(3) Upon becoming aware of the failure of the subcontractor to pay his or her workers the specified prevailing rate of wages, the contractor shall diligently take corrective action to halt or rectify the failure, including, but not limited to, retaining sufficient funds due the subcontractor for work performed on the public works project.

(4) Prior to making final payment to the subcontractor for work performed on the public works project, the contractor shall obtain an affidavit signed under penalty of perjury from the subcontractor that the subcontractor has paid the specified general prevailing rate of per diem wages to his or her employees on the public works project and any amounts due pursuant to Section 1813.

(c) The Division of Labor Standards Enforcement shall notify the contractor on a public works project within 15 days of the receipt by the Division of Labor Standards Enforcement of a complaint of the failure of a subcontractor on that public works project to pay workers the general prevailing rate of per diem wages. If the Division of Labor Standards Enforcement determines that employees of a subcontractor were not paid the general prevailing rate of per diem wages and if the body awarding the contract under which the employees performed work did not retain sufficient money under the contract to pay those employees the balance of wages owed under the general prevailing rate of per diem wages, the contractor shall withhold an amount of moneys due the subcontractor sufficient to pay those employees the general prevailing rate of per diem wages if requested by the Division of Labor Standards Enforcement. The contractor shall pay any money retained from and owed to a subcontractor upon receipt of notification by the Division of Labor Standards Enforcement that the wage complaint has been resolved. If notice of the resolution of the wage complaint has not been received by the contractor within 180 days of the filing of a valid notice of completion or acceptance of the public works project, whichever occurs later, the contractor shall pay all moneys retained from the subcontractor to the awarding body. The moneys shall be retained by the awarding body pending the final decision of an enforcement action, and be forwarded to the Labor Commissioner for disbursement pursuant to subdivision (d) if the subcontractor does not prevail in the action. Wages for workers who cannot be located after a diligent search by the Labor Commissioner shall be deposited in the Industrial Relations Unpaid Wage Fund pursuant to subdivision (c) of Section 96.7. Penalties shall be paid into the General Fund.

If the subcontractor prevails in the enforcement action, the awarding body shall release any funds retained pursuant to this subdivision to the contractor within 10 working days from the date of the final decision of the court.

(d) To the extent that there is insufficient money due a contractor to cover all penalties and amounts due in accordance with this section or Section 1813, and in all cases where the contract does not provide for a money payment by the awarding body to the contractor, the awarding body shall notify the Division of Labor Standards Enforcement of the violation and the division, if necessary with the assistance of the awarding body, may maintain an action in any court of competent jurisdiction to recover the penalties and the amounts due provided in this section. This action shall be commenced not later than 180 days after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 180 days after acceptance of the public work, whichever last occurs. No issue other than that of the liability of the contractor and subcontractor for the penalties allegedly forfeited and amounts due shall be determined in the action, and the burden shall be upon the contractor and subcontractor to establish that the penalties and amounts demanded in the action are not due. The contractor and subcontractor shall be jointly and severally liable in an enforcement action for any wages due. Following entry of a judgment for joint and several liability, the division shall first exhaust all reasonable remedies to collect the amount due from the subcontractor before pursuing the claim for wages against the contractor. From the amount collected from the subcontractor, the wage claim shall be satisfied prior to the amount being applied to penalties.

Out of any money withheld, recovered, or both, there shall first be paid the amount due each worker, and if insufficient funds are withheld, recovered, or both, to pay each worker in full, the money shall be prorated among all workers.

(e) This section shall remain in effect only until January 1, 2003, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2003, deletes or extends that date.

(1937 ch. 90, 1957 ch. 397, 1963 ch. 467, 1978 ch. 1249, 1989 ch. 1224, 1992 ch. 1342, 1997 ch. 757)

Compliance: All contracts that are governed by Sections 1775, 1776, and 1813 of the Labor Code shall comply with the provisions of Chapter 1 (commencing with Section 1720 of Part of Division 2 of the Labor Code that are applicable to contracts for public works projects. (1997 ch 757)

[Section 1775 operative January 1. 2003; see also Section 1775 set out above]

§ 1775. Payment Less Than Stipulated Rate—Penalty

The contractor shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by him or her or by any subcontractor under him or her. The amount of this penalty shall be determined by the Labor Commissioner and shall be based on consideration of the contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the contractor in meeting his or her prevailing wage obligations, or a contractor's willful failure to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages is not excusable if the contractor had knowledge of his or her obligations under this part. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the contractor, and the body awarding the contract shall cause to be inserted in the contract a stipulation that this section will be complied with.

To the extent that there is insufficient money due a contractor to cover all penalties and amounts due in accordance with this section, or in accordance with Section 1813, and in all cases where the contract does not provide for a money payment by the awarding body to the contractor, the awarding body shall notify the

Division of Labor Standards Enforcement of the violation and the Division of Labor Standards Enforcement, if necessary with the assistance of the awarding body, may maintain an action in any court of competent jurisdiction to recover the penalties and the amounts due provided in this section. This action shall be commenced not later than 90 days after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 90 days after acceptance of the public work, whichever last occurs. No issue other than that of the liability of the contractor for the penalties allegedly forfeited and amounts due shall be determined in the action, and the burden shall be upon the contractor to establish that the penalties and amounts demanded in the action are not due.

Out of any money withheld, recovered, or both, there shall first be paid the amount due each worker, and if insufficient funds are withheld, recovered, or both, to pay each worker in full, the money shall be prorated among all workers.

This section shall become operative on January 1, 2003.

(1937 ch. 90, 1957 ch. 397, 1963 ch. 467, 1978 ch. 1249, 1989 ch. 1224, 1992 ch. 1342, 1997 ch. 757)

[Section 1776 effective until January 1, 2003; see also Section 1776 set out below]

§ 1776. Payroll Records Required

(a) Each contractor and subcontractor shall keep accurate payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work. Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury, stating both of the following:

(1) The information contained in the payroll record is true and correct.

(2) The employer has complied with the requirements of Sections 1771, 1811, and 1815 for any work performed by his or her employees on the public works project.

(b) The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor on the following basis:

(1) A certified copy of an employee's payroll record shall be made available for inspection or furnished to the employee or his or her authorized representative on request.

(2) A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.

(3) A certified copy of all payroll records enumerated in subdivision (a) shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the body awarding the contract, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. If the requested payroll records have not been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through which the request was made. The public shall not be given access to the records at the principal office of the contractor.

(c) The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the division.

(d) A contractor or subcontractor shall file a certified copy of the records enumerated in subdivision (a) with the entity that requested the records within 10 days after receipt of a written request.

(e) Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement shall be marked or obliterated in a manner so as to prevent disclosure of an individual's name, address, and social security number. The name and address of the contractor awarded the contract or the subcontractor performing the contract shall not be marked or obliterated.

(f) The contractor shall inform the body awarding the contract of the location of the records enumerated under subdivision (a), including the street address, city and county, and shall, within five working days, provide a notice of a change of location and address.

(g) The contractor or subcontractor shall have 10 days in which to comply subsequent to receipt of a written notice requesting the records enumerated in subdivision (a). In the event that the contractor or subcontractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from progress payments then due. A contractor is not subject to a penalty assessment pursuant to this section due to the failure of a subcontractor to comply with this section.

(h) The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section.

(i) The director shall adopt rules consistent with the California Public Records Act, (Chapter 3.5 (commencing with Section 6250), Division 7, Title 1, Government Code) and the Information Practices Act of 1977, (Title 1.8 (commencing with Section 1798), Part 4, Division 3, Civil Code) governing the release of these records,

including the establishment of reasonable fees to be charged for reproducing copies of records required by this section.

(j) This section shall remain in effect only until January 1, 2003, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2003, deletes or extends that date.

(1978 ch. 1249, 1983 ch. 681, 1992 ch. 1342, 1993 ch. 589, 1997 ch. 757)

Compliance: All contracts that are governed by Sections 1775, 1776, and 1813 of the Labor Code shall comply with the provisions of Chapter 1 (commencing with Section 1720 of Part of Division 2 of the Labor Code that are applicable to contracts for public works projects. (1997 ch. 757)

Former section 1776: Enacted 1937 and repealed 1978 ch. 1249.

[Section 1776 effective January 1, 2003; see also Section 1776 set out above]

§ 1776. Payroll Records Required

(a) Each contractor and subcontractor shall keep an accurate payroll record, showing the name, address, social security number, work classification, and straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work.

(b) The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor on the following basis:

(1) A certified copy of an employee's payroll record shall be made available for inspection or furnished to the employee or his or her authorized representative on request.

(2) A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.

(3) A certified copy of all payroll records enumerated in subdivision (a) shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the body awarding the contract, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. If the requested payroll records have not been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through which the request was made. The public shall not be given access to the records at the principal office of the contractor.

(c) The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the division.

(d) Each contractor shall file a certified copy of the records enumerated in subdivision (a) with the entity that requested the records within 10 days after receipt of a written request.

(e) Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement, shall be marked or obliterated in a manner so as to prevent disclosure of an individual's name, address, and social security number. The name and address of the contractor awarded the contract or performing the contract shall not be marked or obliterated.

(f) The contractor shall inform the body awarding the contract of the location of the records enumerated under subdivision (a), including the street address, city and county, and shall, within five working days, provide a notice of a change of location and address.

(g) The contractor shall have 10 days in which to comply subsequent to receipt of written notice specifying in what respects the contractor must comply with this section. In the event that the contractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from progress payments then due.

(h) The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. These stipulations shall fix the responsibility for compliance with this section on the prime contractor.

(i) The director shall adopt rules consistent with the California Public Records Act, (Chapter 3.5 (commencing with Section 6250), Division 7, Title 1, Government Code) and the Information Practices Act of 1977, (Title 1.8 (commencing with Section 1798), Part 4, Division 3, Civil Code) governing the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section.

(j) This section shall become operative January 1, 2003.

(1978 ch. 1249, 1983 ch. 681, 1992 ch. 1342, 1993 ch. 589, 1997 ch. 757, 1998 ch. 485 oper. Jan. 1, 2003)

§ 1777. Violation—Misdemeanor

Any officer, agent, or representative of the State or of any political subdivision who wilfully violates any provision of this article, and any contractor, or subcontractor, or agent or representative thereof, doing public work who neglects to comply with any provision of Section 1776 is guilty of a misdemeanor.

(1937 ch. 90)

§ 1777.1. Violation of Chapter with Intent to Defraud—Ineligibility to Bid on Contract

(a) Whenever a contractor or subcontractor performing a public works project pursuant to this chapter is found by the Labor Commissioner to be in violation of this chapter with intent to defraud, except Section 1777.5, the contractor or subcontractor or a firm, corporation, partnership, or association in which the contractor or subcontractor has a substantial interest shall be ineligible for a period of not less than one year or more than three years to do either of the following:

(1) Bid on or be awarded a contract for a public works project.

(2) Perform work as a subcontractor on a public works project.

(b) Whenever a contractor or subcontractor performing a public works project pursuant to this chapter is found by the Labor Commissioner to be in willful violation of this chapter, except Section 1777.5, the contractor or subcontractor or a firm, corporation, partnership, or association in which the contractor or subcontractor has a substantial interest shall be ineligible for a period up to three years for each second and subsequent violation occurring within three years of a separate and previous willful violation of this chapter to do either of the following:

(1) Bid on or be awarded a contract for a public works project.

(2) Perform work as a subcontractor on a public works project.

(c) A willful violation occurs when the contractor or subcontractor knew or reasonably should have known of his or her obligations under the public works law and deliberately fails or refuses to comply with its provisions.

Not less than semiannually, the Labor Commissioner shall publish and distribute to awarding bodies a list of contractors who are ineligible to bid on or be awarded a public works contract, or to perform work as a subcontractor on a public works project pursuant to this chapter. The list shall contain the name of the contractor, the Contractor's State License Board license number of the contractor, and the effective period of debarment of the contractor.

(d) The Labor Commissioner shall adopt rules and regulations for the administration and enforcement of this section, the definition of terms, and appropriate penalties.

(1989 ch. 1224, 1998 ch. 443)

§ 1777.5. Apprentices—Employment upon Public Works

Nothing in this chapter shall prevent the employment of properly registered apprentices upon public works.

Every apprentice shall be paid the standard wage paid to apprentices under the regulations of the craft or trade at which he or she is employed, and shall be employed only at the work of the craft or trade to which he or she is registered.

Only apprentices, as defined in Section 3077, who are in training under apprenticeship standards and written apprentice agreements under Chapter 4 (commencing with Section 3070) of Division 3 are eligible to be employed on public works. The employment and training of each apprentice shall be in accordance with the apprenticeship standards and apprentice agreements under which he or she is training.

When the contractor to whom the contract is awarded by the state or any political subdivision, or any subcontractor under him or her, in performing any of the work under the contract or subcontract, employs workers in any apprenticeable craft or trade, the contractor and subcontractor shall apply to the joint apprenticeship committee administering the apprenticeship standards of the craft or trade in the area of the site of the public work for a certificate approving the contractor or subcontractor under the apprenticeship standards for the employment and training of apprentices in the area or industry affected. However, approval as established by the joint apprenticeship committee or committees shall be subject to the approval of the Administrator of Apprenticeship. The joint apprenticeship committee or committees, subsequent to approving the subject contractor or subcontractor, shall arrange for the dispatch of apprentices to the contractor or subcontractor in order to comply with this section. Every contractor and subcontractor shall submit contract award information to the applicable joint apprenticeship committee that includes an estimate of journeyman hours to be performed under the contract, the number of apprentices to be employed, and the approximate dates the apprentices will be employed. There is an affirmative duty upon the joint apprenticeship committee or committees administering the apprenticeship standards of the craft or trade in the area of the site of the public work to ensure equal employment and affirmative action in apprenticeship for women and minorities. Contractors or subcontractors shall not be required to submit individual applications for approval to local joint apprenticeship committees provided they are already covered by the local apprenticeship standards. The ratio of work performed by apprentices to journeymen who shall be employed in the craft or trade on the public work may be the ratio stipulated in the apprenticeship standards under which the joint apprenticeship committee operates, but, except as otherwise provided in this section, in no case shall the ratio be less than one hour of apprentices work for every five hours of labor performed by a journeyman. However, the minimum ratio for the land surveyor classification shall not be less than one apprentice for each five journeymen.

Any ratio shall apply during any day or portion of a day when any journeyman, or the higher standard stipulated by the joint apprenticeship committee, is employed at the job site and shall be computed on the basis of the hours worked during the day by journeymen so employed, except for the land surveyor classification. The contractor shall employ apprentices for the number of hours computed as above before the end of the contract. However, the contractor shall endeavor, to

the greatest extent possible, to employ apprentices during the same time period that the journeymen in the same craft or trade are employed at the job site. Where an hourly apprenticeship ratio is not feasible for a particular craft or trade, the Division of Apprenticeship Standards, upon application of a joint apprenticeship committee, may order a minimum ratio of not less than one apprentice for each five journeymen in a craft or trade classification.

The contractor or subcontractor, if he or she is covered by this section, upon the issuance of the approval certificate, or if he or she has been previously approved in the craft or trade, shall employ the number of apprentices or the ratio of apprentices to journeymen stipulated in the apprenticeship standards. Upon proper showing by the contractor that he or she employs apprentices in the craft or trade in the state on all of his or her contracts on an annual average of not less than one hour of apprentice work for every five hours of labor performed by a journeyman or, in the land surveyor classification, one apprentice for each five journeymen, the Division of Apprenticeship Standards may grant a certificate exempting the contractor from the 1-to-5 hourly ratio as set forth in this section. This section does not apply to contracts of general contractors or to contracts of specialty contractors not bidding for work through a general or prime contractor, when the contracts of general contractors or those specialty contractors involve less than thirty thousand dollars ($30,000) or 20 working days. Any work performed by a journeyman in excess of eight hours per day or 40 hours per week shall not be used to calculate the hourly ratio required by this section.

"Apprenticeable craft or trade," as used in this section, means a craft or trade determined as an apprenticeable occupation in accordance with rules and regulations prescribed by the California Apprenticeship Council. The joint apprenticeship committee has the discretion to grant a certificate, which shall be subject to the approval of the Administrator of Apprenticeship, exempting a contractor from the 1-to-5 ratio set forth in this section when it finds that any one of the following conditions is met:

(a) Unemployment for the previous three-month period in the area exceeds an average of 15 percent.

(b) The number of apprentices in training in the area exceeds a ratio of 1 to 5.

(c) There is a showing that the apprenticeable craft or trade is replacing at least one-thirtieth of its journeymen annually through apprenticeship training, either on a statewide basis or on a local basis.

(d) Assignment of an apprentice to any work performed under a public works contract would create a condition that would jeopardize his or her life or the life, safety, or property of fellow employees or the public at large or if the specific task to which the apprentice is to be assigned is of such a nature that training cannot be provided by a journeyman.

When exemptions are granted to an organization that represents contractors in a specific trade from the 1-to-5 ratio on a local or statewide basis, the member contractors will not be required to submit individual applications for approval to local joint apprenticeship committees, if they are already covered by the local apprenticeship standards.

A contractor to whom the contract is awarded, or any subcontractor under him or her, who, in performing any of the work under the contract, employs journeymen or apprentices in any apprenticeable craft or trade and who is not contributing to a fund or funds to administer and conduct the apprenticeship program in any craft or trade in the area of the site of the public work, to which fund or funds other contractors in the area of the site of the public work are contributing, shall contribute to the fund or funds in each craft or trade in which he or she employs journeymen or apprentices on the public work in the same amount or upon the same basis and in the same manner as the other contractors do, but, where the trust fund administrators are unable to accept the funds, contractors not signatory to the trust agreement shall pay a like amount to the California Apprenticeship Council. The contractor or subcontractor may add the amount of the contributions in computing his or her bid for the contract. The Division of Labor Standards Enforcement is authorized to enforce the payment of the contributions to the fund or funds as set forth in Section 227.

The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. The stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.

All decisions of the joint apprenticeship committee under this section are subject to Section 3081.

(1937 ch. 872, 1939 ch. 971, 1957 ch. 699, 1968 ch. 1411, 1969 ch. 1260 urgency eff. Aug. 31, 1969, 1972 chs. 1087, 1399, 1974 ch. 965, 1976 chs. 538, 1179, 1989 ch. 1224, 1997 ch. 17)

§ 1777.6. Employment Discrimination—Unlawful

It shall be unlawful for an employer or a labor union to refuse to accept otherwise qualified employees as registered apprentices on any public works, on the ground of the race, religious creed, color, national origin, ancestry, sex, or age, except as provided in Section 3077, of such employee.

(1951 ch. 1192, 1965 ch. 283, 1971 ch. 280, 1976 ch. 1179 urgency eff. Sept. 22, 1976)

§ 1777.7. Noncompliance with Law Governing Apprenticeship

(a) In the event a contractor or subcontractor willfully fails to comply with Section 1777.5, the Director of Industrial Relations shall deny to the contractor or subcontractor, both individually and in the name of the business entity under which the contractor or subcontractor is doing business, the right to bid on, or to receive, any public works contract for a period of up to one year for the first violation and for a period of up to three years for the second and subsequent violations. Each period of debarment shall run from the date the determination of noncompliance by the Administrator

of Apprenticeship becomes an order of the California Apprenticeship Council.

(b) A contractor or subcontractor who violates Section 1777.5 shall forfeit as a civil penalty the sum of fifty dollars ($50) for each calendar day of noncompliance. Notwithstanding Section 1727, upon receipt of a determination that a civil penalty has been imposed, the awarding body shall withhold the amount of the civil penalty from contract progress payments then due or to become due.

(c) In lieu of the penalty provided for in subdivision (a) or (b), the director may for a first time violation and with the concurrence of the joint apprenticeship committee, order the contractor or subcontractor to provide apprentice employment equivalent to the work hours that would have been provided for apprentices during the period of noncompliance.

(d) Any funds withheld by the awarding body pursuant to this section shall be deposited in the General Fund if the awarding body is a state entity, or in the equivalent fund of an awarding body if the awarding body is an entity other than the state.

(e) The interpretation and enforcement of Section 1777.5 and this section shall be in accordance with the rules and procedures of the California Apprenticeship Council.

(1989 ch. 1224)

Former section 1777.7: Enacted 1976 and repealed 1989 ch. 1224.

§ 1777.8. Enacted 1990. Repealed 1991 ch. 640.

§ 1778. Illegal Taking of Wages—Felony

Every person, who individually or as a representative of an awarding or public body or officer, or as a contractor or subcontractor doing public work, or agent or officer thereof, who takes, receives, or conspires with another to take or receive, for his own use or the use of any other person any portion of the wages of any workman or working subcontractor, in connection with services rendered upon any public work is guilty of a felony.

(1937 ch. 90)

§ 1779. Fees for Employment Registration, Information—Misdemeanor

Any person or agent or officer thereof who charges, collects, or attempts to charge or collect, directly or indirectly, a fee or valuable consideration for registering any person for public work, or for giving information as to where such employment may be procured, or for placing, assisting in placing, or attempting to place, any person in public work, whether the person is to work directly for the State, or any political subdivision or for a contractor or subcontractor doing public work is guilty of a misdemeanor.

(1937 ch. 90)

§ 1780. Fees for Filling Work Orders—Misdemeanor

Any person acting on behalf of the State or any political subdivision, or any contractor or subcontractor or agent or representative thereof, doing any public work who places any order for the employment of a workman on public work where the filling of the order for employment involves the charging of a fee, or the receiving of a valuable consideration from any applicant for employment is guilty of a misdemeanor.

(1937 ch. 90)

§ 1781. Enacted 1937. Repealed 1957 ch. 396.

Article 3

Working Hours

§ 1810. Legal Day's Work—Eight Hours

Eight hours labor constitutes a legal day's work in all cases where the same is performed under the authority of any law of this State, or under the direction, or control, or by the authority of any officer of this State acting in his official capacity, or under the direction, or control or by the authority of any municipal corporation, or of any officer thereof. A stipulation to that effect shall be made a part of all contracts to which the State or any municipal corporation therein is a party.

(1937 ch. 90)

§ 1811. Time of Service

The time of service of any workman employed upon public work is limited and restricted to 8 hours during any one calendar day, and 40 hours during any one calendar week, except as hereinafter provided for under Section 1815.

(1937 ch. 90, 1961 ch. 238, 1963 ch. 964)

§ 1812. Records of Working Hours—Maintenance

Every contractor and subcontractor shall keep an accurate record showing the name of and actual hours worked each calendar day and each calendar week by each worker employed by him or her in connection with the public work. The record shall be kept open at all reasonable hours to the inspection of the awarding body and to the Division of Labor Standards Enforcement.

(Formerly § 1814, 1937 ch. 90, 1945 ch. 1431, renumbered § 1812, 1961 ch. 238, 1963 ch. 964, 1988 ch. 160)

[Section 1813 effective until January 1, 2003; see also Section 1813 set out below]

§ 1813. Working Hours Violations—Penalty

The contractor shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each workman employed in the execution of the contract by the contractor or by any subcontractor for each calendar day during which the workman is required or permitted to work more than 8 hours in any one calendar day and 40 hours in any one calendar week in violation of the provisions of this article. In awarding any contract for public work, the awarding body shall cause to be inserted therein a stipulation to this effect. The awarding body shall take cognizance of all violations of this article committed in the course of the execution of the contract, and shall report them to the officer of the state or political subdivision who is authorized to pay the contractor money due him or her under the contract.

This section shall remain in effect only until January 1, 2003, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2003, deletes or extends that date.

(Formerly § 1815, 1937 ch. 90, 1957 ch. 399, renumbered § 1813, 1961 ch. 238, 1963 ch. 964, 1997 ch. 757)

Compliance: All contracts that are governed by Sections 1775, 1776, and 1813 of the Labor Code shall comply with the provisions of Chapter 1 (commencing with Section 1720 of Part of Division 2 of the Labor Code that are applicable to contracts for public works projects. (1997 ch. 757)

Former section 1813: Enacted 1937 and repealed 1961 ch. 238.

[Section 1813 effective January 1, 2003; see also Section 1813 set out above]

§ 1813. Working Hours Violations—Penalty

The contractor shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each workman employed in the execution of the contract by the contractor or by any subcontractor for each calendar day during which the workman is required or permitted to work more than 8 hours in any one calendar day and 40 hours in any one calendar week in violation of the provisions of this article. In awarding any contract for public work, the awarding body shall cause to be inserted therein a stipulation to this effect. The awarding body shall take cognizance of all violations of this article committed in the course of the execution of the contract, and shall report them to the officer of the state or political subdivision who is authorized to pay the contractor money due him or her under the contract.

This section shall become operative January 1, 2003.

(Formerly § 1815, 1937 ch. 90, 1957 ch. 399, renumbered § 1813, 1961 ch. 238, 1963 ch. 964, 1997 ch. 757, 1998 ch. 485 oper. Jan. 1, 2003)

§ 1814. Violation—Misdemeanor

Any officer, agent, or representative of the State or any political subdivision who violates any provision of this article and any contractor or subcontractor or agent or representative thereof doing public work who neglects to comply with any provision of Section 1812 is guilty of a misdemeanor.

(Formerly § 1816, 1937 ch. 90, renumbered § 1814, 1961 ch. 238)

§ 1815. Overtime—Compensation

Notwithstanding the provisions of Sections 1810 to 1814, inclusive, of this code, and notwithstanding any stipulation inserted in any contract pursuant to the requirements of said sections, work performed by employees of contractors in excess of 8 hours per day, and 40 hours during any one week, shall be permitted upon public work upon compensation for all hours worked in excess of 8 hours per day at not less than 1 ½ times the basic rate of pay.

(Formerly § 1817, 1941 ch. 759, renumbered § 1815, 1961 ch. 238, 1963 ch. 964)

§ 1816. Renumbered § 1814 and amended 1961 ch. 238.

§ 1817. Renumbered § 1815 and amended 1961 ch. 238.

Article 5

Securing Workers' Compensation

§ 1860. Payment of Workers' Compensation—Required

The awarding body shall cause to be inserted in every public works contract a clause providing that, in accordance with the provisions of Section 3700 of the Labor Code, every contractor will be required to secure the payment of compensation to his employees.

(1965 ch. 1000)

§ 1861. Certificate of Awareness of Compensation Requirements

Each contractor to whom a public works contract is awarded shall sign and file with the awarding body the following certification prior to performing the work of the contract: "I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this contract."

Chapter 2

Public Agencies

Article 1

Municipal Employees

PARKER'S 2002 CALIFORNIA LABOR CODE

§ 1701.16. on by injured person

A person who is injured by any violation of this chapter or by the breach of a contract subject to this chapter may bring an action for recovery of damages or to restrain and enjoin a violation, or both. The amount awarded for damages for a violation of this chapter may be up to three times the damages actually incurred, but not less than the amount paid by the artist to the advance-fee talent service. When an advance-fee talent service refuses or is unwilling to pay damages awarded by a judgment that has become final, the judgment may be satisfied from the bond or deposit maintained by the Labor Commissioner. If the plaintiff prevails in an action under this chapter, the plaintiff shall be awarded reasonable attorney's fees and costs. If the court determines, by clear and convincing evidence, that the breach of contract or violation of this chapter was willful, the court, in its discretion, may award punitive damages in addition to any other amounts.

Added Stats 1999 ch 626 § 1 (AB 884).

§ 1701.17. Exclusivity of provisions

The provisions of this chapter are not exclusive and do not relieve any person subject to this chapter from the duty to comply with all other laws.

Added Stats 1999 ch 626 § 1 (AB 884).

§ 1701.18. Remedies

The remedies provided in this chapter are not exclusive and shall be in addition to any other remedies or procedures provided in any other law.

Added Stats 1999 ch 626 § 1 (AB 884).

§ 1701.19. Waivers

Any waiver by the artist of the provisions of this chapter is deemed contrary to public policy and void and unenforceable. Any attempt by an advance-fee talent service to have an artist waive his or her rights under this chapter is a violation of this chapter.

Added Stats 1999 ch 626 § 1 (AB 884).

§ 1701.20. Severability of provisions

If any provision of this chapter or the application thereof to any person or circumstances is held unconstitutional, the remainder of the chapter and the application of that provision to other persons and circumstances shall not be affected thereby.

Added Stats 1999 ch 626 § 1 (AB 884).

Securing Workers' Compensation

Article 1

Scope and Operation

§ 1720. "Public works"

(a) As used in this chapter, "public works" means:

(1) Construction, alteration, demolition, installation, or repair work done under contract and paid for in whole or in part out of public funds, except work done directly by any public utility company pursuant to order of the Public Utilities Commission or other public authority. For purposes of this paragraph, "construction" includes work performed during the design and preconstruction phases of construction including, but not limited to, inspection and land surveying work.

(2) Work done for irrigation, utility, reclamation, and improvement districts, and other districts of this type. "Public work" shall not include the operation of the irrigation or drainage system of any irrigation or reclamation district, except as used in Section 1778 relating to retaining wages.

(3) Street, sewer, or other improvement work done under the direction and supervision or by the authority of any officer or public body of the state, or of any political subdivision or district thereof, whether the political subdivision or district operates under a freeholder's charter or not.

(4) The laying of carpet done under a building lease-maintenance contract and paid for out of public funds.

(5) The laying of carpet in a public building done under contract and paid for in whole or part out of public funds.

(6) Public transportation demonstration projects authorized pursuant to Section 143 of the Streets and Highways Code.

(b) For purposes of this section, "paid for in whole or in part out of public funds" means the payment of money or the equivalent of money by a state or political subdivision directly to or on behalf of the public works contractor, subcontractor, or developer, performance of construction work by the state or political subdivision in execution of the project, transfer of an asset of value for less than fair market price; fees, costs, rents, insurance or bond premiums, loans, interest rates, or other obligations that would normally be required in the execution of the contract, which are paid, reduced, charged at less than fair market value, waived or forgiven; money to be repaid on a contingent basis; or credits applied against repayment obligations.

(c) Notwithstanding subdivision (b):

(1) Private residential projects built on private property are not subject to the requirements of this chapter if the projects are not built pursuant to an agreement with a state agency, redevelopment agency, or local public housing authority.

(2)(A) If the state or a political subdivision requires a private developer to perform construction, alteration, demolition, installation, or repair work on a public work of improvement as a condition of regulatory approval of an otherwise private development project, and the state or political subdivision contributes no more money, or the equivalent of money, to the overall project than is required to perform this public improvement work, and the state or political subdivision maintains no proprietary interest in the overall project, then only the public improvement work shall thereby become subject to this chapter.

(B) If the state or a political subdivision reimburses a private developer for costs that would normally be borne by the public, or provides directly or indirectly a public subsidy to a private development project that is de minimis in the context of the project, an otherwise private development project shall not thereby become subject to the requirements of this chapter.

(3) The construction or rehabilitation of affordable housing units for low- or moderate-income persons pursuant to paragraph (5) or (7) of subdivision (e) of Section 33334.2 of the Health and Safety Code that are paid for solely with moneys from a Low and Moderate Income Housing Fund established pursuant to Section 33334.3 of the Health and Safety Code or that are paid for by a combination of private funds and funds available pursuant to Section 33334.2 or 33334.3 of the Health and Safety Code does not constitute a project that is paid for in whole or in part out of public funds.

(4) "Paid for in whole or in part out of public funds" shall not include tax credits provided pursuant to Section 17053.49 or 23649 of the Revenue and Taxation Code.

(d) Notwithstanding any provision of this section to the contrary, the following projects shall not, solely by reason of this section, be subject to the requirements of this chapter:

(1) Qualified residential rental projects, as defined by Section 142 (d) of the Internal Revenue Code, financed in whole or in part through the issuance of bonds that receive allocation of a portion of the state ceiling pursuant to Chapter 11.8 of Division 1 (commencing with Section 8369.80) of the Government Code on or before December 31, 2003.

(2) Single-family residential projects financed in whole or in part through the issuance of qualified mortgage revenue bonds or qualified veterans' mortgage bonds, as defined by Section 143 of the Internal Revenue Code, or with mortgage credit certificates under a Qualified Mortgage Credit Certificate Program, as defined by Section 25 of the Internal Revenue Code, that receive allocation of a portion of the state ceiling pursuant to Chapter 11.8 of Division 1 (commencing with Section 8869.80) of the Government Code on or before December 31, 2003.

(3) Low-income housing projects that are allocated federal or state low-income housing tax credits pursuant to Section 42 of the Internal Revenue Code, Chapter 3.6 of Division 31 (commencing with Section 50199.4) of the Health and Safety Code, or Sections 12206, 17058, or 23610.5 of the Revenue and Taxation Code, on or before December 31, 2003.

(e) If a statute, other than this section, or an ordinance or regulation, other than an ordinance or regulation adopted pursuant to this section, applies this chapter to a project, the exclusions set forth in subdivision (d) shall not apply to that project.

(f) For purposes of this section, references to the Internal Revenue Code shall mean the Internal Revenue Code of 1986, as amended, and shall include the corresponding predecessor sections of the Internal Revenue Code of 1954, as amended.

Enacted 1937. Amended Stats 1953 ch 1706 § 1; Stats 1972 ch 717 § 1; Stats 1973 ch 77 § 19; Stats 1989 ch 278 § 1. Amended Stats 2000 ch 881 § 1 (SB 1999); Stats 2001 ch 938 § 2 (SB 975).

§ 1720.2. "Public works" as including construction work done under private contract

For the limited purposes of Article 2 (commencing with Section 1770) of this chapter, "public works" also means any construction work done under private contract when all of the following conditions exist:

(a) The construction contract is between private persons.

(b) The property subject to the construction contract is privately owned, but upon completion of the construction work, more than 50 percent of the assignable square feet of the property is leased to the state or a political subdivision for its use.

(c) Either of the following conditions exist:

(1) The lease agreement between the lessor and the state or political subdivision, as lessee, was entered into prior to the construction contract.

(2) The construction work is performed according to plans, specifications, or criteria furnished by the state or political subdivision, and the lease agreement between the lessor and the state or political subdivision, as lessee, is entered into during, or upon completion of, the construction work.

Added Stats 1974 ch 1027 § 1. Amended Stats 1980 ch 962 § 1.

§ 1720.3. Public works as including hauling of refuse

For the limited purposes of Article 2 (commencing with Section 1770), "public works" also means the hauling of refuse from a public works site to an outside disposal location, with respect to contracts involving any state agency, including the California State University and the University of California, or any political subdivision of the state.

Added Stats 1976 ch 1084 § 1. Amended 1983 Stats ch 143 § 201 (ch 142 prevails), ch 142 § 101. Amended Stats 1999 ch 220 § 1 (AB 3021).

§ 1720.4. Work not included under "public works"

For the limited purposes of this chapter, "public works" shall not include any otherwise covered work which meets all the following conditions:

(a) The work is performed entirely by volunteer labor.

(b) The work involves facilities or structures which are, or will be, used exclusively by, or primarily for or on behalf of, private nonprofit community organizations including, but not limited to, charitable, youth, service, veterans, and sports groups or associations.

(c) The work will not have an adverse impact on employment.

(d) The work is approved by the Director of Industrial Relations as meeting the requirements of this section.

For purposes of subdivision (c), the director shall request information on whether or not the work will have an adverse impact on employment from the appropriate local or state organization of duly authorized employee representatives of workers employed on public works.

Added Stats 1989 ch 1224 § 1.

§ 1721. "Political subdivision"

"Political subdivision" includes any county, city, district, public housing authority, or public agency of the state, and assessment or improvement districts.

Enacted 1937. Amended Stats 1953 ch 1283 § 1; Stats 1985 ch 239 § 1.

§ 1722. "Awarding body" or "body awarding contract"

"Awarding body" or "body awarding the contract" means department, board, authority, officer or agent awarding a contract for public work.

Enacted 1937.

§ 1722.1. "Contractor" and "subcontractor"

For the purposes of this chapter, "contractor" and "subcontractor" include a contractor, subcontractor, licensee, officer, agent, or representative thereof, acting in that capacity, when working on public works pursuant to this article and Article 2 (commencing with Section 1770).

Added Stats 1978 ch 1249 § 1. Amended Stats 1982 ch 454 § 132.

§ 1723. "Worker"

"Worker" includes laborer, worker, or mechanic.

Enacted 1937. Amended Stats 2000 ch 954 § 2 (AB 1646), operative July 1, 2001.

Note—Stats 2000 ch. 954 provides:

SECTION 1. The Legislature declares that its intent in adopting this act is to provide contractors and subcontractors with a prompt administrative hearing in the event that the contractor or subcontractor is alleged by the Labor Commissioner or an awarding body to have violated Labor Code provisions governing the obligations of contractors and subcontractors on public works projects, and to provide that the exclusive method for review of the decision after the administrative hearing is by petition for writ of mandate under Section 1094.5 of the Code of Civil Procedure. It is not the intent of this act to preclude remedies otherwise authorized by law to remedy violations of this chapter.

§ 1724. "Locality in which public work is performed"

"Locality in which public work is performed" means the county in which the public work is done in cases in which the contract is awarded by the State, and means the limits of the political subdivision on whose behalf the contract is awarded in other cases.

Enacted 1937.

§ 1725. "Alien"

"Alien" means any person who is not a born or fully naturalized citizen of the United States.

Enacted 1937.

§ 1726. Co[illegible]ce of violations by body awarding co[illegible]t

The body awarding the contract for public work shall take cognizance of violations of the provisions of this chapter committed in the course of the execution of the contract, and shall promptly report any suspected violations to the Labor Commissioner.

If the awarding body determines as a result of its own investigation that there has been a violation of this chapter and withholds contract payments, the procedures in Section 1771.6 shall be followed.

Enacted 1937. Amended Stats 2000 ch 954 § 3 (AB 1646), operative July 1, 2001.

Note—Stats 2000 ch. 954 provides:

SECTION 1. The Legislature declares that its intent in adopting this act is to provide contractors and subcontractors with a prompt administrative hearing in the event that the contractor or subcontractor is alleged by the Labor Commissioner or an awarding body to have violated Labor Code provisions governing the obligations of contractors and subcontractors on public works projects, and to provide that the exclusive method for review of the decision after the administrative hearing is by petition for writ of mandate under Section 1094.5 of the Code of Civil Procedure. It is not the intent of this act to preclude remedies otherwise authorized by law to remedy violations of this chapter.

§ 1727. Withholding payment of amounts forfeited

(a) Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom all amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner under this chapter. The amounts required to satisfy a civil wage and penalty assessment shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.

(b) If the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a subcontractor's violations, the contractor shall, upon the request of the Labor Commissioner, withhold sufficient money due the subcontractor under the contract to satisfy the assessment and transfer the money to the awarding body. These amounts shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.

Enacted 1937. Amended Stats 1945 ch 1431 § 50; Stats 1992 ch 1342 § 1 (SB 222); Stats 2000 ch 954 § 4 (AB 1646), operative July 1, 2001.

Note—Stats 2000 ch. 954 provides:

SECTION 1. The Legislature declares that its intent in adopting this act is to provide contractors and subcontractors with a prompt administrative hearing in the event that the contractor or subcontractor is alleged by the Labor Commissioner or an awarding body to have violated Labor Code provisions governing the obligations of contractors and subcontractors on public works projects, and to provide that the exclusive method for review of the decision after the administrative hearing is by petition for writ of mandate under Section 1094.5 of the Code of Civil Procedure. It is not the intent of this act to preclude remedies otherwise authorized by law to remedy violations of this chapter.

§ 1728. Acceptance of cash in lieu of amount withheld, retained or forfeited; Release

In cases of contracts with assessment or improvement districts where full payment is made in the form of a single warrant, or other evidence of full payment, after completion and acceptance of the work, the awarding body shall accept from the contractor in cash a sum equal to, and in lieu of, any amount required to be withheld, retained, or forfeited under the provisions of this section, and said awarding body shall then release the final warrant or payment in full.

Enacted 1937.

§ 1729. Withholding sums by contractor from subcontractor; Recovery of penalty from subcontractor

It shall be lawful for any contractor to withhold from any subcontractor under him sufficient sums to cover any penalties withheld from him by the awarding body on account of the subcontractor's failure to comply with the terms of this chapter, and if payment has already been made to the subcontractor the contractor may recover from him the amount of the penalty or forfeiture in a suit at law.

Enacted 1937.

§ 1730. [Section repealed 2001.]

Added Stats 1992 ch 1342 § 3. Repealed Stats 2000 ch 954 § 5 (AB 1646), operative July 1, 2001. The repealed section related to disposition of penalties and forfeitures.

Former Sections:

Former § 1730, similar to the present section, was enacted in 1937 and repealed Stats 1992 ch 1342 § 2.

§ 1731. [Section repealed 2001.]

Enacted 1937. Amended Stats 1992 ch 1342 § 4 (SB 222). Repealed Stats 2000 ch 954 § 6 (AB 1646), operative July 1, 2001. The repealed section related to retention of wages and penalties pending suit against awarding body.

§ 1732. [Section repealed 2001.]

Enacted 1937. Amended Stats 1992 ch 1342 § 5 (SB 222). Repealed Stats 2000 ch 954 § 7 (AB 1646), operative July 1, 2001. The repealed section related to time for action by contractor and assignee to recover penalties.

§ 1733. [Section repealed 2001.]

Enacted 1937. Amended Stats 1957 ch 398 § 1; Stats 1988 ch 160 § 122. Amended Stats 1992 ch 1342 § 6 (SB 222). Repealed Stats 2000 ch 954 § 8 (AB 1646), operative July 1, 2001. The repealed section related to action by contractor or assignee to recover wages and penalties.

§ 1734. Fines or penalties; Transmission to State Treasurer

Any court collecting any fines or penalties under the criminal provisions of this chapter or any of the labor laws pertaining to public works shall as soon as practicable after the receipt thereof deposit same with the county treasurer of the county in which such court is situated. Amounts so deposited shall be paid at least once a month by warrant of the county auditor drawn upon requisition of the judge or clerk of said court, to the State Treasurer for deposit in the General Fund.

Enacted 1937. Amended Stats 1953 ch 523 § 5.

§ 1735. Prohibited employment discrimination

No discrimination shall be made in the employment of persons upon public works because of the race, religious creed, color, national origin, ancestry, physical disability, mental disability, medical condition, marital status, or sex of such persons, except as provided in Section 12940 of the Government Code, and every contractor for public works violating this section is subject to all the penalties imposed for a violation of this chapter.

Added Stats 1939 ch 643 § 1. Amended Stats 1965 ch 283 § 8; Stats 1976 ch 1174 § 1; Stats 1980 ch 992 § 10. Amended Stats 1992 ch 913 § 36 (AB 1077).

§ 1736. Confidentiality of employee reporting violation

During any investigation conducted under this part, the Division of Labor Standards Enforcement shall keep confidential the name of any employee who reports a violation of this chapter and any other information that may identify the employee.

Added Stats 1999 ch 302 § 1 (AB 1395).

§ 1740. Legislative body receiving federal aid; Provision for compliance of bids or contracts with revisions in federal minimum wage schedules

Notwithstanding any other provision of this chapter or any other law of this State, except limitations imposed by the Constitution, the legislative body of a political subdivision which has received or is to receive a loan or grant of funds from the Federal Government or a federal department or agency for public works of that political subdivision, may provide in its call for bids in connection with such public works that all bid specifications and contracts and other procedures in connection with bids or contracts shall be subject to modification to comply with revisions in federal minimum wage schedules without the necessity of republication or duplication of other formal statutory requirements.

Added Stats 1957 ch 1992 § 1.

§ 1741. Violation of chapter

If the Labor Commissioner or his or her designee determines after an investigation that there has been a violation of this chapter, the Labor Commissioner shall with reasonable promptness issue a civil wage and penalty assessment to the contractor or subcontractor or both. The assessment shall be in writing and shall describe the nature of the violation and the amount of wages, penalties, and forfeitures due and shall include the basis for the assessment. The assessment shall be served not later than 180 days after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 180 days after acceptance of the public work, whichever occurs last. However, if the assessment is served after the expiration of this 180-day period, but before the expiration of an additional 180 days, and the awarding body has not yet made full payment to the contractor, the assessment is valid up to the amount of the funds retained. Service of the assessment shall be completed pursuant to Section 1013 of the Code of Civil Procedure by first-class and certified mail to the contractor, subcontractor, and awarding body. The assessment shall advise the contractor and subcontractor of the procedure for obtaining review of the assessment. The Labor Commissioner shall, to the extent practicable, ascertain the identity of any bonding company issuing a bond that secures the payment of wages covered by the assessment and any surety on a bond, and shall serve a copy of the assessment by certified mail to the bonding company or surety at the same time service is made to the contractor, subcontractor, and awarding body. However, no bonding company or surety shall be relieved of its responsibilities because it failed to receive notice from the Labor Commissioner.

Added Stats 2000 ch 954 § 9 (AB 1646), operative July 1, 2001.

§ 1742. (First of two: Operative until January 1, 2005) Review of assessment

(a) An affected contractor or subcontractor may obtain review of a civil wage and penalty assessment under this chapter by transmitting a written request to the office of the Labor Commissioner that appears on the assessment within 60 days after service of the assessment. If no hearing is requested within 60 days after service of the assessment, the assessment shall become final.

(b) Upon receipt of a timely request, a hearing shall be commenced within 90 days before the director, who shall appoint an impartial hearing officer possessing the qualifications of an administrative law judge pursuant to subdivision (b) of Section 11502 of the Government Code. The appointed hearing officer shall be an employee of the department, but shall not be an employee of the Division of Labor Standards Enforcement. The contractor or subcontractor shall be provided an opportunity to review evidence to be utilized by the Labor Commissioner at the hearing within 20 days of the receipt of the written request for a hearing. Any evidence obtained by the Labor Commissioner subsequent to the 20-day cutoff shall be promptly disclosed to the contractor or subcontractor.

The contractor or subcontractor shall have the burden of proving that the basis for the civil wage and penalty assessment is incorrect. The assessment shall be sufficiently detailed to provide fair notice to the contractor or subcontractor of the issues at the hearing.

Within 45 days of the conclusion of the hearing, the director shall issue a written decision affirming, modifying, or dismissing the assessment. The decision of the director shall consist of a notice of findings, findings, and an order. This decision shall be served on all parties and the awarding body pursuant to Section 1013 of the Code of Civil Procedure by first-class mail at the last known address of the party on file with the Labor Commissioner. Within 15 days of the issuance of the decision, the director may reconsider or modify the

decision to correct an error, except that a clerical error may be corrected at any time.

The director shall adopt regulations setting forth procedures for hearings under this subdivision.

(c) An affected contractor or subcontractor may obtain review of the decision of the director by filing a petition for a writ of mandate to the appropriate superior court pursuant to Section 1094.5 of the Code of Civil Procedure within 45 days after service of the decision. If no petition for writ of mandate is filed within 45 days after service of the decision, the order shall become final. If it is claimed in a petition for writ of mandate that the findings are not supported by the evidence, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record.

(d) A certified copy of a final order may be filed by the Labor Commissioner in the office of the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the filing, shall enter judgment for the state against the person assessed in the amount shown on the certified order.

(e) A judgment entered pursuant to this section shall bear the same rate of interest and shall have the same effect as other judgments and shall be given the same preference allowed by law on other judgments rendered for claims for taxes. The clerk shall not charge for the service performed by him or her pursuant to this section.

(f) An awarding body that has withheld funds in response to a civil wage and penalty assessment under this chapter shall, upon receipt of a certified copy of a final order that is no longer subject to judicial review, promptly transmit the withheld funds, up to the amount of the certified order, to the Labor Commissioner.

(g) This section shall provide the exclusive method for review of a civil wage and penalty assessment by the Labor Commissioner under this chapter or the decision of an awarding body to withhold contract payments pursuant to Section 1771.5.

(h) This section shall remain in effect only until January 1, 2005, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2005, deletes or extends that date.

Added Stats 2000 ch 954 § 10 (AB 1646), operative July 1, 2001, operative until January 1, 2005.

Note—Stats 2000 ch. 954 provides:

SECTION 1. The Legislature declares that its intent in adopting this act is to provide contractors and subcontractors with a prompt administrative hearing in the event that the contractor or subcontractor is alleged by the Labor Commissioner or an awarding body to have violated Labor Code provisions governing the obligations of contractors and subcontractors on public works projects, and to provide that the exclusive method for review of the decision after the administrative hearing is by petition for writ of mandate under Section 1094.5 of the Code of Civil Procedure. It is not the intent of this act to preclude remedies otherwise authorized by law to remedy violations of this chapter.

§ 1742. (Second of two; Operative January 1, 2005) Review of assessment

(a) An affected contractor or subcontractor may obtain review of a civil wage and penalty assessment under this chapter by transmitting a written request to the office of the Labor Commissioner that appears on the assessment within 60 days after service of the assessment. If no hearing is requested within 60 days after service of the assessment, the assessment shall become final.

(b)(1) Upon receipt of a timely request, a hearing shall be commenced within 90 days before an administrative law judge appointed by the Director of Industrial Relations. The appointed hearing judge shall be an employee of the department, but shall not be an employee of the Division of Labor Standards Enforcement. The contractor or subcontractor shall be provided an opportunity to review evidence to be utilized by the Labor Commissioner at the hearing within 20 days of the receipt of the written request for a hearing. Any evidence obtained by the Labor Commissioner subsequent to the 20-day cutoff shall be promptly disclosed to the contractor or subcontractor.

(2) The contractor or subcontractor shall have the burden of proving that the basis for the civil wage and penalty assessment is incorrect. The assessment shall be sufficiently detailed to provide fair notice to the contractor or subcontractor of the issues at the hearing.

(3) Within 45 days of the conclusion of the hearing, the administrative law judge shall issue a written decision affirming, modifying, or dismissing the assessment. The decision of the administrative law judge shall consist of a notice of findings, findings, and an order. This decision shall be served on all parties and the awarding body pursuant to Section 1013 of the Code of Civil Procedure by first-class mail at the last known address of the party on file with the Labor Commissioner. Within 15 days of the issuance of the decision, the administrative law judge may reconsider or modify the decision to correct an error, except that a clerical error may be corrected at any time.

(4) The Director of Industrial Relations shall adopt regulations setting forth procedures for hearings under this subdivision.

(c) An affected contractor or subcontractor may obtain review of the decision of the administrative law judge by filing a petition for a writ of mandate to the appropriate superior court pursuant to Section 1094.5 of the Code of Civil Procedure within 45 days after service of the decision. If no petition for writ of mandate is filed within 45 days after service of the decision, the order shall become final. If it is claimed in a petition for writ of mandate that the findings are not supported by the evidence, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record.

(d) A certified copy of a final order may be filed by the Labor Commissioner in the office of the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the filing, shall enter judgment for the state against the

person assessed in the amount shown on the certified order.

(e) A judgment entered pursuant to this section shall bear the same rate of interest and shall have the same effect as other judgments and shall be given the same preference allowed by law on other judgments rendered for claims for taxes. The clerk shall not charge for the service performed by him or her pursuant to this section.

(f) An awarding body that has withheld funds in response to a civil wage and penalty assessment under this chapter shall, upon receipt of a certified copy of a final order that is no longer subject to judicial review, promptly transmit the withheld funds, up to the amount of the certified order, to the Labor Commissioner.

(g) This section shall provide the exclusive method for review of a civil wage and penalty assessment by the Labor Commissioner under this chapter or the decision of an awarding body to withhold contract payments pursuant to Section 1771.5.

(h) This section shall become operative on January 1, 2005.

Added Stats 2000 ch 954 § 11 (AB 1646), operative January 1, 2005.

Note—Stats 2000 ch. 954 provides:

SECTION 1. The Legislature declares that its intent in adopting this act is to provide contractors and subcontractors with a prompt administrative hearing in the event that the contractor or subcontractor is alleged by the Labor Commissioner or an awarding body to have violated Labor Code provisions governing the obligations of contractors and subcontractors on public works projects, and to provide that the exclusive method for review of the decision after the administrative hearing is by petition for writ of mandate under Section 1094.5 of the Code of Civil Procedure. It is not the intent of this act to preclude remedies otherwise authorized by law to remedy violations of this chapter.

§ 1742.1. (First of two; Operative until January 1, 2005) Liquidated damages

(a) After 60 days following the service of a civil wage and penalty assessment under Section 1741 or a notice of withholding under subdivision (a) of Section 1771.6, the affected contractor, subcontractor, and surety on a bond or bonds issued to secure the payment of wages covered by the assessment or notice shall be liable for liquidated damages in an amount equal to the wages, or portion thereof, that still remain unpaid. If the assessment or notice subsequently is overturned or modified after administrative or judicial review, liquidated damages shall be payable only on the wages found to be due and unpaid. If the contractor or subcontractor demonstrates to the satisfaction of the director that he or she had substantial grounds for believing the assessment or notice to be in error, the director shall waive payment of the liquidated damages. Any liquidated damages collected shall be distributed to the employee along with the unpaid wages. Section 203.5 shall not apply to claims for prevailing wages under this chapter.

(b) The Labor Commissioner shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a civil wage and penalty assessment under Section 1741, afford the contractor or subcontractor the opportunity to meet with the Labor Commissioner or his or her designee to attempt to settle a dispute regarding the assessment without the need for formal proceedings. The awarding body shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a notice of withholding under subdivision (a) of Section 1771.6, afford the contractor or subcontractor the opportunity to meet with the designee of the awarding body to attempt to settle a dispute regarding the notice without the need for formal proceedings. The settlement meeting may be held in person or by telephone and shall take place before the expiration of the 60-day period for seeking administrative review. No evidence of anything said or any admission made for the purpose of, in the course of, or pursuant to, the settlement meeting is admissible or subject to discovery in any administrative or civil proceeding. No writing prepared for the purpose of, in the course of, or pursuant to, the settlement meeting, other than a final settlement agreement, is admissible or subject to discovery in any administrative or civil proceeding. The assessment or notice shall advise the contractor or subcontractor of the opportunity to request a settlement meeting.

This section shall remain in effect only until January 1, 2005, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2005, deletes or extends that date.

Added Stats 2000 ch 954 § 12 (AB 1646), operative July 1, 2001, operative until January 1, 2005.

Note—Stats 2000 ch. 954 provides:

SECTION 1. The Legislature declares that its intent in adopting this act is to provide contractors and subcontractors with a prompt administrative hearing in the event that the contractor or subcontractor is alleged by the Labor Commissioner or an awarding body to have violated Labor Code provisions governing the obligations of contractors and subcontractors on public works projects, and to provide that the exclusive method for review of the decision after the administrative hearing is by petition for writ of mandate under Section 1094.5 of the Code of Civil Procedure. It is not the intent of this act to preclude remedies otherwise authorized by law to remedy violations of this chapter.

§ 1742.1. (Second of two; Operative January 1, 2005) Liquidated damages

(a) After 60 days following the service of a civil wage and penalty assessment under Section 1741 or a notice of withholding under subdivision (a) of Section 1771.6, the affected contractor, subcontractor, and surety on a bond or bonds issued to secure the payment of wages covered by the assessment or notice shall be liable for liquidated damages in an amount equal to the wages, or portion thereof, that still remain unpaid. If the assessment or notice subsequently is overturned or modified after administrative or judicial review, liquidated damages shall be payable only on the wages found to be due and unpaid. If the contractor or subcontractor demonstrates to the satisfaction of the administrative law judge that he or she had substantial grounds for believing the assessment or notice to be in error, the administrative law judge shall waive payment of the liquidated damages. Any liquidated damages collected shall be distributed to the employee along with the unpaid wages. Section 203.5 shall not

apply to claims for prevailing wages under this chapter.

(b) The Labor Commissioner shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a civil wage and penalty assessment under Section 1741, afford the contractor or subcontractor the opportunity to meet with the Labor Commissioner or his or her designee to attempt to settle a dispute regarding the assessment without the need for formal proceedings. The awarding body shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a notice of withholding under subdivision (a) of Section 1771.6, afford the contractor or subcontractor the opportunity to meet with the designee of the awarding body to attempt to settle a dispute regarding the notice without the need for formal proceedings. The settlement meeting may be held in person or by telephone and shall take place before the expiration of the 60-day period for seeking administrative review. No evidence of anything said or any admission made for the purpose of, in the course of, or pursuant to, the settlement meeting is admissible or subject to discovery in any administrative or civil proceeding. No writing prepared for the purpose of, in the course of, or pursuant to, the settlement meeting, other than a final settlement agreement, is admissible or subject to discovery in any administrative or civil proceeding. The assessment or notice shall advise the contractor or subcontractor of the opportunity to request a settlement meeting.

This section shall become operative on January 1, 2005.

Added Stats 2000 ch 954 § 13 (AB 1646), operative January 1, 2005.

§ 1743. Joint and several liability

(a) The contractor and subcontractor shall be jointly and severally liable for all amounts due pursuant to a final order under this chapter or a judgment thereon. The Labor Commissioner shall first exhaust all reasonable remedies to collect the amount due from the subcontractor before pursuing the claim against the contractor.

(b) From the amount collected, the wage claim shall be satisfied prior to the amount being applied to penalties. If insufficient money is recovered to pay each worker in full, the money shall be prorated among all workers.

(c) Wages for workers who cannot be located shall be placed in the Industrial Relations Unpaid Wage Fund and held in trust for the workers pursuant to Section 96.7. Penalties shall be paid into the General Fund.

(d) A final order under this chapter or a judgment thereon shall be binding, with respect to the amount found to be due, on a bonding company issuing a bond that secures the payment of wages and a surety on a bond. The limitations period of any action on a payment bond shall be tolled pending a final order that is no longer subject to judicial review.

Added Stats 2000 ch 954 § 14 (AB 1646), operative July 1, 2001.

Article 1.5

Right of Action

§ 1750. Action for damages

(a) (1) The second lowest bidder, and any person, firm, association, trust, partnership, labor organization, corporation, or other legal entity which has, prior to the letting of the bids on the public works project in question, entered into a contract with the second lowest bidder, that suffers damage as a proximate result of a competitive bid for a public works project, as defined in subdivision (b), not being accepted due to the successful bidder's violation, as evidenced by the conviction of the successful bidder therefor, of any provision of Division 4 (commencing with Section 3200) or of the Unemployment Insurance Code, may bring an action for damages in the appropriate state court against the violating person or legal entity.

(2) There shall be a rebuttable presumption that a successful bidder who has been convicted of a violation of any provision of Division 4 (commencing with Section 3200) of this code or of the Unemployment Insurance Code, or of both, was awarded the bid because that successful bidder was able to lower the bid due to this violation or these violations occurring on the contract for public work awarded by the public agency.

(b) For purposes of this article:

(1) "Public works project" means the construction, repair, remodeling, alteration, conversion, modernization, improvement, rehabilitation, replacement, or renovation of a public building or structure.

(2) "Second lowest bidder" means the second lowest qualified bidder deemed responsive by the public agency awarding the contract for public work.

(3) The "second lowest bidder" and the "successful bidder" may include any person, firm, association, corporation, or other legal entity.

(c) In an action brought pursuant to this section, the court may award costs and reasonable attorney's fees, in an amount to be determined in the court's discretion, to the prevailing party.

(d) For purposes of an action brought pursuant to this section, employee status shall be determined pursuant to Division 4 (commencing with Section 3200) with respect to alleged violations of that division, pursuant to the Unemployment Insurance Code with respect to alleged violations of that code, and pursuant to Section 2750.5 with respect to alleged violations of either Division 4 (commencing with Section 3200) or of the Unemployment Insurance Code.

(e) The right of action established pursuant to this article shall not be construed to diminish rights of action established pursuant to Section 19102 of, and Article 1.8 (commencing with Section 20104.70) of Chapter 1 of Part 3 of Division 2 of, the Public Contract Code.

(f) A second lowest bidder who has been convicted of a violation of any provision of Division 4 (commencing with Section 3200) of the Labor Code or of the Unemployment Insurance Code, or both, within one year prior to filing the bid for public work, and who has failed to take affirmative steps to correct that violation or those violations, is prohibited from taking any action authorized by this section.

Added Stats 1991 ch 906 § 1 (AB 1754).

Article 2

Wages

§ 1770. General prevailing wage rate; Determination; Payment of more than prevailing rate; Overtime work

The Director of the Department of Industrial Relations shall determine the general prevailing rate of per diem wages in accordance with the standards set forth in Section 1773, and the director's determination in the matter shall be final except as provided in Section 1773.4. Nothing in this article, however, shall prohibit the payment of more than the general prevailing rate of wages to any workman employed on public work. Nothing in this act shall permit any overtime work in violation of Article 3 of this chapter.

Enacted 1937. Amended Stats 1953 ch 1706 § 2; Stats 1976 ch 281 § 2.

§ 1771. Requirement of prevailing local rate for work under contract

Except for public works projects of one thousand dollars ($1,000) or less, not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the public work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed as provided in this chapter, shall be paid to all workers employed on public works.

This section is applicable only to work performed under contract, and is not applicable to work carried out by a public agency with its own forces. This section is applicable to contracts let for maintenance work.

Enacted 1937. Amended Stats 1953 ch 1706 § 3; Stats 1974 ch 1202 § 1; Stats 1976 ch 861 § 2; Stats 1981 ch 449 § 1.

§ 1771.2. Action against employer that fails to pay prevailing wage

A joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (Section 175a of Title 29 of the United States Code) may bring an action in any court of competent jurisdiction against an employer that fails to pay the prevailing wage to its employees, as required by this article. This action shall be commenced not later than 180 days after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 180 days after acceptance of the public work, whichever last occurs.

Added Stats 2001 ch 804 § 1 (SB 588).

§ 1771.5. Labor compliance program

(a) Notwithstanding Section 1771, an awarding body shall not require the payment of the general prevailing rate of per diem wages or the general prevailing rate of per diem wages for holiday and overtime work for any public works project of twenty-five thousand dollars ($25,000) or less when the project is for construction work, or for any public works project of fifteen thousand dollars ($15,000) or less when the project is for alteration, demolition, repair, or maintenance work, if the awarding body elects to initiate and enforce a labor compliance program pursuant to subdivision (b) for every public works project under the authority of the awarding body.

(b) For the purposes of this section, a labor compliance program shall include, but not be limited to, the following requirements:

(1) All bid invitations and public works contracts shall contain appropriate language concerning the requirements of this chapter.

(2) A prejob conference shall be conducted with the contractor and subcontractors to discuss federal and state labor law requirements applicable to the contract.

(3) Project contractors and subcontractors shall maintain and furnish, at a designated time, a certified copy of each weekly payroll containing a statement of compliance signed under penalty of perjury.

(4) The awarding body shall review, and, if appropriate, audit payroll records to verify compliance with this chapter.

(5) The awarding body shall withhold contract payments when payroll records are delinquent or inadequate.

(6) The awarding body shall withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment has occurred.

Added Stats 1989 ch 1224 § 2. Amended Stats 1999 ch 83 § 132 (SB 966).

§ 1771.6. Notice of withholding

(a) Any awarding body that enforces this chapter in accordance with Section 1726 or 1771.5 shall provide notice of the withholding of contract payments to the contractor and subcontractor, if applicable. The notice shall be in writing and shall describe the nature of the violation and the amount of wages, penalties, and forfeitures withheld. Service of the notice shall be completed pursuant to Section 1013 of the Code of Civil Procedure by first-class and certified mail to the contractor and subcontractor, if applicable. The notice shall advise the contractor and subcontractor, if applicable, of the procedure for obtaining review of the withholding of contract payments.

The awarding body shall also serve a copy of the notice by certified mail to any bonding company issuing a bond that secures the payment of wages covered by the notice and to any surety on a bond, if their identities are known to the awarding body.

(b) The withholding of contract payments in accordance with Section 1726 or 1771.5 shall be reviewable under Section 1742 in the same manner as if the notice of the withholding was a civil penalty order of the Labor Commissioner under this chapter. If review is requested, the Labor Commissioner may intervene to

represent the awarding body.

(c) Pending a final order, or the expiration of the time period for seeking review of the notice of the withholding, the awarding body shall not disburse any contract payments withheld.

(d) From the amount recovered, the wage claim shall be satisfied prior to the amount being applied to penalties. If insufficient money is recovered to pay each worker in full, the money shall be prorated among all workers.

(e) Wages for workers who cannot be located shall be placed in the Industrial Relations Unpaid Wage Fund and held in trust for the workers pursuant to Section 96.7. Penalties shall be paid into the General Fund of the awarding body that has enforced this chapter pursuant to Section 1771.5.

Added Stats 2000 ch 954 § 16 (AB 1646), operative July 1, 2001.

Note—Stats 2000 ch 954 provides:

SECTION 1. The Legislature declares that its intent in adopting this act is to provide contractors and subcontractors with a prompt administrative hearing in the event that the contractor or subcontractor is alleged by the Labor Commissioner or an awarding body to have violated Labor Code provisions governing the obligations of contractors and subcontractors on public works projects, and to provide that the exclusive method for review of the decision after the administrative hearing is by petition for writ of mandate under Section 1094.5 of the Code of Civil Procedure. It is not the intent of this act to preclude remedies otherwise authorized by law to remedy violations of this chapter.

SEC. 21. This act shall become operative on July 1, 2001.

§ 1771.7. [Section repealed 2001.]

Added Stats 1989 ch 1224 § 4. Repealed Stats 2000 ch 954 § 17 (AB 1646), operative July 1, 2001. The repealed section related to appeal of enforcement action involving labor compliance program.

§ 1772. Workers deemed employed upon public work

Workers employed by contractors or subcontractors in the execution of any contract for public work are deemed to be employed upon public work.

Enacted 1937. Amended Stats 1992 ch 1342 § 7 (SB 222).

§ 1773. Ascertainment of prevailing rate; Data considered

The body awarding any contract for public work, or otherwise undertaking any public work, shall obtain the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality in which the public work is to be performed for each craft, classification, or type of worker needed to execute the contract from the Director of Industrial Relations. The holidays upon which those rates shall be paid need not be specified by the awarding body, but shall be all holidays recognized in theapplicable collective bargaining agreement. If the prevailing rate is not based on a collectively bargained rate, the holidays upon which the prevailing rate shall be paid shall be as provided in Section 6700 of the Government Code.

In determining the rates, the Director of Industrial Relations shall ascertain and consider the applicable wage rates established by collective bargaining agreements and the ratesthat may have been predetermined for federal public works, within the locality and in the nearest labor market area. Where the rates do not constitute the rates actually prevailing in the locality, the director shall obtain and consider further data from the labor organizations and employers or employer associations concerned, including the recognized collective bargaining representatives for the particular craft, classification, or type of work involved. The rate fixed for each craft, classification, or type of work shall be not less than the prevailing rate paid in the craft, classification, or type of work.

If the director determines that the rate of prevailing wage for any craft, classification, or type ofworker is the rate established by a collective bargaining agreement, the director may adopt that rate by reference as provided for inthe collective bargaining agreement and that determination shall be effective for the life of the agreement or until the director determines that another rate should be adopted.

Enacted 1937. Amended Stats 1953 ch 1706 § 4; Stats 1968 ch 699 § 1, operative July 1, 1969; Stats 1971 ch 785 § 1; Stats 1976 ch 281 § 3. Amended Stats 1999 ch 30 § 1 (SB 16).

§ 1773.1. Payments included in "per diem wages"

(a) Per diem wages shall be deemed to include employer payments for health and welfare, pension, vacation, travel, subsistence, and apprenticeship or other training programs authorized by Section 3093, so long as the cost of training is reasonably related to the amount of the contributions, and similar purposes, when the term "per diem wages" is used in this chapter or in any other statute applicable to public works.

(b) Employer payments include all of the following:

(1) The rate of contribution irrevocably made by the employer to a trustee or third person pursuant to a plan, fund, or program.

(2) The rate of actual costs to the employer reasonably anticipated in providing benefits to workers pursuant to an enforceable commitment to carry out a financially responsible plan or program communicated in writing to the workers affected.

(3) Payments to the California Apprenticeship Council pursuant to Section 1777.5.

(c) Employer payments are a credit against the obligation to pay the general prevailing rate of per diem wages. However, no credit shall be granted for benefits required to be provided by other state or federal law. Credits for employer payments also shall not reduce the obligation to pay the hourly straight time or overtime wages found to be prevailing.

(d) The credit for employer payments shall be computed on an annualized basis where the employer seeks credit for employer payments that are higher for public works projects than for private construction performed by the same employer, except where one or more of the following occur:

(1) The employer has an enforceable obligation to make the higher rate of payments on future private construction performed by the employer.

(2) The higher rate of payments is required by a project labor agreement.

(3) The payments are made to the California Apprenticeship Council pursuant to Section 1777.5.

(4) The director determines that annualization would not serve the purposes of this chapter.

(e) For the purpose of determining those per diem wages for contracts, the representative of any craft, classification, or type of worker needed to execute contracts shall file with the Department of Industrial Relations fully executed copies of the collective bargaining agreements for the particular craft, classification, or type of work involved. The collective bargaining agreements shall be filed after their execution and thereafter may be taken into consideration pursuant to Section 1773 whenever filed 30 days prior to the call for bids. If the collective bargaining agreement has not been formalized, a typescript of the final draft may be filed temporarily, accompanied by a statement under penalty of perjury as to its effective date.

Where a copy of the collective bargaining agreement has previously been filed, fully executed copies of all modifications and extensions of the agreement that affect per diem wages or holidays shall be filed.

The failure to comply with filing requirements of this subdivision shall not be grounds for setting aside a prevailing wage determination if the information taken into consideration is correct.

Added Stats 1959 ch 2173 § 1. Amended Stats 1969 ch 1502 § 1; Stats 1976 ch 281 § 4; Stats 1999 ch 30 § 2 (SB 16); Stats 2000 ch 954 § 18 (AB 1646), operative July 1, 2001.

Note—Stats 2000 ch 954 provides:

Note—Stats 2000 ch 954 provides:

SECTION 1. The Legislature declares that its intent in adopting this act is to provide contractors and subcontractors with a prompt administrative hearing in the event that the contractor or subcontractor is alleged by the Labor Commissioner or an awarding body to have violated Labor Code provisions governing the obligations of contractors and subcontractors on public works projects, and to provide that the exclusive method for review of the decision after the administrative hearing is by petition for writ of mandate under Section 1094.5 of the Code of Civil Procedure. It is not the intent of this act to preclude remedies otherwise authorized by law to remedy violations of this chapter.

SEC. 21. This act shall become operative on July 1, 2001.

§ 1773.2. Specification of prevailing wage rates in call for bids

The body awarding any contract for public work, or otherwise undertaking any public work, shall specify in the call for bids for the contract, and in the bid specifications and in the contract itself, what the general rate of per diem wages is for each craft, classification, or type of worker needed to execute the contract.

In lieu of specifying the rate of wages in the call for bids, and in the bid specifications and in the contract itself, the awarding body may, in the call for bids, bid specifications, and contract, include a statement that copies of the prevailing rate of per diem wages are on file at its principal office, which shall be made available to any interested party on request. The awarding body shall also cause a copy of the determination of the director of the prevailing rate of per diem wages to be posted at each job site.

Added Stats 1971 ch 785 § 2. Amended Stats 1974 ch 876 § 1; Stats 1977 ch 423 § 1. Amended Stats 1992 ch 1342 § 8 (SB 222).

§ 1773.3. Notifications of award of public works contract and of discrepancy in apprentices-journeymen ratio

An awarding agency whose public works contract falls within the jurisdiction of Section 1777.5 shall, within five days of the award, send a copy of the award to the Division of Apprenticeship Standards. When specifically requested by a local joint apprenticeship committee, the division shall notify the local joint apprenticeship committee regarding all such awards applicable to the joint apprenticeship committee making the request. Within five days of a finding of any discrepancy regarding the ratio of apprentices to journeymen, pursuant to the certificated fixed number of apprentices to journeymen, the awarding agency shall notify the Division of Apprenticeship Standards.

Added Stats 1972 ch 1399 § 2 as § 3098. Amended Stats 1974 ch 1095 § 1. Renumbered Stats 1978 ch 1249 § 6.

Former Sections:

Former § 1773.3, relating to requirements for filing general prevailing rates of per diem wages by awarding bodies, was added by Stats 1959 ch 1787 § 1 and repealed by Stats 1976 ch 281 § 5.

§ 1773.4. Procedure for review of rates

Any prospective bidder or his representative, any representative of any craft, classification or type of workman involved, or the awarding body may, within 20 days after commencement of advertising of the call for bids by the awarding body, file with the Director of Industrial Relations a verified petition to review the determination of any such rate or rates upon the ground that they have not been determined in accordance with the provision of Section 1773 of this code. Within two days thereafter, a copy of such petition shall be filed with the awarding body. The petition shall set forth the facts upon which it is based. The Director of Industrial Relations or his authorized representative shall, upon notice to the petitioner, the awarding body and such other persons as he deems proper, including the recognized collective bargaining representatives for the particular crafts, classifications or types of work involved, institute an investigation or hold a hearing. Within 20 days after the filing of such petition, or within such longer period as agreed upon by the director, the awarding body, and all the interested parties, he shall make a determination and transmit the same in writing to the awarding body and to the interested parties.

Such determination shall be final and shall be the determination of the awarding body. Upon receipt by it of the notice of the filing of such petition the body awarding the contract or authorizing the public work shall extend the closing date for the submission of bids or the starting of work until five days after the determination of the general prevailing rates of per diem

wages pursuant to this section.

Upon the filing of any such petition, notice thereof shall be set forth in the next and all subsequent publications by the awarding body of the call for bids. No other notice need be given to bidders by the awarding body by publication or otherwise. The determination of the director shall be included in the contract.

Added Stats 1953 ch 1706 § 4.5. Amended Stats 1968 ch 699 § 2, operative July 1, 1969; Stats 1969 ch 301 § 1.

§ 1773.5. Rules and regulations

The Director of Industrial Relations may establish rules and regulations for the purpose of carrying out this chapter, including, but not limited to, the responsibilities and duties of awarding bodies under this chapter.

Added Stats 1953 ch 1706 § 5. Amended Stats 1989 ch 1224 § 5.

§ 1773.6. Change in prevailing per diem wage rate

If during any quarterly period the Director of Industrial Relations shall determine that there has been a change in any prevailing rate of per diem wages in any locality he shall make such change available to the awarding body and his determination shall be final. Such determination by the Director of Industrial Relations shall not be effective as to any contract for which the notice to bidders has been published.

Added Stats 1953 ch 1706 § 6. Amended Stats 1957 ch 1932 § 486; Stats 1963 ch 1786 § 68, operative October 1, 1963; Stats 1976 ch 281 § 6.

§ 1773.7. Charges for interagency services

The provisions of Section 11250 of the Government Code shall not be applicable to Sections 1773, 1773.4, and 1773.6.

Added Stats 1976 ch 281 § 8.

Former Sections:

Former § 1773.7, relating to exemption of certain departments from provisions of Sections 1773.4 and 1773.5, was added Stats 1953 ch 1706 § 7, amended Stats 1957 ch 1932 § 487, Stats 1963 ch 1786 § 69, and repealed Stats 1976 ch 281 § 7.

§ 1773.8. [Section repealed 1999.]

Added Stats 1968 ch 980 § 1. Repealed Stats 1999 ch 30 § 3 (SB 16). The repealed section related to specification requiring payment of travel and subsistence payment, and filing collective bargaining agreements to establish payment.

§ 1773.9. Determination of general prevailing rate of per diem wages

(a) The Director of Industrial Relations shall use the methodology set forth in subdivision (b) to determine the general prevailing rate of per diem wages in the locality in which the public work is to be performed.

(b) The general prevailing rate of per diem wages includes all of the following:

(1) The basic hourly wage rate being paid to a majority of workers engaged in the particular craft, classification, or type of work within the locality and in the nearest labor market area, if a majority of the workers is paid at a single rate. If no single rate is being paid to a majority of the workers, then the single rate being paid to the greatest number of workers, or modal rate, is prevailing. If a modal rate cannot be determined, then the director shall establish an alternative rate, consistent with the methodology for determining the modal rate, by considering the appropriate collective bargaining agreements, federal rates, rates in the nearest labor market area, or other data such as wage survey data.

(2) Other employer payments included in per diem wages pursuant to Section 1773.1 and as included as part of the total hourly wage rate from which the basic hourly wage rate was derived. In the event the total hourly wage rate does not include any employer payments, the director shall establish a prevailing employer payment rate by the same procedure set forth in paragraph (1).

(3) The rate for holiday and overtime work shall be those rates specified in the collective bargaining agreement when the basic hourly rate is based on a collective bargaining agreement rate. In the event the basic hourly rate is not based on a collective bargaining agreement, the rate for holidays and overtime work, if any, included with the prevailing basic hourly rate of pay shall be prevailing.

(c) If the director determines that the general prevailing rate of per diem wages is the rate established by a collective bargaining agreement, and that the collective bargaining agreement contains definite and predetermined changes during its term that will affect the rate adopted, the director shall incorporate those changes into the determination. Predetermined changes that are rescinded prior to their effective date shall not be enforced.

Added Stats 1999 ch 30 § 4 (SB 16).

Note—Stats 1999 ch 30 provides:

SEC. 5. The Legislature declares that the intent of Section 1773.9 of the Labor Code, as added by Section 4 of this act, is to give effect to Assembly Concurrent Resolution No. 17 of the 1997–98 Regular Session of the Legislature (Res. Ch. 34, Stats. 1997) by codifying the methodology for calculating the general prevailing rate of per diem wages. In Assembly Concurrent Resolution No. 17, the Legislature declared that it "has relied on the long-established definitions of general prevailing rate of per diem wages in amending and extending the prevailing wage law contained in the California Labor Code on numerous occasions, and that it would be contrary to the intent of the Legislature for those definitions to be changed by administrative action, because the definitions have become incorporated by implication into these statutory provision."

§ 1774. Payment of not less than specified prevailing rates to workmen

The contractor to whom the contract is awarded, and any subcontractor under him, shall pay not less than the specified prevailing rates of wages to all workmen employed in the execution of the contract.

Enacted 1937.

§ 1775. Forfeiture for paying less than prevailing rate; Rights of workers

(a) The contractor and any subcontractor under him or her shall, as a penalty to the state or political

subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by him or her or, except as provided in subdivision (b), by any subcontractor under him or her. The amount of this penalty shall be determined by the Labor Commissioner based on consideration of both of the following:

(1) Whether the failure of the contractor or subcontractor to pay the correct rate of per diem wages was a good faith mistake and, if so, the error was promptly and voluntarily corrected upon being brought to the attention of the contractor or subcontractor.

(2) Whether the contractor or subcontractor has a prior record of failing to meet its prevailing wage obligations.

The determination of the Labor Commissioner as to the amount of the penalty shall be reviewable only for abuse of discretion. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the contractor or subcontractor, and the body awarding the contract shall cause to be inserted in the contract a stipulation that this section will be complied with.

(b) If a worker employed by a subcontractor on a public works project is not paid the general prevailing per diem wages by the subcontractor, the prime contractor of the project is not liable for any penalties under subdivision (a) unless the prime contractor had knowledge of that failure of the subcontractor to pay the specified prevailing rate of wages to those workers or unless the prime contractor fails to comply with all of the following requirements:

(1) The contract executed between the contractor and the subcontractor for the performance of work on the public works project shall include a copy of the provisions of Sections 1771, 1775, 1776, 1777.5, 1813, and 1815.

(2) The contractor shall monitor the payment of the specified general prevailing rate of per diem wages by the subcontractor to the employees, by periodic review of the certified payroll records of the subcontractor.

(3) Upon becoming aware of the failure of the subcontractor to pay his or her workers the specified prevailing rate of wages, the contractor shall diligently take corrective action to halt or rectify the failure, including, but not limited to, retaining sufficient funds due the subcontractor for work performed on the public works project.

(4) Prior to making final payment to the subcontractor for work performed on the public works project, the contractor shall obtain an affidavit signed under penalty of perjury from the subcontractor that the subcontractor has paid the specified general prevailing rate of per diem wages to his or her employees on the public works project and any amounts due pursuant to Section 1813.

(c) The Division of Labor Standards Enforcement shall notify the contractor on a public works project within 15 days of the receipt by the Division of Labor Standards Enforcement of a complaint of the failure of a subcontractor on that public works project to pay workers the general prevailing rate of per diem wages.

Added Stats 1997 ch 757 § 2 (SB 1328), operative until July 1, 2001. Amended Stats 2000 ch 954 § 20 (AB 1646), operative July 1, 2001.

Note—Stats 1997 ch 757 provides:

SEC. 7. All contracts that are governed by Section 1775, 1776, and 1813 of the Labor Code shall comply with the provisions of Chapter 1 (commencing with Section 1720) of Part of Division 2 of the Labor Code that are applicable to contracts for public works projects.

Note—Stats 2000 ch 954 provides:

SEC. 21. This act shall become operative on July 1, 2001.

§ 1776. (First of two: Operative until January 1, 2003) Payroll record of wages paid; Inspection; Forms; Effect of noncompliance; Penalties

(a) Each contractor and subcontractor shall keep accurate payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work. Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury, stating both of the following:

(1) The information contained in the payroll record is true and correct.

(2) The employer has complied with the requirements of Sections 1771, 1811, and 1815 for any work performed by his or her employees on the public works project.

(b) The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor on the following basis:

(1) A certified copy of an employee's payroll record shall be made available for inspection or furnished to the employee or his or her authorized representative on request.

(2) A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.

(3) A certified copy of all payroll records enumerated in subdivision (a) shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the body awarding the contract, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. If the requested payroll records have not been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through

which the request was made. The public shall not be given access to the records at the principal office of the contractor.

(c) The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the division.

(d) A contractor or subcontractor shall file a certified copy of the records enumerated in subdivision (a) with the entity that requested the records within 10 days after receipt of a written request.

(e) Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement shall be marked or obliterated to prevent disclosure of an individual's name, address, and social security number. The name and address of the contractor awarded the contract or the subcontractor performing the contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (Section 175a of Title 29 of the United States Code) shall be marked or obliterated only to prevent disclosure of an individual's name and social security number. A joint labor management committee may maintain an action in a court of competent jurisdiction against an employer who fails to comply with Section 1774. The court may award restitution to an employee for unpaid wages and may award the joint labor management committee reasonable attorney's fee and costs incurred in maintaining the action. An action under this subdivision may not be based on the employer's misclassification of the craft of a worker on its certified payroll records. Nothing in this subdivision limits any other available remedies for a violation of this chapter.

(f) The contractor shall inform the body awarding the contract of the location of the records enumerated under subdivision (a), including the street address, city and county, and shall, within five working days, provide a notice of a change of location and address.

(g) The contractor or subcontractor shall have 10 days in which to comply subsequent to receipt of a written notice requesting the records enumerated in subdivision (a). In the event that the contractor or subcontractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from progress payments then due. A contractor is not subject to a penalty assessment pursuant to this section due to the failure of a subcontractor to comply with this section.

(h) The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section.

(i) The director shall adopt rules consistent with the California Public Records Act, (Chapter 3.5 (commencing with Section 6250), Division 7, Title 1, Government Code) and the Information Practices Act of 1977, (Title 1.8 (commencing with Section 1798), Part 4, Division 3, Civil Code) governing the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section.

(j) This section shall remain in effect only until January 1, 2003, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2003, deletes or extends that date.

Added Stats 1997 ch 757 § 4 (SB 1328), operative until January 1, 2003. Amended Stats 2001 ch 804 § 2 (SB 588), repealed January 1, 2003.

§ 1776. (Second of two; Operative January 1, 2003) Payroll record of wages paid; Inspection; Forms; Effect of noncompliance; Penalties

(a) Each contractor and subcontractor shall keep an accurate payroll record, showing the name, address, social security number, work classification, and straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work.

(b) The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor on the following basis:

(1) A certified copy of an employee's payroll record shall be made available for inspection or furnished to the employee or his or her authorized representative on request.

(2) A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.

(3) A certified copy of all payroll records enumerated in subdivision (a) shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the body awarding the contract, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. If the requested payroll records have not been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through which the request was made. The public shall not be given access to the records at the principal office of the contractor.

(c) The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the division.

(d) Each contractor shall file a certified copy of the records enumerated in subdivision (a) with the entity that requested the records within 10 days after receipt of a written request.

(e) Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement shall be marked or obliterated to prevent disclosure of an individual's name, address, and social security number. The name and address of the contractor awarded the contract or performing the contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (Section 175a of Title 29 of the United States Code) shall be marked or obliterated only to prevent disclosure of an individual's social security number.

(f) The contractor shall inform the body awarding the contract of the location of the records enumerated under subdivision (a), including the street address, city and county, and shall, within five working days, provide a notice of a change of location and address.

(g) The contractor shall have 10 days in which to comply subsequent to receipt of written notice specifying in what respects the contractor must comply with this section. In the event that the contractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from progress payments then due.

(h) The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. These stipulations shall fix the responsibility for compliance with this section on the prime contractor.

(i) The director shall adopt rules consistent with the California Public Records Act, (Chapter 3.5 (commencing with Section 6250), Division 7, Title 1, Government Code) and the Information Practices Act of 1977, (Title 1.8 (commencing with Section 1798), Part 4, Division 3, Civil Code) governing the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section.

(j) This section shall become operative January 1, 2003.

Added Stats 1978 ch 1249 § 4. Amended Stats 1983 ch 681 § 1. Amended Stats 1992 ch 1342 § 10 (SB 222); Stats 1993 ch 589 § 107 (AB 2211); Stats 1997 ch 757 § 3 (SB 1328), operative January 1, 2003; Stats 1998 ch 485 § 121 (AB 2803), operative January 1, 2003; Stats 2001 ch 804 § 3 (SB 588), operative January 1, 2003.

Former Sections:

Former § 1776, similar to the present section, was enacted 1937, amended Stats 1949 ch 127 § 7, Stats 1976 ch 599 § 1, and repealed Stats 1978 ch 1249 § 3.

§ 1777. Violation of article or noncompliance with section setting requirements for payroll records as misdemeanor

Any officer, agent, or representative of the State or of any political subdivision who wilfully violates any provision of this article, and any contractor, or subcontractor, or agent or representative thereof, doing public work who neglects to comply with any provision of section 1776 is guilty of a misdemeanor.

Enacted 1937.

§ 1777.1. Penalties for willful violations of chapter; Notice; Hearing

(a) Whenever a contractor or subcontractor performing a public works project pursuant to this chapter is found by the Labor Commissioner to be in violation of this chapter with intent to defraud, except Section 1777.5, the contractor or subcontractor or a firm, corporation, partnership, or association in which the contractor or subcontractor has any interest is ineligible for a period of not less than one year or more than three years to do either of the following:

(1) Bid on or be awarded a contract for a public works project.

(2) Perform work as a subcontractor on a public works project.

(b) Whenever a contractor or subcontractor performing a public works project pursuant to this chapter is found by the Labor Commissioner to be in willful violation of this chapter, except Section 1777.5, the contractor or subcontractor or a firm, corporation, partnership, or association in which the contractor or subcontractor has any interest is ineligible for a period up to three years for each second and subsequent violation occurring within three years of a separate and previous willful violation of this chapter to do either of the following:

(1) Bid on or be awarded a contract for a public works project.

(2) Perform work as a subcontractor on a public works project.

(c) A willful violation occurs when the contractor or subcontractor knew or reasonably should have known of his or her obligations under the public works law and deliberately fails or refuses to comply with its provisions.

(d) Not less than semiannually, the Labor Commissioner shall publish and distribute to awarding bodies a list of contractors who are ineligible to bid on or be awarded a public works contract, or to perform work as a subcontractor on a public works project pursuant to this chapter. The list shall contain the name of the contractor, the Contractor's State License Board license number of the contractor, and the effective period of debarment of the contractor. The commissioner shall also place advertisements in construction industry publications targeted to the contractors and subcontractors, chosen by the commissioner, that state the effective period of the debarment and the reason for debarment. The advertisements shall appear one time for each debarment of a contractor in each publication

chosen by the commissioner. The debarred contractor or subcontractor shall be liable to the commissioner for the reasonable cost of the advertisements, not to exceed five thousand dollars ($5,000). The amount paid to the commissioner for the advertisements shall be credited against the contractor's or subcontractor's obligation to pay civil fines or penalties for the same willful violation of this chapter.

(e) For purposes of this section, "contractor or subcontractor" means a firm, corporation, partnership, or association and its responsible managing officer, as well as any supervisors, managers, and officers found by the Labor Commissioner to be personally and substantially responsible for the willful violation of this chapter.

(f) For the purposes of this section, the term "any interest" means an interest in the entity bidding or performing work on the public works project, whether as an owner, partner, officer, manager, employee, agent, consultant, or representative. "Any interest" includes, but is not limited to, all instances where the debarred contractor or subcontractor receives payments, whether cash or any other form of compensation, from any entity bidding or performing work on the public works project, or enters into any contracts or agreements with the entity bidding or performing work on the public works project for services performed or to be performed for contracts that have been or will be assigned or sublet, or for vehicles, tools, equipment, or supplies that have been or will be sold, rented, or leased during the period from the initiation of the debarment proceedings until the end of the term of the debarment period. "Any interest" does not include shares held in a publicly traded corporation if the shares were not received as compensation after the initiation of debarment from an entity bidding or performing work on a public works project.

(g) For the purposes of this section, the term "entity" is defined as a company, limited liability company, association, partnership, sole proprietorship, limited liability partnership, corporation, business trust, or organization.

(h) The Labor Commissioner shall adopt rules and regulations for the administration and enforcement of this section.

Added Stats 1989 ch 1224 § 10. Amended Stats 1998 ch 443 § 1 (AB 1569); Stats 2000 ch 970 § 1 (AB 2513).

§ 1777.5. Employment of apprentices on public works

(a) Nothing in this chapter shall prevent the employment of properly registered apprentices upon public works.

(b) Every apprentice employed upon public works shall be paid the prevailing rate of per diem wages for apprentices in the trade to which he or she is registered and shall be employed only at the work of the craft or trade to which he or she is registered.

(c) Only apprentices, as defined in Section 3077, who are in training under apprenticeship standards that have been approved by the Chief of the Division of Apprenticeship Standards and who are parties to written apprentice agreements under Chapter 4 (commencing with Section 3070) of Division 3 are eligible to be employed at the apprentice wage rate on public works. The employment and training of each apprentice shall be in accordance with either (1) the apprenticeship standards and apprentice agreements under which he or she is training or (2) the rules and regulations of the California Apprenticeship Council.

(d) When the contractor to whom the contract is awarded by the state or any political subdivision, in performing any of the work under the contract, employs workers in any apprenticeable craft or trade, the contractor shall employ apprentices in at least the ratio set forth in this section and may apply to any apprenticeship program in the craft or trade that can provide apprentices to the site of the public work for a certificate approving the contractor under the apprenticeship standards for the employment and training of apprentices in the area or industry affected. However, the decision of the apprenticeship program to approve or deny a certificate shall be subject to review by the Administrator of Apprenticeship. The apprenticeship program or programs, upon approving the contractor, shall arrange for the dispatch of apprentices to the contractor. A contractor covered by an apprenticeship program's standards shall not be required to submit any additional application in order to include additional public works contracts under that program. "Apprenticeable craft or trade," as used in this section, means a craft or trade determined as an apprenticeable occupation in accordance with rules and regulations prescribed by the California Apprenticeship Council. As used in this section, "contractor" includes any subcontractor under a contractor who performs any public works not excluded by subdivision (o).

(e) Prior to commencing work on a contract for public works, every contractor shall submit contract award information to an applicable apprenticeship program that can supply apprentices to the site of the public work. The information submitted shall include an estimate of journeyman hours to be performed under the contract, the number of apprentices proposed to be employed, and the approximate dates the apprentices would be employed. A copy of this information shall also be submitted to the awarding body if requested by the awarding body. Within 60 days after concluding work on the contract, each contractor and subcontractor shall submit to the awarding body, if requested, and to the apprenticeship program a verified statement of the journeyman and apprentice hours performed on the contract. The information under this subdivision shall be public. The apprenticeship programs shall retain this information for 12 months.

(f) The apprenticeship program that can supply apprentices to the area of the site of the public work shall ensure equal employment and affirmative action in apprenticeship for women and minorities.

(g) The ratio of work performed by apprentices to journeymen employed in a particular craft or trade on the public work may be no higher than the ratio stipulated in the apprenticeship standards under which the apprenticeship program operates where the contractor agrees to be bound by those standards, but, except as otherwise provided in this section, in no case shall the ratio be less than one hour of apprentice work for every five hours of journeyman work.

(h) This ratio of apprentice work to journeyman work shall apply during any day or portion of a day when any journeyman is employed at the jobsite and shall be computed on the basis of the hours worked during the day by journeymen so employed. Any work performed by a journeyman in excess of eight hours per day or 40 hours per week shall not be used to calculate the ratio. The contractor shall employ apprentices for the number of hours computed as above before the end of the contract or, in the case of a subcontractor, before the end of the subcontract. However, the contractor shall endeavor, to the greatest extent possible, to employ apprentices during the same time period that the journeymen in the same craft or trade are employed at the jobsite. Where an hourly apprenticeship ratio is not feasible for a particular craft or trade, the Chief of the Division of Apprenticeship Standards, upon application of an apprenticeship program, may order a minimum ratio of not less than one apprentice for each five journeymen in a craft or trade classification.

(i) A contractor covered by this section that has agreed to be covered by an apprenticeship program's standards upon the issuance of the approval certificate, or that has been previously approved for an apprenticeship program in the craft or trade, shall employ the number of apprentices or the ratio of apprentices to journeymen stipulated in the applicable apprenticeship standards, but in no event less than the 1-to-5 ratio required by subdivision (g).

(j) Upon proper showing by a contractor that he or she employs apprentices in a particular craft or trade in the state on all of his or her contracts on an annual average of not less than one hour of apprentice work for every five hours of labor performed by journeymen, the Chief of the Division of Apprenticeship Standards may grant a certificate exempting the contractor from the 1-to-5 hourly ratio, as set forth in this section for that craft or trade.

(k) An apprenticeship program has the discretion to grant to a participating contractor or contractor association a certificate, which shall be subject to the approval of the Administrator of Apprenticeship, exempting the contractor from the 1-to-5 ratio set forth in this section when it finds that any one of the following conditions is met:

(1) Unemployment for the previous three-month period in the area exceeds an average of 15 percent.

(2) The number of apprentices in training in the area exceeds a ratio of 1 to 5.

(3) There is a showing that the apprenticeable craft or trade is replacing at least one-thirtieth of its journeymen annually through apprenticeship training, either on a statewide basis or on a local basis.

(4) Assignment of an apprentice to any work performed under a public works contract would create a condition that would jeopardize his or her life or the life, safety, or property of fellow employees or the public at large, or the specific task to which the apprentice is to be assigned is of a nature that training cannot be provided by a journeyman.

(l) When an exemption is granted pursuant to subdivision (k) to an organization that represents contractors in a specific trade from the 1-to-5 ratio on a local or statewide basis, the member contractors will not be required to submit individual applications for approval to local joint apprenticeship committees, if they are already covered by the local apprenticeship standards.

(m)(1) A contractor to whom a contract is awarded, who, in performing any of the work under the contract, employs journeymen or apprentices in any apprenticeable craft or trade shall contribute to the California Apprenticeship Council the same amount that the director determines is the prevailing amount of apprenticeship training contributions in the area of the public works site. A contractor may take as a credit for payments to the council any amounts paid by the contractor to an approved apprenticeship program that can supply apprentices to the site of the public works project. The contractor may add the amount of the contributions in computing his or her bid for the contract.

(2) At the conclusion of each fiscal year, the California Apprenticeship Council shall distribute training contributions received by the council under this subdivision, less the expenses of the Division of Apprenticeship Standards for administering this subdivision, by making grants to approved apprenticeship programs for the purpose of training apprentices. The funds shall be distributed as follows:

(A) If there is an approved multiemployer apprenticeship program serving the same craft or trade and geographic area for which the training contributions were made to the council, a grant to that program shall be made.

(B) If there are two or more approved multiemployer apprenticeship programs serving the same craft or trade and geographic area for which the training contributions were made to the council, the grant shall be divided among those programs based on the number of apprentices registered in each program.

(C) All training contributions not distributed under subparagraphs (A) and (B) shall be used to defray the future expenses of administering this subdivision.

(3) All training contributions received pursuant to this subdivision shall be deposited in the Apprenticeship Training Contribution Fund, which fund is hereby created in the State Treasury. Notwithstanding Section 13340 of the Government Code, all money in the Apprenticeship Training Contribution Fund is hereby continuously appropriated for the purpose of carrying out this subdivision and to pay the expenses of the division in administering this subdivision.

(n) The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. The stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.

(o) This section does not apply to contracts of general contractors or to contracts of specialty contractors not bidding for work through a general or prime contract

when the contracts of general contractors or those specialty contractors involve less than thirty thousand dollars ($30,000).

(p) All decisions of an apprenticeship program under this section are subject to Section 3081.

Added Stats 1937 ch 872. Amended Stats 1939 ch 971 § 1; Stats 1957 ch 699 § 1; Stats 1968 ch 1411 § 1; Stats 1969 ch 1260 § 1, effective August 31, 1969; Stats 1972 ch 1087 § 1, ch 1399 § 1; Stats 1974 ch 965 § 1; Stats 1976 ch 1179 § 2, effective September 22, 1976; Stats 1989 ch 1224 § 11. Amended Stats 1997 ch 17 § 91 (SB 947); Stats 1999 ch 903 § 2 (AB 921); Stats 2000 ch 135 § 124 (AB 2539) (ch 875 prevails), ch 875 § 1 (AB 2481).

Note—Stats 1999 ch 903 provides:

SECTION 1. The Legislature finds and declares that apprenticeship programs are a vital part of the educational system in California. It is the purpose and goal of this legislation to strengthen the regulation of apprenticeship programs in California, to ensure that all apprenticeship programs approved under Chapter 4 (commencing with Section 3070) of Division 3 of the Labor Code meet the high standards necessary to prepare apprentices for the workplaces of the future and to prevent the exploitation of apprentices by employers or apprenticeship programs. It is further the intent of the Legislature that apprenticeship programs should make active efforts to recruit qualified men, women, and minorities and train them in the skills needed for the workplace.

§ 1777.6. Prohibited discrimination in employment of apprentices

It shall be unlawful for an employer or a labor union to refuse to accept otherwise qualified employees as registered apprentices on any public works, on the ground of the race, religious creed, color, national origin, ancestry, sex, or age, except as provided in Section 3077, of such employee.

Added Stats 1951 ch 1192 § 1. Amended Stats 1965 ch 283 § 8; Stats 1971 ch 280 § 1; Stats 1976 ch 1179 § 2, effective September 22, 1976.

§ 1777.7. Penalties for noncompliance with provisions involving employment of apprentices

(a)(1) A contractor or subcontractor that is determined by the Chief of the Division of Apprenticeship Standards to have knowingly violated Section 1777.5 shall forfeit as a civil penalty an amount not exceeding one hundred dollars ($100) for each full calendar day of noncompliance. The amount of this penalty may be reduced by the Chief if the amount of the penalty would be disproportionate to the severity of the violation. A contractor or subcontractor that knowingly commits a second or subsequent violation of Section 1777.5 within a three-year period, where the noncompliance results in apprenticeship training not being provided as required by this chapter, shall forfeit as a civil penalty the sum of not more than three hundred dollars ($300) for each full calendar day of noncompliance. Notwithstanding Section 1727, upon receipt of a determination that a civil penalty has been imposed by the Chief, the awarding body shall withhold the amount of the civil penalty from contract progress payments then due or to become due.

(2) In lieu of the penalty provided for in this subdivision, the Chief may, for a first-time violation and with the concurrence of an apprenticeship program described in subdivision (d), order the contractor or subcontractor to provide apprentice employment equivalent to the work hours that would have been provided for apprentices during the period of noncompliance.

(b) In the event a contractor or subcontractor is determined by the Chief to have knowingly committed a serious violation of any provision of Section 1777.5, the Chief may also deny to the contractor or subcontractor, and to its responsible officers, the right to bid on or be awarded or perform work as a subcontractor on any public works contract for a period of up to one year for the first violation and for a period of up to three years for a second or subsequent violation. Each period of debarment shall run from the date the determination of noncompliance by the Chief becomes a final order of the Administrator of Apprenticeship.

(c)(1) An affected contractor, subcontractor, or responsible officer may obtain a review of the determination of the Chief imposing the debarment or civil penalty by transmitting a written request to the office of the Administrator within 30 days after service of the determination of debarment or civil penalty. A copy of this report shall also be served on the Chief. If the Administrator does not receive a timely request for review of the determination of debarment or civil penalty made by the Chief, the order shall become the final order of the Administrator.

(2) Within 20 days of the timely receipt of a request for review, the Chief shall provide the contractor, subcontractor, or responsible officer the opportunity to review any evidence the Chief may offer at the hearing. The Chief shall also promptly disclose any nonprivileged documents obtained after the 20-day time limit at a time set forth for exchange of evidence by the Administrator.

(3) Within 90 days of the timely receipt of a request for review, a hearing shall be commenced before the Administrator or an impartial hearing officer designated by the Administrator and possessing the qualifications of an administrative law judge pursuant to subdivision (b) of Section 11502 of the Government Code. The affected contractor, subcontractor, or responsible officer shall have the burden of providing evidence of compliance with Section 1777.5.

(4) Within 45 days of the conclusion of the hearing, the Administrator shall issue a written decision affirming, modifying, or dismissing the determination of debarment or civil penalty. The decision shall contain a statement of the factual and legal basis for the decision and an order. This decision shall be served on all parties and the awarding body pursuant to Section 1013 of the Code of Civil Procedure by first-class mail at the last known address of the party that the party has filed with the Administrator. Within 15 days of issuance of the decision, the Administrator may reconsider or modify the decision to correct an error, except that a clerical error may be corrected at any time.

(5) An affected contractor, subcontractor, or responsible officer who has timely requested review and obtained a decision under paragraph (4) may obtain review of the decision of the Administrator by filing a petition for a writ of mandate to the appropriate superior court pursuant to Section 1094.5 of the Code of Civil Procedure within 45 days after service of the final decision. If no timely petition for a writ of mandate is filed, the decision shall become the final order of the Administrator. The decision of the Administrator shall be affirmed unless the petitioner shows that the Administrator abused his or her discretion. If the petitioner claims that the findings are not supported by the evidence, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in light of the entire record.

(6) The Chief may certify a copy of the final order of the Administrator and file it with the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the filing, shall enter judgment for the state against the person assessed in the amount shown on the certified order. A judgment entered pursuant to this section shall bear the same rate of interest and shall have the same effect as other judgments and be given the same preference allowed by the law on other judgments rendered for claims for taxes. The clerk shall not charge for the service performed by him or her pursuant to this section. An awarding body that has withheld funds in response to a determination by the Chief imposing a penalty under this section shall, upon receipt of a certified copy of a final order of the Administrator, promptly transmit the withheld funds, up to the amount of the certified order, to the Administrator.

(d) If a subcontractor is found to have violated Section 1777.5, the prime contractor of the project is not liable for any penalties under subdivision (a), unless the prime contractor had knowledge of the subcontractor's failure to comply with the provisions of Section 1777.5 or unless the prime contractor fails to comply with any of the following requirements:

(1) The contract executed between the contractor and the subcontractor or the performance of work on the public works project shall include a copy of the provisions of Sections 1771, 1775, 1776, 1777.5, 1813, and 1815.

(2) The contractor shall continually monitor a subcontractor's use of apprentices required to be employed on the public works project pursuant to subdivision (d) of Section 1777.5, including, but not limited to, periodic review of the certified payroll of the subcontractor.

(3) Upon becoming aware of a failure of the subcontractor to employ the required number of apprentices, the contractor shall take corrective action, including, but not limited to, retaining funds due the subcontractor for work performed on the public works project until the failure is corrected.

(4) Prior to making the final payment to the subcontractor for work performed on the public works project, the contractor shall obtain a declaration signed under penalty of perjury from the subcontractor that the subcontractor has employed the required number of apprentices on the public works project.

(e) Any funds withheld by the awarding body pursuant to this section shall be deposited in the General Fund if the awarding body is a state entity, or in the equivalent fund of an awarding body if the awarding body is an entity other than the state.

(f) The Chief shall consider, in setting the amount of a monetary penalty, in determining whether a violation is serious, and in determining whether and for how long a party should be debarred for violating this section, all of the following circumstances:

(1) Whether the violation was intentional.

(2) Whether the party has committed other violations of Section 1777.5.

(3) Whether, upon notice of the violation, the party took steps to voluntarily remedy the violation.

(4) Whether, and to what extent, the violation resulted in lost training opportunities for apprentices.

(5) Whether, and to what extent, the violation otherwise harmed apprentices or apprenticeship programs.

If a party seeks review of a decision by the Chief to impose a monetary penalty or period of debarment, the Administrator shall decide de novo the appropriate penalty, by considering the same factors set forth above.

(g) The interpretation of Section 1777.5 and this section shall be in accordance with the regulations of the California Apprenticeship Council. The Administrator may adopt regulations to establish guidelines for the imposition of monetary penalties and periods of debarment and may designate precedential decisions under Section 11425.60 of the Government Code.

Added Stats 1939 ch 1224 § 13. Amended Stats 1999 ch 903 § 3 (AB 921); Stats 2000 ch 135 § 125 (AB 2539) (ch 875 prevails), ch 875 § 2 (AB 2481).

Former Sections:

Former § 1777.7, similar to the present section, was added Stats 1976 ch 538 § 2, amended Stats 1978 ch 1249 § 5, and repealed Stats 1989 ch 1224 § 12.

Note—Stats 1999 ch 903 provides:

SECTION 1. The Legislature finds and declares that apprenticeship programs are a vital part of the educational system in California. It is the purpose and goal of this legislation to strengthen the regulation of apprenticeship programs in California, to ensure that all apprenticeship programs approved under Chapter 4 (commencing with Section 3070) of Division 3 of the Labor Code meet the high standards necessary to prepare apprentices for the workplaces of the future and to prevent the exploitation of apprentices by employers or apprenticeship programs. It is further the intent of the Legislature that apprenticeship programs should make active efforts to recruit qualified men, women, and minorities and train them in the skills needed for the workplace.

§ 1777.8. [Section repealed 1991.]

Added Stats 1990 ch 451 § 1 (AB 116), effective July 31, 1990. Repealed Stats 1991 ch 640 § 1 (AB 64). The repealed section related to regulations regarding assessment of fees.

§ 1778. Taking or receiving portion of wages of workman or working subcontractor as felony

Every person, who individually or as a representative of an awarding or public body or officer, or as a contractor or subcontractor doing public work, or agent or officer thereof, who takes, receives or conspires with another to take or receive, for his own use or the use of any other person any portion of the wages of any workman or working subcontractor, in connection with services rendered upon any public work is guilty of a felony.

Enacted 1937.

§ 1779. Charging fee for registration, giving information, or placing or assisting in placing person in public work as misdemeanor

Any person or agent or officer thereof who charges, collects, or attempts to charge or collect, directly or indirectly, a fee or valuable consideration for registering any person for public work, or for giving information as to where such employment may be procured, or for placing, assisting in placing, or attempting to place, any person in public work, whether the person is to work directly for the State, or any political subdivision or for a contractor or subcontractor doing public work is guilty of a misdemeanor.

Enacted 1937.

§ 1780. Placing order for employment where fee or valuable consideration involved as misdemeanor

Any person acting on behalf of the State or any political subdivision, or any contractor or subcontractor or agent or representative thereof, doing any public work who places any order for the employment of a workman on public work where the filling of the order for employment involves the charging of a fee, or the receiving of a valuable consideration from any applicant for employment is guilty of a misdemeanor.

Enacted 1937.

§ 1781. [Section repealed 1957.]

Enacted 1937. Repealed Stats 1957 ch 396 § 1. The repealed section related to penalties and remedies provided by §§ 1775 and 1777.

Article 3

Working Hours

§ 1810. Hours constituting day's work; Stipulation in contracts

Eight hours labor constitutes a legal day's work in all cases where the same is performed under the authority of any law of this State, or under the direction, or control, or by the authority of any officer of this State acting in his official capacity, or under the direction, or control or by the authority of any municipal corporation, or of any officer thereof. A stipulation to that effect shall be made a part of all contracts to which the State or any municipal corporation therein is a party.

Enacted 1937.

§ 1811. Limitation as to hours of service; Exception

The time of service of any workman employed upon public work is limited and restricted to 8 hours during any one calendar day, and 40 hours during any one calendar week, except as hereinafter provided for under Section 1815.

Enacted 1937. Amended Stats 1961 ch 238 § 1; Stats 1963 ch 964 § 1.

§ 1812. Record of hours worked; Availability for inspection

Every contractor and subcontractor shall keep an accurate record showing the name of and actual hours worked each calendar day and each calendar week by each worker employed by him or her in connection with the public work. The record shall be kept open at all reasonable hours to the inspection of the awarding body and to the Division of Labor Standards Enforcement.

Enacted 1937 as § 1814. Amended Stats 1945 ch 1431 § 51. Renumbered Stats 1961 ch 238 § 4. Amended Stats 1963 ch 964 § 2; Stats 1988 ch 160 § 123.

§ 1813. (First of two; Operative Until January 1, 2003) Penalty when workman required to work excess hours; Stipulation in contract; Cognizance and report of violations

The contractor or subcontractor shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each worker employed in the execution of the contract by the respective contractor or subcontractor for each calendar day during which the worker is required or permitted to work more than 8 hours in any one calendar day and 40 hours in any one calendar week in violation of the provisions of this article. In awarding any contract for public work, the awarding body shall cause to be inserted in the contract a stipulation to this effect. The awarding body shall take cognizance of all violations of this article committed in the course of the execution of the contract, and shall report them to the Division of Labor Standards Enforcement.

This section shall remain in effect only until January 1, 2003, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2003, deletes or extends that date.

Added Stats 1997 ch 757 § 6 (SB 1328), operative until January 1, 2003.

§ 1813. (Second of two; Operative January 1, 2003) Penalty when workman required to work excess hours; Stipulation in contract; Cognizance and report of violations

The contractor shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each workman employed in the execution of the contract by the contractor or by any subcontractor for each calendar day during which the workman is required or permitted to work more than 8 hours in any one calendar day and 40 hours in any one calendar week in violation of the provisions of this article. In awarding any contract for public work, the awarding body shall cause to be inserted therein a stipulation to this effect. The awarding body shall take cognizance of all violations of this article committed in the course of the execution of the contract, and shall report them to the officer of the state or political subdivision who is authorized to pay the contractor money due him or her under the contract.

This section shall become operative January 1, 2003.

Enacted 1937 as § 1815. Amended Stats 1957 ch 399 § 1. Renumbered by Stats 1961 ch 238 § 5. Amended Stats 1963 ch 964 § 3. Amended Stats 1997 ch 757 § 5 (SB 1328), operative January 1, 2003; Stats 1998 ch 485 § 122 (AB 2803), operative January 1, 2003.

Former Sections:

Former § 1813, relating to report of nature of emergency, was enacted 1937, and repealed Stats 1961 ch 238 § 3.

§ 1814. Violation of article or noncompliance with section requiring records of hours worked as misdemeanor

Any officer, agent, or representative of the State or any political subdivision who violates any provision of this article and any contractor or subcontractor or agent or representative thereof doing public work who neglects to comply with any provision of Section 1812 is guilty of a misdemeanor.

Enacted 1937 as § 1816. Amended and renumbered Stats 1961 ch 238 § 6.

§ 1815. Work performed in excess of specified hour limitations; Compensation

Notwithstanding the provisions of Sections 1810 to 1814, inclusive, of this code, and notwithstanding any stipulation inserted in any contract pursuant to the requirements of said sections, work performed by employees of contractors in excess of 8 hours per day, and 40 hours during any one week, shall be permitted upon public work upon compensation for all hours worked in excess of 8 hours per day at not less than 1½ times the basic rate of pay.

Added Stats 1941 ch 759 § 1, effective June 17, 1941, as § 1817. Amended and renumbered Stats 1961 ch 238 § 7. Amended Stats 1963 ch 964 § 4.

§ 1816. [Section renumbered 1961.]

Enacted 1937. Amended and renumbered § 1814 Stats 1961 ch 238 § 6.

§ 1817. [Section renumbered 1961.]

Added Stats 1941 ch 759 § 1, effective June 17, 1941. Amended and renumbered § 1815 Stats 1961 ch 238 § 7.

Article 5

Securing Workers' Compensation

§ 1860. Contract clause requiring contractor to secure payment of compensation to employees

The awarding body shall cause to be inserted in every public works contract a clause providing that, in accordance with the provisions of Section 3700 of the Labor Code, every contractor will be required to secure the payment of compensation to his employees.

Added Stats 1965 ch 1000 § 2.

§ 1861. Certificate required to be signed and filed by contractor; Contents

Each contractor to whom a public works contract is awarded shall sign and file with the awarding body the following certification prior to performing the work of the contract: "I am aware of the provisions of Section 3700 of the Labor Code which require every employer to be insured against liability for workers' compensation or to undertake self-insurance in accordance with the provisions of that code, and I will comply with such provisions before commencing the performance of the work of this contract."

Added Stats 1965 ch 1000 § 2. Amended Stats 1979 ch 373 § 232.

Municipal Employees

§ 1900. Hours off for meals; Salary deduction

Every employee of a city whose hours of labor exceed 120 in a week is entitled to be off duty at least three

Appendix 3 CALIFORNIA CONSTITUTION

Article XIII B

ARTICLE XIII B*

GOVERNMENT SPENDING LIMITATION

[*Total Annual Appropriations*]

SEC. 1. The total annual appropriations subject to limitation of the State and of each local government shall not exceed the appropriations limit of the entity of government for the prior year adjusted for the change in the cost of living and the change in population, except as otherwise provided in this article. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Appropriations Limit Annual Calculation—Review*]

SEC. 1.5. The annual calculation of the appropriations limit under this article for each entity of local government shall be reviewed as part of an annual financial audit. [*New section adopted June 5, 1990. Operative July 1, 1990.*]

[*Revenues in Excess of Limitation*]

SEC. 2. (a)(1) Fifty percent of all revenues received by the State in a fiscal year and in the fiscal year immediately following it in excess of the amount which may be appropriated by the State in compliance with this article during that fiscal year and the fiscal year immediately following it shall be transferred and allocated, from a fund established for that purpose, pursuant to Section 8.5 of Article XVI.

(2) Fifty percent of all revenues received by the State in a fiscal year and in the fiscal year immediately following it in excess of the amount which may be appropriated by the State in compliance with this article during that fiscal year and the fiscal year immediately following it shall be returned by a revision of tax rates or fee schedules within the next two subsequent fiscal years.

(b) All revenues received by an entity of government, other than the State, in a fiscal year and in the fiscal year immediately following it in excess of the amount which may be appropriated by the entity in compliance with this article during that fiscal year and the fiscal year immediately following it shall be returned by a revision of tax rates or fee schedules within the next two subsequent fiscal years. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Appropriations Limit—Adjustments*]

SEC. 3. The appropriations limit for any fiscal year pursuant to Sec. 1 shall be adjusted as follows:

(a) In the event that the financial responsibility of providing services is transferred, in whole or in part, whether by annexation, incorporation or

* New Article XIII B adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.

otherwise, from one entity of government to another, then for the year in which such transfer becomes effective the appropriations limit of the transferee entity shall be increased by such reasonable amount as the said entities shall mutually agree and the appropriations limit of the transferor entity shall be decreased by the same amount.

(b) In the event that the financial responsibility of providing services is transferred, in whole or in part, from an entity of government to a private entity, or the financial source for the provision of services is transferred, in whole or in part, from other revenues of an entity of government, to regulatory licenses, user charges or user fees, then for the year of such transfer the appropriations limit of such entity of government shall be decreased accordingly.

(c) (1) In the event an emergency is declared by the legislative body of an entity of government, the appropriations limit of the affected entity of government may be exceeded provided that the appropriations limits in the following three years are reduced accordingly to prevent an aggregate increase in appropriations resulting from the emergency.

(2) In the event an emergency is declared by the Governor, appropriations approved by a two-thirds vote of the legislative body of an affected entity of government to an emergency account for expenditures relating to that emergency shall not constitute appropriations subject to limitation. As used in this paragraph, "emergency" means the existence, as declared by the Governor, of conditions of disaster or extreme peril to the safety of persons and property within the State, or parts thereof, caused by such conditions as attack or probable or imminent attack by an enemy of the United States, fire, flood, drought, storm, civil disorder, earthquake, or volcanic eruption. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Appropriations Limit—Establishment or Change*]

SEC. 4. The appropriations limit imposed on any new or existing entity of government by this Article may be established or changed by the electors of such entity, subject to and in conformity with constitutional and statutory voting requirements. The duration of any such change shall be as determined by said electors, but shall in no event exceed four years from the most recent vote of said electors creating or continuing such change. [*New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.*]

[*Contingency, Emergency, Unemployment, Etc., Funds—Contributions—Withdrawals—Transfers*]

SEC. 5. Each entity of government may establish such contingency, emergency, unemployment, reserve, retirement, sinking fund, trust, or similar funds as it shall deem reasonable and proper. Contributions to any such fund, to the extent that such contributions are derived from the pro-

ceeds of taxes, shall for purposes of this Article constitute appropriations subject to limitation in the year of contribution. Neither withdrawals from any such fund, nor expenditures of (or authorizations to expend) such withdrawals, nor transfers between or among such funds, shall for purposes of this Article constitute appropriations subject to limitation. [*New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.*]

[*Prudent State Reserve*]

SEC. 5.5. *Prudent State Reserve.* The Legislature shall establish a prudent state reserve fund in such amount as it shall deem reasonable and necessary. Contributions to, and withdrawals from, the fund shall be subject to the provisions of Section 5 of this Article. [*New section adopted November 8, 1988. Initiative measure.*]

[*Mandates of New Programs or Higher Levels of Service—State Subvention—Exceptions*]

SEC. 6. Whenever the Legislature or any state agency mandates a new program or higher level of service on any local government, the State shall provide a subvention of funds to reimburse such local government for the costs of such program or increased level of service, except that the Legislature may, but need not, provide such subvention of funds for the following mandates:

(a) Legislative mandates requested by the local agency affected;

(b) Legislation defining a new crime or changing an existing definition of a crime; or

(c) Legislative mandates enacted prior to January 1, 1975, or executive orders or regulations initially implementing legislation enacted prior to January 1, 1975. [*New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.*]

[*Bonded Indebtedness*]

SEC. 7. Nothing in this Article shall be construed to impair the ability of the State or of any local government to meet its obligations with respect to existing or future bonded indebtedness. [*New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.*]

[*Definitions*]

SEC. 8. As used in this article and except as otherwise expressly provided herein:

(a) "Appropriations subject to limitation" of the State means any authorization to expend during a fiscal year the proceeds of taxes levied by or for the State, exclusive of state subventions for the use and operation of local government (other than subventions made pursuant to Section 6) and further exclusive of refunds of taxes, benefit payments from retirement, unemployment insurance, and disability insurance funds.

(b) "Appropriations subject to limitation" of an entity of local government means any authorization to expend during a fiscal year the proceeds of taxes levied by or for that entity and the proceeds of state subventions to that entity (other than subventions made pursuant to Section 6) exclusive of refunds of taxes.

(c) "Proceeds of taxes" shall include, but not be restricted to, all tax revenues and the proceeds to an entity of government, from (1) regulatory licenses, user charges, and user fees to the extent that those proceeds exceed the costs reasonably borne by that entity in providing the regulation, product, or service, and (2) the investment of tax revenues. With respect to any local government, "proceeds of taxes" shall include subventions received from the State, other than pursuant to Section 6, and, with respect to the State, proceeds of taxes shall exclude such subventions.

(d) "Local government" means any city, county, city and county, school district, special district, authority, or other political subdivision of or within the State.

(e) (1) "Change in the cost of living" for the State, a school district, or a community college district means the percentage change in California per capita personal income from the preceding year.

(2) "Change in the cost of living" for an entity of local government, other than a school district or a community college district, shall be either (A) the percentage change in California per capita personal income from the preceding year, or (B) the percentage change in the local assessment roll from the preceding year for the jurisdiction due to the addition of local nonresidential new construction. Each entity of local government shall select its change in the cost of living pursuant to this paragraph annually by a recorded vote of the entity's governing body.

(f) "Change in population" of any entity of government, other than the State, a school district, or a community college district, shall be determined by a method prescribed by the Legislature.

"Change in population" of a school district or a community college district shall be the percentage change in the average daily attendance of the school district or community college district from the preceding fiscal year, as determined by a method prescribed by the Legisla

"Change in population" of the State shall be determined by adding (1) the percentage change in the State's population multiplied by the percentage of the State's budget in the prior fiscal year that is expended for other than educational purposes for kindergarten and grades one to 12, inclusive, and the community colleges, and (2) the percentage change in the total statewide average daily attendance in kindergarten and grades one to 12, inclusive, and the community colleges, multiplied by the percentage of the State's budget in the prior fiscal year that is expended for educational purposes for kindergarten and grades one to 12, inclusive, and the community colleges.

Any determination of population pursuant to this subdivision, other than that measured by average daily attendance, shall be revised, as necessary, to reflect the periodic census conducted by the United States Department of Commerce, or successor department.

(g) "Debt service" means appropriations required to pay the cost of interest and redemption charges, including the funding of any reserve or sinking fund required in connection therewith, on indebtedness existing or legally authorized as of January 1, 1979, or on bonded indebtedness thereafter approved according to law by a vote of the electors of the issuing entity voting in an election for that purpose.

(h) The "appropriations limit" of each entity of government for each fiscal year is that amount which total annual appropriations subject to limitation may not exceed under Sections 1 and 3. However, the "appropriations limit" of each entity of government for fiscal year 1978–79 is the total of the appropriations subject to limitation of the entity for that fiscal year. For fiscal year 1978–79, state subventions to local governments, exclusive of federal grants, are deemed to have been derived from the proceeds of state taxes.

(i) Except as otherwise provided in Section 5, "appropriations subject to limitation" do not include local agency loan funds or indebtedness funds, investment (or authorizations to invest) funds of the State, or of an entity of local government in accounts at banks or savings and loan associations or in liquid securities. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Exceptions to Appropriations Subject to Limitation*]

SEC. 9. "Appropriations subject to limitation" for each entity of government do not include:

(a) Appropriations for debt service.

(b) Appropriations required to comply with mandates of the courts or the federal government which, without discretion, require an expenditure for additional services or which unavoidably make the provision of existing services more costly.

(c) Appropriations of any special district which existed on January 1, 1978, and which did not as of the 1977–78 fiscal year levy an ad valorem tax on property in excess of 12½ cents per $100 of assessed value; or the appropriations of any special district then existing or thereafter created by a vote of the people, which is totally funded by other than the proceeds of taxes.

(d) Appropriations for all qualified capital outlay projects, as defined by the Legislature.

(e) Appropriations of revenue which are derived from any of the following:

(1) That portion of the taxes imposed on motor vehicle fuels for use in motor vehicles upon public streets and highways at a rate of more than nine cents ($0.09) per gallon.

(2) Sales and use taxes collected on that increment of the tax specified in paragraph (1).

(3) That portion of the weight fee imposed on commercial vehicles which exceeds the weight fee imposed on those vehicles on January 1, 1990. [*As amended June 5, 1990. Operative July 1, 1990.*]

[*Effective Date of Article*]

SEC. 10. This Article shall be effective commencing with the first day of the fiscal year following its adoption. [*New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.*]

[*Appropriations Limit on or after July 1, 1990*]

SEC. 10.5. For fiscal years beginning on or after July 1, 1990, the appropriations limit of each entity of government shall be the appropriations limit for the 1986–87 fiscal year adjusted for the changes made from that fiscal year pursuant to this article, as amended by the measure adding this section, adjusted for the changes required by Section 3. [*New section adopted June 5, 1990. Operative July 1, 1990.*]

[*Category Added or Removed from Appropriations Subject to Limitation—Severability*]

SEC. 11. If any appropriation category shall be added to or removed from appropriations subject to limitation, pursuant to final judgment of any court of competent jurisdiction and any appeal therefrom, the appropriations limit shall be adjusted accordingly. If any section, part, clause or phrase in this Article is for any reason held invalid or unconstitutional, the remaining portions of this Article shall not be affected but shall remain in full force and effect. [*New section adopted November 6, 1979. Operative commencing first day of fiscal year following adoption. Initiative measure.*]

[*Exceptions to Appropriations Subject to Limitation*]

SEC. 12. "Appropriations subject to limitation" of each entity of government shall not include appropriations of revenue from the Cigarette and Tobacco Products Surtax Fund created by the Tobacco Tax and Health Protection Act of 1988. No adjustment in the appropriations limit of any entity of government shall be required pursuant to Section 3 as a result of revenue being deposited in or appropriated from the Cigarette and Tobacco Products Surtax Fund created by the Tobacco Tax and Health Protection Act of 1988. [*New section adopted November 8, 1988. Initiative measure.*]

[*Exceptions to Appropriations Subject to Limitation*]

SEC. 13. "Appropriations subject to limitation" of each entity of government shall not include appropriations of revenue from the California Children and Families First Trust Fund created by the California Children and Families First Act of 1998. No adjustment in the appropriations limit of any entity of government shall be required pursuant to Section 3 as a result of revenue being deposited in or appropriated from the California Children and Families First Trust Fund. The surtax created by the California Children and Families First Act of 1998 shall not be considered General Fund revenues for the purposes of Section 8 of Article XVI. [*New section adopted November 3, 1998. Initiative measure.*]

ARTICLE XIII C *

VOTER APPROVAL FOR LOCAL TAX LEVIES

SECTION 1. Definitions. As used in this article:

(a) "General tax" means any tax imposed for general governmental purposes.

(b) "Local government" means any county, city, city and county, including a charter city or county, any special district, or any other local or regional governmental entity.

(c) "Special district" means an agency of the State, formed pursuant to general law or a special act, for the local performance of governmental or proprietary functions with limited geographic boundaries including, but not limited to, school districts and redevelopment agencies.

(d) "Special tax" means any tax imposed for specific purposes, including a tax imposed for specific purposes, which is placed into a general fund. [*New section adopted November 5, 1996. Initiative measure.*]

* New Article XIII C adopted November 5, 1996. Initiative measure.

SEC. 2. Local Government Tax Limitation. Notwithstanding any other provision of this Constitution:

(a) All taxes imposed by any local government shall be deemed to be either general taxes or special taxes. Special purpose districts or agencies, including school districts, shall have no power to levy general taxes.

(b) No local government may impose, extend, or increase any general tax unless and until that tax is submitted to the electorate and approved by a majority vote. A general tax shall not be deemed to have been increased if it is imposed at a rate not higher than the maximum rate so approved. The election required by this subdivision shall be consolidated with a regularly scheduled general election for members of the governing body of the local government, except in cases of emergency declared by a unanimous vote of the governing body.

(c) Any general tax imposed, extended, or increased, without voter approval, by any local government on or after January 1, 1995, and prior to the effective date of this article, shall continue to be imposed only if approved by a majority vote of the voters voting in an election on the issue of the imposition, which election shall be held within two years of the effective date of this article and in compliance with subdivision (b).

(d) No local government may impose, extend, or increase any special tax unless and until that tax is submitted to the electorate and approved by a two-thirds vote. A special tax shall not be deemed to have been increased if it is imposed at a rate not higher than the maximum rate so approved. [*New section adopted November 5, 1996. Initiative measure.*]

SEC. 3. Initiative Power for Local Taxes, Assessments, Fees and Charges. Notwithstanding any other provision of this Constitution, including, but not limited to, Sections 8 and 9 of Article II, the initiative power shall not be prohibited or otherwise limited in matters of reducing or repealing any local tax, assessment, fee or charge. The power of initiative to affect local taxes, assessments, fees and charges shall be applicable to all local governments and neither the Legislature nor any local government charter shall impose a signature requirement higher than that applicable to statewide statutory initiatives. [*New section adopted November 5, 1996. Initiative measure.*]

§ 6103. State and political subdivisions; filing and service fees; judgments for agencies; costs of court reporters

Neither the state nor any county, city, district, or other political subdivision, nor any public officer or body, acting in his official capacity on behalf of the state, or any county, city, district or other political subdivision, shall pay or deposit any fee for the filing of any document or paper, for the performance of any official service, or for the filing of any stipulation or agreement which may constitute an appearance in any court by any other party to the stipulation or agreement. This section does not apply to the State Compensation Insurance Fund or where a public officer is acting with reference to private assets or obligations which have come under his jurisdiction by virtue of his office, or where it is specifically provided otherwise. No fee shall be charged for the filing of a confession of judgment in favor of any of the public agencies named in this section.

No fee shall be charged any of the public agencies named in this section to defray the costs of reporting services by court reporters. Such fees shall be recoverable as costs as provided in Section 6103.5.

(Stats.1943, c. 134, p. 990, § 6103. Amended by Stats.1943, c. 319, p. 1316; Stats.1945, c. 1152, § 1; Stats.1951, c. 174, p. 423, § 1; Stats.1953, c. 1734, p. 3483, § 1; Stats.1970, c. 907, p. 1649, § 1; Stats.1978, c. 142, § 1.)

Notes of Decisions

---

1. In general

Pol.C. § 4295 (repealed) prohibiting state, county, and township officials from performing any official services without payment of lawful fees except for the state, county, city, or other political subdivision was concerned with fees paid to state, county, and township officers and did not expressly apply to fees paid to city officers. Brunton v. Superior Court of Los Angeles County (1942) 20 Cal.2d 202, 124 P.2d 831.

Where constables are not authorized by local ordinance or charter provision to retain fees incurred in a criminal case for rendition of their official services, they are precluded from charg-

ing and collecting such fees from the county. 49 Ops.Atty.Gen. 115, 5–26–67.

This section exempts state or any public officer acting in his official capacity from payment of any fee for performance of any official service, except as provided in C.C.P. § 261b (repealed). 7 Ops.Atty.Gen. 16 (1946).

2. Construction with other laws

Section 25823 providing that county board of supervisors may collect compensation from private or public parties for right to dump took priority over § 6103 which exempts public entities from payment of fees for official services rendered by other public entities, since provision permitting compensation was a later and more specific provision and dealt expressly with particular subject it controls. Anaheim City School Dist. v. Orange County (App. 4 Dist. 1985) 210 Cal.Rptr. 722, 164 Cal.App.3d 697.

Where reference to this section in C.C.P. § 261b (repealed), relating to litigants' payment of filing fees in certain counties, was added by amendment to the bill after it was introduced, attention of legislature was particularly directed to such reference, and such reference would control other provisions making only an incidental reference to such subject-matter. People v. Moroney (1944) 24 Cal.2d 638, 150 P.2d 888.

C.C.P. § 261b (repealed), relating to payment of filing fees by litigants in certain counties, was enacted for purpose of providing a salary basis for compensation of court reporters in such counties as distinguished from a per diem fee; consequently, when the section was interpreted in light of purpose sought to be achieved, the state was not immune from filing fees thereby imposed on parties litigant. People v. Moroney (1944) 24 Cal.2d 638, 150 P.2d 888.

Provision in C.C.P. § 261b (repealed), that filing fee thereby required to be paid by parties litigant in the superior court in certain counties should not be subject to provision of this section was controlling over other provisions referring to state's immunity from costs, and the state was not exempt from such fees. People v. Moroney (1944) 24 Cal.2d 638, 150 P.2d 888.

Section 6103.1, relating to travel fees, is an exception to the exemption allowed by this section, which exempts political subdivisions from payment of fees for filing of documents or papers and for performance of official service. 48 Ops.Atty.Gen. 114, 11–18–66.

To the extent that § 27383 providing that no fee shall be charged by the recorder for services rendered to the state, to any municipality, county in the state or other political subdivision thereof, except for making a copy of a paper or record, conflicts with this section, the former prevails, in view of maxim of statutory construction that the later expression of legislative intent prevails over the earlier. 27 Ops.Atty.Gen. 402 (1956).

Under this section and Health & S.C., §§ 10625, 10626 (repealed), 10550 (repealed), the director of public health must collect fees for the verification of birth records for passports to permit the return of American citizens abroad, requested by the State Department of the United States. 6 Ops.Atty.Gen. 204 (1945).

3. Political subdivisions

The housing authority of the City of South San Francisco was a "political subdivision" within this section, and was not required to pay or deposit a fee for filing of pleadings in the justices' courts. 4 Ops.Atty.Gen. 145 (1944).

4. Public officers

State insurance commissioner in charge of insolvent insurance company's business is not mere private trustee or receiver, but "state officer" exempt from payment of fees for filing transcript on appeal from judgment against him. Mitchell v. Taylor (1935) 3 Cal.2d 217, 43 P.2d 803.

Under this section, exempting public offices from the payment of fees for the performance of official services, a district attorney is exempt from payment of fees for service of process in civil support proceedings brought pursuant to Pen.C. § 270f, Civ.C. §§ 139.5 (repealed), 231, (repealed), and Welf. & Inst.C. §§ 11476, 11479, 11484. 47 Ops.Atty.Gen. 23, 1–18–66.

5. Official services

Findings, on which judgment enjoining the enforcement of city ordinances was based, that plaintiff flood control district in applying for a permit to drill for oil under the ordinances acted through its officers in their official capacity, and that their fees were payable for official services of the city officials, did not constitute a holding that all fees of this type were prohibited by statute providing that no political subdivision should be required to pay any fee for performance of any official service, or that the injunction was intended to prohibit the charging of any such fees under any ordinance. Brunton v. Superior Court of Los Angeles County (1942) 20 Cal.2d 202, 124 P.2d 831.

Although by terms of county building ordinance, fee was chargeable for service of checking plans and issuing building permits, city desiring permit to make alterations and repairs on reservoir of city situated in unincorporated territory was not required to pay fee, in view of statute regarding fees chargeable for official services. City of Pasadena v. Fox (App. 2 Dist. 1936) 16 Cal.App.2d 584, 61 P.2d 332.

Monterey County and other public entities are not exempt from paying the reimbursement required by § 68097.1 et seq. because California highway patrol officers do not testify in civil cases as part of their "official service". 53 Ops.Atty.Gen. 322, 12–23–70.

Permit fees and inspection fees required by resolution of county board of supervisors regulating excavations and construction in its county roads are for performance of official services and, therefore, may not be recovered from districts because of prohibition in this section. 40 Ops.Atty.Gen. 15 (1962).

6. Permit or inspection fees

In view of the virtually plenary power of the regents of the University of California in the regulation of affairs, relating to the university and the use of property owned or leased by it for educational purposes, the regents, in constructing improvements solely for educational purposes, are exempt from local building codes and zoning regulations and are also exempt from payment of local permit and inspection fees. Regents of University of California v. City of Santa Monica (App. 2 Dist. 1978) 143 Cal. Rptr. 276, 77 Cal.App.3d 130.

Folsom state prison is exempt from the payment of fees levied for a permit issued by the Sacramento county air pollution control district pursuant to subd. (a) of Health & S.C. § 42311, which provides that an air pollution control district may adopt a schedule of fees for the issuance and renewal of permits, for the operation of its dry cleaning facility. 63 Ops.Atty. Gen. 769, 10–1–80.

Where construction modifications of city streets adjacent to a state university campus was done by personnel employed by the Trustees of the California State University and Colleges, the Trustees were not required to pay the plan-checking and inspection fees of the city. 62 Ops.Atty.Gen. 443, 8–22–79.

County ordinances adopting uniform building codes, whether by reference or otherwise, are binding upon other political entities within the territorial jurisdiction of the county such as mosquito abatement districts or cemetery districts which are created by the county, unless such building regulations are inconsistent with some general law or the political entity in question is a direct agency of the state, and in such case the public district may not be required to pay a fee for securing a building permit from the county as exempted by this section. 33 Ops.Atty.Gen. 149 (1959).

7. Recording fees

Deeds transferring title to real property to the public employees' retirement system cannot be subjected by a county to either its documentary transfer tax or its normal recording fees. 54 Ops.Atty.Gen. 218, 11–3–71.

County recorders are required to record releases of tax liens without fee when requested to do so by state board of equalization. 26 Ops. Atty.Gen. 49 (1955).

Recording fees were not required to be paid by the department of water and power of the City of Los Angeles for recording deeds in which the department appeared as grantor, in view of this section exempting the state or city or other political subdivision from payment of any fee for filing of any document or for performance of any official service. 24 Ops.Atty.Gen. 48 (1954).

Under this section, reclamation districts, mosquito abatement districts and county fire protection districts are entitled to the performance of services of the county recorder without payment of fees therefor, it being immaterial whether the district is supported by a general tax or special assessment, whether it exercises governmental functions of state concern or only municipal affairs or both as long as it performs a public function. 14 Ops.Atty.Gen. 178 (1949).

8. Filing fees

In action by the division of labor law enforcement to recover as assignee of wage claims pursuant to statute authorizing the division to bring actions for collection of wages where the employee needed assistance, the division was entitled to filing of the complaint without paying of fee. Division of Labor Law Enforcement v. Moroney (1946) 28 Cal.2d 344, 170 P.2d 3.

A county may not charge the state controller the $1.00 filing fee permitted by § 27361.4, applicable to the filing of all documents, in addition to the $6.00 fee specified by § 27361.3 for the recordation of a release of lien for property tax postponement. 64 Ops.Atty.Gen. 359, 4–29–81.

The department of water resources, which is created by Water C. § 150, and which will succeed to the duties of the department of finance under Water C. §§ 10500 to 10506, will not be required to pay filing fees on applications to appropriate water under Water C. §§ 10500 to 10506, since the department of finance is presently exempted from filing fees, by reason of Gov.C. §§ 11159 and 11160. 28 Ops.Atty.Gen. 28 (1956).

9. Sheriff's fees

Sheriff's fees were excepted from requirement of wage collection law that commissioner of labor statistics should pay no court costs in civil actions arising under the law because sheriff was not connected with official machinery provided for execution of court orders, though ser-

vices for which he was entitled to compensation might be necessary for disposition of action. Gue v. Superior Court In and For San Diego County (App. 1934) 1 Cal.App.2d 91, 36 P.2d 202.

Sheriffs, constables and marshals must charge fees for summoning a jury in a civil case except where services connected with such summoning are performed for a governmental agency which is exempt from the payment of such fees. 29 Ops.Atty.Gen. 31 (1957).

10. Reporting service fees

Under requirement of wage collection law that commissioner of labor statistics should pay no court costs, commissioner could not compel trial court to permit trial of contested civil action to be commenced without case deposit of portion of official court reporter's fees, where commissioner had not requested that trial proceed without being reported. Gue v. Superior Court In and For San Diego County (App. 1934) 1 Cal.App.2d 91, 36 P.2d 202.

Payment of the costs of transcribing, at the county's request, the tape recorded proceedings of a hearing conducted by the board of control with respect to the county's claim pursuant to Rev. & T.C. § 2250, providing that the state board of control should hear and decide claims by local agencies or school districts that they were not reimbursed for certain costs mandated by the state, may be required of the county by the board of control. 62 Ops.Atty.Gen. 609, 10–16–79.

After January 1, 1979, an exemption will exist as to the additional fee charged in many, if not most counties, for reporter services, which is collected by the county clerk at the time first papers are filed in a civil action; otherwise, the obligation of the county council for reporters' fees will remain the same. 61 Ops.Atty.Gen. 451, 10–24–78.

The California labor commissioner is required to pay the reporter's fee in Kern county upon filing an answer in a quiet title action. 31 Ops.Atty.Gen. 179, 4–18–58.

11. Use fees

Where gate fees were properly imposed by county pursuant to resolution of board of supervisors and fees were contemplated within economic feasibility of original solid waste management plan, cities were not exempt from payment of those fees. Garden Grove Sanitary Dist. v. Orange County (App. 4 Dist. 1984) 208 Cal.Rptr. 777, 162 Cal.App.3d 842.

12. Liability insurance fees

Reasonable and nondiscriminate fees or deposits to cover cost of insuring county against liability to members of public because of operations of one having right to excavate in county roads, and to insure that public district will restore road to its former state so far as possible, may be applied to public districts having such right, since such fees do not come under prohibition of this section. 40 Ops.Atty.Gen. 15 (1962).

13. Allowance of costs

General statutes allowing costs to parties were inapplicable to state, in absence of express provision respecting costs in suit to which state was party. Ridge v. Boulder Creek Union Junior-Senior High School Dist. of Santa Cruz County (App. 1 Dist. 1943) 60 Cal.App.2d 453, 140 P.2d 990.

Costs could not be awarded against the state. Innes v. McColgan (App. 4 Dist. 1942) 52 Cal. App.2d 698, 126 P.2d 930.

In action against state to recover interest on certain judgments, allowance of costs against state was error. Connecticut General Life Ins. Co. v. State (App. 1 Dist. 1941) 47 Cal.App.2d 88, 117 P.2d 377.

Generally, costs are not allowed against the state in absence of express statutory legislation People v. One Plymouth Sedan, Engine PJ45999 (App. 1 Dist. 1937) 21 Cal.App.2d 7. 69 P.2d 1011.

14. Discriminatory taxes

Local air pollution control district rule imposing air pollution fees on federal facilities while exempting local and state government agencies in public district from paying any fees was not unconstitutional discriminatory tax, absent allegation that district treated federal government and private entities in discriminatory manner. U.S. v. South Coast Air Quality Management Dist., C.D.Cal.1990, 748 F.Supp. 732.

15. Federal exemption

The United States department of state requesting verification of birth records is not exempt from payment of fees required by law to be fixed by director of public health for such service. 6 Ops.Atty.Gen. 204 (1945).

In suits brought by the office of price administration in justice's court, the office of price administration was required to pay the filing fees to the clerk, there being no exemption in favor of the Federal Government under Pol.C. § 4300e (repealed) nor this section. 5 Ops.Atty. Gen. 137 (1945).

purpose of obtaining documents for use in the plaintiff's civil action, and the documents must be produced unless one or more of the statutory exemptions set forth in the CPRA apply. County of Los Angeles v. Superior Court (Axelrad) (App. 2 Dist. 2000) 98 Cal.Rptr.2d 564, 82 Cal.App.4th 819, review denied.

7. Judgment

Court ruling on attorney's California Public Records Act (CPRA) request for documents was not bound, under doctrine of collateral estoppel, by discovery rulings barring disclosure of same documents in civil action filed by attorney's employer; there was no showing that issue raised in the CPRA proceeding was identical to that decided in the civil action, and there was no information concerning finality of the prior proceedings. County of Los Angeles v. Superior Court (Axelrad) (App. 2 Dist. 2000) 98 Cal.Rptr.2d 564, 82 Cal.App.4th 819, review denied.

While a court hearing a California Public Records Act (CPRA) request should be made aware of any prior discovery rulings issued with respect to the documents being requested in connection with a CPRA petition, the court is not bound by those rulings unless all of the collateral estoppel factors are present. County of Los Angeles v. Superior Court (Axelrad) (App. 2 Dist. 2000) 98 Cal.Rptr.2d 564, 82 Cal.App.4th 819, review denied.

8. Abuse of discovery

A claim that a plaintiff has abused discovery, however, should be made to the court assigned to the plaintiff's civil action, not to the court hearing the plaintiff's California Public Records Act (CPRA) petition. County of Los Angeles v. Superior Court (Axelrad) (App. 2 Dist. 2000) 98 Cal.Rptr.2d 564, 82 Cal.App.4th 819, review denied.

9. Scope of coverage

Extent of coverage of California Public Records Act (CPRA) is a matter to be developed by the courts on a case-by-case basis. California State University v. Superior Court (App. 5 Dist. 2001) 108 Cal.Rptr.2d 870, 90 Cal.App.4th 810, rehearing denied.

10. News media

In determining whether public records come within catchall exception to disclosure requirement under California Public Records Act (CPRA), purpose of the requesting party in seeking disclosure cannot be considered, and it is also irrelevant that the requesting party is a newspaper or other form of media, because the media have no greater right of access to public records than the general public. California State University v. Superior Court (App. 5 Dist. 2001) 108 Cal.Rptr.2d 870, 90 Cal. App.4th 810, rehearing denied.

§ 6252. Definitions

As used in this chapter:

(a) "State agency" means every state office, officer, department, division, bureau, board, and commission or other state body or agency, except those agencies provided for in Article IV (except Section 20 thereof) or Article VI of the California Constitution.

(b) "Local agency" includes a county; city, whether general law or chartered; city and county; school district; municipal corporation; district; political subdivision; or any board, commission or agency thereof; other local public agency; or nonprofit * * * entities that are legislative bodies of a local agency pursuant to subdivisions (c) and (d) of Section 54952.

(c) "Person" includes any natural person, corporation, partnership, limited liability company, firm, or association.

(d) "Public agency" means any state or local agency.

(e) "Public records" includes any writing containing information relating to the conduct of the public's business prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics. "Public records" in the custody of, or maintained by, the Governor's office means any writing prepared on or after January 6, 1975.

(f) "Writing" means handwriting, typewriting, printing, photostating, photographing, and every other means of recording upon any form of communication or representation, including letters, words, pictures, sounds, or symbols, or combination thereof, and all papers, maps, magnetic or paper tapes, photographic films and prints, magnetic or punched cards, discs, drums, and other documents.

(g) "Member of the public" means any person, except a member, agent, officer, or employee of a federal, state, or local agency acting within the scope of his or her membership, agency, office, or employment.

(Amended by Stats.1998, c. 620 (S.B.143), § 2.)

Historical and Statutory Notes

1996 Legislation

Legislative declaration of Stats.1996, c. 57 (S.B.141), § 30, relating to the rendition of professional services by a limited liability company, see Historical and Statutory Notes under Code of Civil Procedure § 699.720.

1998 Legislation

Stats.1998, c. 620, in subd. (b), substituted "entities that are legislative bodies of a local agency pursuant to subdivisions (c) and (d) of section 54952" for "organizations of local government agencies and officials which are supported solely by public funds"; inserted subd. (d) defining "Public agency"; and relettered subsequent subdivisions.

§ 6525. Mutual water company; agreements with public agencies

Notes of Decisions

Construction and application 1

1. Construction and application

Two public entities and a mutual water company may enter into a joint powers agreement to form a public financing authority for the purpose of issuing bonds under the Marks–Roos Local Bond Pooling Act of 1985 to finance the construction of projects over which the contracting parties exercise their common power. Op.Atty. Gen. No. 99–321 (March 28, 2000).

§ 6526. Agencies relating to water resources; exercise of powers

Notwithstanding any other provision of law, any public agency that is a member of the South East Regional Reclamation Authority, the Aliso Water Management Agency, the South Orange County Reclamation Authority, or the San Juan Basin Authority may exercise any power granted to those entities by any of the joint powers agreements creating those entities, whether or not that public agency is a signatory to any of these joint powers agreements granting that power or is otherwise authorized by law to exercise that power, for the purpose of promoting efficiency in the administration of these joint powers entities.

(Formerly § 6524, added by Stats.1994, c. 230 (S.B.1711), § 1, eff. July 18, 1994. Renumbered § 6526 and amended by Stats.1995, c. 91 (S.B.975), § 44.)

Historical and Statutory Notes

1995 Legislation

Subordination of legislation by Stats.1995, c. 91 (S.B. 975), to other 1995 legislation, see Historical and Statutory Notes under Business and Professions Code § 35.

Library References

Additional References

Infrastructure Finance: 'Exotic' Techniques. 1 Land Use Forum 189 (CEB, spring 1992).

§ 6527. Health care districts and nonprofit corporations; joinder to pool self-insurance claims or losses

(a) Notwithstanding any other provision of this chapter, where two or more health care districts have joined together to pool their self-insurance claims or losses, a nonprofit corporation which provides health care services that may be carried out by a health care district may participate in the pool, provided that its participation in an existing joint powers agreement, as authorized by this section, shall be permitted only after the public agency members, or public agency representatives on the governing body of the joint powers entity make a finding, at a public meeting, that the agreement provides both of the following:

(1) The primary activities conducted under the joint powers agreement will be substantially related to and in furtherance of the governmental purposes of the public agency.

(2) The public agency participants will maintain control over the activities conducted under the joint powers agreement through public agency control over governance, management, or ownership of the joint powers authority.

(b) Any public agency or private entity entering into a joint powers agreement under this section shall establish or maintain a reserve fund to be used to pay losses incurred under the agreement. The reserve fund shall contain sufficient moneys to maintain the fund on an actuarially sound basis.

(c) In any risk pooling arrangement created under this section, the aggregate payments made under each program shall not exceed the amount available in the pool established for that program.

(d) A public meeting shall be held prior to the dissolution or termination of any enterprise operating under this section to consider the disposition, division, or distribution of any property acquired as a result of exercise of the joint exercise of powers.

(e) Nothing in this section shall be construed to relieve a public benefit corporation that is a health facility from charitable trust obligations, or to exempt such a public benefit corporation from existing law governing joint ventures, or the sale, transfer, lease, exchange, option, conveyance, or other disposition of assets.

§ 17514. Costs mandated by the state

"Costs mandated by the state" means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution.

(Added by Stats.1984, c. 1459, § 1.)

Code of Regulations References

Test claim filing, see 2 Cal. Code of Regs. § 1183.

Law Review Commentaries

State environmental permit fees charged to federal facilities: distinguishing legal user fees from illegal taxes. Samuel D. McVey, 29 Santa Clara L.Rev. 879 (1989).

Notes of Decisions

---

1. Enactments

Words "enacted after January 1, 1973" within Rev. & T.C. former § 2231 providing that "The state shall pay to each county, city and county, city and special district an amount to reimburse for the full costs, which are mandated by acts enacted after January 1, 1973, of any new state-mandated program or any increased level of service of an existing mandated program" do not mean "effective after January 1, 1973." Orange County v. Flournoy (1974) 117 Cal.Rptr. 224, 42 Cal.App.3d 908.

2. Appropriation

Provision of Rev. & T.C. former § 2231 that "The state shall pay to each county, city and county, city and special district an amount to reimburse for the full costs, which are mandated by acts enacted after January 1, 1973, of any new state-mandated program or any increased level of service of an existing mandated program" is not itself a "continuing appropriation," but rather, further legislative action is required. Orange County v. Flournoy (1974) 117 Cal.Rptr. 224, 42 Cal.App.3d 908.

3. Antecedent costs

Legislature was not constitutionally or statutorily required to reimburse school district for expenditures incurred in complying with state safety statutes enacted prior to 1975. Los Angeles Unified School Dist. v. State (App. 2 Dist. 1991) 280 Cal.Rptr. 237, 229 Cal.App.3d 552.

This section providing for reimbursement to local governmental units of costs mandated by State, so as to include only costs incurred on or after January 1, 1975, effectively precluded school district's claim for reimbursement for costs incurred as result of 1973 legislation. Los Angeles Unified School Dist. v. State (App. 2 Dist.1991) 280 Cal.Rptr. 237, 229 Cal.App.3d 552.

4. Claims

As to claim for reimbursement of state-mandated costs based on statute enacted after July 1, 1980 and filed with Board of Control prior to Jan. 1, 1985, Commission on State Mandates should determine if claim meets either definition found in Gov.Code § 17514 or Rev. & Tax Code §§ 2207, 2207.5; only if it does should claim be allowed. 68 Ops.Atty.Gen. 244, 9-11-85.

§ 17514.5. Repealed by Stats.1993, c. 216 (A.B.843), § 1

Historical and Statutory Notes

The repealed section, added by Stats.1984, c. 1459, § 1, defined the term "cost savings authorized by the state."

§ 17515. County

"County" means any chartered or general law county. "County" includes a city and county.

(Added by Stats.1984, c. 1459, § 1.)

§ 17516. Executive order

"Executive order" means any order, plan, requirement, rule, or regulation issued by any of the following:

(a) The Governor.

(b) Any officer or official serving at the pleasure of the Governor.

(c) Any agency, department, board, or commission of state government.

"Executive order" does not include any order, plan, requirement, rule, or regulation issued by the State Water Resources Control Board or by any regional water quality control board pursuant to Division 7 (commencing with Section 13000) of the Water Code. It is the intent of the Legislature that the State Water Resources Control Board and regional water quality control boards will not adopt enforcement orders against publicly owned dischargers which mandate major waste water treatment facility construction costs unless federal financial assistance and state financial assistance pursuant to the Clean Water Bond Act of 1970 and 1974, is simultaneously made available. "Major" means either a new treatment facility or an addition to an existing facility, the cost of which is in excess of 20 percent of the cost of replacing the facility.

(Added by Stats.1984, c. 1459, § 1.)

§ 17517. Fund

"Fund" means the State Mandates Claims Fund.

(Added by Stats.1984, c. 1459, § 1.)

§ 17518. Local agency

"Local agency" means any city, county, special district, authority, or other political subdivision of the state.

(Added by Stats.1984, c. 1459, § 1.)

§ 17519. School district

"School district" means any school district, community college district, or county superintendent of schools.

(Added by Stats.1984, c. 1459, § 1.)

§ 17520. Special district

"Special district" means any agency of the state which performs governmental or proprietary functions within limited boundaries. "Special district"

Article 1 was added by Stats.1984, c. 1459, § 1.

§ 17550. Reimbursement of local agencies and school districts

Reimbursement of local agencies and school districts for costs mandated by the state shall be provided pursuant to this chapter.

(Added by Stats.1984, c. 1459, § 1.)

Law Review Commentaries

State environmental permit fees charged to federal facilities: distinguishing legal user fees from illegal taxes. Samuel D. McVey, 29 Santa Clara L.Rev. 879 (1989).

§ 17551. Hearing and decision on claims

(a) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the state for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution.

(b) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district filed on or after January 1, 1985, that the Controller has incorrectly reduced payments to the local agency or school district pursuant to paragraph (2) of subdivision (d) of Section 17561.

(Added by Stats.1984, c. 1459, § 1. Amended by Stats.1985, c. 179, § 5, eff. July 8, 1985, operative Jan. 1, 1985; Stats.1986, c. 879, § 2.)

Historical and Statutory Notes

Operative effect of 1985 amendment, see Historical and Statutory Notes under Education Code § 42243.8.

Amendment of this section by § 2.5 of Stats. 1986, c. 879, failed to become operative under the provisions of § 56 of that Act.

Code of Regulations References

within a reasonable time. The test claim may be based upon estimated costs that a local agency or school district may incur as a result of the statute or executive order and may be filed at any time after the statute is enacted or the executive order is adopted. The claim shall be submitted in a form prescribed by the commission. After a hearing in which the claimant and any other interested organization or individual may participate, the commission shall determine if there are costs mandated by the state.

(Added by Stats.1984, c. 1459, § 1.)

Representation at hearing, see 2 Cal. Code of Regs. § 1187.8.
Test claim filing, see 2 Cal. Code of Regs. § 1183.

§ 17556. Findings

The commission shall not find costs mandated by the state, as defined in Section 17514, in any claim submitted by a local agency or school district, if, after a hearing, the commission finds that:

(a) The claim is submitted by a local agency or school district which requested legislative authority for that local agency or school district to implement the program specified in the statute, and that statute imposes costs upon that local agency or school district requesting the legislative authority. A resolution from the governing body or a letter from a delegated representative of the governing body of a local agency or school district which requests authorization for that local agency or school district to implement a given program shall constitute a request within the meaning of this paragraph.

(b) The statute or executive order affirmed for the state that which had been declared existing law or regulation by action of the courts.

(c) The statute or executive order implemented a federal law or regulation and resulted in costs mandated by the federal government, unless the statute or executive order mandates costs which exceed the mandate in that federal law or regulation.

(d) The local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increased level of service.

(e) The statute or executive order provides for offsetting savings to local agencies or school districts which result in no net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate.

(f) The statute or executive order imposed duties which were expressly included in a ballot measure approved by the voters in a statewide election.

(g) The statute created a new crime or infraction, eliminated a crime or infraction, or changed the penalty for a crime or infraction, but only for that portion of the statute relating directly to the enforcement of the crime or infraction.

(Added by Stats.1984, c. 1459, § 1. Amended by Stats.1986, c. 879, § 4; Stats.1989, c. 589, § 1.)

Code of Regulations References

Filing request for reimbursement, see 2 Cal. Code of Regs. § 1184.

Notes of Decisions

Validity 1

---

1. Validity

This section prohibiting commission on state mandates from finding costs mandated by State if it finds that local government has authority to levy service charges, fees, or assessments sufficient to pay for mandated program or increased level of service is facially constitutional under state constitutional provision requiring State to provide subvention of funds to reimburse local government for costs of state-mandated new program or higher level of service; considered in its context, section effectively and properly construes term "costs" in constitutional provision as excluding expenses that are recoverable from sources other than taxes. County of Fresno v. State (1991) 280 Cal.Rptr. 92, 53 Cal.3d 482, 808 P.2d 235.

§ 17557. Amount to be subvened; parameters and guidelines; allocation formula or uniform allowance; specifying fiscal years for reimbursement, test claim

If the commission determines there are costs mandated by the state pursuant to Section 17555, it shall determine the amount to be subvened to local agencies and school districts for reimbursement. In so doing it shall adopt parameters and guidelines for reimbursement of any claims relating to the statute or executive order. The successful test claimants shall submit proposed parameters and guidelines within 60 days of adoption of a statement of decision on a test claim. At the request of a successful test claimant, the commission may provide for one or more extensions of this 60–day period at any time prior to its adoption of the parameters and guidelines and for any length of time the commission specifies. If proposed parameters and guidelines are not submitted within the 60–day period and the commission has not granted an extension, then the commission shall notify the test claimant that the amount of reimbursement the test claimant is entitled to for the first 12 months of incurred costs will be reduced by 20 percent, unless the test claimant can demonstrate to the commission why an extension of the 60–day period is justified. A local agency, school district, and the state may file a claim or request with the commission to amend, modify, or supplement the parameters or guidelines. The commission may, after public notice and hearing, amend, modify, or supplement the parameters and guidelines.

In adopting parameters and guidelines, the commission may adopt an allocation formula or uniform allowance which would provide for reimbursement of each local agency or school district of a specified amount each year.

The parameters and guidelines adopted by the commission shall specify the fiscal years for which local agencies and school districts shall be reimbursed for

(c) Any savings achieved by the district's efficient and prudent expenditure of these funds shall be retained by the district in the county fund for expenditure by the district for other high priority capital outlay purposes.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17070.70. Title to property

(a) Title, including, but not limited to, any leasehold interest as set forth in subdivision (c), to all property acquired, constructed, or improved with funds made available under this chapter shall be held by the school district to which the board grants the funds. Title, as defined solely for the purpose of a school district's eligibility to receive funds from the board pursuant to this chapter shall include an order for prejudgment possession issued by a court in an eminent domain proceeding.

(b) The applicant school district shall comply with all laws pertaining to the construction, reconstruction, or alteration of, or addition to, school buildings.

Article 1

LEGISLATIVE INTENT AND DEFINITIONS

§ 22000. Short title

This chapter shall be known and may be cited as the "Uniform Public Construction Cost Accounting Act."

(Formerly § 21000, added by Stats.1983, c. 1054, § 1. Renumbered § 22000 and amended by Stats.1986, c. 1019, § 37.)

Historical and Statutory Notes

1986 Legislation

Renumbering of this section as § 21800 and amendment by Stats.1986, c. 248, was subordinated to its renumbering and amendment by Stats.1986, c. 1019. See Historical Note under Bus. & Prof.C. § 5678.5.

§ 22001. Legislative findings and declarations

The Legislature finds and declares that there is a statewide need to promote uniformity of the cost accounting standards and bidding procedures on construction work performed or contracted by public entities in the state. This chapter provides for the development of cost accounting standards and an alternative method for the bidding of public works projects by public entities.

(Formerly § 21001, added by Stats.1983, c. 1054, § 1. Renumbered § 22001 and amended by Stats.1986, c. 1019, § 38.)

Renumbering of this section as § 21801 and amendment by Stats.1986, c. 248, was subordinated to its renumbering and amendment by Stats.1986, c. 1019. See Historical Note under Bus. & Prof.C. § 5678.5.

§ 22002. Definitions

(a) "Public agency," for purposes of this chapter, means a city, county, city and county, including chartered cities and chartered counties, any special district, and any other agency of the state for the local performance of governmental or proprietary functions within limited boundaries. "Public agency" also includes a nonprofit transit corporation wholly owned by a public agency and formed to carry out the purposes of the public agency.

(b) "Representatives of the construction industry" for purposes of this chapter, means a general contractor, subcontractor, or labor representative with experience in the field of public works construction.

(c) "Public project" means any of the following:

(1) Construction, reconstruction, erection, alteration, renovation, improvement, demolition, and repair work involving any publicly owned, leased, or operated facility.

(2) Painting or repainting of any publicly owned, leased, or operated facility.

(3) In the case of a publicly owned utility system, "public project" shall include only the construction, erection, improvement, or repair of dams, reservoirs, powerplants, and electrical transmission lines of 230,000 volts and higher.

(d) "Public project" does not include maintenance work. For purposes of this section, "maintenance work" includes all of the following:

(1) Routine, recurring, and usual work for the preservation or protection of any publicly owned or publicly operated facility for its intended purposes.

(2) Minor repainting.

(3) Resurfacing of streets and highways at less than one inch.

which pertain to the control of cotton pests.

The membership shall consist of at least one cottongrower from each of the major cotton-growing counties in the state.

Any member of the board who misses two meetings of the board, without the permission of the board, is deemed to have resigned as a member of such board.

The board may meet in regular session each month. The chairman of the board or director may call any other meeting of the board at any time. Each member shall be allowed twenty-eight dollars ($28) per diem and mileage in accordance with the Board of Control rules for attending any meeting of the board.

The board shall annually review the effectiveness of the cotton pest control program.

The amendments to this section enacted at the 1973–74 Regular Session of the Legislature shall become operative February 1, 1975.

SEC. 5. Section 5 of Chapter 170 of the Statutes of 1967 is repealed.

SEC. 6. Section 6007 is added to the Food and Agricultural Code, to read:

6007. This article shall remain in effect only until July 1, 1977, and as of that date is repealed.

SEC. 7. There is hereby appropriated from the Department of Agriculture Fund the sum of three hundred thirty-one thousand nine hundred thirty-eight dollars ($331,938), in augmentation of the 1974–75 support budget of the Department of Food and Agriculture, for the purposes of carrying out the provisions of Article 5 (commencing with Section 6001), Chapter 9, Part 1, Division 4 of the Food and Agricultural Code.

SEC. 8. This act makes an appropriation for the usual current expenses of the state within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 1027

An act to add Section 1720.2 to the Labor Code, relating to the payment of prevailing wage rates.

[Approved by Governor September 23, 1974. Filed with Secretary of State September 23, 1974.]

The people of the State of California do enact as follows:

SECTION 1. Section 1720.2 is added to the Labor Code, to read:

1720.2. For the limited purposes of Article 2 (commencing with Section 1770) of this chapter, "public works" also means any construction work done under private contract when all of the following conditions exist:

(a) The construction contract is between private persons.

(b) The property subject to the construction contract is privately owned, but, upon completion of the construction work, more than 50 percent of the assignable square feet of the property is leased to the state or a political subdivision for its use.

(c) The lease agreement between the lessor and the state or political subdivision, as lessee, was entered into prior to the construction contract.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden on local government.

CHAPTER 1028

An act to amend Section 13810 of the Penal Code, relating to the California Council on Criminal Justice, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 23, 1974. Filed with Secretary of State September 23, 1974.]

The people of the State of California do enact as follows:

SECTION 1. Section 13810 of the Penal Code is amended to read:

13810. There is hereby created in the state government the California Council on Criminal Justice, which shall be composed of the following members: the Attorney General; the Administrative Director of the Courts; 14 members appointed by the Governor, three of whom shall be the Commissioner of the Department of the Highway Patrol, the Director of the Department of Corrections, and the Director of the Youth Authority; five members appointed by the Senate Rules Committee; and six members appointed by the Speaker of the Assembly.

The appointees of the Governor shall include: a chief of police, a district attorney, a sheriff, a public defender, a county probation officer, one member of a city council, one member of a county board of supervisors, a representative of the Commission on Peace Officer Standards and Training, a faculty member of a college or university qualified in the field of criminology, police science, or law, and a person qualified in the general field of research, development, and systems technology. The Speaker of the Assembly and Senate Committee on Rules shall include among their appointments a judge designated by the Judicial Council, one private citizen, a representative of the cities and a representative of the counties, and seven persons who shall be elected officials of county or city government or appointed officials of county or city criminal justice

CHAPTER 1224

An act to amend Sections 1773.5, 1775, and 1777.5 of, to add Sections 1720.4, 1771.5, 1771.6, 1771.7, and 1777.1 to, and to repeal and add Section 1777.7 of, the Labor Code, relating to public works.

[Approved by Governor October 1, 1989. Filed with Secretary of State October 1, 1989.]

The people of the State of California do enact as follows:

SECTION 1. Section 1720.4 is added to the Labor Code, to read:

1720.4. For the limited purposes of this chapter, "public works" shall not include any otherwise covered work which meets all the following conditions:

(a) The work is performed entirely by volunteer labor.

(b) The work involves facilities or structures which are, or will be, used exclusively by, or primarily for or on behalf of, private nonprofit community organizations including, but not limited to, charitable, youth, service, veterans, and sports groups or associations.

(c) The work will not have an adverse impact on employment.

(d) The work is approved by the Director of Industrial Relations as meeting the requirements of this section.

For purposes of subdivision (c), the director shall request information on whether or not the work will have an adverse impact on employment from the appropriate local or state organization of duly authorized employee representatives of workers employed on public works.

SEC. 2. Section 1771.5 is added to the Labor Code, to read:

1771.5. (a) Nothwithstanding Section 1771, an awarding body shall not require the payment of the general prevailing rate of per diem wages or the general prevailing rate of per diem wages for holiday and overtime work for any public works project of twenty-five thousand dollars ($25,000) or less when the project is for construction work, or for any public works project of fifteen thousand dollars ($15,000) or less when the project is for alteration, demolition, repair, or maintenance work, if the awarding body elects to initiate and enforce a labor compliance program pursuant to subdivision (b) for every public works project under the authority of the awarding body.

(b) For the purposes of this section, a labor compliance program shall include, but not be limited to, the following requirements:

(1) All bid invitations and public works contracts shall contain appropriate language concerning the requirements of this chapter.

(2) A prejob conference shall be conducted with the contractor and subcontractors to discuss federal and state labor law requirements applicable to the contract.

(3) Project contractors and subcontractors shall maintain and furnish, at signated time, a certified copy of each w ly payroll

containing a statement of compliance signed under penalty of perjury.

(4) The awarding body shall review, and, if appropriate, audit payroll records to verify compliance with this chapter.

(5) The awarding body shall withhold contract payments when payroll records are delinquent or inadequate.

(6) The awarding body shall withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment has occurred.

SEC. 3. Section 1771.6 is added to the Labor Code, to read:

1771.6. Notwithstanding Sections 1730, 1731, and 1734, any political subdivision which enforces this chapter in accordance with Section 1771.5 shall, at the expiration of 90 days after the completion of the contract and the formal acceptance of the job, deposit all penalties or forfeitures withheld from any contract payment in the general fund of the political subdivision. Any court collecting any fines or penalties under the criminal provisions of this chapter, or any of the labor laws pertaining to public works, when the fines and penalties resulted from enforcement actions by a political subdivision pursuant to Section 1771.5, shall deposit the fines or penalties in the general fund of the political subdivision.

SEC. 4. Section 1771.7 is added to the Labor Code, to read:

1771.7. A contractor may appeal an enforcement action by a political subdivision pursuant to Section 1771.5 to the Director of Industrial Relations. Any ruling by the director shall be final and, notwithstanding Section 1732, any appeal shall waive the contractor's right to bring court action on the same issue.

SEC. 5. Section 1773.5 of the Labor Code is amended to read:

1773.5. The Director of Industrial Relations may establish rules and regulations for the purpose of carrying out this chapter, including, but not limited to, the responsibilities and duties of awarding bodies under this chapter.

SEC. 6. Section 1775 of the Labor Code is amended to read:

1775. The contractor shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by him or her or by any subcontractor under him or her. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of the contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the contractor in meeting his or her prevailing wage obligations, or a contractor's willful failure to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages is not excusable if the c actor had knowledge of his or her oblig s under this part. e difference between the prevailing wag ates and the

amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the contractor, and the body awarding the contract shall cause to be inserted in the contract a stipulation that this section will be complied with.

To the extent that there is insufficient money due a contractor to cover all penalties forfeited and amounts due in accordance with this section, or in accordance with Section 1813, and in all cases where the contract does not provide for a money payment by the awarding body to the contractor, the awarding body shall notify the Division of Labor Standards Enforcement of the violation and the Division of Labor Standards Enforcement, if necessary with the assistance of the awarding body, may maintain an action in any court of competent jurisdiction to recover the penalties and the amounts due provided in this section. This action shall be commenced not later than 90 days after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 90 days after acceptance of the public work, whichever last occurs. No issue other than that of the liability of the contractor for the penalties allegedly forfeited and amounts due shall be determined in the action, and the burden shall be upon the contractor to establish that the penalties and amounts demanded in the action are not due.

Out of any money withheld, recovered, or both there shall first be paid the amount due each worker, and if insufficient funds are withheld, recovered, or both to pay each worker in full, the money shall be prorated among all workers.

SEC. 7. Section 1775 of the Labor Code is amended to read:

1775. The employer shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by the contractor or under subcontract by the subcontractor. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of the contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the contractor in meeting his or her prevailing wage obligations, or a contractor's willful failure to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages is not excusable if the contractor had knowledge of his or her obligations under this part. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the employer, and the body awarding the contract shall cause to be inserted in the contract a stipulation that this section will be complied with.

