The bill would require the ballot to be printed with a statement that the governing board will appoint a citizens' oversight committee and conduct annual independent audits to assure that funds are spent only on school and classroom improvements and for no other purposes. The bill would require that after a successful election, the board appoint an independent citizens' oversight committee, as specified. The bill would state that the purpose of the citizens' oversight committee is to inform the public concerning the expenditure of bond revenues.

The bill would authorize, as specified, an action to be maintained to restrain and prevent expenditures of bond funds under certain circumstances.

The people of the State of California do enact as follows:

SECTION 1. Section 15102 of the Education Code is amended to read:

15102. The total amount of bonds issued pursuant to this chapter and Chapter 1.5 (commencing with Section 15264) shall not exceed 1.25 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying that result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll.

SEC. 2. Section 15106 of the Education Code is amended to read:

15106. Any unified school district or community college district may issue bonds * * * that, in aggregation with bonds issued pursuant to Section 15270, may not exceed 2.5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located.

In computing the outstanding bonded indebtedness of any unified school district or community college district for all purposes of this section, any outstanding bonds shall be deemed to have been issued for elementary school purposes, high school purposes, and community college purposes, respectively, in the respective amounts that the proceeds of the sale of those outstanding bonds, excluding any premium and accrued interest received on that sale, were or have been allocated by the governing board of the unified school district or community college district to each of those purposes respectively.

(a) For the purposes of the State School Building Aid Law of 1952 (Chapter 6 (commencing with Section 16000) of Part 10) with respect to applications for apportionments and apportionments filed or made prior to September 15, 1961, and to the repayment thereof, Chapter 6 (commencing with Section 15700) of this part, inclusive, only, any unified school district shall be considered to have a bonding capacity in the amount permitted by law for an elementary school district and a bonding capacity in the amount permitted by law for a high school district.

(b) For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying the result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll. In the event of the unification of two or more

school districts or community college districts subsequent to the 1987-88 fiscal year, the assessed value of all unitary and operating nonunitary property of the unified district or community college district shall be deemed to be the total of the assessed value of the taxable property of each of the unifying districts as that assessed value would be determined under Section 15102.

SEC. 3. Chapter 1.5 (commencing with Section 15264) is added to Part 10 of the Education Code, to read:

Chapter 1.5. Strict Accountability in Local School Construction Bonds Act of 2000

Article 1. General Provisions

15264. It is the intent of the Legislature that all of the following are realized:

(a) Vigorous efforts are undertaken to ensure that the expenditure of bond measures, including those authorized pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution, are in strict conformity with the law.

(b) Taxpayers directly participate in the oversight of bond expenditures.

(c) The members of the oversight committees appointed pursuant to this chapter promptly alert the public to any waste or improper expenditure of school construction bond money.

(d) That unauthorized expenditures of school construction bond revenues are vigorously investigated, prosecuted, and that the courts act swiftly to restrain any improper expenditures.

15266. (a) As an alternative to authorizing and issuing bonds pursuant to Chapter 1 (commencing with Section 15100), the governing board of a school district or community college district may decide, pursuant to a two-thirds vote and subject to Section 15100, to pursue the authorization and issuance of bonds pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution and subdivision (b) of Section 18 of Article XVI of the California Constitution. An election may only be ordered on the question of whether bonds of a school district or community college district shall be issued and sold pursuant to subdivision (b) of Section 18 of Article XVI of the California Constitution at a primary or general election, a regularly scheduled local election, or a statewide special election.

(b) Upon adopting a resolution to incur bonded indebtedness pursuant to subdivision (b) of Section 18 of Article XVI of the California Constitution and after the question has been submitted to the voters, if approved at the election, the bonds shall be issued pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution and this chapter, and the governing board may not, regardless of the number of votes cast in favor of the bond, subsequently proceed exclusively under Chapter 1 (commencing with Section 15100). Where not inconsistent, the provisions of Chapter 1 (commencing with Section 15100) shall apply to this chapter.

15268. The total amount of bonds issued pursuant to this section and Section 15102 shall not exceed 1.25 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred by a school district pursuant to this chapter, at a single election, shall not exceed thirty dollars (\$30) per one hundred thousand dollars (\$100,000) of taxable property. For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying that result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll.

15270. (a) Notwithstanding Sections 15102 and 15268, any unified school district may issue bonds pursuant to this article that, in aggregation with bonds issued pursuant to Section

15106, may not exceed 2.5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a unified school district, shall not exceed sixty dollars (\$60) per one hundred thousand dollars (\$100,000) of taxable property.

(b) Notwithstanding Sections 15102 and 15268, any community college district may issue bonds pursuant to this article that, in aggregation with bonds issued pursuant to Section 15106, may not exceed 2.5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a community college district, shall not exceed twenty-five dollars (\$25) per one hundred thousand dollars (\$100,000) of taxable property.

(c) In computing the outstanding bonded indebtedness of any unified school district or community college district for all purposes of this section, any outstanding bonds shall be deemed to have been issued for elementary school purposes, high school purposes, and community college purposes, respectively, in the respective amounts that the proceeds of the sale of those outstanding bonds, excluding any premium and accrued interest received on that sale, were or have been allocated by the governing board of the unified school district or community college district to each of those purposes respectively.

(d) For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying the result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll. In the event of the unification of two or more school districts subsequent to the 1987-88 fiscal year, the assessed value of all unitary and operating nonunitary property of the unified district shall be deemed to be the total of the assessed value of the taxable property of each of the unifying districts as that assessed value would be determined under Section 15268.

15272. In addition to the ballot requirements of Section 15122 and the ballot provisions of this code applicable to governing board member elections, for bond measures pursuant to this chapter, the ballot shall also be printed with a statement that the board will appoint a citizens' oversight committee and conduct annual independent audits to assure that funds are spent only on school and classroom improvements and for no other purposes.

15274. If it appears from the certificate of election results that 55 percent of the votes cast on the proposition of issuing bonds pursuant to subdivision (b) of Section 18 of Article XVI of the California Constitution are in favor of issuing bonds, the governing board shall cause an entry of that fact to be made upon its minutes. The governing board shall then certify to the board of supervisors of the county whose superintendent of schools has jurisdiction over the district, all proceedings had in the premises. The county superintendent of schools shall send a copy of the certificate of election results to the board of supervisors of the county.

15276. Notwithstanding any other provision of law, a county board of education may not order an election to determine whether bonds may be issued under this article to raise funds for a county office of education.

Article 2. Citizens' Oversight Committee

15278. (a) If a bond measure authorized pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution and subdivision (b) of Section 18 of Article XVI of the California Constitution is approved, the governing board of the school district or community college shall establish and appoint members to an independent citizens' oversight committee, pursuant to Section 15282, within 60 days of the date that the governing board enters the election results on its minutes pursuant to Section 15274.

(b) The purpose of the citizens' oversight committee shall be to inform the public concerning the expenditure of bond revenues. The citizens' oversight committee shall actively review and report on the proper expenditure of taxpayers' money for school construction. The citizens' oversight committee shall advise the public as to whether a school district or community college district is in compliance with the requirements of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution. The citizens' oversight committee shall convene to provide oversight for, but not be limited to, both of the following:

(1) Ensuring that bond revenues are expended only for the purposes described in paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(2) Ensuring that, as prohibited by subparagraph (A) of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution, no funds are used for any teacher or administrative salaries or other school operating expenses.

(c) In furtherance of its purpose, the citizens' oversight committee may engage in any of the following activities:

(1) Receiving and reviewing copies of the annual, independent performance audit required by subparagraph (C) of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(2) Receiving and reviewing copies of the annual, independent financial audit required by subparagraph (C) of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(3) Inspecting school facilities and grounds to ensure that bond revenues are expended in compliance with the requirements of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(4) Receiving and reviewing copies of any deferred maintenance proposals or plans developed by a school district or community college district, including any reports required by Section 17584.1.

(5) Reviewing efforts by the school district or community college district to maximize bond revenues by implementing cost-saving measures, including, but not limited to, all of the following:

(A) Mechanisms designed to reduce the costs of professional fees.

(B) Mechanisms designed to reduce the costs of site preparation.

(C) Recommendations regarding the joint use of core facilities.

(D) Mechanisms designed to reduce costs by incorporating efficiencies in schoolsite design.

(E) Recommendations regarding the use of cost-effective and efficient reusable facility plans.

15280. (a) The governing board of the district shall, without expending bond funds, provide the citizens' oversight committee with any necessary technical assistance and shall provide administrative assistance in furtherance of its purpose and sufficient resources to publicize the conclusions of the citizens' oversight committee.

(b) All committee proceedings shall be open to the public and notice to the public shall be provided in the same manner as the proceedings of the governing board. The citizens' oversight committee shall issue regular reports on the results of its activities. A report shall be issued at least once a year. Minutes of the proceedings of the citizens' oversight committee and all documents received and reports issued shall be a matter of public record and be made available on an Internet website maintained by the governing board.

15282. (a) The citizens' oversight committee shall consist of at least seven members to serve for a term of two years without compensation and for no more than two consecutive terms. While consisting of a minimum of at least seven members, the citizens' oversight committee shall be comprised, as follows:

(1) One member shall be active in a business organization representing the business community located within the district.

(2) One member shall be active in a senior citizens' organization.

Additions or changes indicated by underline; deletions by asterisks * * *

109

(3) One member shall be active in a bona fide taxpayers' organization.

(4) For a school district, one member shall be the parent or guardian of a child enrolled in the district. For a community college district, one member shall be a student who is both currently enrolled in the district and active in a community college group, such as student government. The community college student member may, at the discretion of the board, serve up to six months after his or her graduation.

(5) For a school district, one member shall be both a parent or guardian of a child enrolled in the district and active in a parent-teacher organization, such as the Parent Teacher Association or schoolsite council. For a community college district, one member shall be active in the support and organization of a community college or the community colleges of the district, such as a member of an advisory council or foundation.

(b) No employee or official of the district shall be appointed to the citizens' oversight committee. No vendor, contractor, or consultant of the district shall be appointed to the citizens' oversight committee. Members of the citizens' oversight committee shall, pursuant to Sections 35233 and 72533, abide by the prohibitions contained in Article 4 (commencing with Section 1090) and Article 4.7 (commencing with Section 1125) of Division 4 of Title 1 of the Government Code.

Article 3. Bond Accountability

15284. (a) An action to obtain an order restraining and preventing any expenditure of funds received by a school district or community college district through the sale of bonds authorized by this chapter pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution and subdivision (b) of Section 18 of Article XVI of the California Constitution may be maintained against any officer, agent, or other person acting on behalf of, that school district or community college district, by a citizen residing in the school or community college district who is assessed and is liable to pay an ad valorem tax on real property within the school or community college district, or who has paid an ad valorem tax on real property within the school or community college district within one year before the commencement of the action if it appears by the complaint or affidavits that any of the following conditions are present:

(1) An expenditure of funds received by a school district or community college district through the sale of bonds authorized by this chapter is for purposes other than those specified in paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(2) The expenditure is not in compliance with paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(3) That an expenditure in violation of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution will be made or will continue to be made during the litigation that would produce waste or great or irreparable injury.

(4) The governing board of a school district or community college has willfully failed to appoint the citizens' oversight committee in violation of the requirements of Section 15278.

(b) An action brought pursuant to this section shall take special precedence over all civil matters on the calendar of the court except those matters granted equal precedence by law.

(c) The rights, remedies, or penalties established by this section are cumulative to the rights, remedies, or penalties established under other laws, including subdivision (a) of Section 526 of Chapter 3 of Title 7 of Part 2 of the Code of Civil Procedure.

(d) If an order is obtained to restrain and prevent an expenditure of funds pursuant to subdivision (a), a court may award attorneys' fees pursuant to Chapter 6 (commencing with Section 1021.5) of Title 14 of Part 2 of the Code of Civil Procedure.

(e) The action authorized by this section shall be known as a "School Bond Waste Prevention Action."

15288. It is the intent of the Legislature that upon receipt of allegations of waste or misuse of bond funds authorized in this chapter, appropriate law enforcement officials shall

expeditiously pursue the investigation and prosecution of any violation of law associated with the expenditure of those funds.

SEC. 4. Section 35233 of the Education Code is amended to read:

35233. The prohibitions contained in Article 4 (commencing with Section 1090) and Article 4.7 (commencing with Section 1125) of Division 4 of Title 1 of the Government Code are applicable to members of governing boards of school districts and to members of citizens' oversight committees appointed by those governing boards pursuant to Chapter 1.5 (commencing with Section 15264) of Part 10.

SEC. 5. Section 72533 of the Education Code is amended to read:

72533. The prohibitions contained in Article 4 (commencing with Section 1090) and Article 4.7 (commencing with Section 1125) of Division 4 of Title 1 of the Government Code are applicable to members of governing boards of community college districts and to members of citizens' oversight committees appointed by those governing boards pursuant to Chapter 1.5 (commencing with Section 15264) of Part 10.

SEC. 6. This act shall only become operative upon the passage of the "Smaller Classes, Safer Schools and Financial Accountability Act" which is contained in a proposition at the November 7, 2000, general election.

Ch. 192

STATUTES OF 2000

POSTSECONDARY EDUCATION—SCHOOL FINANCE AUTHORITY
ACT—SECURED OR UNSECURED LOANS

CHAPTER 193

A.B. No. 2586

AN ACT to amend Sections 17180 and 17199.1 of the Education Code, relating to school facilities.

[Filed with Secretary of State July 24, 2000.]

LEGISLATIVE COUNSEL'S DIGEST

AB 2586, Campbell. School facilities: funding.

Existing law, the California School Finance Authority Act, establishes the California School Finance Authority for the purpose of assisting school districts and community college districts by providing financing for working capital and capital improvements. Existing law authorizes the authority, pursuant to an agreement between the authority and the purchasing district, to make secured or unsecured loans to, or purchase secured or unsecured loans from a participating district for any of the purposes prescribed in the act. The act also authorizes

1842 . Additions or changes indicated by underline; deletions by asterisks * * *

electors but not yet issued. Loans or purchases completed pursuant to this section may be used for either of the following purposes:

(1) To finance a project or provide working capital. No loan to finance a project shall exceed the total cost of the project, as determined by the participating district and approved by the authority.

(2) To refinance indebtedness incurred by the participating district in connection with projects undertaken, educational facilities acquired, or working capital financed.

(j) Upon the terms and conditions the authority deems proper, lease a project being financed pursuant to this chapter to a participating district, and charge and collect rent therefor. The authority may terminate a lease pursuant to this subdivision upon the lessee's failure to comply with any of its obligations under the lease. The lease may include any of the following provisions:

(1) That the lessee shall have the option to renew the term of the lease for the period or periods, and at the rent, determined by the authority, or to purchase any or all of the project.

(2) That upon payment by the participating district of all of the indebtedness incurred by the authority for the financing of the project or for the refinancing of the district's outstanding indebtedness, the authority may convey any or all of the project to the lessee or lessees, with or without further consideration.

(k) Charge and equitably apportion among participating districts its administrative costs and expenses incurred pursuant to this chapter.

(l)(1) Obtain, or aid in obtaining, from any state or federal agency or any private company, any insurance, guarantee, letter, or line of credit regarding, or of, or for, the payment or repayment of all or part of the interest, principal, or both, on any loan, lease, or obligation, or any instrument evidencing or securing the same, made or entered into pursuant to this chapter, or on any bonds issued pursuant to this chapter.

(2) Notwithstanding any other provision of this chapter, enter into any agreement, contract, or any other instrument regarding any insurance, guarantee, letter, or line of credit specified in paragraph (1), and accept payment in the manner and form provided therein in the event of default by a participating district.

(3) Assign any insurance, guarantee, letter, or line of credit specified in paragraph (1) as security for bonds issued by the authority.

(m) Enter into any agreements or contracts, including, but not limited to, agreements for liquidity or credit enhancement, execute any instruments, and any other act or thing necessary, convenient, or desirable for the purposes of the authority or to carry out any express power granted the authority pursuant to this chapter.

(n) At the discretion of the authority, invest any moneys held in reserve or in sinking funds, or any moneys not required for immediate use or disbursement, in obligations authorized by the resolution authorizing the bonds secured by the investment, or by law governing the investment of trust funds in the custody of the Treasurer.

SEC. 2. Section 17199.1 of the Education Code is amended to read:

17199.1. (a) Any participating district, exclusively for the purpose of securing financing or refinancing of projects or working capital pursuant to this chapter through the issuance, by the authority, of revenue bonds, certificates of participation, or other means, and notwithstanding any other provision of law, may: (1) sell to the authority all or part of any rights to or possibilities regarding the state's share of funding for school facilities approved by the State Allocation Board pursuant to Chapter 12.5 (commencing with Sec. 17070.10) including amounts apportioned and funded and amounts approved but not yet funded by the State Allocation Board from proceeds of state bonds already authorized by the electors but not yet issued; (2) issue bonds to the authority; or (3) borrow money or purchase or lease educational facilities from the authority, and in connection therewith, sell or lease property to the authority, in each case at any interest rate or rates, rental provisions, with any maturity date or dates or term, and with any other transfer, assignment, payment, security, default, remedy, and other terms or provisions as may be specified in the sale of rights agreement or the bonds of the participating district or a loan, loan purchase, installment sale, lease, or other

the authority to purchase the rights to and possibilities regarding funding for school facilities approved by the State Allocation Board pursuant to the Leroy F. Greene School Facilities Act of 1998, including amounts apportioned and funded and amounts approved but not yet funded.

This bill would, for purposes of those provisions, limit the authorization of the authority to make or purchase those secured or unsecured loans or to purchase those rights and possibilities to those loans and rights and possibilities regarding the state's share of funding, for school facilities provided under the Greene Act. The bill would also limit those amounts included in those purchases to amounts approved and funded or amounts approved but not yet funded from proceeds of state bonds already authorized by the electors but not yet issued.

The people of the State of California do enact as follows:

SECTION 1. Section 17180 of the Education Code is amended to read:

17180. The authority is hereby authorized to do all of the following:

- (a) Adopt bylaws for the regulation of its affairs and the conduct of its business.
- (b) Adopt an official seal.
- (c) Sue and be sued in its own name.
- (d) Receive and accept gifts, grants, or donations of money for any of the purposes of this chapter from any of the following:
 - (1) A federal agency.
 - (2) A state agency.
 - (3) A municipality, county, or other political subdivision of the state.
 - (4) An individual, association, or corporation.
- (e) Engage the services of private consultants to render professional and technical assistance and advice in carrying out the purposes of this chapter.
 - (f)(1) Determine the location and character of any project to be financed under this chapter, and acquire, construct, enlarge, remodel, renovate, alter, improve, furnish, equip, own, maintain, manage, repair, operate, lease as lessee or lessor, or regulate the same.
 - (2) Designate a participating district as its agent, with authority to enter into contracts, for any of the purposes specified in paragraph (1).
 - (3) Enter into contracts for any of the purposes specified in paragraph (1).
 - (4) Enter into contracts for the management and operation of a project owned by the authority.
- (g) Acquire, directly or by and through a participating district as its agent, by purchase solely from funds provided pursuant to this chapter, or by gift or devise, and sell, by installment or otherwise, property, rights, rights-of-way, franchises, easements, and other interests in lands, including, but not limited to, lands lying under water, and riparian rights, located within the state which the authority deems necessary or convenient for the acquisition, construction, financing, or operation of a project. The authority may do so upon the terms, and at the prices, it considers reasonable and upon which it can agree with the owner, and may take the title to the interest in the name of the authority or in the name of a participating district as its agent.
- (h) Receive and accept from any source loans, contributions, or grants for, or in aid of, the construction, financing, or refinancing of all or part of a project, in the form of money, property, labor, or other things of value.
- (i) Pursuant to an agreement between the authority and the participating district, make, directly or through a lending institution, secured or unsecured loans to, or purchase secured or unsecured loans from, or purchase all or part of any rights to or possibilities regarding the state share of funding for school facilities approved by the State Allocation Board pursuant to Chapter 12.5 (commencing with Section 17070.10)* * *. The purchase of all or part of any rights to, or possibilities regarding, the state contribution for funding for school facilities approved by the State Allocation Board shall be limited to amounts approved and funded or amounts approved but not yet funded from proceeds of state bonds already authorized by the

Additions or changes indicated by underline; deletions by asterisks * * *

1843

agreement between the authority and the participating district, subject to the following conditions:

(A) The sum of the amount borrowed to finance working capital and the interest payable thereon at the initial interest rate if interest is variable, shall not exceed 85 percent of the estimated amount of uncollected taxes, income, revenue, cash receipts, and other district funds which will be available in any fiscal year for the repayment of the loan and the interest thereon. For purposes of this paragraph, "revenue" includes, but is not limited to, federal and state funds received by the district.

(B) In computing the maximum amount which may be borrowed in any fiscal year pursuant to subparagraph (A), the district may exclude the amount of any principal or interest which is secured by a pledge of the amount in any inactive or term deposit of the district which has a term scheduled to terminate during that fiscal year.

(C) A participating district that borrows money to finance working capital pursuant to this subdivision shall be required to repay and discharge the loan, including interest, within 15 months of the loan date.

(D) In enacting this chapter, it is the intent of the Legislature to provide financing of working capital needed to cover temporary or cash-flow deficits and needs for working capital and not long-term budget deficits or shortfalls in funding. The participating school district must demonstrate to the satisfaction of the authority that, during the term of any working capital loan received pursuant to this chapter, the participating district will receive or otherwise have (without additional borrowing) sufficient funds to repay and discharge the loan. The participating district may take into account all district funds and may base future projections upon historical experience or reasonable expectations, or a combination thereof.

(b) Notwithstanding Sections 700, 703, and 1045 of the Civil Code, the rights and possibilities that a participating district may have or obtain in the future to * * * an approved state contribution to funding for school facilities pursuant to Chapter 12.5 (commencing with Sec. 17070.10) * * * that remains unfunded pending the issuance of state bonds already authorized by the electors shall constitute property for all purposes and may be transferred as provided in subdivision (a). In the case of any transfer or assignment of rights or possibilities relating to funds for which bonds have been approved by the voters but are not yet available, the transfer or assignment shall be approved by resolution of the State Allocation Board prior to becoming effective.

(c) Any participating district may enter into any agreement for liquidity or credit enhancement, with any reimbursement, payment, interest, security, default, remedy, and other terms it may deem necessary or appropriate in connection with the issuance of bonds, the borrowing of money or the lease or purchase of educational facilities, whichever is applicable. Any participating district or districts may also do all things and execute all documents as may be necessary or desirable in connection with the issuance of certificates of participation, or other interests, in any bond, loan, installment sale, lease, or other agreement of the district.

(d) A school district may by resolution authorize any county or city board of education or superintendent of schools, and a community college district may by resolution authorize the Board of Governors of the California Community Colleges or the Chancellor of the California Community Colleges, to act as its agent in the performance of any of the matters permitted by this section or any other provision of this chapter. Notwithstanding any other provision of law, the agent shall have the powers granted by the resolution for purposes of this chapter. The resolution shall be deemed to bind the school district or community college district, as the case may be, to any contract, agreement, instrument, or other document executed by the agent on behalf of the school district or community college district, and all duties, obligations, or responsibilities contained therein on the part of the school district or community college district, to the same extent as if duly authorized, executed, and delivered by the school district or community college district.

(e) This section shall be deemed to provide a complete, additional, and alternative method for accomplishing the acts authorized by this section, and the sale or transfer of any rights to or possibilities regarding * * * the state share of funding for school facilities approved by the State Allocation Board including amounts apportioned and funded and amounts approved but not yet funded * * * from proceeds of state bonds already authorized by the electors but not

Ch. 193, § 2

STATUTES OF 2000

yet issued, issuance of bonds to, borrowing of money from, or sale or purchase or lease of educational facilities from or to, the authority. Any agreement entered into in connection with the transfer of any rights to or possibilities regarding * * * the state contribution for funding for school facilities pursuant to Chapter 12.5 (commencing with Section 17070.10), including amounts apportioned and funded and amounts approved but not yet funded by the State Allocation Board from proceeds of state bonds already authorized by the electors but not yet issued, or the issuance of bonds, the borrowing of money or the sale, purchase, or lease of educational facilities, including, without limitation, any agreement for liquidity or credit enhancement under this section, need not comply with the requirements of any other law applicable to issuance of bonds, borrowing, selling, purchasing, leasing, pledge, encumbrance, or credit, as the case may be, by a school district or community college district, or by a county or city board of education or superintendent of schools or the Board of Governors of the California Community Colleges or Chancellor of the California Community Colleges.

REAL PROPERTY—LEASES—SCHOOL FACILITIES

CHAPTER 530

A.B. No. 2408

An act to add Section 17070.71 to the Education Code, relating to school facilities, and declaring the urgency thereof, to take effect immediately.

[Filed with Secretary of State September 19, 2000.]

LEGISLATIVE COUNSEL'S DIGEST

AB 2408, Firebaugh. School facilities.

Existing law, the Leroy F. Greene School Facilities Act of 1998, requires a school district to which funding is made available under that act to hold title to all property acquired, constructed, or improved with those funds, including any leasehold interest if the project qualified for and received approval by the board prior to November 4, 1998.

This bill would authorize new construction or modernization on real property leased to a school district if certain conditions are met.

The bill would declare that it is to take effect immediately as an urgency statute.

The people of the State of California do enact as follows:

SECTION 1. Section 17070.71 is added to the Education Code, to read:

17070.71. (a) Notwithstanding subdivision (a) of Section 17070.70, new construction or modernization funded pursuant to this chapter may be upon real property leased to the applicant school district if all of the following conditions are met:

- (1) The property is leased from another governmental entity.
- (2) The term of the lease is for at least 40 years after approval of the project under this chapter, or the school district has a lease for at least 25 years on federal property. The board may authorize a lesser term, of not less than 30 years only if the board finds that granting an exception to this requirement would be in the state's best interest.
- (b) The applicant school district, and the facility on leased land, if any, shall comply with all laws pertaining to the construction, reconstruction, or alteration of, or addition to, schoolsites and school buildings.
- (c) Lease costs are not eligible project or site acquisition costs under this chapter.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

To expedite new construction or modernization of school facilities on leased property, it is necessary that this act take effect immediately as an urgency statute.

Ch. 579, § 1

EDUCATION—AUTHORIZATION AND ISSUANCE
OF BONDS—PROPERTY TAXES

CHAPTER 580

A.B. No. 2659

AN ACT to amend Sections 15268, 15270, and 47605 of the Education Code, relating to education.

[Filed with Secretary of State September 23, 2000.]

LEGISLATIVE COUNSEL'S DIGEST

AB 2659, Lempert. Education.

(1) Existing law, if the "Smaller Classes, Safer Schools and Financial Accountability Act" is passed at the November 7, 2000, general election, authorizes a school district or community college district to pursue the authorization and issuance of bonds by a 55% vote of the electorate and restricts the rate at which property taxes may be levied to service the debt incurred.

This bill would instead prohibit the issuance of the bonds unless the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of an indebtedness incurred by a school district, unified school district, or community college district at a single election would not exceed a specified amount per year per \$100,000 of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution. The bill would define, for specified purposes, a "general obligation bond."

3128

Additions or changes indicated by underline; deletions by asterisks * * *

(2) Existing law prohibits the governing board of a school district or county board of education from denying a petition for the establishment of a charter school unless it sets forth specific findings, including findings that the petition does not contain reasonably comprehensive descriptions of certain criteria. Existing law authorizes the State Board of Education to grant a petition for the establishment of a charter school when the petition has been submitted to and denied by the governing board of a school district or a county board of education.

This bill would require the State Board of Education to develop criteria to be used for review and approval of charter school petitions presented to the board. The bill would require the board to adopt the criteria on or before June 30, 2001.

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature hereby finds and declares all of the following:

(1) Paragraph (1) of subdivision (j) of Section 47605 of the Education Code allows a charter school petitioner to submit a petition for the establishment of a charter school directly to the State Board of Education if the governing board of a school district denies the petition.

(2) Under current law, the governing board of a school district or county board of education is prohibited from denying a petition for the establishment of a charter school unless it sets forth specific findings, including findings that the petition does not contain reasonably comprehensive descriptions of certain criteria. Use of the term "reasonably comprehensive" is somewhat subjective and should be defined, consistent with the intent of existing charter school law, and within the context of a rubric that will be used for the evaluation of charter school petitions under review by the State Board of Education.

(3) In order to ensure implementation of the appeal process established in law, clear criteria must be established for the review and approval of charter petitions.

(b) It is the intent of the Legislature that the State Board of Education shall review a petition for the establishment of a charter school pursuant to subdivision (b) of Section 47605 of the Education Code, which prescribes the reasons why a charter can be denied, provided it makes written factual findings, specific to the particular petition.

SEC. 2. Section 15268,¹ as added by Chapter 44 of the Statutes of 2000 is amended to read:

15268. The total amount of bonds issued, including bonds issued pursuant to * * * Chapter 1 (commencing with Section 15100), shall not exceed 1.25 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The bonds may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred by a school district pursuant to this chapter, at a single election, would not exceed thirty dollars (\$30) per year per one hundred thousand dollars (\$100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution. For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying that result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll.

SEC. 3. Section 15270,² as added by Chapter 44 of the Statutes of 2000, is amended to read:

15270. (a) Notwithstanding Sections 15102 and 15268, any unified school district may issue bonds pursuant to this article that, in aggregation with bonds issued pursuant to * * * Chapter 1 (commencing with Section 15100), may not exceed 2.5 percent of the taxable

¹ This Chapter amends Section 15268 of the Education Code.

² This Chapter amends Section 15270 of the Education Code.

property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The bonds may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a unified school district, would not exceed sixty dollars (\$60) per year per one hundred thousand dollars (\$100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution.

(b) Notwithstanding Sections 15102 and 15268, any community college district may issue bonds pursuant to this article that, in aggregation with bonds issued pursuant to * * * Chapter 1 (commencing with Section 15100), may not exceed 2.5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The bonds may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a community college district, would not exceed twenty-five dollars (\$25) per year per one hundred thousand dollars (\$100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution.

(c) In computing the outstanding bonded indebtedness of any unified school district or community college district for all purposes of this section, any outstanding bonds shall be deemed to have been issued for elementary school purposes, high school purposes, and community college purposes, respectively, in the respective amounts that the proceeds of the sale of those outstanding bonds, excluding any premium and accrued interest received on that sale, were or have been allocated by the governing board of the unified school district or community college district to each of those purposes respectively.

(d) For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying the result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll. In the event of the unification of two or more school districts subsequent to the 1987-88 fiscal year, the assessed value of all unitary and operating nonunitary property of the unified district shall be deemed to be the total of the assessed value of the taxable property of each of the unifying districts as that assessed value would be determined under Section 15268.

(e) For the purposes of this article, "general obligation bonds," as that term is used in Section 18 of Article XVI of the California Constitution, means bonds of a school district or community college district the repayment of which is provided for by this chapter and Chapter 1 (commencing with Section 15100) of Part 10.

SEC. 4. Section 47605 of the Education Code is amended to read:

47605. (a)(1) Except as set forth in paragraph (2), a petition for the establishment of a charter school within any school district may be circulated by any one or more persons seeking to establish the charter school. The petition may be submitted to the governing board of the school district for review after either of the following conditions are met:

(A) The petition has been signed by a number of parents or guardians of pupils that is equivalent to at least one-half of the number of pupils that the charter school estimates will enroll in the school for its first year of operation.

(B) The petition has been signed by a number of teachers that is equivalent to at least one-half of the number of teachers that the charter school estimates will be employed at the school during its first year of operation.

(2) In the case of a petition for the establishment of a charter school through the conversion of an existing public school, that would not be eligible for a loan pursuant to subdivision (b) of Section 41365, the petition may be circulated by any one or more persons seeking to establish the converted charter school. The petition may be submitted to the governing board of the school district for review after the petition has been signed by not less

(I) The manner in which annual, independent, financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the chartering authority.

(J) The procedures by which pupils can be suspended or expelled.

(K) The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security.

(L) The public school attendance alternatives for pupils residing within the school district who choose not to attend charter schools.

(M) A description of the rights of any employee of the school district upon leaving the employment of the school district to work in a charter school, and of any rights of return to the school district after employment at a charter school.

(N) The procedures to be followed by the charter school and the entity granting the charter to resolve disputes relating to provisions of the charter.

(O) A declaration whether or not the charter school shall be deemed the exclusive public school employer of the employees of the charter school for the purposes of the Educational Employment Relations Act (Chapter 10.7 (commencing with Section 3540) of Division 4 of Title * * * 1 of the Government Code).

(c)(1) Charter schools shall meet all statewide standards and conduct the pupil assessments required pursuant to Section 60605 and any other statewide standards authorized in statute or pupil assessments applicable to pupils in noncharter public schools.

(2) Charter schools shall on a regular basis consult with their parents and teachers regarding the school's educational programs.

(d)(1) In addition to any other requirement imposed under this part, a charter school shall be nonsectarian in its programs, admission policies, employment practices, and all other operations, shall not charge tuition, and shall not discriminate against any pupil on the basis of ethnicity, national origin, gender, or disability. Except as provided in paragraph (2), admission to a charter school shall not be determined according to the place of residence of the pupil, or of his or her parent or guardian, within this state, except that any existing public school converting partially or entirely to a charter school under this part shall adopt and maintain a policy giving admission preference to pupils who reside within the former attendance area of that public school.

(2)(A) A charter school shall admit all pupils who wish to attend the school.

(B) However, if the number of pupils who wish to attend the charter school exceeds the school's capacity, attendance, except for existing pupils of the charter school, shall be determined by a public random drawing. Preference shall be extended to pupils currently attending the charter school and pupils who reside in the district. Other preferences may be permitted by the chartering authority on an individual school basis and only if consistent with the law.

(C) In the event of a drawing, the chartering authority shall make reasonable efforts to accommodate the growth of the charter school and, in no event, shall take any action to impede the charter school from expanding enrollment to meet pupil demand.

(e) No governing board of a school district shall require any employee of the school district to be employed in a charter school.

(f) No governing board of a school district shall require any pupil enrolled in the school district to attend a charter school.

(g) The governing board of a school district shall require that the petitioner or petitioners provide information regarding the proposed operation and potential effects of the school, including, but not limited to, the facilities to be utilized by the school, the manner in which administrative services of the school are to be provided, and potential civil liability effects, if any, upon the school and upon the school district. The petitioner or petitioners shall also be required to provide financial statements that include a proposed first-year operational budget, including startup costs, and cash-flow and financial projections for the first three years of operation.

CHAPTER 590

S.B. No. 2066

AN ACT to amend Section 17092 of, and to add Sections 17070.51 and 17088.2 to, the Education Code, to amend Section 14615.1 of the Government Code, and to amend Section 12 of Chapter 1601 of the Statutes of 1988, relating to school facilities, and making an appropriation therefor.

[Filed with Secretary of State September 23, 2000.]

LEGISLATIVE COUNSEL'S DIGEST

SB 2066, O'Connell. School facilities.

(1) Existing law, the Leroy F. Greene School Facilities Act of 1998 (Greene Act of 1998), establishes a program for allocation by the State Allocation Board of state per-pupil funding

3156

Additions or changes indicated by underline; deletions by asterisks * * *

to school districts for new construction and modernization of school facilities, including hardship funding and supplemental funding for site development and acquisition. Existing law requires the allocation to be based upon existing and projected unmet pupil capacity based upon existing teaching stations, as defined. Existing law requires the board to apportion funds only upon compliance with prescribed requirements relating to seismic safety approvals and certification of the availability of local matching funds.

This bill would require the board to impose certain penalties, to be deposited into the continuously appropriated 1998 State School Facilities Fund, and conditions upon school districts that submit applications with material inaccuracies. By depositing the penalties in a continuously appropriated fund, this bill would make an appropriation.

(2) Existing law, the State Relocatable Classroom Law of 1979, authorizes the board to lease portable classrooms to eligible school districts and provides funding for this purpose.

This bill would, notwithstanding contrary provisions of law, authorize the board to transfer certain funds from the State School Building Aid Fund to the 1998 State School Facilities Fund or to the State School Deferred Maintenance Fund for allocation by the board for purposes of those funds, and would make conforming changes.

(3) Existing law adopts the federal model contractors accreditation plan for contracts relating to identification of, and action regarding, asbestos-containing materials in school buildings, and requires that any person seeking accreditation register with the Office of Local Assistance.

This bill would delete the requirement of registration with the Office of Local Assistance.

Appropriation: yes.

The people of the State of California do enact as follows:

SECTION 1. Section 17070.51 is added to the Education Code, to read:

17070.51. (a) If any certified eligibility or funding application related information is found to have been falsely certified by school districts, architects or design professionals, hereinafter referred to as a material inaccuracy, the Office of Public School Construction shall notify the board.

(b) The board shall impose the following penalties if an apportionment and fund release has been made based upon information in the project application or related materials that constitutes a material inaccuracy.

(1) Pursuant to a repayment schedule approved by the board of no more than five years, the school district shall repay to the board, for deposit into the 1998 State School Facilities Fund, an amount proportionate to the additional funding received as a result of the material inaccuracy including interest at the rate paid on moneys in the Pooled Money Investment Account or at the highest rate of interest for the most recent issue of state general obligation bonds as established pursuant to the Chapter 4 (commencing with Section 16720), of Part 3 of Division 4 of Title 2 of the Government Code, whichever is greater.

(2) The board shall prohibit the school district from self-certifying certain project information for any subsequent applications for project funding for a period of up to five years following the date of the finding of a material inaccuracy or until the district's repayment of the entire amount owed under paragraph (1). Although a school district that is subject to this paragraph may not self-certify, the school district shall not be prohibited from applying for state funding under this chapter. The board shall establish an alternative method for state or independent certification of compliance that shall be applicable in these cases. The process shall include, but shall not be limited to, procedures for payment by the school district of any increased costs associated with the alternative certification process.

(c) For school districts found to have provided material inaccuracies when a funding apportionment has occurred, but no fund release has been made, the board shall direct its staff to reduce the apportionment as necessary to reflect the actual nature of the project and to disregard the inaccurate information or material, and paragraph (2) of subdivision (b) shall apply.

(d) For those school districts found to have provided material inaccuracies when no funding apportionment or fund release has been made, the inaccurate information or materials shall

Additions or changes indicated by underline; deletions by asterisks * * *

3157

not be considered, and paragraph (2) of subdivision (b) shall apply. The project may continue if the application, minus the inaccurate materials, is still complete.

SEC. 2. Section 17088.2 is added to the Education Code, to read:

17088.2. Notwithstanding any provision of law to the contrary, including, but not limited to, Section 17587, the board may transfer any funds within the State School Building Aid Fund that are in excess of the amounts needed by the board for the maintenance of portable buildings or for the purchase of new portable buildings, for that fiscal year, to either of the following:

(a) The 1998 State School Facilities Fund for allocation by the board for any purpose authorized pursuant to that fund.

(b) The State School Deferred Maintenance Fund for allocation by the board for any purpose authorized pursuant to that fund. The board may utilize up to 100 percent of the funds transferred by the board to the State School Deferred Maintenance Fund pursuant to this section for funding extreme hardship critical projects.

SEC. 3. Section 17092 of the Education Code is amended to read:

17092. (a) No portable classrooms shall be made available to any school district unless the district furnishes evidence, satisfactory to the board, that the district has no available bond proceeds that could be used for the purchase of classroom facilities.

(b) Notwithstanding any other provision of law, a school district or county superintendent of schools that has received approval for a project that includes a justified number of new teaching stations pursuant to Chapter 12 (commencing with Section 17000) or Chapter 12.5 (commencing with Section 17070.15) shall be eligible for at least the same number of emergency portable classrooms as approved new teaching stations.

(c) Subdivision (a) does not apply to leases or subleases under this chapter for the purpose of providing facilities, pursuant to subdivision (c) of Section 17091, for licensed child day care programs or any recreation or enrichment activities or programs for schoolage children.

SEC. 4. Section 14615.1 of the Government Code is amended to read:

14615.1. Where the Legislature directs or authorizes the department to maintain, develop, or prescribe processes, procedures, or policies in connection with the administration of its duties under this chapter, Chapter 2 (commencing with Section 14650), or * * * Part 2 (commencing with Section 10100) of Division 2 of the Public Contract Code * * *, the action by the department shall be exempt from the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340), Chapter 4 (commencing with Section 11370), Chapter 4.5 (commencing with Section 11400), and Chapter 5 (commencing with Section 11500)). This section shall apply to actions taken by the department with respect to the State Administrative Manual and the State Contracting Manual.

SEC. 5. Section 12 of Chapter 1601 of the Statutes of 1988 is amended to read:

Sec. 12. All provisions of the federal model contractors accreditation plan (40 C.F.R. Appendix C, Subpart E, Part 763), as it became effective June 1, 1987, are hereby adopted as the contractor accreditation plan of this state, and are hereby incorporated in Chapter 9 (commencing with Section 49400) of Part 27 of the Education Code as though set forth in full therein.

SCHOOLS AND SCHOOL DISTRICTS—FACILITIES—
JOINT-USE PROJECTS

CHAPTER 753

S.B. No. 1795

AN ACT to amend Section 17009.5 of, and to add Section 17052 to, the Education Code, relating to school facilities.

[Filed with Secretary of State September 27, 2000.]

3882

Additions or changes indicated by underline; deletions by asterisks * * *

LEGISLATIVE COUNSEL'S DIGEST

SB 1795, Alpert. School facilities: joint-use project.

Existing law, the Leroy F. Greene School Facilities Act of 1998, (hereafter the Greene Act of 1998) establishes a program in which the State Allocation Board is required to provide state per-pupil funding, including hardship funding, for new school facilities construction and school facilities modernization to applicant school districts. Existing law requires the State Allocation Board to apportion funds only upon compliance with prescribed requirements relating to seismic safety approvals and with certification of the availability of local matching funds. Pursuant to existing law, on and after November 4, 1998, the board may only approve and fund school facilities projects under the Greene Act of 1998.

This bill would, notwithstanding these provisions, authorize the board to fund joint-use projects to construct libraries, multipurpose rooms, and gymnasiums if certain conditions are met and would authorize the board to adopt related funding priority regulations.

The people of the State of California do enact as follows:

SECTION 1. Section 17009.5 of the Education Code is amended to read:

17009.5. (a) * * * Except as set forth in Section 17052, on and after November 4, 1998, the board shall only approve and fund school facilities construction projects pursuant to Chapter 12.5 (commencing with Section 17070.10).

(b) A school district with a first priority project that has received a construction approval by the Department of General Services, Division of the State Architect, or a joint-use project approval by the board, prior to November 4, 1998, for growth or modernization pursuant to this chapter shall receive funding pursuant to this chapter for all unfunded approved project costs as it would have received under this chapter, and the increased capacity assigned to the project shall be included in calculating the district's capacity pursuant to Chapter 12.5 (commencing with Section 17070.10). Funds received for projects described in this subdivision shall constitute the state's final and full contribution to these projects. The board shall not consider additional project funding except when otherwise authorized under Chapter 12.5 (commencing with Section 17070.10).

(c) A school district with a second priority project that has received a construction approval by the Department of General Services, Division of the State Architect prior to November 4, 1998, for growth or modernization pursuant to this chapter shall elect to do either of the following:

(1) Withdraw the application under this chapter, submit an initial report and application pursuant to Chapter 12.5 (commencing with Section 17070.10), and receive per pupil allocations as set forth in Chapter 12.5 (commencing with Section 17070.10). If the district withdraws the application, any funds previously allocated under this chapter for the project shall be offset from the first grant to the district under Chapter 12.5 (commencing with Section 17070.10).

(2) Convert the second priority project approved under this chapter to a first priority status and receive funds in accordance with this chapter.

(d) Notwithstanding priorities established pursuant to Chapter 12.5 (commencing with Section 17070.10), projects authorized for funding as set forth in this section shall be funded by the board pursuant to this chapter prior to funding other projects pursuant to Chapter 12.5 (commencing with Section 17070.10).

(e) For purposes of funding priority for modernization grants under Chapter 12.5 (commencing with Section 17070.10), a district that applies under subdivision (b) or paragraph (1) of subdivision (c) shall retain its original project approval date.

(f) Notwithstanding Section 17017.1, West Contra Costa Unified School District shall be eligible for state facilities funds beginning November 4, 1998.

(g) The State Allocation Board shall adopt regulations to ensure that an appropriate offset is made from funds approved pursuant to this chapter, for funds awarded to school districts pursuant to Chapter 12 (commencing with Section 17000) prior to November 4, 1998.

SEC. 2. Section 17052 is added to the Education Code, to read:

Additions or changes indicated by underline; deletions by asterisks * * *

3883

17052. (a) Notwithstanding any other provision of law, the State Allocation Board may fund joint-use projects to construct libraries, multipurpose rooms, and gymnasiums, on school campuses where these facilities are used jointly for both school and community purposes.

(b) A school district may apply to the State Allocation Board for funding under this section if it meets all of the following requirements:

- (1) The school does not have the type of facility for which it seeks funding.
- (2) The school district agrees to provide local matching funds for 50 percent of the eligible cost of the facility as set forth in subdivision (c), and 100 percent local or joint-use funding for all costs that exceed that standard, as required by subdivision (d).
- (3) The school district has obtained approval of the plans for the facility from the Division of the State Architect and the State Department of Education.
- (4) The school district has entered into a joint-use agreement with its joint-use partner that specifies the method for sharing capital and operating costs, specifies relative responsibilities for the operation and staffing of the facility, and specifies the manner in which the safety of school pupils will be maintained during school hours.
- (5) The school district demonstrates that the facility will be used to the maximum extent possible for school and community purposes after regular school hours.

(c) The State Allocation Board shall establish standards for the amount of funding to be made available for each project under this section. The funding standards may be expressed as per-square-foot cost limits or per-pupil cost limits or both.

(d) Notwithstanding any other provision of this chapter, project costs may exceed the board's standards set forth in subdivision (c) if the excess is paid completely by local or joint-use partnership sources.

(e) On July 1 of each year the board shall apportion to qualifying applicant school districts those funds that it determines are available for the purposes of this section.

(f) The board may establish priority standards to govern the order of funding projects. If applications exceed available funding, the board shall give priority to applications where the size of the project is increased by at least 30 percent beyond minimum essential facilities through the use of additional funding from a joint-use partner.

SCHOOL BONDS—FACILITIES—IMPROVEMENT DISTRICT

CHAPTER 132

S.B. No. 1129

AN ACT to amend Sections 15266, 15270, 15340, and 15348 of, and to add Sections 15271 and 15359.3 to, the Education Code, relating to school facilities improvement districts.

[Filed with Secretary of State July 31, 2001.]

LEGISLATIVE COUNSEL'S DIGEST

SB 1129, O'Connell. School bonds: school facility improvement districts.

Existing law authorizes the governing board of a school district or community college district, pursuant to a 2/3 vote of the governing board, to pursue the authorization and issuance of bonds by a 55% vote of the electorate, at a primary or general election, a regularly scheduled local election, or a statewide special election, subject to certain additional requirements.

Existing law authorizes school districts and community college districts to form school facilities improvement districts consisting of a portion of the territory within a school district and authorizes the school facilities improvement district to issue general obligation bonds for school facilities construction purposes.

This bill would expressly authorize the governing board of a school district or community college district to proceed on behalf of a school facilities improvement district that is created by and under the exclusive authority of the school district or community college district upon approval by 55% of the votes cast by voters voting on the proposition of issuing bonds of the school facilities improvement district, subject to specified requirements.

The people of the State of California do enact as follows:

SECTION 1. Section 15266 of the Education Code is amended to read:

15266. (a) As an alternative to authorizing and issuing bonds pursuant to Chapter 1 (commencing with Section 15100) or Chapter 2 (commencing with Section 15300), the

Additions or changes indicated by underline; deletions by asterisks * * *

1335

governing board of a school district or community college district may decide, pursuant to a two-thirds vote and subject to Section 15100 or 15302, as appropriate, to pursue the authorization and issuance of bonds pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution and subdivision (b) of Section 18 of Article XVI of the California Constitution. An election may only be ordered on the question of whether bonds of a school district or community college district shall be issued and sold pursuant to subdivision (b) of Section 18 of Article XVI of the California Constitution at a primary or general election, a regularly scheduled local election, or a statewide special election.

(b) Upon adopting a resolution to incur bonded indebtedness pursuant to subdivision (b) of Section 18 of Article XVI of the California Constitution and after the question has been submitted to the voters, if approved at the election, the bonds shall be issued pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution and this chapter, and the governing board may not, regardless of the number of votes cast in favor of the bond, subsequently proceed exclusively under Chapter 1 (commencing with Section 15100) or under Chapter 2 (commencing with Section 15300), as appropriate. Where not inconsistent, the provisions of Chapter 1 (commencing with Section 15100) or Chapter 2 (commencing with Section 15300), as appropriate, shall apply to this chapter.

SEC. 2. Section 15270 of the Education Code is amended to read:

15270. (a) Notwithstanding Sections 15102 and 15268, any unified school district may issue bonds pursuant to this article that, in aggregation with bonds issued pursuant to Chapter 1 (commencing with Section 15100), may not exceed 2.5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The bonds may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a unified school district, would not exceed sixty dollars (\$60) per year per one hundred thousand dollars (\$100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution.

(b) Notwithstanding Sections 15102 and 15268, any community college district may issue bonds pursuant to this article that, in aggregation with bonds issued pursuant to Chapter 1 (commencing with Section 15100), may not exceed 2.5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The bonds may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a community college district, would not exceed twenty-five dollars (\$25) per year per one hundred thousand dollars (\$100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution.

(c) In computing the outstanding bonded indebtedness of any unified school district or community college district for all purposes of this section, any outstanding bonds shall be deemed to have been issued for elementary school purposes, high school purposes, and community college purposes, respectively, in the respective amounts that the proceeds of the sale of those outstanding bonds, excluding any premium and accrued interest received on that sale, were or have been allocated by the governing board of the unified school district or community college district to each of those purposes respectively.

(d) For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying the result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll. In the event of the unification of two or more school districts subsequent to the 1987-88 fiscal year, the assessed value of all unitary and operating nonunitary property of the unified district shall be deemed to be the total of the

assessed value of the taxable property of each of the unifying districts as that assessed value would be determined under Section 15268.

(e) For the purposes of this article, "general obligation bonds," as that term is used in Section 18 of Article XVI of the California Constitution, means bonds of a school district or community college district the repayment of which is provided for by this chapter and Chapter 1 (commencing with Section 15100) of Part 10, and includes bonds of a school facilities improvement district the repayment of which is provided for by this chapter and Chapter 2 (commencing with Section 15300).

SEC. 3. Section 15271 is added to the Education Code, to read:

15271. The governing board of a school district or community college district may proceed pursuant to this chapter on behalf of a school facilities improvement district that is created by and under the exclusive authority of the school district or community college district and act on behalf of the school facilities district as provided pursuant to Chapter 2 (commencing with Section 15300).

SEC. 4. Section 15340 of the Education Code is amended to read:

15340. (a) After adopting the resolution ordering the formation of the school facilities improvement district, the governing board may provide for and call a special bond election within the school facilities improvement district to, or may at the next statewide election, submit to the voters of the school facilities improvement district a proposition of whether or not an indebtedness of the district shall be incurred and bonds issued therefor in an amount not exceeding the estimate stated in the resolution ordering the school facilities improvement district formed. Notwithstanding any other provision of law, any special election called pursuant to this section may be called for any date except as set forth in Section 1100 of the Elections Code, and except as provided in subdivision (a) of Section 15266 for bonds authorized and issued under the authority of subdivision (b) of Section 15348 and Chapter 1.5 (commencing with Section 15264).

(b) The indebtedness and the bonds shall be payable from taxes to be levied and collected upon lands located within the school facilities improvement district.

SEC. 5. Section 15348 of the Education Code is amended to read:

15348. (a) The proposition shall be deemed approved upon approval by two-thirds of the votes cast by voters voting on the proposition of issuing bonds of the school facilities improvement district unless subdivision (b) is applicable.

(b) Alternatively, for a governing board of a school district or community college district that proceeds pursuant to Chapter 1.5 (commencing with Section 15264) and subject to the requirements therein on behalf of a school facilities improvement district that is created by and under the exclusive authority of the school district or community college district, as specified in Section 15359.3, the proposition shall be deemed approved upon approval by 55 percent of the votes cast by voters voting on the proposition of issuing bonds of the school facilities improvement district.

SEC. 6. Section 15359.3 is added to the Education Code, to read:

15359.3. The governing board of a school district or community college district may proceed pursuant to Chapter 1.5 (commencing with Section 15264) and subject to the requirements therein on behalf of a school facilities improvement district that is created by and under the exclusive authority of the school district or community college district under this chapter.

1427

426. (a) The State Librarian, with input from the Legislative Analyst's office, the office of the Secretary for Education, and the Department of Finance, shall contract with an independent evaluator to evaluate the portion of the English Language and Intensive Literacy Program that is administered by the State Library, as listed in Item 6120-212-0001 of Section 2.00 of the Budget Act of 2000. The evaluation shall determine the effectiveness of this program, including, but not limited to, improving English language proficiency and identifying the most effective practices for teaching English language learners and their families in improving English language proficiency.

(b) The State Librarian shall provide interim reports to the Legislature that include, but are not limited to, the following:

- (1) The amount of funding allocated.
- (2) The number of libraries or schools participating in the program.
- (3) The number of English language learners participating in this program.
- (4) The number of parents participating in the program.

(c) The first report is due March 1, 2001. The second report is due March 1, 2002. The final interim report is due March 1, 2003. However, these reports shall be required only if funds are available for allocation for this program.

SEC. 53. Section 427 of the Education Code is amended to read:

427. (a) It is the intent of the Legislature that data developed through the English Language and Intensive Literacy Program be used to inform curriculum, instruction, assessment, research, and teacher preparation programs regarding use of the most effective practices for teaching English language learners.

(b) It is the intent of the Legislature that, once the most effective programs and processes have been identified, schools be required to incorporate those effective practices into the regular classroom instruction as a condition of receiving funds pursuant to Section 404.

(c) It is further the intent of the Legislature that this program be administered consistent with research-based strategies for teaching English language learners, as well as * * * Chapter 3 (commencing with Section 300), as applicable.

SEC. 54. Section 11700 of the Education Code is amended to read:

11700. (a) It is the intent of the Legislature that the Center for International Education Synergy be established through a joint powers agreement, entered into pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code, between the Sweetwater Union High School District, the Southwestern Community College District, and San Diego State University. It is the intent of the Legislature that a joint powers agency created pursuant to the joint powers agreement own and maintain the land and facilities for the Center for International Education Synergy at the Otay Mesa Off-Campus Center.

(b) In addition to funding appropriated by the Legislature for purposes of the Center for International Education Synergy, entities participating in the establishment and operation of the center are encouraged to seek supplemental funding, including, but not limited to, funding from foundations, corporations, and other public entities.

(c) Any postsecondary education facilities and programs developed pursuant to this section shall be subject to the requirements of Section 66903 as they apply to the governing boards of public postsecondary educational institutes.

(d) The Center for International Education Synergy shall be established only upon approval by the California Postsecondary Education Commission based on a needs study and subsequent approval from the Department of Finance.

SEC. 55. Section 17071.46 of the Education Code is amended to read:

17071.46. (a) When an applicant school district proposes to demolish a single story building and replace it with a multistory building on the same site, the State Allocation Board shall provide a supplemental grant for 50 percent of the replacement cost of the single story building to be demolished, if all of the following conditions are met:

(1) The school at which the building demolition and replacement is to occur is operating on a multitrack year-round education schedule.

(2) The cost of the demolition and replacement is less than the total cost of providing a new school facility, including land, on a new site for the additional number of pupils housed as a result of the replacement building, as determined by the State Allocation Board.

(3) The school district will maximize the increase in pupil capacity on the site when it builds the replacement building, subject to the limits imposed on it pursuant to paragraph * * * (4).

(4) The State Department of Education has determined that the demolition of an existing single story building and replacement with a multistory building at the site is the best available alternative and will not create a school with an inappropriate number of pupils in relation to the size of the site, as determined by the State Department of Education.

(b) The State Allocation Board shall establish additional requirements it deems necessary to ensure that the economic interests of the state and the educational interests of the children of the state are protected.

SEC. 56. Section 17210 of the Education Code is amended to read:

17210. As used in this article, the following terms have the following meanings:

(a) "Administering agency" means any agency designated pursuant to Section 25502 of the Health and Safety Code.

(b) "Environmental assessor" means a class II environmental assessor registered by the Office of Environmental Health Hazard Assessment pursuant to Chapter 6.98 (commencing with Section 25570) of Division 20 of the Health and Safety Code, a professional engineer registered in this state, a geologist registered in this state, a certified engineering geologist registered in this state, or a licensed hazardous substance contractor certified pursuant to Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code. A licensed hazardous substance contractor shall hold the equivalent of a degree from an accredited public or private college or university or from a private postsecondary educational institution approved by the Bureau for Private Postsecondary and Vocational Education with at least 60 units in environmental, biological, chemical, physical, or soil science; engineering; geology; environmental or public health; or a directly related science field. In addition, any person who conducts phase I environmental assessments shall have at least two years' experience in the preparation of those assessments and any person who conducts a preliminary endangerment assessment shall have at least three years' experience in conducting those assessments.

(c) "Handle" has the meaning the term is given in Article 1 (commencing with Section 25500) of Chapter 6.95 of Division 20 of the Health and Safety Code.

(d) "Hazardous air emissions" means emissions into the ambient air of air contaminants that have been identified as a toxic air contaminant by the State Air Resources Board or by the air pollution control officer for the jurisdiction in which the project is located. As determined by the air pollution control officer, hazardous air emissions also means emissions into the ambient air from any substance identified in subdivisions (a) to (f), inclusive, of Section 44321 of the Health and Safety Code.

(e) "Hazardous material" has the meaning the term is given in subdivision (d) of Section 25260 of the Health and Safety Code.

(f) "Operation and maintenance," "removal action work plan," "respond," "response," "response action," and "site" have the meanings those terms are given in Article 2 (commencing with Section 25310) of the state act.

(g) "Phase I environmental assessment" means a preliminary assessment of a property to determine whether there has been or may have been a release of a hazardous material, or whether a naturally occurring hazardous material is present, based on reasonably available information about the property and the area in its vicinity. A phase I environmental assessment may include, but is not limited to, a review of public and private records of current and historical land uses, prior releases of a hazardous material, data base searches, review of relevant files of federal, state, and local agencies, visual and other surveys of the property, review of historical aerial photographs of the property and the area in its vicinity, interviews with current and previous owners and operators, and review of regulatory correspondence and environmental reports. Sampling or testing is not required as part of the phase I environmental assessment. A phase I environmental assessment conducted

(e) The meetings of the Bipartisan California Commission on Internet Political Practices shall be open and public. The commission members shall receive one hundred dollars (\$100) per diem for each day of attendance at a meeting of the commission, not to exceed 10 meetings.

(f) The Bipartisan California Commission on Internet Political Practices shall report its findings and recommendations to the Legislature not later than December 1, 2001. The commission shall cease to exist on January 1, 2002.

SEC. 207. Section 3 of Chapter 975 of the Statutes of 2000 is amended to read:

Sec. 3. The sum of two hundred twenty thousand dollars (\$220,000) is hereby appropriated from the General Fund to the Controller for allocation to the Bipartisan California Commission on Internet Political Practices to defray the costs of the commission in conducting the study and preparing the report required by this act.

SEC. 208. Any section of any act enacted by the Legislature during the 2001 calendar year that takes effect on or before January 1, 2002, and that amends, amends and renumbers, adds, repeals and adds, or repeals a section that is amended, amended and renumbered, added, repealed and added, or repealed by this act, shall prevail over this act, whether that act is enacted prior to, or subsequent to, the enactment of this act. The repeal, or repeal and addition, of any article, chapter, part, title, or division of any code by this act shall not become operative if any section of any other act that is enacted by the Legislature during the 2001 calendar year and takes effect on or before January 1, 2002, amends, amends and renumbers, adds, repeals and adds, or repeals any section contained in that article, chapter, part, title, or division.

SCHOOLS AND SCHOOL DISTRICTS—MAINTENANCE
AND REPAIRS—FUNDS

CHAPTER 194

A.B. No. 1558

AN ACT to add Section 17070.77 to the Education Code, relating to school facilities.

[Filed with Secretary of State August 13, 2001.]

LEGISLATIVE COUNSEL'S DIGEST

AB 1558, Leach. School facilities: maintenance.

Existing law, the Leroy F. Greene School Facilities Act 1998 (Greene Act), provides funding to school districts to finance the construction and modernization of school facilities. The Greene Act requires applicants to make all necessary repairs, renewals, and replacements to ensure that a project is at all times kept in good repair. Existing law requires an applicant to establish a restricted account within the school district's general fund for the exclusive purpose of providing moneys for ongoing and major maintenance, and to agree to deposit prescribed amounts into the account for this purpose. Existing law requires the applicant school district to certify that it has publicly approved an ongoing and major maintenance plan.

This bill would define major maintenance for this purpose, would require, commencing January 1, 2002, any school district applying for funding pursuant to the Greene Act to annually review the plan, update it as needed, and certify that it is in compliance with the plan. The bill would require applicants to certify that the plan includes prescribed criteria, including, but not limited to, identification of the major maintenance needs of the project, and specification of a schedule for completion of the major maintenance.

The people of the State of California do enact as follows:

SECTION 1. Section 17070.77 is added to the Education Code, immediately following Section 17070.75, to read:

17070.77. (a) For each project funded after January 1, 2002, the board shall require the applicant school district governing board to certify, as part of the school district's annual budget process and beginning in the fiscal year in which the project is funded by the state, that it is in compliance with the plan adopted pursuant to paragraph (3) of subdivision (b) of Section 17070.75 for completing major maintenance requirements for the project.

(b) For purposes of this chapter, the term "major maintenance" means all actions necessary to keep roofing, siding, painting, floor and window coverings, fixtures, cabinets, heating and cooling systems, landscaping, fences, and other items designated by the governing board of the school district in good repair.

(c) The board shall require the school district's governing board to certify that the plan includes and is being implemented with all of the following components:

(1) Identification of the major maintenance needs for the project.

(2) Specification of a schedule for completing the major maintenance.

(3) Specification of a current cost estimate for the scheduled major maintenance needs.

(4) Specification of the school district's schedule for funding a reserve to pay for the scheduled major maintenance needs.

(5) Review of the plan annually, as a part of the school district's annual budget process, and update, as needed, the major maintenance needs, the estimates of expected costs, and any adjustments in funding the reserve.

Additions or changes indicated by underline; deletions by asterisks * * *

1787

Ch. 194, § 1

STATUTES OF 2001

(6) Availability for public inspection of the original plan, and all updated versions of the plan, at the office of the superintendent of the school district during the working hours of the school district.

(7) Provision in the school district's annual budget for the reserve that contains the total funding available for scheduled major maintenance needs as specified in the updated plan, and an explanation if this amount of the reserve is less than that specified in the updated plan.

1788

Additions or changes indicated by underline; deletions by asterisks * * *

(e) The comprehensive school safety plan shall be evaluated and amended, as needed, by the school safety planning committee no less than once a year to ensure that the comprehensive school safety plan is properly implemented. An updated file of all safety-related plans and materials shall be readily available for inspection by the public.

(f) The comprehensive school safety plan, as written and updated by the schoolsite council or school safety planning committee, shall be submitted for approval under subdivision (a) of Section 35294.8.

(g) The State Department of Education shall develop model policies on the prevention of bullying and on conflict resolution and make the model policies available to school districts. A school district may adopt one or both of these policies for incorporation into its school safety plan.

SCHOOL BUILDINGS AND GROUNDS—FUNDS—
CONSTRUCTION AND MODERNIZATION

CHAPTER 647

A.B. No. 401

AN ACT to amend Section 17072.12 of the Education Code, relating to school facilities.

[Filed with Secretary of State October 10, 2001.]

LEGISLATIVE COUNSEL'S DIGEST

AB 401, Cardenas. School facilities.

Existing law, the Leroy F. Greene School Facilities Act of 1998 (Greene Act), makes funding available to eligible school districts for various purposes related to school facilities, including construction and modernization. Under existing law, the State Allocation Board is required to determine the eligibility of school districts to receive apportionments under the Greene Act and to apportion funds only upon the completion of certain requirements by the applicant school district.

Existing law authorizes the board to provide additional funding for assistance in site development and acquisition if the amount of the site acquisition and development assistance does not exceed 50% of the cost of site development to the school district, plus the lesser of 50% of the site cost to the school district or 50% of the appraised value of the site at the time the complete application is submitted.

This bill would alter the calculation involving the appraised value of the site for the purposes of calculating this assistance and would authorize the board to provide funding for this assistance to a school district that uses land previously acquired by the school district in an amount equal to 50% of the cost of site development to the school district, plus 50% of the site's appraised value if certain conditions are met.

The people of the State of California do enact as follows:

SECTION 1. Section 17072.12 of the Education Code is amended to read:

17072.12. (a) In addition to the amount provided in Section 17072.10, the board may provide funding for assistance in site development and acquisition if all of the following are met:

(1) The amount of the site acquisition and development assistance does not exceed 50 percent of the cost of site development to the school district, plus the lesser of the following:

(A) 50 percent of the site cost to the school district * * *;

(B) 50 percent of the appraised value of the site * * * within six months of the time the complete application is submitted * * *.

Additions or changes indicated by underline; deletions by asterisks * * *

4097

(2) The school district certifies that there is no alternative available site, or that the district plans to sell an available site in order to use the proceeds of the sale for the purchase of the new site.

(b) Notwithstanding subdivision (a), the board may provide funding for assistance in site development and acquisition to a school district that uses land previously acquired by the school district in an amount equal to 50 percent of the cost of site development to the school district, plus 50 percent of the site's appraised value at the time the application for site acquisition and development is submitted, provided all of the following are met:

(1) The site was acquired no less than five years prior to the date the application is submitted.

(2) The site had been productively used by the school district as other than a schoolsite for the five years immediately preceding the date the application is submitted.

(3) The board determines that the nonschool function currently taking place on the site must be discontinued or relocated in order to utilize the site as a schoolsite.

(c) A school district that receives assistance pursuant to subdivision (b) shall, within one year after the completion of the project, certify in writing to the board that the nonschool function was in fact relocated as set forth in paragraph (4) of subdivision (b).

(d) Pursuant to subdivision (b), an applicant school district shall include in its application to the board a cost-benefit analysis performed by the school district demonstrating how utilizing existing nonschoolsite district property pursuant to this section would be a more effective method of solving the school district's pupil housing problems than any other method of funding under this chapter. The board shall review and approve the analysis if the board agrees with the findings and shall consider the analysis and findings in approving the project pursuant to this section.

CHAPTER 648

A.B. No. 495

AN ACT to add Part 6.4 (commencing with Section 12699.50) to Division 2 of the Insurance Code, relating to health care coverage, and declaring the urgency thereof, to take effect immediately.

[Filed with Secretary of State October 10, 2001.]

LEGISLATIVE COUNSEL'S DIGEST

AB 495, Diaz. Health care coverage.

Existing law provides for health care coverage for children in low-income households through the Healthy Families Program and for the provision of health benefits to qualifying individuals through Medi-Cal. Existing law also provides for services for handicapped persons under 21 years of age pursuant to the California Children's Services Program. Under existing law, a county may organize a prepaid health plan, which is designated as a local initiative, to provide health care to eligible Medi-Cal beneficiaries.

This bill would create the Children's Health Initiative Matching Fund in the State Treasury, which would be administered by the Managed Risk Medical Insurance Board, in collaboration with the State Department of Health Services, for the purpose of providing matching state funds and local funds received by the fund through intergovernmental transfers to a county agency, a local initiative, or a county organized health system to provide health insurance coverage to certain children in low-income households who do not qualify for health care benefits through the Healthy Families Program or Medi-Cal. The bill would also provide for the referral of eligible children to the California Children's Services Program, as specified.

SCHOOLS AND SCHOOL DISTRICTS—BUILDINGS—
FIRE DETECTION ALARMS AND SPRINKLERS

CHAPTER 725

S.B. No. 575

AN ACT to amend Section 32001 of, to add Article 7.5 (commencing with Section 17074.50) to Chapter 12.5 of Part 10 of, and to repeal Sections 32000, 32002, 32003, and 32004 of, the Education Code, relating to school facilities.

[Filed with Secretary of State October 11, 2001.]

LEGISLATIVE COUNSEL'S DIGEST

SB 575, O'Connell. School facilities: automatic fire detection alarm and sprinklers.

Existing law, the Leroy F. Greene School Facilities Act of 1998 (the Greene Act of 1998), requires the State Allocation Board to administer the allocation of school facilities funds for public education.

Existing law, relating to the construction of school buildings, requires the Department of General Services to pass upon and approve or reject all plans for the construction of, or if the estimated cost exceeds \$25,000, the alteration of, any school building.

This bill would, with certain exceptions relating to portable buildings, require new construction projects under the Greene Act of 1998, which require approval of the Department of General Services, to comply with prescribed automatic fire detection, alarm, and sprinkler system requirements, would require modernization projects having an estimated total cost in excess of \$200,000 to comply with the automatic fire detection and alarm system requirements, and would require inclusion of amounts necessary to cover the costs of the system. The bill would require the State Allocation Board to review the adequacy of the per pupil eligibility amounts for new construction grants and modernization funding and make any adjustments determined to be necessary by July 1, 2003.

Existing law requires every public, private, or parochial school building to be provided with a dependable and operative fire warning system and requires every person and public officer managing, controlling, or in charge of the school to sound the fire alarm signal upon the discovery of fire.

This bill would exempt these persons from this requirement if the public, private, or parochial school building is equipped with an automatic fire detection and alarm system,

Additions or changes indicated by underline; deletions by asterisks * * *

4467

which for this purpose may or may not include a sprinkler system, and would repeal related provisions regarding the California uniform fire code signal.

Existing law requires the alarm to be sounded at least once every calendar month at the elementary and intermediate levels and at least twice a year at the secondary level. Existing law requires fire drills to be held at the secondary level at least twice every school year.

This bill would, instead, require that the alarm be sounded at least once every month, and would require that fire drills be conducted at the elementary level at least once every calendar month and at the intermediate and secondary level at least twice every school year.

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature finds and declares all of the following:

(1) Presently, schools rely solely on school staff or on pupils to detect a fire, activate the fire alarm, evacuate the school buildings, and notify the fire department, all in a timely manner. Many of the school buildings in use in this state are 20 to 30 years old or older and do not provide sufficient fire protection in the building construction, nor do these schools have an adequate fire detection system, alarm system, or automatic fire sprinkler system.

(2) Without an early detection system comprised of smoke and heat detectors that can immediately and automatically detect a fire, an automatic warning system that can sound an alarm, and notify the fire department, and a suppression system that can initiate sprinklers to commence fighting the fire, fires, like the one at the Green Oaks Family Academy Elementary School, are silent killers that can move quickly through open attic space above classrooms full of children until the classrooms are suddenly ignited into inescapable infernos.

(3) An early warning system would give protection to pupils and school personnel by giving them immediate warning at the earliest stage of a fire, by letting school staff focus on the immediate evacuation of the school buildings and by letting staff rely on the automatic system to immediately inform the fire department and commence suppression of the fire.

(4) When school buildings are unoccupied, an automatic fire alarm system can notify the fire department and an automatic fire sprinkler system can help contain the fire within the area of origin until firefighters arrive to extinguish the fire.

(5) Moreover, during times of disaster, schools are often utilized as community relocation centers for displaced persons or families. It is essential, therefore, that schools be adequately protected from fire in order to enhance their ability to survive the disaster and be available for use by the community in those times of need.

(b) This act shall be known, and may be cited, as the Green Oaks Family Academy Elementary School Fire Protection Act.

SEC. 2. Article 7.5 (commencing with Section 17074.50) is added to Chapter 12.5 of Part 10 of the Education Code, to read:

Article 7.5. Automatic Fire Detection, Alarm, and Sprinkler Systems

17074.50. (a) On and after July 1, 2002, all new construction projects submitted to the Division of the State Architect pursuant to this chapter, including, but not limited to, hardship applications, that require the approval of the Department of General Services shall include an automatic fire detection, alarm, and sprinkler system as set forth in Section 17074.52 and approved by the State Fire Marshal. These provisions shall entitle the school district to all applicable reductions in code requirements, as provided in the California Building Standards Code (Title 24 of the California Code of Regulations).

(b) On and after July 1, 2002, all modernization projects that have an estimated total cost in excess of two hundred thousand dollars (\$200,000) submitted to the Division of the State Architect pursuant to this chapter, including, but not limited to, hardship applications, that require the approval of the Department of General Services shall include an automatic fire detection and alarm system as set forth in Section 17074.52 and approved by the State Fire Marshal. For a modernization project that is to be completed in more than one phase, the school district may defer installation of the system until the final phase of the modernization

project. Solely for purposes of this section, "modernization" means any modification of a permanent structure or construction of a new building on an existing campus.

(c) The Department of General Services shall administer this section based upon the standards adopted by the State Fire Marshal pursuant to Section 17074.52.

17074.52. (a) For modernization projects, the automatic fire detection and alarm system required pursuant to subdivision (b) of Section 17074.50 shall consist of smoke or heat detectors, or a combination thereof, as determined by the State Fire Marshal, installed in the school building. The alarm, upon activation of an initiating device, shall alert all occupants and shall transmit the alarm signal to an approved supervising station.

(b) For new construction projects, the automatic fire detection, alarm, and sprinkler system required pursuant to subdivision (a) of Section 17074.50, shall in addition to compliance with subdivision (a), include an automatic fire sprinkler system installed in the school building including, but not necessarily limited to, attic spaces.

(c) Notwithstanding Section 17074.50 or subdivisions (a) or (b) of this section, for a stand alone portable building, the system required pursuant to this article shall consist of an automatic fire detection and alarm system. For the purposes of this subdivision a "stand alone portable building" means a portable building that is used as a single classroom and that is sited more than 25 feet from any other building, including, but not limited to, any other portable building.

(d) Except as required for automatic fire detectors and waterflow detection devices, manual fire alarm boxes shall not be required throughout the school building.

(e) The entire system shall be installed, tested, and maintained in accordance with the regulations of the State Fire Marshal.

17074.54. (a) A portable building that is sited with the intent that it be at the site for less than three years and is sited upon a temporary foundation in a manner that is designed to permit easy removal, is exempt from Sections 17074.50 and 17074.52 for a period of three years from the date of siting.

(b) After the three-year exemption set forth in subdivision (a), a school district may request an extension of the exemption for an additional period not to exceed three additional years. The board shall grant the request if the school district presents convincing evidence demonstrating to the satisfaction of the board that the extension is necessary.

(c) For purposes of this section, "portable building" means a classroom building of modular design and construction that meets all of the following criteria:

- (1) It is designed and constructed to be relocatable and transportable over public streets.
- (2) It is designed and constructed for relocation without detaching the roof or the floor from the building.
- (3) It has a floor area of 2,000 square feet or less when measured at the most exterior walls.

17074.56. (a) The State Allocation Board shall adjust the per-pupil grant amount set forth in Section 17072.10 as necessary to accommodate 50 percent of the increased costs due to the automatic fire detection, alarm, and sprinkler system required pursuant to subdivision (a) of Section 17074.50. The board shall adjust the per-pupil grant amount set forth in Section 17074.10 as necessary to accommodate 80 percent of the increased costs due to the automatic fire detection and alarm system required pursuant to subdivision (b) of Section 17074.50. The board shall establish a method to provide up to 100 percent of the increased costs of the automatic fire detection, alarm, and sprinkler, if applicable, systems for school districts which qualify for hardship assistance pursuant to paragraph (1) of subdivision (b) of Section 17075.10.

(b) By July 1, 2003, the board shall review the adequacy of the per-pupil grant adjustments made pursuant to subdivision (a) and shall increase or decrease those adjustments as determined to be necessary.

(c) Any project submitted to the Division of the State Architect on or after September 1, 2001, that includes a qualifying fire detection, alarm, and sprinkler, if applicable, system, and

Additions or changes indicated by underline; deletions by asterisks * * *

4469

that has not been fully funded prior to July 1, 2002, shall be eligible for grant or eligibility adjustments as set forth in this article.

SEC. 3. Section 32000 of the Education Code is repealed.

SEC. 4. Section 32001 of the Education Code is amended to read:

32001. Every public, private, or parochial school building having an occupant capacity of * * * 50 or more pupils or students or more than one classroom shall be provided with a dependable and operative fire alarm system. Every person and public officer managing, controlling, or in charge of any public, private, or parochial school shall cause the fire alarm signal to be sounded upon the discovery of fire, unless the school is equipped with an automatic fire detection, and alarm system, which may include, but for the purposes of this section is not required to include, a sprinkler system, as described in Section 17074.52. Every person and public officer managing, controlling, or in charge of any public, private, or parochial school, other than a two-year community college, shall cause the fire alarm signal to be sounded not less than once every calendar month * * * and shall conduct a fire drill at least once every calendar month at the elementary level and at least four times every school year at the intermediate levels.

