, 418 [105 P. 122, 20 Ann.Cas. 87, 26 L.R.A.N.S. 485]; *Kennedy v. Miller*, 97 Cal. 429 [32 P. 558]; *Worthington School Dist. v. Eureka School Dist.*, 173 Cal. 154 [159 P. 437]; *Merrill etc. School Dist. v. Rapose*, 125 Cal.App.2d 819 [271 P.2d 522]; see *Woodcock v. Dick*, 36 Cal.2d 146 [222 P.2d 667]; *Seidel v. Waring*, 36 Cal.2d 149 [222 P.2d 669].) (2) The public school system is of statewide supervision and concern and legislative enactments thereon control over attempted regulation by local government units. (*Esberg v. Badaracco*, 202 Cal. 110 [259 P. 730]; *Cloverdale Union H. S. Dist. v. Peters*, 88 Cal.App. 731 [264 P. 273]; *Piper v. Big Pine School Dist.*, 193 Cal. 664 [226 P. 926]; *Kelso v. Board of Education*, 42 Cal.App.2d 415 [109 P.2d 29]; *Kennedy v. Miller*, *supra*, 97 Cal. 429; *Worthington School Dist. v. Eureka School Dist.*, *supra*, 173 Cal. 154; *Board of Education v. Davidson*, 190 Cal. 162 [210 P. 961]; *Phelps v. Prussia*, 60 Cal.App.2d 732 [141 P.2d 440]; *Lansing v. Board of Education*, 7 Cal.App.2d 211 [45 P.2d 1021]; *People v. Mertz*, 2 Cal.2d 136 [39 P.2d 422]; *Gerth v. Dominguez*, 1 Cal.2d 239 [34 P.2d 135].) It is said in *Piper v. Big Pine School Dist.*, *supra*, 193 Cal. 664, 669: "It [the education of the children of the state] is in a sense exclusively the function of the state which cannot be delegated to any other agency. The education of the children of the state is an obligation which the state took over to itself by the adoption of the Constitution. To accomplish the purposes therein expressed the people must keep under their exclusive control, through their representatives, the education of those whom it permits to take part in directing the affairs of state." (3) School districts are agencies of the state for the local operation of the state school system. (*Cloverdale Union H. S. Dist. v. Peters*, *supra*, 88 Cal.App. 731, 738; *Board of Education v. Davidson*, *supra*, 190 Cal. 162, 168; *Butler v. Compton Junior College Dist.*, 77 Cal.App.2d 719 [176 P.2d 417]; *Lansing v. Board of Education*, *supra*, 7 Cal.App.2d 211; *Merrill etc. School Dist. v. Rapose*, *supra*, 125 Cal.App.2d 819.) (4) The beneficial ownership of property of the public schools is in the state. It is said in *Pass School Dist. v. Hollywood City School Dist.*, *supra*, 156 Cal. 416, 419: "To the contention that a transfer of ownership thus accomplished works the taking of property without due process of law, it should be sufficient ***182** to point out that in all such cases the beneficial owner of the fee [of public school property] is the state itself, and that its agencies and mandatories-the various public and municipal corporations in whom the title rests - are essentially nothing but trustees of the state, holding the property and devoting it to the uses which the state itself directs. The transfer of title without due process of law, of which appellant so bitterly complains, is nothing more, in effect, than the naming by the state of other trustees to manage property which it owns and to manage the property for the same identical uses and purposes to which it was formerly devoted. In point of law, then, the beneficial title to the estate is not affected at all. All that is done is to transfer the legal title under the same trust from one trustee to another. In this sense the trustees of the Hollywood City School District became, by operation of law, successors to the trustees of the Pass School District, as is directly held in *Allen v. School Town of Macey*, 109 Ind. 559 [10 N.E. 578], where it is said: 'It is now a well-recognized legal inference deducible as well from general principles as from the decided cases, that under the constitution and laws of this state, public school property is held in trust for school purposes by the persons or corporations authorized for the time being to control such property, and that it is in the

power of the legislature to provide for a change in the trusteeship of such property in certain contingencies presumably requiring such a change, or, indeed, to change the trustees of that class of property whenever it may choose to do so.'

"Even if such well-established principles could be set aside under the plea that they work injustice in the individual case, this plea here presented is without merit. The state is profoundly interested in the education of its young, but has no deep concern over the personality of the trustees who shall administer this trust, so long as the administration is in the orderly form of law." (See *Fawcett v. Ball*, 80 Cal.App. 131, 136 [251 P. 679]; *Butler v. Compton Junior College Dist.*, 77 Cal.App.2d 719 [176 P.2d 417]; *Kennedy v. Miller*, 97 Cal. 429 [32 P. 558]; *Gridley School Dist. v. Stout*, 134 Cal. 592 [66 P. 785].) (5) While a large degree of autonomy is granted to school districts by the Legislature, we are referred to no statute or constitutional provision which, as far as the question here involved is concerned, expressly makes school buildings or their construction any more amenable to regulation by a municipal corporation than structures which are ***183** built and maintained by the state generally for its use. (6) When it engages in such sovereign activities as the construction and maintenance of its buildings, as differentiated from enacting laws for the conduct of the public at large, it is not subject to local regulations unless the Constitution says it is or the Legislature has consented to such regulation. Section 11 of article XI of the state Constitution, *supra*, should not be considered as conferring such powers on local government agencies. Nor should the Government Code sections which confer on a city the power to regulate the construction of buildings within its limits (see Gov. Code, §§ 38601, 38660) be so considered. It is said in *In re Means*, 14 Cal.2d 254, 258 [93 P.2d 105], holding that a state employee working on a state structure in a city need not meet the requirements of a city charter provision: "If one who has been employed by the state may not work on state property within a municipality without the consent of the municipality obtained after examination, the city has, in effect, added to the requirements for employment by the state, and restricted the rights of sovereignty. ...

"Turning to the contentions of the respondent that the regulation of plumbing is a municipal affair, the rule to be applied is not entirely a geographical one. Under certain circumstances, an act relating to property within a city may be of such general concern that local regulation concerning municipal affairs is inapplicable. ... For example, where one of the city's streets has been declared by an act of the legislature to be a secondary highway, the improvement of that street is not a municipal affair within the meaning of the Constitution. ... Also, regulations prescribed by charter or ordinance of a city requiring that the work of altering and improving buildings be subject to local supervision have been held inapplicable to state building. (*City of Milwaukee v. McGregor*, 140 Wis. 35 [121 N.W. 642, 17 Ann.Cas. 1002].)

"In the case of *Kentucky Institution for Education of Blind v. City of Louisville*, 123 Ky. 767 [97 S.W. 402, 8 L.R.A.N.S. 553], the city attempted to enforce an ordinance relating to fire escapes with respect to a state institution for the blind. The court held the ordinance inapplicable, stating: 'The principle is that the state, when creating municipal governments does not cede to them any control of the state's property situated within them, nor over any property which the state has authorized another body or power to control.***184** The municipal government is but an agent of the state, not an independent body. It governs in the limited manner and territory that is expressly or by necessary implication granted to it by the state. It is competent for the state to retain to itself some part of the government even within the municipality, which it will exercise directly, or through the medium of other selected and more suitable instrumentalities. How can the city ever have a superior authority to the state over the latter's own property, or in its control and management? From the nature of things it cannot have.' " (See also *Board of Education v. City of St. Louis*, 267 Mo. 356 [184 S.W. 975]; *Salt Lake City v. Board of Education*, 52 Utah 540 [175 P. 654]; 31 A.L.R. 450.)

Pasadena School Dist. v. Pasadena, 166 Cal. 7 [134 P. 985, Ann.Cas. 1915B 1039, 47 L.R.A.N.S. 892], fails to consider the factors above mentioned and insofar as it is inconsistent with this opinion it is overruled. The question here considered was not involved in *Roman Catholic etc. Corp. v. City of Piedmont*, 45 Cal.2d 325, 332-333 [289 P.2d 438].

(7) Moreover, in connection with the foregoing and as an additional ground why the construction of school buildings by school districts are not subject to the building regulations of a municipal corporation in which the building is constructed, is that the state has completely occupied the field by general laws, and

such local regulations conflict with such general laws, when we consider the activity involved. (8) A city may not enact ordinances which conflict with general laws on statewide matters. (*Simpson v. City of Los Angeles*, 40 Cal.2d 271 [253 P.2d 464]; *Pulcifer v. County of Alameda*, 29 Cal.2d 258 [175 P.2d 1]; ***Ex parte*** *Daniels*, 183 Cal. 636 [192 P. 442, 21 A.L.R. 1172]; *Atlas Mixed Mortar Co. v. City of Burbank*, 202 Cal. 660 [262 P. 334]; *Ganley v. Claevs*, 2 Cal.2d 266 [40 P.2d 817]; *In re Murphy*, 190 Cal. 286 [212 P. 30]; *In re Mingo*, 190 Cal. 769 [214 P. 850]; *Natural Milk etc. Assn. v. City etc. of San Francisco*, 20 Cal.2d 101 [124 P.2d 25]; *Pipoly v. Benson*, 20 Cal.2d 366 [125 P.2d 482, 147 A.L.R. 515]; *Tolman v. Underhill*, 39 Cal.2d 708 [249 P.2d 280].) The particular situation presented and discussed in those cases is not helpful. *In re Means, supra*, 14 Cal.2d 254, herein discussed is most pertinent as it involves the attempted regulation of a state activity by a city, as distinguished from regulations of the members of the public.

The Education Code sets out a complete system for the construction of school buildings. The Legislature there declares ***185** that it is in the interest of the state to aid school districts in the construction of school buildings for the maintenance of the public school system inasmuch as the system is of general concern and the education of the children is an obligation and function of the state. (Ed. Code, §§ 5021, 5041.)The governing board of any school district shall manage and control the school property within its district (*id.*, § 18001). It (the board) shall furnish and repair the school property. (*Id.*, § 18002.) It shall provide as a part of school buildings patent flush water closets for the use of the pupils (*id.*, § 18009). It may repair old buildings by day's labor or by force account (*id.*, §§ 18055, 18057). The State Department of Education shall: "Establish standards for school buildings," review and approve all plans and specifications for buildings and disapprove those not meeting the standards, furnish plans, specifications and "building codes," and make rules and regulations to carry out those activities (*id.*, §§ 18102, 18101). "The governing board of any school district may, and when directed by a vote of the district shall, build and maintain a schoolhouse (*id.*, § 18151). Except in cities having a board of education the county superintendent shall pass upon all plans for school buildings and plans shall be submitted to him. "The Division of Architecture of the Department of Public Works under the police power of the State shall supervise the construction of any school building or, if the estimated cost exceed four thousand dollars ($4,000), the reconstruction or alteration of or addition to any school building, for the protection of life and property." (*Id.*, § 18191.) " 'Construction or alteration' as used in this article includes any construction, reconstruction, or alteration of, or addition to, any school building." (*Id.*, § 18193.) "The Division of Architecture shall pass upon and approve or reject all plans for the construction or alteration of any school building. To enable it to do so, the governing board of each school district and any other school authority before adopting any plans for a school building shall submit the plans to the Division of Architecture for approval, and shall pay the fees prescribed in this article." (*Id.*, § 18194.) "Before letting any contract for any construction or alteration of any school building, the written approval of the plans, as to safety of design and construction, by the Division of Architecture, shall be first had and obtained." (*Id.*, § 18195.) "In each case the application for approval of the plans shall be ***186** accompanied by the plans and full, complete, and accurate specifications, and structural design computations, and estimates of cost, which shall comply in every respect with any and all requirements prescribed by the Division of Architecture. " (*Id.*, § 18196.) All plans and specifications shall be prepared by a duly state licensed architect or engineer and the supervision of the work shall be by a duly licensed person. (*Id.*, § 18199.) No contract for construction is valid and no public money shall be paid for any work or materials furnished thereunder " unless the plans, specifications, and estimates comply in every particular with the provisions of this article and the requirements prescribed by the Division of Architecture and unless the approval thereof in writing has first been had and obtained from the division." (*Id.*, § 18200.) Progress reports must be made to the division (*id.*, § 18201). "The State Division of Architecture shall make such inspection of the school buildings and of the work of construction or alteration as in its judgment is necessary or proper for the enforcement of this article and the protection of the safety of the pupils, the teachers, *and the public.*The school district, city, city and county, or the political subdivision within the jurisdiction of which any school building is constructed or altered shall provide for and require competent, adequate, and continuous inspection during construction or alteration by an inspector satisfactory to the architect or structural engineer and the Division of Architecture. The inspector shall act

under the direction of and be responsible to the architect or structural engineer." (Emphasis added; *id.*, § 18203.) The division may adopt rules and regulations to carry out its duties and a violation of the provisions is a felony (*id.*, §§ 18202, 18204). If the supervisor of health of any school district notes any defect in "plumbing, lighting, or heating," he shall report to the district and if it does not act, to the county superintendent. (*Id.*, § 18221.) Each building, if two or more stories, shall have fire escapes (*id.*, § 18222).

(9) It is urged, however, that the foregoing provisions must be read in the background in which they were adopted, that is, that some of them were placed in the Education Code from the Field Act adopted in 1933 (Stats. 1933, ch. 59) and must be construed with the Riley Act of 1933 (Stats. 1933, ch. 601) now in the Health and Safety Code, sections 19100- 19170. The Riley Act provides that all buildings (with certain exceptions Health & Saf. Code, § 19100) must meet certain standards which are set forth (*id.*, §§ 19150, 19151).***187** Building permits must be obtained from the proper city or county officers charged with the enforcement of laws regulating construction (*id.*, § 19120). Any city or county may establish construction standards higher than those established by sections 19150 and 19151 of the Health and Safety Code. Plans and specifications for buildings shall be filed with the application for a building permit (*id.*, § 19132). Both the Field and Riley acts were enacted as urgency measures, the urgency being stated to be the series of earthquakes occurring shortly prior thereto (Stats. 1933, ch. 59, § 9; 1933, ch. 601, § 8.) We do not believe, however, that the Health and Safety Code provisions (Riley Act) limit or modify the provisions of the Education Code (Field Act) above discussed. The former deal with structural design aimed at procuring buildings less dangerous from the standpoint of earthquakes (Health & Saf. Code, §§ 19150, 19151) while the latter, as above pointed out, are broad and comprehensive including the whole field of construction regulations. The urgency that impelled the Legislature to enact both as urgency measures may have been the same but the scope is clearly different. Hence the provisions in the former providing for more stringent local regulations are not applicable to the latter.

Reference is made to rules and regulations, past and present, adopted for the construction of school buildings under the Education and Health and Safety Codes. (Cal. Administrative Code, tit. 21, Public Works, Division of Architecture, chap. 1, subchap. 1.) The purpose of the rules (we refer to the rules now in existence) is to protect lives and property of the people by regulating the design and construction of public school buildings so that, in addition to the normal loads to which such buildings are subjected, they shall resist future earthquakes. (Tit. 21, subchap. 1, group 1, art. I, § 1.) The rules are intended to establish "reasonable standards and minimum requirements " for the construction of such buildings in order to attain the requisite stability to withstand loads and forces "and to insure safety of construction " (*id.*, § 2). The detailed regulations set forth in sections 101 to 1206 have been adopted as a basis for the approval of plans and specifications. "It is not the intention to limit the ingenuity of the designer nor to interfere with existing building rules and regulations where such rules and regulations are more stringent. Where the designer desires to depart from the methods of analysis set up by these rules and regulations, it will be necessary that he submit his method in detail ***188** together with complete information including computations and test data covering the design in question. Permission to deviate from these rules and regulations is optional with the Division of Architecture and is dependent upon the division being satisfied that the structural members or portions of the building involved would provide at least such safety as would have been obtained had these rules and regulations been adhered to strictly." (*Id.*, § 70.) "Regulations and design values established in these rules and regulations are minimum requirements. Nothing herein contained shall be interpreted to interfere with or to waive the requirements of applicable local or state building laws or ordinances where the requirements of those laws are more stringent than the requirements of these rules and regulations." (*Id.*, § 115.) However, it is also provided that: "No rule or regulation shall be construed to deprive the Division of Architecture of its right to exercise the powers conferred upon it by law, or to limit the division in such enforcement of the act as is necessary to secure safety of construction and the proper administration of the law." (*Id.*, § 5.)

(10) It is very doubtful that those rules indicate an intention to interpret the Education Code sections to mean that a city's building regulations must be met in the construction of a school building. They tend more to indicate that the school districts could follow such regulations as well as those of the state but are not bound to do so. (11) In any event, since the final construction of a statute is the function of the courts

(2 Cal.Jur.2d, Administrative Law, § 17), we hold the statutes here involved should not be construed as requiring a school district to comply with the building regulations of a city.

There is no necessity for comparing in detail Taft's building code and the numerous comprehensive building regulations contained in the Education Code and the rules and regulations of the Division of Architecture, for as we have seen the state has occupied the field. As said in *In re Means, supra,* 14 Cal.2d 254, 258, 260, in speaking of the effect of a city ordinance, establishing standards for plumbers, on a state employee in a city, the state civil service system provides a comprehensive plan for the selection of state employees and although the city ordinance does not purport to prescribe the conditions for state employment, "If one who has been employed by the state may not work on state property within a ***189** municipality without the consent of the municipality obtained after examination, the city has, in effect, *added to the requirements for employment by the state, and restricted the rights of sovereignty.* ...

"Although the legislature has enacted no statute regulating plumbing, if the city's ordinance is a valid exercise of power, then one whom the state has examined and found eligible for employment as a plumber and who has later entered the state civil service may be unable to work on state property because he cannot pass the examination of a city health officer or licensing board. The result is a direct conflict of authority. Either the local regulation is ineffective or the state must bow to the requirement of its governmental subsidiary. Upon fundamental principles, that conflict must be resolved in favor of the state." (Emphasis added.) The same comments apply to the references in the instant construction contract and specifications that the building is to be constructed in compliance with local regulations.

The judgment is affirmed.

C In re Rudy L.
Cal.App.2.Dist.
In re RUDY L., a Person Coming under the Juvenile Court Law. THE PEOPLE, Plaintiff and Respondent,
v.
RUDY L., Defendant and Appellant.
No. B079446.

Court of Appeal, Second District, Division 1, California.
Oct 27, 1994.

SUMMARY

The trial court entered an order declaring a minor to be a ward of the court (Welf. & Inst. Code, § 602), based on his commission of vandalism in violation of Pen. Code, § 594. (Superior Court of Los Angeles County, No. FJ08122, Gary Bounds, Temporary Judge. [FN*])

FN* Pursuant to California Constitution, article VI, section 21.

The Court of Appeal affirmed. It held that the trial court did not err in finding the minor had committed vandalism and in declaring him a ward of the court, despite his assertion that lack of permission is an element of vandalism, and that the People failed to prove he had no permission to spray paint on a building. While defendant's appeal was pending, Pen. Code, § 594, subd. (a), was amended to provide that, with respect to public real property, "it shall be a permissive inference that the person neither owned the property nor had the permission of the owner to deface, damage, or destroy the property." However, nothing in the statute's language, either before or after it was amended, specifically makes lack of permission an element of vandalism. Moreover, the legislative history fails to show a legislative understanding that lack of permission is an element of the offense, nor does it show an intent to change the law and make it an element. Although construing the statute in a manner that does not make lack of permission an element renders the phrase "nor had the permission of the owner" surplusage, an undesirable result, it is consistent with legislative intent as expressed in the statute's language (Code Civ. Proc., § 1859). (Opinion by Spencer, P. J., with Ortega and Vogel (Miriam A.), JJ., concurring.)

HEADNOTES

Classified to California Digest of Official Reports

(1a, 1b) Malicious Mischief § 3--Malicious Injury to Property Vandalism--Lack of Permission as Element of Offense.
The trial court did not err in finding a minor had committed vandalism (Pen. Code, § 594), and in declaring him a ward of the court, despite his assertion that lack of permission is an element of vandalism, and that the People failed to prove he had no permission to spray paint on a building. While defendant's appeal was pending, Pen. Code, § 594, subd. (a), was amended to provide that with respect to public real property, "it shall be a permissive inference that the person neither owned the property nor had the permission of the owner to deface, damage, or destroy the property." However, nothing in the statute's language, either before or after it was amended, specifically makes lack of permission an element of vandalism. Moreover, the legislative history fails to show a legislative understanding that lack of permission is an element of the offense, nor does it show an intent to change the law and make it an element. Although construing the statute in a manner that does not make lack of permission an element renders the phrase "nor had the permission of the owner" surplusage, an undesirable result, it is consistent with legislative intent as expressed in the statute's language (Code Civ. Proc., § 1859).

***1009SPENCER, P. J.**

Introduction

Appellant Rudy L. appeals from an order declaring him to be a ward of the court pursuant to Welfare and Institutions Code section 602 based on his commission of vandalism in violation of Penal Code section 594.

Statement of Facts

On the afternoon of April 29, 1993, appellant spray-painted the letter "A" on the wall of an empty building located at 5327 East Beverly Boulevard. Neither appellant nor his mother owned the building.

Contention

(1a) Appellant contends the petition erroneously was sustained, in that the elements of the crime he was found to have committed were not proven--lack of permission is an element of vandalism, and the People failed to prove he had no permission to paint on the building wall. For the reasons set forth below, we disagree.

Discussion

At the time appellant spray-painted the building wall and the adjudication hearing was held, Penal Code section 594, subdivision (a) (hereinafter section 594(a)), provided: "Every person who maliciously (1) defaces with paint or any other liquid, (2) damages or (3) destroys any real or personal property not his or her own, ... is guilty of vandalism." Appellant's counsel argued appellant should not be found to have committed vandalism and the petition should not be sustained, in that lack of permission is an element of vandalism and the People failed to prove appellant lacked permission to spray-paint the building wall. The court concluded, based on the language of the statute, lack of permission was not an element of the offense but, rather, permission was a defense. It thereafter found appellant had committed the offense and sustained the petition.

While appellant's appeal was pending, section 594(a) was amended. (Stats. 1993, ch. 605, § 4.) It now provides: "Every person who maliciously commits any of the following acts with respect to any real or personal property not his or her own, ... is guilty of vandalism: [¶] (1) Sprays, ***1010** scratches, writes on, or otherwise defaces. [¶] (2) Damages. [¶] (3) Destroys. [¶] Whenever a person violates paragraph (1) with respect to real property belonging to any public entity, ... it shall be a permissive inference that the person neither owned the property nor had the permission of the owner to deface, damage, or destroy the property."

Appellant argues the provision as to the permissive inference makes it clear the Legislature considered lack of permission to be an element of vandalism. Since the prosecution failed to prove this element, appellant is entitled to reversal of the adjudication; double jeopardy protection bars retrial of the case.

In the People's view, the Legislature's failure to specify that lack of permission is an element of the offense means it is not and never has been an element, the permissive inference language notwithstanding. Therefore, the prosecution did not fail to prove its case. However, if the court concludes lack of permission is an element of the offense, then the element was added as a result of the 1993 amendment to section 594(a). If so, and the amendment is applied retroactively to appellant's case, double jeopardy protection does not apply and the People should be allowed to retry the case.

Where a statute is ambiguous, it requires construction by the court. Here, the amended statute is ambiguous. The permissive inference language allows an inference an actor had no permission to deface government property, but the language of the statute does not specify that lack of permission is an element of the offense, making it unclear whether or not it is an element. Thus, construction of the statute is necessary.

A statute is to be construed so as to give effect to the intention of the Legislature. (Code Civ. Proc., § 1859; *Landrum v. Superior Court* (1981) 30 Cal.3d 1, 12 [177 Cal.Rptr. 325, 634 P.2d 352].) To do so, " '[t]he court turns first to the words [of the statute]

themselves for the answer.' [Citation.]" (*Moyer v. Workmen's Comp. Appeals Bd.* (1973) 10 Cal.3d 222, 230 [110 Cal.Rptr. 144, 514 P.2d 1224].) The statutory language used is to be given its usual, ordinary meaning and, where possible, significance should be given to every word and phrase. (*Id.* at p. 230.)As stated in Code of Civil Procedure section 1858, "... where there are several provisions or particulars, such a construction is, if possible, to be adopted as will give effect to all." Accordingly, a construction which renders some words surplusage should be avoided. (*California Mfrs. Assn. v. Public Utilities Com.* (1979) 24 Cal.3d 836, 844 [157 Cal.Rptr. 676, 598 P.2d 836].) Moreover, "[w]ords must be construed in context, and statutes must be harmonized, both internally and with each other, to the extent possible. [Citations.]" (*Ibid.*)***1011**

Additionally, in construing a statute, the duty of the court "is simply to ascertain and declare what is in terms or in substance contained therein, not to insert what has been omitted, or to omit what has been inserted." (Code Civ. Proc., § 1858.)(2) "It is ... against all settled rules of statutory construction that courts should write into a statute by implication express requirements which the Legislature itself has not seen fit to place in the statute." (*People v. White* (1954) 122 Cal.App.2d 551, 554 [265 P.2d 115]; see *Estate of Tkachuk* (1977) 73 Cal.App.3d 14, 18 [139 Cal.Rptr. 55].) The court must follow the language used in a statute and give it its plain meaning, " ' "even if it appears probable that a different object was in the mind of the legislature." ' " (*People v. Weidert* (1985) 39 Cal.3d 836, 843 [218 Cal.Rptr. 57, 705 P.2d 380].)

(1b) It is clear that in neither version of section 594(a) did the Legislature specify that lack of permission was an element of the offense of vandalism. Moreover, had the Legislature intended to make lack of permission an element it easily could have done so. In other criminal statutes, it has specifically stated that lack of permission or consent is an element of the offense. (See, e.g., Pen. Code, § 211 ["Robbery is the felonious taking of personal property in the possession of another, from his person or immediate presence, and *against his will*, accomplished by means of force or fear." (Italics added.)]; *id.*, § 261, subd. (a)(2) ["Rape is an act of sexual intercourse accomplished with a person not the spouse of the perpetrator ... [w]here it is accomplished *against a person's will* by means of force, violence, duress, menace, or fear ...." (Italics added.)]; *id.*, § 596 ["Every person who, *without the consent of the owner*, wilfully administers poison to any animal, the property of another, ... is guilty of a misdemeanor." (Italics added.)].)

As stated above, a statute is to be interpreted according to the words used, and the court is not to insert provisions omitted by the Legislature. (Code Civ. Proc., § 1858; *People v. White, supra*, 122 Cal.App.2d at p. 554.) Additionally, a statute should be interpreted in the context of the whole system of law of which it is a part. (*People v. Comingore* (1977) 20 Cal.3d 142, 147 [141 Cal.Rptr. 542, 570 P.2d 723].) Thus, if a statute "referring to one subject contains a critical word or phrase, omission of that word or phrase from a similar statute on the same subject generally shows a different legislative intent." (*Craven v. Crout* (1985) 163 Cal.App.3d 779, 783 [209 Cal.Rptr. 649]; accord, *Estate of Reeves* (1991) 233 Cal.App.3d 651, 657 [284 Cal.Rptr. 650].) The omission of language in either version of section 594(a) making lack of permission an element of the offense, when such language has been inserted in other criminal statutes to make lack of permission or consent an element of the offenses, is indicative of a legislative intent not to make lack of permission an element of vandalism. ***1012**

The permissive inference language suggests that the Legislature had in mind the notion that lack of permission was an element of the offense. But, as stated above, the court must follow the language used in a statute and give it its plain meaning, " ' "even if it appears probable that a different object was in the mind of the legislature." ' " (*People v. Weidert, supra*, 39 Cal.3d at p. 843.)

On the other hand, a construction of section 594(a) which does not include lack of permission as an element of the offense renders the phrase "nor had the permission of the owner" surplusage. If lack of permission is not an element of the offense, an inference that the actor lacked permission is unnecessary. Whether or not such an inference existed, the actor still could prove permission-and thus lack of malice-as a defense. Such a construction would violate the principles that a statute should be construed so as to give effect to all provisions, and words used therein should not be rendered mere

surplusage. (Code Civ. Proc., § 1858; *California Mfrs. Assn. v. Public Utilities Com., supra*, 24 Cal.3d at p. 844.)

In addition to the rules of statutory construction, a valuable aid in ascertaining legislative intent may be the legislative history of a statute. (*California Mfrs. Assn. v. Public Utilities Com., supra*, 24 Cal.3d at p. 844.) The amendment to section 594(a) was proposed as part of Assembly Bill No. 1179, 1993-1994 Regular Session (Assembly Bill No. 1179). According to a report prepared for hearing by the Assembly Committee on Public Safety on May 4, 1993, the purpose of the bill was "to elevate the sentences for vandalism for persons who have a prior conviction where a term of imprisonment was served. If an individual knows he or she can get away with vandalism, they are going to continue to do it. Graffiti and vandalism generate public outrage," and "[t]he cost of graffiti removal is tremendous." More than that, the blight caused by graffiti "affects all communities" and causes "[t]urf wars" and gang violence, which can lead to murder. "When it comes to vandalism with a prior conviction, we need to look beyond the dollar value the tag caused and wake-up and recognize its link to gang violence, drug trafficking and all the associated social ills that affect neglected communities." The report defines vandalism in the language of section 594(a), and it mentions nothing about the question of permission.

The proposed amendment of section 594(a) was part of the amendment of Assembly Bill No. 1179 on May 17. The report prepared for the Assembly Committee on Ways and Means hearing on June 2, following amendment of the bill on May 17, refers to Assembly Bill No. 1179 as the "1993 California Graffiti Omnibus Bill" and notes the purpose of the bill is to "enhance the punishment for graffiti." It mentions nothing about the proposed amendment to section 594(a) or the issue of permission. ***1013**

The Senate Committee on Judiciary report for its July 13 hearing notes: "This bill would expand the definition of vandalism by replacing 'defaces with paint or any other liquid' with 'sprays, scratches, writes on, or otherwise defaces.' [¶] This bill would also provide a permissive inference that the person neither owned the property nor had the permission of the owner to deface, damage, or destroy any real property owned by a governmental entity." However, the report does not further discuss the inference or the issue of permission. The same is true of the Senate Rules Committee report for its August 25 hearing, which followed the Senate's August 17 amendments to Assembly Bill No. 1179.

The Senate amended the bill again on September 7, then the bill was returned to the Assembly, which concurred in the amendments. The digest prepared for the Assembly vote again mentions the permissive inference but does not explain or discuss it. Neither does the Legislative Counsel's Digest prepared on Assembly Bill No. 1179.

As the foregoing shows, there is nothing in the legislative history of the amendment to section 594(a) to demonstrate a clear legislative understanding that lack of permission was an element of vandalism or an intent to change the law to make lack of permission an element of vandalism; the issue simply appears not to have been raised or discussed. This omission supports an inference, though not necessarily a strong one, the Legislature did not consider lack of permission to be an element of the offense or intend to change the law to make it an element. (*Committee of Seven Thousand v. Superior Court* (1988) 45 Cal.3d 491, 508 [247 Cal.Rptr. 362,754 P.2d 70].)

To summarize, there is nothing in the language of section 594(a), either before or after amendment, which specifically makes lack of permission an element of vandalism. There is nothing in the legislative history of the amendment which clearly demonstrates a legislative understanding that lack of permission was an element of the offense, although such an understanding could be inferred from the reference to permission in the permissive inference provision. Neither does the legislative history show an intent to change the law and make it an element. However, construing the statute in a manner which does not make lack of permission an element would render the phrase "nor had the permission of the owner" surplusage.

On balance, we hold the better construction of section 594(a) is that it does not now and did not before amendment make lack of permission an element of vandalism. While this construction does render some of the language in the amended statute surplusage, an undesirable result (*California Mfrs. Assn. v. Public Utilities Com., supra*, 24 Cal.3d at p. 844), it is ***1014**

consistent with legislative intent as expressed in the language of the statute. (Code Civ. Proc., § 1859; *Landrum v. Superior Court, supra*, 30 Cal.3d at p. 12; *Moyer v. Workmen's Comp. Appeals Bd., supra*, 10 Cal.3d at p. 230.)

Thus, the trial court did not err in finding appellant had committed vandalism and in sustaining the petition; lack of permission was not an element of the offense. The amendment of section 594(a) did not make it an element, so retroactive application of the amended statute would not benefit appellant. Therefore, we need not consider the issues of retroactivity and retrial.

The order is affirmed.

THE PEOPLE, Plaintiff,
v.
HARRY OKEN et al., Defendants; TONY ALARCON, Appellant; EL MONTE SCHOOL DISTRICT et al., Respondents.
Civ. No. 22496.

District Court of Appeal, Second District, Division 3, California.
Apr. 17, 1958.

HEADNOTES

(1) Appeal and Error § 41--Decisions Appealable--Orders on Motion to Strike.
While an order striking a pleading is not ordinarily appealable, the rule is otherwise where a cross-complaint is directed against cross-defendants not otherwise parties to the action.

(2) Pleading § 171--Amendment--On Leave of Court.
An attempted incorporation of counts or causes of action in an amended cross-complaint without leave of court is ineffective and may not be treated as a part of the pleading in the case.
See **Cal.Jur.2d,** Pleading, § 232; **Am.Jur.,** Pleading, § 291.
(3) Schools § 56, 57--Buildings and Construction.
A private citizen may not maintain an action for a judgment declaring that the public interest and necessity require the construction by a school district of a school building and "the acquisition and appropriation by said school district of a site upon which said building may be erected within that certain tract of land" described in the pleading; where, when or how, if at all, a school district shall construct school buildings is within the sole competency of its governing board to determine.

(4) Eminent Domain § 11, 150(1)--Who May Exercise Right-- IndividualsPleadings.
A private person seeking to exercise the right of eminent domain must not only allege that he proposes to devote the property sought to be acquired to one of the public uses provided in Code Civ. Proc., § 1238, but must also make it appear that he is authorized to devote the property to the public use in question or that he is a person authorized to administer or have "charge of such use."
See **Cal.Jur.2d,** Eminent Domain, §§ 229, 282; **Am.Jur.,** Eminent Domain, § 28.
(5) Pleading § 13--Subject Matter--Facts Judicially Noticed.
An allegation by way of conclusion that the pleader "is a person, competent and qualified to acquire the real property" described in his pleading "as agent of the state and/or person in charge of the uses" therein set forth, should be disregarded, where the appellate court judicially knows it is untrue.

(6) Schools § 2--Legislative Power and Duty.
Const., art. IX, §§ 5, 6, declaring that the Legislature shall provide for "a system of common schools" and "a public school system," make the school system a matter of state care and supervision; the term "system" itself imports a unity of purpose as well as entirety of operation, and the direction to the Legislature to provide "a" system of common schools means one system applicable to all common schools; this duty, so far as the state has by the adoption of the Constitution undertaken it, cannot be delegated to any agency.
See **Cal.Jur.,** Schools, §§ 2, 4.
(7) Pleading § 254--Motion to Strike--Amended Pleading.
An amended cross-complaint was properly stricken by the trial court where it wholly failed to state a cause of action and was patently frivolous and sham.

(8) Pleading § 254--Motion to Strike--Amended Pleading.
Though there is no statutory provision for striking complaints from the files as there is with respect to sham or frivolous answers (Code Civ. Proc., § 453), a court may, by virtue of its inherent power to prevent frustration or abuse of its processes, strike a purported complaint that fails to amend the previous pleading, is not filed in good faith, is filed in disregard of established procedural requirements, or is otherwise violative of orderly judicial administration.

SUMMARY

APPEAL from an order of the Superior Court of Los Angeles County striking a third amended cross-

complaint. Aubrey N. Irwin, Judge. Affirmed.

COUNSEL

Alexander Ruiz and Manuel Ruiz, Jr., for Appellant.

Harold W. Kennedy, County Counsel (Los Angeles), and Edwin P. Martin, Deputy County Counsel, for Respondents.

PATROSSO, J. pro tem. [FN*]

FN* Assigned by Chairman of Judicial Council.

This is an appeal by cross-complainant Tony Alarcon from an order striking his third amended cross-complaint as against the cross-defendants El Monte School District and county of Los Angeles. (1) While an order striking a pleading is not ordinarily appealable, the rule is otherwise where, as here, the cross-complaint is directed against cross-defendants not otherwise parties to the action. (*Trask v. Moore* (1944), 24 Cal.2d 365, 373 [149 P.2d 854].)

The action in which the cross-complaint was filed is one instituted on behalf of the People of the State of California by ***458** the district attorney of Los Angeles County against numerous defendants, including cross- defendant, alleged to be the owners or occupants of properties within an area comprising some 24 acres located in the county of Los Angeles and commonly known as "Hick's Camp," to abate a public nuisance alleged to exist upon the properties located therein by reason of the maintenance thereon of dilapidated buildings and unsanitary conditions therein more particularly described.

A demurrer having been sustained with leave to amend to the original cross-complaint, appellant filed a second amended cross-complaint containing four separate causes of action. Demurrers interposed by the respondents to the latter complaint were sustained without leave to amend as to the first, second and fourth cause of action thereof. Thereafter appellant filed a third amended cross-complaint which was stricken upon motion of the respondents as hereinbefore stated.

The third amended cross-complaint, as is likewise true of its predecessors, is in many respects a remarkable document. It purports to incorporate therein by reference, the first, second and fourth causes of action of the second amended cross-complaint to which, as previously stated, demurrers had been sustained without leave to amend. It then alleges that the action is brought by the appellant "on behalf of apprximately [sic] 35 persons similarly situated, named defendants, in the second amended complaint of nuisance on file herein, and also as agent for the State of California, and the person in charge of the public uses hereinafter set forth and requested." It then alleges that the El Monte School District and numerous individually named cross-defendants claim an interest in the property described in Exhibit "A," attached to the cross-complaint, which apparently comprises a portion of the property described in plaintiff's complaint, whereon are located the conditions which are sought to be abated as a public nuisance. It further alleges "that the public interest and necessity require that the said property be acquired by cross complainant as agent of the State of California, as provided in section 1001 of the California Civil Code. That cross complainant, Tony Alarcon, is a person, competent and qualified to acquire the real property and improvements thereon, described herein, as agent of the State and/or person in charge of the uses hereinafter set forth. That cross complainant seeks to take and condemn private property, to wit: Real Estate and improvements, for the public uses hereinafter ***459** set forth. That the plaintiff and cross defendants, El Monte School District, Ernest Roll, District Attorney for Los Angeles County and the County of Los Angeles, are public bodies within the purview of subsection 21 of the section 1238 of the California Code of Civil Procedure, ... to wit: To demolish, clear, abate or remove buildings from the area known as 'Hicks Camp' and herein described in exhibit 'A,' for the reason that the same are detrimental to the health, safety and morals of the people, and because of dilapidation, overcrowding, faulty arrangement or design, or lack of ventilation or sanitary facilities of the dwellings predominating in said area. That the public interest and necessity require the construction by the El Monte School District of a school building and also the acquisition and appropriation by said school district of a site upon which said building may be erected within that certain tract of land hereinabove described. In conjunction therewith, said public interest and necessity require, that buildings, dwellings and structures within said tract of land be demolished, cleared, abated and/or removed, in the interest of the health, safety and morals of the people, because of dilapidation, overcrowding, faulty arrangement or design, or lack of ventilation or sanitary facilities of the dwellings therein, in a manner that will be most compatible with the greatest public good and the least private injury. ... That there

is grave danger of the creation of a public nuisance, unless the public uses herein referred to are provided for and the public interest and necessity stated above be adjuticated [sic]."

The cross-complaint closes with a prayer that the cross-defendants be required to set forth the nature, character, extent and value of their several estates or interest in the parcels of real property sought to be condemned and the severance damage, if any, accruing thereto; that the value of each separate interest or estate sought to be condemned and the severance damages, if any, be ascertained, and that upon payment to the defendants entitled to compensation of the several amounts so ascertained, the court make and enter a final order of condemnation, "conveying to cross complainant, as agent for the state, the properties for the public use above set forth."

We have ignored the allegations contained in the first, second and fourth causes of action, contained in the second amended cross-complaint, which were attempted to be incorporated ***460** by reference in the third amended cross-complaint in view of the fact that the demurrers interposed to these causes of action had, as noted, been sustained without leave to amend. (2) The attempted incorporation of these counts in the third amended cross-complaint without leave of the court is ineffective and they may not be treated as a part of the pleading in the case. (39 Cal.Jur.2d p. 339.) Moreover, without here undertaking to set forth in detail the voluminous allegations of said counts, we are completely satisfied that the trial court properly sustained the demurrers thereto without leave to amend. Each of these three causes of action seemingly undertakes to state a cause of action for monetary and injunctive relief against the respondents upon some undiscernible theory for damages which the cross-complainant and others similarly situated allegedly will sustain if the plaintiff prevails in its action to abate the nuisances alleged to exist upon the properties owned by them.

(3) From the allegations of appellant's pleadings which we have above summarized in some detail, it would appear that the relief which he seeks thereby as against the respondents is a judgment declaring that the public interest and necessity require the construction by the respondent El Monte School District of a school building and "the acquisition and appropriation by said school district of a site upon which said building may be erected within that certain tract of land" in the cross-complaint described. We know of no law, and none has been called to our attention, which authorizes a private citizen to maintain such an action. Where, when or how, if at all, a school district shall construct school buildings is a matter within the sole competency of its governing board to determine. (*Montebello Unified School Dist. v. Keay* (1942), 55 Cal.App.2d 839, 843-844 [131 P.2d 384].)

If, however, the third amended cross-complaint be construed as one whereby appellant as a private citizen seeks to acquire property for the purpose of constructing and operating a public school, it is likewise unauthorized by law. Section 1001 of the Civil Code, upon which appellant assertedly seeks to predicate his action, while authorizing any person, as "an agent of the State" or as "a person in charge of such use" to acquire private property under the power of eminent domain for any of the public uses provided in section 1238 of the Code of Civil Procedure is wholly without application. (4) A private person seeking to exercise the right of eminent domain must not only allege that he proposes to devote the ***461** property sought to be acquired to one of the public uses provided in section 1238, but it must likewise be made to appear that he is authorized to devote the property to the public use in question, or otherwise stated, that he is a person authorized to administer or have "charge of such use." (*Beveridge v. Lewis* (1902), 137 Cal. 619, 621 [67 P. 1040, 70 P. 1083, 92 Am.St.Rep. 188, 58 L.R.A. 581].) (5) While appellant alleges by way of conclusion that he "is a person, competent and qualified to acquire the real property" described in his pleading "as agent of the State and/or person in charge of the uses" therein set forth, the allegation must be disregarded, because we judicially know it is untrue. (*Wilson v. Loew's Inc.* (1956), 142 Cal.App.2d 183, 187-188 [298 P.2d 152].) (6) "The constitution declares that the legislature shall provide 'for a system of common schools,' or, as expressed elsewhere in the organic law, 'a public school system.' " (23 Cal.Jur. p. 18; Cal. Const., art. IX, §§ 5-6.) "By these two sections, the constitution makes the school system a matter of state care and supervision. The term 'system' itself imports a unity of purpose as well as an entirety of operation, and the direction to the legislature to provide 'a' system of common schools means one system which shall be applicable to all the common schools. And this duty to provide for the education of the children of the state, so far as the state has, by the adoption of the

constitution, undertaken it, cannot be delegated to any agency." (23 Cal.Jur. 21-22.) As said in *Piper v. Big Pine School Dist.*, 193 Cal. 664, 669 [226 P. 926]:

"It is in a sense exclusively the function of the state which cannot be delegated to any other agency. The education of the children of the state is an obligation which the state took over to itself by the adoption of the constitution. To accomplish the purposes therein expressed the people must keep under their exclusive control, through their representatives, the education of those whom it permits to take part in directing the affairs of state."

From the allegations of the cross-complaint, it affirmatively appears that "(i)n this case it is the school district, acting through its governing board, that is the agent of the State in charge of the use for which the land was sought." (*Montebello Unified School Dist. v. Keay, supra.*)

(7) The third amended cross-complaint wholly fails to state a cause of action and is patently frivolous and sham. ***462** It was therefore properly stricken by the trial court. (8) As said by this court in *Neal v. Bank of America* (1949), 93 Cal.App.2d 678, 682-683 [209 P.2d 825]:

"It may be conceded that there is no statutory provision for striking complaints from the files, as there is in respect to sham or frivolous answers. (Code Civ. Proc., § 453.)However, the courts have inherent power, by summary means, to prevent frustration, abuse, or disregard of their processes. (41 Am.Jur. §§ 346, 347, p. 527; anno., 13 Am.St.Rep. 640.) ... In *Santa Barbara County v. Janssens*, 44 Cal.App. 318 [186 P. 372], it was held that an order striking an amended cross-complaint from the files was within the jurisdiction of the trial court, and presumably correct in the absence of error disclosed by the record. The fundamental principle running through the cases is that a court is not required to tolerate a purported amended complaint which fails to amend the previous pleading, is not filed in good faith, is filed in disregard of established procedural requirements, or is otherwise violative of orderly judicial administration. ... It cannot be doubted that the court had jurisdiction to strike plaintiff's amended complaint on the ground that it was frivolous and a sham and the order clearly was not an abuse of discretion."

The order appealed from is affirmed.

Shinn, P. J., and Wood (Parker), J., concurred.
A petition for a rehearing was denied May 7, 1958, and appellant's petition for a hearing by the Supreme Court was denied June 11, 1958. Carter, J., was of the opinion that the petition should be granted. ***463**

END OF DOCUMENT

HSouthern California Labor Management Operating Engineers Contract Compliance Committee v. Aubry Cal.App.1.Dist.

SOUTHERN CALIFORNIA LABOR MANAGEMENT OPERATING ENGINEERS CONTRACT COMPLIANCE COMMITTEE,
Plaintiff and Appellant,
v.
LLOYD W. AUBRY, JR., as Director, etc.,
Defendant and Respondent.
No. A074161.

Court of Appeal, First District, Division 4, California.
Mar. 31, 1997.

SUMMARY

The trial court denied plaintiff's petition for a peremptory writ of mandate seeking to direct the Director of the Department of Industrial Relations of the State of California to find that a dam project was subject to the state's prevailing wage law (Lab. Code, § 1720 et seq.), rather than the federal Davis-Bacon Act (40 U.S.C., § 276a(a)). (Superior Court of the City and County of San Francisco, No. 974794, William J. Cahill, Judge.)

The Court of Appeal affirmed the judgment, holding that the trial court properly denied the writ petition. Lab. Code, § 1773.5, provides that the Director of the Department of Industrial Relations "may establish rules and regulations for the purpose of carrying out this chapter, including ... the responsibilities and duties of awarding bodies under this chapter." Under Cal. Code Regs., tit. 8, §§ 16000, 16001, subd. (a), and 16001, subd. (b), federally funded projects controlled by, carried out by, and awarded by the federal government are not subject to the prevailing wage law, even if it requires a higher wage than the Davis-Bacon Act. In this case, the awarding body was an agency of the federal government. Under the "Local Cooperation Agreement," the federal agency was given ultimate authority over construction, financial audits, paying construction companies, and determining that the project was complete. Since the project was controlled by a federal awarding body, the prevailing wage law did not apply under the regulations, which were valid inasmuch as they were consistent with case law and the prevailing wage law statutes. The court further held that the director did not violate the California Constitution (Cal. Const., art. III, § 3.5) by refusing to enforce a statute on constitutional or preemption grounds. (Opinion by Hanlon, J., with Anderson, P. J., and Reardon, J., concurring.)

HEADNOTES

Classified to California Digest of Official Reports

(1a, 1b, 1c, 1d) Public Works and Contracts § 6--Contracts-- Contractors' Rights and Liabilities--State Prevailing Wage Law--As Preempted by Federal Davis-Bacon Act.

The trial court properly denied a writ petition that would have directed the Director of the Department of Industrial Relations of the State of California to find that a dam project was subject to the state's prevailing wage law (Lab. Code, § 1720 et seq.), rather than the federal Davis-Bacon Act (40 U.S.C., § 276a(a)). Lab. Code, § 1773.5, provides that the director "may establish rules and regulations for the purpose of carrying out this chapter, including ... the responsibilities and duties of awarding bodies under this chapter." Under Cal. Code Regs., tit. 8, §§ 16000, 16001, subd. (a), and 16001, subd. (b), federally funded projects controlled by, carried out by, and awarded by the federal government are not subject to the prevailing wage law, even if it requires a higher wage than the Davis-Bacon Act. In this case, the awarding body was an agency of the federal government. Under the "Local Cooperation Agreement," the federal agency was given ultimate authority over construction, financial audits, paying construction companies, and determining that the project was complete. Since the project was controlled by a federal awarding body, the prevailing wage law did not apply under the regulations, which were valid inasmuch as they were consistent with case law and the prevailing wage law statutes.

(2) Statutes § 29--Construction--Language--Legislative Intent.

A fundamental rule of statutory construction is that a court should ascertain the intent of the Legislature so

as to effectuate the purpose of the law. In construing a statute, the court's first task is to look to the language of the statute itself. When the language is clear and there is no uncertainty as to the legislative intent, the court looks no further and simply enforces the statute according to its terms. The court is required to give effect to statutes according to the usual, ordinary import of the language employed in framing them. If possible, significance should be given to every word, phrase, sentence, and part of an act in pursuance of the legislative purpose. When used in a statute, words must be construed in context, keeping in mind the nature and obvious purpose of the statute where they appear. Moreover, the various parts of a statutory enactment must be harmonized by considering the particular clause or section in the context of the statutory framework as a whole. An overriding principle in this area is that the individual portions of a statute should be harmonized with the body of law of which it forms a part. The object that a statute seeks to achieve is of primary importance in statutory interpretation.

(3a, 3b) Public Works and Contracts § 6--Contracts--Contractors' Rights and Liabilities--State Prevailing Wage Law and Federal Davis-Bacon Act-- Purpose.
The overall purpose and object of California's prevailing wage law (Lab. Code, § 1720 et seq.) is to benefit and protect employees on public works projects. This general objective subsumes within it a number of specific goals: to protect employees from substandard wages that might be paid if contractors could recruit labor from distant cheap-labor areas; to permit union contractors to compete with nonunion contractors; to benefit the public through the superior efficiency of well-paid employees; and to compensate nonpublic employees with higher wages for the absence of job security and employment benefits enjoyed by public employees. The overall purpose and object of the federal Davis-Bacon Act (40 U.S.C. § 276a(a)) is to protect local wage standards by preventing contractors from basing their bids on wages lower than those prevailing in the area. The state's prevailing wage law and the Davis-Bacon Act each carry out a similar purpose. Read as a unit, they set out two separate, but parallel, systems regulating wages on public contracts. The prevailing wage law covers state contracts and the Davis-Bacon Act covers federal contracts.

(4) Administrative Law § 117--Judicial Review and Relief--Scope and Extent of Review--Arbitrary, Capricious, or Unreasonable Action.
An agency's regulation will not be set aside unless it is inconsistent with a statute, arbitrary, capricious, unlawful, or contrary to public policy. An agency's construction of statutes will generally be followed unless it is clearly erroneous.

(5) Constitutional Law § 34--Distribution of Governmental Powers--Conflicts Between Federal and State Powers--Preemption.
The supremacy clause (U.S. Const., art. VI) may entail preemption of state law either by express provision, by implication, or by a conflict between federal and state law. Even where Congress has not completely displaced state regulation in a specific area, state law is nullified to the extent that it actually conflicts with federal law. Such a conflict arises when compliance with both federal and state regulations is a physical impossibility. Further, there are situations in which state regulation, although harmonious with federal regulation, must nevertheless be invalidated under the supremacy clause. However, despite the variety of opportunities for federal preeminence, courts have never assumed lightly that Congress has derogated state regulation, but instead have addressed claims of preemption with the starting presumption that Congress does not intend to supplant state law.

(6) Labor § 10--Regulation of Working Conditions--Minimum Wage and Prevailing Wage Law.
Minimum wage laws fall under the same classification as valid regulation of the employment relationship under state police powers. The prevailing wage law (Lab. Code, § 1720 et seq.) is not a minimum wage law.

(7) Administrative Law § 10--Administrative Construction and Interpretation of Laws--Department of Industrial Relations' Authority to Determine Project Not Subject to Prevailing Wage Law.
In a mandamus proceeding to determine whether the Director of the Department of Industrial Relations of the State of California properly determined that a dam project was not subject to the state's prevailing wage law (Lab. Code, § 1720 et seq.), the director did not violate the California Constitution by refusing to find a public works to exist based on a perceived fear of unconstitutionality or conflict with federal law. Under Cal. Const., art. III, § 3.5, an administrative

agency has no power to refuse to enforce a statute on the grounds it is unconstitutional or conflicts with federal law, until an appellate court has so held. However, the California Supreme Court has held that the purpose of Cal. Const., art. III, § 3.5, was to prevent agencies from using their own interpretation of the Constitution or federal law to thwart the mandates of the Legislature, and cannot reasonably be construed to place a restriction on the authority of the Legislature to limit the scope of its own enactments. By limiting the implementation of a statute as directed by the Legislature, an agency neither declares it unenforceable, nor refuses to enforce it. Far from thwarting the Legislature's mandate, such action fulfills it. The director's administrative decisions in the present case were proper interpretations of the prevailing wage law within the scope of the Supreme Court's opinion.

COUNSEL

Carroll & Scully, Donald C. Carroll and Charles P. Scully II for Plaintiff and Appellant.

John M. Rea and Gary J. O'Mara for Defendant and Respondent. ***877**

HANLON, J.

Plaintiff and appellant Southern California Labor Management Operating Engineers Contract Compliance Committee (appellant) appeals from a judgment denying its petition for a peremptory writ of mandate directing defendant and respondent Lloyd W. Aubry, Jr. as Director of the Department of Industrial Relations of the State of California (respondent) to set aside his outstanding decision and issue a new determination that the Seven Oaks Dam project is a public works subject to the California prevailing wage law (Lab. Code, §§ 1771, 1720-1781) (hereinafter referred to as PWL) rather than Davis-Bacon Act, 40 United States Code section 276a(a), which is the federal prevailing wage law (hereinafter referred to as DBA).

Appellant contends: (1) the PWL applies even though the construction contract for the dam project was "awarded" by an agency of the federal government, and (2) respondent acted beyond its power by refusing to enforce a statute on constitutional or preemption grounds. We affirm.

I. *Statement of Facts*

Seven Oaks Dam project is a part of the Santa Ana River Mainstem, including Santiago Creek, California Flood Control Project. Construction of the complete flood control project is governed by a local cooperation agreement among the Department of the Army, Orange County Flood Control District, San Bernardino County Flood Control District and Riverside County Flood Control and Water Conservation District, which was executed in 1989. As a group the involved counties are denominated as "sponsors."

Relevant provisions of the local cooperation agreement are as follows:

The maximum allowable cost of the flood control project is set at $1,536,000,000. At the time of the execution of the agreement, total costs were estimated at $1,293,000,000 and the sponsors' cash contribution at $63,700,000. In addition, "sponsors shall provide all lands, easments [*sic*], rights-of-way, excavated material disposal areas, and perform relocations (excluding railroad bridges and approaches thereto) required for construction of the [flood control] project." The total contribution of the sponsors cannot exceed 50 percent or be less than 25 percent. During construction the sponsors shall provide a cash contribution of 5 percent of the total cost. No federal funds may be used to meet the sponsors' share, unless expressly authorized by statute. The federal government shall audit the sponsors' records and issue a final accounting which is binding on the sponsors. All funds contributed by the federal government and sponsors shall be placed in ***878** an escrow account. The federal government shall pay the costs of construction from funds in such account.

Basic contractual "obligations of the parties" include the following: A. "The [Federal] Government, subject to and using funds provided by the Sponsors and funds appropriated by the Congress, shall expeditiously construct the [Flood Control] Project (including alterations or relocations of railroad bridges and approaches thereto) applying those procedures usually followed or applied in Federal projects, pursuant to Federal laws, regulations, and policies. The sponsors shall be afforded the opportunity to review and comment on all contracts, including relevant plans, specifications and special provisions prior to the issuance of invitations for bids. The Sponsors also shall be

afforded the opportunity to review and comment on all modifications and change orders prior to the issuance to the Contractor of a Notice to Proceed for such modification or change order unless an emergency exists or immediate action is required, in which case the [Federal] Government will direct the change without review by the Sponsors. The [Federal] Government will consider the views of the Sponsors, but award of the contracts including change orders and performance of the work thereunder shall be exclusively within the control of the [Federal] Government."

The term "contracting officer" is defined in the agreement as "the Commander of the U.S. Army Engineer District, Los Angeles, or his designee." Regarding "construction, phasing and management," "[t]he contracting officer shall consider the recommendations of the [sponsors] in all matters relating to the [Flood Control] Project, but the Contracting Officer, having ultimate responsibility for construction of the Project, has complete discretion to accept, reject, or modify the recommendations."

Sponsoring counties shall hold and save the federal government free from all damages "except for damages due to the fault or negligence of the [Federal] Government or its contractors." If hazardous substances are found in the area of the flood control project, the federal government "shall, after consultation with the Local Sponsors, but in its sole discretion, determine" what action to take. The sponsors agree to comply with all applicable federal and state laws and regulations. Some laws are specifically listed, but no mention is made of the California PWL or the federal DBA.

The final relevant provision of the local cooperation agreement is: "When the [Federal] Government determines that a feature or phase of the [Flood Control] Project is complete and appropriate for operation and maintenance by a Sponsor or Sponsors, the [Federal] Government shall turn the completed feature or phase over to the responsible Sponsor or Sponsors ...." *879

Pursuant to the local cooperation agreement, on March 29, 1994, the United States Army Engineer District-Los Angeles entered into a contract with CBPO of America, Inc., for construction of the Seven Oaks Dam and Appurtenances. Total estimated cost for the project was $167,777,000. The contract for the Seven Oaks Dam specifically provides that "laborers and mechanics employed or working upon the site of the work" will be paid in accordance with the DBA.

II. *Applicability of PWL*

(1a) Appellant contends that the PWL applies even though the construction contract for the Seven Oaks Dam project was "awarded" by an agency of the federal government. This contention lacks merit.

The core of the PWL is Labor Code section 1771[FN1], which provides in pertinent part: "Except for public works projects of one thousand dollars ($1,000) or less, not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the public work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed as provided in this chapter, shall be paid to all workers on public works." Under PWL respondent determines the general prevailing rate. (§§ 1770, 1773, 1773.6.)

FN1 Unless otherwise stated all citations to California statutes are to the Labor Code.

DBA provides in pertinent part: "The advertised specifications for every contract in excess of $2,000, to which the United States or the District of Columbia is a party, for construction ... of public buildings or public works of the United States or the District of Columbia within the geographical limits of the States of the Union or the District of Columbia, and which requires or involves the employment of mechanics and/or laborers shall contain a provision stating the minimum wages to be paid various classes of laborers and mechanics which shall be based upon the wages that will be determined by the Secretary of Labor to be prevailing for the corresponding classes of laborers and mechanics employed on projects of a character similar to the contract work in the city, town, village, or other civil subdivision of the State in which the work is to be performed ...." (40 U.S.C. § 276a(a).)

Other California code sections which define when PWL applies are the following.

Section 1720 provides in pertinent part: "As used in this chapter, 'public works' means: *880

"(a) Construction, alteration, demolition, or repair work done under contract and paid for in whole or in part out of public funds, except work done directly by any public utility company pursuant to order of the Public Utilities Commission or other public authority.

"(b) Work done for irrigation, utility, reclamation, and improvement districts, and other districts of this type. 'Public work' shall not include the operation of the irrigation or drainage system of any irrigation or reclamation district, except as used in Section 1778 relating to retaining wages.

"(c) Street, sewer, or other improvement work done under the direction and supervision or by the authority of any officer or public body of the state, or of any political subdivision or district thereof, whether the political subdivision or district operates under a freeholder's charter or not."

Section 1720.2 provides in pertinent part: "For the limited purposes of Article 2 (commencing with Section 1770) of this chapter, 'public works' also means any construction work done under private contract when all of the following conditions exist: [¶] (a) The construction contract is between private persons. [¶] ... [¶] (c) Either of the following conditions exist: [¶] (1) The lease agreement between the lessor and the state or political subdivision, as lessee, was entered into prior to the construction contract. [¶] (2) The construction work is performed according to plans, specifications, or criteria furnished by the state or political subdivision, and the lease agreement between the lessor and the state or political subdivision, as lessee, is entered into during, or upon completion of, the construction work."

Section 1720.3 provides: "For the limited purposes of Article 2 (commencing with Section 1770), 'public works' also means the hauling of refuse from a public works site to an outside disposal location, with respect to contracts involving any state agency, including the California State University and the University of California." Section 1720.4 covers work on nonprofit installations performed by volunteer labor.

Section 1721 provides: " 'Political subdivision' includes any county, city, district, public housing authority, or public agency of the state, and assessment or improvement districts."

Section 1722 provides: " 'Awarding body' or 'body awarding the contract' means department, board, authority, officer or agent awarding a contract for public work."

Section 1724 provides: " 'Locality in which public work is performed' means the county in which the public work is done in cases in which the *881 contract is awarded by the State, and means the limits of the political subdivision on whose behalf the contract is awarded in other cases."

Section 1740 provides: "Notwithstanding any other provision of this chapter or any other law of this State, except limitations imposed by the Constitution, the legislative body of a political subdivision which has received or is to receive a loan or grant of funds from the Federal Government or a federal department or agency for public works of that political subdivision, may provide in its call for bids in connection with such public works that all bid specifications and contracts and other procedures in connection with bids or contracts shall be subject to modification to comply with revisions in federal minimum wage schedules without the necessity of republication or duplication of other formal statutory requirements."

Section 1775 provides in pertinent part: "The contractor shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by him or her or by any subcontractor under him or her."

Section 1777 provides: "Any officer, agent, or representative of the State or of any political subdivision who wilfully violates any provision of this article, and any contractor, or subcontractor, or agent or representative thereof, doing public work who neglects to comply with any provision of section

1776 is guilty of a misdemeanor."

Section 1777.7 provides in pertinent part: "(d) Any funds withheld by the awarding body pursuant to this section shall be deposited in the General Fund if the awarding body is a state entity, or in the equivalent fund of an awarding body if the awarding body is an entity other than the state."

Sections 1779 and 1780 make it a misdemeanor to charge or collect fees with respect to the employment of persons on public works. The state, political subdivisions and contractors are mentioned in the sections; the federal government is not.

(2) "A fundamental rule of statutory construction is that a court should ascertain the intent of the Legislature so as to effectuate the purpose of the law .... In construing a statute, our first task is to look to the language of the statute itself.... When the language is clear and there is no uncertainty as to the legislative intent, we look no further and simply enforce the statute ***882** according to its terms.... [¶] ... 'We are required to give effect to statutes "according to the usual, ordinary import of the language employed in framing them." ...' ... ' "If possible, significance should be given to every word, phrase, sentence and part of an act in pursuance of the legislative purpose." ... "When used in a statute [words] must be construed in context, keeping in mind the nature and obvious purpose of the statute where they appear." ... Moreover, the various parts of a statutory enactment must be harmonized by considering the particular clause or section in the context of the statutory framework as a whole ....' " (*DuBois v. Workers' Comp. Appeals Bd.* (1993) 5 Cal.4th 382, 387-388 [20 Cal.Rptr.2d 523, 853 P.2d 978], citations omitted.)

"[A]n overriding principle in this area is that the individual portions of a statute should be harmonized ... with the body of law of which it forms a part. [Citations.]" (*United Public Employees v. Public Employment Relations Bd.* (1989) 213 Cal.App.3d 1119, 1127 [262 Cal.Rptr. 158].) "The object that a statute seeks to achieve is of primary importance in statutory interpretation. [Citations.]" (*Lusardi Construction Co. v. Aubry* (1992) 1 Cal.4th 976, 987 [4 Cal.Rptr.2d 837, 824 P.2d 643].)

(3a) The overall purpose and object of California's PWL "is to benefit and protect employees on public works projects. This general objective subsumes within it a number of specific goals: to protect employees from substandard wages that might be paid if contractors could recruit labor from distant cheap-labor areas; to permit union contractors to compete with nonunion contractors; to benefit the public through the superior efficiency of well-paid employees; and to compensate nonpublic employees with higher wages for the absence of job security and employment benefits enjoyed by public employees. [Citations.]" (*Lusardi Construction Co. v. Aubry, supra*, 1 Cal.4th at p. 987; *Independent Roofing Contractors v. Department of Industrial Relations* (1994) 23 Cal.App.4th 345, 356 [28 Cal.Rptr.2d 550].)

The overall purpose and object of DBA is " 'to protect local wage standards by preventing contractors from basing their bids on wages lower than those prevailing in the area.' [Citation.] ... [T]he Act was intended to combat the practice of 'certain itinerant, irresponsible contractors, with itinerant, cheap, bootleg labor, [who] have been going around throughout the country " picking" off a contract here and a contract there.' The purpose of the bill was 'simply to give local labor and the local contractor a fair opportunity to participate in this building program.' [Citation.]" (*Universities Research Assn. v. Coutu* (1981) 450 U.S. 754, 773-774 [101 S.Ct. 1451, 1463, 67 L.Ed.2d 662].)

(1b),(3b) The PWL and DBA each carry out a similar purpose. DBA specifically provides that it only applies to contracts "to which the United ***883** States or the District of Columbia is a party." The PWL does not contain a specific clause limiting it to contracts to which the state of California or a political subdivision thereof is a party. However, the overall effect of the various code sections which constitute the PWL is to exclude contracts of the federal government. Thus, sections 1720, subdivision (c), 1720.2, 1720.3 and 1724 refer to construction jobs under the supervision of state entities while the sections assessing penalties for violating the PWL only mention state entities (§§ 1775, 1777, 1779). No sections, either individually or collectively, mandate that contracts awarded by, or construction jobs under the supervision of, federal authorities are subject to the PWL. In fact, the only mention of the federal government refers to a federal wage law (§ 1740).

Read as a unit PWA and DBA set out two separate, but parallel, systems regulating wages on public contracts. The PWL covers state contracts and DBA covers federal contracts.

Respondent has long agreed with this interpretation of the statutes.Section 1773.5 provides: "The Director of Industrial Relations may establish rules and regulations for the purpose of carrying out this chapter, including, but not limited to, the responsibilities and duties of awarding bodies under this chapter."

One such regulation is California Code of Regulations, title 8, section 16001, entitled "Public Works Subject to Prevailing Wage Law," which provides: "Federally Funded or Assisted Projects. The application of state prevailing wage rates when higher is required whenever federally funded or assisted projects are controlled or carried out by California awarding bodies of any sort." (Cal. Code Regs., tit. 8, § 16001, subd. (b).)

Other pertinent regulations are as follows: "Awarding body" is defined as: "Any state or local government agency, department, board, commission, bureau, district, office, authority, political subdivision, regional district officer, employee, or agent awarding/letting a contract/purchase order for public works." (Cal. Code Regs., tit. 8, § 16000.)"Public Funds. Includes state, local and/or federal monies." (Cal. Code Regs., tit. 8, § 16000.)"General Coverage. State prevailing wage rates apply to all public works contracts as set forth in Labor Code Sections 1720, 1720.2, 1720.3, 1720.4, and 1771." (Cal. Code Regs., tit. 8, § 16001, subd. (a).)

Thus under the regulations, federally funded projects controlled by, carried out by, and awarded by the federal government are not subject to PWL, even if it requires a higher wage than DBA. Nothing in the two administrative cases of respondent, cited by appellant, contradicts the regulations because neither case involved the federal government. (Public Works ***884** Coverage Case No. 91-056, Southern Cal. Regional Rail Authority Lease of Union Pacific Right-of-Way, Decision on Appeal, Nov. 30, 1993 and Public Works Case No. 96-006, Department of Corrections, Community Correctional Facilities, June 11, 1996.)

(4) An agency's regulation "will not be set aside unless it is inconsistent with the statute, arbitrary, capricious, unlawful or contrary to public policy. [Citation.]" (*Pipe Trades Dist. Council No. 51 v. Aubry* (1996) 41 Cal.App.4th 1457, 1466 [49 Cal.Rptr.2d 208].) An agency's "construction of statutes will generally be followed unless it is clearly erroneous. [Citation.]" (*United Public Employees v. Public Employment Relations Bd., supra*, 213 Cal.App.3d at p. 1125.)

(1c) To determine if respondent's regulations are valid interpretations of the statutes, we look to cases construing the PWL, DBA and related statutes, particularly those which involve the question of preemption by federallaw. (5) "[T]he Supremacy Clause, U.S. Const., Art. VI, may entail pre-emption of state law either by express provision, by implication, or by a conflict between federal and state law. [Citations.] And yet, despite the variety of these opportunities for federal preeminence, we have never assumed lightly that Congress has derogated state regulation, but instead have addressed claims of pre-emption with the starting presumption that Congress does not intend to supplant state law. [Citation.]" (*New York Blue Cross v. Travelers Ins.* (1995) 514 U.S. 645, ___ [115 S.Ct. 1671, 1676, 131 L.Ed.2d 695, 704]; see also *Greater Westchester Homeowners Assn. v. City of Los Angeles* (1979) 26 Cal.3d 86, 93-94 [160 Cal.Rptr. 733, 603 P.2d 1329].)

"Even where Congress has not completely displaced state regulation in a specific area, state law is nullified to the extent that it actually conflicts with federal law. Such a conflict arises when 'compliance with both federal and state regulations is a physical impossibility,' [citation] ...." (*Hillsborough County v. Automated Medical Labs.*(1985) 471 U.S. 707, 713 [105 S.Ct. 2371, 2375, 85 L.Ed.2d 714].) Further, "... there are situations in which state regulation, although harmonious with federal regulation, must nevertheless be invalidated under the Supremacy Clause." (*De Canas v. Bica* (1976) 424 U.S. 351, 356 [96 S.Ct. 933, 937, 47 L.Ed.2d 43].)

In *Commissioner of Labor and Ind. v. Boston Housing Auth.* (1963) 345 Mass. 406 [188 N.E.2d 150, 157-158], the highest court in Massachusetts held that under the rules of preemption a federal agency operating a housing project in Boston

pursuant to federal regulations was not subject to a state prevailing wage law. Thus, in order to avoid a serious constitutional problem it interpreted the state law as not intended by the Legislature to require ***885** action by the federal agency in conflict with proper explicit budgetary requirements of a federal law. The court reasoned, "The intention to coerce such a head on conflict with Federal authority is not lightly to be attributed to the Legislature, which must be taken to have known the existing law relating to housing projects receiving [federal] contributions."

Gartrell Const. Inc. v. Aubry (9th Cir. 1991) 940 F.2d 437, 438-439 [131 A.L.R.Fed. 773] held that a private contractor performing work for the federal government on federal property was not required to obtain a California contractor's license, because he complied with the parallel federal "responsibility" regulations for contractors. The state law was preempted by the "similar" federal requirements. To same effect see *Airport Const. and Materials, Inc. v. Bivens* (1983) 279 Ark. 161 [649 S.W.2d 830, 832].

California Comm'n v. United States (1958) 355 U.S. 534, 540, 545-546 [78 S.Ct. 446, 450-451, 453-454, 2 L.Ed.2d 470], held that California statutes and regulations regarding rates for shipping freight could not be applied to federal procurement officials because "Congress has provided a comprehensive policy governing procurement." (*Id.* at p. 540.)In reaching its holding the nation's highest court quickly distinguished certain types of state laws. "We lay to one side these cases which sustain nondiscriminatory state taxes on activities of contractors and others who do business for the United States, as their impact at most is to increase the costs of the operation. [Citations.] We also need do no more than mention cases where, absent a conflicting federal regulation, a State seeks to impose safety or other requirements on a contractor who does business for the United States." (*Id.* at p. 543 [78 S.Ct. at p. 452].) (6) Minimum wage laws fall under the same classification as valid regulation of the employment relationship under state police powers.(*De Canas v. Bica, supra*, 424 U.S. at pp. 356-357 [96 S.Ct. at pp. 936-937].) The PWL is not a minimum wage law, however. (*San Francisco Labor Council v. Regents of University of California* (1980) 26 Cal.3d 785, 790 [163 Cal.Rptr. 460, 608 P.2d 277]).

(1d) *Hull v. Dutton* (11th Cir. 1991) 935 F.2d 1194, 1196-1198, held that a state agency which ran a switching railroad as a private carrier was subject to the Railway Labor Act and such federal law preempted a state law establishing bonus payments for certain state employees.

Chamber of Commerce of U.S. v. Bragdon (9th Cir. 1995) 64 F.3d 497, 504 held that the National Labor Relations Act preempted a Contra Costa County ordinance which established a prevailing wage law for "wholly private construction projects." In contrast, *People v. Hwang* (1994) 25 Cal.App.4th 1168, 1172, 1181-1182 [31 Cal.Rptr.2d 61], held that PWL was not preempted by the National Labor Relations Act as to a public works contract between a private contractor and county school district. ***886**

Drake v. Molvik & Olsen Elec., Inc. (1986) 107 Wn.2d 26 [726 P.2d 1238], held that the Washington prevailing wage law governed a "federally-funded construction project by the Seattle Housing Authority" and was not preempted by DBA. (To same effect see *Siuslaw Concrete Const. v. Wash., Dept. of Transp.* (9th Cir. 1986) 784 F.2d 952, 953-954, 959 [involving a state-run training program which might be exempt under the provision of DBA].)

Metropolitan Water Dist. v. Whitsett (1932) 215 Cal. 400, 408, 417 [10 P.2d 751] upheld the constitutionality of PWL, in part "on the theory that the state as the employer having full control of the terms and conditions under which it will contract may, through its legislatures, and within constitutional limits, provide the wage which shall be paid to its employees and that the payment of a less sum shall be unlawful." Overall, the state has greater power to legislate in areas covered by federal law as "proprietor" than as "regulator." (*Building & Constr. Trades Council v. Associated Builders & Contractors of Mass./R.I., Inc.* (1993) 507 U.S. 218, 226-227, 232-233 [113 S.Ct. 1190, 1195-1196, 1198-1199, 122 L.Ed.2d 565].)

The basic distinction uniformly maintained in the cases is that stateenacted prevailing wage regulations are valid and not preempted by federal law when applied to contracts of the state or its political subdivisions. However, those laws cannot be applied to a project which is under the complete control of the federal government. This is also the distinction

made by respondent's regulations, which provide that the PWL rather than DBA is applied to federally funded or assisted construction projects in California when wages under PWL would be higher and the projects "are controlled or carried out by California awarding bodies of any sort." Accordingly, because the regulations are consistent with California cases, federal cases, cases from other states, and the PWL statutes, we will follow them.

In the present case, the awarding body is an agency of the federal government. The local cooperation agreement governs the overall project containing the Seven Oaks Dam project at issue herein. Under the local cooperation agreement, the federal agency is given the ultimate authority over the actual construction, financial audits, paying the construction companies, determination of what to do if hazardous substances are discovered and determination that a project is complete. Thus, the Seven Oaks Dam project is controlled and carried out by a federal awarding body and under respondent's regulations, the PWL does not apply.

Appellant expresses the fear that a decision for respondent "would positively invite California public bodies in the future to give California public ***887** monies to the Corps of Engineers (or to any private party if the trial court is correct) and to let it award all contracts, thereby allowing such public bodies and employers to evade the PWL." We wish to calm appellant's fears. This court shares the Legislature's interest in protecting working people in the state. Our decision is based on a careful scrutiny of the record to discover the actual relationship between federal, state and private parties. We do nothing more than uphold the regulations and apply the facts to the regulations and statute. As in other areas of the law, each case involving public contracts and PWL will be decided on its own facts and merits.

III. *Respondent's Administrative Decision*

(7) Appellant contends that respondent director violated the California Constitution by "refusing to find a public works to exist simply because of a perceived fear of unconstitutionality or conflict with federal law." This contention lacks merit.

California Constitution, article III, section 3.5 provides that an administrative agency has no power to refuse to enforce a statute on the grounds it is unconstitutional or conflicts with federal law, until an appellate court has so held. In *Reese v. Kizer* (1988) 46 Cal.3d 996, 1002 [251 Cal.Rptr. 299, 760 P.2d 495], the Supreme Court held: "The purpose of the amendment was to prevent agencies from using their own interpretation of the Constitution or federal law to thwart the mandates of the Legislature. Its language, however, cannot reasonably be construed to place a restriction on the authority of the Legislature to limit the scope of its own enactments. By limiting the implementation of a statute as directed by the Legislature, an agency neither 'declares it unenforceable' nor 'refuses to enforce it.' Indeed, far from thwarting the Legislature's mandate, such action precisely fulfills it." (Fns. omitted.)

Respondent's administrative decisions in the instant case were proper interpretations of the PWL within the scope of *Reese*.

IV. *Disposition*

The judgment is affirmed. Costs are awarded to respondent.

Anderson, P. J., and Reardon, J., concurred.

A petition for a rehearing was denied April 29, 1997, and appellant's petition for review by the Supreme Court was denied July 9, 1997.

END OF DOCUMENT

HState Compensation Ins. Fund v. W.C.A.B.
Cal.App.2.Dist.
STATE COMPENSATION INSURANCE FUND, Petitioner,
v.
WORKERS' COMPENSATION APPEALS BOARD and SAM WELCHER, Respondents.
No. B086372.

Court of Appeal, Second District, Division 3, California.
Aug 8, 1995.

SUMMARY

A workers' compensation judge found that Lab. Code, § 5402 (failure to reject liability for workers' compensation injury claim within 90 days after filing of claim creates presumption that injury is compensable; presumption is rebuttable only by evidence discovered subsequent to 90-day period), barred evidence offered by a workers' compensation insurer concerning its admitted noncompliance with the statute and determined that an applicant was 100 percent permanently disabled due to industrial injury. The Workers' Compensation Appeals Board denied the insurer's petition for reconsideration.

The Court of Appeal affirmed the order denying reconsideration, holding that the Workers' Compensation Appeals Board correctly upheld the ruling of the workers' compensation judge. Once the statutory presumption attached due to the insurer's failure to respond to the applicant's timely claim within 90 days, the insurer had the burden of proof on the primary issue of causation. The insurer offered four medical reports to show that the applicant's diseases were not work related, but they had not been obtained during the 90-day statutory period. The presumption operates to bar the presentation of evidence which could have been obtained with the exercise of reasonable diligence and all of the records could have reasonably been obtained within the 90-day period. Thus, the insurer never established that it had exercised reasonable diligence in investigating the claim. Further, the workers' compensation judge properly excluded the testimony of the insurer's claims adjuster as to when the claim had been rejected, pursuant to Lab. Code, § 5502, subd. (d)(3), since she had not been identified as a witness at the mandatory settlement conference or in the settlement conference statement, and no explanation had been given at trial for the failure to so identify her. (Opinion by Klein, P. J., with Croskey and Aldrich, JJ., concurring.)

HEADNOTES

Classified to California Digest of Official Reports

(1) Statutes § 21--Construction--Legislative Intent--Purpose of Law.
A fundamental rule of statutory construction is that a court should ascertain the intent of the Legislature so as to effectuate the purpose of the law. When the meaning of a statute is uncertain, resort may be had to the history of the legislation, including legislative and other reports, to resolve such ambiguities as exist.

(2a, 2b) Workers' Compensation § 67--Proceedings Before Workers' Compensation Appeals Board--Claims--Failure to Reject Claim of Injury Within Specified Time as Creating Presumption of Compensability--Statutory Purpose-- Presumption as Affecting Burden of Proof.
The purpose of the 1989 amendment to Lab. Code, § 5402, providing that failure to reject liability for a workers' compensation injury claim within 90 days after the filing of the claim creates a rebuttable presumption that the injury is compensable, was to expedite the entire claims process in workers' compensation cases by limiting the time during which the employer's investigation of an injured worker's claim could be undertaken-90 days-without being penalized for delay. The rebuttable presumption of § 5402 was intended to affect the burden of proof rather than the burden of producing evidence, because it was created by the Legislature to implement the public policy of expediting workers' compensation claims. As such, once the underlying facts have been established, the statute's effect in workers' compensation litigation is to place on the defendant employer/carrier the burden of proving that the employee/applicant does not have a compensable injury; in the absence of such proof, the consequences are adverse to the employer/carrier.
[See 2 **Witkin,** Summary of Cal. Law (9th ed. 1987)

Workers' Compensation, § 380.]

(3) Evidence § 20--Presumptions--Affecting Burden of Proof--As Implementing Public Policy.

While a presumption affecting the burden of producing evidence concerns only the particular litigation in which it applies, a presumption affecting the burden of proof is established to implement some public policy other than to facilitate the particular action in which it applies.

(4a, 4b) Workers' Compensation § 67--Proceedings Before Workers' Compensation Appeals Board--Claims--Failure to Reject Claim of Injury Within Specified Time as Creating Presumption of Compensability--Admissibility of Evidence to Rebut Presumption.

The Workers' Compensation Appeals Board correctly upheld the rulings of a workers' compensation judge that Lab. Code, § 5402 (failure to reject liability for workers' compensation injury claim within 90 days after filing of claim creates presumption that injury is compensable; presumption is rebuttable only by evidence discovered subsequent to 90-day period), barred evidence offered by a workers' compensation insurer concerning its admitted noncompliance with the statute and that the applicant was disabled due to industrial injury. Once the presumption attached due to the insurer's failure to respond to the applicant's timely claim within 90 days, the insurer had the burden of proof on the primary issue of causation. The insurer offered four medical reports to show that the applicant's diseases were not work related, but they had not been obtained during the 90-day statutory period. The presumption operates to bar the presentation of evidence which could have been obtained with the exercise of reasonable diligence and all of the records could have reasonably been obtained in the 90-day period. Thus, the insurer never established that it had exercised reasonable diligence in investigating the claim. Further, the workers' compensation judge properly excluded the testimony of the insurer's claims adjuster as to when the claim had been rejected, pursuant to Lab. Code, § 5502, subd. (d)(3), since she had not been identified as a witness at the mandatory settlement conference or in the settlement conference statement, and no explanation had been given at trial for the failure to so identify her.

(5) Statutes § 44--Construction--Aids--Contemporaneous Administrative Construction.

Contemporaneous administrative construction of a statute by the agency charged with its enforcement and interpretation, while not necessarily controlling, is of great weight, and courts will not depart from such construction unless it is clearly erroneous or unauthorized.

COUNSEL

Krimen, Klein, Da Silva, Daneri & Bloom and Don E. Clark for Petitioner.

Dennis J. O'Sullivan and David D. Robin for Respondents. *678

KLEIN, P. J.

A workers' compensation judge (WCJ), applying the rebuttable presumption of compensability provided in Labor Code section 5402, [FN1] barred evidence offered by defendant State Compensation Insurance Fund (SCIF) concerning its admitted noncompliance with the statute and determined that an applicant was 100 percent permanently disabled due to industrial injury. SCIF petitioned for reconsideration, and the Workers' Compensation Appeals Board (Board) denied reconsideration, upholding the WCJ. SCIF sought review in this court, contending that the WCJ had erred in finding applicant's injuries compensable in view of the extensive medical record demonstrating nonindustrial causation. Both the applicant and applicant's health care provider (Kaiser Permanente, The 4600 Group, referred to herein as Kaiser) answered the petition, contending that failure to apply Labor Code section 5402 in this instance would render the legislation, enacted as part of Legislature's effort in 1989 and 1990 to reform the workers' compensation system, meaningless. We agree, and affirm the determination of the Board.

FN1 The statute provides as follows: "Knowledge of an injury, obtained from any source, on the part of an employer, his or her managing agent, superintendent, foreman, or other person in authority, or knowledge of the assertion of a claim of injury sufficient to afford opportunity to the employer to make an investigation into the facts, is equivalent to service under Section 5400. If liability is not rejected within 90 days after the date the claim form is filed under Section 5401, the injury shall be presumed compensable under this division. The presumption is rebuttable only by evidence discovered subsequent to the 90-day period."

Facts and Procedural History

Applicant Sam Welcher, born June 25, 1930, worked from January 1965 to February 26, 1991, first as a truck driver and then a dispatcher, for defendant employer Cook & Cooley, insured by defendant SCIF. Applicant left the job because he was no longer able to work due to health problems, and in March 1991 underwent major aortic bypass surgery at Kaiser during which a kidney was removed and some toes were amputated. Applicant, suffering from renal failure, receives dialysis frequently, and the medical expenses in this case are large. [FN2] He filed his claim for workers' compensation benefits on August 30, 1991, alleging an industrial continuous trauma injury to his kidneys, right lower leg, to his internal system, to his heart and psyche, and that he had industrially caused hypertension as well.

FN2 At trial, Kaiser submitted a lien claim of $277,902.17, not a final lien.

SCIF did not deny liability in this case until January 2, 1992, almost four months after the date of knowledge of the injury, which constituted noncompliance with Labor Code section 5402. ***679**

At trial, applicant testified that during his daily employment as a radio dispatcher, he was often awakened in the night by calls concerning gasoline deliveries. He was in effect always "on call." Applicant missed very little time from work until he became sick in February 1991. Applicant felt stress on the job caused his illness, but would have continued to work if his illness had not intervened. Applicant further testified that the hypertension was diagnosed when he was 55 years old, and that his doctor had advised him to stop smoking, but said nothing about alcohol consumption.

The WCJ issued findings and award, determining that applicant had sustained industrial injury to his kidneys, his right lower extremity, his internal system, and his heart, and had work-related hypertension, "for the period 1/65 to 2/26/91 (pursuant to Labor Code Section 5402)." The WCJ found that applicant was permanently and totally disabled, and that there was need for further medical treatment for the applicant's renal and hypertensive conditions.

In her opinion on decision, the WCJ discussed applicant's medical history in detail, relying on the report dated March 25, 1991, by Kaiser physician Mark Saroyan, M.D., and on Kaiser's medical records. (The records, designated exhibit 20, which were extensive, were admitted at trial after being subpoenaed by defendant SCIF. Dr. Saroyan's reporting was included.) The WCJ's summary included the following: "In 1980, the applicant became a radio dispatcher. At that same time he was diagnosed as having hypertension and high cholesterol. This hypertension was not under control since the applicant stopped taking his medicine. During the period of 1984 to 1986, applicant had various polyps and possible cancerous growth[s] of his vocal cords with subsequent operations [o]n 6/8/84, 5/85, 4/86. During this time the applicant was [a] 2-pack a day smoker and possible alcohol user. The record is very vague about applicant's use of alcohol. Thus by 4/89, the applicant was diagnosed with uncontrollable hypertension, gallstones, hiatal hernia and chest pains. As for the chest pains, it was determined that the applicant had a normal EKG and no cardiac problems. Also at that time, applicant's care was transferred to Kaiser HMO. Eventually by 1991, the applicant had a renal failure which eventually resulted in dialysis with subsequent complication of amputation of his right first and second toes. Subsequent to 1991, the applicant had a history of unidentified G.I. bleeding with severe vascular disease. At the present time, the applicant is on dialysis for his total renal or kidney failure."

The WCJ elaborated further. "Applicant had a renal vascular hypertension which is the narrowing of the arteries to the kidneys. The kidneys, to ***680** compensate for the restricted flow of blood, produce[d] renin, a hormone which increase[d] blood pressure, hence renal vascular hypertension, as indicated by the Kaiser records. Thus, the applicant's hypertension was not a stress-related hypertension. This hypertension and the narrowing of arteries eventually [led] to ... applicant's renal failure. A stress-related hypertension is a hereditary condition which is exacerbated by a person's diet, weight, smoking habits, alcohol use and other contributory factors. In this case, the applicant's smoking contributed to his vascular narrowing disease of his arteries to his kidneys.... [¶] Applicant had renal vascular hypertension as opposed to stress caused hypertension. This is the reason why the applicant's hypertension was uncontrollable by the usual medications, which did not benefit him at all. The proper treatment for renal vascular hypertension is aorta-bi-iliac bypass and/or aorta-left-renal bypass....

Thus, it is found that the renal vascular hypertension with eventual renal failure and dialysis and amputation of the applicant's toes is non-industrial."

Finally, the WCJ declared: "Now, comes the interesting part of the case ..., the 90-day presumption applies. However, this presumption is rebutt[ed] by evidence discovered subsequent to the 90-day period. The Labor Code is not clear as to what type of evidence, i.e., medical or testimonial evidence for the delay. In this case, defense attorney wanted to present the testimony of the adjuster Amanda Corral-Cortez as to why the objection was not timely served on the applicant and his attorney within the 90 days. The WCJ had ruled that the testimony was inadmissible since her name as a witness was not listed either on his 7/23/93 MSC Statement [(Mandatory Settlement Conference Statement)] and [*sic*] the 8/4/93 Settlement Conference Summary. Because of the operation of Labor Code Section 5402, it is found the applicant's injury is industrial under the 90 day rule."

SCIF petitioned for reconsideration, pointing out what it deemed the "inconsistent" findings made by the WCJ. The WCJ recommended denial of reconsideration in her report and recommendation to the Board, because SCIF had not denied the injury in timely fashion. "The primary purpose of this Labor Code Section was that the defendants expeditiously investigate all claims in a timely manner so that the applicant will not be held in limbo as to the compensability of his injury. Defendants admitted that their denial was not timely ...." As to barring the testimony of SCIF's claims adjuster, the ***681** WCJ pointed out that by the time of the mandatory settlement conference "defendants had had approximately two years in which to investigate the applicant's claim," and discovery had closed on that date pursuant to Labor Code section 5502, subdivision (d)(3). [FN3]

> FN3 Labor Code section 5502 is a procedural statute, governing hearings and calendaring of workers' compensation matters, among other things. In pertinent part, subdivision (d)(3) provides "[d]iscovery shall close on the date of the mandatory settlement conference. Evidence not disclosed or obtained thereafter shall not be admissible unless the proponent of the evidence can demonstrate that it was not available or could not have been discovered by the exercise of due diligence prior to the settlement conference."

The Board denied SCIF's petition for reconsideration without further discussion. SCIF filed a verified, timely petition for writ of review in this court on September 2, 1994, observing there had been no published appellate opinion on what Labor Code section 5402 means, what kind of presumption has been created, and most particularly, what kind of evidence effectively rebuts the presumption created by the statute. SCIF argued that all its medical reports constituted evidence which rebutted the presumption, but did not submit the reports upon which it relied with the writ petition. (They are included in the Board record, however, and have been part of our review.) Kaiser filed opposition to the issuance of a writ, contending there have been several Board panel opinions in recent years taking the position the only rebuttal evidence admissible to combat the presumption of section 5402, once noncompliance by the employer/carrier has been established, is evidence that was *notreasonablyobtainable* within the 90-day period, and that these opinions had stated the dispositive rule in this case. This court issued a writ of review.

Discussion

I. *Statutory Intent*

(1) "A fundamental rule of statutory construction is that a court should ascertain the intent of the Legislature so as to effectuate the purpose of the law." (*DuBois v. Workers' Comp. Appeals Bd.* (1993) 5 Cal.4th 382, 387 [20 Cal.Rptr.2d 523, 853 P.2d 978].) When the meaning of a statute is uncertain, resort may be had to the history of the legislation, including legislative and other reports, to resolve such ambiguities as exist. (*Id.* at p. 393.)

(2a) In the case of Labor Code section 5402, the 1989 amendment to the section was one result of attempts "by representatives of organized labor, management and the insurance industry following several years of negotiation intended to streamline and improve the workers' compensation benefit ***682** delivery system...." (Enrolled Bill Rep., Assem. Bill No. 276 (Sept. 19, 1989) Dept. Industrial Relations, p. 4.) Its primary purpose, as the WCJ correctly stated, was to expedite the entire claims process in workers' compensation by limiting the time during which investigation by the employer of a claim by an

injured worker could be undertaken-90 days-without being penalized for delay. The "penalty" provided for delay was that a rebuttable presumption of compensability would attach to the claim.

II. *The Nature of the Presumption Created*

We consider what sort of "rebuttable presumption" the Legislature intended to create in Labor Code section 5402. "A presumption is an assumption of fact that the law *requires* to be made from another fact or group of facts found or otherwise established in the action. A presumption is not evidence." (Evid. Code, § 600, subd. (a), italics added.) "A presumption is either conclusive or rebuttable. Every rebuttable presumption is either (a) a presumption affecting the burden of producing evidence or (b) a presumption affecting the burden of proof." (Evid. Code, § 601.)

"A presumption affecting the burden of producing evidence requires the ultimate fact to be found from proof of the predicate facts in the absence of other evidence. If contrary evidence is introduced then the presumption has no further effect and the matter must be determined on the evidence presented. (Evid. Code, § 604.)" (*In re Heather B.* (1992) 9 Cal.App.4th 535, 561 [11 Cal.Rptr.2d 891].) A presumption affecting the burden of proof has a more substantial impact in determining the outcome of litigation. The effect of a presumption affecting the burden of proof is "to impose upon the party against whom it operates the burden of proof as to the nonexistence of the presumed fact." (Evid. Code, § 606.)(3) While a presumption affecting the burden of producing evidence concerns only the particular litigation in which it applies, a presumption affecting the burden of proof "is established to implement some public policy other than to facilitate the particular action in which it applies. [Citations.]" (*In re Heather B.*, *supra*, at p. 561; Evid. Code, § 605.)

(2b) We have concluded that the rebuttable presumption of Labor Code section 5402 was intended to affect the burden of proof rather than the burden of producing evidence, because it was created by the Legislature to implement the public policy of expediting workers' compensation claims. As such, once the underlying facts have been established, its effect in workers' compensation litigation is to place upon the defendant employer/carrier the burden of proving the employee/applicant does not have a compensable *683 injury; in the absence of such proof, the consequences are adverse to the employer/carrier.

(4a) In this case, "the underlying facts" were that applicant had made a timely claim to which SCIF had not responded for approximately four months, instead of the ninety days permitted by the statute. The WCJ's ruling barring the testimony of the SCIF claims adjuster was highly significant, in that SCIF was thus unable to avoid the application of the presumption. SCIF then had to assume the burden of proof on the primary issue in the case, which was industrial causation. Resolution of this issue required medical evidence, usually presented through medical reports from examining, treating or evaluating doctors. At trial, SCIF did offer, and the WCJ admitted, the reports of four defense doctors, obtained after January 2, 1992, including those prepared on August 2, 1993, and August 4, 1993, by internist and cardiologist Richard Hyman, M.D., in which he diagnosed hypertension and atherosclerotic peripheral vascular disease and concluded that neither were work related. All of these reports, however, were offered without explanation as to why they had not been obtained during the 90-day investigation period allowed by Labor Code section 5402.

III. *What Constitutes Evidence Which Will Rebut the Presumption of Compensability*

Once the presumption has attached to a claim, at issue is what evidence may be admitted on behalf of the employer/carrier to rebut the presumption. Labor Code section 5402 states that the evidence be only that "discovered subsequent to the 90-day period." While there is as yet no appellate discussion of this issue, the Board has spoken to it in a number of panel decisions. (5) We adhere to "the well-established principle that contemporaneous administrative construction of a statute by the agency charged with its enforcement and interpretation, while not necessarily controlling, is of great weight; and courts will not depart from such construction unless it is clearly erroneous or unauthorized." (*Industrial Indemnity Co. v. Workers' Comp. Appeals Board* (1985) 165 Cal.App.3d 633, 638 [211 Cal.Rptr. 683].)

(4b) In *Napier v. Royal Insurance Co.* (1992) SAC 174290, 20 Cal. Workers' Comp. Rptr. 124 (writ den.), [FN4] a Board panel rejected an extremely broad interpretation of Labor Code section 5402

which would have barred all further discovery once the presumption applied, but said: "While the ***684** presumption of compensability will preclude the defendant from disputing its liability for injury with evidence which could have been obtained with the exercise of reasonable diligence within the initial 90 day period, defendant is not thereafter permanently prevented from seeking evidence on corollary and related issues." The conclusion that the Labor Code section 5402 presumption operates to bar the presentation of evidence which "could have been obtained with the exercise of reasonable diligence" was also reached by the Board in *Finess v. American Motorists Ins. Co.* (1992) SAC 173856, 20 Cal. Workers' Comp. Rptr. 303 and *Casey v. CIGNA* (1993) GRO 7572, 5718, 6593, 21 Cal. Workers' Comp. Rptr. 248. What constitutes "reasonable diligence" is being decided on a case-by-case basis.

> FN4 A board panel decision reported in the California Workers' Compensation Reporter is regarded as a properly citable authority, particular on the issue of contemporaneous administrative construction of statutory language. (*Griffith v. Workers' Comp. Appeals Bd.* (1989) 209 Cal.App.3d 1260, 1264, fn. 2 [257 Cal.Rptr. 813].)

The Board has also identified at least one area where the presumption does not operate as a bar against the admission of evidence which may rebut compensability of a claim. An applicant's testimony at a hearing may rebut the presumption, if the WCJ does not find the applicant credible on the issue of compensability; the Board has reasoned that such testimony could not reasonably have been discovered in the 90-day period. (*Davis v. Workers' Comp. Appeals Bd.* (1994) 59 Cal.Comp.Cases 1066.)Following the same reasoning, the testimony of other witnesses at trial or by deposition on behalf of the applicant may rebut the presumption. (*Witherell v. Workers' Comp. Appeals Bd.* (1994) 59 Cal.Comp.Cases 1128, writ den.; and see *Pinson v. Workers' Comp. Appeals Bd.* (1995) 60 Cal.Comp.Cases 141.)

None of these decisions assist SCIF in its contention that it should have been permitted to rebut the presumption with the evidence contained in its medical reports, or the evidence discussed by the WCJ which was contained in the records of lien claimant Kaiser, all of which could have reasonably been obtained in the 90-day period after August 30, 1991. In short, SCIF never established that it had exercised reasonable diligence in investigating this claim.

IV. *The WCJ's Labor Code Section 5502, Subdivision (d)(3), Ruling*

SCIF did offer the testimony of its claims adjuster Corral-Cortez at trial, although she had not been identified as a witness at the mandatory settlement conference or in the settlement conference statement. The WCJ ruled that this circumstance operated to exclude the evidence, pursuant to Labor Code section 5502, subdivision (d)(3). This statute, which was enacted in 1989 and has undergone amendment on several occasions since, was considered by the Board in *Zenith Insurance Co.* v. *Ramirez* (1992) 57 Cal.Comp.Cases 719.The Board (in bank) upheld and applied the mandatory settlement ***685** procedure including the provision closing discovery to a number of cases, noting that it was established "to guarantee a productive dialogue leading, if not to expeditious resolution of the whole dispute, to thorough and accurate framing of the stipulations and issues for hearing." (*Id.* at p. 727.)

In *Rodriguez v. Workers' Comp. Appeals Bd.* (1994) 30 Cal.App.4th 1425, 1433 [35 Cal.Rptr.2d 713], the Court of Appeal held that pursuant to Labor Code section 5402, "... it is the *rejection* [of liability] which must occur within the 90-day period, not the receipt of notice of that rejection." (Italics added.) In view of *Rodriguez*, the WCJ's ruling excluding the adjuster's testimony was particularly significant, because the testimony would very likely have been relevant concerning whether SCIF had in fact rejected the claim within the 90-day period but had simply not communicated its decision to the claimant. The WCJ, in the case before us, defended her ruling on this issue in her report to the Board, pointing out no explanation had been given at trial why the adjuster's identity had not been disclosed at the mandatory settlement conference, and emphasizing there had been inexcusable delay in this case. We conclude that the type of delay demonstrated herein was of the sort that Labor Code section 5402 was designed to discourage. The Board correctly upheld the WCJ's ruling.

Disposition

The Board's order dated July 21, 1994, denying

reconsideration, is affirmed.

Croskey, J., and Aldrich, J., concurred.

Petitioner's application for review by the Supereme Court was denied November 2, 1995. *686

Cal.App.2.Dist.
State Compensation Ins. Fund v. Workers' Comp. Appeals Bd.
37 Cal.App.4th 675, 43 Cal.Rptr.2d 660, 60 Cal. Comp. Cases 717, 95 Cal. Daily Op. Serv. 6300, 95 Daily Journal D.A.R. 10,685

END OF DOCUMENT

Districts A and B are receiving a reduced tax allocation due to the detachment proceedings (§ 99). They are no longer serving the area in question for which they received state assistance payments in 1978–1979. This area should therefore not be included in their calculations for Fund contributions.

District C, on the other hand, is now receiving property tax revenues previously allocated to districts A and B. Its area benefitted from state assistance payments in 1978–1979, and contributions to the Fund have been made based upon tax assessments in its area. We believe that district C has the responsibility to continue the Fund contributions made by districts A and B for its area. The ratios, state assistance payments, and current allocations based upon assessments in the two separate territories should be calculated and applied to district C's total allocation.

We realize that section 98.6 is complex and that its terms are subject to varying interpretations. We have sought to construe the statutory language in a reasonable and common sense manner. The Legislature's program for flexibility and a measure of local control over the property tax allocations of special districts should not be unreasonably restricted or expanded due to district reorganizations. Our construction of section 98.6 is consistent with the limitations and purposes of the Fund as originally envisioned by the Legislature. Any possible hardships resulting from a district having to contribute to the Fund may be addressed by the board of supervisors at the time of redistribution.

In answer to the question presented, therefore, we conclude that special districts are required to contribute to the Fund to the extent that their territories received state assistance payments for the 1978–1979 fiscal year.

Opinion No. 86-603—April 15, 1987

SUBJECT: APPLICATION OF LABOR CODE § 1771 PREVAILING WAGE PROVISIONS—The prevailing wage provisions of Labor Code section 1771 apply to the employees of an engineering firm which contracts with a city to perform the duties of city engineer, except with respect to such duties which do not qualify as a public work.

Requested by: MEMBER OF THE CALIFORNIA ASSEMBLY

Opinion by: JOHN K. VAN DE KAMP, Attorney General
Anthony S. Da Vigo, Deputy

The Honorable Richard E. Floyd, Member of the California Assembly, has requested an opinion on the following question:

Do the prevailing wage provisions of Labor Code section 1771 apply to the employees of an engineering firm which contracts with a city to perform the duties of city engineer?

CONCLUSION

The prevailing wage provisions of Labor Code section 1771 apply to the employees of an engineering firm which contracts with a city to perform the duties of city engineer, except with respect to such duties which do not qualify as a public work.

ANALYSIS

We are advised that a city has entered into a contract with a private engineering firm to perform, on an extended basis, all or a portion of those duties which would ordinarily be performed by a city engineer. The firm is required upon written authorization of the city manager to provide all necessary consulting engineering services needed for the preparation of special reports, investigations and studies, plan checking, surveying and inspections, the preparation of plans, specifications and cost estimates and any other special municipal projects or programs requiring specialized consulting services.

We are asked whether the prevailing wage provisions of Labor Code section 1771 apply to such surveyors and related employees. The inquiry assumes that the work in question is a "public work" within the meaning of that section, as defined in section 1720 of said code:

> "As used in this chapter 'public works' means:
>
> "(a) Construction, alteration, demolition or repair work done under contract and paid for in whole or in part out of public funds, except work done directly by any public utility company pursuant to order of the Public Utilities Commission or other public authority.
>
> "(b) Work done for irrigation, utility, reclamation and improvement districts, and other districts of this type. 'Public work' shall not include the operation of the irrigation or drainage system of any irrigation or reclamation district, except as used in Section 1778 relating to retaining wages.
>
> "(c) Street, sewer or other improvement work done under the direction and supervision or by the authority of any officer or public body of the state, or of any political subdivision or district thereof, whether such political subdivision or district operates under a freeholder's charter or not.
>
> "(d) The laying of carpet done under a building lease-maintenance contract and paid for out of public funds.
>
> "(e) The laying of carpet in a public building done under contract and paid for in whole or part out of public funds."

We have previously considered in another context the meaning of "public works" as it relates to such engineering services. (63 Ops. Cal. Atty. Gen. 501, 504–508 (1980).) It was there observed that each contract must be separately reviewed to determine whether the work in question qualifies as such. (*Id.*, 506–507.) That similar distinctions must be drawn with regard to the application of prevailing wage requirements to engineering services is indicated, for example, by the specifications of Title 8, California Administrative Code, section 16001, subdivision (c), providing that

certain field survey work is subject to such requirements "when it is integral to the specific public works project in the design, preconstruction, or construction phase." A letter dated March 30, 1978 from the Director of Industrial Relations to Public Agency Awarding Bodies contained the following administrative interpretation:

> "As the person authorized by the Legislature to determine prevailing wage rates, I have determined that surveyors are included in the prevailing wage law pertaining to public works, § 1720 *et seq.* and § 1770 *et seq.* of the Labor Code.
>
> "A general determination has been made that when a firm performs engineering, surveying, and photogrammetry work for preparation of any plans and specifications for an awarding body under contract, the work of the surveyors, or those assisting the surveyors to establish field control lines, is to be paid at prevailing wage rates according to Part 7 of the Labor Code which deals with 'Public Works and Public Agencies.'
>
> "Surveying, whether performed in the preparation or construction stage, is a necessary prerequisite and integral part of construction without which the work could not proceed and is performed by the type of classification of worker intended to be covered by the Act (§ 1723 and § 1772 of the Labor Code).
>
> "Covered work includes all field survey work related to the engineering phase of a public works project, as well as to the construction phase of a public works project. The engineering phase includes field survey work for feasibility and design. Covered work does not include field survey work, such as general land surveying and mapping, related to the planning function of agencies covered by the prevailing wage law; nor does it include office work."

It is not the purpose of this discussion to factor analyze all of the performance dimensions of a city engineer to determine which would or would not, if performed by a private concern pursuant to contract, qualify as a public work. By its own terms, Labor Code section 1771 does not apply to work which does not so qualify. With respect to work that does so qualify, that section provides:

> "Except for public works projects of one thousand dollars ($1,000) or less, not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the public work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed as provided in this chapter, shall be paid to all workers employed on public works.
>
> "*This section is applicable only to work performed under contract, and is not applicable to work carried out by a public agency with its own* forces. This section is applicable to contracts let for maintenance work." (Emphasis added.)

Hence, the issue arises as to whether the work in question is "performed under

contract" or "carried out by a public agency with its own forces." The prevailing wage requirement applies in the former but not the latter circumstance.

In its contract with the city the firm is characterized as "the City Engineer." Reference is made to Government Code section 36505, providing that

> "The city council shall appoint the chief of police. It may appoint a city attorney, a superintendent of streets, *a civil engineer*, and such other subordinate officers or employees as it deems necessary." (Emphasis added.)

Hence, it is suggested that the prevailing wage law does not apply where the duties in general of a city engineer are performed on an ongoing basis by a private firm acting as city engineer, as distinguished from an independent contractor, and that its employees are therefore the city's "own forces." We shall first consider whether the contractual designation "City Engineer" is determinative of one's status as an appointee to public office under Government Code section 36505, *supra*, as distinguished from a contractor under section 37103 of said code.

A city may enter into a contract with an engineer for specialized services. (Gov. Code, § 37103.) Such a contract does not render the engineer a city officer. (28 Ops. Cal. Atty. Gen. 362, 364 (1956).) On the other hand, a contract for services is not inherently inconsistent with public office, where the contractor has been duly appointed and taken the required oath. (*Id.*) The status of such a contractor must be determined by the duties and powers conferred, and not solely by contractual references as "city engineer" or other appointive terms in the contract. (*Id.*, Staheli v. City of Redondo Beach (1933) 131 Cal. App. 71, 79.) In the latter case the court construed a contract providing in part that Staheli "is hereby appointed to act and fill the duties of the City Engineer . . ." (*id.*, 78–80):

> "In the case of Kennedy v. City of Gustine, 199 Cal. 251 [248 Pac. 910], we find a situation where the board of trustees of a city of the sixth class appointed C. C. Kennedy 'as city engineer, his compensation to be seven per cent of cost of construction work.' The agreement under which plaintiff in that case went to work provided:
>
> " 'That for and in consideration of the compensation to be paid by the party of the first part to the party of the second part at the times and in the manner hereinafter provided, the party of the first part hereby employs said party of the second part as City Engineer of the said City of Gustine, for the purpose of performing the engineering work and supervising the construction of certain street improvements in said City of Gustine, namely: The construction of curbs, sidewalks and pavement upon (naming certain streets) during the present and next succeeding calendar year'. Construing this agreement and determining liability thereunder, the court said (p. 255): 'It is clear, however, that the plaintiff was not an officer of the city, but that he was employed, not to discharge the general duties of the office of city engineer, but only the particular engineering work specified in the contract. . . . Any reference to him in the minutes or the contract or in the evidence as "city engineer" is not controlling. Whether a position, or office, is a public office depends "not upon what the particular office in question may be

called, nor upon what a statute may call it, but upon the power granted and wielded, the duties and functions performed and other circumstances which manifest the true character of the position and make and mark it a public office, irrespective of its formal designation'." (Citing Coulter v. Pool, 187 Cal. 181, 186 [201 Pac. 120], and other California cases.)

"Although respondent was employed to fill the duties of the city engineer of Redondo Beach and resolution No. 719 provided as his compensation the sum of $175 per month as a *retaining fee* for general city engineering and city engineering advice, we are not convinced that the use of those words constituted him individually a city officer, particularly since he was not definitely appointed city engineer and in view of the fact that almost every conceivable kind of *city engineering work* as popularly understood *is left by the same resolution in the balance to await future development or possibly future disagreement.* Since respondent was engaged on a retainer basis to give general engineering advice in the first instance, and later, if required, to give special advice or special service *on compensation to be determined*, it seems reasonable to say that from this resolution arose a private contract with an individual rather than the creation of a public office." (Last two emphases added.)

Similarly, with regard to the matter under consideration, it is undisputed that (1) the firm is retained by and subject to the terms and conditions of a contract, (2) services are to be performed only upon the written authorization of the city manager, and (3) the method of compensation for services rendered by the firm is to be approved for each project by the city manager. Thus, as in the Staheli case, each project is left to await future development or possible future disagreement, for compensation to be determined.

Further problems arise with regard to the appointment of a corporation as a public officer. Unless otherwise provided, each public officer must first take and subscribe the constitutional oath. (Cal. Const., art. XX, § 3; Gov. Code, §§ 1360 & 36507.) In addition, a person who is not 18 years of age and a citizen of this state at the time of election or appointment is incapable of holding a civil office. (Gov. Code, § 1020.) While a corporation may be characterized as a citizen of the state of its creation (Keystone Driller Co. v. Superior Court (1903) 13 8 Cal. 738, 742), it is so considered only for the purpose of protecting the property rights of the incorporators (County of San Mateo v. Southern Pac. R. Co. (CC Cal. 1882) 13 F. 722, 747, *writ dism.* 116 U.S. 138).[1]

The salient fact remains, in any event, that the surveyors and other personnel who perform such services are employed and compensated by the firm. Whether or not the firm may be deemed a public officer, employee, or agent, it is not the city. In our view, therefore, the argument propounded is inconsistent with the plain meaning of section 1771 and with the nature and purpose of its requirements.

The prevailing wage prescription of section 1771 is contained in the first sentence

[1] Still another issue concerns the meaning of "business activity" under Corporations Code sections 206 and 207, for purposes of holding public office.

which applies unequivocally to "*all* workers employed on public works." The second sentence is an exception relating to "work carried out by a public agency with its own forces." This exception is specifically limited to work done by force account (Bishop v. City of San Jose (1969) 1 Cal. 3d 56, 65; O.G. Sansone Co. v. Department of Transportation (1976) 55 Cal. App. 3d 4 34, 459), i.e., by its own employees as distinguished from work performed pursuant to contract with a commercial firm for similar services (see, Webster's Third New Internat. Dict. (1961) p. 887; Jackson v. Pancake (1968) 266 Cal. App. 2d 307, 311).

Manifestly, employees of the firm are not those of the city. In this regard it should be recalled that statutory exceptions should be narrowly construed. (Lacabanne Properties, Inc. v. Dept. Alcoholic Bev. Contr. (1968) 261 Cal. App. 2d 181, 189; 66 Ops. Cal. Atty. Gen. 24, 26 (1983).) Further, expressly excluded from the exception is "work performed under contract." Hence, the rule applies that where statutory language is clear and unambiguous, there is no need for construction and the courts should not indulge in it. (Board of Supervisors v. Lonergan (1980) 27 Cal. 3d 855, 866; 66 Ops. Cal. Atty. Gen. 217, 221–222 (1983).)

Nor would the exemption of the firm's employees be consistent with the nature and purpose of the prevailing rate standards. With respect to such purpose, the court stated in O.G. Sansone Co. v. Department of Transportation, *supra*, 55 Cal. App. 3d at 458:

> "Little has been written in judicial opinions concerning the purpose of the California legislation. However, cases have expounded on the purpose of the Davis-Bacon Act (40 U.S.C. 276a et seq.) The Supreme Court stated in U.S. v. Binghamton Construction Co., 347 U.S. 171, at pages 176–177: 'The language of the [Davis-Bacon] Act and its legislative history plainly show that it was not enacted to benefit contractors, but rather to protect their employees from substandard earnings by fixing a floor under wages on Government projects.' And in International U. of Operating Eng. Local 627 v. Arthurs (W.D. Okla. 1973) 355 F. Supp. 7, at page 8, it was stated: 'The purpose of the Davis-Bacon Act is to provide protection to local craftsmen who were losing work to contractors who recruited labor from distant cheap-labor areas. S.Rept. 963, Mar. 17, 1964 (to accompany H.R. 6041), 1964 U.S. Code Congressional and Administrative News, pp. 2339, 2340. Some contractors pay wages according to collective bargaining agreements. But even though these contractors usually are required to pay higher wage scales, they can still compete with nonunion contractors for public contract work because of the Davis-Bacon Act prevailing wage scale provision. Noncompliance with the Davis-Bacon Act makes it impossible for all contractors to compete. There is thus injury to the laborers and mechanics, as well as injury to contractors and labor organizations."
>
> "It has been said that the provision for payment of prevailing wages on state construction works serves as a public policy in that the state will benefit from 'the superior efficiency of well-paid labor working during reasonable hours' and that such benefit justifies the employment of men on 'less

favorable terms than could be secured by the stress of competition.' (65 Am.Jur.2d, Public Works and Contracts, § 199, p. 87.)"

If exempt, workers employed and compensated by the firm would enjoy neither the benefit of a salary established by law, nor of a salary subject to the constraints of section 1771. We perceive no such legislative oversight.

It is concluded that the prevailing wage provisions of Labor Code section 1771 apply to the employees of an engineering firm which contracts with a city to perform the duties of city engineer, except with respect to such duties which do not qualify as a public work.

Opinion No. 86-702—April 15, 1987

SUBJECT: AUTHORITY TO ESTABLISH SALARIES OF CALIFORNIA HOUSING FINANCE AGENCY EMPLOYEES—The California Housing Finance Agency does not have the authority to establish the salaries of its employees without the approval of the Department of Personnel Administration.

Requested by: DIRECTOR, DEPARTMENT OF PERSONNEL ADMINISTRATION

Opinion by: JOHN K. VAN DE KAMP, Attorney General
Anthony S. Da Vigo, Deputy

The Honorable James D. Mosman, Director, Department of Personnel Administration, has requested an opinion on the following question:

Does the California Housing Finance Agency have the authority to establish the salaries of its employees without the approval of the Department of Personnel Administration?

CONCLUSION

The California Housing Finance Agency does not have the authority to establish the salaries of its employees without the approval of the Department of Personnel Administration.

ANALYSIS

The present inquiry concerns the authority for the fixing of the salaries of employees of the California Housing Finance Agency. Specifically, it must be determined whether the establishment of such salaries by the agency is subject to the approval of the Department of Personnel Administration. The department's authority is found in Government Code section 19825, subdivision (a):

"*Notwithstanding any other provision of law*, whenever any state agency is authorized by special or general statute to fix the salary or compensation of

ASSEMBLY FLOOR : 50-28, 9/10/01 - See last page for vote

SUBJECT : Prevailing wages: payroll records

SOURCE : California-Nevada Conference of Operating Engineers

DIGEST : This bill permits federally-recognized joint labor-management committees access to certified payrolls on public works projects, and permits committees to seek civil court action to remedy prevailing wage violations.

CONTINUED

Assembly amendments (a) provide that in addition to social security numbers, "names" should also be deleted from the records provided to the committees, (b) clarify the civil action procedures, and (c) provide that courts may award restitution.

ANALYSIS : Existing state law requires the payment of prevailing wages to workers employed by private contractors on public works projects valued at $1,000 or more. When an awarding body decides to advertise a public works contract, it must obtain the applicable prevailing wage rates from the Director of the Department of Industrial Relations (DIR). The Divisions of Labor Standards Enforcement (DLSE) and Apprenticeship Standards (DAS) enforce various requirements.

Contractors and subcontractors are required to prepare a certified payroll containing specified information and to make the payroll available for inspection or to furnish it upon request to DLSE, DAS, and to a representative of the awarding body. Records obtained by state officials are open for public inspection, but employee names and other identifying information such as addresses, and social security numbers are deleted from view.

Existing federal law provides for the establishment of industry wide labor-management committees which have been jointly organized for, among other things, advocating industry practices in compliance with various laws.

This bill provides that a federally recognized joint labor-management committee may obtain a copy of a certified payroll from a contractor on a public works project, but with names and social security numbers deleted. If the committee discovers unpaid prevailing wages or fringe benefits due, and related penalties, it may file a civil action to collect them. Courts may award restitution to employees and attorney's fees and costs to the committee.

Prior legislation

This bill is similar to AB 2783 (Villaraigosa) of 2000 which was vetoed by the Governor. The Veto Message said,

in part:

"?.The bill contains no provisions that limit the uses to which joint labor management committees may put the personal information with which they are entrusted?.(T)he release of personal information to a joint labor-management committee requires neither the knowledge nor the consent of affected employees. Although the obvious intent of this legislation is that the information be utilized solely for the purpose of detecting the underpayment of workers on public works projects, joint labor-management committees are not bound to adhere to this goal, and the privacy of the affected employees is in no way assured. This is not the case with the public agencies charged with the enforcement of California's labor laws."

FISCAL EFFECT : Appropriation: No Fiscal Com.: Yes Local: No

The Assembly Appropriations Committee analysis concluded that the fiscal effect of this bill was negligible.

SUPPORT : (Verified 5/14/01) (prior to 9/6 amendments)

California-Nevada Conference of Operating Engineers (source)
State Building and Construction Trades Council of California
California Labor Federation AFL-CIO
California Chamber of Commerce

OPPOSITION : (Verified 5/14/01)

Associated Builders and Contractors
California Manufacturers and Technology Association

ARGUMENTS IN SUPPORT : Proponents including the California-Nevada Conference of Operating Engineers, argue that union representatives or joint labor-management committees are unable to ascertain if the contractor is misclassifying and underpaying skilled workers when they seek to discover compliance with prevailing wage laws. This bill would provide important new mechanisms to assist the state in enforcing the public works law.

Supporters refer to estimates from the State Task Force on the Underground Economy that estimates between $2 billion and $5 billion in payroll and revenue goes unreported in the construction industry each year.

Because DLSE has only 20 field investigators and six

auditors in the public works unit, that agency cannot adequately enforce the law on more than 22,000 public works projects each year. Therefore, unethical contractors understand that the odds of being caught cheating on wages and payroll taxes is minimal. This bill will strengthen enforcement by providing committees with access to payroll records and a direct cause of action to enforce prevailing wage laws.

ARGUMENTS IN OPPOSITION : Opponents state that DLSE is more than capable of checking payroll records to guard against any duplications or misclassification of employees. Under the current administration, the DLSE has received major budget increases, as well as additional augmentations to increase staffing which should be sufficient to fulfill their duties. They see no empirical evidence that DLSE has failed to perform its current duties in a timely or satisfactory manner.

Opponents question the appropriateness of joint labor-management committees getting involved in prevailing wage enforcement activities. They argue that the purpose of these private committees is to promote a private benefit, not a public one.

The Associated Builders and Contractors argue that the committees endorsed and fostered by this bill represent unions and unionized businesses for the purpose of recruiting union membership. Also, by only deleting social security numbers, enormous privacy rights violations would still exist. Workers names and addresses should not be subject to public release for union recruiting of non-union contractors.

BACKGROUND

Public education in California consists of two distinct systems. One system includes local school districts that provide elementary and secondary (kindergarten through 12th grade, or "K–12") education to about 6.1 million pupils. The other system (commonly referred to as "higher education") includes local community colleges, the California State University (CSU), and the University of California (UC). The three segments of higher education provide education programs beyond the 12th grade to about 2.3 million students.

K–12 Schools

School Facilities Funding. The K–12 schools receive funding for construction and renovation of facilities from two main sources—the state and local general obligation bonds.

- ***State Funding.*** The state, through the School Facility Program (SFP), provides money for school districts to buy land and to construct, renovate, and modernize K–12 school buildings. Districts receive funding for construction and renovation based on the number of pupils who meet the eligibility criteria of the program. The cost of school construction projects is shared between the state and local school districts. The state pays 50 percent of the cost of new construction projects and 60 percent of the cost for approved modernization projects. (Local matches are not necessary in so-called "hardship" cases.) The state has funded the SFP by issuing general obligation bonds. Over the past decade, voters have approved a total of $11.5 billion in state bonds for K–12 school construction. About $550 million of these funds remain available for expenditure.
- ***Local General Obligation Bonds.*** School districts are authorized to sell general obligation bonds to finance school construction projects with the approval of 55 percent of the voters in the district. These bonds are paid off by taxes on real property located within the district. Over the last ten years, school districts have received voter approval to issue more than $23 billion of general obligation bonds.

Although school facilities have been funded primarily from state and local general obligation bonds, school districts also receive significant funds from:

- ***Developer Fees.*** State law authorizes local governments to impose developer fees on new construction. These fees are levied on new residential, commercial, and industrial developments. Statewide, school districts report having received an average of over $300 million a year in developer fees over the last ten years.
- ***Special Local Bonds (Known as "Mello-Roos" Bonds).*** School districts may form special districts in order to sell bonds for school construction projects. (These special districts generally do not encompass the entire school district.) The bonds, which require two-thirds voter approval, are paid off by charges assessed to property owners in the special district. Statewide, school districts have received on average about $150 million a year in special local bond proceeds over the past decade.

K–12 School Building Needs. Under the SFP, K–12 school districts must demonstrate the need for new or modernized facilities. Through May 2002, the districts have identified a need to construct new schools to house 1.2 million pupils and modernize schools for an additional 1.2 million pupils. We estimate the state cost to address all of these needs to be roughly $20 billion.

Higher Education

California's system of public higher education includes 140 campuses in the three segments listed below, serving about 2.3 million students:

- The California Community Colleges provide instruction to 1.7 million students at 108 campuses operated by 72 locally governed districts throughout the state. The community colleges grant associate degrees and also offer a variety of vocational skill courses.
- The CSU system has 23 campuses, with an enrollment of about 395,000 students. The system grants bachelor and master degrees, and a small number of joint doctoral degrees with UC.
- The UC has eight general campuses and one health sciences campus with a total enrollment of about 184,000 students. This system offers bachelor, master, and doctoral degrees, and is the primary state-supported agency for research.

Over the past decade, the voters have approved nearly $4.4 billion in general obligation bonds for capital improvements at public higher education campuses. The state also has provided almost $1.5 billion in lease revenue bonds for this same purpose.

In addition to these state bonds, the higher education segments have other sources of funding for capital projects.

- ***Local General Obligation Bonds.*** Community college districts are authorized to sell

general obligation bonds to finance school construction projects with the approval of 55 percent of the voters in the district. These bonds are paid off by taxes on real property located within the district. Over the last decade, community college districts have received local voter approval to issue about $5 billion of bonds for construction and renovation of facilities.

- ***Gifts and Grants.*** The CSU and UC in recent years together have received on average over $100 million annually in gifts and grants for construction of facilities.
- ***UC Research Revenue.*** The UC finances the construction of new research facilities by selling bonds and pledging future research revenue for their repayment. Currently, UC uses about $125 million a year of research revenue to pay off these bonds.

Higher Education Building Plans. Each year the institutions of higher education prepare capital outlay plans in which they identify project priorities over the next few years. Higher education capital outlay projects in the most recent plans total $4.4 billion for the period 2003–04 through 2006–07.

PROPOSAL

This measure allows the state to issue $13.05 billion of general obligation bonds for construction and renovation of K–12 school facilities ($11.4 billion) and higher education facilities ($1.65 billion). General obligation bonds are backed by the state, meaning that the state is obligated to pay the principal and interest costs on these bonds. General Fund revenues would be used to pay these costs. These revenues come primarily from state income and sales taxes. Figure 1 shows how these bond funds would be allocated to K–12 and higher education.

K–12 School Facilities

Figure 1 describes generally how the $11.4 billion for K–12 school projects would be allocated. However, the measure would permit changes in this allocation with the approval of the Legislature and Governor.

New Construction. A total of $6.35 billion would be available to buy land and construct *new* school buildings. Of this amount, $2.9 billion would be set aside for "backlog" projects—that is, projects for which districts had submitted applications on or before February 1, 2002, but that have not yet been funded. The remaining funds—$3.45 billion—would be available for new construction projects submitted after February 1, 2002. Districts would be required to pay for 50 percent of costs with local resources. The measure also provides that up to $100 million of the $3.45 billion in new construction funds is available for charter school facilities. (Charter schools are public schools that operate independently of many of the requirements of regular public schools.)

Modernization. The proposition makes $3.3 billion available for the reconstruction or modernization of *existing* school facilities. Of this amount, $1.9 billion would be available for backlog projects and $1.4 billion for new proposals. Districts would be required to pay 40 percent of project costs from local resources.

Critically Overcrowded Schools. This proposition directs a total of $1.7 billion to districts with schools which are considered critically overcrowded. These funds would go to schools that have a large number of pupils relative to the size of the school site.

Joint-Use Projects. The measure makes a total of $50 million available to fund joint-use projects. (An example of a joint-use project is a facility constructed for use by both a K–12 school district and a local library district.)

Higher Education Facilities

The measure includes $1.65 billion to construct new buildings and related infrastructure, alter existing buildings, and purchase equipment for use in these buildings for California's public higher education systems. The Governor and the Legislature would select the specific projects to be funded by the bond monies.

Related Bond Funding. The legislation which placed this proposition on the ballot provides $651.3 million in lease revenue bonds to fund specific projects. Lease revenue bonds are similar to state general obligation bonds except they do not require voter approval and are not backed by the full faith and credit of the state. This would fund $279 million for UC (7 projects), $191.3 million for CSU (4 projects), $170.5 million for the community colleges (11 projects), and $10.5 million for the California State Library (1 project).

Future Education Bond Act

The legislation which placed this proposition on the ballot authorizes a $12.3 billion bond measure to be placed on the 2004 primary election ballot. (If the voters do not approve this measure, the same bond issue would be placed on the November 2004 ballot.)

The bond measure would provide:

- $10 billion for K–12 school facilities (with roughly half for new construction and a fourth each for modernization and critically overcrowded schools).
- $2.3 billion for higher education (with $920 million for community colleges and $690 million each for UC and CSU).

FISCAL EFFECT

The cost of these bonds would depend on their interest rates and the time period over which they are repaid. If the $13.05 billion in bonds authorized by this proposition are sold at an interest rate of 5.25 percent (the current rate for this type of bond) and repaid over 30 years, the cost over the period would be about $26.2 billion to pay off both the principal ($13.05 billion) and interest ($13.15 billion). The average payment for principal and interest would be about $873 million per year.

Figure 1

Proposition 47
Uses of Bond Funds

(In Millions)	**Amount**
K-12	
New Construction:	
New projects	$3,450[a]
Backlog[b]	2,900
Modernization:	
New projects	1,400
Backlog[b]	1,900
Critically overcrowded schools	1,700
Joint use	50
Subtotal, K-12	($11,400[c])
Higher Education	
Community Colleges	$746
California State University	496
University of California	408
Subtotal, Higher Education	($1,650)
Total	**$13,050**

[a] Up to $100 million available for charter schools. Up to $25 million available for reimbursements to homebuyers for fees paid to school districts to fund new facilities, but only in the event Proposition 46 fails.
[b] Projects for which districts had submitted applications on or before February 1, 2002.
[c] Up to $20 million available for energy conservation projects.

Preface

Introduction

This handbook was developed by the Office of Public School Construction (OPSC) to assist school districts in applying for and obtaining "grant" funds for the new construction and modernization of schools under the provisions of the Leroy F. Greene School Facilities Act of 1998 (Senate Bill 50). It is intended to be an overview of the program for use by school districts, parents, architects, the Legislature, and other interested parties on how a district or county superintendent of schools becomes eligible and applies for State funding. This handbook provides direction on accessing the processes leading to project approvals, insight to the various features of the School Facility Program (SFP), and includes suggestions on how to make the funding system as efficient as possible. For information not contained in this handbook, districts should consult with their respective project managers for assistance; or refer to additional project specific information contained in the SFP Regulations. The SFP Regulations are located on the OPSC Web site at www.opsc.dgs.ca.gov. The OPSC project managers are assigned by county, and a complete listing of project manager assignments, including telephone numbers and e-mail addresses, are also included on our Web site.

Things to Know

This updated version of the handbook includes various regulation changes that occurred between 2005 and 2007 and include:

- Critically Overcrowded School Facilities Program Amendments (effective 10/27/2005)
- Small High School Program (effective 03/14/2006)
- Alternative Enrollment Projection Methods (effective 05/15/2006)
- Re-Designation of Energy Funds (effective 08/21/2006)
- General Site Development Additional Grant (effective 09/05/2006)
- Multi-Story Replacement of Single-Story Facilities Amendments (effective 11/03/2006)
- Modernization Handicapped Access/Fire Code Excessive Cost Hardship Grant Amendments (effective 04/25/2007)
- Charter School Facility Program Amendments (effective 05/17/2007)

Where to Begin

Section 1, "School Facility Program Overview" and Section 2, "The State Allocation Board, the Office of Public School Construction, and Other Involved Agencies" will provide general information. After reviewing these sections, the reader may want to review Section 4, "Application for Eligibility," because establishing eligibility is the first step in filing an application for either new construction or modernization funding. The remaining sections can be reviewed as the topics arise.

This page is intentionally blank.

Section 1

School Facility Program Overview

Introduction

The School Facility Program (SFP) was implemented in late 1998 and is a significant change from previous State facilities programs. The State funding is provided in the form of per pupil grants, with supplemental grants for site development, site acquisition, and other project specific costs when warranted. This process makes the calculation of the State participation quicker and less complicated. In most cases, the application can be reviewed, the appropriate grants calculated, and State Allocation Board (SAB) approval received in 60–90 days regardless of project size.

In addition to a less complicated application process, the SFP provides greater independence and flexibility to school districts to determine the scope of new construction or modernization projects. There is considerably less project oversight by State agencies than in previous State programs. In return, the program requires the school district to accept more responsibility for the outcome of the project, while allowing the district to receive the rewards of a well managed project. All State grants are considered to be the full and final apportionment by the SAB. Cost overruns, legal disputes, and other unanticipated costs are the responsibility of the district. On the other hand, all savings resulting from the district's efficient management of the project accrue to the district alone. Interest earned on the funds, both State and local, also belongs to the district. Savings and interest may be used by the district for any other capital outlay project in the district. See Section 13, "Additional SFP Requirements and Features" for more information on project savings.

The SFP provides funding grants for school districts to acquire school sites, construct new school facilities, or modernize existing school facilities. The two major funding types available are "new construction" and "modernization".[1] The new construction grant provides funding on a 50/50 State and local match basis. The modernization grant provides funding on a 60/40 basis. Districts that are unable to provide some or all of the local match requirement and are able to meet the financial hardship provisions may be eligible for additional State funding (see Section 10, "Financial Hardship").

To ensure that districts are providing adequate safe facilities to students, approval by both the Division of the State Architect (DSA) is required prior to signing a contract for any new construction, modernization and alteration projects for which State funding is requested. Education Code, Section 17072.30, requires that school districts obtain DSA approval of their project's plans and specifications prior to submitting a funding application to the OPSC. The DSA approval ensures that the plans and specifications are in compliance with California's requirements for structural safety, fire and life safety, and accessibility. Districts that sign construction contracts prior to obtaining DSA approval risk their project's eligibility for State funding. The only exception to this requirement is for relocatable buildings, for which districts may enter into a contract to acquire the plans and specifications; however construction cannot commence until DSA approval of the final plans and specifications has been obtained. The date of the DSA approval letter, not the DSA stamp, is considered a valid approval.

[1] Education Code, Sections 17072.10 and 17074.10, establish the new construction grant and modernization grant, respectively.

Implementation and Evolution of the School Facility Program

Senate Bill 50 (Greene) was chaptered into law on August 27, 1998, establishing the SFP. The legislation required that regulations be approved and in place for accepting and processing applications as soon as Proposition 1A was approved by the voters the following November. The SFP continues to evolve through legislative changes. Assembly Bill (AB) 16 and AB 14 provided for significant changes by requiring that regulations be approved and in place for accepting and processing applications as soon as Proposition 47 was approved by the voters in November 2002. These changes included funding for charter school facilities, critically overcrowded schools and joint-use projects. Some of the changes that impacted new construction funding include the suspension of Priority Points, an additional grant for energy efficiency, and several changes that impact the determination of eligibility. Some of the changes that impacted modernization funding include the change of the funding ratio between the State and the school district from 80 percent State and 20 percent district to 60 percent State and 40 percent school district, and additional grants for energy efficiency and the modernization of buildings 50 years old or older.

The passage of Proposition 55 in March 2004 provided an additional $12.3 billion for the construction and renovation of K–12 school facilities and higher education facilities. These funds made available through the School Facility Program, continue to make a difference in assisting school districts with overcrowding and accommodating future enrollment growth.