To the extent that there is insufficient money due an employer to cover all penalties forfeited and amounts due in accordance with this section, or in accordance with Section 1813, and in all cases where the contract does not provide for a money payment by the awarding body to the employer, the awarding body shall notify the Division of Labor Standards Enforcement of the violation and the Division of Labor Standards Enforcement, if necessary with the assistance of the awarding body, may maintain an action in any court of competent jurisdiction to recover the penalties and the amounts due under this section. This action shall be commenced not later than six months after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than six months after acceptance of the public work, whichever last occurs. No issue other than that of the liability of the employer for the penalties allegedly forfeited and amounts due shall be determined in the action, and the burden shall be upon the employer to establish that the penalties and amounts demanded in the action are not due.

Out of any money withheld, recovered, or both, there shall first be paid the amount due each worker and if insufficient funds are withheld, recovered, or both, to pay each worker in full, the money shall be prorated among all the workers.

"Employer," as used in this section, means the contractor or the subcontractor, whichever one employs the worker.

SEC. 8. Section 1775 of the Labor Code is amended to read:

1775. The contractor shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by him or her or by any subcontractor under him or her. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of the contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the contractor in meeting his or her prevailing wage obligations, or a contractor's willful failure to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages is not excusable if the contractor had knowledge of his or her obligations under this part. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the contractor, and the body awarding the contract shall cause to be inserted in the contract a stipulation that this section will be complied with.

To the extent that there is insufficient money due a contractor to cover all wages and penalties forfeited and amounts due in accordance with this section, or in accordance with Section 1813, and

in all cases where the contract does not provide for a money payment by the awarding body to the contractor, the awarding body shall notify the Division of Labor Standards Enforcement of the violation and the Division of Labor Standards Enforcement, if necessary with the assistance of the awarding body, may maintain an action in any court of competent jurisdiction to recover the wages and penalties due under this section. This action shall be commenced not later than 90 days after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 90 days after acceptance of the public work, whichever last occurs. The division may maintain a court action whether or not it has an assignment of the wage claim of the worker. No issue other than that of the liability of the contractor for the wages and penalties due shall be determined in the action, and the burden shall be upon the contractor to establish that the penalties demanded in the action are not due.

Out of any money withheld, recovered, or both, there shall first be paid the amount due each worker and if insufficient funds are withheld, recovered, or both, to pay each worker in full, the money shall be prorated among all the workers.

SEC. 9. Section 1775 of the Labor Code is amended to read:

1775. The employer shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by the contractor or under subcontract by the subcontractor. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of the contractor's mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages, or the previous record of the contractor in meeting his or her prevailing wage obligations, or a contractor's willful failure to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rate of prevailing wages is not excusable if the contractor had knowledge of his or her obligations under this part. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the employer, and the body awarding the contract shall cause to be inserted in the contract a stipulation that this section will be complied with.

To the extent that there is insufficient money due an employer to cover all wages and penalties forfeited and amounts due in accordance with this section, or in accordance with Section 1813, and in all cases where the contract does not provide for a money payment by the awarding body to the, employer the awarding body shall notify the Division of Labor Standards Enforcement of the violation and the Division of Labor Standards Enforcement, if necessary with

the assistance of the awarding body, may maintain an action in any court of competent jurisdiction to recover the wages and penalties due under this section. This action shall be commenced not later than six months after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than six months after acceptance of the public work, whichever last occurs. The division may maintain a court action whether or not it has an assignment of the wage claim of the worker. No issue other than that of the liability of the employer for the wages and penalties due shall be determined in the action, and the burden shall be upon the employer to establish that the wages and penalties demanded in the action are not due.

Out of any money withheld, recovered, or both, there shall first be paid the amount due each worker and if insufficient funds are withheld, recovered, or both, to pay each worker in full, the money shall be prorated among all the workers.

"Employer," as used in this section, means the contractor or the subcontractor, whichever one employs the worker.

SEC. 10. Section 1777.1 is added to the Labor Code, to read:

1777.1. (a) Whenever any contractor or subcontractor performing a public works project pursuant to this chapter is found by the Labor Commissioner to be in violation of this chapter with intent to defraud, except Section 1777.5, the contractor or subcontractor or any firm, corporation, partnership, or association in which the contractor or subcontractor has a substantial interest shall be ineligible to bid on or to receive any public works contract for a period of not less than one year or more than three years. The period of debarment shall run from the date the determination of the violation is made by the Labor Commissioner.

(b) Whenever any contractor or subcontractor performing a public works project pursuant to this chapter is found by the Labor Commissioner to be in willful violation of this chapter, except Section 1777.5, the contractor or subcontractor or any firm, corporation, partnership, or association in which the contractor or subcontractor has a substantial interest shall be ineligible to bid on or to receive any public works contract for a period up to three years for each second and subsequent violation occurring within three years of a separate and previous willful violation of this chapter. These periods of debarment shall run from the date the determination of the violation is made by the Labor Commissioner.

(c) Any determination by the Labor Commissioner shall be made after a full investigation by the Labor Commissioner and a fair and impartial hearing and reasonable notice.

(d) A willful violation occurs when the contractor or subcontractor knew or reasonably should have known of his or her obligations under the public works law and deliberately fails or refuses to comply with its provisions.

(e) The Labor Commissioner shall promulgate rules and regulations for the administration and enforcement of this section,

the definition of terms, and appropriate penalties.

SEC. 11. Section 1777.5 of the Labor Code is amended to read:

1777.5. Nothing in this chapter shall prevent the employment of properly registered apprentices upon public works.

Every such apprentice shall be paid the standard wage paid to apprentices under the regulations of the craft or trade at which he or she is employed, and shall be employed only at the work of the craft or trade to which he or she is registered.

Only apprentices, as defined in Section 3077, who are in training under apprenticeship standards and written apprentice agreements under Chapter 4 (commencing with Section 3070) of Division 3, are eligible to be employed on public works. The employment and training of each apprentice shall be in accordance with the apprenticeship standards and apprentice agreements under which he or she is training.

When the contractor to whom the contract is awarded by the state or any political subdivision, or any subcontractor under him or her, in performing any of the work under the contract or subcontract, employs workers in any apprenticeable craft or trade, the contractor and subcontractor shall apply to the joint apprenticeship committee administering the apprenticeship standards of the craft or trade in the area of the site of the public work for a certificate approving the contractor or subcontractor under the apprenticeship standards for the employment and training of apprentices in the area or industry affected. However, approval as established by the joint apprenticeship committee or committees shall be subject to the approval of the Administrator of Apprenticeship. The joint apprenticeship committee or committees, subsequent to approving the subject contractor or subcontractor, shall arrange for the dispatch of apprentices to the contractor or subcontractor in order to comply with this section. Every contractor and subcontractor shall submit contract award information to the applicable joint apprenticeship committee which shall include an estimate of journeyman hours to be performed under the contract, the number of apprentices to be employed, and the approximate dates the apprentices will be employed. There shall be an affirmative duty upon the joint apprenticeship committee or committees administering the apprenticeship standards of the craft or trade in the area of the site of the public work to ensure equal employment and affirmative action in apprenticeship for women and minorities. Contractors or subcontractors shall not be required to submit individual applications for approval to local joint apprenticeship committees provided they are already covered by the local apprenticeship standards. The ratio of work performed by apprentices to journeymen who shall be employed in the craft or trade on the public work may be the ratio stipulated in the apprenticeship standards under which the joint apprenticeship committee operates, but, except as otherwise prov d in this section, in no case shall the ratio be less than one hour of apprentices

work for every five hours of labor performed by a journeyman. However, the minimum ratio for the land surveyor classification shall not be less than one apprentice for each five journeymen.

Any ratio shall apply during any day or portion of a day when any journeyman, or the higher standard stipulated by the joint apprenticeship committee, is employed at the job site and shall be computed on the basis of the hours worked during the day by journeymen so employed, except for the land surveyor classification. The contractor shall employ apprentices for the number of hours computed as above before the end of the contract. However, the contractor shall endeavor, to the greatest extent possible, to employ apprentices during the same time period that the journeymen in the same craft or trade are employed at the job site. Where an hourly apprenticeship ratio is not feasible for a particular craft or trade, the Division of Apprenticeship Standards, upon application of a joint apprenticeship committee, may order a minimum ratio of not less than one apprentice for each five journeymen in a craft or trade classification.

The contractor or subcontractor, if he or she is covered by this section, upon the issuance of the approval certificate, or if he or she has been previously approved in the craft or trade, shall employ the number of apprentices or the ratio of apprentices to journeymen stipulated in the apprenticeship standards. Upon proper showing by the contractor that he or she employs apprentices in the craft or trade in the state on all of his or her contracts on an annual average of not less than one hour of apprentice work for every five hours of labor performed by a journeyman, or in the land surveyor classification, one apprentice for each five journeymen, the Division of Apprenticeship Standards may grant a certificate exempting the contractor from the 1-to-5 hourly ratio as set forth in this section. This section shall not apply to contracts of general contractors or to contracts of specialty contractors not bidding for work through a general or prime contractor, when the contracts of general contractors or those specialty contractors involve less than thirty thousand dollars ($30,000) or 20 working days. Any work performed by a journeyman in excess of eight hours per day or 40 hours per week, shall not be used to calculate the hourly ratio required by this section.

"Apprenticeable craft or trade," as used in this section, means a craft or trade determined as an apprenticeable occupation in accordance with rules and regulations prescribed by the Apprenticeship Council. The joint apprenticeship committee shall have the discretion to grant a certificate, which shall be subject to the approval of the Administrator of Apprenticeship, exempting a contractor from the 1-to-5 ratio set forth in this section when it finds that any one of the following conditions is met:

(a) Unemployment for the previous three-month period in the area e eds an average of 15 percent.

(b) The number of apprentices in training in such area exceed

ratio of 1 to 5.

(c) There is a showing that the apprenticeable craft or trade is replacing at least one-thirtieth of its journeymen annually through apprenticeship training, either on a statewide basis, or on a local basis.

(d) Assignment of an apprentice to any work performed under a public works contract would create a condition which would jeopardize his or her life or the life, safety, or property of fellow employees or the public at large or if the specific task to which the apprentice is to be assigned is of such a nature that training cannot be provided by a journeyman.

When exemptions are granted to an organization which represents contractors in a specific trade from the 1-to-5 ratio on a local or statewide basis the member contractors will not be required to submit individual applications for approval to local joint apprenticeship committees, if they are already covered by the local apprenticeship standards.

A contractor to whom the contract is awarded, or any subcontractor under him or her, who, in performing any of the work under the contract, employs journeymen or apprentices in any apprenticeable craft or trade and who is not contributing to a fund or funds to administer and conduct the apprenticeship program in any craft or trade in the area of the site of the public work, to which fund or funds other contractors in the area of the site of the public work are contributing, shall contribute to the fund or funds in each craft or trade in which he or she employs journeymen or apprentices on the public work in the same amount or upon the same basis and in the same manner as the other contractors do, but where the trust fund administrators are unable to accept the funds, contractors not signatory to the trust agreement shall pay a like amount to the California Apprenticeship Council. The contractor or subcontractor may add the amount of the contributions in computing his or her bid for the contract. The Division of Labor Standards Enforcement is authorized to enforce the payment of the contributions to the fund or funds as set forth in Section 227.

The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. The stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.

All decisions of the joint apprenticeship committee under this section are subject to Section 3081.

SEC. 12. Section 1777.7 of the Labor Code is repealed.

SEC. 13. Section 1777.7 is added to the Labor Code, to read:

1777.7. (a) In the event a contractor or subcontractor willfully fails to comply with Section 1777.5, the Director of Industrial Relations shall deny to the contractor or subcontractor, both individually and in the name of the business entity under which the contractor or subcontractor is doing business, the right to bid on, or to receive, any public works contract for a period of up to one year

for the first violation and for a period of up to three years for the second and subsequent violations. Each period of debarment shall run from the date the determination of noncompliance by the Administrator of Apprenticeship becomes an order of the California Apprenticeship Council.

(b) A contractor or subcontractor who violates Section 1777.5 shall forfeit as a civil penalty the sum of fifty dollars ($50) for each calendar day of noncompliance. Notwithstanding Section 1727, upon receipt of a determination that a civil penalty has been imposed, the awarding body shall withhold the amount of the civil penalty from contract progress payments then due or to become due.

(c) In lieu of the penalty provided for in subdivision (a) or (b), the director may for a first time violation and with the concurrence of the joint apprenticeship committee, order the contractor or subcontractor to provide apprentice employment equivalent to the work hours that would have been provided for apprentices during the period of noncompliance.

(d) Any funds withheld by the awarding body pursuant to this section shall be deposited in the General Fund if the awarding body is a state entity, or in the equivalent fund of an awarding body if the awarding body is an entity other than the state.

(e) The interpretation and enforcement of Section 1777.5 and this section shall be in accordance with the rules and procedures of the California Apprenticeship Council.

SEC. 14. (a) Section 7 of this bill incorporates amendments to Section 1775 of the Labor Code proposed by both this bill and AB 254. It shall only become operative if (1) both bills are enacted and become effective January 1, 1990, (2) each bill amends Section 1775 of the Labor Code, and (3) SB 197 is not enacted or as enacted does not amend that section, and (4) this bill is enacted after AB 254, in which case Sections 6, 8, and 9 of this bill shall not become operative.

(b) Section 8 of this bill incorporates amendments to Section 1775 of the Labor Code proposed by both this bill and SB 197. It shall only become operative if (1) both bills are enacted and become effective January 1, 1990, (2) each bill amends Section 1775 of the Labor Code, (3) AB 254 is not enacted or as enacted does not amend that section, and (4) this bill is enacted after SB 197 in which case Sections 6, 7, and 9 of this bill shall not become operative.

(c) Section 9 of this bill incorporates amendments to Section 1775 of the Labor Code proposed by this bill, AB 254, and SB 197. It shall only become operative if (1) all three bills are enacted and become effective January 1, 1990, (2) all three bills amend Section 1775 of the Labor Code, and (3) this bill is enacted after AB 254 and SB 197, in which case Sections 6, 7, and 8 of this bill shall not become operative.

BILL NUMBER: AB 302 CHAPTERED
BILL TEXT

CHAPTER 220
FILED WITH SECRETARY OF STATE JULY 28, 1999
APPROVED BY GOVERNOR JULY 28, 1999
PASSED THE SENATE JULY 15, 1999
PASSED THE ASSEMBLY MAY 27, 1999
AMENDED IN ASSEMBLY MARCH 25, 1999

INTRODUCED BY Assembly Member Floyd

FEBRUARY 8, 1999

An act to amend Section 1720.3 of the Labor Code, relating to public works.

LEGISLATIVE COUNSEL'S DIGEST

AB 302, Floyd. Public works: prevailing wages.

(1) Existing law defines the term "public works" for purposes of requirements regarding the payment of prevailing wages, the regulation of working hours, and the securing of workers' compensation for public works projects. Existing law further requires that, except as specified, not less than the general prevailing rate of per diem wages be paid to workers employed on public works and imposes misdemeanor penalties for a violation of this requirement.

Existing law provides that for the purposes of provisions of law relating to the payment of prevailing wages, "public works" means, among other things, the hauling of refuse from a public works site to an outside disposal location with respect to contracts involving any state agency, including the California State University and the University of California.

This bill would revise the definition of "public works" for these purposes to include the hauling of refuse from a public works site to an outside disposal location with respect to contracts involving any political subdivision of the state, thereby requiring the payment of prevailing wages in connection with all such contracts involving any local public entity.

Because the violation of prevailing wage requirements by local public entities when engaged in these public works projects would result in the imposition of misdemeanor penalties, this bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 1720.3 of the Labor Code is amended to read:

1720.3. For the limited purposes of Article 2 (commencing with

Section 1770), "public works" also means the hauling of refuse from a public works site to an outside disposal location, with respect to contracts involving any state agency, including the California State University and the University of California, or any political subdivision of the state.

SEC. 2. No reimbursement is required by this act pursuant to Section 6 of Article XIIIB of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIIIB of the California Constitution.

CHAPTER 881
FILED WITH SECRETARY OF STATE SEPTEMBER 29, 2000
APPROVED BY GOVERNOR SEPTEMBER 28, 2000
PASSED THE SENATE AUGUST 30, 2000
PASSED THE ASSEMBLY AUGUST 28, 2000
AMENDED IN ASSEMBLY AUGUST 23, 2000
AMENDED IN ASSEMBLY AUGUST 18, 2000
AMENDED IN ASSEMBLY AUGUST 7, 2000
AMENDED IN SENATE APRIL 24, 2000

INTRODUCED BY Senator Burton

FEBRUARY 25, 2000

An act to amend Section 1720 of the Labor Code, relating to public contracts.

LEGISLATIVE COUNSEL'S DIGEST

SB 1999, Burton. Public work.

Existing law defines public works and establishes certain requirements that must be met by persons who enter into contracts for public works. Those requirements include provisions generally known as the prevailing wage laws. The prevailing wage laws require that all workers employed on public works be paid the general prevailing rate of per diem wages, as determined by the Director of Industrial Relations.

This bill would revise the definition of public works by providing that "construction" includes work performed during the design and preconstruction phases of construction including, but not limited to, inspection and land surveying work. By requiring local government entities to comply with the provisions affecting public works, including the prevailing wage laws, this bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. Section 1720 of the Labor Code is amended to read:

1720. As used in this chapter, "public works" means:

(a) Construction, alteration, demolition, or repair work done under contract and paid for in whole or in part out of public funds, except work done directly by any public utility company pursuant to

order of the Public Utilities Commission or other public authority. For purposes of this subdivision, "construction" includes work performed during the design and preconstruction phases of construction including, but not limited to, inspection and land surveying work.

(b) Work done for irrigation, utility, reclamation, and improvement districts, and other districts of this type. "Public work" shall not include the operation of the irrigation or drainage system of any irrigation or reclamation district, except as used in Section 1778 relating to retaining wages.

(c) Street, sewer, or other improvement work done under the direction and supervision or by the authority of any officer or public body of the state, or of any political subdivision or district thereof, whether the political subdivision or district operates under a freeholder's charter or not.

(d) The laying of carpet done under a building lease-maintenance contract and paid for out of public funds.

(e) The laying of carpet in a public building done under contract and paid for in whole or part out of public funds.

(f) Public transportation demonstration projects authorized pursuant to Section 143 of the Streets and Highways Code.

SEC. 2. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

AMENDED IN SENATE JUNE 24, 1999

INTRODUCED BY Assembly Member Steinberg

MARCH 4, 1999

An act to amend Sections 1723, 1726, 1727, and 1773.1 of, to add Sections 1741 and 1743 to, to add and repeal Sections 1742 and 1742.1 of, to repeal Sections 1730, 1731, 1732, 1733, and 1771.7 of, to repeal and amend Section 1775 of, and to repeal and add Section 1771.6 of, the Labor Code, relating to public works.

LEGISLATIVE COUNSEL'S DIGEST

AB 1646, Steinberg. Public works: payments.

(1) Existing law regulating public works contracts requires the awarding body of a public works contract to withhold and retain from payments to the contractor all wages and penalties that have been forfeited pursuant to the contract or existing law. The awarding body is required to transfer all wages and penalties retained, to the Labor Commissioner for disbursement pursuant to specified provisions whenever a contractor fails to bring a suit against the awarding body for recovery of wages and penalties withheld within 90 days after the completion of the contract and formal acceptance of the job.

This bill would require the awarding body to report promptly any suspected violations of the laws regulating public works contracts to the Labor Commission and to retain all amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner.

(2) Existing law authorizes the contractor to bring suit for the limited purpose of recovery of the penalties or forfeitures withheld. Existing law permits the Division of Labor Standards Enforcement to intervene in a contractor's suit for recovery of amounts withheld, provides for the deposit of wages for workers who cannot be located into the Industrial Relations Unpaid Wages Fund, and provides for the deposit of penalties into the General Fund. Existing law, until January 1, 2003, requires a contractor to withhold moneys due a subcontractor in an amount sufficient to pay the wages that are the subject of a claim filed with the Division of Labor Standards Enforcement, as directed by the division, if the body awarding the public works contract has not withheld sufficient moneys to pay the wage claims. Existing law requires the contractor to pay those moneys to the subcontractor after receipt of notification that the

claim has been resolved, or to pay those moneys to the awarding body, under specified circumstances.

This bill would repeal these provisions and instead would require the Labor Commissioner to issue a civil wage and penalty assessment to the contractor or subcontractor or both if the Labor Commissioner determines after investigation that there has been a violation of the laws regulating public works contracts. The bill would permit an affected contractor or subcontractor to obtain review of a civil wage and penalty assessment by transmitting a written request for a hearing to the office of the Labor Commissioner that appears on the assessment within 60 days after service of the assessment and would require an impartial hearing officer, until January 1, 2005, and then an administrative law judge appointed by the Director of Industrial Relations to commence a hearing within 90 days of receipt of the request. The bill would permit an affected contractor or subcontractor to obtain review of the decision of the director, until January 1, 2005, and then an administrative law judge by filing a petition for a writ of mandate to the superior court within 45 days after service of the decision. The bill would provide for liquidated damages in an amount equal to the amount of unpaid wages, as specified. The bill would also authorize informal settlement meetings.

The bill would provide that the contractor and subcontractor are jointly and severally liable for all amounts due pursuant to a final order or a judgment on that final order, but would require the Labor Commissioner to collect amounts due from the subcontractor before pursuing the claim against the contractor. The bill would require that the wage claim be satisfied from the amounts collected prior to those amounts being applied to penalties and that the money be prorated among all workers if an insufficient amount is recovered to pay each worker in full. The bill would require wages for workers who cannot be located to be placed in the Industrial Relations Unpaid Wage Fund, a continuously appropriated fund, and penalties to be paid into the General Fund.

(3) Existing law requires any political subdivision that enforces the laws regulating public works contracts and any court collecting fines or penalties that result from enforcement actions by political subdivisions to deposit penalties or forfeitures withheld from any contract payment in the General Fund of the political subdivision. Existing law authorizes a contractor to appeal an enforcement action by a political subdivision to the Director of Industrial Relations.

The bill would repeal and recast this provision to apply to any awarding body that enforces the laws regulating public works contracts in accordance with specified provisions of existing law. The bill would require such an awarding body to provide written notice of the withholding of contract payments to the contractor and subcontractor, as specified. The withholding of contract payments would be reviewable in the same manner as a civil penalty order of the Labor Commissioner.

(4) Existing law provides that per diem wages shall be deemed to include employer payments for health and welfare, pension, vacation, travel, and subsistence pay, apprenticeship or other training programs, and similar purposes. Existing law requires the representative of any craft, classification, or type of worker needed to execute a public works contract entered into with the state to file with the Department of Industrial Relations, fully executed copies of the collective bargaining agreements for the particular craft, classification, or type of work involved for the purposes of determining the per diem wages.

This bill would specify the employer contributions, costs, and

payments that employer payments may include and would provide that employer payments not required to be provided by state or federal law are a credit against the obligation to pay the general prevailing rate of wages. However, credits for employer payments would not reduce the obligation to pay the hourly straight time or overtime wages found to be prevailing. This bill would expand the requirement that copies of collective bargaining agreements be filed with the Department of Industrial Relations to apply to representatives of any craft, classification, or type of worker needed to execute a public works contract entered into with a public entity other than the state. The bill would revise the filing requirements to permit, if the collective bargaining agreement has not been formalized, the temporary filing of a typescript of the final draft accompanied by a statement under penalty of perjury as to its effective date. Because this bill would impose additional duties on local agency employers, expand the scope of the existing crime of perjury, and provide that a violation of these provisions is a misdemeanor, this bill would impose a state-mandated local program.

(5) This bill provides that it would become operative on July 1, 2001.

(6) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed $1,000,000 statewide and other procedures for claims whose statewide costs exceed $1,000,000.

This bill would provide that with regard to certain mandates no reimbursement is required by this act for a specified reason.

With regard to any other mandates, this bill would provide that, if the Commission on State Mandates determines that the bill contains costs so mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

THE PEOPLE OF THE STATE OF CALIFORNIA DO ENACT AS FOLLOWS:

SECTION 1. The Legislature declares that its intent in adopting this act is to provide contractors and subcontractors with a prompt administrative hearing in the event that the contractor or subcontractor is alleged by the Labor Commissioner or an awarding body to have violated Labor Code provisions governing the obligations of contractors and subcontractors on public works projects, and to provide that the exclusive method for review of the decision after the administrative hearing is by petition for writ of mandate under Section 1094.5 of the Code of Civil Procedure. It is not the intent of this act to preclude remedies otherwise authorized by law to remedy violations of this chapter.

SEC. 2. Section 1723 of the Labor Code is amended to read:

1723. "Worker" includes laborer, worker, or mechanic.

SEC. 3. Section 1726 of the Labor Code is amended to read:

1726. The body awarding the contract for public work shall take cognizance of violations of the provisions of this chapter committed in the course of the execution of the contract, and shall promptly report any suspected violations to the Labor Commissioner.

If the awarding body determines as a result of its own investigation that there has been a violation of this chapter and withholds contract payments, the procedures in Section 1771.6 shall be followed.

SEC. 4. Section 1727 of the Labor Code is amended to read:

1727. (a) Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom all amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner under this chapter. The amounts required to satisfy a civil wage and penalty assessment shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.

(b) If the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a subcontractor's violations, the contractor shall, upon the request of the Labor Commissioner, withhold sufficient money due the subcontractor under the contract to satisfy the assessment and transfer the money to the awarding body. These amounts shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.

SEC. 5. Section 1730 of the Labor Code is repealed.

SEC. 6. Section 1731 of the Labor Code is repealed.

SEC. 7. Section 1732 of the Labor Code is repealed.

SEC. 8. Section 1733 of the Labor Code is repealed.

SEC. 9. Section 1741 is added to the Labor Code, to read:

1741. If the Labor Commissioner or his or her designee determines after an investigation that there has been a violation of this chapter, the Labor Commissioner shall with reasonable promptness issue a civil wage and penalty assessment to the contractor or subcontractor or both. The assessment shall be in writing and shall describe the nature of the violation and the amount of wages, penalties, and forfeitures due and shall include the basis for the assessment. The assessment shall be served not later than 180 days after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 180 days after acceptance of the public work, whichever occurs last. However, if the assessment is served after the expiration of this 180-day period, but before the expiration of an additional 180 days, and the awarding body has not yet made full payment to the contractor, the assessment is valid up to the amount of the funds retained. Service of the assessment shall be completed pursuant to Section 1013 of the Code of Civil Procedure by first-class and certified mail to the contractor, subcontractor, and awarding body. The assessment shall advise the contractor and subcontractor of the procedure for obtaining review of the assessment. The Labor Commissioner shall, to the extent practicable, ascertain the identity of any bonding company issuing a bond that secures the payment of wages covered by the assessment and any surety on a bond, and shall serve a copy of the assessment by certified mail to the bonding company or surety at the same time service is made to the contractor, subcontractor, and awarding body. However, no bonding company or surety shall be relieved of its responsibilities because it failed to receive notice from the Labor Commissioner.

SEC. 10. Section 1742 is added to the Labor Code, to read:

1742. (a) An affected contractor or subcontractor may obtain review of a civil wage and penalty assessment under this chapter by transmitting a written request to the office of the Labor Commissioner that appears on the assessment within 60 days after service of the assessment. If no hearing is requested within 60 days after service of the assessment, the assessment shall become final.

(b) Upon receipt of a timely request, a hearing shall be commenced within 90 days before the director, who shall appoint an impartial

hearing officer possessing the qualifications of an administrative law judge pursuant to subdivision (b) of Section 11502 of the Government Code. The appointed hearing officer shall be an employee of the department, but shall not be an employee of the Division of Labor Standards Enforcement. The contractor or subcontractor shall be provided an opportunity to review evidence to be utilized by the Labor Commissioner at the hearing within 20 days of the receipt of the written request for a hearing. Any evidence obtained by the Labor Commissioner subsequent to the 20-day cutoff shall be promptly disclosed to the contractor or subcontractor.

The contractor or subcontractor shall have the burden of proving that the basis for the civil wage and penalty assessment is incorrect. The assessment shall be sufficiently detailed to provide fair notice to the contractor or subcontractor of the issues at the hearing.

Within 45 days of the conclusion of the hearing, the director shall issue a written decision affirming, modifying, or dismissing the assessment. The decision of the director shall consist of a notice of findings, findings, and an order. This decision shall be served on all parties and the awarding body pursuant to Section 1013 of the Code of Civil Procedure by first-class mail at the last known address of the party on file with the Labor Commissioner. Within 15 days of the issuance of the decision, the director may reconsider or modify the decision to correct an error, except that a clerical error may be corrected at any time.

The director shall adopt regulations setting forth procedures for hearings under this subdivision.

(c) An affected contractor or subcontractor may obtain review of the decision of the director by filing a petition for a writ of mandate to the appropriate superior court pursuant to Section 1094.5 of the Code of Civil Procedure within 45 days after service of the decision. If no petition for writ of mandate is filed within 45 days after service of the decision, the order shall become final. If it is claimed in a petition for writ of mandate that the findings are not supported by the evidence, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record.

(d) A certified copy of a final order may be filed by the Labor Commissioner in the office of the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the filing, shall enter judgment for the state against the person assessed in the amount shown on the certified order.

(e) A judgment entered pursuant to this section shall bear the same rate of interest and shall have the same effect as other judgments and shall be given the same preference allowed by law on other judgments rendered for claims for taxes. The clerk shall not charge for the service performed by him or her pursuant to this section.

(f) An awarding body that has withheld funds in response to a civil wage and penalty assessment under this chapter shall, upon receipt of a certified copy of a final order that is no longer subject to judicial review, promptly transmit the withheld funds, up to the amount of the certified order, to the Labor Commissioner.

(g) This section shall provide the exclusive method for review of a civil wage and penalty assessment by the Labor Commissioner under this chapter or the decision of an awarding body to withhold contract payments pursuant to Section 1771.5.

(h) This section shall remain in effect only until January 1, 2005, and as of that date is repealed, unless a later enacted

statute, that is enacted before January 1, 2005, deletes or extends that date.

SEC. 11. Section 1742 is added to the Labor Code, to read:

1742. (a) An affected contractor or subcontractor may obtain review of a civil wage and penalty assessment under this chapter by transmitting a written request to the office of the Labor Commissioner that appears on the assessment within 60 days after service of the assessment. If no hearing is requested within 60 days after service of the assessment, the assessment shall become final.

(b) (1) Upon receipt of a timely request, a hearing shall be commenced within 90 days before an administrative law judge appointed by the Director of Industrial Relations. The appointed hearing judge shall be an employee of the department, but shall not be an employee of the Division of Labor Standards Enforcement. The contractor or subcontractor shall be provided an opportunity to review evidence to be utilized by the Labor Commissioner at the hearing within 20 days of the receipt of the written request for a hearing. Any evidence obtained by the Labor Commissioner subsequent to the 20-day cutoff shall be promptly disclosed to the contractor or subcontractor.

(2) The contractor or subcontractor shall have the burden of proving that the basis for the civil wage and penalty assessment is incorrect. The assessment shall be sufficiently detailed to provide fair notice to the contractor or subcontractor of the issues at the hearing.

(3) Within 45 days of the conclusion of the hearing, the administrative law judge shall issue a written decision affirming, modifying, or dismissing the assessment. The decision of the administrative law judge shall consist of a notice of findings, findings, and an order. This decision shall be served on all parties and the awarding body pursuant to Section 1013 of the Code of Civil Procedure by first-class mail at the last known address of the party on file with the Labor Commissioner. Within 15 days of the issuance of the decision, the administrative law judge may reconsider or modify the decision to correct an error, except that a clerical error may be corrected at any time.

(4) The Director of Industrial Relations shall adopt regulations setting forth procedures for hearings under this subdivision.

(c) An affected contractor or subcontractor may obtain review of the decision of the administrative law judge by filing a petition for a writ of mandate to the appropriate superior court pursuant to Section 1094.5 of the Code of Civil Procedure within 45 days after service of the decision. If no petition for writ of mandate is filed within 45 days after service of the decision, the order shall become final. If it is claimed in a petition for writ of mandate that the findings are not supported by the evidence, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record.

(d) A certified copy of a final order may be filed by the Labor Commissioner in the office of the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the filing, shall enter judgment for the state against the person assessed in the amount shown on the certified order.

(e) A judgment entered pursuant to this section shall bear the same rate of interest and shall have the same effect as other judgments and shall be given the same preference allowed by law on other judgments rendered for claims for taxes. The clerk shall not charge for the service performed by him or her pursuant to this

section.

(f) An awarding body that has withheld funds in response to a civil wage and penalty assessment under this chapter shall, upon receipt of a certified copy of a final order that is no longer subject to judicial review, promptly transmit the withheld funds, up to the amount of the certified order, to the Labor Commissioner.

(g) This section shall provide the exclusive method for review of a civil wage and penalty assessment by the Labor Commissioner under this chapter or the decision of an awarding body to withhold contract payments pursuant to Section 1771.5.

(h) This section shall become operative on January 1, 2005.

SEC. 12. Section 1742.1 is added to the Labor Code, to read:

1742.1. (a) After 60 days following the service of a civil wage and penalty assessment under Section 1741 or a notice of withholding under subdivision (a) of Section 1771.6, the affected contractor, subcontractor, and surety on a bond or bonds issued to secure the payment of wages covered by the assessment or notice shall be liable for liquidated damages in an amount equal to the wages, or portion thereof, that still remain unpaid. If the assessment or notice subsequently is overturned or modified after administrative or judicial review, liquidated damages shall be payable only on the wages found to be due and unpaid. If the contractor or subcontractor demonstrates to the satisfaction of the director that he or she had substantial grounds for believing the assessment or notice to be in error, the director shall waive payment of the liquidated damages. Any liquidated damages collected shall be distributed to the employee along with the unpaid wages. Section 203.5 shall not apply to claims for prevailing wages under this chapter.

(b) The Labor Commissioner shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a civil wage and penalty assessment under Section 1741, afford the contractor or subcontractor the opportunity to meet with the Labor Commissioner or his or her designee to attempt to settle a dispute regarding the assessment without the need for formal proceedings. The awarding body shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a notice of withholding under subdivision (a) of Section 1771.6, afford the contractor or subcontractor the opportunity to meet with the designee of the awarding body to attempt to settle a dispute regarding the notice without the need for formal proceedings. The settlement meeting may be held in person or by telephone and shall take place before the expiration of the 60-day period for seeking administrative review. No evidence of anything said or any admission made for the purpose of, in the course of, or pursuant to, the settlement meeting is admissible or subject to discovery in any administrative or civil proceeding. No writing prepared for the purpose of, in the course of, or pursuant to, the settlement meeting, other than a final settlement agreement, is admissible or subject to discovery in any administrative or civil proceeding. The assessment or notice shall advise the contractor or subcontractor of the opportunity to request a settlement meeting.

This section shall remain in effect only until January 1, 2005, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2005, deletes or extends that date.

SEC. 13. Section 1742.1 is added to the Labor Code, to read:

1742.1. (a) After 60 days following the service of a civil wage and penalty assessment under Section 1741 or a notice of withholding under subdivision (a) of Section 1771.6, the affected contractor, subcontractor, and surety on a bond or bonds issued to secure the payment of wages covered by the assessment or notice shall be liable

for liquidated damages in an amount equal to the wages, or portion thereof, that still remain unpaid. If the assessment or notice subsequently is overturned or modified after administrative or judicial review, liquidated damages shall be payable only on the wages found to be due and unpaid. If the contractor or subcontractor demonstrates to the satisfaction of the administrative law judge that he or she had substantial grounds for believing the assessment or notice to be in error, the administrative law judge shall waive payment of the liquidated damages. Any liquidated damages collected shall be distributed to the employee along with the unpaid wages. Section 203.5 shall not apply to claims for prevailing wages under this chapter.

(b) The Labor Commissioner shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a civil wage and penalty assessment under Section 1741, afford the contractor or subcontractor the opportunity to meet with the Labor Commissioner or his or her designee to attempt to settle a dispute regarding the assessment without the need for formal proceedings. The awarding body shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a notice of withholding under subdivision (a) of Section 1771.6, afford the contractor or subcontractor the opportunity to meet with the designee of the awarding body to attempt to settle a dispute regarding the notice without the need for formal proceedings. The settlement meeting may be held in person or by telephone and shall take place before the expiration of the 60-day period for seeking administrative review. No evidence of anything said or any admission made for the purpose of, in the course of, or pursuant to, the settlement meeting is admissible or subject to discovery in any administrative or civil proceeding. No writing prepared for the purpose of, in the course of, or pursuant to, the settlement meeting, other than a final settlement agreement, is admissible or subject to discovery in any administrative or civil proceeding. The assessment or notice shall advise the contractor or subcontractor of the opportunity to request a settlement meeting.

This section shall become operative on January 1, 2005.

SEC. 14. Section 1743 is added to the Labor Code, to read:

1743. (a) The contractor and subcontractor shall be jointly and severally liable for all amounts due pursuant to a final order under this chapter or a judgment thereon. The Labor Commissioner shall first exhaust all reasonable remedies to collect the amount due from the subcontractor before pursuing the claim against the contractor.

(b) From the amount collected, the wage claim shall be satisfied prior to the amount being applied to penalties. If insufficient money is recovered to pay each worker in full, the money shall be prorated among all workers.

(c) Wages for workers who cannot be located shall be placed in the Industrial Relations Unpaid Wage Fund and held in trust for the workers pursuant to Section 96.7. Penalties shall be paid into the General Fund.

(d) A final order under this chapter or a judgment thereon shall be binding, with respect to the amount found to be due, on a bonding company issuing a bond that secures the payment of wages and a surety on a bond. The limitations period of any action on a payment bond shall be tolled pending a final order that is no longer subject to judicial review.

SEC. 15. Section 1771.6 of the Labor Code is repealed.

SEC. 16. Section 1771.6 is added to the Labor Code, to read:

1771.6. (a) Any awarding body that enforces this chapter in accordance with Section 1726 or 1771.5 shall provide notice of the

withholding of contract payments to the contractor and subcontractor, if applicable. The notice shall be in writing and shall describe the nature of the violation and the amount of wages, penalties, and forfeitures withheld. Service of the notice shall be completed pursuant to Section 1013 of the Code of Civil Procedure by first-class and certified mail to the contractor and subcontractor, if applicable. The notice shall advise the contractor and subcontractor, if applicable, of the procedure for obtaining review of the withholding of contract payments.

The awarding body shall also serve a copy of the notice by certified mail to any bonding company issuing a bond that secures the payment of wages covered by the notice and to any surety on a bond, if their identities are known to the awarding body.

(b) The withholding of contract payments in accordance with Section 1726 or 1771.5 shall be reviewable under Section 1742 in the same manner as if the notice of the withholding was a civil penalty order of the Labor Commissioner under this chapter. If review is requested, the Labor Commissioner may intervene to represent the awarding body.

(c) Pending a final order, or the expiration of the time period for seeking review of the notice of the withholding, the awarding body shall not disburse any contract payments withheld.

(d) From the amount recovered, the wage claim shall be satisfied prior to the amount being applied to penalties. If insufficient money is recovered to pay each worker in full, the money shall be prorated among all workers.

(e) Wages for workers who cannot be located shall be placed in the Industrial Relations Unpaid Wage Fund and held in trust for the workers pursuant to Section 96.7. Penalties shall be paid into the General Fund of the awarding body that has enforced this chapter pursuant to Section 1771.5.

SEC. 17. Section 1771.7 of the Labor Code is repealed.

SEC. 18. Section 1773.1 of the Labor Code is amended to read:

1773.1. (a) Per diem wages shall be deemed to include employer payments for health and welfare, pension, vacation, travel, subsistence, and apprenticeship or other training programs authorized by Section 3093, so long as the cost of training is reasonably related to the amount of the contributions, and similar purposes, when the term "per diem wages" is used in this chapter or in any other statute applicable to public works.

(b) Employer payments include all of the following:

(1) The rate of contribution irrevocably made by the employer to a trustee or third person pursuant to a plan, fund, or program.

(2) The rate of actual costs to the employer reasonably anticipated in providing benefits to workers pursuant to an enforceable commitment to carry out a financially responsible plan or program communicated in writing to the workers affected.

(3) Payments to the California Apprenticeship Council pursuant to Section 1777.5.

(c) Employer payments are a credit against the obligation to pay the general prevailing rate of per diem wages. However, no credit shall be granted for benefits required to be provided by other state or federal law. Credits for employer payments also shall not reduce the obligation to pay the hourly straight time or overtime wages found to be prevailing.

(d) The credit for employer payments shall be computed on an annualized basis where the employer seeks credit for employer payments that are higher for public works projects than for private construction performed by the same employer, except where one or more of the following occur:

(1) The employer has an enforceable obligation to make the higher rate of payments on future private construction performed by the employer.

(2) The higher rate of payments is required by a project labor agreement.

(3) The payments are made to the California Apprenticeship Council pursuant to Section 1777.5.

(4) The director determines that annualization would not serve the purposes of this chapter.

(e) For the purpose of determining those per diem wages for contracts, the representative of any craft, classification, or type of worker needed to execute contracts shall file with the Department of Industrial Relations fully executed copies of the collective bargaining agreements for the particular craft, classification, or type of work involved. The collective bargaining agreements shall be filed after their execution and thereafter may be taken into consideration pursuant to Section 1773 whenever filed 30 days prior to the call for bids. If the collective bargaining agreement has not been formalized, a typescript of the final draft may be filed temporarily, accompanied by a statement under penalty of perjury as to its effective date.

Where a copy of the collective bargaining agreement has previously been filed, fully executed copies of all modifications and extensions of the agreement that affect per diem wages or holidays shall be filed.

The failure to comply with filing requirements of this subdivision shall not be grounds for setting aside a prevailing wage determination if the information taken into consideration is correct.

SEC. 19. Section 1775 of the Labor Code, as amended by Section 1 of Chapter 757 of the Statutes of 1997, is repealed.

SEC. 20. Section 1775 of the Labor Code, as added by Section 2 of Chapter 757 of the Statutes of 1997, is amended to read:

1775. (a) The contractor and any subcontractor under him or her shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit not more than fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing wage rates as determined by the director for the work or craft in which the worker is employed for any public work done under the contract by him or her or, except as provided in subdivision (b), by any subcontractor under him or her. The amount of this penalty shall be determined by the Labor Commissioner based on consideration of both of the following:

(1) Whether the failure of the contractor or subcontractor to pay the correct rate of per diem wages was a good faith mistake and, if so, the error was promptly and voluntarily corrected upon being brought to the attention of the contractor or subcontractor.

(2) Whether the contractor or subcontractor has a prior record of failing to meet its prevailing wage obligations.

The determination of the Labor Commissioner as to the amount of the penalty shall be reviewable only for abuse of discretion. The difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the contractor or subcontractor, and the body awarding the contract shall cause to be inserted in the contract a stipulation that this section will be complied with.

(b) If a worker employed by a subcontractor on a public works project is not paid the general prevailing per diem wages by the

subcontractor, the prime contractor of the project is not liable for any penalties under subdivision (a) unless the prime contractor had knowledge of that failure of the subcontractor to pay the specified prevailing rate of wages to those workers or unless the prime contractor fails to comply with all of the following requirements:

(1) The contract executed between the contractor and the subcontractor for the performance of work on the public works project shall include a copy of the provisions of Sections 1771, 1775, 1776, 1777.5, 1813, and 1815.

(2) The contractor shall monitor the payment of the specified general prevailing rate of per diem wages by the subcontractor to the employees, by periodic review of the certified payroll records of the subcontractor.

(3) Upon becoming aware of the failure of the subcontractor to pay his or her workers the specified prevailing rate of wages, the contractor shall diligently take corrective action to halt or rectify the failure, including, but not limited to, retaining sufficient funds due the subcontractor for work performed on the public works project.

(4) Prior to making final payment to the subcontractor for work performed on the public works project, the contractor shall obtain an affidavit signed under penalty of perjury from the subcontractor that the subcontractor has paid the specified general prevailing rate of per diem wages to his or her employees on the public works project and any amounts due pursuant to Section 1813.

(c) The Division of Labor Standards Enforcement shall notify the contractor on a public works project within 15 days of the receipt by the Division of Labor Standards Enforcement of a complaint of the failure of a subcontractor on that public works project to pay workers the general prevailing rate of per diem wages.

SEC. 21. This act shall become operative on July 1, 2001.

SEC. 22. No reimbursement is required by this act pursuant to Section 6 of Article XIIIB of the California Constitution for certain costs that may be incurred by a local agency or school district because in that regard this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIIIB of the California Constitution.

However, notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains other costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars ($1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

expense of the self-insurer, not more frequently than once each calendar year, and the expense incurred in making such examination and audit shall be paid by the self-insurer.

GROUP 3. PAYMENT OF PREVAILING WAGES UPON PUBLIC WORKS

Article 1. Definitions

16000. Person. The term "person" means any individual, partnership, corporation, association, or any local state, regional, national or international labor union, or any other organization, or any agent or officer thereof, authorized to act for and on behalf of any of the foregoing.

NOTE: Authority cited for group 3: Section 1773.5, Labor Code.

History: New group 3 (§§ 16000-16001, 16100-16101 and 16200-16205) filed 4-27-56; effective thirtieth day thereafter (Register 56, No. 8).

16001. Filing. Except where otherwise specifically provided by these Rules, the term "filing" means the deposit in the United States mail, postage prepaid and addressed to the person or agency with whom a paper or document is to be filed, except that in any event any paper or document required or permitted to be filed pursuant to these rules or pursuant to the prevailing wage provisions of the Labor Code, shall be deemed filed upon actual delivery to and receipt by such person or agency.

16002. Nearest Labor Market Area. The term "nearest labor market area" means that geographical area from which workmen of the crafts, classifications, and types to be used in the performance and execution of the public work will be drawn for employment upon such public work.

16003. Prevailing Rate. The term "prevailing rate" means the rate being paid to a majority of workmen engaged in the particular craft, classification or type of work within the locality if a majority of such workmen be paid at a single rate; if there be no single rate being paid to a majority, then the rate being paid the greater number.

16004. Wages. The term "wages" means all compensation of whatever description or form, and however ascertained or calculated, paid by employers to, for or on behalf of the employees.

Article 2. Determination and Publication of Prevailing Wage Rates

16100. Hourly Rates. Whenever there is no daily rate of wages generally prevailing for a given craft, classification or type of work, then the general prevailing rate of wages per hour shall be ascertained by the body awarding the contract or authorizing the public work for such craft, classification or type of work, and in such event the general prevailing rate of per diem wages shall be expressed as an hourly rate and shall be identified accordingly in the call for bids.

16101. Publication of Rates. In specifying wage rates in the published call for bids pursuant to Section 1773 of the Labor Code, the body awarding any contract for public work or otherwise undertaking public work shall directly list, identify and separately state in each published call for bids the prevailing rate of wages for each craft, classification or type of workmen needed to execute the contract.

Article 3. Petitions to Review Prevailing Wage Rate Determinations

16200. Authority Delegated to Labor Commissioner. The Labor Commissioner is the authorized representative of the Director of Industrial Relations for the purpose of acting on petitions filed pursuant to Labor Code Section 1773.4.

16201. Manner of Filing. Every petition pursuant to Section 1773.4 of the Labor Code shall be filed in triplicate with the director by delivery to the Labor Commissioner, 965 Mission Street, San Francisco 3, California. Petitions may be filed in person or by mail. The date of receipt of the petition by the Labor Commissioner shall constitute the date on which the petition is deemed filed.

16202. Form. Every petition or other document filed or served pursuant to these rules shall be printed or written upon good white paper of letter or legal size. The petition or other document, and all copies thereof served or filed, shall be clear and legible and if typewritten, shall be double-spaced, paged at the bottom, and all copies shall conform in all respects to the original petition or document. The petition or document shall be securely bound or stapled. The name, address and telephone of the organization filing the petition, or its attorney if the petition is filed by an attorney shall appear in the upper left-hand corner of the first page of the petition.

16203. Content. Every petition filed pursuant to Section 1773.4 of the Labor Code shall contain and separately state the following:

(a) The name and address of the person filing the petition, together with the name and address of the person verifying the petition if different from the person filing the same.

(b) Whether the petitioner is a prospective bidder or the representative of a prospective bidder, or the representative of one or more crafts, classifications or types of workmen involved in the public work contract, together with a specific designation of the nature of petitioner's business, if he be a prospective bidder, or a designation of each craft, classification or type of workmen represented by him if the petitioner be a representative of one or more crafts, classifications or types of workmen involved in the public works project.

(c) The official name of the awarding body, together with the date on which the call for bids was first published and the name and location of the newspaper in which such publication was made. A true and correct full copy of the call for bids as published shall be attached to the petition.

(d) If petitioner be an awarding body which is a department, board, authority or political subdivision other than a county, city and county, city or township, the awarding body shall describe the parent or principal organization of which it is a part, and shall specify the statutory authority for undertaking public works.

(e) The manner in which the wage rate determination by the awarding body fails to comply with the provisions of Labor Code Section 1773.

(1) Every petition asserting that the applicable prevailing rate for one or more crafts, classifications or types of work needed to execute a contract is different from that ascertained by the awarding body shall set forth the rate the petitioner claims to be correct for each disputed rate, together with specific reference to particular facts providing the basis for such claim. Whenever such facts relate to a particular employer of such craft, classification or type of work, the facts stated must identify the employer by name and address and give the number or approximate number of workers involved.

(2) Every petition asserting that the awarding body has failed to ascertain and consider all applicable rates required to be considered by it shall specifically state in the petition which rates have not been considered by the awarding body.

(3) Where the rates ascertained by the awarding body are the same as the applicable rates established by the collective bargaining agreement and rates of pay determined for federal public works within the locality and the nearest labor market area where the public work is to be performed, the petition shall specifically describe the manner and extent to which such rates do not constitute the rates actually prevailing in the locality where the public work is to be performed, and shall set forth and fully identify the existence of any rates asserted by petitioner to be prevailing in the locality and relied upon in support of the petition.

16204. Failure to Include Copy of Call for Bids. If the petition fails to contain a copy of the call for bids as provided in Section 16203(c), the director may dismiss the petition forthwith or may, if in his judgment good cause is shown, permit the petition to be amended to include such copy.

16205. Filing Copy With Awarding Body. If the petitioner be other than an awarding body, the petitioner may concurrently with the filing of the original petition, or otherwise shall within two days thereafter, file a copy of the petition with the awarding body. Immediately upon the filing of such copy with the awarding body, and not later than five days after the filing of the original petition, the petitioner shall file with the Labor Commissioner an affidavit of the filing with the awarding body.

REVISION RECORD FOR REGISTER 56, No. 8

(May 5, 1956)

TITLE 18. PUBLIC REVENUES

CHAPTER 2. BOARD OF EQUALIZATION

SUBCHAPTER 4. SALES AND USE TAX

This part of Register 56, No. 8, contains all the additions, amendments, and repeals affecting the above-entitled portion of the California Administrative Code which were filed with the Secretary of State from April 21, 1956, to and including May 5, 1956.

It is important that the holders of the above-entitled portion of the code check the section numbers listed below as well as the page numbers when inserting this material in the code and removing the superseded material. In case of doubt rely upon the section numbers rather than the page numbers since the section numbers must run consecutively even though there may be an error in the paging.

SECTION CHANGES

Unless otherwise noted, the sections listed below are amended herein.

Section	Section
2203 added	2205 added
2204 added	2206 added

PAGE CHANGES

REMOVE Old Pages	INSERT Attached Pages
501-502	501-502
--------	548.1 through 548.4

Do Not Throw Away Superseded Material. Save it and place it in a separate file under the original heading (either the appropriate title or register heading). It will then always be possible to find the prior wording of any section by using the history notes provided.

NOTE: This revision sheet is not a part of the code and should not be inserted therein. It is chiefly for filing purposes. If preserved with the removed pages, it will afford a ready reference to the sections affected by agency action.

(Precedes page 501, Title 18)

GROUP 3. PAYMENT OF PREVAILING WAGES UPON PUBLIC WORKS

Article 1. Definitions

16000. Director. The term "Director" means the Director of the Department of Industrial Relations or a duly authorized representative.

NOTE: Authority cited for Group 3: Sections 54 and 1773.5, Labor Code. Reference: Sections 1770–1773.8, Labor Code.

History: 1. Repealer of Group 3, (Articles 1–3, Sections 16000–16004, 16100–16101 and 16200–16205) and new Group 3 (Articles 1–4, Sections 16000–16013, 16100–16109, 16200–16206 and 16300–16305) filed 1-3-77 as an emergency; effective upon filing (Register 77, No. 2). For prior history, see Register 56, No. 8.

16001. Division. The term "Division" means the Division of Labor Statistics and Research within the Department of Industrial Relations.

16002. Chief. The term "Chief" means the Chief of the Division of Labor Statistics and Research or a duly authorized representative, within the Department of Industrial Relations.

16003. Person. The term "person" means any individual, partnership, corporation, association, or any local, state, regional, national or international organization, public or private, or any awarding body, or any agent or officer thereof, authorized to act for or on behalf of any of the foregoing.

16004. Public Works. The term "public works" as used in these regulations shall be as defined in Sections 1720, 1720.2 and 1720.3 of the Labor Code.

16005. Political Subdivision. The term "political subdivision" includes any county, city, district, township, public housing authority, or public agency of the State, and assessment or improvement districts.

16006. Awarding Body. The term "awarding body" means any state or local governmental agency, department, board, commission, bureau, district, office, authority, political subdivision, officer or agent awarding a contract for public work.

16007. Filing. Where any paper, letter, petition, or document is required or permitted to be filed pursuant to these rules or pursuant to the prevailing wage provisions of the Labor Code, it shall be deemed filed with any person, awarding body, or the Division upon actual delivery to and receipt by such person, awarding body, or the Division.

16008. Nearest Labor Market Area. The term "nearest labor market area", for the purpose of following the procedures specified in Section 1773 of the Labor Code, means the nearest geographical area from which workers of the crafts, classifications, and types to be used in the performance and execution of the public work can be drawn for employment upon such public work.

16009. Locality. "Locality" or "locality in which public work is performed" means the county in which the public work is done in cases in which the contract is awarded by the State, and means the limits of the political subdivision on whose behalf the contract is awarded in other cases.

16010. Employer Payments. The term "employer payments" includes:

(a) The rate of contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a fund, plan, or program for the benefit of employees, their families and dependents, or retirees.

(b) The rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing benefits to employees, their families and dependents, or to retirees pursuant to an enforceable commitment or agreement to carry out a financially responsible plan or program which was communicated in writing to the workers affected.

16011. Prevailing Rate. The term "prevailing rate" shall have the following meaning:

(a) When applied to the basic hourly rate of pay, the term means the rate being paid to a majority of workers engaged in the particular craft, classification or type of work within the locality and in the nearest labor market area, if a majority of such workers be paid at a single rate; if there be no single rate being paid to a majority, then the single rate being paid the greater number.

(b) When applied to other employer payments included in per diem wages pursuant to Section 1773.1 of the Labor Code and enumerated in Section 16012, (3), below, the term means, for each such type of payment, the single rate of contribution or cost being paid to or for the greater number of workers in the particular craft, classification or type of work who are paid the prevailing basic hourly rate of pay as defined in Section 16011(a), above.

(c) When applied to the rate for holiday or overtime work, the term means the single rate paid to or for the greater number of workers in the particular craft, classification or type of work who are paid the prevailing basic hourly rate of pay as defined in Section 16011(a), above.

16012. General Prevailing Rate of Per Diem Wages. (a) The term "general prevailing rate of per diem wages", and similar terms descriptive of determinations made by the Director pursuant to Sections 1773, 1773.1 and 1773.8 of the Labor Code and these rules and regulations, includes:

(1) the prevailing basic straight-time hourly rate of pay; and

(2) the prevailing rate for holiday and overtime work; and

(3) the prevailing rate of employer payments for any or all programs or benefits for employees, their families and dependents, and retirees which are of the types enumerated below:

(A) medical and hospital care, prescription drugs, dental care, vision care, diagnostic services, and other health and welfare benefits;

(B) retirement plan benefits;

(C) vacations and holidays with pay, or cash payments in lieu thereof;

(D) compensation for injuries or illnesses resulting from occupational activity;

(E) life, accidental death and dismemberment, and disability or sickness and accident insurance;

(F) supplemental unemployment benefits;

(G) thrift, security savings, supplemental trust, and beneficial trust funds otherwise designated, provided all of the money except that used for reasonable administrative expenses is returned to the employees;

(H) occupational health and safety research, safety training, monitoring job hazards, and the like;

(I) apprenticeship or other training programs authorized by Section 3093 of the Labor Code;

(J) other bona fide benefits for employees, their families and dependents, or retirees as the Director may determine; and

(4) travel time and subsistence pay as provided for in Labor Code Section 1773.8.

(b) *Provided,* that the term "general prevailing rate of per diem wages" does not include any employer payments for:

(1) job related expenses other than travel time and subsistence pay;

(2) contract administration, operation of hiring halls, grievance processing, or similar purposes except for those amounts specifically earmarked and actually used for administration of those types of employee or retiree benefit plans enumerated above in Section 16012;

(3) union, organizational, professional or other dues except as they may be included in and withheld from the basic hourly wage rate;

(4) industry or trade promotion;

(5) political contributions or activities;

(6) any benefit for employees, their families and dependents, or retirees, including any benefit enumerated above in Section 16012(3), where the contractor or subcontractor is required by Federal, State, or local law to provide such benefit;

(7) such other payments as the Director may determine to exclude.

16013. Interested Party. Except where otherwise specifically provided by these rules and regulations, the term "interested party" means, when used with reference to a particular prevailing wage determination made by the Director,

(1) Any contractor or subcontractor, or any organization, association, or other representative of any contractor or subcontractor likely to bid on or to perform a contract for public work which is subject to the particular prevailing wage determination, and/or

(2) Any worker in the particular craft, classification, or type of work, who may be employed on a public work project subject to the particular prevailing wage determination, or any labor organization or other representative of such a person, including the recognized collective bargaining representative for the particular craft, classification, or type of work, and/or

(3) Any awarding body concerned with the administration of a public works contract or proposed contract, which is subject to the particular prevailing wage determination.

Article 2. Determination of General Prevailing Rate of Per Diem Wages. Requesting and Publishing Determinations

16100. Recognized Crafts. The determinations of the Director will be limited to those crafts, classifications or types of workers employed in public works pursuant to Sections 1720, 1720.2 and 1720.3 of the Labor Code.

16101. Form of Expression. (a) All determinations made by the Director of the general prevailing rate of per diem wages for a particular craft, classification, or type of worker will separately specify each of the following components:

(1) The prevailing basic straight-time hourly wage rate.

(2) The formula or method for calculating the prevailing hourly wage rate for overtime and holiday work and determining the hours of work for which overtime is paid.

(3) The following statement when applicable: "In accordance with Labor Code Section 1773, holidays upon which the prevailing hourly wage rate for holiday work shall be paid shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of worker employed on the project, which is on file with the Director of Industrial Relations."

(4) The prevailing employer payments for benefits included in the general prevailing rate of per diem wages pursuant to Section 1773.1 of the Labor Code and enumerated in Section 16012, (3), of these rules and regulations.

(5) The following statement when applicable: "The contractor shall make travel and subsistence payments to each worker needed to execute the work, as such travel and subsistence payments are defined in the applicable collective bargaining agreements filed with the Director of Industrial Relations in accordance with Labor Code Section 1773.8".

(b) Where the prevailing employer payment for any benefit is expressed in a formula or method of payment other than an hourly rate the Director may (1) express the rate in the determination by specifying the formula or method used or (2) convert the rate to an hourly rate whenever such action would facilitate the administration of the law.

(c) As a supplement to each determination the Director will make available to any awarding body upon request, a list of all holidays recognized and the provision for travel and subsistence payments, taken from the applicable collective bargaining agreement.

16102. Method of Determination. The Director shall follow those procedures specified in Section 1773 of the Labor Code and in these rules and regulations when making prevailing wage determinations.

16103. Collective Bargaining Agreements. Filing. (a) To enable the Director to ascertain and consider the applicable wage rates established by collective bargaining agreements when making prevailing wage determinations, the representatives of any crafts, classifications, or types of workers needed to execute any public works contracts shall file with the Department of Industrial Relations fully executed copies of all of their collective bargaining agreements including any addenda which modify the agreements, as soon as practicable after their execution.

(b) Copies of collective bargaining agreements filed with the Department of Industrial Relations pursuant to Sections 1773.1 and 1773.8 of the Labor Code and Section 16103, (a), of these rules and regulations shall be filed with and addressed to: Chief, Division of Labor Statistics and Research, P. O. Box 603, San Francisco, CA 94101.

(c) Collective bargaining agreements filed with the Division must be accompanied by a signed statement which is certified as true and correct to the best of the knowledge and belief of the person preparing the statement, under penalty of perjury, and which:

(1) certifies that the agreement filed is fully executed and in effect, unless it is a signed original agreement or a photocopy thereof, or a printed copy of a fully executed agreement showing the names of signatory parties, except in the case of a printed agreement the Director may require certification.

(2) names or otherwise identifies all California counties within the jurisdiction of the local union or unions signatory to the agreement and provides any maps or additional information that may be needed to determine its precise geographic scope, if this is not clearly specified in the agreement;

(3) names and provides the address of the signatory employer association or, if there be no signatory employer association, provides the names and addresses of all contractors signatory to the agreement, unless such information is contained in the agreement;

(4) provides an estimate of the approximate number of workers currently employed under the terms of the agreement in California and, if practicable, in each county within the jurisdiction of the signatory local union or unions;

(5) provides any other information not contained in the agreement that the Director may need to give proper consideration to applicable wage rates established by collective bargaining.

16104. Consideration of Other Data. Pursuant to Section 1773 of the Labor Code, the Director may also obtain and consider further data from interested parties, and will give consideration to data submitted by any interested party, concerning the rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area. Such data may be obtained by holding a hearing, instituting an investigation, or by such other means as the Director determines will best serve the purposes of the law. Information submitted by interested parties for the Director's consideration shall include but not be limited to the following for each project:

(a) The name, address, and telephone number of the interested party submitting the information and the basis for qualification as an interested party under Section 16013;

(b) The basic hourly wage rate, overtime and holiday pay rates, and employer payments as enumerated in Section 16012 of these rules and regulations for each classification in question as effective for the last payroll period, or most recent payroll period, for which payments based on such rates were actually made;

(c) The number of workers employed on the project in each classification in question during the payroll period for which data is submitted;

(d) The location of the project;

(e) The name and address of the contractor or subcontractor making the payments, and of all other contractors or subcontractors on the project;

(f) The type of construction (e.g. residential, commercial building, etc.);

(g) The approximate cost of construction;

(h) The beginning date and completion date, or estimated completion date, of the project;

(i) The source of data (e.g. "payroll records");

(j) The method of selection of the projects for which data is submitted, when data is not submitted for all projects recently completed or in progress in the locality or in the nearest labor market area.

16105. Collective Bargaining Agreements. Adoption. (a) If the Director determines pursuant to Section 1773 of the Labor Code that the rate established by a collective bargaining agreement is the general prevailing rate of per diem wages for any craft, classification or type of worker and the Director adopts such rate by referral, the Director will publish such rate in the form prescribed by these rules and regulations. Only those rates and employer payments specifically enumerated in Section 16012 of these rules and regulations shall be included in the rate adopted.

(b) When such rate is adopted, and in the case where the collective bargaining agreement contains definite and predetermined changes during its term which will affect the rate adopted, the Director will incorporate such changes in the determination.

(c) When such rate is adopted, and in the case where the collective bargaining agreement contains changes during its term which will affect the rate adopted, which are not definite or predetermined, the changes shall not be adopted. The determination of the Director will remain in effect until a new determination is issued. Any interested party may request that the Director make a new determination when said changes become definite and determined. A statement must be filed in the same manner as collective bargaining agreements are filed under Section 16103 of these rules and regulations. The statement must summarize the amounts and effective dates of any cost-of-living adjustments, allocations of interim wage increases to wages and employer payments, and other relevant changes which will affect the rate adopted by the Director. The statement must be signed by an officer or agent of the bargaining representative and certified, under penalty of perjury, as true and correct to the best of his or her knowledge and belief.

16106. Errors. Corrections. Upon his or her own initiative or at the request of any interested party, the Director shall correct any error in a published determination that is the result of clerical error, such as a typographical error or a transposition of letters or digits, by issuing a corrected determination or a modification of the determination.

16107. Requesting Determinations. (a) When the Director determines that the general prevailing rate of per diem wages for a particular craft, classification, or type of worker is uniform throughout a large geographic area, the Director will issue an "area" determination based on that agreement. Area determinations will ordinarily be made for an entire county or group of counties and shall constitute the Director's determination for all localities in which public work is performed within that county or counties except as the geographic application of the determination may be specifically limited by the determination itself.

(b) An awarding body may request the Director to make a determination for particular crafts, classifications, or types of workers for which an area determination has not been made or issued, or has expired.

(c) Any awarding body may request to be put on a mailing list for all area wage determinations for a specific county or counties or may request that a prevailing wage determination be furnished when needed, by writing to Chief, Division of Labor Statistics and Research, P.O. Box 603, San Francisco, CA 94101. All requests for prevailing wage determinations must be in writing and must specify the location where the public work is to be performed, including the county, and the particular crafts, classifications, or types of workers for which a determination is needed.

16108. **Effective Dates of Determinations.** Area determinations issued by the Director will ordinarily show an issue date and an expiration date and will be effective until that expiration date, unless earlier modified, corrected, rescinded, or superseded by the Director; other determinations made on request will show an issue date but may not show an expiration date; *provided;* that determinations modified, corrected, rescinded, or superseded on the basis of information contained in copies of collective bargaining agreements filed with the Department shall not be effective as to any project in which the call for bids takes place less than 30 days after the filing of the agreement (see Section 1773.1 of the Labor Code).

16109. **Publication of Prevailing Rates by Awarding Bodies.** To the extent that an awarding body is required to specify the general prevailing rate of per diem wages in the published call for bids, in the bid specifications, and in the contract itself, pursuant to Section 1773.2 of the Labor Code, the rates as determined by the Director for each craft, classification, or type of worker needed to execute the contract, and in the form of expression adopted by the Director, shall be used. In lieu of specifying the rates in the call for bids, the bid specifications, and the contract, the awarding body may, pursuant to Section 1773.2 refer to copies of the applicable determinations of the Director on file at its principal office.

Article 3. Delegation of Authority: Petition to Review

16200. **Delegation of Authority. Chief, Division of Labor Statistics and Research.** (a) The Chief of the Division of Labor Statistics and Research is the authorized representative of the Director for the purpose of receiving collective bargaining agreements, petitions, and other documents and papers pertinent to making prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these rules and regulations.

(b) The Chief is the authorized representative of the Director for the purpose of gathering information needed to make prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code or these rules and regulations, and may for that purpose institute investigations, conduct hearings, or employ such other means as shall best serve the purposes of the law.

(c) The Chief is the authorized representative of the Director for the purpose of responding to petitions to review determinations filed pursuant to Section 1773.4 of the Labor Code.

(d) All final determinations shall be made by the Director.

16201. **Petition to Review.** Those interested parties enumerated in Section 1773.4 of the Labor Code may file with the Chief, within 20 days after commencement of advertising of a call for bids by any awarding body, a petition to review a determination of any rate or rates made by the Director, pursuant to Section 1773 of the Labor Code, which is specified in or referred to in the call for bids.

16202. **Manner of Filing. Petition to Review.** Every petition filed pursuant to Section 1773.4 of the Labor Code shall be filed in triplicate with the Director by delivery to the Chief, Division of Labor Statistics and Research, P.O. Box 603, San Francisco, CA 94101. Petitions may be filed in person or by mail.

16203. **Form.** Every petition or other document filed or served pursuant to Section 1773.4 of the Labor Code and Article 3 of these rules and regulations shall be printed or written upon good white paper of letter size (8½ × 11), except as such is a copy of a prior executed petition, document, letter or paper. The petition or other document, and all copies thereof served or filed, shall be clear and legible and if typewritten, shall be double-spaced, paged at the bottom, and all copies shall conform in all respects to the original petition or document. Where attachments are referred to and used, they must be noted, attached and identified properly. The petition or document shall be securely bound or stapled. The name, address and telephone number of the person filing the petition or other document, letter or paper, or of the attorney representing the person, shall appear in the upper left-hand corner of the first page of said item. The signature of the person verifying said item shall appear in the lower right-hand corner of the last page.

16204. **Content. Petition to Review.** Every petition filed pursuant to Section 1773.4 of the Labor Code shall contain and separately state the following:

(a) The name, address, and telephone number of the person filing the petition, together with the name, address and telephone number of the person verifying the petition, if different from the person filing the same.

(b) Whether the petitioner is an awarding body, or a prospective bidder or the representative of a prospective bidder, or the representative of one or more crafts, classifications or types of workers involved in the public work contract together with a specific designation of the nature of petitioner's business, if a prospective bidder, or a designation of each craft, classification or type of worker represented, if the petitioner be a representative of one or more crafts, classifications or types of workers involved in the public works project.

(c) The official name of the awarding body, together with the date on which the call for bids was first published and the name and location of the newspaper in which such publication was made. A true and correct full copy of the call for bids as published shall be attached to the petition.

(d) If petitioner be an awarding body which is a department, board, authority or political subdivision other than a county, city and county, city or township, the awarding body shall describe the parent or principal organization of which it is a part, and shall specify the statutory authority for undertaking public works.

(e) The manner in which the wage rate determination by the director fails to comply with the provisions of Labor Code Section 1773.

(1) Every petition asserting that the applicable prevailing rate for one or more crafts, classifications or types of workers needed to execute a contract is different from that ascertained by the Director shall set forth the rate the petitioner claims to be correct for each disputed rate, together with specific reference to particular facts providing the basis for such claim.

(A) Whenever such facts relate to a particular employer of such crafts, classifications or types of workers, the facts stated must identify the employer by name and address and give the number or approximate number of workers involved.

(B) Whenever such facts relate to an applicable collective bargaining agreement which the petitioner alleges was not considered by the Director pursuant to Section 1773 of the Labor Code, a copy of the agreement, if not already filed with the Director, should be filed concurrently with the petition in the manner provided in Section 16103 of these rules and regulations.

(C) Whenever such facts relate to rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area, the facts stated should include all of the items of information enumerated in Section 16105 of these rules and regulations.

(2) Every petition asserting that the Director has failed to ascertain and consider all applicable rates required to be considered by it shall specifically state in the petition which rates have not been considered by the Director.

(3) Where the rates ascertained by the Director are the same as the applicable rates established by the collective bargaining agreement and rates of pay determined for federal public works within the locality and the nearest labor market area where the public work is to be performed, the petition shall specifically describe the manner and extent to which such rates do not constitute the rates actually prevailing in the locality where the public work is to be performed, and shall set forth and fully identify the existence of any rates asserted by petitioner to be prevailing in the locality and relied upon in support of the petition.

16205. Failure to Include Copy of Call for Bids. If the petition fails to contain a copy of the call for bids as provided in Section 16204(c), the Director may dismiss the petition forthwith or may, if good cause is shown, permit the petition to be amended to include such copy.

16206. Filing Copy With Awarding Body. If the petitioner be other than an awarding body, the petitioner may concurrently with the filing of the original petition, or otherwise shall within two days thereafter, file a copy of the petition with the awarding body. Immediately upon the filing of such copy with the awarding body, and not later than five days after the filing of the original petition, the petitioner shall file with the Chief an affidavit of the filing with the awarding body.

Article 4. Hearing Procedures, Decision, Miscellaneous

16300. Director's Discretion to Act. The Director may in his or her discretion initiate an investigation or hold a hearing or take such other action as is reasonably necessary which would best effectuate the purposes of the law and of these rules and regulations, except as such action may be expressly prohibited by the law.

16301. Director's Choice of Action. In any matter or proceeding under these regulations, whether it be on the initiative of the Director, petition, or request by an interested party the Director shall take those actions he or she deems necessary in the best interest of the law and these regulations except as may be specifically provided otherwise by the law or these regulations.

16302. Hearings. When a hearing is held, it shall be in accordance with the following procedures:

(a) A time and place of the hearing shall be fixed.

(b) All interested parties made known to the Director shall be notified by registered or certified mail, return receipt requested, of the time and place of the hearing.

(c) Notification shall be at least one week in advance.

(d) The interested parties shall be given an opportunity to present evidence and oral or written arguments in support of their positions.

(e) The hearing need not be conducted according to technical rules relating to evidence and witnesses.

(f) All witnesses testifying before the hearing officer shall testify under oath.

(g) A full transcript of the hearing shall be recorded.

16303. Hearing Officer. Decision. (a) The appointed hearing officer shall conduct the hearing and submit to the Director the entire record of the hearing together with written recommendations.

(b) The decisions of the Director shall reflect a summary of the evidence, findings, or matters of fact and or law.

(c) The decision shall be sent, by certified or registered mail with return receipt requested, to all parties no later than 20 days after the hearing, except as may be earlier required in a Petition to Review pursuant to Section 1773.4 of the Labor Code.

(d) The decision of the Director shall be final, for the purposes of judicial review, except that the Director upon his or her initiative only, may reconsider and take whatever action is appropriate or necessary to facilitate a decision on reconsideration. Notice of reconsideration shall be given all parties in the same manner as the notice of hearings as specified in Sections 16302, (b), (c), and (d) above and the decision upon reconsideration shall be as specified in (b), and (c) of this Section.

16304. Public Hearings. The hearing procedures enumerated in Sections 16302 and 16303, above, shall in no way be construed to affect the responsibilities or procedures pursuant to Title 2, Division 3, Part 1, Chapter 4.5 of the Government Code (commencing with Section 11371).

16305. Severability. If any provision of these regulations or the application thereof to any person, party or circumstances is held invalid, such invalidity shall not affect other provisions or applications of these regulations which can be given effect without the invalid provision or application, and to this end the provisions of these regulations are severable.

REVISION RECORD FOR REGISTER 77, No. 2
(January 8, 1977)

TITLE 18. PUBLIC REVENUES

CHAPTER 3. FRANCHISE TAX BOARD

SUBCHAPTER 3.5. BANK AND CORPORATION TAX

This part of Register 77, No. 2, contains all the additions, amendments, and repeals affecting the above-entitled portion of the California Administrative Code which were filed with the Secretary of State from 1-1-77, to and including 1-8-77. The latest prior register containing regulations of the above agency is Register 76, No. 46 (11-13-76).

It is suggested that the section numbers listed below as well as the page numbers be checked when inserting this material in the code and removing the superseded material. In case of doubt rely upon the section numbers rather than the page numbers since the section numbers must run consecutively. It is further suggested that superseded material be retained with this revision record sheet so that the prior wording of any section can be easily ascertained.

SECTION CHANGES

Unless otherwise noted, the sections listed below are repealed and added herein.

24349(k)
24349(k)(1) Repealed
24349(l)
24349(m) Repealed

been filed, and after consideration of such exceptions the director shall decide that the exceptions to the report of the service do raise substantial and material factual issues, he shall direct the hearing officer to issue a notice of hearing, whereupon the procedures for a hearing and the issuance of the hearing officer's report provided for in subsection (e) of this section (including the provision for filing exceptions to the hearing officer's report) shall be followed. The director may adopt the recommendations of the hearing officer issued under subsection (d) or the report of the hearing officer issued under subsection (e) as his own. The service shall thereafter promptly proceed to take such action as may be called for by the decision of the director, after which the proceedings will be closed.

NOTE: Authority and reference cited: Section 54, Labor Code; and Sections 4.4, 13.91, 25052, 28851, 30751, 40122, 50121, 70122, 90300b, 95651, 100301, 101344, 102403, 103401, 120505 and 125521, Public Utilities Code. Additional reference: Labor Management Relations Act, 1947, Section 9, 29 USC Section 159; 29 CFR Sections 102.60–102.72.

HISTORY

1. Amendment filed 7–29–83; effective thirtieth day thereafter (Register 83, No. 31).

§ 15875. Runoff Elections.

(a) The service shall conduct a runoff election, without further order of the director, when an election in which a ballot providing for not less than three choices (i.e. at least two representatives and "neither" or "none") results in no choice receiving a majority of the valid ballots cast, which runoff election shall be held promptly following final disposition of any challenges, objections or exceptions which followed the prior election as provided in Section 15870. Only one runoff election shall be held pursuant to this section.

(b) Employees who were eligible to vote in the election and who are employed in an eligible category on the date of the runoff election shall be the only employees eligible to vote in the runoff election.

(c) The ballot in the runoff election shall provide for a selection between the two choices receiving the largest and second largest number of votes.

(d) In the event the number of votes cast in an inconclusive election in which the ballot provided for a choice among two or more representatives and "neither" or "none" is equally divided among the several choices, or in the event the number of ballots cast for one choice in such election is equal to the number cast for another of the choices but less than the number cast for the third choice, the director shall declare the first election a nullity and shall conduct another election among the three choices which received the greatest number of ballots in the original election; provided that in the event there was a tie in the original election between the third and fourth choices or among the third, fourth and other choices, the director shall in the runoff election include on the ballot all such tied choices. In the event two or more choices receive the same number of ballots, and if either (1) there are no challenged ballots which would affect the results of the election, or (2) after all challenges have been disposed of it is found that all eligible voters have cast valid ballots, there shall be no runoff election and the petition shall be dismissed. Only one such further election pursuant to this subsection (d) may be held.

(e) The provisions of Section 15870 above shall be applicable to a runoff election.

NOTE: Authority and reference cited: Section 54, Labor Code; and Sections 4.4, 13.91, 25052, 28851, 30751, 40122, 50121, 70122, 90300b, 95651, 100301, 101344, 102403, 103401, 120505 and 125521, Public Utilities Code. HISTORY

1. Amendment filed 7–29–83; effective thirtieth day thereafter (Register 83, No. 31).

§ 15875.1. Relevant Federal Law.

In resolving questions of representation, the Director shall apply the relevant federal law and administrative practice developed under the Labor Management Relations Act, 1947, as amended.

NOTE: Authority and reference cited: Section 54, Labor Code; and Sections 4.4, 13.91, 25052, 28851, 30751, 40122, 50121, 70122, 90300b, 95651, 100301, 101344, 102403, 103401, 120505 and 125521, Public Utilities Code. Additional reference: Labor Management Relations Act, 1947, Section 9, 29 USC Section 159; 29 CFR Sections 102.60–102.72.

HISTORY

1. New section filed 7–29–83; effective thirtieth day thereafter (Register 83, No. 31).

Subchapter 2.3. Election Procedure Under San Francisco Bay Area Rapid Transit District Law

NOTE: Authority cited for Group 2.3: Section 54, Labor Code and Section 28851, Public Utilities Code.

HISTORY

1. New Group 2.3 (§§ 15900–15926) filed 1–5–73; effective thirtieth day thereafter (Register 73, No. 1).
2. Repealer of Group 2.3 (Sections 15900–15926) filed 7–29–83; effective thirtieth day thereafter (Register 83, No. 31).

Subchapter 3. Payment of Prevailing Wages upon Public Works

Article 1. Definitions

§ 16000. Definitions.

The following terms are defined for general use in these regulations within Group 3, Payment of Prevailing Wages Upon Public Works and Group 4, Awarding Body Labor Compliance Programs:

Area of Determination. The area of determining the prevailing wage is the "locality" and/or the "nearest labor market area" as determined by the Director. In determining the area, the mobility of each craft, classification and type of work will be considered.

Awarding body. Any state or local government agency, department, board, commission, bureau, district, office, authority, political subdivision, regional district officer, employee, or agent awarding/letting a contract/purchase order for public works.

Bid. Any proposal submitted to an awarding body in competitive bidding for the construction, alteration, demolition, repair, maintenance, or improvement of any structure, building, road, property, or other improvement of any kind.

Certified. The affirmation of a person with the authority to so affirm, under the penalty of perjury that the records are originals or are full, true and correct copies of the original and depict truly, fully and correctly the craft or type of work performed, hours and days worked, and the amounts by category listed, disbursed by way of cash, check, or in whatever form or manner to each person by job classification and/or skill pursuant to a public works contract.

Chief of DAS. Chief of Division of Apprenticeship Standards or a duly authorized representative.

Chief of DLSE/Labor Commissioner. Chief of the Division of Labor Standards Enforcement or a duly authorized representative.

Chief of DLSR. Chief of the Division of Labor Statistics and Research or a duly authorized representative.

Coverage. This means being subject to the requirements of Part 7, Chapter 1 of the Labor Code as a "public work." This includes all formal coverage determinations issued by the Director of Industrial Relations.

DAS. Division of Apprenticeship Standards.

Date of Notice or Call for Bids. The date the first notice inviting bids was published in a newspaper of general circulation or promulgated in a legally sufficient manner which results in a contract being awarded with or without competitive bidding. This may also be referred to as the Bid Advertisement Date.

Days. Unless otherwise specified means calendar days.

DLSE. The Division of Labor Standards Enforcement.

DLSR. The Division of Labor Statistics and Research.

Director. The Director of the Department of Industrial Relations or his/her duly authorized representative.

Duly Authorized Representative. An employee of the Department of Industrial Relations.

Effective Date. The date upon which the determinations of the Director go into effect. This date is ten days after the issue date of the determination.

Employer Payments. Includes:

(1) The rate of contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a fund, plan, or program for the benefit of employees, their families and dependents, or retirees;

(2) The rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing benefits to employees, their families and dependents or to retirees pursuant to an enforceable commitment or agreement to carry out a financially responsible plan or program which was communicated in writing to the workers affected; and

(3) The rate of contribution irrevocably made by the contractor or subcontractor for apprenticeship or other training programs authorized by Section 3071 and/or 3093 of the Labor Code.

Expiration Date. The date upon which the determinations of the Director are subject to change.

General Prevailing Rate of Per Diem Wages. Includes:

(1) The prevailing basic straight–time hourly rate of pay; and

(2) The prevailing rate for holiday and overtime work; and

(3) The prevailing rate of employer payments for any or all programs or benefits for employees, their families and dependents, and retirees which are of the types enumerated below:

(A) medical and hospital care, prescription drugs, dental care, vision care, diagnostic services, and other health and welfare benefits;

(B) retirement plan benefits;

(C) vacations and holidays with pay, or cash payments in lieu thereof;

(D) compensation for injuries or illnesses resulting from occupational activity;

(E) life, accidental death and dismemberment, and disability or sickness and accident insurance;

(F) supplemental unemployment benefits;

(G) thrift, security savings, supplemental trust, and beneficial trust funds otherwise designated, provided all of the money except that used for reasonable administrative expenses is returned to the employees;

(H) occupational health and safety research, safety training, monitoring job hazards, and the like, as specified in the applicable collective bargaining agreement;

(I) See definition of "Employer Payments," (3).

(J) other bonafide benefits for employees, their families and dependents, or retirees as the Director may determine; and

(4) travel time and subsistence pay as provided for in Labor Code Section 1773.8.

(b) The term "general prevailing rate of per diem wages" does not include any employer payments for:

(1) Job related expenses other than travel time and subsistence pay;

(2) Contract administration, operation of hiring halls, grievance processing, or similar purposes except for those amounts specifically earmarked and actually used for administration of those types of employee or retiree benefit plans enumerated above;

(3) Union, organizational, professional or other dues except as they may be included in and withheld from the basic taxable hourly wage rate;

(4) Industry or trade promotion;

(5) Political contributions or activities;

(6) Any benefit for employees, their families and dependents, or retirees including any benefit enumerated above where the contractor or subcontractor is required by Federal, State, or local law to provide such benefit; or

(7) Such other payments as the Director may determine to exclude. Interested Party. When used with reference to a particular prevailing wage determination made by the Director, includes:

(1) Any contractor or subcontractor, or any organization, association, or other representative of any contractor or subcontractor likely to bid on or to perform a contract for public work which is subject to the particular prevailing wage determinations, and/or

(2) Any worker in the particular craft, classification, or type of work, who may be employed on a public work project subject to the particular prevailing wage determination, or any labor organization or other representative of such a person, including the recognized collective bargaining representative for the particular craft, classification, or type of work; and/or

(3) Any awarding body or association or other representative of awarding bodies concerned with the administration of a pubic works contract or proposed contract, which is subject to the particular prevailing wage determination.

Helper. Any subjourneyman classification traditionally used to assist a journeyman. Under no circumstance may the Helper classification be used to replace statutorily required Apprentices.

Identify or Give Notice of Identity. This means to state the name, job title, address and current telephone number of a person or entity.

Interim Determination. Those determinations of the Director issued between the quarterly updates.

Issue Date–Issuance. The date upon which copies of the determination of the Director are deposited in the mail.

LCP. A labor compliance program initiated and enforced by an awarding body in accordance with these regulations.

Locality. See Labor Code Section 1724.

Maintenance. Includes:

(1) Routine, recurring and usual work for the preservation, protection and keeping of any publicly owned or publicly operated facility (plant, building, structure, ground facility, utility system or any real property) for its intended purposes in a safe and continually usable condition for which it has been designed, improved, constructed, altered or repaired.

(2) Carpentry, electrical, plumbing, glazing, [touchup painting,] and other craft work designed to preserve the publicly owned or publicly operated facility in a safe, efficient and continuously usable condition for which it was intended, including repairs, cleaning and other operations on machinery and other equipment permanently attached to the building or realty as fixtures.

EXCEPTION: 1: Janitorial or custodial services of a routine, recurring or usual nature is excluded.

EXCEPTION: 2: Protection of the sort provided by guards, watchmen, or other security forces is excluded.

(3) Landscape maintenance. See Public Contract Code Section 21002.

EXCEPTION: Landscape maintenance work by "sheltered workshops" is excluded.

Mistake, Inadvertence, or Neglect. Mistake, inadvertence, or neglect in failing to pay the correct general rate of per diem wages means the lack of knowledge that any reasonable person would also be expected to have under the same or similar circumstances.

Nearest labor market Area. The nearest geographical area from which workers of the crafts, classifications, and types to be used in the performance and execution of the public work can be drawn for employment upon such public work.

Payroll Records. All time cards, cancelled checks, cash receipts, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidences which reflect job assignments, work schedules by days and hours, and the disbursement by way of cash, check, or in whatever form or manner, of funds to a person(s) by job classification and/or skill pursuant to a public works project.

Person. Any individual [or legal entity, including a] partnership, corporation, association, or any local, state, regional, national or international organization, public or private, or any awarding body, or any agent or officer thereof, authorized to act for or on behalf of any of the foregoing.

Political Subdivision. See Labor Code Section 1721.

Predetermined Changes. Definite changes to the basic hourly wage rate, overtime, holiday pay rates, and employer payments which are known and enumerated in the applicable collective bargaining agreement

(d) Residential Projects. Residential projects consisting of single family homes and apartments up to and including four stories are subject to payment of prevailing wages when paid for in whole or in part out of public funds, including federally–funded or assisted residential projects controlled or carried out by an awarding body.

NOTE: Such projects may require a special determination by the Director which should be requested by the awarding body at least 45 days before the commencement of advertising of the call for bids by the awarding body.

(e) Commercial Projects. All non–residential construction projects including new work, additions, alterations, reconstruction and repairs. Includes residential projects over four stories.

(f) Maintenance. Public works contracts for maintenance are subject to prevailing wage rate payment as set forth in Section 1771 of the Labor Code.

NOTE: See Article 1 for definition of term "maintenance."

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1720.4 and 1771, Labor Code.

HISTORY

1. Amendment of subsection (a) and NOTE and adoption of subsections (a)(1)–(3) and (e) and relettering former subsection (e) to (f) filed 2–20–92; operative 3–23–92 (Register 92, No. 13).
2. Amendment of subsection (b) and (d) and NOTE filed 12–27–96; operative 1–26–97 (Register 96, No. 52).
3. Change without regulatory effect repealing amendments to subsections (b) and (d) and NOTE filed 2–19–99 (Register 99, No. 8). Pursuant to Sacramento Superior Court Order Issued 6–4–97 in Case 97CS 00471 the amendments filed 12–27–96 and effective 1–27–97 were invalidated and the prior regulations were reinstated.

§ 16002. Coverage of Worker.

The determinations of the Director will cover those crafts, classifications or types of workers employed in public works as set forth in Sections 1720, 1720.2, 1720.3, and 1771 of the Labor Code.

NOTE: Authority cited: Sections 1723 and 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3 and 1771, Labor Code.

§ 16002.5. Appeal of Public Work Coverage Determination.

(a) Those interested parties enumerated in Section 16000 of these regulations may appeal to the Director of Industrial Relations or the Director's duly authorized representative as set forth in Section 16301 of these regulations a determination of coverage under the public works laws (Labor Code Section 1720 et seq.) regarding either a specific project or type of work under Section 16001(a) of these regulations. Such notice of appeal must be served within 30 days of the issuance of the coverage determination. The party appealing the determination must, in accordance with the filing procedures set forth in Section 16302(d) of these regulations, give written notification to the awarding body and any other identifiable parties.

(b) The notice of appeal shall state the full factual and legal grounds upon which the determination is appealed, and whether a hearing is desired. The decision to hold a hearing is within the Director's sole discretion. The Director may appoint a hearing officer to conduct the hearing and propose a decision on the appeal. The Director shall make the final decision on the appeal.

(c) The authority of the Director to determine coverage of projects under the prevailing wage laws is quasi–legislative, and a final determination on any appeal is subject to judicial review pursuant to the Code of Civil Procedure, Section 1085.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1720, 1720.2, 1720.3, 1720.4 and 1771, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16003. Requests for Approval of Volunteer Labor.

(a) An awarding body wishing to use volunteer labor on what would otherwise be a public works project, pursuant to Labor Code Section 1720.4 shall serve a written request for approval on the Director, not less than 45 days prior to the commencement of work on the facilities or structures.

(b) The request for approval shall fully set forth the awarding body's grounds for belief that the requirements of Labor Code Section 1720.4(a), (b), and (c) are satisfied, and shall list all the crafts and classifications of workers that typically perform the types of work needed for the project.

(c) The request for approval shall identify the unions which represent workers in the crafts or classifications listed in (b) within the locality in which the public work is performed.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1720.4, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Article 3. Duties, Responsibilities, and Rights of Parties

§ 16100. Duties, Responsibilities and Rights.

The parties listed in this section must comply with the provisions of the Labor Code applicable to the payment of prevailing wages on public works contracts.

(a) Department and Division Authority in Prevailing Wage Issues. The Director shall establish and coordinate the administration of the State's prevailing wage law, including the determination of coverage issues. The lead agency for the determination of prevailing wage rates shall be the Division of Labor Statistics and Research. The lead agency for the enforcement of the payment of prevailing wages is the Division of Labor Standards Enforcement. The lead agency for the coordination on apprenticeship is the Division of Apprenticeship Standards. This section shall not be construed to preclude any filing requirements with DLSR of appropriate agreements or petitions regarding determinations or any other documents, papers, books, etc. otherwise required by the law or these regulations.

(b) The Awarding Body shall:

(1) Obtain the prevailing wage rate from the Director in accordance with Labor Code Sections 1771 and 1773.

(2) Specify the appropriate prevailing wage rates, in accordance with Labor Code Sections 1773.2 and 1777.5.

(A) The posting requirement is applicable for each job site.

EXCEPTION: If more than one worksite exists on any project, then the applicable rates may be posted at a single location which is readily available to all workers.

(B) If a wage rate for a craft, classification or type of worker is not published in the Director's general prevailing wage determinations, a request for a special determination should be made by the awarding body to Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142, at least 45 days prior to the project bid advertisement date.

(3) Notify DAS. See Labor Code Section 1773.3.

(4) Inform prime contractors, to the extent feasible, of relevant public work requirements:

NOTE: Requirement information may be disseminated at a preacceptance of bid conference or in a call for bids or at an award of bid conference.

The public works requirements are:

(A) the appropriate number of apprentices are on the job site, as set forth in Labor Code Section 1777.5.

(B) worker's compensation coverage, as set forth in Labor Code Sections 1860 and 1861.

(C) keep accurate records of the work performed on the public works project, as set forth in Labor Code Section 1812.

(D) inspection of payroll records pursuant to Labor Code Section 1776, and as set forth in Section 16400 (e) of these regulations.

(E) and other requirements imposed by law.

(5) Withhold monies. See Labor Code Section 1727.

(6) Ensure that public works projects are not split or separated into smaller work orders or projects for the purpose of evading the applicable provisions of Labor Code Section 1771.

(C) When such rate is adopted, and in the case where the collective bargaining agreement contains changes during its term which will affect the rate adopted, which are not definite or predetermined, the changes shall not be adopted. The prior determination will remain in effect until a new determination is issued. Any interested party may request that the Director make a new determination when contract changes become definite and determined by filing a statement as set forth in Section 16200(a)(1). The statement must summarize the amounts and effective dates of any cost–of–living adjustments, allocations of interim wage increases to wages and employer payments, and other relevant changes which will affect the rate adopted by the Director. The statement must be signed by an officer or agent of the bargaining representative and certified, under penalty of perjury, as true and correct to the best of his or her knowledge and belief.

(D) When such agreement is adopted as the basis of the prevailing wage determination, all wage classifications may be considered.

(E) Holidays. Holidays specifically named in the collective bargaining agreement or determined by wage surveys shall be included in the wage determination. Overtime pay may be required as provided in Section 16200(a)(3)(F) of these regulations.

(F) Overtime. Overtime will be paid as indicated in the wage determination.

EXCEPTION 1: If a workweek other than Monday through Friday is a fixed business practice or is required by the awarding body, no overtime payment is required for the first eight hours on Saturday or Sunday.

EXCEPTION 2: If the collective bargaining agreement provides for Saturday and Sunday work at straight–time, no overtime payment is required for the first eight hours on Saturday or Sunday.

EXCEPTION 3: If the awarding body determines that work cannot be performed during normal business hours or work is necessary at off hours to avoid danger to life or property, no overtime is required for the first eight hours in any one calendar day, and 40 hours during any one calendar week.

EXCEPTION 4: No overtime payment is required for less than 40 hours in a standard work week or for less than eight hours in a calendar workday unless specified in the collective bargaining agreement used as the basis for the prevailing wage determination.

(G) Wage rates, training contributions and apprenticeship contributions. Apprenticeship rates shall be determined by the Director of Industrial Relations using apprentice wage standards set forth in the collective bargaining agreement and/or approved by the California Apprenticeship Council. A contractor or subcontractor on a public works contract must pay training fund contributions or apprenticeship contributions in one of the following manners:

1. into the appropriate craft apprenticeship program in the area of the site of the public work; or

2. (if the trust fund is unable to accept such contributions) an equivalent amount shall be paid to the California Apprenticeship Council (CAC) administered by DAS.

3. If neither of the above will accept the funds, cash pay shall be as provided for in Section 16200(a)(3)(I) of these regulations.

(H) Rates for helpers. Rates for helpers will be published when the information available to the Director indicates that a practice of using such a subclassification prevails in a particular area, such as contained in a collective bargaining agreement, and within the parameters of the applicable collective bargaining agreement. In the absence of such determination, the helper classification may not be used as a substitute for a journeyman or apprentice. This section does not exempt the contractor from the 1–5 apprentice–journeyman ratio requirements set forth in Labor Code Section 1777.5.

(I) Credit Available For Actual Payment of Fringe Benefit Costs up to the Prevailing Amount. The contractor obligated to pay the full prevailing rate of per diem wages may take credit for amounts up to the total of all fringe benefit amounts listed as prevailing in the appropriate wage determination. This credit may be taken only as to amounts which are actual payments under Employer Payments Section 16000(1)–(3). In the event the total of Employer Payments by a contractor for the fringe benefits listed as prevailing is less than the aggregate amount set out as prevailing in the wage determination, the contractor must pay the difference directly to the employee. No amount of credit for payments over the aggregate amount of employer payments shall be taken nor shall any credit decrease the amount of direct payment of hourly wages of those amounts found to be prevailing for straight time or overtime wages.

(b) Federal Rates. In reviewing rates predetermined for federal public works, the Director will consider those rates published pursuant to the Davis–Bacon Act.

(c) Data collection shall be in accordance with Labor Code Section 1773.

(d) Wage rate factors.

NOTE: Wage surveys are conducted by DLSR.

(1) The following factors shall be considered:

(A) Type of work to be performed;

(B) Classification(s) of worker(s) needed;

(C) Geographical area of project;

(D) Nearest labor market area;

(E) If work has been performed in the geographical area in the past 12 months.

(F) Mobility of craft, classification, or type of worker needed for project;

(G) Number of workers in craft or job classification;

(H) Normal industry practice in selection of craft and classification of worker;

(I) Size (dollar amount) of project;

(J) Degree of project's remoteness from survey area.

(2) Time period used in determining prevailing wage by survey. The time period reference for establishing the prevailing wage in the area of determination shall be the 12–month period prior to the request for a wage determination unless another time period is necessary. In such cases, the Director shall establish the appropriate time period.

(e) Other information. Pursuant to Section 1773 of the Labor Code, the Director may also obtain and consider other data from interested parties, and shall give consideration to data submitted by any interested party, concerning rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area. Such data may be obtained by holding a hearing, instituting an investigation, or by such other means as the Director determines will best serve the purposes of the law. Information submitted by interested parties for the Director's consideration shall include, but not be limited to the following for each project:

(1) the name, address, job title, and telephone number of the interested party submitting the information and the basis for qualification as an interested party under Section 16102;

(2) the basic hourly wage rate, overtime and holiday pay rates, and employer payments as enumerated in Section 16000 of these regulations for each classification in question as effective for the last payroll period, or most recent payroll period, for which payments based on such rates were actually made;

(3) the number of workers employed on the project in each classification in question during the payroll period for which data is submitted;

(4) the location of the project;

(5) the name and address of the contractor or subcontractor making the payments, and of all other contractors or subcontractors on the project;

(6) the type of construction (e.g. residential, commercial building, etc.);

(7) the approximate cost of construction;

(8) the beginning date and completion date, or estimated completion date of the project;

(9) the source of data (e.g. "payroll records");

(10) the method of selection of the projects for which data is submitted, when data is not submitted for all projects recently completed or in progress in the locality or in the nearest labor market area.

NOTE: Authority cited: Sections 1773 and 1773.5, Labor Code. Reference: Sections 1770, 1771, 1773, 1773.1, 1773.5, 1773.8, 1777.5, 1810 and 1815, Labor Code.

vailing wage determinations must be confirmed in writing and must specify the location where the public work is to be performed, including the county and the particular crafts, classifications, or types of workers for which a determination is needed.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770 and 1773, Labor Code.

HISTORY

1. Amendment filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16206. Corrections.

Upon his or her own initiative or at the request of any interested party, the Director shall correct any error in a published determination that is the result of clerical error, such as a typographical error or a transposition of letters or digits, by issuing a corrected determination or a modification of the determination. The Director may correct any error issued in a determination by reissuing such determination.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770 and 1773, Labor Code.

Article 5. Petitions to Review Prevailing Wage Determinations

§ 16300. Delegation of Authority.

(a) The Chief of DLSR is the authorized representative of the Director for the purpose of:

(1) Receiving collective bargaining agreements and other documents and papers pertaining to making prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these regulations;

(2) Gathering information needed to make prevailing wage determinations under Part, Chapter 1, Article 2 of the Labor Code and these regulations, and may for that purpose institute investigations, conduct hearings, or employ such other means as shall best serve the purpose of the law;

(3) Issuing prevailing wage determinations under Part 7, Chapter 1, Article 2 of the Labor Code and these regulations; and

(4) Responding to petitions regarding determinations.

(b) The Director reserves the right to make all final determinations.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1770, 1771, 1772, 1773 et seq., 1774, 1775, 1776, 1777, 1777.5 et seq., 1778, 1779 and 1780, Labor Code.

§ 16301. Referral of Prevailing Wage Issues to Director's Office.

Any new or unresolved issue other than of a routine nature as to coverage of or amount of the prevailing wage raised by an awarding body or other interested party may be referred to the Chief of DLSR as the Director's duly authorized representative for final determination, including appeals of any determination relating either to coverage or to the rate of the prevailing wage rate, subject only to Section 16300(b) of these regulations.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Section 1773.4, Labor Code.

§ 16302. Petition to Review Prevailing Wage Determinations.

Those interested parties enumerated in Section 1773.4 of the Labor Code, and defined in Section 16000 of these regulations, may file with the Director or the Chief of DLSR, within 20 days after commencement of advertising of a call for bids by any awarding body, a petition to review a determination of any rate or rates made by the Director, pursuant to Section 1773 of the Labor Code, which is specified in or referred to in the call for bids.

(a) Manner of Filing. Every petition filed pursuant to Section 1773.4 of the Labor Code shall be filed with the Director by mail to the Chief, Division of Labor Statistics and Research, P.O. Box 420603, San Francisco, CA 94142, or may be filed in person at 455 Golden Gate Avenue, 5th Floor, San Francisco, CA 94102.

(b) Filing. Where any paper, letter, petition, or document is required or permitted to be filed pursuant to these regulations or pursuant to the prevailing wage provisions of the Labor Code, it shall be deemed filed with any person, awarding body or division upon actual delivery to and receipt by such person, awarding body, or division.

(c) Content of Petition. Every petition filed pursuant to Section 1773 of the Labor Code shall contain and separately state the following:

(1) The name, address, telephone number and job title of:

(A) the person filing the petition;

(B) the person verifying the petition, if different from the person filing;

(C) if applicable, petitioner's attorney or authorized representative.

(2) Whether the petitioner is an awarding body, a prospective bidder, or the representative of one or more crafts, classifications or types of workers involved in the public works contract;

(3) The nature of petitioner's business, if a prospective bidder, and a designation of each craft, classification, or type of worker represented, or types of workers involved in the public works project.

(4) (A) the official name of the awarding body;

(B) the date on which the call for bids was first published;

(C) the name and location of the newspaper in which such publication was made. An accurate copy of the call for bids as published shall be attached to the petition.

(5) If petitioner is an awarding body which is a department, board, authority or political subdivision other than a county, city and county, city, township, or regional district, the awarding body shall describe the parent or principal organization of which it is a part, and shall specify the statutory authority for undertaking public works.

(6) If the petitioner is a prospective bidder, then the parent or subsidiary corporations or associations related to such craft, classification or type of work, if any, shall be specified.

(7) The manner in which the wage rate determined by the Director fails to comply with the provisions of Labor Code Section 1773.

(A) Every petition asserting that the applicable prevailing rate for one or more crafts, classifications or types of workers needed to execute a contract is different from that ascertained by the Director shall set forth the rate the petitioner claims to be correct for each disputed rate, together with specific reference to particular facts providing the basis for such claim.

1. Whenever such facts relate to a particular employer of such crafts, classifications, or types of workers, the facts stated must identify the employer by name and address and give the number of workers involved.

2. Whenever such facts relate to an applicable collective bargaining agreement which the petitioner alleges was not considered by the Director pursuant to Section 1773 of the Labor Code, a copy of the agreement, if not already filed with the Director, should be filed concurrently with the petition in the manner provided in Section 16200(a)(1) of these regulations.

3. Whenever such facts relate to rates actually paid on public or private projects under construction or recently completed in the locality and in the nearest labor market area, the facts stated should include all of the items of information enumerated in Section 16200(e) of these regulations.

(B) Every petition asserting that the Director has failed to ascertain and consider all applicable rates required to be considered by it shall specifically state in the petition which rates have not been considered by the Director.

(C) Where rates ascertained by the Director are the same as the applicable rates established by the collective bargaining agreement and rates of pay determined for federal public works within the locality and the nearest labor market area where the public work is performed, the petition shall specifically describe the manner and extent to which such rates do not constitute the rates actually prevailing in the locality where the public work is to be performed, and shall set forth and fully identify the existence of any rates asserted by petitioner to be prevailing in the locali and relied upon in support of the petition.

(d) Filing Copy With Awarding Body. If the petitioner is not an awarding body, the petitioner may concurrently with the filing of the original

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Sections 1773.5 and 1776, Labor Code.

§ 16401. Reporting of Payroll Requests.

(a) Reporting Format. The format for reporting of payroll records requested pursuant to Labor Code Section 1776 shall be on a form provided by the public entity. Copies of the forms may be procured at any office of the Division of Labor Standards Enforcement (DLSE) throughout the state and/or:

Division of Labor Statistics & Research P.O. Box 603 San Francisco, CA 94101

ATTENTION: Prevailing Wage Unit

Acceptance of any other format shall be conditioned upon the requirement that the alternate format contain all of the information required pursuant to Labor Code Section 1776. If, however, the contractor does not comply with the provisions of Labor Code Section 1776, the Labor Commissioner may require the use of DIR's suggested format, "Public Works Payroll Reporting Form" (Form A–1–131).

(b) Words of Certification. The form of certification shall be as follows: I, _____ (Name–print) the undersigned, am _____ (position in business) with the authority to act for and on behalf of _____, (name of business and/or contractor) certify under penalty of perjury that the records or copies thereof submitted and consisting of _____ (description, no. of pages) are the originals or true, full and correct copies of the originals which depict the payroll record(s) of the actual disbursements by way of cash, check, or whatever form to the individual or individuals named. Date:_____Signature:_____

A public entity may require a more strict and/or more extensive form of certification.

NOTE: Authority cited: Sections 54 and 1773.5, Labor Code. Reference: Section 1776, Labor Code.

§ 16402. Cost.

The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs. Payment in the form of cash, check or certified money order shall be made prior to release of the documents to cover the actual costs of preparation.

NOTE: Authority cited: Section 1776, Labor Code. Reference: Section 1776(h), Labor Code.

§ 16403. Privacy Considerations.

(a) Records received from the employing contractor shall be kept on file in the office or entity that processed the request for at least 6 months following completion and acceptance of the project. Thereafter, they may be destroyed unless administrative, judicial or other pending litigation, including arbitration, mediation or other methods of dispute resolution, are in process. Copies on file shall not be obliterated in the manner prescribed in subdivision (b) below;

(b) copies provided to the public upon written request shall be marked, obliterated or provided in such a manner that the name, address and Social Security number, and other private information pertaining to each employee cannot be identified. All other information including identification of the contractor shall not be obliterated;

(c) the public entity may affirm or deny that a person(s) was or is employed on a public works contract (by a specific contractor) when asked, so long as the entity requires such information of an identifying nature which will reasonably preclude release of private or confidential information.

NOTE: Authority cited: Sections 54, 1773.5 and 1776, Labor Code. Reference: Section 1776, Labor Code.

Article 7. Withholding of Funds from Contractor—Hearing Procedure

§ 16410. Definitions.

As used in these regulations, the terms "awarding body," "contractor," and "subcontractor" shall have the same meaning as in Part 7 of Division 2 of the Labor Code. The term "affected subcontractor" shall mean a subcontractor whose alleged failure to pay the prevailing wage or to otherwise comply with the provisions of Labor Code §§ 1720–1815 resulted in the withholding of funds pursuant to Labor Code § 1727.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New article 7 (sections 16410–16414) and section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.
2. New article 7 (sections 16410–16414) and section refiled 6–14–99 as an emergency; operative 6–14–99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–12–99 or emergency language will be repealed by operation of law on the following day.
3. New article 7 (sections 16410–16414) and section refiled 10–4–99 as an emergency; operative 10–4–99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–1–2000 or emergency language will be repealed by operation of law on the following day.
4. New article 7 (sections 16410–16414) and section refiled 1–20–2000 as an emergency; operative 2–2–2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6–1–2000 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1–20–2000 order transmitted to OAL 3–29–2000 and filed 5–4–2000 (Register 2000, No. 18).

§ 16411. Notice to Contractor and Affected Subcontractor.

(a) Upon the decision to withhold, retain or forfeit any sum from a payment due to a contractor as permitted by Labor Code § 1727, the Division of Labor Standards Enforcement shall give written notice to the awarding body, the contractor, and to any affected subcontractor, of the withholding, retention, or forfeiture.

(b) Said notice shall include the following information:

(1) The amount to be withheld, retained or forfeited.

(2) A short statement of the factual basis upon which said amount is to be withheld, retained, or forfeited, including, but not limited to, the computation of any wages found to be due, and the computation of any penalties assessed under Labor Code § 1775.

(3) Notice of the right to request a hearing under these regulations, and of the manner in which, and the time within which a hearing must be requested.

(c) Said notice shall be sent by certified mail to the last known address of the contractor, and to the last known address of any affected subcontractor. The records of the State Contractors' License Board may be used to determine the address of a contractor or affected subcontractor.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1727, 1730, 1731, 1732, 1733, 1775, 1776(g) and 1813, Labor Code.

HISTORY

1. New section filed 2–16–99 as an emergency; operative 2–16–99 (Register 99, No. 8). A Certificate of Compliance must be transmitted to OAL by 6–16–99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 6–14–99 as an emergency; operative 6–14–99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10–12–99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 10–4–99 as an emergency; operative 10–4–99 (Register 99, No. 41). A Certificate of Compliance must be transmitted to OAL by 2–1–2000 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 1–20–2000 as an emergency; operative 2–2–2000 (Register 2000, No. 3). A Certificate of Compliance must be transmitted to OAL by 6–1–2000 or emergency language will be repealed by operation of law on the following day.

Subchapter 4. Awarding Body Labor Compliance Programs

Article 1. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs

§ 16425. Applicable Dates for Enforcement of Awarding Body Labor Compliance Programs.

(a) No contracts shall be subject to LCP jurisdiction nor shall the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) apply to any contract of an awarding body until after the LCP has received initial or final approval under these regulations.

(b) Contracts for which the Date of Notice or the Call for Bids are subsequent to the date of initial or final approval of a LCP are subject to Labor Code Section 1771.5. In the case of a contract for which there is no Call for Bids, the applicable date shall be the date of execution of the contract.

(c) Revocation of approval of a LCP by the Director shall not affect the limited exemption from payment of prevailing wages pursuant to Labor Code Section 1771.5(a) if the date of such revocation is subsequent to the Date of Notice or Call for Bids or, in the case of a contract for which there is no Call for Bids, subsequent to the date of execution of the contract.

(d) If the Director revokes approval of a LCP, the Director shall give notice to the awarding body specifying enforcement responsibilities, including enforcement actions pending hearing, as of the date of revocation.

(e) An awarding body may voluntarily terminate its LCP. With respect to each contract pending on the date of termination, the awarding body shall:

(1) Notify the Director of its intention and the effective date of the termination;

(2) Notify the contractor(s) and the DLSE of the identity of the agent who will carry out the compliance enforcement obligations of Labor Code Section 1771.5 on the remaining contracts; and

(3) Specify the general fund into which penalties or forfeitures withheld from any contract payments shall be deposited.

(f) The Labor Commissioner may, in writing, agree to assume enforcement obligations on pending contracts of an awarding body which has voluntarily terminated its LCP. In such case, penalties and forfeitures shall be deposited in the general fund of the state.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13). For prior history of subchapter 4 (sections 16209–16209.6), see Register 82, No. 51.

Article 2. Approval and Revocation of Approval of Labor Compliance Programs by Director

§ 16426. Initial Approval.

(a) An awarding body seeking approval of a LCP shall submit evidence of its ability to operate its LCP. Prior to granting approval, the Director shall consider the following factors:

(1) Experience and training of the awarding body's personnel on public works labor compliance issues;

(2) The average number of public works contracts the awarding body annually administers;

(3) Whether the LCP is a joint or cooperative venture among awarding bodies, and how the resources and expanded responsibilities of the LCP compare to the awarding bodies involved;

(4) The awarding body's record of taking cognizance of Labor Co violations and of withholding in the preceding five years;

(5) The availability of legal support for the LCP;

(6) The availability and quality of a manual outlining the responsibilities and procedures of the LCP to the awarding body; and

(7) The method by which the awarding body will transmit notice to the Labor Commissioner of willful violations as defined in Labor Code Section 1777.1(d).

(b) The Director shall notify the awarding body within 30 days of receipt of the request for approval that initial approval is granted and the effective date of initial approval, or that the request is incomplete and of the materials necessary to complete the request or that the request is disapproved for other reasons.

(c) Initial approval of a LCP shall automatically expire one year after approval unless an extension is requested in writing and granted in writing by the Director at least thirty days prior to the anniversary date of the approval. Where necessary to coordinate with the local government's fiscal year or existing public works procedures, initial approval may be for a period up to 18 months.

(d) The Director will maintain a list of all initially approved LCPs for distribution to interested parties upon request.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5, 1771.6 and 1777.1, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16427. Final Approval.

(a) An awarding body which has operated a LCP for 11 continuous months after initial approval may apply to the Director for final approval. The awarding body bears the burden of producing evidence that it meets the criteria in (b).

(b) The Director will grant final approval if the awarding body has satisfactorily demonstrated its ability to monitor compliance with the requirements of the Labor Code and these regulations, and has filed timely, complete, and accurate reports as required by these regulations.

(c) The Director shall notify the awarding body within 30 days of the receipt of a request for final approval that final approval is granted and the effective date of final approval, or that the request for final approval is denied, the reason for the denial and the status of the LCP program.

(d) An awarding body which has received final approval of its LCP may enter into an agreement with the Labor Commissioner which may provide for procedures and for securing approval of forfeitures in a manner different from that set forth in Section 16437, and for alternate procedures for appeals of enforcement actions to the Director.

(e) The Director will maintain a list of all finally approved LCPs, for distribution to interested parties upon request. The Director may agree to alternative reporting formats under Section 16431 of these regulations and shall maintain a list of interested parties who wish notification of alternative reporting formats before adoption.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1771.6, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16428. Revocation of Final Approval.

(a) The Director may revoke final approval of a LCP only after giving due notice to the awarding body, conducting a hearing, and finding cause for revocation.

(1) Cause for revocation of final approval includes, but is not limited to:

(A) Failure of the awarding body to monitor compliance with the requirements of the Labor Code and these regulations or to take appropriate enforcement action for violations of which it becomes or should have become cognizant;

(1) The contractor's duty to pay prevailing wages under Labor Code Section 1770 et seq., should the project exceed the exemption amounts;

(2) The contractor's duty to employ registered apprentices on the public works project under Labor Code Section 1777.5;

(3) The penalties for failure to pay prevailing wages (for non-exempt projects) and employ apprentices including forfeitures and debarment under Labor Code Sections 1775 and 1777.7;

(4) The requirement to keep and submit copies upon request of certified payroll records under Labor Code Section 1776, and penalties for failure to do so under Labor Code Section 1776(f);

(5) The prohibition against employment discrimination under Labor Code Section 1777.6; the Government Code, and Title VII of the Civil Rights Act of 1964;

(6) The prohibition against accepting or extracting kickback from employee wages under Labor Code Section 1778;

(7) The prohibition against accepting fees for registering any person for public work under Labor Code 1779; or for filling work orders on public works under Labor Code Section 1780;

(8) The requirement to list all subcontractors under Government Section 4100 et seq;

(9) The requirement to be properly licensed and to require all subcontractors to be properly licensed and the penalty for employing workers while unlicensed under Labor Code Section 1021 and under the California Contractors License Law, found at Business and Professions Code Section 7000 et seq;

(10) The prohibition against unfair competition under Business and Professions Code Section 17200–17208;

(11) The requirement that the contractor be properly insured for Workers Compensation under Labor Code Section 1861;

(12) The requirement that the contractor abide by the Occupational, Safety and Health laws and regulations that apply to the particular construction project;

(13) The requirement to provide affirmative action for women and minorities as required in the Public Contracts Code and in the contract;

(14) The prohibition against hiring undocumented workers, and the requirement to secure proof of eligibility/citizenship from all workers.

§ 16431. Annual Report.

The awarding body shall submit to the Director an annual report on the operation of its LCP within 60 days after the close of its fiscal year, or accompany its request for an extension of initial approval, whichever comes first. The annual report shall contain, at the minimum, the following information:

(1) Number of contracts awarded, and their total value;

(2) The number, description, and total value of contracts awarded which were exempt from the requirement of payment of prevailing wages pursuant to Labor Code Section 1771.5(a);

(3) A summary of penalties and forfeitures imposed and withheld, or recovered in a court of competent jurisdiction;

(4) A summary of wages due to employees resulting from failure by contractors to pay prevailing wage rates, the amount withheld from money due the contractors, and the amount recovered by action in any court of competent jurisdiction.

(b) A LCP whose contract responsibilities are statewide, or which involves widely dispersed and numerous contracts, or which is required to report contract enforcement to federal authorities in a federal format, may adopt a summary reporting format to aggregate small contracts and estimate numbers and dollar values required by (a)(1) and (2). A summary reporting format may be adopted by agreement with the Director after advance notice to interested parties, and a list of parties requesting such notice shall be kept by the Director.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16432. Audits.

(a) Audits may be conducted when deemed necessary by the awarding body and shall be conducted upon request of the Labor Commissioner.

(1) An audit consists of a comparison of payroll records to the best available information as to the actual hours worked and classifications of workers employed on the contract. An audit is sufficiently detailed when it enables the LCP, and the Labor Commissioner in reviewing proposed penalties, to draw reasonable conclusions as to compliance with the requirements of Chapter 1 of Part 7 of Division 2 of the Labor Code, and to enable accurate computation of underpayment of wages to workers and of applicable penalties and forfeitures. Records shall be made available to show that the audits conducted are sufficiently detailed to verify compliance with the requirements of Chapter 1 of Part 7 of Division 2. An audit record in the form set out in Appendix B presumptively demonstrates sufficiency.

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 224, 226, 1773.2, 1776, 1777.5, 1778, 1810, 1815, 1860 and 1861, Labor Code.

HISTORY

1. New section and Appendix filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Appendix B

Audit Record Form (suggested for use with Section 16432 audits)

An audit record is sufficiently detailed to "verify compliance with the requirements of Chapter"1, Public Works, of Part 7 of Division 2, when the audit record displays that the following procedures were accomplished:

(1) Audits of the obligation to secure workers' compensation means demanding written evidence of a binder issued by the carrier, or telephone or written inquiry to the Workers' Compensation Insurance Rating Bureau;

(2) Audits of the obligations to employ and train apprentices means inquiry to the program sponsor for the apprenticeable craft or trade in the area of the public works as to: whether contract award information was received, including an estimate of journeyperson hours to be performed and the number of apprentices to be employed; whether apprentices have been requested, and whether the request has been met; whether the program sponsor knows of any amounts sent by the contractor or subcontractor to it for the training trust, or the California Apprenticeship Council; and whether persons listed on the certified payroll in that craft or trade as being paid less than the journeyperson rate are apprentices registered with that program and working under apprentice agreements approved by the Division of Apprenticeship Standards;

(3) Audits of the obligation to pass through amounts made part of the bid for apprenticeship training contributions, to either the training trust or the California Apprenticeship Council, means asking for copies of checks sent, or when the audit occurs more than 30 days after the month in which payroll has been paid, copies of canceled checks;

(4) Audits of "illegal taking of wages" means inspection of written authorizations for deductions (listed in Labor Code Section 224) in the contractor or subcontractor's files and comparison to wage deduction statements furnished employees (Labor Code Section 226), together with an interview of several employees as to any payments not shown on the wage deduction statements;

(5) Audits of the obligation to keep records of working hours, and pay not less than required by Title 8 CCR Section 16200(a)(3)(F) for hours worked in excess of 8 hours are the steps for review and audit of Certified Weekly Payrolls under Title 8 CCR Section 16432;

(6) Audits of the obligations to pay the prevailing per diem wage, means such steps for review and audit of Certified Weekly Payrolls which will produce a report covering compliance in the areas of:

(A) All elements defined as the "General Prevailing Rate of Per Diem Wages" in Title 8 CCR Section 16000, which were determined to be prevailing in the Director's determination which was in effect on the date of the call for bids, available in its principal office, and posted;

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771, 1771.5, 1777.5, 1776, 1779, 1813, 1815 and 3077, Labor Code.

HISTORY

1. New section filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

§ 16437. Determination of Amount of Forfeiture by the Labor Commissioner.

(a) Where the LCP of the awarding body requests a determination of the amount of forfeiture, the request shall include a file or report to the Labor Commissioner which contains at least the following information:

(1) The deadline by which contract acceptance of filing of a notice of completion, under Labor Code Section 1775, plus 90 days, will occur;

(2) Any other deadline which if missed would impede collection;

(3) Evidence of violation, in narrative form;

(4) Evidence that an "audit" or "investigation," as defined in Section 16432 of these regulations, occurred;

(5) Evidence that the contractor was given the opportunity to explain why there was no violation, or that any violation was caused by mistake, inadvertence, or neglect, before the forfeiture was sent to the Labor Commissioner, and the contractor either did not do so, or failed to convince the awarding body of its position;

(6) Where the LCP of the awarding body seeks not only amounts of wages but also a penalty as part of the forfeiture, and the contractor has unsuccessfully contended that the cause of violation was mistake, inadvertence, or neglect, a short statement should accompany the proposal for a forfeiture, with a recommended penalty amount pursuant to Labor Code Section 1775;

(7) Where the LCP of the awarding body seeks only wages or a penalty less than $50 per day as part of the forfeiture, and the contractor has successfully contended that the cause of the violation was mistake, inadvertence, or neglect, then the file should include the evidence as to the contractor's knowledge of his or her obligation, including the program's communication to the contractor of the obligation in the bid invitations, at the prejob conference agenda and records, and any other notice given as part of the contracting process. With the file should be a statement, similar to that described in (6), and recommended penalty amounts, pursuant to Labor Code Section 1775;

(8) The previous record of the contractor in meeting his or her prevailing wage obligations.

(9) Whether the LCP has been granted initial, extended initial or final approval.

(b) The file or report shall be served on the Labor Commissioner not less than 30 days before the final payment or, if that deadline has passed, not less than 90 days before the expiration of the deadline to file suit under Labor Code Section 1775.

(c) A copy of the recommended forfeiture and the file or report shall be served on the contractor at the same time as it is sent to the Labor Commissioner. The awarding body may exclude from the documents served on the contractor copies of documents secured from the contractor during an audit, investigation, or meeting if those are clearly referenced in the file or report. Along with the copy served on the contractor shall be a notice stating all deadlines and rights of the contractor to contest the amount of forfeiture. A Notice of Deadlines in the format set out in Appendix C will presumptively fulfill the requirements of this subsection;

(d) The Labor Commissioner shall affirm, reject, or modify the forfeiture in whole or in part as to penalty, and/or wages due.

(e) The Labor Commissioner's determination of the forfeiture is effective on one of the two following dates:

(1) For programs with initial approval or an extension of initial approval pursuant to Section 16426 of these regulations, on the date the Labor Commissioner serves by first class mail, on the political subdivision and on the contractor, an endorsed copy of the proposed forfeiture, or a newly drafted forfeiture statement which sets out the amount of forfeiture approved. Service on the contractor is effective if made on the last address supplied by the contractor in the record. The Labor Commissioner's approval, modification or disapproval of the proposed forfeiture shall be served within 30 days of receipt of the proposed forfeiture or no more than 30 days after the notice of completion has been filed.

(2) For programs with final approval, approval is effective 20 days after the requested forfeitures are served upon the Labor Commissioner, unless the Labor Commissioner serves a notice upon the parties, within that time period, that this forfeiture request is subject to further review. For such programs, a notice that approval will follow such a procedure will be included in the transmittal of the forfeiture request to the contractor. The Labor Commissioner's final approval, modification or disapproval of the proposed forfeiture shall be served within 30 days of the date of receipt of the proposed forfeiture or no more than 30 days after the notice of completion has been filed, unless some other procedure has been adopted pursuant to 8 CCR Section 16427(d).

NOTE: Authority cited: Section 1773.5, Labor Code. Reference: Sections 1771.5 and 1775, Labor Code.

HISTORY

1. New section and Appendix filed 2–20–92; operative 3–23–92 (Register 92, No. 13).

Appendix C

Notice of Deadlines
(To Go to Contractor for Forfeitures under Section 16437)

"This document requests the Labor Commissioner of California to approve a forfeiture of money you otherwise would be paid. The [name of the labor compliance program] for the [name of the awarding body having this work done] is asking the Labor Commissioner of California to agree, in 20 days, that the enclosed package of materials indicates that you have violated the law."

"Failure to respond to the [name of the labor compliance program's] request that the Labor Commissioner approve a forfeiture by writing to the Labor Commissioner within 20 days of the date of service (date of postmark) of this document on you may lead the Labor Commissioner to affirm the proposed forfeiture, and may also end your right to contest those amounts further. You must serve any written response on the Labor Commissioner, the [name of the labor compliance program] and [name of the awarding body] by return receipt requested/certified mail. If you serve a written explanation, with evidence, as to why the violation did not occur, or why the penalties should not be assessed, within the 20 day period, it will be considered."

and

"If you change address, or decide to hire an attorney, it is your responsibility to advise both the [name of the Labor Compliance Program] and the Labor Commissioner by certified mail. Otherwise, notices will be served at your last address on file, and deadlines might pass before you receive such notices."

§ 16438. Deposits of Penalties and Forfeitures Withheld.

(a) Where the involvement of the Labor Commissioner has been limited to a determination of the actual amount of penalty, forfeiture or underpayment of wages, and the matter has been resolved without litigation by or against the Labor Commissioner, the awarding body having a LCP shall deposit penalties and forfeitures in its general fund. If an approved LCP is operated through an agent, penalties and forfeitures shall be deposited as provided in the agreement designating the agent for the awarding bodies involved.

(b) Where collection of fines, penalties or forfeitures results from court action to which the Labor Commissioner and awarding body are both parties, the fines, penalties or forfeitures shall be divided between the general funds of the state and the awarding body, as the court may decide.

(c) All amounts recovered by suit brought by the Labor Commissioner and to which the awarding body is not a party, shall be deposited in the general fund of the state.

(d) All wages and benefits which belong to an employee and are withheld or collected from a contractor or sub–contractor, either by withholding or as a result of court action pursuant to Labor Code Section 1775, and which have not been paid to the employee or irrevocably committed

with a Statement of Alleged Violations, which shall specifically set forth DLSE's allegations against the Respondent.

(A) Service of both the Notice of Hearing and Statement of Alleged Violations shall be complete when mailed, by first class postage, to the last address of record for the Respondent listed with the State Contractors License Board or, in the event the Respondent is not licensed by the State Contractors License Board, the last known address of the Respondent available to the awarding body or, in the case of a subcontractor, the last known address available to the general contractor with whom the subcontractor contracted in the performance of the public works project under investigation. In the event there is neither an address of record with the State Contractors License Board or the awarding body or general contractor, the Notice of Hearing and Statement of Alleged Violations shall be served pursuant to the provisions of the Code of Civil Procedure, sections 415.10 – 415.50, concerning the service of civil summons.

(B) The Notice of Hearing shall list the date, time and place of the hearing which shall not be scheduled sooner than forty–five days after the date of the mailing of the Notice of Hearing and Statement of Alleged Violations.

(C) The Respondent shall have the opportunity to review and copy such records from the investigative file of DLSE which are not subject to either attorney–client or work product privileges. The Respondent shall be entitled to a reasonable number of subpoenas but shall be liable for any costs of service of the subpoenas, or any other witness or mileage fees incurred.

Mileage and Witness fees shall be set as specified in Government Code section 68093. In the exercise of his or her discretion, the Hearing Officer may limit the number of witnesses subpoenaed either for the purpose of corroboration or for establishing a single material fact in issue, or where the Respondent has not furnished satisfactory evidence that the witness will be able to give necessary and competent testimony material to the issues at the hearing.

[The next page is 1415.]

Category 22

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know has within the preceding two years contracted or plans to contract with the Division of Labor Statistics and Research to provide services, supplies, materials, or machinery of any type for purposes of data processing, reproduction, or microfilming, to the Division, or has so contracted or plans to contract with the Department to so serve the Division.

Category 23

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know engages in or derives its income from, in whole or in part, a Transit District subject to the jurisdiction of the State Conciliation Service.

Category 24

Designated employees assigned to this category must report:

Any investment in a business entity and any source of income that they know or have reason to know is directly and materially subject to regulation by the Fair Employment Practices Commission.

Subchapter 6. Prevailing Wage Hearings

Article 1. General

§ 17201. Scope and Application of Rules.

(a) These Rules govern proceedings for review of civil wage and penalty assessments and the withholding of contract payments under Articles 1 and 2 of Division 2, Part 7, Chapter 1 (commencing with section 1720) of the Labor Code, as well as any notice assessing penalties for noncompliance with payroll record obligations under Labor Code section 1776. The provisions of Labor Code section 1742 and these Rules apply to all such assessments and notices served on a contractor or subcontractor on or after July 1, 2001 and provide the exclusive method for an Affected Contractor or Subcontractor to obtain review of any such notice or assessment. These Rules also apply to transitional cases in which notices were served but no court action was filed under Labor Code sections 1731–1733 prior to July 1, 2001, in accordance with Section 17270 (Rule 70) below.

(b) These Rules do not govern debarment proceedings under Labor Code section 1777.1, nor proceedings to review determinations with respect to the violation of apprenticeship obligations under Labor Code sections 1777.5 and 1777.7, nor any criminal prosecution.

(c) These Rules do not preclude any remedies otherwise authorized by law to remedy violations of Division 2, Part 7, Chapter 1 of the Labor Code.

(d) For easier reference, individual sections within these prevailing wage hearing regulations are referred to as "Rules" using only their last two digits. For example, this Section 17201 may be referred to as Rule 01.

NOTE: Authority cited: sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1742, 1771.5, 1771.6(b), 1773.5, 1776 and 1777.1–1777.7, Labor Code; and Stats. 2000, Chapter 954, §1.

HISTORY

1. New subchapter 6 (articles 1–7, sections 17201–17270), article 1 (sections 17201–17212) and section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17202. Definitions.

For the purpose of these Rules:

(a) "Affected Contractor or Subcontractor" means a contractor or subcontractor (as defined under Labor Code section 1722.1) to whom the Labor Commissioner has issued a civil wage and penalty assessment pursuant to Labor Code section 1741, or to whom an Awarding Body has issued a notice of the withholding of contract payments pursuant to Labor Code section 1771.6, or to whom the Labor Commissioner or the Division of Apprentice Standards has issued a notice assessing penalties for noncompliance with payroll record obligations under Labor Code section 1776;

(b) "Assessment" means a civil wage and penalty assessment issued by the Labor Commissioner or his or her designee pursuant to Labor Code section 1741, and it also includes a notice issued by either the Labor Commissioner or the Division of Apprenticeship Standards pursuant to Labor Code section 1776;

(c) "Awarding Body" means an awarding body or body awarding the contract (as defined in Labor Code section 1722) that exercises enforcement authority under Labor Code section 1726 or 1771.5;

(d) "Department" means the Department of Industrial Relations;

(e) "Director" means the Director of the Department of Industrial Relations;

(f) "Enforcing Agency" means the entity which has issued an Assessment or Notice of Withholding of Contract Payments and with which a Request for Review has been filed; *i.e.*, it refers to the Labor Commissioner when review is sought from an Assessment, the Awarding Body when review is sought from a Notice of Withholding of Contract Payments, and the Division of Apprenticeship Standards when review is sought from a notice issued by that agency that assesses penalties under Labor Code section 1776;

(g) "Hearing Officer" means any person appointed by the Director pursuant to Labor Code section 1742(b) to conduct hearings and other proceedings under Labor Code section 1742 and these Rules;

(h) "Joint Labor–Management Committee" means a joint labor–management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (section 175a of Title 29 of the United States Code).

(i) "Labor Commissioner" means the Chief of the Division of Labor Standards Enforcement and includes his or her designee who has been authorized to carry out the Labor Commissioner's functions under Chapter 1, Part 7 of Division 2 (commencing with section 1720) of the Labor Code;

(j) "Party" means an Affected Contractor or Subcontractor who has requested review of either an Assessment or a Notice of Withholding of Contract Payments, the Enforcing Agency that issued the Assessment or the Notice of Withholding of Contract Payments from which review is sought, and any other Person who has intervened under subparts (a), (b), or (c) of Rule 08 [Section 17208];

(k) "Person" means an individual, partnership, limited liability company, corporation, governmental subdivision or unit of a governmental subdivision, or public or private organization or entity of any character;

(*l*) "Representative" means a person authorized by a Party to represent that Party in a proceeding before a Hearing Officer or the Director, and includes the Labor Commissioner when the Labor Commissioner has intervened to represent the Awarding Body in a review proceeding pursuant to Labor Code section 1771.6(b).

(m) "Rule" refers to a section within this subchapter 6. The Rule number corresponds to the last two digits of the full section number. (For example, Rule 08 is the same as section 17208.)

(n) "Surety" has the meaning set forth in Civil Code section 2787 and refers to the entity that issues the public works bond provided for in Civil Code sections 3247 and 3248 or any other surety bond that guarantees the payment of wages for labor.

(o) "Working Day" means any day that is not a Saturday, Sunday, or State holiday, as determined with reference to Code of Civil Procedure sections 12(a) and 12(b) and Government Code sections 6700 and 6701.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 2787, 3247 and 3248, Civil Code; Sections 12a and 12b, Code of Civil Procedure; Sections 6700, 6701, 11405.60 and 11405.70, Government Code; Sections 1720 et seq., 1722, 1722.1, 1726, 1741, 1742, 1742(b), 1771.5, 1771.6, 1771.6(b) and 1776, Labor Code; and 29 U.S.C. §175a.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17203. Computation of Time and Extensions of Time to Respond or Act.

(a) In computing the time within which a right may be exercised or an act is to be performed, the first day shall be excluded and the last day shall be included. If the last day is not a Working Day, the time shall be extended to the next Working Day.

(b) Unless otherwise indicated by proof of service, if the envelope was properly addressed, the mailing date shall be presumed to be: a postmark date imprinted on the envelope by the U.S. Postal Service if first-class postage was prepaid; or the date of delivery to a common carrier promising overnight delivery as shown on the carrier's receipt.

(c) Where service of any notice, decision, pleading or other document is by first class mail, and if within a given number of days after such service, a right may be exercised, or an act is to be performed, the time within which such right may be exercised or act performed is extended five days if the place of address is within the State of California, and 10 days if the place of address is outside the State of California but within the United States. However, this Rule shall not extend the time within which the Director may reconsider or modify a decision to correct an error (other than a clerical error) under Labor Code section 1742(b).

(d) Where service of any notice, pleading, or other document is made by an authorized method other than first class mailing, extensions of time to respond or act shall be calculated in the same manner as provided under section 1013 of the Code of Civil Procedure, unless a different requirement has been specified by the appointed Hearing Officer or by another provision of these Rules.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1010–1013, Code of Civil Procedure; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17204. Appointment of Hearing Officers; Delegation of Appointment Authority to Chief Counsel.

(a) Upon receipt of a Request for Review of an Assessment or of a Notice of Withholding of Contract Payments, the Director, acting through the Chief Counsel (*see* subpart (c) below), shall appoint an impartial Hearing Officer to conduct the review proceeding.

(b) The appointed Hearing Officer shall be an attorney employed by the Office of the Director — Legal Unit. However, if no attorney employed by the Office of the Director — Legal Unit is available or qualified to serve in a particular matter, the appointed Hearing Officer may be any attorney or administrative law judge employed by the Department, other than an employee of the Division of Labor Standards Enforcement.

(c) Any person appointed to serve as a Hearing Officer in any matter shall possess at least the minimum qualifications for service as an administrative law judge pursuant to Government Code section 11502(b) and shall be someone who is not precluded from serving under Government Code section 11425.30.

(d) The Director's authority under Labor Code section 1742(b) to appoint an impartial Hearing Officer, is delegated in all cases to the Chief Counsel of the Office of the Director or to the Chief Counsel's designated Assistant or Acting Chief Counsel when the Chief Counsel is unavailable or disqualified from participating in a particular matter. This delegation includes all related authority under Rule 40 [Section 17240] below to appoint a different Hearing Officer to conduct all or any part of a review proceeding as well as the authority to consider and decide or to assign to another Hearing Officer for consideration and decision any motion to disqualify an appointed Hearing Officer.

NOTE: Authority cited: Sections 7, 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 11425.30 and 11502(b), Government Code; and Sections 7, 55, 59 and 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17205. Authority of Hearing Officers.

(a) In any proceeding assigned for hearing and decision under the provisions of Labor Code section 1742, the appointed Hearing Officer shall have full power, jurisdiction and authority to hold a hearing and ascertain facts for the information of the Director, to hold a prehearing conference, to issue a subpoena and subpoena duces tecum for the attendance of a Person and the production of testimony, books, documents, or other things, to compel the attendance of a Person residing anywhere in the state, to certify official acts, to regulate the course of a hearing, to grant a withdrawal, disposition or amendment, to order a continuance, to approve a stipulation voluntarily entered into by the Parties, to administer oaths and affirmations, to rule on objections, privileges, defenses, and the receipt of relevant and material evidence, to call and examine a Party or witness and introduce into the hearing record documentary or other evidence, to request a Party at any time to state the respective position or supporting theory concerning any fact or issue in the proceeding, to extend the submittal date of any proceeding, to exercise such other and additional authority as is delegated to Hearing Officers under these Rules or by an express written delegation by the Director, and to prepare a recommended decision, including a notice of findings, findings, and an order for approval by the Director.

(b) There shall be no right of appeal to or review by the Director of any decision, order, act, or refusal to act by an appointed Hearing Officer other than through the Director's review of the record in issuing or reconsidering a written decision under Rules 60 [Section 17260] and 61 [Section 17261] below.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 11512, Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17206. Access to Hearing Records.

(a) Hearing case records shall be available for inspection and copying by the public, to the same extent and subject to the same policies and procedures governing other records maintained by the Department. Hearing case records normally will be available for review in the office of the appointed Hearing Officer; *provided however*, that a case file may be temporarily unavailable when in use by the appointed Hearing Officer or by the Director or his or her designee.

(b) Nothing in this Rule shall authorize the disclosure of any record or exhibit that is required to be kept confidential or is otherwise exempt from disclosure by law or that has been ordered to be kept confidential by an appointed Hearing Officer.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 6250 et seq. Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17207. Ex Parte Communications.

(a) Except as provided in this Rule, once a Request for Review is filed, and while the proceeding is pending, there shall be no direct or indirect communication regarding any issue in the proceeding to the appointed Hearing Officer or the Director, from the Enforcing Agency or any other Party or other interested Person, without notice and the opportunity for all Parties to participate in the communication.

(b) A communication made on the record in the hearing is permissible.

(c) A communication concerning a matter of procedure or practice is presumed to be permissible, unless the topic of the communication appears to the Hearing Officer to be controversial in the context of the specific case. If so, the Hearing Officer shall so inform the other participant and may terminate the communication or continue it until after giving all Parties notice and an opportunity to participate. Any written communication concerning a matter of procedure or practice, and any written response, or a written memorandum identifying the participants and stating the substance of any such oral communication or response, shall be added to the case file so that all Parties have a reasonable opportunity to review it. Unless otherwise provided by statute or these Rules, the appointed

HISTORY

1. New article 2 (sections 17220–17229) and section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17221. Opportunity for Early Settlement.

(a) The Affected Contractor or Subcontractor may, within 30 days following the service of an Assessment or Notice of Withholding of Contract Payments, request a meeting with the Enforcing Agency for the purpose of attempting to settle the dispute regarding the Assessment or Notice.

(b) Upon receipt of a timely written request for a settlement meeting, the Enforcing Agency shall afford the Affected Contractor or Subcontractor a reasonable opportunity to meet for such purpose. The settlement meeting may be held in person or by telephone and shall take place before expiration of the 60–day limit for filing a Request for Review under Rule 22 [Section 17222].

(c) Nothing herein shall preclude the Parties from meeting or attempting to settle a dispute after expiration of the time for making a request or after the filing of a Request for Review.

(d) Neither the making or pendency of a request for a settlement meeting, nor the fact that the Parties have met or have failed or refused to meet as required by this Rule shall serve to extend the time for filing a Request for Review under Rule 22 [Section 17222] below.

(e) No evidence of anything said or any admission made for the purpose of, in the course of, or pursuant to, such a settlement meeting shall be admissible or subject to discovery in any administrative or civil proceeding. No writing prepared for the purpose of, in the course of, or pursuant to, such a settlement meeting, other than a final settlement agreement, shall be admissible or subject to discovery in any administrative or civil proceeding.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1742, 1742.1 and 1771.6, Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17222. Filing of Request for Review.

(a) Any Request for Review of an Assessment or of a Notice of Withholding of Contract Wages shall be transmitted in writing to the Enforcing Agency within 60 days after service of the Assessment or Notice. Failure to request review within 60 days shall result in the Assessment or the Withholding of Contract Wages becoming final and not subject to further review under these Rules.

(b) A Request for Review shall be transmitted to the office of the Enforcing Agency designated on the Assessment or Notice of Withholding of Contract Payments from which review is sought.

(c) A Request for Review shall be deemed filed on the date of mailing, as determined by the U.S. Postal Service postmark date on the envelope or the overnight carrier's receipt in accordance with Rule 03(b) [Section 17203(b)] above, or on the date of receipt by the designated office of the Enforcing Agency, whichever is earlier.

(d) An additional courtesy copy of the Request for Review may be served on the Department by mailing to the address specified in Rule 23 [Section 17223] below at any time on or after the filing of the Request for Review with the Enforcing Agency. The service of a courtesy copy on the Department shall *not* be effective for invoking the Director's review authority under Labor Code section 1742; however, it may determine the time within which the hearing shall be commenced under Rule 41(a) [Section 17241(a)] below.

(e) A Request for Review either shall clearly identify the Assessment or Notice from which review is sought, including the date of the Assessment or Notice, or it shall include a copy of the Assessment or Notice as an attachment. A Request for Review shall also set forth the basis upon which the Assessment or Notice is being contested. A Request for Review shall be liberally construed in favor of its sufficiency; however, the Hearing Officer may require the Party seeking review to provide a further specification of the issues or claims being contested and a specification of the basis for contesting those matters.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1742 and 1771.6(a), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17223. Transmittal of Request for Review to Department.

Within ten (10) days followings its receipt of a Request for Review, the Enforcing Agency shall transmit to the Office of the Director – Legal Unit, the Request for Review and copies of the Assessment or Notice of Withholding of Contract Wages, any Audit Summary that accompanied the Assessment or Notice, and a Proof of Service or other document showing the name and address of any bonding company or Surety entitled to notice under Rule 20(a) [Section 17220(a)] above. The Enforcing Agency shall transmit these items to the following address.

DEPARTMENT OF INDUSTRIAL RELATIONS
OFFICE OF THE DIRECTOR – LEGAL UNIT
ATTENTION: LEAD HEARING OFFICER
P.O. BOX 420603
SAN FRANCISCO, CA 94142–0603

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1742(a) and 1771.6(a), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17224. Disclosure of Evidence.

(a) Within ten (10) days following its receipt of a Request for Review, the Enforcing Agency shall also notify the Affected Contractor or Subcontractor of its opportunity and the procedures for reviewing evidence to be utilized by the Enforcing Agency at the hearing on the Request for Review.

(b) An Enforcing Agency shall be deemed to have provided the opportunity to review evidence required by this Rule if it (1) gives the Affected Contractor or Subcontractor the option, at the Affected Contractor or Subcontractor's own expense, to either (A) obtain copies of all such evidence through a commercial copying service or (B) inspect and copy such evidence at the office of the Enforcing Agency during normal business hours; or if (2) the Enforcing Agency at its own expense forwards copies of all such evidence to the Affected Contractor or Subcontractor.

(c) The evidence required to be provided under this Rule shall include the identity of witnesses whose testimony the Enforcing Agency intends to present, either in person at the hearing or by declaration or affidavit. This provision shall not be construed as requiring the Enforcing Agency to prepare or provide any separate listing of witnesses whose identities are disclosed within the written materials made available under subpart (a).

(d) The Enforcing Agency shall make evidence available for review as specified in subparts (a) through (c) within 20 days of its receipt of the Request for Review; *provided that*, this deadline may be extended by written request or agreement of the Affected Contractor or Subcontractor. The Enforcing Agency's failure to make evidence available for review as required by Labor Code section 1742(b) and this Rule, shall preclude the Enforcing Agency from introducing such evidence in proceedings before the Hearing Officer or the Director.

(e) This Rule shall not preclude the Enforcing Agency from relying upon or presenting any evidence first obtained after the initial disclosure of evidence under subparts (a) through (d), *provided that*, such evidence is promptly disclosed to the Affected Contractor or Subcontractor. This Rule also shall not preclude the Enforcing Agency from presenting previously undisclosed evidence to rebut new or collateral claims raised by another Party in the proceeding.

§ 17229. Finality of Notice of Withholding of Contract Payments; Authority of Awarding Body to Recover Additional Funds.

Where a Notice of Withholding of Contract Payments seeks to recover wages, penalties, or damages in excess of the amounts withheld from available contract payments (*see* Rule 20(b)(2) [Section 17220(b)(2)] above), an Awarding Body may recover any excess amounts that become or remain due when the Notice of Withholding of Contract Payments has become final under Labor Code section 1771.6. To recover the excess amounts, the Awarding Body shall transmit to the Labor Commissioner the Notice together with any decision of the Director or court that has become final and not subject to further review. The Labor Commissioner in turn shall certify and file the final order with the superior court in accordance with Labor Code section 1742(d).

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1742(d) and 1771.6, Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

Article 3. Prehearing Procedures

§ 17230. Scheduling of Hearing; Continuances and Tolling.

(a) The appointed Hearing Officer shall establish the place and time of the hearing on the merits, giving due consideration to the needs of all Parties and the statutory time limits for hearing and deciding the matter. Parties are encouraged to communicate scheduling needs to the Hearing Officer and all other Parties at the earliest opportunity. It shall not be a violation of Rule 07 [Section 17207]'s prohibition on ex parte communications for the Hearing Officer or his or her designee to communicate with Parties individually for purposes of clearing dates and times and proposing locations for the hearing. The Hearing Officer may also conduct a prehearing conference by telephone or any other expeditious means for purposes of establishing the time and place of the hearing.

(b) Once a hearing date is set, a request for a continuance that is not joined in by all other Parties or that is for more than 30 days will not be granted absent a showing of extraordinary circumstances, giving due regard to the potential prejudice to other Parties in the case and other Persons affected by the matter under review. Absent an enforceable waiver (*see* subpart (d) below), no continuance will be granted nor any proceeding otherwise delayed if doing so is likely to prevent the Hearing Officer from commencing the hearing on the matter within the statutory time limit.

(c) A request for a continuance that is for 30 days or less and is joined by all Parties shall be granted upon a showing of good cause. Notwithstanding subpart (b) above, a unilateral request for a continuance made by the Party who filed the Request for Review shall be granted upon a showing of good cause if the new date for commencing the hearing is no more than 150 days after the date of service of the Assessment or Notice of Withholding of Contract Payments.

(d) If a Party makes or joins in any request that would delay or otherwise extend the time for hearing or deciding a review proceeding beyond any prescribed time limit, such request shall also be deemed a waiver by that Party of that time limit.

(e) The time limits for hearing and deciding a review proceeding shall also be deemed tolled (1) when proceedings are suspended to seek judicial enforcement of a subpoena or other order to compel the attendance, testimony, or production of evidence by a necessary witness; (2) when the proceedings are stayed or enjoined by any court order; (3) between the time that a proceeding is dismissed and then ordered reinstated under Rule 25 [Section 17225] above; (4) upon the order of a court reinstating or requiring rehearing of the merits of a proceeding; or (5) during the pendency of any other cause beyond the Director's direct control (including but not limited to natural disasters, temporary unavailability of a suitable hearing facility, or absence of budget authority) that prevents the Director or any appointed Hearing Officer from carrying out his or her responsibilities under these Rules.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 1742(b), Labor Code.

HISTORY

1. New article 3 (sections 17230–17237) and section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17231. Prehearing Conference.

(a) Upon the application of any Party or upon his or her own motion, the appointed Hearing Officer may conduct a prehearing conference for any purpose that may expedite or assist the preparation of the matter for hearing or the disposition of the Request for Review. The prehearing conference may be conducted by telephone or other means that is convenient to the Hearing Officer and the Parties.

(b) The Hearing Officer shall provide reasonable advance notice of any prehearing conference conducted pursuant to this Rule. The Notice shall advise the Parties of the matters which the Hearing Officer intends to cover in the prehearing conference, but the failure of the Notice to enumerate some matter shall not preclude its discussion or consideration at the conference.

(c) With or without a prehearing conference, the Hearing Officer may issue such procedural Orders as are appropriate for the submission of evidence or briefs and conduct of the hearing, consistent with the substantial rights of the affected Parties.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 11511.5, Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17232. Consolidation and Severance.

(a) The Hearing Officer may consolidate for hearing and decision any number of proceedings where the facts and circumstances are similar and consolidation will result in conservation of time and expense. Where the Hearing Officer proposes to consolidate proceedings on his or her own motion, the Parties shall be given reasonable notice and an opportunity to object before consolidation is ordered.

(b) The Hearing Officer may sever consolidated proceedings for good cause.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 11507.3, Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17233. Prehearing Motions; Cut Off Date.

(a) Any motion made in advance of the hearing on the merits, any opposition thereto, and any further reply shall be in writing and directed to the appointed Hearing Officer. No particular format shall be required; however, the following information shall appear prominently on the first page: (1) the case name (*i.e.*, names of the Parties); (2) any assigned case number; (3) the name of the Hearing Officer to whom the paper is being submitted; (4) the identity of the Party submitting the paper; (5) the nature of the relief sought; and (6) the scheduled date, if any, for the hearing on the merits of the Request for Review. The motion shall also include a Proof of Service, as defined in Rule 10 [Section 17210] above, showing that copies have been served on all other Parties to the proceeding.

(b) Prehearing motions shall be served and filed no later than 20 days prior to the hearing on the merits of the Request for Review. Any opposition shall be served and filed no later than 10 days after service of the motion or at least 7 days prior to the hearing on the merits, whichever is earlier. The Hearing Officer may in his or her discretion decide the motion in writing in advance of the hearing on the merits or reserve the matter for further consideration and determination at the hearing on the merits.

(c) There shall be no right to a separate oral hearing on any prehearing motion, except in those instances in which an oral hearing has been specially requested by a Party or the Hearing Officer *and* in which the enforcement or forfeiture of a fundamental right is at stake. When the Hear-

tial communications, or has engaged in conduct which, in the judgment of the Hearing Officer, creates an appearance of bias, prejudice, or partiality.

(h) Nothing in this section limits any further rights extended by Evidence Code section 754 to a Party or witness who is deaf or hard of hearing.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 754, Evidence Code; Sections 11435.05–11435.65 and 68560–68566, Government Code; and Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17249. Hearing Record; Recording of Testimony and Other Proceedings.

(a) The Hearing Officer and the Director shall maintain an official record of all proceedings conducted under these Rules. In the absence of a determination under subpart (b) below, all testimony and other proceedings at any hearing shall be recorded by audiotape. Recorded testimony or other proceedings need not be transcribed unless requested for purposes of further court review of a decision or order in the same case.

(b) Upon the application of any Party or upon his or her own motion, the Hearing Officer may authorize the use of a certified court reporter, videotape, or other appropriate means to record the testimony and other proceedings. Any application by a Party under this subpart shall be made at a prehearing conference or by prehearing motion filed no later than 10 days prior to the scheduled date of hearing. Upon the granting of any such application, it shall be the responsibility of the Party or Parties who made the application to procure and pay for the services of a qualified person and any additional equipment needed to record the testimony and proceedings by the requested means. Ordinarily the granting of such application will be conditioned on the applicant's paying for certified copies of the transcript for the official record and for the other Parties. The failure of a requesting Party to comply with this requirement shall not be cause for delaying the hearing on the merits, but instead shall result in the proceedings being tape recorded in accordance with subpart (a).

(c) The Parties may, at their own expense, arrange for the recording of testimony and other proceedings through a different means other than the one authorized by the Hearing Officer, *provided that* it does not in any way interfere with the Hearing Officer's control and conduct of the proceedings, and *further provided that*, it shall not be regarded as an official record for any purpose absent a stipulation by all of the Parties or order of the Hearing Officer.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17250. Burdens of Proof on Wages and Penalties.

(a) The Enforcing Agency has the burden of coming forward with evidence that the Affected Contractor or Subcontractor (1) was served with an Assessment or Notice of Withholding of Contract Payments in accordance with Rule 20 [Section 17220]; (2) was provided a reasonable opportunity to review evidence to be utilized at the hearing in accordance with Rule 24 [Section 17224]; and (3) that such evidence provides prima facie support for the Assessment or Withholding of Contract Payments.

(b) If the Enforcing Agency meets its initial burden under (a), the Affected Contractor or Subcontractor has the burden of proving that the basis for the Civil Wage and Penalty Assessment or for the Withholding of Contract Payments is incorrect.

(c) With respect to any civil penalty established under Labor Code section 1775, the Affected Contractor or Subcontractor shall have the burden of proving that the Labor Commissioner abused his or her discretion in determining that a penalty was due or in determining the amount of the penalty.

(d) All burdens of proof and burdens of producing evidence shall be construed in a manner consistent with relevant sections of the Evidence Code, and the quantum of proof required to establish the existence or non–existence of any fact shall be by a preponderance of the evidence, unless a higher standard is prescribed by law.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 500, 502 and 550, Evidence Code; and Sections 1742(b) and 1773.5, Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17251. Liquidated Damages.

(a) With respect to any liquidated damages for which an Affected Contractor, Subcontractor, or Surety on a bond becomes liable under Labor Code section 1742.1, the Enforcing Agency shall have a further burden of coming forward with evidence to show the amount of wages that remained unpaid as of 60 days following the service of the Assessment or Notice of Withholding of Contract Payments. The Affected Contractor or Subcontractor shall have the burden of demonstrating that he or she had substantial grounds for believing the Assessment or Notice to be in error.

(b) To demonstrate "substantial grounds for believing the Assessment or Notice to be in error," the Affected Contractor or Subcontractor must establish (1) that it had a reasonable subjective belief that the Assessment or Notice was in error; (2) that there is an objective basis in law and fact for the claimed error; and (3) that the claimed error is one that would have substantially reduced or eliminated any duty to pay additional wages under the Assessment or Notice.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Sections 1742(b), 1742.1 and 1773.5, Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17252. Oral Argument and Briefs.

(a) Parties may submit prehearing briefs of reasonable length under such conditions as the appointed Hearing Officer shall prescribe. Parties shall also be permitted to present a closing oral argument of reasonable length at or following the conclusion of the hearing.

(b) There shall be no automatic right to file a post–hearing brief. However, the Hearing Officer may permit the Parties to submit written post–hearing briefs, under such terms as are just. The Hearing Officer shall have discretion to determine, among other things, the length and format of such briefs and whether they will be filed simultaneously or on a staggered (opening, response, and reply) basis.

(c) In addition to or as an alternative to post–hearing briefs, the Hearing Officer may also prepare proposed findings or a tentative decision or may designate a Party to prepare proposed findings and thereafter give the Parties a reasonable opportunity to present arguments in support of or opposition to any proposed findings or tentative decision prior to the issuance of a decision by the Director under Rule 60 [Section 17260] below.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 1742(b), Labor Code.

HISTORY

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

§ 17253. Conclusion of Hearing; Time for Decision.

(a) The hearing shall be deemed concluded and the matter submitted either upon the completion of all testimony and post–hearing arguments or upon the expiration of the last day for filing any post–hearing brief or other authorized submission, whichever is later. Thereafter, the Director shall have 45 days within which to issue a written decision affirming, modifying, or dismissing the Assessment or the Withholding of Contract Wages.

(b) For good cause, the Hearing Officer may vacate the submission and reopen the hearing for the purpose of receiving additional evidence or argument, in which case the time for the Director to issue a written decision shall run from the date of resubmission.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 1094.5, Code of Civil Procedure; and Section 1742(c), Labor Code.

1. New section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

Article 7. Transitional Rule

§ 17270. Applicability of These Rules to Notices Issued Between April 1, 2001 and June 30, 2001.

(a) These Rules shall apply to any notice issued by the Labor Commissioner or an Awarding Body with respect to the withholding or forfeiture of contract payments for unpaid wages or penalties under the prevailing wage laws in effect prior to July 1, 2001; *provided that*, the party seeking review has not commenced a civil action with respect to such notice under the provisions of Labor Code sections 1731–1733 [repealed effective July 1, 2001].

(b) An Affected Contractor or Subcontractor may appeal any such notice served between April 1, 2001 and June 30, 2001 by filing a Request for Review with the Enforcing Agency that issued the notice, in the manner and form specified in Rule 22 [Section 17222] above. Any such Request for Review shall be in writing and shall include a statement indicating the date upon which the contractor or subcontractor was served with the notice of withholding or forfeiture.

(c) This Rule shall *not* extend the time available to appeal the notice under the former law. A Request for Review of a notice issued prior to July 1, 2001 must be filed with the Enforcing Agency within ninety (90) days after service of the notice.

(d) A contractor or subcontractor who has sought review of a notice issued prior to July 1, 2001 by filing a court action under the repealed provisions of Labor Code sections 1731–1733 on or after July 1, 2001, shall, if said action would have been timely under those sections, be afforded the opportunity to dismiss the action without prejudice, after entering into a stipulation that the proceeding be transferred to the Director for hearing in accordance with these Rules. The stipulation shall also provide that the time for commencing a hearing under Rule 41 [Section 17241] shall not begin to run until the case has been formally transferred to and received by the Office of the Director.

(e) Any hearing request made pursuant to Labor Code section 1771.7 [repealed effective July 1, 2001] that has not been heard and decided by a Hearing Officer prior to July 1, 2001 shall be handled in accordance with these Rules.

NOTE: Authority cited: Sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: Section 1742(b), Labor Code.

HISTORY

1. New article 7 (section 17270) and section filed 1–15–2002; operative 1–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 3).

RE: Public Works Case #99-024
U.S. Foodservice Contract Design
James Madison Elementary School, San Leandro

Dear Ms. Cannedy:

This constitutes the determination of the Director of the Department of Industrial Relations regarding coverage of Targeted Specialties, Inc./U.S. Foodservice Contract Design ("U.S. Foodservice") on the above named project. This coverage determination is made under the public works laws and pursuant to Title 8, California Code of Regulations section 16000(a). Based upon my review of the documents submitted, and for the following reasons, it is my determination that the work performed by U.S. Foodservice on the James Madison Elementary School Renovation and Expansion Project ("Project") is a public work for which prevailing wages must be paid.

W.A. Thomas Company, Inc. ("Thomas") is the general contractor on the Project. U.S. Foodservice, a subcontractor, will install kitchen equipment, tables, and countertops at the school. This work involves removal of the equipment from the shipping crates and setting, leveling and securing the equipment to a wall or counter using hand tools.

Labor Code section 1720 generally defines public works to mean "Construction, alteration, demolition, or repair work done under contract and paid for in whole or in part out of public funds..." Labor Code section 1772 states: "Workers employed by contractors or subcontractors in the execution of any contract for public work are deemed to be employed upon public work." The reconstruction and expansion work on the Project by Thomas' employees is a public works for which Thomas is paying its employees prevailing wages. The work performed by U.S. Foodservice constitutes construction. In addition, it is performed at the public work site and is essential to the school

facility project. As U.S. Foodservice's work is in the execution of a public works contract, its employees are also deemed to be employed upon a public work under Labor Code section 1772 and must be paid prevailing wages.

Sincerely,

Stephen J. Smith

Stephen J. Smith

INSPECTION WORK

I. INTRODUCTION AND PROCEDURAL HISTORY

On November 19, 1999, the Department of Industrial Relations (Department) issued a public works coverage determination that Ron Barr, Ashton Durand, Cleveland Harris and Stephen Risley ("Inspectors"), hired by Jenkins, Gales and Martinez ("JGM") as inspectors under JGM's subcontract agreement with Daniel, Mann, Johnson and Mendenhall ("DMJM"), were entitled to the payment of prevailing wages for their work on the Northridge Earthquake Recovery Project ("Project") pursuant to Labor Code sections 1720(a) and 1772.

On January 12, DMJM/JGM requested reconsideration of this determination. Because the California Code of Regulations only provides for appeals, the Director will treat DMJM/JGM's January 12, 2000 request for reconsideration as an appeal under California Code of Regulations, tit. 8, Regulation 16002.5.

The Inspectors responded to the appeal on February 24, 2000. On April 19, 2000, DMJM/JGM, as part of its request for

reconsideration, asked the Department to review several coverage determinations issued by the Department in the early 1990's. No other responses have been received.

II. ISSUES AND CONCLUSIONS ON APPEAL

DMJM/JGM argue that because Labor Code section 1720 and the Public Contracts Code consistently define "public works" as involving construction, alteration, repair or improvement, their contracts for inspection of the construction project fall outside the definition of a public works. Therefore, according to their argument, the work of the Inspectors would not be covered. DMJM/JGM also argue that they are not "contractors" or "subcontractors" and therefore the Inspectors are not employees hired in the execution of a contract for public works. DMJM/JGM also assert that the Inspectors are not "workmen" as defined by Labor Code section 1723. They submit several early Department public works coverage determinations in support of the proposition that inspectors are not covered employees.

In response, the Inspectors argue that DMJM/JGM's interpretation of Labor Code section 1720 is too narrow in scope. They argue, had the Legislature intended to exclude "service contracts" as covered work, it would have done so under Labor Code section 1720.4, which provides exclusions for certain categories of work from the public works definition. In addition, they argue that, because their work plays a vital role in the successful completion of the public work, they are

workers under Labor Code section 1772 who are employed by subcontractors in the execution of a public works contract. In furtherance of this argument, they point out the definition of contractors and subcontractors under Labor Code section 1722 does not exclude the classification of "inspectors." Finally, they argue that since 1977 the Department has included building construction inspectors in the prevailing wage determinations under Labor Code sections 1770, 1773 and 1773.1.

For the reasons discussed below, I find that the Project is a public work. I further find that DMJM and JGM are contractors and/or subcontractors and that the Inspectors are workers employed by JGM in the execution of this public work. For this reason, under section 1772, the Inspectors are deemed to be employed upon a public work and therefore prevailing wages must be paid to them.

III. RELEVANT FACTS

The underlying facts are not in dispute. DMJM was awarded a construction management contract by California State University, Northridge ("CSUN") to coordinate and oversee the Project. The purpose of the Project was to reconstruct and repair major earthquake damage suffered by the State University in the 1994 Northridge earthquake. The Federal Emergency Management Agency provided funding to CSUN for the Project.

0316

As part of its contract with CSUN, DMJM was to provide "construction inspection for compliance with applicable building codes, including ICBO standards, and requirements of the construction documents." This portion of DMJM's scope of work was subcontracted to JGM. Both DMJM and JGM have supplied copies of the "Project Action Sheets" (two pages) and several excerpts from the DMJM/JGM contract (identified internally as "Exhibit A", pp. 5-9 and "Exhibit A-Revised, Section B, Amendment No. 6," Bate Stamped 153-155), which set forth the duties and responsibilities of the Chief Inspector and Project Inspectors. These documents are collectively attached hereto as Exhibit 1 to this Decision.[1] Generally, the JGM inspectors were to ensure that all work is completed in strict compliance with the plans and specifications, issue citations for building code violations and verify that all tests required by the construction documents are completed.

Pursuant to this contract with DMJM, JGM hired Ron Barr, Ashton Durand, Cleveland Harris and Stephen Risley as Project Inspectors with the title Inspector II. Later, Mr. Risley was promoted to Chief Inspector.

///

///

///

[1]It should be noted that neither side has provided this Department with complete copies of the contract between CSUN and DMJM, and DMJM and JGM. This Decision on Administrative Appeal accepts the representation of the parties that indeed these excerpts set forth the scope of work at issue herein.

IV. ANALYSIS

A. Prevailing Wages Must Be Paid Under Labor Code Section 1772 Because The Inspectors Were Employed By A Subcontractor In The Execution Of A Public Work.

Labor Code Section 1720(a) defines a public work as construction done under contract and paid for in whole or in part out of public funds. Section 1772 states, "Workers employed by contractors or subcontractors in the execution of any contract for public work are deemed to be employed upon public work."

Both parties agree that the Project is a public work. It is construction done under contract and paid for with public funds. Neither party disputes the fact that DMJM contracted with the awarding body, CSUN, for inspection services. In turn, DMJM subcontracted with JGM to perform the inspections. Notwithstanding the above, DMJM/JGM argue that they are not contractors or subcontractors whose employees are performing work in the execution of a public works project. They also contend that, because the scope of work under their contracts does not involve actual construction, alteration or repair of the Project, their contracts fall outside Labor Code section 1720. DMJM/JGM further contends that the Inspectors are not workers employed by contractors or subcontractors in the execution of a contract for public work. Finally, they cite early Department public works coverage determinations in support of their position that prevailing wages are not required to be paid to the Inspectors.

0318

1. The definitions of contractor and subcontractor, as well as the contract documents themselves, require a finding that DMJM is a contractor and JGM is a subcontractor.

Webster defines a contractor as "one who contracts" (Webster's Third New International Dictionary, Unabridged, 1967). Webster also defines a subcontractor as "[a] business firm that continues to perform part... of another's contract...." (Id.) Under these definitions, DMJM is a contractor and JGM is a subcontractor. As mentioned above, DMJM was awarded the contract as project manager for the reconstruction of the State University. The portion of this contract calling for inspections was contracted out to JGM.

Additionally, the documents supplied by the parties to this Appeal, which set forth the scope of the work of inspectors, refer to inspectors as employees of the contractor or subcontractor. (See Exhibit 1 and the document identified therein internally with Bate Stamp No. 153.)

Appellants argue that since their contracts involve construction management duties, including inspection and coordination of the building contractor's work on the public works project as opposed to the physical building of the project, they are not "contractors" or "subcontractors." They press for a narrow definition of these words to include only those contractors or subcontractors who contract to build the public work. The prevailing wage statutes do not provide such a narrow definition, however.

0319

Labor Code section 1722.1, enacted in 1978, simply states that contractors and subcontractors include the licensees, officers, agents and representatives of contractors and subcontractors. This statute does not state that contractors and subcontractors include only those persons or entities contracted to build the public work.

2. Protection under the public works law does not extend only to employees engaged in the actual building work.

It should first be noted that "[T]he overall purpose of the prevailing wage law is to protect and benefit employees on public works projects." (Lusardi Const. Co. v. Aubrey (1992) 1 Cal.4th 976.) Labor Code section 1772 extends this protection to "[W]orkers employed by contractors or subcontractors in the execution of any contract for public work..."

Therefore, the question is not whether the appellants' contracts require construction, but whether they involve work by employees of contractors or subcontractors in the execution of a public works contract. A review of the duties and responsibilities of the Inspectors outlined in Exhibit 1 of this Decision requires a finding that these Inspectors perform a vital role in the successful execution of the Project.

The fact the Public Contracts Code makes a distinction between "construction contracts" (Public Contracts Code section 10701) and "service contracts" (Public Contracts Code section 10707) provides no support for DMJM/JGM's position.

These code sections pertain specifically to the authority of the California State Universities to enter into construction and service contracts. They do not address the question whether workers hired in the execution of these contracts should be paid prevailing wages. Indeed, as noted above, this is the very purpose of the prevailing wage law.

3. Prevailing wages are to be paid to all workers employed on public works, not just those who are laborers, workmen or mechanics.

A finding that the Inspectors hired by JGM are to be paid prevailing wages is consistent with the mandate in Labor Code section 1771 that requires that prevailing wages be paid to "all workers...employed on public works." This code section was reviewed by the Attorney General in 70 Ops.Cal.Atty.Gen. 92 (1987). Here, the Attorney General was asked whether Labor Code section 1771 applies to employees of a private engineering firm who contracted to be the City Engineer. The Attorney General answered in the affirmative: "The prevailing wage provisions of Labor Code section 1771 apply to the employees of an engineering firm which contracts with a city to perform the duties of a City Engineer, except with respect to such duties which do not qualify as a public work."

The scope of work required to be performed by the employees of the private engineering firm included inspections and plan checking as well as survey work. Since the Project in this case qualifies as a public work and, since the work involves on-site inspections, the reasoning in this Attorney

General Opinion requires a finding that the employees of JGM must be paid prevailing wages under Labor Code section 1771.

Labor Code section 1723 states that the definition of "workman" includes a laborer, workman or mechanic. This code section does not exclude other types of workers, including inspectors and surveyors, as was made clear in the 1987 Attorney General Opinion referred to above. The Inspectors in this case are physically present on the public works site to ensure compliance with the plan specifications and code requirements. They are therefore workers employed on a public work.

4. The previous determinations submitted and relied on by DMJM/JGM in support of their argument have no precedential value and therefore are irrelevant.

DMJM/JGM's reliance on earlier Department determinations as precedent in support of their position is misplaced. Government Code section 11425.60, subsections (b) and (c) allow an administrative agency to select those decisions that contain significant legal or policy determinations to be designated as precedential. An index of these significant precedential decisions is to be publicized in the California Regulatory Notice Register (CRNR). Government Code sections 11425.10(a)(7) and 11425.60(a) state clearly that no agency decision can be relied on unless it has been designated as precedential.

0322

Pursuant to the above code sections, in 1999 the Department filed with the CRNR an index of its precedential determinations. None of the determinations submitted and relied on by DMJM/JGM were selected as precedential determinations. Hence their reliance on these earlier determinations is of little use in this decision.

Additionally, it should be recognized that since 1977 prevailing wage determinations have existed for "Building Construction Inspectors." This classification is found in "General Prevailing Wage Determinations Made by the Director of Industrial Relations pursuant to California Labor Code Part 7, Chapter 1, Article 2, Sections 1770, 1773, and 1773.1 for Commercial, Building Highway Construction and Dredging Projects." This Department has recently confirmed its obligation to assure enforcement of prevailing wages for this classification of workers. In letters to Operating Engineers' union representatives, this Department has confirmed its commitment to enforce this determination wherever it is applicable (attached as Exhibit 2).

V. CONCLUSION

For the reasons stated above, the initial coverage determination, dated November 19, 1999, is hereby sustained.