A fire drill shall be held at the secondary level not less than twice every school year.

SEC. 5. Section 32002 of the Education Code is repealed.

SEC. 6. Section 32003 of the Education Code is repealed.

SEC. 7. Section 32004 of the Education Code is repealed.

SCHOOLS AND SCHOOL DISTRICTS—FUNDS—
GENERAL AMENDMENTS

CHAPTER 734

A.B. No. 804

AN ACT to amend Sections 8208, 8264.5, 8278.3, 8951, 10901, 11023, 11024.5, 17070.75, 17150, 17582, 17694, 22303.5, 32228, 32228.1, 33533, 37220.6, 41374, 41409, 42238.44, 42239.15, 42650, 42850, 44503, 44673, 48264.5, 51210, 51220, 51224.5, 51511, 51810, 51874, 52066, 52067, 52334, 52523, 52761, 53029, 54743, 54749, 56026, 56029, 56200, 56207, 56366.1, 56391, 56836.02, 60061, 60240, 60313, 60400, 63051, 69995, 69996, 69997, 69998, 78300, 89230, and 99223 of, to amend and renumber the heading of Chapter 17 (commencing with 53081) of Part 28 of, to amend and renumber Sections 53081,

1550

Additions or changes indicated by underline; deletions by asterisks * * *

within the meaning of this chapter whether or not they may be used primarily for other purposes.

SEC. 8. Section 11023 of the Education Code is amended to read:

11023. The Superintendent of Public Instruction, shall recommend, and the State Board of Education shall approve, a plan for the comprehensive evaluation of the program authorized in this chapter. The Superintendent of Public Instruction shall complete the evaluation and submit it to the State Board of Education by July 1, 2004. The State Board of Education shall submit the final evaluation and report to the Legislature by December 31, 2004, on all of the following:

(a) Changes in the number and percent of pupils who took nationally-normed, standardized tests used for college admission decisions.

(b) Changes in the school-wide average score on nationally-normed, standardized tests used for college admission decisions.

(c) Changes in the number and percentage of pupils who complete the A-F or college preparatory course requirements with at least a "C" grade.

(d) Changes in the number and percentage of pupils who complete advanced placement courses and received a score of "3" or above.

(e) Changes in the number of advanced placement courses taken by pupils.

(f) Changes in the number and percentage of parents or guardians of 8th grade pupils who were notified of the course requirements that are a prerequisite for admission to the California State University or the University of California.

(g) The college participation rates at qualifying schools before and after the implementation of program activities pursuant to this chapter.

(h) Recommendations for changes to this chapter that could further increase the percentage of high school pupils eligible for admission to the California State University or the University of California upon graduation from high school.

SEC. 9. Section 11024.5 of the Education Code is amended to read:

11024.5. This chapter shall become inoperative on July 1, 2005, and, as of January 1, 2006, is repealed, unless a later enacted statute that is enacted before January 1, 2006, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 10. Section 17070.75 of the Education Code is amended to read:

17070.75. (a) The board shall require the school district to make all necessary repairs, renewals, and replacements to ensure that a project is at all times kept in good repair, working order, and condition. All costs incurred for this purpose shall be borne by the school district.

(b) In order to ensure compliance with subdivision (a) and to encourage school districts to maintain all buildings under their control, the board shall require an applicant school district to do all of the following prior to the approval of a project:

(1) Establish a restricted account within the school district's general fund for the exclusive purpose of providing moneys for ongoing and major maintenance of school buildings, according the highest priority to funding for the purposes set forth in subdivision (a).

(2) Agree to deposit into the account established pursuant to paragraph (1), in each fiscal year for 20 years after receipt of funds under this chapter, a minimum amount equal to or greater than 3 percent of the applicant school district's total general fund * * * expenditures, including other financing uses, for that fiscal year. For the 1998-99 fiscal year and the 1999-2000 fiscal year, a school district may phase in this requirement by agreeing to certify the deposit of no less than 2 percent for the 1998-99 fiscal year and no less than 2½ percent for the 1999-2000 fiscal year. Annual deposits to the fund established pursuant to paragraph (1) in excess of 2½ percent of the district general fund budget may count towards the district's matching funds requirement necessary to receive apportionments from the State School Deferred Maintenance Fund pursuant to Section 17584 to the extent that funds are used for purposes that qualify for funding under that section. In addition, any district contribution to this fund may be provided in lieu of meeting the ongoing maintenance requirements pursuant to Section 17014 to the extent the funds are used for purposes established in that section. A

school district that serves as the administrative unit for a special education local plan area may elect to exclude from its total general fund expenditures, for purposes of this paragraph, the distribution of revenues that are passed through to participating members of the special education local plan area. This paragraph is applicable only to the following school districts:

- (A) High school districts with an average daily attendance greater than 300 pupils.
- (B) Elementary school districts with an average daily attendance greater than 900 pupils.
- (C) Unified school districts with an average daily attendance greater than 1,200 pupils.

(3) Certify that it has publicly approved an ongoing and major maintenance plan that outlines the use of the funds deposited, or to be deposited, pursuant to paragraph (2). The plan may provide that the district need not expend all of its annual allocation for ongoing and major maintenance in the year in which it is deposited if the cost of major maintenance requires that the allocation be carried over into another fiscal year. However, any state funds carried over into a subsequent year shall not be counted toward the annual minimum contribution by the district. A plan developed in compliance with this section shall be deemed to meet the requirements of Section 17585.

(c) A district to which paragraph (2) of subdivision (b) does not apply shall certify to the board that it can reasonably maintain its facilities with a lesser level of maintenance.

(d) For the purposes of calculating a county office of education requirement pursuant to this section, the 3 percent maintenance requirement shall be calculated based upon the county office of education general fund less any restricted accounts.

SEC. 11. Section 17150 of the Education Code is amended to read:

17150. (a) Upon the approval by the governing board of the school district to proceed with the issuance of certificates of participation revenue bonds or to enter into any agreement for financing school construction pursuant to Chapter 18 (commencing with Section 17170), the school district shall notify the county superintendent of schools and the county auditor. The superintendent of the school district shall provide the repayment schedules for that debt obligation, and evidence of the ability of the school district to repay that obligation, to the county auditor, the county superintendent, the governing board, and the public. Within 15 days of the receipt of the information, the county superintendent of schools and the county auditor may comment publicly to the governing board of the school district regarding the capability of the school district to repay that debt obligation.

(b) Upon the approval by the county board of education to proceed with the issuance of certificates of participation or revenue bonds or to enter into any agreement for financing pursuant to Chapter 18 (commencing with Section 17170), the county superintendent of schools or superintendent of a school district for which the county board serves as governing board shall notify the Superintendent of Public Instruction. The county superintendent of schools or the superintendent of a school district for which the county board serves as the governing board shall provide the repayment schedules for that debt obligation and evidence of the ability of the county office of education or school district to repay that obligation, to the Superintendent of Public Instruction, the governing board, and the public. Within 15 days of the receipt of the information the Superintendent of Public Instruction may comment publicly to the county board of education regarding the capability of the county office of education or school district to repay that debt obligation.

(c) Prior to delivery of the notice required by subdivision (a) neither the county nor any of its officers shall have any responsibility for the administration of the school district's indebtedness. Failure to comply with the requirements of this section will not affect the validity of the indebtedness.

SEC. 12. Section 17582 of the Education Code is amended to read:

17582. (a) The governing board of each school district may establish a restricted fund to be known as the "district deferred maintenance fund" for the purpose of major repair or replacement of plumbing, heating, air conditioning, electrical, roofing, and floor systems, the exterior and interior painting of school buildings, the inspection, sampling, and analysis of building materials to determine the presence of asbestos-containing materials, the encapsulation or removal of asbestos-containing materials, and any other items of maintenance approved by the State Allocation Board. Funds deposited in the district deferred maintenance

STATE AGENCIES—REPORTS—REQUIREMENTS

CHAPTER 745

S.B. No. 1191

AN ACT to amend Sections 4425, 6086.15, 6094.5, 7011.8, and 7017 of, and to repeal Sections 1616.1 and 12029 of, the Business and Professions Code, to amend Section 116.950 of the Code of Civil Procedure, to amend Sections 30.5, 8215, 8358, 8451, 32237, 32239.5, 35179.2, 44252.9, 44259.5, 44279.2, 44784, 49413, 52052, 52656, 54696, 56885, 58523, 60810, 66015, 66755, 67301, 67359.20, 71028, 87104, 89753, 89761, and 99306 of, and to repeal Sections 15750, 17001.5, 44329, 49590.5, 58922, 66293, 69733, 72681, 78217, and 99105 of, the Education Code, to amend Section 7571 of the Family Code, to repeal Sections 256, 8052, and 32955 of the Financial Code, to amend Sections

4710

Additions or changes indicated by underline; deletions by asterisks * * *

Vehicle Code relating to parking exemptions for disabled persons, as defined by Section 295.5 of the Vehicle Code, and disabled veterans, as defined by Section 295.7 of the Vehicle Code. The rules and regulations shall include authorization to park for unlimited periods in time-restricted parking zones and to park in any metered parking space without being required to pay any parking meter fee or to display a parking permit other than pursuant to Section 5007 or 22511.55 of the Vehicle Code, provided those spaces are otherwise available for use by the general public. The adopted regulations shall authorize parking at campus facilities and grounds by students with disabilities and by persons providing transportation services to students with disabilities. Except as otherwise provided in this section, students with disabilities and persons providing transportation to students with disabilities shall be required to display a valid parking permit, if applicable, for the campus attended. Nothing in this section prohibits the adoption of rules and regulations providing greater accessibility for students with disabilities and persons providing transportation services to those students.

The adopted rules and regulations shall exempt students with disabilities and persons providing transportation services to these persons from any applicable parking restrictions in areas including, but not limited to, metered parking spaces and parking facilities designated for use by students, faculty, administrators, and employees.

(b) The Regents of the University of California may provide, and the Trustees of the California State University shall provide, and the Board of Governors of the California Community Colleges shall adopt rules and regulations requiring the governing board of each community college district to provide, visitor parking at each campus of the university or district at no charge for a disabled person, as defined by Section 295.5 of the Vehicle Code, or disabled veteran, as defined by Section 295.7 of the Vehicle Code, or as defined by each segment's policy concerning the provision of services to students with disabilities, whichever is more inclusive, and for persons providing transportation services to individuals with disabilities. Whenever parking designated for a disabled person is provided on any campus of the University of California, the California State University, or a community college district in a facility controlled by a mechanical gate, that university or district shall also provide accommodations for any person whose disability prevents him or her from operating the gate controls. These accommodations may be provided by making arrangements for disabled persons to be assisted in the operation of the gate controls, or through other effective and reasonable means the university or district may devise. Nothing in this subdivision shall be construed to require the replacement or elimination of special parking facilities restricted for the use of disabled persons located on the campuses of these universities or districts.

It is the intent of the Legislature that community college districts shall utilize the proceeds from parking fees charged to community college students and employees to offset costs incurred by these districts in accommodating disabled persons pursuant to the requirements of this section.

(c) The Board of Governors of the California Community Colleges and the Trustees of the California State University shall, and the Regents of the University of California may, establish procedures for the purpose of conducting biennial audits to determine whether individual campuses are in compliance with all state building code requirements relating to the location and the designation of minimum percentages of available campus parking spaces for use by students with disabilities, as determined by guidelines of Section 14679 of the Government Code, Section 2-7102 of Title 24 of the California Code of Regulations, Part 40 (commencing with Section 40.1) of Title 24 of the Code of Federal Regulations, Section 1190.31 of Title 36 of the Code of Federal Regulations, or their successor provisions, or any other applicable provisions of law, whichever provides the greater accessibility for disabled persons.

* * *

SEC. 34. Section 67359.20 of the Education Code is amended to read:

67359.20. Any funds from the 1988 Higher Education Capital Outlay Bond Fund, the June 1990 Higher Education Capital Outlay Bond Fund, and the 1992 Higher Education Capital Outlay Bond Fund, not to exceed a combined total of seventy-five million dollars (\$75,000,000), are hereby appropriated to the Director of Finance for allocation to the University of California, the California State University, and the California Community Colleges to meet the timely allocation of matching grants to repair, replace, reconstruct, renovate, or retrofit

on-campus buildings or facilities, including utilities, and streets and roads that were damaged in the Northridge earthquake of January 17, 1994.

* * *

SEC. 35. Section 69733 of the Education Code is repealed.

SEC. 36. Section 71028 of the Education Code is amended to read:

71028. * * * The board of governors shall adopt regulations to ensure that the California Community Colleges, as a system, establish and apply the statewide participation goals for contracting with minority business enterprises and women business enterprises specified in Section 10115 of the Public Contract Code. The statewide participation goal for the California Community Colleges shall be based upon the total dollar amount of contracts awarded, with not less than 15 percent being awarded to minority business enterprises, and not less than 5 percent being awarded to women business enterprises. The regulations adopted by the board of governors shall be adapted from and consistent with the provisions of Article 1.5 (commencing with Section 10115) of Chapter 1 of Part 1 of the Public Contract Code.

* * *

SEC. 37. Section 72681 of the Education Code is repealed.

SEC. 38. Section 78217 of the Education Code is repealed.

SEC. 39. Section 87104 of the Education Code is amended to read:

87104. (a) The Board of Governors of the California Community Colleges, out of funds appropriated for these purposes, (1) shall provide assistance to local community colleges in adopting and maintaining high-quality affirmative action programs; (2) * * * develop and disseminate to public community college districts guidelines to assist these agencies in developing and implementing affirmative action employment programs; and (3) shall establish a technical assistance team to review the affirmative action plan of each community college district which fails to make measurable progress in meeting the goals and timetables of its adopted plan. The technical assistance team shall recommend appropriate actions to assure reasonable progress in improving success rates. The board of governors shall prescribe those conditions necessary to assure reasonable progress and otherwise meet the legal requirements of affirmative action. The conditions may include the withholding of allowances made pursuant to Sections 87482.6 and 87107.

(b) The board of governors shall establish, by July 1, 1989, within the chancellor's office or through other means as deemed necessary, a major service function to assist community college districts in identifying, locating, and recruiting qualified members of underrepresented groups, and in establishing and maintaining effective affirmative action hiring procedures.

(c) The board of governors shall, by March 15, 1989, develop and adopt a systemwide plan for strengthening faculty and staff affirmative action policies and programs in the California Community Colleges.

SEC. 40. Section 89753 of the Education Code is amended to read:

89753. All appropriations for the support of the California State University and the trustees shall be subject to Section 13320 of the Government Code and applicable Budget Act restrictions, with the following exceptions:

(a) The trustees may, with regard to funds appropriated for the support of the California State University, approve any transfer of funds between general fund appropriations, unless restricted by the Budget Act or any other act, and within and between any category designated in any schedule set forth for the appropriation. In addition, the trustees may authorize the augmentation of the amount available for a category designated in any schedule set forth for the appropriation by transfer from any of the other designated categories, including additional reimbursements and amounts receivable within the same schedule, and shall furnish the Joint Legislative Budget Committee and appropriate legislative fiscal committees a report of the authorizations given during the preceding quarter.

(b) The trustees may approve travel, both within and outside the state, and the payment of allowances and expenses related to travel, moving, and the relocation of employees in accordance with the allowances established by the trustees.

2001-2002 REGULAR SESSION

Ch. 746, § 1

(c) Of the funds appropriated for the purpose authorized in paragraphs (1) and (2) of subdivision (a), no more than two hundred seventy thousand dollars (\$270,000) may be expended in any fiscal year for costs of administering the programs authorized thereby.

SEC. 276. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that state and local agencies may be relieved of the burden of preparing unessential reports at the earliest possible time, it is necessary that this act take effect immediately.

2001-2002 REGULAR SESSION

Ch. 33

EDUCATION—KINDERGARTEN-UNIVERSITY PUBLIC
EDUCATION FACILITIES BOND ACT

CHAPTER 33

A.B. No. 16

AN ACT to amend Sections 17070.15, 17070.35, 17070.40, 17070.43, 17070.51, 17070.65, 17070.70, 17071.33, 17071.75, 17072.10, 17072.25, 17074.10, 17074.15, 17075.10, 17075.15, 17076.10, 17088.2, 17262, and 17280 of, to add Sections 17070.95, 17074.16, 17074.26, 17077.35, 17251.5, and 17280.5 to, to amend and renumber Section 17077.10 of, to amend and renumber the heading of Article 10 (commencing with Section 17077.10) of Chapter 12.5 of Part 10 of, to add Article 10.6

Additions or changes indicated by underline; deletions by asterisks * * *

239

The bill would specify that 2 of the Senators would belong to the majority party and one of the Senators would belong to the minority party, and that 2 of the Members of the Assembly would belong to the majority party and one of the Members of the Assembly would belong to the minority party.

(4) Existing law authorizes a school district to levy a fee, charge, dedication, or other requirement against any construction within the boundaries of the school district for the purpose of funding the construction or reconstruction of school facilities. The law authorizes a school district to increase the levy, as prescribed, if state funds for new school facility construction are not available, as defined.

This bill would suspend the operation of the provision authorizing the increased levy until the 2002 statewide general election, or if bonds are approved at the 2002 statewide general election, until the 2004 direct primary election. This bill would exclude the availability of certain funds for the purpose of making the determination as to whether state school facility funds are available. The bill would also establish the Homebuyer Down Payment Assistance Program to provide assistance in payment of the school facilities fee on affordable housing development.

(5) This bill would appropriate the sum of \$651,289,000, from the Public Buildings Construction Fund to the California State Library, the University of California, the California State University and the California Community Colleges for construction of education facilities, including, but not limited to, library facilities, pursuant to a prescribed schedule, and would authorize the State Public Works Board to issue related lease-revenues bonds.

(6) This bill would declare that it is to take effect immediately as an urgency statute.

Appropriation: yes.

The people of the State of California do enact as follows:

SECTION 1. Section 17070.15 of the Education Code is amended to read:

17070.15. The following terms, wherever used or referred to in this chapter, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) "Apportionment" means a reservation of funds for the purpose of eligible new construction, modernization, or hardship approved by the board for an applicant school district.

(b) "Attendance area" means the geographical area serving an existing * * * high school and those junior high schools and elementary schools included therein.

(c) "Board" means the State Allocation Board as established by Section 15490 of the Government Code.

(d) "Department" means the Department of General Services.

(e) "Committee" means the State School Building Finance Committee established pursuant to Section 15909.

(f) "Modernization" means any modification of a permanent structure that is at least 25 years old, or in the case of a portable classroom, that is at least 20 years old, that will enhance the ability of the structure to achieve educational purposes.

(g) "Property" includes all property, real, personal or mixed, tangible or intangible, or any interest therein necessary or desirable for carrying out the purposes of this chapter.

(h) "School district" means a school district or a county office of education. For purposes of determining eligibility under this chapter, "school district" may also mean a high school attendance area.

(i) "Fund" means the 1998 State School Facilities Fund, the 2002 State School Facilities Fund, or the 2004 State School Facilities Fund, as the case may be, established pursuant to Section 17070.40.

(j) "County fund" means a county school facilities fund established pursuant to Section 17070.43.

(k) "Portable classroom" means a classroom building of one or more stories that is designed and constructed to be relocatable and transportable over public streets, and with respect to a single story portable classroom, is designed and constructed for relocation

Additions or changes indicated by underline; deletions by asterisks * * *

241

without the separation of the roof or floor from the building and when measured at the most exterior walls, has a floor area not in excess of 2,000 square feet.

(l) "School building capacity" means the capacity of a school building to house pupils.

SEC. 2. Section 17070.35 of the Education Code is amended to read:

17070.35. (a) In addition to all other powers and duties as are granted to the board by this chapter, other statutes, or the California Constitution, the board shall do all of the following:

(1) Adopt rules and regulations, pursuant to the rulemaking provisions of the Administrative Procedure Act, Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code, for the administration of this chapter. However, the board shall have no authority to set the level of the fees of any architect, structural engineer, or other design professional on any project. The initial regulations adopted pursuant to this chapter shall be adopted as emergency regulations, and the circumstances related to the initial adoption are hereby deemed to constitute an emergency for this purpose. The initial regulations adopted pursuant to this chapter shall be adopted by November 4, 1998. If the initial regulations are not adopted by that date, the board shall report to the Legislature by that date, explaining the reasons for the delay.

(2) Establish and publish any procedures and policies in connection with the administration of this chapter as it deems necessary.

(3) Determine the eligibility of school districts to receive apportionments under this chapter.

(4) Apportion funds to eligible school districts under this chapter.

(b) The board shall review and amend its regulations as necessary to adjust its administration of this chapter to conform with the act that amended this section to add this subdivision. Regulations adopted pursuant to this subdivision shall be adopted by November 5, 2002, and shall be adopted as emergency regulations in accordance with the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). The adoption of any emergency regulation pursuant to this subdivision filed with the Office of Administrative Law shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. Notwithstanding subdivision (e) of Section 11346.1 of the Government Code, any emergency regulation adopted pursuant to this section shall remain in effect for no more than 365 days unless the board has complied with Sections 11346.2 to 11348, inclusive, of the Government Code.

SEC. 3. Section 17070.40 of the Education Code is amended to read:

17070.40. (a)(1) A fund is hereby established in the State Treasury to be known as the 1998 State School Facilities Fund. All money in the fund, including any money deposited in that fund from any source whatsoever, and notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to this chapter.

(2) The State Allocation Board may apportion funds to school districts for the purposes of this chapter from funds transferred to the 1998 State School Facilities Fund from any source.

(3) The board may make apportionments in amounts not exceeding those funds on deposit in the 1998 State School Facilities Fund, and any amount of bonds authorized by the * * * committee, but not yet sold by the Treasurer.

(4) The board may make disbursements pursuant to any apportionment made from any funds in the 1998 State School Facilities Fund, irrespective of whether there exists at the time of the disbursement an amount in the 1998 State School Facilities Fund sufficient to permit payment in full of all apportionments previously made. However, no disbursement shall be made from any funds required by law to be transferred to the General Fund.

(b)(1) A fund is hereby established in the State Treasury to be known as the 2002 State School Facilities Fund. All money in the fund, including any money deposited in that fund from any source whatsoever, and notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to this chapter.

(2) The State Allocation Board may apportion funds to school districts for the purposes of this chapter from funds transferred to the 2002 State School Facilities Fund from any source.

(3) The board may make apportionments in amounts not exceeding those funds on deposit in the 2002 State School Facilities Fund, and any amount of bonds authorized by the committee, but not yet sold by the Treasurer.

(4) The board may make disbursements pursuant to any apportionment made from any funds in the 2002 State School Facilities Fund, irrespective of whether there exists at the time of the disbursement an amount in the 2002 State School Facilities Fund sufficient to permit payment in full of all apportionments previously made. However, no disbursement shall be made from any funds required by law to be transferred to the General Fund.

(c)(1) A fund is hereby established in the State Treasury to be known as the 2004 State School Facilities Fund. All money in the fund, including any money deposited in that fund from any source whatsoever, and notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to this chapter.

(2) The State Allocation Board may apportion funds to school districts for the purposes of this chapter from funds transferred to the 2004 State School Facilities Fund from any source.

(3) The board may make apportionments in amounts not exceeding those funds on deposit in the 2004 State School Facilities Fund, and any amount of bonds authorized by the committee, but not yet sold by the Treasurer.

(4) The board may make disbursements pursuant to any apportionment made from any funds in the 2004 State School Facilities Fund, irrespective of whether there exists at the time of the disbursement an amount in the 2004 State School Facilities Fund sufficient to permit payment in full of all apportionments previously made. However, no disbursement shall be made from any funds required by law to be transferred to the General Fund.

SEC. 4. Section 17070.43 of the Education Code is amended to read:

17070.43. (a) A county school facilities fund is hereby established in the county treasury within each county for each school district in the county.

(b) The board may from time to time authorize the Controller to transfer any funds that the board may deem necessary from the 1998 State School Facilities Fund, the 2002 State School Facilities Fund, or the 2004 State School Facilities Fund, as the case may be, to the corresponding county fund in the county treasury. Interest on all funds deposited in the county fund shall be retained in that fund.

(c) Funds may be expended from the county fund by the recipient school district for qualifying school facilities expenditures set forth in Sections 17072.35 and 17074.25.

SEC. 5. Section 17070.51 of the Education Code is amended to read:

17070.51. (a) If any certified eligibility or funding application related information is found to have been falsely certified by school districts, architects or design professionals, hereinafter referred to as a material inaccuracy, the Office of Public School Construction shall notify the board.

(b) The board shall impose the following penalties if an apportionment and fund release has been made based upon information in the project application or related materials that constitutes a material inaccuracy.

(1) Pursuant to a repayment schedule approved by the board of no more than five years, the school district shall repay to the board, for deposit into the 1998 State School Facilities Fund, the 2002 State School Facilities Fund, or the 2004 State School Facilities Fund, as the case may be, an amount proportionate to the additional funding received as a result of the material inaccuracy including interest at the rate paid on moneys in the Pooled Money Investment Account or at the highest rate of interest for the most recent issue of state general obligation bonds as established pursuant to the Chapter 4 (commencing with Section 16720), of Part 3 of Division 4 of Title 2 of the Government Code, whichever is greater.

(2) The board shall prohibit the school district from self-certifying certain project information for any subsequent applications for project funding for a period of up to five years following the date of the finding of a material inaccuracy or until the district's repayment of

the entire amount owed under paragraph (1). Although a school district that is subject to this paragraph may not self-certify, the school district shall not be prohibited from applying for state funding under this chapter. The board shall establish an alternative method for state or independent certification of compliance that shall be applicable in these cases. The process shall include, but shall not be limited to, procedures for payment by the school district of any increased costs associated with the alternative certification process.

(c) For school districts found to have provided material inaccuracies when a funding apportionment has occurred, but no fund release has been made, the board shall direct its staff to reduce the apportionment as necessary to reflect the actual nature of the project and to disregard the inaccurate information or material, and paragraph (2) of subdivision (b) shall apply.

(d) For those school districts found to have provided material inaccuracies when no funding apportionment or fund release has been made, the inaccurate information or materials shall not be considered, and paragraph (2) of subdivision (b) shall apply. The project may continue if the application, minus the inaccurate materials, is still complete.

SEC. 6. Section 17070.65 of the Education Code is amended to read:

17070.65. From any moneys in * * * one of the funds established pursuant to Section 17070.40, as appropriate, and approved for this purpose in the annual Budget Act, the board shall make available to the Director of General Services the amounts that the board determines necessary for the Department of General Services to provide the assistance, pursuant to this chapter, required pursuant to Section 15504 of the Government Code to facilitate the construction, modernization, reconstruction, or alteration of, or addition to, school buildings.

SEC. 7. Section 17070.70 of the Education Code is amended to read:

17070.70. (a) Title, including, but not limited to, any leasehold interest as set forth in subdivision (c), to all property acquired, constructed, or improved with funds made available under this chapter shall be held by the school district to which the board grants the funds. Title, as defined solely for the purpose of a school district's eligibility to receive funds from the board pursuant to this chapter shall include an order for prejudgment possession issued by a court in an eminent domain proceeding.

(b) The applicant school district shall comply with all laws pertaining to the construction, reconstruction, or alteration of, or addition to, school buildings.

(c) Notwithstanding Section 17009.5, construction or modernization funds made available pursuant to this chapter may be expended upon property that is leased to the applicant school district only if the project qualified for and received approval by the board, prior to November 4, 1998, pursuant to Article 4 (commencing with Section 17055), of Chapter 12.

SEC. 8. Section 17070.95 is added to the Education Code, to read:

17070.95. As a part of its application for large construction and modernization projects, a school district shall certify, in consultation with the career technical education advisory committee established pursuant to Section 8070, that it has considered the need for vocational and career technical facilities to adequately meet its program needs consistent with Section 51224, subdivision (b) of Section 51225.3, and Section 52336.1. The board shall adopt regulations necessary for administration of this section.

SEC. 9. Section 17071.33 of the Education Code is amended to read:

17071.33. (a) For the purposes of determining existing school building capacity, the calculation shall be adjusted as required for first priority status pursuant to Section 17017.7 as that calculation would have been made under the policies of the board in effect immediately preceding September 1, 1998.

(b) Notwithstanding subdivision (a), with respect to a high school district, the existing school building capacity shall be calculated without regard to multitrack year-round school considerations.

SEC. 10. Section 17071.75 of the Education Code is amended to read:

17071.75. After a one-time initial report of existing school building capacity has been completed, a school district's ongoing eligibility for new construction funding shall be determined by making all of the following calculations:

(a) Each school district that applies to receive funding for new construction shall calculate enrollment projections for the fifth year beyond the fiscal year in which the application is made. Projected enrollment shall be determined by utilizing the cohort survival enrollment projection system, as defined and approved by the board. The board may supplement the cohort survival enrollment projection by the number of unhoused pupils that are anticipated as a result of dwelling units proposed pursuant to approved and valid tentative subdivision maps.

(b) Add the number of pupils that may be adequately housed in the existing school building capacity of the applicant district as determined pursuant to Article 2 (commencing with Section 17071.10) to the number of pupils for which facilities were provided from any state or local funding source after the existing school building capacity was determined pursuant to Article 2 (commencing with Section 17071.10). For this purpose, the total number of pupils for which facilities were provided shall be determined using the pupil loading formula set forth in Section 17071.25.

(c) Subtract the number of pupils pursuant to subdivision (b) from the number of pupils determined pursuant to subdivision (a).

(d) The calculations required to establish eligibility under this article shall result in a distinction between the number of existing unhoused pupils and the number of projected unhoused pupils.

(e) Apply the increase or decrease resulting from the difference between the most recent report made pursuant to Section 42268, and the report used in determining the school district's baseline capacity pursuant to subdivision (a) of Section 17071.25.

(f) For a school district with fewer than 2,501 units of average daily attendance, the eligibility determined pursuant to this section shall be fixed for a period of three years from the date of the approval of eligibility by the board.

SEC. 11. Section 17072.10 of the Education Code is amended to read:

17072.10. (a) The board shall determine the applicant's maximum total new construction grant eligibility by multiplying the number of unhoused pupils calculated pursuant to Article 3 (commencing with Section 17071.75) in each school district with an approved application for new construction, by the per-unhoused-pupil grant as follows:

- (1) Five thousand two hundred dollars (\$5,200) for elementary school pupils.
- (2) Five thousand five hundred dollars (\$5,500) for middle school pupils.
- (3) Seven thousand two hundred dollars (\$7,200) for high school pupils.

(b) The board shall annually adjust the per-unhoused-pupil apportionment to reflect construction cost changes, as set forth in the statewide cost index for class B construction as determined by the board.

(c) The board may adopt regulations to be effective until July 1, 2000, that adjust the amounts identified in this section for qualifying individuals with exceptional needs, as defined in Section 56026. The regulations shall be amended after July 1, 2000, in consideration of the recommendations provided pursuant to Section 17072.15.

(d) The board may establish a single supplemental per-unhoused-pupil grant in addition to the amounts specified in subdivision (a) based on the statewide average marginal difference in costs in instances where a project requires multilevel school facilities due to limited acreage. The district's application shall demonstrate that a practical alternative site is not available.

(e) For a school district having an enrollment of 2,500 or less for the prior fiscal year, the board may approve a supplemental apportionment of up to seven thousand five hundred dollars (\$7,500) for any new construction project assistance. The amount of the supplemental apportionment authorized pursuant to this subdivision shall be adjusted in 2001 and every year thereafter by an amount equal to the percentage adjustment for class B construction.

* * *

SEC. 12. Section 17072.25 of the Education Code is amended to read:

Additions or changes indicated by underline; deletions by asterisks * * *

245

17072.25. (a) The board shall adopt regulations to develop a mechanism to rank approved applications for new construction funding. This mechanism shall be used to determine the priority of approved applications when either of the following conditions are met:

(1) The total state funds necessary for funding all approved projects pursuant to this chapter exceed the total state funds in the fund for allocation pursuant to this chapter.

(2) The actual amount of unallocated proceeds of state bonds available on or after July 1, 2000, for new construction for the purposes of this chapter is at three hundred million dollars (\$300,000,000).

(b) The ranking mechanism shall allocate priority points based upon the percentages of currently and projected unhoused pupils relative to the total population of the applicant district or attendance area and the total number of currently and projected unhoused pupils in an applicant district or attendance area.

(c) The board may award priority points based on other factors that in its judgment result in the most equitable distribution of resources among applicants. The additional factors may not constitute greater than a 10-percent weight in the overall priority ranking.

(d) This section shall apply only to projects funded with the proceeds of state bonds approved by the voters prior to January 1, 2002.

SEC. 13. Section 17074.10 of the Education Code is amended to read:

17074.10. (a) The board shall determine the total funding eligibility of a school district for modernization funding by multiplying the following amounts by each pupil of that grade level housed in permanent school buildings that are at least 25 years old or portable classrooms that are at least 20 years old, and that have not been previously modernized with state funding:

(1) Two thousand two hundred forty-six dollars (\$2,246) for each elementary pupil.

(2) Two thousand three hundred seventy-six dollars (\$2,376) for each middle school pupil.

(3) Three thousand one hundred ten dollars (\$3,110) for each high school pupil.

(b) The board shall annually adjust the factors set forth in subdivision (a) according to the adjustment for inflation set forth in the statewide cost index for class B construction, as determined by the board.

(c) The board may adopt regulations to be effective until July 1, 2000, that adjust the amounts identified in this section for qualifying individuals with exceptional needs, as defined in Section 56026. The regulations shall be amended after July 1, 2000, in consideration of the recommendations provided pursuant to Section 17072.15.

(d) It is the intent of the Legislature that the amounts provided pursuant to this article for school modernization do not include funding for administrative and overhead costs.

(e) For a school district having an enrollment of 2,500 or less for the prior fiscal year, the board may approve a supplemental apportionment of up to two thousand five hundred dollars (\$2,500) for any modernization project assistance. The amount of the supplemental apportionment shall be adjusted in 2001 and every year thereafter by an amount equal to the percentage adjustment for class B construction. * * *

SEC. 14. Section 17074.15 of the Education Code is amended to read:

17074.15. (a) The board shall release disbursements to school districts with approved applications for modernization, to the extent state funds are available for the state's 80-percent share, and the school district has provided its 20-percent local match. Subject to the availability of funds, the board shall apportion funds to an eligible school district only upon the approval of the project by the Department of General Services pursuant to the Field Act, as defined in Section 17281, including, but not limited to, a project that complies with the Field Act by complying with Section 17280.5, and evidence that the certification by the school district that the required 20-percent matching funds from local sources have been expended by the district for the project, or have been deposited in the county fund or will be expended by the district by the time of completion of the project, and evidence that the district has entered into a binding contract for the completion of that project. If state funds are insufficient to fund all qualifying school districts, the board shall fund all qualifying school districts in the order in which the application for funding was approved by the board.

(b) This section shall apply only to an application filed on or before March 15, 2002, regardless of the source of state bond funding.

SEC. 15. Section 17074.16 is added to the Education Code, to read:

17074.16. (a) The board shall release disbursements to school districts with approved applications for modernization, to the extent state funds are available for the state's 60-percent share, and the school district has provided its 40-percent local match. Subject to the availability of funds, the board shall apportion funds to an eligible school district only upon the approval of the project by the Department of General Services pursuant to the Field Act, as defined in Section 17281, including, but not limited to, a project that complies with the Field Act by complying with Section 17280.5, and evidence that the certification by the school district that the required 40-percent matching funds from local sources have been expended by the district for the project, or have been deposited in the county fund or will be expended by the district by the time of completion of the project, and evidence that the district has entered into a binding contract for the completion of that project. If state funds are insufficient to fund all qualifying school districts, the board shall fund all qualifying school districts in the order in which the application for funding was approved by the board.

(b) This section shall apply only to an application that was filed after March 15, 2002.

SEC. 16. Section 17074.26 is added to the Education Code, to read:

17074.26. The board shall adopt regulations to adjust the per-pupil amounts set forth in Section 17074.14 for modernization projects for school buildings that are 50 years old or older based upon the higher costs associated with modernizing older buildings.

SEC. 17. Section 17075.10 of the Education Code is amended to read:

17075.10. (a) A school district may apply for hardship assistance in cases of extraordinary circumstances.

(b) A school district applying for hardship state funding under this article shall comply with either paragraph (1) or (2).

(1) Demonstrate both of the following:

(A) That due to extreme financial, disaster-related, or other hardship the school district has unmet need for pupil housing.

(B) That the school district is not financially capable of providing the matching funds otherwise required for state participation, that the district has made all reasonable efforts to impose all levels of local debt capacity and development fees, and that the school district is, therefore, unable to participate in the program pursuant to this chapter except as set forth in this article.

(2) Demonstrate that due to unusual circumstances that are beyond the control of the district, excessive costs need to be incurred in the construction of school facilities.

(c) The board shall review the increased costs that may be uniquely associated with urban construction and shall adjust the per-pupil grant for new construction, or modernization, hardship applications as necessary to accommodate those costs. The board shall adopt regulations setting forth the standards, methodology, and a schedule of allowable adjustments, for the urban adjustment factor established pursuant to this subdivision.

SEC. 18. Section 17075.15 of the Education Code is amended to read:

17075.15. (a) From funds available from any bond act for the purpose of funding facilities for school districts with a financial hardship, the board may provide other construction, modernization, or relocation assistance as set forth in this chapter or Chapter 14 (commencing with Section 17085) to the extent that severe circumstances may require, and may adjust or defer the local financial participation, as pupil health and safety considerations require to the extent that bond act funds are provided for this purpose.

(b) The board shall adopt regulations for determining the amount of funding that may be provided to a district, and the eligibility and prioritization of funding, under this article.

(c) The regulations shall * * * define the amount, and sources, of financing that the school district could reasonably provide for school facilities * * * as follows:

Additions or changes indicated by underline; deletions by asterisks * * *

247

(1) Unencumbered funds available in all facility accounts in the school district including, but not limited to, fees on development, redevelopment funds, sale proceeds from surplus property, funds generated by certificates of participation for facility purposes, bond funds, federal grants, and other funds available for school facilities, as the board may determine.

(2) The board may exclude from consideration all funds encumbered for a specific capital outlay purpose, a reasonable amount for interim housing, and other funds that the board may find are not reasonably available for the project.

(d) Further, the regulations shall also specify a method for determining required levels of local effort to obtain matching funds. The regulations shall include consideration of at least all of the following factors:

(1) Whether the school district has passed a bond measure within the two-year period immediately preceding the application for funding under this article, the proceeds of which are substantially available for use in the project to be funded under this chapter, but remains unable to provide the necessary matching share requirement.

(2) Whether the school district has a current outstanding bonded indebtedness, which shall include general obligation bonds, Mello-Roos bonds, school facility improvement district bonds, certificates of participation, and other debt instruments upon which the school district is paying a debt service, of at least 60 percent of the school district's total bonding capacity, as determined by the board.

(3) Whether the total bonding capacity, as defined in Section 15102 or 15106, as applicable, is five million dollars (\$5,000,000) or less, in which case, the school district shall be deemed eligible for financial hardship.

(4) Whether the application for funding under this article is from a county superintendent of schools.

(5) Whether the school district submits other evidence of substantial local effort acceptable to the board.

(6) The value of any unused local general obligation debt capacity, and developer fees added to the needs analysis to reflect the district's financial hardship, available for the purposes of school facilities financing * * *.

SEC. 19. Section 17076.10 of the Education Code is amended to read:

17076.10. (a) A school district that has received any funds pursuant to this chapter shall submit a summary report of expenditure of state funds and of district matching funds annually until all state funds and district matching funds are expended, and shall then submit a final report to the board. The board may require an audit of these reports or other district records to ensure that all funds received pursuant to this chapter are expended in accordance with program requirements.

(b) If the board finds that a participating school district has made no substantial progress towards increasing its pupil capacity or modernizing its facilities within 18 months of the receipt of any funding pursuant to this chapter, the board shall rescind the apportionment in an amount equal to the unexpended funds.

(c) If the board, after the review of expenditures or audit has been conducted pursuant to subdivision (a), determines that a school district failed to expend funds in accordance with this chapter, the department shall notify the school district of the amount that must be repaid to the 1998 State School Facilities Fund, the 2002 State School Facilities Fund, or the 2004 State School Facilities Fund, as the case may be, within 60 days. If the school district fails to make the required payment within 60 days, the department shall notify the Controller and the school district in writing, and the Controller shall deduct an amount equal to the amount received by the school district under this subdivision, from the school district's next principal apportionment or apportionments of state funds to the school district, other than basic aid apportionments required by Section 6 of Article IX of the California Constitution. Any amounts obtained by the Controller shall be deposited into the 1998 State School Facilities Fund, the 2002 State School Facilities Fund, or the 2004 State School Facilities Fund, as appropriate.

(d) If a school district has received an apportionment, but has not met the criteria to have funds released pursuant to Section 17072.32 or 17074.15 within a period established by the

board, but not to exceed 18 months, the board shall rescind the apportionment and deny the district's application.

SEC. 20. The heading of Article 10 (commencing with Section 17077.10) of Chapter 12.5 of Part 10 of the Education Code, as added by Chapter 981 of the Statutes of 1999, is amended and renumbered to read:

Article 10.5. Energy * * * Efficiency

SEC. 21. Section 17077.10 of the Education Code, as added by Chapter 981 of the Statutes of 1999, is amended and renumbered to read:

17077.30. (a) As part of the requirements for submission of an application to the State Allocation Board for funding pursuant to this chapter for any new construction or modernization project, the applicant school district may, at the time of submission of the final drawings to the Division of the State Architect, certify that an energy analysis and report has been prepared that sets forth the utility savings that would be generated if the facilities were designed, constructed, and equipped, with the energy efficiency and renewable technologies that would make the facilities exceed the minimum building energy-efficiency standards mandated for new public buildings pursuant to the latest edition of the California Building Standards Code through the use of energy efficiency and renewable energy technologies.

(b) The energy analysis and report shall include a verifiable life-cycle cost analysis for each proposed energy conservation measure and renewable energy that may include, but need not be limited to, photovoltaic parking lot and security lighting, and solar swimming pool and domestic water heating, showing a return on investment of less than 15 years.

(c) The cost of the energy analyses and reports shall not exceed:

- (1) Seven thousand five hundred dollars (\$7,500) per project for elementary schools.
- (2) Ten thousand dollars (\$10,000) per project for middle schools.
- (3) Fifteen thousand dollars (\$15,000) per project for high schools.

(d) An applicant school district may count the following funds or expenditures toward meeting the local matching funds requirement under this chapter:

(1) The amount from any local sources actually expended on the project by the applicant school district for an energy audit.

(2) The amount actually applied to the project from any incentive, grant, or rebate, received by the applicant school district from a program funded pursuant to Section 381 of the Public Utilities Code.

SEC. 22. Section 17077.35 is added to the Education Code, to read:

17077.35. (a) An applicant school district may include plan design and other project components that seek school facility energy efficiency approaching the ultimate goal of school facility energy self-sufficiency, and may seek a grant adjustment for the state's share of the increased costs associated with those components.

(b) Energy efficiency components that are eligible for inclusion into a project pursuant to this section include, but are not limited to, conservation, load reduction technologies, peakload shifting, solar water heating technologies as described in subparagraph (A) of paragraph (2) of subdivision (b) of Section 25619 of the Public Resources Code and as rated and certified by the Solar Rating and Certification Corporation, the use of ground source temperatures for heating and cooling, photovoltaics, and technologies that meet the emerging technology eligibility criteria established by the State Energy Resources Conservation and Development Commission pursuant to Section 383.5 of the Public Utilities Code. A project that received funding from the renewable energy program administered by the State Energy Resources Conservation and Development Commission is not eligible for a grant adjustment under this section.

(c) In order to be eligible for the grant adjustment pursuant to this section, the building proposed for the project, including the energy-efficiency and renewable energy measures utilized pursuant to this section, shall exceed the nonresidential building energy-efficiency standards specified in Part 6 (commencing with Section 100) of Title 24 of the California Code

of Regulations by an amount not less than 15 percent for new construction projects and not less than 10 percent for modernization projects, and shall be shown to provide sufficient energy savings to return the cost of the initial investment in the project over a period not to exceed seven years. The applicant shall certify that the cost for the project exceeds the amount of funding otherwise available to the applicant under this chapter.

(d) The board shall provide an applicant for a new construction or modernization project with a grant adjustment to provide an increase not to exceed 5 percent of its state grants authorized by Sections 17072.10 and 17074.10 for the state's share of costs associated with design and other plan components related to school facility energy efficiency as set forth in this article.

SEC. 23. Article 10.6 (commencing with Section 17077.40) is added to Chapter 12.5 of Part 10 of the Education Code, to read:

Article 10.6. Joint-use Facilities

17077.40. (a) With funds made available for the purposes of this article, the board may provide a grant to fund joint-use projects to construct facilities on kindergarten to grade 12, inclusive, schoolsites.

(b) A school district may apply to the board for funding under this article for a project that meets any of the following criteria:

(1) The joint-use project is a part of an application for new construction funding under this chapter, and is for the purpose of providing facilities to be used for a kindergarten to grade 12/higher education collaborative effort for any of the following purposes:

- (A) To improve pupil academic achievement.
- (B) To provide teacher education.
- (C) To provide childcare facilities.

(2) The joint-use project is part of an application for new construction funding under this chapter, and will increase the size or extra cost associated with the joint use of the proposed multipurpose room, gymnasium, childcare facility, or library beyond that necessary for school use.

(3) The joint-use project is for a kindergarten to grade 12/higher education collaborative effort to improve academic achievement or provide teacher education, or a multipurpose room, gymnasium, library, or childcare facility, and the project will be located at a school that does not have the type of facility for which funds are requested or the existing facility is inadequate.

17077.42. In order to be approved for a grant under this article, the applicant district shall demonstrate that it has complied with all of the following:

(a) The school district has entered into a joint-use agreement with a governmental agency, public community college, public college or public university, or a nonprofit organization approved by the board.

(b) The joint-use agreement specifies the method of sharing capital and operating costs, specifies relative responsibilities for the operation and staffing of the facility, and specifies the manner in which the safety of the pupils will be ensured.

(c) The joint-use partner has agreed to provide matching funds for 50 percent of the eligible costs under this article.

(d) The school district demonstrates that the facility will be used to the maximum extent possible for both school and community purposes, or both school and higher education purposes, as applicable.

(e)(1) The project application qualifies for funding under paragraph (1) or (2) of subdivision (b) of Section 17077.40 and the school district has received all approvals necessary for apportionment under this chapter.

(2) The project qualifies for funding under paragraph (3) of subdivision (b) of Section 17077.40 and the school district has completed preliminary plans for the project and has received State Department of Education approval of the plans.

17077.45. (a) The board shall establish standards for determining the amount of the supplemental grant funding to be made available for each project under this article. For a project application qualifying for funding under paragraph (1) or (2) of subdivision (b) of Section 17077.40, the supplemental grant shall be in the form of an adjustment to the per-pupil eligibility of the project. For a project application qualifying under paragraph (3) of subdivision (b), the supplemental grant may be provided without regard to the existence of per-pupil eligibility pursuant to this chapter, and may be expressed on per-square-foot cost basis, on a per-pupil cost basis, or on a per-project cost basis.

(b) Notwithstanding any other provision of this chapter, project costs may exceed the board's standards established pursuant to subdivision (a) only if the excess is paid completely by local or joint-use partner sources.

(c) On July 1 of each year the board shall apportion to qualifying applicant school districts those funds that it determines are available for the purpose of this article. The board shall not release funds to a qualifying applicant until the project plans have received all approval required pursuant to this chapter, including, but not limited to, the approval of the Division of the State Architect. If the project does not receive all necessary plan approvals within one year of the date of the apportionment, the board shall rescind the apportionment.

(d) If the total funding for the purposes of this article is not sufficient to fund all of the joint-use projects for funding under this article, the board shall fund projects eligible under paragraphs (1), (2), and (3) of subdivision (b) of Section 17077.40 in that order. The board may establish other priority standards within that order, as necessary.

(e) Except as expressly provided in this article, projects funded pursuant to this article shall comply with all other requirements of this chapter, except for Article 11 (commencing with Section 17078.10), which shall apply only to projects under this article if they also qualify for funding under Article 11 (commencing with Section 17078.10).

SEC. 24. Article 11 (commencing with Section 17078.10) is added to Chapter 12.5 of Part 10 of the Education Code, to read:

Article 11. Critically Overcrowded School Facilities

17078.10. (a) There is hereby established the Critically Overcrowded School Facilities Program to be administered by the board.

(b) For the purposes of this article, "preliminary application" means an application for a preliminary apportionment pursuant to this article.

(c) For the purposes of this article, "preliminary apportionment" means an apportionment made for eligible applicants with critically overcrowded schools in advance of full compliance with all of the application requirements otherwise required for an apportionment pursuant to this chapter.

(d) For the purposes of this article, "final apportionment" has the same meaning as "apportionment" as set forth in subdivision (a) of Section 17070.15.

(e) There is hereby established the 2002 Critically Overcrowded School Facilities Account within the 2002 State School Facilities Fund, and the 2004 Critically Overcrowded School Facilities Account within the 2004 State School Facilities Fund, for the purposes of this article. Funds reserved for the purposes of this article shall be placed in those accounts, as appropriate, and shall be available exclusively for projects eligible under this article until the funds are made available for other purposes of this chapter pursuant to Section 17078.30.

17078.15. (a) Unless this article expressly provides otherwise, the provisions contained in the other articles of this chapter shall apply with equal force to a project funded under this article. This article shall control over the provisions of this chapter contained in other articles only to the extent that this article expressly conflicts with those provisions.

(b) This article shall apply only to a project that is otherwise eligible under this chapter and that meets both of the following criteria:

(1) The project meets the criteria set forth in Section 17078.18.

(2) The project is to be funded from the proceeds of state bonds approved by the voters at the November 5, 2002, statewide general election, or the 2004 direct primary election or the

2004 statewide general election, as the case may be, that were expressly reserved in the bond act or acts for the purposes set forth in this article.

(c) The state share of project costs and the state per-unhoused-pupil new construction apportionments for programs eligible under this article shall be equal to the share and amounts otherwise provided by the board pursuant to this chapter, including, but not limited to, any applicable adjustments or supplements otherwise authorized pursuant to this chapter.

(d) A school district that elects to utilize per-unhoused-pupil eligibility pursuant to this chapter to support a project pursuant to this article, shall not simultaneously utilize that same eligibility to support any other application pursuant to this chapter.

17078.18. Projects funded under this article shall meet all of the following criteria:

(a) The project is a new construction project to build new pupil capacity to relieve overcrowding.

(b) The proposed school facility shall be located in the proposed general location, as set forth in Section 17078.22, of the school or schools that have the conditions and pupils that establish the eligibility pursuant to this article as set forth in subdivision (c).

(c) At least 75 percent of the projected pupil occupancy of the project facilities shall come from a source school or source schools that have a site pupil population density greater than 115 pupils per acre in grades kindergarten to six, inclusive, or a site pupil population density greater than 90 pupils per acre in grades seven to 12, inclusive, as determined by the Superintendent of Public Instruction using enrollment data from the California Basic Educational Data System for the 2001-02 school year. For source schools with grades that include a combination of kindergarten to six, inclusive, and seven to 12, inclusive, the controlling source schoolsite pupil population density shall be the one applicable to the grade levels in which the majority of the pupils are enrolled at the source school.

17078.20. (a) The board shall disseminate information to school districts regarding the availability of funding pursuant to this article and the appropriate deadlines for applications.

(b) Applicants for funding pursuant to this article shall submit preliminary applications to the board.

(c) The preliminary applications shall be submitted by May 1, 2003, for projects to be funded with the proceeds of bonds approved by the voters at the November 5, 2002, statewide general election.

(d) Preliminary applications shall be accepted by the board during the period between 60 days before and 120 days after, the 2004 direct primary election, or the 2004 statewide general election, as appropriate for projects to be funded with the proceeds of bonds approved by the voters at the 2004 direct primary election.

(e) If funds are insufficient to fully fund all of the preliminary applicants, the board shall apportion first to those projects that would house pupils from source schools with the highest pupil density levels relative to the State Department of Education standards.

17078.22. (a) The preliminary applications shall do all of the following:

(1) Establish per-unhoused-pupil eligibility as set forth in Article 3 (commencing with Section 17071.75).

(2) Identify the unhoused pupil population that the proposed project will serve by determining the number of pupils to be served and the likely source school or schools from which the pupils population will be drawn.

(3) Identify the proposed general location of the needed new facilities pursuant to any of the following:

(A) Within that portion of the attendance area from which one or more elementary schools that would be a source of the per-pupil eligibility for the proposed facility draws its enrollment, or within a one-mile radius of a source school, or within a one-mile radius of any one of the source schools if there are more than one, whichever is greater.

(B) Within the attendance area of a high school, middle school, or junior high school that would be a source of the per-pupil eligibility for the proposed facility or within a three-mile radius of a source school, or within a three-mile radius of any one of the source schools if there are more than one, whichever is greater.

(4) Estimate the total facility cost on a per-pupil basis and estimate the total site acquisition and development costs pursuant to the regulations adopted pursuant to subdivision (c) of Section 17078.24.

(b) The State Department of Education may grant a variance from the distance maximums set forth in paragraph (3) of subdivision (a) if the school district demonstrates to the satisfaction of the department that the variance is necessary in order to adequately provide facilities for the identified source school pupils.

17078.24. (a) On the basis of the preliminary application and upon confirmation by the board of the applicant's eligibility, the board shall in a timely manner make a preliminary apportionment for applicants under this article exclusively from funds reserved expressly for the purposes of this article.

(b) Preliminary apportionments for site development and acquisition included in the preliminary application pursuant to subdivision (a) of Section 17078.22 shall be based either on the preliminary appraisal, if available, or on the median costs of appropriately sized parcels within the qualifying area, as determined by the board.

(c) Preliminary apportionments shall include the total estimated state costs of the project, including, but not limited to, site acquisition and development costs related to evaluations and elimination of hazardous materials, an inflation factor, any applicable excess cost allowances, and hardship costs, if any. The board shall adopt regulations establishing standards and methods for setting these costs and for making related estimates.

17078.25. (a) Within the maximum time period set forth in Section 17078.30, the applicant shall have a period of up to four years from the date of the preliminary apportionment in which to complete the application for final apportionment.

(b) The applicant may request a single one-year extension of the period set forth in subdivision (a). The board shall grant the request for the single one-year extension if it determines that the applicant has made substantial progress towards completing the requirements for filing an application for final apportionment. The board may grant only one one-year extension for the project and may only grant the extension if granting the extension would not, in total, cause the project to exceed the maximum time period set forth in Section 17078.30.

(c) The board shall adopt regulations setting forth standards for determining the existence of substantial progress within the meaning of subdivision (b).

(d) The governing board of a school district shall report annually to the State Allocation Board regarding the progress made toward completing the requirements for filing an application for final apportionment, and shall annually hold, at a regularly scheduled meeting of the governing board, a public hearing pursuant to the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Division 2 of Title 5 of the Government Code) to discuss, and to receive public comment regarding, the report.

(e) In its first annual report the governing board of the school district shall certify that the State Department of Education has determined in writing that there is at least one approvable site within the proposed general location of the proposed facility identified pursuant to paragraph (3) of subdivision (a) of Section 17078.22, or within the variance location authorized pursuant to subdivision (b) of Section 17078.22.

(f) If the applicant for the one-year extension pursuant to subdivision (b) has not made substantial progress to complete the application process within the allotted time period, the preliminary apportionment shall be rescinded and shall be utilized by the board for funding of other projects that have received a preliminary apportionment pursuant to this article, or at the expiration of the maximum time allowed pursuant to Section 17078.30, the board shall use the funds for any other new construction purpose of this chapter.

17078.27. (a) Upon completion of the preliminary process authorized pursuant to this article, and when a preliminary applicant has complied with the conditions set forth in this chapter for a final apportionment, including, but not limited to, Section 17070.50, the board shall adjust the preliminary apportionment as set forth in subdivision (b) and as necessary to reflect the current eligible grant amounts for final apportionments pursuant to this chapter consistent with regulations adopted pursuant to subdivision (c) of Section 17078.24. The board shall then convert the adjusted preliminary apportionment to a final apportionment and

proceed to completion of the project in the same manner as for any project funded under provisions of this chapter other than this article.

(b) The board may adjust for cost increases only if uncommitted funds reserved expressly for the purposes of this article remain available for those purposes.

17078.30. (a)(1) A portion of the funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the November 5, 2002, statewide general election that are not included in a preliminary apportionment for an application that is received by the deadline specified in subdivision (c) of Section 17078.20 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(2) The amount of funds that shall be made available to the board for purposes other than this article, pursuant to this subdivision, shall be calculated as follows:

(A) Add the total amount preliminarily apportioned to 15 percent of that amount.

(B) Take the number calculated pursuant to subparagraph (A) and subtract that number from the amount originally reserved for the purposes of this article.

(C) The number calculated pursuant to subparagraph (B) shall thereafter be available to the board for any new construction purpose under any other article of this chapter.

(3) All funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the November 5, 2002, statewide general election pursuant to a preliminary apportionment that are not included within a final apportionment within the timeframes permitted by Section 17078.25 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(b)(1) A portion of the funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the 2004 direct primary election that are not included in a preliminary apportionment for an application that is received by the deadline specified in subdivision (d) of Section 17078.20 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(2) The amount of funds that shall be made available to the board for purposes other than this article, pursuant to this subdivision, shall be calculated as follows:

(A) Add the total amount preliminarily apportioned to 15 percent of that amount.

(B) Take the number calculated pursuant to subparagraph (A) and subtract that number from the amount originally reserved for the purposes of this article.

(C) The number calculated pursuant to subparagraph (B) shall thereafter be available to the board for any new construction purpose under any other article of this chapter.

(3) All funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the 2004 direct primary election pursuant to a preliminary apportionment that are not included within a final apportionment within the timeframes permitted by Section 17078.25 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

SEC. 25. Section 17088.2 of the Education Code is amended to read:

17088.2. Notwithstanding any provision of law to the contrary, including, but not limited to, Section 17587, the board may transfer any funds within the State School Building Aid Fund that are in excess of the amounts needed by the board for the maintenance of portable buildings or for the purchase of new portable buildings, for that fiscal year, to any of the following, as appropriate:

(a) The 1998 State School Facilities Fund for allocation by the board for any purpose authorized pursuant to that fund.

(b) The 2002 State School Facilities Fund for allocation by the board for any purpose authorized pursuant to that fund.

(c) The 2004 State School Facilities Fund for allocation by the board for any purpose authorized pursuant to that fund.

(d) The State School Deferred Maintenance Fund for allocation by the board for any purpose authorized pursuant to that fund. The board may utilize up to 100 percent of the

tives from the major professional associations representing architects, engineers, and school facilities designers, and other interested parties.

(b) The advisory committee shall convene by August 19, 2002, and shall study and report on whether a regulatory process may be developed that will allow the State Architect to determine whether a building not originally constructed in compliance with the Field Act, as defined in Section 17281, and its implementing regulations either meets, or can be retrofitted to meet, the equivalent pupil safety performance standard as a building constructed according to the Field Act and its implementing regulations. If the advisory committee finds that the regulatory process may be developed, the advisory committee, shall include within its report the facts and rationale supporting the finding and the essential steps required in that regulatory process. The advisory committee shall report its findings to the Seismic Safety Commission by December 31, 2002.

(c) By January 8, 2003, and after reviewing the advisory committee's findings, the Seismic Safety Commission shall make a determination as to whether the regulatory process described in subdivision (b) may be developed, and shall report that determination to the Governor and the Legislature.

(d) If the Seismic Safety Commission determines that the regulatory process may be developed, the State Architect shall draft regulations to establish that regulatory process and to delineate the required retrofitting, deconstructive testing, continuous inspection procedures, and other necessary certifications and requirements that must be completed for a building to ensure it meets the equivalent pupil safety performance standard as a building constructed according to the Field Act and its implementing regulations. The State Architect shall promulgate the regulations on or before April 1, 2003, as emergency regulations in accordance with the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code).

(e) Notwithstanding any law, a leased or purchased building that is determined to have the equivalent pupil safety performance standard as a building constructed according to the Field Act and implementing regulations is hereby deemed to be in full compliance with the safety requirements of a school building as set forth in Section 17280, and is hereby deemed to be in full compliance with the Field Act.

SEC. 30. Part 68.1 (commencing with Section 100600) is added to the Education Code, to read:

PART 68.1. KINDERGARTEN-UNIVERSITY PUBLIC
EDUCATION FACILITIES BOND ACT OF 2002

Chapter 1. General

100600. This part shall be known and may be cited as the Kindergarten-University Public Education Facilities Bond Act of 2002.

100601. The incorporation of, or reference to, any provision of California statutory law in this part includes all acts amendatory thereof and supplementary thereto.

100603. Bonds in the total amount of thirteen billion fifty million dollars (\$13,050,000,000), not including the amount of any refunding bonds issued in accordance with Sections 100644 and 100755, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this part and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established by Section 15909 or the Higher Education Facilities Finance Committee established pursuant to Section 67353, as the case may be, at any different times necessary to service expenditures required by the apportionments.

Chapter 2. Kindergarten Through 12th Grade

Article 1. Kindergarten Through 12th Grade School Facilities Program Provisions

100610. The proceeds of bonds issued and sold pursuant to Article 2 (commencing with Section 100625) shall be deposited in the 2002 State School Facilities Fund, which is established in Section 17070.40, and shall be allocated by the State Allocation Board pursuant to this chapter.

100615. All moneys deposited in the 2002 State Facilities Fund for the purposes of this chapter shall be available and, notwithstanding any other provision of law to the contrary, are hereby appropriated to provide aid to school districts, county superintendents of schools, and county boards of education of the state in accordance with the Leroy F. Greene School Facilities Act of 1998 (Chapter 12.5 (commencing with Section 17070.10) of Part 10), as set forth in Section 100620, to provide funds to repay any money advanced or loaned to the 2002 State School Facilities Fund under any act of the Legislature, together with interest provided for in that act, and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

100620. (a) The proceeds from the sale of bonds, issued and sold for the purposes of this chapter, shall be allocated in accordance with the following schedule:

(1) The amount of three billion four hundred fifty million dollars (\$3,450,000,000) for new construction of school facilities of applicant school districts under Chapter 12.5 (commencing with Section 17070.10) of Part 10 for those school districts that file an application with the Office of Public School Construction after February 1, 2002, including, but not limited to, hardship applications.

(A) Of the amount allocated pursuant to this paragraph, up to one hundred million dollars (\$100,000,000) shall be available for providing school facilities to charter schools pursuant to a statute enacted after the effective date of the act enacting this section.

(B) If the Housing and Emergency Shelter Trust Fund Act of 2002 is submitted to the voters at the November 5, 2002, general election and fails passage by the voters, of the amount allocated pursuant to this paragraph, twenty-five million dollars (\$25,000,000) shall be available for the purposes of Sections 51451.5, 51453, and 51455 of the Health and Safety Code.

(2) The amount of one billion four hundred million dollars (\$1,400,000,000) for the modernization of school facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10 for those school districts that file an application with the Office of Public School Construction after February 1, 2002, including, but not limited to, hardship applications.

(3) The amount of two billion nine hundred million dollars (\$2,900,000,000) for new construction of school facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10 for those school districts that have filed an application with the Office of Public School Construction on or before February 1, 2002, including, but not limited to, hardship applications. If the amount made available for purposes of this paragraph is not needed and expended for the purposes of this paragraph, the State Allocation Board may allocate the remainder of these funds for purposes of paragraph (1).

(4) The amount of one billion nine hundred million dollars (\$1,900,000,000) for the modernization of school facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10, for those school districts that have filed an application with the Office of Public School Construction on or before February 1, 2002, including, but not limited to, hardship applications. If the amount made available for purposes of this paragraph is not needed and expended for the purposes of this paragraph, the State Allocation Board may allocate these funds for purposes of paragraph (2).

(5) The amount of one billion seven hundred million dollars (\$1,700,000,000) for deposit into the 2002 Critically Overcrowded School Facilities Account established within the 2002 State School Facilities Fund pursuant to subdivision (e) of Section 17078.10, for the purposes set forth in Article 11 (commencing with Section 17078.10) of Chapter 12.5 of Part 10 relating to

critically overcrowded schools, including, but not limited to, hardship applications, and any other new construction or modernization projects as authorized pursuant to Section 17078.30.

(6) The amount of fifty million dollars (\$50,000,000) for the purposes set forth in Article 10.6 (commencing with Section 17077.40) of Chapter 12.5 of Part 10 relating to joint-use projects, including, but not limited to, hardship applications.

(b) School districts may use funds allocated pursuant to paragraphs (2) and (4) of subdivision (a) only for one or more of the following purposes in accordance with Chapter 12.5 (commencing with Section 17070.10) of Part 10:

(1) The purchase and installation of air-conditioning equipment and insulation materials, and related costs.

(2) Construction projects or the purchase of furniture or equipment designed to increase school security or playground safety.

(3) The identification, assessment, or abatement in school facilities of hazardous asbestos.

(4) Project funding for high priority roof replacement projects.

(5) Any other modernization of facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10.

(c) Funds allocated pursuant to paragraphs (1) and (3) of subdivision (a) may, also, be utilized to provide new construction grants for eligible applicant county boards of education under Chapter 12.5 (commencing with Section 17070.10) of Part 10 for funding classrooms for severely handicapped pupils, or for funding classrooms for county community school pupils.

(d)(1) The Legislature may amend this section to adjust the funding amounts specified in paragraphs (1) to (6), inclusive, of subdivision (a), only by either of the following methods:

(A) By a statute, passed in each house of the Legislature by rollcall vote entered in the respective journals, by not less than two-thirds of the membership in each house concurring, if the statute is consistent with, and furthers the purposes of, this chapter.

(B) By a statute that becomes effective only when approved by the voters.

(2) Amendments pursuant to this subdivision may adjust the amounts to be expended pursuant to paragraphs (1) to (6), inclusive, of subdivision (a), but may not increase or decrease the total amount to be expended pursuant to that subdivision.

(e) From the total amounts set forth in paragraphs (1) to (6), inclusive, of subdivision (a), a total of no more than twenty million dollars (\$20,000,000) shall be used for the costs of energy conservation adjustments authorized pursuant to Section 17077.35.

(f) Funds available pursuant to this section may be used for acquisition of school facilities authorized pursuant to Section 17280.5.

Article 2. Kindergarten Through 12th Grade School Facilities Fiscal Provisions

100625. (a) Of the total amount of bonds authorized to be issued and sold pursuant to Chapter 1 (commencing with Section 100600), bonds in the total amount of eleven billion four hundred million dollars (\$11,400,000,000) not including the amount of any refunding bonds issued in accordance with Section 100644, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established pursuant to Section 15909 at any different times necessary to service expenditures required by the apportionments.

100627. The State School Building Finance Committee, established by Section 15909 and composed of the Governor, the Controller, the Treasurer, the Director of Finance, and the Superintendent of Public Instruction, or their designated representatives, all of whom shall serve thereon without compensation, and a majority of whom shall constitute a quorum, is

continued in existence for the purpose of this chapter. The Treasurer shall serve as chairperson of the committee. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker of the Assembly, shall meet with and provide advice to the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter, the Members of the Legislature shall constitute an interim investigating committee on the subject of this chapter and, as that committee, shall have the powers granted to, and duties imposed upon, those committees by the Joint Rules of the Senate and the Assembly. The Director of Finance shall provide assistance to the committee as it may require. The Attorney General of the state is the legal adviser of the committee.

100630. (a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated into this chapter as though set forth in full within this chapter.

(b) For purposes of the State General Obligation Bond Law, the State Allocation Board is designated the "board" for purposes of administering the 2002 State School Facilities Fund.

100632. Upon request of the State Allocation Board from time to time, supported by a statement of the apportionments made and to be made for the purposes described in Sections 100615 and 100620, the State School Building Finance Committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to fund the apportionments and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to fund those apportionments progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

100634. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act that is necessary to collect that additional sum.

100635. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100640, appropriated without regard to fiscal years.

100636. The State Allocation Board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

100638. Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

100640. For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the State School Building Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 2002 State School Facilities Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

100642. All money deposited in the 2002 State School Facilities Fund, that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

100644. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds.

100646. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

Chapter 3. Higher Education Facilities

Article 1. General

100650. (a) The system of public higher education in this state includes the University of California, the Hastings College of the Law, the California State University, the California Community Colleges, and their respective off-campus centers.

(b) The 2002 Higher Education Capital Outlay Bond Fund is hereby established in the State Treasury for deposit of funds from the proceeds of bonds issued and sold for the purposes of this chapter.

(c) The Higher Education Facilities Finance Committee established pursuant to Section 67353 is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of providing funds to aid the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges.

Article 2. Program Provisions Applicable to the University of California and the Hastings College of the Law

100652. (a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100700), the sum of four hundred eight million two hundred sixteen thousand dollars (\$408,216,000) shall be deposited in the 2002 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the University of California and the Hastings College of the Law.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment

of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the University of California and the Hastings College of the Law.

Article 3. Program Provisions Applicable to the California State University

100653. (a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100700), the sum of four hundred ninety-five million nine hundred thirty-two thousand dollars (\$495,932,000) shall be deposited in the 2002 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the California State University.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the California State University.

Article 4. Program Provisions Applicable to the California Community Colleges

100654. (a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100700), the sum of seven hundred forty-five million eight hundred fifty-three thousand dollars (\$745,853,000) shall be deposited in the 2002 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the California Community Colleges.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the California Community Colleges.

Article 5. Higher Education Fiscal Provisions

100700. (a) Of the total amount of bonds authorized to be issued and sold pursuant to Chapter 1 (commencing with Section 100600), bonds in the total amount of one billion six hundred fifty million dollars (\$1,650,000,000), not including the amount of any refunding bonds issued in accordance with Section 100755, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) It is the intent of the Legislature that the University of California, the California State University, and the California Community Colleges annually consider, as part of their annual capital outlay planning process, the inclusion of facilities that may be used by more than one segment of public higher education (intersegmental), and, that on or before May 15th of each

Additions or changes indicated by underline; deletions by asterisks * * *

261

year, those entities report their findings to the budget committees of each house of the Legislature.

(c) Pursuant to this section, the Treasurer shall sell the bonds authorized by the Higher Education Facilities Finance Committee established pursuant to Section 67353 at any different times necessary to service expenditures required by the apportionments.

100710. (a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated into this chapter as though set forth in full within this chapter.

(b) For the purposes of the State General Obligation Bond Law, each state agency administering an appropriation of the 2002 Higher Education Capital Outlay Bond Fund is designated as the "board" for projects funded pursuant to this chapter.

(c) The proceeds of the bonds issued and sold pursuant to this chapter shall be available for the purpose of funding aid to the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges, for the construction on existing or new campuses, and their respective off-campus centers and joint use and intersegmental facilities, as set forth in this chapter.

100720. The Higher Education Facilities Finance Committee established pursuant to Section 67353 shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments for the purposes described in this chapter that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the purposes described in this chapter and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

100725. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

100730. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100745, appropriated without regard to fiscal years.

100735. The board, as defined in subdivision (b) of Section 100710, may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board, as defined in subdivision (b) of Section 100710, shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

100740. Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other

action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

100745. (a) For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the Higher Education Facilities Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 2002 Higher Education Capital Outlay Bond Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(b) Any request forwarded to the Legislature and the Department of Finance for funds from this bond issue for expenditure for the purposes described in this chapter by the University of California, the Hastings College of the Law, the California State University, or the California Community Colleges shall be accompanied by the five-year capital outlay plan. Requests forwarded by a university or college shall include a schedule that prioritizes the seismic retrofitting needed to significantly reduce, in the judgment of the particular university or college, seismic hazards in buildings identified as high priority by the university or college. Requests forwarded by the California Community Colleges shall be accompanied by a five-year capital outlay plan reflecting the needs and priorities of the community college system, prioritized on a statewide basis.

100750. All money deposited in the 2002 Higher Education Capital Outlay Bond Fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

100755. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds.

100760. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

SEC. 31. Part 68.2 (commencing with Section 100800) is added to the Education Code, to read:

PART 68.2. KINDERGARTEN-UNIVERSITY PUBLIC
EDUCATION FACILITIES BOND ACT OF 2004

Chapter 1. General

100800. This part shall be known and may be cited as the Kindergarten-University Public Education Facilities Bond Act of 2004.

100801. The incorporation of, or reference to, any provision of California statutory law in this part includes all acts amendatory thereof and supplementary thereto.

100803. (a) Bonds in the total amount of twelve billion three hundred million dollars (\$12,300,000,000), not including the amount of any refunding bonds issued in accordance with Sections 100844 and 100955, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this part and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is

Additions or changes indicated by underline; deletions by asterisks * * *

263

hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established by Section 15909 or the Higher Education Facilities Finance Committee established pursuant to Section 67353, as the case may be, at any different times necessary to service expenditures required by the apportionments.

Chapter 2. Kindergarten Through 12th Grade

Article 1. Kindergarten Through 12th Grade School Facilities Program Provisions

100810. The proceeds of bonds issued and sold pursuant to Article 2 (commencing with Section 100825) shall be deposited in the 2004 State School Facilities Fund, which is established in Section 17070.40, and shall be allocated by the State Allocation Board pursuant to this chapter.

100815. All moneys deposited in the 2004 State Facilities Fund for the purposes of this chapter shall be available and, notwithstanding any other provision of law to the contrary, are hereby appropriated to provide aid to school districts, county superintendents of schools, and county boards of education of the state in accordance with the Leroy F. Greene School Facilities Act of 1998 (Chapter 12.5 (commencing with Section 17070.10) of Part 10), as set forth in Section 100820, to provide funds to repay any money advanced or loaned to the 2004 State School Facilities Fund under any act of the Legislature, together with interest provided for in that act, and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

100820. (a) The proceeds from the sale of bonds, issued and sold for the purposes of this chapter, as specified in subdivision (a) of Section 100810 shall be allocated in accordance with the following schedule:

(1) The amount of five billion two hundred sixty million dollars (\$5,260,000,000) for project funding for new construction of school facilities of applicant school districts under Chapter 12.5 (commencing with Section 17070.10) of Part 10, including, but not limited to, hardship applications.

(A) Of the amount allocated pursuant to this paragraph, up to three hundred million dollars (\$300,000,000) shall be available for providing school facilities to charter schools pursuant to a statute enacted after the effective date of the act enacting this section.

(B) If the Housing and Emergency Shelter Trust Fund Act of 2002 is submitted to the voters at the November 5, 2002, general election and fails passage by the voters, of the amount allocated pursuant to this paragraph, twenty-five million dollars (\$25,000,000) shall be available for the purposes of Sections 51451.5, 51453, and 51455 of the Health and Safety Code.

(2) The amount of two billion two hundred fifty million dollars (\$2,250,000,000) for the modernization of school facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10, including, but not limited to, hardship applications.

(3) The amount of two billion four hundred forty million dollars (\$2,440,000,000) for deposit into the 2004 Critically Overcrowded School Facilities Account established within the 2004 State School Facilities Fund pursuant to subdivision (e) of Section 17078.10 for the purposes set forth in Article 11 (commencing with Section 17078.10) of Chapter 12.5 of Part 10 relating to critically overcrowded schools, including, but not limited to, hardship applications, and any other new construction or modernization projects as authorized pursuant to Section 17078.30.

(4) The amount of fifty million dollars (\$50,000,000) for the purposes set forth in Article 10.6 (commencing with Section 17077.40) of Chapter 12.5 of Part 10 relating to joint-use projects, including, but not limited to, hardship applications.

(b) School districts may use funds allocated pursuant to paragraph (2) of subdivision (a) only for one or more of the following purposes in accordance with Chapter 12.5 (commencing with Section 17070.10) of Part 10:

- (1) The purchase and installation of air-conditioning equipment and insulation materials, and related costs.
- (2) Construction projects or the purchase of furniture or equipment designed to increase school security or playground safety.
- (3) The identification, assessment, or abatement in school facilities of hazardous asbestos.
- (4) Project funding for high priority roof replacement projects.
- (5) Any other modernization of facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10.
- (c) Funds allocated pursuant to paragraph (1) of subdivision (a) may, also, be utilized to provide new construction grants for eligible applicant county boards of education under Chapter 12.5 (commencing with Section 17070.10) of Part 10 for funding classrooms for severely handicapped pupils, or for funding classrooms for county community school pupils.
- (d)(1) The Legislature may amend this section to adjust the funding amounts specified in paragraphs (1) to (4), inclusive, of subdivision (a), only by either of the following methods:
- (A) By a statute, passed in each house of the Legislature by rollcall vote entered in the respective journals, by not less than two-thirds of the membership in each house concurring, if the statute is consistent with, and furthers the purposes of, this chapter.
- (B) By a statute that becomes effective only when approved by the voters.
- (2) Amendments pursuant to this subdivision may adjust the amounts to be expended pursuant to paragraphs (1) to (4), inclusive, of subdivision (a), but may not increase or decrease the total amount to be expended pursuant to that subdivision.
- (e) From the total amounts set forth in paragraphs (1) to (6), inclusive, of subdivision (a), a total of no more than twenty million dollars (\$20,000,000) shall be used for the costs of energy conservation adjustments authorized pursuant to Section 17077.35.
- (f) Funds available pursuant to this section may be used for acquisition of school facilities authorized pursuant to Section 17280.5.