Proposition 1D provided an additional $7.3 billion in November 2006 which has already begun to assist school districts to repair and modernize older facilities. These funds will additionally assist with overcrowding and accommodate future enrollment growth.

Information on each category of funding can be found in the following sections:

SFP FUNDING CATEGORY	SECTION	PAGE
New Construction	5	23
Modernization	9	29
Financial Hardship	10	71

Funding for the School Facility Program

Helpful Hint:
A listing of school districts that have received SFP funding is available on the OPSC Web site at www.opsc.dgs.ca.gov.

Funding for projects approved in the SFP comes exclusively from statewide general obligation bonds approved by the voters of California. The first funding for the program was from Proposition 1A, approved in November 1998. That bond for $9.2 billion contained $6.7 billion for K–12 public school facilities. The second funding for the program was from Proposition 47, approved in November 2002. It was a $13.2 billion bond, the largest school bond in the history of the State. It contained $11.4 billion for K–12 public school facilities. In March 2004 a third bond was passed by California voters for another $12.3 billion. Of the $12.3 billion provided by Proposition 55, it contained $10 billion for K–12 public school facilities. At this time funds remain for new construction projects.

In November 2006 an additional $10.416 billion was passed by the voters. Of the $10.416 billion provided by Proposition 1D, $7.3 billion will be utilized by school districts to address overcrowding, provide career technical education facilities, accommodate future enrollment growth, renovate and modernize older school buildings and allow participation in community related joint-use projects. The 2006 bond measure is summarized as follows:

PROGRAM	BOND 2006
New Construction *	$ 1,900,000,000 †
Modernization *	3,300,000,000
Overcrowding Relief Grant	1,000,000,000
Joint Use	29,000,000
Career Technical Education Facilities Program	500,000,000
Charter Schools	500,000,000
High Performance Schools	100,000,000
Total K–12	$ 7,329,000,000

* Up to $200 million of the new construction and modernization funds specified for small high schools.

† Up to 10½ percent is available for seismic repairs, reconstruction, or replacement.

This page is intentionally blank.

Section 2

The State Allocation Board, the Office of Public School Construction, and Other Involved Agencies

State Allocation Board

Created in 1947 by the State Legislature, the State Allocation Board (SAB) is responsible for determining the allocation of State resources including proceeds from General Obligation Bond Issues and other designated State funds used for the new construction and modernization of public school facilities. The SAB is also charged with the responsibility for the administration of the State Relocatable Classroom Program, the Deferred Maintenance Program, and many other facilities related programs. Handbooks on these programs may be found on the Office of Public School Construction (OPSC) Web site at www.opsc.dgs.ca.gov. Printed copies may be obtained by contacting the OPSC directly.

The SAB meets monthly, typically at the State Capitol. At each meeting the SAB reviews and approves applications for eligibility and funding, acts on appeals, and adopts policies and regulations as they pertain to the programs that the SAB administers.

The SAB is comprised of ten members:

- The Director of the Department of Finance or designee (Traditional SAB Chair)
- The Director of the Department of General Services or designee
- The Superintendent of Public Instruction or designee
- One person appointed by the Governor
- Three State Senators; appointed by the Senate Rules Committee (two from the majority party and one from the minority party)
- Three State Assembly Members; appointed by the Speaker of the Assembly (two from the majority party and one from the minority party)

The current SAB members are:

- Mr. Michael Genest, Director, Department of Finance
- Mr. Will Bush, Director, Department of General Services
- Mr. Jack O'Connell, Superintendent of Public Instruction
- Ms. Rosario Girard, Governor's Appointee
- Senator Bob Margett
- Senator Jack Scott
- Senator Joe Simitian
- Assembly Member Gene Mullin
- Assembly Member Jean Fuller
- Assembly Member Kevin de León

The current SAB officers are:

- Rob Cook, Executive Officer
- Lori Morgan, Deputy Executive Officer
- Mavonne Garrity, Assistant Executive Officer

SAB Implementation Committee

The SAB Implementation Committee is an informal advisory body established by the SAB to assist the SAB and the OPSC with policy and legislation implementation. The committee membership is comprised of organizations representing the school facilities community which meets approximately once a month depending upon the workload. The SAB Assistant Executive Officer is the chair of the committee. Committee membership, as well as the time and location of future meetings, can be found on the OPSC Web site at www.opsc.dgs.ca.gov.

Office of Public School Construction

OPSC Mission:
"As staff to the State Allocation Board, the Office of Public School Construction facilitates the processing of school applications and makes funding available to qualifying school districts. These actions enable school districts to build safe and adequate school facilities for their children in an expeditious and cost-effective manner."

The OPSC serves the 1,000 plus K–12 public school districts in California. As staff to the SAB, the OPSC is responsible for allocating State funding for eligible new construction and modernization projects to provide safe and adequate facilities for California public school children. The OPSC is also responsible for the management of these funds and the expenditures made with them. It is also incumbent on the OPSC to prepare regulations, policies, and procedures for approval by the SAB that carry out the mandates of the law.

OPSC Responsibilities

The OPSC is charged with the responsibility of verifying that all applicant school districts meet specific criteria based on the type of eligibility or funding which is being requested and to work with school districts to assist them throughout the application process. The OPSC ensures that funds are allocated properly and in accordance with the law and decisions made by the SAB. Since November of 1998, the OPSC has processed over $28.8 billion in State apportionments to the SAB. The programs, funding, and approvals over that period are shown in Appendix 5, "Summary of Bond and Deferred Maintenance Allocations."

The OPSC prepares agendas for the SAB meetings. These agendas keep the SAB members, districts, staff, and other interested parties apprised of all actions taken by the SAB. The agenda serves as the underlying source document used by the State Controller's Office for the appropriate release of funds. The agenda further provides a historical record of all SAB decisions, and is used by school districts, facilities planners, architects, consultants, and others wishing to track the progress of specific projects, the availability of funds, and SAB regulations.

Helpful Hint:
The Directory of Services provides information regarding project manager county assignments, including telephone numbers and other contact information.

Management of the Office of Public School Construction

The OPSC is directed by an Executive Officer who is appointed by the Governor. The appointee also serves as the Executive Officer to the SAB. A Deputy Executive Officer is selected by the Executive Officer subject to the approval of the Director of General Services. The Deputy oversees the daily operation of the office. An Assistant Executive Officer is appointed by the SAB. Although not technically a member of the OPSC management, the Assistant Executive Officer works directly with the OPSC management team and acts as liaison between the SAB and the OPSC.

Other Agencies Involved

School districts planning to construct or modernize existing schools require the assistance of several local, State, and federal agencies. It is essential that those dealing with the school construction process have an understanding of the role each agency plays. The three primary State agencies that will be referred to in this guidebook, in addition to the SAB and the OPSC, are the Division of the State Architect (DSA), the California Department of Education (CDE) School Facilities Planning Division (SFPD), and the Department of Toxic Substances Control (DTSC). District representatives may also come into contact with many other agencies. A listing of some of the agencies that might be involved in a school project and their role is provided in Appendix 2, "Potential State Agency Involvement".

The agency information provided in this section is meant as a tool for school district representatives to become familiar with the primary State agencies involved in the school construction process. The OPSC encourages district representatives to contact each agency to obtain more information about their procedures and processes. To contact the agencies listed below, please see Appendix 1, "State Agency Contact Information."

Department of General Services, Division of the State Architect

The primary role of the DSA in the school construction process is to review plans and specifications to ensure that they comply with California's building codes, with an emphasis on structural and seismic safety. The review commences when the school district's architect submits working drawings to the DSA. The DSA reviews the working drawings to assure that the proposed structures meet codes and requirements for structure (seismic), fire and life safety, and universal design compliance.

DSA approval of all plans and specifications is required prior to a construction contract being signed for new construction, modernization or alteration of any school building for which a district is seeking State funding. The only exception to this requirement is for relocatable buildings, for which districts may enter into a contract to acquire the plans and specifications; however construction cannot commence until DSA approval has been obtained. The date of the DSA approval letter, not the DSA stamp, is considered a valid approval. Please refer to the Education Code, Section 17072.30, for further information.

California Department of Education, School Facilities Planning Division

The role of the SFPD is to review and approve school district sites and construction plans. The SFPD review begins when a school district plans to acquire a new school construction site. Prior to approving a site for school purposes, the SFPD reviews many factors, including, but not limited to, environmental hazards, proximity to airports, freeways, and power transmission lines. The review of construction plans by the SFPD focuses mainly on the educational adequacy of the proposed facility and whether the needs of students and faculty will be met. See Section 3, "Project Development Activities."

Department of Toxic Substances Control

The role of the DTSC in the school construction process begins with the SFPD's site approval process. The DTSC will assist the district with an assessment of any possible contamination, and, if necessary, with the development and implementation of a mitigation plan.

Department of Industrial Relations

The role of DIR in the school construction process is to enforce labor laws relating to contractors and employers.

The Labor Code[1] requires, prior to receiving a SFP fund release, a district to make a certification that a labor compliance program (LCP), that has been approved by the DIR, for the project apportioned under the SFP has been initiated and enforced if both of the following conditions exist:

- The district has a project which received an apportionment from the funding provided in Proposition 47[2] or Proposition 55; and,
- The construction phase of the project commences on or after April 1, 2003, as signified by the date of the Notice to Proceed.

The DIR provides a guidebook to assist districts in developing a LCP and has model LCPs available for view on its Web site at www.dir.ca.gov. The DIR also provides public works contract information regarding:

- LCP and the Labor Code
- Classification and Scope of Work
- Prevailing Wage Determination and Special Determination for a Specific Project
- Verification of the Status of an Individual Apprentice or an Apprenticeship Program

Questions regarding these matters and LCP approval may be directed to DIR at 415.703.4810.

Section 3

Project Development Activities

Introduction

The School Facility Program (SFP) provides funding to projects that are essentially through the design phase and are ready to begin construction. With the exception of certain advanced planning and site applications for financial or environmental hardship situations, applications for funding require plans approved by the Division of the State Architect (DSA) and by the California Department of Education (CDE). Applications for new construction funding may also require CDE approval of the project site. In most cases, a great deal of time, money, and effort has already been expended before the project ever reaches the Office of Public School Construction (OPSC). Most of the tasks involved in this section are not a part of the SFP and are not under the jurisdiction of the State Allocation Board (SAB). However, it is important that the district representative is aware of the options and requirements that may affect the district's project.

Establishing Eligibility

One of the first steps a district should consider in the school construction process is establishing eligibility for SFP funding on either a district-wide or high school attendance area basis. This will provide the district with the information needed to determine the possibility and scope of State funding assistance, the types of facilities needed, and the appropriate project site size. See Section 4, "Application for Eligibility" for more information about establishing eligibility.

Selecting Professional Services

The SFP grants include funding for many professional services related to the development of the school project. Some of the most obvious and commonly used services are provided by architects, civil and structural engineers, and construction managers. Under law, these professional services are different than the services provided by general contractors, painters, site grading subcontractors, and similar construction related work. Unlike construction contracts, professional service contracts are obtained through a qualifications-based selection process rather than a competitive bid process.

Because the design professional or other service provider will be engaged long before the application for project funding is submitted to the OPSC, it is critical district representatives are aware that professional services used on projects funded through the SFP must be obtained by a competitive selection process. Failure to do so can jeopardize the project funding.

The Competitive Selection Process

The SFP requires that applicant districts certify that contracts for the services of any architect, structural engineer, or other design professional that were entered into on or after November 4, 1998 for work on the

project were obtained through a competitive process. The term competitive does not mean that the selection has been bid, but rather that a formal qualifications-based selection process has occurred that resulted in the professional services contract.[1]

Neither the SAB nor the OPSC is qualified to interpret the Government Code requirements pertaining to the selection of professional services. The district is advised to seek legal counsel assistance to ensure that the process used fully complies with this requirement as well as other legal requirements[2] such as Disabled Veterans Business Enterprise requirements, and the Public Contract Code.

Eventually, the district will be required to certify that professional design services on the project were selected using a competitive process. This certification is made on the *Application for Funding* (Form SAB 50-04).

Compliance

The competitive selection requirement applies to a new construction or modernization project if:

- it is funded under the SFP, and
- professional services of an architect, structural engineer, or other design professional were used to complete the work in the project, and
- contracts for those services were signed on or after November 4, 1998.

Compliance with this requirement is very important. The law specifically mandates that the SAB shall not apportion funds to a district unless the competitive process for professional services has been used. If, during an audit at the project completion, it is determined that the competitive process was not used, the entire project grant could be found to have been attained illegally.

Districts that are unfamiliar with the process of hiring an architect should be aware that the American Institute of Architects (AIA) California Council has sample contracts available to assist districts. For more information, please contact the AIA at 916.448.9082.

Project Responsibilities

During the planning, design, and construction of a school facilities project, many individuals and firms come together to contribute to the project in specific ways. Unless responsibility is assigned by law, the decision about who should perform a given task generally rests with the district as owner. Frequently, however, the district may not be aware of the difference between the types of responsibilities, or even of the need to assign responsibilities and tasks related to the project. This lack of clarity may lead to a situation where a task is assigned to more than one individual or firm, creating a duplication of effort which can be wasteful and counterproductive.

As a result of this situation, a small working group was formed by the Joint Committee on School Facilities to address the issue. The Services Matrix is the result of the group's discussions (see Appendix 4, "Services Matrix"). District representatives may wish to consult the matrix to determine the responsibilities assigned to a project and to avoid duplication of effort.

Cost Reduction

Helpful Hint:
The SAB publication on cost reduction is available on the OPSC Web site.

The SAB has developed cost reduction guidelines to assist school districts in reducing project construction costs. In April 2000, the SAB made available the *Public School Construction Cost Reduction Guidelines*. The guidelines are a compilation of hundreds of ideas introduced and discussed at a series of statewide meetings. The input into these guidelines comes from various sources, such as school district representatives, State agencies, architects, building industry representatives, construction managers, and consultants. The guidelines provide districts with ideas and new methods to contain and reduce costs and to maximize the return on expenditures. Along with cost reduction guidelines, other incentives within the program, such as the retention of savings, exist to promote efficiency in design and construction of school facility projects. (See Section 13, "Additional SFP Requirements and Features" for more information on project savings.) The *Public School Construction Cost Reduction Guidelines* are accessible on the OPSC Web site at www.opsc.dgs.ca.gov.

Design with Flexibility in Mind

The SAB approval is based on the plans and specifications that accompany the *Application for Funding* (Form SAB 50-04) and is full and final. Therefore, it is imperative that the apportionment is used for the scope of work contained in that specific set of plans.

When it comes to classrooms and minimum essential facilities (MEF), meaning libraries, gymnasiums, multi-purpose rooms, and toilets which are necessary and support the traditional classroom environment, there are limited circumstances where a project may deviate from the scope of work outlined in the plans that were included with the application and approved by the SAB (see "Change of Scope," in Section 13, "Additional SFP Requirements and Features," for more information on this topic). Because of this, it is extremely important to structure bids with flexibility so that projects can be modified in the face of positive or negative fluctuations in the bid climate or costs of materials. By including additive and deductive alternates in your plans and specifications, you will be able to handle both situations within the budget provided for your SFP project in a way that is consistent with SAB law and regulation.

Joint-Use Projects

The language in the law which creates the SFP requires that the applicant school district consider the joint use of core facilities. The SAB's *Public School Construction Cost Reduction Guidelines* contains a number of suggestions as to how a district might investigate such joint use possibilities. Grants received under the new construction program may be used to fund school facilities related joint-use projects. Typical joint-use projects include multi-purpose rooms, libraries, gymnasiums, or any other type of facilities that can be used by both the district and the community.

Propositions 55 and 1D provide funding for joint-use projects, specific criteria to access this funding was included in AB16 (Hertzberg) (see Section 8, "Joint-Use Projects" for more information).

Reusable Plans

The SFP requires the SAB to develop recommendations regarding the use of cost-effective, efficient, and reusable facility plans. Many districts have found that reusing some part or all of a school plan previously constructed in the district or in another district can lead to efficiencies in both the time required to prepare construction plans and the cost of constructing the facility. Such plan reuse is not always feasible, and, even when possible, may require considerable redesign work for the new site; however, in many circumstances the advantages can be significant.

To assist districts with exploring the feasibility of plan reuse for their new construction project, the SAB and the OPSC have developed an Internet-based "catalog" of plans that can be searched and browsed by anyone. The link on the OPSC Web site "Prototype School Designs," contains floor plans, renderings, and vital statistics for a number of projects ranging from complete schools to single classrooms and support buildings. Districts are encouraged to download information on any of the projects on the OPSC Web site without charge. Districts may then contact the architects responsible for the original projects to pursue adaptation of the facilities to their individual needs. Arrangements for use of the plans are made by the district with the design professional. Of course, all plans on the OPSC Web site are copyrighted by the designers or firms that submitted them. The SAB and OPSC do not participate in any way, except as a clearinghouse for plans of school facilities.

Project Financing

A district has several different options available to meet its 50 percent funding requirement for new construction and 40 percent funding requirement for modernization projects. Some financing mechanisms the district may consider are:

- General obligation bond funds
- Mello-Roos
- Developer fees
- Proceeds from the sale of surplus property
- Federal grants

Once a district has received a SFP apportionment and is ready for funds to be released on a project, they will need to certify on the *Fund Release Authorization* (Form SAB 50-05) that their contribution to the project has already been expended, is on deposit, or will be expended prior to the notice of completion for the project. (See Section 13, "Additional SFP Requirements and Features" for more information on the fund release process.)

Site Selection

The SFP provides that in addition to the basic grant for a new construction project, the district may also receive up to 50 percent of the cost of site acquisition (see Section 5, "New Construction Funding" or Section 10, "Financial Hardship"). In most cases, the district must have completed the process of identifying the site and must have approval of the site by the CDE prior to applying for site acquisition funding. Some separate site applications for financial or environmental hardships do not need this approval at the time of application. See further discussion under those topics in Section 5, "New Construction Funding". The identification and approval process falls under the jurisdiction and responsibility of agencies other than the SAB and the OPSC, and is therefore outside the scope of this guidebook. However, because the processes required can be a major factor in a timely application submittal for project funding, district representatives should be aware of some of the basic requirements for site selection as follows:

Identifying a Site

Selecting a site for a new construction project to be funded under the SFP is primarily a local process. The SAB has guidelines and regulations relating only to the funding limits related to site acquisition[3]. The CDE is given the authority in law to develop standards for school site acquisition related to the educational merit and the health and safety issues of the site. The CDE uses these standards to review a site and to determine if the site is an appropriate location for a school facility. The CDE approval is a requirement before the application for funding can be submitted to the OPSC and subsequently to the SAB for funding.

Site Approval

There are many components that make up the review and approval of a proposed school site. The CDE publication, *School Site Selection and Approval Guide*, addresses these components more completely than this guidebook can. Therefore, the district representative considering an application for a site under the SFP should consult the CDE or their publications. Contact information can be found in Appendix 1, "State Agency Contact Information."

Section 4

Application for Eligibility

Introduction

The School Facility Program (SFP) provides State funding assistance for two major types of facilities construction projects: new construction and modernization. The process for accessing the State assistance for this funding is divided into two steps: an application for eligibility and an application for funding. Applications for eligibility are approved by the State Allocation Board (SAB) and this approval establishes that a school district or county office of education meets the criteria under law to receive assistance for new construction or modernization. Eligibility applications do not result in State funding. In order to receive the funding for an eligible project, the district representative must file a funding application with the Office of Public School Construction (OPSC) for approval by the SAB. See Section 5, "New Construction Funding" and Section 9, "Modernization Funding" for information on submitting applications for funding.

Helpful Hint:
Applications for eligibility may be filed in advance of applications for funding.

Applications for eligibility may be filed in advance of an application for funding, or the eligibility and funding requests may be filed concurrently at the preference of the district. In either case, an application for eligibility is the first step toward funding assistance through the SFP. The process must be done only once. Thereafter, the district need only update the eligibility information if additional new construction and modernization funding applications are submitted.

After the application for eligibility is reviewed by the OPSC, it is presented to the SAB for approval. The SAB's action establishes that the district has met the criteria set forth in law and regulation to receive State funding assistance for the construction of new facilities or the modernization of existing facilities. Throughout this section, references to the district also include a county office of education unless otherwise noted.

The discussions in this section are intended to describe the basic processes a district will encounter and use for establishing eligibility. Every possible situation cannot be dealt with in this overview. When preparing an application, the district representative should always contact the OPSC project manager to be sure that the district's approach is correct and will result in the most eligibility possible for State assistance. To learn more about the SFP, visit the OPSC Web site at www.opsc.dgs.ca.gov.

New Construction Eligibility

The underlying concept behind eligibility for new construction is straightforward. A district must demonstrate that existing seating capacity is insufficient to house the pupils existing and anticipated in the district using a five-year projection of enrollment. Once the new construction eligibility is determined, a "baseline" is created that remains in place as the basis of all future applications. The baseline is adjusted for changes in enrollment and for facilities added, and may be adjusted for other factors such as errors and omissions or amendments to the SFP Regulations. For a complete list of adjustments, refer to SFP Regulations, Section 1859.51. Except for these updates, the establishment of the eligibility baseline is a one-time process.

Establishing Eligibility on a District-Wide or High School Attendance Area Basis

Districts generally establish eligibility for new construction funding on a district-wide basis. For most districts this is the most beneficial method, and the vast majority of applications are filed in this manner. However, under certain circumstances, the district may have more eligibility if the applications are made on a High School Attendance Area (HSAA) basis using one or several attendance areas. This circumstance occurs when the building capacity in one HSAA prevents another from receiving maximum eligibility. For example, one attendance area may have surplus classroom capacity while another does not have the needed seats to meet the current and projected student enrollment. If the district were to file on a district-wide basis, there might be little or no overall eligibility, even though the students in one attendance are "unhoused" by the definitions established in the SFP. In this case, by filing on a HSAA, the eligibility would increase to allow construction of adequate facilities for the unhoused students.

The district may file using one high school attendance area, or at the district's option, it may combine two or more adjacent HSAAs, commonly called a "Super Attendance Area." In either case, the attendance areas must serve an existing, operating high school, and the district must demonstrate that at least one HSAA has negative eligibility at any grade level. Continuation or proposed high schools may not be used for this purpose. Once a district receives funding using a high school attendance area as the basis of its eligibility, it must continue to file future new construction applications on that basis for five years.

Eligibility Process

The SAB has adopted three forms to assist districts in collecting the information needed to establish eligibility. The following table outlines the three-step process a district uses to establish new construction eligibility:

Process for Establishing New Construction Eligibility

STEP	DOCUMENTATION	PURPOSE
1	Enrollment Certification/Projection Form SAB 50-01	Used to collect information about the district's current and historical enrollment and to project that data five years into the future.
2	Existing School Building Capacity Form SAB 50-02	Used to record all the teaching stations in the district that are adequate to house students.
3	Eligibility Determination Form SAB 50-03	Used to compare the information from the first two forms and to determine if the district is eligible for new construction or modernization grants.

The forms referred to in the table can be downloaded from the OPSC Web site at www.opsc.dgs.ca.gov in a format that allows them to be printed as blank forms or completed on the computer and printed for submission to the OPSC. An Excel spreadsheet titled *SAB 50-01, 02, 03 Combined Excel Worksheets* is also available on the OPSC Web site that will perform all the required calculations.

Step One—Enrollment Projections

It may take several years to take a new construction project from the initial determination of need to final completion of construction and occupancy. Because of this, the SFP provides a *projection* of enrollment five years into the future to determine eligibility for funding. The *Enrollment Certification/Projection* (Form SAB 50-01) is used to make this projection. This form assists the district with determining future needs, planning, arranging State and local funding, and constructing the project before the children to be served arrive. The method of projecting enrollment into the future involves using current and historical California Basic Educational Data System (CBEDS) enrollment data for the district. The data collected is then projected into the future for five years using a method known as a Cohort Survival Projection. A district can obtain CBEDS data from the California Department of Education (CDE).

A district may file on a HSAA basis utilizing one or more HSAA. If the district chooses to file an application on this basis the current and three previous years enrollment data in the HSAA or HSAAs (see section on High School Attendance Areas in this section) will need to be included on the Form SAB 50-01.

Once the district enters the required current and historical enrollment figures, the projection is done automatically on the Excel version of this form.

Supplemental Enrollment Figures. A district may supplement the cohort survival enrollment projection by the number of un-housed pupils that are anticipated as a result of dwelling units proposed to be built in the district or HSAA pursuant to approved and valid tentative subdivision maps. Essentially, districts that are experiencing unusual residential growth can factor in these additional students into the enrollment projection.

Helpful Hints:

- Make sure the maps being used are tentative tract maps, final maps or parcel maps (parcel maps can be used only for either apartment or condominium projects).
- Work closely with your local planning commission to ensure the maps are approved and valid.
- When reporting dwelling units on the Form SAB 50-01, be sure to reduce the number of proposed dwelling units by the number of homes that have been occupied or have had construction permits pulled that are twelve months or older from the date the permit was pulled.
- Use the dwelling unit spreadsheet provided on the OPSC Web site to ensure timely processing of the district's application.
- If you are unsure if you can include a tract map, or you have other evidence of approval not previously mentioned, please contact your Project Manager.

What is an Approved and Valid Tentative Subdivision Map? California State law provides a framework by which city or county planning authorities process residential development projects. Typically, this process begins at the Specific Map stage, then proceeds to the Tentative Tract Map stage and concludes at the Final Map stage. The OPSC recognizes that each city or county planning authority process may not entirely follow this process. However, State law requires a tentative subdivision map be approved and valid at the time of submittal for the purposes of augmenting the enrollment projection. The SAB and the OPSC will permit the use of the following maps to augment enrollment projections:

- » Tentative Tract Map
- » Final Map
- » Parcel Map—only when the construction involves an apartment complex or condominium building.
- » Other tract maps will be reviewed on a case-by-case basis.

Submittal Requirements. In order for districts to account for the additional students that will reside in new subdivisions represented by the maps listed above, a district will need to submit a Form SAB 50-01 and report the number of dwelling units to be constructed in the approved proposed subdivision. Additionally, the district must provide the approval dates of the maps by the local planning commission or approval authority; the number of dwelling units to be built in the subdivision; and one of the following:

- » an acceptable map with the local planning commission or approval authority stamp approving the map; or,
- » an acceptable map with the appropriate supporting documentation; or,
- » a spreadsheet listing all of the subdivisions reported on the Form SAB 50-01 with the appropriate supporting documentation.

When submitting supporting documentation it must include one of the following:

- » local planning commission or approval authority meeting minutes detailing the approval of the map; or,
- » a letter from the local planning commission or approval authority indicating that the tract map is approved and valid at the time of the submittal; or,
- » any other reasonable documentation from the local planning commission or approval authority that indicates the tract map is approved and valid.

The OPSC recognizes that local processes vary from county to county, thus the information provided from each planning authority varies. Districts still need to be aware that by signing the Form SAB 50-01, the district representative is certifying that the information provided meets the criteria set forth by law and regulation. If there is any confusion about the information provided by the planning authority, districts are encouraged to work with their project manager.

A yield factor from the various types of housing in the subdivision may be used to supplement the enrollment projection. As an alternative, the district may accept a state-wide average yield factor for calculation purposes. This factor is specified in the instructions on the Form SAB 50-01. Should the district wish to

use its own student yield factors, a copy of the district's study that justifies the student yield factors must be submitted with the Form SAB 50-01. The district's study should determine the elementary, middle and high school pupils generated by new residential units, in each category of pupils enrolled in the district. This study should be based on the historical student generation rates of new residential units constructed during the previous five years that are of a similar type of unit to those anticipated to be constructed in which the school district is located.

A supplement to the enrollment projection for proposed housing units is not available for county superintendent applications.

Small districts with current enrollment of less than 300 should be aware that they have an option for reporting their enrollment differently if it has decreased by more than 50 percent from the previous year enrollment. (For more information on using this option please refer to the Form SAB 50-01, Part A.)

Step Two—Existing School Building Capacity

The second part in determining the district's eligibility for new construction assistance is to document the capacity of the school district at the time the first application for eligibility is filed under the SFP. This capacity calculation is done only once. Districts may file capacity information on a district-wide basis or using a HSAA.

The Calculation of Capacity. The *Existing School Building Capacity* (Form SAB 50-02) is used to capture the information needed for the calculations, and the accompanying instructions give a detailed guide of how to complete the form. The Form SAB 50-02 is essentially a record of all the district's facilities. The SFP Regulations provide instructions on what spaces are to be included or excluded in the calculation of the district capacity.[1] It is important to understand that any project funded with local sources must be counted as existing capacity if the contract for construction of the project is signed before the original application for eligibility determination is made. There is an exception provided for projects if the contracts were signed between August 27, 1998 and November 18, 1998, and if the project did not have eligibility under the Lease-Purchase Program (LPP).

The process of calculating the districts' existing school building capacity is as follows:

1. The district completes a gross inventory of all spaces constructed or reconstructed to serve as an area to provide pupil instruction. The grade level of each classroom is also identified.
2. The gross inventory is adjusted by excluding certain spaces that are not considered available teaching stations under law or regulation. The classrooms remaining in the inventory are multiplied by a loading factor of 25 for elementary, 27 for middle and high school, 13 for non-severe, and 9 for severe classrooms to determine the pupil capacity.
3. A final calculation is done to increase the capacity by a specified amount if the district does not have a substantial number of students enrolled in multi-track year-round education. High school districts are not subject to this adjustment. The district may request a waiver from this adjustment from the CDE, School Facilities Planning Division.
4. A last adjustment occurs for those districts that receive Multi-Track Year-Round Education Operational Grants from the CDE. This increases the district capacity and reduces the final eligibility for the district in a number equivalent to the operational grants the district has most recently received from the CDE.

On-Site Reviews. The district must submit records of the teaching stations existing in the district or HSAA as part of the inventory process. These records generally consist of the following:

[1] SFP Regulations, Section 1859.30, "Gross Classroom Inventory."

» Diagrams of the facilities at each site in the district. These diagrams need not be highly detailed, but must include all permanent and relocatable classrooms at the site. Many districts use simple "fire-drill" maps for this purpose. The diagrams must be submitted with the application.
» Documentation supporting any exclusion claimed from the gross inventory. For instance, if the district claims that a portable is excluded because it has been leased for less than five years, a copy of the lease must be in the district's possession as supporting documentation.

Helpful Hints:
All of the OPSC worksheets are available on the OPSC Web site.

The district may wish to use an OPSC Site Analysis Worksheet to assist with recording all the classrooms in the gross inventory as well as recording the reasons for exclusions, if any. This document is not mandatory but may make the inventory process easier. It also streamlines the OPSC review of the eligibility application.

Step Three—Determining Eligibility

The last part in the new construction eligibility determination process is done on the *Eligibility Determination* (Form SAB 50-03). The existing school building capacity calculated in step two is subtracted from the enrollment projection determined in step one. The number of pupils left, if any, are considered "unhoused" for the purposes of the SFP. They represent the district's eligibility for new construction grant entitlement.

Eligibility Application Approval. Once the district has completed steps one through three, they are ready to submit the eligibility application package. The OPSC will conduct a preliminary review of the package to ensure that it is complete prior to adding the application to the workload list. A more detailed review will be completed prior to presentation to the SAB that may include an on-site visit to review the information included in the site diagrams. When the review is complete and the OPSC has validated the eligibility calculations, an item is presented to the SAB for consideration of approval.

In some cases, the OPSC may find that an application lacks required information. If this is the case, the district is asked to provide the needed information within a specified time. If the district is unable to comply, the application may be returned unprocessed. If this occurs, the district may resubmit the application at any time after the needed information is available.

Districts should review the SFP Application Submittal Requirements worksheet, located on the OPSC Web site, to ensure all required information is included with their application.

Alternative Enrollment Projection—AB 491, Chapter 710, Statutes of 2005 (Goldberg)

The most recent amendment to the SFP Regulations includes a provision for Alternative Enrollment Projections that can be used to supplement regular new construction eligibility determined by the Cohort Survival Projection. At the January 2006 meeting, the SAB approved the regulatory amendments and directed the OPSC to request approval of regulations from the Office of Administrative Law on an emergency basis.

This additional provision is available for school districts with two or more school sites each with a pupil population density greater than 115 pupils per acre for K–6 pupils and 90 pupils per acre for 7–12 grade pupils based on the 2004–05 school year enrollment. In addition, an applicant school district must demonstrate that it cannot meet its housing needs at the impacted school sites, after considering all existing eligibility mechanisms available from the Cohort Survival Projection.

School districts that meet the above criteria may submit a request for review of the Alternative Enrollment Projection method to the OPSC. Districts should conduct the projection in a way that best represents growth patterns of each district, and can use various data including, but not limited to, birth rates and census data. The request must include the minimum components described in SFP Regulations, Section 1859.40(b). Due to the complexity of the data that may be submitted, the law requires the Demographic Research Unit (DRU) of the Department of Finance to jointly review the Alternative Enrollment Projection methodologies with the OPSC.

Once the OPSC and the DRU approve the Alternative Enrollment Projection method, the OPSC will calculate the additional eligibility available to the district. Additional eligibility will be the difference between the Alternative Enrollment Projection and the cohort eligibility for the same enrollment reporting period, adjusted by the existing pupil capacity in excess of the projected enrollment according to the Cohort Survival Projection. In other words, alternative enrollment projection must offset any negative new construction eligibility determined under the "regular" method.

Once additional eligibility is determined, the district can utilize this eligibility on new construction projects that will relieve overcrowding, including but not limited to, the elimination of use of Concept 6 calendars, four track year-round calendars, or bussing in excess of 40 minutes. School districts may file new construction funding applications that utilize "regular" new construction eligibility as well as eligibility gained from the Alternative Enrollment Projection. The law provides up to $500 million from the remaining Proposition 55 new construction bond funds for projects that utilize Alternative Enrollment Projection eligibility.

Modernization Eligibility

Establishing eligibility for modernization in the SFP is more simplified than new construction. Applications are submitted on a site by site basis, rather than district-wide or HSAA, as is the case for new construction. To be eligible, a permanent building must be at least 25 years old and a relocatable building must be at least 20 years old. For purposes of determining the age of the building, the 20 year and the 25 year period shall begin 12 months after the plans for the building were approved by the Division of State Architect. In either case, the facility must not have been previously modernized with State funding. The district must also show that there are pupils assigned to the site who will use the facilities to be modernized. If the facility is currently unused, such as a closed school, it may also be eligible for modernization funding if the district intends to reopen it and assign students immediately.

Application Process

The SAB has adopted a single form to calculate modernization eligibility, the Form SAB 50-03. This is the same form used for new construction applications. It may be downloaded from the OPSC Web site in a format that allows it to be printed as a blank form or completed on a computer and printed for submission to the OPSC. In order to complete the Form SAB 50-03, the district representative will need a completed site diagram for the applicable school which contains the following information:

- The number of permanent classrooms.
- The number of portable classrooms.
- The ages of all permanent and portable classrooms.
- The grade level of each classroom, i.e., K–6, 7–8, 9–12, non-severe, or severe.
- The square footage for each enclosed facility on the site may be necessary (see paragraph below and the instructions on the Form SAB 50-03 for more information).

The instructions on the Form SAB 50-03 will guide the district through the process of calculating the eligibility at that site for modernization. If all the buildings are over 25/20 years old for permanent/relocatable buildings respectively and eligible for modernization, the grant eligibility is simply the number of children that are or can be housed at a site, whichever is less. However, for cases where there is a mixture of classrooms that are under and over the modernization age limits, two optional calculation methods are provided. One option is to count those facilities that are over the age requirement and the children that can be housed in them. The second option is to develop a ratio based on either the square footage or the number of classrooms by comparing the square footage of overage to underage buildings or the number of

overage to underage classrooms on the site. The ratio is then applied to the number of children enrolled at the site. If the district selects the option using a ratio of square footage, it will be necessary to provide the square footage information on the site diagrams as well.

Helpful Hints:
Did you know that the OPSC provides the current workload list on its Web site?

Eligibility Application Approval

Once the district has completed part three of the Form SAB 50-03, they are ready to submit the modernization eligibility application package. The OPSC will conduct a preliminary review of the package to ensure that it is complete before adding it to the workload list. A more detailed review will then be completed that may include an on-site visit to review the information included on the site diagrams. When the review is complete and the OPSC has validated the eligibility calculations, an item is presented to the SAB for consideration of approval.

In some cases, the OPSC may find that an application lacks required information. If this is the case, the district is asked to provide the needed information within a specified time. If the district is unable to comply, the application may be returned unprocessed. If this occurs, the district may resubmit the application at any time after the needed information is available. When the application is resubmitted it will be added to the workload list with the new receipt date.

Districts should review the SFP Application Submittal Requirements worksheet, located on the OPSC Web site, to ensure all required information is included with their application.

This page is intentionally blank.

Section 5

New Construction Funding

Introduction

After a district has established eligibility for a project as described in Section 4, the district may request funding for the design and construction of the facility. In most circumstances, the funding is approved after the district has acquired or identified a site for the project and after the plans for construction are approved by the Division of the State Architect (DSA) and the California Department of Education (CDE). The request for funding must be submitted prior to occupancy of any classroom in the construction contract for the project.

The funding for new construction projects is provided in the form of grants. The grants are made up of a new construction grant (pupil grant) and a number of supplemental grants. A brief description follows:

New Construction Grant. The new construction grant is intended to fund design, construction, testing, inspection, furniture and equipment, and other costs closely related to the actual construction of the school buildings. This amount is specified in law based on the grade level of the pupils served.

Supplemental Grants. Supplemental grants are special grants intended to recognize unique types of projects, geographic locations, and special project needs. These grants are based on formulas set forth in the School Facility Program (SFP) Regulations. There are many possible supplemental grants. All of them are discussed later in this section. Two of the most common are:

- Site Acquisition Grant—Funding for site purchase, relocation, escrow, and certain other site acquisition related costs.
- Site Development Grant—The cost related to preparing a site for construction, including grading and drainage. This grant also includes funding for certain off-site development items such as sidewalks, curbs and gutters, streets, and related improvements. General site work, such as onsite driveways, curbs and gutters, and parking are also allowable for new school projects and additions to existing school sites when additional acreage is acquired.

Each new construction project is reviewed and appropriate grants are applied by the Office of Public School Construction (OPSC). All new construction grants are matched equally by the district with local funding sources. In some cases, districts unable to contribute some or all of the local match may be eligible for financial hardship assistance. A district that intends to request financial hardship assistance, must obtain financial hardship status prior to submitting an application for funding. See Section 10, "Financial Hardship" for more information on this subject. Once the grants are determined for a project, a request is sent to the State Allocation Board (SAB) for a funding apportionment. After the apportionment is approved, the district may enter into a contract for the construction of the facility, if it has not already done so, and receive a release of the funds. To be eligible for funding, the new construction funding application must be submitted to the OPSC within 180 days of the district entering into a contract for construction of the facility.

In some cases, when a district has been approved for financial hardship assistance, the district may request a separate site or design apportionment. In this situation, the request may be made before plans are completed and approved by the DSA. Site and design funding is discussed later in this section. In addition, see Section 10, "Financial Hardship" for more information.

This section explains the funding application process, typical requirements, and how to determine the new construction grant amount. It is important to understand that the discussion in this section focuses on the most common situations. There are many variations that may apply to specific projects that can not be covered in this brief overview. As always, the district representative should meet with the OPSC project manager and discuss the district's plan in detail.

Available New Construction Funding

There are several types of funding requests that can be made under the new construction program. The district may request site and design apportionment separately when they meet Financial Hardship requirement or as a combined application when appropriate.

New Construction Adjusted Grant

A new construction adjusted grant is intended to provide the State's full share for all necessary project costs including the New Construction Grant (pupil grants), site acquisition, site utilities, off-site, and service site development. The new construction adjusted grant also includes applicable supplemental grants and adjustments as described later in this section. This grant is approved only after the site has been approved and the plans are also complete and fully approved.

Separate Design

Districts that qualify for financial hardship status may receive a separate apportionment for design costs. Design funding is intended to allow a district to hire an architect and prepare project plans for DSA approval. When the plans are complete and approved, the district may request the remaining new construction funding. The new construction adjusted grant will be reduced by the design apportionment previously made for the project.

Separate Site

Districts that qualify for financial hardship status may receive a separate apportionment for site acquisition. The site funding is intended to allow a district to acquire a site for the project. When the district is ready to request the remaining new construction funding, the new construction adjusted grant will be reduced by the site apportionment previously made for the project.

Separate Site—Environmental Hardship

If the Department of Toxic Substances Control (DTSC) certifies by letter that the time necessary to complete the remediation or removal of hazardous waste on the site to be acquired will exceed 180 days, the district may qualify as an environmental hardship. This means that the district is eligible for a separate apportionment for site acquisition, even though the district does not qualify as a financial hardship. More information is available in the SAB regulations and through the OPSC project manager.

Funding Process

After the district submits an eligibility application (see Section 4, "Application for Eligibility") the process of applying for funding is as follows:

- » the district submits a funding application package;
- » the OPSC reviews the package;
- » the SAB approves the apportionment;
- » the district requests a fund release and makes expenditures;
- » the district submits reports on expenditures;
- » the OPSC audits.

The application for new construction funding is made on a single form, the *Application for Funding* (Form SAB 50-04). The form serves as a vehicle to collect the information necessary to calculate the amount of grants applicable to the project, and also is a certification from the district regarding compliance with requirements of the law and the SFP Regulations. The district may submit the Form SAB 50-04 after the district has received approval by the CDE and the DSA of the proposed new construction project and the project site when applicable. In most cases, the district has determined its eligibility for new construction grants on the *Eligibility Determination* (Form SAB 50-03) before applying for funding. However, if the district has not established eligibility for the project previously, it may submit the eligibility package with the funding package.

The funding application is reviewed by the OPSC for completeness and placed on a statewide workload list in date received order. District representatives can view the workload list on the OPSC Web site at www.opsc.dgs.ca.gov. The applications for funding are then processed in date order for presentation to the SAB for consideration of an apportionment.

In some cases, the OPSC may find that an application lacks required information. The district is asked to provide the needed information within a specified time. If the district is unable to comply, the application may be returned unprocessed, and the district may resubmit the application at any time once the needed information is available.

When the SAB has no funds to apportion, the SAB will continue to accept and process applications based on the date the application is ready for apportionment. The applications will be placed on an unfunded list. An application for funding that is placed on an unfunded list is eligible for apportionment pending the availability of future funding. If the application is approved for a separate site apportionment for Environmental Hardship, the project will receive a date on the unfunded list based on the date the environmental hardship site apportionment was made for the project.

Preparing an Application

A complete application package is an essential element of the process of receiving funding for the district's projects. The information provided is the basis for determining the grant amounts that the district will receive. The following discussion outlines the major elements of a complete application for a new construction adjusted grant. Note that the same information is not necessary for all application types.

The complete application for new construction funding must be accepted by the OPSC prior to occupancy of any classroom in the construction contract for the project in order to be eligible for funding.

New construction and modernization funding applications require the Form SAB 50-04 and must be based on a previous eligibility approval or must have the eligibility application as a part of the package (see Sec-

tion 4, "Application for Eligibility"). Also, please note that districts requiring financial hardship assistance must receive that status before filing a funding application (see Section 10, "Financial Hardship" for further information). The table below delineates the supporting documents necessary for each type of new construction funding request.

New Construction Funding Required Documents

DOCUMENT	TYPE OF FUNDING			
	DESIGN ONLY	SITE ONLY	SITE AND DESIGN	CONSTRUCTION
Appraisal of property to be acquired when appropriate* (preliminary appraisal of property for separate site)		✖	✖	✖
Escrow closing statement or court order				✖
CDE approval of site* (contingent CDE approval of site for separate site)		✖	✖	✖
Final DSA plan approval				✖
CDE approval of plans				✖
Cost estimate for site development†				✖
Plan‡ and cost estimate for off-site development when funding is requested				✖

* If this document has been submitted previously, it need not be resubmitted.

† SFP Regulations, Section 1859.76, "Additional Grant for Site Development Costs."

‡ Plan must be approved by the local entity, see *Architectural Submittal Guidelines* for further information.

Helpful Hint:
When a district seeks SFP funding, the law stipulates that a district must hold title or an acceptable lease to all property acquired, constructed, or improved.

Application for Funding (Form SAB 50-04)

The Form SAB 50-04 serves as a vehicle for districts to request funding for design, site and/or construction for all new construction projects. The form provides the OPSC with specific project information to determine the new construction adjusted grant including, but not limited to the type of application; the grade level of the project; the number of pupils the project will house; whether or not a site is being acquired; and if any additional or supplemental grants are being requested. To complete the Form SAB 50-04 and to make the required certifications, the district representative will need at least the following supporting information:

Appraisal, Escrow Closing Statement, CDE Site Approval

An appraisal, escrow closing statement or court order, and CDE site approval letter are required if the application includes site purchase. If not, only the CDE approval letter may be required. The documents are described in detail under the heading "Site Acquisition" in the section titled "Supplemental Grants".

DSA-Approved Plans and Specifications

All new construction plans and specifications must be approved by the DSA. The DSA approval must be current and valid at the time of submittal of the application for funding to the OPSC. In addition, all final plans and specifications for new construction, modernization, or alteration of any school building for which the district is seeking State funding requires DSA approval prior to signing a construction contract. The DSA approval must be current and valid at the time of submittal of the application for funding to the OPSC. If a

district enters into a contract for construction prior to receiving DSA approval of the plans and specifications, the project may not be eligible for State funding. The date of the DSA approval letter, not the DSA stamp, is considered a valid approval. For more information, please refer to Education Code, Section 17072.30.

- As of October 2005, all funding applications must be accompanied by the DSA Final Plan Approval Letter.
- Plans should include all work eligible for funding through SFP and should be approved by DSA. If plans are submitted in AutoCAD format, a copy of DSA approval letter is required.
- Plans to be submitted include those for Site, Civil, City/County Street Development, Architectural (along with portable facilities), Structural, Electrical, Plumbing, Mechanical, and Landscape.
- New plans will not be accepted during the review process once OPSC acknowledged the School District Project Application as a complete package.

Cost Estimate for Site Development

A detailed cost estimate is required if the district is requesting additional grants for site development in its new construction funding application. For more information, please refer to the heading "Site Development" in the section titled "Supplemental Grants", discussed later in this section.

District Certifications

As previously mentioned, the Form SAB 50-04 is also an official certification to a number of SFP requirements. The form and the instructions to the form provide specific detail about the certifications; however, some of the issues to which the district representative will have to certify are as follows:

- The district has established a "Restricted Maintenance Account" (see Section 13, "Additional SFP Requirements and Features" for more information).
- Contracts for the services of an architect, structural engineer, or other design professional which were signed after November 4, 1998 were obtained pursuant to a qualifications based competitive process (see Section 3, "Project Development Activities").
- The district will fund their share of the project.
- If this request is for a large new construction or a large modernization project, the district has consulted with the career technical advisory committee established pursuant to Education Code, Section 8070, and it has considered the need for vocational and career technical facilities to adequately meet its program needs in accordance with Education Code, Sections 51224, 51225.3(b) and 52336.1.
- All large new construction funding applications for comprehensive high schools must be accompanied by evidence of compliance with Education Code, Section 17070.95. Documentation may include any of the following:
  - *Minutes from a public meeting by the school district's governing board documenting the discussion with and the recommendations of the local CTEAC regarding the CTE facility needs assessment.*
  - *Minutes from the meeting with the local CTEAC regarding the CTE facility needs assessment and recommendations.*
  - *Letter from the local CTEAC to the school district that identifies the subject of the discussion, the CTE facility needs assessment, and recommendations.*
- If the district is requesting an Additional Grant for Energy Efficiency pursuant to SFP Regulations, Sections 1859.71.3 or 1859.78.5, the increased costs for the energy efficiency components in the project exceeds the amount of funding otherwise available to the district.
- The district has or will initiate and enforce a Labor Compliance Program that has been approved by the Department of Industrial Relations, pursuant to Labor Code, Section 1771.7, if the project is funded from Proposition 47 or 55 and the Notice to Proceed for the construction phase of the project will be issued on or after April 1, 2003.
- Beginning with the 2005/2006 fiscal year, the district has complied with Education Code, Section 17070.75(e), by establishing a facilities inspection system to ensure that each of its schools is maintained in good repair (see Section 13, "Additional SFP Requirements and Features" for more information).

Finally, to reduce the need to submit extensive supporting documentation, the OPSC will ask that the architect of record or other design professional certify to the following:

» The date that the DSA approved the plans and specifications.
» That the cost estimate as submitted to the DSA for the work in the plans and specifications is at least 60 percent of the total grant provided by the total State and district matching share excluding any site acquisition costs provided.

CDE Approval of Final Plans

The plans submitted to the OPSC must have the approval of the CDE. The final plan approval letter from CDE must accompany the funding application.

New Construction Grant Amounts

The SFP was designed as a per-pupil grant program where each pupil, depending on the grade level, would receive a specific dollar amount. The new construction adjusted grant, at minimum, will consist of the new construction grant, which is prescribed in law relative to the grade level of the pupils. The grant can be increased by certain supplemental grants for which the district may be eligible. The following are the types of grants:

» New Construction Grant (pupil grants)
» Supplemental Grants

New Construction Grant

The new construction grant is intended to provide the State's share for necessary project costs including, but not limited to, funding for design, costs related to the approval of the plans and specifications by all required agencies, the construction of the buildings, general site development, educational technology, unconventional energy, change orders, tests, inspections, and furniture and equipment. The new construction grant does not provide for site acquisition, site utilities, off-site, and service site development as these costs vary due to location, size, topography, etc. The OPSC will review and determine these costs on a case-by-case basis, as discussed later in this section.

The new construction grant is based on the number of pupils in the project. There are a number of ways that the district can determine how many pupils will be assigned to a project, and therefore what the new construction grant will be. The most obvious way is by first determining the grade level of the project and then the number of classrooms to be included. Under the SFP, K–6 classrooms are loaded with 25 pupils, 7–12 classrooms are loaded with 27 pupils, severe classrooms are loaded with 9 pupils, and non-severe classrooms are loaded with 13 pupils. Assuming that the district has enough eligibility, it might decide to construct a ten-classroom addition along with bathrooms and other support facilities at an existing elementary school. The ten classrooms will house 250 children using the loading standards specified in the program. If the district has already established eligibility for at least that number of elementary students using the Form SAB 50-03, the district could request 250 grants for the project.

There may be a situation where the district may wish to ask for less grants than the classroom capacity of the project. For instance, the project described in the previous paragraph may be of relocatable construction and may be estimated to cost less than the amount of grants that would be generated by 250 students. The district may elect either of the following strategies:

» The district may reduce the grant request to fewer grants, yet still enough to completely fund the State share of the project. The advantage is that the district will retain the unused grants for a future project, perhaps at another site.
» The district may ask for all 250 grants, and use the grant amount not only to construct classrooms at the site, but also to construct other facility needs of the district at the site, such as administration, multi-purpose rooms, gymnasium, etc.
» The district may ask for all 250 grants, and use the savings from the project for other capital facilities projects in the district, provided the project is not receiving financial hardship assistance. The advantage to the district is that the project is built as planned, while other facilities needs are also met within the State funding for the original project. In this case, the district must ensure that the amount spent on the work in the plans and specifications for the original project equals at least 60 percent of the total State and local share of the project grants excluding any site acquisition costs provided. With this condition met, the district may use the savings on other district projects.

There are many variations on these approaches to determining grant amounts for a particular project. It is important that the district consult with the OPSC project manager to be sure that a specific approach is possible and within the guidelines of the law and regulations.

New Construction Grant Calculation

The new construction grant is determined by multiplying the pupils assigned to the project by the pupil grant established in law. The new construction grant is adjusted by the SAB annually (each January) based on the change in the Class B Construction Cost Index. The current amounts are as follows:

New Construction Basic Grant Amount

CLASSIFICATION	BASIC GRANT AMOUNT	COMMENTS
Elementary Pupil	$ 8,081	
Middle School Pupil	$ 8,546	Include grade six pupils if part of a 6–8 grade school.
High School Pupil	$10,873	
Special Day Class—Non-Severe	$16,095	
Special Day Class—Severe	$24,066	

The Special Day Class grant allowances are established at a level higher than basic new construction grant allowances as a means to cover building cost items such as enhanced or added electrical and plumbing fixtures, more accessible doors and grab bars, extra sinks, casework, restrooms, changing areas, living skills space and other facilities for students with exceptional needs.

Supplemental Grants

Supplemental grants are intended to recognize unique types of projects, geographic locations and special project needs. These grants are based on formulas set forth in the SFP Regulations. There are many possible supplemental grants as follows:

» Energy Efficiency
» Fire Code Requirements
» Geographic Location
» Labor Compliance Program

» Multi-level Construction
» New School Projects
» Project Assistance
» Replacement with Multi-Story Construction
» Site Acquisition
» Site Development
» Small High School Program
» Small Size Projects
» Special Education—Therapy
» Urban Locations, Impacted Sites, Security Requirements

The following is a brief explanation of the supplemental grants:

Energy Efficiency

A supplemental grant is available to districts with projects that have increased costs associated with plan design and other project components for school facility energy efficiency. The facilities in the proposed new construction project must exceed the nonresidential building energy efficiency standards as specified in Title 24, Part 6 of the California Code of Regulations by 15 percent. Current all energy efficiency funds have been exhausted. At the September 2006 SAB the remaining modernization energy funds were re-designated to fund the new construction energy projects.

Fire Code Requirements

The new construction grant will be increased for each pupil in a project that includes an automatic fire detection and alarm system. The current increase is as follows:

New Construction Grant Increase—Automatic Fire Detection and Alarm System

CLASSIFICATION	GRANT INCREASE
Elementary Pupil	$10
Middle School Pupil	$14
High School Pupil	$23

CLASSIFICATION	GRANT INCREASE
Special Day Class—Non-Severe	$30
Special Day Class—Severe	$44

The new construction grant will be increased for each pupil in a project that includes an automatic sprinkler system. The current increase is as follows:

New Construction Grant Increase—Automatic Sprinkler System

CLASSIFICATION	GRANT INCREASE
Elementary Pupil	$144
Middle School Pupil	$172
High School Pupil	$177

CLASSIFICATION	GRANT INCREASE
Special Day Class—Non-Severe	$305
Special Day Class—Severe	$454

The amounts shown above are the 50 percent State share and are adjusted annually in the same manner as the New Construction Grant.

Geographic Location

A supplemental grant is available to districts with projects that are located in areas of California that are remote, difficult to access, or lack a pool of contractors. A district may qualify and request an augmentation to the new construction grant due to their geographic location.[1]

Labor Compliance Program (LCP)

A labor compliance program, as specified by Labor Code, Section 1771.5, must be initiated and enforced for each project funded wholly or in part from Propositions 47 or 55 funds if the Notice to Proceed was issued on or after April 1, 2003. Additional funding is provided for these projects. The LCP grant is calculated on a sliding scale as follows:

Labor Compliance Program Grant

IF TOTAL PROJECT COST IS...		THEN THE TOTAL LCP COST IS...
AT LEAST	UP TO	
$ 0	$ 1 million	$ 16,000
$ 1 million	$ 2 million	$ 16,000 plus 0.016 multiplied by the amount over $1 million
$ 2 million	$ 3 million	$ 32,000 plus 0.0025 multiplied by the amount over $2 million
$ 3 million	$ 4 million	$ 34,500 plus 0.0015 multiplied by the amount over $3 million
$ 4 million	$ 6 million	$ 36,000 plus 0.0032 multiplied by the amount over $4 million
$ 6 million	$ 8 million	$ 42,400 plus 0.0031 multiplied by the amount over $6 million
$ 8 million	$13 million	$ 48,600 plus 0.0046 multiplied by the amount over $8 million
$13 million	$18 million	$ 71,600 plus 0.0044 multiplied by the amount over $13 million
$18 million	$48 million	$ 93,600 plus 0.0042 multiplied by the amount over $18 million
$48 million	N/A	$219,600 plus 0.004 multiplied by the amount over $48 million

The State's share will be 50 percent of the above result.

Multi-Level Construction

The SFP recognizes that districts face additional costs to construct multi-level school facilities on small sites. A supplemental grant is available for projects in densely populated areas, where site acquisition costs are high and land is scarce, to provide funds to alleviate and mitigate the impact of these small sites. If the useable site acreage for the project is less than 75 percent of the site size recommended by the CDE for the master planned project capacity, the new construction grant can be increased by 12 percent for each pupil housed in a multi-level building that will house pupils in all levels of the building.

[1] SFP Regulations, Section 1859.83, "Excessive Cost Hardship Grant."

New School Projects

Districts that will construct an entirely new school on a site without existing facilities may qualify for a supplemental grant. This grant is intended to provide funds to construct core facilities such as multi-purpose rooms, gymnasiums, libraries, kitchens, etc., for projects that have a minimal amount of classrooms, but not enough to generate a sufficient new construction grant to build these essential facilities. In March 2004, the SAB approved a separate new school allowance to meet the specific facility needs of alternative education schools, which are defined as community day, county community, county community day, and continuation high schools for the purposes of the SFP. The Alternative Education New School Allowance applies to all alternative education schools for which the plans and specifications were accepted by the DSA or after March 24, 2004. Please refer to the OPSC Web site for the current grant amounts.

Project Assistance

The SAB may provide additional project grants for project assistance to small school districts with enrollment of 2,500 pupils or less. The current additional grant of $5,168 may be used for costs associated with the preparation and submission of the SFP eligibility and funding applications, including costs related to support documentation such as site diagrams. The grant amount will be adjusted each year using the Class B index.

Replacement with Multi-Story Construction

As part of a SFP new construction project, a school district may demolish a single story facility and replace it with a multi-story facility on the same site. In addition to the new construction grant allowance, the SAB will provide a supplemental grant to fund 50 percent of the replacement cost of the single story facility(s) to be replaced provided that the site size is less than 75 percent of the recommended CDE site size, the pupil capacity at the site will be increased, the cost of the demolition and replacement is less than the cost of providing a new facility at a new site to house the increased pupil capacity, and the project has CDE approval.

Site Acquisition

The site acquisition grant can be used to acquire and develop new school sites or, under some circumstances, to reimburse or credit the district for a portion of the site acquisition costs originally borne by the district or in specific circumstances the current appraised value. Eligible costs for site acquisition are:

- Fifty percent of the lesser of the actual cost or the appraised value of the site.
- Fifty percent of the relocation cost.
- Two percent of the value of the site determined above, with a minimum of $25,000.
- Fifty percent of certain costs related to the DTSC review and oversight.
- Hazardous waste removal (within one and one half times the appraised value).

Note that if the district intends to use a site that was acquired in a priority one project under the Lease-Purchase Program (LPP), the OPSC will use the appraised value of the site as established under the LPP for the appraised value of the site under the SFP. The SFP apportionment will be offset by the LPP apportionment. A project that received site acquisition funds under the LPP as a priority two project is not eligible for site acquisition funds under the SFP.

Independent Appraisal Requirement. The district is required to submit one site appraisal with the Form SAB 50-04. A California licensed and duly-qualified appraiser must issue a current appraisal report for the proposed site using the Uniform Standards of Professional Appraisal Practice. The appraisal must be impartial and prepared for the district or its legal counsel.

The site must be appraised as if it were a clean site, safe from all contaminants in accordance with SFP Regulations, Section 1859.74.1, CDE guidelines, and Title 5, California Code of Regulations. The appraisal report must evaluate both the gross and net usable acreage and any severance damages.

Site improvements associated with grading the site to a mass graded or construction-ready condition without foundation or paving and proposed utilities stubbed to the site may be included in the appraisal. Other site improvements must be finished before close of escrow or 100 percent covered by a performance bond.

The appraisal date of valuation, or an update, may not predate by more than six months of the district's funding application to the OPSC. An SFP project which had the site funded as a LPP project shall use the value funded under the LPP.

DTSC Costs. Site acquisition costs may include up to 50 percent of the cost for the review, approval and oversight of the Phase One Environmental Site Assessment (POESA) and the Preliminary Endangerment Assessment (PEA). Note that these costs are prior to the actual clean-up costs, if any. Those costs may be included under some circumstances. See the paragraph entitled "Hazardous Waste Removal" below.

Hazardous Waste Removal. Site acquisition costs may be increased by up to one-half of the costs associated with the removal or remediation of hazardous waste on the site to be acquired. These costs may include the actual implementation of the response action required in the PEA, the cost of the preparation of the Response Action, and the cost for the DTSC review and oversight of the preparation and implementation of the Response Action. The increase in site acquisition may not exceed the difference between one and one half times the appraised value of the site as if no contamination existed and the actual cost of the contaminated site.

Relocation Expenses. Reasonable and necessary costs to relocate residential occupants and businesses from the proposed new school site, including purchasing fixtures and equipment, personal property, new machinery and equipment, and the installation of any improvements at the replacement residences or business locations are permitted as site acquisition costs.

Incidental Site and Hazardous Waste Removal for Leased Sites. If the application for funding includes a vacant leased site that was never used for school purposes, the site acquisition costs may be increased by up to one-half of the costs associated with the removal or remediation of hazardous waste on the site to be leased. These costs may include approved relocation expenses, the actual implementation of the Response Action required in the PEA, the cost of the preparation of the Response Action, and the cost for the DTSC review and oversight of the preparation and implementation of the Response Action. The increase in site acquisition may not exceed one and one half times the appraised value of the site determined by an appraisal made or updated no more than six months prior to the date the application was submitted to the OPSC.

Hazardous Waste Removal Required on an Existing School Site. Site acquisition funding may be available for the evaluation and response action in connection with hazardous substances at an existing school site in advance of submittal of the DSA approved plans.

Acquiring Title. Title to all property acquired, constructed, or improved with funds made available under the SFP must be held by the school district to which the SAB grants the funds. The title to the site need not be actually held by the district before funding; however, one of the following must be demonstrated:

- Purchase will be made from one or more private parties, companies, developers, or other entities, as evidenced by an escrow showing the pending transfer of ownership to the district.
- Court orders, especially orders of condemnation through the county court where the proposed new site lies, which include a Final Judgment, Stipulated Judgment and Order of Immediate Possession to allow occupancy, or Order of Prejudgement Possession.
- An escrow for the transfer of property in lieu of other legally required payments or fees due to the district. (Example: Districts sometimes obtain proposed new school site parcels from developers, with all or part of the "purchase" price comprised of the district forbearing from collecting school mitigation fees from the developers.)

Funding on Leased Land. The district may utilize leased sites with governmental agencies for certain specified periods of time. To receive new construction grants for facilities that are or will be located on real property leased by the district, the property must be leased from the federal government for a period of 25 years or another governmental agency for a period of 40 years. If the lease is with a governmental agency other than the federal government, a 30-year lease may be considered if there are no other educationally adequate sites available under a 40-year lease, the cost per year for a 30-year lease is not greater than a 40-year lease, or the district can provide satisfactory evidence to the SAB that a shorter term lease is necessary.

Site Development

In addition to the new construction grant, the SFP provides a supplemental grant for the purpose of developing the site where the project is to be located. Fifty percent of the site development costs are available for both new sites and for existing sites where additional facilities are being constructed with the exception of general site development. Funding for general site is allowable for new school projects and additions to existing sites, however, only when additional acreage is acquired. These development costs fall under four categories:

- Service site development improvements are performed within school property lines and may include eligible site clearance, rough grading, soil compaction, drainage, erosion control and multi-level, single level subterraean or under building parking structures. This portion of the site preparation is accomplished prior to the general site development and construction of buildings.
- Off-site improvements are located along the perimeter of two sides of the site including street grading and paving, storm drainage lines, curbs, gutters, sidewalks, and street lighting. These improvements are commonly dedicated for public use. If a district is requesting off-site improvements, the local entities having jurisdiction of areas where the off-site development is proposed must approve the related plans and specifications. These approved plans and specifications must be submitted to the OPSC at the time the application for funding is submitted.
- Utility service developments include improvements of water, sewer, gas, electric, and telephone from the closest existing utility connection.
- General site development includes onsite driveways, walks, parking, curbs and gutters, tennis/handball courts, running tracks, baseball, football, and soccer fields, etc. Funding for general site work is limited to $27,840 per usable acre plus a percentage of the base grant including specific additional grants (multi-level, automatic fire detection/alarm system, automatic sprinkler system, and excessive cost hardship grants). Districts receive a 6 percent increase for elementary and middle school projects and a 3.75 percent increase for high school projects.

It is important to understand that site development costs have restrictions on their use. The district representative should consult the SFP Regulations and the OPSC project manager if he or she is unsure if a particular item is an allowable cost before including the work in the project.

If a district is requesting a supplemental grant associated with site development on the Form SAB 50-04, verification must be submitted to support the request with the exception of general site development. To assist in gathering the supporting detail, the OPSC has developed a "Site Development Worksheet for Additional Grants" that is located on the OPSC Web site. The district may use this worksheet or similar method to submit this information to the OPSC.

Small High School Program

A supplemental grant is available for the construction of small high schools. The Small High School Program is a pilot program that will sunset on January 1, 2008 and is intended to fund small high schools with an enrollment of 500 pupils or less. Any new small high school may not be constructed where it would have otherwise been built due to sparse population in a geographical area and the applicant district must have a minimum of 500 pupil grants of new construction eligibility.

Small high school projects may be constructed on stand alone sites. Additionally, a small high school may be built on a site adjacent to an existing school, on the site of a large high school or on separate but adjacent sites sharing core facilities with the large high school. All small high schools funded from this program must have separate administrations and toilet area on the site.

Small Size Projects

A supplemental grant is available to districts with projects that house no more than 200 pupils. The grant is intended to provide additional funds for core facilities and to make up for the lack of economies of scale when districts build small projects. The new construction grant can be increased by 12 percent for a project that will house less than 101 pupils, or by four percent if the project will house over 100, but no more than 200 pupils.

Special Education—Therapy

The new construction grant will be increased for the area of therapy rooms, not to exceed 3,000 square feet, plus 750 square feet per additional Special Day Class classroom needed for severely disabled individuals with exceptional needs. The current unit cost per square foot of therapy area is as follows:

- $252 per square foot for toilet facilities
- $139 per square foot for other facilities

The amounts shown above are the 50 percent State share and are adjusted annually in the same manner as the new construction grant.

Urban Locations, Security Requirements and Impacted Sites

Districts with projects in urban locations on impacted sites may request a supplemental grant if all of the following conditions are met:

- The useable site acreage for the project is 60 percent or less of the site size recommended by the CDE for the net school building capacity for the project plus any existing enrollment at the site, if any.
- At least 60 percent of the classrooms in the project construction plans are in multi-story facilities.
- For new construction of a new school site, the value of the site being acquired is at least $750,000 per useable acre. This condition does not apply to new construction additions to existing school sites.

Urban locations on impacted sites are generally in areas of high property values or high population density, creating an environment difficult for districts to acquire ample real property, which causes increased project costs uniquely associated with urban construction. Districts with projects on these impacted sites are also faced with extra security requirements. The supplemental grant provides funds for security fences, watchpersons, increased premiums for insurance for contractors, and storage or daily delivery of construction materials to prevent theft and vandalism. If a district requests grants due to these circumstances, the OPSC will verify the district's eligibility pursuant to the CDE Final Plan Approval letter and by OPSC's review of the project construction plans and site appraisal.

If the above criteria are met, the urban supplemental grant is calculated on a sliding scale as follows:

New Construction Urban Grant Adjustment

IF...	THEN...
the useable acres are 60 percent of the CDE recommended site size, as described above...	the urban grant adjustment is 15 percent of the New Construction Grant and of the funding for additional grants for replaced facilities*, small size projects† and new school projects‡, and a 1.166 percent increase to the urban grant adjustment for each percentage decrease in the CDE recommended site size below 60 percent.

For new construction of a new school site, the adjustment shall not exceed 50 percent of the cost avoided with the purchase of a site smaller than the CDE recommended site size for the number of the pupil grants requested in the application§. This limit does not apply to new construction additions to existing school sites.

* SFP Regulations, Section 1859.73.2, "New Construction Additional Grant for Replaced Facilities"

† SFP Regulations, Section 1859.83(b), "Excessive Cost for Projects that House No More than 200 Pupils (Small Size Project)"

‡ SFP Regulations, Section 1859.83(c), "Excessive Cost to Construct a New School Project"

§ SFP Regulations, Section 1859.83(d)(2)(A), "Excessive Cost Due to Urban Location, Security Requirements and Impacted Site"

District Project Contribution

Every new construction application is a joint funding effort between the local school district and the State through the SFP. The State grant is discussed in the section entitled "New Construction Grant Amounts", earlier in this section. The total State grant represents 50 percent of the total project cost, with the district contributing the remaining 50 percent of the total project cost. The district contribution may come from virtually any source. The sole exception is that when savings from another SFP project is used as a match, the savings must be from a new construction project only. This restriction exists due to legal requirements pertaining to the bond funds, which the State uses as a program-funding source.

The district need not have the entire 50 percent local contribution on deposit at the time that the project apportionment is made. However, when the project fund release is requested, the district must certify that the district's matching share has been deposited in the County School Facility Fund; has been expended by the district for the project; or will be expended by the district prior to the Notice of Completion for the project. Thus the district has considerable flexibility in how the local share is arranged and contributed. The district representative should be aware, however, that regardless of when the share is contributed to the project, at closeout the district must be able to show that 50 percent of the expenditures on the project were from local sources. If the district is unable to demonstrate the 50 percent expenditure requirement has been met, the apportionment will be reduced.

Unable to Meet the Contribution

Districts that are unable to contribute the 50 percent local share of a project can pursue financial assistance through the financial hardship provisions of the SFP. Districts must submit financial data to the OPSC for pre-approval of financial hardship status (see Section 10, "Financial Hardship") before submitting a funding application. In addition, this pre-approval enables districts to request a separate apportionment for site acquisition and/or design costs, if necessary, any time after the application for eligibility determination has been filed and before its financial hardship status expires.

Effects of Reorganization

Districts who are affected by a reorganization election on or after November 4, 1998, may not file a funding application for new construction until after the notification of the reorganization election. If the district had established new construction eligibility prior to reorganization, it must adjust the baseline eligibility on the *Eligibility Determination* (Form SAB 50-03) prior to filing new applications. Alternatively, the district can choose to certify that the reorganization does not result in a loss of eligibility for the project requesting funding. Districts that are newly created by the result of a reorganization can submit a funding application after approval of the election by the CDE.

SAB Approval Process

The applications for funding are presented to the SAB for approval in the order of their OPSC receipt date. The SAB approval (action) can either be an apportionment or "unfunded" approval, depending on the availability of funds for new construction.

Fund Release

After the funding application is apportioned by the SAB, the next step in the process is the actual fund release to the County School Facilities Fund for use by the district.

The SFP grant is processed for release when the district submits a *Fund Release Authorization* (Form SAB 50-05). The Form SAB 50-05 submitted by the district is an important document that cannot be altered or modified by the OPSC. Therefore, an improperly completed Form SAB 50-05 will be returned with a letter of explanation to the school district for correction.

When a properly executed form is received, the OPSC sends a School Facilities Fund Release notification to the district representative and county office of education. The notification indicates the type of grant released, amount, school district, application number, school name, and date processed. In addition, the SFP Fund Release Report is posted monthly on the OPSC Web site. This report indicates the claim schedule number, the date the funds were released, and the dollar amount released.

It is important to understand that a Form SAB 50-05 must be submitted within 18 months of the SFP grant apportionment by the SAB, or the entire new construction or modernization grant will be rescinded without further SAB action. If this should happen, the pupils housed in the project will be added back to the district's eligibility and the district may re-file the application at any future time.

The Form SAB 50-05 can be downloaded from the OPSC Web site. The properly executed Form SAB 50-05 should be submitted to:

Office of Public School Construction
Accounting
1130 K Street, Suite 400
Sacramento, CA 95814

Section 6

Charter School Facilities

Introduction

In 2002, Article 12 in Assembly Bill (AB) 14, established a pilot program to provide charter schools with funding to construct new facilities, known as the "Charter School Facilities Program" (CSFP). With the successful passage of Proposition 47, this program received $100 million in bond funding. In 2004, Senate Bill 15 was passed to make revisions to the CSFP in order to maximize the number of projects funded with an additional $300 million in bond funding made available with the passage of Proposition 55. The most recent bill, AB 127, was passed in 2006 to further revise the CSFP and an additional $500 million was made available with the passage of Proposition 1D. The CSFP permits a charter school or school district filing on behalf of a charter to apply for a preliminary apportionment (reservation of funds) for the construction of new facilities and/or rehabilitation of existing district owned facilities that are at least 15 years old. To qualify for funding, a charter must be deemed financially sound by the California School Finance Authority (CSFA).

The preliminary apportionment for a CSFP project must be converted within a four-year period to an adjusted grant apportionment meeting all the School Facilities Program (SFP) criteria, unless a single one-year extension is granted.

Eligibility

To apply for funding under Proposition 47 and 55, the school district in which the charter is physically located must have had SFP new construction eligibility. Proposition 1D removed this requirement. Now, new construction eligibility is no longer required. However, the school district in which the charter school is physically located must certify to the number of district unhoused students a charter school will house in a new construction project. A charter school applying on its own behalf may apply once it has notified the superintendent and governing board of the district, where it is physically located, of its intent to apply in writing (with proof of delivery) 30 days prior to submitting the preliminary application to the Office of Public School Construction (OPSC). The notice to the district shall include the number of pupils the charter intends to house, a request that the school district certify to the number of the district's unhoused pupils that the charter project will house and a request that the district update its new construction eligibility for current enrollment.

The $100 million provided in Proposition 47 for the program was exhausted in July 2003. The next $300 million provided in Proposition 55 was exhausted in February, 2005. To apply for the funds made available with the passage of Proposition 1D, charter schools and districts must submit an *Application for Charter School Preliminary Apportionment* (Form SAB 50-09), to the OPSC by June 5, 2007. In addition, if funds become available through over reservation of preliminary apportionment or lease payments, the State Allocation Board (SAB) may establish additional application periods.

Application Process

A complete application is an essential element in the process of receiving a preliminary apportionment for the charter school or district's project. The information provided is the basis for determining the apportionment amounts that the charter school or district on behalf of the charter school will receive. The form provides the OPSC with the general project information to determine the future new construction or rehabilitation adjusted grant; the grade level of the project, the number of SFP pupils the project will serve, whether or not a site is to be acquired, and if any supplemental grants are requested.

The applicant will need to submit a Form SAB 50-09, and all other supporting documents (i.e., supporting historical documents for allowances requested on application, architect's drawing of existing facilities to be rehabilitated, etc.).

Once the OPSC receives the preliminary application, an initial review will be conducted to ensure that the pupil grants or rehabilitation square footage requested is commensurate with the project being built. In addition, the allowance requested on the application will be subject to review. In conjunction, the CSFA will be determining the financial soundness of the applicant. For further information regarding the criteria for financial soundness, please contact CSFA at www.treasurer.ca.gov/csfa.

For additional detail, please review the general and specific instructions on the Form SAB 50-09 and the application submittal requirements available on the OPSC Web site.

Funding Criteria

If the estimated total apportionment of all financially sound applicants approved by CSFA exceed the funds available, the SAB shall provide preliminary apportionments using the following criteria:

- Representative of the various geographical regions of the State.
- Representative of urban, rural, and suburban regions of the State.
- Representative of large, medium, and small charter schools throughout the State.
- Representative of the various grade levels of the pupils served by charter school applications.

Within each category above, preference is to be given to charters in overcrowded school districts, charters in low-income areas, not-for-profit charters, and for the use of existing district facilities. A preference points calculation system, based on the criteria set above, will be used in determining the projects that will be funded from each category. If more than one application is received that has the same criteria within a category, the SAB will fund based on which project has the highest preference points.

For the purposes of determining the preference points given for projects in overcrowded districts, the applicant will need to submit an *Enrollment Certification/Projection* (Form SAB 50-01), for the school district and any supporting documents required. An *Existing School Building Capacity* (Form SAB 50-02), and *Eligibility Determination* (Form SAB 50-03), will not need to be submitted unless the school district has not established new construction eligibility under the SFP. If the eligibility has not been established, the eligibility documents necessary to establish new construction eligibility will have to be submitted prior to the end of the filing period. (See Section 4, "Application for Eligibility.")

Preliminary Apportionment Components

The grants provided at the preliminary apportionment consist of the following:

NEW CONSTRUCTION	REHABILITATION
• Per Pupil base grant amount • Multi-level Construction Grant Amount • Site Acquisition • Site Development • Supplemental Grants • Inflator Factor	• Grant based on square footage • Elevators • Supplemental Grants • Inflator Factor

This amount shall then be the recommended preliminary apportionment for the proposed CSFP project presented to the SAB for a reservation of funds.

Preliminary Apportionment Determination for New Construction

To determine the funding for a new construction project, the preliminary apportionment would be divided into "construction" costs and "site acquisition" costs, as shown below:

CONSTRUCTION COSTS (FULL GRANT)	SITE ACQUISITION COSTS
• Base Grant • Multi-level Construction • Site Development • General Site Development • Small Size Project • Urban Allowance • Geographic Percentage Factor • Inflator Factor	• Site purchase • Site other 4 Percent • Hazardous Material Clean-up • Relocation and Department of Toxic Substance Control fees

Please see Section 5, "New Construction Funding," for a full explanation of the construction costs grants. The OPSC also has a calculator on its website for estimating the CSFP grant.

The current CSFP grant amounts are as follows:

CSFP Grant Amounts

CLASSIFICATION	CSFP PUPIL GRANTS (2007)
Elementary	$ 8,120
Middle School	$ 8,597
High School	$11,229

CLASSIFICATION	CSFP PUPIL GRANTS (2007)
Special Day Class—Non-Severe	$17,304
Special Day Class—Severe	$25,874

If a district requests a preliminary apportionment that includes a reservation for multi-level classroom construction, the CSFP pupil base grant will be increased by 12 percent to reserve the maximum allowance.

If the request for a preliminary apportionment includes estimated site development costs, the allowance shall be determined based upon either the State default amount of $70,000 per proposed net useable acre,

actual, or historical cost. The estimated site development cost shall be the amount for anticipated service-site, off-site and/or utilities for the project. For projects that are acquiring additional acreage, a general site allowance may be requested.

A district may request estimated excessive hardship costs for Geographic Location, Small Size Project or Urban Location, Security Requirements and Impacted Site.

The preliminary apportionment consisting of all applicable estimated allowances shall be increased by 32 percent in anticipation of cost increases in future years. The inflator factor is based upon the average per year Marshall Swift Class B Construction Cost Index. Site acquisition costs will not be subject to the inflator factor. This increase is not applicable to Proposition 55 apportionments.

Helpful Hint:
If you plan to file an application for the 2007 filing period, please contact your project manager for more information.

The preliminary apportionment for the estimated site acquisition shall be determined by the submittal of an appraisal or preliminary appraisal, when available. In addition, a separate allowance is available for toxic sites. The appraisal or preliminary appraisal should be made or updated no more than six months prior to the application submittal to the OPSC. In cases where a specific site has not been identified for the project, the median cost of the consummated sales transactions within the general location multiplied by the proposed net useable acreage to be acquired shall determine the property value reservation. In either case, the applicant must obtain a preliminary recommended site size letter from the California Department of Education (CDE). Before determining the median cost, the information for recorded sale transactions should be expressed in a per acre amount.

Additionally, the property value will be increased by four percent for title, escrow and survey fees. An allowance for estimated relocation and Department of Toxic Substance Control (DTSC) costs may be included.

Preliminary Apportionment Determination for Rehabilitation

The preliminary apportionment for a rehabilitation project and supplemental grants, if eligible, are shown below:

- Grant based on the square footage in the project
- Small Size Project
- Urban Allowance
- Geographic Percentage Factor
- Elevators
- Inflator Factor

The amount of funding will be determined by first adding the square footage of all the minimum essential facilities (multi-purpose room, library, gym or administration) and the square footage for the number of classrooms the charter school is entitled to use based on the State loading standards. The square footage in the project would then be multiplied by the current rehabilitation cost standard which is $140 per non-toilet area square foot and $252 for toilet square footage. This grant amount cannot exceed what a new construction project would receive based on the number and grade level of students to be served by the rehabilitation charter school project.

A district may request estimated excessive hardship costs for Geographic Location, Small Size Project, elevators or Urban Location, Security Requirements and Impacted Site.

The preliminary apportionment consisting of all applicable estimated allowances shall be increased in anticipation of cost increases in future years. The inflator factor is based upon the average per year Marshall Swift Class B Construction Cost Index.

Apportionment Conversion

The preliminary apportionment for a CSFP project must be converted within a four-year period to an adjusted grant apportionment meeting all the School Facilities Program (SFP) new construction program criteria required for such an apportionment, unless a single one-year extension is granted. A final apportionment request includes an *Application for Funding* (Form SAB 50-04) and all other documentation required for a complete adjusted grant application under the SFP provisions (see Section 5). At the time a new construction project is converted, the pupil request cannot exceed the number of pupils requested at the time of preliminary apportionment. Likewise, at the time a rehabilitation project is converted, the square footage cannot exceed the square footage requested at the time of preliminary apportionment.

Project Reductions/Increases

Once an application is submitted for a final apportionment, the project costs may be adjusted per the following:

Project Cost Adjustments

IF...	THEN...		
	PROPOSITION 47	PROPOSITION 55	PROPOSITION 1D
Preliminary apportionment sufficient to do project...	...project cost remains the same and final apportionment Board item will reflect preliminary apportionment amounts.		
Preliminary apportionment was more than needed...	...the overpayment shall be adjusted to reflect actual project costs on the final apportionment SAB item and the difference shall be returned to the unrestricted account to be used for other charter school facility purposes.		
Preliminary apportionment was insufficient and unrestricted funds remain in the account...	...a district may receive a project increase for eligible costs.	...the charter or district must come up with alternate means to complete the project. At the point of conversion, the preliminary apportionment amount will be the full and final apportionment.	...a district may receive a project increase for eligible costs.
Preliminary apportionment was insufficient and no unrestricted funds remain in the account...	...the preliminary apportionment amount will be the full and final apportionment. A district may elect to monitor the funds and wait until funds become available to convert the apportionment, provided it is before the four-year deadline.		...the preliminary apportionment amount will be the full and final apportionment. A district may elect to monitor the funds and wait until funds become available to convert the apportionment, provided it is before the four-year deadline.

Fund Release

Senate Bill 15 and AB 127 included provisions to allow advanced fund releases for site acquisition and separate design funding for the preliminary apportionments granted under Proposition 55 and Proposition 1D provided that the Charter School Agreements have been executed. The total advanced fund release for design funding can equal up to 20 percent of the preliminary apportionment total construction costs. The advanced fund release for site acquisition may be for up to the amount requested on the preliminary apportionment.

The CSFP provisions for a preliminary apportionment under Proposition 47 do not authorize any fund releases prior to submitting an application for final apportionment. Therefore, once a preliminary apportionment is received, all charter schools or districts on behalf of charter schools will need to ensure they can cover any costs incurred prior to filing an application for final apportionment.

Once a preliminary apportionment is converted to a final apportionment, the applicant has 18 months to apply for a fund release.

Closeout

When a CSFP project converts to a final apportionment, it will be subject to all SFP progress and auditing standards. A substantial progress report will be required at 18 months from the date the final apportionment was made. Annual expenditure reports will be required beginning one year from the date of the first fund release until the project is complete. The project is considered complete when 3 years elapse from the date of the final fund release for an elementary project, or 4 years for a middle or high school project, or when the school district declares the project complete, at which time final expenditure reports must be submitted. Any project savings must be returned to the State.

To learn more about the CSFP program, contact your OPSC project manager or visit the OPSC Web site at www.opsc.dgs.ca.gov.

Section 7

Critically Overcrowded School Facilities

Introduction

The Critically Overcrowded School Facilities (COS) program was created by Assembly Bill (AB) 16 (Hertzberg) in 2002 and is a significant addition to the School Facilities Program (SFP). The COS program permits school districts with critically overcrowded school sites, as determined by the California Department of Education (CDE), to apply for a preliminary apportionment (reservation of funds) for new construction projects to relieve overcrowding. The COS program's preliminary apportionment serves only as a reservation of funds for future State assistance in the form of grants. The preliminary apportionment for a COS project must be converted within a four-year period to a new construction adjusted grant apportionment meeting all the SFP new construction program criteria required for such an apportionment, unless a single one-year extension is granted.

Project Eligibility

A district with SFP new construction eligibility established as described in Section 4 and critically overcrowded school sites included on a list of source schools as determined by the CDE may apply for a preliminary apportionment for projects to relieve overcrowding. For information regarding the CDE Source School List contact Mr. Fred Yeager at 916.327.7148 or visit the CDE Web site at www.cde.ca.gov.

An *Application for Preliminary Apportionment* (Form SAB 50-08) may be submitted to the Office of Public School Construction (OPSC) between November 5, 2002 and May 1, 2003 for projects to be funded with the proceeds of the November 5, 2002 bond or 60 days prior to and 120 days after the 2004 direct primary election or the 2004 statewide general election as appropriate for projects to be funded with those bond proceeds. A critically overcrowded school facilities project must:

- Relieve overcrowding by increasing the pupil capacity of the district and may be either a stand alone new school project or an addition to an existing school site.
- Identify at least 75 percent of the proposed pupil occupancy of the project as coming from a source school(s).
- Be located within either the attendance area or a one-mile radius of an elementary source school ; or, for a secondary source school, within the attendance area or a three-mile radius. The CDE may grant a variance from the distance maximums if the district can demonstrate that the variance is necessary to adequately provide facilities for the identified source school pupils.

Source Schools

To qualify as a source school a school site utilizing the 2001/2002 California Basic Educational Data System (CBEDS) enrollment must have pupil density greater than 115 pupils per acre for grades Kindergarten to six and 90 pupils per acre for grades seven to twelve. The CDE is responsible for determining and maintaining the list of source schools. A district may report their school site information to the CDE by submitting

SFPD Form 4.16 (*Certification of School Site Net Useable Acres*). For a copy of the SFPD Form 4.16 and additional information regarding the CDE source school list, please visit the School Facilities section of the CDE Web site at www.cde.ca.gov.

Once included on the CDE source school list, determine a source school's pupil eligibility or Qualifying Pupils, by subtracting the school's site density at 150 percent of the CDE recommended pupils per acre from its latest CBEDS enrollment. The remainder is the number of Qualifying Pupils at the source school site, which may be used to meet the project eligibility requirements above. The source school Qualifying Pupils eligibility amounts will be tracked separately and adjusted for changes in future enrollment, site density, preliminary apportionments and rescinded apportionments.

Preparing An Application

A complete application is an essential element in the process of receiving a preliminary apportionment for the district's project. The information provided is the basis for determining the apportionment amounts that the district will receive. All applications must be based on a previous SFP new construction eligibility approval or must have the eligibility application as a part of the package (see Section 4, "Application for Eligibility"). Please note district's requesting financial hardship assistance must receive that status prior to filing an application (see Section 10, "Financial Hardship"). The Form SAB 50-08 serves as a vehicle for districts to request a preliminary apportionment for a new construction project. The form provides the OPSC with the general project information to determine the future new construction adjusted grant; the grade level of the project, the number of SFP and source school Qualifying Pupils the project will serve, whether or not a site is to be acquired, and if any supplemental grants are requested. To complete the Form SAB 50-08 the district representative will need some or all of the following information.

- Appraisal, Preliminary Appraisal, or Median Cost valuation of the property to be acquired.
- Relocation and Department of Toxic Substances Control cost documents.
- Cost Estimate for site development and approved site development and off-site plans (to substantiate actual or historical cost submittals).
- A copy of the certified CDE Source School List pages or CDE Source School certification letter.
- Copy of the latest information for the Source School(s) submitted approximately October 15th of each year to the California Department of Education to complete the California Basic Educational Data System (CBEDS).

For additional detail, please review the General and Specific instructions on the Form SAB 50-08 and the Application Submittal Requirements available on the OPSC Web site.

Preliminary Apportionment Components

A COS preliminary apportionment is intended to provide the estimated future State's share for all necessary project costs including site acquisition, site development and supplemental allowances. A district may request a preliminary apportionment for the following:

- COS Pupil Grants (New Construction Grant (per pupil) plus the increase for Fire Code requirements)
- Multi-level Classroom Construction
- Site Acquisition
- Site Development
- Project Increases
- Financial Hardship
- Inflation Factor

The COS Pupil Grant is calculated by multiplying the SFP pupils assigned to the project by the per-pupil grants established in law and the increase for Fire Code requirements. The COS Pupil Grants are adjusted by the State Allocation Board (SAB) annually (each January) based on the change in the Class B Construction Cost Index. The current COS grant amounts are as follows:

Current COS Grant Amounts

CLASSIFICATION	COS PUPIL GRANTS
Elementary	$ 8,091
Middle School	$ 8,560
High School	$10,896

CLASSIFICATION	COS PUPIL GRANTS
Special Day Class—Non-Severe	$16,125
Special Day Class—Severe	$24,110

If a district requests a preliminary apportionment that includes multi-level classroom construction, the New Construction Grant will be increased by 12 percent to reserve the maximum allowance.

The preliminary apportionment for the estimated site acquisition shall be determined by the submittal of an appraisal or preliminary appraisal, when available. The appraisal or preliminary appraisal should be made or updated no more than six months prior to the application submittal to the OPSC. In cases where a specific site has not been identified for the project; the median cost of the consummated sales transactions within the general location area multiplied by the proposed net useable acreage to be acquired shall determine the property value reservation. The proposed acquisition acreage amount must be compatible with CDE standards; and, before determining the median cost, the information for recorded sale transactions should be expressed in a per acre amount. In addition the property value will be increased by four percent for title, escrow and survey fees and by one-half for hazardous material/waste removal and remediation cost. An allowance for estimated relocation and DTSC costs may be requested, this will be based on either the State's default allowance of 21 percent of the property value, actual, or historical cost information.

If the request for a preliminary apportionment includes estimated site development costs, the allowance shall be determined based upon either the State's default amount of $70,000 per proposed net useable acre, actual, or historical cost. The estimated site development cost shall be the amount for anticipated service-site, off-site and/or utilities for the project.

A district may request estimated excessive hardship costs for Geographic Location, Small New School or Urban Location, Security Requirements and Impacted Site.

If the district has a valid financial hardship status for the COS project, the estimated State share amount shall be doubled to provide a reservation for the estimated district's matching share assistance. When the financial hardship review has determined that the district has contribution amounts, the preliminary apportionment amount will be reduced by that amount. However, before the preliminary apportionment is converted to a final apportionment, the district must re-qualify financial hardship status to determine its eligibility and contribution amount.

Apportionment Conversion

Converting a preliminary apportionment to a final apportionment request includes an *Application for Funding* (Form SAB 50-04) and all other documentation required for a complete new construction adjusted grant application under the SFP provisions (see Section 5, "New Construction Funding"). In addition, the pupils requested on the Form SAB 50-04 must be no less than 75 percent of and cannot exceed the number of pupils requested on the Form SAB 50-08. When a district converts the preliminary apportionment to a final apportionment the project must still be supported by SFP new construction eligibility; however, the Source School(s) Qualifying Pupil eligibility will not be re-evaluated. If the project is not currently supported by SFP new construction eligibility, Assembly Bills 2950 (Chapter 898, Statutes 2004) and 491 (Chapter 710, Statutes 2005) provide for an "alternative eligibility method", such as current enrollment, current residency data or a projection of residency data to justify the project. A school district requesting financial hardship status must qualify for that status and have all Capital Project Fund monies analyzed to determine if the school district is able to contribute toward its project.

Project Increases

When an application for final apportionment is made, that preliminary apportionment may be adjusted for increases only if there are sufficient reserve funds available in the COS facilities account to fund the increases. If reserve funds are not available, the increase amount will be placed on a "Final Apportionment Unfunded List" until such time that funds may become available within the COS facilities account to apportion the increases. However, if funds do not become available and the maximum time frame of five years has expired, the original preliminary apportionment becomes a full and final apportionment.

SAB Approval Process

If funds are insufficient to fully fund all of the preliminary applications received during an application filing period, the SAB shall first apportion to those projects that would house pupils from source schools with the highest density levels relative to the CDE standard.

Substantial Progress

Prior to converting a preliminary apportionment to a final apportionment, the district must report annually to the SAB on the progress of the COS project. The local governing school board must hold a public hearing annually discussing the progress toward completing the project. Included in the first annual report to the SAB, the district shall certify that the CDE has determined there is at least one approvable and adequate site for the COS project within the identified general location area. If the school district cannot certify to the approvable site, then the preliminary apportionment will be rescinded.

At the end of the fourth year, if a school district is unable to submit its application for final apportionment, it may apply for a single one-year extension provided that the COS project has a CDE contingent or final site approval and the final construction plans have been submitted to DSA for review and approval; or other evidence satisfactory to the SAB that substantial progress has been made towards completing the requirements for filing an application for final apportionment.

Fund Release

After completing the substantial progress requirements for the first annual report to the SAB, a district may request an advanced release of funds from a preliminary apportionment when certain criteria are met. An advanced fund release for design and/or site acquisition may be requested by districts with approved financial hardship status. If applicable, an advanced fund release for an enviromental hardship site aquisition may be requested for any project. Advanced fund releases may be requested by submitting a complete *Fund Release Authorization* (Form SAB 50-05). If the advanced request includes the release of funds for site acquisition, the district must also submit a Form SAB 50-08 to determine eligible costs. Once a preliminary apportionment is received, all districts will need to ensure they can cover any costs incurred, taking into account any advanced fund releases, prior to filing an application for final apportionment.

Closeout

When a COS project converts to a final apportionment, it will be subject to all SFP progress and auditing standards. A substantial progress report will be required at 18 months from the date the final apportionment was made. Annual expenditure reports will be required beginning one year from the date of the first fund release until the project is complete. The project is considered complete when 3 years elapse from the date of the final fund release for an elementary project, or 4 years for a high school project, or when the school district declares the project complete, at which time final expenditure reports must be submitted.

To learn more about the COS program, contact your OPSC project manager or visit the OPSC Web site at www.opsc.dgs.ca.gov.

This page is intentionally blank.

Section 8

Joint-Use Projects

Introduction

Senate Bill 15 amended the Joint-Use Program created by Assembly Bill 16 under the School Facility Program (SFP). Fifty million dollars was made available and partly apportioned in July 2003 for joint-use projects, and another $50 million was made available for apportionment at the August 2004 State Allocation Board (SAB), due to Proposition 55 passing in March 2004. These funds were partly apportioned in July 2005 and August 2006. An additional $29 million was made available for apportionment due to Proposition 1D passing in November 2006. Proposition 1D also provided the SAB authority to transfer up to $21 million in prior bond funds for the purpose of funding joint-use projects.

Qualifying projects will be submitted to the July 2007 SAB meeting for apportionment. If joint-use funds remain after the current funding cycle, they will be available for apportionment for qualifying joint-use projects at the July 2008 SAB meeting.

This program allows a school district to utilize funds from a joint-use partner to build a joint-use project the district would not otherwise be able to build due to lack of financial resources. There are two types of joint-use projects that the district may apply for, which are referred to as Type I and Type II.

A Type I joint-use project is part of a qualifying new construction project that will increase the size, creates extra cost, or does both beyond that necessary for school use of the:

- Multipurpose room
- Gymnasium
- Childcare facility
- Library
- Teacher Education facility

A Type II joint-use project is a stand-alone project or part of a modernization project located at a school site that does not have the type of facility or the existing facility is inadequate and will reconfigure[1] existing school buildings, construct new school buildings, or both to provide for:

- Multipurpose room
- Gymnasium
- Childcare facility
- Library

[1] Reconfigure means remodeling an existing school building within its current confines and/or the expansion of the square footage of the existing building and any necessary replacement of displaced classrooms or other Minimum Essential Facility (MEF). Reconfiguring an existing school building must not reduce the district's capacity or displace another MEF. An inadequate MEF must not be constructed to replace a reconfigured MEF. In any case involving the replacement of lost capacity or a minimum essential facility due to the reconfiguration of an existing building, the replacement must be a part of the plans submitted in support of the joint-use application, must occur concurrently, and cannot be part of a SFP new construction application.

» Teacher Education facility
» Pupil Academic Achievement facility[2]

The funding for joint-use projects is provided in the form of grants. With the exception of a Type I (Extra Cost), the grants are made up of a base grant and a number of supplemental grants. For a Type I (Extra Cost) project, the grant is a straight dollar amount based upon the cost estimate. The State share for a joint-use project is 50 percent of the eligible project costs, with the joint-use partner contributing a minimum of 25 percent of the eligible project costs and the district contributing 25 percent of the eligible project costs. If the district has passed a bond which specifies that the monies are to be used specifically for the joint-use project, the district may provide up to the full 50 percent local share.

The district must have joint-use eligibility and square footage eligibility (except for a Type I, Extra Cost) for the type of project they are applying for, before they can request joint-use funding. This section explains the eligibility requirements for each type of joint-use project, the funding application process, and how to determine the joint-use grant. This section focuses on the most common situations. Individual projects may have variations that are not covered in this section. The district representative is encouraged to contact the Office of Public School Construction (OPSC) project manager to discuss specific project details.

Project Eligibility

Before a district can submit an application for funding, the project must have project eligibility. Project eligibility is different for the two types of joint-use projects.

Type I Project Eligibility

To qualify as a Type I joint-use project, the district must meet the following criteria:

» The Joint-Use Partner is a governmental agency, an Institution of Higher Education, or a nonprofit organization.
» The project increases the size, creates extra cost, or does both for the:
  – *Multipurpose room*
  – *Gymnasium*
  – *Childcare facility*
  – *Library*
  – *Teacher Education facility*
» The district has entered into an approvable Joint-Use Agreement that meets the criteria of Education Code, Section 17077.42
» The joint-use project is part of a qualifying SFP new construction application
» The project has Square Footage Eligibility as specified in SFP Regulations, Section 1859.124 (except a Type I Extra Cost project)
» The facility is located at the school site of the SFP project
» The construction contract was executed after April 29, 2002
» The project has DSA approved plans
» The project has California Department of Education (CDE) approval of the plans

[2] Pupil Academic Achievement may be grandfathered in if the plans are accepted by the Division of the State Architect for review and approval prior to January 1, 2004.

Type II Project Eligibility

To qualify as a Type II joint-use project, the district must meet the following criteria:

- The Joint-Use Partner is a governmental agency, institution of Higher Education, or a nonprofit organization.
- The project reconfigures existing school buildings, constructs new buildings, or both to provide for the:
  - *Multipurpose room*
  - *Gymnasium*
  - *Childcare facility*
  - *Library*
  - *Teacher Education facility*
  - *Pupil Academic Achievement facility*[3]
- The district has entered into an approvable Joint-Use Agreement that meets the criteria of Education Code, Section 17077.42
- The project to reconfigure an existing building is part of a qualifying SFP modernization application located at the school site of the SFP project, or
- The project to reconfigure or construct a new school building is a stand-alone project located on the public K–12 school site
- The project has square footage eligibility as specified in SFP Regulations, Section 1859.124
- The school site does not have the type of facility or the existing facility is inadequate
- The construction contract was executed after April 29, 2002
- The project has DSA approved plans and CDE final plan approval if the project is part of a SFP modernization application, or
- The project has preliminary plans and CDE approval of the preliminary plans if it is a stand-alone project

Funding Process

Subject to available funds, applications are accepted for upcoming funding cycles from June 1st through May 31st each year.

A district may submit more than one application for each type. Type I Joint-Use projects are funded first and Type II Joint-Use projects are funded last. The district's first application within each type of joint-use project is ranked and funded with other district's first applications in date-received order. The district's second application is then ranked and funded with other district's second application in date-received order, and so on within each type of joint-use project, until funds are exhausted.

The following demonstrates the necessary steps for joint-use funding:

- The district submits an application for funding package
- The OPSC reviews the package
- The SAB approves and apportions the project in July
- The district submits DSA approved plans within one year from the date of apportionment (Type II Stand-Alone Project)
- The district requests a fund release and makes expenditures
- The district submits reports on expenditures
- The OPSC audits

[3] Only if plans and specifications were accepted by DSA prior to January 1, 2004.

The district must apply for joint-use funding on the *Application for Joint-Use Funding* (Form SAB 50-07). The Form SAB 50-07 not only provides the OPSC with the specific joint-use information such as type of joint-use project and square footage eligibility, but it also serves as a certification by the district that they meet specific criteria of the law and regulations.

The funding package will be reviewed by the OPSC for completeness and placed on a statewide workload list. District representatives can view the workload list on the OPSC Web site at www.opsc.dgs.ca.gov. If during the initial review, it is determined that information is missing, the district will be notified and given a timeframe to respond to the OPSC's request. In the event the OPSC does not receive the requested information within the given timeframe, the application will be returned to the district. The district may resubmit the application at anytime within the filing period, when they have all the components of a complete application.

Applications will be approved until there are no funds available. In this instance, all applications that do not receive funding will be returned to the district, and the district may resubmit the application in subsequent filing periods.

Preparing An Application

The following chart lists the supporting documents for each type of joint-use project that must be submitted with the Form SAB 50-07:

Joint-Use Funding Required Documents

	TYPE OF FUNDING		
DOCUMENT	TYPE I	TYPE II Part of SFP Modernization Project Reconfigure Existing School Buildings	TYPE II Stand-Alone Project Reconfigure/Construct New School Buildings
Joint-Use Agreement	✖	✖	✖
DSA Approved Plans	✖	✖	
Preliminary Plans			✖
CDE preliminary plan approval			✖
CDE final plan approval	✖	✖	
Cost estimate for site development	✖	✖	✖
Cost estimate for facility being built*	✖		

* If the project is for a Type I, Extra Cost

Joint-Use Grant Amounts

With the exception of a Type I project for Extra Cost, the joint-use grant will consist of a base grant for toilet and non-toilet facilities, which can be increased by certain supplemental grants. As of the date of this guidebook, the base grant is $252 per square for toilet area and $139 per square foot for non-toilet area. The grant amounts will be adjusted each year using the Class B index. Each project has a maximum state contribution of $1 million for an elementary school, $1.5 million for a middle school, and $2 million for a high school.

Supplemental Grants

The district can increase the joint-use grant with certain supplemental grants. The following is a brief explanation of the supplemental grants under the Joint-Use Program:

Geographic Location. A supplemental grant is available to projects located in areas of California that are remote, difficult to access, or lack a pool of contractors. The augmentation to the joint-use grant due to their geographic location can be found in Regulation Section 1859.83 (a).

Project Assistance. For a Type II stand-alone joint-use project, the SAB may provide additional project grants for project assistance to small school districts with enrollment of 2,500 pupils or less. The additional grant of $5,168 (as of the date of this guidebook) may be used for costs associated with the preparation and submission of the funding application. The grant will be adjusted each year using the Class B index.

Site Development. A supplemental grant is provided for the purpose of developing the site where the project is located. If the joint-use project is linked to a new construction project and site development costs are not covered under the new construction application because the site development is specific to the joint-use project, the district may apply for the site development under the joint-use project. If the joint-use project is a stand-alone project, the district may apply for applicable site development costs that pertain to the joint-use facility. Fifty percent of the following site development costs may be available for joint-use projects:

- Service site development improvements are performed within school property lines and may include site clearance, rough grading, soil compaction, drainage, and eligible erosion control. This portion of the site preparation is accomplished prior to the general site development and construction of buildings.
- Utility service development includes improvements of water, sewer, gas electric, and telephone from the closest existing utility connection to the project site meter or major building lateral location.

Off-site development is not an allowable expenditure under the Joint-Use Program.

Small Size Projects. A supplemental grant is available to districts with projects that house no more than 200 pupils. The grant is intended to provide additional funds for core facilities and to make up for the lack of economies of scale when districts build small projects. The joint-use grant can be increased by 12 percent if the qualifying new construction or modernization project is linked to houses less than 101 pupils, or four percent if the qualifying new construction or modernization project is linked to will house over 100, but no more than 200 pupils. If the project is a Type II stand-alone joint-use project, the district is entitled to an eight percent increase to the grant.

Type II Joint-Use Grant. A Type II joint-use project cannot have an existing facility or the existing facility must be inadequate. A facility is considered inadequate when the square footage of the existing facility is less than 60 percent of the square footage entitlement shown in the Chart of Square Footages in Regulation Section 1859.124.1. A Type II joint-use project must have square footage eligibility. If the existing facility meets the test of being inadequate, or there is not an existing facility, then the square footage eligibility for a Type II joint-use project is the amount determined using the Chart of Square Footages.

Once the square footage eligibility for a Type II is established, the grant can be determined. The base grant is calculated by adding the following:

» $252 for Toilet Square footage in the facility
» $139 for Non-toilet Square footage in the facility
» Fifty percent of applicable supplemental grants

If the district is building area beyond their square footage eligibility, the OPSC will prorate the grant by determining the percentage of the whole facility that represents the joint-use project, and the grant will be determined using that percentage.

Type I Joint-Use Grant (Extra Cost). There is no square footage eligibility for a Type I that contains Extra Cost of the facility. The grant for a Type I Extra Cost can be determined by taking 50 percent of the construction cost of the whole joint-use facility and any applicable service site development costs, and subtracting the base grant amounts of $252 for toilet area in the project and $139 for non-toilet area in the project. The difference is the extra cost.

Type I Joint-Use Grant (Increased Size). A Type I joint-use project that increases size must have square footage eligibility. The first step in determining the grant is to determine the square footage eligibility. The square footage eligibility for a Type I joint-use project that increases the size of the project is calculated by first determining what size facility the district is entitled to based upon the CBEDS and the Chart of Square Footages, located in Regulation Section 1859.124.1. Then simply subtract this amount from the actual square footage being built, and the difference is the square footage eligibility.

Once the square footage eligibility for a Type I is established, the grant can be determined. The first step in determining the grant is to take the square footage eligibility and divide it by the total square footage of the facility being built. This will determine the percentage of the whole joint-use facility that the increased size represents. The base grant then is calculated by multiplying this amount by:

» $252 for Toilet Square footage in the facility
» $139 for Non-Toilet Square footage in the facility

In addition to the above, the project may be eligible for 50 percent of applicable supplemental grants.

Type I Joint-Use Grant (Increased Size and Extra Cost). In some instances, a Type I project may be for both increased size and extra cost. The grant for a Type I project that increases the size and contains extra cost shall be calculated in the following manner:

» Start with the architect's cost estimate to construct the facility.
» Subtract the cost to build the standard size facility that the district would be entitled to based upon the Chart of Square Footages. Since this project is built beyond the standard size facility, first divide the square footage determined from the Chart of Square Footage, by the total joint-use facility. This amount will determine the percentage of the whole facility that represents the standard size facility the district would otherwise be eligible for. Once this amount is determined, multiply this amount by the toilet facility area and by $252 and by the non-toilet facility area and by $139. This amount then becomes the amount to build the standard size facility.
» The difference is the grant amount for increased size and extra cost.
» Add any applicable service site costs.

Urban Locations, Impacted Sites, Security Requirements. Districts with projects in urban locations, on impacted sites, or in areas with security issues, may request a supplemental grant. Contact your project manager for qualifying information.

Joint-Use Partner Project Contribution

The State and local contribution to a joint-use project remains 50/50. However, the Joint-Use Partner contribution has been reduced to a minimum of 25 percent of the eligible joint-use project costs with the remaining local contribution coming from any other district source that would not otherwise be available to the SAB. The district need not have the entire 25 percent joint-use partner contribution on deposit at the time that the project approval is made. However, when the project fund release is requested, the district must certify that the joint-use partner's matching share has been deposited in the County School Facility Fund; has been expended by the district for the project; or will be expended by the district prior to the Notice of Completion for the project. The district representative should be aware that regardless of when the share is contributed to the project, at closeout the district must be able to show that 25 percent of the expenditures on the project were from funds provided by the joint-use partner, unless the district has passed a local bond which specifies that the monies are to be used specifically for the joint-use project, then the district can opt to pay up to the full 50 percent local share of eligible costs. The State share will always be a maximum of 50 percent of the eligible project costs. If the district is unable to demonstrate the expenditure requirement, the apportionment will be reduced. Financial Hardship assistance towards the matching share for Financial Hardship districts will not be provided by the State.

If there are project costs beyond the eligible project costs, those costs can be paid by the district, joint-use partner, or any other local source.

Fund Release

After the funding application is approved and apportioned by the SAB, the next step in the process is the fund release to the County School Facilities Fund for use by the district.

The joint-use grant is processed for release when the district submits a *Fund Release Authorization* (Form SAB 50-05). The Form SAB 50-05 submitted by the district is an important document that cannot be altered or modified by the OPSC. Therefore, an improperly completed Form SAB 50-05 will be returned with a letter of explanation to the school district for correction.

When a properly executed form is received, the OPSC sends a School Facilities Fund Release notification to the district representative and county office of education. The notification indicates the type of grant released, amount, school district, application number, school name, and date processed.

It is important to understand that a Form SAB 50-05 must be submitted within 18 months of the joint-use grant apportionment by the SAB, or the grant will be rescinded without further SAB action. The only exception to this is if the joint-use project is a Type II (stand-alone project). If it is a Type II (stand-alone) joint-use project, the district has one year from the apportionment date to submit final DSA approved plans. Once the DSA approved plans are received by the OPSC, the district will have 18 months from that date to submit the Form SAB 50-05, or the grant will be rescinded without further SAB action.

The Form SAB 50-05 can be downloaded from the OPSC Web site. The properly executed Form SAB 50-05 should be submitted to:

Office of Public School Construction
Accounting
1130 K Street, Suite 400
Sacramento, CA 95814

Section 9

Modernization Funding

Introduction

The School Facility Program (SFP) provides funding assistance to school districts for the modernization of school facilities. The assistance is in the form of grants approved by the State Allocation Board (SAB), and requires a 40 percent local contribution. A district is eligible for grants when students are housed in permanent buildings 25 years old or older and relocatable classrooms 20 years old or older and the buildings have not been previously modernized with State funds. The grant amount is increased and funding for specific utility upgrades is allowed if permanent buildings to be modernized are 50 years old or over. See Section 4, "Application for Eligibility."

The modernization grant (pupil grant) amount is set in law and is based on the number of students housed in the over-age facilities. In addition to the basic grant amount, a district may be eligible for supplemental grants depending on the type and location of the project. In some cases, districts unable to contribute some or all of the local match may be eligible for financial hardship. See Section 10, "Financial Hardship" for more information on this subject. Once the grants are determined for a project, a request is sent to the SAB for a modernization adjusted grant apportionment.

The modernization grant can be used to fund a large variety of work at an eligible school site. Air conditioning, insulation, roof replacement, as well as the purchase of new furniture and equipment are just a few of the eligible expenditures of modernization grants. A district may even use the grants to demolish and replace existing facilities of like kind. However, modernization funding may not be spent for construction of a new facility, except in very limited cases generally related to universal design compliance issues, or for site development.

This section explains the funding application process, typical requirements, and how to determine the modernization adjusted grant amount. It is important to understand that the discussion in this section focuses on the most common situations. There are many variations that may apply to specific projects that can not be covered in this brief overview. As always, the district representative should meet with the Office of Public School Construction (OPSC) project manager and discuss the district plan in detail.

Available Modernization Funding

There are two types of funding applications which may be made under the modernization program:

Modernization Adjusted Grant. A modernization adjusted grant is intended to provide the State's full share for all necessary project costs. In a typical project, a modernization adjusted grant includes the modernization grant (pupil grant) and any applicable supplemental grants as described in this section under "Supplemental Grants".

Separate Design. A separate design apportionment is available for districts that qualify for financial hardship. This apportionment represents 25 percent of the modernization grant[1]. Separate design funding is intended to allow a district to hire an architect to prepare the project plans for Division of the State Architect (DSA) approval. When the plans are complete and approved, and the district is ready to request the remaining modernization adjusted grant, it will be reduced by the design apportionment previously made.

Funding Process

After applying for and receiving approval of modernization eligibility, the process of applying for funding is as follows:

- » the district submits a funding application package;
- » the OPSC reviews the package;
- » the SAB approves the apportionment;
- » the district requests a fund release and makes expenditures;
- » the district submits reports on expenditures to the OPSC;
- » the OPSC audits.

The application for modernization funding is made on a single form, the *Application for Funding* (Form SAB 50-04). The form serves as a vehicle to collect the information necessary to calculate the amount of grants applicable to the project, and also is a certification from the district regarding compliance with requirements of law and the SFP Regulations. The district is ready to submit the application for funding after receiving approval by the California Department of Education (CDE) and the DSA of the plans for the proposed modernization project. In most cases, the district has determined its eligibility for modernization grants on the *Eligibility Determination* (Form SAB 50-03) before applying for funding. However, if the district has not established eligibility for the project previously, it may submit the eligibility application with the funding application (see Section 4, "Application for Eligibility").

The funding application is reviewed by the OPSC for completeness and placed on a workload list by date order received. District representatives can view the status of projects from the workload list that can be found on the OPSC Web site at www.opsc.dgs.ca.gov. The funding applications are then processed in date order for presentation to the SAB for consideration of apportionment. Note that at this time, the OPSC will reduce the funding request by the amount of previous apportionments to the project made under the SFP or Lease-Purchase Program (LPP).

In some cases, the OPSC may find that an application lacks required information. If this is the case, the district is asked to provide the needed information within a specified time. If the district is unable to comply, the application may be returned unprocessed. If this occurs, the district may resubmit the application at any time after the needed information is available. When the application is resubmitted it will be added to the workload list with the new receipt date.

When the SAB has no funds to apportion, the OPSC will continue to accept and process applications based on the date the application is received. The SAB will approve the application for placement on an unfunded list. An application for funding that is placed on an unfunded list is eligible for reimbursement pending the possible availability of future funding.

[1] SFP Regulations, Section 1859.81.1, "Separate Apportionment for Site Acquisition and Design Cost."

Preparing An Application

A complete application package is an essential element of the process of receiving funding for the district's project. The information provided is the basis for determining the grant amounts that the district will receive. The following discussion outlines the major elements of a complete application. This information is not necessary for a separate design funding request, unless noted.

All applications require a complete Form SAB 50-04 and must be based on a previous eligibility approved or must have the eligibility approved as part of the package (see Section 3, "Project Development Activities"). Eligibility for 50 year old buildings is not separate from the other eligibility at the site. If the district is requesting increased funding for pupils housed in 50-year old buildings, site diagrams with the ages and square footages of the buildings in the project must be provided with the application package. Also, please note that districts requiring financial hardship assistance must receive that status before filing a funding application (see Section 10, "Financial Hardship"). To complete the Form SAB 50-04 and to make the required certifications, the district representative will need at least the following supporting information.

Final DSA Approved Plans and Specifications

Education Code Section 17072.30 requires DSA approval of all final plans and specifications for new construction, modernization, or alteration of any school building for which the district is seeking State funding. If a district enters into a construction contract prior to receiving DSA approval of the plans and specifications, the project may not be eligible for State Funding. The date of the DSA approval letter, not the DSA stamp, is considered a valid approval. The DSA approval must be current and valid at the time of submittal of the application for funding to the OPSC. Plans should include all work eligible for funding through the SFP. If plans are submitted in AutoCAD format, a copy of the DSA approval letter is required.

- As of October 2005, all funding applications must be accompanied by the DSA Final Plan Approval Letter.
- Submit all plans necessary to substantiate modernization work. In addition, submit plans for work associated with excessive cost hardship requests listed on the Application for Funding (Form SAB 50-04) for rehabilitation/mitigation, accessibility, fire code, and elevators.
- It is acceptable to submit the specifications on a diskette that is IBM compatible.

Assessibility/Fire Code Requirements Checklist

This completed checklist must be submitted to the DSA when submitting projects that contain access compliance and/or fire code work. Once the checklist has been signed by the DSA, as part of the plan approval process, districts must submit it to the OPSC as part of its complete application package.

Cost Estimate

A complete construction cost estimate signed by the architect or design professional is required for the modernization project. The construction cost as submitted to the DSA must equal at least 60 percent of the total project cost (district and State share).

CDE Plan Approval Letter

The CDE must approve plans for modernization projects before they can be considered for funding under the SFP. The district should contact the School Facilities Planning Division (SFPD) of the CDE as early as possible in the planning process.

District Certifications

As previously mentioned, the Form SAB 50-04 is also an official certification to a number of SFP requirements. The form and the instructions to the form provide specific detail about the certifications; however, some of the issues to which the district representative will have to certify are as follows:

- The district has established a "Restricted Maintenance Account" (see Section 13, "Additional SFP Requirements and Features" for more information).
- The facilities to be modernized were not previously modernized under the LPP.
- Contracts for the services of an architect, structural engineer, or other design professional which were signed after November 4, 1998 were obtained pursuant to a qualifications based competitive process (see Section 3, "Project Development Activities" for more information).
- The property to be modernized using SFP funds is either owned by the district or county superintendent or it is leased from another governmental entity. If the property is leased, the lease is for at least 40 years from a non-federal governmental agency or 25 years from a federal governmental agency. The cost of the lease is not an eligible cost under the SFP.
- If this request is for a large new construction or a large modernization project, the district has consulted with the career technical advisory committee established pursuant to Education Code, Section 8070, and it has considered the need for vocational and career technical facilities to adequately meet its program needs in accordance with Education Code, Sections 51224, 51225.3(b) and 52336.1.
- All large modernization funding applications for comprehensive high schools must be accompanied by evidence of compliance with Education Code, Section 17070.95. Documentation may include any of the following:
  - *Minutes from a public meeting by the school district's governing board documenting the discussion with and the recommendations of the local CTEAC regarding the CTE facility needs assessment.*
  - *Minutes from the meeting with the local CTEAC regarding the CTE facility needs assessment and recommendations.*
  - *Letter from the local CTEAC to the school district that identifies the subject of the discussion, the CTE facility needs assessment, and recommendations.*
- If the district is requesting an Additional Grant for Energy Efficiency pursuant to SFP Regulations, Sections 1859.71.3 or 1859.78.5, the increased costs for the energy efficiency components in the project exceeds the amount of funding otherwise available to the district.
- The district has or will initiate and enforce a Labor Compliance Program that has been approved by the Department of Industrial Relations, pursuant to Labor Code, Section 1771.7, if the project is funded from Proposition 47 or 55 and the Notice to Proceed for the construction phase of the project will be issued on or after April 1, 2003.
- Beginning with the 2005/2006 fiscal year, the district has complied with Education Code, Section 17070.75(e), by establishing a facilities inspection system to ensure that each of its schools is maintained in good repair (see Section 13, "Additional SFP Requirements and Features" for more information).
- The district has considered the potential for the presence of lead-containing materials in the modernization project and will follow all relevant federal, state, and local standards for the management of any identified lead.

Finally, to reduce the need to submit extensive supporting documentation, the OPSC will ask that the architect of record or other design professional certify to the following:

- The date that the DSA approved the plans and specifications.
- The number of classrooms demolished and not replaced and the number of classrooms constructed. (This is necessary to verify that no new construction, except the replacement of demolished facilities, is done with modernization funds.)
- That the cost estimate for the work in the plans and specifications as submitted to the DSA is at least 60 percent of the total grant provided by the State's and district's matching share.

Modernization Grant Amounts

The modernization grant is based on the number of pupils assigned to the project. This number may simply be the number of students enrolled at the site where the modernization will occur. This is usually true when all of the buildings at the site are 25 years or older for permanent buildings and 20 years or older for relocatable structures. In cases where only some of the buildings at the site are over age, and therefore eligible for modernization, the number of pupils assigned to the modernization project will probably be less than the total pupils on the site. The Form SAB 50-04 will assist the district in determining the proper number of pupils to be included in the application. When this number is determined, it is then possible to calculate the modernization grant amount as described in the next section. The following are the types of grants:

» Modernization Grant
  – *Modernization Grant for 50-Year-Old Buildings*
» Supplemental Grants

Modernization Grant

The pupil grant amount is intended to provide the State's share for all essential project costs, which include but are not limited to funding for design, the modernization of the building, education technology, unconventional energy, tests, inspections, and furniture and equipment. To calculate the district's modernization share, multiply the modernization grant by 0.6667.

Modernization Grant Calculation

The modernization grant for each pupil housed in buildings to be modernized is established by law.[2] The grant amount is adjusted every year in January, based on changes to the Class B construction cost index, by action of the SAB. As of January 2007, the modernization grants, which represent the State's 60 percent share of the project, are as follows:

Modernization Grant Amount

CLASSIFICATION	MODERNIZATION GRANT AMOUNT	COMMENTS
Elementary Pupil	$ 3,262	
Middle School Pupil	$ 3,450	Include grade six pupils if part of a 6–8 grade school.
High School Pupil	$ 4,516	
Special Day Class – Non-Severe	$ 6,953	
Special Day Class – Severe	$10,391	
State Special School	$17,325	

[2] Education Code, Section 17074.10.

Modernization Grant for 50-Year-Old Buildings

CLASSIFICATION	BASIC GRANT AMOUNT
Elementary	$ 4,530
Middle School	$ 4,792
High School	$ 6,274

CLASSIFICATION	BASIC GRANT AMOUNT
Special Day Class—Non-Severe	$ 9,656
Special Day Class—Severe	$14,440
State Special School	$24,066

A modernization grant request must be for at least 101 pupil grants, or the remaining modernization eligibility at that school site if less than 101 grants are available.

Supplemental Grants

The supplements are intended to recognize special costs associated with projects of a certain type or located in certain areas. The district also uses the Form SAB 50-04 to supply information related to the supplemental grants. There are many possible supplemental grants as follows:

» Elevators
» Energy Efficiency
» Fire Code Requirements
» Geographic Location
» Handicap Access and Fire Code Compliance
» Labor Compliance Program
» Project Assistance
» Rehabilitation
» Site Development for 50-Year-Old Buildings
» Small School High Program
» Small Size Projects
» Urban Locations, Impacted Sites, Security Requirements

The following is a brief explanation of the supplemental grants:

Elevators

If the DSA requires 2-stop elevators in the modernization project, the modernization grant will be increased by $87,121 for each two-stop elevator. The district must attach the DSA letter that requires the elevators be included in the project for handicap access compliance. The modernization grant will be increased by $15,680 for each additional stop required.[3] The grant amount will be adjusted annually using the Class B index.

Energy Efficiency

A supplemental grant is available to districts with projects that have increased costs associated with plan design and other project components for school facility energy efficiency. The facilities in the proposed project must exceed the nonresidential building energy efficiency standards as specified in Title 24, Part 6

[3] SFP Regulations, Section 1859.83(f), (1) and (3), "Excessive Cost Hardship Grant."

of the California Code of Regulations by at least 10 percent. Currently all energy efficiency funds have been exhausted. At the September 2006 SAB the remaining modernization energy funds were re-designated to fund the new construction energy projects.

Fire Code Requirements

The modernization grant will be increased for each pupil in a project that includes an automatic fire detection and alarm system. The current increase is as follows:

Modernization Grant increase—Automatic Fire Detection and Alarm System

CLASSIFICATION	GRANT INCREASE
Elementary	$104
Middle School	$104
High School	$104

CLASSIFICATION	GRANT INCREASE
Special Day Class—Non-Severe	$195
Special Day Class—Severe	$291

The amounts shown above are the 60 percent State share and are adjusted annually in the same manner as the Modernization Grant.

Geographic Location

A supplemental grant is available to districts with projects that are located in areas of California that are remote, difficult to access, or lack a pool of contractors. A district may qualify and request an augmentation to the modernization grant because of their geographic location.

Handicap Access and Fire Code Compliance

The excessive cost hardship grant for access compliance[4] is based on actual hard costs as reported by the district on the accessibility/fire code requirements checklist. These costs must be the minimum work necessary to receive approval from the Access Compliance Unit of the DSA and must be verified by the DSA and the OPSC. The grant is calculated by taking the difference of the verified actual hard costs and subtracting seven percent of the sum of the State and district share of the project's modernization base grant (when the Lease Purchase Program converted to the SFP, it was the intent that seven percent of the modernization base grant covered access compliance work). However, there is a cap that may not be exceeded.

If the construction costs of a modernization project exceed 50 percent of its replacement cost, the building must be brought into compliance with the current building code as part of the Title 24 requirements. Therefore, the maximum a district can receive for access compliance is the difference between the new construction base grant (which represents approximately 50 percent of the replacement cost) and the sum of the State and district share of the modernization project's base grant.

The chart below illustrates how the excessive cost hardship grant cap is calculated based on one pupil grant, and how the seven percent is applied:

[4] SFP Regulations, Section 1859.83(f), "Excessive Cost Hardship Grant."

Calculation of Maximum Grant (Cap)—Based on One Elementary Pupil

STATE AND DISTRICT SHARE OF NEW CONSTRUCTION BASE GRANT AT 50 PERCENT	*subtract*	STATE AND DISTRICT SHARE OF MODERNIZATION BASE GRANT	*equals*	MAXIMUM GRANT ALLOWABLE FOR ACCESSIBILITY REQUIREMENTS
$8,081		$5,437		$2,644

This chart provides examples of the calculation of the excessive cost hardship grant:

Examples of Calculation of the Excessive Cost Hardship Grant

IF THE MINIMUM ACCESSIBILITY WORK VERIFIED BY DSA IS:		7 PERCENT OF STATE AND DISTRICT SHARE OF MODERNIZATION BASE GRANT		DIFFERENCE	EXCESSIVE COST @ 100 PERCENT
$2,000	*subtract*	$ 381	*equals*	$1,619	$1,619
$3,500	*subtract*	$ 381	*equals*	$3,119	$2,644 (cap)
$ 350	*subtract*	$ 381	*equals*	–$ 31	$ 0

Modernization projects that consist of replacement of buildings in like-kind instead of modernizing them will be eligible for an excessive cost hardship grant equal to three percent of the modernization base grant only.

Labor Compliance Program (LCP)

A labor compliance program, as specified by Labor Code Section 1771.5, must be initiated and enforced for each project funded wholly or in part from Propositions 47 or 55 funds if the Notice to Proceed was issued on or after April 1, 2003. Additional funding is provided for these projects. The LCP grant is calculated on a sliding scale as follows:

Labor Compliance Program Grant

IF TOTAL PROJECT COST IS...		THEN THE TOTAL LCP COST IS...
AT LEAST	UP TO	
$ 0	$ 1 million	$ 16,000
$ 1 million	$ 2 million	$ 16,000 plus 0.016 multiplied by the amount over $1 million
$ 2 million	$ 3 million	$ 32,000 plus 0.0025 multiplied by the amount over $2 million
$ 3 million	$ 4 million	$ 34,500 plus 0.0015 multiplied by the amount over $3 million
$ 4 million	$ 6 million	$ 36,000 plus 0.0032 multiplied by the amount over $4 million
$ 6 million	$ 8 million	$ 42,400 plus 0.0031 multiplied by the amount over $6 million
$ 8 million	$13 million	$ 48,600 plus 0.0046 multiplied by the amount over $8 million
$13 million	$18 million	$ 71,600 plus 0.0044 multiplied by the amount over $13 million
$18 million	$48 million	$ 93,600 plus 0.0042 multiplied by the amount over $18 million
$48 million	N/A	$219,600 plus 0.004 multiplied by the amount over $48 million

The State's share will be 60 percent of the above result.

Project Assistance

The SAB may provide additional project grants for project assistance to small school districts with enrollment of 2,500 pupils or less. The current additional grant of $2,755 may be used for costs associated with the preparation and submission of the SFP eligibility and funding applications, including costs related to support documentation such as site diagrams. The grant amount will be adjusted each year using the Class B index. The district can find the current amount on the OPSC Web site.

Rehabilitation

A district may apply for the rehabilitation of facilities that the SAB has determined are an imminent health and safety risk to the pupils, if the cost/benefit analysis to mitigate the problem and remain in the building is less than 50 percent of the current replacement cost. If the district qualifies, the district is eligible for funding of rehabilitation costs as a modernization project.

Site Development for 50-Year-Old Buildings

A supplement grant is provided for the purpose of upgrading existing utilities as necessary for the modernization of 50 year or older permanent buildings. Sixty percent of the estimated utility costs, up to a maximum of twenty percent of the Modernization Grants (pupil grant), are available. Allowable utility cost fall under five categories:[5]

- Water
- Sewage
- Gas
- Electric
- Communication systems

It is important to understand that site development costs have restrictions on their use. The district representative should consult the SFP Regulations and the OPSC project manager if he or she is unsure if a particular item is an allowable cost before including the work in the project.

If a district is requesting a supplemental grant associated with site development on the Form SAB 50-04, verification must be submitted to support the request. To assist in gathering the supporting detail, the OPSC has developed a Site Development Worksheet for Additional Grants that is located on the OPSC Web site. The district may use this worksheet or similar method to submit this information to the OPSC.

Small High School Program

The Small High School Program is a pilot program that will sunset on January 1, 2008. A supplemental grant is available for the reconfiguration of large high schools into small high schools. The reconfiguration must result in at least two or more small high schools. Each small high school created may receive a supplemental grant up to $500,000 for costs related to the reconfiguration.

Small Size Projects

A supplemental grant is available to districts with projects that house no more than 200 pupils. The grant is intended to provide additional funds to modernize core facilities and to make up for the lack of economies of scale for small projects. The modernization grant can be increased by 12 percent for a project that will house less than 101 pupils, or by four percent if the project will house over 100, but no more than 200 pupils.

5 SFP Regulations, Section 1859.78.7, "Modernization Additional Grant for Site Development Necessary for 50 Years or Older Permanent Buildings."

Urban Locations, Security Requirements and Impacted Sites

Districts with projects in urban locations on impacted sites may request a supplemental grant if:

» The useable site acreage for the project is 60 percent or less of the site size recommended by the CDE based on current CBEDS Report at the site at the time of the CDE final plan approval for the modernization project.

Urban locations on impacted sites are generally in areas of high population density. Districts with projects on these impacted sites are also faced with extra security requirements. The supplemental grant provides funds for security fences, watchpersons, increased premiums for insurance for contractors, and storage or daily delivery of construction materials to prevent theft and vandalism. If a district requests grants due to these circumstances, the OPSC will verify the district's eligibility pursuant to the CDE Final Plan Approval letter.

If the above criterion is met, the urban supplemental grant is calculated on a sliding scale as follows:

Modernization Urban Grant Adjustment

IF...	THEN...
the useable acres are 60 percent of the CDE recommended site size, as described above...	the urban grant adjustment is 15 percent of the Modernization Grant and of the funding for small size projects† and new school projects*, and a 0.333 percent increase to the urban grant adjustment for each percentage decrease in the CDE recommended site size below 60 percent.

* SFP Regulations, Section 1859.83(b), "Excessive Cost for Projects that House No More than 200 Pupils (Small Size Project)"

District Project Contribution

Every modernization application is a joint funding effort between the local school district and the State though the SFP. The State grant is discussed in the section entitled "Modernization Grant", earlier in this section. The total State grant represents 60 percent of the total project cost, with the district contributing the remaining 40 percent of the necessary funding.

The district contribution may come from virtually any source. The sole exception is that when savings from another SFP project are used as match, it must be from a modernization project only. This restriction exists due to legal requirements pertaining to the bond funds, which the State uses as a program-funding source.

The district need not have the entire 40 percent local contribution on deposit at the time that the project approval is made. However, at the time of the project fund release, the district must certify that the district's matching share has been deposited in the County School Facility Fund; has been expended by the district for the project; or will be expended by the district prior to the Notice of Completion for the project. Thus the district has considerable flexibility in how the local share is arranged and contributed. The district representative should be aware, however, that regardless of when the share is contributed to the project, the district must be able to show at closeout that 40 percent of the expenditures on the project were from local sources. If the district is unable to demonstrate the 40 percent expenditure requirement has been met, the apportionment will be reduced.

Unable to Meet the Contribution

Districts that are unable to contribute all of the 40 percent local share of a project, can pursue financial assistance through the financial hardship provisions of the SFP. Districts must submit financial data to the OPSC for "pre-approval" of financial hardship status (see Section 10, "Financial Hardship") before submitting a funding application. In addition, this "pre-approval" enables districts to request a separate apportionment for design costs, if necessary.

SAB Approval Process

The SAB approval can either be an apportionment or "unfunded" approval, depending on the availability of funds for modernization. If there are no funds available, the project will be placed on a list of unfunded projects to await possible future funding.

Fund Release

After the funding application is apportioned by the SAB, the next step in the process is the actual fund release to the County School Facilities Fund for use by the district.

The SFP grant is processed for release when the district submits a *Fund Release Authorization* (Form SAB 50-05). The Form SAB 50-05 submitted by the district is an important document that cannot be altered or modified by the OPSC. Therefore, an improperly completed Form SAB 50-05 will be returned with a letter of explanation to the school district for correction.

When a properly executed form is received, the OPSC sends a School Facilities Fund Release notification to the district representative and county office of education. The notification indicates the type of grant released, amount, school district, application number, school name, and date processed.

It is important to understand that a Form SAB 50-05 must be submitted within 18 months of the SFP grant apportionment by the SAB, or the entire new construction or modernization adjusted grant will be rescinded without further SAB action. If this should happen, the pupils housed in the project will be added back to the district's eligibility and the district may re-file the application at any future time.

The Form SAB 50-05 can be downloaded from the OPSC Web site. The properly executed Form SAB 50-05 should be submitted to:

Office of Public School Construction
Accounting
1130 K Street, Suite 400
Sacramento, CA 95814

Section 10

Financial Hardship

Introduction

Financial hardship assistance is available for those districts that cannot provide all or part of their funding share of a School Facility Program (SFP) project. In order to receive financial hardship assistance, a district must have made all reasonable efforts to raise local funding and must also demonstrate that it is unable to contribute all or a portion of the matching share requirement.