Re: Public Works Case No. 2002-012
California State University, San Marcos
Student Housing Project

Dear Mr. Francis:

This constitutes the determination of the Director of the Department of Industrial Relations regarding coverage of the above-referenced project under California's prevailing wage laws and is made pursuant to Title 8, California Code of Regulations, section 16001(a). Based upon my review of the facts of this case and an analysis of the applicable law, it is my determination that construction of Student Housing at California State University, San Marcos ("Project") is a public work subject to the payment of prevailing wages.

Factual Background

The Project involves construction of apartment-style residential units, which will serve approximately 475 students of California State University, San Marcos ("University"). The Project also includes construction of a Community Building, within which will be a classroom, a student government meeting room and other related amenities. The building configurations and exterior elevations specifically are designed to conform to the University's architecture. The Project is sited on campus in a geographical area encompassing approximately 6.11 acres of University property within the City of San Marcos, County of San Diego ("Site").

The Project was formalized in a series of three contracts entered into on March 1, 2002. First, a Ground Lease was entered into between the Board of Trustees of the California State University ("Board") and the San Marcos University Corporation ("Corporation"), a California non-profit public benefit corporation. In that Ground Lease, the Corporation agreed to design, finance, construct and manage the Project, and the Board agreed to lease the Site to the Corporation for $10. The term of the Ground Lease commenced on the earlier of the date of recordation of a memorandum of the Ground Lease with the County

Recorder of San Diego County, or March 1, 2002, and will terminate on July 1, 2037, unless extended or sooner terminated as provided under the terms of the lease.

The Corporation in turn entered into a Development Agreement with Allen & O'Hara Education Services, LLC ("Developer") to undertake the design, construction, furnishing and equipping of the Project consistent with the Ground Lease. The Developer then hired the Ellias Construction Company, Inc. to act as the general contractor. Construction began on April 1, 2002. The anticipated completion date is July 1, 2003.

The Corporation also entered into an Indenture with First Union National Bank for the issuance of bonds, designated the San Marcos University Corporation Auxiliary Organization Student Housing Revenue Bonds ("Bonds"), in an aggregate principal amount not exceeding $27,990,000.

The Project cost is anticipated to be $27,990,000, which is to be funded by the Bonds. The Bonds will be retired using net revenue from the student housing.

Analysis

What is now Labor Code[1] section 1720(b)(as amended by statutes of 2001, chapter 938, section 2) is the applicable law. On projects such as this, the amended statute applies where the project formation documents were entered into on or after the effective date of the amendment. This amendment took effect on January 1, 2002. The relevant project formation documents - the Ground Lease, the Development Agreement and the Indenture - were entered into on March 1, 2002.

Section 1720(a)(1) defines public works to mean: "Construction, alteration, demolition, installation, or repair work done under contract and paid for in whole or in part out of public funds...." The Project is construction done under contract. The issue presented here is whether the Project is being paid for in whole or in part out of public funds.

Labor Code section 1720(b) specifies that, "'paid for in whole or in part out of public funds' means ... fees, costs, rents, ... or other obligations that would normally be required in the execution of the contract, which are paid, reduced, charged at less than fair market value, waived or forgiven."

[1] Unless otherwise indicated, all statutory references are to the Labor Code.

390

Under the Ground Lease, the Board has leased to the Corporation, for 35 years, for $10, an area of approximately 6.11 acres of property within the City of San Marcos, County of San Diego. A lease for $10 for 6.11 acres of land within San Diego County constitutes rent that is paid for at patently less than fair market value and consequently, a payment of public funds for construction under Labor Code section 1720(b).[2]

Conclusion

Based on the above analysis, I find that the Project is a public work for which prevailing wages must be paid.

I hope this determination satisfactorily answers your inquiry.

Sincerely,

Chuck Cake

Chuck Cake
Acting Director

[2] As discussed above, I find the Project to be a public work based on the below-market value rent constituting a payment of public funds for construction. I therefore need not address whether the Project would also be covered on the alternative grounds that the Corporation is the alter ego and/or agent of the Board for public works purposes. Similarly, I need not address whether Education Code section 89911, under which any obligation of the Corporation authorized by the Board is an obligation of the State of California, creates prevailing wage liability for this Project.

Arthur S. Lujan
Labor Commissioner
Department of Industrial Relations
Division of Labor Standards Enforcement
455 Golden Gate Avenue, 9th Floor
San Francisco, CA 94102

Re: Public Works Case No. 2002-024
John O'Banion Community Learning Center
Housing Authority of the County of Merced

Dear Mr. Lujan:

This constitutes the determination of the Director of the Department of Industrial Relations regarding coverage of the above-referenced project under California's prevailing wage laws and is made pursuant to Title 8, California Code of Regulations, ("CCR") section 16000(a). Based upon my review of the facts of this case and an analysis of the applicable law, it is my determination that the John O'Banion Community Learning Center Project ("Project") is a public work subject to the payment of prevailing wages.

The Project includes demolition, site preparation and construction of a new 17,000 square-foot, one-story multi-purpose building in Merced. The owner and general contractor for the Project is the Housing Authority of the County of Merced ("Housing Authority"), which entered into sub-contracts with the successful bidders on the Project. Funding for the Project consists of a $150,000 Community Development Block Grant ("CDBG") from the U.S. Department of Housing and Urban Development ("HUD"), and a $1 million loan from the County Bank of Merced to the Housing Authority. The preliminary work for the Project, including surveying and architectural design, was funded by the CDBG funds, which are administered by the Housing Authority. The bank loan is a standard commercial loan from a private source that will be repaid from lease payments made by the tenants of the Center. Lockwood General Engineering, a subcontractor, will receive approximately $505,535 for performing demolition, site preparation, all grading work, site utilities installation and specified concrete work on the Project.

What is now Labor Code section 1720(a)(1)[1] (as amended by Statutes of 2001, Chapter 938, section 2 (Senate Bill 975)) defines "public works" in relevant part as: "Construction, alteration, demolition, installation or repair work done under contract and paid for in whole or part out of public funds." "Construction" includes work performed during the design and pre-construction phases of construction including, but not limited to, inspection and land survey work. 8 CCR section 16000 defines "public funds" as state, local and/or federal monies.

This Project involves construction and demolition done under contract at both the pre-construction and construction stages. Although there is also a private bank loan funding the Project, under the applicable regulation the federal CDBG funds constitute public funds. The question appears to be whether the Project is subject to the payment of California prevailing wages.

In a letter dated February 4, 2002, HUD states that the CDBG funds will not trigger the Davis-Bacon requirements, and therefore the Project is not subject to the payment of federal prevailing wages. That federal prevailing wages are not required has no bearing in this case on whether state prevailing wages are required. Applicable to this issue is 8 CCR section 16001(b), which states:

> Federally Funded or Assisted Projects. The application of state prevailing wage rates when higher is required whenever federally funded or assisted projects are controlled or carried out by California awarding bodies of any sort.

Because the Project in this case is federally funded and assisted and is being administered by the Housing Authority, a California awarding body, California prevailing wages would apply.

In summary, pursuant to section 1720(a)(1) and 8 CCR section 16001(b), the work being done by Lockwood on this Project is a public work for which California prevailing wages must be paid.

---

Comment

*1333 FINANCING LOCAL GOVERNMENT IN THE POST-PROPOSITION 13 ERA: THE USE AND EFFECTIVENESS OF NONTAXING REVENUE SOURCES

Julie K. Koyama

INTRODUCTION

In 1978, California voters approved initiative Proposition 13, amending the California Constitution. [FN1] Prior to Proposition 13, property taxes were the main source of revenue for local governments, [FN2] including cities, counties, and special districts. [FN3] *1334 Proposition 13, however, severely curbed the ability of state and local taxing jurisdictions to raise money by limiting annual levies on real property to one percent of the 1975-76 assessed value [FN4] and by restricting the passage of state tax increases. [FN5] Although Proposition 13 permits local taxing authorities to collect revenues through the use of "special taxes" under section 4 of the proposition, such taxes require a two-thirds vote of the local electorate. [FN6] As a result, revenues flowing to local governments from general property taxes have abruptly diminished. [FN7] Cities, counties, and special districts which had been dependent on property taxes to finance municipal improvements, services, and facilities were thus faced with the prospect of drastically reducing expenditures or finding new sources of revenue. [FN8]

Increasingly, municipalities have responded to the harsh fiscal effect caused by the taxing restrictions of Proposition 13 by turning to nontaxing revenue sources not subject to the provisions of the amendment. [FN9] Specifically, local governments have employed *1335 special benefit assessments [FN10] and governmental regulatory and service fees [FN11] to ease their financial burdens. [FN12] However, the use of these nontaxing alternatives has been challenged in recent years as circumventing the purposes of Proposition 13. [FN13]

Part I of this Comment surveys the background, relevant provisions, and fiscal impact of Proposition 13. [FN14] Part II examines court decisions interpreting Proposition 13 which have impacted the ability of local governments to raise revenues for municipal improvements, services, and facilities. [FN15] Part III analyzes the use and effectiveness of special benefit assessments and governmental regulatory and service fees to avoid the taxing restrictions of Proposition 13 and recoup lost revenues. [FN16] Part IV considers the current status and future of Proposition 13 and summarizes the role of California courts in shaping the amendment. [FN17] This Comment concludes that California courts have tempered the effect of Proposition 13's taxing restrictions by allowing local governments to develop nontaxing sources of revenue. [FN18]

*1336 I. PROPOSITION 13

A. Historical Background and Purposes

Prior to the enactment of Proposition 13, local property taxes in California were among the highest in the nation. [FN19] The adoption of Proposition 13 was the culmination of a long-standing protest by California landowners against burdensome property taxes, [FN20] and the event was widely characterized as a "taxpayer's revolt." [FN21] The "Jarvis-Gann Initiative" [FN22] was intended by its authors to provide effective property tax relief and, as a

corollary, reduce governmental waste and spending. [FN23] Moreover, since California had a tax surplus which the legislature refused to spend or rebate to taxpayers, high property taxes seemed unnecessary. [FN24] By *1337 approving Proposition 13, California voters greatly checked the taxing powers of their state and local governments. [FN25]

B. Summary of Relevant Constitutional Provisions

Proposition 13 provides a new scheme [FN26] for taxing real property and applies to all residential and commercial land uses. [FN27] Prior to the amendment, local governments generally had the power to impose any taxes and fees, within constitutional or legislative limits, [FN28] by a vote of their governing bodies. [FN29] However, Proposition 13 significantly curtailed the independent taxing authority of local jurisdictions. [FN30] The provisions that have restricted the ability of local governments to raise revenues are outlined briefly below.

Section 1 of Proposition 13 limits ad valorem taxes [FN31] on real property to one percent of the assessed value of such property. [FN32] Section 2 restricts inflationary increases in the assessed value of real property, or "full cash value base," [FN33] to two percent per year. [FN34] This section further rolled back the full cash value base of real property to the 1975-76 county assessor's valuation, subject to *1338 various adjustments. [FN35] While these two sections maintain proportion between property taxes and property values, [FN36] their effect was to severely reduce the traditional primary source of discretionary tax revenue available to local governments. [FN37]

Section 3 of Proposition 13 provides that "any changes in State taxes enacted for the purpose of increasing revenues" require a two-thirds vote of all members of both the assembly and the senate. [FN38] Local governments are directly affected by this restraint on the state legislature since many local governing bodies derive their taxing authority from enabling statutes. [FN39] Section 3 also expressly prohibits the legislature from imposing any new ad valorem taxes on real property or new taxes on the sales of real property. [FN40] This provision is significant since even a nonproperty tax which receives the requisite supermajority legislative approval may be struck down if it too closely resembles an ad valorem tax. [FN41]

Section 4 is a key provision in Proposition 13 since it compounds the fiscal crisis caused by the amendment's one percent *1339 ad valorem limitation [FN42] and prohibition of the enactment of new ad valorem and sales or transaction taxes on real property. [FN43] This section requires a two- thirds vote of the qualified local electorate for any new or increased "special tax." [FN44] A "special tax," as distinguished from taxes which flow to the local government's general fund, is one which is earmarked for a specific purpose. [FN45] Prior to the enactment of section 4, California law generally permitted any new or increased local taxes without voter approval. [FN46] The purpose of section 4 is to prevent local taxing jurisdictions from recouping their losses from decreased property taxes by imposing or increasing other taxes. [FN47]

C. Fiscal Impact

Proposition 13 has been characterized as "the most significant fiscal act of the people of California in modern times." [FN48] Only one year following approval of the initiative, property tax revenues dropped fifty-one percent, a $5.9 billion decrease from property tax revenues in the prior fiscal year. [FN49] The effect of Proposition 13 upon local governments was debilitating, since property taxes are the largest single source of tax revenue for cities, counties, and *1340 special districts, [FN50] and because all property tax revenues are devoted to support of local government activities. [FN51]

The California Legislature softened the impact of Proposition 13 by granting financial assistance to local governments. [FN52] Commonly referred to as a "bail-out," [FN53] the state aid program replaced some of the lost revenues caused by Proposition 13 through block grants and loans, [FN54] and implemented a method of distributing the proceeds of the one percent property tax to local governments. [FN55] However, in the early 1980's the legislature was forced to reduce financial assistance to local governments because of the severe recession. [FN56] Federal cutbacks and inflation compounded the cities' and counties' financial problems. [FN57] As a *1341 result, the long-term impact of Proposition 13 is now being felt by many municipalities. [FN58]

Because Proposition 13 is not susceptible to legislative repeal, [FN59] and since legislative efforts to assist local

governments have been insufficient, [FN60] cities, counties, and special districts have been forced to counter property tax revenue losses resulting from Proposition 13 by developing other sources of revenue, especially nontaxing levies, for the longer term since the alternative of cutting expenditures is politically unpalatable. [FN61] Expectedly, these efforts to generate revenues through alternative sources have been resisted as contrary to the provisions of Proposition 13. [FN62] However, California courts have responded favorably toward local taxing jurisdictions by restricting the application of Proposition 13. [FN63] It has been the courts, rather than the legislature, which have taken an active role in moderating the harsh fiscal impact of Proposition 13, as demonstrated by the decisions discussed below.

II. RELEVANT PROPOSITION 13 COURT DECISIONS

Since the enactment of Proposition 13, California courts have examined almost every aspect of the amendment. [FN64] The California ***1342** Supreme Court promptly reviewed the constitutionality of Proposition 13 in Amador Valley Joint Union High School District v. State Board of Equalization [FN65] and upheld the amendment. [FN66] The court noted that it was only addressing "those principal, fundamental challenges to the validity of Proposition 13 as a whole." [FN67] Thus, the interpretation and application of particular provisions was expressly left for later litigation. [FN68] Since the Amador decision, most of the litigation surrounding Proposition 13 ***1343** has focused on the amendment's one percent ad valorem tax and special tax- limitations, [FN69] which are discussed below.

A. The One Percent Ad Valorem Tax Limit

The scope of the one percent limit on ad valorem real property taxes in section 1 of Proposition 13 [FN70] was addressed by the California Supreme Court in Heckendorn v. City of San Marino. [FN71] San Marino drafted an ordinance authorizing a special tax which went into effect after approval by approximately eighty percent of the city's voters. [FN72] The plaintiff, a city property owner, filed a complaint alleging that the ordinance, which imposed a graduated tax based on the size of a real property parcel, [FN73] was an unconstitutional ad valorem tax. [FN74] However, the court upheld the ordinance, defining "ad valorem tax" in section 1 of Proposition 13 narrowly as "any source of revenue derived from applying a property tax rate to the assessed value of property." [FN75] Under this definition, the ordinance did not constitute an ad valorem tax since the ordinance involved no appraisal of property value and taxed parcels within a zone at the same rate, even if the actual value of the parcels differed. [FN76] The Heckendorn decision established that Proposition 13 only prohibits applying a tax rate directly to the ***1344** assessed value of property. [FN77] Thus, the supreme court seemingly opened the door to the use of taxes which are closely correlated to parcel values but not imposed on assessed property values. [FN78]

B. The Special Tax Two-Thirds Vote Requirement

Application of the two-thirds voter majority requirement for enactment of special taxes under section 4 of Proposition 13 [FN79] was first considered in Los Angeles County Transportation Commission v. Richmond. [FN80] Two years before the adoption of Proposition 13, the California Legislature created the Los Angeles County Transportation Committee (LACTC). [FN81] After the initiative was approved, the LACTC attempted to levy a sales tax for public transit purposes with only simple majority voter approval. [FN82] The defendant, LACTC's executive director, refused to implement the tax, and the LACTC filed a petition for writ of mandate. [FN83] The California Supreme Court issued an alternative writ, [FN84] holding that the LACTC was not a special district within the meaning of section 4, [FN85] and thus was not subject to the two-thirds voter majority requirement imposed by that section. [FN86]

***1345** In Richmond, the court concluded that the term "special district" as used in section 4 of Proposition 13 applies only to districts authorized to impose ad valorem property taxes. [FN87] The majority reasoned that section 4 should apply only to districts which lost property tax revenues as a result of Proposition 13, since section 4 was intended to limit the power of local governments to replace property tax revenue losses. [FN88] Thus, because the LACTC did not have the power to levy ad valorem taxes, the LACTC was exempted from the provisions of the amendment. [FN89]

The Richmond decision invited local taxing jurisdictions to circumvent the restrictions of Proposition 13 by replacing lost property tax revenues with the use of nonproperty tax special districts such as the LACTC. [FN90]

Justice Richardson's dissent characterized the majority's ruling as "a hole in the financial fence which the people in their Constitution have erected around their government" which would lead to wholesale avoidance of the purpose of Proposition 13. [FN91] The majority of the court, however, *1346 rejected the argument that its decision in Richmond would result in such legislative evasion of the restrictions of Proposition 13. [FN92] Indeed, the myriad of nonproperty tax special districts has not materialized as predicted by the dissent. [FN93]

However, Richmond was a harbinger of further erosion of Proposition 13 in a case decided later the same year, City and County of San Francisco v. Farrell, [FN94] which interpreted the term "special tax" in section 4 of the amendment. [FN95] Although the Richmond court declined to reach the issue of the meaning of "special taxes" as used in section 4 and decided the case on the "special districts" definition issue, [FN96] the supreme court did establish a "framework" for resolving future ambiguities in section 4 of Proposition 13. [FN97] In Richmond, the court could have interpreted the term "special districts" broadly [FN98] but declined to *1347 do so, stating that the language must be strictly construed and the ambiguities resolved in favor of permitting special districts to enact special taxes because of the "fundamentally undemocratic nature" of the supermajority vote requirement contained in section 4. [FN99] Thus, for policy reasons, the supreme court departed from the rules of construction applicable to constitutional initiatives set forth in Amador, [FN100] and adopted a rule of strict construction for interpreting section 4 of Proposition 13. [FN101]

The California Supreme Court followed the Richmond rule of strict construction and defined the term "special taxes" as used in section 4 narrowly in Farrell. [FN102] In Farrell, San Francisco had increased its payroll and gross receipts tax without the approval of two-thirds of the voters. [FN103] When the mayor approved a request for funding of municipal improvements to be appropriated from the gross receipts tax proceeds, Farrell, the city's controller, refused to allow the appropriation. [FN104] The defendant asserted that the increased gross receipts tax was an unconstitutional special tax under section 4 of Proposition 13. [FN105] However, the majority rejected Farrell's argument that section 4 required two-thirds voter approval for all new and increased nonproperty taxes. [FN106] The supreme court defined "special tax" as used in section 4 as a tax "levied for a specific purpose rather than . . . a levy placed in the general fund to be utilized for general governmental *1348 purposes." [FN107] Thus, San Francisco's tax, the proceeds of which were to be paid in the city's general fund, was not a special tax as contemplated by Proposition 13 because the tax was not levied for a specific purpose. [FN108]

While the supreme court in Farrell could have construed section 4 to include all nonproperty taxes, [FN109] the court chose the narrowest application of the section's supermajority vote requirement. [FN110] Farrell, at least in theory, permits a city to recoup its lost property tax revenues simply by adopting some other replacement tax with simple majority vote approval. [FN111] Farrell requires only that the proceeds from the new tax be deposited into the local government's general fund since proceeds collected for a specific purpose constitute a special tax requiring supermajority voter approval. [FN112] Although the Farrell result was partially nullified by the enactment of initiative Proposition 62 in 1986, [FN113] *1349 the decision illustrates the supreme court's desire to limit the application of Proposition 13.

C. Summary

As Heckendorn, Richmond, and Farrell indicate, the California Supreme Court has construed the provisions of Proposition 13 narrowly and the consequences of these decisions can be summed briefly. First, Proposition 13 is aimed primarily at controlling ad valorem property taxes. [FN114] However, the one percent limit on ad valorem taxes [FN115] is limited in application, since the California Supreme Court has narrowly defined "ad valorem" as a tax rate based solely on the assessed value of property. [FN116]

Second, city and county general revenue taxing powers remain unaffected by Proposition 13 except that new or increased nonproperty tax revenues levied for a specific purpose require approval by two-thirds of the local voters. [FN117] Of course, a new or increased nonproperty tax which too closely resembles an ad valorem tax is precluded by Proposition 13 even if approved by a supermajority local electorate vote, since Proposition 13 strictly prohibits such action. [FN118]

Thus, although the California Supreme Court initially approved the constitutionality of all sections of Proposition 13 [FN119] the court has since been unwilling to read the amendment expansively. This result is encouraging to

local governments. However, local taxing *1350 jurisdictions have received the biggest boost from the courts' tolerance of bold municipal moves to finance local government through nontaxing alternatives.

III. THE USE AND EFFECTIVENESS OF NONTAXING ALTERNATIVES TO AVOID PROPOSITION 13

On its face, Proposition 13 applies only to tax revenues, as opposed to nontax revenues. [FN120] Thus, an avenue is open to local taxing jurisdictions to offset the fiscal impact of Proposition 13 on ad valorem property taxes and special purpose nonproperty taxes by generating revenues through nontaxing levies. [FN121] Two specific types of nontax revenue devices are special benefit assessments and governmental fees, discussed below.

A. Special Benefit Assessments

A special assessment is "a charge imposed on particular real property for a local public improvement of direct benefit to that property." [FN122] An "assessment district" consists of the property or properties specially assessed to bear the expense of such improvement. [FN123] The theory underlying special assessments is that the assessed property receives a direct benefit as it increases in value due to the property's proximity to the local improvement. [FN124] This benefit to the property or properties within the district is greater than that received by the general public. [FN125] *1351 Therefore, a special assessment is fairly imposed on those benefitted, since the general public should not have to bear the expense when the public does not receive a corresponding benefit. [FN126]

An assessment district is formed by local legislative resolution; [FN127] no electorate approval is required. [FN128] The creation of special assessment districts takes place "as the result of a peculiarly legislative process," [FN129] and the authority of local governing bodies to impose special assessments is grounded in the taxing power of the sovereign. [FN130] Although a special assessment is imposed through the same mechanism used to finance the cost of a local government, special assessments are distinct from taxes, which are levied for general revenues and for general public *1352 improvements. [FN131] Hence, as the California Supreme Court has observed, a special assessment is not a tax at all, but simply a charge imposed to recoup the cost of a public improvement made for the special benefit of particular property. [FN132]

Prior to the enactment of Proposition 13, special assessment legislative acts [FN133] had been the most widely used procedure to finance construction of a variety of public improvements. [FN134] The use of special assessments became even more extensive after Proposition 13 as local governments sought to offset lost property tax revenues. [FN135] The effect of Proposition 13 upon special assessments was first examined in County of Fresno v. Malmstrom. [FN136] Fresno County attempted to collect assessments within a subdivision for the construction of streets. [FN137] However, the defendant, the Fresno County Treasurer and Tax Collector, refused to serve notice of assessment on the property owners, contending that the assessment in question contravened Proposition 13. [FN138] The Court of Appeal for the Fifth District granted the *1353 county's request for a writ of mandate to compel the county tax collector to serve the notice of assessment, ruling that the provisions of Proposition 13 did not apply to the assessment. [FN139]

The decision in Malmstrom resolved two questions regarding the continuing viability of special assessments after Proposition 13. [FN140] First, the court held that the one percent limit on ad valorem taxes did not apply to special assessments because the purposes of Proposition 13 would not be thereby furthered. [FN141] The court reasoned that it would be "illogical" to include special assessments within section 1, since that section was intended to control ad valorem taxes and limit wasteful governmental spending of general tax funds. [FN142] Second, the court held that special assessments did not require approval by a supermajority of voters because special assessments were not a tax per se, and thus not included in the definition of "special taxes" in section 4. [FN143] The court stated that while both special assessments and taxes may specially benefit particular property, a special assessment may not exceed the benefit conferred, whereas a special tax need not so specifically benefit the taxed property. [FN144] Malmstrom represents a significant rein on the effect of Proposition 13, since many public *1354 improvement projects financed previously with general taxes may now be financed with special assessments. [FN145]

Proposition 13 was further limited by the Second District Court of Appeal in Solvang Municipal Improvement District v. Board of Supervisors of the County of Santa Barbara. [FN146] In Solvang, the plaintiff, a special district,

created a parking district prior to Proposition 13 which was financed by non- voted special assessments against the benefitted property. [FN147] The Santa Barbara Board of Supervisors refused to collect the assessments after Proposition 13, contending that the assessments were unconstitutional under the amendment's one percent limit on ad valorem taxes. [FN148] The court upheld the validity of special assessments, despite the fact that the assessments were measured by the assessed value of benefitted parcels. [FN149] Following the rationale of the Malmstrom decision, the Solvang court held that the one percent limit of section 1 did not apply to any special assessment, even if assessed on an ad valorem basis. [FN150] Hence, special assessments may be levied according to the assessed value of property, but they do not constitute an ad valorem property tax. [FN151]

Despite mild language to the contrary, [FN152] the favorable decisions in Malmstrom and Solvang seemingly invited a switch by local governments from property taxes to special assessments for projects traditionally financed with general revenues, and California ***1355** courts have allowed municipalities to make this switch. [FN153] For example, in J.W. Jones Cos. v. City of San Diego, [FN154] the city created a system of "facility benefit assessments" (FBA) which were exacted from developers who applied for building permits to develop land in one of the city's new communities. [FN155] Under this scheme, proceeds of the FBA were collected in a special fund for exclusive use in constructing "a broad spectrum of public works" including parks, transit and transportation, libraries, fire stations, school buildings, and police stations for the benefit of the assessed parcels. [FN156] The plaintiff, a landowner and developer, challenged the assessment system, arguing that the FBA did not directly benefit the assessed property and were thus special taxes under section 4 of Proposition 13, [FN157] and that undeveloped and developed parcels were treated differently. [FN158] The Court of Appeal for the Fourth District upheld the city's financing scheme, stating that the FBA did not constitute special taxes and thus were not subject to the supermajority vote requirement of section 4 of Proposition 13, and that the system of assessing and placing liens on undeveloped properties only did not violate equal protection of the law. [FN159]

The J.W. Jones court acknowledged that San Diego's assessments did not fit within the traditional definition of special ***1356** assessments because the facility benefit assessments imposed a lien on parcels to pay for future improvements and because they were assessed on a unique basis. [FN160] However, the court stated that these anomalies did not prevent the city's levies from being valid special assessments rather than special taxes. [FN161] The court also determined that the lien provision of the city's ordinance did not create a discriminatory classification between undeveloped and developed properties because the benefits to the developed properties were only incidental. [FN162] As further justification for its holdings, the court indicated that the facility benefit assessments system was "necessary for the health and welfare of future residents of" the city. [FN163] A companion case to J.W. Jones, City of San Diego v. Holodnak, [FN164] upheld a similar FBA system for a wide variety of facilities and services [FN165] under the same rationale. [FN166] The court in J.W. Jones predicted the outcome of ***1357** Holodnak and future cases by strongly hinting that it desired to actively assist local governments to finance municipal growth. [FN167] Other cases have also extended the use of special assessments to finance operating expenses of local government, such as maintenance of flood control facilities [FN168] and road maintenance. [FN169]

The impact of these decisions has been to broaden the authority of the California Legislature to enact several bills authorizing local agencies to use special benefit assessments to augment their other revenue sources. [FN170] General law cities requiring enabling statutes in order to impose special assessments [FN171] have especially benefitted from the courts' tolerance of the use of special assessments since the California Legislature has interpreted relevant decisions as validating legislative action. [FN172] Specifically, the state legislature has authorized the use of special benefit assessments to ***1358** finance fire and police protection services, [FN173] flood control, [FN174] drainage and water management services, [FN175] and street lighting services. [FN176]

While the expanded use of special benefit assessments can be attributed to a willingness on the part of California courts to limit the application of Proposition 13, that is only a partial explanation. Another factor which accounts for the favorable judicial response is that the formation of special assessment districts is not subject to broad judicial review. [FN177] Although a special assessment must particulary benefit the assessed property, [FN178] courts give great deference to a local governing body's finding of benefit because the creation of an assessment district is an exercise of a municipality's sovereign taxing power. [FN179] Thus, so long as some special benefit to the assessed property can be demonstrated, the courts will probably uphold a local government's formation of a special assessment district. [FN180]

*1359 B. Governmental Regulatory and Service Fees

Local governments collect a multitude of fees for everything from building permits to garbage services to dog licenses. [FN181] The authority to collect such fees is derived from the state constitution or a specific legislative enactment. [FN182] Technically, governmental fees are not taxes, so long as they do not exceed the value of the benefit conferred or the service rendered. [FN183] These fees also are not assessed upon the value of property. [FN184] Thus, Proposition 13 seemingly does not affect the power of municipalities to raise revenues through use of such fees. [FN185] However, because of the increased interest in nontaxing alternatives after Proposition 13 was enacted, [FN186] California courts have considered the application of the amendment's provisions to a variety of governmental fees. [FN187]

*1360 There are two typical legal issues involved in challenges to the imposition of governmental fees. [FN188] The first is whether the fee is authorized by state law. [FN189] Without specific enabling or constitutional authority, the fee will be struck down. [FN190] The second issue is whether the fee is really a tax. [FN191] A local government's authority to impose fees derives from the its police power to regulate municipal activities for the public's health, safety, or general welfare, [FN192] while the taxing authority of local governments is restricted to the express purpose of raising general revenue. [FN193] Legislation implementing Proposition 13 expressly excludes from the definition of "special tax" any fee which does not exceed the reasonable cost of providing the regulatory activity or service for which the fee is charged and which is not levied for general revenue purposes. [FN194] Thus, a fee which is not reasonably equivalent to the cost of the regulatory activity or service, or which is deposited into the general treasury rather than a special fund may be deemed a tax and therefore prohibited by Proposition 13. [FN195]

California courts have reached varying conclusions regarding the use of governmental fees to generate nontaxing alternative sources of revenue. [FN196] The Third District Court of Appeal expressed the generally accepted rule regarding the validity of regulatory fees under Proposition 13 in Mills v. County of Trinity. [FN197] In Mills, the plaintiff challenged a county resolution *1361 providing both increased and new fees for processing land use applications [FN198] as prohibited by the special tax provision of Proposition 13. [FN199] The court upheld the resolution, concluding that land use regulatory fees do not constitute special taxes under section 4, when the fees charged to particular applicants do not exceed the reasonable cost of the regulatory activities. [FN200] The court refused to give an expansive reading of the term "tax" as used in Proposition 13's special tax provision, [FN201] indicating that state voters did not intend to put local governments in a "fiscal straitjacket." [FN202]

A different analysis was utilized by the Court of Appeal for the Second District in Trent Meredith, Inc. v. City of Oxnard. [FN203] The court upheld an ordinance requiring developers to either pay fees or dedicate land to local school districts as a precondition to issuance of a building permit. [FN204] The plaintiff, a subdivider, claimed the ordinance was unconstitutional because the development requirements constituted special taxes under section *1362 4 of Proposition 13. [FN205] The court held that the restrictions of Proposition 13 did not apply to the development fee and dedication requirements. [FN206] First, the court stated that the development requirements did not constitute ad valorem taxes because they were not assessed according to property values. [FN207] Second, because the court determined that the ordinance was an appropriate exercise of police power, to relieve conditions of overcrowding of local school facilities caused by new development, [FN208] the court stated that it was unnecessary to decide whether the ordinance requirements constituted a special tax. [FN209]

The Second District Court of Appeal, however, later decided a case on the "special tax" definition issue in California Building Industry Association v. Government Board of the Newhall School District of Los Angeles County. [FN210] In this case, defendant school districts levied taxes under the special tax provision of Proposition 13, after the resolution authorizing the taxes received the requisite two-thirds voter majority approval. [FN211] Plaintiff builders challenged the taxes, contending that the levies were actually "development fees" subject to statutory monetary limits. [FN212] The court adopted the definition of "special taxes" expressed in City and County of San Francisco v. Farrell, [FN213] and held that the school district's levies did not fall within the Farrell meaning. [FN214] The court concluded that the levies were more like development fees and *1363 should be considered as such. [FN215] Thus, the court invalidated the fees because they exceeded statutory monetary limits. [FN216]

In Beaumont Investors v. Beaumont-Cherry Valley Water District, [FN217] the Fourth District Court of Appeal considered whether a facilities fee enacted by a water district constituted a special tax under Proposition 13. [FN218] The court held that the fee fell under the ambit of section 4 since the fee exceeded the reasonable cost of constructing the water system. [FN219] The fee was therefore invalid since it had not been approved by a two-thirds vote of the district's qualified voters. [FN220] In support of its conclusion, the court stated that the purpose of Proposition 13 was to impose a "broad constitutional restriction" on the power of local agencies to impose special taxes. [FN221] Thus, any agency which sought to avoid the special tax limitations of section 4 through use ***1364** of "facilities fees" must bear the burden of proving that the assessment does not amount to a "special tax," a task the water district could not accomplish. [FN222]

The Fourth District Court of Appeal elaborated on the showing necessary to prove that a regulatory fee was not a special tax in San Diego Gas & Electric Co. v. San Diego City Air Pollution Control District. [FN223] The court stated that the local taxing agency should prove the estimated costs of the regulatory activity or service and the basis for determining the manner in which the costs are apportioned, so that the charges bear a reasonable relationship to the benefits from the regulatory activity. [FN224] Once the requisite showing is made, a regulatory fee may be upheld. [FN225] The court further noted that the imposition of fees was a reasonable way to achieve Proposition 13's goals of effective property tax relief, since the fees shifted the burden of costs from the taxpaying public to those who directly benefit from conducting the regulatory activity. [FN226]

The courts have been fairly strict in requiring a documented showing that a regulatory fee is not a special tax. For example, in Bixel Associates v. City of Los Angeles, [FN227] the Court of Appeal for the Second District struck down Los Angeles' development fee because the city had not met its burden of showing that a valid ***1365** method had been used for determining that the fees charged reasonably reflected the burden posed by the development. [FN228] The Bixel court refused to hear policy arguments supporting the city's decision to impose a fire hydrant fee, pointedly stating that the case was not about "the obvious need for the funding by the City of sophisticated fire protection in the post-Proposition 13 era" but only about determining the constitutionality of the fee. [FN229]

Thus far, the California Supreme Court has not clarified the scope of Proposition 13 with regard to governmental regulatory and service fees. [FN230] The existing cases indicate that the courts have been somewhat less tolerant of the use of governmental fees than of special benefit assessments. [FN231] One reason for the courts' stricter approach may be the fact that the wide range of governmental fees requires closer scrutiny than the narrow class of levies constituting special assessments. However, the cases also indicate that the courts have been less consistent in their analysis of such fees under Proposition 13. [FN232] These differing decisions are to be expected in the absence of firm guidance by the supreme court, but the cases also reflect the court's differing views of Proposition 13. [FN233] The courts' uncertainty can best be explained ***1366** by a brief consideration of the current status and future of Proposition 13 and a summary of the California courts' role in shaping the amendment, discussed below.

IV. PROPOSITION 13 TODAY AND IN THE FUTURE

After surviving an initial challenge to its constitutionality [FN234] and several severe tests thereafter, [FN235] Proposition 13 is still not safe from attack. [FN236] In 1989, the Supreme Court of the United States in Allegheny Pittsburgh Coal Co. v. County Commission [FN237] struck down a West Virginia taxing scheme similar to Proposition 13 as violative of the equal protection clause of the fourteenth amendment. [FN238] In Allegheny, the plaintiffs, various coal companies, challenged the Webster County assessor's method of property value appraisal, [FN239] contending that the method of appraisal resulted in recently sold properties having higher appraised value than properties that had not recently been sold. [FN240] The Supreme Court of the United States accepted the coal companies' argument that the method of appraisal created an unconstitutional discriminatory classification between new purchasers and existing landowners. [FN241] The Court reasoned that using the selling price of property to fix assessments was not rationally related to the county's objective of establishing accurate, current property values, since this method resulted in dramatic and ***1367** unequal differences in valuation of comparable properties. [FN242] While the Court did not state that all assessment schemes which use more than one method of assessing property in the same class are invalid, the Court indicated that such schemes must ensure that general adjustments of comparable property are "accurate enough over a short period of time to equalize the differences in proportion between the assessments of a class of property holders." [FN243] Because the Webster County assessor's adjustments were neither prompt nor substantial enough to eliminate the disparity in appraisals of comparable

properties, the county's assessment scheme was struck down. [FN244]

The Allegheny decision left open the question of the constitutionality of Proposition 13, since the Court declined to decide whether the Webster County assessment scheme might be constitutional if it were the law of a state rather than a single county. [FN245] Whether the Court was indicating its approval of Proposition 13 or inviting a challenge to the amendment is arguable. [FN246] Numerous renewed challenges to the constitutionality of Proposition 13 have been filed since Allegheny, [FN247] however, several California courts of appeal have affirmed the validity of the amendment. [FN248]

***1368** While the ultimate validity of Proposition 13 is unclear after the Supreme Court of the United States' decision in Allegheny, local taxing jurisdictions in the meantime will have to continue finding adequate financing for local government activities. California courts have taken an active role in moderating the harsh fiscal impact of Proposition 13 by limiting the application of the amendment's key provisions. [FN249] Because Proposition 13 was ambiguous in a number of particulars, [FN250] the courts have had ample opportunity to give an expansive reading to the amendment, yet for the most part cases have been decided in favor of greater freedom by local governments to impose assessments. [FN251] This response by the courts cannot be unintended. The Proposition 13 court decisions reflect a conscious desire on the part of California courts to make Proposition 13 an effective scheme of property tax relief, but without crippling the ability of local governments to carry out municipal functions. [FN252] As a result of the courts' actions in shaping Proposition 13, some local governments' budgets have not suffered as dramatically as the authors of the amendment might have anticipated. [FN253]

***1369** CONCLUSION

California courts have tempered the effect of the taxing restrictions of Proposition 13 by allowing local governments to develop nontaxing sources of revenue. [FN254] The most effective source of nontaxing revenue is special benefit assessments. The courts have shown great tolerance for allowing special assessments to finance an expanded variety of municipal improvements and services. [FN255] To a lesser extent, the courts have also allowed the use of governmental regulatory and service fees. [FN256] While the validity of the use of these fees is not as predictable as the use of special assessments, governmental fees remain a viable source of nontaxing revenues, as evidence by the sheer number of these fees. [FN257]

While most local governments still regard Proposition 13 as a "dirty word," [FN258] California courts have kept the amendment from becoming a "fiscal straitjacket" [FN259] to local governments. [FN260] By taking an active role in shaping the provisions and application of Proposition 13, the courts have ensured that local taxing jurisdictions can find alternative sources of revenue despite the severe loss of property tax funds.

[FN1]. CAL. CONST. art. XIIIA §§ 1-6 (West Supp. 1991). Proposition 13 was placed on the June 1978 primary ballot through the initiative process. See CAL. CONST. art. II §§ 8, 10 (West 1983) (constitutional provisions for the state initiative process); CAL. ELEC. CODE §§ 3500-3524, 3530- 3579 (West 1977 & Supp. 1991) (statutes governing initiatives, excluding initiatives proposed by the legislature). Proposition 13 has been amended several times since 1978. References in this Comment are to the current amended text unless otherwise indicated. See infra notes 26-47 and accompanying text (discussing the relevant provisions of Proposition 13).

[FN2]. In 1977, one year before Proposition 13 was adopted, property taxes in California contributed 22.4% of city revenues, 36.3% of county revenues, and 67.4% of nonenterprise special district revenues. See CALIFORNIA LEGISLATIVE ANALYST, AN ANALYSIS OF THE EFFECT OF PROPOSITION 13 ON LOCAL GOVERNMENTS 6-10 (Oct. 1979) (prepared by the California Legislative Analyst pursuant to Cal. S.B. No. 154, 1979 Cal. Stat. ch. 292 (1978) and Cal. S.B. 2212, 1978 Cal. Stat. ch. 332 (1978)) [hereinafter LEGISLATIVE ANALYSIS]. Other significant sources of state and local government revenues are, in order of decreasing percentage of contribution: Sales and use taxes, personal income taxes, and corporate franchise and income taxes. 11 N. LANE, CALIFORNIA PRACTICE STATE AND LOCAL TAXATION § 1 (2d ed. 1987).

[FN3]. The following is an overview of the legal structure of local government in California. Cities and Counties: Cities and counties in California are either general law or chartered. CALIFORNIA ASSEMBLY, OFFICE OF RESEARCH, CALIFORNIA STATE AND LOCAL TAX SYSTEMS: A REVIEW OF MAJOR REVENUE

SOURCES 245 (July 1985) [hereinafter ASSEMBLY RESEARCH REPORT]. General law cities and counties are organized under the general laws of the state and must derive their authority to act from a constitutional grant of authority or from an act of the legislature. Id. In contrast, chartered cities and counties may act without specific statutory authority, subject to constitutional constraints. Id. Cities have constitutional authority to adopt a charter while counties may do so only with approval of the legislature. Id. Special Districts: Special districts are autonomous units of local government which provide governmental services, generally within unincorporated areas. Id. at 246. Examples of special districts include the following: Water districts, transit districts, waste disposal districts, and lighting and lighting maintenance districts. Id. Each special district's authority is restricted to those powers and activities specifically provided for in the special district's enabling statute. Id. at 247. The term "special district" as used in this Comment refers loosely to all local taxing districts, including school and police and fire protection districts, as well as those districts created by statute.

[FN4]. CAL. CONST. art. XIIIA §§ 1(a), 2(a) (West Supp. 1991).

[FN5]. Id. § 3. Proposition 13 provides for a maximum 2% annual increase of the assessed value of real property after the 1975-76 base year. Id. § 2(b). Further, any changes in the state taxing scheme must be approved by two-thirds of each of the two houses of the legislature, except that no new ad valorem taxes on real property may be imposed. Id. § 3.

[FN6]. Id. § 4. No definition of the term "special tax" appears in section 4. However, the California Supreme Court has construed this term to mean taxes "levied for a specific purpose rather than . . . a levy placed in the general fund to be utilized for general governmental purposes." City and County of San Francisco v. Farrell, 32 Cal. 3d 47, 57, 648 P.2d 935, 940, 184 Cal. Rptr. 713, 718 (1982). See infra notes 102-113 and accompanying text (discussing the Farrell decision).

[FN7]. See LEGISLATIVE ANALYSIS, supra note 2, at 3 (discussing the loss of property tax revenues effected by Proposition 13). Property tax revenues dropped 51% one year after the enactment of Proposition 13, a $5.9 billion decrease from revenues in the previous fiscal year. Id.

[FN8]. T. SCHWADRON & P. RICHTER, CALIFORNIA AND THE AMERICAN TAX REVOLT 70- 79 (1984). Examples of how local governments have reacted to Proposition 13 include curtailed local services, deferred facility maintenance, layoffs, and increased user fees. ASSEMBLY RESEARCH REPORT, supra note 3, at 239.

[FN9]. Henke, The Effect of Proposition 13 Court Decisions on California Local Government Revenue Sources, 22 U.S.F. L. REV. 251, 281-90 (1988); Lefcoe & Allison, The Legal Aspects of Proposition 13: The Amador Valley Case, 53 S. CAL. L. REV. 173, 190-91 (1979). See Kroll, California Cities v. Prop. 13, 3 CAL. LAW., Jun. 1983, at 28, 30 (stating that "cities and counties are beating the bushes for new taxes, fees and assessments" and "are developing creative ways of financing local government").

[FN10]. A special assessment is a charge imposed on particular real property for a local public improvement of direct benefit to that property. Spring Street Co. v. City of Los Angeles, 170 Cal. 24, 29, 148 P. 217, 219 (1915). See infra notes 122-180 and accompanying text (discussing special assessments).

[FN11]. Governmental fees are charges exacted by local taxing authorities for regulatory activities or municipal services. Mills v. County of Trinity, 108 Cal. App. 3d 656, 660-61, 166 Cal. Rptr. 674, 676-77 (1980). See infra notes 181-233 and accompanying text (discussing governmental fees).

[FN12]. Kroll, supra note 9, at 30. See CALIFORNIA COMM'N ON GOV'T REFORM, FINAL REPORT 118 (Jan. 1979) (listing numerous new or increased county permit, service, and license fees in the year following the enactment of Proposition 13). See generally ANNUAL REPORTS OF THE STATE CONTROLLER, FINANCIAL TRANSACTIONS CONCERNING SPECIAL DISTRICTS (1980) (documenting 175% increase in special assessments levied between 1978 and 1980).

[FN13]. Kroll, supra note 9, at 31. See, e.g., City of Sacramento v. Drew, 207 Cal. App. 3d 1287, 1294, 255 Cal. Rptr. 704, 708 (1989) (school construction special assessment struck down); Bixel Assoc. v. City of Los Angeles,

216 Cal. App. 3d 1208, 1220, 265 Cal. Rptr. 347, 355 (1989) (fire hydrant fee struck down); Beaumont Investors v. Beaumont-Cherry Valley Water Dist., 165 Cal. App. 3d 227, 238, 211 Cal. Rptr. 567, 573 (1985) (water facilities fee struck down).

[FN14]. See infra notes 19-63 and accompanying text.

[FN15]. See infra notes 64-119 and accompanying text.

[FN16]. See infra notes 120-233 and accompanying text.

[FN17]. See infra notes 234-53 and accompanying text.

[FN18]. See infra notes 254-260 and accompanying text.

[FN19]. See U.S. BUREAU OF THE CENSUS, GOVERNMENT FINANCES IN 1976-77, at 64, table25 (1978) (documenting amount of per capita property taxes collected according to state). In the year preceding Proposition 13, only Alaska, Massachusetts, and New Jersey had higher per capita property taxes than California. Id.

[FN20]. Proposition 13 was the third attempt in 10 years to limit state and local government taxing power. CALIFORNIA ASSEMBLY REVENUE & TAXATION COMM., FACTS ABOUT PROPOSITION 13, THE JARVIS/GANN INITIATIVE 7 (1978). In 1968, Proposition 9, which proposed a 1% limit on the property tax rate, was defeated. Id. In 1972, Proposition 14, which would have limited the tax rate from 1.75% to 2%, was also defeated. Id. Proposition 13 received 4,280,689 "yes" votes (64.8%) to 2,326,167 "no" votes (35.2%). CAL. SECRETARY OF STATE, STATEMENT OF VOTE 39 (1978).

[FN21]. Henke, supra note 9, at 251.

[FN22]. Proposition 13 is often called the "Jarvis-Gann Initiative" after the names of its outspoken authors: Howard Jarvis and Paul Gann.

[FN23]. Henke, supra note 9, at 260. Proponents of Proposition 13 argued in the voters pamphlet, "More than 15% of all government spending is wasted! Wasted on huge pensions for politicians which sometimes approach $80,000 per year! Wasted on limousines for elected officials or taxpayer-paid junkets. Now we have the opportunity to trade waste for property tax relief." CALIFORNIA VOTERS PAMPHLET, 56-58, Jun. 6, 1978 (compiled by Cal. Secretary of State) (comments by H. Jarvis, Chairman, United Organization of Taxpayers and P. Gann, President, Peoples Advocate). A later Gann initiative, Proposition 4, which passed in 1979, directly addressed governmental spending. See CAL. CONST. art. XIIIB §§ 1-12 (West Supp. 1991), for full text of Proposition 4. Proposition 4 limits the amount of revenue which state and local governments may spend by imposing a ceiling on most appropriations. Id. § 1. The proposition provides that such appropriations may only increase consistently with increases in population and the consumer price index. Id.

[FN24]. Comment, Police and Fire Service Special Assessments Under Proposition 13, 16 U.S.F. L. REV. 781, 784 (1982). In the years preceding Proposition 13, huge state income tax surpluses accumulated as economic growth and inflation generated revenues far in excess of budget estimates. Lefcoe & Allison, supra note 9, at 176. The State Legislature failed to spend or refund the excess income tax dollars collected and, only after Proposition 13 was enacted, did the Legislature finally pass a form of inflation indexing designed to reduce the surplus. Id.

[FN25]. In 1977-78, the year prior to Proposition 13, California local property taxes were 51% above the national norm (norm is the average per $1000 of personal income for residents). SECURITY PACIFIC NAT'L BANK, TAXES AND OTHER REVENUE OF STATES AND LOCAL GOVERNMENT IN CALIFORNIA A4-A6 (1982) [hereinafter SECURITY PACIFIC STUDY]. One year after Proposition 13, local property taxes in California were 27% below the national norm. Id.

[FN26]. See CAL. REV. AND TAX. CODE §§ 50-100.5 (West 1987 & Supp. 1991) (statutes implementing Proposition 13).

[FN27]. CAL. CONST. art. XIIIA § 1(a) (West Supp. 1991).

[FN28]. See CAL. CONST. art. XI § 7 (West Supp. 1991) (homerule taxing authority provision for counties and cities); CAL. CONST. art. XIII § 37 (repealed provision authorizing state legislature to vest taxing authority in local governments); CAL. GOV'T CODE § 25202 (West 1988) (statute authorizing counties to levy property taxes); id. § 37100-37101 (West 1988 & Supp. 1991) (statutes authorizing cities to pass ordinances and levy license, sales, and use taxes).

[FN30]. Id.

[FN31]. BLACK'S LAW DICTIONARY 51 (6th ed. 1991). An ad valorem tax is one based on the value of property.

[FN32]. CAL. CONST. art. XIIIA § 1(a) (West Supp. 1991).

[FN33]. The "full cash value base" of real property is the assessed value of such property. Id. § 2(a).

[FN34]. Id. § 2(b).

[FN35]. Id. § 2(a).

[FN36]. One of the concerns leading to the enactment of Proposition 13 was the rapid increase of property values in California. County of Fresno v. Malmstrom, 94 Cal. App. 3d 974, 980, 156 Cal. Rptr. 777, 780 (1979). However, the increased income of the property owners did not offset the increased property taxes. Id. Sections 1 and 2 prevent property taxes from rising so high that owners are forced to sell their property in order to pay the higher assessments. Comment, supra note 24, at 781, 784 n.22 (1982).

[FN37]. Henke, supra note 9, at 263. See infra notes 48-63 and accompanying text (discussing the fiscal impact of Proposition 13).

[FN38]. CAL. CONST. art. XIIIA § 3 (West Supp. 1991).

[FN39]. LANE, supra note 2, § 2. General law cities and counties must derive their authority to tax from a constitutional grant of authority or from an act of the legislature. ASSEMBLY RESEARCH REPORT, supra note 3, at 245. Under the California Constitution, counties and cities are authorized to impose taxes in the exercise of their police power. See CAL. CONST. art. XI § 7 (West Supp. 1991) (provision authorizing enactment of local ordinances and regulations for the general public welfare). All other taxing authority is derived from the state legislature. Nauman, Local Government Taxing Authority Under Proposition 13, 10 SW.L.J. 795, 804 (1978). See generally supra note 3 (discussing the legal structure of local government in California). The legislature may not impose taxes for local purposes but may authorize local governments to impose them. CAL. CONST. art. XIII § 24 (West Supp. 1991).

[FN40]. CAL. CONST. art. XIIIA § 3.

[FN41]. See Henke, supra note 9, at 263.

[FN42]. See CAL. CONST. art. XIIIA § 1(a)(West Supp. 1991)("The maximum amount of any ad valorem tax on real property shall not exceed one percent (1%) of the full cash value of such property.").

[FN43]. See id. § 3 ("[N]o new ad valorem taxes on real property, or sales or transaction taxes on the sales of real property may be imposed.").

[FN44]. Id. § 4.

[FN45]. City and County of San Francisco v. Farrell, 32 Cal. 3d 47, 57, 648 P.2d 935, 940, 184 Cal. Rptr. 713, 718 (1982). See infra notes 102-113 and accompanying text (discussing the California Supreme Court's interpretation of "special taxes" as used in Proposition 13).

[FN46]. See, e.g., CAL. CONST. art. XI § 7 (West Supp. 1991)(homerule taxing authority provision for counties and cities).

[FN48]. CALIFORNIA COMM'N ON GOV'T REFORM, FINAL REPORT 1 (Jan. 1979).

[FN49]. LEGISLATIVE ANALYSIS, supra note 2, at 3.

[FN50]. LANE, supra note 2, § 4.

[FN51]. Id. According to the Assembly Office of Research, "the quality of the functions performed by local jurisdictions has deteriorated." ASSEMBLY RESEARCH REPORT, supra note 3, at 239.

[FN52]. See CALIFORNIA ASSEMBLY REVENUE & TAXATION COMM., SUMMARY OF LEGISLATION IMPLEMENTING PROPOSITION 13 FOR FISCAL YEAR 1978-79, S.B. 154 at ii-iii (1978)(discussing the legislative financial aid plan provided in Senate Bill 154, the short-term program for implementing Proposition 13).

[FN53]. See, e.g., Henke, supra note 9, at 252; Comment, supra note 24, at 788 n.38.

[FN54]. For fiscal year 1978-79, the California Legislature allocated $4.2 billion to local governments and established a $900 million loan fund. CALIFORNIA COMM'N ON GOV'T REFORM, FINAL REPORT 17-19 (Jan. 1979). In fiscal year 1979-80, the "bail-out" was $4.9 billion, and in fiscal year 1980-81, the "bail-out" was $5.5 billion. Comment, supra note 24, at 788 n.39. State financial assistance was based on the surplus generated by the increase in other state taxes. Id. at 787-88. Although Proposition 13 reduced property tax revenues during 1978-79, the high rate of inflation that resulted increased other state taxes, including death and gift taxes, state property taxes on motor vehicles and mobile homes, taxes on corporation net income, and individual income taxes. See SECURITY PACIFIC STUDY, supra note 25, at A4-A12.

[FN55]. ASSEMBLY RESEARCH REPORT, supra note 3, at 232. Senate Bill 154, the local government bail-out bill, provided that the countywide proceeds of the 1% property tax collected by local assessors were to be distributed pro rata to local jurisdictions, based on the average percentage of annual property taxes revenues collected by the city, county, or district. Id. See generally Doerr, The California Legislature's Response to Proposition 13, 53 S. CAL. L. REV. 77, 77-79 (1979)(discussing the legislation implementing Proposition 13 and providing for the bail-out program); CALIFORNIA ASSEMBLY REVENUE & TAXATION COMM., OVERVIEW OF CURRENT COURT CHALLENGES TO PROPOSITION 13 AND ITS IMPLEMENTATION LAWS: ASSESSMENT OF SIMILAR PROPERTIES AND REVENUE ALLOCATION TO LOCAL AGENCIES 20-25 (Dec. 1989) (discussing the provisions and underlying policy of legislation implementing Proposition 13).

[FN56]. ASSEMBLY RESEARCH REPORT, supra note 3, at 235-39.

[FN57]. Id. at 249-50.

[FN58]. See, e.g., City of Oakland v. Digre, 205 Cal. App. 3d 99, 102, 252 Cal. Rptr. 99, 99 (1988) (Oakland faced anticipated $14.5 million deficit for fiscal year 1989 because of reduced federal funding and the long-term impact of reduced property tax revenues); Northgate Partnership v. City of Sacramento, 202 Cal. Rptr. 15, 17 (1984)(Sacramento faced revenue loss of approximately $16.6 million in fiscal year 1978-79 as a result of Proposition 13).

[FN59]. CAL. CONST. art. II § 10(c) (West Supp. 1991)("[T]he Legislature may amend or repeal an initiative statute by another statute that becomes effective only when approved by the electors unless the initiative statute permits amendment or repeal without their approval.").

[FN60]. According to the Assembly Office of Research, state fiscal relief since fiscal year 1978-79, while essential, "helped save a drowning person, but it did not help that person reach shore." ASSEMBLY RESEARCH REPORT, supra note 3, at 241.

[FN61]. See SCHWADRON & RICHTER, supra note 8, at 70-79 (discussing aftermath of Proposition 13 revolt).

[FN62]. See infra note 64 (describing cases interpreting the main provisions of Proposition 13).

[FN63]. See infra notes 64-119 and accompanying text (discussing relevant Proposition 13 court decisions).

[FN64]. See, e.g., Heckendorn v. City of San Marino, 42 Cal. 3d 481, 486- 89, 723 P.2d 64, 67-69, 229 Cal. Rptr. 324, 327-29 (1986)(defining scope of 1% ad valorem tax limit); City and County of San Francisco v. Farrell, 32 Cal. 3d 47, 57, 648 P.2d 935, 940, 184 Cal. Rptr. 713, 718 (1982) (defining special tax provision); Carman v. Alvord, 31 Cal. 3d 318, 326-33, 644 P.2d 192, 197- 201, 182 Cal. Rptr. 506, 511-15 (1982) (interpreting bond indebtedness exception to 1% limitation provision); Los Angeles County Transp. Comm'n v. Richmond, 31 Cal. 3d 197, 205-07, 643 P.2d 941, 945-47, 182 Cal. Rptr. 324, 328-30 (1982) (interpreting application of two-thirds majority vote requirement); Amador Valley Joint Union High School Dist. v. State Board of Equalization, 22 Cal. 3d 208, 219, 248, 583 P.2d 1281, 1283, 1302, 149 Cal. Rptr. 239, 241, 259 (1978) (deciding constitutionality of Proposition 13).

[FN65]. 22 Cal. 3d 208, 583 P.2d 1281, 149 Cal.Rptr. 239 (1978) (decided Sept. 22, 1978, only 3 months after Proposition 13 was adopted).

[FN66]. Id. at 219, 248, 583 P.2d at 1283, 1302, 149 Cal. Rptr. at 241, 259. The Amador case consolidated multiple constitutional challenges to Proposition 13, and the supreme court reached several holdings. First, the court held that Proposition 13 was a constitutional amendment rather than an impermissible "revision," and, therefore, an appropriate subject of the initiative process for amending the California Constitution. Id. at 229, 583 P.2d at 1289, 149 Cal. Rptr. at 247. Second, the court held that Proposition 13 did not violate the single subject requirement of the initiative process. Id. at 232, 583 P.2d at 1292, 149 Cal. Rptr. at 250. Third, the court held that Proposition 13 did not deny equal protection of the laws required by the fourteenth amendment of the United States Constitution. Id. at 237, 583 P.2d at 1294-95, 149 Cal. Rptr. at 252-53. Fourth, the court held that Proposition 13 did not impermissibly infringe upon the right to travel. Id. at 238, 583 P.2d at 1295, 149 Cal. Rptr. at 253. Fifth, the court held that Proposition 13 did not unconstitutionally impair contractual rights. Id. at 242, 583 P.2d at 1298, 149 Cal. Rptr. at 256. Sixth, the court held that Proposition 13 did not violate the title and ballot summary requirements for initiatives required by the California Constitution. Id. at 243, 583 P.2d at 1298, 149 Cal. Rptr. at 256. Lastly, the court held that Proposition 13 was not void for vagueness. Id. at 246, 583 P.2d at 1301, 149 Cal. Rptr. at 259.

[FN67]. Id. at 219, 583 P.2d at 1283, 149 Cal. Rptr. at 241.

[FN68]. Id. at 247-48, 583 P.2d at 1301, 149 Cal. Rptr. at 259. Specifically, the supreme court stated:

[W]e decline to reach the question whether the various interpretations put forth by the Legislature and State Board of Equalization are correct . . . . [W]e recently affirmed that "it seems apparent that we cannot, and should not, attempt to pass upon the meaning or validity of each contested provision in every hypothetical context--adjudication of these matters must await an actual controversy, and should proceed on a case-by-case basis as the need arises."

Id. at 247, 583 P.2d at 1301, 149 Cal. Rptr. at 259 (citing County of Nevada v. MacMillen, 11 Cal. 3d 662, 674, 522 P.2d 1345, 1352, 114 Cal. Rptr. 345, 352 (1974)).

[FN69]. While the courts have examined many other aspects of Proposition 13, this Comment only discusses decisions which have affected local government revenue sources. See generally CALIFORNIA TAX FOUND., PROPOSITION 13 REPORTER (1985), for a comprehensive compilation of Proposition 13 litigation.

[FN70]. CAL. CONST. art. XIIIA § 1(a) (West Supp. 1991).

[FN71]. 42 Cal.3d 481, 723 P.2d 64, 229 Cal. Rptr. 324 (1986).

[FN72]. Id. at 484, 723 P.2d at 65, 229 Cal. Rptr. at 325.

[FN73]. The challenged tax was graduated according to the city's zoning classifications, which were determined by real property parcel size. Id. at 484, 484-85 n.2, 723 P.2d at 65, 65-66 n.2, 229 Cal. Rptr. at 325, 325-26 n.2. However, within each zone, the ordinances imposed a flat tax rate on all parcels, despite any variations in size, improvements, and ultimate value. Id. at 484-85, 723 P.2d at 65-66, 229 Cal. Rptr. at 325-26.

[FN74]. Id. at 485, 723 P.2d at 66, 229 Cal. Rptr. at 326. New ad valorem taxes on real property are strictly prohibited under Proposition 13. CAL. CONST. art. XIIIA § 4 (West Supp. 1991).

[FN75]. Heckendorn, 42 Cal. 3d at 487, 723 P.2d at 67, 229 Cal. Rptr. at 327 (quoting CAL. REV. & TAX. CODE § 2202 (West 1987)).

[FN76]. Id.

[FN77]. Henke, supra note 9, at 275.

[FN78]. Id. For example, using floor area of buildings as well as lot area to define the steps in a graduated parcel tax presumably would not be precluded by Heckendorn, since no appraisal of property value is made. Id.

[FN79]. CAL. CONST. art. XIIIA § 4.

[FN80]. 31 Cal. 3d 197, 643 P.2d 941, 182 Cal. Rptr. 324 (1982).

[FN81]. Id. at 199-200, 643 P.2d at 941-42, 182 Cal. Rptr. at 324-25.

[FN82]. Id. at 200, 643 P.2d at 942, 182 Cal. Rptr. at 325. LACTC's measure authorizing imposition of the sales tax was approved by 54% of the county voters. Id.

[FN83]. Id. Richmond, the executive director of the LACTC, refused to pay the State Board of Equalization the administrative costs of collecting the sales tax required by sections 7270 and 7272 of the Revenue & Taxation Code. Id. at 200 n.3, 643 P.2d at 942 n.3, 182 Cal. Rptr. at 325 n.3. Richmond's refusal to implement the tax was prompted by the California Attorney General's opinion that the tax ordinance was unconstitutional under section 4 of Proposition 13 because the ordinance had not received the approval of two- thirds of the voters. Id. at 200, 643 P.2d at 942, 182 Cal. Rptr. at 325 (citing 64 Op. Att'y Gen. 156 (1981)).

[FN84]. Id. at 200, 643 P.2d at 942-43, 182 Cal. Rptr. at 325-36. The supreme court invoked the exercise of its original jurisdiction in Richmond "[b]ecause of the importance of the issues involved and the need for their prompt resolution." Id.

[FN85]. Section 4 is applicable specifically to "[c]ities, counties and special districts." CAL. CONST. art. XIIIA § 4 (West Supp. 1991) (emphasis added).

[FN86]. Richmond, 31 Cal. 3d at 207-08, 643 P.2d at 947, 182 Cal. Rptr. at 330.

[FN87]. Id. at 205, 643 P.2d at 945, 182 Cal. Rptr. at 328. In Arvin Union School Dist. v. Ross, 176 Cal. App. 3d 189, 221 Cal. Rptr. 720 (1985), the Second District Court of Appeal addressed an issue remaining after Richmond regarding whether the special tax restrictions of section 4 applied to special districts which were specifically authorized by statute to assess additional property taxes as needed. Id. at 193, 221 Cal. Rptr. at 722. The court held that Proposition 13 preempted the enactment authorizing collection of additional property taxes and affirmed the rule in Richmond that section 4's "special districts" language includes all entities empowered to levy on real property. Id. at 199, 221 Cal. Rptr. at 726.

[FN88]. Richmond, 31 Cal. 3d at 205-06, 643 P.2d at 945-46, 182 Cal. Rptr. at 329 (citing language in the June 1978 California Voters Pamphlet to support the court's conclusion). See supra note 23 (quoting comments made by the authors of Proposition 13 and printed in the California Voters Pamphlet).

[FN89]. Richmond, 31 Cal. 3d at 205-08, 643 P.2d at 945-47, 182 Cal. Rptr. at 328-30. Cf. Huntington Park Redevelopment Agency v. Martin, 38 Cal. 3d 100, 695 P.2d 220, 211 Cal. Rptr. 133 (1985). In Huntington Park, the supreme court clarified the Richmond rule, stating that the term "special districts" as used in section 4 of Proposition 13 encompasses only those agencies which are empowered to impose and collect property taxes. Id. at 105, 695 P.2d at 224, 211 Cal. Rptr. at 137. Thus, the court held that the plaintiff, a community redevelopment agency which did not have authority to impose and collect property taxes, was not a special district, even though the agency received a substantial share of property tax revenues collected by other governmental entities. Id. at 105-07, 695 P.2d at 222-24, 211 Cal. Rptr. at 135-37.

[FN90]. Henke, supra note 9, at 265-66 n.78.

[FN91]. Richmond, 31 Cal. 3d at 213, 643 P.2d at 950, 182 Cal. Rptr. at 333 (Richardson, J., dissenting). Specifically, Justice Richardson wrote:

The majority has cut a hole in the financial fence which the people in their Constitution have erected around their government. Governmental entities may be expected, instinctively, to pour through the opening seeking the creation of similar revenue-generating entities in myriad forms which will be limited only by their ingenuity.

Id.

[FN92]. Id. at 208, 643 P.2d at 947, 182 Cal. Rptr. at 330. The Richmond majority stated, "We cannot assume that the Legislature will attempt to avoid the goals of article XIIIA by [reorganizing special districts to remove their property-taxing power or creating new ones without such power]. In any event, that problem can be dealt with if and when the issue arises." Id.

[FN93]. Henke, supra note 9, at 267. Henke suggests that nonproperty tax special districts have not proliferated, partly because of the supreme court's liberal response to the "special tax" issue in City and County of San Francisco v. Farrell, 32 Cal. 3d 47, 648 P.2d 935, 184 Cal. Rptr. 713 (1982). Id.

[FN94]. 32 Cal. 3d 47, 648 P.2d 935, 184 Cal. Rptr. 713 (1982).

[FN95]. See id. at 53-54, 648 P.2d at 937-38, 184 Cal. Rptr. at 716-17 (discussing the Richmond decision as a precedent for the court's decision in Farrell).

[FN96]. Richmond, 31 Cal. 3d at 201-02, 643 P.2d at 943, 182 Cal. Rptr. at 326. While acknowledging that an ambiguity existed in the meaning of "special taxes" under section 4, the Richmond court indicated that it was only considering the meaning of the term "special districts." Id. Because the court determined that the LACTC was not a "special district" within the meaning of section 4, further analysis of section 4 was neither necessary nor appropriate.

[FN97]. Id. at 205, 643 P.2d at 945, 182 Cal. Rptr. at 328. The Richmond court stated, "The purpose of our discussion [of the substance and effect of an extraordinary vote requirement] is not to throw doubt on the constitutionality of the two-thirds vote requirement in section 4, but rather to establish the framework in which the ambiguity in the language of the provision should be resolved." Id.

[FN98]. Id. at 202, 643 P.2d at 943-44, 182 Cal. Rptr. at 327. The Richmond court noted that the term "special district" is generally defined as "a legally constituted governmental entity established for the purpose of carrying on specific activities within definitely defined boundaries." Id. at 202, 643 P.2d at 943, 182 Cal. Rptr. at 326 (citing SENATE FACT FINDING COMM. REPORT ON REVENUE AND TAXATION, INTERGOVERNMENTAL FISCAL RELATIONS IN CALIFORNIA 177 (Jun. 1965). The defendant urged the court to interpret "special districts" to mean "any unit of local government other than a city or county that is empowered to levy a 'special tax.'" Id. at 202, 643 P.2d at 943, 182 Cal. Rptr. at 327.

[FN99]. Id. at 205, 643 P.2d at 945, 182 Cal. Rptr. at 328.

[FN100]. 22 Cal. 3d 208, 219, 245-246, 583 P.2d 1281, 1283, 1300-01, 149 Cal. Rptr. 239, 241 257-58 (1978). The Amador court stated that constitutional initiatives must be "liberally construed" and that constitutional provisions and enactment must receive a "practical common-sense construction" which will meet "changed conditions and the growing needs of the people." Id.

[FN101]. Richmond, 31 Cal. 3d at 205, 643 P.2d at 945, 182 Cal. Rptr. at 328.

[FN102]. City and County of San Francisco v. Farrell, 32 Cal.3d 47, 56- 57, 648 P.2d 935, 940, 184 Cal. Rptr. 713, 718 (1982).

[FN103]. Id. at 51, 648 P.2d at 936, 184 Cal. Rptr. at 714. The measure in Farrell, which extended the operation of an ordinance providing for a 0.4% increase in the tax rate, was passed by 55% of city and county voters. Id. at 51, 648 P.2d at 936-37, 184 Cal. Rptr. at 714-15.

[FN104]. Id. at 51, 648 P.2d at 937, 184 Cal. Rptr. at 715.

[FN105]. Id.

[FN106]. Id. at 57, 648 P.2d at 940, 184 Cal. Rptr. at 718.

[FN107]. Id.

[FN108]. Id.

[FN109]. Henke, supra note 9, at 267-68. The Farrell court, like the court in Richmond, also had an opportunity to choose a broad interpretation of the ambiguous provision of Proposition 13 at issue. 32 Cal. 3d at 53-54, 648 P.2d at 938, 184 Cal. Rptr. at 716. If one regards the ad valorem property tax as the "regular" local tax, then the term "special" in section 4 can be understood to include all additional nonproperty taxes. Id. at 59, 648 P.2d at 941, 184 Cal. Rptr. at 719 (Kaus, J., dissenting). The defendant had argued that a "special tax" is an "extra, additional, or supplemental charge imposed . . . to raise money for public purposes." Id. at 53-54, 648 P.2d at 938, 184 Cal. Rptr. at 716.

[FN110]. Farrell, 32 Cal. 3d at 57, 648 P.2d at 940, 184 Cal. Rptr. at 718. The supreme court's interpretation of the meaning of "special taxes" in Farrell is especially significant in light of an earlier decision, Trent Meredith, Inc. v. City of Oxnard, 114 Cal. App. 3d 317, 170 Cal. Rptr. 685 (1981). In Trent Meredith, although the Court of Appeal for the Second District did not attempt to define the meaning of "special taxes" in section 4, the court did express concern that if the term were defined as taxes collected and earmarked for a special purpose, local governments could easily avoid Proposition 13 by depositing their nonproperty tax proceeds in the general fund. Id. at 323, 170 Cal. Rptr. at 688. The Farrell majority did not address the court of appeal's concern, which was echoed in the dissenting opinions to Farrell. Farrell, 32 Cal. 3d at 58, 648 P.2d at 941, 184 Cal. Rptr. at 719 (Richardson and Kaus, JJ., dissenting).

[FN111]. Henke, supra note 9, at 276.

[FN112]. Farrell, 32 Cal. 3d at 57, 648 P.2d at 940, 184 Cal. Rptr. at 718.

[FN113]. See 1986 Cal. Stat. prop. 62, codified at CAL. GOV'T CODE §§ 53720-53730 (West Supp. 1991) (codifying Initiative 62). Proposition 62 requires that a local governmental or district governing body approve by two- thirds vote the imposition of a general fund tax. Id. § 53722. Although the proposition also requires electorate approval to levy a general fund tax, only a simple majority is necessary. Id. § 53723.

[FN114]. See supra notes 19-25 and accompanying text (discussing the historical background and purposes of Proposition 13).

[FN115]. CAL. CONST. art. XIIIA § 1(a).

[FN116]. See supra notes 70-78 and accompanying text (discussing the Heckendorn decision, defining "ad valorem tax").

[FN117]. See supra notes 79-101 and accompanying text (discussing the Richmond decision, interpreting the application of the two-thirds voter majority requirement).

[FN118]. See supra notes 42-47 and accompanying text (discussing the restrictions of section 4). The California Constitution does permit increases in ad valorem taxes on real property above the 1% limit to pay interest and redemption charges on indebtedness for the acquisition or improvement of real property. CAL. CONST. art. XIIIA § 1(b).

[FN119]. See Amador Valley Joint Union High School Dist. v. State Board of Equalization, 22 Cal. 208, 219, 248, 583 P.2d 1281, 1283, 1302, 149 Cal. Rptr. 239, 241, 259 (1978) (holding Proposition 13 to be a valid constitutional amendment).

[FN120]. See CAL. CONST. art. XIIIA §§ 1-6 (West Supp. 1991) (using term "tax" rather than another descriptive term such as "levy" or "assessment").

[FN121]. See generally Henke, supra note 9 (discussing the effect of Proposition 13 on existing local government revenue sources).

[FN122]. Solvang Mun. Improvement Dist. v. Board of Supervisors, 112 Cal. App. 3d 545, 552, 169 Cal. Rptr. 391, 395 (1980).

[FN123]. Russ Bldg. Partnership v. City and County of San Francisco, 44 Cal. 3d 839, 848, 750 P.2d 324, 329, 244 Cal. Rptr. 682, 687 (1988) (citing Dawson v. Town of Los Altos Hills, 16 Cal. 3d 676, 683, 547 P.2d 1377, 1381, 129 Cal. Rptr. 97, 101 (1976). See generally CAL. STS. & HIGH. CODE §§ 5000- 6794 (West 1969 & Supp. 1991) (Improvement Act of 1911); id. §§ 10000-10706 (West 1969 & Supp. 1991) (Municipal Improvements Act of 1913).

[FN124]. Solvang, 112 Cal. App. 3d at 553, 169 Cal. Rptr. at 395.

[FN125]. Id. at 552, 169 Cal. Rptr. 395.

[FN126]. Id. The Solvang court stated that "[t]he general public should not be required to pay for special benefits for the few, and the few specially benefitted should not be subsidized by the general public." Id.

[FN127]. Russ Bldg., 44 Cal. 3d at 849, 750 P.2d at 329, 244 Cal. Rptr. at 687.

[FN128]. Southern Cal. Rapid Transit Dist. v. Bolen, 219 Cal. App. 3d 1446, 1466, 269 Cal. Rptr. 147, 159 (1990). In Bolen, the court stated that neither property owners nor nonproperty owners in a proposed district had a constitutional right to vote on the formation of an assessment district. Id. at 1463, 269 Cal. Rptr. at 157-58. However, the court noted that if the right to vote is conferred, the election must comply with equal protection requirements. Id. at 1464, 269 Cal. Rptr. at 158. Despite the lack of a constitutional right to vote on the imposition of an improvement assessment, interested parties are not completely foreclosed from challenging the proposed assessment. Dawson v. Town of Los Altos Hills, 16 Cal. 3d 676, 683 n.4, 547 P.2d 1377, 1381 n.4, 129 Cal. Rptr. 97, 101 n.4 (1976). The local rulemaking body must afford such parties a hearing at which the parties may question any aspect of the proposed improvement, assessment, or district. Id. A majority of affected property owners protesting the proposed improvement can generally block the formation of a district, subject to a four-fifths majority override by the local rulemaking body. Id. Failure to follow proper procedure for asserting a challenges to a proposed assessment may preclude later litigation of the matter. See City of Larkspur v. Marin County Flood Control & Water Conservation Dist., 168 Cal. App. 3d 947, 956-58, 214 Cal. Rptr. 689, 695-97 (1985) (town did not object

at special hearing, which was exclusive procedure for asserting lack of benefit).

[FN129]. Dawson v. Town of Los Altos Hills, 16 Cal. 3d, 676, 683, 547 P.2d 1377, 1381, 129 Cal. Rptr. 97, 101 (1976).

[FN130]. Id. See Bryant v. Comm'r of Internal Revenue, 111 F.2d 9, 14 (9th Cir. 1940) (stating that a city derives its power to levy and collect special assessments from its power of taxation). See also CAL. CONST. art. XI § 7 (homerule taxing authority provision for counties and cities). A distinction should be made between general law cities and counties and charter cities. See supra note 3 (discussing the legal structure of local government in California). Local general law governments may impose special assessments only if specifically authorized by the state legislature. ASSEMBLY RESEARCH REPORT, supra note 3, at 247. However, charter cities are authorized to impose special assessments without legislative approval pursuant to the California Constitution. Id.

[FN131]. Solvang Mun. Improvement Dist. v. Board of Supervisors, 112 Cal. App. 3d 545, 553, 169 Cal. Rptr. 381, 396 (1980). See Northwestern Mut. Life Ins. Co. v. State Board of Equalization, 73 Cal. App. 2d 548, 552, 166 P.2d 917, 920 (1946) (enumerating the significant differences between a special assessment and a tax).

[FN132]. Spring Street Co. v. City of Los Angeles, 170 Cal. 24, 29, 148 P. 217, 219 (1915). See Solvang, 112 Cal. App. 3d at 553, 169 Cal. Rptr. at 396 ("a special assessment is not a tax at all, but a benefit to specific real property financed through the use of public credit"). Property owners may pay for the special assessments either in cash or, at their option, by installments over a period of time. County of Fresno v. Malmstrom, 94 Cal. App. 3d 974, 978, 156 Cal. Rptr. 777, 779 (1979).

[FN133]. See, e.g., CAL. STS. & HIGH. CODE §§ 5000-6794 (West 1969 & Supp. 1991) (Improvement Act of 1911); id. §§ 8500-8851 (West 1969 & Supp. 1991) (Municipal Bond Act of 1915); id. §§ 10000-10706 (West 1969 & Supp. 1991) (Municipal Improvement Act of 1913).

[FN134]. Malmstrom, 94 Cal. App. 3d at 978, 156 Cal. Rptr. 779. Examples of public improvements are, streets, sidewalks, sewers, water systems, and lighting and public utility lines. Id.

[FN135]. Comment, supra note 24, at 797. In 1978-79, special assessments amounted to $36 million. Id. at 797, n.88. In 1979-80, that amount jumped to $98 million, an increase of almost 175%. Id.

[FN136]. 94 Cal. App. 3d 974, 156 Cal. Rptr. 777 (1979).

[FN137]. Id. at 977, 156 Cal. Rptr. at 778-79. Assessment proceedings were initiated by the Fresno County Board of Supervisors pursuant to Streets and Highways Code sections 10000 through 10600, the Municipal Improvement Act of 1913. Id.

[FN138]. Id. at 977-78, 156 Cal. Rptr. at 779. The defendant's argument that the assessment was unconstitutional was two-fold. First, the defendant contended that the assessment would result in a levy which exceeded the 1% limit of section 1 of Proposition 13. Id. Second, the defendant contended that the assessment constituted a "special tax" which had not been approved by a two-thirds vote of qualified electors under section 4 of the amendment. Id.

[FN139]. Id. at 986, 156 Cal. Rptr. at 784.

[FN140]. A later case, County of Placer v. Corin, resolved the related issue of whether Proposition 4, the enactment limiting state and local government appropriations and spending, applied to special assessments. 113 Cal. App. 3d 443, 170 Cal. Rptr. 232 (1980). See CAL. CONST. art. XIIIB §§ 1-12 (West Supp. 1991), for full text of Proposition 4. The Court of Appeal for the Third District held that the spending limitation of Article XIIIB did not apply to proceeds derived from special assessments. Corin, 113 Cal. App. at 449, 170 Cal. Rptr. at 236.

[FN141]. Malmstrom, 94 Cal. App. 3d at 981-82, 156 Cal. Rptr. at 781-82.

[FN142]. Id. at 980-81, 156 Cal. Rptr. at 780-81.

[FN143]. Id. at 983-85, 156 Cal. Rptr. at 782-83. Accord, Trent Meredith, Inc. v. City of Oxnard, 114 Cal. App. 3d 317, 170 Cal. Rptr. 685 (1981). In Trent, the Second District Court of Appeal agreed with the Fifth District's conclusion in Malmstrom that Proposition 13 did not affect special assessments because they were not taxes, special or otherwise. Id. at 323, 170 Cal. Rptr. at 688. Because Proposition 13 was inapplicable to special assessments, the Second District rejected the plaintiff's argument that Malmstrom defined the term "special tax" as used in section 4 of the amendment and refused to render any definition of "special taxes" in the case. Id. at 323, 328, 170 Cal. Rptr. at 688, 691.

[FN144]. Malmstrom, 94 Cal. App. 3d at 984, 156 Cal. Rptr. at 783.

[FN145]. See, e.g., CAL. GOV'T CODE §§ 50078-50078.20 (West 1983 & Supp. 1991) (statutes authorizing local governments to impose police and fire special assessments); id. §§ 53970-53979 (West 1983 & Supp. 1991) (statutes authorizing local governments to impose police and fire protection special taxes). See generally Benefit Assessments: A Born Again Revenue Raiser, CAL- TAX RESEARCH BULL. 1-8 (1981) (reporting on new enabling legislation for special assessments and increased use of special assessments after Malmstrom).

[FN146]. 112 Cal. App. 3d 545, 169 Cal. Rptr. 391 (1980).

[FN147]. Id. at 548, 169 Cal. Rptr. at 393.

[FN148]. Id.

[FN149]. Id. at 548, 557, 169 Cal. Rptr. at 393, 398.

[FN150]. Id. at 557, 169 Cal. Rptr. at 398. Special assessments may be levied on a variety of bases, including fixed and variable, as well as ad valorem. Id.

[FN151]. Id.

[FN152]. See, e.g., id. at 557, 169 Cal. Rptr. at 398 ("levies to meet general expenses of the taxing entity and to construct facilities to serve the general public . . . may not be transformed from general ad valorem taxes to special assessments by a mere change in the name of the levy").

[FN153]. Henke, supra note 9, at 283-85.

[FN154]. 157 Cal. App. 3d 745, 203 Cal. Rptr. 580 (1984).

[FN155]. Id. at 749-50, 203 Cal. Rptr. at 582-83. In the early 1960's, San Diego had created a general plan to develop land in "planned urbanizing areas," which included developing and new communities. Id. at 749-50, 203 Cal. Rptr. at 582. The J.W. Jones decision concerned the planned urbanizing area of North University City. Id. at 749, 203 Cal. Rptr. at 582. To finance the construction of public facilities within North University City, San Diego enacted an ordinance which authorized the city council to designate lands to be benefitted by public improvements and apportion the costs of the improvements among the parcels. Id. The ordinance conditioned the issuance of building permits upon the payment of "facility benefit assessments," and gave the city a lien on the benefitted parcels until the FBA were paid. Id.

[FN156]. Id. at 749, 203 Cal. Rptr. at 583.

[FN157]. Id. at 756, 203 Cal. Rptr. at 588. Jones contented that some of the public facilities financed by the assessments were remote and therefore only indirectly benefitted the assessed parcels. Id.

[FN158]. Id. at 756-57, 203 Cal. Rptr. at 588-89. Jones argued that only owners of undeveloped property were required to bear the burden of paying for public facilities while owners of both undeveloped and developed properties derived benefit from the new facilities. Id.

[FN159]. Id. at 758, 203 Cal. Rptr. at 589.

[FN160]. Id. at 755, 203 Cal. Rptr. at 587. The J.W. Jones court stated that San Diego's ordinance and assessments were "distant cousins" to traditional public work financing arrangements, since the times for commencing and completing the public facilities were not fixed but rather were subject to adjustment depending on growth needs and economic conditions. Id. The court noted that San Diego's assessments were also unique in that they were apportioned amongst the parcels according to the number of "net equivalent dwelling units" attributable to each parcel at its highest potential development under current zoning, rather than on a front or square footage or ad valorem basis, as are traditional assessments. Id.

[FN161]. Id.

[FN162]. Id. at 757, 203 Cal. Rptr. at 588. The court in J.W. Jones stated, "The levy on undeveloped properties only has a reasonable basis. The incidental fallout of benefit to developed parcels does not result in such equality as to offend equal protection concepts." Id.

[FN163]. Id. at 757-58, 203 Cal. Rptr. at 588-89. The court found that the assessment system was the key to implementing San Diego's controlled growth plan, without which future growth would be jeopardized. Id. The court also noted that the assessment scheme was reasonable and valid, stating that "narrow strictures of general law concepts of financing public utilities . . . do not accommodate the dynamics of explosive growth in sunbelt cities." Id. at 756, 203 Cal. Rptr. at 589.

[FN164]. 157 Cal. App. 3d 759, 203 Cal. Rptr. 797 (1984).

[FN165]. The FBA system in Holodnak authorized San Diego to designate areas of benefit in the city's new North City West community to be assessed for public improvements and to apportion costs among according to benefit received. Id. at 761, 203 Cal. Rptr. at 798. The public facilities to be financed by the assessment system included water lines, community parks, a library, a park and ride facility, a fire station, and widening of a bridge. Id.

[FN166]. Id. at 762, 203 Cal. Rptr. at 799. The court adopted portions of the J.W. Jones opinion as it addressed the contentions raised in Holodnak. Id. The court also made its own findings of special benefit to North City West conferred by special facilities financed by the FBA, and stated that San Diego's determination of special benefit was both supported by the record and conclusive. Id. at 762-63, 203 Cal. Rptr. at 799.

[FN167]. J.W. Jones, 157 Cal. App. 3d at 758, 203 Cal. Rptr. at 589. Specifically, the J.W. Jones court stated: "The vision of San Diego's future as sketched in the general plan is attainable only through the comprehensive financing scheme contemplated by the FBA. We view the precedents of yesterday's case law, not as barriers to growth, but as the guidelines to accomplish the needs of tomorrow." Id. The most questionable improvements financed by the FBA in Holodnak, the park and ride facility and bridge widening, were easily approved by the court. Holodnak, 157 Cal. App. at 763, 203 Cal. Rptr. at 799. The court found benefit to the assessed properties conferred by the park and ride facility, stating that the properties would benefit from a decrease in traffic and pollution, even though the facility was open to everyone. Id. Likewise, the court found that the assessed properties would be benefitted by widening of a bridge spanning the city's major interstate highway since ingress and egress to the new development would be expanded. Id.

[FN168]. See American River Flood Control Dist. v. Sayre, 136 Cal. App. 3d 342, 356, 186 Cal. Rptr. 202, 207 (1982) (special assessment for operating and maintenance costs of flood control district held valid).

[FN169]. See City Council of the City of San Jose v. South, 146 Cal. App. 3d 320, 332 335, 194 Cal. Rptr. 110, 118, 120 (1983) (special assessment for maintenance of landscaped median islands and their appurtenant areas held valid).

[FN170]. ASSEMBLY RESEARCH REPORT, supra note 3, at 251.

[FN171]. Local general law governments may impose special assessments only if specifically authorized by the state legislature. ASSEMBLY RESEARCH REPORT, supra note 3, at 247. See supra note 3 (discussing the legal structure of local government in California).

[FN172]. ASSEMBLY RESEARCH REPORT, supra note 3, at 251; Benefit Assessments: A Born Again Revenue Raiser, CAL-TAX RESEARCH BULL. 1-8 (1981).

[FN173]. See CAL. GOV'T CODE §§ 50078-50078.20 (West 1983 & Supp. 1991) (statutes authorizing local governments to impose police and fire special assessments).

[FN174]. See CAL. GOV'T CODE § 54710.5 (West Supp. 1991) (statute authorizing local governments to impose assessments for flood control services).

[FN175]. See id. (statute authorizing local governments to impose assessments for drainage and water management services).

[FN176]. See CAL. STS. & HIGH. CODE § 18165 (West Supp. 1991) (statute authorizing cities to impose assessments for street lighting).

[FN177]. See Dawson v. Town of Los Altos Hills, 16 Cal. 3d 676, 684, 547 P.2d 1377, 1382, 129 Cal. Rptr. 97, 102 (1976) (stating that "the scope of judicial review of such actions is quite narrow . . ."). In Dawson, the supreme court indicated that the local rulemaking body "is the ultimate authority which is empowered to finally determine what lands are benefitted and what amount of benefits shall be assessed against the several parcels benefitted. . . . [Special assessments are] of a particularly legislative character, and the appropriate scope of review is firmly rooted in that consideration." Id. at 684-85, 547 P.2d at 1382, 129 Cal. Rptr. at 102.

[FN178]. See supra notes 122-132 and accompanying text (defining "special assessment").

[FN179]. See, e.g., White v. County of San Diego, 26 Cal. 3d 897, 904, 608 P.2d 728, 731, 163 Cal. Rptr. 640, 644 (1980). In White, the supreme court stated that a special assessment will not be set aside unless the "absence of benefit clearly appears from the record," and that the local government's "determination of benefit is conclusive." Id. See supra notes 127- 130 and accompanying text (discussing homerule taxing authority of counties and cities and legislative enactments authorizing the imposition of special assessments and the formation of assessments districts).

[FN180]. But see Harrison v. Board of Supervisors, 44 Cal. App. 3d 852, 858, 118 Cal. Rptr. 828, 831-32 (1975) (property not benefitted from storm sewers). Cf. City of Sacramento v. Drew, 207 Cal. App. 3d 1287, 1294, 255 Cal. Rptr. 704, 708 (1989) (public schools were not "of a local nature" within the meaning of the Municipal Improvement Act of 1913).

[FN181]. See, e.g., CALIFORNIA COMM'N ON GOV'T REFORM, FINAL REPORT 118 (Jan. 1979) (listing numerous new or increased county license, permit, and service fees in the year following the approval of Proposition 13).

[FN182]. ASSEMBLY RESEARCH REPORT, supra note 3, at 250.

[FN183]. See Mills v. County of Trinity, 108 Cal. App. 3d 656, 660, 166 Cal. Rptr. 674, 678 (1980) ("In narrower contexts, the word [tax] has been construed to exclude charges to particular individuals which do not exceed the value of the governmental benefit conferred upon or the services rendered to the individuals . . .").

[FN184]. Ordinarily, governmental fees are levied upon individuals and business entities. See generally, Bauman & Ethier, Development Exactions and Impact Fees: A Survey of American Practices, 50 L. CONTEMP. PROB. 51 (1987), for a thorough discussion of governmental fees and the issues raised by use of such fees.

[FN185]. CAL. CONST. art. XIIIA §§ 1-6 (West Supp. 1991) (using the term "tax" rather than another descriptive term, such as "levy," "charge," or "fee").

[FN186]. User fees have increased from $2,817 million in fiscal year 1971-72 to $11,135 million in fiscal year 1982-83, an increase of 295 percent. ASSEMBLY RESEARCH REPORT, supra note 3, at 252. In fiscal year 1982-83, user fees accounted for almost 41% of all city revenues and 19% of all county revenues. Id. at 256.

[FN187]. See, e.g., Alamo Rent-A-Car, Inc. v. Board of Supervisors, 221 Cal.App.3d 198, 205-06, 272 Cal. Rptr. 19, 24 (1990) (airport access fee upheld); Bixel Assoc. v. City of Los Angeles, 216 Cal. App. 3d 1208, 1220, 265 Cal. Rptr. 347, 355 (1989) (fire hydrant fee struck down); San Diego Gas & Elec. Co. v. San Diego County Air Pollution Control Dist., 203 Cal. App. 3d 1132, 1135, 250 Cal. Rptr. 420, 421 (1988) (pollution permit fee upheld); Beaumont Investors V. Beaumont-Cherry Valley Water Dist., 165 Cal. App. 3d 227, 238, 211 Cal. Rptr. 567, 573 (1985) (water connection fee struck down); Trent Meredith, Inc. v. City of Oxnard, 114 Cal. App. 3d 317, 325, 170 Cal. Rptr. 685, 689 (1981) (school impact fee upheld); Mills v. County of Trinity, 108 Cal. App. 3d 656, 663, 166 Cal. Rptr. 674, 678 (1980) (new and increased fees for county services upheld).

[FN188]. Bauman & Ethier, supra note 184, at 54.

[FN189]. Id.

[FN190]. Id.

[FN191]. Id.

[FN192]. See CAL. CONST. art. XI § 7 (West Supp. 1991) (homerule taxing authority provision for counties and cities).

[FN193]. Bauman & Ethier, supra note 184, at 54.

[FN194]. CAL. GOV'T CODE §§ 50075-50076 (West Supp. 1991). See Beaumont Investors v. Beaumont-Cherry Valley Water Dist., 165 Cal. App. 227, 234, 211 Cal. Rptr. 567, 570 (1985) (discussing sections 50075 and 50076 of the Government Code).

[FN195]. Bauman & Ethier, supra note 184, at 54.

[FN196]. See supra note 187, for a list of cases involving the use of governmental regulatory and service fees.

[FN197]. 108 Cal. App. 3d 656, 166 Cal. Rptr. 674 (1980). The issue of whether Proposition 4, the enactment limiting government appropriations and spending, applied to governmental fees was discussed in Trend Homes, Inc. v. Central Unified School District, 220 Cal. App. 3d 102, 269 Cal. Rptr. 349 (1990). See CAL. CONST. art. XIIIB §§ 1-12 (West Supp. 1991), for the full text of Proposition 13. In Trend Homes, the Fifth District Court of Appeal held that if a fee is not a special tax within the meaning of Article XIIIA, Proposition 4 is not applicable. Id. at 115, 269 Cal. Rptr. at 356.

[FN198]. Mills, 108 Cal. App. 3d at 658, 166 Cal. Rptr. at 675.

[FN199]. Id. at 658-59, 166 Cal. Rptr. at 675. See CAL. CONST. art. XIIIA § 4 (West Supp. 1991) (provision restricting the imposition of special taxes).

[FN200]. Id. at 663, 166 Cal. Rptr. at 678. See Alamo Rent-A-Car, Inc. v. Board of Supervisors, 221 Cal. App. 3d 198, 208, 272 Cal. Rptr. 19, 25 (1990) (stating that governmental regulatory fees should be comprised of a "fair and reasonable" approximation of the overall benefit derived from the activity being regulated).

[FN201]. The Mills court utilized the rules of construction used to interpret constitutional provisions expressed in Amador Valley Joint Union High School Dist. v. State Board of Equalization, 22 Cal. 3d 208, 244-45, 583 P.2d 1281, 1300, 149 Cal. Rptr. 239, 258 (1978), which requires the court to interpret enactments so as to give full effect to the framers' objectives. Mills, 108 Cal. App. 3d at 659, 166 Cal. Rptr. at 676.

[FN202]. Id. at 660, 166 Cal. Rptr. at 676. The trial court in Mills had construed the term "tax" broadly to include "all charges, however labeled, which are to exact money for the support of government or for public purposes." Id. The court of appeal rejected this construction since such an interpretation would render a county powerless to raise charges for proprietary functions. Id. The court reasoned that such a "draconian result" was probably never intended by the electorate. Id.

[FN203]. 114 Cal. App. 3d 317, 170 Cal. Rptr, 685 (1981).

[FN204]. Id. at 321, 170 Cal. Rptr. at 687.

[FN205]. Id. at 321, 170 Cal. Rptr. at 687. The ordinance had been enacted by the City of Oxnard without voter approval, and the plaintiff claimed that it thus violated the two-thirds voter majority approval requirement of section 4.

[FN206]. Id. at 328, 170 Cal. Rptr. at 691.

[FN207]. Id. at 325, 170 Cal. Rptr. at 689. The Trent court reasoned that the development requirements imposed by the city were not ad valorem taxes because the requirements were "not imposed upon the land in the subdivision as such but [are] imposed on the privilege of subdividing land." Id.

[FN208]. Id. at 325-28, 170 Cal. Rptr. at 698-91.

[FN209]. Id. at 325-28, 170 Cal. Rptr. at 689-91.

[FN210]. 206 Cal. App. 3d 212, 253 Cal. Rptr. 497 (1988).

[FN211]. Id. at 220, 253 Cal. Rptr. at 500.

[FN212]. Id. at 226, 253 Cal. Rptr. at 504.

[FN213]. City and County of San Francisco v. Farrell, 32 Cal. 3d 47, 57, 648 P.2d 935, 940, 184 Cal. Rptr. 713, 718 (1982). See supra notes 102-113 and accompanying text (discussing the Farrell decision).

[FN214]. California Bldg., 206 Cal. App. 3d at 235, 253 Cal. Rptr. at 510-11.

[FN215]. Id. at 237, 253 Cal. Rptr. at 511. To support its conclusion that the school district's levies constituted development fees rather than special taxes, the court in California Bldg. stated that development fees are distinguishable from taxes because fees are voluntary, whereas taxes are compulsory. Id. at 236, 253 Cal. Rptr. at 510. The court also noted that development fees, unlike "special taxes" under section 4, are not intended to replace lost property tax revenues. Id. at 236, 253 Cal. Rptr. at 511.

[FN216]. Id. at 233, 253 Cal. Rptr. at 509. The defendants were required to comply with the financial limitations of California Government Code sections 53080 and 65995 because school districts have no independent taxing authority under the California Constitution. Id. The school districts' authority to impose development fees derived solely from legislative enactments since, as the court held, section 4 of Proposition 13 was not a self- executing grant of taxing authority. Id. at 226-33, 253 Cal. Rptr. at 504- 08.

[FN217]. 165 Cal. App. 3d 227, 211 Cal. Rptr. 567 (1985).

[FN218]. Id. at 230, 211 Cal. Rptr. at 568. In Beaumont, defendant water district charged the plaintiff developer a $750 per unit facilities fee to help pay for the construction of new water systems facilities necessitated by development. Id. at 231, 211 Cal. Rptr. at 568. The developer then brought suit, contending that the fee fell within the purview of section 4 of Proposition 13, which requires a two-thirds majority vote approval before a new special tax may be imposed. Id. at 232, 211 Cal. Rptr. at 569.

[FN219]. Id. at 238, 211 Cal. Rptr. at 573. The court in Beaumont explained that in order for a governmental fee to be exempt from Proposition 13, the fee must reasonably relate to the cost of the service for which it is imposed. Id. at 234, 211 Cal. Rptr. at 570. See CAL. GOV'T CODE §§ 50075- 50076 (West Supp. 1991) (authorizing cities, counties, and special districts to impose special taxes and specifically excluding from the definition of "special tax" any fee "which does not exceed the reasonable cost of providing the service or regulatory activity for which the fee is charged and which is not levied for general revenue purposes").

[FN220]. Beaumont, 165 Cal. App. 3d at 238, 211 Cal. Rptr. at 573.

[FN221]. Id. at 235, 211 Cal. Rptr. at 571 (quoting Amador Valley Joint Union High School Dist. v. State Board of Equalization, 22 Cal. 3d 208, 248, 583 P.2d 1281, 1301, 149 Cal. Rptr. 239, 259 (1978)).

[FN222]. Beaumont, 165 Cal. App. 3d at 235-38, 211 Cal. Rptr. at 571-73. The court distinguished a factually similar special assessment case, J.W. Jones Cos. v. Holodnak, 157 Cal. App. 3d 745, 403 Cal. Rptr. 580 (1984), stating that in J.W. Jones the City of San Diego had worked up a detailed and sophisticated study and plan before imposing development charges, whereas the Beaumont Water District had not made an informed decision. Id. at 236-38, 211 Cal. Rptr. at 271-73.

[FN223]. 203 Cal. App. 3d 1132, 250 Cal. Rptr. 420 (1988). SDG & E involved a challenge to a county air pollution control district's method of apportioning costs of permit programs among agencies required to obtain operating permits. Id. at 1135, 250 Cal. Rptr. at 421. The court held that the district could properly recover actual costs of operation by apportioning them among all monitored polluting agencies based on an emissions fee schedule. Id. at 1148-49, 250 Cal. Rptr. at 430-31.

[FN224]. Id. at 1146, 250 Cal. Rptr. at 429.

[FN225]. Id. at 1147-48, 250 Cal. Rptr. at 430.

[FN226]. Id. at 1148-49, 250 Cal. Rptr. at 430.

[FN227]. 216 Cal. App. 3d 1208, 265 Cal. Rptr. 347 (1989). Bixel involved an ordinance which specified that fees collected from developers were to be deposited into a "Fire Hydrant Installation and Main Replacement Fund" to finance the cost of initial installation and upgrades of fire hydrants and the improvements or replacements of existing water mains. Id. at 1214, 265 Cal. Rptr. at 350.

[FN228]. Id. at 1219-20, 265 Cal. Rptr. at 354-55.

[FN229]. Id. at 1220, 265 Cal. Rptr. at 358.

[FN230]. In Russ Bldg. Partnership v. City and County of San Francisco, 44 Cal. 3d 839, 750 P.2d 324, 244 Cal. Rptr. 682 (1988), the supreme court did address a related issue. In Russ Bldg., plaintiff developers challenged the retroactive application of a transit fee ordinance to new office buildings. Id. at 845, 750 P.2d at 326, 244 Cal. Rptr. at 685. The court held that the fee did not impair the developers' vested rights, even though the developers had been issued building permits, had begun construction, and had made a substantial financial commitment to their projects almost two years before the ordinance was enacted. Id. at 846, 750 P.2d at 327, 244 Cal. Rptr. at 685.

[FN231]. See supra notes 196-233 and accompanying text (discussing court decisions reaching differing conclusions as to the validity of certain governmental fees after Proposition 13).

[FN232]. See supra notes 196-233 and accompanying text (discussing court decisions reaching differing conclusions based on differing rationales).

[FN233]. Compare Mills v. County of Trinity, 108 Cal. App. 3d 656, 660, 166 Cal. Rptr. 674, 676 (3d Dist. 1980) (court chose to interpret special tax provision of Proposition 13 narrowly and upheld regulatory fees, stating that

Proposition 13 was not intended to put local governments in a "fiscal straitjacket") with Bixel Assoc. v. City of Los Angeles, 261 Cal. App. 3d 1208, 1220, 265 Cal. Rptr. 347, 355 (2d Dist. 1988) (court struck down development fees and refused to hear policy arguments in support thereof, stating that the case was not about the "obvious need for funding by [Los Angeles] of sophisticated fire protection in the post-Proposition 13 era").

[FN234]. See Amador Valley Joint Union High School Dist. v. State Board of Equalization, 22 Cal. 3d 208, 219, 249, 583 P.2d 1281, 1283, 1302, 149 Cal. Rptr. 239, 241, 259 (1978) (upholding the validity of Proposition 13).

[FN235]. See supra notes 64-119 and accompanying text (discussing relevant Proposition 13 court decisions).

[FN236]. See generally Glennon, Taxation and Equal Protection, 58 GEO. WASH. L. REV. 261, 293 (1989) (discussing the constitutionality of Proposition 13 after the Supreme Court of the United States' decision in Allegheny Pittsburgh Coal Co. v. County Comm'n, 109 S.Ct. 633 (1989)).

[FN237]. 109 S.Ct. 633 (1989).

[FN238]. Id. at 637.

[FN239]. In Webster County, an appraisal of value was made each time property ownership changed. Id. at 635. The appraisal value was the sales price of property, determined by the declared consideration in the deed of the property. Id.

[FN240]. Id. at 635-37.

[FN241]. Id. at 637.

[FN242]. Id. at 637-39.

[FN243]. Id. at 638.

[FN244]. Id. at 638-39.

[FN245]. Id. at 638 n.4. Specifically, the Court stated:

We need not and do not decide today whether the Webster County assessment method would stand on a different footing if it were the law of a State, generally applied, instead of the aberrational enforcement policy it appears to be. [Proposition 13] is grounded on the belief that taxes should be based on the original cost of property and should not tax unrealized paper gains in the value of the property.

Id. See Glennon, supra note 236, at 301 (discussing the probability of success of an equal protection challenge to Proposition 13 and stating that a court could distinguish Allegheny if California government authorities came forward with a legitimate state interest justifying its policy of appraisal).

[FN246]. Glennon, supra note 236, at 294.

[FN247]. See ASSEMBLY RESEARCH REPORT, supra note 3, at 26-33 (discussing challenges to Proposition 13 filed after the decision in Allegheny).

[FN248]. See, e.g., City of Rancho Cucamonga v. Mackzum, 279 Cal. Rptr. 220 (Ct. App. 4th Dist. Mar. 20, 1991) (No. E007876) (claim that legislation implementing Proposition 13 violates equal protection of the laws struck down); R.H. Macy Co. v. Contra Costa County, 226 Cal. App. 3d 352, 357, 370, 276 Cal. Rptr. 530, 533, 541 (1991) (claim that change in ownership provision of Proposition 13 violates the equal protection, right to travel, and interstate commerce clauses of the United States Constitution struck down); Nordlinger v. Lynch, 225 Cal. App. 3d 1259, 1265, 1282, 275 Cal. Rptr. 684, 686, 698 (1991) (claim that acquisition value assessment method of Proposition 13 is unconstitutional after the Allegheny decision struck down).

[FN249]. See supra notes 64-119 and accompanying text (discussing relevant Proposition 13 court decisions).

[FN250]. Amador Valley Joint Union High School Dist. v. State Board of Equalization, 22 Cal. 3d 208, 245, 583 P.2d 1281, 1301, 149 Cal. Rptr. 239, 257 (1978).

[FN251]. See Kroll, supra note 9, at 29.

[FN252]. See id. at 29-31 (describing the loopholes of Proposition 13 and the ability of local governments to find ways around the amemdment's tax limitations).

[FN253]. Id. at 29. Because the courts have narrowly interpreted all disputed sections of the measure, the impact of Proposition 13 on local governments is much less severe than expected. Id. The response of the courts led Proposition 13 co-author Howard Jarvis to state, "The court doesn't know what a tax is." Id.

[FN254]. See supra notes 120-233 and accompanying text (discussing court decisions impacting the use and effectiveness of nontaxing sources of revenue).

[FN255]. See supra notes 120-180 and accompanying text (discussing the effect of court decisions broadening the use of special assessments).

[FN256]. See supra notes 181-233 and accompanying text (discussing the use and effectiveness of governmental fees to generate revenues).

[FN257]. See generally Bauman & Ethier, supra note 184, for a complete analysis of the use of governmental fees on geographical and purpose bases.

[FN258]. Kroll, supra note 9, at 28.

[FN259]. Mills v. County of Trinity, 108 Cal. App. 3d 656, 660, 166 Cal. Rptr. 674, 676 (1980).

[FN260]. See supra notes 250-253 and accompanying text (describing the role of California courts in shaping Proposition 13).

NOTICE OF LODGING OF MATERIALS BY *AMICUS CURIAE* STATE BUILDING AND CONSTRUCTION TRADES COUNCIL OF CALIFORNIA, AFL-CIO

The State Building and Construction Trades Council of California, AFL-CIO (SBCTC) is lodging with the Commission on State Mandates the studies listed below. These studies are referred to in the SBCTC's accompanying submission to the Commission regarding the test claim of the Clovis Unified School District. The studies support the conclusion that state prevailing wage laws do not raise school construction costs.

1. Philips, Peter, Ph.D., A Comparison of Public School Construction Costs In Three Midwestern States That Have Changed Their Prevailing Wage Laws in the 1990s, February, 2001

   Summary: A study of public school construction costs in Kentucky, Ohio and Michigan over the period 1991-2000, found that the use of prevailing wages did not raise school construction costs by a statistically significant amount.

2. Prus, Mark, J., Ph.D., Prevailing Wage Laws and School Construction Costs: An Analysis of Public School Construction In Maryland and the Mid Atlantic States, January, 1999

   Summary: A study for the Prince George County's County City Council in Maryland compared school construction in three mid-Atlantic states (Delaware, Pennsylvania and West Virginia) with prevailing wages between 1991-1997 with two states (North Carolina and Virginia) that did not pay prevailing wages. The study found that the slight increase in costs for states with prevailing wages was statistically insignificant. Further, future savings in maintenance costs because of higher quality construction produced additional savings in prevailing wage states.

3. Bilginsoy and Philips, Prevailing Wage Regulations and School Construction Costs: Evidence from British Columbia, 24 Journal of Education Finance 415 (Winter 2000)

   Summary: Data from British Columbia shows no statistically significant increase in construction costs from a prevailing wage law.

4. Prus, Mark, J., Ph.D., The Effect of State Prevailing Wage Laws on Total Construction Costs, January, 1996

   Summary: Analysis of impact of state prevailing wage laws finds no significant impact on total construction costs.

REQUEST FOR LEAVE TO FILE RESPONSE TO TEST CLAIM

The State Building and Construction Trades Council of California, AFL-CIO ("SBCTC") respectfully requests leave to file this response to the test claim of the Clovis Unified School District. The test claim concerns California's prevailing wage law, Labor Code §1720 *et seq.* The prevailing wage law requires that contractors and subcontractors on construction projects paid for in whole or in part with public funds must pay their employees at least the wage rates determined by the Director of Industrial Relations to be prevailing for the same type of work in the same geographic area. The prevailing wage law, originally adopted in 1931, ensures that public works projects do not depress area labor standards.

The SBCTC is a federation of labor organizations comprising about 200 local unions and 20 district councils that collectively represent about 350,000 men and women working in the construction trades in California. These workers and their families have a significant interest in the protections provided by the prevailing wage law. That being so, the SBCTC regularly participates in legislative, administrative, and judicial proceedings that involve the prevailing wage law, and the SBCTC is familiar with the statutory and regulatory changes that are the subject of the test claim. The SBCTC believes that its response to the test claim will be of use to the Commission and will not delay the test claim proceedings.

RESPONSE TO TEST CLAIM BY *AMICUS CURIAE* STATE BUILDING AND CONSTRUCTION TRADES COUNCIL OF CALIFORNIA, AFL-CIO

INTRODUCTION

The test claim concerns the State's prevailing wage law, Labor Code §1720 *et seq.*, which requires contractors and subcontractors on construction projects paid for in whole or in part out of public funds to pay their employees wages at least equal to the wages prevailing for the same type of work in the locality. California has had a prevailing wage law for public construction projects, including local agency construction projects, since 1931. *See* Stats. 1931, ch. 397. The Clovis Unified School District ("claimant") asks the Commission to determine whether any of the amendments since 1975 to the prevailing wage law or to the law's implementing regulations impose an unfunded state mandate on school districts. In this response, we make three main points.

First, the central "mandate" imposed by the prevailing wage law is the requirement that private contractors and subcontractors on public work must pay prevailing wages to their employees. This is a labor standards requirement imposed on private employers, not local agencies. If the wages are not paid, the private employer, not the local agency, is liable for back wages and penalties. To be sure, there is an argument that if private contractors have higher labor costs, they may seek to pass some of those costs on to their customers. The California Constitution, however, does not entitle local agencies to reimbursement for the possible "pass-through" costs of labor standards legislation – even if such costs exist. The contractor's cost of paying higher hourly wages to workers on a project may well be offset by the increased skill and productivity of those workers. Several recent studies conclude that the prevailing wage law does

not actually increase total school construction costs, and the claimant has presented no evidence to the contrary.

Second, the prevailing wage law does impose minor direct costs on school districts to administer and enforce the law. But what has occurred since 1975 is the exact opposite of an unfunded state mandate. The State has taken upon itself responsibilities that were formerly borne by local agencies to determine prevailing wage rates and to enforce the prevailing wage law.

Finally, the claimant is correct that there has been some expansion in the definition of "public work" since 1975. That is, there is some work that would not have been subject to the prevailing wage law in 1975 that is subject to the prevailing wage law now. (However, many of the changes to the definition of "public work" cited by the claimant were actually just clarifications of the pre-1975 statutory language, not substantive changes in the law.) The claimant does not present evidence, however, that these minor changes have actually had any practical effect on school district construction projects. As previously stated, moreover, the obligation to pay prevailing wages is imposed on private employers not local agencies. Any added administrative costs to local agencies from the expanded definition of "public work" are more than offset by the State's assumption since 1975 of most of the administrative and enforcement responsibilities previously borne by local agencies.

For these reasons, the test claim should be denied.

ARGUMENT

I. AS A GENERAL MATTER, THE PREVAILING WAGE LAW IMPOSES A MANDATE ON PRIVATE EMPLOYERS NOT LOCAL AGENCIES.

The core requirement of the prevailing wage law is that contractors and subcontractors on construction projects "paid for in whole or in part out of public funds" (Labor Code §1720(a)) must pay their employees "not less than the general prevailing rate of per diem wages for work of

a similar character in the locality in which the public work is performed" (Labor Code §1771), and must maintain payroll records to show that this obligation has been met (Labor Code §1776). The prevailing wage law is a form of minimum labor standards legislation intended to protect construction workers. Labor Code §90.5(a), (b); *Lusardi Construction Co. v. Aubry* (1992) 1 Cal.4th 976. Employers on public work have a statutory obligation to pay prevailing wages regardless of whether the contract requires that prevailing wages be paid. *Lusardi Construction,* 1 Cal.4th at 986-88.

The obligation to pay prevailing wages does not apply to public employers. Labor Code §1771. Therefore, the prevailing wage requirement never operates as a mandate on local agencies. Local agencies are not liable if contractors and subcontractors fail to pay prevailing wages to their employees; instead, the contractors and subcontractors owe back wages to the employees and penalties to the local agency awarding the contract. Labor Code §1775(a); §1776(g).

It is not clear from the test claim whether the claimant seeks reimbursement from the State on the theory that requiring contractors and subcontractors on public work to pay prevailing wages operates as an "indirect" mandate on school districts by raising school construction costs. There is no authority for such a mandate claim under Article XIII B, §6 of the State Constitution. Under Government Code §17514, "[c]osts mandated by the state" means . . . increased costs which a local agency or school district *is required to incur*." (Emphasis supplied.) In this case, private contractors – not local agencies – are "required to incur" the costs of paying prevailing wages (assuming the contractors would not have paid prevailing wages anyway). There is no requirement that local agencies reimburse the private contractors for those costs.

Equally to the point, it is entirely speculative whether contractors' and subcontractors' costs of compliance with the prevailing wage law are passed through to school districts in the form of higher prices. Workers who are paid higher wages are also likely to be more skilled and productive. Such workers are also likely to suffer fewer workplace injuries, which reduces worker's compensation costs. Contractors who would use low-wage workers are also more likely to be irresponsible contractors in general, leading to problems completing the job in a timely manner and, often, to expensive litigation over the failure to perform work correctly. Labor costs are also only one component of the total costs of a construction project, and higher labor costs may be offset by changes in project specifications.

Indeed, recent studies by economists, which include several studies of school construction costs, have concluded that prevailing wage laws *do not result in increased construction costs.* We are lodging some of the relevant studies with the Commission under separate cover.

The impossibility of determining whether a mandate on private parties indirectly results in increased costs to local agencies, and in quantifying those costs, makes clear that Article XIII B, §6 the state Constitution is not concerned with mandates on private parties. If the costs of such mandates were relevant, the Commission would also have to consider the indirect benefits to local agencies of mandates on private parties. A prevailing wage law, for example, is likely to result in more employment for local workers and therefore to increased tax revenues to support local agencies; a prevailing wage law is also likely to result in increased support for school bond measures by labor organizations and others concerned with the creation of good jobs, and it may be that very bond money that makes the school construction project possible in the first place.

II. SINCE 1975, THE STATE HAS ASSUMED BURDENS OF ADMINISTERING AND ENFORCING THE PREVAILING WAGE LAW THAT WERE FORMERLY BORNE BY LOCAL AGENCIES.

The prevailing wage law does directly impose some minor administrative and enforcement costs on local agencies. What is puzzling about the filing of a test claim, however, is that the substantive changes to the prevailing wage law since 1975 have involved a transfer of administrative and enforcement responsibilities *from local agencies to the State*. Prevailing wage rates were once determined by local agencies; they are now determined by the State's Director of Industrial Relations. Local agencies once bore the bulk of the responsibility for enforcing the prevailing wage law; that responsibility now rests with the State's Labor Commissioner. Disputes about whether the prevailing wage law was violated were once resolved through expensive lawsuits in Superior Court between the contractor and the local agency; such disputes are now resolved through administrative proceedings before the state's Department of Industrial Relations, and the local agency need not even be a party to those proceedings.

The claimant sets out 21 administrative and enforcement tasks that it alleges to be new mandates imposed on local agencies since 1975. We address each one in turn and show that no new unfunded mandate was imposed.

Alleged Mandate No. 1

> "1) Pursuant to Labor Code Section 1773 and Title 8, California Code of Regulations, Section 16202, to obtain the applicable general prevailing rate of per diem wages from the Director of Industrial Relations before awarding a contract for public works." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 1

Prior to 1975, the awarding body (*i.e.*, the local agency contracting for a public work) was required to determine the applicable general prevailing rate of per diem wages through a

procedure set out by statute. *See* Test Claim at 9-10 n. 14 (quoting Labor Code §1770, as it read in 1974); Test Claim at 11-12 n. 17 (quoting Labor Code §1773, as it read in 1974). Under current law, the responsibility for determining prevailing wage rates rests with the Director of Industrial Relations. Labor Code §1773. The awarding body obtains the wage rates from the Director, a far less onerous task than having to determine them in the first place.

Thus, the State has actually assumed much of the burden previously borne by local agencies, the opposite of imposing a mandate.

Alleged Mandate No. 2

> "2) Pursuant to Title 8, California Code of Regulations, Section 16204, to ensure that the correct prevailing wage rates have been determined by the Director of Industrial Relations." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 2

Prior to 1975, the awarding body was required to determine the applicable general prevailing rate of per diem wages. *See* Response to Alleged Mandate No. 1, *supra*. This duty necessarily required local agencies to ensure that those rates were correct. The regulation cited, 8 C.C.R. §16204, deals with the effective date of the prevailing wage determinations issued by the Director. *See* 8 C.C.R. §16204(a). The only responsibility imposed on awarding bodies by this regulation is to obtain the correct determination (*i.e.*, a determination that is not outdated or has not yet become effective) from the Director. *See* 8 C.C.R. §16204 (a)(5). As explained in 8 C.C.R. §16204(a)(1)-(4), the Director's determinations have issue dates and expiration dates, so this is not difficult. The burden imposed on awarding bodies is far less onerous than the burden imposed on local agencies before 1975 to determine correct prevailing wage rates themselves. There is no new mandate.

Alleged Mandate No. 3

"3) Pursuant to Title 8, California Code of Regulations, Section 16001, to request from the Director of Industrial Relations a coverage determination regarding a specific project or type of work to be performed." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 3

Prior to 1975, there was no formal process for asking the Director of Industrial Relations for his or her determination whether a project is a public works project covered by the prevailing wage law. It was up to individual awarding bodies to make those determinations. The regulation cited, 8 C.C.R. §16001, sets out a procedure under which an interested party, including an awarding body, "may" file with the Director a request for a determination of whether a project is a public works project. 8 C.C.R. §16001(a)(1). There is no requirement that such a request be made, so there is no mandate imposed on local agencies.

Moreover, the ability to have the Director determine coverage shifts the burden from local agencies, who would previously have had to make such determinations, to the State. The awarding body's role in the coverage-determination process is minimal, consisting only of a duty to provide relevant documents to the Director that is imposed on all interested parties, not just the awarding body. *See* 8 C.C.R. §16001(a)(3). An awarding body determining coverage before 1975 would have had to obtain and analyze relevant documents to make its own determination; now it may simply forward them to the Director.

Alleged Mandate No. 4

"4) Pursuant to Title 8, California Code of Regulations, Section 16302, to file a petition for review of a determination of the Director of Industrial Relations of any rate or rates." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 4

Prior to 1975, the Director did not determine prevailing wage rates, so there was no process for reviewing the Director's determinations. *See* Response to Alleged Mandate No. 1, *supra*. The awarding body determined prevailing wage rates, and its determinations could be appealed to the Director. *See* Test Claim at 14-15 n. 21 (quoting Labor Code §1773.4, as it read in 1974). Under current law, an interested party "may" file a petition with the Director to review the Director's prevailing wage determination. Labor Code §1773.4; 8 C.C.R. §16302. There is no requirement that such a petition for review be filed.

Because filing a petition for review is optional, no mandate is imposed on local agencies. Moreover, the entire burden of determining prevailing wage rates has been shifted from local agencies, who no longer must defend their determinations, to the State.

Alleged Mandate No. 5

> "5) Pursuant to Labor Code Section 1773.4 and Title 8, California Code of Regulations, Section 16002.5, to appeal an incorrect determination made by the Director of Industrial Relations." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 5

Prior to 1975, there was no procedure for obtaining a determination from the Director of Industrial Relations as to whether a project is covered by the prevailing wage law (*see* Response to Alleged Mandate No. 3, *supra*), so there was no procedure for appealing such a determination. Under current law, an interested party "may" ask the Director to review his or her own determination as to whether a project is covered by the prevailing wage law. 8 C.C.R. §16002.5(a). Since this procedure is optional, it does not impose a mandate on local agencies.

Alleged Mandate No. 6.

"6) Pursuant to Labor Code Section 1773.2, to include a statement of prevailing rate of per diem wages in all calls and advertisements for bids, in the public works contract itself, and to post the statement at all job sites. In lieu of those requirements, the district may include a statement in the call for bids and contract a statement to the effect that copies of the prevailing rate of wages are on file in its principal office." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 6:

The same requirements existed prior to 1975. *See* Test Claim at 13 n. 19 (quoting Labor Code §1773.2, as it read in 1974); Test Claim at 16-17 n. 24 (quoting Labor Code §1773.8, as it read in 1974). Since the requirement existed in 1975, it is not a new mandate.

Alleged Mandate No. 7

"7) Pursuant to Labor Code Section 1771.1 and Title 8, California Code of Regulations, Section 16800 through 16802, to maintain records of ineligible contractors and subcontractors and to refuse to grant them public works projects of the district." [Test Claim, Item 2.]

SBCTC's Response to Alleged Mandate No. 7:

Neither the cited statute nor the cited regulations requires a local agency to take any actions when the Labor Commissioner debars a contractor or subcontractor. The Labor Commissioner, not the awarding body, keeps a list of debarred contractors and subcontractors. *See* 8 C.C.R. §16801(a)(2)(K). There is no mandate.

Alleged Mandate No. 8

"8) Pursuant to Labor Code Section 1773.3, to send copies of all awards to the Division of Apprenticeship Standards and notify the Division of any discrepancies." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 8

This requirement has not changed since 1975. *See* Test Claim at 14 n. 20 (quoting Labor Code §1773.3 as it read in 1974). There is no new mandate.

Alleged Mandate No. 9

9) Pursuant to Labor Code Section 1776, when necessary or requested by the Director of Industrial Relations, to inspect and audit payroll records of contractors and subcontractors working on district public works projects.

SBCTC's Response to Alleged Mandate No. 9

Labor Code §1776 does not impose a mandatory requirement that awarding bodies inspect or audit payroll records. The requirement that contractors and subcontractors on public work maintain payroll records that are available for inspection by the awarding body pre-dated 1975. *See* Test Claim at 19 n. 28 (quoting Labor Code §1776, as it read in 1975). There is no new mandate.

Alleged Mandate No. 10

"10) Pursuant to Labor Code Section 1776 and Title 8, California Code of Regulations, Section 16402, when requested by appropriate parties, to obtain and provide copies of the payroll records of the contractors and subcontractors working on district public works projects. The records provided are required to be marked or obliterated to prevent disclosure of an individual's name, address and social security number." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 10

Labor Code §1776 does not require that local agencies redact the payroll records of contractors; this may be done by the contractors themselves. To the extent that the local agency incurs any processing costs, these can be charged to the requesting party in advance. *See* §1776(b)(3)("the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the . . . entity through which the request was made"). Consequently, if there is a new mandate, it is not an unfunded mandate.

Alleged Mandate No. 11

"11) Pursuant to Labor Code Section 1771.5 and Title 8, California Code of Regulations, Sections 16425 through 16439, to comply with all of the requirements of a Labor

Compliance Program, when initiated and enforced by the district. These requirements include:

(a) All bid invitations and public works contracts shall contain appropriate language concerning the requirements of the prevailing wage laws;

(b) A prejob conference shall be conducted with the contractor and the subcontractors to discuss federal and state labor requirements applicable to the contract;

(c) Project contractors and subcontractors shall maintain and furnish, at a designated time, a certified copy of each weekly payroll containing a statement of compliance signed under penalty of perjury;

(d) The district shall review, and, if appropriate, audit payroll records to verify compliance with prevailing wage laws;

(e) The district shall withhold contract payments when payroll records are delinquent or inadequate; and

(f) The district shall withhold contract payments equal to the amount of underpayments and applicable penalties when, after investigation, it is established that underpayment has occurred."

SBCTC's Response to Alleged Mandate No. 11

Nothing in Labor Code §1771.5 *requires* a local agency to operate a labor compliance program. A local agency that voluntarily chooses to do so can increase the monetary threshold for triggering the prevailing wage law (§1771.5) and can keep any fines and penalties collected. 8 C.C.R. §16438. Since creation of a labor compliance program is entirely optional, there is no mandate.

Alleged Mandate No. 12

"12) Pursuant to Labor Code Section 1771.6 and Title 8, California Code of Regulations, Section 17220, to provide contractors and subcontractors, and bonding companies and sureties with Notices of Withholding of Contract Payments when minimum wage law violations are discovered by the district. The notice shall be in writing and include the following information:

(a) A description of the nature of the violation and basis for the notice.

(b) The amount of wages, penalties and forfeitures due, including a specification of amounts that have been or will be withheld from available contract payments, as well as all additional amounts that the enforcing agency has determined are due, including the amount of any liquidated damages that potentially may be awarded under Labor Code Section 1742.1.

(c) The name and address of the office to whom a Request for Review may be sent.

(d) Information on the procedures for obtaining review of an Assessment or a Notice of Withholding of Contract Payments.

(e) Notice of Opportunity to request a settlement meeting under Section 17221.

(f) A statement appearing in bold or another type of face, that makes it stand out from other text, to the effect that failure to submit a timely request for review will result in a final order binding on the contractor and subcontractor, and on the bonding company." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 12

There is no requirement that a local agency enforce the prevailing wage law itself, through a labor compliance program, rather than simply reporting violations to the Labor Commissioner, as could be done prior to 1975. Labor compliance programs are entirely optional (*see* Response to Alleged Mandate No. 11, *supra*), so the guidelines for setting up such programs and initiating enforcement actions do not impose a mandate.

Alleged Mandate No. 13

"13) Pursuant to Labor Code Section 1726, to report any suspected violations of the prevailing wage laws to the Labor Commissioner." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 13

Prior to 1975, awarding bodies were required to "take cognizance" of prevailing wage violations. Test Claim at 6 n.6 (quoting Labor Code §1726, as it read in 1975). The reference to reporting such violations to the Labor Commissioner in the current version of §1726 does not impose a new mandate; rather, the ability to report such violations to the Labor Commissioner for action eases the burden on the awarding body to investigate and enforcing the law by itself.

Alleged Mandate No. 14

"14) Pursuant to Labor Code Section 1726, to withhold contract payments for underpaid wages and for penalties when, through the district's own investigation, the district determines a violation of prevailing wages has occurred." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 14

The same obligation existed in 1975. *See* Test Claim at 6 n. 7 (quoting Labor Code §1727, as it read in 1975). There is no new mandate.

Alleged Mandate No. 15

"15) Pursuant to Labor Code Section 1727, to withhold amounts necessary to satisfy Civil Wage and Penalty Assessments issued by the Labor Commissioner." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 15

Since 1975, the State has assumed the bulk of the responsibility for enforcing the prevailing wage law, thereby easing the burdens on local agencies. The obligation to withhold funds in response to a notice from the Labor Commissioner is not materially different from the obligation that existed before 1975 to "take cognizance" of prevailing wage violations and to "withhold and retain" from contract payments funds that have been forfeited for failure to comply with the prevailing wage law. *See* Test Claim at 6 nn. 6 & 7 (quoting Labor Code §1726 and §1727, as they read in 1975). Not only is there no new mandate but the State's assumption of enforcement responsibilities has eased burdens on local agencies.

Alleged Mandate No. 16

"16) Pursuant to Labor Code Section 1727, to retain amounts withheld to satisfy a Civil Wage and Penalty Assessment until receiving a final order no longer subject to judicial review." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 16

The Response to Alleged Mandate No. 15 applies to this one as well. Before 1975, local agencies had an obligation to take cognizance of violations and withhold payments. The language added to Labor Code §1727 specifying that the funds should be withheld until the matter is resolved is just a clarification, not a change in the law.

Alleged Mandate No. 17

"17) Pursuant to Labor Code Section 1742, after July 1, 2001, and Title 8, California Code of Regulations, Section 17220, to comply with all due process requirements for the benefit of contractors and subcontractors when amounts are withheld pursuant to a Civil Wage and Penalty Assessment or a Notice of Withholding of Contract Payments,

including the providing of proper and timely notices, allowing them to review evidence relied upon, appearance and participation at hearings and the appeals therefrom." [Test Claim, Exhibit 2.]

SBCTC's Response No. 17

There is no obligation that local agencies enforce the prevailing wage law themselves, through labor compliance programs, rather than relying upon the Labor Commissioner to issue Civil Wage and Penalty Assessments. When the Labor Commissioner issues the Assessment, the Labor Commissioner is responsible for meeting all the procedural requirements of Labor Code §1742.

The current scheme for enforcing the prevailing wage law must also be contrasted with the scheme that existed in 1975. In 1975, prevailing wage disputes were settled in court, through expensive lawsuits to which the local agency was necessarily a party. The local agency would withhold contract payments and the contractor would sue the agency. The adoption of Labor Code §§1741-1742.1 (stats. 2000, ch. 954) created an administrative hearing system for resolving prevailing wage disputes. The local agency is not a party to those hearings when the Assessment has been issued by the Labor Commissioner. The administrative hearing scheme has substantially reduced the burden of prevailing wage enforcement on local agencies.

Alleged Mandate No. 18

"18) Pursuant to Labor Code Section 1742, after July 1, 2001, to respond to petitions for writs of mandates filed by contractors and subcontractors seeking review of orders of the Labor Commissioner, including the retention of counsel to file timely responses, participating in pre-trial discovery matters, the trial of the cause, pre-trial and post-trial briefing, and the preparation of findings and judgment." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 18

In 1975, a local agency was required to withhold funds from a contractor if prevailing wages had not been paid. The only remedy for a contractor that disputed the withholding was to

sue the agency. Such lawsuits would be tried in the Superior Courts and appeals could be taken to the California Supreme Court. Under Labor Code §§ 1741-1742.5, prevailing wage violations are dealt with through the issuance of a Civil Wage and Penalty Assessment by the Labor Commissioner. A contractor that disputes the Assessment is entitled to an administrative hearing before the Director of Industrial Relations and can seek review of the Director's decision in the Court of Appeal. This is a much less expensive way of resolving the dispute than a trial in Superior Court, and the local agency awarding the contract is not a party to the administrative proceeding unless it voluntarily chooses to intervene or to issue its own Civil Wage and Penalty Assessment. Again, the burden on local agencies has been lessened.

Alleged Mandate No. 19

> 19) Pursuant to Labor Code Section 1742.1 and Title 8, California Code of Regulations, Section 16413, to grant and to participate in settlement meetings requested by contractors or subcontractor in an attempt to settle any disputed issue before formal hearing procedures." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 19

The requirement to participate in a settlement conference exists only if the local agency has voluntarily chosen to issue its own Civil Wage and Penalty Assessment, rather than report the suspected violation to the Labor Commissioner for issuance of an Assessment. When prevailing wage disputes were settled in Superior Court, moreover, there were often obligations on local agencies to attend mandatory settlement conferences or to participate in alternative dispute resolution procedures. There is every reason to believe that participation in administrative hearings will be much less burdensome than participation in court proceedings.

Alleged Mandate No. 20

> "20) Pursuant to Labor Code Section 1771.2, a joint labor-management committee may bring an action against an employer who fails to pay prevailing wages. As a necessary

party, the school district would be required to appear and participate in these legal proceedings." [Test Claim, Exhibit 2.]

SBCTC's Response to Alleged Mandate No. 20

Nothing in Labor Code §1771.2, or in any other statute or regulation, makes a local agency a necessary party to a lawsuit by a joint labor-management committee against an employer who fails to pay prevailing wages. There is no new mandate.

Alleged Mandate No. 21

"21) Pursuant to Labor Code Section 1776, to furnish copies of payroll records of a contractor or subcontractor to a joint labor management committee obliterated only to prevent disclosure of social security numbers." [Test Claim, Exhibit 2.]

SBCTC's Response

As explained in the Response to Alleged Mandate No. 10, nothing in Labor Code §1776 requires the local agency, rather than the contractor or subcontractor, to redact the payroll records. Moreover, local agencies are authorized to charge parties requesting records in advance for the costs of complying with their requests. If there is a new mandate, it is not an unfunded mandate.

III. THE ADMINISTRATIVE AND ENFORCEMENT BURDENS ON LOCAL AGENCIES OF THE MINOR EXPANSIONS IN THE DEFINITION OF "PUBLIC WORK" ARE MORE THAN OFFSET BY THE STATE'S ASSUMPTION OF MOST ADMINISTRATIVE AND ENFORCEMENT RESPONSIBILITIES.

The claimant also identifies seven alleged expansions in the definition of "public work" since 1975. These are alleged to be types of work that would be subject to the prevailing wage law today, but were not subject to the prevailing wage law in 1975. They are as follows:

"a) Pursuant to Labor Code Section 1720.2, the construction work is performed according to plans, specifications or criteria furnished by the district and where the district enters into a lease, as lessee, of the completed project during or upon completion of the construction;

(b) Pursuant to Labor Code Section 1720.3, hauling refuse from a public works site to an outside location;

(c) Pursuant to Labor Code Section 1720, the work performed during the design and preconstruction phases of construction including, but not limited to, inspection and land surveying work;

(d) Pursuant to Title 8, California Code of Regulations, Section 16001, the work is for maintenance, including landscape maintenance;

(e) Pursuant to Labor Code Section 1720, the work is for installation works;

(f) Pursuant to Title 8, California Code of Regulations, Section 16001, the work is for field surveying work traditionally covered by collective bargaining agreements when the work is integral to the specific public works project; and

(g) Pursuant to Title 8, California Code of Regulations, Section 16001, the work is for residential and commercial projects when the public work is for student or faculty housing." [Test Claim, Exhibit 2.]

As the Department of Industrial Relations points out in its response to the test claim: The alleged changes in the definition of "public work" referred to in (d), (e) and (f) were not post-1975 substantive changes in the law; they codified administrative interpretations of the pre-1975 law. As for the expansion of the law alleged in (g), the regulation the claimant cites, 8 C.C.R. §16001, has nothing to do with the definition of "public work." Residential projects, including student and faculty housing projects, have always been covered by the prevailing wage laws when they are paid for in whole or in part out of public funds.

We agree that items (a), (b) and (c) represent minor expansions in prevailing wage coverage since 1975. However, the upshot of the amendments cited in (a), (b), and (c) is merely that the following work is now covered by the prevailing wage law but *might not* have been covered under pre-1975 law:

- An amendment to the Labor Code §1720.2 in 1980 added to the definition of "public work" a project that 1) is not paid for in whole or in part with public funds, 2) involves a construction contract between private parties, 3) involves property that is privately owned but, upon completion of the project, will have

more than 50 percent of the assignable square feet of the property leased to a public agency, 4) is performed according to plans, specifications and criteria supplied by the public agency, and 5) involves a lease agreement with the public agency that was entered into during or after the construction work began. *See* Test Claim at 27 n.41 (showing the amendment).

- An amendment to Labor Code §1720.3 in 1999 expanded the coverage of the prevailing wage law slightly to include contracts by a local agency for the hauling of refuse from a public works site an outside disposal service. *See* Test Claim at 29 n.43 (showing the amendment).

- An amendment to Labor Code §1720 in 2000 brought within the prevailing wage law "design and preconstruction" work. *See* Test Claim at 29-30 n.45 (showing the amendment). However, this work would have been covered before the amendment anyway if it were part of an overall construction project paid for which public funds. The amendment affects the situation in which the *only* work paid for with public funds is design and preconstruction work.

Nevertheless, although these were expansions in the definition of "public work" since 1975, the work that they address may well have been covered by the prevailing wage law anyway, under some other statute, depending upon the funds used for the project.[1] The claimant does not provide any evidence that the claimant has actually contracted for any construction work in the three years prior to the filing of the test claim that was covered by the prevailing wage law but would not have been covered by the pre-1975 law.

Assuming, however, that one of these expansions in the definition of public work is relevant to the claimant's activities, the obligation to pay prevailing wages is still an obligation imposed on contractors and subcontractors, not on local agencies, so it is not a reimbursable mandate. *See* pp. 3-4, *supra.*

---

[1] For example, under Labor Code §1771.7, "[a]n awarding body that chooses to use funds derived from either the Kindergarten-University Public Education Facilities Bond Act of 2002 or the Kindergarten-University Public Education Facilities Bond Act of 2004" for construction work must operate a labor compliance program to ensure that prevailing wages are paid on the project. This provision will affect school districts that use state bond money.

Although the prevailing wage law does impose some minor direct administrative and enforcement costs on local agencies, the costs incurred as a result of the expansion in the definition of public work would be de minimis. A clause requiring the payment of prevailing wages should already be in the standard-form contract used by local agencies. Local agencies are entitled to charge the requesting party in advance for the costs of processing requests for payroll records. *See* p. 11, *supra* (Response to Alleged Mandate No. 10). When a contractor violates the prevailing wage law, it forfeits penalties to the local agency. *See* Labor Code §1775(a), §1776(g). These penalties would more than offset the local agency's administrative costs of withholding payment from the contractors It also must be kept in mind that any additional costs to a local agency from the slight expansion in the definition of "public work" will be dwarfed by the savings to the local agency from the transfer since 1975 of most of the responsibility for administering and enforcing the prevailing wage law to the State on *all* of the local agency's public works projects.

CONCLUSION

For the foregoing reasons, the test claim should be denied.

A Comparison of Public School Construction Costs

In Three Midwestern States that Have Changed Their Prevailing Wage Laws in the 1990s

Kentucky, Ohio and Michigan

By Peter Philips, Ph.D.

Professor of Economics, University of Utah

February, 2001

Introduction

Proponents and critics of prevailing wage regulations have debated the merits of these regulations for some time. Proponents argue that these regulations promote the development of a skilled labor force in construction, improve work place safety, encourage quality construction, increase apprenticeship training and provide career opportunities in construction for local citizens. Proponents emphasize that prevailing wage regulations also induce contractors to provide health insurance and pension coverage that otherwise would be absent.

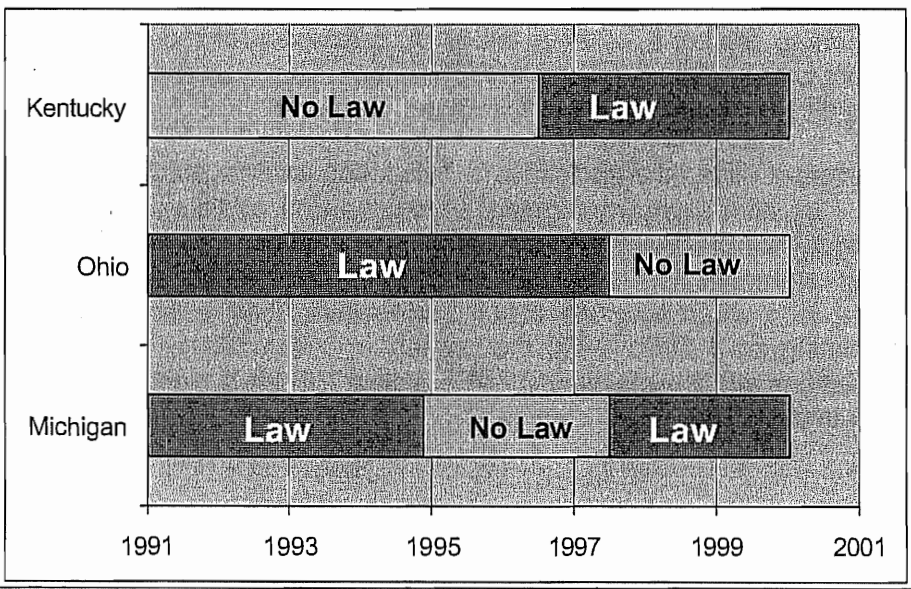
Critics of prevailing wage regulations concede some of the foregoing positions and contest others. But the main argument of critics of prevailing wage regulations is the contention that these laws raise public construction costs. This is a two-sided argument asserting that when prevailing wage regulations are applied they raise public construction costs and when these regulations are eliminated, public construction costs will go down. The magnitude of savings is thought to be substantial ranging anywhere from 10% to 30% or more of total construction costs.

This paper focuses on the specific question of whether or not the application of prevailing wage regulations raises costs, and if so, by how much. Those favoring this view theorize that prevailing wage regulations raise wage rates on public construction to higher levels than they otherwise would be. Increased wage rates should lead to increased construction costs that would be passed on to the government and eventually the taxpayer. Proponents of prevailing wage regulations counter that higher wage rates induce contractors to hire or train a more skilled and productive labor force. Higher wage rates also will encourage contractors to better manage their workers and provide them with better and more up-to-date equipment. These responses to higher wage rates may, according to this view, offset some or all of the costs of higher wage rates. Prevailing wage proponents also argue that a more skilled labor force leads to better quality construction that reduces downstream maintenance and repair costs.

This paper tests these competing hypotheses regarding the cost-effects of prevailing wage laws. The focus will be on new public school construction in Kentucky, Ohio and Michigan over the period 1991 to 2000. These states and

this time period were chosen because legislative and judicial changes in these states over this period form a natural experiment helpful in isolating the effects of these regulations on costs. In the 1990s, prior to July1996, Kentucky did not apply prevailing wage regulations to public school construction. Starting in July of 1996, the state's prevailing wage law regulated public school construction. By itself, this provides some before-and-after information about the effects of applying prevailing wages to school construction costs. Fortuitously, from the standpoint of science, Ohio in the 1990s did almost the opposite of Kentucky. Throughout the 1990s until July of 1997, Ohio applied its prevailing wage law to public school construction. Starting in July 1997, Ohio exempted public school construction from prevailing wage regulations. Thus, almost simultaneously, these neighboring states moved in opposite regulatory directions. The fact that Ohio lifted its law soon after Kentucky applied its law to public school construction helps this natural experiment isolate the effects of regulatory policy from other factors that change over time. From an experimenter's perspective, this is nice. But nicer yet, at around the same time, Michigan does yet a third thing with its prevailing wage law.

At the end of 1994, a judicial ruling suspended the application of Michigan's prevailing wage law to any public construction. This judicial suspension lasted until July of 1997 when a higher court ruling reapplied Michigan's prevailing wage law to all public construction, including schools. So Michigan suspended its law two-and-one-half years before Ohio, and Michigan reapplied its law in precisely the same month Ohio exempted schools from prevailing wage regulations. Figure 1 shows the variation in prevailing wage policies by state in the 1990s.



• Figure 1: Prevailing Wage Policy by State 1991-2000

With these variations in legal policies in hand, we are in a position to assess statistically whether or not changes in prevailing wage policies as they applied to public school construction raised or lowered the cost of building public schools.

The Data

The FW Dodge Corporation is a private company that provides bidding information to contractors. In so doing, the Dodge Corporation systematically gathers information on the "start" cost of construction projects. "Start" costs are the agreed-upon bid price of a project at the outset of a bid. The final cost of a project can vary from the start cost based on cost overruns. Proponents of prevailing wage regulations argue that one of the advantages of prevailing wage laws is that they reduce cost overruns. This argument asserts that absent prevailing wage regulations a cutthroat bidding system emerges where low-ball bidders undercut their competitors with unrealistically low bids in the hope and expectation that during the term of the project the contractor can recoup his profits through change orders. This argument asserts that prevailing wage regulations attract a set of bidders that will compete with each other over on-time completion, quality construction and productivity but eschew the strategy of low-ball bidding hooked into profiting from change orders.

We cannot test this argument with Dodge data because it does not include cost overruns subsequent to the acceptance of the bid. But with this one limitation in mind, the Dodge data form the single best source on school construction costs across states.

In addition to providing the accepted bid price, the dodge data indicate what kind of building project it is; what the total square feet of the project is; where the project will take place; when the bid was accepted; some details on the nature of the project, and other useful information.

This report uses data from 1991 t. We focus on new public school construction only. By eliminating renovation alterations and additions, we can focus on a relatively homogenous group of buildings—new public schools. We will ask the question—controlling for the size of these public schools, and where they took place, and when they were built, and whether they included a gymnasium-swimming pool facility—did the presence or the absence of prevailing wage regulations affect the total cost of the project? Table 2 describes the new schools used in this study.

Characteristic of Schools in Study	
Number of New Schools in Study	391
Average Square Foot Size of the School	86,415
Average Total Cost of the Project (Year 2000 dollars)	$8,483,937
Percent of All Schools	
Michigan	38%
Ohio	36%
Kentucky	26%
Percent of School with a Gym-Pool Facility	7%
Percent of Urban Schools	32%
Percent of Schools Built Under Prevailing Wages	49%

• Table 1: Description of the new schools used in the study

This study involves 391 new public schools built between 1991 and September 2000. Table 1 show that the average size of a school was 86,415 feet and the average total cost was $8,483,937 in year 2000 dollars. The consumer price index urban (CPI-U) was used to update earlier costs into year 2000 dollars.

Of the 391 new public schools in the study, Michigan accounted for 38%. Ohio accounted for 36% and Kentucky accounted for 26%. This reflects the relative size of the three states.

Dodge data indicated that 7% of the new schools included a swimming pool/gymnasium facility. In our statistical model we expect that even controlling for the size of the school project, the inclusion of such a facility is likely to raise the square foot cost of the new school.

Thirty-two percent of the new public schools were built in urban areas with the remaining 68% built in rural areas including smaller towns.

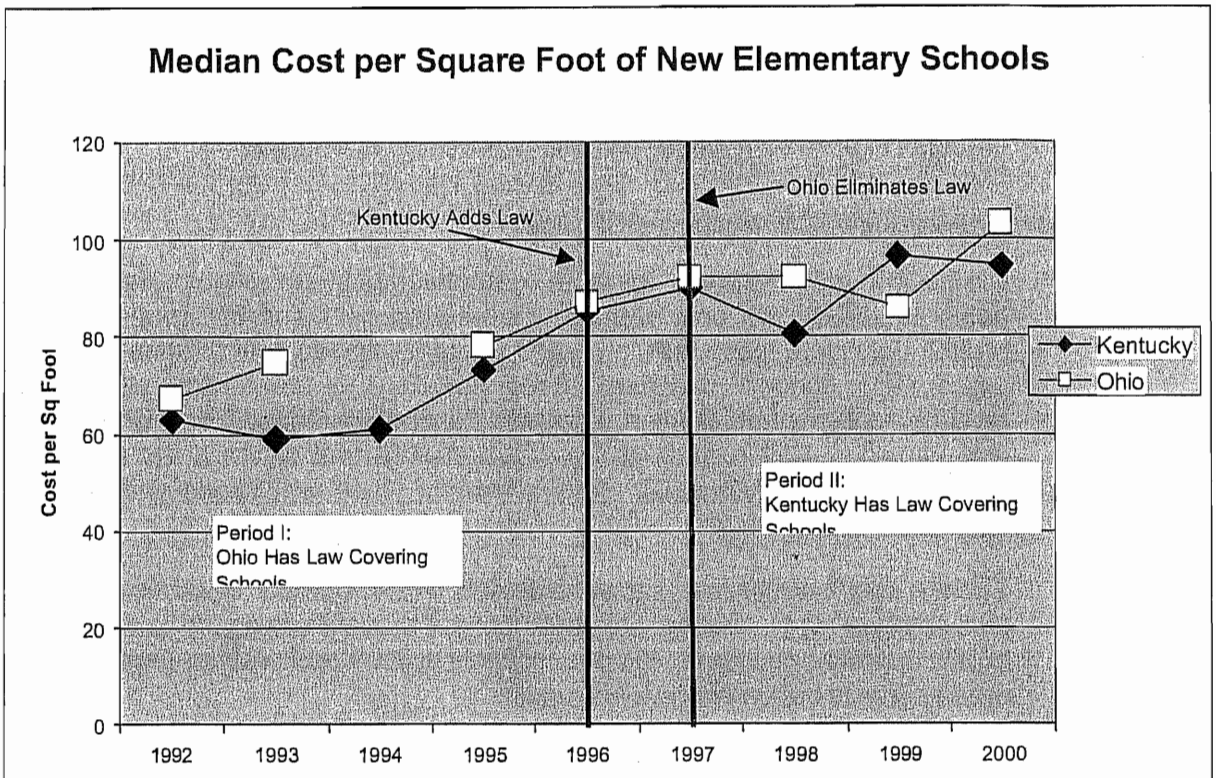
Almost half, 49% of the projects were built with prevailing wages while the remaining 51% were built without these regulations.

Table 2 shows the distribution of when the new public schools were built. Column c shows that 1991 had unusually few new public schools built, and the year 2000 had unusually many schools built. This reflects the two ends of the business cycle and building cycle. The year 1991 was a recession year and the economies of these states grew progressively from then through the 1990s. One result of this growth has been an expansion of school construction.

Year	Number of New Schools	Percent of Decade's Total New Schools Built in Each Year	Percent of Each Year's New Schools Built Under Prevailing Wage Laws
a	b	c	d
1991	5	1%	20%
1992	44	11%	61%
1993	28	7%	68%
1994	10	3%	50%
1995	39	10%	33%
1996	49	13%	37%
1997	53	14%	49%
1998	33	8%	58%
1999	56	14%	71%
2000	74	19%	30%
Total	391		49%

• Table 2: The time distribution of new school construction within the study

Table 2 also shows the annual percent of each year's new school construction that was done using prevailing wages. The balance tends to be stable over time. The dip in 1995 and 1996 is due to Michigan suspending its law in those years. (Michigan split construction in 1997 with the first half not using prevailing wages and the second half using this regulation.) In the year 2000, Ohio has a major increase in school construction, all done absent prevailing wages. This accounts for the somewhat lower percentage of new school built with prevailing wages in that year.



• Figure 2: Median Cost of New Public Elementary Schools in Kentucky and Ohio by Year

Figure 2 gives a general sense of the experiment we are going to perform. In Figure 2, the median square foot cost to build a new elementary school in Kentucky and Ohio are compared for the years 1992 to 2000. These data are not deflated. They are in the actual dollars reported at the time. Consequently, it is not surprising that the median cost rises with time. In our statistical model, we will deflate these prices using the Consumer Price Index and ask the question whether controlling for inflation, new school construction costs are still going up. We will also control for a variety of other factors that cannot be controlled for in a simple figure such as the one above. Our additional controls include a control for possible economies of scale associated with larger schools, a control for the differences between urban and rural construction, a control for fancy facilities, a control for tight construction markets possibly pushing up the real cost of construction. With these controls in place, we will look at variations in prevailing wage policies. In Figure 2, changes in prevailing wage policies are shown by two vertical lines, one in 1996 representing Kentucky's application of a prevailing wage regulation. And a second vertical line in 1997 representing Ohio's exemption of public schools from prevailing wages. If these laws had an effect on costs, one might expect to see a change in the general relationship between

median new public elementary school construction costs in the two states. Visually, this does not seem to appear. We will go beyond visual inspection to examine all 391 new schools and test whether or not, controlling for other factors, changes in prevailing wage regulations have made a difference.

Comparison of Mean Square Foot Cost

We begin our analysis with a simple comparison of the average or mean inflation-adjusted square foot cost of building a new school. The 391 new schools are broken down into those built in urban areas (126 schools) and those built in rural areas (265 schools). Urban areas include the areas around Cleveland, Columbus, Cincinnati, Dayton, Louisville, Lexington, Detroit, Flint, Grand Rapids and Lansing. Within each group of urban and rural schools, the schools are broken down into those built under prevailing wage regulations and those built without prevailing wages.

Table 4 shows the mean, standard deviation[1] and number of schools in each of four categories: 1) rural schools built without prevailing wages; 2) rural schools built with prevailing wages; 3) urban schools built without prevailing wages; and 4) urban schools built with prevailing wages.

		New Public Schools					
		Real (Inflation Adjusted) Square Foot Cost					
	a	b	c	d	e	f	g
1		Rural Schools			Urban Schools		
2		Mean	Standard Deviation	Number	Mean	Standard Deviation	Number
3	No Law	$96	$26	161	$114	$36	40
4	Law	$98	$24	104	$114	$34	86
5	t-test	-0.76			0.05		
6	Statistically Significant Difference?	No			No		

• Table 3: Comparison of the Real (Inflation-Adjusted) Square Foot Cost of New Public Schools by Urban and Rural Schools and Built without or with Prevailing Wages

[1] The standard deviation is, in essence the wiggle around an average. So for instance, if you had 5 children in a carpool ages 8, 9, 10, 11 and 12, the mean (or average) would be 10 years of age, and the standard deviation or wiggle around the mean would be 1.4 years.

The comparison of mean real square foot costs can be seen in rows 3 and 4, columns b and e. Considering rural schools first, the average or mean real square foot cost of schools built without prevailing wages was $96 per square foot while the mean real square foot cost of schools built with prevailing wages was $98 per square foot. There were 161 new rural schools built without prevailing wages in the sample and 104 new rural schools built using prevailing wages in this sample. (See column d, rows 3 and 4). The standard deviation is a statistical measure of the wiggle around each mean. It is used to construct a statistical test of whether or not the $2 difference in the average cost of construction per square foot is statistically significant. The statistical test is called a t-test. Typically, for there to be statistical significance, the t-statistic must be around plus or minus 2. In this case for rural schools where the difference is $2 per square foot, the t-statistic shown in column b, row 5 is -.75. What this means is, statistically speaking, there is no difference between the average square foot cost found for rural schools built with prevailing wages compared to the average square foot cost of schools built without prevailing wages.

Considering schools built in urban areas, in the sample, 126 new schools were built in urban areas with 40 being built without prevailing wages and 86 being built with prevailing wages. The average or mean real (inflation-adjusted) square foot cost of urban schools built with and without prevailing wages was almost equal. Indeed, rounding to whole dollars, they are equal at $114 per square foot (in year 2000 dollars).[2] Again, the t-test indicates that any minor difference in these two means (in this case 34 cents) is not statistically significant. Another way of putting this is: the difference in average real square foot construction cost for new public schools is due to random differences and statistically, the averages are equivalent. This conclusion holds both when comparing urban schools and when comparing rural schools built with and without prevailing wages.

A Statistical Model of New Public School Construction Costs

Table 4 presents the results of a statistical model of new public school construction costs. The model is called an ordinary least squares linear regression model. This type of statistical model is very commonly used by economists, epidemiologists and others studying social phenomena. The particular model in Table 4 uses the 391 new public schools built in Kentucky, Ohio and Michigan over the 1991 to 2000 period as data to help predict the effects of various factors on total new construction costs. The focus variable in

[2] If you do not round to whole dollars, the mean for schools built without prevailing wages was $114.17 and with prevailing wages it was $113.83.

the equation is the last variable in the model shown in gray on line 12. But before we get to this issue, let us examine the other aspects of the model.

	Model		Coefficient	t-statistic	Significance level	Statistically Significant?
1	a	b	c	d	e	f
2		(Constant)	4.45	16.05	0%	Yes
3	Size	Natural Log of the Total Square Feet of the Project	1.00	41.59	0%	Yes
4	Business Boom	Time (in years)	2.9%	5.58	0%	Yes
5	Location	School was built in Ohio	-12.6%	-3.70	0%	Yes
6		School was built in Kentucky	-14.6%	-4.03	0%	Yes
7		School was built in an urban area	10.5%	3.41	0%	Yes
8	Special Facilities	School had a gym/pool facility	9.2%	1.69	9%	Yes
9	Timing	School was started Winter quarter	-5.6%	-1.21	23%	No
10		School was started Spring quarter	-10.9%	-2.75	1%	Yes
11		School was started Summer quarter	-2.7%	-0.63	53%	No
12	Law	School was built with prevailing wages	0.7%	0.26	79%	No
13	**Total Cost of School**	**Natural log of real (inflation adjusted) total start cost of each new school (in year 2000 dollars)**				
14	Model statistics	Adjusted R-square (a goodness of fit statistic) = .85				
15		Number of new schools in the sample = 391				

• Table 4: A Linear Regression Model of the Total Square Foot Cost of Building New Public Schools in Kentucky, Ohio and Michigan Focusing on the Effect of Prevailing Wage Regulations

The first key factor in the model is the size of each of the 391 new schools. The coefficient of 1.00 says that as the square foot size of the school increases, the total cost of the school increases proportionately.[3] The second variable is simply time measured in years. This variable captures the fact that building costs have been rising faster than inflation in the 1990s. The cost data in the model are inflation adjusted using the Consumer Price Index. The time variable indicates that after adjusting for inflation, new public school construction costs in these three states have been rising at 2.9% per year from 1991 to 2000. This result is statistically significant. The reason building costs have been rising faster than inflation is because the economic boom has led to a very vigorous boom in building leading to heavy demand for construction services.

[3] In other studies, I have found in some cases that there were economies of scale in school construction costs. Namely, as school size increased, total cost went up but more slowly than total size went up. The absence of economies of scale among these 391 schools may be due to the relative homogeneity of the buildings in the sample

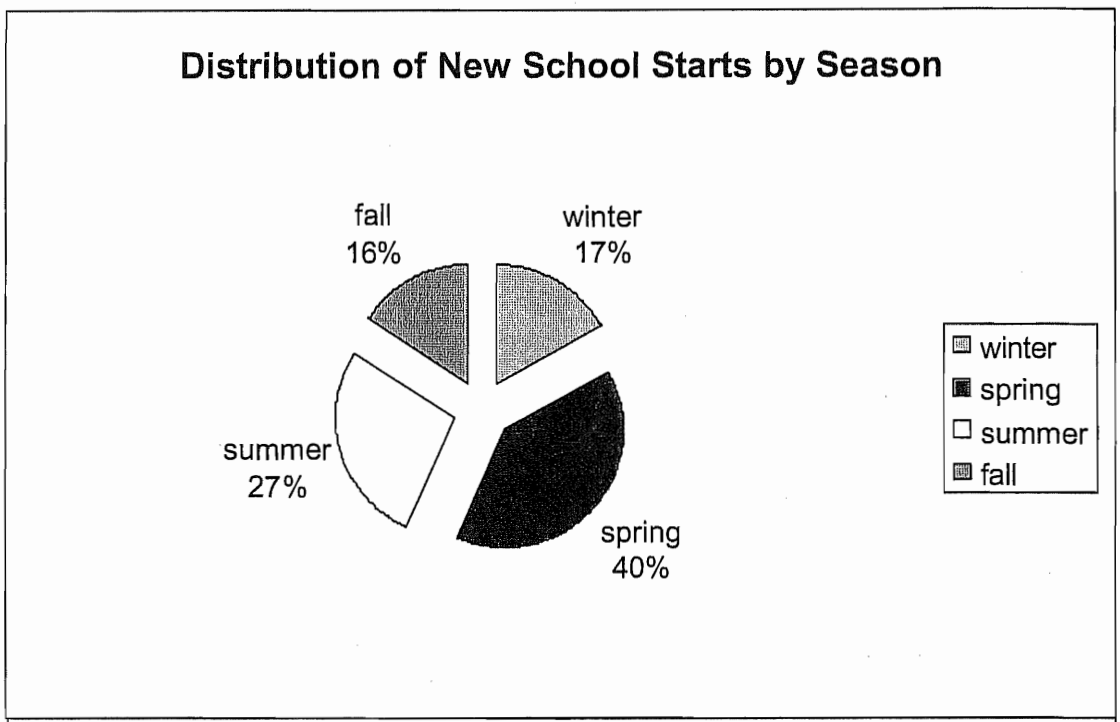
Rows 5, 6 and 7 in the model present three variables that control for where the school was built. Row 7 indicates whether or not the school was built in an urban area. Urban schools cost 10.5% more than rural schools controlling for other factors such as the size of the school. Rows 5 and 6 indicate whether or not the school was built in Ohio (row 5) or Kentucky (row 6). In the case of urban schools, the reference point was rural schools. In the case of Kentucky and Ohio, the reference point is Michigan. The model indicates that new Ohio schools cost 12.6% less than Michigan schools while new Kentucky public schools cost 14.6% less than Michigan new public schools. These results, too, are based on controlling for other factors such as the size of the school, when the school was constructed, whether or not the school was urban or rural and whether or not the school was built under prevailing wage mandates.

Rows 9, 10 and 11 indicate in what season the school was started. Row 9 indicates schools started in the winter quarter (January, February or March). Row 10 indicates schools started in the spring. And row 11 indicates schools started in the summer. In all three of these cases, the reference point is schools started in the fall. These seasonal variables get at the question of whether breaking ground on a new school in the face of winter weather raises the cost of building that school.

The model indicates that schools started in the winter were 5.6% cheaper than schools started in the fall. But this result is not statistically significant. The lack of statistical significance means that you cannot be sure there really is any difference in the total cost of schools started in the winter compared to the fall. In the case of schools started in the spring, they were 10.9% cheaper than schools started in the fall (again controlling for other factors such as the size of the school, whether it was an urban or rural school, etc.). In this case, the results of the model are statistically significant. That is, this statistical model indicates that you can be confident that breaking ground in the spring will lead to lower cost new school construction compared to breaking ground in the fall.[4] Breaking ground in the summer is estimated to be 2.7% cheaper than breaking ground in the fall, but this is not a statistically significant difference. The point of these results, however, is clear. Don't break ground into the teeth of winter. It will cost you. Indeed, the model shows that by starting in the spring instead of the winter saved enough money for each school to include a gymnasium/pool facility in its specifications. The 7% of all schools that had such facilities paid 9.2% more total costs, controlling for other factors. And compared to starting in the fall, starting in the spring would have offset the cost of a swimming pool.

[4] In most cases in the FW Dodge data, the start date is the date of bid acceptance. Given that there will be some lag between bid acceptance and ground breaking, fall probably means late fall and spring probably means late spring. Also, given the probable cause of increased costs associated with breaking ground in the late fall is weather, the effect of this seasonal factor is probably stronger in the colder areas within the sample of Michigan, Ohio and Kentucky.

Figure 3 shows that for the most part, school boards and contractors know this. Fully 40% of all new public schools in Kentucky, Ohio and Michigan started in the years 1991 to 2000 were started in the spring. Fall starts—the most expensive start time—accounted for only 16% of all starts. However, whatever drove schools boards to start schools in the fall compared to the spring also led them to pay a 10% premium for this choice of when to break ground.



• Figure 3 : Percent Distribution of New School Starts by Season for Kentucky, Ohio and Michigan, 1991-2000

The Effect of Prevailing Wages on Costs

Controlling for seasonality, controlling for differences in rural and urban construction costs, controlling for the size of the project and controlling for the state in which the project was built, the model estimates that using prevailing wage regulations raised school construction costs by 7/10th of 1%. But again, this is not a statistically significant result. In effect, the model says there is no effect on total costs associated with prevailing wages.

How can this be? Prevailing wage rates insure that all contractors must pay the wage rates that prevail for an occupation in an area. Without this regulation,

contractors are free to pay whatever they want (or the market will allow). The fact is that prevailing wage regulations induce contractors to hire a more skilled labor force and equip them with better, more up-to-date, tools, materials and equipment. It also induces management to compete over better management strategies and techniques. Thus, the higher wage rates are offset to a large extent by higher skilled, better equipped, and better managed workers.

It may be, however, with more observations, we would find that the 0.7% higher cost associated with prevailing wage regulations would turn out to be statistically significant. And, in a market where the government is obliged to accept the lowest bidder regardless of the reputation or history of the contractor, that 0.7% difference could lead to an entire changeover in the contractors doing business in building schools. But we must remember that this model is based on start costs—accepted bid price. The ultimate cost of a new school includes cost overruns and the downstream cost of maintenance. The potential 0.7% savings may be an offer for school boards to become penny wise and pound foolish.

Conclusion

A simple comparison of the mean (or average) inflation-adjusted square foot cost of building 391 new public schools in Kentucky, Ohio and Michigan broken down by urban and rural schools finds no statistically significant difference between those public schools built with prevailing wages and those public schools built without this regulation. A more complex statistical model that estimates new public school construction costs based on the size of the project, whether it was an urban or rural school, which state built the school, and at what time of the year the school was built again finds no statistically significant effect on total new school construction costs associated with whether or not the school was built with prevailing wages. While net effect of prevailing wage regulations is apparent, school boards can save 10% on new school construction costs by starting in the spring and not breaking ground in the face of winter weather. While 40% of all new schools do start in the spring, 16% of new schools had to pay this 10% penalty by starting as winter approached.

The data used in this study come from FW Dodge reports and show the start cost—or accepted bid price—of the new school. Final cost of new public school include cost overruns and downstream maintenance costs. The higher wage rates required by prevailing wage regulations insure that all contractors bidding on the job will use skilled labor when building the school. If you have to pay for the high-priced spread, you might as well buy it. Thus, prevailing wage regulations offer school boards some assurance that the project will be skillfully built and workers on the job will be carefully managed. Consequently, prevailing wage regulations provide some assurance against cost overruns and downstream maintenance costs.

Peter Philips grew up in Compton and Pomona, California. He received his B.A. from Pomona College in 1970 where he majored in economics and received the Leland Backstrand Graduating Senior Award in Economics. Philips received his M.A. in economics (1976) and his PhD in applied economics (1980) from Stanford University. Philips is a Professor of Economics at the University of Utah. He is co-editor of *Three Worlds of Labor Economics* (M.E. Sharpe, 1986) and coauthor of *Portable Pensions for Casual Labor Markets: the Central Pension Fund of the Operating Engineers* (Quorum Books, 1995). Philips has published widely on the canning and construction industries in journals such as the *Journal of Education Finance, Industrial and Labor Relations Review, Industrial Relations, Business History,* the *Journal of Economic History, Historical Methods, The Journal of Economic Literature, Oxford Encyclopedia of Economic History* and the *Cambridge Journal of Economics.* Philips has been a consultant for the U.S. Labor Department analyzing the supply of cannery labor in California, and he has worked as an expert on the Davis-Bacon Act for the U.S. Justice Department. The Davis-Bacon Act regulates wage payments to construction workers on federal public works. Philips is a respected expert on prevailing wage laws and on employment, training wages and benefits in the construction industry. He has testified before state legislative committees in Ohio, Indiana, Kansas, Oklahoma, New Mexico and California on their state prevailing wage laws. Along with other researchers at the University of Utah, Philips has analyzed the effects of prevailing wage laws on public construction costs, construction worker incomes, apprenticeship training, worker safety and minority access to construction work.

Philips is the senior labor economist at the University of Utah. He teaches a wide range of courses in the area of labor economics, econometrics, labor law, collective bargaining and economic history. Philips has received awards for his teaching and community service, including University of Utah Public Service Professorship, the University of Utah Presidential Teaching Scholar Award and the University of Utah, College of Social and Behavior Science Superior Teacher Award. Philips is married with two children.

Appendix

Simple Comparison of One Year Before and One Year After Legal Change in Kentucky, Ohio and Michigan

The following is a simple comparison of the average or mean square foot cost of new public schools one year before compared to one year after a change in the prevailing wage law in the three states—Kentucky, Ohio and Michigan.

Kentucky applies prevailing wage regulations to public school construction in July of 1996. Ohio exempts public schools from prevailing wage regulations in July of 1997. A Michigan court suspended the application of prevailing wage regulations in the state in December, 1994. A second court reapplied prevailing wage regulations in July of 1997.

These variations allow for four simple 12-month before-and-after comparisons--one for Kentucky, one for Ohio and two for Michigan. In this simple comparison there is no adjustment for inflation and no statistical tests for equality of means. All that is presented is the raw averages and the number of new public schools that comprise each average.

Average Square Foot Cost

	Before	# Schools	After	# Schools	Legal Change	Cost Change
Kentucky: No-Law to Law	$86	17	$86	15	Enactment	$0
Ohio: Law to No-Law	$77	7	$90	18	Repeal	$13
Michigan: Law to No-Law	$83	14	$94	5	Suspension	$11
Michigan: No-Law to Law	$101	40	$108	9	Resumption	$6

- A 1: Simple Comparison of Mean Square Foot Cost of New Public Schools for the 12 Months Before and After a Policy Change

Table A1 shows that for Kentucky, the mean square foot cost of 17 schools built in the 12 months prior to the application of prevailing wage regulation to public school construction equaled the mean square foot cost of 15 new public schools built in the 12 months after the application of prevailing wages. In Ohio, there was a $13 increase in the mean square foot cost of new school construction subsequent to the repeal of the application of prevailing wages to public school construction. In the case of Michigan, when the law was suspended, the mean square foot cost of new public school construction rose in the subsequent 12 months by $11 per square foot. When Michigan reapplied prevailing wages to public school construction, the mean square foot cost rose again by $6 per square foot.

Other factors that might influence these changes include inflation, tightening construction markets, and the mix between urban and rural schools. These factors are controlled for in the econometric model presented in the main body of this report.

Prevailing Wage Laws and School Construction Costs

An Analysis of Public School Construction in Maryland and the Mid Atlantic States

By Mark J. Prus, Ph.D.