Article 2. Kindergarten Through 12th Grade School Facilities Fiscal Provisions

100825. (a) Of the total amount of bonds authorized to be issued and sold pursuant to Chapter 1 (commencing with Section 100800), bonds in the total amount of ten billion dollars (\$10,000,000,000), not including the amount of any refunding bonds issued in accordance with Section 100844, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established pursuant to Section 15909 at any different times necessary to service expenditures required by the apportionments.

100827. The State School Building Finance Committee, established by Section 15909 and composed of the Governor, the Controller, the Treasurer, the Director of Finance, and the Superintendent of Public Instruction, or their designated representatives, all of whom shall serve thereon without compensation, and a majority of whom shall constitute a quorum, is continued in existence for the purpose of this chapter. The Treasurer shall serve as chairperson of the committee. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker of the Assembly, shall meet with and provide advice to the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter, the Members of the Legislature shall constitute an interim investigating committee on the subject of this chapter and, as that committee, shall have the powers granted to, and duties imposed upon, those committees by the Joint Rules of the Senate and the Assembly. The Director of Finance shall provide assistance to the

committee as it may require. The Attorney General of the state is the legal adviser of the committee.

100830. (a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated into this chapter as though set forth in full within this chapter.

(b) For purposes of the State General Obligation Bond Law, the State Allocation Board is designated the "board" for purposes of administering the 2004 State School Facilities Fund.

100832. Upon request of the State Allocation Board from time to time, supported by a statement of the apportionments made and to be made for the purposes described in Sections 100815 and 100820, the State School Building Finance Committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to fund the apportionments and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to fund those apportionments progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

100834. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act that is necessary to collect that additional sum.

100835. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100840, appropriated without regard to fiscal years.

100836. The State Allocation Board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

100838. Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

100840. For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the State School Building Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 2004 State School Facilities Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

100842. All money deposited in the 2004 State School Facilities Fund, that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

100844. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds.

100846. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

Chapter 3. Higher Education Facilities

Article 1. General

100850. (a) The system of public higher education in this state includes the University of California, the Hastings College of the Law, the California State University, the California Community Colleges, and their respective off-campus centers.

(b) The 2004 Higher Education Capital Outlay Bond Fund is hereby established in the State Treasury for deposit of funds from the proceeds of bonds issued and sold for the purposes of this chapter.

(c) The Higher Education Facilities Finance Committee established pursuant to Section 67353 is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of providing funds to aid the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges.

Article 2. Program Provisions Applicable to the University of California and the Hastings College of the Law

100852. (a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100900), the sum of six hundred ninety million dollars (\$690,000,000) shall be deposited in the 2004 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the University of California and the Hastings College of the Law.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the University of California and the Hastings College of the Law.

Article 3. Program Provisions Applicable to the California State University

100853. (a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100900), the sum of six hundred ninety million dollars (\$690,000,000) shall be deposited in the 2004 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the California State University.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the California State University.

Article 4. Program Provisions Applicable to the California Community Colleges

100854. (a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100900), the sum of nine hundred twenty million dollars (\$920,000,000) shall be deposited in the 2004 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the California Community Colleges.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the California Community Colleges.

Article 5. Higher Education Fiscal Provisions

100900. (a) Of the total amount of bonds authorized to be issued and sold pursuant to Chapter 1 (commencing with Section 100800), bonds in the total amount of two billion three hundred million dollars (\$2,300,000,000), not including the amount of any refunding bonds issued in accordance with Section 100955, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) It is the intent of the Legislature that the University of California, the California State University, and the California Community Colleges annually consider, as part of their annual capital outlay planning process, the inclusion of facilities that may be used by more than one segment of public higher education (intersegmental), and, that on or before May 15th of each year, those entities report their findings to the budget committees of each house of the Legislature.

(c) Pursuant to this section, the Treasurer shall sell the bonds authorized by the Higher Education Facilities Finance Committee established pursuant to Section 67353 at any different times necessary to service expenditures required by the apportionments.

100910. (a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated into this chapter as though set forth in full within this chapter.

(b) For the purposes of the State General Obligation Bond Law, each state agency administering an appropriation of the 2004 Higher Education Capital Outlay Bond Fund is designated as the "board" for projects funded pursuant to this chapter.

(c) The proceeds of the bonds issued and sold pursuant to this chapter shall be available for the purpose of funding aid to the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges, for the construction on existing or new campuses, and their respective off-campus centers and joint use and intersegmental facilities, as set forth in this chapter.

100920. The Higher Education Facilities Finance Committee established pursuant to Section 67353 shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments for the purposes described in this chapter that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the purposes described in this chapter and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

100925. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

100930. Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100945, appropriated without regard to fiscal years.

100935. The board, as defined in subdivision (b) of Section 100910, may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board, as defined in subdivision (b) of Section 100910, shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

100940. Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

100945. (a) For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the Higher Education Facilities Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 2004 Higher Education Capital Outlay Bond Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled

Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(b) Any request forwarded to the Legislature and the Department of Finance for funds from this bond issue for expenditure for the purposes described in this chapter by the University of California, the Hastings College of the Law, the California State University, or the California Community Colleges shall be accompanied by the five-year capital outlay plan. Requests forwarded by a university or college shall include a schedule that prioritizes the seismic retrofitting needed to significantly reduce, in the judgment of the particular university or college, seismic hazards in buildings identified as high priority by the university or college. Requests forwarded by the California Community Colleges shall be accompanied by a five-year capital outlay plan reflecting the needs and priorities of the community college system, prioritized on a statewide basis.

100950. All money deposited in the 2004 Higher Education Capital Outlay Bond Fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

100955. The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds.

100960. The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

SEC. 31.5. Part 68.2 (commencing with Section 100800) is added to the Education Code, to read:

PART 68.2. KINDERGARTEN-UNIVERSITY PUBLIC
EDUCATION FACILITIES BOND ACT OF 2004

Chapter 1. General

100800. This part shall be known and may be cited as the Kindergarten-University Public Education Facilities Bond Act of 2004.

100801. The incorporation of, or reference to, any provision of California statutory law in this part includes all acts amendatory thereof and supplementary thereto.

100803. (a) Bonds in the total amount of twelve billion three hundred million dollars (\$12,300,000,000), not including the amount of any refunding bonds issued in accordance with Sections 100844 and 100955, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this part and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established by Section 15909 or the Higher Education Facilities Finance Committee established pursuant to Section 67353, as the case may be, at any different times necessary to service expenditures required by the apportionments.

SEC. 37. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide adequate school facilities to house the growing pupil population attending the California schools, to renovate existing facilities, to provide for the wiring and cabling of schools for education technology, to provide for joint-use facilities, and to provide adequate higher education facilities to accommodate the growing number of students, it is necessary that this act take effect immediately.

Ch. 199

SCHOOLS AND SCHOOL DISTRICTS—SCHOOL BONDS—ELECTIONS

CHAPTER 199

A.B. No. 693

AN ACT to amend Section 15340 of, and to add Sections 15101 and 15341 to, the Education Code, relating to school facilities improvement districts.

[Filed with Secretary of State July 17, 2002.]

LEGISLATIVE COUNSEL'S DIGEST

AB 693, Longville. School facilities improvement districts: elections.

Existing law authorizes the governing board of a school facilities improvement district to provide for and call a special bond election within the district to submit to the voters a proposition on whether to incur debt and issue bonds. Existing law permits the election to be called for any date, with specified exceptions, including elections held on, or the day before or after, a state holiday, and elections for school bonds pursuant to specified provisions of law.

Additions or changes indicated by underline; deletions by asterisks * * *

695

This bill would prohibit an election within a 45-day period before or after a statewide election, unless called for the same date as the statewide election or an established election date.

The people of the State of California do enact as follows:

SECTION 1. Section 15101 is added to the Education Code, to read:

15101. Notwithstanding any other law, an election may not be held pursuant to this chapter within 45 days before a statewide election or within 45 days after a statewide election unless conducted at the same time as the statewide election, subject to Part 3 (commencing with Section 10400) of Division 10 of the Elections Code, or on an established election date pursuant to Section 1000 of the Elections Code.

SEC. 2. Section 15340 of the Education Code is amended to read:

15340. (a) After adopting the resolution ordering the formation of the school facilities improvement district, the governing board may provide for and call a special bond election within the school facilities improvement district to, or may at the next statewide election, submit to the voters of the school facilities improvement district a proposition of whether or not an indebtedness of the district shall be incurred and bonds issued therefor in an amount not exceeding the estimate stated in the resolution ordering the school facilities improvement district formed. * * *

(b) The indebtedness and the bonds shall be payable from taxes to be levied and collected upon lands located within the school facilities improvement district.

SEC. 3. Section 15341 is added to the Education Code, to read:

15341. Notwithstanding any other law, an election may not be held pursuant to this chapter within 45 days before a statewide election or within 45 days after a statewide election unless conducted at the same time as the statewide election, subject to Part 3 (commencing with Section 10400) of Division 10 of the Elections Code, or on an established election date pursuant to Section 1000 of the Elections Code.

COUNTIES—CLERKS—REVISION

CHAPTER 221

S.B. No. 1019

AN ACT to amend Section 5499.4 of the Business and Professions Code, to amend Sections 1253.5, 1258, 5019, 5303, 5324, 5325, 5380, 5421, 15148, 15359.1, 19420, and 35001 of the Education Code, to amend Sections 307, 308, 8040, 9094, 10500, 10540, 11002, and 18546 of, and to repeal Section 311 of, the Elections Code, to amend Sections 6070, 6076, 6077, 6078, 6215, and 8456 of the Food and Agricultural Code, to amend Sections 4005, 23687, 23731, 25201, 25526, 25537, 26922, 27504.1, 29965, 30003, 36507, 65009, 66499.22, 71081, 76106, 81011.5, 84101, and 88001 of the Government Code, to amend Sections 5831, 5861, 5863, 5864, 5865, 5866, 5867, 5872, 5873, 5874, 6020, 6031, 6035, 6039, 6044, 6045, 6053, 6054, 6055, 6056, and 6230 of the Harbors and Navigation Code, to amend Section 5053 of the Insurance Code, to amend Sections 1170, 1174, 1176, 1179, 1180, 1181, 1182, 1185, 1191, and 1255 of the Military and Veterans Code, to amend Section 6005 of the Penal Code, to amend Section 1865 of the Probate Code, to amend Section 9977 of, and to repeal Sections 4876 and 13021 of, the Public Resources Code, to amend Sections 11825, 12816, 15702, 15703, 15704, 15705, 15706, 15794, 15796, 15842, 15956, 26405, 26654, 27405, 27424, 28746, 28747, 28747.4, 28750.4, 29664, 29714, 31405, 31411, 50033, 50039, 70033, 90773, 90933, 95163, 95194, 98043, 98100, 101170, 101285, 101286, 101287, and 101295 of the Public Utilities Code, to amend Sections 909, 1181, 1186, 3111, 3112.5, 3114, 5026, 8653, 9019, 11302, 19090, 19092, 19093, 19094, 25206, 27044, 27045, 27046, 27047, 27048, 27062, 27063, 27080, 27082, 27100, 27102, 27109, 27123, and 27322 of the Streets and Highways Code, to amend Sections 9368, 9386, 20740, 20911, 22970.10, 22970.20, 22970.25, 30230, 30778, 31133, 34053, 35005, 35048, 35049, 35050, 35051, 35052, 35053, 41303, 45274, 45275, 45276, 50752, 50805, 50816, 50817, 50954, 60080, 60082, 60083, 60095, 60211, 60212, 60213, 60430, 60431, 60434, 60440, 70033, 70041, 71120, 71125, 71126, 71127, 71128, 71129, 71130, 71132, 71133, 71461, and 71463 of, and to repeal Sections 30061, 60049, 71031, and 71135 of, the Water Code, and to amend Sections 4117, 4457, 4804, and 5110 of the Welfare and Institutions Code, relating to local government.

[Filed with Secretary of State August 16, 2002.]

752

Additions or changes indicated by underline; deletions by asterisks * * *

5925. Any school district election or community college district election, except a bond measure election, ordered to be held in accordance with this code shall be called by the county superintendent of schools having jurisdiction of the election by doing both of the following:

(a) Printing or publication of notices of election.

(b) Delivery of a copy of the formal notice of election to the county * * * elections official at least 120 days prior to the date of the election in the case of an election for governing board members.

SEC. 8. Section 5380 of the Education Code is amended to read:

5380. Any election officer serving at any school district election or community college district election may be paid out of the funds of the district as compensation for his or her services as an election officer a sum * * * determined by the county * * * elections official and approved by the county board of supervisors, not to exceed the amount paid from the county treasury to officers of the preceding general election. In districts in which the polls are kept open less than 12 hours, the maximum compensation for election officers shall be the sum bearing the same relation to the amount paid to election officers of the last preceding general election as the number of hours the polls were open at the election bears to the number of hours the polls were open in the preceding general election.

SEC. 9. Section 5421 of the Education Code is amended to read:

5421. The cost of any election held within a single district shall be borne by the entire district, and shall be paid out of its funds. Election costs shall be determined by the county * * * elections official and approved by the county board of supervisors.

SEC. 10. Section 15148 of the Education Code is amended to read:

15148. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder or bidders, and the * * * clerk of the board of supervisors shall prepare and certify to all of the proceedings on file in his or her office relative to the issuance and sale of the bonds, which transcript of proceedings shall be delivered to the successful bidder or bidders without charge. If no bids are received, or if the board determines that the bids received exceed either the maximum acceptable interest rate prescribed by the governing board or the maximum rate prescribed by Section 15143, or that they are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and without further authorization from the governing board, either readvertise or sell the bonds at private sale.

For the purpose of determining whether or not a bid exceeds the maximum acceptable interest rate, the interest rate of that bid shall be deemed to be the interest rate resulting from the total net interest cost arrived at by computing the total amount of interest which the district would be required to pay from the date of the bonds to the respective maturity dates thereof at the rate or rates specified in the bid and by deducting therefrom any premium bid.

SEC. 11. Section 15359.1 of the Education Code is amended to read:

15359.1. (a) If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder or bidders, and the * * * clerk of the board of supervisors shall prepare and certify to all of the proceedings on file in his or her office relative to the issuance and sale of the bonds, which transcript of proceedings shall be delivered to the successful bidder or bidders without charge. If no bids are received, or if the board determines that the bids received exceed either the maximum acceptable interest rate prescribed by the governing board or the maximum rate prescribed by Section 15353, or that they are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and without further authorization from the governing board of the school district or community college district in which the school facilities improvement district is located, either readvertise or sell the bonds at private sale.

(b) For the purpose of determining whether or not a bid exceeds the maximum acceptable interest rate, the interest rate of that bid shall be deemed to be the interest rate resulting from the total net interest cost arrived at by computing the total amount of interest that the school facilities improvement district would be required to pay from the date of the bonds to the respective maturity dates thereof at the rate or rates specified in the bid and by deducting therefrom any premium bid.

CHAPTER 935

A.B. No. 14

AN ACT to amend Sections 17071.75, 17072.13, 17072.18, 17072.20, 17072.35, 17074.15, 17074.16, 17077.45, 17078.20, 17078.30, and 17213.1 of, to add Sections 17070.46, 17070.73, 17073.25, and 17180.5 to, and to add Article 12 (commencing with Section 17078.50) to Chapter 12.5 of Part 10 of, the Education Code, to add Section 53097.3 to the Government Code, and to amend Sections 51451.5, 51453, and 51455 of, and to add Section 51453.5 to, the Health and Safety Code, relating to school facilities, and making an appropriation therefor.

[Filed with Secretary of State September 27, 2002.]

LEGISLATIVE COUNSEL'S DIGEST

AB 14, Goldberg. School facilities.

(1) Existing law, the Leroy F. Greene School Facilities Act of 1998 (Greene Act of 1998), makes funding available to eligible school districts for various purposes related to school facilities, including construction and modernization.

Additions or changes indicated by underline; deletions by asterisks * * *

4593

(b) The application shall include, but shall not be limited to, the school district's determination of the amount of state funding that the district is otherwise eligible for relating to site acquisition, site development, new construction, and hardship funding provided pursuant to Article 8 (commencing with Section 17075.10), if any. The amount shall be reduced by the amount of the alternative fee collected pursuant to subdivision (a) of Section 65995.7 of the Government Code if a reimbursement election or agreement pursuant to Section 65995.7 of the Government Code is not in effect.

(c) The board shall verify and adjust, as necessary, and approve the district's application.

* * *

SEC. 7. Section 17072.35 of the Education Code is amended to read:

17072.35. A grant for new construction may be used for any and all costs necessary to adequately house new pupils in any approved project, and those costs may only include the cost of design, engineering, testing, inspection, plan checking, construction management, site acquisition and development, evaluation and response action costs relating to hazardous substances at a new or existing schoolsite, demolition, construction, acquisition and installation of portable classrooms, landscaping, necessary utility costs, utility connections and other fees, equipment including telecommunication equipment to increase school security, furnishings, and the upgrading of electrical systems or the wiring or cabling of classrooms in order to accommodate educational technology. A grant for new construction may also be used to acquire an existing government or privately owned building, or a privately financed school building, and for the necessary costs of converting the government or privately owned building for public school use.

SEC. 8. Section 17073.25 is added to the Education Code, to read:

17073.25. (a) Notwithstanding any provision of law to the contrary, the State Department of Education shall be eligible for modernization grants pursuant to this article for facilities of the California School for the Deaf (Chapter 1 (commencing with Section 59000) of Part 32) and the California School for the Blind (Chapter 2 (commencing with Section 59100) of Part 32).

(b) The department shall be eligible for per-pupil funding under this article to the same extent and in the same manner as a school district, except that the hardship provisions shall not apply. However, notwithstanding the 60 percent maximum funding for modernization projects, as set forth in Section 17074.16, the project shall be funded at 100 percent of the project costs, subject to per-pupil eligibility.

(c) The board shall establish a process specifically tailored to consideration of the unique aspects of applications presented by of the department pursuant to this section.

(d) This section shall apply only to projects for expenditure of the proceeds of state bonds approved by the voters after January 1, 2002.

SEC. 9. Section 17074.15 of the Education Code, as added by Chapter 33 of the Statutes of 2002, is amended to read:

17074.15. (a) The board shall release disbursements to school districts with approved applications for modernization, to the extent state funds are available for the state's 80-percent share, and the school district has provided its 20-percent local match. Subject to the availability of funds, the board shall apportion funds to an eligible school district only upon the approval of the project by the Department of General Services pursuant to the Field Act, as defined in Section 17281, including, but not limited to, a project that complies with the Field Act by complying with Section 17280.5, and evidence that the certification by the school district that the required 20-percent matching funds from local sources have been expended by the district for the project, or have been deposited in the county fund or will be expended by the district by the time of completion of the project, and evidence that the district has entered into a binding contract for the completion of that project. If state funds are insufficient to fund all qualifying school districts, the board shall fund all qualifying school districts in the order in which the application for funding was approved by the board.

(b) This section shall apply only to an application filed on or before April 29, 2002, regardless of the source of state bond funding.

SEC. 10. Section 17074.16 of the Education Code, as added by Chapter 33 of the Statutes of 2002, is amended to read:

17074.16. (a) The board shall release disbursements to school districts with approved applications for modernization, to the extent state funds are available for the state's 60-percent share, and the school district has provided its 40-percent local match. Subject to the availability of funds, the board shall apportion funds to an eligible school district only upon the approval of the project by the Department of General Services pursuant to the Field Act, as defined in Section 17281, including, but not limited to, a project that complies with the Field Act by complying with Section 17280.5, and evidence that the certification by the school district that the required 40-percent matching funds from local sources have been expended by the district for the project, or have been deposited in the county fund or will be expended by the district by the time of completion of the project, and evidence that the district has entered into a binding contract for the completion of that project. If state funds are insufficient to fund all qualifying school districts, the board shall fund all qualifying school districts in the order in which the application for funding was approved by the board.

(b) This section shall apply only to an application that was filed after * * * April 29, 2002.

SEC. 11. Section 17077.45 of the Education Code is amended to read:

17077.45. (a) The board shall establish standards for determining the amount of the supplemental grant funding to be made available for each project under this article.

(1) For a project application qualifying for funding under paragraph (1) or (2) of subdivision (b) of Section 17077.40, the supplemental grant shall be in the form of an adjustment to the per-pupil eligibility of the project. This per-pupil eligibility adjustment shall be calculated to cover costs associated with the project that are uniquely related to the joint-use nature of the project, including, but not limited to, any increased costs associated with planning the joint-use aspect of the project.

(2) For a project application qualifying under paragraph (3) of subdivision (b), the supplemental grant may be provided without regard to the existence of per-pupil eligibility pursuant to this chapter, and may be expressed on per-square-foot cost basis, on a per-pupil cost basis, or on a per-project cost basis.

(b) Notwithstanding any other provision of this chapter, project costs may exceed the board's standards established pursuant to subdivision (a) only if the excess is paid completely by local or joint-use partner sources.

(c) On July 1 of each year the board shall apportion to qualifying applicant school districts those funds that it determines are available for the purpose of this article. The board shall not release funds to a qualifying applicant until the project plans have received all approval required pursuant to this chapter, including, but not limited to, the approval of the Division of the State Architect. If the project does not receive all necessary plan approvals within one year of the date of the apportionment, the board shall rescind the apportionment.

(d) If the total funding for the purposes of this article is not sufficient to fund all of the joint-use projects for funding under this article, the board shall fund projects eligible under paragraphs (1), (2), and (3) of subdivision (b) of Section 17077.40 in that order. The board may establish other priority standards within that order, as necessary.

(e) Except as expressly provided in this article, projects funded pursuant to this article shall comply with all other requirements of this chapter, except for Article 11 (commencing with Section 17078.10), which shall apply only to projects under this article if they also qualify for funding under Article 11 (commencing with Section 17078.10).

SEC. 12. Section 17078.20 of the Education Code, as added by Chapter 33 of the Statutes of 2002, is amended to read:

17078.20. (a) The board shall disseminate information to school districts regarding the availability of funding pursuant to this article and the appropriate deadlines for applications.

(b) Applicants for funding pursuant to this article shall submit preliminary applications to the board.

(c) The preliminary applications shall be submitted by May 1, 2003, for projects to be funded with the proceeds of bonds approved by the voters at the November 5, 2002, statewide general election.

(d) Preliminary applications shall be accepted by the board during the period between 60 days before and 120 days after, the 2004 direct primary election, or the 2004 statewide general election, as appropriate for projects to be funded with the proceeds of bonds approved by the voters at the 2004 direct primary election, or the 2004 statewide general election, as appropriate.

(e) If funds are insufficient to fully fund all of the preliminary applicants, the board shall apportion first to those projects that would house pupils from source schools with the highest pupil density levels relative to the State Department of Education standards.

SEC. 13. Section 17078.30 of the Education Code, as added by Chapter 33 of the Statutes of 2002, is amended to read:

17078.30. (a)(1) A portion of the funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the November 5, 2002, statewide general election that are not included in a preliminary apportionment for an application that is received by the deadline specified in subdivision (c) of Section 17078.20 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(2) The amount of funds that shall be made available to the board for purposes other than this article, pursuant to this subdivision, shall be calculated as follows:

(A) Add the total amount preliminarily apportioned to 15 percent of that amount.

(B) Take the number calculated pursuant to subparagraph (A) and subtract that number from the amount originally reserved for the purposes of this article.

(C) The number calculated pursuant to subparagraph (B) shall thereafter be available to the board for any new construction purpose under any other article of this chapter.

(3) All funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the November 5, 2002, statewide general election pursuant to a preliminary apportionment that are not included within a final apportionment within the timeframes permitted by Section 17078.25 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(b)(1) A portion of the funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the 2004 direct primary election, or the 2004 statewide general election, as appropriate, that are not included in a preliminary apportionment for an application that is received by the deadline specified in subdivision (d) of Section 17078.20 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(2) The amount of funds that shall be made available to the board for purposes other than this article, pursuant to this subdivision, shall be calculated as follows:

(A) Add the total amount preliminarily apportioned to 15 percent of that amount.

(B) Take the number calculated pursuant to subparagraph (A) and subtract that number from the amount originally reserved for the purposes of this article.

(C) The number calculated pursuant to subparagraph (B) shall thereafter be available to the board for any new construction purpose under any other article of this chapter.

(3) All funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the 2004 direct primary election, or the 2004 statewide general election, as appropriate, pursuant to a preliminary apportionment that are not included within a final apportionment within the timeframes permitted by Section 17078.25 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

SEC. 14. Article 12 (commencing with Section 17078.50) is added to Chapter 12.5 of Part 10 of the Education Code, to read:

Article 12. Charter Schools

17078.50. (a) It is the intent of the Legislature that this article be implemented as a pilot program to determine the optimum method for providing school facilities funding for charter schools.

4600

Additions or changes indicated by underline; deletions by asterisks * * *

(b) This article shall apply only to projects that are funded from the proceeds of bonds authorized pursuant to subparagraph (A) of paragraph (1) of subdivision (a) of Section 100620, if approved by the voters.

(c) The State Allocation Board and the California School Finance Authority shall jointly report to the Legislature by July 1, 2003, regarding all of the following:

(1) The implementation of this article, including, but not limited to, a description of the projects funded pursuant to this article.

(2) A description of the process whereby the board provides funding for charter school facilities under provisions of this chapter other than this article.

(3) Recommendations, if any, regarding statutory changes needed to facilitate and streamline the process.

(4) The Legislature intends to consider the report pursuant to subdivision (c) when determining the best mechanism for providing future state financial assistance for charter school facilities, including, but not limited to, assistance funded with the proceeds of the state bonds authorized pursuant to subparagraph (A) of paragraph (1) of subdivision (a) of Section 100620.

17078.53 (a) There is hereby established the Charter Schools Facilities Program to provide funding to qualifying entities for the purpose of establishing school facilities for charter school pupils.

(b) The Charter School Facilities Account is hereby established within the 2002 State School Facilities Fund established pursuant to subdivision (b) of Section 17070.40. The proceeds of bonds as set forth in subparagraph (A) of paragraph (1) of subdivision (a) of Section 100620, as set forth in Chapter 33 of the Statutes of 2002, if approved by the voters, shall be deposited into the Charter School Facilities Account for the purposes of this article. Notwithstanding Section 13340 of the Government Code, funds deposited into the account are hereby continuously appropriated for the purposes of this article.

(c) As used in this article, the following terms have the following meanings:

(1) "Authority" means the California School Finance Authority established pursuant to Section 17072.

(2) "Account" means the Charter School Facilities Account established within the 2002 State School Facilities Fund pursuant subdivision (b).

(3) "Preliminary apportionment" means an apportionment made for eligible applicants under this article in advance of full compliance with all of the application requirements otherwise required for an apportionment pursuant to this chapter. The process for making preliminary apportionments under this article shall be substantially identical to the process established for critically overcrowded schools pursuant to Sections 17078.22 to 17078.30, inclusive.

(4) "Financially sound" means a charter school that has demonstrated, over a period of time determined by the authority, but not less than 24 months immediately preceding the submission of the application, that it is a financially capable concern, as measured by criteria established by the authority.

(d) The board shall, from time to time, transfer funds within the account to the California School Finance Authority Fund for the purposes of this article pursuant to the request of the authority as set forth in this article.

17078.54 (a) The initial preliminary applications for projects to be funded pursuant to this article shall be submitted to the board by March 31, 2003.

(b) Thereafter, the board may establish subsequent application periods as needed.

(c) Preliminary applications may be submitted by eligible applicants as set forth in this article by either of the following:

(1) A school district on behalf of a charter school that is physically located within the geographical jurisdiction of the school district.

(2) A charter school on its own behalf if the charter school has notified both the superintendent and the governing board of the school district in which it is physically located

of its intent to do so in writing at least 30 days prior to submission of the preliminary application.

(d) The board, after consideration of the recommendations of the authority regarding whether a charter school is financially sound, shall approve the preliminary application and shall make the preliminary apportionment for funding pursuant to this article.

(e) The board shall establish a process to ensure that pupil attendance in a charter school that is physically located within the geographical jurisdiction of a school district is counted as per-pupil eligibility for that school district and to ensure that the same per-pupil attendance is not so counted for any other school district or other applicant under this chapter.

17078.54. (a) An eligible project under this article shall include funding, as permitted by this chapter, for new construction of a school facility for charter school pupils, as set forth in this article. A new construction project may include, but is not limited to, the cost of purchasing and retrofitting an existing building, but shall not exceed the amounts set forth in subdivision (b).

(b) The maximum amount of the funding pursuant to this article shall be determined by calculating the charter school's per-pupil grant amount plus other allowable costs as set forth in this chapter. Funding shall be provided by the authority for new facility construction as set forth in Section 17078.58.

(c) To be funded under this article, a project shall comply with all of the following:

(1)(A) It shall meet all the requirements regarding public school construction, plan approvals, toxic substance review, site selection, and site approval, as would any noncharter school project of a school district under this chapter, including, but not limited to, regulations adopted by the State Architect pursuant to Section 17280.5 relating to the retrofitting of existing buildings, as applicable.

(B) Notwithstanding any provision of law to the contrary, including, but not limited to subparagraph (A), the board, after consulting with the relevant regulatory agencies, shall, to the extent feasible, adopt regulations establishing a process for projects to be subject to a streamlined method for obtaining regulatory approvals for all requirements described in subparagraph (A), except for the requirements of the Field Act as defined in Section 17281 which shall be complied within the same manner as any other project under this chapter.

(2) It shall fund only new construction to be physically located within the geographical jurisdiction of a school district that has demonstrated construction grant eligibility as determined pursuant to Section 17072.10, and subdivision (e) of Section 17078.53, for at least the number of pupils set forth in the per-pupil grant request contained in the application.

(d) Facilities funded pursuant to this article shall have a 50 percent local share matching obligation that may be paid by the applicant through lease payments in lieu of the matching share, or as otherwise set forth in this article, including, but not limited to, Section 17078.58.

(e) The authority may charge its administrative costs against the Charter School Facilities Account, which shall be subject to the approval of the Department of Finance and which shall not exceed 2.5 percent of the account.

17078.56. (a) The board, in consultation with the authority, shall approve projects pursuant to this article as otherwise set forth in this chapter, and shall make preliminary apportionments only to financially sound applicants in accordance with all of the following criteria:

(1) The board shall seek to ensure that, when considered as a whole, the applications approved pursuant to this article are fairly representative of the various geographical regions of the state.

(2) The board shall seek to ensure that, when considered as a whole, the applications approved pursuant to this article are fairly representative of urban, rural, and suburban regions of the state.

(3) The board shall seek to ensure that, when considered as a whole, the applications approved pursuant to this article are fairly representative of large, medium, and small charter schools throughout the state.

(4) The board shall seek to ensure that, when considered as a whole, the applications approved pursuant to this article are fairly representative of the various grade levels of pupils served by charter school applicants throughout the state.

(b) While ensuring that the requirements of subdivision (a) are met when considering all approved projects under this article as a whole, the board shall, within each factor of the criteria set forth in subdivision (a), give a preference to charter schools in overcrowded school districts, charter schools in low-income areas, and charter schools operated by not-for-profit entities.

17078.57. (a) The authority, in consultation with the board, shall adopt regulations establishing uniform terms and conditions that shall apply equally to all projects for funding in accordance with Section 17078.58, including, but not limited to, all of the following:

(1) The process for determining the manner in which the applicant will pay its local matching share, including the method for determining any lease payments to be made in lieu of the local matching share. The regulations shall comply with all of the following criteria:

(A) The payment process set forth in Section 17199.4 may be used.

(B) The payment process shall permit lump-sum local matching payments and shall permit establishment of a schedule for lease payments to be made in lieu of the local matching share.

(C) The lease payment schedule shall be calculated by amortizing one-half of the total approved project costs, minus any lump-sum payments, over the entire payment period as set forth in Section 17078.58.

(D) The payment schedule for lease payments in lieu of the local matching funds pursuant to this section shall be based upon payment, within a reasonable period of time not to exceed a 30-year period, of one-half of the total eligible project costs, and shall be calculated in a manner that is designed to result in full payment of that portion, together with interest thereon at the rate paid on moneys in the Pooled Money Investment Account as of the date of disbursement of the funding.

(2) The method for determining whether a charter school is financially sound. In the case of a charter school chartered by a school district that is located outside of the school district that chartered it, the method developed by the authority shall include, but shall not be limited to, a site visit to the school facility currently being used by the charter school during hours when pupils are present and instruction is being provided.

(3)(A) Security provisions, including, but not limited to, the requirement that title to project facilities be held by the school district in which the facility is to be physically located, in trust, for the benefit of the state public school system.

(B) The authority shall adopt a mechanism whereby a person or entity who provides a substantial contribution that is applied to the costs of the project in excess of the state share and the local matching share may be granted a security interest to be satisfied from the proceeds, if any, realized when the property is ultimately disposed of as set forth in paragraph (5) of subdivision (b) of Section 17078.62.

(4) The method for integrating funding pursuant to this article with the authority's general procedures pursuant to subdivision (i) of Section 17180 for otherwise funding projects eligible for funding under this chapter, if appropriate.

(5) The process to be used for release of funds for approved projects pursuant to this article.

(b) The initial regulations shall be deemed to be emergency regulations.

17078.58. (a) Funding granted pursuant to this article may not exceed 100 percent of the total allowable project costs as determined by calculating double the per-pupil grant eligibility as set forth in Section 17072.10, and subdivision (e) of Section 17078.53, plus 100 percent of all other allowable construction project costs, as appropriate to the project, that would otherwise be available to school district projects as set forth in this chapter.

(b) The local share equivalent shall be collected in the form of lease payments or otherwise as set forth in this article.

(c) Lease payments in lieu of local share payments, and any other local share payments made pursuant to this article, shall be made to the State Allocation Board for deposit into the

Additions or changes indicated by underline; deletions by asterisks * * *

4603

account. Funds deposited into the account pursuant to this section may be used by the board only for a purpose related to charter school facilities pursuant to this article.

17078.62. (a) As a first priority, the existing charter school shall be permitted to continue to use the facility until it is no longer needed by the charter school for charter school purposes.

(b) If the charter school occupying a facility funded pursuant to this article ceases to utilize the facility for a charter school purpose, all of the following apply:

(1) If the charter school is no longer using the facility because the school district in which the charter school is located has revoked or declined to renew the charter, the school district, as a necessary component of the first priority established in subdivision (a), shall not immediately occupy the facility, but shall allow a reasonable time, not to exceed six months, for completion of the review process contemplated in Section 47607 or 47607.5.

(2) As a second priority, any qualifying successor charter school shall be permitted to meet its facility needs by occupying the facility on equal terms as the prior charter school occupant.

(3) As a third priority, the school district in which the charter school is physically located may notify the authority and take possession of the facility and make the facility available for continued use as a public school facility.

(4) If the school district in which the charter school is physically located elects to take possession of a facility pursuant to paragraph (3), it shall pay the balance of the unpaid local matching share or demonstrate that it is willing and able to continue to make the lease payments in lieu of the local matching share on the same terms. However, the payments shall be reduced or eliminated, as appropriate, if the school district complies with all of the following:

(A) It demonstrates that it would have been eligible for hardship funding under Article 8 (commencing with Section 17075.10) at the time that the application for funding the facility under this article was originally submitted.

(B) It certifies to the board that it will utilize the facilities for public school purposes for a period of at least five years from the date that it occupies the facility.

(5) If the school district declines to take possession pursuant to paragraph (3), or if the facility is subsequently no longer needed for public school purposes, the school district shall dispose of the facilities in a manner otherwise applicable to the disposal of surplus public schoolsites. Any unpaid local matching share shall be paid from the net proceeds, if any, of the disposition and shall be deposited into the account. To the extent that funds remain from the proceeds of the disposition after repayment of the local matching share, any security interest granted to a person or entity pursuant to subparagraph (B) of paragraph (3) of subdivision (a) of Section 17078.57 shall be satisfied.

(6) If the lease payments in lieu of the local matching share are fully paid, the school district shall continue to hold title to the facility, in trust, for the benefit of the state public school system. The school district shall permit continued use of the facility for charter school purposes as long as the facility is needed for those purposes.

17078.64. (a) In lieu of applying for funding under this article, a school district may elect to include facilities for a charter school that would be physically located within its geographical jurisdiction within its application for funding pursuant to the general provisions of this chapter, other than this article. However, the project would be outside the scope of this article, would not be subject to its provisions, and shall comply with this chapter in the same manner as any noncharter project. Moreover, any per-pupil eligibility that is used for that project shall not, also, support any project under this article.

(b) Except for those provisions in which the authority is expressly required or authorized to adopt regulations pursuant to this article, the board in consultation with the authority shall adopt regulations to implement this article. The initial regulations shall be deemed to be emergency regulations.

(c) This article is not applicable to projects funded with the proceeds of state general obligation bonds approved by the voters prior to January 1, 2002.

SEC. 15. Section 17180.5 is added to the Education Code, to read:

4604

Additions or changes indicated by underline; deletions by asterisks * * *

17180.5. (a) In addition to the powers authorized pursuant to Section 17180, the authority shall perform its duties under the Charter School Facilities Program to provide funding for facilities for charter school pupils as set forth in Article 12 (commencing with Section 17078.50) of Chapter 12.5.

(b) Notwithstanding any provision of law to the contrary, including, but not limited to, Section 17197, with regard to the authority's implementation of funding for charter school facilities, Article 12 (commencing with Section 17078.50) shall control over conflicting provisions, if any, in this chapter.

SEC. 16. Section 17213.1 of the Education Code is amended to read:

17213.1. As a condition of receiving state funding pursuant to Chapter 12. 5 (commencing with Section 17070.10), the governing board of a school district shall comply with subdivision (a), and is not required to comply with subdivision (a) of Section 17213, prior to the acquisition of a schoolsite, or if the school district owns or leases a schoolsite, prior to the construction of a project.

(a) Prior to acquiring a schoolsite, the governing board shall contract with an environmental assessor to supervise the preparation of, and sign, a Phase I environmental assessment of the proposed schoolsite unless the governing board decides to proceed directly to a preliminary endangerment assessment, in which case it shall comply with paragraph (4).

(1) The Phase I environmental assessment shall contain one of the following recommendations:

(A) A further investigation of the site is not required.

(B) A preliminary endangerment assessment is needed, including sampling or testing, to determine the following:

(i) If a release of hazardous material has occurred and, if so, the extent of the release.

(ii) If there is the threat of a release of hazardous materials.

(iii) If a naturally occurring hazardous material is present.

(2) If the Phase I environmental assessment concludes that further investigation of the site is not required, the signed assessment, * * * proof that the environmental assessor meets the qualifications specified in subdivision (b) of Section 17210 * * *, and the renewal fee shall be submitted to the Department of Toxic Substances Control * * *. The Department of Toxic Substances Control * * * shall conduct its review and approval, * * * within 30 calendar days of its receipt of that assessment * * *, proof of qualifications, and the renewal fee. In those instances in which the Department of Toxic Substances Control requests additional information after receipt of the Phase I environmental assessment pursuant to paragraph (3), the Department of Toxic Substances Control shall conduct its review and approval within 30 calendar days of its receipt of the requested additional information. If the Department of Toxic Substances Control concurs with the conclusion of the Phase I environmental assessment that a further investigation of the site is not required, the Department of Toxic Substances Control shall approve the Phase I environmental assessment and shall notify, in writing, the State Department of Education and the governing board of the school district of the approval.

(3) If the Department of Toxic Substances Control determines that the Phase I environmental assessment is not complete or disapproves the Phase I environmental assessment, the department shall inform the school district of the decision, the basis for the decision, and actions necessary to secure department approval of the Phase I environmental assessment. The school district shall take actions necessary to secure the approval of the Phase I environmental assessment, elect to conduct a preliminary endangerment assessment, or elect not to pursue the acquisition or the construction project. To facilitate completion of the Phase I environmental assessment, the information required by this paragraph may be provided by telephonic or electronic means.

(4)(A) If the Department of Toxic Substances Control concludes after its review of a Phase I environmental assessment pursuant to this section that a preliminary endangerment assessment is needed, the Department of Toxic Substances Control shall notify, in writing, the State Department of Education and the governing board of the school district of that decision and the basis for that decision. The school district shall submit to the State

fund from whatever source shall be returned to the fund and is available for allocation by the agency to the program established pursuant to Section 51451.5.

SEC. 20. Section 51453.5 is added to the Health and Safety Code, to read:

51453.5. Notwithstanding Section 51452, the sum of twenty-five million dollars (\$25,000,000) which is made available pursuant to subparagraph (B) of paragraph (1) of subdivision (a) of Section 100820 of the Education Code, shall be transferred to the School Facilities Fee Assistance Fund and, notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated to the department for allocation for the agency for administrative costs and to make payments to purchasers of newly constructed residential structures pursuant to Section 51451.5 from that fund, as follows:

(a) Twelve million five hundred thousand dollars (\$12,500,000) shall be available for the program set forth in subdivision (a) of Section 51451.5, except that if less than 50 percent of these funds are expended within 24 months, all or part of those funds shall be available for the program set forth in subdivision (b) of Section 51451.5 at the discretion of the executive director of the agency.

(b) Twelve million five hundred thousand dollars (\$12,500,000) shall be available for the program set forth in subdivision (b) of Section 51451.5, except that if less than 50 percent of these funds are expended within 24 months, all or part of those funds shall be available for the program set forth in subdivision (a) of Section 51451.5 at the discretion of the executive director of the agency.

(c) If after 48 months, more than 20 percent of the funds identified in subdivisions (a) and (b) are not expended, the executive director of the agency may make all or part of those funds available to the California Homebuyer's Downpayment Assistance Program, as authorized under Chapter 11 (commencing with Section 51500).

(d) All repayments of disbursed funds pursuant to this chapter or any interest earned from the investment in the Surplus Money Investment Fund or any other moneys accruing to the fund from whatever source shall be returned to the fund and is available for allocation by the agency to the program established pursuant to Section 51451.5.

SEC. 21. Section 51455 of the Health and Safety Code, as amended by Chapter 33 of the Statutes of 2002, is amended to read:

51455. (a) Except as provided in subdivision (b), Sections 51450, 51451, 51452, and 51454 shall not be operative on and after January 1, 2002.

(b) * * * Except as provided in Section 51453 and 51453.5, the School Facilities Fee Assistance Fund established by Section 51452 and the programmatic authority necessary to operate the programs authorized by Section 51451 shall continue on and after January 1, 2002, only with respect to any repayment obligation pertaining to that assistance or to any regulatory agreement imposed as a condition of that assistance.

SEC. 22. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars (\$1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

SEC. 23. The provisions of this act are severable. If any provision of this act or its application is held invalid, that invalidity shall not affect other provisions or applications that can be given effect without the invalid provision or application.

shelter from accepting payment vouchers provided through any other public or private program so long as no shelter beds are reserved beyond sundown for that purpose. Notwithstanding Section 11135 of the Government Code or any other provision of law, nothing in this section shall be construed to preclude a provider of emergency shelter or transitional housing from restricting occupancy on the basis of sex or, in the case of an emergency shelter or transitional housing offered exclusively to persons 24 years of age or younger pursuant to Section 11139.3 of the Government Code, on the basis of age. However, in the case of families, providers of emergency shelter or transitional housing shall provide, to the greatest extent feasible, adequate facilities within their range of services so that all members of a family may be housed together, regardless of age and gender.

SCHOOLS AND SCHOOL DISTRICTS—LEAD CONTAMINATION—FUNDS

CHAPTER 1075

S.B. No. 21

AN ACT to amend Section 17582 of, and to add Sections 17074.27, 17074.30, and 17584.2 to, the Education Code, relating to school facilities.

[Filed with Secretary of State September 29, 2002.]

LEGISLATIVE COUNSEL'S DIGEST

SB 21, Escutia. Lead-safe schools.

Under existing law, known as the Lead-Safe Schools Protection Act, the State Department of Health Services is required to conduct a sample survey of public elementary schools, public preschools, and public day care facilities for the purpose of developing risk factors to predict lead contamination in those public schools.

Existing law, the Class Size Reduction Kindergarten-University Public Education Facilities Bond Act of 1998, provides for the issuance, pursuant to the State General Obligation Bond Law, of state general obligation bonds in an amount not to exceed \$9,200,000,000, exclusive of refunding bonds, to provide aid to school districts, county superintendents of schools, and county boards of education in accordance with prescribed provisions, including, but not limited to, the Leroy F. Greene State School Facilities Act of 1998.

This bill would authorize state modernization funding for the identification, assessment, control, management, or abatement of lead. The bill would require any application for modernization funding after January 1, 2004, to certify that it has considered the potential for the presence of lead-containing materials in the modernization project and will follow all relevant standards.

The bill would authorize the use of school district deferred maintenance funds for the inspection, identification, sampling, analysis, control, management, and removal of lead-containing material.

The people of the State of California do enact as follows:

SECTION 1. (a) The Legislature hereby finds and declares all of the following:

(1) Despite the fact that the environmental and educational communities have known for years that lead paint still exists in school buildings in the state, many of these lead hazards have not been mitigated and continue to pose a danger to the health and well being of children.

(2) A survey of the State Department of Health Services found that, of 200 randomly selected California elementary schools, 77 percent have lead-based paint; 38 percent have lead-based paint that is deteriorating, exposing children to possible lead poisoning; 6 percent have soil lead levels greater than the Environmental Protection Agency's limit; and 18

Additions or changes indicated by underline; deletions by asterisks * * *

5347

percent have lead levels in drinking water in excess of the action level set by the Environmental Protection Agency.

(3) Lead is a highly toxic heavy metal that adversely affects virtually every organ system in the body.

(4) Most children with lead poisoning have no overt symptoms, but can suffer permanent neurological deficits and behavioral problems, including attention deficit disorder and loss of IQ points.

(5) The United States Center for Disease Control and Prevention has found that "lead poisoning remains the most common and societally devastating environmental disease of young children."

(6) Childhood lead poisoning has a significant financial cost, as lead poisoned children incur high medical and special education costs and have reduced lifetime earning potential.

(b) Therefore, it is the intent of the Legislature to encourage all public schools to identify all lead hazards as quickly as possible.

SEC. 2. Section 17074.27 is added to the Education Code, to read:

17074.27. In addition to the uses specified in Section 17074.25, a modernization apportionment may also be used for the control, management, or abatement of lead.

SEC. 3. Section 17074.30 is added to the Education Code, to read:

17074.30. Commencing with applications submitted after January 1, 2004, any school district applying for funding pursuant to this article shall certify that it has considered the potential for the presence of lead-containing materials in the modernization projects and will follow all relevant federal, state, and local standards for the management of any identified lead.

SEC. 4. Section 17582 of the Education Code is amended to read:

17582. (a) The governing board of each school district may establish a restricted fund to be known as the "district deferred maintenance fund" for the purpose of major repair or replacement of plumbing, heating, air conditioning, electrical, roofing, and floor systems, the exterior and interior painting of school buildings, the inspection, sampling, and analysis of building materials to determine the presence of asbestos-containing materials, the encapsulation or removal of asbestos-containing materials, the inspection, identification, sampling, and analysis of building materials to determine the presence of lead-containing materials, the control, management, and removal of lead-containing materials, and any other items of maintenance approved by the State Allocation Board. Funds deposited in the district deferred maintenance fund may be received from any source whatsoever, and shall be accounted for separately from all other funds and accounts and retained in the district deferred maintenance fund for purposes of this section. The term "school building" as used in this article includes a facility that a county office of education is authorized to use pursuant to Article 3 (commencing with Section 17280) of Chapter 3.

(b) Funds deposited in the district deferred maintenance fund shall only be expended for maintenance purposes as provided pursuant to subdivision-(a).

(c) The governing board of each school district shall have complete control over the funds and earnings of funds once deposited in the district deferred maintenance fund, provided that no funds deposited in the district deferred maintenance fund pursuant to subdivision (a) or (b) of Section 17584 may be expended by the governing board for any purpose except those specified in subdivision (a) of this section.

SEC. 5. Section 17584.2 is added to the Education Code, to read:

17584.2. At the public hearing required pursuant to Section 17584.1, the governing board of the school district shall also address the use of deferred maintenance funds for the inspection, identification, sampling, and analysis of building materials to determine the presence of lead-containing materials and the control, management, and removal of lead-containing materials.

subsequent legislation that accomplishes the intent of legislation I signed last year (Chapter 165, Statutes of 2001), which established a statewide equalization goal.

Let me be clear. I am fully committed to providing full funding for equalization in the 2003-04 Budget Year. However, I am opposed to the formula used to determine equalization funding in this bill. By splitting equalization into disparate allocation methods, as proposed by AB 2781, the State does not actually reach an equalized endpoint. Consequently, this bill creates continued pressure to fund further rounds of equalization in future years. It is estimated that an additional \$195 million to \$200 million would still be required to fully equalize revenue limits computed on the basis of current state policy. As mentioned above, I intend to sign subsequent legislation that appropriates up to \$203,000,000 to complete full equalization consistent with the current statutory goal. That subsequent legislation should also delete Section 7 and subdivision (c) of Section 42 of this statute to conform.

Further, I am reducing the appropriation for the Standardized Testing and Reporting (STAR) program by \$800,000 to correct an unintentional over appropriation of the item.

The effect of my actions are reflected as follows:

SEC. 44. The sum appropriated in Item 6110-113-0001 of Section 2.00 of the Budget Act of 2002 is hereby augmented by forty-five million eight hundred nine thousand dollars (\$45,809,000) and the amount appropriated in Schedule (4) of that item is augmented by forty-five million eight hundred nine thousand dollars (\$45,809,000).

SEC. 51. (a) The amount of two hundred three million dollars (\$203,000,000) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for the 2003-04 fiscal year for the following purposes:

(1) Two hundred three million dollars (\$203,000,000) for purposes of Section 42238.44 of the Education Code, to be allocated to school districts on a pro rata basis.

(b) For purposes of making the computations required by Section 8 of Article XVI of the California Constitution, the appropriation made by this section shall be deemed to be 'General Fund revenues appropriated to schools districts,' as defined in subdivision (c) of Section 41202 of the Education Code for the 2003-04 fiscal year and be included within the 'total allocations to schools district and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XVII B,' as defined in subdivision (e) of Section 41202 of the Education Code for the 2003-04 fiscal year.

Gray Davis, Governor

EDUCATION—GENERAL AMENDMENTS

CHAPTER 1168

A.B. No. 1818

AN ACT to amend Sections 2557.5, 2558, 17150, 33126, 33126.1, 33128, 35120, 38133, 41023, 41031, 41032, 41033, 41035, 41038, 41303, 41372, 41403, 41404, 42127, 42127.1, 42129, 42238.12, 42241.7, 42850, 44049, 46200, 46200.5, 46202, 52054, 52055.610, 52055.640, 52055.656, 52291, 52310.5, 52314, 54743, 54745, 54746, 54747, 56001, 56100, 56129, 56130, 56200, 56205, 56345, 56361, 56392, 56441.1, 56473, 56836.155, 56836.23, 59201, 59203, 59204.5, 59210, 60451, 60453, and 60642.5 of, to amend the heading of Article 3 (commencing with Section 41030) of Chapter 1 of Part 24 of, to amend and repeal Section 49553 of, to repeal and add Section 59220 of, to amend and renumber Section 42238.146 of, to add Sections 14002.3, 35735.3, and 41407 to, and to repeal Sections 41405, 56393, 59204, 59211, and 59223 of, and to repeal Article 3.7 (commencing with Section 32230) of Chapter 2 of Part 19 of, the Education Code, to amend Section 3540.2 of, and to amend the heading of Chapter 26.5 (commencing with Section 7570) of, the Government Code, to amend Section 62 of Chapter 78 of the Statutes of 1999, and to amend Section 12.40 of Chapter 106 of the Statutes of 2001, relating to education, and declaring the urgency thereof, to take effect immediately.

Additions or changes indicated by underline; deletions by asterisks * * *

received pursuant to subparagraph (C) of paragraph (3) of subdivision (a) of Section 33607.5 of the Health and Safety Code that is considered property taxes pursuant to that section.

(d) The remainder computed in subdivision (c) shall be distributed in the same manner as state aid to school districts from funds appropriated to Section A of the State School Fund.

(e) If the remainder determined pursuant to subdivision (c) is a negative amount, no state aid shall be distributed to that county superintendent of schools pursuant to subdivision (d), and an amount of funds of that county superintendent equal to that negative amount shall be deemed restricted and not available for expenditure during the current fiscal year. In the next fiscal year, that amount shall be considered local property tax revenue for purposes of the operation of paragraph (1) of subdivision (c) of this section.

(f) The calculations set forth in paragraphs (1) to (3), inclusive, of subdivision (b) exclude employer contributions for employees of charter schools funded pursuant to Article 2 (commencing with Section 47633) of Chapter 6 of Part 26.8.

SEC. 3. Section 14002.3 of the Education Code is added to read:

14002.3. Notwithstanding any other provision of law, for purposes of Sections 14002, 14004, and 41301, for the 2000-01 fiscal year and each fiscal year thereafter, the Superintendent of Public Instruction shall certify to the Controller amounts that do not exceed the amounts needed to fund the revenue limits of school districts, as determined pursuant to Section 42238, and the revenue limits of county superintendents of schools, as determined pursuant to Section 2558.

(b) This section shall become operative on July 1, 2004.

SEC. 4. Section 17150 of the Education Code is amended to read:

17150. (a) Upon the approval by the governing board of the school district to proceed with the issuance of certificates of participation or revenue bonds or to enter into any agreement for financing school construction pursuant to Chapter 18 (commencing with Section 17170), the school district shall notify the county superintendent of schools and the county auditor. The superintendent of the school district shall provide the repayment schedules for that debt obligation, and evidence of the ability of the school district to repay that obligation, to the county auditor, the county superintendent, the governing board, and the public. Within 15 days of the receipt of the information, the county superintendent of schools and the county auditor may comment publicly to the governing board of the school district regarding the capability of the school district to repay that debt obligation.

(b) Upon the approval by the county board of education to proceed with the issuance of certificates of participation or revenue bonds or to enter into any agreement for financing pursuant to Chapter 18 (commencing with Section 17170), the county superintendent of schools or superintendent of a school district for which the county board serves as governing board shall notify the Superintendent of Public Instruction. The county superintendent of schools or the superintendent of a school district for which the county board serves as the governing board shall provide the repayment schedules for that debt obligation and evidence of the ability of the county office of education or school district to repay that obligation, to the Superintendent of Public Instruction, the governing board, and the public. Within 15 days of the receipt of the information the Superintendent of Public Instruction may comment publicly to the county board of education regarding the capability of the county office of education or school district to repay that debt obligation.

(c) Prior to delivery of the notice required by subdivision (a) neither the county nor any of its officers shall have any responsibility for the administration of the school district's indebtedness. Failure to comply with the requirements of this section will not affect the validity of the indebtedness.

SEC. 4.5. Article 3.7 (commencing with Section 32230) of Chapter 2 of Part 19 of the Education Code is repealed.

SEC. 5. Section 33126 of the Education Code is amended to read:

33126. (a) The school accountability report card shall provide data by which parents can make meaningful comparisons between public schools enabling them to make informed decisions on which school to enroll their children.

SEC. 78. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to ensure that the educational programs affected by this act are properly implemented, pursuant to the clarifying, technical, and other changes made by this act, it is necessary that this act take effect immediately.

**COLLEGES AND UNIVERSITIES—COMMUNITY COLLEGES—
EQUAL EMPLOYMENT OPPORTUNITIES**

CHAPTER 1169

S.B. No. 2028

AN ACT to amend Section 87482.7 of, and to repeal and add Article 4 (commencing with Section 87100) of Chapter 1 of Part 51 of, the Education Code, relating to community colleges.

[Filed with Secretary of State September 30, 2002.]

LEGISLATIVE COUNSEL'S DIGEST

SB 2028, Vasconcellos. Community colleges: equal employment opportunity hiring.

Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law authorizes the establishment of community college districts under the administration of community college governing boards, and authorizes these districts to provide instruction at community college campuses throughout the state.

Existing statutes, relating to affirmative action hiring by the community colleges, that have been invalidated by order of the California Court of Appeal, require the board of governors, out of funds appropriated for that purpose, to provide assistance to local community colleges in maintaining high-quality affirmative action programs. The invalidated statutes also established the Faculty and Staff Diversity Fund in the State Treasury. Money in this fund was available to the board of governors, upon appropriation by the Legislature, for the purpose of enabling the community colleges as a system to address a goal of making the system's workforce reflect proportionately the adult population of the state.

This bill would repeal these invalidated provisions. The bill would instead enact provisions relating to equal employment opportunity hiring by the community colleges, and establish the Employment Opportunity Fund, to be administered by the board of governors, upon appropriation by the Legislature, for the purpose of promoting equal employment opportunities in hiring and promotion at the community colleges. The bill would make conforming changes.

The bill would require the governing board of each community college district that opts to participate under the bill to periodically submit to the board of governors an affirmation of compliance with the article. The bill would require the board of governors to adopt regulations to ensure that each participating community college district implements processes for ensuring equal employment opportunities. The bill would require the board of governors to develop systemwide strategies for encouraging community college students to become qualified for, and seek, employment as community college faculty or administrators. The bill would require the board of governors to develop and disseminate to community college districts a model equal employment opportunity plan.

The bill would require the board of governors to adopt regulations for the use of the fund, including outreach and recruitment, in-service training on equal employment opportunities, accommodations for applicants and employees with disabilities, and other activities to promote equal employment opportunities. The bill would prohibit the board of governors from using more than 25% of the revenues in the fund to provide technical assistance, service, monitor-

EXHIBIT 3
EDUCATION CODE SECTIONS CITED

EDUCATION CODE

§ 15264. Legislative intent

It is the intent of the Legislature that all of the following are realized:

- (a) Vigorous efforts are undertaken to ensure that the expenditure of bond measures, including those authorized pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution, are in strict conformity with the law.
- (b) Taxpayers directly participate in the oversight of bond expenditures.
- (c) The members of the oversight committees appointed pursuant to this chapter promptly alert the public to any waste or improper expenditure of school construction bond money.
- (d) That unauthorized expenditures of school construction bond revenues are vigorously investigated, prosecuted, and that the courts act swiftly to restrain any improper expenditures.

(Added by Stats.2000, c. 44 (A.B.1908), § 3.)

§ 15266. Alternative method of authorizing and issuing bonds

(a) As an alternative to authorizing and issuing bonds pursuant to Chapter 1 (commencing with Section 15100) or Chapter 2 (commencing with Section 15300), the governing board of a school district or community college district may decide, pursuant to a two-thirds vote and subject to Section 15100 or 15302, as appropriate, to pursue the authorization and issuance of bonds pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution and subdivision (b) of Section 18 of Article XVI of the California Constitution. An election may only be ordered on the question of whether bonds of a school district or community college district shall be issued and sold pursuant to subdivision (b) of Section 18 of Article XVI of the California Constitution at a primary or general election, a regularly scheduled local election, or a statewide special election.

(b) Upon adopting a resolution to incur bonded indebtedness pursuant to subdivision (b) of Section 18 of Article XVI of the California Constitution and after the question has been submitted to the voters, if approved at the election, the bonds shall be issued pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution and this chapter, and the governing board may not, regardless of the number of votes cast in favor of the bond, subsequently proceed exclusively under Chapter 1 (commencing with Section 15100) or under Chapter 2 (commencing with Section 15300), as appropriate. Where not inconsistent, the provisions of Chapter 1 (commencing with Section 15100) or Chapter 2 (commencing with Section 15300), as appropriate, shall apply to this chapter.

(Added by Stats.2000, c. 44 (A.B.1908), § 3. Amended by Stats.2001, c. 132 (S.B.1129), § 1.)

EDUCATION CODE

§ 15268. Maximum amount of bonds

The total amount of bonds issued, including bonds issued pursuant to Chapter 1 (commencing with Section 15100), shall not exceed 1.25 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The bonds may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred by a school district pursuant to this chapter, at a single election, would not exceed thirty dollars (\$30) per year per one hundred thousand dollars (\$100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution. For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying that result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll.

(Added by Stats.2000, c. 44 (A.B.1908), § 3. Amended by Stats.2000, c. 580 (A.B.2659), § 2.)

§ 15270. Exceptions to maximum amount of bonds

(a) Notwithstanding Sections 15102 and 15268, any unified school district may issue bonds pursuant to this article that, in aggregation with bonds issued pursuant to Chapter 1 (commencing with Section 15100), may not exceed 2.5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The bonds may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a unified school district, would not exceed sixty dollars (\$60) per year per one hundred thousand dollars (\$100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution.

(b) Notwithstanding Sections 15102 and 15268, any community college district may issue bonds pursuant to this article that, in aggregation with bonds issued pursuant to Chapter 1 (commencing with Section 15100), may not exceed 2.5 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. The bonds may only be issued if the tax rate levied to meet the requirements of Section 18 of Article XVI of the California Constitution in the case of indebtedness incurred pursuant to this chapter at a single election, by a community college district, would not exceed twenty-five dollars (\$25) per year per one hundred thousand dollars (\$100,000) of taxable property when assessed valuation is projected by the district to increase in accordance with Article XIII A of the California Constitution.

(c) In computing the outstanding bonded indebtedness of any unified school district or community college district for all purposes of this section, any outstanding bonds shall be deemed to have been issued for elementary school purposes, high school purposes, and community college purposes, respectively, in the respective amounts that the proceeds of the sale of those outstanding bonds, excluding any premium and accrued interest received on that sale, were or have been allocated by the governing board of the unified school district or community college district to each of those purposes respectively.

(d) For purposes of this section, the taxable property of a district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property of the district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property within the district for the 1987-88 fiscal year by the gross assessed value of all unitary and operating nonunitary property within the county in which the district is located for the 1987-88 fiscal year, and multiplying the result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll. In the event of the unification of two or more school districts subsequent to the 1987-88 fiscal year, the assessed value of all unitary and operating nonunitary property of the unified district shall be deemed to be the total of the assessed value of the taxable property of each of the unifying districts as that assessed value would be determined under Section 15268.

(e) For the purposes of this article, "general obligation bonds," as that term is used in Section 18 of Article XVI of the California Constitution, means bonds of a school district or community college district the repayment of which is provided for by this chapter and Chapter 1 (commencing with Section 15100) of Part 10, and includes bonds of a school facilities improvement district the repayment of which is provided for by this chapter and Chapter 2 (commencing with Section 15300).

EDUCATION CODE

§ 15271. Authority of governing board of school district or community college to act on behalf of school facilities improvement district

The governing board of a school district or community college district may proceed pursuant to this chapter on behalf of a school facilities improvement district that is created by and under the exclusive authority of the school district or community college district and act on behalf of the school facilities district as provided pursuant to Chapter 2 (commencing with Section 15300).

(Added by Stats.2001, c. 132 (S.B.1129), § 3.)

§ 15272. Additional ballot requirement

In addition to the ballot requirements of Section 15122 and the ballot provisions of this code applicable to governing board member elections, for bond measures pursuant to this chapter, the ballot shall also be printed with a statement that the board will appoint a citizens' oversight committee and conduct annual independent audits to assure that funds are spent only on school and classroom improvements and for no other purposes.

(Added by Stats.2000, c. 44 (A.B.1908), § 3.)

§ 15274. Approval by 55% of voters

If it appears from the certificate of election results that 55 percent of the votes cast on the proposition of issuing bonds pursuant to subdivision (b) of Section 18 of Article XVI of the California Constitution are in favor of issuing bonds, the governing board shall cause an entry of that fact to be made upon its minutes. The governing board shall then certify to the board of supervisors of the county whose superintendent of schools has jurisdiction over the district, all proceedings had in the premises. The county superintendent of schools shall send a copy of the certificate of election results to the board of supervisors of the county.

(Added by Stats.2000, c. 44 (A.B.1908), § 3.)

EDUCATION CODE

§ 15276. Authority to order election

Notwithstanding any other provision of law, a county board of education may not order an election to determine whether bonds may be issued under this article to raise funds for a county office of education.

(Added by Stats.2000, c. 44 (A.B.1908), § 3.)

§ 15278. Citizens' Oversight Committee; establishment; appointment of members; purposes

(a) If a bond measure authorized pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution and subdivision (b) of Section 18 of Article XVI of the California Constitution is approved, the governing board of the school district or community college shall establish and appoint members to an independent citizens' oversight committee, pursuant to Section 15282, within 60 days of the date that the governing board enters the election results on its minutes pursuant to Section 15274.

(b) The purpose of the citizens' oversight committee shall be to inform the public concerning the expenditure of bond revenues. The citizens' oversight committee shall actively review and report on the proper expenditure of taxpayers' money for school construction. The citizens' oversight committee shall advise the public as to whether a school district or community college district is in compliance with the requirements of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution. The citizens' oversight committee shall convene to provide oversight for, but not be limited to, both of the following:

(1) Ensuring that bond revenues are expended only for the purposes described in paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(2) Ensuring that, as prohibited by subparagraph (A) of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution, no funds are used for any teacher or administrative salaries or other school operating expenses.

(c) In furtherance of its purpose, the citizens' oversight committee may engage in any of the following activities:

(1) Receiving and reviewing copies of the annual, independent performance audit required by subparagraph (C) of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(2) Receiving and reviewing copies of the annual, independent financial audit required by subparagraph (C) of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(3) Inspecting school facilities and grounds to ensure that bond revenues are expended in compliance with the requirements of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(4) Receiving and reviewing copies of any deferred maintenance proposals or plans developed by a school district or community college district, including any reports required by Section 17584.1.

(5) Reviewing efforts by the school district or community college district to maximize bond revenues by implementing cost-saving measures, including, but not limited to, all of the following:

(A) Mechanisms designed to reduce the costs of professional fees.

(B) Mechanisms designed to reduce the costs of site preparation.

(C) Recommendations regarding the joint use of core facilities.

(D) Mechanisms designed to reduce costs by incorporating efficiencies in schoolsite design.

(E) Recommendations regarding the use of cost-effective and efficient reusable facility plans.

(Added by Stats.2000, c. 44 (A.B.1908), § 3.)

§ 15280. Technical assistance; public meetings

(a) The governing board of the district shall, without expending bond funds, provide the citizens' oversight committee with any necessary technical assistance and shall provide administrative assistance in furtherance of its purpose and sufficient resources to publicize the conclusions of the citizens' oversight committee.

(b) All committee proceedings shall be open to the public and notice to the public shall be provided in the same manner as the proceedings of the governing board. The citizens' oversight committee shall issue regular reports on the results of its activities. A report shall be issued at least once a year. Minutes of the proceedings of the citizens' oversight committee and all documents received and reports issued shall be a matter of public record and be made available on an Internet website maintained by the governing board.

(Added by Stats.2000, c. 44 (A.B.1908), § 3.)

EDUCATION CODE

§ 15282. Members

(a) The citizens' oversight committee shall consist of at least seven members to serve for a term of two years without compensation and for no more than two consecutive terms. While consisting of a minimum of at least seven members, the citizens' oversight committee shall be comprised, as follows:

(1) One member shall be active in a business organization representing the business community located within the district.

(2) One member shall be active in a senior citizens' organization.

(3) One member shall be active in a bona fide taxpayers' organization.

(4) For a school district, one member shall be the parent or guardian of a child enrolled in the district. For a community college district, one member shall be a student who is both currently enrolled in the district and active in a community college group, such as student government. The community college student member may, at the discretion of the board, serve up to six months after his or her graduation.

(5) For a school district, one member shall be both a parent or guardian of a child enrolled in the district and active in a parent-teacher organization, such as the Parent Teacher Association or schoolsite council. For a community college district, one member shall be active in the support and organization of a community college or the community colleges of the district, such as a member of an advisory council or foundation.

(b) No employee or official of the district shall be appointed to the citizens' oversight committee. No vendor, contractor, or consultant of the district shall be appointed to the citizens' oversight committee. Members of the citizens' oversight committee shall, pursuant to Sections 35233 and 72533, abide by the prohibitions contained in Article 4 (commencing with Section 1090) and Article 4.7 (commencing with Section 1125) of Division 4 of Title 1 of the Government Code.

(Added by Stats.2000, c. 44 (A.B.1908), § 3.)

§ 15284. Actions to restrain and prevent expenditure of funds

(a) An action to obtain an order restraining and preventing any expenditure of funds received by a school district or community college district through the sale of bonds authorized by this chapter pursuant to paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution and subdivision (b) of Section 18 of Article XVI of the California Constitution may be maintained against any officer, agent, or other person acting on behalf of, that school district or community college district, by a citizen residing in the school or community college district who is assessed and is liable to pay an ad valorem tax on real property within the school or community college district, or who has paid an ad valorem tax on real property within the school or community college district within one year before the commencement of the action if it appears by the complaint or affidavits that any of the following conditions are present:

(1) An expenditure of funds received by a school district or community college district through the sale of bonds authorized by this chapter is for purposes other than those specified in paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(2) The expenditure is not in compliance with paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution.

(3) That an expenditure in violation of paragraph (3) of subdivision (b) of Section 1 of Article XIII A of the California Constitution will be made or will continue to be made during the litigation that would produce waste or great or irreparable injury.

(4) The governing board of a school district or community college has willfully failed to appoint the citizens' oversight committee in violation of the requirements of Section 15278.

(b) An action brought pursuant to this section shall take special precedence over all civil matters on the calendar of the court except those matters granted equal precedence by law.

(c) The rights, remedies, or penalties established by this section are cumulative to the rights, remedies, or penalties established under other laws, including subdivision (a) of Section 526 of Chapter 3 of Title 7 of Part 2 of the Code of Civil Procedure.

(d) If an order is obtained to restrain and prevent an expenditure of funds pursuant to subdivision (a), a court may award attorneys' fees pursuant to Chapter 6 (commencing with Section 1021.5) of Title 14 of Part 2 of the Code of Civil Procedure.

(e) The action authorized by this section shall be known as a "School Bond Waste Prevention Action."

(Added by Stats.2000, c. 44 (A.B.1908), § 3.)

EDUCATION CODE

§ 15288. Criminal investigations and prosecutions

It is the intent of the Legislature that upon receipt of allegations of waste or misuse of bond funds authorized in this chapter, appropriate law enforcement officials shall expeditiously pursue the investigation and prosecution of any violation of law associated with the expenditure of those funds.

(Added by Stats.2000, c. 44 (A.B.1908), § 3.)

EDUCATION CODE

§ 15300. Formation of school facilities improvement districts

This chapter provides a method for the formation of school facilities improvement districts consisting of a portion of the territory within a school district or community college district and for the issuance of general obligation bonds by a school facilities improvement district.

(Added by Stats.1997, c. 893 (S.B.161), § 6.)

EDUCATION CODE

§ 15301. Eligibility to proceed under chapter; boundaries; eligibility exemptions; filing requirements

(a) Any school district or community college district that has a community facilities district formed pursuant to the Mello-Roos Community Facilities Act of 1982, as set forth in Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code, that has as one of its purposes the construction of school facilities within a portion of the territory of the school district or community college district, may proceed under this chapter.

(b) The boundaries of any school facilities improvement district formed pursuant to this chapter shall include all of the portion of the territory within the boundaries of the school district or community college district that is not located within the boundaries of the community facilities district as described in subdivision (a).

(c) A school district or community college district may proceed under this chapter without meeting the requirements of subdivisions (a) and (b) if the governing board of the school district or community college district determines that it is necessary and in the best interest of the school district or community college district, respectively, to form a school facilities improvement district pursuant to this chapter to finance any or all of the improvements set forth in Section 15302. As a part of that determination, the governing board of the school district or community college district shall make a finding that the overall cost of financing the bonds issued pursuant to this chapter would be less than the overall cost of other school facilities financing options available to the school district or community college district, including, but not limited to, issuing bonds pursuant to the Mello-Roos Communities Facilities Act of 1982 (Ch. 2.5 (commencing with Sec. 53311), Pt. 1, Div. 2, Title 5, Gov. C.). The governing board of the school district or community college district proceeding under this subdivision shall define the boundaries of the school facilities improvement district to include any portion of territory within the jurisdiction of the school district or community college district, except that the boundaries may not include all or a portion of the territory of the community facilities district described in subdivision (a).

(d) The governing body of a school district or community college district that proceeds under this chapter shall comply with the filing requirements established by Section 54902 of the Government Code. Any plat or map that is filed pursuant to this subdivision shall specifically identify any property, located within the school district or community college district, that is not located within the improvement district established by the school district or community college district pursuant to this chapter.

(Added by Stats.1994, c. 1005 (A.B.3747), § 1. Amended by Stats.1996, c. 1072 (S.B.1544), § 2; Stats.1997, c. 17 (S.B.947), § 20; Stats.1997, c. 940 (S.B.1105), § 1.)

EDUCATION CODE

§ 15302. Issuance of bonds; purposes

General obligation bonds of the school facilities improvement district may be issued for the following purposes, if the purpose of the bonds is to benefit the land within the school facilities improvement district consistent with any of the following:

- (a) To purchase real property upon which to construct school facilities.
 - (b) To build or purchase school facilities.
 - (c) To make alterations or additions to the school facilities other than those necessary for ordinary maintenance, operation, or repairs.
 - (d) To repair, restore, or rebuild any school facilities damaged, injured, or destroyed by fire or other public calamity.
 - (e) To supply playgrounds with furniture, equipment, or necessary apparatus of a permanent nature.
 - (f) To permanently improve school grounds.
 - (g) To refund any valid outstanding indebtedness of the school facilities improvement district that is evidenced by bonds.
 - (h) To carry out the projects or purposes authorized in Section 39613.
 - (i) To demolish or raze any school building with the intent to replace it with another school building, whether in the same location or in any other location.
- (Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

EDUCATION CODE

§ 15303. Adoption of chapter by resolution

This chapter shall not be operative in any county or counties until the board of supervisors of either the county in which the county superintendent of schools having jurisdiction over the school district or community college district in which the school facilities improvement district is located or, if a school facilities improvement district lies in two or more counties, the board of supervisors for those counties, by resolution adopted by a majority vote of the board of supervisors, makes this chapter applicable in the county or counties.

(Added by Stats.1997, c. 893 (S.B.161), § 10.)

§ 15320. Resolution of intention; necessity of school facilities improvement district

Whenever the governing board of a school district or community college district meeting the requirements set forth in Section 15301 determines that a school facilities improvement district is necessary, the governing board shall adopt a resolution of intention that states all of the following:

(a) The intention of the governing board to form the proposed school facilities improvement district.

(b) The purpose for which the proposed school facilities improvement district is to be formed, consistent with the requirements set forth in Section 15302.

(c) The estimated cost of the school facilities improvement project.

(d) That any taxes levied for the purpose of financing the general obligation bonds issued to finance the project shall be levied exclusively upon the lands in the proposed school facilities improvement district.

(e) That a map showing the exterior boundaries of the proposed school facilities improvement district is on file with the governing board of the school district or community college district and is available for inspection by the public. The boundaries of the school facilities improvement district shall meet the requirements set forth in subdivision (b) of Section 15301.

(f) The time and place for a hearing by the governing board on the formation of the proposed school facilities improvement district.

(h)¹ That any interested persons, including all persons owning lands in the school district or community college district, or in the proposed school facilities improvement district, may appear and be heard.

(Added by Stats.1997, c. 893 (S.B.161), § 12.)

EDUCATION CODE

§ 15321. Notice of hearing

Notice of the hearing shall be given by publishing a copy of the resolution of intention in a newspaper of general circulation published in each affected county, pursuant to Section 6066 of the Government Code, the first publication shall be at least 14 days prior to the time fixed for the hearing. The notice shall also be given by posting a copy of the resolution in three public places located within the proposed school facilities improvement district for at least 14 days prior to the time fixed for the hearing. No notice other than that required by this section need be given.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

EDUCATION CODE

§ 15322. Hearing on resolution of intention

The governing board of the school district or community college district shall hold the hearing provided for by resolution of intention at the time and place fixed by that resolution. Any interested person, including, but not limited to, all persons owning land in the school district, or in the proposed school facilities improvement district or community college district, may appear and be heard concerning any matters set forth in the resolution of intention.

(Added by Stats.1997, c. 893 (S.B.161), § 14.)

EDUCATION CODE

§ 15323. Adoption of resolution proposing modifications

At the hearing, the governing board of the school district or community college district may adopt a resolution proposing modifications, consistent with Section 15302, of the purpose stated in the resolution of intention. A resolution proposing modification shall describe the proposed modifications, state the change, if any, in the estimated cost of carrying out the purpose, and shall fix a time and place for hearing by the governing board.

(Added by Stats.1997, c. 893 (S.B.161), § 16.)

EDUCATION CODE

§ 15324. Publication of resolution proposing modifications

The governing board of the school district or community college district shall publish the resolution proposing the modifications to the resolution of intention once in the same newspaper in which the resolution of intention was published at least 14 days prior to the date of hearing on the proposed modifications.