If the district meets the financial hardship criteria, it is eligible for financial assistance for new construction or modernization projects. It may also be eligible for a separate apportionment for the following:

» For new construction or modernization projects, an early apportionment for design costs.
» For new construction projects, an early apportionment for site acquisition.

A district seeking financial assistance must have an approved financial hardship status prior to submitting an *Application for Funding* (Form SAB 50-04) for either a new construction or modernization grant request. In order to obtain this approval the district must provide verification that a reasonable effort was made to meet the district's matching share requirement, and must have confirmation from the Office of Public School Construction (OPSC) that the district is unable to contribute the entire matching share requirement. When this is accomplished, the OPSC will recommend that the district be approved as a financial hardship and will send a 'pre-approval' letter to the district.

Qualifying for Financial Hardship Assistance

To apply for financial hardship, send a letter to the OPSC Financial Hardship Audit Unit stating why the district is requesting financial hardship. Along with the letter, the district must submit the following documents:

Documentation for Financial Hardship Application

LEGAL REQUIREMENT	FINANCIAL DOCUMENTATION REQUIRED
Levy maximum developer fee allowed	School Board Resolution regarding developer fees
Demonstrate local effort to raise revenues	Evidence of at least one of the following: • Debt level at 60 percent of bonding capacity • Total district bonding capacity less than $5 million • The district had a successful registered voter bond election for at least the maximum allowed under Proposition 39 within the previous 2 years. • Other evidence which demonstrates that all reasonable local efforts have been made as approved by the State Allocation Board (SAB)

continued on following page...

Documentation for Financial Hardship Application...

LEGAL REQUIREMENT	FINANCIAL DOCUMENTATION REQUIRED
Financial inability to contribute the match	Evidence that facility funds are not available: • Financial Hardship Project Worksheet • Financial Hardship Worksheet • Latest independent audit reports • Encumbrances • Expenditure reports • Listing of the district's unused sites • Forms SAB 50-01 and SAB 50-02 for "interim housing" deduction calculation for new construction projects only • Written estimation of interim housing needs

If the financial hardship package is incomplete, a letter will be sent to the district requesting the necessary documentation to make the request complete. If the requested information is not submitted in a timely manner, the request will be returned unprocessed. The district may re-file the request whenever the missing documents become available.

County offices of education do not need to provide documentation regarding developer fees or evidence of reasonable effort to raise local funds.

Financial Hardship Assistance Request

In order to qualify for financial hardship assistance, the school district must demonstrate that it has made all reasonable efforts at the local level. The district must also provide evidence that it is unable to pay all or a portion of the district's share of the project. The process of providing the required evidence is discussed in this section.

Evidence of Reasonable Effort to Fund Matching Share

As previously mentioned, the law requires that a district seeking financial hardship assistance must demonstrate that all reasonable efforts have been made to raise local revenues for the SFP matching requirement. The SAB has adopted regulations that set criteria to determine that this requirement is met. The district must be levying developer fees at the maximum rate justified by law and must verify it meets at least one of the following:

Bonding Capacity and Indebtedness Threshold. The current outstanding indebtedness of the district, at time of financial hardship request, is at least 60 percent of the district's total bonding capacity. A district with a total bonding capacity of less than $5 million meets this requirement regardless of the level of indebtedness. Outstanding indebtedness includes General Obligation Bonds, Mello-Roos Bonds, School Facility Improvement District Bonds and Certificates of Participation (COPs) that was issued for capital outlay school facility purposes, on which the district is paying a debt service.

The required documentation needed is a certification from the county auditor controller stating the district's assessed valuation, outstanding indebtedness, and remaining bonding capacity.

Voter Bond Election. The district had a successful registered voter bond election for at least the maximum amount allowed under Proposition 39 within the previous two years from the date of request for financial hardship status. The proceeds from the bond election that represent the maximum amount allowed under the provisions of Proposition 39 must be used to fund the district's matching share requirement for SFP project(s).

The required documentation needed:

- Copy of ballot issue.
- Original bond election estimates that support the amount of bond for which the district sought election.
- Date of election; amount of bond; purpose of bond; percent of "Yes" vote on bond.
- Copy from County Auditor-Controller certifying the district's current bonding capacity and outstanding indebtedness.

County Superintendent of Schools. A county superintendent of schools automatically meets the reasonable effort. The County Superintendent must then complete a financial review to determine the level of financial assistance needed.

Other Evidence of Reasonable Effort. If the district does not meet the reasonable effort requirements outlined above, it may present to the SAB other evidence of reasonable efforts to fund its matching share. This can be done using a *School District Appeal Request* (Form SAB 189). This form and instructions for completing the form are available on the OPSC Web site. In addition to the completed Form SAB 189, the district must also submit updated Financial Hardship Worksheets for each fund within the Capital Project Funds and the latest independent audit report. If the hardship justification is approved by the SAB, the district may then file its request for financial hardship using the approved SAB item as evidence of having met the reasonable effort test to fund its matching share for its projects. The district must then submit all of the requested financial documents necessary for a final financial hardship review, as described in the table "Documentation for Financial Hardship Application" on page 71.

Financial Review

The OPSC will conduct an analysis of the district's financial information to verify that the district is unable to provide all or a portion of the necessary matching funds for an eligible project. The analysis will include the applicant's financial records including those maintained by the California Department of Education (CDE) and the county office of education. The review will determine whether available non-operational funds and savings from other SFP projects are sufficient to fund all or a portion of the matching share requirements on a project. See SFP Regulations, Section 1859.81, for more information on the financial review.

Financial Hardship Project Worksheet. This is used by the OPSC to estimate the district's share of the project. The district must submit a separate Financial Hardship Project Worksheet for each project for which it is requesting financial assistance. The worksheet can be found on the OPSC Web site.

Financial Hardship Worksheet. This worksheet is used by the OPSC to determine the amount of the cash contribution to be provided by the district. These worksheets are based on the latest independent audit report and then brought current to application date with subsequent transactions that have occurred in the funds. Detail of the expenditures made for the subsequent events must accompany this worksheet. If this is not submitted, all of the expenditures shown will be disallowed and deemed as "funds available".

On the worksheet, the district will identify restricted funds such as class size reduction, as well as the purpose for any restrictions on funds, and will identify all bonds and COPs authorized and sold to date of financial hardship request. If the district has unsold bonds or COPs, possible restrictions on the use of these funds should be noted.

Latest Independent Audit Report. The district's latest independent audit report is used by the OPSC to verify the financial condition of the district. The district must submit the entire audit report.

Developer Fee Information

The district must be levying developer fees at the maximum rate justified under law or have an alternative revenue source equal to or greater than the developer fee otherwise justified.[1] As evidence, please include a copy of the resolution from the district's school board authorizing the levying of the fee. If the district is not levying the maximum fee allowed by law in accordance with current statute, include a copy of the district's recent Implementation Study and/or the Needs Analysis to support the amount being levied or justification for an alternative revenue source.

If the district entered into an agreement with a city, county, or other government entity regarding developer fees, please submit a copy of that agreement. In addition, please submit documents showing the amount of fees that could have been collected during the time frame of the agreement versus the amount that was actually collected and shown as revenue for the district.

If the district received any benefit, building, land, etc., in lieu of developer fees please submit documentation regarding the "in lieu" received and the value of the developer fees that were negated due to the "in lieu" agreement(s). If the district did not enter into agreements regarding developer fees, please submit a statement to that effect.

The current developer fees can be found on the OPSC Web site at www.opsc.dgs.ca.gov. Developer fee amounts are adjusted every even numbered year at the January SAB meeting based on an index specified in law. In order to maintain financial hardship eligibility, districts must implement the new developer fee within six months after an index change.

Encumbrances. The district must provide contracts and all other documentation supporting any encumbrances or obligations the district is claiming. All funds identified that have not been expended or encumbered by a contractual agreement for a specific capital outlay purpose prior to the initial request for financial hardship status shall be deemed available as a matching contribution.

Interim Housing Deduction from Available District Funding. From the funds available as a matching contribution, the district may retain $28,709 per classroom in each enrollment reporting period for the cost to provide interim housing for the currently unhoused pupils of the district. In addition, from the funds available as a matching contribution, the district may also retain $28,709 per approvable portable toilet unit in each reporting period for the cost to provide interim toilet facilities for the currently unhoused pupils of the district. This amount is adjusted annually. The current amount can be found on the OPSC Web site.

If the district is requesting an "interim housing" deduction from available funds, it needs to submit in writing an estimation of the district's interim housing needs for the year. The interim housing deduction and any related expenditures will be audited in the future.

Expenditure Reports. The district must submit expenditure reports, *Summary of Expenditures and Construction Progress* (Form SAB 184) and *Detailed Listing of Warrants Issued by the District* (Form SAB 184A), for each project for which the district is requesting financial hardship. If no funds have been spent on a project, the district must submit a statement to that effect. The OPSC will review any prior apportionment and the expenditures reported. All expenditures above and beyond a prior apportionment will be considered as a matching contribution. The SAB will not reimburse the district for expenditures made prior to the financial hardship approval.

Listing of the District's Unused Sites. The district must submit a listing of the district's unused sites and intended use. If the district has no unused sites, submit a statement to that effect.

[1] Education Code Section 17075.10.

Approval of Financial Hardship Assistance

Once the financial hardship review is complete, the OPSC will send a letter to the district stating the available funds and expenditures that will be considered available for match purposes. If the district disagrees with the OPSC's findings, the district may submit additional information for consideration. Once the district has been approved for financial hardship (has a pre-approval letter), the district may submit its Form SAB 50-04, for the projects and specific phases listed in the financial hardship approval letter.

When a district is approved for financial hardship, the approval is valid for six months. If, within the six months, the district wishes to submit additional applications or phases of a previously approved project, it must have a pre-approval letter for those additional specific projects or subsequent phases prior to filing the Form SAB 50-04. To obtain pre-approval within the six months, the district must submit a Financial Hardship Project Worksheet for the project along with expenditure reports. The district does not need to update other financial information unless the six month period is past.

If the district's request for financial hardship status is denied by the Board, the district may be eligible for rental payments of $2,000 per year per classroom under the Emergency School Classroom Law of 1979 for a two year period when relocatable classroom buildings are available and the district provides financial documentation satisfactory to the Board that it is unable to afford the full rental amount.

Subsequent Financial Hardship Request

Once a district receives funding as a financial hardship, the district should be aware that for a period of three years, all capital facilities funding received by the district from any source will be considered available for the matching share on a future financial hardship request. The exceptions are:

- Approved interim housing expenditures;
- Funding to pay for multi-year encumbrances approved at the initial financial hardship approval;
- Funding that is transferred into a Special Reserve Fund and is used for the purpose of the Federal Renovation Program;
- School Facilities Needs Assessment Grant Program; or the
- Emergency Repair Program.

Renewal of Financial Hardship Assistance

If the district does not submit an *Application for Funding* (Form SAB 50-04) within six months of the OPSC notification of approval of financial hardship status, the district must re-qualify for financial hardship status by submitting a new request for financial hardship status.

The district will need to update its financial information by providing all required documentation as listed in the table "Documentation for Financial Hardship Application" on page 71 .

Financial Hardship Review for Financial Hardship Projects on Unfunded List

If a district's project(s) has been included on an unfunded list for more than 180 calendar days, a review of the district's funds will be made to determine if additional district funds are available to fund the district's matching share of the project(s).

This page is intentionally blank.

Section 11

Facility Hardship Grant

Introduction

Under very limited circumstances, a need to replace or construct new facilities may exist for reasons other than enrollment growth. For instance, a classroom or support facility may no longer be safe to occupy due to a structural failure or other severe health threat. To address these unusual situations, the State Allocation Board (SAB) has developed a facility hardship grant. The purpose of the grant is to assist districts with funding where it has been determined that the district has a critical need for pupil housing because the condition of the facilities, or the lack of facilities, presents an imminent threat to the health and safety of the pupils.

By definition a facility hardship is an unusual, often unique situation. It is difficult to describe a "normal" process since each request must be reviewed and analyzed on a case-by-case basis. This section outlines the process, but by no means addresses all possible facility hardship situations. When a significant and serious threat exists to the health and safety of students or staff in any public school environment or if an existing facility has been destroyed by natural disaster, the district should contact the Office of Public School Construction (OPSC) project manager for guidance.

Eligibility for Facility Hardship Grants

To be eligible for a facility hardship grant the district must demonstrate that one of two conditions exists: facilities must be replaced due to an imminent health and safety threat, or existing facilities have been lost to fire, flood, earthquake or other disaster. If the district is to qualify for a facility hardship grant under one of these two conditions, the district wide enrollment must justify a continuing need for these facilities, pursuant to the School Facility Program (SFP) Regulation, Section 1859.82.

Replacement Due to Imminent Health or Safety Hazard

In this case, existing facilities must be replaced to ensure the health and safety of the pupils because of circumstances such as the following:

- The existing facilities have serious structural deficiencies, which must be repaired or corrected as specified by the Division of the State Architect (DSA); or
- An imminent hazard exists because the existing facilities are in close proximity to a major freeway, airport, electrical facility, high power transmission lines, dam, pipeline, industrial facility, adverse air quality emission source; or
- There are existing traffic safety problems or the pupils live in a remote area and transportation to existing facilities is not possible or poses a serious threat to the health and safety of the pupils; or
- Environmental health hazards such as dangerous levels of mold contamination; or
- Other situations exist which pose a threat to the health and safety of the pupils.

A facility hardship approval to replace facilities is limited to the most severe instances of need. Clear demonstration is needed that the health and safety of the children is in jeopardy.

Documentation. Typical supporting documentation should be in the form of written statements/reports by a qualified industry expert or specialist appropriate for the specific area of concern. This documentation must then be reviewed and written concurrence provided by the appropriate State agency expert that has jurisdiction relating to the problem area. For example, air quality threats might involve a certified professional on staff at the State Department of Health; traffic problems might be supported by the California Highway Patrol, and so forth. If structural deficiencies are the basis of the health and safety threat, a licensed structural engineer's report is required that substantiates the structural deficiencies which were out of compliance with codes in place at the time of original construction. The structural report must be accompanied by a letter of concurrence by the DSA. In any case, the statement provided to the OPSC must indicate how the problem poses an immediate threat to the health and safety of the children. Refer to Appendix 2, "Potential State Agency Involvement" for possible contact information.

Cost/Benefit Analysis. If the district has substantiated a health and safety issue and wishes to replace existing facilities, a cost/benefit analysis must be prepared and submitted to the OPSC. The analysis should include only the minimum work necessary to mitigate the identified health or safety problems and compare these with the SFP standard for Current Replacement Cost. The cost/benefit analysis may include applicable site development costs.

If the request is for replacement facilities that are needed as a result of structural deficiencies, the cost/benefit analysis must also include a report from a licensed design professional identifying the minimum work necessary to obtain the DSA's approval. The cost/benefit analysis must include a narrative of the structural deficiencies and a description of the repair approach required to perform the minimum work necessary to mitigate the health and safety threat to obtain DSA approval. The analysis must also include a detailed cost estimate for the minimum work necessary described in the narrative. "Soft costs" such as architect fees, testing and inspection may be included in the cost estimate as a separate line item but should not be included in the cost/benefit analysis. The analysis and detailed cost estimate must be signed by the authoring licensed design professional.

If the total cost to mitigate the health or safety problem and remain in the facility exceeds 50 percent of the current replacement cost of the facility, it can be considered for abandonment and replacement. However, if the cost to remain in the facility is less than 50 percent of the current replacement cost, the district may qualify for rehabilitation. A qualifying replacement project will receive 50 percent of the eligible cost. A rehabilitation project will receive 60 percent of eligible costs. For more information on rehabilitation, refer to Section 9, "Modernization Funding."

Facilities Lost or Destroyed as a Result of a Disaster

A district may apply for the replacement of school facilities that were lost or destroyed as a result of a disaster, such as fire, flood or earthquake, for the following facility types:

- Classroom or related facility
- Library/media center
- Multi-purpose room
- School administration
- Gymnasium
- Toilet

Qualifying facilities must be required to ensure the health and safety of the pupils and must no longer be useable for school purposes as recommended by the California Department of Education and approved by the State Allocation Board (SAB). The district is also required to demonstrate satisfactorily to the SAB that the facility was uninsurable or the cost of insurance was prohibitive.

Documentation. Supporting documentation for facility hardship requests for the replacement of lost or destroyed facilities would include the following:

- Photos and written verification from the appropriate expert that documents the loss or the extent of damage to the school facility.
- Copy of the district's insurance policy that documents the level and type of coverage provided.
- Written verification from the district's insurance carrier that documents the amount of funds that the district has and/or will recover as a result of the disaster.
- If the facility is damaged, as opposed to entirely destroyed, the district must submit a licensed structural engineer's report, as outlined in this section, illustrating the extent of the damage and that the facility poses an immediate threat to the health and safety of the students and staff. The district would also be required to submit a cost/benefit analysis, as outlined in this section, signed by the authoring licensed design professional. The OPSC requires the district submit the DSA's concurrence with the report.

Application and Approval Process

In addition to the documentation supporting the health and safety issue and the cost/benefit analysis, as applicable, all facility hardship requests must also include the following:

- An Application for Funding (Form SAB 50-04) completed as applicable to make the initial request for conceptual approval by the State Allocation Board for the specific facility hardship type.
- A School District Appeal Request (Form SAB 189) that summarizes the district's request for a facility hardship including how the condition presents an imminent threat to the health and safety of the students and staff.
- A plot diagram that indicates the overall site layout, the facilities designation of the buildings and square footage. The diagram should indicate the specific structures at the school site for which the facility hardship request is being submitted.

After the analysis of the report(s) and review of the cost by the OPSC, an item will be prepared for presentation to the SAB for consideration of conceptual approval. If the SAB approves the district's request for new or replacement facilities, the district is eligible for funding as a new construction project. The district can then proceed with hiring an architect in order to complete plans, obtain DSA approval, and apply for funding grants. A district that receives a conceptual approval has 18 months, or 24 months if a new replacement school site is required, to submit a complete funding application (including DSA plan approvals, cost estimates, etc.). Funding for a facility hardship is subject to the availability of funds.

Interim Housing

In the event of an emergency or for districts in need of short-term interim housing to meet their facility needs, districts may seek assistance from the OPSC. Our project managers will evaluate each request on a case-by-case basis and will work with districts to find them interim housing as the SAB has approved the phase out of the State Relocatable Classroom Program. If a district is in need of immediate facilities to replace those damaged by a natural disaster, the OPSC can administratively expedite the approval of new construction funding applications through the Natural Disaster Plan, which allows districts to purchase relocatable classrooms quicker to address their facility needs. Again, our project managers will assist districts with processing these type of applications to ensure facilities are received in a timely fashion.

Section 12

Program Accountability

Introduction

The School Facility Program (SFP) has significantly increased program flexibility and responsibility at the local level, while reducing the State's oversight role. In general, the State's fiscal concerns are limited to verifying that the expenditures and certifications of program requirements made by the district for the project comply with the law, that the district followed applicable State requirements pertaining to construction and to verify that the project progresses in a timely manner as specified in statute. To assist with this oversight, a district is required to submit expenditure reports and evidence of progress during the construction of the project. On a project that requires less than a year to complete, only an expenditure report is required.

Progress Report

The SFP requires that an approved project be constructed within certain time frames. To ensure that this happens, evidence of progress is generally due after funds are released to the district for the project.[1] The specific evidence required and the timeframe for submitting such evidence depends on the type of funding received. The possible types of funding include Separate Design (Financial Hardship), Separate Site (Financial Hardship), Separate Site (Environmental Hardship), and/or Adjusted Grant. The following table defines the specific criteria for meeting the substantial progress requirement and indicates the filing time requirements based on the type of funding received.

[1] In cases where separate environmental hardship funds are involved, the due date is based on the apportionment date instead of the fund release date.

Substantial Progress Reports

FUNDING RECEIVED	EVIDENCE OF PROGRESS DUE DATE	EVIDENCE OF PROGRESS REQUIRED
Separate Design (Financial Hardship project only)	18 months from Fund Release	One of the following: • Submittal of a complete Adjusted Grant funding application package to the Office of Public School Construction (OPSC). • Submittal of a district certification that complete plans and specifications have been submitted to the Division of the State Architect (DSA). • Submittal of a complete Separate Site funding application package to the OPSC. Or: • Submittal of a narrative of evidence, satisfactory to the State Allocation Board (SAB), detailing why complete plans have not been submitted to the DSA.
Separate Site (Financial Hardship)	18 months from Fund Release*	Submittal of a progress report certifying that all of the following have been achieved: • Obtain the final site appraisal. • Complete all California Environmental Quality Act (CEQA) requirements. • Obtain final California Department of Education (CDE) site approval. • Obtain final escrow instructions or evidence the district has filed condemnation proceedings and intends to request an order of possession of the site. Or: • Submittal of a narrative of evidence, satisfactory to the SAB, detailing the circumstances (beyond district control) which precluded progress from being achieved.
Separate Site (Environmental Hardship)	12 months from the apportionment date or anniversary of conversion from Separate Site Financial Hardship, and on each subsequent anniversary if necessary.	Submittal of one of the following: • A progress report satisfying the same criteria set forth for Separate Site (Financial Hardship) funding. • A request for an extension (which is supported by written letters of concurrence from the Department of Toxic Substance Control (DTSC) and the CDE). • Other reasonable evidence of effort the district has made.
Adjusted Grant	18 months from Fund Release†	Submittal of a progress report certifying one of the following: • 75 percent of site development work necessary prior to construction is complete. • 90 percent of construction activities have been contracted for. • 50 percent of construction activities are complete. Or: • Submittal of a narrative of evidence, satisfactory to the SAB, detailing the circumstances (beyond district control) which precluded progress from being achieved.

* If toxic substance issues are delaying site progress, the district may convert the site apportionment to an Environmental Hardship apportionment. Environmental hardship projects may request annual extensions with appropriate substantiation.

† The progress-reporting requirement for Adjusted Grant funding can be suspended if one of the following occur before the reporting deadline:
- The district submits a Notice of Completion for the project. If more than one construction contractor is involved in the project, a Notice of Completion is required for each construction contract.
- The district submits an Expenditure Report (Form SAB 50-06), which shows that the project is substantially close to 100 percent completion.

Substantial Progress Audit

Upon receipt of the substantial progress report, the Office of Public School Construction (OPSC) will analyze the information and will notify the district within 60 days if it intends to recommend to the State Allocation Board (SAB) that the evidence submitted does not demonstrate substantial progress. If the OPSC does not respond to the district within 60 days of submittal, the OPSC concurs with the district that substantial progress has been made.

Expenditure Report

Throughout the construction period of a project, the district will file one or more expenditure reports. The first expenditure report is due one year after the first fund release or upon completion of the project, whichever occurs first. Additional expenditure reports are due annually from the date the first report is due until the project is complete. A project is considered complete when either of the following occur:

- The notice of completion for the project has been filed.
- Three years from the date of the final fund release for an elementary school project or four years from the date of the final fund release for a middle or high school project.

Preparing the Expenditure Report

A district submits a record of project expenditures by using the *Expenditure Report* (Form SAB 50-06). This form allows the district to report all expenditures from district and State funds in summary form. To support the Expenditure Report, the OPSC has developed an Expenditure Worksheet which is available on the OPSC Web site at www.opsc.dgs.ca.gov. The district is encouraged to use this worksheet to gather and record the expenditure detail and to accompany the Form SAB 50-06.

Expenditure Audit

Within two years of receipt of the final expenditure report from the district, the OPSC must initiate an audit of the expenditures. If the district is not notified by the OPSC within that time frame that an audit will be made, the expenditures submitted by the district and certifications made on the Forms SAB 50-04 and SAB 50-05 will be accepted. If the OPSC has notified the district that an audit will be made, the OPSC must complete the audit within six months, unless additional documentation requested from the district has not been received.

Eligible Expenditures

The following table lists those expenditures that are typically eligible costs under the SFP:

Eligible Expenditures

EXPENDITURE	NEW CONSTRUCTION	MODERNIZATION
Acquisition and installation of portable classrooms	✖	✖*
Acquisition and conversion of an existing government or privately-owned building, or privately-financed school building	✖	
Construction	✖	✖
Construction management	✖	✖
Demolition	✖	✖
Design	✖	✖
Engineering	✖	✖
Fire safety improvement		✖
Force account labor costs that comply with Public Contract Code	✖	✖
Furniture and Equipment (including telecommunication equipment to increase school security)	✖	✖
Identification, assessment, or abatement of hazardous asbestos		✖
Inspection	✖	✖
Labor Compliance Program oversight costs	✖	✖
Landscaping	✖	
Legal fees associated with the reviews of bid documents, securing a site, and site condemnation	✖	✖
Necessary utility costs	✖	✖
Plan checking	✖	✖
Playground safety improvements		✖
Purchase and installation of air-conditioning equipment and insulation materials and related costs	✖	✖
Replacement of portable classrooms		✖
Seismic safety improvements		✖
Site acquisition	✖	
Site development	✖	✖†
Testing	✖	✖
Upgrading of electrical systems or the wiring or cabling of classrooms in order to accommodate educational technology		✖
Utility connection and other fees	✖	✖

* Permissible if it is a like-kind replacement of a portable classroom.

† For 50 years or older modernization projects utilities work only, for permanent facilities, per SFP Regulations, Section 1859.78.7.

Site Closeout Reviews

Districts that obtain additional grants for sites that require hazardous waste removal substantiated by a Response Action will be eligible to receive up to 50 percent of one and one-half times the value of the site to monitor and clean the site. Additional costs beyond this new cap will be subject to provisions contained in section 1859.74.2 and following. For those projects where the *Application for Funding* (Form SAB 50-04), is received on or after January 1, 2004, additional costs beyond the cap are subject to adjustment whether or not the additional grants for hazardous waste removal were requested on the Form SAB 50-04.

Ineligible Expenditures

District representative should be aware that some expenditures are not permitted under the SFP. If the district representative is uncertain about a specific expenditure, the OPSC audit staff can assist the district accordingly.

The following is a list of the expenditures that may potentially be disallowed during an SFP final expenditure audit:

- Administrative and overhead costs.
- District force account labor that does not comply with the Public Contract Code.
- Modernization expenditures for:
  - *New building area that does not replace building area of "like kind."*
  - *New site development that is not for replacement, repair or additions to existing site development work.*
  - *Removal of hazardous waste from a modernization project that exceeds ten percent of the total modernization apportionment.*
  - *Costs on leased facilities unless owned by another district or county superintendent.*
  - *Acquisition and development of real estate.*
  - *Demolition costs not attributable to replacement of "like kind" building area.*
- Any expenditure that cannot be reasonably attributed to a project.
- Relocation costs that do not conform to Title 25, California Code of Regulations, Section 6000, et. seq. (see SFP Regulations, Section 1859.74(a)(1)).
- Expenditures associated with a "use of grant" (see SFP Regulations, Section 1859.77.2) SAB approval that were not constructed as specified in the original approval.
- Campus supervision that goes beyond construction site security.
- Expenditures on a financial hardship project that exceed the district's grant amount plus interest for the project.
- Interim housing expenditures associated with a new construction project subject to certain limitations.
- Relocation costs such as goodwill that is not court ordered, and the difference between the salvage value and new value of furniture and equipment costs when the business vendor retains the furniture and equipment.
- Legal fees not associated with securing a site and site condemnation, and contracts bid documentation.
- Expenditures associated with facility hardship SAB approvals that were not constructed as originally approved (see SFP Regulations, Section 1859.82).

Section 13

Additional SFP Requirements and Features

Introduction

There are a number of topics related to the School Facility Program (SFP) that do not fit neatly into one of the other program sections. These topics are gathered here for easy reference. They may apply to new construction, critically overcrowded school facilities, joint use, and modernization or only to one program, as noted in the discussion.

General Information

Class B Index

The grant amounts in the SFP are adjusted each January based on the change in the Class B Index. This index is developed using cost data published by the Marshall Swift Company relating to buildings of primarily steel and concrete construction.

SAB Appeal Process

In some cases a school district's application may appear to be outside the standards of the SFP and the Office of Public School Construction (OPSC) is unable to recommend approval. When this occurs, a district can appeal directly to the State Allocation Board (SAB) using a *School District Appeal Request* (Form SAB 189). On this form, the district states why the SAB should grant the district's appeal based on law, regulation, or SAB policy.

Prior to the item being scheduled for SAB consideration, the OPSC will review and analyze the appeal as to legal issues, program impact, funding ramifications, and public policy considerations. Based on the evidence submitted by the district, the OPSC may support the district's request, deny the request, or provide alternative recommendations to the SAB. In any case, all of the recommendations made by OPSC to the SAB will be based on supporting laws, regulations, or legal opinions. Districts generally have a representative available at the SAB meeting to provide testimony, if needed. This process applies to all applications.

Change of Scope

The constant fluctuation of costs of materials and labor puts a great deal of pressure on school district staff who are planning construction projects, especially for financial hardship districts that do not have other funds available to cover cost overruns. Because SAB approval is based on the accompanying plans and specifications, there are limited circumstances where a SFP project may deviate from the scope of work outlined in the plans that were included with the application (see "Design with Flexibility in Mind" in Section 3, "Project Development Activities," for more information on this topic).

Additions

It is important to keep in mind that the project may not include the addition of area not proposed in the plans approved by the SAB. This applies to classrooms, MEF and non-classroom, non-MEF space. As stipulated in Regulation Section 1859.51(i)(5), the project may include the construction of more classrooms than needed to house the pupils requested in the application as specified, but these classrooms must have been in the plans submitted with the application. The flexible structuring of the bid documents will accommodate the districts' need to make decisions based on the bid results.

If the project is *non-financial hardship*, then any project savings may be retained and used for any high priority capital facilities needs or as part of the district's contribution to a future SFP project. This approach would provide an alternative method to later add facilities, if the district had not included the additional desired facilities in the plans for the project approved by the SAB. However, the law stipulates that classrooms provided by State or local funding shall be adjusted from the districts' SFP new construction baseline.

Reductions, Deletions or Modifications

Some flexibility is a recognized part of SFP construction projects. However, to continue with a project as approved by the Board, the original intent or project scope must be maintained. If modifications are considered by a district, it is critical that the affected State agencies be part of the process and that certain project requirements continue to be met. The State agencies are coordinating efforts in this area to assist districts when these situations arise. Some extenuating circumstances may be considered by the SAB, as outlined below.

Extenuating Circumstances

CHANGE PROPOSED	PROCEDURE
Deletion of Classrooms	Permitted if: • The capacity (based on the State loading standard) is sufficient to house the pupils requested in the application • CDE and DSA have approved the change • The project meets the 60 percent commensurate requirement
Reduction of MEF Area Facility remains but the square footage is reduced	Permitted if: • The remaining area proposed meets minimum MEF square footage requirements • DSA and CDE have approved the change • The project meets the 60 percent commensurate requirement • Original intent/purpose of project is maintained
Deletion of MEF Area New School Allowance may be reduced or eliminated	Permitted if: • Case-by-case review and approval by CDE • DSA has approved the change • Case-by-case consideration and approval by the Office of Public School Construction (OPSC)/SAB • The project meets the 60 percent commensurate requirement
Deletion of Non-Classroom, Non-MEF Area	Permitted if: • DSA and CDE have approved the change • The project meets the 60 percent commensurate requirement
Permanent to Modular Construction	Permitted if: • DSA and CDE have approved the changes • The project meets the 60 percent commensurate requirement • Original intent/purpose of project is maintained

Extenuating Circumstances...

CHANGE PROPOSED	PROCEDURE
Modular to Permanent Construction	Not permitted as part of the original project, because the project would receive an inequitable funding advantage due to the timing of the DSA plan approval. Districts may consider reapplication, so the desired type of construction can be built.
Changing the Placement of a Building i.e., site conditions discovered in the footprint of construction warrant building placement alteration; however, the building size and function does not change	Permitted if: • DSA and CDE have approved the change • Original intent/purpose of project is maintained

Project Savings

Districts that do not receive financial hardship assistance may retain project savings achieved by utilizing cost saving measures and efficient project management. A district may utilize these project "savings" for other high priority facility capital outlay purposes in the district.

Savings for Non-Financial Hardship Districts

Districts may expend the savings for any of its high priority capital facility needs. A district may also use the savings as a part of the match for other SFP projects, with the only requirement being that the district's share of the savings must be used towards a project of like kind. For example, the State's share of the savings on a new construction project may only be used to match another new construction project, and the State's share of the savings from a modernization project may only be used to match another modernization project.

Savings for Financial Hardship Districts

Any savings from a project that received financial hardship assistance must be used to reduce the financial hardship grant of that project or a future financial hardship project within the district. If the district has no other financial hardship projects, the savings must be remitted to the State within a period of three years. If the district has other projects and retains the savings amount, but the savings is not applied to another financial hardship within three years from the date savings is determined through audit, the savings amount plus interest earned must be returned to the State.

If the district spends more than the State grant plus district matching share, including earned interest on a financial hardship project, the district must do one of the following:

» Reduce the financial hardship contribution on that project by submitting the overspent amount; or
» Apply the overspent amount to reduce the financial hardship contribution on a future project within three years of project closeout; or
» Retain the overspent amount if a financial hardship application is not submitted for a period of three years from the date of the last financial hardship approval.

Restricted Maintenance Account

The SFP requires participating school districts to assure that a State funded project is kept in good repair. To meet this requirement, school districts must establish and maintain a restricted maintenance account within the district's general fund to be used for ongoing and major maintenance of school buildings. Each school district must publicly approve an ongoing and major maintenance plan that outlines the use of funds deposited into the maintenance account.

Each fiscal year and for a period of 20 years after receiving funds through the SFP, the district must deposit in the maintenance account no less than three percent of the district's total general fund budget. Unified school districts with an average daily attendance (ADA) of 1200 or less, elementary school districts with an ADA of 900 or less, and high school districts with an ADA of 300 or less may deposit less than the three percent minimum by certifying that the district can reasonably maintain its facilities with a lesser dollar level maintenance account.

Verification that districts have complied with this requirement will be made through the California Department of Education (CDE) at the time of audit and beyond, and will be based upon budget information submitted by the districts to the CDE.

Facilities Inspection System (Williams Settlement Requirement)

Beginning with the 2005/2006 fiscal year, school districts and county offices of education are required to establish a Facilities Inspection System (FIS) as a condition of participation in the School Facility Program, pursuant to Senate Bill 550 which modified Education Code, Section 17070.75(e). The requirements of the FIS are not defined in law other than to state the system should ensure that each school of the district or county office of education is maintained in good repair.[1] The design of the FIS should be determined at the local level. The one exception is for the school sites meeting the requirements of Education Code, Section 17592.70(b). The needs assessments conducted at these school sites are to be the baseline for the FIS (Education Code, Section 17592.70(d)(3)). To implement this requirement, the OPSC has included certification language on the *Application for Funding* (Form SAB 50-04), the *Application for Joint-Use Funding* (Form SAB 50-07), and the *Application for Charter School Preliminary Apportionment* (Form SAB 50-09).

Appendix 2
Potential State Agency Involvement

This listing is only a sample of potential State agency involvement. There are many other agencies throughout the State that may become involved in the school construction process.

Potential State Agency Involvement List

AGENCY NAME/CONTACT INFORMATION	ROLE
California Energy Commission **www.energy.ca.gov** • Bright School Program Elizabeth Shirakh 916.654.4089	Helps schools identify ways to reduce energy use in school facilities.
Department of General Services **Office of Small Business Certification and Resources** **www.pd.dgs.ca.gov/smbus** • Disabled Veteran Business Enterprise Participation Program 916.375.4940	Provides a listing of certified DVBE firms. Note: The DVBE Program administered by the Department of General Services does not apply to school district's contracts.
Department of Health Services www.dhs.ca.gov • California Indoor Air Quality Program 510.620.2800	Provides assistance and training to school districts that have air quality problems.
Department of Transportation www.dot.ca.gov • District Transportation Planning Division 916.653.0913	Determines whether a school is likely to have an impact on the State transportation system or any of its facilities.
Office of Emergency Services Hazard Mitigation **www.oes.ca.gov** • Public Assistance 916.845.8200	Provides funds for school construction projects that reduce or eliminate future damage from disasters (seismic retrofit, modernization, flood control). Administer both federal and state funding for repair and replacement of eligible facilities damaged by a disaster event.
Office of Planning and Research **www.opr.ca.gov** • State Clearinghouse 916.445.0613 state.clearinghouse@opr.ca.gov	Distributes state required environmental documentation to various governmental agencies for review and comment as part of the CEQA process.

Appendix 3
School Facility Program Required Forms

The following forms are used in conjunction with the School Facility Program (SFP). It is the user's responsibility to check the Office of Public School Construction (OPSC) Web site (SAB Forms) for the most current version of the form as older versions of the form may not be accepted.

- Enrollment Certification/Projection (Form SAB 50-01)
- Existing School Building Capacity (Form SAB 50-02)
- Eligibility Determination (Form SAB 50-03)
- Application for Funding (Form SAB 50-04)
- Fund Release Authorization (Form SAB 50-05)
- Expenditure Report (Form SAB 50-06)
- Application for Joint-Use Funding (Form SAB 50-07)
- Application for Preliminary Apportionment (Form SAB 50-08)
- Application for Charter School Preliminary Apportionment (Form SAB 50-09)

This page is intentionally blank.

Appendix 4
Services Matrix

During the planning, design, and construction of a school facilities project, many individuals and firms come together to contribute to the project in specific ways. Unless responsibility is assigned by law, the decision about who should perform a given task generally rests with the school district as owner. A lack of clarity regarding responsibilities may lead to a situation where a task is assigned to more than one individual or firm, creating a duplication of effort which can be wasteful and counterproductive.

The Services Matrix is the work of a small group formed by the Joint Committee on School Facilities. District representatives may wish to consult the matrix to determine all of the responsibilities to be assigned on a project and to avoid duplication of effort.

The Services Matrix attempts to accomplish four principle objectives:

- Identify those tasks in a typical school construction or renovation project which must be performed by specific team members.
- Identify the tasks which cannot be performed by certain team members.
- Identify tasks which may be assigned to any of several team members at the owner's discretion.
- Provide the owner with a tool for use in making decisions about task assignments and preparing contracts for services.

The Services Matrix addresses a project which has a construction manager as one team member. In projects where this is not the case, the tasks assigned to the construction manager could typically be performed by either the architect, inspector of record, or the owner.

Services Matrix: Pre-Design Phase

The Services Matrix addresses a project which has a construction manager as one team member. In projects where this is not the case, the tasks assigned to the construction manager could typically be performed by either the architect, inspector of record, or the owner.

Preface

Introduction

This handbook was developed by the Office of Public School Construction (OPSC) to assist school districts in applying for and obtaining "grant" funds for the purposes of performing deferred maintenance work on school facilities. It is intended to be an overview of the program for use by school districts, architects, and other interested parties on how a district or county superintendent of schools becomes eligible and applies for the two different types of State funding available. However, it is not meant to be a step-by-step discussion of every conceivable application process, project type, or the eligibility of expenditures. For complete project specific information review the Deferred Maintenance Program (DMP) Regulations located on the OPSC Web site at www.opsc.dgs.ca.gov and, most importantly, contact your Deferred Maintenance project manager.

Things To Know

This edition of the *Deferred Maintenance Program Handbook* is a result of changes to the program based on new legislation and the State Allocation Board's (SAB) regulation changes. These changes were undertaken by the OPSC in an effort to strive for unity within regulations, forms, previous SAB policies, and handbook.

Things the reader should keep in mind are:

- Lead Abatement. Inspection, sampling, analysis, control, management, and removal of lead-containing materials.
- Clean Restroom Legislation (SB 892). Legislation which added Section 35292.5 to the EC requiring district's to maintain their restroom facilities. Failure to comply with this Section may result in the withholding of the district's Deferred Maintenance Basic Grant apportionment.
- Please refer to Regulation Section 1866 if you are unfamiliar with a term used in this handbook.

Where To Begin

Section 1, Deferred Maintenance Program Overview; Section 2, Five Year Plan and Basic Grant; Section 4, Project Expenditures along with the appendices contains the information that affects most districts. These sections will provide the reader with the essential program elements to receive the Basic Grant, for which all districts may apply. Section 3, Extreme Hardship Grant is an additional grant beyond the district's Basic Grant and may be available to a district if it has a project meeting the requirements stated in the introduction section of this section.

This page is intentionally blank.

Section 1

Deferred Maintenance Program Overview

Introduction

The Deferred Maintenance Program (DMP) provides State matching funds, on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components so that the educational process may safely continue. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, wall systems, floor systems, etc. An annual Basic Grant is provided to districts for the major repair or replacement work listed on the *Five Year Plan* (Form SAB 40-20), which is a projection of deferred maintenance work to be performed on a district wide basis over the next five years. An Extreme Hardship Grant is provided in addition to the Basic Grant if the district has a critical project on the five year plan that must be completed within one year due to health and safety or structural reasons.

The Law and Regulations

The DMP is subject to the provisions of California Education Code (EC), Section 17582 through 17588 and 17591 through 17592.5 and the State Allocation Board (SAB) Regulations, Title 2, California Administrative Code, Sections 1866 through 1866.14. Applicant districts are responsible for complying with all laws and regulations for any project undertaken pursuant to the requirements of the DMP. If the district's project contains work that requires Division of the State Architect (DSA) approval, the final plans and specifications for the project must have DSA approval prior to a district signing a contract for construction. If a district enters into a contract for construction prior to receiving DSA approval of the plans and specifications, State funding may not be provided.

In making an apportionment, the SAB shall assume no legal responsibility for any lawsuits or liens filed against an applicant school district. Neither the State nor any State department or agency thereof, in making an apportionment, shall be required to assume any responsibility not otherwise imposed upon it by law.

Program Funding

The DMP receives it's funding annually. Funding is made available primarily from three sources:

- Excess repayments from the State School Building Aid Program (SSBAP).
- State School Site Utilization Funds.
- Funds provided through the Budget Act for the State School Deferred Maintenance Fund.

In recent years, program funding has mainly relied on the funds provided through the Budget Act. This is due to the decrease of funding in the SSBAP and site utilization funds as payments into these programs dwindle. Unallocated carryover from the prior fiscal year is also used to fund the program.

Available Funding Types

The apportionment types allowed under the Deferred Maintenance Law are:

Apportionment Types

TYPE	EDUCATION CODE	PAGE
Basic Grant	Section 17584(a)	4
Extreme Hardship Grant	Section 17587*	7

* Not less than one-half of all funds made available by EC Section 17587 is to be apportioned to school districts that had an average daily attendance of less than 2,501 during the prior fiscal year.

The amount of funding available for both grant types fluctuates each fiscal year. An item to apportion both the Basic Grants and Extreme Hardship Grants is generally taken to the SAB for approval after December 1st.

Eligible Deferred Maintenance Projects

The DMP is made up of 12 project categories or types of work that are outlined in EC Section 17582 or otherwise approved by SAB. Most of the project categories are building systems that are necessary components of a facility, without which the building would not be able to function for school purposes. A deferred maintenance project must conform to one of these categories in order for a district to place a project on the five year plan or apply for an Extreme Hardship Grant. For sample project types, please refer to Appendix 1.

Program Participation

Entities that operate as a K–12 public elementary, unified, or high school districts, county superintendent of schools, or one of the regional occupational centers identified in law beginning with EC Section 17582, may participate in the DMP.

Disabled Veteran Business Enterprises Policy

Participation goals are not currently required for projects funded by this program.

Clean Restroom Legislation (SB 892)

Senate Bill 892, Chapter 909, Statutes 2004, added Section 35292.5 to the EC. This Section relates to the sufficiency and availability of restroom facilities in public schools. The OPSC provides a procedure for concerned parties to file complaints regarding the condition of public school restrooms. If a school district has been found to be in violation of EC Section 35292.5, it must take the appropriate action to correct the violation(s) and submit an SAB Form 892R, *Response to Restroom Maintenance Complaint* to the OPSC. Failure to address the violation outlined in the complaint may result in the withholding of the district's Deferred Maintenance Basic Grant apportionment.

Section 2

Five Year Plan and Basic Grant

Introduction

A Basic Grant is available to eligible districts that have a current *Five Year Plan*, Form SAB 40-20 approved by the State Allocation Board (SAB) that encompasses the fiscal year of funding. The Basic Grant and the district's matching share is to be used for projects listed on the SAB approved *Five Year Plan*, Form SAB 40-20.

Helpful Hint:
The SAB does not fund the projects on the district's five year plan but rather approves the five year plan and the proposed projects.

Five Year Plan: Submittals and Revisions

A *Five Year Plan* is good for a period of five fiscal years. The intent of the plan is to forecast deferred maintenance projects within the district over the next five years. It is not intended to be an expenditure report; therefore the project costs reported should be estimates. The district does not have to perform all the work listed on the plan. New or revised plans for the current fiscal year shall be submitted to the Office of Public School Construction (OPSC) by the last working day in June for that fiscal year.

The *Five Year Plan* allows for a district to designate an individual that has been approved by the District's Governing Board to act on behalf of the district and which the OPSC can contact regarding the DMP. If Part One of the *Five Year Plan* is not completed, the district superintendent must sign the form and OPSC's point of contact will be the superintendent.

Beginning with the 2005–2006 fiscal year, school districts and county offices of education are required to establish a Facilities Inspection System (FIS) as a condition of participation in the DMP, pursuant to Senate Bill 550 which modified Education Code (EC) Section 17070.75(e). The requirements of the FIS are not defined in law other than to state the system should ensure that each school of the district or county office of education is maintained in good repair.[1] The design of the FIS should be determined at the local level. The one exception is for the school sites that were identified by the California Department of Education (CDE) as ranked in deciles one to three based on the 2003 Academic Performance Index and were newly constructed prior to January 1, 2000. (The CDE published a list of the schools ranked in deciles one to three and can be found on their Web site at www.cde.ca.gov.) The needs assessments conducted at these school sites are to be the baseline for the FIS (EC Section 17592.70(d)(3)). To implement this requirement, the OPSC has included certification language on the *Five Year Plan*.

Prior to submitting a new or revised version of the plan, the proposals and plans for expenditure of funds for the deferred maintenance of school district facilities must be discussed in a public hearing at a regularly scheduled school board meeting.[2] The district will be asked in the certification section of the form to enter the date this occurred. Each time a revised plan is submitted to the OPSC, this requirement must be adhered to.

---

1 The Facilities Inspection Tool, adopted on June 27, 2007 by the SAB, defines good repair.
2 Regulation Section 1866.4(3)

A district may amend its approved Five Year Plan as needed for the current and future fiscal years. Plan revisions are not required for estimated cost changes or for moving a project already listed on the plan into a different fiscal year. A revised plan should be submitted to the OPSC for any one of the following:

- The plan has expired.
- Deferred maintenance work will be performed that is currently not listed on the plan or at a school not on the plan.
- If the exact same work was entirely paid for under the School Facility Program (SFP) Modernization or Federal Renovation Program the plan would need to be resubmitted removing the project(s).

The fiscal year in which a district revises the plan will become the starting year for the plan and will project four fiscal years out. The OPSC will not accept revisions to the *Five Year Plan* for prior fiscal years.

Eligible Projects

To place a project on the *Five Year Plan* it must meet all the following criteria:

- Be either a repair and replacement project for one of the school facility components stated in law or approved by the SAB; which have approached or exceeded their normal life expectancy; and,
- Located within district owned facilities that are used for school purposes.

Helpful Hint:
In order to use a facility for school purposes, it must be either Division of State Architect (DSA) approved or have a waiver.

Components with a history of continued repairs indicating a shortened life expectancy may be included as eligible items. Districts currently leasing relocatables from the State Relocatable Classroom Program are exempted from the requirement of "district-owned" and can include deferred maintenance projects for these facilities on the district's *Five Year Plan* provided it meets the remaining requirements stated above.

For County Office of Education (COE) only, a law change expanded the facilities in which deferred maintenance funding could be used.[3] The law defined school buildings for county offices to include those facilities that are exempt from the Field Act. If the county is leasing a facility, which meets this requirement, the lease must require the COE to maintain the facility in order to expend deferred maintenance funds on the building.

Basic Grant

The maximum amount provided by law for the Basic Grant is based on a formula detailed in EC Section 17584(a). The calculation of the maximum amounts is made by the California Department of Education (CDE).

The funding level for County Superintendents of Schools (CSS) will be calculated using the formula of one-half of one percent of their total general funds and adult education funds budgeted by CSSs for the fiscal year, exclusive of any amounts budgeted for capital outlay, debt service, or revenues that are passed through to other local educational agencies.

Basic Grant Apportionment

The SAB apportions funds for the DMP one year in the arrears. Based on the amount of funds available, a district or COE may receive the maximum amount calculated by the CDE, known as the "Maximum Basic Grant" or a prorated amount, known as the "Prorated Basic Grant". The apportionment is subject to the district matching the allocated State funds.

[3] EC Section 17582(a)

A district that receives an Extreme Hardship Grant will receive the Maximum Basic Grant to contribute to its critical project. For more information on extreme hardship funding requirements, please refer to page 10.

Deposit of District Funds

In order to receive State Deferred Maintenance funds, the governing board of a school district is required to establish a restricted fund referred to as the "District Deferred Maintenance Fund" (DDMF).

Annually, districts participating in the DMP will make a deposit into the DDMF and have their COE certify the funds on deposit. By the COE submitting the *Certification of Deposit*, Form SAB 40-21, which is due to the OPSC 60 days after SAB apportionment of the Basic Grant, the district shall receive matching State funding on a dollar for dollar basis, up to the amount apportioned. Any money deposited into this fund and any interest earned must be used for projects listed on the district's SAB approved Five Year Plan. This fund is subject to an annual audit at the local level.

The district's deposit must be a cash contribution from any non-restricted fund, unmatched carryover, or from the district's restricted Ongoing and Major Maintenance Account.[4] Annual deposits to that account in excess of two and one-half (2½) percent of the district general fund budget may be counted towards the district's matching share.

Matching the Maximum

If a district does not deposit the Maximum Basic Grant as calculated by the CDE, EC Section 17584.1(b) requires the district's local governing board to submit a report (by the following March 1st) to the Legislature. The report is to include a schedule of the deferred maintenance needs for the current fiscal year and an explanation of how the district plans on meeting its current need without depositing the Maximum Basic Grant. For specific information regarding the report requirements, please refer to EC Section 17584.1.

Also, it is important to note that school districts with schools eligible to participate in the Emergency Repair Program must deposit an amount equal to the maximum basic grant to be eligible to receive funding from that program pursuant to the Emergency Repair Program Regulation Section 1859.328.

Transfer of Excess Funds and Carryover

Districts are encouraged to use any unmatched State funds on other deferred maintenance projects listed on the approved Five Year Plan. However, EC Section 17583 allows a district to transfer any unmatched State funds to other expenditure classifications in the district. If a district elects to transfer funds to purposes other than deferred maintenance, a school board resolution approving the transfer by a two-thirds vote is required. Districts are required to file the resolution with the county superintendent of schools and the county auditor. A report pursuant to EC Section 17584.1 will need to be filed if the district transfers any unmatched State funds out of the DDMF.

If the district elects not to transfer the excess funds deposited to another expenditure classification, the excess funds deposited may be carried over and used to offset some or all of the match required for a subsequent fiscal year. Carryover that has been reported on the *Certification of Deposits*, Form SAB 40-21 is considered matched and therefore cannot be applied as carryover in subsequent fiscal years.

---

[4] Regulation Section 1866.4.3

Fund Release

Once the OPSC receives the Certification of Deposits, Form SAB 40-21 from the COE, the OPSC will generate a fund release. A State warrant (not to exceed the lesser of the amount apportioned or the deposit by the district) will be issued in the county's name by the State Controller's Office for deposit into the district's fund. Funds can be expected within three weeks of OPSC's receipt of the Form SAB 40-21. If the district receives an Extreme Hardship Grant the Basic Grant will not be released until the *Fund Release Authorization* (Form SAB 40-23) is processed.

Section 3
Extreme Hardship Grant

Important Note:
The OPSC must determine the hardship project is eligible for State funding prior to the start of construction. A project started prior to this determination will not be recommended for apportionment by the SAB. If the project meets the requirements of a Priority One as stated in Regulation Section 1866.5.3(c), contact OPSC immediately.

Introduction

Applications for an Extreme Hardship Grant are accepted on a continuous basis throughout the fiscal year. Those received prior to the last working day in June are ensured consideration in the next funding cycle. An extreme hardship exists when the SAB determines the existence of all of the following:

- **Financial Test:** The total estimated cost of the critical project is greater than two times the district's maximum basic grant; and,
- **Health and Safety Test:** The district has a critical project on its Five Year Plan which, if not completed in one year could result in serious damage to the remainder of the facility or would result in a serious hazard to the health and safety of the pupils.

Eligible Project

An application may include work to repair or replace an existing school building component, located within existing district owned classrooms and/or subsidiary facilities and other non-classroom space located on a school site. Each facility component (i.e., roofing) at a school site makes up one project. A district with only one school may include other essential work (i.e., multiple components), as long as all projects individually meet the above tests, without being subject to the multiple project district contribution requirements stated on page 10.

Extreme Hardship Application Package

Helpful Hint:
If the district has additional reports from a roofing company, environmental or mechanical engineer, submitting those in addition to the architect or structural engineers report will help OPSC in it's review of project eligibility.

The following documents are required in order for the application to be deemed complete.

Required Documents for a Complete Application

FORM NUMBER	DOCUMENT
SAB 40-20	A revised Five Year Plan, Form SAB 40-20 including the critical project and identifying it in Column 9 of the form.
SAB 40-22	Extreme Hardship Funding Application with all costs rounded to the nearest dollar. Final costs must match the totals shown on the architect's cost estimate.
None	Detailed cost estimate prepared by a licensed architect or contractor showing quantity and unit cost breakdowns (rounded to the nearest dollar) supporting the construction costs listed. The cost estimate shall be subject to review by the OPSC for conformance with the Saylor Current Construction Cost publication and at the OPSC's direction, the DSA. Items in the cost estimate shall be limited to only the minimum work necessary to mitigate the problem. Lump sums are not allowed.

continued on following page

Required Documents for a Complete Application...

FORM NUMBER	DOCUMENT
None	Licensed architect or structural engineer's report detailing: 1. How the project qualifies as a hardship as defined in EC Section 17587. 2. A recommended solution to correct the problem. 3. Detailed description of work being performed.
None	Plot plan identifying location of work with all buildings or areas of work clearly labeled.

A district with only one school that is applying for more than one project category will need to submit an *Extreme Hardship Funding Application*, Form SAB 40-22, for each project category and an SAB 40-22 that combines all the projects into one request.

The Extreme Hardship application package is reviewed by the Office of Public School Construction (OPSC) for completeness and placed on a Deferred Maintenance Extreme Hardship workload list by received date order. The workload list can be viewed on the OPSC Web site at www.opsc.dgs.ca.gov. The applications are then processed in date order for presentation to the SAB for consideration.

In some cases, the OPSC may find that an application lacks required information. If this is the case, the OPSC will return the application unprocessed with notification of the missing documents. Should this occur, the district may resubmit the application once the required information is available.

Multiple Extreme Hardship Funding Requests

A district may submit more than one *Extreme Hardship Funding Application*, Form SAB 40-22 in a fiscal year as long as each project meets the financial, and health and safety test.

Assignment of Application Number

Upon submittal of an Extreme Hardship Funding Application, Form SAB 40-22, an application number will be assigned to the project. Following the prefix "40", this number will be the five digit code in the California Public School Directory, the last two digits of the beginning fiscal year, in which the district is applying for funding, and lastly the number of projects submitted by the district. For example:

» 40/99999-02-01

The above number would represent a district's first 2002/2003 Fiscal Year critical project. Districts should use this number when corresponding with the SAB/OPSC.

OPSC Review

After the acceptance of the complete application, the OPSC will process it based on the date received. The OPSC will then conduct a site visit to verify the conditions stated in the architect's or structural engineers report. A follow-up letter after the site visit may be sent requesting additional information. Once all the back-up for the project is received, the OPSC will determine if the project meets the tests stated in law and will notify the district of it's findings. Construction may begin after the OPSC site visit, however, there is no guarantee of OPSC's recommendation for funding until the district has received written notification. Projects that meet the requirements will be presented to the SAB for approval.

Determination of Extreme Hardship Grant and District Contribution 2002/2003 FY Projects and Beyond

The total estimated cost of the critical project will determine how the extreme hardship grant is calculated and the amount of funding the district will contribute to the project. The following chart details the different district contribution requirements for a critical project:

Helpful Hint:
Cost increases for 2002/2003 Fiscal Year projects and beyond where the revised total project cost exceeds $1,000,000, will be subject to the new district contribution requirements.

District Contribution for a Critical Project

DISTRICT'S MAXIMUM BASIC GRANT AND STATE'S MATCH	TOTAL PROJECT COST	PROJECT NUMBER	DISTRICT CONTRIBUTION REQUIREMENT
Under $1,000,000	Under $1,000,000	First Project	Maximum Basic Grant and State's matching share for the fiscal year the project was funded.
Under $1,000,000	Above $1,000,000	First Project	Maximum Basic Grant and State's matching share for the fiscal year the project was funded AND 50 percent of all costs above $1,000,000.
Under $1,000,000	Any Amount	Second and Subsequent Projects or additional projects from a different fiscal year receiving funding.	Fifty percent of the total project cost.
Above $1,000,000	Above $1,000,000	First Project	Maximum Basic Grant for the fiscal year the project was funded AND 50 percent of all remaining costs.
Above $1,000,000	Above $1,000,000	Second and Subsequent Projects or additional projects from a different fiscal year receiving funding.	Fifty percent of the total project cost.

SAB Approval Process

Projects will be presented to the SAB on a continuous basis throughout the fiscal year. The SAB approval/action can either be funded or "unfunded" depending upon the extent of Deferred Maintenance funds available. If the approval is "unfunded" the district will be placed on an "unfunded" list by priority order and complete application received date order. If the critical project receives an "unfunded" approval, the extreme hardship grant will be an estimated amount calculated based on the maximum known at the time of approval and will be recalculated using the maximums available at the time of funding. Once funding becomes available, projects will be funded based on how the application was placed on the "unfunded" list. Only projects that meet the financial test at the time of funding will receive hardship funding. If the request does not meet the criteria, the district may still complete the project with its Basic Grant and State's matching share.

Funding Priorities

Once an application is recieved by the OPSC it is assigned a priority status. The SAB will utilize the following funding prioritization for Extreme Hardship Grants:

Funding Priorities

PRIORITY	DESCRIPTION OF PROJECTS
1	The immediate closure of a facility due to health and safety or structural problems that precludes pupils from remaining in the facility. School board resolution required, refer to Regulation Section 1866.5.3(c).
2	All other eligible deferred maintenance projects, in date order.

Fund Release

After the SAB apportions the Extreme Hardship Grant, the district will need to deposit an amount equal to the maximum Basic Grant into the District Deferred Maintenance Fund and submit the *Fund Release Authorization*, Form SAB 40-23 along with the supporting documentation. This form is due to the OPSC within one year of SAB apportionment of the project. The OPSC will then process fund releases based on the supporting documentation in date received order. The Extreme Hardship Grant may be prorated if the documents submitted only cover a portion of the project.

After the SAB has apportioned the Deferred Maintenance Extreme Hardship Grant, the OPSC will release the amount apportioned to the appropriate county treasury after the district has complied with the requirements of the Fund Release Authorization, Form SAB 40-23, and submitted it to the OPSC. The district must designate the method for the release of funds and submit the required documents with the Fund Release Authorization to release extreme hardship project funds:

Documents Required to Release Funds

DESIGNATED METHOD OF FUND RELEASE	DOCUMENTS REQUIRED
Release of Funds Based on Bids Only	• A copy of the complete bid package including any addenda. • A copy of the proposed contract. • Plans and specifications for the project(s). Approved Division of the State Architect (DSA) plans are needed for those projects that contain work that must be approved by the DSA. • The district certifies that its matching share has been deposited in the District Deferred Maintenance Fund.
Partial Release of Funds	In addition to the above documents: • The district must designate that the documentation submitted represents a request of funds for the entire scope of the project as approved by the SAB or provide the percentage of work under contract or bid and the dollar value for the documents submitted. Percentage of work under contract or bid: _____ % Value of request for release of funds: $ _____
Release of Funds Based on Awarded and Signed Contracts	• A copy of the complete bid package including any addenda. • A copy of the signed and awarded contract. • A summary listing of all the bidders and amount of the bids the district received for the project upon which the contract was awarded. • Plans and specifications for the project(s). Approved DSA plans are needed for those projects that contain work that must be approved by the DSA. • All fully executed change orders. • The district certifies that its matching share has been deposited in the District Deferred Maintenance Fund.

Documents Required to Release Funds...

DESIGNATED METHOD OF FUND RELEASE	DOCUMENTS REQUIRED
Partial Release of Funds	In addition to the above documents: • The district must designate that the documentation submitted represents a request of funds for the entire scope of the project as approved by the SAB or provide the percentage of work under contract or bid and the dollar value for the documents submitted. Percentage of work under contract or bid: _____ % Value of request for release of funds: $ _____

Time Limit on Apportionment and Progress Report

The district has one year from the SAB apportionment of the Extreme Hardship Grant to submit the documents for a release of funds and to complete the project. If within six months of SAB apportionment, the district has not submitted the documents for fund release, a narrative report must be submitted to the OPSC. The report must contain the information requested in Regulation Section 1866.5.8(c). A district may request from the SAB a one-time, time extension from the one year requirement under specific circumstances detailed in Regulation Section 1866.5.8(d).

Project Increases

A district may be eligible for an Extreme Hardship Grant increase to its critical project if the bid or subsequent re-bids are higher than the total estimated cost of the project or additional related work is encountered within the scope of the original project (i.e., change orders). The following documents are required for an increase to a project:

Required Documents for an Increase to a Project

TYPE OF INCREASE	DOCUMENTS REQUIRED TO SUPPORT THE INCREASE
Additional Related Work Note: Only expenditures for work outlined in the application and approved by the SAB will be recognized as eligible.	• An amended Extreme Hardship Funding Application, Form SAB 40-22, reflecting current project costs. • A revised licensed architect/structural engineer's report detailing why the additional work or cost is necessary. • A revised detailed cost estimate from the architect or contractor, which outlines the cost of the work completed under the initial approval, as well as the additional related work and cost necessary to complete the project. • A copy of the low bid and project specifications. • A copy of the signed and awarded contracts. • Copies of all fully executed change orders. • Plot plan showing the location of the work approved under the original application and then identifying the location of the additional related work.
Low Bids exceeds Total Project Cost	• An amended Extreme Hardship Funding Application, Form SAB 40-22, reflecting current project costs. • A revised licensed architect/structural engineer's report detailing why the additional work or cost is necessary. • A copy of the low bid and project specifications. • A copy of the signed and awarded contracts. • Plot plan showing the location of the work included in the bid.

Increases for work that was not originally contained in the scope of the project are not eligible. However, if the work has not been completed, the district may submit a new application for the additional work. The OPSC will review the application to determine the eligibility of the project.

Expenditure Audit

A final audit is initiated when all project expenditures have been made, but no more than one year after the submittal of the Expenditure Report, Form SAB 40-24.[5] This form is due to the OPSC within two years from the date any funds were released for the project. The OPSC shall complete the audit of expenditures within six months, unless awaiting additional documentation from the district.

A worksheet is available to assist the district in providing detailed expenditure information. The *Detailed Listing of Warrants Issued by the District for Deferred Maintenance Hardship Projects*, Form SAB 184ADM, can be found on the OPSC's Web site.

Documents Required For Extreme Hardship Post Audit

The following documents are required for extreme hardship final audit:

Required Documents for Final Audit

DOCUMENT NUMBER	DOCUMENTS NAME
SAB 40-24	Expenditure Report
None	Signed and awarded contract(s)
None	Completion notices(s) showing date recorded
None	All invoices except those paid to the main construction contractor
None	A detailed listing of each expenditure. The district may use the Form SAB 184ADM to assist the district in reporting these expenditures.

Ineligible Extreme Hardship Expenditures

The following are some examples of ineligible extreme hardship expenditures:

- Enhancements. For example, if a district has a shingle roof, which qualifies for replacement, it must be replaced with a shingle roof. If the district wishes to replace it with a metal roof, the State will not fund the project, unless (1) the cost is the same or less than that of a shingle roof or (2) the district agrees to fund the difference between the cost of a shingle roof and the cost of a metal roof. Generally, replacements should be like for like unless prohibited by DSA or by local ordinance.
- Reimbursement of architect/structural engineer's fees more than five months prior to OPSC's acceptance of the complete application.
- Service warranties.
- Equipment rental.
- Work done on buildings not owned by the district.

[5] The one-year audit requirement only applies to projects receiving an apportionment after July 1, 2002.

- Work done on buildings not approved by the Division of the State Architect when appropriate.
- Repairs on portable buildings that exceed 50 percent of the replacement cost. The request may be submitted to the SFP as a modernization project.

Fund Reconciliation and Cost Analysis

When a complete audit of all expenditures reported by the district has been conducted by the OPSC, a "Deferred Maintenance Program Hardship Project Cost Analysis" report will be issued. This report reflects a summary of the total eligible State funded project costs. In addition, any adjustment made to the district's Form SAB 40-24 and Form SAB 184ADM will also appear in this report. During this process, the district is required to review the report and respond to inquires made by the OPSC.

Closing Action/Release of Funds

The project's final closing action consists of one of the following:

Final Closing Actions

IF...	THEN...
the final eligible State funded costs are within the eligible costs authorized by the SAB...	the OPSC closing action will be executed administratively.
the final eligible costs are in excess of the eligible costs authorized by the SAB...	the OPSC closing action will require SAB approval.

Once the final closing action has been completed by the OPSC, additional expenditures will not be recognized.

Release of Funds/Refund

Funds due to the district as a result of the closing action will be released to the district. If the closing action determines that a refund is due to the State, a request will be made to the district for the refund.

This page is intentionally blank.

Section 4

Project Expenditures

Introduction

The governing board of each district shall have complete control over the funds deposited and the earnings of funds once deposited into the District Deferred Maintenance Fund. Expenditures made from this fund must be expended for projects shown on the district's approved five year plan and be eligible deferred maintenance projects.

Legal Requirements

All work must be bid in accordance with the Public Contract Code. All contracts must comply with the Education Code, Government Code, Public Contract Code, California Code of Regulations (Title 24), and any local legal requirements. Please note also that for projects containing work that requires Division of the State Architect (DSA) approval, the final plans and specifications for the project must have DSA approval prior to a district signing a contract for construction. If a district enters into a contract for construction prior to receiving DSA approval of the plans and specifications, State funding may not be provided.

For an emergency contract to be awarded under the provisions of the Public Contract Code, Section 20113, the district must:

- obtain approval from its School Board, by unanimous vote; and,
- obtain approval by the County Superintendent of Schools; and,
- comply with the legal requirements for any bonds or security; and,
- obtain contract approval by legal counsel.

In addition, should the a district enter into an energy services contract (performance agreement) as defined in Government Code Section 4217.10, in order for the OPSC to complete a fund release review the district needs to submit additional documentation as follows:

- A copy of the minutes from the public hearing at which the energy services contract was awarded.
- An opinion from the district's legal counsel verifying that the project is eligible to proceed as an energy services contract as defined in Government Code Section 4217.10 et seq.
- An opinion from the district's legal counsel approving the energy services contract as to form.
- A copy of the DSA approved final plans and specifications for the project.
- A copy of the signed and awarded energy services contract including a description of the scope of the completed extreme hardship project.

Helpful Hint:
If the district bids both the deferred maintenance work and modernization work together be sure to separate the costs for the two types of work so that appropriate costs can be identified at the time of audit.

Deferred Maintenance and Modernization

A district may choose to use both deferred maintenance funding in conjunction with School Facility Program Modernization funds in order to complete a project, provided the work complies with the requirements of deferred maintenance. Depending on the type of Deferred Maintenance funding (Basic Grant or Extreme Hardship Grant) the district will need to comply with the following specific requirements:

- Districts anticipating expenditures of a project being performed in conjunction with a School Facility Program (SFP) modernization project, must have the project on the district's approved Deferred Maintenance Five Year Plan. It is recommended that the district identify in the comments section of the form that a portion of the work will be using SFP modernization grants. In addition, the detail kept on file at the district should be updated to reflect actual projects costs expended from each fund for the purpose of auditing.
- If the district's application for an extreme hardship grant involves proposed work also included in a School Facility Program (SFP) modernization application that has been funded, included on the Modernization Unfunded or Workload List, the district must certify that, after reducing the work to be funded with the extreme hardship grant from the SFP modernization project's cost estimate the remaining work in the modernization project is at least 60 percent of the total SFP grant amount provided by the state and the district's matching share. The cost estimate may not include planning, test, inspection or furniture or equipment. If the district cannot make this certification for a funded SFP Modernization application the extreme hardship grant will not be released. If the SFP modernization project is on the Unfunded or Workload List it must be withdrawn prior to the release of the extreme hardship grant to the district.

Professional Services

Architect and structural engineer (A/E) fees shall be allowed as an eligible Basic Grant expenditure under the following conditions:

- An existing system design is faulty and replacement in kind would not alleviate future damage (i.e., a flat roof is redesigned to a sloped system to alleviate recurring leakage and interior damage).
- An obsolete, ineffective system is abandoned due to the district's inability to obtain parts.
- Technological changes prevent portions of the existing system from being used in conjunction with the replacement system and design changes are necessary to accommodate the new system.
- The Division of the State Architect, Office of Regulation Services (DSA/ORS), requires structural changes.

Extreme Hardship: Architect/Structural Engineer

As part of the application requirements of an Extreme Hardship Grant, the district must retain the services of a licensed architect or structural engineer (A/E). The combined compensation for A/E service fees are limited to a maximum of 12 percent of the construction cost when those costs do not exceed $500,000. If the construction costs exceed $500,000, the allowable A/E fees will be calculated based on the sliding scale outlined in Appendix 4, Architect/Structural Engineer Fee Schedule, page 25. For purposes of calculating the A/E service fees, the computed cost is the total award from construction contracts, plus the cost of all approved additive contract change orders (with the exception of items resulting from errors and omissions on the part of the architect). Although these allowances are eligible, the district is encouraged to negotiate the best possible terms for all professional services.

Force Account Labor

Force account labor may be recognized as an eligible deferred maintenance expenditure under the following conditions:

- The personnel was hired on a temporary basis to do work solely listed on the SAB approved Five Year Plan, Form SAB 40-20.

A district may not reimburse its general fund with deferred maintenance funds by charging labor from a deferred maintenance project done by regular district employees. Charges for materials may be recognized as long as they are not items classified as supplies in the School Accounting Manual.

This page is intentionally blank.

Appendix 1

Typical School Facilities Components

The following chart provides examples of deferred maintenance projects under each eligible project category. Please note, this is not a complete listing of all eligible projects and other projects may qualify as an eligible expenditure under one of the following school building components. The work must be like-kind components or materials unless the district can demonstrate that an alternative building material or system performs the same function as the existing materials or system, the existing materials are obsolete or no longer available, or the proposed replacement materials are more cost effective or economical than like-kind materials. Please refer to Regulation Section 1866.5.

Typical School Facilities Components

SCHOOL FACILITY COMPONENT	CONDITIONS
Floor Covering: 1. Carpeting 2. Asphalt Tile and Vinyl Asbestos Tile 3. Hardwood Floors	
Painting: 1. Interior of classrooms, library, offices, hallways, cafeteria, restrooms, etc. 2. Exterior stucco, masonry, wood, and metal trim	
Electrical: 1. Panels and boards 2. Signal systems, including fire alarms and public address 3. Conductors and cables	Must be connected to the main bell system; cannot be free standing.
Classroom Lighting: 1. Substandard incandescent lighting and obsolete fluorescent lighting 2. Fixtures	Light bulb replacement not allowed.
Roofing: 1. Large sections or whole buildings of roofing systems 2. Flashings, gutters, and downspouts 3. Ceiling tiles	Replacement of roofing systems must be for like kind material, pitch, etc.
Plumbing: 1. Piping within boundaries 2. Underground gas, water 3. Sewer, leech fields 4. Well replacement	

continued on following page.

Typical School Facilities Components...

SCHOOL FACILITY COMPONENT	CONDITIONS
Heating/Ventilation/Air-Conditioning: 1. Heating a. Gas-fired unvented wall heaters b. Other heating systems I. Boilers II. Piping c. Individual heating units except gas-fired wall heaters 2. Ventilation and Air-Conditioning Systems a. Central systems b. Individual units c. Cafeteria and automotive fume exhaust systems	
Wall Systems: 1. Doors including hardware 2. Window Assemblies (including wood sash) 3. Indoor gym bleachers that pull out from wall 4. Siding 5. Restroom partitions (attached to wall)	
Paving: 1. Asphalt a. Slurry coat b. Seal 2. Concrete	Like kind replacement only
Underground Toxic Tank: 1. Removal 2. Clean-up	May include ground water monitoring costs if required by public agency
Asbestos: 1. Inspection, sampling, and analysis 2. Removal or encapsulation	When friable
Lead: 1. Inspection, sampling, and analysis 2. Removal or control management	When present in lead containing materials.

Appendix 2
Frequently Asked Questions

Q. **How may I obtain current information and forms for the Deferred Maintenance Program?**

On our Web site at www.opsc.dgs.ca.gov; or, by contacting your Deferred Maintenance Program Project Manager at 916.445.3160.

Q. **Can interest earned by a district be used as part of the district deposit in subsequent years?**

If the district does not have a critical project, one-half of the interest amount may be applied toward the district deposit. However, if it does have a critical project, the full amount of interest earnings must be applied to the Extreme Hardship Grant or returned to the State.

Q. **Will my deferred maintenance project require DSA approval?**

The district should contact the DSA for guidance. For projects that contains work that requires Division of the State Architect (DSA) approval, the final plans and specifications for the project must have DSA approval prior to a district signing a contract for construction. If a district enters into a contract for construction prior to receiving DSA approval of the plans and specifications, State funding may not be provided.

Q. **On our Five-Year Plan (Form SAB 40-20), can the following items be included: 1) asbestos inspection, 2) door hardware, and 3) carpets?**

1. Asbestos inspection: Yes, to determine the presence of asbestos except for in the case of annual testing. Routine asbestos inspections generally deemed an administrative cost.

2. Door hardware: Yes, it may be included in the category of "wall systems".

3. Carpets: Yes, it may be included in the category of "floor covering".

Q. **Does the district have to bid the project if an emergency situation occurs?**

For an "emergency" contract to be awarded under the provisions of the Public Contract Code, Section 20113, the district must:

- obtain approval from its School Board, by unanimous vote; and,
- obtain approval by the County Superintendent of Schools; and,
- comply with the legal requirements for any bonds or security; and,
- obtain contract approval by legal counsel.

Q. How can I find out if my repair projects qualify for Deferred Maintenance?

Pages 19 and 20 of this handbook give examples of which projects are eligible for Deferred Maintenance. If you don't find your project listed on these pages, please contact a Deferred Maintenance Project Manager for assistance.

Q. Why does my second hardship project have to be twice the Basic Apportionment amount?

Every project must meet the financial and health and safety "test" to be considered a viable hardship project as required in Regulation Section 1866.5.

Q. Is there a "cap" or limit to the cost of a project?

There is no limit to the cost of a project. However, in addition to contributing the district's maximum basic grant funds and State matching funds to the project, the district must also fund 50 percent of any amount over $1,000,000.

Q. When will the district receive the funds for its hardship project that was approved by the SAB at the December Board meeting?

Once the project has been approved by the SAB for funding, the district may submit a Fund Release Authorization, Form SAB 40-23, to the OPSC to release the funds. The district must also be able to demonstrate that the project has been competitively bid and that a contract has been signed for the work to be performed, showing the actual amount of the bids and the contract awarded, to receive these funds.

Q. Why are the basic apportionment funds held by OPSC until the Hardship Fund Release Authorization is submitted by the district?

The district must use its entire deferred maintenance basic apportionment funds for their first (yearly) hardship project. If the total project costs are more than two times the basic apportionment, the amount over the basic and State match is considered the hardship portion of the project, and is therefore funded out of Deferred Maintenance Hardship funds.

Appendix 3

Grant Cycles, Forms and Filing Deadlines

Grant Cycles

Basic Grant Funding Cycle

1. **District:** Either has a current Five Year Plan approved by the SAB or submits to the OPSC a revised plan that includes the current fiscal year.
2. **OPSC/SAB:** Presents the district's Five Year Plan to the SAB for approval (if needed). SAB approval.
3. **OPSC/SAB:** Establishes an apportionment listing of districts receiving the basic grant in the Fall following the end of the fiscal year. Approves and apportions the listing for Basic funds for the previous fiscal year.
4. **District:** Deposit funds in its District Deferred Maintenance Fund for the prior fiscal year.
5. **County Office of Education:** Certifies the amount deposited on the Certification of Deposit (Form SAB 40-21) by district or county superintendent of schools and submits the form to the OPSC within 60 days of SAB apportionment.
6. **OPSC:** Process the release of funds, for the previous fiscal year, through State Controller's office, not to exceed the lesser of the amount apportioned or the amount deposited by the district.

Extreme Hardship Grant Funding Cycle

1. **District:** Submits funding application for an Extreme Hardship Grant by the last working day in June.
2. **OPSC/SAB:** Processes application and performs site visit of project prior to the start of construction. SAB approval.
3. **OPSC/SAB:** Based on funds available, OPSC establishes an apportionment listing of districts receiving an extreme hardship grant in the Fall following the end of the fiscal year. SAB approval.
4. **District:** Submits the Fund Release Authorization, Form SAB 40-23, within one year of SAB apportionment. Narrative report due if within 6 months fund release documents not submitted to OPSC.
5. **OPSC:** Processes a fund release for the Extreme Hardship Grant.
6. **OPSC:** Project audit.

Program Forms and Filing Deadlines

FORM	FORM SUBMITTAL DEADLINES
Five Year Plan, Form SAB 40-20	Last working day in June for the current fiscal year.
Certification of Deposits, Form SAB 40-21	Sixty days from SAB apportionment of the Basic Grant.
Extreme Hardship Funding Application, Form SAB 40-22	Last working day in June for the current fiscal year.
Fund Release Authorization, Form SAB 40-23	Within one year from SAB apportionment of Extreme Hardship Grant.
Expenditure Report, Form SAB 40-24	Within two years from the date any funds were released.

Appendix 3

Architect/Structural Engineer Fee Schedule

(Extreme Hardship Only)

The following schedule is used to determine the maximum reimbursable architect or structural engineer fees allowed by the SAB. The rates below are applied to the amount of the project construction contract including change orders.

Maximum Reimbursable Architect Fees

AMOUNT OF THE CONSTRUCTION CONTRACT	MAXIMUM PERCENTAGE
First $500,000	12%
Next $500,000	11½%
Next $1,000,000	11%
Next $4,000,000	10%
Over $6,000,000	9%

Appendix 5
Applicable Education Code Sections

California Education Code

SECTION	DESCRIPTION
17582	Provides provisions for the establishment of the District Deferred Maintenance Fund (DDMF) and subsequent expenditures.
17583	Allows for the transfer of excess local funds from the DDMF.
17584	Establishes the calculation method for the Deferred Maintenance Maximum Basic Grant as calculated by the California Department of Education.
17584.1	Sets criteria that the district's Five Year Plan be discussed in a public hearing at a regularly scheduled school board meeting and set reporting requirements for districts that do not set aside the Maximum Basic Grant as calculated pursuant to EC Section 17584.
17585	Establishes guidelines for school districts to receive an additional apportionment from the State, if funds are available for projects listed on their Five Year Plan.
17587	Establishes application and funding criteria for districts that are eligible for an Extreme Hardship Grant.
17588	Establishes the method for determining an Extreme Hardship Grant.
17591	Establishes guidelines for districts regarding the filing and approval of the Five Year Plan.
17592.5	Provides the authority to allocate deferred maintenance funds for two regional occupational centers.

This page is intentionally blank.

Appendix 6

Ineligible Deferred Maintenance Expenditures

Allowable expenditures consist of major repair or replacement of existing school building components. The following are examples of ineligible deferred maintenance expenditures:

- Projects not included on the SAB approved Five Year Plan
- Projects being performed solely to bring the facility component up to current code
- Repair and maintenance of furniture and equipment (e.g., kitchen equipment, office and movable desks)
- Ongoing preventative maintenance (e.g., periodic inspection and cleaning, replacement of bulbs and minor repairs, individual floor tiles, individual ceiling tiles, etc.)
- Installation of new items that did not previously exist
- Consultant or project management fees
- Energy conservation
- Landscaping, fencing, irrigation, and sprinkler systems
- Athletic stadium equipment (bleachers, score boards, etc.)
- Window curtains and blinds, stage curtains, or black out curtains
- Tables and counter tops (unless permanently attached to a wall)
- Whiteboards, chalkboards, and blackboards
- Playground equipment
- Replacement of portable buildings
- Maintenance or repair of swimming pools
- Administrative Costs
- Technology and telephone cables, panels, and wiring

Please be advised that the above listing is only a sample of ineligible projects and does not encompass all the ineligible expenditures concerning the Deferred Maintenance Program.

California
PRIMARY ELECTION
Tuesday, March 2, 2004

CERTIFICATE OF CORRECTNESS

I, Kevin Shelley, Secretary of State of the State of California, do hereby certify that the measures included herein will be submitted to the electors of the State of California at the Primary Election to be held throughout the State on March 2, 2004, and that this guide has been correctly prepared in accordance with the law.

Witness my hand and the Great Seal of the State in Sacramento, California, this 8th day of December, 2003.

Kevin Shelley

Secretary of State

Official Voter Information Guide

SECRETARY OF STATE

Dear Fellow Voter,

When we cast our votes, we shape the future of our state.

But like you, I want to make sure that I have as much information as possible before I make such an important decision. I know that it can be very difficult to find information on the candidates and on the election process.

That's why I have created a new voter information source at www.MyVoteCounts.org.

This website contains vital information on the upcoming election and links to important sources where you can learn more about the candidates and issues. I hope you will visit www.MyVoteCounts.org and use the site as a resource before you vote.

myVOTE
COUNTS
www.MyVoteCounts.org

CONTENTS

VOTER BILL OF RIGHTS

1. You have the right to cast a ballot if you are a valid registered voter.
   A valid registered voter means a United States citizen who is a resident in this state, who is at least 18 years of age and not in prison or on parole for conviction of a felony, and who is registered to vote at his or her current residence address.
2. You have the right to cast a provisional ballot if your name is not listed on the voting rolls.
3. You have the right to cast a ballot if you are present and in line at the polling place prior to the close of the polls.
4. You have the right to cast a secret ballot free from intimidation.
5. You have the right to receive a new ballot if, prior to casting your ballot, you believe you made a mistake.
   If at any time before you finally cast your ballot, you feel you have made a mistake, you have the right to exchange the spoiled ballot for a new ballot. Absentee voters may also request and receive a new ballot if they return their spoiled ballot to an elections official prior to the closing of the polls on Election Day.
6. You have the right to receive assistance in casting your ballot, if you are unable to vote without assistance.
7. You have the right to return a completed absentee ballot to any precinct in the county.
8. You have the right to election materials in another language, if there are sufficient residents in your precinct to warrant production.
9. You have the right to ask questions about election procedures and observe the elections process.
   You have the right to ask questions of the precinct board and election officials regarding election procedures and to receive an answer or be directed to the appropriate official for an answer. However, if persistent questioning disrupts the execution of their duties, the board or election officials may discontinue responding to questions.
10. You have the right to report any illegal or fraudulent activity to a local elections official or to the Secretary of State's Office.

If you believe you have been denied any of these rights, or if you are aware of any election fraud or misconduct, please call the Secretary of State's confidential toll-free

VOTER PROTECTION HOTLINE

1-800-345-VOTE (8683)

PROP 55 Kindergarten–University Public Education Facilities Bond Act of 2004.

Bond Act
Put on the Ballot by the Legislature

Summary

This twelve billion three hundred million dollar ($12,300,000,000) bond issue will provide funding for necessary education facilities to relieve overcrowding and to repair older schools. Funds will be targeted to areas of the greatest need and must be spent according to strict accountability measures. Funds will also be used to upgrade and build new classrooms in the California Community Colleges, the California State University, and the University of California, to provide adequate higher education facilities to accommodate the growing student enrollment. These bonds may be used only for eligible projects. Fiscal Impact: State costs of about $24.7 billion to pay off both the principal ($12.3 billion) and interest ($12.4 billion) costs on the bonds. Payments of about $823 million per year.

What Your Vote Means

Yes

A **YES** vote on this measure means: The state could sell $12.3 billion in general obligation bonds for the construction and renovation of public education facilities (kindergarten through college).

No

A **NO** vote on this measure means: The state could not sell $12.3 billion in general obligation bonds for these purposes.

Arguments

Pro

Provide kids with clean, safe classrooms to improve student learning. Prop. 55 will FIX RUNDOWN CLASSROOMS and BUILD NEW SCHOOLS. STRICT ACCOUNTABILITY and AUDITS guard against waste and mismanagement. California Teachers Association, California Taxpayers' Association, State PTA, California Chamber of Commerce: "Invest in kids and their future. Yes on 55."

Con

California faces the worst financial crisis in its history. We need new schools, not more debt for taxpayers. Proposition 55 is fundamentally flawed, poorly drafted, and grossly unfair. It favors Los Angeles Unified School District at the expense of the rest of the state and it will raise our taxes.

PROP 56 State Budget, Related Taxes, and Reserve. Voting Requirements. Penalties. Initiative Constitutional Amendment and Statute.

Put on the Ballot by Petition Signatures

Summary

Permits enactment of budget and budget-related tax/appropriation bills with 55% vote. Legislature, Governor forfeit compensation each day budget is late. Fiscal Impact: Varying impacts from lowering the vote requirement for budget-related measures—including changes in spending and potentially significant increases in state tax revenues in some years. Impacts would depend on the composition and actions of future Legislatures.

What Your Vote Means

Yes

A **YES** vote on this measure means: The Legislature could pass the state budget and tax increase measures related to the budget by a 55 percent vote. Other changes to the budget process would be made.

No

A **NO** vote on this measure means: The state budget and tax increase measures would continue to require a two-thirds vote for passage. The budget process would remain the same.

Arguments

Pro

Proposition 56 is real budget reform. It holds legislators accountable by withholding their pay when the budget is late, informing voters of how their money is spent, lowering the threshold to pass a budget from 2/3 to 55%, and requiring a real "rainy day" fund to help balance the budget.

Con

Prop. 56 *masquerades* as accountability, but actually *eliminates the 2/3 legislative vote needed before politicians can increase taxes.* If Prop. 56 passes, expect HIGHER CAR TAXES, GAS TAXES, INCOME TAXES, SALES TAXES, TAXES on HOMEOWNERS. Don't give Sacramento a *BLANK CHECK.* California Taxpayers' Association recommends: *NO, NO, NO on 56!*

PROPOSITION 55

Kindergarten–University Public Education Facilities Bond Act of 2004.

OFFICIAL TITLE AND SUMMARY

Prepared by the Attorney General

Kindergarten–University Public Education
Facilities Bond Act of 2004.

- This act provides for a bond issue of twelve billion three hundred million dollars ($12,300,000,000) to fund necessary education facilities to relieve overcrowding and to repair older schools.
- Funds will be targeted to areas of greatest need and must be spent according to strict accountability measures.
- Funds will also be used to upgrade and build new classrooms in the California Community Colleges, the California State University, and the University of California, to provide adequate higher education facilities to accommodate growing student enrollment.
- Appropriates money from General Fund to pay off bonds.

Summary of Legislative Analyst's Estimate of Net State and Local Government Fiscal Impact:

- State costs of about $24.7 billion to pay off both the principal ($12.3 billion) and interest ($12.4 billion) costs on the bonds. Payments of about $823 million per year.

Final Votes Cast by the Legislature on AB 16 (Proposition 55)

Assembly:	Ayes 71	Noes 8
Senate:	Ayes 27	Noes 11

ANALYSIS BY THE LEGISLATIVE ANALYST (CONT.)

to property owners in the special district. Statewide, school districts have received on average about $270 million a year in special local bond proceeds over the past ten years.

K–12 School Building Needs. Under the SFP, K–12 school districts must demonstrate the need for new or modernized facilities. Through September 2004, the districts have identified a need to construct new schools to house nearly 1 million pupils and modernize schools for an additional 1.1 million pupils. The state cost to address these needs is estimated to be roughly $16 billion.

Higher Education

California's system of public higher education includes 141 campuses in the three segments listed below, serving about 1.6 million students:

- The CCCs provide instruction to 1.1 million students at 108 campuses operated by 72 locally governed districts throughout the state. The community colleges grant associate degrees and also offer a variety of vocational skill courses.
- The CSU has 23 campuses, with an enrollment of about 331,000 students. The system grants bachelor and master degrees, and a small number of joint doctoral degrees with UC.
- The UC has nine general campuses, one health sciences campus, and various affiliated institutions, with a total enrollment of about 201,000 students. This system offers bachelor, master, and doctoral degrees, and is the primary state-supported agency for conducting research.

Over the past decade, the voters have approved $5.1 billion in general obligation bonds for capital improvements at public higher education campuses. Virtually all of these funds have been committed to specific projects. The state also has provided almost $1.6 billion in lease revenue bonds (authorized by the Legislature) for this same purpose.

In addition to these state bonds, the higher education segments have other sources of funding for capital projects.

FIGURE 1

PROPOSITION 55
USES OF BOND FUNDS

	Amount (In Millions)
K–12	
New construction projects	$5,260[a]
Modernization projects	2,250
Critically overcrowded schools	2,440
Joint use	50
Subtotal, K–12	($10,000)[b]
Higher Education	
Community Colleges	$920
California State University	690
University of California	690
Subtotal, Higher Education	($2,300)
TOTAL	**$12,300**

[a] Up to $300 million available for charter schools.
[b] Up to $20 million available for energy conservation projects.

- ***Local General Obligation Bonds.*** Community college districts are authorized to sell general obligation bonds to finance school construction projects with the approval of 55 percent of the voters in the district. These bonds are paid off by taxes on real property located within the district. Over the last decade, community college districts have received local voter approval to issue over $7 billion of bonds for construction and renovation of facilities.
- ***Gifts and Grants.*** The CSU and UC in recent years together have received on average over $100 million annually in gifts and grants for construction of facilities.
- ***UC Research Revenue.*** The UC finances the construction of new research facilities by selling bonds and pledging future research revenue for their repayment. Currently, UC uses about $130 million a year of research revenue to pay off these bonds.

Higher Education Building Plans. Each year the institutions of higher education prepare capital outlay plans in which they identify project priorities over the next few years. Higher education capital

ANALYSIS BY THE LEGISLATIVE ANALYST (CONT.)

outlay projects in the most recent plans total $5.3 billion for the period 2003–04 through 2007–08.

Proposal

This measure allows the state to issue $12.3 billion of general obligation bonds for construction and renovation of K–12 school facilities ($10 billion) and higher education facilities ($2.3 billion). Figure 1 shows how these bond funds would be allocated to K–12 and higher education.

Future Education Bond Act. If the voters do not approve this measure, state law requires the same bond issue to be placed on the November 2004 ballot.

K–12 School Facilities

Figure 1 describes generally how the $10 billion for K–12 school projects would be allocated. However, the measure would permit changes in this allocation with the approval of the Legislature and Governor.

New Construction. A total of $5.26 billion would be available to buy land and construct *new* school buildings. A district would be required to pay for 50 percent of costs with local resources unless it qualifies for state hardship funding. The measure also provides that up to $300 million of these new construction funds is available for charter school facilities. (Charter schools are public schools that operate independently of many of the requirements of regular public schools.)

Modernization. The proposition makes $2.25 billion available for the reconstruction or modernization of *existing* school facilities. Districts would be required to pay 40 percent of project costs from local resources.

Critically Overcrowded Schools. This proposition directs a total of $2.44 billion to districts with schools which are considered critically overcrowded. These funds would go to schools that have a large number of pupils relative to the size of the school site.

Joint-Use Projects. The measure makes a total of $50 million available to fund joint-use projects. (An example of a joint-use project is a facility constructed for use by both a K–12 school district and a local library district.)

Higher Education Facilities

The measure includes $2.3 billion to construct new buildings and related infrastructure, alter existing buildings, and purchase equipment for use in these buildings for California's public higher education systems. As Figure 1 shows, the measure allocates $690 million each to UC and CSU and $920 million to CCCs. The Governor and the Legislature would select the specific projects to be funded by the bond monies.

Fiscal Effect

The cost of these bonds would depend on their interest rates and the time period over which they are repaid. If the $12.3 billion in bonds authorized by this proposition is sold at an interest rate of 5.25 percent (the current rate for this type of bond) and repaid over 30 years, the cost over the period would be about $24.7 billion to pay off both the principal ($12.3 billion) and interest ($12.4 billion). The average payment for principal and interest would be about $823 million per year.

ARGUMENT in Favor of Proposition 55

Our kids deserve clean, safe classrooms if we expect them to succeed. But many students are asked to learn in classrooms that are rundown and overcrowded.

California needs to invest in education to invest in the future of our children. Fixing rundown classrooms and building new schools to reduce overcrowding is one way to help students improve test scores and meet higher standards.

Passing Proposition 55 will invest in our kids' future and enact strict accountability standards that make sure school bond funds go directly to repair and build new classrooms where they're most needed.

PARENTS SUPPORT Proposition 55 because it FIXES OLD AND OUTDATED CLASSROOMS in need of repair.

Recent surveys show that one million children attend schools with bathrooms that don't work. Our kids deserve better. Prop. 55:

- FIXES LEAKY ROOFS, REPAIRS BROKEN BATHROOMS, and puts heating and air conditioning in classrooms.
- Helps make sure kids go to school in SAFE BUILDINGS that meet earthquake and fire standards.

LOCAL TEACHERS SUPPORT Proposition 55 because it PROVIDES COMMUNITIES MATCHING STATE FUNDS TO BUILD NEW LOCAL SCHOOLS.

California needs to build more than 22,000 classrooms to relieve overcrowding and deal with increasing student enrollment. Proposition 55 provides matching state funds for local school projects and will:

- BUILD NEW LOCAL SCHOOLS up and down the state.
- BUILD NEW CLASSROOMS to relieve overcrowding and reduce class sizes.

The CALIFORNIA TAXPAYERS' ASSOCIATION supports Proposition 55's STRICT ACCOUNTABILITY PROVISIONS.

- INDEPENDENT AUDITS, COST CONTROLS and other accountability requirements guard against waste and mismanagement and provide oversight of ALL school projects.
- Funds can only be spent to repair or build schools, NOT on bureaucracy or waste.

The CALIFORNIA STATE PTA supports Proposition 55 because it TARGETS FUNDS WHERE THEY'RE NEEDED MOST.

- Prop. 55 provides specific funding to build *new schools in areas where classrooms are severely overcrowded.*
- New and growing communities also receive their *fair share* to build the schools and classrooms they need.

The CALIFORNIA STATE UNIVERSITY, California COMMUNITY COLLEGES and UNIVERSITY OF CALIFORNIA support Proposition 55.

- Proposition 55 provides funds for colleges and universities to build classrooms and modernize research facilities that help create jobs and grow California's economy.

The CALIFORNIA CHAMBER OF COMMERCE supports Proposition 55 because it INVESTS IN OUR ECONOMY AND OUR FUTURE WORKFORCE.

- School construction is a direct investment in the economy. Proposition 55 projects will CREATE HUNDREDS OF THOUSANDS OF NEW JOBS throughout California.
- Prop. 55 provides money to *wire classrooms* and give students the tools they need to become tomorrow's leaders.

Passing Proposition 55 will invest in our kids' future by fixing rundown classrooms and building new schools. Strict accountability requirements ensure funds are spent only on school repair and construction.

And Prop. 55 is a general obligation bond that WILL NOT RAISE TAXES.

Join Republicans, Democrats and Independents, local teachers, taxpayer organizations, community groups, local businesses, the California Chamber of Commerce, California State PTA and millions of Californians who support our schools.

VOTE YES ON PROPOSITION 55.

California Teachers Association

LARRY McCARTHY, *President*
California Taxpayers' Association

BILL HAUCK, *Co-Chair*
Californians for Accountability and Better Schools

REBUTTAL to Argument in Favor of Proposition 55

We need to make school construction a priority for California—without increasing our debt.

The proponents' ridiculous claim that this bond "will not raise taxes" is a preposterous misrepresentation. Bond funds can only be repaid with tax dollars. We must either cut services or increase taxes to repay this bond.

Fortunately, there is a better way to build schools. This year, the state spent $3,542,000,000 for school construction (equivalent to 3.5% of the state's $101,174,000,000 budget). If we spent just 5% of the next five budgets on school construction, we would raise TWICE as much money as this bond. We could build twice as many schools and save taxpayers more than $12 billion in interest!

We don't need new debt or higher taxes. We just need to tell Sacramento to make school construction a priority.

Proponents claim that funds from Proposition 55 "can only be spent to repair or build schools, NOT on bureaucracy or waste." This is nonsense. School construction in California is plagued by waste, bureaucracy, and ridiculous government mandates. This bond does nothing to eliminate bureaucracy, waste or mandates.

The proponents promise to build schools "up and down the state," but they don't mention that the money will only be spent in districts wealthy enough to raise the 40% matching funds. HALF OF ALL SCHOOL DISTRICTS RECEIVED NOTHING FROM THE LAST SCHOOL BOND. There is no guarantee that your school district will receive a penny from this bond, but you will be forced to pay it back.

RICO OLLER, *State Senator*
First Senate District

LEW UHLER, *President*
National Tax-Limitation Committee

HENRY A. HOUGH, *Senior Vice President*
60-Plus Association

ARGUMENT Against Proposition 55

California is facing the most severe financial crisis in the history of any state. Last year, California's budget deficit nearly equaled the *combined* deficits of all other states. Our state's credit rating is the very worst in the nation and our bonds are slipping toward "junk bond" status. To make matters worse, former Governor Davis and the Legislature borrowed more than $13 billion last year just to pay the bills. Next year's estimated budget deficit is already over $10 billion and the bad news keeps coming. We are in such dire fiscal straits that the Treasurer has not been able to issue $28 billion of the $73 billion in statewide bonds that have already been approved.

The results of this financial mismanagement are staggering. For decades, we will be forced to pay higher taxes just to pay back what we have already borrowed. Even without new bonds, our crippling debt load will make it much more difficult for government to respond to natural disasters and recessions. Today's schoolchildren will still be paying for this bond long after their own children have graduated!

At a time when Governor Schwarzenegger and the Legislature struggle to find ways to pay for the $73,000,000,000 in previously approved debt, this measure would dig us deeper into a financial hole. At $12,300,000,000, Proposition 55 rivals the largest bond in the history of any American state. We simply cannot afford it.

It is time for us to take a new look at the way we build schools in California. The effect of compound interest and the fees paid to lawyers, Wall Street bond traders, and bureaucrats generally doubles the cost of facilities built with bonds. This bond does not even contain an interest rate cap, so the true costs could be much higher, especially if California voters approve additional bonds in this election. WE COULD BUILD MANY MORE SCHOOLS IF WE ADOPTED A MORE FISCALLY RESPONSIBLE APPROACH. Since California has thousands and thousands of public schools, why not simply build and renovate some number each year? That way, we wouldn't need to go into debt or threaten our financial stability. We just need to impress upon Sacramento that school construction is a priority.

Before voting, please take a close look at the bond's language. The drafters cleverly set aside more than a quarter of the bond funds for the Los Angeles Unified School District. Only 12% of our state's schoolchildren attend school there. This isn't fair and it isn't right.

To add insult to injury, Proposition 55 requires local school districts to provide 40% matching funds to receive ANY money. Does your school district have a huge budget surplus? Unless you live in a wealthy community with surplus cash for the required 40% matching funds, you and your children may never see a penny from this $12,300,000,000 bond, but you will certainly be required to pay higher taxes to pay back the money for the next 30 years.

Please VOTE NO on Proposition 55.

SENATOR RICO OLLER
First Senate District

REBUTTAL to Argument Against Proposition 55

California can and must continue to invest in education and our kids' future. Proposition 55 will do just that. Don't be fooled by the opponent's distortion of the facts.

Providing safe, clean classrooms will improve student performance and help our children succeed.

CALIFORNIA STATE TREASURER Phil Angelides says, *"California's economy is capable of supporting Proposition 55. It's a sound, prudent investment that will contribute to our future economic prosperity."*

THE CALIFORNIA TAXPAYERS' ASSOCIATION says, *"Proposition 55 is a fiscally responsible way to finance school repair and construction."*

The opponent DELIBERATELY MISREPRESENTED the facts. The truth:

- Every district is eligible for only its FAIR SHARE of Prop. 55 based on need. No district, in Los Angeles or elsewhere, will get more than its fair share.
- Proposition 55 TARGETS FUNDS where they're needed most—districts with critically overcrowded and rundown schools. Visit *www.Yeson55.com* for a list of Prop. 55 projects and projects financed by the last statewide school bond.
- STRICT ACCOUNTABILITY requirements, COST CONTROLS and independent AUDITS safeguard against waste and mismanagement.
- Proposition 55 provides matching funding to local districts. Without Prop. 55, many communities *cannot* move forward with school repair and construction.
- Proposition 55 is a general obligation bond that WILL NOT RAISE TAXES.

California needs to build 22,000 classrooms to deal with overcrowding and increasing enrollment. Tens of thousands of schools need basic repairs—fixing leaky roofs and broken bathrooms, installing heating and air conditioning.

Vote YES on 55 to FIX RUNDOWN SCHOOLS, build NEW CLASSROOMS and IMPROVE STUDENT LEARNING.

CARLA NIÑO, *President*
California State PTA

ALLAN ZAREMBERG, *President*
California Chamber of Commerce

CATHERINE L. UNGER, *President*
Board of Governors, California Community Colleges

Prevailing Wage Rate

01-TC-28

Clovis Unified School District, Claimant

EXECUTIVE SUMMARY

This test claim addresses changes to the California Prevailing Wage Law (CPWL), which is "a comprehensive statutory scheme designed to enforce minimum wage standards on construction projects funded in whole or in part with public funds." Contractors for public works projects that exceed $1,000 are required to pay local prevailing wages to construction workers on those projects. The requirement to pay prevailing wages is only applicable to work performed under contract, and is not applicable to work carried out by a public agency with its own forces; the requirement is applicable to contracts let for maintenance work. Local prevailing wage rates are set by the Director of the Department of Industrial Relations.

The Test Claim Statutes, Regulations and Alleged Executive Orders Impose a Partially Reimbursable State-Mandated Program on K-12 School Districts or Community College Districts Within the Meaning of Article XIII B, Section 6 of the California Constitution

The provisions of the CPWL are only applicable when a district contracts with a private entity to carry out a public works project. The cases have consistently held that when a district makes an underlying discretionary decision that triggers mandated costs, no state mandate is imposed. The underlying decision to undertake a public works project is mandated by the state only when the public works project is for the purpose of repair or maintenance of school buildings or property. The underlying decision to contract for such a project is mandated by the state under the Public Contract Code, only when the project is not an emergency as defined and under other specified conditions related to the size of the student body and cost of the project.

The test claim statutes and regulations mandate certain activities when the CPWL provisions are triggered under the above circumstances, and some of those activities impose a new program or higher level of service on districts within the meaning of article XIII B, section 6 of the California Constitution. For some of those activities, however, the test claim statutes and regulations allow the districts to levy fees sufficient to pay for the costs of the newly-mandated activities, and Government Code section 17556, subdivision (d), is applicable to deny reimbursement for them. The remaining three activities do impose costs mandated by the state, thus imposing a partially reimbursable state-mandated program on K-12 school districts and community college districts.

Conclusion

Staff concludes that Labor Code section 1776, subdivisions (g) and (h), and section 16403, subdivision (a), of the Department of Industrial Relations' regulations constitute a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution, but only when those activities are triggered by projects for repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and

81601, when the project constitutes a public works project pursuant to the CPWL, and when the project must be let to contract under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113, and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or
    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000. (Pub. Contract Code, § 20114.)
2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654, and
    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or
    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000. (Pub. Contract Code, § 20655.)
3. For any K-12 school district or community college district that is subject to the Uniform Public Contract Cost Accounting Act (UPCCAA), when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.[1] (Pub. Contract Code, § 22032.)

Only the following activities for the foregoing projects are reimbursable:

- Retain copies of payroll records requested by the public and provided by the awarding body for at least 6 months. (Cal. Code Regs., tit. 8, § 16403, subd. (a).)
- Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Department of Industrial Relations' Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g) (as amended by Stats. 1978, ch. 1249).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's requirements pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h) (as amended by Stats. 1978, ch. 1249).)

Any grant funds available to awarding bodies under the deferred maintenance program, or any other eligible grant program, when used for the newly mandated activities in this test claim, shall be identified in the parameters and guidelines as possible offsetting revenues.

None of the other test claim statutes, regulations or alleged executive orders that were pled mandate a new program or higher level of service subject to article XIII B, section 6.

---

[1] Prior to January 1, 2007, the dollar limit for public projects that could be performed by the district with its own forces was $25,000.

Recommendation

Staff recommends the Commission adopt this analysis to partially approve the test claim.

01/28/04	The Department of Industrial Relations requested an extension of time, for an additional 30 days, to file comments on the test claim
01/30/04	Commission staff approved extension of time, to March 3, 2004, to file comments on the test claim
07/11/07	Commission staff requested claimant to provide specific versions of regulations claimed
07/23/07	The Department of Industrial Relations requested postponement of the December 6, 2007 hearing on the test claim
07/26/07	Commission staff denied the request to postpone hearing the test claim
07/25/07	Claimant requested an extension of time, for an additional four weeks, to file regulations information requested by Commission staff
08/01/07	Commission staff approved extension of time, to August 29, 2007, to file the information requested
08/30/07	Claimant submitted additional regulations information requested by Commission staff
03/11/08	Commission staff issued draft staff analysis
03/28/08	The Department of Industrial Relations requested an extension of time to file comments on the draft staff analysis.

03/28/08	Commission staff approved the request for an extension of time, for an additional two weeks, to file comments on the draft staff analysis
04/01/08	The Department of General Services, Office of Public School Construction, filed comments on the draft staff analysis
04/14/08	The Department of Industrial Relations filed comments on the draft staff analysis
04/15/08	The Department of Finance filed comments on the draft staff analysis
05/27/08	The Department of Industrial Relations requested that the hearing be postponed to August 1, 2008
05/28/08	Commission staff approved the request to postpone the hearing to August 1, 2008
07/18/08	Commission staff issued the final staff analysis

Background

This test claim addresses 36 statutory changes to the California Prevailing Wage Law (CPWL),[2] involving 33 Labor Code sections and more than 90 regulatory provisions, which have taken place since 1975. The CPWL is "a comprehensive statutory scheme designed to enforce minimum wage standards on construction projects funded in whole or in part with public funds."[3] Contractors for public works projects that exceed $1,000 are required to pay local prevailing wages to construction workers on those projects.[4] The requirement to pay prevailing wages is only applicable to work performed under contract, and is not applicable to work carried out by a public agency with its own forces; the requirement is applicable to contracts let for maintenance work.[5] Local prevailing wage rates are set by the Director of the Department of Industrial Relations.[6]

In addition to state agencies, the CPWL applies to "political subdivisions," which include any county, city, district, public housing authority, or public agency of the state, and assessment or improvement districts.[7] Thus, the CPWL applies to both school districts and community college districts. The agency or authority awarding the contract for public work is known as the "awarding body."[8]

[4] Labor Code section 1771.

[5] *Ibid.*

[6] Labor Code section 1770.

[7] Labor Code section 1721.

[8] Labor Code section 1720.

The overall purpose of the CPWL is to benefit and protect employees on public works projects.[9] Its specific goals are to: 1) protect employees from substandard wages that might be paid if contractors could recruit from cheap-labor areas; 2) permit union contractors to compete with nonunion contractors; 3) benefit the public through the superior efficiency of well-paid employees; and 4) compensate nonpublic employees with higher wages for the absence of job security and benefits enjoyed by public employees.[10]

The CPWL does not generally cover federal projects. Those projects are addressed in the federal Davis-Bacon Act (40 USC § 276a(a)), which was enacted for a similar purpose, i.e., to protect local wage standards by preventing federal contractors from basing their bids on wages lower than those prevailing in the area.[11] However, the application of state prevailing wage rates when higher is required whenever federally funded or assisted projects are controlled or carried out by California awarding bodies.[12]

Public Works Defined

The Labor Code generally defines "public works" as construction, alteration, demolition, installation or repair work done under contract and paid for in whole or in part out of public funds,[13] and includes: 1) design and preconstruction work;[14] 2) work done for irrigation, utility, reclamation and improvement districts;[15] 3) street, sewer, or other improvement work for public agencies;[16] 4) laying of carpet;[17] 5) certain public transportation demonstration projects;[18] and 6) hauling of refuse from a public works site to an outside disposal location.[19] Public works projects also include maintenance,[20] as defined.[21]

[19] Labor Code section 1720.3.

[20] Labor Code section 1771; Title 8, California Code of Regulations, section 16001, subdivision (f).

[21] "Maintenance" is defined as: (1) routine, recurring and usual work for the preservation, protection and keeping of any publicly owned or publicly operated facility (plant, building, structure, ground facility, utility system, or any real property) for its intended purposes in a safe and continually usable condition for which it has been designed, improved, constructed, altered or repaired; and (2) carpentry, electrical, plumbing, glazing, touchup painting, and

The Labor Code also defines "paid for in whole or in part out of public funds" as payment of funds directly to or on behalf of a public works contractor, subcontractor or developer,[22] including various other types of payments,[23] and provides several types of projects that are excluded from that definition.[24]

Prevailing Wage Rates

Prevailing wage rates are set by the Director of the Department of Industrial Relations (DIR),[25] generally by reviewing local wage rates established by collective bargaining agreements and rates that may have been predetermined for federal public works.[26] The awarding body for any contract for public works is required to specify in the call for bids, the bid specifications and the contract itself, what the prevailing wage rate is for each craft, classification or type of worker needed to execute the contract.[27] In lieu of specifying the wage rates in the call for bids, bid specifications and the contract itself, the awarding body may include a statement in those documents that copies of the prevailing wage rates are on file at its principal office, which shall be made available to any interested party on request.[28] The awarding body is required to post at each job site a copy of the determination by the DIR Director of the prevailing wage rates.[29]

Prospective bidders, representatives of any craft classification or type of worker involved, or the awarding body may challenge the declared prevailing wage rates with DIR within 20 days after commencement of advertising of the bids.[30] The Director of DIR begins an investigation and within 20 days, or longer if agreed upon by all the parties, makes a determination and transmits it in writing to the awarding body and the interested parties, which delays the closing date for submitting bids or starting of work until five days after the determination.[31] The

[31] *Ibid.*

Director's determination is final, and shall be considered the determination of the awarding body.[32]

Payroll Records

Contractors and subcontractors subject to the CPWL are required to keep accurate payroll records showing name, address, social security number, work classification, straight time and overtime hours worked each day and week and actual wages paid to each worker in connection with the public work,[33] and provide certified copies or make such records available for inspection, upon request of the employee, the awarding body, Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards.[34] Requests by the public are required to be made through the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement,[35] and shall be redacted to prevent disclosure of an individual's name, address and social security number.[36] The requesting party is required to reimburse the costs of preparing the records by the contractor, subcontractors, and the entity through which the request was made.[37] The awarding body is required to insert stipulations in the contract to effectuate these provisions.[38]

Discrimination on Public Works Employment Prohibited

Labor Code section 1735 prohibits contractors from discriminating on public works employment for particular categories of persons, and every contractor violating the section is subject to all the penalties imposed for a violation of the CPWL.

Enforcement of CPWL

The awarding body is required to "take cognizance" of violations of the CPWL committed in the course of the public works contract, and shall promptly report any suspected violations to the Labor Commissioner.[39]

The Labor Commissioner is charged with enforcing the CPWL.[40] If the Labor Commissioner determines after an investigation that there has been a violation of the CPWL, the Labor Commissioner issues a civil wage and penalty assessment to the contractor or subcontractor or both.[41] Prior to July 1, 2001, the only way to challenge such an assessment was in court. On and after July 1, 2001, contractors or subcontractors may obtain review of a civil wage and

[41] *Ibid.*

penalty assessment through an informal settlement meeting with the Labor Commissioner,[42] or via an administrative hearing.[43] Until January 1, 2009, hearings are conducted before the DIR Director with an impartial hearing officer; thereafter the hearing will be conducted by an administrative law judge.[44] An affected contractor or subcontractor may appeal the administrative decision within 45 days of service of the decision by filing a petition for writ of mandate under Code of Civil Procedure section 1094.5.[45] This process provides the exclusive remedy for review of a civil wage and penalty assessment by the Labor Commissioner.[46]

When the Labor Commissioner issues a civil wage and penalty assessment, the awarding body is required to withhold and retain such moneys from contractor payments sufficient to satisfy the assessment.[47] The amounts withheld cannot be disbursed until receipt of a final order that is no longer subject to judicial review.[48] The awarding body that has withheld funds in response to a civil wage and penalty assessment, upon receipt of the final order, shall remit withheld funds to the Labor Commissioner.[49]

Labor Compliance Program

The awarding body can avoid paying prevailing wages for public works projects of $25,000 or less when the project is for construction, and $15,000 or less when the project is for alteration, demolition, repair or maintenance work, if the awarding body elects to initiate and enforce a labor compliance program (LCP) for all of its public works projects.[50] As part of its duties as an LCP, the awarding body is required to do the following: 1) place appropriate language concerning CPWL in all bid invitations and public works contracts; 2) conduct a prejob conference with the contractor and subcontractors to discuss federal and state labor law requirements applicable to the contract; 3) review and audit payroll records (that the contractor is required to keep) to verify compliance with CPWL; 4) withhold contract payments when payroll records are delinquent or inadequate; and 5) withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment has occurred.[51]

If the awarding body enforces the CPWL as an LCP, the awarding body is entitled to keep any penalties assessed. Before taking any action, the awarding body is required to provide notice

of the withholding of any contract payments to the contractor and any subcontractor.[52] The same process for review of a civil wage and penalty assessment made by the Labor Commissioner, as set forth in Labor Code sections 1742 and 1742.1, is invoked.[53] Any amount recovered from the contractor shall first satisfy the wage claim, before being applied to penalties, and if insufficient money is recovered to pay each worker in full, the money shall be prorated among all workers.[54] Wages for workers who cannot be located are placed in the Industrial Relations Unpaid Wage Fund and held in trust.[55] Penalties of not more than $50 per day for each worker paid less than the prevailing wage rates[56] are paid into the general fund of the awarding body that enforced the CPWL.[57]

Awarding bodies that choose to use funds derived from the Kindergarten-University Public Education Facilities Bond Acts of 2002[58] or 2004[59] for public works projects are required to adopt and enforce an LCP or contract with a third party to adopt and enforce an LCP.[60] These funds are allocated through the School Facility Program established by Chapter 12.5 of the Education Code. The State Allocation Board was required to increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts to accommodate the state's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of the LCP.[61] Awarding bodies that choose to use funds derived from the Kindergarten-University Public Education Facilities Bond Act of 2006,[62] however, are not subject to this requirement.

Employment of Apprentices on Public Works Projects

Properly registered apprentices are allowed to work on public works projects and must be paid prevailing wages for apprentices in the trade.[63] Apprenticeship standards are established by the DIR Division of Apprenticeship Standards,[64] and ratios of apprentices to journey level workers in a particular craft or trade on the public work are established by the particular apprenticeship program.[65] Contractors must meet various requirements with regard to

employing apprentices, and the awarding body is required to include stipulations to that effect in the contract.[66]

School Facility Construction, Repairs and Funding

Beginning in 1947, the Legislature authorized the State Allocation Board to allocate funds for building and repairing schools. Legislation enacted in the late 1940s and early 1950s established a loan-grant program "to aid school districts of the State in providing necessary and adequate school sites and buildings for the pupils of the public school system..."[67] The State Department of General Services[68] administers and the State Allocation Board (SAB) allocates and apportions the funds made available to the districts with priority given to districts where the children will benefit most from additional facilities.[69]

The School Facilities Act[70] establishes a state program to provide state per pupil funding for new construction and modernization of existing school facilities[71] to be administered by the SAB.[72]

The Education Code sets out requirements that potential school building sites must meet.[73] Prior to commencing acquisition of real property for a new schoolsite or addition to an existing schoolsite, the governing board of a school district is required to evaluate property at a public hearing using the site selection standards established by the Department of Education.[74] Moreover, in the exercise of its police power, the state may through legislative action control the protection of public health, safety, and comfort in the erection of school buildings.[75] The Department of General Services is generally required to supervise the design and construction of any school building or the reconstruction or alteration of or addition to any school building.[76] Nevertheless, *whether* a school district decides to engage in a project to construct a school building is within the discretion of its governing board.[77]

Education Code section 17366 states the Legislature's intent to provide safe educational facilities for California schoolchildren as follows:

[75] *Hall v. City of Taft* (1956) 47 Cal.2d 177, 184.

[76] Education Code section 17280.

[77] *People v. Oken* (1958) 159 Cal.App.2d 456, 460.

> [T]he Legislature intends that the governing board of each school district adopt a plan for the orderly repair, reconstruction, or replacement of school buildings not repaired, reconstructed, or replaced in accordance with this article.

Whenever the structural condition of any school building has been examined by designated entities or under the authorization of law and a report of the examination has been made to the governing board showing the building is unsafe for use, the governing board is required to immediately prepare an estimate of the cost necessary to make such repairs to the building(s) as are necessary, or, if necessary, to reconstruct or replace the building so that the building when repaired or reconstructed, or any building erected to replace it, shall meet such standards of structural safety as are established in accordance with law.[78] Using the information from the examination and report, the governing board is required to establish a system of priorities for the repair, reconstruction, or replacement of unsafe school buildings.[79] If the governing board of the school district complies with these provisions, no member of that governing board may be held personally liable for injury to persons or damage to property resulting from the fact that a school building was not constructed under the requirements of Education Code sections 17280 et seq.[80]

Education Code section 17593 requires K-12 school districts to keep schools in repair:

> The clerk of each district except a district governed by a city or city and county board of education shall, under the direction of the governing board, keep the schoolhouses in repair during the time school is taught therein, and exercise a general care and supervision over the school premises and property during the vacations of the school.

Education Code section 17565 requires the governing board of any school district to "furnish, repair, insure against fire, and in its discretion rent the school property of its districts."

Education Code section 17002 defines "good repair" to mean:

> [T]he facility is maintained in a manner that assures that it is clean, safe, and functional as determined pursuant to an interim evaluation instrument developed by the Office of Public School Construction. The instrument shall not require capital enhancements beyond the standards for which the facility was designed and constructed.

With regard to community college districts, Education Code section 81601 states:

> The governing board of a community college district shall furnish, repair, insure against fire, and in its discretion rent the school property of its districts. ...

Thus, both K-12 school districts and community college districts are required by statute to repair the school property of their districts.

---

[78] Education Code section 17367.

[79] *Ibid.*

[80] Education Code section 17371.

The Education Code provides for deferred maintenance funding from the state, on a dollar-for-dollar matching basis, to K-12 school districts and community college districts.[81] Typical deferred maintenance projects include roofing, plumbing, heating, air conditioning, electrical and floor systems. For K-12 school districts, an annual Basic Grant is provided to districts for major repair or replacement listed on the district's Five Year Plan, and an Extreme Hardship Grant is provided in addition to the Basic Grant where a critical project must be completed within one year for health and safety or structural reasons.[82] Community college projects are also subject to a five-year maintenance plan submitted to the Chancellor, and the Chancellor allocates requested funding based on three criteria: 1) projects necessary to meet safety requirements and to correct hazardous conditions; 2) scheduled maintenance necessary to prevent substantially increased maintenance or replacement costs in the future; and 3) projects necessary to prevent disruption of instructional programs.[83]

The Education Code authorizes the County Superintendent of Schools to provide for the maintenance and repair of the property of school districts under his or her jurisdiction that elect to take advantage of this service by paying into the school maintenance and repair fund established for this purpose.[84] The superintendent is authorized to hire labor for such maintenance and repair:

> The superintendent of schools of the county may employ such extra help as is necessary to perform the labor for the maintenance and repair work, as well as to provide for the supervision and transportation of the labor together with the equipment and materials for the work. The cost price of the maintenance and repair services to any school district is the original cost thereof and in addition a sum sufficient to reimburse the county superintendent of schools for all supervision, transportation, equipment, and other expenses, but the sum added shall not in any case exceed 10 percent of the cost of labor and supplies.[85]

Contracting for Public Works Projects

The Public Contract Code establishes contracting requirements for school districts and community college districts.[86] Depending on the purpose of the project and estimated dollar amount, the district may be required to contract out to the lowest responsible bidder to accomplish the project. The major requirements are outlined below.

---

[81] Education Code sections 17582-17588 and 84660.

[82] Deferred Maintenance Program Handbook, prepared on behalf of the State Allocation Board by the Office of Public School Construction, June 2007, page 1.

[83] California Code of Regulations, title 5, sections 57200 et seq.

[84] Education Code section 1266.

[85] Education Code section 1269.

[86] Public Contract Code sections 20110 et seq. and 20650 et seq.

The governing board of any school district or any community college district shall let any contracts involving an expenditure of more than $50,000[87] to the lowest responsible bidder,[88] for any of the following: 1) the purchase of equipment, materials, or supplies to be furnished, sold or leased to the district; 2) services, except construction services; or 3) repairs, including maintenance,[89] that are not a public project as defined in section 22002, subdivision (c).[90, 91] Any contract for a public project, as defined, involving an expenditure of $15,000 or more shall be let to the lowest responsible bidder who shall give security as required by the board or the board shall reject all bids.[92]

Notwithstanding the preceding requirements, in the case of an emergency when any repairs, alterations, work, or improvement is necessary to any facility of the college or public schools to permit the continuance of existing classes, or to avoid danger to life or property, the governing board of a school district or community college district may, by unanimous vote, with the approval of the county superintendent of schools, either: 1) make a contract in writing or otherwise on behalf of the district for the performance of labor and furnishing materials or

---

[87] Adjusted annually for inflation pursuant to Public Contract Code sections 20111, subdivision (d), and 20651, subdivision (d).

[88] The lowest responsible bidder shall provide security as the board requires, or all bids shall be rejected. (Pub. Contract Code, § 20111 and 20651.)

[89] Public Contract Code sections 21115 and 20656 define "maintenance" as "routine, recurring, and usual work for the preservation, protection, and keeping of any publicly owned or publicly operated facility for its intended purposes in a safe and continually usable condition for which it was designed, improved, constructed, altered, or repaired." It includes but is not limited to: "carpentry, electrical, plumbing, glazing, and other craftwork designed consistent with the definition set forth above to preserve the facility in a safe, efficient, and continually usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures." It does not include, among other types of work: "janitorial or custodial services and protection of the sort provided by guards or other security forces." It further does not include painting, repainting, or decorating other than touchup, but instead it is the intent of the Legislature that such activities be controlled directly by the provisions of section 20114 or 20655.

[90] Public Contract Code sections 20111, subdivision (a), and 20651, subdivision (a).

[91] Section 22002, subdivision (c) defines "public project" as:
(1) Construction, reconstruction, erection, alteration, renovation, improvement, demolition, and repair work involving any publicly owned, leased, or operated facility.
(2) Painting or repainting of any publicly owned, lease, or operated facility.
(3) In the case of a publicly owned utility system, "public project" shall include only construction, erection, improvement, or repair of dams, reservoirs, powerplants, and electrical transmission lines of 230,000 volts and higher.

[92] Public Contract Code sections 20111, subdivision (b), and 20651, subdivision (b).

supplies without advertising for or inviting bids; or 2) without regard to the number of hours needed for the job, authorize the use of day labor or force account to carry out the project.[93]

Moreover, the governing board of a school district or community college district may make repairs, alteration, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance by day labor or by force account[94] whenever the total number of hours on the job does not exceed 350 hours; for any school district having an average daily attendance of 35,000 or more, or for any community college district whose number of full-time equivalent students is 15,000 or greater, the governing board may perform the above activities by day labor or force account whenever the total number of hours on the job does not exceed 750 hours or when the cost of material for the job does not exceed $21,000.[95]

The Uniform Public Construction Cost Accounting Act (UPCCAA)[96]

The Uniform Public Construction Cost Accounting Act was enacted to "promote uniformity of the cost accounting standards and bidding procedures on construction work performed or contracted by public entities in the state."[97] The Act provides for developing such cost accounting standards by the California Uniform Construction Cost Accounting Commission, and an alternative method for the bidding of public works projects by public entities.[98] A public agency whose governing board has by resolution elected to become subject to this Act may use its own employees to perform projects of $30,000 or less.[99]

Test Claim Statutes, Regulations and Alleged Executive Orders

Statutes

The test claim statutes encompass changes to the CPWL in the Labor Code beginning in 1976. The relevant provisions are summarized below.

Labor Code Sections 1720, 1720.2 and 1720.3: New types of public works projects were added with these sections:

---

[93] Public Contract Code sections 20113 and 20654.

[94] In the context of the CPWL, work done by "force account" means work done by the local agency's own employees as distinguished from work performed pursuant to contract with a commercial firm for similar services. (70 Ops.Cal.Atty.Gen. 92, 97 (1987).)

[95] Public Contract Code sections 20114 and 20655.

[96] Public Contract Code sections 22000 et seq.

[97] Public Contract Code section 22001.

[98] *Ibid.*

[99] Public Contract Code section 22032; prior to January 1, 2007, the dollar limit for public projects that could be performed by the district was $25,000.

- Section 1720 was modified to add public transportation demonstration projects, design and preconstruction, including land surveying,[100] and installation projects.
- Section 1720.2 was amended to include projects done under private contract where the property subject to the contract is privately owned but upon completion of the construction work more than 50 percent of the property is leased to the state or a political subdivision for its use, and the construction work is performed according to plans or specifications furnished by the state or a political subdivision with a lease agreement that is entered into between a lessor and the state or political subdivision as lessee, during or upon completion of the project.
- Section 1720.3 was amended to include the removal of refuse from the public works construction site.

Labor Code Section 1726: A requirement was added for the awarding body, which was already required to "take cognizance" of violations, to promptly *report* suspected violations to the Labor Commissioner. The section was further amended to state that if the awarding body determines as a result of its own investigation (under a Labor Compliance Program) that there has been a violation and withholds contract payments, the Labor Compliance Program procedures in section 1771.6 shall be followed.

Labor Code Section 1727: This section was amended to state that if the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a *subcontractor's* violations, the *contractor* is required to withhold money upon request of the Labor Commissioner and transfer that money to the awarding body. In either case, the awarding body is limited to disbursing such withheld assessments until after receipt of a final order that is no longer subject to judicial review.

Labor Code Section 1735: This section, as added and amended, prohibits discrimination on public works employment for specified categories of persons, and every contractor violating the section is subject to all the penalties imposed for violations of the chapter.

---

[100] Design and preconstruction was added by Statutes 2000, Chapter 881. The Senate Rules Committee Analysis stated that the bill codified current DIR practice and regulation by including construction inspectors and land surveyors among those workers deemed to be employed upon public works and by insuring that workers entitled to prevailing wage during the construction phase of a public works project will get prevailing wage on the design and pre-construction phases of a project. (Senate Rules Committee, Office of Senate Floor Analyses, SB 1999, August 29, 2000, page 2.) On June 9, 2000, the DIR issued a decision (Public Works Case No. 99-046) finding that construction inspectors hired to do inspection for compliance with applicable building codes and other standards for a public works project were deemed to be employed upon public works and therefore entitled to prevailing wage. This DIR decision was the subject of a lawsuit, *City of Long Beach v. Department of Industrial Relations* (2004) 34 Cal.4th 942, which held that even though the DIR had interpreted preexisting statute to include the pre-construction activities as public works and argued that the new statute merely clarified existing law, the Supreme Court found the change in the statute operated prospectively only.

Labor Code Sections 1733, 1741, 1742, 1742.1 and 1743: These sections provide for an administrative process to challenge wage and penalty assessments as set forth:

- Section 1733, relating to court challenges to wage and penalty assessments, was repealed since a new administrative procedure was established.
- Section 1741 established that the Labor Commissioner, after an investigation, shall issue a civil wage and penalty assessment on contractors and/or subcontractors that violate the CPWL, and sets the procedures for issuing the assessment.
- Section 1742 provided that contractors or subcontractors may obtain review of a civil wage and penalty assessment by the Labor Commissioner, and established procedures and additional appeal provisions. The hearing is conducted before the DIR Director with an impartial hearing officer until January 1, 2009; thereafter the hearing is conducted by an administrative law judge. Subdivision (f) provides that the awarding body that has withheld funds in response to a civil wage and penalty assessment, upon receipt of the final order, shall remit withheld funds to the Labor Commissioner. Subdivision (g) provides that the section is the exclusive remedy for review of a civil wage and penalty assessment by the Labor Commissioner or the awarding body when it acts under a Labor Compliance Program pursuant to section 1771.5.
- Section 1742.1 established procedures to allow for the contractor or subcontractor to meet with the Labor Commissioner to settle a dispute over the civil wage and penalty assessment without the need for formal proceedings. Additional procedures were established to require the awarding body, when enforcing under a Labor Compliance Program, to afford the contractor or subcontractor, upon request of such contractor or subcontractor, the opportunity to meet with the awarding body to attempt to settle any dispute without the need for formal proceedings.
- Section 1743 provided that the contractor and subcontractor shall be joint and severally liable for all amounts due pursuant to a final order, but the Labor Commissioner shall first exhaust all reasonable remedies to collect the amount due from the subcontractor before pursuing the claim against the contractor.

Labor Code Section 1750: This section allows the second lowest bidder a right of action against a successful bidder, when the successful bidder has violated the Unemployment Insurance Code. It does not require any activities of awarding bodies.

Labor Code Sections 1770, 1773, 1773.1, 1773.2, 1773.5 and 1773.6: These sections were amended to require the Director of the Department of Industrial Relations to determine the general prevailing rate of per diem wages, using specified criteria, rather than the pre-1975 requirement of having this responsibility rest with the awarding body. Section 1773.2 was thus amended to remove the requirement that the awarding body annually publish prevailing wage rate determinations in the newspaper. Section 1773.5, which previously gave the Director of DIR authority to establish rules and regulations, was amended to add "including, but not limited to, the responsibilities and duties of awarding bodies under this chapter."

Labor Code Section 1771: This section was amended to establish the threshold dollar amount for contracts subject to prevailing wages at $1,000.

Labor Code Sections 1771.5, 1771.6 and 1771.7: These new sections established the ability of an awarding body to elect to initiate and enforce a Labor Compliance Program (LCP). In

exchange, payment of prevailing wages is not required for any public works project of $25,000 or less when the project is for construction, or for any public works project of $15,000 or less when the project is for alteration, demolition, repair or maintenance work. An awarding body that establishes an LCP is also allowed to keep any fines or penalties assessed when it takes enforcement action. As part of its duties as an LCP, the awarding body is required to do the following: 1) place appropriate language concerning CPWL in all bid invitations and public works contracts; 2) conduct a prejob conference with the contractor and subcontractors to discuss federal and state labor law requirements applicable to the contract; 3) review and audit payroll records (that the contractor is required to keep) to verify compliance with CPWL; 4) withhold contract payments when payroll records are delinquent or inadequate; and 5) withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment has occurred. A contractor may appeal an enforcement action by a political subdivision to the Director of DIR.

Section 1771.6 was repealed and added to establish notice and withholding procedures for an awarding body that elects to enforce the CPWL under an LCP.

Section 1771.7 was repealed and later added to require that an awarding body that chooses to use funds derived from either the Kindergarten-University Public Education Facilities Bond Act of 2002 or 2004 for a public works project shall initiate and enforce, or contract with a third party to initiate and enforce, an LCP with respect to that public works project. The provision applies to public works that commence on or after April 1, 2003.

Any awarding body choosing to use such bond funds is required to make a written finding that the awarding body has initiated and enforced, or has contracted with a third party to initiate and enforce, the Labor Compliance Program. If the awarding body is a school district, the governing body of that district shall transmit to the State Allocation Board a copy of the finding. If the awarding body is a community college district, that awarding body shall transmit a copy of the written finding to the Director of the Department of Industrial Relations.

Labor Code Section 1772: This section, which existed prior to 1975, establishes that workers employed by contractors or subcontractors in the execution of any public works project are deemed to be employed on the public work.

Labor Code Section 1775: This section was amended to increase penalty amounts assessed by the Labor Commissioner to be paid by contractors and/or subcontractors for violations of the requirement to pay prevailing wages, and to delete a requirement that the awarding body provide notice to a worker making a wage claim that there is insufficient money available from the contractor to pay such claim. Additionally, the section was changed to extend to subcontractors the liability for insufficient wage payments, and to require contractors to withhold monies due a subcontractor for such insufficient payments that are the subject of a claim filed with the Division of Labor Standards Enforcement.