About the Author

Mark Prus grew up in Northeastern Ohio and Arizona. He lived in Cumberland, Maryland briefly. He received his B. A. in economics from the University of Notre Dame in 1979. Prus received his Ph.D. (1985) from the University of Utah where he was the Marriner S. Eccles Fellow in Political Economy. Prus is an Associate Professor of Economics, and Chairman of the Economics Department at the State University of New York at Cortland. Prus has published widely on labor market issues in journals such as the *Journal of Economic History, The Journal of Economic Issues,* the *Cambridge Journal of Economics, Research in Economic History, and the Quarterly Review of Economics and Finance.* Prus is a respected expert on prevailing wage laws and their effects on construction costs. He has served as a consultant to the Construction Labour Relations Association of British Columbia and testified before the Department of Industrial Relations in California on their state prevailing wage law. He has presented the results of his research on the construction industry at the Western Economics Association Annual International Conference and the Economics Research Network.

Acknowledgements

A number of people gave generously of their time in the preparation of this report. Dr. Yale Stenzler, of the Interagency Committee on School Construction, described at length the the process of public school construction funding in the state of Maryland and also provided me with copies of the reports on Prevailing Wages in Maryland produced by the Department of Fiscal Services. Dr. Stenzler also gave me the names of facility planners in each county, allowing me to check on the coverage, or lack thereof, of prevailing wage laws. Tammy Woolford and Richard Avalone at the Prevailing Wage Unit of the Maryland Department of Labor helped me identify school projects in Maryland built with prevailing wage requirements. Jim Correll of the Baltimore Building and Construction Trades and Sheldon Sugarman of the Baltimore City Wage Rate Commission helped me understand the application of Baltimore City's local prevailing wage law, and identify schools in Baltimore City built with prevailing wage requirements. Dr. David Miller generated the map of the Mid Atlantic states and Dr. Lisi Krall patiently read the entire report and offered helpful comments. All of these people, and many others patiently answered my questions, even when I asked them more than once. Without their help my chances of getting it right were much smaller. Or course I alone am responsible for any remaining errors.

A

Executive Summary

At the request of the Prince George's County Council, I conducted this analysis of the impact of prevailing wages on public school construction projects. The county council commissioned this study to guide them as they consider the adoption of a bill to require adherence to state prevailing wage rates in the construction of public schools. While the state of Maryland has a prevailing wage law, it mandates the payment of prevailing wages only for those school projects for which the state provides 75 percent or more of the funding. Prince George's County is embarking on a six year capital program for the construction and /or renovation of eighteen schools in the county.

I have attempted to address the following four concerns of the county council:

- Compare school construction costs in states with prevailing wage laws to those in states without prevailing wage laws in the mid Atlantic region.
- Compare school construction costs within Maryland for those local jurisdictions that pay prevailing wages to costs in those areas where prevailing wage rates are not required.
- Analyze the extent to which local contractors have been harmed by unfair competition from outside contractors due to the absence of prevailing wage requirements on school construction projects.
- Examine the extent to which the absence of prevailing wage rates in school construction impacts construction wages across the construction industry.

The analysis presented here provides answers to each of these questions primarily through the statistical manipulation of data on individual school construction projects provided by the F. W. Dodge Corporation. The analysis exploits variations across the mid Atlantic region, or within the state of Maryland, in the application of prevailing wage requirements. Within the mid Atlantic region, Delaware, Pennsylvania and West Virginia have prevailing wage laws that apply generally to public school construction. North Carolina and Virginia do not have state prevailing wage laws, and while Maryland has a state prevailing wage law, it only applies to public school construction projects if the state government provides 75 percent or more of the funding for the project. The Maryland state law does, however, allow for voluntary adherence to prevailing wages, and two local jurisdictions (Allegany County and Baltimore City) have elected to do so.

Chapter 1 presents a brief history of prevailing wage laws and their impact on construction costs. In Chapter 2 of this study, I examine the actual square foot construction costs of schools built in mid Atlantic states with and without prevailing wage laws over the period 1991 to 1997. This study includes data on school construction projects for Delaware, Pennsylvania, West Virginia, Maryland, North Carolina and Virginia. The first three states have prevailing wage laws that apply to school construction; the latter three do not. While square foot costs for new school construction are generally higher in prevailing wage law states, this may be due to regional differences in the cost of living. Public school construction costs also tend to be higher than private school construction costs, but this is true irrespective of whether or not a state has a prevailing wage law. A formal linear regression statistical model capable of controlling for these and other factors confirms the hypothesis that there is no measurable or statistically significant increase in construction costs associated with prevailing wage regulations.

Chapter 3 examines school construction costs within the state of Maryland. A previous study by the Department of Fiscal Services, which found that prevailing wage requirements within the state raised school construction costs by 15 percent, is examined. The results of that study are shown to be very sensitive to the inclusion or exclusion of particular variables. At the time of that previous study most schools were built in Maryland with prevailing wage requirements. Since that time changes in the allocation of state funds have led to the vast majority of schools being built without prevailing wages. Some local jurisdictions, however, have already adopted prevailing wage requirements of the kind being considered by Prince George's County. These include Allegany County and Baltimore City. A comparison of school construction costs between those jurisdictions with prevailing wages and those without is conducted. Controlling for other influences on costs, prevailing wage requirements do not measurably affect the costs of school construction.

Chapter 4 examines the relationship between prevailing wage laws and the extent of competition between contractors. One of the original intents of prevailing wage laws was to limit competition from itinerant contractors who would import low wage labor from outside the local labor market. Little empirical work has been done in the past to determine the extent to which this original intent has been fulfilled. Regression analysis is used to determine the nature of the correlation between prevailing wage laws and whether contractors from outside the local construction labor market are successful in bidding for school construction projects. Prevailing wage regulations appear to restrict the ability of urban contractors to win rural construction contracts but encourages rural contractors winning of urban jobs.

Chapter 5 looks at the impact that prevailing wage laws have on construction workers' wages. Using data from the U.S. Census Bureau's County Business Pattems, the wages of construction workers relative to all employees' wages are compared for prevailing wage and non-prevailing wage jurisdictions. Construction workers eam a premium in prevailing wage jurisdictions over other nonagricultural workers. This premium ranges from 7 to 16 percent.

1

Prevailing Wage Laws in Maryland and the U. S.: Their History, Intent And Impact

Nationally, prevailing wage laws date back to the Republican Congress of 1868 that passed a National Eight-Hour Law that provided for an eight-hour day on public construction. Congressional debate made it clear that when the working day was shortened from 12 or 10 hours per day to eight, workers were still to be paid the prevailing daily wage. Ulysses Grant was the first President to call for the enforcement of prevailing wage regulations. Kansas was the first state (1891) to pass a prevailing wage law. In upholding the constitutionality of this law, Supreme Court Justice John Marshall Harlan stated that the purpose of the law was to raise labor standards not only in construction but by example for all blue collar workers. Seven states passed prevailing wage laws between 1891 (Kansas) and 1923 (Nebraska). Sixteen states passed prevailing wage laws between 1931 and 1937. Maryland's prevailing wage law was originally passed in 1945. Eventually all but nine states would pass prevailing wage laws. (See Table 1.)

At the national level, the Davis-Bacon Act, passed in 1931, required payment of prevailing wages on federally financed construction projects. However, the original language of the law was vague, and prevailing wages generally were not determined before the acceptance of bids. In 1935, President Roosevelt signed clarifying amendments to the act, which became the basis of the current Davis-Bacon Act.

Prevailing wage laws emerged from a concern that cutthroat competition over wages in construction would lead the industry down a low-wage, low-skill development path. This was said to put the quality of construction at risk and lead to an itinerant, footloose, low-wage construction labor force. Poor construction workers would make poor neighbors and potential burdens on the community. Reasonably paid construction workers, on the other hand, held out the possibility of being solid neighbors, good citizens and productive members of the community. Government, by the operation of prevailing wage laws, was supposed to get out of the business of cutting government costs by cutting the wages of its citizens. Whatever labor standards had been established, whatever wages prevailed in a local community; that is what the law said government should pay on public works.

Like other prevailing wage laws, Maryland's prevailing wage law establishes minimum wage levels to be paid on public construction projects. Maryland's current law enacted in 1969, requires that prevailing wages be paid to workers on any public construction project which receives 50 percent or more in state funding and is valued at $500,00 or more. An earlier prevailing wage law, adopted in 1945, applied to highway projects in certain parts of the state. Public school construction is subject to prevailing wage requirements in Maryland if 75 percent or more of the funding comes from the state. While this threshold appears to have been met in the majority of school construction projects in the 1980s, changes in the method of allocating state funding for school construction in 1989 reversed this situation so that most schools in Maryland are built without prevailing wage requirements. Allegany County and Baltimore City have enacted local prevailing wage laws that typically apply to school construction projects. Baltimore City's Ordinance, approved in 1973, required the payment of minimum wages on "each and every contract in excess of five thousand dollars made by the Mayor and City Council of Baltimore." The minimum wages required in these contracts would be set by the Board of Estimates at least once every year to conform to area prevailing wage rates.

Since the late 1970s, prevailing wage laws at both the national and state level have come under pressure. Calls for repeal or reform of prevailing wage laws have been motivated by the suspicion that they increase public construction costs and hinder competition. Opponents of prevailing wage laws argue that they raise construction costs. Repeal of these laws would result in cost savings on the order of 20 to 30 percent according to some. If such savings were possible, it is argued, school districts could build five schools for the price of four.

But while a number of states have moved to repeal their prevailing wage laws, Prince George's county is not alone in considering the adoption of stronger prevailing wage statutes. Kentucky, for example, recently re-extended its state prevailing wage law to cover school construction costs. Outside of the United States, the provincial government in British Columbia adopted a prevailing wage regulation through its Skill Development and Fair Wage Act in 1992.

Estimating the Impact of Prevailing Wage Laws on Construction Costs

In all cases, policy makers are concerned with the costs associated with prevailing wage laws. Claims of the added cost associated with prevailing wage laws and of cost savings from repeal have not been adequately supported by empirical evidence. Some efforts to estimate the impact of prevailing wages are construction costs have used differences in wage rates between union and nonunion construction workers. Yet wage differences have a moderate effect on total construction costs. Labor costs are less than a third of total construction costs and may have been falling. In 1972, for instance, in an analysis of school construction costs, John Olsen found that

onsite wages and salaries excluding benefits were 28.2 percent of total costs. (Monthly Labor Review, 1979, p. 40) According to the Census of Construction, labor costs, counting benefits, on all types of construction were 30 percent of total costs in 1977 and had fallen to 26 percent by 1987.

A second problem leads us to question estimates of the impact of prevailing wage legislation on construction costs based on an analysis of wage differences. Because they assume implicitly that the same number of hours of each type of labor will continue to be employed and that labor is of invariant productivity the impact on costs is driven by the wage differential. Neither of these assumptions is necessarily appropriate. The payment of prevailing wages may serve to attract workers with more experience and training. Increased labor productivity may result in fewer hours of labor being required thus offsetting the higher wage rate. For instance, Allen has shown that unionized labor in the construction industry is between 17 and 52 percent more productive than nonunion labor. (Allen, 1984) Additionally, higher wage rates may lead contractors to substitute capital or other inputs for labor, mitigating the impact of higher wages rates on total construction costs.

These possibilities, alone or in combination, make the assumptions underlying the analysis of construction costs based on wage differences inappropriate and cast doubt on the estimates of cost savings. Specifically, it is difficult to imagine how savings of 20 to 30 percent are possible. To get a true picture of the impact of prevailing wage legislation's impact on total construction costs, one could evaluate not only differences in wage rates, but also productivity differences, the incidence of substitution, administrative costs and other ways in which the impact of these laws is either mitigated or enhanced. An alternative approach is to simply examine total construction costs directly and compare costs in the presence and absence of prevailing wage laws controlling for project differences.

Few studies have attempted to estimate the impact of prevailing wage legislation based on ***actual total construction costs***. Fraundorf, et. al., in "The Effect of the Davis-Bacon Act on Construction Costs in Rural Areas," examined 215 new, non-residential construction projects built in 1977 and 1978. (Fraundorf, 1983) Approximately half of these projects were federal projects built under the purview of the federal Davis Bacon Act specifying that prevailing wages be paid. The other half were privately owned projects constructed without the requirement that prevailing wages be paid. Data on total construction costs were then compared using multivariate regression analysis to control for the effects of factors other than the presence of prevailing wage requirements. This study controlled for differences in the type of structure, the types of materials used, and project size in an effort to focus on cost differences associated with labor cost differentials resulting from the dichotomy in regulatory regimes. It also attempted to control for regional differences in construction costs by grouping projects into four regions; Northeast, North Central, South and West. The dependent variable in their regression analysis was the natural log of the project's bid price deflated to 1977 dollars. The authors of the study found, somewhat

surprisingly, that federal construction projects governed by Davis Bacon were 23 percent more expensive than private construction projects controlling for other cost influencing factors.

When they re-estimate their basic model to correct for disproportionate response rates by region and building type, Fraundorf finds that the impact of Davis Bacon on total construction costs is as high as 30 percent. While they admit that these results are high, especially in light of a public-private wage differential estimated at 20 percent, they point out that the results are consistent with other aspects of the data. In particular they do not find evidence of factor substitution which would mitigate the impact of prevailing wage requirements. However, this does not explain why the impact on total costs is greater than the wage differential. They explore other factors that might contribute to the higher costs of federal Davis Bacon projects such as record keeping and reporting, and decreased competition. Neither of these factors appear to significantly contribute to costs on federally funded construction. (Fraundorf, et. al, 1983, p. 145)

One possible problem with the Fraundorf study is that regional differences in construction costs may have been inadequately controlled for. Given the relatively small sample size, the authors of this study had to group construction projects into relatively broad regions. This creates the potential for comparing a private project in a low cost state such as Idaho with a public project in a high cost state such as California. Since both projects are considered to be in the same region the cost differential is incorrectly attributed to the impact of prevailing wages when in fact it is due to differences in the cost of living or cost of materials between Idaho and California.

Another problem may result from the way in which building types were classified. Each construction project was placed into one of six categories; recreational buildings, storage facilities, industrial buildings, office-commercial, medical and other. These categories were then used to find matches between public and private construction projects. However, these six categories were sufficiently broad to allow rather dissimilar buildings to be considered comparable. For instance, in the category storage facilities, warehouses were grouped with barns as well as airplane hangars. Likewise office buildings were in the same category as restaurants. Differences in costs between public and private buildings may have resulted from differences in structure type and not from prevailing wage requirements. (Fraundorf, 1982, pp. 14-15)

A second and potentially more serious problem with this study is that it fails to adequately isolate the impact of prevailing wage legislation on construction costs. Specifically, Fraundorf compares private projects constructed in the absence of prevailing wage legislation with federal (i.e., public) projects built using workers paid the prevailing wage. This comparison, while seemingly appropriate, contains the potential for confounding cost differences related to prevailing wage laws with cost differences resulting from other differences between private and public construction projects. The authors recognize this possibility when they point out, "If the government is more exacting than private owners in its quality standards, labor hours (and costs) and

possibly material costs would be higher on government projects." (Fraundorf, 1983, p. 145) It may also be that the difference in bidding procedures for public and private contracts or differences in the time horizon of public and private owners may contribute to higher costs in the public sector. In other words, the cost differential that Fraundorf attributes to the effect of prevailing wage legislation may in fact be due to differences between public and private construction.

While the Fraundorf study suffered from certain problems in the specification of the model, it opened the way for the use of regression analysis for studying the impact of prevailing wage laws on public construction costs. I have used a regression model patterned after the Fraundorf study to analyze total construction costs and prevailing wage laws in the U.S. and in British Columbia. In my analysis of state prevailing wage laws, I found that while public projects were significantly more expensive than similar private projects, this was true in both prevailing wage law states and non-prevailing wage law states. Consequently, the higher costs of public projects could not be attributed to the presence of prevailing wage laws. In fact, the estimated effect of prevailing wage laws, controlling for other factors, including differences in the type of ownership, was not statistically different from zero.

Table 1: Prevailing Wage Laws by State, Year Passed and Repealed

States having prevailing wage laws	Year passed
Alaska	1931

The Impact of Prevailing Wage Laws on School Construction Costs

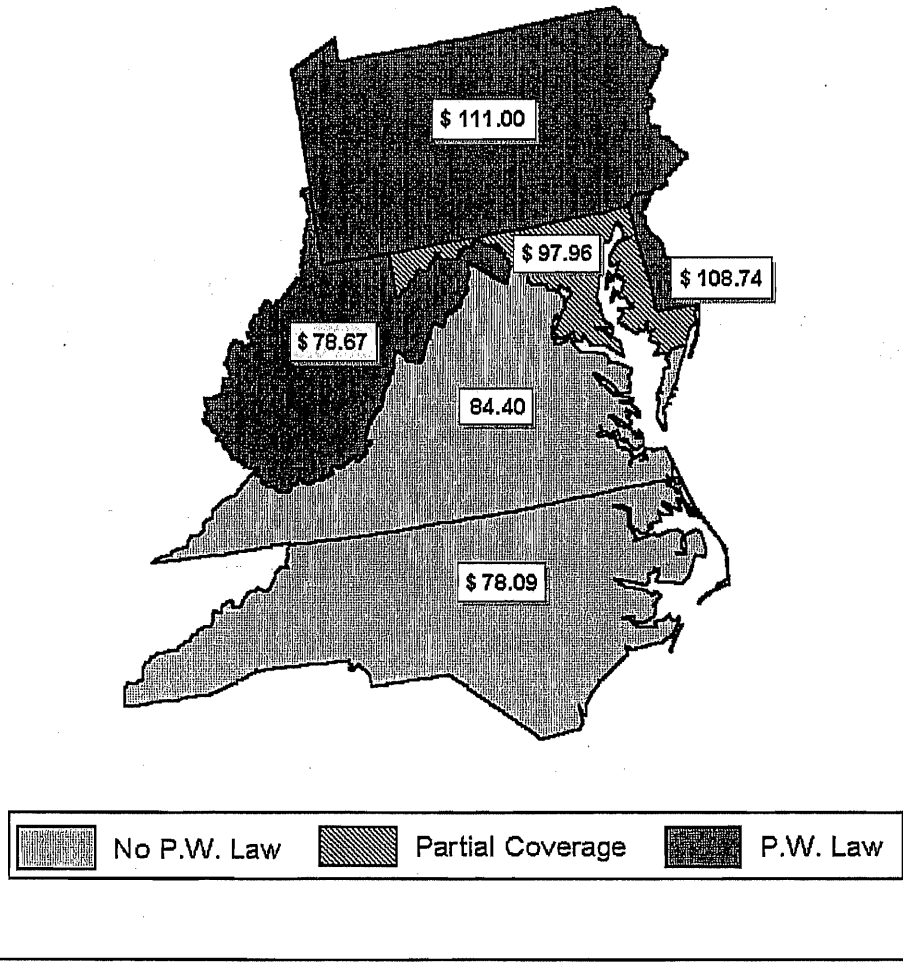
A Case Study of the School Construction Costs in Mid Atlantic States with and without Prevailing Wage Laws

One way of estimating the impact of prevailing wage laws on school construction projects that avoids the problems associated with the necessarily restrictive assumptions involved in wage rate comparisons, is to compare actual total school construction costs in the presence and absence of prevailing wage regulations. Maryland, while it has a state prevailing wage law, constructs most schools in the 1990s without requiring prevailing wages. In contrast, a number of surrounding states in the Mid Atlantic region have prevailing wage laws that generally apply to school projects. These include Pennsylvania, Delaware and West Virginia. Other states, namely, Virginia and North Carolina do not have a state prevailing wage law. This regional variation creates the opportunity for a "here and there" analysis of school construction costs using a multiple regression model similar to both the Fraundorf model and the model I have used previously to estimate the impact of state prevailing wage laws on public construction costs. Before that model is presented, I develop a more intuitive comparison of square foot costs for school construction.

A Comparison of School Construction Costs

As a first exercise in comparing school construction costs, the median square foot costs of new public schools built from 1991 to 1997 in each of the six states in the Mid Atlantic regionare presented in Figure 1. As can be seen, square foot costs are highest in Pennsylvania and Delaware and lowest in North Carolina, Virginia and West Virginia. While Pennsylvania and Delaware are two states with prevailing wage laws, and North Carolina and Virginia are states without prevailing wage laws, it would not necessarily be appropriate to conclude that prevailing wage laws raise school construction costs.

Figure 1: Median square foot school construction costs for Mid-Atlantic States with and without Prevailing wage laws.



Tables 2 and 3 show the median square foot construction costs for school construction projects in the mid Atlantic region over the period 1991 to July, 1997. The accepted bid price of the schools were inflated to 1997 dollars using the consumer price index-housing. This allows for a direct comparison of square foot costs for school construction projects in different years.[1] For all schools included in Table 2 the cost of schools in states without prevailing wage laws is $75.57 per square foot, while the square foot cost of schools in prevailing wage law states is $94.07. Schools in prevailing wage law states appear to cost 24.5 percent more. When school construction projects are disaggregated into elementary, middle and high school projects, we see that this difference is attributable to substantial differences in middle school and high school construction projects. The cost of elementary school projects in prevailing wage law states is actually lower.

Table 2: Square Foot School Construction Costs by States with and without State Prevailing Wage Laws (notice caution in footnote)

Square Foot School Construction Cost by States with and without State Prevailing Wage Laws

LEGAL STATUS	ELEMENTARY SCHOOLS Median	Number of Obs.	MIDDLE SCHOOLS Median	Number of Obs.	HIGH SCHOOLS Median	Number of Obs.
No Law	$82	N=14	$80	N=6	$67	N=8
Has Law	$60	N=4	$112	N=4	$124	N=1
% Increase in Cost	-26.7%		40.5%		85.4%	

Note: Data are for 1991 to 1997 Inflated to 1997 Dollars Using the Consumer Price Index-Housing
Source: F.W. Dodge Corporation Start Cost Data
Caution: these data are for private schools only--no public schools are included

However, Table 2 presents data for private schools only. These schools were built without prevailing wage regulations regardless of whether or not they were in a state with a prevailing wage law. Prevailing wage laws cover public projects only. The fact that the median square foot cost was higher for private schools in states with prevailing wage laws simply reflects the fact that the states without prevailing wage laws in the Mid Atlantic region are generally further south and may have dramatically different costs of living and costs of construction. Square foot construction costs are generally lower in these regions for private as well as public projects for a variety of reasons. Thus, in assessing school construction costs in states with and without state prevailing wage laws, we will need to take into consideration overall differences in construction costs in these groups of states.

[1] The data are from the F. W. Dodge Corporation, the standard service provider of project information in the construction industry. Alternative price indices were tried to examine whether results were dependent on the price index chosen. Results were basically the same regardless of the price index used to translate information into constant 1997 dollars.

Table 3 divides school construction into publicly and privately built schools. Combining all school construction projects, public schools cost $84.09 per square foot compared to $75.57 for private schools. Public schools cost 11.3% more per square foot than private schools. When school projects are disaggregated by type, public elementary schools cost 3 percent more than private schools, and public high schools cost more than 26% more per square foot to build than private high schools. **These data, however, refer only to public and private schools built in states that do not have a state prevailing wage law.** Thus, the public-private cost differential cannot be laid at the foot of prevailing wage regulations. This reminds us that in assessing the effects of prevailing wage regulations on building costs, we must keep in mind that similar public and private buildings, such as elementary schools or high schools, may differ in the quality and nature of their construction.

Table 3: Square Foot School Construction Costs by Public and Private Projects

Square Foot Public and Private School Construction Costs Compared							
OWNERSHIP OF PROJECT	Number of Obs.	ELEMENTARY SCHOOLS Median Sq. Ft. Cost	Number of Obs.	MIDDLE SCHOOLS Median Sq. Ft. Cost	Number of Obs.	HIGH SCHOOLS Median Sq. Ft. Cost	Number of Obs.
Private Project	N=80	$81.85	N=14	$79.78	N=6	$66.87	N=8
Public Project	N=52	$84.40	N=170	$80.43	N=48	$84.73	N=34
% Increase in Public Cost		3.1%		0.8%		26.7%

Note: Public Projects exclude Federal projects.
Source: F.W. Dodge Corporation Start Cost Data

Table 4 presents a more appropriate comparison, though it points to the problem of small subsample sizes at the same time. The square foot cost of new construction for elementary, middle and high schools is presented. These data are first broken down into states with state prevailing wage laws and states that do not have state prevailing wage laws. Then the data are broken down a second time into public schools and private schools. Finally, for both states with laws and states without laws, a comparison is made. How much more or less expensive is it to build a public school? Table 4 compares 76 public elementary schools in states with a prevailing wage law to the construction of 4 privately built elementary schools in those states. The public elementary schools cost 80% more per square foot than the private elementary schools. Perhaps this implies that prevailing wage laws raise elementary school construction costs by about 80%, though the magnitude of this cost differential exceeds virtually all estimates of the impact of prevailing wage requirements on costs.

Public middle schools actually cost 2.8% **less** than private middle schools in prevailing wage law states—compared to the .8% difference in states without

prevailing wage laws. Public high schools in non-prevailing wage law states cost 26.7% more than private high schools in those states. In stark contrast, in prevailing wage law states, public high schools cost 32.7% **less** than private high schools, though there is only one private high school (and an exceptionally costly one at that) in prevailing wage law states. While these small subsamples make any inference drawn from these comparisons shaky, the data in Table 4 do not provide strong support for the contention that prevailing wage laws raise school construction costs.

Table 4: Square Foot Cost of New School Construction Broken Down by State WITH and WITHOUT State Prevailing Wage Laws and then Broken Down by Public and Private Schools

LEGAL STATUS	OWNERSHIP OF PROJECT	ELEMENTARY SCHOOLS Median Sq. Ft. Cost	Number of Obs.	MIDDLE SCHOOLS Median Sq. Ft. Cost	Number of Obs.	HIGH SCHOOLS Median Sq. Ft. Cost	Number of Obs.
NO LAW STATE	Private Project	$81.85	N=14	$79.78	N=6	$66.87	N=8

Using a Linear Regression Model to Measure the Effect of Prevailing Wage Laws on School Construction Costs.

In economics, a statistical technique called linear regression is a standard method for measuring the effect one factor has upon another controlling for other things. For instance, we can develop a model designed to predict the cost of building a school based on

- Whether it is an elementary, middle or high school
- how many square feet are in the project
- how many stories the building is
- what kind of building materials are used in construction
- whether or not the school is public or private, and

Controlling for these factors, we can then ask the question: if the school is being publicly built in a state with a prevailing wage law, will it cost more? This statistical technique is the same used by Fraundorf, et. al. to examine the impact of the Davis Bacon Act on public construction costs.

Table 5 presents a linear regression model that predicts total school construction costs (excluding land acquisition, architect fees and construction management fees) based on the size of the building, the number of stories, the type of building materials used, whether or not the school is an elementary, middle or high school, whether the school is public or private and whether the school was built under a prevailing wage law.

Table 5: A "Here-There" Cross State Linear Regression Model Predicting Total Construction Costs for New Elementary, Middle and High Schools, 1991-1997

Constant	-9.866	Yes	0%
Log of Total Square Feet	0.872	Yes	0%
Log of the Number of Stories	0.066	Yes	10%
Marker for Wall Board Framing	-0.016	No	60%
Marker for Wood Framing	0.055	Yes	8%
Marker for Steel Framing	-0.239	No	31%
Marker for Cement	-0.051	No	49%
Middle School	0.007	No	84%
High School	0.046	No	26%
Public Project	0.264	Yes	0%
Log of Regional CPI	3.334	Yes	0%
Effect of Prevailing Wage Law	0.038	No	26%

Dependent Variable: Log of the Total Project Value in 1997 Dollars Deflating with the CPI-Housing
Adjusted R Square = .887
Number of Observations = 358

This linear regression model covers the construction of schools in Delaware, Maryland, North Carolina, Pennsylvania, Virginia and West Virginia. In order to control for cost of living differences across states a cost of living index was included as a control variable. The model is a good fit of the data (as indicated by an adjusted R-square statistic of 89%).

The model indicates that as the size of a school goes up, the total cost of the school rises. But it also indicates that there are economies of scale associated with larger schools so that while the total cost goes up with increasing size, the square foot cost goes down. This is shown in the estimated effect (or coefficient) for the variable--the log of total square feet for the school being built. This coefficient is .87. This means that if you doubled the size of a school from (say) 50,000 square feet to 100,000 square feet, the size would go up by 100% but the cost would only go up by 87%. This indicates that as schools get larger, the total cost goes up, but the square foot cost goes down.

The model in Table 5 controls for a variety of technical factors--total square feet, number of stories, type of building materials--and the model also controls for whether or not a middle school costs more than an elementary school or whether a high school costs more than an elementary school. For a middle school of exactly the same size as an elementary school, built of the same material, having the same number of stories, the model estimates that a

middle school will cost .7% more. A high school of identical size, using the same materials will cost 4.6% more. Neither of these results, however, are statistically significant. There are three standard levels of statistical significance--1%, 5% and 10%. In simple terms, 10% means statistically I have a 1-in-10 chance of being wrong, and 1% means I have a 1-in-100 chance of being wrong. Rarely do economists accept higher levels of probability in this test as statistically significant. This means that for all practical purposes, an elementary school, a middle school and a high school of the same size will cost the same amount.

Now the model asks the question whether or not public schools cost more than private schools controlling for other factors such as size. The model estimates that public schools (in states with and without prevailing wage laws) cost 26.4% more than private schools. The estimated cost difference associated with public school buildings is statistically significant at all standard levels of probability. This cost difference may be due to design differences or other features typically found in public schools compared to private schools. Public school buildings may have a longer life span than private school buildings, or other factors may account for this cost difference. But this cost difference exists in both states with and without prevailing wage laws. This is not a cost differential that can be attributed to prevailing wage laws simply because this cost differential is found where there are no prevailing wage regulations.

Finally, the model estimates the cost effect of prevailing wage laws. The model estimates that controlling for other factors, building a public school in a prevailing wage law state will cost 3.8% more than building the same public school in a state without a prevailing wage law. However, this is not a statistically significant estimate. For all practical purposes there is no statistical difference between building a public school in a state with or without a prevailing wage law. How can the model say there is no difference in the cost of public school construction in states with prevailing wage laws compared to states without prevailing wage laws when Table 4 suggests that on average square foot public school construction costs are higher in states with prevailing wage laws? Once again, the answer is that, on average, private school construction costs are also higher in states with prevailing wage laws. Once these cross-state differences in construction costs are accounted for, there is no statistically measurable effect on total construction costs associated with prevailing wage regulations.

Conclusion

A "here-and-there" linear regression model was developed to estimate the effect of prevailing wage regulations on total construction costs for schools, controlling for other factors. This model controlled for the type of school, the size of the project, and building characteristics. It also controlled for general differences in construction costs between states with and without prevailing wage

laws and general differences between the cost of public and private construction (whether or not done under prevailing wage regulations). Controlling for these factors, this model could find no statistically significant impact on total construction costs due to prevailing wage requirements.

3

The Impact of Prevailing Wage Laws on School Construction Costs in Maryland

Introduction

In Chapter 2 we compared school construction costs in mid Atlantic states that have prevailing wage laws with costs in those states without prevailing wage laws in the mid Atlantic region. In this chapter, we exploit local variation in the application of prevailing wage laws to compare school construction costs within the state of Maryland. Unlike the previous comparison where the opportunity for dramatic differences in the cost of living could contaminate the results, comparing school construction costs in those jurisdictions with prevailing wage requirements in Maryland to costs of school construction for those jurisdictions where prevailing wages are not paid provides a clearer focus on the law's impact.

A Reconstruction of the Department of Fiscal Services' Study

This is not the first time the impact of prevailing wage laws on school construction costs in Maryland has been examined. A report prepared by the Department of Fiscal Services (January 1989) ten years earlier evaluated the impact of Maryland's prevailing wage with a special focus on public school construction.

The study examined 20 school projects funded by the Interagency Committee for Public School Construction in 1987 and 1988. Of these projects, 14 were built under the guise of prevailing wages while the remaining 6 were not. A multiple regression analysis was performed using square foot cost as the dependent variable and proxies for building design, location, and the applicability of prevailing wage regulations as independent variables. The model estimated that prevailing wage requirements raised school construction costs by approximately $11 per square foot, or roughly 15 percent.

The report by the Department of Fiscal Services includes a detailed discussion of the methodology and data used in coming to this conclusion. These data allow me to replicate the earlier study and discuss some problems

associated with the methodology and findings. I have reproduced the data from the Appendix 4 of the Department of Fiscal Services report in Table 6.

Source: Department of Fiscal Services, "Maryland's Prevailing Wage Law: A Study of Costs and Effects"

Two potentially serious, and related, problems with the 1989 study are the limited number of observations and the intermingling of new schools with renovation projects. Of the 20 projects listed, 8 are new schools and the remaining 12 involve at least some renovation work. If we look only at the 8 new schools included in the study, there are 2 projects built in the absence of prevailing wage requirements and 6 schools constructed with prevailing wages. Comparing the mean square foot costs of construction, we find that schools built with prevailing wages cost $88.50 per square foot while schools built without prevailing wages averaged $92.50 per square foot. Prevailing wage schools were, on average, 4.5 percent less expensive. Given the variation even amongst new school costs, this difference is not statistically significant. In fact a careful examination of the raw data indicates that the most expensive new school in the sample was built without prevailing wage requirements. This observation is responsible for inflating the average cost of new schools in the absence of prevailing wages.

In order to overcome the problem of small sample size, school projects that included renovation work were added to the sample. When all 20 school

construction projects are compared, the average square foot costs of projects not requiring prevailing wages is $67.83 compared to $76.64 for those projects paying prevailing wages. This difference of 13 percent is not, however, statistically significant given the variation across both groups.

A large part of the variation in school construction costs can be attributed to the amount of renovation work included in the project. Renovation work itself is variable and affects square foot costs differently. For example, renovation work such as installing a new boiler would increase square foot costs significantly both because of the expense of materials and the small square footage involved. Painting, on the other hand, may be far less expensive overall, but also involve a large area, substantially lowering the square foot costs. Overall, square foot costs appear to decline as the percentage of square foot renovation work increases.

In order to illustrate some of the problems with the Department of Fiscal Services study I reconstruct their regression analysis. To begin with I use the 8 observations on new school projects and regress square foot costs against a dummy variable for the prevailing wage. Dummy variables are variables that indicate the presence or absence of a quality or characteristic, in this case, the presence or absence of prevailing wage requirements. The results of this regression are presented in Table 7. In the first model the estimated effect of prevailing wages on square foot costs is negative though not statistically significant. In addition, overall, the regression equation does not produce statistically significant results, pointing to the need to increase the number of observations. In the next model, renovation projects are included with new school projects. In addition to the prevailing wage variable, the percent of renovation work in the project is included as an explanatory variable. As expected, the percent of renovation work is negatively correlated with square foot costs as indicated by the minus sign on the coefficient. The effect of prevailing wage requirements, controlling for renovation work, is now positive though not statistically significant. In other words, while the sign of the estimated coefficient is positive, we cannot conclude that the effect is significantly different from zero. Thus prevailing wage requirements do not appear to have a measurable impact on costs!

The Department of Fiscal Services study also included information on other factors that could affect costs. These included the percent of total costs attributable to site preparation, and a control for region. Including site preparation in our regression equation, we find that site preparation is positively correlated with square foot costs but not significantly so. The percent renovation work remains significantly negatively correlated to square foot costs. Most importantly, while the estimated coefficient on the prevailing wage variable is still positive it is not statistically significant. Including the regional control, which identifies school projects in the Baltimore area, leaves the prevailing wage variable still not statistically different from zero.

Table 7: Regression Results for 20 Public School Projects Used in the Department of Fiscal Services Report on Prevailing Wage Laws, 1989

Variable	Model 1	Model 2	Model 3	Model 4	Model 5
Prevailing Wage	-4	8.222	5.987	7.468	12.3
	(-.426)	(-1.351)	(0.82)	(1.11)	(2.05)
% Sq Ft Renovation	-	-0.348	-0.294	-0.295	-0.177
		(-5.006)	(-2.734)	(-2.636)	(-1.684)
% Site Preparation	-	-	0.87	0.872	2.238
			(0.66)	(0.64)	(1.77)
Regional Control	-	-	-	0.733	0.906
				(0.08)	(0.12)
% Special Conds.	-	-	-	-	3.215
					(2.62)
Constant	92.5	83.76	74.784	74.825	52.731
	(11.38)	(13.95)	(5.01)	(4.85)	(3.39)
No. of Observations	8	20	20	20	20
Adjusted R Square	-0.132	0.57	0.555	0.525	0.659

Note: t-statistics are in parentheses.

Only when the control for special conditions costs is included in the regression model, as I do in the last column in Table 7, does the effect of prevailing wage requirements become significant. But this result, in which the prevailing wage variable is significantly positive for the first time, appears to hinge on the inclusion of one variable. This exercise in replication, if nothing else, points out the fragility of the results reported in the earlier study and calls for further efforts to estimate the effect of prevailing wage laws on school costs.

A Regression Analysis of School Construction Costs in Maryland

In order to overcome the primary limitation of the earlier analysis of school costs in the presence of prevailing wages, I use Dodge data from 1991 to 1997 to estimate a regression model like that presented in Chapter 2. In this case the observations used are limited to the state of Maryland. In contrast to the period used in the Department of Fiscal Services report, when a majority of schools were built with prevailing wages, changes in the way school projects were funded have reversed the situation so that the vast majority of school construction projects do not require the payment of prevailing wages. Consequently finding a sufficiently large number of prevailing wage projects for comparison was a challenge. Allegany County and Baltimore City have enacted local prevailing wage requirements for school projects, providing the bulk of observations. In addition, the Maryland State Department of Labor has identified a limited number of other school projects for which prevailing wage determinations were requested. These were projects for which the Maryland state law (requiring 75 percent state funding) applied.

The distribution of school projects by county and by type of construction within Maryland is presented in Table 8. Of the 186 school construction projects from 1991 to 1997, seventy one projects (38%) were new schools. The vast majority of projects were concentrated in Anne Arundel, Baltimore, Montgomery, and Prince George's counties. Eleven projects (6%) were identified as prevailing wage projects. Nearly 60 percent of the projects were elementary schools, with the others almost evenly divided between middle schools and high schools.

Table 8: Distribution of School Projects by County and type of Construction

County	Elementary	Middle	High School

Table 9 presents the results of a linear regression model identical to that used in the previous chapter that predicts total school construction costs (excluding land acquisition, architect fees and construction management fees) based on the size of the building, the number of stories, the type of building

materials used, whether or not the school is an elementary, middle or high school, whether the school is public or private and whether the school was built under a prevailing wage law.

Table 9: Regression Results Estimating School Construction Costs within Maryland

Variable	Estimated Effect	Statistically Significant	Probability
Constant	7.383	Yes	0%
Log of Total Square Feet	0.678	Yes	0%
Log of the Number of Stories	-0.02	No	84%
Marker for Wall Board Framing	-0.017	No	86%
Marker for Wood Framing	0.162	Yes	10%
Marker for Cement	-0.022	No	90%
Marker for Steel Framing	-0.167	No	57%
Middle School	-0.019	No	85%
High School	0.329	Yes	0%
Renovation	-0.252	Yes	0%
Public School	0.406	Yes	0%
Effect of Prevailing Wage Law	0.018	No	90%

Dependent Variable: Log of the Total Project Value in 1997 Dollars Deflating with the CPI-Housing
Adjusted R Square = .817
Number of Observations = 124

Just as in the case of the Cross state regression model presented in Chapter 2 the model used here to analyze school construction costs within Maryland is a good fit of the data (as indicated by an adjusted R-square statistic of 82%). In other words, 82 percent of the variation in total school construction costs is accounted for by the explanatory variables listed in Table 9.

Again, the model indicates that as the size of a school goes up, the total cost of the school rises. But it also indicates that there are economies of scale associated with larger schools so that while the total cost goes up with increasing size, the square foot cost goes down. The estimated effect (or coefficient) for the variable--the log of total square feet for the school being built-- is .68 indicating that as the square feet of a school project doubles, the cost increases by only 68 percent.

The model in Table 9 controls for a variety of technical factors--total square feet, number of stories, type of building materials--and the model also controls for whether or not a middle school costs more than an elementary school or whether a high school costs more than an elementary school. For a middle school of exactly the same size as an elementary school, built of the same material, having the same number of stories, the model estimates that a middle school will cost 2 percent less. This result, however, is not statistically significant. On the other hand, a high school of identical size, using the same materials will cost 33% more.

Now the model asks the question whether or not public schools cost more than private schools controlling for other factors such as size. The model estimates that public schools (in areas with and without prevailing wage laws) cost 40.6% more than private schools. The estimated cost difference associated with public school buildings is statistically significant at all standard levels of probability. This result is consistent with the result for the cross state comparison in Chapter 2 and, again, is likely due to design differences or other features typically found in public schools compared to private schools. It is important to recognize that this cost difference exists in both areas with and without prevailing wage laws, and, as such, is not a cost differential that can be attributed to prevailing wage laws simply because this cost differential is found where there are no prevailing wage regulations.

Finally, the model estimates the cost effect of prevailing wage laws. The model estimates that controlling for other factors, building a public school in a prevailing wage law jurisdiction within Maryland will cost 1.9% more than building the same public school without prevailing wage requirements. However, this is not a statistically significant estimate. For all practical purposes there is no statistical difference between building a public school with prevailing wages and building a public school without prevailing wages.

4

Prevailing Wage Laws And Competition Between Contractors

Date Limitations

One of the original rationales for prevailing wage laws was the proposition that such regulations would discourage outside contractors from bringing into an area low wage labor that undercut local wage and working conditions. No academic studies have been done to test whether or not this is indeed one of the effects of these regulations.

This report is able to shed some light on this question using F.W. Dodge reports of public school contracts awarded to general contractors in the six states of Maryland, Pennsylvania, Delaware, West Virginia, Virginia and North Carolina over the period October 1996 to September 1998. The data are limited to information regarding the origin of general contractors. No information regarding the origin of subcontractors is available.

The data also do not provide information regarding the workers employed by the contractor. It is possible for an outside general contractor to come into an area and hire many, if not all, workers locally. In other words, the data do not distinguish between an outside contractor bringing in cheap labor and an outside contractor hiring local labor at wage rates consistent with local labor market conditions.

Definition of Outside Contractor

With these data limitations in mind, the following analysis looks at three questions. First, within states, do prevailing wage laws influence the movement of urban contractors from major metropolitan areas to suburban and rural areas? Second, within states, do prevailing wage laws influence the movement of suburban and rural contractors into major metropolitan areas? Three, across states, do prevailing wage laws influence the movement of out-of-state contractors into other states influenced?

Analytical Framework

Obviously factors other than prevailing wage regulations can influence whether or not outside contractors bid on distant jobs. In this analysis we are able to control for two of these factors.

First, the size of the project will influence the universe of contractors willing to bid on that project. Presumably there are economies of scale that will make distant projects that are larger more attractive to potential bidders. Thus, all other things being equal, the larger the project the more likely it is that outside contractors will bid on the job and the more likely it is that one of those outside contractors will win the bid. Thus, we predict that the dollar value of a school project will be positively correlated with the probability that the general contractor is an outside contractor.

Second, population density will make it more likely that an "outside" contractor will be close at hand. Heavily urbanized areas, such as around Philadelphia or Baltimore, are more likely to be exposed to and provide outside contractors compared to rural areas of West Virginia or Eastern North Carolina. Using the percent urban of a state's population as a proxy for the density of economic activity and the proximity of outside contractors, we predict that the more urban an area, the more likely will the contractor winning a school project be an outside contractor.

With these two controls in place, we examine whether or not prevailing wage regulations influence the probability that the winning contractor on a public school job is an outside contractor.

General Patterns in the Data

Urban-Suburban-Rural Patterns within State

Within the six states--Maryland, Delaware, Pennsylvania, West Virginia, Virginia and North Carolina, the data provide 601 cases where a public school project was awarded to a general contractor. Of these awards, 368 were awarded without the influence of prevailing wage regulations while 233 were awarded under prevailing wage regulations. In order to examine the flow of contractors between urban, suburban and rural areas, these contract awards and contractors were divided into urban and non-urban areas based on the zip codes of the school owner and the zip codes of the general contractor. Within the six states under analysis, Baltimore, Philadelphia, Wilmington, Pittsburgh, Richmond, Norfolk-Virginia Beach-Newport News, Greensboro-Winston Salem-High Point and Raleigh-Durham-Chapel Hill were determined to be major metropolitan areas. No area in West Virginia was classified as a major metropolitan area.

Whenever the zip code of a general contractor or owner fell within the urban boundaries of one of these major metropolitan areas, that owner or contractor was labeled an urban owner or contractor. All remaining owners and contractors within these six states were put in one suburban-or-rural group. This labeling allows us to analyze the movement of contractors within these six states across this line drawn between major metropolitan centers and other areas within each state.

Table 10: Distribution of Contractors Working Inside and Outside "Local" Area

	Law	No Law
City Contractor Working in Suburban or Rural Area	11%	13%
Suburban or Rural Contractor Working in City	10%	5%
Cross-Boundary Work Subtotal	**21%**	**18%**
City Contractor Working in City	8%	31%
Suburban or Rural Contractor Working in Suburbs or Rural Area	71%	51%
Within Boundary Work Subtotal	**79%**	**82%**

Table 10 excludes out-of-state contractors in order to focus on the movement of general contractors within each state working on public school projects. Table 10 shows that within these six states most bids are won by general contractors coming from within the sector from which the bid is offered. This is true both for jurisdictions that enforce prevailing wage regulations and jurisdictions that do not have these laws. For instance, 79% of all bids under prevailing wage regulations were won by contractors coming from within the sector from which the bid originated. In comparison, 82% of the bids offered without prevailing wage regulations were won by contractors coming from within the sector from which the bid originated. Thus, regardless of legal regimes, roughly four-out-of-five in-state general contractors working on public schools came from the same sector as the school owner.

Movement of Contractors within the Suburban-Rural Sector

In this analysis, the suburban-rural sector in each state is geographically large. There may be considerable geographical movement of contractors within each state within the suburban-rural sector. The potential distance traveled, of course, depends upon the size of the state.

Table 11: Measurement of Distance Traveled by Differences in Zip Code

	Average Zip Code Difference Between Owner and General Contractor	Zip Code of Owner			Average Difference as a Percent of the Range
		Minimum	Maximum	Range	
WV Law	347	24740	26807	2067	17%
MD No Law	14	21629	21740	111	13%
VA No Law	294	22030	24588	2558	12%
DE Law	21	19711	19901	190	11%
PA Law	412	15037	19609	4572	9%
NC No Law	147	27016	28906	1890	8%

Table 11 measures the distance traveled by suburban and rural general contractors to build public schools by using zip codes. This table only looks at suburban and rural contractors within a state who received a public school construction contractor within the suburban-rural sector of that state. In column three the average difference between the zip code of the school owner and the general contractor is reported.[2] Columns four, five and six report the minimum and maximum zip codes of school owners in each state and the range or difference between the top zip code and the bottom zip code. The range of zip codes is correlated to the size of suburban-rural sector of the state. The range for Maryland is smaller than the range for Delaware simply because the school projects put out to bid in Delaware during the period of this study were geographically more disperse than the suburban and rural jobs let out to bid in Maryland. Thus, the zip code range measures the size of the public school market within the suburban-rural sector of each state rather than the geographical size of this sector. Only when every corner of the state has jobs open to bid will the zip code range be perfectly correlated with the geographical range of the state.

The focus column in Table 11 is the last column which shows the average difference between the zip code of the owner and the zip code of the general contractor as a percent of the range of zip codes for owners. Obviously in-state contractors in Delaware cannot move as far to jobs as instate contractors in Pennsylvania or Virginia. This percentage standardizes for the different sizes of each state. In absolute terms, Delaware contractors do not move nearly as far as Pennsylvania contractors. In relative (or percentage) terms, Delaware and Pennsylvania contractors move similar distances.

In either absolute or relative terms, there is no clear pattern of movement correlated to the presence or absence of prevailing wage laws. In absolute terms, Pennsylvania and West Virginia suburban and rural contractors move the most while Delaware contractors move second to the least. These are the three states where prevailing wage laws govern suburban and rural public school construction. In relative terms, West Virginia contractors move the most followed by Virginia and Maryland. There is no obvious stacking of these states' contractor mobility patterns in relative terms by legal policy. It may be that patterns would emerge if the suburban-rural sector was broken apart into two sectors and/or additional states were added to the analysis. However, these research extensions were not possible within the time frame of this report.

[2] In technical terms, the absolute value of the difference is reported. Using absolute values avoids the problems created by two equally distant contractors but where one has a lower zip code than the owner and the other has a higher zip code. Using absolute values treats these two hypothetical contractors as equally distant from the owner.

An Analysis of the Influence of Prevailing Wage Laws on the Movement of Contractors across the Major Metropolitan Boundary Controlling for Other Factors

The basic conclusion of the foregoing analysis is that most general contractors building schools are local. However, at the margin, distant contractors do come into local areas. And their impact on local labor markets and construction markets may be disproportional to their numbers. Consequently, it is reasonable to pursue the question--what determines the crossing of the line? What determines the movement of an urban contractor into the suburban-rural sector of public school construction. What determines the movement of a suburban or rural contractor into the urban sector? What determines the movement of an out-of-state contractor into a state?

To answer these questions we again use the statistical technique of multivariate regression analysis. The specific form of regression analysis used to answer the above questions is called logistic regression analysis. This is the appropriate tool when asking a yes-no question such as is the contractor an outside contractor? What a logistic regression model does is ask a question such as--will the contractor be an urban contractor working in a rural area (yes-no)--and then pose a set of variables designed to predict whether or not under certain circumstances the contractor in the rural area will have come from a major metropolitan area. What we want to do is design such a model and insert into it the presence or absence of prevailing wage regulations to focus on the question do prevailing wage laws influence the presence or absence of outside contractors.

What other variables might influence whether or not a contractor will be a local or outside contractor? We propose three factors or variables that might help decide whether or not a local contract is won by an outside general contractor. First. the size of the contract. Our reasoning here is as follows. It costs money to bid on contracts. The farther away the project, the more information the contractor has to gather, the more costs and risks the contractor undertakes. Larger jobs are more likely to cover these risks and costs. So distant contractors are more likely to bid on and therefore more likely to win big jobs compared to smaller jobs. Our data set includes both new school construction, and additions, renovations and repairs. We expect outside contractors to be more common when these jobs are large. We will measure size by the total dollar value of the project.

Second, economies can be densely populated or sparsely populated. In heavily urbanized areas the physical distance between a major metropolitan area and suburban and rural areas will be closer than in less urbanized, more sparsely populated areas. The cost of crossing the line between the suburbs and the city or even between states will be lower the extent to which states are more urban.

So we hypothesize that the states within our sample that are more urbanized are more likely to experience the use of outside contractors.

Third, the wider the difference between the wages paid between a city and the surrounding suburban and rural areas the more likely it will be that suburban and rural contractors will move into the urban area and that urban contractors will not move out into suburban and rural areas. Furthermore, we expect that the higher one state's wages are relative to another, the more likely will out-of-state contractors come into that state. These are the expectations that we had in building what turned out to be four logistic regression models. One asks what is the probability that a urban contractor would win a suburban or rural school construction project? The second asks what it the probability that a suburban or rural contractor would win and urban school project? And the last two ask the question what is the probability that an out-of-state contractor would win an in-state school job? Table 12 shows the results of this statistical modeling.

Table 12: Regression Results Predicting the Probability of a Contractor Being Awarded a School Construction Project

Variables in Model:	Urban Contractor to Rural Owner		Rural Contractor to Urban Owner		Out of State into State

Total Number of Contractors	572		572		634		633	
Number of Contractors Working Across Line	57		39		61		61	

Numbers in Bold Are Statistically Significant

In columns a and b of Table 12, the results of modeling the question what is the probability that an urban contractor would win a suburban or rural school project are presented. There is a constant and four variables in the model. There are 572 observations, 57 of which are urban contractors who won suburban-rural public school projects. The Chi Square statistic indicates that the model does a reasonable job of predicting the observed outcomes. In all these models the constant is in for technical reasons. Thus for purposes of general exposition this variable can be ignored. Now to the interesting stuff.

As we expected, the sign on the coefficient in column (a) for total cost of project is positive indicating that the larger the rural project--all other things being

equal--the more likely is an urban contractor to bid on that project and therefore the more likely is the prospect that an urban contractor will win that project. The model also reports that the more urbanized a state, the more likely will urban contractors venture across the line into suburban and rural school construction. However, this result is not statistically significant. The higher the urban wage relative to suburban and rural wages--the wider is this wage gap--the less likely is the urban contractor to win jobs in suburban and rural areas. This result is statistically significant. Finally, controlling for these factors, the presence of a prevailing wage law discourages urban contractors from working in rural areas but again this is not statistically significant. In short, we can say that the bigger the project the more likely an urban contractor will venture forth into outlying areas but the wider the wage gap between higher paying urban areas and lower paying outlying areas, the less likely will the urban contractor move out into these areas. Prevailing wage laws do not appear to strongly affect this dynamic.

The dynamic determining whether a rural contractor comes into the city is somewhat different. Not surprisingly, the wider the wage gap between the rural and urban area, the more likely will the rural/suburban contractor win jobs in the urban area. The more densely packed the economy as measured by urbanization, the more likely will the suburban/rural contractor cross the line into urban school construction. These are both expected and statistically significant results. Now for some surprises. First of all, rural contractors are more likely to take on urban school construction to the extent that the urban project is small (not large). This result is statistically significant and is contrary to the expectations we had when we built the model. Why would it be that urban contractors go after larger projects in rural areas but that suburban/rural contractors go after smaller projects in urban areas? Our data include both new school construction, additions, renovations and repairs as long as the total value of the project exceeded $750,000. The average value of a project was over $4 million. We suspect that suburban/rural general contractors competing in urban areas are at a disadvantage if the project is large or technical. They may have a less skilled work force or support staff. Consequently, they aim at smaller, less demanding projects. Conversely, the city contractors may be best positioned in suburban/rural markets when the project is large and technically demanding. Thus, the result we obtained may not be as surprising as it seems.

But prevailing wage laws (all other things being equal) encourage the use of suburban/rural contractors in urban areas. This is told from the positive sign to the coefficient for prevailing wage laws in column (c) and this result is statistically significant. Now this is a surprise. Urban areas have higher wage rates. In Virginia and North Carolina there are no regulations requiring that a suburban/rural contractor pay those higher wage rates. But in Maryland, a suburban/rural contractor working in Baltimore must pay those higher rates. This is also true in Pennsylvania and Delaware. (West Virginia does not have a major metropolitan area.) Why would forcing suburban/rural contractors into

paying urban wage rates facilitate suburban/rural contractors winning urban jobs?

We can think of two possible explanations. First, this result may be an artifact of the age and structure of cities in the North versus the South. The Southern cities in our sample are conglomerate cities--Greensboro, Winston Salem, High Point--Raleigh, Durham, Chapel Hill. Our Northern cities (Baltimore, Pittsburgh, Philadelphia) are not sprawling conglomerates. Furthermore, Table 10 shows that a greater proportion of all school construction in the South is occurring in the major metropolitan areas compared to the metropolitan areas in the North. Perhaps in the Northern city contractors have moved their offices to the suburbs where more work is occurring and yet these contractors maintain their city operations as well. Perhaps in the South the institutional gap between city and suburb-rural areas has not been bridged by the movement of city contractors outside the metropolitan areas.

A related explanation involves unionization. Construction is more unionized in the North. Union contractors move from area to area but hire locally and pre-determined locally bargained wages. Collectively bargained contracts and the provision of local labor from hiring halls reduces the uncertainty of ramping up a job in a distant area. Perhaps the positive effect of prevailing wage regulations on the probability of a suburban/rural contractor obtaining an urban school project is capturing the effect of collective bargaining reducing the cost of bidding and working at a distance. Further research is required to test these and possibly other explanations for this result.

Models 1 and 2 presented in columns (e) through (h) examine the factors that influence the hiring of out-of-state contractors. Model 1 includes all the explanatory variables except the wage gap between construction workers within the state compared to construction workers from the state of the out-of-state contractor.[3] The cross-state wage is eliminated from model 1 simply because its effect shown in model 2 is so strong that it is helpful to see what the model shows without including this variable.

Model 1 shows what we expected. The larger the project, the more likely it is to go to an out-of-state contractor. In more economically dense urbanized states, the more likely is the job to go to an out-of-state contractor. This is capturing the effect of the urban corridor running from New York City to Washington DC on the use of out-of-state contractors. Finally, prevailing wage laws discourage the use of out-of-state contractors. All of these are statistically significant results. But the statistical significance of these results disappear when we add the wage of the state compared to the wage of the state from which the outside contractor comes from. This variable swamps the measurable effects of

[3] Data on state wages come from the 1992 Census of Construction. Data on metropolitan wages are from the 1994 BLS Occupational Wage Survey . By normalizing on wage rates in each year relative to the US average for that year and then comparing them, the inflationary differences between the years is eliminated.

all other variables, and more surprisingly it says that the closer the wage is between the two states, the more likely will an outside contractor be used. What is going on here? We think this captures a proximity effect. Namely, New York contractors are working in Pennsylvania and Eastern Tennessee contractors are working in Western North Carolina. For the most part, contractors cross state lines where those lines are close at hand and consequently the wage differences will be minimal. In model 2, the signs of the other variables have not changed compared to model 1, but their statistical significance has fallen away. We believe that the tentative conclusion should be that prevailing wages do discourage the use of out-of-state contractors but to be confident about that conclusion more research is necessary.

Conclusion

Most construction work is done by local contractors. Less than 10% of all school projects valued above $750,000 in the six states under study are done by general contractors from outside those states. Within states, 80% of all school projects are done by contractors that come from the urban or suburban/rural sector within which the job was let. Within the suburban/rural sector of each state, general contractors move farthest in states that are larger. With only six states under study, prevailing wage regulations do not appear to effect the distances over which suburban/rural contractors look for work.

Do prevailing wage laws discourage the use of outside contractors? Multivariate logistic regression analysis provides only tentative answers to this question. Across state lines we believe the answer is yes--prevailing wage laws discourage out-of-state general contractors. But more research is required to be confident in this answer. Prevailing wage laws may discourage urban contractors from working in rural areas and conversely, may encourage suburban/rural contractors working in urban areas. But these results also are fragile and require further research. Our data were limited to information on general contractors. The relationship of prevailing wage laws to the movement of specialty contractors may differ to some extent.

5

The Impact of Prevailing Wage Laws on Wages in the Construction Industry

Introduction

In the preceding portions of this report I have shown that prevailing wage requirements do not have the dire negative consequences on either school construction costs or the competitive environment that many of the laws opponents espouse. The question to which I now turn considers one possible positive consequence of prevailing wage laws, namely, the extent to which they serve their intention of promoting the path of high wage, high skill development within the construction industry. In this chapter, I analyze construction wages in prevailing wage and non-prevailing wage environments to determine whether they are significantly higher in prevailing wage jurisdictions compared to non-prevailing wage jurisdictions.

In thinking about this question, economists tend to employ a simple labor market model in which prevailing wage regulations impose a minimum wage above the equilibrium wage that would exist if supply and demand were left unfettered. Consequently, prevailing wages are assumed to always be above the competitive equilibrium wage in a local labor market.

This conception of the issue, however, ignores the institutional detail of how prevailing wages are determined. The idea underlying the administration of nearly all prevailing wage laws is to protect local labor market standards. In other words, the determination of what contractors must pay as the prevailing wage is based on existing local labor market conditions. Of course, the devil is in the details. Workers within a single trade may not always receive exactly the same wage; wage rates will different depending on a number of factors. These include unionization, seniority, and differences in certification or training, urbanization and possibly others.

In the state of Maryland, prevailing wages are determined by the Prevailing Wage Unit of the Department of Labor according to the following

formula. If 50 percent or more of all workers in a trade are paid exactly the same rate, that rate is considered the prevailing wage. If less than 50 percent are paid the same rate, then the prevailing wage is the wage paid to 40 percent or more of the workers within a trade. If less than 40 percent receive the same rate, then the prevailing wage is determined as the weighted average of the wage rates received by workers within a trade. Prevailing wage determinations are made for each county within Maryland, and Baltimore City.

Especially in cases where the weighted average method for determining the prevailing wage is used, the prevailing wage may not differ significantly from what economists imagine to be the "equilibrium" wage. Consequently, prevailing wage laws, far from increasing wage rates, may simply reinforce existing labor market conditions. On the other hand, in areas with concentrations of unionized construction workers high enough for the 40 percent rule to kick in, there can be a significant difference between the prevailing wage and the nonunion wage. In the final analysis, whether prevailing wage laws inflate wage rates is an open question subject to empirical verification.

Empirical Analysis of Construction Industry Wages

Data for such an analysis of construction industry earnings is available from the U.S. Bureau of the Census through their County Business Patterns series. These data report number of employees and annual payroll by two digit Standard Industrial Classification (SIC) code. County Business Patterns reports on the construction industry in general and also disaggregates the industry into general contractors, heavy and highway construction, and specialty contractors. A limitation of these data is that workers in school construction cannot be distinguished from workers in other market segments. Consequently, it is not possible to draw any direct inference about the impact that the inclusion or exclusion of school construction from prevailing wage requirements might have on construction workers' wages. Similar data are also available through the Census Bureau on a statewide level. These data can be used to construct an index of relative earnings in the construction industry for prevailing wage and non-prevailing wage areas.

In Table 13, I present results of a statewide comparison of relative earnings levels for the years 1993 through 1996, the most recent year for which data are available. The states included are the Mid-Atlantic states used throughout this study. For the purposes of this analysis Maryland was excluded from the analysis. The prevailing wage states used here include Delaware, Pennsylvania and West Virginia. The "no law" states include North Carolina and Virginia. The relative earnings index was calculated by dividing the average annual earnings per employee in the construction industry by the average annual earnings per employee in all nonagricultural industries. A comparison of the relative earnings indexes indicates that for the construction industry as a whole

(SIC 15), the relative earnings of employees is higher in prevailing wage law states than in non-prevailing wage law states. Earnings in non prevailing wage law states were approximately equal to average nonagricultural earnings. In prevailing wage law states, construction workers earned a 9 to 15 percent premium over average nonagricultural employees. These results are consistent with the proposition that prevailing wage laws tend to raise the wages of workers in the construction industry.

Table 13: Earnings of All Construction Industry Workers Relative to All Non-Agricultural Employees by Prevailing Wage and No Prevailing Wage Law States

Year	Prevailing Wage Law	No Prevailing Wage Law
1993	1.12	1.01
1994	1.15	1.02
1995	1.09	1.00
1996	1.11	1.01

Source: U.S. Bureau of the Census

The Census Bureau's County Business Patterns reports number of employees and payroll by SIC code for the years 1988 to 1996. In Table 14, I use these data to calculate the relative earnings of construction workers to all nonagricultural workers with Maryland. For the state as a whole, construction workers earn premiums similar to the premiums earned in other prevailing wage law states, namely from 7 to 16 percent more than nonagricultural employees.

Table 14: Relative Earnings of Construction Workers in Maryland

Year	Relative Earnings Index
1988	1.16
1989	1.14
1990	1.14
1991	1.14
1992	1.11
1993	1.11
1994	1.13
1995	1.07
1996	1.08

Source: County Business Patterns, 1988-1996

Disaggregating the data for Maryland by county allows us to examine the impact of the differential coverage of school construction by prevailing wage laws. Counties were characterized as having a prevailing wage law or not depending on the existence of a local statute covering school construction for that jurisdiction. This is an imperfect test because, as mentioned earlier, it is not possible to identify only those workers employed in school construction. Consequently, the impact of prevailing wage laws covering school construction could be overwhelmed by Maryland's general prevailing wage law covering public construction. Nevertheless, it appears that in most years, those jurisdictions having prevailing wage laws covering schools have higher relative earnings for construction workers, as shown in Table 15.

Table 15: Relative Earnings of Construction Workers to All Non-Agricultural Workers, by School Prevailing Wage Law Jurisdiction, 1988-1996

Year	Prevailing Wage Law	No Prevailing Wage Law
1988	1.38	1.14
1989	1.08	1.14
1990	1.22	1.13
1991	1.33	1.12
1992	1.17	1.11
1993	1.19	1.11
1994	1.12	1.13
1995	1.06	1.08
1996	1.15	1.07

Source: County Business Patterns, 1988-1996

A statistical test of the difference between the average relative earnings index in prevailing wage law jurisdictions and non-prevailing wage law jurisdictions indicates that, overall, earnings are higher in prevailing wage law jurisdictions. One might be tempted to conclude that, since Baltimore City is a prevailing wage jurisdiction, that high wages in this urban center are pulling the average up. But this would not be an appropriate inference because it ignores the fact that construction worker wages in Baltimore are being compared to the earnings of other workers in Baltimore. What this test, and all of the numbers presented throughout this chapter, indicates is that construction industry earnings do appear to be higher in areas with prevailing wage laws. This conclusion is consistent with one of the original intents of prevailing wage laws, namely, to promote a path of high wage economic development.

PREVAILING WAGE REGULATIONS AND SCHOOL CONSTRUCTION COSTS: EVIDENCE FROM BRITISH COLUMBIA

The stock of public school buildings constructed during the baby boom is aging along with that generation of Americans. Soon much of this building stock will have to be replaced.[1] The financing of this rebuilding of America's schools is an emergent political issue of considerable importance. Given these pressures on school construction financing, any proposal that promises to substantially lower the price tag for this reconstruction garners considerable public interest and potential support. One such proposal is the elimination of prevailing wage regulations that in 31 states and the District of Columbia govern the payment of wage rates on public school construction.[2] Prevailing wage laws require that state mandated wage rates be paid on public road and building construction. The purpose of these laws is to encourage collective bargaining in construction and to discourage the payment on public works of wages below those prevailing locally. Critics of prevailing wage laws assert that these laws raise public construction costs and discourage nonunion contractors from bidding on public works.

Some politicians and school officials believe that the elimination of prevailing wage regulations could cut public school construction costs by 10 to 40 percent. For instance, Gary Johnson, the Governor of New Mexico, in his 1997 address to the New Mexico state legislature foretold a 33 percent reduction in total state school construction costs from the elimination of the state's prevailing wage law.[3] In Ohio in 1997 the state legislature held hearings on the possible elimination of prevailing wage regulations for school construction. School officials foresaw substantial cost savings from such an exemption. For instance, Rick Savors,

Bilginsoy & Philips, *Journal of Education Finance,* Vol. 24 (Winter 2000) pp. 415-432

Deputy Director of Legislative Networks for the Ohio School Boards Association (OSBA) testified that

> The OSBA believes that the state's current prevailing wage law adds significant costs to a project and limits the number of contractors willing to offer bids on school contracts…The cost savings for districts, taxpayers and the state can be significant…those savings could reach perhaps as high as 30-40 percent in some instances.[4]

In the same hearings, Richard Maxwell, Deputy Executive Director for Government Relations for the Buckeye Association of School Administrators (BASA) testified:

> BASA supports the exclusion of the prevailing wage provision for school construction and facility improvements. This exclusion will benefit Ohio's schools by extending the scarce taxpayer's dollars to improve facilities. As a superintendent of schools for 23 years in districts I managed many school buildings built in 1912 through 1964. We had an extensive program of renovation and improvement of these buildings…BASA members tell us they believe they can do 10-15 percent more construction and renovation if the prevailing wage provisions did not apply to school construction and renovations.[5]

The primary basis for asserting that the elimination of prevailing wage regulations on school construction will substantially lower total school construction costs is the proposition that absent these regulations, wage rates on school construction would be substantially lower. In consideration of Ohio Senate Bill 102, Jim Shirey, Legislative Liaison for the Athens Ohio City Schools Board of Education made this argument explicit.

"Prevailing Wage" is *nothing less* than price fixing perpetrated by state government. Prevailing Wage sets the price of construction labor at union scale, *regardless* if the local labor market. One of the contractors who testified on this bill before the Senate Finance Committee did a study of *actual* construction costs and he showed *very clearly* that Prevailing Wage can inflate the cost of construction labor by as much as 60 percent.[6]

There are no academic studies on the relationship between prevailing wage regulations and school construction costs. This paper attempts to inform the ongoing debate over the impact of the prevailing wage laws on school construction costs by using a unique dataset from Canada. Wages including benefits constitute about 30 percent of the total construction cost, excluding land acquisition and architectural costs.[7] The province of British Columbia (B.C.) established the Skill Development and Fair Wage Policy (SDFWP) on March 30, 1992. It mandated payment of the prevailing wage on public construction projects and determined "fair" wage schedules for each occupation within the building trades. The fair wage was set at about 90 percent of the collectively bargained wage rate for each construction occupation in B.C. The B.C. experiment with prevailing wages provides a new opportunity to make an empirical assessment of the debated question of whether or not prevailing wage regulations measurably increase school construction costs. The objective of this paper is to compare final construction costs before and after the SDFWP was implemented in order to determine whether legislated wages resulted in higher school construction cost in British Columbia. For this purpose we will use final cost data from new elementary and secondary public school construction projects from six school districts in B.C. tendered between 1989 and 1995.

The paper is organized as follows. Section 1 presents a brief review of the empirical studies on the impact of the prevailing wage laws on public construction, and states the contribution of this paper to that literature. Section 2 describes the data. Section 3 presents an empirical model to test for the impact of the SDFWP. The model is estimated and results are discussed in section 4. Section 5 concludes.

1. The Literature

In this section we will first outline the general features of the debate over the prevailing wage laws. In the last part of the section we will outline the specific findings concerning school construction.

The literature on the construction cost impact of prevailing wage laws focuses almost exclusively on the U.S. federal Davis Bacon Act. With one exception, the Davis-Bacon literature estimates cost savings from the elimination of the federal regulation to range from 1 to 3 percent of total federal construction costs. The one exception estimates a 26 percent savings in rural building construction from the elimination of federal prevailing wage regulations.

Because the Davis Bacon Act was passed in 1931, there is no possibility of comparing the cost of construction prior to and subsequent to the passage of this act. This leaves three avenues of research. The first estimates what wage rates would be paid on federal construction absent prevailing wage regulations and then tries to compute what total costs would be under two wage rate regimes. The second exploits a moment of time in 1971 when the Davis Bacon act was suspended for 34 days. The last compares the cost of construction on public works with comparable private construction projects.

The first and most common method in the literature tries to assess what wage rates would be paid on federal construction absent Davis-Bacon. With this calculation in hand, these studies then attempt to estimate theoretically what construction costs would be under these hypothetical wage rates. Finally, these studies then attempt to compare hypothetical construction costs under hypothetical wage payments. As expected, this line of research is fraught with debates over the methodology.

Most studies of this type conclude that the Davis-Bacon wage rate is biased upwards toward the union wage, and consequently predict that Davis Bacon raises the cost of construction.[8] The estimated cost inflation attributable to this wage differential is in the order of 1.5 to 3 percent of public construction expenditure (Gujarati, 1967; GAO, 1979, 1983; Goldfarb and Morrall, 1978, 1981; Gould, 1971; Gould and Bittlingmayer, 1980; GAO, 1979,

1983; Thieblot, 1986). On the other hand, Bourdon and Levitt (1980) found no such bias, and Allen (1983) argued that the Davis-Bacon effect is modest, raising construction costs merely by 0.3 to 0.4 percent.

Thieblot (1975) adopted a second, more direct approach by taking advantage of President Nixon's temporary suspension of the Davis-Bacon in 1971. Thieblot compared bid prices of projects tendered but not contracted in this period with their rebid prices in the following period. He concluded that in the absence of Davis-Bacon the lowest bid were lower by 0.63 percent. Thieblot's re-examination of the data leads him to the conclusion that savings, including administration and wage costs, would be as much as 4.74 percent if the Davis-Bacon were repealed (Thieblot, 1986, 105-106).

Fraundorf *et al.* (1983), followed a third methodology. They utilized multivariate methods to determine the impact of prevailing wage laws on construction costs directly. Fraundorf *et al.* compared 215 federal and private non-residential construction projects controlling for non-labor cost factors (such as the type of structure, technical characteristics, size, and geographic location). They found that federal projects were 26 percent more expensive than the private projects, and attributed this difference to the Federal Davis-Bacon Act.

The Fraundorf result is substantially higher than previous studies and may be the academic basis for claims by school officials that total construction costs can be cut by 10 to 40 percent through the elimination of prevailing wage regulations. However, the Fraundorf study has two weaknesses that the present study overcomes. First, the Fraundorf study is not a study of school construction costs. It may be that school construction is distinct from rural building construction. Second, the Fraundorf study derives its projected cost savings from a comparison of public building costs to private building costs. If private buildings differ from public buildings in ways that are not adequately controlled for, this may conflate cost differences derived from public-private building differences with cost differences derived from prevailing wage regulations. Our study attempts to overcome these potentially confounding factors by focusing only on public school construction.

Because state and provincial prevailing wage regulations differ in their specifications and implementations, and school construction is regulated at the state and provincial level, a variety of case studies are needed. Our study is limited to assessing the effect of one prevailing wage law in one province at one particular period of time.

2. The Data

The recent experience of B.C. with the SDFWP permits an assessment of the impact of wage regulation on us the school construction cost by controlling for many factors that confounded the results of the studies mentioned above. The empirical analysis of this paper is based on tender data compiled by the Construction Labour Relations Association of B.C. from six school districts (out of 18) for a study of the impact of the SDFWP on construction costs (Government of Canada, 1997). These school districts are all located in the southern Lower mainland education region of B.C. and are geographically in close proximity. The data cover 54 new school construction projects tendered and completed between 1989 and 1995. Of the 54 tenders, 25 were received before March 31, 1992 and 29 were received afterwards, allowing the comparison of costs before and after the establishment of the SDFWP. All projects cost more than $250,000[9] and were therefore covered by the Fair Wage Policy during the period it was in effect. In addition to the final cost, the raw data also provide information on the list of bidders and bid prices for all projects, the contract price, the type of school (elementary or secondary), and structural characteristics of projects, including gross area, construction type, foundations, and special features (e.g. remote location, difficult site). For many projects estimated and/or actual durations of construction are available. Thus, while the number of observations is relatively small, the data have the advantage of being appropriately detailed. In addition, we also collected information on the size of the general contractors to whom the contract was awarded.

Table 1 summarizes the distribution of school types across the two periods. The number and the type of schools are distributed approximately evenly across the two periods. Gross

sizes of elementary schools range from 2,017 to 3,950 square-meters, while secondary school gross sizes range from 6,033 to 15,787 square-meters.

Table 2 reports summary statistics for the unit (square-meter) final cost (in 1989 prices). The average unit cost is $1,423 but there is a significant difference between the pre- and post-SDFWP periods. After the establishment of the Policy, the average unit final cost increases by $207, from $1,308 to $1,515. This 16 percent difference, which is statistically significant at the one percent level suggests that the SDFWP constitutes a serious burden on the public purse.

In the next section, we will address this question in a multi-variate context controlling for other potentially relevant factors that may impinge on the unit cost of construction.

3. The Empirical Model

The cost of construction, by definition, is equal to the sum of the bid price and change orders. The unit bid price, in turn, is equal to the sum of the estimated cost of production and the profit margin. Let FP stand for the unit final price, m be the mark-up rate, and CO be the total change orders cost, the latter including the mark-up on change orders.[10] Estimated total cost of construction, in turn, can be written as the sum of labor and non-labor costs. Letting w and n stand for the prices of labor and non-labor inputs, and L and N stand for the quantities of labor and non-labor inputs, the final cost can be written as:

$$FP = (1+m)(wL+nN)+CO. \qquad (1)$$

This equation is the basis of the empirical model to be used in predicting the cost of construction. Four sets of factors that potentially affect the independent variables are the physical features of the project, state of the construction business cycle and the degree of competition among contractors, regulatory environment in the labor market, and characteristics of the contractor.

Physical features of the project (including the size, the type of foundation and frame, location, number of stories, type of school) influence the quantity and the type of inputs.

Fraundorf *et al.*, controlled for technical characteristics such as foundation, frame, exterior walls, floor finishing, and frame type. In our sample there is little, if any, variation in technical characteristics for which information is available. Structural specifications of all projects were reported in the cost estimation forms prepared by the architect prior to bidding. Almost all schools are steel frame structures with slab on grade foundation. The type of school -- elementary vs. secondary -- summarizes most of the other technical differences. Secondary schools are larger than elementary and require approximately twice as long to build. If there exist economies of scale to size or longer construction period, secondary schools are expected to have lower unit costs. Finally, secondary schools are more likely to include higher unit cost structures (e.g. laboratories) on the one hand, lower cost areas such as sports fields, on the other.[11] These considerations make it difficult to form an expectation on how the school type would affect the unit cost. In order to control for these technical features we introduce a dummy variable that takes the value of one for secondary schools and zero for the elementary. We also utilize dummies for school districts to control for any potential location effects.

Input prices vary with the state of the economy, reflecting relative abundance of the labor, capital and intermediate goods. Hence the unit cost is expected to be pro-cyclical. The impact of the cycle on the mark-up is indeterminate. During the expansion of the economic activity, for instance, the firm may raise the profit margins taking advantage of rising demand. It is also conceivable that the firm shaves the mark-up in order to protect its market share from potential entrants attracted to the industry. In order to capture the construction industry business cycle effects we fitted a linear annual trend to the values of non-residential building permits (in constant prices) over the 1989-1995 period by ordinary least squares. We then measured the cyclical fluctuation in the construction sector activity as the percentage deviations of actual values of permits from the trend values. It should be borne in mind that this measurement of the cycle based on the annual experience of only seven year is crude. Quarterly data would probably yield a more precise profile of the cycles, but they are not yet available.

The immediate effect of the SDFWP on the construction cost is via the wage rate. If the legislated wage is higher than the market wage, then labor costs increase. This anticipation is the basis of most of the empirical studies on the cost effect of the prevailing wage laws. It should be

kept in mind that this cost effect would be tempered by substitution between different qualities of labor as well as between labor and capital. Total cost is not expected to rise proportionately because contractors facing higher labor costs would alter techniques of production, employing more capital and skilled labor intensive techniques.

In addition, the SDFWP may also affect the final cost by changing the type of uncertainty facing the bidders. Assuming that there is a monotonic relationship between the accepted bid price and the final cost of construction, the final cost would be influenced by the degree of competition because each contractor takes into consideration the number of bidders its competing against in determining the mark-up. The auction theory predicts that if the "independent private values" model applies then bidders lower their mark-ups in the face of higher competition in order to maximize their chances of winning the contract.[12] This "competition effect" implies that the mark-up and the bid price are inversely related to the number of bidders. When the "common values" model applies, however, bidders would be subject to the so-called "winner's curse." The winner's curse refers to the fact that in a first-price sealed-bid auction, although expected value of each bidder's bid is unbiased, the winning bid will be biased downward, or that the winner is the one who underestimated the construction cost the most. Consequently, the winner is likely to make less than anticipated profits or may even lose money (Thaler, 1988). Since rational bidders do not make consistent errors, the optimum bidding requires experienced bidders protect themselves from the winner's curse by adding a surcharge to the estimated cost. Optimal behavior under the common values model requires this surcharge to rise with the number of competing bidders, offsetting the competition effect. To the extent that the SDFWP reduces uncertainty over labor costs, the relationship between the bid price and the degree of competition measured in terms of the number of bidders would change from more to less positive or from less to more negative following the implementation of the Law. In the extreme case where introduction of the law results in a switch from common to private values model, the degree of competition would influence bid prices positively before the passage of the Law and negatively afterwards. Bilginsoy (1999) uses the B.C school tender data of the projects considered in this paper to provide evidence for such a switch in the response of bid prices to the degree of competition.

The cost of construction also depends on the capital stock and capacity utilization of the contractor. If there are economies of scale associated with larger size, final cost should decline with the size of the firm. If the contractor faces diminishing returns as it approaches full capacity, final cost would increase. Ideally, one should be able to control for the capital and the level of activity separately, but the data do not allow this. Instead, it is possible to build a dataset for the "size" of the contractor, defined as the average annual volume of sales. The obvious shortcoming of this variable is that it cannot distinguish between the capital stock and capacity utilization, and therefore its impact on the final cost is indeterminate. In the absence of data that can make finer distinctions, we used this as a proxy to control for the firm characteristics. We constructed data series on size from the *Canadata* database and the *Journal of Commerce*'s "Substantial Performers" and "Leaders" reports of the leading contractors for 1992, 1995 and 1996.[13]

Theory suggests little about determinants of change orders. There is some evidence indicating that cost overruns may be directly related to the size of the project, and that the cost overrun is more likely if the bid is below the owner's estimate (Jahren and Ashe, 1990). Although it is possible to control for the area of the school, data on owner's pre-tender estimate are far from complete in our sample and therefore not included as an explanatory variable. There may be a direct link between change orders and the SDFWP, however. Dyer and Kagel (1996, p.1470) identify negotiations over the change orders one method whereby a contractor who has underbid may recoup his/her losses. If we follow this argument, change orders are expected to be higher in the SDFWP period when contractors are more likely to be victims of the winner's curse. We calculated the change orders for the projects in the data set as a percentage of the accepted bid price. For all the projects in the dataset, the average change order was 2.08 percent of the lowest bid price. For the pre- and post-SDFWP periods, however, the mean values of change orders were 2.54 and 1.68 percent, respectively. The difference in means is statistically significant at the 10 percent level, providing some evidence for the hypothesis that change orders declined after the establishment of the Policy. Hence it may be hypothesized that the SDFWP affects the final cost directly by lowering the final unit cost.

Finally, the final cost of construction may change gradually over time for reasons other than those listed above. Such factors may include technological changes which raise productivity and lower cost over time, improving methods of cost estimation, gradual specification changes in construction,[14] or adjustment process of contractors to the new legal regime. In order to capture the effect of these gradual changes we add a monthly time index starting in January 1989 to the explanatory variables. Since it is impossible to distinguish between the separate effects of these secular factors on this monthly time trend we do not have any priors on the direction of its impact on the final cost.

The project size was excluded from the final regression equation because it was highly correlated with the school type and therefore introduced collinearity problems. The estimated regression equation is then:

$$\begin{aligned} ln(Final\ Cost) = {} & \beta_0 + \beta_1 Secondary\ school + \beta_2 Construction\ cycle \\ & + \beta_3 (1/Number\ of\ bidders) + \beta_{4i} Contractor\ size_i \\ & + \beta_5 Time + \beta_{6j} District_j + \eta. \end{aligned} \quad (2)$$

Final Cost is the square-meter final cost of construction deflated by the non-residential construction price index, *Number of bidders* is the number of bidders per tender, *Contractor size* is a vector of dummy variables for contractor size categories (indexed by *i*), *Time* is the monthly time trend starting in January 1989, and *District* is a vector of dummy variables for the six school districts (indexed by *j*). η is the error term.

4. Estimation

We estimated regression equation (2) for the whole period, as well as the pre- and post-SDFWP periods by the ordinary least squares method. This method not only shows how the SDFWP affected the final cost controlling for these variables, but also if and how the response of the final cost to these variables were altered after the establishment of the Policy. In estimation, contractor size turned out to be statistically insignificant in all regressions and, given degree of freedom constraints, we decided to exclude these from the final regressions results reported on Table 3.

Table 3 reports the parameter estimates of equation (2) for two specifications of the model. In the first specification, reported by columns (1) to (3) the time index is omitted. In column (1) the regression is run over the complete sample. According to the adjusted R2 of column (1) the equation explains 33 percent of the total variation of the variation in unit final costs for the whole sample Columns (2) and (3) apply the equation separately to the pre- and post-SDFWP sub-periods. We tested the hypothesis that the coefficients of explanatory variables are equal across the two sub-periods. This test yielded the F-value of 5.73, which is statistically significant at the one percent level. Rejection of the hypothesis of stability of coefficients across the periods indicates that it is inappropriate to pool the pre- and post-SDFWP periods in estimating the final cost regression equation.

Indeed the explanatory power of the regression increases significantly once the sample is divided on the basis of the legal regime. Adjusted coefficients of determination reported in columns (2) and (3) are 0.55 and 0.48, substantially higher than what is found in the case of the full sample. According to the second column of Table 3, before the establishment of the Policy, secondary school unit cost was on average 14.4 percent higher than that of the elementary schools. The negative coefficient of *Construction cycle* indicates countercyclical behavior for final cost but the parameter estimate is not statistically significantly different from zero. The final cost increases with the number of bidders for the project and this result is statistically highly significant (p=0.003). All else being constant, an increase in the number of bidders (at the mean)

raises the square-meter final cost by 3.3 percent. This is consistent with the optimum bidding behavior of contractors who realize that they are susceptible to the "winner's curse." Contractors face collective uncertainty over the cost of the project prior to the SDFWP and, as economic theory suggests, they increase their bid prices in response to an increase in the number of bidders.

The third column shows that after the SDFWP secondary school unit cost was still higher than that of the elementary but now only by 5.6 percent and this result is not statistically significant. Final cost is pro-cyclical and, again, the result is statistically significant (p=0.03): a one percent increase above the trend growth raised the square-meter cost by approximately 0.7 percent. The most striking effect of the SDFWP concerns the impact of the number of bidders. The sign of the coefficient is now positive (p=0.03): a unit increase in the number of bidders (at the mean) now lowers the unit final cost by 1.8 percent. In comparison with the pre-SDFWP period, this finding suggests a change in the type of uncertainty facing the bidders. It is now private uncertainty, rather than collective, that is more relevant in the bidding process and rising competition induces contractors to lower their mark-ups (and consequently bids and final cost) in order to increase the probability of winning the contract.[15]

In order to compare average unit costs of the pre and post-SDFWP periods we predicted the construction cost of an elementary school in school district 6. We assumed that the building permits grow at the trend rate and that eight contractors make bids for the project. Under these assumptions, the predicted average construction cost is $1,238 before the SDFWP and $1,313 afterwards. This cost differential is not statistically significantly different from zero. The 95 percent confidence interval for the pre-SDFWP prediction ($1,097-$1,397) includes the post-SDFWP figure.

The remaining three columns of Table 3 report estimation results of the specification including the time index. Estimation of this specification yields results that are consistent with those reported earlier.Again the hypothesis of structural stability of coefficients across the two periods is rejected at the one percent level (F-value=5.20). In the pre-SDFWP period secondary schools are more expensive to build by 12.5 percent (p=0.02). The cost of construction is varies directly with the number of bidders. An increase in the number of bidders

(at the mean) is estimated to raise the final cost by 2.0 percent (p=0.09). Unit construction cost is also estimated to rise at 0.6 percent per month (p=0.08). In the post-SDFWP period, the type of school no longer makes a difference on the cost of construction. Similar to the earlier finding reported on column (3), final cost is inversely related to the number of bidders. It declines by 2.27 percent in response to a unit rise in the number of bidders (at the mean). The final price also declines by 0.05 percent per month in the post-SDFWP period. Final cost is not responsive to the business cycle in either period. While the theory did not predict unambiguous sign for the coefficient of this variable, it should still be remembered that quarterly data on business cycles would have yielded more reliable assessment of the cyclical behavior of the final school construction costs.

We again predicted the average cost of construction under the assumptions stated above. These predictions do not indicate a significant change in the cost of construction following the establishment of the SDFWP. The predicted cost increased gradually between January 1989 and March 1992, reaching $1,347 just before the establishment of the SDFWP. At the end of March 1992, the SDFWP was established. On April 1992, the predicted price jumped to $1,474, and then it declined gradually. It took about 20 months for the price to decline to its March 1992 level.

5. Conclusion

A number of politicians and school officials proposed the elimination of prevailing wage regulations as a means to lower public school construction costs. The B.C. data, at first sight, seem to support this view. The bi-variate "before and after" comparison of final unit price indicate that the SDFWP caused the construction cost to increase by 16 percent, even higher than some of the figures estimated by the critiques of the U.S. prevailing wage law. This difference is also found to be statistically highly significant. However, when the same experiment is carried out controlling for other factors including the construction business cycle, number of competitors, type of school, district dummies, and the time trend, this result is no longer holds. There is indeed a structural break in the determination of the final cost after the SDFWP, but

there is no evidence of significant changes in the unit costs before and after the establishment of the SDFWP. Instead, what is observed is a 6.1 percent increase in price, if the impact of the time trend is ignored. No statistical significance can be attached to this figure. If time trend is also included in the analysis, the price rises by 9.4 percent at the time of introduction of the Law followed by a steady decline afterwards. This steady decline, over time, offsets the immediate inflationary cost impact. These findings indicate that the appeal for the repeal of prevailing wage laws to reduce the school construction costs and the burden on the public budget is misguided.

Regression results also indicate that the prevailing wage affects construction costs through a variety of subtle channels that are overlooked in the literature. Present findings suggest two factors playing important roles in cost determination. The first is the impact of competition on the final price. The final price is directly (inversely) related to the number of bidders before (after) the SDFWP. This finding supports the hypothesis that the SDFWP altered the nature of uncertainty facing the bidders and made bid surcharges to avoid the winner's curse unnecessary. The second factor is the trend change. We do not know exactly which factors lie behind the rising trend costs in the pre-SDFWP and declining trend of the post-SDFWP periods. Possible answers to this question may lie in the areas of technological and non-wage regulatory changes, as well as the learning behavior of contractors and their adjustment process to the changing regulatory environment. SDFWP may also affect costs by lowering the cost of change orders.

TABLES

Table 1: School Construction Projects in Six B.C. Districts: 1989-1995

	Pre-SDFWP	Post-SDFWP	Whole period
Elementary School	18	21	39
Secondary School	7	8	15
All Schools	25	29	54

Table 2: Final Square-meter School Construction Cost (in 1989 prices – Can.$)

	No. of Obs.	Mean	Median	Stan. Dev.	Range
All Tenders	54	$1,423	$1,440	$217	$968-1,811
Pre-SDFWP	25	1,308[a]	1,248	189	968-1,690
Post-SDFWP	29	1,515[a]	1,508	195	1,194-1,811

Note: We tested the hypotheses that means and standard deviations of the post-SDFWP periods are equal to their pre-SDFWP counterparts (one-tailed tests). Superscript a indicates that the hypothesis is rejected at the one percent level.

Table 3: Regression Model for Final Cost

(Dependent variable: natural log of square-meter cost)

ENDNOTES

[1] For instance, Thompson, *et al.* (1994, p. 553) state "...it is truly startling to recognize that almost half of all school buildings in the nation have only marginal future utility, and another 20%-30% are candidates for reconstruction or abandonment because they are more than 50 years old."

[2] The first state prevailing wage law was passed in Kansas in 1891. Eventually 41 states would adopt such legislation. Between 1979 and 1988, nine states repealed their prevailing wage laws. In 1995, Oklahoma's law was judicially overturned and in 1997 Ohio exempted school construction from the purview of its prevailing wage law. The federal Davis Bacon Act was passed in 1931. Because most public school construction does not include federal funds in the U.S., public school construction is regulated by state laws.

[3] "...without the constraint of the Little Davis-Bacon Act, we could build four schools instead of three for the same amount of money." New Mexico Governor Gary Johnson, State of the State Address, January 16, 1996.

[5] Richard Maxwell, Testimony on Ohio Senate Bill 102, May 8, 1997.

[6] Jim Shirey, Testimony on Ohio Senate Bill 102, May 8, 1997 (emphasis in the original).

[7] This result is from the U.S. *Census of the Construction Industry, 1992, Industry Series, United States Summary*, CC92-I-27 Table 3, page 27-8. There is no comparable

construction census for Canada. The data are for contractors with payroll. The numerator of the ratio of labor costs to total costs includes total wages paid to construction workers plus the value of both legally mandated benefits (such as social security) and voluntary benefits (such as a private pension) paid for by the employer. This benefit figure includes not only benefits paid to construction workers but also to all other clerical and support workers employed by construction contractors. Thus, this is an overestimate of the wages and benefits paid to workers covered by prevailing wage regulations. The denominator is the net value of construction work done. This figure avoids double counting associated with subcontracting.

Anecdotally construction contractors sometimes report higher labor costs as a percent of total costs. While labor costs as a percent of total costs vary among contractors and any one contractor is unlikely to reflect the average, anecdotal reports suffer from a second handicap. Often when contractors calculate their labor costs as a percent of total costs, they are thinking of labor costs to them. Consequently they exclude their charge for capital depreciation and profit to the purchaser of their services. The U.S. *Census of Construction* figure includes the contractor's markup in the total costs paid by the owner or purchaser of the construction. This is the relevant figure when trying to assess the effect of a savings on labor costs to school board construction costs.

[8] Davis Bacon periodically surveys counties. Davis Bacon sets the "prevailing" wage rate at the modal rate found in the survey for specific occupations if the mode accounts for 50 percent plus one wage rates found. Otherwise, the average wage rate is said to prevail.

[9] All prices are in Canadian $.

[10] The mark-up on change order is likely to be different from *m* because the change order price is negotiated separately. Dyer and Kagel (1996) argue on the basis of U.S. field data that contractors who underbid may use these negotiations to recover their losses.

[11] The data provide only the gross area size.

[12] Private values model implies that the bidders' estimation errors of cost of construction are independent. In the alternative case of common values model, estimation errors are interdependent. The latter would be the case if all bidders face some common uncertainty concerning the cost of construction which may be attributable to factors such as weather conditions or the state of the general labor market (Milgrom, 1989).

[13] We identified six size categories in terms of average volume of sales: less than $15 million, $15 to 30 million, $30 to 60 million, $60 to 100 million, $100 to 200 million, and above $200 million.

[14] In B.C., school construction specifications, including building, mechanical and electrical codes, were changed in the late 1980s and early 1990s in order to make structures more earthquake resilient.

[15] The assumption of exogeneity of the number of bidders deserves further comment. The number of bidders may be exogenously determined if the bid/no-bid decision is influenced by the desirability of the project. If so, the number of bidders would no longer be an appropriate measure of the degree of competition, and the estimated parameters would be biased and inefficient. In the economics of auctions literature it is suggested that the decision to bid would be affected by factors including the variance of the estimated value of the project and

asymmetric distribution of information across the bidders. These factors were shown to be significant in the outer continental shelf (OCS) hydrocarbon lease auctions (Gilley and Karels, 1981; Hendricks and Porter, 1988). In addition, in school construction some contractors may chose not to bid in school districts that are difficult to work with. These problems are not serious in our sample because school construction is a far more standard item to bid in comparison with the OCS leases and the scope of asymmetric information across contractors, if any exists, is likely to be very narrow. The variance of the submitted bids for any project suggests a much smaller variation in cost estimates. Inspection of "special features" in the architect's cost estimation forms indicates little variation across projects and between the pre- and post-SDFWP periods, and supports these contentions. Finally, the spread of the average number of bidders across districts is quite narrow, ranging from 7.3 to 9.3, and do not suggest that contractors deem any district to be less desirable than the others.

The Effect of State Prevailing Wage Laws on Total Construction Costs

Introduction

Prevailing wage laws have been a part of public policy in the United States at both the federal and state levels since the early part of this century. These laws require that construction workers be paid the "prevailing rate" when working on publicly funded construction projects. They were initially established to neutralize the government's monopsonistic power as a purchaser of certain types of construction labor and to support the social objective of maintaining a family wage.

Currently, the question of whether prevailing wage laws continue to make public policy sense is being debated. One of the most significant issues in this public policy debate is what impact prevailing wage laws have on publicly funded construction costs. Opponents of prevailing wage laws argue that they raise construction costs. Repeal of these laws would result in cost savings on the order of 20 to 30 percent according to some. If such savings were possible, it is argued, school districts could build five schools for the price of four.

Claims of cost savings from the repeal of prevailing wage laws, however, are generally based on analysis of the effect of higher wage rates on construction costs. Yet wage differences have a moderate effect on total construction costs. Labor costs are less than a third of total construction costs and have been falling. In 1972, for instance, in an analysis of school construction costs, John Olsen found that onsite wages and salaries excluding benefits were 28.2 percent of total costs. (Monthly Labor Review, 1979, p. 40) According to the Census of Construction, labor costs counting benefits on all types of construction were 30 percent of total costs in 1977 and had fallen to 26 percent by 1987.

A second problem leads us to question estimates of the impact of prevailing wage

legislation on construction costs based on an analysis of wage differences. Because they assume implicitly that the same number of hours of each type of labor will continue to be employed and that labor is of invariant productivity the impact on costs is driven by the wage differential. Neither of these assumptions are necessarily appropriate. The payment of prevailing wages may serve to attract workers with more experience and training. Increased labor productivity may result in fewer hours of labor being required thus offsetting the higher wage rate. For instance, Allen has shown that unionized labor in the construction industry is between 17 and 52 percent more productive than nonunion labor. (Allen, 1984) Additionally, higher wage rates may lead contractors to substitute capital or other inputs for labor, mitigating the impact of higher wages rates on total construction costs.

These possibilities, alone or in combination, make the assumptions underlying the analysis of construction costs based on wage differences inappropriate and cast doubt on the estimates of costs savings. Specifically, it is difficult to imagine how savings of 20 to 30 percent are possible . To get a true picture of the impact of prevailing wage legislation's impact on total construction costs, one could evaluate not only differences in wage rates, but also productivity differences, the incidence of substitution, administrative costs and other ways in which these laws's impact is either mitigated or enhanced. An alternative approach is to simply examine total construction costs directly and compare costs in the presence and absence of prevailing wage laws controlling for project differences.

Previous Estimates of Impact on Total Costs

Only one studies have attempted to estimate the impact of prevailing wage legislation based on actual total construction costs. Fraundorf, et. al., in "The Effect of the Davis-Bacon Act on Construction Costs in Rural Areas," examined 215 new, non-residential construction projects built in 1977 and 1978. (Fraundorf, 1983) Approximately half of these projects were federal projects built under the purview of the federal Davis Bacon Act specifying that prevailing wages be paid. The other half were privately owned projects constructed without the requirement that prevailing wages be paid. Data on total construction costs were then compared using multivariate regression analysis to control for the effects of factors other than the presence of prevailing wage requirements. This study controlled for differences in the type of structure, the types of materials used, and project size in an effort to focus on cost differences associated with labor cost differentials resulting from the dichotomy in regulatory regimes. It also attempted to control for regional differences in construction costs by grouping projects into four regions; Northeast, North Central, South and West. The dependent variable in their regression analysis was the natural log of the project's bid price deflated to 1977 dollars. The authors of the study found, somewhat surprisingly, that federal construction projects governed by Davis Bacon were 23 percent more expensive than private construction projects controlling for other cost influencing factors. When they re-estimate their basic model to correct for disproportionate response rates by region and building type, Fraundorf finds that the impact of Davis Bacon on total construction costs is as high as 30 percent. While they admit that these results are high, especially in light of a public-private wage differential estimated at 20 percent, they point out that

the results are consistent with other aspects of the data. In particular they do not find evidence of factor substitution which would mitigate the impact of prevailing wage requirements. However, this does not explain why the impact on total costs is greater than the wage differential. They explore other factors that might contribute to the higher costs of federal Davis Bacon projects such as record keeping and reporting, and decreased competition. Neither of these factors appear to significantly contribute to costs on federally funded construction. (Fraundorf, et. al, 1983, p. 145)

One possible problem with the Fraundorf study is that regional differences in construction costs may have been inadequately controlled for. Given the relatively small sample size, the authors of this study had to group construction projects into relatively broad regions. This creates the potential for comparing a private project in a low cost state such as Idaho with a public project in a high cost state such as California. Since both projects are considered to be in the same region the cost differential is incorrectly attributed to the impact of prevailing wages when in fact it is due to differences in the cost of living or cost of materials between Idaho and California. Another problem may result from the way in which building types were classified. Each construction project was placed into one of six categories; recreational buildings, storage facilities, industrial buildings, office-commercial, medical and other. These categories were then used to find matches between public and private construction projects. However, these six categories were sufficiently broad to allow rather dissimilar buildings to be considered comparable. For instance, in the category storage facilities, warehouses were grouped with barns as well as airplane hangars. Likewise office buildings were in the same category as restaurants. Differences in costs between public and private buildings may have resulted from differences in

structure type and not from prevailing wage requirements. (Fraundorf, 1982)

A second and potentially more serious problem with this study is that it fails to adequately isolate the impact of prevailing wage legislation on construction costs. Specifically, Fraundorf compares private projects constructed in the absence of prevailing wage legislation with federal (i.e., public) projects built using workers paid the prevailing wage. This comparison, while seemingly appropriate, contains the potential for confounding cost differences related to prevailing wage laws with cost differences resulting from other differences between private and public construction projects. The authors recognize this possibility when they point out, "If the government is more exacting than private owners in its quality standards, labor hours (and costs) and possibly material costs would be higher on government projects." (Fraundorf, 1983, p. 145) It may also be that the difference in bidding procedures for public and private contracts or differences in the time horizon of public and private owners may contribute to higher costs in the public sector. In other words, the cost differential that Fraundorf attributes to the effect of prevailing wage legislation may in fact be due to differences between public and private construction.

Estimating the Impact of State Prevailing Wage Laws

This study analyzes the impact of prevailing wage legislation on total construction costs using data on nonresidential construction in the United States. The data are from the F. W. Dodge Company, an organization that collects and disseminates data on construction projects to the construction industry. These data give information on construction costs at the start of the project, or bid price. They also contain information on detailed structure type, project location,

project scale, and technical characteristics of the project such as number of stories and type of frame. The Dodge data also distinguish between public, private and federal projects. One advantage of the Dodge data is that they report on a large number of construction projects allowing for a more appropriate geographical breakdown of projects. In addition, the Dodge data make it possible to compare construction costs on similar projects in the private and public sectors for states both with prevailing wage laws and without. This is essential if one is to sort out the cost differences associated with public construction from the cost differences associated with prevailing wage laws.

The Model

The model used here to estimate the effect of prevailing wage legislation on construction costs is :

$$C = a + b_1S + b_2T + b_3B + b_4A + b_5ST + b_6Altadd + b_7Pubcode + e$$

where $C =$ start cost or bid cost; $S =$ project scale as measured by square footage; $T =$ a vector of dummy variables indicating detailed structure type; $B =$ a vector of building material dummy variables; $A =$ a vector of state dummy variables; $ST =$ the number of stories; $Altadd =$ a dummy variable indicating whether the project was an alteration or addition as opposed to new construction; and $Pubcode$ = a dummy variable indicating that the project is public. This model is nearly identical to the one used by Fraundorf to estimate the impact of the federal Davis Bacon Act on total construction costs. It is appropriate for estimating the cost difference between public and private construction projects holding other factors such as building type, building materials, state in which the project is undertaken, building size and complexity constant. In

states with prevailing wage laws, the cost difference between public and private projects may be thought of as measuring the inflationary impact of the law.

Data

The most notable difference between the Fraundorf analysis and this study is the focus here on the impact of state prevailing wage laws, also known as little Davis Bacon acts, on costs. In the first instance, I selected construction projects in states that had prevailing wage laws in 1990. This focus on state prevailing wage laws's impact on costs, as opposed to Davis Bacon's impact, is useful for sorting out differences in costs associated with prevailing wage laws from cost differences between public and private buildings. Moreover, given that many states are currently considering reforms or repeal of their little Davis Bacon acts, the impact of state laws on construction costs is an important question to answer. The projects selected were nonresidential construction categorized as offices, hospitals, elementary schools, middle schools, secondary schools, garages and warehouses. These categories are similar to those used by Fraundorf, et al., but are more specific and consequently less likely to result in comparisons between dissimilar structures. For example, hospitals is a more detailed class of structures than medical buildings, and warehouses is similarly more specific than storage facilities. Unlike Fraundorf, I included both new construction and additions/alterations. In states with prevailing wage laws additions/alterations to public structures and roads are also covered.

The results of a multiple regression analysis using the natural log of real total project cost as the dependent variable indicate that, controlling for other relevant factors, in states that have prevailing wage laws public buildings are reported in Table 1. Public projects in states having

prevailing wage laws are 27.6 percent more expensive than private structures. These results are very similar to the results obtained by Fraundorf. in terms of the magnitude of the estimated impact. Given that the prevailing wage laws in these states apply to public projects, this estimated cost differential can be attributed to the law's existence.

This approach to estimating the impact of prevailing wage laws on construction costs, like the earlier study by Fraundorf is unable to distinguish between cost differences due to ownership differences and cost differences that result from prevailing wage requirements. By comparing public projects built in states where prevailing wage laws are in effect with private projects, the impact of the law is confounded with cost differences between public and private projects.

To illustrate the problem the model presented earlier was re-estimated using data on construction projects from states without prevailing wage laws. Similar controls were used to insure that public projects were being compared with similar private projects. The results of this regression are reported in the third column of Table 1. Once again, public projects are significantly more expensive (31.7 percent) than comparable private projects. But because the projects examined were located in states that currently do not have prevailing wage laws, the cost differential can no longer be attributed to the law's impact. This result lends support to the notion that the public may be a more exacting owner than the private sector. It also suggests that it is inappropriate to assume that the higher costs of public projects are attributable to the presence of prevailing wage laws. A more appropriate analysis recognizes that there are two different dimensions to construction cost differentials. On the one hand, comparisons of public projects versus private projects can determine the extent to which the government may be a more

exacting owner. The other dimension considers the presence or absence of prevailing wage legislation. Combining these two different dimensions creates four different possibilities; private projects built where no prevailing wage law exists, public projects with no prevailing wage law, private projects where prevailing wage laws exist, and public projects with prevailing wage laws. Only the last category of construction projects is directly affected by the presence of a prevailing wage law.

** coefficient is significant at the .01 level
the coefficients for the state dummy variables are not reported

Thus, in order to appropriately assess the impact of prevailing wage legislation on construction costs, this category must be isolated from each of the other possibilities.

The model used here to estimate the effect of prevailing wage legislation on construction costs is :

$C = a + b_1S + b_2T + b_3B + b_4A + b_5ST + b_6Altadd + b_7PW + b_8Pubcode + b_8Interact + e$

where C = start cost or bid cost; S = project scale as measured by square footage; T = a vector of dummy variables indicating detailed structure type; B = a vector of building material dummy variables; ST = the number of stories; A = a vector of state dummy variables; $Altadd$ = a dummy variable indicating whether the project was an alteration or addition; PW = a dummy variable indicating the presence or absence of a prevailing wage law; Pub = a dummy variable indicating ; $Interact = (PW \times Pubcode)$. The key components of this model are the variables *PW*, *Pubcode* and *Interact*. In combination these three variables allow us to estimate the effect of prevailing wage laws separately from the effect of public ownership. The *Pubcode* variable estimates the cost differential that exists between public and private projects, ceteris paribus, regardless of whether a prevailing wage law is in effect. The *PW* variable estimates the effect of prevailing wage laws on construction projects in states with laws regardless of whether they are public or private. Finally, the *Interact* variable picks up the direct effect of prevailing wage legislation on public projects since it is equal to one only in those cases where there is a public project in a state with prevailing wages. This model was estimated using the combined data for states with and without prevailing wage laws. The results are reported in Table 2. The coefficient on the interaction term (*Interact*) is positive but statistically insignificant indicating that the direct effect of prevailing wage laws on the cost of public construction projects is negligible. The presence of

a prevailing wage law also does not appear to have any significant effect on the costs of construction projects. Public projects in all states, however, are significantly more expensive (25.9 percent) than private projects as indicated by the coefficient on the variable *Pubcode*.

Conclusions

The results of this multivariate analysis of the impact of state prevailing wage laws on total construction costs indicates that, in contrast to earlier academic analyses as well as some casual statements, there is no measurable cost difference between similar structures as a result of prevailing wage requirements. Consequently, reforming or repealing these laws will not lead to the kinds of substantial savings promised by proponents of repeal. At the same time there are significant measurable cost differences between public and private projects of a similar nature. Researchers and politicians both should try to determine 1). why this differential exists and how and 2). what steps could be taken to lessen the difference.

Making Hay When It Rains: The Effect Prevailing Wage Regulations, Scale Economies, Seasonal, Cyclical And Local Business Patterns Have On School Construction Costs

BY HAMID AZARI-RAD, PETER PHILIPS, AND MARK PRUS

Construction is a boom-bust industry with expected and predictable seasonal fluctuations in activity along with expected, but much less predictable, cyclical swings in business. Consequently, contractors and workers alike have come to believe in the adage "make hay while the sun shines." When business is brisk, workers accept long hours and contractors take all the business they can handle. Industry suppliers also live and die with the business cycle often raising prices when demand is brisk. Everyone involved in construction seeks to make enough money in the good times to tide them over the bad times that inevitably will come.

Good times for the construction industry, however, may correspond to bad times for the purchasers of construction services. When the construction industry is working full tilt, consumers may be wise to delay purchases until things slow down. Furthermore, large local consumers of construction services, such as school districts, may create their own tight conditions by starting large and multiple projects that create local "cost storms" in local construction markets. This paper asks the question whether school districts would be wise to time their purchases of construction services to avoid overheated construction markets, and spread out their construction

1974-99	5.3%	4.4%	4.6%
1991-99	2.7%	2.8%	2.8%

plans to avoid overheating the market themselves. In attempting to avoid tight construction markets, school districts may be well advised to pay attention to the seasons as well as the business cycle to avoid beginning construction at the same time as everyone else.

The construction industry is not the only institution that tries to "make hay while the sun shines." Overall strong economic conditions tend to reduce public debt and may favor the prospect of passing school construction bonds. It may not be politically or demographically feasible to delay school construction until economic conditions quiet down. Consequently school districts may consider additional or alternative strategies for containing school construction costs. This paper will consider two possible alternatives; deregulation of public construction and economies of scale in the size of school buildings.

Along with being a highly cyclical part of the economy, construction is also a regulated industry. Especially relevant to public school construction and renovation, prevailing wage requirements regulate the payment to labor in many jurisdictions. Some argue that the elimination of prevailing wage regulations would allow for a significant drop in public school construction cost by cutting the wages and benefits paid to construction workers. Others argue that lower wages will result in a less skilled and less equipped public construction work force that will wipe out most and perhaps all of the savings anticipated by those favoring deregulation. This paper will test these alternative hypotheses by comparing school construction costs in regulated and unregulated environments.

Building larger schools to capture technical economies of scale in construction is a classic cost savings strategy. But can bigness backfire if the project puts excess demand on local construction services driving up prices? Would school districts be better off building somewhat smaller schools spaced out over a longer period to avoid straining local construction services?

In this paper we present estimates of the relative payoffs of these alternative ways of cutting school construction costs—timing purchases, deregulating wages and building larger.

Inflation and School Construction Costs

In the last 25 years, overall building and construction costs in the United States have roughly kept pace with inflation.[1] In the most recent expansion, overall building and construction costs have also tracked inflation closely. Table 1 compares the annual average inflation in the Consumer Price Index-Urban (CPI-U) with the Building Cost Index (BCI) and the Construction Cost Index (CCI) issued by the industry publication *Engineering News Record* (ENR). This comparison shows that over the 25-year span, 1974-99, construction costs have risen somewhat more slowly than the CPI-U, while in the last expansion, construction costs have risen just slightly faster than the CPI-U.

There are no school construction cost indices, but anecdotal evidence suggests that in recent years, school construction costs have risen faster than the overall indices of construction costs. For instance, the June 2000, *Engineering News Record* quarterly cost report states:

A very hot school construction market is also warming up costs. "Realistically, when it comes to schools, you can double the inflation rate shown by most construction cost indexes," says Gregory M. Clark, vice president of estimating for M.A. Mortenson Co., Minneapolis. Tight market conditions allow "busy subcontractors to increase margins by at least that much," he says.

1. The U.S. Bureau of Labor Statistics (BLS) issues the consumer price index-urban (CPI-U). This is the common measure of changes in the prices consumers face. The CPU-U uses a "market-basket-of-consumer goods" approach where prices of the same collection of market basket of finished products are compared across time. This index may be broken down into components within the market basket including a housing cost index. However, this housing cost is not a construction cost but a rental cost of a given type of house. The BLS does not issue an index on construction costs. *Engineering News Record* (ENR), a long-standing construction industry publication, has since World War I issued two indices, a building cost index (BCI) and a construction cost index (CCI) that are widely relied upon by construction industry analysts to track cost trends in this industry. These indices a market-basket-of-inputs approach rather than trying to identify a standard building output. Each ENR index takes a given amount of steel, lumber, cement and labor, multiplies these inputs by their prices in two time periods and compares the results. The major problem with this approach is that it cannot capture changes in labor productivity over time. The difference between the two ENR indices is the BCI is more applicable to structures where labor costs are a smaller proportion of total costs and labor skill is needed more in the construction process. The CCI is more appropriate in projects where labor costs are a relatively higher proportion to total costs and skilled labor is a small part of all labor hired. Both indices are derived from a survey of 20 major cities including two from Canada. Both use the same "shopping cart" of materials purchased (steel, cement, and lumber) but the CCI includes 200 hours of common labor while the BCI uses 68.38 hours times the average wage rate from three skilled trades (bricklayers, carpenters and structural iron workers). Tim Grogan, "Using ENR's Indexes: How It's Done," *Engineering News Record* 244, no. 12 (2000): 112. CPI-U from the U.S. Bureau of Labor Statistics, Most Requested Series, Prices and Living Conditions, Consumer Price Index All Urban Consumers, http://stats.bls.gov/top20.html.

TABLE 2
NOMINAL AND REAL AVERAGE SQUARE FOOT CONSTRUCTION COST FOR NEW SCHOOLS, BY TYPE OF SCHOOL, 1992 TO JUNE 1999 AND ANNUAL RATE OF CHANGE

Elementary Schools

School districts are becoming more aware of fast-moving costs and have started raising budgets to better match inflation, says Randy Lowrance, the Houston-based regional building manager for Gilbance Building Co. He says construction costs have jumped about 12 percent during the last two years.[2] Our own data on nominal and real average square foot construction costs of new schools from 1992 to June 1999 is consistent with the view that school construction costs are outpacing inflation. Table 2 shows average square foot accepted bid price for public and private schools broken down into elementary, middle and high schools.

2. Tim Grogan and Stephen H. Daniels, "Second Quarterly Cost Report," *Engineering News Record* 244, no. 25 (2000): 91.

TABLE 3
NUMBER AND PERCENT DISTRIBUTION OF NEW SCHOOLS BUILT IN THE U.S.,1991-1999

	Regulatory Status			
	No Law		Prevailing Wage Law	
Ownership	Count	Table %	Count	Table %
Private School	151	3.0%	182	3.7%
Public School	1901	38.2%	2740	55.1%

Starting in the mid-1990s these prices began to rise not only in nominal terms but after controlling for consumer goods inflation with the CPI-U. This rise in costs over-and-above inflation accelerates recently with real annual increases for 1999 equaling 10 percent, 6.3 percent and 9.6 percent for elementary, middle and high schools respectively.

Why should school construction costs outpace not only the growth in the consumer price index but also the growth in the cost of other types of building construction? ENR suggests that in recent years school districts have overwhelmed local construction markets. ENR argues that "Today's schools are larger, more complex and built in gusts of new construction, not one at a time." These building programs "create their own cost storms."[3] An alternative hypothesis may be found in the fact that public school construction, which accounts for the majority of all school construction, is in many jurisdictions regulated by prevailing wage restrictions. Table 3 shows that over the period 1991 to 1999, 55.1 percent of all new schools built in the U.S. were public schools built under prevailing wage regulations.

These regulations, which do not apply to the private sector construction, may explain why school construction costs are currently rising faster than other types of construction.

THE DATA

To test the effects of economies of scale in construction, prevailing wage regulations and business cycle effects on school construction costs, we turn to F. W. Dodge data on accepted bid prices for new schools built in the United States. The F.W. Dodge Corporation has provided bidding information to building contractors since the 1940s.[4] As part of this service, F.W. Dodge collects data on the

4. Currently FW Dodge is, along with *Engineering News Record*, a subsidiary of McGraw Hill. See http://www.fwdodge.com/ and http://www.fwdodge.com/ for descriptions of each subsidiary.

accepted bid price of a variety of public and private construction projects. For this paper, we have collected F.W. Dodge accepted bid prices for new schools, both public and private, built between the second half of 1991 and the first half of 1999. Accepted bid prices do not include any cost over-runs associated with change orders that take place during the life of the project. Change orders can occur due either to a change in the scope of the project or due to an unforeseen or omitted condition of the project that is encountered after the project has begun. Accepted bid prices cover construction costs and do not include land acquisition. A basic assumption of this paper is that the results we find regarding school construction costs as measured by accepted bid price will also generally hold for final construction costs as well. The virtue of using Dodge accepted bid price data is that it provides us with thousands of observations. No other centralized, cross-state, source of public and private school construction costs exists.

In addition to accepted bid prices, the Dodge data provides us with the date of bid acceptance, the state in which the school was built, the type of school (public or private, elementary, middle or high school), and the square foot size of the project. These data allow us to construct a model where the total cost of a new school is a function of the size of the school, the type of school, the location of the school, the season in which the project begins and the year in which the project begins. In order to capture business cycle effects on school construction costs, we add data on annual average overall state unemployment rates[5], and in order to capture the effects of prevailing wage regulations we add dummy variables indicating the existence of any such law.[6]

Table 4 presents the distribution of new schools by state for our sample. The distribution reflects both state size, demographic growth and business cycle conditions during the time period of our sample, 1991-99.

5. U.S. Bureau of Labor Statistics, Most Requested Series, Employment and Unemployment, Local Area Unemployment Statistics, http://stats.bls.gov/top20.html.

6. Over the entire time period of our analysis, 18 states did not have prevailing wage laws regulating school construction. These are Alabama, Arizona, Colorado, Georgia, Florida, Idaho, Iowa, Kansas, Louisiana, Mississippi, New Hampshire, North Carolina, North Dakota, South Carolina, South Dakota, Utah, Vermont and Virginia. Oklahoma's law was judicially annulled at the end of 1995. Kentucky applied its law to schools in July of 1996. Ohio suspended the application of its law to schools in July of 1997. Michigan's law was judicially suspended for the period between late 1994 and mid-1997. Maryland's law applied to some schools but not to most over the period of our analysis.

Table 5 shows the number of new schools started (count) by year along with the means and standard deviations for the square foot size of these new schools, the number of school projects of all types including new, additions and alterations started in a single city in a year, and each state's unemployment rate.

TABLE 6
PERCENT DISTRIBUTION WITHIN THE SAMPLE OF SCHOOLS BY TYPE, OWNERSHIP AND WHEN BID WAS ACCEPTED

	Percent of Sample
Elementary Schools	55.4%
Middle Schools	23.9%
High Schools	20.7%
Public Schools	93.3%
Private Schools	6.7%
Bids Accepted in Winter	22.2%
Bids Accepted in Spring	32.3%
Bids Accepted in Summer	25.4%
Bids Accepted in Fall	20.1%

Table 5 also includes the maximum number of new projects of any type begun in a city in any one year. The square foot data will be used to measure technical economies of scale in building schools. The number of projects of any type begun in a city in a year will be used to measure possible local crowding effects caused by bunching school construction. Moreover, the state unemployment rates will be used to measure business cycle effects on school construction costs.

Our data do not support the notion that over the 1990s, new schools have become larger as suggested by ENR. Nor does it support the proposition that school districts are increasingly bunching their new school projects together. However, there is considerable variation in school size and the number of projects begun in local areas. It remains to be seen whether larger schools yield economies of scale or whether the bunching of projects creates excess demand pressures in local construction markets. There is also considerable variation in the business cycle within our sample as measured by state unemployment rates. These rates also indicate a clear tightening of general labor markets over time.

Table 6 shows the percent distribution of new schools within the sample by school type (elementary, middle and high schools), ownership (public or private) and bid acceptance date (winter, spring, summer or fall). Elementary schools account for over half of the number of new schools built. Public schools account for 93.3 percent of the sample. Bid acceptances peak in the spring and fall off most in the fall.

Finally, Table 7 shows the size of new schools both in physical and CPI-U deflated monetary terms by elementary, middle and high schools. High schools are largest holding the greatest potential for

TABLE 7
AVERAGE SQUARE FOOT SIZE AND REAL TOTAL COST OF SCHOOLS IN SAMPLE BY TYPE

	School Type		
	Elementary	Middle	High
Square Feet	65,001	101,615	128,819
Real Total Cost (CPI-U)	$6,089,243	$9,189,945	$12,469,829

economies of scale on the one hand, and creating excess demand for local construction services on the other. In general, we conclude that our sample provides considerable and informative variation in a range of factors that can be used to model variations in school construction costs.

THE MODEL

We estimate the effect of construction market crowding, business cycle effects and prevailing wage legislation on school construction costs using the following fixed effects model:

$$LnCost_{it} = \alpha_i + \beta_0 LnUnemploy_{it} + \beta_1 LnNumprojects_{it} + \beta_2 SizeThreshold_{it} + \beta_3 Squarefeet_{it} + \beta_4 Middleschool_{it} + \beta_5 Highschool_{it} + \beta_6 Winter_{it} + \beta_7 Spring_{it} + \beta_8 Summer_{it} + \beta_9 PWL_{it} + \beta_{10} Public_{it} + \beta_{11}(PWLxPublic)_{it} + \varepsilon_{it}$$

where *lnCost* is the start cost or bid cost deflated using the consumer price index.[7] $a\delta_i$ is the individual effect for each state. The natural log of the state unemployment rate, for all workers for each state, *LnUnemploy*, is used as one indicator of market crowding. When unemployment rates are low, we anticipate that construction labor markets will be tight and school construction costs higher. This double log formulation allows us to interpret the coefficient on the variable *LnUnemploy* as an elasticity. That is, a ten percent change in a state's unemployment rate will lead to a constant X percent change in costs. *LnNumprojects* is a second variable that we use to test for market crowding. When school districts start multiple projects in a given year, they may create tight market conditions and drive up costs. Finally, the variable *SizeThreshold* is used to test for a third type of market crowding, namely the construction of large projects. *SizeThreshold* is a dummy variable that equals one if the school being built is over 167,773 feet. We use

7. In unpublished tests, the use of an alternative, a private building cost index published by the *Engineering News Record* yielded very similar results to the tests reported here.

the natural log of the square footage of each project, *Squarefeet,* to account for economies of scale. Again, we use a double log formulation to generate an elasticity. *Middleschool* and *Highschool* are dummy variables identifying school type in order to test for cost differences between elementary, middle and high schools. When the dependent variable is logged and the independent variable is dichotomous, the coefficient on the dummy variable is interpreted as a percent change in the unlogged value of the dependent variable due to the presence of the variable being indicated. Thus, the dummy variables for school type test whether cost differences exist between elementary, middle and high schools and by what percent. *Winter, Spring* and *Summer* are dummy variables indicating the quarter in which the project was started. The hypothesis here is that starting projects in the fall builds into the teeth of winter weather conditions and may raise total bid price. *PWL* is a dummy variable indicating that the project is built in a state with a prevailing wage law. The geographical dispersion of prevailing wage laws is not random. These laws are common in the North and West and absent during our time period in the South. The Great Plains and Mountain states show considerable variation in legal regime. *Public* is a dummy variable indicating that the project is a public school. The product *(PWLxPublic)* is an interaction term that equals one for public schools in states with prevailing wage laws and zero in all other cases.

Results

We test our model on two samples—all new schools and new high schools. The high school subsample isolates the largest type of school and allows for a sharper focus on the question whether large schools can generate local "cost storms" either through the number of projects begun in a year or the size of any single project. In both samples we group the independent variables into five categories—economies of scale, type of school (elementary, middle, high school and public vs. private ownership), seasonal start time, market crowding or demand stimulating factors, and prevailing wage regulations. Columns a and c in Table 8 show the estimated coefficients for these variables for each of the samples. The model fits both samples well with adjusted r-square values of .87 and .91 for the all schools and high schools samples respectively. The dummy variables for states are not reported in Table 8. The reference state in both samples is Texas—the omitted state dummy variable.

ECONOMIES OF SCALE

In both samples the estimated elasticity is .91 indicating that a 100 percent increase in the square foot size of the project (or a doubling of the project size) will, all other things being equal, increase total costs by 91 percent. Thus, if a school district is considering building two new schools of one size or one new school twice that size, our results indicate that, all other things being equal, that the two-school option would cost 4.7 percent more than the one-school option.[8]

8. Example: two 50,000 square feet schools costing $5,000,000 each for a total of $10,000,000 versus one 100,000 square foot school costing $9,550,000 [$5,000,000+(.91 times $5,000,000)]. The additional cost of two schools, $450,000 divided by the cost of one large school, $9,550,000, equals 4.7 percent.

The functional form of our model assumes that economies of scale are constant across the range of school size within our sample. While this may not be so, some support for this assumption comes from the fact that the point estimate for the economy of scale is the same for both the entire sample of all schools and the high school sample that entails, on average, larger schools. In the case of the scale economy coefficients, the standard error is larger for the smaller high school sample compared to the larger all school sample. We attribute this larger standard error to the smaller sample size rather than a fundamentally different economy of scale pattern obtaining for the high school sample.

Type of Schools

In sample 1, the model controls for differences in the cost of elementary, middle and high schools with two dummy variables identifying middle and high schools with elementary schools being the reference. Our results do not find a statistically significant difference between the cost of middle schools compared to elementary schools controlling for other factors such as size of school. However, we do find that controlling for other factors, high schools cost 4.6 percent more than elementary schools. We attribute this difference to differences in the equipment in science labs, computer facilities and other material costs.

We also find that public schools cost 15.3 percent more than private schools, controlling for other factors. This result holds for public schools that are not built under prevailing wage regulations as well as those regulated by prevailing wage requirements. We attribute this sizable cost differential to differences in the specification of public schools.

Seasonal Start Time

Construction work is seasonal, although variation in seasonal work itself varies across the country based on weather patterns. For each new school project, we identify which quarter in the year the bid was accepted. Groundbreaking would begin some time after bid acceptance. We test in both samples whether or not real bid acceptance price in the winter, spring or summer is different from that of the fall. In unreported regressions, we tested all three other possible reference seasons. In no case do we find a statistically significant difference in accepted bid price associated with the seasons. In the all school sample there is some suggestion that bid acceptance in the winter yields lower prices than any other time. The coefficient for the winter dummy variable in the large sample just barely misses statistical significance at the 5 percent level and

is significant at 10 percent. If this result is believed, it suggests that a winter bid acceptance yields a 2.5 percent cost savings over a fall bid acceptance. Winter bid acceptances lead to ground-breaking towards spring while fall bid acceptance moves construction towards the winter. We interpret these results to suggest that there may be a premium associated with ground breaking and predominately outdoor construction work that heads into the teeth of winter. We do not find support for the idea that building into the peak season of construction work (the summer) by itself taxes local construction services and through seasonal crowding increases costs.

MARKET CROWDING AND STIMULATING EXCESS DEMAND

We present three separate measures of the potential for increased school construction costs because of tight local construction services markets. The first is the unemployment rate for all workers in the state in which the school is being built. This is meant to capture not only general labor market conditions but also general economic conditions within the state and to which the local construction services market will be tied. The effect of the state business cycle as measured by the state unemployment rate is statistically significant and substantial. The coefficient of .21 indicates that a doubling of the state unemployment rate from (say) 3 percent to (say) 6 percent lowers total school construction costs by 21 percent. We attribute this to a lowering of all locally determined construction costs including labor, materials and contractor margins. Indeed, it may be primarily affected by contractor margins where in bad times contractors may operate at a loss to cover fixed costs and retain key workers. These same contractors may seek to recoup these periods of loss with extra normal margins in tight construction services markets.

The second measure of market crowding is the number of projects begun in a locality in a given year. The locality is a city and the project number includes addition and alteration projects over $750,000 as well as new schools. The hypothesis is that increasing the number of projects in a locality at the same time will create an excess demand for school construction services and increase the cost of new school construction. In the all school sample, we find an elasticity of .04 indicating that a doubling of the number of projects begun will, controlling for other factors, lead to a 4 percent increase in the cost of the new school. The point estimate of this effect is larger in the high school sample indicating a 6 percent increase in total high school cost due to the doubling of the number of projects (of all types) in the local area.

The third measure of market crowding is a dummy variable

identifying new schools larger than 167,773 square feet. This demarcation isolates the largest 10 percent of the schools in the all-school sample. The hypothesis here is that large schools will strain local construction services causing excess demand and higher prices. In the all-school sample, we find that controlling for other factors, notably economies of scale due to size and the difference between high school costs and the costs of middle and elementary schools, we find a big school effect of 8.7 percent. This means that building larger enjoys economies of scale but at some point bigness may offset some or all of these scale economies due to market crowding effects.

It may be, however, that our control for high school costs is inadequate. Because schools above 167,000 square feet will predominately be high schools, it is possible that our bigness variable is picking up aspects of high school construction rather than aspects of market crowding. To test this, we look only at the sample of high schools. In this sample we retain this square foot cutoff of 167,773 square feet which ends up including about 30 percent of all new high schools. We retain the absolute cutoff on the theory that it is absolute size that crowds construction services markets rather than the relative size of schools. We find a point estimate of the bigness effect to larger. We estimate in the second sample that building above the cutoff raises construction costs by 12 percent. In both the case of number of projects and size of the project, the point estimates in the two samples tend to fall within each other's 95 percent confidence ranges forestalling the conclusion that these estimates are statistically significantly different from each other.

Prevailing Wage Regulations

Prevailing wage regulations do not cover private schools. Furthermore, in our sample of new schools built between 1991 and 1999, 41 percent of all public schools were not built under prevailing wage restrictions. These variations allow us to test the hypotheses that public schools built under prevailing wage regulations cost more than public schools not built under prevailing wage laws. This test is a two- stage process. First, we employ three dummy variables to identify the four possible situations—1) a private school built in a jurisdiction with no prevailing wage regulation; 2) a public school built in a jurisdiction with no prevailing wage regulation; 3) a private school built in a jurisdiction with prevailing wage regulations; and 4) a public school built in a jurisdiction with prevailing wage regulations. The three dummy or indicator variables are one indicating whether a school is public or private, a second indicating whether the school (public or private) was built in a ju-

risdiction with prevailing wage regulations, and a third dummy variable identifying public schools built in jurisdictions having prevailing wage laws. These three dummy variables allow for a unique identification of the four possible states with the reference state (where all dummies=0) being a private school in a jurisdiction with no prevailing wage regulation. In the first stage of our test of the effects of prevailing wage regulations on school construction costs, our ordinary least squares regression model estimates these three dummy variables for each sample. The estimates are found in rows 5, 12 and 13 of Table 8.

In the second stage of our test, we ask the question whether a public school in a jurisdiction with a prevailing wage regulation costs more than a public school in a state without such a regulation. Both these sets of schools are public. Consequently, the value of the public school dummy is the same for both and does not account for any potential difference. However, public schools in states with prevailing wage regulations have the value 1 for two dummies that take on the value 0 for public schools in states that do not have prevailing wage regulations. These two dummy variables—schools (both public and private) in jurisdictions with prevailing wage laws, and public school in a jurisdiction with a prevailing wage law, are in rows 12 and 13 of Table 8. By themselves, neither of these coefficients addresses our question. By adding these two coefficients together we obtain the regression estimate of the increase in school cost over a public school in a no-law state associated with a public school in a law state. This combined coefficient is shown in row 14, columns a and b, for the all-school and high school samples respectively. These combined coefficients of 1.8 percent in the all-school sample and –1.9 percent in the high school sample are not statistically significantly different from a zero coefficient at any standard level of significance.[9] Thus, we conclude that the elimination of prevailing wage regulations in jurisdiction in which they exist will not yield measurable savings on school construction costs.[10]

9. The test of statistical significance is the sum of the estimated coefficients divided by the square root of the variance of the first plus the variance of the second plus two times the covariance. Keller and Hartman find similar results to our all-school sample in their study of Pennsylvania schools. However, relying upon an account ng method rather than a statistical method for measuring the impact of prevailing wages on costs, they cannot estimate the statistical significance of their finding. Edward C. Keller and William T Hartman, "Prevailing Wage Rates: The Effects on School Construction Costs, Levels of Taxation, and State Reimbursements," *Journal of Education Finance* 27 (2001): 713-728.

10. Bilginsoy and Philips found similar results analyzing a Canadian case using a different data set. Cihan Bilginsoy and Peter Philips, "Prevailing Wage Regulations and School Construction Costs: Evidence from British Columbia," *Journal of Education Finance* 25 (2000): 415-432.

Conclusion

Building larger schools is a traditional way of saving on school construction costs and we estimate that a doubling of school size will cut costs by 4.7 percent over two separate schools half the size of the larger one. However, the technical benefits of economies of scale at some point encounter the market problems associated with excess demand caused by large-scale construction. Very large schools may cost from 8 percent to 12 percent more due to the excess short-run demand that they generate among local contractors, suppliers and workers. Economies of scale in school size have additional auxiliary costs and benefits associated with effect of size on administration, commuting costs and pedagogy. Other building cost-saving strategies exist and are worth considering. Two potential strategies do not offer cost saving promise. Seasonal timing of construction may save based on weather conditions, but there does not appear to be savings from strategies that attempt to avoid seasonal market crowding at least in the case of new schools. Prevailing wage regulations raise the hourly wage rate paid on public school construction. But the higher labor productivity that comes with these higher wage rates or other economies associated with better construction management appear to offset the higher mandated wage rates. In any case there is no measurable difference, controlling for other factors, in public schools built with and without prevailing wage regulations. School districts' best option for construction cost savings lie in planning the pattern of new school construction. Specifically, school districts that can build countercyclically can enjoy a buyer's advantage during economic downturns that appears pronounced in the construction industry. A doubling of the unemployment rate can lead to a 21 percent decline in school construction costs. Spacing out projects so that many projects are not begun in the same period also promises to save money. If builders make hay when the sun shines, school districts should build schools in the rain.

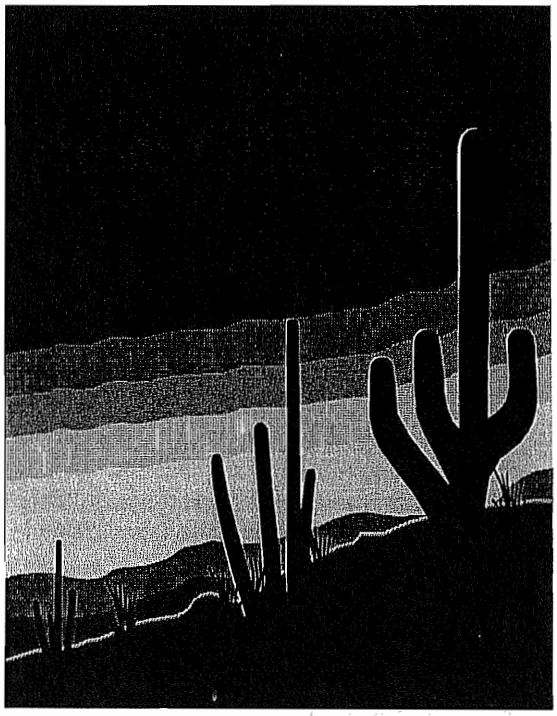
Square Foot Construction Costs for Newly Constructed State and Local Schools, Offices and Warehouses in Nine Southwestern and Intermountain States 1992-1994

Prepared for the Legislative Education Study Committee of the New Mexico State Legislature
September 6, 1996

by

Peter Philips
Professor
University of Utah
Economics Department

Abstract: This study compares public square foot construction costs in five southwestern and Intermountain states that have state prevailing wage laws with four states in the same region that do not have state prevailing wage laws. The five "have-law" states are New Mexico, Texas, Oklahoma, Wyoming and Nevada. The four "no-law" states are Arizona, Utah, Idaho and Colorado.[1] These states are often used by either New Mexico or Utah in making public school teacher salary comparisons. During the time period of the study, 1992-94, elementary schools cost $6 per square foot less in the five-state group with prevailing wage laws. Middle schools cost $11 less per square foot in the states with prevailing wage laws. High schools cost $11 less per square foot in the states with prevailing wage laws. Warehouses cost $35 dollars less per square foot in states with prevailing wage laws and office buildings cost $2 per square foot more in the five state group with prevailing wage laws. When Texas is removed from the "have-law" group, elementary and middle schools still cost less in the remaining four "have-law" states while high schools cost $5 more per square foot in the remaining "have law" states and offices cost $8 more per square foot in the remaining "have law" states. By far, the highest number of observations is for elementary schools and this group generates the most stable and reliable results with an 8% cost advantage favoring the "have-law' group when Texas is included and a 5% cost advantage favoring the "have-law" group when Texas is excluded. New Mexico's 14 newly built elementary schools during the time period of the study, 1992-94, cost $66 per square foot as compared to $72 in Arizona, $72 in Utah and $80 in Colorado, the three surrounding states without state prevailing wage laws. Construction costs are sensitive to regional differences in cost of living as well as prevailing wage law regulations, building design and other factors. Consequently, when the number of observations falls for a specific building type, these results must be treated cautiously. An aggressive conclusion from these data would be that prevailing wage laws promote collective bargaining and apprenticeship training and consequently lower public construction costs. A more conservative conclusion from these data notices that these cost differences found do not provide support for the proposition that the elimination of prevailing wage laws saves on public construction costs.



[1] Two cities in Colorado, Denver and Peublo retain prevailing wage regulations.

I. About the Author

Peter Philips received his B.A. from Pomona College (1970) and his M.A. (1976) and Ph.D. (1980) from Stanford University. He is a Professor of Economics at the University of Utah. He is co-editor of *Three Worlds of Labor Economics* and co-author of *Portable Pensions in Casual labor Markets*. Philips has published widely on the canning and construction industries in a variety of academic journals including *Industrial and Labor Relations Review*, *Industrial Relations*, *Business History Review*, the *Journal of Economic History*, and the *Cambridge Journal of Economics*. Philips has received awards for his teaching and community service including the University of Utah Presidential Teaching Scholar and the Lowell Bennion University Service Professor. Philips has served as an expert advisor to the U.S. Justice Department on the history and impact of the Davis-Bacon Act. He has testified before legislative committees in California, Indiana, Ohio and Oklahoma regarding aspects of those states' prevailing wage laws. Some of Philips' previous research has been funded by the U.S. Labor Department, by alumni of the University of Utah's economics department, by the AFL-CIO and by construction industry organizations. Readers of this report who have questions, comments, suggestions or criticisms may contact the author at the Economics Department, University of Utah, Salt Lake City, UT 84112; (801) 585-6465; PHILIPS@ECON.SBS.UTAH.EDU. The author welcomes and encourages such communication.

II. Acknowledgments

This report was prepared in cooperation with Sharon Ball, Senior Research Analyst, Legislative Education Study Committee, New Mexico State Legislature and presented to the Legislative Education Study Committee on Friday, September 6, 1996 in Albuquerque, New Mexico. Helpful comments and suggestions were received from Cihan Bilginsoy, visiting Assistant Professor, University of Utah, Hamid Azari, Instructor, Economics Department, Alabama State University at Montgomery and Evalyn Hunemuller, New Mexico School Administrators. These individuals have been most helpful. The content and any errors in this report remain the responsibility of the author. Some of the material on the effect of the repeal of Utah's state prevailing wage law on apprenticeship training in construction in that state was previously published in Hamid Azari, Anne Yeagle and Peter Philips, "The Effects of the Repeal of Utah's Prevailing Wage Law on the Labor Market in Construction" in Sheldon Friedman, et al., *Restoring the Promise of American Labor Law*, Cornell University ILR Press, Ithaca, New York, 1994, pp. 207-22.

III. Introduction

A primary reason to repeal state prevailing wage laws is to attempt to save on state public construction costs. It is argued that state prevailing wage laws encourage the use of unionized construction contractors. It is well known that union construction workers receive higher wage rates and consequently, it is argued that these higher wage rates lead to unnecessarily higher public construction costs. This report attempts to test the proposition that the elimination of state prevailing wage laws lowers public construction costs by focusing on the states surrounding New Mexico that do and do not have state prevailing wage laws. The design of this study is to select states that New Mexico uses when making comparisons of public teacher salaries. New Mexico is well situated for such a study design because some of the surrounding states have state prevailing wage laws (Texas and Oklahoma[2]) and some do not (Utah, Arizona, Colorado).

In addition, because the author is from Utah and has an interest in the effect of Utah's repeal of its prevailing wage law on state expenditures, the states surrounding Utah are also included in this study.

---

[2] The time period for this study is 1992 to 1994. In the fall of 1995, Oklahoma's state supreme court declared its state law unconstitutional. In 1982 Oklahoma's legislature, in order to save administrative costs, dropped its procedure for determining what the prevailing wage rate was and adopted the federal Davis-Bacon rates. In 1995, the state supreme court declared this an unconstitutional delegation of state powers to the federal government. For the purposes of this study, Oklahoma is treated as a state with a prevailing wage law.

These are Nevada and Wyoming which have state prevailing wage laws and Idaho which does not have a prevailing wage law. Also, I understand Nevada school teacher salaries are sometimes used in comparison with New Mexico public teacher salary comparisons. In any case, the data are presented in such a way as to see the effects of the inclusion or exclusion of any one or several of these states. States such as California are excluded from this comparison of public construction costs for the same reason that California would be excluded from a comparison of school teacher salaries. Significant variations in the cost of living alter private and public sector construction costs. One way to control for this effect is to select states with similar costs of living.

This study also focuses on a short time period, 1992 to 1994 in order to reduce the confounding effects of inflation and the business cycle on comparison of construction costs. All costs are analyzed in 1994 dollars using the consumer price index urban as a deflator.

The major focus of this study is on school construction costs because this type of construction is commonly affected by state prevailing wage laws and because this type of public construction provides many observations allowing for more reliable statistical results. For comparison, this study also includes public offices and warehouses. Not surprisingly, there are considerably fewer public office buildings and warehouses built in the selected region during the selected time period. The results for these types of buildings should be viewed conservatively for both statistical and practical reasons. Statistically, the fewer observations only permit more tentative conclusions. Practically, if one wished to save public construction cost by altering prevailing wage law regulations, one should focus on where most state public construction takes place. That would lead to a relatively sharper focus on school construction compared to other building types.

This study is in three main parts plus two appendices. Section IV reviews the relevant literature on school construction. No published studies exist that focus on school construction and prevailing wage laws. However, the U.S. Bureau of Labor Statistics did publish one study of school construction costs in the early 1970s. This study found that despite an almost 50% wage rate differential in school construction between the Northeast and the South in 1972, labor costs as a percent of total construction costs were basically the same. The study attributed this to possible differences in labor productivity and the cost of materials by region.

Again studying construction in the 1970s, economist Steven Allen found that union construction labor productivity was 20 percent to 50 percent higher than nonunion construction labor productivity. However, Allen also found that schools built by union contractors were more expensive than schools built by nonunion contractors. Allen's sample was small so that he was forced to combine elementary schools with middle and high schools. Furthermore, Allen's sample contained only 11 nonunion schools and 57 union-built schools across the entire U.S.. In contrast to Allen, this study presents data for 223 schools built only in nine Intermountain and Southwestern states. This allows me to control for differences in square foot costs associated with differences between high schools and elementary schools as well as eliminate the confounding effects of regional differences in cost of living.

Section V presents an analysis of training in construction as it relates to prevailing wage laws and union/nonunion differences in contractor strategies. This section shows that in the case of Utah, apprenticeship training declined dramatically after the repeal of Utah's state prevailing wage law. Neither nonunion contractors nor state vocational education programs significantly made up for the loss in jointly managed union-contractor programs in the union sector of construction. Economic theory identifies two problems or market failures that lead to greater training when there is collective bargaining in construction. These are the free rider problem and the bait-and-switch problem. Basically, because construction workers often move from contractor to contractor as work shifts from construction site to construction site, nonunion contractors are hesitant to train workers who will only end up working for their competitors. In the collective bargaining context, the rule is "who comes around goes around". For example, I train the apprentice who may end up working for you while you train the apprentice who because he or she is a member of the union and I am a union contractor, I know he or she may end up working for me. Thus, the

collectively bargained contract tends to overcome the free rider problem and permit training. U.S. Bureau of Apprenticeship data reflect this by showing that three out of every four construction apprentices enrolls in a joint union-management apprenticeship program even though union contractors employ only 25% to 50% of the labor force. Furthermore, in union-management apprenticeship programs graduation rates are relatively high. This is because there is a jointly hired apprenticeship coordinator who serves as a policeman insuring that the quality of the training is good and apprentices are rotated through a variety of work experiences. On the nonunion side there usually is no policeman insuring that training takes place. Thus, some nonunion contractors are tempted into a bait-and-switch strategy of promising training but only providing helper experience. Consequently, the graduation rate on the nonunion side of apprenticeship training is much lower. The combined consequence of free-ride and bait-and-switch problems means that almost nine out of every ten journeyman construction workers graduating from formal, monitored, structured and planned apprenticeship programs come from the unionized sector of construction. This accounts for the higher productivity of unionized construction contractors that tends to pay for the higher union wage rates.

Section VI presents the results of comparing the square foot construction costs in five types of public buildings (elementary schools, middle schools, high schools, offices and warehouses) in five states with prevailing wage laws (New Mexico, Texas, Oklahoma, Wyoming and Nevada) with four states without prevailing wage law regulations (Utah, Arizona, Colorado and Idaho). These results show that if anything, square foot construction costs are lower in the states with state prevailing wage laws compared to those without these laws. Comparing New Mexico to the four states without prevailing wage laws yields the same result. Excluding Texas from the group of states with prevailing wage laws (because Texas has a majority of observations in this group) also yields the same result. While one cannot conclude that prevailing wage laws definitely lower state construction costs, one can conclude that in this region of the country and these types of structures, especially schools and especially elementary schools (where we have the largest number of observations) there is no evidence to support the proposition that state prevailing wage laws raise public construction costs.

Appendix A lists the F.W. Dodge data for New Mexico used in this study. It should be noted that all cost data in this study are accepted bid prices or start costs. These costs do not include change orders or other sources of cost over-runs. F.W. Dodge does not collect final cost data. An attempt was made to collect final cost data but this proved to be impractical. A large and well financed study might succeed in collecting final cost data but there is no central source for these kind of statistics.

In Appendix B to this report, this study presents data from the *U.S. Census of Construction* showing that labor costs as a percent of total costs in construction runs around 25% to 30%. This is helpful data in setting the limits on plausible estimates of how much money one might save by eliminating state prevailing wage laws. Clearly any estimate asserting that one might save 25% to 30% on total public construction costs by eliminating state prevailing wage laws is unrealistic given that labor costs including benefits are only 25% to 30% of total costs.

IV. Review of the Relevant Literature.

Summary of a U.S. Bureau of Labor Statistics Study of Wages and School Construction Costs

In 1979, the U.S. Bureau of Labor Statistics published a study of school construction costs by region in the United States. In contrast to the material I will present below, the BLS study did not break out schools into elementary, middle and high schools. Nor did it break down construction by state. Rather, the BLS study aggregated school types and presented data on four regions, northeast, midwest, south and west. The relevant data for our purposes is presented below.

Table 1: Hourly Wage Rates and Total Costs as a % of Total Construction Costs

Elementary and Secondary School Construction		
1972	Hourly Wage Rate	Wages as a Percent of Total Cost
Northeast	$7.75	27.9%
North Central	$7.43	29.3%
South	$5.22	27.3%
West	$7.22	29.0%

Source: U.S. Bureau of Labor Statistics, John G. Olsen, "Labor and Material Requirements for New School Construction," *Monthly Labor Review*, April 1979, Vol. 102, Number 4, p. 41.

The key point to be derived from Table 1 is to note that hourly wage rates varied considerably between the Northeast region and the South ($7.75 versus $5.22 in 1972). In contrast, wage costs as a percent of total costs were almost the same in the two regions (27.9% versus 27.3%). The analyst, John Olsen, commented on these facts as follows:

> Average hourly earnings also varied by region. Hourly earnings for all construction workers averaged $6.78, ranging from $5.22 in the South to $7.75 in the Northeast. Wages as a percent of contract costs varied from just above 27 percent in the South to slightly above 29 percent in the North Central. Although average hourly wage rates in the Northeast were higher than those in the North Central region, wage costs as a percent of total contract costs were lower. Among other factors, this irregular trend could result from regional differences in productivity rates and in relative material costs. (pp. 40-41)

Why could differences in labor productivity account for the fact that an almost 50% difference in wage rates between the South and the Northeast did not result in any difference in labor costs as a percent of total costs? The answer is simple. If labor productivity in the Northeast was 50% greater than labor productivity in the South, either because of better training, better equipment or both, then the higher wage rates of the more productive workers would be offset by that greater labor productivity. Is it reasonable to believe that construction workers in the Northeast in 1972 were roughly 50% more productive than Southern construction workers at the time?

Summary of Steven G. Allen's Work

In 1984, an economist at North Carolina State university, Steven G. Allen, published in The Quarterly Journal of Economics an article entitled "Unionized Construction Workers Are More Productive".[3] Professor Allen summarizes his study as follows:

> Apprenticeship training and hiring halls probably raise union productivity [compared to nonunion workers] while jurisdictional disputes and restrictive work rules lower it. Using Brown and Medoff's methodology, union productivity measured by value added per employee is 44 to 53 percent higher than nonunion. The estimate declines to 17 to 22 percent when estimates of interarea construction price differences are used to deflate value added. (p. 251)

In other words, prior to adjusting for differences in regional cost-of-living and differences in regional construction material costs, union construction labor in the 1970s, the period of Allen's study, was roughly 50% more productive than nonunion labor. The wage rates and material costs in the BLS study were not altered to factor in the effect of differences in regional cost-of-living. Thus, the BLS study is quite consistent with Allen's work and their conclusions are similar. Wage rate differences of 50% across regions with differences in productivity and cost-of-living may not alter labor costs as a percent of total costs. Within a region such as New Mexico or the Intermountain west, where the cost-of-living and the material costs of construction is similar, 20 percent differences in wage rates in construction can be offset by differences in productivity between union and nonunion labor.

In a subsequent paper also published in the *Quarterly Journal of Economics*, Allen comes up with slightly different conclusions. In "Can Union Labor Ever Cost Less?" Allen concludes:

> ...union contractors have greater economies of scale. This gives them a cost advantage in large commercial office buildings, but in school and hospital construction, nonunion contractors have lower costs at all output levels. Despite the cost differences, profits for nonunion contractors in school and hospital construction are no higher than those for union contractors because the burden of higher union costs is shifted to the buyer.[4]

In other words, based on a study of 57 union built elementary and secondary schools and 11 nonunion built elementary and secondary schools, Allen concludes in his second article that the union built schools cost more and that the union contractor did not absorb those added costs. Rather those added higher costs were passed on to the school boards and tax payers who paid for that construction.

I emphasize Allen's result because it is not consistent with the data I have analyzed for New Mexico and eight other Intermountain or Southwestern states from the early 1990s. The differences in my results which I present below compared to Allen's may be due to 1) differences in time, Allen's data are from the early 1970s, 2) differences in region, Allen does not indicate what region of the country his school data are drawn from while my results are specific to nine states, 3) effects of mixing elementary, middle and high schools together--Allen does not break out school types while I do; or 4) differences in sample size. Allen is comparing 57 union built schools with 11 nonunion built schools while I compare 223 schools built in prevailing wage law states with 109 schools built in non-prevailing wage law states.

As I will point out below, the results of the this study are that square foot cost of school construction in the selected states are, if anything, lower in the states with prevailing wage laws compared to those without prevailing wage laws. Obviously, not all schools in states with prevailing wage laws in this region are built

[3] *Quarterly Journal of Economics*, May, 1984, pp. 251 to 274. *The Quarterly Journal of Economics* is the second oldest economics journal in the United States and is published by Harvard University. It is considered one of the premier journals in economics.

[4] Steven G. Allen, "Can Union Labor Ever Cost Less?" *Quarterly Journal of Economics*, May, 1987, pp. 347 to 373.

by union contractors and not all schools in states without prevailing wage laws are built by nonunion contractors. Allen does not break his analysis down along the dimension of legal regulations. For the purpose of analyzing the advisability and usefulness of prevailing wage law regulations, it is more useful to break construction projects out by whether they were built under these regulations or not rather than whether they were built union or nonunion. Nonetheless, it is appropriate to address the question of differences between union and nonunion contractors as this issue underlies much of the debate surrounding prevailing wage laws.

V. Why Union Contractors Train More

The Case of Utah's Prevailing Wage Law Repeal[5]

When Utah repealed its state prevailing wage law in 1981, training for construction, both in union apprenticeships and through vocational schools declined in Utah. Union apprenticeships are tied to the availability of union jobs. For example, unionized plumbers and pipe fitters in Utah, United Association of Journeymen and Apprentices of the Plumbing and Pipe Fitting Industry of the United States and Canada, historically have attempted to maintain apprenticeship rates at between 10 and 15 percent of the number of union journeymen plumbers in the state (fig. 14.3). As employment boomed in the 1970s, however, the union could not meet the demand for journeymen from the unionized contractors. Consequently, the union increased apprenticeship rates to a peak of 25 percent in 1975. The boom persisted, but the backlog had been remedied. So the union lowered its apprenticeship rate back to normal ranges by 1978. Employment during the construction boom peaked in 1979 and membership in the plumbers and pipe fitters' union peaked in 1981. With the repeal of the Utah prevailing wage law, the union dropped its apprenticeship rate to 10 percent, a historical low. Union membership fell slightly in 1982 and then began a steeper decline in 1983. Faced with these sustained declines in membership, the union cut its apprenticeship rate to historical lows in 1986 and thereafter. Unions hit harder by declines in membership have scaled back their apprenticeship programs further. The carpenters' union, Utah locals 184 and 1498 of the United Brotherhood of Carpenters and Joiners of America, which graduated seventy in a class in 1977, graduated five in 1992 (Hansen, Paul. Weber Basin Job Corps Carpenters Union Instructor, personal interview, Sept. 2, 1993). The Utah International Union of Bricklayers and Allied Craftsmen suspended its apprenticeship program altogether.

The decline in union apprenticeship training in Utah has not been offset by a rise in other sources of training. Because the repeal of Utah's prevailing wage law was motivated by a desire to limit state expenditures, state legislators were not eager to raise funding for state-sponsored vocational training. Delmar Stevens, who has taught building trades construction at Salt Lake Community College since 1971, chronicles the decline in enrollment.

> I started at the college in 1971. We went about two or three years and then the enrollment just really started to grow. [When I started we had] probably about 45 students with the first year and second year programs. Then about 1973 or 74 it really started to grow. It jumped up to 200 students and then the crunch came in the last part of the 70s and early 80s it just dropped back to 30 or 40 students. Right now we let in anybody who can walk or crawl. We'll probably graduate 6 or 7 this year (Personal interview, September 14, 1993).

Although the number of vocational graduates in construction grew in the 1970s, the construction labor force grew more rapidly. Thus, while the 1970s was the heyday of vocational training at Salt Lake Community College, vocational graduates as a percentage of the construction labor force had already begun to decline.

---

[5] The next two subsections of this report are drawn from Hamid Azari, Anne Yeagle and Peter Philips, "The Effects of the Repeal of Utah's Prevailing Wage Law on the Construction Labor Market" in Sheldon Friedman, et al., *Restoring the Promise of American Labor Law*, Cornell University, ILR Press, 1994, pp. 207-22.

Stevens argues that the decline in enrollment is driven by a lack of demand for training. "The staff is hanging on by their fingernails because there's not enough students that want to get into the program." He adds that many of his graduates do not stay in construction: "They get out, and they find out that they don't want to work in the cold in the winter and they want to get into something more secure, something that's got benefits." Construction has always required workers to work in the cold, but the loss of benefits and security has occurred since 1980 along with stagnating employment, declining rate of unionization, and falling relative wages.

Stevens also argues that the decline in construction training is a function of shifting government priorities in education:

> I can't speak for the school—I don't want to get in trouble that way—but we do have more general ed classes feeding the University [than in the past] and the vocational programs are really suffering. You look at Weber State. They used to have vocational programs and with academic drift, they don't have any vocational programs anymore.

Tom Lewis, director of the plumber and pipe fitters' union apprenticeship program, agrees with Stevens that there is an institutional tendency to move away from vocational education.

> We used to have a pretty good relationship with the community colleges. The reason we bought our own building and moved out here [away from Salt Lake Community College] is that you have an administrator of a vocational school and they don't want to remain the administrator of a vocational school. They move to an applied technology center, then they're a community college, and then they're a university. I started my apprenticeship at Weber Vocational Center which is now Weber State University. Vocational training seems to get set aside as this evolution happens and we eventually just get moved out the back door(Personal interview, Sept.3,1993).

The steady decline in vocational training as a percentage of the construction labor force through good times and bad supports the notion that the state has simply tried to get out of the business of vocational training in construction. The fall in union membership and wages has made construction a less attractive career. At the same time, unions are less able to train construction workers. As unions are weakened and schools drift toward academic offerings, the capacity to respond smoothly to an upsurge in construction jobs is undercut. And federally sponsored Job Corps vocational training is not in a position to fill in the gap.

Federal revenues pay for Job Corps training in Utah at both the Weber Basin and Clearfield centers. Federal funding in real terms for these centers has not expanded, but the Weber Basin Job Corps Center, which draws predominately from the Utah population, has significantly contracted its construction worker training throughout the 1980s. This center committed itself to changing from an all-male student population in 1980 to 50 percent female by 1990. To accommodate this switch, training for traditionally male occupations such as construction have been scaled back to accommodate new offerings in traditionally female occupations, such as office management and clerical work. Cement masonry and heavy-equipment training have been eliminated, and instruction in carpentry, painting, and brick laying has been cut in half.

The Clearfield Center has graduated approximately one hundred construction trainees per year since the early 1970s. Fewer Clearfield graduates go into the Utah labor market compared with Weber Basin because most of Clearfield's students are from out of state. On the whole, perhaps 10 percent of Clearfield's graduates go into the Utah labor market, but this percentage rises during periods of local labor shortage. It is estimated, however, that at most only 25 percent of Clearfield's graduates will stay in Utah (Hill, Merle. Vocational Education Manager, Clearfield Job Corps, personal interview, Sept. 9, 1993).

Even without union pressure, a skill shortage in Utah construction may raise wages and induce a new generation of young people to enter vocational training. When that happens, however, high-quality training programs, which take time to create, may not be in place to meet that demand, which will add an additional lag to the natural time it takes to train a skilled laborer.

Why the Nonunion Sector Did Not Make Up for the Loss of Union Training

The market has not successfully made up for the decline in union and state-sponsored training. At the national level, the nonunion Association of Building Contractors (ABC) has attempted to replicate the union system of bargaining for hourly contributions to a training fund. It is difficult, however, to induce ABC's member contractors to include general training costs in their bids. Each contractor fears his competitors will not include training costs. Thus, in an attempt to be low-cost bidder, ABC contractors often refrain from including training costs despite the ABC's initiative. Consequently, very little ABC training has occurred in Utah.

Nonunion apprenticeship programs operate, however, in the licensed trades of electricians and plumbers. In 1992, there were 846 nonunion licensed apprentice electricians in Utah and 2,068 nonunion journeymen. Thus, there are 4 apprentices for every 10 journeymen in the nonunion sector. In contrast, there were 123 apprentices and 607 journeymen in the union sector in 1992 or 2 apprentices for every 10 journeymen. In the nonunion sector, apprentices begin at around $6 per hour with no benefits. Over a four-year period, the state mandates that their wage rise to 80 percent of a journeyman's pay. In the union sector, apprentices begin at $7 per hour with an additional $3 in benefits. Their wages rise to $14 per hour plus $3 in benefits over a five-year period (Leroy, Julie. Assistant Business Manager, IBEW Local 354, Sept.25, 1993). Nonunion apprentices are sponsored by a particular contractor that oversees their on-the-job training, and these apprentices also take classwork at a participating community college. Union apprentices work under the direction of an apprenticeship coordinator, rotate among employers for on-the-job training, and take classes at community colleges and union apprenticeship centers. Roughly 90 to 95 percent of the union apprentices complete their programs and graduate to journeymen status, while only 15 to 20 percent of the nonunion apprentices graduate (Dean, Frank. Home Builders Institute Electrical Instructor, Clearfield Job Corps, Sept. 9, 1993). Given these rates, in four years, out of 846 nonunion apprentices, we should expect 125 to 170 journeymen to be graduated. In five years in the union sector, out of 123 apprentices, 110 to 115 apprentices would graduate to journeymen electrician. Thus, while the nonunion sector accounts for more than 85 percent of all electrician apprentices, it accounts for about 60 percent of journeymen graduates. Economic theory is consistent with this pattern wherein nonunion apprentices are paid less and graduate at a lower rate than union apprentices.

Economic theory posits that in the absence of marketwide institutions or government subsidies, individual workers will have to pay for their own on-the-job training when the skills learned are general to an industry and not specific and unique to the activities of a particular firm. The worker-learner pays for training by accepting a wage that is lower than the value to the firm of that worker's marginal product. By working for less than what the worker is worth to the employer, the worker pays the employer for on-the-job training. That beginning nonunion electrical apprentices earn $6 per hour while union apprentices earn $10 per hour (including benefits) is consistent with the theoretical proposition that nonunion apprentices pay for their own training by taking a discounted wage below their marginal value to the contractor.

Because the employer does not pay for nonunion training, the theory suggests that the employer has no stake in the worker's training. Consequently, if the worker leaves, the employer does not lose any investment in the worker's human capital. Thus, the employer will tolerate high levels of turnover. Because the worker is receiving less than what the worker can earn in other jobs with no on-the-job training, the worker may be tempted to exit jobs with training when current personal budget needs become pressing. So, on both the employer side and the worker side, turnover is tolerated in the nonunion sector. This is consistent with the higher turnover rates among nonunion apprentices, but other factors also contribute to the 15 to 95 percent differential in nonunion to union graduation rates.

Because the nonunion employer prices new hands at discounted wages that shield the employer from investing in the human capital of the new workers, the employer does not screen new workers extensively to forestall subsequent turnover. Failure to preselect new workers for aptitudes and attitudes consistent with a long-term attachment to construction work adds to the turnover among nonunion construction apprentices. In contrast, the joint apprenticeship boards of unions and union contractors do considerable preselection for both aptitude and attitude before letting a candidate into an apprenticeship program. This is because both the union

contractors and unions will invest in the union apprentices' training. Not wanting to lose their up-front investment, they seek to eliminate exit once the apprenticeship is begun.

In the nonunion sector, workers may also leave apprenticeships if it becomes apparent that the employer offering training at a discounted wage is not delivering on that training promise to train. Because employers are able to discount wages of apprentices below their current worth to the employer, it is tempting to engage in bait-and-switch tactics whereby training is promised but not delivered. By saving on training costs, the employer can earn an additional profit from employing green hands at discounted wages. In the union sector, because employers and union journeymen invest in the training of the apprentices, bait-and-switch tactics are less attractive. Because the apprentices' wage is not discounted as much below what they could earn elsewhere, the apprentices are not as tempted to leave. Thus, economic theory predicts the observed pattern whereby the nonunion sector must begin training five apprentices to graduate one journeyman while the ratio in the union sector is close to one to one.

The General Pattern of Training in Construction

In basic terms, nonunion contractors have difficulty training because one, the relationship between the contractor and the construction worker is often brief. This leads to a free-rider problem. Why should I train you when you are likely to go down the road and work for my competitor. I would just be helping him out and not myself. Two, without an apprenticeship coordinator there is no one policing the training to insure that on-the-job training takes place and is of decent quality. Thus, some contractors are tempted into bait-and-switch strategies where they promise an apprenticeship experience but deliver only the job experiences of a helper. The apprentice spends his or her time holding the dumb end of a measuring tape. The result of these two market failures, the free-rider and bait-and-switch phenomena lead to lower numbers of apprentices in the nonunion sector and lower rates of graduation into journeyman status. Data from the U.S. Bureau of Apprenticeship Training illustrate these effects.

Table 2 shows data for the entering class of construction apprentices in 1989. The data exclude California, New York, Delaware and Hawaii . These states currently do not report into the U.S. Bureau of Apprenticeship Training data base. For the remaining states, basically three out of every four construction apprentices enrolled into a jointly managed union-contractor apprenticeship programs despite the fact that union contractors account for less than half of all construction workers.

Table 2: Apprentices Enrolled in 1989 by Union and Nonunion Sectors and Craft

Apprenticeship in Construction The Class of 1989			
(1)	(2)	(3)	(4)
	Entering Apprentices		
	Total	% Union	% Nonunion
Electrician	7,245	58.4%	41.6%
Carpenter	4,752	88.8%	11.2%
Plumber/Pipefitter	4,467	65.6%	34.4%
Sheet Metal	1,856	74.0%	26.0%
Structural Steel	1,234	97.4%	2.6%
Roofer	1,162	88.0%	12.1%
Painter	972	90.6%	9.4%
Bricklayer	830	90.0%	10.0%
Operating Engineer	729	87.9%	12.1%
Other	3,675	78.5%	21.5%
All trades	**26,922**	**74.8%**	**25.2%**

Table 3 shows that the graduation rates are very different in the union and nonunion sectors of construction. By 1995, six years after enrollment, 55.8% of the apprentices in joint union-management programs had turned out as journeymen. In contrast, among the smaller number of nonunion apprentices only 28.7% turned out as journeymen by 1995. The lower number of apprentices in the nonunion sector despite the fact that the nonunion sector employs more workers is an example of the problem of free-rider market failures. The lower graduation rate among the nonunion apprentices reflects the problem of bait-and-switch. Together these problems feed on each other.

Table 3: Graduation Rates for the Entering Class of 1989 by Sector and Craft

Apprenticeship in Construction The Class of 1989		
(1)	(5)	(6)
	% of Each Group Graduating	
	Union	Non-union
Electrician	69.0%	29.5%
Carpenter	44.8%	29.5%
Plumber/Pipefitter	61.5%	26.0%
Sheet Metal	67.4%	43.6%
Structural Steel	56.2%	9.4%
Roofer	29.2%	17.9%
Painter	39.9%	18.7%
Bricklayer	49.9%	48.2%
Operating Engineer	53.8%	6.8%
Other	57.3%	25.7%
All trades	**55.8%**	**28.7%**

Table 4 shows the combined effects of free rider and bait-and-switch problems. The higher ratio of apprentices to journeymen in the union sector combines with the higher graduation rate in the union sector resulting in union contractors accounting for 85% of all the new journeymen coming from the entering class of 1989.

Table 4: The Share of All New Journeymen Coming from the Entering Class of 1989

Apprenticeship in Construction The Class of 1989		
(1)	(7)	(8)
	Share of All Graduates	
	Union	Nonunion
Electrician	76.7%	23.3%
Carpenter	92.3%	7.7%
Plumber/Pipefitter	81.8%	18.2%
Sheet Metal	81.5%	18.5%
Structural Steel	99.6%	0.4%
Roofer	92.3%	7.7%
Painter	95.4%	4.6%
Bricklayer	90.3%	9.7%
Operating Engineer	98.3%	1.7%
Other	89.1%	10.9%
All trades	85.2%	14.8%

Not all good construction workers learned their trade through formal apprenticeship. Not all union construction workers come from formal apprenticeship. Not all union apprenticeship graduates stay within the union sector of construction. However, the fact that almost nine out of every ten journeymen coming out of formal, monitored, planned and supervised apprenticeships come out of union apprenticeships means that union construction contractors are more likely to have a core of well trained craft workers. This allows these contractors to confidently invest in larger or more specialized machinery that require greater skill. This allows those contractors to employ capital intensive and human capital intensive technologies where wage rates can be higher without necessarily raising unit costs.

VI. An Analysis of Square Foot Public Construction Costs in Nine Southwestern and Intermountain States

The F.W. Dodge Corporation collects data on the accepted bid price or start cost of construction projects across all states and in both the public and private sector. Dodge does this as an information service to contractors bidding on construction jobs. From these data, I have selected five types of new structures built for non-federal public entities for analysis. These structures are elementary schools, middle schools, high schools, offices and warehouses. I limited my analysis to new construction in order to bring my

comparisons as closely as possible to similar construction projects.[6] Renovations have more widely varying characteristics. (For instance a new boiler put into an elementary school will have a much higher square foot cost than would the installation of a portable class room.) I looked at construction that began sometime between July 1, 1992 to July 1, 1994. I translated all accepted bid prices into 1994 dollars using the consumer price index.

I selected construction in nine western states. These states include five states with state prevailing wage laws regulating wage rates on public construction and four states free from these regulations on state and local public construction. The states selected were Utah which does not have a state prevailing wage law and New Mexico which does have such a law. Plus I selected all surrounding states that either border New Mexico or border Utah or both. Based on this criterion, the five selected states with prevailing wage laws are 1) New Mexico, 2) Texas, 3) Oklahoma[7], 4) Wyoming and Nevada. The four states in which contractors were free from state prevailing wage regulations in my selected group are Arizona, Utah, Colorado and Idaho. With the exception of Nevada where the two main cities, Las Vegas and Reno tend to have cost-of-living characteristics similar to California, the states in this selected group tend to have similar cost-of-living characteristics.

Table 5: The Distribution of Construction by Type within the Selected Nine States

New State Construction 1992-94 in 9 States

Structure Type	Count	Column %
OFFICES	43	10.90%
WAREHOUSES	20	5.10%
ELEMENTARY SCHOOLS	175	44.30%
MIDDLE SCHOOLS	104	26.30%
HIGH SCHOOLS	53	13.40%

In the nine selected states, during the years 1992 to 1994, elementary schools accounted for the largest single type of new non-federal public construction.

Table 5 shows the distribution of construction projects across the five selected types. Elementary schools are the most common while warehouses are the least common. In order to make statistically meaningful comparisons between the average square foot public construction costs in states with and without state prevailing wage laws it is necessary to have a sufficient number observations. Thus, results for elementary schools are most reliable and results for warehouses are least reliable.

---

[6] I excluded from my sample any project that reported square foot costs less than $20 or over $500. In unreported statistical analyses, I included these outliers. The conclusions of this report are not substantially altered by the exclusion of these cases.