(Added by Stats.1997, c. 893 (S.B.161), § 18.)

EDUCATION CODE

§ 15325. Hearing on proposed modifications

The hearing on any proposed modifications may be held at the same time and place as any continued hearing on the resolution of intention and both hearings may be held and conducted concurrently.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

EDUCATION CODE

§ 15326. Order to form school facilities district; estimated cost; designation

At the conclusion of the hearing on the resolution of intention and of the hearing, if any, upon proposed modifications, the governing board may by resolution order the school facilities improvement district formed for the purpose and with the boundaries described in the resolution of intention, and, if relevant, the resolution proposing modifications. The resolution ordering the school facilities improvement district formed shall state the estimated cost of carrying out the purpose described in the resolution. The resolution shall also number and designate the school facilities improvement district substantially as "School Facilities Improvement District of the _____ School District" or "School Facilities Improvement District of the _____ Community College District."

(Added by Stats.1997, c. 893 (S.B.161), § 20.)

EDUCATION CODE

§ 15327. Governing board; rights, powers and duties regarding formation

The governing board of the school district or community college district in which a school facilities improvement district has been formed shall have the same rights, powers, duties and responsibilities with respect to the formation and government of school facilities improvement district as the governing board has with respect to the school district or community college district.

(Added by Stats.1997, c. 893 (S.B.161), § 22.)

EDUCATION CODE

§ 15330. Amount of bonds; limitation; calculation of taxable property

The total amount of bonds issued shall not exceed 1.25 percent of the taxable property of the school facilities improvement district as shown by the last equalized assessment of the county or counties in which the school facilities improvement district is located. For purposes of this section, the taxable property of a school facilities improvement district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property located within the school facilities improvement district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property located within the school facilities improvement district for the fiscal year by the gross assessed value of all unitary and operating nonunitary property located within the county in which the school facilities improvement district is located for the fiscal year, and multiplying that result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll. (Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

EDUCATION CODE

§ 15331. Taxable property determination; assessed value not reduced

Notwithstanding any other law, for the purpose of computing the limit on the amount of bonds that may be issued by a school facilities improvement district pursuant to the provisions of this chapter, the taxable property of the school facilities improvement district shall be determined upon the basis that the school facilities improvement district's assessed value has not been reduced by the exemption of the assessed value of business inventories in the school facilities improvement district or reduced by the homeowner's property tax exemption.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15332. Location of school facilities improvement district in unified school district; amount of bonds; limitation; outstanding bonded indebtedness; calculation of taxable property

Notwithstanding Section 15330, any school facilities improvement district that is located within the boundaries of a unified school district may issue bonds not to exceed 2.5 percent of the taxable property of the school facilities improvement district as shown by the last equalized assessment of the county or counties in which the school facilities improvement district is located.

In computing the outstanding bonded indebtedness of any school facilities improvement district that is located in any unified school district, any outstanding bonds shall be deemed to have been issued for elementary school purposes, high school purposes, respectively, in the respective amounts that the proceeds of the sale of those outstanding bonds, excluding any premium and accrued interest received on that sale, were or have been allocated by the governing board of the unified school district to each of those purposes respectively.

For purposes of this section, the taxable property of a school facilities improvement district for any fiscal year shall be calculated to include, but not be limited to, the assessed value of all unitary and operating nonunitary property located within the school facilities improvement district, which shall be derived by dividing the gross assessed value of the unitary and operating nonunitary property located within the district for the fiscal year by the gross assessed value of all unitary and operating nonunitary property located within the county in which the district is located for the fiscal year, and multiplying the result by the gross assessed value of all unitary and operating nonunitary property of the county on the last equalized assessment roll.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15333. Bonding district; limitation of indebtedness; computation

In computing the limitation of indebtedness of any school facilities improvement district, hereinafter in this section referred to as the "bonding district," the outstanding indebtedness of any previously existing district all or any part of which forms a component part of the bonding district and the outstanding indebtedness of any district for which any territory that has become a part of the bonding district is liable shall be excluded and shall not be deemed, for the purposes of computing the limitation of indebtedness under Sections 15330 and 15332, to constitute outstanding indebtedness of the bonding district, except to the extent that the outstanding indebtedness has been expressly assumed by the bonding district by vote of not less than two-thirds of the electors of the bonding district voting at an election at which the proposition of assuming the indebtedness is voted upon. Nothing in this section shall operate to release any property from liability for taxes to pay the principal and interest of indebtedness incurred by any component district or for which any territory that has become a part of the bonding district is liable and in which the taxable property is located at the time of the incurring of the indebtedness. It is the intent of the Legislature to provide in this section a special method of computing the limitation of indebtedness of school facilities improvement districts irrespective of liability of the area embraced within the school districts for the payment of any bonded indebtedness.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15334. Limitation of indebtedness; computation; bonded indebtedness of other districts or territories excluded

For the purpose of determining the limitation of indebtedness of a school facilities improvement district under Section 15330 or 15332, that portion of the bonded indebtedness of the school facilities improvement district for which another district or territory in another district is liable shall be excluded and shall not be deemed to constitute outstanding bonded indebtedness of the school facilities improvement district.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15334.5. Bonded indebtedness; restriction

Notwithstanding any other provision of law, no bonded indebtedness may be incurred pursuant to this chapter in an amount that would cause the bonded indebtedness of the territory of the school district or community college district of which the school facilities improvement district is a part, to exceed the limitation of indebtedness specified in Sections 15102 and 15106. No bonded indebtedness may be incurred pursuant to this chapter in an amount that would cause the bonded indebtedness of the territory of the school facilities improvement district to exceed the limitation of indebtedness specified in Sections 15330 and 15332.

(Added by Stats.1997, c. 893 (S.B.161), § 24.)

EDUCATION CODE

§ 15335. Validity of bonds; improvements or acquisitions ordered; actions commenced

An action to determine the validity of bonds and of the ordering of the improvement or acquisition may be commenced pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure. In the action, all findings, conclusions and determinations of the legislative body that conducted the proceedings shall be conclusive in the absence of actual fraud.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15336. Report on election; contents

Within 30 days after the end of each fiscal year, the governing board of the school district or community college district in which the school facilities improvement district is located shall submit a report containing the information to an election held pursuant to Article 4 (commencing with Section 15340), to the county superintendent of schools who has jurisdiction over the school district or community college district:

(a) The total amount of the bond issue, bonded indebtedness, or other indebtedness involved.

(b) The percentage of qualified electors who are residents of the school facilities improvement district who voted at the election.

(c) The results of the election, with the percentage of votes cast for and against the proposition involved.

(Added by Stats.1997, c. 893 (S.B.161), § 26.)

§ 15340. Special bond election or proposition; indebtedness and bonds; taxes

(a) After adopting the resolution ordering the formation of the school facilities improvement district, the governing board may provide for and call a special bond election within the school facilities improvement district to, or may at the next statewide election, submit to the voters of the school facilities improvement district a proposition of whether or not an indebtedness of the district shall be incurred and bonds issued therefor in an amount not exceeding the estimate stated in the resolution ordering the school facilities improvement district formed. * * *

(b) The indebtedness and the bonds shall be payable from taxes to be levied and collected upon lands located within the school facilities improvement district.

(Amended by Stats.2002, c. 199 (A.B.698), § 2.)

§ 15341. Date of election

Notwithstanding any other law, an election may not be held pursuant to this chapter within 45 days before a statewide election or within 45 days after a statewide election unless conducted at the same time as the statewide election, subject to Part 3 (commencing with Section 10400) of Division 10 of the Elections Code, or on an established election date pursuant to Section 1000 of the Elections Code. (Added by Stats.2002, c. 199 (A.B.693), § 3.)

EDUCATION CODE

§ 15342. Voting on purposes; single proposition

Any one or more of the purposes enumerated in Section 15302, except that of refunding any outstanding valid indebtedness of the school facilities improvement district evidenced by bonds, may, by order of the governing board of the school district or community college district in which the school facilities improvement district is located, be united and voted upon in a single proposition.

(Added by Stats.1997, c. 893 (S.B.161), § 28.)

EDUCATION CODE

§ 15343. Election procedures

The election shall be conducted as provided in Chapter 3 (commencing with Section 5300) of Part 4 except as provided by each of the following:

- (a) As otherwise provided in this chapter.
- (b) That the formal notice of the election shall contain and specify, in addition to the items specified in Section 5361:
 - (1) The purposes for which the bonds are to be issued.
 - (2) The amount of the bonds.
 - (3) The maximum rate of interest, not to exceed the maximum rate of interest allowed by Article 5 (commencing with Section 15350).
 - (4) The maximum number of years, not to exceed 25, not to exceed which the bonds or any series thereof are to run.
- (c) No election shall be held under the provisions of this section in any school facilities improvement district for a period of 90 days after an election in the same school facilities improvement district.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

EDUCATION CODE

§ 15344. Consolidated elections

Any election called pursuant to this chapter may be consolidated with any other election pursuant to the provisions of Part 2.5 (commencing with Section 23300) of Division 14 of the Elections Code.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15345. Qualified electors

Any qualified elector who is a resident of the territory of the school facilities improvement district may vote on the proposition of issuing bonds of the school facilities improvement district.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15346. Ballots; proposition statement

The words to appear upon the ballots shall be "Bonds—Yes" and "Bonds—No," or words of similar import. A brief statement of the proposition, setting forth the amount of the bonds to be voted upon, the maximum rate of interest, and the purposes for which the proceeds of the sale of the bonds are to be used, shall be printed upon the ballot. No defect in the statement other than in the statement of the amount of the bonds to be authorized shall invalidate the bonds election.

(Added by Stats.1996, c. 277 (S.B.1562); § 2, operative Jan. 1, 1998.)

§ 15347. Ballots; form and details

Unless otherwise specified in this chapter, the form and details of all ballots at school facilities improvement elections shall comply with ballot provisions of Part 4 (commencing with Section 2400) of the Government Code.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

EDUCATION CODE

§ 15348. Approval of proposition

(a) The proposition shall be deemed approved upon approval by two-thirds of the votes cast by voters voting on the proposition of issuing bonds of the school facilities improvement district unless subdivision (b) is applicable.

(b) Alternatively, for a governing board of a school district or community college district that proceeds pursuant to Chapter 1.5 (commencing with Section 15264) and subject to the requirements therein on behalf of a school facilities improvement district that is created by and under the exclusive authority of the school district or community college district, as specified in Section 15359.3, the proposition shall be deemed approved upon approval by 55 percent of the votes cast by voters voting on the proposition of issuing bonds of the school facilities improvement district.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998. Amended by Stats.2001, c. 132 (S.B.1129), § 5.)

§ 15349. Favorable vote; entry on minutes; certificate of election results

If it appears from the certificate of election results that two-thirds of the votes cast by the voters voting on the proposition of issuing bonds of the school facilities improvement district are in favor of issuing the bonds, the governing board of the school district or community college district in which the school facilities improvement district is located shall cause an entry of that fact to be made upon its minutes. The governing board of the school district or community college district shall then certify to the board of supervisors of the county whose superintendent of schools has jurisdiction over the school district or community college district, all proceedings had in the premises. The county superintendent of schools shall send a copy of the certificate of election results to the board of supervisors of the county.

(Added by Stats.1997, c. 893 (S.B.161), § 30.)

EDUCATION CODE

§ 15349.1. Authorization of bonds; proceedings; certification; issuance and sale

The proceedings relating to the authorization of bonds of a school facilities improvement district that is located within a joint school district of any type need be certified only to the board of supervisors of the county whose superintendent of schools has jurisdiction over the school district in which the school facilities improvement district exists. The board of supervisors may issue and sell the bonds and no action of the board of supervisors of any other county in which the school board is situated shall be required in connection with the issuance and sale of the bonds, and the bonds need not be signed by any officer of any other county.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

EDUCATION CODE

§ 15349.2. Errors, irregularities or omissions; effect on substantial rights of taxpayers; validity of election

No error, irregularity, or omission that does not affect the substantial rights of the taxpayers within the school facilities improvement district or the qualified electors voting at any election at which bonds of any school facilities improvement district are authorized to be issued shall invalidate the election or any bonds authorized by that election.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

EDUCATION CODE

§ 15350. Sale by board of supervisors; resolution

Bonds of a school facilities improvement district shall be offered for sale by the board of supervisors of the county in which the county superintendent of schools has jurisdiction over the school district or community college district in which the school facilities improvement district is located as soon as possible, when appropriate, following receipt of a resolution duly adopted by the governing board of that school district or community college district. The resolution shall prescribe the total amount of bonds to be sold. The resolution may also prescribe the maximum acceptable interest rate, not to exceed 8 percent, and the time or times when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds.

(Added by Stats.1997, c. 893 (S.B.161), § 32.)

§ 15351. Bonds offered for sale as a group; resolution; bids

When authorized by the governing board of the school district or community college district in which the school facilities improvement district is located, bonds of the school facilities improvement district may be offered for sale as a group by the board of supervisors of the county in which the county superintendent of schools has jurisdiction over the school district or community college district in which the school facilities improvement district is located, at a time determined by the board of supervisors following receipt of a resolution duly adopted by the governing board of that school district or community college district. The resolution shall prescribe the total amount of bonds to be sold. The resolution may also prescribe the maximum acceptable interest rate, not to exceed 8 percent, and the time or times when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds. Bidders shall be required to bid a lump-sum bid on all bonds as a group. If bids satisfactory to the governing board of each school district or community college district in which a school facilities improvement district is located are received, the bonds offered for sale shall be awarded to the bidder whose bid will result in the lowest net interest cost for the group or for the bonds of any district included within the group. Bonds shall be issued and sold in the name of each school facilities improvement district in the same manner as provided in this chapter.

(Added by Stats.1997, c. 893 (S.B.161), § 34.)

§ 15352. Issuance in name of school facilities improvement district; statement on interest coupons

The bonds shall be issued in the name of the school facilities improvement district and shall be designated "Bonds of the School Facilities Improvement District of the _____ School District" or "Bonds of the School Facilities Improvement District of the _____ Community College District" and each bond and all interest coupons shall state that the tax for the payment thereof shall be limited to annual taxes to be levied upon and collected from the lands within the school facilities improvement district.

(Added by Stats.1997, c. 893 (S.B.161), § 36.)

EDUCATION CODE

§ 15353. Bond denominations

The bonds shall be issued in the denomination or denominations as the board of supervisors of the county in which the county superintendent of schools has jurisdiction over the school district or community college district in which the school facilities improvement district is located may prescribe.

(Added by Stats.1997, c. 893 (S.B.161), § 38.)

§ 15354. Interest rate

The bonds shall not bear a rate of interest greater than 8 percent per annum, payable annually or semiannually.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

EDUCATION CODE

§ 15355. Term of bonds; restriction

The number of years the whole or any part of the bonds are to run shall not exceed 25 years, from the date of the bonds or the date of any series thereof.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15356. Form of bonds; entry upon minutes; signatures; preparation, sale and delivery expenses

(a)(1) The board of supervisors of the county in which the county superintendent of schools has jurisdiction over the school district or community college district in which the school facilities improvement district is located shall prescribe the form of the bonds by an order entered upon its minutes.

(2) The bonds shall be signed by the chairperson of the board of supervisors, or by any other member thereof as the board of supervisors shall, by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose, and also signed by the treasurer of the county, and shall be countersigned by the clerk of the board of supervisors or by a deputy of either of the officers. Unless the board of supervisors otherwise provides, all the signatures and countersignatures may be printed, lithographed, engraved, or otherwise mechanically reproduced except that one of the signatures or countersignatures to the bonds shall be manually affixed. Any signature may be affixed in accordance with the provisions of the Uniform Facsimile Signatures of Public Officials Act, Chapter 6 (commencing with Section 5500) of Title 1 of the Government Code.

(3) All expenses incurred for the preparation, sale, and delivery of the school facilities improvement bonds, including but not limited to, fees of an independent financial consultant, the publication of the official notice of sale of the bonds, the preparation, printing, and distribution of the official statement, the obtaining of a rating, the purchase of insurance insuring the prompt payment of interest and principal, the preparation of the certified copy of the transcript for the successful bidder, the printing of the bonds, and legal fees of independent bond counsel retained by the school facilities improvement district issuing the bonds are legal charges against the funds of the school facilities improvement district issuing the bonds and may be paid from the proceeds of sale of the bonds.

(b) Notwithstanding subdivision (a), the board of supervisors may, in its discretion, determine that all of the required signatures and countersignatures shall be by facsimiles, provided, however, that the bonds shall not be valid or become obligatory for any purpose until manually signed by an authenticating agent duly appointed by the board or its authorized designee.

(Added by Stats.1997, c. 893 (S.B.161), § 40.)

EDUCATION CODE

§ 15357. Funds; deposit of proceeds

The board of supervisors shall establish within the county treasury a school facilities improvement fund for each school facilities improvement district the purpose of depositing the proceeds of the bonds issued pursuant to this chapter. The board of supervisors shall also establish within the county treasury a school facilities improvement bond interest and sinking fund for each school facilities improvement district.

(Added by Stats.1997, c. 893 (S.B.161), § 42.)

§ 15358. Interest and sinking funds; payment of bonds; negotiated sale or competitive bidding; sale deadline; deposit of proceeds

(a) The bonds shall be issued by the board of supervisors, payable out of the interest and sinking fund of the school facilities improvement district. The board of supervisors, in its discretion, and without further authorization from the governing board of the school district or community college district in which the school facilities improvement district is located, may sell the bonds at a negotiated sale or by competitive bidding. The bonds may be sold at a discount not to exceed 5 percent and at an interest rate not exceeding the maximum permitted by Section 15354. If the sale is by competitive bid, the board of supervisors shall comply with the provisions of Sections 15359 and 15359.1. The bonds shall be sold by the board of supervisors no later than the date designated by the governing board of the school district or community college district in which the school facilities improvement district is located as the final date for the sale of the bonds.

(b) The proceeds of the sale of the bonds, exclusive of any premium received, shall be deposited in the county treasury to the credit of the school facilities improvement fund of the school facilities improvement district. The proceeds deposited shall be drawn out as necessary to finance the purposes approved by the voters pursuant to this chapter. The bond proceeds withdrawn shall not be applied to any other purposes than those for which the bonds were issued. Any premium or accrued interest received from the sale of the bonds shall be deposited in the interest and sinking fund of the county treasury established for the school facilities improvement district.

(Added by Stats.1997, c. 893 (S.B.161), § 44.)

EDUCATION CODE

§ 15359. Advertisement for bids; newspapers

Before selling the bonds, or any part of them, the board of supervisors as appropriate, shall advertise for bids at least two weeks in some daily or weekly newspaper of general circulation published in the county whose county superintendent of schools has jurisdiction over the governing board of the school district or community college district in which the school facilities improvement district is located or if there is no newspaper published in the county, in a newspaper published in some other county in the state having a general circulation in the county.

(Added by Stats.1997, c. 893 (S.B.161), § 46.)

§ 15359.1. Successful bidder; certification; failure to receive acceptable bid; maximum acceptable interest rate

(a) If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder or bidders, and the * * * clerk of the board of supervisors shall prepare and certify to all of the proceedings on file in his or her office relative to the issuance and sale of the bonds, which transcript of proceedings shall be delivered to the successful bidder or bidders without charge. If no bids are received, or if the board determines that the bids received exceed either the maximum acceptable interest rate prescribed by the governing board or the maximum rate prescribed by Section 15353, or that they are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and without further authorization from the governing board of the school district or community college district in which the school facilities improvement district is located, either readvertise or sell the bonds at private sale.

(b) For the purpose of determining whether or not a bid exceeds the maximum acceptable interest rate, the interest rate of that bid shall be deemed to be the interest rate resulting from the total net interest cost arrived at by computing the total amount of interest that the school facilities improvement district would be required to pay from the date of the bonds to the respective maturity dates thereof at the rate or rates specified in the bid and by deducting therefrom any premium bid.

(Amended by Stats.2002, c. 221 (S.B.1019), § 11.)

§ 15359.2. Bond brochures; advertising; expenses

(a) The issuing school facilities improvement district, by action of the governing board of the school district or community college district in which the school facilities improvement district is located, may prepare, or have prepared, bond brochures to serve as a prospectus for bond buyers to assist in the satisfactory sale of the bonds, the expense of the brochures shall be payable out of the funds of the district. The brochures may be prepared only after the issuance of the bonds to be sold has been approved by the electors of the school facilities improvement district pursuant to Article 4 (commencing with Section 15340).

(b) The issuing school facilities improvement district by action of the governing board in which the school facilities improvement district is located may expend funds of the school facilities improvement district for the purposes of advertising the availability of the bonds for purchase in any publication or newspaper that in the opinion of that governing board will give notice to prospective bond buyers that the bonds are available for purchase by bond buyers.

(Added by Stats.1997, c. 893 (S.B.161), § 50.)

EDUCATION CODE

§ 15359.3. Authority of governing board of school or community college district to proceed on behalf of school facilities improvement district

The governing board of a school district or community college district may proceed pursuant to Chapter 1.5 (commencing with Section 15264) and subject to the requirements therein on behalf of a school facilities improvement district that is created by and under the exclusive authority of the school district or community college district under this chapter.

(Added by Stats.2001, c. 132 (S.B.1129), § 6.)

§ 15360. Coupon bonds; registered bonds

Notwithstanding any other provision of law, whenever any bonds are issued pursuant to this chapter, the bonds may be issued either in the form of coupon bonds, or in the form of registered bonds, or some in the form of coupon bonds and some in the form of registered bonds, as may be provided in the proceedings for the issuance of the bonds.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15361. Signatures, countersignatures or attestations; officer leaving office before delivery of bonds

If any officer whose signature, countersignature, or attestation appears on any school facilities improvement bonds or coupons ceases to be an officer before the delivery of the bonds to the purchaser, the signature, countersignature, or attestation either on the bonds or the coupons, or on both, is valid and sufficient for all purposes as if the officer had remained in office until the delivery of the bonds, and the signature upon the coupons of the person who is auditor at the date of the bonds, is valid although the bonds themselves may be attested by a different person who is auditor at the time of delivery of the bonds.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

EDUCATION CODE

§ 15362. Execution of bonds; validity

Any bonds executed in the manner provided by the board of supervisors shall be valid, notwithstanding any change in the officers who signed the bonds or the coupons, or in the seal of the board of supervisors, occurring after the execution.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15380. Unsold bonds; time period; petition for cancellation

If any bonds authorized under this chapter have not been offered for sale for one year from the date of the election at which they were authorized or remain unsold for a period of six months after having been offered for sale in the manner prescribed by the board of supervisors, the governing board of the school district or community college district in which the school facilities improvement district is located and for which the bonds were authorized, may petition the board of supervisors that has jurisdiction of the issuance and sale of the bonds to cause the unsold bonds to be canceled.

(Added by Stats.1997, c. 893 (S.B.161), § 52.)

§ 15381. Hearing upon receipt of petition

Upon receiving the petition, signed by a majority of the members of the governing board of the school district or community college district in which the school facilities improvement district is located, the board of supervisors shall fix a time for a hearing, which shall not be more than 30 days after receipt of the petition, and shall cause a notice stating the time and place of the hearing, and the object of the petition in general terms, to be published for 10 days prior to the hearing, in a newspaper published in the school facilities improvement district if there is one, and if there is no newspaper published in the school facilities improvement district, in a newspaper published at the county seat of the county.

(Added by Stats.1997, c. 893 (S.B.161), § 54.)

EDUCATION CODE

§ 15382. Hearing; reasons for or against cancellation

At the time and place designated in the notice, or at any subsequent time to which the hearing may be postponed, the board of supervisors shall hear any reasons that may be submitted for or against the granting of the petition.
(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15383. Best interests of school facilities improvement district; cancellation order; entry in minutes

If the board of supervisors deem it for the best interests of the school facilities improvement district named in the petition that the unsold bonds be canceled, it shall make and enter an order in the minutes of its proceedings that the unsold bonds be canceled. Upon the entry of the order the bonds and the vote by which they were authorized to be issued shall cease to be of any validity.
(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 15384. Governing board's petition for cancellation; remaining authorization to issue and sell bonds in district

The governing board of a school district or community college district in which a school facilities improvement district is located may petition the board of supervisors to cancel the remaining authorization of that district to issue and sell bonds resulting from any particular school bond election after the sale of at least 90 percent of the bonds authorized at the election if the amount of the remaining authorization is not more than twenty-five thousand dollars (\$25,000) and in the opinion of the governing board the sale of the remaining bonds would not be economically justified. Sections 15381 and 15382 shall be applicable and at or following the hearing therein provided for, the board of supervisors, if it determines that the public interest will be served thereby, may make and enter an order in the minutes of its proceedings that the remaining authorization be canceled. Upon the entry of the order, the vote by which the remaining authorization was created shall cease to be of any validity with respect to the remaining authorization.

(Added by Stats.1997, c. 893 (S.B.161), § 56.)

EDUCATION CODE

§ 15390. Open market purchases

The governing board of a school district or community college district in which a school facilities improvement district is located may purchase in the open market bonds issued by the school facilities improvement district with available funds from the school facilities improvement fund.

(Added by Stats.1997, c. 893 (S.B.161), § 58.)

§ 15391. Purchase and cancellation of bonds by school district; notice to board of supervisors; note in minutes

When any bonds issued by a school facilities improvement district have been purchased by the governing board of the school district or community college district in which the school facilities improvement district is located, the bonds shall be deemed canceled and of no further validity. The governing board of the school district or community college district in which the school facilities improvement district is located shall immediately, after purchasing the bonds, notify the board of supervisors of its action, describing the bonds purchased. At its first meeting thereafter, the board of supervisors shall note the purchase and cancellation of the bonds in the minutes of its proceedings.

(Added by Stats.1997, c. 893 (S.B.161), § 60.)

EDUCATION CODE

§ 15400. Payment date; issuance subject to call and redemption before maturity date; option; recital; notice

(a) The board of supervisors, by an order entered upon its minutes, shall fix the time when the whole or any part of the principal of the bonds shall be payable, which shall not be more than 25 years from the date of the bonds. If the governing board of the school district or community college district in which the school facilities improvement district is located has prescribed in its resolution the time or times when the whole or any part of the bonds shall be payable, the times and amounts shall be fixed by the order of the board of supervisors.

(b) Any bonds may be issued subject to call and redemption before maturity at the option of the governing board of the school district or community college district in which the school facilities improvement district exists. The governing board may include in its resolution a requirement that all or any part of the bonds shall be issued subject to call and redemption before maturity and the price or prices at which said bonds shall be redeemed. The board of supervisors, in its order fixing the form of the bonds and the maturities thereof, shall provide that the bonds be redeemable at the option of the governing board and at the price or prices fixed in the resolution. Bonds issued subject to call and redemption prior to maturity shall contain a recital to that effect, and no bond shall be subject to call or redemption prior to maturity unless it contains the recital. The board of supervisors in its order shall fix the method of giving notice of redemption to holders of bonds to be redeemed.

(Added by Stats.1997, c. 893 (S.B.161), § 62.)

§ 15401. Series; maturity dates; issuance authorized by multiple propositions

The board of supervisors, at the direction of the governing board of the school district or community college district in which the school facilities improvement district is located, may divide the principal amount of bonds authorized at any election into two or more series and may fix different dates for the bonds of each series, in which event the maximum maturity date of the bonds shall be calculated from the date of each series respectively. When the issuance of bonds shall have been authorized pursuant to two or more propositions submitted at the same or different elections, all or any part of the bonds not theretofore issued may be combined and issued and sold as one or more series.

(Added by Stats.1997, c. 893 (S.B.161), § 64.)

EDUCATION CODE

§ 15402. Place of payment

The board of supervisors may make the principal and interest of the bonds payable at the office of the treasurer of the county, or at any other place within the United States which the board may designate, or at the office of the county treasurer, or at any other designated place at the option of the bondholder. The place of payment shall be specified in the bonds. The expense of paying the bonds elsewhere than at the office of the treasurer shall be a proper charge against the school facilities improvement district to be paid out of the tax levied and collected for the payment of the bonds.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

EDUCATION CODE

§ 15403. Payment by county treasurer; place; presentation and surrender of warrants; procedures

The principal and interest on the bonds shall be paid by the county treasurer of the county in which the superintendent of schools has jurisdiction of the school district or community college district in which the school facilities improvement district is located, at the place required by the terms of the bonds, upon presentation and surrender of warrants drawn by the county auditor in payment thereof, after he or she has canceled the bonds and coupons, or upon the receipt of the registered owner, if the bonds are registered, after a proper warrant has been drawn by the auditor, out of the fund provided for their payment.

(Added by Stats.1997, c. 893 (S.B.161), § 66.)

EDUCATION CODE

§ 15404. Money remaining in interest and sinking fund after payment of bonds; transfer to general fund

Upon the order of the auditor, any money remaining in the interest and sinking fund of any school facilities improvement district after the payment of all bonds and coupons payable from the fund, or any money in excess of an amount sufficient to pay all unpaid bonds and coupons payable from the fund, shall be transferred to the general fund of the governing board of the school district or community college district in which the school facilities improvement district is located.

(Added by Stats.1997, c. 893 (S.B.161), § 68.)

EDUCATION CODE

**§ 15405. Money remaining in county treasury after payment of bonds;
transfer to special reserve fund of school district**

Any money paid into the county treasury of the county and credited to the interest and sinking fund of any school facilities improvement district remaining after the payment of all bonds and coupons payable from the fund, or which is in excess of an amount sufficient to pay all unpaid bonds and coupons payable from the fund, shall be transferred to the special reserve fund of the school district or community college district in which the school facilities improvement district is located and may be used only for the purpose specified in Section 42840.

(Added by Stats.1997, c. 893 (S.B.161), § 70.)

§ 15425. Taxes in excess of annual special tax rate; legislative intent; evidence of compliance

Notwithstanding any other provision of this chapter, it is the intent of the Legislature that the rate of taxes levied annually upon the property in a school facilities improvement district formed pursuant to subdivision (a) of Section 15301 not be greater than the rate of the annual special tax levied upon parcels in the same school district or community college district that are part of a community facilities district formed pursuant to the Mello-Roos Community Facilities Act of 1982, as set forth in Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code. A determination by the governing board of a school district or community college district, made at the time bonds are sold pursuant to this chapter, that the rate of taxes to be levied annually upon the property in the school facilities improvement district, based upon tax rate estimates prepared pursuant to Section 9401 of the Elections Code, does not exceed the rate of the annual special tax levied upon parcels in the same school district or community college district that are part of a community facilities district formed pursuant to the Mello-Roos Community Facilities Act of 1982, shall be conclusive evidence of compliance with the intent of this section.

(Added by Stats.1997, c. 893 (S.B.161), § 80.)

§ 17000. Short title

This chapter may be cited as the "Leroy F. Greene State School Building Lease-Purchase Law of 1976."

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17001. Legislative declaration; allocation of funds for reconstruction of nonconforming buildings; legislative intent

(a) The Legislature hereby declares that it is in the interest of the state and the people thereof for the state to reconstruct, remodel, or replace existing school buildings that are educationally inadequate or that do not meet present-day structural safety requirements, and to acquire new schoolsites and buildings for the purpose of making them available to local school districts for the pupils of the public school system, that system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

(b) In order to expedite the elimination of the use of nonconforming school buildings that are used or designed to be used for instructional purposes or intended to be entered by pupils, the State Allocation Board may establish criteria that considers special circumstances under which funds may be allocated for the reconstruction of nonconforming buildings. The funds allocated in accordance with this section shall not exceed 75 percent of the cost of facility replacement.

(c) It is the intent of the Legislature that all construction projects be designed and constructed to maximize the use of educational technology, as set forth in subdivision (b) of Section 17002.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17002. Definitions

The following terms wherever used or referred to in this chapter, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) "Board" means the State Allocation Board.

(b) "Cost of project" includes, but is not limited to, the cost of all real estate property rights, and easements acquired, and the cost of developing the site and streets and utilities immediately adjacent thereto, the cost of construction, reconstruction, or modernization of buildings and the furnishing and equipping, including the purchase of educational technology hardware, of those buildings, the supporting wiring and cabling, and the technological modernization of existing buildings to support that hardware, the cost of plans, specifications, surveys, and estimates of costs, and other expenses that are necessary or incidental to the financing of the project. For purposes of this section, "educational technology hardware" includes, but is not limited to, computers, telephones, televisions, and video cassette recorders.

(c) The term "lease" includes a lease with an option to purchase.

(d) "Project" means the facility being constructed or acquired by the state for rental to the applicant school district and may include the reconstruction or modernization of existing buildings, construction of new buildings, the grading and development of sites, acquisition of sites therefor and any easements or rights-of-way pertinent thereto or necessary for its full use including the development of streets and utilities.

(e) "Property" includes all property, real, personal or mixed, tangible or intangible; or any interest therein necessary or desirable for carrying out the purposes of this chapter.

(f) "Apportionment" means a reservation of funds necessary to finance the cost of any project approved by the board for lease to an applicant school district.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17002.1. Construction defined; funding approval of deferred maintenance activities

As used in this chapter, construction shall include, but not be limited to, reconstruction, modernization, and replacement of facilities, and the performance of deferred maintenance activities on facilities pursuant to rules and regulations regarding those activities as may be adopted by the board. Funding for deferred maintenance activities for a facility may be approved under this chapter without regard to whether project funding for the reconstruction, modernization, or replacement of the facility is prohibited under Section 17021.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17005.1. Funding approval for deferred maintenance activities

On or before June 30, 1981, and on or before June 30 of each year thereafter, the board shall approve a plan specifying (a) the amount of funds to be allocated in the forthcoming fiscal year for the purposes of deferred maintenance activities and (b) the manner in which such funds shall be allocated to applicant districts.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17005.3. Loans to small school districts; first or second phase project activities; repayment; maximum amounts; eligibility

(a) Any school district with an average daily attendance of less than 2,501 pupils may apply to the board for a loan to cover the project activities of the first or second phase, as those phases were defined on July 1, 1993, of a project funded under this chapter. The loan shall not be utilized for the purchase of real property and shall be repaid by the school district either through a dedication of fees or charges levied pursuant to Section 17620 until the loan is repaid or upon receiving the project funding at the construction phase, but, in any event, the loan shall be repaid within five years from the date on which the board makes the loan. In addition to the other methods of repayment specified in this subdivision, the board may also notify the Controller if a school district is 90 days late in making loan repayments, in which case the Controller shall reduce the apportionments to which the school district is otherwise entitled under Section 42238 as necessary to recover past due payments and any current payments.

(b) The board may make loans under this section to the extent that the board determines that funds are available for that purpose. The total annual maximum funds that may be loaned under this section is ten million dollars (\$10,000,000) per fiscal year.

(c) The board may make loans under this section only for those projects and phases that have met all of the eligibility standards of the board and receive approval for an apportionment, but for which apportionment funds are not available. In any event, the amount of the loan shall not exceed the amount that would have been eligible for apportionment.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17005.5. School district loans; bond sales; conditions

The board may provide a loan to any school district from the proceeds of the sale of bonds pursuant to the School Facilities Bond Act of 1992, and the 1992 School Facilities Bond Act, to provide aid for school districts in accordance with this chapter, when those proceeds are available in the State School Building Lease-Purchase Fund. In order to provide a loan, both of the following conditions shall be met:

- (a) The amount of the loan shall not exceed the amount set forth in legislation enacted that specifies the loan amount.
- (b) The loan shall be repaid pursuant to a schedule set forth in legislation enacted that specifies a loan repayment schedule.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17006. Lease and application for replacing inadequate school facilities; necessary conditions; investigation and finding; documentation; audit

(a) The board shall not enter into any lease with respect to an application for replacing inadequate school facilities unless it first has investigated and made a finding, or the governing board of a self-certifying district, as applicable, first certifies that it has investigated and made a finding, consistent with guidelines adopted by the board, that one or both of the following conditions exists:

(1) It would not be economical or good practice to rehabilitate those facilities.

(2) The school facilities are inadequate due to their susceptibility to repeated flooding. The board shall develop and adopt regulations that define inadequacy of school facilities on the basis of susceptibility to repeated flooding. The building area of any facility found to be inadequate pursuant to this subdivision shall be excluded, for the purposes of any application for the replacement of any facility, from the calculation under this chapter of the area of adequate school construction existing in the applicant school district.

(b) The self-certifying district shall maintain documentation of each investigation and finding it conducts pursuant to subdivision (a) as may be required by the board, and the investigation and finding shall be subject to subsequent audit as the board may direct.

(c) For purposes of this chapter, a "self-certifying district" as to any project to be funded under this chapter, is an applicant district that provides 50 percent or more of the cost of the project from funding sources other than any state program administered by the board.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17008. State School Building Lease-Purchase Fund

A fund is hereby created in the State Treasury to be known as the State School Building Lease-Purchase Fund. All money in the State School Building Lease-Purchase Fund, including any money deposited in that fund from any source whatsoever, and notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated for expenditure pursuant to this chapter.

The State Allocation Board may apportion funds to school districts for the purposes of this chapter from funds transferred to the State School Building Lease-Purchase Fund from any source.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17008.3. Revolving loan account; advance planning loans

(a) The board may establish a revolving loan account within the State School Building Lease-Purchase Fund, and may allocate from the fund to that account those amounts it determines to be necessary for the purposes of this section.

(b) The board may apportion to any school district that submits to the board a statement of its intent to subsequently file a project application under this chapter, a loan for the purpose of advance planning and related administrative costs pursuant to the preparation of that application. The loan amount shall not exceed 3 percent of the estimated project cost, as determined pursuant to the building cost standards established under this chapter.

(c) If, within a period of 24 months following the receipt of any loan amounts under this section, the project for which those advance planning funds were provided has not been found by the board to be qualified for funding under this chapter, the board shall so notify the Controller, who shall reduce the apportionments to which the district is otherwise entitled under Section 42238 as necessary to repay the amount of all loans provided under this section, over such period of time as the board finds to be reasonable. The Controller shall transfer the amount of all apportionment reductions imposed under this subdivision to the revolving loan account established under this section.

(d) The repayment of loan amounts received under this section by school districts other than those described under subdivision (c) shall be accomplished by the withholding, as determined by the board, of apportionment funds that would be available to the district for purposes of the project for which the district received funding approval under this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17008.5. State school building lease-purchase fund; approval of projects and apportionments; disbursements

The board may approve projects and make apportionments in amounts not exceeding those funds on deposit in the State School Building Lease-Purchase Fund plus any amount of bonds authorized by the State School Building Finance Committee but not yet sold by the Treasurer.

Disbursements may be made under any apportionment made from any funds in the State School Building Lease-Purchase Fund, irrespective of whether there exists at the time of the disbursement a sufficient amount in the State School Building Lease-Purchase Fund to permit payment in full of all apportionments previously made. However, no disbursement shall be made from any funds required by law to be transferred to the General Fund.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17009. Eligibility to receive funds from state bond sales; housing facilities; severely handicapped special education students

(a) The county superintendent of schools or county office of education shall be eligible to receive any funds from the portion of the proceeds of the sale of any state bonds that are set aside for the construction, reconstruction, or modernization of, or deferred maintenance on facilities to house special education pupils who are defined as severely handicapped and eligible pursuant to Section 17047.

(b) Subdivision (a) is only applicable if the county superintendent of schools or county office of education has filed with the State Allocation Board a regionalized facility plan, as developed and approved by the State Department of Education, that covers the county or special education local planning agency area of responsibility.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17009.3. Approval of construction projects

The board may not approve any projects pursuant to this chapter on and after November 4, 1998.

(Added by Stats.1998, c. 407 (S.B.50), § 2, eff. Aug. 27, 1998.)

§ 17009.5. Approval and funding of school facilities construction projects; applicable provisions

(a) Except as set forth in Section 17052, on and after November 4, 1998, the board shall only approve and fund school facilities construction projects pursuant to Chapter 12.5 (commencing with Section 17070.10).

(b) A school district with a first priority project that has received a construction approval by the Department of General Services, Division of the State Architect, or a joint-use project approval by the board, prior to November 4, 1998, for growth or modernization pursuant to this chapter shall receive funding pursuant to this chapter for all unfunded approved project costs as it would have received under this chapter, and the increased capacity assigned to the project shall be included in calculating the district's capacity pursuant to Chapter 12.5 (commencing with Section 17070.10). Funds received for projects described in this subdivision shall constitute the state's final and full contribution to these projects. The board shall not consider additional project funding except when otherwise authorized under Chapter 12.5 (commencing with Section 17070.10).

(c) A school district with a second priority project that has received a construction approval by the Department of General Services, Division of the State Architect prior to November 4, 1998, for growth or modernization pursuant to this chapter shall elect to do either of the following:

(1) Withdraw the application under this chapter, submit an initial report and application pursuant to Chapter 12.5 (commencing with Section 17070.10), and receive per pupil allocations as set forth in Chapter 12.5 (commencing with Section 17070.10). If the district withdraws the application, any funds previously allocated under this chapter for the project shall be offset from the first grant to the district under Chapter 12.5 (commencing with Section 17070.10).

(2) Convert the second priority project approved under this chapter to a first priority status and receive funds in accordance with this chapter.

(d) Notwithstanding priorities established pursuant to Chapter 12.5 (commencing with Section 17070.10), projects authorized for funding as set forth in this section shall be funded by the board pursuant to this chapter prior to funding other projects pursuant to Chapter 12.5 (commencing with Section 17070.10).

(e) For purposes of funding priority for modernization grants under Chapter 12.5 (commencing with Section 17070.10), a district that applies under subdivision (b) or paragraph (1) of subdivision (c) shall retain its original project approval date.

(f) Notwithstanding Section 17017.1, West Contra Costa Unified School District shall be eligible for state facilities funds beginning November 4, 1998.

(g) The State Allocation Board shall adopt regulations to ensure that an appropriate offset is made from funds approved pursuant to this chapter, for funds awarded to school districts pursuant to Chapter 12 (commencing with Section 17000) prior to November 4, 1998.

(Added by Stats.1998, c. 407 (S.B.50), § 3, eff. Aug. 27, 1998, operative Nov. 4, 1998. Amended by Stats.1999, c. 858 (A.B.695), § 3; Stats.2000, c. 753 (S.B.1795), § 1.)

§ 17010. Authority to construct any project

The board may construct any project, and may acquire all property necessary therefor, on any terms and conditions as it may deem advisable. When any part of the work is to be done or performed by any public body or the United States jointly or in conjunction with the board, the portion of the cost of the project to be borne by the board may be turned over to the government of the United States or to any other public body, to be expended by it in the acquisition, construction or completion of the project.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17011. Permissible sources of funds

The board may use for the payment of the costs of acquisition, construction or completion of any project any funds made available to the board by the State of California or any other funds provided by the board from any source, to be expended for accomplishing the purposes set forth in this chapter, together with the proceeds of bonds issued and sold pursuant to the State School Building Lease-Purchase Bond Law of 1976.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17012. Board's authority over projects

The board has full charge of the acquisition, construction, completion, and control of all projects authorized by them and may proceed with such work forthwith.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17013. Title of property in state; exemption from taxation

Title to all property acquired, constructed, or improved by the board and the revenues and income therefrom, is in the State of California. All such property, and the income therefrom are exempt from all taxation by the State of California or by any county, city and county, city, district, political subdivision or public corporation thereof.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17014. Necessary repairs, renewals and replacements; enforcement; plan preparation certification

(a) The board shall require the school district to make all necessary repairs, renewals, and replacements to ensure that a project is at all times kept in good repair, working order, and condition. All costs incurred for this purpose shall be borne by the school district.

(b) In order to ensure compliance with subdivision (a) and encourage applicants to maintain all buildings under their control, the board shall require the applicant to do all of the following prior to the approval of a project:

(1) Establish a restricted account within the district's general fund for the exclusive purpose of providing moneys for regular maintenance and routine repair of school buildings, according the highest priority to funding for the purpose set forth in subdivision (a).

(2) Agree to deposit into the account established pursuant to paragraph (1), in each fiscal year for the term of the lease agreements of all projects constructed under this chapter, a minimum amount equal to or greater than 2 percent of the applicant's General Fund budget for that fiscal year. This paragraph is applicable only to the following districts:

(A) High school districts with average daily attendance greater than 300.

(B) Elementary school districts with average daily attendance greater than 900.

(C) Unified school districts with average daily attendance greater than 1,200.

(c) For each project funded after July 1, 1998, the board shall require the applicant school district governing board to certify, as part of the school district's annual budget process and beginning in the fiscal year in which the project is funded by the state, that a plan has been prepared for completing major maintenance, repair, and replacement requirements for the project. For purposes of this subdivision, the term "major maintenance, repair, and replacement" means roofing, siding, painting, floor and window coverings, fixtures, cabinets, heating and cooling systems, landscaping, fences, and other items designated by the governing board of the school district. The board shall require the school district's governing board to certify that the plan includes and is being implemented as follows:

(1) Identification of the major maintenance, repair, and replacement needs for the project.

(2) Specification of a schedule for completing the major maintenance, repair, and replacement needs.

(3) Specification of a current cost estimate for the scheduled major maintenance, repair, and replacement needs.

(4) Specification of the school district's schedule for funding a reserve to pay for the scheduled major maintenance, repair, and replacement needs.

(5) Review of the plan annually, as a part of the school district's annual budget process, and update, as needed, the major maintenance, repair, and replacement needs, the estimates of expected costs, and any adjustments in funding the reserve.

(6) Availability for public inspection of the original plan, and all updated versions of the plan, at the office of the superintendent of the school district during the working hours of the school district.

(7) Provision in the school district's annual budget of a provision that states the total funding available in reserve for scheduled major maintenance, repair and replacement needs as specified in the updated plan, and an explanation if this amount is less than that specified in the updated plan. The reserve shall be maintained in the restricted account established pursuant to subdivision (b).

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998. Amended by Stats.1997, c. 513 (A.B.553), § 1.)

§ 17015. Projects insured against public liability and property damage

The board shall require the school district to insure against public liability or property damage in connection with any project.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17016. Projects and portable classrooms; priorities for acquisition, construction or leasing

(a) The board, by the adoption of rules, may establish priorities for the construction and leasing of projects to those school districts the pupils of which will benefit most. The board may make exceptions from established priorities when it determines that to do so will benefit the pupils affected.

(b) The board may adopt rules establishing priorities for the acquisition and leasing of portable classrooms to county superintendents of schools that will most benefit pupils needing a county community school. The board shall require each county superintendent of schools who leases portable classrooms pursuant to Section 17017.2 to demonstrate that the portable classrooms are utilized solely for operation of a county community school.

(Added by Stats.1997, c. 893 (S.B.161), § 83. Amended by Stats.1998, c. 485 (A.B. 2803), § 45.)

§ 17017. Application for project; costs

Each school district that desires to lease a project for a grade level maintained by it, shall submit through its governing board an application therefor to the board in the form and number of copies that the board may prescribe. Immediately upon receipt of an application in the prescribed form accompanied by the required estimate of cost, a copy thereof shall be transmitted by the board to the Director of General Services.

Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire construction project.

Before the board approves an application for a construction project, it shall establish cost standards for all new construction included therein. The cost standards shall not exceed typical comparable new construction by school districts in the same area, or if there has been no new construction by school districts in the area, the cost standards shall not exceed the reasonable current cost of similar construction in the area. The board shall determine such typical current costs or such reasonable current costs. In applying cost standards the board shall take into account the size and type of the construction proposed and may make any deviations that in its judgment are justified. When a standard has been set by the board to cover any individual apportionment, no project shall be approved by the board in excess of the standard, unless the board shall find that in view of a subsequent increase in building costs an adjustment is warranted. No contract shall be let for a construction project which has been approved by the board if the cost exceeds the construction cost standards fixed by the board under this section for the new construction. (Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17017.2. Portable classrooms; county community school programs

(a) The board may own, have maintained, and lease portable classrooms to any county superintendent of schools who provides a county community school program, as defined in Section 1986. These portable classrooms shall be adequately equipped to meet the educational needs of these pupils, including, but not limited to, sinks and restroom facilities.

(b) The board, with the advice of the Superintendent of Public Instruction, may have portable classrooms constructed, furnished, or equipped, and may otherwise require whatever work is necessary to place portable classrooms for county community schools where needed, including the acquisition and preparation of sites. The board shall, in consultation with the Superintendent of Public Instruction, establish standards for the acquisition of land, with land acquisition limited to no more than 10,000 square feet per portable classroom, waivable by the board only as needed to meet local zoning and land use requirements or health and safety considerations.

(c) A county superintendent of schools who desires to lease portable classrooms shall have prepared for the board's use performance specifications for portable classrooms and bids for their construction that can be solicited from more than one responsible bidder.

(d) No portable classroom shall be made available to a county superintendent of schools unless the county superintendent of schools furnishes evidence, satisfactory to the board, that the county superintendent of schools has no other facility available for rental, lease, or purchase in the geographic service area that is economically or otherwise feasible.

(e) If at any time the board determines that a lessee's need for particular portable classrooms that were made available to the lessee pursuant to this chapter has ceased, the board may take possession of the portable classrooms and may lease them to other county superintendents of schools or, if there is no longer a need for portable classrooms, the board may dispose of them to public or private parties in the manner it deems to be in the best interest of the state.

(f) This section does not limit the authority of a county superintendent of schools to provide facilities without assistance from the board for pupils who are enrolled in a county community school.

(Added by Stats.1997, c. 893 (S.B.161), § 84.)

§ 17017.5. Approval of applications; additional approvals; five-year plans; year-round educational program

(a) The board may approve, in whole or in part, an application submitted by a school district under Section 17017 or 17020 in an amount not exceeding the amount applied for as the board may deem appropriate.

(b) The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make apportionments of project funding not exceeding in the aggregate the total amount determined by the board under subdivision (a) for the portion or portions of the project for which the board determines the district is ready to proceed. Subsequent to the board's approval of a project, any requirement imposed by the board that the compliance of the project with building cost or area standards and related guidelines adopted by the board be established as a condition of the apportionment of funds under this chapter shall be satisfied, as to a project for a self-certifying district, by the certification by the district of that compliance. In addition, the board shall not require that estimates of average daily attendance be updated as to that project more often than once every 12 months subsequent to the board's approval of the project. The self-certifying district shall maintain documentation of the compliance certified pursuant to this subdivision as may be required by the board, and that compliance shall be subject to subsequent audit as the board may direct.

(c) Whenever a district files an application, the board shall require the district to submit to the board and the State Department of Education a five-year plan for construction and rehabilitation of school facilities, and to obtain the written approval of the department that the plan complies with standards that are established by the department for this purpose to ensure that the applicant district has adequately anticipated its school facilities needs and identified funding sources as necessary to meet those needs. The plan may be adjusted to reflect adjusted growth targets.

(d) The board shall not approve any application under this chapter after January 1, 1990, unless accompanied by a study examining the feasibility of implementing in the district a year-round multitrack educational program that is designed to increase pupil capacity in the district or in overcrowded high school attendance areas by at least 20 percent.

(e) The board may waive subdivision (d) or the requirements of Section 17017.7, or both, if a school district demonstrates that these requirements will result in a particular educational or financial hardship to the district. Further, the board shall waive subdivision (d), if it finds that there is clear hardship to a district due to declining enrollment or no growth.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17017.6. Substantial enrollment; application to high school districts

Notwithstanding Section 17017.7, the definition of "substantial enrollment" set forth in that section shall apply only to elementary and unified school districts. For a high school district, "substantial enrollment in multitrack year-round schools," for the purposes of Section 17017.7, means that at least 30 percent of the pupils enrolled in the high school district are enrolled in multitrack year-round schools, or that 40 percent of the pupils enrolled in public school in kindergarten and grades 1 to 12, inclusive, within the boundaries of the high school attendance area for which the school district is applying for new facilities are enrolled in multitrack year-round schools. In addition, a high school district shall be deemed to have a substantial enrollment in multitrack year-round schools for purposes of Section 17017.7 if, at the option of the district, the entire high school to be constructed is to operate on a multitrack year-round basis.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17017.7. Project funding for new construction; priority for approval

(a) Notwithstanding any other provision of this chapter, priority for the approval of project funding for new construction under this chapter, shall be as follows:

(1) First priority for construction funds shall be given to school districts with a substantial enrollment in multitrack year-round schools requesting state funding for 50 percent of the cost of a project that would be constructed to operate on a multitrack year-round basis.

(2) Second priority shall be for school districts with a substantial enrollment in multitrack year-round schools requesting state funding for the entire cost of a project that would be constructed to operate on a multitrack year-round basis.

(3) Third priority shall be for school districts without a substantial enrollment in multitrack year-round schools requesting state funding for 50 percent of the cost of a project to operate on a multitrack year-round basis.

(4) Fourth priority shall be for school districts without a substantial enrollment in multitrack year-round schools requesting state funding for the entire cost of a project that would be constructed to operate on a multitrack year-round basis.

(5) Fifth priority shall be for school districts with a substantial enrollment in multitrack year-round schools requesting state funding for 50 percent of the cost of a project that would not operate on a multitrack year-round basis.

(6) Sixth priority shall be for school districts with a substantial enrollment in multitrack year-round schools requesting state funding for the entire cost of a project that would not operate on a multitrack year-round basis.

(b) The board shall not restrict the availability of funding for construction of multitrack year-round schools, from any funding source available to the State School Building Lease-Purchase Fund, but shall make approval of project funding for those projects the first priority in accordance with this section.

(c) "Substantial enrollment," for the purposes of this section, means enrollment of at least 30 percent of district pupils in kindergarten and grades 1 to 6, inclusive, or 40 percent of pupils in kindergarten and grades 1 to 12, inclusive, in the high school attendance area for which the school district is applying for new facilities. The calculation set forth in this subdivision, as to a self-certifying district, shall be made by the district, in accordance with any standards governing that calculation that are adopted by the board. The calculation shall be certified by the district to the board and used by the board for the purposes of this section. The self-certifying district shall maintain documentation of the calculation as may be required by the board, and the calculation shall be subject to subsequent audit as the board may direct. If a self-certifying district is found by the board to have materially misrepresented its pupil enrollment pursuant to this subdivision, the board may impose either or both of the penalties set forth in paragraphs (1) and (2) of subdivision (b) of Section 17041.2, in accordance with that section.

(d) "Multitrack year-round school," for purposes of this section, means a school for which the applicant district demonstrates that both of the following criteria are satisfied:

(1) The pupils are divided into three or more groups or tracks, which rotate attendance so that, for a majority of schooldays during the school year, at least one group or track is not attending the school while all other groups or tracks are in attendance.

(2) The operation of the school on a multitrack year-round basis has resulted in an increase in enrollment capacity.

(e) Notwithstanding any other provision of this section, the State Allocation Board may continue to implement any year-round school priority provisions for hardships adopted prior to September 14, 1990.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17017.9. State funding of project requested for only 50 percent of cost; priority status; conditions

(a) Notwithstanding any other provision of law, a project shall be accorded, subject to subdivision (b), the priority status that otherwise is accorded under Section 17017.7 to a project for which state funding is requested for only 50 percent of the cost, if all of the following conditions are met:

(1) The applicant district documents to the satisfaction of the board that it has incurred bonded indebtedness in an amount not less than 95 percent of the bonding capacity of the district. "Bonded indebtedness" for the purposes of this section includes, but is not limited to, funding provided pursuant to Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code.

(2) The applicant district agrees that up to 95 percent of the unexpended bonding capacity of the district, existing on or after the date of the district's first application for project funding pursuant to this section, shall apply toward the cost of projects.

(3) Either of the following apply:

(A) The applicant district agrees that developer fees imposed pursuant to Section 17620 shall apply toward the cost of projects for which the district requests state funding pursuant to this chapter, not to exceed 50 percent of the cost of any project. Fees needed for interim housing for capital outlay purposes for modernization and new construction projects, school district administration capital outlay projects, and capital outlay projects for transportation needs, are exempt from this requirement.

(B) The applicant is a school district with an average daily attendance of 2,500 or less.

(b) An applicant district qualifying for the priority status described in subdivision (a) as to any project shall continue to be accorded that status for all subsequent projects under this chapter until the time that the bonding capacity of the district determined for purposes of that subdivision increases by 20 percent.

(c) The condition set forth in paragraph (2) of subdivision (a) shall apply until either the applicant district's eligibility under this section terminates pursuant to subdivision (b), or funding for the district is approved and apportioned under this chapter for a project for which 50 percent or more of the cost is provided by the district from funding sources other than any state program administered by the board, whichever occurs first.

(d) Notwithstanding any other provision of law, as to any project for which priority status is accorded pursuant to subdivision (a), the estimate of average daily attendance for the applicant district may be calculated, upon request of the district, in the manner set forth in subdivision (a) of Section 17040.3.

(e) The board may recalculate program allowances and apportionments pursuant to this section.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998. Amended by Stats.1998, c. 957 (S.B.2045), § 1.)

§ 17018. Energy conservation design; board encouragement

In approving applications pursuant to this chapter, the board shall encourage the design and construction of facilities which will conserve unreplenishable energy resources by consideration of alternate design and insulation concepts as well as unconventional energy sources. In so doing, the board may increase cost allowances to reflect the difference between conventional and unconventional concepts when the board is satisfied that the life cycle cost of the project is not expected to exceed the life cycle cost of a conventionally designed project.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17018.5. Alternative funding methods; cost sharing; prioritizing funding applications

(a) The Legislature intends for the board to encourage school districts to utilize alternative methods to fund school facilities.

(b) The board shall approve applications pursuant to the requirements of this section that request the board to share a portion of the cost of projects constructed pursuant to the Mello-Roos Community Facilities Act of 1982, as set forth by Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code. The board shall disregard the fact that structures have been constructed in accordance with that act, and neither consider nor approve any application for cost sharing until the time that the applicant school district would have become eligible for approval of its application during the normal process established for considering and approving applications.

(c) The board shall approve applications for cost sharing based on both of the following factors:

(1) Estimates of average daily attendance at the time the application is considered.

(2) The amount of cost sharing requested.

(d) The costs shared by the board shall be an amount equal to the cost that would have been allowed for the project had it been originally approved pursuant to this chapter less 5 percent per year depreciation, exclusive of land, for each year that the project was constructed in advance of the application approval, but no more than the lesser of an amount equal to 75 percent of the allowable cost of the project or the principal amount of any outstanding callable bonds and other debts incurred to finance the project under the Mello-Roos Community Facilities Act of 1982.

(e) If the board utilizes a point system to prioritize applications for funding, the computation of priorities for an application pursuant to this section shall be increased by 4 percent for each year from the date of construction of the project to the date of approval of the cost-sharing application.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17018.7. School facilities constructed or acquired in past 24 months with completely local funding; funding for construction of gymnasium or multipurpose room on site

(a) Notwithstanding any other provision of law to the contrary, a school district that has, within the previous 24-month period, constructed or otherwise acquired school facilities with 100 percent local funding, may apply for funding for the construction of a gymnasium or multipurpose room on the site where it constructed or otherwise acquired school facilities with 100 percent local funding.

(b) If the State Allocation Board determines that the schoolsite does not have adequate gymnasium or multipurpose room facilities, the board may approve the application pursuant to this section.

(c) For an application approved pursuant to this section, the board shall grant the school district a credit against its local matching share requirement of up to 50 percent of the costs of the project or the total local funds expended by the school district on any school facilities funded by 100 percent local funds within the immediately preceding 24-month period, whichever is less.

(d) For an application approved under this section, the project shall be accorded the priority status that is otherwise accorded under Section 17017.7 to a project for which state funding is requested for only 50 percent of the costs.

(e) As used in this section "100 percent local funding" includes construction or acquisition of a school facility with 40 percent funding from the general fund of the school district and with the remainder of the local funding from the sale of surplus school property.

(Added by Stats.1998, c. 941 (A.B.191), § 1.)

§ 17019. Cost and quality standards for furniture and equipment

Before the board approves any project that includes the acquisition of furniture or equipment, it shall establish current cost and quality standards for furniture and equipment, including, but not limited to, educational technology hardware. The standards shall not exceed the cost and quality of furniture and equipment for comparable facilities purchased by school districts in the same area. The standards shall consist of furniture and equipment costs for each type of classroom or pupil station having different cost criteria. The standards shall be reviewed quarterly by the board and adjustments made in accordance with actual current costs. When cost and quality standards have been adopted by the board, the standards shall not be exceeded unless a subsequent increase in actual current costs warrants an adjustment.

Before the board approves a project for the replacement, reconstruction, or alteration of, or addition to, a school building, full consideration shall be given to all usable furniture and equipment existing in the applicant district. The board may approve all or a portion of the amount applied for.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17019.3. Construction project management services; contracts; funding

(a) Any applicant school district may contract with a firm, as defined in Section 4525 of the Government Code, for construction project management services to assist in the development or implementation of a project for which the district has applied for funding under this chapter, subject to the requirement that a performance bond be required from all building contractors hired to construct the project in order to ensure the completion of performance under the contract.

(b) That portion of any contract, as described in subdivision (a), concerning the final phase of construction of the project, shall be submitted by the applicant district to the board for approval. If the board does not approve, reject, or recommend modifications to, that contract portion within 15 business days after receiving that contract information, that portion of the contract shall be deemed to be approved by the board.

(c) From the amount of funding approved by the board under this chapter for any project, the board shall authorize the expenditure of funds for the costs of construction project management services provided to the project, as described in subdivision (a), where the board finds that the contracting for those services was necessary and appropriate to the school district's development or implementation of that project.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17019.5. Supplemental appropriations for new construction projects; reimbursement for administrative expenses

For a school district having an average daily attendance of 2,500 or less for the prior fiscal year, the board may approve, subject to the building cost standards established under this chapter, a supplemental apportionment up to five thousand five hundred dollars (\$5,500) for any new construction project, and up to one thousand three hundred twenty dollars (\$1,320) for any other project approved under this chapter, as reimbursement for administrative expenses incurred by the district in filing the application for the project. The amount of the supplemental apportionments shall be adjusted in 1990, and every two years thereafter, by the board at its January meeting, which adjustment shall be in an amount equal to the amount of the adjustment for inflation set forth in the statewide cost index for class D construction.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17020. Application for advance purchase of land and preparation of plans; estimate of average daily attendance; repayment of apportionment

(a) Notwithstanding other provisions of this chapter, in order to expedite a total school facility a school district may first apply for a project which includes only the advance purchase of the land and preparation of plans and specifications. The acquisition of the site and the plans preparation shall be based on the justification documents for the total school facility. The school district may apply for a subsequent project or projects to complete the total school facility.

(b) Any application filed pursuant to this section shall be subject to all provisions of this chapter generally applicable to project applications, to the extent not in conflict with this section.

(c) Any estimate of average daily attendance made by an applicant district for the purpose of justifying an application pursuant to this section may be made for up to and including two years longer than the period of time permitted by Section 17040.

(d) Beginning in the fifth fiscal year following the fiscal year in which any apportionment is made to a school district pursuant to this section, the district shall repay the apportionment, with interest, in 10 equal annual installments, unless and until the district has qualified for an apportionment pursuant to an application for utilization of the site under this chapter. These repayments shall constitute rent, and shall be in addition to any other rents or fees for which the district is obligated under Section 17032. The board may waive any obligation of repayment under this subdivision to the extent that the board finds that the obligation will result in an extreme hardship upon the district.

(e) The school district may apply for a subsequent project or projects to complete the total school facility.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17021. Projects restricted to older school buildings

No project shall be approved for the reconstruction, modernization, or replacement of any school building that was constructed or reconstructed less than 30 years, or, in the case of any portable classroom, as defined in subdivision (e) of Section 17042.5, less than 20 years, prior to the date of approval of the project applied for under this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17021.3. Modernization or renovation; definitions; approval of projects

(a) For purposes of this chapter, "modernization" or "renovation" means any modification of an existing structure, the costs of which do not exceed 25 percent of the replacement cost of that structure.

(b) No project shall be approved for the modernization of any school facility unless and until both of the following are demonstrated to the satisfaction of the board:

(1) The project will enhance the capacity of the facility to achieve one or more educational purposes.

(2) The resulting pupil capacity of the facility, as measured in units of average daily attendance, will equal or exceed 80 percent of the facility's maximum capacity as determined under the board standards established under this chapter.

(c) No project shall be approved for the modernization of any school facility that was constructed less than 30 years prior to the date of the approval of the project applied for under this chapter.

(d) The State Allocation Board may waive the requirement in subdivision (c) if the building has been declared by the Office of the State Architect to be, or is in imminent danger of becoming, a health or safety hazard to the pupils. This determination may only be made in the case of a natural disaster, for example, fire, flood, or earthquakes, or as a result of a determination by a qualified engineer, and agreed to in writing by the Office of the State Architect.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17021.4. Cost of modernization or renovation projects; amount

Notwithstanding the limitation set forth in subdivision (a) of Section 17021.3, the costs of a modernization or renovation project funded under this chapter may exceed 25 percent of the replacement cost of an existing structure where the costs in excess of that amount are funded by the district exclusively from sources other than any state program administered by the board. For each project, the total costs of the modernization or renovation project, as supplemented pursuant to this section, may not exceed 50 percent of the replacement cost of the existing structure except to the extent of those costs funded by the district, from sources other than any state program administered by the board, that are expended to conform that structure to current building standards, in which event the total costs of the project may not exceed 75 percent of the replacement cost of the structure.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17022. Approval of new facilities; prerequisite; maximum use of existing facilities and sites; exploration of cooperative efforts

Except as provided in Section 17041, the board shall not approve any new school facilities for any applicant school district or county superintendent of schools until it first has made a determination that the applicant will utilize all existing facilities and sites to the extent economically and practically feasible. The board may also require the applicant to explore cooperative efforts with adjacent districts or, in the case of county superintendents of schools, with adjacent county superintendents of schools, in order that all existing or planned facilities in the general area of need shall be utilized.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17022.7. Funding for reconstruction projects; qualification

(a) The funding for any reconstruction project approved by the board pursuant to this chapter that meets the requirements set forth in subdivision (b) shall include all of the following, not to exceed the total cost of the reconstruction project or 75 percent of the replacement cost of the facility to be reconstructed, whichever is less:

(1) Twenty-five percent of the replacement cost of the facility.

(2) A funding entitlement to the extent that the reconstruction will result in an increased capacity of the facility to house pupils, calculated pursuant to the cost standards for new construction established by the board under Section 17017.

(3) Any costs incurred by the district as required to ensure that the facility, as reconstructed, complies with applicable structural safety standards for school buildings pursuant to Article 3 (commencing with Section 17280) and Article 6 (commencing with Section 17365) of Chapter 2 of Part 10.5, and Article 7 (commencing with Section 81130) and Article 8 (commencing with Section 81160) of Chapter 1 of Part 49.

(b) In order to qualify for the funding entitlement set forth in subdivision (a), a school district reconstruction project shall be required to meet all of the following conditions:

(1) The facility to be reconstructed is at least 30 years old as of the date the application is filed.

(2) The cost of the reconstruction project exceeds 25 percent of the replacement cost of the facility.

(3) The reconstruction will result in an increased capacity of the facility to house pupils.

(c) No reconstruction project shall be approved under this chapter for which the total cost exceeds 75 percent of the replacement cost of the facility to be reconstructed.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17023. Powers and duties of the Departments of Education and General Services regarding school sites and construction of school buildings

Nothing contained in this chapter shall be construed as changing the powers and duties of the Department of Education or the Department of General Services in respect to schoolsites and the construction of school buildings as contained in Chapter 1 (commencing with Section 17211) and Chapter 2 (commencing with Section 17251) of Part 10.5.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17024. Prior written approval of school site or construction of building; self-certifying districts; audits; penalties for material inaccuracy

(a) The board shall not authorize the selection of any schoolsite, or a contract for the construction of any new school building, or for any addition to, or alteration of, any existing building, for lease-purchase to any school district, unless the applicant district has obtained the written approval of the State Department of Education that the site selection, and the building plans and specifications, comply with the standards adopted by the department pursuant to subdivisions (b) and (c), respectively, of Section 17251.

(b) A self-certifying district shall comply with subdivision (a) by certifying to the State Department of Education and the board that the site selection, and the building plans and specifications, comply with the standards adopted by the department pursuant to subdivisions (b) and (c), respectively, of Section 17251. The self-certifying district shall maintain documentation of the determinations made pursuant to this subdivision as required by the board. Those determinations shall be subject to subsequent audit by the State Department of Education in accordance with this section.

(c) The State Department of Education shall conduct random audits of the information certified by self-certifying districts pursuant to subdivision (b), using generally accepted auditing principles, at any time to ensure compliance with the law.

(d) If any information certified by a self-certifying district pursuant to subdivision (b) is found by the department to contain any material inaccuracy, the department shall so notify the board. The board shall thereupon impose both of the following penalties:

(1) Pursuant to a repayment schedule approved by the board of no more than five years, the district shall repay to the board, for deposit in the State School Building Lease-Purchase Fund, an amount equal to the amount of project funding allocated under this chapter to acquire any site that was selected in material violation of the standards adopted by the department pursuant to subdivision (b) of Section 17251, together with interest at the rate paid on moneys in the Pooled Money Investment Account or at the highest rate of interest for the most recent issue of state general obligation bonds as established pursuant to Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code, whichever is greater. The amount of any repayment owing under this paragraph for any fiscal year, which is not repaid otherwise by the district, shall be withheld by the board from any project funding that otherwise would be allocated to that district under this chapter in that fiscal year. As to any repayment obligation remaining for that fiscal year, the board shall notify the Superintendent of Public Instruction, who shall withhold the amount of that remaining obligation from the apportionments to be made to the district from the State School Fund in that fiscal year.

(2) The board shall prohibit the district from exercising the self-certifying authority under subdivision (b) under any subsequent applications for project funding for a period of up to five years following the date of the finding of a material inaccuracy, or until the district's repayment of the entire amount owing under paragraph (1), whichever occurs later.

(e) Any school district against which the board imposed the penalties under paragraphs (1) and (2) of subdivision (d) may submit for binding determination by an arbitrator the issue of whether the penalties imposed are disproportionate to the inaccuracy certified by the district. Except as otherwise provided by this chapter, the procedure governing the arbitration shall be as set forth in Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure.

(f) It is the intent of the Legislature that audits as described in this section not interfere with the application and construction process under this chapter unless one or more violations are ¹¹⁶²erred.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17024.5. Evaluation of existing school facilities and district needs; Department of Education's assistance

Upon request of any school district, the State Department of Education shall provide assistance in the evaluation and utilization of existing school facilities and the justification of the need for schoolsites, new facilities, and the rehabilitation or replacement of existing facilities, in accordance with board regulations.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17025. Prior written approval of department of general services; certification by self-certifying district or board

(a) The board shall not authorize a contract for the construction of any new school, or for the addition to, or reconstruction or alteration of, any existing building, for lease-purchase to any school district unless the applicant district has submitted plans therefor to the Department of General Services and obtained the written approval of the department pursuant to Article 3 (commencing with Section 17280) of Chapter 3 of Part 10.5.

(b) The board, or the self-certifying district, as applicable, shall certify the compliance of a project with Sections 17212, 17212.5, and 17213, with Division 13 (commencing with Section 21000) of the Public Resources Code, and with any other law that applies to that project, but may require documentation of compliance only as to requirements that are applicable under this chapter. Notwithstanding any other law, for purposes of Division 13 (commencing with Section 21000) of the Public Resources Code, the applicant district shall be deemed to be the "lead agency" with regard to any project funded for that district under this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17029. Applicant school district as agent; compliance with standards by self-certifying district

(a) The board shall authorize the applicant school district to act as its agent in the performance of acts specifically approved by the board and all acts required pursuant to Article 3 (commencing with Section 17280) of Chapter 3 of Part 10.5. That authorization shall include, but is not limited to, the selection of schoolsites, the securing of appraisals, the contracting for architectural services, the advertisement for construction bids and the entering into of contracts therefor and the purchase of furniture and equipment.

(b) If, pursuant to the authority granted under subdivision (a), a self-certifying district submits to the board two or more independent appraisals and certifies to the board that the appraisals were performed by appraisers licensed or certified in accordance with Part 3 (commencing with Section 11300) of Division 4 of the Business and Professions Code and were obtained in accordance with standards and procedures imposed by the board for that purpose, the district shall not be required to document its compliance with those standards and procedures except as specified in Section 17041.2. In addition, the board shall use any of those appraisals, including an appraisal that is not the highest bid appraisal, for the purposes of this section, except that the board may substitute, for the results of those appraisals, the results of one or more independent appraisals, which may include an appraisal performed by the Department of General Services, obtained by the board for that purpose.

(c) If, pursuant to the authority granted under subdivision (a), any bid reported to the board by a self-certifying district as the lowest responsible bid for a construction contract does not exceed the cost limit established by the board for that purpose, and the district certifies to the board that the bid was obtained in accordance with standards and procedures imposed by the board for that purpose, the district shall not be required to document its compliance with those standards and procedures except as specified in Section 17041.2.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17029.5. Contract funding; board liability; actions for damages arising from contracts

Notwithstanding any other provisions of this chapter, the funding by the board of contracts entered into by a school district pursuant to this chapter shall not, in itself, make the board liable for any tort, breach of contract, or any other action for damages caused by a school district arising from those contracts. These contracts include, but are not limited to, contracts between the school district and its construction contractors, construction managers, architects, or engineers. The school district shall be liable for all torts, breaches of contract, or any other actions for damages caused by the school district.

(Added by Stats.1996; c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17030. Title of property in state; recordation; release of state interest

(a) In expending funds for any project under this chapter, a school district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, altered or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state.

(b) The Director of General Services shall file with the county recorder of the county in which any site purchased or improved through the expenditure of funds under this chapter is located a certificate, properly acknowledged, indicating the state's interest in real property of the district by virtue of this section, without the necessity of particularizing the real property. The recorder shall record and index the certificate in the same manner as abstracts of judgments and the certificate shall constitute constructive notice of the state's interest in the particular real property affected. The certificate shall, as to any party thereafter acquiring real property or any interest therein in the county from the school district, have the same force, effect and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution. That effect shall commence upon recordation and shall continue until the certificate is discharged or released as provided herein.

(c) Upon request, the Director of General Services shall issue either of the following:

(1) A release of the state's interest in any real property or a portion thereof that the district has been authorized by the board to dispose of under Section 17039, provided that delivery of such release may be subject to such conditions as may be prescribed by the board to protect the state's interest.

(2) A disclaimer of the state's interest in any real property or a portion thereof of the district, the disposition of which the board is not required to consent to under the terms of Section 17039, provided that the delivery of such disclaimer may be subject to such conditions as the board deems appropriate to protect the interest of the state, including conditions relating to the amount of consideration to be received from the disposition where the board asserts an interest in the proceeds of such disposition under other provisions of this chapter. The release or disclaimer shall conclusively protect any third party relying upon the same and shall be acknowledged to permit recordation by the county recorder.

(d) Upon payment by the district of all amounts required to be paid by it, or on its behalf, to the state under this chapter, each of the following shall occur:

(1) The Director of General Services shall file with the county recorder a release of any certificate, which release shall be recorded and indexed in the same index as the certificate.

(2) The title to personal property purchased by the school district with funds apportioned under this chapter shall revert thereto without further action by the state.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17030.2. Termination of lease agreements; reversion of title

Notwithstanding any other provision to the contrary, all lease agreements shall terminate 40 years from the date of execution and title to the property covered therein shall revert to the district as though full payment had been made.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17030.3. Asbestos in school facility projects; exemption from reversion of title provisions

Notwithstanding any other provision of this chapter, any project funded under this chapter that involves only the identification, assessment, or abatement of hazardous asbestos in school facilities shall not be subject to Section 17014 or 17032, nor shall that funding cause the transfer to the state of title or any other property interest in the subject facilities.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17030.5. Authorization of board necessary for expenditure of funds

Notwithstanding any provision to the contrary, no funds authorized by any act for the purpose of this chapter may be expended for any purpose without specific authorization from the board or its designated representatives.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17030.6. Allocations to local agencies

From any moneys in the State School Building Lease--Purchase Fund, the board shall make available to the Director of General Services such amounts as it determines necessary to provide the assistance, pursuant to this chapter, required by Section 15504 of the Government Code.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17031. Compliance with laws pertaining to construction and alteration of school buildings

The applicant district, acting as agent for the state, shall comply with all laws pertaining to the construction, reconstruction, or alteration of, or addition to school buildings.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17032. Fixing of rents for projects

The board shall fix rents for all projects acquired and may change the rents from time to time as may be needed provided the rents shall not in any year exceed the sum of the following:

- (a) One dollar (\$1).
- (b) Any interest earned on funds in the county school lease-purchase fund for the district.
- (c) Any unencumbered bond funds of the district, exclusive of funds that are used by the district to fund a project pursuant to Section 17040.2.
- (d) The net proceeds from the sale or lease of any school buildings or land no longer needed for school purposes, exclusive of proceeds that are used for capital outlay expenditures for school construction that conforms to building area standards established under this chapter, for revenue purposes under a joint venture as authorized by Section 17032.3.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17032.3. Surplus buildings, land, or other property interests; joint ventures to generate revenue; district asset utilization plans

(a) Any school district for which one or more projects has been funded under this chapter may, pursuant to written agreement with any other public or private person or entity, utilize any school buildings, land, or other real property interest that the governing board determines is not needed for school purposes, and will not be needed for school purposes within the next 30 years, in a joint venture with that person or entity to generate revenues for school facilities purposes, pursuant to the following conditions:

(1) The district has developed a school district asset utilization plan, setting forth the information required under subdivision (b), which plan has been the subject of a public hearing, and the governing board of the district has made the finding that the implementation of the plan will benefit the district.