Labor Code Section 1776: This section was amended to expand the requirements for contractors and subcontractors to keep certified payroll records for public works projects and furnish copies of those records to the awarding body, the Division of Labor Standards Enforcement, or the Division of Apprenticeship Standards. The amendments also require that copies of such payroll records be made available to the public through the awarding body, the Division of Labor Standards Enforcement or the Division of Apprenticeship Standards (but not by the contractor or subcontractor); if the records have not already been made available to

those entities, then the requesting party is required to reimburse the costs of preparation by the contractor, subcontractors and the entity through which the request was made. Any records made available to the public must be marked or obliterated to prevent disclosure of an individual's name, address or social security number. Any records made available to a joint labor-management committee must be marked or obliterated to prevent disclosure of an individual's social security number. The body awarding the contract is required to place stipulations to effectuate these provisions in the contract. In addition, the Director of the Department of Industrial Relations was required to adopt regulations consistent with the California Public Records Act and the Information Practices Act of 1977 governing release of the records including establishment of reasonable fees to be charged for reproducing copies of the records.

Labor Code Section 1777.1: This section was added and amended to deny a contractor or subcontractor the ability to bid on or be awarded a contract for a public works project, or perform work as a subcontractor on a public works project, when the contractor or subcontractor is found by the Labor Commissioner to be in violation of prevailing wage requirements with intent to defraud or in willful violation of the requirements. The section was also modified to require the Labor Commissioner to semi-annually publish and distribute to awarding bodies a list of contractors who are ineligible to bid on or be awarded a public works contract, or to perform work as a subcontractor on a public works project.

Labor Code Sections 1773.3, 1777.5, 1777.6 and 1777.7: These sections generally address apprenticeship requirements that must be met by contractors, and penalties that may be assessed for violation of those requirements. Section 1773.3, a renumbered version of pre-1975 Labor Code section 3098, requires an awarding body whose public works contract will employ apprentices to send a copy of the award to the Division of Apprenticeship Standards within five days of the award.

Labor Code Sections 1812 and 1813: These provisions, which existed prior to 1975, deal with contractor violations of the 8-hour work day limit and 40-hour work week limit. Section 1813 requires the awarding body to cause stipulations regarding these requirements to be placed in the contract, to take cognizance of violations and to report such violations to the Division of Labor Standards Enforcement.

Labor Code Section 1861: This section, which existed prior to 1975, requires contractors to sign and file with the awarding body a certification that the contractor will provide workers' compensation or equivalent insurance.

Public Contract Code Section 22002 (previously section 21002): For purposes of contracting by public agencies and school districts, this section added a definition of "public project:"

> (1) Construction, reconstruction, erection, alteration, renovation, improvement, demolition, and repair work involving any publicly owned, lease, or operated facility.
> (2) Painting or repainting of any publicly owned, leased, or operated facility.
> (3) Construction, erection, improvement or repair of dams, reservoirs, powerplants and electrical transmission lines of 230,000 volts or higher that are publicly owned utility systems.

"Public project" does not include maintenance work; for purposes of the section, "maintenance work" includes:

> (1) Routine, recurring, and usual work for the preservation or protection of any publicly owned or publicly operated facility for its intended purposes.
> (2) Minor repainting.
> (3) Resurfacing of streets and highways at less than one inch.
> (4) Landscape maintenance, including mowing, watering, trimming, pruning, planting, replacement of plants, and servicing of irrigation and sprinkler systems.

For purposes of the chapter, "facility" is defined as any plant, building, structure, ground facility, publicly owned utility system as limited above, real property, streets and highways, or other public work improvement.

Regulations

California Code of Regulations, Title 8, sections 16000 through 17264, as pled in the test claim, implement and make specific the statutory provisions cited above.

Alleged Executive Orders

School Facility Program Substantial Progress and Expenditure Audit Guide (May 2003): This document, prepared by the Department of General Services' Office of Public School Construction (OPSC), was developed to assist school districts in meeting program reporting requirements for the School Facilities Program (SFP).

Section 3.9 of the document states that for SFP projects that require the district to implement a Labor Compliance Program, the district must submit a copy of the Department of Industrial Relations approved Labor Compliance Program to which the project conformed and, if applicable, a copy of the third party provider contract. The district must also be prepared to submit, upon request: 1) all bid invitation and contracts that must contain language alluding to Labor Code section 1770 through 1780 compliance and verification; 2) evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set in Labor Code section 1770 through 1780; and 3) evidence of weekly submittals of certified copies of payroll for all contractors and subcontractors. If the district uses its own employees to implement and administer the Labor Compliance Program, the district must account for the name of the district employee performing the Labor Compliance Program duties, the salary and benefits of that employee including transportation costs, and a specific breakdown of hours spent by project subject to the Labor Compliance Program requirements.

AB 1506 Labor Compliance Program Guidebook (February 2003): The guidebook was issued by the DIR to address newly enacted Labor Code section 1771.7. Page 3 of the document states:

> This guidebook was prepared by the [Division of Labor Standards Enforcement] and knowledgeable individuals in the private and public sector with a wide range of experience in school district issues, construction projects, public works and labor compliance. This guidebook was intended to facilitate requests to the DIR director from awarding

bodies seeking approval of their own LCPs to conform to the requirements of Labor Code section 1771.7.

This guidebook is not intended to be used as a substitute for the full text of statutes and regulations which comprise the prevailing wage system, or the continually developing body of law which prevailing wage enforcement has generated over the past six decades and will continue to generate in the future. Rather, this information should be viewed as a framework for implementation of an effective LCP designed to enforce prevailing wage requirements consistent with the practice of DLSE.

The guidebook summarizes the relevant provisions of the Labor Code and Title 8, California Code of Regulations, provides instructional materials and practical advice for implementing an LCP, identifies contact and resource information, includes appendices with recommended forms, commonly used terms and a checklist of labor law requirements.

Antioch Unified School District Labor Compliance Program (January 17, 2003): This document was provided as an example of a recently approved LCP, and the DIR stated in its transmittal of the document that Antioch's LCP manual "could be a model for other districts because it contains the most up-to-date information about compliance with labor standards on public works projects."

Prior Test Claim

On December 6, 2007, the Commission heard and denied the *Prevailing Wages (03-TC-13)* test claim, filed by the City of Newport Beach. This test claim alleged various changes to the CPWL, but was applicable only to local agencies and did not show that the underlying decisions to undertake public works projects subject to the CPWL are mandated by the state. The Statement of Decision found the following:

> The provisions of the CPWL are only applicable when a local agency contracts with a private entity to carry out a public works project. The test claim statutes and regulations modified several provisions of the CPWL, and local agencies that contract out for their public works projects are affected by these changes. However, the cases have consistently held that when a local agency makes an underlying discretionary decision that triggers mandated costs, no state mandate is imposed.
>
> Public works projects can arise in a myriad of ways, but there is no evidence in the record or in law to demonstrate that the test claim statutes and regulations legally or practically compel a local agency to undertake a public works project, with a private contractor, subject to the CPWL. In fact, like the exercise of eminent domain in *City of Merced*, the local agency has discretion to undertake public works projects. The courts have underscored the fact that a state mandate is found when the state, rather than a local official, has made the decision that requires the costs to be incurred. Therefore, the Commission finds that the test claim statutes and regulations do not mandate a new program or higher level of service, and thus do not impose a reimbursable state-mandated program on local agencies within the meaning of article XIII B, section 6.

Claimant's Position

Claimant asserts that the test claim statutes and regulations result in school districts and community college districts incurring costs mandated by the state by creating new state-mandated duties related to the uniquely governmental function of providing for public works. When contracting with third parties for public works as an awarding body, school districts, county offices of education and community colleges are required to do the following:

1. Obtain the applicable general prevailing rate of per diem wages from the Director of Industrial Relations before awarding a contract for public works, pursuant to Labor Code section 1773 and Title 8, California Code of Regulations, section 16202.
2. Ensure that the correct prevailing wage rates have been determined by the Director of Industrial Relations, pursuant to Title 8, California Code of Regulations, section 16204.
3. Request from the Director of Industrial Relations a coverage determination regarding a specific project or type of work to be performed, pursuant to Title 8, California Code of Regulations, section 16001.
4. File a petition for review of a determination of the Director of Industrial Relations of any rate or rates, pursuant to Title 8, California Code of Regulations, section 16302.
5. Appeal an incorrect determination made by the Director of Industrial Relations, pursuant to Labor Code section 1773.4 and Title 8, California Code of Regulations, section 16002.5.
6. Pursuant to Labor Code section 1773.2, include a statement of prevailing rates of per diem wages in the call and advertisements for bids, the bid specifications and in the public works contract itself, or, in lieu of those requirements, the district may include in the call for bids, bid specifications and the contract itself a statement to the effect that copies of the prevailing rate of wages are on file in its principal office, and in that case the district must post the statement of prevailing wages at all job sites.
7. Maintain records of ineligible contractors and subcontractors and refuse to grant them public works projects of the district, pursuant to Labor Code section 1777.1 and Title 8, California Code of Regulations, sections 16800 through 16802.
8. Send copies of all awards to the Division of Apprenticeship Standards and notify the Division of any discrepancies, pursuant to Labor Code section 1777.3.
9. Inspect and audit payroll records of contractors and subcontractors working on district public works projects, when necessary or requested by the Director of Industrial Relations, pursuant to Labor Code section 1776.
10. Obtain and provide copies of the payroll records of the contractors and subcontractors working on district public works projects, when requested by appropriate parties; the records provided are required to be marked or obliterated to prevent disclosure of an individual's name, address and social security number, pursuant to Labor Code section 1776 and Title 8, California Code of Regulations, section 16402.

11. Pay the reasonable fees of a third party when contracting with that third party to initiate and enforce a Labor Compliance Program (LCP), pursuant to Labor Code sections 1771.5 and 1771.7.

12. For works commencing on or after April 1, 2003, oversee compliance with all the requirements of Labor Code sections 1771.5 and 1771.7, Title 8, California Code of Regulations, sections 16425 through16439, and Chapters 2, 3 and 5 of the AB 1506 Labor Compliance Program Guidebook ("Program Guidebook") when contracting with a third party to initiate and enforce an LCP, including but not necessarily limited to the withholding of contract payments and collecting and disbursing penalties and wages at the direction of the third party LCP.

13. Pursuant to Title 8, California Code of Regulations, section 16426, subdivision (a), when seeking approval of an LCP, submit evidence of the district's ability to operate its LCP and offering evidence on the following factors:

    a. Experience and training of the awarding body's personnel on public works labor compliance issues.

    b. The average number of public works contracts the awarding body annually administers.

    c. Whether the LCP is a joint or cooperative venture among awarding bodies, and how the resources and expanded responsibilities of the LCP compare to the awarding bodies involved.

    d. The awarding body's record of taking cognizance of Labor Code violations and withholding in the preceding five years.

    e. The availability of legal support for the LCP.

    f. The availability and quality of a manual outlining the responsibilities and procedures of the LCP to the awarding body.

    g. The method by which the awarding body will transmit notices to the Labor Commissioner of willful violations as defined in Labor Code section 1777.1, subdivision (d).

14. Complete a request for approval deemed by the Director of DIR to be deficient, or make other corrections as required, and resubmitting the request for approval of a LCP, pursuant to Title 8, California Code of Regulations, section 16426, subdivision (b).

15. Submit a request for an extension of an LCP at least 30 days prior to the anniversary date of the initial approval, pursuant to Title 8, California Code of Regulations, section 16426, subdivision (c).

16. Make a written finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, an LCP as described in Labor Code section 1771.5, subdivision (b), pursuant to Labor Code section 1771.7, subdivision (d)(1). Transmit a copy of such written finding for school districts to the State Allocation Board, in the manner determined by that board, pursuant to Labor Code section 1771.7, subdivision (d)(2)(A). Transmit a copy of such written

finding for community college districts to the Director of DIR, in the manner determined by DIR, pursuant to Labor Code section 1771.7, subdivision (d)(3).

17. Comply with all the requirements of an LCP, when initiated and enforced by the district, pursuant to Labor Code sections 1771.5 or 1771.7 (for works commencing on or after April 1, 2003), Title 8, California Code of Regulations, sections 16425 through 16439, and Chapters 2, 3, and 5 of the Program Guidebook. These requirements include:

    a. Place in all bid invitations and public works contracts appropriate language concerning the requirements of the prevailing wage laws comprising Labor Code sections 1720 through 1861.

    b. Conduct a pre-job conference with the contractor and the subcontractors to discuss federal and state labor requirements applicable to the contract.

    c. Project contractors and subcontractors shall maintain and furnish, at a designated time, a certified copy of each weekly payroll containing a statement of compliance signed under penalty of perjury.

    d. Review and, if appropriate, audit payroll records to verify compliance with prevailing wage laws. These investigations shall be conducted by monitoring certified payroll records, investigating complaints from workers, and monitoring agencies and contractors, pursuant to the Program Guidebook, Chapter 4, Parts (A) and (B). Upon conclusion of the audit, prepare audits and findings and obtain the approval of recommended forfeitures from the Labor Commissioner.

    e. Withhold contract payments when payroll records are delinquent or inadequate.

    f. Withhold contract payments equal to the amount of underpayments and applicable penalties when, after investigation, it is established that underpayment has occurred. Withhold contract payments when payroll records are delinquent or inadequate, pursuant to Chapter 3 of the Program Guidebook.

    g. Serve on the contractor, any affected subcontractor, and any bonding company issuing a bond securing the payment of wages, a Notice of Withholding of Contract Payments using the form attached in Appendix 2 of the Program Guidebook.

    h. Mail a notice to DIR on a form titled Notice of Transmittal, found in Appendix 3 of the Program Guidebook, pursuant to Chapter 4 of the Program Guidebook.

    i. When a party requests review, mail a form titled Notice of Opportunity to Review Evidence, found in Appendix 4 of the Program Guidebook, pursuant to Chapter 4 of the Program Guidebook.

18. Provide contractors and subcontractors, bonding companies and sureties with Notice of Withholding of Contract Payments, using the form found in Appendix 2 of the Program Guidebook, when minimum wage law violations are discovered by the district, pursuant to Labor Code section 1771.6 and Title 8, California Code of Regulations, section 17220. The notice shall be in writing and include the following information:

a. a description of the nature of the violation and basis for the notice;

b. the amount of wages, penalties and forfeitures due, including a specification of amounts that have been or will be withheld from available contract payments, as well as all additional amounts that the enforcing agency has determined are due, including the amount of any liquidated damages that potentially may be awarded under Labor Code section 1742.1, using the form found in Appendix 4 of the Program Guidebook;

c. the name and address of the office to whom a Request for Review may be sent;

d. information on the procedures for obtaining review of an Assessment or a Notice of Withholding of Contract Payments;

e. notice of Opportunity to request a settlement meeting under Title 8, California Code of Regulations, section 17221; and

f. a statement appearing in bold, or another type face that makes it stand out from other text, to the effect that failure to submit a timely request for review will result in a final order that is binding on the contractor and subcontractor, and on the bonding company.

19. Complete and mail a Notice of Transmittal, as found in Appendix 3 of the Program Guidebook, to the DIR to begin the administrative review process.

20. Defend Notices to Withhold Contract Payments in administrative review proceedings and in court, pursuant to Chapter 4, paragraph iv(d) of the Program Guidebook.

21. Pursuant to Chapter 6 of the Program Guidebook, when investigating worker complaints of underpayment of prevailing wage rates: a) gather supporting documents from all available sources and analyze them for authenticity; and b) conduct a complete certified payroll record and/or project audit. This includes reviewing certified payroll records for errors, inconsistencies, discrepancies, falsification, misclassification, under-reporting, and any other omissions that render the records inaccurate where needed by comparing the inspector of records' daily log with all available records.

22. Pursuant to Chapter 6 of the Program Guidebook, conduct investigations on an as-needed basis by:

a. Calculating back wages and penalties.

b. Reviewing findings with the contractor and any subcontractor.

c. Writing a complete summary of the investigation with a statement of findings and recommended action for submission to DIR's Division f Labor Standards Enforcement for approval of withholdings.

d. Conducting settlement negotiations.

e. Testifying on behalf of the school district in appeal hearings and litigation.

f. Attending pre-bid and job-start meetings and monitoring active construction projects.

g. Interviewing workers to validate complaints.

23. Pursuant to Chapter 9 of the Program Guidebook, conduct audits on a random or as-needed basis, to include comparing certified payroll records to source documents such as front and back copies of canceled checks, time cards, copies of pay check stubs, payroll registers, personnel sign in sheets, daily logs and any other document which authenticates or corroborates that which has been reported.

24. Pursuant to Chapter 9 of the Program Guidebook, prepare cases and documentation to include:

    a. Copies of workers' complaints.

    b. Copies of all correspondence to the contractor.

    c. Certified payroll records.

    d. Inspector's daily log.

    e. Correct prevailing wage determination and applicable increases.

    f. Scope of work for trade classifications used.

    g. Tabulation of bids.

    h. Notice to proceed.

    i. Notice of Completion (if applicable).

    j. Surety company information.

    k. Contractor's previous record of violations (if applicable).

    l. The Notice of Withholding of Contract Payments (if applicable).

    m. Release of Notice of Withholding of Contract Payments (if applicable).

    n. Memo(s) to file.

25. Pursuant to Section 3.9 of the School Facility Program Substantial Progress and Expenditure Audit Guide ("Audit Guide"), in the event of any postaward audit of a school district by the State Allocation Board, pursuant to Labor Code section 1771.7, subdivision (d)(2)(C), submit a copy of the DIR approved LCP to which the project conformed and a copy of any third party provider contract.

26. Pursuant to Section 3.9 of the Audit Guide, at the time of an OSPC audit, be prepared to submit, upon request, the following:

    a. All bid invitations and contracts that must contain language alluding to Labor Code sections 1770 through 1780 compliance and verification.

    b. Evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set forth in Labor Code sections 1770 through 1780.

    c. Evidence of weekly submittals of certified copies of payrolls for all contractors and subcontractors.

27. Pursuant to Section 3.9 of the Audit Guide, if a district elects to use its own employees for its LCP, provide the following additional information:
    a. The name of the district employee performing the LCP duties.
    b. The salary and benefits of the employee including transportation costs.
    c. A specific breakdown of hours spent by project subject to the LCP requirements.
28. Report any suspected violations of the prevailing wage laws to the Labor Commissioner, pursuant to Labor Code section 1726.
29. Withhold contract payments for underpaid wages and for penalties when, through the district's own investigation, the district determines a violation of prevailing wage laws has occurred, pursuant to Labor Code section 1726.
30. Withhold amounts necessary to satisfy Civil Wage and Penalty Assessments issued by the Labor Commissioner, pursuant to Labor Code section 1727.
31. Retain amounts withheld to satisfy a Civil Wage and Penalty Assessment until receiving a final order no longer subject to judicial review, pursuant to Labor Code section 1727.
32. After July 1, 2001, comply with all due process requirements for the benefit of contractors and subcontractors when amounts are withheld pursuant to a Civil Wage and Penalty Assessment or a Notice of Withholding of Contract Payments, including the providing of proper and timely notices, allowing review of evidence relied upon, appearance and participation at hearings and the appeals therefrom, pursuant to Labor Code section 1742 and Title 8, California Code of Regulations, section 17220.
33. After July 1, 2001, respond to petitions for writs of mandate filed by contractors and subcontractors seeking review of orders of the Labor Commissioner, including the retention of counsel to file timely responses, participating in pre-trial discovery matters, the trial of the cause, pre-trial and post-trial briefing, and the preparation of findings and judgment, pursuant to Labor Code section 1742.
34. Grant and participate in settlement meetings requested by contractors or subcontractors in an attempt to settle any disputed issue before formal hearing procedures, pursuant to Labor Code section 1742.1 and Title 8, California Code of Regulations, section 16413.
35. As a necessary party, appear and participate in legal proceedings resulting from any action against contractor or subcontractor filed by a joint labor-management committee for failure to pay prevailing wages, pursuant to Labor Code section 1771.2.
36. Furnish copies of payroll records of a contractor or subcontractor to a joint labor-management committee, when requested, obliterated only to prevent disclosure of social security numbers, pursuant to Labor Code section 1776.

Claimant stated in the original test claim it is estimated that the district has incurred, or will incur, in excess of $200 in staffing and other costs in excess of revenues annually, for the

period from July 1, 2000 through June 2002, to implement the new duties mandated by the state, for which the district has not been reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement. In an amendment filed on July 31, 2003, page 7 of the Second Declaration of William McGuire states:

> To the extent that Clovis Unified School District commences a public works project subject to Labor Code Section 1771.7, it is estimated that Clovis Unified School District will incur in excess of $1,000, annually, in staffing and other costs to implement these new duties mandated by the state for which the district will not be reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement.

In that amendment, an additional declaration was provided by Thomas J. Donner from the Santa Monica Community College District alleging costs mandated by the state.

Claimant filed rebuttal comments to the comments submitted by the Department of Finance, the Department of Industrial Relations, and the Department of General Services, Office of Public School Construction. These rebuttal comments are addressed, as necessary, in the following analysis. Claimant did not file any comments on the draft staff analysis.

Position of Department of Finance

The Department of Justice filed comments on behalf of the Department of Finance, generally stating that the test claim statutes do not impose a new program or higher level of service on school districts or community college districts since there is no reimbursable mandate for costs of programs or services incurred as a result of the exercise of local discretion, citing *City of Merced v. State of California* (1984) 153 Cal.App.3d 777, 783. The Department then provides a specific response to each claim; those responses are addressed, as necessary, in the following analysis.

With regard to the test claim amendment addressing Labor Code section 1771.7, the Department states the section does not create a state mandate because districts voluntarily participate in the underlying program, i.e., the construction of schools with state bond money, citing *Department of Finance v. Commission on State Mandates* (2003) 30 Cal.4th 727, 740. Even assuming there was a mandate, the Department points out that the state has provided additional funds for the costs of LCPs, and LCPs also generate revenues and costs savings. The Department argues that the claimant has not shown that it has any costs above these additional funds, revenues and cost savings.

The Department concurred with the draft staff analysis and made the following additional comments:

> [W]e note that the State School Deferred Maintenance Program (Education Code section 17582, et seq.) and the Community Colleges Facility Deferred Maintenance and Special Repair Program (Education Code section 84660 et seq.) provide State-matching funds, on a dollar-for-dollar basis, to assist school and community college districts with expenditures for major repair or replacement of existing school building components. Therefore, any projects funded through the State School Deferred Maintenance Program or the Community Colleges Facility Deferred Maintenance and Special Repair Program would have received funding

to cover the State's share of any related costs resulting from the activities as recommended by the Commission to be a reimbursable state-mandated program on pages 70-71 of the draft staff analysis. We suggest the Commission consider the availability of funding provided from the State School Deferred Maintenance Program and the Community Colleges Facility Deferred Maintenance and Special Repair Program to school districts and community colleges as offsetting revenues, should the Commission adopt a decision finding a reimbursable mandate.

These comments are addressed, as necessary, in the following analysis.

Position of Department of Industrial Relations (DIR)

The DIR states that, since 1975, the state has taken on more of local agencies' historic responsibilities for determining and enforcing prevailing wages to make the prevailing wage duties clearer and less onerous, and leaving behind only minimal recordkeeping tasks. This type of shift from local agencies to the state does not trigger reimbursement under the requirements of article XIII B of the California Constitution. DIR points out that to the extent there has been any expansion in the scope of public works, the consequent obligation to pay prevailing wages directly affects private contractors and only indirectly affects local governments. DIR then provides specific responses to each claim, which are addressed, as necessary, in the following analysis.

In additional comments, DIR applies the principles of the *Department of Finance v. Commission on State Mandates (Kern High School District)* case to the test claim, concluding that claimant has not met its burden of showing districts are compelled to participate in the underlying programs, i.e., either engage in construction of school facilities or engage in such projects via contract. DIR further notes that state funding for school construction is already provided through the State Allocation Board, which allocates money to districts based on formulas that pay between 40% to 80% of the cost of construction. DIR argues that the claimant has not made a credible case that such funding does not take care of whatever costs they have incurred.

With regard to the test claim amendment addressing Labor Code section 1771.7, the DIR states that no reimbursement is required because the newly created LCPs are voluntary programs for local school districts, and districts already receive state construction bond funding for their activities from the State Allocation Board. DIR further points out that district LCPs also are allowed to retain any penalties assessed and collected while enforcing the CPWL.

The DIR filed comments on the draft staff analysis stating that:

- Any mandate that exists is so negligible as to not require subvention pursuant to *Kern High School District*, since partial state funding already exists for maintenance and repair projects in school districts and community college districts, and such funding can be used for the newly mandated tasks.
- Retaining certified payroll records for six months at most results in a negligible increase in levels of service, which should be considered de minimis.
- Inserting a clause in public works contracts pursuant to Labor Code section 1776, subdivision (h), at most results in a negligible increase in levels of service.

- Retaining contract payments for certified payroll record violations pursuant to Labor Code section 1776, subdivision (g), is not a mandate since it does not require any activity of the awarding body. Additionally, this requirement does not result in a new program or higher level of service because the obligation already was subsumed in Labor Code section 1727 which required "the awarding body shall withhold and retain therefrom all amounts which have been forfeited pursuant to ... the terms of this chapter," and Labor Code section 1776, subdivision (g), is part of the same chapter as section 1727.
- Regarding the requirement that districts put certain projects out for bid, Public Contract Code section 22030 allows a school district or community college district to decide whether to subject itself to the thresholds set forth in the Uniform Public Construction Cost Accounting Act (UPCCAA) or the other work limits thresholds set forth in sections 20114 or 20655 of the Public Contract Code. Therefore, any project that does not create a mandate to contract with private parties under both sets of thresholds should not be considered a mandate for subvention purposes.
- The Commission should require a new declaration from the claimant to justify the test claim, since in the limited circumstances in which a mandate might exist to contract with private parties for a public project, the three alleged mandates cause virtually no increased costs.

These comments are addressed, as necessary, in the following analysis.

Position of Department of General Services, Office of Public School Construction

The Office of Public School Construction (OSPC), in commenting on the test claim amendment addressing Labor Code section 1771.7, states that participation by a school district in the School Facility Program (SFP), established by Chapter 12.5 of the Education Code, is voluntary:

> The Education Code does not compel a district to obtain funding from the State through the SFP as a condition of building schools. School districts may choose to build facilities through the use of district raised funds. Program elements are only required if a district chooses to participate in the program. Additionally, Labor Code ... Section 1771.7 states "an awarding body that *chooses* to use funds derived from the Kindergarten-University Public Education Facilities Bond Act of 2002 ... for a public works project, shall initiate and enforce ... a labor compliance program".[101]

The OSPC further states that the State Allocation Board (SAB) has authority to increase the per pupil grant amount to accommodate the State's share for the additional costs due to the initiation and enforcement of an LCP; the increases were approved by the SAB on July 2, 2003, and are currently being provided.

---

[101] Comments from Department of General Services, Office of Public School Construction, Luisa M. Park, Executive Officer, September 15, 2003, page 1.

OSPC filed an amendment to its September 15, 2003 comments addressing new bond money for public school construction that subsequently became available. The comments were amended to state:

> ... Additionally, Labor Code ... Section 1771.7 states "an awarding body that *chooses* to use funds derived from the Kindergarten-University Public Education Facilities Bond Act of *either* 2002 *or 2004* ... for a public works project, shall initiate and enforce ... a labor compliance program."
>
> The OSPC further states that the State Allocation Board (SAB) has authority to increase the per pupil grant amount to accommodate the State's share for the additional costs due to the initiation and enforcement of a LCP *for school projects funded from Proposition 47 or Proposition 55. Proposition 1D does not require school districts to enforce a LCP; therefore, projects that include LCPs are not eligible for funding increases under this bond.*

These comments are addressed as necessary in the following analysis.

Interested Person -- State Building and Construction Trades Council of California (AFL-CIO)

The State Building and Construction Trades Council (SBCTC) filed comments on the test claim as an interested person, pursuant to Title 2, California Code of Regulations, section 1181.1, subdivision (*l*). The SBCTC states that the test claim should be denied for the following reasons:

1. Any "mandate" imposed by the CPWL is on private contractors, not the local agency. It is possible that if private contractors have higher labor costs, such costs might be passed on to their customers; however, the contractor's cost of paying higher wages to workers on a project may well be offset by the increased skill and productivity of those workers. Several recent studies conclude that the prevailing wage law does not actually increase total school construction costs, and the claimant has presented no evidence to the contrary. SBCTC provided a copy of one study: "A Comparison of Public School Construction Costs" by Peter Philips, Ph.D., Professor of Economics, University of Utah, February, 2001.[102]
2. Although the CPWL does impose minor direct costs on school districts to administer and enforce the law, what has occurred since 1975 is the opposite of an unfunded state mandate since the state has taken upon itself responsibilities that were formerly borne by local agencies — i.e., determining prevailing wage rates and enforcing the CPWL.
3. It is correct to state that there has been some expansion in the definition of "public work" since 1975; however, many of the changes to that definition were actually clarifications of the pre-1975 statutory language and claimant has not presented any evidence that these minor changes have had any practical effect on school district construction projects.

The SBCTC did not file comments on the draft staff analysis.

---

[102] The claimant is not seeking reimbursement for the cost of increased salaries, which would not be reimbursable in any case pursuant to *City of Anaheim v. State of California* (1987) 189 Cal.App.3d 1478, 1484.

Discussion

The courts have found that article XIII B, section 6 of the California Constitution[103] recognizes the state constitutional restrictions on the powers of local government to tax and spend.[104] "Its purpose is to preclude the state from shifting financial responsibility for carrying out governmental functions to local agencies, which are 'ill equipped' to assume increased financial responsibilities because of the taxing and spending limitations that articles XIII A and XIII B impose."[105]

A test claim statute or executive order may impose a reimbursable state-mandated program if it orders or commands a local agency or school district to engage in an activity or task.[106] In addition, the required activity or task must be new, constituting a "new program," or it must create a "higher level of service" over the previously required level of service.[107]

The courts have defined a "program" subject to article XIII B, section 6, of the California Constitution, as one that carries out the governmental function of providing public services, or a law that imposes unique requirements on local agencies or school districts to implement a state policy, but does not apply generally to all residents and entities in the state.[108] To determine if the program is new or imposes a higher level of service, the test claim requirements must be compared with the legal requirements in effect immediately before the enactment of the test claim statutes.[109] A "higher level of service" occurs when there is "an increase in the actual level or quality of governmental services provided."[110]

---

[103] Article XIII B, section 6, subdivision (a), (as amended by Proposition 1A in November 2004) provides: "Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the State shall provide a subvention of funds to reimburse that local government for the costs of the program or increased level of service, except that the Legislature may, but need not, provide a subvention of funds for the following mandates: (1) Legislative mandates requested by the local agency affected. (2) Legislation defining a new crime or changing an existing definition of a crime. (3) Legislative mandates enacted prior to January 1, 1975, or executive orders or regulations initially implementing legislation enacted prior to January 1, 1975."

[108] *San Diego Unified School Dist., supra,* 33 Cal.4th 859, 874, (reaffirming the test set out in *County of Los Angeles v. State of California* (1987) 43 Cal.3d 46, 56 (*County of Los Angeles*); *Lucia Mar, supra,* 44 Cal.3d 830, 835).

[109] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 878; *Lucia Mar, supra,* 44 Cal.3d 830, 835.

[110] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 877.

Finally, the newly required activity or increased level of service must impose costs mandated by the state.[111]

The Commission is vested with exclusive authority to adjudicate disputes over the existence of state-mandated programs within the meaning of article XIII B, section 6.[112] In making its decisions, the Commission must strictly construe article XIII B, section 6 and not apply it as an "equitable remedy to cure the perceived unfairness resulting from political decisions on funding priorities."[113]

The analysis addresses the following issues:

- Do the test claim statutes, regulations or alleged executive orders impose a state-mandated program on K-12 school districts or community college districts within the meaning of article XIII B, section 6 of the California Constitution?
- Do the test claim statutes or regulations impose a new program or higher level of service within the meaning of article XIII B, section 6 of the California Constitution?
- Do the test claim statutes or regulations impose costs mandated by the state within the meaning of Government Code section 17514 and article XIII B, section 6 of the California Constitution?

Issue 1: Do the test claim statutes, regulations or alleged executive orders impose a state-mandated program on K-12 school districts or community college districts within the meaning of article XIII B, section 6 of the California Constitution?

For the test claim statutes, regulations or alleged executive orders to impose a state-mandated program, the language must order or command a school district or community college district to engage in an activity or task. If the language does not do so, then article XIII B, section 6 is not triggered. Moreover, where program requirements are only invoked after the district has made an underlying discretionary decision causing the requirements to apply, or where participation in the underlying program is voluntary, courts have held that resulting new requirements do not constitute a reimbursable state mandate.[114] Stated another way, a reimbursable state mandate is created when the test claim statutes or regulations establish conditions under which the state, rather than a local entity, has made the decision requiring the district to incur the costs of the new program.[115]

The claimant asserts the test claim statutes, regulations and alleged executive orders require districts to perform new activities to comply with state prevailing wage requirements, the costs of which are reimbursable under article XIII B, section 6. Since the provisions of the CPWL are only applicable to public works projects performed under contract, and not to work carried out by a public agency with its own forces,[116] the analysis must first address whether the state is requiring a school district or community college district to engage in any public works projects or to contract out for such projects. Then, the alleged new activities must be analyzed to determine whether they are required or mandated by the plain language of the test claim statutes, regulations, or alleged executive orders.

Do Districts Have Discretion to Undertake Public Works Projects?

Types of Public Works Projects Subject to CPWL

The Labor Code sets forth the types of projects that are considered "public works," subject to the CPWL. Prior to 1975, public works projects subject to prevailing wages generally included: 1) construction; 2) alteration; 3) demolition; 4) repair work; 5) work done for irrigation, utility, reclamation and improvement districts; 6) street, sewer or other improvement work; 7) laying of carpet; and 8) maintenance work.[117] Since 1975, the test claim statutes added new types of public works projects:

- Labor Code section 1720 was modified to add:
  - public transportation demonstration projects (effective August 7, 1989);
  - design and preconstruction, including land surveying (effective January 1, 2001); and
  - installation projects (effective January 1, 2002).
- Effective January 1, 1981, Labor Code section 1720.2 was amended to include projects done under private contract where the property subject to the contract is privately owned but upon completion of the construction work more than 50 percent of the property is leased to the state or a political subdivision for its use *and* the construction work is performed according to plans or specifications furnished by the state or a political subdivision with a lease agreement that is entered into between a lessor and the state or political subdivision as lessee during or upon completion of the project.
- Effective January 1, 2000, Labor Code section 1720.3 was amended to state that contracts for the removal of refuse from a public works construction site entered into by "any political subdivision" – which includes K-12 school districts and community college districts – are public works projects.

Each of these new types of public works projects is now subject to the CPWL.[118] The timing for CPWL coverage is significant here for purposes of the mandates analysis. The pre-existing

---

[116] Labor Code section 1771.

[117] Labor Code sections 1720 and 1771 in effect as of January 1, 1975.

[118] Labor Code section 1771: "... not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the public work is performed ... shall be paid to all workers employed on public works."

public works projects were already subject to the pre-existing CPWL administrative requirements, while the new public works projects only became subject to and therefore triggered the pre-existing requirements at the time they were enacted.[119] Thus, for pre-existing public works projects, only the *newly-imposed* CPWL administrative requirements that are claimed could be subject to reimbursement. For *newly-covered* public works projects, however, all CPWL administrative requirements *that are claimed*, both pre-existing and new, could be subject to reimbursement.

Discretion to Undertake Public Works Projects

The foregoing provisions show that the CPWL covers a broad range of public works projects. The decision to undertake such projects could arise in a myriad of ways, from a district-level decision to an initiative enacted by the voters.

With regard to K-12 school districts, Education Code section 17593 requires those districts to keep schools in repair:

> The clerk of each district except a district governed by a city or city and county board of education shall, under the direction of the governing board, keep the schoolhouses in repair during the time school is taught therein, and exercise a general care and supervision over the school premises and property during the vacations of the school.

Moreover, Education Code section 17565 requires the governing board of any school district to "furnish, repair, insure against fire, and in its discretion rent the school property of its districts."

Education Code section 17002 defines "good repair" to mean:

> [T]he facility is maintained in a manner that assures that it is clean, safe, and functional as determined pursuant to an interim evaluation instrument developed by the Office of Public School Construction. The instrument shall not require capital enhancements beyond the standards for which the facility was designed and constructed.

With regard to community college districts, Education Code section 81601 states:

> The governing board of a community college district shall furnish, repair, insure against fire, and in its discretion rent the school property of its districts. ...

Thus, both K-12 school districts and community college districts are required by statute to repair the school property of their districts. Since "property" includes "any external thing over which the rights of possession, use, and enjoyment are exercised,"[120] the requirement to repair includes real property as well as facilities owned by the district. Moreover, because the term

---

[119] See footnote 97 regarding effective date for CPWL coverage of design and pre-construction, including land surveying.

[120] Black's Law Dictionary, Seventh Edition, 1999, page 1232, column 2.

"repair" is defined as "to restore to sound condition after damage or injury" and "to renew or refresh,"[121] staff finds that "repair" includes "maintenance" for purposes of these provisions.

These statutes, therefore, require K-12 school districts and community college districts to repair and maintain their facilities and property.

Aside from the above statutory requirements, however, there is no evidence in the test claim statutes, regulations, alleged executive orders, or in the record that the state has required districts to undertake other public works projects that *do not* involve repair or maintenance, including the newly-covered public works projects. In fact, with regard to new construction of school buildings, the Second District Court of Appeal has stated: "Where, when or how, if at all, a school district shall construct school buildings is within the sole competency of its governing board to determine."[122]

Absent such legal compulsion, the courts have ruled that at times, based on the particular circumstances, "practical" compulsion might be found. The Supreme Court in *Kern High School Dist.* addressed the issue of "practical" compulsion in the context of a school district that had participated in optional funded programs in which new requirements were imposed. In *Kern,* the court determined there was no "practical" compulsion to participate in the underlying programs, since a district that elects to discontinue participation in a program does not face "certain and severe ... penalties" such as "double ... taxation" or other "draconian" consequences.[123]

In the case of *San Diego Unified School Dist.*, the test claim statutes required school districts to afford to a student specified hearing procedures whenever an expulsion recommendation was made and before a student could be expelled.[124] The Supreme Court held that hearing costs incurred as a result of statutorily required expulsion recommendations, e.g., where the student allegedly possessed a firearm, constituted a reimbursable state-mandated program.[125] Regarding expulsion recommendations that were discretionary on the part of the district, the court stated that in the absence of legal compulsion, compulsion *might* nevertheless be found when a school district exercised its discretion in deciding to expel a student for a serious offense to other students or property, in light of the state constitutional requirement to provide safe schools.[126] Ultimately, however, the Supreme Court decided the discretionary expulsion issue on an alternative basis.[127]

There is no evidence in the record to indicate that failure to undertake public works projects that are not otherwise required by statute would result in certain and severe penalties such as double taxation or other draconian consequences as set out in the *Kern* case. Nor does the

record show that the circumstances here are similar to those faced by the *San Diego* court regarding school safety. Although school safety was mentioned in the context of the statutory repair and maintenance requirements, nothing in the record indicates that failure to undertake *other* public works projects that are not required in statute would result in unsafe schools.

Instead, staff finds that public works projects that are entered into for purposes other than repair and maintenance are discretionary, analogous to the situation in *City of Merced.* There, the issue before the court was whether reimbursement was required for new statutory costs imposed on the local agency to pay a property owner for loss of goodwill, when a local agency exercised the power of eminent domain.[128] The court stated:

> Whether a city or county decides to exercise eminent domain is, essentially, an option of the city or county, rather than a mandate of the state. The fundamental concept is that the city or county is not required to exercise eminent domain. If, however, the power of eminent domain is exercised, then the city will be required to pay for loss of goodwill. Thus, payment for loss of goodwill is not a state-mandated cost.[129]

The Supreme Court in *Kern High School District* reaffirmed the *City of Merced* rule in applying it to voluntary education-related funded programs:

> The truer analogy between [*Merced*] and the present case is this: In *City of Merced*, the city was under no legal compulsion to resort to eminent domain – but when it elected to employ that means of acquiring property, its obligation to compensate for lost business goodwill was not a reimbursable state mandate, because the city was not required to employ eminent domain in the first place. Here as well, if a school district elects to participate in or continue participation in any underlying *voluntary* education-related funded program, the district's obligation to comply with the notice and agenda requirements related to that program does not constitute a reimbursable state mandate.[130]

The Code of Civil Procedure provision that was cited in *City of Merced* states:

> Nothing in this title requires that the power of eminent domain be exercised to acquire property necessary for public use. Whether property necessary for public use is to be acquired by purchase or other means or by eminent domain is a decision left to the discretion of the person authorized to acquire the property.[131]

The Law Revision Commission's comment on this provision stated:

> Section 1230.030 makes clear that whether property is to be acquired by purchase or other means, or by exercise of the power of eminent

---

[128] *City of Merced, supra,* (1984) 153 Cal.App.3d 777, 777.

[129] *Id.* at 783.

[130] *Kern High School District, supra,* 30 Cal.4th 727, 743.

[131] Code of Civil Procedure section 1230.030.

> domain, is a discretionary decision. Nothing in this title requires that the power of eminent domain be exercised; but, if the decision is that the power of eminent domain is to be used to acquire property for public use, the provisions of this title apply except as otherwise specifically provided by statute. ...[132]

The holding in *City of Merced* applies in this instance. A K-12 school district's or community college district's decision to undertake a public works project, other than for repair or maintenance of school buildings and property, is analogous to the discretionary decision to acquire property via eminent domain, and there is no evidence in the law or in the record that districts are practically compelled to engage in such public works projects.

Therefore, staff finds that the state has required K-12 school districts and community college districts to undertake public works projects to repair or maintain facilities and property of K-12 school districts and community college districts, pursuant to Education Code sections 17002, 17565, 17593 and 81601. The state has *not* required these districts to undertake any other public works projects. Consequently, any prevailing wage requirements, *when triggered by a public works project that does not address repair or maintenance*, are not mandated by the state and are not subject to article XIII B, section 6.

Moreover, since repair and maintenance types of public works projects were covered by the CPWL prior to 1975, only those CPWL administrative requirements claimed that were imposed *on or after January 1, 1975*, could be subject to reimbursement.

Do Districts Have Discretion to Contract for Repair or Maintenance Public Works Projects?

Since the requirement to pay prevailing wages is limited to work performed under contract, the next question is whether the state requires K-12 school districts or community college districts to contract for public works projects for repair or maintenance of school facilities or property, or whether the district can use its own forces for the project. As more fully described below, the state sometimes requires districts to contract for repair and maintenance of school facilities and property, depending upon project variables and the laws under which the district operates.

The Public Contract Code governs when districts are required to contract with private entities, and generally requires school districts and community college districts to contract with the lowest responsible bidder for construction, repairs and maintenance.[133] There are exceptions, however. For instance, when emergency repairs are needed for any facility to permit the continuance of existing classes or to avoid danger to life or property, the governing board of a school district or community college district is allowed to use its own forces to make such repairs.[134] In addition, the governing board of a school district or community college district is allowed to use its own forces to make repairs and other improvements under certain labor hour or material cost limits. For K-12 school districts, Public Contract Code section 20114 provides the following labor hour or material cost limits:

---

[132] California Law Revision Commission comment, 19 West's Annotated Code of Civil Procedure (1982 ed.) following section 1230.030, p. 414.

[133] Public Contract Code sections 20111 and 20651.

[134] Public Contract Code sections 20113 and 20654.

(a) In each school district, the governing board may make repairs, alterations, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance as defined in Section 20115[135, 136] by day labor, or by force account, whenever the total number of hours on the job does not exceed 350 hours. Moreover, in any school district having an average daily attendance of 35,000 or greater, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment, including painting or repainting, and perform maintenance, as defined in Section 20115, by day labor or by force account whenever the total number of hours on the job does not exceed 750 hours, or when the cost of material does not exceed twenty-one thousand dollars ($21,000).
(b) For purposes of this section, day labor shall include the use of maintenance personnel employed on a permanent or temporary basis.

---

[135] Public Contract Code section 20115 defines "maintenance" in this instance as "routine, recurring, and usual work for the preservation, protection, and keeping of any publicly owned or publicly operated facility for its intended purpose in a safe and continually usable condition for which it was designed, improved, constructed, altered, or repaired." This includes, but is not limited to: "carpentry, electrical, plumbing, glazing, and other craftwork designed consistent with the definition set forth above to preserve the facility in a safe, efficient, and continually usable condition for which it was intended, including repairs, cleaning, and other operations on machinery and other equipment permanently attached to the building or realty as fixtures." These provisions express the Legislature's intent that maintenance does not include painting, repainting, or decorating other than touchup, but instead those activities are to be controlled directly by the work limits under section 20114.

[136] For purposes of the Labor Code, "maintenance" is similarly defined:

(1) Routine, recurring and usual work for the preservation, protection and keeping of any publicly owned or publicly operated facility (plant, building, structure, ground facility, utility system or any real property) for its intended purposes in a safe and continually usable condition for which it has been designed, improved, constructed, altered or repaired.
(2) Carpentry, electrical, plumbing, glazing, touchup painting, and other craft work designed to preserve the publicly owned or publicly operated facility in a safe, efficient and continually usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures.
EXCEPTION: 1: Janitorial or custodial services of a routine, recurring or usual nature is excluded.
EXCEPTION: 2: Protection of the sort provided by guards, watchmen, or other security forces is excluded.
(3) Landscape maintenance. See Public Contract Code Section 21002 [subsequently renumbered to section 22002].
EXCEPTION: Landscape maintenance work by "sheltered workshops" is excluded. (Title 8, Cal. Code Regs., tit. 8, § 16000.)

For community college districts, Public Contract Code section 20655 provides the following labor hour or material cost limits:

> (a) In each community college district, the governing board may make repairs, alterations, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance as defined in Section 20656[137] by day labor, or by force account, whenever the total number of hours on the job does not exceed 350 hours. Moreover, in any district whose number of full-time equivalent students is 15,000 or greater, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment, including painting or repainting, and perform maintenance, as defined in Section 20656, by day labor or by force account whenever the total number of hours on the job does not exceed 750 hours, or when the cost of materials does not exceed twenty-one thousand dollars ($21,000).
> (b) For purposes of this section, day labor shall include the use of maintenance personnel employed on a permanent or temporary basis.

Notwithstanding the above provisions, a flat dollar threshold for public projects, as defined in Public Contract Code section 22002,[138] is established when a K-12 school district or

---

[137] Public Contract Code section 20656 defines "maintenance" for this purpose in the same manner as Public Contract Code section 20115. Section 20656 expresses the Legislature's intent that maintenance does not include painting, repainting, or decorating other than touchup, but instead those activities are to be controlled directly by the work limits under section 20655.

[138] Subdivision (c) defines "public project" as:

> (1) Construction, reconstruction, erection, alteration, renovation, improvement, demolition, and *repair* work involving any publicly owned, leased, or operated facility.[138]
> (2) Painting or repainting of any publicly owned, lease, or operated facility.
> (3) In the case of a publicly owned utility system, "public project" shall include only construction, erection, improvement, or repair of dams, reservoirs, powerplants, and electrical transmission lines of 230,000 volts and higher. (Emphasis added.)

Subdivision (d) states that "public project" does not include "maintenance work" which includes all of the following:

> (1) Routine, recurring, and usual work for the preservation or protection of any publicly owned or publicly operated facility for its intended purposes.
> (2) Minor repainting.
> (3) Resurfacing of streets and highways at less than one inch.
> (4) Landscape maintenance, including mowing, watering, trimming, pruning, planting, replacement of plants, and servicing of irrigation and sprinkler systems.
> (5) Work performed to keep, operate, and maintain publicly owned water, power, or waste disposal systems, including, but not limited to, dams,

community college district operates under the Uniform Public Construction Cost Accounting Act (UPCCAA).[139] Public Contract Code section 22001 sets forth the following findings and declarations regarding the UPCCAA:

> The Legislature finds and declares that there is a statewide need to promote uniformity of the cost accounting standards and bidding procedures on construction work performed or contracted by public entities in the state. This chapter provides for the development of cost accounting standards and an alternative method for the bidding of public works projects by public entities.

Section 22030 provides that the UPCCAA is only applicable to a district whose governing board has by resolution elected to become subject to its procedures and has notified the State Controller of the election. Once the district has elected to become subject to the UPCCAA, in the event of a conflict with any other provision of law relative to bidding procedures, the alternative bidding procedures and cost threshold under the UPCCAA for public projects, as defined, shall apply.[140]

The UPCCAA provides that public projects, which exclude maintenance, of $30,000 or less may be performed by a school district or community college district by its own forces.[141] In cases of emergency when repair or replacements are necessary, the work may be done by a district with its own forces.[142] Thus, for those districts subject to the UPCCAA, when the public project is not an emergency, contracting is required for a public project, as defined, when the cost of such project will exceed $30,000. When the project is for maintenance or other work that does not fall within the definition of public project, districts subject to the UPCCAA *may* use the bidding procedures set forth under the UPCCAA and in that situation would likewise be required to contract when the cost of the project will exceed $30,000.[143] Here, repair or maintenance projects – those that are legally required by Education Code sections 17002, 17565, 17593 and 81601 as noted above – could fall under the UPCCAA definition for public project, or may not. But in either case, for districts subject to the UPCCAA, when the project is not an emergency, contracting is required only when the cost of the project will exceed $30,000.

The Department of Industrial Relations (DIR) states that section 22030 of the Public Contract Code allows a school district to decide whether to subject itself to the UPCCAA thresholds or the K-12 and community college thresholds and thus being subject to one or the other is a

---

> reservoirs, powerplants, and electrical transmission lines of 230,000 volts and higher.

[139] Public Contract Code sections 22000 et seq.

[140] Public Contract Code section 22030.

[141] Public Contract Code section 22032; prior to January 1, 2007, the dollar limit for public projects that could be performed by the district was $25,000.

[142] Public Contract Code section 22035.

[143] Public Contract Code section 22003.

choice.[144] DIR concludes that "any project that does not create a mandate to contract with private parties under both sets of thresholds should not be considered a mandate for subvention purposes."[145]

Staff agrees that there is a choice on the part of the school district to become subject to the UPCCAA. However, staff disagrees with DIR's conclusion that unless the project is required to be contracted under both sets of thresholds it should not be considered a mandate for subvention purposes.

A district choosing the UPCCAA is subject to an entirely different set of bidding and accounting procedures for public projects, as defined, and is required to adopt an informal bidding ordinance for public projects of $125,000 or less.[146] And, where there is a conflict with any other provision of law relative to bidding procedures on public projects, the alternative bidding procedures set forth in the UPCCAA, including the $30,000 threshold, are controlling.[147] Thus, once the election is made, both the state and local UPCCAA rules are in place.

DIR appears to be reading a requirement into the law that is not there. A basic rule of statutory construction requires that a statute be given its plain meaning, and express requirements that the Legislature has not placed in the statute may not by implication be brought into a statute's interpretation.[148] The Legislature has given districts a choice to be subject to the UPCCAA, and a public works project is *either* subject to the labor hour/material cost thresholds, which vary significantly depending on the size of the district and the type of project, *or* the UPCCAA $30,000 project threshold, but not both. In either case, the CPWL program requirements will be triggered at the applicable threshold, and variables from the project itself will determine whether the threshold is reached. A district's decision to fall within the UPCCAA – a decision that may not have anything to do with a particular public project – does not operate as a trigger or a limit to what may be reimbursable. To require the district to apply both sets of thresholds each time it undertakes a project for purposes of determining the point at which subvention is allowed is not consistent with mandates case law or the purpose of article XIII B, section 6. Consequently, staff concludes that the threshold at which a project must be let to contract depends upon the applicable Public Contract Code bidding procedures under which the district operates.

Accordingly, staff finds that the state has required K-12 school districts and community college districts to undertake public works projects to repair or maintain their facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, via contract under the following circumstances:

---

[144] Letter from Anthony Mischel, Attorney At Law, Department of Industrial Relations, April 14, 2008, page 4.

[145] *Ibid.*

[146] Public Contract Code section 22034.

[147] Public Contract Code section 22030.

[148] *In re Rudy L.* (1994) 29 Cal.App.4th 1007, 1011.

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or
    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000.
2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and
    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or
    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000.
3. For any K-12 school district or community college district that is subject to the UPCCAA, when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.

Thus, repair or maintenance public works projects, but only when contracted for under the circumstances set forth above, are not discretionary. Moreover, since repair and maintenance public works projects were covered by the CPWL prior to 1975, only those CPWL administrative requirements claimed, that were imposed *on or after January 1, 1975*, could be subject to reimbursement.

Do the Test Claim Statutes, Regulations and Alleged Executive Orders Mandate Any Activities When a District is Required to Contract for Repairs or Maintenance of School Buildings or Property?

The next question is whether the plain language of the test claim statutes, regulations or alleged executive orders, on or after January 1, 1975, mandates any activities on K-12 school districts or community college districts when a district is required by law to contract for repair or maintenance public works projects.

A. Determining Prevailing Wage Coverage and Rates

1. Obtain Correct Prevailing Wage Rates – Labor Code Section 1773 and Title 8, California Code of Regulations, Sections 16202 and 16204

Labor Code section 1773 states in relevant part:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall obtain the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality in which the public work is to be performed for each craft, classification, or type of worker needed to execute the contract from the Director of Industrial Relations.

Section 16202 of the regulations states in relevant part:

(a) Awarding body request. The awarding body shall request the Director to make a determination for a particular craft, classification or type of worker not covered by a general determination. Any such request shall be submitted at least 45 days prior to the bid advertisement date.

Section 16204 of the regulations, dealing with effective dates of rate determinations and rates, states in relevant part:

(a)(5) It shall be the responsibility of the awarding body to ensure that the correct determination is used.

The plain language of this regulation requires the awarding body to "ensure" that the correct determination is used. This provision does not impose the activity of ensuring that the Director of Industrial Relations made a correct determination, as claimant asserts; rather it imposes the activity of ensuring that the appropriate wage rates, as determined by Director of Industrial Relations and as obtained by the awarding body, are properly used in the contract.

Thus, the plain language of the statute and regulations cited require the awarding body to obtain both the general prevailing wage rate and any special rates from the Director of Industrial Relations, and ensure that the appropriate rates are used in the contract.

2. Coverage Determinations – Title 8, California Code of Regulations, Section 16001

Section 16001 of the regulations states in relevant part:

(a)(1) Any interested party ... *may* file with the Director of Industrial Relations ... a request to determine coverage under the prevailing wage laws regarding either a specific project or type of work to be performed which that interested party believes may be subject to or excluded from coverage as a public works under the Labor Code. ...

(2) Within 15 days of receipt of a copy of the request for a coverage determination, the awarding body shall forward to the Director ... any documents, arguments, or authorities it *wishes* to have considered in the coverage determination process. (Emphasis added.)

Thus, the plain language of this provision shows that an awarding body may, but is not required to, request a coverage determination from the Director of Industrial Relations. The awarding body must provide documentation to the Director by a date certain if it *wishes* to have that documentation considered. Thus, no activities are required of the awarding body by this regulation.

3. Review of Prevailing Wage Rate Determination – Title 8, California Code of Regulations, Section 16302

Section 16302 of the regulations provides that an interested party, including an awarding body, "*may* file with the Director or the Chief of DLSR, within 20 days after commencement of advertising of a call for bids by any awarding body, a petition to review a determination of any rate or rates made by the Director ..." (Emphasis added.) Thus, the awarding body is not required to file such a petition, and no activities are required.

4. Appeal of Public Work Coverage Determination – Labor Code Section 1773.4 and Title 8, California Code of Regulations, Section 16002.5

Section 16002.5 of the regulations, as it interprets Labor Code section 1773.4, provides that an interested party, including an awarding body, "*may* appeal to the Director of Industrial Relations … a determination of coverage under the public works laws … regarding either a specific project or type of work …" (Emphasis added.) Thus, the awarding body is not required to make such appeal, and no activities are required.

B. Notices and Reports

1. Statement of Prevailing Wage Rates – Labor Code Section 1773.2

Labor Code section 1773.2 states:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall specify in the call for bids for the contract, and in the bid specifications and in the contract itself, what the general rate of per diem wages is for each craft, classification, or type of worker needed to execute the contract.
>
> In lieu of specifying the rate of wages in the call for bids, and in the bid specifications and in the contract itself, the awarding body may, in the call for bids, bid specifications, and contract, include a statement that copies of the prevailing rate of per diem wages are on file at its principal office, which shall be made available to any interested party on request. The awarding body shall also cause a copy of the determination of the director of the prevailing rate of per diem wages to be posted at each job site.

Labor Code section 1773.2 does impose on the awarding body the activity of providing notice, in either of the fashions set forth.

2. Ineligible Contractors and Subcontractors – Labor Code Section 1777.1 and Title 8, California Code of Regulations, Sections 16800 through 16802.

Labor Code section 1777.1, subdivision (d), requires the Labor Commissioner, not less than semi-annually, to "publish and distribute to awarding bodies a list of contractors who are ineligible to bid on or be awarded a public works contract, or to perform work as a subcontractor on a public works project …" Sections 16800 through 16802 set forth procedures for the Division of Labor Standards Enforcement to investigate and conduct hearings for debarment of contractors and subcontractors.

The plain language of the test claim statute and regulations does not impose any activities on the awarding body.

3. Notice Regarding Apprenticeship Standards – Labor Code Sections 1773.3 and 1777.5, Subdivision (n)

Labor Code section 1773.3 states:

> An awarding agency whose public works contract falls within the jurisdiction of Section 1777.5 shall, within five days of the award, send a copy of the award to the Division of Apprenticeship Standards. … Within five days of a finding of any discrepancy regarding the ratio of apprentices

to journeymen, pursuant to the certificated fixed number of apprentices to journeymen, the awarding agency shall notify the Division of Apprenticeship Standards.

Section 1777.5 sets apprenticeship standards. Subdivision (n) states:

> The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. The stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.

The plain language of the test claim statute requires the awarding body, when apprentices will be used in the contract, to include language in the contract regarding apprenticeship requirements and provide a copy of the contract award to the Division of Apprenticeship Standards.

4. Take Cognizance of and Report Suspected Violations — Labor Code Section 1726

Labor Code section 1726 states in relevant part:

> The body awarding the contract for public work shall take cognizance of violations of this chapter committed in the course of the execution of the contract, and shall promptly report any suspected violations to the Labor Commissioner.

Thus, the plain language of this test claim statute requires the awarding body to take cognizance of and report any suspected violations to the Labor Commissioner.

D. Payroll Records – Labor Code Section 1776 and Title 8, California Code of Regulations, Sections 16400 - 16403

Labor Code section 1776 states in relevant part:

> (a) Each contractor and subcontractor shall keep accurate payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work. Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury ...
>
> (b) The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor on the following basis:
>
> (1) A certified copy of an employee's payroll record shall be made available for inspection or furnished to the employee or his or her authorized representative on request.
>
> (2) A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.

(3) A certified copy of all payroll records enumerated in subdivision (a) *shall* be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the body awarding the contract, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. If the requested payroll records have not been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through which the request was made. The public shall not be given access to the records at the principal office of the contractor.

...

(e) Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement *shall* be marked or obliterated to prevent disclosure of an individual's name, address, and social security number. The name and address of the contractor awarded the contract or the subcontractor performing the contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal labor Management Cooperation Act of 1978 ... *shall* be marked or obliterated only to prevent disclosure of an individual's social security number. ...

...

(g) The contractor or subcontractor shall have 10 days in which to comply subsequent to receipt of a written notice requesting the records enumerated in subdivision (a). In the event that the contractor or subcontractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties *shall* be withheld from progress payments then due. A contractor is not subject to a penalty assessment pursuant to this section due to the failure of a subcontractor to comply with this section.

(h) The body awarding the contract *shall* cause to be inserted in the contract stipulations to effectuate this section.

(i) The director shall adopt rules consistent with the California Public Records Act ... and the Information Practices Act of 1977 ... governing the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section. (Emphasis added.)

Section 16400 of the regulations states in relevant part:

> (c) Acknowledgment of Request. The public entity receiving a request for payroll records *shall* acknowledge receipt of such, and indicate the cost of providing the payroll records based on an estimate by the contractor, subcontractor or public entity. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16400(d) below, to the person who requested said records.
>
> (d) Request to Contractor. The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following:
>
> (1) Specify the records to be provided and the form upon which the information is to be provided;
>
> (2) Conspicuous notice of the following:
>
> (A) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and
>
> (B) that failure to provide certified copies of the records to the requesting public entity within 10 working days of the receipt of the request will subject the contractor to a penalty of twenty-five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated;
>
> (3) Cost of preparation as provided in Section 16402; and
>
> (4) Provide for inspection.
>
> (e) Inspection of Payroll Records. Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of Section 1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice. (Emphasis added.)

Section 16401 provides that the format for reporting payroll records by the contractor shall be on a form provided by the public entity and that copies of such forms are available at any office of the Division of Labor Standards Enforcement throughout the state. The section also provides specified words for the required certification, but allows the public entity to require a more strict or extensive form of certification.

Section 16402 of the regulations states:

> The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of

cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

Section 16403 of the regulations states:

> (a) Records received from the employing contractor *shall* be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;
>
> (b) copies provided to the public upon written request *shall* be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;
>
> (c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information. (Emphasis added.)

In summary, requests by the public for certified payroll records can only be made through the awarding body, the Division of Labor Standards Enforcement, or the Division of Apprenticeship Standards, and any copies provided to the public shall be redacted to prevent disclosure of an individual's name, address, social security number and other private information. Once the awarding body receives a request for the records from the public, the awarding body is required to send an acknowledgment to the requesting party and indicate to the requestor the costs for preparing the records. The awarding body's request to the contractor for the records must include specified information. The requesting party is required to reimburse the costs of preparing the records by the contractor, subcontractors, and the awarding body or other entity through which the request was made; the regulation establishes those costs, and requires that payment be made by the person seeking the record prior to release of the documents to cover the actual costs of preparation. The regulations further require that the awarding body keep unredacted copies of any such payroll records on file for at least 6 months following completion and acceptance of the project, or longer if the project is disputed. Upon request of the Division of Apprenticeship Standards or the Division of Labor Standards, the awarding body is required to withhold from contractor progress payments any penalties for the contractor's noncompliance. The body awarding the contract is also required to include in the contract stipulations regarding the contractor's requirements regarding payroll records.

With regard to providing certified payroll records to a joint labor-management committee under Labor Code section 1776, subdivision (e), it is unclear from the plain language of the statute whether such records must be provided by the awarding body or if such records may be provided by the contractor, since subdivision (b)(3) states: "The public shall not be given access to the records at the principal office of the contractor."

In interpreting statutes, the primary rule is to ascertain the intent of the Legislature so as to effectuate the purpose of the statute.[149] The first step is to examine the statutory language, giving the words their usual and ordinary meaning.[150] If there is ambiguity, extrinsic sources including legislative history may be used so that the general purpose of the statute is promoted rather than defeated.[151]

In this case, the Legislature enacted statutes to allow a joint labor-management committee the ability to independently enforce prevailing wage requirements under Labor Code section 1771.2.[152] As part of that enactment, section 1776 was modified to address certified payroll records released to a joint labor-management committee. The Senate Rules Committee bill analysis stated:

> This bill provides that a federally recognized joint labor-management committee may obtain a copy of a certified payroll from a *contractor* on a public works project, but with names and social security numbers deleted. If the committee discovers unpaid prevailing wages or fringe benefits due, and related penalties, it may file a civil action to collect them. ...[153] (Emphasis added.)

Thus it is clear from the legislative history that the provisions were intended to allow the joint labor-management committee to obtain certified payroll records directly from the contractor rather than the awarding body.

Therefore, the test claim statutes and regulations require awarding bodies to perform the following activities:

- Upon a request made to the awarding body by the public for payroll records:
  - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
  - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
  - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e), Cal. Code Regs., tit. 8, § 16403, subd. (b));
  - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3)); and
  - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).

---

[149] *Estate of Griswold* (2001) 25 Cal 4th 904, 910.

[150] *Id.* at 911.

[151] *Ibid.*

[152] Statutes 2001, chapter 804.

[153] Senate Rules Committee, Office of Senate Floor Analyses, Senate Bill No. (SB) 588 Bill Analysis, September 12, 2001, page 2.

- Withhold penalties from contractor progress payments for noncompliance with section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's requirements pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h).)

DIR asserts that withholding penalties from contractor progress payments for certified payroll record violations pursuant to Labor Code section 1776, subdivision (g), is not a mandate because it does not require any action by an awarding body. Instead, DIR argues, the same analysis of Labor Code section 1727 applies here, i.e., where the plain language of the test claim statute *prohibits* the awarding body from disbursing withheld money, no activities are required.

DIR misconstrues the mandate analysis of Labor Code section 1727 in E.2. below. There, the analysis found that the plain language of the statute *does* require the awarding body to engage in the activity of withholding money from contractor payments to satisfy a civil wage and penalty assessment issued by the Labor Commissioner. The plain language of that section also *prohibits* disbursement of such funds to any entity – either the Labor Commissioner or the contractor – until a final order that is no longer subject to judicial review is issued. Thus, the analyses of the two sections are consistent and Labor Code section 1776, subdivision (g), and does in fact mandate the awarding body to withhold penalties from contractor progress payments for noncompliance with section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement.

E. Withholdings

1. Withhold Contract Payments Based on District Determination – Labor Code Section 1726

Labor Code section 1726 states in relevant part that "if the awarding body determines as a result of its own investigation that there has been a violation of this chapter and withholds contract payments, the procedures in Section 1771.6 shall be followed." The plain language of this statute does not require the awarding body to engage in the activity of investigating a potential violation of the chapter.

2. Withhold and Retain Contract Payments to Satisfy Civil Wage and Penalty Assessments – Labor Code Section 1727

Labor Code section 1727 states:

> (a) Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom all amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner under this chapter. The amounts required to satisfy a civil wage and penalty assessment shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.
>
> (b) If the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a subcontractor's violations, the contractor shall, upon the request of the Labor Commissioner, withhold sufficient money due the subcontractor

under the contract to satisfy the assessment and transfer the money to the awarding body. These amounts shall not be disbursed until receipt of a final order that is no longer subject to judicial review.

Thus, the plain language of the statute requires the awarding body to withhold from contractor payments the amount necessary to satisfy a civil wage and penalty assessment issued by the Labor Commissioner, or receive from the contractor any money withheld for such purpose by the contractor from the subcontractor. However, where the plain language of the test claim statute *prohibits* the awarding body from disbursing the withheld money until a final order that is no longer subject to judicial review, no activities are required of the awarding body.

3. Release Withheld Funds – Labor Code Section 1742, Subdivision (f)

Labor Code section 1742, subdivision (f), states in relevant part that "[a]n awarding body that has withheld funds in response to a civil wage and penalty assessment ... shall, upon receipt of a certified copy of a final order that is no longer subject to judicial review, promptly transmit the withheld funds ... to the Labor Commissioner."

The plain language of this statute requires the activity of releasing funds to the Labor Commissioner upon receipt of the final order.

F. Labor Compliance Program

Claimant pled several activities required of districts when they implement a Labor Compliance Program pursuant to Labor Code section 1771.5.[154] Ordinarily, the prevailing wage requirements are applicable for every public works project that exceeds $1,000.[155] Section 1771.5 states in pertinent part that if an awarding body *elects* to initiate and enforce a Labor Compliance Program, the awarding body can avoid prevailing wage requirements for public works projects of up to $25,000 for construction work or up to $15,000 for alteration, demolition, repair or maintenance work. Section 1771.7 further provides that an awarding body that *chooses* to use funds derived from the Kindergarten-University Public Education Facilities Bond Acts of 2002 and 2004 *shall* initiate and enforce a Labor Compliance Program. Nothing in the plain language of section 1771.5 *requires* the awarding body to elect to initiate or enforce, and therefore undertake any activities related to, a Labor Compliance Program, nor does the plain language of sections 1771.5 or 1771.7 *require* the awarding body to use funds derived from the referenced bond measures. Staff therefore finds there is no "legal" compulsion for K-12 school districts or community colleges to initiate and enforce a Labor Compliance Program.

Absent such legal compulsion, the courts have ruled at times that "practical" compulsion might be found. As noted above, the Supreme Court in *Kern High School Dist.* addressed the issue of "practical" compulsion in the context of a school district that had participated in optional funded programs in which new requirements were imposed. In *Kern,* the court

---

[154] With regard to initiating and enforcing a Labor Compliance Program, claimant pled Labor Code sections 1771.5, 1771.6 and 1771.7, Title 8, California Code of Regulations sections 16425 – 16439 and 17220 – 17221, "AB 1506 Labor Compliance Program Guidebook," "School Facility Program Substantial Progress and Expenditure Audit Guide," and "Antioch Unified School District Labor Compliance Program."

[155] Labor Code section 1771.

determined there was no "practical" compulsion to participate in the underlying programs, since a district that elects to discontinue participation in a program does not face "certain and severe ... penalties" such as "double ... taxation" or other "draconian" consequences.[156]

The Department of General Services, Office of Public School Construction, asserts that the law does not compel a district to obtain funding from the state as a condition of building schools, and school districts may choose to build facilities through the use of district raised funds. Claimant argues that the use of *district* raised funds is not realistic, citing several Education Code provisions which "strictly limit" the district's ability to issue local school bonds and manifest the Legislature's intent that the state should provide financing for school construction. Claimant summarized the argument as follows:

> In summary, the last 60 years of legislative history shows repeated and consistent recognition that school districts are unable to meet the school construction needs of their pupils. The history repeatedly reveals an admission that the education of school children is the primary responsibility of the state. The history of the inability of school districts and the obligation of the state to educate children results in the above recited litany of state money for school construction at low or no interest rates, repayment requirements of less than the amounts apportioned, and repayment terms unavailable anywhere else. Education of children is an obligation and function of the state. Classrooms are required to provide that education. Therefore, building classrooms is a state obligation.[157]

In the foregoing analysis regarding public works projects, however, staff found that the only public works projects mandated by the state are projects the districts undertake for repair and maintenance. Since no compulsion to undertake other types of public works projects was found, the only issue here is whether K-12 school districts and community college districts are compelled to use Kindergarten-University Public Education Facilities Bond Act of 2002 and 2004 funds for repair and maintenance projects, thereby triggering the requirement for the district to implement an LCP. For the reasons stated below, staff finds no such compulsion exists under the test claim statutes, regulations, or alleged executive orders, or under other law or in the record.

Claimant argues that requiring the district to use district-raised funds rather than state funds "results in non-legal compulsion in the form of double taxation which is prohibited by *City of Sacramento v. State of California* (1990) 50 Cal.3d 51, 70-76."[158] That California Supreme Court case dealt with a claim seeking subvention of costs imposed as a result of a state statute which extended federally-mandated coverage of the state's unemployment insurance law to include state and local agencies.[159] The court noted that federal law provides powerful incentives to enactment of unemployment insurance protection by the individual states, i.e., "certified" state programs, and described the current situation as follows:

---

[156] *Kern High School Dist., supra,* 30 Cal.4th 727, 754.

[157] Claimant comments, submitted October 20, 2003, page 10.

[158] *Ibid.*

[159] *City of Sacramento v. State of California, supra,* 50 Cal.3d 51, 51.

> In current form, the Federal Unemployment Tax Act (hereafter FUTA) ... assesses an annual tax upon the gross wages paid by covered private employers nationwide. The tax rate, which has varied over the years, stands at 6.2 percent for calendar year 1990. (Citations omitted.) However, employers in a state with a federally "certified" unemployment insurance program may credit their contributions to the state system against up to 90 percent of the federal tax. ... A "certified" state program also qualifies for federal administrative funds. (Citations omitted.)[160]

One of the questions before the court was whether the new state law, because of the federal incentives for enacting it, was in fact a "federal" mandate.[161] The court ruled that the state statute in question was actually a federal mandate; since the statute was not subject to the tax and spend limitations of articles XIII A and B, the local agency could tax and spend as necessary to meet expenses of the new legislation.[162] The court reasoned that "certain regulatory standards imposed by the federal government under 'cooperative federalism' schemes are coercive on the states and localities in every practical sense,"[163] and provided the following explanation:

> If California failed to conform its plan to new federal requirements as they arose, its businesses faced a new and serious penalty – full, double unemployment taxation by both state and federal governments. Besides constituting an intolerable expense against the state's economy on its face, this double taxation would place California employers at a serious competitive disadvantage against their counterparts in states which remained in federal compliance.
>
> ....
>
> Here, the state simply did what was necessary to avoid certain and severe federal penalties upon its resident businesses. The alternatives were so far beyond the realm of practical reality that they left the state "without discretion" to depart from federal standards. We therefore conclude that the state acted in response to a federal "mandate" for purposes of article XIII B.[164]

Claimant points out that in November of 2002 the voters approved Proposition 47, the Kindergarten-University Public Education Facilities Bond Act of 2002, which allocated more than $8 billion for new construction and more than $3 billion for the modernization of school facilities, which is a state general obligation bond measure to be repaid by taxation levied on all residents of the state, including school district constituents.[165] In response to the Office of

[161] *Id.* at 70.

[162] *Id.* at 76.

[163] *Id.* at 73-74.

[164] *Id.* at 74.

[165] Claimant comments, submitted October 20, 2003, page 14.

Public School Construction's suggestion that a school district has the discretion to build new facilities through the use of district raised funds, claimant argues that any district raised funds "would need to be repaid from taxes raised only from the constituents of that school district."[166] Claimant further argues that since any election to use district funds does not relieve the residents of that district from still paying taxes to reduce the state bonds, the citizens of the district would then be subject to "double taxation."[167] Claimant concludes that the "only reasonable alternative to school districts is to use available Proposition 47 state funds and to enforce a labor compliance program."[168]

Staff disagrees that using local general obligation bonds constitutes the "intolerable expense" of "double taxation" as described by the Supreme Court in *City of Sacramento*, or that school districts have no reasonable alternative to using funds available from Proposition 47 (2002 Kindergarten-University measure) or Proposition 55 (2004 Kindergarten-University measure). In fact, the ballot measure that enacted Proposition 47 states that, in addition to funding from state and local general obligation bonds, school districts also receive significant funds from developer fees and special local bonds known as "Mello-Roos" bonds.[169] The School Facility Program Handbook, which provides assistance to districts in applying for and obtaining these bond funds, notes that additional sources of funds for districts include, in addition to general obligation bonds, proceeds from the sale of surplus property and federal grants.[170] Under the Deferred Maintenance Program, K-12 school districts and community college districts can receive state matching funds, on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components so that the educational process may safely continue.[171] None of these additional sources of funds triggers the requirement to initiate and establish an LCP.

Moreover, the purposes for the 2002 and 2004 bond measures, as stated in the ballot materials, were to provide funds for K-12 school districts to buy land, construct new buildings, reconstruct or modernize existing buildings, provide relief for critically overcrowded schools, and construct buildings for joint use; and for community college districts, the funds were intended to construct new buildings and related infrastructure, alter existing buildings, and purchase equipment for use in these buildings.[172]

[171] Education Code sections 17582 – 17588 and 84660 et seq.; Deferred Maintenance Program Handbook, A guide to assist school districts in applying for and obtaining "grant" funds for the purposes of performing deferred maintenance work on school facilities, prepared by the Office of Public School Construction, June 2007, page 1.

[172] Official Voter Information Guide, General Election, Tuesday, November 5, 2002, Proposition 47, Analysis by the Legislative Analyst, page 2; Official Voter Information Guide,

Thus, although some of the 2002 and 2004 bond funds will likely be used for repairs, that was not their primary purpose. Furthermore, as noted above, K-12 school districts and community college districts have several funding alternatives to accomplish repair and maintenance. The Supreme Court in *Kern* stated that school districts, in the exercise of their discretion, will make the choices that are ultimately the most beneficial for the district:

> As to each of the optional funded programs here at issue, school districts are, and have been, free to decide whether to (i) continue to participate and receive program funding, even though the school district also must incur program-related costs associated with the [new] requirements or (ii) decline to participate in the funded program. Presumably, a school district will continue to participate only if it determines that the best interests of the district and its students are served by participation – in other words, if, *on balance*, the funded program, even with strings attached, is deemed beneficial. And, presumably, a school district will decline participation if and when it determines that the costs of program compliance outweigh the funding benefits. (Emphasis in original.)[173]

Therefore, staff finds there is no evidence in the record or in law to demonstrate that districts are legally or practically compelled to use Kindergarten-University Public Education Facilities Bond Act of 2002 or 2004 funds to undertake repair or maintenance public works projects. Since none of the activities that flow from implementation of an LCP pursuant to the test claim statutes, regulations or alleged executive orders[174] have been triggered by a state-mandated requirement, none of those statutes, regulations or alleged executive orders are subject to article XIII B, section 6.

G. Hearings and Court Proceedings

Claimant pled several activities related to a new administrative hearing process pursuant to Labor Code sections 1742 and 1742.1 and Title 8, California Code of Regulations, sections 16413 and 17220, et seq. This new process was established for contractors and subcontractors to obtain review of civil wage and penalty assessments issued by the Labor Commissioner, or decisions of the awarding body to withhold contract payments when enforcing under a Labor Compliance Program pursuant to Labor Code section 1771.5, or under Labor Code section 1726.

Labor Code section 1742 states in relevant part:

> (a) An affected contractor or subcontractor may obtain review of a civil wage and penalty assessment under this chapter by transmitting a written request to the office of the Labor Commissioner that appears on the

---

California Primary Election, Tuesday, March 2, 2004, Proposition 55, Analysis by the Legislative Analyst, page 6.

[173] *Kern High School Dist., supra,* 30 Cal. 4th 727, 753.

[174] Labor Code sections 1771.5, 1771.6 and 1771.7, Title 8, California Code of Regulations sections 16425 – 16439 and 17220 – 17221, "AB 1506 Labor Compliance Program Guidebook," "School Facility Program Substantial Progress and Expenditure Audit Guide," and "Antioch Unified School District Labor Compliance Program."

assessment within 60 days after service of the assessment. If no hearing is requested within 60 days after service of the assessment, the assessment shall become final.

(b)(1) Upon receipt of a timely request, a hearing shall be commenced within 90 days before an administrative law judge ... The contractor or subcontractor shall be provided an opportunity to review evidence to be utilized by the Labor Commissioner at the hearing within 20 days of the receipt of the written request for a hearing. Any evidence obtained by the Labor Commissioner subsequent to the 20-day cutoff shall be promptly disclosed to the contractor or subcontractor.

(2) The contractor or subcontractor shall have the burden of proving that the basis for the civil wage and penalty assessment is incorrect. The assessment shall be sufficiently detailed to provide fair notice to the contractor or subcontractor of the issues at the hearing.

(3) Within 45 days of the conclusion of the hearing, the administrative law judge shall issue a written decision affirming, modifying, or dismissing the assessment. The decision of the administrative law judge shall consist of a notice of findings, findings, and an order. This decision shall be served on all parties and the awarding body pursuant to Section 1013 of the Code of Civil Procedure by first-class mail at the last known address of the party on file with the Labor Commissioner. Within 15 days of the issuance of the decision, the administrative law judge may reconsider or modify the decision to correct an error except that a clerical error may be corrected at any time.

(4) The Director of Industrial Relations shall adopt regulations setting forth procedures for hearings under this subdivision.

(c) An affected contractor or subcontractor may obtain review of the decision of the administrative law judge by filing a petition for a writ of mandate to the appropriate superior court pursuant to Section 1094.5 of the Code of Civil Procedure within 45 days after service of the decision. If no petition for writ of mandate is filed within 45 days after service of the decision, the order shall become final. If it is claimed in a petition for writ of mandate that the findings are not supported by the evidence, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record.

(d) A certified copy of a final order may be filed by the Labor Commissioner in the office of the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the filing, shall enter judgment for the state against the person assessed in the amount shown on the certified order.

(e) A judgment entered pursuant to this section shall bear the same rate of interest and shall have the same effect as other judgments and shall be

given the same preference allowed by law on other judgments rendered for claims for taxes. The clerk shall not charge for the service performed by him or her pursuant to this section.

...

(g) This section shall provide the exclusive method for review of a civil wage and penalty assessment by the Labor Commissioner under this chapter or the decision of an awarding body to withhold contract payments pursuant to Section 1771.5.

...

Section 16413 of the regulations further establishes procedures for a contractor or subcontractor to follow when requesting a hearing under Labor Code section 1742.

Labor Code section 1742.1 requires the Labor Commissioner to afford the affected contractor or subcontractor, upon his or her request, to meet with the Labor Commissioner to attempt to settle the dispute without the need for formal proceedings. The section further states in relevant part:

> The awarding body shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a notice of withholding under subdivision (a) of Section 1771.6 [i.e., under a Labor Compliance Program], afford the contractor or subcontractor the opportunity to meet with the designee of the awarding body to attempt to settle a dispute regarding the notice without the need for formal proceedings. ...

Sections 17220 et seq. of the regulations set forth procedures for an awarding body to follow when enforcing under a Labor Compliance Program pursuant to Labor Code section 1771.6.

The plain language of Labor Code sections 1742 and 1742.1, and the regulations cited, does not require awarding bodies to engage in any hearing activities, respond to writs of mandate, or participate in settlement meetings, unless the awarding body is voluntarily exercising enforcement authority under Labor Code section 1726 or 1771.5.[175] As noted above, Labor Code section 1726 *does not* require an awarding body to investigate potential violations of the chapter, nor does Labor Code section 1771.5 require an awarding body to initiate and enforce a Labor Compliance Program. Since both of these underlying activities are discretionary, Labor Code sections 1742 and 1742.1, and sections 16413 and 17220 et seq. of the regulations, do not mandate any activities on the awarding body.

Labor Code section 1771.2 allows a joint labor-management committee, established pursuant to federal law, to bring an action in court against an employer, i.e., a contractor or subcontractor, that fails to pay the prevailing wage to its employees as required. Nothing in that statute requires the awarding body to appear or participate in legal proceedings from such action by the joint labor-management committee. Thus, Labor Code section 1771.2 does not mandate any activities on the awarding body.

---

[175] Labor Code section 1771.6, Title 8, California Code of Regulations, section 17202, subdivision (c).

Summary of Required Activities

Therefore, staff finds only the following activities are required by the plain language of the test claim statutes and regulations:

- Obtain both the general prevailing wage rate and any special rates from the Director of Industrial Relations, and ensure that the appropriate rates are used in the contract. (Lab. Code, § 1773, tit. 8, Cal. Code Regs., §§ 16202 & 16204.)
- Include a statement of prevailing rates of per diem wages in the call and advertisement for bids, the bid specifications, and in the public works contract itself, or, in lieu of those requirements, the district may include in the call for bids, bid specifications, and the contract itself a statement to the effect that copies of the prevailing rate of wages are on file in the awarding body's principal office, and in that case the district must post the statement at all job sites. (Lab. Code, § 1773.2.)
- Provide a copy of the contract award to the Division of Apprenticeship Standards, when apprentices will be used in the contract, and include language in the contract regarding apprenticeship requirements. (Lab. Code, §§ 1773.3 & 1777.5, subd. (n).)
- Take cognizance of violations of the prevailing wage laws in the course of the execution of the contract, and report any suspected violations to the Labor Commissioner. (Lab. Code, § 1726.)
- Regarding certified payroll records, perform the following activities:
    - Upon a request made to the awarding body by the public for payroll records:
        - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
        - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
        - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e), Cal. Code Regs., tit. 8, § 16403, subd. (b))
        - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3)); and
        - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).
    - Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g).)
    - Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h).).

- Withhold amounts necessary to satisfy Civil Wage and Penalty Assessments issued by the Labor Commissioner and receive from the contractor any money withheld for such purpose by the contractor from the subcontractor. (Lab. Code, § 1727.)
- Transmit funds withheld in response to a civil wage and penalty assessment to the Labor Commissioner upon receipt of a certified copy of a final order that is no longer subject to judicial review. (Lab. Code, § 1742, subd. (f))

Staff further finds that these activities are only mandated by the state for repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or
    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000.
2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and
    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or
    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000.
3. For any K-12 school district or community college district that is subject to the UPCCAA, when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.

Issue 2: Do the test claim statutes or regulations impose a "new program or higher level of service" within the meaning of article XIII B, section 6 of the California Constitution?

A "new program or higher level of service" is imposed when the mandated activities: a) are new in comparison with the pre-existing scheme; *and* b) result in an increase in the actual level or quality of governmental services provided by the district.[176] To make this determination, the mandated activities must be compared with the legal requirements in effect immediately before the enactment of the test claim statutes or regulations.

[176] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 877; *Lucia Mar, supra*, 44 Cal.3d 830, 835.

Obtain Prevailing Wage Rate (Lab. Code, § 1773, Cal. Code Regs, tit. 8, §§ 16202 & 16204)

The statute and regulations require the awarding body to obtain both the general prevailing wage rate and any special rates from the Director of Industrial Relations, and ensure that the appropriate rates are used in the contract.

Prior to 1975, Labor Code section 1773 stated in relevant part:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall *ascertain* the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality in which the public work is to be performed for each craft, classification or type of workman needed to execute the contract. ...
>
> In determining such rates, the *awarding body* shall ascertain and consider the applicable wage rates established by collective bargaining agreements and such rates as may have been predetermined for federal public works, within the locality and in the nearest labor market area. Where such rates do not constitute the rates actually prevailing in the locality, the *awarding body* shall obtain and consider further data from the labor organizations and employers or employer associations concerned, including the recognized collective bargaining representatives for the particular craft, classification or type of work involved. The rate fixed for each craft, classification or type of work shall be not less than the prevailing rate paid in such craft, classification or type of work.
>
> If the *awarding body* determines that the rate of prevailing wage for any craft, classification or type of workman is the rate established by a collective bargaining agreement, the *awarding body* may adopt such rate by reference as provided for in such agreement and such determination shall be effective for the life of such agreement or until the *awarding body* determines that another rate should be adopted. (Emphasis added.)[177]

The Department of Industrial Relations explains how this pre-existing process worked:

> Labor Code section 1773 required the local agency to consider the "rates established by collective bargaining agreements and such rates as may have been predetermined for federal public works." [Citations.] If these two mandatory sources of information were insufficient to determine the rate actually prevailing, local agencies had to "obtain and consider further data from the labor organizations and employers or employer associations concerned." *Id.* Local agencies had to obtain further information on what rates to pay each craft for overtime and holiday work, depending on which collective bargaining agreement, if any, applied.[178]

In this pre-existing law, the burden was on the awarding body to ascertain and determine the prevailing wage rates for public works projects.

---

[177] Statutes 1971, chapter 785.

[178] Department of Industrial Relations comments, submitted January 15, 2003, page 9.

Labor Code section 1773 now requires the awarding body to "obtain" the general prevailing rate of per diem wages from the Director of Industrial Relations.[179] Section 16202 of the regulations requires the awarding body to request the Director to make a determination for a particular craft, classification or type of worker not covered by a general determination.

Thus, the test claim statute and regulation shifted this responsibility for ascertaining and determining prevailing wage rates *from* the awarding body *to* the Director of Industrial Relations. The Department of Industrial Relations explains the current process as follows:

> Currently, the Director performs this arduous task of determining what are prevailing wages. [Citations.] The definition of prevailing wages has not changed substantially since prior to 1975, including the requirement that the wages be set for each local geographic area. The Director, through the Division of Labor Statistics and Research ("DLSR") publishes general prevailing wage determinations twice each year for each craft or trade, by county. [Citations.] In addition, DLSR provides special determinations when requested. [Citations.] This work costs the Department approximately $2,071,082.39 per year, based on the prior two and a half fiscal years. [Citations.] This is work local agencies no longer do. Instead, local agencies are required simply to check the most recent determination before advertising a request for bids.

With regard to the obligation to "ensure" that the correct rate is used, the Department states:

> Prior to 1975, when local agencies determined local prevailing wages, the duty to obtain the correct prevailing wage was subsumed in the requirement that agencies ensure they were using the correct rate. However, any interested party could request review of the local agency's determination, and the local agency then had to justify its determination. [Citations.]
>
> In exchange for the Director's making rate determinations, local agencies now obtain the correct prevailing wages from the Director. [Citations.] This task no longer requires local agencies to do the actual investigations, surveys, and calculation ("determination") of the prevailing wage. That is, while the local agencies assume the burden of sending a letter, making a phone call, or checking the Department's website, this writing, sending or calling is substantially less expensive than was their prior obligation to investigate and calculate prevailing wages for each craft or trade on public works projects. ...[180]

The Supreme Court has stated that a reimbursable "higher level of service" must result in an increase in the actual level or quality of governmental services provided.[181] Here that has not occurred. Rather, the test claim statute accomplishes a shift of responsibility *from* school

---

[179] Statutes 1976, chapter 281.

[180] *Id.* at page 10.

[181] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 877; *Lucia Mar, supra*, 44 Cal.3d 830, 835.

districts *to* the state. And, although the district is left with the responsibility for obtaining the prevailing wage rates from the state and continuing to ensure that the proper rate is used in the contract, this result constitutes not a higher level of service but a lower level of service on the part of the district.[182]

Based on the foregoing, staff finds Labor Code section 1773 and sections 16202 and 16204, mandating the activity of obtaining the prevailing wage rates from the Department of Industrial Relations and ensuring the proper rate is used in the contract, do not impose a new program or higher level of service on school districts.

Statement of Prevailing Wages (Lab. Code, § 1773.2)

The statute requires the awarding body to include a statement of prevailing rates of per diem wages in the call and advertisement for bids, the bid specifications, and in the public works contract itself, or, in lieu of those requirements, the awarding body may include in the call for bids, bid specifications, and the contract itself a statement to the effect that copies of the prevailing rate of wages are on file in the awarding body's principal office, and in that case must post the statement at all job sites.

Prior to 1975, Labor Code section 1773.2 stated:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall specify in the call for bids for the contract, and in the bid specifications and in the contract itself, what the general rate of per diem wages is for each craft, classification or type of workman needed to execute the contract.
>
> In lieu of specifying the rate of wages in the call for bids, and in the bid specifications and in the contract itself, the awarding body may refer to copies thereof on file at its principal office, which shall be made available to any interested party on request. In the event that the awarding body chooses to refer to a copy of the prevailing rate of per diem wages on file at its principal office, in lieu of specifying them in each call for bids, and in the bid specifications and in the contract itself, the awarding body shall publish its determination of the prevailing rate of wages at least one time in a newspaper of general circulation during each year, and in such event, the awarding body shall cause a copy thereof to be posted at each jobsite.[183]

In the 1977 test claim statute, section 1773.2 was amended *solely* to remove the requirement that the awarding body publish prevailing wage rate determinations in the newspaper each year

---

[182] See also Government Code section 17517.5, which states:

> "Cost savings authorized by the state" means any decreased costs that a local agency or school district realizes as a result of any statute enacted or any executive order adopted that permits or requires the discontinuance of or a reduction in the level of service of an existing program that was mandated before January 1, 1975.

[183] Statutes 1974, chapter 876.

when the awarding body chooses the option of referring to a copy of the prevailing wage rates on file at its principal office.[184]

A reimbursable "higher level of service" must result in an increase in the actual level or quality of governmental services provided. Here, that has not occurred. Instead, the burden on school districts has been lessened by removing the requirement to annually publish their prevailing wage rates in the newspaper under specified circumstances. This result constitutes not a higher level of service but a lower level of service.[185] Therefore, staff finds Labor Code section 1773.2 does not impose a new program or higher level of service on school districts.

Certified Payroll Records (Lab. Code, § 1776, subdivisions (b), (e), (g) & (h), Cal. Code Regs., tit. 8, §§ 16400 & 16403)

The statute and regulations require the awarding body to perform the following activities:

- Upon a request made to the awarding body by the public for payroll records:
  - send an acknowledgment to the requestor including the costs to be paid for preparing the records;
  - obtain certified payroll records from the contractor, including specified information in the request;
  - mark or obliterate the records to prevent disclosure of an individual's private information;
  - provide copies of the records to the requestor; and
  - retain copies of the records for at least 6 months.
- Withhold penalties from contractor progress payments for noncompliance with Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement.
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776.

Prior to 1975, Labor Code section 1776 stated:

> Every contractor and subcontractor shall keep an accurate record showing the name, occupation, and the actual per diem wages paid to each workman employed by him in connection with the public work. The record shall be kept open at all reasonable hours to the inspection of the body awarding the contract and to the Division of Labor Law Enforcement.[186]

The test claim statutes modified Labor Code section 1776 as follows:

1. *Statutes 1976, Chapter 599* – The contractor's and subcontractor's payroll records were required to be available for inspection at all reasonable hours, and a copy had to

[184] Statutes 1977, chapter 423.

[185] See also Government Code section 17517.5.

[186] Statutes 1949, chapter 127.

be made available to the employee or his authorized representative, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards. After a complaint was filed with the awarding body or the Division of Labor Standards Enforcement alleging that a contractor or subcontractor paid less than the prevailing wage on a public works project, the contractor or subcontractor was required upon written notice from either the awarding body or the Division of Labor Standards Enforcement within 10 days to file with the awarding body a certified copy of the payroll records. The awarding body could charge a reasonable fee for copying such records, and the awarding body was required to retain such records for 90 days after completion of the contract.

2. *Statutes 1978, Chapter 1249* – The requirement on the awarding body to retain copies of payroll records for 90 days after completion of the contract was removed. The payroll records were required to be certified.[187] Upon request, the contractor was required to furnish certified copies of payroll records to, among other entities, the awarding body.[188] A certified copy of the payroll records was required to be made available to the public, provided the request was made through either the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement; the public could not be given access to such records by the contractor.[189] Any copy of certified payroll records made available to the public or any public agency by the awarding body, the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement was required to be marked or obliterated to prevent disclosure of an individual's name, address and social security number.[190] In the event of non-compliance with these requirements, the contractor had 10 days in which to comply after written notice specifying in what respects the contractor had to comply; when non-compliance was evident after the 10-day period, the contractor was required to pay an administrative penalty to the state or political subdivision on whose behalf the contract was made of $25 for each calendar day, or portion thereof, for each worker, until strict compliance was effectuated, and upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, the penalties were required to be withheld from progress payments then due.[191] The awarding body was required to have inserted in the contract stipulations to effectuate these provisions.[192] The Director of the Department of Industrial Relations was required to adopt rules consistent with the California Public Records Act and the Information Practices Act of 1977 governing release of such records including the

[191] Labor Code section 1776, subdivision (f).

[192] Labor Code section 1776, subdivision (g).

establishment of reasonable fees to be charged for reproducing copies of such records.[193]

3. *Statutes 1983, Chapter 681* – Subdivision (b)(3) was amended to require that when requested certified payroll records were not provided, the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through which the request was made.
4. *Statutes 2001, Chapter 804* – Subdivision (e) was amended to require that any copies of payroll records made available for inspection by or furnished to a joint labor-management committee shall be obliterated to prevent disclosure of an individual's name and social security number until January 1, 2003; thereafter any such records provided to a joint labor-management committee shall be obliterated only to prevent disclosure of an individual's social security number.[194]

Title 8, California Code of Regulations, sections 16400 through 16403 of the regulations were added to:

1. require the awarding body to acknowledge a request for payroll records to the requestor, and provide the costs the requestor must pay for the awarding body and contractor to prepare the records;
2. specify the information required in a request to the contractor for the records;
3. establish fees to be charged for preparing and reproducing the records; and
4. require the awarding body to keep unredacted copies of requested payroll records for at least 6 months following completion and acceptance of the project. These requirements are new in comparison to the preexisting law.

The Department of Industrial Relations states that the test claim statutes modifying Labor Code section 1776 did not significantly change any awarding body requirement:

> Prior to 1975, there was no provision for local agencies to obtain or copy [Certified Payroll Records]. Since local agencies did their own enforcement, however, they routinely obtained them. ... Before 1975, the Public Records Act made such information disclosable on demand from the public. See Government Code §§ 6252 ["Local agency" includes school district], 6252 (d) [definition of public record]. The post 1975 amendments to § 1776 did not change local agencies' pre-existing requirements to provide copies of public records (including payroll records) to the public. ...

---

[193] Labor Code section 1776, subdivision (h).

[194] However, legislation enacted in 2003, effective January 1, 2004 (Stats. 2003, ch. 62), modified this provision to require that records provided to a joint labor-management committee be marked or obliterated to prevent disclosure of an individual's name and social security number. That statute was not pled in the test claim and thus staff makes no finding with regard to it.

> Labor Code § 1776 did not change any local agency requirement in any meaningful way. Test Claimant claims that there is a new mandate because local agencies now have to make copies of the [Certified Payroll Records] on request by members of the public and obliterate certain personal information. First, the requirement to obliterate personal information is not necessarily with the local agency. Labor Code § 1776(e) merely requires that the copy provided to the public by DLSE or the local agency "be obliterated," which can be done by the private contractor. ... [195]

Staff disagrees with the Department. The pre-existing statute did not provide for the awarding body to *obtain a copy* of the payroll records, merely the ability to inspect them. The California Public Records Act[196] provides public access only to writings that are in the *possession* of state or local agencies.[197] Consequently, there was no pre-existing duty on the district to provide public access to the records. The fact that such copies were routinely obtained by the awarding body in the course of enforcing the CPWL does not change the duties imposed by the previous statute, which plainly did not require the awarding body to obtain the records on behalf of the public or make the specified redactions. Moreover, Government Code section 17565 provides that if a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the school district for those costs incurred after the operative date of the mandate. Additionally, although it is true that personal information could be "obliterated" by the contractor, the test claim statutes require the awarding body to provide the record to the public, in a form that prevents disclosure of individual information. Therefore, staff finds it is the awarding body's responsibility to mark or obliterate the record to prevent disclosure of individual information.

The DIR also states that the requirement to withhold contract payments for violations of Labor Code section 1776 pursuant to subdivision (g) of that section is not new because the obligation already was subsumed in Labor Code section 1727, which at that time required "the awarding body shall withhold and retain therefrom all amounts which have been forfeited pursuant to ... the terms of this chapter," and Labor Code section 1776, subdivision (g), is part of the same chapter as section 1727.[198] However, the provisions of subdivision (g) require withholding of contractor progress payments for *administrative penalties assessed for violations of section 1776* – i.e., failure to provide certified payroll records – upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. There was no pre-existing provision in law to assess and withhold administrative penalties for payroll record violations. Therefore, the requirements are new in comparison to the pre-existing general references to the chapter.

---

[195] Department of Industrial Relations comments, submitted January 15, 2003, pages 14-15.

[196] Government Code section 6250 et seq.

[197] Government Code section 6252, subdivision (e); "public records" includes any writing containing information relating to the conduct of the public's business prepared, owned, used or retained by any state or local agency regardless of physical form or characteristics.

[198] Department of Industrial Relations comments, submitted April 14, 2008, pages 3-4.

Thus, there are new requirements of school districts as awarding bodies that were not required under pre-existing law:

- Perform the following activities upon a request by the public for payroll records:
  - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
  - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
  - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e) (as amended by Stats. 1978, ch. 1249 and Stats. 2001, ch. 804); Cal. Code Regs., tit. 8, § 16403, subd. (b))
  - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3) (as amended by Stats. 1978, ch. 1249)); and
  - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).
- Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g) (as amended by Stats. 1978, ch. 1249)).
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776 (Lab. Code, § 1776, subd. (h) (as amended by Stats. 1978, ch. 1249)).

These new requirements do provide a higher level of service to the public since the public now has access to certified payroll records through the awarding body, and the individual employee's rights to privacy are protected by the awarding body obliterating certain information. Withholding penalties from progress payments helps enforce the law to ultimately ensure contractors' cooperation. Moreover, placing stipulations in the contract provides notice to the contractor of his or her requirements before the contract is signed. And finally, the amendments adding these new requirements in 1978 and 2001 were not associated with other shifts of responsibility from awarding bodies to the state for making prevailing wage rate determinations under Labor Code sections 1770 and 1773 (Stats. 1976, ch. 281) and enforcing the CPWL under Labor Code sections 1726, 1727, and 1741 (Stats. 2000, ch. 954). Thus, in every sense the requirements impose an increased level of service.

DIR asserts that retaining copies of certified payroll records for at least 6 months and inserting a clause in public works contract pursuant to Labor Code section 1776, subdivision (h), at most result in negligible increases in levels of service, and should be considered de minimis under the analysis in *Kern High School District*. While staff does not disagree that the increased levels of service may be small, there is nothing in *Kern* or other mandates case law to support denial of the claim based on a finding that the newly mandated activities result in only a de minimis increase in the level of service.

Although the Supreme Court in *Kern* found that newly mandated notice and agenda costs were modest, the determination that such costs were not reimbursable was based on the fact that the underlying program was completely funded by the state and there was nothing in the record to

show that such administrative costs could not be paid for from state funds already provided, rather than the fact that there was only a de minimis increase in the level of service. [199]

In *San Diego Unified School District*, the Supreme Court addressed another narrowly drawn situation where there was a de minimis increase in the level of service. There, school districts were seeking reimbursement for activities that exceeded federal due process requirements in relation to discretionary school expulsions.[200] The court denied the claim based on another case, *County of Los Angeles v. Commission on State Mandates* (1995) 32 Cal.App.4th 805, which had found that procedural requirements enacted to comply with a general federal mandate, which were reasonably articulated to make the underlying federal right enforceable and to set forth necessary procedural details, and which did not significantly increase the cost of compliance with the federal mandate, were not reimbursable. The *San Diego Unified* court likewise held that:

> [F]or purposes of ruling upon a request for reimbursement, challenged state rules or procedures that are intended to implement an applicable federal law – and whose costs are, in context, de minimis – should be treated as part and parcel of the underlying federal mandate. [201]

Here, the prevailing wage requirements are not intended to implement a federal law and cannot be likened to the *San Diego Unified* circumstances. Thus, neither *San Diego Unified* nor *County of Los Angeles* is applicable.

DIR also asserts that "[s]egregating the minimal costs to retain records for the purpose of subvention creates a further dilemma" since the awarding body must separate the costs of retaining payroll records from countless other documents it retains.[202] DIR further asserts that [i]f *de minimis* has any meaning, it has to include some balance of the relative costs of subvention versus the administrative cost to the local agencies to track the alleged mandate's costs."[203] However, beyond requiring the claimant to assert a minimum amount for test claims and for actual reimbursement claims,[204] the mandates process does not provide for such a balancing test.

Staff therefore finds that the new requirements imposed on school districts as awarding bodies for handling certified payroll records and modifying contract language constitute a new program or higher level of service within the meaning of article XIII B, section 6.

[203] *Ibid.*

[204] Government Code section 17564 sets the minimum for test claims and reimbursement claims at $1,000.

Apprenticeship Requirements (Lab. Code, §§ 1773.3 & 1777.5, subd. (n))

The statutes require the awarding body to provide a copy of the contract award to the Division of Apprenticeship Standards when apprentices will be used in the contract, and include language in the contract regarding apprenticeship requirements.

Prior to 1975, Labor Code section 3098 stated:

> An awarding agency whose public works contract falls within the jurisdiction of Section 1777.5 shall, within five days of the award, send a copy of the award to the Division of Apprenticeship Standards. ... Within five days of a finding of any discrepancy regarding the ratio of apprentices to journeymen, pursuant to the certificated fixed number of apprentices to journeymen, the awarding agency shall notify the Division of Apprenticeship Standards.[205]

Section 3098 was renumbered to section 1773.3 in Statutes 1978, chapter 1249, with substantially the same language. Therefore, the requirements existed prior to 1975 and no new program or higher level of service is imposed.

Prior to 1975, Labor Code section 1777.5 stated in relevant part:

> The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. Such stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.[206]

This exact language was ultimately renumbered to subdivision (n) in Statutes 1999, chapter 903. Therefore, the requirements existed prior to 1975 and no new program or higher level of service is imposed.

Take Cognizance of and Report Suspected Violations (Lab. Code, § 1726), Withhold Funds for Civil Wage and Penalty Assessments (Lab. Code, § 1727), and Transmit Funds to Labor Commissioner (Lab. Code, § 1742, subd. (f))

These statutes require the awarding body to: 1) take cognizance of violations of the prevailing wage laws in the course of the execution of the contract, and report any suspected violations to the Labor Commissioner; 2) withhold any amounts necessary to satisfy a Civil Wage and Penalty Assessment issued by the Labor Commissioner and receive from the contractor any money withheld for such purpose by the contractor from the subcontractor; and 3) transmit funds withheld in response to a civil wage and penalty assessment to the Labor Commissioner upon receipt of a certified copy of a final order that is no longer subject to judicial review.

With regard to the awarding body's role in reporting CPWL violations, prior to 1975, Labor Code section 1726 stated:

---

[205] Statutes 1974, chapter 1095.

[206] Statutes 1974, chapter 965.

> The body awarding the contract for public work shall take cognizance of violations of the provisions of this chapter committed in the course of the execution of the contract.[207]

The test claim statute, Statutes 2000, chapter 954, modified section 1726 to state in relevant part:

> The body awarding the contract for public work shall take cognizance of violations of the provisions of this chapter committed in the course of execution of the contract, and *shall promptly report* any suspected violations to the Labor Commissioner. (Emphasis added.)

Thus, there was a pre-existing requirement for awarding bodies to "take cognizance" of violations, and this requirement does not impose a new program or higher level of service. There is, however, a new requirement to "report" suspected violations to the Labor Commissioner.

With regard to withholding funds from contractor payments for CPWL violations, prior to 1975, Labor Code section 1727 stated:

> Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom all amounts which have been forfeited pursuant to any stipulation in a contract for public work, and the terms of this chapter. But no sum shall be withheld, retained or forfeited, except from the final payment, without a full investigation by either the Division of Labor Law Enforcement or by the awarding body.[208]

The test claim statute, Statutes 2000, chapter 954, modified section 1727, which states:

> (a) Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom any amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner under this chapter. The amounts required to satisfy a civil wage and penalty assessment shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.
>
> (b) If the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a subcontractor's violations, the contractor shall, upon the request of the Labor Commissioner, withhold sufficient money due the subcontractor under the contract to satisfy the assessment and transfer the money to the awarding body. These amounts shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.

---

[207] Statutes 1937, chapter 90.

[208] Statutes 1945, chapter 1431.

Thus, the only change in the awarding body's responsibility is to now withhold amounts required to satisfy a civil wage and penalty assessment made by the Labor Commissioner, rather than the previous requirement to withhold amounts forfeited pursuant to a stipulation in the contract or for other violations of the CPWL, once a full investigation was conducted by the Division of Labor Law Enforcement or by the awarding body.

In the same test claim statute, Statutes 2000, chapter 954, Labor Code section 1742 was added to provide a hearing procedure for contractors or subcontractors to appeal a civil wage and penalty assessment. Subdivision (f) of that section requires an awarding body that has withheld funds in response to a civil wage and penalty assessment to transmit the withheld funds to the Labor Commissioner, upon receipt of a certified copy of a final order that is no longer subject to judicial review.

The Department of Industrial Relations argues that these are not new requirements, explaining the historical and current processes as follows:

> Prior to 1975, local agencies were required both to "take cognizance" of violations and to withhold funds owed to contractors for prevailing wage violations. Labor Code §§ 1726, 1727. If there were insufficient funds available for withholding, then local agencies notified the Labor Commissioner of the violation. The local agency, with the Labor Commissioner's assistance filed civil lawsuits against the offending contractors. *Id.*
>
> This obligation to report violations to the Labor Commissioner has not changed. Enforcement of prevailing wage violations was removed from local agencies as of 2001, Stats. 2000, ch. 954. In exchange for this reduction in work for local agencies, the [L]egislature added a reporting responsibility. ...
>
> Prior to 1975, local agencies withheld funds owed contractors for prevailing wage violations. Labor Code § 1727. This obligation did not change after 1975. In 2000, as part of the overall change in enforcement, private contractors had to withhold funds from offending subcontractors if the local agency had not withheld sufficient funds. The local agency had no role in this process. [Citations.]
>
> ... [T]he Labor Commissioner did not issue citations against contractors prior to 1975. Local agencies did the bulk of the enforcement.
>
> Currently, the Labor Commissioner does all the enforcement work, and local agencies do no more than withhold funds when the Labor Commissioner informs them of violations. This is identical to local agencies' historic responsibility to "take cognizance" of violations and withhold payments.[209]

Under the previous process, the awarding body would take cognizance of CPWL violations pursuant to Labor Code section 1726, do its own investigations and enforcement, and withhold any penalties from contractor payments pursuant to Labor Code section 1727, seeking

[209] Department of Industrial Relations comments, submitted January 15, 2003, pages 16-17.

assistance from the Labor Commissioner as needed. Currently, according to the Department of Industrial Relations, the Labor Commissioner does all the enforcement work, unless the awarding body enforces the CPWL violations by voluntarily establishing a Labor Compliance Program. Thus, the test claim statutes have shifted primary enforcement of the CPWL from local agencies to the state, leaving awarding bodies the option to implement a Labor Compliance Program. In addition, there is no substantive change in the requirement that awarding bodies withhold funds from contractors for CPWL violations; the triggering mechanism is now a civil wage and penalty assessment issued by the Labor Commissioner rather than the completion of an investigation by the Division of Labor Law Enforcement or by the awarding body.

The Supreme Court has stated that a reimbursable "higher level of service" must result in an increase in the actual level or quality of governmental services provided.[210] Here that has not occurred. Rather, the test claim statute accomplishes a shift of responsibility *from* school districts *to* the state with regard to enforcement of the CPWL. And, although the district is left with some minor responsibility for reporting suspected violations of the CPWL to the Labor Commissioner and transmitting withheld funds at the appropriate time, this result constitutes not a higher level of service but a lower level of service.[211] With regard to withholding funds from contractors for CPWL violations, there is no change in that level of service.

Based on the foregoing, staff finds that Labor Code sections 1726, 1727 and 1742, subdivision (f), do not impose a new program or higher level of service on school districts.

Summary

Therefore, staff finds the activities listed below that are required of K-12 school districts or community college districts when acting as an awarding body, constitute a new program or higher level of service within the meaning of article XIII B, section 6, but only when triggered by repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, and when the project must be let to contract under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or
    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000.
2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and
    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or

[210] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 877; *Lucia Mar, supra*, 44 Cal.3d 830, 835.

[211] See also Government Code section 17517.5.

b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000.

3. For any K-12 school district or community college district that is subject to the UPCCAA, when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.

Activities constituting a new program or higher level of service under the foregoing circumstances:

- Perform the following tasks upon a request made to the awarding body by the public for certified payroll records:
  - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
  - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
  - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e) (as amended by Stats. 1978, ch. 1249 and Stats. 2001, ch. 804), Cal. Code Regs., tit. 8, § 16403, subd. (b))
  - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3) as amended by Stats. 1978, ch. 1249)); and
  - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).
- Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g) (as amended by Stats. 1978, ch. 1249).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h) (as amended by Stats. 1978, ch. 1249).)

Issue 3: Do the test claim statutes or regulations impose costs mandated by the state within the meaning of Government Code section 17514 and article XIII B, section 6 of the California Constitution?

For these statutes to impose a reimbursable, state-mandated program, two additional elements must be satisfied. First, the statutes must impose "costs mandated by the state" pursuant to Government Code section 17514. Second, the statutory exceptions to reimbursement listed in Government Code section 17556 cannot apply.

Government Code section 17514 defines "costs mandated by the state" as any increased cost a local agency is required to incur as a result of a statute that mandates a new program or higher level of service. The claimant alleged in the original test claim "it is estimated that the district has incurred, or will incur, in excess of $200 in staffing and other costs in excess of revenues annually, for the period from July 1, 2000 through June 2002, to implement the new duties mandated by the state, for which the district has not been reimbursed by any federal, state, or

local government agency, and for which it cannot otherwise obtain reimbursement." On page 7 of Exhibit 6, "Second Declaration of William McGuire," of the test claim amendment filed July 31, 2003, claimant states:

> To the extent that Clovis Unified School District commences a public works project subject to Labor Code Section 1771.7, it is estimated that Clovis Unified School District will incur in excess of $1,000, annually, in staffing and other costs to implement these new duties mandated by the state for which the district will not be reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement.

The Department of Industrial Relations (DIR) commented that while the original test claim contained a general, non-specific declaration of the increased cost, a new declaration, limited to whatever mandates the Commission believes might exist, should be required to justify the test claim.[212] However, there is no provision in the Government Code or the Commission's regulations to authorize the Commission to impose such a requirement on the test claimant. Government Code section 17564 does provide the following:

> (a) No claim shall be made pursuant to Sections 17551, 17561, or 17573, nor shall any payment be made on claims submitted pursuant to Sections 17551 or 17561, or pursuant to a legislative determination under Section 17573, unless these claims exceed one thousand dollars ($1,000). However, a county superintendent of schools ... may submit a combined claim on behalf of school districts ... if the combined claim exceeds one thousand dollars ($1,000) even if the individual school district's ... claims do not each exceed on thousand dollars ($1,000). The county superintendent of schools ... shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school ...

Staff therefore finds there is evidence in the record, signed under penalty of perjury, that the claimant will or has incurred "costs mandated by the state" for purposes of the existence of a reimbursable state-mandated program.

Government Code section 17556, subdivision (d), states in relevant part that the Commission shall not find costs mandated by the state if, after a hearing, the Commission finds:

> the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service.

The increased level of service at issue is the preparation and copying of certified payroll records under Labor Code section 1776, subdivisions (b) and (e). Subdivision (e) states "the requesting party shall, prior to being provided the records, reimburse the costs of *preparation* by ... the entity through which the request was made." Subdivision (i) of that section provides that the Director of the Department of Industrial Relations "shall adopt rules consistent with the California Public Records Act ... and the Information Practices Act of 1977, ... governing the release of these records, including the establishment of reasonable fees to be charged for

---

[212] Department of Industrial Relations comments, submitted April 14, 2008, pages 4-5.

reproducing copies of records required by this section." Section 16402 of those regulations states:

> The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

Thus, the Department has established "reasonable fees to be charged" of the requesting party to cover the costs of preparation of the records. Construction of a statute by the administrative officials charged with its enforcement or interpretation may not be controlling but is entitled to great weight and will be followed unless it is clearly erroneous or unauthorized.[213] There is no evidence in the record to show that the costs allowed by the Department's regulation are not sufficient to cover the actual costs of preparation of these payroll records.

In the ordinary sense, "preparation" is defined as "the act or process of preparing."[214] "Prepare" is defined as "to make ready in advance for a particular purpose, event or occasion."[215] Based on these definitions, and absent any other information in the record, staff finds that all activities leading up to getting the records ready to be released, including reproduction and actually providing the records, are included in the fees that can be recovered from the requesting party. Thus includes the following activities:

- obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (c));
- send an acknowledgment to the requestor including notification of the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (d));
- make the specified redactions (Lab. Code, § 1776, subd. (e), Cal. Code Regs., tit. 8, § 16403, subd. (b)) ; and
- provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3)).

Therefore, staff finds that a school district has authority to charge fees sufficient to pay for this portion of the increased level of service, and Government Code section 17556, subdivision (d), is applicable to deny reimbursement for these activities.

With regard to the remaining activities, Government Code section 17556, subdivision (e), states in relevant part that the Commission shall not find costs mandated by the state if, after a hearing, the Commission finds:

> The statute, executive order, or an appropriation in the Budget Act or other bill provides for offsetting savings to local agencies or school districts that result in no

---

[213] *State Compensation Insurance Fund v. Workers' Compensation Appeals Board* (1995) 37 Cal.App.4th 675, 683.

[214] Webster's II, New Collegiate Dictionary, 1999, page 873, column 1.

[215] *Ibid.*

net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate.

The state provides matching funds in the form of grants for deferred maintenance for K-12 school districts and community college districts.[216] In most cases, the funding is only available from the state when the district demonstrates its own funding is available.[217] Additional assistance for extreme hardship is also available for K-12 districts that meet certain criteria.[218] Funding is also available for new construction and modernization grants.[219] It is possible that grant funding for modernization might be available for repair or maintenance projects, but it is not likely that funding for new construction could be used for such projects.

The DIR commented that any mandate that exists is so negligible as to not require subvention since partial state funding already exists for maintenance and repair projects in school districts and community colleges pursuant to Education Code sections 17582-17588 and 84660, the Deferred Maintenance Program. The Department of Finance also pointed out the availability of this funding, and recommended the Commission consider the funding as offsetting revenues for any reimbursable mandate finding.

Although state funding is provided which might be used for the new activities, there is no evidence in the record that such funding results in no net costs to the district or was "specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate." Therefore, staff finds that Government Code section 17556, subdivision (e), is inapplicable to deny reimbursement for the remaining activities. Nevertheless, any grant funds available to awarding bodies under the deferred maintenance program, or any other eligible funding, when used for the newly mandated activities in this test claim shall be identified as possible offsetting revenues.[220]

Staff finds the following remaining activities do impose costs mandated by the state, but only when such activities are triggered by repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, and when the project must be let to contract under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or

---

[216] Education Code sections 17582-17588, and 84660.

[217] *Ibid.*

[218] Education Code section 17587.

[219] Education Code sections 17072.10 and 17074.10.

[220] Eligible grant funding for such projects will be clarified further at the parameters and guidelines stage.

b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000.

2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and

   a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or

   b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000.

3. For any K-12 school district or community college district that is subject to the UPCCAA, when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.

Activities Reimbursable Under Circumstances Cited Above:

- Retain copies of payroll records requested by the public and provided by the awarding body for at least 6 months. (Cal. Code Regs., tit. 8, § 16403, subd. (a).)
- Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g) (as amended by Stats. 1978, ch. 1249).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h) (as amended by Stats. 1978, ch. 1249).)

Conclusion

Staff concludes that Labor Code section 1776, subdivisions (g) and (h), and section 16403, subdivision (a), of the Department of Industrial Relations' regulations constitute a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution, but only when those activities are triggered by projects for repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, and when the project must be let to contract under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113, and

   a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or

   b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000. (Pub. Contract Code, § 20114.)

2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654, and

    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or

    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000. (Pub. Contract Code, § 20655.)

3. For any K-12 school district or community college district that is subject to the Uniform Public Contract Cost Accounting Act (UPCCAA), when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.[221] (Pub. Contract Code, § 22032.)

Only the following activities for the foregoing projects are reimbursable:

- Retain copies of payroll records requested by the public and provided by the awarding body for at least 6 months. (Cal. Code Regs., tit. 8, § 16403, subd. (a).)
- Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Department of Industrial Relations' Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g) (as amended by Stats. 1978, ch. 1249).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's requirements pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h) (as amended by Stats. 1978, ch. 1249).)

Any grant funds available to awarding bodies under the deferred maintenance program, or any other eligible grant program, when used for the newly mandated activities in this test claim, shall be identified in the parameters and guidelines as possible offsetting revenues.

None of the other test claim statutes, regulations or alleged executive orders that were pled mandate a new program or higher level of service subject to article XIII B, section 6.

Recommendation

Staff recommends the Commission adopt this analysis to partially approve the test claim.

[221] Prior to January 1, 2007, the dollar limit for public projects that could be performed by the district with its own forces was $25,000.

Dear Mr. Johnston:

This is to notify you that your July 23, 2008, application to withdraw the *Prevailing Wage Rate* test claim has been accepted. In light of the withdrawal, Items 5 and 6 have been removed from the Commission's August 1, 2008 hearing calendar.

Pursuant to section 1183.08 of the Commission's regulations, the test claim will be dismissed if no other school district takes over the claim by substitution of the parties on or before **September 22, 2008**. If no party takes over the test claim, dismissal of the claim will tentatively be set for hearing on **September 26, 2008**, at 9:30 a.m. in Room 126 of the State Capitol, Sacramento, California.

Please contact Nancy Patton at (916) 323-8217 with any questions regarding the above.

Sincerely,

Paula Higashi
Executive Director

Grossmont Union High School District, Claimant

Dear Mr. Petersen:

On July 23, 2008, the Commission accepted the withdrawal of Clovis Unified School District as the claimant on the above-named test claim. This is to notify parties that effective August 21, 2008, Grossmont Union High School District is substituting as claimant for the test claim. Grossmont Union High School District appointed Mr. Keith Petersen, SixTen and Associates to act as the district's sole representative for this matter.

Enclosed is Grossmont Union High School District's notice of substitution of claimant and an updated mailing list.

Please contact me at (916) 323-8217 if you have questions.

Sincerely,

NANCY PATTON
Assistant Executive Director

Re: CSM 01-TC -28 (As amended); Prevailing Wage Rate

Dear Ms. Higashi:

On July 23, 2008, the Clovis Unified School District requested to withdraw as the claimant for the above referenced test claim. Your response dated the same date accepted the withdrawal and indicated that another school district could take over the claim. This letter is a request to substitute Grossmont Union High School District as the new test claimant.

The District contact person will be:

Scott Patterson, Deputy Superintendent
Grossmont Union High School District
1100 Murray Drive, El Cajon, CA 92020-5664
Phone: 619.644.8010; Fax: 619.465.6251
E-mail: _spatterson@guhsd.net_ (mailto:spatterson@guhsd.net)

The District appoints Keith Petersen, President, SixTen and Associates, as its representative on this test claim. All communication regarding this test claim should be directed to Mr. Petersen with a copy to me.

I am informed that the District will have to provide a declaration of eligible costs. Mr. Petersen is preparing this document now and we will submit it upon notification that we are the new test claimant.

Thank you for you consideration of this request.

Sincerely,

Scott Patterson, Deputy Superintendent

Prepared by the Division of Labor Standards Enforcement

Antioch Unified School District
Labor Compliance Program - January 17, 2003

I, Scott H. Patterson, Deputy Superintendent, Business Services, Grossmont Union High School District, make the following declaration and statement. In my capacity as Deputy Superintendent, Business Services, I am responsible for the award and implementation of public works contracts for the District. I am familiar with the provisions and requirements of the Labor and Public Contract Code Sections and the Title 8 California Code of Regulations enumerated above.

These code sections and regulations, prior to 2002, require the Grossmont Union High School District to:

1) Pursuant to Labor Code Section 1773 and Title 8, California Code of Regulations, Section 16202, obtain the applicable general prevailing rate of per diem wages from the Director of Industrial Relations before awarding a contract for public works.

2) Pursuant to Title 8, California Code of Regulations, Section 16204, ensure that the correct prevailing wage rates have been determined by the Director of Industrial Relations.

3) Pursuant to Title 8, California Code of Regulations Section 16001, request from the Director of Industrial Relations a coverage determination regarding a

specific project or type of work to be performed.

4) Pursuant to Title 8, California Code of Regulations, Section 16302, file a petition for review of a determination of the Director of Industrial Relations of any rate or rates.

5) Pursuant to Labor Code Section 1773.4 and Title 8, California Code of Regulations Section 16002.5, appeal an incorrect determination made by the Director of Industrial Relations.

6) Pursuant to Labor Code Section 1773.2, include a statement of prevailing rate of per diem wages in all calls and advertisements for bids, in the public works contract itself, and to post the statement at all job sites. In lieu of those requirements, the district may include a statement in the call for bids and contract a statement to the effect that copies of the prevailing rate of wages are on file in its principal office.

7) Pursuant to Labor Code Section 1777.1 and Title 8, California Code of Regulations, Section 16800 through 16802, maintain records of ineligible contractors and subcontractors and to refuse to grant them public works projects of the district.

8) Pursuant to Labor Code Section 1777.3, send copies of all awards to the Division of Apprenticeship Standards and notify the Division of any discrepancies.

9) Pursuant to Labor Code Section 1776, when necessary or requested by the Director of Industrial Relations, inspect and audit payroll records of contractors

and subcontractors working on district public works projects.

10) Pursuant to Labor Code Section 1776 and Title 8, California Code of Regulations, Section 16402, when requested by appropriate parties, obtain and provide copies of the payroll records of the contractors and subcontractors working on district public works projects. The records provided are required to be marked or obliterated to prevent disclosure of an individual's name, address and social security number.

11) Pursuant to Labor Code Section 1771.5 and Title 8, California Code of Regulations, Sections 16425 through 16439, comply with all of the requirements of a Labor Compliance Program, when initiated and enforced by the district. These requirements include:

(a) All bid invitations and public works contracts shall contain appropriate language concerning the requirements of the prevailing wage laws.

(b) A pre-job conference shall be conducted with the contractor and the subcontractors to discuss federal and state labor requirements applicable to the contract.

(c) Project contractors and subcontractors shall maintain and furnish, at a designated time, a certified copy of each weekly payroll containing a statement of compliance signed under penalty of perjury.

(d) The district shall review and, if appropriate, audit payroll records to verify compliance with prevailing wage laws.

(e) The district shall withhold contract payments when payroll records are

delinquent or inadequate.

(f) The district shall withhold contract payments equal to the amount of underpayments and applicable penalties when, after investigation, it is established that underpayment has occurred.

12) Pursuant to Labor Code Section 1771.6 and Title 8, California Code of Regulations, Section 17220, provide contractors and subcontractors, and bonding companies and sureties, with Notices of Withholding of Contract Payments when minimum wage law violations are discovered by the district. The notice shall be in writing and include the following information:

(a) A description of the nature of the violation and basis for the notice.

(b) The amount of wages, penalties and forfeitures due, including a specification of amounts that have been or will be withheld from available contract payments, as well as all additional amounts that the enforcing agency has determined are due, including the amount of any liquidated damages that potentially may be awarded under Labor Code section 1742.1.

(c) The name and address of the office to whom a Request for Review may be sent.

(d) Information on the procedures for obtaining review of an Assessment or a Notice of Withholding of Contract Payments.

(e) Notice of Opportunity to request a settlement meeting under Section 17221.

(f) A statement appearing in bold or another type of face, that makes it stand out from other text, to the effect that failure to submit a timely request for review will

writs of mandates filed by contractors and subcontractors seeking review of orders of the Labor Commissioner, including the retention of counsel to file timely responses, participating in pre-trial discovery matters, the trial of the cause, pre-trial and post-trial briefing, and the preparation of findings and judgment.

19) Pursuant to Labor Code Section 1742.1 and Title 8, California Code of Regulations, Section 16413, grant and participate in settlement meetings requested by contractors or subcontractor in an attempt to settle any disputed issue before formal hearing procedures.

20) Pursuant to Labor Code Section 1771.2, a joint labor-management committee may bring an action against an employer who fails to pay prevailing wages. As a necessary party, the school district would be required to appear and participate in these legal proceedings.

21) Pursuant to Labor Code Section 1776, furnish copies of payroll records of a contractor or subcontractor to a joint labor management committee obliterated only to prevent disclosure of social security numbers.

As amended by Chapter 868, Statutes of 2002, these statutes, code sections and executive orders require the Grossmont Union High School District to:

22) Pursuant to Labor Code Sections 1771.5 and 1771.7, pay the reasonable fees of a third party when contracting with that third party to initiate and enforce a Labor Compliance Program.

23) Oversee compliance with all of the requirements of Labor Code Sections 1771.5 and 1771.7 (for works commencing or after April 1, 2003), Title 8,

California Code of Regulations, Section 16425 through 16439 and Chapters 2, 3 and 5 of the "Program Guidebook" when contracting with a third party to initiate and enforce a Labor Compliance Program. This may include, but is not necessarily limited to, the withholding of contract payments and collecting and disbursing penalties and wages at the direction of the third party LCP.

24) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (a), when seeking approval of an LCP, submit evidence of the district's ability to operate an LCP.

25) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (b), complete a request for approval deemed by the Director to be deficient, or make other corrections as required, and resubmit the request for approval of a Labor Compliance Program.

26) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (c), submit a request for an extension of an LCP at least 30 days prior to the anniversary date of the initial approval.

27) Pursuant to Labor Code Section 1771.7, subdivision (d)(1), make a written finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in subdivision (b) of Section 1771.5.

28) Pursuant to Labor Code Section 1771.7, subdivision (d)(2)(A), transmit to the State Allocation Board, in the manner determined by that board, a copy of the finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in

subdivision (b) of Section 1771.5.

29) Pursuant to Labor Code Section 1771.7 (for works commencing on or after April 1, 2003), Title 8, California Code of Regulations, Section 16425 through 16439 and Chapters 2, 3 and 5 of the "Program Guidebook", comply with all of the requirements of a Labor Compliance Program, when initiated and enforced by the district.

30) Pursuant to the "Program Guidebook", Chapter 4 Parts (A) and (B), review and, if appropriate, audit payroll records to verify compliance with prevailing wage laws by monitoring certified payroll records (CPRs), investigating complaints from workers, and monitoring agencies and contractors. Upon the conclusion of the audit, prepare audits and findings and obtain the approval of recommended forfeitures from the labor commissioner.

31) Pursuant to the "Program Guidebook", Chapter 3, withhold contract payments when payroll records are delinquent or inadequate; and withhold contract payments equal to the amount of underpayments and applicable penalties when, after investigation, it is established that underpayment has occurred.

32) Pursuant to Chapter 4 of the "Program Guidebook", serve on the contractor, any affected subcontractor, and any bonding company issuing a bond securing the payment of wages, a Notice of Withholding of Contract Payments (NWCR) using the form attached in the Guidebook as Appendix 2.

33) Pursuant to Chapter 4 of the "Program Guidebook", when mailing an NWCR, also mail a notice to the DIR on a form entitled Notice of Transmittal, as found in the Guidebook as Appendix 3.

34) Pursuant to Chapter 4 of the "Program Guidebook", when a party requests a review after receiving an NWCR, mail a form entitled "Notice of Opportunity to Review Evidence" as found in the Guidebook as Appendix 4.

35) Pursuant to Chapter 4, paragraph iv (D) of the "Program Guidebook", defend Notices to Withhold Contract Payments in administrative review proceedings and in court.

36) Pursuant to Chapter 6 of the "Program Guidebook", investigate worker complaints of underpayment of prevailing wage rates.

37) Pursuant to Chapter 6 of the "Program Guidebook", conduct investigations on an as-needed basis.

38) Pursuant to Chapter 9 of the "Program Guidebook", conduct audits on a random or as-needed basis.

39) Pursuant to Chapter 9 of the "Program Guidebook", prepare cases and document files.

40) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, submit a copy of the Department of Industrial Relations approved Labor Compliance Program to which the project(s) conformed or, if applicable, a copy of the third party provider contract.

41) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, upon request, submit all bid invitations and contracts that must contain language alluding to Labor Code Sections 1770 through 1780 compliance and verification; evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set forth in

Labor Code Sections 1770 through 1780; and evidence of weekly submittals of certified copies of payrolls for all contractors and subcontractors.

42) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, when a district uses its own employees for an LCP, provide the name of the district employee(s) performing the Labor Compliance Program duties; the salary and benefits of the employee, including transportation costs, and a specific breakdown of hours spent by project subject to the Labor Compliance Program requirements.

Grossmont Union High School District is required to comply with these laws relating to prevailing wage rate laws in all public works projects, as defined when:

(a) Pursuant to Labor Code Section 1720.2, the construction work is performed according to plans, specifications or criteria furnished by the district and where the district enters into a lease, as lessee, of the completed project during or upon completion of the construction;

(b) Pursuant to Labor Code Section 1720.3, hauling refuse from a public works site to an outside location;

(c) Pursuant to Labor Code Section 1720, the work performed during the design and preconstruction phases of construction including, but not limited to, inspection and land surveying work;

(d) Pursuant to Title 8, California Code of Regulations, Section 16001, the work is for maintenance, including landscape maintenance;

(e) Pursuant to Labor Code Section 1720, the work is for installation works;

(f) Pursuant to Title 8, California Code of Regulations, Section 16001, the work is for field surveying work traditionally covered by collective bargaining agreements

when the work is integral to the specific public works project; and

(g) Pursuant to Title 8, California Code of Regulations, Section 16001, the work is for residential and commercial projects when the public work is for student or faculty housing.

It is estimated that Grossmont Union High School District has incurred in excess of $1,000 in staffing and other costs in each of the Fiscal Years July 1, 2001 through June 30, 2002, and July 1, 2002 through June 30, 2003, to implement these new duties mandated by the state for which the District has not been reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement.

I hereby declare, under penalty of perjury under the laws of the State of California, that the information in this declaration is true and correct to the best of my own knowledge or information or belief.

EXECUTED on this 25th day of August, 2008, at El Cajon, California.

Scott H. Patterson
Deputy Superintendent, Business Services
Grossmont Union High School District

APPOINTMENT OF REPRESENTATIVE

Grossmont Union High School District appoints Keith B. Petersen, SixTen and Associates, as its representative for this test claim.

Dear Mr. Peterson:

On August 21, 2008, Grossmont Union High School District filed a substitution of parties and took over this test claim. The analysis that was previously issued for the August 1, 2008 hearing has been revised in the Claimant and Chronology sections to reflect the substitution of parties. The revised draft staff analysis for this test claim, and the declaration of Scott H. Patterson, on behalf of Grossmont Union High School District, are enclosed for your review and comment.

Written Comments

Any party or interested person may file written comments on the revised draft staff analysis by **December 3, 2008**. You are advised that comments filed with the Commission are required to be simultaneously served on the other interested parties on the mailing list, and to be accompanied by a proof of service. (Cal. Code Regs., tit. 2, § 1181.2.) If you would like to request an extension of time to file comments, please refer to section 1183.01, subdivision (c)(1), of the Commission's regulations.

Hearing

This test claim is set for hearing on **Friday, January 30, 2009** at 9:30 a.m. in Room 126 of the State Capitol, Sacramento, California. The final staff analysis will be issued on or about January 16, 2009. Please let us know in advance if you or a representative of your agency will testify at the hearing, and if other witnesses will appear. If you would like to request postponement of the hearing, please refer to section 1183.01, subdivision (c)(2), of the Commission's regulations.