[7] In October, 1995, Oklahoma's state supreme court declared Oklahoma's law unconstitutional. It is no longer in effect. However, during the period under study, Oklahoma had a prevailing wage law regulating state public works.

Table 6 shows the breakdown of construction sites by type of structure grouped by states with and without state prevailing wage laws. The distribution of structure types is basically the same in the five states with prevailing wage laws compared to the four states without such laws. Elementary schools are most common and public warehouses are least common. More construction in the selected structure types took place in the five states with prevailing wage laws compared to the four states without such laws. In general, there are sufficient numbers of sites by type in each group of states to make meaningful comparisons with the possible exception of warehouses where there were only 12 built in states with prevailing wage laws and 8 built in states without prevailing wage laws. In contrast, 116 elementary schools were built in states with prevailing wage laws and 59 in states without prevailing wage laws. This is clearly enough observations to overcome the random effects of special aspects on any one particular job site that might raise or lower square foot construction costs.

Table 6: Distribution of New Construction by Type and Prevailing Wage Law Status

	Status of State Prevailing Wage Law			
	Has P.W. Law		No P.W. Law	
	Count	Column %	Count	Column %
Structure Type				
OFFICES	23	8.90%	20	14.60%
WAREHOUSES	12	4.70%	8	5.80%
ELEMENTARY SCHOOLS	116	45.00%	59	43.10%
MIDDLE SCHOOLS	76	29.50%	28	20.40%
HIGH SCHOOLS	31	12.00%	22	16.10%

More new public construction took place in the five states with state prevailing wage laws compared to the four states without prevailing wages laws during the period under study. However, the distribution of types of structures was similar in the two groups of states.

Table 7 shows Texas (a state with a prevailing wage law) accounts for the most construction projects of any of the nine selected states. Arizona (a state without a prevailing wage law) is second while Wyoming provides the least number of construction sites to analyze. New Mexico built 24 new public structures of the types under analysis during the time period under analysis. Of these 24, 14 were elementary schools. This is a sufficient number to make comparisons using New Mexico alone compared to other states. (These structures are listed in Appendix A.)

Table 7: Distribution of New Construction by Type and State

Number of New State and Local Construction Projects by State									
State	AZ	CO	ID	NM	NV	OK	TX	UT	WY
OFFICES	6	4	5	4	2	1	13	5	3
WAREHOUSES	1	6	1	0	0	0	12	0	0
ELEMENTARY	24	14	8	14	10	12	79	13	1
MIDDLE SCHOOLS	9	6	7	4	5	8	58	6	1
HIGH SCHOOLS	10	2	5	2	5	3	21	5	0
Total	***50***	***32***	***26***	***24***	***22***	***24***	***183***	***29***	***5***

Texas accounts for the largest amount of new construction projects. Arizona is a distant second. Wyoming accounts for the fewest projects.

Table 8 presents data on average square foot cost of construction in 1994 dollars broken down by structure type for the selected four states that do not apply prevailing wage regulations to state and local public works. In addition to average (or mean) square foot costs, Table 4 shows the number of new structures built, the minimum square foot cost on the least costly of these structures and the maximum square foot cost on the most costly of these structures.

In each state, elementary schools were the most common structure built. Average square foot costs ranged from a low of $60 per square foot for 8 elementary schools in Idaho to $80 per square foot for 14 elementary schools in Colorado. In terms of individual schools, one elementary school in Arizona and one in Idaho were built for $46 per square foot while at the other extreme, one elementary school in Arizona was built at the cost of $155 per square foot. These cost variations in elementary school construction may have to do with urban versus rural settings, differences in installed equipment, the size of the school or other factors. In comparing square foot construction costs across states with and without prevailing wage laws, my analysis assumes that with increased sample size the effects of these special factors driving costs up or down will offset each other in state averages. This is more likely to be true as the sample size rises.

In Table 9 the same square foot construction costs are presented for states with prevailing wage laws. Again, elementary schools are the most commonly found type of new public structure in each state. The average square foot cost ranges from a low of $49 per square foot for 8 elementary schools in Oklahoma to a high of $96 per square foot for 10 elementary schools in Nevada. The 14 elementary schools in New Mexico averaged $66 per square foot with the cheapest coming in at $35 per square foot and the most expensive at $87.[8] Oklahoma had the single cheapest elementary school built at $27 per square foot while Texas had one elementary school cost $368 per square foot. The difference in these very cheap and very expensive projects are probably due primarily to distinct differences in specifications of the buildings. However, when the expensive Texas school is averaged in with the 78 other elementary schools built in that state, its effect on the statewide average is minimal.

[8] The cheapest New Mexico elementary school project involved portable metal classroom buildings and the most expensive was the building of Chaparral Elementary School in Santa Fe. In comparing construction costs, one tries to compare apples to apples. Elementary schools as a building type are relatively homogeneous. However, as the example of portable classrooms suggests, even within the category of elementary schools/new construction there can be considerable differences in building design driving square foot cost differences. Similarly, it may be that Santa Fe is a more expensive region within New Mexico. This is why more observations lead to better comparisons of averages as the atypical project or the atypical area gets swamped by a larger number of more typical projects and more representative areas within a state.

MIDDLE SCHOOLS	76	$66	28	$77
HIGH SCHOOLS	31	$70	22	$81

Square foot construction costs on public projects are not higher in states with prevailing wage laws compared to states without prevailing wage laws.

Table 10 presents the key results from the F.W. Dodge data. Let us focus on elementary schools first because this is the largest group. Average square foot new construction costs are $67 in the five Intermountain and southwestern states with prevailing wage laws and $73 per square foot in the four Intermountain and southwestern states without prevailing wage laws. The sample sizes are large and statistical tests show that this difference of $6 per square foot is real.[9] Referring back to Tables 4 and 5 one can compare New Mexico to the group of states without prevailing wage laws. The average square foot cost for building 14 elementary schools in New Mexico was $66 compared to an average of $73 for 59 schools in the group of states without prevailing wage laws. Comparing New Mexico with Colorado, Utah and Arizona, the three non-prevailing wage law states bordering New Mexico yields similar results. In Utah, 13 elementary schools were built at an average square foot cost of $72. In Arizona, 24 elementary schools were newly built at an average square foot cost of $72, and in Colorado, 14 elementary schools were built at a cost of $80 per square foot. These compare with New Mexico's 14 schools built at a cost of $67 per square foot. Of the four states without prevailing wage laws, only Idaho had a lower average than New Mexico. Idaho built 8 elementary schools at a cost of $60 per square foot.

These data do not support the proposition that eliminating prevailing wage laws are likely to lower public elementary school construction costs in a measurable way. Because the sample size for elementary schools is the largest, this is the single most reliable conclusion from the Dodge data.

Table 10 also shows that the square foot construction cost of middle schools and high schools are lower in the five states with prevailing wage laws compared to the four states without these laws. The 76 middle schools built in prevailing wage law states cost an average of $66 per square foot while the 28 middle schools built in the four states without prevailing wage laws cost an average of $77 per square foot. In the case of high schools, the contrast is similar. In states with prevailing wage laws, square foot costs for 31 schools were $70 while in states without prevailing wage laws it was $81 for 22 schools. However, this last result disappears when Texas is removed from the group of states that have prevailing wage laws. The sample of high schools in the remaining four states with prevailing wage laws falls from 31 to 10 and the square foot costs rises to $86. Removing Texas lowers the sample sizes for elementary schools in the remaining prevailing wage law states from 116 to 37 and middle schools from 76 to 18. However, the basic results in these two cases are unaltered. Square foot construction costs are still, on average, lower in the remaining four states with prevailing wage laws compared to the four states without prevailing wage laws.

[9] A two-tailed t-test shows that these are statistically different numbers at the 5% level of significance.

The sample sizes for middle schools and high schools in New Mexico are low. New Mexico built only four new middle schools and two new high schools during the period under study. The four New Mexican middle schools cost on average $71 per square foot. This compares with square foot costs for middle schools in the four states without prevailing wage laws of $77 in Arizona (9 schools), $79 in Colorado (6 schools), $62 in Idaho (7 schools) and $91 in Utah (6 schools).

The two New Mexican high schools cost $105 per square foot (one at $92 and the other at $117). This compares with square foot costs of high schools in the four states without prevailing wage laws of $86 in Arizona (10 schools), $107 in Colorado (2 schools), $77 in Idaho (schools) and $65 in Utah (5 schools). Thus, there is some suggestion that in contrast to elementary schools and middle schools, high school construction in New Mexico might cost more than in surrounding states with state prevailing wage laws. But this conclusion would be premature. The New Mexico sample is small (two schools) and is in line with the more expensive schools built in each of the states without prevailing wage laws. The high-end costs were $104 per square foot in Arizona, $118 in Colorado, $106 in Idaho and $86 in Utah. The small New Mexican sample may simply only include two more richly designed high schools. Basically, as sample sizes fall, conclusions drawn from comparing averages must become more tentative.

The cost of office buildings (Table 6) were basically the same in states with and without prevailing wage laws. The cost of constructing 23 new state office buildings in states with prevailing wage laws was $95 per square foot while the 20 new office buildings in states without prevailing wage laws cost $93 per square foot. When Texas is eliminated from the sample of five states with prevailing wage laws, the sample size falls to 10 and the average square foot cost rises to $101. However, from a statistical standpoint, there is no significant difference between the averages of $101 and $93.[10]

New Mexico built 4 public office buildings during this period with a square foot cost of $76. Contrasting this $76 square foot cost to the four states without state prevailing wage laws—Arizona built 6 office buildings at an average cost of $100 per square foot; Colorado built 4 public office buildings as an average square foot cost of $108; Idaho built 5 public office buildings at a square foot cost of $96 and Utah built 5 public office buildings at a square foot cost of $71.

Texas was the only prevailing wage law state to build public warehouses during the time period under study. Texas built 12 warehouses at an average square foot cost of $61 while in the group of states without prevailing wage laws, Arizona, Colorado and Idaho together built 8 warehouses at a square foot cost of $96. (Utah did not build a public warehouse during this period.)

In summary, start cost data from the F.W. Dodge Corporation do not support the notion that square foot construction costs on state and local construction will be cheaper in the absence of state prevailing wage laws. In the largest and perhaps the most homogeneous sample of public construction, elementary schools, if anything, square foot construction costs are cheaper in Intermountain and southwestern states with prevailing wage laws compared to those without these laws. This conclusion holds when comparing New Mexico to the surrounding states without prevailing wage laws. Even though sample sizes decrease, the general conclusion that construction costs for middle schools and high schools are, if anything, lower in states with prevailing wage laws compared to those without prevailing wage laws continues to hold. This is also true for New Mexico compared to surrounding states without prevailing wage laws in the case of middle schools. However, in the case of two high schools built in New Mexico, their costs were on the high range of square foot costs in surrounding states with no state prevailing wage laws. This may simply be due to the specific design of these two schools. Sample sizes for office buildings and warehouses are smaller than those for schools, particularly if Texas is excluded from the group of states with prevailing wage laws. In these small sample cases, one cannot conclude that construction costs are any different in Intermountain and southwestern states with or without prevailing wage laws.

[10] A t-test indicates that these means are not significantly different at a 5% level. What this means is that given the small sample sizes and the wide variation of square foot cost within each sample, one cannot conclude that the average differences are the result of anything other than randomness.

Table 11: Excluding Texas and Comparing Average Square Foot Cost of New Public Construction by Type and Prevailing Wage Law Status

Status of State Prevailing Wage Law (Only 8 States) (Excludes Texas)	Has P.W. Law		No P.W. Law	
	Count	Mean	Count	Mean
Structure Type				
OFFICES	10	$101	20	$93
WAREHOUSES	-	-	8	$96
ELEMENTARY SCHOOLS	37	$69	59	$73
MIDDLE SCHOOLS	18	$67	28	$77
HIGH SCHOOLS	10	$86	22	$81

Excluding Texas from the group of states with prevailing wage laws does not alter the general conclusion that public construction costs are not higher in states with prevailing wage laws compared to states without prevailing wage laws.

VII. Conclusions

There are no previous published studies that analyze the relationship between state prevailing wage laws and public school construction costs. Steven Allen's study of union and nonunion contractors in the early 1970s found that while union workers were 20% to 50% more productive than nonunion workers, nonunion contractors were the low-cost contractors in public school construction. Allen's study was limited to 57 union-built and 11 nonunion-built schools. Consequently, he had to collapse together elementary and secondary school buildings and include various regions of the country. The U.S. Bureau of Labor Statistics found that in the early 1970s labor costs as a percent of total costs in school construction did not vary widely by region despite wage rate variations of 50%. The BLS attributed this to differences in regional labor productivity and construction material costs.

Azari, Yeagle and Philips show that in the case of Utah, the repeal of the state prevailing wage law in 1981 corresponded to a rapid decline in apprenticeship training in that state, a decline that was not compensated by any increase in job corps or community college training. Bureau of Apprenticeship Training data for the 1990s show that 85% of all apprenticeship-trained construction journeymen come out of jointly sponsored union-management apprenticeship programs. The reasons that nonunion construction contractors are less likely to train are associated with market failures tied to the problems of free-riding contractors waiting for others to train and bait-and-switch contractors offering training but only providing helper experiences on-the-job. Collectively bargained contracts calling for jointly managed apprenticeship programs provides the policing mechanism to overcome these market failures. Thus, regulations that discourage collective bargaining in construction also discourage formal apprenticeship training in construction. The resulting lower productivity helps account for the fact that lower wage rates in construction do not necessarily lead to lower construction costs.

In the case of the nine southwestern and Intermountain states selected for this cost study, Table 10 shows the basic result. The average square foot construction costs for 116 elementary schools built in five states with prevailing wage laws was $67 while for 59 elementary schools built in four states without prevailing wage laws the cost was $73 per square foot. For 76 middle schools built in the states with prevailing wage laws, the average square foot cost was $66 while in the states without prevailing wage laws the cost was $77 per square foot. For 31 high schools built in the five states with prevailing wage laws, the square foot cost

was $70 while in the four states without state prevailing wage laws the cost was $81. The difference in all of these averages was statistically significant.

When New Mexico's 14 newly built elementary schools was compared to elementary schools in the four surrounding states without prevailing wage laws, the average New Mexico square foot cost of $66 was lower than the square foot elementary school cost in Arizona ($72), Colorado ($80) and Utah ($72) but higher than in Idaho ($60). During the time period selected for the study (fiscal years 1992-94) New Mexico built on 4 new middle schools and 2 new high schools. Thus, the average costs for these schools is more sensitive to the effect of small numbers. Nonetheless, the average New Mexico square foot cost for middle schools ($71) was lower than that for Arizona ($77), Colorado ($79) and Utah ($91) while higher than Idaho ($62). In the case of two high schools in New Mexico, the square foot construction cost was $105. This compare with $86 for 10 high schools in Arizona, $107 for 2 high schools in Colorado, $77 for 5 high schools in Idaho and $65 for 5 high schools in Utah. The smaller number of high schools built compared to middle schools and elementary schools make this comparison more sensitive to the effects of small numbers on averages.

Similar small number problems exist for offices and warehouses. During the time period under study, New Mexico built four public office buildings and no warehouses. The average square foot cost for public office buildings in New Mexico was $76. This compares to an average of $93 for 20 public office buildings built in the four surrounding states without prevailing wage laws.

The basic conclusion of this study is that in the case of New Mexico there is no strong evidence to suggest that the repeal of the state's prevailing wage law would save substantial costs in the construction of public schools. This is especially true in the long run. The reason higher wage rates for construction workers do not necessarily lead to higher construction costs is because those higher wage rate appear to be offset by higher labor productivity. In the short run, lower wage rates might not lead to lower productivity simply because trained construction workers might be forced to accept those lower wage rates. However, in the long run, a migration of trained workers out of construction and a decline in the training of new construction workers would lead to lower productivity canceling out any savings from lower wage rates.

Appendix A: New Mexico Data Used in Study

City	Project Description	Structure Type	Project Value	Square Feet	Sq. Ft. Cost	Sq. Ft. Cost 1994 $
SANTA FE	SCHOOL ADMINISTRATION OFFICE(ADD/REMOD/DEMOLITION)	Office	$1,290,600	14,000	$92	$95
ALBUQUERQUE	OFFICE BUILDING	Office	$4,000,000	65,000	$62	$64

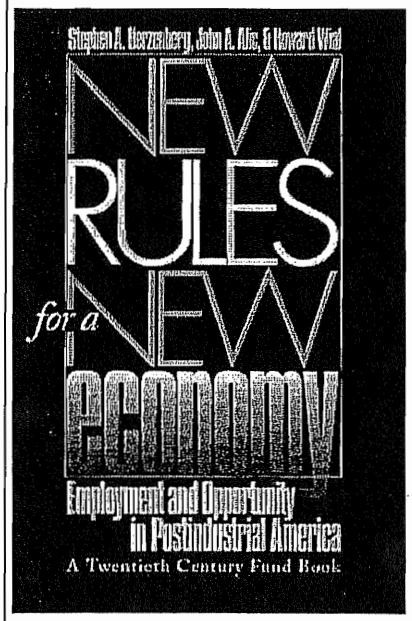
KEYSTONE RESEARCH CENTER

FROM THE STAFF OF THE KEYSTONE RESEARCH CENTER



Three-quarters of the American workforce is now employed in services, a substantial portion in low-paying, dead-end jobs. Can the service economy do as well by the American worker as the manufacturing economy once did? Can the widely shared prosperity that accompanied steady increases in productivity and performance in manufacturing be replicated in the services? They can and they will, the authors of this timely book contend, but only if outmoded policies and practices are brought into line with the new economy. *New Rules for a New Economy* explains why this goal must be accomplished and how we can start.

The authors call for new, decentralized institutions suited to a dynamic economy in which change is constant and rapid. In particular, they see a need for job ladders and worker associations that cut across firm boundaries. These institutions would foster individual and collective learning, mark out career paths, and facilitate coordination among both individuals and organizations in a networked economy. The authors propose new rules to reshape labor market institutions and policy, improving economic performance and opportunities for workers.

REVIEWERS' PRAISE FOR *NEW RULES FOR A NEW ECONOMY*

"A stimulating book."

- *Financial Times* of London

"A challenge to liberals by fellow liberals to rethink their traditional economic policies."

- *The New Democrat*

"If you want to know why wages are stagnant and social inequality is growing, this book is the place to start. And... the authors propose the kinds of reforms – simultaneously practical and radical – necessary to bring about change."

- Nelson Lichtenstein, University of Virginia

"This book should serve as a springboard for a serious public debate of what it would take to reverse rising inequality and make America's economy deliver again for more than a small minority."

- Richard Leone, Twentieth Century Fund

"A stellar achievement that breaks new ground."

- Harley Shaiken, University of California, Berkeley

Overview

Pennsylvania law requires construction contractors working on publicly funded construction or renovation projects to pay workers at a minimum the "prevailing wages and benefits" in their respective trades in the geographical area in which the work is performed. In 1997, the Pennsylvania Department of Labor and Industry (DLI) implemented a change in its method of determining prevailing wage and benefit rates resulting in a reduction in the legally required prevailing rates in many construction trades in much of the state. (Although the Pennsylvania Commonwealth Court ruled them illegal on January 11, 1999, the prevailing wage and benefit rates DLI implemented were in place for more than a year.)

Opponents of prevailing wage laws often argue that repealing or weakening these laws will lower the cost of public construction projects because such action will reduce the wages and benefits of construction workers employed on public projects. Data on Pennsylvania public school construction projects during the period in which lower prevailing rates were in effect do not support this claim.

- Data on public school construction costs show no strong evidence that Pennsylvania's lower prevailing wages and benefits reduced construction costs charged by contractors performing public works.
- Studies from other states show no statistically significant relationship between the existence of prevailing minimum wage and benefit laws and the cost of school construction.
- Lower prevailing minimum wages paid to workers have no measurable impact on public construction costs partly because wage declines lead to offsetting declines in productivity.
- Real savings in public construction costs are more likely to come from investments in worker training, which can make workers more productive, thereby lowering costs without cutting wages.

By threatening the construction industry's skill base, lowering prevailing minimum wages and benefits moves Pennsylvania's construction industry in the opposite of the direction in which it needs to move to reduce construction costs over the long term.

Pennsylvania's Prevailing Wage Law

Since 1961, Pennsylvania has required construction contractors who work on publicly funded projects (such as public schools, government buildings, and highways) to pay construction workers at least the prevailing wages and benefits for their respective trades in the area in which the work is performed. This prevailing minimum wage requirement exists, in one form or another, in many states and at the federal level as well. The purpose of the requirement was to prevent building contractors from using out-of-state or out-of-town workers to undercut the local economy and wage base.

Since 1979, nine states have repealed their prevailing wage laws.[1] Opponents of prevailing wage laws believed that the laws kept construction workers' wages and benefits artificially high because the prevailing minimum wages set under the laws were often the hourly wages paid to unionized workers, which are generally higher than nonunion workers' hourly wages. If wage and benefit rates were no longer propped up by law, prevailing minimum wage opponents argued, wages would fall to their "natural" market levels yielding lower construction costs and saving taxpayers money.

Pennsylvania's prevailing wage law has not been repealed. However, the Pennsylvania Department of Labor and Industry (DLI) recently weakened the law's effect by changing its method of determining prevailing rates. (The prevailing wage statute gives DLI the responsibility for determining the prevailing wage and benefit rates in each trade or craft.) Before February 27, 1997, DLI set the prevailing wage and benefit rates by accepting submissions of wage and benefit information from any interested party, including building contractors and trade unions. It then declared the prevailing rates to be the hourly wage and benefit rates that were most frequently paid to workers. While the wage and benefit rates of nonunion workers often vary from job to job, person to person, and employer to employer, rates in the unionized sector are generally unform in an area for each specific trade. For this reason, the prevailing wage and benefit rate was usually the collectively bargained wage and benefit rate.

In June 1996, DLI decided to set prevailing wage and benefit rates in a different way. Instead of relying on submissions from interested parties as contemplated by the statute, DLI contracted with the Pennsylvania State Data Center to conduct a statewide survey of construction workers' wages. The survey covered the period from January 1995 through May 1996. It was sent to building contractors, although certain contractors and certain types of construction projects were excluded. Using the survey results, DLI would declare the prevailing wage and benefit rate in a particular trade and county to be the wage and benefit rate paid to a majority of workers in that trade and county based upon DLI's criteria for the determination of majority status. If no single wage and/or benefit rate was paid to a majority of workers, DLI would declare the prevailing wage to be the average wage and benefit rate of all survey responses. The new method of setting the prevailing wage and benefit rates went into effect February 27, 1997, but was the subject of a legal challenge which stayed its implementation or use from April 8, 1997, until August 13, 1997, when the stay was lifted.

In many trades and counties where a large share of construction workers were covered by a collective bargaining agreement, the prevailing wage and benefit rates were the same under the new method as under the old one. But in trades and counties with a lower union presence or a low survey response rate for unionized projects, the new method usually resulted in a decline in the prevailing minimum wage and benefit rate because that wage and benefit rate was no longer the collectively bargained rate.

The Effect of Lower Prevailing Wages and Benefits on Construction Costs

Opponents of prevailing wage laws would expect Pennsylvania's public construction costs to have declined after the impact of collective bargaining agreements on prevailing wages and benefits was weakened. To find out whether such expectations are warranted, we can look at evidence on school construction costs in Pennsylvania during the two-year period from October 1996 through October 1998. If lower prevailing wage and benefit rates reduced construction costs to public bodies, then the average cost per square foot for public school construction projects would be expected to have been lower after August 1997 than it was in the earlier part of the two-year period.[2]

Table 1 shows the average cost per square foot for school construction projects for which contracts were awarded in the months before and after the wage-determination method was changed.[3] The table shows the average cost for eight groups of Pennsylvania counties. Each group of counties is characterized by the number of building trades or crafts (out of ten) in which the new prevailing wage and benefit rates were the collectively bargained wage. (There are no before-and-after data for groups of counties in which the new prevailing wage and benefit rates were the collectively bargained rate in one or six trades, so those county groups are excluded from the table.)

Table 1.
Average Cost Per Square Foot* for School Construction Projects in Pennsylvania, October 1996-October 1998, Before and After Prevailing Wage Determination Method Was Changed

Number of Trades, in County Group, in Which New Prevailing Wage Was the Collectively Bargained Wage**	Average Cost Per Square Foot Before Prevailing Wage Determined Method Was Changed (October 1996 - August 1997)	Average Cost Per Square Foot After Prevailing Wage Determination Method Was Changed (September 1997 - October 1998)	Percentage Change in Average Cost Per Square Foot
0	$ 61.50	$ 97.33	+58%
2	37.06	77.31	+109
3	125.43	59.28	- 53
4	110.00	238.00	+116
5	80.25	113.90	+ 42
7	116.71	160.95	+ 38
8	113.35	159.40	+ 41
9	151.19	73.61	- 51
10	101.12	108.13	+ 7

*Average cost per square foot is the ratio of total costs of all construction projects in a county group to total square feet covered by those projects.
**Each county was classified according to the number of trades in which the new prevailing wage was the collectively bargained wage. The counties were then grouped together according to this number. For example, "2" indicates that the data pertain to all counties in which the new prevailing wage was the collectively bargained wage in two trades.

The table shows that average construction costs per square foot declined only in counties where either three or nine trades had their new prevailing wage rates set equal to the collectively bargained wage. In all other county groups, average costs rose after the new wage-determination method went into effect.

Table 1 also provides data on which county groupings saw the largest declines or smallest increases in average cost per square foot. Proponents of weakening prevailing wage laws would expect construction costs to fall most (or increase least) in the counties in which very few trades had their prevailing wage and benefit rates set by collective bargaining after the change in the prevailing wage determination method. These proponents would therefore expect the top rows of the last column of Table 1 to be more negative (or less positive) than the bottom few rows. In fact, the data shows the opposite of what would be expected if lowering prevailing wage and benefit rates reduced construction costs: while the trend is erratic, the top rows of the last column of Table 1 tend to be higher than the bottom rows.

Of course, the projects included in Table 1 differ in terms of many other things that may affect their costs, not just whether their contracts were awarded before or after the change in the method of determining the prevailing wage rate. For example, they differ by the number of square feet in the project, the cost of living in the relevant county, the type of school, and the particular month in which the contract was awarded. A statistical technique known as multiple regression makes it possible to separate the influence of the prevailing wage rate change on construction costs from other influences on those costs. Multiple regression analysis of Pennsylvania school construction data shows no across-the-board decline in costs after the prevailing wage law's determination methods were changed.[4]

Studies of prevailing wage laws in other states have also produced no strong evidence that these laws have any impact on construction costs.

- A study of 15 Great Plains states showed that the average cost per square foot of building new schools did not differ significantly between states that had prevailing wage laws and states that did not.[5]

- A comparison of school construction costs between prevailing wage and non-prevailing wage states in the Mountain West and Southwest found that average costs per square foot were actually lower in states with prevailing wage laws.[6]

- A multiple regression study of school construction costs in Maryland and other mid-Atlantic states found that prevailing wage laws have no measurable impact on costs.[7]

The most cited statistical study that produced a contrary result, a multiple regression analysis of the impact of the federal prevailing wage law (the Davis-Bacon Act) on construction costs in non-metropolitan areas of the U.S., was flawed by its deliberate exclusion of publicly funded projects that were not subject to the requirements of the federal law.[8] The study thus compared public

projects subject to the federal prevailing wage law with private projects. Because many publicly funded projects (such as highways, public transportation systems, and prisons) have no private counterparts, however, it is impossible to hold constant the characteristics of the project when comparing public and private projects. Therefore, it is impossible to attribute public-private cost differences to the public sector's prevailing wage and benefit rate requirement.

The recent experience of two Pennsylvania school districts shows that even increases in legally mandated prevailing wage and benefit rates do not necessarily increase public construction costs. In March 1999, after two months of legal uncertainty about required prevailing wage levels, DLI began issuing prevailing wage rates that were higher than the 1998 rates. The Blue Mountain School District, in Schuylkill County, was planning to renovate its high school. In April 1999, the school district's construction manager estimated that construction costs would increase by about $670,000 as a result of the higher prevailing wage and benefit rates.[9] But when bids for the project were opened on May 6, the low bids, which were expected to be about $15.1 million, came in at only about $13.8 million, almost 9 percent below the anticipated level.[10] And in April, bids for a middle school construction project in Tamaqua, which used the same prevailing wage and benefit rates as the Blue Mountain bids, also came in under budget estimates.[11]

Why Do Lower Prevailing Wages and Benefits Have No Measurable Effects on Construction Costs?

Many people, without examining the evidence, might expect the lowering of Pennsylvania's prevailing minimum wages and benefits to reduce construction workers'compensation and, with it, construction costs. But this would be true only if construction workers' productivity did not change when workers' wages fell. When workers become less productive, construction costs rise. If the decline in wages causes productivity to drop, the effect of the productivity decline (to raise costs) works against the effect of the wage decline (to lower costs). If the two effects cancel each other out, the prevailing wage change will have no effect on construction costs. If the productivity decline outweighs the wage decline, costs will actually rise.

There are several reasons to expect construction industry productivity to decline substantially when the prevailing wage rate is lowered. Large wage cuts demoralize workers and encourage skilled and experienced workers to travel to higher wages areas or leave the industry altogether. Over a longer period of time, lower wages threaten the continued existence of construction apprenticeship programs (most of which are established through collective bargaining and administered jointly by union and employer representatives).[12] Apprenticeships, which usually last

four or five years, give workers a broad set of skills within their respective trades. If construction workers' wages are too low and workers are unlikely to spend entire careers in the construction industry, costly apprenticeships no longer make economic sense for workers or employers. As apprenticeships decline, the construction industry loses its base of skilled workers. As a result, productivity declines. Individual employers are unwilling to pick up the slack and train workers themselves because they know that any worker they train can easily go to work for a competitor. Moreover, nonunion employers have rarely been able to create or sustain apprenticeship programs that are comparable in scope to the collectively bargained programs.

In other states, eliminating prevailing wage laws has driven down wages and reduced investment in apprenticeship training. Between 1973 and 1990, the number of construction apprentices declined by an average of 53 percent in Great Plains states that repealed their prevailing wage laws or never had such laws. In Great Plains states that kept their prevailing wage laws, the number of apprentices fell by only 27 percent during the same period.[13]

Conclusion

For the period in which they existed, Pennsylvania's lower prevailing wage and benefit requirements had no measurable impact on construction costs in the state. If the lower prevailing wage and benefit* rates were intended to save taxpayers money, they failed to achieve that goal. Real savings in public construction costs are more likely to come from investments in worker training, which can make workers more productive, thereby lowering costs without cutting wages. By threatening the construction industry's skill base, lower prevailing rates move Pennsylvania's construction industry in the opposite of the direction in which it needs to go to reduce construction costs over the long term.

FOOTNOTES

[1] Peter Philips, *Kansas and Prevailing Wage Legislation*, study prepared for Kansas Senate Labor and Industries Committee, February 20, 1988, p. 14. The prevailing wage law in one additional state, Oklahoma, was judicially overturned.

[2] The data analyzed are from the F.W. Dodge Company and include information on the bid price at the start of the project, the structure type, project location, project scale, and technical characteristics such as number of stories and type of frame. The Dodge data also distinguish between public, private, and federal projects.

[3] The data include six private school construction projects and 70 public school projects. The inclusion of this small number of private schools, which are not covered by the prevailing wage law, makes little difference to the analysis. In addition, the prevailing wage law may have an indirect effect on wages paid to workers on private construction projects if public construction projects account for a large share of all construction industry employment in a trade and locality.

[4] The multiple regression analysis included all Pennsylvania school construction projects for which contracts were awarded between October 1996 and October 1998, except for those in counties where either one or six trades' new prevailing wages were equal to the collectively bargained wage. (The latter projects were excluded from the regression analysis, as they were excluded from Table 1, because there were no before-and-after data.)The regression related the logarithm of the total cost of each project to a measure of the cost of living in the project's county, the time when the project was built (measured in months after October 1996), the type of project (addition, addition/alternation, alteration, alteration/renovation, new construction, unknown/new, or unknown), the number of square feet, the type of school (public or private, and elementary, middle, or high school), and whether the project was built after August 1997 in each county group. The regression results showed that, after controlling for other influences on construction costs, costs went up in some county groups and down in others after the prevailing-wage change took effect. (In which groups costs increased and in which they decreased depended on the precise statistical specification used.) However, none of these cost increases or decreases was statistically significant at the 5 percent level except, in one specification, for a decline in costs in the nine-collective-agreement county group.

[10] Mary Ellen Maher-Harkins, "Blue Mountain Bids Come In Low; School District May Save More Than $1 Million in Construction Costs," *Schuylkill Online*, May 7, 1999, www.pottsville.com/pub/1999/May/7/E2374.htm

[11] Maher-Harkins, "Prevailing Wage Debate Hits County."

[12] In Pennsylvania during the 1990-95 period, labor-management apprenticeship programs operated jointly by unions and construction contractor associations accounted for 72 percent of new entrants into apprenticeship programs (and a higher share of those graduating from apprenticeships). U.S. Department of Labor, Bureau of Apprenticeship and Training, data provided by Cihan Bilginsoy of the University of Utah. During this period, unions represented about 22 percent of construction workers (Barry T. Hirsch and David A. Macpherson, *Union Memberships and Earnings Data Book* (Washington, D.C.: Bureau of National Affairs), various years.) Therefore, Pennsylvania unionized construction firms did about 9 times as much apprenticeship training relative to their employment as did non-union firms.

February 14, 2003

Paula Higashi, Executive Director
Commission on State Mandates
U.S. Bank Plaza Building
980 Ninth Street, Suite 300
Sacramento, California 95814

Re: Test Claim 01-TC-28
Clovis Unified School District
Prevailing Wage Rate

Dear Ms. Higashi:

I have received the comments of the State Building and Construction Trades Council of California, AFL-CIO (""SBCTC") dated January 15, 2003, but mailed to me January 20, 2003, to which I now respond on behalf of the test claimant.

Although none of the objections generated by "SBCTC" are included in the statutory exceptions set forth in Government Code Section 17556, the objections stated additionally fail for the following reasons:

A. The Comments of the "SBCTC" are Incompetent and Should be Excluded.

Test claimant objects to the Comments of the "SBCTC", in total, as being legally incompetent and move that they be excluded from the record. Title 2, California Code of Regulations, Section 1183.02(d) requires that any:

> "...written response, opposition, or recommendations and supporting documentation shall be signed at the end of the document, under penalty of perjury by an authorized representative of the state agency, with the declaration that it is true and complete to the best of the representative's personal knowledge or information and belief."

The "SBCTC" comments do not comply with this essential requirement.

B. There is No Authority in the Commission Regulations for an Appearance.

While the Commission has often been generous in allowing almost anyone or any entity to participate in the test claim process, the test claimant feels compelled to point out, for the record, the limitations of Commission rules regarding interested parties.

The rules of the Commission pertaining to test claims is found in Chapter 2.5 of Title 2 of the California Code of Regulations. Section 1183.02(a) requires the Commission to send a copy of any test claim to the Department of Finance, Office of the State Controller, any affected state agency, and any known interested parties.

Section 1181.1(a) defines "affected state agency" as a state department or agency that is responsible, in whole or in part, for implementation, enforcement, or administration of any statute(s) or executive orders(s) that is the subject of the test claim. Obviously, "SBCTC" is not an "affected state agency".

Section 1181.1(j) defines "interested party" as a local agency or school district; an organization or association representing local agencies or school districts; or a person authorized to represent a local agency or school district, having an interest in a specific claim. "SBCTC" is not an "interested party".

Section 1183.02(b) allows the Department of Finance, Office of the State Controller, and any affected state agency (note that "known interested parties" are not included) the opportunity to review and provide written response, opposition, or recommendations concerning the test claim. The rules of the Commission do not provide for any other person or entity to provide written response, opposition or recommendations. There is no authority in the Commission regulations for an appearance by the "SBCTC".

C. The "SBCTC" Lacks Standing to Appear as Amicus Curiae

If the Commission were to seek guidance from its judicial counterparts, the rules for the filing of amicus curiae briefs are found in California Rules of Court. The 2002 version (in effect at the time of the test claim filing and when responses were due) for the Supreme Court were found in Rule 29.3, subdivision (c), first paragraph:

> "A brief of amicus curiae... may be filed on permission first obtained...(T)o obtain permission, the applicant shall file with the clerk...a signed request...stating the nature of the applicant's interest and setting forth facts or questions of law that have not adequately been presented by the

parties and their relevancy to the disposition of the case..."[1]

The Court of Appeal version of the rule was found in Rule 13, subdivision (b):

> "(1) Any person...may...file an application for permission..to file an amicus curiae brief...(2) (T)he application must state the applicant's interest and explain how the proposed amicus curiae brief will assist the court in deciding the matter..."[2]

The Rules of Court were amended, effective January 1, 2003. The rules for the Supreme Court are now found in Rule 29.1, subdivision (f):

> "...(3) The application must state the applicant's interest and explain how the proposed amicus curiae brief will assist the court in deciding the matter..."[3]

The rules for the Courts of Appeal are now found in Rule 13, subdivision (c):

> "...(2) The application must state the applicant's interest and explain how the proposed amicus curiae brief will assist the court in deciding the matter..."[4]

Either version and both courts require two things: (1) that the applicant have an interest in the proceeding and (2) that the amicus curiae brief will assist the court in deciding the matter, presumably by presenting information not adequately presented by the parties. The "SBCTC" fails in both requirements.

1. The "SBCTC" has no real interest in the pending test claim.

The "SBCTC" attempts to file a response as *Amicus Curiae on behalf of* "a federation of labor organizations comprising about 200 local unions and 20 district councils that collectively represent about 350,000 men and women working in the construction trades

---

[1] The full text of Rule 29.3 (2002) is attached hereto as Exhibit 1.

[2] The full text of Rule 13 (2002) is attached hereto as Exhibit 2.

[3] The full text of Rule 29.1 (2003) is attached hereto as Exhibit 3.

[4] The full text of Rule 13 (2003) is attached hereto as Exhibit 4

in California" who have a "significant interest in the protections provided by the prevailing wage law".[5]

As important as its services may be to its constituency, "SBCTC" has no genuine interest in the outcome of this test claim. The main thrust of its argument is found on page 2 of its proffered response:

> "*First,* the central "mandate" imposed by the prevailing wage law is the requirement that private contractors and subcontractors on public work must pay prevailing wages to their employees. This is a labor standards requirement imposed on private employers, not local agencies. If the wages are not paid, the private employer, not the local agency, is liable for back wages and penalties. To be sure, there is an argument that if private contractors have higher labor costs, they may seek to pass some of those costs on to their customers. The California Constitution, however, does not entitle local agencies to reimbursement for the possible "pass-through" costs of labor standards legislation - even if such costs exist."[6]

Therefore, the "Argument" section of its comments expresses concerns about "raising school construction costs"[7], "higher prices"[8] and "recent studies by economists".[9] Because the test claimant is not seeking mandated reimbursement for higher construction costs, the concerns of "SBCTC" are unfounded. "SBCTC" has no genuine interest in the outcome of this test claim.

2. The Proposed Amicus Curiae Brief Will Not Assist the Commission.

The balance of the comments of the "SBCTC" are significantly similar to the comments of the Department of Industrial Relations. The comments of the "SBCTC" offer nothing that is not covered by the DIR response. In fact, the comments of the "SBCTC"

---

[5] "SBCTC" Request for Leave to File Response, page 1

[6] "SBCTC" comments, page 2, introduction

[7] "SBCTC" comments, page 4

[8] "SBCTC" comments, page 5

[9] "SBCTC" comments, page 5

incorporate some of the DIR arguments.[10] Perhaps the interests of the "SBCTC" and the DIR are identical in this matter. It appears the "SBCTC" was already aware of the content of the DIR response, even though both responses bear the same date.

Therefore, the request of "SBCTC" to file *amicus curiae* comments should be denied because the duplicative arguments will not assist the Commission. The "SBCTC" brief does not present any information not already presented to the Commission by DIR.

D. The Expansion of Public Works Defeats all other Arguments.

The scope of the definition of "public works projects" has increased since 1975. Section 2 of the Test Claim details those changes.[11]

These additions or expansions to the definition of "public works" include: Chapter 1084/76 (adding section 1720.3 to include hauling refuse from public works), Chapter 962/80 (amending section 1720.2 to include works built based upon plans, specifications or criteria furnished by a school district for later lease to the school district), Chapter 278/89 (the new inclusion in section 1720 of "transportation projects"), Chapter 861/00 (amending section 1720 to include work performed during the design and preconstruction phases of a project, including inspection and land surveying work), Chapter 938/80 (the amendment of section 1720 to include installation work) and Title 8, CCR Section 16001 (to include residential housing for students and faculty). The test claim proves that each of these new facets of construction have, since 1975, for the first time, been included in the definition of "public works". All of the public work requirements of the Labor Code, for the first time, are applicable to these segments of public works and therefore are new programs for which school districts are entitled to reimbursement of costs incurred.

The duties claimed in the test claim are preceded by the statement[12] that "When contracting with third parties for "public works" as an awarding party for projects pursuant to Labor Code sections 1720, 1720.2 and 1720.3 and Title 8, California Code of Regulations Sections 16000 and 16001, school districts, county offices of education and community colleges are required to (duties listed). Thus, if any one of the definition

---

[10] "As the Department of Industrial Relations points out..." "SBCTC" comments, page 18.

[11] Test Claim, pages 27 through 33

[12] Test Claim, page 129

expansions or additions is valid, the test claim is valid. School districts must comply with the administrative and compliance duties of all laws pertaining to public works on these new projects, whereas, prior to 1975, they did not.

In responding to these facts, the "SBCTC" merely incorporates the argument of the DIR on this issue, that is:

> "As the Department of Industrial Relations points out in its response...(T)he alleged changes in the definition of "public work"...were not post-1975 substantive changes in the law; they codified administrative interpretations of the pre-1975 law".[13]

The DIR rebuttal relies heavily upon the Director's "interpretations" of former Section 1720 which would preclude claiming statutory expansions of the definition of "public works".[14] The DIR relies on an internal, non-published inter-office memo, dated February 7, 1977, as a source of the law. Even if this in-house, unpublished, memo could be elevated to some sort of official directive, it would then be a post 1975 "executive order" subject to reimbursement.

E. The Changes in State Law are Mandatory

A substantial balance of the comments of the "SBCTC" argue that many of the duties are optional and, therefore, not a mandate subject to reimbursement.[15] For example, five of those duties are the result of duties imposed by Labor Compliance Programs enacted by Chapter 1224/89 and found in Labor Code Sections 1771.5 and 1771.6.

School districts do have a choice: they have the choice of complying with the older provisions of the prevailing wage laws or of complying with the new LCP provisions. They have no discretion to act or not to act, they are required to comply with one or the other.

The "shall" versus "may" legal compulsion argument is not solely determinative of this issue. The California Supreme Court has held that the determination of whether a

---

[13] "SBCTC" comments, page 18

[14] The DIR refers to Exhibit D, attached to the Declaration of Anthony Mischel. This memo is not even credible hearsay. To rely upon this memo is not appropriate.

[15] See: "SBCTC" comments to duties 3, 4, 5, 11, 12, 17 and 19

program is truly voluntary depends upon (1) the nature and purpose of the program, (2) whether the program's design evidences an intent to coerce, (3) the penalties assessed for non-participation, and (4) the legal and other practical consequences of non participation. City of Sacramento v. State of California (1990) 50 Cal.3d 51, 76. The concept of state mandates would include situations where a local school district has no reasonable alternative to the state scheme or no true choice but to participate in it.

In the instant case, school districts are faced with the choice of accepting one program or the other. They do not have the choice of doing neither. Presumably, school districts will choose the program that has the most benefits and the least disadvantages. Doing the best thing for the district is a "choice" where the school district has no reasonable alternative. It must do what is best for the district, and if a LCP program is best for the district, it is practically compelled to make that choice.

F. The Cited Changes in the Law Mandate New Programs

Another substantial portion of the "SBCTC" comments argues that the new duties are "far less onerous" than the duties required prior to enactment.[16] The fallacy of this argument, of course, is that the law does not speak in terms of "onerous", it speaks in term of "new programs" ***or*** "higher levels of service":

> "Costs mandated by the state" means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution." Government Code Section 17514

Thus, it is clear that a new mandate can be based on either a new program or a higher level of service. "SBCTC" does not address the "new program" issue. For example, prior to January 1, 1975, Labor Code section 1726 only required school districts to "take cognizance" of violations, whereas, Chapter 954/00 amended the section to now require school districts to report suspected violations to the Labor Commissioner and, if it withholds payments based upon its own investigation, the due process portions of section 1771.6 also apply, clearly a "new program". For example, prior to January 1, 1975, section 1727 only required school districts to withhold and retain amounts forfeited pursuant to contract stipulations, whereas Chapter 954/00 now requires school districts

[16] See: "SBCTC" comments to duties 1, 2, 15, 16 and 18

to withhold and retain amounts pursuant to Civil Wage and Penalty Assessments and also requires, for the first time, the retention of money withheld by a contractor from a sub-contractor. Again, clearly a "new program". Without reciting each and every such example, Section B of the test claim sets forth detailed citations of how new laws have created "new programs". Thus the "less onerous" argument of the "SBCTC" is totally irrelevant to the law of mandate reimbursement.

G. Other Arguments of the "SBCTC" are not Well Founded.

In response to duty number 7, the "SBCTC" argues that it is the Labor Commission which keeps the list of barred contractors, not awarding bodies. Labor Code section 1777.1, subdivision (d) requires the Labor Commissioner to periodically publish a list of ineligible contractors and to distribute that list to awarding parties. Obviously, school districts must maintain those publications so that they do not award public works contracts to ineligible contractors. To argue that awarding bodies are not required to keep those publications is not well founded.

In response to duties numbered 10 and 21, the "SBCTC" argues that the contractors, themselves, may redact their own payroll records. Labor Code section requires contractors and subcontractors to keep accurate payroll records. Subdivision (b) requires these records to be certified and made available to employees, awarding bodies and other named agencies, and the public. However, the public shall not have direct access through the contractor, but only through awarding bodies or other named agencies. Subdivision (d) requires that a contractor file a certified copy with the entity which requested them on behalf of the public. Subdivision (d) says nothing about redaction. Subdivision (e) requires that any copies made available to the public by an awarding body or other named agency "shall be marked or obliterated to prevent disclosure of an individual's name, address and social security number. It is clear that it is the awarding body or other named agency which receives certified copies from the contractor and then it is the awarding body or other named agency that redacts them prior to delivery to the public. To argue that contractors shall redact their own certified copies is not well founded.

In response to duty number 13, the "SBCTC" argues that Labor Code section 1726 does not impose a new mandate, rather the mere "ability" to report violations. Prior to 1975, Section 1726 required school districts to "take cognizance of violations" and Section 1727 required school districts to withhold amounts forfeited pursuant to stipulations in the contract. Chapter 954/00/3 amended Section 1726 to add the words "and shall promptly report any suspected violations to the Labor Commissioner." To argue that the amendment merely gives school districts the "ability" to report violations is not well founded.

Labor Code Section 1771.2, added by Chapter 804/2001, allows a joint labor-management committee to bring an action in any court of competent jurisdiction against an employer that fails to pay the prevailing wage to its employees. In response to duty number 20, the "SBCTC" argues that nothing in the section "or in any other statute or regulation makes a local agency party" to the lawsuit. California Code of Civil Procedure Section 389[17] provides that a person shall be joined in an action if (1) in his absence complete relief cannot be accorded among those already parties or (2) if he claims an interest relating to the subject matter of the action and is so situated that the disposition of the action in his absence may impair or impede his ability to protect that interest or leave any of the persons already parties subject to multiple or inconsistent obligations by reason of his claimed interest. And, if he has not been so joined, the court shall order that he be made a party. In the instant situation, the awarding party is a party to the

---

[17] California Code of Civil Procedure Section 389, as last amended by Chapter 244, Statutes of 1971, Section 15:

"(a) A person who is subject to service of process and whose joinder will not deprive the court of jurisdiction over the subject matter of the action shall be joined as a party in the action if (1) in his absence complete relief cannot be accorded among those already parties or (2) he claims an interest relating to the subject of the action and is so situated that the disposition of the action in his absence may (i) as a practical matter impair or impede his ability to protect that interest or (ii) leave any of the persons already parties subject to a substantial risk of incurring double, multiple, or otherwise inconsistent obligations by reason of his claimed interest. If he has not been so joined, the court shall order that he be made a party.

(b) If a person as described in paragraph (1) or (2) of subdivision (a) cannot be made a party, the court shall determine whether in equity and good conscience the action should proceed among the parties before it, or should be dismissed without prejudice, the absent person being thus regarded as indispensable. The factors to be considered by the court include: (1) to what extent a judgment rendered in the person's absence might be prejudicial to him or those already parties; (2) the extent to which, by protective provisions in the judgment, by the shaping of relief, or other measures, the prejudice can be lessened or avoided; (3) whether a judgment rendered in the person's absence will be adequate; (4) whether the plaintiff or cross-complainant will have an adequate remedy if the action is dismissed for nonjoinder.

(c) A complaint or cross-complaint shall state the names, if known to the pleader, of any persons as described in paragraph (1) or (2) of subdivision (a) who are not joined, and the reasons why they are not joined.

(d) Nothing in this section affects the law applicable to class actions."

contract, it is the beneficiary of any surety bond, it holds the funds withheld, and is required to pay out the funds in accordance with the court's instructions. To argue that no statute makes a school district a necessary party to litigation involving its own public works contracts is not well founded.

H. Conclusion

At a matter of procedure, the comments of the "SBCTC" should be disregarded for its failure to comply with Section 1183.02(d) of the Commission rules governing responses. Secondly, the Commission Rules do not grant authority for an appearance by "SBCTC". Thirdly, the "SBCTC" lacks standing to appear as an amicus curiae as it has no real interest in the test claim and it offers nothing new which would assist the Commission in the determination of this test claim.

As a matter of law, the expansion of the definition of "Public Works" defeats every argument made by "SBCTC" and a private, in-house, DIR memo does not defeat this conclusion. The changes in the law are mandatory as school districts have no reasonable alternative or no true choice not to participate. The fact that some duties are not as "onerous" as others does not avoid the conclusion that they are new programs. Other arguments to the contrary are factually and legally not well founded.

Therefore, test claimant asks the Commission to deny, as unnecessary, the application of "SBCTC" to file an amicus curiae brief.

CERTIFICATION

I certify by my signature below, under penalty of perjury, that the statements made in this document are true and complete to the best of my own personal knowledge or information and belief.

Sincerely,

Keith B. Petersen

EXHIBIT 1
CRC RULE 29.3 (2002)

RULE 29.3. BRIEFS ON THE MERITS IN THE SUPREME COURT

(a) [**As matter of right**] After the filing of an order granting review, the petitioner shall serve and file in the Supreme Court the number of copies required by rule 44(b)(1)(ii) of either (1) the brief filed in the Court of Appeal and a notice of intention to rely on that brief, within 15 days after the filing of the order; or (2) a new brief on the merits, within 30 days after the filing of the order.

After the filing of the petitioner's notice of intention to rely on the brief filed in the Court of Appeal or new brief on the merits, or the expiration of time for filing a new brief, the opposing party shall serve and file in the Supreme Court the number of copies required by rule 44(b)(1)(ii) of either (1) the brief filed in the Court of Appeal and a notice of intention to rely on that brief, within 15 days after the filing of the petitioner's notice or brief, or expiration of the time for it; or (2) a new brief on the merits, within 30 days after the filing of the petitioner's notice or brief, or expiration of the time for it.

Within 20 days after the filing of an opposing party's brief, the petitioner may file a reply brief.

The Supreme Court may, by order, designate which party is deemed to be the petitioner or otherwise direct the order in which briefs are to be filed.

When a party desires to present new authorities, newly enacted legislation, or other intervening matters, not available in time to have been included in the party's brief on the merits, the party may serve and file a supplemental brief no later than 10 days before oral argument. A supplemental brief shall be confined to the new matter and shall not exceed 10 pages.

The times stated in this rule may be extended only by order of the Chief Justice under rule 45, and not by stipulation.

(b) [**On request**] The Supreme Court may request additional briefs on all or any issues, whether or not the parties have filed new briefs.

(c) [**Amicus curiae briefs**] A brief of amicus curiae in the Supreme Court on the merits of an action or proceeding may be filed on permission first obtained from the Chief Justice. To obtain permission, the applicant shall file with the clerk of the Supreme Court a signed request, accompanied by the proposed brief stating the nature of the applicant's interest and setting forth facts or questions of law that have not adequately been presented by the parties and their relevancy to the disposition of the case. The request and proposed brief must be received by the court no later than 30 days after all briefs, other than supplemental briefs, that the parties are entitled to file pursuant to this rule either have been filed or can no longer be filed within the time limits prescribed by subdivision (a). The Chief Justice may grant leave for later filing if the applicant presents specific and compelling reasons for the delay.

The Attorney General may file an amicus curiae brief without obtaining the Chief Justice's permission, unless the Attorney General is presenting the brief on behalf of another state officer or agency. The Attorney General shall file the brief within the time provided above for receipt of a request for permission to file an amicus curiae brief. The brief shall contain the information required in a request for permission to file an amicus curiae brief.

Before any amicus curiae brief is filed, it shall be served on all parties. The cover of the brief shall identify the party–if any–the brief supports.

Any party may file an answer within 20 days after an amicus curiae brief is filed. Before any answer is filed it shall be served on all parties and the amicus curiae

(d) [**Form and content**] The briefs provided for this rule shall conform, as nearly as possible, to the requirements of rule 14. Unless otherwise ordered, the petitioner's and opposing party's briefs on the merits shall not exceed 50 pages, and a petitioner's reply brief shall not exceed 15 pages, excluding tables, indices, and the quotation of issues required by this rule.

The petitioner's brief on the merits, at the beginning of the body, shall quote any order of the Supreme Court specifying the issues or, in the absence of an order specifying the issues, quote the statement of issues included in the petition for review and any additional issues stated in the answer to the petition. Unless otherwise ordered, briefs on the merits shall be confined to those issues, and issues fairly included in them.

EXHIBIT 2
CRC RULE 13 (2002)

PART III. BRIEFS IN THE COURT OF APPEAL

Part III was adopted, eff. Jan. 1, 2002.

Former Part III, "Briefs", adopted, eff. July 1, 1943, consisting of Rules 13 to 18, was repealed, eff. Jan. 1, 2002.

RULE 13. BRIEFS BY PARTIES AND AMICI CURIAE

(a) Parties' briefs

(1) Each appellant must serve and file an appellant's opening brief.

(2) Each respondent must serve and file a respondent's brief.

(3) Each appellant may serve and file a reply brief.

(4) No other brief may be filed except with permission of the presiding justice, unless it qualifies under (b)(6) or under rule 29.4(f) after the Supreme Court transfers a cause to a Court of Appeal.

(5) Instead of filing a brief, or as part of its brief, a party may join in or adopt by reference all or part of a brief in the same or a related appeal.

(b) Amicus curiae briefs

(1) Any person or entity may serve and file an application for permission of the presiding justice to file an amicus curiae brief.

(2) The application must state the applicant's interest and explain how the proposed amicus curiae brief will assist the court in deciding the matter.

(3) The proposed brief must be served and must accompany the application, and may be combined with it.

(4) The covers of the application and proposed brief must identify the party the applicant supports, if any.

(5) If the court grants the application, any party may file an answer within the time the court specifies. It must be served on all parties and the amicus curiae.

(6) The Attorney General may file an amicus curiae brief without the presiding justice's permission, unless the brief is submitted on behalf of another state officer or agency. The Attorney General must serve and file the brief within 14 days after the last respondent's brief is filed, and must provide the information required by (2) and comply with (4). Any party may serve and file an answer within 14 days after the brief is filed.

EXHIBIT 3
CRC RULE 29.1 (2003)

RULE 29.1. BRIEFS BY PARTIES AND AMICI CURIAE; JUDICIAL NOTICE

(a) Parties' briefs; time to file

(1) Within 30 days after the Supreme Court files the order of review, the petitioner must serve and file in that court either an opening brief on the merits or the brief it filed in the Court of Appeal.

(2) Within 30 days after the petitioner files its brief or the time to do so expires, the opposing party must serve and file either an answer brief on the merits or the brief it filed in the Court of Appeal.

(3) The petitioner may file a reply brief on the merits or the reply brief it filed in the Court of Appeal. A reply brief must be served and filed within 20 days after the opposing party files its brief.

(4) A party filing a brief it filed in the Court of Appeal must attach to the cover a notice of its intent to rely on the brief in the Supreme Court.

(5) The time to serve and file a brief may not be extended by stipulation but only by order of the Chief Justice under rule 45.

(6) The court may designate which party is deemed the petitioner or otherwise direct the sequence in which the parties must file their briefs.

(b) Form and content

(1) Briefs filed under this rule must comply with the relevant provisions of rule 14.

(2) The body of the petitioner's brief on the merits must begin by quoting either:

(A) any order specifying the issues to be briefed or, if none,

(B) the statement of issues in the petition for review and, if any, in the answer.

(3) Unless the court orders otherwise, briefs on the merits must be limited to the issues stated in (2) and any issues fairly included in them.

(c) Length

(1) If produced on a computer, a brief on the merits must not exceed 14,000 words and a reply brief on the merits must not exceed 4,200 words. Such a brief must include a certificate by appellate counsel or an unrepresented party stating the number of words in the brief. The person certifying may rely on the word count of the computer program used to prepare the brief.

(2) If typewritten, a brief on the merits must not exceed 50 pages and a reply brief must not exceed 15 pages.

(3) The tables, a certificate under (1), and any quotation of issues required by (b)(2) are excluded from the limits stated in (1) and (2).

(4) On application and for good cause, the Chief Justice may permit a longer brief.

(d) Supplemental briefs

(1) A party may file a supplemental brief limited to new authorities, new legislation, or other matters that were not available in time to be included in the party's brief on the merits.

(2) A supplemental brief must not exceed 2,800 words if produced on a computer or 10 pages if typewritten, and must be served and filed no later than 10 days before oral argument.

(e) Briefs on the court's request

The court may request additional briefs on any or all issues, whether or not the parties have filed briefs on the merits.

(f) Amicus curiae briefs

(1) After the court orders review, any person or entity may serve and file an application for permission of the Chief Justice to file an amicus curiae brief.

(2) The application must be filed no later than 30 days after all briefs that the parties may file under this rule–other than supplemental briefs–have been filed or were required to be filed. The Chief Justice may allow later filing if the applicant shows specific and compelling reasons for the delay.

(3) The application must state the applicant's interest and explain how the proposed amicus curiae brief will assist the court in deciding the matter.

(4) The proposed brief must be served. It must accompany the application and may be combined with it.

(5) The covers of the application and proposed brief must identify the party the applicant supports, if any.

(6) If the court grants the application, any party may file an answer within 20 days after the amicus curiae brief is filed. It must be served on all pa and the amicus curiae.

(7) The Attorney General may file an an curiae brief without the Chief Justice's permi unless the brief is submitted on behalf of anc state officer or agency. The Attorney General serve and file the brief within the time specified i and must provide the information required by (3) comply with (5). Any answer must comply with

(g) Judicial notice

To obtain judicial notice by the Supreme Court u Evidence Code section 459, a party must comply rule 22(a).

(Adopted, eff. Jan. 1, 2003.)

EXHIBIT 4
CRC RULE 13 (2003)

Former Part III, "Briefs", adopted, eff. July 1, 1943, consisting of Rules 13 to 18, was repealed, eff. Jan. 1, 2002.

RULE 13. BRIEFS BY PARTIES AND AMICI CURIAE

ı) Parties' briefs

(1) Each appellant must serve and file an appel-ınt's opening brief.

(2) Each respondent must serve and file a respon-ent's brief.

(3) Each appellant may serve and file a reply brief.

(4) No other brief may be filed except with the ermission of the presiding justice, unless it qualifies nder (b) or (c)(6).

(5) Instead of filing a brief, or as part of its brief, a arty may join in or adopt by reference all or part of a rief in the same or a related appeal.

b) Supplemental briefs after remand or transfer n Supreme Court

(1) Within 15 days after finality of a Supreme ourt decision remanding or order transferring a ause to a Court of Appeal for further proceedings, ny party may serve and file a supplemental opening rief in the Court of Appeal. Within 15 days after uch a brief is filed, any opposing party may serve and ile a supplemental responding brief.

(2) Supplemental briefs must be limited to matters rising after the previous Court of Appeal decision in he cause, unless the presiding justice permits briefing n other matters.

(3) Supplemental briefs may not be filed if the revious decision of the Court of Appeal was a denial f a petition for a writ within its original jurisdiction ithout issuance of an alternative writ or order to how cause.

c) Amicus curiae briefs

(1) Any person or entity may serve and file an pplication for permission of the presiding justice to ile an amicus curiae brief.

(2) The application must state the applicant's in-erest and explain how the proposed amicus curiae rief will assist the court in deciding the matter.

(3) The proposed brief must be served and must ccompany the application, and may be combined ith it.

(4) The covers of the application and proposed rief must identify the party the applicant supports, if ny.

(5) If the court grants the application, any party nay file an answer within the time the court specifies. t must be served on all parties and the amicus curiae.

(6) The Attorney General may file an amicus uriae brief without the presiding justice's permission, nless the brief is submitted on behalf of another tate officer or agency. The Attorney General must erve and file the brief within 14 days after the last espondent's brief is filed, and must provide the nformation required by (2) and comply with (4). Any party may serve and file an answer within 14 days after the brief is filed.

Re: Test Claim 01-TC-28
Clovis Unified School District
Prevailing Wage Rate

Dear Ms. Higashi:

I have received the comments of the Department of Industrial Relations ("DIR") dated January 15, 2002 (sic) to which I now respond on behalf of the test claimant.

Although none of the objections generated by DIR are included in the statutory exceptions set forth in Government Code Section 17556, the objections stated additionally fail for the following reasons:

A. The Comments of the DIR are Incompetent and Should be Excluded

Test claimant objects to the Comments of the DIR, in total, as being legally incompetent and move that they be excluded from the record. Title 2, California Code of Regulations, Section 1183.02(d) requires that any:

> "...written response, opposition, or recommendations and supporting documentation shall be signed at the end of the document, under penalty of perjury by an authorized representative of the state agency, with the declaration that it is true and complete to the best of the representative's personal knowledge or information and belief."

The DIR comments do not comply with this essential requirement.

B. The Objections Stated are Flawed, Both Legally and Factually[1]

At page 25 of its comments, the DIR states that the Test Claim fails for one or more of three reasons:

1. The alleged change in state law is not a new program or increased level of service;

2. The alleged change in law simply does not exist; or

3. The alleged changes in state law are discretionary.

1. The cited changes of law do mandate a new program or increased level of service.

In support of its first argument, the DIR argues that the requirements stated "do not uniquely affect governmental entities" for the reason that the "claims are mandates for private parties who deal with local agencies, not for local agencies themselves".[2] The DIF goes on to conclude:

> "The effect of the Director's coverage determinations...is on private parties directly...The alleged increased cost is that prevailing wages have to be paid. Payment of prevailing wages, however, is uniquely a responsibility of private parties, as local agencies are never subject to pay their own employees prevailing wages...Therefore, any public works changes affect primarily the private parties who hire workers, not local agencies...Even if there were an increased cost of construction...the cost of the increase is not borne directly by the local agencies..."[3]

---

[1] The Comments of the DIR at page 4, footnote 4, refers to the "current state of the law" as the "2002 version" of the law. Its synopsis, at page 7, also refers to the law "as of 2002". These statements are correct if interpreted to mean "as of December 31, 2002", as none of the 2002 legislation, e.g., Chapters 28, 868, 892, 1048 and 1124 are included in the test claim. These amendments and additions to the prevailing wage law will need to be addressed by an amendment to the test claim to be filed at a later date.

[2] DIR Comments, page 25

[3] DIR Comments, pages 26-27

This argument misconstrues the object of this test claim. Test claimant does not allege or seek reimbursement for any increased cost of construction. Test claimant seeks reimbursement only for the additional administrative duties and compliance requirements contained in the test claim legislation.

2. The cited changes of law mandate new programs

In support of its second argument (the alleged change in law simply does not exist), DIR argues that some duties are not changes in state law because "local agencies have less (sic) responsibilities than before January 1, 1975".[4] However, the law does not speak in terms of "responsibilities", it speaks in term of "new programs" ***or*** "higher levels of service":

> "Costs mandated by the state" means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution." Government Code Section 17514

Thus, the costs mandated by the state can be based on either a new program or a higher level of service. DIR does not address the "new program" issue.

School districts have new contractor oversight duties. For example, prior to January 1, 1975, Labor Code section 1726 only required school districts to "take cognizance" of violations, whereas, Chapter 954/00 amended the section to now require school districts to report suspected violations to the Labor Commissioner and, if it withholds payments based upon its own investigation, the due process portions of section 1771.6 also apply, clearly a "new program". For example, prior to January 1, 1975, section 1727 only required school districts to withhold and retain amounts forfeited pursuant to contract stipulations, whereas Chapter 954/00 now requires school districts to withhold amounts required by Civil Wage and Penalty Assessments and also requires, for the first time, the retention of money withheld by a contractor from a sub-contractor. Again, clearly a "new program". Without reciting each and every such example, Section B of the test claim sets forth detailed citations of how new laws have created "new programs".

The "fewer responsibilities" argument of the DIR is totally irrelevant to the law of

[4] DIR Comments, page 27

mandate reimbursement. Until repealed by Chapter 216, Statutes of 1993, Government Code Sections 17620 through 17626, provided for "cost savings claims" which allowed state agencies to file for cost recoveries when mandates were reduced or eliminated after 1975. These statutory provisions were implemented by Title 2, California Code of Regulations, Section 1186 (copy attached as Exhibit 1) which was repealed on July 23, 1996. To my knowledge, no such claim was ever filed.

The scope of the definition of "public works projects" has increased since 1975. The test claim sets forth the changes required by Chapter 1084/76 (adding section 1720.3 to include hauling refuse from public works), Chapter 962/80 (amending section 1720.2 to include works built based upon plans, specifications or criteria furnished by a school district for later lease to the school district), 278/89 (the new inclusion in section 1720 of "transportation projects"), Chapter 861/00 (amending section 1720 to include work performed during the design and preconstruction phases of a project, including inspection and land surveying work), Chapter 938/80 (the amendment of section 1720 to include installation work) and Title 8, CCR Section 16001 (to include residential housing for students and faculty). The test claim proves that each of these new facets of construction have, since 1975, for the first time, been included in "public works". All of the public work requirements of the Labor Code, for the first time, are applicable to these segments of public works and therefore are new programs for which school districts are entitled to reimbursement.

The DIR rebuttal relies heavily upon the Director's "interpretations" of former Section 1720 which would preclude claiming statutory expansions of the definition of "public works".[5] The DIR relies on an internal, non-published inter-office memo, dated February 7, 1977, as a source of the law. Even if this in-house, unpublished, memo could be elevated to some sort of official directive, it would then be a post 1975 "executive order" subject to reimbursement.

3. The changes in state law are mandatory.

The third summary point made by the DIR is that "some" of the changes are not mandatory, arguing that school districts must be under a "compulsion" to act before a new duty can be reimbursable. As an example, the DIR cites the Labor Compliance Programs enacted by Chapter 1224/89 and found in Labor Code Sections 1771.5 and 1771.6.

---

[5] The DIR refers to Exhibit D, attached to the Declaration of Anthony Mischel. This memo is not even credible hearsay. To rely upon this memo is not appropriate.

School districts do have a choice: they have the choice of complying with the other provisions of the prevailing wage laws or of complying with the new LCP provisions. They have no discretion to act or not to act, they are required to comply with one or the other.

The "shall" versus "may" legal compulsion arguments are not solely determinative. The California Supreme Court has held that the determination of whether a program is truly voluntary depends upon (1) the nature and purpose of the program, (2) whether the program's design evidences an intent to coerce, (3) the penalties assessed for non-participation, and (4) the legal and other practical consequences of non participation. City of Sacramento v. State of California (1990) 50 Cal.3d 51, 76. The concept would include situations where a local school district has no reasonable alternative to the state scheme or no true choice but to participate in it.

In the instant case, school districts are faced with the choice of accepting one program or the other. They do not have the choice of doing neither. Presumably, school districts will choose the program that has the most benefits and the least disadvantages. Doing the best thing for the district is a situation where the school district has no reasonable alternative. It must do what is best for the district, and if a LCP program is best for the district, it is practically compelled to make that choice.

C. Conclusion

The DIR concludes with a statement that "all of the Test Claims fail for one or more of three reasons".[6] The test claim itself, and its detailed analysis of the changes in the Public Works laws, continues to stand on its own.

1. None of the objections of the DIR are included in the statutory exceptions set forth in Government Code Section 17556.

2. This test claim documents the addition of new duties. The fact that some of these new duties are less burdensome than before, does not disqualify them as new.

3. This test claim documents the expansion of the definition of "public works' to include, for the first time, work performed during the design and preconstruction phases of construction, inspection and land surveying work, installation projects, district leased projects built with district plans, the hauling of refuse, and the construction of school dormitories. As to these new activities, all of the procedural requirements of public

[6] DIR comments, page 25

works projects are new mandates. Private unpublished inter-office memos do not change that fact.

4. The requirements of the test claim legislation are not discretionary.

5. Notwithstanding, the response of the DIR should be ignored as legally incompetent for its failure to comply with Section 1183.02 of Title 5, California Code of Regulations.

CERTIFICATION

I certify by my signature below, under penalty of perjury, that the statements made in this document are true and complete to the best of my own personal knowledge or information and belief.

Sincerely,

Keith B. Petersen

C: Per Mailing List Attached

Exhibit 1

(b) A parameters and guidelines amendment filed after the initial claiming deadline must be submitted on or before November 30 following a fiscal year in order to establish eligiblility for reimbursement for that fiscal year.

(c) An approved change to the Claiming Instructions brought about by the Commission's review shall be subject to the following schedule:

(1) A request for review filed before the deadline for initial claims as specified in the Claiming Instructions shall apply to all years eligible for reimbursement as defined in the original Parameters and Guidelines.

(2) A request for review filed after the initial claiming deadline must be submitted on or before November 30 following a fiscal year in order to establish eligibility for reimbursement for that fiscal year.

NOTE: Authority cited: Sections 17527, 17551, 17553, 17557, 17571 and 17621, Government Code. Reference: Sections 17553 and 17557, Government Code.

HISTORY:

1. New section filed 12-1-87; operative 12-31-87 (Register 87, No. 49).

Article 6. Cost Savings Claims

1186. Filing of Cost Savings Claims.

(a) In order to obtain a determination that a statute or executive order has resulted in cost savings, a state agency must file a cost savings claim.

(b) The commission may accept more than one savings claim on a statute or executive order if the claims involve different issues. The claim filing date shall be the postmark date, or in its absence, the date received by the commission.

(c) All savings claims or amendments thereto shall contain the following:

(1) A copy of the statute(s) or executive order(s) alleged to contain a cost savings. The specific sections of the chaptered bill or executive order alleged to contain a cost savings must be identified.

(2) Identification of constitutional provisions, federal statutes or regulations and/or court decisions that impact the alleged savings.

(3) A detailed narrative which describes the savings. This is to include a description of what was required under prior law and what the new mandate or executive order requires, and how any savings are realized.

(4) If the narrative describing an alleged savings involves more than discussion of statutes, or regulations or legal argument and utilizes assertions or representations of fact, such assertions or representations must be supported by testimonial or documentary evidence which shall be submitted with the claim. All documentary evidence must be authenticated by declarations under penalty of perjury signed by persons who are authorized or competent to do so and be based upon the declarant's personal knowledge.

(5) A statement of actual or estimated savings which result from the mandate, identified by function and by fiscal year.

(d) Savings claims will be considered incomplete if any of the required elements or documents are illegible or missing. Incomplete savings claims shall be returned. If a completed savings claim is not received by the commission within 120 calendar days from the date that the claim was returned by the commission, the original incomplete claim filing date may be disallowed, and a new savings claim or claims could be accepted on the same statute or executive order.

INTRODUCTION

The Clovis School District ("Clovis" or "Claimant") has filed this test claim on behalf of itself and other school districts, county boards of education and community college districts for the costs of enforcing the Prevailing Wage Law[1/] ("PWL") on public works projects. Clovis has specified 21 separate claims involving numerous statutes and regulations with little or no discussion justifying the assertion that these state requirements constitute a state mandate.

The unstated rationale of the Test Claim is that any change in the PWL constitutes a state mandate. Of course that is not the law. There must be either a new program or a higher level of service required for an existing program to constitute a state mandate. And there is no mandate for discretionary activities.

STANDARD OF REVIEW

Article XIII B, section 6 of the California Constitution states, "whenever the Legislature or any state agency *mandates* a new program or higher level of service on any local government, the state shall provide a subvention of funds." (Emphasis added.) This provision was specifically intended to prevent the state from forcing programs on local government that require them to spend their tax revenues.[2/] To implement article XIII B, section 6, the Legislature enacted Government Code section 17500 et seq. Government Code section 17514 defines "costs mandated by the state" as "any increased costs which a local agency or school district is *required* to incur . . . as a result of any statute . . . which *mandates* a new program or higher level of

---

1 The Prevailing Wage Law is found at Chapter 1 of Part 7, Division 2 of the Labor Code commencing with section 1720.

2 *County of Fresno v. State of California* (1991) 53 Cal. 3d 482, 487.

service of an existing program within the meaning of Section 6 of Article XIII B of the California Constitution." (Emphasis added.) "Mandates" as used in article XIII B, section 6 has been defined to mean "orders" or "commands."[3/] If the test claim legislation does not mandate the school district to perform a task, then compliance is within the discretion of the school district and a state-mandated program does not exist. The state has no duty under article XIII B, section 6 to reimburse the school district for costs of programs or services incurred as a result of the exercise of local discretion or choice.[4/]

To determine if the "program" is new or imposes a higher level of service, a comparison must be made between the test claim legislation and the legal requirements in effect before the enactment of the test claim legislation.[5/]

RESPONSES TO INDIVIDUAL CLAIMS

Obtaining Prevailing Wage Rates

Labor Code Section 1773 requires agencies awarding any contract for a public work, or otherwise undertaking any public work, to obtain the applicable prevailing wage rate from the Director of Industrial Relations ("DIR"). California Code of Regulations, title 8, section 16202 requires agencies awarding public works contracts ("awarding bodies") to request DIR to make a special determination of the prevailing wage of an occupation or craft not covered by a general

---

3 *Long Beach Unified School Dist. v. State of California* (1990) 225 Cal.App. 3d 155, 174.

4 *City of Merced v. State of California* (1984) 153 Cal.App. 3d 777, 783.

5 To assist the Commission in reviewing this claim, the Department of Finance has prepared a chart comparing the present day provisions with their 1975 counterparts. This chart is attached as Exhibit 1.

determination. Section 16204, subdivision (a)(5) declares it is the responsibility of the awarding body to determine that the correct determination is used. Clovis contends these requirements are state mandates.[6] These provisions are not mandates because they do not impose new programs or higher levels of service.

In 1975, Section 1773 required awarding agencies to do their own prevailing wage determinations.[7] The current requirement that awarding bodies obtain prevailing wage determinations from DIR represents a reduction in the level of service required of awarding bodies. The prevailing wage determination provisions of Section 1773 and of Regulations 16202 and 16204 are not new programs and do not impose higher levels of service on awarding bodies. On the contrary, they relieve awarding bodies of their prior obligation to determine prevailing wage rates.

Requesting Coverage Determination from DIR

California Code of Regulations, title 8, section 16001, subdivision (a)(1), permits any interested person to request DIR to determine if a specific project or type of work to be performed on a project is subject to the PWL. Subdivision (a)(2) of section 16001, provides that an awarding body may file documents or comments on the requested determination.[8] Clovis

---

6 Claims number 1 and 2 at page 129.

7 See Statutes 1971, Chapter 785, section 1.

8 California Code of Regulations, title 8, section 16001 provides in part:

> (a) General Coverage. State prevailing wage rates apply to all public works contracts as set forth in Labor Code Sections 1720, 1720.2, 1720.3, 1720.4, and 1771.

contends this constitutes a mandate.[9] Section 16001 does not mandate new programs or higher levels of service because its provisions do not require any action from awarding bodies. Their participation in these special determinations is purely discretionary. Furthermore, Labor Code section 1773.4 has provided for awarding bodies to participate in reviews of rate determination proceedings.[10] Thus, there is no higher level of service required and no mandate.

Reviews of Wage Rate Determinations

California Code of Regulations, title 8, section 16302 provides that interested persons

---

> (1) Any interested party enumerated in Section 16000 of these regulations may file with the Director of Industrial Relations or the Director's duly authorized representative, as set forth in Section 16301 of these regulations, a request to determine coverage under the prevailing wage laws regarding either a specific project or type of work to be performed which that interested party believes may be subject to or excluded from coverage as public works under the Labor Code. If such a request is filed by any party other than the awarding body, a copy of the request must be served upon the awarding body, in accordance with the filing procedures set forth in Section 16302(d) of these regulations, when it is filed with the Director.
>
> (2) Within 15 days of receipt of a copy of the request for a coverage determination, the awarding body shall forward to the Director or his/her duly authorized representative as provided for in Section 16301 of these regulations, any documents, arguments, or authorities it wishes to have considered in the coverage determination process. . ." (Emphasis added.)

9 See Claim number 3 at page 129.

10 See Labor Code section 1773.4. See Statutes 1969, chapter 1706, page 671, section 1.

"may" petition for review of a wage rate determination.[11] Clovis asserts this is a state mandate.[12] This regulation permits an awarding body to seek review of a rate determination, it does not require awarding bodies to seek review of a wage determination. Because of the permissive nature of the regulation, there is no mandate.

Appeals of Incorrect Wage Rate Determinations

Labor Code section 1773.4 provides that any interested person may appeal a wage determination to DIR. California Code of Regulations, title 8, section 16002.5, subdivision (a), permits interested persons to appeal incorrect wage rate determinations.[13] There is no mandate

---

11 Title 8 California Code of Regulations section 16302 provides in part:

> Those interested parties enumerated in Section 1773.4 of the Labor Code, and defined in Section 16000 of these regulations, may file with the Director or the Chief of DLSR, within 20 days after commencement of advertising of a call for bids by any awarding body, a petition to review a determination of any rate or rates made by the Director, pursuant to Section 1773 of the Labor Code, which is specified in or referred to in the call for bids . . . ." (Emphasis added.)

12 Claim number 4 at pages 129-130.

13 Title 8 California Code of Regulations section 16002.5 provides:

> (a) Those interested parties enumerated in Section 16000 of these regulations may appeal to the Director of Industrial Relations or the Director's duly authorized representative as set forth in Section 16301 of these regulations a determination of coverage under the public works laws (Labor Code Section 1720 et seq.) regarding either a specific project or type of work under Section 16001(a) of these regulations. Such notice of appeal must be served within 30 days of the issuance of the coverage determination. The party appealing the determination must, in accordance with the filing procedures set forth in Section 16302(d) of these regulations, give written notification to the awarding body and any other identifiable parties.

because there is no new program and because awarding districts are not mandated to file appeals. The provisions of Labor Code section 1773.4 permitting appeals by interested parties have existed since 1969.[14] Furthermore, the provisions of both the statute and the regulation are permissive and mandate no action by the awarding body.

Providing Notice of Prevailing Wages in Bid Requests

Labor Code section 1773.2 provides that awarding bodies must either publish prevailing wage rates in their call for bids or inform prospective bidders that the prevailing wage rates are on file and available for inspection at the office of the awarding body. If an awarding body chooses to employ the option of having the wages on file, it must also post the wages at the job site. Clovis contends this is a mandate.[15]

///

///

///

(b) The notice of appeal shall state the full factual and legal grounds upon which the determination is appealed, and whether a hearing is desired. The decision to hold a hearing is within the Director's sole discretion. The Director may appoint a hearing officer to conduct the hearing and propose a decision on the appeal. The Director shall make the final decision on the appeal.

(c) The authority of the Director to determine coverage of projects under the prevailing wage laws is quasi-legislative, and a final determination on any appeal is subject to judicial review pursuant to the Code of Civil Procedure, Section 1085.

14 Statutes 1969, chapter 699, section 2.

15 See claim number 6 at page 130.

Section 1773.2 was enacted in 1971 and amended in 1974[16], 1977[17] and 1992.[18]

The 1974 amendment provided that if agencies chose to keep prevailing wages on file rather than to publish them in a newspaper of general circulation, then the agency was required to post the wage rates at the job site.[19] The 1977 amendment eliminated the requirement of publishing the prevailing wages in a newspaper of general circulation.

Since the requirements of Section 1773.2 are the result of a legislative mandate enacted prior to January 1, 1975, by definition, they are not mandates.[20]

Recording Names of Ineligible Contractors and Subcontractors

Labor Code section 1777.1 bars contractors and subcontractors who have violated the PWL from bidding or working on public works contracts. Section 1777.1, subdivision (d), requires the Labor Commissioner to publish and distribute to awarding bodies the names of these

---

16 Statutes 1974, chapter 876, section 1.

17 Statutes 1977, chapter 423, section 1.

18 Statutes 1992, chapter 1342, section 8 (SB 222).

19 Amended in 1974, Section 1773.2 provided in pertinent part:

> In lieu of specifying the rate of wages in the call for bids, and in the bid specifications and in the contract itself, the awarding body may refer to copies thereof on file at its principal office, which shall be made available to any interested party on request. In the event that the awarding body chooses to refer to a copy of the prevailing rate of per diem wages on file at its principal office, in lieu of specifying them in each call for bids, and in the bid specifications and in the contract itself, the awarding body shall publish its determination of the prevailing rate of wages at least one time in a newspaper of general circulation during each year, and in such event, the awarding body shall cause a copy thereof to be posted at each job site.

20 California Constitution, article XIIIB, section 6, subdivision (c).

debarred contractors.[21] Clovis contends this is a mandate for awarding bodies to maintain lists of debarred contractors.[22]

While the specific act of receiving the names of debarred contractors may be new, Labor Code section 1726 has always required awarding bodies to "take cognizance" of PWL violations in the course of the execution of a contract.[23] The provision of the names of debarred contractors to awarding bodies merely facilitates them in learning of any potential violations of debarment provisions of the PWL. Furthermore, since the names of debarred contractors are available on the Internet [24], it is doubtful that awarding bodies even need to record these names or, at the least, that Section 1777.1 requires a higher level of service from awarding bodies. Receiving the names of debarred contractors in the mail or checking the DIR webpage to review the names of debarred contractors are de minis activities that do not meet the threshold of a higher level of service.[25]

///

///

///

---

21 Clovis also cites California Code of Regulations, title 8, section 16800 through 16802 in this claim. (See Claim No. 7 at page 130.) However, these regulations do not have any requirements regarding the recording of the name of debarred contractors.

22 See claim number 7 at page 130.

23 This requirement has existed since at least 1937. See Statutes 1937, chapter 90, page 241, section 1.

24 See DIR comments at page 13.

25 Presently there are only 17 firms listed on the DIR list (See Attachment B to Anthony Mishel's Declaration.)

Providing the Division of Apprenticeship Standards with Copies of Public Works Contracts

Labor Code section 1773.5[26] requires an awarding body to provide the Division of Apprenticeship Standards with a copy of any public works contract it awards. This is not a new requirement. It was originally contained in former Labor Code section 3098 which was first enacted in 1972 and amended in 1974.[27] Section 1773.5 is merely a reenacted and renumbered[28] version of former Section 3098.

Since the Division of Apprenticeship Standards notification requirement is the result of legislation enacted prior to January 1, 1975, by definition it does not constitute a state mandate.[29] The repeal and re-enactment of the statute containing the notification requirement does not transform this requirement into a mandate.

Inspecting and Auditing Payroll Records

Labor Code section 1776 requires contractors to maintain certified payroll records and make them available for inspections.[30] Clovis allege Section 1776 requires awarding bodies to inspect or audit certified payroll records. There is no basis for this claim because Section 1776 does not require local agencies to inspect or audit certified payroll records.

---

26 This statute is misidentified in the claim as Labor Code section 1777.3 in claim number 8 at page 130.

27 See Statutes 1972, chapter 1399, section 2; Statutes 1974, chapter 1095, section 1.

28 The renumbering legislation is found at Statutes 1978, chapter 1249, section 6.

29 California Constitution, Article XIIIB, section 6, subdivision (c).

30 See claim number 9 at pages 130-131.

Responding to Requests To Review Payroll Records

Clovis contends that its duties with respect to providing copies of certified payroll records are a state mandate.[31] Labor Code section 1776 requires contractors to keep accurate payroll records. Section 1776, subdivision (b)(3) allows the public to review and obtain these records. However, the public must request records either through DIR or through the awarding body. Section 1776, subdivision (e), requires either DIR or the awarding body to remove confidential personal information before releasing the records to the public. Section 1776, subdivision (b)(3) requires the requesting party to reimburse the awarding body for the cost of preparing records. Section 1776, subdivision (i), directs DIR to establish reasonable fees for the costs of reproducing records.

Labor Code section 1776 was first enacted in 1937. The version of Section 1776 operative in 1975 was enacted in 1949.[32] This former version provided for no public inspection. In 1976, Section 1776 was amended to provide for public inspection of payroll records.[33] While the requirement for public inspection was introduced after 1975[34], the Legislature expressly

---

31 See claim number 10 at page 131.

32 See Statutes 1949, chapter 127, section 7.

33 Statutes 1976, chapter 599, p. 1442.

34 The requirement that public records be redacted to remove confidential personal information precedes 1975. The Constitutional right of privacy was adopted in 1974. (See Cal.Const., Art. 1, § 1.) The Public Records Act, enacted in 1968 contains an exemption for records whose release would constitute an unwarranted invasion of privacy. (Gov. Code § 6254 (c).) It has long been the rule "[W]here nonexempt materials are not inextricably intertwined with exempt materials and are otherwise reasonably segregable therefrom, segregation is required to serve the objective of the PRA to make public records available for public inspection and copying unless a particular statute makes them exempt." (*Northern Cal. Police Practices Project v. Craig* (1979) 90 Cal.App.3d 116, 124.)

found no reimbursement was required because it provided "self-financing" authority for complying with the statutory provisions.[35] Furthermore, DIR regulation 16402 provides for awarding agencies to be reimbursed for the cost of providing copies of certified payroll records.[36] Therefore, there is no basis for finding a mandate because districts have the ability to collect fees for their costs and the legislation had provisions for districts to recover their costs.[37] (Gov. Code § 17556 (d) and (e).)

Participation In a Labor Compliance Program

Clovis contends that its participation in a labor compliance program is a state mandate.[38] Labor Code section 1771.5 permits awarding bodies to "elect to initiate and enforce a labor compliance program ("LCP"). The decision to initiate a LCP is discretionary. The statutory inducements to initiate an LCP are a larger exemption of programs from the PWL and the ability

---

35 Statutes 1976, chapter 599, section 2.

36 California Code of Regulations, title 8, section 16402 provides:

> The cost of preparation to each contractor, subcontractor, or public entity when the request was made shall be provided in advance by the person seeking the payroll record. Such cost shall be $1 for the first page of the payroll record and 25 cents for each page thereafter, plus $10 to the contractor or subcontractor for handling costs.

37 There is no allegation that the reimbursements rates in the DIR regulation are insufficient to cover the costs of copying and producing copies of certified payroll records. But if the rates were insufficient, the appropriate remedy would be for Clovis to petition DIR to raise the reimbursement rates, not for the Commission to find a mandate.

38 Claim number 11 at pages 131-132.

to deposit fines, penalties and forfeitures into the local agency's treasury.[39] Since participation in LCPs is voluntary, there is no mandate.[40]

Furthermore, according to DIR, Clovis has not elected to initiate a LCP.[41] This is significant for two reasons. First, it means Clovis has no standing to claim LCP costs. Second, it shows that participation is truly voluntary.

Notice of Withholding Contract Payments for Prevailing Wage Law Violations

Labor Code section 1771.6 requires awarding bodies that enforce the PWL "in accordance with Section 1726 or 1771.5" to provide notice to specified entities when it withholds contract payments because of PWL violations. Clovis claims these notice requirements constitute a mandate.[42] There is no mandate because the PWL has always required an awarding agency to take cognizance of violations of the PWL and because awarding agencies have the discretion either to enforce the PWL or to refer suspected violations to DIR.

Labor Code section 1726 (As amended by Stats. 2000 Ch. 954 § 3) currently provides:

> The body awarding the contract for public work shall take cognizance of violations of the provisions of this chapter committed in the course of the execution of the contract, and shall promptly report any suspected violations to the Labor Commissioner. If the awarding body determines as a result of its own investigation that there has been a violation of this chapter and withholds contract payments, the procedures in Section 1771.6 shall be followed.

---

39 See DIR Brief at page 15.

40 *City of Merced v. State of California*, *supra*, 153 Cal.App. 3d at 783.

41 See DIR Brief, footnote 18 at page 15.)

42 See claim number 12 at pages 132-133.

The requirement that an awarding body "take cognizance" of violations has existed since at least 1931.[43] Section 1726 does not require an awarding body initiate its own investigation of PWL violations and to withhold contract funds. Initiating an investigation and withholding funds is a discretionary, as opposed to a mandated, action. Hence, because Section 1726 does not create a new program or higher level or service and because undertaking an investigation is a discretionary act, Section 1726 does not create a state mandate.

The notice provisions of Section 1771.6 also apply to enforcement actions undertaken pursuant to Section 1771.5, the LCP statute. However, as previously stated, an awarding body is not required to participate in an LCP. This is voluntary and discretionary decision. Hence, there is no mandate for these voluntary enforcement actions.

Cost Associated with Reporting Suspected PWL Violations

Labor Code section 1726 requires awarding bodies to "take cognizance" of suspect violations of the PWL and to report suspected violations to the Labor Commissioner. Clovis contends that the need to report suspected PWL violations is a mandate.[44] There is no mandate because these responsibilities are neither a new program nor a higher level of service.

Section 1726 has required awarding agencies to "take cognizance" of violations of the PWL since it was first enacted in 1931.[45] Formerly, pursuant to Labor Code section 1727, either the awarding body or the Division of Labor Standards Enforcement investigated alleged

---

43 See Statutes 1931, chapter 1144, section 1, at page 2430.

44 Claim number 13 at page 133.

45 See Statutes 1931, chapter 1144, section 1, page 2430.

violations of the PWL.[46] While Section 1726 still requires awarding bodies to "take cognizance" of PWL violations, as of July 1, 2001, awarding bodies are no longer responsible for enforcing violations of the PWL.[47] Thus, the only means of enforcing violations known only to awarding bodies is to inform the responsible agency of the suspected violation. The specific statutory reporting requirement was added in exchange for the reduction in awarding agency responsibility and workload.[48] This minor duty to report new suspected violations to the Labor Commissioner is neither a new program, nor is it a higher level of service. Since the Legislature has relieved awarding bodies of the responsibility for enforcing the PWL, the savings they achieve from the elimination of their enforcement responsibility more than offsets the minimal costs of reporting violations.[49]

Costs Associated with Withholding Contract Payments When District's Own Investigation Reveals Contract Violation

Labor Code section 1726 provides that if an awarding body conducts its own investigation and determines that a violation of the PWL has occurred and that if it withholds funds, the awarding body must comply with the requirements of Labor Code section 1777.6. Clovis seeks reimbursement for costs associated with this type of withholding.[50]

---

46 See Statutes 1945, chapter 1431, page 2692, section 50; Statutes 1992, chapter 1342, page 6601, section 1.

47 Labor Code section 1727, as amended in Statutes 2000, chapter 954 (A.B. 1646), section 4, operative July 1, 2001.

48 DIR Brief at page 16, item 13.

49 Cf. Government Code section 17556, subdivision (e).

50 See Clovis claim number 14 at page 133.

There are two reasons why this withholding provision does not constitute a mandate. First, an awarding body is not required to investigate PWL violations. They are only required to "take cognizance" of violations and refer the matter to the Division of Labor Standards Enforcement for investigation.[51] Second, there is no higher level of service in withholding payments. Labor Code section1727 has required awarding bodies to withhold funds from contractors who violated the PWL since 1945.[52]

Withholding Pursuant to Wage and Penalty Assessments

Labor Code section 1727 provides in part:

> (a) Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom all amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner under this chapter. The amounts required to satisfy a civil wage and penalty assessment shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review.

Clovis contends Section 1727 creates a state mandate and that it is entitled to the costs associated with withholding funds to satisfy the Labor Commissioner's civil wage and penalty assessment[53] and for the costs associated with withholding these funds until the awarding body receives a final order that is no longer subject to judicial review.[54]

---

51 This claim assumes that withholding payments results in additional costs to the awarding district. However, DIR's brief indicates that District's may prefer to withhold disputed funds rather than turn them over to the general funds. (See DIR brief at p. 15.)

52 See Statutes 1945, chapter 1431, section 50.

53 See Claim number 15 at page 133.

54 See Claim number 16 at page 133.

But, as noted above, since 1937 Labor Code section 1727 has required awarding bodies to withhold forfeited funds from contractors. The version of Section 1727 operative in 1975 contained the same responsibility on awarding bodies to withhold. It provided:

> Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain there from all amounts which have been forfeited pursuant to any stipulation in a contract for public work, and the terms of this chapter. But no sum shall be withheld, retained or forfeited, except from the final payment, without a full investigation by either the Division of Labor Law Enforcement or by the awarding body.[55/]

The responsibility to withhold funds is not a new program or a higher level of service but has always been integral to enforcing the PWL. The requirement that funds be retained until receipt of a final order is merely a clarification of the law and not a higher level of service.

Costs Associated with Participation In Administrative and Judicial Review of Enforcement Orders

Labor Code section 1742 provides contractors and subcontractors with an administrative remedy for the review of a PWL civil wage and penalty assessment. Clovis contends the requirements of Section 1742 and the notice requirements of Regulation 17220[56/] constitute a reimbursable state mandate.[57/] However, as DIR notes in its brief[58/], these statutory provisions do

---

55 See Statutes 1945, chapter 1431, section 50.

56 Regulation 17220 requires that service of a notice of withholding payments or a notice of assessing penalties be made by first class mail on the contractor and subcontractor and by first class and any bonding company and any Surety issuing a bond.

57 Claim number 17 at pages 133-134.

58 DIR Brief at pages 17-19.

not require any participation of awarding agencies unless they elect to become an LCP. Awarding bodies are no longer required to enforce the PWL are no longer even nominal parties to the proceedings.[59] If an awarding body has any costs associated with PWL due process proceedings, it is only because the awarding body has elected either to become an LCP or to voluntarily intervene pursuant to Labor Code section 1742.[60] In either case, there is no mandate when participation is voluntary.[61]

The same analysis applies to Clovis' claim for reimbursement for the costs of participating in judicial review of administrative proceedings.[62] The obvious corollary of the voluntary nature of an awarding body's participation in administrative proceedings is that its participation in any judicial review of the administrative proceedings is also voluntary.

Since Section 1742 and Regulation 17220 do not require a higher level of service from districts, but actually relieve the districts of even nominal participation in review of enforcement proceedings, they clearly do not create a state mandate.

Participation In PWL Settlement Conferences

Clovis contends the State has mandated it to "grant and participate in settlement meetings requested by contractors or subcontractors in an attempt to settle any disputed issue before

---

59 See Title 8, California Code of Regulations, section 17202, subdivision (j), which defines "party" for purposes of the administrative proceedings as the enforcing agency, the affected contractor or an interested person who intervenes.

60 According to DIR, with the exception of agencies which have elected to act an LCP, no local agency has participated in enforcement proceeding since the effective date of Section 1742. (DIR Brief, at p. 18; Mischel Decl., ¶ 4.)

61 *City of Merced v. State of California, supra,* 153 Cal. App. 3d at 783.

62 See Claim number 18 at page 134.

formal hearing procedures." This mandate is allegedly pursuant to Section1742.1 and Regulation 16413.[63]

The first paragraph of Labor Code section 1742.1, subdivision (b) provides that if a timely request is made, the Labor Commissioner must afford a contractor or subcontractor an informal settlement conference. The statute does not mention awarding bodies and do not require them to participate in these settlement conferences.[64]

Section 1742.1 also requires awarding bodies who provided notice of a withholding pursuant to Labor Code section 1771.6 to conduct informal settlement conferences. However, the notice requirements of Section 1771.6 only apply when an awarding body either elects, pursuant to Section 1726, to undertake its own investigation of a violation, or elects, pursuant to Section 1771.5, to initiate and enforce a LCP. In either case, the involvement of an awarding body in enforcement activities is voluntary and not mandated. Accordingly there is not state mandate to awarding bodies to participate in settlement conferences.[65]

---

63 See claim 19 at page 134.

64 The provisions of Section 1742.1 applicable to the Labor Commissioner provide:

> (b) The Labor Commissioner shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a civil wage and penalty assessment under Section 1741, afford the contractor or subcontractor the opportunity to meet with the Labor Commissioner or his or her designee to attempt to settle a dispute regarding the assessment without the need for formal proceedings. . . ."

65 In claim number 19, Clovis refers to California Code of Regulations, title 8, section 16413. There is no explanation for this reference. Whatever Petitioner's intent, Regulation 16413 makes no mention of settlement conferences and without further exposition, DOF cannot respond to this bare citation.

Participation, as Necessary Party, in Actions Brought Against Employers by Joint Labor-Management Committees

Labor Code section 1771.2[66] authorizes a joint labor management committee to sue an employer for a violation of the PWL. Clovis contends that because an awarding body is a necessary party, Section 1771.2 creates a state mandate.[67] Clovis does not explain why the awarding body is a necessary party. Indeed Section 1771.2 does not mention awarding bodies and does not require the participation of an awarding body in this litigation. Thus, there is no basis for finding that Section 1771.2 creates a state mandate.

Providing Payroll Records To Joint Labor Management Committees

Section 1776, subdivision (e), provides in part:

> Any copy of records made available for inspection by, or furnished to, a joint labor-management committee . . . shall be marked or obliterated only to prevent disclosure of an individual's name and social security number. A joint labor management committee may maintain an action in a court of competent jurisdiction against an employer who fails to comply with Section 1774. The court may award restitution to an employee for unpaid wages and may award the joint labor management committee reasonable attorney's fee and costs incurred in maintaining the action . . . . (Emphasis added.)

---

66 Labor Code section 1771.2 provides:

A joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (Section 175a of Title 29 of the United States Code) may bring an action in any court of competent jurisdiction against an employer that fails to pay the prevailing wage to its employees, as required by this article. This action shall be commenced not later than 180 days after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 180 days after acceptance of the public work, whichever last occurs.

67 See claim number 20 at pages 134-135.

Clovis contends these disclosure provisions constitute a reimbursable mandate. With the exception of a slight variation in the obliteration provisions, this claim is no different than Claim 10. There is no mandate because the Legislature has provided awarding bodies a self financing means for to recover the costs of copying and redacting records.[68]

Statutory Changes Clovis Mentions But Does Not Expressly Claim Constitute Mandates

Clovis cites several changes in the PWL but does not expressly claim these changes constitute a mandate. DOF submits that Clovis' failure to argue that these statutory changes constitute a mandate and its failure to cite authority for this proposition constitute a waiver of any claim that they resulted in a mandate and the Commission should dismiss them without further consideration.[69]

However, DOF further submits, these claims can be denied on the merits for the following reasons.

Applying the PWL to Projects Build For the Use of Awarding Bodies

Clovis cites Labor Code section 1720.2 in Exhibit 1 of the Test Claim but does not claim this section creates a mandate. Section 1720.2 specifies that work performed pursuant to a private contract is a "public work" for PWL purposes if (1) the construction contract is between private persons; (2) the construction is on privately owned property and, at completion of construction, over 51 per cent of the assignable square feet will be leased to a state or political

---

68 See Labor Code section 1776; California Code of Regulations, title 8, section 16402.

69 See *People v. Stanley* (1995) 10 Cal. 4th 764, 793; *Atchley v. City of Fresno* (1984) 151 Cal. App. 3d 635, 647.

subdivision, and (3) either the lease assignment was entered into before the construction contract or the construction work is according to plans and specifications of the public entity and the public entity lease is signed during or at the completion of construction.

Prior to 1975, the definition of a public work included situations where a local agency did not pay for construction of property it was going to lease if certain criteria were met. Under Labor Code section 1720.2, a construction project was also a public work if, 1) the construction was between private parties (no local agency involvement), 2) the property was owned privately but after construction at least 50% of the assignable space would be leased by a local agency, and 3) the lease was entered into prior to the construction contract. Section 1720.2 was amended in 1980 but the amendment appears to have merely clarified the law.[70] In any event, as DIR notes Section 1720.2 only applies to private parties and requires no service from awarding bodies.[71]

Application of PWL to Trash Haulers

Clovis cites Labor Code section 1720.3 which was amended in 1999 to apply the PWL to hauling trash from a public works project.[72] Once again, the intent of Clovis is not clear for it does not mention Section 1720.3 in the claim portion of its filing.

///

///

---

70 Statutes 1980, chapter 962, section 1.

71 DIR observes that any increase in costs is indirect and amicus State Buildings and Trade Council submits that the PWL does not increase costs to local bodies.

72 Statutes 1999, chapter 220, section 3.

However, Section 1720.3 does not create a mandate because it does not require a higher level of service from awarding bodies and does not create a new program. Furthermore, as DIR notes, there is an additional reason why this is not a mandate. The statute creates a new crime.[73/]

Applying The PWL to Design and Preconstruction Work

In 2000, the Legislature amended Labor Code section 1720 to state that the PWL applies to design and preconstruction work including but not limited to surveying and inspection work.[74/] Clovis cites these changes but does not claim they created a mandate. DIR has provided the Commission with an account showing that these changes merely codified DIR interpretations of the PWL.[75/] Whatever Clovis intends, this amendments to Section 1720 did not create a mandate because it created no new program and imposed no higher level of service on awarding bodies.

Applying The PWL to Landscape Maintenance, Installation and Land Surveying Work

Clovis cites the DIR regulation[76/] dealing with the application of the PWL to landscape maintenance and land surveying work. Clovis also cites changes in Labor Code section 1720 which include installation work in the definition of public works. However, Clovis has not claimed that these changes created a state mandate.

---

73 See DIR Brief at page 20; Government Code section 17556, subdivision (g); Statutes 1999, chapter 220, section 3.

74 Statutes 2000, chapter 881.

75 See DIR Brief at pages 20-21.

76 California Code of Regulations, title 8, section 16001, subdivision (c) and (f).

Whatever Clovis intends, DIR's Brief establishes that landscape maintenance, installation work and the land surveying work specified in the DIR regulation have always been covered by the PWL.[77] Furthermore, these provisions create no new program and impose no higher level of service on awarding bodies.

Application of the PWL to Certain Residential Facilities

Clovis cites the DIR regulation defining certain types of residential construction as public works.[78] However, Clovis does not claim that this creates a state mandate. DIR has established that the regulation does not create a new program or higher level of service and that residential construction paid for in whole or part with public funds has always been considered a public work.[79]

DECLARATION OF SERVICE

Case Name: **Prevailing Wage Rate, 01-TC-28**

I declare that I am employed in the County of Sacramento, California. I am over the age of 18 years and not a party to the within entitled cause: my business address is 1300 I Street, Sacramento, California 95814. I am readily familiar with the business practice, at my place of business, for the collection and processing of correspondence for mailing with the United States Postal Service. Correspondence so collected and processed is deposited with the postal service in the ordinary course of business on the same day on which it is placed for mailing.

On February 18, 2003, I served the following document:

Department of Finance Response to Claim

by placing a true copy thereof enclosed in a sealed envelope with postage thereon fully prepaid, in the United States Mail at, California, addressed as shown below:

LABOR CODE

LABOR CODE SECTION	TEXT OF STATUTE IN EFFECT IN 1975	TEXT OF STATUTE IN EFFECT IN 2002
1726	The body awarding the contract for public work shall take cognizance of violations of the provisions of this chapter committed in the course of the execution of the contract. **[Enacted 1937]**	The body awarding the contract for public work shall take cognizance of violations of the provisions of this chapter committed in the course of the execution of the contract, and shall promptly report any suspected violations to the Labor Commissioner. If the awarding body determines as a result of its own investigation that there has been a violation of this chapter and withholds contract payments, the procedures in Section 1771.6 shall be followed. **[Amended Stats. 2000 Ch. 954 § 3]**

1727	Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom all amounts which have been forfeited pursuant to any stipulation in a contract for public work, and the terms of this chapter. But no sum shall be withheld, retained or forfeited, except from the final payment, without a full investigation by either the Division of Labor Law Enforcement or by the awarding body. **[Enacted 1937; Amended Stats. 1945 Ch. 1431 § 50]**	(a) Before making payments to the contractor of money due under a contract for public work, the awarding body shall withhold and retain therefrom all amounts required to satisfy any civil wage and penalty assessment issued by the Labor Commissioner under this chapter. The amounts required to satisfy a civil wage and penalty assessment shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review. (b) If the awarding body has not retained sufficient money under the contract to satisfy a civil wage and penalty assessment based on a subcontractor's violations, the contractor shall, upon the request of the Labor Commissioner, withhold sufficient money due the subcontractor under the contract to satisfy the assessment and transfer the money to the awarding body.
1727		These amounts shall not be disbursed by the awarding body until receipt of a final order that is no longer subject to judicial review. **[Amended Stats. 2000 Ch. 954 § 4]**

1742		(a) An affected contractor or subcontractor may obtain review of a civil wage and penalty assessment under this chapter by transmitting a written request to the office of the Labor Commissioner that appears on the assessment within 60 days after service of the assessment. If no hearing is requested within 60 days after service of the assessment, the assessment shall become final. (b) Upon receipt of a timely request, a hearing shall be commenced within 90 days before the director, who shall appoint an impartial hearing officer possessing the qualifications of an administrative law judge pursuant to subdivision (b) of Section 11502 of the Government Code. The appointed hearing officer shall be an employee of the department, but shall not be an employee of the Division of Labor Standards Enforcement. The contractor or subcontractor shall be provided an opportunity to review evidence to be utilized by the Labor Commissioner at the hearing within 20 days of the receipt of the written request for a hearing. Any evidence obtained by the Labor Commissioner subsequent to the 20-day cutoff shall be promptly disclosed to the contractor or subcontractor. The contractor or subcontractor shall have the burden of proving that the basis for the civil wage and penalty assessment is incorrect. The assessment shall be sufficiently detailed to provide fair notice to the contractor or subcontractor of the issues at the hearing.

		Within 45 days of the conclusion of the hearing, the director shall issue a written decision affirming, modifying, or dismissing the assessment. The decision of the director shall consist of a notice of findings, findings, and an order. This decision shall be served on all parties and the awarding body pursuant to Section 1013 of the Code of Civil Procedure by first-class mail at the last known address of the party on file with the Labor Commissioner. Within 15 days of the issuance of the decision, the director may reconsider or modify the decision to correct an error, except that a clerical error may be corrected at any time. The director shall adopt regulations setting forth procedures for hearings under this subdivision. (c) An affected contractor or subcontractor may obtain review of the decision of the director by filing a petition for a writ of mandate to the appropriate superior court pursuant to Section 1094.5 of the Code of Civil Procedure within 45 days after service of the decision. If no petition for writ of mandate is filed within 45 days after service of the decision, the order shall become final. If it is claimed in a petition for writ of mandate that the findings are not supported by the evidence, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record. (d) A certified copy of a final order may be filed by the Labor Commissioner in the office of the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the

1742		filing, shall enter judgment for the state against the person assessed in the amount shown on the certified order. (e) A judgment entered pursuant to this section shall bear the same rate of interest. and shall have the same effect as other judgments and shall be given the same preference allowed by law on other judgments rendered for claims for taxes. The clerk shall not charge for the service performed by him or her pursuant to this section. (f) An awarding body that has withheld funds in response to a civil wage and penalty assessment under this chapter shall, upon receipt of a certified copy of a final order that is no longer subject to judicial review, promptly transmit the withheld funds, up to the amount of the certified order, to the Labor Commissioner. (g) This section shall provide the exclusive method for review of a civil wage and penalty assessment by the Labor Commissioner under this chapter or the decision of an awarding body to withhold contract payments pursuant to Section 1771.5. (h) This section shall remain in effect only until January 1, 2005, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2005, deletes or extends that date. **[Added Stats. 2000 Ch. 954 § 10]**
1742.1		(a) After 60 days following the service of a civil wage and penalty assessment under Section 1741 or a notice of withholding under subdivision (a) of Section 1771.6, the affected contractor, subcontractor, and surety on a bond or bonds issued to secure the payment of wages covered by the assessment or notice shall be liable for liquidated

1742.1		damages in an amount equal to the wages, or portion thereof, that still remain unpaid. If the assessment or notice subsequently is overturned or modified after administrative or judicial review, liquidated damages shall be payable only on the wages found to be due and unpaid. If the contractor or subcontractor demonstrates to the satisfaction of the director that he or she had substantial grounds for believing the assessment or notice to be in error, the director shall waive payment of the liquidated damages. Any liquidated damages collected shall be distributed to the employee along with the unpaid wages. Section 203.5 shall not apply to claims for prevailing wages under this chapter. (b) The Labor Commissioner shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a civil wage and penalty assessment under Section 1741, afford the contractor or subcontractor the opportunity to meet with the Labor Commissioner or his or her designee to attempt to settle a dispute regarding the assessment without the need for formal proceedings. The awarding body shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of a notice of withholding under subdivision (a) of Section 1771.6, afford the contractor or subcontractor the opportunity to meet with the designee of the awarding body to attempt to settle a dispute regarding the notice without the need for formal proceedings. The settlement meeting may be held in person or by telephone and shall take place before the expiration of the 60-day period for seeking administrative review. No

		evidence of anything said or any admission made for the purpose of, in the course of, or pursuant to, the settlement meeting is admissible or subject to discovery in any administrative or civil proceeding. No writing prepared for the purpose of, in the course of, or pursuant to, the settlement meeting, other than a final settlement agreement, is admissible or subject to discovery in any administrative or civil proceeding. The assessment or notice shall advise the contractor or subcontractor of the opportunity to request a settlement meeting. This section shall remain in effect only until January 1, 2005, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2005, deletes or extends that date. **[Added Stats. 2000 Ch. 954 § 12]**
1771.2		A joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (Section 175a of Title 29 of the United States Code) may bring an action in any court of competent jurisdiction against an employer that fails to pay the prevailing wage to its employees, as required by this article. This action shall be commenced not later than 180 days after the filing of a valid notice of completion in the office of the county recorder in each county in which the public work or some part thereof was performed, or not later than 180 days after acceptance of the public work, whichever last occurs. **[Added Stats. 2001 Ch. 804 § 1]**

1771.5		(a) Notwithstanding Section 1771, an awarding body shall not require the payment of the general prevailing rate of per diem wages or the general prevailing rate of per diem wages for holiday and overtime work for any public works project of twenty-five thousand dollars ($25,000) or less when the project is for construction work, or for any public works project of fifteen thousand dollars ($15,000) or less when the project is for alteration, demolition, repair, or maintenance work, if the awarding body elects to initiate and enforce a labor compliance program pursuant to subdivision (b) for every public works project under the authority of the awarding body. (b) For the purposes of this section, a labor compliance program shall include, but not be limited to, the following requirements: (1) All bid invitations and public works contracts shall contain appropriate language concerning the requirements of this chapter. (2) A prejob conference shall be conducted with the contractor and subcontractors to discuss federal and state labor law requirements applicable to the contract. (3) Project contractors and subcontractors shall maintain and furnish, at a designated time, a certified copy of each weekly payroll containing a statement of compliance signed under penalty of perjury. (4) The awarding body shall review, and, if appropriate, audit payroll records to verify compliance with this chapter. (5) The awarding body shall withhold contract payments when payroll records are delinquent or

1771.5		(6) The awarding body shall withhold contract payments equal to the amount of underpayment and applicable penalties when, after investigation, it is established that underpayment has occurred. **[Added Stats. 1989 Ch. 1224 § 2; amended Stats. 1999 Ch. 83 § 132]**
1771.6		(a) Any awarding body that enforces this chapter in accordance with Section 1726 or 1771.5 shall provide notice of the withholding of contract payments to the contractor and subcontractor, if applicable. The notice shall be in writing and shall describe the nature of the violation and the amount of wages, penalties, and forfeitures withheld. Service of the notice shall be completed pursuant to Section 1013 of the Code of Civil Procedure by first-class and certified mail to the contractor and subcontractor, if applicable. The notice shall advise the contractor and subcontractor, if applicable, of the procedure for obtaining review of the withholding of contract payments. The awarding body shall also serve a copy of the notice by certified mail to any bonding company issuing a bond that secures the payment of wages covered by the notice and to any surety on a bond, if their identities are known to the awarding body. (b) The withholding of contract payments in accordance with Section 1726 or 1771.5 shall be reviewable under Section 1742 in the same manner as if the notice of the withholding was a civil penalty order of the Labor Commissioner under this chapter. If review is requested, the Labor Commissioner may intervene to represent the awarding body.

1771.6		(c) Pending a final order, or the expiration of the time period for seeking review of the notice of the withholding, the awarding body shall not disburse any contract payments withheld. (d) From the amount recovered, the wage claim shall be satisfied prior to the amount being applied to penalties. If insufficient money is recovered to pay each worker in full, the money shall be prorated among all workers. (e) Wages for workers who cannot be located shall be placed in the Industrial Relations Unpaid Wage Fund and held in trust for the workers pursuant to Section 96.7. Penalties shall be paid into the General Fund of the awarding body that has enforced this chapter pursuant to Section 1771.5. **[Added Stats. 2000 Ch. 954 § 16; former 1771.6 added Stats. 1989 Ch. 1224 § 3, repealed Stats. 2000 Ch. 954 § 15]**
1773	The body awarding any contract for public work, or otherwise undertaking any public work, shall ascertain the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality in which the public work is to be performed for each craft, classification or type of workman needed to execute the contract. The holidays upon which such rates shall be paid need not be specified by the awarding body, but shall be all holidays recognized in the collective bargaining agreement applicable to the particular craft, classification or type of workman employed on the project. In determining such rates, the awarding body shall	The body awarding any contract for public work, or otherwise undertaking any public work, shall obtain the general prevailing rate of per diem wages and the general prevailing rate for holiday and overtime work in the locality in which the public work is to be performed for each craft, classification, or type of worker needed to execute the contract from the Director of Industrial Relations. The holidays upon which those rates shall be paid need not be specified by the awarding body, but shall be all holidays recognized in the applicable collective bargaining agreement. If the prevailing rate is not based on a collectively bargained rate, the holidays upon which the prevailing rate shall be paid shall be as provided in Section 6700 of the Government Code.

1773	ascertain and consider the applicable wage rates established by collective bargaining agreements and such rates as may have been pre-determined for federal public works, within the locality and in the nearest labor market area. Where such rates do not constitute the rates actually prevailing in the locality, the awarding body shall obtain and consider further data from the labor organizations and employers or employer associations concerned, including the recognized collective bargaining representatives for the particular craft, classification or type of work involved. The rate fixed for each craft, classification or type of work shall be not less than the prevailing rate paid in such craft, classification or type of work. If the awarding body determines that the rate of prevailing wage for any craft, classification or type of workman is the rate established by a collective bargaining agreement, the awarding body may adopt such rate by reference as provided for in such agreement and such determination shall be effective for the life of such agreement or until the awarding body determines that another rate should be adopted. **[Enacted 1937; Amended Stats. 1971 Ch. 785 § 1]**	In determining the rates, the Director of Industrial Relations shall ascertain and consider the applicable wage rates established by collective bargaining agreements and the rates that may have been predetermined for federal public works, within the locality and in the nearest labor market area. Where the rates do not constitute the rates actually prevailing in the locality, the director shall obtain and consider further data from the labor organizations and employers or employer associations concerned, including the recognized collective bargaining representatives for the particular craft, classification, or type of work involved. The rate fixed for each craft, classification, or type of work shall be not less than the prevailing rate paid in the craft, classification, or type of work. If the director determines that the rate of prevailing wage for any craft, classification, or type of worker is the rate established by a collective bargaining agreement, the director may adopt that rate by reference as provided for in the collective bargaining agreement and that determination shall be effective for the life of the agreement or until the director determines that another rate should be adopted. **[Amended Stats. 1999 Ch. 30 § 1]**
1773.1	Per diem wages shall be deemed to include employer payments for health and welfare, pension, vacation, apprenticeship or other training programs authorized by Section 3093, and similar purposes, when the term "per diem wages" is used in this chapter or in any other statute applicable to public works. For the purpose of determining such per diem wages	(a)Per diem wages shall be deemed to include employer payments for health and welfare, pension, vacation, travel, subsistence, and apprenticeship or other training programs authorized by Section 3093, so long as the cost of training is reasonably related to the amount of the contributions, and similar purposes, when the term "per diem wages" is used in this chapter or in any other

1773.1	for contracts entered into with the state, the representative of any craft, classification, or type of workman needed to execute the contracts entered into with the state shall file with the Department of Industrial Relations fully executed copies of the collective bargaining agreements for the particular craft, classification or type of work involved. Such agreements shall be filed within 10 days after their execution and thereafter may be taken into consideration pursuant to Section 1773 whenever filed 30 days prior to the call for bids. **[Added Stats. 1959 Ch. 2173 § 1; Amended Stats. 1969 Ch. 1502 § 1]**	statute applicable to public works. (b) Employer payments include all of the following: (1) The rate of contribution irrevocably made by the employer to a trustee or third person pursuant to a plan, fund, or program. (2) The rate of actual costs to the employer reasonably anticipated in providing benefits to workers pursuant to an enforceable commitment to carry out a financially responsible plan or program communicated in writing to the workers affected. (3) Payments to the California Apprenticeship Council pursuant to Section 1777.5. (c) Employer payments are a credit against the obligation to pay the general prevailing rate of per diem wages. However, no credit shall be granted for benefits required to be provided by other state or federal law. Credits for employer payments also shall not reduce the obligation to pay the hourly straight time or overtime wages found to be prevailing. (d) The credit for employer payments shall be computed on an annualized basis where the employer seeks credit for employer payments that are higher for public works projects than for private construction performed by the same employer, except where one or more of the following occur: (1) The employer has an enforceable obligation to make the higher rate of payments on future private construction performed by the employer. (2) The higher rate of payments is required by a project labor agreement. (3) The payments are made to the California

1773.1		(4) The director determines that annualization would not serve the purposes of this chapter. (e)For the purpose of determining those per diem wages for contracts, the representative of any craft, classification, or type of worker needed to execute contracts shall file with the Department of Industrial Relations fully executed copies of the collective bargaining agreements for the particular craft, classification, or type of work involved. The collective bargaining agreements shall be filed after their execution and thereafter may be taken into consideration pursuant to Section 1773 whenever filed 30 days prior to the call for bids. If the collective bargaining agreement has not been formalized, a typescript of the final draft may be filed temporarily, accompanied by a statement under penalty of perjury as to its effective date. Where a copy of the collective bargaining agreement has previously been filed, fully executed copies of all modifications and extensions of the agreement that affect per diem wages or holidays shall be filed. The failure to comply with filing requirements of this subdivision shall not be grounds for setting aside a prevailing wage determination if the information taken into consideration is correct. **[Amended Stats. 2000 Ch. 954 § 18]**

1773.2	The body awarding any contract for public work, or otherwise undertaking any public work, shall specify in the call for bids for the contract, and in the bid specifications and in the contract itself, what the general rate of per diem wages is for each craft, classification or type of workman needed to execute the contract.	The body awarding any contract for public work, or otherwise undertaking any public work, shall specify in the call for bids for the contract, and in the bid specifications and in the contract itself, what the general rate of per diem wages is for each craft, classification, or type of worker needed to execute the contract. In lieu of specifying the rate of wages in the call for bids, and in
1773.2	In lieu of specifying the rate of wages in the call for bids, and in the bid specifications and in the contract itself, the awarding body may refer to copies thereof on file at its principal office, which shall be made available to any interested party on request. In the event that the awarding body chooses to refer to a copy of the prevailing rate of per diem wages on file at its principal office, in lieu of specifying them in each call for bids, and in the bid specifications and in the contract itself, the awarding body shall publish its determination of the prevailing rate of wages at least one time in a newspaper of general circulation during each year, and in such event, the awarding body shall cause a copy thereof to be posted at each job site. **[Added Stats. 1971 Ch. 785 § 2; Amended Stats. 1974 Ch. 876 § 1]**	the bid specifications and in the contract itself, the awarding body may, in the call for bids, bid specifications, and contract, include a statement that copies of the prevailing rate of per diem wages are on file at its principal office, which shall be made available to any interested party on request. The awarding body shall also cause a copy of the determination of the director of the prevailing rate of per diem wages to be posted at each job site. **[Amended Stats. 1992 Ch. 1342 § 8]**

1773.3	An awarding agency whose public works contract falls within the jurisdiction of Section 1777.5 shall, within five days of the award, send a copy of the award to the Division of Apprenticeship Standards. When specifically requested by a local joint apprenticeship committee, the division shall notify the local joint apprenticeship committee regarding all such awards applicable to the joint apprenticeship committee making the request. Within five days of a finding of any discrepancy regarding the ratio of apprentices to journeymen, pursuant to the certificated fixed number of apprentices to journeymen, the awarding agency shall notify the Division of Apprenticeship Standards. **[Added Stats. 1972 Ch. 1399 § 2 as § 3098; Amended Stats. 1974 Ch. 1095 § 1]**	An awarding agency whose public works contract falls within the jurisdiction of Section 1777.5 shall, within five days of the award, send a copy of the award to the Division of Apprenticeship Standards. When specifically requested by a local joint apprenticeship committee, the division shall notify the local joint apprenticeship committee regarding all such awards applicable to the joint apprenticeship committee making the request. Within five days of a finding of any discrepancy regarding the ratio of apprentices to journeymen, pursuant to the certificated fixed number of apprentices to journeymen, the awarding agency shall notify the Division of Apprenticeship Standards. **[Amended Stats. 1978 Ch. 1249 § 6, renumbered from section 3098 to section 1773.3]**

1773.4	Any prospective bidder or his representative, any representative of any craft, classification or type of workman involved, or the awarding body may, within 20 days after commencement of advertising of the call for bids by the awarding body, file with the Director of Industrial Relations a verified petition to review the determination of any such rate or rates upon the ground that they have not been determined in accordance with the provision of Section 1773 of this code. Within two days thereafter, a copy of such petition shall be filed with the awarding body. The petition shall set forth the facts upon which it is based. The Director of Industrial Relations or his authorized representative shall, upon notice to the petitioner, the awarding body and such other persons as he deems proper, including the recognized collective bargaining representatives for the particular crafts, classifications or types of work involved, institute an investigation or hold a hearing. Within 20 days after the filing of such petition, or within such longer period as agreed upon by the director, the awarding body, and all the interested parties, he shall make a determination and transmit the same in writing to the awarding body and to the interested parties. Such determination shall be final and shall be the determination of the awarding body. Upon receipt by it of the notice of the filing of such petition the body awarding the contract or authorizing the public work shall extend the closing date for the submission of bids or the starting of work until five days after the determination of the general	Any prospective bidder or his representative, any representative of any craft, classification or type of workman involved, or the awarding body may, within 20 days after commencement of advertising of the call for bids by the awarding body, file with the Director of Industrial Relations a verified petition to review the determination of any such rate or rates upon the ground that they have not been determined in accordance with the provision of Section 1773 of this code. Within two days thereafter, a copy of such petition shall be filed with the awarding body. The petition shall set forth the facts upon which it is based. The Director of Industrial Relations or his authorized representative shall, upon notice to the petitioner, the awarding body and such other persons as he deems proper, including the recognized collective bargaining representatives for the particular crafts, classifications or types of work involved, institute an investigation or hold a hearing. Within 20 days after the filing of such petition, or within such longer period as agreed upon by the director, the awarding body, and all the interested parties, he shall make a determination and transmit the same in writing to the awarding body and to the interested parties. Such determination shall be final and shall be the determination of the awarding body. Upon receipt by it of the notice of the filing of such petition the body awarding the contract or authorizing the public work shall extend the closing date for the submission of bids or the starting of work until five days after the determination of the general prevailing rates of per diem wages pursuant to this section.

1773.4	prevailing rates of per diem wages pursuant to this section. **[Added Stats. 1953 Ch. 1706 § 4.5; Amended Stats. 1968 Ch. 699 § 2; Amended Stats. 1969 Ch. 301 § 1]**	Upon the filing of any such petition, notice thereof shall be set forth in the next and all subsequent publications by the awarding body of the call for bids. No other notice need be given to bidders by the awarding body by publication or otherwise. The determination of the director shall be included in the contract. **[Amended Stats. 1969 Ch. 301 § 1]**
1773.5	The Director of Industrial Relations may establish rules and regulations for the purpose of carrying out the prevailing wage provisions of this article. **[Added Stats. 1953 Ch. 1706 § 5]**	The Director of Industrial Relations may establish rules and regulations for the purpose of carrying out this chapter, including, but not limited to, the responsibilities and duties of awarding bodies under this chapter. **[Amended Stats. 1989 Ch. 1224 § 5]**
1773.6	Where the body awarding the contract or authorizing the public work is the State Department of Public Works, the Department of General Services, or the State Department of Water Resources or any division thereof, it shall file, quarterly, its determination of general prevailing rates of per diem wages for those localities in which public work is to be performed, in the office of the Director of Industrial Relations, commencing not later than January 10, 1954. Such determination shall be final except as hereinafter provided. If during any quarterly period the Director of Industrial Relations shall determine that there has been a change in any prevailing rate of per diem wages in any locality he shall immediately notify the awarding body of such change and his determination shall be final. Such determination by the Director of Industrial Relations shall not be effective as to any	If during any quarterly period the Director of Industrial Relations shall determine that there has been a change in any prevailing rate of per diem wages in any locality he shall make such change available to the awarding body and his determination shall be final. Such determination by the Director of Industrial Relations shall not be effective as to any contract for which the notice to bidders has been published. **[Amended Stats. 1976 Ch. 281 § 6]**

1773.7	The provisions of Sections 1773.4 and 1773.5 shall not apply to the State Department of Public Works, the Department of General Services, or the State Department of Water Resources or any division thereof. **[Added Stats. 1953 Ch. 1706 § 7;Amended Stats. 1957 Ch. 1932 § 487; Amended Stats. 1963 Ch. 1786 § 69; Repealed Stats. 1976 Ch. 281 § 7]**	The provisions of Section 11250 of the Government Code shall not be applicable to Sections 1773, 1773.4, and 1773.6. **[Added Stats. 1976 Ch. 281 § 8]**
1773.9		(a) The Director of Industrial Relations shall use the methodology set forth in subdivision (b) to determine the general prevailing rate of per diem wages in the locality in which the public work is to be performed. (b) The general prevailing rate of per diem wages includes all of the following: (1) The basic hourly wage rate being paid to a majority of workers engaged in the particular craft, classification, or type of work within the locality and in the nearest labor market area, if a majority of the workers is paid at a single rate. If no single rate is being paid to a majority of the workers, then the single rate being paid to the greatest number of workers, or modal rate, is prevailing. If a modal rate cannot be determined, then the director shall establish an alternative rate, consistent with the methodology for determining the modal rate, by considering the appropriate collective bargaining agreements, federal rates, rates in the nearest labor market area, or other data such as wage survey data.

1773.9		(2) Other employer payments included in per diem wages pursuant to Section 1773.1 and as included as part of the total hourly wage rate from which the basic hourly wage rate was derived. In the event the total hourly wage rate does not include any employer payments, the director shall establish a prevailing employer payment rate by the same procedure set forth in paragraph (1). (3) The rate for holiday and overtime work shall be those rates specified in the collective bargaining agreement when the basic hourly rate is based on a collective bargaining agreement rate. In the event the basic hourly rate is not based on a collective bargaining agreement, the rate for holidays and overtime work, if any, included with the prevailing basic hourly rate of pay shall be prevailing. (c) If the director determines that the general prevailing rate of per diem wages is the rate established by a collective bargaining agreement, and that the collective bargaining agreement contains definite and predetermined changes during its term that will affect the rate adopted, the director shall incorporate those changes into the determination. Predetermined changes that are rescinded prior to their effective date shall not be enforced. **[Added Stats. 1999 Ch. 30 § 4]**

1776 (1st of two)		(a) Each contractor and subcontractor shall keep accurate payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work. Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury, stating both of the following: (1) The information contained in the payroll record is true and correct. (2) The employer has complied with the requirements of Sections 1771, 1811, and 1815 for any work performed by his or her employees on the public works project. (b) The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor on the following basis: (1) A certified copy of an employee's payroll record shall be made available for inspection or furnished to the employee or his or her authorized representative on request. (2) A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations. (3) A certified copy of all payroll records enumerated

		However, a request by the public shall be made through either the body awarding the contract, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. If the requested payroll records have not been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through which the request was made. The public shall not be given access to the records at the principal office of the contractor. (c) The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the division. (d) A contractor or subcontractor shall file a certified copy of the records enumerated in subdivision (a) with the entity that requested the records within 10 days after receipt of a written request. (e) Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement shall be marked or obliterated to prevent disclosure of an individual's name, address, and social security number. The name and address of the contractor awarded the contract or the subcontractor performing the contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal Labor

		obliterated only to prevent disclosure of an individual's name and social security number. A joint labor management committee may maintain an action in a court of competent jurisdiction against an employer who fails to comply with Section 1774. The court may award restitution to an employee for unpaid wages and may award the joint labor management committee reasonable attorney's fee and costs incurred in maintaining the action. An action under this subdivision may not be based on the employer's misclassification of the craft of a worker on its certified payroll records. Nothing in this subdivision limits any other available remedies for a violation of this chapter. (f) The contractor shall inform the body awarding the contract of the location of the records enumerated under subdivision (a), including the street address, city and county, and shall, within five working days, provide a notice of a change of location and address. (g) The contractor or subcontractor shall have 10 days in which to comply subsequent to receipt of a written notice requesting the records enumerated in subdivision (a). In the event that the contractor or subcontractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from progress payments then due. A contractor is not

		due to the failure of a subcontractor to comply with this section. (h) The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. (i) The director shall adopt rules consistent with the California Public Records Act, (Chapter 3.5 (commencing with Section 6250), Division 7, Title 1, Government Code) and the Information Practices Act of 1977, (Title 1.8 (commencing with Section 1798), Part 4, Division 3, Civil Code) governing the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section. **(j) This section shall remain in effect only until January 1, 2003, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2003, deletes or extends that date.** **[Added Stats. 1997 Ch. 757 § 4; Amended Stats. 2001 Ch. 804 § 2; repealed January 1, 2003]**

1776 (2nd of two)	Every contractor and subcontractor shall keep an accurate record showing the name, occupation, and the actual per diem wages paid to each workman employed by him in connection with the public work. The record shall be kept open at all reasonable hours to the inspection of the body awarding the contract and to the Division of Labor Law Enforcement. **[Enacted 1937; Amended Stats. 1949 Ch. 127 § 7]**	(a) Each contractor and subcontractor shall keep an accurate payroll record, showing the name, address, social security number, work classification, and straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work. (b) The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor on the following basis: (1) A certified copy of an employee's payroll record shall be made available for inspection or furnished to the employee or his or her authorized representative on request. (2) A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations. (3) A certified copy of all payroll records enumerated in subdivision (a) shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the body awarding the contract, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. If the requested payroll records have not been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the

		which the request was made. The public shall not be given access to the records at the principal office of the contractor. (c) The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the division. (d) Each contractor shall file a certified copy of the records enumerated in subdivision (a) with the entity that requested the records within 10 days after receipt of a written request. (e) Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement shall be marked or obliterated to prevent disclosure of an individual's name, address, and social security number. The name and address of the contractor awarded the contract or performing the contract shall not be marked or obliterated. Any copy of records made available for inspection by, or furnished to, a joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (Section 175a of Title 29 of the United States Code) shall be marked or obliterated only to prevent disclosure of an individual's social security number. (f) The contractor shall inform the body awarding the contract of the location of the records enumerated under subdivision (a), including the street address, city and county, and shall, within five working days, provide a

		subsequent to receipt of written notice specifying in what respects the contractor must comply with this section. In the event that the contractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from progress payments then due. (h) The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. These stipulations shall fix the responsibility for compliance with this section on the prime contractor. (i) The director shall adopt rules consistent with the California Public Records Act, (Chapter 3.5 (commencing with Section 6250), Division 7, Title 1, Government Code) and the Information Practices Act of 1977, (Title 1.8 (commencing with Section 1798), Part 4, Division 3, Civil Code) governing the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section. **(j) This section shall become operative January 1, 2003.** **[Amended Stats. 1976 Ch. 599 § 1; repealed Stats. 1978 Ch. 1249 § 3; added Stats. 1978 Ch. 1249 § 4; Amended Stats. 1983 Ch. 681 § 1; Amended Stats. 1992 Ch. 1342 § 10 and in 1993, 1997, 1998 and Stats.**

1777.1		(a) Whenever a contractor or subcontractor performing a public works project pursuant to this chapter is found by the Labor Commissioner to be in violation of this chapter with intent to defraud, except Section 1777.5, the contractor or subcontractor or a firm, corporation, partnership, or association in which the contractor or subcontractor has any interest is ineligible for a period of not less than one year or more than three years to do either of the following: (1) Bid on or be awarded a contract for a public works project. (2) Perform work as a subcontractor on a public works project. (b) Whenever a contractor or subcontractor performing a public works project pursuant to this chapter is found by the Labor Commissioner to be in willful violation of this chapter, except Section 1777.5, the contractor or subcontractor or a firm, corporation, partnership, or association in which the contractor or subcontractor has any interest is ineligible for a period up to three years for each second and subsequent violation occurring within three years of a separate and previous willful violation of this chapter to do either of the following: (1) Bid on or be awarded a contract for a public works project. (2) Perform work as a subcontractor on a public works project. (c) A willful violation occurs when the contractor or subcontractor knew or reasonably should have known of his or her obligations under the public works law and deliberately fails or refuses to comply with its

		shall publish and distribute to awarding bodies a list of contractors who are ineligible to bid on or be awarded a public works contract, or to perform work as a subcontractor on a public works project pursuant to this chapter. The list shall contain the name of the contractor, the Contractor's State License Board license number of the contractor, and the effective period of debarment of the contractor. The commissioner shall also place advertisements in construction industry publications targeted to the contractors and subcontractors, chosen by the commissioner, that state the effective period of the debarment and the reason for debarment. The advertisements shall appear one time for each debarment of a contractor in each publication chosen by the commissioner. The debarred contractor or subcontractor shall be liable to the commissioner for the reasonable cost of the advertisements, not to exceed five thousand dollars ($5,000). The amount paid to the commissioner for the advertisements shall be credited against the contractor's or subcontractor's obligation to pay civil fines or penalties for the same willful violation of this chapter. (e) For purposes of this section, "contractor or subcontractor" means a firm, corporation, partnership, or association and its responsible managing officer, as well as any supervisors, managers, and officers found by the Labor Commissioner to be personally and substantially responsible for the willful violation of this chapter. (f) For the purposes of this section, the term "any interest" means an interest in the entity bidding or performing work on the public works project, whether as

		but is not limited to, all instances where the debarred contractor or subcontractor receives payments, whether cash or any other form of compensation, from any entity bidding or performing work on the public works project, or enters into any contracts or agreements with the entity bidding or performing work on the public works project for services performed or to be performed for contracts that have been or will be assigned or sublet, or for vehicles, tools, equipment, or supplies that have been or will be sold, rented, or leased during the period from the initiation of the debarment proceedings until the end of the term of the debarment period. "Any interest" does not include shares held in a publicly traded corporation if the shares were not received as compensation after the initiation of debarment from an entity bidding or performing work on a public works project. (g) For the purposes of this section, the term "entity" is defined as a company, limited liability company, association, partnership, sole proprietorship, limited liability partnership, corporation, business trust, or organization. (h) The Labor Commissioner shall adopt rules and regulations for the administration and enforcement of this section. **[Added Stats. 1989 Ch. 1224 § 10; amended Stats. 1998 Ch. 443 § 1; amended Stats. 2000 Ch. 970 § 1]**

Re: Test Claim 01-TC-28
Clovis Unified School District
Prevailing Wage Rate

Dear Ms. Higashi:

I have received the Response of the Department of Finance ("DOF") dated February 18, 2003, authored by the Attorney General of the State of California, to which I now respond on behalf of the test claimant.

Although none of the objections generated by DOF are included in the statutory exceptions set forth in Government Code Section 17556, the objections stated additionally fail for the following reasons:

A. The Response of the DOF is Incompetent and Should be Excluded

Test claimant objects to the Response of the DOF, in total, as being legally incompetent and move that it be excluded from the record. Title 2, California Code of Regulations, Section 1183.02(d) requires that any:

> "...written response, opposition, or recommendations and supporting documentation shall be signed at the end of the document, under penalty of perjury by an authorized representative of the state agency, with the declaration that it is true and complete to the best of the representative's personal knowledge or information and belief."

The DOF Response does not comply with this essential requirement.

B. Changes in Definition Result in Mandated Activities

DOF, at page 20 of its Response argues:

> "Clovis cites several changes in the PWL but does not expressly claim these changes constitute a mandate. DOF submits that Clovis' failure to argue that these statutory changes constitute a mandate and its failure to cite authority for this proposition constitute a waiver of any claim that they resulted in a mandate and the Commission should dismiss them without further consideration."

Then, at pages 20 through 23, DOG discusses those changes in the PWL.

The test claim, in Section 2, Part "A", at pages 27 through 33 sets forth, in detail, changes in the definition of "public works" after 1974. These changes include:

1. Chapter 962, Statutes of 1980, Section 1, amended Labor Code Section 1720.2 to define "public works" to include, for the first time, construction work performed according to plans, specifications, or criteria furnished by the state or political subdivision, and a lease agreement between the lessor and state or political subdivision is entered into during, or upon completion of the construction work.

2. Chapter 278, Statutes of 1989, Section 1, amended Labor Code Section 1720 to include, for the first time, in the definition of "public works", public transportation demonstration projects authorized pursuant to Section 143 of the Streets and Highways Code.

3. Chapter 220, Statutes of 1999, Section 1, amended Labor Code Section 1720.3 to define "public works" to now include, for the first time "political subdivisions of the state" when hauling refuse from a public works site to an outside location.

4. Chapter 881, Statutes of 2000, Section 1, amended Section 1720 subdivision (a) to expand the definition of "public works" to include, for the first time, "work performed during the design and preconstruction phases of construction including, but not limited to, inspection and land surveying work".

5. Chapter 938, Statutes of 2001, Section 2, amended Labor Code Section 1720 subdivision (a) to expand the definition of "public works" to include,

for the first time, "installation" work done under a public works contract.

Each of these statements in the test claim is followed by a sentence to the effect that "therefore, for the first time, awarding parties must comply with laws pertaining to public works" when (new activity is described).

The "new duties" section of the test claim starts at page 129, where the list of duties is preceded by the paragraph:

> "When contracting with third parties for "public works" as an awarding body for projects pursuant to Labor Code sections 1720, 1720.2 and 1720.3 and Title 8, California Code of Regulations Sections 16000 and 16001, school districts, county offices of education and community colleges are required to:"

It is quite clear then, that the test claim describes, in detail, the changes in the scope of "public works" brought about by post-1974 changes in Labor Code Sections 1720, 1720.2 and 1720.3. Then, the test claims goes on to state that, when contracting with third parties for public works pursuant to Labor Code Sections 1720, 1720.2 and 1720.3, it is required to perform the duties thereafter described.

There is another consequence of the changes in the law not addressed by DOF. There have been five expansions of the definition of a "public work" after 1974, therefore those expanded segments of public works, for the first time, are subject to all prevailing wage laws, both before and after January 1, 1975, whether the performance of those duties is by complying with the general prevailing wage laws, or by way of a Labor Compliance Program.

The DOF response also alleges, as a matter of law, that the test claimant's "failure to argue" the statutory changes is "a waiver of any claim." Typically, the party asserting conclusions of law cite supporting code or case law. Since waivers are not part of the Government Code pertaining to the mandate process, and the commission has excluded itself from most of the provisions of the Administrative Procedures Act, the DOF's assertion of waiver is without legal basis here.

The Response of the DOF in this regard is both factually and legally incorrect.

3. Clovis has Standing to File the Test Claim

DOF next argues, at page 12 of its Response that "...according to DIR, Clovis has not elected to initiate a LCP. This is significant for two reasons. First It means Clovis has

no standing to claim LCP costs. Second, it shows that participation is truly voluntary."

The Government Code defines a "test claim" as "the first claim...filed with the commission alleging that a particular statute or executive order imposes costs mandated by the state".[1] There is no statutory requirement that the test claimant, itself, be burdened with those costs.

Secondly, the nature of a test claim is that the test claimant is alleging costs for itself and for all others similarly situated:

> "This test claim alleges mandated costs subject to reimbursement by the state for school districts, county offices of education, and community college districts to comply with laws pertaining to "public works".[2]

The DOF recognizes the representative capacity of a test claimant:

> "The Clovis School District ("Clovis" or "Claimant") has filed this test claim on behalf of itself and other school districts, county boards of education and community college districts for the costs of enforcing the Prevailing Wage Law ("PWL) on public works projects."[3]

The DOF argument that this fact shows that an LCP (Labor Compliance Program) is truly voluntary actually shows the fallacy of the argument.

Labor Compliance Programs were enacted by Chapter 1224, Statutes of 1989, and are found in Labor Code Sections 1771.5 and 1771.6. Under the law, school districts do have a choice: they have the choice of complying with the general provisions of the prevailing wage laws or of complying with the LCP provisions. They have no discretion to act or not to act, they are required to comply with one or the other. They do not have the choice of doing neither.

Clovis may not have elected to operate an LCP program, but other districts represented by it may have, and Clovis may elect to do so in future years.

---

[1] Government Code Section 17521

[2] Test claim, page 3, lines 20-22

[3] DOF Response, page 1

Therefore, in its representative capacity, test claimant has complied with Government Code Section 17521 by "alleging that a particular statute or executive order imposes costs mandated by the state" In its representative capacity, the test claimant has standing to allege these costs and, by declaration, has sworn that it has or may incur costs mandated by the statutes and code sections cited in excess of $1,000, annually.

4. The DOF Response Presents no other new arguments.

The Director of Industrial Relations ("DIR") and the State Building and Construction Trades Council of California, AFL-CIO, ("SBCTC") have already filed comments with the Commission and the Test Claimant has responded to both, individually, on February 14, 2003. Other than as set forth above, the DOF has presented no new arguments. Therefore, test claimant rebuts the balance of the DOF Response by reference to those prior responses dated February 14, 2003 and by incorporating them here by reference in reply to the Response of the DOF dated February 18, 2003.

CERTIFICATION

I certify by my signature below, under penalty of perjury, that the statements made in this document are true and complete to the best of my own personal knowledge or information and belief.

Sincerely,

Keith B. Petersen

Re: Test Claim 01-TC-28
Clovis Unified School District
Prevailing Wage Rate

Dear Ms. Higashi:

Test Claimants have objected to the Department's submission because it did not include a certification as required by your rules. Enclosed please find that certification. I would note that the rule Test Claimants rely on requires that the certification be in the form of a declaration. Cal. Code Regs., tit. 2, §1183(e)(6). The California Code of Civil Procedure § 2015 defines a declaration under penalty of perjury and requires the inclusion of the location where the declaration was signed. I note that Test Claimants' declaration do not meet this requirement.

We are not raising this somewhat technical issue at this time as a defect to the Test Claim itself. However, should an issue arise as to whether DIR has met the technical requirements of section 1183(e)(6), we will retain the right to raise Test Claimants' error at a later date.

Yours truly,

Anthony Mischel

I am readily familiar with the firm's practice of collecting and processing correspondence for mailing and for shipping via overnight delivery service. Under that practice it would be deposited with the U.S. Postal Service or if an overnight delivery service shipment, deposited in an overnight delivery service pick-up box or office on the same day with postage or fees thereon fully prepaid in the ordinary course of business.

I declare under penalty of perjury under the laws of the State of California that the above is true and correct. Executed on March 28, 2003, at Los Angeles, California.

I. ORIGINAL AND AMENDED TEST CLAIM

The original test claim filed by Clovis Unified School District was received by the Commission on State Mandates on June 28, 2002 and assigned case number CSM 01-TC-28. The purpose of this First Amendment to the Test Claim is to add a statute enacted in 2002 and Executive Orders published since the original test claim was filed.

Part II (Legislative History of the Claim), Section 2 (Legal Requirements After December 31, 1974), Part A (Definition of Public Works) is amended to add the following allegations:

Chapter 868, Statutes of 2002, Section 2, added Labor Code Section 1771.7[1] which

[1] Labor Code Section 1771.7, added by Chapter 868, Statutes of 2002, Section 2:

"(a) An awarding body that chooses to use funds derived from either the Kindergarten-University Public Education Facilities Bond Act of 2002 or the Kindergarten-University Public Education Facilities Bond Act of 2004 for a public works project, shall initiate and enforce, or contract with a third party to initiate and enforce, a labor compliance program, as described in subdivision (b) of Section 1771.5, with respect to that public works project.

(b) This section shall apply to public works that commence on or after April 1, 2003. For purposes of this subdivision, work performed during the design and preconstruction phases of construction, including, but not limited to, inspection and land surveying work, does not constitute the commencement of a public work.

(c) (1) For purposes of this section, if any campus of the California State University chooses to use the funds described in subdivision (a), then the "awarding body" is the Chancellor of the California State University. For purposes of this subdivision, if the chancellor is required by subdivision (a) to initiate and enforce, or to contract with a third party to initiate and enforce, the labor compliance program described in that subdivision, then in addition to the requirements imposed upon an awarding body by subdivision (b) of Section 1771.5, the Chancellor of the California State University shall review the payroll records described in paragraphs (3) and (4) of subdivision (b) of Section 1771.5 on at least a monthly basis to ensure the awarding body's compliance with the labor compliance program.

(2) For purposes of this subdivision, if an awarding body described in subdivision (a) is the University of California or any campus of that university, and that awarding body is required by subdivision (a) to initiate and enforce, or to contract with a third party to initiate and enforce, the labor compliance program described in that subdivision, then in addition to the requirements imposed upon an awarding body by subdivision (b) of Section 1771.5, the payroll records described in paragraphs (3) and (4) of subdivision (b) of Section 1771.5 shall be reviewed on at least a monthly basis to ensure the awarding body's compliance with the labor compliance program.

(d) (1) An awarding body described in subdivision (a) shall make a written finding that the awarding body has initiated and enforced, or has contracted with a third party to initiate and enforce, the labor compliance program described in subdivision (a).

(2) (A) If an awarding body described in subdivision (a) is a school district, the governing body of that district shall transmit to the State Allocation Board, in the manner determined by that board, a copy of the

requires an awarding party which uses funds derived from either the Kindergarten-University Public Education Facilities Bond Act of 2002 or the Kindergarten-University Public Education Facilities Bond Act of 2004 for a public works project, to initiate and enforce, or contract with a third party to initiate and enforce, a labor compliance program (LCP), as described in subdivision (b) of Section 1771.5, with respect to that public works project. Subdivision (b) provides that, for purposes of this subdivision, work performed during the design and preconstruction phases of construction, including, but not limited to, inspection and land surveying work, does not

---

finding described in paragraph (1).

(B) The State Allocation Board may not release the funds described in subdivision (a) to an awarding body that is a school district until the State Allocation Board has received the written finding described in paragraph (1).

(C) If the State Allocation Board conducts a postaward audit procedure with respect to an award of the funds described in subdivision (a) to an awarding body that is a school district, the State Allocation Board shall verify, in the manner determined by that board, that the school district has complied with the requirements of this subdivision.

(3) If an awarding body described in subdivision (a) is a community college district, the Chancellor of the California State University, or the office of the President of the University of California or any campus of the University of California, that awarding body shall transmit, in the manner determined by the Director of the Department of Industrial Relations, a copy of the finding described in paragraph (1) to the director of that department, or the director of any successor agency that is responsible for the oversight of employee wage and employee work hours laws.

(e) Notwithstanding Section 17070.63 of the Education Code, for purposes of this act, the State Allocation Board shall increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts as described in Sections 17072.10 and 17074.10 of the Education Code to accommodate the state's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of the labor compliance program."

constitute the commencement of a public work.

Part II (Legislative History of the Claim), Section 2 (Legal Requirements After December 31, 1974), Part C (Wages - Prevailing Wage Rates) is amended to add the following allegations:

New Labor Code Section 1771.7, subdivision (b), provides that the section shall apply to public works that commence on or after April 1, 2003.

Subdivision (d)(1) requires school districts to make a written finding that they have initiated and enforced, or have contracted with a third party to initiate and enforce, a labor compliance program. Subdivision (d)(2)(A) requires the governing body of a school district to transmit to the State Allocation Board, in the manner determined by that board, a copy of its finding that it has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program. Subdivision (d)(2)(B) provides that the State Allocation Board may not release any funds to a school district until the Board has received the written finding described in Subdivision (d)(1).

Subdivision (d)(2)(C) provides that, if the State Allocation Board conducts a postaward audit procedure with respect to an award of the funds described in subdivision (a) to an awarding body that is a school district, the State Allocation Board shall verify, in the manner determined by that board, that the school district has complied with the requirements of the subdivision. The Office of Public School Construction (OPSC), on behalf of the State Allocation Board, has published and promulgated a document entitled "School Facility Program - Substantial Progress and Expenditure Audit Guide - May

2003" (hereinafter "Audit Guide"), a copy of which is attached hereto as Exhibit 9 and is incorporated herein by reference.

Subdivision (d)(3) requires each community college district to additionally transmit, in the manner determined by the Director of the Department of Industrial Relations, a copy of the finding that it has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program, to the director of that department, or the director of any successor agency that is responsible for the oversight of employee wage and employee work hours laws.

Section 3.9 of the Audit Guide (at page 11 thereof) regulates school facility projects subject to AB 1506[2]. Under Section 3.9, at the time of an OPSC audit, districts must submit:

(1) A copy of the Department of Industrial Relations approved Labor Compliance Program to which the project(s) conformed.

(2) If applicable, a copy of the third party provider contract.

Under Section 3.9, at the time of an OPSC audit, districts must also be prepared to submit, upon request, the following:

(1) All bid invitations and contracts that must contain language alluding to Labor Code Sections 170 (sic - 1770) through 1780 compliance and verification.

(2) Evidence that a pre-job conference was conducted with the contractor and

[2] AB 1506 was chaptered as Chapter 868, Statutes of 2002. Section 2 of that chaptered bill enacted Labor Code Section 1771.7.

subcontractor and that the district enforced the requirements as set forth in Labor Code Sections 1770 through 1780.

(3) Evidence of weekly submittals of certified copies of payroll records for all contractors and subcontractors.

Under the test claim legislation, Section 1771.7 requires a district to either contract with an outside entity, or use its employees, to implement the Labor Compliance Program. Under Section 3.9 of the Audit Guide, if a district elects to use its own employees, it must meet the requirements of the law and the contract and, in the State Facility Program audit, provide the following:

(1) The name of the district employee performing the Labor Compliance Program duties.

(2) The salary and benefits of the employee including transportation costs.

(3) A specific breakdown of hours spent by project subject to the Labor Compliance Program requirements.

Chapter 868, Statutes of 2002, Section 3 (uncodified), provides that the act shall not become operative unless at least one of the following conditions is met:

(1) The Kindergarten-University Public Education Facilities Bond Act of 2002 is approved by the voters at the November 5, 2002, statewide general election.

(2) The Kindergarten-University Public Education Facilities Bond Act of 2004 is approved by the voters at the March 2004, statewide direct primary election.

(3) The Kindergarten-University Public Education Facilities Bond Act of 2004 is

approved by the voters at the November 2004, statewide general election. The section became operative when the voters approved The Kindergarten-University Public Education Facilities Bond Act at the November 2002, statewide general election.

By letter dated January 31, 2003, the Department of Industrial Relations contacted all school districts and enclosed an AB 1506 Labor Compliance Program Guidebook (hereinafter, the "Program Guidebook") developed by private and public sector experts in school facilities construction from California school districts, the Office of Public School Construction of the California Department of General Services, the Coalition for Adequate School Housing, labor compliance program consultants and the Department of Industrial Relations. Copies of the letter and program guidebook are attached hereto as Exhibit 10 and are incorporated herein by reference. The guidebook contains, in Appendix 1, a suggested application format to be used when applying for approval of a district's labor compliance program. DIR encourages districts to complete the form and to adopt the labor compliance program manual of the Antioch Unified School District, also enclosed. A copy of the Labor Compliance Program Manual of the Antioch Unified School District is attached hereto as Exhibit 11 and is incorporated herein by reference.

Chapter 2 of the "Program Guidebook" (commencing at page 4) sets forth mandatory requirements for approval of a labor compliance program (hereinafter, "LCP"). To be approved, a section 1771.7 "LCP" must include the following:

1. All bid invitations and public works contracts issued by the district shall contain appropriate language about the requirements of the public works chapter

of the California Labor Code, comprising labor code sections 1720-1861.

2. A pre-job conference shall be conducted with the contractor or subcontractors to discuss federal and state labor law requirements applicable to the contract.

3. Project contractors and subcontractors shall maintain and furnish to the "LCP", at a designated time, a certified copy of each weekly payroll with a statement of compliance signed under penalty of perjury.

4. The "LCP" shall review and, if appropriate, audit payroll records to verify compliance with the public works chapter of the labor code.

5. The "LCP" shall require the district to withhold contract payments when payroll records are delinquent or inadequate.

6. The "LCP" shall require the district to withhold contract payments equal to the amount of underpayment and applicable penalties when the "LCP" establishes that underpayment occurred after an investigation.

"LCP" officials are to complete the Appendix 1 application, adopt and attach the model program (The Antioch Plan), and send it to the director of the California Department of Industrial Relations ("DIR"), along with the items set forth above from Chapter 2.

Chapter 3 of the "Program Guidebook" (commencing at page 5), affirms that an awarding body of a DIR-certified "LCP" may withhold contract payments for certain violations of the labor code and collect penalties against a contractor when it is established through an investigation that there has been an underpayment of wages.

The awarding body may also withhold contract payments when payroll records are delinquent or inadequate.

Chapter 4 of the "Program Guidebook" (commencing at page 6) sets forth how an "LCP" shall enforce the law:

A. Conducting investigations by:

1. Monitoring certified payroll records (CPRs), investigating complaints from workers, and monitoring agencies and contractors.

2. Preparing audits and findings.

B. Obtaining approval of recommended forfeitures from the labor commissioner.

C. Issuing and serving notices of withholding of contract payments (NWCPs).

D. Defending NWCPs in administrative review proceedings and in court.

E. Collecting and disbursing wages and penalties.

A form titled Notice of Withholding of Contract Payments (NWCP) is attached to the "Program Guidebook" in Appendix 2 and is to be completed by the "LCP" and served on the contractor, any affected subcontractor, and any bonding company issuing a bond securing payment of wages of the public works project when the "LCP" determines that it will withhold contract payments for alleged violations.

A form titled Notice of Transmittal is attached to the "Program Guidebook" in Appendix 3 and must be completed and timely mailed by the "LCP" to the DIR to notify the DIR of its statutory obligation to begin the administrative review process and provide

a contractor requesting review a hearing.

A form titled Notice of Opportunity to Review Evidence Pursuant to Labor Code Section 1742(b) is attached to the "Program Guidebook" in Appendix 4 and is to be completed by the "LCP" and mailed to the party requesting review once that the request has been received by the "LCP". The form satisfies the statutory duty of the "LCP" to let the contractor and subcontractor know what materials are contained in the "LCP's" investigative file and support the issuance of the assessment; and advises the contractor and/or subcontractor that the materials will be made available.

Chapter 5 of the "Program Guidebook" (commencing at page 8) sets forth labor compliance program components. A description of the requirements prior to construction includes: advertising for the bid/construction contract, the pre-job conference, necessary payroll records, a program for the orderly review of payroll records and for audits, a prescribed routine for withholding penalties, forfeitures and underpayment of wages, a provision that contract payments will not be made when payroll records are delinquent or inadequate, maintaining a copy of the Public Works Contract Award Form (DAS 140) in the project file, and requiring proof of general liability and workers' compensation insurance as part of the permanent project file. Documentation required during construction include: certified payroll records being submitted at the times designated in the contract or within 10 days of any request by the awarding body, Statements of Employer Payment (PW26), payroll rate verifications, job site monitoring (including both workforce documentation and random onsite inspections), and close-out documentation

(including final payroll and final release of funds).

Chapter 6 sets forth specifics for labor compliance investigations:

1. The "LCP" must investigate worker complaints of underpayment of prevailing wage rates. The major components and tasks related to this responsibility are as follows:

(a) Gathering supporting documents from all available sources and analyzing them for authenticity.

(b) Conducting a complete certified payroll record and/or project audit. This includes reviewing the CPRs for errors, inconsistencies, discrepancies, falsification, misclassification, under-reporting, and any other omissions that render the records inaccurate when by comparing the inspector of records daily log with all available records.

2. On an as-needed basis according to the circumstances and issues that may arise:

(a) Calculating back wages and penalties.

(b) Reviewing findings with the contractor/subcontractor.

(c) Writing a complete summary of investigation with a statement of findings and recommended action for submission to the Department of Industrial Relations' Division of Labor Standards Enforcement for approval of withholdings.

(d) Conducting settlement negotiations.

(e) Testifying on behalf of the school district in appeal hearings and in litigation.

(f) Attending pre-bid and job-start meetings and monitor active construction projects.

(g) Interviewing workers to validate complaints.

Chapter 9 of the "Program Guidebook" (commencing at page 16) sets forth guidelines for audits, investigative and enforcement responsibilities. Audits can be conducted on a random or as-needed basis. Audits should be a comparison of certified payroll records to source documents such as front and back copies of canceled checks, time cards, copies of pay check stubs, payroll registers, personnel sign in sheets, daily logs and any other document which authenticates or corroborates that which has been reported. Investigative activities are the duties and tasks engaged in to verify the payment of prevailing wage rates upon receipt of a complaint or in conducting an audit of records. Before filing a Notice of Withholding of Contract Payments, an LCP must demonstrate that a thorough and objective investigation took place. Enforcement responsibility is the assessment of penalties and the withholding of back wages owed to workers. The Chapter also sets forth an outline of critical steps for document collection to be routinely applied in every prevailing wage violation case and particularly for those cases that lead to the filing of a Notice of Withholding of Contract Payments.

/

/

Part III (Statement of the Claim), Section 1 (Costs Mandated by the State), (commencing at page 128) is amended and augmented as follows:

PART III. STATEMENT OF THE CLAIM

SECTION 1. COSTS MANDATED BY THE STATE

The Statutes, Labor and Public Contract Code Sections, ~~and~~ California Code of Regulations and Executive Orders referenced in this test claim result in school districts incurring costs mandated by the state, as defined in Government Code Section 17514[3], by creating new state-mandated duties related to the uniquely governmental function of providing public services and for public works.

The new duties mandated by the state upon school districts, county offices of education and community college districts require state reimbursement of the direct and indirect costs of labor, materials and supplies, data processing services and software, contracted services and consultants, equipment and capital assets, staff and student training and travel to implement the following activities:

1) No modification required.

2) No modification required.

---

[3]Government Code Section 17514, added by Chapter 1459, Statutes of 1984, Section 1:

> " 'Costs mandated by the state' means any increased costs which a local agency or school district is required to incur after July 1, 1980, as a result of any statute enacted on or after January 1, 1975, or any executive order implementing any statute enacted on or after January 1, 1975, which mandates a new program or higher level of service of an existing program within the meaning of Section 6 of Article XIIIB of the California Constitution."

3) No modification required.

4) No modification required.

5) No modification required.

6) No modification required.

7) No modification required.

8) No modification required.

9) No modification required.

10) No modification required.

10.2 Pursuant to Labor Code Sections 1771.5 and 1771.7, paying the reasonable fees of a third party when contracting with that third party to initiate and enforce a Labor Compliance Program.

10.3) To oversee compliance with all of the requirements of Labor Code Sections 1771.5 and 1771.7 (for works commencing or after April 1, 2003), Title 8, California Code of Regulations, Section 16425 through 16439 and Chapters 2, 3 and 5 of the "Program Guidebook" when contracting with a third party to initiate and enforce a Labor Compliance Program. This may include, but is not necessarily limited to, the withholding of contract payments and collecting and disbursing penalties and wages at the direction of the third party LCP.

10.4) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (a), when seeking approval of an LCP, submitting evidence of

its ability to operate its LCP and offering information on the following factors:

(1) Experience and training of the awarding body's personnel on public works labor compliance issues;

(2) The average number of public works contracts the awarding body annually administers;

(3) Whether the LCP is a joint or cooperative venture among awarding bodies, and how the resources and expanded responsibilities of the LCP compare to the awarding bodies involved;

(4) The awarding body's record of taking cognizance of Labor Code violations and of withholding in the preceding five years;

(5) The availability of legal support for the LCP;

(6) The availability and quality of a manual outlining the responsibilities and procedures of the LCP to the awarding body; and

(7) The method by which the awarding body will transmit notices to the Labor Commissioner of willful violations as defined in Labor Code Section 1777.1(d).

10.5) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (b), completing a request for approval deemed by the Director to be deficient, or making other corrections as required, and resubmitting the request for approval of a Labor Compliance Program.

10.6) Pursuant to Title 8, California Code of Regulations, Section16426, subdivision (c), submitting a request for an extension of an LCP at least 30 days prior to the anniversary date of the initial approval.

10.7) Pursuant to Labor Code Section 1771.7, subdivision (d)(1), making a written finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in subdivision (b) of Section 1771.5. Pursuant to subdivision (d)(2)(A), transmitting to the State Allocation Board, in the manner determined by that board, a copy of the finding that it has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in subdivision (b) of Section 1771.5.

10.8) Pursuant to Labor Code Section 1771.7, subdivision (d)(3), for community colleges to transmit, in the manner determined by the Director of the Department of Industrial Relations, a copy of the finding that it has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in subdivision (b) of Section 1771.5, to the director of that department, or the director of any successor agency that is responsible for the oversight of employee wage and employee work hours laws.

11) To comply with all of the requirements of a Labor Compliance Program when initiated and enforced by the district, pursuant to Labor Code

Sections 1771.5 or 1771.7 (for works commencing or after April 1, 2003), Title 8, California Code of Regulations, Sections 16425 through 16439 and Chapters 2, 3 and 5 of the "Program Guidebook". These requirements include:

a) All bid invitations and public works contracts shall contain appropriate language concerning the requirements of the prevailing wage laws comprising labor code sections 1720 through 1861;

b) A prejob conference shall be conducted with the contractor and the subcontractors to discuss federal and state labor requirements applicable to the contract;

c) Project contractors and subcontractors shall maintain and furnish, at a designated time, a certified copy of each weekly payroll containing a statement of compliance signed under penalty of perjury;

d) The district shall review, and, if appropriate, audit payroll records to verify compliance with prevailing wage laws. Pursuant to the "Program Guidebook", Chapter 4 Parts (A) and (B), these investigations shall be conducted by monitoring certified payroll records (CPRs), investigating complaints from workers, and monitoring agencies and contractors. Upon the conclusion of the audit, preparing audits and findings and obtaining the approval of recommended forfeitures from the labor commissioner.

e) The district shall withhold contract payments when payroll records are delinquent or inadequate; and

f) The district shall withhold contract payments equal to the amount of underpayments and applicable penalties when, after investigation, it is established that underpayment has occurred. Pursuant to Chapter 3 of the "Program Guidebook", contract payments shall also be withheld when payroll records are delinquent or inadequate.

g Pursuant to Chapter 4 of the "Program Guidebook", serving on the contractor, any affected subcontractor, and any bonding company issuing a bond securing the payment of wages, a Notice of Withholding of Contract Payments (NWCR) using the form attached in the Guidebook in Appendix 2.

h) Pursuant to Chapter 4 of the "Program Guidebook", mailing a notice to the DIR on a form titled Notice of Transmittal as found in Appendix 3 in the Guidebook.

i) Pursuant to Chapter 4 of the "Program Guidebook", when a party requests review, mailing a form entitled "Notice of Opportunity to Review Evidence" as found in Appendix 4, in the Guidebook.

12) To provide contractors and subcontractors, bonding companies and sureties with Notice of Withholding of Contract Payments, using the form found in Appendix 2 of the "Program Guidebook", when minimum wage law

violations are discovered by the district, pursuant to Labor Code Section 1771.6 and Title 8, California Code of Regulations, Section 17220. The notice shall be in writing and include the following information:

a) A description of the nature of the violation and basis for the notice.

b) The amount of wages, penalties and forfeitures due, including a specification of amounts that have been or will be withheld from available contract payments, as well as all additional amounts that the enforcing agency has determined are due, including the amount of any liquidated damages that potentially may be awarded under Labor Code Section 1742.1 using the form attached to the "Program Guidebook" as Appendix 4.

c) The name and address of the office to whom a Request for Review may be sent.

d) Information on the procedures for obtaining review of an Assessment or a Notice of Withholding of Contract Payments.

e) Notice of Opportunity to request a settlement meeting under Section 17221.

f) A statement appearing in bold or another type of face, that makes it stand out from other text, to the effect that failure to submit a timely request for review will result in a final order binding on the

contractor and subcontractor, and on the bonding company.

Completing and mailing a Notice of Transmittal, as found in Appendix 3 of the "Program Guidebook", to the DIR to begin the administrative review process.

12.1) Pursuant to Chapter 4, paragraph iv(D) of the "Program Guidebook" and Labor Code Sections 1742 and 1743, defending Notices to Withhold Contract Payments in administrative review proceedings and in court.

12.2) Pursuant to Chapter 6 of the "Program Guidebook", when investigating worker complaints of underpayment of prevailing wage rates:

(a) Gathering supporting documents from all available sources and analyzing them for authenticity.

(b) Conducting a complete certified payroll record and/or project audit. This includes reviewing the CPRs for errors, inconsistencies, discrepancies, falsification, misclassification, under-reporting, and any other omissions that render the records inaccurate where needed by comparing the inspector of records daily log with all available records.

12.3 Pursuant to Chapter 6 of the "Program Guidebook", conducting investigations on an as-needed basis by:

(a) Calculating back wages and penalties.

(b) Reviewing findings with the contractor/subcontractor.

(c) Writing a complete summary of the investigation with a statement of

findings and recommended action for submission to the Department of Industrial Relations' Division of Labor Standards Enforcement for approval of withholdings.

(d) Conducting settlement negotiations.

(e) Testifying on behalf of the school district in appeal hearings and in litigation.

(f) Attending pre-bid and job-start meetings and monitoring active construction projects.

(g) Interviewing workers to validate complaints.

12.4) Pursuant to Chapter 9 of the "Program Guidebook", conducting audits on a random or as-needed basis to include: comparing certified payroll records to source documents such as front and back copies of canceled checks, time cards, copies of pay check stubs, payroll registers, personnel sign in sheets, daily logs and any other document which authenticates or corroborates that which has been reported.

12.5) Pursuant to Chapter 9 of the "Program Guidebook", preparing cases and documentation to include:

(a) Copies of workers' complaints;

(b) Copies of all correspondence to the contractor;

(c) Certified payroll records;

(d) Inspector's daily log;

(e) Correct prevailing wage determination and applicable increases;

(f) Scope of work for trade classifications used;

(g) Tabulation of bids;

(h) Notice to proceed;

(i) Notice of Completion (if applicable);

(j) Surety company information;

(k) Contractor's previous record of violations (if applicable);

(l) The Notice of Withholding of Contract Payments (if applicable);

(m) Release of Notice of Withholding of Contract Payments (if applicable); and

(o) Memo(s) to file

12.6) Subdivision (d)(2)(C) of Labor Code of Section 1771.7 provides that the State Allocation Board may conduct a postaward audit procedure with respect to an award of funds to a school district. Pursuant to Section 3.9 of the Audit Guide, in the event of such an audit, submitting:

(1) A copy of the Department of Industrial Relations approved Labor Compliance Program to which the project(s) conformed.

(2) If applicable, a copy of the third party provider contract.

Pursuant to Section 3.9, at the time of an OPSC audit, districts must also be prepared to submit, upon request, the following:

(1) All bid invitations and contracts that must contain language alluding

to Labor Code Sections 1770 through 1780 compliance and verification.

(2) Evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set forth in Labor Code Sections 1770 through 1780.

(3) Evidence of weekly submittals of certified copies of payrolls for all contractors and subcontractors.

Pursuant to Section 3.9, if a district elects to use its own employees for its LCP, it must also provide the following:

(1) The name of the district employee performing the Labor Compliance Program duties.

(2) The salary and benefits of the employee including transportation costs.

(3) A specific breakdown of hours spent by project subject to the Labor Compliance Program requirements.

13) No modification required.

14) No modification required.

15) No modification required.

16) No modification required.

17) No modification required.

18) No modification required.

19) No modification required.

20) No modification required.

21) No modification required.

Part III (Statement of the Claim), Section 3 (Funding Provided for the Mandated Program), is amended to add the following allegations:

Subdivision (e) of new Labor Code Section 1771.7 provides that, notwithstanding Section 17070.63 of the Education Code, for purposes of the act, the State Allocation Board shall increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts as described in Sections 17072.10 and 17074.10 of the Education Code to accommodate the state's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of a labor compliance program. To the extent that funds are appropriated, allocated and received, and relevant to the costs mandated by the state subject to reimbursement, they would reduce the amount of reimbursable costs occasioned by Section 1771.7 and the Executive Orders cited herein.