(2) Prior to the execution by the school district governing board of any agreement regarding the utilization of the school buildings or land, or both, under a joint venture pursuant to this section, the school district asset utilization plan has been submitted for, and has received, the review and approval of the State Allocation Board. No later than 90 days after the receipt of the plan, the board shall determine whether to approve the plan, which approval shall be granted if the board finds the plan to comply with this section.

(3) Once every three years after the approval of any plan pursuant to paragraph (2), the school district shall update the plan with information regarding the disposition of the revenues received by the district from the utilization of the school buildings or land, or both, under the joint venture, including the effect of those revenues upon the school facility needs for which the district may otherwise be eligible under this chapter or under any other

§ 17032.3.

school facilities program administered by the board, together with such other information as the board may require, and shall resubmit the plan to the board for its review and approval. In the event that the board refuses to approve the plan on the basis that the district is no longer in substantial compliance with this section, the surplus school buildings or land, or both, utilized under the joint venture shall no longer be exempt from the rental requirements of Section 17032.

(4) Pursuant to a school district asset utilization plan approved under this section, the school district may utilize school buildings or land, or both, in a joint venture, the revenues from which shall be placed by the district in a separate fund. The principal and interest from that separate fund may be expended by the district only for the following school facilities purposes, as authorized under the approved plan, in accordance with the pupil loading and cost standards established pursuant to this chapter: the acquisition of land, new construction, reconstruction, modernization, rehabilitation, and deferred maintenance.

(b) For purposes of this section, a school district asset utilization plan shall include, but not necessarily be limited to, all of the following:

(1) A specific description of the surplus school buildings or land, or both, to be utilized under the joint venture.

(2) The identification of the current educational uses of the surplus school buildings or land, or both, and of the educational uses proposed under the joint venture.

(3) The identification of the current noneducational uses of the surplus school buildings or land, or both, and of the noneducational uses proposed under the joint venture, and a specific assessment of the compatibility of those uses with any applicable general or specific governmental land use plans and with applicable zoning restrictions.

(4) A description of the prospective economic benefits to be derived by the district from the joint venture.

(5) A description of the prospective educational benefits to be derived by the district from the joint venture.

(6) A comprehensive description of the joint venture, including, but not limited to, a description of the intended means of financing the joint venture.

(7) A plan for the disposition of the revenues received by the district from the joint venture.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17032.5. Portable classrooms; county community school programs; leases; conditions

The board shall establish the annual rent and conditions to be met by the lessee of a portable classroom leased pursuant to Section 17717.2 and shall require lessees to undertake all necessary maintenance, repairs, renewals, and replacements to ensure that a project is at all times kept in good repair, working order, and condition. All costs incurred for this purpose shall be borne by the lessee.

(Added by Stats.1997, c. 893 (S.B.161), § 85.)

§ 17033. Refunding of rent, charges, and fees collected in error

Rent, charges, and fees collected in error may be refunded by the board in accordance with regulations prescribed by the board.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17034. Creation of a county school lease-purchase fund

A county school lease-purchase fund is hereby created in the county treasury within each county for each school district project in the county.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17035. Transfer from state to county fund

The board may from time to time authorize the Controller to transfer any funds that the board may deem necessary from the State School Building Lease-Purchase Fund established for a given project to the corresponding county school lease-purchase fund in the county treasury.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17036. Expenditures from county school lease-purchase fund; authorization; reimbursement

(a) Except as provided in subdivision (b), funds may be expended from the county school lease-purchase fund by the applicant school district only when specifically authorized by the board for either direct project costs or reimbursements.

(b) Upon specific authorization by the board, applicant school districts may be reimbursed from the county school lease-purchase fund for expenditures, or commitments therefor, made prior to the approval of a project by the board, subject to all of the following conditions:

(1) The expenditures or commitments were made in accordance with the terms of the approval of a project.

(2) The expenditures or commitments were made not more than four years prior to the approval of a project.

(3) The expenditures or commitments do not include any cost incurred for construction of a project.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17038. Duty of school district to insure sites, equipment, and buildings

The board shall require school districts to insure at their own expense for the benefit of the state, all sites, equipment and buildings which are, under Section 17030, the property of the state, against such risks and in such amounts as the board may deem necessary to protect the interests of the state. No project funds shall be used to pay the premiums on such insurance. All payments resulting from claims made against said insurance shall be made payable to and retained by the board. Funds so received shall be utilized by the board for repair or replacement of the facilities for which claim was made. In no event may the amounts expended from such funds for such repair or replacement exceed the payments received.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17039. Moneys authorized by State School Building Bond Law of 1982; reconstruction or modernization; limitations; priorities

(a) Not more than one hundred fifty million dollars (\$150,000,000) of the moneys authorized by the State School Building Lease-Purchase Bond Law of 1982 (Sec. 34, Ch. 552, Stats. 1995) shall be reserved for the reconstruction or modernization of facilities within the meaning of this chapter.

(b) For purposes of this section, the State Allocation Board shall establish a separate priority system which shall be based on the following factors and any other factors which the board determines are appropriate:

- (1) Structural condition and age of the building.
- (2) Percentage of pupils affected in the district or attendance area.
- (3) Degree of utilization of eligible buildings.
- (4) Other building code deficiencies, such as health, safety, or electrical problems.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

Historical and Statutory Notes

Subordination of legislation by Stats.1996, c. 277 (S.B.1562), to other 1996 legislation, severability of provisions, and nonsubstantive nature of changes made by that Act, see Historical and Statutory Notes under Education Code § 15100.

Derivation: Former § 17739, added by Stats. 1982, c. 410, § 2, amended by Stats.1983, c. 698, § 1.

GENERAL PROVISIONS
Title 1

§ 17039.1. State School Building Lease-Purchase Bond Law of 1984; reservation of moneys for reconstruction or modernization of facilities

Not more than two hundred million dollars (\$200,000,000) of the moneys authorized by the State School Building Lease-Purchase Bond Law of 1982 (Sec. 34, Ch. 552, Stats. 1995) shall be reserved for the reconstruction or modernization of facilities within the meaning of this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

Historical and Statutory Notes

Subordination of legislation by Stats.1996, c. 277 (S.B.1562), to other 1996 legislation, severability of provisions, and nonsubstantive nature of changes made by that Act, see Historical and Statutory Notes under Education Code § 15100.

Derivation: Former § 17739.1, added by Stats.1984, c. 375, § 2.

§ 17039.2. Moneys reserved for rehabilitation, reconstruction or modernization of facilities; limitation on reserve for apportionments; conditions

Of the moneys reserved for the rehabilitation or modernization of facilities pursuant to Section 17039.1, the board may reserve not more than twenty-five million dollars (\$25,000,000) for apportionments to school districts that the board has determined to be in severe need of the apportionment. In addition, of the moneys reserved for the reconstruction or modernization of facilities pursuant to Section 17696.96 of the Greene-Hughes School Building Lease-Purchase Bond Law of 1986 (Sec. 34, Ch. 552, Stats. 1995), the board may reserve up to and including 10 percent for this purpose. In either event, the apportionment shall be for purposes of site acquisition and the construction of school facilities for schoolsites that meet one or more of the conditions established by the board, which shall include, but are not limited to, the following:

- (a) The schoolsite is not less than 30 years of age.
- (b) The schoolsite has accommodated a significant increase in enrollment during the last 10-year period.
- (c) Enrollment increases have been accommodated by placing relocatable structures on the schoolsite without expanding the schoolsite.
- (d) The schoolsite has inadequate playground space for its enrollment.
- (e) The schoolsite has inadequate meal facilities, and those facilities are used for more than three times the number of pupils for which the facilities were originally designed.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

Historical and Statutory Notes

Subordination of legislation by Stats.1996, c. 277 (S.B.1562), to other 1996 legislation, severability of provisions, and nonsubstantive nature of changes made by that Act, see Historical and Statutory Notes under Education Code § 15100.

Derivation: Former § 17739.2, added by Stats.1984, c. 1749, § 2, amended by Stats. 1986, c. 887, § 3.

§ 17040. Project approval; area of adequate school construction

Except as provided in Section 17041, no project shall be approved, the building area of which, when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per unit of estimated average daily attendance in excess of that computed in accordance with Sections 17043, 17044, 17045, and 17046.

As used in Sections 17041.5, 17043, 17044, 17045, and 17046, "maximum area" means maximum area of school building construction and "attendance unit" means unit of estimated average daily attendance.

As used in this section and Sections 17045 and 17046, "attendance center" means a school maintained or to be maintained at a given location within a district. Enrollment projections shall be made for the third fiscal year beyond the fiscal year in which the application is made for a project for kindergarten or any of grades 1 to 6, inclusive, and for the fourth fiscal year beyond the fiscal year in which the application is made for a junior high school or high school project. Except as otherwise provided by the board, the estimates of average daily attendance shall be based upon the number of family dwellings and mobilehome parks, as defined in Section 18214 of the Health and Safety Code, under construction or newly constructed and never occupied in the district and the number of children residing in the district. In no case shall an estimate be given effect unless approved by the board.

For the purposes of this chapter, pupils attending grades 7 and 8 in an elementary district, but residing in a high school district that maintains one or more junior high schools, shall not be considered in determining or estimating the average daily attendance of the elementary district, unless one of the following conditions is met:

(a) The elementary district is maintaining and has continuously maintained grades 7 and 8 since a date prior to January 1, 1975.

(b) The elementary district, by a vote of the electorate at an election held on June 2, 1981, withdrew its 7th and 8th grade pupils from the high school district.

(c) The elementary district, by a vote of the electorate at an election held on November 4, 1980, withdrew its 7th and 8th grade pupils from the high school district and the high school district continues to qualify for a project, other than a project pursuant to Section 17041, on the basis of the remaining 7th and 8th grade pupils. In no event shall a facility be constructed for the withdrawn 7th and 8th grade pupils at a distance less than one and one-half miles from the nearest proposed or existing junior high facility.

When these pupils are so considered in determining or estimating the average daily attendance of the elementary district, they shall not be considered in determining or estimating average daily attendance of the high school district for junior high school purposes.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17040.1. Increase in allowable building area of project; increase in maximum cost

(a) The allowable building area of any project, as calculated under this article, may be increased by any applicant school district, where the increase is funded exclusively from sources other than any state programs administered by the State Allocation Board. Any increase in building area pursuant to this section in a project for which construction commenced on or after January 1, 1987, not to exceed 110 percent of the area that would be allowed under applicable state standards, shall be excluded from the calculation of the area of adequate school construction for the purposes of all subsequent project applications by the district under this chapter.

(b) The maximum building cost permitted for any project under this article may be increased, by not more than 10 percent, by any applicant school district, where the increase is funded by the district exclusively from the proceeds of a general obligation bond measure approved by the voters of the district or of a special tax pursuant to the formation of a community facilities district under Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code, or both. In order to qualify for this purpose, any tax or other charge authorized pursuant to that approval or formation, respectively, shall apply uniformly to all taxpayers or all real property within the school district, rather than to a particular class of property or taxpayers, and shall require that the amount of the school facilities fee or other requirement that may be levied by the school district pursuant to Section 17620, in addition to that tax or other charge, not exceed the amount deemed by the governing board to be necessary for the interim school facilities needs of the district.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17040.2. Project funded by applicant district from sources other than state program administered by board; increase in area and cost

Where 75 percent or more of the total cost of a project approved under this chapter is to be funded by the applicant district from sources other than any state program administered by the board, the area of the allowable new building construction for that project, and the amount of the building cost allowed for that project under this chapter, shall each be increased by 5 percent, plus 1 percent for each 1 percent by which that local contribution exceeds 75 percent.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17040.3. Calculation of estimated average daily attendance; fast tracking of project; delay of construction agreements following project approval

(a) Notwithstanding any other provision of this part, the estimate of average daily attendance for an applicant school district shall be calculated for up to and including two years longer than the period of time permitted by Section 17040, as requested by the district, where 50 percent or more of the cost of the project is provided by the district from funding sources other than any state program administered by the board. For the purposes of any subsequent project application from that district based upon additional growth in pupil enrollment, the estimate of average daily attendance shall be based on enrollment projections for any period of time, as requested by the district, up to and including that permitted by Section 17040.

(b) The project shall be "fast tracked." For purposes of this section, "fast tracking" means that the total amount of project funding eligibility shall be established upon the board's approval of the project, which shall be subsequently disbursed as necessary for the development and construction of the project without the prerequisite of any additional state certification or other state-conducted review of project eligibility. Based upon the results of an audit to be conducted upon completion of the project, the board or the applicant district, as appropriate, shall pay to the other any amount that is necessary to conform to the allocation of project costs determined upon the board's approval of the project.

In the event that the applicant district has not executed all contractual agreements necessary for the complete construction of the project within a period of 18 months following the board's approval of the project, this subdivision shall cease to apply to the project with regard to any state funding of the project not yet disbursed. Upon request of the applicant district and approval by the board, this 18-month period may be extended for an additional period of up to six months to account for one or more delays resulting from circumstances beyond the district's control.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17040.4. Master plan for determination of average daily attendance; conditions for use

Notwithstanding any other provision of this part, the board may use, for purposes of determining the estimate of average daily attendance for an applicant school district, a master plan that has been prepared by a district that includes the additional pupils due to increases in housing units within the boundaries of the district or attendance area. Before a master plan may be used, both of the following conditions shall be satisfied:

(a) The city, county, or city and county has obtained approval of a local general obligation bond or has obtained funds pursuant to the Mello-Roos Community Facilities Act of 1982, as set forth by Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code, to provide local matching funds for school facility projects for which approval is being sought pursuant to this section.

(b) At least 60 percent of the total cost of the project for which approval is being sought shall be provided by funding sources other than any state program administered by the board.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17040.5. Multistory buildings; exclusion of stairs and landings

Notwithstanding any other provision of this article, the board shall exclude the area of enclosed stairs and appropriate landings for each floor level served from the computation of the allowable building area of multistory buildings for any applicant school district.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17040.6. Multistory buildings; additional project funding

(a) For any school of two or more stories, the project funding provided under this chapter shall include, at the request of the applicant district, the costs of any or all of the following:

- (1) Compliance with applicable requirements of law for fire safety, and for handicapped access, as a result of the multistory design.
- (2) Playground apparatus.
- (3) Duct shafts, utility tunnels, and pipe conduit chases.
- (4) Security items required as a result of the multistory design.

(b) In calculating the maximum project funding that may be allocated for parking, landscaping, and other general schoolsite improvements, which calculation is determined in proportion to the total building cost or area approved for funding under the project, the total building cost or area approved for funding under the project shall be computed by the board to include any increase in project building area, as authorized under Section 17041.8. The applicant district shall provide the board information on how the supplemental project funding will be allocated to relieve the effects resulting from less than the specified land area for the schoolsite.

(c) This section shall apply to any application for project funding under this chapter for which the final apportionment for construction of the project had not been made on or prior to December 1, 1987.

(d) For any project approved under this chapter, the amount of project funding granted by the board shall include the actual and reasonable costs incurred by any applicant district for the revision of its project application for the purpose of qualifying for supplemental project funding as authorized by this section.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17040.7. Enclosed hallways; computing amount of building area

Notwithstanding any other provision of this article, the board shall provide that building area for enclosed hallways in the second or higher story of any building shall be counted as two-thirds of the actual area. For purposes of this section "enclosed hallways" includes, but is not limited to, all of the following:

- (a) Covered passages, arcades, shelters, porches, and planting areas.
- (b) Enclosed covered areas that provide shelter between buildings that are 20 feet or more apart.
- (c) Sun control devices designed and located to function in lieu of covered walks or other shelters.
- (d) Mezzanines used for storage purposes.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17040.8. Existing sites with less than 50% of recommended land; increased area of allowable new construction

Where an applicant district that is eligible under this chapter for project funding of new construction of school facilities on an existing schoolsite, which site has less than 50 percent of the land recommended under State Department of Education guidelines, as published in the School Site Analysis and Development Handbook in effect on January 1, 1987, the area of allowable new building construction for that project shall be increased by the square footage of any existing one-story school facility or facilities to be replaced under the project by one or more multistory school facilities.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17040.9. Supplemental project funding; projects with high pupil density

(a)(1) The board shall allocate the amount calculated under subdivision (b), in addition to any other project funding authorized under this chapter, to each project funded under this chapter for which the resulting pupil density will exceed the following:

(A) For a project for kindergarten or any of the grades 1 to 6, inclusive, 90 pupils per acre.

(B) For a project for a junior high school project, 80 pupils per acre.

(C) For a project for a senior high school project, 70 pupils per acre.

(2) For any new construction project, pupil density shall be computed, for purposes of paragraph (1), by dividing the number of units of estimated average daily attendance for the project, including those to be served by relocatable structures, by the acreage of the project site.

(3) For any project for the construction of additional facility space on an existing schoolsite or on land acquired that is adjacent to an existing schoolsite, pupil density shall be computed, for purposes of paragraph (1), by adding the number of units of estimated average daily attendance for the project to the number of units of average daily attendance for the existing school facilities, and dividing that sum by the total site acreage for the project and the existing school facilities.

(b) The supplemental project funding authorized under this section shall be calculated by dividing the actual pupil density for the project, as calculated under subdivision (a), by the threshold pupil density for the project as set forth in that subdivision, and multiplying the resulting fraction by an amount equal to the average cost per acre of the land approved for acquisition by the board under this chapter for the project, or that would have been approved for acquisition if the applicant school district had not had an existing schoolsite available for the project.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17041. Separate computation of allowable building area; competing "attendance area"

Whenever the area of adequate school construction existing in any attendance area is such as to prevent another attendance area from receiving the maximum area of school construction for each unit of attendance as specified for the district as a whole, the allowable building area may be computed separately for each attendance area. For the purposes of this section and Section 17041.5, an "attendance area" is defined as the geographical area serving an existing or proposed high school and those junior high schools and elementary schools included therein.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17041.1. Determinations by self-certifying district for calculation of district's eligibility for project funding; determinations; audit; estimates of average daily attendance

(a) Notwithstanding any other provision of this chapter, the following determinations shall be made by a self-certifying district, in the manner specified in this chapter and in accordance with the standards governing those determinations that are adopted by the board, for the purpose of calculating the district's eligibility for project funding under this chapter:

(1) The total allowable building area for which the district is eligible for project funding under this chapter.

(2) The district's area of existing adequate school construction, including, but not limited to, the conducting of field inspections for this purpose.

If requested by the applicant district, the board shall provide assistance to the district in preparing the necessary documents for self-certification pursuant to this chapter.

(b) The area determinations made by a self-certifying district pursuant to subdivision (a) shall be certified by the district in its application for project funding and shall be used by the board as the basis for project funding eligibility, except to the extent of any information that the board finds is demonstrated, pursuant to the information certified and any other documentation available to the board from prior project funding applications for that district, to be materially inaccurate, regardless of whether the inaccuracy was intended. No later than 30 calendar days after receipt of the determinations certified pursuant to subdivision (a), the board shall notify the district of any inaccuracies identified under this subdivision.

(c) Each self-certifying district shall maintain documentation of the determinations described in subdivision (a) as required by the board. Those determinations shall be subject to subsequent audit as the board may direct.

(d) All estimates of average daily attendance for a self-certifying district for the purposes of this article shall be made by the district in accordance with the standards governing those estimates that are adopted by the board. Each determination made by a self-certifying district pursuant to this subdivision shall be reviewed for accuracy by the board or by the county office of education in the county in which the district is located. In the event that the review is performed by the board, that review shall be completed no later than 45 calendar days subsequent to the board's receipt from the district of all documentation necessary for that purpose.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17041.2. Information certified by self-certifying districts; random audits; material inaccuracy; penalties; arbitration

(a) The State Allocation Board shall conduct random audits of the information certified by self-certifying districts pursuant to this chapter, except as to any determinations that are made under subdivision (d) of Section 17041.1 or that are subject to audit by the State Department of Education pursuant to Section 17024, using generally accepted auditing principles, at any time to ensure compliance with the law.

(b) If any information submitted by a self-certifying district in its certification of funding eligibility for any project is found by the board to contain any material inaccuracy, any building area constructed as a result, in excess of the building area to which the district was entitled for purposes of that project, shall be included in the calculation of the area of adequate school construction for the purposes of all subsequent project applications by the district under this chapter. In addition, the board shall impose both of the following penalties:

(1) Pursuant to a repayment schedule approved by the board, the district shall repay to the board of no more than five years, for deposit in the State School Building Lease-Purchase Fund, an amount equal to the amount of project funding allocated under this chapter to construct that excess building area, together with interest at the rate paid on moneys in the Pooled Money Investment Account or at the highest rate of interest for the most recent issue of state general obligation bonds as established pursuant to Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code, whichever is greater. The amount of any repayment owing under this paragraph for any fiscal year, which is not repaid otherwise by the district, shall be withheld by the board from any project funding that otherwise would be allocated to that district under this chapter in that fiscal year. As to any repayment obligation remaining for that fiscal year, the board shall notify the Superintendent of Public Instruction, who shall withhold the amount of that remaining obligation from the apportionments to be made to the district from the State School Fund in that fiscal year.

(2) The information that otherwise may be certified under this chapter by a self-certifying district shall be made by the board under any subsequent applications for project funding, rather than by the applicant district, for a period of up to five years following the date of the finding of a material inaccuracy, or until the district's repayment of the entire amount owing under paragraph (1), whichever occurs later.

(c) Any school district against which the board imposes the penalties under paragraphs (1) and (2) of subdivision (b) may submit for binding determination by an arbitrator the issue of whether the penalties imposed are disproportionate to the inaccuracy certified by the district. Except as otherwise provided by this chapter, the procedure governing the arbitration shall be as set forth in Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure.

(d) It is the intent of the Legislature that audits as described in this section not interfere with the application and construction process under this chapter unless one or more violations are discovered.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17041.3. Alternative computation of allowable building area; combination of adjacent high school attendance areas; conditions

For the purposes of Sections 17041 and 17041.5, allowable building area may be computed, in the alternative to the methods prescribed by Section 17041, for any combination of two or more adjacent high school attendance areas pursuant to the following conditions:

(a) The project to be funded is for the construction of a high school, junior high school, or elementary school located or to be located in any of those high school attendance areas.

(b) The high school, junior high school, or elementary school to be constructed is to serve pupils residing in each of those high school attendance areas.

(c) The combined computation of allowable building area reflects the allowable building area to which each of the high school attendance areas would otherwise be entitled, reflecting the proportion of projected pupil enrollment in the school to be constructed, as calculated under this chapter, from each of those attendance areas.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17041.5. Use of allowable building area for construction of district administration and maintenance facilities; inclusion in computation

(a) Whenever the area of adequate school construction existing in an attendance area is less than the maximum area computed for that attendance area, any portion of the remaining computed allowable building area may be used for the construction of district administration and maintenance facilities.

(b) If the allowable building area is computed separately by attendance area, the board shall include within the computation of the maximum area for that attendance area the proposed building area of a project for the construction of district administration and maintenance facilities.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17041.6. Priority in allocation of funds for school facilities construction

The board shall, in allocating funds for school facilities construction pursuant to this chapter, give first priority to applicant districts proposing additional classrooms within their maximum allowable building area before allocating funds to applicant districts proposing administration and maintenance facilities.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17041.8. Expenditure of supplemental project funds; maximum amount of entitlement

(a) Notwithstanding any other provision of law, any applicant school district that receives supplemental project funding under Sections 17040.6, 17040.7, 17040.8, and 17041.8 shall apply that funding to the purposes of the project funded, in compliance with any requirements set forth in those sections, but need not comply in that regard with the allowable building area of that project as otherwise calculated under this chapter. The expenditure of the supplemental project funds authorized under those sections is exempt from the total building cost standards applicable to the project. In addition, the increase in building area authorized under this subdivision is exempt, for purposes of any subsequent application for project funding under this chapter, from the calculation of existing adequate school construction of the district.

(b) Notwithstanding any other provision of law, the total amount of supplemental project funding that an applicant district is entitled to receive under Sections 17040.6, 17040.7, 17040.8, and 17040.9 may not exceed the lesser of the following:

(1) An amount equal to that calculated under subdivision (b) of Section 17040.9.

(2) An amount equal to the sum of four thousand dollars (\$4,000) for each of the first 500 units of estimated average daily attendance for the project, and two thousand dollars (\$2,000) for each additional unit of estimated average daily attendance. The monetary rates set forth in this paragraph shall be increased annually for inflation for the prior calendar year on the basis of the cost index for class B construction as determined in the January meeting of the board.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17042. Adoption of rules for determining the area of adequate school construction; exceptions

(a) The board, by the adoption of rules, shall provide for the manner of determining the area of adequate school construction existing in an applicant school district at the time of application. Those rules shall define and provide for the method of determining building areas that are to be included in, in whole or in part, or to be excluded from, the area of existing adequate school construction. Any building to which Article 3 (commencing with Section 39140) of Chapter 1 of Part 23 of Division 3 of Title 2 does not apply shall not be considered adequate school construction for the purpose of determining the maximum total building area per attendance unit.

The board may make exceptions to the provisions of this section, or to the rules adopted pursuant thereto, if it determines that the exception or exceptions will be for the benefit of pupils affected.

(b) For the purposes of this chapter, the area of adequate school construction existing in an applicant school district does not include any of the following:

(1) Any portable classroom made available to the district under Chapter 25 (commencing with Section 17785).

(2) In any school operated on a year-round schedule, any building area that has been in continuous use during the preceding five-year period primarily for the operation of any preschool program or programs.

(3) Any building area, not to exceed the area that is equivalent to one classroom per schoolsite, used to provide support services pursuant to Chapter 5 (commencing with Section 8800) of Part 6 or to provide integrated children's services pursuant to Section 18986.40 of the Welfare and Institutions Code. A school shall meet the definition of a "qualifying school" under paragraph (1) of subdivision (h) of Section 8802 to qualify for this exemption from the area of adequate school construction.

(4) Any classroom acquired or constructed and continuously used by the school district primarily for the purpose of reducing class size in kindergarten or in any of grades 1 to 3, inclusive, pursuant to the school district's participation in the Class Size Reduction Program contained in Chapter 6.10 (commencing with Section 52120) of Part 28.

(5) Any classroom acquired or constructed for the purpose of operating a community day school pursuant to Section 48660, if the classroom is not located on a regular elementary, middle, junior high, or senior high school site.

(c) The board may make exceptions to this section, or to the rules adopted pursuant thereto, if it determines that the exception or exceptions will be for the benefit of pupils affected.

(Added by Stats.1997, c. 893 (S.B.161), § 86.)

§ 17042.5. Determination of area of adequate school construction; inclusion of portable classrooms

(a) For purposes of determining the area of adequate school construction existing in an applicant school district pursuant to Section 17042.7, all portable classrooms, whether owned or leased, shall be included, except as otherwise provided in paragraphs (1) to (3), inclusive.

(1) Leased portable classrooms acquired by a school district shall not be included in the area of existing adequate school construction until January 1, 1991.

(2) Portable classrooms leased pursuant to Chapter 14 (commencing with Section 17085) shall be excluded from the area of adequate school construction. Portable classrooms obtained by an applicant district pursuant to subdivision (b) of Section 17088.5 also shall be excluded from the area of adequate school construction, except as to any portable classroom or classrooms for which the district rejected the board's offer to purchase pursuant to that subdivision.

(3) Portable classrooms that have been leased or owned by the district for 20 years or more shall be excluded from the area of adequate school construction.

(4) Leased portable classrooms shall not be included in the area of adequate school construction for a period of five years from the date first leased by the district. That exclusion shall be extended by the board for one additional five-year period where the board finds that the continued use of the leased portable classrooms for classroom purposes is justified by additional growth in average daily attendance pursuant to the standards established by this part. If the board finds continued use to be no longer justified, it may extend the exclusion for a period of up to two years as necessary to maintain the eligibility of the applicant district for project funding pursuant to this chapter if the board finds that the district has made a good faith effort to obtain that funding in a timely manner. The additional five-year exclusion shall not apply to any portable classroom for which, under the lease agreement, the district is to take title, or the total consideration paid by the district for the lease and an option to purchase is determined by the board to be substantially equivalent to the cost of acquiring title.

(b) For purposes of this section, "portable classroom" means a classroom building of modular design and construction that meets all of the following criteria:

(1) Is designed and constructed to be relocatable and transportable over public streets.

(2) Is designed and constructed for relocation without the separation of the roof or floor from the building.

(3) When measured at the most exterior walls, has a floor area not in excess of 2,000 square feet.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17042.7. Formula for calculation of adequate school construction

(a) For any project application filed or amended on or after January 1, 1993, the area of adequate school construction existing in the applicant school district or, where appropriate, in the attendance area, at the time of application shall be calculated pursuant to the following formula:

(1) Identify by grade level all teaching stations existing in the school district or, where appropriate, the attendance area, as of January 1, 1993. For the purposes of this section, "teaching station" means any space that was constructed or reconstructed to serve as an area in which to provide pupil instruction.

(2) Determine the maximum pupil loading figure for each grade level pursuant to the district pupil loading standards in effect on January 1, 1993. For the purposes of this section, the "district pupil loading standards" are those pupil loading standards in effect in a school district on July 1, 1992, as a result of actions including, but not necessarily limited to, the execution of a collective bargaining agreement or the adoption of a district policy by the governing board of the school district. In no event may this figure be more than the maximum pupil loading standards established by the board, or less than three pupil units lower than those maximum pupil loading standards.

(3) Multiply the figure determined under paragraph (2) for each grade level by the number of teaching stations for the particular grade level, as determined under paragraph (1).

(4) Multiply the product determined under paragraph (3) by the maximum area allowance established for that grade level under this article.

(5) The sum of these computations for each grade level, as determined under paragraphs (1) to (4), inclusive, shall be the total area of adequate school construction existing in the district or attendance area pursuant to this formula.

(b) For purposes of this section, a school district that is participating in a class size reduction program set forth in this code, other than the Class Size Reduction Program (Ch. 6.10 (commencing with Section 52120) of Part 28), shall use the pupil loading standard established pursuant to that program.

(c) The area of existing adequate school construction calculated under this section shall not include, in any school operated on a year-round schedule, any teaching station that has been in continuous use during the preceding five-year period primarily for the operation of a preschool program or programs.

(Added by Stats.1997, c. 893 (S.B.161), § 88.)

§ 17042.9. Portable classrooms; replacement with permanent buildings

(a) Notwithstanding any other provision of law, a school district that complies with the requirements of subdivision (b) may replace a portable classroom, as defined in Section 17742.5, that has been leased or owned by the district for 20 years or more, with a permanent building if the resulting area of new building construction is no greater than the area that would be authorized under this chapter for the lease or purchase of a portable classroom.

(b) A school district that utilizes subdivision (a) shall fund its expenses incurred thereby through the issuance of general obligation bonds by the district or by the issuance of bonds pursuant to the Mello-Roos Community Facilities Act of 1982 (Chapter 2.5 (commencing with Section 53311) of Part 1 of Division 2 of Title 5 of the Government Code) or by any other financing mechanism that does not encumber the school district's general fund.

(Added by Stats.1997, c. 893 (S.B.161), § 89.)

§ 17043. Maximum area; certain kindergartens and grades 1 to 6

(a) There shall be allowed to each district with attendance units of 300 or more in kindergarten and grades 1 to 6, inclusive, a maximum area of 55 square feet for each attendance unit of the district in kindergarten and grades 1 to 6, inclusive.

(b) The maximum total building area per attendance unit allowed to applicant districts with attendance units of less than 300 in kindergarten and grades 1 to 6, inclusive, for such attendance units shall be determined by the board, and shall be building area to provide comparable facilities to those provided by subdivision (a) of this section, and shall be the least building area required to house adequately the estimated average daily attendance and the normal instructional and other services.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17044. Maximum area; grades 7 and 8

There shall be allowed to each district a maximum area of 75 square feet for each attendance unit of the district in grades 7 and 8.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17045. Maximum area; junior high schools

The maximum area allowed to a district for attendance units in junior high schools composed of grades 7 to 9, inclusive, or 7 to 10, inclusive, as the case may be, shall be determined pursuant to this section, rather than Sections 17044 and 17046. This section shall not apply to junior high schools composed of grades 7 and 8 only.

The maximum area allowed for attendance units in junior high schools shall be determined by computing, in accordance with this section, the number of square feet for the attendance units at each junior high school attendance center of the district, and totaling the number of square feet so determined for all attendance units in all such junior high school attendance centers of the district. There shall be allowed a maximum area of 75 square feet for each attendance unit of the junior high school attendance center in grades 7 and 8. For each attendance unit in grade 9, or grades 9 and 10, as the case may be, at each junior high school attendance center, there shall be allowed a maximum area equal to the number of square feet which would be allowed under Section 17046 for each attendance unit of an attendance center having a total number of attendance units equal to the total number of attendance units in grades 7 to 9, inclusive, or 7 to 10, inclusive, as the case may be, at such junior high school attendance center. The number of square feet which would be allowed under Section 17046 for each attendance unit of an attendance center shall be computed by determining in accordance with that section the total number of square feet which would be allowed at an attendance center and dividing such total number of square feet by the total number of attendance units at such attendance center.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17046. Maximum area; grades 9 through 12

There shall be allowed to each district a maximum area for the attendance units of the district in grades 9 to 12, inclusive, determined by computing, for the attendance units in grades 9 to 12, inclusive, at each attendance center of the district, a number of square feet for the number of attendance units in such grades at each attendance center, in accordance with the following table, and totaling the number of square feet so determined for all attendance units in such grades of all attendance centers of the district:

Attendance units of attendance center	Maximum number of square feet of building area
1- 50	18,000
51-100	18,000 plus 162 for each attendance unit over 50
101-200	26,100 plus 99 for each attendance unit over 100
201-300	36,000 plus 60 for each attendance unit over 200
301-600	42,000 plus 54 for each attendance unit over 300
601-1,800	58,200 plus 80 for each attendance unit over 600
Over 1,800	154,200 plus 85 for each attendance unit over 1,800

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17046.7. Determination of area of allowable new building construction

Notwithstanding any other provision of law, the determination of the area of allowable new building construction for any project for an applicant school district for which original construction commenced on or after January 1, 1987, shall be made on the basis of 107 percent of the area that would otherwise be determined for that purpose under this chapter, calculated to the nearest whole number.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17046.8. Maximum allowable building area; reduction

Notwithstanding any other provisions of law, the maximum allowable building area for each applicant district shall be reduced by the product of the maximum area per attendance unit calculated for each appropriate grade level and the number of pupils reported by the Superintendent of Public Instruction for that grade level pursuant to Section 42268. This reduction shall be calculated on the basis, at the district's option, of either the district as a whole or the appropriate attendance area, as defined in Section 17041.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17047. Special day class and Resource Specialist Program Facilities; allowable new building area

(a) The allowable new building area for the purpose of providing special day class and Resource Specialist Program facilities for special education pupils shall be negotiated and approved by the State Allocation Board, with any necessary assistance to be provided by the Special Education Division of the State Department of Education. The square footage allowances shall be computed within the maximum square footage set forth in the following schedule:

Special Day Class Basic Need	Grade Levels	Load- ing*	Square Footage																		
Nonsevere Disability																					
—Specific Learning Disability	All	12	1080																		
—Mildly Mentally Retarded	All	12	1080																		
—Severe Disorder of Language	All	10	1080																		
Severe Disability																					
—Deaf and Hard of Hearing	All	10	1080																		
—Visually Impaired	All	10	1330 (1080 + 250 storage)																		
—Orthopedically and Other Health Impaired	All	12	2000 (1080 + 400 toilets + 250 storage + 270 daily living skills + 3000 therapy + 750 therapy per additional classroom)																		
—Autistic	All	6	1160 (1080 + 80 toilets)																		
—Severely Emotionally Disturbed	All	6	1160 (1080 + 80 toilets)																		
—Severely Mentally Retarded	Elem.	12	1750 (1080 + 400 toilets + 270 daily living skills) Secun. 2150 (1080 + 400 toilets + 270 daily living skills + 400 vocational)																		
—Developmentally Disabled	All	10	2000 (1080 + 400 toilets + 250 storage + 270 daily living skills + 3000 therapy** + 750 therapy per additional CR)																		
—Deaf-Blind/Multi	All	5	1400 (1080 + 200 storage + 150 toilets)																		
Resource Specialist Program for those pupils with disabling conditions whose needs have been identified by the Individualized Education Program (IEP) Team, who require special education for a portion of the day, and who are assigned to a regular classroom for a majority of the schoolday.***		All Maximum caseload for RS is 28, not all served at same time	<table border="1"> <thead> <tr> <th>Pupils</th> <th>Square Feet</th> </tr> </thead> <tbody> <tr> <td>1-8</td> <td>240</td> </tr> <tr> <td>9-28</td> <td>480</td> </tr> <tr> <td>29-37</td> <td>720</td> </tr> <tr> <td>38-56</td> <td>960</td> </tr> <tr> <td>57-65</td> <td>1200</td> </tr> <tr> <td>66-85</td> <td>1440</td> </tr> <tr> <td>86-94</td> <td>1680</td> </tr> <tr> <td>95-112</td> <td>1920</td> </tr> </tbody> </table>	Pupils	Square Feet	1-8	240	9-28	480	29-37	720	38-56	960	57-65	1200	66-85	1440	86-94	1680	95-112	1920

* Special pupils may usually be grouped without accordance to type, especially in smaller districts or where attendance zones may indicate, to maximize loadings per classroom where there are children with similar educational needs (Sec. 56364 or 56364.2, as applicable).

** Therapy add-ons not to be provided if on same site as orthopedically impaired.

*** To a maximum of 4 percent of the unhoused average daily attendance of the district, per new school or addition, to a maximum of 1920 square feet.

(b) The allowable new building area shall be computed by dividing the number of eligible pupils by the minimum required loading per classroom for special day classes for the type of pupils to be enrolled. No new or additional facility shall be provided for special day classes unless the number of additional eligible pupils equals one-third or more of the minimum required loading.

(Added by Stats.1996, c. 277 (S.B.156), operative Jan. 1, 1998. Amended by Stats.1998, c. 89 (A.B.598), § 6, eff. June 30, 1998, operative July 1, 1998; Stats.1998, c. 691 (S.B.1686), § 2.)

§ 17047.5. Facilities used by pupils with exceptional needs; design and location; integration; regulations; waiver; exceptions

(a) All school facilities purchased or newly constructed pursuant to this chapter for use, in whole or in part, by pupils who are individuals with exceptional needs, as defined in Section 56026, shall be designed and located on the schoolsite so as to maximize interaction between those individuals with exceptional needs and other pupils as appropriate to the needs of both.

(b) School district governing boards and county offices of education shall ensure that school facilities for pupils who are individuals with exceptional needs are integrated with other school facilities in applying for the purchase or new construction of school facilities pursuant to this chapter.

(c) The State Allocation Board, after consultation with the State Department of Education and representatives from county offices of education, special education services regions, and school districts, shall develop and adopt any regulations necessary to implement this section.

(d) Notwithstanding any other law, the requirement set forth in subdivision (a) may be waived, by the Superintendent of Public Instruction, only upon compliance with the following procedure:

(1) The applicant school district or county superintendent of schools shall file a written request for waiver that documents the reasons for its inability to comply with the requirement.

(2) The State Department of Education shall verify the reasons set forth pursuant to paragraph (1), including the documentation submitted, which verification shall be completed no later than 30 days after the filing of the request for waiver with the Superintendent of Public Instruction.

(3) The Advisory Commission on Special Education, as established under Section 33590, at its first scheduled meeting following the verification conducted pursuant to paragraph (2), shall review the request for waiver, accompanying documentation, and the verification findings of the State Department of Education. No later than 15 days following the date of that meeting, the commission shall submit its written comments and recommendations regarding the request for waiver to the Superintendent of Public Instruction.

(4) The Superintendent of Public Instruction shall review the comments and recommendations submitted by the Advisory Commission on Special Education prior to approving or rejecting the request for waiver.

(5) Any request for waiver, submitted in accordance with this section, that is not rejected within 60 days of its receipt by the State Department of Education, shall be deemed approved.

(e) This section does not apply to any application for project funding under this chapter that meets one of the following conditions:

(1) The application was submitted to the board prior to January 1, 1987, and all of the facilities under the project for use, in whole or in part, by pupils who are individuals with exceptional needs are located on a schoolsite on which facilities for use by other pupils are also located.

(2) The application is for any other project, for which, prior to January 1, 1987, the board approved the drawing of final plans and the preparation of final specifications.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17047.6. Portable classrooms; county community school programs; eligibility to lease

The board, with the advice of the Superintendent of Public Instruction, may determine the eligibility of county superintendents of schools to lease portable classrooms provided that a county superintendent of schools is eligible to receive one portable classroom pursuant to this section and Section 17717.2 for each 15 units of average daily attendance at county community schools in excess of the amount of average daily attendance claimed by the county superintendent of schools in the prior fiscal year except that, for pupils who are enrolled in a county community school and on independent study, only time spent in the classroom shall be included in the calculation of average daily attendance.

(Added by Stats.1997, c. 893 (S.B.161), § 90.)

§ 17048. Additional building area allocation; existing buildings

Whenever an existing building is to be reconstructed, rather than replaced, under an application pursuant to this chapter, there shall be allowed, for those attendance units to be housed in such reconstructed building, an additional five square feet of building area beyond the amounts set forth in Section 17043, 17044, 17045, or 17046.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17049. Allowable new building construction; relocatable structures; percentage requirements; exemptions

(a) The board shall require, as a condition of providing funding for any project under this chapter, that, for any facilities for kindergarten or any of grades 1 to 12, inclusive, or for any facilities for special education or continuation high school purposes, at least 30 percent of allowable new building construction for classrooms under the project be utilized for relocatable structures.

(b) The board may reduce the percentage requirement set forth in subdivision (a), as to any applicant, in the event that the quantity of relocatable structures necessary to comply with those requirements is unavailable from the manufacturers of those structures.

(c) The board may reduce or eliminate the percentage requirements set forth in subdivision (a), as to any applicant, under either of the following circumstances:

(1) Where the board finds that special conditions of terrain, climate, or unavailability of space within the attendance area make the use of relocatable structures impractical or inappropriate.

(2) Under the condition that, as the result of a future project for which the district receives funding under this chapter, located on the same schoolsite on which the current project is located, at least 30 percent of total building construction for classrooms on that schoolsite will be utilized for relocatable structures.

(d) Relocatable structures acquired by an applicant school district up to two years preceding the final approval by the board of the project application submitted by the district shall apply to the percentage requirements set forth in subdivision (a).

(e) Notwithstanding subdivision (d), relocatable structures acquired by an applicant school district up to 10 years preceding the final approval by the board of the project application submitted by the district shall apply to the percentage requirements set forth in subdivision (a) if the relocatable structures are to be situated on the site of a new school to be constructed under the project and all of the following conditions are met:

(1) The relocatable structures were not previously used to satisfy the 30 percent requirement set forth in subdivision (a) under any other project constructed pursuant to this chapter.

(2) The board determines that the relocatable structures are in satisfactory condition upon being moved to the new schoolsite, and are usable for classroom purposes without requiring major repair or renovation for a period of not less than 20 years subsequent to that relocation.

(3) Subsequent to moving the relocatable structures to the new schoolsite, at least 30 percent of the classroom space at the schoolsite where the structures were previously located consists of relocatable structures.

The cost of moving the relocatable structures to the new schoolsite shall be at the school district's sole expense.

(f) Whenever at least 10 percent of the allowable new building construction contained in an application is to be utilized for relocatable structures, an additional three square feet of building area for each pupil to be housed under the approved project shall be allowed.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17050. Joint-use library facility; contract for operation; lease-purchase; evaluation of application for project; contents of contract; space calculations

(a) A district may enter into a contract with the county, or other appropriate entity having responsibility for the provision of public library services, in which the district is located for the purpose of operating a joint-use library facility at a schoolsite owned by the district.

(b) The district may apply for the lease-purchase of a project which includes a library facility, pursuant to Section 17017, which facility, if constructed, would be of sufficient size to accommodate the requirements of a joint-use library for which the district has entered into a contract, pursuant to subdivision (a).

(c) Should the board receive an application for a project which includes space for a joint-use library, the board shall evaluate the application disregarding any space in the proposed library facility which is beyond the needs of the district, provided the application contains a copy of the contract specified in subdivision (a), and provided that the contract contains at least the following:

(1) Agreement that the county or other appropriate entity shall deposit in the county school lease-purchase fund, created pursuant to Section 17034, an amount equal to the total cost of any space in the proposed library facility which is beyond the needs of the district, prior to the signing of the construction contract for the project. The deposit shall not be refundable, except to the extent that it may prove subsequently to be in excess of the actual total cost of the space which is beyond the needs of the district.

(2) Agreement between the district and the county or other appropriate entity regarding staffing, maintenance, materials acquisition, and other matters related to the administration and operating costs of the joint-use facility.

(3) Agreement between the district and the county or other appropriate entity regarding the procedure for amendment or termination of the contract, including the disposition of materials housed in the joint-use facility should termination of the contract occur.

(d) Any space in a joint-use library which is beyond the needs of the district shall not be included by the board in any calculations made for any other purposes provided for in this article for the period of time that the contract for that joint-use facility remains in effect. Should the contract be terminated, the board shall include the additional space in any calculations made after the termination for any other purposes provided for in this article.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17051. Joint use of facilities; agreements; contents; evaluation of project applications

(a) A district may enter into an agreement with another governmental entity that includes some or all of the territory of the district for the purpose of the joint use of park and recreation facilities, including an auditorium, or commercial or industrial facilities.

(b) If the board receives an application for a project that includes some or all of the territory of the district for the purpose of the joint use of park and recreation facilities or commercial or industrial facilities, the board shall evaluate the application disregarding any space in the proposed joint-use facility that is beyond the needs of the district if the application contains a copy of the agreement specified in subdivision (a) and if the contract contains at least the following:

(1) An agreement that the county or other appropriate entity shall deposit in the county school lease-purchase fund, created pursuant to Section 17034, an amount equal to the total cost of any space in the proposed joint-use facility that is beyond the needs of the district, prior to the signing of the construction contract for the project. The deposit shall not be refundable, except to the extent that it may prove subsequently to be in excess of the actual total cost of the space that is beyond the needs of the district.

(2) An agreement between the district and the county or other appropriate entity regarding staffing, maintenance, materials acquisition, and other matters related to the administration and operating costs of the joint-use facility.

(3) An agreement between the district and the county or other appropriate entity regarding the procedure for amendment or termination of the contract, including the disposition of materials housed in the joint-use facility should termination of the contract occur.

(c) Any space in a joint-use facility that is beyond the needs of the district shall not be included by the board in any calculations made for any other purposes provided for in this article for the period of time that the contract for that joint-use facility remains in effect. If the contract is terminated, the board shall include the additional space in any calculations made after the termination for any other purposes provided for in this article.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17052. State Allocation Board; funding of joint-use projects to construct libraries, multipurpose rooms, and gymnasiums; application for funding

(a) Notwithstanding any other provision of law, the State Allocation Board may fund joint-use projects to construct libraries, multipurpose rooms, and gymnasiums, on school campuses where these facilities are used jointly for both school and community purposes.

(b) A school district may apply to the State Allocation Board for funding under this section if it meets all of the following requirements:

(1) The school does not have the type of facility for which it seeks funding.

(2) The school district agrees to provide local matching funds for 50 percent of the eligible cost of the facility as set forth in subdivision (c), and 100 percent local or joint-use funding for all costs that exceed that standard, as required by subdivision (d).

(3) The school district has obtained approval of the plans for the facility from the Division of the State Architect and the State Department of Education.

(4) The school district has entered into a joint-use agreement with its joint-use partner that specifies the method for sharing capital and operating costs, specifies relative responsibilities for the operation and staffing of the facility, and specifies the manner in which the safety of school pupils will be maintained during school hours.

(5) The school district demonstrates that the facility will be used to the maximum extent possible for school and community purposes after regular school hours.

(c) The State Allocation Board shall establish standards for the amount of funding to be made available for each project under this section. The funding standards may be expressed as per-square-foot cost limits or per-pupil cost limits or both.

(d) Notwithstanding any other provision of this chapter, project costs may exceed the board's standards set forth in subdivision (c) if the excess is paid completely by local or joint-use partnership sources.

(e) On July 1 of each year the board shall apportion to qualifying applicant school districts those funds that it determines are available for the purposes of this section.

(f) The board may establish priority standards to govern the order of funding projects. If applications exceed available funding, the board shall give priority to applications where the size of the project is increased by at least 30 percent beyond minimum essential facilities through the use of additional funding from a joint-use partner.

(Added by Stats.2000, c. 753 (S.B.1795), § 2.)

§ 17055. Authorization for project funding to construct; design features

(a) The board shall authorize project funding under this chapter for the construction, in urban areas in which the construction of schools would ordinarily require the removal of residential, commercial, or industrial structures, of four elementary or junior high schools, or any combination thereof, none of which serve any of the grades 10 to 12, inclusive.

(b) The construction funded pursuant to subdivision (a) shall be designed to minimize the need for the relocation of inhabitants of residential, commercial, or industrial structures. The design features of the schools may include, but should not be limited to, the use of below-ground facility construction, multistory construction, multiuse construction where single-use construction currently exists, the joint use of facilities that otherwise involve such uses as a shopping center, office complex, or apartment building, the joint or dual use of land that otherwise involves park or other uses, overhead or underground parking, or the use of areas above or below streets or freeways.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17056. Application for project by school district; duties after approval

Any school district that is a project applicant under this chapter may apply for the funding of a school specifically under this article, pursuant to which it may be approved by the board for funding only to the extent of its project eligibility under this chapter. The governing board of each district for which that funding is approved by the board shall do all of the following, in the order specified:

(a) Identify an area within the district that it determines to be appropriate for the construction of a school that meets the purposes of this article.

(b) Establish criteria for the purpose of identifying the school design that will most effectively accomplish the purposes of this article and the needs of the district. The district shall thereupon issue, in a manner approved by the board, a request for architectural design proposals incorporating those criteria.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17058. Maximum cost of projects

The cost of any project funded under this article shall not exceed the maximum cost that would otherwise be allowable for a project funded under this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17059. Legislative findings and declarations

The Legislature finds and declares as follows:

(a) In many areas of the state, overcrowding in the schools has created a need for new school facilities in neighborhoods where little or no vacant land exists. School districts are compelled, therefore, to acquire property that already has been developed with structures, then demolish these structures and construct classroom space.

(b) With an estimated statewide need for school facilities within the next five years that exceeds fourteen billion dollars (\$14,000,000,000), neither state nor local funds reasonably can be anticipated to meet this need.

(c) In many of the areas having overcrowded schools, a significant supply exists of vacant space in structures meeting current building codes.

(d) Use of this vacant space by schools can be a cost-effective means of providing classroom space for the students of California.

(e) This chapter and Section 4-306 of Part 1 of Title 24 of the California Code of Regulations authorize the reconstruction of existing commercial buildings for school facility purposes.

(f) No existing commercial building shall be considered for reconstruction for school facility classroom purposes unless it was designed and constructed according to the standards established in the 1976 Uniform Building Code or subsequent editions of that code.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17059.1. School district; commercial building conversion; new construction funding use

In a manner that is consistent with this chapter and the California Code of Regulations, a school district that is eligible for an apportionment for project funding for new construction under this chapter may use that apportionment for the acquisition and conversion of an existing commercial building to school facility purposes.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17059.2. State Allocation Board; school district advice and assistance

The State Allocation Board in conjunction with the office of the State Architect shall advise all school districts in the state of the existence of the procedure for reconstructing existing commercial buildings for school facility purposes and shall upon request assist in the interpretation and successful implementation of the pertinent regulations in the California Code of Regulations.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17060. Joint venture agreements

(a) A school district may enter into a joint venture relationship for the purposes of school facilities construction. Notwithstanding any other provision of this chapter, a school district entering into a joint venture relationship does so as an independent entity and not as an agent of the State Allocation Board.

(b) For the purposes of this article, "joint venture" means a collaborative undertaking by two or more persons or organizations for a specific project or projects, having the legal characteristics of a partnership.

(c) The joint venture relationship may, but is not required to, include any of the following:

(1) Joint use of the property of, or facilities on, the project site.

(2) Ground leases, alternative financing arrangements, or similar financing arrangements.

(3) A construction arrangement in which a school district enters into an agreement with a developer pursuant to which the school district initially stipulates the basic performance and programmatic criteria for the facility and the developer provides input into the design work and building construction services by entering into a contract with a single source team to administer the project in a manner consistent with state law, and construct the project to, under most circumstances, a maximum price.

(d) The price for the portion of the project that is funded by the state shall be established through a bidding process as approved by the State Allocation Board. All subcontract trade groups that are included within the project, shall be determined based upon competitive bidding for each contract group. All subcontracts shall be awarded to the lowest responsible bidder.

(e) The proposed uses of any facilities constructed under the joint venture project shall not be inconsistent with educational purposes and activities.

(f) The cost of any project funded under this article shall not exceed the maximum cost that would otherwise be allowable for a project funded under this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17061. Applications for funding; requests for proposals

(a) A school district may apply to the State Allocation Board for funding for the costs of property acquisition and the cost of construction, as specified in this chapter, of the school facilities portion of a joint venture project. The school district shall publicly solicit proposals for the joint venture project pursuant to the procedures set forth in this section and Sections 17062, 17521, 17522, and 17523.

(b) Upon review of the application for funding, the State Allocation Board shall establish the maximum allowances for construction of the school facilities portion of the joint venture project. For the purpose of calculating allowances pursuant to Article 3 (commencing with Section 17040), the State Allocation Board shall use the information used to determine the allowances for the school district at the time the district received approval of funds under this chapter to acquire property on which the school facilities will be constructed, or at the time an application is made pursuant to subdivision (a), whichever is earlier.

(c) The State Allocation Board may approve, in whole or in part, an application submitted by a school district pursuant to this section in an amount the State Allocation Board may deem appropriate, not to exceed the amount applied for, subject to final approval of the joint venture agreement pursuant to Section 17063.

(d) For purposes of this section, and the process referred to in subdivision (a), a school district joint venture request for proposals shall include, but not necessarily be limited to, all of the following:

(1) A specific description of the school buildings or land, or both, to be constructed or utilized under the joint venture and a description of how the costs of the project have been determined.

(2) The identification of the current educational uses of the school buildings or land, or both, and of the educational uses proposed under the joint venture.

(3) The identification of the current noneducational uses of the proposed school buildings or land, or both, and of the noneducational uses proposed under the joint venture, and a specific assessment of the compatibility of those uses with any applicable general or specific governmental land use plan and with applicable zoning restrictions.

(4) A description of the prospective economic benefits to be derived by the school district from the joint venture.

(5) A description of the prospective educational benefits to be derived by the school district from the joint venture.

(6) A request that each request for proposal response include a comprehensive description of the joint venture, including, but not limited to, a description of the intended means of financing the joint venture.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17062. Joint venture agreements; liens on schoolsites

(a) Notwithstanding Sections 20111 and 20118.4 of the Public Contract Code, or any other law, upon approval of funding pursuant to Section 17061, a school district may utilize a request for qualifications and proposal process described in subdivision (a) of Section 17061 to select and enter into a joint venture agreement with a developer to construct school facilities. The agreement may utilize Section 17406.

(b) The joint venture agreement shall include, but not be limited to, all of the following terms:

(1) The cost of the project approved by the State Allocation Board pursuant to Section 17061 as the amount that the district will pay to the developer pursuant to the joint venture agreement upon completion of the project, if applicable.

(2) A detailed description of the project, including, but not limited to, the school facilities and any other facilities that may be included in the project and any other information necessary to meet the requirements of this chapter.

(3) The timeframe for completion of the project.

(4) A requirement that there shall be no state liability if funds are not made available within the four-year period specified in subdivision (a) of Section 17063.

(c) The joint venture agreement may also include a requirement that if the actual cost of constructing the school facility project designated in the agreement exceeds the amount set forth in that agreement, the developer shall be responsible for the additional expense.

(d) The lien placed on a schoolsite pursuant to this chapter shall only attach to that portion of the project for which state funds are actually expended. In addition, the lien shall expressly recognize any subordinate property interest created by the joint venture, and the state lien shall not be foreclosed or otherwise used to terminate the property interest, or any subordinate financing liens incidental thereto, created by the joint venture. The document creating that lien on a schoolsite shall be written in a manner to clearly prohibit assumption of any state liability resulting from the lien.

(e) Notwithstanding subdivision (d), the nondisturbance of subordinate property interests permitted in subdivision (d) shall not permit the foreclosure or other private taking of actual school facilities or property paid for with state funds in a manner that would restrict, terminate, or impair the school facilities portion of the joint venture or the school district's use thereof.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17063. Joint venture agreements; review; approval

Upon completion of the joint venture agreement pursuant to Section 17062, the school district shall transmit the agreement to the State Allocation Board for final review to determine whether the agreement is consistent with the project approval pursuant to Section 17061. The State Allocation Board shall act to approve or disapprove the complete agreement within 60 days following submission of the complete proposal to the State Allocation Board. The approval or disapproval relates to only the decision by the State Allocation Board to fund the school portion of the joint venture project and is not to be construed as an approval or disapproval of the terms and conditions of the joint venture agreement nor as authority for the school district to act as the agent of the State Allocation Board. The State Allocation Board is not made a party to the joint venture agreement and shall not incur liability under the joint venture agreement through its approval or disapproval of the agreement. The joint venture shall indemnify and hold harmless the State Allocation Board and its officers, agents, and employees from any loss or liability, including reasonable attorneys fees and costs, caused by the joint venture arising out of, or in relation to, any contract entered into by the joint venture in furtherance of the joint venture project. The date of approval by the State Allocation Board of the project shall be the date of funding eligibility for the project. The apportionment of funds for the eligible project shall be made at any point up to four years following the date of funding eligibility subject to the availability of funds for this purpose. If the state funds are not available within that four-year period, the school district may at its option remain in the funding cycle, subject to other provisions of this chapter, until the school district receives all of the funds it is eligible to receive pursuant to this article as of the date of funding eligibility. The district's eligibility for reimbursement of authorized costs and the district's position in the processing schedule for the reimbursement shall be established as the date of project approval by the State Allocation Board. The exact amount of the reimbursement shall be determined at the conclusion of the project and shall be based upon the actual subcontract trade bids and other costs allowable pursuant to Section 17019.3.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17064. Selection of design professionals

The selection of any design professional pursuant to this article shall be made in accordance with Chapter 10 (commencing with Section 4525) of Division 5 of Title 1 of the Government Code.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17065. Design and construction of school facilities

The design and construction of school facilities pursuant to this article shall comply with Article 3 (commencing with Section 17280) of Chapter 2 of Part 10.5.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17066. Prevailing wage requirements

This article does not affect any requirement of a school district to comply with the prevailing wage requirements of Article 2 (commencing with Section 1770) of Chapter 2 of Part 7 of Division 2 of the Labor Code with respect to the school facilities portion of a joint venture project under this article.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17070.10. Short title

This chapter shall be known, and may be cited, as the Leroy F. Greene School Facilities Act of 1998.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17070.15. Definitions

The following terms, wherever used or referred to in this chapter, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) "Apportionment" means a reservation of funds for the purpose of eligible new construction, modernization, or hardship approved by the board for an applicant school district.

(b) "Attendance area" means the geographical area serving an existing high school and those junior high schools and elementary schools included therein.

(c) "Board" means the State Allocation Board as established by Section 15490 of the Government Code.

(d) "Department" means the Department of General Services.

(e) "Committee" means the State School Building Finance Committee established pursuant to Section 15909.

(f) "Modernization" means any modification of a permanent structure that is at least 25 years old, or in the case of a portable classroom, that is at least 20 years old, that will enhance the ability of the structure to achieve educational purposes.

(g) "Property" includes all property, real, personal or mixed, tangible or intangible, or any interest therein necessary or desirable for carrying out the purposes of this chapter.

(h) "School district" means a school district or a county office of education. For purposes of determining eligibility under this chapter, "school district" may also mean a high school attendance area.

(i) "Fund" means the 1998 State School Facilities Fund, the 2002 State School Facilities Fund,¹ or the 2004 State School Facilities Fund,² as the case may be, established pursuant to Section 17070.40.

(j) "County fund" means a county school facilities fund established pursuant to Section 17070.43.

(k) "Portable classroom" means a classroom building of one or more stories that is designed and constructed to be relocatable and transportable over public streets, and with respect to a single story portable classroom, is designed and constructed for relocation without the separation of the roof or floor from the building and when measured at the most exterior walls, has a floor area not in excess of 2,000 square feet.

(l) "School building capacity" means the capacity of a school building to house pupils.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.1999, c. 858 (A.B.695), § 4; Stats.2002, c. 33 (A.B.16), § 1, eff. April 29, 2002.)

§ 17070.33. Guidelines for construction cost reductions

(a) The board shall adopt guidelines for use by districts by June 30, 1999, to achieve measurable reductions in the costs of school facilities construction.

(b) The guidelines shall include, but need not be limited to, all of the following:

- (1) Mechanisms designed to reduce the costs of professional fees.
- (2) Mechanisms designed to reduce the costs of site preparation.
- (3) Recommendations for the use of alternate cost-saving construction materials and methods.
- (4) Recommendations regarding the joint use of core facilities.
- (5) Mechanisms designed to reduce costs by incorporating efficiencies in schoolsite design.
- (6) Recommendations regarding the use of cost-effective, efficient reusable facility plans.

(c) If a school district's matching funds include fees charged pursuant to Section 17620 or pursuant to Section 65995.5 or 65995.7 of the Government Code, or if a district receives funds pursuant to this chapter, the district shall consider the guidelines developed pursuant to this section as fully as is practicable.

(d) When the board adopts the guidelines, it shall not include any recommendation that would have a significant detrimental effect on educational programs.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17070.40. Creation of state funds

(a)(1) A fund is hereby established in the State Treasury to be known as the 1998 State School Facilities Fund. All money in the fund, including any money deposited in that fund from any source whatsoever, and notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to this chapter.

(2) The State Allocation Board may apportion funds to school districts for the purposes of this chapter from funds transferred to the 1998 State School Facilities Fund from any source.

(3) The board may make apportionments in amounts not exceeding those funds on deposit in the 1998 State School Facilities Fund, and any amount of bonds authorized by the committee, but not yet sold by the Treasurer.

(4) The board may make disbursements pursuant to any apportionment made from any funds in the 1998 State School Facilities Fund, irrespective of whether there exists at the time of the disbursement an amount in the 1998 State School Facilities Fund sufficient to permit payment in full of all apportionments previously made. However, no disbursement shall be made from any funds required by law to be transferred to the General Fund.

(b)(1) A fund is hereby established in the State Treasury to be known as the 2002 State School Facilities Fund.¹ All money in the fund, including any money deposited in that fund from any source whatsoever, and notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to this chapter.

(2) The State Allocation Board may apportion funds to school districts for the purposes of this chapter from funds transferred to the 2002 State School Facilities Fund from any source.

(3) The board may make apportionments in amounts not exceeding those funds on deposit in the 2002 State School Facilities Fund, and any amount of bonds authorized by the committee, but not yet sold by the Treasurer.

(4) The board may make disbursements pursuant to any apportionment made from any funds in the 2002 State School Facilities Fund, irrespective of whether there exists at the time of the disbursement an amount in the 2002 State School Facilities Fund sufficient to permit payment in full of all apportionments previously made. However, no disbursement shall be made from any funds required by law to be transferred to the General Fund.

(c)(1) A fund is hereby established in the State Treasury to be known as the 2004 State School Facilities Fund.² All money in the fund, including any money deposited in that fund from any source whatsoever, and notwithstanding Section 13340 of the Government Code, is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to this chapter.

(2) The State Allocation Board may apportion funds to school districts for the purposes of this chapter from funds transferred to the 2004 State School Facilities Fund from any source.

(3) The board may make apportionments in amounts not exceeding those funds on deposit in the 2004 State School Facilities Fund, and any amount of bonds authorized by the committee, but not yet sold by the Treasurer.

(4) The board may make disbursements pursuant to any apportionment made from any funds in the 2004 State School Facilities Fund, irrespective of whether there exists at the time of the disbursement an amount in the 2004 State School Facilities Fund sufficient to permit payment in full of all apportionments previously made. However, no disbursement shall be made from any funds required by law to be transferred to the General Fund.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.2002, c. 33 (A.B.16), § 3, eff. April 29, 2002.)

§ 17070.50. Conditions for apportionment

The board shall not apportion funds to any school district, unless the applicant school district has certified to the board that the services of any architect, structural engineer, or other design professional for any work under the project have been obtained pursuant to a competitive process that is consistent with the requirements of Chapter 10 (commencing with Section 4525) of Division 5 of Title 1 of the Government Code and has obtained the written approval of the State Department of Education that the site selection, and the building plans and specifications, comply with the standards adopted by the department pursuant to subdivisions (b) and (c), respectively, of Section 17251.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.1999, c. 992 (A.B.387), § 1.)

§ 17070.51. Falsely certified eligibility or funding applications relating to information; notification to board; penalties

(a) If any certified eligibility or funding application related information is found to have been falsely certified by school districts, architects or design professionals, hereinafter referred to as a material inaccuracy, the Office of Public School Construction shall notify the board.

(b) The board shall impose the following penalties if an apportionment and fund release has been made based upon information in the project application or related materials that constitutes a material inaccuracy.

(1) Pursuant to a repayment schedule approved by the board of no more than five years, the school district shall repay to the board, for deposit into the 1998 State School Facilities Fund, the 2002 State School Facilities Fund,¹ or the 2004 State School Facilities Fund,² as the case may be, an amount proportionate to the additional funding received as a result of the material inaccuracy including interest at the rate paid on moneys in the Pooled Money Investment Account or at the highest rate of interest for the most recent issue of state general obligation bonds as established pursuant to the Chapter 4 (commencing with Section 16720), of Part 3 of Division 4 of Title 2 of the Government Code, whichever is greater.

(2) The board shall prohibit the school district from self-certifying certain project information for any subsequent applications for project funding for a period of up to five years following the date of the finding of a material inaccuracy or until the district's repayment of the entire amount owed under paragraph (1). Although a school district that is subject to this paragraph may not self-certify, the school district shall not be prohibited from applying for state funding under this chapter. The board shall establish an alternative method for state or independent certification of compliance that shall be applicable in these cases. The process shall include, but shall not be limited to, procedures for payment by the school district of any increased costs associated with the alternative certification process.

(c) For school districts found to have provided material inaccuracies when a funding apportionment has occurred, but no fund release has been made, the board shall direct its staff to reduce the apportionment as necessary to reflect the actual nature of the project and to disregard the inaccurate information or material, and paragraph (2) of subdivision (b) shall apply.

(d) For those school districts found to have provided material inaccuracies when no funding apportionment or fund release has been made, the inaccurate information or materials shall not be considered, and paragraph (2) of subdivision (b) shall apply. The project may continue if the application, minus the inaccurate materials, is still complete.

(Added by Stats.2000, c. 590 (S.B.2066), § 1. Amended by Stats.2002, c. 33 (A.B.16), § 5, eff. April 29, 2002.)

§ 17070.55. Department of Education's assistance

Upon request of any school district, the State Department of Education shall provide assistance in the evaluation and utilization of existing school facilities and the justification of the need for schoolsites, new facilities, and the rehabilitation or replacement of existing facilities, in accordance with board regulations.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17070.60. Liability of board

Funding decisions made by the board shall not, in themselves, make the board liable for any tort, breach of contract, or any other action for damages caused by a school district arising from new construction or modernization by the district. These contracts include, but are not limited to, contracts between the school district and its construction contractors, construction managers, architects, or engineers. The school district shall be liable for all torts, breaches of contract, or any other actions for damages caused by the school district.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17070.63. State's full and final contribution

(a) The total funding provided under this chapter shall constitute the state's full and final contribution to the project and for eligibility for state facilities funding represented by the number of unhoused pupils for which the school district is receiving the state grant. As a condition of receipt of funds, a school district shall certify that the grant amount, combined with local funds, shall be sufficient to complete the school construction project for which the grant is intended.

(b) Any funds provided to a school district under any article in this chapter may not be counted towards the local match for receipt of funds under any other article in this chapter.

(c) Any savings achieved by the district's efficient and prudent expenditure of these funds shall be retained by the district in the county fund for expenditure by the district for other high priority capital outlay purposes.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17070.70. Title to property

(a) Title, including, but not limited to, any leasehold interest as set forth in subdivision (c), to all property acquired, constructed, or improved with funds made available under this chapter shall be held by the school district to which the board grants the funds. Title, as defined solely for the purpose of a school district's eligibility to receive funds from the board pursuant to this chapter shall include an order for prejudgment possession issued by a court in an eminent domain proceeding.

(b) The applicant school district shall comply with all laws pertaining to the construction, reconstruction, or alteration of, or addition to, school buildings.

(c) Notwithstanding Section 17009.5, construction or modernization funds made available pursuant to this chapter may be expended upon property that is leased to the applicant school district only if the project qualified for and received approval by the board, prior to November 4, 1998, pursuant to Article 4 (commencing with Section 17055), of Chapter 12.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.2000, c. 127 (A.B.2866), § 7, eff. July 10, 2000; Stats.2002, c. 33 (A.B.16), § 7, eff. April 29, 2002.)

§ 17070.71. Funding on construction or modernization upon real property leased by school district; conditions

(a) Notwithstanding subdivision (a) of Section 17070.70, new construction or modernization funded pursuant to this chapter may be upon real property leased to the applicant school district if all of the following conditions are met:

(1) The property is leased from another governmental entity.

(2) The term of the lease is for at least 40 years after approval of the project under this chapter, or the school district has a lease for at least 25 years on federal property. The board may authorize a lesser term, of not less than 30 years only if the board finds that granting an exception to this requirement would be in the state's best interest.

(b) The applicant school district, and the facility on leased land, if any, shall comply with all laws pertaining to the construction, reconstruction, or alteration of, or addition to, schoolsites and school buildings.

(c) Lease costs are not eligible project or site acquisition costs under this chapter.

(Added by Stats.2000, c. 530 (A.B.2408), § 1, eff. Sept. 19, 2000.)

§ 17070.75. Maintenance of facilities

(a) The board shall require the school district to make all necessary repairs, renewals, and replacements to ensure that a project is at all times kept in good repair, working order, and condition. All costs incurred for this purpose shall be borne by the school district.

(b) In order to ensure compliance with subdivision (a) and to encourage school districts to maintain all buildings under their control, the board shall require an applicant school district to do all of the following prior to the approval of a project:

(1) Establish a restricted account within the school district's general fund for the exclusive purpose of providing moneys for ongoing and major maintenance of school buildings, according the highest priority to funding for the purposes set forth in subdivision (a).

(2) Agree to deposit into the account established pursuant to paragraph (1), in each fiscal year for 20 years after receipt of funds under this chapter, a minimum amount equal to or greater than 3 percent of the applicant school district's total general fund expenditures, including other financing uses, for that fiscal year. For the 1998-99 fiscal year and the 1999-2000 fiscal year, a school district may phase in this requirement by agreeing to certify the deposit of no less than 2 percent for the 1998-99 fiscal year and no less than 2½ percent for the 1999-2000 fiscal year. Annual deposits to the fund established pursuant to paragraph (1) in excess of 2½ percent of the district general fund budget may count towards the district's matching funds requirement necessary to receive apportionments from the State School Deferred Maintenance Fund pursuant to Section 17584 to the extent that funds are used for purposes that qualify for funding under that section. In addition, any district contribution to this fund may be provided in lieu of meeting the ongoing maintenance requirements pursuant to Section 17014 to the extent the funds are used for purposes established in that section. A school district that serves as the administrative unit for a special education local plan area may elect to exclude from its total general fund expenditures, for purposes of this paragraph, the distribution of revenues that are passed through to participating members of the special education local plan area. This paragraph is applicable only to the following school districts:

(A) High school districts with an average daily attendance greater than 300 pupils.

(B) Elementary school districts with an average daily attendance greater than 900 pupils.

(C) Unified school districts with an average daily attendance greater than 1,200 pupils.

(3) Certify that it has publicly approved an ongoing and major maintenance plan that outlines the use of the funds deposited, or to be deposited, pursuant to paragraph (2). The plan may provide that the district need not expend all of its annual allocation for ongoing and major maintenance in the year in which it is deposited if the cost of major maintenance requires that the allocation be carried over into another fiscal year. However, any state funds carried over into a subsequent year shall not be counted toward the annual minimum contribution by the district. A plan developed in compliance with this section shall be deemed to meet the requirements of Section 17585.

(c) A district to which paragraph (2) of subdivision (b) does not apply shall certify to the board that it can reasonably maintain its facilities with a lesser level of maintenance.

(d) For the purposes of calculating a county office of education requirement pursuant to this section, the 3 percent maintenance requirement shall be calculated based upon the county office of education general fund less any restricted accounts.

(Added by Stats.1998, c. 407 (S.B.50) § 4, eff. Aug. 27, 1998. Amended by Stats.1999, c. 858 (A.B.695), § 5; Stats.2001, c. 1235 (S.B.804), § 10, eff. Oct. 11, 2001.)

§ 17070.77. Certification of compliance with plan adopted pursuant to § 17070.75 for completing major maintenance requirements for funded project; "Major maintenance" defined; components necessary for certification

(a) For each project funded after January 1, 2002, the board shall require the applicant school district governing board to certify, as part of the school district's annual budget process and beginning in the fiscal year in which the project is funded by the state, that it is in compliance with the plan adopted pursuant to paragraph (3) of subdivision (b) of Section 17070.75 for completing major maintenance requirements for the project.

(b) For purposes of this chapter, the term "major maintenance" means all actions necessary to keep roofing, siding, painting, floor and window coverings, fixtures, cabinets, heating and cooling systems, landscaping, fences, and other items designated by the governing board of the school district in good repair.

(c) The board shall require the school district's governing board to certify that the plan includes and is being implemented with all of the following components:

- (1) Identification of the major maintenance needs for the project.
- (2) Specification of a schedule for completing the major maintenance.
- (3) Specification of a current cost estimate for the scheduled major maintenance needs.
- (4) Specification of the school district's schedule for funding a reserve to pay for the scheduled major maintenance needs.
- (5) Review of the plan annually, as a part of the school district's annual budget process, and update, as needed, the major maintenance needs, the estimates of expected costs, and any adjustments in funding the reserve.
- (6) Availability for public inspection of the original plan, and all updated versions of the plan, at the office of the superintendent of the school district during the working hours of the school district.
- (7) Provision in the school district's annual budget for the reserve that contains the total funding available for scheduled major maintenance needs as specified in the updated plan, and an explanation if this amount of the reserve is less than that specified in the updated plan.

(Added by Stats.2001, c. 194 (A.B.1558), § 1.)

§ 17070.80. Facilities for exceptional needs pupils

(a) All school facilities purchased or newly constructed pursuant to this chapter for use, in whole or in part, by pupils who are individuals with exceptional needs, as defined in Section 56026, shall be designed and located on the schoolsite so as to maximize interaction between those individuals with exceptional needs and other pupils as appropriate to the needs of both.

(b) The governing board of each applicant school district and the county office of education shall ensure that school facilities for pupils who are individuals with exceptional needs are integrated with other school facilities.

(c) The State Allocation Board, after consultation with the State Department of Education and representatives from county offices of education, special education services regions, and school districts, shall develop and adopt any regulations necessary to implement this section.

(d) Notwithstanding any other provision of law, the requirement set forth in subdivision (a) may be waived, by the Superintendent of Public Instruction, only upon compliance with the following procedure:

(1) The applicant school district or county superintendent of schools shall file a written request for waiver that documents the reasons for its inability to comply with the requirement.

(2) The State Department of Education shall verify the reasons set forth pursuant to paragraph (1), including the documentation submitted, which verification shall be completed no later than 30 days after the filing of the request for waiver with the Superintendent of Public Instruction.

(3) The Advisory Commission on Special Education, as established under Section 33590, at its first scheduled meeting following the verification conducted pursuant to paragraph (2), shall review the request for waiver, accompanying documentation, and the verification findings of the State Department of Education. No later than 15 days following the date of that meeting, the commission shall submit its written comments and recommendations regarding the request for waiver to the Superintendent of Public Instruction.

(4) The Superintendent of Public Instruction shall review the comments and recommendations submitted by the Advisory Commission on Special Education prior to approving or rejecting the request for waiver.

(5) Any request for waiver, submitted in accordance with this section, that is not rejected within 60 days of its receipt by the State Department of Education, shall be deemed approved.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17070.90. Joint-use facilities

As a part of its application, a school district shall certify that it has considered the feasibility of the joint use of land and facilities with other governmental entities in order to minimize school facilities costs. Funds provided pursuant to this chapter for growth and modernization may be used for the school portion of joint-use facilities.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17070.95. Application for large construction and modernization projects; certification that school district has considered need for vocational and career technical facilities

As a part of its application for large construction and modernization projects, a school district shall certify, in consultation with the career technical education advisory committee established pursuant to Section 8070, that it has considered the need for vocational and career technical facilities to adequately meet its program needs consistent with Section 51224, subdivision (b) of Section 51225.3, and Section 52336.1. The board shall adopt regulations necessary for administration of this section.