Please contact Camille Shelton at (916) 323-8215 with any questions regarding the above.

Sincerely,

Paula Higashi
Executive Director

Prevailing Wage Rate

01-TC-28

Grossmont Union High School District, Claimant

EXECUTIVE SUMMARY

This test claim was originally set for hearing on August 1, 2008. On July 23, 2008, after the final staff analysis was issued, the original claimant, Clovis Unified School District, filed an application to withdraw the claim pursuant to section 1183.08 of the Commission's regulations. Section 1183.08 of the Commission's regulations allows another local agency or school district to take over a test claim by substitution of parties within 60 days of the application to withdraw. On August 21, 2008, Grossmont Union High School District filed a substitution of parties and took over the claim.

This revised draft staff analysis updates the Claimant and Chronology sections to reflect the withdrawal and substitution of parties. No other substantive changes have been made to the analysis.

Background

This test claim addresses changes to the California Prevailing Wage Law (CPWL), which is "a comprehensive statutory scheme designed to enforce minimum wage standards on construction projects funded in whole or in part with public funds." Contractors for public works projects that exceed $1,000 are required to pay local prevailing wages to construction workers on those projects. The requirement to pay prevailing wages is only applicable to work performed under contract, and is not applicable to work carried out by a public agency with its own forces; the requirement is applicable to contracts let for maintenance work. Local prevailing wage rates are set by the Director of the Department of Industrial Relations.

The Test Claim Statutes, Regulations and Alleged Executive Orders Impose a Partially Reimbursable State-Mandated Program on K-12 School Districts or Community College Districts Within the Meaning of Article XIII B, Section 6 of the California Constitution

The provisions of the CPWL are only applicable when a district contracts with a private entity to carry out a public works project. The cases have consistently held that when a district makes an underlying discretionary decision that triggers mandated costs, no state mandate is imposed. The underlying decision to undertake a public works project is mandated by the state only when the public works project is for the purpose of repair or maintenance of school buildings or property. The underlying decision to contract for such a project is mandated by the state under the Public Contract Code, only when the project is not an emergency as defined and under other specified conditions related to the size of the student body and cost of the project.

The test claim statutes and regulations mandate certain activities when the CPWL provisions are triggered under the above circumstances, and some of those activities impose a new program or higher level of service on districts within the meaning of article XIII B, section 6 of the California Constitution. For some of those activities, however, the test claim statutes and

regulations allow the districts to levy fees sufficient to pay for the costs of the newly-mandated activities, and Government Code section 17556, subdivision (d), is applicable to deny reimbursement for them. The remaining three activities do impose costs mandated by the state, thus imposing a partially reimbursable state-mandated program on K-12 school districts and community college districts.

Conclusion

Staff concludes that Labor Code section 1776, subdivisions (g) and (h), and section 16403, subdivision (a), of the Department of Industrial Relations' regulations constitute a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution, but only when those activities are triggered by projects for repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, and when the project must be let to contract under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113, and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or
    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000. (Pub. Contract Code, § 20114.)
2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654, and
    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or
    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000. (Pub. Contract Code, § 20655.)
3. For any K-12 school district or community college district that is subject to the Uniform Public Contract Cost Accounting Act (UPCCAA), when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.[1] (Pub. Contract Code, § 22032.)

Only the following activities for the foregoing projects are reimbursable:

- Retain copies of payroll records requested by the public and provided by the awarding body for at least 6 months. (Cal. Code Regs., tit. 8, § 16403, subd. (a).)
- Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Department of Industrial Relations' Division of Apprenticeship Standards

[1] Prior to January 1, 2007, the dollar limit for public projects that could be performed by the district with its own forces was $25,000.

or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g) (as amended by Stats. 1978, ch. 1249).)

- Insert in the contract stipulations regarding the contractor's and subcontractor's requirements pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h) (as amended by Stats. 1978, ch. 1249).)

Any grant funds available to awarding bodies under the deferred maintenance program, or any other eligible grant program, when used for the newly mandated activities in this test claim, shall be identified in the parameters and guidelines as possible offsetting revenues.

None of the other test claim statutes, regulations or alleged executive orders that were pled mandate a new program or higher level of service subject to article XIII B, section 6.

Recommendation

Staff recommends the Commission adopt this analysis to partially approve the test claim.

STAFF ANALYSIS

Claimant

Grossmont Union High School District

Chronology

06/28/02	Clovis Unified School District ("Claimant") filed test claim with the Commission on State Mandates ("Commission")
07/08/02	Commission staff deemed the test claim complete
08/14/02	The Department of Industrial Relations requested an extension of time, for an additional 90 days, to file comments on the test claim
08/15/02	Commission staff approved extension of time, to November 13, 2002, to file comments on the test claim
08/19/02	Claimant filed missing pages of the test claim with the Commission
11/05/02	The Department of Finance requested an extension of time, for an additional 60 days, to file comments on the test claim
11/06/02	Commission staff approved extension of time, to January 15, 2003, to file comments on the test claim
01/13/03	The Department of Finance requested an extension of time to file comments on the test claim
01/15/03	Commission staff approved extension of time, to January 31, 2003, to file comments on the test claim
01/15/03	The Department of Industrial Relations filed comments on the test claim
01/15/03	The State Building and Construction Trades Council of California, AFL-CIO, filed comments on the test claim
01/29/03	The Department of Finance requested an extension of time to file comments on the test claim
01/30/03	Commission staff approved extension of time, to February 18, 2003, to file comments on the test claim
02/18/03	Claimant filed rebuttal comments on the test claim
02/18/03	The Department of Finance filed comments on the test claim
03/20/03	Claimant filed comments on the test claim
04/02/03	The Department of Industrial Relations filed comments on the test claim
07/31/03	Claimant filed amendment to the test claim
08/14/03	Commission staff deemed the amendment to the test claim complete
08/18/03	The Department of Industrial Relations filed comments on the test claim
09/05/03	The Department of Finance requested a 30-day extension to file comments on the test claim

09/12/03	The Department of Industrial Relations requested an extension of time, for an additional 21 days, to file comments on the test claim
09/15/03	The Department of General Services, Office of Public School Construction, filed comments on the test claim
09/16/03	Commission staff approved extension of time, to October 6, 2003, for the Department of Industrial relations to file comments on the test claim
09/18/03	Claimant filed rebuttal comments on the test claim
10/07/03	The Department of Industrial Relations filed comments on the test claim
10/09/03	The Department of Industrial Relations filed a verification for its August 18, 2003 comments on the test claim
10/14/03	The Department of Finance requested an extension of time, for an additional 30 days, to file comments on the test claim
10/15/03	Commission staff approved extension of time, to November 5, 2003, to file comments on the test claim
10/20/03	Claimant filed rebuttal comments on the test claim
11/06/03	Claimant filed rebuttal comments on the test claim
11/05/03	The Department of Finance filed comments on the test claim
12/08/03	Claimant filed rebuttal comments on the test claim
01/28/04	The Department of Industrial Relations requested an extension of time, for an additional 30 days, to file comments on the test claim
01/30/04	Commission staff approved extension of time, to March 3, 2004, to file comments on the test claim
07/11/07	Commission staff requested claimant to provide specific versions of regulations claimed
07/23/07	The Department of Industrial Relations requested postponement of the December 6, 2007 hearing on the test claim
07/26/07	Commission staff denied the request to postpone hearing the test claim
07/25/07	Claimant requested an extension of time, for an additional four weeks, to file regulations information requested by Commission staff
08/01/07	Commission staff approved extension of time, to August 29, 2007, to file the information requested
08/30/07	Claimant submitted additional regulations information requested by Commission staff
03/11/08	Commission staff issued draft staff analysis
03/28/08	The Department of Industrial Relations requested an extension of time to file comments on the draft staff analysis.

03/28/08	Commission staff approved the request for an extension of time, for an additional two weeks, to file comments on the draft staff analysis
04/01/08	The Department of General Services, Office of Public School Construction, filed comments on the draft staff analysis
04/14/08	The Department of Industrial Relations filed comments on the draft staff analysis
04/15/08	The Department of Finance filed comments on the draft staff analysis
05/27/08	The Department of Industrial Relations requested that the hearing be postponed to August 1, 2008
05/28/08	Commission staff approved the request to postpone the hearing to August 1, 2008
07/18/08	Commission staff issued the final staff analysis for August 1, 2008 hearing
07/23/08	Clovis Unified School District files application to withdraw test claim pursuant to section 1183.08 of the Commission's regulations
07/23/08	Commission staff issues letter to Clovis Unified School District and interested parties and affected state agencies accepting the withdrawal, and providing notice that the test claim will be dismissed, pursuant to section 1183.08 of the Commission's regulations, if no other school district takes over the claim by substitution of the parties on or before September 22, 2008
08/21/08	Grossmont Union High School District files notice of substitution of parties and takes over test claim
09/02/08	Commission staff issues letter to parties providing notice of substitution of parties
09/03/08	Grossmont Union High School District files declaration of Scott H. Patterson in support of test claim.
11/12/08	Revised draft staff analysis issued for comment; item set for hearing on January 30, 2009

Background

This test claim addresses 36 statutory changes to the California Prevailing Wage Law (CPWL),[2] involving 33 Labor Code sections and more than 90 regulatory provisions, which have taken place since 1975. The CPWL is "a comprehensive statutory scheme designed to enforce minimum wage standards on construction projects funded in whole or in part with public funds."[3] Contractors for public works projects that exceed $1,000 are required to pay

[2] Labor Code sections 1720 et seq.

[3] *Road Sprinkler Fitters, Local Union 669 v. G & G Fire Sprinkler, Inc.* (2002) 102 Cal.App.4th 765, 776.

local prevailing wages to construction workers on those projects.[4] The requirement to pay prevailing wages is only applicable to work performed under contract, and is not applicable to work carried out by a public agency with its own forces; the requirement is applicable to contracts let for maintenance work.[5] Local prevailing wage rates are set by the Director of the Department of Industrial Relations.[6]

In addition to state agencies, the CPWL applies to "political subdivisions," which include any county, city, district, public housing authority, or public agency of the state, and assessment or improvement districts.[7] Thus, the CPWL applies to both school districts and community college districts. The agency or authority awarding the contract for public work is known as the "awarding body."[8]

The overall purpose of the CPWL is to benefit and protect employees on public works projects.[9] Its specific goals are to: 1) protect employees from substandard wages that might be paid if contractors could recruit from cheap-labor areas; 2) permit union contractors to compete with nonunion contractors; 3) benefit the public through the superior efficiency of well-paid employees; and 4) compensate nonpublic employees with higher wages for the absence of job security and benefits enjoyed by public employees.[10]

The CPWL does not generally cover federal projects. Those projects are addressed in the federal Davis-Bacon Act (40 USC § 276a(a)), which was enacted for a similar purpose, i.e., to protect local wage standards by preventing federal contractors from basing their bids on wages lower than those prevailing in the area.[11] However, the application of state prevailing wage rates when higher is required whenever federally funded or assisted projects are controlled or carried out by California awarding bodies.[12]

Public Works Defined

The Labor Code generally defines "public works" as construction, alteration, demolition, installation or repair work done under contract and paid for in whole or in part out of public funds,[13] and includes: 1) design and preconstruction work;[14] 2) work done for irrigation,

utility, reclamation and improvement districts;[15] 3) street, sewer, or other improvement work for public agencies;[16] 4) laying of carpet;[17] 5) certain public transportation demonstration projects;[18] and 6) hauling of refuse from a public works site to an outside disposal location.[19] Public works projects also include maintenance,[20] as defined.[21]

The Labor Code also defines "paid for in whole or in part out of public funds" as payment of funds directly to or on behalf of a public works contractor, subcontractor or developer,[22] including various other types of payments,[23] and provides several types of projects that are excluded from that definition.[24]

Prevailing Wage Rates

Prevailing wage rates are set by the Director of the Department of Industrial Relations (DIR),[25] generally by reviewing local wage rates established by collective bargaining agreements and rates that may have been predetermined for federal public works.[26] The awarding body for any contract for public works is required to specify in the call for bids, the bid specifications and the contract itself, what the prevailing wage rate is for each craft, classification or type of worker needed to execute the contract.[27] In lieu of specifying the wage rates in the call for bids, bid specifications and the contract itself, the awarding body may include a statement in

those documents that copies of the prevailing wage rates are on file at its principal office, which shall be made available to any interested party on request.[28] The awarding body is required to post at each job site a copy of the determination by the DIR Director of the prevailing wage rates.[29]

Prospective bidders, representatives of any craft classification or type of worker involved, or the awarding body may challenge the declared prevailing wage rates with DIR within 20 days after commencement of advertising of the bids.[30] The Director of DIR begins an investigation and within 20 days, or longer if agreed upon by all the parties, makes a determination and transmits it in writing to the awarding body and the interested parties, which delays the closing date for submitting bids or starting of work until five days after the determination.[31] The Director's determination is final, and shall be considered the determination of the awarding body.[32]

Payroll Records

Contractors and subcontractors subject to the CPWL are required to keep accurate payroll records showing name, address, social security number, work classification, straight time and overtime hours worked each day and week and actual wages paid to each worker in connection with the public work,[33] and provide certified copies or make such records available for inspection, upon request of the employee, the awarding body, Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards.[34] Requests by the public are required to be made through the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement,[35] and shall be redacted to prevent disclosure of an individual's name, address and social security number.[36] The requesting party is required to reimburse the costs of preparing the records by the contractor, subcontractors, and the entity through which the request was made.[37] The awarding body is required to insert stipulations in the contract to effectuate these provisions.[38]

Discrimination on Public Works Employment Prohibited

Labor Code section 1735 prohibits contractors from discriminating on public works employment for particular categories of persons, and every contractor violating the section is subject to all the penalties imposed for a violation of the CPWL.

Enforcement of CPWL

The awarding body is required to "take cognizance" of violations of the CPWL committed in the course of the public works contract, and shall promptly report any suspected violations to the Labor Commissioner.[39]

The Labor Commissioner is charged with enforcing the CPWL.[40] If the Labor Commissioner determines after an investigation that there has been a violation of the CPWL, the Labor Commissioner issues a civil wage and penalty assessment to the contractor or subcontractor or both.[41] Prior to July 1, 2001, the only way to challenge such an assessment was in court. On and after July 1, 2001, contractors or subcontractors may obtain review of a civil wage and penalty assessment through an informal settlement meeting with the Labor Commissioner,[42] or via an administrative hearing.[43] Until January 1, 2009, hearings are conducted before the DIR Director with an impartial hearing officer; thereafter the hearing will be conducted by an administrative law judge.[44] An affected contractor or subcontractor may appeal the administrative decision within 45 days of service of the decision by filing a petition for writ of mandate under Code of Civil Procedure section 1094.5.[45] This process provides the exclusive remedy for review of a civil wage and penalty assessment by the Labor Commissioner.[46]

When the Labor Commissioner issues a civil wage and penalty assessment, the awarding body is required to withhold and retain such moneys from contractor payments sufficient to satisfy the assessment.[47] The amounts withheld cannot be disbursed until receipt of a final order that is no longer subject to judicial review.[48] The awarding body that has withheld funds in response to a civil wage and penalty assessment, upon receipt of the final order, shall remit withheld funds to the Labor Commissioner.[49]

[48] Labor Code section 1727, subdivision (b).

[49] Labor Code section 1742, subdivision (f).

Labor Compliance Program

The awarding body can avoid paying prevailing wages for public works projects of $25,000 or less when the project is for construction, and $15,000 or less when the project is for alteration, demolition, repair or maintenance work, if the awarding body elects to initiate and enforce a labor compliance program (LCP) for all of its public works projects.[50] As part of its duties as an LCP, the awarding body is required to do the following: 1) place appropriate language concerning CPWL in all bid invitations and public works contracts; 2) conduct a prejob conference with the contractor and subcontractors to discuss federal and state labor law requirements applicable to the contract; 3) review and audit payroll records (that the contractor is required to keep) to verify compliance with CPWL; 4) withhold contract payments when payroll records are delinquent or inadequate; and 5) withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment has occurred.[51]

If the awarding body enforces the CPWL as an LCP, the awarding body is entitled to keep any penalties assessed. Before taking any action, the awarding body is required to provide notice of the withholding of any contract payments to the contractor and any subcontractor.[52] The same process for review of a civil wage and penalty assessment made by the Labor Commissioner, as set forth in Labor Code sections 1742 and 1742.1, is invoked.[53] Any amount recovered from the contractor shall first satisfy the wage claim, before being applied to penalties, and if insufficient money is recovered to pay each worker in full, the money shall be prorated among all workers.[54] Wages for workers who cannot be located are placed in the Industrial Relations Unpaid Wage Fund and held in trust.[55] Penalties of not more than $50 per day for each worker paid less than the prevailing wage rates[56] are paid into the general fund of the awarding body that enforced the CPWL.[57]

Awarding bodies that choose to use funds derived from the Kindergarten-University Public Education Facilities Bond Acts of 2002[58] or 2004[59] for public works projects are required to adopt and enforce an LCP or contract with a third party to adopt and enforce an LCP.[60] These funds are allocated through the School Facility Program established by Chapter 12.5 of the

Education Code. The State Allocation Board was required to increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts to accommodate the state's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of the LCP.[61] Awarding bodies that choose to use funds derived from the Kindergarten-University Public Education Facilities Bond Act of 2006,[62] however, are not subject to this requirement.

Employment of Apprentices on Public Works Projects

Properly registered apprentices are allowed to work on public works projects and must be paid prevailing wages for apprentices in the trade.[63] Apprenticeship standards are established by the DIR Division of Apprenticeship Standards,[64] and ratios of apprentices to journey level workers in a particular craft or trade on the public work are established by the particular apprenticeship program.[65] Contractors must meet various requirements with regard to employing apprentices, and the awarding body is required to include stipulations to that effect in the contract.[66]

School Facility Construction, Repairs and Funding

Beginning in 1947, the Legislature authorized the State Allocation Board to allocate funds for building and repairing schools. Legislation enacted in the late 1940s and early 1950s established a loan-grant program "to aid school districts of the State in providing necessary and adequate school sites and buildings for the pupils of the public school system..."[67] The State Department of General Services[68] administers and the State Allocation Board (SAB) allocates and apportions the funds made available to the districts with priority given to districts where the children will benefit most from additional facilities.[69]

The School Facilities Act[70] establishes a state program to provide state per pupil funding for new construction and modernization of existing school facilities[71] to be administered by the SAB.[72]

[70] Education Code sections 17070.10 et seq.

[71] Title 2, California Code of Regulations, section 1859.

[72] Education Code section 17070.35.

The Education Code sets out requirements that potential school building sites must meet.[73] Prior to commencing acquisition of real property for a new schoolsite or addition to an existing schoolsite, the governing board of a school district is required to evaluate property at a public hearing using the site selection standards established by the Department of Education.[74] Moreover, in the exercise of its police power, the state may through legislative action control the protection of public health, safety, and comfort in the erection of school buildings.[75] The Department of General Services is generally required to supervise the design and construction of any school building or the reconstruction or alteration of or addition to any school building.[76] Nevertheless, *whether* a school district decides to engage in a project to construct a school building is within the discretion of its governing board.[77]

Education Code section 17366 states the Legislature's intent to provide safe educational facilities for California schoolchildren as follows:

> [T]he Legislature intends that the governing board of each school district adopt a plan for the orderly repair, reconstruction, or replacement of school buildings not repaired, reconstructed, or replaced in accordance with this article.

Whenever the structural condition of any school building has been examined by designated entities or under the authorization of law and a report of the examination has been made to the governing board showing the building is unsafe for use, the governing board is required to immediately prepare an estimate of the cost necessary to make such repairs to the building(s) as are necessary, or, if necessary, to reconstruct or replace the building so that the building when repaired or reconstructed, or any building erected to replace it, shall meet such standards of structural safety as are established in accordance with law.[78] Using the information from the examination and report, the governing board is required to establish a system of priorities for the repair, reconstruction, or replacement of unsafe school buildings.[79] If the governing board of the school district complies with these provisions, no member of that governing board may be held personally liable for injury to persons or damage to property resulting from the fact that a school building was not constructed under the requirements of Education Code sections 17280 et seq.[80]

Education Code section 17593 requires K-12 school districts to keep schools in repair:

> The clerk of each district except a district governed by a city or city and county board of education shall, under the direction of the governing

[79] *Ibid.*

[80] Education Code section 17371.

> board, keep the schoolhouses in repair during the time school is taught therein, and exercise a general care and supervision over the school premises and property during the vacations of the school.

Education Code section 17565 requires the governing board of any school district to "furnish, repair, insure against fire, and in its discretion rent the school property of its districts."

Education Code section 17002 defines "good repair" to mean:

> [T]he facility is maintained in a manner that assures that it is clean, safe, and functional as determined pursuant to an interim evaluation instrument developed by the Office of Public School Construction. The instrument shall not require capital enhancements beyond the standards for which the facility was designed and constructed.

With regard to community college districts, Education Code section 81601 states:

> The governing board of a community college district shall furnish, repair, insure against fire, and in its discretion rent the school property of its districts. ...

Thus, both K-12 school districts and community college districts are required by statute to repair the school property of their districts.

The Education Code provides for deferred maintenance funding from the state, on a dollar-for-dollar matching basis, to K-12 school districts and community college districts.[81] Typical deferred maintenance projects include roofing, plumbing, heating, air conditioning, electrical and floor systems. For K-12 school districts, an annual Basic Grant is provided to districts for major repair or replacement listed on the district's Five Year Plan, and an Extreme Hardship Grant is provided in addition to the Basic Grant where a critical project must be completed within one year for health and safety or structural reasons.[82] Community college projects are also subject to a five-year maintenance plan submitted to the Chancellor, and the Chancellor allocates requested funding based on three criteria: 1) projects necessary to meet safety requirements and to correct hazardous conditions; 2) scheduled maintenance necessary to prevent substantially increased maintenance or replacement costs in the future; and 3) projects necessary to prevent disruption of instructional programs.[83]

The Education Code authorizes the County Superintendent of Schools to provide for the maintenance and repair of the property of school districts under his or her jurisdiction that elect to take advantage of this service by paying into the school maintenance and repair fund established for this purpose.[84] The superintendent is authorized to hire labor for such maintenance and repair:

---

[83] California Code of Regulations, title 5, sections 57200 et seq.

[84] Education Code section 1266.

> The superintendent of schools of the county may employ such extra help as is necessary to perform the labor for the maintenance and repair work, as well as to provide for the supervision and transportation of the labor together with the equipment and materials for the work. The cost price of the maintenance and repair services to any school district is the original cost thereof and in addition a sum sufficient to reimburse the county superintendent of schools for all supervision, transportation, equipment, and other expenses, but the sum added shall not in any case exceed 10 percent of the cost of labor and supplies.[85]

Contracting for Public Works Projects

The Public Contract Code establishes contracting requirements for school districts and community college districts.[86] Depending on the purpose of the project and estimated dollar amount, the district may be required to contract out to the lowest responsible bidder to accomplish the project. The major requirements are outlined below.

The governing board of any school district or any community college district shall let any contracts involving an expenditure of more than $50,000[87] to the lowest responsible bidder,[88] for any of the following: 1) the purchase of equipment, materials, or supplies to be furnished, sold or leased to the district; 2) services, except construction services; or 3) repairs, including maintenance,[89] that are not a public project as defined in section 22002, subdivision (c).[90, 91]

---

[85] Education Code section 1269.

[86] Public Contract Code sections 20110 et seq. and 20650 et seq.

[87] Adjusted annually for inflation pursuant to Public Contract Code sections 20111, subdivision (d), and 20651, subdivision (d).

[88] The lowest responsible bidder shall provide security as the board requires, or all bids shall be rejected. (Pub. Contract Code, § 20111 and 20651.)

[89] Public Contract Code sections 21115 and 20656 define "maintenance" as "routine, recurring, and usual work for the preservation, protection, and keeping of any publicly owned or publicly operated facility for its intended purposes in a safe and continually usable condition for which it was designed, improved, constructed, altered, or repaired." It includes but is not limited to: "carpentry, electrical, plumbing, glazing, and other craftwork designed consistent with the definition set forth above to preserve the facility in a safe, efficient, and continually usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures." It does not include, among other types of work: "janitorial or custodial services and protection of the sort provided by guards or other security forces." It further does not include painting, repainting, or decorating other than touchup, but instead it is the intent of the Legislature that such activities be controlled directly by the provisions of section 20114 or 20655.

[90] Public Contract Code sections 20111, subdivision (a), and 20651, subdivision (a).

[91] Section 22002, subdivision (c) defines "public project" as:
(1) Construction, reconstruction, erection, alteration, renovation, improvement, demolition,

Any contract for a public project, as defined, involving an expenditure of $15,000 or more shall be let to the lowest responsible bidder who shall give security as required by the board or the board shall reject all bids.[92]

Notwithstanding the preceding requirements, in the case of an emergency when any repairs, alterations, work, or improvement is necessary to any facility of the college or public schools to permit the continuance of existing classes, or to avoid danger to life or property, the governing board of a school district or community college district may, by unanimous vote, with the approval of the county superintendent of schools, either: 1) make a contract in writing or otherwise on behalf of the district for the performance of labor and furnishing materials or supplies without advertising for or inviting bids; or 2) without regard to the number of hours needed for the job, authorize the use of day labor or force account to carry out the project.[93]

Moreover, the governing board of a school district or community college district may make repairs, alteration, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance by day labor or by force account[94] whenever the total number of hours on the job does not exceed 350 hours; for any school district having an average daily attendance of 35,000 or more, or for any community college district whose number of full-time equivalent students is 15,000 or greater, the governing board may perform the above activities by day labor or force account whenever the total number of hours on the job does not exceed 750 hours or when the cost of material for the job does not exceed $21,000.[95]

The Uniform Public Construction Cost Accounting Act (UPCCAA)[96]

The Uniform Public Construction Cost Accounting Act was enacted to "promote uniformity of the cost accounting standards and bidding procedures on construction work performed or contracted by public entities in the state."[97] The Act provides for developing such cost accounting standards by the California Uniform Construction Cost Accounting Commission, and an alternative method for the bidding of public works projects by public entities.[98] A

public agency whose governing board has by resolution elected to become subject to this Act may use its own employees to perform projects of $30,000 or less.[99]

Test Claim Statutes, Regulations and Alleged Executive Orders

Statutes

The test claim statutes encompass changes to the CPWL in the Labor Code beginning in 1976. The relevant provisions are summarized below.

Labor Code Sections 1720, 1720.2 and 1720.3: New types of public works projects were added with these sections:

- Section 1720 was modified to add public transportation demonstration projects, design and preconstruction, including land surveying,[100] and installation projects.
- Section 1720.2 was amended to include projects done under private contract where the property subject to the contract is privately owned but upon completion of the construction work more than 50 percent of the property is leased to the state or a political subdivision for its use, and the construction work is performed according to plans or specifications furnished by the state or a political subdivision with a lease agreement that is entered into between a lessor and the state or political subdivision as lessee, during or upon completion of the project.
- Section 1720.3 was amended to include the removal of refuse from the public works construction site.

Labor Code Section 1726: A requirement was added for the awarding body, which was already required to "take cognizance" of violations, to promptly *report* suspected violations to the Labor Commissioner. The section was further amended to state that if the awarding body determines as a result of its own investigation (under a Labor Compliance Program) that there

---

[99] Public Contract Code section 22032; prior to January 1, 2007, the dollar limit for public projects that could be performed by the district was $25,000.

[100] Design and preconstruction was added by Statutes 2000, Chapter 881. The Senate Rules Committee Analysis stated that the bill codified current DIR practice and regulation by including construction inspectors and land surveyors among those workers deemed to be employed upon public works and by insuring that workers entitled to prevailing wage during the construction phase of a public works project will get prevailing wage on the design and pre-construction phases of a project. (Senate Rules Committee, Office of Senate Floor Analyses, SB 1999, August 29, 2000, page 2.) On June 9, 2000, the DIR issued a decision (Public Works Case No. 99-046) finding that construction inspectors hired to do inspection for compliance with applicable building codes and other standards for a public works project were deemed to be employed upon public works and therefore entitled to prevailing wage. This DIR decision was the subject of a lawsuit, *City of Long Beach v. Department of Industrial Relations* (2004) 34 Cal.4th 942, which held that even though the DIR had interpreted preexisting statute to include the pre-construction activities as public works and argued that the new statute merely clarified existing law, the Supreme Court found the change in the statute operated prospectively only.

has been a violation and withholds contract payments, the Labor Compliance Program procedures in section 1771.6 shall be followed.

Labor Code Section 1727: This section was amended to state that if the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a *subcontractor's* violations, the *contractor* is required to withhold money upon request of the Labor Commissioner and transfer that money to the awarding body. In either case, the awarding body is limited to disbursing such withheld assessments until after receipt of a final order that is no longer subject to judicial review.

Labor Code Section 1735: This section, as added and amended, prohibits discrimination on public works employment for specified categories of persons, and every contractor violating the section is subject to all the penalties imposed for violations of the chapter.

Labor Code Sections 1733, 1741, 1742, 1742.1 and 1743: These sections provide for an administrative process to challenge wage and penalty assessments as set forth:

- Section 1733, relating to court challenges to wage and penalty assessments, was repealed since a new administrative procedure was established.
- Section 1741 established that the Labor Commissioner, after an investigation, shall issue a civil wage and penalty assessment on contractors and/or subcontractors that violate the CPWL, and sets the procedures for issuing the assessment.
- Section 1742 provided that contractors or subcontractors may obtain review of a civil wage and penalty assessment by the Labor Commissioner, and established procedures and additional appeal provisions. The hearing is conducted before the DIR Director with an impartial hearing officer until January 1, 2009; thereafter the hearing is conducted by an administrative law judge. Subdivision (f) provides that the awarding body that has withheld funds in response to a civil wage and penalty assessment, upon receipt of the final order, shall remit withheld funds to the Labor Commissioner. Subdivision (g) provides that the section is the exclusive remedy for review of a civil wage and penalty assessment by the Labor Commissioner or the awarding body when it acts under a Labor Compliance Program pursuant to section 1771.5.
- Section 1742.1 established procedures to allow for the contractor or subcontractor to meet with the Labor Commissioner to settle a dispute over the civil wage and penalty assessment without the need for formal proceedings. Additional procedures were established to require the awarding body, when enforcing under a Labor Compliance Program, to afford the contractor or subcontractor, upon request of such contractor or subcontractor, the opportunity to meet with the awarding body to attempt to settle any dispute without the need for formal proceedings.
- Section 1743 provided that the contractor and subcontractor shall be joint and severally liable for all amounts due pursuant to a final order, but the Labor Commissioner shall first exhaust all reasonable remedies to collect the amount due from the subcontractor before pursuing the claim against the contractor.

Labor Code Section 1750: This section allows the second lowest bidder a right of action against a successful bidder, when the successful bidder has violated the Unemployment Insurance Code. It does not require any activities of awarding bodies.

Labor Code Sections 1770, 1773, 1773.1, 1773.2, 1773.5 and 1773.6: These sections were amended to require the Director of the Department of Industrial Relations to determine the general prevailing rate of per diem wages, using specified criteria, rather than the pre-1975 requirement of having this responsibility rest with the awarding body. Section 1773.2 was thus amended to remove the requirement that the awarding body annually publish prevailing wage rate determinations in the newspaper. Section 1773.5, which previously gave the Director of DIR authority to establish rules and regulations, was amended to add "including, but not limited to, the responsibilities and duties of awarding bodies under this chapter."

Labor Code Section 1771: This section was amended to establish the threshold dollar amount for contracts subject to prevailing wages at $1,000.

Labor Code Sections 1771.5, 1771.6 and 1771.7: These new sections established the ability of an awarding body to elect to initiate and enforce a Labor Compliance Program (LCP). In exchange, payment of prevailing wages is not required for any public works project of $25,000 or less when the project is for construction, or for any public works project of $15,000 or less when the project is for alteration, demolition, repair or maintenance work. An awarding body that establishes an LCP is also allowed to keep any fines or penalties assessed when it takes enforcement action. As part of its duties as an LCP, the awarding body is required to do the following: 1) place appropriate language concerning CPWL in all bid invitations and public works contracts; 2) conduct a prejob conference with the contractor and subcontractors to discuss federal and state labor law requirements applicable to the contract; 3) review and audit payroll records (that the contractor is required to keep) to verify compliance with CPWL; 4) withhold contract payments when payroll records are delinquent or inadequate; and 5) withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment has occurred. A contractor may appeal an enforcement action by a political subdivision to the Director of DIR.

Section 1771.6 was repealed and added to establish notice and withholding procedures for an awarding body that elects to enforce the CPWL under an LCP.

Section 1771.7 was repealed and later added to require that an awarding body that chooses to use funds derived from either the Kindergarten-University Public Education Facilities Bond Act of 2002 or 2004 for a public works project shall initiate and enforce, or contract with a third party to initiate and enforce, an LCP with respect to that public works project. The provision applies to public works that commence on or after April 1, 2003.

Any awarding body choosing to use such bond funds is required to make a written finding that the awarding body has initiated and enforced, or has contracted with a third party to initiate and enforce, the Labor Compliance Program. If the awarding body is a school district, the governing body of that district shall transmit to the State Allocation Board a copy of the finding. If the awarding body is a community college district, that awarding body shall transmit a copy of the written finding to the Director of the Department of Industrial Relations.

Labor Code Section 1772: This section, which existed prior to 1975, establishes that workers employed by contractors or subcontractors in the execution of any public works project are deemed to be employed on the public work.

Labor Code Section 1775: This section was amended to increase penalty amounts assessed by the Labor Commissioner to be paid by contractors and/or subcontractors for violations of the

requirement to pay prevailing wages, and to delete a requirement that the awarding body provide notice to a worker making a wage claim that there is insufficient money available from the contractor to pay such claim. Additionally, the section was changed to extend to subcontractors the liability for insufficient wage payments, and to require contractors to withhold monies due a subcontractor for such insufficient payments that are the subject of a claim filed with the Division of Labor Standards Enforcement.

Labor Code Section 1776: This section was amended to expand the requirements for contractors and subcontractors to keep certified payroll records for public works projects and furnish copies of those records to the awarding body, the Division of Labor Standards Enforcement, or the Division of Apprenticeship Standards. The amendments also require that copies of such payroll records be made available to the public through the awarding body, the Division of Labor Standards Enforcement or the Division of Apprenticeship Standards (but not by the contractor or subcontractor); if the records have not already been made available to those entities, then the requesting party is required to reimburse the costs of preparation by the contractor, subcontractors and the entity through which the request was made. Any records made available to the public must be marked or obliterated to prevent disclosure of an individual's name, address or social security number. Any records made available to a joint labor-management committee must be marked or obliterated to prevent disclosure of an individual's social security number. The body awarding the contract is required to place stipulations to effectuate these provisions in the contract. In addition, the Director of the Department of Industrial Relations was required to adopt regulations consistent with the California Public Records Act and the Information Practices Act of 1977 governing release of the records including establishment of reasonable fees to be charged for reproducing copies of the records.

Labor Code Section 1777.1: This section was added and amended to deny a contractor or subcontractor the ability to bid on or be awarded a contract for a public works project, or perform work as a subcontractor on a public works project, when the contractor or subcontractor is found by the Labor Commissioner to be in violation of prevailing wage requirements with intent to defraud or in willful violation of the requirements. The section was also modified to require the Labor Commissioner to semi-annually publish and distribute to awarding bodies a list of contractors who are ineligible to bid on or be awarded a public works contract, or to perform work as a subcontractor on a public works project.

Labor Code Sections 1773.3, 1777.5, 1777.6 and 1777.7: These sections generally address apprenticeship requirements that must be met by contractors, and penalties that may be assessed for violation of those requirements. Section 1773.3, a renumbered version of pre-1975 Labor Code section 3098, requires an awarding body whose public works contract will employ apprentices to send a copy of the award to the Division of Apprenticeship Standards within five days of the award.

Labor Code Sections 1812 and 1813: These provisions, which existed prior to 1975, deal with contractor violations of the 8-hour work day limit and 40-hour work week limit. Section 1813 requires the awarding body to cause stipulations regarding these requirements to be placed in the contract, to take cognizance of violations and to report such violations to the Division of Labor Standards Enforcement.

Labor Code Section 1861: This section, which existed prior to 1975, requires contractors to sign and file with the awarding body a certification that the contractor will provide workers' compensation or equivalent insurance.

Public Contract Code Section 22002 (previously section 21002): For purposes of contracting by public agencies and school districts, this section added a definition of "public project:"

> (1) Construction, reconstruction, erection, alteration, renovation, improvement, demolition, and repair work involving any publicly owned, lease, or operated facility.
> (2) Painting or repainting of any publicly owned, leased, or operated facility.
> (3) Construction, erection, improvement or repair of dams, reservoirs, powerplants and electrical transmission lines of 230,000 volts or higher that are publicly owned utility systems.

"Public project" does not include maintenance work; for purposes of the section, "maintenance work" includes:

> (1) Routine, recurring, and usual work for the preservation or protection of any publicly owned or publicly operated facility for its intended purposes.
> (2) Minor repainting.
> (3) Resurfacing of streets and highways at less than one inch.
> (4) Landscape maintenance, including mowing, watering, trimming, pruning, planting, replacement of plants, and servicing of irrigation and sprinkler systems.

For purposes of the chapter, "facility" is defined as any plant, building, structure, ground facility, publicly owned utility system as limited above, real property, streets and highways, or other public work improvement.

Regulations

California Code of Regulations, Title 8, sections 16000 through 17264, as pled in the test claim, implement and make specific the statutory provisions cited above.

Alleged Executive Orders

School Facility Program Substantial Progress and Expenditure Audit Guide (May 2003): This document, prepared by the Department of General Services' Office of Public School Construction (OPSC), was developed to assist school districts in meeting program reporting requirements for the School Facilities Program (SFP).

Section 3.9 of the document states that for SFP projects that require the district to implement a Labor Compliance Program, the district must submit a copy of the Department of Industrial Relations approved Labor Compliance Program to which the project conformed and, if applicable, a copy of the third party provider contract. The district must also be prepared to submit, upon request: 1) all bid invitation and contracts that must contain language alluding to Labor Code section 1770 through 1780 compliance and verification; 2) evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set in Labor Code section 1770 through 1780; and 3) evidence of weekly submittals of certified copies of payroll for all contractors and subcontractors. If the district

uses its own employees to implement and administer the Labor Compliance Program, the district must account for the name of the district employee performing the Labor Compliance Program duties, the salary and benefits of that employee including transportation costs, and a specific breakdown of hours spent by project subject to the Labor Compliance Program requirements.

AB 1506 Labor Compliance Program Guidebook (February 2003): The guidebook was issued by the DIR to address newly enacted Labor Code section 1771.7. Page 3 of the document states:

> This guidebook was prepared by the [Division of Labor Standards Enforcement] and knowledgeable individuals in the private and public sector with a wide range of experience in school district issues, construction projects, public works and labor compliance. This guidebook was intended to facilitate requests to the DIR director from awarding bodies seeking approval of their own LCPs to conform to the requirements of Labor Code section 1771.7.
>
> This guidebook is not intended to be used as a substitute for the full text of statutes and regulations which comprise the prevailing wage system, or the continually developing body of law which prevailing wage enforcement has generated over the past six decades and will continue to generate in the future. Rather, this information should be viewed as a framework for implementation of an effective LCP designed to enforce prevailing wage requirements consistent with the practice of DLSE.

The guidebook summarizes the relevant provisions of the Labor Code and Title 8, California Code of Regulations, provides instructional materials and practical advice for implementing an LCP, identifies contact and resource information, includes appendices with recommended forms, commonly used terms and a checklist of labor law requirements.

Antioch Unified School District Labor Compliance Program (January 17, 2003): This document was provided as an example of a recently approved LCP, and the DIR stated in its transmittal of the document that Antioch's LCP manual "could be a model for other districts because it contains the most up-to-date information about compliance with labor standards on public works projects."

Prior Test Claim

On December 6, 2007, the Commission heard and denied the *Prevailing Wages (03-TC-13)* test claim, filed by the City of Newport Beach. This test claim alleged various changes to the CPWL, but was applicable only to local agencies and did not show that the underlying decisions to undertake public works projects subject to the CPWL are mandated by the state. The Statement of Decision found the following:

> The provisions of the CPWL are only applicable when a local agency contracts with a private entity to carry out a public works project. The test claim statutes and regulations modified several provisions of the CPWL, and local agencies that contract out for their public works projects are affected by these changes. However, the cases have consistently held that

when a local agency makes an underlying discretionary decision that triggers mandated costs, no state mandate is imposed.

Public works projects can arise in a myriad of ways, but there is no evidence in the record or in law to demonstrate that the test claim statutes and regulations legally or practically compel a local agency to undertake a public works project, with a private contractor, subject to the CPWL. In fact, like the exercise of eminent domain in *City of Merced*, the local agency has discretion to undertake public works projects. The courts have underscored the fact that a state mandate is found when the state, rather than a local official, has made the decision that requires the costs to be incurred. Therefore, the Commission finds that the test claim statutes and regulations do not mandate a new program or higher level of service, and thus do not impose a reimbursable state-mandated program on local agencies within the meaning of article XIII B, section 6.

Claimant's Position

Claimant asserts that the test claim statutes and regulations result in school districts and community college districts incurring costs mandated by the state by creating new state-mandated duties related to the uniquely governmental function of providing for public works. When contracting with third parties for public works as an awarding body, school districts, county offices of education and community colleges are required to do the following:

1. Obtain the applicable general prevailing rate of per diem wages from the Director of Industrial Relations before awarding a contract for public works, pursuant to Labor Code section 1773 and Title 8, California Code of Regulations, section 16202.
2. Ensure that the correct prevailing wage rates have been determined by the Director of Industrial Relations, pursuant to Title 8, California Code of Regulations, section 16204.
3. Request from the Director of Industrial Relations a coverage determination regarding a specific project or type of work to be performed, pursuant to Title 8, California Code of Regulations, section 16001.
4. File a petition for review of a determination of the Director of Industrial Relations of any rate or rates, pursuant to Title 8, California Code of Regulations, section 16302.
5. Appeal an incorrect determination made by the Director of Industrial Relations, pursuant to Labor Code section 1773.4 and Title 8, California Code of Regulations, section 16002.5.
6. Pursuant to Labor Code section 1773.2, include a statement of prevailing rates of per diem wages in the call and advertisements for bids, the bid specifications and in the public works contract itself, or, in lieu of those requirements, the district may include in the call for bids, bid specifications and the contract itself a statement to the effect that copies of the prevailing rate of wages are on file in its principal office, and in that case the district must post the statement of prevailing wages at all job sites.

7. Maintain records of ineligible contractors and subcontractors and refuse to grant them public works projects of the district, pursuant to Labor Code section 1777.1 and Title 8, California Code of Regulations, sections 16800 through 16802.

8. Send copies of all awards to the Division of Apprenticeship Standards and notify the Division of any discrepancies, pursuant to Labor Code section 1777.3.

9. Inspect and audit payroll records of contractors and subcontractors working on district public works projects, when necessary or requested by the Director of Industrial Relations, pursuant to Labor Code section 1776.

10. Obtain and provide copies of the payroll records of the contractors and subcontractors working on district public works projects, when requested by appropriate parties; the records provided are required to be marked or obliterated to prevent disclosure of an individual's name, address and social security number, pursuant to Labor Code section 1776 and Title 8, California Code of Regulations, section 16402.

11. Pay the reasonable fees of a third party when contracting with that third party to initiate and enforce a Labor Compliance Program (LCP), pursuant to Labor Code sections 1771.5 and 1771.7.

12. For works commencing on or after April 1, 2003, oversee compliance with all the requirements of Labor Code sections 1771.5 and 1771.7, Title 8, California Code of Regulations, sections 16425 through16439, and Chapters 2, 3 and 5 of the AB 1506 Labor Compliance Program Guidebook ("Program Guidebook") when contracting with a third party to initiate and enforce an LCP, including but not necessarily limited to the withholding of contract payments and collecting and disbursing penalties and wages at the direction of the third party LCP.

13. Pursuant to Title 8, California Code of Regulations, section 16426, subdivision (a), when seeking approval of an LCP, submit evidence of the district's ability to operate its LCP and offering evidence on the following factors:

    a. Experience and training of the awarding body's personnel on public works labor compliance issues.

    b. The average number of public works contracts the awarding body annually administers.

    c. Whether the LCP is a joint or cooperative venture among awarding bodies, and how the resources and expanded responsibilities of the LCP compare to the awarding bodies involved.

    d. The awarding body's record of taking cognizance of Labor Code violations and withholding in the preceding five years.

    e. The availability of legal support for the LCP.

    f. The availability and quality of a manual outlining the responsibilities and procedures of the LCP to the awarding body.

g. The method by which the awarding body will transmit notices to the Labor Commissioner of willful violations as defined in Labor Code section 1777.1, subdivision (d).

14. Complete a request for approval deemed by the Director of DIR to be deficient, or make other corrections as required, and resubmitting the request for approval of a LCP, pursuant to Title 8, California Code of Regulations, section 16426, subdivision (b).

15. Submit a request for an extension of an LCP at least 30 days prior to the anniversary date of the initial approval, pursuant to Title 8, California Code of Regulations, section 16426, subdivision (c).

16. Make a written finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, an LCP as described in Labor Code section 1771.5, subdivision (b), pursuant to Labor Code section 1771.7, subdivision (d)(1). Transmit a copy of such written finding for school districts to the State Allocation Board, in the manner determined by that board, pursuant to Labor Code section 1771.7, subdivision (d)(2)(A). Transmit a copy of such written finding for community college districts to the Director of DIR, in the manner determined by DIR, pursuant to Labor Code section 1771.7, subdivision (d)(3).

17. Comply with all the requirements of an LCP, when initiated and enforced by the district, pursuant to Labor Code sections 1771.5 or 1771.7 (for works commencing on or after April 1, 2003), Title 8, California Code of Regulations, sections 16425 through 16439, and Chapters 2, 3, and 5 of the Program Guidebook. These requirements include:

    a. Place in all bid invitations and public works contracts appropriate language concerning the requirements of the prevailing wage laws comprising Labor Code sections 1720 through 1861.

    b. Conduct a pre-job conference with the contractor and the subcontractors to discuss federal and state labor requirements applicable to the contract.

    c. Project contractors and subcontractors shall maintain and furnish, at a designated time, a certified copy of each weekly payroll containing a statement of compliance signed under penalty of perjury.

    d. Review and, if appropriate, audit payroll records to verify compliance with prevailing wage laws. These investigations shall be conducted by monitoring certified payroll records, investigating complaints from workers, and monitoring agencies and contractors, pursuant to the Program Guidebook, Chapter 4, Parts (A) and (B). Upon conclusion of the audit, prepare audits and findings and obtain the approval of recommended forfeitures from the Labor Commissioner.

    e. Withhold contract payments when payroll records are delinquent or inadequate.

    f. Withhold contract payments equal to the amount of underpayments and applicable penalties when, after investigation, it is established that underpayment has occurred. Withhold contract payments when payroll records are delinquent or inadequate, pursuant to Chapter 3 of the Program Guidebook.

g. Serve on the contractor, any affected subcontractor, and any bonding company issuing a bond securing the payment of wages, a Notice of Withholding of Contract Payments using the form attached in Appendix 2 of the Program Guidebook.

h. Mail a notice to DIR on a form titled Notice of Transmittal, found in Appendix 3 of the Program Guidebook, pursuant to Chapter 4 of the Program Guidebook.

i. When a party requests review, mail a form titled Notice of Opportunity to Review Evidence, found in Appendix 4 of the Program Guidebook, pursuant to Chapter 4 of the Program Guidebook.

18. Provide contractors and subcontractors, bonding companies and sureties with Notice of Withholding of Contract Payments, using the form found in Appendix 2 of the Program Guidebook, when minimum wage law violations are discovered by the district, pursuant to Labor Code section 1771.6 and Title 8, California Code of Regulations, section 17220. The notice shall be in writing and include the following information:

a. a description of the nature of the violation and basis for the notice;

b. the amount of wages, penalties and forfeitures due, including a specification of amounts that have been or will be withheld from available contract payments, as well as all additional amounts that the enforcing agency has determined are due, including the amount of any liquidated damages that potentially may be awarded under Labor Code section 1742.1, using the form found in Appendix 4 of the Program Guidebook;

c. the name and address of the office to whom a Request for Review may be sent;

d. information on the procedures for obtaining review of an Assessment or a Notice of Withholding of Contract Payments;

e. notice of Opportunity to request a settlement meeting under Title 8, California Code of Regulations, section 17221; and

f. a statement appearing in bold, or another type face that makes it stand out from other text, to the effect that failure to submit a timely request for review will result in a final order that is binding on the contractor and subcontractor, and on the bonding company.

19. Complete and mail a Notice of Transmittal, as found in Appendix 3 of the Program Guidebook, to the DIR to begin the administrative review process.

20. Defend Notices to Withhold Contract Payments in administrative review proceedings and in court, pursuant to Chapter 4, paragraph iv(d) of the Program Guidebook.

21. Pursuant to Chapter 6 of the Program Guidebook, when investigating worker complaints of underpayment of prevailing wage rates: a) gather supporting documents from all available sources and analyze them for authenticity; and b) conduct a complete certified payroll record and/or project audit. This includes

reviewing certified payroll records for errors, inconsistencies, discrepancies, falsification, misclassification, under-reporting, and any other omissions that render the records inaccurate where needed by comparing the inspector of records' daily log with all available records.

22. Pursuant to Chapter 6 of the Program Guidebook, conduct investigations on an as-needed basis by:
    a. Calculating back wages and penalties.
    b. Reviewing findings with the contractor and any subcontractor.
    c. Writing a complete summary of the investigation with a statement of findings and recommended action for submission to DIR's Division f Labor Standards Enforcement for approval of withholdings.
    d. Conducting settlement negotiations.
    e. Testifying on behalf of the school district in appeal hearings and litigation.
    f. Attending pre-bid and job-start meetings and monitoring active construction projects.
    g. Interviewing workers to validate complaints.
23. Pursuant to Chapter 9 of the Program Guidebook, conduct audits on a random or as-needed basis, to include comparing certified payroll records to source documents such as front and back copies of canceled checks, time cards, copies of pay check stubs, payroll registers, personnel sign in sheets, daily logs and any other document which authenticates or corroborates that which has been reported.
24. Pursuant to Chapter 9 of the Program Guidebook, prepare cases and documentation to include:
    a. Copies of workers' complaints.
    b. Copies of all correspondence to the contractor.
    c. Certified payroll records.
    d. Inspector's daily log.
    e. Correct prevailing wage determination and applicable increases.
    f. Scope of work for trade classifications used.
    g. Tabulation of bids.
    h. Notice to proceed.
    i. Notice of Completion (if applicable).
    j. Surety company information.
    k. Contractor's previous record of violations (if applicable).
    l. The Notice of Withholding of Contract Payments (if applicable).
    m. Release of Notice of Withholding of Contract Payments (if applicable).

n. Memo(s) to file.

25. Pursuant to Section 3.9 of the School Facility Program Substantial Progress and Expenditure Audit Guide ("Audit Guide"), in the event of any postaward audit of a school district by the State Allocation Board, pursuant to Labor Code section 1771.7, subdivision (d)(2)(C), submit a copy of the DIR approved LCP to which the project conformed and a copy of any third party provider contract.

26. Pursuant to Section 3.9 of the Audit Guide, at the time of an OSPC audit, be prepared to submit, upon request, the following:

    a. All bid invitations and contracts that must contain language alluding to Labor Code sections 1770 through 1780 compliance and verification.

    b. Evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set forth in Labor Code sections 1770 through 1780.

    c. Evidence of weekly submittals of certified copies of payrolls for all contractors and subcontractors.

27. Pursuant to Section 3.9 of the Audit Guide, if a district elects to use its own employees for its LCP, provide the following additional information:

    a. The name of the district employee performing the LCP duties.

    b. The salary and benefits of the employee including transportation costs.

    c. A specific breakdown of hours spent by project subject to the LCP requirements.

28. Report any suspected violations of the prevailing wage laws to the Labor Commissioner, pursuant to Labor Code section 1726.

29. Withhold contract payments for underpaid wages and for penalties when, through the district's own investigation, the district determines a violation of prevailing wage laws has occurred, pursuant to Labor Code section 1726.

30. Withhold amounts necessary to satisfy Civil Wage and Penalty Assessments issued by the Labor Commissioner, pursuant to Labor Code section 1727.

31. Retain amounts withheld to satisfy a Civil Wage and Penalty Assessment until receiving a final order no longer subject to judicial review, pursuant to Labor Code section 1727.

32. After July 1, 2001, comply with all due process requirements for the benefit of contractors and subcontractors when amounts are withheld pursuant to a Civil Wage and Penalty Assessment or a Notice of Withholding of Contract Payments, including the providing of proper and timely notices, allowing review of evidence relied upon, appearance and participation at hearings and the appeals therefrom, pursuant to Labor Code section 1742 and Title 8, California Code of Regulations, section 17220.

33. After July 1, 2001, respond to petitions for writs of mandate filed by contractors and subcontractors seeking review of orders of the Labor Commissioner, including

the retention of counsel to file timely responses, participating in pre-trial discovery matters, the trial of the cause, pre-trial and post-trial briefing, and the preparation of findings and judgment, pursuant to Labor Code section 1742.

34. Grant and participate in settlement meetings requested by contractors or subcontractors in an attempt to settle any disputed issue before formal hearing procedures, pursuant to Labor Code section 1742.1 and Title 8, California Code of Regulations, section 16413.

35. As a necessary party, appear and participate in legal proceedings resulting from any action against contractor or subcontractor filed by a joint labor-management committee for failure to pay prevailing wages, pursuant to Labor Code section 1771.2.

36. Furnish copies of payroll records of a contractor or subcontractor to a joint labor-management committee, when requested, obliterated only to prevent disclosure of social security numbers, pursuant to Labor Code section 1776.

The original claimant on this claim, Clovis Unified School District, estimated that the district has incurred, or will incur, in excess of $200 in staffing and other costs in excess of revenues annually, for the period from July 1, 2000 through June 2002, to implement the new duties mandated by the state, for which the district has not been reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement. In an amendment filed on July 31, 2003, page 7 of the Second Declaration of William McGuire states:

> To the extent that Clovis Unified School District commences a public works project subject to Labor Code Section 1771.7, it is estimated that Clovis Unified School District will incur in excess of $1,000, annually, in staffing and other costs to implement these new duties mandated by the state for which the district will not be reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement.

In that amendment, an additional declaration was provided by Thomas J. Donner from the Santa Monica Community College District alleging costs mandated by the state.

On September 2, 2008, Grossmont Union High School District filed a declaration from Scott H. Patterson, Deputy Superintendent, Business Services, for the district estimating costs in excess of $1000 for fiscal years 2001-2002 and 2002-2003 to implement the duties described above.

The original claimant, Clovis Unified School District, filed rebuttal comments to the comments submitted by the Department of Finance, the Department of Industrial Relations, and the Department of General Services, Office of Public School Construction. These rebuttal comments are addressed, as necessary, in the following analysis.

Position of Department of Finance

The Department of Justice filed comments on behalf of the Department of Finance, generally stating that the test claim statutes do not impose a new program or higher level of service on school districts or community college districts since there is no reimbursable mandate for costs

of programs or services incurred as a result of the exercise of local discretion, citing *City of Merced v. State of California* (1984) 153 Cal.App.3d 777, 783. The Department then provides a specific response to each claim; those responses are addressed, as necessary, in the following analysis.

With regard to the test claim amendment addressing Labor Code section 1771.7, the Department states the section does not create a state mandate because districts voluntarily participate in the underlying program, i.e., the construction of schools with state bond money, citing *Department of Finance v. Commission on State Mandates* (2003) 30 Cal.4th 727, 740. Even assuming there was a mandate, the Department points out that the state has provided additional funds for the costs of LCPs, and LCPs also generate revenues and costs savings. The Department argues that the claimant has not shown that it has any costs above these additional funds, revenues and cost savings.

The Department concurred with the draft staff analysis and made the following additional comments:

> [W]e note that the State School Deferred Maintenance Program (Education Code section 17582, et seq.) and the Community Colleges Facility Deferred Maintenance and Special Repair Program (Education Code section 84660 et seq.) provide State-matching funds, on a dollar-for-dollar basis, to assist school and community college districts with expenditures for major repair or replacement of existing school building components. Therefore, any projects funded through the State School Deferred Maintenance Program or the Community Colleges Facility Deferred Maintenance and Special Repair Program would have received funding to cover the State's share of any related costs resulting from the activities as recommended by the Commission to be a reimbursable state-mandated program on pages 70-71 of the draft staff analysis. We suggest the Commission consider the availability of funding provided from the State School Deferred Maintenance Program and the Community Colleges Facility Deferred Maintenance and Special Repair Program to school districts and community colleges as offsetting revenues, should the Commission adopt a decision finding a reimbursable mandate.

These comments are addressed, as necessary, in the following analysis.

Position of Department of Industrial Relations (DIR)

The DIR states that, since 1975, the state has taken on more of local agencies' historic responsibilities for determining and enforcing prevailing wages to make the prevailing wage duties clearer and less onerous, and leaving behind only minimal recordkeeping tasks. This type of shift from local agencies to the state does not trigger reimbursement under the requirements of article XIII B of the California Constitution. DIR points out that to the extent there has been any expansion in the scope of public works, the consequent obligation to pay prevailing wages directly affects private contractors and only indirectly affects local governments. DIR then provides specific responses to each claim, which are addressed, as necessary, in the following analysis.

In additional comments, DIR applies the principles of the *Department of Finance v. Commission on State Mandates (Kern High School District)* case to the test claim, concluding that claimant has not met its burden of showing districts are compelled to participate in the

underlying programs, i.e., either engage in construction of school facilities or engage in such projects via contract. DIR further notes that state funding for school construction is already provided through the State Allocation Board, which allocates money to districts based on formulas that pay between 40% to 80% of the cost of construction. DIR argues that the claimant has not made a credible case that such funding does not take care of whatever costs they have incurred.

With regard to the test claim amendment addressing Labor Code section 1771.7, the DIR states that no reimbursement is required because the newly created LCPs are voluntary programs for local school districts, and districts already receive state construction bond funding for their activities from the State Allocation Board. DIR further points out that district LCPs also are allowed to retain any penalties assessed and collected while enforcing the CPWL.

The DIR filed comments on the draft staff analysis stating that:

- Any mandate that exists is so negligible as to not require subvention pursuant to *Kern High School District*, since partial state funding already exists for maintenance and repair projects in school districts and community college districts, and such funding can be used for the newly mandated tasks.
- Retaining certified payroll records for six months at most results in a negligible increase in levels of service, which should be considered de minimis.
- Inserting a clause in public works contracts pursuant to Labor Code section 1776, subdivision (h), at most results in a negligible increase in levels of service.
- Retaining contract payments for certified payroll record violations pursuant to Labor Code section 1776, subdivision (g), is not a mandate since it does not require any activity of the awarding body. Additionally, this requirement does not result in a new program or higher level of service because the obligation already was subsumed in Labor Code section 1727 which required "the awarding body shall withhold and retain therefrom all amounts which have been forfeited pursuant to … the terms of this chapter," and Labor Code section 1776, subdivision (g), is part of the same chapter as section 1727.
- Regarding the requirement that districts put certain projects out for bid, Public Contract Code section 22030 allows a school district or community college district to decide whether to subject itself to the thresholds set forth in the Uniform Public Construction Cost Accounting Act (UPCCAA) or the other work limits thresholds set forth in sections 20114 or 20655 of the Public Contract Code. Therefore, any project that does not create a mandate to contract with private parties under both sets of thresholds should not be considered a mandate for subvention purposes.
- The Commission should require a new declaration from the claimant to justify the test claim, since in the limited circumstances in which a mandate might exist to contract with private parties for a public project, the three alleged mandates cause virtually no increased costs.

These comments are addressed, as necessary, in the following analysis.

Position of Department of General Services, Office of Public School Construction

The Office of Public School Construction (OSPC), in commenting on the test claim amendment addressing Labor Code section 1771.7, states that participation by a school district in the School Facility Program (SFP), established by Chapter 12.5 of the Education Code, is voluntary:

> The Education Code does not compel a district to obtain funding from the State through the SFP as a condition of building schools. School districts may choose to build facilities through the use of district raised funds. Program elements are only required if a district chooses to participate in the program. Additionally, Labor Code ... Section 1771.7 states "an awarding body that *chooses* to use funds derived from the Kindergarten-University Public Education Facilities Bond Act of 2002 ... for a public works project, shall initiate and enforce ... a labor compliance program".[101]

The OSPC further states that the State Allocation Board (SAB) has authority to increase the per pupil grant amount to accommodate the State's share for the additional costs due to the initiation and enforcement of an LCP; the increases were approved by the SAB on July 2, 2003, and are currently being provided.

OSPC filed an amendment to its September 15, 2003 comments addressing new bond money for public school construction that subsequently became available. The comments were amended to state:

> ... Additionally, Labor Code ... Section 1771.7 states "an awarding body that *chooses* to use funds derived from the Kindergarten-University Public Education Facilities Bond Act of *either* 2002 *or 2004* ... for a public works project, shall initiate and enforce ... a labor compliance program."
>
> The OSPC further states that the State Allocation Board (SAB) has authority to increase the per pupil grant amount to accommodate the State's share for the additional costs due to the initiation and enforcement of a LCP *for school projects funded from Proposition 47 or Proposition 55. Proposition 1D does not require school districts to enforce a LCP; therefore, projects that include LCPs are not eligible for funding increases under this bond.*

These comments are addressed as necessary in the following analysis.

Interested Person -- State Building and Construction Trades Council of California (AFL-CIO)

The State Building and Construction Trades Council (SBCTC) filed comments on the test claim as an interested person, pursuant to Title 2, California Code of Regulations, section 1181.1, subdivision (*l*). The SBCTC states that the test claim should be denied for the following reasons:

1. Any "mandate" imposed by the CPWL is on private contractors, not the local agency. It is possible that if private contractors have higher labor costs, such costs might be passed on to their customers; however, the contractor's cost of paying higher wages to workers

[101] Comments from Department of General Services, Office of Public School Construction, Luisa M. Park, Executive Officer, September 15, 2003, page 1.

on a project may well be offset by the increased skill and productivity of those workers. Several recent studies conclude that the prevailing wage law does not actually increase total school construction costs, and the claimant has presented no evidence to the contrary. SBCTC provided a copy of one study: "A Comparison of Public School Construction Costs" by Peter Philips, Ph.D., Professor of Economics, University of Utah, February, 2001.[102]

2. Although the CPWL does impose minor direct costs on school districts to administer and enforce the law, what has occurred since 1975 is the opposite of an unfunded state mandate since the state has taken upon itself responsibilities that were formerly borne by local agencies — i.e., determining prevailing wage rates and enforcing the CPWL.

3. It is correct to state that there has been some expansion in the definition of "public work" since 1975; however, many of the changes to that definition were actually clarifications of the pre-1975 statutory language and claimant has not presented any evidence that these minor changes have had any practical effect on school district construction projects.

The SBCTC did not file comments on the draft staff analysis.

[102] The claimant is not seeking reimbursement for the cost of increased salaries, which would not be reimbursable in any case pursuant to *City of Anaheim v. State of California* (1987) 189 Cal.App.3d 1478, 1484.

Discussion

The courts have found that article XIII B, section 6 of the California Constitution[103] recognizes the state constitutional restrictions on the powers of local government to tax and spend.[104] "Its purpose is to preclude the state from shifting financial responsibility for carrying out governmental functions to local agencies, which are 'ill equipped' to assume increased financial responsibilities because of the taxing and spending limitations that articles XIII A and XIII B impose."[105]

A test claim statute or executive order may impose a reimbursable state-mandated program if it orders or commands a local agency or school district to engage in an activity or task.[106] In addition, the required activity or task must be new, constituting a "new program," or it must create a "higher level of service" over the previously required level of service.[107]

The courts have defined a "program" subject to article XIII B, section 6, of the California Constitution, as one that carries out the governmental function of providing public services, or a law that imposes unique requirements on local agencies or school districts to implement a state policy, but does not apply generally to all residents and entities in the state.[108] To determine if the program is new or imposes a higher level of service, the test claim requirements must be compared with the legal requirements in effect immediately before the enactment of the test claim statutes.[109] A "higher level of service" occurs when there is "an increase in the actual level or quality of governmental services provided."[110]

---

[103] Article XIII B, section 6, subdivision (a), (as amended by Proposition 1A in November 2004) provides: "Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the State shall provide a subvention of funds to reimburse that local government for the costs of the program or increased level of service, except that the Legislature may, but need not, provide a subvention of funds for the following mandates: (1) Legislative mandates requested by the local agency affected. (2) Legislation defining a new crime or changing an existing definition of a crime. (3) Legislative mandates enacted prior to January 1, 1975, or executive orders or regulations initially implementing legislation enacted prior to January 1, 1975."

[106] *Long Beach Unified School Dist. v. State of California* (1990) 225 Cal.App.3d 155, 174.

[107] *San Diego Unified School Dist. v. Commission on State Mandates* (2004) 33 Cal.4th 859, 878 (*San Diego Unified School Dist.*); *Lucia Mar Unified School District v. Honig* (1988) 44 Cal.3d 830, 835-836 (*Lucia Mar*).

[108] *San Diego Unified School Dist., supra,* 33 Cal.4th 859, 874, (reaffirming the test set out in *County of Los Angeles v. State of California* (1987) 43 Cal.3d 46, 56 (*County of Los Angeles*); *Lucia Mar, supra,* 44 Cal.3d 830, 835).

[109] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 878; *Lucia Mar, supra,* 44 Cal.3d 830, 835.

[110] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 877.

Finally, the newly required activity or increased level of service must impose costs mandated by the state.[111]

The Commission is vested with exclusive authority to adjudicate disputes over the existence of state-mandated programs within the meaning of article XIII B, section 6.[112] In making its decisions, the Commission must strictly construe article XIII B, section 6 and not apply it as an "equitable remedy to cure the perceived unfairness resulting from political decisions on funding priorities."[113]

The analysis addresses the following issues:

- Do the test claim statutes, regulations or alleged executive orders impose a state-mandated program on K-12 school districts or community college districts within the meaning of article XIII B, section 6 of the California Constitution?
- Do the test claim statutes or regulations impose a new program or higher level of service within the meaning of article XIII B, section 6 of the California Constitution?
- Do the test claim statutes or regulations impose costs mandated by the state within the meaning of Government Code section 17514 and article XIII B, section 6 of the California Constitution?

Issue 1: Do the test claim statutes, regulations or alleged executive orders impose a state-mandated program on K-12 school districts or community college districts within the meaning of article XIII B, section 6 of the California Constitution?

For the test claim statutes, regulations or alleged executive orders to impose a state-mandated program, the language must order or command a school district or community college district to engage in an activity or task. If the language does not do so, then article XIII B, section 6 is not triggered. Moreover, where program requirements are only invoked after the district has made an underlying discretionary decision causing the requirements to apply, or where participation in the underlying program is voluntary, courts have held that resulting new requirements do not constitute a reimbursable state mandate.[114] Stated another way, a reimbursable state mandate is created when the test claim statutes or regulations establish conditions under which the state, rather than a local entity, has made the decision requiring the district to incur the costs of the new program.[115]

The claimant asserts the test claim statutes, regulations and alleged executive orders require districts to perform new activities to comply with state prevailing wage requirements, the costs of which are reimbursable under article XIII B, section 6. Since the provisions of the CPWL are only applicable to public works projects performed under contract, and not to work carried out by a public agency with its own forces,[116] the analysis must first address whether the state is requiring a school district or community college district to engage in any public works projects or to contract out for such projects. Then, the alleged new activities must be analyzed to determine whether they are required or mandated by the plain language of the test claim statutes, regulations, or alleged executive orders.

Do Districts Have Discretion to Undertake Public Works Projects?

Types of Public Works Projects Subject to CPWL

The Labor Code sets forth the types of projects that are considered "public works," subject to the CPWL. Prior to 1975, public works projects subject to prevailing wages generally included: 1) construction; 2) alteration; 3) demolition; 4) repair work; 5) work done for irrigation, utility, reclamation and improvement districts; 6) street, sewer or other improvement work; 7) laying of carpet; and 8) maintenance work.[117] Since 1975, the test claim statutes added new types of public works projects:

- Labor Code section 1720 was modified to add:
  - public transportation demonstration projects (effective August 7, 1989);
  - design and preconstruction, including land surveying (effective January 1, 2001); and
  - installation projects (effective January 1, 2002).
- Effective January 1, 1981, Labor Code section 1720.2 was amended to include projects done under private contract where the property subject to the contract is privately owned but upon completion of the construction work more than 50 percent of the property is leased to the state or a political subdivision for its use *and* the construction work is performed according to plans or specifications furnished by the state or a political subdivision with a lease agreement that is entered into between a lessor and the state or political subdivision as lessee during or upon completion of the project.
- Effective January 1, 2000, Labor Code section 1720.3 was amended to state that contracts for the removal of refuse from a public works construction site entered into by "any political subdivision" – which includes K-12 school districts and community college districts – are public works projects.

Each of these new types of public works projects is now subject to the CPWL.[118] The timing for CPWL coverage is significant here for purposes of the mandates analysis. The pre-existing

---

[116] Labor Code section 1771.

[117] Labor Code sections 1720 and 1771 in effect as of January 1, 1975.

[118] Labor Code section 1771: "... not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the public work is performed ... shall be paid to all workers employed on public works."

public works projects were already subject to the pre-existing CPWL administrative requirements, while the new public works projects only became subject to and therefore triggered the pre-existing requirements at the time they were enacted.[119] Thus, for pre-existing public works projects, only the *newly-imposed* CPWL administrative requirements that are claimed could be subject to reimbursement. For *newly-covered* public works projects, however, all CPWL administrative requirements *that are claimed*, both pre-existing and new, could be subject to reimbursement.

Discretion to Undertake Public Works Projects

The foregoing provisions show that the CPWL covers a broad range of public works projects. The decision to undertake such projects could arise in a myriad of ways, from a district-level decision to an initiative enacted by the voters.

With regard to K-12 school districts, Education Code section 17593 requires those districts to keep schools in repair:

> The clerk of each district except a district governed by a city or city and county board of education shall, under the direction of the governing board, keep the schoolhouses in repair during the time school is taught therein, and exercise a general care and supervision over the school premises and property during the vacations of the school.

Moreover, Education Code section 17565 requires the governing board of any school district to "furnish, repair, insure against fire, and in its discretion rent the school property of its districts."

Education Code section 17002 defines "good repair" to mean:

> [T]he facility is maintained in a manner that assures that it is clean, safe, and functional as determined pursuant to an interim evaluation instrument developed by the Office of Public School Construction. The instrument shall not require capital enhancements beyond the standards for which the facility was designed and constructed.

With regard to community college districts, Education Code section 81601 states:

> The governing board of a community college district shall furnish, repair, insure against fire, and in its discretion rent the school property of its districts. ...

Thus, both K-12 school districts and community college districts are required by statute to repair the school property of their districts. Since "property" includes "any external thing over which the rights of possession, use, and enjoyment are exercised,"[120] the requirement to repair includes real property as well as facilities owned by the district. Moreover, because the term

---

[119] See footnote 97 regarding effective date for CPWL coverage of design and pre-construction, including land surveying.

[120] Black's Law Dictionary, Seventh Edition, 1999, page 1232, column 2.

"repair" is defined as "to restore to sound condition after damage or injury" and "to renew or refresh,"[121] staff finds that "repair" includes "maintenance" for purposes of these provisions.

These statutes, therefore, require K-12 school districts and community college districts to repair and maintain their facilities and property.

Aside from the above statutory requirements, however, there is no evidence in the test claim statutes, regulations, alleged executive orders, or in the record that the state has required districts to undertake other public works projects that *do not* involve repair or maintenance, including the newly-covered public works projects. In fact, with regard to new construction of school buildings, the Second District Court of Appeal has stated: "Where, when or how, if at all, a school district shall construct school buildings is within the sole competency of its governing board to determine."[122]

Absent such legal compulsion, the courts have ruled that at times, based on the particular circumstances, "practical" compulsion might be found. The Supreme Court in *Kern High School Dist.* addressed the issue of "practical" compulsion in the context of a school district that had participated in optional funded programs in which new requirements were imposed. In *Kern,* the court determined there was no "practical" compulsion to participate in the underlying programs, since a district that elects to discontinue participation in a program does not face "certain and severe ... penalties" such as "double ... taxation" or other "draconian" consequences.[123]

In the case of *San Diego Unified School Dist.*, the test claim statutes required school districts to afford to a student specified hearing procedures whenever an expulsion recommendation was made and before a student could be expelled.[124] The Supreme Court held that hearing costs incurred as a result of statutorily required expulsion recommendations, e.g., where the student allegedly possessed a firearm, constituted a reimbursable state-mandated program.[125] Regarding expulsion recommendations that were discretionary on the part of the district, the court stated that in the absence of legal compulsion, compulsion *might* nevertheless be found when a school district exercised its discretion in deciding to expel a student for a serious offense to other students or property, in light of the state constitutional requirement to provide safe schools.[126] Ultimately, however, the Supreme Court decided the discretionary expulsion issue on an alternative basis.[127]

There is no evidence in the record to indicate that failure to undertake public works projects that are not otherwise required by statute would result in certain and severe penalties such as double taxation or other draconian consequences as set out in the *Kern* case. Nor does the

[127] *Id.* at page 888.

record show that the circumstances here are similar to those faced by the *San Diego* court regarding school safety. Although school safety was mentioned in the context of the statutory repair and maintenance requirements, nothing in the record indicates that failure to undertake *other* public works projects that are not required in statute would result in unsafe schools.

Instead, staff finds that public works projects that are entered into for purposes other than repair and maintenance are discretionary, analogous to the situation in *City of Merced*. There, the issue before the court was whether reimbursement was required for new statutory costs imposed on the local agency to pay a property owner for loss of goodwill, when a local agency exercised the power of eminent domain.[128] The court stated:

> Whether a city or county decides to exercise eminent domain is, essentially, an option of the city or county, rather than a mandate of the state. The fundamental concept is that the city or county is not required to exercise eminent domain. If, however, the power of eminent domain is exercised, then the city will be required to pay for loss of goodwill. Thus, payment for loss of goodwill is not a state-mandated cost.[129]

The Supreme Court in *Kern High School District* reaffirmed the *City of Merced* rule in applying it to voluntary education-related funded programs:

> The truer analogy between [*Merced*] and the present case is this: In *City of Merced*, the city was under no legal compulsion to resort to eminent domain – but when it elected to employ that means of acquiring property, its obligation to compensate for lost business goodwill was not a reimbursable state mandate, because the city was not required to employ eminent domain in the first place. Here as well, if a school district elects to participate in or continue participation in any underlying *voluntary* education-related funded program, the district's obligation to comply with the notice and agenda requirements related to that program does not constitute a reimbursable state mandate.[130]

The Code of Civil Procedure provision that was cited in *City of Merced* states:

> Nothing in this title requires that the power of eminent domain be exercised to acquire property necessary for public use. Whether property necessary for public use is to be acquired by purchase or other means or by eminent domain is a decision left to the discretion of the person authorized to acquire the property.[131]

The Law Revision Commission's comment on this provision stated:

> Section 1230.030 makes clear that whether property is to be acquired by purchase or other means, or by exercise of the power of eminent

---

[129] *Id.* at 783.

[130] *Kern High School District, supra,* 30 Cal.4th 727, 743.

[131] Code of Civil Procedure section 1230.030.

> domain, is a discretionary decision. Nothing in this title requires that the power of eminent domain be exercised; but, if the decision is that the power of eminent domain is to be used to acquire property for public use, the provisions of this title apply except as otherwise specifically provided by statute. ...[132]

The holding in *City of Merced* applies in this instance. A K-12 school district's or community college district's decision to undertake a public works project, other than for repair or maintenance of school buildings and property, is analogous to the discretionary decision to acquire property via eminent domain, and there is no evidence in the law or in the record that districts are practically compelled to engage in such public works projects.

Therefore, staff finds that the state has required K-12 school districts and community college districts to undertake public works projects to repair or maintain facilities and property of K-12 school districts and community college districts, pursuant to Education Code sections 17002, 17565, 17593 and 81601. The state has *not* required these districts to undertake any other public works projects. Consequently, any prevailing wage requirements, *when triggered by a public works project that does not address repair or maintenance*, are not mandated by the state and are not subject to article XIII B, section 6.

Moreover, since repair and maintenance types of public works projects were covered by the CPWL prior to 1975, only those CPWL administrative requirements claimed that were imposed *on or after January 1, 1975*, could be subject to reimbursement.

Do Districts Have Discretion to Contract for Repair or Maintenance Public Works Projects?

Since the requirement to pay prevailing wages is limited to work performed under contract, the next question is whether the state requires K-12 school districts or community college districts to contract for public works projects for repair or maintenance of school facilities or property, or whether the district can use its own forces for the project. As more fully described below, the state sometimes requires districts to contract for repair and maintenance of school facilities and property, depending upon project variables and the laws under which the district operates.

The Public Contract Code governs when districts are required to contract with private entities, and generally requires school districts and community college districts to contract with the lowest responsible bidder for construction, repairs and maintenance.[133] There are exceptions, however. For instance, when emergency repairs are needed for any facility to permit the continuance of existing classes or to avoid danger to life or property, the governing board of a school district or community college district is allowed to use its own forces to make such repairs.[134] In addition, the governing board of a school district or community college district is allowed to use its own forces to make repairs and other improvements under certain labor hour or material cost limits. For K-12 school districts, Public Contract Code section 20114 provides the following labor hour or material cost limits:

---

[132] California Law Revision Commission comment, 19 West's Annotated Code of Civil Procedure (1982 ed.) following section 1230.030, p. 414.

[133] Public Contract Code sections 20111 and 20651.

[134] Public Contract Code sections 20113 and 20654.

(a) In each school district, the governing board may make repairs, alterations, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance as defined in Section 20115[135, 136] by day labor, or by force account, whenever the total number of hours on the job does not exceed 350 hours. Moreover, in any school district having an average daily attendance of 35,000 or greater, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment, including painting or repainting, and perform maintenance, as defined in Section 20115, by day labor or by force account whenever the total number of hours on the job does not exceed 750 hours, or when the cost of material does not exceed twenty-one thousand dollars ($21,000).
(b) For purposes of this section, day labor shall include the use of maintenance personnel employed on a permanent or temporary basis.

---

[135] Public Contract Code section 20115 defines "maintenance" in this instance as "routine, recurring, and usual work for the preservation, protection, and keeping of any publicly owned or publicly operated facility for its intended purpose in a safe and continually usable condition for which it was designed, improved, constructed, altered, or repaired." This includes, but is not limited to: "carpentry, electrical, plumbing, glazing, and other craftwork designed consistent with the definition set forth above to preserve the facility in a safe, efficient, and continually usable condition for which it was intended, including repairs, cleaning, and other operations on machinery and other equipment permanently attached to the building or realty as fixtures." These provisions express the Legislature's intent that maintenance does not include painting, repainting, or decorating other than touchup, but instead those activities are to be controlled directly by the work limits under section 20114.

[136] For purposes of the Labor Code, "maintenance" is similarly defined:

(1) Routine, recurring and usual work for the preservation, protection and keeping of any publicly owned or publicly operated facility (plant, building, structure, ground facility, utility system or any real property) for its intended purposes in a safe and continually usable condition for which it has been designed, improved, constructed, altered or repaired.
(2) Carpentry, electrical, plumbing, glazing, touchup painting, and other craft work designed to preserve the publicly owned or publicly operated facility in a safe, efficient and continually usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures.
EXCEPTION: 1: Janitorial or custodial services of a routine, recurring or usual nature is excluded.
EXCEPTION: 2: Protection of the sort provided by guards, watchmen, or other security forces is excluded.
(3) Landscape maintenance. See Public Contract Code Section 21002 [subsequently renumbered to section 22002].
EXCEPTION: Landscape maintenance work by "sheltered workshops" is excluded. (Title 8, Cal. Code Regs., tit. 8, § 16000.)

For community college districts, Public Contract Code section 20655 provides the following labor hour or material cost limits:

> (a) In each community college district, the governing board may make repairs, alterations, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance as defined in Section 20656[137] by day labor, or by force account, whenever the total number of hours on the job does not exceed 350 hours. Moreover, in any district whose number of full-time equivalent students is 15,000 or greater, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment, including painting or repainting, and perform maintenance, as defined in Section 20656, by day labor or by force account whenever the total number of hours on the job does not exceed 750 hours, or when the cost of materials does not exceed twenty-one thousand dollars ($21,000).
> (b) For purposes of this section, day labor shall include the use of maintenance personnel employed on a permanent or temporary basis.

Notwithstanding the above provisions, a flat dollar threshold for public projects, as defined in Public Contract Code section 22002,[138] is established when a K-12 school district or

---

[137] Public Contract Code section 20656 defines "maintenance" for this purpose in the same manner as Public Contract Code section 20115. Section 20656 expresses the Legislature's intent that maintenance does not include painting, repainting, or decorating other than touchup, but instead those activities are to be controlled directly by the work limits under section 20655.

[138] Subdivision (c) defines "public project" as:

> (1) Construction, reconstruction, erection, alteration, renovation, improvement, demolition, and *repair* work involving any publicly owned, leased, or operated facility.[138]
> (2) Painting or repainting of any publicly owned, lease, or operated facility.
> (3) In the case of a publicly owned utility system, "public project" shall include only construction, erection, improvement, or repair of dams, reservoirs, powerplants, and electrical transmission lines of 230,000 volts and higher. (Emphasis added.)

Subdivision (d) states that "public project" does not include "maintenance work" which includes all of the following:

> (1) Routine, recurring, and usual work for the preservation or protection of any publicly owned or publicly operated facility for its intended purposes.
> (2) Minor repainting.
> (3) Resurfacing of streets and highways at less than one inch.
> (4) Landscape maintenance, including mowing, watering, trimming, pruning, planting, replacement of plants, and servicing of irrigation and sprinkler systems.
> (5) Work performed to keep, operate, and maintain publicly owned water, power, or waste disposal systems, including, but not limited to, dams,

community college district operates under the Uniform Public Construction Cost Accounting Act (UPCCAA).[139] Public Contract Code section 22001 sets forth the following findings and declarations regarding the UPCCAA:

> The Legislature finds and declares that there is a statewide need to promote uniformity of the cost accounting standards and bidding procedures on construction work performed or contracted by public entities in the state. This chapter provides for the development of cost accounting standards and an alternative method for the bidding of public works projects by public entities.

Section 22030 provides that the UPCCAA is only applicable to a district whose governing board has by resolution elected to become subject to its procedures and has notified the State Controller of the election. Once the district has elected to become subject to the UPCCAA, in the event of a conflict with any other provision of law relative to bidding procedures, the alternative bidding procedures and cost threshold under the UPCCAA for public projects, as defined, shall apply.[140]

The UPCCAA provides that public projects, which exclude maintenance, of $30,000 or less may be performed by a school district or community college district by its own forces.[141] In cases of emergency when repair or replacements are necessary, the work may be done by a district with its own forces.[142] Thus, for those districts subject to the UPCCAA, when the public project is not an emergency, contracting is required for a public project, as defined, when the cost of such project will exceed $30,000. When the project is for maintenance or other work that does not fall within the definition of public project, districts subject to the UPCCAA *may* use the bidding procedures set forth under the UPCCAA and in that situation would likewise be required to contract when the cost of the project will exceed $30,000.[143] Here, repair or maintenance projects – those that are legally required by Education Code sections 17002, 17565, 17593 and 81601 as noted above – could fall under the UPCCAA definition for public project, or may not. But in either case, for districts subject to the UPCCAA, when the project is not an emergency, contracting is required only when the cost of the project will exceed $30,000.

The Department of Industrial Relations (DIR) states that section 22030 of the Public Contract Code allows a school district to decide whether to subject itself to the UPCCAA thresholds or the K-12 and community college thresholds and thus being subject to one or the other is a

---

[139] Public Contract Code sections 22000 et seq.

[140] Public Contract Code section 22030.

[141] Public Contract Code section 22032; prior to January 1, 2007, the dollar limit for public projects that could be performed by the district was $25,000.

[142] Public Contract Code section 22035.

[143] Public Contract Code section 22003.

choice.[144] DIR concludes that "any project that does not create a mandate to contract with private parties under both sets of thresholds should not be considered a mandate for subvention purposes."[145]

Staff agrees that there is a choice on the part of the school district to become subject to the UPCCAA. However, staff disagrees with DIR's conclusion that unless the project is required to be contracted under both sets of thresholds it should not be considered a mandate for subvention purposes.

A district choosing the UPCCAA is subject to an entirely different set of bidding and accounting procedures for public projects, as defined, and is required to adopt an informal bidding ordinance for public projects of $125,000 or less.[146] And, where there is a conflict with any other provision of law relative to bidding procedures on public projects, the alternative bidding procedures set forth in the UPCCAA, including the $30,000 threshold, are controlling.[147] Thus, once the election is made, both the state and local UPCCAA rules are in place.

DIR appears to be reading a requirement into the law that is not there. A basic rule of statutory construction requires that a statute be given its plain meaning, and express requirements that the Legislature has not placed in the statute may not by implication be brought into a statute's interpretation.[148] The Legislature has given districts a choice to be subject to the UPCCAA, and a public works project is *either* subject to the labor hour/material cost thresholds, which vary significantly depending on the size of the district and the type of project, *or* the UPCCAA $30,000 project threshold, but not both. In either case, the CPWL program requirements will be triggered at the applicable threshold, and variables from the project itself will determine whether the threshold is reached. A district's decision to fall within the UPCCAA – a decision that may not have anything to do with a particular public project – does not operate as a trigger or a limit to what may be reimbursable. To require the district to apply both sets of thresholds each time it undertakes a project for purposes of determining the point at which subvention is allowed is not consistent with mandates case law or the purpose of article XIII B, section 6. Consequently, staff concludes that the threshold at which a project must be let to contract depends upon the applicable Public Contract Code bidding procedures under which the district operates.

Accordingly, staff finds that the state has required K-12 school districts and community college districts to undertake public works projects to repair or maintain their facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, via contract under the following circumstances:

---

[144] Letter from Anthony Mischel, Attorney At Law, Department of Industrial Relations, April 14, 2008, page 4.

[145] *Ibid.*

[146] Public Contract Code section 22034.

[147] Public Contract Code section 22030.

[148] *In re Rudy L.* (1994) 29 Cal.App.4th 1007, 1011.

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and

    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or

    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000.

2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and

    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or

    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000.

3. For any K-12 school district or community college district that is subject to the UPCCAA, when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.

Thus, repair or maintenance public works projects, but only when contracted for under the circumstances set forth above, are not discretionary. Moreover, since repair and maintenance public works projects were covered by the CPWL prior to 1975, only those CPWL administrative requirements claimed, that were imposed *on or after January 1, 1975*, could be subject to reimbursement.

Do the Test Claim Statutes, Regulations and Alleged Executive Orders Mandate Any Activities When a District is Required to Contract for Repairs or Maintenance of School Buildings or Property?

The next question is whether the plain language of the test claim statutes, regulations or alleged executive orders, on or after January 1, 1975, mandates any activities on K-12 school districts or community college districts when a district is required by law to contract for repair or maintenance public works projects.

A. Determining Prevailing Wage Coverage and Rates

1. Obtain Correct Prevailing Wage Rates – Labor Code Section 1773 and Title 8, California Code of Regulations, Sections 16202 and 16204

Labor Code section 1773 states in relevant part:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall obtain the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality in which the public work is to be performed for each craft, classification, or type of worker needed to execute the contract from the Director of Industrial Relations.

Section 16202 of the regulations states in relevant part:

(a) Awarding body request. The awarding body shall request the Director to make a determination for a particular craft, classification or type of worker not covered by a general determination. Any such request shall be submitted at least 45 days prior to the bid advertisement date.

Section 16204 of the regulations, dealing with effective dates of rate determinations and rates, states in relevant part:

(a)(5) It shall be the responsibility of the awarding body to ensure that the correct determination is used.

The plain language of this regulation requires the awarding body to "ensure" that the correct determination is used. This provision does not impose the activity of ensuring that the Director of Industrial Relations made a correct determination, as claimant asserts; rather it imposes the activity of ensuring that the appropriate wage rates, as determined by Director of Industrial Relations and as obtained by the awarding body, are properly used in the contract.

Thus, the plain language of the statute and regulations cited require the awarding body to obtain both the general prevailing wage rate and any special rates from the Director of Industrial Relations, and ensure that the appropriate rates are used in the contract.

2. Coverage Determinations – Title 8, California Code of Regulations, Section 16001

Section 16001 of the regulations states in relevant part:

(a)(1) Any interested party … *may* file with the Director of Industrial Relations … a request to determine coverage under the prevailing wage laws regarding either a specific project or type of work to be performed which that interested party believes may be subject to or excluded from coverage as a public works under the Labor Code. …

(2) Within 15 days of receipt of a copy of the request for a coverage determination, the awarding body shall forward to the Director … any documents, arguments, or authorities it *wishes* to have considered in the coverage determination process. (Emphasis added.)

Thus, the plain language of this provision shows that an awarding body may, but is not required to, request a coverage determination from the Director of Industrial Relations. The awarding body must provide documentation to the Director by a date certain if it *wishes* to have that documentation considered. Thus, no activities are required of the awarding body by this regulation.

3. Review of Prevailing Wage Rate Determination – Title 8, California Code of Regulations, Section 16302

Section 16302 of the regulations provides that an interested party, including an awarding body, "*may* file with the Director or the Chief of DLSR, within 20 days after commencement of advertising of a call for bids by any awarding body, a petition to review a determination of any rate or rates made by the Director …" (Emphasis added.) Thus, the awarding body is not required to file such a petition, and no activities are required.

4. Appeal of Public Work Coverage Determination – Labor Code Section 1773.4 and Title 8, California Code of Regulations, Section 16002.5

Section 16002.5 of the regulations, as it interprets Labor Code section 1773.4, provides that an interested party, including an awarding body, "*may* appeal to the Director of Industrial Relations ... a determination of coverage under the public works laws ... regarding either a specific project or type of work ..." (Emphasis added.) Thus, the awarding body is not required to make such appeal, and no activities are required.

B. Notices and Reports

1. Statement of Prevailing Wage Rates – Labor Code Section 1773.2

Labor Code section 1773.2 states:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall specify in the call for bids for the contract, and in the bid specifications and in the contract itself, what the general rate of per diem wages is for each craft, classification, or type of worker needed to execute the contract.
>
> In lieu of specifying the rate of wages in the call for bids, and in the bid specifications and in the contract itself, the awarding body may, in the call for bids, bid specifications, and contract, include a statement that copies of the prevailing rate of per diem wages are on file at its principal office, which shall be made available to any interested party on request. The awarding body shall also cause a copy of the determination of the director of the prevailing rate of per diem wages to be posted at each job site.

Labor Code section 1773.2 does impose on the awarding body the activity of providing notice, in either of the fashions set forth.

2. Ineligible Contractors and Subcontractors – Labor Code Section 1777.1 and Title 8, California Code of Regulations, Sections 16800 through 16802.

Labor Code section 1777.1, subdivision (d), requires the Labor Commissioner, not less than semi-annually, to "publish and distribute to awarding bodies a list of contractors who are ineligible to bid on or be awarded a public works contract, or to perform work as a subcontractor on a public works project ..." Sections 16800 through 16802 set forth procedures for the Division of Labor Standards Enforcement to investigate and conduct hearings for debarment of contractors and subcontractors.

The plain language of the test claim statute and regulations does not impose any activities on the awarding body.

3. Notice Regarding Apprenticeship Standards – Labor Code Sections 1773.3 and 1777.5, Subdivision (n)

Labor Code section 1773.3 states:

> An awarding agency whose public works contract falls within the jurisdiction of Section 1777.5 shall, within five days of the award, send a copy of the award to the Division of Apprenticeship Standards. ... Within five days of a finding of any discrepancy regarding the ratio of apprentices

to journeymen, pursuant to the certificated fixed number of apprentices to journeymen, the awarding agency shall notify the Division of Apprenticeship Standards.

Section 1777.5 sets apprenticeship standards. Subdivision (n) states:

> The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. The stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.

The plain language of the test claim statute requires the awarding body, when apprentices will be used in the contract, to include language in the contract regarding apprenticeship requirements and provide a copy of the contract award to the Division of Apprenticeship Standards.

4. Take Cognizance of and Report Suspected Violations – Labor Code Section 1726

Labor Code section 1726 states in relevant part:

> The body awarding the contract for public work shall take cognizance of violations of this chapter committed in the course of the execution of the contract, and shall promptly report any suspected violations to the Labor Commissioner.

Thus, the plain language of this test claim statute requires the awarding body to take cognizance of and report any suspected violations to the Labor Commissioner.

D. Payroll Records – Labor Code Section 1776 and Title 8, California Code of Regulations, Sections 16400 - 16403

Labor Code section 1776 states in relevant part:

> (a) Each contractor and subcontractor shall keep accurate payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work. Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury ...
>
> (b) The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor on the following basis:
>
> (1) A certified copy of an employee's payroll record shall be made available for inspection or furnished to the employee or his or her authorized representative on request.
>
> (2) A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.

(3) A certified copy of all payroll records enumerated in subdivision (a) *shall* be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the body awarding the contract, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. If the requested payroll records have not been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through which the request was made. The public shall not be given access to the records at the principal office of the contractor.

...

(e) Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement *shall* be marked or obliterated to prevent disclosure of an individual's name, address, and social security number. The name and address of the contractor awarded the contract or the subcontractor performing the contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal labor Management Cooperation Act of 1978 ... *shall* be marked or obliterated only to prevent disclosure of an individual's social security number. ...

...

(g) The contractor or subcontractor shall have 10 days in which to comply subsequent to receipt of a written notice requesting the records enumerated in subdivision (a). In the event that the contractor or subcontractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties *shall* be withheld from progress payments then due. A contractor is not subject to a penalty assessment pursuant to this section due to the failure of a subcontractor to comply with this section.

(h) The body awarding the contract *shall* cause to be inserted in the contract stipulations to effectuate this section.

(i) The director shall adopt rules consistent with the California Public Records Act ... and the Information Practices Act of 1977 ... governing the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section. (Emphasis added.)

Section 16400 of the regulations states in relevant part:

> (c) Acknowledgment of Request. The public entity receiving a request for payroll records *shall* acknowledge receipt of such, and indicate the cost of providing the payroll records based on an estimate by the contractor, subcontractor or public entity. The acknowledgment of the receipt of said request for payroll records may be accomplished by the public entity's furnishing a copy of its written correspondence requesting certified copies of the payroll records sent to the specific contractor pursuant to Section 16400(d) below, to the person who requested said records.
>
> (d) Request to Contractor. The request for copies of payroll records by the requesting public entity shall be in any form and/or method which will assure and evidence receipt thereof. The request shall include the following:
>
> (1) Specify the records to be provided and the form upon which the information is to be provided;
>
> (2) Conspicuous notice of the following:
>
> (A) that the person certifying the copies of the payroll records is, if not the contractor, considered as an agent acting on behalf of the contractor; and
>
> (B) that failure to provide certified copies of the records to the requesting public entity within 10 working days of the receipt of the request will subject the contractor to a penalty of twenty-five ($25.00) dollars per calendar day or portion thereof for each worker until strict compliance is effectuated;
>
> (3) Cost of preparation as provided in Section 16402; and
>
> (4) Provide for inspection.
>
> (e) Inspection of Payroll Records. Inspection of the original payroll records at the office of the contractor(s) pursuant to subdivision (b) of Section 1776 of the Labor Code shall be limited to the public entities upon reasonable written or oral notice. (Emphasis added.)

Section 16401 provides that the format for reporting payroll records by the contractor shall be on a form provided by the public entity and that copies of such forms are available at any office of the Division of Labor Standards Enforcement throughout the state. The section also provides specified words for the required certification, but allows the public entity to require a more strict or extensive form of certification.

Section 16402 of the regulations states:

> The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of

cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

Section 16403 of the regulations states:

> (a) Records received from the employing contractor *shall* be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;
>
> (b) copies provided to the public upon written request *shall* be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;
>
> (c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information. (Emphasis added.)

In summary, requests by the public for certified payroll records can only be made through the awarding body, the Division of Labor Standards Enforcement, or the Division of Apprenticeship Standards, and any copies provided to the public shall be redacted to prevent disclosure of an individual's name, address, social security number and other private information. Once the awarding body receives a request for the records from the public, the awarding body is required to send an acknowledgment to the requesting party and indicate to the requestor the costs for preparing the records. The awarding body's request to the contractor for the records must include specified information. The requesting party is required to reimburse the costs of preparing the records by the contractor, subcontractors, and the awarding body or other entity through which the request was made; the regulation establishes those costs, and requires that payment be made by the person seeking the record prior to release of the documents to cover the actual costs of preparation. The regulations further require that the awarding body keep unredacted copies of any such payroll records on file for at least 6 months following completion and acceptance of the project, or longer if the project is disputed. Upon request of the Division of Apprenticeship Standards or the Division of Labor Standards, the awarding body is required to withhold from contractor progress payments any penalties for the contractor's noncompliance. The body awarding the contract is also required to include in the contract stipulations regarding the contractor's requirements regarding payroll records.

With regard to providing certified payroll records to a joint labor-management committee under Labor Code section 1776, subdivision (e), it is unclear from the plain language of the statute whether such records must be provided by the awarding body or if such records may be provided by the contractor, since subdivision (b)(3) states: "The public shall not be given access to the records at the principal office of the contractor."

In interpreting statutes, the primary rule is to ascertain the intent of the Legislature so as to effectuate the purpose of the statute.[149] The first step is to examine the statutory language, giving the words their usual and ordinary meaning.[150] If there is ambiguity, extrinsic sources including legislative history may be used so that the general purpose of the statute is promoted rather than defeated.[151]

In this case, the Legislature enacted statutes to allow a joint labor-management committee the ability to independently enforce prevailing wage requirements under Labor Code section 1771.2.[152] As part of that enactment, section 1776 was modified to address certified payroll records released to a joint labor-management committee. The Senate Rules Committee bill analysis stated:

> This bill provides that a federally recognized joint labor-management committee may obtain a copy of a certified payroll from a *contractor* on a public works project, but with names and social security numbers deleted. If the committee discovers unpaid prevailing wages or fringe benefits due, and related penalties, it may file a civil action to collect them. ...[153] (Emphasis added.)

Thus it is clear from the legislative history that the provisions were intended to allow the joint labor-management committee to obtain certified payroll records directly from the contractor rather than the awarding body.

Therefore, the test claim statutes and regulations require awarding bodies to perform the following activities:

- Upon a request made to the awarding body by the public for payroll records:
  - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
  - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
  - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e), Cal. Code Regs., tit. 8, § 16403, subd. (b));
  - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3)); and
  - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).

[149] *Estate of Griswold* (2001) 25 Cal 4th 904, 910.

[150] *Id.* at 911.

[151] *Ibid.*

[152] Statutes 2001, chapter 804.

[153] Senate Rules Committee, Office of Senate Floor Analyses, Senate Bill No. (SB) 588 Bill Analysis, September 12, 2001, page 2.

- Withhold penalties from contractor progress payments for noncompliance with section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's requirements pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h).)

DIR asserts that withholding penalties from contractor progress payments for certified payroll record violations pursuant to Labor Code section 1776, subdivision (g), is not a mandate because it does not require any action by an awarding body. Instead, DIR argues, the same analysis of Labor Code section 1727 applies here, i.e., where the plain language of the test claim statute *prohibits* the awarding body from disbursing withheld money, no activities are required.

DIR misconstrues the mandate analysis of Labor Code section 1727 in E.2. below. There, the analysis found that the plain language of the statute *does* require the awarding body to engage in the activity of withholding money from contractor payments to satisfy a civil wage and penalty assessment issued by the Labor Commissioner. The plain language of that section also *prohibits* disbursement of such funds to any entity – either the Labor Commissioner or the contractor – until a final order that is no longer subject to judicial review is issued. Thus, the analyses of the two sections are consistent and Labor Code section 1776, subdivision (g), and does in fact mandate the awarding body to withhold penalties from contractor progress payments for noncompliance with section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement.

E. Withholdings

1. Withhold Contract Payments Based on District Determination – Labor Code Section 1726

Labor Code section 1726 states in relevant part that "if the awarding body determines as a result of its own investigation that there has been a violation of this chapter and withholds contract payments, the procedures in Section 1771.6 shall be followed." The plain language of this statute does not require the awarding body to engage in the activity of investigating a potential violation of the chapter.

2. Withhold and Retain Contract Payments to Satisfy Civil Wage and Penalty Assessments – Labor Code Section 1727

Labor Code section 1727 states:

> (a) Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom all amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner under this chapter. The amounts required to satisfy a civil wage and penalty assessment shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.
>
> (b) If the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a subcontractor's violations, the contractor shall, upon the request of the Labor Commissioner, withhold sufficient money due the subcontractor

under the contract to satisfy the assessment and transfer the money to the awarding body. These amounts shall not be disbursed until receipt of a final order that is no longer subject to judicial review.

Thus, the plain language of the statute requires the awarding body to withhold from contractor payments the amount necessary to satisfy a civil wage and penalty assessment issued by the Labor Commissioner, or receive from the contractor any money withheld for such purpose by the contractor from the subcontractor. However, where the plain language of the test claim statute *prohibits* the awarding body from disbursing the withheld money until a final order that is no longer subject to judicial review, no activities are required of the awarding body.

3. Release Withheld Funds – Labor Code Section 1742, Subdivision (f)

Labor Code section 1742, subdivision (f), states in relevant part that "[a]n awarding body that has withheld funds in response to a civil wage and penalty assessment … shall, upon receipt of a certified copy of a final order that is no longer subject to judicial review, promptly transmit the withheld funds … to the Labor Commissioner."

The plain language of this statute requires the activity of releasing funds to the Labor Commissioner upon receipt of the final order.

F. Labor Compliance Program

Claimant pled several activities required of districts when they implement a Labor Compliance Program pursuant to Labor Code section 1771.5.[154] Ordinarily, the prevailing wage requirements are applicable for every public works project that exceeds $1,000.[155] Section 1771.5 states in pertinent part that if an awarding body *elects* to initiate and enforce a Labor Compliance Program, the awarding body can avoid prevailing wage requirements for public works projects of up to $25,000 for construction work or up to $15,000 for alteration, demolition, repair or maintenance work. Section 1771.7 further provides that an awarding body that *chooses* to use funds derived from the Kindergarten-University Public Education Facilities Bond Acts of 2002 and 2004 *shall* initiate and enforce a Labor Compliance Program. Nothing in the plain language of section 1771.5 *requires* the awarding body to elect to initiate or enforce, and therefore undertake any activities related to, a Labor Compliance Program, nor does the plain language of sections 1771.5 or 1771.7 *require* the awarding body to use funds derived from the referenced bond measures. Staff therefore finds there is no "legal" compulsion for K-12 school districts or community colleges to initiate and enforce a Labor Compliance Program.

Absent such legal compulsion, the courts have ruled at times that "practical" compulsion might be found. As noted above, the Supreme Court in *Kern High School Dist.* addressed the issue of "practical" compulsion in the context of a school district that had participated in optional funded programs in which new requirements were imposed. In *Kern,* the court

---

[154] With regard to initiating and enforcing a Labor Compliance Program, claimant pled Labor Code sections 1771.5, 1771.6 and 1771.7, Title 8, California Code of Regulations sections 16425 – 16439 and 17220 – 17221, "AB 1506 Labor Compliance Program Guidebook," "School Facility Program Substantial Progress and Expenditure Audit Guide," and "Antioch Unified School District Labor Compliance Program."

[155] Labor Code section 1771.

determined there was no "practical" compulsion to participate in the underlying programs, since a district that elects to discontinue participation in a program does not face "certain and severe ... penalties" such as "double ... taxation" or other "draconian" consequences.[156]

The Department of General Services, Office of Public School Construction, asserts that the law does not compel a district to obtain funding from the state as a condition of building schools, and school districts may choose to build facilities through the use of district raised funds. Claimant argues that the use of *district* raised funds is not realistic, citing several Education Code provisions which "strictly limit" the district's ability to issue local school bonds and manifest the Legislature's intent that the state should provide financing for school construction. Claimant summarized the argument as follows:

> In summary, the last 60 years of legislative history shows repeated and consistent recognition that school districts are unable to meet the school construction needs of their pupils. The history repeatedly reveals an admission that the education of school children is the primary responsibility of the state. The history of the inability of school districts and the obligation of the state to educate children results in the above recited litany of state money for school construction at low or no interest rates, repayment requirements of less than the amounts apportioned, and repayment terms unavailable anywhere else. Education of children is an obligation and function of the state. Classrooms are required to provide that education. Therefore, building classrooms is a state obligation.[157]

In the foregoing analysis regarding public works projects, however, staff found that the only public works projects mandated by the state are projects the districts undertake for repair and maintenance. Since no compulsion to undertake other types of public works projects was found, the only issue here is whether K-12 school districts and community college districts are compelled to use Kindergarten-University Public Education Facilities Bond Act of 2002 and 2004 funds for repair and maintenance projects, thereby triggering the requirement for the district to implement an LCP. For the reasons stated below, staff finds no such compulsion exists under the test claim statutes, regulations, or alleged executive orders, or under other law or in the record.

Claimant argues that requiring the district to use district-raised funds rather than state funds "results in non-legal compulsion in the form of double taxation which is prohibited by *City of Sacramento v. State of California* (1990) 50 Cal.3d 51, 70-76."[158] That California Supreme Court case dealt with a claim seeking subvention of costs imposed as a result of a state statute which extended federally-mandated coverage of the state's unemployment insurance law to include state and local agencies.[159] The court noted that federal law provides powerful incentives to enactment of unemployment insurance protection by the individual states, i.e., "certified" state programs, and described the current situation as follows:

---

[156] *Kern High School Dist., supra,* 30 Cal.4th 727, 754.

[157] Claimant comments, submitted October 20, 2003, page 10.

[158] *Ibid.*

[159] *City of Sacramento v. State of California, supra,* 50 Cal.3d 51, 51.

> In current form, the Federal Unemployment Tax Act (hereafter FUTA) ... assesses an annual tax upon the gross wages paid by covered private employers nationwide. The tax rate, which has varied over the years, stands at 6.2 percent for calendar year 1990. (Citations omitted.) However, employers in a state with a federally "certified" unemployment insurance program may credit their contributions to the state system against up to 90 percent of the federal tax. ... A "certified" state program also qualifies for federal administrative funds. (Citations omitted.)[160]

One of the questions before the court was whether the new state law, because of the federal incentives for enacting it, was in fact a "federal" mandate.[161] The court ruled that the state statute in question was actually a federal mandate; since the statute was not subject to the tax and spend limitations of articles XIII A and B, the local agency could tax and spend as necessary to meet expenses of the new legislation.[162] The court reasoned that "certain regulatory standards imposed by the federal government under 'cooperative federalism' schemes are coercive on the states and localities in every practical sense,"[163] and provided the following explanation:

> If California failed to conform its plan to new federal requirements as they arose, its businesses faced a new and serious penalty – full, double unemployment taxation by both state and federal governments. Besides constituting an intolerable expense against the state's economy on its face, this double taxation would place California employers at a serious competitive disadvantage against their counterparts in states which remained in federal compliance.
>
> ...
>
> Here, the state simply did what was necessary to avoid certain and severe federal penalties upon its resident businesses. The alternatives were so far beyond the realm of practical reality that they left the state "without discretion" to depart from federal standards. We therefore conclude that the state acted in response to a federal "mandate" for purposes of article XIII B.[164]

Claimant points out that in November of 2002 the voters approved Proposition 47, the Kindergarten-University Public Education Facilities Bond Act of 2002, which allocated more than $8 billion for new construction and more than $3 billion for the modernization of school facilities, which is a state general obligation bond measure to be repaid by taxation levied on all residents of the state, including school district constituents.[165] In response to the Office of

[161] *Id.* at 70.

[162] *Id.* at 76.

[163] *Id.* at 73-74.

[164] *Id.* at 74.

[165] Claimant comments, submitted October 20, 2003, page 14.

Public School Construction's suggestion that a school district has the discretion to build new facilities through the use of district raised funds, claimant argues that any district raised funds "would need to be repaid from taxes raised only from the constituents of that school district."[166] Claimant further argues that since any election to use district funds does not relieve the residents of that district from still paying taxes to reduce the state bonds, the citizens of the district would then be subject to "double taxation."[167] Claimant concludes that the "only reasonable alternative to school districts is to use available Proposition 47 state funds and to enforce a labor compliance program."[168]

Staff disagrees that using local general obligation bonds constitutes the "intolerable expense" of "double taxation" as described by the Supreme Court in *City of Sacramento*, or that school districts have no reasonable alternative to using funds available from Proposition 47 (2002 Kindergarten-University measure) or Proposition 55 (2004 Kindergarten-University measure). In fact, the ballot measure that enacted Proposition 47 states that, in addition to funding from state and local general obligation bonds, school districts also receive significant funds from developer fees and special local bonds known as "Mello-Roos" bonds.[169] The School Facility Program Handbook, which provides assistance to districts in applying for and obtaining these bond funds, notes that additional sources of funds for districts include, in addition to general obligation bonds, proceeds from the sale of surplus property and federal grants.[170] Under the Deferred Maintenance Program, K-12 school districts and community college districts can receive state matching funds, on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components so that the educational process may safely continue.[171] None of these additional sources of funds triggers the requirement to initiate and establish an LCP.

Moreover, the purposes for the 2002 and 2004 bond measures, as stated in the ballot materials, were to provide funds for K-12 school districts to buy land, construct new buildings, reconstruct or modernize existing buildings, provide relief for critically overcrowded schools, and construct buildings for joint use; and for community college districts, the funds were intended to construct new buildings and related infrastructure, alter existing buildings, and purchase equipment for use in these buildings.[172]

[171] Education Code sections 17582 – 17588 and 84660 et seq.; Deferred Maintenance Program Handbook, A guide to assist school districts in applying for and obtaining "grant" funds for the purposes of performing deferred maintenance work on school facilities, prepared by the Office of Public School Construction, June 2007, page 1.

[172] Official Voter Information Guide, General Election, Tuesday, November 5, 2002, Proposition 47, Analysis by the Legislative Analyst, page 2; Official Voter Information Guide,

Thus, although some of the 2002 and 2004 bond funds will likely be used for repairs, that was not their primary purpose. Furthermore, as noted above, K-12 school districts and community college districts have several funding alternatives to accomplish repair and maintenance. The Supreme Court in *Kern* stated that school districts, in the exercise of their discretion, will make the choices that are ultimately the most beneficial for the district:

> As to each of the optional funded programs here at issue, school districts are, and have been, free to decide whether to (i) continue to participate and receive program funding, even though the school district also must incur program-related costs associated with the [new] requirements or (ii) decline to participate in the funded program. Presumably, a school district will continue to participate only if it determines that the best interests of the district and its students are served by participation – in other words, if, *on balance*, the funded program, even with strings attached, is deemed beneficial. And, presumably, a school district will decline participation if and when it determines that the costs of program compliance outweigh the funding benefits. (Emphasis in original.)[173]

Therefore, staff finds there is no evidence in the record or in law to demonstrate that districts are legally or practically compelled to use Kindergarten-University Public Education Facilities Bond Act of 2002 or 2004 funds to undertake repair or maintenance public works projects. Since none of the activities that flow from implementation of an LCP pursuant to the test claim statutes, regulations or alleged executive orders[174] have been triggered by a state-mandated requirement, none of those statutes, regulations or alleged executive orders are subject to article XIII B, section 6.

G. Hearings and Court Proceedings

Claimant pled several activities related to a new administrative hearing process pursuant to Labor Code sections 1742 and 1742.1 and Title 8, California Code of Regulations, sections 16413 and 17220, et seq. This new process was established for contractors and subcontractors to obtain review of civil wage and penalty assessments issued by the Labor Commissioner, or decisions of the awarding body to withhold contract payments when enforcing under a Labor Compliance Program pursuant to Labor Code section 1771.5, or under Labor Code section 1726.

Labor Code section 1742 states in relevant part:

> (a) An affected contractor or subcontractor may obtain review of a civil wage and penalty assessment under this chapter by transmitting a written request to the office of the Labor Commissioner that appears on the

---

California Primary Election, Tuesday, March 2, 2004, Proposition 55, Analysis by the Legislative Analyst, page 6.

[173] *Kern High School Dist., supra,* 30 Cal. 4th 727, 753.

[174] Labor Code sections 1771.5, 1771.6 and 1771.7, Title 8, California Code of Regulations sections 16425 – 16439 and 17220 – 17221, "AB 1506 Labor Compliance Program Guidebook," "School Facility Program Substantial Progress and Expenditure Audit Guide," and "Antioch Unified School District Labor Compliance Program."

assessment within 60 days after service of the assessment. If no hearing is requested within 60 days after service of the assessment, the assessment shall become final.

(b)(1) Upon receipt of a timely request, a hearing shall be commenced within 90 days before an administrative law judge ... The contractor or subcontractor shall be provided an opportunity to review evidence to be utilized by the Labor Commissioner at the hearing within 20 days of the receipt of the written request for a hearing. Any evidence obtained by the Labor Commissioner subsequent to the 20-day cutoff shall be promptly disclosed to the contractor or subcontractor.

(2) The contractor or subcontractor shall have the burden of proving that the basis for the civil wage and penalty assessment is incorrect. The assessment shall be sufficiently detailed to provide fair notice to the contractor or subcontractor of the issues at the hearing.

(3) Within 45 days of the conclusion of the hearing, the administrative law judge shall issue a written decision affirming, modifying, or dismissing the assessment. The decision of the administrative law judge shall consist of a notice of findings, findings, and an order. This decision shall be served on all parties and the awarding body pursuant to Section 1013 of the Code of Civil Procedure by first-class mail at the last known address of the party on file with the Labor Commissioner. Within 15 days of the issuance of the decision, the administrative law judge may reconsider or modify the decision to correct an error except that a clerical error may be corrected at any time.

(4) The Director of Industrial Relations shall adopt regulations setting forth procedures for hearings under this subdivision.

(c) An affected contractor or subcontractor may obtain review of the decision of the administrative law judge by filing a petition for a writ of mandate to the appropriate superior court pursuant to Section 1094.5 of the Code of Civil Procedure within 45 days after service of the decision. If no petition for writ of mandate is filed within 45 days after service of the decision, the order shall become final. If it is claimed in a petition for writ of mandate that the findings are not supported by the evidence, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record.

(d) A certified copy of a final order may be filed by the Labor Commissioner in the office of the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the filing, shall enter judgment for the state against the person assessed in the amount shown on the certified order.

(e) A judgment entered pursuant to this section shall bear the same rate of interest and shall have the same effect as other judgments and shall be

given the same preference allowed by law on other judgments rendered for claims for taxes. The clerk shall not charge for the service performed by him or her pursuant to this section.

...

(g) This section shall provide the exclusive method for review of a civil wage and penalty assessment by the Labor Commissioner under this chapter or the decision of an awarding body to withhold contract payments pursuant to Section 1771.5.

...

Section 16413 of the regulations further establishes procedures for a contractor or subcontractor to follow when requesting a hearing under Labor Code section 1742.

Labor Code section 1742.1 requires the Labor Commissioner to afford the affected contractor or subcontractor, upon his or her request, to meet with the Labor Commissioner to attempt to settle the dispute without the need for formal proceedings. The section further states in relevant part:

> The awarding body shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a notice of withholding under subdivision (a) of Section 1771.6 [i.e., under a Labor Compliance Program], afford the contractor or subcontractor the opportunity to meet with the designee of the awarding body to attempt to settle a dispute regarding the notice without the need for formal proceedings. ...

Sections 17220 et seq. of the regulations set forth procedures for an awarding body to follow when enforcing under a Labor Compliance Program pursuant to Labor Code section 1771.6.

The plain language of Labor Code sections 1742 and 1742.1, and the regulations cited, does not require awarding bodies to engage in any hearing activities, respond to writs of mandate, or participate in settlement meetings, unless the awarding body is voluntarily exercising enforcement authority under Labor Code section 1726 or 1771.5.[175] As noted above, Labor Code section 1726 *does not* require an awarding body to investigate potential violations of the chapter, nor does Labor Code section 1771.5 require an awarding body to initiate and enforce a Labor Compliance Program. Since both of these underlying activities are discretionary, Labor Code sections 1742 and 1742.1, and sections 16413 and 17220 et seq. of the regulations, do not mandate any activities on the awarding body.

Labor Code section 1771.2 allows a joint labor-management committee, established pursuant to federal law, to bring an action in court against an employer, i.e., a contractor or subcontractor, that fails to pay the prevailing wage to its employees as required. Nothing in that statute requires the awarding body to appear or participate in legal proceedings from such action by the joint labor-management committee. Thus, Labor Code section 1771.2 does not mandate any activities on the awarding body.

---

[175] Labor Code section 1771.6, Title 8, California Code of Regulations, section 17202, subdivision (c).

Summary of Required Activities

Therefore, staff finds only the following activities are required by the plain language of the test claim statutes and regulations:

- Obtain both the general prevailing wage rate and any special rates from the Director of Industrial Relations, and ensure that the appropriate rates are used in the contract. (Lab. Code, § 1773, tit. 8, Cal. Code Regs., §§ 16202 & 16204.)
- Include a statement of prevailing rates of per diem wages in the call and advertisement for bids, the bid specifications, and in the public works contract itself, or, in lieu of those requirements, the district may include in the call for bids, bid specifications, and the contract itself a statement to the effect that copies of the prevailing rate of wages are on file in the awarding body's principal office, and in that case the district must post the statement at all job sites. (Lab. Code, § 1773.2.)
- Provide a copy of the contract award to the Division of Apprenticeship Standards, when apprentices will be used in the contract, and include language in the contract regarding apprenticeship requirements. (Lab. Code, §§ 1773.3 & 1777.5, subd. (n).)
- Take cognizance of violations of the prevailing wage laws in the course of the execution of the contract, and report any suspected violations to the Labor Commissioner. (Lab. Code, § 1726.)
- Regarding certified payroll records, perform the following activities:
    - Upon a request made to the awarding body by the public for payroll records:
        - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
        - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
        - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e), Cal. Code Regs., tit. 8, § 16403, subd. (b))
        - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3)); and
        - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).
    - Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g).)
    - Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h).).

- Withhold amounts necessary to satisfy Civil Wage and Penalty Assessments issued by the Labor Commissioner and receive from the contractor any money withheld for such purpose by the contractor from the subcontractor. (Lab. Code, § 1727.)
- Transmit funds withheld in response to a civil wage and penalty assessment to the Labor Commissioner upon receipt of a certified copy of a final order that is no longer subject to judicial review. (Lab. Code, § 1742, subd. (f))

Staff further finds that these activities are only mandated by the state for repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or
    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000.
2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and
    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or
    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000.
3. For any K-12 school district or community college district that is subject to the UPCCAA, when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.

Issue 2: Do the test claim statutes or regulations impose a "new program or higher level of service" within the meaning of article XIII B, section 6 of the California Constitution?

A "new program or higher level of service" is imposed when the mandated activities: a) are new in comparison with the pre-existing scheme; *and* b) result in an increase in the actual level or quality of governmental services provided by the district.[176] To make this determination, the mandated activities must be compared with the legal requirements in effect immediately before the enactment of the test claim statutes or regulations.

[176] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 877; *Lucia Mar, supra*, 44 Cal.3d 830, 835.

Obtain Prevailing Wage Rate (Lab. Code, § 1773, Cal. Code Regs, tit. 8, §§ 16202 & 16204)

The statute and regulations require the awarding body to obtain both the general prevailing wage rate and any special rates from the Director of Industrial Relations, and ensure that the appropriate rates are used in the contract.

Prior to 1975, Labor Code section 1773 stated in relevant part:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall *ascertain* the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality in which the public work is to be performed for each craft, classification or type of workman needed to execute the contract. ...
>
> In determining such rates, the *awarding body* shall ascertain and consider the applicable wage rates established by collective bargaining agreements and such rates as may have been predetermined for federal public works, within the locality and in the nearest labor market area. Where such rates do not constitute the rates actually prevailing in the locality, the *awarding body* shall obtain and consider further data from the labor organizations and employers or employer associations concerned, including the recognized collective bargaining representatives for the particular craft, classification or type of work involved. The rate fixed for each craft, classification or type of work shall be not less than the prevailing rate paid in such craft, classification or type of work.
>
> If the *awarding body* determines that the rate of prevailing wage for any craft, classification or type of workman is the rate established by a collective bargaining agreement, the *awarding body* may adopt such rate by reference as provided for in such agreement and such determination shall be effective for the life of such agreement or until the *awarding body* determines that another rate should be adopted. (Emphasis added.)[177]

The Department of Industrial Relations explains how this pre-existing process worked:

> Labor Code section 1773 required the local agency to consider the "rates established by collective bargaining agreements and such rates as may have been predetermined for federal public works." [Citations.] If these two mandatory sources of information were insufficient to determine the rate actually prevailing, local agencies had to "obtain and consider further data from the labor organizations and employers or employer associations concerned." *Id.* Local agencies had to obtain further information on what rates to pay each craft for overtime and holiday work, depending on which collective bargaining agreement, if any, applied.[178]

In this pre-existing law, the burden was on the awarding body to ascertain and determine the prevailing wage rates for public works projects.

---

[177] Statutes 1971, chapter 785.

[178] Department of Industrial Relations comments, submitted January 15, 2003, page 9.

Labor Code section 1773 now requires the awarding body to "obtain" the general prevailing rate of per diem wages from the Director of Industrial Relations.[179] Section 16202 of the regulations requires the awarding body to request the Director to make a determination for a particular craft, classification or type of worker not covered by a general determination.

Thus, the test claim statute and regulation shifted this responsibility for ascertaining and determining prevailing wage rates *from* the awarding body *to* the Director of Industrial Relations. The Department of Industrial Relations explains the current process as follows:

> Currently, the Director performs this arduous task of determining what are prevailing wages. [Citations.] The definition of prevailing wages has not changed substantially since prior to 1975, including the requirement that the wages be set for each local geographic area. The Director, through the Division of Labor Statistics and Research ("DLSR") publishes general prevailing wage determinations twice each year for each craft or trade, by county. [Citations.] In addition, DLSR provides special determinations when requested. [Citations.] This work costs the Department approximately $2,071,082.39 per year, based on the prior two and a half fiscal years. [Citations.] This is work local agencies no longer do. Instead, local agencies are required simply to check the most recent determination before advertising a request for bids.

With regard to the obligation to "ensure" that the correct rate is used, the Department states:

> Prior to 1975, when local agencies determined local prevailing wages, the duty to obtain the correct prevailing wage was subsumed in the requirement that agencies ensure they were using the correct rate. However, any interested party could request review of the local agency's determination, and the local agency then had to justify its determination. [Citations.]
>
> In exchange for the Director's making rate determinations, local agencies now obtain the correct prevailing wages from the Director. [Citations.] This task no longer requires local agencies to do the actual investigations, surveys, and calculation ("determination") of the prevailing wage. That is, while the local agencies assume the burden of sending a letter, making a phone call, or checking the Department's website, this writing, sending or calling is substantially less expensive than was their prior obligation to investigate and calculate prevailing wages for each craft or trade on public works projects. ...[180]

The Supreme Court has stated that a reimbursable "higher level of service" must result in an increase in the actual level or quality of governmental services provided.[181] Here that has not occurred. Rather, the test claim statute accomplishes a shift of responsibility *from* school

---

[179] Statutes 1976, chapter 281.

[180] *Id.* at page 10.

[181] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 877; *Lucia Mar, supra*, 44 Cal.3d 830, 835.

districts *to* the state. And, although the district is left with the responsibility for obtaining the prevailing wage rates from the state and continuing to ensure that the proper rate is used in the contract, this result constitutes not a higher level of service but a lower level of service on the part of the district.[182]

Based on the foregoing, staff finds Labor Code section 1773 and sections 16202 and 16204, mandating the activity of obtaining the prevailing wage rates from the Department of Industrial Relations and ensuring the proper rate is used in the contract, do not impose a new program or higher level of service on school districts.

Statement of Prevailing Wages (Lab. Code, § 1773.2)

The statute requires the awarding body to include a statement of prevailing rates of per diem wages in the call and advertisement for bids, the bid specifications, and in the public works contract itself, or, in lieu of those requirements, the awarding body may include in the call for bids, bid specifications, and the contract itself a statement to the effect that copies of the prevailing rate of wages are on file in the awarding body's principal office, and in that case must post the statement at all job sites.

Prior to 1975, Labor Code section 1773.2 stated:

> The body awarding any contract for public work, or otherwise undertaking any public work, shall specify in the call for bids for the contract, and in the bid specifications and in the contract itself, what the general rate of per diem wages is for each craft, classification or type of workman needed to execute the contract.
>
> In lieu of specifying the rate of wages in the call for bids, and in the bid specifications and in the contract itself, the awarding body may refer to copies thereof on file at its principal office, which shall be made available to any interested party on request. In the event that the awarding body chooses to refer to a copy of the prevailing rate of per diem wages on file at its principal office, in lieu of specifying them in each call for bids, and in the bid specifications and in the contract itself, the awarding body shall publish its determination of the prevailing rate of wages at least one time in a newspaper of general circulation during each year, and in such event, the awarding body shall cause a copy thereof to be posted at each jobsite.[183]

In the 1977 test claim statute, section 1773.2 was amended *solely* to remove the requirement that the awarding body publish prevailing wage rate determinations in the newspaper each year

---

[182] See also Government Code section 17517.5, which states:

> "Cost savings authorized by the state" means any decreased costs that a local agency or school district realizes as a result of any statute enacted or any executive order adopted that permits or requires the discontinuance of or a reduction in the level of service of an existing program that was mandated before January 1, 1975.

[183] Statutes 1974, chapter 876.

when the awarding body chooses the option of referring to a copy of the prevailing wage rates on file at its principal office.[184]

A reimbursable "higher level of service" must result in an increase in the actual level or quality of governmental services provided. Here, that has not occurred. Instead, the burden on school districts has been lessened by removing the requirement to annually publish their prevailing wage rates in the newspaper under specified circumstances. This result constitutes not a higher level of service but a lower level of service.[185] Therefore, staff finds Labor Code section 1773.2 does not impose a new program or higher level of service on school districts.

Certified Payroll Records (Lab. Code, § 1776, subdivisions (b), (e), (g) & (h), Cal. Code Regs., tit. 8, §§ 16400 & 16403)

The statute and regulations require the awarding body to perform the following activities:

- Upon a request made to the awarding body by the public for payroll records:
  - send an acknowledgment to the requestor including the costs to be paid for preparing the records;
  - obtain certified payroll records from the contractor, including specified information in the request;
  - mark or obliterate the records to prevent disclosure of an individual's private information;
  - provide copies of the records to the requestor; and
  - retain copies of the records for at least 6 months.
- Withhold penalties from contractor progress payments for noncompliance with Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement.
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776.

Prior to 1975, Labor Code section 1776 stated:

> Every contractor and subcontractor shall keep an accurate record showing the name, occupation, and the actual per diem wages paid to each workman employed by him in connection with the public work. The record shall be kept open at all reasonable hours to the inspection of the body awarding the contract and to the Division of Labor Law Enforcement.[186]

The test claim statutes modified Labor Code section 1776 as follows:

1. *Statutes 1976, Chapter 599* – The contractor's and subcontractor's payroll records were required to be available for inspection at all reasonable hours, and a copy had to

[184] Statutes 1977, chapter 423.

[185] See also Government Code section 17517.5.

[186] Statutes 1949, chapter 127.

be made available to the employee or his authorized representative, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards. After a complaint was filed with the awarding body or the Division of Labor Standards Enforcement alleging that a contractor or subcontractor paid less than the prevailing wage on a public works project, the contractor or subcontractor was required upon written notice from either the awarding body or the Division of Labor Standards Enforcement within 10 days to file with the awarding body a certified copy of the payroll records. The awarding body could charge a reasonable fee for copying such records, and the awarding body was required to retain such records for 90 days after completion of the contract.

2. *Statutes 1978, Chapter 1249* – The requirement on the awarding body to retain copies of payroll records for 90 days after completion of the contract was removed. The payroll records were required to be certified.[187] Upon request, the contractor was required to furnish certified copies of payroll records to, among other entities, the awarding body.[188] A certified copy of the payroll records was required to be made available to the public, provided the request was made through either the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement; the public could not be given access to such records by the contractor.[189] Any copy of certified payroll records made available to the public or any public agency by the awarding body, the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement was required to be marked or obliterated to prevent disclosure of an individual's name, address and social security number.[190] In the event of non-compliance with these requirements, the contractor had 10 days in which to comply after written notice specifying in what respects the contractor had to comply; when non-compliance was evident after the 10-day period, the contractor was required to pay an administrative penalty to the state or political subdivision on whose behalf the contract was made of $25 for each calendar day, or portion thereof, for each worker, until strict compliance was effectuated, and upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, the penalties were required to be withheld from progress payments then due.[191] The awarding body was required to have inserted in the contract stipulations to effectuate these provisions.[192] The Director of the Department of Industrial Relations was required to adopt rules consistent with the California Public Records Act and the Information Practices Act of 1977 governing release of such records including the

[187] Labor Code section 1776, subdivision (b).

[188] Labor Code section 1776, subdivision (b)(2).

[189] Labor Code section 1776, subdivision (b)(3).

[190] Labor Code section 1776, subdivision (d).

[191] Labor Code section 1776, subdivision (f).

[192] Labor Code section 1776, subdivision (g).

establishment of reasonable fees to be charged for reproducing copies of such records.[193]

3. *Statutes 1983, Chapter 681* – Subdivision (b)(3) was amended to require that when requested certified payroll records were not provided, the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through which the request was made.

4. *Statutes 2001, Chapter 804* – Subdivision (e) was amended to require that any copies of payroll records made available for inspection by or furnished to a joint labor-management committee shall be obliterated to prevent disclosure of an individual's name and social security number until January 1, 2003; thereafter any such records provided to a joint labor-management committee shall be obliterated only to prevent disclosure of an individual's social security number.[194]

Title 8, California Code of Regulations, sections 16400 through 16403 of the regulations were added to:

1. require the awarding body to acknowledge a request for payroll records to the requestor, and provide the costs the requestor must pay for the awarding body and contractor to prepare the records;
2. specify the information required in a request to the contractor for the records;
3. establish fees to be charged for preparing and reproducing the records; and
4. require the awarding body to keep unredacted copies of requested payroll records for at least 6 months following completion and acceptance of the project. These requirements are new in comparison to the preexisting law.

The Department of Industrial Relations states that the test claim statutes modifying Labor Code section 1776 did not significantly change any awarding body requirement:

> Prior to 1975, there was no provision for local agencies to obtain or copy [Certified Payroll Records]. Since local agencies did their own enforcement, however, they routinely obtained them. ... Before 1975, the Public Records Act made such information disclosable on demand from the public. See Government Code §§ 6252 ["Local agency" includes school district], 6252 (d) [definition of public record]. The post 1975 amendments to § 1776 did not change local agencies' pre-existing requirements to provide copies of public records (including payroll records) to the public. ...

---

[193] Labor Code section 1776, subdivision (h).

[194] However, legislation enacted in 2003, effective January 1, 2004 (Stats. 2003, ch. 62), modified this provision to require that records provided to a joint labor-management committee be marked or obliterated to prevent disclosure of an individual's name and social security number. That statute was not pled in the test claim and thus staff makes no finding with regard to it.

> Labor Code § 1776 did not change any local agency requirement in any meaningful way. Test Claimant claims that there is a new mandate because local agencies now have to make copies of the [Certified Payroll Records] on request by members of the public and obliterate certain personal information. First, the requirement to obliterate personal information is not necessarily with the local agency. Labor Code § 1776(e) merely requires that the copy provided to the public by DLSE or the local agency "be obliterated," which can be done by the private contractor. ... [195]

Staff disagrees with the Department. The pre-existing statute did not provide for the awarding body to *obtain a copy* of the payroll records, merely the ability to inspect them. The California Public Records Act[196] provides public access only to writings that are in the *possession* of state or local agencies.[197] Consequently, there was no pre-existing duty on the district to provide public access to the records. The fact that such copies were routinely obtained by the awarding body in the course of enforcing the CPWL does not change the duties imposed by the previous statute, which plainly did not require the awarding body to obtain the records on behalf of the public or make the specified redactions. Moreover, Government Code section 17565 provides that if a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the school district for those costs incurred after the operative date of the mandate. Additionally, although it is true that personal information could be "obliterated" by the contractor, the test claim statutes require the awarding body to provide the record to the public, in a form that prevents disclosure of individual information. Therefore, staff finds it is the awarding body's responsibility to mark or obliterate the record to prevent disclosure of individual information.

The DIR also states that the requirement to withhold contract payments for violations of Labor Code section 1776 pursuant to subdivision (g) of that section is not new because the obligation already was subsumed in Labor Code section 1727, which at that time required "the awarding body shall withhold and retain therefrom all amounts which have been forfeited pursuant to ... the terms of this chapter," and Labor Code section 1776, subdivision (g), is part of the same chapter as section 1727.[198] However, the provisions of subdivision (g) require withholding of contractor progress payments for *administrative penalties assessed for violations of section 1776* – i.e., failure to provide certified payroll records – upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. There was no pre-existing provision in law to assess and withhold administrative penalties for payroll record violations. Therefore, the requirements are new in comparison to the pre-existing general references to the chapter.