Part IV (Additional Claim Requirements) is amended as follows:

PART IV. ADDITIONAL CLAIM REQUIREMENTS

The following elements of this claim are provided pursuant to Section 1183, Title 2, California Code of Regulations:

Exhibit 1: No modification required

Exhibit 2: No modification required

Exhibit 3: No modification required

Exhibit 4: No modification required

Exhibit 5: No modification required

First Amendment To
Prevailing Wage Rates

I, William McGuire, Associate Superintendent, Business Services, Clovis Unified School District, refer to my declaration (submitted as Bill McGuire) dated June 24, 2002 filed with test claim 01-TC-28, and incorporate it herein by reference. In addition, I make the following second declaration and statement.

In my capacity as Associate Superintendent Business Services, I am responsible for the award and implementation of public works contracts. I am familiar with the provisions and requirements of the Labor and Public Contract Code Sections and the Title 8 California Code of Regulations enumerated above. I am also familiar with the provisions and requirements of the following three new executive orders:

School Facility Program
Substantial Progress and Expenditure
Audit Guide May 2003
Prepared by the Office of
Public School Construction

AB 1506 Labor Compliance Program Guidebook - February 2003
Prepared by the Division of Labor Standards Enforcement

Antioch Unified School District
Labor Compliance Program - January 17, 2003

These new statutes, code sections and executive orders require the Clovis Unified School District to:

A) Pursuant to Labor Code Sections 1771.5 and 1771.7, paying the reasonable fees of a third party when contracting with that third party to initiate and enforce a Labor Compliance Program.

B) To oversee compliance with all of the requirements of Labor Code Sections 1771.5 and 1771.7 (for works commencing or after April 1, 2003), Title 8, California Code of Regulations, Section 16425 through 16439 and Chapters 2, 3 and 5 of the "Program Guidebook" when contracting with a third party to initiate and enforce a Labor Compliance Program. This may include, but is not necessarily limited to, the withholding of contract payments and collecting and disbursing penalties and wages at the direction of the third party LCP.

C) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (a), when seeking approval of an LCP, submitting evidence of the district's ability to operate an LCP.

D) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (b), completing a request for approval deemed by the Director to be deficient, or making other corrections as required, and resubmitting the request for approval

of a Labor Compliance Program.

E) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (c), submitting a request for an extension of an LCP at least 30 days prior to the anniversary date of the initial approval.

F) Pursuant to Labor Code Section 1771.7, subdivision (d)(1), making a written finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in subdivision (b) of Section 1771.5.

G) Pursuant to Labor Code Section 1771.7, subdivision (d)(2)(A), transmitting to the State Allocation Board, in the manner determined by that board, a copy of the finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in subdivision (b) of Section 1771.5.

H) (Intentionally Omitted)

I) Pursuant to Labor Code Section 1771.7 (for works commencing on or after April 1, 2003), Title 8, California Code of Regulations, Section 16425 through 16439 and Chapters 2, 3 and 5 of the "Program Guidebook", complying with all of the requirements of a Labor Compliance Program, when initiated and enforced by the district.

J) Pursuant to the "Program Guidebook", Chapter 4 Parts (A) and (B), reviewing and, if appropriate, auditing payroll records to verify compliance with prevailing

wage laws by monitoring certified payroll records (CPRs), investigating complaints from workers, and monitoring agencies and contractors. Upon the conclusion of the audit, preparing audits and findings and obtaining the approval of recommended forfeitures from the labor commissioner.

K) Pursuant to the "Program Guidebook", Chapter 3, withholding contract payments when payroll records are delinquent or inadequate; and withholding contract payments equal to the amount of underpayments and applicable penalties when, after investigation, it is established that underpayment has occurred.

L) Pursuant to Chapter 4 of the "Program Guidebook", serving on the contractor, any affected subcontractor, and any bonding company issuing a bond securing the payment of wages, a Notice of Withholding of Contract Payments (NWCR) using the form attached in the Guidebook as Appendix 2.

M) Pursuant to Chapter 4 of the "Program Guidebook", when mailing an NWCR, also mailing a notice to the DIR on a form titled Notice of Transmittal as found in the Guidebook as Appendix 3.

N) Pursuant to Chapter 4 of the "Program Guidebook", when a party requests a review after receiving an NWCR, mailing a form entitled "Notice of Opportunity to Review Evidence" as found in the Guidebook as Appendix 4.

O) Pursuant to Chapter 4, paragraph iv (D) of the "Program Guidebook", defending Notices to withhold Contract Payments in administrative review proceedings and in court.

P) Pursuant to Chapter 6 of the "Program Guidebook", investigating worker complaints of underpayment of prevailing wage rates.

Q) Pursuant to Chapter 6 of the "Program Guidebook", conducting investigations on an as-needed basis.

R) Pursuant to Chapter 9 of the "Program Guidebook", conducting audits on a random or as-needed basis.

S) Pursuant to Chapter 9 of the "Program Guidebook", preparing cases and documenting files.

T) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, submitting a copy of the Department of Industrial Relations approved Labor Compliance Program to which the project(s) conformed or, if applicable, a copy of the third party provider contract.

U) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, upon request, submitting all bid invitations and contracts that must contain language alluding to Labor Code Sections 1770 through 1780 compliance and verification; evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set forth in Labor Code Sections 1770 through 1780; and evidence of weekly submittals of certified copies of payrolls for all contractors and subcontractors.

V) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, when a district uses its own employees for an LCP, providing the name of the

district employee(s) performing the Labor Compliance Program duties; the salary and benefits of the employee, including transportation costs, and a specific breakdown of hours spent by project subject to the Labor Compliance Program requirements.

To the extent that Clovis Unified School District commences a public works project subject to Labor Code Section 1771.7, it is estimated that Clovis Unified School District will incur in excess of $1,000, annually, in staffing and other costs to implement these new duties mandated by the state for which the district will not be reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement.

The foregoing facts are known to me personally and, if so required, I could testify to the statements made herein. I hereby declare under penalty of perjury that the foregoing is true and correct except where stated upon information and belief and, where so stated, I declare that I believe them to be true.

EXECUTED this 21 day of July, 2003, at Clovis, California.

William McGuire
Associate Superintendent, Business Services
Clovis Unified School District

I, Thomas J. Donner, Executive Vice President, Business and Administration, Santa Monica Community College District, refer to my declaration dated June 24, 2002 filed with test claim 01-TC-28, and incorporate it herein by reference. In addition, I make the following second declaration and statement.

In my capacity as Executive Vice President, Business and Administration, I am responsible for the award and implementation of public works contracts. I am familiar with the provisions and requirements of the Labor and Public Contract Code Sections and the Title 8 California Code of Regulations enumerated above. I am also familiar with the provisions and requirements of the following three new executive orders:

School Facility Program
Substantial Progress and Expenditure
Audit Guide May 2003
Prepared by the Office of
Public School Construction

AB 1506 Labor Compliance Program Guidebook - February 2003
Prepared by the Division of Labor Standards Enforcement

Antioch Unified School District
Labor Compliance Program - January 17, 2003

These new statutes, code sections and executive orders require the Santa Monica Community College District to:

A) Pursuant to Labor Code Sections 1771.5 and 1771.7, paying the reasonable fees of a third party when contracting with that third party to initiate and enforce a Labor Compliance Program.

B) To oversee compliance with all of the requirements of Labor Code Sections 1771.5 and 1771.7 (for works commencing or after April 1, 2003), Title 8, California Code of Regulations, Section 16425 through 16439 and Chapters 2, 3 and 5 of the "Program Guidebook" when contracting with a third party to initiate and enforce a Labor Compliance Program. This may include, but is not necessarily limited to, the withholding of contract payments and collecting and disbursing penalties and wages at the direction of the third party LCP.

C) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (a), when seeking approval of an LCP, submitting evidence of the district's ability to operate an LCP.

D) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (b), completing a request for approval deemed by the Director to be deficient, or making other corrections as required, and resubmitting the request for approval

of a Labor Compliance Program.

E) Pursuant to Title 8, California Code of Regulations, Section 16426, subdivision (c), submitting a request for an extension of an LCP at least 30 days prior to the anniversary date of the initial approval.

F) Pursuant to Labor Code Section 1771.7, subdivision (d)(1), making a written finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in subdivision (b) of Section 1771.5.

G) Pursuant to Labor Code Section 1771.7, subdivision (d)(2)(A), transmitting to the State Allocation Board, in the manner determined by that board, a copy of the finding that the district has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in subdivision (b) of Section 1771.5.

H) Pursuant to Labor Code Section 1771.7, subdivision (d)(3), for community college districts to additionally transmit to, and in the manner determined by, the Director of the Department of Industrial Relations, a copy of the finding that it has initiated and enforced, or has contracted with a third party to initiate and enforce, a labor compliance program as described in subdivision (b) of Section 1771.5.

I) Pursuant to Labor Code Section 1771.7 (for works commencing on or after April 1, 2003), Title 8, California Code of Regulations, Section 16425 through 16439 and Chapters 2, 3 and 5 of the "Program Guidebook", complying with all of the

requirements of a Labor Compliance Program, when initiated and enforced by the district.

J) Pursuant to the "Program Guidebook", Chapter 4 Parts (A) and (B), reviewing and, if appropriate, auditing payroll records to verify compliance with prevailing wage laws by monitoring certified payroll records (CPRs), investigating complaints from workers, and monitoring agencies and contractors. Upon the conclusion of the audit, preparing audits and findings and obtaining the approval of recommended forfeitures from the labor commissioner.

K) Pursuant to the "Program Guidebook", Chapter 3, withholding contract payments when payroll records are delinquent or inadequate; and withholding contract payments equal to the amount of underpayments and applicable penalties when, after investigation, it is established that underpayment has occurred.

L) Pursuant to Chapter 4 of the "Program Guidebook", serving on the contractor, any affected subcontractor, and any bonding company issuing a bond securing the payment of wages, a Notice of Withholding of Contract Payments (NWCR) using the form attached in the Guidebook as Appendix 2.

M) Pursuant to Chapter 4 of the "Program Guidebook", when mailing an NWCR, also mailing a notice to the DIR on a form titled Notice of Transmittal as found in the Guidebook as Appendix 3.

N) Pursuant to Chapter 4 of the "Program Guidebook", when a party requests a review after receiving an NWCR, mailing a form entitled "Notice of Opportunity to

Review Evidence" as found in the Guidebook as Appendix 4.

O) Pursuant to Chapter 4, paragraph iv (D) of the "Program Guidebook", defending Notices to withhold Contract Payments in administrative review proceedings and in court.

P) Pursuant to Chapter 6 of the "Program Guidebook", investigating worker complaints of underpayment of prevailing wage rates.

Q) Pursuant to Chapter 6 of the "Program Guidebook", conducting investigations on an as-needed basis.

R) Pursuant to Chapter 9 of the "Program Guidebook", conducting audits on a random or as-needed basis.

S) Pursuant to Chapter 9 of the "Program Guidebook", preparing cases and documenting files.

T) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, submitting a copy of the Department of Industrial Relations approved Labor Compliance Program to which the project(s) conformed or, if applicable, a copy of the third party provider contract.

U) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, upon request, submitting all bid invitations and contracts that must contain language alluding to Labor Code Sections 1770 through 1780 compliance and verification; evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as

set forth in Labor Code Sections 1770 through 1780; and evidence of weekly submittals of certified copies of payrolls for all contractors and subcontractors.

V) Pursuant to Section 3.9 of the Audit Guide, in the event of an audit of the district, when a district uses its own employees for an LCP, providing the name of the district employee(s) performing the Labor Compliance Program duties; the salary and benefits of the employee, including transportation costs, and a specific breakdown of hours spent by project subject to the Labor Compliance Program requirements.

To the extent that Santa Monica Community College District commences a public works project subject to Labor Code Section 1771.7, it is estimated that the district will incur, in excess of $1,000, annually, in staffing and other costs to implement these new duties mandated by the state for which the district will not be reimbursed by any federal, state, or local government agency, and for which it cannot otherwise obtain reimbursement.

The foregoing facts are known to me personally and, if so required, I could testify to the statements made herein. I hereby declare under penalty of perjury that the foregoing is true and correct except where stated upon information and belief and, where so stated, I declare that I believe them to be true.

EXECUTED this 23 day of July, 2003, at Santa Monica, California.

Thomas J. Donner
Executive Vice President Business and Administration
Santa Monica Community College District

CHAPTER 868, STAUTES OF 2002

SCHOOLS AND SCHOOL DISTRICTS—PUBLIC WORKS PROJECTS—WAGES

CHAPTER 868

A.B. No. 1506

AN ACT to add Section 1771.7 to the Labor Code, relating to public works.

[Filed with Secretary of State September 26, 2002.]

LEGISLATIVE COUNSEL'S DIGEST

AB 1506, Wesson. Public works.

Existing law generally requires the payment of the general prevailing rate of per diem wages for public works projects costing over $1,000, unless the awarding body elects to initiate and enforce a labor compliance program, as defined, for every public works project under the authority of that awarding body.

This bill would require an awarding body that chooses to use funds from either the Kindergarten–University Public Education Facilities Bond Act of 2002 or the Kindergarten–University Public Education Facilities Bond Act of 2004 for a public works project to initiate and enforce, or contract with a 3rd party to initiate and enforce, a labor compliance program for that public works project. The bill would provide that the labor compliance law applies to a public works project that commences, as provided, on or after April 1, 2003.

This bill would also provide that, if any campus of the California State University chooses to use these funds and is required to implement a labor compliance program as provided, the "awarding body" for the purposes of this bill is the Chancellor of the California State University, in which case the Chancellor of the California State University would be required to review certain payroll records on at least a monthly basis, as provided. This bill would also require the review of similar payroll records on at least a monthly basis if any campus of the University of California is required to implement a labor compliance program under the bill. This bill would also require awarding bodies to make a written finding that the body has compiled with this bill, and require the State Allocation Board or the Director of the Department of Industrial Relations, as applicable, to verify that this written finding has been made.

This bill would not become operative unless either the Kindergarten–University Public Education Facilities Bond Act of 2002 or the Kindergarten–University Public Education Facilities Bond Act of 2004 is approved by the voters.

This bill would also state legislative findings and declarations regarding the bill's intent.

The people of the State of California do enact as follows:

SECTION 1. In enacting this act, the Legislature finds and declares all of the following:

(a) Payment of the prevailing rate of per diem wages to workers employed on public works is necessary to attract the most skilled workers for the project and to ensure that work of the highest quality is performed on these projects.

(b) Public works projects should never undermine the wage base in a community and requiring that workers on public works projects be paid the prevailing rate of per diem wages ensures that the wage base is not lowered.

(c) It is a matter of statewide concern that every school district in California pay the prevailing rate of per diem wages to workers employed on public works undertaken by those school districts.

(d) Therefore, it is the intent of the Legislature in enacting this act that every school district in California pay the prevailing rate of per diem wages to workers employed on public works undertaken by these school districts.

(e) It is the further intent of the Legislature to preserve the constitutional autonomy of the University of California, as described in Section 9 of Article IX of the California Constitution, by providing that this act apply to that university only to the extent that the university chooses to use the funds described in this act.

SEC. 2. Section 1771.7 is added to the Labor Code, to read:

1771.7. (a) An awarding body that chooses to use funds derived from either the Kindergarten–University Public Education Facilities Bond Act of 2002 or the Kindergarten–University Public Education Facilities Bond Act of 2004 for a public works project, shall initiate and enforce, or contract with a third party to initiate and enforce, a labor compliance program, as described in subdivision (b) of Section 1771.5, with respect to that public works project.

(b) This section shall apply to public works that commence on or after April 1, 2003. For purposes of this subdivision, work performed during the design and preconstruction phases of construction, including, but not limited to, inspection and land surveying work, does not constitute the commencement of a public work.

(c)(1) For purposes of this section, if any campus of the California State University chooses to use the funds described in subdivision (a), then the "awarding body" is the Chancellor of the California State University. For purposes of this subdivision, if the chancellor is required by subdivision (a) to initiate and enforce, or to contract with a third party to initiate and enforce, the labor compliance program described in that subdivision, then in addition to the requirements imposed upon an awarding body by subdivision (b) of Section 1771.5, the Chancellor of the California State University shall review the payroll records described in paragraphs (3) and (4) of subdivision (b) of Section 1771.5 on at least a monthly basis to ensure the awarding body's compliance with the labor compliance program.

(2) For purposes of this subdivision, if an awarding body described in subdivision (a) is the University of California or any campus of that university, and that awarding body is required by subdivision (a) to initiate and enforce, or to contract with a third party to initiate and enforce, the labor compliance program described in that subdivision, then in addition to the requirements imposed upon an awarding body by subdivision (b) of Section 1771.5, the payroll records described in paragraphs (3) and (4) of subdivision (b) of Section 1771.5 shall be reviewed on at least a monthly basis to ensure the awarding body's compliance with the labor compliance program.

(d)(1) An awarding body described in subdivision (a) shall make a written finding that the awarding body has initiated and enforced, or has contracted with a third party to initiate and enforce, the labor compliance program described in subdivision (a).

(2)(A) If an awarding body described in subdivision (a) is a school district, the governing body of that district shall transmit to the State Allocation Board, in the manner determined by that board, a copy of the finding described in paragraph (1).

(B) The State Allocation Board may not release the funds described in subdivision (a) to an awarding body that is a school district until the State Allocation Board has received the written finding described in paragraph (1).

(C) If the State Allocation Board conducts a postaward audit procedure with respect to an award of the funds described in subdivision (a) to an awarding body that is a school district, the State Allocation Board shall verify, in the manner determined by that board, that the school district has complied with the requirements of this subdivision.

(3) If an awarding body described in subdivision (a) is a community college district, the Chancellor of the California State University, or the office of the President of the University of California or any campus of the University of California, that awarding body shall transmit, in the manner determined by the Director of the Department of Industrial Relations, a copy of the finding described in paragraph (1) to the director of that department, or the director of any successor agency that is responsible for the oversight of employee wage and employee work hours laws.

(e) Notwithstanding Section 17070.63 of the Education Code, for purposes of this act, the State Allocation Board shall increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts as described in Sections 17072.10 and 17074.10 of the Education Code to accommodate the state's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of the labor compliance program.

SEC. 3. This act shall not become operative unless at least one of the following conditions is met:

(a) The Kindergarten–University Public Education Facilities Bond Act of 2002 is approved by the voters at the November 5, 2002, statewide general election.

(b) The Kindergarten–University Public Education Facilities Bond Act of 2004 is approved by the voters at the March 2004, statewide direct primary election.

(c) The Kindergarten–University Public Education Facilities Bond Act of 2004 is approved by the voters at the November 2004, statewide general election.

EXHIBIT 9
ADDITIONAL CODE SECTION CITED
LABOR CODE SECTION 1771.7

§ 1771.7. **Awarding body choosing to use funds derived from Kindergarten–University Public Education Facilities Bond Act for public works project; initiating and enforcing labor compliance program**

Section operative dependent on passage of Kindergarten–University Public Education Facilities Bond Act of 2002 (general election), of 2004 (primary election), or of 2004 (general election) pursuant to § 3 of Stats.2002, c. 868 (A.B.1506); see preface for election results (for electronic publications, see General Materials).

(a) An awarding body that chooses to use funds derived from either the Kindergarten–University Public Education Facilities Bond Act of 2002[1] or the Kindergarten–University Public Education Facilities Bond Act of 2004[2] for a public works project, shall initiate and enforce, or contract with a third party to initiate and enforce, a labor compliance program, as described in subdivision (b) of Section 1771.5, with

(b) This section shall apply to public works that commence on or after April 1, 2003. For purposes of this subdivision, work performed during the design and preconstruction phases of construction, including, but not limited to, inspection and land surveying work, does not constitute the commencement of a public work.

(c)(1) For purposes of this section, if any campus of the California State University chooses to use the funds described in subdivision (a), then the "awarding body" is the Chancellor of the California State University. For purposes of this subdivision, if the chancellor is required by subdivision (a) to initiate and enforce, or to contract with a third party to initiate and enforce, the labor compliance program described in that subdivision, then in addition to the requirements imposed upon an awarding body by subdivision (b) of Section 1771.5, the Chancellor of the California State University shall review the payroll records described in paragraphs (3) and (4) of subdivision (b) of Section 1771.5 on at least a monthly basis to ensure the awarding body's compliance with the labor compliance program.

(2) For purposes of this subdivision, if an awarding body described in subdivision (a) is the University of California or any campus of that university, and that awarding body is required by subdivision (a) to initiate and enforce, or to contract with a third party to initiate and enforce, the labor compliance program described in that subdivision, then in addition to the requirements imposed upon an awarding body by subdivision (b) of Section 1771.5, the payroll records described in paragraphs (3) and (4) of subdivision (b) of Section 1771.5 shall be reviewed on at least a monthly basis to ensure the awarding body's compliance with the labor compliance program.

(d)(1) An awarding body described in subdivision (a) shall make a written finding that the awarding body has initiated and enforced, or has contracted with a third party to initiate and enforce, the labor compliance program described in subdivision (a).

(2)(A) If an awarding body described in subdivision (a) is a school district, the governing body of that district shall transmit to the State Allocation Board, in the manner determined by that board, a copy of the finding described in paragraph (1).

(B) The State Allocation Board may not release the funds described in subdivision (a) to an awarding body that is a school district until the State Allocation Board has received the written finding described in paragraph (1).

(C) If the State Allocation Board conducts a postaward audit procedure with respect to an award of the funds described in subdivision (a) to an awarding body that is a school district, the State Allocation Board shall verify, in the manner determined by that board, that the school district has complied with the requirements of this subdivision.

(3) If an awarding body described in subdivision (a) is a community college district, the Chancellor of the California State University, or the office of the President of the University of California or any campus of the University of California, that awarding body shall transmit, in the manner determined by the Director of the Department of Industrial Relations, a copy of the finding described in paragraph (1) to the director of that department, or the director of any successor agency that is responsible for the oversight of employee wage and employee work hours laws.

(e) Notwithstanding Section 17070.63 of the Education Code, for purposes of this act, the State Allocation Board shall increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts as described in Sections 17072.10 and 17074.10 of the Education Code to accommodate the state's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of the labor compliance program.

Section 1 Reporting Requirements and SFP Audit Overview

1.1 OVERVIEW

These progress and expenditure reporting guidelines were developed by the Office of Public School Construction (OPSC) to assist school districts in meeting program reporting requirements for the School Facilities Program (SFP). Under the Leroy F. Greene School Facilities Act of 1998, the State Allocation Board (SAB) is given the authority to audit expenditure reports and district records in order to assure funds received under this act are expended in accordance with program requirements (as specified in Education Code 17076.10). The OPSC, as the SAB's administrative arm, is charged with conducting SFP progress and expenditure audits. The OPSC's oversight responsibilities focus on verifying a project funded through the SFP progresses in a timely manner, applicable state laws were followed, and expenditures made by school districts comply with the Education Code Sections 17072.35 and 17074.25 and Regulation Sections 1859.77.2 (New Construction) and 1859.79.2 (Modernization).

School districts are advised they will be required to submit two types of reports after receiving SFP funds: a Substantial Progress Checklist (SPC) and Expenditure Reports (Regulation Section 1859.104). It should be noted that certain projects may require evidence of progress at more than one point in the project's life cycle. This occurs when a project receives separate design and/or separate site funding prior to receiving full project funding. Each phase of funding generates a separate requirement to submit evidence of progress within 18 months from the date the related funds were released (Environmental Hardship funding requires evidence within 12 months of the State apportionment). An *Expenditure Report* (Form SAB 50-06) and Detailed Listing of Project Expenditures are due one year from the date any funds were released to the district, or upon completion of the project, whichever occurs first. Subsequent expenditure reports are due annually until the project is complete, at which time the district shall submit a final expenditure report.

SFP Regulation Sections 1859.105, 1859.105.1 and 1859.106 specify that OPSC audit staff review substantial progress documentation and expenditure reports submitted by participating districts. All projects will be monitored by the audit staff for timely submittal of substantial progress and expenditure reports. When the SPC or Expenditure Report is submitted, a project will be audited to verify compliance with requirements set forth in Regulation Sections 1859.105 and 1859.106. Furthermore, all Environmental Hardship projects will be reviewed to assure the district has made progress in acquiring the site in accordance with Regulation Section 1859.105.1 (see Section 2.2 – Progress Review for more information).

This page is intentionally blank.

Section 2 Substantial Progress Audit

2.1 SUBSTANTIAL PROGRESS AUDIT REPORTING REQUIREMENTS

As stated in the preceding Overview, the specific type of substantial progress evidence required for a project and the timeline for submitting that evidence is determined by the phase of funding the project received. Certain projects may require evidence of progress at more than one point in their life cycle. This occurs when projects have received separate design or site monies prior to receiving full project (adjusted grant) funding. The specific requirements for each funding phase are summarized in the following table:

Substantial Progress Timelines and Required Evidence

Funding Phase	Due Date for Submitting Evidence of Progress	Specific Type(s) of Evidence Required
Separate Design (Financial Hardship project only)	18 months from date of Fund Release	One of the following: • Submittal of a complete adjusted Grant funding Application package (including Form SAB 50-04) to the Office of Public School Construction (OPSC). • Submittal of a district certification that complete plans and specifications have been submitted to the Division of the State Architect (DSA). • Submittal of a complete Separate Site funding application package (including Form SAB 50-04) to the OPSC (Regulation Section 1859.75.1). Or: • Submittal of a narrative of evidence, satisfactory to the State Allocation Board (SAB) detailing why complete plans have not been submitted to the DSA.
Separate Site (Financial Hardship project only)	18 months from date of Fund Release[1]	Submittal of a progress checklist (or narrative) certifying that all of the following have been achieved: • Obtained the final site appraisal. • Completed all California Environmental Quality Act (CEQA) requirements. • Obtained final California Department of Education (CDE) site approval. • Obtained final escrow instructions or evidence the district has filed condemnation proceedings and intends to request an order of possession of the site. Or: • Submittal of a narrative of evidence, satisfactory to the SAB, detailing the circumstances (beyond district control) that precluded progress from being achieved. (For separate site funding applications submitted after September 30, 2003)
Separate Site (Environmental Hardship project only)	12 months from the apportionment date, or anniversary of conversion from Separate Site Financial Hardship, and on each subsequent anniversary if necessary.	Submittal of one of the following: • A progress checklist (or narrative satisfying the same criteria set forth for Separate Site (Financial Hardship) funding. • A request for an extension (which is supported in written letters of concurrence from the Department of Toxic Substances Control and the CDE). • Other reasonable evidence of effort the district has made to acquire the site (Regulation Section 1859.75.1).
Adjusted Grant	18 months from the date of the Fund Release[2]	Submittal of a progress checklist (or narrative) certifying one of the following: • 75 percent of site development work necessary prior to construction is complete. • 90 percent of the work in the plans and specifications is under contract. • 50 percent of the work in the plans and specifications is complete (Regulation Section 1859.105(a). Or: • Submittal of a narrative of evidence, satisfactory to the SAB, detailing the circumstances (beyond district control) that precluded progress from being achieved.

[1] If toxic substance issues are delaying site preparation progress, the district may convert the site apportionment to an environmental hardship apportionment. Environmental hardship projects may request annual extensions with appropriate substantiation.

[2] The progress reporting requirement for adjusted grant funding can be suspended if one of the following occur before the reporting deadline:

The district submits a Notice of Completion for the project. If more than one construction contractor is involved in the project, a Notice of Completion is required for each construction contract.

The district submits an *Expenditure Report* (Form SAB 50-06), which shows that the project is at lease 90 percent complete.

If a district receives Separate Design, Separate Site, and Adjusted Grant apportionments, it will be required to submit evidence of progress for each of these types of funding. For each type, the school district will receive up to two substantial progress reminder letters. For all SFP apportionments, except Separate Site apportionments for Environmental Hardships, school districts will receive the letters at 12 and 15-month intervals after the related funds have been released. For Environmental Hardship projects, the OPSC will send the letters at 8 and 10-month intervals after funds have been apportioned. Each reminder letter will have an attached Substantial Progress Checklist (SPC).

Submitting a complete and acceptable SPC will fulfill the requirement to submit a narrative of evidence (progress report), as required in Regulation Section 1859.104.

Districts may submit a narrative in the form of a letter, but are encouraged to use the SPC to help insure completeness and accuracy. In cases where a funding application serves as evidence of progress, no narrative is required, but a SPC may still be submitted as a mechanism to alert the OPSC audit staff that the funding application has been submitted.

2.2 PROGRESS REVIEW

Within 60 days of receiving a timely SPC (or narrative), the OPSC is required to review the evidence submitted. The district will be notified if OPSC staff intends to recommend to the SAB that the evidence does not demonstrate substantial progress. If the OPSC does not respond to the district within the 60-day timeline, substantial progress will be considered to be approved. The OPSC may elect to perform an in-depth progress review on certain projects. In such cases, additional documentation will be requested to substantiate certifications made on an SPC (or narrative). The documentation that may be required is summarized in the following table:

Additional Substantial Progress Evidence for In-Depth Reviews

Type of Funding Received	Additional Documentation That May Be Requested
Separate Design (Financial Hardship)	• DSA notice of receipt of plans or printout of project tracking screen from the DSA website (in cases where the district has certified DSA submittal on the SPC).
Separate Site (Financial Hardship)	• Final site appraisal letters. • Documentation of CEQA compliance (State clearinghouse approval letter, Negative Declaration, Categorical Exemption, etc.). • Final escrow documents. • Copy of final CDE site approval letter.
Separate Site (Environmental Hardship)	• Same evidence requested for Separate Site Financial Hardship. • Copies of letters from CDE and DTSC confirming that the district is making reasonable progress towards acquiring a site.
Adjusted Grant	• Copies of construction contracts. • Copies of progress billings, certificate/application for payment with attached Continuation sheet. • Cost estimate.

2.3 SUBSTANTIAL PROGRESS AUDIT RESPONSE

If it has been determined through the Substantial Progress Audit that no substantial progress has been made, or the district has neglected to submit a progress report, the audit staff will take the following actions (per Regulation Section 1859.105):

- A letter will be sent to the district within 60 days of receipt of the district's SPC (or narrative), or within 60 days of the substantial progress deadline if no SPC has been received, informing the district that the SAB's substantial progress requirement has not been met.
- The letter will request final expenditure reports (Form SAB 50-06 and Detailed Listing of Project Expenditures) and supporting contracts, agreements, warrants, and invoices from the district. The request will stipulate that this documentation will be due within 60 days.

If the district has not failed substantial progress, but still wishes to close the project (i.e. rescind or reduce to costs incurred), it may request this in writing. The OPSC will respond with a letter requesting that the district submit the final expenditure reports and supporting invoices within 60 days.

When a finding of no substantial progress is made, and the district reports project expenditures within the specified 60 days, an expenditure audit will be performed and the project will be closed to costs incurred. If the district does not submit a final expenditure report within 60 days, but previously submitted a Form SAB 50-06 and Detailed Listing of Project Expenditures, the project will be closed to costs incurred based on the expenditure report(s) on file. If the district does not submit a final expenditure report within 60 days and no previous expenditure reports were filed, the project will be rescinded and all funds previously released to the district, plus any interest accrued on the State's funds, must be returned to the State (Regulation Section 1859.104(c)). The district must submit a warrant for any amount due within 60 days of the project being reduced to costs incurred, or the amount due will be collected through a school fund apportionment offset. Once the closeout and collection process is complete, the appropriate number of pupils will be added back to the district's baseline eligibility.

Rescinded projects will have the entire pupil count that was previously deducted and assigned to the project, returned to the district's baseline eligibility. When projects are reduced to costs incurred, the per pupil grants not utilized in the amount reported on the expenditure reports will be returned to the district's baseline eligibility. To determine the number of students to be returned to the district's baseline eligibility, the project's total grant amount (district and State share), excluding site acquisition costs, will be divided by the number of students applied towards the project to obtain a dollar amount applied to each student. The amount reported by the district on the expenditure reports, excluding costs funded from a site acquisition apportionment, will be divided by the dollar amount applied to each student to produce the number of students assigned to the project. The difference between the pupils originally assigned to the project less the number of students assigned to the eligible expenditures when the project is reduced to costs incurred is the number of pupils added back to the district's baseline eligibility. Please see example below:

Project Totals:

Total Grant Amount (district and State share): $208,000.00
Number of Pupils Assigned: 40
Total Reported on Expenditure Reports: $65,000.00

Calculations:

Total Grant Amount *divided by* Number of Pupils Assigned *equals* Grant Amount per Pupil:

$$\frac{\$208,000.00}{40 \text{ Pupils}} = \$5,200.00 \text{ per Pupil}$$

$$\frac{\$65,000.00}{\$5,200.00 \text{ per Pupil}} = 12.50 \text{ Pupils;}$$ however, pupils applied to a project must be rounded to the appropriate whole number (13 in this example).

40 – 13 = 27 Pupils added back to district's baseline eligibility

Section 3 Expenditure Audit

3.1 EXPENDITURE AUDIT REPORTING REQUIREMENTS – GENERAL

School districts are required to submit an *Expenditure Report* (Form SAB 50-06 and a Detailed Listing of Project Expenditures) one year after receiving the initial fund release for the project. Subsequent expenditure reports are due annually until the project is complete (Regulation Section 1859.104(a)).

Ten months after issuing a project's initial fund release, audit staff will notify the district in writing that an expenditure report is due and must be submitted within one year of the project's initial fund release date. If the district has not submitted an expenditure report within the one-year time period, the audit staff will notify the district it must submit a Form SAB 50-06 and Detailed Listing of Project Expenditures within 60 days. If the district does not submit the Form SAB 50-06 and Detailed Listing of Project Expenditures, the audit staff will prepare a board item to advise the SAB the district has not complied with Regulation Section 1859.104.

If the district has complied with the expenditure reporting requirements, the audit staff will track fund release dates and district expenditure report dates to determine when the project is ready for the Final Expenditure Audit. The project is placed on the expenditure audit workload list when it is complete. A project is ready for audit review when one of the following occurs:

- The final Form SAB 50-06 indicating 100% of the project is complete and the Detailed Listing of Project Expenditures are submitted by the district; or
- Three years for an elementary school (grades K–6) project, or four years for a middle school (grades 7–8) or high school (grades 9–12) project, have elapsed since the date of the final fund release pursuant to Regulation Section 1859.104(a)(1)(B).

The OPSC has two years from the 100 percent complete report submittal date, or three or four years (as applicable) after the final fund release date to commence the final expenditure audit. Once the district is notified an expenditure audit is started, the audit staff has six months to complete the audit, unless additional information requested from the district has not been received. If the audit staff does not begin the final expenditure audit within two years of receiving the final expenditure report, or if the final expenditure audit is not completed within six months from the date the district was notified, no expenditure audit will be performed and all expenditures reported shall be deemed appropriate (see Regulation Section 1859.106).

3.1.1 Expenditure Audit Reporting Requirements – Specific Guidelines

When a school district submits the required Form SAB 50-06 and a Detailed Listing of Project Expenditures, it is important for the district to have all information as correct and accurate as possible. Specifically, the Form SAB 50-06 should reflect the sum of the State's share of the grant, the district's share of the grant, any interest earned, less project expenditures. Project savings will be recognized if project expenditures are less than the State's share of the grant, plus district's share of the grant, plus interest earned, less total project expenditures (see Section 3.12 – Project Savings for more details on audit of project savings). If there are multiple Forms SAB 50-06 reported for a project, the most current Form SAB 50-06 must include all expenditures reported previously, plus expenditures incurred in the current reporting period.

The Detailed Listing of Project Expenditures should reflect all expenditures by warrant numbers, warrant dates, warrant payees, warrant amounts, and specific descriptions of the expenditures, as required on the Form SAB 50-06. The description of expenditures must be as detailed as possible in order for the audit staff to verify all project expenditures are applicable to the project and the expenditures have been applied to their proper cost categories. This will assist the audit staff to expedite the audit of the project.

3.2 PRELIMINARY EXPENDITURE AUDIT

All Expenditure Reports will be subject to an initial expenditure audit prior to 100 percent completion which consists of a review of the Form SAB 50-06 and Detailed Listing of Project Expenditures to assure:

- The form is filled out correctly (i.e. form signed by the district representative; correct application number).
- The "percent completed" box is filled in.
- There is a date construction actually began.
- The Notice of Completion of project is provided (if applicable).
- Each project cost reported includes the warrant date, vendor name, warrant number, warrant amount and a brief description for each expenditure.

If the *Expenditure Report* (Form SAB 50-06 and Detailed Listing of Project expenditures) are filled out correctly and reported expenditures appear to be eligible for State funding, the project will be tracked until 100 percent completion. If the expenditures reported do not agree with the supporting documentation or if the expenditures are considered ineligible, the audit staff may conduct a more thorough in-depth review of the project. The audit staff will notify the district if either the Form SAB 50-06 or Detailed Listing of Project Expenditures is unacceptable or incomplete.

3.3 EXPENDITURE AUDIT

An expenditure audit will be performed on all complete projects. The audit consists of verifying the amount reported on the Form SAB 50-06 and that it agrees with the expenditures reported on the Detailed Listing of Project Expenditures. A verification will be made of the amounts reported for the district's share, State's share, interest earned, etc. If the project attained any savings, interest reported for the project will be verified, through a certification made by the county office, to properly calculate the savings amount.

The Detailed Listing of Project Expenditures will be verified to assure costs are categorized correctly based on the description/purpose. The expenditures reported for each project category are compared to historic averages to identify possible problem areas. If the expenditures fall outside the expected parameters, additional documentation will be requested from the district to verify that the expenditures were not reported in error. The district will have thirty days to submit the requested documentation. If no documentation is submitted, or the documentation submitted does not explain the anomaly, the project may convert to an in-depth expenditure audit. If the submitted documentation is reviewed and the expenditures are found to be appropriate, there will be no audit adjustment (see Sections 3.10, 3.10.1, and 3.10.2 for more detail on eligible and ineligible SFP expenditures).

3.4 IN-DEPTH FINAL EXPENDITURE AUDIT

Some projects will be selected for an In-Depth Final Expenditure Audit, which consists of a more detailed examination of the expenditures reported on the Form SAB 50-06 and Detailed Listing of Project Expenditures, as well as verification of the certifications made by the district on the Forms SAB 50-04, 50-05, 50-07, 50-08, and 50-09. Districts that are unable to substantiate program certifications may be subject to material inaccuracy penalties prescribed in Regulation Section 1859.104.1. The project audit will be accomplished by requiring districts to submit documentation as appropriate, such as, but not limited to, specific warrants, contracts and/or agreements related to construction, inspection, construction tests, and architectural services, or other supporting documentation substantiating certifications made on the Forms SAB 50-04 and 50-05. The audit staff has the discretion to perform on-site Expenditure Audits and Post-Occupancy Audits in order to verify district's claims. See sections 3.10, 3.10.1 and 3.10.2 for more detail on eligible and ineligible SFP expenditures.

Modernization projects will be reviewed to assure modernization funds are not being used to increase the new building area except in the case of replacement area of like kind, or if required by the federal Americans with Disabilities Act (ADA), or by the DSA handicapped access requirements. Modernization projects will also be reviewed to assure modernization funds are not being used for site costs, with the exception of replacement, repair or additions to existing site development. Also, the audit review will establish that the removal of hazardous or solid waste costs, established by the DTSC, did not exceed 10 percent of the combined adjusted grant and the district matching share

for the project. If the modernization funding grant was used to modernize leased facilities, the audit review will verify that funds were used only for work on facilities owned by another school district or county office of education. 50-year-old modernization projects will be audited using the standards for regular modernization projects, with the exception that utility costs may be deemed allowable. Utility costs for water, sewage, gas, electric, and communication systems may be allowed as prescribed in Regulation Section 1859.78.7.

New Construction projects will be reviewed to ensure the number of classrooms in the project was not decreased. New Construction projects will also be reviewed to determine whether the district increased the number of classrooms by more than 150 percent of the original pupils assigned to the project. If the district spent beyond the total grant amount, the pupils above the 150 percent threshold will be reduced from the district's new construction eligibility baseline.

Post-occupancy reviews will be performed in conjunction with the Division of the State Architect and California Department of Education to verify the district performed the work as requested in the Application for Funding (Form SAB 50-04). For New Construction projects, the number of classrooms built will be compared to the number of classrooms requested on the Form SAB 50-04. If the project is a Use of Grants project, verification of the type of project constructed will be made, including identifying the use of any savings achieved on the project. For modernization projects, the architect's cost estimate will be reviewed and compared to the actual work done in the modernization of particular facilities.

In addition, the audit staff will verify the following specific certifications made by the district on the Forms SAB 50-04 and 50-05:

- The district's applicable matching share was deposited in the County School Facility Fund.
- The district deposited at least 3 percent of its unrestricted General Fund (of which an amount equal to ½ percent of this amount can be the district's contribution to its deferred maintenance fund) into the Routine Restricted Maintenance Account (Education Code Section 17070.75(b)).
- The district competitively bid the construction contracts.
- The district met all relevant Disabled Veteran Business Enterprise (DVBE) requirements.
- The district used the Qualifications Appraisal standards, as outlined in Government Contract, Code Section 4526, when contracting with the architect, engineers, site surveyors, etc.
- The State's prevailing wage requirements were met.
- The district complied with the State's Public Contract Code requirements governing Force Account labor.

3.5 IN-DEPTH FINAL EXPENDITURE AUDIT FOR SITE PURCHASES

New construction projects may be eligible for site acquisition funds under the SFP. For projects receiving funds for a site purchase, audit review will include the verification and examination of site expenditures and a determination if the site grant was appropriate and met provisions set forth in Regulation Sections 1859.74, 1859.74.1, and if applicable, 1859.74.2 and 1859.75.1. Projects initially approved under the LPP for planning and/or site and later converted to SFP projects will be audited using the SFP guidelines.

Districts will be eligible for approved hazardous material removal work and associated DTSC oversight fees up to 50 percent of the appraised as a clean site value of the property (see regulation section 1859.74.2, 1859.74.3, 1859.74.4, and 1859.75.1).

For all sites requiring DTSC review, the audit staff will obtain invoices from the district in order to verify the costs reported for the Response Action (RA). The Phase One Environmental Site Assessment and Preliminary Environmental Assessment costs are distinct from the RA costs, and are not considered part of the project's 50 percent "cap" established by the SAB for site cleanup. The expenditure audit may result in an increase/decrease of the additional grant amount for hazardous material removal, remediation costs, and DTSC oversight fees pursuant to Regulation Section 1859.106.

In order to verify compliance with the requirements of the Toxics Regulations and to assure all costs reported for this grant were indeed for hazardous waste removal, the audit staff will obtain invoices from the district for all costs reported for any Additional Grants for Hazardous Waste Removal. Additionally, for both Hazardous Waste Removal and Environmental Hardship Grants, the audit staff will verify that all fees and cleanup costs are related to the site for which the expenditures are being reviewed.

Relocation assistance expenditures will also be audited based on criteria set forth in Title 25, California Code of Regulations Section 6000, et seq. Additional documentation such as contracts, invoices, appraisal reports, court documents, legal contracts, legal billings, etc., will be requested from the district and a thorough review of these expenditures will be performed. The relocation expenditures are approvable if they are reasonable and necessary for purchasing fixtures and equipment, personal property, new machinery/equipment and the installation of improvements at the replacement residence or business location of the displaced tenants and/or property owners as stated in Regulation Section 1859.74(a)(1) (see Sections 3.10, 3.10.1, and 3.10.2 for more detail).

For projects which did not proceed to the adjusted grant phase within 18 months of the fund release date for Separate Site (12 months from the apportionment date for Environmental Hardship, unless time extensions were approved by the SAB), an item will be presented at the next available SAB meeting to advise the SAB the district did not request an adjusted grant for the project.

3.6 JOINT-USE PROJECT AUDIT

The type of joint-use project will differentiate the appropriate audit criteria used. For a Type 1 and 2 Joint-Use projects, the audit staff will verify that contracts were executed after April 29, 2002 and that the project was approved by the DSA and CDE. Type 1 projects may only be approved as facilities used to improve academic achievement, provide teacher education, and childcare facilities. Type 2 projects may only be approved for a multipurpose room, gymnasium, childcare facility, or library. The audit staff will also verify that Utility costs, Service Site Costs, and Offsite costs, if applicable, are part of the new construction project and not the Joint-Use project (see Regulation Sections 1859.122 and 1859.122.1).

For a Type 3 Joint-Use project, the audit staff will verify that the contract was executed after April 29, 2002, the project was approved by the DSA and CDE, and that the preliminary plans were complete and approved by the CDE when the project application was submitted. A Type 3 Joint-Use project may only be approved to improve pupil academic achievement, provide teacher education, multipurpose room, gymnasium; library, or childcare facility. The audit staff will authorize site support and utility costs for these types of stand-alone projects. However, off-site costs will be disallowed for this type of project.

The agreements between the district and the Joint-Use partner(s) will be verified to ensure that the agreement has at least the following Provisions:

- Shared responsibility between the Joint-Use partners and school district involved (does not include the SAB).
- Shared responsibility for funding of the operational costs of the project after the project is complete.
- Specifying the responsibilities regarding the operation and staffing of the project.
- Identify specific criteria to ensure the safety of the pupils during regularly scheduled school hours.
- Specifying the Joint-Use facility will be made available for at least 20 hours per week.

If the project is a type 1 or 2 joint-use project, the district has the same timeframe as that of a regular SFP project to meet the substantial progress requirements (see Section 2.1). If a type 3 joint-use project, the district has one year to submit DSA and CDE approved plans and DSA approved specifications to the OPSC, otherwise the project will be rescinded. If this one year requirement is met, the type 3 project will be subject to the 18 month substantial progress requirement.

The audit also verifies that any expenditures above the State and joint-use partner's matching share was funded by the joint-use partner(s) applicant school district. Districts must ensure that if the district combines the Joint-Use project with a regular SFP expenditure project, all costs are pro-rated between the various projects.

A verification will be made to ensure that any funds used by the Joint-use partner to match the State's funds would not have otherwise been available to the district (see Regulation Section 1859.127).

3.7 CRITICALLY OVERCROWDED SCHOOLS

If the district receives an advanced site and design apportionment, and if the district does not convert to a SFP project within the 4 years given to the district to submit a Form SAB 50-04, or 5 years if the district is granted a 12 month time extension to submit a Form SAB 50-04, the project will be rescinded or closed to costs incurred. If the district does not convert to a SFP project, expenditure reports must be submitted to close the project to costs incurred. If no expenditure reports are submitted, the Critically Overcrowded School (COS) project will be rescinded and all State funds, plus interest accrued, will be reimbursed to the State. When expenditure reports are submitted, the COS project will be reduced to costs incurred.

When a COS project converts to a SFP project, it will be subject to all SFP progress and auditing standards. A substantial progress report will be required at 18 months from the date the SFP funds were released. Annual expenditure reports will be required beginning one year from the date of the first fund release until the project is complete. The project is also considered complete when 3 years elapse from the date of the final fund release for an elementary project, or 4 years for a middle or high school project, at which time final expenditure reports must be submitted. Once complete, the project will be audited using the SFP expenditure audit criteria.

3.8 CHARTER SCHOOLS

Similar to a COS project, when a Charter School project converts to a SFP project, it will be subject to all SFP progress and auditing standards. A substantial progress report will be required at 18 months from the date the SFP fund release was made. Annual expenditure reports will be required beginning one year from the date of the first fund release until the project is complete. The project is also considered complete when 3 years elapse from the date of the final fund release for an elementary project, or 4 years for a middle or high school project, at which time final expenditure reports must be submitted. Once complete, the project will be audited using the SFP expenditure audit criteria (see requirements in Article 14 of the regulations).

3.9 LABOR COMPLIANCE

For SFP projects subject to AB 1506, the district must submit at the time of the OPSC audit the following:

- Copy of the Department of Industrial Relations approved Labor Compliance Program (LCP) to which the project(s) conformed.
- If applicable, a copy of the third party provider contract.

The district must also be prepared to submit upon OPSC request, the following:

- All bid invitation and contracts that must contain language alluding to Labor Code Section 170 through 1780 compliance and verification.
- Evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set in Labor Code Section 1770 through 1780.
- Evidence of weekly submittals of certified copies of payroll for all contractors and subcontractors.

Labor Code Section 1771.7 provides that a district may elect to contract with an outside entity, or use its own employees to implement and administer the LCP. If the district intends to use its employees, it must meet the requirements as detailed in the Public Contract Code and account for, in the SFP audit, the following:

- The name of the district employee performing the LCP duties.
- The salary and benefits of the employee including transportation costs.
- A specific breakdown of hours spent by project subject to the LCP requirements.

3.10 ALLOWABLE EXPENDITURES UNDER THE SFP – GENERAL

The statutory language governing the SFP apportionments is very broad in scope for both new construction and modernization projects. Statutory language for new construction, such as "a grant for new construction may be used for any and all costs to adequately house new pupils...", and for SFP modernization, such as "a modernization apportionment may be used for an improvement to extend the useful life of or to enhance the physical environment of the school...," indicate there is a lack of defined cost allowances when determining eligibility of some project expenditures. This section, Section 3.10.1, and Section 3.10.2 will offer guidelines for determination of eligible expenditures. As a general rule, any project cost will be allowed, with limitations in some cases, which can reasonably be attributed to the project in accordance with applicable regulations and law.

Education Code Section 17072.35 provides direction relative to what new construction grants may be used for:

"A grant for new construction may be used for any and all costs necessary to adequately house new pupils in any approved project, and those costs may only include the cost of design, engineering, testing, inspection, plan checking, construction management, site acquisition and development, demolition, construction, acquisition and installation of portable classrooms, landscaping, necessary utility costs, utility connections and other fees, equipment including telecommunication equipment to increase school security, furnishings, and the upgrading of electrical systems or the wiring or cabling of classrooms in order to accommodate educational technology. A grant for new construction may also be used to acquire an existing government or privately owned building, or a privately financed school building, and for the necessary costs of converting the government or privately owned building for public school use."

Other pertinent regulations contained in Article 8 (of the SFP regulations) provide further information relative to appropriate uses of SFP new construction funding which should be referred to during the course of a final expenditure audit.

Education Code Section 17074.25 provides guidelines relative to eligible SFP modernization expenditures and states:

"A modernization apportionment may be used for an improvement to extend the useful life of, or to enhance the physical environment of, the school. The improvement may only include the cost of design, engineering, testing, inspection, plan checking, construction management, demolition, construction, the replacement of portable classrooms, necessary utility costs, utility connection and other fees, the purchase and installation of air-conditioning equipment and insulation materials and related costs, furniture and equipment, including telecommunication equipment to increase school security, fire safety improvements, playground safety improvements, the identification, assessment, or abatement of hazardous asbestos, seismic safety improvements, and the upgrading of electrical systems or the wiring or cabling of classrooms in order to accommodate educational technology. A modernization grant may not be used for costs associated with acquisition and development of real estate or for routine maintenance and repair."

Education Code Section 17074.10(d) also specifies the Legislature did not intend modernization funding be used on administrative and overhead costs.

Other regulations contained in Article 8, New Construction and Modernization Grant Determinations), provides further information relative to appropriate uses of SFP modernization funding that will be referred to during the course of a final expenditure audit.

3.10.1 Allowable Expenditures under the SFP – Specific Guidelines

Districts are advised the SFP does not have set fee schedules or allowances for the categorized project expenditures. The SFP, with few exceptions, has no limitations on the fees associated with architects or construction managers, etc. However, the districts are responsible for completing the project as certified on the Application for Funding (SAB 50-04). Furthermore, there are no set allowances for project components other than those noted below.

The following general guidelines shall be utilized in reviewing an SFP new construction or modernization project (assumes it is a non-financial hardship project). With some exceptions, as noted, allowable project expenditures are as follow:

▸ SFP Allowable Expenditures

1) **Site Costs (not applicable to modernization):**
   A) Purchase Price of Property – An allowable expenditure provided the site was not previously funded under the Lease-Purchase Program, and the expenditure reported is the lesser of the appraised value (submitted within six month of a complete SFP funding application) or actual purchase price. The costs for toxics cleanup and removal, as well as DTSC oversight fees associated with the cleanup are allowable expenditures. Excess DTSC costs and costs for Hazardous Waste Removal beyond the 50 percent of the appraised value cap are not allowable costs and must be funded by the district; no additional apportionments will be made to fund these costs.
   B) Appraisal Fees
   C) Escrow Fees
   D) Survey Costs
   E) DTSC Phase One Environmental Assessment Fees, Response Action costs, and Preliminary Endangerment Assessment Fees
   F) Relocation Assistance – Allowable expenditures as long as expenditures conform to Title 25, California Code of Regulations, Section 6000, et. seq. Any reasonable and necessary relocation costs for purchasing fixtures and equipment, personal property, new machinery/equipment and the installation of any improvements at the replacement residence or business location may be included as eligible relocation expenditures. Specifically, these costs include: rental assistance; last resort housing costs; down-payment assistance; any costs the district is required to pay through a court finding such as goodwill, cost of land, etc.; moving expenses; "in-lieu" of business expenses; business moving costs; furniture and equipment costs if the business is unable to relocate; and reasonable relocation consultant fees.
   G) Development of Phase One Environmental Assessment and Preliminary Endangerment Assessments
   H) Legal Fees Associated with Securing a Site

2) **Planning Costs**
   A) Architect's Fee for Plans
   B) DSA Plan Check Fee
   C) CDE Plan Check Fee
   D) Energy Analysis Fee
   E) Preliminary Site Tests
   F) Consultant Fees – Allowable expenditure, as long as expenditures are related to the project.
   G) Advertising for Construction Bids
   H) School District "third party provider" or own forces labor compliance program costs.

3) **Construction Costs**
   A) Utility Services (see Regulation Section 1859.76(c) for more information). 50-year-old Modernization projects are also eligible to receive funding for utility costs (see Regulation Section 1859.78.7).
   B) Off-Site Development (see Regulation Section 1859.76(b) for more information).
   C) Service Site Development (see Regulation Section 1859.76(a) for more information).
   D) General Site Development
   E) Building Construction
   F) Modernization Costs – Allowable expenditures including the following, but subject to the limitations in Section 3.10.2 – Ineligible SFP Expenditures, items C through F:
      1) Any new building area included in a modernization project which replaces "like kind" area.
      2) New site development expenditures for replacement, repair or additions to existing site development work.
      3) Removal of hazardous waste the DTSC has declared safe which does not exceed ten percent of the total modernization project cost.
   G) Construction Management Fees
   H) Demolition Costs – Allowable expenditure if the cost is attributable to replacement of "like kind" building area for modernization projects (see Regulation Section 1859.79.2(a)), no cost limitations for new construction projects.
   I) Force Account Labor – Allowable if it complies with the Public Contract Code and is specific to the project (note: may also be a planning cost).
   J) Interim Housing – Allowable expenditures with no cost limitations for modernization projects. Also eligible for new construction projects that are additions to an existing site where classrooms temporarily are inaccessible or unsafe to house students.
   K) Unconventional Energy
   L) Construction Tests
   M) Inspections
   N) Furniture and Equipment
   O) Construction Supervision/Security
   P) Legal Costs – Allowable if directly attributable to project.
   Q) Energy Conservation Costs.
   R) Joint-Use project expenditures, see the following table:

EXHIBIT 11
AB 1506 LABOR COMPLIANCE PROGRAM
GUIDEBOOK - FEBRUARY 2003

STATE OF CALIFORNIA GRAY DAVIS, *Governor*

DEPARTMENT OF INDUSTRIAL RELATIONS
Office of the Director
455 Golden Gate Avenue, 10th Floor
San Francisco, CA 94102
Tel: (415) 703-5050 Fax: (415) 703-5059/8

MAILING ADDRESS:
P. O. Box 420603
San Francisco, CA 94142-0603

January 31, 2003

Dear Superintendent,

Newly enacted section 1771.7 of the California Labor Code requires school districts (so-called awarding bodies) undertaking construction projects using funds from the Kindergarten-University Public Education Facilities Bond Acts of 2002 and 2004 to initiate a specified labor compliance program (LCP) and ensure that workers employed by contractors on the projects are paid according to minimum labor standards.

This packet serves as notification of the new requirement and provides information and tools to help you comply with the new law and find technical assistance if your district needs it.

We want to make sure school district construction moves as efficiently as possible because it has assumed a larger role beyond the already significant one of providing California's children a decent education.

Enclosed you will find a program guidebook developed by private and public sector experts in school facilities construction from California school districts, the Office of Public School Construction of the California Department of General Services, the Coalition for Adequate School Housing, labor compliance program consultants and the Department of Industrial Relations. This guidebook can be used to help earn your LCP approval in a convenient manner. Here's how:

Please notice the guidebook contains a suggested application format under Appendix 1 for approval of your LCP. I encourage you to complete this form, and to consider adopting the labor compliance program contained in the enclosed LCP manual from the Antioch Unified School District. The AUSD's program has been recently approved. I believe its LCP manual could be a model for other districts because it contains the most up-to-date information about compliance with labor standards on public works projects. Please send that manual along with information requested in the application to the director of the Department of Industrial Relations. The address is contained in the application.

If you have further questions, please check the Department of Industrial Relations Web site at http://www.dir.ca.gov/lcp.html and then scroll down the middle column to view model programs established by the Los Angeles Unified School District, San Diego Unified School District and again, the Antioch Unified School District. The Department of General Services posts more information on its Web site at http://www.schoolconstruction.dgs.ca.gov/ for public schools. Also please check Department of General Services Office of Public School Construction http://www.opsc.dgs.ca.gov/.

If you need immediate information, call Troy Fernandez at (415) 703-5070. For your convenience, the Department of Industrial Relations has established a special unit to help with labor compliance programs for public school districts.

Thank you in advance for your cooperation. We look forward to not only making sure these projects are completed in a timely and lawful fashion, but also to making your life easier.

Sincerely,

Chuck Cake

Chuck Cake
Acting Director

AB 1506
Labor Compliance Program Guidebook

February 2003

Table of contents

These materials are intended to educate and assist those seeking approval of a labor compliance program. This information is not intended to replace the technical details in the labor code or California Code of Regulations. Please visit the Department of Industrial Relations' Web site (www.dir.ca.gov) for information about the laws and regulations governing this process.

Chapter 1
Introduction to Assembly Bill 1506, Statutes of 2002, enacted as labor code section 1771.7

Introduction

For more than 60 years, the California Labor Code has required that workers employed by contractors or subcontractors in the execution of public work contracts must be paid the state-determined prevailing wage. The public works chapter of the labor code, comprised of labor code sections 1720 through 1861, details the prevailing wage system, explaining who the law protects, what contractors must do to comply with the law, what constitutes the prevailing wage, how it is determined, and how the prevailing wage requirements are enforced. The labor code sections are supplemented by regulations published as Title 8 of the California Code of Regulations cited as 8 CCR 16000 et seq. Over the years, a body of law has developed containing interpretations of the statutes and the regulations. That body of law is in published decisions of state and federal courts and in certain administrative decisions designated as precedential.

The Division of Labor Standards Enforcement (DLSE), a part of the California Department of Industrial Relations (DIR), is the government agency primarily responsible for the enforcement of prevailing wage requirements on California public works projects. Since 1989, the Legislature has provided a statutory mechanism permitting political subdivisions of the state which award public works contracts (awarding bodies) to initiate and enforce their own labor compliance programs (LCPs) in conjunction with the DIR and the DLSE. The DIR director has the authority to grant or revoke approval of LCPs, and monitors the performance of LCPs in enforcing the prevailing wage system. The DLSE, through the Office of the Labor Commissioner, approves on a case-by-case basis the amounts of unpaid penalty and wage money assessed by LCPs against their public works contractors who have failed to comply with the prevailing wage laws. An approved LCP has a legal duty to the director to enforce prevailing wage requirements "in a manner consistent with the practice of DLSE." (8 CCR 16434)

With the enactment of labor code section 1771.7 (AB 1506) the Legislature is now requiring certain awarding bodies to initiate and enforce their own LCPs (or contract with a third party LCP) as a precondition to using funds from the Kindergarten-University Public Education Facilities Bond Act of 2002 (or 2004) for a public works project.

This guidebook was prepared by the DLSE and knowledgeable individuals in the private and pubic sector with a wide range of experience in school district issues, construction projects, public works and labor compliance. This guidebook is intended to facilitate requests to the DIR director from awarding bodies seeking approval of their own LCPs to conform to the requirements of labor code section 1771.7.

This guidebook is not intended to be used as a substitute for the full text of statutes and regulations which comprise the prevailing wage system, or the continually developing body of law which prevailing wage enforcement has generated over the past six decades and will continue to generate in the future. Rather, this information should be viewed as a framework for implementation of an effective LCP designed to enforce prevailing wage requirements consistent with the practice of DLSE.

Chapter 2
Mandatory requirements for approval of a labor compliance program

Mandatory requirements

To be approved, a section 1771.7 labor compliance program must include the following:

1. All bid invitations and public works contracts issued by the district shall contain appropriate language about the requirements of the public works chapter of the California Labor Code, comprised of labor code sections 1720-1861.

2. A pre-job conference shall be conducted with the contractor or subcontractors to discuss federal and state labor law requirements applicable to the contract.

3. Project contractors and subcontractors shall maintain and furnish to the LCP, at a designated time, a certified copy of each weekly payroll with a statement of compliance signed under penalty of perjury.

4. The LCP shall review and, if appropriate, audit payroll records to verify compliance with the public works chapter of the labor code.

5. The LCP shall require the district to withhold contract payments when payroll records are delinquent or inadequate.

6. The LCP shall require the district to withhold contract payments equal to the amount of underpayment and applicable penalties when the LCP establishes that underpayment occurred through an investigation.

LCP approval process

Attached in Appendix 1 is a recommended application form to be mailed to the director of the California Department of Industrial Relations (DIR). The form was developed to allow the director to determine whether the district seeking approval has the ability to operate its LCP in compliance with the requirements of Labor Code Section 1771.5(b). It also is a convenient way for LCPs to receive approval from the director. LCP officials only need to complete the application, adopt and attach the model program plan currently enclosed in this packet, and send it to the director.

The process of approving labor compliance programs is authorized and regulated by Title 8 of the California Code of Regulations, sections 16425-16439. Request for approval is a two-step process that includes initial approval for up to one year and then final approval.

Submissions to the California Department of Industrial Relations (DIR) will be accepted by the director of the Department of Industrial Relations and subsequently forwarded to the Division of Labor Standards Enforcement (DLSE) for review. The DLSE, under the leadership of the state labor commissioner, enforces labor laws that range from prevailing wage issues and labor standards to laws that govern the payment of wages.

The director will record the date of submission for approval and may take up to 30 days for review prior to determining if the proposal will be initially approved or denied. The director will inform the awarding body or third party administrator of the effective date of an approved LCP.

If denied, the director will inform the awarding body of the reasons for denial.

Chapter 3
Benefits of a labor compliance program

A comprehensive labor compliance program may result in the following:

Competitive bidding process integrity
When a comprehensive labor compliance program (LCP) is initiated and enforced, it prevents underbidding by contractors, or contractors who utilize subcontractors and who do not pay prevailing wages. Awarding bodies benefit from receiving a higher number of qualified bidders.

Regeneration of funds to the community
Ensuring that prevailing wage is paid to the workers employed on the project benefits the entire community by the regeneration of project funds back to the community.

Better labor relations
A strong labor compliance program is a sound approach to the promotion of responsible working conditions. Cooperation and communication among all constituencies interested in school construction offer the best long-term prospects for a sustained, positive labor and management relationship.

Successful contracts
Under an LCP, awarding bodies audit and enforce their contracts with contractors and subcontractors. This enables better scrutiny of construction projects, which helps to ensure the terms of the contract coincide with the awarding bodies' specifications.

Ability to hold penalties and contract payment
For a DIR-certified LCP, an awarding body may withhold contract payments for certain violations of the labor code and collect penalties against a contractor when it is established through an investigation that there has been an underpayment of wages. The awarding body also may withhold contract payments when payroll records are delinquent or inadequate.

Chapter 4
The prevailing wage law – an overview for labor compliance programs

An overview for labor compliance programs

I. Who does the law protect?
   - A. All workers employed on public works (labor code section 1771)
     (includes employees, independent contractors, partners, sole proprietors, owner-operators)
   - B. Public workers defined
     1. Labor code sections 1720-1720.3
     2. Precedential public works decisions
   - C. Limited exemptions
     1. Work carried out by a public agency "with its own forces" (labor code section 1771)
     2. Certain janitorial services/guards (8 CCR 16000)

II. What must public works contractors do to comply with the law?
   - A. Maintain and furnish records (labor code section 1776)
   - B. Pay the prevailing rate to all workers (labor code sections 1771, 1774 AND 1813)
   - C. Comply with apprenticeship requirements (labor code section 1777.5)

III. What is the prevailing wage rate?
   - A. Published prevailing wage determinations
   - B. Process by which prevailing wage rates are established (labor code sections 1773.1 and 1773.9; 8 CCR 16200-16300)

IV. How does an LCP enforce the law?
   - A. Conduct investigations
     1. Monitor certified payroll records (CPRs), investigate complaints from workers, monitor agencies and contractors
     2. Prepare audits and findings
   - B. Obtain approval of recommended forfeitures from labor commissioner (8 CCR 16436-16437)
   - C. Issue and serve notices of withholding of contract payments (NWCPs) (labor code section 1771.6)
   - D. Defend NWCPs in administrative review proceedings and in court (labor code sections 1742-1743)
   - E. Collect and disburse wages and penalties (labor code section 1743)

Note: All of the citations to the labor code sections and the California Code of Regulations (CCR) noted above are available by accessing the California Department of Industrial Relations home page (www.dir.ca.gov) and links to that page. The Web site also includes the precedential public works decisions referenced in the above outline at IB(2), and the prevailing wage determinations referenced at IIIA.

Outline explanation

The preceding outline was originally created as part of a training class for DLSE staff responsible for enforcing the prevailing wage law on public works projects. As a practical matter, the most important section of the outline for LCPs to consider is section IV, dealing with an LCP's enforcement duties. Later chapters of this guidebook provide practical advice on how to conduct investigations, but LCP officials also

must become familiar with three forms which the DLSE has specifically developed for LCPs to utilize after an investigation has been completed and after the LCP has obtained case-by-case approval from the labor commissioner to withhold unpaid wages and penalties from a public works contractor. The three forms are attached as Appendices 2, 3 and 4 at the end of this guidebook.

Appendix 2, containing the form titled Notice of Withholding of Contract Payments (NWCP), is to be completed by the LCP and served on the contractor, any affected subcontractor, and any bonding company issuing a bond securing payment of wages on the public works project. On page 2 of the NWCP, the contractor and subcontractor are advised of their right to obtain review of the LCP's monetary assessment by filing a written request for review at the address designated by the LCP in the space provided. The LCP should insert in this space the identity and address of the individual the LCP has assigned the tasks of receiving requests for review and, in turn, providing the party requesting review with the notices they are entitled to under the law. On page 3 of the NWCP, the contractor and subcontractor are advised of their opportunity to informally settle any dispute they may have with the LCP's monetary assessment. Again, the LCP should designate in the space provided the identity and address of the individual the contractor should mail their written requests to for a settlement opportunity. This individual may or may not be the same individual the LCP chooses to receive the written requests for review.

In the DLSE's experience, nearly all contractors and subcontractors will request at least a settlement meeting, and will likely request formal review once an NWCP has been served upon them. If there is no request for formal review, the assessment becomes a final order and the withheld funds can be disbursed.

As mentioned above, the LCP's receipt of a written request for review triggers an obligation on the part of the LCP to complete and mail the two other forms attached as Appendix 3 and Appendix 4.

Appendix 3 is a Notice of Transmittal that must be completed and timely mailed by the LCP to the Department of Industrial Relations at the address indicated. Under the NWCP administrative review process in the labor code, once the contractor or subcontractor has requested review of the NWCP, it is the task of the DIR to provide the contractor a hearing with a presiding hearing officer. Consequently, the Notice of Transmittal is the tool utilized by the LCP to notify the DIR of its statutory obligation to begin the administrative review process and provide the contractor requesting review a hearing.

Appendix 4 is another notice the LCP must complete and mail to the party requesting review once that request has been received by the LCP. This form, a Notice of Opportunity to Review Evidence Pursuant to Labor Code Section 1742(b), simply satisfies the LCP's statutory obligation to let the contractor and subcontractor know the materials contained in the LCP's investigative file which support the LCP's issuance of the assessment will be made available.

LCP staff involved in the administrative review process, as well as the attorney or law firm representing the LCP, should become familiar with the prevailing wage hearing regulations at 8 CCR 17201-17270. These regulations also are available via links at www.dir.ca.gov. Briefly, the regulations comprise the rules that must be followed by LCPs and contractors throughout the administrative review process, beginning with service of the NWCP and ending with a final decision under the review system. The regulations are extremely detailed, but are helpful in understanding the review process.

Chapter 5
Labor compliance program components

Labor compliance program requirements prior to construction

Advertisement for bid/construction contract
The call for bids and the contract or purchase order must contain language appropriate to the requirements of prevailing wage law as contained in labor code sections 1771, 1775, 1777.5, 1813 and 1815. The first advertisement date of the project determines the applicable prevailing wages.

Pre-job conference
This meeting is to be held by the district before commencement of the work for contractors and subcontractors with accepted bids. The district representative at the meeting must be prepared to discuss and answer questions about requirements and procedures, including record keeping, wage determinations, apprenticeship requirements and required form filing. Information on paying training fees and giving notice to use registered apprentices should also be given out at the pre-construction meeting. Labor code sections 1777.5 and 1777.6 contain the instructions for hiring apprentices and the ratios to journey persons. A checklist showing which federal and state labor law requirements were discussed shall be kept for each conference. A sample checklist can be found in Appendix 6.

Payroll records
There must be a requirement in the program that certified payroll records be kept by the contractor in accordance with labor code section 1776 and furnished to the awarding body at times designated in the contract or within 10 days of request by the awarding body.

Review
There must be a program for orderly review of payroll records and, if necessary, for audits to verify compliance with the statutory requirements.

Withholdings
There must be a prescribed routine for withholding penalties, forfeitures and underpayment of wages for prevailing wage violations.

Delinquency
All contracts to which prevailing wage requirements apply shall include a provision that contract payments shall not be made when payroll records are delinquent or inadequate.

Public works contract award form
The Public Works Contract Award Form (DAS 140) must be filled out by contractors and subcontractors with the appropriate apprenticeship box checked and sent to the appropriate local apprenticeship committee within five days of signing the contract. The district must have a copy of this form in the project file. A copy of this form can be printed from http://www.dir.ca.gov/DAS/DASForm140.pdf.

Proof of general liability and workers' compensation insurance
The district must require appropriate evidence of required insurance. The evidence should be a part of the

permanent project file.

Documentation and forms required during construction

Payroll records

Each contractor and subcontractor is required by labor code section 1776 to keep and maintain certified payroll reports.

All certified payroll reports are to be submitted to the district for review during the course of the contract and furnished to the district at times designated in the contract or within 10 days of the request by the awarding body. The certified payroll reporting form (A-1-131) can be obtained from any office of the Department of Industrial Relations' Division of Labor Standards Enforcement (DLSE) or downloaded from the Web site at http://www.dir.ca.gov/dlse/publicWorksPayrollInstructions.htm. If the contractor uses his/her own form, it must contain the following information:

- Employee full name, address and social security number.
- Work classification.
- Amount paid per hour. If payments are made to any third party trust, funds or plans for health and welfare, pension or vacation trusts, as part of the employer's prevailing wage obligation, then those payments should be indicated on the payroll report. The basic wage rate paid per hour plus the amounts contributed per hour for benefits, including training fund contributions, must at least equal the total prevailing rate required for that classification.
- Daily regular, overtime and holiday hours and weekly totals.
- Gross/net wages paid for this project/all projects.
- Contractor's full name and address.
- Project name and location.
- Dates of the payroll.
- Certification statement signed by a person with the authority to represent the company. This statement must declare under penalty of perjury that 1) the information contained in the payroll record is true and correct and 2) the employer has complied with the requirements of labor code sections 1771, 1811 and 1815 for any work performed by his or her employees on the public works project.

It is important that each contractor write "final" on the last submitted payroll for the project.

The contractor must complete a non-performance report for each week in which no work is performed. All days worked on a project must be accounted for, including Saturdays, Sundays and holidays.

Statement of employer payments

The form, Statement of Employer Payments (PW 26), must be completed by each contractor and subcontractor who pays benefits to a third party trust, plan or fund for health and welfare benefits, vacation funds, or makes pension contributions. It must contain the fund or trust name, address, administrator, and amount per hour contributed and frequency of contributions for each classification of worker. Training fund contributions must be reported on this form. A copy of the form can be downloaded from http://www.dir.ca.gov/dlse/DLSEForm-PW26.pdf.

Payroll rate verification
The district must acquire and review new prevailing wage rates at least twice yearly through the Department of Industrial Relations' Division of Labor Statistics and Research or from the Web site at http://www.dir.ca.gov/DLSR/statistics_research.html. Payrolls should be checked to make sure the new rates are in effect for each trade. New determinations are published in February and again in August. The rates go into effect the day after the expiration date on the determination.

Job site monitoring

Workforce documentation
The district must keep a daily record of all workers at the job site. Job classifications should be included. The district may also request that the inspector of record (IOR) include this information in the daily report form.

All prime contractors should be required to submit a prime contractors daily superintendent report with workers and their classifications listed on site for the day.

Random onsite inspections
Onsite, random inspections must be conducted on a regular basis to observe, interview workers and check hourly wage and classifications.

Close-out documentation and procedures

Final payroll
The district must verify project payrolls have been submitted by each prime contractor or subcontractor. The final payroll from each must be marked "final" by the contractor.

Final release of funds
Prior to final release of the funds, the payroll monitor for the district and the contract administrator review the log to verify all documentation has been received.

- In addition to monitoring all certified payroll records provided by the contractors, the LCP must investigate worker complaints of underpayment of prevailing wage rates. The major components and tasks related to this responsibility are as follows:

    - Gather supporting documents from all available sources and analyze for authenticity.
    - Conduct a complete certified payroll record (CPR) and/or project audit. Review CPRs for errors, inconsistencies, discrepancies, falsification, misclassification, under-reporting, and any other omissions that render the records inaccurate where needed by comparing the inspector of records daily log with all available records.

- On an as-needed basis according to the circumstances and issues that may arrive:

    - Calculate back wages and penalties using the proper wage determinations and trade classifications pursuant to the Department of Industrial Relations' Division of Labor Statistics and Research (DLSR) directives and records.
    - Review findings with contractor/subcontractor.
    - Write a complete summary of investigation with a statement of finding and recommended action for submission to the Department of Industrial Relations' Division of Labor Standards Enforcement for approval of withholdings.
    - Conduct settlement negotiations.
    - Testify on behalf of the school district in appeal hearings and in litigation.
    - Attend pre-bid and job-start meetings and monitor active construction projects.
    - Interview workers to validate complaints.

Chapter 7
Guidelines for prevailing wages

Labor code section 1771 requires that workers receive the general prevailing rate of per diem wages for work of a similar character in the locality in which the public work is performed, and the general prevailing rate of per diem wages for holiday and overtime work.

Prevailing wage rate determinations

The law requires that workers on a publicly-funded project must be paid the prevailing wage of the area in which the project is located. Prevailing wage rates are established by the director of the Department of Industrial Relations by various methods, and these rates are made available to the district, contractors, workers and the general public by the department's Division of Labor Statistics and Research (DLSR) or on their Web site at http://www.dir.ca.gov/DLSR/statistics_research.html. The rates are published twice each year as prevailing wage determinations. Some trades are issued regionally (northern or southern California) and other subtrades are issued by county in which the project is located.

Each wage determination for each classification of worker will indicate the basic wage rate and fringe benefit amounts which equal the total required wage for each classification of worker for straight time and overtime work.

If you need help with a special or unknown classification, you can submit a written request to the DLSR and they will make a determination.

The contractor is obligated to pay the full prevailing rate of per diem wages. He/she, however, may take credit for amounts up to the total of fringe benefit amounts listed as prevailing in the determination. The credit may be taken only for amounts which are actual payments as defined under the Employer Payments Section CCR 16000(1)-(3). If the total of employer payments for the fringe benefits listed is less than the aggregate amount in the wage determination, the contractor must pay the difference directly to the employee. No amount of credit for payments over the aggregate amount of employer payments shall be taken as a credit towards the hourly wage required to be paid.

The determinations indicate the amount required for straight-time work, overtime, holiday, and Saturday and Sunday work. There may be special requirements for the payment of overtime and Saturday/Sunday work, and these requirements will be indicated by footnotes. These footnotes should be examined carefully.

There are separate determinations issued for apprentices on public works. These footnotes should also be examined carefully.

Each wage determination will indicate when the determination will expire and whether the rate will increase during the project. A single asterisk after the expiration date indicates the rate is good for the life of the project.

A double asterisk after the expiration date indicates the rate for work performed after the expiration date has been determined. If work extends past that date, the new rate must be paid and should be incorporated in contracts entered into at the time of bid. Contact DLSR to obtain any predetermined increases.

Overtime
Work performed by employees on public works in excess of eight hours per day and 40 hours per week must be paid for at not less than one-and-one-half times the basic rate of pay (labor code section 1815). Each wage determination will specify the wage rate required for overtime pay. Failure to pay the required rate will subject the contractor to a penalty of $25 per worker per violation (labor code section 1813).

Holidays
Work performed on certain holidays may require the payment of overtime or double time. A list of designated holidays for each craft or classification of labor can be found on the Division of Labor Statistics and Research (DLSR) Web site at http://www.dir.ca.gov/DLSR/statistics_research.html. Each wage determination will specify the appropriate wage rate for holiday work.

Saturday/Sunday work
Most classifications of workers require the payment of overtime or double time for work performed on Saturdays and Sundays. Each wage determination will specify the required wage rate for this work. Pay attention to any footnotes that may contain exceptions or special requirements.

Travel/subsistence payments
Because the law requires that workers receive the general prevailing rate of per diem as part of the contractor's prevailing wage obligation, there may be a requirement to pay travel/subsistence. Many classifications require the payment of mileage or subsistence for traveling certain distances. These requirements are contained in the collective bargaining agreement on file with DLSR for each craft/classification of worker. You can download those requirements from the DLSR Web site at http://www.dir.ca.gov/DLSR/statistics_research.html.

Owner, operator, partners
The law prescribes that workers on a public works project receive prevailing wages. Owners, partners, owner-operators or officers of corporations performing labor on a prevailing wage project must be paid prevailing wage rates.

Chapter 8
Contractor's responsibility for certified payroll

The district must make sure contractors on the project are aware of their responsibilities to pay prevailing wages. This is done through the language in the general conditions of the bidding documents, the contract language and the pre-job meeting.

A partial list of the requirements follows:

- The contract executed between the prime contractor and the subcontractor for the performance of work on the public works project contains provisions of labor code sections 1771, 1775, 1777.5, 1813 and 1815.
- The prime contractor must monitor the specified determination rate of hourly wages paid by the subcontractor to employees by reviewing the payroll records of each subcontractor.
- Upon becoming aware of the failure of any subcontractor to pay workers the specified per diem wages, the prime contractor must halt or rectify the failure, including, but not limited to, retaining sufficient funds due the subcontractor for work performed on the public works project to cover the wage deficiency and;
- Before making final payment to the subcontractor for work performed on the public works project, the prime contractor must obtain an affidavit, signed under penalty of perjury, from the subcontractor, stating that he/she has paid the specified, determined prevailing wage rate of per hour wages to employees.
- The contractor must complete a non-performance report form when required. This form is completed when no work is performed on the project for a period of time. On the form the contractor states there was no payroll for a specific time period. All days for a project must be accounted for, including Saturdays, Sundays and holidays.
- Complete the Statement of Employer Payments. This form can be downloaded from http://www.dir.ca.gov/dlse/DLSEForm-PW26.pdf. It must be submitted at the time of bid acceptance. The prime contractor must inform the awarding body of any fringe benefit amounts paid on behalf of workers.
- In February and in August of each year during the project, verify changes in wage rates for the trade or classification used on the project. Send in a new statement of employer payments reflecting the changes in wages and/or fringes or training fees. It should be dated accordingly.

Contractor's responsibilities to apprentices

In addition to the items above, there are additional requirements of the contractor regarding the use of apprentices (sections 1777.5 and 1777.6 of the California Labor Code):

- Notify the local apprenticeship committee of the award of a contract by submitting a copy of a Division of Apprenticeship Standards (DAS 140) form for the trades involved. A copy of this form can be printed from http://www.dir.ca.gov/DAS/DASForm140.pdf.
- Request the dispatch of apprentices.

- Only employ apprentices who have a written apprenticeship agreement registered with the state, (DAS). Apprentices must be employed according to the ratio set by the apprenticeship program standards, but not less than a 1-to-5 hour ratio, measured against the number of journey person hours worked by the contractor for that particular trade. This rule applies to all apprenticeable trades, in accordance with the rules and regulation of the California Apprenticeship Council (CAC).
- Pay the apprentices the correct wages and benefits.
- Pay to either an apprenticeship committee approved by the DAS or the CAC the apprenticeship fees listed on the wage rate determination for each hour of work for all journey persons and apprentices of that craft on the project.

Penalties

Failure to pay prevailing wages to every worker on the project may result in the contractor being prohibited from bidding on public works projects for three years. In addition, wages not paid become forfeitures and can be collected from the contractor. Fines of up to $50 per day can also be assessed. The penalties are severe and range from misdemeanors to felonies (labor code sections 1777.5-1777). Although the fundamental obligation to pay prevailing wage rates rests with the contractor, ensuring payment also is important to the district.

Failure to pay required overtime wages will result in the assessment of $25 per worker per violation.

It is against the law for an employer or other person to accept any compensation from workers on a prevailing wage project. Anyone found guilty of accepting fees, bribes or any other form of compensation or kickbacks from a worker on a prevailing wage project is guilty of a felony. Any person or company that attempts to charge a fee for registration or information about public works employment is guilty of a misdemeanor.

Chapter 9
Audit, investigative and enforcement responsibilities

Introduction

Audit, investigative and enforcement responsibilities are the most challenging aspects of operating a labor compliance program. If these responsibilities are approached objectively and consistently, however, the challenges are far less daunting.

Audits should be conducted on a random or as-needed basis. An audit is the comparison of certified payroll records (CPRs) to records or documents maintained independent of CPRs or those records used to gather the information contained in CPRs. These are usually referred to as source documents and include but are not limited to front and back copies of cancelled checks, time cards, copies of pay check stubs, payroll registers, personnel sign in sheets, daily logs and any other document which authenticates or corroborates that which has been reported.

Investigative activities are the duties and tasks engaged in to verify the payment of prevailing wage rates upon receipt of a complaint or in conducting an audit of records. Prior to filing a Notice of Withholding of Contract Payments (see Appendix 2), a school district must demonstrate a thorough and objective investigation took place.

Consequently, all activities aimed at verifying a complaint or the accuracy of records must be documented and maintained in the event of an appeal or litigation.

Enforcement responsibility is extended to agencies by the Division of Labor Standards Enforcement (DLSE) that operate an LCP according to labor code section 1771.5. Enforcement encompasses activities that result in compliance with requirements to pay prevailing wage rates on public works projects. The most common aspect of enforcement is the assessment of penalties and the withholding of back wages owed to workers. It is of utmost importance to develop a fair and objective philosophy and criteria for enforcement and then consistently apply this criterion to each case. The most effective criteria for enforcement are simple written statements with the consequences of the failure to comply clearly stated.

Below is an outline of critical steps for document collection, which should be routinely applied in every prevailing wage violation case and particularly for those cases that lead to the filing of a Notice of Withholding of Contract Payments (see Appendix 2).

Case preparation and documentation guidelines

- Copy of worker complaint
  - Notes from worker interview.
  - Calendar of dates and hours worked.
  - Copies of check stubs or other form of proof of underpayment.
  - Document all attempts to authenticate the complaint.
  - Other supporting documentation where necessary.

- Copy of all correspondence to contractor
  - Job-start meeting checklist.
  - Initial notification of complaint.
  - Invitation to review the preliminary findings.

- Request for additional documentation such as canceled checks, check stubs, time cards, cash receipts, ledgers, etc.
- Log of all calls to contractor with notes about the content of discussion.

- Certified payroll records
  - For the period of time covered in the complaint and the corresponding audit.

- Inspector's daily log
  - Or another detailed record of work performed by date and the numbers of workers on project.
  - For the period of time covered in the complaint.

- Correct prevailing wage determination and applicable increases
  - For each classification appearing in the audit.

- Scope of work for trade classifications used
  - From Division Labor Statistics and Research (DLSR).

- Tabulation of bids
  - Advertisement date(s).
  - List of subcontractors.
  - Contract award amounts.
  - Description of project.

- Notice to proceed
  - Official project start and completion dates.
  - Duration of project.

- Notice of completion (if applicable)
  - With date stamp showing when it was recorded.
  - Any withholding or action must take place within 180 days from the date of recording.
  - Another 180 days is granted beyond this date if funds are still available in contract.

- Surety company information
  - The surety is entitled to receive a copy of any action taken or Notice of Withholding of Contract Payments filed.

- Contractor's previous record of violations (if applicable)
  - Formal actions and withholdings.
  - Informal actions and withholdings.

- The Notice of Withholding of Contract Payments (if applicable)
  - Always attach a copy of the audit spreadsheet.

- Release of Notice of Withholding of Contract Payments (if applicable)
  - Returns withheld funds.
  - Filed when a case is settled in whole or part.

- Filed when it is determined the violation did not occur.

- Memo to file
  - Explains circumstances and reasons for case closure without action.
  - Provides explanation and reasons for settlement and spells any agreements reached with contractor or other parties.

Chapter 10
Contact and resource information

Department Of Industrial Relations

For labor compliance program information when you have a question on the components of a LCP:

Troy Fernandez (415) 703-5070

Debbie Jimenez (415) 703-4810
E-mail info@dir.ca.gov

Requests for information are encouraged to be in writing or faxed to:

Department of Industrial Relations
Division of Labor Standards Enforcement
Labor compliance programs
Attn: Debbie Jimenez
455 Golden Gate Avenue, 9th floor
San Francisco, CA 94102
Fax: (415) 703-4807
Art Lujan, labor commissioner, contact: Debbie Jimenez (415) 703-4810

For California labor compliance program information when you have a question on the components of a LCP or on the labor code:

Division of Labor Standards Enforcement
Susan Nakagama, regional manager (562) 499-6308
Lauro Cons, senior deputy (213) 897-4231
Tom Fredericks, attorney (562) 590-5461
Contact: Lisa Cervantes (562) 499-6311

When you have questions about classifications and scope of work:

Division of Labor Statistics and Research
Headquarters and library address:
455 Golden Gate Avenue, 8th floor
San Francisco, CA 94102
(415) 703-4780
http://www.dir.ca.gov/DLSR/statistics_research.html

When you have questions about prevailing wage determinations or special determinations for a specific project:

Division of Labor Statistics and Research
Headquarters and library address:
455 Golden Gate Avenue, 8th floor
San Francisco, CA 94102
http://www.dir.ca.gov/DLSR/statistics_research.html

Mailing address:
Department of Industrial Relations
Division of Labor Statistics and Research
PO Box 420603
San Francisco, CA 94142
(415) 703-4780
Hotline: (415) 703-4774

Fax: (415) 703-4771

When you need to verify the status of an individual apprentice or an apprenticeship program:

Division of Apprenticeship Standards
455 Golden Gate Avenue, 8th floor
San Francisco, CA 94102
(415) 703-4920
Fax: (415) 703-5477

Notice of Withholding of Contract Payments

Awarding Body	Work Performed in County of
Project Name	Project No.
Prime Contractor	
Subcontractor	

After an investigation concerning the payment of wages to workers employed in the execution of the contract for the above-named public works project, the Labor Compliance Program for _____ _____ (A Labor Compliance Program) has determined that violations of the California Labor Code have been committed by the contractor and/or subcontractor identified above. In accordance with Labor Code sections 1771.5 and 1771.6, the Labor Compliance Program hereby issues this Notice of Withholding of Contract Payments.

The nature of the violations of the Labor Code and the basis for the assessment are as follows:

_____

_____

_____

_____

The Labor Compliance Program has determined that the total amount of wages due is: $_____

The Labor Compliance Program has determined that the total amount of penalties assessed under Labor Code sections 1775 and 1813 is: $_____

The Labor Compliance Program has determined that the amount of penalties assessed under Labor Code section 1776 is: $_____

Notice of Right to Obtain Review - Formal Hearing

In accordance with Labor Code sections 1742 and 1771.6, an affected contractor or subcontractor may obtain review of this Notice of Withholding of Contract Payments by transmitting a written request to the office of the Labor Compliance Program that appears below within 60 days after service of the notice. **To obtain a hearing, a written Request for Review must be transmitted to the following address:**

Labor Compliance Program

_____

Review Office-Notice of Withholding of Contract Payments

_____

_____

A **Request for Review** either shall clearly identify the Notice of Withholding of Contract Payments from which review is sought, including the date of the notice, or it shall include a copy of the notice as an attachment, and shall also set forth the basis upon which the notice is being contested. In accordance with Labor Code section 1742, the contractor or subcontractor shall be provided an opportunity to review evidence to be utilized by the Labor Compliance Program at the hearing within 20 days of the Labor Compliance Program's receipt of the written **Request for Review**.

Failure by a contractor or subcontractor to submit a timely Request for Review will result in a final order which shall be binding on the contractor and subcontractor, and which shall also be binding, with respect to the amount due, on a bonding company issuing a bond that secures the payment of wages and a surety on a bond. Labor Code section 1743.

In accordance with Labor Code section 1742(d), a certified copy of a final order may be filed by the Labor Commissioner in the office of the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the filing, shall enter judgment for the State against the person assessed in the amount shown on the certified order.

(continued on next page)

Opportunity for Settlement Meeting

In accordance with Labor Code Section 1742.1 (b), the Labor Compliance Program shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of this Notice of Withholding of Contract Payments, afford the contractor or subcontractor the opportunity to meet with the Labor Compliance Program's designee **to attempt to settle a dispute regarding the notice**. The settlement meeting may be held in person or by telephone and shall take place before the expiration of the 60-day period for seeking a hearing as set forth above under the heading Notice of Right to Obtain Review. No evidence of anything said or any admission made for the purpose of, in the course of, or pursuant to, the settlement meeting is admissible or subject to discovery in any administrative or civil proceeding. No writing prepared for the purpose of, in the course of, or pursuant to, the settlement meeting, other than a final settlement agreement, is admissible or subject to discovery in any administrative or civil proceeding. This opportunity to timely request an informal settlement meeting is **in addition** to the right to obtain a formal hearing, and a settlement meeting may be requested even if a written **Request for Review** has already been made. Requesting a settlement meeting, however, does not extend the 60-day period during which a formal hearing may be requested.

A written request to meet with the Labor Compliance Program's designee to attempt to settle a dispute regarding this notice must be transmitted to _____ at the following address:

_____

_____

_____

Liquidated Damages

In accordance with Labor Code section 1742.1, after 60 days following the service of this Notice of Withholding of Contract Payments, the affected contractor, subcontractor, and surety on a bond or bonds issued to secure the payment of wages covered by the notice shall be liable for liquidated damages in an amount equal to the wages, or portion thereof that still remain unpaid. If the notice subsequently is overturned or modified after administrative or judicial review, liquidated damages shall be payable only on the wages found to be due and unpaid. If the contractor or subcontractor demonstrates to the satisfaction of the Director of the Department of Industrial Relations that he or she had substantial grounds for believing the assessment or notice to be an error, the Director shall waive payment of the liquidated damages.

The Amount of Liquidated Damages Available Under this Notice is $_____.

Please be advised that the Request for Review identified above has been received and transmitted to the address indicated. Please be further advised that the governing procedures applicable to these hearings are set forth at Title 8, California Code of Regulations sections 17201-17270. These hearings are **not** governed by Chapter 5 of the Government Code, commencing with section 11500.

(b) An Enforcing Agency shall be deemed to have provided the opportunity to review evidence required by this Rule if it (1) gives the affected contractor or subcontractor the option at said party's own expense to either (i) obtain copies of all such evidence through a commercial copying service or (ii) inspect and copy such evidence at the office of the Enforcing Agency during normal business hours; or if (2) The Enforcing Agency at its own expense forwards copies of all such evidence to the affected contractor or subcontractor.
(c) The evidence required to be provided under this Rule shall include the identity of witnesses whose testimony the Enforcing Agency intends to present, either in person at the hearing or by declaration or affidavit. This provision shall not be construed as requiring the Enforcing Agency to prepare or provide any separate listing of witnesses whose identities are disclosed within the written materials made available under subpart (a).

(d) The Enforcing Agency shall make evidence available for review as specified in subparts (a) through (c) within 20 days of its receipt of the Request for Review; *provided that*, this deadline may be extended by written request or agreement of the affected contractor or subcontractor. The Enforcing Agency's failure to make evidence available for review as required by Labor Code Section 1742(b) and this Rule, shall preclude the enforcing agency from introducing such evidence in proceedings before the Hearing officer or the Director.

(e) This Rule shall not preclude the Enforcing Agency from relying upon or presenting any evidence first obtained after the initial disclosure of evidence under subparts (a) through (d), *provided that*, such evidence is promptly disclosed to the affected contractor or subcontractor. This Rule also shall not preclude the Enforcing Agency from presenting previously undisclosed evidence to rebut new or collateral claims raised by another party in the proceeding.@

In accordance with the above Rule, please be advised that the Labor Compliance Program's procedure for you to exercise your opportunity to review evidence is as follows:

Within five calendar days of the date of this notice, please transmit the attached Request to Review Evidence to the following address:

Appendix 6

Checklist of labor law requirements

District labor compliance program
(Pursuant to CCR 16430)

The federal and state labor law requirements applicable to the contract are composed of but not limited to the following:

1. **Payment of prevailing wage rates**
   The contractor to whom the contract is awarded and its subcontractors hired for the public works project are required to pay the specified general prevailing wage rates to all workers employed in the execution of the contract. The contractor's duty to pay prevailing wages under labor code section 1770 et seq., should the project exceed the exemption amounts.

   The contractor is responsible for ascertaining and complying with all current general prevailing wage rates for crafts and any rate changes that occur during the life of the contract. Information on all prevailing wage rates and all rate changes are to be posted at the job site for all workers to view.

2. **Apprentices**
   It is the duty of the contractor and subcontractors to employ registered apprentices on the public works project under labor code section 1777.5.

3. **Penalties**
   There are penalties required for contractor or subcontractor failure to pay prevailing wages (for nonexempt projects) and for failure to employ apprentices including forfeitures and debarment under labor code sections 1775, 1777.7 and 1813.

4. **Certified payroll records**
   Contractors and subcontractors are required to keep accurate payroll records showing the name, address, social security number and work classification of each employee and owner performing work, the straight time and overtime hours worked each day and each week, the fringe benefits, and the actual per diem wage paid to each owner, journeyperson, apprentice worker or other employee hired for the public works project under labor code section 1776.

   Employee payroll records shall be certified and shall be made available for inspection at all reasonable hours at the principal office of the contractor or subcontractor or shall be furnished to any employee, or his/her authorized representative on request, according to labor code section 1776.

   Each contractor and subcontractor shall submit its certified payroll record to the district on a weekly basis. If there was no work performed during a given week, the certified payroll record shall be annotated: "no work" for that week.

   There are penalties required for contractor/subcontractor's failure to maintain and submit copies of certified payroll records on request under labor code section 1776 (g).

5. **Nondiscrimination in employment**
Employment discrimination is prohibited under labor code sections 1735 and 1777.6, the government code, the public contracts code, and Title VII of the Civil Rights Act of 1964, as amended. All contractors and subcontractors are required to implement equal employment opportunity practices for women and minorities as delineated below:

   a. **Equal employment poster**
   The equal employment poster shall be posted at the job site in a conspicuous place, available to employees and applicants for employment and shall remain posted for the duration of the project.

6. **Kickbacks prohibited**
Contractors and subcontractors are prohibited from accepting, taking wages illegally or extracting "kickback" from employee wages under labor code section 1778.

7. **Acceptance of fees prohibited**
Contractors or subcontractors are prohibited from accepting fees for registering any person for public work under labor code section 1779 or for filling work orders on public works contracts pursuant to labor code section 1780.

8. **Listing of subcontractors**
All prime contractors are required to list properly all subcontractors hired to perform work on the public works projects covering more than one-half of 1 percent, according to government code section 4100 et seq.

9. **Proper licensing**
Contractors are required to be licensed properly and to require that all subcontractors be properly licensed. Penalties are required for employing workers while unlicensed under labor code section 1021 and under the California Contractor License Law found at business and professions code section 7000 et seq.

10. **Unfair competition prohibited**
Contractors and subcontractors are prohibited from engaging in unfair competition as specified under business and professions code sections 17200 to 17208.

11. **Workers' compensation insurance**
Labor code section 1861 requires contractors and subcontractors be insured properly for workers' compensation.

12. **OSHA**
Contractors and subcontractors are required to abide by the occupational, safety and health laws and regulations that apply to the particular construction project.

ANTIOCH UNIFIED SCHOOL DISTRICT

LABOR COMPLIANCE PROGRAM

INTRODUCTION

The Antioch Unified School District institutes this Labor Compliance Program for the purpose of implementing its policy relative to the labor compliance provisions of state and federally funded public works contracts.

This program is applicable to all public works projects which are funded under the Kindergarten-University Public Education Facilities Bond Acts of 2002 or 2004 and which commence construction after April 1, 2003.

California Labor Code Section 1770, et seq., and Education Code Section 17424 require that contractors on public works projects pay their workers based on the prevailing wage rates which are established and issued by the Department of Industrial Relations, Division of Labor Statistics and Research.

California Labor Code Section 1776 requires contractors to keep accurate payroll records of trades workers on all public works projects and to submit copies of certified payroll records upon request.

California Labor Code Section 1777.5 requires contractors to employ registered apprentices on public works projects.

This labor compliance program ("LCP") contains the labor compliance standards required by state and federal laws, regulations, and directives, as well as School District policies and contract provisions, which include, but are not limited to, the following:

1. Contractors' payment of applicable general prevailing wage rates.
2. Contractors' employment of properly registered apprentices.
3. Contractors' providing certified payroll records upon request but not less than weekly.
4. Program's monitoring District construction sites for the verification of proper payments of prevailing wage rates and work classification.
5. Program's conducting pre-job conferences with contractors/subcontractors.
6. Program's withholding contract payments and imposing penalties for noncompliance.
7. Program's preparation and submittal of annual reports.

The Labor Compliance Officer ("LCO") is the School District's representative for enforcement of the LCP.

ANTIOCH UNIFIED SCHOOL DISTRICT

LABOR COMPLIANCE PROGRAM

LABOR COMPLIANCE PROGRAM

ANTIOCH UNIFIED SCHOOL DISTRICT

LABOR COMPLIANCE PROGRAM

TABLE OF CONTENTS

INTRODUCTION

The Antioch Unified School District institutes this Labor Compliance Program ("LCP") for the purpose of implementing its policy relative to the labor compliance provisions of state and federally-funded public works contracts and specifically to comply with the provisions of Labor Code section 1771.7 pertaining to the use of funds derived from either the Kindergarten-University Public Facilities Bond Act of 2002 or the Kindergarten-University Public Facilities Bond Act of 2004. This LCP contains the labor compliance standards required by state and federal laws, regulations, and directives, as well as School District policies and contract provisions.

The California Labor Code Section 1770, et seq., and Education Code Section 39321 require that contractors on public works projects pay their workers based on the prevailing wage rates which are established and issued by the Department of Industrial Relations, Division of Labor Statistics and Research.

In establishing this LCP, the District adheres to the statutory requirements as enunciated in Section 1771.5(b) of the Labor Code. Further, it is the intent of the District to actively enforce this LCP by monitoring District construction sites for the payment of prevailing wage rates, and by requiring contractors and subcontractors having workers on District sites to submit copies of certified payroll records demonstrating their compliance with the payment of prevailing wage rates.

Should applicable sections of the Labor Code or Title 8 of the California Code of Regulations undergo alteration, amendment, or deletion, Antioch Unified School District will modify the affected portions of this program accordingly.

SECTION I
PUBLIC WORKS SUBJECT TO PREVAILING WAGE LAWS

State prevailing wage rates apply to all public works contracts as set forth in Labor Code Sections 1720 *et seq.*, and include, but are not limited to, such types of work as construction, alteration, demolition, repair, or maintenance work. The Division of Labor Statistics and Research (DLSR) predetermines the appropriate prevailing wage rates for particular construction trades and crafts by county.

A. Types of Contracts to Which Prevailing Wage Requirements Apply

As provided in Labor Code section 1771.7(a) and (b), an awarding body that chooses to use funds derived from either the Kindergarten-University Public Education Facilities Bond Act of 2002 or the Kindergarten-University Public Education Facilities Bond Act of 2004 shall initiate and enforce a Labor Compliance Program as described in subdivision (b) of section 1771.5 of the Labor Code with respect to that public works project. Accordingly, upon approval by the Director of the Department of Industrial Relations, this awarding body LCP shall apply to public works using funds derived from those Bond Acts which commence on or after April 1, 2003.

B. Applicable Dates for Enforcement of the LCP

The applicable dates for enforcement of awarding body Labor Compliance Programs is established by Section 16425 of the California Code of Regulations. Contracts are not subject to the jurisdiction of the Labor Compliance Program until after the program has received initial or final approval.

SECTION II
COMPETITIVE BIDDING ON DISTRICT PUBLIC WORKS CONTRACTS

The District publicly advertises upcoming public works projects to be awarded according to a competitive bidding process. All District bid advertisements (or bid invitations) and public works contracts shall contain appropriate language concerning the requirements of the Labor Code.

SECTION III
JOB START MEETING

After the District awards the public works contract, and prior to the commencement of the work, a mandatory Job Start meeting (Pre-Job conference) shall be conducted by the LCO with the contractor and those subcontractors listed in its bid documents.

At that meeting, the LCO will discuss the federal and state labor law requirements applicable to the contract, including prevailing wage requirements, the respective record keeping responsibilities, the requirement for the submittal of certified payroll records to the District, and the prohibition against discrimination in employment.

The LCO will provide the contractor and each subcontractor with a Checklist of Labor Law Requirements (presented as Attachment A to this document) and will discuss in detail the following checklist items:

1. The contractor's duty to pay prevailing wages (Labor Code Section 1770 *et seq.*);

2. The contractor's duty to employ registered apprentices on public works projects (Labor Code Section 1777.5);

3. The penalties for failure to pay prevailing wages and to employ apprentices, including forfeitures and debarment (Labor Code Sections 1775, 1777.7, and 1813);

4. The requirement to maintain and submit copies of certified payroll records to the District, on a weekly basis, as required (Labor Code Section 1776), and penalties for failure to do so (Labor Code Section 1776(g)); The requirement includes and applies to all subcontractors performing work on district projects even if their portion of the work is less than one half of one percent of the total amount of the contract.

5. The prohibition against employment discrimination (Labor Code Sections 1735 and 1777.6; the Government Code; and Title VII of the Civil Rights Act of 1964, as amended);

6. The prohibition against taking or receiving a portion of an employee's wages (Labor Code Section 1778) (kickback);

7. The prohibition against accepting fees for registering any person for public works (Labor Code Section 1779) or for filing work orders on public works (Labor Code Section 1780);

8. The requirement to list all subcontractors that are performing one-half of one percent of the total amount of the contract (Public Contract Code Section 4100 *et seq.*);
9. The requirement to be properly licensed and to require all subcontractors to be properly licensed, and the penalty for employing workers while unlicensed (Labor Code Section 1021 and under California Contractors License Law. Also, see Business and Professions Code Section 7000, et seq;

10. The prohibition against unfair competition (Business and Professions Code Sections 17200-17208);

11. The requirement that the contractor and subcontractor be properly insured for Workers' Compensation (Labor Code Section 1861);

12. The requirement that the contractor abide by the Occupational Safety and Health laws and regulations that apply to the particular public works project.

The contractors and subcontractors present at the Job Start meeting will be given the opportunity to ask questions of the LCO relative to the items contained in the Labor Law Requirements Checklist. The checklist will then be signed by the contractor's representative and the District's LCO, **a representative of each subcontractor**, and the LCO.

At the Job Start meeting, the LCO will provide the contractor with a copy of the District's LCP package which includes: a copy of the approved LCP, the checklist of Labor Law Requirements, applicable Prevailing Wage Rate Determinations, blank certified payroll record forms, fringe benefit statements, State apprenticeship requirements, and a copy of the Labor Code relating to Public Works and Public Agencies (Part 7, Chapter 1, Sections 1720-1861).

It will be the contractor's responsibility to provide copies of the LCP package to all listed subcontractors and to any substituted subcontractors.

SECTION IV
REVIEW OF CERTIFIED PAYROLL RECORDS

A. Certified Payroll Records Required

The contractor and each subcontractor shall maintain payrolls and basic records (timecards, canceled checks, cash receipts, trust fund forms, accounting ledgers, tax forms, superintendent and foreman daily logs, etc.) during the course of the work and shall preserve them for a period of three (3) years thereafter for all trades workers working on District projects which are subject to the LCP. Such records shall include the name, address, and social security number of each worker, his or her classification, a general description of the work each employee performed each day, the rate of pay (including rates of contributions for, or costs assumed to provide fringe benefits), daily and weekly number of hours worked, and actual wages paid.

1. Submittal of Certified Payroll Records

The contractor and each subcontractor shall maintain weekly certified payroll records for submittal to the Antioch Unified School District LCO as required. The contractor shall be responsible for the submittal of payroll records of all its subcontractors. All certified payroll records shall be accompanied by a statement of compliance signed by the contractor or each subcontractor indicating that the payroll records are correct and complete, that the wage rates contained therein are not less than those determined by the Director of the Department of Industrial Relations, and that the classifications set forth for each employee conform with the work performed.

Time cards, front and back copies of cancelled checks, daily logs, employee sign-in sheets and/or any other record maintained for the purposes of reporting payroll may be requested by the Labor Compliance Officer at any time and shall be provided within 10 days following the receipt of the request.

2. Full Accountability

Each individual, laborer or craftsperson working on a public works contract must appear on the payroll. The basic concept is that the employer who pays the trades worker must report that individual on its payroll. This includes individuals working as apprentices in an apprenticeable trade. Owner-operators are to be reported by the contractor employing them, rental equipment operators are to be reported by the rental company paying the workers' wages.

Sole owners and partners who work on a contract must also submit a certified payroll record listing the days and hours worked, and the trade classification descriptive of the work actually done.

The contractor shall provide the records required under this section to the School District within five (5) days of each payday, and available for inspection by the Department of Industrial Relations, and shall permit representatives of each to interview tradesworkers during working hours on the project site.

3. Responsibility for Subcontractors

The contractor shall be responsible for ensuring adherence to labor standards provisions by its subcontractors. Moreover, the prime contractor is responsible for Labor Code violations of its subcontractors in accordance with Labor Code section 1775.

4. Payment to Employees

Employees must be paid unconditionally, and not less often than once each week, the full amounts, that are due and payable for the period covered by the particular payday. Thus, an employer must establish a fixed workweek (Sunday through Saturday, for example) and an established payday (such as every Friday or the preceding day should such payday fall on a holiday). On each and every payday, each worker must be paid all sums due as of the end of the preceding workweek and must be provided with an itemized wage statement.

If an individual is called a subcontractor, whereas, in fact, he/she is merely a journey level mechanic supplying only his/her labor, such an individual would not be deemed a bona fide subcontractor and must be reported on the payroll of the prime contractor as a trades worker. Moreover, any person who does not hold a valid contractor's license cannot be a subcontractor, and anyone hired by that person is the worker or employee of the general contractor for purposes of prevailing wage requirements, certified payroll reporting and workers' compensation laws.

The worker's rate for straight time hours must equal or exceed the rate specified in the contract by reference to the "Prevailing Wage Determinations" for the class of work actually performed. Any work performed on Saturday, Sunday, and/or on a holiday, or portion thereof, must be paid the prevailing rate established for those days regardless of the fixed workweek. The hourly rate for hours worked in excess of 8 hours in a day and 40 hours in a workweek shall be premium pay. All work performed on Saturday, Sunday and holidays shall be paid pursuant to the Prevailing Wage determination.

B. Apprentices

Apprentices shall be permitted to work as such only when they are registered, individually, under a bona fide apprenticeship program registered and approved by the State Division of Apprenticeship Standards. The allowable ratio of apprentices to journeypersons in any craft/classification shall not be greater than the ratio permitted to the contractor as to its entire workforce under the registered program.

Any worker listed on a payroll at an apprentice wage rate who is not registered shall be paid the journey level wage rate determined by the Department of Industrial Relations for the classification of the work he/she actually performed. Pre-apprentice trainees, trainees in non-apprenticeable crafts, and others who are not duly registered will not be permitted on public works projects unless they are paid full prevailing wage rates as journeypersons.

Compliance with California Labor Code Section 1777.5 requires all public works contractors and subcontractors to:

1. Submit contract award information to the apprenticeship committee for each apprenticeable craft or trade in the area of the Project;

2. Request dispatch of apprentices from the applicable Apprenticeship Program(s) and employ apprentices on public works projects in a ratio to journeypersons which in no case shall be less than one (1) hour of apprentice work to each five (5) hours of journeyperson work; and

3. Contribute to the applicable Apprenticeship Program(s) or the California Apprenticeship Council in the amount identified in the prevailing wage rate publication for journeypersons and apprentices. If payments are not made to an Apprenticeship Program, they shall be made to the California Apprenticeship Council, Post Office Box 420603, San Francisco, CA 94142.

If the contractor is registered to train apprentices, it shall furnish written evidence of the registration (i.e., Apprenticeship Agreement or Statement of Registration) of its training program and apprentices, as well as the ratios allowed and the wage rates required to be paid thereunder for the area of construction, prior to using any apprentices in the contract work. It should be noted that a prior approval for a separate project does not confirm approval to train on any project. The contractor/subcontractor must check with the applicable Joint Apprenticeship Committee to verify status.

C. Audit of Certified Payroll Records

Audits shall be conducted by the LCO, and shall also be conducted at the request of the Labor Commissioner to determine whether all tradesworkers on project sites have been paid according to the prevailing wage rates.

The audit record form (presented as Attachment B) demonstrates the sufficient detail that is necessary to verify compliance with Labor Code requirements.

SECTION V
REPORTING OF WILLFUL VIOLATIONS TO THE LABOR COMMISSIONER

If an investigation reveals that a willful violation of the Labor Code has occurred, the LCO will make a written report to the Labor Commissioner which shall include: (1) an audit consisting of a comparison of payroll records to the best available information as to the actual hours worked, (2) the classification of workers employed on the public works contract. Six (6) types of willful violations are reported:

A. Failure to Comply with Prevailing Wage Rate Requirements Failure to comply with prevailing wage rate requirements (as set forth in the Labor Code and District contracts) is determined a willful violation whenever less than the stipulated basic hourly rate is paid to tradesworkers, or if overtime, holiday rates, fringe benefits, and/or employer payments are paid at a rate less than stipulated.

B. Falsification of Payroll Records, Misclassification of Work, and/or Failure to Accurately Report Hours of Work Falsification of payroll records and failure to accurately report hours of work is characterized by deliberate underreporting of hours of work; underreporting the headcount; stating that the proper prevailing wage rate was paid when, in fact, it was not; clearly misclassifying the work performed by the worker; and any other deliberate and/or willful act which results in the falsification or inaccurate reporting of payroll records.

C. Failure to Submit Certified Payroll Records The contractors and subcontractors shall have ten (10) days upon notification by the LCO in which to comply with the requirement of submittal of weekly and/or to correct inaccuracies or omissions that have been detected.

D. For Failure to Pay Fringe Benefits Fringe benefits are defined as the amounts stipulated for employer payments or trust fund contributions and are determined to be part of the required prevailing wage rate. Failure to pay or provide fringe benefits and/or make trust fund contributions on a timely basis is equivalent to payment of less than the stipulated wage rate and shall be reported to the Labor Commissioner as a willful violation, upon completion of an investigation and audit.

E. Failure to Pay the Correct Apprentice Rates and/or Misclassification of Workers as Apprentices Failure to pay the correct apprentice rate or classifying a worker as an apprentice when not properly registered is equivalent to payment of less than the stipulated wage rate and shall be reported to the Labor Commissioner, as a willful violation, upon completion of an investigation and audit.

F. For the taking of Kickbacks Accepting or extracting kickbacks from employee wages under Labor Code Section 1778 constitutes a felony and may be prosecuted by the appropriate enforcement agency.

SECTION VI
ENFORCEMENT ACTION

A. Duty of the Awarding Body

The Antioch Unified School District, as the awarding body having an approved LCP, has a duty to the Director of the Department of Industrial Relations to enforce Labor Code section 1720 *et seq.* and the procedural regulations of the Department of Industrial Relations in a manner consistent with the practice of DLSE and regulations found at Title 8, California Code Regulations, Section 16000 *et seq.*

B. Withholding Contract Payments When Payroll Records are Delinquent or Inadequate

1. "Withhold" means to cease payments by the awarding body, its agents or others who pay on its behalf to the contractor. Where the violation is by a subcontractor, the contractor shall be notified of the nature of the violation and reference made to its rights under Labor Code Section 1729.

   A release bond under Civil Code Section 3196 may not be posted for the release of the funds being withheld for the violation of the prevailing wage law.

2. "Contracts" except as otherwise provided by agreement, means only contracts under a single master contract, or contracts entered into as stages of a single project which may be the subject of withholding, pursuant to the Labor Code, Sections 1720, 1720.2, 1720.3, 1720.4, 1771, and 1771.5;

3. "Delinquent payroll records" means those not submitted on the basis set forth in the District Contract and the LCP;

4. "Inadequate payroll records" are any one of the following:

   a. A record lacking the information required by Labor Code Section 1776;

   b. A record which contains the required information but which is not certified, or certified by someone not an agent of the contractor or subcontractor;

   c. A record remaining uncorrected for one payroll period, after the awarding body has given the contractor notice of inaccuracies detected by audit or record review; provided, however, that prompt correction will stop any duty to withhold if such inaccuracies do not amount to 1 percent of the entire certified weekly payroll in dollar value and do not affect more than half the persons listed as workers employed on that certified weekly payroll, as defined in Labor Code Section 1776 and Title 8 CCR Section 16401. Prompt correction will stop any duty to withhold if such inaccuracies are *de minimus*.

   Pursuant to Labor Code Section 1776, the contractor shall, as a penalty to the School District, forfeit twenty-five dollars ($25) for each calendar day, or portion there of, for each worker, until strict compliance is effectuated.

C. Withholding for Violation for Not Paying the Per Diem Prevailing Wages

1. "Amount equal to the underpayment" is the total of the following determined by payroll review, audit, or admission of the contractor or subcontractor:

   a. The difference between the amounts paid to workers and the correct General Prevailing Wage Rate of Per Diem Wages as defined in Title 8, CCR Section 16000, et seq.;

   b. The difference between the amounts paid to workers and the correct amounts of employer payments, as defined in Title 8 CCR Section 16000 *et seq.* and determined to be part of the prevailing rate costs of contractors due for employment of workers in such craft, classification, or trade in which they were employed and the amounts paid;

   c. Estimated amounts of "illegal taking of wages"; and

   d. Amounts of apprenticeship training contributions paid to neither the program sponsor's training trust nor the California Apprenticeship Council.

2. Provisions relating to the penalties under Labor Code Sections 1775, and 1813:

   a. Pursuant to Labor Code Section 1775, the contractor shall, as a penalty to the School District, forfeit up to fifty dollars ($50) for each calendar day, or portion thereof, for each worker paid less than the prevailing wages.

   b. Pursuant to Labor Code section 1813, the contractor shall, as a penalty to the School District on whose behalf the contract is awarded, forfeit twenty-five dollars ($25) for each worker employed in the execution of the contract by the contractor or by any subcontractor for each calendar day during which such worker is required or permitted to work more than 8 hours in any one calendar day and 40 hours in any one calendar week.

D. Forfeitures Requiring Approval by the Labor Commissioner

1. "Forfeitures" are the amounts of unpaid penalties and wages assessed by the School District for violations of the prevailing wage laws, whether collected by withholding from the contract amount, by suit under the contract, or both.

2. "Failing to pay the correct rate of prevailing wages" means those public works violations which the Labor Commissioner has exclusive authority to approve before they are recoverable by the Labor Compliance Program, and which are appealable by the contractor before the Director of the Department of Industrial Relations under Labor Code sections 1742 and 1742.1 pursuant to the California Code of Regulations Title 8, Chapter 8, Subchapter 8 (§§ 17201 through 17270). Regardless of what is defined as prevailing "wages in contract terms, noncompliance with the following are considered failures to pay prevailing wages:

   a. Nonpayment of items defined as "Employer Payments" and "General Prevailing Rate of Per Diem Wages" in Title 8 CCR Section 16000 and Labor Code Section 1771.

   b. Failure to provide complete and accurate payroll records, as required by Labor Code Section 1776;

   c. Paying apprentice wages lower than the journey level rate to a worker who is not an apprentice as defined in Labor Code Section 3077, working under an apprentice agreement in a recognized program;

   d. Accepting or extracting kickbacks, in violation of Labor Code Section 1778;

   e. Engaging in prohibited actions related to fees for registration as a public works employee, in violation of Labor Code Section 1779;

   f. Failure to pay overtime for work over 8 hours in any one day or 40 hours in any one week, in violation of Labor Code sections 1813, 1815, or Title 8 CCR section 16200(a)(3)(F).

E. Determination of Amount of Forfeiture by the Labor Commissioner

1. Where the LCO requests a determination of the amount of forfeiture, the request shall include a file or report to the Labor Commissioner which contains at least the following information:

   a. The date that the public work was accepted, and the date that a notice of completion was filed;

   b. Any other deadline which, if missed, would impede collection;

   c. Evidence of violation in narrative form;

   d. Evidence that an "audit" or "investigation" occurred in compliance with Title 8 CCR section 16432;

   e. Evidence that the contractor was given the opportunity to explain why it believes there was no violation; or that any violation was caused by mistake, inadvertence, or neglect before the forfeiture was sent to the Labor Commissioner, and the contractor either did not do so or failed to convince the awarding body of its position;

   f. Where the School District seeks not only amounts of wages but also a penalty as part of the forfeiture, and the contractor has unsuccessfully contended that the cause of violation was a mistake, inadvertence, or neglect, a statement should accompany the proposal for a forfeiture with a recommended penalty amount, pursuant to Labor Code Section 1775;

g. Where the School District seeks only wages or a penalty less than $50 per day as part of the forfeiture, and the contractor has successfully contended that the cause of violation was a mistake, inadvertence, or neglect, then the file should include the evidence as to the contractor's knowledge of its obligation, including the Program's communication to the contractor of the obligation in the bid invitations, at the pre-job conference agenda and records, and any other notice given as part of the contracting process. Included with the file should be a statement similar to that described in subsection (f) above and recommended penalty amounts, pursuant to Labor Code Section 1775;

h. The previous record of the contractor in meeting prevailing wage obligations.

2. The file or report shall be served on the Labor Commissioner not less than 30 days before the final payment or, if that deadline has passed, not less than 180 days following the filing of the notice of completion as long as funds remain in the contract.

3. A copy of the file or report shall be served on the contractor at the same time as it is sent to the Labor Commissioner.

   The School District may exclude from the documents served on the contractor/subcontractor or surety copies of documents secured from these parties during an audit, investigation, or meeting if those documents are clearly referenced in the file or report.

4. The Labor Commissioner shall affirm, reject, or modify the forfeiture in whole or in part as to penalty and/or wages due.

5. The determination of the forfeiture by the Labor Commissioner is effective on the following date for Labor Compliance Programs having **initial approval** pursuant to Section 16426 of the California Code of Regulations: on the date the Labor Commissioner serves by first class mail on the Antioch Unified School District and on the contractor, an endorsed copy of the proposed forfeiture, or a drafted forfeiture statement which sets out the amount of forfeiture approved. Service on the contractor is effective if made on the last address supplied by the contractor in the record.

   The Labor Commissioner's approval, modification, or disapproval of the proposed forfeiture shall be served within 30 days of receipt of the proposed forfeiture.

F. Deposits of Penalties and Forfeitures Withheld

1. Where the involvement of the Labor Commissioner has been limited to a determination of the actual amount of penalty, forfeiture, or underpayment of wages, and the matter has been resolved without litigation by or against the Labor Commissioner, the School District shall deposit penalties and forfeitures into its General Fund.

2. Where collection of fines, penalties, or forfeitures results from court action to which the Labor Commissioner and the Antioch Unified School District are both parties, the fines, penalties, or forfeitures shall be divided between the General Funds of the State and the Antioch Unified School District, as the court may decide.

3. All amounts recovered by suit brought by the Labor Commissioner, and to which the Antioch Unified School District is not a party, shall be deposited in the General Fund of the State of California.

4. All wages and benefits which belong to a worker and are withheld or collected from a contractor or subcontractor, either by withholding or as a result of court action pursuant to Labor Code Section 1775, and which have not been paid to the worker or irrevocably committed on the worker's behalf to a benefits fund, shall be deposited with the Labor Commissioner, who will deal with such wages and benefits in accordance with Labor Code Section 96.7.

G. Debarment Policy

1. It is the policy of the School District that the public works prevailing wage requirements set forth in the California Labor Code, Section 1720-1861, be strictly enforced. In furtherance thereof, construction contractors and subcontractors found to be repeat violators of the California Labor Code shall be referred to the Labor Commissioner for debarment from bidding on or otherwise being awarded any public work contract, within the state of California, for the performance of construction and/or maintenance services for the period not to exceed three (3) years in duration. The duration of the debarment period shall depend upon the nature and severity of the labor code violations and any mitigating and/or aggravating factors, which may be presented at the hearing conducted by the Labor Commissioner for such purpose.

SECTION VII
NOTICE OF WITHHOLDING AND REVIEW THEREOF

A. Notice of Withholding of Contract Payments

After determination of the amount of forfeiture by the Labor Commissioner, the School District shall provide notice of withholding of contract payments to the contractor and subcontractor, if applicable. The notice shall be in writing and shall describe the nature of the violation and the amount of wages, penalties, and forfeitures withheld. Service of the notice shall be completed pursuant to Section 1013 of the Code of Civil Procedure by first-class and certified mail to the contractor and subcontractor, if applicable. The notice shall advise the contractor and subcontractor, if applicable, of the procedure for obtaining review of the withholding of contract payments. The awarding body shall also serve a copy of the notice by certified mail to any bonding company issuing a bond that secures the payment of wages covered by the notice and to any surety on a bond, if their identities are known to the awarding body. **A copy of the Notice of Withholding of Contract Payments (NWCP) to be utilized by the School District is found as Attachment D to this document.**

B. Review of NWCP

1. An affected contractor or subcontractor may obtain review of a NWCP under this chapter by transmitting a written request to the office of the LCP that appears on the NCWP within 60 days after service of the NWCP. If no hearing is requested within 60 days after service of the NWCP, the NWCP shall become final.

2. Within ten days following the receipt of the request for review, the LCP shall transmit to the Office of the Director-Legal Unit the request for review and copies of the Notice of Withholding of Contract Payments, any audit summary that accompanied the notice, and a proof of service or other documents showing the name and address of any bonding company or surety that secures the payment of the wages covered by the notice. **A copy of the required Notice of Transmittal to be utilized by the School District is found as Attachment E to this document.**

3. Upon receipt of a timely request, a hearing shall be commenced within 90 days before the director, who shall appoint an impartial hearing officer possessing the qualifications of an administrative law judge pursuant to subdivision (b) of Section 11502 of the Government Code. The appointed hearing officer shall be an employee of the department, but shall not be an employee of the Division of Labor

Standards Enforcement. The contractor or subcontractor shall be provided an opportunity to review evidence to be utilized by the LCP at the hearing within 20 days of the receipt of the written request for a hearing. Any evidence obtained by the LCP subsequent to the 20-day cutoff shall be promptly disclosed to the contractor or subcontractor. **A copy of a Notice of Opportunity to Review Evidence Pursuant to Labor Code Section 1742(b) form is found as Attachment F to this document.**

The contractor or subcontractor shall have the burden of proving that the basis for the NWCP is incorrect. The NWCP shall be sufficiently detailed to provide fair notice to the contractor or subcontractor of the issues at the hearing.

Within 45 days of the conclusion of the hearing, the director shall issue a written decision affirming, modifying, or dismissing the assessment. The decision of the director shall consist of a notice of findings, findings, and an order. This decision shall be served on all parties pursuant to Section 1013 of the Code of Civil Procedure by first-class mail at the last known address of the party on file with the LCP. Within 15 days of the issuance of the decision, the director may reconsider or modify the decision to correct an error, except that a clerical error may be corrected at any time.

The director has adopted regulations setting forth procedures for hearings under this subdivision. **The regulations are found as Attachment G to this document.**

4. An affected contractor or subcontractor may obtain review of the decision of the director by filing a petition for a writ of mandate to the appropriate superior court pursuant to Section 1094.5 of the Code of Civil Procedure within 45 days after service of the decision. If no petition for writ of mandate is filed within 45 days after service of the decision, the order shall become final. If it is claimed in a petition for writ of mandate that the findings are not supported by the evidence, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in the light of the whole record.

5. A certified copy of a final order may be filed by the Labor Commissioner in the office of the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the filing, shall enter judgment for the state against the person assessed in the amount shown on the certified order.

6. A judgment entered pursuant to this procedure shall bear the same rate of interest and shall have the same effect as other judgments and shall be given the same preference allowed by law on other judgments rendered for claims for taxes. The clerk shall not charge for the service performed by him or her pursuant to this section.

7. This procedure shall provide the exclusive method for review of a NWCP by the School District to withhold contract payments pursuant to Section 1771.7.

SECTION VIII
DISTRIBUTION OF FORFEITED SUMS

1. Before making payments to the contractor of money due under a contract for public work, the School District shall withhold and retain therefrom all amounts required to satisfy the NWCP. The amounts required to satisfy the NWCP shall not be disbursed by the School District until receipt of a final order that is no longer subject to judicial review.

2. Pending a final order, or the expiration of the time period for seeking review of the notice of the withholding, the School District shall not disburse any contract payments withheld.

3. From the amount recovered, the wage claim shall be satisfied prior to the amount being applied to penalties. If insufficient money is recovered to pay each worker in full, the money shall be prorated among all workers employed on the public works project who are paid less than the prevailing wage rate shall have **PRIORITY** over all Stop Notices filed against the prime contractor.

4. Wages for workers who cannot be located shall be placed in the Industrial Relations Unpaid Fund and held in trust for the workers pursuant to Section 96.7. Penalties shall be paid into the General Fund of the School District that has enforced this chapter pursuant to Section 1771.7.

SECTION IX
OUTREACH ACTIVITIES

To ensure the successful implementation of the District's Labor Compliance Program, there shall be several outreach activities initiated and maintained.

A. Providing Information to the Public

The Labor Compliance Officer shall be responsible for communication and outreach activities relative to public information on the District's Labor Compliance Program:

1. Regular presentations to contractors at all District Job Walk Meetings (Pre-Bid conferences) and Job Start Meetings (Pre-Job conferences);

2. Ongoing communication via correspondence and with workers at District job sites when review of the certified payroll records reveals the possibility of prevailing wage violations.

3. Periodic meetings with contractor organizations, prime contractors and subcontractors interested in public works contracting with the District.

B. In-service Management training on the Labor Compliance Program

The Labor Compliance Program shall provide ongoing management in-servicing and workshops for Facilities, Business, Accounting and legal staff relative to the terms, requirements and administration of the Labor Compliance Program.

SECTION X
ANNUAL REPORTS

A. Annual Report on Prevailing Wage Monitoring to the AUSD Superintendent and Board of Education

The LCO will submit to the AUSD Superintendent and Board of Education an annual report on prevailing wage monitoring which will include the following information:

1. Progress report on the LCP.

2. Fiscal year-end summary of:

    a. Monitoring activities
    b. Record keeping activities
    c. Labor Code violations identified and reported to DLSE
    d. Statistical analysis of the prevailing wage violations on District public works projects
    e. Summary of outreach activities

B. Annual Report on the LCP to the Director of the Department of Industrial Relations

The LCO will submit to the Director of the Department of Industrial Relations an annual report on the operation of its LCP within 60 days after the end of its fiscal year, or accompany its request for an extension of initial approval, whichever comes first. The annual report will contain, as a minimum, the following information:

1. Number of public works contracts awarded using Bond Act funds, and their total value;

2. A summary of wages due to workers resulting from failure by contractors to pay prevailing wage rates; the total amount withheld from money due the contractors; and the total amount recovered by action in any court of competent jurisdiction;

3. A summary of penalties and forfeitures imposed and withheld, or recovered in a court of competent jurisdiction; and

4. A special summary of all audits that were conducted upon the request of the Labor Commissioner.

Copies of this report will be distributed to the Director of the Department of Industrial Relations, AUSD Superintendent and the Board of Education.

ATTACHMENT A

ANTIOCH UNIFIED SCHOOL DISTRICT
LABOR COMPLIANCE PROGRAM

CHECKLIST OF LABOR LAW REQUIREMENTS
FOR REVIEW AT JOB START MEETINGS
(In accordance with CCR Section 16430)

The federal and state labor law requirements applicable to the contract are composed of, but not limited to, the following:

1. Payment of Prevailing Wage Rates

   The award of a public works contract requires that all workers employed on the project be paid not less than the specified general prevailing wage rates by the contractor and its subcontractors.

   The contractor is responsible for obtaining and complying with all applicable general prevailing wage rates for tradesworkers and any rate changes, which may occur during the term of the contract. Prevailing wage rates and rate changes are to be posted at the job site for workers to view.

2. Apprentices

   It is the duty of the contractor and subcontractors to employ registered apprentices on public works projects per Labor Code Section 1777.5;

3. Penalties
   Penalties, including forfeitures and debarment, shall be imposed for contractor/subcontractor failure to pay prevailing wages, failure to maintain and submit accurate certified payroll records upon request, failure to employ apprentices, and for failure to pay employees for all hours worked at the correct prevailing wage rate, in accordance with Labor Code Sections 1775, 1776, 1777.7, and 1813.

4. Certified Payroll Records

   Per Labor Code Section 1776, contractors and subcontractors are required to keep accurate payroll records which reflect the name, address, social security number, and work classification of each employee; the straight time and overtime hours worked each day and each week; the fringe benefits; and the actual per diem wages paid to each journeyperson, apprentice, worker, or other employee hired in connection with a public works project.

   Employee payroll records shall be certified and shall be made available for inspection at all reasonable hours at the principal office of the contractor/subcontractor, or shall be furnished to any employee, or to his or her authorized representative on request.

   Contractors and subcontractors shall maintain their certified payrolls on a weekly basis and shall submit said payrolls weekly to the LCO. In the event that there has been no work performed during a given week, the Certified Payroll Record shall be annotated "No Work" for that week.

5. Nondiscrimination in Employment

   Prohibitions against employment discrimination are contained in Labor Code Sections 1735 and 1777.6; the Government Code; the Public Contracts Code; and Title VII of the Civil Rights Act of 1964, as amended. All contractors and subcontractors are required to implement equal employment opportunities as delineated below:

a. Equal Employment Poster

The equal employment poster shall be posted at the job site in a conspicuous place visible to employees and employment applicants for the duration of the project.

b. Records

The contractor and each subcontractor shall maintain accurate records of employment information as required by the Monthly Employment Utilization Report. This report shall specify the ethnicity and gender for each employee in a craft, trade, or classification.

c. Reports

A Monthly Employment Utilization Report for the contractor **and** for each of its subcontractors is required to be completed and submitted via fax to the AUSD Labor Compliance Program Office each month by no later than the fifth day of that month. Reports are to be for the previous month's work and are to be project specific. If no work was performed during that month, the form shall clearly state "No Work."

d. Good Faith Efforts

The contractor, when required, must submit and comply with an Employment Diversity (Affirmative Action) Plan as specified in the contract. The contractor's subcontractors must all comply with the elements contained in this plan. Failure to comply with the Employment Diversity Plan or to demonstrate good faith efforts must be documented by providing clear and complete written information, when requested to do so, of the individual(s) contacted by the contractor in its good faith effort.

6. Kickback Prohibited

Per Labor Code Section 1778, contractors and subcontractors are prohibited from accepting, taking wages illegally, or extracting "kickback" from employee wages;

7. Acceptance of Fees Prohibited

Contractors and subcontractors are prohibited from exacting any type of fee for registering individuals for public work (Labor Code Section 1779); or for filling work orders on public works contracts (Labor Code Section 1780);

8. Listing of Subcontractors

Contractors are required to list all subcontractors hired to perform work on a public works project when that work is equivalent to more than one-half of one percent of the total effort (Government Code Section 4100, et seq.);

9. Proper Licensing

Contractors and subcontractors are required to be properly licensed. Penalties will be imposed for employing workers while unlicensed (Labor Code Section 1021 and Business and Professions Code Section 7000, et seq. under California Contractors License Law);

10. Unfair Competition Prohibited

Contractors and subcontractors are prohibited from engaging in unfair competition (Business and Professions Code Sections 17200-17208);

11. Workers' Compensation Insurance

All contractors and subcontractors are required to be insured against liability for workers' compensation, or to undertake self-insurance in accordance with the provisions of Labor Code Section 3700 (Labor Code Section 1861);

12. OSHA

Contractors and subcontractors are required to comply with the Occupational, Safety and Health laws and regulations applicable to the particular public works project.

In accordance with federal and state laws, and with District policy and contract documents, the undersigned contractor herein certifies that it will comply with the foregoing labor law requirements; and fully understands that failure to comply with these requirements will subject it to the penalties cited herein.

LABOR COMPLIANCE PROGRAM OFFICE

LABOR COMPLIANCE PROGRAM
AUDIT RECORD FORM
(For Use with CCR Section 16432 Audits)

An audit record is sufficiently detailed to "verify compliance with the requirements of Chapter 1, Public Works, Part 7 of Division 2," when the audit record displays that the following procedures have been followed:

1. Audit of the obligation to carry workers' compensation insurance means producing written evidence of a binder issued by the carrier, or telephone or written inquiry to the Workers' Compensation Insurance Rating Bureau;

2. Audit of the obligation to employ and train apprentices means inquiry to the program sponsor for the apprenticeable craft or trade in the area of the public work as to: whether contract award information was received, including an estimate of journeyperson hours to be performed and the number of apprentices to be employed; whether apprentices have been requested, and whether the request has been met; whether the program sponsor knows of any amounts received from the contractor or subcontractor for the training fund or the California Apprenticeship Council; and whether persons listed on the certified payroll in that craft or trade being paid less than the journeyperson rate are apprentices registered with that program and working under apprentice agreements approved by the Division of Apprenticeship Standards;

3. Audit of the obligation to pass through amounts, made part of the bid, for apprenticeship training contributions to either the training trust or the California Apprenticeship Council, means asking for copies of checks remitted, or when the audit occurs more than 30 days after the month in which payroll has been paid, copies of canceled checks remitted;

4. Audit of "illegal taking of wages" means inspection of written authorizations for deductions (as listed in Labor Code Section 224) in the contractor's files and comparison to wage deduction statements furnished to employees (Labor Code Section 226), together with an interview of several employees as to any payments made which are not reflected on the wage deduction statements;

5. Audit of the obligation to keep records of working hours (Title 8 CCR Section 16432), and pay not less than required for hours worked in excess of 8 hours/day and 40 hours/week (Title 8 CCR Section 16200(a)(3)(F), means review and audit of weekly certified payroll records;

6. Audit of the obligation to pay the prevailing per diem wage means review and audit of weekly-certified payroll records for compliance with:

   a. All elements defined as the General Prevailing Rate of Per Diem Wages in Title 8 CCR Section 16000, which were determined to be prevailing in the Director's determination in effect on the date of the call for bids, or as reflected in any subsequent revised determination issued by the Director's office, copies of which are available at the LCO's Office and posted at the public works job site;

   b. All elements defined as Employer Payments to Workers set forth in Title 8 CCR Section 16000, which were determined to be prevailing in the

Director's determination in effect on the date of the call for bids, or as reflected in any subsequent revised determination issued by the Director's office, copies of which are available at the LCO's Office and posted at the public works job site.

LABOR COMPLIANCE PROGRAM

NOTICE OF DEADLINES FOR FORFEITURES
(Under CCR Section 16437)

TO: _____ (NAME OF CONTRACTOR)

This document requests the Labor Commissioner of California to approve a forfeiture of money you would otherwise be paid. The Antioch Unified School District Labor Compliance Program Officer is asking the Labor Commissioner of California to agree, in 20 days, that the enclosed Evidence Report and package of materials indicates that you have violated the law.

Your failure to respond to Antioch Unified School District's request that the Labor Commissioner approve a forfeiture, by writing to the Labor Commissioner within 20 days of the date of service (the date of postmark) of this document on you, may lead the Labor Commissioner to affirm the proposed forfeiture and may also end your right to contest those amounts further.

You must serve any written response on the Labor Commissioner and the Antioch Unified School District Labor Compliance Program Officer by return receipt requested/certified mail. If you serve a written explanation, with evidence, as to why the violation did not occur or why the penalties should not be assessed, within the 20-day period, it will be considered.

And

If you change your address, or decide to hire an attorney, it is your responsibility to advise the Antioch Unified School District Labor Compliance Program Officer by certified mail. Otherwise, notices will be served at your last address on file, and deadlines may pass before you receive such notice.

Notice of Right to Obtain Review - Formal Hearing

In accordance with Labor Code sections 1742 and 1771.6, an affected contractor or subcontractor may obtain review of this Notice of Withholding of Contract Payments by transmitting a written request to the office of the Labor Compliance Program that appears below within 60 days after service of the notice. **To obtain a hearing, a written Request for Review must be transmitted to the following address:**

Labor Compliance Program

_____

Review Office-Notice of Withholding of Contract Payments

_____

_____

A **Request for Review** either shall clearly identify the Notice of Withholding of Contract Payments from which review is sought, including the date of the notice, or it shall include a copy of the notice as an attachment, and shall also set forth the basis upon which the notice is being contested. In accordance with Labor Code section 1742, the contractor or subcontractor shall be provided an opportunity to review evidence to be utilized by the Labor Compliance Program at the hearing within 20 days of the Labor Compliance Program's receipt of the written **Request for Review**.

> **Failure by a contractor or subcontractor to submit a timely Request for Review will result in a final order which shall be binding on the contractor and subcontractor, and which shall also be binding, with respect to the amount due, on a bonding company issuing a bond that secures the payment of wages and a surety on a bond. Labor Code section 1743.**

In accordance with Labor Code section 1742(d), a certified copy of a final order may be filed by the Labor Commissioner in the office of the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business. The clerk, immediately upon the filing, shall enter judgment for the State against the person assessed in the amount shown on the certified order.

Opportunity for Settlement Meeting

In accordance with Labor Code Section 1742.1 (b), the Labor Compliance Program shall, upon receipt of a request from the affected contractor or subcontractor within 30 days following the service of this Notice of Withholding of Contract Payments, afford the contractor or subcontractor the opportunity to meet with the Labor Compliance Program's designee **to attempt to settle a dispute regarding the notice**. The settlement meeting may be held in person or by telephone and shall take place before the expiration of the 60-day period for seeking a hearing as set forth above under the heading Notice of Right to Obtain Review. No evidence of anything said or any admission made for the purpose of, in the course of, or pursuant to, the settlement meeting is admissible or subject to discovery in any administrative or civil proceeding. No writing prepared for the purpose of, in the course of, or pursuant to, the settlement meeting, other than a final settlement agreement, is admissible or subject to discovery in any administrative or civil proceeding. This opportunity to timely request an informal settlement meeting is **in addition** to the right to obtain a formal hearing, and a settlement meeting may be requested even if a written **Request for Review** has already been made. Requesting a settlement meeting, however, does not extend the 60-day period during which a formal hearing may be requested.

A written request to meet with the Labor Compliance Program's designee to attempt to settle a dispute regarding this notice must be transmitted to _____ at the following address:

_____

_____

_____

Liquidated Damages

In accordance with Labor Code section 1742.1, after 60 days following the service of this Notice of Withholding of Contract Payments, the affected contractor, subcontractor, and surety on a bond or bonds issued to secure the

payment of wages covered by the notice shall be liable for liquidated damages in an amount equal to the wages, or portion thereof that still remain unpaid. If the notice subsequently is overturned or modified after administrative or judicial review, liquidated damages shall be payable only on the wages found to be due and unpaid. If the contractor or subcontractor demonstrates to the satisfaction of the Director of the Department of Industrial Relations that he or she had substantial grounds for believing the assessment or notice to be an error, the Director shall waive payment of the liquidated damages.

The Amount of Liquidated Damages Available Under this Notice is $_____.

_____
_____
_____

Please be advised that this office has received your **Request for Review**, dated _____, and pertaining to the Notice of Withholding of Contract Payments issued by the Labor Compliance Program in Case No. _____.

In accordance with Labor Code section 1742(b), this notice provides you with an opportunity to review evidence to be utilized by the Labor Compliance Program at the hearing on the Request for Review, and the procedures for reviewing such evidence.

Rule 17224 of the Prevailing Wage Hearing Regulations provides as follows:

> "(a) Within ten (10) days following its receipt of a Request for Review, the Enforcing Agency shall also notify the affected contractor or subcontractor of its opportunity and the procedures for reviewing evidence to be utilized by the Enforcing Agency at the hearing of the Request for Review.

(b) An Enforcing Agency shall be deemed to have provided the opportunity to review evidence required by this Rule if it (1) gives the affected contractor or subcontractor the option at said party's own expense to either (i) obtain copies of all such evidence through a commercial copying service or (ii) inspect and copy such evidence at the office of the Enforcing Agency during normal business hours; or if (2) the Enforcing Agency at its own expense forwards copies of all such evidence to the affected contractor or subcontractor.
(c) The evidence required to be provided under this Rule shall include the identity of witnesses whose testimony the Enforcing Agency intends to present, either in person at the hearing or by declaration or affidavit. This provision shall not be construed as requiring the Enforcing Agency to prepare or provide any separate listing of witnesses whose identities are disclosed within the written materials made available under subpart (a).

(d) The Enforcing Agency shall make evidence available for review as specified in subparts (a) through (c) within 20 days of its receipt of the Request for Review; *provided that*, this deadline may be extended by written request or agreement of the affected contractor or subcontractor. The Enforcing Agency's failure to make evidence available for review as required by Labor Code section 1742(b) and this Rule, shall preclude the enforcing agency from introducing such evidence in proceedings before the Hearing officer or the Director.

(e) This Rule shall not preclude the Enforcing Agency from relying upon or presenting any evidence first obtained after the initial disclosure of evidence under subparts (a) through (d), *provided that*, such evidence is promptly disclosed to the affected contractor or subcontractor. This Rule also shall not preclude the Enforcing Agency from presenting previously undisclosed evidence to rebut new or collateral claims raised by another party in the proceeding."

In accordance with the above Rule, please be advised that the Labor Compliance Program's procedure for you to exercise your opportunity to review evidence is as follows:

Within five calendar days of the date of this notice, please transmit the attached Request to Review Evidence to the following address:

PREVAILING WAGE HEARING REGULATIONS

CALIFORNIA CODE OF REGULATIONS

TITLE 8, CHAPTER 8, SUBCHAPTER 6

(SECTIONS 17201 through 17270)

CONTENTS

ARTICLE 1. GENERAL

17201. Scope and Application of Rules.

(a) These Rules govern proceedings for review of civil wage and penalty assessments and the withholding of contract payments under Articles 1 and 2 of Division 2, Part 7, Chapter 1 (commencing with section 1720) of the Labor Code, as well as any notice assessing penalties for noncompliance with payroll record obligations under Labor Code section 1776. The provisions of Labor Code section 1742 and these Rules apply to all such assessments and notices served on a contractor or subcontractor on or after July 1, 2001 and provide the exclusive method for an Affected Contractor or Subcontractor to obtain review of any such notice or assessment. These Rules also apply to transitional cases in which notices were served but no court action was filed under Labor Code sections 1731-1733 prior to July 1, 2001, in accordance with Section 17270 (Rule 70) below.

(b) These Rules do not govern debarment proceedings under Labor Code section 1777.1, nor proceedings to review determinations with respect to the violation of apprenticeship obligations under Labor Code sections 1777.5 and 1777.7, nor any criminal prosecution.

(c) These Rules do not preclude any remedies otherwise authorized by law to remedy violations of Division 2, Part 7, Chapter 1 of the Labor Code.

(d) For easier reference, individual sections within these prevailing wage hearing regulations are referred to as "Rules" using only their last two digits. For example, this Section 17201 may be referred to as Rule 01.

NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1742, 1771.5, 1771.6(b), 1773.5, 1776, and 1777.1 – 1777.7, Labor Code; and Stats. 2000, Chapter 954, §1.

17202. Definitions.

For the purpose of these Rules:

(a) "Affected Contractor or Subcontractor" means a contractor or subcontractor (as defined under Labor Code section 1722.1) to whom the Labor Commissioner has issued a civil wage and penalty assessment pursuant to Labor Code section 1741, or to whom an Awarding Body has issued a notice of the withholding of contract payments pursuant to Labor Code section 1771.6, or to whom the Labor Commissioner or the Division of Apprentice Standards has issued a notice assessing penalties for noncompliance with payroll record obligations under Labor Code section 1776;

(b) "Assessment" means a civil wage and penalty assessment issued by the Labor Commissioner or his or her designee pursuant to Labor Code section 1741, and it also includes a notice issued by either the Labor Commissioner or the Division of Apprenticeship Standards pursuant to Labor Code section 1776;

(c) "Awarding Body" means an awarding body or body awarding the contract (as defined in Labor Code section 1722) that exercises enforcement authority under Labor Code section 1726 or 1771.5;

(d) "Department" means the Department of Industrial Relations;

(e) "Director" means the Director of the Department of Industrial Relations;

(f) "Enforcing Agency" means the entity which has issued an Assessment or Notice of Withholding of Contract Payments and with which a Request for Review has been filed; *i.e.*, it refers to the Labor Commissioner when review is sought from an Assessment, the Awarding Body when review is sought from a Notice of Withholding of Contract Payments, and the Division of Apprenticeship Standards when review is sought from a notice issued by that agency that assesses penalties under Labor Code section 1776;

(g) "Hearing Officer" means any person appointed by the Director pursuant to Labor Code section 1742(b) to conduct hearings and other proceedings under Labor Code section 1742 and these Rules;

(h) "Joint Labor-Management Committee" means a joint labor-management committee established pursuant to the federal Labor Management Cooperation Act of 1978 (section 175a of Title 29 of the United States Code).

(i) "Labor Commissioner" means the Chief of the Division of Labor Standards Enforcement and includes his or her designee who has been authorized to carry out the Labor Commissioner's functions under Chapter 1, Part 7 of Division 2 (commencing with section 1720) of the Labor Code;
(j) "Party" means an Affected Contractor or Subcontractor who has requested review of either an Assessment or a Notice of Withholding of Contract Payments, the Enforcing Agency that issued the Assessment or the Notice of Withholding of Contract Payments from which review is sought, and any other Person who has intervened under subparts (a), (b), or (c) of Rule 08 [Section 17208];
(k) "Person" means an individual, partnership, limited liability company, corporation, governmental subdivision or unit of a governmental subdivision, or public or private organization or entity of any character;
(l) "Representative" means a person authorized by a Party to represent that Party in a proceeding before a Hearing Officer or the Director, and includes the Labor Commissioner when the Labor Commissioner has intervened to represent the Awarding Body in a review proceeding pursuant to Labor Code section 1771.6(b).
(m) "Rule" refers to a section within this subchapter 6. The Rule number corresponds to the last two digits of the full section number. (For example, Rule 08 is the same as section 17208.)
(n) "Surety" has the meaning set forth in Civil Code section 2787 and refers to the entity that issues the public works bond provided for in Civil Code sections 3247 and 3248 or any other surety bond that guarantees the payment of wages for labor.
(o) "Working Day" means any day that is not a Saturday, Sunday, or State holiday, as determined with reference to Code of Civil Procedure sections 12(a) and 12(b) and Government Code sections 6700 and 6701.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 2787, 3247, and 3248, Civil Code; sections 12a and 12b, Code of Civil Procedure; sections 6700, 6701, 11405.60 and 11405.70, Government Code; sections1720 et seq., 1722, 1722.1, 1726, 1741, 1742, 1742(b), 1771.5, 1771.6, 1771.6(b), and 1776, Labor Code; and 29 U.S.C. §175a.

17203. Computation of Time and Extensions of Time to Respond or Act.
(a) In computing the time within which a right may be exercised or an act is to be performed, the first day shall be excluded and the last day shall be included. If the last day is not a Working Day, the time shall be extended to the next Working Day.
(b) Unless otherwise indicated by proof of service, if the envelope was properly addressed, the mailing date shall be presumed to be: a postmark date imprinted on the envelope by the U.S. Postal Service if first-class postage was prepaid; or the date of delivery to a common carrier promising overnight delivery as shown on the carrier's receipt.
(c) Where service of any notice, decision, pleading or other document is by first class mail, and if within a given number of days after such service, a right may be exercised, or an act is to be performed, the time within which such right may be exercised or act performed is extended five days if the place of address is within the State of California, and 10 days if the place of address is outside the State of California but within the United States. However, this Rule shall not extend the time within which the Director may reconsider or modify a decision to correct an error (other than a clerical error) under Labor Code section 1742(b).
(d) Where service of any notice, pleading, or other document is made by an authorized method other than first class mailing, extensions of time to respond or act shall be calculated in the same manner as provided under section 1013 of the Code of Civil Procedure, unless a different requirement has been specified by the appointed Hearing Officer or by another provision of these Rules.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1010 through 1013, Code of Civil Procedure; and section 1742(b), Labor Code.

17204. Appointment of Hearing Officers; Delegation of Appointment Authority to Chief Counsel.

(a) Upon receipt of a Request for Review of an Assessment or of a Notice of Withholding of Contract Payments, the Director, acting through the Chief Counsel (*see* subpart (d) below), shall appoint an impartial Hearing Officer to conduct the review proceeding.
(b) The appointed Hearing Officer shall be an attorney employed by the Office of the Director – Legal Unit. However, if no attorney employed by the Office of the Director – Legal Unit is available or qualified to serve in a particular matter, the appointed Hearing Officer may be any attorney or administrative law judge employed by the Department, other than an employee of the Division of Labor Standards Enforcement.
(c) Any person appointed to serve as a Hearing Officer in any matter shall possess at least the minimum qualifications for service as an administrative law judge pursuant to Government Code section 11502(b) and shall be someone who is not precluded from serving under Government Code section 11425.30.
(d) The Director's authority under Labor Code section 1742(b) to appoint an impartial Hearing Officer, is delegated in all cases to the Chief Counsel of the Office of the Director or to the Chief Counsel's designated Assistant or Acting Chief Counsel when the Chief Counsel is unavailable or disqualified from participating in a particular matter. This delegation includes all related authority under Rule 40 [Section 17240] below to appoint a different Hearing Officer to conduct all or any part of a review proceeding as well as the authority to consider and decide or to assign to another Hearing Officer for consideration and decision any motion to disqualify an appointed Hearing Officer.
NOTE: Authority cited: sections 7, 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 11425.30 and 11502(b), Government Code; and sections 7, 55, 59, and 1742(b), Labor Code.

17205. Authority of Hearing Officers.
(a) In any proceeding assigned for hearing and decision under the provisions of Labor Code section 1742, the appointed Hearing Officer shall have full power, jurisdiction and authority to hold a hearing and ascertain facts for the information of the Director, to hold a prehearing conference, to issue a subpoena and subpoena duces tecum for the attendance of a Person and the production of testimony, books, documents, or other things, to compel the attendance of a Person residing anywhere in the state, to certify official acts, to regulate the course of a hearing, to grant a withdrawal, disposition or amendment, to order a continuance, to approve a stipulation voluntarily entered into by the Parties, to administer oaths and affirmations, to rule on objections, privileges, defenses, and the receipt of relevant and material evidence, to call and examine a Party or witness and introduce into the hearing record documentary or other evidence, to request a Party at any time to state the respective position or supporting theory concerning any fact or issue in the proceeding, to extend the submittal date of any proceeding, to exercise such other and additional authority as is delegated to Hearing Officers under these Rules or by an express written delegation by the Director, and to prepare a recommended decision, including a notice of findings, findings, and an order for approval by the Director.
(b) There shall be no right of appeal to or review by the Director of any decision, order, act, or refusal to act by an appointed Hearing Officer other than through the Director's review of the record in issuing or reconsidering a written decision under Rules 60 [Section 17260] and 61 [Section 17261] below.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 11512, Government Code and section 1742(b), Labor Code.

17206. Access to Hearing Records.
(a) Hearing case records shall be available for inspection and copying by the public, to the same extent and subject to the same policies and procedures governing other records maintained by the Department. Hearing case records normally will be available for review in the office of the appointed Hearing Officer; *provided however,* that a case file may be temporarily unavailable when in use by the appointed Hearing Officer or by the Director or his or her designee.
(b) Nothing in this Rule shall authorize the disclosure of any record or exhibit that is required to be kept confidential or is otherwise exempt from disclosure by law or that has been ordered to be kept confidential by an appointed Hearing Officer.

NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 6250 et seq. Government Code and section 1742(b), Labor Code.

17207. Ex Parte Communications.

(a) Except as provided in this Rule, once a Request for Review is filed, and while the proceeding is pending, there shall be no direct or indirect communication regarding any issue in the proceeding to the appointed Hearing Officer or the Director, from the Enforcing Agency or any other Party or other interested Person, without notice and the opportunity for all Parties to participate in the communication.

(b) A communication made on the record in the hearing is permissible.

(c) A communication concerning a matter of procedure or practice is presumed to be permissible, unless the topic of the communication appears to the Hearing Officer to be controversial in the context of the specific case. If so, the Hearing Officer shall so inform the other participant and may terminate the communication or continue it until after giving all Parties notice and an opportunity to participate. Any written communication concerning a matter of procedure or practice, and any written response, or a written memorandum identifying the participants and stating the substance of any such oral communication or response, shall be added to the case file so that all Parties have a reasonable opportunity to review it. Unless otherwise provided by statute or these Rules, the appointed Hearing Officer may determine a matter of procedure or practice based upon a permissible ex-parte communication. The term "matters of procedure or practice" shall be liberally construed.

(d) A communication from the Labor Commissioner to the Hearing Officer or the Director which is deemed permissible under Government Code section 11430.30 is permitted only if any such written communication and any written response, or a written memorandum identifying the participants and stating the substance of any such oral communication or response, is added to the case file so that all Parties have a reasonable opportunity to review it.

(e) If the Hearing Officer or the Director receives a communication in violation of this Rule, he or she shall comply with the requirements of Government Code section 11430.50.

(f) To the extent not inconsistent with Labor Code section 1742, the provisions of Article 7 of Chapter 4.5 of Title 2, Division 3, Part 1 (commencing with section 11430.10) of the Government Code governing ex parte communications in administrative adjudication proceedings shall apply to review proceedings conducted under these Rules.

(g) This Rule shall not be construed as prohibiting communications between the Director and the Labor Commissioner or between the Director and any other interested Person on issues or policies of general interest that coincide with issues involved in a pending review proceeding; *provided that* (1) the communication does not directly or indirectly seek to influence the outcome of any pending proceeding; (2) the communication does not directly or indirectly identify or otherwise refer to any pending proceeding; and (3) the communication does not occur at a time when the Director or the other party to the communication knows that a proceeding in which the other party to the communication is interested is under active consideration by the Director.

NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 11430.10 through 11430.80, Government Code, and section 1742(b), Labor Code.

17208. Intervention and Participation by other Interested Persons.

(a) The Labor Commissioner may intervene as a matter of right in any review from a Notice of Withholding of Contract Payments, either as the Representative of the Awarding Body or as an interested third Party.

(b) A bonding company and any Surety on a bond that secures the payment of wages covered by the Assessment or Notice of Withholding of Contract Payments shall be permitted to intervene as a matter of right in any pending review filed by the contractor or subcontractor from the Assessment or Withholding of Contract Payments in question; *provided that,* intervention is sought at or before the first prehearing conference held pursuant to Rule 31 [Section 17231] below and within either 30 days after the bonding company or Surety was served with a copy of the Assessment or Notice of Withholding of Contract

Payments or 30 days after the filing of the Request for Review, whichever is later. Thereafter, any request to intervene by such a bonding company or Surety shall be treated as a motion for permissive participation under subpart (~~e~~d) of this Rule. A bonding company or Surety shall have the burden of proof with respect to any claim that it did not receive notice of the Assessment or Notice of Withholding of Contract Payments until after the filing of the Request for Review.
(c) The employee(s), labor union, or Joint Labor-Management Committee who filed the formal complaint which led the Enforcing Agency to issue the Assessment or Notice of Withholding of Contract payments shall be permitted to intervene in a pending review filed by the contractor or subcontractor from the Assessment or Withholding of Contract Payments in question; *provided that,* intervention is sought at or before the first prehearing conference held pursuant to Rule 31 [Section 17231] below and there is no good cause to deny the request. Thereafter, any request to intervene by such employee(s), labor union, or Joint Labor-Management Committee shall be treated as a motion for permissive participation as an interested Person under subpart (d) of this Rule.
(d) Any other Person may move to participate as an interested Person in a proceeding in which that Person claims a substantial interest in the issues or underlying controversy and in which that Person's participation is likely to assist and not hinder or protract the hearing and determination of the case by the Hearing Officer and the Director. Interested Persons who are permitted to participate under this Rule shall *not* be regarded as Parties to the proceeding for any purpose, but may be provided notices and the opportunity to present arguments under such terms as the Hearing Officer deems appropriate.
(e) Rights to intervene or participate as an interested party are only in accordance with this Rule. Intervention or permissive participation under this Rule shall not expand the scope of issues under review nor shall it extend any rights or interests which have been forfeited as a result of an Affected Contractor or Subcontractor's own failure to file a timely Request for Review. The Hearing Officer may impose conditions on an intervener's or other interested Person's participation in the proceeding, including but not limited to those conditions specified in Government Code §11440.50(c).
(f) No Person shall be required to seek intervention in a review proceeding as a condition for pursuing any other remedy available to that Person for the enforcement of the prevailing wage requirements of Division 2, Part 7, Chapter 1 (starting with section 1720) of the Labor Code.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 11440.50(c), Government Code; and sections 1720 et seq., 1741, 1742, and 1771.6, Labor Code.

17209. Representation at Hearing.
(a) A Party may appear in person or through an authorized Representative, who need not be an attorney at law; *however,* a Party shall use the form Authorization for Representation by Non-Attorney [8 CCR 17209(b) (New 1/15/02)] to authorize representation by any non-attorney who is not an owner, officer, or managing agent of that Party.
(b) Upon formal notification that a Party is being represented by a particular individual or firm, service of subsequent notices in the matter shall be made on the Representative, either in addition to or instead of the Party, unless and until such authorization is terminated or withdrawn by further written notice. Service upon an authorized Representative shall be effective for all purposes and shall control the determination of any notice period or the running of any time limit for the performance of any acts, regardless of whether or when such notice may also have been served directly on the represented Party.
(c) An authorized Representative shall be deemed to control all matters respecting the interests of the represented Party in the proceedings.
(d) Parties and their Representatives shall have a continuing duty to keep the appointed Hearing Officer and all other Parties to the proceeding informed of their current address and telephone number.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1742(b), Labor Code.

17210. Proper Method of Service.

(a) Unless a particular method of service is specifically prescribed by statute or these Rules, service may be made by: (1) personal delivery; (2) priority or first class mailing postage prepaid through the U. S. Postal Service; (3) any other means authorized under Code of Civil Procedure section 1013; or (4) if authorized by the Hearing Officer pursuant to Rule 11 [Section 17211] below, by facsimile or other electronic means.
(b) Service is complete at the time of personal delivery or mailing, or at the time of transmission as determined under Rule 11 [Section 17211] below.
(c) Proof of service shall be filed with the document and may be made by: (1) affidavit or declaration of service; (2) written statement endorsed upon the document served and signed by the party making the statement; or (3) copy of letter of transmittal.
(d) Service on a Party who has appeared through an attorney or other Representative shall be made upon such attorney or Representative.
(e) In each proceeding, the Hearing Officer shall maintain an official address record which shall contain the names and addresses of all Parties and their Representatives, agents, or attorneys of record. Any change or substitution in such information must be communicated promptly in writing to the Hearing Officer. The official address record may also include the names and addresses of interested Persons who have been permitted to participate under Rule 08(d) [Section 17208].
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1013, Code of Civil Procedure and section 1742(b), Labor Code.

17211. Filing and Service of Documents by Facsimile or Other Electronic Means.
(a) In individual cases the Hearing Officer may authorize the filing and service of documents by facsimile or by other electronic means, subject to reasonable restrictions on the time of transmission and the page length of any document or group of documents that may be transmitted by facsimile or other electronic means, and subject to any further requirements on the use of cover sheets or the subsequent filing and service of originals or hard copies of documents as the Hearing Officer deems appropriate. Filing and service by facsimile or other electronic means shall not be authorized under terms that substantially disadvantage any Party appearing or participating in the proceeding as a matter of right. A document transmitted by facsimile or other electronic means shall not be considered received until the next Working Day following transmission unless it is transmitted on a Working Day and the entire transmission is completed by no later than 4:00 p.m. Pacific Time.
(b) Filings and service by facsimile or other electronic means shall not authorized or accepted as a substitute for another method of service that is required by statute or these Rules, unless the Party served has expressly waived its right to be served in the required manner.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1742(b), Labor Code.

17212. Administrative Adjudication Bill of Rights.
(a) The provisions of the Administrative Adjudication Bill of Rights found in Article 6 of Chapter 4.5 of Title 2, Division 3, Part 1 (commencing with section 11425.10) of the Government Code shall apply to these review proceedings to the extent not inconsistent with a state or federal statute, a federal regulation, or a court decision which applies specifically to the Department. The enumeration of certain rights in these Rules may expand but shall not be construed as limiting the same or similar provision of the Administrative Adjudication Bill of Rights; nor shall the enumeration of certain rights in these Rules be construed as negating other statutory rights not stated.
(b) Ex parte communications shall be permitted between the appointed Hearing Officer and the Director in accordance with Government Code section 11430.80(b).
(c) The presentation or submission of any written communication by a Party or other interested Person during the course of a review proceeding shall be governed by the requirements of Government Code §11440.60 (b) and (c).

(d) Unless otherwise indicated by express reference within the body of one of these Rules, the provisions of Chapter 5 of Title 2, Division 3, Part 1 (commencing with section 11500) of the Government Code shall *not* apply to these review proceedings.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 11415.20, 11425.10 et seq., and 11430.80(b), Government Code; and section 1742(b), Labor Code.

ARTICLE 2. ASSESSMENT OR NOTICE AND REQUEST FOR REVIEW

17220. Service and Contents of Assessment or Notice of Withholding of Contract Payments.

(a) An Assessment, a Notice of Withholding of Contract Payments, or a notice assessing penalties under Labor Code section 1776 shall be served on the contractor and subcontractor, if applicable, by first class and certified mail pursuant to the requirements of Code of Civil Procedure section 1013. A copy of the notice shall also be served by certified mail on any bonding company issuing a bond that secures the payment of the wages covered by the Assessment or Notice and to any Surety on a bond, if the identities of such companies are known or reasonably ascertainable. The identity of any Surety issuing a bond for the benefit of an Awarding Body as designated obligee, shall be deemed "known or reasonably ascertainable," and the Surety shall be deemed to have received the notice required under this subpart if sent to the address appearing on the face of the bond.
(b) An Assessment or Notice of Withholding of Contract Payments shall be in writing and shall include the following information:

(1) a description of the nature of the violation and basis for the Assessment or Notice; and

(2) the amount of wages, penalties, and forfeitures due, including a specification of amounts that have been or will be withheld from available contract payments, as well as all additional amounts that the Enforcing Agency has determined are due, including the amount of any liquidated damages that potentially may be awarded under Labor Code section 1742.1.

(c) An Assessment or Notice of Withholding of Contract Payments shall also include the following information:

(1) the name and address of the office to whom a Request for Review may be sent;

(2) information on the procedures for obtaining review of the Assessment or Withholding of Contract Payments;

(3) notice of the Opportunity to Request a Settlement Meeting under Rule 21 [Section 17221] below; and

(4) the following statement which shall appear in bold or another type face that makes it stand out from the other text:

> **Failure by a contractor or subcontractor to submit a timely Request for Review will result in a final order which shall be binding on the contractor and subcontractor, and which shall also be binding, with respect to the amount due, on a bonding company issuing a bond that secures the payment of wages and a surety on a bond. Labor Code section 1743.**

NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1013, Code of Civil Procedure, and sections 1741, 1742, 1743, 1771.6, and 1776, Labor Code.

17221. Opportunity for Early Settlement.

(a) The Affected Contractor or Subcontractor may, within 30 days following the service of an Assessment or Notice of Withholding of Contract Payments, request a meeting with the Enforcing Agency for the purpose of attempting to settle the dispute regarding the Assessment or Notice.
(b) Upon receipt of a timely written request for a settlement meeting, the Enforcing Agency shall afford the Affected Contractor or Subcontractor a reasonable opportunity to meet for such purpose. The

settlement meeting may be held in person or by telephone and shall take place before expiration of the 60-day limit for filing a Request for Review under Rule 22 [Section 17222].
(c) Nothing herein shall preclude the Parties from meeting or attempting to settle a dispute after expiration of the time for making a request or after the filing of a Request for Review.
(d) Neither the making or pendency of a request for a settlement meeting, nor the fact that the Parties have met or have failed or refused to meet as required by this Rule shall serve to extend the time for filing a Request for Review under Rule 22 [Section 17222] below.
(e) No evidence of anything said or any admission made for the purpose of, in the course of, or pursuant to, such a settlement meeting shall be admissible or subject to discovery in any administrative or civil proceeding. No writing prepared for the purpose of, in the course of, or pursuant to, such a settlement meeting, other than a final settlement agreement, shall be admissible or subject to discovery in any administrative or civil proceeding.
NOTE: Authority cited: sections 55, 59, 1742(b) and 1773.5, Labor Code. Reference: sections 1742, 1742.1, and 1771.6, Labor Code.

17222. Filing of Request for Review.
(a) Any Request for Review of an Assessment or of a Notice of Withholding of Contract Wages shall be transmitted in writing to the Enforcing Agency within 60 days after service of the Assessment or Notice. Failure to request review within 60 days shall result in the Assessment or the Withholding of Contract Wages becoming final and not subject to further review under these Rules.
(b) A Request for Review shall be transmitted to the office of the Enforcing Agency designated on the Assessment or Notice of Withholding of Contract Payments from which review is sought.
(c) A Request for Review shall be deemed filed on the date of mailing, as determined by the U.S. Postal Service postmark date on the envelope or the overnight carrier's receipt in accordance with Rule 03(b) [Section 17203(b)] above, or on the date of receipt by the designated office of the Enforcing Agency, whichever is earlier.
(d) An additional courtesy copy of the Request for Review may be served on the Department by mailing to the address specified in Rule 23 [Section 17223] below at any time on or after the filing of the Request for Review with the Enforcing Agency. The service of a courtesy copy on the Department shall *not* be effective for invoking the Director's review authority under Labor Code section 1742; however, it may determine the time within which the hearing shall be commenced under Rule 41(a) [Section 17241(a)] below.
(e) A Request for Review either shall clearly identify the Assessment or Notice from which review is sought, including the date of the Assessment or Notice, or it shall include a copy of the Assessment or Notice as an attachment. A Request for Review shall also set forth the basis upon which the Assessment or Notice is being contested. A Request for Review shall be liberally construed in favor of its sufficiency; however, the Hearing Officer may require the Party seeking review to provide a further specification of the issues or claims being contested and a specification of the basis for contesting those matters.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1742, and 1771.6(a), Labor Code.

17223. Transmittal of Request for Review to Department.
Within ten (10) days followings its receipt of a Request for Review, the Enforcing Agency shall transmit to the Office of the Director – Legal Unit, the Request for Review and copies of the Assessment or Notice of Withholding of Contract Wages, any Audit Summary that accompanied the Assessment or Notice, and a Proof of Service or other document showing the name and address of any bonding company or Surety entitled to notice under Rule 20(a) [Section 17220(a)] above. The Enforcing Agency shall transmit these items to the following address.

Department of Industrial Relations
Office of the Director - Legal Unit
Attention: Lead Hearing Officer

P.O. Box 420603
San Francisco, CA 94142-0603

NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1742(a) and 1771.6(a), Labor Code.

17224. Disclosure of Evidence.

(a) Within ten (10) days following its receipt of a Request for Review, the Enforcing Agency shall also notify the Affected Contractor or Subcontractor of its opportunity and the procedures for reviewing evidence to be utilized by the Enforcing Agency at the hearing on the Request for Review.

(b) An Enforcing Agency shall be deemed to have provided the opportunity to review evidence required by this Rule if it (1) gives the Affected Contractor or Subcontractor the option, at the Affected Contractor or Subcontractor's own expense, to either (A) obtain copies of all such evidence through a commercial copying service or (B) inspect and copy such evidence at the office of the Enforcing Agency during normal business hours; or if (2) the Enforcing Agency at its own expense forwards copies of all such evidence to the Affected Contractor or Subcontractor.