(Added by Stats.2002, c. 33 (A.B.16), § 8, eff. April 29, 2002.)

§ 17070.97. Insurance

The board shall require the school district to insure against public liability or property damage in connection with any facility constructed or modernized with an apportionment under this chapter.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17070.98. Construction management

A school district that does not have employees who possess adequate construction management experience may contract for the provision of construction management, and may use funds provided pursuant to Article 4 (commencing with Section 17072.10), Article 5 (commencing with Section 17072.20), and Article 7 (commencing with Section 17074.10) for the cost of those services as expressly authorized by Section 17072.35 and Section 17074.25.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17071.10. One-time calculations; report on building capacity; newly organized districts

(a) The calculation determined by this article shall be made on a one-time basis, and will be used as the baseline for eligibility determinations pursuant to this chapter.

(b) Each school district that elects to participate in the new construction program pursuant to this chapter shall submit to the board a one-time report of existing school building capacity.

(c) Notwithstanding subdivisions (a) and (b), a school district newly formed , reorganized, or affected by reorganization, pursuant to an election that occurred on or after November 4, 1998, shall calculate or recalculate its existing school building capacity pursuant to regulations adopted by the State Allocation Board.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.1999, c. 857 (A.B.1627), § 1; Stats.1999, c. 858 (A.B.695), § 6.)

§ 17071.25. Existing school building capacity

(a) The existing school building capacity in the applicant school district or, where appropriate, in the attendance area, at the time of initial application shall be calculated pursuant to the following formula:

(1) Identify by grade level all permanent teaching stations existing in the school district or, where appropriate, the attendance area. For the purposes of this section, "teaching station" means any space that was constructed or reconstructed to serve as an area in which to provide pupil instruction, but shall not include portable buildings, except as provided in Section 17071.30.

(2)(A) The assumed capacity of each calculated teaching station pursuant to paragraph (1) shall be 25 pupils for each teaching station used for kindergarten or for grades 1 to 6, inclusive, and 27 pupils for each teaching station used for grades 7 to 12, inclusive.

(B) On or after January 1, 2000, the board may adopt or amend regulations adjusting the assumed capacity set forth in this subparagraph as appropriate for each teaching station used for nonsevere or severe special day class purposes after considering the recommendations of the Legislative Analyst pursuant to Section 17072.15. These special day class capacity adjustments and any adjustment of existing school capacity related to changes in the assumed capacity of special day class teaching stations shall be approved by the Director of Finance prior to implementation.

(C) On or after January 1, 2001, the board may adopt regulations establishing assumed capacity standards after consideration of the recommendations developed by the Director of General Services for continuation high school, community day school, county community school, and county community day school, teaching stations pursuant to Section 17072.17. Teaching station assumed capacity adjustments pursuant to these regulations and any other adjustments of existing school capacity related to changes in the assumed capacity of continuation high school, community day school, county community school, and county community day school, teaching stations shall be approved by the Director of Finance prior to implementation.

(3) Multiply the assumed capacity of each teaching station as specified in paragraph (2) by the number of teaching stations calculated under paragraph (1).

(4) The result of this computation shall be the number of pupils housed by grade level in the existing school building capacity of the applicant school district.

(b) The existing school building capacity of the applicant school district calculated under this section shall not include, in any school operated on a year-round schedule, any teaching station that has been in continuous use during the preceding five-year period primarily for the operation of a preschool program or programs.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.1999, c. 858 (A.B.695), § 7.)

§ 17071.30. Portable classrooms; calculation of existing school building capacity

For purposes of determining the existing school building capacity , each applicant school district shall include each portable classroom, whether owned or leased, except as otherwise provided in subdivision (a) or (b).

(a) Portable classrooms leased pursuant to Chapter 14 (commencing with Section 17085) shall be excluded from the existing school building capacity. Portable classrooms obtained by an applicant district pursuant to subdivision (b) of Section 17088.5 shall be excluded from the existing school building capacity, except as to any portable classroom or classrooms for which the district rejected the board's offer to purchase pursuant to that subdivision.

Portable classrooms leased for a period of less than five years prior to the date of application shall not be included in existing school building capacity.

(b) The number of portable classrooms, reduced by the number of portable classrooms used as interim housing for modernization projects, that exceed 25 percent of the number of permanent classrooms available to the district shall not be included in the existing building capacity.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17071.33. Adjustments to calculations

(a) For the purposes of determining existing school building capacity, the calculation shall be adjusted as required for first priority status pursuant to Section 17017.7 as that calculation would have been made under the policies of the board in effect immediately preceding September 1, 1998.

(b) Notwithstanding subdivision (a), with respect to a high school district, the existing school building capacity shall be calculated without regard to multi-track year-round school considerations.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.2002, c. 33 (A.B.16), § 9, eff. April 29, 2002.)

§ 17071.35. Increase in maximum school building capacity

Notwithstanding any other provisions of law, the maximum school building capacity for each applicant district shall be increased by the number of pupils reported by the Superintendent of Public Instruction for that grade level pursuant to Section 42268. This adjustment shall be calculated on the basis, at the district's option, of either the district as a whole or the appropriate attendance area.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17071.40. Multitrack, year-round schools; exemption

Each school on a year-round, multitrack calendar that has a density of 200 or more pupils enrolled per acre, that is located in a school district with 40 percent of its pupils attending multitrack, year-round schools shall be exempted from the increase in school building capacity required by Section 17071.35. Nothing in this section shall be construed as exempting the school from the requirements of Section 17071.33.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17071.46. Replacement of single story building with multistory building

(a) When an applicant school district proposes to demolish a single story building and replace it with a multistory building on the same site, the State Allocation Board shall provide a supplemental grant for 50 percent of the replacement cost of the single story building to be demolished, if all of the following conditions are met:

(1) The school at which the building demolition and replacement is to occur is operating on a multitrack year-round education schedule.

(2) The cost of the demolition and replacement is less than the total cost of providing a new school facility, including land, on a new site for the additional number of pupils housed as a result of the replacement building, as determined by the State Allocation Board.

(3) The school district will maximize the increase in pupil capacity on the site when it builds the replacement building, subject to the limits imposed on it pursuant to paragraph (4).

(4) The State Department of Education has determined that the demolition of an existing single story building and replacement with a multistory building at the site is the best available alternative and will not create a school with an inappropriate number of pupils in relation to the size of the site, as determined by the State Department of Education.

(b) The State Allocation Board shall establish additional requirements it deems necessary to ensure that the economic interests of the state and the educational interests of the children of the state are protected.

(Added by Stats.2000, c. 458 (A.B.801), § 1. Amended by Stats.2001, c. 159 (S.B.662), § 55.)

§ 17071.75. Ongoing eligibility for new construction funding; calculations

After a one-time initial report of existing school building capacity has been completed, a school district's ongoing eligibility for new construction funding shall be determined by making all of the following calculations:

(a) Each school district that applies to receive funding for new construction shall calculate enrollment projections for the fifth year beyond the fiscal year in which the application is made. Projected enrollment shall be determined by utilizing the cohort survival enrollment projection system, as defined and approved by the board. The board may supplement the cohort survival enrollment projection by the number of unhoused pupils that are anticipated as a result of dwelling units proposed pursuant to approved and valid tentative subdivision maps.

(b) Add the number of pupils that may be adequately housed in the existing school building capacity of the applicant district as determined pursuant to Article 2 (commencing with Section 17071.10) to the number of pupils for which facilities were provided from any state or local funding source after the existing school building capacity was determined pursuant to Article 2 (commencing with Section 17071.10). For this purpose, the total number of pupils for which facilities were provided shall be determined using the pupil loading formula set forth in Section 17071.25.

(c) Subtract the number of pupils pursuant to subdivision (b) from the number of pupils determined pursuant to subdivision (a).

(d) The calculations required to establish eligibility under this article shall result in a distinction between the number of existing unhoused pupils and the number of projected unhoused pupils.

(e) Apply the increase or decrease resulting from the difference between the most recent report made pursuant to Section 42268, and the report used in determining the school district's baseline capacity pursuant to subdivision (a) of Section 17071.25.

(f) For a school district with an enrollment of 2,500, or less, an adjustment in enrollment projections shall not result in a loss of ongoing eligibility to that school district for a period of three years from the date of the approval of eligibility by the board.

(Amended by Stats.2002, c. 935 (A.B.14), § 3.)

§ 17071.76. Computation for each high school attendance area; calculations of combined areas

(a) Whenever the existing school building capacity in any high school attendance area prevents another high school attendance area from receiving the maximum per-unhoused-pupil grant specified for the school district as a whole the eligibility may be computed separately for each high school attendance area.

(b) For the purposes of eligibility, a school district may combine two or more adjacent high school attendance areas pursuant to the following conditions

(1) The funding eligibility is for the construction of a high school, junior high school, or elementary school located or to be located in any of those high school attendance areas.

(2) The high school, junior high school, or elementary school to be constructed is to serve pupils residing in each of those high school attendance areas

(3) The combined eligibility reflects the eligibility to which each of the high school attendance areas would otherwise be entitled, reflecting the proportion of projected pupil enrollment in the school to be constructed, as calculated under this chapter, from each of those attendance areas.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17072.10. Maximum total new construction grant eligibility; calculations

(a) The board shall determine the applicant's maximum total new construction grant eligibility by multiplying the number of unhoused pupils calculated pursuant to Article 3 (commencing with Section 17071.75) in each school district with an approved application for new construction, by the per-unhoused-pupil grant as follows:

- (1) Five thousand two hundred dollars (\$5,200) for elementary school pupils.
- (2) Five thousand five hundred dollars (\$5,500) for middle school pupils.
- (3) Seven thousand two hundred dollars (\$7,200) for high school pupils.

(b) The board shall annually adjust the per-unhoused-pupil apportionment to reflect construction cost changes, as set forth in the statewide cost index for class B construction as determined by the board.

(c) The board may adopt regulations to be effective until July 1, 2000, that adjust the amounts identified in this section for qualifying individuals with exceptional needs, as defined in Section 56026. The regulations shall be amended after July 1, 2000, in consideration of the recommendations provided pursuant to Section 17072.15.

(d) The board may establish a single supplemental per-unhoused-pupil grant in addition to the amounts specified in subdivision (a) based on the statewide average marginal difference in costs in instances where a project requires multilevel school facilities due to limited acreage. The district's application shall demonstrate that a practical alternative site is not available.

(e) For a school district having an enrollment of 2,500 or less for the prior fiscal year, the board may approve a supplemental apportionment of up to seven thousand five hundred dollars (\$7,500) for any new construction project assistance. The amount of the supplemental apportionment authorized pursuant to this subdivision shall be adjusted in 2001 and every year thereafter by an amount equal to the percentage adjustment for class B construction.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.1999, c. 858 (A.B.695), § 9; Stats.2002, c. 33 (A.B.16), § 11, eff. April 29, 2002.)

§ 17072.12. Assistance in site development and acquisition

(a) In addition to the amount provided in Section 17072.10, the board may provide funding for assistance in site development and acquisition if all of the following are met:

(1) The amount of the site acquisition and development assistance does not exceed 50 percent of the cost of site development to the school district, plus the lesser of the following:

(A) 50 percent of the site cost to the school district .

(B) 50 percent of the appraised value of the site within six months of the time the complete application is submitted .

(2) The school district certifies that there is no alternative available site, or that the district plans to sell an available site in order to use the proceeds of the sale for the purchase of the new site.

(b) Notwithstanding subdivision (a), the board may provide funding for assistance in site development and acquisition to a school district that uses land previously acquired by the school district in an amount equal to 50 percent of the cost of site development to the school district, plus 50 percent of the site's appraised value at the time the application for site acquisition and development is submitted, provided all of the following are met:

(1) The site was acquired no less than five years prior to the date the application is submitted.

(2) The site had been productively used by the school district as other than a schoolsite for the five years immediately preceding the date the application is submitted.

(3) The board determines that the nonschool function currently taking place on the site must be discontinued or relocated in order to utilize the site as a schoolsite.

(c) A school district that receives assistance pursuant to subdivision (b) shall, within one year after the completion of the project, certify in writing to the board that the nonschool function was in fact relocated as set forth in paragraph (4) of subdivision (b).

(d) Pursuant to subdivision (b), an applicant school district shall include in its application to the board a cost-benefit analysis performed by the school district demonstrating how utilizing existing nonschoolsite district property pursuant to this section would be a more effective method of solving the school district's pupil housing problems than any other method of funding under this chapter. The board shall review and approve the analysis if the board agrees with the findings and shall consider the analysis and findings in approving the project pursuant to this section.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.2001, c. 647 (A.B.401), § 1.)

§ 17072.13. Site acquisition and hazardous materials evaluation and response action funding

In addition to the amounts provided pursuant to Sections 17072.10 and 17072.12, the board may provide site acquisition and hazardous materials evaluation and response action funding for proposed new schoolsites as follows:

(a)(1) For 50 percent of the cost of the evaluation of hazardous materials at a site to be acquired by a school district and for 50 percent of the other response action costs of the removal of hazardous waste or solid waste, the removal of hazardous substances, or other response action in connection with hazardous substances at that site. Except as provided in subdivision (b), the funding provided pursuant to this section may not exceed 50 percent * * * of the total evaluation and response action costs, including, but not limited to, the costs of the removal of hazardous waste or solid waste, the removal of hazardous substances, or other response action, as determined by the Department of Toxic Substances Control, in connection with hazardous substances at that site, pursuant to standards adopted by the board.

(2) For projects eligible for funding under this subdivision, the total state share of the site acquisition costs, including evaluation and response action, shall not exceed 50 percent of 1½ times the appraised value of the uncontaminated site. However, the board may exceed this maximum for projects that demonstrate circumstances of extreme need.

(b)(1) The board may provide funding for up to 100 percent of the cost of the evaluation of hazardous materials at a site to be acquired by a school district eligible for financial hardship assistance pursuant to Article 8 (commencing with Section 17075.10) and for up to 100 percent of the other response action costs for the site. The funding provided pursuant to this subdivision may not exceed 100 percent of * * * the total evaluation and response action costs, including, but not limited to, the costs of the removal of hazardous waste or solid waste, the removal of hazardous substances, or other response action, as determined by the Department of Toxic Substances Control, in connection with hazardous substances at that site, pursuant to standards adopted by the board.

(2) The board may provide funding pursuant to this subdivision only if the State Department of Education certifies that the site is the best available site considering all of the following factors in relation to other available sites:

(A) The total costs of the project, including, but not limited to, costs of evaluation and response action.

(B) The desirability of the site, considering its proximity to pupils and suitability for meeting the educational and safety needs of the school district.

(C) The time required to fully complete the project in relation to the current and projected need for school facilities.

(3) For projects eligible for funding under this subdivision, the total state share of the site acquisition costs, including evaluation and response action, shall not exceed 100 percent of 1½ times the appraised value of the uncontaminated site. However, the board may exceed this maximum for projects that demonstrate circumstances of extreme need.

(c) A school district with a proposed site that meets the environmental hardship criteria set forth in paragraph (1) may apply to the board for site acquisition, including, but not limited to, evaluation and response action, funding for that site prior to having construction plans for that site approved by the Division of the State Architect and State Department of Education * * *.

(1) A project is eligible for environmental hardship site acquisition funding if both of the following apply:

(A) The * * * preparation and implementation of a response action * * * for the site, to be approved by the Department of Toxic Substances Control * * * pursuant to Section 17213, is estimated by the Department of Toxic Substances Control to take six months or more to complete.

(B) The State Department of Education determines that the site is the best available alternative site.

(2) The initial site-specific reservation pursuant to this subdivision shall be for a period of one year. Extension may be approved in one-year intervals upon demonstration to the State Allocation Board of progress toward acquisition, including, but not limited to, evaluation or response, as the case may be. In the event there is not demonstrable progress, the State Allocation Board shall have the option of rescinding the reservation.

(3) Environmental hardship site acquisition funds approved by the State Allocation Board can be used only for the site identified in the response action approved by the Department of Toxic Substances Control.

(4) The date that the State Allocation Board approves the environmental hardship site acquisition funding will become the State Allocation Board approval date for the project's construction funding for that site.

(5) A school district may apply to the State Allocation Board for construction funding for the environmental hardship site when the project has received final Division of the State Architect plan approval and final State Department of Education site and plan approval.

(d) The cost incurred by the school districts when complying with any requirement identified in this section are allowable costs for purposes of an applicant under this chapter and may be reimbursed in accordance with * * * this section.

(e) The State Allocation Board shall develop regulations that allow school districts with financial hardship site acquisition, including, but not limited to, evaluation and response action, funding prior to ownership of the site or evidence that the site is in escrow.

(Amended by Stats.2002, c. 935 (A.B.14), § 4.)

§ 17072.18. **Removal of hazardous wastes or substances; evaluation and response action funding; application for funding**

(a)(1) The board may provide evaluation and response action funding for response costs of the removal of hazardous waste or solid waste, the removal of hazardous substances, or other response action in connection with hazardous substances at * * * an existing schoolsite, in the same manner as provided in Section 17072.13 * * *.

(2) Funding as set forth in paragraph (1) may be provided to a school district that has not applied for, or received, funds from the board for the acquisition of a new schoolsite, but which has incurred, or will incur, response costs necessary for the development of the * * * existing schoolsite, if the school district is otherwise eligible * * * for funding under this chapter.

(b) A school district may apply for funding pursuant to this section prior to having construction plans for that site approved by the Division of the State Architect or by the State Department of Education if the school district is otherwise eligible for funding under this chapter.

(Amended by Stats.2002, c. 935 (A.B.14), § 5.)

§ 17072.20. Requests for project apportionment; applications; approval

(a) An applicant school district that has been determined by the board to meet the eligibility requirements for new construction funding set forth in Article 2 (commencing with Section 17071.10) or Article 3 (commencing with Section 17071.75) may submit at any time a request to the board for a project apportionment for all or a portion of the funding for which the school district is eligible.

(b) The application shall include, but shall not be limited to, the school district's determination of the amount of state funding that the district is otherwise eligible for relating to site acquisition, site development, new construction, and hardship funding provided pursuant to Article 8 (commencing with Section 17075.10), if any. The amount shall be reduced by the amount of the alternative fee collected pursuant to subdivision (a) of Section 65995.7 of the Government Code if a reimbursement election or agreement pursuant to Section 65995.7 of the Government Code is not in effect.

(c) The board shall verify and adjust, as necessary, and approve the district's application.

* * *

(Amended by Stats.2002, c. 935 (A.B.14), § 6.)

§ 17072.30. Approval of project pursuant to Field Act

Subject to the availability of funds, and to the determination of priority pursuant to Section 17072.25, the board shall apportion funds to an eligible school district only upon the approval of the project by the Department of General Services pursuant to the Field Act, as defined in Section 17281, and certification by the school district that the required 50 percent matching funds from local sources have been expended by the district for the project, or have been deposited in the county fund, or will be expended by the district by the time the project is completed, in an amount at least equal to the proposed apportionment pursuant to this chapter, prior to release of the state funds. (Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17072.32. Release of funds

For any project that has received an apportionment pursuant to Section 17072.30, funding shall be released in amounts equal to the amount of the local match upon certification by the district that the district has entered into a binding contract for completion of the approved project.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17072.33. Site acquisition

In the case of site acquisition, a district may request that the state's share of site assistance be provided to the district in amounts equal to the amount of the local match when the district enters escrow for a site included within a project.
(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17072.35. Use of new construction grant funds

A grant for new construction may be used for any and all costs necessary to adequately house new pupils in any approved project, and those costs may only include the cost of design, engineering, testing, inspection, plan checking, construction management, site acquisition and development, evaluation and response action costs relating to hazardous substances at a new or existing schoolsite, demolition, construction, acquisition and installation of portable classrooms, landscaping, necessary utility costs, utility connections and other fees, equipment including telecommunication equipment to increase school security, furnishings, and the upgrading of electrical systems or the wiring or cabling of classrooms in order to accommodate educational technology. A grant for new construction may also be used to acquire an existing government or privately owned building, or a privately financed school building, and for the necessary costs of converting the government or privately owned building for public school use. (Amended by Stats.2002, c. 935 (A.B.14), § 7.)

§ 17073.10. Submission of application

Each school district that desires to receive an apportionment for modernization under this chapter shall submit an application in a form, and in the number of copies, that the board may require.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17073.15. Eligibility

A school district shall be eligible to receive an apportionment for modernization of permanent school buildings that are more than 25 years old , or in the case of portable classrooms that are at least 20 years old, and that have not been previously modernized with state funding.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17073.20. Age of buildings

Funding may be approved for the modernization of any permanent school building that is more than 25 years old, or, in the case of any portable classroom that is more than 20 years old, as described in Section 17071.30, and that prior to November 4, 1998, had not been previously modernized with state funding.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17074.10. Total eligibility for modernization funding

(a) The board shall determine the total funding eligibility of a school district for modernization funding by multiplying the following amounts by each pupil of that grade level housed in permanent school buildings that are at least 25 years old or portable classrooms that are at least 20 years old, and that have not been previously modernized with state funding:

(1) Two thousand two hundred forty-six dollars (\$2,246) for each elementary pupil.

(2) Two thousand three hundred seventy-six dollars (\$2,376) for each middle school pupil.

(3) Three thousand one hundred ten dollars (\$3,110) for each high school pupil.

(b) The board shall annually adjust the factors set forth in subdivision (a) according to the adjustment for inflation set forth in the statewide cost index for class B construction, as determined by the board.

(c) The board may adopt regulations to be effective until July 1, 2000, that adjust the amounts identified in this section for qualifying individuals with exceptional needs, as defined in Section 56026. The regulations shall be amended after July 1, 2000, in consideration of the recommendations provided pursuant to Section 17072.15.

(d) It is the intent of the Legislature that the amounts provided pursuant to this article for school modernization do not include funding for administrative and overhead costs.

(e) For a school district having an enrollment of 2,500 or less for the prior fiscal year, the board may approve a supplemental apportionment of up to two thousand five hundred dollars (\$2,500) for any modernization project assistance. The amount of the supplemental apportionment shall be adjusted in 2001 and every year thereafter by an amount equal to the percentage adjustment for class B construction.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.1999, c. 858 (A.B.695), § 12; Stats.2002, c. 33 (A.B.16), § 13, eff. April 29, 2002.)

EDUCATION CODE

§ 17074.15. Release of funds; applications filed on or before April 29, 2002

(a) The board shall release disbursements to school districts with approved applications for modernization, to the extent state funds are available for the state's 80-percent share, and the school district has provided its 20-percent local match. Subject to the availability of funds, the board shall apportion funds to an eligible school district only upon the approval of the project by the Department of General Services pursuant to the Field Act, as defined in Section 17281, including, but not limited to, a project that complies with the Field Act by complying with Section 17280.5, and evidence that the certification by the school district that the required 20-percent matching funds from local sources have been expended by the district for the project, or have been deposited in the county fund or will be expended by the district by the time of completion of the project, and evidence that the district has entered into a binding contract for the completion of that project. If state funds are insufficient to fund all qualifying school districts, the board shall fund all qualifying school districts in the order in which the application for funding was approved by the board.

(b) This section shall apply only to an application filed on or before April 29, 2002, regardless of the source of state bond funding.

(Amended by Stats.2002, c. 935 (A.B.14), § 9.)

§ 17074.16. Release of funds; applications filed after April 29, 2002

(a) The board shall release disbursements to school districts with approved applications for modernization, to the extent state funds are available for the state's 60-percent share, and the school district has provided its 40-percent local match. Subject to the availability of funds, the board shall apportion funds to an eligible school district only upon the approval of the project by the Department of General Services pursuant to the Field Act, as defined in Section 17281, including, but not limited to, a project that complies with the Field Act by complying with Section 17280.5, and evidence that the certification by the school district that the required 40-percent matching funds from local sources have been expended by the district for the project, or have been deposited in the county fund or will be expended by the district by the time of completion of the project, and evidence that the district has entered into a binding contract for the completion of that project. If state funds are insufficient to fund all qualifying school districts, the board shall fund all qualifying school districts in the order in which the application for funding was approved by the board.

(b) This section shall apply only to an application that was filed after * * * April 29, 2002.

(Amended by Stats.2002, c. 935 (A.B.14), § 10.)

EDUCATION CODE

§ 17074.20. Compliance with provisions

As a condition for the receipt of funds under this article, a school district shall ensure that all buildings modernized comply with Sections 17212, 17212.5, and 17213.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17074.25. Use of modernization funds

A modernization apportionment may be used for an improvement to extend the useful life of, or to enhance the physical environment of, the school. The improvement may only include the cost of design, engineering, testing, inspection, plan checking, construction management, demolition, construction, the replacement of portable classrooms, necessary utility costs, utility connection and other fees, the purchase and installation of air-conditioning equipment and insulation materials and related costs, furniture and equipment, including telecommunication equipment to increase school security, fire safety improvements, playground safety improvements, the identification, assessment, or abatement of hazardous asbestos, seismic safety improvements, and the upgrading of electrical systems or the wiring or cabling of classrooms in order to accommodate educational technology. A modernization grant may not be used for costs associated with acquisition and development of real estate or for routine maintenance and repair.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998.)

§ 17074.26. Regulations to adjust per-pupil amounts for school building modernization projects

The board shall adopt regulations to adjust the per-pupil amounts set forth in Section 17074.14 for modernization projects for school buildings that are 50 years old or older based upon the higher costs associated with modernizing older buildings.

(Added by Stats.2002, c. 33 (A.B.16), § 16, eff. April 29, 2002.)

EDUCATION CODE

§ 17074.27. **Modernization apportionment for the control, management, or abatement of lead**

In addition to the uses specified in Section 17074.25, a modernization apportionment may also be used for the control, management, or abatement of lead.

(Added by Stats.2002, c. 1075 (S.B.21), § 2.)

EDUCATION CODE

§ 17074.30. Modernization projects; funding applications made by school districts after January 1, 2004; certifications regarding lead-containing materials and compliance with federal, state, and local standards for lead management

Commencing with applications submitted after January 1, 2004, any school district applying for funding pursuant to this article shall certify that it has considered the potential for the presence of lead-containing materials in the modernization projects and will follow all relevant federal, state, and local standards for the management of any identified lead.

(Added by Stats.2002, c. 1075 (S.B.21), § 3.)

§ 17074.50. New construction projects; modernization projects; fire detection, alarm, and sprinkler systems

(a) On and after July 1, 2002, all new construction projects submitted to the Division of the State Architect pursuant to this chapter, including, but not limited to, hardship applications, that require the approval of the Department of General Services shall include an automatic fire detection, alarm, and sprinkler system as set forth in Section 17074.52 and approved by the State Fire Marshal. These provisions shall entitle the school district to all applicable reductions in code requirements, as provided in the California Building Standards Code (Title 24 of the California Code of Regulations).

(b) On and after July 1, 2002, all modernization projects that have an estimated total cost in excess of two hundred thousand dollars (\$200,000) submitted to the Division of the State Architect pursuant to this chapter, including, but not limited to, hardship applications, that require the approval of the Department of General Services shall include an automatic fire detection and alarm system as set forth in Section 17074.52 and approved by the State Fire Marshal. For a modernization project that is to be completed in more than one phase, the school district may defer installation of the system until the final phase of the modernization project. Solely for purposes of this section, "modernization" means any modification of a permanent structure or construction of a new building on an existing campus.

(c) The Department of General Services shall administer this section based upon the standards adopted by the State Fire Marshal pursuant to Section 17074.52.

(Added by Stats.2001, c. 725 (S.B.575), § 2.)

§ 17074.52. Requirements for fire detection, alarm, and sprinkler systems

(a) For modernization projects, the automatic fire detection and alarm system required pursuant to subdivision (b) of Section 17074.50 shall consist of smoke or heat detectors, or a combination thereof, as determined by the State Fire Marshall, installed in the school building. The alarm, upon activation of an initiating device, shall alert all occupants and shall transmit the alarm signal to an approved supervising station.

(b) For new construction projects, the automatic fire detection, alarm, and sprinkler system required pursuant to subdivision (a) of Section 17074.50, shall in addition to compliance with subdivision (a), include an automatic fire sprinkler system installed in the school building including, but not necessarily limited to, attic spaces.

(c) Notwithstanding Section 17074.50 or subdivisions (a) or (b) of this section, for a stand alone portable building, the system required pursuant to this article shall consist of an automatic fire detection and alarm system. For the purposes of this subdivision a "stand alone portable building" means a portable building that is used as a single classroom and that is sited more than 25 feet from any other building, including, but not limited to, any other portable building.

(d) Except as required for automatic fire detectors and waterflow detection devices, manual fire alarm boxes shall not be required throughout the school building.

(e) The entire system shall be installed, tested, and maintained in accordance with the regulations of the State Fire Marshal.

(Added by Stats.2001, c. 725 (S.B.575), § 2.)

§ 17074.54. Portable buildings

(a) A portable building that is sited with the intent that it be at the site for less than three years and is sited upon a temporary foundation in a manner that is designed to permit easy removal, is exempt from Sections 17074.50 and 17074.52 for a period of three years from the date of siting.

(b) After the three-year exemption set forth in subdivision (a), a school district may request an extension of the exemption for an additional period not to exceed three additional years. The board shall grant the request if the school district presents convincing evidence demonstrating to the satisfaction of the board that the extension is necessary.

(c) For purposes of this section, "portable building" means a classroom building of modular design and construction that meets all of the following criteria:

(1) It is designed and constructed to be relocatable and transportable over public streets.

(2) It is designed and constructed for relocation without detaching the roof or the floor from the building.

(3) It has a floor area of 2,000 square feet or less when measured at the most exterior walls.

(Added by Stats.2001, c. 725 (S.B.575), § 2.)

§ 17074.56. Costs

(a) The State Allocation Board shall adjust the per-pupil grant amount set forth in Section 17072.10 as necessary to accommodate 50 percent of the increased costs due to the automatic fire detection, alarm, and sprinkler system required pursuant to subdivision (a) of Section 17074.50. The board shall adjust the per-pupil grant amount set forth in Section 17074.10 as necessary to accommodate 80 percent of the increased costs due to the automatic fire detection and alarm system required pursuant to subdivision (b) of Section 17074.50. The board shall establish a method to provide up to 100 percent of the increased costs of the automatic fire detection, alarm, and sprinkler, if applicable, systems for school districts which qualify for hardship assistance pursuant to paragraph (1) of subdivision (b) of Section 17075.10.

(b) By July 1, 2003, the board shall review the adequacy of the per-pupil grant adjustments made pursuant to subdivision (a) and shall increase or decrease those adjustments as determined to be necessary.

(c) Any project submitted to the Division of the State Architect on or after September 1, 2001, that includes a qualifying fire detection, alarm, and sprinkler, if applicable, system, and that has not been fully funded prior to July 1, 2002, shall be eligible for grant or eligibility adjustments as set forth in this article.

(Added by Stats.2001, c. 725 (S.B.575), § 2.)

§ 17075.10. Criteria; cost accommodation

(a) A school district may apply for hardship assistance in cases of extraordinary circumstances.

(b) A school district applying for hardship state funding under this article shall comply with either paragraph (1) or (2).

(1) Demonstrate both of the following:

(A) That due to extreme financial, disaster-related, or other hardship the school district has unmet need for pupil housing.

(B) That the school district is not financially capable of providing the matching funds otherwise required for state participation, that the district has made all reasonable efforts to impose all levels of local debt capacity and development fees, and that the school district is, therefore, unable to participate in the program pursuant to this chapter except as set forth in this article.

(2) Demonstrate that due to unusual circumstances that are beyond the control of the district, excessive costs need to be incurred in the construction of school facilities.

(c) The board shall review the increased costs that may be uniquely associated with urban construction and shall adjust the per-pupil grant for new construction, or modernization, hardship applications as necessary to accommodate those costs. The board shall adopt regulations setting forth the standards, methodology, and a schedule of allowable adjustments, for the urban adjustment factor established pursuant to this subdivision.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.2002, c. 33 (A.B.16), § 17, eff. April 29, 2002.)

§ 17075.15. Source and amount of funding; regulations

(a) From funds available from any bond act for the purpose of funding facilities for school districts with a financial hardship, the board may provide other construction, modernization, or relocation assistance as set forth in this chapter or Chapter 14 (commencing with Section 17085) to the extent that severe circumstances may require, and may adjust or defer the local financial participation, as pupil health and safety considerations require to the extent that bond act funds are provided for this purpose.

(b) The board shall adopt regulations for determining the amount of funding that may be provided to a district, and the eligibility and prioritization of funding, under this article.

(c) The regulations shall define the amount, and sources, of financing that the school district could reasonably provide for school facilities as follows:

(1) Unencumbered funds available in all facility accounts in the school district including, but not limited to, fees on development, redevelopment funds, sale proceeds from surplus property, funds generated by certificates of participation for facility purposes, bond funds, federal grants, and other funds available for school facilities, as the board may determine.

(2) The board may exclude from consideration all funds encumbered for a specific capital outlay purpose, a reasonable amount for interim housing, and other funds that the board may find are not reasonably available for the project.

(d) Further, the regulations shall also specify a method for determining required levels of local effort to obtain matching funds. The regulations shall include consideration of at least all of the following factors:

(1) Whether the school district has passed a bond measure within the two-year period immediately preceding the application for funding under this article, the proceeds of which are substantially available for use in the project to be funded under this chapter, but remains unable to provide the necessary matching share requirement.

(2) Whether the school district has a current outstanding bonded indebtedness, which shall include general obligation bonds, Mello-Roos bonds, school facility improvement district bonds, certificates of participation, and other debt instruments upon which the school district is paying a debt service, of at least 60 percent of the school district's total bonding capacity, as determined by the board.

(3) Whether the total bonding capacity, as defined in Section 15102 or 15106, as applicable, is five million dollars (\$5,000,000) or less, in which case, the school district shall be deemed eligible for financial hardship.

(4) Whether the application for funding under this article is from a county superintendent of schools.

(5) Whether the school district submits other evidence of substantial local effort acceptable to the board.

(6) The value of any unused local general obligation debt capacity, and developer fees added to the needs analysis to reflect the district's financial hardship, available for the purposes of school facilities financing.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.2002, c. 33 (A.B.16), § 18, eff. April 29, 2002.)

§ 17076.10. Expenditure reports; school district's failure to make progress

(a) A school district that has received any funds pursuant to this chapter shall submit a summary report of expenditure of state funds and of district matching funds annually until all state funds and district matching funds are expended, and shall then submit a final report to the board. The board may require an audit of these reports or other district records to ensure that all funds received pursuant to this chapter are expended in accordance with program requirements.

(b) If the board finds that a participating school district has made no substantial progress towards increasing its pupil capacity or modernizing its facilities within 18 months of the receipt of any funding pursuant to this chapter, the board shall rescind the apportionment in an amount equal to the unexpended funds.

(c) If the board, after the review of expenditures or audit has been conducted pursuant to subdivision (a), determines that a school district failed to expend funds in accordance with this chapter, the department shall notify the school district of the amount that must be repaid to the 1998 State School Facilities Fund, the 2002 State School Facilities Fund,¹ or the 2004 State School Facilities Fund,² as the case may be, within 60 days. If the school district fails to make the required payment within 60 days, the department shall notify the Controller and the school district in writing, and the Controller shall deduct an amount equal to the amount received by the school district under this subdivision, from the school district's next principal apportionment or apportionments of state funds to the school district, other than basic aid apportionments required by Section 6 of Article IX of the California Constitution. Any amounts obtained by the Controller shall be deposited into the 1998 State School Facilities Fund, the 2002 State School Facilities Fund, or the 2004 State School Facilities Fund, as appropriate.

(d) If a school district has received an apportionment, but has not met the criteria to have funds released pursuant to Section 17072.32 or 17074.15 within a period established by the board, but not to exceed 18 months, the board shall rescind the apportionment and deny the district's application.

(Added by Stats.1998, c. 407 (S.B.50), § 4, eff. Aug. 27, 1998. Amended by Stats.1999, c. 858 (A.B.695), § 13; Stats.2002, c. 33 (A.B.16), § 19, eff. April 29, 2002.)

§ 17076.11. Participation goal; disabled veteran business enterprises

Any school district using funds allocated pursuant to this chapter for the construction or modernization of a school building, shall have a participation goal of at least 3 percent, per year, of the overall dollar amount expended each year by the school district, for disabled veteran business enterprises.

(Added by Stats.1999, c. 133 (A.B.1633), § 1.)

§ 17077.10. School classrooms; telephone connection to a public switched network

(a) It is a goal of the Legislature to eventually enhance pupil safety by equipping all elementary and secondary school classrooms with a telephone hook connected to a public switched network.

(b) The Legislature finds and declares that as of 1999, there are approximately 205,000 classrooms in California's elementary and secondary schools and only a small, undetermined percentage of these classrooms have telephones. The Legislature finds and declares that in order to protect the safety of pupils, schools should be integrated into local emergency, information, and inter-agency health and safety, networks with up-to-date telecommunications systems. Connection to these systems would also facilitate community and parent interaction with teachers and schools, and thereby further enhance pupil safety.

(c) "School building" as used in this section means and includes any building used, or designed to be used, for elementary or secondary school purposes and constructed, reconstructed, altered, or added to, by the state or by any city or city and county, or by any political subdivision, or by any school district of any kind within the state, or by any regional occupational center or program, established by or authorized to act by any agreement under joint exercise of power, or by the United States government, or any agency thereof. This definition includes any fabrication, construction, or alteration of a relocatable school building.

(d) Commencing with applications submitted on or after January 1, 2000, any school district applying for funding pursuant to this chapter shall include in its plans and specifications for the construction or fabrication of a new or modernized school building, that includes the construction or fabrication of new or modernized classrooms, a hard-wired connection to a public switched telephone network in each new or modernized classroom. However, a school district may meet this requirement by utilizing wireless technology equal to a hard-wired connection to a public switched telephone network.

(Added by Stats.1999, c. 709 (A.B.1136), § 1.)

§ 17077.30. New construction or modernization project application; report contents; use; cost

(a) As part of the requirements for submission of an application to the State Allocation Board for funding pursuant to this chapter for any new construction or modernization project, the applicant school district may, at the time of submission of the final drawings to the Division of the State Architect, certify that an energy analysis and report has been prepared that sets forth the utility savings that would be generated if the facilities were designed, constructed, and equipped, with the energy efficiency and renewable technologies that would make the facilities exceed the minimum building energy-efficiency standards mandated for new public buildings pursuant to the latest edition of the California Building Standards Code through the use of energy efficiency and renewable energy technologies.

(b) The energy analysis and report shall include a verifiable life-cycle cost analysis for each proposed energy conservation measure and renewable energy that may include, but need not be limited to, photovoltaic parking lot and security lighting, and solar swimming pool and domestic water heating, showing a return on investment of less than 15 years.

(c) The cost of the energy analyses and reports shall not exceed:

(1) Seven thousand five hundred dollars (\$7,500) per project for elementary schools.

(2) Ten thousand dollars (\$10,000) per project for middle schools.

(3) Fifteen thousand dollars (\$15,000) per project for high schools.

(d) An applicant school district may count the following funds or expenditures toward meeting the local matching funds requirement under this chapter:

(1) The amount from any local sources actually expended on the project by the applicant school district for an energy audit.

(2) The amount actually applied to the project from any incentive, grant, or rebate, received by the applicant school district from a program funded pursuant to Section 381 of the Public Utilities Code.

(Formerly § 17077.10, added by Stats.1999, c. 981 (A.B.1551), § 1. Renumbered § 17077.30 and amended by Stats.2002, c. 33 (A.B.16), § 21, eff. April 29, 2002.)

§ 17077.35. Plan design and other project components with respect to school facility energy efficiency; grant adjustments

(a) An applicant school district may include plan design and other project components that seek school facility energy efficiency approaching the ultimate goal of school facility energy self-sufficiency, and may seek a grant adjustment for the state's share of the increased costs associated with those components.

(b) Energy efficiency components that are eligible for inclusion into a project pursuant to this section include, but are not limited to, conservation, load reduction technologies, peakload shifting, solar water heating technologies as described in subparagraph (A) of paragraph (2) of subdivision (b) of Section 25619 of the Public Resources Code and as rated and certified by the Solar Rating and Certification Corporation, the use of ground source temperatures for heating and cooling, photovoltaics, and technologies that meet the emerging technology eligibility criteria established by the State Energy Resources Conservation and Development Commission pursuant to Section 383.5 of the Public Utilities Code. A project that received funding from the renewable energy program administered by the State Energy Resources Conservation and Development Commission is not eligible for a grant adjustment under this section.

(c) In order to be eligible for the grant adjustment pursuant to this section, the building proposed for the project, including the energy-efficiency and renewable energy measures utilized pursuant to this section, shall exceed the nonresidential building energy-efficiency standards specified in Part 6 (commencing with Section 100) of Title 24 of the California Code of Regulations by an amount not less than 15 percent for new construction projects and not less than 10 percent for modernization projects, and shall be shown to provide sufficient energy savings to return the cost of the initial investment in the project over a period not to exceed seven years. The applicant shall certify that the cost for the project exceeds the amount of funding otherwise available to the applicant under this chapter.

(d) The board shall provide an applicant for a new construction or modernization project with a grant adjustment to provide an increase not to exceed 5 percent of its state grants authorized by Sections 17072.10 and 17074.10 for the state's share of costs associated with design and other plan components related to school facility energy efficiency as set forth in this article.

(Added by Stats.2002, c. 33 (A.B.16), § 22, eff. April 29, 2002.)

§ 17077.40. Grants to fund joint-use projects to construct facilities on kindergarten to grade 12 schoolsites; funding criteria

(a) With funds made available for the purposes of this article, the board may provide a grant to fund joint-use projects to construct facilities on kindergarten to grade 12, inclusive, schoolsites.

(b) A school district may apply to the board for funding under this article for a project that meets any of the following criteria:

(1) The joint-use project is a part of an application for new construction funding under this chapter, and is for the purpose of providing facilities to be used for a kindergarten to grade 12/higher education collaborative effort for any of the following purposes:

(A) To improve pupil academic achievement.

(B) To provide teacher education.

(C) To provide childcare facilities.

(2) The joint-use project is part of an application for new construction funding under this chapter, and will increase the size or extra cost associated with the joint use of the proposed multipurpose room, gymnasium, childcare facility, or library beyond that necessary for school use.

(3) The joint-use project is for a kindergarten to grade 12/higher education collaborative effort to improve academic achievement or provide teacher education, or a multipurpose room, gymnasium, library, or childcare facility, and the project will be located at a school that does not have the type of facility for which funds are requested or the existing facility is inadequate.

(Added by Stats.2002, c. 33 (A.B.16), § 23, eff. April 29, 2002.)

§ 17077.42. Grant approval compliance

In order to be approved for a grant under this article, the applicant district shall demonstrate that it has complied with all of the following:

(a) The school district has entered into a joint-use agreement with a governmental agency, public community college, public college or public university, or a nonprofit organization approved by the board.

(b) The joint-use agreement specifies the method of sharing capital and operating costs, specifies relative responsibilities for the operation and staffing of the facility, and specifies the manner in which the safety of the pupils will be ensured.

(c) The joint-use partner has agreed to provide matching funds for 50 percent of the eligible costs under this article.

(d) The school district demonstrates that the facility will be used to the maximum extent possible for both school and community purposes, or both school and higher education purposes, as applicable.

(e)(1) The project application qualifies for funding under paragraph (1) or (2) of subdivision (b) of Section 17077.40 and the school district has received all approvals necessary for apportionment under this chapter.

(2) The project qualifies for funding under paragraph (3) of subdivision (b) of Section 17077.40 and the school district has completed preliminary plans for the project and has received State Department of Education approval of the plans.

(Added by Stats.2002, c. 33 (A.B.16), § 23, eff. April 29, 2002.)

§ 17077.45. Standards for determining amount of supplemental grant funding for projects under this article

(a) The board shall establish standards for determining the amount of the supplemental grant funding to be made available for each project under this article.

(1) For a project application qualifying for funding under paragraph (1) or (2) of subdivision (b) of Section 17077.40, the supplemental grant shall be in the form of an adjustment to the per-pupil eligibility of the project. This per-pupil eligibility adjustment shall be calculated to cover costs associated with the project that are uniquely related to the joint-use nature of the project, including, but not limited to, any increased costs associated with planning the joint-use aspect of the project.

(2) For a project application qualifying under paragraph (3) of subdivision (b), the supplemental grant may be provided without regard to the existence of per-pupil eligibility pursuant to this chapter, and may be expressed on per-square-foot cost basis, on a per-pupil cost basis, or on a per-project cost basis.

(b) Notwithstanding any other provision of this chapter, project costs may exceed the board's standards established pursuant to subdivision (a) only if the excess is paid completely by local or joint-use partner sources.

(c) On July 1 of each year the board shall apportion to qualifying applicant school districts those funds that it determines are available for the purpose of this article. The board shall not release funds to a qualifying applicant until the project plans have received all approval required pursuant to this chapter, including, but not limited to, the approval of the Division of the State Architect. If the project does not receive all necessary plan approvals within one year of the date of the apportionment, the board shall rescind the apportionment.

(d) If the total funding for the purposes of this article is not sufficient to fund all of the joint-use projects for funding under this article, the board shall fund projects eligible under paragraphs (1), (2), and (3) of subdivision (b) of Section 17077.40 in that order. The board may establish other priority standards within that order, as necessary.

(e) Except as expressly provided in this article, projects funded pursuant to this article shall comply with all other requirements of this chapter, except for Article 11 (commencing with Section 17078.10), which shall apply only to projects under this article if they also qualify for funding under Article 11 (commencing with Section 17078.10).

(Amended by Stats.2002, c. 935 (A.B.14), § 11.)

§ 17078.10. Critically Overcrowded School Facilities Program; 2002 Critically Overcrowded School Facilities Account within 2002 State School Facilities Fund; 2004 Critically Overcrowded School Facilities Account within 2004 State School Facilities Fund

(a) There is hereby established the Critically Overcrowded School Facilities Program to be administered by the board.

(b) For the purposes of this article, "preliminary application" means an application for a preliminary apportionment pursuant to this article.

(c) For the purposes of this article, "preliminary apportionment" means an apportionment made for eligible applicants with critically overcrowded schools in advance of full compliance with all of the application requirements otherwise required for an apportionment pursuant to this chapter.

(d) For the purposes of this article, "final apportionment" has the same meaning as "apportionment" as set forth in subdivision (a) of Section 17070.15.

(e) There is hereby established the 2002 Critically Overcrowded School Facilities Account within the 2002 State School Facilities Fund,¹ and the 2004 Critically Overcrowded School Facilities Account within the 2004 State School Facilities Fund,² for the purposes of this article. Funds reserved for the purposes of this article shall be placed in those accounts, as appropriate, and shall be available exclusively for projects eligible under this article until the funds are made available for other purposes of this chapter pursuant to Section 17078.30.

(Added by Stats.2002, c. 33 (A.B.16), § 24, eff. April 29, 2002.)

§ 17078.15. Application of other articles of this chapter to projects funded under this article; criteria for application of this article; state share of project costs and state per-unhoused-pupil new construction apportionments for eligible programs; election to utilize per-unhoused-pupil eligibility

(a) Unless this article expressly provides otherwise, the provisions contained in the other articles of this chapter shall apply with equal force to a project funded under this article. This article shall control over the provisions of this chapter contained in other articles only to the extent that this article expressly conflicts with those provisions.

(b) This article shall apply only to a project that is otherwise eligible under this chapter and that meets both of the following criteria:

(1) The project meets the criteria set forth in Section 17078.18.

(2) The project is to be funded from the proceeds of state bonds approved by the voters at the November 5, 2002, statewide general election, or the 2004 direct primary election or the 2004 statewide general election, as the case may be, that were expressly reserved in the bond act or acts for the purposes set forth in this article.

(c) The state share of project costs and the state per-unhoused-pupil new construction apportionments for programs eligible under this article shall be equal to the share and amounts otherwise provided by the board pursuant to this chapter, including, but not limited to, any applicable adjustments or supplements otherwise authorized pursuant to this chapter.

(d) A school district that elects to utilize per-unhoused-pupil eligibility pursuant to this chapter to support a project pursuant to this article, shall not simultaneously utilize that same eligibility to support any other application pursuant to this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 24, eff. April 29, 2002.)

§ 17078.18. Criteria for funded projects to meet under this article

Projects funded under this article shall meet all of the following criteria:

(a) The project is a new construction project to build new pupil capacity to relieve overcrowding.

(b) The proposed school facility shall be located in the proposed general location, as set forth in Section 17078.22, of the school or schools that have the conditions and pupils that establish the eligibility pursuant to this article as set forth in subdivision (c).

(c) At least 75 percent of the projected pupil occupancy of the project facilities shall come from a source school or source schools that have a site pupil population density greater than 115 pupils per acre in grades kindergarten to six, inclusive, or a site pupil population density greater than 90 pupils per acre in grades seven to 12, inclusive, as determined by the Superintendent of Public Instruction using enrollment data from the California Basic Educational Data System for the 2001-02 school year. For source schools with grades that include a combination of kindergarten to six, inclusive, and seven to 12, inclusive, the controlling source school site pupil population density shall be the one applicable to the grade levels in which the majority of the pupils are enrolled at the source school.

(Added by Stats.2002, c. 33 (A.B.16), § 24, eff. April 29, 2002.)

§ 17078.20. Dissemination of information to school districts regarding availability of funding; applications; funding

(a) The board shall disseminate information to school districts regarding the availability of funding pursuant to this article and the appropriate deadlines for applications.

(b) Applicants for funding pursuant to this article shall submit preliminary applications to the board.

(c) The preliminary applications shall be submitted by May 1, 2003, for projects to be funded with the proceeds of bonds approved by the voters at the November 5, 2002, statewide general election.

(d) Preliminary applications shall be accepted by the board during the period between 60 days before and 120 days after, the 2004 direct primary election, or the 2004 statewide general election, as appropriate for projects to be funded with the proceeds of bonds approved by the voters at the 2004 direct primary election, or the 2004 statewide general election, as appropriate.

(e) If funds are insufficient to fully fund all of the preliminary applicants, the board shall apportion first to those projects that would house pupils from source schools with the highest pupil density levels relative to the State Department of Education standards.

(Amended by Stats.2002, c. 935 (A.B.14), § 12.)

§ 17078.22. Preliminary application requirements; variances

(a) The preliminary applications shall do all of the following:

(1) Establish per-unhoused-pupil eligibility as set forth in Article 3 (commencing with Section 17071.75).

(2) Identify the unhoused pupil population that the proposed project will serve by determining the number of pupils to be served and the likely source school or schools from which the pupils population will be drawn.

(3) Identify the proposed general location of the needed new facilities pursuant to any of the following:

(A) Within that portion of the attendance area from which one or more elementary schools that would be a source of the per-pupil eligibility for the proposed facility draws its enrollment, or within a one-mile radius of a source school, or within a one-mile radius of any one of the source schools if there are more than one, whichever is greater.

(B) Within the attendance area of a high school, middle school, or junior high school that would be a source of the per-pupil eligibility for the proposed facility or within a three-mile radius of a source school, or within a three-mile radius of any one of the source schools if there are more than one, whichever is greater.

(4) Estimate the total facility cost on a per-pupil basis and estimate the total site acquisition and development costs pursuant to the regulations adopted pursuant to subdivision (c) of Section 17078.24.

(b) The State Department of Education may grant a variance from the distance maximums set forth in paragraph (3) of subdivision (a) if the school district demonstrates to the satisfaction of the department that the variance is necessary in order to adequately provide facilities for the identified source school pupils.

(Added by Stats.2002, c. 33 (A.B.16), § 24, eff. April 29, 2002.)

SCHOOL BONDS
Pt. 10

§ 17078.24. Preliminary apportionment for applicants

(a) On the basis of the preliminary application and upon confirmation by the board of the applicant's eligibility, the board shall in a timely manner make a preliminary apportionment for applicants under this article exclusively from funds reserved expressly for the purposes of this article.

(b) Preliminary apportionments for site development and acquisition included in the preliminary application pursuant to subdivision (a) of Section 17078.22 shall be based either on the preliminary appraisal, if available, or on the median costs of appropriately sized parcels within the qualifying area, as determined by the board.

(c) Preliminary apportionments shall include the total estimated state costs of the project, including, but not limited to, site acquisition and development costs related to evaluations and elimination of hazardous materials, an inflation factor, any applicable excess cost allowances, and hardship costs, if any. The board shall adopt regulations establishing standards and methods for setting these costs and for making related estimates.

(Added by Stats.2002, c. 33 (A.B.16), § 24, eff. April 29, 2002.)

Historical and Statutory Notes

Appropriation, effective date and ballot information relating to Stats.2002, c. 33 (A.B.16), eff. April 29, 2002, see Historical and Statutory Notes under Education Code § 17070.15.

§ 17078.25. Time period to complete application for final apportionment; extensions; regulations setting forth standards with respect to substantial progress; reports; hearings; rescission

(a) Within the maximum time period set forth in Section 17078.30, the applicant shall have a period of up to four years from the date of the preliminary apportionment in which to complete the application for final apportionment.

(b) The applicant may request a single one-year extension of the period set forth in subdivision (a). The board shall grant the request for the single one-year extension if it determines that the applicant has made substantial progress towards completing the requirements for filing an application for final apportionment. The board may grant only one one-year extension for the project and may only grant the extension if granting the extension would not, in total, cause the project to exceed the maximum time period set forth in Section 17078.30.

(c) The board shall adopt regulations setting forth standards for determining the existence of substantial progress within the meaning of subdivision (b).

(d) The governing board of a school district shall report annually to the State Allocation Board regarding the progress made toward completing the requirements for filing an application for final apportionment, and shall annually hold, at a regularly scheduled meeting of the governing board, a public hearing pursuant to the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950) of Division 2 of Title 5 of the Government Code) to discuss, and to receive public comment regarding, the report.

(e) In its first annual report the governing board of the school district shall certify that the State Department of Education has determined in writing that there is at least one approvable site within the proposed general location of the proposed facility identified pursuant to paragraph (3) of subdivision (a) of Section 17078.22, or within the variance location authorized pursuant to subdivision (b) of Section 17078.22.

(f) If the applicant for the one-year extension pursuant to subdivision (b) has not made substantial progress to complete the application process within the allotted time period, the preliminary apportionment shall be rescinded and shall be utilized by the board for funding of other projects that have received a preliminary apportionment pursuant to this article, or at the expiration of the maximum time allowed pursuant to Section 17078.30, the board shall use the funds for any other new construction purpose of this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 24, eff. April 29, 2002.)

SCHOOL BONDS

Pt. 10

§ 17078.27. Adjustment of preliminary apportionment; conversion of adjusted preliminary apportionment to final apportionment; cost increases

(a) Upon completion of the preliminary process authorized pursuant to this article, and when a preliminary applicant has complied with the conditions set forth in this chapter for a final apportionment, including, but not limited to, Section 17070.50, the board shall adjust the preliminary apportionment as set forth in subdivision (b) and as necessary to reflect the current eligible grant amounts for final apportionments pursuant to this chapter consistent with regulations adopted pursuant to subdivision (c) of Section 17078.24. The board shall then convert the adjusted preliminary apportionment to a final apportionment and proceed to completion of the project in the same manner as for any project funded under provisions of this chapter other than this article.

(b) The board may adjust for cost increases only if uncommitted funds reserved expressly for the purposes of this article remain available for those purposes.

(Added by Stats.2002, c. 33 (A.B.16), § 24, eff. April 29, 2002.)

§ 17078.30. Funds available for apportionment from proceeds of state bonds approved by voters at election; amount

(a)(1) A portion of the funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the November 5, 2002, statewide general election that are not included in a preliminary apportionment for an application that is received by the deadline specified in subdivision (c) of Section 17078.20 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(2) The amount of funds that shall be made available to the board for purposes other than this article, pursuant to this subdivision, shall be calculated as follows:

(A) Add the total amount preliminarily apportioned to 15 percent of that amount.

(B) Take the number calculated pursuant to subparagraph (A) and subtract that number from the amount originally reserved for the purposes of this article.

(C) The number calculated pursuant to subparagraph (B) shall thereafter be available to the board for any new construction purpose under any other article of this chapter.

(3) All funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the November 5, 2002, statewide general election pursuant to a preliminary apportionment that are not included within a final apportionment within the timeframes permitted by Section 17078.25 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(b)(1) A portion of the funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the 2004 direct primary election, or the 2004 statewide general election, as appropriate, that are not included in a preliminary apportionment for an application that is received by the deadline specified in subdivision (d) of Section 17078.20 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(2) The amount of funds that shall be made available to the board for purposes other than this article, pursuant to this subdivision, shall be calculated as follows:

(A) Add the total amount preliminarily apportioned to 15 percent of that amount.

(B) Take the number calculated pursuant to subparagraph (A) and subtract that number from the amount originally reserved for the purposes of this article.

(C) The number calculated pursuant to subparagraph (B) shall thereafter be available to the board for any new construction purpose under any other article of this chapter.

(3) All funds reserved for the purposes set forth in this article from the proceeds of state bonds approved by the voters at the 2004 direct primary election, or the 2004 statewide general election, as appropriate, pursuant to a preliminary apportionment that are not included within a final apportionment within the timeframes permitted by Section 17078.25 shall thereafter be available to the board for apportionment for any new construction purpose under any other article of this chapter.

(Amended by Stats.2002, c. 935 (A.B.14), § 13.)

§ 17080. State school building lease-purchase fund; state school deferred maintenance fund; establishment; continuing appropriation

(a) Notwithstanding any other provision of law, whenever moneys transferred to the General Fund each year from (1) moneys deposited in the Public School Building Loan Fund pursuant to Section 15735, and (2) moneys deposited in the State School Building Aid Fund pursuant to Section 16080, are in excess of the amounts required to reimburse the General Fund on account of principal and interest due and payable for that fiscal year on all school building aid bonds outstanding against the state, an amount equal to such excess is appropriated from the General Fund for purposes of the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 12 (commencing with Section 17000)) and Section 17584. The Controller shall transfer, as directed by the State Allocation Board, such appropriated amount to the State School Building Lease-Purchase Fund and to the State School Deferred Maintenance Fund, which is hereby established.

(b) In addition to the amount transferred pursuant to subdivision (a), the Controller shall transfer annually from the General Fund to the State School Deferred Maintenance Fund an amount equal to any amount transferred to or deposited in the General Fund as a result of repayment of any loan made by the board pursuant to Section 17005.15.

(c) Notwithstanding Section 13340 of the Government Code, the State School Deferred Maintenance Fund is continuously appropriated for the purposes for which it is established.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17085. Short title

This chapter may be cited as the State Relocatable Classroom Law of 1979.
(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17086. Legislative intent

In adopting this chapter, the Legislature recognizes that the ad valorem tax is no longer available as a source of revenue for the construction of necessary school facilities. The Legislature considers that the greatest need in school construction is for classrooms for the education of public school pupils. It is the intent of the Legislature to satisfy this primary need to the greatest extent possible before providing any additional educational facilities, regardless of how desirable such additional facilities may be.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17087. Definitions

As used in this chapter:

(a) "Board" means the State Allocation Board.

(b) "State School Building Aid Fund" means that fund established pursuant to Section 16096.

(c) "Lessee" means a school district or county superintendent of schools to whom the board has leased a portable classroom pursuant to this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17088. Powers and duties of board

In addition to any other powers and duties as are granted the board by this chapter, other statutes, or the State Constitution, the board has the power to do each of the following:

(a) Establish any qualifications not in conflict with other provisions of this chapter, as it deems will best serve the purposes of this chapter, for determining

the eligibility of school districts and county superintendents of schools to lease portable classrooms under this chapter.

(b) Establish any procedures and policies in connection with the administration of this chapter as it deems necessary.

(c) Adopt any rules and regulations for the administration of this chapter requiring such procedure, forms, and information, as it may deem necessary.

(d) Have constructed, furnished, equipped, or otherwise require whatever work is necessary to place, portable classrooms on schoolsites where needed.

(e) Own, have maintained, and lease portable classrooms to qualifying school districts and county superintendents of schools.

(f) From any moneys in the State School Building Aid Fund available for purposes of this chapter, the board shall make available to the Director of General Services such amounts as it determines necessary to provide the assistance, pursuant to this chapter, required by Section 15504 of the Government Code.

(g) Notwithstanding any other provision of law, from any funds available to the board, the board may, no later than January 15 of any year, make available to the Director of General Services up to thirty-five million dollars (\$35,000,000) for expenditure in the subsequent school year. It is the intent of the Legislature that this allocation be annually funded from an appropriation made for this purpose by the Legislature in the Budget Act for the fiscal year in which the board is to act to make that funding available. These funds shall be utilized to purchase portable classrooms for the purposes of this section.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17088.3. Qualification for lease; submission of year-round multitrack educational program study; emergency or urgency approval; uninhabitable facilities

(a) No school district shall qualify for the lease under this chapter, after January 1, 1990, of one or more portable classrooms except upon submitting a study examining the feasibility of implementing in the district a year-round multitrack educational program that is designed to increase pupil capacity in the district by at least 20 percent.

(b) Emergency or urgency conditions within a school district shall constitute grounds for approval by the board, pending submission of the report.

(c) Subdivision (a) does not apply to facilities that are designated as uninhabitable after July 1, 1989, due to fire or other health or safety conditions.

(d) Subdivision (a) does not apply to a school district for leases or subleases under this chapter for the purpose of providing facilities, pursuant to subdivision (c) of Section 17091, for licensed child day care programs or recreation or enrichment activities or programs for schoolage children.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17088.5. Lessee acting as agent of board; purchase of portable classrooms by district or superintendent when funds unavailable to board

(a) The board may empower any lessee to act as its agent in the performance of acts authorized under this chapter with regard to portable classrooms to be made available to that lessee, including, but not necessarily limited to, contracting for architectural and construction services and purchasing furniture and equipment.

(b) In addition, where any qualifying school district or county superintendent of schools is deemed by the board to be eligible under this chapter for the lease of portable classrooms, but adequate funds are not at that time available to the board for the purchase of those classrooms, the board may authorize the school district or county superintendent of schools to purchase portable classrooms, to the extent of that eligibility, pursuant to the following conditions:

(1) The portable classrooms are purchased under a procedure determined by the board, pursuant to either a bidding process implemented by the school district or county superintendent of schools or by the State Office of Procurement.

(2) To the extent that funding for purposes of this chapter is subsequently made available to the board, the board shall purchase the portable classroom or classrooms from the school district or county superintendent of schools, for lease to that entity under this chapter, for an amount, not to exceed the purchase price the board determines it would have paid for the classroom or classrooms at the time they were acquired pursuant to paragraph (1), as necessary to reimburse the school district or county superintendent of schools for the purchase price, less the amount that would have been charged to the school district or county superintendent of schools for the lease of the classroom or classrooms under Section 17089 from the date of purchase. The sale of the portable classroom or classrooms under this paragraph shall be at the discretion of the school district or county superintendent of schools.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17088.7. Purchase of portable classrooms; eligibility; costs; procedure; lease of classrooms; joint powers agreement; contents

(a) Any school district, or, under a joint powers agreement pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code, any combination of one or more school districts or county superintendents of schools, may, to the extent of the eligibility of the school district or of the parties to the joint powers agreement to lease portable classrooms under this chapter, purchase portable classrooms as provided in this section.

(b) The number of portable classrooms which may be purchased pursuant to this section, on a statewide basis, shall not exceed 200 in any given year, and shall not exceed 600 in total. Portable classrooms purchased prior to September 22, 1989, are exempt from the yearly limit of 200, but shall be counted towards the total limit of 600.

(c) The purchase costs of the portable classrooms, which include costs of site preparation, furniture and equipment, toilet facilities as described in Section 65980 of the Government Code, and the transportation of classrooms, may be funded from revenues received by the school district or districts pursuant to Section 17620. The purchase shall comply with any procedures and policies established by the board under this chapter for the purchase of portable classrooms. All portable classrooms purchased pursuant to this section are the property of the state.

(d) The board shall lease the portable classrooms purchased pursuant to the authority granted in this section to the purchaser, as described in subdivision (a), in accordance with this chapter, including applicable eligibility standards, and the purchase costs paid shall be credited toward the rent the purchaser would otherwise be required to pay under this chapter as a lessee.

(e) In the event that the purchase of portable classrooms under this section occurs pursuant to a joint powers agreement, as described in subdivision (a), the agreement shall identify the school district or districts and county superintendent or superintendents of schools that are party to the agreement, identify the district or districts providing the revenues, specify the manner in which the revenues are to be expended, and specify the distribution of portable classrooms subsequent to purchase, which distribution shall be in accordance with the eligibility requirements of this chapter. The agreement shall be subject to approval of the board, pursuant to subdivision (b) and any applicable procedures and policies established by the board under this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17089. Lease of portable classrooms; amount; maintenance, repairs; costs

(a) The board shall lease portable classrooms to qualifying school districts and county superintendents of schools for not less than one dollar (\$1) per year, nor more than four thousand dollars (\$4,000) per year, for each portable classroom, which amount shall be annually increased according to the adjustment for inflation set forth in the statewide cost index for classroom construction, as determined by the board at its January meeting.

(b) The board shall require each lessee to undertake all necessary maintenance, repairs, renewal, and replacement to ensure that a project is at all times kept in good repair, working order, and condition. All costs incurred for this purpose shall be borne by the lessee.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17089.5. Lease of portable classrooms to districts or county superintendents serving infant or preschool individuals with exceptional needs

The board may lease portable classrooms to any school district or county superintendent of schools which serves infant or preschool individuals with exceptional needs, as defined in Section 56026, and which operates programs pursuant to Part 30 (commencing with Section 56000). These portable classrooms shall be adequately equipped to meet the educational needs of these students, including, but not limited to, sinks and restroom facilities.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17090. Insurance

The board shall require lessees to insure at their own expense for the benefit of the state, any leased portable classroom which is the property of the state, against such risks, including liability from the use thereof, in such amounts as the board may deem necessary to protect the interest of the state. All payments resulting from claims made against the insurance shall be made payable to and retained by the board for deposit in the State School Building Aid Fund.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17091. Rules; priorities; placement of additional portable classrooms

(a) The board shall have authority to adopt rules establishing priorities for the acquisition and leasing of classrooms to those school districts and county superintendents of schools whose pupils will benefit most. The board may make exceptions from the established priorities if it determines that the pupils affected will benefit.

(b) If at any time the number of portable classrooms available exceeds the number of those required by applicant districts, as determined by basic loading standards and eligibility requirements, the board may authorize additional portable classrooms to be placed in any school district that agrees to hire an additional teacher for each additional portable classroom placed in the district pursuant to this subdivision.

(c) If at any time the number of portable classrooms available exceeds the number of those required by applicant districts, as determined by basic loading standards and eligibility requirements, the board shall authorize additional portable classrooms to be placed in any school district, upon request of the school district, for the purpose of providing licensed child day care programs or recreation or enrichment activities or programs for schoolage children on a schoolsite, unless the surplus classrooms are needed for emergency purposes. (Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17092. Eligibility of district; evidence; new teaching stations

(a) No portable classrooms shall be made available to any school district unless the district furnishes evidence, satisfactory to the board, that the district has no available bond proceeds that could be used for the purchase of classroom facilities.

(b) Notwithstanding any other provision of law, a school district or county superintendent of schools that has received approval for a project that includes a justified number of new teaching stations pursuant to Chapter 12 (commencing with Section 17000) or Chapter 12.5 (commencing with Section 17070.15) shall be eligible for at least the same number of emergency portable classrooms as approved new teaching stations.

(c) Subdivision (a) does not apply to leases or subleases under this chapter for the purpose of providing facilities, pursuant to subdivision (c) of Section 17091, for licensed child day care programs or any recreation or enrichment activities or programs for schoolage children.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998. Amended by Stats.2000, c. 590 (S.B.2066), § 3.)

§ 17092.3. Portable classrooms; subleasing

A school district may sublease any portable classroom obtained by the district pursuant to subdivision (c) of Section 17091 to a private provider that has entered into a contract with the district to provide any child care and development program or programs or any recreation or enrichment activities or programs for schoolage children on a schoolsite. The terms of the sublease for rental payments and other related costs shall not exceed the costs of the portable classroom to the district.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17093. Performance specifications; bids

The board shall have prepared for its use, performance specifications for portable classrooms complying with Sections 17280 to 17314, inclusive, which are capable of being economically moved, and bids for the construction of which can be solicited from more than one responsible bidder. The board may from time to time solicit bids from, and award to, the lowest responsible competitive bidder, contracts for the construction or purchase of the number of portable classrooms it deems will be required by eligible school districts and county superintendents of schools during the next 12 months.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17094. Cessation of lessee's need for portable classrooms; disposition

If at any time the board determines that a lessee's need for particular portable classrooms which were made available to the lessee pursuant to this chapter has ceased, the board may take possession of the portable classrooms and may lease them to other eligible districts or county superintendents of schools, or if there is no longer a need for any portable classrooms, the board may dispose of them to public or private parties in any manner that it deems to be in the best interests of the state.

Any revenue which is derived from a lease or other disposition of the portable classrooms pursuant to this section shall be deposited in the State School Building Aid Fund.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17095. Waiver of penalty provisions

The State Board of Education may waive application of the penalty provisions of Section 41376 for school districts which during the school year used portable classrooms leased pursuant to this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17096. Leases of portable classrooms; necessity of provision for telephone in each portable classroom; connection to public switched telephone network

Commencing with leases entered into on or after January 1, 2000, the plans and specifications for portable classrooms funded pursuant to this chapter shall include a provision for a telephone in each portable classroom. The connection from the portable classroom to a public switched telephone network, as set forth in Section 17077.10, shall be made by the school district at the time of the installation of the building. However, a school district may meet this requirement by utilizing wireless technology equivalent to a hard-wired connection to a public switched telephone network.

(Added by Stats.1999, c. 709 (A.B.1136), § 2.)

§ 17100. Findings and declarations

The Legislature hereby finds and declares that the State School Building Lease-Purchase Fund, pursuant to Section 17008, and the proceeds from the sale or lease of surplus school property are the two sources available to school districts to finance the construction of school facilities to relieve overcrowding. However, these sources are still insufficient to meet the construction needs statewide of school districts.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17110. Issuance for sale; definitions

The governing board of a school district may issue for sale revenue bonds to finance the construction of joint occupancy facilities as prescribed in Article 8 (commencing with Section 17515) of Chapter 4 of Part 10.5, which facilities are necessary to relieve overcrowded schools. Proceeds from the rental and lease of the facilities shall be used by the governing board to repay the revenue bonds.

As used in this chapter:

(a) "To finance the construction of joint occupancy facilities" means to offset either the cost of constructing the joint occupancy facilities or the cost of financing the construction of joint occupancy facilities, or both.

(b) "Joint occupancy facilities" means any building constructed pursuant to this chapter which is occupied jointly by a school district and a private entity specified in Section 17811 or one or more buildings which are constructed pursuant to this chapter on the same property used by the district and the private entity, but are not occupied jointly. Facilities to be acquired by purchase pursuant to this article for occupancy by pupils shall meet the requirements of Article 3 (commencing with Section 17280) and Article 6 (commencing with Section 17365) of Chapter 3 of Part 10.5.

(c) "Construction" includes acquisition by purchase.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17111. Contracts with private entities

The governing board may contract with any person, firm, partnership, joint venture, or other private entity for the purpose of issuing revenue bonds pursuant to Section 17810 and for the purpose of renting or leasing the facilities constructed pursuant to this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17112. Facilities constructed on district-owned property; exception

No revenue bonds may be issued for sale by the governing board unless the facilities are to be constructed on district-owned property, except as to facilities to be acquired by purchase.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17150. Issuance of certificates of participation or revenue bonds; repayment schedules and evidence of ability to repay; public comment

(a) Upon the approval by the governing board of the school district to proceed with the issuance of certificates of participation or revenue bonds or to enter into any agreement for financing school construction pursuant to Chapter 18 (commencing with Section 17170), the school district shall notify the county superintendent of schools and the county auditor. The superintendent of the school district shall provide the repayment schedules for that debt obligation, and evidence of the ability of the school district to repay that obligation, to the county auditor, the county superintendent, the governing board, and the public. Within 15 days of the receipt of the information, the county superintendent of schools and the county auditor may comment publicly to the governing board of the school district regarding the capability of the school district to repay that debt obligation.

(b) Upon the approval by the county board of education to proceed with the issuance of certificates of participation or revenue bonds or to enter into any agreement for financing pursuant to Chapter 18 (commencing with Section 17170), the county superintendent of schools or superintendent of a school district for which the county board serves as governing board shall notify the Superintendent of Public Instruction. The county superintendent of schools or the superintendent of a school district for which the county board serves as the governing board shall provide the repayment schedules for that debt obligation and evidence of the ability of the county office of education or school district to repay that obligation, to the Superintendent of Public Instruction, the governing board, and the public. Within 15 days of the receipt of the information the Superintendent of Public Instruction may comment publicly to the county board of education regarding the capability of the county office of education or school district to repay that debt obligation.

(c) Prior to delivery of the notice required by subdivision (a) neither the county nor any of its officers shall have any responsibility for the administration of the school district's indebtedness. Failure to comply with the requirements of this section will not affect the validity of the indebtedness.

(Amended by Stats.2002, c. 1168 (A.B.1818), § 4, eff. Sept. 30, 2002.)

§ 17170. Short title

This chapter shall be known and may be cited as the California School Finance Authority Act.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17171. Legislative findings

The Legislature hereby finds and declares that it is in the interest of the state and its people for the state to do all of the following:

(a) Reconstruct, remodel, or replace existing school buildings which are educationally inadequate or which do not meet current structural safety requirements.

(b) Acquire new schoolsites and buildings to be made available to school districts and community college districts for the pupils of the public education system, which is a matter of general concern inasmuch as the education of the state's children is an obligation and function of the state.

(c) Assist school districts and community college districts by providing access to financing for working capital and capital improvements.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17173. Definitions

As used in this chapter, the following words and terms shall have the following meanings, unless the context indicates or requires another or different meaning or intent:

- (a) "Act" means the California School Finance Authority Act.
- (b) "Agent" means a county or city board of education or superintendent of schools acting with its consent on behalf of one or more school districts for any purpose of this chapter, and the Board of Governors of the California Community Colleges or the Chancellor of the California Community Colleges acting with its consent on behalf of one or more community college districts for any purpose of this chapter.
- (c) "Authority" means the California School Finance Authority, or any board, body, commission, department, or officer succeeding to the principal functions of the authority, or to which the powers conferred upon the authority by this chapter shall be given by law.
- (d) "Bonds" means bonds, notes, bond anticipation notes, commercial paper, and any other evidences of indebtedness.
- (e) "Cost," as applied to all or part of a project financed pursuant to this chapter, means and includes all or any part of the cost of any of the following:
 - (1) Construction.
 - (2) Acquisition or improvement of all lands, structures, real or personal property, rights, rights-of-way, franchises, easements, and interests acquired or used for a project.
 - (3) Demolition or removal of any buildings or structures on land acquired for a project, including the acquisition of any lands to which the buildings or structures may be moved.
 - (4) All machinery and equipment.
 - (5) Financing charges.
 - (6) Interest prior to, during, and for a period following, the completion of such construction or improvement as determined by the authority.
 - (7) Provisions for working capital.
 - (8) Reserves for principal and interest, and for extensions, enlargements, additions, replacements, renovations, and improvements.

§ 17173

(9) Engineering, architectural, financial, and legal services, plans, specifications, studies, surveys, estimates, administrative expenses, and other expenses necessary or incident to the construction, acquisition, or improvement of any project or any financing under this chapter.

(f) "Educational facility" means any property, facility, structure, equipment, or furnishings used or operated in conjunction with one or more public schools or community colleges, including, but not limited to, all of the following:

- (1) Classrooms.
- (2) Auditoriums.
- (3) Student centers.
- (4) Administrative offices.
- (5) Sports facilities.
- (6) Maintenance, storage, or utility facilities.

(7) All necessary or usual attendant and related facilities and equipment, including streets, parking, and supportive service facilities or structures required or useful for the effective operation of the educational facility.

(g) "Participating district" means a school district or community college district which undertakes, itself or through an agent, the financing or refinancing of a project or of working capital pursuant to this chapter. "Participating district" shall also be deemed to refer to the agent to the extent the agent is acting on behalf of the school district or community college district for any purpose of this chapter.

(h) "Project" means the acquisition, construction, expansion, remodeling, renovation, improvement, furnishing, or equipping of an educational facility to be financed or refinanced pursuant to this chapter. "Project" may include any combination of the foregoing undertaken jointly by any participating district with one or more other participating districts.