---

[195] Department of Industrial Relations comments, submitted January 15, 2003, pages 14-15.

[196] Government Code section 6250 et seq.

[197] Government Code section 6252, subdivision (e); "public records" includes any writing containing information relating to the conduct of the public's business prepared, owned, used or retained by any state or local agency regardless of physical form or characteristics.

[198] Department of Industrial Relations comments, submitted April 14, 2008, pages 3-4.

Thus, there are new requirements of school districts as awarding bodies that were not required under pre-existing law:

- Perform the following activities upon a request by the public for payroll records:
  - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
  - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
  - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e) (as amended by Stats. 1978, ch. 1249 and Stats. 2001, ch. 804); Cal. Code Regs., tit. 8, § 16403, subd. (b))
  - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3) (as amended by Stats. 1978, ch. 1249)); and
  - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).
- Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g) (as amended by Stats. 1978, ch. 1249)).
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776 (Lab. Code, § 1776, subd. (h) (as amended by Stats. 1978, ch. 1249)).

These new requirements do provide a higher level of service to the public since the public now has access to certified payroll records through the awarding body, and the individual employee's rights to privacy are protected by the awarding body obliterating certain information. Withholding penalties from progress payments helps enforce the law to ultimately ensure contractors' cooperation. Moreover, placing stipulations in the contract provides notice to the contractor of his or her requirements before the contract is signed. And finally, the amendments adding these new requirements in 1978 and 2001 were not associated with other shifts of responsibility from awarding bodies to the state for making prevailing wage rate determinations under Labor Code sections 1770 and 1773 (Stats. 1976, ch. 281) and enforcing the CPWL under Labor Code sections 1726, 1727, and 1741 (Stats. 2000, ch. 954). Thus, in every sense the requirements impose an increased level of service.

DIR asserts that retaining copies of certified payroll records for at least 6 months and inserting a clause in public works contract pursuant to Labor Code section 1776, subdivision (h), at most result in negligible increases in levels of service, and should be considered de minimis under the analysis in *Kern High School District*. While staff does not disagree that the increased levels of service may be small, there is nothing in *Kern* or other mandates case law to support denial of the claim based on a finding that the newly mandated activities result in only a de minimis increase in the level of service.

Although the Supreme Court in *Kern* found that newly mandated notice and agenda costs were modest, the determination that such costs were not reimbursable was based on the fact that the underlying program was completely funded by the state and there was nothing in the record to

show that such administrative costs could not be paid for from state funds already provided, rather than the fact that there was only a de minimis increase in the level of service. [199]

In *San Diego Unified School District*, the Supreme Court addressed another narrowly drawn situation where there was a de minimis increase in the level of service. There, school districts were seeking reimbursement for activities that exceeded federal due process requirements in relation to discretionary school expulsions.[200] The court denied the claim based on another case, *County of Los Angeles v. Commission on State Mandates* (1995) 32 Cal.App.4th 805, which had found that procedural requirements enacted to comply with a general federal mandate, which were reasonably articulated to make the underlying federal right enforceable and to set forth necessary procedural details, and which did not significantly increase the cost of compliance with the federal mandate, were not reimbursable. The *San Diego Unified* court likewise held that:

> [F]or purposes of ruling upon a request for reimbursement, challenged state rules or procedures that are intended to implement an applicable federal law – and whose costs are, in context, de minimis – should be treated as part and parcel of the underlying federal mandate. [201]

Here, the prevailing wage requirements are not intended to implement a federal law and cannot be likened to the *San Diego Unified* circumstances. Thus, neither *San Diego Unified* nor *County of Los Angeles* is applicable.

DIR also asserts that "[s]egregating the minimal costs to retain records for the purpose of subvention creates a further dilemma" since the awarding body must separate the costs of retaining payroll records from countless other documents it retains.[202] DIR further asserts that [i]f *de minimis* has any meaning, it has to include some balance of the relative costs of subvention versus the administrative cost to the local agencies to track the alleged mandate's costs."[203] However, beyond requiring the claimant to assert a minimum amount for test claims and for actual reimbursement claims,[204] the mandates process does not provide for such a balancing test.

Staff therefore finds that the new requirements imposed on school districts as awarding bodies for handling certified payroll records and modifying contract language constitute a new program or higher level of service within the meaning of article XIII B, section 6.

[203] *Ibid.*

[204] Government Code section 17564 sets the minimum for test claims and reimbursement claims at $1,000.

Apprenticeship Requirements (Lab. Code, §§ 1773.3 & 1777.5, subd. (n))

The statutes require the awarding body to provide a copy of the contract award to the Division of Apprenticeship Standards when apprentices will be used in the contract, and include language in the contract regarding apprenticeship requirements.

Prior to 1975, Labor Code section 3098 stated:

> An awarding agency whose public works contract falls within the jurisdiction of Section 1777.5 shall, within five days of the award, send a copy of the award to the Division of Apprenticeship Standards. ... Within five days of a finding of any discrepancy regarding the ratio of apprentices to journeymen, pursuant to the certificated fixed number of apprentices to journeymen, the awarding agency shall notify the Division of Apprenticeship Standards.[205]

Section 3098 was renumbered to section 1773.3 in Statutes 1978, chapter 1249, with substantially the same language. Therefore, the requirements existed prior to 1975 and no new program or higher level of service is imposed.

Prior to 1975, Labor Code section 1777.5 stated in relevant part:

> The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. Such stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.[206]

This exact language was ultimately renumbered to subdivision (n) in Statutes 1999, chapter 903. Therefore, the requirements existed prior to 1975 and no new program or higher level of service is imposed.

Take Cognizance of and Report Suspected Violations (Lab. Code, § 1726), Withhold Funds for Civil Wage and Penalty Assessments (Lab. Code, § 1727), and Transmit Funds to Labor Commissioner (Lab. Code, § 1742, subd. (f))

These statutes require the awarding body to: 1) take cognizance of violations of the prevailing wage laws in the course of the execution of the contract, and report any suspected violations to the Labor Commissioner; 2) withhold any amounts necessary to satisfy a Civil Wage and Penalty Assessment issued by the Labor Commissioner and receive from the contractor any money withheld for such purpose by the contractor from the subcontractor; and 3) transmit funds withheld in response to a civil wage and penalty assessment to the Labor Commissioner upon receipt of a certified copy of a final order that is no longer subject to judicial review.

With regard to the awarding body's role in reporting CPWL violations, prior to 1975, Labor Code section 1726 stated:

---

[205] Statutes 1974, chapter 1095.

[206] Statutes 1974, chapter 965.

> The body awarding the contract for public work shall take cognizance of violations of the provisions of this chapter committed in the course of the execution of the contract.[207]

The test claim statute, Statutes 2000, chapter 954, modified section 1726 to state in relevant part:

> The body awarding the contract for public work shall take cognizance of violations of the provisions of this chapter committed in the course of execution of the contract, and *shall promptly report* any suspected violations to the Labor Commissioner. (Emphasis added.)

Thus, there was a pre-existing requirement for awarding bodies to "take cognizance" of violations, and this requirement does not impose a new program or higher level of service. There is, however, a new requirement to "report" suspected violations to the Labor Commissioner.

With regard to withholding funds from contractor payments for CPWL violations, prior to 1975, Labor Code section 1727 stated:

> Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom all amounts which have been forfeited pursuant to any stipulation in a contract for public work, and the terms of this chapter. But no sum shall be withheld, retained or forfeited, except from the final payment, without a full investigation by either the Division of Labor Law Enforcement or by the awarding body.[208]

The test claim statute, Statutes 2000, chapter 954, modified section 1727, which states:

> (a) Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom any amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner under this chapter. The amounts required to satisfy a civil wage and penalty assessment shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.
>
> (b) If the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a subcontractor's violations, the contractor shall, upon the request of the Labor Commissioner, withhold sufficient money due the subcontractor under the contract to satisfy the assessment and transfer the money to the awarding body. These amounts shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.

---

[207] Statutes 1937, chapter 90.

[208] Statutes 1945, chapter 1431.

Thus, the only change in the awarding body's responsibility is to now withhold amounts required to satisfy a civil wage and penalty assessment made by the Labor Commissioner, rather than the previous requirement to withhold amounts forfeited pursuant to a stipulation in the contract or for other violations of the CPWL, once a full investigation was conducted by the Division of Labor Law Enforcement or by the awarding body.

In the same test claim statute, Statutes 2000, chapter 954, Labor Code section 1742 was added to provide a hearing procedure for contractors or subcontractors to appeal a civil wage and penalty assessment. Subdivision (f) of that section requires an awarding body that has withheld funds in response to a civil wage and penalty assessment to transmit the withheld funds to the Labor Commissioner, upon receipt of a certified copy of a final order that is no longer subject to judicial review.

The Department of Industrial Relations argues that these are not new requirements, explaining the historical and current processes as follows:

> Prior to 1975, local agencies were required both to "take cognizance" of violations and to withhold funds owed to contractors for prevailing wage violations. Labor Code §§ 1726, 1727. If there were insufficient funds available for withholding, then local agencies notified the Labor Commissioner of the violation. The local agency, with the Labor Commissioner's assistance filed civil lawsuits against the offending contractors. *Id.*
>
> This obligation to report violations to the Labor Commissioner has not changed. Enforcement of prevailing wage violations was removed from local agencies as of 2001, Stats. 2000, ch. 954. In exchange for this reduction in work for local agencies, the [L]egislature added a reporting responsibility. ...
>
> Prior to 1975, local agencies withheld funds owed contractors for prevailing wage violations. Labor Code § 1727. This obligation did not change after 1975. In 2000, as part of the overall change in enforcement, private contractors had to withhold funds from offending subcontractors if the local agency had not withheld sufficient funds. The local agency had no role in this process. [Citations.]
>
> ... [T]he Labor Commissioner did not issue citations against contractors prior to 1975. Local agencies did the bulk of the enforcement.
>
> Currently, the Labor Commissioner does all the enforcement work, and local agencies do no more than withhold funds when the Labor Commissioner informs them of violations. This is identical to local agencies' historic responsibility to "take cognizance" of violations and withhold payments.[209]

Under the previous process, the awarding body would take cognizance of CPWL violations pursuant to Labor Code section 1726, do its own investigations and enforcement, and withhold any penalties from contractor payments pursuant to Labor Code section 1727, seeking

[209] Department of Industrial Relations comments, submitted January 15, 2003, pages 16-17.

assistance from the Labor Commissioner as needed. Currently, according to the Department of Industrial Relations, the Labor Commissioner does all the enforcement work, unless the awarding body enforces the CPWL violations by voluntarily establishing a Labor Compliance Program. Thus, the test claim statutes have shifted primary enforcement of the CPWL from local agencies to the state, leaving awarding bodies the option to implement a Labor Compliance Program. In addition, there is no substantive change in the requirement that awarding bodies withhold funds from contractors for CPWL violations; the triggering mechanism is now a civil wage and penalty assessment issued by the Labor Commissioner rather than the completion of an investigation by the Division of Labor Law Enforcement or by the awarding body.

The Supreme Court has stated that a reimbursable "higher level of service" must result in an increase in the actual level or quality of governmental services provided.[210] Here that has not occurred. Rather, the test claim statute accomplishes a shift of responsibility *from* school districts *to* the state with regard to enforcement of the CPWL. And, although the district is left with some minor responsibility for reporting suspected violations of the CPWL to the Labor Commissioner and transmitting withheld funds at the appropriate time, this result constitutes not a higher level of service but a lower level of service.[211] With regard to withholding funds from contractors for CPWL violations, there is no change in that level of service.

Based on the foregoing, staff finds that Labor Code sections 1726, 1727 and 1742, subdivision (f), do not impose a new program or higher level of service on school districts.

Summary

Therefore, staff finds the activities listed below that are required of K-12 school districts or community college districts when acting as an awarding body, constitute a new program or higher level of service within the meaning of article XIII B, section 6, but only when triggered by repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, and when the project must be let to contract under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or
    b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000.
2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and
    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or

---

[210] *San Diego Unified School Dist., supra*, 33 Cal.4th 859, 877; *Lucia Mar, supra*, 44 Cal.3d 830, 835.

[211] See also Government Code section 17517.5.

b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000.

3. For any K-12 school district or community college district that is subject to the UPCCAA, when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.

Activities constituting a new program or higher level of service under the foregoing circumstances:

- Perform the following tasks upon a request made to the awarding body by the public for certified payroll records:
  - send an acknowledgment to the requestor including the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (c));
  - obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (d));
  - mark or obliterate the records to prevent disclosure of an individual's private information (Lab. Code, § 1776, subd. (e) (as amended by Stats. 1978, ch. 1249 and Stats. 2001, ch. 804), Cal. Code Regs., tit. 8, § 16403, subd. (b))
  - provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3) as amended by Stats. 1978, ch. 1249)); and
  - retain copies of the records for at least 6 months (Cal. Code Regs., tit. 8, § 16403, subd. (a)).
- Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g) (as amended by Stats. 1978, ch. 1249).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h) (as amended by Stats. 1978, ch. 1249).)

Issue 3: Do the test claim statutes or regulations impose costs mandated by the state within the meaning of Government Code section 17514 and article XIII B, section 6 of the California Constitution?

For these statutes to impose a reimbursable, state-mandated program, two additional elements must be satisfied. First, the statutes must impose "costs mandated by the state" pursuant to Government Code section 17514. Second, the statutory exceptions to reimbursement listed in Government Code section 17556 cannot apply.

Government Code section 17514 defines "costs mandated by the state" as any increased cost a local agency is required to incur as a result of a statute that mandates a new program or higher level of service. The claimant alleged in the original test claim "it is estimated that the district has incurred, or will incur, in excess of $200 in staffing and other costs in excess of revenues annually, for the period from July 1, 2000 through June 2002, to implement the new duties mandated by the state, for which the district has not been reimbursed by any federal, state, or

local government agency, and for which it cannot otherwise obtain reimbursement." On page 7 of Exhibit 6, "Second Declaration of William McGuire," of the test claim amendment filed July 31, 2003, claimant states:

> To the extent that Clovis Unified School District commences a public works project subject to Labor Code Section 1771.7, it is estimated that Clovis Unified School District will incur in excess of $1,000, annually, in staffing and other costs to implement these new duties mandated by the state for which the district will not be reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement.

Similarly, Grossmont Union High School District estimates the same costs in its filing of September 2, 2008.

The Department of Industrial Relations (DIR) commented that while the original test claim contained a general, non-specific declaration of the increased cost, a new declaration, limited to whatever mandates the Commission believes might exist, should be required to justify the test claim.[212] However, there is no provision in the Government Code or the Commission's regulations to authorize the Commission to impose such a requirement on the test claimant. Government Code section 17564 does provide the following:

> (a) No claim shall be made pursuant to Sections 17551, 17561, or 17573, nor shall any payment be made on claims submitted pursuant to Sections 17551 or 17561, or pursuant to a legislative determination under Section 17573, unless these claims exceed one thousand dollars ($1,000). However, a county superintendent of schools ... may submit a combined claim on behalf of school districts ... if the combined claim exceeds one thousand dollars ($1,000) even if the individual school district's ... claims do not each exceed on thousand dollars ($1,000). The county superintendent of schools ... shall determine if the submission of the combined claim is economically feasible and shall be responsible for disbursing the funds to each school ...

Staff therefore finds there is evidence in the record, signed under penalty of perjury, that the claimant will or has incurred "costs mandated by the state" for purposes of the existence of a reimbursable state-mandated program.

Government Code section 17556, subdivision (d), states in relevant part that the Commission shall not find costs mandated by the state if, after a hearing, the Commission finds:

> the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service.

The increased level of service at issue is the preparation and copying of certified payroll records under Labor Code section 1776, subdivisions (b) and (e). Subdivision (e) states "the requesting party shall, prior to being provided the records, reimburse the costs of *preparation* by ... the entity through which the request was made." Subdivision (i) of that section provides that the Director of the Department of Industrial Relations "shall adopt rules consistent with the California Public Records Act ... and the Information Practices Act of 1977, ... governing

---

[212] Department of Industrial Relations comments, submitted April 14, 2008, pages 4-5.

the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section." Section 16402 of those regulations states:

> The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

Thus, the Department has established "reasonable fees to be charged" of the requesting party to cover the costs of preparation of the records. Construction of a statute by the administrative officials charged with its enforcement or interpretation may not be controlling but is entitled to great weight and will be followed unless it is clearly erroneous or unauthorized.[213] There is no evidence in the record to show that the costs allowed by the Department's regulation are not sufficient to cover the actual costs of preparation of these payroll records.

In the ordinary sense, "preparation" is defined as "the act or process of preparing."[214] "Prepare" is defined as "to make ready in advance for a particular purpose, event or occasion."[215] Based on these definitions, and absent any other information in the record, staff finds that all activities leading up to getting the records ready to be released, including reproduction and actually providing the records, are included in the fees that can be recovered from the requesting party. Thus includes the following activities:

- obtain certified payroll records from the contractor, including specified information in the request (Cal. Code Regs., tit. 8, § 16400, subd. (c));
- send an acknowledgment to the requestor including notification of the costs to be paid for preparing the records (Cal. Code Regs., tit. 8, § 16400, subd. (d));
- make the specified redactions (Lab. Code, § 1776, subd. (e), Cal. Code Regs., tit. 8, § 16403, subd. (b)) ; and
- provide copies of the records to the requestor (Lab. Code, § 1776, subd. (b)(3)).

Therefore, staff finds that a school district has authority to charge fees sufficient to pay for this portion of the increased level of service, and Government Code section 17556, subdivision (d), is applicable to deny reimbursement for these activities.

With regard to the remaining activities, Government Code section 17556, subdivision (e), states in relevant part that the Commission shall not find costs mandated by the state if, after a hearing, the Commission finds:

---

[213] *State Compensation Insurance Fund v. Workers' Compensation Appeals Board* (1995) 37 Cal.App.4th 675, 683.

[214] Webster's II, New Collegiate Dictionary, 1999, page 873, column 1.

[215] *Ibid.*

> The statute, executive order, or an appropriation in the Budget Act or other bill provides for offsetting savings to local agencies or school districts that result in no net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate.

The state provides matching funds in the form of grants for deferred maintenance for K-12 school districts and community college districts.[216] In most cases, the funding is only available from the state when the district demonstrates its own funding is available.[217] Additional assistance for extreme hardship is also available for K-12 districts that meet certain criteria.[218] Funding is also available for new construction and modernization grants.[219] It is possible that grant funding for modernization might be available for repair or maintenance projects, but it is not likely that funding for new construction could be used for such projects.

The DIR commented that any mandate that exists is so negligible as to not require subvention since partial state funding already exists for maintenance and repair projects in school districts and community colleges pursuant to Education Code sections 17582-17588 and 84660, the Deferred Maintenance Program. The Department of Finance also pointed out the availability of this funding, and recommended the Commission consider the funding as offsetting revenues for any reimbursable mandate finding.

Although state funding is provided which might be used for the new activities, there is no evidence in the record that such funding results in no net costs to the district or was "specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate." Therefore, staff finds that Government Code section 17556, subdivision (e), is inapplicable to deny reimbursement for the remaining activities. Nevertheless, any grant funds available to awarding bodies under the deferred maintenance program, or any other eligible funding, when used for the newly mandated activities in this test claim shall be identified as possible offsetting revenues.[220]

Staff finds the following remaining activities do impose costs mandated by the state, but only when such activities are triggered by repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, and when the project must be let to contract under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113; and
    a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or

---

[216] Education Code sections 17582-17588, and 84660.

[217] *Ibid.*

[218] Education Code section 17587.

[219] Education Code sections 17072.10 and 17074.10.

[220] Eligible grant funding for such projects will be clarified further at the parameters and guidelines stage.

b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000.

2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654; and

   a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or

   b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000.

3. For any K-12 school district or community college district that is subject to the UPCCAA, when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.

Activities Reimbursable Under Circumstances Cited Above:

- Retain copies of payroll records requested by the public and provided by the awarding body for at least 6 months. (Cal. Code Regs., tit. 8, § 16403, subd. (a).)
- Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g) (as amended by Stats. 1978, ch. 1249).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's obligations pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h) (as amended by Stats. 1978, ch. 1249).)

Conclusion

Staff concludes that Labor Code section 1776, subdivisions (g) and (h), and section 16403, subdivision (a), of the Department of Industrial Relations' regulations constitute a reimbursable state-mandated program within the meaning of article XIII B, section 6 of the California Constitution, but only when those activities are triggered by projects for repair or maintenance to school facilities and property, pursuant to Education Code sections 17002, 17565, 17593 and 81601, when the project constitutes a public works project pursuant to the CPWL, and when the project must be let to contract under the following circumstances:

1. For *K-12 school districts*, when the project is not an emergency as set forth in Public Contract Code section 20113, and

   a. for districts with an average daily attendance of less than 35,000, when the total number of hours on the job exceeds 350; or

   b. for districts with an average daily attendance of 35,000 or greater, when the total number of hours on the job exceeds 750, or the material cost exceeds $21,000. (Pub. Contract Code, § 20114.)

2. For *community college districts*, when the project is not an emergency as set forth in Public Contract Code section 20654, and

    a. for districts with full-time equivalent students of fewer than 15,000, when the total number of hours on the job exceeds 350; or

    b. for districts with full-time equivalent students of 15,000 or more, the total number of hours on the job exceeds 750 hours or the material cost exceeds $21,000. (Pub. Contract Code, § 20655.)

3. For any K-12 school district or community college district that is subject to the Uniform Public Contract Cost Accounting Act (UPCCAA), when a project is not an emergency as set forth in Public Contract Code section 22035, and the project cost will exceed $30,000.[221] (Pub. Contract Code, § 22032.)

Only the following activities for the foregoing projects are reimbursable:

- Retain copies of payroll records requested by the public and provided by the awarding body for at least 6 months. (Cal. Code Regs., tit. 8, § 16403, subd. (a).)
- Withhold penalties from contractor progress payments for noncompliance with the requirement to provide certified payroll records under Labor Code section 1776, upon request of the Department of Industrial Relations' Division of Apprenticeship Standards or the Division of Labor Standards Enforcement. (Lab. Code, § 1776, subd. (g) (as amended by Stats. 1978, ch. 1249).)
- Insert in the contract stipulations regarding the contractor's and subcontractor's requirements pursuant to Labor Code section 1776. (Lab. Code, § 1776, subd. (h) (as amended by Stats. 1978, ch. 1249).)

Any grant funds available to awarding bodies under the deferred maintenance program, or any other eligible grant program, when used for the newly mandated activities in this test claim, shall be identified in the parameters and guidelines as possible offsetting revenues.

None of the other test claim statutes, regulations or alleged executive orders that were pled mandate a new program or higher level of service subject to article XIII B, section 6.

Recommendation

Staff recommends the Commission adopt this analysis to partially approve the test claim.

[221] Prior to January 1, 2007, the dollar limit for public projects that could be performed by the district with its own forces was $25,000.

AB 1506 Labor Compliance Program Guidebook - February 2003
Prepared by the Division of Labor Standards Enforcement

Antioch Unified School District
Labor Compliance Program - January 17, 2003

I, Scott H. Patterson, Deputy Superintendent, Business Services, Grossmont Union High School District, make the following declaration and statement. In my capacity as Deputy Superintendent, Business Services, I am responsible for the award and implementation of public works contracts for the District. I am familiar with the provisions and requirements of the Labor and Public Contract Code Sections and the Title 8 California Code of Regulations enumerated above.

These code sections and regulations, prior to 2002, require the Grossmont Union High School District to:

1) Pursuant to Labor Code Section 1773 and Title 8, California Code of Regulations, Section 16202, obtain the applicable general prevailing rate of per diem wages from the Director of Industrial Relations before awarding a contract for public works.

2) Pursuant to Title 8, California Code of Regulations, Section 16204, ensure that the correct prevailing wage rates have been determined by the Director of Industrial Relations.

3) Pursuant to Title 8, California Code of Regulations Section 16001, request from the Director of Industrial Relations a coverage determination regarding a

specific project or type of work to be performed.

4) Pursuant to Title 8, California Code of Regulations, Section 16302, file a petition for review of a determination of the Director of Industrial Relations of any rate or rates.

5) Pursuant to Labor Code Section 1773.4 and Title 8, California Code of Regulations Section 16002.5, appeal an incorrect determination made by the Director of Industrial Relations.

6) Pursuant to Labor Code Section 1773.2, include a statement of prevailing rate of per diem wages in all calls and advertisements for bids, in the public works contract itself, and to post the statement at all job sites. In lieu of those requirements, the district may include a statement in the call for bids and contract a statement to the effect that copies of the prevailing rate of wages are on file in its principal office.

7) Pursuant to Labor Code Section 1777.1 and Title 8, California Code of Regulations, Section 16800 through 16802, maintain records of ineligible contractors and subcontractors and to refuse to grant them public works projects of the district.

8) Pursuant to Labor Code Section 1777.3, send copies of all awards to the Division of Apprenticeship Standards and notify the Division of any discrepancies.

9) Pursuant to Labor Code Section 1776, when necessary or requested by the Director of Industrial Relations, inspect and audit payroll records of contractors

and subcontractors working on district public works projects.

10) Pursuant to Labor Code Section 1776 and Title 8, California Code of Regulations, Section 16402, when requested by appropriate parties, obtain and provide copies of the payroll records of the contractors and subcontractors working on district public works projects. The records provided are required to be marked or obliterated to prevent disclosure of an individual's name, address and social security number.

11) Pursuant to Labor Code Section 1771.5 and Title 8, California Code of Regulations, Sections 16425 through 16439, comply with all of the requirements of a Labor Compliance Program, when initiated and enforced by the district. These requirements include:

(a) All bid invitations and public works contracts shall contain appropriate language concerning the requirements of the prevailing wage laws.

(b) A pre-job conference shall be conducted with the contractor and the subcontractors to discuss federal and state labor requirements applicable to the contract.

(c) Project contractors and subcontractors shall maintain and furnish, at a designated time, a certified copy of each weekly payroll containing a statement of compliance signed under penalty of perjury.

(d) The district shall review and, if appropriate, audit payroll records to verify compliance with prevailing wage laws.

(e) The district shall withhold contract payments when payroll records are

delinquent or inadequate.

(f) The district shall withhold contract payments equal to the amount of underpayments and applicable penalties when, after investigation, it is established that underpayment has occurred.

12) Pursuant to Labor Code Section 1771.6 and Title 8, California Code of Regulations, Section 17220, provide contractors and subcontractors, and bonding companies and sureties, with Notices of Withholding of Contract Payments when minimum wage law violations are discovered by the district. The notice shall be in writing and include the following information:

(a) A description of the nature of the violation and basis for the notice.

(b) The amount of wages, penalties and forfeitures due, including a specification of amounts that have been or will be withheld from available contract payments, as well as all additional amounts that the enforcing agency has determined are due, including the amount of any liquidated damages that potentially may be awarded under Labor Code section 1742.1.

(c) The name and address of the office to whom a Request for Review may be sent.

(d) Information on the procedures for obtaining review of an Assessment or a Notice of Withholding of Contract Payments.

(e) Notice of Opportunity to request a settlement meeting under Section 17221.

(f) A statement appearing in bold or another type of face, that makes it stand out from other text, to the effect that failure to submit a timely request for review will

result in a final order binding on the contractor and subcontractor, and on the bonding company.

13) Pursuant to Labor Code Section 1726, report any suspected violations of the prevailing wage laws to the Labor Commissioner.

14) Pursuant to Labor Code Section 1726, withhold contract payments for underpaid wages and for penalties when, through the district's own investigation, the district determines a violation of prevailing wages has occurred.

15) Pursuant to Labor Code Section 1727, withhold amounts necessary to satisfy Civil Wage and Penalty Assessments issued by the Labor Commissioner.

16) Pursuant to Labor Code Section 1727, retain amounts withheld to satisfy a Civil Wage and Penalty Assessment until receiving a final order no longer subject to judicial review.

17) Pursuant to Labor Code Section 1742, after July 1, 2001[1], and Title 8, California Code of Regulations, Section 17220, comply with all due process requirements for the benefit of contractors and subcontractors when amounts are withheld pursuant to a Civil Wage and Penalty Assessment or a Notice of Withholding of Contract Payments, including the providing of proper and timely notices, allowing them to review evidence relied upon, appearance and participation at hearings and the appeals therefrom.

18) Pursuant to Labor Code Section 1742, after July 1, 2001, respond to petitions for

[1] Prior to July 1, 2001, different procedures and legal remedies were available to contractors and subcontractors. See: former Labor Code Sections 1730, 1731, 1732 and 1733.

writs of mandates filed by contractors and subcontractors seeking review of orders of the Labor Commissioner, including the retention of counsel to file timely responses, participating in pre-trial discovery matters, the trial of the cause, pre-trial and post-trial briefing, and the preparation of findings and judgment.

19) Pursuant to Labor Code Section 1742.1 and Title 8, California Code of Regulations, Section 16413, grant and participate in settlement meetings requested by contractors or subcontractor in an attempt to settle any disputed issue before formal hearing procedures.

20) Pursuant to Labor Code Section 1771.2, a joint labor-management committee may bring an action against an employer who fails to pay prevailing wages. As a necessary party, the school district would be required to appear and participate in these legal proceedings.

21) Pursuant to Labor Code Section 1776, furnish copies of payroll records of a contractor or subcontractor to a joint labor management committee obliterated only to prevent disclosure of social security numbers.

As amended by Chapter 868, Statutes of 2002, these statutes, code sections and executive orders require the Grossmont Union High School District to:

22) Pursuant to Labor Code Sections 1771.5 and 1771.7, pay the reasonable fees of a third party when contracting with that third party to initiate and enforce a Labor Compliance Program.

23) Oversee compliance with all of the requirements of Labor Code Sections 1771.5 and 1771.7 (for works commencing or after April 1, 2003), Title 8,

California Code of Regulations, Section 16425 through 16439 and Chapters 2, 3 and 5 of the "Program Guidebook" when contracting with a third party to initiate and enforce a Labor Compliance Program. This may include, but is not necessarily limited to, the withholding of contract payments and collecting and disbursing penalties and wages at the direction of the third party LCP.

24) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (a), when seeking approval of an LCP, submit evidence of the district's ability to operate an LCP.

25) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (b), complete a request for approval deemed by the Director to be deficient, or make other corrections as required, and resubmit the request for approval of a Labor Compliance Program.

26) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (c), submit a request for an extension of an LCP at least 30 days prior to the anniversary date of the initial approval.

27) Pursuant to Labor Code Section 1771.7, subdivision (d)(1), make a written finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in subdivision (b) of Section 1771.5.

28) Pursuant to Labor Code Section 1771.7, subdivision (d)(2)(A), transmit to the State Allocation Board, in the manner determined by that board, a copy of the finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in

subdivision (b) of Section 1771.5.

29) Pursuant to Labor Code Section 1771.7 (for works commencing on or after April 1, 2003), Title 8, California Code of Regulations, Section 16425 through 16439 and Chapters 2, 3 and 5 of the "Program Guidebook", comply with all of the requirements of a Labor Compliance Program, when initiated and enforced by the district.

30) Pursuant to the "Program Guidebook", Chapter 4 Parts (A) and (B), review and, if appropriate, audit payroll records to verify compliance with prevailing wage laws by monitoring certified payroll records (CPRs), investigating complaints from workers, and monitoring agencies and contractors. Upon the conclusion of the audit, prepare audits and findings and obtain the approval of recommended forfeitures from the labor commissioner.

31) Pursuant to the "Program Guidebook", Chapter 3, withhold contract payments when payroll records are delinquent or inadequate; and withhold contract payments equal to the amount of underpayments and applicable penalties when, after investigation, it is established that underpayment has occurred.

32) Pursuant to Chapter 4 of the "Program Guidebook", serve on the contractor, any affected subcontractor, and any bonding company issuing a bond securing the payment of wages, a Notice of Withholding of Contract Payments (NWCR) using the form attached in the Guidebook as Appendix 2.

33) Pursuant to Chapter 4 of the "Program Guidebook", when mailing an NWCR, also mail a notice to the DIR on a form entitled Notice of Transmittal, as found in the Guidebook as Appendix 3.

34) Pursuant to Chapter 4 of the "Program Guidebook", when a party requests a review after receiving an NWCR, mail a form entitled "Notice of Opportunity to Review Evidence" as found in the Guidebook as Appendix 4.

35) Pursuant to Chapter 4, paragraph iv (D) of the "Program Guidebook", defend Notices to Withhold Contract Payments in administrative review proceedings and in court.

36) Pursuant to Chapter 6 of the "Program Guidebook", investigate worker complaints of underpayment of prevailing wage rates.

37) Pursuant to Chapter 6 of the "Program Guidebook", conduct investigations on an as-needed basis.

38) Pursuant to Chapter 9 of the "Program Guidebook", conduct audits on a random or as-needed basis.

39) Pursuant to Chapter 9 of the "Program Guidebook", prepare cases and document files.

40) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, submit a copy of the Department of Industrial Relations approved Labor Compliance Program to which the project(s) conformed or, if applicable, a copy of the third party provider contract.

41) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, upon request, submit all bid invitations and contracts that must contain language alluding to Labor Code Sections 1770 through 1780 compliance and verification; evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set forth in

Labor Code Sections 1770 through 1780; and evidence of weekly submittals of certified copies of payrolls for all contractors and subcontractors.

42) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, when a district uses its own employees for an LCP, provide the name of the district employee(s) performing the Labor Compliance Program duties; the salary and benefits of the employee, including transportation costs, and a specific breakdown of hours spent by project subject to the Labor Compliance Program requirements.

Grossmont Union High School District is required to comply with these laws relating to prevailing wage rate laws in all public works projects, as defined when:

(a) Pursuant to Labor Code Section 1720.2, the construction work is performed according to plans, specifications or criteria furnished by the district and where the district enters into a lease, as lessee, of the completed project during or upon completion of the construction;

(b) Pursuant to Labor Code Section 1720.3, hauling refuse from a public works site to an outside location;

(c) Pursuant to Labor Code Section 1720, the work performed during the design and preconstruction phases of construction including, but not limited to, inspection and land surveying work;

(d) Pursuant to Title 8, California Code of Regulations, Section 16001, the work is for maintenance, including landscape maintenance;

(e) Pursuant to Labor Code Section 1720, the work is for installation works;

(f) Pursuant to Title 8, California Code of Regulations, Section 16001, the work is for field surveying work traditionally covered by collective bargaining agreements

when the work is integral to the specific public works project; and

(g) Pursuant to Title 8, California Code of Regulations, Section 16001, the work is for residential and commercial projects when the public work is for student or faculty housing.

It is estimated that Grossmont Union High School District has incurred in excess of $1,000 in staffing and other costs in each of the Fiscal Years July 1, 2001 through June 30, 2002, and July 1, 2002 through June 30, 2003, to implement these new duties mandated by the state for which the District has not been reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement.

I hereby declare, under penalty of perjury under the laws of the State of California, that the information in this declaration is true and correct to the best of my own knowledge or information or belief.

EXECUTED on this 25th day of August, 2008, at El Cajon, California.

Scott H. Patterson
Deputy Superintendent, Business Services
Grossmont Union High School District

APPOINTMENT OF REPRESENTATIVE

Grossmont Union High School District appoints Keith B. Petersen, SixTen and Associates, as its representative for this test claim.

RE: 01-TC-28
Grossmont Union High School District
Prevailing Wage Rate

Dear Ms. Higashi:

I have received the Commission Revised Draft Staff Analysis (DSA) issued on November 12, 2008, to which I respond on behalf of the test claimant.

The threshold issue, and our assertion, is that school and community college districts are required (both statutorily and "practically compelled") to provide facilities (construct, remodel, and repair buildings) for the instruction of students. If so mandated, then the Public Contract Code mandates contracting with private construction companies, when costs are above insignificant threshold amounts, after a public bidding process. The Labor Code then mandates that the project must comply with the prevailing wage law, which includes a labor compliance program operated by the districts in certain circumstances. Reliance on state funding (and implementation of the rules that are a condition of participation) is required because local revenue raising power has proven insufficient, a finding of fact by the Legislature.[1]

---

[1] Chapter 14 of Part 10, commencing with Education Code Section 17085 is entitled the "Emergency School Classroom Law of 1979" and is cited as the State Relocatable Classroom Law of 1979. Section 17086 states:

> . . .the Legislature recognizes that the ad valorem tax is no longer available as a source of revenue for the construction of necessary school facilities. The Legislature considers that the greatest need in school construction is for classrooms for the education of public school pupils. It is the intent of the Legislature to satisfy this primary need to the greatest extent possible before providing any additional educational facilities, regardless of how desirable such additional facilities may be.

The DSA (41) finds that there is statutory compulsion for ". . . K-12 school districts and community college districts to undertake public works projects to repair and maintain facilities and property . . ." However, the DSA determines that there is no similar legal compulsion for any public works projects that do not involve repair or maintenance.

Local Districts Are Required to Construct Facilities and Use State Funds

Article IX, Section 5, of the California Constitution requires the Legislature to " . . . provide for a system of common schools by which a free school shall be kept up and supported in each district . . ." The Constitution makes public education a matter of statewide rather than local concern. (*Levi v. O'Connell* (2006) 144 Cal.App.4th 700, 706 fn.3.) The Legislature's power over the public school system is plenary, subject only to constitutional restraints. (*Wilson v. State Bd. Of Educ.* (1999) 75 Cal.App.4th 1125, 1134.) "Where the Legislature delegates the local functioning of the school system to local boards, districts or municipalities, it does so, always, with its constitutional power and responsibility for ultimate control for the common welfare in reserve." (*Id.* at p.1135 quoting *Phelps v. Prussia* (1943) 60 Cal.App.2d 732, 738.)

The Legislature has stated repeatedly that it is an obligation and function of the state to provide adequate schools sites and buildings for the public school system and has delegated this duty to local districts.[2] Indeed, there is a tremendous unmet need for

---

[2] Chapter 4 of Part 10 of Division 1 of Title 1 of the Education Code sets forth the State School Building Aid Law of 1949, commencing with Education Code Section 15700. Section 15700 provides:

> The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary and adequate school sites and buildings for the pupils of the public school system, the system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.
>
> In adopting this act, the Legislature considers that the great need in school construction is for adequate classrooms for the education of the pupils of the public school system . . .To the end that school classrooms may be made available at once and to all school districts in need of such classrooms . . . (emphasis supplied)

Chapter 6 contains the State School Building Aid Law of 1952, commencing with Education Code Section 16000. Section 16001 provides:

> The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary schoolsites and buildings for the pupils of the public school system, this system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.
>
> In adopting this chapter, the Legislature considers that the great need in school construction is for classrooms for the education of the pupils of the public school

new construction and modernization. The California Department of Education estimated as of September 2007 that 16 new classrooms and 21 modernized classrooms *per day* are needed. See "School Facilities Fingertip Facts," attached. Also see attached "An overview of the State School Facility Programs (September 2007)" for a brief summary of the funding programs available to enable local school districts to

---

> system . . .To the end that school classrooms may be made available at once and to all school districts in need of such classrooms . . . (emphasis supplied)

Article 9 of Chapter 6, commencing with Education Code Section 16310, is entitled School Housing Aid For Rehabilitation and Replacement of Structurally Inadequate School Facilities. Section 16312 states:

> The Legislature hereby declares that it is in the interest of the state and the people thereof to provide assistance to school districts in rehabilitating or replacing structurally unsafe school facilities inasmuch as the education of children is an obligation of the state, and the obligation carries with it a corresponding responsibility for the physical safety of children while attending school. (emphasis supplied)

Chapter 8 of Part 10 contains the Urban School Construction Aid Law of 1968, commencing with Education Code Section 16700. Section 16701 provides:

> The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid urban school districts of the state in reconstructing, modernizing, or replacing schoolsites and buildings for pupils of the public school system who are now housed in substandard schools . . .

Chapter 12 of Part 10 establishes the "Leroy F. Greene State School Building Lease-Purchase Law of 1976", commencing with Section 17000. Section 17001 states:

> (a) The Legislature hereby declares that it is in the interest of the state and the people thereof for the state to reconstruct, remodel, or replace existing school buildings that are educationally inadequate or that do not meet present-day structural safety requirements, and to acquire new schoolsites and buildings for the purpose of making them available to local school districts for the pupils of the public school system, that system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.(emphasis supplied)

Chapter 15 of Part 10, commencing with Section 17100, established the School District Revenue Bond Act. This Act is based on the finding of the legislature that:

> The Legislature hereby finds and declares that the State School Building Lease-Purchase Fund, pursuant to Section 17008, and the proceeds from the sale or lease of surplus school property are the two sources available to school districts to finance the construction of school facilities to relieve overcrowding. However, these sources are still insufficient to meet the construction needs statewide of school districts. (emphasis supplied)

build facilities. Once the local districts are funded, hundreds of state statutes and regulations govern all aspects of planning and building new school facilities. Numerous helpful publications have been issued by the California Department of Education and the Office of Public School Construction. Regardless, the actual construction of the facilities is the responsibility of the local school districts to be accomplished pursuant to these state rules when utilizing state funds.

School districts are determined by geographic boundaries, and must accommodate students within their boundaries as required by the free school guarantee. Children are required to attend school by Education Code Sections 48200 et al, which set the parameters of compulsory education. Therefore, children are compelled to attend school, and school districts are compelled to enroll them and provide facilities for their instruction. Community college districts have a similar legal compulsion to accommodate students pursuant to Section 76000.

There are also specific statutory requirements for providing school facilities. Governing boards are legally required to build new school facilities when there is a vote by the district directing them to do so, as required by Education Code Section 17340. Section 17573 requires the governing board to provide a "warm, healthful place" for children to eat their lunches. Section 17576 requires that sufficient restrooms are provided. If a school facility is found to be unsafe, Education Code Sections 17367 and 81162 (pertaining to K-12 school districts and community college districts respectively) require that the governing board adopt a plan to either repair, reconstruct, *or replace* the unsafe school building.

The DSA (39) relied on a statement in *People v. Oken* for the proposition that school district governing boards have wide discretion in constructing school facilities. However, this statement must be viewed in context of the facts of that case. It concerned a private citizen attempting to require a school district to build a school building on a specific piece of property. Therefore, despite the broad language used, the holding of the court was only that a private individual could not maintain an action to dictate where or when a school must be built. The court did not even consider whether school districts were required to supply sufficient school facilities. ". . . [A] decision is not authority for what is said in the opinion but only for the points actually involved and actually decided." (*Childers v. Childers* (1946) 74 Cal.App.2d 56, 61) Thus, this case cannot be used for the proposition that there is no legal compulsion on K-12 school districts to provide adequate school facilities.

Contrary to the conclusion of the DSA (41), school districts are also practically compelled to construct new school facilities when existing facilities become inadequate. The decision to build new school facilities is *not* analogous to the decision to exercise eminent domain in *City of Merced*. In that case, the court determined that the city's choice of eminent domain *as a method to obtain property* was discretionary. It did not consider the city's determination that it needed to obtain property in the first place, only the discretionary action of choosing eminent domain as the preferred method. In *Kern High School District*, the focus of the court was on the fact that the underlying programs

were voluntary and extracurricular. The district could simply stop participating and the only consequence would be the loss of related funding.

If the decision to build new school facilities is truly voluntary, then school districts would have multiple ways of responding to the need, as in *City of Merced*, or could simply choose not to respond, as in *Kern*. If this were true, K-12 and community college school districts would be able to turn away students within their geographic boundaries once existing facilities had met their capacity. Or accommodate additional students by setting up desks on the soccer fields. Neither of these is a tenable or legal option. Therefore, K-12 and community college districts are legally and practically compelled to undertake public works projects to construct new facilities, replace existing facilities when needed, and repair and maintain current facilities.

The Legislature has not provided local districts sufficient taxing authority.[3] This has

---

[3] A District's Ability to Borrow is Strictly Limited

The authority to issue local school bonds is found in Chapter 1 of Part 10 in Division 1 of Title 1 of the Education Code, commencing at Section 15100. This authority is strictly limited. Education Code Section 15100 allows a district, when in its judgment it is advisable, and upon a petition of the majority of its qualified electors requires it, to order an election and submit to the electors of the district the question of whether the bonds of the district shall be issued and sold for the purpose of raising money for the purchase of school lots, the building or purchasing of school buildings, and the making of alterations or additions to school buildings. Section 15102 provides that such bonded indebtedness shall not exceed 1.25 percent of the taxable property of the district. Section 15106 provides that unified school districts or community college districts may not exceed 2.5 percent of the taxable property of the district.

Chapter 1.5 of Part 10 sets forth the Strict Accountability in Local School Construction Bonds Act of 2000, commencing with Section 15264. ("Proposition 39 bonds") Here again, bonded indebtedness is strictly limited. Section 15266 provides that the Act is an alternative to authorizing and issuing bonds pursuant to Chapter 1 or Chapter 2 (commencing with Section 15300) when the governing board of a school district or community college district decides, pursuant to a two-thirds vote, to pursue the authorization and issuance of bonds for school facilities. Section 15268 provides that such bonded indebtedness shall not exceed 1.25 percent of the taxable property of the district and may only be issued if the tax rate levied would not exceed thirty dollars ($30) per year per one hundred thousand dollars ($100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution. Section 15270 provides that a unified school district may not authorize or issue bonds that exceed 2.5 percent of the taxable property of the district and may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a unified school district, would not exceed sixty dollars ($60) per year per one hundred thousand dollars ($100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution.

Chapter 2 of Part 10 sets forth the Bonds of School Facilities Improvement Districts Act, commencing with Education Code Section 15300. Here again, bonded indebtedness is strictly

been further exacerbated by Proposition 13, which eliminated the ability of local school districts to levy additional special property taxes to pay off their facility indebtedness. Proposition 13 capped the ad valorem tax rate on real property at one percent of its value, thereby reducing the income from property taxes to such an extent that it virtually eliminated this source as a means of additional bonding capacity.

The test claimant requests that the Commissioners make findings that:

-The state has delegated the duty to local school and college districts to repair, construct, and maintain school facilities.
-Since the local districts are required to bid and contract such work as public works projects, the relevant Public Contract Code and Labor Code sections adopted after 1974 are costs mandated by the state upon the local districts for which no state subvention has been provided.
-Because the Legislature has not provided local districts the taxing power to adequately fund this construction, the local districts must rely upon state funds. Therefore the statutes, state regulations, and executive orders controlling the use of these funds are costs mandated by the state upon the local districts for which no state subvention has been provided.

Based on these findings, the Commissioners should direct staff to reevaluate the test claim and prepare a new proposed statement of decision consistent with these findings.

Specific Activities Mandated

Coverage Determinations - Title 8, California Code of Regulations, Section 16001

CCR Section 16001 provides the procedures to be followed when a coverage determination is requested from the Director of Industrial Relations. The DSA (47) concludes that " . . . no activities are required of the awarding body by this regulation." This determination is based on the requirement that the awarding body "shall forward" documents it "wishes to have considered" and the conclusion that the actions are therefore discretionary. However, subsection (a)(3) commands that "[a]ll parties to the coverage determination request shall have a continuing duty to provide the Director . . . with relevant documents in their possession or control, until a determination is made." The school district, as the awarding body, is necessarily a party to any coverage

---

limited. Section 15300 provides that the chapter provides a method for the formation of school facilities improvement districts consisting of a portion of the territory within a school district or community college district and for the issuance of general obligation bonds by the school facilities improvement district. Section 15330 (repealed 2007) provides that the total amount of bonds issued shall not exceed 1.25 percent of the taxable property of the school facilities improvement district. Section 15334.5 further provides that no bonded indebtedness may be incurred pursuant to this chapter in an amount that would cause the bonded indebtedness of the territory of the school district or community college district of which the school facilities improvement district is a part, to exceed the limitation of indebtedness specified in Sections 15102 and 15106.

determination request. Therefore, the district is required by this regulation to provide all relevant documents to the Director of Industrial Relations, and the regulation does impose a mandated activity.

Ineligible Contractors and Subcontractors - Labor Code Section 1777.1 and Title 8, California Code of Regulations, Sections 16800 through 16802

The DSA (48) concludes that no activities are imposed on the awarding body by these sections because the sections outline duties of the Labor Commissioner and Division of Labor Standards Enforcement (DLSE). However, the sections also include duties imposed on awarding bodies. Title 8, CCR Section 16801(b) requires an awarding body to " . . . in accordance with Labor Code Section 1776(g), inform prime contractors of the requirements of Labor Code Section 1776, and any other requirements imposed by law, in order to assist DLSE with an investigation pursuant to Labor Code 1777.1."

Further, Title 8, CCR Section 16801(a)(2) grants a respondent to hearings conducted as a result of the DLSE investigation the power to call witnesses and issue subpoenas. If a school district, as the awarding body, receives a subpoena in connection with one of these hearings, then it must respond and any actions taken in response are mandated activities. Therefore, the requirement to inform prime contractors of the requirements of Labor Code Section 1776 and any response required by a subpoena authorized under this section are state-mandated activities under Ttile 8, CCR Section 16801.

Withhold and Retain Contract Payments to Satisfy Civil Wage and Penalty Assessments - Labor Code Section 1727

The DSA (55) states that Labor Code Section 1727 imposes a state-mandated activity where it requires awarding bodies to withhold payments or receive money withheld by the contractor from a subcontractor. However, it comes to the contrary conclusion that no activity is mandated by subsection (a) when it "*prohibits* the awarding body from disbursing the withheld money until a final order" (emphasis in original) is received. The last section of subsection (a) simply imposes a time limitation for the act of withholding the money. Therefore, Section 1727 imposes a state-mandated activity requiring awarding bodies to withhold payments or receive money withheld from a subcontractor until a final order is received.

Labor Compliance Program

The DSA (59) concludes that school districts are not mandated to implement a Labor Compliance Program (LCP) and therefore none of the activities that flow from implementation of an LCP are mandated activities. However, there are circumstances where school districts are legally compelled to initiate an LCP. One such instance occurs when school districts are participating in a design-build contract pursuant to Education Code Section 17250.10 et seq. Section 17250.30 (d) requires that "The school district shall establish and enforce a labor compliance program containing the requirements outlined in Section 1771.5 of the labor code . . ." if the district has not

entered into a collective bargaining agreement that covers all contractors working on the project. Education Code Section 81704 contains an identical provision governing community college districts.

Further, school districts are practically compelled to initiate an LCP by the need to provide adequate facilities, and the substantial funds available from the Kindergarten-University Public Education Facilities Bond Acts of 2002 and 2004. Pursuant to Labor Code Section 1771.7, school districts using funds derived from these acts shall initiate and enforce an LCP. As previously discussed, school districts have a duty to provide adequate facilities for instruction. As noted in the DSA (57, 58), substantial funds are provided by these acts for the purposes of building new facilities and remodeling or modernizing existing facilities. Therefore, to the extent that a school district public works project qualifies for funding from the Kindergarten-University Public Education Facilities Bond Acts of 2002 and 2004 it is practically compelled to accept these funds, and is required to initiate an LCP. Under certain circumstances, school districts are either legally or practically compelled to initiate an LCP, and therefore the related activities are mandated by the state.

Hearings and Court Proceedings

The DSA (61) concludes that awarding bodies are not required ". . . to engage in any hearing activities, respond to writs of mandate, or participate in settlement meetings, unless the awarding body is voluntarily exercising enforcement authority under Labor Code section 1726 or 1771.5." However, as discussed previously, there are situations where a school district is legally or practically compelled to initiate an LCP under Section 1771.5. In those instances, the district's participation in hearings and court proceedings is mandated. Further, when the proceedings stem from actions by the joint labor-management committee, the awarding body is a necessary party to the action. As such, the awarding body must cooperate with the court or hearing officer and respond to related orders. It cannot simply choose to ignore directives of the court or an administrative body. Thus, school district participation in settlement meetings, hearing activities, and court proceedings is a mandated activity.

New Program or Higher Level of Service

The DSA concludes in several instances that some of the program requirements do not impose a new program or higher level of service because they shift responsibility from the districts to the state and constitute "a lower level of service on the part of the district." This ignores the fact that the test is on the new or increased level of services provided by the local government agency to the public, not of the *number* of all or different services before and after the mandate legislation.[4] Any duty shifted to the

---

[4] According to the court in *San Diego Unified School District v. Commission on State Mandates* (33 Cal.4th 859, 878):

The statutory requirements here at issue . . . reasonably are viewed as providing

districts previously required of the state agency would be a new program for the districts, even when those duites predate 1975, which is not a consistent finding in the DSA.

Obtain Prevailing Wage Rate

Labor Code Section 1773 and CCR Sections 16202 and 16204 require an awarding body to obtain the prevailing wage rates from the Director of Industrial Relations and ensure that the correct rates are used. The DSA (65) acknowledges that this scheme differs materially from the prior version of Section 1773, which required the awarding body to ascertain and determine prevailing wage rates. Thus, the provisions of these sections satisfy the first prong of the test for a new program or higher level of service within the meaning of Article XIII B, Section 6 of the California Constitution.

Take Cognizance of and Report Suspected Violations

The DSA (74, 76) acknowledges that Labor Code Section 1726 imposes a new requirement on awarding bodies to report suspected violations, but then concludes that the requirements do not impose a new program or higher level of service because they shift responsibility from the districts to the state and constitute "a lower level of service on the part of the district." This conclusion improperly places the emphasis on the number of activities required from a local agency, rather than the service provided to the public. By shifting the investigatory and enforcement responsibilities to the state, a higher level of service is provided to the public because there is greater visibility and oversight, and the state has greater resources then the awarding bodies to pursue the investigations. Therefore, as part of a scheme providing a higher level of service to the public, the district's responsibility to report suspected violations is a reimbursable activity

Mandated Costs

Certified Payroll Records

The DSA (79) concludes that there are no costs mandated by the state for responding to a request for certified payroll records under Labor Code Section 1776 because a fee of $1 for the first page and 25 cents for each subsequent page is authorized. This determination is based on the fact that there is no evidence in the record that these fees will not be sufficient to cover the associated costs. However, there is also no evidence in the record that the fees *are* sufficient. Further, there is no guarantee that the fees will be increased to accommodate inflation, or that they will be adjusted if experience demonstrates that they are not sufficient. Finally, the rates are dependent

---

> a "higher level of service" to the public under the commonly understood sense of that term: (i) the requirements are new in comparison with the preexisting scheme . . . and (ii) the requirements were intended to provide an enhanced service to the public . . .

on the number of pages requested. The act of making the redactions is also dependent on the length of the document, but the process of sending an acknowledgment, requesting the records, and providing them to the requester is not in any way correlated with the number of pages. Thus, it is quite possible that the staff time and other costs will exceed the authorized fees. There should not be a denial of increased costs on this basis. Instead, claimants should be required to deduct any fees received as offsetting revenue.

CERTIFICATION

I certify by my signature below, under penalty of perjury under the laws of the State of California, that the statements made in this document are true and complete to the best of my own personal knowledge or information and belief.

Sincerely,

Keith B. Petersen

OPINION

CANTIL-SAKAUYE, J.-

In this case we consider whether the California Department of Education (CDE) fn. 1 is required to pay for the college education of an extremely gifted student under the age of 16. We conclude it is not. We shall affirm the judgment of dismissal of plaintiffs' action entered following the trial court's sustaining of CDE's demurrer without leave to amend.

FACTUAL AND PROCEDURAL BACKGROUND

On February 9, 2004, Leila J. Levi (Levi) filed an original complaint against CDE on behalf of herself and as guardian ad litem for her 13-year-old son Levi M. Clancy (Clancy) (together plaintiffs). After the trial court sustained CDE's general demurrer with leave to amend, plaintiffs filed a first amended complaint. The first amended complaint alleges Clancy, born on October 12, 1990, is a highly gifted child required, as a minor under the age of 16, to attend school under the Compulsory Education Law. (Ed. Code, § 48200, et seq.) The first amended complaint alleges, "Clancy cannot attend a traditional K-12 school because the schools operated by CDE, and Clancy's local district, are ill-equipped and unsuitable for highly gifted children and will actually cause more harm to him than if he simply did not attend. Specifically, they cannot provide for his specific psycho-social and academic needs. Additionally, he has already completed a standard education within the **[144 Cal.App.4th 704]** K-12 academic system currently provided for by CDE." (Capitalization changed.)

According to the first amended complaint, Clancy started attending Santa Monica College when he was seven, passed the California High School Proficiency exam when he was nine, and began attending the University of California at Los Angeles (UCLA) when he was 13. Levi is a single mother and single income earner in her household who cannot afford to continue paying for Clancy's education at UCLA. The first amended complaint alleges CDE is constitutionally required to provide Clancy with an adequate and suitable free and equal education while he is a minor under the age of 16.

The complaint alleges three causes of action; the first for declaratory relief and/or a writ of mandate, the second for violation of the equal protection clause of California's Constitution, and the third for damages under the federal civil rights statute. (42 U.S.C.S. § 1983.) The complaint seeks a writ of mandate compelling CDE to provide Clancy with a fair, equal, and funded education suited to his personal needs, a declaratory judgment setting forth the rights and obligations of the parties to this case, general damages as well as special damages in the form of payment of the expenses associated with Clancy's education at Santa Monica College and UCLA, attorney fees, and costs of suit. The trial court sustained CDE's demurrer to all three causes of action without leave to amend and entered a judgment of dismissal.

On appeal plaintiffs challenge the trial court's sustaining of CDE's demurrer to their first cause of action for declaratory relief and/or a writ of mandate. They also claim public policy supports their position on appeal because they are asking for nothing more than what California already offers to students with special needs. They do not challenge the sustaining of CDE's demurrer to their second and third causes of action. fn. 2 In their brief on appeal, plaintiffs admit they are asking this court to establish an education voucher for Clancy's college education during his years of mandatory school attendance. We decline to do so. **[144 Cal.App.4th 705]**

DISCUSSIONI. *Standard of Review*

"On appeal from a judgment dismissing an action after sustaining a demurrer without leave to amend, the standard of review is well settled. The reviewing court gives the complaint a reasonable interpretation, and treats the demurrer as admitting all material facts properly pleaded. [Citations.] The court does not, however, assume the truth of contentions, deductions or conclusions of law. [Citation.]" (*Aubry v. Tri-City Hospital Dist.* (1992) 2 Cal.4th 962, 966-967; see *Blank v. Kirwan* (1985) 39 Cal.3d 311, 318.) On appeal we review the legal sufficiency of the complaint de novo, "i.e., we exercise our independent judgment about whether the complaint states a cause of action as a matter of law. [Citation.]" (*Montclair Parkowners Assn. v. City of Montclair* (1999) 76 Cal.App.4th 784, 790.) The question before us is whether "the plaintiff has stated a cause of action under any possible legal theory. [Citation.]" (*Aubry v. Tri-City Hospital Dist., supra*, at p. 967.)

II. *Plaintiffs' Cause of Action For Declaratory Relief*

While Clancy is under the age of 16 and subject to the compulsory full-time education requirements, plaintiffs claim CDE legally owes him an adequate, free and equal education providing for his specific individualized needs. If Clancy is not provided with the funding necessary to attend a university appropriate to his learning needs, plaintiffs claim they will be

forced to violate the compulsory education law. In their first cause of action, plaintiffs allege these circumstances give rise to a justiciable controversy over the parties' respective rights and duties entitling them to declaratory relief. Plaintiffs primarily rely on section 5 of article IX of the California Constitution (section 5). However, they also claim education guarantees under unspecified parts of the United States Constitution, the federal No Child Left Behind Act of 2001 (20 U.S.C. § 6301 et seq.), and the federal Individuals with Disability Education Act (IDEA). (20 U.S.C. § 1400 et seq.) Plaintiffs claim there exists a related controversy as to whether Clancy was excluded from the class of children protected by California's special education law. (Ed. Code, § 56000 et seq.)

On appeal, plaintiffs claim the trial court erred in concluding they had not stated a cause of action for declaratory relief because they are entitled to a judicial declaration of the educational rights of an extremely gifted child. **[144 Cal.App.4th 706]**

[1] "'The fundamental basis of declaratory relief is the existence of an actual, present controversy over a proper subject.'" (*City of Cotati v. Cashman* (2002) 29 Cal.4th 69, 79, quoting 5 Witkin, Cal. Procedure (4th ed. 1997) Pleading, § 817, p. 273.) CDE contends plaintiffs have failed to allege facts sufficient to establish an actual controversy between themselves and CDE independent of the current lawsuit. (*City of Cotati v. Cashman, supra,* at p. 80; *California Assn. of Private Special Education Schools v. Department of Education* (2006) 141 Cal.App.4th 360, 377-378; *Brownfield v. Daniel Freeman Marina Hosp.* (1989) 208 Cal.App.3d 405, 410.) We disagree. The first amended complaint alleges sufficient specific facts regarding Clancy's present educational circumstances to establish an actual, current controversy concerning CDE's constitutional and statutory obligation to fund an appropriate education, in this case a college education, for Clancy.

CDE contends plaintiffs have not sufficiently pled a cause of action for declaratory relief because there is no right on the part of plaintiffs to or corresponding duty on the part of CDE to provide the relief plaintiffs seek.

[2] "'Strictly speaking, a general demurrer is not an appropriate means of testing the merits of the controversy in a declaratory relief action because plaintiff is entitled to a declaration of his rights even if it be adverse.' [Citations.] However, 'where the issue is purely one of law, if the reviewing court agreed with the trial court's resolution of the issue it would be an idle act to reverse the judgment of dismissal for a trial on the merits. In such cases the merits of the legal controversy may be considered on an appeal from a judgment of dismissal following an order sustaining a demurrer without leave to amend and the opinion of the reviewing court will constitute the declaration of the legal rights and duties of the parties concerning the matter in controversy.' [Citations.]" (*Herzberg v. County of Plumas* (2005) 133 Cal.App.4th 1, 24.) The issue here is purely a question of law, which we resolve adversely to plaintiffs.

[3] The California Legislature has been constitutionally required to provide for a system of common schools in California since the first state Constitution was adopted in 1849. fn. 3 (Cal. Const., art IX, § 3.) Since the Constitution of 1879 this constitutional requirement has included a free school guarantee. (Cal. Const., art. IX, § 5; *Hartzell v. Connell* (1984) 35 Cal.3d 899, 906 (*Hartzell*).) Specifically, section 5 provides, "The **[144 Cal.App.4th 707]** Legislature shall provide for *a system of common schools by which a free school shall be kept up and supported in each district* at least six months in every year, after the first year in which a school has been established." (Cal. Const., art. IX, § 5, italics added.)

[4] In section 5, the use of "the term 'system' itself imports a unity of purpose as well as an entirety of operation, and the direction to the Legislature to provide 'a' system of common schools means one system which shall be applicable to all the common schools within the state." (*Kennedy v. Miller, supra,* 97 Cal. at p. 432, italics omitted.) Under section 5, the "educational system must be uniform in terms of the prescribed course of study and educational progression from grade to grade." (*Serrano v. Priest* (1971) 5 Cal.3d 584, 596, superseded by statute as stated in *Crawford v. Huntington Beach Union High School Dist.* (2002) 98 Cal.App.4th 1275, 1286; see *Piper v. Big Pine School Dist.* (1924) 193 Cal. 664, 669, 673 (*Piper*).) California children have an enforceable right to attend such a school (*Piper, supra,* at p. 669) and to participate without paying fees in all of the educational activities - curricular or extracurricular - offered by such schools. (*Hartzell, supra,* 35 Cal.3d at p. 911.)

However, this still leaves the question - what are the "common schools" of the state that must be provided free under a single uniform statewide system? The early case of *Los Angeles County v. Kirk* (1905) 148 Cal. 385 (*Kirk*), provides the answer. In *Kirk* the California Supreme Court rejected a county's attempt to compel the Superintendent of Public Instruction to include the average daily attendance of kindergarten students in his apportionment of the State School Fund to the various counties. The high court held the fact that the Legislature declared a kindergarten adopted by a district to be part of the public primary schools did not operate to bring it within the uniform and mandatory system of common schools of the state. (*Id.* at pp. 390-391.) The court distinguished the public schools designated by section 6 of article IX of the California Constitution from the common schools of section 5, which it concluded were those schools of the state identified in section 6 of article IX as being exclusively supported by the State School Fund. (*Los Angeles County v. Kirk, supra,* at pp. 388-389.)

[5] Section 6 of article IX of the California Constitution has since been amended a number of times and now provides, in relevant part, "[t]he Public School System shall include all kindergarten schools, elementary schools, secondary schools, technical schools, and state colleges, ..." However, the same section now provides: "The entire State School Fund shall be apportioned in each fiscal year in such manner as the Legislature may provide, through the school districts and other agencies maintaining such schools, for **[144 Cal.App.4th 708]** the support of, and aid to, *kindergarten schools, elementary schools, secondary schools, and technical schools* . . . ." (Cal. Const., art. IX, § 6, italics added.) [6] Applying the reasoning of *Kirk, supra,* 148 Cal. 385, the common schools of California under section 5 are the schools that provide what has become known as grades K through 12. Colleges and universities are not included. That is, section 5 constitutionally provides for a single standard and uniform system of free public K-12 education. The free school guarantee of section 5 does not provide for free college education.

[7] Nor does the free school guarantee mandate K-12 education individually tailored to each student's specific and particularized needs. Section 5 requires the state to maintain a regular, standard system of public K-12 education. (*Kennedy v. Miller, supra,* 97 Cal. at p. 432; *Serrano v. Priest, supra,* 5 Cal.3d at p. 596; *Piper, supra,* 193 Cal. at pp. 669, 673.) fn. 4

Naturally, such standard system should provide a high quality education for all the students of our state. State and federal law recognizes this. The federal No Child Left Behind Act of 2001 states: "The purpose of this title [20 USCS §§ 6301 et seq.] is to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on challenging State academic achievement standards and state academic assessments." (20 U.S.C. § 6301.) California has adopted programs to implement the requirements of the federal No Child Left Behind Act. (See, e.g., Ed. Code, §§ 52055.57, 52058.1, 52059.) California administers achievements tests (Ed. Code, §§ 60640) and a high school exit examination. (Ed. Code, § 60851.) California monitors its schools through a public school performance accountability program. (Ed. Code, § 52051 et seq.) However, plaintiffs have not cited us to, and we have not found, anything in the federal No Child Left Behind Act or the implementing California law that requires K-12 public education meet every student's particularized educational needs. fn. 5 **[144 Cal.App.4th 709]**

[8] The Legislature has declared its intent that "all *individuals with exceptional needs* have a right to participate in free appropriate public education and special educational instruction and services for these persons are needed in order to ensure the right to an appropriate educational opportunity to meet their unique needs." (Ed. Code, § 56000, italics added.) However,

the term "individuals with exceptional needs" as used in this statute is specifically defined as children who have been identified as having a disability within the meaning of "subparagraph (A) of paragraph (3) of Section 1401 of Title 20 of the United States Code [IDEA]." (Ed. Code, § 56026, subd. (a).) The term "child with a disability" is defined by the referenced section of the IDEA as a child who needs special education and related services by reason of mental retardation, hearing impairments, speech or language impairments, visual impairments, a serious emotional disturbance, orthopedic impairments, autism, traumatic brain injury, other health impairments or specific learning disabilities. (20 U.S.C. § 1401, subd. (3)(A).)

Plaintiffs' first amended complaint alleges Clancy is a highly gifted child who began attending college at seven, passed the high school exit exam at nine, and started attending UCLA when he was 13. It is alleged he has completed a standard education within the K-12 academic system. There are no allegations he needs special education and related services by reason of any of the disabilities or impairments listed in the IDEA. Therefore, he does not come within the provisions of the IDEA and he is not a child with exceptional needs as defined by California's special education law. (Ed. Code, § 56000 et seq.) We also note the "free appropriate public education" guaranteed by the IDEA is limited to appropriate preschool, elementary and secondary education. (20 U.S.C. § 1401, subd. (9)(C).) The IDEA does not guarantee appropriate free college education.

[9] Plaintiffs argue the mandate to provide an education suited to the specific needs and abilities of each child was recognized in *Hayes v. Commission on State Mandates* (1992) 11 Cal.App.4th 1564 (*Hayes*). *Hayes* is a subvention case and the issue on appeal in *Hayes* was whether certain special education programs for children with disabilities "constituted new programs or higher levels of service mandated by the state entitling the school districts to reimbursement under section 6 of article XIII B of the California Constitution and related statutes for the cost of implementing them or whether these programs were instead mandated by the federal government for which no reimbursement is due." (*Hayes, supra,* at p. 1570.) [144 Cal.App.4th 710] In considering this subvention issue, this court described the legal and historical context of the federal and state statutes governing education for the disabled and noted that principles of equal protection formed a basis for their enactment. (*Id.* at pp. 1582-1592.) The opinion of this court, however, did not consider or suggest that all children have a constitutional right to an education specifically tailored to their individual needs and abilities. Such issue was not presented and obviously, cases are not authorities for propositions not considered. (*Santisas v. Goodin* (1998) 17 Cal.4th 599, 620; *Roberts v. City of Palmdale* (1993) 5 Cal.4th 363, 372.)

[10] In summary, Clancy does not have a right to a free college education under the California constitutional free school guarantee of section 5. fn. 6 Nor are there any applicable state or federal statutes requiring that he be provided free college education as being the appropriate education individually tailored to his particular needs as a highly gifted child. fn. 7

We agree with the trial court that plaintiffs' allegations regarding the application of the truancy law to them (Ed. Code, § 48200 et seq.) are completely speculative and inadequate to plead a justiciable controversy. The truancy laws are not being applied to Clancy. And finally, the complaint affirmatively alleges Clancy is currently attending UCLA.

III. *Plaintiffs' Cause of Action For A Writ Of Mandate*

Plaintiffs' first amended complaint designates the first cause of action as being for "declaratory relief and/or writ of mandate [.]" (Capitalization omitted.) As part of the allegations of such cause of action, plaintiffs allege the [144 Cal.App.4th 711] defendants have "a ministerial duty to provide an adequate, fair and equal education" to Clancy. Plaintiffs' prayer for relief requested "a writ of mandate compelling defendants to provide [Clancy] with a fair, equal, and funded education suited to his personal needs[.]"

We have concluded CDE does not have a duty to provide Clancy with a free college education as we have explained. For the same reasons, we conclude plaintiffs have not stated a cause of action for mandate and the trial court correctly sustained CDE's demurrer to such cause of action.

IV. *Public Policy As Reflected In Education Code Section 56000*

Plaintiffs final argument on appeal contends public policy supports their position because they are "asking for nothing more than what California already deems to be appropriate for students with highly specialized needs." fn. 8 (Capitalization omitted.) Plaintiffs cite Education Code section 56000, which states that individuals with exceptional needs have the right to an appropriate educational opportunity to meet their unique needs. Plaintiffs claim Clancy has unique, exceptional and special needs and that section 56000 states a philosophical framework that demands all students of the age for compulsory education be provided with a tailored education.

As we have already stated, section 56000 (educational instruction and services to individuals with exceptional needs) is limited to children with disabilities and impairments. It does not reflect any statement of public policy applicable to all students or to highly gifted students. Under the free school guarantee of the California constitution and the current statutes children have a right to a standard, free public K-12 education. Plaintiffs allege Clancy has completed such an education. Plaintiffs have not sought to compel anything besides a free college education. Clancy is not entitled to such relief.

V. *Plaintiffs' Failure To Plead Prior Presentation Of A Government Tort Claim*

As we have rejected the merits of plaintiffs' claim that Clancy is entitled to have his college education funded by CDE, we need not address CDE's [144 Cal.App.4th 712] contention that any claim for money damages is precluded by plaintiffs' failure to plead prior presentation of a claim with the State Board of Control (Gov. Code, § 900.2, subd. (b) - now the Victim Compensation and Government Claims Board). (See Gov. Code, § 900 et seq.)

DISPOSITION

The judgment of dismissal is affirmed. Each party shall bear their own costs on appeal. (Cal. Rules of Court, rule 27(a)(4).)

Scotland, P.J., and Morrison, J., concurred.

FN 1. Plaintiffs' action named as defendants both Jack O'Connell as the California Superintendent of Public Instruction and the California Department of Education. For convenience, we shall hereafter simply refer to defendants as CDE.

FN 2. Plaintiffs' briefs on appeal do not contain any argument regarding the second and third causes of action of the first amended complaint under appropriate headings with meaningful discussion supported by authorities. (Cal. Rules of Court, rule 14(a)(1).) If plaintiffs are making any claim regarding those causes of action, the claim has not been properly made and is rejected on that basis. (*People v. Turner* (1994) 8 Cal.4th 137, 214, fn. 19; *Heavenly Valley v. El Dorado County Bd. of Equalization* (2000) 84 Cal.App.4th 1323, 1346.)

FN 3. Article IX of the California Constitution makes public education a matter of statewide rather than local concern. (*Kennedy v. Miller* (1893) 97 Cal. 429, 431; *Hall v. City of Taft* (1956) 47 Cal.2d 177, 179, 181, superseded by statute on

other grounds as noted in *City of Lafayette v. East Bay Mun. Utility Dist.* (1993) 16 Cal.App.4th 1005, 1013, fn. 5.)

FN 4. We emphasize we are considering in this case plaintiffs' allegations that CDE is *required* under current law to provide Clancy with a suitable or appropriate education, which in his case amounts to a college education. We are not addressing whether CDE should or should not (within the ordinary system of K-12 education), promote a policy of addressing students' individual needs to every extent possible. We are aware there is significant debate in the field of education regarding the educational needs of gifted and highly gifted children. (See, e.g., Davidson, Genius Denied: How to Stop Wasting Our Brightest Young Minds (2004); Colangelo, A Nation Deceived: How Schools Hold Back America's Brightest Students (2004).) We are not expressing an opinion on such issues, which are matters of public policy properly addressed to the Legislature or electorate, not the courts. (*Knight v. Superior Court* (2005) 128 Cal.App.4th 14, 19, 30.)

FN 5. Plaintiffs have cited us to Education Code section 66030, claiming it states a mandate that "'public education in California strive to provide [. . .] each California[n], . . . a reasonable opportunity to develop his or her potential.'" Plaintiffs misquote the section, which actually provides: "It is the intent of the Legislature that public *higher* education in California strive to provide . . . each Californian, . . . a reasonable opportunity to develop fully his or her potential." "Public higher education" refers to California Community Colleges, California State Universities, and each campus of the University of California. (Ed. Code, § 66010, subd. (a).) Section 66030 is irrelevant to whether the Legislature must tailor its K-12 education program to provide each student with individualized education.

FN 6. Plaintiffs include vague references to unspecified provisions of the United States Constitution in their cause of action for declaratory relief, but have provided no substantive discussion on appeal of their claim, except to point us to *Hayes, supra*, 11 Cal.App.4th 1564, which we have addressed. We do not need to respond further to plaintiffs' federal constitutional references. (*People v. Turner, supra*, 8 Cal.4th at p. 214, fn. 19; *Heavenly Valley v. El Dorado Bd. of Equalization, supra*, 84 Cal.App.4th at p. 1346.)

FN 7. California does have a gifted and talented pupil program. (Ed. Code, § 52200 et seq.) The governing boards of individual school districts may "elect" to provide programs pursuant to such state law. (Ed. Code, § 52206, subd. (a).) Plaintiffs' first amended complaint does not allege there was no such program available for Clancy or that the program available was inadequate. The first amended complaint alleges only that Clancy cannot attend a "traditional" K-12 school because the schools operated by CDE and Clancy's local district are "ill-equipped and unsuitable[,]" will "cause [him] harm" and "cannot provide for his specific psycho-social and academic needs." Plaintiffs' first amended complaint does not name as a defendant Clancy's local school district.

FN 8. Plaintiffs do not make a constitutional equal protection claim in this argument and have not challenged the trial court's ruling on their second and third causes of action. (See, *ante*, fn. 2.)

Wilson v. State Bd. of Education (1999) 75 Cal.App.4th 1125 , 89 Cal.Rptr.2d 745

[No. A084485. First Dist., Div. Four. Oct 26, 1999.]

RICHARD D. WILSON et al., Plaintiffs and Appellants, v. STATE BOARD OF EDUCATION, Defendant and Respondent; CALIFORNIA NETWORK OF EDUCATIONAL CHARTERS, Intervener and Respondent.

(Superior Court of the City and County of San Francisco, No. 995602, Raymond D. Williamson, Jr., Judge.)

(Opinion by Reardon, J., with Hanlon, P. J., and Poché, J., concurring.)

COUNSEL

Lynn S. Carman for Plaintiffs and Appellants.

Bill Lockyer, Attorney General, Stephanie Wald and Douglas M. Press, Deputy Attorneys General, for Defendant and Respondent.

Remcho, Johansen & Purcell, Joseph Remcho, James C. Harrison; Nielsen, Merksamer, Parrinello, Mueller & Naylor, John E. Mueller and James R. Parrinello for Intervener and Respondent.

John H. Findley and Sharon L. Browne for Pacific Legal Foundation and Pacific Research Institute as Amici Curiae on behalf of Defendant and Respondent and Intervener and Respondent.

OPINION

REARDON, J.-

"Charter schools are grounded in private-sector concepts such as competition-driven improvement ..., employee empowerment and customer focus. But they remain very much a public-sector creature, with in-bred requirements of accountability and broad-based equity. Simple in theory, complex in practice, charter schools promise academic results in return for freedom from bureaucracy." (Com. on Cal. State Gov. Organization and Economy, rep., The Charter Movement: Education Reform School by School (Mar. 1996) p. 1 (Little Hoover Report).)

Charter schools are a phenomenon of the 1990's. With the Charter Schools Act of 1992, fn. 1 California became the second state to enact charter school legislation. (RPP Internat. & U. of Minn., A Study of Charter Schools, First-Year Rep., Of. of Ed. Research & Improvements, Dept. Ed. **[75 Cal.App.4th 1130]** (1997).) Last year, the Legislature fine-tuned the program. fn. 2 Since the close of briefing, new provisions have been added. fn. 3

Troubled by what they see as a multifaceted assault on the California Constitution, appellants fn. 4 aim to halt the march of the charter school movement in California through a facial challenge to the Charter Schools Act and Assembly Bill No. 544. They have petitioned for a writ of mandate commanding the Board to refrain from (1) granting any charters under Assembly Bill No. 544 or the original legislation, and (2) expending any public funds in implementing those laws. Their petition has

been denied. On appeal appellants roll out a slate of errors. None have merit.

I. Statutory Framework

A. *The Original Enactment*

Anyone closely allied with a public school-whether a parent or family member of a student, or a teacher, administrator or classified staff member-can attest to the perils resident in the complex tangle of rules sustaining our public school system. These include the potential to sap creativity and innovation, thwart accountability and undermine the effective education of our children.

The 1992 legislation sought to disrupt entrenchment of these traits within the educational bureaucracy by encouraging the establishment of charter schools. Specifically, it permitted the founding of 100 charter schools statewide and up to 10 in any district. These schools would be free from most state laws pertaining uniquely to school districts. Each would receive a five-year revocable charter upon successful petition to the school district governing board or county board of education, signed by a specified percent of teachers. (Former §§ 47602, subd. (a), 47605, 47607, as added by Stats. 1992, ch. 781, § 1, pp. 3756-3761; fn. 5 § 47610.)

The original enactment set out six goals: (1) improving pupil learning; (2) increasing learning opportunities, especially for low-achieving students; (3) encouraging use of different and innovative teaching methods; (4) creating **[75 Cal.App.4th 1131]** new professional opportunities for teachers, including being responsible for the school site learning program; (5) providing parents and students with more choices in the public school system; and (6) holding schools accountable for measurable pupil outcomes and providing a way to change from rule-based to performance-based accountability systems. fn. 6 (Former § 47601.)

Charter schools nonetheless were-and are-subject to important restraints: (1) they must be nonsectarian in their programs, admission policies, employment practices, and all other operations (former § 47605, subd. (d) [now § 47605, subd. (d)(1)]); (2) charter schools cannot charge tuition or discriminate against any student on the basis of ethnicity, national origin, gender or disability (*ibid.*); and (3) no private school can be converted to a charter school (former [and current] § 47602, subd. (b)).

The petition to establish a charter school was, and is, a comprehensive document which must, among other items, set forth (1) a description of the educational program; (2) student outcomes and how the school intends to measure progress in meeting those outcomes; (3) the school's governing structure; (4) qualifications of employees; (5) procedures to ensure the health and safety of students and staff; (6) means of achieving racial and ethnic balance among its students that reflects the general population within the territory of the school district; (7) admission requirements, if applicable; (8) annual audit procedures; (9) procedures for suspending and expelling students; and (10) attendance alternatives for students who choose not to attend charter schools. (Former § 47605, subd. (b) [now § 47605, subd. (b)(5)].)

Under the 1992 scheme, upon receiving a duly signed charter petition and convening a public hearing on its provisions, the school district had discretion to grant or deny the charter. (Former § 47605, subd. (b).) The granting of a charter exempted the school from laws governing school districts except, at the school's option, provisions concerning participation in the state teacher's retirement system. (Former §§ 47610, 47611.) Denial of a charter could trigger procedures for reconsideration, at petitioner's request. (Former § 47605, subd. (j)(1), (3).)

Charter schools were, and are, required to meet statewide performance standards and conduct certain pupil assessments. (Former § 47605, subd. (c) [now § 47605, subd. (c)(1)].) The chartering authority could, and can, revoke a charter for various deficiencies including charter or legal violations and failure to meet student outcomes. (Former [and current] § 47607, subd. (b).) **[75 Cal.App.4th 1132]**

B. *Assembly Bill No. 544*

Assembly Bill No. 544 substantially revamped the 1992 enactment. Gone is the cap of 100 charter schools, replaced with a 1998-1999 school year cap of 250, with 100 more authorized each successive school year. (§ 47602, subd. (a).)

Gone too is the exclusive reliance on teacher signatures to start the petition process. Now, a petition is valid if signed by the number of parents/guardians equal to at least half of the estimated students, or the number of teachers equal to at least half the teachers expected to be employed. (§ 47605, subd. (a)(1).) The petition must display a statement that the signator is "meaningfully interested" in sending his or her child to, or teaching at, the charter school, as the case may be. (*Id.*, subd. (a)(3).) Petitions for the conversion of an existing public school to a charter school must be signed by at least half of the permanent status teachers currently employed at the school. (*Id.*, subd. (a)(2).)

Gone also is the broad discretion in granting or denying a charter. Now, following review of the petition and the requisite public hearing, the governing board of the district "shall not deny a petition" unless it makes written findings of fact that: (1) The charter school presents an unsound educational program; (2) petitioners are "demonstrably unlikely" to succeed in implementing the program; or (3) the petition lacks the required signatures, affirmations or descriptions of program articulars. (§ 47605, subd. (b).) If the school district nonetheless denies a petition, the petitioner can submit to the county board of education or the Board. (*Id.*, subd. (j)(1).) Additionally, petitioner can submit directly to the county board of education for a charter school that would serve pupils otherwise directly served by the county office of education. (§ 47605.5.)

As well, the amendments permit a charter school to operate as a nonprofit benefit corporation, with the school district granting the charter entitled to one representative on the board of directors. (§ 47604, subds. (a), (b).)

Now, the Board itself, upon recommendation of the Superintendent of Public Instruction (Superintendent), can take "appropriate action," including revoking the charter of any school, if it finds "[g]ross financial mismanagement" (§ 47604.5, subd. (a)); "[i]llegal or substantially improper" use of funds (*id.*, subd. (b)); or that "[s]ubstantial and sustained departure" from successful practices jeopardizes the educational development of the students (*id.*, subd. (c)).

Other new provisions include the following: (1) No funds will be given for any pupil who also attends a private school that charges his or her family **[75 Cal.App.4th 1133]** for tuition (§ 47602, subd. (b)); (2) all charter schoolteachers must hold a Commission on Teaching Credentialing certificate or equivalent (§ 47605, subd. (*l*)); (3) petitioners must provide the chartering authority with financial statements that include a proposed first-year operational budget and three-year cash-flow and financial projections (*id.*, subd. (g)); (4) charter schools must use generally accepted accounting principles in conducting the required annual financial audits, and any exceptions or deficiencies identified during the audit must be resolved to the satisfaction of the chartering authority (*id.*, subd. (b)(5)(I)).

Concerning accountability, charter schools must "promptly respond to all reasonable inquiries" from either the chartering authority or the Superintendent. (§ 47604.3.) Additionally, the chartering authority can "inspect or observe any part of the charter school at any time" (§ 47607, subd. (a)) and charge the school for supervisorial oversight (§ 47613.7, subd. (a)).

C. *Senate Bill No. 434*

Senate Bill No. 434 (1999-2000 Reg. Sess.) further refines the Charter Schools Act. Starting January 1, 2000, charter schools must (1) at a minimum, offer the same number of instructional minutes per grade level as required of all school districts (§ 47612.5, subd. (a)(1) [added by Stats. 1999, ch. 162, § 1]); and (2) maintain written contemporaneous records documenting pupil attendance and make the same available for audit and inspection (*id.*, subd. (a)(2)). As well, as a condition of apportionment of state funding, charter schools must certify that its pupils have participated in the state testing program in the same manner as all other pupils attending public schools. (*Id.*, subd. (a)(3).) Further, charter schools which provide independent study must comply with statutory requirements and implementing regulations that relate to independent study. (*Id.*, subd. (b).) And finally, in keeping with this sentiment, charter schools will be held to the same prohibition as local education agencies when it comes to extending funds or value to pupils in independent study programs (or their parents or guardians): They cannot claim state funding if the funds or other value so extended could not legally be extended to similarly situated pupils of a school district (or their parents or guardians). (§ 51747.3, subd. (a), as amended by Senate Bill No. 434 [Stats. 1999, ch. 162, § 2].)

II. Standard of Review

Appellants have provoked a facial challenge to the Charter Schools Act and the Assembly Bill No. 544 amendments. This comes with a formidable burden commensurate with the outcome of a successful assault-namely, invalidation of a legislative act. **[75 Cal.App.4th 1134]**

[1] The California Constitution fn. 7 is a limitation on the powers of the Legislature, and we construe such limits strictly. (*Pacific Legal Foundation v. Brown* (1981) 29 Cal.3d 168, 180 [172 Cal.Rptr. 487, 624 P.2d 1215].) Thus, when scrutinizing the constitutionality of a statute, we start with the premise of *validity*, resolving all doubts in favor of the Legislature's action. (*Arcadia Unified School Dist. v. State Dept. of Education* (1992) 2 Cal.4th 251, 260 [5 Cal.Rptr.2d 545, 825 P.2d 438].) This presumption of constitutionality is particularly appropriate where, as here, the Legislature has enacted a statute with the pertinent constitutional prescriptions in mind. fn. 8 "In such a case, the statute represents a considered legislative judgment as to the appropriate reach of the constitutional provision." (*Pacific Legal Foundation v. Brown*, *supra*, 29 Cal.3d at p. 180.) Finally, to void a statute on its face, "petitioners cannot prevail by suggesting that in some future hypothetical situation constitutional problems may possibly arise as to the particular application of the statute .... Rather, petitioners must demonstrate that the act's provisions inevitably pose a present total and fatal conflict with applicable

constitutional prohibitions." (*Id.* at pp. 180-181, italics omitted.)

III. Discussion

A. *The Legislature Has Plenary Power Over Public Schools*

[2a] As a preamble to addressing the amalgam of constitutional objections laid out in this appeal, we emphasize that the Legislature's power over our public school system is plenary, subject only to constitutional restraints. (*Hall v. City of Taft* (1956) 47 Cal.2d 177, 180-181 [302 P.2d 574]; *California Teachers Assn.* v. *Hayes* (1992) 5 Cal.App.4th 1513, 1524 [7 Cal.Rptr.2d 699].) Since 1879 our Constitution has declared the Legislature's preeminent role in encouraging education in this state, as well as its fundamental obligation to establish a system of public schools: "A general diffusion of knowledge and intelligence being essential to the preservation of the rights and liberties of the people, the Legislature shall encourage by all suitable means the promotion of intellectual, scientific, moral, and agricultural improvement." (Art. IX, § 1.) "The Legislature shall provide for a system of common schools by which a free school shall be kept up and supported in each district at least six months in every year, after the first year in which a school has been established." (*Id.*, § 5.)

There can thus be no doubt that our Constitution vests the Legislature with sweeping and comprehensive powers in relation to our public schools (*Hall* **[75 Cal.App.4th 1135]** v. *City of Taft*, *supra*, "47 Cal.2d at p. 179), including broad discretion to determine the types of programs and services which further the purposes of education (*California Teachers Assn.* v. *Hayes*, *supra*, 5 Cal.App.4th at p. 1528).

[3a] Appellants first maintain that the 1998 Assembly Bill No. 544 amendments violate article IX, section 5 because they amount to abdication of *any* state control over essential educational functions, e.g., control over curriculum, textbooks, educational focus, teaching methods and operations of charter schools. This is so, they argue, because the parents and teachers who write the charters and the grantees who operate the schools now run the show with respect to all these functions.

Appellants confuse the delegation of certain educational functions with the delegation of the public education system itself. As explained in *California Teachers Assn.* v. *Board of Trustees* (1978) 82 Cal.App.3d 249, 253-254 [146 Cal.Rptr. 850], the public school system is the system of schools, which the Constitution requires the Legislature to provide-namely kindergarten, elementary, secondary and technical schools, as well as state colleges-and the administrative agencies which maintain them. (See art. IX, § 6 [delineating features of public school system].) However, the curriculum and courses of study are not constitutionally prescribed. Rather, they are *details* left to the Legislature's discretion. Indeed, they do not constitute part of the system but are merely a function of it. (*California Teachers Assn.* v. *Board of Trustees, supra*, 82 Cal.App.3d at p. 255.) The same could be said for such functions as educational focus, teaching methods, school operations, furnishing of textbooks and the like.

Moreover, appellants take too myopic a view of what it means for the state to retain control of our public schools, including charter schools. The Charter Schools Act represents a valid exercise of legislative discretion aimed at furthering the purposes of education. Indeed, it bears underscoring that charter schools are *strictly* creatures of statute. From how charter schools come into being, to who attends and who can teach, to how they are governed and structured, to funding, accountability and evaluation-the Legislature has plotted all aspects of their existence. Having created the charter school approach, the Legislature can refine it and expand, reduce or abolish charter schools altogether. (See §§ 47602, subd. (a)(2), 47616.5.) In the meantime the Legislature retains ultimate responsibility for all aspects of education, including charter schools. [2b] " 'Where the Legislature delegates the local functioning of the school system to local boards, districts or municipalities, it does so, always, with its constitutional power and responsibility for ultimate control for the common welfare in reserve.' " (*Phelps* v. **[75 Cal.App.4th 1136]** *Prussia* (1943) 60 Cal.App.2d 732, 738 [141 P.2d 440], quoting trial court decision.)

B. *Charter Schools Are Part of California's Public School System*

[3b] Appellants further complain that Assembly Bill No. 544 has spun off a separate system of charter public schools that has administrative and operational independence from the existing school district structure, and whose courses of instruction and textbooks may vary from those of noncharter schools. Such splintering, appellants charge, violates the article IX, section 5 mandate to the Legislature to provide a "system of common schools."

Article IX, section 6 defines "Public School System" as including "all kindergarten schools, elementary schools, secondary schools, technical schools, and state colleges, established in accordance with law and, in addition, the school districts and the other agencies authorized to maintain them."

The key terms in these provisions are "common" and "system." The concept of a "common" school is linked directly to that of a "free school," which the Constitution mandates must be "kept up and supported" in each district for a prescribed annual duration. (Art. IX, § 5.) Historically, common schools were the "primary and grammar" schools, distinguished from other instrumentalities of the public school system by virtue of being the exclusive beneficiaries of the state school fund. (*Los Angeles County v. Kirk* (1905) 148 Cal. 385, 390-391 [83 P. 250]; *Stockton School District v. Wright* (1901) 134 Cal. 64, 67 [56 P. 34]; Jones, *Chapters on the School Law of California* (1914) 2 Cal.L.Rev. 459, 460-461.)

As to the concept of a system, we note that early on in California history "the contest was between a state system and a local system of common schools." (*Mitchell v. Winnek* (1897) 117 Cal. 520, 526 [49 P. 579].) The notion of a single state system, under state control, prevailed. (See *id.* at pp. 523-526.) *Piper v. Big Pine School Dist.* (1924) 193 Cal. 664, 666 [226 P. 926] presents a variation on this theme: At that time, the federal government had established "a school for the education and training of members of the Indian race" within the territorial boundaries of Big Pine School District. Alice Piper, "a female Indian child," sought admission to school in that district. (*Id.* at p. 665.) Our Supreme Court agreed that she was entitled to admission, holding that eligibility to attend the federal school did not satisfy the mandate of article IX, section 5 because the state had no control over that school. (*Piper v. Big Pine School Dist., supra*, 193 Cal. at pp. 672-673.) **[75 Cal.App.4th 1137]**

Thus the term "system" has come to import " 'unity of purpose as well as an entirety of operation, and the direction to the legislature to provide "a" system of common schools means *one* system which shall be applicable to all the common schools within the state.' " (*Serrano v. Priest* (1971) 5 Cal.3d 584, 595 [96 Cal.Rptr. 601, 487 P.2d 1241, 41 A.L.R.3d 1187], original italics.) This means that the educational system must "be uniform in terms of the prescribed course of study and educational progression from grade to grade." (*Id.* at p. 596.)

From this perspective it is apparent that charter schools are part of California's single, statewide public school system. First, the Legislature has explicitly found that charter schools are (1) part of the article IX "Public School System"; (2) under its jurisdiction; and (3) entitled to full funding. (§ 47615, subd. (a).) These findings are entitled to deference. (*Amwest Surety Ins. Co.* v. *Wilson* (1995) 11 Cal.4th 1243, 1252 [48 Cal.Rptr.2d 12, 906 P.2d 1112].) As well, the Legislature has directed that the Charter Schools Act "shall be liberally construed to effectuate [these] findings ...." (§ 47615, subd. (b).)

Second, the establishment of charter schools does not create a dual system of public schools, as, for example, would be the case if there were a competing local system. Rather, while loosening the apron springs of bureaucracy, the Act places charter schools within the common system of public schools, as the following provisions illustrate: Charter schools by law are free, nonsectarian and open to all students. (§ 47605, subd. (d)(1).) They cannot discriminate against students on the basis of ethnicity, national origin, gender or disability. (*Ibid.*) Further, charter schools must meet statewide standards and conduct pupil assessments applicable to pupils in noncharter public schools (*id.*, subd. (c)(1)); fn. 9 must hire credentialed teachers (*id.*, subd. (*l*)); and are subject to state and local supervision and inspection **[75 Cal.App.4th 1138]** (§§ 47605, subd. (k)(1), 47607, subd. (a)). Finally, beginning next year, charter schools must offer the minimum duration of instruction as required of all other public schools. (§ 47612.5, subd. (a)(1) [added by Stats. 1999, ch. 162, § 1].)

In sum it is clear that the Act brings charter schools within the system uniformity requirement because (1) their students will be taught by teachers meeting the same minimum requirements as all other public school teachers; (2) their education programs must be geared to meet the same state standards, including minimum duration of instruction, applicable to all public schools; and (3) student progress will be measured by the same assessments required of all public school students.

Moreover, the Act assures that charter schools will receive funding comparable to other public schools. (§§ 47612-47613.5.) In addition, it guards against the flow of funds to schools outside the system. For example, the Act prohibits the conversion of private schools to charter schools. It also bars charter schools from receiving any public funds for any pupil also attending a private school that charges the family for tuition. (§ 47602, subd. (b).)

C. *Charter Schools Are Under the Exclusive Control of Officers of the Public Schools and Fall Under the Jurisdiction of the Public School System*

[4] Next, appellants contend that charter schools offend constitutional provisions calling for public schools to be under the exclusive control of officers of the public school system, as well as under the jurisdiction of that system. We find no problem.

1. *Article IX, Section 8*

Article IX, section 8 provides in part: "No public money shall ever be appropriated for the support of any sectarian or denominational school, or any school not under the exclusive control of the officers of the public schools ...."

This section endeavors to (1) prohibit the use of public funds to support private schools, whether sectarian or not; and (2) preserve strict separation **[75 Cal.App.4th 1139]** between religion and public education. Appellants attempt to build the argument that charter schools are private, not public schools. They are convinced that under Assembly Bill No. 544, officers of public schools have no real control over the educational product delivered by charter schools because these officers cannot deny a charter petition except upon finding that the educational program is unsound, the petitioners are "demonstrably unlikely" to succeed in implementing the program, or that the petition lacks certain mandatory items. (§ 47605, subd. (b).) According to appellants, this means the charter grantees are in control, and again according to appellants, they are not officers of the public schools.

First, the terms of Assembly Bill No. 544 belie these contentions. To begin with, charter schools *are* public schools because, as explained above, charter schools are part of the public school system. fn. 10 (§ 47615, subd. (a)(1).) Further, the Legislature has specifically declared that charter schools are under "the exclusive control of the officers of the public schools" (*id.*, subd. (a)(2)) and directs us to construe the law liberally to effectuate that finding (*id.*, subd. (b)).

Second, one court construing the "exclusive control" language harkened back to early constitutional history, observing that "[t]he language of article IX, section 8, has remained unchanged since its proposal in the constitutional convention of 1878-1879 and its adoption by the People on May 7, 1879. It was approved at the convention without significant debate .... (See 3 Debates and Proceedings of the Constitutional Convention of the State of Cal. (1881).) ... The delegates were seriously concerned with assuring that public funds should only be used for support of the public school system they were creating in article IX .... Thus, in another context a delegate expressed concern about any 'opposition system of schools against the common schools of the State ....' " (*Board of Trustees v. Cory* (1978) 79 Cal.App.3d 661, 665 [145 Cal.Rptr. 136].) Obviously charter schools are not in opposition to the public school system. On the contrary, they are a part of that system. Although they have operational independence, an overarching purpose of the charter school approach is to infuse the public school system with competition in order to stimulate continuous improvement in *all* its schools. (§ 47601, subd. (g).)

Third, we wonder what level of control could be more complete than where, as here, the very destiny of charter schools lies solely in the hands of public agencies and offices, from the local to the state level: school districts, **[75 Cal.App.4th 1140]** county boards of education, the Superintendent and the Board. The chartering authority controls the application approval process, with sole power to issue charters. (See §§ 47605, 47605.5.) Approval is not automatic, but can be denied on several grounds, including presentation of an unsound educational program. (§ 47605, subd. (b)(1).) Chartering authorities have continuing oversight and monitoring powers, with (1) the ability to demand response to inquiries concerning financial and other matters (§ 47604.3); fn. 11 (2) unlimited access to "inspect or observe any part of the charter school at any time" (§ 47607, subd. (a)(1)); and (3) the right to charge for actual costs of supervisorial oversight (§ 47613.7, subd. (a)). As well, chartering authorities can revoke a charter for, among other reasons, a material violation of the charter or violation of any law. (§ 47607, subd. (b)(1).) Short of revocation, they can demand that steps be taken to cure problems as they occur. (*Id.*, subd. (c).) The Board, upon recommendation from the Superintendent, can also revoke any charter or take other action in the face of certain grave breaches of financial, fiduciary or educational responsibilities. (§ 47604.5.) Additionally, the Board exercises continuous control over charter schools through its authority to promulgate implementing regulations. (§§ 47605, subd. (j)(4), 47613.5, subd. (b).) Finally, public funding of charter schools rests in the hands of the Superintendent. (See §§ 47612, 47613.)

Fourth, the sum of these features, which we conclude add up to the requisite constitutional control over charter schools, are in place whether a school elects to "operate as, or be operated by, a nonprofit public benefit corporation" (§ 47604, subd. (a)), or whether it remains strictly under the legal umbrella of the chartering authority. In other words, even a school operated by a nonprofit could never stray from under the wings of the chartering authority, the Board, and the Superintendent. We note too that situating the locus of control with the public school system rather than the nonprofit is not incompatible with the laws governing nonprofit public benefit corporations. Specifically, one of their enumerated powers is to "[p]articipate with others in any partnership, joint venture or other association, transaction or arrangement of any kind *whether or not such participation involves sharing or delegation of control with or to others*." (Corp. Code, § 5140, subd. (j), italics added.)

Fifth, speaking directly to appellants' repeated concern that charter grantees will be making decisions about curriculum and similar educational functions and thus the necessary control element has been abandoned, we reiterate that these functions are details left to legislative discretion. (*California Teachers Assn.* v. *Board of Trustees*, *supra*, 82 Cal.App.3d at p. 255.) With the Charter Schools Act, the Legislature has exercised its discretion to **[75 Cal.App.4th 1141]** sanction a certain degree of flexibility and operational independence, thereby giving the nod to healthy, innovative practices and experimentation. Central to its intent is the goal of stimulating continuous improvement in *all* public schools by fostering competition within the public school system itself. (See § 47601, subd. (g).) And in any event, through their powers to deny petitions and revoke charters, chartering authorities *do* exercise control over these educational functions.

Sixth, as to appellants' point that charter grantees are not officers of public schools, the law again belies this proposition. The Constitution gives the Legislature the "power, by general law, to provide for the incorporation and organization of school districts ... of every kind and class, and [to] classify such districts." (Art. IX, § 14.) Seizing this power, the Legislature has declared that "[a] charter school shall be deemed to be a 'school district' for purposes of Section 41302.5 and Sections 8 and 8.5 of Article XVI ...." fn. 12 (§ 47612, subd. (c).) Appellants argue that a charter school is not a school district "because its incorporation and organization [have] not been provided by an enactment of the Legislature ...." What is the Charter Schools Act if not an enactment of the Legislature providing for the organization of charter schools as districts for purposes of the enumerated provisions? Nothing in article IX, section 6 says that a district *classified* by the Legislature must also be *incorporated* pursuant to explicit legislative direction.

Thus, under this scheme, charter school officials are officers of public schools to the same extent as members of other boards of education of public school districts. So long as they administer charter schools according to the law and their charters, as they are presumed to do, they stand on the same constitutional footing as noncharter school board members. If they violate the law, the charter will be revoked.

2. *Article IX, Section 6*

Appellants advance similar arguments concerning the jurisdictional requirement of article IX, section 6. This section reads in part: "No school or college or any other part of the Public School System shall be, directly or indirectly, transferred from the Public School System *or placed under the* **[75 Cal.App.4th 1142]** jurisdiction of any authority other than one included within the Public School System." (Italics added.) Article IX, section 6 also provides that the public school system consists of the various levels and types of public schools and colleges as well as "the school districts and the other agencies authorized to maintain them."

School districts, county boards of education and respondent Board share several things in common: The formation of each entity is provided for in article IX (§ 7 [Board and county boards of education], §§ 14 & 16 [local school districts and their governing boards]). As such each entity is "authorized to maintain" the various schools in our public school system. (*Id.*, § 6.) Finally, each entity is a defined chartering and revoking authority under the Act (§§ 47605, subds. (b), (j), 47605.5, 47607), with supervisorial oversight over their charter schools (§§ 47604.3, 47607, 47613.7). The most direct answer to appellants' jurisdictional challenge is this: Charter schools are under the jurisdiction of chartering authorities; chartering authorities are authorities "within the Public School System," and hence no violation of article IX, section 6 can be stated.

To the extent appellants define the term "jurisdiction" more narrowly as "management and control" (citing *California Teachers Assn.* v. *Board of Trustees*, *supra*, 82 Cal.App.3d at p. 256), our analysis of article IX, section 8 fully applies. (See pt. C.1., *ante*.)

D. *The Charter Schools Act As Amended Does Not Run Afoul of Constitutional Prohibitions Against Public Appropriations in Aid of Sectarian Purposes or Institutions*

[5] Appellants' greatest misgiving is their assessment that the current scheme "requires the issuance of a school charter to every church or sect who otherwise qualifies to be a charter grantee ...." (Underscore omitted.) They reason as follows: A chartering authority cannot deny a charter, whether the proposed grantee is sectarian or not, unless it can render one of the negative findings set forth in section 47605, subdivision (b). This is so because the statute does not explicitly authorize chartering authorities to deny a petition on grounds that petitioner is a religious organization or an affiliate of a religious organization.

Moreover, appellants are dismayed that the Act does not specifically sanction charter revocation in the event a school is or becomes controlled by **[75 Cal.App.4th 1143]** a religious sect. fn. 13 Accordingly, they are adamant that churches and other sectarian groups will and must be permitted to operate and control charter schools, all in defiance of article XVI, section 5 fn. 14 and article IX, section 8 (quoted in pertinent part in pt. C.1., *ante*).

The antidote to these concerns is found in the Act itself. Charter petitioners must affirm that their school will be nonsectarian in its programs and operations. (§ 47605, subds. (b)(4), (d)(1).) A petition lacking such affirmation can be denied. (*Id.*, subd. (b)(4).) But what if the petition contained the requisite affirmation but petitioners nonetheless were controlled by a religious organization? In that event, the chartering authority could deny the petition because petitioners were "demonstrably unlikely to successfully implement the program set forth in the petition," most notably its nonsectarian premise. (*Id.*, subd. (b)(2).) Moreover, a petition for a charter school controlled by a sectarian organization would be denied under this same clause because the school would be *illegal* under article XVI, section 5. A school illegal from its inception has little chance of success. **[75 Cal.App.4th 1144]**

In addition, if a school's religious affiliation evolved *after* charter status was attained, or, if initially masked, became revealed at such later time, either situation would be immediate grounds for charter revocation. In the first instance, the school would come within the "[v]iolated any provision of law" provision of section 47607, subdivision (b)(4). In the latter instance, petitioners would have presented a facially acceptable but misleading petition, i.e., one affirming that the school would be nonsectarian in its programs and operations. (§ 47605, subds. (b)(4), (d)(1).) When that proved not to be the case, the charter would be subject to revocation because the school materially violated its charter. (§ 47607, subd. (b)(1).)

Appellants' various legal arguments are not persuasive. First, they dissect the holding of *California Teachers Assn.* v. *Riles* (1981) 29 Cal.3d 794 [176 Cal.Rptr. 300, 632 P.2d 953], a case that has no applicability to the one at hand. *Riles* involved a constitutional challenge to the statutory textbook loan program, which authorized the lending of public school textbooks to students attending private schools. There was no question that sectarian schools would benefit from the program. The only question was the *character* of the benefit provided, the state defendants arguing an indirect benefit under the "child benefit" doctrine. The high court rejected their arguments, holding that the benefit to sectarian schools themselves was neither indirect nor remote. By providing textbooks at public expense the loan program appropriated money to advance the educational function of sectarian schools, in violation of section 8 of article IX and section 5 of article XVI. (*California Teachers Assn.* v. *Riles, supra*, 29 Cal.3d at pp. 809-813.)

In contrast, charter schools must be nonsectarian. Not content with the nonsectarian provisions of the Charter Schools Act, appellants claim the law is flawed because it does not include an express nonaffiliation provision, as do the Minnesota and federal charter school laws. fn. 15 Their theory is untenable: that section 47605, subdivision (d), as worded, authorizes "public charter schools to be owned by, controlled by, affiliated with, fn. 16 or operated by, a church or religious group, provided, that it be nonsectarian in its programs, admission policies, employment practices, and all other operations." **[75 Cal.App.4th 1145]**

This construction disregards settled principles of statutory construction, such as: We presume that the Legislature operates within the borders of the Constitution when enacting legislation. (*In re Kay* (1970) 1 Cal.3d 930, 942 [83 Cal.Rptr. 686, 464 P.2d 142].) fn. 17 Unless a conflict with a provision of the Constitution is clear and unquestionable, we will uphold the statute, wherever possible interpreting it as consistent with applicable constitutional provisions, seeking to harmonize statute and Constitution. (*Arcadia Unified School Dist. v. State Dept. of Education*, *supra*, 2 Cal.4th at p. 260.) Finally, there is no requirement that the Legislature bar by statute what is already barred by Constitution. (See *Bowen v. Kendrick* (1988) 487 U.S. 589, 614 [108 S.Ct. 2562, 2577, 101 L.Ed.2d 520].) In this sense, a nonaffiliation provision would be redundant because nonaffiliation is already constitutionally proscribed.

E. *The Charter Schools Act Does Not Conflict With the Textbook Adoption Requirement of Article IX, Section 7.5*

[6] The broad exemption from most education laws governing school districts, which the Act extends to charter schools, embraces section 60200 concerning adoption of textbooks by the Board. Article IX, section 7.5 calls for such adoption: "The [Board] shall adopt textbooks for use in grades one through eight throughout the State, to be furnished without cost as provided by statute."

From this appellants posit infringement of article IX, section 7.5. But how? By its terms the provision imposes a requirement *on the Board*. It does not constitute a limitation on school districts, prohibit them from choosing other books, fn. 18 or hinder the Legislature from enacting laws delineating the scope of the Board's authority (see *Engelmann v. State Bd. of Education*, *supra*, 2 Cal.App.4th at p. 54). "[T]he Legislature may define, limit, or condition a constitutional power or right so long as it does not unduly burden **[75 Cal.App.4th 1146]** the exercise of that power or right." (*Ibid.*) This is just what section 47610 does: By exempting charter schools from the textbook adoption (and numerous other) laws, the Legislature has limited the scope of the Board's authority with respect to the textbook selection process. However, the price for limited experimentation and operational freedom afforded to charter schools does not unduly burden the Board's exercise of its textbook selection powers. Therefore, the Act does not run afoul of article IX, section 7.5.

F. *The Act Does Not Impermissibly Delegate Legislative Powers*

[7a] Appellants' final protest concerns the effect of the unamended Charter Schools Act, should we strike Assembly Bill No. 544. They insist that the underlying enactment amounts to an unconstitutional delegation of legislative powers to the Board and other chartering authorities. Specifically, they assert that the power to issue charters has been handed over without standards or guidance as to a whole quilt of concerns: decisions about curriculum, texts, educational focus, and teaching methods; minimum qualifications of charter grantees; whether, through apt terms in the charter, to retain control over publi educational functions of the charter schools; and whether to grant charters to grantees controlled by a church or religious sect. Appellants cast each of these issues as implicating "a fundamental policy decision which the Legislature [is] required to make ...."

To begin with, the Legislature has not left it up to charter authorities to decide whether to grant a charter to a grantee controlled by a religious sect. To reiterate: Article XVI, section 5 *is* the standard, and the standard is "don't do it under any circumstances."

Next, appellants misunderstand the legislative function. [8] "Essentials of the legislative function include the determination nd formulation of legislative policy. 'Generally speaking, attainment of the ends, including how and by what means they are to be achieved, may constitutionally be left in the hands of others. The Legislature may, after declaring a policy and fixing a primary standard, confer upon executive or administrative officers the "power to fill up the details" by prescribing administrative rules and regulations to promote the purposes of the legislation and to carry it into effect ....' " (*State Bd. of Education v. Honig* (1993) 13 Cal.App.4th 720, 750 [16 Cal.Rptr.2d 727], quoting *First Industrial Loan Co. v. Daugherty* (1945) 26 Cal.2d 545, 549 [159 P.2d 921].)

[7b] Here, the Legislature made the fundamental policy decision to give parents, teachers and community members the opportunity to set up public schools with operational independence in order to improve student learning, **[75 Cal.App.4th 1147]** promote educational innovation and accomplish related public education goals. (§ 47601.) From there, the Legislature set limits on the number of charter schools that can exist at any particular time and their term (§§ 47602, subd. (a), 47606, subd. (a)); controlled against charter status by way of private school conversion (§ 47602, subd. (b)); and fixed standards for charter schools, as detailed in the numerous petition and operational requirements set forth in section 47605. Having set the policy and fixed standards and limits, the Legislature did its job: "In the educational setting, legislatures rarely control public school operations directly, but delegate authority which permits state, regional, and local education agencies to establish school policies and practices." (*State Bd. of Education v. Honig*, *supra*, 13 Cal.App.4th at p. 750.)

Reasonable grants of power to administrative agencies will not offend the nondelegation doctrine so long as adequate safeguards exist to protect against abuse of that power. (*State Bd. of Education v. Honig*, *supra*, 13 Cal.App.4th at p. 751.) Here, procedures are in place to safeguard the chartering authority decisionmaking process. These include procedures for review of denied petitions (§ 47605, subd. (j)) and, with the Assembly Bill No. 544 amendments, open meeting requirements (§ 47608).

Finally, while it is obvious that appellants wish for more-and more detailed-standards and guidelines, more could not be better in this situation where a primary purpose of the Act is to encourage educational innovation, experimentation and choice in order to improve learning and expand learning opportunities for all students. How can you write the score to a symphony yet to be created?

IV. Disposition

The Charter Schools Act rests on solid constitutional ground. We affirm the judgment.

Hanlon, P. J., and Poché, J., concurred.

A petition for a rehearing was denied November 24, 1999, and appellants' petition for review by the Supreme Court was denied January 25, 2000.

FN 1. The Charter Schools Act of 1992 was added by Statutes 1992, chapter 781, section 1, page 3756, and is found at part 26.8 of the Education Code, section 47600 et seq. (hereafter the Charter Schools Act or the Act).

Unless otherwise indicated, all statutory references are to the Education Code.

FN 2. Assembly Bill No. 544 (1997-1998) enacted as Statutes 1998, chapter 34, sections 1-19, amended and added new provisions to the Act.

FN 3. Senate Bill No. 434 (1998-2000 Reg. Sess.) enacted as Statutes 1999, chapter 162, sections 1, 2, effective January 1, 2000.

FN 4. Appellants are Richard D. Wilson and Fernando Ulloa, residents and taxpayers of San Francisco and Marin Counties, respectively. Respondent is the State Board of Education (Board); intervener is the California Network of Educational Charters.

FN 5. Hereafter, references to former section means those sections as added by Statutes 1992, chapter 781, section 1, pages 3756-3761.

FN 6. Assembly Bill No. 544 (1997-1998 Reg. Sess.) adds a seventh goal: "Provide vigorous competition within the public school system to stimulate continual improvements in all public schools." (§ 47601, subd. (g).)

FN 7. All references to constitutions and articles are to the California Constitution.

FN 8. Note, for example, that the Legislature has specifically found and declared that "Charter schools are part of the Public School System, as defined in Article IX" (§ 47615, subd. (a)(1)) and are "under the jurisdiction of the Public School System and the exclusive control of the officers of the public schools" (*id.*, subd. (a)(2)) "for purposes of Section 8 of Article IX ...." (§ 47612, subd. (b).)

FN 9. Specifically, section 47605, subdivision (c)(1) states: "Charter schools shall meet all statewide standards and conduct the pupil assessments required pursuant to Section 60605 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in noncharter public schools."

Section 60605, subdivision (a)(1)(A) directs the Board, according to various time frames, to "adopt statewide academically rigorous content standards ... in the core curriculum areas of reading, writing, and mathmematics to serve as the basis for assessing the academic achievement of individual pupils and of schools, school districts, and the California education system." By November 1, 1998, the Board was to adopt content standards for history/social science and science. The adoption of statewide performance standards and pupil assessments in these areas follow on a later time frame. (*Id.*, subd. (a)(1)(B).)

Section 60605, subdivision (c)(1) and (2) calls on the Board to adopt an assessment instrument and to require each district to administer the statewide assessment to all pupils in specified grades and in specified subject areas.

It is highly significant to appellants' dual system argument that these very same academic content and performance standards adopted by the Board pursuant to section 60605 are model standards, which means that school districts may use them as a guideline in developing district standards. (See § 60618.) Thus, school districts have discretion when it comes to standards, just as charter schools do. All schools, however, must participate in the mandatory statewide assessments, which ensures a constitutional level of cohesion within the curriculum and course of study at each grade level in all schools. Section 47612.5, subdivision (a)(3) (added by Stats. 1999, ch. 162, § 1) conditions state funding on certification that charter school pupils participated in the state testing program in the same manner as all other public school students.

FN 10. Because charter schools are public schools and serve to further public education goals, contrary to appellants' additional assertion, their funding does not offend the public purpose doctrine. (See *City of Los Angeles* v. *Lewis* (1917) 175 Cal. 777, 779-780 [167 P. 390].)

FN 11. The Superintendent can likewise prompt inquiry. (§ 47604.3.)

FN 12. Article XVI, section 8 gives priority funding status to support of the public school system and public institutions of higher education and also sets minimum amounts of funding. Section 8.5 of article XVI provides for allocation of property tax revenues to public schools. Section 41302.5 states that for purposes of these two constitutional sections, the term " 'school districts' shall include county boards of education, county superintendents of schools, and direct elementary and secondary level instructional services provided by the state ...."

FN 13. To demonstrate their concern, appellants refer us to the discussion in the Little Hoover Report about an independent study, home-based charter school where, "[a]t the request of parents, the school was purchasing textbooks published by organizations with religious affiliations." (Little Hoover Rep., *supra*, at p. 57.) Appellants are appalled that the school's charter was not revoked. This is not the whole story. According to the report, the school changed its policy after the county education office informally told school officials "that such purchases could be viewed as violating the anti-sectarian provisions of the charter law." (*Ibid.*)

On a related note, appellants also cite the existence of 40 home-based charter schools, assuming, without factual basis, that "[b]y definition, the home-based teacher is a good Christian, Jew, Muslim, Buddhist, or what have you, who inculcates the parents' religion to the pupil, in the course of the home-based teaching." This is a speculative attack on home-based independent study programs in general, which exist *apart* from the charter school movement. While the Little Hoover Report gives some credence to concerns about funnelling public funds to parents to subsidize religious training, it also notes: "Unfortunately, [this concern is] just as possible in independent study programs that are not run by charter schools, Department of Education officials acknowledge. [¶] The department points out that there is no special program with earmarked funding; independent study is a teaching 'modality' rather than a specific program. A district that chooses to have such a program receives per-pupil funding equal to that it receives for a student who it houses in a classroom under full-time

teacher supervision." (Little Hoover Rep., *supra*, at p. 58.) And in any event, starting next year charter schools will be explicitly barred from receiving state funds if they pay for religious materials or anything else in connection with a home or independent study program that could not legally be purchased for the education of noncharter public school students. (See § 51747.3, subd. (a).)

N 14. Article XVI, section 5 reads in relevant part: "Neither the Legislature, nor any county, city and county, township, school district, or other municipal corporation, shall ever make an appropriation, or pay from any public fund whatever, or grant anything to or in aid of any religious sect, church, creed, or sectarian purpose, or help to support or sustain any school, college, university, hospital, or other institution controlled by any religious creed, church, or sectarian denomination whatever ...."

FN 15. Section 124D.10, subdivision 8(c) of the Minnesota State Laws provides in part that the sponsor of a charter school "*may not authorize a charter school or program that is affiliated with a nonpublic sectarian school or a religious institution.*" (Italics added.) The federal act similarly provides in part that a charter school is a public school which, among other traits, "*is not affiliated with a sectarian school or religious institution ....*" (20 U.S.C. § 8066(1)(E), italics added.)

FN 16. Appellants do not explain the concept of "affiliation" nor does that term or concept appear in the relevant constitutional provisions. The verb "affiliate" means "to bring or receive into close connection as a member or branch[;] to associate as a member." (Webster's New Collegiate Dict. (9th ed. 1984) p. 61, col. 2.) Common sense tells us that for purposes of article XVI, section 5, a school that associated itself as a member or branch of a religious sect would, in fact, be controlled by the operative "religious creed, church, or sectarian denomination."

FN 17. One strong indicator of validity is this: With Assembly Bill No. 544 the Legislature has permitted charter schools to elect to operate as, or be operated by, a nonprofit public benefit corporation. (§ 47604, subd. (a).) It is significant that the statute does not, for example, refer more broadly to corporations organized under the Nonprofit Corporation Law. (See Corp. Code, § 5000 et seq.) In addition to nonprofit public benefit corporations, such corporations would include nonprofit *religious* corporations. (See *id.*, § 5046.) Thus, the *only* private entity that can operate a charter school is a nonprofit public benefit corporation. A church or other religious corporation could never operate a charter school outright.

FN 18. Under the code itself a school district can select nonadopted textbooks, but only if it establishes to the Board's satisfaction "that the state-adopted instructional materials do not promote the maximum efficiency of pupil learning in the district ...." (§ 60200, subd. (g); *Engelmann v. State Bd. of Education* (1991) 2 Cal.App.4th 47, 52 [3 Cal.Rptr.2d 264].)

People v. Oken, 159 Cal.App.2d 456

[Civ. No. 22496. Second Dist., Div. Three. Apr. 17, 1958.]

THE PEOPLE, Plaintiff, v. HARRY OKEN et al., Defendants; TONY ALARCON, Appellant; EL MONTE SCHOOL DISTRICT et al., Respondents.

COUNSEL

Alexander Ruiz and Manuel Ruiz, Jr., for Appellant.

Harold W. Kennedy, County Counsel (Los Angeles), and Edwin P. Martin, Deputy County Counsel, for Respondents.

OPINION

'ATROSSO, J. pro tem. fn. *

This is an appeal by cross-complainant Tony Alarcon from an order striking his third amended cross-complaint as against the cross-defendants El Monte School District and county of Los Angeles. [1] While an order striking a pleading is not ordinarily appealable, the rule is otherwise where, as here, the cross-complaint is directed against cross-defendants not otherwise parties to the action. (Trask v. Moore (1944), 24 Cal.2d 365, 373 [149 P.2d 854].)

The action in which the cross-complaint was filed is one instituted on behalf of the People of the State of California by **[159 Cal.App.2d 458]** the district attorney of Los Angeles County against numerous defendants, including cross- defendant, alleged to be the owners or occupants of properties within an area comprising some 24 acres located in the county of Los Angeles and commonly known as "Hick's Camp," to abate a public nuisance alleged to exist upon the properties located therein by reason of the maintenance thereon of dilapidated buildings and unsanitary conditions therein more particularly described.

A demurrer having been sustained with leave to amend to the original cross-complaint, appellant filed a second amended cross-complaint containing four separate causes of action. Demurrers interposed by the respondents to the latter complaint were sustained without leave to amend as to the first, second and fourth cause of action thereof. Thereafter appellant filed a third amended cross-complaint which was stricken upon motion of the respondents as hereinbefore stated.

The third amended cross-complaint, as is likewise true of its predecessors, is in many respects a remarkable document. It purports to incorporate therein by reference, the first, second and fourth causes of action of the second amended cross-complaint to which, as previously stated, demurrers had been sustained without leave to amend. It then alleges that the action is brought by the appellant "on behalf of apprximately [sic] 35 persons similarly situated, named defendants, in the second amended complaint of nuisance on file herein, and also as agent for the State of California, and the person in charge of the public uses hereinafter set forth and requested." It then alleges that the El Monte School District and numerous ndividually named cross-defendants claim an interest in the property described in Exhibit "A," attached to the cross-complaint, which apparently comprises a portion of the property described in plaintiff's complaint, whereon are located the conditions which are sought to be abated as a public nuisance. It further alleges "that the public interest and necessity require that the said property be acquired by cross complainant as agent of the State of California, as provided in section 1001 of the

California Civil Code. That cross complainant, Tony Alarcon, is a person, competent and qualified to acquire the real property and improvements thereon, described herein, as agent of the State and/or person in charge of the uses hereinafter set forth. That cross complainant seeks to take and condemn private property, to wit: Real Estate and improvements, for the public uses hereinafter **[159 Cal.App.2d 459]** set forth. That the plaintiff and cross defendants, El Monte School District, ıest Roll, District Attorney for Los Angeles County and the County of Los Angeles, are public bodies within the purview ..ı subsection 21 of the section 1238 of the California Code of Civil Procedure, ... to wit: To demolish, clear, abate or remove buildings from the area known as 'Hicks Camp' and herein described in exhibit 'A,' for the reason that the same are detrimental to the health, safety and morals of the people, and because of dilapidation, overcrowding, faulty arrangement or design, or lack of ventilation or sanitary facilities of the dwellings predominating in said area. That the public interest and necessity require the construction by the El Monte School District of a school building and also the acquisition and appropriation by said school district of a site upon which said building may be erected within that certain tract of land hereinabove described. In conjunction therewith, said public interest and necessity require, that buildings, dwellings and structures within said tract of land be demolished, cleared, abated and/or removed, in the interest of the health, safety and morals of the people, because of dilapidation, overcrowding, faulty arrangement or design, or lack of ventilation or sanitary facilities of the dwellings therein, in a manner that will be most compatible with the greatest public good and the least private injury. ... That there is grave danger of the creation of a public nuisance, unless the public uses herein referred to are provided for and the public interest and necessity stated above be adjuticated [sic]."

The cross-complaint closes with a prayer that the cross-defendants be required to set forth the nature, character, extent and value of their several estates or interest in the parcels of real property sought to be condemned and the severance damage, if any, accruing thereto; that the value of each separate interest or estate sought to be condemned and the severance damages, if any, be ascertained, and that upon payment to the defendants entitled to compensation of the several amounts so ascertained, the court make and enter a final order of condemnation, "conveying to cross complainant, as agent for the state, the properties for the public use above set forth."

We have ignored the allegations contained in the first, second and fourth causes of action, contained in the second amended cross-complaint, which were attempted to be incorporated **[159 Cal.App.2d 460]** by reference in the third amended cross-complaint in view of the fact that the demurrers interposed to these causes of action had, as noted, been sustained without leave to amend. [2] The attempted incorporation of these counts in the third amended cross-complaint without leave of the ırt is ineffective and they may not be treated as a part of the pleading in the case. (39 Cal.Jur.2d p. 339.) Moreover, .hout here undertaking to set forth in detail the voluminous allegations of said counts, we are completely satisfied that the trial court properly sustained the demurrers thereto without leave to amend. Each of these three causes of action seemingly undertakes to state a cause of action for monetary and injunctive relief against the respondents upon some undiscernible theory for damages which the cross-complainant and others similarly situated allegedly will sustain if the plaintiff prevails in its action to abate the nuisances alleged to exist upon the properties owned by them.

[3] From the allegations of appellant's pleadings which we have above summarized in some detail, it would appear that the relief which he seeks thereby as against the respondents is a judgment declaring that the public interest and necessity require the construction by the respondent El Monte School District of a school building and "the acquisition and appropriation by said school district of a site upon which said building may be erected within that certain tract of land" in the cross-complaint described. We know of no law, and none has been called to our attention, which authorizes a private citizen to maintain such an action. Where, when or how, if at all, a school district shall construct school buildings is a matter within the sole competency of its governing board to determine. (Montebello Unified School Dist. v. Keay (1942), 55 Cal.App.2d 839, 843-844 [131 P.2d 384].)

If, however, the third amended cross-complaint be construed as one whereby appellant as a private citizen seeks to acquire property for the purpose of constructing and operating a public school, it is likewise unauthorized by law. Section 1001 of the Civil Code, upon which appellant assertedly seeks to predicate his action, while authorizing any person, as "an agent of the State" or as "a person in charge of such use" to acquire private property under the power of eminent domain for any of the public uses provided in section 1238 of the Code of Civil Procedure is wholly without application. [4] A private person seeking to exercise the right of eminent domain must not only allege that he proposes to devote the **[159 Cal.App.2d 461]** property sought to be acquired to one of the public uses provided in section 1238, but it must likewise be made to appear that he is authorized to devote the property to the public use in question, or otherwise stated, that he is a person authorized to administer or have "charge of such use." (Beveridge v. Lewis (1902), 137 Cal. 619, 621 [67 P. 1040, 70 P. 1083, 92 ^m.St.Rep, 188, 58 L.R.A. 581].) [5] While appellant alleges by way of conclusion that he "is a person, competent and alified to acquire the real property" described in his pleading "as agent of the State and/or person in charge of the uses" nerein set forth, the allegation must be disregarded, because we judicially know it is untrue. (Wilson v. Loew's Inc. (1956), 142 Cal.App.2d 183, 187-188 [298 P.2d 152].) [6] "The constitution declares that the legislature shall provide 'for a system of common schools,' or, as expressed elsewhere in the organic law, 'a public school system.' " (23 Cal.Jur. p. 18; Cal. Const.,

art. IX, §§ 5-6.) "By these two sections, the constitution makes the school system a matter of state care and supervision. The term 'system' itself imports a unity of purpose as well as an entirety of operation, and the direction to the legislature to provide 'a' system of common schools means one system which shall be applicable to all the common schools. And this duty to provide for the education of the children of the state, so far as the state has, by the adoption of the constitution, undertaken it, cannot be delegated to any agency." (23 Cal.Jur. 21-22.) As said in Piper v. Big Pine School Dist., 193 Cal. 664, 669 [226 P. 926]:

"It is in a sense exclusively the function of the state which cannot be delegated to any other agency. The education of the children of the state is an obligation which the state took over to itself by the adoption of the constitution. To accomplish the purposes therein expressed the people must keep under their exclusive control, through their representatives, the education of those whom it permits to take part in directing the affairs of state."

From the allegations of the cross-complaint, it affirmatively appears that "(i)n this case it is the school district, acting through its governing board, that is the agent of the State in charge of the use for which the land was sought." (Montebello Unified School Dist. v. Keay, supra.)

[7] The third amended cross-complaint wholly fails to state a cause of action and is patently frivolous and sham. **[159 Cal.App.2d 462]** It was therefore properly stricken by the trial court. [8] As said by this court in Neal v. Bank of America (1949), 93 Cal.App.2d 678, 682-683 [209 P.2d 825]:

"It may be conceded that there is no statutory provision for striking complaints from the files, as there is in respect to sham or frivolous answers. (Code Civ. Proc., § 453.) However, the courts have inherent power, by summary means, to prevent frustration, abuse, or disregard of their processes. (41 Am.Jur. §§ 346, 347, p. 527; anno., 13 Am.St.Rep. 640.) ... In Santa Barbara County v. Janssens, 44 Cal.App. 318 [186 P. 372], it was held that an order striking an amended cross-complaint from the files was within the jurisdiction of the trial court, and presumably correct in the absence of error disclosed by the record. The fundamental principle running through the cases is that a court is not required to tolerate a purported amended complaint which fails to amend the previous pleading, is not filed in good faith, is filed in disregard of established procedural requirements, or is otherwise violative of orderly judicial administration. ... It cannot be doubted that the court had jurisdiction to strike plaintiff's amended complaint on the ground that it was frivolous and a sham and the order clearly was not an abuse of discretion."

The order appealed from is affirmed.

Shinn, P. J., and Wood (Parker), J., concurred.

Childers v. Childers, 74 Cal.App.2d 56

[Civ. No. 15214. Second Dist., Div. Two. Apr. 17, 1946.]

WILMA FLORA CHILDERS, Respondent, v. JOHN E. CHILDERS, Appellant.

COUNSEL

Courtney A. Teel for Appellant.

Harvey W. Guthrie for Respondent.

OPINION

WILSON, J.

At the conclusion of the trial of this action, which was had before the court without a jury, findings of fact and conclusions of law were waived by both parties, whereupon an interlocutory judgment of divorce was awarded to plaintiff. Defendant has appealed on the judgment roll and a transcript of the evidence introduced at the trial. The only point raised is that the evidence is insufficient to sustain the findings that must be implied in support of the judgment. **[74 Cal.App.2d 59]**

1. Assumptions and implications when findings are waived. [1] Since findings of fact and conclusions of law were waived every intendment is in favor of the judgment. It will be assumed that the trial court found every fact essential to the support of the judgment, and findings will be implied in favor of the successful litigant upon all of the issues raised by the pleadings. (Gray v. Gray, 185 Cal. 598, 599 [197 P. 945]; Miller v. Pacific Freight Lines, 40 Cal.App.2d 451, 453 [104 P.2d 1069]; Green v. Darling, 73 Cal.App. 700, 703 [239 P. 70]; Jensen v. Burton, 117 Cal.App. 66, 68 [3 P.2d 324].) [2] But since a transcript of the evidence is before this court the assumption goes no further, and we are not required to and we do not indulge in an assumption as to the sufficiency of the evidence to support the implied findings. The question will be determined from an examination of the evidence itself.

In two cases entitled Gordon v. Mount, 125 Cal.App. 701, 708 [13 P.2d 932], and Bekins Van Lines, Inc. v. Johnson, 21 Cal.2d 135, 137 [130 P.2d 421], it is said that where findings of fact and conclusions of law are waived "it is presumed fn. * that every fact essential to the support of the judgment was proved and found by the court." It is the word "proved" that gives rise to this discussion. In each of said cases the entire evidence was before the reviewing court; it was discussed and held to be sufficient to sustain the judgments in the respective cases. Since the evidence was adequate, it was not necessary to assume that sufficient facts were proved to support the implied findings or to sustain the judgment. The opinion in the Gordon case cites Gray v. Gray, supra, and the Bekins case cites the Gray and Gordon cases and Miller v. Pacific Freight Lines, supra, as authorities for the statement above quoted. The Gray case, in stating that upon the waiver of findings the presumption arises that the trial court found all facts necessary to support the judgment, cites Antonelle v. New City Hall Commrs., 92 Cal. 228 [28 P. 270], and Bruce v. Bruce, 16 Cal.App. 353 [116 P. 994]. **[74 Cal.App.2d 60]** In the Antonelle case findings were waived and the appeal was on the pleadings and judgment. In the Bruce case findings were waived and the evidence was not furnished to the appellate court. The Miller case states the same presumption as that in the Gray case and cites three cases: Stewart v. Langer, 9 Cal.App.2d 60, 61 [48 P.2d 758]; High v. Bond, 107 Cal.App. 153, 154 [290 P. 145], and Benjamin Moore & Co. v. O'Grady, 9 Cal.App.2d 695, 698 [50 P.2d 847]. In each of said three cases the evidence was taken up on appeal and the only presumption stated was that the trial court made all findings necessary to support the

judgment. There was no reference to a presumption of evidence to sustain the implied findings. In both the Gray and Miller cases the only point raised was the sufficiency of the evidence to support the implied findings, and in each case the court discussed the evidence at length and held that it was sufficient. Neither the Gray nor the Miller case holds that any fact will be presumed to have been proved. Such a statement would have been uncalled for in view of the fact that the evidence in each case was found sufficient.