(c) The evidence required to be provided under this Rule shall include the identity of witnesses whose testimony the Enforcing Agency intends to present, either in person at the hearing or by declaration or affidavit. This provision shall not be construed as requiring the Enforcing Agency to prepare or provide any separate listing of witnesses whose identities are disclosed within the written materials made available under subpart (a).

(d) The Enforcing Agency shall make evidence available for review as specified in subparts (a) through (c) within 20 days of its receipt of the Request for Review; *provided that*, this deadline may be extended by written request or agreement of the Affected Contractor or Subcontractor. The Enforcing Agency's failure to make evidence available for review as required by Labor Code section 1742(b) and this Rule, shall preclude the Enforcing Agency from introducing such evidence in proceedings before the Hearing Officer or the Director.

(e) This Rule shall not preclude the Enforcing Agency from relying upon or presenting any evidence first obtained after the initial disclosure of evidence under subparts (a) through (d), *provided that*, such evidence is promptly disclosed to the Affected Contractor or Subcontractor. This Rule also shall not preclude the Enforcing Agency from presenting previously undisclosed evidence to rebut new or collateral claims raised by another Party in the proceeding.

NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1742(b) and 1771.6, Labor Code.

17225. Withdrawal of Request for Review; Reinstatement.

(a) An Affected Contractor or Subcontractor may withdraw a Request for Review by written notification at any time before a decision is issued or by oral motion on the hearing record. The Hearing Officer may grant such withdrawal by letter, order or decision served on the Parties.

(b) For good cause, a Request for Review so dismissed may be reinstated by the Hearing Officer or the Director upon a showing that the withdrawal resulted from misinformation given by the Enforcing Agency or otherwise from fraud or coercion. A motion for reinstatement must be filed within 60 days of service of the letter, order or decision granting withdrawal of the Request for Review or, in the event of fraud which could not have been suspected or discovered with the exercise of reasonable diligence, within 60 days of discovery of such fraud. The motion shall be accompanied by a declaration containing a statement that any facts therein are based upon the personal knowledge of the declarant.

(c) Notwithstanding any application or showing made under subpart (b) of this Rule, neither the Hearing Officer nor the Director may reinstate any Request for Review where the underlying Assessment or Withholding of Contract Payments has become final and entered as a court judgment.

NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1742 and 1771.6, Labor Code.

17226. Dismissal or Amendment of Assessment or of Notice of Withholding of Contract Payments.
(a) Upon motion to the appointed Hearing Officer, an Enforcing Agency may dismiss or amend an Assessment or Notice of Withholding of Contract Payments as follows:

(1) An Assessment or Notice of Withholding may be dismissed or amended to eliminate or reduce all or part of any claim for wages, damages, or penalties that has been satisfied or that is not warranted under the facts and circumstances of the case or to conform to an order of the Hearing Officer or the Director.

(2) An Assessment or Notice of Withholding may be amended to eliminate a claim for penalties as to the affected contractor upon a determination that the affected contractor is not liable for same under either Labor Code section 1775(b) [subcontractor's failure to pay prevailing rate] or Labor Code section 1776 (g) [failure to comply with request for certified payroll records].

(3) For good cause, an Assessment or Notice of Withholding of Contract Payments may be amended to revise or increase any claim for wages, damages, or penalties based upon a recomputation or the discovery of new evidence subsequent to the issuance of the original Assessment or Notice.

(b) The Hearing Officer shall grant any motion to dismiss or amend an Assessment or Notice of Withholding downward under subparts (a)(1) or (a)(2) absent a showing that such dismissal or amendment will result in the forfeiture of substantial substantive rights of another Party to the proceeding. The Hearing Officer may grant a motion to amend an Assessment or Notice of Withholding upward under subpart (a)(3) under such terms as are just, including where appropriate the extension of an additional opportunity for early settlement under Rule 21 [Section 17221]. Unless the Hearing Officer determines otherwise, an amended Assessment or Notice of Withholding shall be deemed fully controverted without need for filing an additional or amended Request for Review.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1742, 1771.6, 1775(b), and 1776(g), Labor Code.

17227. Early Disposition of Untimely Assessment, Withholding, or Request for Review.
(a) Upon the application of any Party or upon his or her own motion, the appointed Hearing Officer may issue an Order to Show Cause why an Assessment, a Withholding of Contract Payments, or a Request for Review should not be dismissed as untimely under the relevant statute.
(b) An Order to Show Cause issued under subpart (a) of this Rule shall be served on all Parties who have appeared or been served with any prior notice in the matter and shall provide the Parties with at least 10 days to respond in writing to the Order to Show Cause and an additional 5 days following the service of such responses to reply to any submission by any other Party. Evidence submitted in support or opposition to an Order to Show Cause shall be by affidavit or declaration under penalty of perjury. There shall be no oral hearing on an Order to Show Cause issued under this Rule unless requested by a Party or by the Hearing Officer.
(c) After the time for submitting responses and replies to the Order to Show Cause has passed or after the oral hearing, if any, the Hearing Officer may do one of the following: (1) recommend that the Director issue a decision setting aside the Assessment or Withholding of Contract Payments or dismissing the Request for Review as untimely under the statute; (2) find the Assessment, Withholding, or Request for Review timely and direct that the matter proceed to hearing on the merits; or (3) reserve the timeliness issue for further consideration and determination in connection with the hearing on the merits.
(d) A decision by the Director which sets asides an Assessment or Withholding of Contract Payments or which dismisses a Request for Review as untimely shall be subject to reconsideration and to judicial review in the same manner as any other Final Order or Decision of the Director. A determination by the Hearing Officer that the Assessment, Withholding, or Request for Review was timely or that the timeliness issue should be reserved for further consideration and determination in connection with the hearing on the merits shall *not* be subject to appeal or review except as part of any reconsideration or appeal from the Decision of the Director made after the hearing on the merits.

NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1741, 1742, 1771.5, and 1771.6, Labor Code.

17228. Finality of Assessment or of Withholding of Contract Payments When No Timely Request for Review is Filed; Authority of Awarding Body to Disburse Withheld Funds.
(a) Upon the failure of an Affected Contractor or Subcontractor to file a timely Request for Review under Labor Code section 1742(a) and Rule 22(a) [Section 17222(a)] above, the Assessment or Notice of Withholding of Contract Payments shall become a "final order" as to the Affected Contractor or Subcontractor that the Labor Commissioner may certify and file with the superior court in accordance with Labor Code section 1742(d).
(b) Where an Assessment or Notice of Withholding of Contract Payments has become final as to at least one but not as to every Affected Contractor or Subcontractor, the Awarding Body shall continue to withhold and retain the amounts required to satisfy any wages and penalties at stake in a review proceeding initiated by any other Affected Contractor or Subcontractor until there is a final order in that proceeding that is no longer subject to judicial review.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1727, 1742, and 1771.6, Labor Code.

17229. Finality of Notice of Withholding of Contract Payments; Authority of Awarding Body to Recover Additional Funds.
Where a Notice of Withholding of Contract Payments seeks to recover wages, penalties, or damages in excess of the amounts withheld from available contract payments (*see* Rule 20(b)(2) [Section 17220(b)(2)] above), an Awarding Body may recover any excess amounts that become or remain due when the Notice of Withholding of Contract Payments has become final under Labor Code section 1771.6. To recover the excess amounts, the Awarding Body shall transmit to the Labor Commissioner the Notice together with any decision of the Director or court that has become final and not subject to further review. The Labor Commissioner in turn shall certify and file the final order with the superior court in accordance with Labor Code section 1742(d).
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1742(d), and 1771.6, Labor Code.

ARTICLE 3. PREHEARING PROCEDURES

17230. Scheduling of Hearing; Continuances and Tolling.
(a) The appointed Hearing Officer shall establish the place and time of the hearing on the merits, giving due consideration to the needs of all Parties and the statutory time limits for hearing and deciding the matter. Parties are encouraged to communicate scheduling needs to the Hearing Officer and all other Parties at the earliest opportunity. It shall not be a violation of Rule 07 [Section 17207]'s prohibition on ex parte communications for the Hearing Officer or his or her designee to communicate with Parties individually for purposes of clearing dates and times and proposing locations for the hearing. The Hearing Officer may also conduct a prehearing conference by telephone or any other expeditious means for purposes of establishing the time and place of the hearing.
(b) Once a hearing date is set, a request for a continuance that is not joined in by all other Parties or that is for more than 30 days will not be granted absent a showing of extraordinary circumstances, giving due regard to the potential prejudice to other Parties in the case and other Persons affected by the matter under review. Absent an enforceable waiver (*see* subpart (d) below), no continuance will be granted nor any proceeding otherwise delayed if doing so is likely to prevent the Hearing Officer from commencing the hearing on the matter within the statutory time limit.
(c) A request for a continuance that is for 30 days or less and is joined by all Parties shall be granted upon a showing of good cause. Notwithstanding subpart (b) above, a unilateral request for a continuance made by the Party who filed the Request for Review shall be granted upon a showing of good cause if the

new date for commencing the hearing is no more than 150 days after the date of service of the Assessment or Notice of Withholding of Contract Payments.
(d) If a Party makes or joins in any request that would delay or otherwise extend the time for hearing or deciding a review proceeding beyond any prescribed time limit, such request shall also be deemed a waiver by that Party of that time limit.
(e) The time limits for hearing and deciding a review proceeding shall also be deemed tolled (1) when proceedings are suspended to seek judicial enforcement of a subpoena or other order to compel the attendance, testimony, or production of evidence by a necessary witness; (2) when the proceedings are stayed or enjoined by any court order; (3) between the time that a proceeding is dismissed and then ordered reinstated under Rule 25 [Section 17225] above; (4) upon the order of a court reinstating or requiring rehearing of the merits of a proceeding; or (5) during the pendency of any other cause beyond the Director's direct control (including but not limited to natural disasters, temporary unavailability of a suitable hearing facility, or absence of budget authority) that prevents the Director or any appointed Hearing Officer from carrying out his or her responsibilities under these Rules.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1742(b), Labor Code.

17231. Prehearing Conference.
(a) Upon the application of any Party or upon his or her own motion, the appointed Hearing Officer may conduct a prehearing conference for any purpose that may expedite or assist the preparation of the matter for hearing or the disposition of the Request for Review. The prehearing conference may be conducted by telephone or other means that is convenient to the Hearing Officer and the Parties.
(b) The Hearing Officer shall provide reasonable advance notice of any prehearing conference conducted pursuant to this Rule. The Notice shall advise the Parties of the matters which the Hearing Officer intends to cover in the prehearing conference, but the failure of the Notice to enumerate some matter shall not preclude its discussion or consideration at the conference.
(c) With or without a prehearing conference, the Hearing Officer may issue such procedural Orders as are appropriate for the submission of evidence or briefs and conduct of the hearing, consistent with the substantial rights of the affected Parties.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 11511.5, Government Code, and section 1742(b), Labor Code.

17232. Consolidation and Severance.
(a) The Hearing Officer may consolidate for hearing and decision any number of proceedings where the facts and circumstances are similar and consolidation will result in conservation of time and expense. Where the Hearing Officer proposes to consolidate proceedings on his or her own motion, the Parties shall be given reasonable notice and an opportunity to object before consolidation is ordered.
(b) The Hearing Officer may sever consolidated proceedings for good cause.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 11507.3, Government Code, and section 1742(b), Labor Code.

17233. Prehearing Motions; Cut Off Date.
(a) Any motion made in advance of the hearing on the merits, any opposition thereto, and any further reply shall be in writing and directed to the appointed Hearing Officer. No particular format shall be required; however, the following information shall appear prominently on the first page: (1) the case name (*i.e.*, names of the Parties); (2) any assigned case number; (3) the name of the Hearing Officer to whom the paper is being submitted; (4) the identity of the Party submitting the paper; (5) the nature of the relief sought; and (6) the scheduled date, if any, for the hearing on the merits of the Request for Review. The motion shall also include a Proof of Service, as defined in Rule 10 [Section 17210] above, showing that copies have been served on all other Parties to the proceeding.

(b) Prehearing motions shall be served and filed no later than 20 days prior to the hearing on the merits of the Request for Review. Any opposition shall be served and filed no later than 10 days after service of the motion or at least 7 days prior to the hearing on the merits, whichever is earlier. The Hearing Officer may in his or her discretion decide the motion in writing in advance of the hearing on the merits or reserve the matter for further consideration and determination at the hearing on the merits.
(c) There shall be no right to a separate oral hearing on any prehearing motion, except in those instances in which an oral hearing has been specially requested by a Party or the Hearing Officer *and* in which the enforcement or forfeiture of a fundamental right is at stake. When the Hearing Officer determines that such an oral hearing is necessary or appropriate, it may be conducted by telephone or other manner that is convenient to the Parties.
(d) With the exception of timeliness challenges under Rule 27 [Section 17227], prehearing motions which seek to dispose of a Request for Review or any related claim or defense are disfavored and ordinarily will not be considered prior to the hearing on the merits.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1742(b), Labor Code.

17234. Evidence by Affidavit or Declaration.
(a) At any time 20 or more days prior to commencement of a hearing, a Party may serve upon all other Parties a copy of any affidavit or declaration which the proponent proposes to introduce in evidence, together with a notice as provided in subpart (b). Unless another Party, within 10 days after service of such notice, delivers to the proponent a request to cross-examine the affiant or declarant, the right to cross-examine such affiant or declarant is waived and the affidavit or declaration, if introduced in evidence, shall be given the same effect as if the affiant or declarant had testified in person. If an opportunity to cross-examine an affiant or declarant is not afforded after request therefor is made as herein provided, the affidavit or declaration may be introduced in evidence, but shall be given only the same effect as other hearsay evidence.
(b) The notice referred to in subpart (a) shall be substantially in the following form with the appropriate information inserted in the places enclosed by brackets:

> "The accompanying affidavit or declaration of [name of affiant or declarant] will be introduced as evidence at the hearing in [title and other information identifying the proceeding]. [Name of affiant or declarant] will not be called to testify orally, and you will not be entitled to question the affiant or declarant unless you notify [name of the proponent, Representative, agent or attorney] at [address] that you wish to cross-examine the affiant or declarant. Your request must be mailed or delivered to [name of proponent, Representative, agent or attorney] on or before [specify date *at least* 10 days after anticipated date of service of this notice on the other Parties]."

(c) If a timely request is made to cross-examine an affiant or declarant under this Rule, the burden of producing that witness at the hearing shall be upon the proponent of the witness. If the proponent fails to produce the witness, the affidavit or declaration may be introduced in evidence, but shall be given only the same effect as other hearsay evidence under Rule 44 [Section 17244].
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: Rule 1613, California Rules of Court; section 11514, Government Code; and section 1742(b), Labor Code.

17235. Subpoena and Subpoena Duces Tecum.
(a) Subpoenas and subpoenas duces tecum may be issued for attendance at a hearing and for the production of documents at any reasonable time and place or at a hearing.
(b) Subpoenas and subpoenas duces tecum shall be issued by the Hearing Officer at the request of a Party, or by the attorney of record for a Party, in accordance with sections 1985 to 1985.6, inclusive, of the Code of Civil Procedure. The burden of serving a subpoena that has been issued by the Hearing Officer shall be upon the Party who requested the subpoena.

(c) Service of subpoenas and subpoenas duces tecum, objections thereto, and mileage and witness fees shall be governed by the provisions of Government Code sections 11450.20 through 11450.40.
(d) Subpoenas and subpoenas duces tecum shall be enforceable through the Contempt and Monetary Sanctions provision set forth in Rule 47 [Section 17247] below. A Party aggrieved by the failure or refusal of any witness to obey a subpoena or subpoena duces tecum shall have the burden of showing to the satisfaction of the Hearing Officer that the subpoena or subpoena duces tecum was properly issued and served and that the testimony or evidence sought was necessary to prove or disprove a significant claim or defense in the proceeding.
NOTE: Authority cited: 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1985 through 1988, Code of Civil Procedure; section 1563, Evidence Code; sections 11450.20 through 11455.30, Government Code; and section 1742(b), Labor Code.

17236. Written Notice to Party in Lieu of Subpoena.
(a) In the case of the production of a Party of record in the proceeding or of a Person for whose benefit a proceeding is prosecuted or defended, the service of a subpoena upon any such witness is not required if written notice requesting the witness to attend, with the time and place of the hearing, is served on the attorney of the Party or Person. For purposes of this Rule, a Party of record in the proceeding or Person for whose benefit a proceeding is prosecuted or defended includes an officer, director, or managing agent of any such Party or Person.
(b) Service of written notice to attend under this Rule shall be made in the same manner and subject to the same conditions provided in section 1987 of the Code of Civil Procedure for service of written notice to attend in a civil action or proceeding.
(c) The Hearing Officer shall have authority under Rule 47 [Section 17247] below to sanction a Party who fails or refuses to comply with a written notice to attend that meets the requirements of this Rule and has been timely served in accordance with section 1987 of the Code of Civil Procedure. However, the Hearing Officer may not initiate contempt proceedings against the witness for failing to appear based solely on non-compliance with a written notice to attend served on the Party's attorney. A Party seeking sanctions for another Party's failure or refusal to comply with a written notice to attend shall have the burden of showing to the satisfaction of the Hearing Officer that the written notice to attend was properly issued and timely served and that the testimony or evidence sought was necessary to prove or disprove a significant claim or defense in the proceeding.
NOTE: Authority cited: 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1987, Code of Civil Procedure; sections 11450.50 through 11455.30, Government Code; and section 1742(b), Labor Code.

17237. Depositions and Other Discovery.
(a) There shall be no right to take oral depositions or obtain any other form of discovery that is not expressly authorized under these Rules.
(b) Oral depositions may be conducted only by stipulation of all Parties to the proceedings or by order of the appointed Hearing Officer upon a showing of substantial good cause. Oral depositions will be permitted only for purposes of obtaining the testimony of witnesses who are likely to be unavailable to testify at the hearing.
(c) Nothing in this Rule shall preclude the use of deposition testimony or other evidence obtained in separate proceedings, if such evidence is otherwise relevant and admissible.
NOTE: Authority cited: 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1987, Code of Civil Procedure; sections 11450.50 through 11455.30, Government Code; and section 1742(b), Labor Code.

ARTICLE 4. HEARINGS

17240. Notice of Appointment of Hearing Officer; Objections.

(a) Notice of the Appointment of a Hearing Officer under Rule 04 [Section 17204] above shall be provided to the Parties as soon as practicable and no later than when the matter is noticed for a prehearing conference or hearing.
(b) The Director may appoint a different Hearing Officer to conduct and hear the review or to conduct and dispose of any preliminary or procedural matter in a given case.
(c) A Party wishing to object to the appointment of a particular Hearing Officer, including for any one or more of the grounds specified in sections 11425.30 and 11425.40 of the Government Code or section 1742(b) of the Labor Code, shall within 10 days after receiving notice of the appointment and no later than the start of any hearing on the merits, *whichever is earlier*, file a motion to disqualify the appointed Hearing Officer together with a supporting affidavit or declaration. The motion shall be filed with the Chief Counsel of the Office of the Director at the address indicated in Rule 23 [Section 17223] above. Notwithstanding the foregoing time limits, if a Party subsequently discovers facts constituting grounds for the disqualification of the appointed Hearing Officer, including but not limited to that the Hearing Officer has received a prohibited ex parte communication in the pending case, the motion shall be filed as soon as practicable after the facts constituting grounds for disqualification are discovered.
(d) Upon receipt of a motion to disqualify the appointed Hearing Officer, the Director may: (1) consider and decide the motion or appoint another Hearing Officer to consider and decide the motion, in which case the challenged Hearing Officer shall first be given an opportunity to respond to the motion, but no proceedings shall be conducted by the challenged Hearing Officer until the motion is determined; or (2) appoint another Hearing Officer to hear the Request for Review, in which case the motion shall be deemed moot.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code . Reference: sections 170.3(c)(1), Code of Civil Procedure; sections 11425.30 and 11425.40, Government Code; and section 1742(b), Labor Code.

17241. Time and Place of Hearing.
(a) A hearing on the merits of a timely Request for Review shall be commenced within 90 days after the date it is received by the Office of the Director. The hearing shall be conducted at a suitable location within the county where the appointed Hearing Officer maintains his or her regular office, unless the hearing is moved to a different county in accordance with subpart (b) below.
(b) Upon the agreement of the Parties or upon a showing of good cause by either the Party who filed the Request for Review or the Enforcing Agency, the hearing shall be conducted at a suitable location within either (1) the county where a majority of the subject public works employment was performed, or (2) any other county that is proximate to or convenient for the Parties and necessary witnesses.
(c) A suitable location under this section means one that is open and accessible to members of the public and which includes appropriate facilities for the recording of testimony. Any facility that is regularly used by any state agency or by the Awarding Body for public hearings and that will reasonably accommodate the anticipated number of Parties and witnesses involved in the proceeding, is presumed suitable in the absence of a contrary showing. Parties seeking to change the location of a hearing under subpart (b) shall make reasonable efforts to identify, agree upon, and arrange for the availability of a suitable location within a county specified in subpart (b)(1) or (b)(2).
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 11425.20, Government Code; and section 1742(b), Labor Code.

17242. Open Hearing; Confidential Evidence and Proceedings; and Exclusion of Witnesses.

(a) Subject to the qualifications set forth below, the hearing shall be open to the public. If all or part of the hearing is conducted by telephone, television, or other electronic means, the Hearing Officer shall conduct the hearing from a location where members of the public may be physically present, and

members of the public shall also have a reasonable right of access to the hearing record and any transcript of the proceedings.
(b) Notwithstanding the provisions of subpart (a), the Hearing Officer may order closure of a hearing or make other protective orders to the extent necessary to: (1) preserve the confidentiality of information that is privileged, confidential, or otherwise protected by law; (2) ensure a fair hearing in the circumstances of the particular case; or (3) protect a minor witness or a witness with a developmental disability from intimidation or other harm, taking into account the rights of all persons.
(c) Upon motion of any Party or upon his or her own motion, the Hearing Officer may exclude from the hearing room any witnesses not at the time under examination. However, a Party to the proceeding and the Party's Representative shall not be excluded.
(d) This section does not apply to any prehearing or settlement conference.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 777, Evidence Code, section 11425.20, Government Code, and section 1742(b), Labor Code.

17243. Conduct of Hearing.
(a) Testimony shall be taken only on oath or affirmation under penalty of perjury.
(b) Every Party shall have the right to call and examine witnesses; to introduce exhibits; to question opposing witnesses on any matter relevant to the issues even though that matter was not covered in the direct examination; to impeach any witness regardless of which Party first called the witness to testify; and to rebut any opposing evidence. A Party may be called by an opposing Party and examined as if under cross-examination, whether or not the Party called has testified or intends to testify on his or her own behalf.
(c) The Hearing Officer may call and examine any Party or witness and may on his or her own motion introduce exhibits.
(d) The Hearing Officer shall control the taking of evidence and other course of proceedings in a hearing and shall exercise that control in a manner best suited to ascertain the facts and safeguard the rights of the Parties. Prior to taking evidence, the Hearing Officer shall define the issues and explain the order in which evidence will be presented; *provided that*, for good cause the Hearing Officer later may vary the order of presentation as circumstances warrant.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 11513, Government Code; and section 1742(b), Labor Code.

17244. Evidence Rules; Hearsay.
(a) The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions.
(b) The rules of privilege shall be recognized to the same extent and applied in the same manner as in the courts of this state.
(c) The Hearing Officer may exclude evidence if its probative value is substantially outweighed by the probability that its admission will necessitate undue consumption of time.
(d) Hearsay evidence is admissible but shall not be sufficient in itself to support a finding unless it either would be admissible over objection in a civil action or no Party raises an objection to such use. Unless previously waived, an objection or argument that evidence is insufficient in itself to support a finding because of its hearsay character shall be timely if presented at any time before submission of the case for decision.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 11513, Government Code; and section 1742(b), Labor Code.

17245. Official Notice.

(a) A Hearing Officer may take official notice of (1) the Director's General Prevailing Wage Determinations, the Director's Precedential Coverage Decisions, and wage data, studies, and reports issued by the Division of Labor Statistics and Research; (2) any other generally accepted technical fact within the fields of labor and employment that are regulated by the Director under Divisions 1, 2, and 3 of the Labor Code; and (3) any fact which either must or may be judicially noticed by the courts of this state under Evidence Code sections 451 and 452.
(b) The Parties participating in a hearing shall be informed of those matters as to which official notice is proposed to be taken and given a reasonable opportunity to show why and the extent to which official notice should or should not be taken.
(c) The Hearing Officer or the Director shall state in a decision, order, or on the record the matters as to which official notice has been taken.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 451, 452 and 455, Evidence Code; section 11515, Government Code; and section 1742(b), Labor Code.

17246. Failure to Appear; Relief from Default.
(a) Upon the failure of any Party to appear at a duly noticed hearing, the Hearing Officer may proceed in that Party's absence and may recommend whatever decision is warranted by the available evidence, including any lawful inferences that can be drawn from an absence of proof by the non-appearing Party.
(b) For good cause and under such terms as are just, the appointed Hearing Officer or the Director may relieve a Party from the effects of any failure to appear and order that a review proceeding be reinstated or reheard. A Party seeking relief from non-appearance shall file a written motion at the earliest opportunity and no later than 10 days following a proceeding of which the Party had actual notice. Such application shall be supported by an affidavit or declaration based on the personal knowledge of the declarant, and copies of the application and any supporting materials shall be served on all other Parties to the proceeding. No application shall be granted unless and until the other Parties have been afforded a reasonable opportunity to make a showing in opposition. An Order reinstating a proceeding or granting a rehearing under this section may be conditioned upon providing reimbursement to the Department and the other Parties for the costs associated with the prior non-appearance.
(c) Notwithstanding any application or showing made under subpart (b) of this Rule, neither the Hearing Officer nor the Director may reinstate any Request for Review where the underlying Assessment or Withholding of Contract Payments has become final and entered as a court judgment.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 473, Code of Civil Procedure; and section 1742(b), Labor Code.

17247. Contempt and Monetary Sanctions.
(a) If any Person in proceedings before an appointed Hearing Officer disobeys or resists any lawful order or refuses, without substantial justification, to respond to a subpoena, subpoena duces tecum, or refuses to take the oath or affirmation as a witness or thereafter refuses to be examined or is guilty of misconduct during a hearing or so near the place thereof as to obstruct the proceedings, or violates the prohibition against ex parte communications under Rule 07 [Section 17207] above, the Hearing Officer may do any one or more of the following: (1) certify the facts to the Superior Court in and for the county where the proceedings are held for contempt proceedings pursuant to Government Code section 11455.20; (2) exclude the Person from the hearing room; (3) prohibit the Person from testifying or introducing certain matters in evidence; and/or (4) establish certain facts, claims, or defenses if the Person in contempt is a Party.
(b) Either the appointed Hearing Officer by separate order or the Director in his or her decision may order a Party, the Party's authorized Representative, or both, to pay reasonable expenses, including attorney's fees, incurred by another Party as a result of bad faith actions or tactics that are frivolous or solely intended to cause unnecessary delay as defined in section 128.5 of the Code of Civil Procedure. Such order or the denial of such an order shall be subject to judicial review in the same manner as a

decision of the Director on the merits. The order shall be enforceable in the same manner as a money judgment or by the contempt sanction.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 128.5, Code of Civil Procedure; sections 11455.10 through 11455.30, Government Code; and section 1742(b), Labor Code.

17248. Interpreters.
(a) Proceedings shall be conducted in the English language. The notice advising a Party of the hearing date shall also include notice of the Party's right to request an interpreter for a Party or witness who cannot speak or understand English, or who can do so only with difficulty, or who is deaf or hearing impaired as defined under Evidence Code section 754.
(b) A request for an interpreter for a Party or witness shall be submitted as soon as possible after the requesting Party becomes aware of the need for an interpreter and prior to the commencement of the hearing. The request should include information that (1) will enable the Hearing Officer and Department to obtain an interpreter with appropriate skills; and (2) will assist the Hearing Officer in determining whether the Department or the requesting Party should pay for the cost of the interpreter.
(c) Upon receipt of a timely request, the Hearing Officer shall direct the Department to provide an interpreter and shall also decide whether the Department or the requesting Party shall pay the cost of the interpreter, based upon an equitable consideration of all the circumstances, including the requesting Party's ability to pay.
(d) A person is qualified to serve as an interpreter if he or she (1) is on the current State Personnel Board List of Certified Administrative Hearing Interpreters maintained pursuant to Government Code section 11435.25; and (2) has also been examined and determined by the Department to be sufficiently knowledgeable of the terminology and procedures generally used in these proceedings.
(e) In the event that a qualified interpreter under subpart (d) is unavailable or if there are no certified interpreters for the language in which assistance is needed, the Hearing Officer may qualify and appoint another interpreter to serve as needed in a single hearing or case.
(f) Before appointment of an interpreter, the Hearing Officer or a Party may conduct a brief supplemental examination of the prospective interpreter to see if that person has the qualifications necessary to serve as an interpreter, including whether he or she understands terms and procedures generally used in these proceedings, can explain those terms and procedures in English and the other language being used, and can interpret those terms and procedures into the other language. An interpreter shall not have had any prior substantive involvement in the matter under review, and shall disclose to the Hearing Officer and the Parties any actual conflict of interest or appearance of conflict. Any condition that interferes with the objectivity of an interpreter constitutes a conflict of interest. A conflict may exist if an interpreter is an employee of, acquainted with, or related to a Party or witness to the proceeding, or if an interpreter has an interest in the outcome of the proceeding.
(g) The Hearing Officer shall disqualify an interpreter if the interpreter cannot understand and interpret the terms and procedures used in the hearing or prehearing conference, has disclosed privileged or confidential communications, or has engaged in conduct which, in the judgment of the Hearing Officer, creates an appearance of bias, prejudice, or partiality.
(h) Nothing in this section limits any further rights extended by Evidence Code section 754 to a Party or witness who is deaf or hard of hearing.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 754, Evidence Code; sections 11435.05 through 11435.65, and 68560 through 68566, Government Code; and section 1742(b), Labor Code.

17249. Hearing Record; Recording of Testimony and other Proceedings.
(a) The Hearing Officer and the Director shall maintain an official record of all proceedings conducted under these Rules. In the absence of a determination under subpart (b) below, all testimony and other proceedings at any hearing shall be recorded by audiotape. Recorded testimony or other proceedings

need not be transcribed unless requested for purposes of further court review of a decision or order in the same case.
(b) Upon the application of any Party or upon his or her own motion, the Hearing Officer may authorize the use of a certified court reporter, videotape, or other appropriate means to record the testimony and other proceedings. Any application by a Party under this subpart shall be made at a prehearing conference or by prehearing motion filed no later than 10 days prior to the scheduled date of hearing. Upon the granting of any such application, it shall be the responsibility of the Party or Parties who made the application to procure and pay for the services of a qualified person and any additional equipment needed to record the testimony and proceedings by the requested means. Ordinarily the granting of such application will be conditioned on the applicant's paying for certified copies of the transcript for the official record and for the other Parties. The failure of a requesting Party to comply with this requirement shall not be cause for delaying the hearing on the merits, but instead shall result in the proceedings being tape recorded in accordance with subpart (a).
(c) The Parties may, at their own expense, arrange for the recording of testimony and other proceedings through a different means other than the one authorized by the Hearing Officer, *provided that* it does not in any way interfere with the Hearing Officer's control and conduct of the proceedings, and *further provided that*, it shall not be regarded as an official record for any purpose absent a stipulation by all of the Parties or order of the Hearing Officer.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1742(b), Labor Code.

17250. Burdens of Proof on Wages and Penalties.
(a) The Enforcing Agency has the burden of coming forward with evidence that the Affected Contractor or Subcontractor (1) was served with an Assessment or Notice of Withholding of Contract Payments in accordance with Rule 20 [Section 17220]; (2) was provided a reasonable opportunity to review evidence to be utilized at the hearing in accordance with Rule 24 [Section 17224]; and (3) that such evidence provides prima facie support for the Assessment or Withholding of Contract Payments.
(b) If the Enforcing Agency meets its initial burden under (a), the Affected Contractor or Subcontractor has the burden of proving that the basis for the Civil Wage and Penalty Assessment or for the Withholding of Contract Payments is incorrect.
(c) With respect to any civil penalty established under Labor Code section 1775, the Affected Contractor or Subcontractor shall have the burden of proving that the Labor Commissioner abused his or her discretion in determining that a penalty was due or in determining the amount of the penalty.
(d) All burdens of proof and burdens of producing evidence shall be construed in a manner consistent with relevant sections of the Evidence Code, and the quantum of proof required to establish the existence or non-existence of any fact shall be by a preponderance of the evidence, unless a higher standard is prescribed by law.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 500, 502, and 550, Evidence Code; and sections 1742(b) and 1775, Labor Code. .

17251. Liquidated Damages.
(a) With respect to any liquidated damages for which an Affected Contractor, Subcontractor, or Surety on a bond becomes liable under Labor Code section 1742.1, the Enforcing Agency shall have a further burden of coming forward with evidence to show the amount of wages that remained unpaid as of 60 days following the service of the Assessment or Notice of Withholding of Contract Payments. The Affected Contractor or Subcontractor shall have the burden of demonstrating that he or she had substantial grounds for believing the Assessment or Notice to be in error.
(b) To demonstrate "substantial grounds for believing the Assessment or Notice to be in error," the Affected Contractor or Subcontractor must establish (1) that it had a reasonable subjective belief that the Assessment or Notice was in error; (2) that there is an objective basis in law and fact for the claimed

error; and (3) that the claimed error is one that would have substantially reduced or eliminated any duty to pay additional wages under the Assessment or Notice.
NOTE: Authority cited: 55, 59, 1742(b), and 1773.5, Labor Code. Reference: sections 1742(b), 1742.1, and 1773.5, Labor Code.

17252. Oral Argument and Briefs.
(a) Parties may submit prehearing briefs of reasonable length under such conditions as the appointed Hearing Officer shall prescribe. Parties shall also be permitted to present a closing oral argument of reasonable length at or following the conclusion of the hearing.
(b) There shall be no automatic right to file a post-hearing brief. However, the Hearing Officer may permit the Parties to submit written post-hearing briefs, under such terms as are just. The Hearing Officer shall have discretion to determine, among other things, the length and format of such briefs and whether they will be filed simultaneously or on a staggered (opening, response, and reply) basis.
(c) In addition to or as an alternative to post-hearing briefs, the Hearing Officer may also prepare proposed findings or a tentative decision or may designate a Party to prepare proposed findings and thereafter give the Parties a reasonable opportunity to present arguments in support of or opposition to any proposed findings or tentative decision prior to the issuance of a decision by the Director under Rule 60 [Section 17260] below.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1742(b), Labor Code.

17253. Conclusion of Hearing; Time for Decision.
(a) The hearing shall be deemed concluded and the matter submitted either upon the completion of all testimony and post-hearing arguments or upon the expiration of the last day for filing any post-hearing brief or other authorized submission, whichever is later. Thereafter, the Director shall have 45 days within which to issue a written decision affirming, modifying, or dismissing the Assessment or the Withholding of Contract Wages.
(b) For good cause, the Hearing Officer may vacate the submission and reopen the hearing for the purpose of receiving additional evidence or argument, in which case the time for the Director to issue a written decision shall run from the date of resubmission.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1742(b), Labor Code.

ARTICLE 6. DECISION OF THE DIRECTOR

17260. Decision.
(a) The appointed Hearing Officer shall prepare a recommended decision for the Director's review and approval. The decision shall consist of a notice of findings, findings, and an order, and shall be in writing and include a statement of the factual and legal basis for the decision, consistent with the requirements of Labor Code section 1742 and Government Code section 11425.50.
(b) A recommended decision shall have no status or effect unless and until approved by the Director and issued in accordance with subpart (c) below.
(c) A copy of the decision shall be served by first class mail on all Parties in accordance with the requirements of Code of Civil Procedure section 1013. If a Party has appeared through an authorized Representative, service shall be made on that Party at the last known address on file with the Enforcing Agency in addition to service on the authorized Representative.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1013, Code of Civil Procedure; section 11425.50, Government Code; and section 1742(b), Labor Code. .
17261. Reconsideration.

(a) Upon the application of any Party or upon his or her own motion, the Director may reconsider or modify a decision issued under Rule 60 [Section 17260] above for the purpose of correcting any error therein.
(b) The decision must be reconsidered or modified within 15 days after its date of issuance pursuant to Rule 60(c) [Section 17260(c)]. Thereafter, the decision may not be reconsidered or modified, except that a clerical error may be corrected at any time.
(c) The modified or reconsidered decision shall be served on the Parties in the same manner as a decision issued under Rule 60 [Section 17260].
(d) A Party is not required to apply for reconsideration before seeking judicial review of a decision of the Director. An application for reconsideration made by any Party shall *not* extend the time for seeking judicial review pursuant to Labor Code section 1742(c) unless the Director issues a modified or reconsidered decision within the 15-day time limit prescribed in subpart (b) of this section.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1742, Labor Code.

17262. Final Decision; Time for Seeking Review.
(a) The decision of the Director issued pursuant to Section Rule 60 [Section 17260] above shall be the final decision of the Director from which any Party may seek judicial review pursuant to the provisions of Labor Code section 1742(c) and Code of Civil Procedure section 1094.5; *provided however*, that if the Director has issued a modified decision pursuant to and within the 15-day limit of the Director's reconsideration authority under Section Rule 61 [Section 17261] above and Labor Code section 1742(b), the right of review and time for seeking such review shall extend from the date of service of the modified decision rather than from the original decision.
(b) The modification of a decision to correct a clerical error after expiration of the 15-day time limit on the Director's reconsideration authority shall *not* extend the time for seeking judicial review.
(c) The time for seeking judicial review shall be determined from the date of service of the decision of the Director under Code of Civil Procedure section 1013, including any applicable extension of time provided in that statute.
(d) Any petition seeking judicial review of a decision under these Rules may be served (1) upon the Director by serving the Office of the Director – Legal Unit where the appointed Hearing Officer who conducted the hearing on the merits regularly maintains his or her office; and (2) upon the Labor Commissioner (in cases in which the Labor Commissioner was the Enforcing Agency) by the serving the regular office of the attorney who represented the Labor Commission at the hearing on the merits. The intent of this subpart is to authorize and designate a preferred method for giving the Director and the Labor Commissioner formal notice of a court action seeking review of a decision of the Director under these Rules; it does not preclude the use any other service method authorized by law.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5. Reference: sections 1013 and 1094.5, Code of Civil Procedure; and section 1742, Labor Code.

17263. Preparation of Record for Review.
(a) Upon notice that a Party intends to seek judicial review of a decision of the Director and the payment of any required deposit, the Department, under the direction of the appointed Hearing Officer, shall immediately prepare a hearing record consisting of all exhibits and other papers and a transcript of all testimony which the Party has designated for the inclusion in the record on review.
(b) The Party who has requested the record or any part thereof shall bear the cost of its preparation, including but not necessarily limited to any court reporter transcription fees and reasonable charges for the copying, binding, certification, and mailing of documents. Absent good cause, no record will be released to a Party or filed with a court until adequate funds to cover the cost of preparing the record have been paid by the requesting Party to the Department or to any third party designated to prepare the record. However, upon notice that a Party seeking judicial review has been granted *in forma pauperis* status

under California Rule of Court 985, the Department shall bear the cost of preparing and filing the record where necessary for a proper review of the proceedings.
(c) The pendency of any request for the Department to prepare a hearing record shall *not* extend the time limits for filing a petition for review under Labor Code section 1742(c) and Code of Civil Procedure section 1094.5.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1094.5, Code of Civil Procedure; California Rule of Court 985; section 68511.3, Government Code; and section 1742(c), Labor Code.

17264. Request for Participation by Director in Judicial Review Proceeding.
Although the Director should be named as the Respondent in any action seeking judicial review of a final decision, the Director ordinarily will rely upon the Parties to the hearing (as Petitioner and Real Party in Interest) to litigate the correctness of the final decision in the writ proceeding and on any appeal. The Director may participate actively in proceedings raising issues that specifically concern the Director's authority under the statutes and regulations governing the payment of prevailing wages on public work contracts, or the validity of related laws, regulations, or the Director's decisions as to public works coverage or generally applicable prevailing wage rates. Any Party may request the Director to file a response in the action by including a separate written request with any court pleading being served on the Director in accordance with Rule 62(d) [Section 17262(d)]. Any such separate written request should specify briefly what issues are raised by the petition that extend beyond the facts of the case and warrant the Director's participation.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1094.5, Code of Civil Procedure and section 1742(c), Labor Code.

ARTICLE 7. TRANSITIONAL RULE.

17270. Applicability of these Rules to Notices Issued Between April 1, 2001 and June 30, 2001.
(a) These Rules shall apply to any notice issued by the Labor Commissioner or an Awarding Body with respect to the withholding or forfeiture of contract payments for unpaid wages or penalties under the prevailing wage laws in effect prior to July 1, 2001; *provided that*, the party seeking review has not commenced a civil action with respect to such notice under the provisions of Labor Code sections 1731-1733 [repealed effective July 1, 2001].
(b) An Affected Contractor or Subcontractor may appeal any such notice served between April 1, 2001 and June 30, 2001 by filing a Request for Review with the Enforcing Agency that issued the notice, in the manner and form specified in Rule 22 [Section 17222] above. Any such Request for Review shall be in writing and shall include a statement indicating the date upon which the contractor or subcontractor was served with the notice of withholding or forfeiture.
(c) This Rule shall *not* extend the time available to appeal the notice under the former law. A Request for Review of a notice issued prior to July 1, 2001 must be filed with the Enforcing Agency within ninety (90) days after service of the notice.
(d) A contractor or subcontractor who has sought review of a notice issued prior to July 1, 2001 by filing a court action under the repealed provisions of Labor Code sections 1731-1733 on or after July 1, 2001, shall, if said action would have been timely under those sections, be afforded the opportunity to dismiss the action without prejudice, after entering into a stipulation that the proceeding be transferred to the Director for hearing in accordance with these Rules. The stipulation shall also provide that the time for commencing a hearing under Rule 41 [Section 17241] shall not begin to run until the case has been formally transferred to and received by the Office of the Director.
(e) Any hearing request made pursuant to Labor Code section 1771.7 [repealed effective July 1, 2001] that has not been heard and decided by a Hearing Officer prior to July 1, 2001 shall be handled in accordance with these Rules.
NOTE: Authority cited: sections 55, 59, 1742(b), and 1773.5, Labor Code. Reference: section 1742(b), Labor Code.

ANTIOCH UNIFIED SCHOOL DISTRICT

LABOR COMPLIANCE PROGRAM OFFICE

Implementation Plan

Section III

IMPLEMENTATION PLAN

- Labor Compliance Officer receives construction contract awards/work schedules from the Maintenance & Operations and the Facilities Departments.
- Labor Compliance Officer participates in job-start meeting.
- Labor Compliance Officer provides site monitors with work schedules.
- Site monitors, both District employees and others, conduct interviews and return interview sheets to Labor Compliance Officer.
- Labor Compliance Officer enters information from interviews into database.
- Labor Compliance Officer verifies information from certified payroll records.
- Labor Compliance Officer notifies contractor in writing of any discrepancies with certified payroll records.
- If clarification/correction is not received from the contractor within two weeks, Labor Compliance Officer will commence an investigation.
- Upon completion of the investigation, a report will be sent to the Department of Industrial Relations with recommendations for penalties to be applied to the contractor.
- Labor Compliance Officer prepares and submits public works violation reports to Labor Commissioner as required.
- Labor Compliance Officer receives Monthly Employment Utilization Report from the contractor and its subcontractors; Labor Compliance Officer maintains database of this information for year-end report to the Board of Education.
- Labor Compliance Officer communicates on a regular basis with contractors, workers, building and trade organizations, and other community entities and in-service management to District personnel.
- Labor Compliance Officer prepares and submits annual program reports to the Antioch Unified School District Superintendent, Board of Education, and the Director of the Department of Industrial Relations.
- Labor Compliance Officer manages all facets and is the primary contact for the District's Labor Compliance Program.
- Labor Compliance Officer provides non-District site monitors with site visitation training and assigns projects when applicable.

Section IV

ANTIOCH UNIFIED SCHOOL DISTRICT

LABOR COMPLIANCE PROGRAM OFFICE

Operational Manual

SECTION IV

OPERATION MANUAL

Site Visitations

1. Safety is the paramount factor for any site visit to any Antioch Unified School District construction projects. Do not enter any area that appears unsafe. Site monitor is expected to exercise reasonable caution at all times.

2. All authorized personnel visiting any Antioch Unified School District construction site are required to be properly identified as a District representative by wearing visible picture ID's (badge), or identifying themselves as such. Additionally, all authorized personnel are required to wear hard hats and safety shoes.

3. Authorized personnel shall visit all sites on a non-interference basis and take a minimum amount of the workers' time for interview purposes.

4. Upon arrival at a site, the site monitor will check in at the site superintendent's (contractor's) trailer prior to any interviewing. In the event there is not a construction trailer, you will check in at the site's administrative office. Identify yourself and state the purpose of the visit. Sign in if required to do so. If the site superintendent cites some reason that denies access to the site, promptly and politely remove yourself. Make a note of this occurrence and include in your report to the LCO.

5. Check to see that the following are displayed in the contractor's trailer:
   - EOE Posters
   - Prevailing wage sheets posted
   - Sign-in Log
   - Listing of subcontractors on site

   If any of these items are not readily visible, remind the contractor that these postings are part of the contractual requirements. On subsequent visits, make sure that these items are posted, or the contractor will be found to be in noncompliance.

6. There will be times when the site superintendent is somewhere on the site and/or there is no contractor present in the trailer. You should check in at the District's Inspector of Record (IOR) trailer. The IOR will also be able to tell you which contractors are on the site at that time. If all trailers are empty or locked, try to locate the site superintendent or IOR on the site prior to commencing interviewing.

Interviewing

1. Once you have checked in with the site superintendent and obtain access to the site, try to locate tradespersons working in clusters. For instance, several painters, electricians, roofers, etc. working in one area. Approach the workers individually in a non-threatening, professional manner. Identify yourself, indicate that you are a District representative, and that you need only a few seconds of their time to ask some very generic questions to ensure that they are receiving the proper rate of pay for the type of work they are doing. Again, do

not endanger yours or any tradesperson's safety in conducting these interviews. Do not insist that someone on a scaffold 40 feet in the air come down for an interview. Do not ask anyone to form a line until you can get to them; allow them to continue working until you can get to them individually.

These interviews are random; two or three tradespersons for each subcontractor are more than sufficient for one visit. Any persons missed are usually picked up on the next visit. If only one tradesperson is at the site, then interview that person if possible. If you are told that the rest of the crew will be there in an hour, do not wait, unless your total site interviewing will take that length of time. Thirty minutes of interviewing per site is typically sufficient, depending upon the site size and/or number of subcontractors present. Contractor tradesperson should also be interviewed.

2. Using the Labor Compliance Site Visitation Interview form, ask each person the following: name, social security number, employer, title (trade), rate of pay, and task being performed at the time of interview.

3. Should someone decline to speak with you, respect those wishes. If someone asks if this is union-related, tell them no. Antioch Unified School District works with both open and closed shop trades.

4. If you try to interview someone who does not speak English and you cannot communicate in the appropriate language, try to locate a coworker who can interpret for you. If you find an entire crew unable to speak English and no interpreter, include this in your report to the LCO.

5. If someone refuses to disclose his social security number to you, respect those wishes. However, assure that person that all information given is kept strictly confidential.

6. If someone does not know their rate of pay (most tradespersons don't know), ask for a guesstimate. If the response is, "whatever prevailing wage is", so indicate on the form.

7. If someone indicates that he is an apprentice, make sure that you ask him what period. These can be anywhere from 1st to 10th. If he's not sure, ask him how many years he's been apprenticed in the specific trade and/or to guesstimate and so indicate on the interview form.

8. ALWAYS thank them for their time.

9. Keep in mind that you are there to collect information only, do not tell them how to do their jobs. Should you witness what you consider a potentially unsafe or unwarranted condition, you are to contact the site inspector or job superintendent of your findings immediately and make a note on your site visitation log of what you observed. Upon your return to the office, report your findings to the LCO.

Reporting

1. All original interview forms shall be submitted to the LCO no later than the end of each workweek.

Section V

ANTIOCH UNIFIED SCHOOL DISTRICT

LABOR COMPLIANCE PROGRAM OFFICE

Procedures

SECTION V

PROCEDURES

Certified Payroll Verification Procedures

1. The Facilities Department and the Maintenance & Operation Department will provide the Labor Compliance Officer with construction work schedules.

2. Upon receipt of certified payroll reports from general/subcontractors once a week, compare information from the Labor Compliance visitation log to the contractors certified payroll and the prevailing wage schedule.

3. Compare name and social security number with trade classification listed.

4. Ensure prevailing wage listed is correct for the classification listed using the prevailing wage schedule

5. Check for employment of apprentices, correct rate of pay, and proper ratio to journey workers.

6. Contact the contractor in writing and send by certified mail any inaccuracies in the verification of its certified payroll.

7. If clarification/correction is not received within two weeks form the contractor, the Labor Compliance Officer will commence an investigation.

8. Upon completion of the investigation, a report will be sent to the Department of Industrial Relations with recommendations for penalties to be applied to the contractor.

9. Retain all original interview forms and annotate the database as applicable.

Site Monitor Procedures

1. Receive construction site work schedule from Labor Compliance Officer.

2. Check in with site administrative office/site superintendent

3. Utilizing the Labor Compliance Site Visitation Interview form, conduct interviews with workers.

4. Note on your form any infractions you may observe while conducting the interview.

5. Return interview form to the Labor Compliance Officer.

6. Report any infractions you observed to the Labor Compliance Officer.

ANTIOCH UNIFIED SCHOOL DISTRICT

LABOR COMPLIANCE PROGRAM

Forms

ANTIOCH UNIFIED SCHOOL DISTRICT

LABOR COMPLIANCE PROGRAM

PREVAILING WAGE HANDOUT

THE PUBLIC WORKS REQUIREMENTS ARE:

(A) the appropriate number of apprentices are on the job site, as set forth in Labor Code Section 1777.5.
(B) worker's compensation coverage, as set forth in Labor Code Sections 1860 and 1861.
(C) keep accurate records of the work performed on the public works project, as set forth in Labor Code Section 1812.
(D) inspection of payroll records pursuant to Labor Code Section 1776, and as set forth in 8 CCR Section 16400(e).
(E) other requirements imposed by law.
(5) Withhold monies. See Labor Code Section 1727.
(6) Ensure that public works projects are not split or separated into smaller work orders or projects for the purpose of evading the applicable provisions of Labor Code Section 1771.
(7) Deny the right to bid on public work contracts to contractors or subcontractors who have violated public work laws, as set forth in Labor Code Section 1777.7.
(8) Not permit workers on public works to work more than eight hours a day or 40 hours in any one calendar week, unless compensated at not less than time and a half as set forth in Labor Code Section 1815.
Exception: If the prevailing wage determination requires a higher rate of pay for overtime work than is required under Labor Code Section 1815, then that higher overtime rate must be paid [,as specified in 16200(a)(3)(F).]
(9) Not take or receive any portion of the workers' wages or accept a fee in connection with a public works project, as set forth in Labor Code Sections 1778 and 1779.
(10) Comply with those requirements as specified in Labor Code Sections 1776(g), 1777.5, 1810, 1813, and 1860.

THE CONTRACTOR AND SUBCONTRACTOR SHALL:

(1) Pay not less than the prevailing wage to all workers, as defined in CCR's section 16000(a), and as set forth in Labor Code Sections 1771 and 1774;
(2) Comply with the provisions of Labor Code Sections 1773.5, 1775, and 1777.5 regarding public works job sites;
(3) Provide workers' compensation coverage as set forth in Labor Code Section 1861;
(4) Comply with Labor Code Sections 1778 and 1779 regarding receiving a portion of wages or acceptance of a fee;
(5) Maintain and make available for inspection payroll records, as set forth in Labor Code Section 1776;
(6) Pay workers overtime pay, as set forth in Labor Code Section 1815 or as provided in the collective bargaining agreement adopted by the Director as set forth in 8 CCR Section 16200(a)(3); and
(7) Comply with Section 16101 of these regulations regarding discrimination.
(8) Be subject to provisions of Labor Code Section 1777.7 which specifies the penalties imposed on a contractor who willfully fails to comply with provisions of Section 1777.5.
(9) Comply with those requirements as specified in Labor Code Sections 1810 and 1813.
(10) Comply with other requirements imposed by law.

APPRENTICE TRAINING

SEE LABOR CODE SECTION 1777.5 (e)
(e) Prior to commencing work on a contract for public works, every contractor shall submit contract award information to an applicable apprenticeship program **that can supply apprentices to the site of the public work**. The information submitted shall include an estimate of journeyman hours to be performed under the contract, the number of apprentices proposed to be employed, and the approximate dates the apprentices would be employed. A copy of this information shall also
be submitted to the awarding body if requested by the awarding body.
Within 60 days after concluding work on the contract, each contractor and subcontractor shall submit to the awarding body, if requested, and to the apprenticeship program a verified statement

of the journeyman and apprentice hours performed on the contract. The information under this subdivision shall be public. The apprenticeship programs shall retain this information for 12 months.

APPRENTICE TRAINING CONTIBUTION REQUIREMENTS

SEE CALIFORNIA CODE OF REGULATIONS: TITLE 8, ARTICLE 4,

16200(G) **Wage rates, training contributions and apprenticeship contributions.**

Apprenticeship rates shall be determined by the Director of Industrial Relations using apprentice wage standards set forth in the collective bargaining agreement and/or approved by the California Apprenticeship Council. A contractor or subcontractor on a public works contract must pay training fund contributions or apprenticeship contributions in one of the following manners:

1. into the appropriate craft apprenticeship program in the area of the site of the public work; or
2. (if the trust fund is unable to accept such contributions) an equivalent amount shall be paid to the California Apprenticeship Council (CAC) administered by DAS.
3. If neither of the above will accept the funds, cash pay shall be as provided for in ccr's section 16200(a)(3)(I).

SEE CALIFORNIA CODE OF REGULATIONS: TITLE 8, ARTICLE 10, SECTION 230.2

§230.2. **Payment of Apprenticeship Training Contributions to the Council.**

(a) Contractors who are neither required nor wish to make apprenticeship training contributions to the applicable local training trust fund shall make their training contributions to the Council. Contractors may refer to the Director of the Department of Industrial Relations applicable prevailing wage determination for the amount owed for each hour of work performed by journeymen and apprentices in each apprenticeable occupation.

(b) Training contributions to the Council are due and payable on the 15th day of each month for work performed during the preceding month.

(c) Training contributions to the Council shall be paid by check and shall be accompanied by a completed CAC-2 Form, Training Fund Contributions, (Rev. 10/91), or the following information:

(1) The name, address, and telephone number of the contractor making the contribution.
(2) The contractor's license number.
(3) The name and address of the public agency that awarded the contract.
(4) The jobsite location, including the county where the work was performed.
(5) The contract or project number.
(6) The time period covered by the enclosed contributions.
(7) The contribution rate and total hours worked by apprenticeable occupation.

CERTIFYING PERSON

SEE CALIFORNIA CODE OF REGULATIONS: TITLE 8,GROUP 3, ARTICLE 1,16000 DEFINITIONS.

A person with the authority to affirm under penalty of perjury that the records provided, depict truly, fully and correctly the type of work performed, the hours worked, days worked and amounts paid.

CHANGES TO PREVAILING RATE AFTER AWARD

SEE LABOR CODE SECTION: 1773.6

No effect once the contract notice to bidders is published.

1773.6. If during any quarterly period the Director of Industrial Relations shall determine that there has been a change in any prevailing rate of per diem wages in any locality he shall make such change available to the awarding body and his determination shall be final. Such determination by the Director of Industrial Relations shall not be effective as to any contract for which the notice to bidders has been published. *Exceptions; classifications marked as a double asterisks.*

CREDITS, FOR FRINGE BENEFIT PAYMENTS

SEE CALIFORNIA CODE OF REGULATIONS: TITLE 8, GROUP3, ARTICLE 4,

16200(i) Credit Available For Actual Payment of Fringe Benefit Costs up to the Prevailing Amount. The contractor obligated to pay the full prevailing rate of per diem wages may take credit for amounts up to the total of all fringe benefit amounts listed as prevailing in the appropriate wage determination. This credit may be taken only as to amounts which are actual payments under Employer Payments Section 16000(1)-(3). In the event the total of Employer Payments by a contractor for the fringe benefits listed as prevailing is less than the aggregate amount set out as prevailing in the wage determination, the contractor must pay the difference directly to the employee. No amount of credit for payments over the aggregate amount of employer payments shall be taken nor shall any credit decrease the amount of direct payment of hourly wages of those amounts found to be prevailing for straight time or overtime wages.

And memo from the division of industrial relations dated 11-15-90.

THE RULE:

The contractor can pay amounts for individual benefits different than the state shows in the wage reports so long as it is not more than the total amount permitted for all benefits. Any contractor paid amount less than the total benefit requirements listed in the state wage reports must be paid to the employee.

EMPLOYEE'S SUBJECT TO PREVAILING WAGES

SEE LABOR CODE SECTION 1771, 1772 & 1776 AND SEE

AUSD general conditions all workers on the project shall be paid the wage of the trade they are most closely related to. This includes: any one on site, and off site even at remote manufacturing facilities.

1771. Except for public works projects of one thousand dollars ($1,000) or less, not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the public work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed as provided in this chapter, shall be paid to **all** workers employed on public works.

1772. Workers employed by contractors or subcontractors in the execution of any contract for public work are deemed to be employed upon public work.

1776. (a) Each contractor and subcontractor shall keep an accurate payroll record, showing the name, address, social security number, work classification, and straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work.

EMPLOYER PAYMENTS

SEE CALIFORNIA CODE OF REGULATIONS: TITLE 8, ARTICLE 1, SECTION 16000 DIFINITIONS

(1) The rate of contribution irrevocably made by a contractor or subcontractor to a trustee or to a third person pursuant to a fund, plan, or program for the benefit of employees, their families and dependents, or retirees;

(2) The rate of costs to the contractor or subcontractor which may be reasonably anticipated in providing benefits to employees, their families and dependents or to retirees pursuant to an enforceable commitment or agreement to carry out a financially responsible plan or program which was communicated in writing to the workers affected; and

(3) The rate of contribution irrevocably made by the contractor or subcontractor for apprenticeship or other training programs authorized by Section 3071 and/or 3093 of the Labor Code.

FRINGE BENEFIT PAYMENT REQUIREMENTS

SEE CALIFORNIA CODE OF REGULATIONS: TITLE 8, GROUP 3, ARTICLE 1, 16000 DEFINITIONS

All fringe benefits must be irrevocably paid to an authorized fund or to the employee.

No unpaid amounts are allowed.

FRINGE BENEFITS INCLUDE

CALIFORNIA CODE OF REGULATIONS: TITLE 8, ARTICLE 1, SECTION 16000. DEFINITIONS

3) The prevailing rate of employer payments for any or all programs or benefits for employees, their families and dependents, and retirees which are of the types enumerated below:

(A) medical and hospital care, prescription drugs, dental care, vision care, diagnostic services, and other health and welfare benefits;

(B) retirement plan benefits;

(C) vacations and holidays with pay, or cash payments in lieu thereof;

(D) compensation for injuries or illnesses resulting from occupational activity;

(E) life, accidental death and dismemberment, and disability or sickness and accident insurance;

(F) supplemental unemployment benefits;

(G) thrift, security savings, supplemental trust, and beneficial trust funds otherwise designated, provided all of the money except that used for reasonable administrative expenses is returned to the employees;

(H) occupational health and safety research, safety training, monitoring job hazards, and the like, as specified in the applicable collective bargaining agreement;

(I) See definition of "Employer Payments," (3).

(J) other bonafide benefits for employees, their families and dependents, or retirees as the Director may determine; and

(4) travel time and subsistence pay as provided for in Labor Code Section 1773.8.

FRINGE BENEFITS DO NOT INCLUDE

CALIFORNIA CODE OF REGULATIONS: TITLE 8, ARTICLE 1, SECTION 16000. DEFINITIONS

(b) The term "general prevailing rate of per diem wages"

does not include any employer payments for:

(1) Job related expenses other than travel time and subsistence pay;

(2) Contract administration, operation of hiring halls, grievance processing, or similar purposes except for those amounts specifically earmarked and actually used for administration of those types of employee or retiree benefit plans enumerated above;

(3) Union, organizational, professional or other dues except as they may be included in and withheld from the basic taxable hourly wage rate;

(4) Industry or trade promotion;

(5) Political contributions or activities;

(6) Any benefit for employees, their families and dependents, or retirees including any benefit enumerated above where the contractor or subcontractor is required by Federal, State, or local law to provide such benefit; or

(7) Such other payments as the Director may determine to exclude. Interested Party. When used with reference to a particular prevailing wage determination made by the Director, includes:

PAYROLL RECORDS INCLUDE

CALIFORNIA CODE OF REGULATIONS: TITLE 8, ARTICLE 1, SECTION 16000. DEFINITIONS

All time cards, cancelled checks, cash receipts, trust fund forms, books, documents, schedules, forms, reports, receipts or other evidences which reflect job assignments, work schedules by days and hours, and the

disbursement by way of cash, check, or in whatever form or manner, of funds to a person(s) by job classification and/or skill pursuant to a public works project.

PERSONS REQUIRED TO RECEIVE PREVAILING WAGES

SEE LABOR CODE SECTIONS:

1771....., shall be paid to all workers employed on public works.

1774. The contractor to whom the contract is awarded, and any subcontractor under him, shall pay not less than the specified prevailing rates of wages to all workmen employed in the execution of the contract.

AUSD General Conditions require all workers not in a prevailing wage classification to be paid the wage most closely related to the craft or trade they are involved with.

WITHHOLDING PAYMENTS, JUSTIFICATION

SEE LABOR CODE SECTION: 1727 & 1771.5(b),(5)

SEE CALIFORNIA CODE OF REGULATIONS: TITLE 8, ARTICLE 5, SECTION

16435(a) "Withhold" means to cease payments by the awarding body, or others who pay on its behalf, or agents, to the general contractor. Where the violation is by a subcontractor, the general contractor shall be notified of the nature of the violation and reference made to its rights under Labor Code Section 1729.

(b) "Contracts." Except as otherwise provided by agreement, only contracts under a single master contract, or contracts entered into as stages of a single project, may be the subject of withholding.

(c) "Delinquent payroll records" means those not submitted on the date set in the contract.

(d) "Inadequate payroll records" are any one of the following:

(1) A record lacking the information required by Labor Code Section 1776;

(2) A record which contains the required information but not certified, or certified by someone not an agent of the contractor or subcontractor;

(3) A record remaining uncorrected for one payroll period, after the awarding body has given the contractor notice of inaccuracies detected by audit or record review. Provided, however, that prompt correction will stop any duty to withhold if such inaccuracies do not amount to 1 percent of the entire Certified Weekly Payroll in dollar value and do not affect more than half the persons listed as workers employed on that Certified Weekly Payroll, as defined in Labor Code Section 1776 and Title 8 CCR Section 16401.

DIRECTOR OF INDUSTRIAL RELATIONS PRECEDENTIAL DECISIONS WHICH REQUIRE PREVAILING WAGES:

Decision 92-036: stands for the payment of out of state workers if they are working on California "Public Works"

Decision 93-019: stands for the payment of truck drivers removing, delivering or relocating material on a "Public Works"

Decision 94-017: stands for the payment of waste processors off site if the waste is exclusively from a "Public Works"

COURT DECISIONS:

Standard Traffic Services v. Department of Transportation (case 132667) Shasta: partners are due prevailing wages
If working on a "Public Works"

QUESTIONS. CALL DANE RUDDELL AUSD 925/776-2073

(13) The requirement to provide equal opportunity for historically underutilized groups as required in the Public Contracts Code and in the contract;		

ANTIOCH UNIFIED SCHOOL DISTRICT

PROCUREMENT AND DISTRIBUTION DEPARTMENT
LABOR COMPLIANCE PROGRAM

CALIFORNIA CODE OF REGULATIONS CHECKLIST

After the District awards a public works contract, and prior to the commencement of work on that contract, a mandatory Job Start meeting (Pre-Job conference) shall be conducted by the LCO or Representative with the contractor and those subcontractors listed in its bid documents. The following is a listing of labor law requirements applicable to the public works contract:

1. Payment of Prevailing Wage Rates

a. All workers on the project are to be paid not less than the specified general prevailing wage rate by the contractor and its subcontractors, unless subject to exemption.

b. The contractor is responsible for complying with all applicable general prevailing wage rates for tradesworkers and any rate changes which may occur during term of the contract.

c. Prevailing wage rates and rate changes are to be posted at the job site for workers to view.

d. The LCO will provide contractors with copies of prevailing wage rates upon request as well as copies of any revisions to prevailing rate wages received from the Department of Labor.

2. Apprentices

a. It is the duty of the contractor and subcontractors to employ registered apprentices on public works projects.

4. Certified Payroll Records

a. Contractors and subcontractors are required to keep accurate payroll records which reflect the name, address, social security number, and work classification of each employee; the straight time and overtime hours worked each day and each week; the fringe benefits; and the actual per diem wages paid to each journeyperson, apprentice, worker, or other employee hired in connection with a public works project.

b. Employee payroll records shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor/subcontractor, or shall be furnished to any employee, or to his or her authorized representative on request.

c. Contractors and subcontractors shall maintain their certified payrolls on a weekly basis and shall submit said payrolls to the LCO when requested to do so, but no less often than once a week. CONTRACTORS ARE RESPONSIBLE FOR SUBMITTAL OF THEIR PAYROLLS AND THOSE OF THEIR RESPECTIVE SUBCONTRACTORS AS ONE PACKAGE. In the event that there has been no work performed during a given week, the Certified Payroll Record shall be annotated with the words "No Work" for that week.

3. **Penalties**

a. Penalties, including forfeitures and debarment, shall be imposed for contractor/subcontractor failure to pay prevailing wages (for nonexempt projects) and for failure to employ apprentices.

b. Penalties shall also be imposed for failure to provide certified payroll records (and to provide them by the date requested), failure to provide Monthly Utilization Reports (CC-257) by the date requested, failure to pay workers for work in excess of 8 hrs/day and 40 hrs/week, and for failure to be a properly licensed contractor or subcontractor.

5. **Nondiscrimination in Employment; Equal Opportunity**

1. All contractors and subcontractors are required to avoid discrimination in employment, and shall make good faith efforts to comply with the District's goal in hiring Disabled Veteran Business Enterprises.

6. **Kickback Prohibited**

Contractors and subcontractors are prohibited from accepting or extracting "kickbacks" from employee wages.

7. **Acceptance of Fees Prohibited**

Contractors and subcontractors are prohibited from exacting any type of fee for registering individuals for public work or for filling work orders on public works contracts.

8. **Listing of Subcontractors**

Contractors are required to list all subcontractors hired to perform work on public works project when that work is equivalent to more than one-half of one percent of the total effort.

9. **Proper Licensing**

All contractors and subcontractors are required to be properly licensed.

10. **Unfair Competition**

Contractors and subcontractors are prohibited from engaging in unfair competition.

11. **Workers' Compensation Insurance**

All contractors and subcontractors are required to be insured against liability for workers compensation, or to undertake self-insurance.

12. **OSHA**

Contractors and subcontractors are required to comply with the Occupational, Safety and Health laws and regulations applicable to the particular public works project.

In accordance with federal and state laws, and with District policy and contract documents, the undersigned contractor herein certifies that it will comply with the foregoing labor law requirements; and fully understands that failure to comply with these requirements will subject it to the penalties cited herein. The contractor also herein certifies that it has been provided with a copy of the Antioch Unified School District Labor Compliance Program Package with includes:

1. Labor Law Requirements Checklist (included herein)
2. Applicable General Prevailing Wage Rate Determinations
3. Blank Certified Payroll Record forms
4. Fringe Benefit Statements
5. Blank Monthly Employment Utilization (CC-257) forms
6. State apprenticeship requirements (DAS-140)
7. Copy of the Labor Code relating to Public Works and Public Agencies (Part 7, Chapter 1, Sections 1720-1861

IT IS THE CONTRACTOR'S RESPONSIBILITY TO PROVIDE COPIES OF THE DISTRICTS LABOR COMPLIANCE PROGRAM PACKAGE TO ALL LISTED SUBCONTRACTORS AND TO ANY SUBSTITUTED SUBCONTRACTORS.

STATE OF CALIFORNIA
DEPARTMENT OF INDUSTRIAL RELATIONS
DIVISION OF APPRENTICESHIP STANDARDS
28 CIVIC CENTER PLAZA, ROOM 525
SANTA ANA, CA 92701

TO ALL PUBLIC WORKS CONTRACTORS

Congratulations on having been awarded a public works project.

The Division of Apprenticeship Standards wishes to bring to your attention your responsibilities under California Labor Code Section 1777.5 Apprentices on Public Works. (Excerpts from California Labor Code relating to apprentices on public works. DAS-10 is attached).

Compliance with California Labor Code Section 1777.5 requires all public works contractors and subcontractors to:

- Submit contract award information within 10 days of contract award, to the applicable Joint Apprenticeship Committee, which shall include an estimate of Journeymen hours to be performed under the contract, the number of apprentices to be employed, and the approximate dates the apprentices will be employed. This information may be submitted on the attached form. DAS 140.

- Employ apprentices on the public work in a ratio to journeymen of no less than one hour of apprentices work for every five hours of labor performed by a journeyman.

- Pay the apprentice rate on public works projects only to those apprentices who are registered as defined in Labor Code Section 3077.

- Contribute to the training fund in the amount identified in the Prevailing Wage Rate publication for journeymen and apprentices. Contractors who choose not to contribute to the local training trust fund must make their contribution to the California Apprenticeship Council (CAC) at P.O. Box 420603, San Francisco, CA 94142.

- Training fund contributions to the CAC are due and payable on the 15th day of each month for work performed during the preceding month.

- Training fund contributions to the CAC shall be paid by check and shall be accompanied by a completed form CAC-2 (attached).

Failure to comply with the provisions of the Labor Code Section 1777.5 may result in the loss of the right to bid on all public works projects for a period of one to three years and the imposition of a civil penalty of $100.00 for each calendar day of noncompliance. Contractors should provide a copy of this material to each subcontractor.

If the Division of Apprenticeship Standards can be of assistance to you, please contact our office at (714) 558-4126.

EXERPTS FROM THE CALFORNIA LABOR CODE RELATING TO APPRENTICES ON PUBLIC WORKS

Chapter 1 of Division 2
APPRENTICES ON PUBLIC WORKS

1773.3. An awarding agency whose public works contract falls within the jurisdiction of Section 1777.5 shall, within five days of the award, send a copy of the award to the Division of Apprenticeship Standards. When specifically requested by a local joint apprenticeship committee, the division shall notify the local joint apprenticeship committee regarding all such awards applicable to the joint apprenticeship committee making the request. Within five days of a finding of any discrepancy regarding the ratio of apprentices to journeymen, pursuant to the certificated fixed number of apprentices to journeymen, the awarding agency shall notify the Division of Apprenticeship Standards.

1776. (a) Each contractor and subcontractor shall keep accurate payroll records, showing the name, address, social security number, work classification, straight time and overtime hours worked each day and week, and the actual per diem wages paid to each journeyman, apprentice, worker, or other employee employed by him or her in connection with the public work. Each payroll record shall contain or be verified by a written declaration that it is made under penalty of perjury, stating both of the following:

(1) The information contained in the payroll record is true and correct.

(2) The employer has complied with the requirements of Sections 1771, 1811, and 1815 for any work performed by his or her employees on the public works project.

(b) The payroll records enumerated under subdivision (a) shall be certified and shall be available for inspection at all reasonable hours at the principal office of the contractor on the following basis:

(1) A certified copy of an employee's payroll record shall be made available for inspection or furnished to the employee or his or her authorized representative on request.

(2) A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations.

(3) A certified copy of all payroll records enumerated in subdivision (a) shall be made available upon request by the public for inspection or for copies thereof. However, a request by the public shall be made through either the body awarding the contract, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement. If the requested payroll records have not been provided pursuant to paragraph (2), the requesting party shall, prior to being provided the records, reimburse the costs of preparation by the contractor, subcontractors, and the entity through which the request was made. The public shall not be given access to the records at the principal office of the contractor.

(c) The certified payroll records shall be on forms provided by the Division of Labor Standards Enforcement or shall contain the same information as the forms provided by the division.

(d) A contractor or subcontractor shall file a certified copy of the records enumerated in subdivision (a) with the entity that requested the records within 10 days after receipt of a written request.

(e) Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by the awarding body, the Division of Apprenticeship Standards, or the Division of Labor Standards Enforcement shall be marked or obliterated in a manner so as to prevent disclosure of an individual's name, address, and social security number. The name and address of the contractor awarded the contract or the subcontractor performing the contract shall not be marked or obliterated.

(f) The contractor shall inform the body awarding the contract of the location of the records enumerated under subdivision (a), including the street address, city and county, and shall, within five working days, provide a notice of a change of location and address.

(g) The contractor or subcontractor shall have 10 days in which to comply subsequent to receipt of a written notice requesting the records enumerated in subdivision (a). In the event that the contractor or subcontractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Upon the request of the Division of Apprenticeship Standards or the Division of Labor Standards Enforcement, these penalties shall be withheld from progress payments then due. A contractor is not subject to a penalty assessment pursuant to this section due to the failure of a subcontractor to comply with this section.

(h) The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section.

(i) The director shall adopt rules consistent with the California Public Records Act, (Chapter 3.5 (commencing with Section 6250), Division 7, Title 1, Government Code) and the Information Practices Act of 1977, (Title 1.8 (commencing with Section 1798), Part 4, Division 3, Civil Code) governing the release of these records, including the establishment of reasonable fees to be charged for reproducing copies of records required by this section.

(j) This section shall remain in effect only until January 1, 2003, and as of that date is repealed, unless a later enacted statute, that is enacted before January 1, 2003, deletes or extends that date.

1777.5. (a) Nothing in this chapter shall prevent the employment of properly registered apprentices upon public works.

(b) Every apprentice employed upon public works shall be paid the prevailing rate of per diem wages for apprentices in the trade to which he or she is registered and shall be employed only at the work of the craft or trade to which he or she is registered.

(c) Only apprentices, as defined in Section 3077, who are in training under apprenticeship standards that have been approved by the Chief of the Division of Apprenticeship Standards and who are parties to written apprentice agreements under Chapter 4 (commencing with Section 3070) of Division 3 are eligible to be employed at the apprentice wage rate on public works. The employment and training of each apprentice shall be in accordance with either (1) the apprenticeship standards and apprentice agreements under which he or she is training or (2) the rules and regulations of the California Apprenticeship Council.

(d) When the contractor to whom the contract is awarded by the state or any political subdivision, in performing any of the work under the contract, employs workers in any apprenticeable craft or trade, the contractor shall employ apprentices in at least the ratio set forth in this section and may apply to any apprenticeship program in the craft or trade that can provide apprentices to the site of the public work for a certificate approving the contractor under the apprenticeship standards for the employment and training of apprentices in the area or industry affected. However, approval or denial of the apprenticeship program shall be subject to review by the Administrator of Apprenticeship. The apprenticeship program or programs, upon approving the contractor, shall arrange for the dispatch of apprentices to the contractor. A contractor covered by an apprenticeship program's standards shall not be required to submit any additional application in order to include additional public works contracts under that the program. "Apprenticeable craft or trade," as used in this section, means a craft or trade determined as an apprenticeable occupation in accordance with rules and regulations prescribed by the California Apprenticeship Council. As used in this section, "contractor" includes any subcontractor under a contractor who performs any public works not excluded by subdivision (o).

(e) Prior to commencing work on a contract for public works, every contractor shall submit contract award information to an applicable apprenticeship program that can supply apprentices to the site of the public work. The information submitted shall include an estimate of journeyman hours to be performed under the contract, the number of apprentices proposed to be employed, and the approximate dates the apprentices would be employed. A copy of this information shall also be submitted to the awarding body if requested by the awarding body. Within 60 days after concluding work on the contract, each contractor and subcontractor shall submit to the awarding body, if requested, and to the apprenticeship program a verified statement of the journeyman and apprentice hours performed on the contract. The information under this subdivision shall be public. The apprenticeship programs shall retain this information for 12 months.

(f) The apprenticeship program that can supply apprentices to the area of the site of the public work shall ensure equal employment and affirmative action in apprenticeship for women and minorities.

(g) The ratio of work performed by apprentices to journeymen employed in a particular craft or trade on the public work may be no higher than the ratio stipulated in the apprenticeship standards under which the apprenticeship program operates where the contractor agrees to be bound by those standards, but, except as otherwise provided in this section, in no case shall the ratio be less than one hour of apprentice work for every five hours of journeyman work.

(h) This ratio of apprentice work to journeyman work shall apply during any day or portion of a day when any journeyman is employed at the jobsite and shall be computed on the basis of the hours worked during the day by journeymen so employed. Any work performed by a journeyman in excess of eight hours per day or 40 hours per week shall not be used to calculate the ratio. The contractor shall employ apprentices for the number of hour computed as above before the end of the contract or, in the case of a subcontractor, before the end of the subcontract. However, the contractor shall endeavor, to the greatest extent possible, to employ apprentices during the same time period that the journeymen in the same craft or trade are employed at the jobsite. Where an hourly apprenticeship ratio is not

feasible for a particular craft or trade, the Division of Apprenticeship Standards, upon application of an apprenticeship program, may order a minimum ratio of not less than one apprentice for each five journeymen in a craft or trade classification.

(i) A contractor covered by this section that has agreed to be covered by an apprenticeship program's standards upon the issuance of the approval certificate, or that has been previously approved for an apprenticeship program in the craft or trade, shall employ the number of apprentices or the ratio of apprentices to journeymen stipulated in the applicable apprenticeship standards, but in no event less than the 1-to-5 ratio required by subdivision (g).

(j) Upon proper showing by a contractor that he or she employs apprentices in a particular craft or trade in the state on all of his or her contracts on an annual average of not less than one hour of apprentice work for every five hours of labor performed by journeymen, the Division of Apprenticeship Standards may grant a certificate exempting the contractor from the 1-to-5 hourly ratio, as set forth in this section for that craft or trade.

(k) An apprenticeship program has the discretion to grant to a participating contractor or contractor association a certificate, which shall be subject to the approval of the Administrator of Apprenticeship, exempting the contractor from the 1-to-5 ratio set forth in this section when it finds that any one of the following conditions is met:

(1) Unemployment for the previous three-month period in the area exceeds an average of 15 percent.

(2) The number of apprentices in training in the area exceeds a ratio of 1 to 5.

(3) There is a showing that the apprenticeable craft or trade is replacing at least one-thirtieth of its journeymen annually through apprenticeship training, either on a statewide basis or on a local basis.

(4) Assignment of an apprentice to any work performed under a public works contract would create a condition that would jeopardize his or her life or the life, safety, or property of fellow employees or the public at large, or the specific task to which the apprentice is to be assigned is of a nature that training cannot be provided by a journeyman.

(l) When an exemption is granted pursuant to subdivision (k) to an organization that represents contractors in a specific trade from the 1-to-5 ratio on a local or statewide basis, the member contractors will not be required to submit individual applications for approval to local joint apprenticeship committees, if they are already covered by the local apprenticeship standards.

(m) A contractor to whom a contract is awarded, who, in performing any of the work under the contract, employs journeymen or apprentices in any apprenticeable craft or trade shall contribute to the California Apprenticeship Council the same amount that the director determines is the prevailing amount of apprenticeship training contributions in the area of the public works site. A contractor may take as a credit for payments to the council any amounts paid by the contractor to an approved apprenticeship program that can supply apprentices to the site of the public works project. The contractor may add the amount of the contributions in computing his or her bid for the contract. At the end of each fiscal year the California Apprenticeship Council shall make grants to each apprenticeship program in proportion to the number of hours of training provided by the program for which the program did not receive contributions, weighted by the regular rate of contribution for the program. These grants shall be made from funds collected by the California Apprenticeship Council during the fiscal year pursuant to this subdivision from contractors that employed registered apprentices but did not contribute to an approved apprenticeship program. All these funds received during the fiscal year shall be distributed as grants.

(n) The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section. The stipulations shall fix the responsibility of compliance with this section for all apprenticeable occupations with the prime contractor.

(o) This section does not apply to contracts of general contractors or to contracts of specialty contractors not bidding for work through a general or prime contractor when the contracts of general contractors or those specialty contractors involve less than thirty thousand dollars ($30,000) or 20 working days.

(p) All decisions of an apprenticeship program under this section are subject to Section 3081.

1777.6. It shall be unlawful for an employer or a labor union to refuse to accept otherwise qualified employees as registered apprentices on any public works, on the ground of the race, religious creed, color, national origin, ancestry, sex, or age, except as provided in Section 3077, of such employee.

1777.7. (a) A contractor or subcontractor that knowingly violates Section 1777.5 shall forfeit as a civil penalty an amount not exceeding one hundred dollars ($100) for each full calendar day of noncompliance. The amount of this penalty shall be based on consideration whether the violation was a good faith mistake due to inadvertence. A contractor or subcontractor that knowingly commits a second or subsequent violation of Section 1777.5 within a three-year period, where the noncompliance results in apprenticeship training not being provided as required by this chapter, shall forfeit as a civil penalty the sum of not more than three hundred dollars ($300) for each full calendar day of noncompliance. Notwithstanding Section 1727, upon receipt of a determination that a civil penalty has been imposed, the awarding body shall withhold the amount of the civil penalty from contract progress payments then due or to become due.

(b) (1) In the event a contractor or subcontractor is determined by the Administrator of Apprenticeship to have knowingly violated any provision of Section 1777.5, the Administrator shall deny to the contractor or subcontractor, both individually and in the name of the business entity under which the contractor or subcontractor is doing business, the right to bid on or receive any public works contract for a period of up to one year for the first violation and for a period of up to three years for a second or subsequent violation. Each period of debarment shall run from the date the determination of noncompliance by the Administrator of Apprenticeship.

(2) An affected contractor or subcontractor may obtain a review of the debarment or civil penalty by transmitting a written request to the office of the Administrator within 30 days after service of the order of debarment or civil penalty. If the Administrator receives no request for review within 30 days after service, the order of debarment or civil penalty shall become final for the period authorized.

(3) Within 20 days of the timely receipt of a request for hearing, the Administrator shall provide the contractor or subcontractor the opportunity to review any evidence the Administrator may offer at the hearing. The Administrator shall also promptly disclose to the contractor or subcontractor any nonprivileged documents obtained after the 20-day time limit.

(4) Within 90 days of the timely receipt of the a request for hearing, a hearing shall be commenced before an impartial hearing officer designated by the Administrator and possessing the qualifications of an administrative law judge pursuant to Section 11502 of the Government Code. The contractor or subcontractor shall have the burden of showing compliance with Section 1777.5. The decision to debar shall be reviewed by a hearing officer or court only for abuse of discretion.

(5) Within 45 days of the conclusion of the hearing, the hearing officer shall issue a written decision affirming, modifying, or dismissing the debarment or civil penalty. The decision shall contain a notice of findings, findings, and an order. This decision shall be deemed the final decision of the Administrator and shall be served on all parties and the awarding body pursuant to Section 1013 of the Code of Civil Procedure by first-class mail at the last known address of the party on file with the Administrator. Within 15 days of issuance of the decision, the hearing officer may reconsider or modify the decision to correct an error, except that a clerical error may be corrected at any time.

(6) An affected contractor or subcontractor may obtain review of the final decision of the Administrator by filing a petition for a writ of mandate to the appropriate superior court pursuant to Section 1094.5 of the Code of Civil Procedure within 45 days after service of the final decision to debar or to assess a civil penalty. If no petition for a writ of mandate is filed within 45 days after service of the final decision, the order shall become final. If the petitioner claims that the findings are not supported by the evidence, abuse of discretion is established if the court determines that the findings are not supported by substantial evidence in light of the entire record.

(7) The Administrator may file a certified copy of a final order with the clerk of the superior court in any county in which the affected contractor or subcontractor has property or has or had a place of business.

(c) If a subcontractor is found to have violated Section 1777.5, the prime contractor of the project is not liable for any penalties under subdivision (a), unless the prime contractor had knowledge of the subcontractor's failure to comply with the provisions of Section 1777.5 or unless the prime contractor fails to comply with any of the following requirements:

(1) The contract executed between the contractor and the subcontractor or the performance of work on the public works project shall include a copy of the provisions of Sections 1771, 1775, 1776, 1777.5, 1813, and 1815.

(2) The contractor shall continually monitor a subcontractor's use of apprentices required to be employed on the public works project pursuant to subdivision (d) of Section 1777.5, including, but not limited to, periodic review of the certified payroll of the subcontractor.

(3) Upon becoming aware of a failure of the subcontractor to employ the required number of apprentices, the contractor shall take corrective action, including, but not limited to, retaining funds due the subcontractor for work performed on the public works project until the failure is corrected.

(4) Prior to making the final payment to the subcontractor for work performed on the public works project, the contractor shall obtain an affidavit signed under penalty of perjury from the subcontractor that the subcontractor has employed the required number of apprentices on the public works project.

(d) In lieu of the penalty provided for in subdivision (a) or (b), the director may for a first-time violation and with the concurrence of the apprenticeship program, order the contractor or subcontractor to provide apprentice employment equivalent to the work hours that would have been provided for apprentices during the period of noncompliance.

(e) Any funds withheld by the awarding body pursuant to this section shall be deposited in the General Fund if the awarding body is a state entity, or in the equivalent fund of an awarding body if the awarding body is an entity other than the state.

(f) The interpretation and enforcement of Section 1777.5 and this section shall be in accordance with the rules and procedures of the California Apprenticeship Council

Division of Apprenticeship Standards

APPRENTICES ON PULIC WORKS

SUMMARY OF REQUIREMENTS

Compliance with California Labor Code Section 1777.5 requires all public works contractors and subcontractors to:

- Submit contract award information to the applicable joint apprenticeship committee, including an estimate of the journeyman hours to be performed under the contract, the number of apprentices to be employed, and the approximate dates the apprentices will be employed.

  The contract award information shall be in writing, and shall be provided to the applicable apprenticeship committee within 10 days of the date of the agreement or contract award, but in no event later than the first day in which the contractor has workers employed upon the public work. (California Code of Regulations, Title 8, Section 230.)

- Employ apprentices on the public work in a ratio to journeymen of no less than one hour of apprentice work for every five hours of labor performed by a journeyman.

- Contribute to the training fund in the amount identified in the Prevailing Wage Rate publication for journeymen and apprentices. Contractors who choose not to contribute to the local training trust fund must make their contributions to the California Apprenticeship Council, P.O. Box 420603, San Francisco, CA 94142. Training contributions to the Council are due and payable on the 15th of the month for work performed during the preceding month.

  Training contributions to the Council shall be paid by check and shall be accompanied by a completed CAC2 form, Training Fund Contributions, or the following information (California Code of Regulations, Title 8, Section 230.2 c):

  1. The name, address and telephone number of the contractor making the contribution.
  2. The contractor's license number.
  3. The name an address of the public agency that awarded the contract.
  4. The jobsite location, including the county where the work was performed.
  5. The contract or project number
  6. The time period covered by the enclosed contributions.
  7. The contribution rate and total hours worked by the apprenticable occupation(s).

- Pay the apprentice rate on public works projects only to those apprentices who are registered, as defined in Labor Code Section 3077:

Sec. 3077. The term "apprentice" as used in this chapter, means a person at least 16 years of age who has entered into a written agreement, in this chapter called an "apprentice agreement", with an employer or program sponsor. The term of apprenticeship for each apprenticeable occupation shall be approved by the chief, and in no case shall provide for no less than 2,000 hours or reasonably continuous employment for such person for his or her participation in an approved program of training through employment and through education in related and supplemental subjects.

This form should be sent to the Apprenticeship Committee of the craft or trade in area of the site of the public work. If you have any questions as to the address of the appropriate Apprenticeship Committee, contact the nearest office of the Division of Apprenticeship Standards (DAS). Consult your telephone directory under California, State of, Industrial Relations, for the DAS office in your area. *Do not send this form to the Division of Apprenticeship Standards.*

Check One Of The Boxes Below

Please Note: Your election of options is not to be deemed a request for the immediate dispatch of apprentices. Contractors must make a separate request for actual dispatch.

Box 1 ☐ We will request dispatch of apprentice(s) for this job in accordance with Section 230.1 (A), California Code of Regulations. We voluntarily choose to comply with the applicable Apprenticeship Committee Standards for the duration of this job only, with regard to training apprentices and to the payment of training contributions.

Box 2 ☐ We will request dispatch of apprentice(s) for this job in accordance with Section 230.1 (A), California Code of Regulations, but do not agree to be bound by the applicable Apprenticeship Committee Standards in training the apprentices; instead, we agree to employ and train apprentice(s) in accordance with the California Apprenticeship Council regulations, including section 230.1 of the California Code of Regulations, governing employment of apprentices on public work projects.

Box 3 ☐ We are already approved to train apprentices by the applicable Apprenticeship Committee and we will employ and train under the Standards. We will request dispatch of apprentices for this job in accordance with Section 230.1 (A), California Code of Regulations.

Box 4 ☐ We will not request the dispatch of apprentice(s) since apprentices are not required on this job under the provisions of California Labor Code Section 1777.5, because:

# Indicates an apprenticeable craft. Rates for apprentices are available in the General Prevailing Wage Apprentice Schedules. a Saturday in the same workweek may be worked at straight-time rate for the first 8 hours if the employee was unable to complete the 40 hours during the normal workweek. b Includes supplemental dues. c Shall receive a minimum of 8 hours pay for any day or part thereof. d For specific rates over 50 ft. depth, contact the Division of Labor Statistics and Research.

DESCRIPTION:
Engineering Construction
Refers to construction which requires a Class A license and includes bridges, highways, dams and also power plants and other heavy industrial type projects.
Building Construction
Requires a Class B license and includes non-residential buildings (such as hospitals, government buildings, public schools) and commercial buildings (with the exception of industrial buildings).

RECOGNIZED HOLIDAYS: Holidays upon which the general prevailing hourly wage rate for Holiday work shall be paid, shall be all holidays in the collective bargaining agreement, applicable to the particular craft, classification, or type of worker employed on the project, which is on file with the Director of Industrial Relations. If the prevailing rate is not based on a collectively bargained rate, the holidays upon which the prevailing rate shall be paid shall be as provided in Section 6700 of the Government Code. You may obtain the holiday provisions for the current determinations on the Internet at http://www.dir.ca.gov/DLSR/PWD. Holiday provisions for current or superseded
determinations may be obtained by contacting the Prevailing Wage Unit at (415) 703-4774.

TRAVEL AND/OR SUBSISTENCE PAYMENT: In accordance with Labor Code Sections 1773.1 and 1773.9, contractors shall make travel and/or subsistence payments ... each worker to execute the work. Travel and/or subsistence requirements for each craft, classification or type of worker may be obtained from the Prevailing Wage Unit at (415) 703-4774.

Pre Award Letter

Dear Mr. Doe:

The Antioch Unified School District has identified your firm as the apparent low bidder for Contract #90-225 Portable Contract Moving Services and has scheduled board approval of a contract requiring your compliance with Division 2 Part 7 of the California Labor Code. This will require the payment of prevailing wages to all workers employed on the project and the reporting of the certified weekly payroll to the LCO. The Labor Code requires, prior to the start of work, that a person qualified to certify documents for your firm attend a review meeting with the awarding body concerning the Labor Code prevailing wage laws.

The LCO is formally requesting the appearance of the certifying person for the code review, the submittal of the required weekly certified payroll records or nonperformance reports, and the monthly submittal of employment utilization reports, all identified in the contract general conditions.

This request is made pursuant to, and authorized by, California State Labor Code Section 1776(b) (2), which states, "A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement and the Division of Apprenticeship Standards of the Department of Industrial Relations" and California Code of Regulations section 16430 (a) (2).

The goal of the LCO is to provide the necessary information, assistance, forms and procedures to allow your project to move forward on schedule and in compliance with the State's Labor Code.

Please call the Antioch Unified School District's Labor Compliance Officer at (925) 776-2073 to set an appointment and receive the necessary forms prior to the start of your project.

Respectfully,

Dane Ruddell
Labor Compliance Officer

Post Award Letter

Dear Ms. Doe:

The Antioch Unified School District has awarded your firm a contract requiring your compliance with Part 7, chapter 1 of the California Labor Code. This will require the payment of prevailing wages to all workers employed on the project and the reporting of the weekly payroll to the District's Labor Compliance Officer.

The Labor Code requires, prior to the start of work, that a person qualified to sign and certify for your firm attend a review with the awarding body of the Labor Code prevailing wage laws.

The Labor Compliance Officer goal is to provide the necessary information, assistance, forms and procedures to allow your project to move forward on schedule and in compliance with the State's Labor Code.

Please call the Antioch Unified School District's Labor Compliance Officer at (925) 776-2073 to set an appointment and receive the necessary forms prior to the start of your project.

Respectfully,

Dane Ruddell

1st Request for
Certified Payrolls

John Doe
ACME Construction Co.
3170 Labor Street
Vista, CA 92083-8318

Mr. Doe:

The Antioch Unified School District's Labor Compliance Officer is formally requesting copies of Certified Payroll Records and Monthly Utilization Reports for the modernization of Cubberly, Jones and Fletcher schools. We are requesting the records from the beginning of the project through project completion for your firm and all subcontractors.

This request is made pursuant to, and authorized by, California State Labor Code Section 1776 (b) (2) and Section 1776 (g) (3) and the contract general conditions requiring weekly employee payments and weekly certified payroll submittals.

Labor Code Section 1776 (b) (2) states: "A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement and the Division of Apprenticeship Standards of the Department of Industrial Relations."

Labor Code 1776 (g) (3) states: "The contractor shall have 10 days in which to comply subsequent to receipt of written notice specifying in what respects the contractor must comply with this section. In the event that the contractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated."

Please forward all weekly Certified Payroll Records and Monthly Utilization Reports on the District and state approved forms previously provided to: Antioch Unified School District, Labor Compliance Officer, P.O. Box 768, Antioch, CA 94509. If you have any questions, contact me at (925) 776-2073.

Respectfully,

Dane Ruddell
Labor Compliance Officer

Prime Contractor:
Project:

Original Request: 02/08/00 This Request: 02/08/00

1. **Monthly Utilization Forms must be provided for:**

2. **Apprenticeship Training Agreement (similar to Form DAS 1) must be provided for:**

3. **Apprenticeship Training Agreement (similar to Form DAS 7) must be provided for:**

4. **Training Fund Contributions (Form CAC 2 or equivalent) must be provided for:**

5. **Public Works Contract Award Information (Form DAS 140) with the name, address and phone number of the training program notified by all project contractors must be provided for:**

6. **Fringe Benefits Statements must be provided for:**

7. **Signed certified Payroll report or statement of Non-Performance with original signatures must be provided for:**

   contractors are responsible for submittal of their payrolls and those of their respective subcontractors as one package, which must be in the District's Labor Compliance Officer **within one week of each weekly paycheck**. In the event there has been no work performed during a given week, the certified payroll record shall be annotated with the words "No Work" for that week.

8. **To determine the required hours for apprentices on this project we will need the contractor to Identify all sub-contractors who will perform work in involving less than $30,000 or who will be on the project less than 20 calendar days or both.**

9. **Either the Public Works Payroll Reporting Form (Form A-1-131) or the Antioch Unified School District reporting form must be used.**

Certified Payroll Correction Letter

Dear Mr. Doe:

The Antioch Unified School District's Labor Compliance Officer has formally requested copies of Certified Payroll Records and Monthly Utilization Reports for Bid Project Portable Contract 82 - Phase 2. We have reviewed your submittal and require additional information.

This new request is made pursuant to, and authorized by, California State Labor Code Sections 1774, 1775, 1776, 1777.5, 1777.7, 1810, 1813 and 1815. Additionally, the contract general conditions require weekly certified payroll record submittals to the Districts Labor Compliance Officer and weekly payment of employee wages.

Labor Code §1776 (b) (2) states: "A certified copy of all payroll records enumerated in subdivision (a) shall be made available for inspection or furnished upon request to a representative of the body awarding the contract, the Division of Labor Standards Enforcement, and the Division of Apprenticeship Standards of the Department of Industrial Relations."

Labor Code §1776 (g) states: "The contractor shall have 10 days in which to comply subsequent to receipt of written notice specifying in what respects the contractor must comply with this section. In the event that the contractor fails to comply within the 10-day period, he or she shall, as a penalty to the state or political subdivision on whose behalf the contract is made or awarded, forfeit twenty-five dollars ($25) for each calendar day, or portions thereof, for each worker, until strict compliance is effectuated."

Please correct and supply the data requested in the attachments and submit on approved forms to: Antioch Unified School District, Labor Compliance Officer, P.O. Box 768, Antioch, CA 94509. If you have any questions, contact me at (925) 776-2073.

Respectfully,

Dane Ruddell
Labor Compliance Officer

Attorneys for Respondent Department of Industrial Relations

INTRODUCTION

On May 22, 2003, the California Supreme Court issued its decision in *Department of Finance v. Commission on State Mandates (Kern High School District)* (2003) 30 Cal.4th 727, 134 Cal.Rptr.2nd 237 ("*Kern*").[1] The decision disposes of some of the Test Claimants' claims (no subvention for voluntary programs) and raises an additional defense the Department now asserts (nature of program subject to mandate and availability of alternative funding sources). This Supplemental Position Statement addresses only these issues, without unnecessary repetition of the earlier arguments presented. The Supreme Court's decision, however, means there is no longer any support for several of the claims for subvention made by Test Claimants. The Department requests that these claims be summarily rejected prior to any hearing on the remainder of the Test Claim.[2] *Kern* substantially weakens any remaining claim for the reasons set forth below.

Kern addressed several unsettled issues defining those programs that constitute a "new program or increased level of service." The case arose from a Commission subvention order on nine education-related programs, all of which at their inception were mandatory programs. All of the programs contained substantial funding from state and federal sources. One of the requirements for these programs was the creation of local governing councils. Before the period for which costs were awarded, school districts' participation in eight of the nine programs' became voluntary. While the districts were under a mandatory duty to provide these programs, the scope of the Brown Open Meeting Act's (Government Code § 54950.5 *et seq.*) requirement expanded to require notice of the local council meetings for all the governing councils.[3] The school districts sought subvention for the costs associated with compliance with the Brown Act requirements, approximately $90.00 per meeting.

---

[1] A copy of this case is not attached as the Commission was a party to the action.
[2] These claims are numbers 3, 4, 5, 11, 12, 17, 18, 19.
[3] The Brown Act requirements were superceded by comparable Education Code requirements.

The Court made four significant rulings, all of which have some application to the Claim in this case:

1. What is a "Program": "First, we reject claimants' assertion that they have been legally compelled to incur notice and agenda costs, and hence are entitled to reimbursement from the state, based merely upon the circumstance that the notice and agenda provisions are mandatory elements of education-related programs in which claimants have participated, without regard to whether a claimant's participation in the underlying program is voluntary or compelled."
2. Effect of Voluntary Activities: "Second, we conclude that as to *eight* of the nine underlying funded programs here at issue, claimants have not been legally compelled to participate in those programs, and hence cannot establish a reimbursable state mandate as to those programs based upon a theory of legal compulsion."
3. Effect of Access to Other Funds: "Third, assuming (without deciding) that claimants have been legally compelled to participate in *one* of the nine programs, we conclude that claimants nonetheless have no entitlement to reimbursement from the state for such expenses, because they have been free at all relevant times to use funds provided by the state for that program to pay required program expenses — including the notice and agenda costs here at issue."
4. Scope of No Reasonable Alternative Claim: "Finally, we reject claimants' alternative contention that even if they have not been *legally* compelled to participate in the underlying funded programs, as a *practical* matter they have been compelled to do so and hence to incur notice-and agenda-related costs."

Id., 30 Cal.4th at 731.

All four of these points have direct application here as the decision clarifies the focus of the inquiry as to the definition of a "program" and when is the program a mandate.

IN DETERMINING THE PROGRAM INVOLVED, THE COMMISSION SHOULD LOOK TO THE ACTIVITY IN WHICH THE LOCAL AGENCY INVOLVES ITSELF. IF THE UNDERLYING GOVERNMENTAL ACTIVITY IS VOLUNTARY, THEN INCREASED COSTS FOR THE RESULTING ENFORCEMENT ACTIVITY IS NOT A "MANDATE."

The *Kern* Court reached the obvious conclusion that, for subvention purposes, the proper focus was on the actual activity by the governmental agency, to wit, the educational programs themselves and not the Brown Act requirements. The Court found that all of the programs initially were mandatory. However, prior to the years under consideration, statutory changes to the programs' enabling legislation allowed school districts to participate on a voluntary basis, although the State provided economic incentives to continue participating in the programs. The Court held that this economic incentive did not create a mandate, even though the local agencies had to continue to comply with the requirement to have local governing councils and to comply with the Brown Act. In doing so, the Court approved the analysis in *City of Merced v. State of California* (1984) 153 Cal.App.3rd 777. In doing so, the Court adopted *Merced*'s narrow definition of what constituted a "mandate."

In *Merced*, the city needed some real property for a public project. When less formal methods failed to produce the result the City wanted, it chose to proceed by an action for eminent domain. Under state law, the cost of eminent domain had to include business good will. The City argued that subvention was necessary for the increased costs associated with complying with state law. The Court of Appeal denied subvention because, while the City had to proceed by eminent domain if it wanted the property, it was not legally obligated to obtain the property. That is, it was the City's voluntary

decision to obtain the land. In approving *Merced*, the Court held:

> [I]f a school district elects to participate in or continue participation in any underlying *voluntary* education-related funded programs, the district's obligation to comply with the notice and agenda requirements related to that program does not constitute a reimbursable state mandate.
>
> ...the proper focus [of the] legal compulsion inquiry is upon the nature of claimants' participation in the underlying programs themselves.

Id., 30 Cal.4th at 743.

The Court's reaffirmation of *Merced* means that the focus of the Commission's inquiry must be on the governmental activity that underlies the Claim and not necessarily on the resulting compliance requirements; in this case, the "program" would be the local agencies' decision to engage in construction under contract, paid for in whole or in part with public funds. The question is whether the local agencies are under a "legal compulsion" to engage in construction under contract, paid for in whole or in part with public funds. Labor Code § 1720(a). The enforcement responsibilities in the Labor Code that flow as a consequence of the local agencies' activities do not, in themselves, constitute mandates because the enforcement activities are not the "program" subject to subvention. If there is no legal compulsion for a construction project, then there can be no subvention for any enforcement costs that flow from a local agency's decision to engage in a specific public work.

The test now set by the Supreme Court, as applied here, will require a two step inquiry:

> Is a local agency **legally compelled** to engage in construction using public funds?
>
> If so, is the local agency **legally compelled** to do so under contract (i.e., not with its own workforce)?

Only if the answers to these questions are both affirmative can there be a legally compelled "program" in the public works context.[4] Test Claimants have not argued that they are under some compulsion to actually engage in construction of school facilities.[5] Even if the Claimants are under some legal compulsion, there is nothing that prevents them from performing that construction with its own employees.

PROGRAMS THAT, DURING THE CLAIM PERIOD, ARE NOT REQUIRED BY STATE LAW DO NOT QUALIFY FOR REIMBURSEMENT.

Assuming the Commission rejects the defense that there is no reimbursement allowed for any prevailing wage enforcement because all construction is a voluntary act, certain claims concerning Claimants' enforcement activities are still clearly barred by the new decision and should not be heard at the evidentiary hearing.

Kern's rejection of the eight of the nine programs was explicitly based on the fact that the programs were not required by state law during the claim period. In the context of this Test Claim, there can be no question, therefore, that there is no right to reimbursement for any expense associated with such voluntary activities as seeking review of prevailing wage rates and determinations (Test Claim nos: 3-5), the requirements of operating a Labor Compliance Program under Labor Code § 1771.5 (Test Claim nos: 11, 12) or participation in public works citation appeals (Test Claim nos: 17-19). In essence, *Kern* provides absolute support for the Department's position (See Opposition to Test Claims, pg. 29). These claims should be summarily dismissed at this stage of the proceedings.

---

[4] Test Claimants would still have to prove that any mandate about which they complain was a new program. *See*, generally Opposition to Test Claim.

[5] Such an argument would require that other state agencies be joined as DIR has no involvement in determining when school construction must occur.

REIMBURSEMENT IS NOT PROPER WHERE THE TEST CLAIMANTS HAVE ACCESS TO ALTERNATIVE SOURCES OF FUNDING FOR THE PROGRAM, EVEN WHERE THE ALTERNATIVE SOURCES DO NOT SUPPLY TOTAL REIMBURSEMENT.

The *Kern* Court also denied subvention where other sources of funding existed for the same "mandate." *Department of Finance v. Commission on State Mandates, supra*, 30 Cal.4th at 746 - 747. In *Kern*, the Court characterized the costs for the one arguably mandated program as "minimal" and noted that the Legislature provided for the right to use education funds to comply with the Brown Act notice provisions. The Court held that even when the state reduces the amount of available funding for a program, no mandated increased costs occurs. "The circumstance that the program funds claimants may have wished to use exclusively for substantive program activities are thereby reduced, does not in itself transform the related costs into a reimbursable state mandate." *Id.*, 30 Cal.4th at 748 (citation omitted).

In school construction (both Test Claimants are school districts), state funding is already provided through the School Allocation Board ("SAB"), which provides funding to districts based on an SAB formula that pays anywhere from 40% to 80% of the cost of construction. In some instances, such for as the recently enacted AB 1506 (Labor Code § 1771.7) requirements for Labor Compliance Programs for specific SAB funding, SAB provides funding for operating a Labor Compliance Program as well as the cost of actual construction. Test Claimants have not made a credible case that SAB funding does not take care of whatever costs Claimants have incurred; in fact, Test Claimants have not even mentioned the availability of these funds nor indicated whether they subtracted this alternative funding prior to claiming that the cost of complying with the California Prevailing Wage Law exceeds $300.00 per year.

TEST CLAIMANTS CANNOT MEET THEIR BURDEN TO PROVE A MANDATE FOR VOLUNTARY ACTIVITIES UNLESS THEY CAN DEMONSTRATE "DRACONIAN CONSEQUENCES" FOR THE FAILURE TO PARTICIPATE IN PUBLIC WORKS.

Finally, one of the issues that Test Claimants raised in the initial Claim was whether subvention was required even for voluntary activities because there was no alternative to the enforcement activity. See Test Claimants' Response to DIR, 2/14/03, pg. 5. Claimants relied on *City of Sacramento v. State of California* (1990) 50 Cal.3rd 51. In essence, Test Claimants alleged that even for programs that carried no "legal compulsion," they are required to comply with prevailing wage obligations or suffer severe consequences. This is not the standard, however.

The *Kern* decision is again instructive here. In *Kern*, the claimants argued that even though eight of the programs were voluntary, the reality was that districts in fact had no alternative but to participate in the educational program. The question for the Court was whether its *City of Sacramento* decision created an exception to the "legally compelled" requirement for subvention. In *City of Sacramento*, the Court decided that federal mandates could be created when the failure to participate in a federal program would result in ""certain and severe federal penalties" including "double ... taxation" and other "draconian" measures ... as a practical matter." *Department of Finance v. Commission on State Mandates, supra*, 30 Cal.4th at 749 (citation omitted). The Court did not determine whether this standard for federal mandates applied equally to state mandates or whether a narrower standard of actual "legal compulsion" applied.

The Court held that there is no mandate when school districts are "free to decide whether to (i) continue to participate and receive program funding, even though the school district must incur program-related costs associated with the notice and agenda requirements, or (ii) decline to participate in the funded program. Presumably, a school district will continue to participate only if it determines that the best interests of the district and its students are served by participation --- in other words, if *on balance*, the

funded program, even with strings attached, is deemed beneficial." *Id., 39* Cal.4th at 753. However, participation in a beneficial program, even it there are attendant costs associated with the voluntary participation, does not create a legal compulsion that creates a reimbursement right. "We reject the suggestion, implicit in claimants' argument, that the state cannot legally provide school districts with funds for voluntary programs, and then effectively reduce that funding grant by requiring school districts to incur expenses in order to meet conditions of program participation." *Id.,* 30 Cal.4th at 754.

CONCLUSION

The Supreme Court has held that the purpose of the subvention rules "is to preclude the state from shifting financial responsibility for carrying out governmental functions to local agencies, which are 'ill equipped' to assume increased financial responsibilities." *County of San Diego v. State of California* (1997) 15 Cal.4th 68, 81. Test Claimants have not made any showing that the California Prevailing Wage Law is such a shift of responsibility or that local agencies are 'ill equipped' to carry out their role in protecting California workers. The claims based on voluntary activities by Test Claimants (such as seeking and appealing wage determinations, operating Labor Compliance Programs, or intervening in private contractor appeals from wage citations) clearly no longer are subject to subvention and should be dismissed summarily at this point.

And Affected Parties and State Agencies

I am employed in the City and County of Sacramento, California. I am over the age of eighteen years and not a party to the within action; my business address is 320 W. Fourth Street, Suite 600, Los Angeles, CA 90013.

On August 14, 2003, I served the enclosed **Department of Industrial Relations's Supplemental Position Statement,** on the parties listed below, through their attorneys of record, by placing true copies thereof in sealed envelopes addressed as shown below for service as designated below:

(A) By First Class Mail: I am readily familiar with the practice of the Department of Industrial Relations, Office of the Director Legal Unit, for the collection and processing of correspondence for mailing with the United States Postal Service. I caused each such envelope, with first-class postage thereon fully prepared, to be deposited in a recognized place of deposit of the U.S. Mail in Loa Angeles, California, for collection and mailing to the office of the addressee on the date shown herein.

(B) By Personal Service: I caused each such envelope to be personally delivered to the office of the addressee by a member of the staff of the Department of Industrial Relations, Office of the Director Legal Unit, on the date last written below.

(C) By Messenger Service: I am readily familiar with the practice of the Department of Industrial Relations, Office of the Director Legal Unit for messenger delivery, and I caused each such envelope to be delivered to a courier employed by Golden State Overnight, with whom we have a direct billing account, who personally delivered each such envelope to the office of the address at the place and on the date last written below.

(D) By Facsimile Transmission: I caused such document to be served via facsimile electronic equipment transmission (fax) on the parties in this action, pursuant to oral and/or written agreement between such parties regarding service by facsimile by transmitting a true copy to the following fax numbers:

Ms. Paula Higashi
Executive Director
Commission on State Mandates
980 Ninth Street, Suite 300
Sacramento, Ca 95814

Dear Ms. Higashi:

As requested in your letter dated August 14, 2003, the Office of Public School Construction (OPSC) has reviewed the test claim submitted by the Clovis Unified School District asking the Commission to determine whether specified costs are incurred by the school district as required by statute in initiating and enforcing a Labor Compliance Program (LCP) (Claim Number 01-TC-28). Following please find responses to the questions addressed in your letter:

1. **Do the provisions listed in the notice impose a new program or higher level of service within an existing program upon local entities within the meaning of Section 6, Article XIIIB of the California Constitution and costs mandated by the State pursuant to Section 17514 of the Government Code?**

   Participation in the School Facility Program (SFP), Chapter 12.5 of the Education Code (EC) by a school district is voluntary. The Education Code does not compel a district to obtain funding from the State through the SFP as a condition of building schools. School districts may choose to build facilities through the use of district raised funds. Program elements are only required if a district chooses to participate in the program. Additionally, Labor Code (LC) Section 1771.7 states "an awarding body that *chooses* to use funds derived from either the Kindergarten-University Public Education Facilities Bond Act of 2002....for a public works project, shall initiate and enforce...a labor compliance program".

   Therefore, if a school district chooses to participate in the SFP and the project is funded from Proposition 47 and the Notice to Proceed for the construction phase of the project is issued on or after April 1, 2003, the district is required to initiate and enforce a LCP approved by the Department of Industrial Relations (DIR) pursuant to LC Section 1771.7. The OPSC requires that a district self-certify on the *Application for Funding,* Form SAB 50-04 that it has or will initiate a LCP. Prior to a release of State funds the district is required to certify on the *Fund Release Authorization,* Form SAB 50-05 that it has initiated a LCP. At the time of project audit the district is required to submit substantiating documents as outlined in the SFP, *Substantial Progress and Expenditure Audit Guide*, May 2003. LC Section 1771.7 does not require a LCP on all public work projects but only makes it a requirement of the SFP for a school district that chooses to voluntarily participate.

In addition, the EC provided the State Allocation Board (SAB) with the authority to increase the per pupil grant amount to accommodate the State's share for the additional costs due to the initiation and enforcement of a LCP. These increases were approved by the SAB on July 2, 2003 and are currently being provided.

2. **Does Government Code Section 17556 preclude the Commission from finding that any of the test claim provisions impose costs mandated by the State?**

   Yes. It appears that Government Code Section 17556(d) precludes the Commission from finding that any provisions of the test claim impose costs mandated by the State.

   Education Code Section 17556(d):
   The local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the mandated program or increase level of service.

   Statute allows a school district the authority to raise program costs through the passage of local bonds, proceeds from the sale of surplus property, other revenue sources including developer fees and Mello-Roos for capital outlay needs.

3. **Have funds been appropriated for this program (e.g. state budget) or are there any other sources of funding available? If so, what is the source?**

   Funding for the SFP may be provided through the passage of statewide general obligation bonds, if the district elects to apply. Most recently, in November 2002, the voters approved Proposition 47 - Kindergarten-University Public Education Facilities Bond Act of 2002. The bond allocated $8,085,800,000 for new construction and $3,294,200,000 for modernization of school facilities.

If you have any questions regarding this letter, please contact Ms. Elizabeth Dearstyne, Project Manager, at edearsty@dgs.ca.gov or (916) 323-0073.

Sincerely,

LUISA M. PARK

Re: Test Claim 01-TC-28
Clovis Unified School District
Prevailing Wage Rate

Dear Ms. Higashi:

I have received the Supplemental Position Statement and Request For Summary Disposition of the Department of Industrial Relations ("DIR") dated August 13, 2003, to which I now respond on behalf of the test claimant.

Although none of the objections generated by DIR are included in the statutory exceptions set forth in Government Code Section 17556, the objections stated additionally fail for the following reasons:

1. The Comments of the DIR are Incompetent and Should be Excluded

Test claimant objects to the Statement and Request of the DIR, in total, as being legally incompetent and move that it be excluded from the record. Title 2, California Code of Regulations, Section 1183.02(d) requires that any:

> "...written response, opposition, or recommendations and supporting documentation shall be signed at the end of the document, under penalty of perjury by an authorized representative of the state agency, with the declaration that it is true and complete to the best of the representative's personal knowledge or information and belief."

The DIR comments do not comply with this essential requirement.[1]

[1] Test claimant filed an identical objection to its original comments dated January 15, 2003.

2. There is no Provision in Mandate Law for Summary Disposition

DIR requests that the Commission reject the test claim summarily prior to any hearing on the test claim. There is no provision in the law that allows such a drastic motion.

The identification and payment of costs mandated by the state is governed by Chapter 4 of Division 4 of Title 2 of the Government Code, Sections 17550, et. seq. Commission procedure is controlled by Article 1, sections 17550 through 17571.

Section 17551[2] requires the Commission to *hear and decide* a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the state for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution. Section 17552[3] provides that the chapter shall provide the sole and exclusive procedure by which a local agency or school district may claim

---

[2] Government Code Section 17551, added by Chapter 1459, Statutes of 1984, Section 1, as amended by Chapter 11124, Statutes of 2002, Section 30.2, effective September 30, 2002:

"(a) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district that the local agency or school district is entitled to be reimbursed by the state for costs mandated by the state as required by Section 6 of Article XIII B of the California Constitution.

(b) Commission review of claims may be had pursuant to subdivision (a) only if the test claim is filed within the time limits specified in this section.

(c) Local agency and school district test claims shall be filed not later than three years following the date the mandate became effective, or in the case of mandates that became effective before January 1, 2002, the time limit shall be one year from the effective date of this subdivision.

(d) The commission, pursuant to the provisions of this chapter, shall hear and decide upon a claim by a local agency or school district filed on or after January 1, 1985, that the Controller has incorrectly reduced payments to the local agency or school district pursuant to paragraph (2) of subdivision (d) of Section 17561."

[3] Government Code Section 17552, added by Chapter 1459, Statutes of 1984, Section 1, as amended by Chapter 879, Statutes of 1986, Section 3:

"This chapter shall provide the sole and exclusive procedure by which a local agency or school district may claim reimbursement for costs mandated by the state as required by Section 6 of Article XIIIB of the California Constitution."

reimbursement for costs mandated by the state as required by Section 6 of Article XIIIB of the California Constitution.

Section 17553[4], subdivision (a), requires the Commission to adopt procedures for

---

[4] Government Code Section 17553, added by Chapter 1459, Statutes of 1984, Section 1, as amended by Chapter 643, Statutes of 1999, Section 3:

"(a) The commission shall adopt procedures for receiving claims pursuant to this article and for providing a hearing on those claims. The hearing procedure shall provide for presentation of evidence by the claimant, the Department of Finance and any other affected department or agency, and any other interested person. The procedures shall ensure that a statewide cost estimate is adopted within 12 months after receipt of a test claim, when a determination is made by the commission that a mandate exists. This deadline may be extended for up to six months upon the request of either the claimant or the commission. Hearing of a claim may be postponed at the request of the claimant, without prejudice, until the next scheduled hearing.

(b) The procedures adopted by the commission pursuant to subdivision (a) shall include the following:

(1) Provisions for acceptance of more than one claim on the same statute or executive order relating to the same statute or executive order filed with the commission, and, absent agreement by the test claimants to the contrary, to designate the first to file as the lead test claimant.

(2) Provisions for consolidating test claims relating to the same statute or executive order filed with the commission with time limits that do not exceed 90 days from the initial filing for consolidating the test claims and for claimants to designate a single contact for information regarding the test claim.

(3) Provisions for claimants to designate a single claimant for a test claim relating to the same statute or executive order filed with the commission, with time limits that do not exceed 90 days from the initial filing for making that designation.

(c) If a completed test claim is not received by the commission within 30 calendar days from the date that an incomplete test claim was returned by the commission, the original test claim filing date may be disallowed, and a new test claim may be accepted on the same statute or executive order.

(d) In addition, the commission shall determine whether an incorrect reduction claim is complete within 10 days after the date that the incorrect reduction claim is filed. If the commission determines that an incorrect reduction claim is not complete, the commission shall notify the local agency and school district that filed the claim stating the reasons that the claim is not complete. The local agency or school district shall have

receiving claims pursuant to this article and for *providing a hearing* on those claims. The hearing procedure shall provide for *presentation of evidence* by the claimant, the Department of Finance and any other affected department or agency, and any other interested person. Subdivision (b) sets forth minimum procedures to be adopted. These minimum procedures do not provide for the summary disposition of test claims.

Section 17555[5] provides that the commission shall determine if there are costs mandated by the state after a *public hearing* on the claim in which the claimant and any other interested organization or individual may participate.

The procedures required by Section 17553 are found in Chapter 2.5 of Title 2, California Code of Regulations, commencing at section 1181. The procedural rules regarding test claims are found in Article 3, commencing with Section 1183.

Section 1183.02, allows the Department of Finance, Office of the State Controller, and any affected state agency the opportunity to review and provide a written response, opposition, or recommendations concerning the test claim and to *present evidence at the hearing* on the test claim. There is no provision for summary adjudication.

Section 1183.03 provides for a claimant's rebuttal to responses, opposition or recommendations. Section 1183.04 provides for informal conferences, the purpose of

---

30 days to complete the claim. The commission shall serve a copy of the complete incorrect reduction claim on the Controller. The Controller shall have no more than 90 days after the date the claim is delivered or mailed to file any rebuttal to an incorrect reduction claim. The failure of the Controller to file a rebuttal to an incorrect reduction claim shall not serve to delay the consideration of the claim by the commission."

[5] Government Code Section 17555, added by Chapter 945, Statutes of 1995, Section 7:

"(a) The commission, within 10 days after receipt of a test claim based upon a statute or executive order, shall set a date for a public hearing on the claim within 75 days. The test claim may be based upon estimated costs that a local agency or school district may incur as a result of the statute or executive order and may be filed at any time after the statute is enacted or the executive order is adopted. The claim shall be submitted in a form prescribed by the commission. After a hearing in which the claimant and any other interested organization or individual may participate, the commission shall determine if there are costs mandated by the state.

"This section shall become operative on July 1, 1996."

which is to set dates for receipt of responses, opposition or recommendations, claimant rebuttal, completion of staff analysis and *the hearing on the test claim*. There is no provision for summary adjudication.

Section 1183.05 allows motions to consolidate or sever test claims. Section 1183.06 allows the Executive Director to consolidate test claims. Section 1183.07 requires commission staff to prepare a final written analysis of the test claim *before the hearing* on the test claim. There is no provision for summary adjudication.

Government Code Section 17554[6] allows the Commission to the waive application of any procedural requirement imposed by this chapter or pursuant to Section 17553 in order to expedite action on the claim, but only with the agreement of all parties to the claim.

Therefore, it is quite clear that there is no provision either in law or regulations which permits summary adjudication.

3. Legal Compulsion is not a Legal Requirement

DIR's motion depends entirely upon its interpretation that *Department of Finance v. Commission on State Mandates*[7] requires legal compulsion to perform a new or increased duty before the Commission can find a new reimbursable mandate.

DIR's reliance on *Department of Finance* is both factually and legally misguided.

The court in *Department of Finance* did not hold a test claimant needed to show legal compulsion, in fact it clearly avoided that issue:

> "For the reasons explained below, although we shall analyze the legal

---

[6] Government Code Section 17554, added by Chapter 1179, Statutes of 1988, Section 1:

"With the agreement of all parties to the claim, the commission may waive the application of any procedural requirement imposed by this chapter or pursuant to Section 17553 in order to expedite action on the claim. The authority granted by this section includes the consolidation of claims and the shortening of time periods."

[7] Department of Finance v. Commission on State Mandates (2003) 30 Cal.4th 727.

> compulsion issue, we find it unnecessary in this case to decide whether a finding of legal compulsion is *necessary* in order to establish a right to reimbursement under article XIII B, section 6, because we conclude that even if there are some circumstances in which a state mandate may be found in the absence of legal compulsion, the circumstances presented in this case do not constitute such a mandate." (Opinion, at page 736, emphasis in the original)

In other words, the court found it "unnecessary in this case to decide whether a finding of legal compulsion is *necessary* in order to establish a right to reimbursement under article XIII B, section 6."

In conclusion, the Request for Summary Disposition filed by the Department of Industrial Relations should be denied because: (1) the request is legally incompetent, (2) there is no provision for summary adjudication in mandate law, and (3) public schools and agencies must comply with the state's prevailing wage laws.

CERTIFICATION

I certify by my signature below, under penalty of perjury, under the laws of the State of California, that the statements made in this document are true and complete to the best of my own personal knowledge or information and belief.

Sincerely,

Keith B. Petersen

DECLARATION OF SERVICE

RE: Prevailing Wage Rate
CLAIMANT: Clovis Unified School District

I declare:

I am employed in the office of SixTen and Associates, which is the appointed representative of the above named claimant(s). I am 18 years of age or older and not a party to the within entitled matter.

On the date indicated below, I served the attached: letter of September 13, 2003, addressed as follows:

Paula Higashi
Executive Director
Commission on State Mandates
980 Ninth Street, Suite 300
Sacramento, CA 95814

AND per mailing list attached

FAX: (916) 445-0278

☒ **U.S. MAIL:** I am familiar with the business practice at SixTen and Associates for the collection and processing of correspondence for mailing with the United States Postal Service. In accordance with that practice, correspondence placed in the internal mail collection system at SixTen and Associates is deposited with the United States Postal Service that same day in the ordinary course of business.

☐ **OTHER SERVICE:** I caused such envelope(s) to be delivered to the office of the addressee(s) listed above by:

(Describe)

☐ **FACSIMILE TRANSMISSION:** On the date below from facsimile machine number (858) 514-8645, I personally transmitted to the above-named person(s) to the facsimile number(s) shown above, pursuant to California Rules of Court 2003-2008. A true copy of the above-described document(s) was(were) transmitted by facsimile transmission and the transmission was reported as complete and without error.

☐ A copy of the transmission report issued by the transmitting machine is attached to this proof of service.

☐ **PERSONAL SERVICE:** By causing a true copy of the above-described document(s) to be hand delivered to the office(s) of the addressee(s).

I declare under penalty of perjury that the foregoing is true and correct and that this declaration was executed on 9/16/03, at San Diego, California.

And Affected Parties and State Agencies

I am employed in the City and County of Sacramento, California. I am over the age of eighteen years and not a party to the within action; my business address is 320 W. Fourth Street, Suite 600, Los Angeles, CA 90013.

On October 7, 2003, I served the enclosed **Verification for the Department of Industrial Supplemental Position Statement And Request For Summary Disposition,** on the parties listed below, through their attorneys of record, by placing true copies thereof in sealed envelopes addressed as shown below for service as designated below:

(A) By First Class Mail: I am readily familiar with the practice of the Department of Industrial Relations, Office of the Director Legal Unit, for the collection and processing of correspondence for mailing with the United States Postal Service. I caused each such envelope, with first-class postage thereon fully prepared, to be deposited in a recognized place of deposit of the U.S. Mail in Loa Angeles, California, for collection and mailing to the office of the addressee on the date shown herein.

(B) By Personal Service: I caused each such envelope to be personally delivered to the office of the addressee by a member of the staff of the Department of Industrial Relations, Office of the Director Legal Unit, on the date last written below.

(C) By Messenger Service: I am readily familiar with the practice of the Department of Industrial Relations, Office of the Director Legal Unit for messenger delivery, and I caused each such envelope to be delivered to a courier employed by Golden State Overnight, with whom we have a direct billing account, who personally delivered each such envelope to the office of the address at the place and on the date last written below.

(D) By Facsimile Transmission: I caused such document to be served via facsimile electronic equipment transmission (fax) on the parties in this action, pursuant to oral and/or written agreement between such parties regarding service by facsimile by transmitting a true copy to the following fax numbers:

Attorneys for Respondent Department of Industrial Relations

INTRODUCTION

The amendment to the Test Claim concerns a recent amendment to the Labor Code of a single section affecting those school districts that choose to accept state construction bond money for their construction. As with the Department's Supplemental Brief, this brief will not reargue issues already argued but will incorporate the prior arguments into this brief.

The amendment to the claim for subvention because of this new Labor Code section fails for the same reasons as discussed in the Department's initial brief on voluntary, labor compliance programs ("LCP") and discussed in the Department's August 21, 2003. The newly created LCPs under Labor Code § 1771.7 are voluntary programs for local school districts and already receive funding for their activities through the state construction bond money. There is, therefore, no mandate and no increased need for funding.

FACTS

Labor Code § 1771.7(a) provides:

(a) An awarding body that chooses to use funds derived from either the Kindergarten-University Public Education Facilities Bond Act of 2002 or the Kindergarten-University Public Education Facilities Bond Act of 2004 for a public works project, shall initiate and enforce, or contract with a third party to initiate and enforce, a labor compliance program, as described in subdivision (b) of Section 1771.5, with respect to that public works project.[1]

---

[1] The full text of the section is

a) An awarding body that chooses to use funds derived from either the Kindergarten-University Public Education Facilities Bond Act of 2002 or the Kindergarten-University Public Education Facilities Bond Act of 2004 for a public works project, shall initiate and enforce, or contract with a third party to initiate and enforce, a labor compliance program, as described in subdivision (b) of Section 1771.5, with respect to that public works project.

(b) This section shall apply to public works that commence on or after April 1, 2003. For purposes of this subdivision, work performed during the design and preconstruction phases of construction, including, but not limited to, inspection and land surveying work, does not constitute the commencement of a

public work.

(c)(1) For purposes of this section, if any campus of the California State University chooses to use the funds described in subdivision (a), then the "awarding body" is the Chancellor of the California State University. For purposes of this subdivision, if the chancellor is required by subdivision (a) to initiate and enforce, or to contract with a third party to initiate and enforce, the labor compliance program described in that subdivision, then in addition to the requirements imposed upon an awarding body by subdivision (b) of Section 1771.5, the Chancellor of the California State University shall review the payroll records described in paragraphs (3) and (4) of subdivision (b) of Section 1771.5 on at least a monthly basis to ensure the awarding body's compliance with the labor compliance program.

(2) For purposes of this subdivision, if an awarding body described in subdivision (a) is the University of California or any campus of that university, and that awarding body is required by subdivision (a) to initiate and enforce, or to contract with a third party to initiate and enforce, the labor compliance program described in that subdivision, then in addition to the requirements imposed upon an awarding body by subdivision (b) of Section 1771.5, the payroll records described in paragraphs (3) and (4) of subdivision (b) of Section 1771.5 shall be reviewed on at least a monthly basis to ensure the awarding body's compliance with the labor compliance program.

(d)(1) An awarding body described in subdivision (a) shall make a written finding that the awarding body has initiated and enforced, or has contracted with a third party to initiate and enforce, the labor compliance program described in subdivision (a).

(2)(A) If an awarding body described in subdivision (a) is a school district, the governing body of that district shall transmit to the State Allocation Board, in the manner determined by that board, a copy of the finding described in paragraph (1).

(B) The State Allocation Board may not release the funds described in subdivision (a) to an awarding body that is a school district until the State Allocation Board has received the written finding described in paragraph (1).

(C) If the State Allocation Board conducts a post award audit procedure with respect to an award of the funds described in subdivision (a) to an awarding body that is a school district, the State Allocation Board shall verify, in the manner determined by that board, that the school district has complied with the requirements of this subdivision.

(3) If an awarding body described in subdivision (a) is a community college district, the Chancellor of the California State University, or the office of the President of the University of California or any campus of the University of California, that awarding body shall transmit, in the manner determined by the Director of the Department of Industrial Relations, a copy of the finding described in paragraph (1) to the director of that department, or the director of any successor agency that is responsible for the oversight of employee wage and employee work hours laws.

(e) Notwithstanding Section 17070.63 of the Education Code, for purposes of this act, the State Allocation Board shall increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts as described in Sections 17072.10 and 17074.10 of the Education Code to accommodate the state's sha1487 the increased costs of a new construction or modernization project due to the

There are several elements to this new section of the Labor Code: A school district has to decide to perform construction and has to decide to seek to fund this construction from one of two bond initiatives. If the district makes both decisions, only then does it needs to create an LCP under Labor Code § 1771.5. As seen in DIR's initial response to the Test Claim, LCPs allows LCPs to keep any penalties assessed and collected.

The bond acts referred to in Labor Code § 1771.7 provide for the percentage of funding for construction that the state will provide from 50% (new construction) to 80% (hardship situations) of the total cost of construction. See, Office of Public School Construction, *Statistical and Fiscal Data for the School Facilities Program* (Exhibit E to this Reply). The Education Code continues to provide that this contribution of state money is the sole source of state funds for school construction and that a district's acceptance of the money constitutes a waiver of any claim for more state money. Education Code § 17070.63

The bond money is distributed by the School Allocation Board ("SAB"). The SAB recently has provided funding guidelines for LCPs created under Labor Code § 1771.7, using the same percentage as the school district receives for its construction costs. See, Reports of Executive Officer, School Allocation Board, July 2, 2003, August 27, 2003 (attached as Exhibits F and G to this Reply).

ARGUMENT

THE CREATION OF LABOR COMPLIANCE PROGRAMS IS NOT MANDATED BY LABOR CODE SECTION 1771.7.

It is now a truism that voluntary acts, even if performed to obtain funding, remain voluntary. Subvention is never required when a local agency engages in these acts, even if a funding shortfall results. See, *Department of Finance v. Commission on State Mandates* (2003), 30 Cal.4th 727, 134 Cal.Rptr.2nd 237 ("*Kern*"); See also, Department of

initiation and enforcement of the labor compliance program.

Industrial Relations Supplemental Brief, dated August 12, 2003. A school district can decide to build schools but not to apply for the specific bond money, in which case there is no requirement for an LCP. If the district decides to tap this particular source of new state money for construction, it comes with some strings (creation of an LCP) as well as money from SAB to run the LCP. See, OPSC Response, September 15, 2003. This situation is no different than the *Kern* situation decided by the Supreme Court. In fact, Test Claimants have made no showing that *Kern* is at all distinguishable.

Test Claimants claim there are new mandates that flow from the creation of an LCP (after a district decides to seek funding from the enumerated two sources) such as meeting the requirements of approval by the Labor Commissioner, operating enforcement (either directly or through a third party), and participating in appeals from their enforcement activities.[2] However, these mandates flow directly and only from the **voluntary decision** by school districts to seek specific funding. Nothing mandates that decision, and therefore there is no new mandate for any of the claimed increased costs.

IMPLEMENTATION OF LABOR COMPLIANCE PROGRAMS POTENTIALLY INCREASES SCHOOL DISTRICT REVENUES.

Test Claimants have not provided any information that would lead to the conclusion that Labor Code § 1771.7 in fact will increase costs. In making their bald assertions, Test Claimants have failed to consider three potential sources of income, which must be counted before making any claim for subvention.

Not all increased costs create the need for subvention, and budgetary shortfalls do not *per se* create such a requirement. *Kern*, *supra*, 30 Cal.4th at 748. As pointed out in DIR's initial response, one of the features for voluntary LCPs is that the local agency that utilizes an LCP can retain the penalties it assesses and collects. These penalties include $25.00 per day per employee for contractors' failure to submit accurate Certified Payroll

[2] Test Claimants provide voluminous instructional material from the Labor Commissioner, all of which were distributed in order to reduce the work required for nascent voluntary LCPs to get through the application process quickly.

Records, up to $50.00 per day per worker for the failure to pay prevailing wages, and $25.00 per day per worker for the failure to pay overtime premium pay.

For the purpose of subvention, these penalties should be calculated at the amount actually assessed, rather than collected, to ensure that the local agencies do not seek state money to make up shortfalls it creates by less than aggressive enforcement. Allowing the local agencies to determine from whom they will collect would reverse the requirement that the increased costs be imposed by the state and that the local agency have no other source of funds before subvention is ordered. Where other sources of funds exist, they must be utilized. *Id.*

Secondly, there is a steady source of funds available to Test Claimants in the form of increased funding from SAB. The Test Claim Amendment does not mention this source of funding nor address the fact that the Education Code provides that acceptance of the money from SAB constitutes the school district's agreement that it is not receivir state money from any other source. The SAB's new reimbursement rules constitute the only state support to which Test Claimants are allowed. To allow subvention at all would therefore force a violation of the Education Code.

///

///

///

///

///

///

///

///

///

///

CONCLUSION

For these reasons, until Test Claimants can make a case that a school district's decision to engage in construction and to accept funding from two specific bonds is not a voluntary act, the Commission should not consider this amendment. Labor Code § 1771.7 does not create a mandate but rather a condition that must occur only after a voluntary decision by a school district. Further, even if § 1771.7 were considered a mandate, subvention cannot be ordered because school districts have multiple other sources of funding school construction.

Historical Data

SECTION 1 APPORTIONMENTS FROM PROPOSITION 47: $9,337,800,679

The information presented in this section represents all allocations of Proposition 47 funds from December 2002. The amounts include financial, facility and excessive cost hardships as well as site acquisition, site development and projects which received a design and/or site only apportionment. Costs to administer the program are not included. Includes $16,186,513 apportioned for 18 Joint-Use projects.

	NEW CONSTRUCTION	MODERNIZATION	CHARTER SCHOOLS	CRITICALLY OVER-CROWDED SCHOOLS
Apportionments	$4,249,736,166	$3,276,964,513	$97,034,156	$1,697,872,847
Pupils Housed	334,465	986,659	2,651	53,472
Number of Projects	819	1,986	6	303
Funds Released	$3,212,977,310	$1,749,509,580		

Total Proposition 47 Apportionments: $9,337,800,679
Remaining Proposition 47 Funds: $2,062,199,321

A detailed report listing the projects apportioned from Proposition 47 is posted monthly on the OPSC Web site at: http://www.opsc.dgs.ca.gov.

SECTION 2 APPORTIONMENTS FROM PROPOSITION 1A: $6,661,082,345

The information presented in this section represents all allocations of Proposition 1A funds from December 1998 through August 27, 2003. This section will be updated January and July. The amounts include financial, facility and excessive cost hardships as well as site acquisition, site development and projects which received a design and/or site only apportionment. Qualified Lease-Purchase projects which were grandfathered and received Proposition 1A funds are included. The figure also includes funds dedicated for class size reduction. Projects which received an apportionment, but were later rescinded, have been removed and the funding added to the remaining Proposition 1A Funds. $13,700,000 was transferred from the State Relocatable Classroom Fund to the Proposition 1A Fund for facility hardship. Interest earned on the fund has also been added. Costs to administer the program are not included.

	NEW CONSTRUCTION	MODERNIZATION
Apportionments	$3,556,482,218	$2,631,668,489
Pupils Housed	338,512	919,326
Number of Projects	770	1,667

Class Size Reduction: $472,931,638

The California Department of Education is responsible for the allocation of these funds. This figure includes site mitigation funds for Los Angeles Unified School District and Santa Ana Unified School District. A detailed report listing the districts apportioned can be found on the Office of Public School Construction (OPSC) Web site at: http://www.opsc.dgs.ca.gov.

Total Proposition 1A Apportionments: $6,661,082,345 (Proposition 1A funds released to districts with construction contracts is 95% of the funds apportioned.)

A detailed report listing the projects apportioned from Proposition 1A is posted monthly on the OPSC Web site at: http://www.opsc.dgs.ca.gov.

SECTION 3 AVERAGE VALUE OF APPLICATIONS AND APPROVED PER MONTH

This section details the average value of new construction and modernization applications processed to the State Allocation Board (SAB) from January 1999 through August 27, 2003. Does not include financial hardship.

New Construction—Estimated averager workload value of SAB approvals per month:	$102,575,701
Modernization—Estimated average workload value of applications received per month:	$101,709,765
Total Average Value of SFP Applications Per Month:	**$204,285,466**

SECTION 4 AVERAGE PER PUPIL APPORTIONMENT

The information presented in this section represents the average apportionment made to a new construction or modernization application. The average is developed from all construction application apportionments made from the inception of the School Facility Program (SFP) through the date of this report. The State share includes site development, site acquisition and excessive hardship costs and is only the State share of the total project cost. Partial apportionments for advance site and planning applications were not included in the average. A separate column shows the average cost of the State apportionment, which is the State share plus financial hardship.

New Construction

GRADE	STATE SHARE	STATE APPORTIONMENT (STATE SHARE PLUS FINANCIAL HARDSHIP)
K–6	$8,196	$10,203
7–8	$8,410	$10,584
9–12	$11,253	$14,191
Total Average[1]	**$9,392**	**$11,779**

Modernization

GRADE	STATE SHARE	STATE APPORTIONMENT (STATE SHARE PLUS FINANCIAL HARDSHIP)
K–6	$2,629	$2,711
7–8	$2,785	$2,865
9–12	$3,637	$3,754
Total Average[1]	**$2,979**	**$3,072**

Note: To calculate the average total project cost (State share plus district match), multiply the figure in the State share column by 2 for new construction and by 1.25 for modernization.

[1] Total average is found by dividing all SFP construction application apportionments by the total number of pupils served.

SECTION 4.1 ADMINISTRATIVE EXPENSES FUNDED FROM PROPOSITION 1A

The State Allocation Board incurs expenses for the administration of the School Facility Program and the apportionment and distribution of Proposition 1A funds. The costs consist of the following categories:

Administrative Costs: Costs associated with staffing provided by the Office of Public School Construction and the California Department of Education, School Facilities Planning Division.

Pooled Money Investment Fund (PMIF): The State Allocation Board borrows cash from the state PMIF in order to make fund releases to eligible, approved SFP applications. When the State Treasurer subsequently sells bonds made available from Proposition 1A, the PMIF loans are retired. The interest charged on the PMIF loans is partially off-set by interest earned on Proposition 1A funds.
State Controller and State Treasurer: Costs to compensate these agencies for services related to fund releases and bond sales.

This section will be updated January and July.

ADMINISTRATIVE EXPENSES FUNDED FROM PROPOSITION 1A	TOTAL TO DATE	PERCENT TO DATE
Administrative Costs	$42,417,406	0.63
Pooled Money Investment Fund	$ 8,595,833	0.13
State Controller and State Treasurer	$ 2,000,046	0.03
Total	$53,013,285	0.79

Applications Awaiting Funding

SECTION 5 APPLICATIONS AWAITING FUNDING AS OF AUGUST 27, 2003: $590,671,846

This section represents the State apportionment cost of all projects for new construction and modernization in the OPSC that have been received, but have not yet been funded. The figures include financial, facility and excessive cost hardships, site development, site acquisition costs and separate site and/or design applications.

WORKLOAD	APPORTIONMENT COST (NOT FUNDED)
New Construction	$314,681,412
Modernization	$198,866,285
Total Applications Awaiting Funding	**$513,547,697**

Workload... All projects for new construction and modernization that have been accepted for processing, but have not yet been submitted to the SAB. These costs have not been validated and may increase or decrease.

A detailed workload report listing the projects is posted bi-weekly on the OPSC Web site at: **http://www.opsc.dgs.ca.gov**. The workload totals in this report may vary with the workload totals on the Web site because they reflect information available on different dates.

SECTION 6 ELIGIBILITY APPLICATIONS ON FILE AS OF AUGUST 27, 2003

This section details the total eligibility represented by SFP eligibility applications filed, processed, and approved by the SAB. Applications received but not processed are not included. The eligibility is expressed as the number of pupils for which the district may request new construction or modernization funding. The data is based on five year enrollment projections. It is adjusted when a new construction or modernization funding application is approved which utilizes a portion of the eligibility. Column 1 is the eligibility for which no design or new construction applications have been filed. Column 2 is the eligibility for which design funding applications have been approved by the SAB, but for which no new construction or modernization funding applications have been filed. The total reflects eligibility on file for which future new construction or modernization funding applications may be filed. See Section 7 for a calculation of the potential cost of this eligibility.

New Construction

GRADE	COLUMN 1	COLUMN 2	TOTAL PUPILS
K–6	370,507	65,874	436,381
7–8	156,067	14,116	170,183
9–12	385,129	25,703	410,832
Total Pupils	**911,703**	**105,693**	**1,017,396**

Modernization

GRADE	COLUMN 1	COLUMN 2	TOTAL PUPILS
K–6	478,159	23,999	502,158
7–8	196,803	10,440	207,243
9–12	318,718	14,904	333,622
Total Pupils	**993,680**	**49,343**	**1,043,023**

SECTION 7 COST OF ELIGIBILITY APPLICATIONS APPROVED AS OF AUGUST 27, 2003: $15,624,319,611

This section represents the total State share of eligibility applications on file with the OPSC. Explanations of the assumptions used are found in Part A through D.

New Construction

Part A reflects approved new construction eligibility (Section 6, Column 1) times the average State apportionment, including financial hardship (Section 4). Part B reflects approved new construction eligibility for projects which have approved design apportionments, but are eligible for the remaining construction apportionment (Section 6, Column 2). Since design only projects are financial hardship and have received 20 percent of the total project cost, it is assumed that the State will fund the remaining 80 percent of the total project cost in the future.

Part A. New Construction Eligibility

GRADE	PUPILS (SECTION 6, COLUMN 1)		AVERAGE STATE APPORTIONMENT (SECTION 4)		
K–6	370,507	×	$10,203	=	$3,780,282,921
7–8	156,067	×	$10,584	=	$1,651,813,128
9–12	385,129	×	$14,191	=	$5,465,365,639
	911,703		Total New Construction Grant		$10,897,461,688

Part B. New Construction Eligibility—Projects with Design Approvals

GRADE	PUPILS (SECTION 6, COLUMN 1)		AVERAGE STATE APPORTIONMENT (SECTION 4)		
K–6	65,874	×	$ 8,196	× 2 × 80% =	$863,845,286
7–8	14,116	×	$ 8,410	× 2 × 80% =	$189,944,896
9–12	25,703	×	$11,253	× 2 × 80% =	$462,777,374
	105,693		Total Design Only Costs		$1,516,567,557
			Total New Construction Part A and B		$12,414,029,245

Modernization

Part C reflects approved modernization eligibility (Section 6, Modernization, Column 1) times the average State apportionment (Section 4). Part D reflects approved modernization eligibility for projects which have approved design apportionments, but are eligible for the remaining construction apportionment (Section 6, Modernization, Column 2). Since design only projects are financial hardship and have received 16 percent of the total project cost, it is assumed that they will continue to be financial hardship projects and that the State will fund the remaining 84 percent of the total project cost.

Part C. Modernization Eligibility

GRADE	PUPILS (SECTION 6, COLUMN 1)		AVERAGE STATE APPORTIONMENT (SECTION 4)		
K–6	478,159	×	$2,711	=	$1,296,289,049
7–8	196,803	×	$2,865	=	$ 563,840,595
9–12	318,718	×	$3,754	=	$1,196,467,372
	993,680		Total Modernization Grant		$3,056,597,016

Part D. Modernization Eligibility—Projects with Design Approvals

GRADE	PUPILS (SECTION 6, COLUMN 1)		AVERAGE STATE APPORTIONMENT (SECTION 4)				
K–6	23,999	×	$\frac{\$2,629}{80\%}$	×	84%	=	$ 66,248,040
7–8	10,440	×	$\frac{\$2,785}{80\%}$	×	84%	=	$ 30,529,170
9–12	14,904	×	$\frac{\$3,637}{80\%}$	×	84%	=	$ 56,916,140
	48,343		Total Design Only Costs				$153,693,350
			Total Modernization Part C and D				$3,210,290,366
			Total Cost of Eligibility Applications Approved				$15,624,319,611

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, July 2, 2003

IMPLEMENTATION OF ASSEMBLY BILL 1506 (WESSON)
GRANT ADJUSTMENTS FOR LABOR COMPLIANCE PROGRAMS

PURPOSE OF REPORT

To present proposed regulations to provide a per pupil grant increase to accommodate the State's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of a Labor Compliance Program (LCP).

BACKGROUND

Assembly Bill (AB) 1506, Chapter 868, Statutes of 2002, requires that the State Allocation Board (SAB) increase the per-pupil grant amounts in Education Code Section 17072.10 and 17074.10 to accommodate the State's share of the increased cost of new construction and modernization projects due to the initiation and enforcement of a LCP. The increases must be effective by July 1, 2003.

DESCRIPTION

Labor Compliance Program Costs

A LCP consists of three major activities: initiation, monitoring, and enforcement. Prior to the passage of AB 1506, only a handful of California K-12 public school districts had active LCP's. Most of these were designed by the individual districts and did not necessarily include all of the requirements of AB 1506 or approval by the Department of Industrial Relations. Additionally, most of the districts with LCP's were large, and applied the programs to all construction related contracts in the district, including even routine maintenance work. For this reason, costs applicable to individual projects were not readily available.

The Office of Public School Construction (OPSC), through discussions at the Implementation Committee, requested any available information related to the per project costs of conducting a LCP in a public school district. In response, the OPSC received a limited number of written proposals from third-party providers, as well as, a proposal for the California Community Colleges. This information, though very limited, served as the basis of the proposed per pupil grant adjustments proposed in this regulation.

STAFF COMMENTS

Although the Implementation Committee reached consensus on the proposed regulations, Staff agreed to advise the Board of some concerns expressed at the meetings held on this subject. School district representatives expressed the belief that the actual enforcement of labor code violations could lead to expensive legal and litigation costs, which are not anticipated in the proposal. Additionally, representatives of the Department of Finance pointed out that there is not a clear model of the minimum required to implement and enforce a LCP. Thus, the proposal could be based on the assumption that more work will be done than is actually required, thereby inflating the cost and the amount of the additional per pupil grant.

Staff acknowledges the possible validity of both comments. Given the urgency to adopt regulations by July 1, 2003, and given the very sparse data available at this moment, the Committee and Staff agreed the attached regulations should be presented to the SAB now, and that the amount of the per pupil grant should be revisited in approximately one year. At that time, information based on actual experience in school districts can be used to recommend an increase or a decrease in the additional per pupil grant for future apportionments.

(Continued on Page Two)

PROPOSAL

Using the information available, the OPSC developed a sliding scale based on the total cost of a project, less site acquisition, to determine the amount to be added for a LCP. This amount is then divided by the number of pupils in the project to determine the per pupil cost of the LCP. The State share is 50 percent of the resulting amount for new construction projects, and either 60 percent or 80 percent as appropriate for modernization.

The minimum total of the State and District share added to any project is $16,000. Samples of the adjustments are as follows:

- 1.6 percent but not less than $16,000 for any project under $1 million.
- $39,200 (0.78 percent) for a $5 million project
- $57,800 (0.57 percent) for a $10 million project.
- $86,000 (0.43 percent) for a $20 million project.

The State share is 50 percent of the amount for new construction projects, and 60 percent or 80 percent as appropriate for modernization.

Eligible Projects

A School Facility Program new construction and modernization project is eligible for an increase in the per pupil grant amount for the State's share of the cost of a LCP if both of the following conditions are met:

- The project was or will be funded from the proceeds of Proposition 47 or from the Kindergarten-University Public Education Facilities Bond Act of 2004, and
- Notice to Proceed for the initial contract for construction of the project was issued on or after April 1, 2003.

Projects apportioned in full prior to the enactment of these proposed regulations, and which are required to have a LCP in place at the time of the fund release request, may receive an additional one time apportionment for the costs associated with the LCP as calculated under these regulations.

RECOMMENDATIONS

1. Approve the additions and amendments to the regulation sections contained on the Attachments.

2. Authorize the OPSC to file the regulations on an emergency basis because Labor Code Section 1771.7 (e) requires the grant increases to be available not later than July 1, 2003.

3. Direct Staff to conduct a review of the per pupil grant increase proposed in these regulations and make recommendations for adjustments, if necessary, at the April 2004 SAB meeting.

This Item was approved by the State Allocation Board on July 2, 2003.

ATTACHMENT A
Proposed Regulatory Amendments
Implementation of Assembly Bill 1506 (Wesson)
Grant Adjustments for Labor Compliance Programs
State Allocation Board Meeting, July 2, 2003

Amend Regulation Section 1859.2 as follows:

Section 1859.2. Definitions.

"Labor Compliance Program (LCP)" shall be as described in subdivision (b) of Labor Code Section 1771.5 and approved by the Department of Industrial Relations.

Note: Authority cited: Sections 17070.35 and 17078.64, Education Code.

Reference: Sections 17009.5, 17017.6, 17017.7, 17021, 17047, 17050, 17051, 17070.15, 17070.51(a), 17070.71, 17070.77, 17071.10, 17071.25, 17071.30, 17071.33, 17071.35, 17071.40, 17071.76, 17072.10, 17072.12, 17072.18, 17072.33, 17073.25, 17074.10, 17075.10, 17075.15, 17077.40, 17077.42, 17077.45, 17078.52, 17078.56, 17280, and 56026, Education Code. Section 53311, Government Code and Section 1771.5, Labor Code.

Add Regulation Section 1859.71.4 as follows:

Section 1859.71.4 New Construction Pupil Grant Increase for Labor Compliance Program

(a) After determining all other funding authorized by these Regulations, the Board shall increase the per-unhoused-pupil grant amount by 50 percent of the following calculation for any project for which the district is required under Labor Code Section 1771.7(a) and (b) to initiate and enforce a LCP:
(1) Using the chart in (b) of this Section, determine the total amount of funding to be provided for the increased costs of a new construction project due to the initiation and enforcement of a LCP.
(2) Divide the amount determined in subsection (a)(1) by the total number of pupils, or by one if no pupils are assigned, in the approved application.
(b) The funding provided for a new construction project to initiate and enforce a LCP shall be calculated on the total project cost, exclusive of site acquisition costs, as follows:

$16,000	For the first $1 million or any part thereof, plus
1.6 percent	Of the next $1 million or any part thereof, plus
0.25 percent	Of the next $1 million or any part thereof, plus
0.15 percent	Of the next $1 million or any part thereof, plus
0.32 percent	Of the next $2 million or any part thereof, plus
0.31 percent	Of the next $2 million or any part thereof, plus
0.46 percent	Of the next $5 million or any part thereof, plus
0.44 percent	Of the next $5 million or any part thereof, plus
0.42 percent	Of the next $30 million or any part thereof, plus
0.4 percent	Of any remaining portion

Note: Authority cited: Section 17070.35, Education Code.

Reference: Section 17072.10, Education Code.

(Continued on Next Page)

Amend Regulation Section 1859.73.2 as follows:

Section 1859.73.2. New Construction Additional Grant for Replaced Facilities.

(a) In addition to any other funding authorized by these Regulations, the Board shall provide funding for the amount(s) in (b) below for the replacement cost of one-story buildings that are demolished at a school in order to increase pupil capacity of that school if all the following conditions are met:
(1) The school must be on MTYRE at the time the Approved Application is accepted.
(2) The site size as determined by the CDE for the existing capacity of the school is less than 75 percent of the recommended CDE site size.
(3) The pupil capacity of the school must be increased by at least the greater of (A) or (B) below:
(A) Twenty percent of the existing pupil capacity (before replacement) of the school. Existing pupil capacity shall be determined by multiplying classrooms intended for grades kindergarten through six by 25, classrooms intended for grades seven through 12 by 27, classrooms intended for Non-Severely Disabled Individuals with Exceptional Needs by 13 and classrooms intended for Severely Disabled Individuals with Exceptional Needs by nine. Classrooms shall not include any classrooms reduced from the Gross Classroom Inventory pursuant to Section 1859.32.
(B) 200 pupils.
(4) The sum of (A) and (B) below is less than the amount determined in (E) below:
(A) Determine the estimated cost of demolition of the one-story buildings to be replaced. The cost estimate shall be subject to review by the OPSC for conformance with the Saylor Current Cost Publication.
(B) Multiply the square footage of the buildings to be replaced by the Current Replacement Cost.
(C) Multiply the New Construction Grants requested in box 2a. of the Form SAB 50-04 by .01775 for K-6, .021 for 7-8 and .02472 for 9-12. For purposes of this calculation, assign Severely Disabled Individuals with Exceptional Needs and Non-Severely Disabled Individuals with Exceptional Needs pupil grants requested on Form SAB 50-04 as either K-6, 7-8 or 9-12 based on the type of project selected by the district on Form SAB 50-04.
(D) Determine the average appraised value of land per acre, including relocation costs, within the attendance boundaries of the school. The appraisal must be consistent with Section 1859.74.1.
(E) Multiply the sums of the products determined in (C) above by the average appraised value of land per acre determined in (D) above.
(5) The CDE has determined that the replacement of the one-story buildings on the existing site with multilevel building(s) would be the best available alternative and will not create a school with an inappropriate number of pupils in relation to the size of the site.
(6) The one-story buildings to be replaced on the existing site may not be leased facilities.
(7) With the exception of portables acquired with Class Size Reduction funds, the one-story buildings to be replaced on the site may not have been funded for either new construction or modernization funds from Proposition 1A funds within the past five years from the date the Approved Application is accepted.
(b) If the criteria in (a) are met, the additional funding is determined by multiplying $173.30 per square foot for Toilet Facilities and by $96.30 per square foot for all other facilities included in the one-story buildings to be replaced adjusted for the following:
(1) The amounts shall be adjusted ~~annually~~ in the manner prescribed in Section 1859.71.
(2) The amounts shall be increased by the percentage authorized in Section 1859.73 if the replacement area will be multilevel building(s).

The district is eligible for site development in accordance with Section 1859.76 including the demolition of the replacement structures as part of the SFP project.

Note: Authority cited: Section 17070.35, Education Code.

Reference: Sections 17071.46 and 17074.56, Education Code.

(Continued on Next Page)

Add Regulation Section 1859.78.1 as follows:

Section 1859.78.1 Modernization Pupil Grant Increase for Labor Compliance Program

(a) After determining all other funding authorized by these Regulations, the Board shall increase the per-pupil grant amount by the following calculation, less the district matching share required in Section 1859.79, for any project for which the district is required under Labor Code Section 1771.7(a) and (b) to initiate and enforce a LCP:
(1) Using the chart in Section 1859.71.4(b), determine the total amount of funding to be provided for the increased costs of a modernization project due to the initiation and enforcement of a LCP.
(2) Divide the amount determined in subsection (a)(1) by the total number of pupils, or by one if no pupils are assigned, in the approved application.

Note: Authority cited: Section 17070.35, Education Code.

Reference: Section 17074.10, Education Code

Amend Regulation Section 1859.79.2 as follows:

Section 1859.79.2. Use of Modernization Grant Funds.

The Modernization Grant plus any other funds provided by these Regulations shall be expended as set forth in Education Code Sections 17074.25 and 17070.15 (f) and may also be utilized for other purposes as set forth in Education Code Section 100420 (c). Modernization funding may also be used for the costs incurred by the district directly or through a contract with a third party provider for the initiation and enforcement of a LCP. Modernization funding, with the exception of savings, is limited to expenditure on the specific site where the modernization grant eligibility was generated. The grant may not be used for the following:
(a) New building area with the exception of the following:
(1) Replacement building area of like kind. Additional classrooms constructed within the replacement area will reduce the new construction baseline eligibility for the district.
(2) Building area required by the federal American with Disabilities Act (ADA) or by the Division of the State Architect's (DSA) handicapped access requirements.
(b) New site development items with the exception of:
(1) Replacement, repair or additions to existing site development.
(2) Site development items required by the federal ADA Act or by the DSA's handicapped access requirements.
(c) the evaluation and removal of hazardous or solid waste and/or hazardous substances when the Department of Toxic Substance Control has determined that the site contains dangerous levels of a hazardous substance, hazardous waste, or both that exceed ten percent of the combined adjusted grant and the district matching share for the project.
(d) Leased facilities not owned by another district or a county superintendent.

Modernization Grant funds shall be expended as set forth in Education Code Section 17074.25 and may also be utilized for other purposes as set forth in Education Code Section 100420(c).

Modernization Grant funds may be used on any school facilities on the site. If the classroom facilities on the site include areas that are currently ineligible for modernization, it will not disqualify those facilities from future modernization funding.

Note: Authority cited: Section 17070.35, Education Code.

Reference: Sections 17070.15, 17074.25 and 100420(c), Education Code.

(Continued on Next Page)

Amend Regulation Section 1859.82 as follows:

Section 1859.82. Facility Hardship.

A district is eligible for facility hardship funding to replace or construct new classrooms and related facilities if the district demonstrates there is an unmet need for pupil housing or the condition of the facilities, or the lack of facilities, is a threat to the health and safety of the pupils. A facility hardship is available for:

(a) New classrooms and/or subsidiary facilities (corridors, toilets, kitchens and other non-classroom space) or replacement facilities if either (1) or (2) are met:

(1) The facilities are needed to ensure the health and safety of the pupils if the district can demonstrate to the satisfaction of the Board that the health and safety of the pupils is at risk. Factors to be considered by the Board shall include the close proximity to a major freeway, airport, electrical facility, high power transmission lines, dam, pipeline, industrial facility, adverse air quality emission or other health and safety risks, including structural deficiencies required by the Division of the State Architect to be repaired, traffic safety or because the pupils reside in remote areas of the district and transportation to existing facilities is not possible or poses a health and safety risk.

If the request is for replacement facilities, a cost/benefit analysis must be prepared by the district and submitted to the OPSC that indicates the total costs to remain in the classroom or related facility and mitigate the problem is at least 50 percent of the Current Replacement Cost of the classroom or related facility. The cost/benefit analysis may include applicable site development costs as outlined in Section 1859.76. If the cost to remain in the classroom or related facility is less than 50 percent of the Current Replacement Cost, the district may qualify for a Modernization Excessive Cost Hardship Grant for rehabilitation costs pursuant to Section 1859.83 (e).

If the request is for replacement facilities that included structural deficiencies, the cost/benefit analysis must also include a report from a licensed design professional identifying the minimum work necessary to obtain Division of the State Architect approval. The report must contain a detailed cost estimate of the repairs. The report and cost estimate shall be subject to review by the OPSC for conformance with the Saylor Current Construction Cost Publication and, at the OPSC's discretion, the Division of the State Architect.

(2) The classroom or related facility was lost or destroyed as a result of a disaster such as fire, flood or earthquake and the district has demonstrated satisfactorily to the Board that the classroom or related facility was uninsurable or the cost for insurance was prohibitive.

If the district qualifies for a new or replacement school pursuant to either (1) or (2) above, the district is eligible for a New Construction Grant as a new construction project for the lesser of the pupils housed in the replaced facility based on loading standards pursuant to Education Code Section 17071.25(a)(2) or the latest CBEDS enrollment at the site.

If the district qualifies for replacement facilities on the same site pursuant to either (1) or (2) above, the district is eligible for funding as a new construction project. Replacement facilities shall be allowed in accordance with the square footage amounts provided in the chart in Section (b) below. If the facility eligible for replacement is not shown in the chart in Section (b) below, the replacement facility shall be limited to the square footage replaced. The grant amount provided shall be $173.30 per square foot for Toilet Facilities and $96.30 per square foot for all other facilities. Additional funding may be provided for applicable site development costs pursuant to Section 1859.76, New Construction Excessive Cost Hardship Grant(s) pursuant to Section 1859.83(a), (b) or (d), therapy room pursuant to Section 1859.72, multilevel construction pursuant to Section 1859.73 and project assistance pursuant to Section 1859.73.1. The amounts shown will be adjusted ~~annually~~ in the manner prescribed in Section 1859.71. <u>The district may be eligible for the funding provided to initiate and enforce a LCP as prescribed in Section 1859.71.4.</u>

Any grants provided pursuant to either (1) or (2) above will be reduced for any space deemed available by the Boa[illegible] in the district, the HSAA or Super HSAA that could be used to house some or all of the displaced pupils, fifty percent

of any insurance proceeds collectable by the district for the displaced facilities and fifty percent of the net proceeds available from the disposition of any displaced facilities.

(Continued on Next Page)

(b) A multi-purpose room, toilet, gymnasium, school administration or library/media center, facility that meets all the following:
(1) The facility was lost or destroyed as a result of a disaster, including but not limited to fire, flood or earthquake.
(2) The facility is no longer useable for school purposes as recommended by the California Department of Education and approved by the Board.
(3) The district has demonstrated satisfactorily to the Board that the facility was uninsurable or the cost of insurance was prohibitive.

If the district qualifies, the district is eligible for funding as a new construction project. The funding amount provided shall be $96.30 per square foot for library/media center, school administration, gymnasium and multi-purpose facilities, and/or $173.30 per square foot for Toilet Facilities. A New Construction Additional Grant may be provided for applicable site development costs pursuant to Section 1859.76, New Construction Excessive Cost Hardship Grant(s) pursuant to Section 1859.83(a) and (d), therapy room pursuant to Section 1859.72, multilevel construction pursuant to Section 1859.73 and project assistance pursuant to Section 1859.73.1. The amounts shown will be adjusted ~~annually~~ in the manner prescribed in Section 1859.71. The district may be eligible for the funding provided to initiate and enforce a LCP as prescribed in Section 1859.71.4.

Any grants provided pursuant to (b) above, shall be reduced by fifty percent of any insurance proceeds collectable by the district for the displaced facilities and fifty percent of the net proceeds available from the disposition of any displaced facilities.

The square footage provided, after accounting for all useable facilities on the site, shall not exceed the following:

Facility	*Elementary School Pupils*	*Middle School Pupils*	*High School Pupils*
Multi-Purpose (includes food service)	5.3 sq. ft. per pupil minimum 4,000 sq. ft.	5.3 sq. ft. per pupil minimum 5,000 sq. ft.	6.3 sq. ft. per pupil minimum 8,200 sq. ft.
Toilet	3 sq. ft. per pupil minimum 300 sq. ft.	4 sq. ft. per pupil minimum 300 sq. ft.	5 sq. ft. per pupil minimum 300 sq. ft.
Gymnasium (includes shower/locker)	N/A	12.9 sq. ft. per pupil minimum 6,828 sq. ft. maximum 16,000 sq. ft.	15.3 sq. ft. per pupil minimum 8,380 sq. ft. maximum 18,000 sq. ft.
School Administration	3 sq. ft. per pupil minimum 600 sq. ft.	3 sq. ft. per pupil minimum 600 sq. ft.	4 sq. ft. per pupil minimum 800 sq. ft.
Library/Media Center	2.3 sq. ft. per pupil plus 600 sq. ft.	3.3 sq. ft. per pupil plus 600 sq. ft.	4.3 sq. ft. per pupil plus 600 sq. ft.

Any facilities eligible for facility hardship not shown in the above chart shall be eligible for replacement square footage equal to the facilities replaced.

A district may request a determination of eligibility for facility hardship funding in advance of project funding.

1508

(c) A district seeking replaced facilities as a result of either (a) or (b) above must submit Form SAB 50-04 for the

(1) Within 18 months if the replacement facilities will be located on the same site.
(2) Within 24 months if the replacement facilities will be located on a replacement site.

(Continued on Next Page)

If an Approved Application for the replaced facility is not accepted within the time periods identified in (c)(1) or (c)(2) above, the Board shall re-review the criteria submitted by the district for replacement of the facility prior to apportionment of the replaced facility.

Note: Authority cited: Sections 17070.35 and 17075.15, Education Code.

Reference: Sections 17074.56, 17075.10 and 17075.15, Education Code.

Amend Regulation Section 1859.83 as follows:

Section 1859.83. Excessive Cost Hardship Grant.

...

(e) Excessive Cost for rehabilitation of facilities the Board has determined are a health and safety risk to the pupils pursuant to Section 1859.82 (a) (1) and the cost/benefit analysis to mitigate the problem and remain in the facility is less than 50 percent of the Current Replacement Cost of the facility. If the district qualifies, the district is eligible for funding of rehabilitation costs as a modernization project. If the Approved Application is received on or before April 29, 2002, the grant amount provided is 80 percent of the amount of the cost estimate required in Section 1859.82 (a) (1) that has been reviewed by the OPSC and approved by the Board. If the Approved Application is received after April 29, 2002, the grant amount provided is 60 percent of the amount of the cost estimate required in Section 1859.82(a) (1) that has been reviewed by the OPSC and approved by the Board. <u>The district may be eligible for the funding provided to initiate and enforce a LCP as prescribed in Section 1859.78.1.</u>

...

Amend Regulation Section 1859.125 as follows:

Section 1859.125. Joint-Use Project Grant Determination Based on Square Footage.

If the funding request is to construct square footage, the Joint-Use Grant is the lesser of the amount determined in (a) or (b):

(a) The sum of the amounts determined below:
(1) $173.30 for the Toilet Facilities in the Joint-Use Project as calculated in (a)(1)(B) below:
(A) Divide the eligible square footage of the Joint Use Project as determined in Section 1859.124 by the total square footage of the joint-use facility.
(B) Multiply the quotient determined in (a)(1)(A) by the Toilet Facilities in the joint-use facility.
(2) $96.30 for non-Toilet Facilities in the Joint-Use Project as calculated in (a)(2)(B) below.
(A) Divide the eligible square footage of the Joint Use Project as determined in Section 1859.124 by the total square footage of the joint-use facility.
(B) Multiply the quotient determined in (a)(2)(A) by the non-Toilet Facilities in the joint-use facility.
(3) 50 percent of site development work that meets the following criteria:
(A) It is necessary and applicable to the Joint-Use Project.
(B) It meets the requirements for service site development or utility costs as outlined in Section 1859.76(a) and/or (c). Off-site development work is not allowed as part of a Joint-Use Project; however, if off-site development work is necessary pursuant to Section 1859.76(b) for either a Type I or II Joint-Use Project, the district may request the eligible off-site work under the Qualifying SFP New Construction Project pursuant to Section 1859.123.
(C) It is considered excessive site development costs and not eligible for funding under the Qualifying SFP New Construction Project pursuant to Section 1859.123.

(b) $1 million if the Joint-Use Project will be located on a school site that is or will be serving Elementary School Pupil(s). $1.5 million if the Joint-Use Project will be located on a school site that is or will be serving Middle School Pupil(s). $2 million if the Joint-Use Project will be located on a school site that is or will be serving High School Pupils.

(Continued on Next Page)

If the district is requesting funding for site development work applicable to the Joint-Use Project, the district must submit a detailed cost estimate and appropriate DSA approved plans, with the Form SAB 50-07. The cost estimate must include appropriate justification documents that indicate the work is necessary to complete the Joint-Use Project and conform to the requirements of Section 1859.76.

Utility service(s) cost shall be prorated, if necessary, for any excess capacity not needed to service the Joint-Use Project.

The dollar amounts shown in (a) are adjusted ~~annually~~ in a manner prescribed in Section 1859.71 and are eligible for Excessive Cost Hardship Grant(s) pursuant to Section 1859.83 (a), (b) and (d). The district may be eligible for the funding provided to initiate and enforce a LCP as prescribed in Section 1859.71.4.

The Joint-Use Grant amounts provided in this Section and Section 1859.125.1, if applicable, shall be deemed the full and final apportionment for the application. Any costs incurred by the district beyond the Joint-Use Grant amount and the Joint-Use Partner(s) financial contribution pursuant to Section 1859.127, shall be the responsibility of the district and/or the Joint-Use Partner(s).

Note: Authority cited: Sections 17070.35 and 17075.15, Education Code.