(i) "Working capital" means funds to be used by, or on behalf of, a participating district to pay maintenance or operating expenses, or any other costs which would be treated as an expense item under generally accepted accounting principles in connection with the ownership or operation of an educational facility, including, but not limited to, all of the following:

- (1) Reserves for maintenance or operating expenses.
- (2) Interest for a period not to exceed one year on any loan for working capital made pursuant to this chapter.
- (3) Reserves for debt service, and any other costs necessary or incidental to, financing pursuant to this chapter.

(j) "Certificate of participation" means an undivided interest in one or more bonds, leases, loans, installment sales, or other agreements of a participating district or districts.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17180. Powers of authority

The authority is hereby authorized to do all of the following:

- (a) Adopt bylaws for the regulation of its affairs and the conduct of its business.
- (b) Adopt an official seal.
- (c) Sue and be sued in its own name.
- (d) Receive and accept gifts, grants, or donations of money for any of the purposes of this chapter from any of the following:
 - (1) A federal agency.
 - (2) A state agency.
 - (3) A municipality, county, or other political subdivision of the state.
 - (4) An individual, association, or corporation.
- (e) Engage the services of private consultants to render professional and technical assistance and advice in carrying out the purposes of this chapter .
- (f)(1) Determine the location and character of any project to be financed under this chapter, and acquire, construct, enlarge, remodel, renovate, alter, improve, furnish, equip, own, maintain, manage, repair, operate, lease as lessee or lessor, or regulate the same.
 - (2) Designate a participating district as its agent, with authority to enter into contracts, for any of the purposes specified in paragraph (1).
 - (3) Enter into contracts for any of the purposes specified in paragraph (1).
 - (4) Enter into contracts for the management and operation of a project owned by the authority.
- (g) Acquire, directly or by and through a participating district as its agent, by purchase solely from funds provided pursuant to this chapter, or by gift or devise, and sell, by installment or otherwise, property, rights, rights-of-way, franchises, easements, and other interests in lands, including, but not limited to, lands lying under water, and riparian rights, located within the state which the authority deems necessary or convenient for the acquisition, construction, financing, or operation of a project. The authority may do so upon the terms, and at the prices, it considers reasonable and upon which it can agree with the owner, and may take the title to the interest in the name of the authority or in the name of a participating district as its agent.
- (h) Receive and accept from any source loans, contributions, or grants for, or in aid of, the construction, financing, or refinancing of all or part of a project, in the form of money, property, labor, or other things of value.
- (i) Pursuant to an agreement between the authority and the participating district, make, directly or through a lending institution, secured or unsecured loans to, or purchase secured or unsecured loans from, or purchase all or part of any rights to or possibilities regarding the state share of funding for school facilities approved by the State Allocation Board pursuant to Chapter 12.5 (commencing with Section 17070.10). The purchase of all or part of any rights to, or possibilities regarding, the state contribution for funding for school facilities approved by the State Allocation Board shall be limited to amounts approved and funded or amounts approved but not yet funded from proceeds of state bonds already authorized by the electors but not yet issued. Loans or purchases completed pursuant to this section may be used for either of the following purposes:
 - (1) To finance a project or provide working capital. No loan to finance a project shall exceed the total cost of the project, as determined by the participating district and approved by the authority.
 - (2) To refinance indebtedness incurred by the participating district in connection with projects undertaken, educational facilities acquired, or working capital financed.

§ 17180

(j) Upon the terms and conditions the authority deems proper, lease a project being financed pursuant to this chapter to a participating district, and charge and collect rent therefor. The authority may terminate a lease pursuant to this subdivision upon the lessee's failure to comply with any of its obligations under the lease. The lease may include any of the following provisions:

(1) That the lessee shall have the option to renew the term of the lease for the period or periods, and at the rent, determined by the authority, or to purchase any or all of the project.

(2) That upon payment by the participating district of all of the indebtedness incurred by the authority for the financing of the project or for the refinancing of the district's outstanding indebtedness, the authority may convey any or all of the project to the lessee or lessees, with or without further consideration.

(k) Charge and equitably apportion among participating districts its administrative costs and expenses incurred pursuant to this chapter.

(l)(1) Obtain, or aid in obtaining, from any state or federal agency or any private company, any insurance, guarantee, letter, or line of credit regarding, or of, or for, the payment or repayment of all or part of the interest, principal, or both, on any loan, lease, or obligation, or any instrument evidencing or securing the same, made or entered into pursuant to this chapter, or on any bonds issued pursuant to this chapter.

(2) Notwithstanding any other provision of this chapter, enter into any agreement, contract, or any other instrument regarding any insurance, guarantee, letter, or line of credit specified in paragraph (1), and accept payment in the manner and form provided therein in the event of default by a participating district.

(3) Assign any insurance, guarantee, letter, or line of credit specified in paragraph (1) as security for bonds issued by the authority.

(m) Enter into any agreements or contracts, including, but not limited to, agreements for liquidity or credit enhancement, execute any instruments, and any other act or thing necessary, convenient, or desirable for the purposes of the authority or to carry out any express power granted the authority pursuant to this chapter.

(n) At the discretion of the authority, invest any moneys held in reserve or in sinking funds, or any moneys not required for immediate use or disbursement, in obligations authorized by the resolution authorizing the bonds secured by the investment, or by law governing the investment of trust funds in the custody of the Treasurer.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998. Amended by Stats.1999, c. 718 (A.B.636), § 1, eff. Oct. 10, 1999; Stats.2000, c. 193 (A.B.2586), § 1.)

§ 17181. California school finance authority fund

(a) The California School Finance Authority Fund is hereby created in the State Treasury, to be administered by the authority. Notwithstanding Section 13340 of the Government Code, all moneys in the fund shall be continuously appropriated without regard to fiscal year for the purposes of this chapter. The authority may pledge any or all of the moneys in the fund as security for payment of the principal of, and interest on, any particular issuance of bonds pursuant to this chapter. For that purpose, or as necessary or convenient to the accomplishment of any other purpose of this chapter, the authority may divide the fund into separate accounts. All moneys accruing to the authority pursuant to this chapter from any source shall be deposited in the fund.

(b) Subject to any priorities created by the pledge of particular moneys in the fund to secure any issuance of bonds of the authority, and to reasonable administrative costs incurred by the authority in implementing this chapter, all moneys in the fund, regardless of the source, shall be held in trust for the security and payment of bonds of the authority, and shall not be used or pledged for any other purpose while any bonds are outstanding and unpaid. Nothing in this subdivision shall be construed to limit the power of the authority to make loans with bond proceeds in accordance with the terms of the resolution authorizing the issuance of those bonds.

(c) Pursuant to any agreements with the holders of particular bonds pledging any particular assets, revenues, or moneys, the authority may create separate accounts in the fund to manage the assets, revenues, or moneys in the manner prescribed by the agreements.

(d) From time to time, the authority may direct the Treasurer to do any of the following:

(1) Invest moneys in the fund which are not required for its current needs, including, but not limited to, proceeds from the sale of any bonds in eligible securities specified in Section 16430 of the Government Code and designated by the authority, or in any other securities or obligations designated by the authority, in the resolution authorizing the issuance of the bonds payable or secured by the moneys.

(2) Deposit moneys in the fund in interest bearing accounts in state or national banks or other financial institutions having principal offices in the state.

(3) Transfer moneys in the fund to the Surplus Money Investment Fund for investment pursuant to Article 4 (commencing with Section 16470) of Chapter 3 of Part 4 of Division 4 of Title 2 of the Government Code.

Notwithstanding Section 16305.7 of the Government Code, all interest or other earnings resulting from an investment or deposit pursuant to this subdivision shall be deposited in the fund.

(e) Except as otherwise provided in paragraph (3) of subdivision (d), no moneys in the fund shall be subject to transfer to any other fund pursuant to any provision of Part 2 (commencing with Section 16300) of Division 4 of Title 2 of the Government Code.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17183. Revenue bonds; issuance; source of payment; sale; immunity from personal liability; purchase by authority; other means of financing; commercial paper

(a) From time to time, the authority may, by resolution, issue its revenue bonds in order to provide funds for any of the purposes of this chapter. Bonds may be issued to finance any of the following:

- (1) A single project or financing of working capital for a single participating district.
- (2) A series of projects or financings of working capital for a single participating district.
- (3) A single project or financing of working capital for several participating districts.
- (4) Several projects or financing of working capital for several participating districts.
- (5) A joint venture school facilities construction project undertaken pursuant to Article 5 (commencing with Section 17060) of Chapter 12.

(b) Except as otherwise expressly provided by the authority, all revenue bonds shall be payable from any available revenues or moneys of the authority not otherwise pledged, subject only to any agreements with holders of particular bonds or notes pledging any particular revenue or moneys. Notwithstanding that revenue bonds issued pursuant to this section may be payable from a special fund, the revenue bonds shall be, and shall be deemed to be for all purposes, negotiable instruments, subject only to the provisions of the revenue bonds for registration.

(c) The revenue bonds of the authority may be issued as serial bonds, term bonds, or the authority, in its discretion, may issue bonds of both types. The issuance shall be in accordance with the indenture, trust agreement, or resolution relating to the revenue bonds, which shall provide all of the following:

- (1) The date or dates of the bonds.
- (2) The date or dates upon which the bonds will mature, not to exceed 40 years from their respective dates.
- (3) The interest rate or rates, or methods of determining the interest rate or rates, of the bonds.
- (4) When the bonds are payable.
- (5) The denominations of the bonds.
- (6) The form of the bonds, which shall be either bearer or registered.
- (7) The registration privileges of the bonds.
- (8) The manner in which the bonds are to be executed.
- (9) The place or places at which the bonds shall be payable in lawful money of the United States of America.
- (10) The terms of redemption of the bonds.

§ 17183

(d) After giving due consideration to the recommendations of the participating district or districts, the revenue bonds of the authority shall be sold by the Treasurer at either a public or private sale at a price or prices, and upon the terms and conditions prescribed by the authority. The revenue bonds of the authority may be sold at, above, or below the par value of the bonds.

(e) Pending the preparation of the definitive bonds, the authority may issue interim receipts or certificates or temporary bonds which shall be exchanged for the definitive bonds.

(f) Any resolution authorizing the issuance of any bonds of the authority, or any issue of revenue bonds of the authority, may include any of the following provisions:

(1) Provisions pledging all or any part of the proceeds of the bonds or revenue of a project or loan.

(2) Provisions concerning the replacement of mutilated, destroyed, stolen, or lost bonds.

(3) Provisions specifying insurance to be maintained on the project and the authorized uses of the proceeds of the insurance.

(4) Covenants against the mortgaging or otherwise encumbering, selling, leasing, pledging, placing a charge upon, or otherwise disposing of the project prior to the payment of the bonds issued to finance the project.

(5) Provisions specifying the events of default, terms upon which the bonds may be declared due before maturity, and the terms upon which the declaration and its consequences may be waived.

(6) The rights, liabilities, powers, and duties arising upon the breach of any covenants, conditions, or obligations.

(7) Vesting of the right to enforce covenants in a trustee.

(8) The terms upon which all or any percentage of the bondholders may enforce covenants or duties.

(9) Procedures for amending the terms of the resolution, with or without the consent of the holders of a specified number of bonds.

(10) Provision for any other acts or things deemed necessary, convenient, or desirable by the authority to secure the bonds or improve their marketability.

(g) The validity of the authorization and issuance of any bond issue shall not be affected by proceedings for the acquisition, construction, or improvement of any project, or by contracts relating to those proceedings. Any resolution authorizing the issuance of any bonds of the authority may provide authorization for the bonds to bear a statement certifying that they are issued pursuant to this chapter. Bonds bearing that statement shall be conclusively deemed valid and issued in conformity with this chapter. Reference on the face of the bonds to the resolution by its date of adoption shall incorporate the provisions of the resolution and of this chapter into the terms of the bonds.

(h) Members of the authority, or any person executing the revenue bonds of the authority, shall not incur personal liability on the bonds, nor shall these

§ 17183

persons incur personal liability or accountability by reason of the issuance of the revenue bonds of the authority.

(i) The authority is authorized, out of any funds available for that purpose, to purchase revenue bonds of the authority. The authority may hold, pledge, cancel, or resell any bonds purchased under the authority of this subdivision, subject to, and in accordance with, agreements with bondholders.

(j) The financing or refinancing of projects or working capital may be provided pursuant to this chapter by means other than revenue bonds, at the discretion of the authority, including financing or refinancing through certificates of participation, or other interests, in bonds, loans, leases, installment sales, or other agreements of the participating district or districts. In this connection, the authority may do all things and execute and deliver all documents and instruments as may be necessary or desirable with regard to issuance of the certificates of participation or other means of financing or refinancing.

(k) The authority may by resolution issue its revenue bonds in the form of commercial paper.

(Formerly § 17883, added by Stats.1997, c. 893 (S.B.161), § 93. Renumbered § 17183 and amended by Stats.1998, c. 485 (A.B.2803), § 48.)

§ 17183.5. Financial feasibility of project

In enacting this chapter, it is the intent of the Legislature to provide financing only for projects demonstrated by the participating district to be financially feasible. In demonstrating financial feasibility, the participating district may take into account all district funds, and may base future projections upon historical experience or reasonable expectations, or a combination thereof. Nothing in this section shall be construed to imply that any project is required to produce revenue in order to be financed under this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17184. Revenue bonds; trust agreements, indentures, or resolution security provisions

(a) In the discretion of the authority, any revenue bonds of the authority issued under this chapter may be secured by a trust agreement, or by indenture by and between the authority and a corporate trustee or trustees, including the Treasurer or any trust company or bank having the powers of a trust company within or outside the state.

(b) Any trust agreement, indenture, or any resolution providing for the issuance of bonds of the authority, may pledge or assign the proceeds of the bonds, and the revenues to be received by, a participating district or districts.

(c) Any trust agreement, indenture, or resolution providing for the issuance of revenue bonds of the authority may include any provisions for the protection of, and the enforcement of the rights and remedies of, bondholders as may be reasonable and proper and not in violation of any law, including provisions included in any resolution or resolutions of the authority provided under subdivision (a) or (b).

(d) Any trust agreement or indenture may prescribe the rights and remedies of the bondholders, and of the trustee or trustees, and may restrict the individual right of action of the bondholders.

(e) Any trust agreement, indenture, or resolution may include any other provisions deemed by the authority to be reasonable and proper for the security of the bondholders.

(f) Notwithstanding any other provision of law, the Treasurer shall not be deemed to have a conflict of interest by reason of his or her capacity as trustee pursuant to this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17185. Revenue bonds; not liability or pledge of faith and credit of state or political subdivision

(a) Revenue bonds issued under this chapter are not and shall not be deemed to constitute a debt or liability of the state, or any political subdivision thereof, and are not and shall not be deemed to be a pledge of the faith and credit of the state, or any political subdivision thereof, other than the authority. Revenue bonds of the authority shall be payable solely from funds provided under this chapter.

(b) Each revenue bond of the authority shall include a statement on the face of the bond that neither the State of California nor the authority is obligated to pay the principal or interest thereon, except from revenues of the authority, and shall also include a statement that neither the faith or credit, nor the taxing power of the State of California, or any political subdivision, is pledged to the payment of the principal or interest of the bonds.

(c) The issuance of revenue bonds under this chapter shall not directly, indirectly, or contingently obligate the state, or any political subdivision thereof, to levy or pledge any form of taxation, or make any appropriation for their payment.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17186. Revenue bonds; right of action to enforce rights or duties

(a) Any holder of revenue bonds issued under this chapter, or any coupons appertaining thereto, or the trustee or trustees under any trust agreement, indenture, or resolution, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce any rights conferred under state law, by this chapter, or under the terms of any trust agreement, indenture, or resolution, except to the extent that these rights may be otherwise restricted by any resolution authorizing the issuance of these bonds, or by any trust agreement or indenture securing these bonds.

(b) Any holder of revenue bonds issued under this chapter, or any coupons appertaining thereto, ~~or~~ the trustee or trustees under any trust agreement, indenture, or resolution, may enforce and compel the performance of all duties required under this chapter, or by any trust agreement, indenture, or resolution, to be performed by the authority, or by any officer, employee, or agent of the authority.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17187. Moneys received as trust funds; depository as trustee

All moneys received under this chapter, whether received as proceeds from the sale of revenue bonds or as revenues, are trust funds to be held and applied solely as provided in this chapter. Any officer, bank, or trust company with whom those moneys have been deposited, shall act as trustee of those moneys and shall hold and apply them for those purposes, subject to the requirements of this chapter and the resolution authorizing the bonds of any issue, or the trust agreement or indenture securing those bonds, may provide.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17193. Rents; pledge of revenues; additional revenue bonds; leases or agreements with participating school districts

(a) The authority shall fix, revise, charge, and collect rents for the use of each project owned by the authority, and may contract with any person, partnership, association, corporation, or other body, whether public or private, for that purpose. Any lease entered into by the authority with a participating district, and each agreement, note, or other instrument evidencing the obligations of a participating district to the authority, shall provide that the rents or principal, interest, and other charges payable by the participating district shall be sufficient to provide for all of the following:

(1) To pay the principal, sinking fund payments, if any, premiums, if any, and the interest on outstanding bonds of the authority issued in respect of the project when due and payable.

(2) To create and maintain reserves which may, but need not necessarily be required or provided for, in the resolution relating to the revenue bonds of the authority.

(3) To pay its share of the administrative costs and expenses of the authority.

(b) The authority shall pledge the revenues derived and to be derived from a project or from a participating district for the purposes specified in paragraphs (1), (2), and (3) of subdivision (a). The authority may issue additional revenue bonds which may be ranked on a parity with other bonds relating to the project to the extent, and under the terms and conditions provided, in the bond resolution.

(c) The authority and a participating district may include in any lease or agreement between them or with a credit provider any terms and conditions relating to insurance, liquidity, or credit enhancement of the bonds, or any other lawful terms and conditions the authority deems necessary or desirable to facilitate the purposes of this chapter.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17193.5. Public credit provider; credit enhancement for evidences of indebtedness; required conditions; apportionment

(a) For purposes of this section, "public credit provider" means any financial institution or combination of financial institutions, which consists either solely, or has as a member or participant, a public retirement system. Notwithstanding any other provision of law, a public credit provider may, in connection with providing credit enhancement for bonds, notes, certificates of participation, or other evidences of indebtedness of a school district or county office of education, require the school district or county office of education to agree to the following conditions:

(1) If a participating school district or county office of education adopts a resolution by a majority vote of its board to participate under this section, it shall provide notice to the Controller of that election. The notice shall include a schedule for the repayment of principal and interest on the bonds, notes, certificates of participation, or other evidence of indebtedness and identify the public credit provider that provided credit enhancement. The notice shall be provided not later than the date of issuance of the bonds.

(2) If, for any reason a public credit provider is required to make principal or interest payments or both pursuant to a credit enhancement agreement, the public credit provider shall immediately notify the Controller of that fact and of the amount paid out by the public credit provider.

(3) Upon receipt of the notice required by paragraph (2), the Controller shall make an apportionment to the public credit provider in the amount of the payments made by the public credit provider for the purpose of reimbursing the public credit provider for its expenditures made pursuant to the credit enhancement agreement. The Controller shall make that apportionment only from moneys designated for apportionments to the school district pursuant to Section 42238 or to the county office of education pursuant to Section 2558 or to the community college district pursuant to Section 84750.

(b) The amount apportioned for a school district, a county office of education, or a community college district pursuant to this section shall be deemed to be an allocation to the district or the county office of education or the community college district for purposes of subdivision (b) or Section 8 of Article XVI of the California Constitution. For purposes of computing revenue limits or revenue levels pursuant to Section 42338 for any school district or pursuant to Section 2558 for any county office of education or pursuant to Section 84750 for any community college district, the revenue limit or revenue level for any fiscal year in which funds are apportioned for the district or for the county office of education pursuant to this section shall include any amounts apportioned by the Controller pursuant to paragraph (3) of subdivision (a).

(Added by Stats.1998, c. 1076 (S.B.2126), § 1.)

§ 17194. Participating district as agent for authority

The authority may authorize any participating district to act as its agent in the performance of acts specifically approved by the authority, and all acts required under Article 3 (commencing with Section 17280) of Chapter 3 of Part 10.5. The authorizations may include, but are not necessarily limited to, all of the following:

- (a) The selection of school or college sites.
- (b) The securing of appraisals.
- (c) Contracts for architectural services.
- (d) The advertisement for construction bids and the entry into contracts for construction.
- (e) The purchase of furniture and equipment.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17195. Release of interest in project to districts

Whenever the principal and interest on bonds issued by the authority to finance the cost of a project, or to refinance the outstanding indebtedness of one or more participating districts, including any refunding bonds issued to refund and refinance those bonds, have been fully paid or retired, or whenever adequate provision has been made to fully pay and retire the bonds, and all other conditions of the resolution, lease, trust indenture and any security interest, or any other instrument or instruments authorizing and securing the bonds have been satisfied and the lien of security interest has been released in accordance with those provisions, the authority shall promptly provide for and execute any releases, release deeds, reassignments, deeds, and conveyances as are necessary and required to convey or release its rights, title, and interest in the project financed, to the participating districts.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17196. Applicability of other laws

(a) This chapter shall be deemed to provide a complete, additional, and alternative method for accomplishing the acts authorized in this chapter, and shall be deemed as being supplemental and additional to the powers conferred by other applicable laws, except that the issuance of revenue bonds and refunding bonds and the undertaking or projects or financings under this chapter need not comply with the requirements of any other laws applicable to the issuance of bonds, including, without limitation, Division 13 (commencing with Section 21000) of the Public Resources Code.

(b) Except as provided in subdivision (a), the financing of a project under this chapter shall not exempt a project from any of the requirements of law which are otherwise applicable to the project.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17197. Inconsistency with other laws

To the extent that the provisions of this chapter are inconsistent with any other provisions of any general statute, or a special act or parts thereof, the provisions of this chapter shall be deemed controlling.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998.)

§ 17199.1. District financing agreements with authority; liquidity or credit enhancement; agents; applicability of other laws

(a) Any participating district, exclusively for the purpose of securing financing or refinancing of projects or working capital pursuant to this chapter through the issuance, by the authority, of revenue bonds, certificates of participation, or other means, and notwithstanding any other provision of law, may: (1) sell to the authority all or part of any rights to or possibilities regarding the state's share of funding for school facilities approved by the State Allocation Board pursuant to Chapter 12.5 (commencing with Sec. 17070.10) including amounts apportioned and funded and amounts approved but not yet funded by the State Allocation Board from proceeds of state bonds already authorized by the electors but not yet issued; (2) issue bonds to the authority; or (3) borrow money or purchase or lease educational facilities from the authority, and in connection therewith, sell or lease property to the authority, in each case at any interest rate or rates, rental provisions, with any maturity date or dates or term, and with any other transfer, assignment, payment, security, default, remedy, and other terms or provisions as may be specified in the sale of rights agreement or the bonds of the participating district or a loan, loan purchase, installment sale, lease, or other agreement between the authority and the participating district, subject to the following conditions:

(A) The sum of the amount borrowed to finance working capital and the interest payable thereon at the initial interest rate if interest is variable, shall not exceed 85 percent of the estimated amount of uncollected taxes, income, revenue, cash receipts, and other district funds which will be available in any fiscal year for the repayment of the loan and the interest thereon. For purposes of this paragraph, "revenue" includes, but is not limited to, federal and state funds received by the district.

(B) In computing the maximum amount which may be borrowed in any fiscal year pursuant to subparagraph (A), the district may exclude the amount of any principal or interest which is secured by a pledge of the amount in any inactive or term deposit of the district which has a term scheduled to terminate during that fiscal year.

(C) A participating district that borrows money to finance working capital pursuant to this subdivision shall be required to repay and discharge the loan, including interest, within 15 months of the loan date.

(D) In enacting this chapter, it is the intent of the Legislature to provide financing of working capital needed to cover temporary or cash-flow deficits and needs for working capital and not long-term budget deficits or shortfalls in funding. The participating school district must demonstrate to the satisfaction of the authority that, during the term of any working capital loan received pursuant to this chapter, the participating district will receive or otherwise have (without additional borrowing) sufficient funds to repay and discharge the loan. The participating district may take into account all district funds and may base future projections upon historical experience or reasonable expectations, or a combination thereof.

§ 17199.1

(b) Notwithstanding Sections 700, 703, and 1045 of the Civil Code, the rights and possibilities that a participating district may have or obtain in the future to an approved state contribution to funding for school facilities pursuant to Chapter 12.5 (commencing with Sec. 17070.10) that remains unfunded pending the issuance of state bonds already authorized by the electors shall constitute property for all purposes and may be transferred as provided in subdivision (a). In the case of any transfer or assignment of rights or possibilities relating to funds for which bonds have been approved by the voters but are not yet available, the transfer or assignment shall be approved by resolution of the State Allocation Board prior to becoming effective.

(c) Any participating district may enter into any agreement for liquidity or credit enhancement, with any reimbursement, payment, interest, security, default, remedy, and other terms it may deem necessary or appropriate in connection with the issuance of bonds, the borrowing of money or the lease or purchase of educational facilities, whichever is applicable. Any participating district or districts may also do all things and execute all documents as may be necessary or desirable in connection with the issuance of certificates of participation, or other interests, in any bond, loan, installment sale, lease, or other agreement of the district.

(d) A school district may by resolution authorize any county or city board of education or superintendent of schools, and a community college district may by resolution authorize the Board of Governors of the California Community Colleges or the Chancellor of the California Community Colleges, to act as its agent in the performance of any of the matters permitted by this section or any other provision of this chapter. Notwithstanding any other provision of law, the agent shall have the powers granted by the resolution for purposes of this chapter. The resolution shall be deemed to bind the school district or community college district, as the case may be, to any contract, agreement, instrument, or other document executed by the agent on behalf of the school district or community college district, and all duties, obligations, or responsibilities contained therein on the part of the school district or community college district, to the same extent as if duly authorized, executed, and delivered by the school district or community college district.

(e) This section shall be deemed to provide a complete, additional, and alternative method for accomplishing the acts authorized by this section, and the sale or transfer of any rights to or possibilities regarding the state share of funding for school facilities approved by the State Allocation Board including amounts apportioned and funded and amounts approved but not yet funded from proceeds of state bonds already authorized by the electors but not yet issued, issuance of bonds to, borrowing of money from, or sale or purchase or lease of educational facilities from or to, the authority. Any agreement entered into in connection with the transfer of any rights to or possibilities regarding the state contribution for funding for school facilities pursuant to Chapter 12.5 (commencing with Section 17070.10), including amounts apportioned and funded and amounts approved but not yet funded by the State Allocation Board from proceeds of state bonds already authorized by the electors but not yet issued, or the issuance of bonds, the borrowing of money or the sale, purchase,

§ 17199.1

or lease of educational facilities, including, without limitation, any agreement for liquidity or credit enhancement under this section, need not comply with the requirements of any other law applicable to issuance of bonds, borrowing, selling, purchasing, leasing, pledge, encumbrance, or credit, as the case may be, by a school district or community college district, or by a county or city board of education or superintendent of schools or the Board of Governors of the California Community Colleges or Chancellor of the California Community Colleges.

(Added by Stats.1996, c. 277 (S.B.1562), § 2, operative Jan. 1, 1998. Amended by Stats.1999, c. 718 (A.B.636), § 2, eff. Oct. 10, 1999; Stats.2000, c. 193 (A.B.2586), § 2.)

§ 17199.3. Amount of revenue bonds outstanding; restriction

(a) The total amount of revenue bonds which may be issued and outstanding at any time for purposes of this chapter, other than those revenue bonds issued under Section 17199.4, shall not exceed four hundred million dollars (\$400,000,000).

(b) The total amount that may be outstanding at any time under this chapter, for purposes of Section 17199.4 only, shall not exceed four billion dollars (\$4,000,000,000).

(c) For purposes of subdivisions (a) and (b), bonds which meet any of the following conditions shall not be deemed to be outstanding:

(1) Bonds which have been refunded pursuant to Section 17188.

(2) Bonds for which money or securities in amounts necessary to pay or redeem the principal, interest, or any redemption premium on the bonds have been deposited in trust.

(3) Bonds which have been issued to provide working capital.

(Added by Stats.1997, c. 893 (S.B.161), § 94. Amended by Stats.1998, c. 741 (A.B.89), § 1.)

§ 17199.4. Financing of projects; guarantee or payment of bonds under specified conditions; application to authority; priorities; report to legislature

(a) Notwithstanding any other law, any participating school district or county office of education, in connection with securing financing or refinancing of projects, except working capital, pursuant to this chapter may elect to guarantee or provide for payment of the bonds in accordance with the following conditions:

(1) If a participating school district or county office of education adopts a resolution by a majority vote of its board to participate under this section, it shall provide notice to the Controller of that election. The notice shall include a schedule for the repayment of principal and interest on the bonds and identify a trustee appointed by the participating school district or county office of education or the authority for purposes of this section. The notice shall be provided not later than the date of issuance of the bonds.

(2) If, for any reason, the school district or county office of education will not make the payment of principal and interest at the time the payment is required, the participating school district or county office of education shall notify the trustee of that fact and of the amount of the deficiency. The trustee shall immediately communicate that information to the Controller.

(3) Upon receipt of the notice required by paragraph (2), the Controller shall make an apportionment to the trustee in the amount of the deficiency for the

§ 17199.4

EDUCATION CODE

purpose of making the required payment of principal or interest, or both. The Controller shall make that apportionment only from moneys in Section A of the State School Fund designated for apportionment to the district pursuant to Section 42238 or to the county office of education pursuant to Section 2558.

(4) As an alternative to the procedures set forth in paragraphs (2) and (3), the participating school district or county office of education may provide a transfer schedule in its notice to the Controller of its election to participate under this section. The transfer schedule shall set forth amounts to be transferred to the trustee and the date for the transfers. The Controller shall, subject to the limitation in the last sentence of paragraph (3), make apportionments to the trustee of those amounts on the specified date for the purpose of making those transfers.

(b) The amount apportioned for a school district or for a county office of education pursuant to this section shall be deemed to be an allocation to the district or the county office of education for purposes of subdivision (b) of Section 8 of Article XVI of the California Constitution. For purposes of computing revenue limits pursuant to Section 42238 for any school district or pursuant to Section 2558 for any county office of education, the revenue limit for any fiscal year in which funds are apportioned for the district or for the county office of education pursuant to this section shall include any amounts apportioned by the Controller pursuant to paragraphs (3) and (4) of subdivision (a).

(c)(1) School districts or county offices of education that elect to participate under this section shall apply to the authority. The authority shall consider each of the following priorities in making funds available:

(A) First priority shall be given to school districts or county offices of education that apply for funding for instructional classroom space.

(B) Second priority shall be given to school districts or county offices of education that apply for funding of modernization of instructional classroom space.

(C) Third priority shall be given to all other eligible costs, as defined in Section 17173.

(2) The authority shall prioritize applications at appropriate intervals.

(3) A school district electing to participate under this section that has applied for revenue bond moneys for the purposes of joint venture school facilities construction projects, pursuant to Article 5 (commencing with Section 17060) of Chapter 12, shall not be subject to the priorities set forth in paragraph (1).

(d) This section shall not be construed to make the State of California liable for any payment of principal or interest on any bonds or certificates of participation within the meaning of Section 1 of Article XVI of the California Constitution or otherwise, except as expressly provided in this section.

(e) A school district that has a qualified or negative certification pursuant to Section 42131, or a county office of education that has a qualified or negative certification pursuant to Section 1240, may not participate under this section.

(f) The authority shall report to the Legislature by January 1, 2001, on the number of school districts or county offices of education electing to participate under this section and on the financial stability of the participating school districts and county offices of education.

(Added by Stats.1997, c. 893 (S.B.161), § 95. Amended by Stats.1998, c. 741 (A.B.89), § 2.)

§ 17199.5. Credit enhancement agreement; payment by public credit provider; apportionment allocation

Notwithstanding Section 17199.4, if the bonds were subject to a credit enhancement agreement provided by a public credit provider pursuant to Section 17193.5 for which a payment for principal or interest, or both, has been made by the public credit provider, the Controller shall allocate to the public credit provider, rather than the trustee, the percentage of the apportionment to be made pursuant to this paragraph equal to the percentage of the outstanding indebtedness which is subject to the credit enhancement agreement.

(Added by Stats.1998, c. 1076 (S.B.2126), § 2.)

§ 67330. Short title

This chapter shall be known and may be cited as the Higher Education Facilities Bond Act of 1988.

(Added by Stats.1988, c. 44, § 1.)

§ 67331. Legislative findings and declaration

The Legislature finds and declares all of the following:

(a) California's economic and social prosperity relies on a higher education system that keeps pace with California's growth. In the coming decades, the state's economic prosperity will depend on increasing the productivity of the work force and on the ability to compete successfully in the world marketplace.

(b) The system of public higher education in this state includes the University of California, the California State University, the California community colleges, and the California Maritime Academy. Each of these institutions plays a vital role in maintaining California's dominance in higher education in the United States.

(c) Over the last several years, studies have been completed by the University of California, the California State University, and the California community colleges to assess their long-term and short-term capital needs, which studies demonstrate that these needs total, in the aggregate, several billion dollars.

(d) The purpose of the Higher Education Facilities Bond Act of 1988 is to assist in meeting the capital outlay financing needs of California's public higher education system.

(Added by Stats.1988, c. 44, § 1.)

§ 67332. Definitions

As used in this chapter, the following terms have the following meanings:

(a) "Committee" means the Higher Education Facilities Finance Committee created pursuant to Section 67353.

(b) "Fund" means the 1988 Higher Education Capital Outlay Bond Fund created pursuant to Section 67333.

(Added by Stats.1988, c. 44, § 1.)

§ 67333. Higher education capital outlay bond fund; creation; deposit of proceeds

The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the 1988 Higher Education Capital Outlay Bond Fund, which is hereby created.

(Added by Stats.1988, c. 44, § 1.)

§ 67334. Creation of state debt or liabilities; purposes; loans to community colleges

(a) The committee shall be and is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of funding aid to the University of California, the California State University, the California community colleges, and the California Maritime Academy for the construction, including the construction of buildings and the acquisition of related fixtures, renovation, and reconstruction of facilities, for the acquisition of sites upon which these facilities are to be constructed, for the equipping of new, renovated, or reconstructed facilities, and to provide funds for payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings.

(b) Moneys made available under Section 67340 or 67342 may be used to provide short-term loans to community colleges for the purchase of instructional equipment. Those loans shall be repaid from the first moneys available in the Capital Outlay Fund for Public Higher Education beginning in the 1989-90 fiscal year, or from proceeds of the bonds.

(Added by Stats.1988, c. 44, § 1.)

§ 67335. Bonds as general obligations of state; amount; authority of treasurer to sell bonds

(a) Bonds in the total amount of six hundred million dollars (\$600,000,000), not including the amount of any refunding bonds issued in accordance with Section 67343, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the committee at such different times as necessary to service expenditures required by the apportionments.

(Added by Stats.1988, c. 44, § 1.)

§ 67337. Issuance of bonds; determination of necessity

The committee shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 67334 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

(Added by Stats.1988, c. 44, § 1.)

§ 67342. Request for loan from pooled money investment account

The board may request the Pooled Money Investment Board for a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, and may execute those documents required by the Pooled Money Investment Board to obtain and repay the loan. The loan shall be deposited in the fund for the purpose of carrying out the provisions of this chapter. The amount of the loan shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purposes of this chapter.

(Added by Stats.1988, c. 44, § 1.)

EDUCATION CODE

§ 67345. Title

This chapter shall be known and may be cited as the Higher Education Facilities Bond Act of June 1990.

(Added by Stats.1990, c. 6 (S.B.147), § 1, eff. Feb. 22, 1990, (Prop. 121), approved June 5, 1990.)

§ 67345.1. Findings and declarations

The Legislature finds and declares all of the following:

(a) California's economic and social prosperity relies on a higher education system that keeps pace with California's growth. In the coming decades, the state's economic prosperity will depend on increasing the productivity of the work force and on the ability to compete successfully in the world marketplace.

(b) The system of public higher education in this state includes the University of California, the California State University, the California Community Colleges, and the California Maritime Academy. Each of these institutions plays a vital role in maintaining California's dominance in higher education in the United States.

(c) Over the last several years, studies have been completed by the University of California, the California State University, and the California Community Colleges to assess their long-term and short-term capital needs. Those studies demonstrate that the long-term and short-term needs total, in the aggregate, several billion dollars.

(d) The purpose of the Higher Education Facilities Bond Act of June 1990 is to assist in meeting the capital outlay financing needs of California's public higher education system.

(Added by Stats.1990, c. 6 (S.B.147), § 1, eff. Feb. 22, 1990, (Prop. 121), approved June 5, 1990.)

EDUCATION CODE

§ 67346. Higher Education Outlay Bond Fund

The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the June 1990 Higher Education Capital Outlay Bond Fund, which is hereby created.

(Added by Stats.1990, c. 6 (S.B.147), § 1, eff. Feb. 22, 1990, (Prop. 121), approved June 5, 1990.)

§ 67346.5. Authority to create debts and liabilities

(a) The committee shall be and is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of funding aid to the University of California, the California State University, the California Community Colleges, and the Hastings College of the Law, and the California Maritime Academy for the construction, including the construction of buildings and the acquisition of related fixtures, the construction or improvement of off-campus facilities of the California State University approved by the Trustees of the California State University on or before July 1, 1990, renovation, and reconstruction of facilities, for the acquisition of sites upon which these facilities are to be constructed, and for the equipping of new, renovated, or reconstructed facilities, and to provide funds for payment of preconstruction costs, including, but not limited to, preliminary plans

and working drawings. The addition of the Hastings College of the Law to this section is not intended to mark a change from the funding authorizations made by Section 67354, as contained in the Higher Education Facilities Bond Act of 1986, or Section 67334, as contained in the Higher Education Facilities Bond Act of 1988, but is intended to more clearly state what was intended by the Legislature in those sections as well.

(b) Moneys made available under Section 67347.5 or 67347.7 may be used to provide short-term loans to community colleges for the purchase of instructional equipment. Those loans shall be repaid from the first moneys available in the Capital Outlay Fund for Public Higher Education beginning in the 1990-91 fiscal year, or from proceeds of the bonds.

(Added by Stats.1990, c. 6 (S.B.147), § 1, eff. Feb. 22, 1990, (Prop. 121), approved June 5, 1990.)

§ 67347. Issuance of bonds

(a) Bonds in the total amount of four hundred fifty million dollars (\$450,000,000), not including the amount of any refunding bonds issued in accordance with Section 67347.8, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the committee at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.1990, c. 6 (S.B.147), § 1, eff. Feb. 22, 1990, (Prop. 121), approved June 5, 1990.)

EDUCATION CODE

§ 67347.2. Limitation on issuance of bonds

The committee shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 67346.5 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

(Added by Stats.1990, c. 6 (S.B.147), § 1, eff. Feb. 22, 1990, (Prop. 121), approved June 5, 1990.)

EDUCATION CODE

§ 67347.7. Pooled Money Investment Board loans

The board may request the Pooled Money Investment Board for a loan from the Investment Account, in accordance with Section 16312 of the Government Code, and the documents required by the Pooled Money Investment Board to obtain and repay the loan shall be deposited in the fund for the purpose of carrying out the provisions of this chapter. The loan shall not exceed the amount of the unsold bonds that the committee is authorized to be sold for the purposes of this chapter.

For the purposes of requesting Pooled Money Investment Board loans in accordance with this section, "board" means: the President of the University of California, the Dean of the Humanities, the Law, the Chancellor of the California State University, the President of the State Bar of California, the President of the California Community Colleges, each acting in her own behalf.

(Added by Stats.1990, c. 6 (S.B.147), § 1, eff. Feb. 22, 1990, (Prop. 121), approved June 15, 1990.)

EDUCATION CODE

§ 67350. Short title

This chapter shall be known and may be cited as the Higher Education Facilities Bond Act of 1986.

(Added by Stats.1986, c. 424, § 2.)

§ 67352. Definitions

As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Board" means the State Public Works Board.

(b) "Committee" means the Higher Education Facilities Finance Committee, created pursuant to Section 67353.

(c) "Fund" means the Higher Education Capital Outlay Bond Fund, created pursuant to subdivision (e) of Section 67354.

(Added by Stats.1986, c. 424, § 2.)

§ 67353. Finance committee; creation; membership

The Higher Education Facilities Finance Committee is hereby created, consisting of the Governor, the Controller, the Treasurer, the Director of Finance, the President of the University of California, the Chancellor of the California State University, and the Chancellor of the California Community Colleges, or their designees. The Treasurer shall serve as chairperson of the committee.

(Added by Stats.1986, c. 424, § 2.)

§ 67354. Authorization to create debts or liabilities of state; purposes; apportionment amounts; sales of bonds; deposit of proceeds

(a) For the purpose of funding aid to the University of California, the California State University, the California Community Colleges, and the California Maritime Academy for the construction, including the construction of buildings and the acquisition of related fixtures, renovation, and reconstruction of facilities, for the acquisition of sites upon which these facilities are to be constructed, for the equipping of new, renovated, or reconstructed facilities, which equipment shall have a useful life of at least 10 years, to provide funds for payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings, and to provide funds to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code, the committee shall be and is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of four hundred million dollars (\$400,000,000) in the manner provided in this chapter, but not in excess thereof.

(b) The committee shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine when the bonds authorized under this chapter shall be issued in order to fund the authorized apportionments, and the amount of the bonds to be issued and sold.

(c) Up to two hundred fifty million dollars (\$250,000,000) shall be available for apportionment in the 1986-87 fiscal year, and up to one hundred fifty million dollars (\$150,000,000) shall be available for apportionment for the 1987-88 fiscal year, and in each subsequent fiscal year, except that the maximum aggregate debt or liability amount set forth in subdivision (a) shall not be exceeded.

(d) Pursuant to this section, the Treasurer shall sell the bonds authorized by the committee at such different times as necessary to service expenditures required by the apportionments.

(e) The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the Higher Education Capital Outlay Bond Fund, which is hereby created in the State Treasury.

(Added by Stats.1986, c. 424, § 2.)

§ 67354.5. Use of bond proceeds for short-term loans to community colleges for purchasing instructional equipment

The proceeds of the bonds may also be used to provide short-term loans to community colleges for the purchase of instructional equipment. Those loans shall be repaid from the first moneys available in the Capital Outlay Fund for Public Higher Education beginning in the 1987-88 fiscal year.

(Added by Stats.1986, c. 424, § 2.)

EDUCATION CODE

§ 67358. Short title

This chapter shall be known and may be cited as the Higher Education Facilities Bond Act of June 1992.

(Added by Stats.1992, c. 13 (S.B.119), § 1, eff. March 11, 1992, operative June 2, 1992 (Prop.153, approved June 2, 1992).)

§ 67358.1. Legislative findings and declarations

The Legislature finds and declares all of the following:

(a) California's economic and social prosperity relies on a higher education system that keeps pace with California's growth. In the coming decades, the state's economic prosperity will depend on increasing the productivity of the work force and on the ability to compete successfully in the world marketplace.

(b) The system of public higher education in this state includes the University of California containing nine campuses, the California State University containing 20 campuses, the California Community Colleges consisting of 71 districts containing 107 campuses, the Hastings College of the Law, the California Maritime Academy, and their respective off-campus centers. Each of these institutions plays a vital role in maintaining California's dominance in higher education in the United States.

(c) Over the last several years, studies have been completed by the University of California, the California State University, and the California Community Colleges to assess their long-term and short-term capital needs. Those studies demonstrate that the long-term and short-term needs total, in the aggregate, several billion dollars.

(d) The purpose of the Higher Education Facilities Bond Act of June 1992 is to assist in meeting the capital outlay financing needs of California's public higher education system.

(Added by Stats.1992, c. 13 (S.B.119), § 1, eff. March 11, 1992, operative June 2, 1992 (Prop.153, approved June 2, 1992).)

EDUCATION CODE

§ 67358.2. Definitions

As used in this chapter, the following terms have the following meanings:

(a) "Committee" means the Higher Education Facilities Finance Committee created pursuant to Section 67353.

(b) "Fund" means the 1992 Higher Education Capital Outlay Bond Fund created pursuant to Section 67358.3.

(Added by Stats.1992, c. 13 (S.B.119), § 1, eff. March 11, 1992, operative June 2, 1992 (Prop.153, approved June 2, 1992).)

§ 67358.3. 1992 higher education capital outlay bond fund

The proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the 1992 Higher Education Capital Outlay Bond Fund, which is hereby created.

(Added by Stats.1992, c. 13 (S.B.119), § 1, eff. March 11, 1992, operative June 2, 1992 (Prop.153, approved June 2, 1992).)

EDUCATION CODE

§ 67358.4. Debt authorized; purpose; Hastings College of the Law

The committee shall be and is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of funding aid to the University of California, the California State University, the California Community Colleges, the Hastings College of the Law, and the California Maritime Academy for the construction, including the construction of buildings and the acquisition of related fixtures; the equipping of new, renovated, or reconstructed facilities; funding for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings; renovation and reconstruction of facilities; and the construction or improvement of off-campus facilities of the California State University approved by the Trustees of the California State University on or before July 1, 1990, including the acquisition of sites upon which these facilities are to be constructed.

The addition of the Hastings College of the Law to this section is not intended to mark a change from the funding authorizations made by Section 67354, as contained in the Higher Education Facilities Bond Act of 1986, or Section 67334, as contained in the Higher Education Facilities Bond Act of 1988, but is intended to state more clearly what was intended by the Legislature in those sections as well.

(Added by Stats.1992, c. 13 (S.B.119), § 1, eff. March 11, 1992, operative June 2, 1992 (Prop.153, approved June 2, 1992).)

§ 67358.5. Amount of bonds; state obligation; sale

(a) Bonds in the total amount of nine hundred million dollars (\$900,000,000), not including the amount of any refunding bonds issued in accordance with Section 67359.3, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds shall, when sold, be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the committee at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.1992, c. 13 (S.B.119), § 1, eff. March 11, 1992, operative June 2, 1992 (Prop.153, approved June 2, 1992).)

EDUCATION CODE

§ 67358.7. Issuance of bonds

The committee shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 67358.4 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

(Added by Stats.1992, c. 13 (S.B.119), § 1, eff. March 11, 1992, operative June 2, 1992 (Prop.153, approved June 2, 1992).)

EDUCATION CODE

§ 67359. General fund withdrawal; limits on expenditures; seismic retrofitting

(a) For the purposes of carrying out this chapter, the Director of Finance may, by executive order, authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds that have been authorized by the committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund. Any money made available under this section shall be returned to the General Fund, together with interest at the rate paid on moneys in the Pooled Money Investment Account, from money received from the sale of bonds for the purpose of carrying out this chapter.

(b) No funds shall be expended pursuant to this chapter for the acquisition and development of new campuses that would increase the number of campuses designated in Section 67358.1.

(c) Any request forwarded to the Legislature and the Department of Finance for funds from this bond issue for expenditure for the purposes described in Section 67358.4 by the University of California, the California State University, or the California Community Colleges shall be accompanied by the five-year capital outlay plan of the particular university or college and shall include a schedule that prioritizes the seismic retrofitting needed to significantly reduce, by the 2000-01 fiscal year, in the judgment of the particular university or college, seismic hazards in buildings identified as high priority by the university or college.

(Added by Stats.1992, c. 13 (S.B.119), § 1, eff. March 11, 1992, operative June 2, 1992 (Prop.153, approved June 2, 1992).)

EDUCATION CODE

§ 67359.2. Pooled money investment account loan

The board may request the Pooled Money Investment Board for a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, and may execute those documents required by the Pooled Money Investment Board to obtain and repay the loan. The loan shall be deposited in the fund for the purpose of carrying out the provisions of this chapter. The amount of the loan shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purposes of this chapter.

(Added by Stats.1992, c. 13 (S.B.119), § 1, eff. March 11, 1992, operative June 2, 1992 (Prop.153, approved June 2, 1992).)

EDUCATION CODE

§ 67359.20. Northridge earthquake damage; repairs

Any funds from the 1988 Higher Education Capital Outlay Bond Fund, the June 1990 Higher Education Capital Outlay Bond Fund, and the 1992 Higher Education Capital Outlay Bond Fund, not to exceed a combined total of seventy-five million dollars (\$75,000,000), are hereby appropriated to the Director of Finance for allocation to the University of California, the California State University, and the California Community Colleges to meet the timely allocation of matching grants to repair, replace, reconstruct, renovate, or retrofit on-campus buildings or facilities, including utilities, and streets and roads that were damaged in the Northridge earthquake of January 17, 1994.

* * *

(Added by Stats.1996, c. 896 (S.B.1613), § 1. Amended by Stats.2001, c. 745 (S.B.1191), § 34, eff. Oct. 12, 2001.)

§ 100000. Short title

This chapter shall be known and may be cited as the Public Education Facilities Bond Act of 1996.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100010. State School Building Lease-Purchase Fund; deposit of bond sale proceeds

(a) Two billion twenty-five million dollars (\$2,025,000,000) of the proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the State School Building Lease-Purchase Fund.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100015. State School Building Lease-Purchase Fund; use of deposited moneys

All moneys deposited in the State School Building Lease-Purchase Fund shall be available to provide aid to school districts of the state in accordance with the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 22 (commencing with Section 17700) of Part 10), and of all acts amendatory thereof and supplementary thereto, to provide aid to school districts, county superintendents of schools, and county boards of education of the state in accordance with Sections 100020, 100025, 100030, and 100035, to provide funds to repay any money advanced or loaned to the State School Building Lease-Purchase Fund under any act of the Legislature, together with interest provided for in that act, and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. (Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100020. Bond sale proceeds; amount limitation for specified purposes

Of the proceeds from the sale of bonds pursuant to this chapter, not more than nine hundred million dollars (\$900,000,000) may be used for one or more of the following purposes:

(a) The acquisition of portable classrooms for use in accordance with Chapter 25 (commencing with Section 17785) of Part 10.

(b) The reconstruction or modernization of facilities pursuant to Chapter 22 (commencing with Section 17700) of Part 10. In addition to the current program requirements, the State Allocation Board may allocate funding pursuant to this subdivision for the reconstruction or modernization of any existing structure, including the wiring and cabling in that structure, to enable that structure to accommodate computers and other high technology equipment.

(c) The purchase and installation of air-conditioning equipment and insulation materials, and related costs, pursuant to Section 42250.1, for schools operated on a year-round multitrack schedule in a manner that increases school capacity and reduces or eliminates the school district's need for the construction of additional classroom space.

(d) Project funding for applicant districts under Chapter 22 (commencing with Section 17700) of Part 10 that have incurred or will incur enrollment increases due to the locating or expansion of state or federal prisons.

(e) The acquisition of relocatable child care and development facilities for the purpose of providing extended day care services pursuant to Article 22 (commencing with Section 8460) of Chapter 2 of Part 6.

(f) Project funding, without regard to funding priorities, for applicant county boards of education under Chapter 22 (commencing with Section 17700) of Part 10 that are eligible for that funding for classrooms for severely handicapped pupils.

(g) Project funding for applicant districts under Chapter 22 (commencing with Section 17700) of Part 10 that are eligible for that funding, but that lack funding priority due to the size of pupil enrollment in the district.

(h) Project funding for high priority roof replacement projects.

(i) Construction projects or the purchase of furniture or equipment designed to increase school security.

(j) The identification, assessment, or abatement in school facilities of hazardous asbestos pursuant to either Chapter 22 (commencing with Section 17700) of Part 10 or Section 39619.6 and of lead.

(k) The reconstruction or modernization of facilities pursuant to Chapter 22 (commencing with Section 17700) of Part 10. Notwithstanding Section 17721.3, the State Allocation Board may allocate funding pursuant to this subdivision for the reconstruction or modernization of an existing structure in an amount that exceeds 25 percent of the replacement cost of that structure in order to finance structural improvements needed to avert future earthquake damage.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100025. Bond sale proceeds; amount limitation for use on seismic retrofit projects; existing public school facilities

Of the proceeds from the sale of bonds pursuant to this chapter, not more than one hundred million dollars (\$100,000,000) may be used for seismic retrofit projects of existing public school facilities.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100030. Bond sale proceeds; amount limitation for use on school district projects; school district contribution

Of the proceeds from the sale of bonds pursuant to this chapter, not more than forty million dollars (\$40,000,000) may be used for projects for school districts that agree to contribute 60 percent or more of the cost of those projects.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100035. Bond sale proceeds; amount limitation for use on projects including joint use of facilities

Of the proceeds from the sale of bonds pursuant to this chapter, not more than twenty-five million dollars (\$25,000,000) may be used for projects that include joint use of facilities pursuant to Section 17750 or 17751.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100110. Legislative findings and declarations

The Legislature finds and declares all of the following:

(a) California's economic and social prosperity relies on a higher education system that keeps pace with California's growth. In the coming decades, the state's economic prosperity will depend on increasing the productivity of the work force and on the ability to compete successfully in the world marketplace.

(b) The system of public higher education in this state includes the University of California, comprising nine campuses, the California State University, comprising 22 campuses, including the California Maritime Academy, a specialized institution, the California Community Colleges, consisting of 71 districts and 107 campuses, the Hastings College of the Law, and their respective off-campus centers. Each of these institutions plays a vital role in maintaining California's dominance in higher education in the United States.

(c) Over the last several years, studies have been completed by the University of California, the California State University, and the California Community Colleges to assess their long-term and short-term capital needs. Those studies demonstrate that the long-term and short-term needs total, in the aggregate, several billion dollars.

(d) The purpose of this article is to assist in meeting the capital outlay financing needs of California's public higher education system.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

**§ 100115. 1996 Higher Education Capital Outlay Bond Fund; creation;
deposit of bond sale proceeds**

Nine hundred seventy-five million dollars (\$975,000,000) of the proceeds of bonds issued and sold pursuant to this chapter shall be deposited in the 1996 Higher Education Capital Outlay Bond Fund, which is hereby created.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100120. Higher Education Facilities Finance Committee; debt authorized; purposes; Hastings College of Law

The Higher Education Facilities Finance Committee created pursuant to Section 67353 shall be and is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of funding aid to the University of California, the California State University, the California Community Colleges, and the Hastings College of the Law for the construction, including the construction of buildings and the acquisition of related fixtures; the equipping of new, renovated, or reconstructed facilities; funding for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings; renovation and reconstruction of facilities; and the construction or improvement of off-campus facilities of the California State University approved by the Trustees of the California State University on or before July 1, 1990, including the acquisition of sites upon which these facilities are to be constructed.

The addition of the Hastings College of the Law to this section is not intended to mark a change from the funding authorizations made by Section 67354, as contained in the Higher Education Facilities Bond Act of 1986, or Section 67334, as contained in the Higher Education Facilities Bond Act of 1988, but is intended to state more clearly what was intended by the Legislature in those sections as well.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203,-approved March 26, 1996).)

§ 100121. Community college district buildings; renovation, reconstruction, or demolition; historic significance

The Board of Governors of the California Community Colleges shall consider the historic significance of community college district buildings that are 50 years of age or older if those buildings are to be renovated, reconstructed, or demolished in connection with the construction of buildings utilizing the funds provided by this chapter.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100125. Sale and issuance of bonds; total amount; state obligation

(a) Bonds in the total amount of three billion dollars (\$3,000,000,000), not including the amount of any refunding bonds issued in accordance with Section 100175, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the Higher Education Facilities Finance Committee created pursuant to Section 67353 at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100130. State School Building Finance Committee; continued existence; composition; advisors

The State School Building Finance Committee, created by Section 15909 and composed of the Governor, Controller, Treasurer, Director of Finance, and the Superintendent of Public Instruction, or their designated representatives, all of whom shall serve thereon without compensation, and a majority of whom shall constitute a quorum, is continued in existence for the purpose of this chapter. The Treasurer shall be designated to chair the committee. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker of the Assembly, shall meet with and provide advice to the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter, the Members of the Legislature shall constitute an interim investigating committee on the subject of this chapter and, as that committee, shall have the powers and duties imposed upon those committees by the Joint Rules of the Senate and the Assembly. The Director of Finance shall provide the assistance to the committee as it may require. The Attorney General of the state shall be the legal adviser of the committee. (Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100135. General obligation bond law; application; board

(a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

(b) For purposes of the State General Obligation Bond Law, the State Allocation Board is designated the "board" for purposes of administering the State School Building Lease-Purchase Fund.

(c) For purposes of the State General Obligation Bond Law, each state agency administering an appropriation of the 1996 Higher Education Capital Outlay Bond Fund is designated as the "board" for projects funded by those appropriations.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100140. Apportionments funding; issuance of bonds; committee authorization

(a) Upon request of the State Allocation Board from time to time, supported by a statement of the apportionments made and to be made for the purposes described in Sections 100015, 100020, 100025, 100030, and 100035, the State School Building Finance Committee created pursuant to Section 15909 shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to fund the apportionments and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to fund those apportionments progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

(b) The Higher Education Facilities Finance Committee created pursuant to Section 67353 shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments for the purposes described in Section 100120 that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the actions specified in Section 100120 and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100145. Revenue collection

There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year, and it is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100150. Appropriation

Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum that is necessary to carry out the provisions of Section 100165, appropriated without regard to fiscal years.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100155. Pooled Money Investment Account; loans

The board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee has, by resolution, authorized to be sold for the purpose of carrying out this chapter. The board shall execute those documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100160. Interest exemption; separate accounts; use of proceeds or earnings

Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), if the Treasurer sells bonds that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes subject to designated conditions, the Treasurer may maintain separate accounts for the bond proceeds invested and for the investment earnings on those proceeds, and may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds that is required or desirable under federal law in order to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100165. General fund withdrawal; deposit and return; seismic retrofitting

(a) For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds that have been authorized by the State School Building Finance Committee or the Higher Education Facilities Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the State School Building Lease-Purchase Fund and the 1996 Higher Education Capital Outlay Bond Fund. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(b) Any request forwarded to the Legislature and the Department of Finance for funds from this bond issue for expenditure for the purposes described in Section 100120 by the University of California, the California State University, or the California Community Colleges shall be accompanied by the five-year capital outlay plan of the particular university or college and shall include a schedule that prioritizes the seismic retrofitting needed to significantly reduce, by the 2002-03 fiscal year, in the judgment of the particular university or college, seismic hazards in buildings identified as high priority by the university or college.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100170. Specified funds transfer to General Fund

All money deposited in the State School Building Lease-Purchase Fund, the Education Technology Fund, and the 1996 Higher Education Capital Outlay Bond Fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100175. Refunding bonds

The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the electors of the state for the issuance of the bonds described in this chapter shall include approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds. (Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100180. Bond sale proceeds; disbursements; constitutional limitations

The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article. (Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

§ 100185. Remaining funds; transfer and apportionment; sale of unsold bonds

(a) Any remaining funds resulting or derived from the sale of bonds pursuant to Chapter 9 (commencing with Section 16400), Chapter 10 (commencing with Section 16500), Chapter 11 (commencing with Section 16600), Chapter 12 (commencing with Section 16700), Chapter 13 (commencing with Section 16800), Chapter 15 (commencing with Section 17000), Chapter 16 (commencing with Section 17100), Chapter 17 (commencing with Section 17200), Chapter 18 (commencing with Section 17300), Chapter 19 (commencing with Section 17400), and Chapter 20 (commencing with Section 17500), of Part 10, shall be transferred to the State School Building Lease-Purchase Fund and may be apportioned by the State Allocation Board for the purposes of the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 22 (commencing with Section 17700) of Part 10).

(b) Any unsold bonds, authorized for issuance under Chapter 9 (commencing with Section 16400), Chapter 10 (commencing with Section 16500), Chapter 11 (commencing with Section 16600), Chapter 12 (commencing with Section 16700), Chapter 13 (commencing with Section 16800), Chapter 15 (commencing with Section 17000), Chapter 16 (commencing with Section 17100), Chapter 17 (commencing with Section 17200), Chapter 18 (commencing with Section 17300), Chapter 19 (commencing with Section 17400), and Chapter 20 (commencing with Section 17500), of Part 10 may be sold by the Treasurer, upon authorization by the State School Building Finance Committee for the purposes of the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 22 (commencing with Section 17700) of Part 10).

(Added by Stats.1996, c. 1 (A.B.1168), § 1, eff. Jan. 8, 1996 (Prop. 203, approved March 26, 1996).)

EDUCATION CODE

§ 100400. Short title

This part shall be known and may be cited as the Class Size Reduction Kindergarten–University Public Education Facilities Bond Act of 1998.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100401. Incorporation of provisions

The incorporation of, or reference to, any provisions of California statutory law in this part includes all acts amendatory thereof and supplementary thereto.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100403. Bonds

(a) Bonds in the total amount of nine billion two hundred million dollars (\$9,200,000,000), not including the amount of any refunding bonds issued in accordance with Chapter 2 (commencing with Section 100410) and Chapter 3 (commencing with Section 100450), or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this part and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established by Section 15909 and the Higher Education Facilities Finance Committee established pursuant to Section 67353 at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100405. Statutory references

For purposes of this part, "Chapter 12" means Chapter 12 (commencing with Section 17000) of Part 10 and "Chapter 12.5" means Chapter 12.5 (commencing with Section 17070.10) of Part 10.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100410. 1998 State School Facilities Fund

(a) Three billion three hundred fifty million dollars (\$3,350,000,000) of the proceeds of bonds issued and sold pursuant to this part shall be deposited in the 1998 State School Facilities Fund, which is established by Section 17070.40, and allocated by the State Allocation Board pursuant to this chapter. Before requesting the sale of bonds pursuant to Section 100432 for deposit in the State School Facilities Fund, the State Allocation Board shall request, pursuant to Section 100432, the sale of bonds sufficient to finance all projects for which application was made pursuant to the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 12 (commencing with Section 17000) of Part 10) and for which an application was approved for construction, but funding was not available, prior to November 4, 1998.

(b) In addition to the amount specified in subdivision (a), three billion three hundred fifty million dollars (\$3,350,000,000) of the bonds authorized by this chapter shall only be issued and sold pursuant to this chapter on or after July 1, 2000, and the proceeds of those bonds shall be deposited in the 1998 State School Facilities Fund and allocated by the State Allocation Board pursuant to this chapter.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100415. Funds for school construction

(a) All moneys deposited in the 1998 State School Facilities Fund pursuant to this chapter shall be available and, notwithstanding any other provision of law to the contrary, are hereby appropriated to provide aid to school districts of the state in accordance with the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 12 (commencing with Section 17000) of Part 10) and in accordance with the Leroy F. Greene School Facilities Act of 1998 (Chapter 12.5 (commencing with Section 17070.10) of Part 10), to provide aid to school districts, county superintendents of schools, and county boards of education of the state in accordance with Section 100420, to provide funds to repay any money advanced or loaned to the 1998 State School Facilities Fund under any act of the Legislature, together with interest provided for in that act, and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

(b) The bonds issued and sold pursuant to this chapter shall fund kindergarten and grades 1 through 12, inclusive, school constructions for a four-year period.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100420. Schedule

(a) Of the proceeds from the sale of bonds, issued and sold pursuant to this chapter, as specified in subdivision (a) of Section 100410, not more than three billion three hundred fifty million dollars (\$3,350,000,000) shall be allocated beginning in the 1998–99 fiscal year in accordance with the following schedule:

(1) Not less than one billion three hundred fifty million dollars (\$1,350,000,000) for project funding related to the growth in enrollment of applicant school districts under Chapter 12 and Chapter 12.5 that have incurred or will incur enrollment increases.

(2) Not less than eight hundred million dollars (\$800,000,000) for the reconstruction or modernization of facilities pursuant to Chapter 12 and Chapter 12.5.

(3) Not more than five hundred million dollars (\$500,000,000) shall be deposited in the Public School Critical Hardship Account, which is hereby established in the 1998 State School Facilities Fund and shall be allocated by the State Allocation Board to fund critical hardships as defined in Chapter 12.5. These funds may be expended for the acquisition of portable classrooms for use in accordance with Chapter 14 (commencing with Section 17085) of Part 10.

(4)(A) Not more than seven hundred million dollars (\$700,000,000) may be allocated to assist school districts with site acquisition and facilities-related costs of kindergarten and grades 1 to 3, inclusive, that are in the Class Size Reduction Program contained in Chapter 6.10 (commencing with Section 52120) of Part 28 and Chapter 19 (commencing with Section 17200) of Part 10, and to assist districts with the restoration of facilities that previously accommodated other programs and were displaced as a result of the implementation of class size reduction. On and after July 1, 2000, if applications for the total funds available under this paragraph have not been filed with the State Allocation Board, the funds for which applications have not been received may be allocated by the board to other high priority needs as the board determines. On and after July 1, 2003, any funds not allocated are available for other high priority needs.

(B) The funds allocated in subparagraph (A) shall be allocated to the State Department of Education to provide class size reduction facilities grants necessary to implement the K–3 Class Size Reduction Program established pursuant to Chapter 6.10 (commencing with Section 52120) of Part 28 and Chapter 19 (commencing with Section 17200) of Part 10. The department shall certify to the State Allocation Board the amount of funds needed for this purpose. The board shall transfer the amount of funds needed to the department. From these funds, the department shall award eligible districts forty thousand dollars (\$40,000) for each new option one class established for class size reduction for which the district had not previously received funding under class size reduction facilities programs.

(C) The remaining funds provided pursuant to subparagraph (A) shall be to provide funding for schoolsites that were eligible to receive a class size reduction land-locked waiver pursuant to Section 52122.6. The funds may be provided to districts to provide 50 percent of the cost of funding a facilities mitigation plan developed for the impacted site pursuant to Section 52122.7.

(D) Any funds not expended pursuant to subparagraphs (A), (B), or (C) may be allocated to districts that request funding of forty thousand dollars (\$40,000)

§ 100420.

for each teaching station that (1) was displaced as a result of the implementation of class size reduction and (2) received less than forty thousand dollars (\$40,000) per teaching station in 1996-97 pursuant to Chapter 19 (commencing with Section 17200) of Part 10. Programs for which teaching stations may be restored may include child care, extended day care, school libraries, computer labs, and special education classrooms.

(b) Of the proceeds from the sale of bonds issued and sold pursuant to this chapter, as specified in subdivision (b) of Section 100410, not more than three billion three hundred fifty million dollars (\$3,350,000,000) shall be allocated beginning in the 2000-01 fiscal year in accordance with the following schedule:

(1) Not less than one billion five hundred fifty million dollars (\$1,550,000,000) for project funding related to the growth in enrollment of applicant school districts under Chapter 12.5 that have incurred or will incur enrollment increases.

(2) Not less than one billion three hundred million dollars (\$1,300,000,000) for the reconstruction or modernization of facilities pursuant to Chapter 12.5.

(3) Not more than five hundred million dollars (\$500,000,000) shall be deposited in the Public School Critical Hardship Account in the 1998 State School Facilities Fund and shall be allocated by the State Allocation Board to fund critical hardships as defined in Chapter 12.5. These funds may be expended for the acquisition of portable classrooms for use in accordance with Chapter 14 (commencing with Section 17085) of Part 10.

(c) Districts may use funds allocated pursuant to paragraph (2) of subdivision (a) and paragraph (2) of subdivision (b) for one or more of the following purposes in accordance with Chapter 12.5:

(1) The purchase and installation of air-conditioning equipment and insulation materials, and related costs.

(2) Construction projects or the purchase of furniture or equipment designed to increase school security or playground safety.

(3) The identification, assessment, or abatement in school facilities of hazardous asbestos.

(4) Project funding for high priority roof replacement projects.

(5) Any other renovation or modernization of facilities pursuant to Chapter 12.5.

(d) Funds allocated pursuant to paragraph (1) of subdivision (a) and paragraph (1) of subdivision (b) may be utilized to provide new construction grants, without regard to funding priorities, for applicant county boards of education under Chapter 12.5 that are eligible for that funding or classrooms for severely handicapped pupils and funding for classrooms for county community school pupils.

(e)(1) The Legislature may amend this section to adjust the minimum funding amounts specified in paragraphs (1) and (2) of subdivision (a) and the maximum funding amounts specified in paragraphs (3) and (4) of subdivision (a), and to adjust the minimum funding amounts specified in paragraphs (1) and (2)

§ 100420

of subdivision (b) and the maximum funding amount specified in paragraph (3) of subdivision (b), by either of the following methods:

(A) By a statute, passed in each house of the Legislature by rollcall vote entered in the respective journals, by not less than two-thirds of the membership in each house concurring, if the statute is consistent with, and furthers the purposes of, this chapter.

(B) By a statute that becomes effective only when approved by the voters.

(2) Amendments pursuant to this subdivision may adjust the amounts to be expended pursuant to paragraphs (1) to (4), inclusive, of subdivision (a) or paragraphs (1) to (3), inclusive, of subdivision (b) or both, but may not increase or decrease the total amount to be expended pursuant to either subdivision.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998). Amended by Stats.1999, c. 858 (A.B.695), § 14.)

§ 100425. Issuance and sale of bonds

(a) Bonds in the total amount of six billion seven hundred million dollars (\$6,700,000,000), not including the amount of any refunding bonds issued in accordance with Section 100444, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established pursuant to Section 15909 at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100427. State School Building Finance Committee

The State School Building Finance Committee, established by Section 15909 and composed of the Governor, the Controller, the Treasurer, the Director of Finance, and the Superintendent of Public Instruction, or their designated representatives, all of whom shall serve thereon without compensation, and a majority of whom shall constitute a quorum, is continued in existence for the purpose of this chapter. The Treasurer shall serve as chairperson of the committee. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker of the Assembly, shall meet with and provide advice to the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter, the Members of the Legislature shall constitute an interim investigating committee on the subject of this chapter and, as that committee, shall have the powers and duties imposed upon those committees by the Joint Rules of the Senate and the Assembly. The Director of Finance shall provide the assistance to the committee as it may require. The Attorney General of the state is the legal adviser of the committee.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100430. Applicable provisions

(a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

(b) For purposes of the State General Obligation Bond Law, the State Allocation Board is designated the "board" for purposes of administering the 1998 State School Facilities Fund.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100432. Determination whether or not to issue bonds

Upon request of the State Allocation Board from time to time, supported by a statement of the apportionments made and to be made for the purposes described in Sections 100415 and 100420, the State School Building Finance Committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to fund the apportionments and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to fund those apportionments progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100434. Annual collection to pay bond principal and interest

There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100435. Appropriations

Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100440, appropriated without regard to fiscal years.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100436. Loan

The State Allocation Board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100438. Bond counsel opinion; bond interest excluded from gross income for federal tax purposes

Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100440. Withdrawal from General Fund

For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the State School Building Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 1998 State School Facilities Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100442. Money reserved for transfer to General Fund

All money deposited in the 1998 State School Facilities Fund, that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100444. Refunding

The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100446. Disbursement of proceeds

The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100450. Legislative findings and declarations

The Legislature finds and declares all of the following:

(a) California's economic and social prosperity relies on a higher education system that keeps pace with California's growth. In the coming decades, the state's economic prosperity will depend on increasing the productivity of the work force and on the ability to compete successfully in the world marketplace.

(b) The system of public higher education in this state includes the University of California, the Hastings College of the Law, the California State University, the California Community Colleges, and their respective off-campus centers. Each of these institutions plays a vital role in maintaining California's dominance in higher education in the United States.

(c) Over the last several years, studies have been completed by the California Postsecondary Education Commission, the University of California, the California State University, and the California Community Colleges to assess their long-term and short-term capital needs. Those studies demonstrate that the long-term and short-term needs total, in the aggregate, seven hundred fifty million dollars (\$750,000,000) per year into the next century.

(d) Proceeds from the sale of bonds issued and sold pursuant to this chapter may be used to fund construction on existing or new campuses and off-campus centers, including the construction of buildings and the acquisition of related fixtures, the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings at the University of California, the Hastings College of the Law, the California State University and the California Community Colleges.

(e) The purposes of this article include assisting in meeting the capital outlay financing needs of California's public higher education system.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100455. 1998 Higher Education Capital Outlay Bond Fund

(a) Two billion five hundred million dollars (\$2,500,000,000) of the proceeds of bonds issued and sold pursuant to this part shall be deposited in the 1998 Higher Education Capital Outlay Bond Fund which is hereby established in the State Treasury. These funds shall be available for expenditure when appropriated.

(b) One billion two hundred fifty million dollars (\$1,250,000,000) of the bonds described in subdivision (a), shall only be issued and sold pursuant to this chapter on or after July 1, 2000.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100457. Development of new campuses

(a) Of the amount of bonds issued and sold pursuant to subdivision (b) of Section 100455, one hundred sixty-five million dollars (\$165,000,000) shall be allocated in the 2000-01 fiscal year to be available only for the following purposes:

(1) The development of new campuses of the University of California.

(2) The development of new campuses, small campuses with enrollments of less than 5,000 full-time equivalent students, and off-campus centers at the California State University and the California Community Colleges.

(b) The amount of the allocation of funds required pursuant to this section for the development of new campuses may be reduced by a future legislative act if the Legislature finds that state funds have been provided from sources other than the proceeds of bonds for capital outlay costs. The reduction shall be limited to the amount actually provided from sources other than bond proceeds.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100460. Authority of Higher Education Facilities Finance Committee

The Higher Education Facilities Finance Committee established pursuant to Section 67353 is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of providing funds to aid the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges. (Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100500. Issuance and sale of bonds

(a) Bonds in the total amount of two billion five hundred million dollars (\$2,500,000,000), not including the amount of any refunding bonds issued in accordance with Section 100555, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the Higher Education Facilities Finance Committee established pursuant to Section 67353 at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100510. Applicable provisions

(a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated in this chapter as though set forth in full in this chapter.

(b) For the purposes of the State General Obligation Bond Law, each state agency administering an appropriation of the 1998 Higher Education Capital Outlay Bond Fund is designated as the "board" for projects funded pursuant to this chapter.

(c) The proceeds of the bonds issued and sold pursuant to this chapter shall be available for the purpose of funding aid to the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges, for the construction on existing or new campuses, and their respective off-campus centers, including the construction of buildings and the acquisition of related fixtures, renovation, and reconstruction of facilities, for the acquisition of sites upon which these facilities are to be constructed, for the equipping of new, renovated, or reconstructed facilities, which equipment shall have a useful life of at least 10 years, to provide funds for payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100520. Determination whether or not to issue bonds

The Higher Education Facilities Finance Committee established pursuant to Section 67353 shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments for the purposes described in this chapter that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the purposes described in this chapter and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100525. Annual collection to pay bond principal and interest

There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100530. Appropriations

Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100545, appropriated without regard to fiscal years.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100535. Loan

The board, as defined in subdivision (b) of Section 100510, may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board, as defined in subdivision (b) of Section 100510, shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100540. Bond counsel opinion; bond interest excluded from gross income for federal tax purposes

Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100545. Withdrawal from General Fund

(a) For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the Higher Education Facilities Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 1998 Higher Education Capital Outlay Bond Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(b) Any request forwarded to the Legislature and the Department of Finance for funds from this bond issue for expenditure for the purposes described in this chapter by the University of California, the California State University, or the California Community Colleges shall be accompanied by the five-year capital outlay plan. Requests forwarded by a university or college shall include a schedule that prioritizes the seismic retrofitting needed to significantly reduce, by the 2002–03 fiscal year, in the judgment of the particular university or college, seismic hazards in buildings identified as high priority by the university or college. Requests forwarded by the California Community Colleges shall be accompanied by a five-year capital outlay plan reflecting the needs and priorities of the community college system, prioritized on a statewide basis.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100550. Money reserved for transfer to General Fund

All money deposited in the 1998 Higher Education Capital Outlay Bond Fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100555. Refunding

The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds.

(Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100560. Disbursement of proceeds

The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article. (Added by Stats.1998, c. 407 (S.B.50), § 16, eff. Aug. 27, 1998, operative Nov. 3, 1998 (Prop. 1A approved Nov. 3, 1998).)

§ 100600. Short title

Section effective if approved at November 5, 2002 election.

This part shall be known and may be cited as the Kindergarten-University Public Education Facilities Bond Act of 2002.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100601. Incorporation of provisions

Section effective if approved at November 5, 2002 election.

The incorporation of, or reference to, any provision of California statutory law in this part includes all acts amendatory thereof and supplementary thereto.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100603. Bonds

Section effective if approved at November 5, 2002 election.

Bonds in the total amount of thirteen billion fifty million dollars (\$13,050,000,000), not including the amount of any refunding bonds issued in accordance with Sections 100644 and 100755, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this part and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b)¹ Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established by Section 15909 or the Higher Education Facilities Finance Committee established pursuant to Section 67353, as the case may be, at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100610. 2002 State School Facilities Fund

Section effective if approved at November 5, 2002 election.

The proceeds of bonds issued and sold pursuant to Article 2 (commencing with Section 100625) shall be deposited in the 2002 State School Facilities Fund, which is established in Section 17070.40, and shall be allocated by the State Allocation Board pursuant to this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100615. Funds for school construction

Section effective if approved at November 5, 2002 election.

All moneys deposited in the 2002 State Facilities Fund for the purposes of this chapter shall be available and, notwithstanding any other provision of law to the contrary, are hereby appropriated to provide aid to school districts, county superintendents of schools, and county boards of education of the state in accordance with the Leroy F. Greene School Facilities Act of 1998 (Chapter 12.5 (commencing with Section 17070.10) of Part 10), as set forth in Section 100620, to provide funds to repay any money advanced or loaned to the 2002 State School Facilities Fund under any act of the Legislature, together with interest provided for in that act, and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100620. Schedule for allocation of proceeds from sale of bonds

Section effective if approved at November 5, 2002 election.