It thus appears that whatever was said in the Gordon and Bekins cases concerning a presumption of proof when the evidence was before the court was not only dictum but it has no foundation either in the decisions cited therein or in the cases which are referred to in the Gray and Miller opinions. None of the cases sustain the dictum.

[3] It is where findings are waived and a transcript of the evidence is not furnished to the appellate court that it will be assumed that the evidence supports such implied findings as are necessary to sustain the judgment. (Credit Bureau v. Horeth, 60 Cal.App.2d 47, 49 [139 P.2d 962]; Whitney v. Redfern, 41 Cal.App.2d 409, 413 [106 P.2d 919]; Cuthbert Burrel Co. v. Shirley, 64 Cal.App.2d 52, 54 [148 P.2d 85]; Harmon v. De Turk, 176 Cal. 758, 761 [169 P. 680].)

In 24 California Jurisprudence, page 956, section 194, and in other reference works, we find a repetition of the same presumption as that hereinbefore quoted from Gordon v. Mount and Bekins Van Lines, Inc. v. Johnson. No distinction is made between the cases there cited in which the evidence was before the appellate court and those in which it was not. An examination of the citations will demonstrate that they support the text only when the evidence is not brought up on appeal, but have no relevancy when the appellate court has **[74 Cal.App.2d 61]** the evidence before it. We have already pointed out that in Gray v. Gray the evidence was taken up on appeal and no assumption was indulged as to whether it supported the implied findings, and that in Harmon v. De Turk, Antonelle v. New City Hall Commrs., and Bruce v. Bruce, the appeals were on the judgment roll alone and both findings and evidence were assumed in support of the judgment. Likewise Green v. Darling, 73 Cal.App.700 [239 P. 70], was appealed on the judgment roll alone. There was no mention of the sufficiency of the evidence. In each of the cases of Ibbetson v. Ibbetson, 52 Cal.App. 699 [199 P. 872], and Jensen v. Burton, 117 Cal.App. 66 [3 P.2d 324], implied findings necessary to sustain the judgment were held to be supported by the evidence which is set out in the opinions. In Dee v. Dee, 34 Cal.App. 658 [168 P. 588], findings were waived, the evidence was conflicting, and it was assumed that the court found all of the facts necessary to sustain the judgment. In Kritzer v. Tracy Engineering Co., 16 Cal.App. 287 [116 P. 700], the appeal was upon the judgment roll but there were no findings. Whether there was an actual waiver of findings was disputed. The court said that since every intendment is in support of a judgment it would be presumed that findings were waived.

The confusion seems to have arisen through the inadvertent addition of the words "proved and" in the Gordon case, with the erroneous citation of the Gray case which is not authority therefor, and the repetition of the same words in the Bekins case, which cites the Gordon case as authority. No assumption as to the evidence was necessary in either of those cases, because, as hereinbefore stated, it was in the record.

[4] The doctrine of stare decisis does not require us to follow those cases to the extent of assuming what facts were proved when the evidence is before us. It is a fundamental rule of that doctrine that a decision is not authority for what is said in the opinion but only for the points actually involved and actually decided. (Norris v. Moody, 84 Cal. 143, 149 [24 P. 37]; Hart v. Burnett, 15 Cal. 530, 598.) [5] The rule of stare decisis is a rule of public policy. For the preservation of harmony and for the stabilization of the law the courts will ordinarily follow precedents when the same points arise in subsequent litigation, although they will not persist in an absurdity or perpetuate a manifest error. [6] There is no kinship between stare decisis and obiter dictum. Whatever **[74 Cal.App.2d 62]** may be said in an opinion that is not necessary to a determination of the question involved is to be regarded as mere dictum. (Cardenas v. Miller, 108 Cal. 250, 252 [39 P. 783, 41 P. 472, 49 Am.St.Rep. 84].) [7] The statement of a principle not necessary to the decision will not be regarded either as a part of the decision or as a precedent that is required by the rule of stare decisis to be followed (Brown v. Brown, 83 Cal.App. 74, 81 [256 P. 595]; Hills v. Superior Court, 207 Cal. 666, 670 [279 P. 805, 65 A.L.R. 266]; Laguna L. & W. Co. v. Greenwood, 92 Cal.App. 570, 574 [268 P. 699]; Harris v. Industrial Acc. Com., 204 Cal. 432, 438 [268 P. 902]), no matter how often repeated. (W. B. Samuels & Co. v. Nelson County, 204 Ky. 490 [264 S.W. 1098, 1099].) [8] Expression of dictum is not binding on a court inferior to that which rendered the decision. (City of Mountain View v. Farmers' Telephone Exch. Co., 294 Mo. 623 [243 S.W. 153, 157]; Travelers' Ins. Co. v. Lancaster, (Tex.Civ.App.) 71 S.W.2d 318, 320; Arthur C. Harvey Co. v. Malley, 61 F.2d 365, 366; affirmed 288 U.S. 415 [53 S.Ct. 426, 77 L.Ed. 866].)

[9] When it is claimed on appeal that the evidence does not sustain the findings or judgment, there are two methods of ascertaining the answer: (1) To examine the evidence if it is in the record, and (2) to assume its sufficiency if it is not. The court will apply one or the other of these methods but it will not resort to an assumption of evidence when the transcript is present. We may assume something to be true when there is no evidence one way or the other on the subject; but when there is positive evidence of the existence of a fact the judgment must be based on the evidence and there is no room for an

assumption. There can be no assumption or presumption that a fact does not exist in the face of uncontroverted evidence to the contrary. The only reason for the affirmance of the judgment in this action is the sufficiency of the evidence, not an assumption as to what took place at the trial and not shown by the transcript.

. Sufficiency of the evidence to sustain the implied findings. [10] In support of the judgment findings must be implied that ie charges of cruelty made by respondent were true, that she was entitled to permanent support in the amount awarded by the court, and that appellant had the ability to pay the same.

[11] The evidence as to cruelty is sufficient to sustain the implied finding thereon. Respondent testified that appellant attempted **[74 Cal.App.2d 63]** for a long period of time to keep their marriage secret; he introduced her under her maiden name; when they visited friends he asked her to remove her rings which were evidence that they were married; he never took her to places of amusement; he struck her several times and on two or three occasions grabbed her around the neck and choked her. Respondent's sister furnished corroboration for the latter acts of cruelty. Such evidence is sufficient to support the implied findings of appellant's cruelties. He offered nothing to the contrary, his testimony having been limited to their property and its value.

[12] The parties had been married less than a year when the complaint was filed. After the commencement of the action a child was born of the marriage who was eight months old at the time of the trial. In view of the age of the child and the necessity for its mother's constant attention to it, the implied finding of the necessity for the award of permanent support to respondent in the sum of $100 per month will not be disturbed.

[13] The implied finding of appellant's ability to pay the amount awarded is sustained by the evidence. He was permanently employed in the United States Post Office Department; his annual income was shown to be approximately $3,600 from salary and rentals; during the marriage he had given respondent about $100 per month; in the year preceding the trial he had sold property (title to which he had taken in the name of his cousin) for about the sum of $1,000 above the purchase price after paying expenses of sale. After deductions for taxes and for his own living expenses he was still able to pay the amount required by the judgment. The amount awarded was not unreasonable.

Judgment affirmed.

Moore, P. J., concurred.

McCOMB, J.

I concur in the judgment for the reason stated: that the evidence is sufficient to sustain the implied findings. But I do not subscribe to the conclusion reached in the main opinion under the heading (1) Assumptions and implications when findings are waived.

In spite of the language in certain earlier decisions to the contrary, it is my opinion that the Supreme Court has now established the law in California to be that where findings of **[74 Cal.App.2d 64]** fact and conclusions of law are waived by the parties, on an appeal from the judgment an appellate court will presume that every fact essential to the support of the judgment was (1) proved and (2) found by the trial court.

In Gordon v. Mount (1932), 125 Cal.App. 701 [13 P.2d 932], Mr. Justice Plummer speaking for the District Court of Appeal at page 708 says: "Where findings are waived it is presumed that every fact essential to the support of the judgment was proved and found by the court. (Gray v. Gray, 185 Cal. 598 [197 P. 945]; 24 Cal.Jur., p. 956, and the cases there cited.)

"In support of the judgment, there being no findings in this case, we must hold that the court, notwithstanding the record shows want of probable cause and lack of reliance upon advice of counsel that the testimony introduced in the cause did not justify the charge of malice, and the existence of malice being a question of fact, we are bound by the judgment of the trial court." (Italics added.)

In Bekins Van Lines, Inc. v. Johnson, 21 Cal.2d 135 [130 P.2d 421], Gordon v. Mount, supra, is cited with approval, the Supreme Court saying at page 136 et seq.: "After the trial judge had ordered the judgment, findings of fact and conclusions of law were waived by written stipulation of counsel. On this state of the record every intendment is in favor of the judgment, and it is presumed that every fact essential to the support of the judgment was proved and found by the court. (Gray v. Gray, 185 Cal. 598 [197 P. 945]; Miller v. Pacific Freight Lines, 40 Cal.App.2d 451 [104 P.2d 1069]; Gordon v. Mount, 125 Cal.App. 701 [13 P.2d 932]; 24 Cal.Jur. p. 956, and cases there cited.) The applicable rule requires the assumption that the proof showed and that the court found and concluded that the services out of which the disputed tax

arose were so much a part of the business of the plaintiff, were so customarily rendered in that connection, and so directly contributed to the transportation which was the plaintiff's principal business, that money derived therefrom must be regarded as part of the 'gross receipts from operations of said operator' and taxable as such." (Italics added.)

In Ibbetson v. Ibbetson, 52 Cal.App. 699 at 702 [199 P. 872], the court says: "Findings having been waived, the presumption is that every fact essential to the support of the judgment was proved and found by the court and that accordingly the court found that there was no community property." (Italics added.) **[74 Cal.App.2d 65]** It is apparent that the legal profession had understood the rule to be as just stated, for in 24 California Jurisprudence, at page 956, appears this statement: "Where findings are waived, it is presumed that every fact essential to the support of the judgment was proved and found by the court." (Italics added.)

Again, in 2 Bancroft's Code Practice and Remedies the rule is stated as follows: "Even in those jurisdictions wherein the court is required to make findings although not requested, findings may be waived, and if waived it is presumed in support of the judgment that every material fact was proved and found." (Italics added.) See, also, Vogel v. Marsh, 120 Cal.App. 99 at 100 [7 P.2d 756]; Gordon v. Mount, supra, at 709, and Jensen v. Burton, 117 Cal.App. 66 at 68 et seq. [3 P.2d 324]. fn. *

Such a rule appears to be fair and in consonance with the simplified pleading in this state. Should a litigant desire to question the sufficiency of the evidence he should request findings so that the trial court and opposing counsel may know that on appeal the sufficiency of the evidence to sustain the findings may be attacked; and in the event sufficient evidence has not been introduced to support a material finding of fact opposing counsel may request, or the trial court may direct, that the case be reopened and the parties given an opportunity to produce evidence to support a material finding, if they are in a position to do so. In any event, the Supreme Court of the state has stated that where findings of fact are waived the presumption is that every fact was proved and found by the court. Hence this court is bound by the decision of the Supreme Court until such time as that court may disapprove or overrule its decision as set forth above. (Estate of Mickelson, 37 Cal.App.2d 450 at 453 [99 P.2d 687]; Sawyer v. Sterling Realty Co., 41 Cal.App.2d 715 at 724 [107 P.2d 449]; Chrisman v. Culinary Workers Local, 46 Cal.App.2d 129 at 132 [115 P.2d 553].) **[74 Cal.App.2d 66]**

The law is established in California that where two independent reasons are given for a decision neither one is to be considered mere dictum, since there is no more reason for calling one ground the real basis of the decision than the other. The ruling on both grounds is the judgment of the court and each is of equal validity. (California Employment Stab. Com. v. Municipal Court, 62 Cal.App.2d 781 at 787 [145 P.2d 361], and cases therein cited.) Under this rule the statement of the Supreme Court in Bekins Van Lines Inc. v. Johnson, supra, was an independent reason for the decision and hence not dictum.

The result, therefore, in my opinion is that this court is bound by the decision of the Supreme Court, and that since the parties waived findings of fact and conclusions of law defendant may not urge before this court the insufficiency of the evidence to support the judgment.

FN *. The terms "presume" and "presumption" are deemed to have been used in the cases cited herein synonymously with "assume" and "assumption" and do not import presumptions defined in the Code of Civil Procedure. In practical effect it would be more accurate to say that the absence of findings or of evidence, or of both, from the record on appeal is a waiver of the right of the appellant to question their sufficiency.

FN *. The use of the words "presumed" and "presumption" in the cited cases is unfortunate and has had a tendency to cause confusion in the decisions. The true legal concept may be expressed accurately thus: When findings of fact and conclusions of law are waived, on appeal appellant will be deemed to have waived the right to urge either that (1) the evidence is insufficient to support implied findings of fact or, (2) the implied findings do not sustain the judgment.

EDUCATION CODE
SECTION 15100-15111

15100. Except as otherwise provided by law, the governing board of any school district or community college district may, when in its judgment it is advisable, and shall, upon a petition of the majority of the qualified electors residing in the school district or community college district, order an election and submit to the electors of the district the question whether the bonds of the district shall be issued and sold for the purpose of raising money for the following purposes:

(a) The purchasing of school lots.

(b) The building or purchasing of school buildings.

(c) The making of alterations or additions to the school building or buildings other than as may be necessary for current maintenance, operation, or repairs.

(d) The repairing, restoring, or rebuilding of any school building damaged, injured, or destroyed by fire or other public calamity.

(e) The supplying of school buildings and grounds with furniture, equipment, or necessary apparatus of a permanent nature.

(f) The permanent improvement of the school grounds.

(g) The refunding of any outstanding valid indebtedness of the district, evidenced by bonds, or of state school building aid loans.

(h) The carrying out of the projects or purposes authorized in Section 17577 or 81613.

(i) The purchase of schoolbuses the useful life of which is at least 20 years.

(j) The demolition or razing of any school building with the intent to replace it with another school building, whether in the same location or in any other location.

Any one or more of the purposes enumerated, except that of refunding any outstanding valid indebtedness of the district evidenced by bonds, may, by order of the governing board entered in its minutes, be united and voted upon as one single proposition.

15100.5. Except as otherwise provided by law, the governing board of the Peralta Community College District may, when in its judgment it is advisable, order the county superintendent of schools to call an election to be conducted pursuant to this chapter and submit to the electors of the district the question of whether the proceeds of previously authorized but unissued bonds of the district may be used for a purpose or purposes in addition to the purposes for which the previously approved bonds were authorized by the electors.

The governing board may, by order entered into its minutes, call for an election to expand the purposes of prior authorized but unissued bonds either as a single proposition on the ballot or combined with the question of issuing new bonds of the district for any purpose or purposes permitted by law.

If two-thirds of the votes cast on the question of expanding the purposes for which the proceeds of previously authorized but unissued bonds of the district may be used, or the combined question of expanding the purposes for which the proceeds of previously authorized but unissued bonds of the district and issuing newly authorized bonds of the district, are in favor of the proposition, the district may use the proceeds of the previously authorized but unissued bonds for the expanded purposes and may issue newly

authorized bonds, as the case may be.

101. Notwithstanding any other law, an election may not be held .rsuant to this chapter within 45 days before a statewide election or within 45 days after a statewide election unless conducted at the same time as the statewide election, subject to Part 3 (commencing with Section 10400) of Division 10 of the Elections Code, or on an established election date pursuant to Section 1000 or 1500 of the Elections Code.

15101.75. (a) This chapter shall apply to bond elections for and the issuance of bonds for school facilities improvement districts created pursuant to Chapter 2 (commencing with Section 15300) to the extent that this chapter does not conflict with Chapter 2. In the event of a conflict, the provisions of Chapter 2 shall supersede the provisions of this chapter, but only to the extent of the conflict.

(b) A bond adopted by the voters pursuant to this part prior to January 1, 2008, shall be governed by this part as it read on December 31, 2007.

15102. The total amount of bonds issued pursuant to this chapter and Chapter 1.5 (commencing with Section 15264) shall not exceed 1.25 percent of the taxable property of the school district or community college district, or the school facilities improvement district, if applicable, as shown by the last equalized assessment of the county or counties in which the district is located. For purposes of this ction, the taxable property of a district for any fiscal year shall e calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying that result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll.

15103. Notwithstanding any other provision of law, for the purpose of computing the limit on the amount of bonds which may be issued by a district pursuant to the provisions of this chapter, the taxable property of the district shall be determined upon the basis that the district's assessed value has not been reduced by the exemption of the assessed value of business inventories in the district or reduced by the homeowner's property tax exemption.

15105. For the purpose of the provisions of Sections 15102 and 15106 which require that the valuation as shown on the last equalized assessment roll be modified pursuant to Section 41201 or 84201, the "current year" as used in Section 41201 or 84201 shall be deemed to the latest fiscal year for which there exists a last equalized ounty assessment roll as ascertained in accordance with Chapter 3 (commencing with Section 2050) of Part 3 of Division 1 of the Revenue and Taxation Code, and the term "two immediately preceding years" shall be deemed to be the two fiscal years immediately preceding the

fiscal year for which the last equalized county assessment roll exists. Whenever in any year it becomes necessary to determine the modification under Sections 15102 and 15106, at a time between the date when the assessment roll for that year becomes the last equalized county assessment roll ascertained under Chapter 3 and the ate when the factor for the current year is certified and becomes available, the factor for the current year shall be deemed to be 1.00.

15106. A unified school district or community college district may issue bonds that, in aggregation with bonds issued pursuant to Section 15270, shall not exceed 2.5 percent of the taxable property of the school district or community college district, or the school facilities improvement district, if applicable, as shown by the last equalized assessment of the county or counties in which the district is located.

In computing the outstanding bonded indebtedness of a unified school district or community college district for all purposes of this section, any outstanding bonds shall be deemed to have been issued for elementary school purposes, high school purposes, and community college purposes, respectively, in the respective amounts that the proceeds of the sale of those outstanding bonds, excluding any premium and accrued interest received on that sale, were or have been allocated by the governing board of the unified school district or community college district to each of those purposes respectively.

(a) For the purposes of the State School Building Aid Law of 1952 (Chapter 6 (commencing with Section 16000)) with respect to applications for apportionments and apportionments filed or made prior to September 15, 1961, and to the repayment thereof, Chapter 4 commencing with Section 15700), inclusive, only, a unified school district shall be considered to have a bonding capacity in the amount permitted by law for an elementary school district and a bonding capacity in the amount permitted by law for a high school district.

(b) For purposes of this section, the taxable property of a district for a fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying the result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll. In the event of the unification of two or more school districts or community college districts subsequent to the 1987-88 fiscal year, the assessed value of all unitary and operating nonunitary property of the unified district or community college district shall be deemed to be the total of the assessed value of the taxable property of each of the unifying districts as that assessed value would be determined under Section 15102.

15107. In computing the limitation of indebtedness of a school district, community college district, or school facilities improvement district of any kind or class up to this time or in the uture formed or organized, hereinafter in this section referred to as the "bonding district," the outstanding indebtedness of any previously existing district all or any part of which forms a component part of the bonding district and the outstanding

indebtedness of any district for which any territory that has become a part of the bonding district is liable shall be excluded and shall not be deemed, for the purposes of computing the limitation of indebtedness under Section 15102 or 15106, to constitute outstanding indebtedness of the bonding district, except to the extent that the outstanding indebtedness has been expressly assumed by the bonding district by vote of not less than two-thirds of the electors of the bonding district voting at an election at which the proposition of assuming the indebtedness is voted upon. Nothing contained in this section shall operate to release any property from liability for taxes to pay the principal and interest of indebtedness incurred by any component district or for which any territory that has become a part of the bonding district is liable and in which the taxable property is located at the time of the incurring of the indebtedness. It is the intent of the Legislature to provide in this section a special method of computing the limitation of indebtedness of school districts or community college districts irrespective of liability of the area embraced within the school districts for the payment of any bonded indebtedness. This section does not authorize the issuance of bonds in excess of the limits expressed in Section 15334.5.

15108. For the purpose of determining the limitation of indebtedness of a school district, community college district, or school facilities improvement district of any kind or class under Section 15102 or 15106, that portion of the bonded indebtedness of the district for which another district or territory in another district is liable shall be excluded and shall not be deemed to constitute outstanding bonded indebtedness of the district.

15109. Where an elementary school district and a high school district with a combined average daily attendance of 300,000 or more are governed by the same governing board, and the pupils in grades seven and eight in the districts are in attendance at high schools maintained by the high school district, the governing board, by resolution filed with the county auditor, may provide that the bond issuance limitations determined under Section 15102 shall be adjusted by reducing the bond issuance limitation of the elementary school district by 1 percent of its total and by augmenting the bond issuance limitation for the high school district by the amount by which that of the elementary district was reduced.

15110. An action to determine the validity of bonds and of the ordering of the improvement or acquisition may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure. In such action, all findings, conclusions and determinations of the legislative body which conducted the proceedings shall be conclusive in the absence of actual fraud.

15111. The governing board of each school district or community college district shall, within 30 days after the end of each fiscal year, submit to the county superintendent of schools who has jurisdiction over the school district or community college district a report containing the following information, concerning any election held pursuant to Sections 4152, 15120, 15121, and 16058 for the approval of the issuance of bonds or the assumption of any bonded

indebtedness or other indebtedness:

(1) The total amount of the bond issue, bonded indebtedness or other indebtedness involved.

(2) The percentage of registered electors of the district who voted at the election.

(3) The results of the election, with the percentage of votes cast for and against the proposition involved.

EDUCATION CODE
SECTION 15264-15276

15264. It is the intent of the Legislature that all of the following are realized:

(a) Vigorous efforts are undertaken to ensure that the expenditure of bond measures, including those authorized pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIIIA of the California Constitution, are in strict conformity with the law.

(b) Taxpayers directly participate in the oversight of bond expenditures.

(c) The members of the oversight committees appointed pursuant to this chapter promptly alert the public to any waste or improper expenditure of school construction bond money.

(d) That unauthorized expenditures of school construction bond revenues are vigorously investigated, prosecuted, and that the courts act swiftly to restrain any improper expenditures.

15266. (a) As an alternative to authorizing and issuing bonds pursuant to Chapter 1 (commencing with Section 15100) or Chapter 2 (commencing with Section 15300), the governing board of a school district, community college district, or a school facilities improvement district may decide, pursuant to a two-thirds vote and subject to Section 15100 to pursue the authorization and issuance of bonds pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIIIA of the California Constitution and subdivision (b) of Section 18 of Article XVI of the California Constitution. An election may only be ordered on the question of whether bonds of a school district, community college district, or a school facilities improvement district shall be issued and sold pursuant to subdivision (b) of Section 18 of Article XVI of the California Constitution at a primary or general election, a regularly scheduled local election at which all of the electors of the school district, community college district, or school facilities improvement district, as appropriate, are entitled to vote, or a statewide special election.

(b) Upon adopting a resolution to incur bonded indebtedness pursuant to subdivision (b) of Section 18 of Article XVI of the California Constitution and after the question has been submitted to the voters, if approved at the election, the bonds shall be issued pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIIIA of the California Constitution and this chapter, and the governing board may not, regardless of the number of votes cast in favor of the bond, subsequently proceed exclusively under Chapter 1 (commencing with Section 15100) or under Chapter 2 (commencing with Section 15300), as appropriate. Where not inconsistent, the provisions of Chapter 1 (commencing with Section 15100) or Chapter 2 (commencing with Section 15300), as appropriate, shall apply to this chapter.

15268. The total amount of bonds issued, including bonds issued pursuant to Chapter 1 (commencing with Section 15100), shall not exceed 1.25 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The bonds may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of

the California Constitution in the case of indebtedness incurred by a school district pursuant to this chapter, at a single election, would not exceed thirty dollars ($30) per year per one hundred thousand dollars ($100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with rticle XIIIA of the California Constitution. For purposes of this ection, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying that result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll.

15270. (a) Notwithstanding Sections 15102 and 15268, any unified school district may issue bonds pursuant to this article that, in aggregation with bonds issued pursuant to Chapter 1 (commencing with Section 15100), may not exceed 2.5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The bonds may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a unified school district, would not exceed sixty dollars ($60) per year per one hundred thousand dollars ($100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIIIA of the California onstitution.

(b) Notwithstanding Sections 15102 and 15268, any community college district may issue bonds pursuant to this article that, in aggregation with bonds issued pursuant to Chapter 1 (commencing with Section 15100), may not exceed 2.5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The bonds may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a community college district, would not exceed twenty-five dollars ($25) per year per one hundred thousand dollars ($100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIIIA of the California Constitution.

(c) In computing the outstanding bonded indebtedness of any unified school district or community college district for all purposes of this section, any outstanding bonds shall be deemed to have been issued for elementary school purposes, high school purposes, and community college purposes, respectively, in the respective amounts that the proceeds of the sale of those outstanding bonds, excluding any premium and accrued interest received on that sale, were or have been allocated by the governing board of the unified school district or community college district to each of those purposes respectively.

(d) For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not e limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year

by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying the result by the gross assessed value of all unitary and operating nonunitary property of the county the last equalized assessment roll. In the event of the nification of two or more school districts subsequent to the 1987-88 fiscal year, the assessed value of all unitary and operating nonunitary property of the unified district shall be deemed to be the total of the assessed value of the taxable property of each of the unifying districts as that assessed value would be determined under Section 15268.

(e) For the purposes of this article, "general obligation bonds," as that term is used in Section 18 of Article XVI of the California Constitution, means bonds of a school district or community college district the repayment of which is provided for by this chapter and Chapter 1 (commencing with Section 15100) of Part 10, and includes bonds of a school facilities improvement district the repayment of which is provided for by this chapter and Chapter 2 (commencing with Section 15300).

15271. The governing board of a school district or community college district may proceed pursuant to this chapter on behalf of a school facilities improvement district that is created by and under the exclusive authority of the school district or community college district and act on behalf of the school facilities district as provided pursuant to Chapter 2 (commencing with Section 15300).

272. In addition to the ballot requirements of Section 15122 and he ballot provisions of this code applicable to governing board member elections, for bond measures pursuant to this chapter, the ballot shall also be printed with a statement that the board will appoint a citizens' oversight committee and conduct annual independent audits to assure that funds are spent only on school and classroom improvements and for no other purposes.

15274. If it appears from the certificate of election results that 55 percent of the votes cast on the proposition of issuing bonds pursuant to subdivision (b) of Section 18 of Article XVI of the California Constitution are in favor of issuing bonds, the governing board shall cause an entry of that fact to be made upon its minutes. The governing board shall then certify to the board of supervisors of the county whose superintendent of schools has jurisdiction over the district, all proceedings had in the premises. The county superintendent of schools shall send a copy of the certificate of election results to the board of supervisors of the county.

15276. Notwithstanding any other provision of law, a county board of education may not order an election to determine whether bonds may e issued under this article to raise funds for a county office of ducation.

EDUCATION CODE
SECTION 15300-15303

15300. This chapter provides a method for the formation of school facilities improvement districts consisting of a portion of the territory within a school district or community college district, for the conduct of a bond election within a school facilities improvement district, and for the issuance of general obligation bonds by a school district or community college district for a school facilities improvement district.

15301. (a) A school district or community college district that has a community facilities district formed pursuant to the Mello-Roos Community Facilities Act of 1982, as set forth in Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code, that has as one of its purposes the construction of school facilities within a portion of the territory of the school district or community college district, may proceed under this chapter.

(b) The boundaries of a school facilities improvement district formed pursuant to this chapter shall include all of the portion of the territory within the boundaries of the school district or community college district that is not located within the boundaries of the community facilities district as described in subdivision (a).

(c) A school district or community college district may proceed nder this chapter without meeting the requirements of subdivisions (a) and (b) if the governing board of the school district or community college district determines that it is necessary and in the best interest of the school district or community college district, respectively, to form a school facilities improvement district pursuant to this chapter to finance school facilities and purposes authorized pursuant to Section 15100. As a part of that determination, the governing board of the school district or community college district shall make a finding that the overall cost of financing the bonds issued pursuant to this part would be less than the overall cost of other school facilities financing options available to the school district or community college district, including, but not limited to, issuing bonds pursuant to the Mello-Roos Communities Facilities Act of 1982 (Ch. 2.5 (commencing with Sec. 53311), Pt. 1, Div. 2, Title 5, Gov. C.). The governing board of the school district or community college district proceeding under this subdivision shall define the boundaries of the school facilities improvement district to include any portion of territory within the jurisdiction of the school district or community college district.

(d) The governing body of a school district or community college district that proceeds under this chapter shall comply with the filing requirements established by Section 54902 of the Government Code. A plat or map that is filed pursuant to this subdivision shall specifically identify property, located within the school district or community college district, that is not located within the improvement district established by the school district or community college district pursuant to this chapter.

15303. (a) This chapter shall not be operative in a county or counties until the board of supervisors of the county in which the county superintendent of schools having jurisdiction over the school district or community college district in which the school facilities improvement district is located, and the board of supervisors of any county in which the school facilities improvement district is located, by resolution adopted by a majority vote of each affected board of supervisors, makes this chapter applicable in the county or counties.

(b) A board of supervisors adopting a resolution pursuant to subdivision (a) shall file that resolution with the California Debt and Investment Advisory Commission established pursuant to Section 8855 of the Government Code.

Application

Resolution by board of supervisors required to make chapter applicable in county, see Education Code § 15303.

Historical and Statutory Notes

EDUCATION CODE
SECTION 15334.5

15334.5. Notwithstanding any other provision of law, no bonded indebtedness may be incurred pursuant to this part in an amount that would cause the bonded indebtedness of the territory of the school facilities improvement district or of the school district or community college district of which the school facilities improvement district is a part, to exceed the limitation of indebtedness specified in Sections 15102 and 15106. No bonded indebtedness may be incurred pursuant to this part in an amount that would cause the bonded indebtedness of the territory of the school facilities improvement district to exceed the limitation of indebtedness specified in Sections 15102 and 15106.

EDUCATION CODE
SECTION 15700-15754

15700. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary and adequate school sites and buildings for the pupils of the public school system, the system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

In adopting this act, the Legislature considers that the great need in school construction is for adequate classrooms for the education of the pupils of the public school system. It is the intent of the Legislature to first satisfy this primary need to the greatest extent possible before providing additional educational facilities, regardless of how desirable such additional facilities may be. To the end that school classrooms may be made available at once and to all school districts in need of such classrooms, provisions for other needed school facilities is necessarily subordinated.

15701. As used in this chapter:

(a) "Board" means the State Allocation Board.

(b) "Director" means the Director of Education for kindergarten and grades 1 to 12, inclusive.

(c) "Project" means the purposes for which a school district has applied for an apportionment under this chapter.

(d) "Grade level maintained by a district" means either of the following:

(1) The kindergarten, if any, and grades 1 to 6, inclusive, or grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district.

(2) Grades 7 to 12, inclusive, grades 9 to 12, inclusive, or grades 7 to 10, inclusive, maintained by a high school district or unified school district.

(e) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires.

15702. The Director of General Services shall administer this chapter and shall provide any assistance to the board that it may require.

15703. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board in an advisory capacity shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the Public School Building Loan Fund.

15704. The board by the adoption of rules shall give priority in allocating funds to districts to those districts where the children will benefit most from additional schoolhouse facilities. This

EDUCATION CODE
SECTION 16000-16105

16000. This chapter may be cited as the State School Building Aid Law of 1952.

16001. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary schoolsites and buildings for the pupils of the public school system, this system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

In adopting this chapter, the Legislature considers that the great need in school construction is for classrooms for the education of the pupils of the public school system. It is the intent of the Legislature to first satisfy this primary need to the greatest extent possible before providing additional educational facilities, regardless of how desirable such additional facilities may be. To the end that school classrooms may be made available at once and to all school districts in need of such classrooms, provisions for other needed school facilities is necessarily subordinated.

16002. As used in this chapter:

(a) "Board" means the State Allocation Board.

(b) "Director" means the Director of Education for kindergarten and grades 1 to 12, inclusive.

(c) Notwithstanding any other law, the term "project" shall be deemed to include any or all of the purposes for which a school district has applied for apportionments under this chapter, pursuant to any regulations that the State Allocation Board may adopt.

(d) "Grade level maintained by a district" means any of the following:

(1) The kindergarten, if any, and grades 1 to 6, inclusive, or grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district.

(2) Grades 7 to 12, inclusive, grades 9 to 12, inclusive, or grades 7 to 10, inclusive, maintained by a high school district or unified school district.

However, not more than one grade level shall be claimed by any district under any one of the paragraphs of this subdivision.

(e) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires. The term "apportionment" in Sections 16091, 16097, 16099, 16100, 16104, 16105, and any other section in this chapter where the context justifies, shall be deemed to include funds of a school district required by the board to be contributed toward the purposes thereof. It is hereby declared that this construction is not intended as a change in the present law but rather as a declaration of existing law.

16002.5. For the purposes of this chapter, the term "basic bond requirement," means 5 percent of the assessed valuation of taxable property of the district for each grade level maintained by a district, as shown by the last equalized assessment of the county or

EDUCATION CODE
SECTION 16310-16344

16310. Not to exceed forty million dollars ($40,000,000) of the proceeds of the sale of bonds authorized by the State School Building Aid Bond Law of 1966 may be expended pursuant to this article.

16311. Not to exceed two hundred fifty million dollars ($250,000,000) of the proceeds of the sale of bonds authorized by the School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1972 may be expended pursuant to this article.

16312. The Legislature hereby declares that it is in the interest of the state and the people thereof to provide assistance to school districts in rehabilitating or replacing structurally unsafe school facilities inasmuch as the education of children is an obligation of the state, and the obligation carries with it a corresponding responsibility for the physical safety of children while attending school.

16313. It is the intent of the Legislature in enacting this article to provide a means through repayable state loans for school districts not otherwise eligible for assistance under this chapter (consisting principally of school districts in the urban centers of the state), to house their pupils in facilities that are structurally safe.

16314. The following terms, as used in this article, shall have the following meanings, unless the State Allocation Board finds a different meaning is essential for properly carrying out the purposes of this article, or finds that a different meaning clearly appears from the context:

(a) "Board" means the State Allocation Board as defined in Article 1 (commencing with Section 16000) of this chapter.

(b) "Director" means the Director of Education.

(c) "District" means an elementary, high school, or unified school district.

(d) "Project" means the purposes for which a district has applied for assistance in the rehabilitation or replacement of unsafe school facilities at a given attendance center.

(e) "Apportionment" means an apportionment made under this article, and unless the context otherwise requires, it shall be deemed to include funds of a district required by the board to be contributed toward the cost of a project.

(f) "Attendance center" means a school maintained or to be maintained at a given location within a district.

16315. The State Allocation Board shall administer this article.

EDUCATION CODE
SECTION 16700-16734

16700. This chapter may be cited as the "Urban School Construction Aid Law of 1968."

16701. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid urban school districts of the state in reconstructing, modernizing, or replacing schoolsites and buildings for pupils of the public school system who are now housed in substandard schools constructed prior to 1943.

16702. As used in this chapter:
(a) "Board" means the State Allocation Board.
(b) "Director" means the Director of Education.
(c) "Project" means the purpose or purposes for which a school district has applied for an apportionment or apportionments.
(d) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires.
(e) "Urban district" means any school district, the boundaries of which are substantially identical to or which encompass the boundaries of a city having a population in 1960 of not less than 0,000 persons.

16703. The Director of General Services shall administer this chapter and shall provide any assistance to the board that it may require.

16704. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the Urban School Construction Aid Fund.

16705. The board by the adoption of rules shall give priority in allocating funds to urban districts to those districts where the children will benefit most from schoolhouse facilities. This priority shall be based upon the age of existing buildings and the acuteness of overcrowding at the school or schools where the construction or reconstruction will occur, the density of population in the attendance areas affected, or any other factors that will insure that the greatest need will be served.

16706. In addition to any other powers and duties that are granted the board by this chapter, the board shall:

EDUCATION CODE
SECTION 17000-17009.5

17000. This chapter may be cited as the "Leroy F. Greene State School Building Lease-Purchase Law of 1976."

17001. (a) The Legislature hereby declares that it is in the interest of the state and the people thereof for the state to reconstruct, remodel, or replace existing school buildings that are educationally inadequate or that do not meet present-day structural safety requirements, and to acquire new schoolsites and buildings for the purpose of making them available to local school districts for the pupils of the public school system, that system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

(b) In order to expedite the elimination of the use of nonconforming school buildings that are used or designed to be used for instructional purposes or intended to be entered by pupils, the State Allocation Board may establish criteria that considers special circumstances under which funds may be allocated for the reconstruction of nonconforming buildings. The funds allocated in accordance with this section shall not exceed 75 percent of the cost of facility replacement.

(c) It is the intent of the Legislature that all construction projects be designed and constructed to maximize the use of educational technology, as set forth in subdivision (b) of Section 17002.

17002. The following terms wherever used or referred to in this chapter, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) "Apportionment" means a reservation of funds necessary to finance the cost of any project approved by the board for lease to an applicant school district.

(b) "Board" means the State Allocation Board.

(c) "Cost of project" includes, but is not limited to, the cost of all real estate property rights, and easements acquired, and the cost of developing the site and streets and utilities immediately adjacent thereto, the cost of construction, reconstruction, or modernization of buildings and the furnishing and equipping, including the purchase of educational technology hardware, of those buildings, the supporting wiring and cabling, and the technological modernization of existing buildings to support that hardware, the cost of plans, specifications, surveys, and estimates of costs, and other expenses that are necessary or incidental to the financing of the project. For purposes of this section, "educational technology hardware" includes, but is not limited to, computers, telephones, televisions, and video cassette recorders.

(d) (1) "Good repair" means the facility is maintained in a manner that assures that it is clean, safe, and functional as determined pursuant to a school facility inspection and evaluation instrument developed by the Office of Public School Construction and approved by the board or a local evaluation instrument that meets the same criteria. Until the school facility inspection and evaluation instrument is approved by the board, "good repair" means the facility is maintained in a manner that assures that it is clean, safe, and

EDUCATION CODE
SECTION 17085-17096

17085. This chapter may be cited as the State Relocatable Classroom Law of 1979.

17086. In adopting this chapter, the Legislature recognizes that the ad valorem tax is no longer available as a source of revenue for the construction of necessary school facilities. The Legislature considers that the greatest need in school construction is for classrooms for the education of public school pupils. It is the intent of the Legislature to satisfy this primary need to the greatest extent possible before providing any additional educational facilities, regardless of how desirable such additional facilities may be.

17087. As used in this chapter:

(a) "Board" means the State Allocation Board.

(b) "Good repair" has the same meaning as specified in subdivision (d) of Section 17002.

(c) "Lessee" means a school district or county superintendent of schools to whom the board has leased a portable classroom pursuant to this chapter.

(d) "State School Building Aid Fund" means that fund established pursuant to Section 16096.

17088. In addition to any other powers and duties as are granted the board by this chapter, other statutes, or the State Constitution, the board has the power to do each of the following:

(a) Establish any qualifications not in conflict with other provisions of this chapter, as it deems will best serve the purposes of this chapter, for determining the eligibility of school districts and county superintendents of schools to lease portable classrooms under this chapter.

(b) Establish any procedures and policies in connection with the administration of this chapter as it deems necessary.

(c) Adopt any rules and regulations for the administration of this chapter requiring such procedure, forms, and information, as it may deem necessary.

(d) Have constructed, furnished, equipped, or otherwise require whatever work is necessary to place, portable classrooms on schoolsites where needed.

(e) Own, have maintained, and lease portable classrooms to qualifying school districts and county superintendents of schools.

(f) From any moneys in the State School Building Aid Fund available for purposes of this chapter, the board shall make available to the Director of General Services such amounts as it determines necessary to provide the assistance, pursuant to this chapter, required by Section 15504 of the Government Code.

(g) Notwithstanding any other provision of law, from any funds available to the board, the board may, no later than January 15 of any year, make available to the Director of General Services up to thirty-five million dollars ($35,000,000) for expenditure in the subsequent school year. It is the intent of the Legislature that

EDUCATION CODE
SECTION 17100

17100. The Legislature hereby finds and declares that the State School Building Lease-Purchase Fund, pursuant to Section 17008, and the proceeds from the sale or lease of surplus school property are the two sources available to school districts to finance the construction of school facilities to relieve overcrowding. However, these sources are still insufficient to meet the construction needs statewide of school districts.

EDUCATION CODE
SECTION 17340-17343

17340. The governing board of any school district may, and when directed by a vote of the district shall, build and maintain a schoolhouse.

17342. The governing board of any school district, whenever in its judgment it is desirable to do so, may establish additional schools in the district.

17343. The governing board of any school district may purchase property and construct and equip buildings in an area after the legal action has been taken that will result in annexation of the area to the school district, but before the annexation has become effective.

EDUCATION CODE
SECTION 17365-17374

17365. The Legislature finds and declares as follows:

(a) By an urgency act (Stats. 1933, Ch. 59), the Legislature at the 1933 General Session established reasonable minimum standards for the design and construction of new school buildings, as now defined in Section 17283. Although it was not required that then existing school buildings incorporate these standards, it was intended by the Legislature that in the intervening years continuous progress would be made in the repair, reconstruction or replacement of such school buildings.

(b) Progress toward this end has been outstanding since 1971 as a result of state funds being made available for rehabilitating or replacing structurally unsafe school facilities.

17366. It is the intent of the Legislature to reexamine the progress under this article from time to time. To enable it to do so, and to expedite the provision of safe educational facilities for California schoolchildren, the Legislature intends that the governing board of each school district adopt a plan for the orderly repair, reconstruction, or replacement of school buildings not repaired, reconstructed, or replaced in accordance with this article.

17367. The governing board of any school district which has in use for school purposes any school buildings which were not constructed under approved plans and the supervision and inspection requirements of Article 3 (commencing with Section 17280) of this chapter shall have such buildings examined pursuant to this section and shall have completed on or before January 1, 1970, the examination, reporting and estimate requirements of this section and Section 39223.

Whenever an examination of the structural condition of any school building of a school district has been made by the Department of General Services, or by any licensed structural engineer or licensed architect for the governing board of the school district, or under the authorization of law, and a report of the examination, including the findings and recommendations of the agency or person making the examination, has been made to the governing board of the district, and the report shows that the building is unsafe for use, the governing board of the district shall immediately have prepared an estimate of the cost necessary to make such repairs to the building or buildings as are necessary, or, if necessary, to reconstruct or replace the building so that the building when repaired or reconstructed, or any building erected to replace it, shall meet such standards of structural safety as are established in accordance with law. The estimate shall be based on current costs and may include other costs to reflect modern educational needs. Also an estimate of the cost of replacement based on the standards established by the State Allocation Board for area per pupil and cost per square foot, shall be made and reported.

The report required by this section shall include a statement that each of the buildings examined is safe or unsafe for school use. For the purpose of this statement the sole consideration shall be protection of life and the prevention of personal injury at a level

of safety equivalent to that established by Article 3 (commencing with Section 17280) of this chapter and the rules and regulations adopted thereunder, disregarding, insofar as possible, such building damage not jeopardizing life which would be expected from one disturbance of nature of the intensity used for design purposes in said rules and regulations.

The governing board, utilizing the information acquired from the examination and report developed pursuant to this section, shall establish a system of priorities for the repair, reconstruction, or replacement of unsafe school buildings.

17368. "School building" as used in this article shall be limited to any physical structure capable of being occupied by pupils, but shall exclude, (a) any bleacher or grandstand with less than six rows of seats, (b) any building which is used exclusively for warehouse, storage, garage, or districtwide administrative office purposes, into which pupils are not required to enter, and buildings utilized by adult schools for off-campus, voluntary adult education courses or registered apprentice courses, (c) any swimming pool, or (d) any yard or lighting poles or flagpoles or playground equipment which does not exceed 35 feet in height.

"School building" as used in this article excludes any building owned or occupied by a unified school district, high school district, or a county superintendent of schools which is used exclusively for adult education purposes.

If any building so excluded was not constructed in accordance with Article 3 (commencing with Section 17280) of this chapter and was not repaired, reconstructed, or replaced in accordance with this article, there shall be posted in a conspicuous place on such building a public notice stating that such building does not meet the structural standards imposed by law for earthquake safety.

17369. "School building" as used in this article excludes any building operated by an official or board of a public entity for purposes other than educational, notwithstanding any educational use thereof incidental to the other primary purpose.

For purposes of this section, a public entity includes, but is not limited to, a city, city and county, county, or special district, but does not include a school district or county superintendent of schools.

17370. Except as provided in Section 17371, nothing in this article shall be construed as relieving any member of the governing board of a school district of any liability for injury to persons or damage to property imposed by law.

17371. No member of the governing board of a school district shall be held personally liable for injury to persons or damage to property resulting from the fact that a school building was not constructed under the requirements of Article 3 (commencing with Section 17280) of this chapter, if such governing board complies with the provisions of this article. Such limit on liability shall commence when such governing board initiates action to comply with the provisions of Section 17367.

A licensed structural engineer or licensed architect employed by a governing board to examine any school building under this article shall not be held personally liable for injury to persons or damage

EDUCATION CODE
SECTION 17565-17592.5

17565. The governing board of any school district shall furnish, repair, insure against fire, and in its discretion rent the school property of its districts. The governing board may also insure the property against other perils. The insurance shall be written in any admitted insurer, or in any nonadmitted insurer to the extent and subject to the conditions prescribed in Section 1763 of the Insurance Code. Insurance on property of a district may be, in the discretion of the governing board, of the deductible type of coverage. By deductible type of coverage is meant a form of insurance under which the insurance becomes operative when the loss and damage exceeds an amount stipulated in the policy or policies.

The governing board, in their notice of bid for any school district construction, may indicate that it may elect to assume the cost of fire insurance by adding the coverage to the district's existing policy and in that event bids made on the construction shall be made in the alternative, with and without the fire insurance coverage included, and the governing board shall make its election as to who shall secure and pay for the insurance at the time of accepting the bid.

17566. (a) The governing board of any school district, by resolution, may establish a fund or funds for losses, and payments, including, but not limited to, health and welfare benefits for its employees as defined by Section 53200 of the Government Code, school district property, any liability, and workers' compensation, in the county treasury for the purpose of covering the deductible amount under deductible types of insurance policies, losses or payments arising from self-insurance programs, or losses or payments due to noninsured perils. In the fund or funds shall be placed those sums, to be provided in the budget of the school district, that will create an amount that, together with investments made from the fund or funds, will be sufficient in the judgment of the governing board to protect the school district from those losses or to provide for payments on the deductible amount under deductible types of insurance policies, losses or payments arising from self-insurance programs, or losses or payments due to noninsured perils. Nothing in this section shall be construed to prohibit the governing board from providing protection against those losses or liability for the payment of claims partly by means of the fund or funds and partly by means of insurance written by acceptable insurers as provided in Section 17565.

The fund or funds shall be considered as separate and apart from all other funds of the school district, and the balance therein shall not be considered to be part of the working cash of the school district in compiling annual budgets.

Warrants may be drawn on or transfers made from the fund or funds so created only to reimburse or indemnify the school district for losses as herein specified, and for the payment of claims, administrative costs, and related services, and to provide for deductible insurance amounts and purchase of excess insurance. The warrants or transfers shall be within the purpose of the fund or funds as established by resolution of the governing board.

The cash placed in the fund or funds may be invested and reinvested by the county treasurer, with the advice and consent of

the governing board of the school district, in securities that are legal investments for surplus county funds in this state. The income derived from the investments, together with interest earned on uninvested funds, shall be considered revenue of, and be deposited in, the fund. The cost of contracts or services authorized by this section are appropriate charges against the respective fund.

The governing board may contract for investigative, administrative, and claims adjustment services relating to claims. The contract may provide that the contracting firm may reject, settle, compromise, and approve claims against the district, or its officers or employees, within the limits and for amounts that the governing board may specify, and may provide that the contracting firm may execute and issue checks in payment of those claims, which checks shall be payable only from a trust account that may be established by the governing board. Funds in the trust account established by the board pursuant to this section shall not exceed a sum that is sufficient, as determined by the governing board to provide for the settlement of claims for a 30-day period. The rejection or settlement and approval of a claim by the contracting firm in accordance with the terms of the contract shall have the same effect as would the rejection or settlement and approval of the claim by the governing board.

The contract may also provide that the contracting firm may employ legal counsel, subject to terms and limitations that the board may prescribe, to advise the contracting firm concerning the legality and advisability of rejecting, settling, compromising, and paying claims referred to the contracting firm by the board for investigation and adjustment, or to represent the board in litigation concerning the claims. The compensation and expenses of the attorney for services rendered to the board shall be an appropriate charge against the appropriate fund.

The contract provided for in this section may contain other terms and conditions that the governing board may consider necessary or desirable to effectuate the board's self-insured programs.

In lieu of, or in addition to, contracting for the services described in this section, the governing board may authorize an employee or employees to perform any or all of the services and functions for which the board may contract under the provisions of this section.

(b) As used in this section:

(1) "Firm" includes a person, corporation, or other legal entity, including a county superintendent of schools.

(2) "Governing boards" includes governing boards of school districts and county superintendents of schools.

(3) "School district" includes a county superintendent of schools who may participate in or administer insurance or self-insurance programs for the county office of education or for one or more school districts.

(c) A county superintendent of schools may participate in or administer insurance for one or more school districts pursuant to this section or for one or more community college districts pursuant to Section 81602, for any combination of school districts and community college districts pursuant to this section and Section 81602.

(d) Prior to funding health and welfare benefits pursuant to this section, the school district shall secure the services of an actuary who is a member of the American Academy of Actuaries to provide actuarial evaluations of the future annual costs of those benefits. The future annual costs as determined by the actuary shall be made public at a public meeting at least two weeks prior to the commencement of funding health and welfare benefits pursuant to this section.

(e) Upon commencing the funding of health and welfare benefits

pursuant to this section, the school district shall secure the services of an actuary as described in subdivision (d) to complete, every three years, an actuarial evaluation of the annual costs of those benefits. A copy of the results of that evaluation shall be submitted by the district to the county superintendent of schools.

17567. Nothing in this code shall be construed to prohibit two or more school districts from exercising, through a joint powers agreement made pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code, the powers prescribed in Section 17566 in accordance with the terms and conditions set forth in that section and in Section 17565.

17568. In districts situated within or partly within cities having a population of over five hundred thousand (500,000) as determined by the 1920 federal census any board of education may establish a fund in the county treasury for the purpose of covering fire losses to school property in lieu of carrying fire insurance in admitted insurers as provided in Section 17565. In the fund shall be placed sums, to be provided in the budget of the district, as will create an amount which, together with investments made from the fund, will be sufficient in the judgment of the board of education upon the advice of competent actuaries to protect the board of education against losses by fire on all or any part of the school property within its jurisdiction. Nothing contained herein shall be construed as prohibiting the board of education from providing protection against fire losses partly by means of the fund and partly by means of fire insurance written by admitted insurers as provided in Section 17565.

The fund shall be considered as separate and apart from all other funds of the district and the balance therein shall not be considered as being part of the working cash of the district in compiling annual budgets or fixing annual tax rates.

Warrants shall be drawn on, or transfers made from, the fund so created only to reimburse or indemnify the school district for losses as herein specified, and for the payment of claims, administrative costs, related services, and to provide for deductible insurance amounts and the purchase of excess insurance. The warrants or transfers shall be within the purpose of the fund as established by resolution of the governing board.

The cash placed in the fund may be invested and reinvested by the county treasurer with the advice and consent of the board of education in securities which are legal investments for surplus county funds in this state. The income derived from such investments together with interest earned on uninvested funds shall be considered revenue of and be deposited in the fund.

The county treasurer shall make quarterly reports to the board of education as to the condition of the fund, using as a basis for the report the cost or market value, whichever may be the lower, of the securities held as investments plus the cash in the fund.

17569. The governing board of any school district may grade, pave, construct sewers, or otherwise improve streets and other public places in front of real property owned or controlled by it, and also may construct in immediate proximity to any school or site owned or controlled by the district, pedestrian tunnels, overpasses,

footbridges, sewers and water pipes when required for school or administrative purposes, may acquire property, easements and rights-of-way for such purpose, and may appropriate money to pay the cost and expense of the improvements, whether made by the board under contract executed by the board, or under contracts made in pursuance of any of the general laws of the state respecting street improvements, or under other contracts made in pursuance of the charter of any county or municipality.

17570. Any provision to the contrary notwithstanding, the governing board of any school district, other than a city school district with over 50,000 pupils in average daily attendance during the preceding fiscal year, may construct pedestrian walks, footbridges, and pedestrian tunnels when required for the safety of pupils attending the schools of the district, may acquire easements and rights-of-way for those purposes, and may appropriate money to acquire such easements and rights-of-way and to pay the cost and expense of the improvements, whether made by the board under contract executed by the board, or under contracts made in pursuance of any of the general laws of the state respecting street improvements, or under other contracts made in pursuance of the charter of any county or municipality. Pedestrian walks, footbridges, and pedestrian tunnels shall be constructed, and such easements or rights-of-way for those purposes shall be acquired, within one mile of the school for the pupils of which the walks, bridges, and tunnels are necessary.

17571. The governing board of any school district may install and maintain a lighting system in any underpass in the vicinity of a schoolhouse.

17572. The governing board of any school district may appropriate money to pay assessments, for the improvement of streets or other public places, levied against any real property owned by, or under the control of the board, when the property is included within an assessment district formed in pursuance of any general law of the state or under the charter of any municipality. The assessments may be paid out of any funds belonging to the school district, except funds derived from the sale of bonds or required by law to be used for teachers' salaries.

17573. The governing board of every school district shall provide a warm, healthful place in which children who bring their own lunches to school may eat the lunches.

17574. The governing board of a school district may construct a mobilehome site on the grounds of any district facility or facilities maintained by the district, including all necessary appurtenances and fixtures, and may pay the cost of utilities, insurance, and necessary services, for the purpose of enabling a responsible person or persons to install and occupy a mobilehome on such site. Such person or persons, who need not be classified as employees of the district, shall, in return for being permitted to install and occupy a mobilehome on the district facility site on terms and conditions acceptable to the governing board, agree to maintain any surveillance

over the facility grounds as the school district governing board requires, and to report to district authorities illegal or suspicious activities that are observed.

17575. The governing board of any school district, when leasing a building for housing of school district employees, may lease such building for any period they deem necessary.

17576. The governing board of every school district shall provide, as an integral part of each school building, or as part of at least one building of a group of separate buildings, sufficient patent flush water closets for the use of the pupils. In school districts where the water supply is inadequate, chemical water closets may be substituted for patent flush water closets by the board.

This section shall apply to all buildings existing on September 19, 1947, or constructed after such date.

17577. In addition to the other powers granted the governing board of each school district may provide sewers and drains adequate to treat and/or dispose of sewage and drainage on or away from each school property. For this purpose it may construct adequate systems or acquire adequate disposal rights in systems constructed or to be constructed by others for these purposes without regard to their proximity. The cost thereof may be paid from the building fund, including any bond moneys therein.

17578. The governing board of each district maintaining a high school shall provide for the annual cleaning, sterilizing, and necessary repair of football equipment of their respective schools pursuant to Sections 17579 and 17580.

17579. All football equipment actually worn by pupils shall be cleaned and sterilized at least once a year. Football equipment used in spring training shall be cleaned and sterilized before it is used in the succeeding fall term.

17580. Any contract with a dealer or craftsman for the repair of football equipment belonging to the district or the state college shall specifically state or describe the materials to be used by the dealer or craftsman in repairing such equipment.

17581. (a) The Legislature finds and declares that the quality of protective equipment worn by participants in high school interscholastic football is a significant factor in the occurrence of injuries to such participants and that it is therefore necessary to insure minimum standards of quality for the equipment in order to prevent unnecessary injuries to such participants.

(b) No football helmets shall be worn by participants in high school interscholastic football unless the equipment has been certified for use by the National Operating Committee on Standards

EDUCATION CODE
SECTION 48200-48208

48200. Each person between the ages of 6 and 18 years not exempted under the provisions of this chapter or Chapter 3 (commencing with Section 48400) is subject to compulsory full-time education. Each person subject to compulsory full-time education and each person subject to compulsory continuation education not exempted under the provisions of Chapter 3 (commencing with Section 48400) shall attend the public full-time day school or continuation school or classes and for the full time designated as the length of the schoolday by the governing board of the school district in which the residency of either the parent or legal guardian is located and each parent, guardian, or other person having control or charge of the pupil shall send the pupil to the public full-time day school or continuation school or classes and for the full time designated as the length of the schoolday by the governing board of the school district in which the residence of either the parent or legal guardian is located.

Unless otherwise provided for in this code, a pupil shall not be enrolled for less than the minimum schoolday established by law.

48200.5. Notwithstanding Section 48200, any resident of the City of Carson who is the parent or legal guardian of a person subject to compulsory education may enroll that person in either the school district in which the residency of the parent or guardian is located or in the Los Angeles Unified School District pursuant to the terms of an agreement permitting those transfers that is mutually adopted by the Compton Unified School District and the Los Angeles Unified School District.

48200.7. (a) The State Department of Education shall identify the three lowest performing elementary schools in the Compton Unified School District for purposes of extending the school year for pupils enrolled in kindergarten or grades 1 and 2 and for those pupils in any of grades 3 to 5, inclusive, who are performing in mathematics or English language arts two or more grade levels below the grade in which those pupils are enrolled as determined under subdivision (d).

(b) Beginning with the 1998-99 school year, the Compton Unified School District may identify schools of the district, in addition to those identified pursuant to subdivision (a), that are among the lowest performing schools in the district, and may provide extended school year instruction pursuant to Section 41601.1 to any pupil enrolled in kindergarten or any of grades 1 to 12, inclusive, in a school identified pursuant to this subdivision who is performing in mathematics or English language arts at a grade level that is two or more grade levels below the grade in which that pupil is enrolled as determined pursuant to subdivision (d).

(c) Notwithstanding subdivision (b) of this section and Section 41601.1, the amount of funding claimed by the district for extended year instruction shall not in any year exceed twice the amount claimed pursuant to this section in the 1997-98 fiscal year as adjusted each year by the inflation adjustment determined pursuant to Section 42238.1.

(d) The determination that a pupil is performing two or more grade levels below the grade in which that pupil is enrolled shall be based on any combination of the following:

(1) The California Achievement Test-Form E.

(2) The Spanish assessment of basic education.

(3) Proficiency tests required for graduation.

(4) District criterion reference tests based on state curriculum guides.

(5) The STAR test.

(e) The Compton Unified School District shall test all pupils in kindergarten and grades 1 to 12, inclusive, in its lowest performing schools identified pursuant to subdivisions (a) and (b) prior to those pupils beginning an extended school year program under this section. At the end of the school year the school district shall again test the pupils in kindergarten and grades 1 to 12, inclusive, to determine the grade level at which those pupils are performing.

(f) The department shall approve each of the following areas in each elementary school identified as high-priority pursuant to subdivision (a):

(1) Curricula.

(2) Testing instruments.

(3) Schoolday length.

(4) Teacher selection, teacher mentoring, and staff development processes.

(g) The department shall review teacher compensation, including salary and benefits, in each elementary school identified as high-priority pursuant to subdivision (a).

(h) The department shall collect data as to each of the following items for each school in subdivisions (a) and (b):

(1) Instructional materials used by, and made available to, the school.

(2) Teacher capacity.

(3) Any other baseline data deemed necessary by the department.

(i) Instruction provided to pupils subject to this section during schooldays in excess of schooldays offered to other pupils shall be devoted to instruction in basic skills in mathematics and English language arts.

(j) In conjunction with the Legislative Analyst, the department shall contract for an independent evaluation to determine the effectiveness of the extended school year curriculum, instructional program, and materials provided pursuant to this section and funded pursuant to Section 41601.1 in improving pupil academic outcomes. Testing and data collection conducted pursuant to this section shall be administered under the oversight of the independent evaluator, who shall be provided with copies of all test results. Results of the evaluation shall be reported on or before January 1, 2002, to the Superintendent of Public Instruction, the Legislative Analyst, the Director of Finance, and the appropriate policy and fiscal committees of the Legislature. The Compton Unified School District shall be responsible for all costs incurred pursuant to this subdivision.

(k) A percentage of funding appropriated for purposes of this section, in an amount to be determined by the Superintendent of Public Instruction, shall be used for purposes of testing and data collecting pursuant to this section.

48200.8. Subsequent to the evaluation required pursuant to subdivision (j) of Section 48200.7, the State Department of Education, in consultation with the Legislative Analyst, shall contract, as necessary, for a second independent evaluation, or as determined by the department with concurrence by the Legislative Analyst may extend the original contract authorized in subdivision

(j) of Section 48200.7, to conclusively determine the effectiveness of the extended school year curriculum, instructional program, and materials in improving pupil academic outcomes provided pursuant to that section. The subsequent evaluation and data collection necessary to incorporate results of the program through the 2001-02 school year and subsequent summer period shall be funded through funds authorized pursuant to Section 41601.1, as determined by the Superintendent of Public Instruction, to ensure the Compton Unified School district shall be responsible for all costs incurred pursuant to this section. Testing and data collection conducted pursuant to this section shall be administered under the oversight of the independent evaluator, who shall be provided with copies of all test results. Results of the evaluation shall be reported on or before January 1, 2003, to the Superintendent of Public Instruction, the Legislative Analyst, the Director of Finance, and the appropriate policy and fiscal committees of the Legislature.

48201. (a) Except for pupils exempt from compulsory school attendance under Section 48231, any parent, guardian, or other person having control or charge of any minor between the ages of 6 and 16 years who removes the minor from any city, city and county, or school district before the completion of the current school term, shall enroll the minor in a public full-time day school of the city, city and county, or school district to which the minor is removed.

(b) (1) Upon a pupil's transfer from one school district to another, the school district into which the pupil is transferring shall request that the school district in which the pupil was last enrolled provide any records that the district maintains in its ordinary course of business or receives from a law enforcement agency regarding acts committed by the transferring pupil that resulted in the pupil's suspension from school or expulsion from the school district. Upon receipt of this information, the receiving school district shall inform any teacher of the pupil that the pupil was suspended from school or expelled from the school district and shall inform the teacher of the act that resulted in that action.

(2) A school district, or school district officer or employee, is not civilly or criminally liable for providing information under this subdivision unless it is proven that the information was false and that the district or district officer or employee knew or should have known that the information was false or the information was provided with a reckless disregard for its truth or falsity.

(3) Any information received by a teacher pursuant to this subdivision shall be received in confidence for the limited purpose for which it was provided and shall not be further disseminated by the teacher.

48202. The county board of education of each county may establish, by resolution, the following regulation requiring the reporting of various types of severance of attendance of or by any pupil subject to the compulsory education laws of California or of any one or more of the types of severance enumerated in subdivision (a) below and may require such reporting of any or all of the private and public schools of the county:

(a) The administration of each private school and public school district of the county shall, upon the severance of attendance by any pupil subject to the compulsory education laws of California, whether by expulsion, exclusion, exemption, transfer, suspension beyond 10 schooldays, or other reasons, report such severance to the county superintendent of schools in the jurisdiction. The report

shall include names, ages, last known address and the reason for each such severance.

(b) It shall be the duty of the county superintendent of such county to examine such reports and draw to the attention of the county board of education and local district board of education any cases in which the interests of the child or the welfare of the state may need further examination.

(c) After preliminary study of available information in cases so referred to it, the county board of education may, on its own action, hold hearings on such cases in the manner provided in Sections 48915 through 48920 and with the same powers of final decision as therein provided.

48203. (a) The superintendent of a school district and the principal of a private school in each county shall, upon the severance of attendance or the denial of admission of any child who is an individual with exceptional needs, as that term is defined in Section 56026, or who is a qualified handicapped person, as that term is defined in regulations promulgated by the United States Department of Education pursuant to Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. Sec. 794), but who is otherwise subject to the compulsory education laws of California, report the severance, expulsion, exclusion, exemption, transfer, or suspension beyond 10 schooldays to the county superintendent of schools. The report shall include names, ages, last known address, and the reason for the severance, expulsion, exclusion, exemption, transfer, or suspension.

(b) It is the duty of the county superintendent to examine those reports and draw to the attention of the county board of education and governing board of a school district any cases in which the interests of the child or the welfare of the state may need further examination.

(c) After a preliminary study of available information in cases referred to it, the county board of education may, on its own action, hold hearings on those cases in the manner provided in Section 48914 and with the same powers of final decision as therein provided.

48204. (a) Notwithstanding Section 48200, a pupil complies with the residency requirements for school attendance in a school district, if he or she is any of the following:

(1) (A) A pupil placed within the boundaries of that school district in a regularly established licensed children's institution, or a licensed foster home, or a family home pursuant to a commitment or placement under Chapter 2 (commencing with Section 200) of Part 1 of Division 2 of the Welfare and Institutions Code.

(B) An agency placing a pupil in a home or institution described in subparagraph (A) shall provide evidence to the school that the placement or commitment is pursuant to law.

(2) A pupil for whom interdistrict attendance has been approved pursuant to Chapter 5 (commencing with Section 46600) of Part 26.

(3) A pupil whose residence is located within the boundaries of that school district and whose parent or legal guardian is relieved of responsibility, control, and authority through emancipation.

(4) A pupil who lives in the home of a caregiving adult that is located within the boundaries of that school district. Execution of an affidavit under penalty of perjury pursuant to Part 1.5 (commencing with Section 6550) of Division 11 of the Family Code by the caregiving adult is a sufficient basis for a determination that the pupil lives in the home of the caregiver, unless the school district determines from actual facts that the pupil is not living in

the home of the caregiver.

(5) A pupil residing in a state hospital located within the boundaries of that school district.

(b) A school district may deem a pupil to have complied with the residency requirements for school attendance in the district if at least one parent or the legal guardian of the pupil is physically employed within the boundaries of that district.

(1) This subdivision does not require the school district within which at least one parent or the legal guardian of a pupil is employed to admit the pupil to its schools. A school district shall not, however, refuse to admit a pupil under this subdivision on the basis, except as expressly provided in this subdivision, of race, ethnicity, sex, parental income, scholastic achievement, or any other arbitrary consideration.

(2) The school district in which the residency of either the parents or the legal guardian of the pupil is established, or the school district to which the pupil is to be transferred under this subdivision, may prohibit the transfer of the pupil under this subdivision if the governing board of the district determines that the transfer would negatively impact the court-ordered or voluntary desegregation plan of the district.

(3) The school district to which the pupil is to be transferred under this subdivision may prohibit the transfer of the pupil if the district determines that the additional cost of educating the pupil would exceed the amount of additional state aid received as a result of the transfer.

(4) The governing board of a school district that prohibits the transfer of a pupil pursuant to paragraph (1), (2), or (3) is encouraged to identify, and communicate in writing to the parents or the legal guardian of the pupil, the specific reasons for that determination and is encouraged to ensure that the determination, and the specific reasons therefor, are accurately recorded in the minutes of the board meeting in which the determination was made.

(5) The average daily attendance for pupils admitted pursuant to this subdivision is calculated pursuant to Section 46607.

(6) Unless approved by the sending school district, this subdivision does not authorize a net transfer of pupils out of a school district, calculated as the difference between the number of pupils exiting the district and the number of pupils entering the district, in a fiscal year in excess of the following amounts:

(A) For a school district with an average daily attendance for that fiscal year of less than 501, 5 percent of the average daily attendance of the district.

(B) For a school district with an average daily attendance for that fiscal year of 501 or more, but less than 2,501, 3 percent of the average daily attendance of the district or 25 pupils, whichever amount is greater.

(C) For a school district with an average daily attendance of 2,501 or more, 1 percent of the average daily attendance of the district or 75 pupils, whichever amount is greater.

(7) Once a pupil is deemed to have complied with the residency requirements for school attendance pursuant to this subdivision and is enrolled in a school in a school district the boundaries of which include the location where at least one parent or the legal guardian of a pupil is physically employed, the pupil does not have to reapply in the next school year to attend a school within that district and the district governing board shall allow the pupil to attend school through grade 12 in that district if the parent or legal guardian so chooses and if at least one parent or the legal guardian of the pupil continues to be physically employed by an employer situated within the attendance boundaries of the district, subject to paragraphs (1) to (6), inclusive.

(c) This section shall become inoperative on July 1, 2012, and as

of January 1, 2013, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2013, deletes or extends the dates on which it becomes inoperative and is repealed.

48204. Notwithstanding Section 48200, a pupil complies with the residency requirements for school attendance in a school district, if he or she is:

(a) (1) A pupil placed within the boundaries of that school district in a regularly established licensed children's institution, or a licensed foster home, or a family home pursuant to a commitment or placement under Chapter 2 (commencing with Section 200) of Part 1 of Division 2 of the Welfare and Institutions Code.

(2) An agency placing a pupil in the home or institution described in paragraph (1) shall provide evidence to the school that the placement or commitment is pursuant to law.

(b) A pupil for whom interdistrict attendance has been approved pursuant to Chapter 5 (commencing with Section 46600) of Part 26.

(c) A pupil whose residence is located within the boundaries of that school district and whose parent or legal guardian is relieved of responsibility, control, and authority through emancipation.

(d) A pupil who lives in the home of a caregiving adult that is located within the boundaries of that school district. Execution of an affidavit under penalty of perjury pursuant to Part 1.5 (commencing with Section 6550) of Division 11 of the Family Code by the caregiving adult is a sufficient basis for a determination that the pupil lives in the home of the caregiver, unless the school district determines from actual facts that the pupil is not living in the home of the caregiver.

(e) A pupil residing in a state hospital located within the boundaries of that school district.

(f) This section shall become operative on July 1, 2012.

48204.5. (a) The Legislature finds that school districts that are adjacent to the international border, because of their geographic position, face unique circumstances in conducting the verification of a pupil's residency.

(b) The Legislature declares that international border school districts may need to employ certain efforts to verify residency.

48204.6. (a) Any school district that is adjacent to an international border may accept a wide range of documents and representations from the parent or guardian of a pupil as reasonable evidence that the pupil meets the residency requirements for school attendance in the school district as set forth in Section 48204. Reasonable evidence of residency may be established by documentation, including, but not limited to, any of the following documentation:

(1) Property tax payment receipts.

(2) Rent payment receipts.

(3) Utility service payment receipts.

(4) Declaration of residency executed by the parent or guardian of the pupil.

(b) If any employee of a school district that is adjacent to an international border reasonably believes that the parent or guardian of a pupil has provided false or unreliable evidence of residency, the school district shall make reasonable efforts to determine that the pupil actually meets the residency requirements set forth in

48205. (a) Notwithstanding Section 48200, a pupil shall be excused from school when the absence is:

(1) Due to his or her illness.

(2) Due to quarantine under the direction of a county or city ealth officer.

(3) For the purpose of having medical, dental, optometrical, or chiropractic services rendered.

(4) For the purpose of attending the funeral services of a member of his or her immediate family, so long as the absence is not more than one day if the service is conducted in California and not more than three days if the service is conducted outside California.

(5) For the purpose of jury duty in the manner provided for by law.

(6) Due to the illness or medical appointment during school hours of a child of whom the pupil is the custodial parent.

(7) For justifiable personal reasons, including, but not limited to, an appearance in court, attendance at a funeral service, observance of a holiday or ceremony of his or her religion, attendance at religious retreats, attendance at an employment conference, or attendance at an educational conference on the legislative or judicial process offered by a nonprofit organization when the pupil's absence is requested in writing by the parent or guardian and approved by the principal or a designated representative pursuant to uniform standards established by the governing board.

(8) For the purpose of serving as a member of a precinct board for an election pursuant to Section 12302 of the Elections Code.

(b) A pupil absent from school under this section shall be allowed to complete all assignments and tests missed during the absence that can be reasonably provided and, upon satisfactory completion within a reasonable period of time, shall be given full credit therefor. The teacher of the class from which a pupil is absent shall determine which tests and assignments shall be reasonably equivalent to, but not necessarily identical to, the tests and assignments that the pupil missed during the absence.

(c) For purposes of this section, attendance at religious retreats shall not exceed four hours per semester.

(d) Absences pursuant to this section are deemed to be absences in computing average daily attendance and shall not generate state apportionment payments.

(e) "Immediate family," as used in this section, has the same meaning as that set forth in Section 45194, except that references therein to "employee" shall be deemed to be references to "pupil."

48206.3. (a) Except for those pupils receiving individual instruction provided pursuant to Section 48206.5, a pupil with a temporary disability which makes attendance in the regular day classes or alternative education program in which the pupil is enrolled impossible or inadvisable shall receive individual instruction provided by the district in which the pupil is deemed to reside.

(b) For purposes of this section and Sections 48206.5, 48207, and 48208, the following terms have the following meanings:

(1) "Individual instruction" means instruction provided to an individual pupil in the pupil's home, in a hospital or other residential health facility, excluding state hospitals, or under other circumstances prescribed by regulations adopted for that purpose by the State Board of Education.

(2) "Temporary disability" means a physical, mental, or emotional disability incurred while a pupil is enrolled in regular day classes or an alternative education program, and after which the pupil can reasonably be expected to return to regular day classes or the alternative education program without special intervention. A temporary disability shall not include a disability for which a pupil is identified as an individual with exceptional needs pursuant to Section 56026.

(c) (1) For purposes of computing average daily attendance pursuant to Section 42238.5, each clock hour of teaching time devoted to individual instruction shall count as one day of attendance.

(2) No pupil shall be credited with more than five days of attendance per calendar week, or more than the total number of calendar days that regular classes are maintained by the district in any fiscal year.

(d) Notice of the availability of individualized instruction shall be given pursuant to Section 48980.

48206.5. Any school district which, prior to January 1, 1986, maintained a program to provide individual instruction to pupils enrolled in regular day classes or an alternative education program offered by the district who have a temporary disability may continue the program as it existed prior to January 1, 1986.

48207. Notwithstanding Section 48200, a pupil with a temporary disability who is in a hospital or other residential health facility, excluding a state hospital, which is located outside of the school district in which the pupil's parent or guardian resides shall be deemed to have complied with the residency requirements for school attendance in the school district in which the hospital is located.

48208. (a) It shall be the primary responsibility of the parent or guardian of a pupil with a temporary disability to notify the school district in which the pupil is deemed to reside pursuant to Section 48207 of the pupil's presence in a qualifying hospital.

(b) Upon receipt of notification pursuant to subdivision (a), a school district shall do all of the following:

(1) Within five working days of receipt of the notification, determine whether the pupil will be able to receive individualized instruction, and, if the determination is positive, when the individualized instruction may commence. Individualized instruction shall commence no later than five working days after the positive determination has been rendered.

(2) Provide the pupil with individualized instruction pursuant to Section 48206.3. The school district may enter into an agreement with the school district in which the pupil previously attended regular day classes or an alternative education program, to have the school district the pupil previously attended provide the pupil with individualized instruction pursuant to Section 48206.3.

(3) Within five working days of the commencement of individualized instruction, provide the school district in which the pupil previously attended regular day classes or an alternative education program with written notice that the pupil shall not be counted by that district for purposes of computing average daily attendance pursuant to Section 42238.5, effective the date on which individualized instruction commenced.

EDUCATION CODE
SECTION 76000-76002

6000. The governing board of a community college district shall admit to the community college any California resident, and may admit any nonresident, possessing a high school diploma or the equivalent thereof.

The governing board may admit to the community college any apprentice, as defined in Section 3077 of the Labor Code, who, in the judgment of the governing board, is capable of profiting from the instruction offered.

The governing board may by rule determine whether there shall be admitted to the community college any other person who is over 18 years of age and who, in the judgment of the board, is capable of profiting from the instruction offered. If the governing board determines to admit other persons, those persons shall be admitted as provisional students and thereafter shall be required to comply with the rules and regulations prescribed by the board of governors pertaining to the scholastic achievement and other standards to be met by provisional or probationary students, as a condition to being readmitted in any succeeding semester. This paragraph shall not apply to persons in attendance in special classes and programs established for adults pursuant to Section 78401 or to any persons attending on a part-time basis only.

76001. (a) The governing board of a community college district may admit to any community college under its jurisdiction as a special part-time or full-time student in any session or term any student who s eligible to attend community college pursuant to Section 48800 or 48800.5.

(b) If the governing board denies a request for a special part-time or full-time enrollment at a community college for a pupil who is identified as highly gifted, the board shall record its findings and the reasons for denial of the request in writing within 60 days. The written recommendation and denial shall be issued at the next regularly scheduled board meeting that falls at least 30 days after the request has been submitted.

(c) The attendance of a pupil at a community college as a special part-time or full-time student pursuant to this section is authorized attendance, for which the community college shall be credited or reimbursed pursuant to Sections 48802 and 76002. Credit for courses completed shall be at the level determined to be appropriate by the school district and community college district governing boards.

(d) For purposes of this section, a special part-time student may enroll in up to, and including, 11 units per semester, or the equivalent thereof, at the community college.

(e) The governing board of a community college district shall assign a low enrollment priority to special part-time or full-time students described in subdivision (a) in order to ensure that these students do not displace regularly admitted students.

76002. (a) For the purposes of receiving state apportionments, a community college district may include high school pupils who attend a community college within the district pursuant to Sections 48800 and 76001 in the district's report of full-time equivalent students (FTES) only if those pupils are enrolled in community college classes

that meet all of the following criteria:

(1) The class is open to the general public.

(2) (A) The class is advertised as open to the general public in one or more of the following:

(i) The college catalog.

(ii) The regular schedule of classes.

(iii) An addenda to the college catalog or regular schedule of classes.

(B) If a decision to offer a class on a high school campus is made after the publication of the regular schedule of classes, and the class is solely advertised to the general public through electronic media, the class shall be so advertised for a minimum of 30 continuous days prior to the first meeting of the class.

(3) If the class is offered at a high school campus, the class may not be held during the time the campus is closed to the general public, as defined by the governing board of the school district during a regularly scheduled board meeting.

(4) If the class is a physical education class, no more than 10 percent of its enrollment may be comprised of special part-time or full-time students. A community college district may not receive state apportionments for special part-time and full-time students enrolled in physical education courses in excess of 5 percent of the district's total reported full-time equivalent enrollment of special part-time and full-time students.

(b) The governing board of a community college district may restrict the admission or enrollment of a special part-time or full-time student during any session based on any of the following criteria:

(1) Age.

(2) Completion of a specified grade level.

(3) Demonstrated eligibility for instruction using assessment methods and procedures established pursuant to Chapter 2 (commencing with Section 78210) of Part 48 and regulations adopted by the Board of Governors of the California Community Colleges.

(c) The Chancellor of the California Community Colleges shall prepare and submit to the Department of Finance and the Legislature, on or before March 1, 2004, and March 1 of each year thereafter, a report on the amount of FTES claimed by each community college district for special part-time and special full-time students for the preceding academic year in each of the following class categories:

(1) Noncredit.

(2) Nondegree-applicable.

(3) Degree-applicable, excluding physical education.

(4) Degree-applicable physical education.

(d) The Board of Governors of the California Community Colleges shall adopt rules and regulations to implement this section.

EDUCATION CODE
SECTION 81160-81179

81160. (a) The provisions of this article do not apply to an offsite building during the time the building is used wholly or in part for community college purposes if the building is neither owned by a community college district nor leased by a community college district under a lease containing an option to purchase the building.

For the purposes of this section, an "offsite building" is a building which is situated on land which is neither owned by a community college district nor leased by a community college district under a lease containing an option to purchase the land.

(b) "School building" as used in this article excludes any building which is used for community college district administrative buildings located on a site separate from the community college campuses of the district, and into which students are not required to enter.

(c) "School building" as used in this article shall be limited to any physical structure capable of being occupied by pupils, but shall exclude, (1) any bleacher or grandstand with less than six rows of seats, (2) any building which is used exclusively for warehouse, storage, garage, or districtwide administrative office purposes, into which pupils are not required to enter, and off-campus buildings utilized by adult schools or community colleges for voluntary adult education courses or registered apprentice courses, (3) any swimming pool, or (4) any yard or lighting poles or flagpoles or playground equipment which does not exceed 35 feet in height.

If any building so excluded was not constructed in accordance with Article 7 (commencing with Section 81130) of this chapter and was not repaired, reconstructed, or replaced in accordance with this article, there shall be posted in a conspicuous place on the building a public notice stating that the building does not meet the structural standards imposed by law for earthquake safety.

81161. It is the intent of the Legislature to re-examine the progress under this article from time to time. To enable it to do so, and to expedite the provision of safe educational facilities for California community college students, the Legislature intends that the governing board of each community college district adopt a plan for the orderly repair, reconstruction, or replacement of school buildings not repaired, reconstructed, or replaced in accordance with this article.

81162. Whenever an examination of the structural condition of any school building of a community college district has been made by the Department of General Services, by any licensed structural engineer or licensed architect for the governing board of the district, or under the authorization of law, and a report of the examination, including the findings and recommendations of the agency or person making the examination, has been made to the governing board of the district, and the report shows that the building is unsafe for use, the governing board of the district immediately shall have prepared an estimate of the cost necessary to make repairs to the building or buildings that are necessary, or, if necessary, to reconstruct or replace the building so that the building when repaired or

reconstructed, or any building erected to replace it, shall meet those standards of structural safety that are established in accordance with law. The estimate shall be based on current costs and may include other costs to reflect modern educational needs. Also, an estimate of the cost of replacement based on the standards established by the State Allocation Board for area per student and cost per square foot shall be made and reported.

The report required by this section shall include a statement that each of the buildings examined is safe or unsafe for school use. For the purpose of this statement, the sole consideration shall be protection of life and the prevention of personal injury at a level of safety equivalent to that established by Article 7 (commencing with Section 81130) of this chapter and the rules and regulations adopted thereunder, disregarding, insofar as possible, building damage not jeopardizing life that would be expected from one disturbance of nature of the intensity used for design purposes in those rules and regulations.

The governing board, utilizing the information acquired from the examination and report developed pursuant to this section, shall establish a system of priorities for the repair, reconstruction, or replacement of unsafe school buildings.

81177. (a) No member of the governing board of a community college district shall be held personally liable for injury to persons or damage to property resulting from the fact that a school building was not constructed under the requirements of Article 7 (commencing with Section 81130), if the governing board complies with this article.

A licensed structural engineer or licensed architect, employed by a governing board to examine any school building under this article, shall not be held personally liable for injury to persons or damage to property as a result of the structural inadequacy and failure of a building, if he or she has exercised normal professional diligence in carrying out his or her functions under Article 7 (commencing with Section 81130) and this article.

(b) Except as provided in subdivision (a), nothing in this article shall be construed as relieving any member of the governing board of a community college district of any liability for injury to persons or damage to property imposed by law.

81179. Notwithstanding any other provision of this article or Chapter 4 (commencing with Section 81800), whenever a community college district does not have funds available to repair, reconstruct, or replace the school buildings referred to in this article or Section 16320, the community college district shall apply for the funds as may be necessary to accomplish the repair, reconstruction, or replacement pursuant to Chapter 4. The community college district shall also accept the funds as are disbursed to the district pursuant to Chapter 4, whether or not the funds constitute the maximum amount applied for, and shall repay the funds in accordance with Chapter 4.

CALIFORNIA CONSTITUTION
ARTICLE 9 EDUCATION

SEC. 3.2. Notwithstanding any provision of this Constitution to the contrary, any two or more chartered counties, or nonchartered counties, or any combination thereof, may, by a majority vote of the electors of each such county voting on the proposition at an election called for that purpose in each such county, establish one joint board of education and one joint county superintendent of schools for the counties so uniting. A joint county board of education and a joint county superintendent of schools shall be governed by the general statutes and shall not be governed by the provisions of any county charter.

CALIFORNIA CONSTITUTION
ARTICLE 9 EDUCATION

SEC. 3.3. Except as provided in Section 3.2 of this article, it shall be competent to provide in any charter framed for a county under any provision of this Constitution, or by the amendment of any such charter, for the election of the members of the county board of education of such county and for their qualifications and terms of office.

CALIFORNIA CONSTITUTION
ARTICLE 9 EDUCATION

SEC. 5. The Legislature shall provide for a system of common schools by which a free school shall be kept up and supported in each district at least six months in every year, after the first year in which a school has been established.

CALIFORNIA CONSTITUTION
ARTICLE 9 EDUCATION

SEC. 6. Each person, other than a substitute employee, employed by a school district as a teacher or in any other position requiring certification qualifications shall be paid a salary which shall be at the rate of an annual salary of not less than twenty-four hundred dollars ($2,400) for a person serving full time, as defined by law.

The Public School System shall include all kindergarten schools, elementary schools, secondary schools, technical schools, and state colleges, established in accordance with law and, in addition, the school districts and the other agencies authorized to maintain them. No school or college or any other part of the Public School System

shall be, directly or indirectly, transferred from the Public School System or placed under the jurisdiction of any authority other than one included within the Public School System.

The Legislature shall add to the State School Fund such other means from the revenues of the State as shall provide in said fund for apportionment in each fiscal year, an amount not less than one hundred eighty dollars ($180) per pupil in average daily attendance in the kindergarten schools, elementary schools, secondary schools, and technical schools in the Public School System during the next preceding fiscal year.

The entire State School Fund shall be apportioned in each fiscal year in such manner as the Legislature may provide, through the school districts and other agencies maintaining such schools, for the support of, and aid to, kindergarten schools, elementary schools, secondary schools, and technical schools except that there shall be apportioned to each school district in each fiscal year not less than one hundred twenty dollars ($120) per pupil in average daily attendance in the district during the next preceding fiscal year and except that the amount apportioned to each school district in each fiscal year shall be not less than twenty-four hundred dollars ($2,400).

Solely with respect to any retirement system provided for in the charter of any county or city and county pursuant to the provisions of which the contributions of, and benefits to, certificated employees of a school district who are members of such system are based upon the proportion of the salaries of such certificated employees contributed by said county or city and county, all amounts apportioned to said county or city and county, or to school districts therein, pursuant to the provisions of this section shall be considered as though derived from county or city and county school taxes for the support of county and city and county government and not money provided by the State within the meaning of this section.

CALIFORNIA CONSTITUTION
ARTICLE 9 EDUCATION

SEC. 9. (a) The University of California shall constitute a public trust, to be administered by the existing corporation known as "The Regents of the University of California," with full powers of organization and government, subject only to such legislative control as may be necessary to insure the security of its funds and compliance with the terms of the endowments of the university and such competitive bidding procedures as may be made applicable to the university by statute for the letting of construction contracts, sales of real property, and purchasing of materials, goods, and services. Said corporation shall be in form a board composed of seven ex officio members, which shall be: the Governor, the Lieutenant Governor, the Speaker of the Assembly, the Superintendent of Public Instruction, the president and the vice president of the alumni association of the university and the acting president of the university, and 18 appointive members appointed by the Governor and approved by the Senate, a majority of the membership concurring; provided, however that the present appointive members shall hold office until the expiration of their present terms.

(b) The terms of the members appointed prior to November 5, 1974, shall be 16 years; the terms of two appointive members to expire as heretofore on March 1st of every even-numbered calendar year, and two members shall be appointed for terms commencing on March 1, 1976, and on March 1 of each year thereafter; provided that no such appointments shall be made for terms to commence on March 1, 1979, or on March 1 of each fourth year thereafter, to the end that no appointment to the regents for a newly commencing term shall be made during the first year of any gubernatorial term of office. The terms of the members appointed for terms commencing on and after March 1, 1976, shall be 12 years. During the period of transition until the time when the appointive membership is comprised exclusively of persons serving for terms of 12 years, the total number of appointive members may exceed the numbers specified in the preceeding paragraph.

In case of any vacancy, the term of office of the appointee to fill such vacancy, who shall be appointed by the Governor and approved by the Senate, a majority of the membership concurring,

shall be for the balance of the term for which such vacancy exists.

(c) The members of the board may, in their discretion, following procedures established by them and after consultation with representatives of faculty and students of the university, including appropriate officers of the academic senate and student governments, appoint to the board either or both of the following persons as members with all rights of participation: a member of the faculty at a campus of the university or of another institution of higher education; a person enrolled as a student at a campus of the university for each regular academic term during his service as a member of the board. Any person so appointed shall serve for not less than one year commencing on July 1.

(d) Regents shall be able persons broadly reflective of the economic, cultural, and social diversity of the State, including ethnic minorities and women. However, it is not intended that formulas or specific ratios be applied in the selection of regents.

(e) In the selection of the Regents, the Governor shall consult an advisory committee composed as follows: The Speaker of the Assembly and two public members appointed by the Speaker, the President Pro Tempore of the Senate and two public members appointed by the Rules Committee of the Senate, two public members appointed by the Governor, the chairman of the regents of the university, an alumnus of the university chosen by the alumni association of the university, a student of the university chosen by the Council of Student Body Presidents, and a member of the faculty of the university chosen by the academic senate of the university. Public members shall serve for four years, except that one each of the initially appointed members selected by the Speaker of the Assembly, the President Pro Tempore of the Senate, and the Governor shall be appointed to serve for two years; student, alumni, and faculty members shall serve for one year and may not be regents of the university at the time of their service on the advisory committee.

(f) The Regents of the University of California shall be vested with the legal title and the management and disposition of the property of the university and of property held for its benefit and shall have the power to take and hold, either by purchase or by donation, or gift, testamentary or otherwise, or in any other manner, without restriction, all real and personal property for the benefit of the university or incidentally to its conduct; provided, however, that sales of university real property shall be subject to such competitive bidding procedures as may be provided by statute. Said corporation shall also have all the powers necessary or convenient for the effective administration of its trust, including the power to sue and to be sued, to use a seal, and to delegate to its committees or to the faculty of the university, or to others, such authority or functions as it may deem wise. The Regents shall receive all funds derived from the sale of lands pursuant to the act of Congress of July 2, 1862, and any subsequent acts amendatory thereof. The university shall be entirely independent of all political or sectarian influence and kept free therefrom in the appointment of its regents and in the administration of its affairs, and no person shall be debarred admission to any department of the university on account of race, religion, ethnic heritage, or sex.

(g) Meetings of the Regents of the University of California shall be public, with exceptions and notice requirements as may be provided by statute.

SEC. 14. The Legislature shall have power, by general law, to provide for the incorporation and organization of school districts, high school districts, and community college districts, of every kind and class, and may classify such districts.

The Legislature may authorize the governing boards of all school districts to initiate and carry on any programs, activities, or to otherwise act in any manner which is not in conflict with the laws and purposes for which school districts are established.

CALIFORNIA CONSTITUTION
ARTICLE 9 EDUCATION

SEC. 16. (a) It shall be competent, in all charters framed under the authority given by Section 5 of Article XI, to provide, in addition to those provisions allowable by this Constitution, and by the laws of the State for the manner in which, the times at which, and the terms for which the members of boards of education shall be elected or appointed, for their qualifications, compensation and removal, and for the number which shall constitute any one of such boards.

(b) Notwithstanding Section 3 of Article XI, when the boundaries of a school district or community college district extend beyond the limits of a city whose charter provides for any or all of the foregoing with respect to the members of its board of education, no charter amendment effecting a change in the manner in which, the times at which, or the terms for which the members of the board of education shall be elected or appointed, for their qualifications, compensation, or removal, or for the number which shall constitute such board, shall be adopted unless it is submitted to and approved by a majority of all the qualified electors of the school district or community college district voting on the question. Any such amendment, and any portion of a proposed charter or a revised charter which would establish or change any of the foregoing provisions respecting a board of education, shall be submitted to the electors of the school district or community college district as one or more separate questions. The failure of any such separate question to be approved shall have the result of continuing in effect the applicable existing law with respect to that board of education.

I. **Public K-12 Projected Enrollment 2007-12 (5 years)** See also:
California Public K-12 Enrollment and High school Graduate Projection by County - 2007 Series
(XLS; Outside Source)
(Department of Finance Demographic Unit)
Based on Department of Finance October 2007 estimates of graded enrollment

Grade Level	2007-08	2012-13	Five Year Change	Change Per Year
K-6	3,269,393	3,356,656	87,263	17,453
7-8	976,081	919,320	-56,761	-11,352
9-12	1,997,542	1,902,995	-94,547	-18,909
TOTAL	6,243,016	6,178,971	-64,045	-12,808

II. **Statewide New Construction and Modernization Classroom Need**
Based on eligibility documents on file with the Office of Public School Construction (OPSC) as of September 26, 2007 and projects for which only a design apportionment has been made, the five-year need for new classrooms and the modernization of existing classrooms is:

New Construction Five-Year Need

Grade Level	Projected unhoused students	Classrooms needed 2007-2012*	Classrooms needed per year	Classrooms needed per day
K-6	308,024	12,321	2,464	7
7-8	87,705	3,248	650	2
9-12	268,402	13,645	2,729	7
TOTAL	664,131	29,214	5,843	16

Modernization Five-Year Need

Grade Level	Students in classrooms over 25 years old	Classrooms to be modernized 2007-2012*	Classrooms to be modernized per year	Classrooms to be modernized per day
K-6	507,070	20,283	4,057	11
7-8	190,248	7,046	1,409	4
9-12	305,948	11,331	2,266	6
TOTAL	1,003,266	38,660	7,732	21

*Based on 25 students per K-6 classroom and 27 students per 7-12 classroom.

III. **Statewide New Construction and Modernization Funding Need**
The state share of funding, including district financial hardship costs, for approved but unfunded projects and for projects for which eligibility documents have been filed with the Office of Public School Construction as of September 26, 2007 is:

State Share	5 Year Need	Per Year
New Construction (50% state share)	$ 8.7 billion	$1.74 billion
Modernization (60% state share)	$ 3.5 billion	$0.7 billion
TOTAL (Rounded)	**$12.2 billion**	**$2.44 billion**

IV. **State K-12 General Obligation Bond History**

Year	Dollars
1982	$500 M
1984	$450 M

1986	$800 M
1988 (June)	$800 M
1988 (Nov.)	$800 M
1990 (June)	$800 M
1990 (Nov.)	$800 M
1992 (June)	$1.9 B
1992 (Nov.)	$900 M
1994 (June)	$1.9 B (failed by 0.4%)
1996 (March)	$2.03 B
1998 (Nov.)	$6.7 B (for 4 years)

State Allocation Board

The State Allocation Board (SAB) is responsible for determining the allocation of State resources (proceeds from General Obligation Bond Issues and other designated State funds) used for the construction, modernization and maintenance of local public school facilities. The SAB is also charged with the responsibility for the administration of the State School Facility Program, the State Relocatable Classroom Program and the Deferred Maintenance Program. The SAB is the policy level body for the programs administered by the Office of Public School Construction (OPSC).

The SAB is comprised of the Director of Finance (the traditional chair), the Director of the Department of General Services, the Superintendent of Public Instruction, three members of the Senate, three members of the Assembly, and one appointee by the Governor

State Allocation Board Meetings

State Allocation Board

The SAB meets monthly to apportion funds to the school districts, act on appeals, and adopt policies and regulations as they pertain to the programs administered by the SAB. The SAB usually meets on Wednesdays at the State Capitol—at 4:00 p.m. when the State Legislature is in session and at 2:00 p.m. when the State Legislature is out on recess. Due to scheduling changes within the Legislature, some of the SAB meetings may be cancelled or changed with short notice. Meeting dates and locations, cancellation notices, and agenda topics are published on the OPSC Web site at HTTP://WWW.OPSC.DGS.CA.GOV. Please check there for latest meeting dates, times and locations.

SAB MEETING SCHEDULE

- Wednesday, January 24, 2007
- Wednesday, February 28, 2007
- Wednesday, March 28, 2007
- Wednesday, April 25, 2007
- Wednesday, May 23, 2007
- Wednesday, June 27, 2007
- Wednesday, July 25, 2007
- Wednesday, August 22, 2007
- Wednesday, September 26, 2007
- Wednesday, October 24, 2007
- November - No meeting
- December - To be determined

Implementation Committee

The Implementation Committee is an informal advisory body established by the OPSC to provide input as OPSC develops its recommendations for the Board for policy and legislation implementation. The committee membership is comprised of organizations representing the school facilities community.

Meetings are held at either the Legislative Office Building at 1020 N Street in Room 100 or at the East End Complex at 1500 Capitol Avenue in Rooms 72.149B and 72.151A. Both locations are in Sacramento. Meeting times are from 9:30 a.m. to 3:30 p.m. with a one-hour lunch break. Meeting dates, times and locations, meeting notices and agenda topics are published on the OPSC Web site. Please check the OPSC Web site for the latest dates, times and locations as they are subject to change.

- Friday, November 2, 2007
- Friday, December 7, 2007

Office of Public School Construction

The OPSC, as staff to the SAB implements and administers the School Facility Program (SFP) and other programs of the SAB. The OPSC is also charged with the responsibility of verifying that all applicant school districts meet specific criteria based on the type of funding which is being requested. The OPSC also prepares recommendations for the SAB's review and approval.

It is also incumbent on the OPSC staff to prepare regulations, policies and procedures which carry out the mandates of the SAB, and to work with school districts to assist them throughout the application process. The OPSC is responsible for ensuring that funds are disbursed properly and in accordance with the decisions made by the SAB.

The OPSC prepares the SAB meetings agendas. These agendas keep the Board members, school districts, staff, and other interested parties apprised of all actions taken by the SAB. The agenda serves as the underlying source document used by the State Controller's Office for the appropriate release of funds. The agenda further provides a "historical record" of all SAB decisions, and is used by school districts, facilities planners, architects, consultants and others wishing to track the progress of specific projects and/or availability of funds.

Organization Chart

School Facility Program

Funds for the School Facility Program (SFP) may be from any funding source made available to the SAB. This includes proceeds from the sale of State General Obligation Bonds and the State General Fund. In addition, districts are required to provide a portion of the cost of a project from funds available to the school district. This may include, among other sources, local general obligation bonds, developer fees, general fund, etc.

The New Construction Grant

The New Construction Grant provides State funds on a 50/50 State and local sharing basis for public school capital facility projects in accordance with statute. Eligibility for State funding is based on a district's need to house pupils and is determined by criteria set in law.

Education Code, Section 17072.10 establishes the "new construction grant" per unhoused pupil for new construction projects. The annual adjustment to the grant, based on the change in the Class B Construction Cost Index, is approved by the SAB each January. The current adjusted grants are available on the OPSC Web site at HTTP://WWW.DOCUMENTS.DGS.CA.GOV/OPSC/RESOURCES/SFP_GRANT_ADJ.PDF.

This "new construction grant" amount is intended to provide the State's share for all necessary project costs, with the exception of site acquisition, utilities, off-site, service-site, and general-site development that may qualify for additional project funding. The necessary project costs include, but are not limited to, funding for design, the construction of the building, education technology, tests, inspections and furniture/equipment.

The Modernization Grant

The Modernization Grant provides State funds on a 60/40 basis for improvements to educationally enhance school facilities. Projects eligible under this program include such modifications as air conditioning, plumbing, lighting, and electrical systems. Site acquisition may not be included in modernization applications.

Education Code, Section 17074.10 establishes the "modernization grant" for each pupil to be housed in buildings to be modernized. The annual adjustment to the grant, based on the change in the Class B Construction Cost Index, is approved by the SAB each January. The current adjusted grants are available on the OPSC Web site at HTTP://WWW.DOCUMENTS.DGS.CA.GOV/OPSC/RESOURCES/SFP_GRANT_ADJ.PDF.

The "modernization grant" amount is intended to provide the State's share for all necessary project costs. The necessary project costs include, but are not limited to, funding for design, the modernization of the building, education technology, tests, inspections and furniture/equipment.

Charter School Facility Program

This program is intended to provide a charter school with funding to construct new facilities. To qualify for funding a charter must be deemed financially sound by the California School Finance Authority and meet the eligibility criteria outlined in law. A charter or school district filing on behalf of a charter under this program may receive a reservation of funding, by submitting a preliminary application, prior to receiving the necessary approvals from other State entities. Once those approvals are received the preliminary apportionment may be converted to a final apportionment and the funds previously set aside by the SAB may be released.

Most recently, new legislation made significant changes further expanding and providing flexibility for the Charter School Facility Program, and when Proposition 1D was approved by the voters in the November general election, provided an additional $500 million.

Critically Overcrowded School Facilities Program

The Critically Overcrowded School Facilities Program (COS) allows school districts with qualifying critically overcrowded school facilities to apply for a preliminary apportionment for new construction projects to relieve overcrowding. The preliminary apportionment serves as a reservation of funds and must be converted within a four-year period to a final apportionment that meets all the SFP New Construction program laws and regulations required for such an apportionment.

Education Facilities Bond Breakdowns

PROGRAM	BOND 2002 $13,050,000,000	BOND 2004 $12,300,000,000	BOND 2006 $10,416,000,000
New Construction	$ 3,350,000,000 [1]	$ 4,960,000,000	$ 1,900,000,000 [4,5]
Modernization	1,400,000,000 [2]	2,250,000,000	3,300,000,000 [4]
Charter Schools	100,000,000	300,000,000	500,000,000
Career Technical Education	—	—	500,000,000
Overcrowding Relief	—	—	1,000,000,000
High Performance Schools	—	—	100,000,000
New Construction Backlog	2,900,000,000	—	—
Modernization Backlog	1,900,000,000	—	—
Critically Overcrowded Schools	1,700,000,000	2,440,000,000	—
Joint Use	50,000,000	50,000,000	29,000,000
Total K–12	$11,400,000,000	$10,000,000,000	$ 7,329,000,000

[1] [illegible] million – energy efficiency.
[2] [illegible] million – energy efficiency.
[3] [illegible] million total – energy efficiency set aside for new construction and modernization.
[4] [illegible] of the sum of the appropriations for new construction and modernization shall be used to fund the small learning communities and small high schools.
[5] [illegible]

A school district must have both SFP new construction eligibility and one or more schools on the California Department of Education's (CDE) COS Source School List. In order to have a school qualify for inclusion on the CDE Source School List, the school site utilizing the 2001–2002 California Basic Enrollment Data System (CBEDS) enrollment must have a pupil density greater than 115 pupils per acre for K–6 and 90 pupils per acre for 7–12.

Applications for a COS preliminary apportionment were accepted through June 30, 2004.

If the requests for preliminary apportionments exceeds the funds available, projects will be ranked by the highest density levels relative to the CDE standard and funded from the highest to the lowest density.

School Facility Joint-Use Program

Under the SFP a method to fund certain types of joint-use projects has been implemented. There are two types of joint-use projects, both types include specific project eligibility.

- A Type I must be part of an SFP new construction project that will either increase the size, create extra costs, or both beyond that necessary for school use of the multi-purpose room, gymnasium, childcare facility, library, or teacher education.
- A Type II may be part of a modernization or may be a stand alone project located at a school that does not have the type of facility or the existing facility is inadequate. The project proposes to reconfigure existing school buildings, construct new school buildings, or both, to provide for a multi-purpose room, gymnasium, childcare facility, library, teacher education facility, or pupil academic achievement facility.

The state and local contribution to a joint-use project is 50/50. The joint-use partner must match a minimum 25 percent of the eligible project costs. If the district has passed a bond which specifies that the monies are to be used specifically for the purposes of the joint-use project, then the district can opt to pay up to the full 50 percent local share of eligible costs. Anything beyond the eligible project cost are the responsibility of the joint-use partner and/or the district.

Career Technical Education Facilities Program

Career Technical Education provides a program of study that involves a multiyear sequence of courses that integrates core academic knowledge with technical and occupational knowledge to provide students with a pathway to postsecondary education and careers. Proposition 1D provides $500 million for the purpose of constructing new facilities or reconfiguring existing facilities for career technical education purposes. This will enhance the educational opportunities for pupils in order to provide them with the skills and knowledge necessary for the high-demand technical careers of today and tomorrow.

Overcrowding Relief Grant

Proposition 1D establishes the Overcrowding Relief Grant (ORG) and provides up to $1 billion for this purpose. The ORG is intended to provide funding for the creation of additional open space via the reduction of portable classrooms on overcrowded sites by replacing those facilities with permanent classrooms at the existing site or the construction of new schools or classrooms at other sites.

High Performance Incentive Grant

This grant provides additional incentive grant funding to augment new construction and modernization projects for the use of designs and materials that promote the efficient use of energy and water, the maximum use of natural lighting and indoor air quality, the use of recycled materials and materials that emit a minimum of toxic substances, the use of acoustics conducive to teaching and learning, and other characteristics of high performance schools. Proposition 1D provides $100 million to encourage school districts to build educationally and environmentally superior schools.

The high performance incentive grant is based upon the High Performance Rating Criteria (HPRC) point system of the Collaborative for High Performance Schools (CHPS). efficient.

Small High School Program

Assembly Bill 1465, Chapter 894, Statutes of 2004 (Chan) created a pilot program within the SFP that provided districts access to $20 million for the purpose of constructing new small high schools and $5 million for the reconfiguration of existing high schools into two or more smaller high schools that would foster academic achievement and success in a small high school environment. The small high school program commenced on January 1, 2006 and remains in effect until January 1, 2008. Proposition 1D does not make any changes to the existing pilot program although it provides up to $200 million for new construction and modernization (reconfiguration) for these purposes.

Seismic Mitigation

Proposition 1D provides up to $199.5 million for seismic mitigation of the most vulnerable school facilities that meet certain criteria that pose an unacceptable risk of injury to its occupants in the event of a seismic occurrence. These funds will be used to repair, reconstruct, or replace qualifying school facilities.

Labor Compliance Program Grant

Significant labor code changes have occurred that impact the SFP. Assembly Bill 1506 added Section 1771.7 to the Labor Code that requires a district to make a certification that a labor compliance program (LCP), that has been approved by the Department of Industrial Relations (DIR), for the project apportioned under the SFP has been initiated and enforced if both of the following conditions exists:

- the district has a project which received an apportionment from the funding provided in Proposition 47 or Proposition 55, and
- the construction phase of the project commences on or after April 1, 2003, as identified by the date of the Notice to Proceed.

Additional information including a guidebook and model LCPs are available for viewing on the DIR Web site at HTTP://WWW.DIR.CA.GOV. Projects funded solely from Proposition 1D are not subject to these provisions.

Facility Hardship Grant

To be eligible for a facility hardship grant the district must demonstrate that one of two conditions exists: facilities must be replaced due to an imminent health and safety threat, or existing facilities have been lost to fire, flood, earthquake or other disaster.

To address these unusual situations, the SAB has developed a facility hardship grant. The purpose of the grant is to assist districts with funding where it has been determined that the district has a critical need for pupil housing because the condition of the facilities, or the lack of facilities, presents an imminent threat to the health and safety of the pupils.

Financial Hardship

Financial Hardship assistance is available for those districts that cannot provide all or part of their share of a school facility project. Education Code, Section 17075.10 and California Code of Regulations, Section 1859.81 require a district to have made all reasonable efforts to impose all levels of local debt capacity and development fees prior to requesting financial assistance.

School Facility Program Construction Process

The process of constructing or modernizing a school building originates with and is the responsibility of the individual school district. The school district determines the type and size of the school building utilizing criteria set forth from the CDE. The size is also determined by the number of students to be housed in the facility and consideration of health and safety issues designated by the appropriate state agencies. The school district should encourage and incorporate participation from the local community for input into the site location and design features. The school district usually utilizes community information workshops to generate community input and support. Dedication by the district and support from the community are as important as the site selection approval and acquisition process that may take one or more years.

In the meantime, the school district should have passed a local bond or secured alternative funding for its share of the project. Without this funding, the school district cannot meet the 50 percent funding requirement for new construction project or the 40 percent funding requirement for modernization projects.

A district may submit an application to the OPSC for eligibility determination prior to commencing the project design. The OPSC will make every effort to process the eligibility application for SAB approval within 90 days. The district may proceed with the hiring of an architect for the development of plans and specifications for the school. Once the plans and specifications are completed by the architect, they are forwarded to the DSA for processing. In order for the district to request project funding, the district is required to verify that they have their 50/40 percent share of the project cost, stamped DSA plans, and approval of the site and plans by the CDE. In the event the district is unable to share in the cost of the project, the district can pursue financial assistance through the Financial Hardship provisions. Once the completed funding application is received, the OPSC will make every effort to process the application within 90–120 days and will present it to the SAB for an apportionment.

With all approvals and funding in place, the actual construction time on an average school of 2,000 students, takes approximately two years. Total design development and construction time from concept to occupancy is between 2 to 4 years. However, portable school construction projects can be completed within 9 to 15 months from concept to occupancy.

Other Programs Administered by the State Allocation Board

Emergency Repair Program

Senate Bill 6, Chapter 899, Statutes of 2004 (Alpert) established the Emergency Repair Program (ERP). The funding is available to schools identified by the CDE as ranked in deciles one, two, or three based on the Academic Performance Index (API).

This program provides funding to a Local Educational Agency (LEA) for the cost of repairing building systems or structural components that pose a health and safety threat to students and staff at eligible school sites. Grants can be requested in advance or after a project is under way or completed. The same schools that are eligible for School Facilities Needs Assessment Grant Program (SFNAGP) funding are eligible for ERP funding. Funds will be made available annually through the Budget Act and the program will operate until $800 million has been apportioned.

School Facilities Needs Assessment Grant Program

Senate Bill 6, Chapter 899, Statutes of 2004 (Alpert) established the SFNAGP. The funding was provided to schools identified by the CDE as ranked in deciles one, two, or three based on the 2003 API, and that were newly constructed prior to January 1, 2000. The program requires LEAs to perform a one-time comprehensive assessment of the facilities for each eligible school site and provides $10 per pupil, or a minimum of $7500 to accomplish this.

State Relocatable Classroom Program

The State Relocatable Classroom Program (SRCP) was designed to meet classroom needs for those districts impacted by excessive growth or unforeseen classroom emergencies. On October 26, 2005, the SAB adopted the Phase-Out Plan for the SRCP. The report was brought forth for the SAB's consideration due to the increasing size of the SRCP and the general condition of an aging fleet. The plan outlines a process for immediate disposal of all State Relocatable Classrooms and permits school districts and other entities to purchase the relocatables. Only those relocatables found to be in good repair can be used to house students. Effective December 1, 2005, the SAB will no longer accept applications to lease a relocatable.

For more information on the phase-out of the SRCP, visit the OPSC Web site.

» Note the SAB has a Disabled Veteran Business Enterprise policy which is applicable to the State Relocatable Classroom Program.

Deferred Maintenance Program

The State School Deferred Maintenance Program provides State matching funds, on a dollar-for-dollar basis, to assist school districts with expenditures for major repair or replacement of existing school building components. Typically, this includes plumbing, heating, air conditioning, electrical systems, roofing, interior/exterior painting, floor systems, etc. Funds are also provided for critical hardship projects if the work must be completed within one year.

Funding for this program is generated from the amount of school district repayments under the State School Building Aid program that exceed the amount necessary to service the indebtedness on State General Obligation Bonds sold and loaned to the districts for that program and from certain State School Site Utilization Funds. Additional funds may be appropriated from the State General Fund.

Additional Information

For additional information regarding the State School Facility Programs, refer to the following program manuals which are available on the OPSC Web site.

H [FN*]CALIFORNIA TEACHERS ASSOCIATION et al., Plaintiffs and Respondents,

v.

THOMAS W. HAYES, as Director of the Department of Finance, etc., Defendant and Respondent, BILL HONIG, as Superintendent of Public Instruction, etc., Defendant and Appellant; CALIFORNIA CHILDREN'S LOBBY et al., Real Parties in Interest and Appellants.

No. C009444.

Court of Appeal, Third District, California.

Apr 30, 1992.

FN* Reporter's Note: This case was previously entitled "California Teachers Association v. Huff."

SUMMARY

A teacher's association and three of its officers filed a petition for a writ of mandate against the Superintendent of Public Instruction and other state officials to prohibit the inclusion of funding for the Child Care and Development Services Act (Ed. Code, § 8200 et seq.) within the education funding guarantee of Prop. 98 (Classroom Instructional Improvement and Accountability Act). The trial court concluded that Prop. 98 was not intrinsically ambiguous, and that its plain meaning required that only appropriations allocated to, and administered by, school districts satisfied its minimum funding requirement. Accordingly, the trial court issued a writ of mandate prohibiting defendants from including any funds allocated to or administered by any entity or agency, other than a school district as defined in Ed. Code, § 41302.5, within the Prop. 98 education funding guaranties. The trial court also declared that Ed. Code, §§ 8203.5, subd. (c), 41202, subd. (f), which include funding for the Child Care and Development Services Act within the Prop. 98 guaranties, were unconstitutional. (Superior Court of Sacramento County, No. 363630, Michael T. Garcia, Judge.)

The Court of Appeal reversed. The court held that education and operation of the public schools are matters of statewide rather than local or municipal concern. Likewise, the court held that school moneys belong to the state, and the apportionment of funds to a school district does not give that district a proprietary right therein. Although the inclusion of funding for the act deprived school districts of absolute control over the funds the state is required to devote to education under Prop. 98, the court held that the measure did not expressly restrict the Legislature's plenary authority for education in the state, nor did it grant to school districts exclusive control over education funds. Accordingly, it held that the Legislature's inclusion of funding for the Child Care and Development Services Act within the Prop. 98 education funding guaranty was not facially unconstitutional. (Opinion by Sparks, Acting P. J., with Marler and Nicholson, JJ., concurring.)

HEADNOTES

Classified to California Digest of Official Reports

(1) Universities and Colleges § 2--Organization and Affiliation--University of California.

The University of California is a public trust that finds its roots in the Constitution of 1849. The University of California has full powers of organization and government, subject only to limited legislative control. As such, it is not part of the public school system, and is subject to entirely different legal standards.

(2) Schools § 4--School Districts--Control and Operation--State Interest.

Although it is the legislative policy to strengthen and encourage local responsibility for control of public education through local school districts (Ed. Code, § 14000), education and operation of the public schools remain matters of statewide rather than local or municipal concern. Thus, local school districts are deemed agencies of the state for the administration of the school system, they are not a distinct and independent body politic, and they are not free and independent of legislative control.

(3) Schools § 4--School Districts--Control and Operation--Legislature's Powers.

The Legislature's power over the public school sys-

tem has been variously described as exclusive, plenary, absolute, entire, and comprehensive, subject only to constitutional constraints. Consequently, regulation of the education system by the Legislature is controlling over any inconsistent local attempts at regulation or administration of the schools. No one may obtain rights vested against state control by virtue of local provisions, ordinances or regulations. The Legislature has the power to create, abolish, divide, merge, or alter the boundaries of school districts. Indeed, the state is the beneficial owner of school property and local districts hold title as trustee for the state. School moneys belong to the state, and the apportionment of funds to a school district does not give that district a proprietary right therein. Thus, the Legislature can transfer property and apportion debts between school districts as it sees fit.

(4) Schools § 11--School Funds--Determination of Educational Purpose-- Legislative Discretion.
In including the Child Care and Development Services Act (Ed. Code, § 8200 et seq.) within the funding guarantee of Prop. 98 (Classroom Instructional Improvement and Accountability Act), the Legislature was not arbitrary and unreasonable in its determination that the act advanced the purposes of public education. Although the Legislature is given broad authority over education, it cannot divert education funds for other purposes. However, education is a broad and comprehensive matter, and the state Constitution places a broad meaning upon education. Moreover, the Legislature is given broad discretion in determining the types of programs and services which further the purposes of education.

(5) Constitutional Law § 23--Constitutionality of Legislation--Raising Question of Constitutionality--Burden of Proof--Facial Challenge to Statute.
When a challenge is made to the facial validity of a statute, a reviewing court's task is to determine whether the statute can constitutionally be applied. To support a determination of facial unconstitutionality, voiding the statute as a whole, petitioners cannot prevail by suggesting that in some future hypothetical situation constitutional problems may possibly arise as to the particular application of the statute. Rather, petitioners must demonstrate that the act's provisions inevitably pose a present total and fatal conflict with applicable constitutional prohibitions.
[See 7 **Witkin,** Summary of Cal. Law (9th ed. 1988) Constitutional Law, § 58.]

(6) Constitutional Law § 27--Constitutionality of Legislation--Rules of Interpretation--Purpose, Wisdom, and Motives of Legislature.
The authority to make policy is vested in the Legislature, and neither arguments as to the wisdom of an enactment, nor questions as to the motivation of the Legislature, can serve to invalidate particular legislation. Where a petitioner makes a facial challenge to an enactment, a reviewing court's role is limited to determining whether the Legislature's choice is constitutionally prohibited.

(7a, 7b) Schools § 11--School Funds--Proposition 98 Funding Guarantee-- Legislative Control.
The Legislature's inclusion of funding for the Child Care and Development Services Act (Ed. Code, § 8200 et seq.) within the Prop. 98 (Classroom Instructional Improvement and Accountability Act) education funding guarantee was not facially unconstitutional. Although the inclusion of funding for the act deprived school districts of absolute control over the funds the state is required to devote to education under Prop. 98, the measure did not expressly restrict the Legislature's plenary authority for education in the state, nor did it grant to school districts exclusive control over education funds. The Constitution makes education and the operation of the public schools a matter of statewide rather than local or municipal concern. School districts do not have a proprietary interest in moneys which are apportioned to them. Accordingly, even though child care and development programs are not included within the definition of school districts, legislative programs which advance the educational mission of school districts and community college districts may constitutionally be included within the funding guaranty of Prop. 98.

(8) Constitutional Law § 39--Distribution of Governmental Powers--Between Branches of Government--Legislative Power.
Unlike the federal Constitution, which is a grant of power to Congress, the California Constitution is a limitation or restriction on the powers of the Legislature. Accordingly, the entire lawmaking authority of the state, except the people's right of initiative and referendum, is vested in the Legislature, and that body may exercise any and all legislative powers which are not expressly or by necessary implication denied to it by the Constitution. In addition, all intendments favor the exercise of the Legislature's plenary authority. If there is any doubt as to the Legisla-

ture's power to act in any given case, the doubt should be resolved in favor of the Legislature's action. Such restrictions and limitations imposed by the Constitution are to be construed strictly, and are not to be extended to include matters not covered by the language used.

(9) Constitutional Law § 10--Construction of Constitutions--Initiative Amendments--Conformation of Parts.
In an action challenging the propriety of including the Child Care and Development Services Act (Ed. Code, § 8200 et seq.) within the funding guarantee of Prop. 98 (Classroom Instructional Improvement and Accountability Act), construction of the constitutional provisions added by Prop. 98 had to be considered in light of all other relevant provisions of the Constitution. These provisions include those that contain, define, and limit the status of school districts and their relationship to the state. An initiative amendment to the Constitution must be interpreted in harmony with the other provisions of the organic law of this state of which it has become a part. To construe it otherwise would be to break down and destroy the barriers and limitations that the Constitution, read as a whole, has cast about legislation, both state and local.

Kronick, Moskovitz, Tiedemann & Girard and Rochelle B. Schermer as Amici Curiae on behalf of Plaintiffs and Respondents.
Daniel E. Lungren, Attorney General, N. Eugene Hill, Assistant Attorney General, Cathy Christian and Marsha A. Bedwell, Deputy Attorneys General, for Defendant and Respondent.

SPARKS, Acting P. J.
At the November 1988 General Election, the electorate adopted Proposition 98, an initiative measure entitled "The Classroom Instructional Improvement and Accountability Act" [FN1] In general, Proposition 98 seeks to improve public education in California by establishing a minimum funding guarantee for public schools and by changing the way our state government treats its excess revenues. As the Legislative Analyst noted in her analysis of the initiative, Proposition 98 establishes a minimum level of funding for public schools and community colleges; requires the state to spend any excess revenues, up to a specified maximum, for public schools and community colleges; requires the Legislature to establish a state reserve fund; and requires the school districts to prepare and distribute "School ***1518** Accountability Report Cards" each year. (Ballot Pamp. analysis of Prop. 98 by Legislative Analyst as presented to the voters, Gen. Elec. (Nov. 8, 1988), p. 78, some capitalization and all paragraphing omitted.)

> FN1 Proposition 98 (Stats. 1988, p. A-264 et seq.) added two sections to the California Constitution, amended two other constitutional provisions and added six sections to the Education Code. It added section 5.5 to article XIII B of the California Constitution, amended section 2 of article XIII B, amended section 8 of article XVI, added section 8.5 to article XVI, and added sections 33126, 35256, 41300.1, 14020.1, 14022 and 41302.5 to the Education Code.
>
> The full text of Proposition 98 is set out in the appendix to this opinion.

To these ends, Proposition 98 sets a minimum funding level for "the monies to be applied by the state for the support of school districts and community college districts. ..." (Cal. Const., art. XVI, § 8, subd. (b).) It is around this phrase that the present controversy swirls. At issue in this case is the validity of the Legislature's decision to include funding for the Child Care and Development Services Act (Ed. Code, § 8200 et seq.) within the educational funding guarantees of Proposition 98. This decision was implemented by the enactment of Education Code section 41202, subdivision (f), which declares that " 'monies to be applied by the state for the support of school districts and community college districts,' as used in

Section 8 of Article XVI of the California Constitution, shall include funds appropriated for the Child Care and Development Services Act ...."

The California Teachers Association and three of its officers filed a petition for writ of mandate against the Director of Finance, the state Treasurer and the state Superintendent of Public Instruction to prohibit the inclusion of funding for the Child Care and Development Services Act within the Proposition 98 education funding guarantee. By stipulation, the California Children's Lobby, the Professional Association of Childhood Educators, the California Assocation for the Education of Young Children, and the Child Development Administrators Assocation, intervened in the action as real parties in interest. The trial court issued a writ of mandate prohibiting defendants from including any funds allocated to or administered by any entity or agency other than a school district as defined in Education Code section 41302.5, within the Proposition 98 educational funding guarantees, and declaring that Education Code sections 8203.5, subdivision (c), and 41202, subdivision (f), which include funding for the Child Care and Development Services Act within the Proposition 98 guarantees, are unconstitutional. Bill Honig, the State Superintendent of Public Instruction, and the real parties in interest appeal. We shall reverse.

I Procedural Background

Proposition 98 provides for the improvement of public education in two basic ways. The first, which is not implicated in this appeal, involves the allocation of state revenues in excess of the state appropriations limitation to elementary, high school and community college districts on a per-enrollment ***1519** basis for use solely for the purposes of instructional improvement and accountability. (Cal. Const., art. XIII B, § 2; art. XVI, § 8.5.) The second way, and the one involved here, establishes a minimum guaranteed state education funding level for "the moneys to be applied by the State for the support of school districts and community college districts ...." (Cal. Const., art. XVI, § 8, subd. (b).) [FN2]

> FN2 Under Proposition 98 the minimum funding level is set as the greater of (1) the same percentage of general fund revenues as was set aside for school districts and community colleges in the 1986-1987 school year, or (2) the amount necessary to ensure that total state and local allocations be equal to the prior year's allocations, adjusted for cost of living and enrollment changes. (Cal. Const., art. XVI, § 8, subd. (b).) A third test was added at the June 1990 Primary Election by the passage of Proposition III. That measure is not involved here.

After its passage, the Legislature acted to implement Proposition 98. (Ed. Code, § 41200 et seq. [unless otherwise specified, all further statutory references will be to the Education Code].) One aspect of the Legislature's implementation is at issue in this appeal. As we have noted, in section 41202, subdivision (f), the Legislature provided, among other things: " 'State General Fund revenues appropriated for school districts and community college districts, respectively' and 'monies to be applied by the state for the support of school districts and community college districts,' as used in Section 8 of Article XVI of the California Constitution, shall include funds appropriated for the Child Care and Development Services Act pursuant to Chapter 2 (commencing with Section 8200) of Part 6 ...."

In order to ensure that the Child Care and Development Services Act serves the purposes of public education, the Legislature enacted section 8203.5, which provides: "(a) The Superintendent of Public Instruction shall ensure that each contract entered into under this chapter to provide child care and development services, or to facilitate the provision of those services, provides support to the public school system of this state through the delivery of appropriate educational services to the children served pursuant to the contract. [¶] (b) The Superintendent of Public Instruction shall ensure that all contracts for child care and development programs include a requirement that each public or private provider maintain a developmental profile to appropriately identify the emotional, social, physical, and cognitive growth of each child served in order to promote the child's success in the public schools. To the extent possible, the State Department of Education shall provide a developmental profile to all public and private providers using existing profile instruments that are most cost efficient. The provider of any program operated pursuant to a contract under Section 8262 shall be responsible for maintaining developmental profiles upon entry through exit from a child developmental

program. [¶] Notwithstanding any other provision of law, 'moneys to be applied by the [s]tate,' as used in subdivision (b) of *1520 Section 8 of Article XVI of the California Constitution, includes funds appropriated for the Child Care and Development Services Act pursuant to Chapter 2 (commencing with Section 8200) of Part 6, whether or not those funds are allocated to school districts, as defined in Section 41302.5, or community college districts. [¶] (d) This section is not subject to Part 34 (commencing with Section 62000)." [FN3]*1521

FN3 In an uncodified provision the Legislature explained its purpose for including child care and development funds in the Proposition 98 funding guarantee: "The Legislature finds and declares as follows: [¶] (a) Since 1932, early childhood education and child development programs have been operated as part of the school programs that are conducted under the authority of the Superintendent of Public Instruction. In the 1988-89 fiscal year, 110,000 children in California were served in the state program of early childhood education and child development administered by the Superintendent of Public Instruction, as set forth in Chapter 2 (commencing with section 8200) of Part 6 of the Education Code. [¶] (b) Participation and enrollment in an early childhood education or child development program provides an opportunity for many children to hear their first English words (one in three speaks another language), to be introduced to the idea of numbers, to develop basic language concepts, to learn how to get along with other children and adults, and to begin to develop a positive self-image. [¶] (c) The Legislature has stated its intent that early childhood education and child development programs be a 'concomitant part of the educational system' by providing young children an equal opportunity for later school success. Those programs are considered by the general public to be an integral and essential part of the state's public education system. [¶] (d) Early childhood education programs for children of low-income families have been shown to increase high school graduation rates and college entry rates, to reduce the need for special education and grade level retention, and to reduce high school dropout rates. [¶] (e) In the state's early childhood education and development programs, each child is to receive an education program which is appropriate to his or her developmental, cultural, and linguistic needs. Each child is to receive a developmental profile, updated at regular intervals, which will be passed on to his or her elementary school. [¶] (f) In view of the unique function of early childhood education and child development programs, in supporting school districts by directly preparing children for participation in the public schools and by assisting those children in resolving special school-related problems, these programs constitute an essential and integral component of the overall system to carry out the mission of the public schools. Accordingly, in order to fully implement subdivision (b) of Section 8 of Article XVI of the California Constitution, which requires, in its introductory paragraph, a minimum level of funding 'for the support of' school districts, as defined, and community college districts, it is necessary to include, within the calculation of that funding, the funding provided by the Legislature for all early childhood education and development programs. Moreover, in accordance with the educational role of those programs, it is the responsibility of the Superintendent of Public Instruction to continue to ensure that all contracts for early childhood education and child develpment programs provide support to the public school system of this state through the delivery of appropriate educational services to the children served by the program. In addition, Section 8262.1 of the Education Code, as added by this act [in fact there is no section 8262.1], constitutes a necessary statutory implementation of that determination, which is consistent with the legislative history of the statutes that provide for the operation of early childhood education and child development programs. [¶] (g) For the period from the 1986-87 fiscal year to the present, the state's early childhood education and development programs have received funding adjustments for cost-of-living and enrollment increases that have been lower, overall, than the comparable adjustments for base revenue limits for school

districts. [¶] However, it is the intent of the Legislature that the inclusion of early childhood education and child development programs within the calculation of the state's education funding obligation pursuant to Proposition 98 is not to result in requiring in that calculation the use of the lower level of funding received by these programs in the 1986- 87 fiscal year." (Stats. 1989, ch. 1394, § 1.)

The Child Care and Development Services Act is contained in sections 8200 through 8498. It is a comprehensive statewide master plan for child care and development services for children to age 14 and their parents. (§ 8201, subd. (a).) Among other things it includes such items as resource and referral programs (§§ 8210-8215), campus child care and development programs (§ 8225), migrant child care and development programs (§§ 8230-8233), preschool programs (§ 8235), general child care and development programs (§§ 8240-8242), and programs for children with special needs (§§ 8250-8252). Services under this statutory scheme may be provided directly by school districts or local education agencies or by contracts through such agencies, or services may be provided by private parties contracting with the state Department of Education. (See rep., Child Development, Program Facts, prepared by the Dept. of Ed., Child Development Div., Field Services Branch (1989) pp. 12-13.) Programs under the Child Care and Development Services Act are under the general supervision of the Superintendent of Public Instruction. (§ 8203.) In some instances federal funding is available and the Legislature has declared that federal reimbursement shall be claimed where available and that the Department of Education is designated as "the single state agency" responsible for the programs under federal requirements. (§§ 8205-8207.)

Plaintiffs filed this action to prohibit the inclusion of funding for the Child Care and Development Services Act within the Proposition 98 education funding guarantee. [FN4]They maintain that funds which are not allocated directly to and administered by school districts cannot be included within the provisions of Proposition 98. [FN5]The trial court agreed with plaintiffs. It concluded that Proposition 98 is not intrinsically ambiguous and that its ***1522** plain meaning requires that only appropriations allocated to, and administered by, school districts satisfy its minimum funding requirement. As the trial court saw it, "[t]he phrase 'monies to be applied by the state for the support of school districts,' taken as a whole, clearly refers to financial allocations for the financial support of school districts, and not the financial support of private child care and development programs which incidentallly benefit school districts." Judgment was entered accordingly and this appeal followed.

FN4 Plaintiffs also contested the inclusion of funding for certain other types of programs within the Proposition 98 guarantee. In his answer defendant Bill Honig, as Superintendent of Public Instruction, conceded that plaintiffs are correct with respect to these other programs and no other party contests this concession. This appeal concerns only funding for the Child Care and Development Services Act.

FN5 The Director of the Department of Finance, filed an answer in which he agreed with plaintiffs and he is a respondent in this appeal. The former state Treasurer successfully demurred on the ground that his function in this regard is purely ministerial and the Treasurer is not a party on appeal. Defendant Honig contested the petition with respect to child care and development programs and he is an appellant herein. As we have noted, the parties stipulated that the Children's Lobby et alia be permitted to intervene as real parties in interest and they are also appellants in this appeal. Amici curiae briefs in support of appellants have been filed by the state Legislature, the California Congress of Parents, Teachers and Students, Inc., and certain child advocacy and care provider organizations.

II Historical Background

There can be no doubt that education has historically been accorded an ascendant position in this state. Indeed, at the very start, article IX of our 1849 Constitution created the office of Superintendent of Public Instruction; required the Legislature to encourage by all suitable means the promotion of intellectual, scientific, moral and agricultural improvement; required the Legislature to establish a system of common schools; and established a fund for the support

of the common schools. (See Stats. 1849, p. 32.) As this recitation will demonstrate, the preeminent position of education in California has been a constant in a world of governmental flux. Section 1 of article IX of the Constitution now provides, as it has since 1879: "A general diffusion of knowledge and intelligence being essential to the preservation of the rights and liberties of the people, the Legislature shall encourage by all suitable means the promotion of intellectual, scientific, moral, and agricultural improvement." Section 5 of article IX presently mandates, as it has since 1879: "The Legislature shall provide for a system of common schools by which a free school shall be kept up and supported in each district at least six months in every year, after the first year in which a school has been established." Since 1933, our Constitution has provided that from state revenues there shall first be set apart the moneys to be applied by the state for the support of the public school system and institutions of higher education. (Cal. Const., art. XVI, § 8, subd. (a); see former art. XIII, § 15, Stats. 1935, p. IXIX.)

Section 6 of article IX of our Constitution establishes a State School Fund. That section provides, in relevant part: "The Legislature shall add to the State School Fund such other means from the revenues of the State as shall provide in said fund for apportionment in each fiscal year, an amount not less than one hundred eighty dollars ($180) per pupil in average daily attendance in the kindergarten schools, elementary schools, secondary schools, and technical schools in the Public School System during the next ***1523** preceding fiscal year. [¶] The entire State School Fund shall be apportioned in each fiscal year in such manner as the Legislature may provide, through the school districts and other agencies maintaining such schools, for the support of, and aid to, kindergarten schools, elementary schools, secondary schools, and technical schools except that there shall be apportioned to each school district in each fiscal year not less than one hundred twenty dollars ($120) per pupil in average daily attendance in the district during the next preceding fiscal year and except that the amount apportioned to each school district in each fiscal year shall be not less than twenty-four hundred dollars ($2,400)."

Article IX, section 6, of the Constitution also provides in part: "The Public School System shall include all kindergarten schools, elementary schools, secondary schools, technical schools, and State colleges, established in accordance with law and, in addition, the school districts and other agencies authorized to maintain them. (1)**(See fn. 6.)** No school or college or any other part of the Public School System shall be, directly or indirectly, transferred from the Public School System or placed under the jurisdiction of any authority other than one included within the Public School System." [FN6]

> FN6 The University of California is a public trust which finds its roots in the Constitution of 1849. (See Stats. 1849, p. 32; and see Cal. Const., art. IX, § 9.) The University of California has "full powers of organization and government" subject only to limited legislative control.(*Ibid.*) As such, it is not part of the Public School System and is subject to entirely different legal standards. The University of California is beyond the scope of the issues presented in this appeal.