Reference: Sections 17077.40, 17077.42 and 17077.45, Education Code.

Amend Regulation Section 1859.125.1 as follows:

Section 1859.125.1. Additional Type II Joint-Use Project Extra Cost Grant.

In addition to the square footage Joint-Use Grant provided in Section 1859.125, a Type II Joint-Use Project may receive funding for Extra Cost equal to the lesser of (a) or (b):
(a) An amount determined by subtracting (a)(2) from (a)(1):
(1) The sum of the following:
(A) 50 percent of the estimated cost to construct the Joint-Use Project.
(B) 50 percent of site development work that meets the following criteria:
1. It is necessary and applicable to the Joint-Use Project.
2. It meets the requirements of Section 1859.76(a) and/or (c).
3. It is considered excessive site development costs and not eligible for funding under the Qualifying SFP New Construction Project pursuant to Section 1859.123.
4. The district did not receive funding for the site development work under Section 1859.125.
(2) The sum of the following:
(A) $173.30 for the Toilet Facilities in the Joint-Use Project.
(B) $96.30 for the non-Toilet Facilities in the Joint-Use Project.
(b) An amount determined by subtracting (b)(2) from (b)(1):
(1) $1 million if the Joint-Use Project will be located on a school site that is or will be serving Elementary School Pupil(s). $1.5 million if the Joint-Use Project will be located on a school site that is or will be serving Middle School Pupil(s). $2 million if the Joint-Use Project will be located on a school site that is or will be serving High School Pupils.
(2) The Joint-Use Grant amount determined in Section 1859.125 based on square footage, if applicable.

If the district is requesting funding for site development work applicable to the Joint-Use Project, the district must submit a detailed cost estimate and appropriate DSA approved plans with the Form SAB 50-07. The cost estimate

must include appropriate justification documents that indicate the work is necessary to complete the Joint-Use Project and conform to the requirements in Section 1859.76.

(Continued on Next Page)

Utility service(s) cost shall be prorated, if necessary, for any excess capacity not needed to service the Joint-Use Project.

The amounts shown in (a) are adjusted ~~annually~~ in a manner prescribed in Section 1859.71. The district may be eligible for the funding provided to initiate and enforce a LCP as prescribed in Section 1859.71.4.

The Joint-Use Grant amount provided in this Section and Section 1859.125, if applicable, shall be deemed the full and final apportionment for the application. Any costs incurred by the district beyond the Joint-Use Grant amount and the Joint-Use Partner(s) financial contribution pursuant to Section 1859.127, shall be the responsibility of the district and/or the Joint-Use Partner(s).

Note: Authority cited: Sections 17070.35 and 17075.15, Education Code.

Reference: Sections 17077.40, 17077.42 and 17077.45, Education Code.

Amend Regulation Section 1859.145 as follows:

Section 1859.145. Preliminary Apportionment Determination.

The Preliminary Apportionment shall be equal to the sum of the following:
(a) The amounts shown below for each pupil included in a Preliminary Application:
(1) $5,226.82 for each elementary school pupil.
(2) $5,533.65 for each middle school pupil.
(3) $7,225.94 for each high school pupil.
(4) $16,653.06 for each pupil that is a Severely Disabled Individual with Exceptional Needs.
(5) $11,137.37 for each pupil that is a Non-Severely Disabled Individual with Exceptional Needs.
(b) An amount equal to 12 percent of the amount determined in (a) for multilevel construction, if requested by the district.
(c) An amount equal to one-half of the site acquisition value determined in Section 1859.145.1.
(d) An amount for site development cost determined, at the option of the district, by one of the following:
(1) One-half of the Site Development Cost for the specific site as authorized by Section 1859.76.
(2) One-half of the Site Development Cost as authorized by Section 1859.76 using historical information in the General Location. Historical information that may be considered to determine this estimated cost may include prior SFP projects of the district or other districts in the General Location.
(3) $70,000 multiplied by the proposed acres requested on the Form SAB 50-08 or Form SAB 50-09, as appropriate.
(e) If the Preliminary Application request is for a small new school on a site with no existing school facilities, an amount equal to the difference in the amount determined in (a) and the amount shown in the Chart in Section 1859.83(c). To determine the number of classrooms in the proposed project, divide the number of pupils requested on Form SAB 50-08 or Form SAB 50-09, as appropriate, by 25 for elementary school pupils, 27 for middle and high school pupils, 13 for Non-Severely Disabled Individuals with Exceptional Needs and 9 for Severely Disabled Individuals with Exceptional Needs. Round up.
(f) An amount due to urban location, security requirements and impacted site equal to 15 percent of the amount determined in (a) for a site that is 60 percent of the CDE recommended site size plus 1.166 percent for each percentage decrease in the CDE recommended site size below 60 percent when the following criteria are met:
(1) The district has requested an increase for multilevel construction pursuant to (b) above.
(2) The Useable Acres of the existing and/or proposed site are 60 percent or less of the CDE recommended site size, determined multiplying the sum of the pupil grants requested on Form SAB 50-08 or Form SAB 50-09, as

appropriate, and the current CBEDS enrollment on the site (if applicable) by .01775 for elementary school pupils, .021 for middle school pupils and .02472 for high school pupils. For purposes of this calculation, assign

(Continued on Next Page)

Severely Disabled Individuals with Exceptional Needs and Non-Severely Disabled Individuals with Exceptional Needs pupil grants requested on Form SAB 50-08 or Form SAB 50-09, as appropriate, as either elementary, middle or high school pupils based on the type of project selected by the district on Form SAB 50-08 or Form SAB 50-09, as appropriate. For purposes of COS projects, if the site for which the Preliminary Apportionment is requested is a Source School, for purposes of assigning Qualifying Pupils in the Preliminary Application, subtract those Qualifying Pupils from the current CBEDS enrollment on the site before completing this calculation.

(3) The value of the property as determined in Section 1859.145.1(a) is at least $750,000 per Useable Acre. This criterion does not apply to an application for an addition to an existing school site.

(g) An amount for the geographic location of the proposed project equal to the sum of the amounts determined in (a), (b), (d)(3), (e) and (f) multiplied by the indicated percentage factor in the Geographic Percentage Chart shown in Section 1859.83(a).

(h) For purposes of COS projects, an amount equal to 12 percent of the sum of the amounts determined in (a) through (g) for all Preliminary Applications received no later than May 1, 2003. For purposes of Charter School projects, an amount equal to 12 percent of the sum of the amounts determined in (a) through (g) for all Preliminary Charter School Applications received no later than March 31, 2003.

(i) If the district qualifies for financial hardship assistance pursuant to Section 1859.81 at the time of submittal of the Preliminary Application, an amount equal to the sum of the amounts determined in (a) through (h) less any district funds determined available for the project pursuant to Section 1859.81(a). Districts must meet the financial hardship criteria pursuant to Section 1859.81 at the time the request is made to convert the Preliminary Apportionment to a Final Apportionment, including an accountability of any district contribution made available at the time of the Preliminary Apportionment was made, in order to continue with financial hardship assistance for the project.

(j) If the district received an apportionment prior to November 5, 2002 pursuant to Section 1859.81.1(e), an amount equal to the sum of the amounts determined in (a) through (i) less the previously authorized apportionment amount.

The amounts shown in (a) shall be adjusted ~~annually~~ in a manner prescribed in Section 1859.71. <u>The district may be eligible for the funding provided to initiate and enforce a LCP as prescribed in Section 1859.71.4.</u>

Note: Authority cited: Sections 17070.35 and 17075.15, Education Code.

Reference: Sections 17075.10, 17078.10 and 17078.24, Education Code.

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, August 27, 2003

GRANT ADJUSTMENTS FOR LABOR COMPLIANCE PROGRAMS

PURPOSE OF REPORT

To apportion funds for projects eligible for grant increases for costs associated with a Labor Compliance Program (LCP).

BACKGROUND

On July 2, 2003, the School Facility Program (SFP) regulations specifying the per pupil grant increase for LCP costs were approved by the State Allocation Board (SAB). The projects shown on the attachments are eligible for the increase. Attachment A represents 264 new construction projects with a total State apportionment of $9,347,148. Attachment B represents 853 modernization projects with a total State apportionment of $18,584,084. The total State apportionment for these adjustments is $27,931,232.

AUTHORITY

Labor Code 1771.7 states in part that the SAB shall increase per pupil grant amounts to accommodate the State's share of the costs of initiating and enforcing a LCP. The law provides that a SFP project is eligible for an increase in the per pupil grant amount if both of the following conditions are met:

- The project was or will be funded from the proceeds of Propositions 47 or from the Kindergarten-University Public Education Facilities Bond Act of 2004, and
- Notice to Proceed for the initial contract for construction of the project was issued on or after April 1, 2003.

Projects apportioned in full which are required to have a LCP in place at the time of the fund release request, may receive an additional one time apportionment for the costs associated with the LCP.

DESCRIPTION

Certification forms were mailed to districts with SFP projects that received adjusted grant funding from Proposition 47 between December 18, 2002 and July 2, 2003. In order to request this grant increase, the district must have been able to certify to the following conditions:

- The District has or will initiate and enforce a LCP that has been approved by the Department of Industrial Relations (DIR); and,
- The projects listed were funded with Proposition 47 funds and the Notice to Proceed for construction was or will be issued on or after April 1, 2003; and,
- The District will submit to the OPSC, at the time of project audit, a copy of the Notice to Proceed, the DIR approved LCP, and expenditure evidence to support the LCP administration.

RECOMMENDATION

Apportion funds for eligible projects listed on Attachments A and B.

PROOF OF SERVICE

(Code Civ. Proc. §§ 1013a, 2015.5)

Re: Prevailing Wage Rate, 01-TC-28
Clovis Unified School District, Claimant
Labor Code Section 1720, et al.
Public Contract Code Section 22022
Title 8, CCR, Section 16000 et al.
Statutes 2001, Chapter 938 et al.
And Affected Parties and State Agencies

I am employed in the City and County of Sacramento, California. I am over the age of eighteen years and not a party to the within action; my business address is 320 W. Fourth Street, Suite 600, Los Angeles, CA 90013.

On October 6, 2003, I served the enclosed **Department of Industrial Relations's Response to Test Claim Amendment,** on the parties listed below, through their attorneys of record, by placing true copies thereof in sealed envelopes addressed as shown below for service as designated below:

(A) By First Class Mail: I am readily familiar with the practice of the Department of Industrial Relations, Office of the Director Legal Unit, for the collection and processing of correspondence for mailing with the United States Postal Service. I caused each such envelope, with first-class postage thereon fully prepared, to be deposited in a recognized place of deposit of the U.S. Mail in Loa Angeles, California, for collection and mailing to the office of the addressee on the date shown herein.

(B) By Personal Service: I caused each such envelope to be personally delivered to the office of the addressee by a member of the staff of the Department of Industrial Relations, Office of the Director Legal Unit, on the date last written below.

(C) By Messenger Service: I am readily familiar with the practice of the Department of Industrial Relations, Office of the Director Legal Unit for messenger delivery, and I caused each such envelope to be delivered to a courier employed by Golden State Overnight, with whom we have a direct billing account, who personally delivered each such envelope to the office of the address at the place and on the date last written below.

(D) By Facsimile Transmission: I caused such document to be served via facsimile electronic equipment transmission (fax) on the parties in this action, pursuant to oral and/or written agreement between such parties regarding service by facsimile by transmitting a true copy to the following fax numbers:

Re: Test Claim 01-TC-28
Clovis Unified School District
Prevailing Wage Rate

Dear Ms. Higashi:

I have received the comments of Department of General Services (DGS) by the Office of Public School Construction, dated September 15, 2003, to which I now respond on behalf of the test claimant.

DGS cites subdivision (b) of Section 17556 incorrectly. The objections stated additionally fail for the following reasons:

1. **The Comments of DGS are Incompetent and Should be Excluded**

Test claimant objects to the Comments of the DGS, in total, as being legally incompetent and move that they be excluded from the record. Title 2, California Code of Regulations, Section 1183.02(d) requires that any:

> "...written response, opposition, or recommendations and supporting documentation shall be signed at the end of the document, under penalty of perjury by an authorized representative of the state agency, with the declaration that it is true and complete to the best of the representative's personal knowledge or information and belief."

The comments of DGS do not comply with this essential requirement.

2. Exclusive Use of Local Funds is Not Realistic

DGS argues that the law does not compel a district to obtain funding from the State as a condition of building schools, school districts may choose to build facilities through the use of district raised funds. The use of locally raised funds is not realistic.

(a) Districts' Ability to Borrow is Strictly Limited

The authority to issue local school bonds is found in Chapter 1 of Part 10 in Division 1 of Title 1 of the Education Code, commencing at Section 15100. This authority is strictly limited.

Education Code Section 15100 allows a district, when in its judgment it is advisable, and requires it, upon a petition of the majority of its qualified electors, to order an election and submit to the electors of the district the question whether the bonds of the district shall be issued and sold for the purpose of raising money for the purchase of school lots, the building or purchasing of school buildings and the making of alterations or additions to school buildings. Section 15102 provides that such bonded indebtedness shall not exceed 1.25 percent of the taxable property of the district. Section 15106 provides that unified school districts or community college districts may not exceed 2.5 percent of the taxable property of the district.

Chapter 1.5 of Part 10 sets forth the Strict Accountability in Local School Construction Bonds Act of 2000, commencing with Section 15264. ("Proposition 39 bonds") Here again, bonded indebtedness is strictly limited.

Section 15266 provides that the Act is an alternative to authorizing and issuing bonds pursuant to Chapter 1 or Chapter 2 (commencing with Section 15300) when the governing board of a school district or community college district decides, pursuant to a two-thirds vote, to pursue the authorization and issuance of bonds for school facilities. Section 15268 provides that such bonded indebtedness shall not exceed 1.25 percent of the taxable property of the district and may only be issued if the tax rate levied would not exceed thirty dollars ($30) per year per one hundred thousand dollars ($100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIIIA of the California Constitution. Section 15270 provides that a unified school district may not authorize or issue bonds that exceed 2.5 percent of the taxable property of the district and may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a unified school district, would not exceed sixty dollars ($60) per year per one hundred thousand dollars ($100,000) of taxable property when assessed valuation is projected by the district to

increase in accordance with Article XIIIA of the California Constitution.

Chapter 2 of Part 10 sets forth the Bonds of School Facilities Improvement Districts Act, commencing with Education Code Section 15300. Here again, bonded indebtedness is strictly limited.

Section 15300 provides that the chapter provides a method for the formation of school facilities improvement districts consisting of a portion of the territory within a school district or community college district and for the issuance of general obligation bonds by the school facilities improvement district. Section 15330 provides that the total amount of bonds issued shall not exceed 1.25 percent of the taxable property of the school facilities improvement district. Section 15334.5 further provides that no bonded indebtedness may be incurred pursuant to this chapter in an amount that would cause the bonded indebtedness of the territory of the school district or community college district of which the school facilities improvement district is a part, to exceed the limitation of indebtedness specified in Sections 15102 and 15106.

To the extent school districts and community college districts already have bonded indebtedness at or near these limits, the argument of DGS that these districts need not apply for state funding and may build urgently needed[1] school facilities through the use of district raised funds is specious reasoning.

(b) The Legislative History of School Finance Legislation Shows an Intent of the Legislature that the State Should Provide the Financing For Schools

A review of the legislative history of school finance shows that the Legislature knows that the State must bear the major burden of financing the construction of new school facilities.

Chapter 4 of Part 10 of Division 1 of Title 1 of the Education Code sets forth the State School Building Aid Law of 1949, commencing with Education Code Section 15700. Section 15700 provides:

> "The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in

[1] In some instances the "need" for new school facilities is created by the state. For example Education Code Section 16047 dictates a minimum square footage per pupil in grades kindergarten through 6th grade; Section 16052 dictates a minimum for grades 7 through 8; and Section 16054 dictates a minimum for grades 9 through 12.

providing necessary and adequate school sites and buildings for the pupils of the public school system, the system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

In adopting this act, the Legislature considers that the great need in school construction is for adequate classrooms for the education of the pupils of the public school system...To the end that school classrooms may be made available at once and to all school districts in need of such classrooms..." (emphasis supplied)

Section 15704 requires the State Allocation Board to adopt rules which gives:

"...priority in allocating funds to districts to those districts where the children will benefit most from additional schoolhouse facilities...based on acuteness of overcrowding, on sudden growth in attendance, on amount of local tax funds expended for housing of a character within the purposes of this chapter, and on the time the district's application has been ready for allotment..."

Chapter 6 contains the State School Building Aid Law of 1952, commencing with Education Code Section 16000. Section 16001 provides:

"The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary schoolsites and buildings for the pupils of the public school system, this system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

In adopting this chapter, the Legislature considers that the great need in school construction is for classrooms for the education of the pupils of the public school system...To the end that school classrooms may be made available at once and to all school districts in need of such classrooms..." (emphasis supplied)

Section 16007 requires the State Allocation Board to adopt rules which would:

"...give priority in allocating funds to districts to those districts where the children will benefit most from additional schoolhouse facilities...based on acuteness of overcrowding, on rapidity of growth in attendance, and on the time the district's application has been ready for allotment..."

Article 3 of Chapter 6, contains provisions for School Housing Aid for Exceptional Children, commencing with Education Code Section 16190. Section 16190 provides:

> "The board may make apportionments...from any state bonds heretofore or hereafter authorized by the electorate for state school building aid...for assistance to school districts in providing necessary housing and equipment for the education of exceptional children."[2]

Section 16196 provides that:

> "...Except as otherwise provided in this section, not more than 50 percent of the amount of any apportionment made pursuant to this section shall be repaid..."

Article 4 of Chapter 6, commencing with Section 16210, is entitled School Housing Aid For Compensatory Education Purposes. Section 16210 sets aside $35 million dollars of the proceeds of the sale of bonds authorized by the State School Building Aid Bond Law of 1966 to assist school districts. Section 16210 provides:

> "...The Director of Compensatory Education may establish priorities for purposes of allocations and grants under this article based upon comparative needs of school districts and the urgency thereof. No interest shall be charged to a school district for an allocation or grant made under this article to the school district..."

Section 16211 provides that grants may be made to:

> "...districts...maintaining schools for kindergarten, or any of grades 1 to 6, inclusive...which have reduced the number of pupils to full-time equivalent classroom teachers in kindergarten and any of grades 1 to 6, inclusive, in those schools to a ratio of 25 to 1, or better. The grants shall be made for...¶...any of the following:
>
> (a) Acquisition, by purchase or lease, and the installation and equipping of portable classrooms for classroom instructional purposes.

---

[2] Education Code Section 16191 defines "exceptional children" to mean "physically handicapped pupils, mentally retarded pupils, educationally handicapped pupils, multihandicapped pupils, or pupils enrolled in development centers for the handicapped required or allowed to be educated pursuant to Part 30 (commencing with Section 56000)."

(b) Acquisition of land for schoolsites.

(c) Construction and equipping of permanent school buildings and facilities.

(d) Reconstruction, renovation or remodeling of existing school buildings and facilities.

(e) Any combination of the above."

Section 16212 allows:

> "In lieu of grants to districts pursuant to subdivision (a) of Section 16211...the board may expend moneys available for grants under this article for the acquisition of portable buildings and facilities and equipment by the state, and thereafter convey the same to the eligible districts...(in) the form of sale, lease, outright grant, or other suitable form of conveyance, as determined by the board."

Section 16214 provides:

> "For each school district which receives a grant or allocation pursuant to this article...the Controller shall compute an amount equal to one cent ($0.01) on each one hundred dollars ($100) of the assessed valuation of property within the district...(¶)...The Controller shall make the computations and deductions required by this section for 30 fiscal years or until the time as the total of the amounts so deducted equal 50 percent of the amount of the grant or allocation which was made to the school district, whichever first occurs...(¶)...the maximum rate of school district tax for the school district for which the computation is made shall be increased by one cent ($0.01) per each one hundred dollars ($100) of the assessed value of property within the district..."

Article 5 of Chapter 6, commencing with Education Code Section 16230, sets forth the provisions for School Housing Aid For Districts Impacted by Seasonal Agricultural Employment. Section 16230 sets aside $1,500,000 of the proceeds of bonds issued under the State School Building Aid Bond Law of 1966:

> "...for the acquisition of portable school and classroom buildings (and) may be made available by the board, upon the recommendation of the Director of Compensatory Education, to any school district which, because of the influx for temporary periods in the school year of large numbers of persons employed in seasonal agricultural work, experiences emergency increases in school enrollments of such magnitude as to make it impossible or

impractical to accommodate the additional pupils in existing school buildings and facilities available to the district."

Section 16231 provides:

"...The use of the portable school and classroom buildings may be made available to a school district by letting the same to the district free of charge, or by lease, or by conveying the same to the district under lease-purchase agreement, sale, or outright grant, as determined by the State Allocation Board upon consultation with, and the advice of, the Director of Compensatory Education..."

Article 7 of Chapter 6, commencing with Education Code Section 16260, provides for the Children's Center Construction Law of 1968.

Section 16261 states:

"The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to provide assistance to school districts and to county superintendents of schools for the construction of children's center facilities. Children's centers are of general concern and interest to all the people of the state, and the education and care of children of working parents are a joint obligation of both the state and local agencies operating children's centers..." (emphasis supplied)

Section 16263 requires:

"...The board shall adopt any rules and regulations (which) shall establish a system of priorities (and) give special consideration to school districts...containing substantial numbers of families who are recipients of aid to families with dependent children or who are former or potential recipients of the aid..."

Section 16272 provides for matching funds:

"For each one dollar ($1) of money allocated to a local agency which is expended for a project, the local agency shall expend local funds for the project in an amount which bears the same percentage to the one dollar ($1) as the modified assessed valuation per unit of the average daily attendance of the local agency bears to the statewide modified assessed valuation per average daily attendance of all local agencies..."

Article 9 of Chapter 6, commencing with Education Code Section 16310, is entitled School Housing Aid For Rehabilitation and Replacement of Structurally Inadequate School Facilities. Section 16312 states:

> "The Legislature hereby declares that it is in the interest of the state and the people thereof to provide assistance to school districts in rehabilitating or replacing structurally unsafe school facilities inasmuch as the education of children is an obligation of the state, and the obligation carries with it a corresponding responsibility for the physical safety of children while attending school." (emphasis supplied)

Section 16313 states:

> "It is the intent of the Legislature in enacting this article to provide a means through repayable state loans for school districts...to house their pupils in facilities that are structurally safe."

Section 16317 requires the State Allocation Board to adopt rules which:

> "...shall give priority in allocating funds to districts which will benefit most from the reconstruction or replacement of schoolhouse facilities...based on the age and structural safety of existing buildings at the school or schools where the construction or reconstruction will occur, acuteness of overcrowding and density of population in the attendance areas affected, or any other factors that will insure that the greatest need will be served in allocating funds under this article."

Chapter 8 of Part 10 contains the Urban School Construction Aid Law of 1968, commencing with Education Code Section 16700. Section 16701 provides:

> "The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid urban school districts of the state in reconstructing, modernizing, or replacing schoolsites and buildings for pupils of the public school system who are now housed in substandard schools..."

Section 16705 requires the State Allocation Board to adopt rules which:

> "...shall give priority in allocating funds to urban districts to those districts where the children will benefit most from schoolhouse facilities...based upon the age of existing buildings and the acuteness of overcrowding at

> the school or schools where the construction or reconstruction will occur, the density of population in the attendance areas affected, or any other factors that will insure that the greatest need will be served."

Section 16720 provides for repayment:

> "Each district to which an apportionment or apportionments has been made under this chapter shall repay a portion or all of the principal amount of such apportionment or apportionments and the accrued interest thereon in 30 equal annual payments, as shall be determined by the Controller pursuant to this section...(¶)...In any year, beginning with the 1981-82 fiscal year, in which the annual repayment exceeds the amount which may be raised by a levy of 0.0075 percent of the full value in the district,...the Controller shall grant a deferment of the annual repayment which is in excess of the amount that would be produced by a tax of 0.0075 percent of the full value of the district..."

Chapter 12 of Part 10 establishes the "Leroy F. Greene State School Building Lease-Purchase Law of 1976", commencing with Section 17000. Section 17001 states:

> "(a) The Legislature hereby declares that it is in the interest of the state and the people thereof for the state to reconstruct, remodel, or replace existing school buildings that are educationally inadequate or that do not meet present-day structural safety requirements, and to acquire new schoolsites and buildings for the purpose of making them available to local school districts for the pupils of the public school system, that system being a matter of general concern <u>inasmuch as the education of the children of the state is an obligation and function of the state.</u>"

Article 11 of the Leroy F. Greene School Facilities Act of 1998, commencing with Education Code Section 17078.10, provides for:

> " (c) ..."preliminary apportionment"... for eligible applicants with critically overcrowded schools in advance of full compliance with all of the application requirements otherwise required for an apportionment pursuant to this chapter..."

Chapter 14 of Part 10, commencing with Education Code Section 17085 is entitled the "Emergency School Classroom Law of 1979" and is cited as the State Relocatable Classroom Law of 1979. Section 17086 states:

> "...the Legislature recognizes that the ad valorem tax is no longer available

> as a source of revenue for the construction of necessary school facilities. The Legislature considers that the greatest need in school construction is for classrooms for the education of public school pupils. It is the intent of the Legislature to satisfy this primary need to the greatest extent possible before providing any additional educational facilities, regardless of how desirable such additional facilities may be."

Chapter 15 of Part 10, commencing with Section 17100, established the School District Revenue Bond Act. This Act is based on the finding of the legislature that:

> "The Legislature hereby finds and declares that the State School Building Lease-Purchase Fund, pursuant to Section 17008, and the proceeds from the sale or lease of surplus school property are the two sources available to school districts to finance the construction of school facilities to relieve overcrowding. However, these sources are still insufficient to meet the construction needs statewide of school districts." (emphasis supplied)

In summary, the last 60 years of legislative history shows repeated and consistent recognition that school districts are unable to meet the school construction needs of their pupils. The history repeatedly reveals an admission that the education of school children is the primary responsibility of the state. The history of the inability of school districts and the obligation of the state to educate children results in the above recited litany of state money for school construction at low or no interest rates, repayment requirements of less than the amounts apportioned, and repayment terms unavailable anywhere else. Education of children is an obligation and function of the state. Classrooms are required to provide that education. Therefore, building classrooms is a state obligation.

3. Non-Legal Compulsion Requires School Districts' Participation

DGS argues that the law does not compel a district to obtain funding from the State as a condition of building schools, school districts may choose to build facilities through the use of district raised funds. This suggestion, however, results in non-legal compulsion in the form of double taxation which is prohibited by *City of Sacramento v. State of California*.(1990) 50 Cal.3d 51, 70-76. (hereinafter, referred to as *Sacramento II*)

Sacramento II Facts:

The adoption of the Social Security Act of 1935 provided for a Federal Unemployment Tax ("FUTA"). FUTA assesses an annual tax on the gross wages paid by covered private employers nationwide. However, employers in a state with a federally "certified"

unemployment insurance program receive a "credit" against the federal tax in an amount determined as 90 percent of contributions made to the state system. A "certified" state program also qualifies for federal administrative funds.

California enacted its unemployment insurance system in 1935 and has sought to maintain federal compliance ever since.

In 1976, Congress enacted Public Law number 94-566 which amended FUTA to require, for the first time, that a "certified" state plan include coverage of public employees. States that did not alter their unemployment compensation laws accordingly faced a loss of both the federal tax credit and the administrative subsidy.

In response, the California Legislature adopted Chapter 2, Statutes of 1978 (hereinafter chapter 2/78), to conform to Public Law 94-566, and required the state and all local governments to participate in the state unemployment insurance system on behalf of their employees.

Sacramento I Litigation

The City of Sacramento and the County of Los Angeles filed claims with the State Board of Control seeking state subvention of the costs imposed on them by chapter 2/78. The State Board denied the claim. On mandamus, the Sacramento Superior Court overruled the Board and found the costs to be reimbursable. In *City of Sacramento v. State of California* (1984) 156 Cal.App.3d 182 (hereinafter *Sacramento I*) the Court of Appeal affirmed concluding, inter alia, that chapter 2/78 imposed state-mandated costs reimbursable under section 6 of article XIII B, and the potential loss of federal funds and tax credits did not render Public Law 94-566 so coercive as to constitute a "mandate of the federal government" under Section 9(b).[3]

In other words, *Sacramento I* concluded that the loss of federal funds and tax credits did not amount to "compulsion".

Sacramento II Litigation

[3] Section 1 of article XIII B limits annual "appropriations". Section 9(b) provides that "appropriations subject to limitation" do not include "Appropriations required to comply with mandates of the courts or the federal government which, without discretion, require an expenditure for additional services or which unavoidably make the provision of existing services more costly."

After remand, the case proceeded through the courts again. In *Sacramento II*, the court held that the obligations imposed by chapter 2/78 failed to meet the "program" and "service" standards for mandatory subvention because it imposed no "unique" obligation on local governments, nor did it require them to provide new or increased governmental services to the public. The Court of Appeal decision, finding the expenses reimbursable, was reversed.

However, the court disapproved its prior ruling in *Sacramento I* which held that the loss of federal funds and tax credits did not amount to "compulsion". Therefore, both state and local governments could levy taxes for their chapter 2/78 coverage obligations without reduction of their article XIII B fiscal limits.

Sacramento II "Compulsion" Reasoning

Plaintiffs argued that the test claim legislation required a clear legal compulsion not present in Public Law 94-566. Defendants responded that the consequences of California's failure to comply with the federal "carrot and stick" scheme were so substantial that the state had no realistic "discretion" to refuse.

In disapproving *Sacramento I*, the court explained:

> "If California failed to conform its plan to new federal requirements as they arose, its businesses faced a new and serious penalty - full, double unemployment taxation by both state and federal governments." (Opinion, at page 74, emphasis added)

Plaintiffs argued that California was not compelled to comply because it could have chosen to terminate its own unemployment insurance system, leaving the state's employers faced only with the federal tax. The court replied to this suggestion:

> "However, we cannot imagine the drafters and adopters of article XIII B intended to force the state to such draconian ends. (¶) ...The alternatives were so far beyond the realm of practical reality that they left the state "without discretion" to depart from federal standards." (Opinion, at page 74)

In other words, failure to comply with the federal requirements was not an acceptable option because it would result in double taxation. Terminating its own system was not an acceptable option because it was so far beyond the realm of practical reality so as to be a draconian response, leaving the state without discretion. The only reasonable alternative was to comply with the new legislation, since the state was practically

"without discretion".

The Supreme Court in *Sacramento II* concluded by stating that there is no final test for a determination of "mandatory" versus "optional":

> "Given the variety of cooperative federal-state-local programs, we here attempt no final test for 'mandatory' versus 'optional' compliance with federal law. A determination in each case must depend on such factors as the nature and purpose of the federal program; whether its design suggests an intent to coerce; when state and/or local participation began; the penalties, if any, assessed for withdrawal or refusal to participate or comply; and any other legal and practical consequences of nonparticipation, noncompliance, or withdrawal." (Opinion, at page 76)

"Kern" Affirms that this is a Form of Non-Legal Compulsion

In *Department of Finance v. Commission on State Mandates* (2003) 30 Cal.4th 727 ("Kern"), the supreme court first made it clear that the decision did not hold that legal compulsion was necessary in order to find a reimbursable mandate:

> "For the reasons explained below, although we shall analyze the legal compulsion issue, we find it unnecessary in this case to decide whether a finding of legal compulsion is *necessary* in order to establish a right to reimbursement under article XIII B, section 6, because we conclude that even if there are some circumstances in which a state mandate may be found in the absence of legal compulsion, the circumstances presented in this case do not constitute such a mandate." (Opinion, at page 736, emphasis in the original)

After concluding that the facts in *Kern* did not rise to the standard of non-legal compulsion, the court affirmed that double taxation or other draconian consequences could result in non-legal compulsion:

> "In sum, the circumstances present *in the case before us* do not constitute the type of non-legal compulsion that reasonably could constitute, in claimants' phrasing, a 'de facto' reimbursable state mandate. Contrary to the situation that we described in (Sacramento II), a claimant that elects to discontinue participation in one of the programs *here at issue* does not face 'certain and severe...penalties' such as 'double...taxation' or other 'draconian' consequences (citation), but simply must adjust to the withdrawal of grant money along with the lifting of program obligations."

(Opinion, at page 754, emphasis supplied to illustrate holding is limited to facts presented)

Therefore, "carrot and stick" situations must still be determined on a case by case basis.

Application of Facts to Law

As noted by DGS, in November 2002, the voters approved Proposition 47, the Kindergarten-University Public Education Facilities Bond Act of 2002, which allocated $8,085,800,000 for new construction and $3,294,200,000 for the modernization of school facilities. This is a state general obligation bond measure to be repaid by taxation levied on all residents of the state, including school district constituents. Also as noted by DGS, if a school district chooses to participate, it is required to initiate and enforce a Labor Compliance Program approved by the Department of Industrial Relations.

DGS suggests that, if a school district wants to build needed new facilities, but does not want to initiate and enforce a Labor Compliance Program, the district has the discretion to build those facilities through the use of district raised funds. These new "district raised funds" would need to be repaid from taxes raised only from the constituents of that school district. Any "election" to use district funds does not relieve the residents of that district from still paying taxes to reduce the state bonds. The citizens of that district would then be required to pay taxes both to the state to repay the state bonds, and to the district to repay the district raised funds. Net result: double taxation.

The only reasonable alternative to school districts is to use available Proposition 47 state funds and to enforce a labor compliance program. The facts presented in this case constitute the type of non-legal compulsion that reasonably would constitute a 'de facto' reimbursable state mandate.

4. Government Code Section 17556(d) Does Not Apply to Construction Funding

DGS offers Government Code Section 17556, subdivision (d)[4] for the proposition that test claimants are precluded from recovery because any new construction costs can be paid for by local bonds, sale of surplus property or other revenue sources, including

[4] Government Code Section 17556, subdivision (d), precludes a finding of mandated costs if the school district has the authority to levy service charges, fees or assessments sufficient to pay for the mandated program or increased level of service.

developer fees. Bond revenues, sales proceeds and developer fees are not service charges, fees or assessments to the consumer of public services.

In addition, Section 17556 presupposes the existence of a mandate which is contrary to the state's position. Also, subdivision (d) refers to the levy of service charges, fees and assessments against students. The levy of service charges, fees and assessment against students for any aspect of public education would be constitutionally prohibited by Article 9, Section 5, of the California constitution which requires the state to provide free schools.

In addition, the California Department of Education has issued Fiscal Management Advisory 97-02[5] which makes it quite clear that tuition, fees, deposits and other charges may only be made when specifically authorized by law. The examples set forth in the advisory clearly demonstrate that the tuition, fees, deposits and other charges referred to in Government Code Section 17556, subdivision (d) clearly do not encompass sources for the construction of school facilities.

In conclusion, the response of the DGS should be ignored as legally incompetent for its failure to comply with Section 1183.02 of Title 2, California Code of Regulations. In addition, the test claim should be approved as submitted because the comments of DGS are both factually and legally incorrect.

CERTIFICATION

I certify by my signature below, under penalty of perjury under the laws of the State of California, that the statements made in this document are true and complete to the best of my own personal knowledge or information and belief.

Sincerely,

Keith B. Petersen

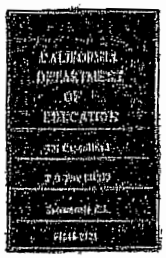
EXHIBIT A
CALIFORNIA DEPARTMENT OF EDUCATION
FISCAL MANAGEMENT ADVISORY 97-02

1550

BELAINE EASTIN
State Superintendent of Public Instruction



FISCAL MANAGEMENT ADVISORY 97-02

October 30, 1997

TO: County and District Superintendents

FROM: Patrick Keegan, Deputy Superintendent
Finance, Technology, and Information Services

SUBJECT: Fees, Deposits, and Other Charges

School district administrators frequently ask the Department to provide additional guidance on the matter of fees. This Advisory which supersedes Fiscal Management Advisory 87-03 is provided for that purpose, and reflects the most recent legislation and California Supreme Court interpretations. The following narrative contains a number of conclusions based on legal references. Most of these references are to a particular case or opinion. Those conclusions without attribution represent the opinions of the Department's Legal Office.

TUITION, FEES, DEPOSITS, AND OTHER CHARGES IN CALIFORNIA PUBLIC SCHOOLS, K-12 AND ADULT SCHOOLS

I. A Free Public School System

> "A pupil enrolled in a school shall not be required to pay any fee, deposit, or other charge not specifically authorized by law."[1]

With this language the State Board of Education made clear that fees are not to be imposed except where specifically authorized by law. This administrative regulation, or "law" of the State Board was promulgated based on the authority of Article IX, Section 5 of the California Constitution. Article IX, Section 5 provides for a free school system:

> "The Legislature shall provide for a system of common schools by which a free school shall be kept up and supported in each district at least six months in every year, after the first year in which a school has been established."

The State Supreme Court in 1874 held that this provision entitled students to be educated at public expense.[2]

The Attorney General has, in several opinions, [3]consistently ruled that school districts do not have authority to levy fees for any elective or compulsory class. Further, districts may not require security deposits for locks, lockers, books, class apparatus, musical instruments, uniforms, or other equipment.

The administrative regulation noted above prohibited fees except those "...specifically authorized by law." Certain fees have been authorized by law since the rule was promulgated.

The 1984 California Supreme Court decision, Hartzell v. Connell,[4] raises serious questions about the imposition of a non-statutory fee for extracurricular activities. The lead opinion acknowledges that fees may be charged for "recreational" activities but not for "educational" activities. Extracurricular activities are described in the opinion as an integral component of public education; they are a part of the educational program according to this decision.

The court held that the "...imposition of fees for educational activities offered by public high school districts violates the free school guarantee. The constitutional defect in such fees can neither be corrected by providing waivers to indigent students nor justified by pleading financial hardship."

---

[2]Wade v. Flood, 48 Cal. 36, 51 (1874)
[3]Ops. Cal. Atty. Gen. No. NS-4114, 1942
[4]35 Cal. 3d 899 (1984)

II. Fees Authorized by Law

The Education Code specifically authorizes certain fees. Except for home to school transportation fees discussed later, none of those Code sections have been challenged and the Hartzell v. Connell decision did not directly rule on their legality. Therefore, districts may continue to levy fees as authorized in the following Education Code sections:

A. Fees that a district may collect for furnishing materials to a pupil for items the pupil has fabricated from such materials for his or her own use. Such fees may not exceed cost. (Education Code section 39526)

B. Fees that a district may charge pupils for transportation to and from school under limited circumstances. (Education Code sections 38028, 39807.5 and 39837)

C. Charges for food served to pupils. (Education Code sections 39870-39874, 39876)

D. Charges to the parent or guardian of any pupil who loses a book, defaces books or other school property. Liability limits for lost items or damage are adjusted annually by the State Superintendent of Public Instruction pursuant to statute. (Education Code section 48904)

E. Charges for field trips or excursions, principally for transportation. The authority to charge a fee for field trips or excursions is not directly stated in the Education Code. Rather, it provides that "No pupil shall be prevented from making the field trip or excursion because of lack of sufficient funds." (Education Code section 35330)

F. Districts must make medical, hospital, or accident insurance available to pupils who may be injured while participating in field trips. The cost of the insurance may be paid by the pupil or his parents. (Education Code section 35331)

G. Governing boards may expend from the general fund of the district any money which is budgeted for community services to establish and maintain community service classes. They may charge student fees not to exceed the cost of maintaining such classes. (Education Code section 51815)

H. A governing board may charge a tuition fee to adults for any class except classes in English and citizenship for foreigners, classes in elementary subjects, and classes for which high school credit is granted when taken by a person not holding a high school diploma. (Education Code section 52612)

I. Districts must provide, and each member of an athletic team must have, accidental death, injury and medical insurance coverage. The cost of such insurance may be paid by the pupil unless the pupil is unable to pay for such insurance. (Education Code sections 32220-32224)

J. A school district may require a deposit from a borrower of school band instruments, music, uniforms, and other regalia for use on an excursion to a foreign country. (Education Code section 40015)

K. Pupils whose parents are actual and legal residents of an adjacent foreign country or an adjacent state shall be charged a tuition fee. (Education Code sections 48050 and 48052)

L. The regulations of the governing board may provide for the sale of materials purchased from the incidental expense account to pupils in classes for adults, for use in connection with such classes. The proceeds of all such sales shall be deposited in that account (Education Code section 52615). A high school district board may charge for textbooks used in classes for adults or impose a refundable deposit on loaned books. (Education Code section 60410)

M. The governing board of a school district may sell class material to persons enrolled in classes for adults. This may include materials necessary for the making of articles by students enrolled in adult education. The materials shall be sold at not less than the cost to the district; any article made shall be the property of the person who made it. (Education Code section 39527)

N. The governing board of any elementary, high, or unified school district may charge a fee for school camp programs, provided that payment of such fee is not mandatory. No pupil shall be denied the opportunity to participate in a school camp program because of non-payment of the fee. (Education Code section 35335)

O. Families utilizing child care and development services shall be charged a fee by the school district, but no fees shall be assessed against families whose children are enrolled in the state preschool program, or for such services provided to severly handicapped children (Education Code sections 8263(e)(f) and 8250(d).). Standards for fees appear in Education Code section 8265. The school district may also impose a fee for a program of supervision of children before and after school. (Education Code section 8487 and 8488)

P. School districts may offer a fingerprint program for children in kindergarten or newly enrolled children and shall assess a fee to the parent or guardian who chooses to participate. (Education Code section 32390)

III. District Obligation to Provide Without Charge

The opinions of the Attorney General mentioned earlier indicate that charges may not be levied for the following:

A. A deposit in the nature of a guarantee that the district would be reimbursed for loss to the district on account of breakage, damage to, or loss of school property.

B. An admission charge to an exhibit, fair, theater or similar activity for instruction or extracurricular purposes when a visit to such places is part of the district's educational program.

C. A tuition fee or charge as a condition to enrollment in any class or course of instruction, including a fee for attendance in a summer or vacation school, a registration fee, a fee for a catalog of courses, a fee for an examination in a subject, a late registration or program change fee, a fee for the issuance of a diploma or certificate, or a charge for lodging.

D. Membership fees in a student body or any student organization as a condition for enrollment or participation in athletic or other curricular or extracurricular activities sponsored by the school.

E. Education Code section 48053 prohibits charging an apprentice, or his or her parents or guardian, for admission or attendance in any class.

F. Textbooks and workbooks must be furnished without charge by elementary and high school districts except for classes for adults. A charge may not be made for their use (Education Code sections 60070 and 60410).

Education Code section 40011 provides:

> "Writing and drawing paper, pens, inks, blackboard erasers, crayons, lead pencils, and other necessary supplies for the use of the schools, shall be furnished under direction of the governing board of the school district."

The Attorney General has issued an opinion interpreting this language. He was asked specifically whether a student could be required to furnish any or all of the following:

A. Art material for art classes and mechanical drawing sets

B. Cloth to be used in dressmaking classes and wood for carpentry classes

C. Gym suits and shoes for physical education classes

D. Bluebooks in which to write a final examination

E. Paper on which to write a theme or report when such theme or report is a required assignment.

The Attorney General concluded that all the above-mentioned materials were "necessary supplies" and as such had to be furnished by the school district. He reasoned that the articles listed in A, B, C, and D, "appear to be supplies that must be available to students in order to participate in regular classroom work in the particular subjects involved." As to E, the Attorney General stated that "paper to be used on which to write a theme or report must also be furnished when required as a part of the classroom activity."[5]

The Attorney General limited his discussion to the questions specifically asked and did not state what materials a district is not obligated to furnish. However:

> "[s]upplies,...must be furnished free of cost to students when the supplies are what might be termed 'school supplies' and are necessary in order for the students to pursue a course of study."

The Attorney General's use of the term "school supplies" is meant to exclude from the district's obligation those items or materials which, although necessary for class participation, are essential regardless of whether or not a person is a student. For example, a school district would not be obligated to furnish corrective lenses, clothes, and so forth. Such items are needed whether or not one is a student.

Specifically with respect to gym clothes, Education Code section 49066(b) states that: "No grade of a pupil participating in a physical education class, however, may be adversely affected due to the fact that the pupil does not wear standardized physical education apparel where the failure to wear such apparel arises from circumstances beyond the control of the pupil," such as, for example, lack of funds.

It should be determined whether a fee for a particular item is specifically authorized by statute. If not, it should be determined whether a particular item is required by law to be furnished free or whether it comes under the category of "necessary supplies." If it does, then the district must furnish the item without charge.

It is the position of the Department that a school district may require its students to purchase their own gym clothes of a district specified design and color so long as the design and color are of a type sold for general wear outside of school. Once the required gym uniforms become specialized in terms of included logos, school name or other characteristics not found on clothing for general use outside of school, they are school supplies and the district must provide those uniforms free of charge.

It is the opinion of the Department's legal office that a school district may not charge a fee or require students to purchase necessary materials even if the

[5]Ops. Cal Atty. Gen. No. NS-4414, 1942

district maintains a special fund to assist students with financial need or waives such fee or charge for students with financial need. The fee or charge still remains a condition for all other students not so assisted. The court in Hartzell v. Connell, discussed below, held that a fee-waiver policy for needy students does not save the fee.

IV. Extracurricular Activities

On April 20, 1984, the California Supreme Court decided, in Hartzell v. Connell 35 Cal. 3d 899, that a public school district may not charge fees for educational programs simply because they are denominated "extracurricular." As expressed by the lead opinion, the court concluded that "the imposition of fees as a precondition for participation in non-statutory educational programs offered by public high schools on a noncredit basis violates the free schools guarantee of the California Constitution and the prohibition against school fees contained in Title 5, Section 350 of the California Administrative Code." (now California Code of Regulations).

Some significant observations by the various justices and ramifications of the decision are as follows:

A. The lead opinion was written by Chief Justice Bird with Justices Broussard and Reynoso concurring specifically. The approach taken to the issue by the Chief Justice holds that the free school guarantee extends to all activities which constitute an integral, fundamental part of elementary and secondary education or which amount to necessary elements of any school's activity. The opinion concludes that extracurricular activities constitute an integral component of public education.

B. The lead opinion holds that fee based extracurricular activities are also illegal under Title 5 California Code of Regulations 350 (5 CCR 350) which prohibits the imposition of "...any fee, deposit, or other charge not specifically authorized by law."

C. Apart from the fee issue, this particular holding has wide reaching significance. Along with constitutional provisions and statutes, any regulation adopted by the State Board of Education or Superintendent of Public Instruction is a "law." Education Code section 35160, the so-called "permissive code" authority allows school districts to carry on any activity or act in any manner "...which is not in conflict with or inconsistent with, or preempted by, any law..."

D. As noted above, several provisions of the Education Code permit school districts to impose charges or fees, e.g.: Section 35330 (field trips and excursions), Section 48909 (charge for lost textbook), Section 35335 (school camps), Sections 32220-32224 (requires members of athletic teams to purchase death, accident and hospital insurance), Section 40015 (deposit for use of a school musical instrument), Section 39804 (pupil transportation), and so forth. In

his separate opinion, in which he concurs in the judgment, Justice Kaus raised the question whether, under the decision, any of the statutory fees and charges (Paragraph II, supra) would be unconstitutional. Because none of the statutory fees were in issue, the court made no ruling in that respect. The Hartzell decision is binding precedent for invalidation of any non-statutory fees of the type examined by that court. Except for home to school transportation fees (Section 39807.5), the constitutionality of the statutory fees and charges is yet to be judicially decided.

E. In a footnote the lead opinion states that the: "[e]ducational activities are to be distinguished from activities which are purely recreational in character. Examples of the latter might include attending weekend dances or athletic events." This statement may cause future litigation on the issue of whether the challenged fee based activity is educational or recreational. The issue is complicated by the fact that while citing an athletic event as possibly being recreational, the court invalidated a fee based athletic activity because it was held to be educational. This could be reconciled by interpreting the footnote as allowing a fee if the participation is solely as a spectator.

F. The defendants argued that their fee-waiver policy for needy students satisfies the requirements of the free school requirement. They suggested that the right to be educated at public expense amounts merely to a right not to be financially prevented from enjoying educational opportunities. The court answered that such an argument plainly contradicts the plain free school language of the Constitution.

V. Home to School Transportation Fees

Education Code section 39807.5 allows school districts to charge parents a fee for home to school transportation provided to their children by the district. On a constitutional challenge the California Supreme Court in Arcadia School District v. State Department of Education,[6] upheld the transportation fee statute. According to the court, permitting school districts to charge parents and guardians for the transportation of students to and from school does not violate the California Constitution free school guarantee. Unlike the extracurricular activities held to be free in Hartzell v. Connell (supra), transportation is neither an educational activity nor an essential part of school activity. Home to school transportation is not included within the free school guarantee.

[6] 2 Cal.4th 251 (1992)

VI. Tuition for Summer School.

No statute specifically authorizes tuition for summer school. Therefore, tuition or any fee or charge is prohibited under Section 350 of Title 5 California Code of Regulations (supra at page 1), which according to the court in Hartzell v. Connell (supra), is a law within the meaning of the so-called permissive provisions of Education Code section 35160.

VII. Community Service Classes

The governing board of a school district is authorized to maintain community service classes and to charge fees to cover the costs of maintaining such classes (Education Code sections 51810 and 51815). These classes may be convened at any time during the school year as may be determined by the governing board (Education Code section 51812).

Community service classes are not intended to teach required courses that students in grades K-12 must complete as part of their instructional programs. Community service classes usually include classes in music, drama, art, handicraft, science, literature, nature study, nature contacting, aquatic sports, athletics, and other such classes of general interest to the community (See Education Code, section 51810). These classes are primarily intended for adults and are open only to those minors whom the governing board believes will profit from such classes (Education Code, section 51811). It is the Department's position, therefore, that community service classes may not be used as summer schools for K-12 students, except for the incidental attendance of students with special interest in the subjects being taught.

VIII. Summer Schools Conducted Under Contract by Private Parties

The provisions of law relating to contracts whereby private parties conduct a portion of the educational program are not entirely clear. Neither the California Constitution nor the Education Code specifically prohibits contracts for educational services. Education Code section 35160 authorizes districts to engage in any activity not prohibited by law.

Section 6, Article IX, of the California Constitution prohibits a school district from transferring, directly or indirectly, any part of the public school system, or the placing of any part of the public school system under the jurisdiction of any authority other than a public school authority. This constitutional provision was explained in CTA v. Fullerton.[7] That case involved a school district which let a contract for a private vendor to conduct its driver training program. The court held that the district had not transferred a part of the school system, but only a part of the curriculum. The court's reasoning is that the curriculum is only a function of the system and not a part of the system. This reasoning would seem also to validate contracting for a summer school program. However, in dicussing this constitutional prohibition, the court stated that the Constitution would be violated if the control and management of the driver training program were to be transferred to a private authority. This would be true because the various

[7] 82 Cal.App.3d 249, 1978

administrative units authorized to maintain and administer the curriculum with the public school system constitute, along with the curriculum, a part of the system. Thus, contracting for a summer school program would be valid under Article IX, Section 6 only if the school district maintains exclusive control and management of the educational program.

The requirement for the maintenance of control and management, however, places the contracting district in a legally impossible position when tuition fees are charged. If the contractor providing the program charges tuition the district might thereby be in violation of the prohibition against tuition charges.

IX. Leasing School Buildings for Educational Use.

The Education Code provides authority for school districts to lease, or allow the use of, unneeded school buildings and classroom space, or to enter into joint occupancy or joint use agreements with private entities including private schools. (Education Code sections 39360, 39379, 39380, 39381, 39440, 39444, 39470, and 40040, et seq.)

When authorizing school buildings to be used by another entity for a summer school program, however, the district should consider the following:

A. When leasing to a sectarian organization, the district must avoid violating the religious establishment prohibition of the First Amendment to the United States Constitution. According to the California Attorney General, a school district cannot lease or loan vacant classrooms to a sectarian institution for religious purposes while public school is concurrently in session.[8]

B. The use granted under the Civic Center Act must not result in a monopoly for the benefit of any person or organization. (Education Code section 40041 et seq.) (Effective 1/1/98 renumbered to 38130)

X. Charter Schools.

Education Code section 47605(d) prohibits a charter school from charging tuition, but does not mention fees or other charges. Should it be argued that a certain educationally based fee or other charge is not in the nature of a tuition, the charter school would, nevertheless, be prohibited from assessing them. Although a charter school is exempt from the laws governing school districts (Education Code section 47610), the California Constitution, which is the highest law of the state, cannot be rendered inapplicable by the Legislature. Therefore, any tuition, fee or other charge relating to the charter school's educational program is prohibited by the free school guarantee of the California Constitution Article IX, Section 5, as interpreted in Hartzell v. Connell, supra.

[8]60 Ops. Cal. Atty. Gen. 269

XI. Educational Clinics.

A certified clinic may not charge any fee for services to any pupil or to the parent, guardian, or custodian of any pupil for which the clinic receives reimbursement (Education Code section 58557)

The purpose of this Advisory is to inform school districts and county superintendents of the existing law involving fees in the school and to cite various case and opinions on the subject. Except with respect to citations and references to statutes, regulations and court decisions, this Advisory is merely explanatory and compliance therewith is not mandatory, nor is there any intent to suggest a particular course of action. Each local educational agency should seek the advice of its own legal counsel in the development of local policy.

Questions about this advisory may be directed to the Department's Legal Office at (916) 657-2495.

BEFORE THE

COMMISSION ON STATE MANDATES

STATE OF CALIFORNIA

Test Claim of:	No. 01-TC-28
Clovis Unified School District	Prevailing Wage Rate Labor Code Section 1720 et al. Public Contract Code Section 22022 Title 8, CCR, Section 16000 et al, Statutes of 2001, Chapter 938 et al.

Clovis Unified School District has amended its test claim to include recent amendments to Labor Code section 1771.7. These amendments apply to school and community college districts[1] that choose to finance a public works project with funds from either the

[1] The amendments also apply to state universities and the University of California but, as state agencies, they are not claimants.

Kindergarten-University Public Facilities Bond Act of 2002 or, if approved by the voters, the Kindergarten-University Public Education Facilities Bond Act of 2004.

As amended, Labor Code section 1771.7 requires awarding bodies to initiate and enforce labor compliance programs (LCP) on public works projects financed with funds from the two bond acts. The administration of the LCP can be undertaken with district staff or through a third party contractor. In its First Amended Claim, Clovis merely discusses the text of the legislation and administrative documents implementing the legislation and to describes all the duties required to administer an LCP and to document that it has established and administered an LCP for one of the projects. However, Clovis offers no analysis or proof for the underlying assumption that the new legislation constitutes a state mandate.

This is understandable because the legislation creates no mandate. Section 1771.7 applies only to an "awarding body that chooses to use [specified state bond] funds." (Lab. Code § 1771.7 (a).) A local entity is not required to reimbursement when it is not legally compelled to engage in the underlying practice or program. (*Department of Finance v. Commission on State Mandates* (2003) 30 Cal. 4th 727, 740.) Since school districts are only required to establish LCPs when they choose to use bond funds from either the 2002 or 2004 Bond Acts, the LCP requirements of Section 1771.7 create no mandate because district participation in the underlying program is a voluntary undertaking.

Assuming that Section 1771.7 creates a mandate, the claimants are not entitled to any subvention because they have not shown or attempted to show that the initiation of a Section 1771.7 LCP would result in reimbursable costs.

Apart from the voluntary nature of the program, the State Allocation Board has adopted regulations that increase grants to schools and community colleges which obtain financing through the bond acts. (See Department of Industrial Relations' Response to Amendment, Exhibits F and G.) While these additional funds are based on the percentage of the project that is financed with state bond funds, this does not mean districts would be entitled to the subvention of any additional funds. As the Department of Industrial Relations has shown, LCPs generate revenue and cost savings. Since the State has provided additional revenues and additional revenue sources, there would be no reimbursable costs unless the LCP costs exceeded (1) the additional funds provided by the State Allocation Board regulations, and (2) the costs of the district's pre-existing responsibility to insure its contractors comply with the Prevailing Wage law. The First Amended Claim does not even attempt to show that the costs of Section 1771.7 LCPs exceed the costs of complying with districts pre-existing responsibilities under the prevailing wage law.[2]

In its amended claim, Clovis seeks reimbursement for the costs of contracting to have a third party administer an LCP. Even if Clovis could establish that Section 1771.7 creates a mandate, this would not be appropriate without an analysis and proof that contracting was cost effective because Section 1771.7 does not require districts to contract with third parties to administer an LCP. Contracting with a third party is a voluntary activity and is not a reimbursable activity unless the district could justify the contract as less costly than using district staff to meet its obligation.

---

[2] See the Department of Industrial Relations' and the Department of Finance's initial filings for a discussion of the pre-existing duties of local entities to insure that prevailing wages are paid on public works projects.

CONCLUSION

Labor Code section 1771.7 does not create a state mandate because districts voluntarily participate in the he underlying program, the construction of school with state bond money. Assuming there was a mandate, the State has provided additional funds for the costs of LCPs and LCPs also generate revenues and cost savings. The Claimant has not shown that it has any costs above these additional funds, revenues and cost savings. Even if it could show additional costs, the districts are already required to comply with the Prevailing Wage law. This requirement is not a state mandate. To be eligible for a subvention, the districts would have to show their unfunded LCP costs exceed the district's costs of complying with the Prevailing Wage Law.

Re: Test Claim 01-TC-28
Clovis Unified School District
Prevailing Wage Rate

Dear Ms. Higashi:

I have received the "Response to Test Claim Amendment" dated October 6, 2003 filed by Department of Industrial Relations (DIR) to which I now respond on behalf of the test claimant.

Although none of the objections generated by DIR are included in the statutory exceptions set forth in Government Code Section 17556, the objections stated additionally fail for the following reasons:

DIR objects to the Test Claim Amendment on two grounds: (1) that labor compliance programs are not mandated by the test claim legislation, and (2) that implementation of labor compliance programs potentially increases school district revenues.

I

Adoption of LCPs are Inevitable

DIR argues that "Subvention is *never* required when a local agency engages in (voluntary) acts, even if a funding shortfall results", citing *Department of Finance v. Commission on State Mandates* (2003) 30 Cal.4th 727 ("Kern"). (Emphasis added) Therefore, its argument continues "these mandates flow directly and only from the **voluntary decision** by school districts to seek specific funding. Nothing mandates that decision, and therefore there is no new mandate for any of the claimed increased costs."

(Response, at pages 4-5, bold font in the original)[1]

A. There is no "Practical Alternative" to an LCP

The controlling case law on the subject of non-legal compulsion is still *City of Sacramento v. State of California* (1990) 50 Cal.3rd 51 (hereinafter referred to as *Sacramento II).*

1. *Sacramento II* Facts:

The adoption of the Social Security Act of 1935 provided for a Federal Unemployment Tax ("FUTA"). FUTA assesses an annual tax on the gross wages paid by covered private employers nationwide. However, employers in a state with a federally "certified" unemployment insurance program receive a "credit" against the federal tax in an amount determined as 90 percent of contributions made to the state system. A "certified" state program also qualifies for federal administrative funds.

California enacted its unemployment insurance system in 1935 and has sought to maintain federal compliance ever since.

In 1976, Congress enacted Public Law number 94-566 which amended FUTA to require, for the first time, that a "certified" state plan include coverage of public employees. States that did not alter their unemployment compensation laws accordingly faced a loss of both the federal tax credit and the administrative subsidy.

In response, the California Legislature adopted Chapter 2, Statutes of 1978 (hereinafter chapter 2/78), to conform to Public Law 94-566, and required the state and all local governments to participate in the state unemployment insurance system on behalf of their employees.

2. *Sacramento I* Litigation

The City of Sacramento and the County of Los Angeles filed claims with the State Board of Control seeking state subvention of the costs imposed on them by chapter 2/78. The

[1] DIR also argues that "Test Claimants (sic) have made no showing that "Kern" is at all distinguishable." Test claimant refers DIR to its letter dated September 13, 2003 made in response to DIR's "Supplemental Position Statement and Request For Summary Disposition" dated August 13, 2003, at pages 5-6, where "Kern" is distinguished. Further distinction is provided in this response.

State Board denied the claim. On mandamus, the Sacramento Superior Court overruled the Board and found the costs to be reimbursable. In *City of Sacramento v. State of California* (1984) 156 Cal.App.3d 182 (hereinafter *Sacramento I*) the Court of Appeal affirmed concluding, inter alia, that chapter 2/78 imposed state-mandated costs reimbursable under section 6 of article XIII B, and the potential loss of federal funds and tax credits did not render Public Law 94-566 so coercive as to constitute a "mandate of the federal government" under Section 9(b).[2]

In other words, *Sacramento I* concluded that the loss of federal funds and tax credits did not amount to "compulsion".

3. *Sacramento II* Litigation

After remand, the case proceeded through the courts again. In *Sacramento II*, the court held that the obligations imposed by chapter 2/78 failed to meet the "program" and "service" standards for mandatory subvention because it imposed no "unique" obligation on local governments, nor did it require them to provide new or increased governmental services to the public. The Court of Appeal decision, finding the expenses reimbursable, was reversed.

However, the court disapproved that portion of *Sacramento I* which held that the loss of federal funds and tax credits did not amount to "compulsion". Therefore, both state and local governments could levy taxes for their chapter 2/78 coverage obligations without reduction of their article XIII B fiscal limits.

4. *Sacramento II* "Compulsion" Reasoning

Plaintiffs argued that the test claim legislation required a clear legal compulsion not present in Public Law 94-566. Defendants responded that the consequences of California's failure to comply with the federal "carrot and stick" scheme were so substantial that the state had no realistic "discretion" to refuse.

In disapproving *Sacramento I*, the court explained:

---

[2] Section 1 of article XIII B limits annual "appropriations". Section 9(b) provides that "appropriations subject to limitation" do not include "Appropriations required to comply with mandates of the courts or the federal government which, without discretion, require an expenditure for additional services or which unavoidably make the provision of existing services more costly."

> "If California failed to conform its plan to new federal requirements as they arose, its businesses faced a new and serious penalty - full, double unemployment taxation by both state and federal governments." (Opinion, at page 74)

Plaintiffs argued that California was not compelled to comply because it could have chosen to terminate its own unemployment insurance system, leaving the state's employers faced only with the federal tax. The court replied to this suggestion:

> "However, we cannot imagine the drafters and adopters of article XIII B intended to force the state to such draconian ends. (¶) ...The alternatives were so far beyond the realm of practical reality that they left the state 'without discretion' to depart from federal standards." (Opinion, at page 74, emphasis supplied)

In other words, terminating its own system was not an acceptable option because it was so far beyond the realm of practical reality so as to be a draconian response, leaving the state without discretion. The only reasonable alternative was to comply with the new legislation, since the state was practically "without discretion".

The Supreme Court in *Sacramento II* concluded by stating that there is no final test for a determination of "mandatory" versus "optional":

> "Given the variety of cooperative federal-state-local programs, we here attempt no final test for 'mandatory' versus 'optional' compliance with federal law. A determination in each case must depend on such factors as the nature and purpose of the federal program; whether its design suggests an intent to coerce; when state and/or local participation began; the penalties, if any, assessed for withdrawal or refusal to participate or comply; and any other legal and practical consequences of nonparticipation, noncompliance, or withdrawal." (Opinion, at page 76)

B. Statutory Compulsion is not Required

In *Department of Finance v. Commission on State Mandates* (supra, at page 736) the supreme court first made it clear that the decision did not hold that legal compulsion was necessary in order to find a reimbursable mandate:

> "For the reasons explained below, although we shall analyze the legal compulsion issue, we find it unnecessary in this case to decide whether a finding of legal compulsion is *necessary* in order to establish a right to

> reimbursement under article XIII B, section 6, because we conclude that even if there are some circumstances in which a state mandate may be found in the absence of legal compulsion, the circumstances presented in this case do not constitute such a mandate." (Emphasis in the original, underlining added)[3]

After concluding that the facts in *Kern* did not rise to the standard of non-legal compulsion, the court affirmed that either double taxation or other draconian consequences could result in non-legal compulsion:

> "In sum, the circumstances presented *in the case before us* do not constitute the type of non-legal compulsion that reasonably could constitute, in claimants' phrasing, a 'de facto' reimbursable state mandate. Contrary to the situation that we described in (Sacramento II), a claimant that elects to discontinue participation in one of the programs *here at issue* does not face 'certain and severe...penalties' such as 'double...taxation' or other 'draconian' consequences (citation), but simply must adjust to the withdrawal of grant money along with the lifting of program obligations." (Opinion, at page 754, emphasis supplied to illustrate holding is limited to facts presented)

Therefore, "carrot and stick" situations must still be determined on a case by case basis.

C. Districts' Ability to Borrow is Strictly Limited

DIR simplifies its argument to say that school districts do not have to apply for the construction money made available when the voters approved Proposition 47, the Kindergarten-University Public Education Facilities Bond Act of 2002, which allocated $8,085,800,000 for new construction and $3,294,200,000 for the modernization of school facilities. DIR simply concludes that school districts can go elsewhere (not defined) to find money to use for construction and improvements. This simplistic approach is not realistic.

The authority to issue local school bonds is found in Chapter 1 of Part 10 in Division 1 of Title 1 of the Education Code, commencing at Section 15100. This authority is strictly limited.

---

[3] This, of course, totally disproves DIR's claim that subvention is *never* required when a local agency engages in (voluntary) acts. (Supra)

Education Code Section 15100 allows a district, when in its judgment it is advisable, and requires it, upon a petition of the majority of its qualified electors, to order an election and submit to the electors of the district the question whether the bonds of the district shall be issued and sold for the purpose of raising money for the purchase of school lots, the building or purchasing of school buildings and the making of alterations or additions to school buildings. Section 15102 provides that such bonded indebtedness shall not exceed 1.25 percent of the taxable property of the district. Section 15106 provides that unified school districts or community college districts may not exceed 2.5 percent of the taxable property of the district.

Chapter 1.5 of Part 10 sets forth the Strict Accountability in Local School Construction Bonds Act of 2000, commencing with Section 15264. ("Proposition 39 bonds") Here again, bonded indebtedness is strictly limited.

Section 15266 provides that the Act is an alternative to authorizing and issuing bonds pursuant to Chapter 1 or Chapter 2 (commencing with Section 15300) when the governing board of a school district or community college district decides, pursuant to a two-thirds vote, to pursue the authorization and issuance of bonds for school facilities. Section 15268 provides that such bonded indebtedness shall not exceed 1.25 percent of the taxable property of the district and may only be issued if the tax rate levied would not exceed thirty dollars ($30) per year per one hundred thousand dollars ($100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIIIA of the California Constitution. Section 15270 provides that a unified school district may not authorize or issue bonds that exceed 2.5 percent of the taxable property of the district and may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a unified school district, would not exceed sixty dollars ($60) per year per one hundred thousand dollars ($100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIIIA of the California Constitution.

Chapter 2 of Part 10 sets forth the Bonds of School Facilities Improvement Districts Act, commencing with Education Code Section 15300. Here again, bonded indebtedness is strictly limited.

Section 15300 provides that the chapter provides a method for the formation of school facilities improvement districts consisting of a portion of the territory within a school district or community college district and for the issuance of general obligation bonds by the school facilities improvement district. Section 15330 provides that the total amount of bonds issued shall not exceed 1.25 percent of the taxable property of the school facilities improvement district. Section 15334.5 further provides that no bonded

indebtedness may be incurred pursuant to this chapter in an amount that would cause the bonded indebtedness of the territory of the school district or community college district of which the school facilities improvement district is a part, to exceed the limitation of indebtedness specified in Sections 15102 and 15106.

To the extent school districts and community college districts already have bonded indebtedness at or near these limits, the argument of DIR that these districts need not apply for this new state funding is specious reasoning.

D. The Legislative History of School Finance Legislation Shows an Intent of the Legislature that the State Should Provide the Financing For Schools

A review of the legislative history of school finance shows that the Legislature knows that the State must bear the major burden of financing the construction of new school facilities.

Chapter 4 of Part 10 of Division 1 of Title 1 of the Education Code sets forth the State School Building Aid Law of 1949, commencing with Education Code Section 15700. Section 15700 provides:

> "The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary and adequate school sites and buildings for the pupils of the public school system, the system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.
>
> In adopting this act, the Legislature considers that the great need in school construction is for adequate classrooms for the education of the pupils of the public school system...To the end that school classrooms may be made available at once and to all school districts in need of such classrooms..." (emphasis supplied)

Section 15704 requires the State Allocation Board to adopt rules which gives:

> "...priority in allocating funds to districts to those districts where the children will benefit most from additional schoolhouse facilities...based on acuteness of overcrowding, on sudden growth in attendance, on amount of local tax funds expended for housing of a character within the purposes of this chapter, and on the time the district's application has been ready for allotment..."

Chapter 6 contains the State School Building Aid Law of 1952, commencing with Education Code Section 16000. Section 16001 provides:

> "The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary schoolsites and buildings for the pupils of the public school system, this system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.
>
> In adopting this chapter, the Legislature considers that the great need in school construction is for classrooms for the education of the pupils of the public school system...To the end that school classrooms may be made available at once and to all school districts in need of such classrooms..." (emphasis supplied)

Section 16007 requires the State Allocation Board to adopt rules which would:

> "...give priority in allocating funds to districts to those districts where the children will benefit most from additional schoolhouse facilities...based on acuteness of overcrowding, on rapidity of growth in attendance, and on the time the district's application has been ready for allotment..."

Article 3 of Chapter 6, contains provisions for School Housing Aid for Exceptional Children, commencing with Education Code Section 16190. Section 16190 provides:

> "The board may make apportionments...from any state bonds heretofore or hereafter authorized by the electorate for state school building aid...for assistance to school districts in providing necessary housing and equipment for the education of exceptional children."[4]

Section 16196 provides that:

> "...Except as otherwise provided in this section, not more than 50 percent of the amount of any apportionment made pursuant to this section shall be

---

[4] Education Code Section 16191 defines "exceptional children" to mean "physically handicapped pupils, mentally retarded pupils, educationally handicapped pupils, multihandicapped pupils, or pupils enrolled in development centers for the handicapped required or allowed to be educated pursuant to Part 30 (commencing with Section 56000)."

repaid..."

Article 4 of Chapter 6, commencing with Section 16210, is entitled School Housing Aid For Compensatory Education Purposes. Section 16210 sets aside $35 million dollars of the proceeds of the sale of bonds authorized by the State School Building Aid Bond Law of 1966 to assist school districts. Section 16210 provides:

> "...The Director of Compensatory Education may establish priorities for purposes of allocations and grants under this article based upon comparative needs of school districts and the urgency thereof. No interest shall be charged to a school district for an allocation or grant made under this article to the school district..."

Section 16211 provides that grants may be made to:

> "...districts...maintaining schools for kindergarten, or any of grades 1 to 6, inclusive...which have reduced the number of pupils to full-time equivalent classroom teachers in kindergarten and any of grades 1 to 6, inclusive, in those schools to a ratio of 25 to 1, or better. The grants shall be made for...¶...any of the following:
> (a) Acquisition, by purchase or lease, and the installation and equipping of portable classrooms for classroom instructional purposes.
> (b) Acquisition of land for schoolsites.
> (c) Construction and equipping of permanent school buildings and facilities.
> (d) Reconstruction, renovation or remodeling of existing school buildings and facilities.
> (e) Any combination of the above."

Section 16212 allows:

> "In lieu of grants to districts pursuant to subdivision (a) of Section 16211...the board may expend moneys available for grants under this article for the acquisition of portable buildings and facilities and equipment by the state, and thereafter convey the same to the eligible districts...(in) the form of sale, lease, outright grant, or other suitable form of conveyance, as determined by the board."

Section 16214 provides:

> "For each school district which receives a grant or allocation pursuant to

this article...the Controller shall compute an amount equal to one cent ($0.01) on each one hundred dollars ($100) of the assessed valuation of property within the district...(¶)...The Controller shall make the computations and deductions required by this section for 30 fiscal years or until the time as the total of the amounts so deducted equal 50 percent of the amount of the grant or allocation which was made to the school district, whichever first occurs...(¶)...the maximum rate of school district tax for the school district for which the computation is made shall be increased by one cent ($0.01) per each one hundred dollars ($100) of the assessed value of property within the district..."

Article 5 of Chapter 6, commencing with Education Code Section 16230, sets forth the provisions for School Housing Aid For Districts Impacted by Seasonal Agricultural Employment. Section 16230 sets aside $1,500,000 of the proceeds of bonds issued under the State School Building Aid Bond Law of 1966:

"...for the acquisition of...¶... portable school and classroom buildings (and) may be made available by the board, upon the recommendation of the Director of Compensatory Education, to any school district which, because of the influx for temporary periods in the school year of large numbers of persons employed in seasonal agricultural work, experiences emergency increases in school enrollments of such magnitude as to make it impossible or impractical to accommodate the additional pupils in existing school buildings and facilities available to the district."

Section 16231 provides:

"...The use of the portable school and classroom buildings may be made available to a school district by letting the same to the district free of charge, or by lease, or by conveying the same to the district under lease-purchase agreement, sale, or outright grant, as determined by the State Allocation Board upon consultation with, and the advice of, the Director of Compensatory Education..."

Article 7 of Chapter 6, commencing with Education Code Section 16260, provides for the Children's Center Construction Law of 1968.

Section 16261 states:

"The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to provide assistance to school districts

and to county superintendents of schools for the construction of children's center facilities. Children's centers are of general concern and interest to all the people of the state, and the education and care of children of working parents are a joint obligation of both the state and local agencies operating children's centers..." (emphasis supplied)

Section 16263 requires:

"...The board shall adopt any rules and regulations (which) shall establish a system of priorities (and) give special consideration to school districts...containing substantial numbers of families who are recipients of aid to families with dependent children or who are former or potential recipients of the aid..."

Section 16272 provides for matching funds:

"For each one dollar ($1) of money allocated to a local agency which is expended for a project, the local agency shall expend local funds for the project in an amount which bears the same percentage to the one dollar ($1) as the modified assessed valuation per unit of the average daily attendance of the local agency bears to the statewide modified assessed valuation per average daily attendance of all local agencies..."

Article 9 of Chapter 6, commencing with Education Code Section 16310, is entitled School Housing Aid For Rehabilitation and Replacement of Structurally Inadequate School Facilities. Section 16312 states:

"The Legislature hereby declares that it is in the interest of the state and the people thereof to provide assistance to school districts in rehabilitating or replacing structurally unsafe school facilities inasmuch as the education of children is an obligation of the state, and the obligation carries with it a corresponding responsibility for the physical safety of children while attending school." (emphasis supplied)

Section 16313 states:

"It is the intent of the Legislature in enacting this article to provide a means through repayable state loans for school districts...to house their pupils in facilities that are structurally safe."

Section 16317 requires the State Allocation Board to adopt rules which:

> "...shall give priority in allocating funds to districts which will benefit most from the reconstruction or replacement of schoolhouse facilities...based on the age and structural safety of existing buildings at the school or schools where the construction or reconstruction will occur, acuteness of overcrowding and density of population in the attendance areas affected, or any other factors that will insure that the greatest need will be served in allocating funds under this article."

Chapter 8 of Part 10 contains the Urban School Construction Aid Law of 1968, commencing with Education Code Section 16700. Section 16701 provides:

> "The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid urban school districts of the state in reconstructing, modernizing, or replacing schoolsites and buildings for pupils of the public school system who are now housed in substandard schools..."

Section 16705 requires the State Allocation Board to adopt rules which:

> "...shall give priority in allocating funds to urban districts to those districts where the children will benefit most from schoolhouse facilities...based upon the age of existing buildings and the acuteness of overcrowding at the school or schools where the construction or reconstruction will occur, the density of population in the attendance areas affected, or any other factors that will insure that the greatest need will be served."

Section 16720 provides for repayment:

> "Each district to which an apportionment or apportionments has been made under this chapter shall repay a portion or all of the principal amount of such apportionment or apportionments and the accrued interest thereon in 30 equal annual payments, as shall be determined by the Controller pursuant to this section...(¶)...In any year, beginning with the 1981-82 fiscal year, in which the annual repayment exceeds the amount which may be raised by a levy of 0.0075 percent of the full value in the district,...the Controller shall grant a deferment of the annual repayment which is in excess of the amount that would be produced by a tax of 0.0075 percent of the full value of the district..."

Chapter 12 of Part 10 establishes the "Leroy F. Greene State School Building Lease-Purchase Law of 1976", commencing with Section 17000. Section 17001 states:

> "(a) The Legislature hereby declares that it is in the interest of the state and the people thereof for the state to reconstruct, remodel, or replace existing school buildings that are educationally inadequate or that do not meet present-day structural safety requirements, and to acquire new schoolsites and buildings for the purpose of making them available to local school districts for the pupils of the public school system, that system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state."

Article 11 of the Leroy F. Greene School Facilities Act of 1998, commencing with Education Code Section 17078.10, provides for:

> " (c) ..."preliminary apportionment"... for eligible applicants with critically overcrowded schools in advance of full compliance with all of the application requirements otherwise required for an apportionment pursuant to this chapter..."

Chapter 14 of Part 10, commencing with Education Code Section 17085 is entitled the "Emergency School Classroom Law of 1979" and is cited as the State Relocatable Classroom Law of 1979. Section 17086 states:

> "...the Legislature recognizes that the ad valorem tax is no longer available as a source of revenue for the construction of necessary school facilities. The Legislature considers that the greatest need in school construction is for classrooms for the education of public school pupils. It is the intent of the Legislature to satisfy this primary need to the greatest extent possible before providing any additional educational facilities, regardless of how desirable such additional facilities may be."

Chapter 15 of Part 10, commencing with Section 17100, established the School District Revenue Bond Act. This Act is based on the finding of the legislature that:

> "The Legislature hereby finds and declares that the State School Building Lease-Purchase Fund, pursuant to Section 17008, and the proceeds from the sale or lease of surplus school property are the two sources available to school districts to finance the construction of school facilities to relieve overcrowding. However, these sources are still insufficient to meet the construction needs statewide of school districts." (emphasis supplied)

In summary, the last 60 years of legislative history shows repeated and consistent recognition that school districts are unable to meet the school construction needs of their pupils. The history repeatedly reveals an admission that the education of school

children is the primary responsibility of the state. The history of the inability of school districts and the obligation of the state to educate children results in the above recited litany of state money for school construction at low or no interest rates, repayment requirements of less than the amounts apportioned, and repayment terms unavailable anywhere else. Education of children is an obligation and function of the state. Classrooms are required to provide that education. Therefore, building classrooms is a state obligation.

II
Potential Costs and Revenues

A. The Commission Regulations Do Not Require Detail Program Cost Information.

DIR starts its second argument by stating "Test Claimants (sic) have not provided any information that would lead to the conclusion that Labor Code § 1771.7 in fact will increase costs." (DIR Response, at page 5) Test claimant refers DIR to the Declarations of William McGuire (Associate Superintendent - Business Services of Clovis Unified School District) and Thomas J. Donner (Executive Vice President of Business and Administration of Santa Monica Community College), attached to the Amended Test Claim as Exhibits 6 and 7, wherein each of them states an estimate that his respective district would incur expenses in excess of $1,000, annually. This complies with Government Code Section 17564,[5]

B. "Retained Penalties" are Neither Program Funding, Income or Revenue

DIR then goes on to argue "In making their (sic) bald assertions, Test Claimants (sic) have failed to consider three[6] potential sources of income, which must be counted before making any claim for subvention." The first so-called source is retained penalties a district assesses and collects. (DIR Response at pages 5-6)

Penalties are established to coerce compliance. They also recognize the fact that non-

---

[5] Government Code Section 17564:

"(a) No claim shall be made pursuant to Sections 17551 and 17561, nor shall any payment be made on claims submitted pursuant to Sections 17551 and 17561, unless these claims exceed one thousand dollars ($1,000)..."

[6] DIR only reveals two of these three potential sources.

compliance often results in additional work by the monitoring agency. The statute creating the mandate does not identify these penalties as additional revenue specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the mandate and prevent a finding of costs mandated by the state. Government Code Section 17556, subdivision (e)[7] Of course, to the extent that penalties are collected they would offset the total cost of the LCP. However, the DIR has provided no evidence that these penalties would be sufficient to compensate for the additional compliance oversight work performed by the district. Further, the notion that a sufficient number of contractors will be penalized and a significant cash flow will be generated therefrom is without foundation and cynical at best. School districts are not required to write "speeding tickets" in order to fund mandates.

C. Increased Funding From SAB is Indefinite and Uncertain

The second alleged source is described by DIR as a "steady source of funds available to Test Claimants (sic) in the form of increased funding from SAB." (DIR Response at page 6)

DIR does not identify the money well from which the second "steady source of funds" flows, but Test Claimant will assume, for purposes of argument, that DIR refers to subdivision (e) of Labor Code Section 1771.7 which directs that the State Allocation Board shall increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts as described in Sections 17072.10 and 17074.10 of the Education Code to accommodate the state's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of the labor compliance program." This DIR described "steady source of funds" was incapable of accurate determination when initiated:

---

[7] Government Code Section 17556:

"The commission shall not find costs mandated by the state, as defined in Section 17514, in any claim submitted by a local agency or school district, if, after a hearing, the commission finds that:

...(e) The statute of executive order provides for offsetting savings to local agencies or school districts which result in no net costs to the local agencies or school districts, or includes additional revenue that was specifically intended to fund the costs of the state mandate in an amount sufficient to fund the cost of the state mandate.
(f)..."

"Staff acknowledges the possible validity of both comments. Given the urgency to adopt regulations by July 1, 2003, and given the very sparse data available at this moment, the Committee and Staff agreed the attached regulations should be presented to the SAB now, and that the amount of the per pupil grant should be revised in approximately one year. At that time, information based on actual experience in school districts can be used to recommend an increase or a decrease in the additional per pupil grant for future apportionments." (Report of the Executive Officer entitled "Implementation of Assembly Bill 1506 (Wesson) Grant Adjustments for Labor Compliance Programs" presented at the State Allocation Board Meeting on July 2, 2003), attached to DIR's Response as Exhibit "F".

D. The Test Claim Recognizes the Revenues Potential

Test Claimant recognized both the source and the uncertainty of the source in the test claim:

"Subdivision (e) of new Labor Code Section 1771.7 provides that, notwithstanding Section 17070.63 of the Education Code, for purposes of the act, the State Allocation Board shall increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts as described in Sections 17072.10 and 17074.10 of the Education Code to accommodate the state's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of a labor compliance program. To the extent that funds are appropriated, allocated and received, and relevant to the costs mandated by the state subject to reimbursement, they would reduce the amount of reimbursable costs occasioned by Section 1771.7 and the Executive Orders cited herein." (Test Claim, page 26, lines 7 through 16, emphasis supplied)

Therefore, DIR's argument fails in its entirely, since neither "funding" source meets the requirements of Government Code Section 17556, subdivision (e).

III
Conclusion

In *Sacramento II*, the supreme court found non-legal compulsion because "the alternatives were so far beyond the realm of practical reality that they left the state 'without discretion' to depart from federal standards." In the situation now before the Commission, telling school districts to ignore new state money to build and/or modernize

their schools is so far beyond the realm of practical reality that it cannot be considered. This draconian suggestion is not factually or legally well founded.

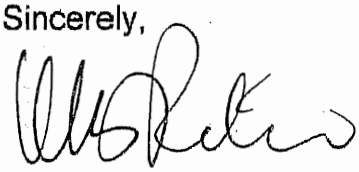
The test claim includes the declarations of two senior school officials which declare that compliance with an LCP will cost in excess of $1,000. Retained penalties are not identified in the test claim legislation as additional revenue specifically intended to fund the costs of the state mandate in an amount sufficient to fund the costs of the mandate. Any increased funding is indefinite, uncertain and without a statutory guaranty that it will be received or be sufficient to cover the costs of the mandate. The test claim recognizes these possible sources of income and clearly states that they will be used to reduce the amounts claimed.

Therefore, Test Claimant moves the Commission to find that the test claim legislation does, in fact and law, create a reimbursable mandate.

CERTIFICATION

I certify by my signature below, under penalty of perjury under the laws of the State of California, that the statements made in this document are true and complete to the best of my own personal knowledge or information and belief.

Sincerely,



Keith B. Petersen

DECLARATION OF SERVICE

RE: Prevailing Wage Rate 01-TC-28
CLAIMANT: Clovis Unified School District

I declare:

I am employed in the office of SixTen and Associates, which is the appointed representative of the above named claimant(s). I am 18 years of age or older and not a party to the within entitled matter.

On the date indicated below, I served the attached: letter of November 3, 2003, addressed as follows:

Paula Higashi
Executive Director
Commission on State Mandates
980 Ninth Street, Suite 300
Sacramento, CA 95814
Sacramento, CA 95814
FAX: (916) 445-0278

AND per mailing list attached

☒ **U.S. MAIL:** I am familiar with the business practice at SixTen and Associates for the collection and processing of correspondence for mailing with the United States Postal Service. In accordance with that practice, correspondence placed in the internal mail collection system at SixTen and Associates is deposited with the United States Postal Service that same day in the ordinary course of business.

☐ **OTHER SERVICE:** I caused such envelope(s) to be delivered to the office of the addressee(s) listed above by:

(Describe)

☐ **FACSIMILE TRANSMISSION:** On the date below from facsimile machine number (858) 514-8645, I personally transmitted to the above-named person(s) to the facsimile number(s) shown above, pursuant to California Rules of Court 2003-2008. A true copy of the above-described document(s) was(were) transmitted by facsimile transmission and the transmission was reported as complete and without error.

☐ A copy of the transmission report issued by the transmitting machine is attached to this proof of service.

☐ **PERSONAL SERVICE:** By causing a true copy of the above-described document(s) to be hand delivered to the office(s) of the addressee(s).

I declare under penalty of perjury that the foregoing is true and correct and that this declaration was executed on 11/3/03, at San Diego, California.

Diane Bramwell

Paula Higashi, Executive Director
Commission on State Mandates
U.S. Bank Plaza Building
980 Ninth Street, Suite 300
Sacramento, California 95814

Re: Test Claim 01-TC-28
Clovis Unified School District
Prevailing Wage Rate

Dear Ms. Higashi:

I have received the Response to the Amended Test Claim of the Department of Finance ("DOF") dated November 5, 2003, authored by the Attorney General of the State of California, to which I now respond on behalf of the test claimant.

Although none of the objections generated by DOF are included in the statutory exceptions set forth in Government Code Section 17556, the objections stated additionally fail for the following reasons:

A. The Response of the DOF is Incompetent and Should be Excluded

Test claimant objects to the Response of the DOF, in total, as being legally incompetent and move that it be excluded from the record.[1] Title 2, California Code of Regulations, Section 1183.02(d) requires that any:

> "...written response, opposition, or recommendations and supporting documentation shall be signed at the end of the document, under penalty of perjury by an authorized representative of the state agency, with the declaration that it is true and complete to the best of the representative's personal knowledge or information and belief."

[1] Test claimant has filed an identical objection to the Response of the DOF dated February 18, 2003 to the original test claim. See: Test Claimant's response dated March 17, 2003. DOF must believe that it is immune from this requirement of the Commission.

The DOF Response does not comply with this essential requirement.

B. State Bond Programs Create Non-Legal Compulsion to Comply with Program Conditions

DOF first argues that "...the legislation creates no mandate. Section 1771.7 applies only to an 'awarding body that chooses to use [specified state bond] funds.' (Citation) A local entity is not required to reimbursement when it is not legally compelled to engage in the underlying practice or program. (Citation) Since school districts are only required to establish LCPs when they choose to use bond funds....the LCP requirements of Section 1771.7 create no mandate because district participation in the underlying program is a voluntary undertaking." (DOF Comments, at page 2) (Underlining in the original) DOF cites *Department of Finance v. Commission on State Mandates* (2003) 30 Cal.4th 727 ("Kern") as its authority.

Non-Legal Compulsion

The controlling case law on the subject of non-legal compulsion is still *City of Sacramento v. State of California* (1990) 50 Cal.3rd 51 (hereinafter referred to as *Sacramento II).*

1. *Sacramento II* Facts:

The adoption of the Social Security Act of 1935 provided for a Federal Unemployment Tax ("FUTA"). FUTA assesses an annual tax on the gross wages paid by covered private employers nationwide. However, employers in a state with a federally "certified" unemployment insurance program receive a "credit" against the federal tax in an amount determined as 90 percent of contributions made to the state system. A "certified" state program also qualifies for federal administrative funds.

California enacted its unemployment insurance system in 1935 and has sought to maintain federal compliance ever since.

In 1976, Congress enacted Public Law number 94-566 which amended FUTA to require, for the first time, that a "certified" state plan include coverage of public employees. States that did not alter their unemployment compensation laws accordingly faced a loss of both the federal tax credit and the administrative subsidy.

In response, the California Legislature adopted Chapter 2, Statutes of 1978 (hereinafter chapter 2/78), to conform to Public Law 94-566, and required the state and all local

governments to participate in the state unemployment insurance system on behalf of their employees.

2. *Sacramento I* Litigation

The City of Sacramento and the County of Los Angeles filed claims with the State Board of Control seeking state subvention of the costs imposed on them by chapter 2/78. The State Board denied the claim. On mandamus, the Sacramento Superior Court overruled the Board and found the costs to be reimbursable. In *City of Sacramento v. State of California* (1984) 156 Cal.App.3d 182 (hereinafter *Sacramento I*) the Court of Appeal affirmed concluding, inter alia, that chapter 2/78 imposed state-mandated costs reimbursable under section 6 of article XIII B, and the potential loss of federal funds and tax credits did not render Public Law 94-566 so coercive as to constitute a "mandate of the federal government" under Section 9(b).[2]

In other words, *Sacramento I* concluded that the loss of federal funds and tax credits did not amount to "compulsion".

3. *Sacramento II* Litigation

After remand, the case proceeded through the courts again. In *Sacramento II*, the court held that the obligations imposed by chapter 2/78 failed to meet the "program" and "service" standards for mandatory subvention because it imposed no "unique" obligation on local governments, nor did it require them to provide new or increased governmental services to the public. The Court of Appeal decision, finding the expenses reimbursable, was reversed.

However, the court disapproved that portion of *Sacramento I* which held that the loss of federal funds and tax credits did not amount to "compulsion".

4. *Sacramento II* "Compulsion" Reasoning

Plaintiffs argued that the test claim legislation required a clear legal compulsion not present in Public Law 94-566. Defendants responded that the consequences of

[2] Section 1 of article XIII B limits annual "appropriations". Section 9(b) provides that "appropriations subject to limitation" do not include "Appropriations required to comply with mandates of the courts or the federal government which, without discretion, require an expenditure for additional services or which unavoidably make the provision of existing services more costly."

California's failure to comply with the federal "carrot and stick" scheme were so substantial that the state had no realistic "discretion" to refuse.

In disapproving *Sacramento I*, the court explained:

> "If California failed to conform its plan to new federal requirements as they arose, its businesses faced a new and serious penalty - full, double unemployment taxation by both state and federal governments." (Opinion, at page 74)

Plaintiffs argued that California was not compelled to comply because it could have chosen to terminate its own unemployment insurance system, leaving the state's employers faced only with the federal tax. The court replied to this suggestion:

> "However, we cannot imagine the drafters and adopters of article XIII B intended to force the state to such draconian ends. (¶) ...The alternatives were so far beyond the realm of practical reality that they left the state 'without discretion' to depart from federal standards." (Opinion, at page 74, emphasis supplied)

In other words, terminating its own system was not an acceptable option because it was so far beyond the realm of practical reality so as to be a draconian response, leaving the state without discretion. The only reasonable alternative was to comply with the new legislation, since the state was practically "without discretion".

The Supreme Court in *Sacramento II* concluded by stating that there is no final test for a determination of "mandatory" versus "optional":

> "Given the variety of cooperative federal-state-local programs, we here attempt no final test for 'mandatory' versus 'optional' compliance with federal law. A determination in each case must depend on such factors as the nature and purpose of the federal program; whether its design suggests an intent to coerce; when state and/or local participation began; the penalties, if any, assessed for withdrawal or refusal to participate or comply; and any other legal and practical consequences of nonparticipation, noncompliance, or withdrawal." (Opinion, at page 76)

5. Statutory Compulsion is not Required

In *Department of Finance v. Commission on State Mandates* (supra, at page 736) the supreme court first made it clear that the decision did not hold, as suggested by DOF,

that legal compulsion was necessary in order to find a reimbursable mandate:

> "For the reasons explained below, although we shall analyze the legal compulsion issue, we find it unnecessary in this case to decide whether a finding of legal compulsion is *necessary* in order to establish a right to reimbursement under article XIII B, section 6, because we conclude that even if there are some circumstances in which a state mandate may be found in the absence of legal compulsion, the circumstances presented in this case do not constitute such a mandate." (Emphasis in the original, underlining added)

After concluding that the facts in *Kern* did not rise to the standard of non-legal compulsion, the court affirmed that either double taxation or other draconian consequences could result in non-legal compulsion:

> "In sum, the circumstances presented *in the case before us* do not constitute the type of non-legal compulsion that reasonably could constitute, in claimants' phrasing, a 'de facto' reimbursable state mandate. Contrary to the situation that we described in (Sacramento II), a claimant that elects to discontinue participation in one of the programs *here at issue* does not face 'certain and severe...penalties' such as 'double...taxation' or other 'draconian' consequences (citation), but simply must adjust to the withdrawal of grant money along with the lifting of program obligations." (Opinion, at page 754, emphasis supplied to illustrate holding is limited to facts presented)

Therefore, "carrot and stick" situations must still be determined on a case by case basis.

A District's Ability to Borrow is Strictly Limited

Since DOF argues that school districts are only required to establish LCPs when they choose to use state bond funds to construct or modernize their school facilities, DOF implicitly argues that school districts have the ability to borrow money to finance their own construction and modernization projects.

The authority to issue local school bonds is found in Chapter 1 of Part 10 in Division 1 of Title 1 of the Education Code, commencing at Section 15100. This authority is strictly limited.

Education Code Section 15100 allows a district, when in its judgment it is advisable,

and requires it, upon a petition of the majority of its qualified electors, to order an election and submit to the electors of the district the question whether the bonds of the district shall be issued and sold for the purpose of raising money for the purchase of school lots, the building or purchasing of school buildings and the making of alterations or additions to school buildings. Section 15102 provides that such bonded indebtedness shall not exceed 1.25 percent of the taxable property of the district. Section 15106 provides that unified school districts or community college districts may not exceed 2.5 percent of the taxable property of the district.

Chapter 1.5 of Part 10 sets forth the Strict Accountability in Local School Construction Bonds Act of 2000, commencing with Section 15264. ("Proposition 39 bonds") Here again, bonded indebtedness is strictly limited.

Section 15266 provides that the Act is an alternative to authorizing and issuing bonds pursuant to Chapter 1 or Chapter 2 (commencing with Section 15300) when the governing board of a school district or community college district decides, pursuant to a two-thirds vote, to pursue the authorization and issuance of bonds for school facilities. Section 15268 provides that such bonded indebtedness shall not exceed 1.25 percent of the taxable property of the district and may only be issued if the tax rate levied would not exceed thirty dollars ($30) per year per one hundred thousand dollars ($100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution. Section 15270 provides that a unified school district may not authorize or issue bonds that exceed 2.5 percent of the taxable property of the district and may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a unified school district, would not exceed sixty dollars ($60) per year per one hundred thousand dollars ($100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution.

Chapter 2 of Part 10 sets forth the Bonds of School Facilities Improvement Districts Act, commencing with Education Code Section 15300. Here again, bonded indebtedness is strictly limited.

Section 15300 provides that the chapter provides a method for the formation of school facilities improvement districts consisting of a portion of the territory within a school district or community college district and for the issuance of general obligation bonds by the school facilities improvement district. Section 15330 provides that the total amount of bonds issued shall not exceed 1.25 percent of the taxable property of the school facilities improvement district. Section 15334.5 further provides that no bonded indebtedness may be incurred pursuant to this chapter in an amount that would cause

the bonded indebtedness of the territory of the school district or community college district of which the school facilities improvement district is a part, to exceed the limitation of indebtedness specified in Sections 15102 and 15106.

At the request of Senator Quentin Kopp, the California Research Bureau has published the results of its research on School Facility Financing.[3] (hereinafter, "CRB History") A copy of the "CRB History" is attached hereto as Exhibit "A" and is incorporated herein by reference.

The CRB History has noted:

> "...Proposition 13 eliminated the ability of local school districts to levy additional special property taxes to pay off their facility indebtedness. Proposition 13 capped the ad valorem tax rate on real property at one percent of its value, thereby reducing the income from property taxes to such an extent that it virtually eliminated this source as a means for lease payments."[4]

To the extent school districts and community college districts already have bonded indebtedness at or near these limits, the argument of DIR that these districts need not apply for this new state funding is specious reasoning.

Legislative History of School Financing Legislation

A review of the legislative history of school finance shows that the Legislature knows that the State must bear the major burden of financing the construction of new school facilities.

The CRB History begins its report with:

> "As California enters the 21st Century, its public schools face many challenges. One significant challenge is the serious disrepair of an aging school facility infrastructure. Another challenge is the anticipated growth of nearly 2 million K-12 students during the next decade that will require

[3] Cohen, Joel, "School Facility Financing - A History of the Role of the State Allocation Board and Options for the Distribution of Proposition 1A Funds", California Research Bureau (February 1999)

[4] Cohen, Joel (op.cit. at p.12)

many districts to build new schools to meet burgeoning student demand."[5]

This gloomy prediction follows many years of attempts by the state to assist school district finance public schools.

Chapter 4 of Part 10 of Division 1 of Title 1 of the Education Code sets forth the State School Building Aid Law of 1949, commencing with Education Code Section 15700. Section 15700 provides:

"The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary and adequate school sites and buildings for the pupils of the public school system, the system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

In adopting this act, the Legislature considers that the great need in school construction is for adequate classrooms for the education of the pupils of the public school system...To the end that school classrooms may be made available at once and to all school districts in need of such classrooms..." (emphasis supplied)

Section 15704 requires the State Allocation Board to adopt rules which gives:

"...priority in allocating funds to districts to those districts where the children will benefit most from additional schoolhouse facilities...based on acuteness of overcrowding, on sudden growth in attendance, on amount of local tax funds expended for housing of a character within the purposes of this chapter, and on the time the district's application has been ready for allotment..."

Chapter 6 contains the State School Building Aid Law of 1952, commencing with Education Code Section 16000. Section 16001 provides:

> "The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid school districts of the state in providing necessary schoolsites and buildings for the pupils of the public school system, this system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.
>
> In adopting this chapter, the Legislature considers that the great need in school construction is for classrooms for the education of the

[5] Cohen, Joel (op. cit. p. 1)

pupils of the public school system...To the end that school classrooms may be made available at once and to all school districts in need of such classrooms..." (emphasis supplied)

Section 16007 requires the State Allocation Board to adopt rules which would:

"...give priority in allocating funds to districts to those districts where the children will benefit most from additional schoolhouse facilities...based on acuteness of overcrowding, on rapidity of growth in attendance, and on the time the district's application has been ready for allotment..."

Article 3 of Chapter 6, contains provisions for School Housing Aid for Exceptional Children, commencing with Education Code Section 16190. Section 16190 provides:

"The board may make apportionments...from any state bonds heretofore or hereafter authorized by the electorate for state school building aid...for assistance to school districts in providing necessary housing and equipment for the education of exceptional children."[6]

Section 16196 provides that:

"...Except as otherwise provided in this section, not more than 50 percent of the amount of any apportionment made pursuant to this section shall be repaid..."

Article 4 of Chapter 6, commencing with Section 16210, is entitled School Housing Aid For Compensatory Education Purposes. Section 16210 sets aside $35 million dollars of the proceeds of the sale of bonds authorized by the State School Building Aid Bond Law of 1966 to assist school districts. Section 16210 provides:

"...The Director of Compensatory Education may establish priorities for purposes of allocations and grants under this article based upon comparative needs of school districts and the urgency thereof. No interest shall be charged to a school district for an allocation or grant made under

[6] Education Code Section 16191 defines "exceptional children" to mean "physically handicapped pupils, mentally retarded pupils, educationally handicapped pupils, multihandicapped pupils, or pupils enrolled in development centers for the handicapped required or allowed to be educated pursuant to Part 30 (commencing with Section 56000)."

this article to the school district..."

Section 16211 provides that grants may be made to:

"...districts...maintaining schools for kindergarten, or any of grades 1 to 6, inclusive...which have reduced the number of pupils to full-time equivalent classroom teachers in kindergarten and any of grades 1 to 6, inclusive, in those schools to a ratio of 25 to 1, or better. The grants shall be made for...¶...any of the following:

(a) Acquisition, by purchase or lease, and the installation and equipping of portable classrooms for classroom instructional purposes.

(b) Acquisition of land for schoolsites.

(c) Construction and equipping of permanent school buildings and facilities.

(d) Reconstruction, renovation or remodeling of existing school buildings and facilities.

(e) Any combination of the above."

Section 16212 allows:

"In lieu of grants to districts pursuant to subdivision (a) of Section 16211...the board may expend moneys available for grants under this article for the acquisition of portable buildings and facilities and equipment by the state, and thereafter convey the same to the eligible districts...(in) the form of sale, lease, outright grant, or other suitable form of conveyance, as determined by the board."

Section 16214 provides:

"For each school district which receives a grant or allocation pursuant to this article...the Controller shall compute an amount equal to one cent ($0.01) on each one hundred dollars ($100) of the assessed valuation of property within the district...(¶)...The Controller shall make the computations and deductions required by this section for 30 fiscal years or until the time as the total of the amounts so deducted equal 50 percent of the amount of the grant or allocation which was made to the school district, whichever first occurs...(¶)...the maximum rate of school district tax for the school district for which the computation is made shall be increased by one cent ($0.01) per each one hundred dollars ($100) of the assessed value of property within the district..."

Article 5 of Chapter 6, commencing with Education Code Section 16230, sets forth the provisions for School Housing Aid For Districts Impacted by Seasonal Agricultural Employment. Section 16230 sets aside $1,500,000 of the proceeds of bonds issued under the State School Building Aid Bond Law of 1966:

> "...for the acquisition of...¶... portable school and classroom buildings (and) may be made available by the board, upon the recommendation of the Director of Compensatory Education, to any school district which, because of the influx for temporary periods in the school year of large numbers of persons employed in seasonal agricultural work, experiences emergency increases in school enrollments of such magnitude as to make it impossible or impractical to accommodate the additional pupils in existing school buildings and facilities available to the district."

Section 16231 provides:

> "...The use of the portable school and classroom buildings may be made available to a school district by letting the same to the district free of charge, or by lease, or by conveying the same to the district under lease-purchase agreement, sale, or outright grant, as determined by the State Allocation Board upon consultation with, and the advice of, the Director of Compensatory Education..."

Article 7 of Chapter 6, commencing with Education Code Section 16260, provides for the Children's Center Construction Law of 1968.

Section 16261 states:

> "The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to provide assistance to school districts and to county superintendents of schools for the construction of children's center facilities. Children's centers are of general concern and interest to all the people of the state, and the education and care of children of working parents are a joint obligation of both the state and local agencies operating children's centers..." (emphasis supplied)

Section 16263 requires:

> "...The board shall adopt any rules and regulations (which) shall establish a system of priorities (and) give special consideration to school districts...containing substantial numbers of families who are recipients of

aid to families with dependent children or who are former or potential recipients of the aid..."

Section 16272 provides for matching funds:

"For each one dollar ($1) of money allocated to a local agency which is expended for a project, the local agency shall expend local funds for the project in an amount which bears the same percentage to the one dollar ($1) as the modified assessed valuation per unit of the average daily attendance of the local agency bears to the statewide modified assessed valuation per average daily attendance of all local agencies..."

Article 9 of Chapter 6, commencing with Education Code Section 16310, is entitled School Housing Aid For Rehabilitation and Replacement of Structurally Inadequate School Facilities. Section 16312 states:

"The Legislature hereby declares that it is in the interest of the state and the people thereof to provide assistance to school districts in rehabilitating or replacing structurally unsafe school facilities inasmuch as the education of children is an obligation of the state, and the obligation carries with it a corresponding responsibility for the physical safety of children while attending school." (emphasis supplied)

Section 16313 states:

"It is the intent of the Legislature in enacting this article to provide a means through repayable state loans for school districts...to house their pupils in facilities that are structurally safe."

Section 16317 requires the State Allocation Board to adopt rules which:

"...shall give priority in allocating funds to districts which will benefit most from the reconstruction or replacement of schoolhouse facilities...based on the age and structural safety of existing buildings at the school or schools where the construction or reconstruction will occur, acuteness of overcrowding and density of population in the attendance areas affected, or any other factors that will insure that the greatest need will be served in allocating funds under this article."

Chapter 8 of Part 10 contains the Urban School Construction Aid Law of 1968, commencing with Education Code Section 16700. Section 16701 provides:

"The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid urban school districts of the state in reconstructing, modernizing, or replacing schoolsites and buildings for pupils of the public school system who are now housed in substandard schools..."

Section 16705 requires the State Allocation Board to adopt rules which:

"...shall give priority in allocating funds to urban districts to those districts where the children will benefit most from schoolhouse facilities...based upon the age of existing buildings and the acuteness of overcrowding at the school or schools where the construction or reconstruction will occur, the density of population in the attendance areas affected, or any other factors that will insure that the greatest need will be served."

Section 16720 provides for repayment:

"Each district to which an apportionment or apportionments has been made under this chapter shall repay a portion or all of the principal amount of such apportionment or apportionments and the accrued interest thereon in 30 equal annual payments, as shall be determined by the Controller pursuant to this section...(¶)...In any year, beginning with the 1981-82 fiscal year, in which the annual repayment exceeds the amount which may be raised by a levy of 0.0075 percent of the full value in the district,...the Controller shall grant a deferment of the annual repayment which is in excess of the amount that would be produced by a tax of 0.0075 percent of the full value of the district..."

Chapter 12 of Part 10 establishes the "Leroy F. Greene State School Building Lease-Purchase Law of 1976", commencing with Section 17000. Section 17001 states:

"(a) The Legislature hereby declares that it is in the interest of the state and the people thereof for the state to reconstruct, remodel, or replace existing school buildings that are educationally inadequate or that do not meet present-day structural safety requirements, and to acquire new schoolsites and buildings for the purpose of making them available to local school districts for the pupils of the public school system, that system being a matter of general concern <u>inasmuch as the education of the children of the state is an obligation and function of the state.</u>"

Article 11 of the Leroy F. Greene School Facilities Act of 1998, commencing with

Education Code Section 17078.10, provides for:

> "(c) ..."preliminary apportionment"... for eligible applicants with critically overcrowded schools in advance of full compliance with all of the application requirements otherwise required for an apportionment pursuant to this chapter..."

Chapter 14 of Part 10, commencing with Education Code Section 17085 is entitled the "Emergency School Classroom Law of 1979" and is cited as the State Relocatable Classroom Law of 1979. Section 17086 states:

> "...the Legislature recognizes that the ad valorem tax is no longer available as a source of revenue for the construction of necessary school facilities. The Legislature considers that the greatest need in school construction is for classrooms for the education of public school pupils. It is the intent of the Legislature to satisfy this primary need to the greatest extent possible before providing any additional educational facilities, regardless of how desirable such additional facilities may be."

Chapter 15 of Part 10, commencing with Section 17100, established the School District Revenue Bond Act. This Act is based on the finding of the legislature that:

> "The Legislature hereby finds and declares that the State School Building Lease-Purchase Fund, pursuant to Section 17008, and the proceeds from the sale or lease of surplus school property are the two sources available to school districts to finance the construction of school facilities to relieve overcrowding. <u>However, these sources are still insufficient to meet the construction needs statewide of school districts</u>." (emphasis supplied)

The CRB History predicts:

> "The Department of Finance has estimated that $16 billion is needed over the next decade for public school construction and rehabilitation. (Footnote omitted)...The California Teachers Association and the California Building Industry Association presented a plan to issue $2 billion a year for 10 years. (Footnote omitted) Governor Wilson proposed $2 billion a year for four consecutive years. In the end, Proposition 1A was passed. It provides $6.7 billion over a four year period. However,...it will not be enough to meet the entire anticipated need of the state. Based on the Department of Finance projections, the six years following this

bond issue will require roughly an additional $10 billion in State money."[7]

In summary, the last 60 years of legislative history shows repeated and consistent recognition that school districts are unable to meet the school construction needs of their pupils. The history repeatedly reveals an admission that the education of school children is the primary responsibility of the state. The history of the inability of school districts and the obligation of the state to educate children results in the above recited litany of state money for school construction at low or no interest rates, repayment requirements of less than the amounts apportioned, and repayment terms unavailable anywhere else. Education of children is an obligation and function of the state. Classrooms are required to provide that education. Therefore, building classrooms is, primarily, a state obligation.

More importantly, combining the dire need for more classrooms and the modernization of existing classrooms with the inability of school districts to finance these badly needed facilities, leaves but one conclusion to the equation: the availability of state funding from either the Kindergarten-University Public Education Facilities Bond Act of 2002 or the Kindergarten-University Public Education Facilities Bond Act of 2004 creates a compulsion to initiate and enforce, or contract with a third party to initiate and enforce, a labor compliance program (LCP), as described in subdivision (b) of Section 1771.5. Here, the carrot is too large, and the stick is too short, to ignore.

C. The Test Claim Complies with the Requirements of Law as to Costs

DOF next argues, quite incorrectly, that "...the claimants (sic) are not entitled to any subvention because they (sic) have not shown or attempted to show that the initiation of a Section 1771.7 LCP would result in reimbursable costs. (DOF comments, at page 2)

Test claimant refers DOF to the Declarations of William McGuire (Associate Superintendent - Business Services of Clovis Unified School District) and Thomas J. Donner (Executive Vice President of Business and Administration of Santa Monica Community College), attached to the Amended Test Claim as Exhibits 6 and 7, wherein each of them states an estimate that his respective district would incur expenses in excess of $1,000, annually. This complies with Government Code Section 17564.[8]

---

[7] Cohen, Joel (op.cit. At p.19)

[8] Government Code Section 17564:

"(a) No claim shall be made pursuant to Sections 17551 and 17561, nor shall any

D. Increased Funding from SAB is Indefinite and Uncertain

DOF next argues that "...The State Allocation Board has adopted regulations that increase grants to schools and community colleges which obtain financing through the bond acts....Since the State has provided additional revenues and additional revenue sources, there would be no reimbursable costs...." (DOF Comments, at page 3)

DOF refers to subdivision (e) of Labor Code Section 1771.7 which directs that the State Allocation Board shall increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts as described in Sections 17072.10 and 17074.10 of the Education Code to accommodate the state's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of the labor compliance program. These additional amounts were incapable of accurate determination when initiated:

> "Staff acknowledges the possible validity of both comments. Given the urgency to adopt regulations by July 1, 2003, and given the very sparse data available at this moment, the Committee and Staff agreed the attached regulations should be presented to the SAB now, and that the amount of the per pupil grant should be revised in approximately one year. At that time, information based on actual experience in school districts can be used to recommend an increase or a decrease in the additional per pupil grant for future apportionments." (Report of the Executive Officer entitled "Implementation of Assembly Bill 1506 (Wesson) Grant Adjustments for Labor Compliance Programs" presented at the State Allocation Board Meeting on July 2, 2003), a copy of which is attached to DIR's Response dated October 6, 2003, as Exhibit "F".

These possible, but not yet finally determined revenues have been accounted for in the Test Claim. (See: Section E, following)

E. The Test Claim Allows for Possible Other Revenues

Next, DOF argues that "...LCPs generate revenue and cost savings....there would be no reimbursable costs unless the LCP costs exceeded (1) the additional funds provided by the State Allocation Board regulations, and (2) the costs of the district's pre-existing responsibility to insure its contractors comply with the Prevailing Wage law. The First

---

payment be made on claims submitted pursuant to Sections 17551 and 17561, unless these claims exceed one thousand dollars ($1,000)..."

Amended Claim does not even attempt to show that the costs of Section 1771.7 LCPs exceed the costs of complying with districts (sic) pre-existing responsibilities under the prevailing wage law." (DOF Comments, at page 3)

Section D, above, already deals with any additional funds provided by SAB. As to Test Claimant's "pre-existing responsibility", Test Claimant refers the Commission to the Response of the DOF to the original test claim dated February 18, 2003, where it asks the Commission to deny the original test claim because there were no reimbursable pre-existing duties. In particular, Test Claimant refers the Commission to page 11 of that document where DOF denies that Test Claimant has any obligation to comply with the pre-existing labor compliance program.

In either event, the Test Claim has allowed for the possible receipt of such revenues.

> "Subdivision (e) of new Labor Code Section 1771.7 provides that, notwithstanding Section 17070.63 of the Education Code, for purposes of the act, the State Allocation Board shall increase as soon as feasible, but no later than July 1, 2003, the per pupil grant amounts as described in Sections 17072.10 and 17074.10 of the Education Code to accommodate the state's share of the increased costs of a new construction or modernization project due to the initiation and enforcement of a labor compliance program. To the extent that funds are appropriated, allocated and received, and relevant to the costs mandated by the state subject to reimbursement, they would reduce the amount of reimbursable costs occasioned by Section 1771.7 and the Executive Orders cited herein." (Test Claim, page 26, lines 7 through 16, emphasis supplied)

F. Third Party Justification is a Matter for the Parameters and Guidelines

Finally, DOF argues that "[C]ontracting with a third party is a voluntary activity and is not a reimbursable activity unless the district could justify the contract as less costly than using district staff to meet its obligation." (DOF Comments, at page 3)

The test claim legislation requires districts "to initiate and enforce, or contract with a third party to initiate and enforce, a labor compliance program". Obviously, districts must do one or the other. However, the determination of when a third party contractor is justified, is a matter traditionally left for determination by the local school district, based on the staff skills and resources available to the district.

CERTIFICATION

I certify by my signature below, under penalty of perjury under the laws of the State of California, that the statements made in this document are true and complete to the best of my own personal knowledge or information and belief.

Sincerely,

Keith B. Petersen

DECLARATION OF SERVICE

RE: Prevailing Wage Rate 01-TC-28
CLAIMANT: Clovis Unified School District

I declare:

I am employed in the office of SixTen and Associates, which is the appointed representative of the above named claimant(s). I am 18 years of age or older and not a party to the within entitled matter.

On the date indicated below, I served the attached: letter of December 5, 2003, addressed as follows:

Paula Higashi
Executive Director
Commission on State Mandates
980 Ninth Street, Suite 300
Sacramento, CA 95814
FAX: (916) 445-0278

AND per mailing list attached

☒ **U.S. MAIL:** I am familiar with the business practice at SixTen and Associates for the collection and processing of correspondence for mailing with the United States Postal Service. In accordance with that practice, correspondence placed in the internal mail collection system at SixTen and Associates is deposited with the United States Postal Service that same day in the ordinary course of business.

☐ **OTHER SERVICE:** I caused such envelope(s) to be delivered to the office of the addressee(s) listed above by:

(Describe)

☐ **FACSIMILE TRANSMISSION:** On the date below from facsimile machine number (858) 514-8645, I personally transmitted to the above-named person(s) to the facsimile number(s) shown above, pursuant to California Rules of Court 2003-2008. A true copy of the above-described document(s) was(were) transmitted by facsimile transmission and the transmission was reported as complete and without error.

☐ A copy of the transmission report issued by the transmitting machine is attached to this proof of service.

☐ **PERSONAL SERVICE:** By causing a true copy of the above-described document(s) to be hand delivered to the office(s) of the addressee(s).

I declare under penalty of perjury that the foregoing is true and correct and that this declaration was executed on 12/5/03, at San Diego, California.

School Facility Financing

A History of the Role of the State Allocation Board and Options for the Distribution of Proposition 1A Funds

By Joel Cohen

Prepared at the Request of
Senator Quentin Kopp

FEBRUARY 1999

CRB 99-01

CONTENTS

EXECUTIVE SUMMARY

As California enters the 21st Century, its public schools face many challenges. One significant challenge is the serious disrepair of an aging school facility infrastructure. Another challenge is the anticipated growth of nearly 2 million K-12 students during the next decade that will require many districts to build new schools to meet burgeoning student demand. Recognizing the substantial need for infrastructure, in November 1998, California voters passed Proposition 1A, a bond measure that provides $6.7 billion for public K-12 school construction and repair.

This measure establishes two new programs for the disbursement of bond funds and simplifies the application process by which schools apply for school construction resources. This change in programs, and in the methods by which funds are allocated, is important to the people of the State, as school districts, many of which have facilities in serious disrepair or require new construction, vie for their portion of the $6.7 billion pie.

Historically, the process by which schools applied for and received construction funds was cumbersome and complex. Furthermore, the research suggests that school districts that were sophisticated and knowledgeable about the complicated school facilities construction process were the most successful in securing funding – often at the expense of less sophisticated and uninformed school districts. Proposition 1A corrects much of this dynamic by simplifying the application and administrative processes, thereby creating a more level playing field for all school districts.

In order to understand the significance and relevance of this new process and its concomitant programs, however, it is useful to review the history of school construction financing in California and to understand the various pitfalls that existed under previous programs so as to avoid similar pitfalls in the future. This paper discusses that history and highlights the problems with preexisting programs.

It begins with an examination of the State Allocation Board and its staff (the Office of Public School Construction). Specifically, it reviews the role of the Board which is responsible for establishing policies for the distribution of school facility financing funds. It discusses how the Board, which was established in 1947, has evolved during the past five decades from one that set policy for various *loan* programs to one that today sets policy for *grant* programs.

The paper also discusses how various externalities—legislative or voter imposed initiatives, such as Proposition 13—have affected the Board's policies and procedures. The paper notes that the Board changed its policies often, and its policy shifts created an untenable dynamic for school districts as they attempted to secure funding. In particular, the paper highlights how districts were forced to weave their way through a complex, bureaucratic maze of applications, forms, and plans; and how this dynamic forced school districts to employ sophisticated personnel, or to contract with savvy consultants, in order to secure state financing for their construction projects.

This paper also presents a history of bond initiatives during the past five decades. It is clear that throughout this history there was never enough State money available to school districts for facility construction or repair. In fact, in spite of the $6.7 billion approved by Proposition 1A, experts estimate that an additional $10 billion will be required during the next decade. This paper discusses how the constant shortage of funds caused districts to use "whatever" means available to them to secure funding.

Voters have consistently been generous in approving the vast majority of statewide bond initiatives. Only three bond proposals out of 24 have failed in the past 50 years, and those that failed did so during times of recession. However, it is not clear how much additional debt voters will be willing to incur. This has especially been true since the passage of Proposition 13 in 1978, when the State began taking on a larger role in supporting school construction then it had before. To that end, this paper discusses how Proposition 1A creates a mechanism for school districts to tap state resources, and how school districts may need to tap other sources of facility funding.

Proposition 1A forges a partnership between the State and school districts for financing the construction and repair of their schools. Under its new programs, the State will provide 50 percent of the cost associated with building new schools, and provide 80 percent of the cost associated with modernizing existing facilities. It requires school districts to match state resources. However, school districts that are unable to offer this match can receive hardship funds based on prescriptive criteria. This paper provides details regarding these new programs and compares them to programs previously administered by the State Allocation Board. It also discusses how the Board is required to respond to district requests.

Proposition 1A is not the only impetus behind simplifying the school facility financing process. Concurrently, the Office of Public School Construction has rewritten the application process for funds to make it more user-friendly to school districts and has even offered applications and program information via the Internet. This paper discusses these changes.

The paper concludes with options that the Governor and the Legislature may wish to consider, including: offering protection to small and rural school districts when bond funds are exhausted; requiring annual financial reporting by the State Allocation Board; providing an on-line technical support for program applicants; and redeveloping the State funding source for school facility construction and rehabilitation.

REQUEST FOR RESEARCH

Programs and administrative procedures in Proposition 1A may produce significant changes to the previous programs and the manner by which the State Allocation Board distributes resources for school facility construction. In light of these changes, Senator Quentin Kopp requested that the California Research Bureau provide research on the following topics:

- A history of the State Allocation Board. How was the board's funding program intended to work and how has it evolved?

- An explanation of the State Allocation Board process. How does the State Allocation Board work? What are the procedures and criteria for receiving allocations? How are priorities set?

INTRODUCTION—THE PASSAGE OF PROPOSITION 1A

On November 3, 1998, California voters passed Proposition 1A - a $9.2 billion school bond initiative, and the largest of its kind passed in our nation's history. Over the next four years, revenues from Proposition 1A's general obligation bonds will provide $6.7 billion to public K-12 schools and $2.5 billion to public colleges and universities for the purposes of constructing new facilities and repairing existing ones.

The State Allocation Board will have the responsibility for determining a fair means of distributing the $6.7 billion available to K–12 schools. Many experts feel that developing such a system will be a daunting task, in spite of the fact that Proposition 1A/Senate Bill 50 is very prescriptive regarding the allocation of its bond funds.

This paper begins with a history and a discussion of the role of the State Allocation Board. Next, it examines the 24 state bond initiatives since 1947 and discusses how the Board has evolved its policies for distributing resources generated by these bond efforts. It then presents an overview of Proposition 1A and how this initiative creates a new allocation program that differs from previous ones. The paper also discusses the various problems that existed within the State Allocation Board's previous resource allocation systems and how Proposition 1A addresses these problems. It concludes with a section that offers options that the Legislature may wish to consider regarding the policies that the State Allocation Board should use for the equitable distribution of bond funds.

HISTORY OF THE STATE ALLOCATION BOARD AND ITS ROLE IN SCHOOL FACILITY FINANCING

There is a long and complex history regarding public school construction in California. This paper begins a review of the history in 1947[1] when the state legislature created the State Allocation Board.[2] Chapter 243, Statutes of 1947, established the State Allocation Board[3] as a successor to the Post War Public Works Review Board. That statute specifically authorized the board to allocate funds for building and repairing schools. In addition, it designated the State Allocation Board to make allocations for public works projects when no other state officer or agency had authority to appropriate state or federal funds.[4] Although it had many other fund allocation requirements during its five-decade history, the State Allocation Board today allocates funds only for school construction and renovation.

Composition of the Board

The State Allocation Board is comprised of seven members: two Senate members appointed by the Senate Rules Committee; two Assembly members appointed by the Speaker of the Assembly; the Director of the Department of General Services or his/her designee; the Director of the Department of Finance or his/her designee; and the Superintendent of Public Instruction or his/her designee. This appointment structure has existed since the Board's inception in 1947.[5]

Although its basic appointment structure is set in statute, its actual membership changes over time. One member, Senator Leroy Greene, served on the Board for over 20 years. Some Board members have served for only one meeting, while others have served an entire legislative session.

The four legislatively appointed State Allocation Board members provide a strong policy influence to the State Allocation Board. Through them, other members of the Legislature have input into the Board's policy and decision-making processes.

Policy Requirements

Members of the State Allocation Board are charged to formulate fair systems for determining priorities among project proposals. Prior to the passage of Proposition 1A/SB 50 in 1998, the Board was responsible for developing a fair and equitable appeals process that addressed the "special needs" of school districts. Such "special needs" included disaster relief, inability to secure matching funds, or inability to locate affordable property.

Board members also had extraordinary power to set school facility financing policy. Although the Board falls under the auspices of the State Administrative Procedures Act, it has often ignored the Act's provisions. It was common that board policies were changed from meeting to meeting, and that these new policies were not readily made public.[6] Therefore, school districts that were uninformed of existing policy operated at a distinct disadvantage. They may not have known the appropriate procedures for receiving

financing approval. Conversely, school districts that utilized hired consultants or had staff that regularly monitored the Board's actions knew exactly what mechanisms and procedures would be necessary for them to secure funding.

State Allocation Board Staff

The Office of Public School Construction (formerly the Office of Local Assistance), within the Department of General Services, was and continues to be responsible for providing staff work that is necessary to carry out the policies and implement the various programs of the State Allocation Board. The State Allocation Board is responsible for policies regarding the allocation of funds for building new schools and for repairing, upgrading, and rehabilitating old ones.

The Office of Public School Construction staff is also responsible for disseminating to school districts information regarding board policy and programs. Under its previous programs, the staff was responsible for making recommendations to the State Allocation Board regarding various appeals made by school districts that may have been denied funding, or that may have required special funding consideration. To that end, the Office of Public School Construction staff influenced where school districts fell on the long queue of project proposals considered and passed by the State Allocation Board. Staff also could have influenced Board decisions by advocating for specific school district projects.

Outside Influence

The State Allocation Board and the Office of Public School Construction staff have also been influenced by a variety of external interest groups. These include, but are not limited to, private school facility financing consultants, school board members, school administrators, teachers, parents, developers, California Building Industry Association, financial institutions, and other members of the Legislature. In addition, various state agencies with influence included the Division of State Architect, Department of Finance, and the Department of Education. These interests groups played and are likely to play a significant role in determining funding for projects that may have been denied or required special consideration. Consultants in particular, whether employed by or on contract with school districts, played an active role in the process. Many of these consultants, whose offices are in the same building as that of the Office of Public School Construction, influenced decisions of both the Office of Public School Construction staff and the State Allocation Board. Consultants were current on Board policies and procedures, and were highly sophisticated about the complicated processes that school districts must follow in order to obtain funding. They have been instrumental in shepherding proposals through the complex maze of funding phases - application to construction. School districts that did not contract with such advocates were often at a competitive disadvantage.

Evolution of State Allocation Board Programs—From Loans to Grants

The State Allocation Board has evolved markedly during the past five decades. Initially, its school programs provided resources to school districts via *loan programs* in which

districts were required to repay their assistance with property tax revenues. In addition, school districts used local school bonds to finance their various construction projects. In both cases, a two-thirds popular vote was required.

Proposition 13

With the passage of Proposition 13 in 1978, the State Allocation Board's loan orientation was significantly altered. Under Proposition 13, the amount of tax that property owners paid was limited to no more than one percent of the assessed value of their property. Local property tax revenues diminished, and the burden to fund many local government programs was shifted to the State, including public school construction. Further, local governments lost much of their property taxing authority, and the Legislature and Governor were forced to rethink how school districts could repay their existing loans to the State Allocation Board.

Recognizing that many school districts faced bankruptcy by being unable to service their loans, the Legislature in 1979 directed the State Allocation Board to allow school districts four options: (1) withhold payments on their loans; (2) temporarily delay their payments; (3) pay only a portion of their loan obligations; (4) or not pay back their loans at all. Further, with the implementation of these options, the Legislature required that the State Allocation Board shift its policy focus from a *loan-based* program to a *grant-based* program. This shift to grant-based programs remains today.

HISTORY OF SCHOOL BOND INITIATIVES—A CYCLE OF UNDER-FUNDING

The electorate of the state has been ultimately responsible for determining the availability of resources for school construction. The electorate must have confidence in the state's economy, and perceive a need for new and upgraded schools. Without such assurances, the electorate can and has rejected various bond efforts. Since 1949, voters have been asked to approve 24 bond measures related to school construction and renovation, and have passed 21 of these proposals. However, an interesting history follows regarding the content of these initiatives.

State as a Bank—The Loan Program 1949-1978

Legislation enacted in 1949[7] and 1952[8] established a loan-grant program "to aid school districts of the State in providing necessary and adequate school sites and buildings for the pupils of the public school system."[9] During this time period, the first baby boomers entered school, and for the next two decades, California public school enrollment increased by roughly 300 percent.[10] The Legislature recognized that many school districts faced substantial enrollment growth, while lacking the bond debt capacity that was necessary to finance large building programs. In fact, many school districts had reached their financial capacity to service the bonds that they previously incurred.

As a result, the Legislature developed a program to provide loans to school districts that were approaching or were likely to exceed their legal level of bonded indebtedness.[11] This new program was financed through State general obligation bonds. This program also required building construction standards and placed fiscal controls on the districts, including maximum cost standards and square feet per pupil limitations.[12] School districts, however, retained control over the design and construction of their facilities. Districts that wanted to participate in the state loan program were required to receive approval from two-thirds of their district's electorate in order to incur the debt. A surcharge on the local property tax provided revenues to service the loan debt.

The State formula provided that the total amount due on some loans would be less than the total amount of the actual loan. Some experts believe that the state's willingness to forgive part of school district loans through this formula was a precursor to the state grant program discussed below.

The First Loan Program Bond Initiatives

In 1949, the state issued its first bond proposal for education facilities financing[13] in the amount of $250 million.[14] This first initiative also began a cycle of inadequate funding. In that year, the Legislature thought that $400 million was necessary (over what school districts could afford above their debt limits) to meet the need of school districts that were facing enrollment growth from the new generation of baby boomers. However, after substantial debate, the bond proposal was reduced to $250 million, because the sponsors thought, "the people would not vote for such a large sum at one time."[15] In arguments

against the bond, opponents argued that $250 million was insufficient. Therefore, absent full funding, voters should reject the initiative. The measure passed.

In 1952, another school construction bond of $185 million was put before the voters. Proponents of this initiative stated that the amount was "extremely" conservative. A comprehensive study by the State Department of Education at that time revealed that $198 million was needed, while the Department of Finance estimated the need at $250 million. Again, the amount of needed resources surpassed the amount proposed, and the cycle of chronically under-funded facility financing for schools continued.

To further exacerbate the shortfall, the 1952 proposition, along with subsequent propositions offered in 1956, 1958, and 1960, included "poison pill" language that limited the Legislature's ability to appropriate any additional funds for school construction beyond that in the various propositions.[16] If the Legislature approved any additional resources for school construction, the amount of bonds that were sold would be reduced by an amount equal to the additional appropriation. After 1960, however, bond proposals excluded the language that precluded the Legislature from raising additional capital outlay funds.

During a two-decade period, the State Allocation Board administered this program as a bank. Resources from the state were limited, and many school districts were uncomfortable with the concept of borrowing money from the state, rather than from their local constituents. Further, since school districts were obligated to reach full bond indebtedness before applying for state loans, many did not participate. For these reasons, many school districts chose not to build facilities until their bonding capacity grew. Hence, many school districts found themselves chasing dollars after their schools were overcrowded—a situation not unlike today.

The Early 1970s

As a result of a major earthquake in the San Fernando Valley (Sylmar) in 1971, the state authorized $30 million[17] for a new program to finance the rehabilitation and construction of earthquake safe schools,[18] and for the renovation of buildings that the earthquake damaged.[19] This program was known as the School Buildings Safety Fund. Like its predecessor programs, the 1971 Act created a state loan program for eligible school districts. The Act also included provisions to forgive loans for school districts that had reached their bonding capacity. The 1971 program was augmented by a 1972 state bond initiative of $350 million of which $250 million was set aside for structural repairs due to earthquakes.[20] This latter bond initiative also provided a method for financing buildings in districts that did not meet the criteria of the program that was initiated in 1971,[21] and it required the State Allocation Board to first approve those applications from school districts for earthquake repairs. The State Allocation Board gave second consideration to funding projects for other types of repairs or upgrades. Hence, the Board began a new system for not only new construction but also repairs, as well as a system that set priorities.

A Changing Paradigm

From 1970 to 1980, public school enrollment statewide decreased by roughly one percent per year.[22] Reductions in both immigration and domestic in-migration to the state, as well as a decrease in the state's birth rate caused this decline. During this decade, there were sufficient resources available from local property tax revenues and from the state's loan program to meet the various rehabilitation needs especially of those school districts that were experiencing enrollment declines. The State Allocation Board thus shifted its loan program emphasis from new construction to rehabilitation, and to upgrading unsafe facilities that were damaged due to the 1971 earthquake.[23]

Nevertheless, some school districts continued to experience enrollment growth in response to suburban housing development.[24] In spite of such growth patterns, the State Allocation Board set its priorities to favor rehabilitation projects over new construction. The Board's orientation accentuated the differences between growing school districts and those that required rehabilitation, and caused an unequal state spending system that favored property rich urban districts over fiscally poor and growing suburban districts.[25]

To counter the State Allocation Board's orientation toward urban rehabilitation, growing suburban school districts recognized that in order to fund new school construction, they would have to depend almost entirely on their local property tax base. As more people demanded affordable housing in suburban neighborhoods, developers accommodated them by building numerous suburban housing units. The sheer increase in the number of suburban homes added significant resources to the property tax base, thereby benefiting the school districts that served those communities. Furthermore, the ongoing demand for suburban housing caused the prices of homes in these areas to increase precipitously, adding even more resources to the property tax base. Although school districts could have requested to reduce those tax rates that supported them to a minimum amount, they did not. Most districts kept their rates steady, and some even increased them. Homeowners, unhappy about menacing property taxes, sought relief. In 1972, the Legislature enacted a multi-year package, funded by the state's general fund, of $1.2 billion for school operation to be allocated over a three-year period and to serve as property tax relief.[26] In spite of this legislation, property taxes remained relatively high to cover local bond debt, and continued to be the primary source for school construction for growing school districts. Concurrently, the state continued to loan money to enrollment-static school districts for the purpose of rehabilitation.

Leroy Greene State School Building Lease Purchase Law

In 1976, the Leroy Greene State School Building Lease Purchase Law was signed into legislation.[27] This law established a state fund to provide loans to school districts for reconstruction, modernization, and replacement of school facilities that were more than 30 years old. The Act significantly altered the state's role in how school facilities construction was financed. Specifically, the state would no longer loan money; but it would finance school construction based on a leasing model.[28] Although the legislation was passed, the voters of the State remained unconvinced that more money was needed to

improve schools. Consequently, they did not pass the bond initiative that was necessary to fund the Lease Purchase Program.

The 1976 Act had specific language that created "priority points" for school districts that would apply for state funding. This was the first time that the State Allocation Board used a point system for creating a queue of approved projects. Priority points were given based on the number of unhoused students in the district, the rate of student enrollment growth, and how much rehabilitation a facility needed. Further, the Board instituted a first-come, first-served policy in which each accepted school district's application was stamped with a time and date.

Under the previous program, the state loaned money to school districts to build their facilities, and the school districts owned their property. Under the Greene legislation, however, the State maintained a lien on the property for the duration of the loan via a lease purchase agreement.[29] The State wanted to preclude school districts from purchasing land on a speculative basis using State money, only to sell the State funded property at a profit at a later date. This meant that the state would control the disposition of any school facility that it financed until the school district repaid its obligation on the lease.

The Proposition 13 Epoch 1978-1986

Proposition 13—Local Governments and School Districts Fiscally Stymied

With its passage, Proposition 13 eliminated the ability of local school districts to levy additional special property taxes to pay off their facility indebtedness. Proposition 13 capped the ad valorem tax rate on real property at one percent of its value, thereby reducing the income from property taxes to such an extent that it virtually eliminated this source as a means for lease payments. Proposition 13 also prohibited the electorate of a school district from authorizing a tax over-ride to pay debt service on bonds for the purpose of constructing needed school facilities.

To exacerbate this problem, the voters soundly defeated school construction bonds in both 1976 and 1978. They were two of only three[30] state general obligation bonds rejected by voters since 1947. The non-passage of these two successive bond initiatives, coupled with suburban enrollment growth, caused a statewide shortfall of $550 million[31] that was needed for school construction projects throughout the state in 1978.

Post Proposition 13

The limitations set by Proposition 13 caused school districts, counties and cities to turn to the state, which had a $3.8 billion surplus, to fill the gap.[32] In 1979, lawmakers approved a $2.7 billion (in 1978 dollars) "bailout" plan to assist schools and local governments.[33] Within a year, the state surplus was reduced to roughly $1 billion. Furthermore, the state had taken on a larger role as a funding source for school operations and capital improvement. To that end, it expected school districts to conform to its programs and projects.[34]

Effects of Proposition 13 on the Lease Purchase Program

In 1979, legislation implementing Proposition 13 included provisions for restructuring the State's Lease Purchase Program.[35] School districts that received funds from the state were required to pay rent to the State as low as $1 per year, creating an "unofficial" grant program.[36] In addition, school districts were to contribute up to 10% of the project's cost from local funds.[37] However, many school districts could not raise these matching funds through local bonds. They requested that the State fund their entire projects. The State Allocation Board created a waiting list of projects.

A Recession Further Complicates School Facility Financing

Beginning in 1982, California was in a recession that lasted until 1984. During this time period, the State's budget surplus was expended. School districts' recession experiences were complicated by the fact that student enrollments again began to increase again.[38] Approximately 60 percent of California's 1,034 districts at the time projected annual growth rates of over two percent between 1980-81 and 1983-84, with some districts projecting a doubling in their enrollment.[39] At the same time, estimates indicated that over one-third of the State's school buildings were over 30 years old and many needed substantial rehabilitation.[40] The Coalition for Adequate School Housing (CASH) estimated that the one-time cost of rehabilitating these older facilities would be $1.9 billion.[41] Further, CASH estimated that school districts would need an additional $400 million annually for the next five years for building and repairing school buildings. Since the State was in recession, such funds were not available. Thus the State had to rethink how it would prioritize its school facilities projects.

A New System for Funding School Construction

In light of the backlog of applications for state funds, the Office of Local Assistance (now known as the Office of Public School Construction) designed a numerical ranking system that used "priority points" to determine a school district's eligibility for funds. This system gave priority to school districts who had students who were "unhoused," and special consideration was given to how districts used certain facilities.[42] The more points a project application received, the higher on the list it was placed. Recognizing that school districts were facing enrollment growth and required further rehabilitation, the Legislature in 1982 authorized a general fund appropriation of $200 million for school construction projects. This amount was later reduced to $100 million.[43]

Further, in order to ease the burden that many school districts felt because of the recession, the State loosened the repayment schedule for its lease-purchase program. School districts were allowed, for 10 years, to pay one percent of the cost of state funded lease-purchase projects, rather than the 10 percent they initially were required to pay.[44] Again, the State Legislature and the State Allocation Board moved away from a loan program and more toward a grant program.

Multi-Track Year-Round Education

Recognizing that the State had very limited bond resources, the Legislature wanted a more cost-effective facilities financing incentive system for school districts. That system would force districts to use their space more efficiently. In response to the shift in policy, the Legislature passed Chapter 498, Statute of 1983. This statute encouraged school districts that were experiencing growth pressure to adopt multi-track year-round education (MTYRE) programs. MTYRE programs enroll students in several tracks throughout the entire calendar year. At any given time, one track is on vacation, but vacation periods are short in duration.[45] The MTYRE program allows a more intensive use of existing facilities, thereby reducing the need for new facilities in growing districts.

School districts received an immediate financial return if they participated in the MTYRE program. A school district that redirected its students into a MTYRE program received a grant of up to 10 percent[46] of the cost that would be necessary to build a new facility not to exceed $125 per student.[47] School districts that participated in MTYRE were eligible for air conditioning and insulation in their buildings.

In 1988, as pressure for state financing continued, the Legislature required that top priority for financing new construction projects be given to districts that used multi-track year-round education programs. School districts that offered MTYRE and were willing to match 50 percent of their construction costs received a funding priority from the State Allocation Board.[48] This put other school districts that could not meet these MTYRE and funding criteria at a distinct disadvantage. These latter school districts sought relief from the voters in 1986. Small school districts were one exception to the MTYRE requirement.

1986 Lease Purchase Program

In 1986, the voters approved Proposition 46. Proposition 46 amended Proposition 13[49] by restoring to local governments, including school districts, the ability to issue general obligation bonds and to levy a property tax increase to pay the debt service subject to a two-thirds vote of the local electorate.[50] This amendment allowed school districts to augment the one-percent cap on property taxes and to secure additional bond indebtedness to build and improve their schools.[51]

Passage of Proposition 46 helped, but did not solve school districts' financing problems. Many school districts were unable to secure the necessary two-thirds vote to authorize local funding, and still relied on state funding to assist them. Further, the federal government in 1986 passed legislation that required each state to remove friable asbestos from their educational facilities – another charge that the school districts could ill afford.

California adopted similar asbestos standards to those established by the federal government in 1986; however, few school districts reported their estimated costs for removing the substance. In light of the need to remove the asbestos, and in order to address the growing backlog of proposed school construction projects, voters passed Proposition 79 in 1988 - an $800 million bond initiative. It specifically set aside $100 million to cover asbestos removal.[52]

A Growing Shortfall and Greater Scrutiny

There is no doubt that from 1982 to 1988 state support for public school construction was limited and difficult to secure. The demand for new school facilities, for modernization, and for asbestos removal was great.[53] As of June 1, 1986, applications that were submitted by school districts to the State Allocation Board for state funding of *new school construction* projects alone totaled roughly $1.3 billion. In addition, applications for state funding for *reconstruction or rehabilitation* of school facilities totaled over $991 million.[54] Total demand for school facility improvement in 1986 was nearly $2.3 billion - an amount that significantly outweighed the $800 million voters approved in that year's bond initiative.[55] Even with a boost of funding of $150 million per year from Tidelands revenues in fiscal years 1984 and 1985, the Lease Purchase Program fell short.[56] By 1988, the shortfall had grown to $4 billion, in spite of the fact that voters had approved $2.5 billion in bond money from 1982-1988.

The State Allocation Board was forced to scrutinize every request for school construction funding, recognizing that absent a major infusion of State bond money, most districts would not receive funding for their projects. This scrutiny created an extremely competitive environment for the limited resources that were available to the schools. Many participants believe that school districts that contracted with knowledgeable consultants, or had district staff who were familiar with the State Allocation Board's policies and criteria, were the most successful in securing a high ranking place in the queue for resources, once those funds become available.

There is no definitive research or data that support this belief. Consultants are not required to report their involvement in the application process. However, there is substantial anecdotal evidence to support the assertion.

School Financing as a Collective Effort—The Three Legged Stool

In 1986, the Legislature recognized that resources were scarce and that no one governmental or private entity could finance school construction. It attempted to equalize the burden of school facilities financing between state government, local government and the private sector.[57] This concept was known as the "three legged stool." The idea was that the state would provide funds through bonds. Local government would provide its share through special taxes, general obligation, Mello-Roos and other bond proceeds. The private sector would provide funds through developer fees. Appendix A describes funding alternatives for these latter two legs of the stool.

The "three legged stool," however, never quite worked. For example, to assure that developers would not fund a disproportionate share of the cost to build schools, the Legislature, in 1986, capped the amount new homebuyers would pay for developer fees at $1.50 per square foot, and empowered the State Allocation Board to raise the cap by a certain amount each year. However, school districts found a loophole around the cap by requesting that cities impose a fee on their behalf, and cities imposed rates on some

developers that exceeded those allowed.[58] California courts upheld these fees in the Mira, Hart, Murrieta court cases.

Until the recent passage of Proposition 1A, many local governments have imposed developer fees that exceed those allowed by the Board. For example, in 1987, fees in San Diego and Orange counties reached a high of $8700 per house.[59] By 1990, total development fees for some homes reached $30,000.[60] Statewide, developer fees have increased from $31 million in 1978 to $200 million in 1997.

In 1998, the State Allocation Board increased the fee to $1.93 per square foot.[61] With the passage of Proposition 1A in November 1998, however, local governments have apparently lost their ability to increase their fees beyond those determined by the State Allocation Board. Further conflict is likely.

The 1990s—Complicated Funding Programs

In the fall of 1990, the Legislature passed legislation that created two programs that provided additional financial incentives for schools to offer year-round education.[62] The first of these programs provided a one-time grant to school districts to ease the expense of changing from traditional nine-month programs to year-round tracks. The second program provided an "operating grant" of between 50 percent and 90 percent of the amount districts saved the state by not having to build new schools. At the recommendation of the Office of the Legislative Analyst, the Legislature repealed the 1982 and 1986 incentive programs discussed above.[63]

In response to the 1990 legislation, the State Allocation Board developed a new priority system for allocating lease purchase money. Under this new system, the Board apportioned funds based on a combination of when an application was received and how many priority points it garnered. Through a complex formula, priority points were given to schools that had a significant number of "unhoused students," or had substantial rehabilitation needs. This procedure might have worked well if the state could have financed all applications in a timely manner. However, the demand for state money increased to the point where districts without special priorities could expect to wait years for the state to finance their projects.

The program was in effect for only one year when the Legislature repealed the program and created yet another system for allocating state money.[64] In 1991, the Legislature defined six priorities for funding. First priority was given to districts that had a "substantial"[65] enrollment in multi-track schedules, and that were paying at least 50 percent of the construction costs for their new schools. Second priority went to districts with a "substantial" year-round enrollment and that wanted the state to pay the entire cost of any new construction for their year-round schools. The remaining four priority levels took into consideration factors for those schools who did not meet the "substantial enrollment" criteria outlined above, or were unable to match state resources.

The complex set of formulas made it difficult for school districts to completely understand what criteria would best serve them. Further, throughout this period, the Board was

required to implement new programs and redefine its priorities. For example, in 1990 the Legislature created a program that was adopted by State Allocation Board for school districts that could not find adequate land on which to build a school. Known as the Space Saver Program, it was designed to assist urban school districts that could not obtain adequate acreage for a school campus. The first space saver school, developed in 1993, is scheduled to be completed in Spring 2000 in the Santa Ana Unified School District, in a former shopping mall.[66]

Another example of shifting priorities took place in 1996 when the Legislature mandated the Board to redirect its third highest priority to class size reduction from a previous focus on child-care facilities.[67] A third took place at the end of 1997 when the priority points system was replaced by a first-come, first served system. While there were exceptions to this rule, money was offered first to school districts willing to cover some of the costs associated with constructing or repairing facilities. Schools that could not afford to cover the remaining 50 percent were placed on a separate list.

Such shifts in policy, coupled with the significant complexity of formulas that drove the priority point system, along with the sporadic creation of new programs, caused many school districts to depend on outside consultants. These consultants understood the many policy changes that the Board enacted – sometimes on a monthly basis. They were also knowledgeable of new programs, and clearly understood the workings of the staff who carried forth the Board's policies. Without the assistance of consultants, school districts were unable to keep track of policy changes and special considerations enacted by the Board. Further, while the Board and its staff advised school districts regarding changes in their policies in a regularly published document, it did not provide a centralized source of materials, such as an up-to-date handbook. Consequently, school district personnel were often uninformed about the various nuances of the programs administered by the Board.

State Bond Efforts of the Nineties

As the State Allocation Board shifted its focus and policies throughout the early 1990s, Californians approved state school bond initiatives in 1990 for $1.6 billion and in 1992 for $2.8 billion. In one of its 1992 reports, the Department of Finance reported that statewide K-12 enrollment was estimated to grow by 200,000 new students per year for at least five years,[68] and that an estimated $3 billion would be needed annually for new school construction.[69] However, in spite of growing enrollments and a significant demand for facility rehabilitation, in 1994, the electorate rejected a $1 billion bond initiative. The State was in a recession.

A lack of State bond funds was not the only problem associated with the allocation of school construction funds. The Auditor General reported in 1991 that the Office of Local Assistance mismanaged state funds. It detailed that construction funds loaned to school districts were not recovered; that districts overpaid on some projects and failed to collect the overage; that it dispersed funds without proper documentation; and that it failed to conduct required close-out audits on construction projects.[70]

As a result of this audit, the Office of Public School Construction in concert with the State Allocation Board developed stringent internal and external audits and fiscal controls. These control mechanisms included increasing the detail of financial review of projects, prohibiting school districts from participating in the program unless a balance was not due, and no longer receiving rent checks for portable classrooms.[71]

Attempts to Ease Passage for Local Bonds

Recognizing that the State would be unable to fund the entire backlog of school construction proposals, Governor Pete Wilson in 1992 proposed a constitutional amendment to reduce the requirement for the passage of local bonds from two-thirds to a simple majority.[72] The idea was that local governments should have to meet the same 50 percent requirement as the State for passing bonds. Further, there was strong sentiment in the Wilson administration that local governments should pay an increased share of school construction costs. However, the Legislature rejected his plan.[73] Other attempts in recent years to reduce the vote for passage of local bonds from two-thirds to something less have also failed.[74]

1996 School Bond Issuance - Finally More Money

Proposition 203, passed by the voters in March 1996, provided $2.065 billion for school facility construction. However, the Legislature at the time estimated that school districts would need $7 billion in construction funds to meet enrollment growth that was anticipated during the next five years.[75] This $7 billion did not include the needs of Los Angeles Unified School District (LAUSD), which had 20 percent of the state's student population. At the time, LAUSD alone needed $3 billion to upgrade and modernize its schools.[76] Clearly, anticipated demand for State funds substantially exceeded available resources.

To respond to the many school district proposals, the State Allocation Board followed its general priority points policy. However, many school districts, recognizing that they would not receive funding for years because of their position in the funding queue, and because of the limited amount of resources that were available, resorted to creative means to try to secure funding for their projects. For example, some schools districts sought special consideration for funds by requesting emergency allocations. Such a tactic would allow a school district to receive funds immediately.[77] Other school districts used the appeals process to argue that their projects were needed more than those of other school districts that were higher in the queue.[78]

This cannibalistic dynamic caused a fair amount of resentment among those school districts that were bumped from a relatively high position in the queue by those districts that sought emergency relief or special consideration. Further, it was clear that the most sophisticated school districts found a variety of tactics that would secure the funding of their projects. These tactics are described in greater detail later in this paper under the section that describes how the Board processed its applications.

Class Size Reduction Causes Greater Housing Needs

The distribution of funds from Proposition 203 was further complicated by the Governor's Class Size Reduction Initiative. In particular, the State Allocation Board earmarked $95 million for the purpose of purchasing 2,500 portable classrooms for schools that were facing severe classroom shortages. This was in addition to $200 million that the Department of Education had available for assisting schools in purchasing such facilities. The Office of Public School Construction determined that a total of 17,500 classrooms were needed to accommodate class size reduction, and that there was only enough money to fund less than half of the estimated need.[79] The State Allocation Board reinterpreted Proposition 203 by creating a new Portables Purchase Program at the expense of their other programs. This caused some school districts to again get bumped in the queue for funding.

Never Enough Money—Still a Shortfall

Since1947, the electorate has approved all but three State bond initiatives. In spite of the voters' tendency to support various bond initiatives, by 1998, the backlog of school construction projects that were approved by the State Allocation Board, but unfunded, totaled more than $1.3 billion. Although the voters have been generous by approving bond initiatives roughly every two years,[80] there were times during the past five decades when bond money was not available for periods of four or six years.[81]

The Department of Finance has estimated that $16 billion is needed over the next decade for public school construction and rehabilitation.[82] Various bond proposals in 1997 and 1998 were circulated that considered multiple-year bond issuances. The California Teachers Association and the California Building Industry Association presented a plan to issue $2 billion a year for 10 years.[83] Governor Wilson proposed $2 billion a year for four consecutive years. In the end, Proposition 1A was passed. It provides $6.7 billion over a four-year period. However, while the amount appears generous, it will not be enough to meet the entire anticipated need of the state. Based on the Department of Finance projections, the six years following this bond issue will require roughly an additional $10 billion in State money.

Table 1 on page 18 shows the history of state school bond initiatives from 1949 to 1998. In the next sections of this report, we discuss the various programs, the complicated application process used by the State Allocation Board that school districts had to endure to secure funding, and how Proposition 1A attempts to simplify this process.

Table 1 - STATE SCHOOL CONSTRUCTION BONDS		
Title of Bond Initiative	Date & Year of Election	Funds Authorized
School Building Aid Law of 1949	November 8, 1949	$250,000,000
School Building Aid Law of 1952	November 4, 1952	$185,000,000
School Building Aid Law of 1952	November 2, 1954	$100,000,000
School Building Aid Law of 1952	November 4, 1958	$220,000,000
School Building Aid Law of 1952	June 7, 1960	$300,000,000
School Building Aid Law of 1952	June 5, 1962	$200,000,000
School Building Aid Law of 1952	November 3, 1964	$260,000,000
School Building Aid Law of 1952	June 7, 1966	A)$275,000,000
School Building Aid Law of 1952	June 6, 1972	B)$350,000,000
School Building Aid Law of 1952 And Earthquake	November 5, 1974	$150,000,000
School Building Lease-Purchase Bond Law of 1976 (Failed)	June 8, 1976	$200,000,000
School Building Aid Law of 1978 (Failed)	June 6, 1978	$350,000,000
School Building Lease-Purchase Bond Law of 1982	November 2, 1982	$500,000,000
School Building Lease-Purchase Bond Law of 1984	November 6, 1984	$450,000,000
Green-Hughes School Building Lease-Purchase	November 4, 1986	$800,000,000
School Facilities Bond Act of 1988	June 7, 1988	$800,000,000
1988 School Facilities Bond Act	November 8, 1988	$800,000,000
1990 School Facilities Bond Act	June 5, 1990	$800,000,000
School Facilities Bond Act of 1990	November 6, 1990	$800,000,000
School Facilities Bond Act of 1992	June 2, 1992	$1,900,000,000
1992 School Facilities Bond Act	November 3, 1992	$900,000,000
Safe Schools Act of 1994 (Failed)	June 7, 1994	$1,000,000,000
Public Education Facilities Bond Act of 1996, Proposition 203	March 1996	C)$3,000,000,000
Class-size Reduction Kindergarten-University Public Education Facilities Bond Act of 1998, Proposition 1A	November 3, 1998	D)$9,200,000,000

Bonds in [bold] failed to receive a majority of votes.

A) New amount of 1966 bond authorization available for regular program is $185.5 million after deducting $35 million reserved for compensatory education facilities, $9.5 million for regional occupational centers, and $35 million for rehabilitation and replacement of earthquake damaged and unsafe schools.

B) Up to 250 million dollars earmarked for rehabilitation and replacement of unsafe schools.

C) One billion dollars earmarked for higher education facilities

D) Two and one-half billion dollars is allocated for higher education.

THE PROGRAMS

Prior to the approval of Proposition 1A, the State Allocation Board oversaw six active programs associated with school facility construction, repair, and remodeling. These six programs made up the Lease-Purchase Program that was discussed earlier in this paper. This section briefly describes these programs, discusses how the State Allocation Board set priorities for school district projects, explains how the Office of Public School Construction staff reviewed and acted upon district proposals, and how the State Allocation Board considered district appeals. The purpose is to advise the reader of not only the process and administration of allocation, but also some of the pitfalls that existed under the old system. Perhaps these pitfalls of the old system can be avoided when allocating Proposition 1A resources.

The Growth and Modernization Programs

The Growth and Modernization Programs allocated funds to school districts for building new schools (Growth Program) and for repairing existing facilities (Modernization Program). School districts qualified for the Growth Program based on an "allowable building standards" formula.

For its Growth Program, the State Allocation Board developed standards for the amount of space that was necessary to house students based on a district's number of ADA (Average Daily Attendance).[84] The Modernization Program provided funds to school districts for nonstructural improvements to permanent school facilities that were more than 30 years old, and for portable buildings that were more than 20 years old. Such nonstructural improvements included interior partitions, air conditioning, plumbing, lighting and electrical systems.

The Modernization Program provided funding for up to 25 percent of the replacement value of the building. Under some circumstances, districts could use additional funds beyond the 25 percent for handicap access compliance, including elevators when appropriate, and for alternate energy systems.

School districts could apply to this program by offering to match state funds and be listed as "Priority One," or they could ask the State to fund their entire project and be listed as "Priority Two."

Process for Receiving Growth and Modernization Funds

School districts that applied for growth and/or modernization funds were required to follow nine steps in three critical areas - planning, site selection and construction. Each of these three critical areas provided a separate and gradual funding stream for the school's project.

Planning Phase

During the planning phase, a district was required to complete four forms that demonstrated that it was eligible for either the growth or modernization program.

Eligibility to participate in the programs was based on enrollment patterns or the age and condition of those schools that required modernization. If a district met these standards, it moved on to the "site development phase."

Site Development Phase

Selecting a school site was critical. If a school district was participating in the modernization program, it would move to the next phase. The site would have to be safe and able to support the school's curriculum. An adequate site would have to meet certain standards with respect to size and location. Site review could take a school district months (if not years) to investigate. Under the growth program, a school district arranged a search committee to locate available properties and narrowed its search to three sites. In addition, the school district held public hearings regarding the impact of the lands to be used for educational purposes, and notified neighbors about possible site use. A representative from the Department of Education visited three selected sites to review and determine which was the most suitable site based on criteria including, but not limited to: street traffic safety; traffic congestion; geological hazards; and other environmental issues. All school districts followed a similar process for site selection whether they financed the project themselves, or requested State funding.[85]

Some school districts were unable to build new schools because they could not secure appropriate properties. This was especially true in urban and industrial areas where vacant land was not readily available or was extremely expensive.[86]

Once a district found an appropriate property, it was required to prepare a site development plan that included architectural and engineering drawings, along with building contract agreements. Districts were required to follow strict site development, plan development, and construction cost guidelines in order to be eligible for state funds.[87] Once these guidelines were met, the district proceeded to the construction phase.

Construction Phase

Every construction project received an allowance for site development and to erect a building. The eligible costs associated with construction for these programs were classified into several broad categories: building construction; site development; energy conservation; and supplemental funding for multi-story construction. In addition, facility funding included adjustment costs associated with geographic and regional differences, or the demolition of an existing structure.

A project architect for each contract developed final plans and documents as part of the project's final stage. These documents were used to establish a construction budget. The Division of the State Architect approved and monitored the district's final plans. After review, a construction apportionment was recommended to the State Allocation Board, which in turn authorized the distribution of funds. Upon completion of all regulatory oversight, the district was allowed to break ground.

The Deferred Maintenance Program

The Deferred Maintenance Program provided a 50 percent State match to assist school districts with expenditures for major repair or replacement of school buildings. Such repairs or replacements were for plumbing, heating, air conditioning, electrical systems, roofing, interior and exterior painting, and floor systems. School districts were required to place one and one-half percent of their general funds into an escrow account in order to receive a State match. For school districts that could not fit the parameters of the modernization program, the deferred maintenance program was the only alternative to receive State assistance.

The State also provided critical hardship funds to repair buildings that might seriously affect the health and/or safety of pupils. When available funding was insufficient to fully fund all hardship requests in any given year, the State Allocation Board created a priority list. However, the State Allocation Board often made exceptions to its list.

The Deferred Maintenance Program differed from the modernization program in that school districts were required to submit a five-year plan as to how their projects would be implemented. The plan displayed a rank for each project, and identified those projects that the school district would likely fund.

Deferred Maintenance Application Process

Based on the most recent available material, the deferred maintenance program had 13 steps, and a school district needed to complete several forms and documents. The 13 steps were divided into categories including a letter of interest, application process, critical hardship project documentation, and fund release.

A school district notified the Office of Public School Construction each year if it wanted to participate. Upon receipt of the initial letter, the Office of Public School Construction would send the district a request for its five-year plan of maintenance needs and an "Annual Application for Funds."

The school district would then provide the OPSC with a list of items scheduled for major repair or replacement,[88] along with its five-year implementation plan. When the district received state funds, it could only expend those resources for those items on the list. It could not redirect any resources toward administrative overhead, repair and maintenance of furniture, ongoing preventative maintenance, energy conservation, landscaping and irrigation, athletic stadium equipment, drapery or blackout curtains, testing underground storage tanks for leaks, or chalkboards.

Once the Office of Public School Construction approved a school district's list of projects it allocated funds accordingly. In cases of hardship, OPSC would visit the school prior to allocating funds. The district's governing board controlled and was responsible for all deferred maintenance funds. These funds were placed in a special escrow account.

The Year-Round Air Conditioning/Insulation Program

The Year-Round Air Conditioning/Insulation Program (ACI) began in 1986, as an incentive program for schools to operate during the summer.[89] In order to participate in the program, a school district was required to have a plan for Multi-Track Year-Round Education, or have 10 percent of its students enrolled in a Multi-Track Year-Round Education program. The ACI program assisted school districts by providing resources for air conditioning and insulation.

Year-Round Schools Air Conditioning/Insulation Application Process

The application process for the ACI program differed slightly for those school districts that had a year-round program from those that were planning a year-round program. However, regardless of their status, school districts were required to complete eleven stages in two phases to receive funding. If a school district had an air conditioning system that needed repair, it could not apply to this program, but could apply for funds under the deferred maintenance program.

A school district completed forms that included information on the buildings and spaces that would be affected, along with a report regarding the project's anticipated start-date. In addition, another application was required that provided information on whether the school site was experiencing enrollment growth, and whether some level of modernization was already in progress. Further, a school district that was not on a year-round schedule was required to show how its year-round calendar would be used. If the district was approved for funding, various allowances were provided to the district.[90] In addition to these allowances, the state would provide funds for gas and electric service, general site development, and air conditioning/insulation construction.

Items that were not covered by this program included costs for heating, window solar film, classroom doors and hardware, re-roofing, lighting, security, interior housing, fire alarm systems, unrelated repairs, installations, and painting.

The State Relocatable Classroom Program

The Relocatable Classroom program was designed to meet the needs of school districts that were impacted by excessive growth or unforeseen classroom emergencies. The State Allocation Board allocated funds for the acquisition, installation, and relocation of safe portable classroom facilities. The State maintained a fleet of 5,000 furnished classrooms that could be leased to school districts for $4,000 per year. Hardship cases could lease portables for $2,000 per year. These portable units were available on a first-come, first-served basis. However, there was no maximum amount of time a school district could keep the portables, and districts were not required to return them. Thus, some school districts have kept the portables indefinitely.

Relocatable Classroom Application Process

In order to participate in either relocatable classroom program, a school district was responsible for site preparation costs including electrical hookup, plumbing connection, a State Architect approved plan, insurance and maintenance. After approval by the Board, the district would be reimbursed for the cost of architect fees, electrical hookup, furniture and equipment, and plumbing installation. However, reimbursements were capped at $9,450 per classroom.

The Unused Site Program

The Unused Site Program was established in 1974 as part of the General Lease–Purchase umbrella. It required school districts and county superintendents of schools to pay a fee for district properties that were not used for "official" school purposes. "Official" school purpose was defined as being used for K-12 education, continuing or adult education, special education, childcare, or administration of any educational units.

This program did not provide funds directly to schools. However, resources generated from the fees that districts paid for unused facilities were used to cover deferred maintenance costs and to service the debt on the state's various school construction bonds. Since the Board simply administered the return of funds to the state, the funds could not be redirected to other programs administered by the Board. Proposition 1A eliminates their fee requirements.

The Office of Public School Construction Staff Review and The State Allocation Board's Appeals Process

The State Allocation Board meets roughly 11 times a year. At each meeting the Board reviews and approves about 200 applications for funding. Prior to the State Allocation Board's review, the Office of Public School Construction staff processes all applications. Before Proposition 1A, the approval processes for the programs, except for the growth and modernization programs, were straightforward. Either a school district's application fit a program's description for reimbursement, or it did not. Due to the complicated nature of the Growth and Modernization programs, "special considerations," or project applications that did not fit in the parameters of the program were placed in a different category. The State Allocation Board approved roughly 90 percent of all growth and modernization projects without special consideration. Issues requiring special consideration could include peculiarities of the proposed site, or the costs associated with a project. The applications were divided into special consents or "specials," and appeals. Both types permitted the Office of Public School Construction staff great latitude in the decision-making process, as they investigated and evaluated school district applications on a case-by-case basis.

A "special" occurred when OPSC staff reviewed a school district's application that did not meet the standards of the program, and determined that an exception should be made. This agreement may have required several meetings between the school district's administration and the OPSC staff. With OPSC staff recommendation, which may have

been inconsistent with State Allocation Board policy, this application would be brought before the State Allocation Board for review. This category was normally granted approval in one action.

An appeal occurred when OPSC staff reviewed a school district's application that did not meet the standards of the program, and determined an exception should not be made. If after several meetings an agreement could not be reached, the school district would bring its case before the State Allocation Board. An appeal was granted only on a case-by-case basis. At times, legislators have spoken on behalf of school districts at Board meetings.[91] The difference in the two types of special considerations was that a school district or its representative would have to defend its actions in an appeal. However, as already noted, only those people who kept up with the process and policy changes were adept enough to tackle an appeal. Therefore, a school district seeking an appeal before the State Allocation Board might seek help from legislators that represented them, or hire consultants. For instance, in the May 1998 State Allocation Board meeting, a well-versed school finance consultant appeared on behalf of the Apple Valley Unified School District. Apple Valley hired both a construction manager and a general contractor to erect its new school, in the face of board policies allowing a school district to hire only one such position. On behalf of the school district, the consultant addressed the State Allocation Board, and pointed out that in five other cases the State Allocation Board had voted in favor of a school district that hired both a general contractor and a construction manager.[92]

Less seasoned district representatives would not have known that the State Allocation Board had already set a precedent for funding projects that include both a construction manager and a general contractor.[93] The OPSC staff was not knowledgeable on this issue and therefore could not be a source of information.

PROPOSITION 1A—A POSSIBLE FIX TO SAB PROCESS PROBLEMS

Proposition 1A not only authorizes an additional $6.7 billion to K-12 schools, but it also offers a fix to several of the process problems discussed above. It replaces the provisions of the previous Lease-Purchase Program. This section discusses (1) the resource allocation provisions of the legislation; (2) the programmatic components of the legislation; and (3) how the legislation improves the resource allocation process over that which existed under previous bond programs.

Total Resource Allocation Provisions of Proposition 1A

The resource allocation system in Proposition 1A is specific and detailed. Bond proceeds are to be allocated in 2 two-year cycles: $3.35 billion available immediately; and $3.35 billion available after July 2, 2000. Of the $3.35 billion that is immediately available, $1.35 billion is earmarked for new construction, $800 million for modernization, $500 million for hardship cases, and $700 million for class-size reduction.

For the second $3.35 billion distribution, $1.55 billion will be available for new construction, $1.3 billion for modernization, and $500 million for hardship cases. There are no resources in the second allocation for class-size reduction.

School districts receive funding for their projects based on a per pupil formula. The formula is based on a statewide average cost for construction, adjusted each January for inflation. The figures are based on unhoused [94]average daily attendance (ADA). The per pupil ADA formula is as follows:

	Growth	Modernization
Elementary	$5,200	$2,496
Middle School	$5,500	$2,640
High School	$7,200	$3,456

It is anticipated that the initial $1.35 billion available for new construction during the first round of allocations will be insufficient to meet the needs of those school districts that are facing substantial enrollment growth. Proposition 1A establishes a priority point system for new construction projects when State bond resources are exhausted.[95] The Office of Public School Construction will process applications on a first-come, first-served basis from subsequent bond offerings.

In addition to the provisions outlined above, school districts that receive bond proceeds are required to set aside three percent of their general funds each year for 20 years for the purpose of deferred maintenance.

Components of Proposition 1A

Proposition 1A establishes three categories for funding. The first is the Growth Program, in which the State finances half the cost of new construction and the school district the other half. The second is the Modernization Program, in which 80 percent of the cost of rehabilitation is provided by the state and 20 percent by the school district. The third category is "hardship," in which the State funds up to 100 percent of the cost for emergency needs, or an increased proportion of its share for new construction or modernization.[96]

Proposition 1A holds harmless those school districts that received State Allocation Board approval for the construction phase of their projects (under the previous Priority 1 - able to provide a 50 percent match). They will receive growth and modernization funds, but under the rubric of the previous "Lease Purchase Program." This grant is supplemented by land costs, site development, and other adjustments.

Another new provision of the Proposition is that school districts can seek modernization resources after a facility is 25 years old, rather than 30 years under the previous program.

Schools districts that had received prior Board approval for Priority 2 projects (100 percent state funding) will have to either indicate their ability to finance 50 percent of their proposed projects or reapply under one of the new programs. If the school district cannot meet the provisions of the new programs, it can apply as a "hardship" case.

The California Supreme Court ruled in 1991 that cities and counties could limit housing development on the basis of the supply of classrooms.[97] Proposition 1A suspends, until 2006, the Court's ruling.[98] With the passage of Proposition 1A, school districts will not be able to limit new housing construction based on a rationale that school facilities do not exist. However, in 2006, if adequate bond funds for new construction are not available, cities and counties can once again deny development. Further, as discussed earlier, the Proposition permits the school board to increase developer fees to up to $1.93 per square foot.[99] Proposition 1A sets up a system where fees can be levied of up to 50 percent and 100 percent of the costs associated with building a school by developers under certain circumstances.

Proposition 1A Improves the Resource Allocation System of the State Allocation Board

Proposition 1A makes several changes to the programs administered by the State Allocation Board. It attempts to simplify the process of applying for funds, consolidates the Board's previous six programs into two, and attempts to create a more equitable funding system. It also makes the State Allocation Board and the Office of Public School Construction staff more accountable for their actions. Table 2 presents the differences between the Board's previous Lease Purchase Program, and the new programs that are initiated by Proposition 1A.

Table 2 - Comparison of Lease Purchase Program to Proposition 1A Programs

	LEASE PURCHASE PROGRAM	SCHOOL FACILITIES PROGRAM PROP 1A
FUNDING FACILITIES	Priority 1 projects-growth and modernization-received 50 percent funding based on actual costs from the state. Priority 2 projects-growth and modernization-received 100 percent funding form the state.	Growth projects receive 50 percent funding based on a per pupil formula from the state. Modernization projects receive 80% funding from the state. Hardship projects can receive up to 100 percent of funding from the state based on three broad categories financial, physical and excessive costs.
CONSTRUCTION EXCESSIVE COSTS & COST SAVINGS	Some excessive costs (i.e., change orders) were reimbursed by the state. Cost savings were returned to the state.	Excessive costs are not reimbursed by the state and school districts keep costs savings.
MODERNIZATION PROJECTS	Buildings must be at least 30 years old.	Buildings must be at least 25 years old.
PROJECT APPROVAL	Projects were approved three times in conjunction with the planning, site acquisition and construction phases.	Projects receive one approval (except hardships that receive two approvals).
FUND ALLOCATION	Funds were allotted after each phase.	Funds are allotted only after DSA approves plans, unless there is a hardship.