For the administration of this public school system, the Constitution creates the office of Superintendent of Public Education and establishes a State Board of Education. (Cal. Const., art. IX, §§ 2, 2.1.)It provides for county boards of education and superintendents of schools. (Cal. Const., art. IX, §§ 3-3.3.)It permits city charters to provide for the election or appointment of boards of education. (Cal. Const., art. IX, § 16.)Section 14 of article IX provides: "The Legislature shall have power, by general law, to provide for the incorporation and organization of school districts, high school districts, and community college districts, of every kind and class, and may classify such districts. [¶] The Legislature may authorize the governing boards of all school districts to initiate and carry on any programs, activities, or to otherwise act in any manner which is not in conflict with the laws and purposes for which school districts are established."

(2) It has been and continues to be the legislative policy of this state to strengthen and encourage local responsibility for control of public education ***1524** through local school districts. (§ 14000.) [FN7]Nevertheless, education and the operation of the public schools remain matters of statewide rather than local or municipal concern. (*Hall v. City of Taft* (1956) 47 Cal.2d 177, 179 [302 P.2d 574]; *Esberg v. Badaracco* (1927) 202 Cal. 110, 115-116 [

259 P. 730]; *Kennedy v. Miller* (1893) 97 Cal. 429, 431 [32 P. 558]; *Whisman v. San Francisco Unified Sch. Dist.* (1978) 86 Cal.App.3d 782, 789 [150 Cal.Rptr. 548].) Hence, local school districts are deemed to be agencies of the state for the administration of the school system and have been described as quasi-municipal corporations. (*Hall v. City of Taft, supra,* 47 Cal.2d at p. 181; *Pass School Dist. v. Hollywood Dist.* (1909) 156 Cal. 416, 418 [105 P. 122]; *Hughes v. Ewing* (1892) 93 Cal. 414, 417; *Town of Atherton v. Superior Court* (1958) 159 Cal.App.2d 417, 421 [324 P.2d 328].) Thus, a school district is not a distinct and independent body politic and is not free and independent of legislative control. (*Allen v. Board of Trustees* (1910) 157 Cal. 720, 725-726 [109 P. 486].)

FN7 Although state funding for education is designed to enhance local responsibility for education, the Legislature has found it undesirable to yield total monetary authority to school districts. In the Statutes of 1981, chapter 100, section 1, at page 653, it is said: "The Legislature finds and declares that as a matter of policy the setting aside of categorical support for school districts is necessary to ensure the adequate funding for programs such as the provision of textbooks, pupil transportation, teacher retirement, special education for individuals with exceptional needs, and for educationally disadvantaged youths. The Legislature supports this policy of appropriating separately funds for special purposes because it provides funds for the intended purposes of the programs and because the substantial variation from district to district in terms of financial need for the programs cannot be accommodated adequately in general school support formulas. Although this act does not appropriate funds for inflation for categorical programs, it is the intent of the Legislature that, because categorical programs provide essential educational services, these programs should receive general inflation funds as provided in the Budget Act for other state programs." Our Supreme Court has determined that under our Constitution education is uniquely important and cannot be left totally under local monetary control. (*Serrano v. Priest* (1971) 5 Cal.3d 584, 614 [96 Cal.Rptr. 601, 487 P.2d 1241].)

(3) The Legislature's power over the public school system has been variously described as exclusive, plenary, absolute, entire, and comprehensive, subject only to constitutional constraints. (*Hall v. City of Taft, supra,* 47 Cal.2d at p. 181; *Pass School Dist. v. Hollywood Dist., supra,* 156 Cal. at p. 419; *San Carlos Sch. Dist. v. State Bd. of Education* (1968) 258 Cal.App.2d 317, 324 [65 Cal.Rptr. 711]; *Town of Atherton v. Superior Court, supra,* 159 Cal.App.2d 417, 421.) Indeed, it is said that the Legislature cannot delegate ultimate responsibility over education to other public or private entities. (*Hall v. City of Taft, supra,* 47 Cal.2d at p. 181; *Piper v. Big Pine School* Dist. (1924) 193 Cal. 664, 669 [226 P. 926].) Consequently, regulation of the education system by the Legislature will be held to be controlling over any inconsistent local attempts at regulation or administration of the schools. (*Hall v. City of Taft, supra,* 47 Cal.2d at p. 181; **1525***Esberg v. Badaracco, supra,* 202 Cal. at pp. 115- 116; *Whisman v. San Francisco Unified Sch. Dist., supra,* 86 Cal.App.3d at p. 789.) And no one may obtain rights vested against state control by virtue of local provisions, ordinances or regulations. (*Whisman v. San Francisco Unified Sch. Dist., supra,* 86 Cal.App.3d at p. 789.)

The Legislature, in the exercise of its sweeping authority over education and the school system, has the power to create, abolish, divide, merge, or alter the boundaries of school districts. (*Allen v. Board of Trustees, supra,* 157 Cal. at pp. 725-726; *Pass School Dist. v. Hollywood Dist., supra,* 156 Cal. at p. 418; *Hughes v. Ewing, supra,* 93 Cal. at p. 417.) Indeed, the state is the beneficial owner of school property and local districts hold title as trustee for the state. (*Hall v. City of Taft, supra,* 47 Cal.2d at pp. 181-182; *Chico Unified Sch. Dist. v. Board of Supervisors* (1970) 3 Cal.App.3d 852, 855 [84 Cal.Rptr. 198]; *Town of Atherton v. Superior Court, supra,* 159 Cal.App.2d at p. 421.) "School moneys belong to the state, and the apportionment of funds to a school district does not give that district a proprietary right therein." (*Butler v. Compton Junior College Dist.* (1947) 77 Cal.App.2d 719, 729 [176 P.2d 417]; see also *Gridley School District v. Stout* (1901) 134 Cal. 592, 593 [66 P. 785].) It follows that the Legislature can transfer property and apportion debts between school districts as it sees fit. (*Pass School Dist. v. Hollywood Dist., supra,* 156 Cal. at pp. 418-419; *Hughes v. Ewing, supra,* 93 Cal. at p. 417; *San*

Carlos Sch. Dist. v. State Bd. of Education, supra, 258 Cal.App.2d at p. 324.)

While few will deny the critical importance of education, the needs of the public education system often conflict with other desires of the electorate, especially that of minimizing the tax burden imposed upon the populace. Fewer still would deny that financing the public educational system in this state is Byzantine in its intricacy and complexity. Public education financing involves two basic, broad, and interrelated problems: public school resource production (how the funds are raised), and public school resource deployment (how the funds are spent). (See Andrews, *Serrano II: Equal Access to School Resources and Fiscal Neutrality-A View From Washington State* (1977) 4 Hast. Const.L.Q. 425, 429, fn. 18 [hereafter *Equal Access to School Resources*].) Public school financing is complicated by such matters as whether revenue should be raised through state or local taxation or some combination of both (see *Serrano v. Priest* (1976) 18 Cal.3d 728, 747 [135 Cal.Rptr. 345, 557 P.2d 929] [hereafter *Serrano II*]; and see *Equal Access to School Resources, supra,* 4 Hast. Const.L.Q. at pp. 445-446); disparate tax base to units of average daily attendance (ADA) ratios among various districts (see *Serrano v. Priest, supra,* 5 Cal.3d at p. 592 [hereafter *Serrano I*]); the willingness (or ability) of local voters to authorize increased taxes or expenditures for education (see *Serrano II, supra,* 18 Cal.3d at p. 769); the ***1526** availability of federal funding for educational programs and the sometimes inflexible qualification criteria for such funding (see Stats. 1981, ch. 100, § 1.3, pp. 653-654); the differing needs of schools and their students (see Stats. 1981, ch. 100, § 1, p. 653); and the difficulty of determining what types of services or programs should or should not be included within the educational budget (see *Equal Access to School Resources, supra,* 4 Hast. Const.L.Q. at pp. 441-442.)Although these matters are by no means exhaustive, they do illustrate the inherent complexity involved in developing an adequate formula for school support.

In the past 20 years state funding for education has been significantly influenced by several legal and political events. The changes began in 1971, a time when the major source of school revenue was derived from local real property taxes. (*Serrano I, supra,* 5 Cal.3d at p. 592.) The state then contributed aid to school districts in two forms: "basic state aid," which was a flat financial grant per pupil per year; and "equalization aid," which was based upon the assessed valuation of property per pupil within the district.(*Id.* at p. 593.)This educational status quo was challenged in *Serrano I,* a class action in which the plaintiffs maintained that the public school financing system created disparate educational opportunities based upon wealth. It was asserted that due to a substantial dependence upon local property taxes children from wealthy districts received greater educational opportunities than children from poorer districts. [FN8]In 1971, the California Supreme Court held that wealth is a suspect classification and that education constitutes a fundamental interest and thus the state plan should be subjected to strict scrutiny under equal protection principles. (*Id.* at pp. 614-615.)The high court concluded that an educational system which produces disparities of opportunity based upon district wealth would fail to meet constitutional requirements and the action was remanded for trial of the factual allegations of the complaint. (*Id.* at p. 619.)

> FN8 It has been pointed out that the wealth of a school district will not necessarily reflect the wealth of families it serves. For example, a district might have a high assessed valuation to ADA ratio because it includes areas which are heavily developed for commercial or industrial purposes, yet serve families who live near such areas because they cannot afford to move to more affluent areas. Conversely, a suburban or rural district may serve relatively affluent students yet lack a high assessed valuation to ADA ratio because it lacks any commercially developed areas within its boundaries. In *Serrano I* the Court disregarded this possibility because it was reviewing a demurrer to a complaint which alleged that there was a correlation between the wealth of a district and its residents and for the more basic reason that it did not believe that disparities in educational opportunities could be permitted simply because they reflected the wealth of the district rather than the individual.(*Id.* at pp. 600-601.)

After *Serrano I,* the Legislature modified the formula for state education aid in an effort to eliminate its objectionable features. The parties stipulated that the

modified formula should be considered at trial. (*1527*Serrano II, supra,* 18 Cal.3d at pp. 736-737.) Also during the pendency of the trial court proceedings, the United States Supreme Court rendered its opinion in *San Antonio School District v. Rodriguez* (1973) 411 U.S. 1 [36 L.Ed.2d 16, 93 S.Ct. 1278]. There, the Texas public school financing system, which was substantially similar to ours, was upheld by the federal high court. The court concluded that the Texas system did not result in a suspect classification based upon wealth and did not affect a fundamental interest and thus needed only to meet the "rational relationship" test under equal protection principles. (*Id.* at pp. 33-34, 48-55, 61-62 [36 L.Ed.2d at pp. 42-43, 51-56, 59-60].) Thereafter the *Serrano* trial court held that California's public education financing scheme violated independent state equal protection guarantees. In *Serrano II,* the California Supreme Court affirmed the judgment of the trial court which gave the state six years for bringing the public school financing system into constitutional compliance. (18 Cal.3d at pp. 749, 777.)

Meanwhile, at the June 1978 Primary Election the voters enacted Proposition 13, which added article XIII A to the California Constitution. That measure changed California's real property tax system from a current value system to an acquisition value system and limited the tax rates which could be imposed upon real property. (See *Amador Valley Joint Union High Sch. Dist. v. State Bd. of Equalization* (1978) 22 Cal.3d 208, 220, 238 [149 Cal.Rptr. 239, 583 P.2d 1281].) In an effort to mitigate the effects of article XIII A upon local governments and schools, the Legislature enacted a bailout bill to distribute surplus state funds to local agencies. (See *Sonoma County Organization of Public Employees v. County of Sonoma* (1979) 23 Cal.3d 296, 297 [152 Cal.Rptr. 903, 591 P.2d 1].)Article XIII A also forced the state to assume a greater responsibility for financing the public school system. (§ 41060.)

In the November 1979 Special Statewide Election the voters enacted Proposition 4 to add article XIII B to the California Constitution. Article XIII B imposes limitations upon the power of all California governmental entities to appropriate funds for expenditures. (Cal. Const., art. XIII B, §§ 1, 8, subds. (a), (b).) Revenues received by any governmental entity in excess of its appropriations limit must be returned by a revision of tax rates or fee schedules within the next two fiscal years. (Cal. Const., art. XIII B, § 2.) The measure also provides that whenever the state mandates a new program or higher level of service upon local governments, it must provide a subvention of funds to reimburse local government for the added costs. (Cal. Const., art. XIII B, § 6.)

It can be seen that as a result of the events of the 1970's the already difficult task of financing public education was made even more formidable.***1528** As a result of article XIII A, the state was forced to assume a greater share of the responsibility for funding education. Any formula for funding education would be required to meet equal protection principles as set forth in the *Serrano* decisions. And as a result of article XIII B, there was certain to be greater competition for the state revenues within the appropriations limit. It was against this background that the voters enacted Proposition 98 at the November 1988 General Election.

III Matters Not in Issue

The question presented in this appeal can best be addressed when it is narrowed to its appropriate scope by elimination of what is not involved. We are not here concerned with whether the Child Care and Development Services Act in fact completely entails an educationally related program. (4) While the Legislature is given broad authority over education, it cannot divert education funds for other purposes. (*Crosby v. Lyon* (1869) 37 Cal. 242, 245.) But plaintiffs did not and cannot reasonably contend that the child care program under attack does not at least in part serve an educational purpose. Education is a broad and comprehensive matter. (*Board of Trustees v. County of Santa Clara* (1978) 86 Cal.App.3d 79, 84 [150 Cal.Rptr. 109].) It "[c]omprehends not merely the instruction received at school or college, but the whole course of training; moral, religious, vocational, intellectual, and physical. Education may be particularly directed to either the mental, moral, or physical powers and faculties, but in its broadest and best sense it relates to them all. [It includes the] [a]cquisition of all knowledge tending to train and develop the individual." (Black's Law Dict. (5th ed. 1979) p. 461, col. 2.) Our Constitution places a similarly broad meaning upon education when it requires the Legislature to "encourage by all suitable means the promotion of intellectual, scientific, moral, and agricultural improvement." (Cal. Const., art. IX, §

1.) [FN9] Moreover, under our Constitution the Legislature is given broad discretion in determining the types of programs and services which further the purposes of education. (*Veterans' Welfare Board v. Riley* (1922) 189 Cal. 159, 164-166 [208 P. 678, 22 A.L.R. 1531]; *University of So. California v. Robbins* (1934) 1 Cal.App.2d 523, 528 [37 P.2d 163].) It cannot be said that the Legislature has been arbitrary and unreasonable in its determination that the Child Care and Development Services Act furthers the purposes of public education.

> FN9 While "education" is sufficiently broad to include religious training, specific provisions of the state and federal Constitutions exclude religious training from governmental education programs. (U.S. Const., Amend. I; Cal. Const., art. I, § 4, art. IX, § 8.)

We are not here concerned with the question whether the Legislature's implementation of Proposition 98 is partially invalid or invalid as applied.***1529** Plaintiffs claim that the inclusion of funding for the Child Care and Development Services Act within the Proposition 98 funding requirement is invalid in toto and on its face. They argue that Proposition 98 funds must be transferred to school districts which then have total discretion to determine how those funds should be spent. They did not present evidence or argument to establish that portions of the Child Care and Development Act lack a sufficient nexus to education to be included in education funding or that the manner in which it is carried out by the Superintendent of Public Instruction does not support and further the purpose of education. (5) "Because this is a challenge to the facial validity of the [the statute], our task is to determine whether the statute can constitutionally be applied. 'To support a determination of facial unconstitutionality, voiding the statute as a whole, petitioners cannot prevail by suggesting that in some future hypothetical situation constitutional problems may possibly arise as to the particular *application* of the statute. ... Rather, petitioners must demonstrate that the act's provisions inevitably pose a present total and fatal conflict with applicable constitutional prohibitions.' " (*Arcadia Unified School Dist. v. State Dept. of Education* (1992) 2 Cal.4th 251, 267 [5 Cal.Rptr.2d 545, 825 P.2d 438], italics in original.)

We are not here concerned with the advisability or wisdom of the Legislature's decision. [FN10](6) Under our form of government, policymaking authority is vested in the Legislature and neither arguments as to the wisdom of an enactment nor questions as to the motivation of the Legislature can serve to invalidate particular legislation. (*City and County of San Francisco v. Cooper* (1975) 13 Cal.3d 898, 913 [120 Cal.Rptr. 707, 534 P.2d 403]; *County of Los Angeles v. Superior Court* (1975) 13 Cal.3d 721, 727 [119 Cal.Rptr. 631, 532 P.2d 495]; *Galvan v. Superior Court* (1969) 70 Cal.2d 851, 869 [76 Cal.Rptr. 642, 452 P.2d 930]; *Wilke & Holzheiser, Inc. v. Dept. of Alcoholic Bev. Control* (1966) 65 Cal.2d 349, 359 [55 Cal.Rptr. 23, 420 P.2d 735].) As a court of review our role is limited to determining whether the Legislature's choice is constitutionally prohibited. (*Ibid.*)

> FN10 For this reason we deny the request of amici curiae that we take judicial notice of certain legislative materials. The submitted documents tend to establish the value of, and the need for, funding for child care and development programs. Those are matters within the Legislature's prerogative and we may not superintend its determination.

Furthermore, we are not concerned here with statutory inconsistency. Instead, the issue relates solely to the construction of constitutional provisions. Proposition 98 added certain statutory provisions to the Education Code, Section 13 of Proposition 98 provides: "No provision of this Act may be changed except to further its purposes by a bill passed by a vote of two-thirds of the membership of both houses of the Legislature and signed ***1530** by the Governor." The legislation challenged by plaintiffs was enacted by the requisite two-thirds majorities and signed by the Governor. Accordingly, it is the constitutional provisions of Proposition 98 which are at issue in this case.

Finally, we are not here concerned with article XVI, section 8.5 of the Constitution, also added by Proposition 98. In that provision the voters determined that, within certain limits, state revenues in excess of the state appropriations limit should be used to improve education in the elementary and secondary schools and community colleges rather than be returned to the populace. The measure is self-executing; it requires no legislative action. Each year the Controller must transfer and allocate such excess revenues to the state school fund restricted for school districts and

community colleges, and then must allocate those funds to the districts and community colleges on a per-enrollment basis. (Cal. Const., art. XVI, § 8.5, subds. (a), (c).) Those sums may be expended solely for purposes of instructional improvement and accountability. (Cal. Const., art. XVI, § 8.5, subd. (d).)

Article XVI, section 8.5 is an entirely different matter than article XVI, section 8. Section 8.5 deals with revenues which are constitutionally beyond the Legislature's spending prerogatives under article XIII B.Section 8.5 does not extend the Legislature's spending power to excess revenues; rather it imposes a self-executing, ministerial duty upon the Controller to transfer such excess revenues to a restricted portion of the school fund and thence to allocate such revenues to school districts and community college districts on a per-enrollment basis. Section 8.5 specifically restricts the purposes for which those funds may be expended. The specific provisions of section 8.5 would prohibit the Legislature from retaining and utilizing those funds for purposes of the Child Care and Development Services Act.

IV Issue on Appeal

In this case we are concerned with whether funding for the Child Care and Development Services Act is on its face beyond the educational funding requirements of article XVI, section 8, of the Constitution as enacted by Proposition 98.

Defendant Honig contends that the Legislature has plenary power to define how California's public school system operates as well as what entities constitute that system. Given that absolute authority, which remains undiminished by the enactment of Proposition 98, the Legislature was empowered to include funds for early childhood education and child development within the minimum funding guarantee established by that initiative.*1531 He argues that the trial court, contrary to the settled and fundamental principles of constitutional adjudication, misconstrued the critical phrase "moneys to be applied by the State for the support of school districts" to be limited to funds directly allocated to school districts. In his view, "the definition of 'school districts' set forth in Proposition 98 is far from precise. Its uncertainty in fact made it necessary for the Legislature to refine and clarify which entities in the public school system were to be counted as falling within its minimum funding guarantee. This the Legislature did, three times. [¶] More importantly, nothing in Proposition 98 or any other provision of law either expressly or implicitly restricted the Legislature from including [the California Department of Education's] direct provision of child development services through contracts with private agencies within that guarantee. Since 1972, the Legislature has determined that private agencies, as well as public agencies, have been integral to the statewide provision of such services under the Child Development Act, and thereby to California's public school system. Accordingly, the Legislature's implementation of Proposition 98 in Sections 41202(f) and 8203.5(c) was not only possible and reasonable, it was consistent with its prior acts which made private agency child development services a recognized part of the public school system."

(7a) Plaintiffs counter that the plain language of Proposition 98 demonstrates that the funds must go directly to school districts and not to private entities contracting with the Department of Education. As they read the key phrase of the initiative, "monies to be applied by the State for the support of school districts" means funds "allocated to" or "appropriated for" school districts. Consequently, so their argument goes, the inclusion of non-school-district programs within the initiative's guarantee nullifies the central purpose of Proposition 98.

Real parties in interest argue alternatively that child development programs funded directly by the Department of Education are included within the phrase "school districts" but even if they are not, the Legislature has the power to amend the statutory definition of "school districts" contained in Proposition 98.

In analyzing these constitutional contentions we are bound by several fundamental principles of constitutional adjudication. (8) " 'Unlike the federal Constitution, which is a grant of power to Congress, the California Constitution is a limitation or restriction on the powers of the Legislature. Two important consequences flow from this fact. First, the entire lawmaking authority of the state, except the people's right of initiative and referendum, is vested in the Legislature, and that body may exercise any and all legislative powers *which are not expressly, or by necessary implication *1532 denied to it by the Constitution.* ... [¶] Secondly, all intendments favor the exercise of the

Legislature's plenary authority: "If there is any doubt as to the Legislature's power to act in any given case, the doubt should be resolved in favor of the Legislature's action. *Such restrictions and limitations [imposed by the Constitution] are to be construed strictly, and are not to be extended to include matters not covered by the language used.*" ' (Italics added.)" (*Pacific Legal Foundation v. Brown* (1981) 29 Cal.3d 168, 180 [172 Cal.Rptr. 487, 624 P.2d 1215], citing *Methodist Hosp. of Sacramento v. Saylor* (1971) 5 Cal.3d 685, 691 [97 Cal.Rptr. 1, 488 P.2d 161], citations omitted.)

(9) Another principle of constitutional adjudication requires that the constitutional provisions added by Proposition 98 be considered in light of all other relevant provisions of the Constitution, including those that contain, define, and limit the status of school districts and their relationship to the state. "The initiative amendment to the [C]onstitution itself must be interpreted in harmony with the other provisions of the organic law of this state of which it has become a part. To construe it otherwise would be to break down and destroy the barriers and limitations which the [C]onstitution, read as a whole, has cast about legislation, both state and local." (*Galvin v. Board of Supervisors* (1925) 195 Cal. 686, 692 [235 P. 450]. See also *Edler v. Hollopeter* (1931) 214 Cal. 427, 430 [6 P.2d 245].) In *Galvin v. Board of Supervisors, supra,* 195 Cal. 686, the petitioners sought to compel a county board of supervisors to submit an initiative ordinance to the local voters. The Supreme Court held that the provisions of the Constitution which reserve the initiative power to local voters must be construed in light of other provisions which contain, define, and limit the scope of permissible local legislation.(*Id.* at p. 692.)This precluded local voters from accomplishing by initiative that which was beyond the powers of the local board of supervisors.(*Id.* at p. 693.See also *Giddings v. Board of Trustees* (1913) 165 Cal. 695, 698 [133 P. 479].) That principle of construction applies here.

(7b) When we consider Proposition 98 in light of other provisions of our Constitution, specifically article IX, which is devoted to education, and the long, unbroken line of authorities interpreting such provisions, we must reject an underlying premise of plaintiffs' argument. According to plaintiffs, the challenged legislation is invalid because it divests school districts of complete and total control over the funds the state is required to devote to education under Proposition 98. As plaintiffs put it: "Of course, if a school district decides to use part of its funding for child care and development programs, it is entitled to do so. It is also entitled to ignore child care and development altogether, and use its funding for other programs that it considers to be a higher priority." Nothing in Proposition 98 states or implies ***1533** that school districts are to have the autonomy claimed by plaintiffs. Article IX, section 5, of our Constitution still provides for one system of common schools, which implies a "unity of purpose as well as an entirety of operation, and the direction to the [L]egislature to provide 'a' system of common schools means *one* system which shall be applicable to all the common schools within the state." (*Kennedy v. Miller* (1893) 97 Cal. 429, 432 [32 P. 558], italics original; see also *Serrano I, supra,* 5 Cal.3d at p. 595.)

Since Proposition 98 did not alter the state's role in education, the Constitution continues to make education and the operation of the public schools a matter of statewide rather than local or municipal concern. (*Hall v. City of Taft, supra,* 47 Cal.2d at p. 179; *Esberg v. Badaracco, supra,* 202 Cal. at pp. 115-116; *Kennedy v. Miller, supra,* 97 Cal. at p. 431; *Whisman v. San Francisco Unified School Dist., supra,* 86 Cal.App.3d at p. 789.) Local school districts remain agencies of the state rather than independent, autonomous political bodies. (*Allen v. Board of Trustees, supra,* 157 Cal. at pp. 725-726.) The Legislature's control over the public education system is still plenary. (*Hall v. City of Taft, supra,* 47 Cal.2d at pp. 180-181; *Pass School Dist. v. Hollywood Dist., supra,* 156 Cal. at p. 419; *San Carlos Sch. Dist. v. State Bd. of Education, supra,* 258 Cal.App.2d at p. 324; *Town of Atherton v. Superior Court, supra,* 159 Cal.App.2d at p. 421.) The Legislature still has ultimate and nondelegable responsibility for education in this state. (*Hall v. City of Taft, supra,* 47 Cal.2d at p. 181; *Piper v. Big Pine School Dist., supra,* 193 Cal. at p. 669.) All school properties are still held in trust with the state as the beneficial owner. (*Hall v. City of Taft, supra,* 47 Cal.2d at p. 182; *Chico Unified Sch. Dist. v. Board of Supervisors, supra,* 3 Cal.App.3d at p. 855; *Town of Atherton v. Superior Court, supra,* 159 Cal.App.2d at p. 421.) And school districts still do not have a proprietary interest in moneys which are apportioned to them. (*Gridley School District v. Stout, supra,* 134 Cal. at p. 593; *Butler v. Compton Junior College Dist., supra,*

77 Cal.App.2d at p. 729.) Of course, if the electorate chose to alter our constitutional scheme for education it could do so. Education could be made a matter of local concern and school districts could be given greater autonomy. But we cannot conclude that such a major governmental restructuring was accomplished by implication in a measure dealing with public finance which spoke not at all on such matters.

In light of the Legislature's plenary authority over education and its legal relationship with school districts, we do not find Proposition 98 to be clear and unambiguous as asserted by plaintiffs. The measure establishes a minimum sum for "the monies to be applied by the state for the support of school districts and community college districts ...." Rather than expressly divesting the state of its traditional authority over education funds, ***1534** this provision would appear to retain state control since the moneys are to be "applied by the state." The measure does not expressly restrict the Legislature's plenary authority nor does it grant to school districts exclusive control over education funds. Had such a result been intended there are any number of linguistic formulations which could have so specified with adequate clarity. As a court, we cannot impose limitations or restrictions upon the Legislature's prerogatives in the absence of language reasonably calculated to require such a result when subjected to strict construction. (*Pacific Legal Foundation v. Brown, supra,* 29 Cal.3d at p. 180.)

Given plaintiffs' facial attack, it is enough to hold, as we do, that legislative programs which advance, and hence support, the educational mission of school districts and community college districts may constitutionally be included within the funding guarantee of Proposition 98. It cannot be said that the Child Care and Development Services Act totally and on its face fails to meet this test. [FN11]This is as far as we need go in this case. The plaintiffs asserted, and the judgment holds, that only funds allocated to and administered by school districts satisfy the requirements of Proposition 98. Such a conclusion improperly grants school districts a proprietary interest in school funds and gives them a degree of political autonomy in contravention to the Legislature's long-standing and well-established plenary authority over education in this state. Since we do not find such a fundamental governmental restructuring in Proposition 98, we must reject the reasoning of the trial court and reverse its judgment.

FN11 In reaching this conclusion we reject real parties' contention that the Legislature has impliedly defined programs under the Child Care and Development Services Act as being within the definition of "school districts." Section 41302.5 defines the agencies which are included within the phrase "school district" as used in Proposition 98. In implementing Proposition 98 the Legislature referred to that section but did not see fit to amend it to include child care and development programs. (§ 41202, subd. (f).) And in section 8203.5, subdivision (c), the Legislature included Child Care and Development Services Act funding within the Proposition 98 guarantee "whether or not those funds are allocated to school districts ...." By so providing the Legislature clearly chose not to include child care and development programs within the definition of school districts.

Summary and Conclusion

In this state, education is a matter of statewide rather than local or municipal concern. Local school districts are agencies of the state subject to the Legislature's plenary authority over education. Local school districts do not have political autonomy and have no proprietary interest in the properties or moneys they hold in trust for the state. Proposition 98 set forth minimum sums to be applied by the state for the support of school districts and community colleges. This measure does not deprive the Legislature of ***1535** its plenary authority over education and does not grant school districts political autonomy or a proprietary interest in the minimum funding to be applied by the state for support of school districts and community colleges. Accordingly, we reject the assertion that all funds within the minimum funding requirements of Proposition 98 must be allocated to, and administered by, school districts. Our opinion goes no further. While the Legislature's authority over education and education funding is broad, it is not unlimited. Our conclusion that Proposition 98 did not divest the Legislature of its traditional authority over education should not be construed to foreclose specific challenges to the Legislature's decisions based upon appropriate factual and legal showings. We hold only

that the decision to include funding for the Child Care and Development Services Act within the Proposition 98 minimum funding guarantees is not in toto and on its face beyond the Legislature's constitutional authority.

Disposition

The judgment is reversed. Appellant Honig shall recover his costs on appeal.

Marler, J., and Nicholson, J., concurred.
A petition for a rehearing was denied May 27, 1992, and the petition of plaintiffs and respondents for review by the Supreme Court was denied July 30, 1992. Mosk, J., was of the opinion that the petition should be granted. ***1536**

Appendix

Proposition 98 provides in full:

Section 1. This Act shall be known as "The Classroom Instructional and Accountability Act."

Section 2. Purpose and Intent. The People of the State of California find and declare that:

(a) California schools are the fastest growing in the nation. Our schools must make room for an additional 130,000 students every year.

(b) Classes in California's schools have become so seriously overcrowded that California now has the largest classes of any state in the nation.

(c) This act will enable Californians to once again have one of the best public school systems in the nation.

(d) This act will not raise taxes.

(e) It is the intent of the People of California to ensure that our schools spend money where it is most needed. Therefore, this Act will require every local school board to prepare a School Accountability Report Card to guarantee accountability for the dollars spent.

(f) This Act will require that excess state funds be used directly for classroom instructional improvement by providing for additional instructional materials and reducing class sizes.

(g) This Act will establish a prudent state reserve to enable California to set aside funds when the economy is strong and prevent cutbacks or tax increases in times of severe need or emergency.

Section 3. Section 5.5 is hereby added to Article XIIIB as follows:

Section 5.5 Prudent State Reserve. The Legislature shall establish a prudent state reserve fund in such amount as it shall deem reasonable and necessary. Contributions to, and withdrawals from, the fund shall be subject to the provisions of Section 5 of this Article.

Section 4. Section 2 of Article XIIIB is hereby amended to read as follows:

Section 2. Revenues in Excess of Limitation. ***1537**

(a) All revenues received by the state in excess of that amount which is appropriated by the state in compliance with this Article, and which would otherwise by required, pursuant to subdivision (b) of this Section, to be returned by a revision of tax rates or fee schedules within the next two subsequent fiscal years, shall be transferred and allocated pursuant to Section 8.5 of Article XVI up to the maximum amount permitted by that section.

(b) Except as provided in subdivision (a) of this Section, revenues received by any entity of government in excess of that amount which is appropriated by such entity in compliance with this Article during the fiscal year shall be returned by a revision of tax rates or fee schedules within the next two subsequent fiscal years.

Section 5. Section 8 of Article XVI is hereby amended to read as follows:

Section 8. School Funding Priority

(a) From all state revenues there shall first be set apart the monies to be applied by the state for support

of the public school system and public institutions of higher education.

(b) Commencing with the 1988-89 fiscal year, the monies to be applied by the state for the support of school districts and community college districts shall not be less than the greater of:

(1) The amount which, as a percentage of the State General Fund revenues which may be appropriated pursuant to Article XIIIB, equals the percentage of such State General Fund revenues appropriated for school districts and community college districts, respectively, in fiscal year 1986-87; or

(2) The amount required to ensure that the total allocations to school districts and community college districts from the State General Fund proceeds of taxes appropriated pursuant to Article XIIIB and allocated local proceeds of taxes shall not be less than the total amount from these sources in the prior year, adjusted for increases in enrollment, and adjusted for changes in the cost of living pursuant to the provisions of Article XIIIB.

(c) The provisions of subdivision (b) of this Section may be suspended for one year by the enactment of an urgency statute pursuant to Section 8 of Article IV, provided that no urgency statute enacted under this subdivision may be made part of or included within any bill enacted pursuant to Section 12 of Article IV. ***1538**

Section 6. Section 8.5 of Article XVI is hereby added as follows:

Section 8.5. Allocations to State School Fund

(a) In addition to the amount required to be applied for the support of school districts and community colleges pursuant to Section 8(b), the Controller shall during each fiscal year transfer and allocate all revenues available pursuant to subdivision (a) of Section 2 of Article XIIIB, up to a maximum of four percent (4%) of the total amount required pursuant to Section 8(b) of this Article, to that portion of the State School Fund restricted for elementary and high school purposes, and to that portion of the State School Fund restricted for community college purposes, respectively, in proportion to the enrollment in school districts and community college districts respectively.

(1) With respect to funds allocated to that portion of the State School Fund restricted for elementary and high school purposes, no transfer or allocation of funds pursuant to this section shall be required at any time that the Director of Finance and the Superintendent of Public Instruction mutually determine that current annual expenditures per student equal or exceed the average annual expenditure per student of the ten states with the highest annual expenditures per student for elementary and high schools, and that average clas [*sic*] size equals or is less than the average class size of the ten states with the lowest clas [*sic*] size for elementary and high schools.

(2) With respect to funds allocated to that portion of the State School Fund restricted for community college purposes, no transfer or allocation of funds pursuant to this section shall be required at any time that the Director of Finance and the Chancellor of Community Colleges mutually determine that current annual expenditures per student for community colleges in this state equal or exceed the average annual expenditure per student of the ten states with the highest annual expenditures per student for community colleges.

(b) Notwithstanding the provisions of Article XIIIB, funds allocated pursuant to this section shall not constitute appropriations subject to limitation, but appropriation limits established in Article XIIIB shall be annually increased for any such allocations made in the prior year.

(c) From any funds transferred to the State School Fund pursuant to paragraph (a) of this Section, the Controller shall each year allocate to each school district and community college district an equal amount per enrollment in school districts from the amount in that portion of the State ***1539** School Fund restricted for elementary and high school purposes and an equal amount per enrollment in community college districts from that portion of the State School Fund restricted for community college purposes.

(d) All revenues allocated pursuant to subdivision (a) of this section, together with an amount equal to the total amount of revenues allocated pursuant to subdivision (a) of this section in all prior years, as adjusted

if required by Section 8(b)(2) of Article XVI, shall be expended solely for the purposes of instructional improvement and accountability as required by law.

(e) Any school district maintaining an elementary or secondary school shall develop and cause to be prepared an annual audit accounting for such funds and shall adopt a School Accountability Report Card for each school.

Section 7. Section 33126 is hereby added to Article 2 of Chapter 2 of Part 20 of Division 2 of Title 2 of the Education Code to read as follows:

33126. School Accountability Report Card

In order to promote a model statewide standard of instructional accountability and conditions for teaching and learning, the Superintendent of Public Instruction shall by March 1, 1989, develop and present to the Board of Education for adoption a statewide model School Accountability Report Card.

(a) The model School Accountability Report Card shall include, but is not limited to, assessment of the following school conditions:

(1) Student achievement in and progress toward meeting reading, writing, arithmetic and other academic goals.

(2) Progress toward reducing drop-out rates.

(3) Estimated expenditures per student, and types of services funded.

(4) Progress toward reducing class sizes and teaching loads.

(5) Any assignment of teachers outside their subject areas of competence.

(6) Quality and currency of textbooks and other instructional materials.

(7) The availability of qualified personnel to provide counseling and other student support services. ***1540**

(8) Availability of qualified substitute teachers.

(9) Safety, cleanliness, and adequacy of school facilities.

(10) Adequacy of teacher evaluations and opportunities for professional improvement.

(11) Classroom discipline and climate for learning.

(12) Teacher and staff training, and curriculum improvement programs.

(13) Quality of school instruction and leadership.

(b) in developing the statewide model School Accountability Report, the Superintendent of Public Instruction shall consult with a Task Force on Instructional Improvement, to be appointed by the Superintendent, composed of practicing classroom teachers, school administrators, parents, school board members, classified employees, and educational research specialists, provided that the majority of the task force shall consist of practicing classroom teachers.

Section 8. Section 35256 is hereby added to Article 8 of Chapter 2 of Part 20 of Division 3 of Title 2 of the Education Code to read as follows:

35256. School Accountability Report Card

The governing board of each school district maintaining an elementary or secondary school shall by September 30, 1989, or the beginning of the school year develop and cause to be implemented for each school in the school district a School Accountability Report Card.

(a) The School Accountability Report Card shall include, but is not limited to, the conditions listed in Education Code Section 33126.

(b) Not less than triennially, the governing board of each school district shall compare the content of the school district's School Accountability Report Card to the model School Accountability Report Card adopted by the State Board of Education. Variances among school districts shall be permitted where necessary to account for local needs.

(c) The Governing Board of each school district shall annually issue a School Accountability Report Card for each school in the school district, publicize such reports, and notify parents or guardians of students that a copy will be provided upon request. ***1541**

Section 9. Section 41300.1 is hereby added to Article 1 of Chapter 3 of Part 24 of Division 3 of Title 2 of the Education Code to read as follows:

41300.1 Instructional Improvement and Accountability.

The amount transferred to Section A of the State School Fund pursuant to Section 8.5 of Article XVI of the State Constitution shall to the maximum extent feasible be expended or encumbered during the fiscal year received and solely for the purpose of instructional improvement and accountability.

(a) For the purpose of this section, "instructional improvement and accountability" shall mean expenditures for instructional activities for school sites which directly benefit the instruction of students, and shall be limited to expenditures for the following:

(1) Lower pupil-teacher ratios until a ratio is attained of not more than 20 students per teacher providing direct instruction in any class, and until a goal is attained of total teacher loads of less than 100 total students per teacher in all secondary school classes in academic subjects as defined by the Superintendent of Public Instruction.

(2) Instructional supplies, instructional equipment, instructional materials and support services necessary to improve school conditions.

(3) Direct student services needed to ensure that each student makes academic progress necessary to be promoted to the next appropriate grade level.

(4) Staff development which improves services to students or increases the quality and effectiveness of instructional staff, designed and implemented by classroom teachers and other participating school district personnel, including the school principal, with the aid of outside personnel as necessary. Classroom teachers shall comprise the majority of any group designated to design such staff development programs for instructional personnel.

(5) Compensation of teachers.

(b) Funds transferred to each school district, pursuant to this section shall be deposited in a separate account and shall be maintained and appropriated separately from funds from all other sources. Funds appropriated pursuant to this section shall supplement other resources of each school district and shall not supplant any other funds. ***1542**

Section 10. Section 14020.1 is hereby added to Article 1 Chapter 1 of Part 9 of Division 1 of Title 1 of the Education Code to read as follows:

14020.1. Instructional Improvement and Accountability.

The amount transferred to Section B of the State School Fund pursuant to Section 8.5 of Article XVI of the State Constitution shall to the maximum extent feasible be expended or encumbered during the year received solely for the purposes of instructional improvement and accountability.

(a) For the purposes of this section, "instructional improvement and accountability" shall mean expenditures for instructional activities for college sites which directly benefit the instruction of students and shall be limited to expenditures for the following:

(1) Programs which require individual assessment and counseling of students for the purpose of designing a curriculum for each student and establishing a period of time within which to achieve the goals of that curriculum and the support services needed to achieve these goals, provided that any such program shall first have been approved by the Board of Governors of Community Colleges.

(2) Instructional supplies, instructional equipment, and instructional materials and support services necessary to improve campus conditions.

(3) Faculty development which improves instruction and increases the quality and effectiveness of instructional staff, as mutually determined by faculty and the community college district governing board.

(4) Compensation of faculty.

(b) Funds transferred to each community college district pursuant to this section shall be deposited in a separate account and shall be maintained and appropriated separately from funds from all other sources. Funds appropriated pursuant to this section shall supplement other resources of each community college district and shall not supplant funds appropriated from any other source.

Section 11. Section 14022 is added to the Education Code to read as follows:

14022. (a) For the purposes of Section 8 and Section 8.5 of Article XVI of the California Constitution, "enrollment" shall mean: ***1543**

(1) In community college districts, full-time equivalent students receiving services, and

(2) In school districts, average daily attendance when students are counted as average daily attendance and average daily attendance equivalents for services not counted in average daily attendance.

(b) Determination of enrollment shall be based upon actual data from prior years and for the next succeeding year such enrollments shall be estimated enrollments adjusted for actual data as actual data becomes available.

Section 12. Section 41302.5 is added to the Education Code to read as follows:

41302.5. For the purposes of Section 8 and Section 8.5 of Article XVI of the California Constitution, "school districts" shall include county boards of education, county superintendents of schools and direct elementary and secondary level instructional services provided by the State of California.

Section 13. No provision of this Act may be changed except to further its purposes by a bill passed by a vote of two-thirds of the membership of both houses of the Legislature and signed by the Governor.

Section 14. Severability

If any provision of this Act, or the application of any provision of this Act to any person or circumstance, shall be held invalid, the remainder of this Act, to the extent that it can be given effect, shall not be affected thereby, and to this end the provisions of this Act are severable.

Cal.App.3.Dist.
California Teachers Assn. v. Hayes
5 Cal.App.4th 1513, 7 Cal.Rptr.2d 699, 74 Ed. Law Rep. 165

END OF DOCUMENT

Supreme Court of California, In Bank.
CANDID ENTERPRISES, INC., Plaintiff and Respondent,
v.
GROSSMONT UNION HIGH SCHOOL DISTRICT, et al., Defendants and Appellants.
L.A. 31877.

Sept. 26, 1985.

Developer of residential subdivision filed action for writ of mandamus to order school district's governing board to repay school impact fees assessed against developer. The Superior Court, San Diego County, Joseph A. Kilgariff, J., ordered refund of the fees, and school district appealed. The Supreme Court, Mosk, J., held that: (1) School Facilities Act does not preempt local governments from imposing school-impact fees on developers to finance permanent school facilities, and (2) school district's imposition of school-impact fees on developer to finance permanent school facility was related to legitimate purpose of requiring developers to mitigate overcrowding in schools caused or aggravated by development of residential subdivision, and thus, did not deny developer equal protection of law.

Reversed.

Opinion, 197 Cal.Rptr. 429, vacated.

In determining whether Legislature has preempted by implication to the exclusion of local regulation, Supreme Court must look to whole purpose and scope of legislative scheme, employing three tests: whether subject matter has been so fully and completely covered by general law as to clearly indicate that it has become exclusively matter of state concern; whether subject matter has been partially covered by general law couched in such terms as to indicate clearly that paramount state concern will not tolerate further or additional local action; or whether subject matter has been partially covered by general law, and subject is of such nature that adverse affect of local ordinance on transient citizens of state outweighs possible benefit to municipality.

Assessment of school-impact fees to finance permanent school facility against developer of residential subdivision who entered into secured agreement to obtain school-availability letter did not deny developer equal protection of law, even though developments started after date school district stopped assessing such fees would be able to avoid fees altogether, where assessment was reasonable in that developers who were expected to cause or aggravate overcrowding in schools were required to mitigate overcrowding in schools, and others were not. U.S.C.A. Const.Amend. 14.

MOSK, Justice.

The major question we must decide in this case concerns what are commonly referred to as "school-impact fees"-i.e., fees that local *881 governments impose on real property development to cover the costs of **879 constructing and maintaining school facilities attributable to such development. The ***306 precise question is whether the School Facilities Act (sometimes hereafter the Act) (Gov.Code, § 65970 et seq.) [FN1]-which encourages local school boards to identify and local governments to deal with the problem of overcrowding, and to that end permits the imposition of school-impact fees to finance certain temporary facilities-preempts local governments from imposing such fees to finance both temporary and permanent facilities. We answer this question in the negative, and therefore reverse the judgment.

FN1. Unless otherwise noted, all statutory references are to the Government Code.

I

In California the financing of public school facilities has traditionally been the responsibility of local government. "Before the *Serrano v. Priest* decision in 1971, school districts supported their activities mainly by levying ad valorem taxes on real property within their districts." (Cal.Building Industry Assn., Financing School Facilities (Apr. 1983) p. 3 (hereafter Financing School Facilities).) Specifically, although school districts had received some state assistance since 1947, and especially since 1952 with the enactment of the State School Building Aid Law of 1952 (Ed.Code, § 16000 et seq.), they financed the construction and maintenance of school facilities mainly through the issuance of local bonds repaid from real property taxes.

After the *Serrano* decision (5 Cal.3d 584, 96 Cal.Rptr. 601, 487 P.2d 124) and to the present day, local government has remained primarily responsible for school facility financing, but has often been thrust into circumstances in which it has been able to discharge its responsibility, if at all, only with the greatest difficulty. In these years, the burden on different localities has been different: extremely heavy on those that have experienced growth in enrollment, light on those that have experienced decline, and somewhere in between on those that have remained stable.

In the early 1970's, because of resistance to increasing real property taxes, localities throughout the state began to experience greater difficulty in obtaining voter approval of bond issues to finance school facility construction and maintenance. As a result, a number of communities chose to impose on developers school-impact fees-such as those at issue here-in order to make new development cover the costs of school facilities attributable to *882 it. (See, e.g., *Builders Assn. of Santa Clara-Santa Cruz Counties v. Superior Court* (1974) 13 Cal.3d 225, 118 Cal.Rptr. 158, 529 P.2d 582.)

With the passage of Proposition 13 in 1978 the burden of school financing became even heavier. "Proposition 13 prohibits ad valorem property taxes in excess of 1%, except to finance previously authorized indebtedness. Since most localities have reached this 1% limit, school districts cannot raise property taxes even if two-thirds of a district's voters wanted to finance school construction." (Financing School Facilities, supra, at p. 4; see Ed.Code, § 17786 ["the Legislature recognizes that the ad valorem tax is no longer available as a source of revenue for the construction of necessary school facilities"].) Moreover, although Proposition 13 authorizes the imposition of "special taxes" by a vote of two-thirds of the electorate, such special taxes have rarely been imposed, remain novel, and as consequence are evidently not perceived as a practical method of school facility financing-especially in view of the need for a two-thirds vote of the electorate to approve them. (Financing School Facilities, supra, at pp. 4, 14.)

In the face of such difficulties besetting local governments, the state has not taken over any substantial part of the responsibility of financing school facilities, less still full responsibility. To be sure, in order to implement the *Serrano* decision the Legislature has significantly increased assistance to education. But it has channeled by far the greater part of such assistance into educational programs and the lesser part **880 into school facilities; in fiscal year 1981-1982, for example, only 3.6 percent went ***307 for such facilities. (Financing School Facilities, supra, at pp. 3, 4, 6.) The Legislature has developed "no long-term, comprehensive solution to the acute and chronic facilities financing needs of local school dis-

tricts," but rather has enacted merely "a series of stop-gap, patchwork measures." (Id. at p. 6.) Moreover, because of, among other things, the state budget crisis in the early 1980's and other factors the Legislature has not adequately funded such measures as it has enacted-indeed, "[i]n the past several years, state-supported construction finance has waned...." (Id. at pp. 6, 16.) Thus, although the burden of financing school facilities appears too heavy for some localities to bear, they continue to bear it in large part alone.

II

In 1974 the Board of Supervisors of San Diego County adopted in the form relevant here a land-use policy, designated Policy I-43 (sometimes hereafter the Policy), to help assure orderly growth in the face of widespread and rapid development and a consequent general increase in population. In the Policy, the board of supervisors described the basic problem: ***883** "In many cases, ... the required public services have not ... been installed by the time the development shows a need. The result has been that residents in the newly developed areas have been inadequately served with schools." It then went on to frame a solution: "Before giving approval to development proposals involving a special use permit or a rezoning, ... the proponent of the development proposal ... [must] make certain provisions, in conjunction with appropriate governmental agencies, to insure: [¶] That the proponent of the development present evidence satisfactory to the Planning Commission, at the time of its consideration of the matter, and to the Board of Supervisors at the time of its consideration of the matter that public school services will in fact be provided concurrent with the need." As evidence that such services and facilities would be provided, the county accepted so-called "school-availability" letters from the local school districts.

In 1977 respondents Grossmont Union High School District (the District) and its governing board (the Board) recognized that developments being proposed at that time might cause overcrowding, and sent letters to that effect to the county. On the basis of such letters, the planning commission concluded that the District could not in fact provide adequate school facilities concurrent with the need created by the proposed developments, and accordingly permitted few if any such developments to proceed.

In the fall of 1977 the predecessor of petitioner Candid Enterprises, Inc. expressed its willingness to enter into an agreement with the District to permit its development to proceed: it would agree to pay fees for school facilities and the District would issue a school-availability letter to the county indicating that such facilities would be provided.[FN2] The District approved the agreement in principle and, in order to facilitate it and others like it, adopted Revised Policy FF, which allowed for assessment, under Policy I-43, of school-impact fees from developers, to be used for temporary or permanent facilities. In the spring of 1978 the District entered into an agreement with petitioner's predecessor secured by the real property under development. By its terms the developer agreed to pay the established fees at the time it sought building permits, and the District issued a school-availability letter advising the county of the agreement and of its ability to provide adequate school facilities through use of the fees.

FN2. The president of petitioner and its predecessor is one and the same person.

Meanwhile, the School Facilities Act had become effective on January 1, 1978. Under the Act, cities and counties were authorized to enact ordinances to require developers to pay fees for temporary school facilities. ***884** (§ 65974.) In the spring of 1978 the board of supervisors enacted such an ****881** ordinance, designated Ordinance 5120. Shortly thereafter, in order to facilitate *****308** agreements with developers for the payment of fees for temporary facilities under the Act, the District adopted a resolution finding that conditions of overcrowding existed and that it lacked financial resources to provide additional needed school facilities.

In 1978 and 1979 the District assessed some developers for fees for temporary facilities pursuant to the School Facilities Act and Ordinance 5120; with others it entered into secured agreements for the payment of fees for temporary or permanent facilities, in lieu of School Facilities Act fees, pursuant to Policy I-43 and Revised Policy FF. Because of a districtwide decline in enrollment, in February 1980 the District discontinued collecting School Facilities Act fees. At the same time it also discontinued entering into Policy I-43 secured agreements, although it stated its intent to continue to monitor proposed developments, enter into such agreements when necessary, and col-

lect fees under existing agreements in order to provide adequate facilities concurrent with the need that the subject developments were expected to create.

Petitioner, which had purchased a three-lot condominium project from its predecessor, sought building permits late in 1980. In early 1981 it paid under protest $23,500 in Policy I-43 school-impact fees pursuant to the secured agreement between the District and its predecessor. Petitioner then unsuccessfully sought a refund by a letter to the District. Next it requested to speak to the Board on the matter, and was granted permission. At the meeting petitioner asked that in view of declining districtwide enrollment, the Board refund the fees paid under protest and cancel its secured agreement and all other similar agreements. The Board found that the District (1) discontinued collecting School Facilities Act fees and entering into Policy I-43 secured agreements "since it was projected that funds committed under existing agreements would be sufficient to mitigate future impact[,]" (2) "reserved the right to require the commitment of fees from future developments which promised to upset this condition of balance[,]" and (3) never had "any intention to disregard existing agreements, since the housing from projects covered by those agreements will adversely impact the District at their time of completion." The Board then denied petitioner's request.

[1][2][3][4] Petitioner initiated this proceeding for a writ of mandate pursuant to Code of Civil Procedure sections 1094.5 (administrative mandate) and 1084 (ordinary mandate). Respondents filed a demurrer and an answer. After a hearing the trial court overruled the demurrer and ordered that mandate issue. ***885** From the ensuing judgment respondents appeal, arguing the substantive point that the imposition of Policy I-43 school-impact fees was not invalid on either preemption or equal protection grounds. As we explain below, we find their position meritorious.[FN3]

> FN3. Respondents also press the procedural point that their demurrer should have been sustained. This argument, however, is untenable. Although the writ of administrative mandate does not lie because the Board was not required by law to grant petitioner a hearing on its request (Code Civ.Proc., § 1094.5, subd. (a); *Court House Plaza Co. v. City of Palo Alto* (1981) 117 Cal.App.3d 871, 880, 173 Cal.Rptr. 161), the writ of ordinary mandate is available. Mandate requires that there be no "plain, speedy, and adequate remedy, in the ordinary course of law." (Code Civ.Proc., § 1086.) There was no such remedy here: an action on the contract for refund of fees paid and release from payment of the remainder was inadequate because there were no grounds on which to allege a breach or to seek rescission; no statutory action for a refund then existed, although one now does (§ 65913.5, subd. (e)); and an action for declaratory relief was inappropriate insofar as petitioner was attacking the local legislation as applied (*Mobil Oil Corp. v. Superior Court* (1976) 59 Cal.App.3d 293, 307, 130 Cal.Rptr. 814). The writ of mandate may of course be used, as it is used here, to challenge the validity of a legislative measure. (E.g., *Jolicoeur v. Mihaly* (1971) 5 Cal.3d 565, 570, fn. 2, 96 Cal.Rptr. 697, 488 P.2d 1.)

III

Respondents first contend that the imposition of Policy I-43 school-impact fees is *****309 **882** not preempted by the School Facilities Act and is accordingly valid. Petitioner concedes as it must that the imposition of school-impact fees is generally valid. (See *Builders Assn. of Santa Clara-Santa Cruz Counties v. Superior Court*, supra, 13 Cal.3d 225, 232, fn. 6, 118 Cal.Rptr. 158, 529 P.2d 582.) Respondents proceed to argue successfully that the local legislation is not preempted by the Act on the ground that there is no conflict.

[5] Under the police power granted by the Constitution, counties and cities have plenary authority to govern, subject only to the limitation that they exercise this power within their territorial limits and subordinate to state law. (Cal. Const., art. XI, § 7.) Apart from this limitation, the "police power [of a county or city] under this provision ... is as broad as the police power exercisable by the Legislature itself." (*Birkenfeld v. City of Berkeley* (1976) 17 Cal.3d 129, 140, 130 Cal.Rptr. 465, 550 P.2d 1001.)

[6][7] If otherwise valid local legislation conflicts with state law, it is preempted by such law and is void. (*People ex rel. Deukmejian v. County of Men-*

docino (1984) 36 Cal.3d 476, 484, 204 Cal.Rptr. 897, 683 P.2d 1150; *Lancaster v. Municipal Court* (1972) 6 Cal.3d 805, 807, 100 Cal.Rptr. 609, 494 P.2d 681.) A conflict exists if the local legislation " 'duplicates, contradicts, or enters an area fully occupied by general law, either expressly or by legislative implication.' " (Citations omitted.) (*People ex rel. Deukmejian v. County of Mendocino,* supra, 36 Cal.3d at p. 484, 204 Cal.Rptr. 897, 683 P.2d 1150.)

***886** Respondents argue and petitioner concedes that Policy I-43 school-impact fees do not contradict or duplicate the provisions of the School Facilities Act. Respondents further assert that such fees have not entered an area fully occupied by state law. They are persuasive.

First, the area of financing of school facilities needed by new development has not been expressly occupied by state law. The Legislature has not voiced such an intent in any of its enactments, and petitioner admits as much.

[8] Second, the area has not been impliedly occupied by state law. "In determining whether the Legislature has preempted by implication to the exclusion of local regulation we must look to the whole purpose and scope of the legislative scheme. There are three tests: '(1) the subject matter has been so fully and completely covered by general law as to clearly indicate that it has become exclusively a matter of state concern; (2) the subject matter has been partially covered by general law couched in such terms as to indicate clearly that a paramount state concern will not tolerate further or additional local action; or (3) the subject matter has been partially covered by general law, and the subject is of such a nature that the adverse effect of a local ordinance on the transient citizens of the state outweighs the possible benefit to the municipality.' " (*People ex rel. Deukmejian v. County of Mendocino,* supra, 36 Cal.3d 476, 485, 204 Cal.Rptr. 897, 683 P.2d 1150, quoting from *In re Hubbard* (1964) 62 Cal.2d 119, 128, 41 Cal.Rptr. 393, 396 P.2d 809; accord, *Fisher v. City of Berkeley* (1984) 37 Cal.3d 644, 708, 209 Cal.Rptr. 682, 693 P.2d 261 and cases cited.)

Petitioner concedes, as it must, that the imposition of Policy I-43 school-impact fees does not satisfy the third test, and respondents successfully urge that it satisfies neither of the other two.[FN4]

FN4. How the relevant field occupied by the allegedly preemptive state legislation is defined is often crucial to the result: "If the definition is narrow, preemption is circumscribed; if it is broad, the sweep of preemption is expanded." (*California Water & Telephone Co. v. County of Los Angeles* (1967) 253 Cal.App.2d 16, 27-28, 61 Cal.Rptr. 618; see *Gregory v. City of San Juan Capistrano* (1983) 142 Cal.App.3d 72, 84, 191 Cal.Rptr. 47.) The issue of definition, however, is not crucial here. Whether the School Facilities Act is held to occupy the narrow field of the financing of temporary facilities (as it evidently should be) or the broad field of the financing of all facilities (as it evidently should not be) is of no consequence in the case before us. As we shall explain, the Act recognizes and in fact permits local action, and thereby fails to occupy either field to the exclusion of local legislation.

*****310 **883** First, the subject matter of the local measure-the financing of the construction of both temporary and permanent school facilities to meet the demands imposed by new development-has not been so fully and completely***887** covered by general law as to clearly indicate that it has become exclusively a matter of state concern.

Taken by itself, the School Facilities Act does not even purport to deal with the construction of permanent facilities (see §§ 65970, subd. (e), 65974), and does not fully and completely cover the construction of temporary facilities. The Act recognizes alternative, local financing arrangements: "One year after receipt of any apportionment pursuant to the Leroy F. Greene State School Building Lease-Purchase Law of 1976 ... for the construction of a school, the city or county shall not be permitted thereafter, pursuant to this chapter *or pursuant to any other school facilities financing arrangement such district may have with builders of residential development,* to levy any fee or to require the dedication of any land within the attendance area of the district." (§ 65979, italics added.) The Act, moreover, clearly permits such arrangements. The school district is required to notify the local legislative body if it finds that "(a) conditions of overcrowding exist in one or more atten-

dance areas within the district which will impair the normal functioning of educational programs including the reason for such conditions existing; and (b) that all reasonable methods of mitigating conditions of overcrowding have been evaluated and no feasible method for reducing such conditions exist [*sic*]...." (§ 65971.) The Act goes on to define "reasonable methods for mitigating conditions of overcrowding": they "shall include, *but are not limited to,* agreements between a subdivider and the affected school district whereby temporary-use buildings will be leased to the school district or temporary-use buildings owned by the school district will be used." (§ 65973, subd. (b), italics added.)

Even if we consider the School Facilities Act together with other related state legislation, we come to the same conclusion: the subject matter of this local measure has not been fully and completely covered by state law. Although, as petitioner correctly argues, there are several state and local programs that provide funding for the construction of school facilities, [FN5] the general situation may properly be described in the words already quoted of one of petitioner's principal authorities: "Since the passage of Proposition 13, financing for school construction and facility maintenance has been a series of stop-gap, patchwork measures. There still exists no long-term, comprehensive solution to the acute and chronic facilities financing needs of local school districts." (Financing School Facilities, supra, at p. 6.)

> FN5. These include, for example, the School Facilities Act, the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (hereinafter the Greene Act) (Ed.Code, § 17700 et seq.), the Mello-Roos Community Facilities Act of 1982 (§ 53311 et seq.), and the New Schools Relief Act of 1979 (Ed.Code, § 39050 et seq.).

888** The evident absence of implied preemptive intent in the terms of the School Facilities Act-whether we consider it by itself or with other related legislation-is confirmed by the failure of the Legislature to fully cover the financing of school facilities. First, not all school districts in need of funds for permanent facilities can qualify to receive them under the Greene Act. (See Ed.Code, § 17740.) Second, for a variety of reasons the Legislature has failed to provide adequate funding for even such "stop-gap, patchwork" programs as currently exist. In such circumstances, to construe alternative, local arrangements such as that before us to be preempted would severely impede local governments and school districts in carrying out their responsibilities. It would also frustrate the intent of the Legislature in enacting the School Facilities Act: "Adequate school facilities should be available for children residing in new residential developments." (§ 65970, subd. (a).) Thus, under this test*884 ***311** -i.e., whether the subject matter of the local measure has been so fully covered by state law as to clearly indicate that it has become exclusively a matter of state concern-the Act is shown not to be preemptive.[FN6]

> FN6. We do not mean to imply that the Legislature may not occupy a field unless it appropriates the funds necessary to carry out its intent. We also note that in some cases the "inadequacy" of state funding may prove to be too speculative or subjective a criterion on which to base a conclusion that the Legislature has not intended to preempt local action.

Second, the subject matter of this local measure has not been partially covered by state law couched in such terms as to indicate clearly that a paramount state concern will not tolerate additional local action. The evidence on which we base our conclusion is compelling: the School Facilities Act, as we have explained, unmistakably recognizes and permits local action. Thus, under this test too the Act is shown not to be preemptive.

[9][10] To summarize: "Preemption by implication of legislative intent may not be found when the Legislature has expressed its intent to permit local regulations. Similarly, it should not be found when the statutory scheme recognizes local regulations." (*People ex rel. Deukmejian v. County of Mendocino,* supra, 36 Cal.3d 476, 485, 204 Cal.Rptr. 897, 683 P.2d 1150.) Accordingly, we conclude that the School Facilities Act, because it both permits and recognizes local measures such as this, does not have implied preemptive effect.

To avoid this conclusion, petitioner relies heavily on an opinion by the Attorney General. (62 Ops.Cal.Atty.Gen. 601 (1979).) Among the questions addressed in the opinion is whether the School Facili-

ties Act preempts the imposition of school-impact fees by local government to provide permanent facilities. (Id. at p. 601.) To this the Attorney General answered ***889** yes. (Id. at pp. 605-609.) The conclusion is erroneous, however, because the analysis is faulty.

[11][12] First, the opinion reasons that the Act restricts the fees that may be imposed to no more than " 'the amount necessary to pay five annual lease payments for the interim facilities,' " and that such a restriction "would be meaningless if a city council or board of supervisors could exact additional developer fees for permanent school facilities." (Id. at p. 607, quoting § 65974, subd. (d).) This position might be sound if the Act were intended to limit the authority of local government to make such exactions, but it is not. The purpose of the Act is to encourage local school districts to identify, and local governments to deal with, the effects of residential development on school facilities and to provide local government with "new and improved methods" to cope with the effects of such development "within a reasonable period of time" and on a short-term basis. (See §§ 65970-65971.) Accordingly, the restriction on the amount of fees that may be imposed is properly to be construed as an attempt on the part of the Legislature to ensure that local governments not indefinitely avoid the problem of the construction of permanent facilities by agreeing to the long-term use of temporary facilities.

[13][14] Second, the opinion reasons that the 1979 addition of section 65980, which expressly limits the scope of the Act to temporary facilities, when as initially enacted it "was arguably broad enough to cover permanent facilities [as well,] ... indicated an intent to restrict the amount and purpose of the fees to be collected from developers." (62 Ops.Cal.Atty.Gen., supra, at p. 607.) This position is undermined, however, by the conclusions we reach above: the Legislature evidently intended that local governments use fees authorized by the Act as a short-term solution-*not* that local governments be prohibited from developing and implementing long-term solutions. It is also undermined by the language of section 65979, which was added to the Act at the same time as section 65980: "One year after receipt of an apportionment pursuant to the [Greene Act] ... for the construction of a school, the city or county shall not be permitted thereafter, pursuant to this chapter *or pursuant***312 **885 to any other school facilities financing arrangement such district may have with builders of residential development,* to levy any fee or to require the dedication of any land within the attendance area of the district." (Italics added.) Thus, section 65979 expressly recognizes "other school facilities financing arrangement[s]" between local government and developers, and prohibits exactions pursuant to such arrangements *only* when the locality has received an apportionment for permanent facilities pursuant to the Greene Act. Had the Legislature intended the School ***890** Facilities Act to preempt such "school facilities financing arrangement[s]," the reference to them would have been meaningless.

Third, the opinion reasons by analogy to the Subdivision Map Act that "the express grant of authority to impose school impact fees and dedications upon developers under [the Act], with strict limitations as to amount, evidences an intent by the Legislature to preempt the field to the exclusion of local regulation." (62 Ops.Cal.Atty.Gen., supra, at p. 608.) But even if the opinion is correct in concluding that the intent of the Legislature in the Subdivision Map Act is to prohibit local government from making exactions that the Act does not expressly authorize, it errs in reading such an intent into the School Facilities Act. Here the Legislature recognizes (§ 65979) and in fact permits (§§ 65971, 65973, subd. (b)) local legislation, and has accordingly indicated its clear intent that the "new and improved methods of financing for interim school facilities" that the Act provides are merely supplementary to, and not preemptive of, local action (§ 65970, subd. (e)).

IV

Respondents' other contention is that the imposition of Policy I-43 school-impact fees does not violate the equal protection clause and is accordingly valid. This claim too is successful.

[15][16] The imposition of school-impact fees is an undisputed and indisputable instance of economic regulation. As such, we must review it under "the basic and conventional standard," which "invests legislation ... with a presumption of constitutionality and 'requir[es] merely that distinctions drawn by a challenged [measure] bear some rational relationship to a conceivable legitimate state purpose.' " (*D'Amico v. Board of Medical Examiners* (1974) 11 Cal.3d 1, 16, 112 Cal.Rptr. 786, 520 P.2d 10; see

Builders Assn. of Santa Clara-Santa Cruz Counties v. Superior Court, supra, 13 Cal.3d 225, 232-233, 118 Cal.Rptr. 158, 529 P.2d 582.) As petitioner implicitly concedes, we may not review the challenged local measure under any stricter standard: developers do not constitute a "suspect class," and development is not a "fundamental interest" (see *Trent Meredith, Inc. v. City of Oxnard* (1981) 114 Cal.App.3d 317, 328, 170 Cal.Rptr. 685). Under the conventional standard, "the burden of demonstrating the invalidity of a classification ... rests squarely upon *the party who assails it.*" (*D'Amico v. Board of Medical Examiners,* supra, 11 Cal.3d at p. 17, 112 Cal.Rptr. 786, 520 P.2d 10, italics in original.) Petitioner has failed to carry this burden.

[17] If, as respondents argue and we are inclined to hold, the class of similarly situated persons comprises all developers who have entered into a secured ***891** agreement to obtain a school-availability letter, then no discrimination at all appears: the Board has collected fees as they have become due and has stated its intent to continue to collect them. But even if, as petitioner responds, the class comprises all developers who are currently building in the district, still no unlawful discrimination emerges. The Board entered into secured agreements covering certain developments proposed in 1978 and 1979 because it expected them to cause or aggravate overcrowding in neighboring schools. The Board has not entered into such agreements covering developments proposed subsequently because it has not expected them to have such an adverse effect. Thus if developers currently building in the district are treated differently, such difference*****313 **886** is reasonable and therefore lawful: developers who are expected to cause or aggravate overcrowding are required to mitigate it, others are not.

The judgment is reversed.[FN7]

> FN7. Because of our disposition we do not reach the question whether petitioner waived its right to the fees it paid under protest by accepting the benefits of the agreement with the District.

C. Raymond MULLIN et al., Plaintiffs and Respondents,
v.
SANTA BARBARA SCHOOL DISTRICT et al., Defendants and Appellants.
L.A. 30054, 30086.

Jan. 15, 1975.

Parents and taxpayers brought class action seeking writ of mandate to compel special election of Santa Barbara board of education and declaratory and injunctive relief to prevent implementation of desegregation plan. Following trial the Superior Court, Santa Barbara County, filed memorandum of intended decision. Before findings of fact and conclusions of law were filed defendants presented an original petition seeking a writ of prohibition limited to intended decision on third cause of action. Thereafter the trial court entered judgment on the first two causes of action and defendants appealed, which appeal was ordered transferred. The Supreme Court, Sullivan, J., held that that section of the initiative measure, denominated Proposition 21, barring assignment of pupils on the basis of race is unconstitutional, that those provisions of the Proposition repealing the Bagley Act are constitutional and are severable, that once board of education posted notice that at the May 18 meeting it would adopt one of the desegregation/integration plans presented at the May 4 meeting the board was without power, absent amendment of the agenda within 48 hours of the May 18 meeting, to consider or adopt a substantially different plan, that board's power to close schools exists independently of its constitutional obligation to desegregate and is not contingent on such closure being reasonably necessary to effectuate desegregation and that the board may lawfully be the common governing board of both the Santa Barbara Elementary School District and the Santa Barbara High School District despite the fact that such districts are not coterminous.

Peremptory writ of prohibition issued; judgment appealed from reversed and cause remanded.

Statute providing that no public school student shall, because of his race, creed or color, be assigned to or be required to attend a particular school, which statute constitutes section one of initiative measure denominated Proposition 21, is unconstitutional as applied to school districts manifesting either de jure or de facto segregation; to allow school authorities to rest content in the assumption that the pattern of segregation in their district is de facto and to claim that the statute prohibits them from eliminating that segregation by pupil assignment on the basis of race implemented through bussing would impermissibly impede the constitutionally mandated task of rooting out de jure segregation. West's Ann.Education Code, § 1009.6.

For purpose of determining whether school segregation is de jure, segregative intent on the part of a school board is not limited to actions in the immediate present; determination whether segregation in a school district is de jure can be ascertained only by examining the full history of acts by the school authorities and determining if, at any time in that course of action, some acts were undertaken with segregative intent.

Proposition 21, by repealing the Bagley Act, which act declared the state policy to be elimination of racial imbalance in schools, neither abrogated a school district's constitutional duty not to segregate nor remove the state from involvement through local school districts in the field of education; the repealing provisions of the Proposition were not unconstitutional on ground that repeal of the Bagley Act encouraged and involved the state in racial discrimination; there was no problem of state involvement under the Fourteenth Amendment but simply a question whether the state involvement would be solely by local school districts or would include involvement by the state government as well. Education Code, §§ 5002, 5003, St.1971, p. 3814; U.S.C.A.Const. Amend. 14.

***319** SULLIVAN, Justice.
In this class action brought against two school districts and their common governing board of education, we are called upon to determine the validity of a desegregation plan for elementary schools. Our task also requires us to examine and pass upon the constitutionality of a recent initiative measure enacting certain antibusing legislation and repealing existing statutes dealing with the prevention and elimination of racial and ethnic imbalance in pupil enrollment. Additionally we must examine the validity of the pertinent statute permitting the board of education in question to be the common governing board of the high school district and the elementary school district here involved. In essence, plaintiffs make two independent but cognate attacks-one against the board's plan and the other against the board itself. We take them up in that order, separately stating the facts proper to each. We first turn our attention to the desegregation plan.

I

Defendant Santa Barbara Board of Education (hereafter Board and referred to as defendant in the singular) is the common governing board of defendants Santa Barbara School District and Santa Barbara High School District. Defendant Norman B. Scharer is the Superintendent of Schools of Santa Barbara (superintendent).

Culminating a period of five years' planning and study aimed at correcting the racial imbalance in elementary schools, the Board on February 3, 1972, resolved 'to move immediately toward the total desegregation of all Santa Barbara elementary schools beginning in September 1972.'The Board adopted the following four-step procedure to effectuate this resolution: (1) the issuance by February 22, 1972, of a statement of policy on desegregation; (2) *****642 **610** the creation of a 'Task Force Committee for Desegregation,' consisting of 22 members, to develop criteria for the study of proposed desegregation plans and to present such criteria to the Board no later than March 2, 1972; (3) the establishment of an 'Education and Integration Study Committee,' consisting of more than 100 members, under the chairmanship of the superintendent, to review various plans submitted for carrying out the desegregation-integration policy and to present to the Board, no later than May 4, 1972, two or three alternate plans; and (4) the determination that '(o)n May 18, 1972, this Board of Education will adopt one plan to be implemented as fully as possible in September 1972.'

***320** Both committees met numerous times and completed all work on schedule. On March 2, 1972, the Board adopted 12 criteria for guidance in reviewing the proposed desegregation plans. One of the criteria stated that any desegregation plan should

'provide for optimum use of and be capable of being implemented within existing facilities.'

Nine desegregation plans were received and studied initially by the 'Task Force' and thereafter by the larger Education and Integration Study Committee. The latter committee by a vote of 74 to 4 recommended to the Board a specific desegregation plan known as the Hord-Mailes-Christian-Belden Plan, named after the four sponsoring elementary school principals. The committee also approved two alternate plans and prior to May 4, 1972, presented all three to the Board. These three plans, together with the West-Anderson plan not recommended by the committee, were formally presented to the Board at its meeting held on May 4, 1972.

Due to various objections raised by members of the Board in the ensuing discussion at that meeting, the superintendent decided to develop his own plan. On May 16, 1972, just two days prior to the Board meeting scheduled for final adoption of a desegregation plan, the superintendent announced, in an article appearing in the Santa Barbara New Press, that he proposed recommending a new desegregation plan at that meeting. The next day the same newspaper contained a longer article describing the general outlines of the so-called 'Administration Plan.' That night the plan was discussed at a meeting of the Education and Integration Study Committee. However, there was no time for study or review prior to the Board meeting the following night.

At its meeting on the next night-May 18, 1972-the Board discussed the three plans recommended by the committee, the West-Anderson Plan and the Administration Plan. The last named plan was presented orally because it had not yet been reduced to writing. Despite two petitions signed by 3,000 people requesting a postponement for further study, the Administration Plan was adopted by the Board as orally presented. On June 8, 1972, the plan was summarized in writing and submitted to the State Department of Education for approval.

On June 9, 1972, C. Raymond Mullin and Howard G. Larson, on behalf of themselves and of all other voters, parents and taxpayers similarly situated, commenced the instant action seeking: (1) a writ of mandate to compel a special election of the Board and (2) declaratory ***321** and injunctive relief to prevent the implementation of the allegedly unlawful and inadequate desegregation plan. The complaint contained three causes of action: The first two which we discuss separately (see Part II, Infra) concerned the validity of the election and composition of the Board; the third cause of action alleged that the adoption of the Administration Plan by the Board was: (1) invalid for failure to give notice as required by the Education Code and (2) an abuse of discretion, in that the Board hurriedly adopted an inadequately studied plan which failed to desegregate all the elementary schools, despite the closing of two elementary schools altogether and the changing of the kindergarten to grade six pattern in two other schools.

*****643 **611** Following an eight-day trial, the court filed a memorandum of intended decision. In respect to the third count[FN1] which attacked the validity of the Administration Plan, the court declared its intention to enjoin implementation of the plan. It rested this contemplated action on two bases. First, the court concluded that the Board had no jurisdiction to close the schools since it had failed to include notice of the proposed closure of two schools in its published agenda as required by section 966 of the Education Code. The court determined that the closure of the schools was such an integral part of the Administration Plan that the whole plan must fall. Secondly, the court concluded that the Board abused its discretion by adopting the Administration Plan requiring the closure of two schools since such closure was not reasonably necessary to the effective desegregation of the elementary schools.

> FN1. The memorandum of intended decision also included a proposed decision on the first two causes of action as well, which is discussed in Part II of this opinion.

Before findings of fact and conclusions of law, based on the court's memorandum of intended decision were filed, defendants presented to this court a petition invoking our original jurisdiction and seeking a writ of prohibition restraining the trial court from entering judgment in accord with the memorandum of intended decision. We issued an alternative writ of prohibition.[FN2] On August 28, 1972, plaintiffs petitioned this court to modify the alternative writ so as to omit any stay of the trial court's proposed order enjoining implementation of the plan. Since in issuing the alternative writ, we had determined that the

petition had made a prima facie showing that the proposed action of the trial court ***322** was in excess of its jurisdiction and therefore that its proposed enjoining of the Administration Plan must be prohibited pending our final determination of the issue, we denied the petition for modification.

> FN2. As prayed for in the petition, the alternative writ of prohibition was limited in effect to the intended decision on the third cause of action. The trial court thereafter entered judgment on the first two causes of action and defendants appealed. We ordered such appeal transferred from the Court of Appeal to this court so that we could consider it simultaneously with the writ proceeding.

Subsequently an additional factor was injected into the resolution of the above proceeding with the adoption by the electorate at the general election held on November 7, 1972, of the initiative measure denominated Proposition 21. Section 1 of that proposition added to the Education Code section 1009.6 providing: 'No public school student shall, because of his race, creed, or color, be assigned to or be required to attend a particular school.'Sections 2 and 3 of Proposition 21 repealed sections 5002 and 5003[FN3] respectively of the Education Code, which had declared the *****644 **612** state policy of eliminating racial imbalance in California schools and had delineated the various factors to be considered in implementing this policy. Section 4 of Proposition 21, repealed the administrative guidelines toward achieving racial balance in the schools adopted by the State Board of Education. (ss 14020 & 14021 of tit. 5 of the Cal.Admin.Code.)

> FN3.Section 5002 provides: 'It is the declared policy of the Legislature that persons or agencies responsible for the establishment of school attendance centers or the assignment of pupils thereto shall prevent and eliminate racial and ethnic imbalance in pupil enrollment. The prevention and elimination of such imbalance shall be given high priority in all decisions relating to school sites, school attendance areas, and school attendance practices.'
>
> Section 5003 provides: '(a) In carrying out the policy of Section 5002, consideration shall be given to the following factors:
>
> '(1) A comparison of the numbers and percentages of pupils of each racial and ethnic group in the district with their numbers and percentages in each school and each grade.
>
> '(2) A comparison of the numbers and percentages of pupils of each racial and ethnic group in certain schools with those in other schools in adjacent areas of the district.
>
> '(3) Trends and rates of population change among racial and ethnic groups within the total district, in each school, and in each grade.
>
> '(4) The effects on the racial and ethnic composition of each school and each grade of alternate plans for selecting or enlarging school sites, or for establishing or altering school attendance areas and school attendance practices.
>
> '(b) The governing board of each school district shall periodically, at such time and in such form as the Department of Education shall prescribe, submit statistics sufficient to enable a determination to be made of the numbers and percentages of the various racial and ethnic groups in every public school under the jurisdiction of each such governing board.
>
> '(c) For purposes of Section 5002 and this section, a racial or ethnic imbalance is indicated in a school if the percentage of pupils of one or more racial or ethnic groups differs significantly from the district-wide percentage.
>
> '(d) A district shall study and consider plans which would result in alternative pupil distributions which would remedy such an imbalance upon a finding by the Department of Education that the percentage of pupils of one or more racial or ethnic groups in a school differs significantly from the district-wide percentage. A district undertaking such

a study may consider among feasibility factors the following:

'(1) Traditional factors used in site selection, boundary determination, and school organization by grade level.

'(2) The factors mentioned in subdivision (a) of this section.

'(3) The high priority established in Section 5002.

'(4) The effect of such alternative plans on the educational programs in that district. 'In considering such alternative plans the district shall analyze the total educational impact of such plans on the pupils of the district. Reports of such a district study and resulting plans of action, with schedules for implementation, shall be submitted to the Department of Education, for its acceptance or rejection, at such time and in such form as the department shall prescribe. The department shall determine the adequacy of alternative district plans and implementation schedules and shall report its findings as to the adequacy of alternative district plans and implementation schedules to the State Board of Education. A summary report of the findings of the department pursuant to this section shall be submitted to the Legislature each year.

'(e) The State Board of Education shall adopt rules and regulations to carry out the intent of Section 5002 and this section.'

***323** Since the Administration Plan was adopted by the Board pursuant to and in furtherance of the repealed code sections, and since the plan involved the assignment of various ethnic minority students to certain schools in order to create a racial balance among the elementary schools in the district, Proposition 21, if valid, would provide an independent basis to support the trial court's intended invalidation of the Administration Plan. This court has, therefore, allowed various amici curiae to file briefs directed to the question of the validity and constitutionality of Proposition 21.

[1] In 1970 the Legislature had added to the Education Code, [FN4] section 1009.5 which provided: 'No governing board of a school district shall require any student or pupil to be transported for any purpose or for any reason without the written permission of the parent or guardian.'This court in San Francisco Unified School Dist. v. Johnson (1971) 3 Cal.3d 937, 92 Cal.Rptr. 309, 479 P.2d 669 observed that this section was reasonably susceptible of two interpretations: 'The ambiguity of section 1009.5 inheres in the phrase 'require any student or pupil to be transported.'(Fn. omitted.) (Emphasis added.) One may 'require' a student to be transported by punishing a refusal or by physically forcing him onto a school bus; in a second sense, one may 'require' a student to be transported by Assigning him to a school beyond walking distance of his home.'(Id. at p. 945, 92 Cal.Rptr. at p. 313, 479 P.2d at p. 673.)We reasoned that if the section were construed to prohibit assignment of pupils to a school beyond a reasonable walking distance from the pupil's home it would be unconstitutional. Applying the doctrine that where possible a statute will be construed in a manner that would uphold its constitutionality,*****645 **613** we accordingly held that 'section 1009.5 does no more than prohibit a school district from compelling ***324** students, without parental consent, to use means of transportation furnished by the district.'(Id. at p. 961, 92 Cal.Rptr. at p. 324, 479 P.2d at p. 784.)

FN4. Hereafter, unless otherwise indicated, all section references are to the Education Code.

Shortly after our decision in Johnson, the Legislature passed the Bagley Act adding sections 5002 and 5003 (see fn. 3, Ante) which directed school districts to 'eliminate racial and ethnic imbalance in pupil enrollment' and specified certain factors to be considered in developing plans to achieve racial balance. The proponents of Proposition 21 in their published argument in support of the proposition characterized the Bagley Act as a 'forced integration measure . . . which could only be accomplished through forced busing . . . without regard to neighborhood schools or parental consent.'They asserted opposition to 'mandatory busing for the sole purpose of achieving forced integration' and to 'reassign(ing) pupils from their neighborhood schools to achieve racial and ethnic balance.'Proposition 21 purported to eliminate

this evil by repealing the Bagley Act (ss 5002 and 5003), as well as the complementary administrative regulations, and by adding section 1009.6 which would prohibit forced integration and mandatory busing by denying the school district's power to assign pupils to schools on the basis of race.

Defendants and various amici curiae urge that Proposition 21 is unconstitutional in its entirety, both insofar as it added section 1009.6 and as it repealed sections 5002 and 5003 along with the administrative guidelines.

[2][3] We declared in Johnson that section 1009.5, if construed to bar assignment of pupils to a school beyond reasonable walking distance 'would be unconstitutional if applied to districts manifesting racial segregation, whether de jure or de facto in character.'(San Francisco Unified School Dist. v. Johnson, Supra, 3 Cal.3d at p. 954, 92 Cal.Rptr. at p. 319, 479 P.2d at p. 679.)Section 1009.6 which bars the assignment of pupils on the basis of race is unconstitutional in the same manner and for the same reasons set forth by us in Johnson.We deem it unnecessary to repeat here at length or rationale in that case; our opinion speaks for itself. We merely outline here its essentials, and underscore our conclusions with reference to subsequent United States Supreme Court cases.

First: We emphasized in Johnson that 'Often the most effective program, and at times the only program, which will eliminate segregated schools requires pupil reassignment and busing. . . . Since the U.S. Supreme Court has held that under the Constitution school boards in De jure segregated districts are 'clearly charged with the affirmative duty to ***325** take whatever steps might be necessary' to eliminate segregation 'root and branch,' a statute which would proscribe a principal, and in some cases essential and exclusive step to achieve that end, must obviously violate constitutional requirements.'(San Francisco Unified School Dist. v. Johnson, Supra, 3 Cal.3d 937, 955, 92 Cal.Rptr. 309, 320, 479 P.2d 669, 680.)(Italics added.)

Approximately three months after we expressed these views in Johnson in dealing with section 1009.5, the United States Supreme Court in Board of Education v. Swann (1971) 402 U.S. 43, 91 S.Ct. 1284, 28 L.Ed.2d 586 struck down a statute virtually identical with section 1009.6[FN5] (added to the code in 1972 by Proposition 21) with an unmistakably clear and forceful expression of the same constitutional mandate. 'Just as the race of students must be considered in determining whether a constitutional*****646 **614** violation has occurred, so also must race be considered in formulating a remedy. To forbid . . . all assignments made on the basis of race would deprive school authorities of the one tool absolutely essential to fulfillment of their constitutional obligation to eliminate dual school systems. ( ) Similarly, the flat prohibition against assignment of students for the purpose of creating a racial balance must inevitably conflict with the duty of school authorities to disestablish dual school systems. . . . ( ) We likewise conclude that an absolute prohibition against transportation of students assigned on the basis of race, 'or for the purpose of creating a balance or ratio,' will similarly hamper the ability of local authorities to effectively remedy constitutional violations.'(Id. at p. 46, 91 S.Ct. at p. 1286.)

> FN5.North Carolina General Statutes section 115-176.1 (Supp.1969) provides in relevant part: 'No student shall be assigned or compelled to attend any school on account of race, creed, color or national origin, or for the purpose of creating a balance or ratio of race, religion or national origins. Involuntary bussing of students in contravention of this article is prohibited . . ..'

Second: We further held in Johnson that section 1009.5 was unconstitutional as applied to school districts manifesting de facto as well as de jure racial segregation. Citing a number of decisions of lower federal courts (3 Cal.3d at p. 956, fns. 21-23, 92 Cal.Rptr. 309, 479 P.2d 669), we observed that they had not drawn a clear distinction between de facto and de jure segregation and that some of them had defined de facto segregation as 'that resulting from residential patterns in a nonracially motivated neighborhood school system.'(Id. at p. 956, 92 Cal.Rptr. at p. 321, 479 P.2d at p. 681, fn. omitted; citing inter alia, Keyes v. School Dist. No. 1, Denver, Colorado (D.Colo.1970) 313 F.Supp. 61, 73-75; Swann v. Charlotte-Mecklenburg Board of Education (4th Cir. 1970) 431 F.2d 138, 141; 3 Cal.3d at p. 956, fns. 21 and 22, 92 Cal.Rptr. 309, 479 P.2d 669.)We noted the necessary ***326** influence of school board decisions on the racial composition of

residential areas.

Canvassing these federal precedents we concluded: 'Thus under the current pattern of court decisions, neither school districts nor lower courts can determine with any confidence whether a pattern of school segregation should be classed as de facto or de jure. Consequently, if we held section 1009.5 unconstitutional only as applied to destricts of de jure segregation, no school board in California . . . could ascertain whether section 1009.5 could constitutionally apply within its district. Such a holding would, therefore, entail uncertain enforcement of section 1009.5, a confusion which would inhibit and delay school boards in their efforts to bring about full equality of equcational opportunity. The Green decision (Green v. County School Board of New Kent County (1968) 391 U.S. 430, 88 S.Ct. 1689, 20 L.Ed.2d 716) calls for desegregation now; a statute which imports confusion and delay in the uprooting of de jure segregation violates both the rule prohibiting partial enforcement of legislation, when such enforcement entails the danger of vague future application, and the mandate of the Supreme Court of the United States.'(San Francisco Unified School Dist. v. Johnson, Supra, 3 Cal.3d at p. 957, 92 Cal.Rptr. at p. 321, 479 P.2d at p. 681.)

This reasoning has been substantially buttressed by the recent decision of the United States Supreme Court in Keyes v. School District, No. 1, Denver, Colo. (1973) 413 U.S. 189, 93 S.Ct. 2686, 37 L.Ed.2d 548.In Keyes the high court defined de jure segregation as 'current condition of segregation resulting from intentional state action.'(Id. at p. 205, 93 S.Ct. at p. 2696.)As potentially probative of an intentional segregative action on the part of school boards, the court referred to 'policies and practices with respect to schoolsite location, school size, school renovations and additions, student-attendance zones, student assignment and transfer options, mobile classroom units, transportation of students, assignment of faculty and staff, etc.' (Id. at pp. 213-214, 93 S.Ct. at p. 2700.)

The high court further emphasized that segregatory intent on the part of the school board is not limited to actions in the immediate present. 'We reject any suggestion that remoteness in time has any relevance to the issue of intent. If the actions of school authorities were to any degree ***647 **615 motivated by segregative intent and the segregation resulting from those actions continues to exist, the fact of remoteness in time certainly does not make those actions any less 'intentional." (Id. at p. 210, 93 S.Ct. at p. 2699.)We read this to mean that a school board therefore can ascertain *327 whether the segregation present in its district is de jure or de facto only by examining the full history of acts by the school authorities and determining if, at any time in that course of action, some acts were undertaken with segregatory intent. We think it is clear that no school board or lower court can ascertain with any degree of confidence whether section 1009.6 can constitutionally apply in its district and we further believe that therefore a determination by this court that section 1009.6 can apply to districts manifesting de facto segregation would involve uncertain enforcement and improperly delay elimination of de jure segregation.

The Supreme Court has continuously reiterated its commitment to eliminating de jure racial segregation and its unwillingness to accept any limitation upon procedures necessary to the resolute and thorough accomplishment of that task. To allow school authorities to rest content in the assumption that the pattern of segregation in their district is de facto and therefore to claim that section 1009.6 prohibits them from eliminating that segregation by pupil assignment on the basis of race implemented through busing, would impermissibly impede the constitutionally mandated task of rooting out de jure segregation.'(I)f a state-imposed limitation on a school authority's discretion operates to inhibit or obstruct the operation of a unitary school system or impede the disestablishing of a dual school system, it must fall; state policy must give way when it operates to hinder vindication of federal constitutional guarantees.'(Board of Education v. Swann, Supra, 402 U.S. at p. 45, 91 S.Ct. at p. 1286.)

The high court has also recognized the discouraging fact of the 'dilatory tactics of many school authorities'; the 'failure of local authorities to meet their constitutional obligations (has) aggravated the massive problem of converting from the state-enforced discrimination of racially separate school(s).' (Swann v. Board of Education (1971) 402 U.S. 1, 14, 91 S.Ct. 1267, 1275, 28 L.Ed.2d 554.)In view of this history, it is all too clear to us that the elimination of de jure segregation would be seriously impeded if school authorities could claim a legal disability to

assign or bus pupils merely by asserting that the segregation in their district was de facto in origin.

Consistently with our earlier holding in Johnson and indeed under the compulsion of the decision of the United States Supreme Court in Swann and Keyes which confirm our views in Johnson, we hold, as ***328** indeed we must, that section 1009.6 as applied to school districts manifesting either de jure or de facto segregation is unconstitutional.

We proceed to consider a related issue. It will be recalled that Proposition 21 not only added section 1009.6 but also repealed sections 5002 and 5003 as well as certain administrative guidelines. (See fn. 3, Ante.)Various amici curiae urge that the repealing provisions of Proposition 21 (i.e., ss 2, 3 and 4) are also unconstitutional, on two grounds: (1) the repeal of these sections significantly encourages and involves the state in racial discrimination and (2) even if constitutional in themselves, the repealing provisions are tainted by the unconstitutional portion of Proposition 21 and cannot be severed from it.

On the first point amici argue that our holding in Mulkey v. Reitman (1966) 64 Cal.2d 529, 50 Cal.Rptr. 881, 413 P.2d 825 compels the conclusion that the repealing provisions are themselves unconstitutional. In Mulkey we held unconstitutional as violative of the equal protection clause of the Fourteenth Amendment of the United States Constitution, Article I, section 26 of the California Constitution, an initiative measure appearing as Proposition 14 on the statewide ballot in the general *****648 **616** election of 1964 and adopted by the electorate. That proposition nullified state statutes aimed at eliminating racial discrimination in housing and barred the state from legislating in the future so as to limit the right of private discrimination in the sale or leasing of property. We there focused on the distinction between racial discrimination resulting from state action and that resulting from the private acts of individuals, framing the issue before us thusly: 'The only real question . . . is whether the discrimination results solely from the claimed private action or instead results at least in part from state action which is sufficiently involved to bring the matter within the proscription of the Fourteenth Amendment.'(Mulkey v. Reitman, Supra, 64 Cal.2d at p. 536, 50 Cal.Rptr. at p. 886, 413 P.2d at p. 831.)Finding the requisite state action, we concluded: 'Here the state has affirmatively acted to change its existing laws from a situation wherein the discrimination practiced was legally restricted to one wherein it is encouraged . . .. Certainly the act of which complaint is made is as much, if not more, the legislative action which authorized private discrimination as it is the final, private act of discrimination itself. . . . When the electorate assumes to exercise the lawmaking function, then the electorate is as much a state agency as any of its elected officials.'(Id. at p. 542, 50 Cal.Rptr. at 890, 413 P.2d at p. 834.)Amici contend that the repealing portions of Proposition 21 (i.e., ss 2, 3 and 4) similarly were intended to, and will result in, preserving racial discrimination and ***329** segregation, in this instance in the school systems, and thus that the very passage of Proposition 21 involves the state in racial discrimination.

[4] However, Mulkey is actually of no assistance to the amici's argument. The mere fact that the initiative measures in both instances-Proposition 14 in Mulkey and Proposition 21 in the case at bench-represent state action proves nothing, since in the instant case, the state, Independent of the passage of Proposition 21, is involved in education. Indeed in Mulkey we noted this critical difference: '(I)n Jackson v. Pasadena City School Dist. (59 Cal.2d 876, 31 Cal.Rptr. 606, 382 P.2d 878), the state, because it had undertaken through school districts to provide educational facilities to the youth of the state, was required to do so in a manner which avoided segregation and unreasonable racial imbalance in its schools.'(Mulkey v. Reitman, Supra, 64 Cal.2d at p. 537, 50 Cal.Rptr. at p. 887, 413 P.2d at p. 831.)Proposition 21 by repealing the involvement of the state government in discharging the state's duty not to segregate, neither abrogated the school district's constitutional duty not to segregate nor removed the state from involvement through local school districts in the field of education. There is no problem of state involvement under the Fourteenth Amendment-it is simply a question whether the state involvement shall be solely by the local school districts or shall include involvement by the state government as well.

Amici curiae assert that, prior to the adoption of sections 14020 and 14021 of title 5 of the California Administrative Code and the passage of sections 5002 and 5003, local school districts had been very slow in seeking and achieving racial balance in the school system. As a result of the adoption of these

sections and their enforcement in the courts, there was a significantly increased activity directed toward preventing, reducing and eliminating racial imbalance in the schools. It appears clear, amici argue, that the repeal pursuant to Proposition 21 (see fn. 3, Ante, and accompanying test) of sections 5002 and 5003 will have the effect of retarding, if not reversing, this process of establishing racial balance in the schools of California. Finally, it is urged, the avowed purpose of Proposition 21 was opposition to these sections as a 'forced integration measure . . . which could only be accomplished through forced busing . . . without regard to neighborhood schools or parental consent.'(Ballot Pamphlet, argument in favor of ***649 **617 Proposition 21, as presented to the voters of the State of California, General Election (Nov. 7, 1972).)

[5] In one respect the gist of amici's argument is to ask this court to take judicial notice that local school districts fail to fulfill their constitutional obligation to desegregate, and thus to conclude that the passage of *330 Proposition 21 constituted state involvement in racial discrimination. Even if it were within our province to take such judicial notice, no facts have been presented to us supportive of amici's contention.

[6][7] In another respect, the essence of the argument is to assert that the policy of the Legislature declared in sections 5002 and 5003 is inherently invulnerable to change through an initiative measure. On the contrary, since racial balance determined according to a precise statutory formula is not a constitutional prerequisite but a matter of state policy, the people of California through the initiative process, have the power to declare state policy. The repealing provisions of Proposition 21 can conceivably be interpreted as an expression by the people of this state of their preference for a 'neighborhood school policy.' (See Keyes v. School Dist. No. 1, Denver, Colo., Supra, 413 U.S. at p. 206, 93 S.Ct. 2686.)We deem it unnecessary to the resolution of the issues now before us to determine precisely what was the intention of the electorate in this respect and accordingly intimate no views on the subject. We merely conclude that since a policy in favor of neighborhood schools is a reasonably conceivable one and since such an expression of policy can in no way limit or affect the constitutional obligations of school districts, the repealing provisions found in sections 2, 3 and 4 cannot be struck down as constitutionally impermissible. It may be that our assessment of the people's desires in this respect is erroneous; if so, constitutional processes are available to the people to reinstate what has been repealed.

We turn now to the second point of the argument, namely that the repealing sections of Proposition 21 (i.e., ss 2, 3 and 4) cannot be severed from the unconstitutional portion thereof (i.e., s 1 adding s 1009.6 to the Ed.Code) and therefore the proposition in its entirety must fall as unconstitutional.

The rule on severability is set forth in In re Blaney (1947) 30 Cal.2d 643, 655, 184 P.2d 892, 900:'But if the statute is not severable, then the void part taints the remainder and the whole becomes a nullity. It is also true that in considering the issue of severability, it must be recognized that the general presumption of constitutionality, fortified by the express statement of a severability clause, normally calls for sustaining any valid portion of a statute unconstitutional in part. This is possible and proper where the language of the statute is mechanically severable, that is, where the valid and invalid parts can be separated by paragraph, sentence, clause, phrase, or even single words. (Citations.) On the other hand, where there is no possibility of mechanical severance, as where the *331 language is so broad as to cover subjects within and without the legislative power, and the defect cannot be cured by excising any word or group of words, the problem is quite different and more difficult of solution.'(Italics added.) (In accord: Villa v. Hall (1971) 6 Cal.3d 227, 236, 98 Cal.Rptr. 460, 490 P.2d 1148; Mulkey v. Reitman, Supra, 64 Cal.2d 529, 543-544, 50 Cal.Rptr. 881, 413 P.2d 825; In re Portnoy (1942) 21 Cal.2d 237, 242, 131 P.2d 1; In re Bell (1942) 19 Cal.2d 488, 498, 122 P.2d 22; Bacon Service Corporation v. Huss (1926) 199 Cal. 21, 32-33, 248 P. 235; McCafferty v. Board of Supervisors (1969) 3 Cal.App.3d 190, 193, 83 Cal.Rptr. 229.)

[8] Proposition 21 contained a severability clause.[FN6]The valid repealing portions can easily and accurately be mechanically severed from the invalid portion enacting***650 **618 section 1009.6. 'Although not conclusive, a severability clause normally calls for sustaining the valid part of the enactment, especially when the invalid part is mechanically severable. (Citation.)' (McCafferty v. Board of Supervisors, Supra, 3 Cal.App.3d at p. 193, 83 Cal.Rptr. at p. 231.)Such a clause plus the ability to mechanically

sever the invalid part while normally allowing severability, does not conclusively dictate it. The final determination depends on whether 'the remainder . . . is complete in itself and would have been adopted by the legislative body had the latter foreseen the partial invalidation of the statute' (In re Bell, Supra, 19 Cal.2d 488, 498, 122 P.2d 22, 28) or 'constitutes a completely operative expression of the legislative intent . . . (and) are (not) so connected with the rest of the statute as to be inseparable.'(In re Portnoy, Supra, 21 Cal.2d at p. 242, 131 P.2d at p. 3.)

> FN6.'If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.'

[9][10] Amici curiae merely assert that the various portions of the proposition are clearly inseparable. However, it seems that the valid and invalid portions of the proposition, while submitted within an overall purpose to eliminate forced integration by busing without regard to the desirability of maintaining neighborhood schools, reflect separable methods of achieving this purpose. The repealing provisions (the valid part) would eliminate a commitment to achieving racial balance in the schools, leaving local school districts with sole responsibility and without direction other than constitutional mandate; the enactment of section 1009.6 (the invalid part) went further and forced upon the local school districts the neighborhood school concept without forced busing as the only acceptable policy. Even though this restriction of local school ***332** district discretion is unconstitutional and therefore the full purpose of Proposition 21 cannot be realized, it seems eminently reasonable to suppose that those who favor the proposition would be happy to achieve at least some substantial portion of their purpose, namely to eliminate a state commitment to racial balance in the schools regardless of other considerations, and thereby to allow local control subject only to constitutional restriction. Thus, the repealing provisions are not only mechanically severable in that they are physically separate sections of the proposition, but they are also severable as to purpose and method, of independent validity and not inconsistent with the elimination of the invalid part. We hold the repealing portions of Proposition 21 to be severable. We cannot say that these portions must necessarily fall, because we hold section 1009.6 unconstitutional.[FN7]

> FN7. Amici curiae also urge that a different test should be applied to the severability of portions of an initiative measure than the above described test applied to statutes passed by the Legislature. However, in applying settled rules of severability, we can discern no meaningful distinctions between statutes 'enacted' by the people and statutes enacted by the Legislature. The cases cited by amici curiae (e.g., Bennett v. Drullard (1915) 27 Cal.App. 180, 149 P. 368; Alexander v. Mitchell (1953) 119 Cal.App.2d 816, 260 P.2d 261) involved the question of severability prior to submission to a vote and also tested severability by the degree of integration between the valid and invalid parts. However, integration is determined by the test set forth by us Supra.

We therefore conclude that Proposition 21 does not provide an independent basis for sustaining the trial court's intended injunction of the implementation of the Administration Plan since section 1009.6 added to the Education Code by the proposition bars assignment of public school students by race and is therefore unconstitutional and void under the decisional law of the United States Supreme Court and of this court, regardless of the proposition's effective repeal of other sections of the code.

[11][12][13][14][15] We accordingly proceed to address ourselves to the question whether entry*****651 **619** of judgment by the trial court on the third count in accord with its memorandum of intended decision would be an act in excess of its jurisdiction. As we have already stated, the court intended to enjoin implementation of the Administration Plan on two grounds: (1) that the Board had no jurisdiction to close the Garfield and Jefferson Schools because it had failed to include notice of the proposed closure of these schools in its published agenda as required by section 966; (2) that the Board abused its discretion in adopting the Administration Plan which required the closure of the above two schools, when in fact their closure was not reasonably necessary to effective desegregation.

*333 Section 966 requires a school board to act at meetings open to the public, with certain exceptions relating to personnel and pupil discipline matters, and to post an agenda 48 hours prior to the meeting containing '(a) list of items that will constitute the agenda for all regular meetings.'[FN8] In Carlson v. Paradise Unified Sch. Dist. (1971) 18 Cal.App.3d 196, 95 Cal.Rptr. 650, the court held the provisions of section 966 are mandatory, so that noncompliance therewith by failing to list an item of business on the agenda invalidates the board's action in respect thereto. In Carlson the school board's agenda listed as one item 'Continuation school site change.' The action in fact taken was to move the 'continuation school' to the Canyon View school building, to discontinue elementary education at that school, and to transfer the Canyon View elementary pupils to Ponderosa School. The court held that the agenda listing 'was entirely inadequate notice to a citizenry which may have been concerned over a school Closure . . . was entirely misleading and inadequate to show the whole scope of the board's intended plans.'(Carlson v. Paradise Unified Sch. Dist., Supra, 18 Cal.App.3d at p. 200, 95 Cal.Rptr. at p. 652.)

FN8. Section 966 provides in pertinent part: 'Except as provided in Section 54957 of the Government Code or in Section 967, all meetings of the governing board of any school district shall be open to the public, and all actions . . . shall be taken at such meetings and Shall be subject to the following requirements: . . . (b) A list of items that will constitute the agenda for all regular meetings Shall be posted at a place where parents and teachers may view the same at least 48 hours prior to the time of said regular meeting . . ..' (Italics added.)

In the case at bench, the posted agenda of the meeting of May 18, 1972, contained under the heading 'Desegregation/Integration Plans' Item No. 3a which read as set forth in the margin.[FN9] At the meeting, the Board adopted the Administration Plan, which among other things, closed the Jefferson School and discontinued elementary school education at the Garfield School.

FN9. Item 3a headed 'Desegregation/Integration Plans' read as follows:

'On February 3, 1972 the Board of Education set the following timetable in regard to a Desegregation/Integration Plan for the Elementary District:

'Thursday, May 4, 1972

Presentation of plans to the Board

'Thursday, May 18, 1972

Adoption of a plan by the Board

'September 1972

Implementation of plan as fully as possible

'It is expected that the Board will take action at the meeting.'

The trial court in its memorandum of intended decision concluded: 'There was no possible way (the Administration Plan was not written and was not on file) that the public could discern from the posted agenda that the Board was about to consider the closure of two elementary schools, namely, Jefferson and Garfield, as indispensable ingredients of *334 any desegregation plan. . . . Any possible reference to such matters in a published newspaper article would in no event suffice to cure the deficiency. . . . The Board did not comply with the provisions of Section 966. It therefore lacked jurisdiction to adopt the Administration Plan . . .. The closure of the Jefferson and Garfield elementary***652 **620 schools is essential to this plan, and invalidates the same.'

The Board contends that by listing adoption of a desegregation/integration plan, the posted agenda gave full and adequate notice of a wide range of possible Board actions including possible closure of schools. It is common knowledge that a desegregation/integration plan by its very nature involves a complete reworking of the school system and is likely to involve substantial changes in school attendance patterns, including pupil assignment away from neighborhood schools and busing. Thus, the agenda item gave fair warning to parents of students at any of the elementary schools that the adoption of a plan might result in their children's not attending their neighborhood school, that is Jefferson, Garfield

or any other elementary school, as the case might be. The fact that their children might end up attending a different school due to closure of their current school rather than to pupil assignment or school pairing is of little monent. The critical point is that parents were on notice that the Board at its meeting on May 18, 1972, might act in such a way that their children would no longer be able to attend Jefferson or Garfield schools.

This case is therefore clearly distinguishable from Carlson. There the item 'continuation school site change' would have in no way notified parents of children attending Canyon View Elementary School that their children would be affected by such action and certainly would not have warned them that the school might be closed. It gave fair notice to parents of continuation school students as to impending changes and to people generally concerned about financial expenditures and priorities. However, the item in no way warned Canyon View Elementary School parents that their interests might be vitally affected.

In the case at bench, by contrast, the item concerning the adoption of a 'Desegregation/Integration Plan,' in our view gives clear notice to parents of students attending Jefferson, Garfield or any other elementary school that their interests might be vitally affected. We do not believe that the agenda item must specify the particular means by which the students involved would be sent to different schools, as for example by pupil assignment, busing, pairing of schools or closure of schools. It ***335** seems to us that all such actions are fairly contained within the comprehensive language of the notice.

Indeed, if the agenda had simply indicated the adoption of a 'Desegregation/Integration Plan for the Elementary District,' we would entertain no doubt that it would have given adequate notice. However, item 3a on the agenda referred to the sequence of procedures adopted by the Board for formation of an integration plan throughout the year-'Thursday, May 4, 1972-Presentation of plans to the Board. Thursday, May 18, 1972-Adoption of a plan by the Board.' (See fn. 9, Ante.)Concerned parents and citizens could reasonably infer from this notice that no new plans were to be presented on May 18 but rather that the Board would adopt one of the plans presented on May 4. If they had no objection to any of these plans, they might reasonably assume there was no need for them to attend the May 18 meeting.

However, the Administration Plan, which had Not been presented at the May 4 meeting, differed radically from all the previous plans in many respects, most notably in providing for the closure of the Jefferson and Garfield schools. Parents of Jefferson and Garfield elementary school students had no notice that a plan involving closure of those two schools would be considered on May 18. Consequently we think that the notice by referring to the May 4 presentation of plans was misleading, by indicating that only those plans presented on May 4 would be considered for adoption on May 18. This is substantially confirmed by the very elaborate procedures adopted by the Board and participated*****653 **621** in by the community in order to prepare and screen plans for presentation to the Board on May 4.

Section 966 specifies 48 hours' notice with respect to regular meetings. It is a fair construction of the section that a board cannot change its posted agenda within the 48-hour period next immediately preceding a regular meeting; in other words, if a board wishes to change substantially its agenda within that period, it must postpone a meeting at least 48 hours. Since the Administration Plan had not been presented at the May 4 meeting and since it differed substantially from all the other plans, the Board's decision to consider and act upon it represented a substantial deviation from the posted agenda and therefore required an amendment to the agenda and a postponement of the meeting for such a period of time as to provide no less than 48 hours' notice.

It is true that the Board could have adopted a plan involving the ***336** closure of schools, if it had posted an agenda merely giving general notice of intention to adopt a desegregation/integration plan. However, once the Board posted notice that it would adopt one of the plans theretofore presented at the May 4 meeting, it thereby limited its power to consider any other substantially different plan since otherwise the posted agenda would be fatally misleading. It then became necessary for the Board to amend the posted agenda and reschedule the meeting so as to afford notice for the period of time specified by the statute.

The Board contends that the misleading effect of the notice was cured by newspaper publicity indicating

that a new plan was to be presented at the meeting of May 18. Two newspaper articles appeared explaining some of the details of the new plan. Only one of the two articles was released 48 hours or more before the meeting. Moreover, newspaper publicity cannot replace the proper posting of an agenda. Section 966 requires notice by means of an agenda posted at a specified place. The newspaper article had no official status, its contents had not been checked or authorized by the Board, and there was no guaranty that it would have been read by all persons entitled to notice. On the other hand, under the statute all persons were presumed to know when and where the agenda of a meeting was to be posted and were entitled to rely on the contents of such statutory notice without being required to scour all newspapers and other publications for possible changes.

Accordingly we conclude that the trial court properly determined, albeit for the wrong reason, that the Board had no jurisdiction to consider or approve the Administration Plan due to its noncompliance with section 966. The trial court would therefore not act in excess of its jurisdiction in enjoining the implementation of the Administration Plan, unless and until the plan was adopted by the Board at a meeting preceded by the posting of an accurate and complete agenda as required by section 966.

[16][17] The trial court, however, went further in its memorandum of intended decision and purported to permanently enjoin implementation of the Administration Plan on the ground that its adoption was an abuse of discretion by the Board since the closure of the two schools was not reasonably necessary to accomplish desegregation.[FN10]The major premise in the trial court's reasoning-that in desegregating a school *337 system, a school board is limited in the exercise of its powers to those acts reasonably necessary to effectuating desegregation-is utterly without support. The trial court concedes, as indeed it must, that the Board has power to close schools and convert them to other uses. It is, of course true that the Board is not free to exercise this power arbitrarily, but must ***654 **622 act reasonably and in accordance with established procedure. '(A) court may not substitute its judgment for that of the administrative board (citation) and if reasonable minds may disagree as to the wisdom of the board's action, its determination must be upheld.'(Manjares v. Newton (1966) 64 Cal.2d 365, 371, 49 Cal.Rptr. 805, 809, 411 P.2d 901, 905.)We have not found, nor have we been referred to, any authority supportive of the proposition that once a school board undertakes a desegregation/integration plan, its otherwise independent power to close schools becomes limited to closing only those schools which must reasonably be closed in order to accomplish desegregation. Acceptance of such a proposition would blind school boards to the full realities of the world about them, as for example, by directing in effect that they are powerless to close unsafe schools because desegregation might be effectuated without such closure.

> FN10. Plaintiffs also contend that the Board abused its discretion in adopting the Administration Plan because the plan does not meet the requirements of section 5003. Since we have held the repeal of this section valid, this argument must fail.

[18] Indeed the case at bench presents exactly this situation. On August 12, 1971, the Board received a report that the Jefferson school was structurally unsafe within the requirements of section 15503.[FN11]The report recommended that a structural engineer be retained to determine whether the school should be repaired or abandoned, since if it cannot be repaired, it must be abandoned pursuant to section 15516.[FN12]On May 15, 1972, three days before the final meeting of the Board, the superintendent received a report concerning the rehabilitation or replacement costs of the Jefferson school. The report found that it would cost $621,800 to make the existing structure safe and $655,000 to build an entirely new building. Accordingly, in fashioning the Administration Plan, the superintendent made provision therein for closing the Jefferson school. The Board would certainly be properly exercising its discretion in a reasonable manner were it to approve abandoning this building in view * of the extreme cost. The determination of the questions whether a new school was needed to replace this structure or whether existing facilities could handle the Jefferson school students due to an expected drop in elementary enrollment, was properly within the Board's discretion. We do not think that the Board in exercising this discretion was perforce limited to determining the reasonable necessity of replacing the building and thus automatically precluded from determining the necessity of assigning students in order to achieve desegregation.

FN11. Section 15503, added in 1959 as part of the Field Act, requires all school buildings, not constructed pursuant to the Field Act, to be examined by January 1, 1970, in order to determine whether the building is safe for school use according to the standards set forth in the Field Act (s 15451 et seq.). If a school building is found to be unsafe, the governing board of that school district must prepare an estimate of the cost necessary to make the building safe.

FN12. Section 15516 provides: 'No school building examined and found to be unsafe for school use pursuant to Section 15503 and not repaired or reconstructed in accordance with the provisions of this article shall be used as a school building for elementary and secondary school or community college purposes after June 30, 1975.'

[19] In 1969 the Board adopted a master plan to guide the development of the school district. Item 6 of that plan provided: 'As soon as funds become available in the Elementary District to provide housing at expanded schools elsewhere, that Garfield School be closed and converted to a Special Education Center to provide for certain parts . . . of the Special Education program.'The superintendent incorporated this provision into his Administration Plan. Absent proof that there were no school facilities to absorb these students or no need for a special education center,[FN13] the Board, in the reasonable exercise of its discretion, could lawfully take this action. The mere fact that this action was part of a desegregation plan did not automatically strip the Board of its otherwise***655 **623 subsisting authority to act in this area, so that the establishment of an education center was contingent upon it being reasonably necessary to accomplish desegregation.

FN13. School boards have the authority to provide special education programs and facilities. (ss 6500-6742, 6750-6946.)

[20] Since the trial court proposed to so limit the discretion of the Board, it would be substituting its judgment for that of the school board and therefore acting in excess of its jurisdiction. A writ of prohibition is the appropriate remedy where a threatened judgment of the trial court will be in excess of its jurisdiction. (City & County of S.F. v. Superior Court (1959) 53 Cal.2d 236, 243, 1 Cal.Rptr. 158, 347 P.2d 294; 5 Witkin, Cal. Procedure (2d ed. 1971) Extraordinary Writs, ss 36, 39, pp. 3810-3811, 3813.)

As to the instant writ proceeding (L.A. 30054) which is confined to plaintiffs' third cause of action below, we arrive at these final conclusions: (1) That section 1009.6 being unconstitutional and void does not bar the Board's Administration Plan for desegregation; (2) that the Board's power to close schools exists independently of its constitutional obligation to desegregate and is not contingent upon such closure being *339 reasonably necessary to effectuate desegregation; (3) that the posted agenda was defective insofar as it related to the closure of the two elementary schools because of the Board's failure to comply with section 966 and that, since said proposed action for closure was an inseparable part of the Administration Plan, the adoption of the plan as a whole was invalid because of such noncompliance; and (4) that in respect to the third count the trial court will not act in excess of its jurisdiction by enjoining the implementation of the Administration Plan upon the basis heretofore set forth by us, namely, for the failure of the Board to comply with section 966 but that in all other respects the intended action of the trial court as set forth in its memorandum of intended decision is in excess of the court's jurisdiction. Nothing herein, of course, shall prevent, or be deemed to prevent, the Board from adopting the Administration Plan at a new meeting held upon proper notice and in compliance with all other legal requirements.

It follows that in L.A. 30054, petitioners (defendants below) are not entitled to a peremptory writ of prohibition restraining respondent court from enjoining the implementation of the Administration Plan for failure of the Board to comply with section 966 but are entitled to such writ restraining the court's intended action in all other respects. (See Brown v. Superior Court (1949) 34 Cal.2d 559, 566, 212 P.2d 878; see 5 Witkin, Cal.Procedure (2d ed. 1971) p. 3933.) The writ shall issue accordingly.

II

[21][22][23] We now turn our attention to the appeal before us. (See fn. 2, Ante.)This is from a judgment entered on the first two causes of action which were

not stayed by our alternative writ of prohibition. The central issue here confronting us is whether the Board may lawfully be the common governing Board of both the Santa Barbara (elementary) School District and the Santa Barbara High School District despite the fact that such districts are not coterminous.

We deem it necessary to set forth the facts in some detail. The original Santa Barbara School District, which was organized sometime in the 1870's comprised all the public schools within the city limits and conducted classes from kindergarten through high school, under the leadership of the school trustees. The initial charter for the City of Santa Barbara, adopted February 20, 1899, created a school department, consisting of all the public schools in the school district, governed by a ***340** five-man board of education. The charter specified the duties and powers of the board of education in great detail and provided that the board succeeded to all the property and rights of the former school trustees.

In 1902 this single geographical school district was divided functionally into two separate districts: the elementary school***656 **624** district (known as the Santa Barbara School District) and the high school district (known as the Santa Barbara High School District), comprising both junior and senior high schools. The two districts were coterminous; their boundaries were the city limits. The single board of education remained responsible for the governing of all the public schools in the school districts, since the charter was not amended following this functional division into two school districts. Upon the adoption of new charters in 1918 and again in 1927, former provisions dealing with the board of education were revised and simplified by replacing the detailed enumeration of the board's duties and powers with an incorporation of provisions set forth in the general laws of the state. Despite these revisions, nevertheless, the new charters retained a Single board of education invested with control over all schools in that city.[FN14]

> FN14. Section 83 of the Charter of the City of Santa Barbara adopted in 1927 provided: 'The Board of Education shall consist of five members. . . .'
>
> Section 84 provided: 'The Board of Education shall have the entire control and management of the public schools in the city of Santa Barbara in accordance with the constitution and general laws of the state and said board is hereby vested with all the powers and charged with all the duties of such control and management.'
>
> Section 55 and 56 of the charter adopted in 1918 contained virtually identical provisions.

Indeed the 1927 charter specified a single board of education even though the two school districts were no longer coterminous themselves or with the city. From 1902 to 1930 while the elementary school districts remained virtually constant in size, incorporating only minor portions of adjacent unincorporated territory, the high school district annexed large portions of adjacent territory and far outstripped the elementary school district in size. By 1930 the pattern of annexations was complete. The high school district was comprised of the original high school district (i.e., coterminous with the city limits and the elementary school district) plus the geographical area of four additional elementary school districts, Montecito Union School District, Cold Springs School District, Hope School District and Goleta Union School District. These four elementary school districts were annexed solely for the purpose of becoming part of the Santa Barbara High School District. They continued to function as ***341** wholly independent elementary school districts governed by their own elementary school board.

Despite these changes in the composition and size of the elementary and high school districts no change was made in the charter. That instrument continued to direct, as it did upon its adoption in 1927 that there be a single board of education having the entire control and management of all the public schools. In 1939, section 83 of the charter (see fn. 14, Ante) was amended to provide that the members of the board should serve staggered six-year terms.

No further changes were made in the charter provisions concerning the board of education until a new charter was adopted in 1967. The new charter retained the provision for a single elective board of education, directed that its adoption should not affect boundaries of existing school districts and generally provided that all other requirements should be 'as

now or hereafter prescribed by the Education Code.[FN15] Despite the changes in language ***657 **625 the new charter provisions continued essentially the same educational scheme. The changes appear to correspond with those introduced into the Education Code in 1963, since section 900 of the charter tracks the language of section 1223 of the code.[FN16] Thus, in short the charter directs that there shall be an elective board of education and leaves other requirements to those found in the code.

FN15. Article IX of the charter headed, Board of Education, provides: 'Section 900. State Law Governs. The manner in which, the times at which, and the terms for which the members of the Board of Education shall be elected or appointed, their qualifications, compensation and removal and the number which shall constitute such board shall be as now or hereafter prescribed by the Education Code of the State of California.

'Section 901. Effect of Charter on District. The adoption of this Charter shall not have the effect of creating any new school district nor shall the adoption of this Charter have any effect upon the existence or boundaries of any present school district within the City or of which the City comprises a part.'

FN16. Section 1223 of the Education Code provides: 'Except as provided in Section 1222, whenever the charter of any city fails to provide for the manner in which, the times at which, or the terms for which the members of the city board of education shall be elected or appointed, for their qualifications, removal, or for the number which shall constitute such board, the provisions of this division shall apply to the matter not provided for.'

Section 1224 provides that the members of the board of education shall be elected at large from the territory within the boundaries of the school district or districts under the jurisdiction of the board of education, that for election purposes such territory shall include outside territory annexed to the city for school purposes, and that all qualified electors residing within the full territory shall be eligible to vote for, and *342 to be a member of, the board of education.[FN17] Therefore all qualified electors residing within the high school district, which is geographically coterminous with the five elementary school districts (Montecito, Cold Springs, Hope and school district plus the four annexed districts (Montecito, Cold Springs, Hope and Goleta)-are entitled to vote for the city board of education. At the time of trial, there were 80,203 registered voters residing within the high school district, of whom 38,174 or 47.6 percent resided within the Santa Barbara elementary school district and 42,029 or 52.4 percent resided within the four annexed elementary school districts.

FN17. Section 1224 provides: 'The members of any elective city board of education shall be elected at large from the territory within the boundaries of the school district or districts which are under the jurisdiction of the city board of education, whether sitting as a board of education, high school board, or community college board, and any qualified elector of the territory shall be eligible to be a member of such city board of education.

'When outside territory has been annexed to a city for school purposes it shall be deemed a part of the city for the purpose of holding the general municipal election, and shall form one or more election precincts, as may be determined by the legislative authority of the city. The qualified electors of the annexed territory shall vote only for the board of education or the board of school trustees.'

The four annexed elementary school districts continued to be governed by four separate elementary school boards elected separately by qualified electors residing within each elementary school district. The Santa Barbara elementary school district, however, did not have its own separate elementary school board. Instead, by virtue of the charter provisions and section 1222 of the Education Code incorporated in the charter (see fn. 15, Ante), the Santa Barbara elementary school district was governed by the city board of education.[FN18] Thus, an elector residing within one of the four annexed districts, for example Montecito, would be entitled to cast two votes-one to elect members to the Montecito Elementary School Board from the residents within that district and one to elect members to the city board of education. An

elector residing within the Santa Barbara elementary school district would be entitled to cast only one vote-that one being to elect the city board of education.

> FN18.Section 1222 provides: 'Whenever the charter of a city comprising in whole or in part an elementary school district, fails to provide for the manner in which, the times at which, and the terms for which the members of the board of education of such city are appointed, and for the number which shall constitute such board, The governing board of the elementary school district within which the city is located or with which the city is coterminous Is the board of education of the city.'(Italics added.)

As mentioned earlier, plaintiffs in their first two causes of action challenge the validity of the law permitting the city board ***658 **626 of education to govern both the high school and the elementary school districts, despite the fact that the two districts are not coterminous. The first cause of *343 action alleged that this system unconstitutionally diluted the vote of each registered voter and taxpayer within the elementary school district by over 100 percent by virtue of the votes cast by that portion of the electorate who live outside the Santa Barbara elementary school district. The second cause of action alleged that this system violated the requirements of section 924 that the governing board of an elementary school district shall consist of members elected at large from the territory comprising the elementary school district.

Following trial by the court on these two causes of action, the court made findings of fact, substantially as recited above and concluded in essence that the above voting scheme was unconstitutional as being violative of the equal protection clause of the Fourteenth Amendment to the United States Constitution. We set forth in pertinent part in the margin the court's detailed conclusions.[FN19]

> FN19.'4. Insofar as the Board governs the affairs of the Elementary School District the scheme which permits the votes of 38,174 resident electors to be counted equally with the votes of the 42,029 non-resident electors, who are in no way concerned with the government of the Elementary District, constitutes a clear denial, dilution and debasement of the vote of the resident electors of the Elementary District and a deprivation of their constitutional right to the equal protection of the law.
>
> '. . .th
>
> '7. The present dual function of the School Board governing a large high school district and much smaller elementary school district does not serve any governmental purpose, but is rather the result of unplanned, irregular annexations to the High School District.
>
> '. . .Dis
>
> '9. The fact in this case that voters who reside outside the boundaries of the Elementary School District, who exceed in number those who reside within the district, are given the right to vote for the School Board which formulates policy for the district, even though they are in no way subject to such policy and do not contribute any tax support thereto, is contrary to the principle that the government is to be chosen by the governed.
>
> '10. The equal voting strength principle, which underlies the 'one person, one vote' doctrine, applies in this case to the electoral scheme currently employed in the election of members to the governing board of the Santa Barbara Elementary School District. That principle is violated because the votes of qualified resident electors in the plaintiffs' class are being wrongfully denied, debased and diluted by the votes of non-qualified, non-resident electors in the Elementary District election.
>
> '11. There is no State interest sufficiently compelling to justify the voting scheme described herein. That scheme is unconstitutional. It violates the Equal Protection Clause of the Fourteenth Amendment to the Constitution of the United States.

'. . .her

'14. To interpret Section 1224 of the Education Code to sanction the election of a common governing board for two districts whose boundaries are not coterminous, by electing the members of such board at large from the territory of the larger district, which encompasses all of the area of the smaller district plus added territory of the larger district, is to unconstitutionally apply the statute.

'15. Section 1224 of the Education Code must be interpreted to grant common governing powers to an elective city board of education over two or more districts under its jurisdiction only in cases where the boundaries of the governed districts are coterminous. In a case such as here presented, where the boundaries of the districts are not coterminous, Section 1224 may not be so interpreted to grant multiple jurisdiction to such a single elective board.'

***344** By way of remedy the court concluded that the Santa Barbara elementary school district must be governed by an independent board of resident electors of the Santa Barbara elementary school district elected at large from the territory within the elementary school district; that the present city board of education should be allowed to continue as the governing board of the high school district; that a new board consisting of five members and governing only the elementary school district should be elected on April 17, 1973, by resident electors within the Santa Barbara elementary school district and take office on July 1, 1973; that the three members with the highest vote should serve until June 30, *****659 **627** 1977, and the remaining two members should serve until June 30, 1975, each member of the board thereafter serving a four-year term. Judgment granting a peremptory writ of mandate was entered accordingly. This appeal by defendants followed.[FN20]

FN20. See fn. 2, Ante, where the procedural history of this appeal as related to the disposition of the third cause of action is explained.

We begin by epitomizing the respective positions of the parties on the appeal. Plaintiffs contend that the method of electing members of the Santa Barbara Board of Education is invalid under the state and federal Constitutions as violative of the 'one man, one vote' principle because the votes of Qualified, resident electors in the elementary school district are debased and diluted by the votes of Non-qualified, non-resident electors in the elementary district election. Plaintiffs argue that there should be, and the trial court properly ordered, a separate board of education to govern the elementary school district. Defendants, on the other hand, contend that the present method of electing members of the Board complies with applicable state law, that it does not violate the 'one man, one vote' rule, and that the trial court's ruling on this issue is in error. As we explain, Infra, we conclude that there is no constitutional right to a separate, elected elementary board of education, that there is no constitutional infirmity in designating the city board of education, elected from the full territory within its jurisdiction, to govern the lesser, wholly included elementary school district and that the 'one man, one vote' principle has no relevancy to this case.

The city board of education is elected. Each qualified elector residing within the high school district, the largest geographical area within the ***345** jurisdiction of the board of education, is eligible to become a member of the board and is entitled to vote in the election. The members are elected at large. Each vote counts equally and is weighted equally. Each qualified elector is governed by the board, subject to the policy adopted by the board, and liable for tax to support the board. It is clear and undeniable that the city board of education is elected in full compliance with the 'one man, one vote' principle.

Indeed, as they must, plaintiffs concede the election of the city board of education is valid. However, plaintiffs claim that the election of the city board of education is also an election of the governing board of the Santa Barbara elementary school district and that the Latter election violates the 'one man, one vote' principle because the votes of non-resident electors dilute the votes of the electors residing in the Santa Barbara elementary school district. There is no basis in law or fact to support this claim. There is a single city board of education which is elected in a single election by qualified resident electors. This single city board of education, by virtue of section 1222, (see fn. 18, Ante) is the governing board of the

Santa Barbara elementary school district.[FN21] The city board of education, which is elected in accordance with section 1224 (see fn. 17 Ante) is designated by the Legislature in section 1222 to govern the Santa Barbara elementary school district.

FN21. See text accompanying fns. 15 and 16, Ante.

Thus, it is abundantly clear that the election of the city board of education is a single election of a single board. The real claim advanced by plaintiffs is that they, the resident voters, taxpayers and parents within the Santa Barbara elementary school district are entitled to be governed by an independent school board, comprised of members who reside within the district and elected solely by voters who reside in the district. The United States Supreme Court has held to the contrary. In Sailors v. Board of Education (1966) 387 U.S. 105, 108, 110-111, 87 S.Ct. 1549, 1553, 18 L.Ed.2d 650, the high court held that there is no constitutional right to elect members of boards of education: 'We find no constitutional***660 **628** reason why state or local officers of the nonlegislative character involved here may not be chosen by the governor, by the legislature, or by some other appointive means rather than by an election. . . . ( ) Viable local governments may need many innovations, numerous combinations of old and new devices, great flexibility in municipal arrangements to meet changing urban conditions. We see nothing in the Constitution to prevent experimentation. At least as respects nonlegislative*346 officers, a State can appoint local officials or elect them or combine the elective and appointive system as was done here. . . . For while there was an election here for the local school board, no constitutional complaint is raised respecting that election. Since the choice of members of the county school board did not involve an election and since none was required for these nonlegislative officers, the principle of 'one man, one vote' has no relevancy.'

The principles announced in Sailors were recently applied in California in O'Keefe v. Atascadero County Sanitation Dist. (1971) 21 Cal.App.3d 719, 98 Cal.Rptr. 878, to a factual situation so closely analogous to the facts in this case that we regard that case as highly persuasive authority. In O'Keefe the residents of the Atascadero sanitation district, which was located in San Luis Obispo County, challenged the procedure by which the directors of the sanitation district were selected. The county is divided into five districts for the purpose of electing the board of supervisors. The sanitation district was located wholly within the boundaries of one of the five supervisorial districts. The population within the sanitation district was approximately 10 percent of the county population. By virtue of state law, the directors of the sanitation district were the board of supervisors. Since the residents of the sanitation district lived wholly within one supervisorial district, they were able to vote for only one director, while the other nonresident voters elected the other four directors of the sanitation district. The sanitation district residents claimed that their votes were diluted and debased by the votes of electors who resided outside the sanitation district but within the county.

The court concluded, however, that the directors of the sanitation district were not elected but designated by the Legislature and that the election of a board of supervisors was a single election of a single board. 'The board of directors of a county sanitation district is not elected. Rather, the members of such board are designated in Health and Safety Code s 4730. The composition of the board is determined by the location of the district in relation to other political subdivisions within the county. . . .[FN4] ( ) Since the

FN4.'Health and Safety Code section 4730: The governing body of a sanitation district is a board of directors of not less than three members. . . . If the district includes no territory which is in cities or sanitary districts, then the county board of supervisors is the board of directors of the district.'

board of directors is not chosen by election, the 'one man, one vote' principle is not applicable . . .. Appellant argues that the principle nevertheless is applicable under the facts alleged, *347 because the county board of supervisors is elected (fn. omitted) and the members of the board of directors of the Sanitation District are 'in effect elected once removed.' . . . ( ) Under section 4730 the members of the board of directors of a sanitation district are chosen by the legislature, a method expressly sanctioned in Sailors.' (O'Keefe v. Atascadero County Sanitation Dist., Supra, 21 Cal.App.3d at pp. 724-726, 98 Cal.Rptr. at p. 883.)

As in O'Keefe, the members of the governing board of the Santa Barbara elementary school district are designated by the Legislature. The Legislature in section 1222 (see fn. 21, Ante, and accompanying text) designates the city board of education to be the governing board of the Santa Barbara elementary school district. ***661 **629** This is an entirely proper procedure under Sailors. The fact that the city board of education is elected does not somehow constitute an election 'once removed' of the governing board of the Santa Barbara elementary school district just as the election of the county board of supervisors did not constitute an election 'once removed' of the directors of the sanitation district in O'Keefe.

We discern no constitutional infirmity in a system whereby the Legislature designates an elected city board of education to govern a lesser included elementary school district. We hold therefore that the present method of electing members of the Santa Barbara Board of Education is not violative of either the United States Constitution or the California Constitution and is in all respects valid under applicable state law.[FN22]

> FN22. The second cause of action claiming that the system whereby the city board of education is designated to serve as the governing board of the Santa Barbara elementary school district violated the provisions of section 924 has apparently been abandoned, since the trial court made no mention of it and since it has not been urged on appeal. Moreover, section 1222 rather than section 924 controls where a charter city with a city board of education is involved.

In L.A. 30054 let a peremptory writ of prohibition issue in accordance with the views herein expressed.

In L.A. 30086 the judgment is reversed and the cause is remanded to the trial court with direction to enter judgment in favor of defendants on the first and second stated causes of action set forth in plaintiffs' complaint.

***348** Petitioners shall recover costs in L.A. 30054 and defendants shall recover costs in L.A. 30086.

WRIGHT, C.J., and McCOMB, TOBRINER, MOSK, CLARK and BURKE,[FN*] JJ., concur.