(a) The proceeds from the sale of bonds, issued and sold for the purposes of this chapter, shall be allocated in accordance with the following schedule:

(1) The amount of three billion four hundred fifty million dollars (\$3,450,000,000) for new construction of school facilities of applicant school districts under Chapter 12.5 (commencing with Section 17070.10) of Part 10 for those school districts that file an application with the Office of Public School Construction after February 1, 2002, including, but not limited to, hardship applications.

(A) Of the amount allocated pursuant to this paragraph, up to one hundred million dollars (\$100,000,000) shall be available for providing school facilities to charter schools pursuant to a statute enacted after the effective date of the act enacting this section.

(B) If the Housing and Emergency Shelter Trust Fund Act of 2002 is submitted to the voters at the November 5, 2002, general election and fails passage by the voters, of the amount allocated pursuant to this paragraph, twenty-five million dollars (\$25,000,000) shall be available for the purposes of Sections 51451.5, 51453, and 51455 of the Health and Safety Code.

(2) The amount of one billion four hundred million dollars (\$1,400,000,000) for the modernization of school facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10 for those school districts that file an application with the Office of Public School Construction after February 1, 2002, including, but not limited to, hardship applications.

(3) The amount of two billion nine hundred million dollars (\$2,900,000,000) for new construction of school facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10 for those school districts that have filed an application with the Office of Public School Construction on or before February 1, 2002, including, but not limited to, hardship applications. If the amount made available for purposes of this paragraph is not needed and expended for the purposes of this paragraph, the State Allocation Board may allocate the remainder of these funds for purposes of paragraph (1).

§ 100620

(4) The amount of one billion nine hundred million dollars (\$1,900,000,000) for the modernization of school facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10, for those school districts that have filed an application with the Office of Public School Construction on or before February 1, 2002, including, but not limited to, hardship applications. If the amount made available for purposes of this paragraph is not needed and expended for the purposes of this paragraph, the State Allocation Board may allocate these funds for purposes of paragraph (2).

(5) The amount of one billion seven hundred million dollars (\$1,700,000,000) for deposit into the 2002 Critically Overcrowded School Facilities Account established within the 2002 State School Facilities Fund pursuant to subdivision (e) of Section 17078.10, for the purposes set forth in Article 11 (commencing with Section 17078.10) of Chapter 12.5 of Part 10 relating to critically overcrowded schools, including, but not limited to, hardship applications, and any other new construction or modernization projects as authorized pursuant to Section 17078.30.

(6) The amount of fifty million dollars (\$50,000,000) for the purposes set forth in Article 10.6 (commencing with Section 17077.40) of Chapter 12.5 of Part 10 relating to joint-use projects, including, but not limited to, hardship applications.

(b) School districts may use funds allocated pursuant to paragraphs (2) and (4) of subdivision (a) only for one or more of the following purposes in accordance with Chapter 12.5 (commencing with Section 17070.10) of Part 10:

(1) The purchase and installation of air-conditioning equipment and insulation materials, and related costs.

(2) Construction projects or the purchase of furniture or equipment designed to increase school security or playground safety.

(3) The identification, assessment, or abatement in school facilities of hazardous asbestos.

(4) Project funding for high priority roof replacement projects.

(5) Any other modernization of facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10.

(c) Funds allocated pursuant to paragraphs (1) and (3) of subdivision (a) may, also, be utilized to provide new construction grants for eligible applicant county boards of education under Chapter 12.5 (commencing with Section 17070.10) of Part 10 for funding classrooms for severely handicapped pupils, or for funding classrooms for county community school pupils.

(d)(1) The Legislature may amend this section to adjust the funding amounts specified in paragraphs (1) to (6), inclusive, of subdivision (a), only by either of the following methods:

(A) By a statute, passed in each house of the Legislature by rollcall vote entered in the respective journals, by not less than two-thirds of the membership in each house concurring, if the statute is consistent with, and furthers the purposes of, this chapter.

EDUCATION CODE

§ 100620

(B) By a statute that becomes effective only when approved by the voters.

(2) Amendments pursuant to this subdivision may adjust the amounts to be expended pursuant to paragraphs (1) to (6), inclusive, of subdivision (a), but may not increase or decrease the total amount to be expended pursuant to that subdivision.

(e) From the total amounts set forth in paragraphs (1) to (6), inclusive, of subdivision (a), a total of no more than twenty million dollars (\$20,000,000) shall be used for the costs of energy conservation adjustments authorized pursuant to Section 17077.35.

(f) Funds available pursuant to this section may be used for acquisition of school facilities authorized pursuant to Section 17280.5.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100625. Insurance and sale of bonds

Section effective if approved at November 5, 2002 election.

(a) Of the total amount of bonds authorized to be issued and sold pursuant to Chapter 1 (commencing with Section 100600), bonds in the total amount of eleven billion four hundred million dollars (\$11,400,000,000) not including the amount of any refunding bonds issued in accordance with Section 100644, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established pursuant to Section 15909 at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100627. State School Building Finance Committee

Section effective if approved at November 5, 2002 election.

The State School Building Finance Committee, established by Section 15909 and composed of the Governor, the Controller, the Treasurer, the Director of Finance, and the Superintendent of Public Instruction, or their designated representatives, all of whom shall serve thereon without compensation, and a majority of whom shall constitute a quorum, is continued in existence for the purpose of this chapter. The Treasurer shall serve as chairperson of the committee. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker of the Assembly, shall meet with and provide advice to the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter, the Members of the Legislature shall constitute an interim investigating committee on the subject of this chapter and, as that committee, shall have the powers granted to, and duties imposed upon, those committees by the Joint Rules of the Senate and the Assembly. The Director of Finance shall provide assistance to the committee as it may require. The Attorney General of the state is the legal adviser of the committee.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100630. Application of State General Obligation Bond Law provisions

Section effective if approved at November 5, 2002 election.

(a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated into this chapter as though set forth in full within this chapter.

(b) For purposes of the State General Obligation Bond Law, the State Allocation Board is designated the "board" for purposes of administering the 2002 State School Facilities Fund.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100632. Determination whether or not to issue bonds

Section effective if approved at November 5, 2002 election.

Upon request of the State Allocation Board from time to time, supported by a statement of the apportionments made and to be made for the purposes described in Sections 100615 and 100620, the State School Building Finance Committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to fund the apportionments and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to fund those apportionments progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100634. Annual collection to pay bond principal and interest

Section effective if approved at November 5, 2002 election.

There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act that is necessary to collect that additional sum.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100635. Appropriations

Section effective if approved at November 5, 2002 election.

Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100640, appropriated without regard to fiscal years.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100636. Loans

Section effective if approved at November 5, 2002 election.

The State Allocation Board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100638. Bound counsel opinion; bond interest excluded from gross income for federal tax purposes

Section effective if approved at November 5, 2002 election.

Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100640. Withdrawal from General Fund

Section effective if approved at November 5, 2002 election.

For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the State School Building Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 2002 State School Facilities Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100642. Money reserved for transfer to General Fund

Section effective if approved at November 5, 2002 election.

All money deposited in the 2002 State School Facilities Fund, that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100644. Refunding

Section effective if approved at November 5, 2002 election.

The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100646. Disbursement of proceeds

Section effective if approved at November 5, 2002 election.

The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100650. System of public higher education; 2002 Higher Education Capital Outlay Bond Fund; creation of debts and liabilities for purpose of providing funds

Section effective if approved at November 5, 2002 election.

(a) The system of public higher education in this state includes the University of California, the Hastings College of the Law, the California State University, the California Community Colleges, and their respective off-campus centers.

(b) The 2002 Higher Education Capital Outlay Bond Fund is hereby established in the State Treasury for deposit of funds from the proceeds of bonds issued and sold for the purposes of this chapter.

(c) The Higher Education Facilities Finance Committee established pursuant to Section 67353 is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of providing funds to aid the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges. (Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100652. Deposits in 2002 Higher Education Capital Outlay Bond Fund for purposes of article; use of proceeds

Section effective if approved at November 5, 2002 election.

(a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100700), the sum of four hundred eight million two hundred sixteen thousand dollars (\$408,216,000) shall be deposited in the 2002 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the University of California and the Hastings College of the Law.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the University of California and the Hastings College of the Law.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100653. Deposits in 2002 Higher Education Capital Outlay Bond Fund for purposes of article; use of proceeds

Section effective if approved at November 5, 2002 election.

(a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100700), the sum of four hundred ninety-five million nine hundred thirty-two thousand dollars (\$495,932,000) shall be deposited in the 2002 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the California State University.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the California State University.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100654. Deposits in 2002 Higher Education Capital Outlay Bond Fund for purposes of article; use of proceeds

Section effective if approved at November 5, 2002 election.

(a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100700), the sum of seven hundred forty-five million eight hundred fifty-three thousand dollars (\$745,853,000) shall be deposited in the 2002 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the California Community Colleges.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the California Community Colleges.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100700. Issuance and sale of bonds; legislative intent; report of findings

Section effective if approved at November 5, 2002 election.

(a) Of the total amount of bonds authorized to be issued and sold pursuant to Chapter 1 (commencing with Section 100600), bonds in the total amount of one billion six hundred fifty million dollars (\$1,650,000,000), not including the amount of any refunding bonds issued in accordance with Section 100755, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) It is the intent of the Legislature that the University of California, the California State University, and the California Community Colleges annually consider, as part of their annual capital outlay planning process, the inclusion of facilities that may be used by more than one segment of public higher education (intersegmental), and, that on or before May 15th of each year, those entities report their findings to the budget committees of each house of the Legislature.

(c) Pursuant to this section, the Treasurer shall sell the bonds authorized by the Higher Education Facilities Finance Committee established pursuant to Section 67353 at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100710. Application of State General Obligation Bond Law provisions; availability of proceeds

Section effective if approved at November 5, 2002 election.

(a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated into this chapter as though set forth in full within this chapter.

(b) For the purposes of the State General Obligation Bond Law, each state agency administering an appropriation of the 2002 Higher Education Capital Outlay Bond Fund is designated as the "board" for projects funded pursuant to this chapter.

(c) The proceeds of the bonds issued and sold pursuant to this chapter shall be available for the purpose of funding aid to the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges, for the construction on existing or new campuses; and their respective off-campus centers and joint use and intersegmental facilities, as set forth in this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100720. Determination whether or not to issue bonds

Section effective if approved at November 5, 2002 election.

The Higher Education Facilities Finance Committee established pursuant to Section 67353 shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments for the purposes described in this chapter that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the purposes described in this chapter and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100725. Annual collection to pay bond principal and interest

Section effective if approved at November 5, 2002 election.

There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100730. Appropriations

Section effective if approved at November 5, 2002 election.

Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100745, appropriated without regard to fiscal years.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100735. Loans

Section effective if approved at November 5, 2002 election.

The board, as defined in subdivision (b) of Section 100710, may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board, as defined in subdivision (b) of Section 100710, shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100740. Bound counsel opinion; bond interest excluded from gross income for federal tax purposes

Section effective if approved at November 5, 2002 election.

Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100745. Withdrawal from General Fund

Section effective if approved at November 5, 2002 election.

(a) For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the Higher Education Facilities Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 2002 Higher Education Capital Outlay Bond Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(b) Any request forwarded to the Legislature and the Department of Finance for funds from this bond issue for expenditure for the purposes described in this chapter by the University of California, the Hastings College of the Law, the California State University, or the California Community Colleges shall be accompanied by the five-year capital outlay plan. Requests forwarded by a university or college shall include a schedule that prioritizes the seismic retrofitting needed to significantly reduce, in the judgment of the particular university or college, seismic hazards in buildings identified as high priority by the university or college. Requests forwarded by the California Community Colleges shall be accompanied by a five-year capital outlay plan reflecting the needs and priorities of the community college system, prioritized on a statewide basis.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100750. Money reserved for transfer to General Fund

Section effective if approved at November 5, 2002 election.

All money deposited in the 2002 Higher Education Capital Outlay Bond Fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (effective if approved at November 5, 2002 election).)

§ 100755. Refunding

Section effective if approved at November 5, 2002 election.

The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds. (Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100760. Disbursement of proceeds

Section effective if approved at November 5, 2002 election.

The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article.

(Added by Stats.2002, c. 33 (A.B.16), § 30, (Prop. 47, effective if approved at November 5, 2002 election).)

§ 100800. Short title

Section effective if approved at 2004 direct primary election.

This part shall be known and may be cited as the Kindergarten-University Public Education Facilities Bond Act of 2004.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100801. Incorporation of provisions

Section effective if approved at 2004 direct primary election.

The incorporation of, or reference to, any provision of California statutory law in this part includes all acts amendatory thereof and supplementary thereto.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100803. Bonds

Section effective if approved at 2004 direct primary election.

(a) Bonds in the total amount of twelve billion three hundred million dollars (\$12,300,000,000), not including the amount of any refunding bonds issued in accordance with Sections 100844 and 100955, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this part and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established by Section 15909 or the Higher Education Facilities Finance Committee established pursuant to Section 67353, as the case may be, at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100810. 2004 State School Facilities Fund

Section effective if approved at 2004 direct primary election.

The proceeds of bonds issued and sold pursuant to Article 2 (commencing with Section 100825) shall be deposited in the 2004 State School Facilities Fund, which is established in Section 17070.40, and shall be allocated by the State Allocation Board pursuant to this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100815. Funds for school construction

Section effective if approved at 2004 direct primary election.

All moneys deposited in the 2004 State Facilities Fund for the purposes of this chapter shall be available and, notwithstanding any other provision of law to the contrary, are hereby appropriated to provide aid to school districts, county superintendents of schools, and county boards of education of the state in accordance with the Leroy F. Greene School Facilities Act of 1998 (Chapter 12.5 (commencing with Section 17070.10) of Part 10), as set forth in Section 100820, to provide funds to repay any money advanced or loaned to the 2004 State School Facilities Fund under any act of the Legislature, together with interest provided for in that act, and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. (Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100820. Schedule for allocation of proceeds from sale of bonds

Section effective if approved at 2004 direct primary election.

(a) The proceeds from the sale of bonds, issued and sold for the purposes of this chapter, as specified in subdivision (a) of Section 100810 shall be allocated in accordance with the following schedule:

(1) The amount of five billion two hundred sixty million dollars (\$5,260,000,000) for project funding for new construction of school facilities of applicant school districts under Chapter 12.5 (commencing with Section 17070.10) of Part 10, including, but not limited to, hardship applications.

(A) Of the amount allocated pursuant to this paragraph, up to three hundred million dollars (\$300,000,000) shall be available for providing school facilities to charter schools pursuant to a statute enacted after the effective date of the act enacting this section.

(B) If the Housing and Emergency Shelter Trust Fund Act of 2002 is submitted to the voters at the November 5, 2002, general election and fails passage by the voters, of the amount allocated pursuant to this paragraph, twenty-five million dollars (\$25,000,000) shall be available for the purposes of Sections 51451.5, 51453, and 51455 of the Health and Safety Code.

(2) The amount of two billion two hundred fifty million dollars (\$2,250,000,000) for the modernization of school facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10, including, but not limited to, hardship applications.

(3) The amount of two billion four hundred forty million dollars (\$2,440,000,000) for deposit into the 2004 Critically Overcrowded School Facilities Account established within the 2004 State School Facilities Fund pursuant to subdivision (e) of Section 17078.10 for the purposes set forth in Article 11 (commencing with Section 17078.10) of Chapter 12.5 of Part 10 relating to critically overcrowded schools, including, but not limited to, hardship applications, and any other new construction or modernization projects as authorized pursuant to Section 17078.30.

(4) The amount of fifty million dollars (\$50,000,000) for the purposes set forth in Article 10.6 (commencing with Section 17077.40) of Chapter 12.5 of Part 10 relating to joint-use projects, including, but not limited to, hardship applications.

(b) School districts may use funds allocated pursuant to paragraph (2) of subdivision (a) only for one or more of the following purposes in accordance with Chapter 12.5 (commencing with Section 17070.10) of Part 10:

(1) The purchase and installation of air-conditioning equipment and insulation materials, and related costs.

(2) Construction projects or the purchase of furniture or equipment designed to increase school security or playground safety.

(3) The identification, assessment, or abatement in school facilities of hazardous asbestos.

(4) Project funding for high priority roof replacement projects.

(5) Any other modernization of facilities pursuant to Chapter 12.5 (commencing with Section 17070.10) of Part 10.

(c) Funds allocated pursuant to paragraph (1) of subdivision (a) may, also, be utilized to provide new construction grants for eligible applicant county boards of education under Chapter 12.5 (commencing with Section 17070.10) of Part 10 for funding classrooms for severely handicapped pupils, or for funding classrooms for county community school pupils.

(d)(1) The Legislature may amend this section to adjust the funding amounts specified in paragraphs (1) to (4), inclusive, of subdivision (a), only by either of the following methods:

§ 100820

(A) By a statute, passed in each house of the Legislature by rollcall vote entered in the respective journals, by not less than two-thirds of the membership in each house concurring, if the statute is consistent with, and furthers the purposes of, this chapter.

(B) By a statute that becomes effective only when approved by the voters.

(2) Amendments pursuant to this subdivision may adjust the amounts to be expended pursuant to paragraphs (1) to (4), inclusive, of subdivision (a), but may not increase or decrease the total amount to be expended pursuant to that subdivision.

(e) From the total amounts set forth in paragraphs (1) to (6), inclusive, of subdivision (a), a total of no more than twenty million dollars (\$20,000,000) shall be used for the costs of energy conservation adjustments authorized pursuant to Section 17077.35.

(f) Funds available pursuant to this section may be used for acquisition of school facilities authorized pursuant to Section 17280.5.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100825. Issuance and sale of bonds

Section effective if approved at 2004 direct primary election.

(a) Of the total amount of bonds authorized to be issued and sold pursuant to Chapter 1 (commencing with Section 100800), bonds in the total amount of ten billion dollars (\$10,000,000,000), not including the amount of any refunding bonds issued in accordance with Section 100844, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) Pursuant to this section, the Treasurer shall sell the bonds authorized by the State School Building Finance Committee established pursuant to Section 15909 at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100827. State School Building Finance Committee

Section effective if approved at 2004 direct primary election.

The State School Building Finance Committee, established by Section 15909 and composed of the Governor, the Controller, the Treasurer, the Director of Finance, and the Superintendent of Public Instruction, or their designated representatives, all of whom shall serve thereon without compensation, and a majority of whom shall constitute a quorum, is continued in existence for the purpose of this chapter. The Treasurer shall serve as chairperson of the committee. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker of the Assembly, shall meet with and provide advice to the committee to the extent that the advisory participation is not incompatible with their respective positions as Members of the Legislature. For the purposes of this chapter, the Members of the Legislature shall constitute an interim investigating committee on the subject of this chapter and, as that committee, shall have the powers granted to, and duties imposed upon, those committees by the Joint Rules of the Senate and the Assembly. The Director of Finance shall provide assistance to the committee as it may require. The Attorney General of the state is the legal adviser of the committee.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100830. Application of State General Obligation Bond Law provisions

Section effective if approved at 2004 direct primary election.

(a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated into this chapter as though set forth in full within this chapter.

(b) For purposes of the State General Obligation Bond Law, the State Allocation Board is designated the "board" for purposes of administering the 2004 State School Facilities Fund.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100832. Determination whether or not to issue bonds

Section effective if approved at 2004 direct primary election.

Upon request of the State Allocation Board from time to time, supported by a statement of the apportionments made and to be made for the purposes described in Sections 100815 and 100820, the State School Building Finance Committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to fund the apportionments and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to fund those apportionments progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100834. Annual collection to pay bond principal and interest

Section effective if approved at 2004 direct primary election.

There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act that is necessary to collect that additional sum.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100835. Appropriations

Section effective if approved at 2004 direct primary election.

Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100840, appropriated without regard to fiscal years.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100836. Loans

Section effective if approved at 2004 direct primary election.

The State Allocation Board may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100838. Bond counsel opinion; bond interest excluded from gross income for federal tax purposes

Section effective if approved at 2004 direct primary election.

Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100840. Withdrawal from General Fund

Section effective if approved at 2004 direct primary election.

For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the State School Building Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 2004 State School Facilities Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100842. Money reserved for transfer to General Fund

Section effective if approved at 2004 direct primary election.

All money deposited in the 2004 State School Facilities Fund, that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100844. Refunding

Section effective if approved at 2004 direct primary election.

The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds. (Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100846. Disbursement of proceeds

Section effective if approved at 2004 direct primary election.

The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article. (Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100850. System of public higher education; 2004 Higher Education Capital Outlay Bond Fund; creation of debts and liabilities for purpose of providing funds

Section effective if approved at 2004 direct primary election.

(a) The system of public higher education in this state includes the University of California, the Hastings College of the Law, the California State University, the California Community Colleges, and their respective off-campus centers.

(b) The 2004 Higher Education Capital Outlay Bond Fund is hereby established in the State Treasury for deposit of funds from the proceeds of bonds issued and sold for the purposes of this chapter.

(c) The Higher Education Facilities Finance Committee established pursuant to Section 67353 is hereby authorized to create a debt or debts, liability or liabilities, of the State of California pursuant to this chapter for the purpose of providing funds to aid the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges. (Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

**§ 100852. Deposits in 2004 Higher Education Capital Outlay Bond Fund;
use of proceeds**

Section effective if approved at 2004 direct primary election.

(a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100900), the sum of six hundred ninety million dollars (\$690,000,000) shall be deposited in the 2004 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the University of California and the Hastings College of the Law.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the University of California and the Hastings College of the Law.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100853. Deposits in 2004 Higher Education Capital Outlay Bond Fund for purposes of article; use of proceeds

Section effective if approved at 2004 direct primary election.

(a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100900), the sum of six hundred ninety million dollars (\$690,000,000) shall be deposited in the 2004 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the California State University.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the California State University.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100854. Deposits in 2004 Higher Education Capital Outlay Bond Fund for purposes of article; use of proceeds

Section effective if approved at 2004 direct primary election.

(a) From the proceeds of bonds issued and sold pursuant to Article 5 (commencing with Section 100900), the sum of nine hundred twenty million dollars (\$920,000,000) shall be deposited in the 2004 Higher Education Capital Outlay Bond Fund for the purposes of this article. When appropriated, these funds shall be available for expenditure for the purposes of this article.

(b) The purposes of this article include assisting in meeting the capital outlay financing needs of the California Community Colleges.

(c) Proceeds from the sale of bonds issued and sold for the purposes of this article may be used to fund construction on existing campuses, including the construction of buildings and the acquisition of related fixtures, construction of facilities that may be used by more than one segment of public higher education (intersegmental), the renovation and reconstruction of facilities, site acquisition, the equipping of new, renovated, or reconstructed facilities, which equipment shall have an average useful life of 10 years; and to provide funds for the payment of preconstruction costs, including, but not limited to, preliminary plans and working drawings for facilities of the California Community Colleges.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100900. Issuance and sale of bonds; legislative intent; report of findings

Section effective if approved at 2004 direct primary election.

(a) Of the total amount of bonds authorized to be issued and sold pursuant to Chapter 1 (commencing with Section 100800), bonds in the total amount of two billion three hundred million dollars (\$2,300,000,000), not including the amount of any refunding bonds issued in accordance with Section 100955, or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in this chapter and to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code. The bonds, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of the principal of, and interest on, the bonds as the principal and interest become due and payable.

(b) It is the intent of the Legislature that the University of California, the California State University, and the California Community Colleges annually consider, as part of their annual capital outlay planning process, the inclusion of facilities that may be used by more than one segment of public higher education (intersegmental), and, that on or before May 15th of each year, those entities report their findings to the budget committees of each house of the Legislature.

(c) Pursuant to this section, the Treasurer shall sell the bonds authorized by the Higher Education Facilities Finance Committee established pursuant to Section 67353 at any different times necessary to service expenditures required by the apportionments.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100910. Application of State General Obligation Bond Law provisions; availability of proceeds

Section effective if approved at 2004 direct primary election.

(a) The bonds authorized by this chapter shall be prepared, executed, issued, sold, paid, and redeemed as provided in the State General Obligation Bond Law (Chapter 4 (commencing with Section 16720) of Part 3 of Division 4 of Title 2 of the Government Code), and all of the provisions of that law, except Section 16727 of the Government Code, apply to the bonds and to this chapter and are hereby incorporated into this chapter as though set forth in full within this chapter.

(b) For the purposes of the State General Obligation Bond Law, each state agency administering an appropriation of the 2004 Higher Education Capital Outlay Bond Fund is designated as the "board" for projects funded pursuant to this chapter.

(c) The proceeds of the bonds issued and sold pursuant to this chapter shall be available for the purpose of funding aid to the University of California, the Hastings College of the Law, the California State University, and the California Community Colleges, for the construction on existing or new campuses, and their respective off-campus centers and joint use and intersegmental facilities, as set forth in this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100920. Determination whether or not to issue bonds

Section effective if approved at 2004 direct primary election.

The Higher Education Facilities Finance Committee established pursuant to Section 67353 shall authorize the issuance of bonds under this chapter only to the extent necessary to fund the apportionments for the purposes described in this chapter that are expressly authorized by the Legislature in the annual Budget Act. Pursuant to that legislative direction, the committee shall determine whether or not it is necessary or desirable to issue bonds authorized pursuant to this chapter in order to carry out the purposes described in this chapter and, if so, the amount of bonds to be issued and sold. Successive issues of bonds may be authorized and sold to carry out those actions progressively, and it is not necessary that all of the bonds authorized to be issued be sold at any one time.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100925. Annual collection to pay bond principal and interest

Section effective if approved at 2004 direct primary election.

There shall be collected each year and in the same manner and at the same time as other state revenue is collected, in addition to the ordinary revenues of the state, a sum in an amount required to pay the principal of, and interest on, the bonds each year. It is the duty of all officers charged by law with any duty in regard to the collection of the revenue to do and perform each and every act which is necessary to collect that additional sum.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100930. Appropriations

Section effective if approved at 2004 direct primary election.

Notwithstanding Section 13340 of the Government Code, there is hereby appropriated from the General Fund in the State Treasury, for the purposes of this chapter, an amount that will equal the total of the following:

(a) The sum annually necessary to pay the principal of, and interest on, bonds issued and sold pursuant to this chapter, as the principal and interest become due and payable.

(b) The sum necessary to carry out Section 100945, appropriated without regard to fiscal years.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100935. Loans

Section effective if approved at 2004 direct primary election.

The board, as defined in subdivision (b) of Section 100910, may request the Pooled Money Investment Board to make a loan from the Pooled Money Investment Account or any other approved form of interim financing, in accordance with Section 16312 of the Government Code, for the purpose of carrying out this chapter. The amount of the request shall not exceed the amount of the unsold bonds that the committee, by resolution, has authorized to be sold for the purpose of carrying out this chapter. The board, as defined in subdivision (b) of Section 100910, shall execute any documents required by the Pooled Money Investment Board to obtain and repay the loan. Any amounts loaned shall be deposited in the fund to be allocated by the board in accordance with this chapter.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100940. Bond counsel opinion; bond interest excluded from gross income for federal tax purposes

Section effective if approved at 2004 direct primary election.

Notwithstanding any other provision of this chapter, or of the State General Obligation Bond Law, if the Treasurer sells bonds pursuant to this chapter that include a bond counsel opinion to the effect that the interest on the bonds is excluded from gross income for federal tax purposes, subject to designated conditions, the Treasurer may maintain separate accounts for the investment of bond proceeds and for the investment earnings on those proceeds. The Treasurer may use or direct the use of those proceeds or earnings to pay any rebate, penalty, or other payment required under federal law or take any other action with respect to the investment and use of those bond proceeds required or desirable under federal law to maintain the tax-exempt status of those bonds and to obtain any other advantage under federal law on behalf of the funds of this state.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100945. Withdrawal from General Fund

Section effective if approved at 2004 direct primary election.

(a) For the purposes of carrying out this chapter, the Director of Finance may authorize the withdrawal from the General Fund of an amount not to exceed the amount of the unsold bonds that have been authorized by the Higher Education Facilities Finance Committee to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the 2004 Higher Education Capital Outlay Bond Fund consistent with this chapter. Any money made available under this section shall be returned to the General Fund, plus an amount equal to the interest that the money would have earned in the Pooled Money Investment Account, from proceeds received from the sale of bonds for the purpose of carrying out this chapter.

(b) Any request forwarded to the Legislature and the Department of Finance for funds from this bond issue for expenditure for the purposes described in this chapter by the University of California, the Hastings College of the Law, the California State University, or the California Community Colleges shall be accompanied by the five-year capital outlay plan. Requests forwarded by a university or college shall include a schedule that prioritizes the seismic retrofitting needed to significantly reduce, in the judgment of the particular university or college, seismic hazards in buildings identified as high priority by the university or college. Requests forwarded by the California Community Colleges shall be accompanied by a five-year capital outlay plan reflecting the needs and priorities of the community college system, prioritized on a statewide basis.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100950. Money reserved for transfer to General Fund

Section effective if approved at 2004 direct primary election.

All money deposited in the 2004 Higher Education Capital Outlay Bond Fund that is derived from premium and accrued interest on bonds sold shall be reserved in the fund and shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

(Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100955. Refunding

Section effective if approved at 2004 direct primary election.

The bonds may be refunded in accordance with Article 6 (commencing with Section 16780) of Chapter 4 of Part 3 of Division 4 of Title 2 of the Government Code, which is a part of the State General Obligation Bond Law. Approval by the voters of the state for the issuance of the bonds described in this chapter includes the approval of the issuance of any bonds issued to refund any bonds originally issued under this chapter or any previously issued refunding bonds. (Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

§ 100960. Disbursement of proceeds

Section effective if approved at 2004 direct primary election.

The Legislature hereby finds and declares that, inasmuch as the proceeds from the sale of bonds authorized by this chapter are not "proceeds of taxes" as that term is used in Article XIII B of the California Constitution, the disbursement of these proceeds is not subject to the limitations imposed by that article. (Added by Stats.2002, c. 33 (A.B.16), § 31, (effective if approved by voters at 2004 direct primary election).)

EXHIBIT 4
TITLE 2, CODE OF REGULATIONS CITED

served to the Board and to other agencies by law or by these regulations and shall provide such staff assistance to the Board as may be necessary.

(b) He shall adopt such policies and operating procedures as he deems essential to carrying out the provisions of the Act that are not in conflict with said Act.

§ 1854. Department of Education.

(a) An application may be approved and an apportionment made only after the Board has received the reports, recommendations, and approvals from the Department of Education which are required by the Act.

§ 1855. Compliance with Laws.

(a) All laws, ordinances, rules and regulations otherwise applicable to any project undertaken pursuant to an apportionment made under the Act shall remain applicable to said project otherwise provided by the Act or these regulations.

§ 1856. Limitation of State Responsibility.

(a) In making an apportionment, neither the State nor any department or agency thereof, shall be required to assume any responsibility not otherwise imposed upon it by law.

§ 1857. References to Education Code Prior to Recodification of 1977.

(a) Reference in any document, instruction, procedure, or policy action to any part of the Education Code prior to its recodification in 1977 shall be deemed applicable to the corresponding provisions of such recodified code.

NOTE: Authority cited: Section 16009, Education Code. Reference: Sections 16000–16207, Education Code.

HISTORY

1. Amendment of section and new NOTE filed 4–29–77; effective thirtieth day thereafter (Register 77, No. 18).

§ 1858. Unforeseen Emergency Conditions Justifying an Emergency Meeting of the Board with Less Than One Week's Notice.

NOTE: Authority cited: Section 16009, Education Code. Reference: Section 1125, Government Code.

HISTORY

1. New section filed 6–29–76 as an emergency; effective upon filing (Register 76, No. 27).
2. Repealed by operation of Section 11422.1(c), Government Code (Register 76, No. 44).

Subgroup 5.5. Regulations Relating to the Leroy F. Greene School Facilities Act of 1998: (School Facility Program)

Article 1. General Provisions and Definitions

§ 1859. Purpose.

These regulations implement the Leroy F. Greene School Facilities Act of 1998, which establishes a State program to provide State per pupil funding for new construction and modernization of existing school facilities.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.10 and 17070.35, Education Code.

HISTORY

1. New subgroup 5.5 (articles 1–11), article 1 (sections 1859–1859.2) and section filed 12–3–98 as an emergency; operative 12–3–98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4–2–99 or emergency language will be repealed by operation of law on the following day.

2. New subgroup 5.5 (articles 1–11), article 1 (sections 1859–1859.2) and section refiled 3–31–99 as an emergency; operative 3–31–99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7–29–99 or emergency language will be repealed by operation of law on the following day.

3. New subgroup 5.5 (articles 1–11), article 1 (sections 1859–1859.2) and section refiled 7–29–99 as an emergency; operative 7–29–99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–26–99 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 7–29–99 order transmitted to OAL 8–26–99 and filed 10–8–99 (Register 99, No. 41).

§ 1859.1. General Services Director.

The General Services Director, or his or her legal designee shall perform all acts necessary to carry out the provisions of the Act except such functions as are reserved to the Board and to other agencies by law or by Sections 1859 through 1859.107 inclusive. The acts to be performed include, but are not limited to, entering into contracts to administer the Act. NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17070.20, Education Code.

HISTORY

1. New section filed 12–3–98 as an emergency; operative 12–3–98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4–2–99 or emergency language will be repealed by operation of law on the following day.

2. New section refiled 3–31–99 as an emergency; operative 3–31–99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7–29–99 or emergency language will be repealed by operation of law on the following day.

3. New section refiled 7–29–99 as an emergency; operative 7–29–99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–26–99 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 7–29–99 order transmitted to OAL 8–26–99 and filed 10–8–99 (Register 99, No. 41).

5. Amendment filed 6–26–2000; operative 6–26–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 1859.2. Definitions.

For the purpose of these regulations, the terms set forth below shall have the following meanings, subject to the provisions of the Act:

“Act” means the Leroy F. Greene School Facilities Act of 1998.

“Adjacent” means the HSAs that will make up the Super HSAA are adjoining, touching, or share a common geographical boundary.

“Alternative District Owned Site” means a district owned site that is deemed available for the project by the California Department of Education.

“Application” means a request pursuant to the Act to receive an eligibility determination and/or funding for a school project.

“Apportionment” shall have the meaning set forth in Education Code Section 17070.15(a).

“Approved Application(s)” means a district has submitted the application and all documents to the Office of Public School Construction that are required to be submitted with the application as identified in the General Information Section of Forms SAB 50–01, *Enrollment Certification/Projection*, (Revised 07/01); SAB 50–02, *Existing School Building Capacity*, (Revised 07/01); SAB 50–03, *Eligibility Determination*, (Revised 07/01); and SAB 50–04, *Application for Funding*, (Revised 09/01), as appropriate, and the Office of Public School Construction has completed and accepted a preliminary approval review pursuant to Education Code Section 17072.25(a).

“Attendance Area” shall have the meaning set forth in Education Code Section 17070.15(b).

“Board” means the State Allocation Board as established by Section 15490 of the Government Code.

“CBEDS Report” means the enrollment information provided through the California Basic Education Data System by school districts to the CDE.

“California Department of Education” (CDE) means the offices within that department that have responsibility for school facilities matters.

“Certification” means the act of affirmatively representing, asserting or verifying circumstances, data or information as required by the Act or this subgroup.

"Class B Construction Cost Index" is a construction factor index that is provided monthly by Marshall and Swift, for the Western area, for structures made of reinforced concrete or steel frames, concrete floors, and roofs, and accepted and used by the Board.

"Classroom" means a teaching station that has the same meaning as the term used in Education Code Section 17071.25(a)(1).

"Classroom Provided" means a classroom acquired by lease, lease-purchase, or purchase for which a contract has been signed for the construction or acquisition of the classroom.

"Committee" shall have the meaning set forth in Education Code Section 17070.15(e).

"County Fund" shall have the meaning set forth in Education Code Section 17070.15(j).

"Current Replacement Cost" means \$300 per square foot for toilet space and \$150 per square foot for all other spaces. The amounts shown will be adjusted annually in the manner prescribed in Section 1859.71.

"Department" shall have the meaning set forth in Education Code Section 17070.15(d).

"District Representative" means a member of a school district staff or other agent authorized to serve as "District Representative" to execute and file an application with the Board on behalf of the district and/or act as liaison between the Board and the district.

"Division of the State Architect (DSA)" means the State office within the Department of General Services that reviews school building plans and specifications for structural, fire safety and access compliance.

"Elementary School Pupil" means a student housed in a school serving Kindergarten through sixth grade, or any combination of Kindergarten through sixth grade.

"Encumbered for Specific Purposes" means a commitment of funds by the school district to meet a legally binding obligation.

"Energy Audit" means an energy analysis and report which sets forth the utility savings that could be generated if the proposed project was designed, constructed, and equipped with energy efficiency and renewable technologies that would make the proposed project exceed the minimum building energy-efficiency standards mandated for new public buildings pursuant to the applicable California Building Standards Code.

"Environmental Hardship" means the State funding for site acquisition as authorized by Section 1859.75.1.

"Excessive Cost Hardship Grant" means the funding provided pursuant to Education Code Sections 17075.10 and 17075.15.

"Executive Officer" means the individual appointed by the Governor to direct the Office of Public School Construction, and who concurrently serves as Executive Officer to the Board.

"Existing School Building Capacity" means the district's total capacity to house pupils as calculated pursuant to Sections 1859.30 through 1859.33.

"Facility" means all or a portion of any real property, site improvements, utilities and/or buildings or other improvements contained in the project.

"Facility Hardship" means new or replacement facilities authorized by Section 1859.82(a) or (b).

"Field Act Facility" means a school building meeting the requirements contained in Education Code Section 17280, et seq.

"Financial Hardship" means State funding for all or a portion of the district's matching share required by Section 1859.77.1 or 1859.79.

"Fund" shall have the meaning set forth in Education Code Section 17070.15(i).

"Government Agency" shall include but is not limited to a public entity as defined in Government Code Section 7260(a) including California federally recognized or historically established tribal governments.

"High School Attendance Area (HSAA)" means an attendance area.

"High School Pupil" means a student in a school serving ninth through twelfth grade or any combination of ninth through twelfth grade.

"In Escrow, Governmental Entities" means the approval and signature of instrument(s) that will convey a specified school parcel or site from the public/government entity including the federal government for a deter-

minable sum, and for a determinable date of acquisition which may be based on the district's receipt of funding from the State.

"In Escrow, Non-Governmental Entities" means the deposit of signed instrument(s) and/or funds with instructions with a title company or escrow agent to carry out the provisions of an agreement or contract to acquire a specified school parcel or site for a determinable sum, and for a determinable date of acquisition which may be based on the district's receipt of funding from the State.

"Independent Audit" means an examination and report of the district's accounts by a certified public accounting firm.

"Instrument" means a written, legally enforceable agreement, approved and signed by all parties to the escrow, for the conveyance to the district of real estate for a specified parcel or site, that includes a compensation clause and either a purchase option agreement, a purchase agreement, promissory note, lease agreement, installment sales contract, gift, or other real estate conveyance valid in the State of California for property conveyed from a public/government entity, including the federal government.

"Interim Housing" means the rental or lease of classrooms used to house pupils temporarily displaced as a result of the modernization of classroom facilities.

"Individual With Exceptional Needs" shall have the meaning set forth in Education Code Section 56026 as further defined and classified in 34 Code of Federal Regulations Part 300.5.

"Joint Use Project" means a project approved by the Board pursuant to Education Code Sections 17050 and 17051.

"Lease-Purchase Program (LPP)" means the Leroy F. Greene State School Building Lease-Purchase Law of 1976, commencing with Education Code Section 17000.

"Major Maintenance" shall have the meaning set forth in Education Code Section 17070.77(b).

"Material Inaccuracy" means any falsely certified eligibility or funding application related information submitted by school districts, architects or other design professionals that allowed the school district an advantage in the funding process.

"Mello-Roos Bonds" means the bonds that are authorized under the provisions of the Mello-Roos Community Facilities Act of 1982, commencing with Government Code Section 53311.

"Middle School Pupil" means a student in a school serving sixth through eighth grade, or seventh and eighth grades.

"Modernization" shall have the meaning set forth in Education Code Section 17070.15(f) for purposes of projects subject to Subgroup 5.5, Article 2, commencing with Section 1859 or Education Code Section 17021 under the Lease-Purchase Program.

"Modernization Additional Grant" means the funding provided pursuant to Education Code Section 17074.10(c) and (e).

"Modernization Adjusted Grant" means the Modernization Grants, plus any Excessive Cost Hardship Grant.

"Modernization Grant" means the funding provided pursuant to Education Code Section 17074.10(a).

"Modernization Grants" means the Modernization Grant plus any Modernization Additional Grant.

"Modernization Eligibility" means the result of the calculation contained in either Option A or B of the *Eligibility Determination*, Form SAB 50-03 (Revised 07/01).

"Multi-Track Year-Round Education (MTYRE)" means a school education program in which the students are divided into three or more groups on alternating tracks, with at least one group out of session, and the other groups in session during the same period.

"New Construction Additional Grant" means funding provided pursuant to Education Code Section 17072.10(c), (d) and (e); Education Code Section 17072.12, Education Code Section 17072.13 and Education Code Section 17072.18.

"New Construction Adjusted Grant" means the New Construction Grants, plus any Excessive Cost Hardship Grant.

"New Construction Eligibility" means the result of the calculation determined in Education Code Section 17071.75.

"New Construction Grant" means the funding provided pursuant to Education Code Section 17072.10(a).

"New Construction Grants" means the New Construction Grant plus any New Construction Additional Grant.

"Non-Severely Disabled Individual with Exceptional Needs" means an individual with exceptional needs not defined in Education Code Section 56030.5 but included in 34 Code of Federal Regulations Part 300.5.

"Office of Public School Construction (OPSC)" means the State office within the Department of General Services that assists the Board as necessary and administers the Act on behalf of the Director.

"Permanent Area" means any area not included in a portable classroom.

"Permanent Classroom" means any classroom not meeting the definition of portable classroom.

"Phase C Approval" means the construction approval by the Board under the Lease-Purchase Program.

"Phase One Environmental Site Assessment (POESA)" shall have the meaning set forth in Education Code Section 17210(g).

"Phase P Approval" means the planning approval by the Board under the Lease-Purchase Program.

"Phase S Approval" means the site approval by the Board under the Lease-Purchase Program.

"Portable Classroom" shall have the meaning set forth in Education Code Section 17070.15(k).

"Preliminary Endangerment Assessment (PEA)" shall have the meaning set forth in Education Code Section 17210(h).

"Priority One" shall have the meaning set forth in Education Code Section 17017.7(a)(1).

"Priority Two" shall have the meaning set forth in Education Code Section 17017.7(a)(2).

"Property" shall have the meaning set forth in Education Code Section 17070.15(g).

"Proposition 39" means the Initiative Measure (Prop. 39) enacted by passage at the November 7, 2000 general election which amended Sections 15102, 15106, 35233, and 72533 and added Chapter 1.5 (commencing with Section 15264) to Part 10, of the Education Code, and added applicable sections of the California Constitution relating to passage of local school bonds with a 55 percent vote of the electorate at a primary or general election, a regularly scheduled local election, or a statewide special election.

"Pupil" means a student enrolled in any grade Kindergarten through grade twelve.

"Quarterly Basis" means a three-month period commencing on January 1, April 1, July 1 and October 1 of each calendar year.

"Ready for Apportionment" means a final review of an Approved Application has been completed by the OPSC and it has been determined that it meets all requirements of law for an apportionment or eligibility determination, and the OPSC will recommend approval to the Board.

"Rehabilitation Cost" means health and safety mitigation cost that is less than 50 percent of the current replacement cost of the facility.

"Remedial Action Plan (RAP)" means a plan approved by the Department of Toxic Substances Control (DTSC) pursuant to Health and Safety Code Section 25356.1.

"Resource Specialist Program" means pupils that meet the definition of Non-Severely Disabled Individual with Exceptional Needs as defined in Section 1859.2 that are not enrolled in a special day class.

"Response Action (RA)" means the removal of hazardous materials and solid waste, the removal of hazardous substances, and other remedial actions in connection with hazardous substances at the site.

"School Building Capacity" shall have the meaning set forth in Education Code Section 17070.15(l).

"School District" shall have the meaning set forth in Education Code Section 17070.15(h).

"School Facilities Improvement District" means a legal entity authorized by Education Code Section 15300, to generate school facilities funding.

"School Facility Program (SFP)" means either the new construction or modernization programs implemented under the Act, by these Subgroup 5.5 regulations.

"Secondary School Pupil" means a student in the seventh through the twelfth grade.

"Section" means a section in these Subgroup 5.5 regulations.

"Severely Disabled Individual with Exceptional Needs" means an individual with exceptional needs as defined in Education Code Section 56030.5.

"Small School District" means a school district with districtwide enrollment reported in Part A, the continuation high pupils reported in Part B, and the special day class pupils reported in Part C on the latest *Enrollment Certification/Projection* Form SAB 50-01 (Revised 07/01) used to determine or adjust the district's baseline eligibility pursuant to Sections 1859.50 and 1859.51 or submitted separately to the OPSC, that is 2,500 or less.

"Special Day Class" means a class that has pupils enrolled that are individuals with exceptional needs.

"Square Footage" means the enclosed area measured from the outside face of exterior structural walls of the building. For interior areas or portions of building areas, the enclosed area shall be measured from the centerline of the interior demising wall.

"Student Yield Factor" means the number of students each dwelling unit will generate for purposes of an enrollment augmentation.

"Substantial Enrollment Requirement (SER)" means a district that is operating on a Multi-Track Year-Round Education basis pursuant to Education Code Sections 17017.6 and 17017.7(c).

"Super High School Attendance Area (Super HSAA)" means two or more HSAA's that are adjacent to each other.

"Unfunded List" means an information list of unfunded projects.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
6. Amendment of definition "Modernization Eligibility" filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
7. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
8. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
9. Editorial correction adding definition of "Unfunded List" (Register 2001, No. 6).
10. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
11. Amendment of definition "Approved Applications," new definitions "Governmental Agency," "In Escrow, Governmental Agencies," "In Escrow, Non-Governmental Agencies" and "Instrument" and amendment of NOTE filed

- 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
12. Amendment of definition of "Approved Application(s)" filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
13. New definition of "Proposition 39" filed 12-21-2001; operative 12-21-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 51).
14. Amendment of section and NOTE filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
15. Amendment of definition of "Approved Applications," new definitions of "Major Maintenance" and "Material Inaccuracy" and amendment of NOTE filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

Article 2. Program Transition

§ 1859.10. Lease-Purchase Program and School Facility Program.

Projects approved under the LPP are subject to the regulations contained in Title 2, California Code of Regulations, commencing with Section 1865.1, and the SFP transition rules contained in this Article 2.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17009.5, Education Code.

HISTORY

1. New article 2 (sections 1859.10-1859.16) and section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New article 2 (sections 1859.10-1859.16) and section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New article 2 (sections 1859.10-1859.16) and section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.11. Previously Approved Joint Use Projects.

Joint Use projects that were approved by the Board prior to November 4, 1998, shall be eligible for funding pursuant to the LPP for all remaining approved but unfunded project costs.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17009.5, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.12. Priority One New Construction.

Priority One new construction projects will be funded under the provisions of the LPP if the project received either: 1) Phase C approval by the Board prior to November 4, 1998; or 2) either Phase P or Phase P and Phase S, approvals, and DSA plan approval prior to November 4, 1998.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17009.5, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99

or emergency language will be repealed by operation of law on the following day.

3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.13. Priority Two New Construction.

Districts with Priority Two new construction projects which received either: 1) Phase C approval by the Board prior to November 4, 1998; or 2) either a Phase P or a Phase P and Phase S approval with DSA plan approval prior to November 4, 1998, must declare to the Board that it intends to convert the entire project to Priority One status by January 31, 1999 to receive funding for all remaining costs in accordance with the LPP provisions.

If the district has not declared its intention to convert the entire project to Priority One status by January 31, 1999, the project shall be deemed withdrawn under the provisions of the LPP and the district must submit a new application under the provisions of the SFP, pursuant to Section 1859.20. If the project is eligible for further funding under the SFP, the New Construction Adjusted Grant provided under the SFP will be reduced by any previous apportionments, with the exception of apportionments made for site acquisition, made under the LPP.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17009.5, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment of second paragraph filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 1859.14. Priority One Modernization.

Priority One modernization projects that have either Phase C approval by the Board prior to November 4, 1998, or have Phase P approval by the Board and DSA plan approval prior to November 4, 1998, may proceed under either (a) or (b). Districts may either:

(a) Receive funding under the provisions of the LPP; or,

(b) By January 31, 1999, withdraw the Priority One modernization LPP project and submit a new application for funding under the provisions of the SFP, pursuant to Section 1859.20. The project approval date under the LPP will be retained for the project approval date under the SFP. If the project is eligible for further funding under the SFP, the Modernization Adjusted Grant provided under the SFP will be reduced by any previous apportionments made under the LPP.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17009.5, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

5. Amendment of subsection (b) filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 1859.15. Priority Two Modernization.

Districts with Priority Two modernization projects that have either Phase C approval by the Board prior to November 4, 1998, or have Phase P approval by the Board and DSA plan approval prior to November 4, 1998, must declare to the Board that it intends to convert the entire project to Priority One status by January 31, 1999 to receive funding for all remaining costs in accordance with the LPP provisions.

If the district has not declared its intention to convert the entire project to Priority One status by January 31, 1999, the project shall be deemed withdrawn under the provisions of the LPP and the district must submit a new application under the provisions of the SFP pursuant to Section 1859.20. The project approval date under the LPP will be retained for the project approval date under the SFP. If the project is eligible for further funding under the SFP, the Modernization Adjusted Grant provided under the SFP will be reduced by any previous apportionments made under the LPP.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17009.5, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.15.1. Application Deadline.

Districts with LPP or SFP conversions from LPP new construction and modernization projects that meet the provisions of Sections 1859.12, 1859.13, 1859.14 or 1859.15 shall receive first funding priority upon submittal of a complete eligibility and funding application through July 5, 1999. After this date, LPP or SFP conversions from LPP new construction and modernization projects shall be funded in the order of the date of receipt of a complete application which complies with all pertinent LPP and SFP statutes and regulations.

NOTE: Authority cited: Section 17070.35, Education Code; and Section 15503, Government Code. Reference: Sections 17009.3 and 17009.5, Education Code.

HISTORY

1. New section filed 6-14-99 as an emergency; operative 6-14-99 (Register 99, No. 25). A Certificate of Compliance must be transmitted to OAL by 10-12-99 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 6-14-99 order transmitted to OAL 8-31-99 and filed 10-13-99 (Register 99, No. 42).

§ 1859.16. Projects Not Eligible for Further LPP Funding.

A district with projects not meeting the requirements of Sections 1859.11, 1859.12, 1859.13, 1859.14 and 1859.15 must submit a new application under the provisions of the SFP pursuant to Section 1859.20 in order to receive funding. If the project is eligible for further funding under the SFP, the:

(a) New Construction Adjusted Grant provided under the SFP will be reduced by any previous apportionments, with the exception of apportionments made for site acquisition, made under the LPP.

(b) Modernization Adjusted Grant provided under the SFP will be reduced by any previous apportionments made under the LPP.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17009.5, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.

2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.

3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

5. Amendment of first paragraph and new subsections (a) and (b) filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

Article 3. SFP Application Procedure

§ 1859.20. SFP Application for Determination of Eligibility.

A district seeking a determination of eligibility for a SFP project shall complete and file the following documents with the OPSC:

(a) For new construction, either districtwide or HSAA, or modernization projects, an application for *Eligibility Determination*, Form SAB 50-03 (Revised 07/01), which is incorporated by reference.

(b) For new construction projects, either districtwide or HSAA, an *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01), which is incorporated by reference.

(c) For new construction projects, an *Existing School Building Capacity*, Form SAB 50-02 (Revised 07/01), which is incorporated by reference.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.35, 17070.50, 17070.80, 17071.10, 17071.25 and 17073.10, Education Code.

HISTORY

1. New article 3 (sections 1859.20-1859.21) and section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. Change without regulatory effect amending subsection (a) filed 12-23-98 pursuant to section 100, title 1, California Code of Regulations (Register 98, No. 52).
3. New article 3 (sections 1859.20-1859.21) and section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
4. New article 3 (sections 1859.20-1859.21) and section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
6. Amendment of subsections (a)-(c) filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
7. Amendment of subsections (a) and (c) filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
9. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
10. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
11. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

§ 1859.21. SFP Application for Funding.

A district seeking funding for a modernization or new construction project shall complete and file with the OPSC, the *Application for Funding*, Form SAB 50-04 (Revised 09/01), which is incorporated by reference.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.35, 17070.63, 17072.30 and 17074.15, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99

- or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
 3. Amendment filed 7-12-99 as an emergency; operative 7-12-99 (Register 99, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-9-99 or emergency language will be repealed by operation of law on the following day.
 4. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
 5. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
 6. Certificate of Compliance as to 7-12-99 order, including further amendments, transmitted to OAL 11-5-99 and filed 12-22-99 (Register 99, No. 52).
 7. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
 8. Amendment filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
 9. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
 10. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
 11. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
 12. Amendment filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
 13. Amendment of form SAB 50-04 (incorporated by reference) and amendment of section filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
 14. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
 15. Amendment filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.22. SFP Application for Funding on Leased Land.

In addition to meeting the requirements of Sections 1859.20 and 1859.21, a district may receive SFP New Construction or Modernization Grants for facilities that are or will be located on real property leased by the district provided all the following are met:

- (a) The real property is leased from a governmental agency.
- (b) The term of the lease for the land for which the district is requesting SFP funding at the time the Approved Application is accepted is one of the following:

(1) At least 25 years if the lease is for real property owned by the federal government.

(2) At least 40 years if the lease is for real property owned by a governmental agency other than the federal government.

(3) At least 30 years if the lease is for real property owned by a governmental agency other than the federal government and the district has certified to all the following:

(A) There are no other educationally adequate sites for new construction available under a 40-year lease.

(B) The cost per year to lease the real property for no less than 30 years is no greater than the cost per year to lease the real property for 40 years.

(4) At least 30 years if the lease is for real property owned by a governmental agency other than the federal government and the district has provided other evidence satisfactory to the Board that a shorter lease term is necessary.

A district seeking modernization funding on land or facilities leased by the district pursuant to this Section is subject to the adjustment in the district's baseline eligibility pursuant to Section 1859.51(c).

A district seeking new construction funding on land or facilities leased by the district pursuant to this Section is subject to the adjustment in the district's baseline eligibility pursuant to Section 1859.51(a) and (i).

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17070.71, Education Code.

HISTORY

1. New section filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).

Article 4. Determining Existing School Building Capacity

§ 1859.30. Calculations to Determine Existing School Building Capacity.

For new construction projects the district shall complete, on a one-time basis, the classroom inventory pursuant to Sections 1859.31 and 1859.32 and report that inventory on the *Existing School Building Capacity*, Form SAB 50-02 (Revised 07/01). Completion of the calculations made on this Form shall represent the district's new construction Existing School Building Capacity.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17071.10, Education Code.

HISTORY

1. New article 4 (sections 1859.30-1859.35) and section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New article 4 (sections 1859.30-1859.35) and section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New article 4 (sections 1859.30-1859.35) and section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
6. Amendment filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
7. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
8. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
10. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

§ 1859.31. Gross Classroom Inventory.

The district shall prepare a gross inventory consisting of all classrooms owned or leased in the district or HSAA as appropriate. For the purpose of this gross classroom inventory, the following shall be considered a classroom. Any classroom:

(a) for which a contract was signed for the construction or acquisition of facilities or for which construction work has commenced at the time the SFP application for determination of eligibility is submitted to the OPSC;

(b) constructed with funds from the LPP;

(c) used for Special Day Class or Resource Specialist Programs;

(d) that are standard classrooms, shops, science laboratories, computer laboratories, or computer classrooms;

(e) acquired or created for Class Size Reduction purposes;

(f) used for preschool programs;

(g) converted to any non-classroom purpose including use by others;

(h) with Housing and Community Development or Department of Housing insignia;

(i) acquired for interim housing for a modernization project;

(j) leased or purchased under the State Relocatable Program pursuant to Chapter 14 of Part 10 of the Education Code;

(k) that have a waiver for continued use by the Board for Field Act exemptions;

- (l) used for Community School purposes;
- (m) included in a closed school.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17071.25 and 17071.30, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.32. Adjustments to Gross Classroom Inventory.

After the gross classroom inventory has been prepared pursuant to Section 1859.31, it will be reduced by the following. Any classrooms:

- (a) abandoned and approved for replacement as a hardship under the provisions of the LPP;
- (b) at a school operated on a year-round schedule that has been used continuously for at least 50 percent of the time for preschool programs in the five years preceding the receipt of the application for determination of eligibility;
- (c) included in any new construction LPP project that has not received a Phase C apportionment;
- (d) that is portable and owned or leased by the district for 20 years or more that was approved for abandonment in a LPP project and the plans for the project had DSA approval prior to November 4, 1998;
- (e) that is a trailer and is transported/towed on its own wheels and axles;
- (f) used exclusively for regional occupational centers, regional occupational programs, child care, preschool and/or Adult Education Programs, and was built or acquired with funds specifically available for those purposes;
- (g) of less than 700 interior square feet;
- (h) originally built for instructional use, but converted to one of the following:
 - (1) used continuously for school administration for at least five years prior to the submittal of the application to the OPSC for determination of eligibility.
 - (2) used continuously for central or main district administration for at least five years prior to the submittal of the application to the OPSC for determination of eligibility.
 - (3) used for school library purposes during the previous school year.
 - (i) owned but leased to another district.
 - (j) any portable classroom excluded by Education Code Section 17071.30.
 - (k) that is permanent space and leased for less than five years.
 - (l) any permanent classroom contained in a project for which the construction contract was signed between August 27, 1998 and November 18, 1998 and for which the district did not have full project eligibility under the LPP.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17071.25 and 17071.30, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99

or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. New subsection (l) filed 1-10-2000; operative 1-7-2000 pursuant to Government Code section 11349.3(a) (Register 2000, No. 2).
6. Amendment of section heading filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 1859.33. Classroom Identification and Determination of Existing School Building Capacity.

The district shall identify by grade level, based on its most typical use for grades K-6, 7-8 or 9-12, each classroom included in the classroom inventory determined pursuant to Section 1859.31 and not excluded pursuant to Section 1859.32. These classrooms shall be reported on the *Existing School Building Capacity*, Form SAB 50-02 (Revised 07/01).

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17071.25, 17071.30, 17071.33, 17071.35 and 17071.40, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
6. Amendment filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
7. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
8. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
10. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

§ 1859.35. Calculation of Existing School Building Capacity.

The district's existing school building capacity shall be determined by totaling the amounts calculated in (a) with the amount determined in (b) or (c), whichever is the greater:

(a) Multiply the number of available classrooms in the district or the HSAA by the following: 25 for each K-6 classroom and 27 for each 7-12 classroom. Available classrooms shall be determined by the reduction of classrooms identified in Section 1859.32 from the gross classroom inventory prepared pursuant to Section 1859.31 and the inclusion of portable classrooms as provided pursuant to Education Code Section 17071.30 (a) or (b).

(b) Multiply the K-6 pupil capacity of the elementary district, the unified district or the HSAA in a unified district as determined by the results of the calculations in (a) at the time of the initial determination of eligibility by six percent. For a high school district filing on a district-wide basis, multiply the pupil capacity of the district as determined by the results of the calculations in (a) at the time of initial determination of eligibility by six percent or, as an alternative, by eight percent of the K-12 pupil capacity within the boundaries of the district. For a high school district filing on a HSAA, multiply the K-12 pupil capacity within the boundaries of the HSAA by eight percent. When the district meets the Substantial Enrollment Requirement (SER) or qualifies for a waiver of the SER authorized by Education Code Sections 17017.6 and 17017.7 (c), the amount reported in (b) shall be zero.

(c) A number equal to the number of pupils provided operational grants as indicated in the current report of operational grants made by the CDE pursuant to Education Code Section 42268, less the number of pupils at a school on the MTYRE calendar that has a density of at least 200 or more pupils per acre when the district has at least 40 percent of its enrollment on MTYRE as of the date of determination of the existing school building capacity of the district.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17071.10, 17071.25, 17071.33, 17071.35 and 17071.40, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. Change without regulatory effect amending subsection (b) filed 3-10-99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 11).
3. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
6. Amendment of subsection (b) filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

Article 5. Enrollment Projections

§ 1859.40. Enrollment Projections Used to Determine a District's Eligibility for New Construction Grants.

The district shall provide an enrollment Certification and report enrollment data, on the *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01). The information provided on this Form shall serve as the basis for determining a district's eligibility for New Construction funding.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17071.75 and 17071.76, Education Code.

HISTORY

1. New article 5 (sections 1859.40-1859.43) and section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New article 5 (sections 1859.40-1859.43) and section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New article 5 (sections 1859.40-1859.43) and section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
6. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
7. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
8. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

§ 1859.41. High School Attendance Area Reporting.

(a) A district may request that its eligibility determination for New Construction Grants be based on a HSAA or Super HSAA basis if it meets all the following criteria:

(1) The district demonstrates that the eligibility determination for New Construction Grants in at least one of the district's HSAA or Super HSAA results in negative eligibility for maximum funding at any grade level within the HSAA or Super HSAA.

(2) The New Construction Grants eligibility determination for the HSAA or Super HSAA is based on the capacity and projected enrollment of the HSAA or Super HSAA as shown in the *Eligibility Determination*, Form SAB 50-03 (Revised 07/01).

(3) The eligibility determination for the HSAA or Super HSAA includes a high school that serves any combination of grades nine through twelve and the high school is not a continuation high school.

(b) If a district meets the criteria in subsection (a) and requests its eligibility determination to be based on an HSAA or Super HSAA, eligibility for future grants, with the exception of community school pupil grants for a county superintendent, in that HSAA or Super HSAA must be filed on the same basis for a period of five years from the date the district received an apportionment that was justified by eligibility under that HSAA or Super HSAA. When only a portion of the enrollment at a feeder school actually contributes to the HSAA or Super HSAA, the district shall report, as a percentage, only that portion of the enrollment. A county superintendent reporting on the basis of one or more HSAA basis may file applications by utilizing HSAA or Super HSAA boundaries of any district within the county. A county superintendent may report enrollment and file eligibility for future grants separately for special education pupils or for community school pupils.

If a district requests to re-file its eligibility determination from HSAA or Super HSAA to district-wide after the five year time period has elapsed, the existing school building capacity in the district will be determined based on classrooms available in the HSAA or Super HSAA at the time of initial request for eligibility determination and the current classrooms in the remaining portion of the district. Once the baseline eligibility has been determined for the district, it will be adjusted for classrooms constructed, funded or acquired in that HSAA or Super HSAA as provided by Section 1859.51.

Existing boundaries of a HSAA or Super HSAA may only be changed as a result of Section 1859.51(f).

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.35, 17071.75 and 17071.76, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

§ 1859.42. Projecting Non-Special Day Class Enrollment.

The district enrollment, as reported on the *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01), shall be used to calculate the district's projected enrollment other than Special Day Class enrollment. The OPSC shall use the following methodology to determine the districts projected enrollment:

(a) All projected enrollment with the exception of Special Day Class enrollment shall be calculated pursuant to the cohort survival enrollment projection system which is described as follows:

(1) For all grades, determine the numerical change in enrollment between the current grade and the next lower grade in the previous year; determine the numerical change in enrollment between the previous year grade and the next lower grade in the second previous year; determine the

numerical change in enrollment between the second previous year grade and the next lower grade in the third previous year. Determine the numerical change of kindergarten enrollment on the second previous and third plus year respectively.

(2) Compute the annual change in enrollment as explained in (1) for each grade. The annual change shall then be weighted by multiplying the most recent annual change in enrollment by three, the next most recent annual change by two, and the earliest annual change by one, and dividing the sum of the annual weighted changes for each grade by six. The result shall be the average annual change.

(3) Progress the latest reported enrollment through the five-year projection period, modifying the grade progression each year by the average annual change for each grade as computed in (2).

(b) The enrollment projection will be augmented based on the number of pupils as reported by the district on *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01), that will reside in dwelling units included in an approved subdivision map or valid tentative subdivision map that exceed the number of pupils projected as a result of the cohort survival method for that subdivision map. The augmentation shall be as follows:

(1) Progress the current enrollment as reported on *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01), for one year for each grade level. For kindergarten, the progressed current enrollment shall be the same as the reported current enrollment.

(2) Subtract the current enrollment progressed one year for each grade level from the one-year projection of enrollment for each grade level as determined in (a). If the computation results in a negative number, the number shall be deemed zero.

(3) Divide the current enrollment progressed one year for each grade level by the sum of the current enrollment progressed one year in all grade levels.

(4) Multiply the number of housing units in the subdivision by the pupil yield factor provided on the *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01).

(5) Multiply the number of pupils determined in (4) by the percentages determined in (3) for each grade.

(6) Subtract five times the value determined in (2) from the value determined in (5). If the computation results in a negative number, the number shall be deemed zero.

(7) Add the value in (6) to the fifth year of projected enrollment as computed in (a) to establish the augmented projection of enrollment.

(c) The projected enrollment of a HSAA shall be computed in the same manner as that set forth in this section, except that the enrollment used in such computation shall be that of the HSAA rather than the entire district. Augmentation as provided in (b) of this Section may include only dwelling units located in the HSAA.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment of first paragraph and subsections (b), (b)(1) and (b)(4) filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
6. Amendment of first paragraph and subsections (b), (b)(1) and (b)(4) filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.

ificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.

7. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
8. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

§ 1859.43. Projecting Special Day Class Enrollment.

The district enrollment, as reported on the *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01), shall be used to calculate the district's projected Special Day Class enrollment. The OPSC shall use the following methodology to determine the district's projected enrollment:

(a) The projected enrollment of each classification of Special Day Class students served by a school district shall be computed by multiplying the reported enrollment of Special Day Class students by the five-year projection of the same grade level of students as determined by Section 1859.42. The resulting value shall be divided by the current enrollment of the same students as provided on *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01).

(b) The projected enrollment of each classification of Special Day Class students served by a county office of education shall be computed as follows:

(1) Determine the percentage change in total Special Day Class enrollment from the current year to the previous year; determine the percentage change in total Special Day Class enrollment in the previous year to the second previous year; determine the percentage change in total Special Day Class enrollment in the second previous year to the third previous year. To determine the average annual increase, add the three percentage changes and divide by three.

(2) The current Special Day Class enrollment provided by the county office of education as reported on *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01), shall be adjusted by the average annual percentage change in (1) for each year until the five-year projected enrollment has been determined.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17071.75 and 17071.76, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
6. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
7. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
8. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

Article 6. New Construction Eligibility Determination

§ 1859.50. Calculations to Determine New Construction Baseline Eligibility.

The district shall calculate its eligibility determination by completion of the *Eligibility Determination*, Form SAB 50-03 (Revised 07/01). Eligibility determination for New Construction Grants may be requested on either a district-wide basis or on a HSAA or Super HSAA basis.

If a district requests to have its eligibility determination made on a district-wide basis, eligibility for future grants in the district must be filed on the same basis for a period of five years from the date the district received an apportionment that was justified by eligibility determined on a district-wide basis.

If a district requests to re-file its eligibility determination from district-wide to HSAA to Super HSAA after the five year time period has elapsed, the existing school building capacity in the HSAA or Super HSAA will be determined based on the classrooms available in the HSAA or Super HSAA at the time of the initial district-wide request for eligibility determination. Once the baseline eligibility has been determined for the HSAA or Super HSAA, it will be adjusted for classrooms constructed, funded or acquired in that HSAA or Super HSAA as provided by Section 1859.51.

If the district requests to have its eligibility determination made on a HSAA or Super HSAA, it must meet the criteria of Section 1859.41.

The calculated eligibility on the *Eligibility Determination*, Form SAB 50-03 (Revised 07/01), is the initial eligibility of the district, the HSAA or Super HSAA and shall be referenced as the baseline eligibility for future SFP funding. The baseline eligibility is the basis for filing an *Application For Funding*, Form SAB 50-04 (Revised 09/01), for a new construction SFP grant.

A district affected by a reorganization election on or after November 4, 1998 may file an application for a determination of new construction baseline eligibility after a successful reorganization election.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17071.10, 17071.25, 17071.30, 17071.33, 17071.40, 17071.75 and 17071.76, Education Code.

HISTORY

1. New article 6 (section 1859.50–1859.51) and section filed 12–3–98 as an emergency; operative 12–3–98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4–2–99 or emergency language will be repealed by operation of law on the following day.
2. Change without regulatory effect amending section filed 12–23–98 pursuant to section 100, title 1, California Code of Regulations (Register 98, No. 52).
3. New article 6 (sections 1859.50–1859.51) and section refiled 3–31–99 as an emergency; operative 3–31–99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7–29–99 or emergency language will be repealed by operation of law on the following day.
4. Amendment of second paragraph filed 7–12–99 as an emergency; operative 7–12–99 (Register 99, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–9–99 or emergency language will be repealed by operation of law on the following day.
5. New article 6 (sections 1859.50–1859.51) and section refiled 7–29–99 as an emergency; operative 7–29–99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11–26–99 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 7–29–99 order, including amendment of section, transmitted to OAL 8–26–99 and filed 10–8–99 (Register 99, No. 41).
7. Certificate of Compliance as to 7–12–99 order, including further amendments, transmitted to OAL 11–5–99 and filed 12–22–99 (Register 99, No. 52).
8. Amendment filed 6–26–2000; operative 6–26–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
9. Amendment filed 7–17–2000 as an emergency; operative 7–17–2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11–14–2000 or emergency language will be repealed by operation of law on the following day.
10. Certificate of Compliance as to 7–17–2000 order transmitted to OAL 11–9–2000 and filed 12–27–2000 (Register 2000, No. 52).
11. Amendment of second paragraph filed 1–2–2001 as an emergency; operative 1–2–2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5–2–2001 or emergency language will be repealed by operation of law on the following day.
12. Certificate of Compliance as to 1–2–2001 order, including amendment of first paragraph, transmitted to OAL 5–1–2001 and filed 6–13–2001 (Register 2001, No. 24).
13. Amendment of second paragraph filed 7–25–2001; operative 7–25–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
14. Amendment of second paragraph filed 8–13–2001; operative 8–13–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
15. Amendment filed 4–10–2002; operative 4–10–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

16. Amendment of penultimate paragraph filed 5–2–2002; operative 6–1–2002 (Register 2002, No. 18).

§ 1859.51. Adjustments to the New Construction Baseline Eligibility.

The baseline eligibility for new construction determined on the *Eligibility Determination*, Form SAB 50-03 (Revised 07/01), will be adjusted as follows:

- (a) Reduced by the number of pupils provided grants in a new construction SFP project.
- (b) Reduced by the number of pupils housed, based on the loading standards pursuant to Education Code Section 17071.25(a)(2)(A), in a new construction LPP project funded under the provisions of the LPP pursuant to Sections 1859.12 or 1859.13.
- (c) Reduced by the number of pupils housed in additional classrooms constructed or purchased based on the loading standards, pursuant to Education Code Section 17071.25(a)(2)(A), in a modernization SFP project.
- (d) Adjusted as a result of the audit findings made pursuant to Section 1859.105.
- (e) Increased/decreased by changes in projected enrollment in subsequent enrollment reporting years for all districts except decreases as provided in (j) below.
- (f) Adjusted as a result of errors or omissions by the district or by the OPSC.
- (g) Adjusted as a result of amendments to these Regulations that effect the eligibility.
- (h) Increased by the number of pupils eligible for grants pursuant to Section 1859.82(a).
 - (i) Reduced by the number of pupils housed, based on loading standards pursuant to Education Code Section 17071.25(a)(2)(A), in any classroom provided after the baseline eligibility was determined by the Board with the exception of those pupils housed or to be housed in a classroom:
 - (1) That is a trailer and transportable/towed on its own wheels and axles.
 - (2) Of less than 700 interior square feet.
 - (3) Excluded pursuant to Education Code Section 17071.30.
 - (4) Where the contract for the lease, lease-purchase, purchase, or construction of the classroom was made prior to January 1, 2000.
 - (5) Where the contract for the lease, lease-purchase, purchase, or construction was made no more than 180 days before the Approved Application date for funding of the classrooms included in the contract.
 - (6) That is included in a SFP project where the district has funded a portion of the project beyond its required district contribution and the pupil capacity of the classroom does not exceed 150 percent of the number of pupils receiving a new construction grant (rounded up) for the SFP project.
 - (j) For small school districts, decreased:
 - (1) By any reduction in projected enrollment beginning in the enrollment-reporting year that follows a three year period beginning when the district's baseline eligibility was determined by the Board. The reduction shall be determined by any decrease between the current projected enrollment and the projected enrollment used when the district's baseline eligibility was determined by the Board pursuant to Section 1859.50 or adjusted by a subsequent operational grant report after that date.
 - (2) By any increase in the number of pupils included in the latest operational grant report made by the CDE pursuant to Education Code Section 42268 beginning three years after the district's baseline eligibility was determined by the Board pursuant to Section 1859.50. The reduction in eligibility shall be determined by the number of pupils included in the latest operational grant report that exceed the number of pupils included in the operational grant report in effect when the district's baseline eligibility was determined by the Board pursuant to Section 1859.50 or adjusted by a subsequent operational grant report after that date.

(k) Adjusted for any change in classroom inventory as a result of a re-organization election.

(l) For classroom loading standards adopted by the Board for non-severely disabled individuals with exceptional needs and severely disabled individuals with exceptional needs.

(m) As directed by the Board due to a finding of a Material Inaccuracy pursuant to Regulation Section 1859.104.1.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.31, 17071.25, 17071.75, 17071.76 and 17072.20, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. Change without regulatory effect amending first paragraph filed 12-23-98 pursuant to section 100, title 1, California Code of Regulations (Register 98, No. 52).
3. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 7-29-99 order, including amendment of section and NOTE, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
6. Amendment of section and NOTE filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
7. Amendment of first paragraph, subsections (e) and (i)(5) and new subsection (l) filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
9. Amendment of first paragraph and subsections (i)(5) and (i)(6) filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
10. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
11. Amendment of first paragraph filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
12. New subsection (m) and amendment of NOTE filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

Article 7. Modernization Eligibility Determination

§ 1859.60. Calculation to Determine Modernization Baseline Eligibility.

The district shall calculate its eligibility by completion of the *Eligibility Determination*, Form SAB 50-03 (Revised 07/01). The eligibility determination may be made by either identifying all classrooms on the site pursuant to (a) or by the identification of all square footage on the site pursuant to (b), as follows:

(a) Identify all classrooms at the school site that would have been included in the Gross Classroom Inventory pursuant to Section 1859.31 that are:

- (1) Permanent and at least 25 years old and not previously modernized with State funds.
- (2) Portable and at least 20 years old and not previously modernized with State funds.
- (3) The remaining classrooms not reported in (1) or (2) above.

(b) Identify all square footage at the school site that is:

- (1) Permanent area and at least 25 years old and not previously modernized with State funds.
- (2) Portable classroom area and at least 20 years old and not previously modernized with State funds.

(3) The remaining square footage on the site not reported in (1) or (2) above.

The age of the classroom or square footage shall be based on the date the district submitted the application for an eligibility determination to the OPSC. For purposes of identifying square footage at a school site, include the total enclosed exterior square footage of the school buildings. For multilevel buildings, include the square footage at each level.

Enrollment at the school shall be the latest CBEDS report for K-6, 7-8 and 9-12 pupils. If the school is closed at the time of application for eligibility determination for modernization, and the district intends to reopen it and use it as a school for at least the next five years, the enrollment may be estimated based on district demographic data.

The calculated eligibility determined on the *Eligibility Determination*, Form SAB 50-03 (Revised 07/01), shall be referred to as the modernization baseline eligibility for the specific school site.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17073.15, 17073.20 and 17074.10, Education Code.

HISTORY

1. New article 7 (sections 1859.60-1859.61) and section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. Change without regulatory effect amending first and last paragraphs filed 12-23-98 pursuant to section 100, title 1, California Code of Regulations (Register 98, No. 52).
3. New article 7 (sections 1859.60-1859.61) and section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
4. New article 7 (sections 1859.60-1859.61) and section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
6. Amendment of first and last paragraphs filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
7. Amendment of first and last paragraphs filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
9. Amendment of first and last paragraphs filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
10. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
11. Amendment of first and last paragraphs filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

§ 1859.61. Adjustments to the Modernization Baseline Eligibility.

The baseline eligibility for modernization as provided in Section 1859.60 for a specific site will be adjusted as follows:

(a) Reduced by the number of pupils provided grants in a modernization SFP project at the specific site.

(b) Reduced by the number of pupils housed, based on the loading standards pursuant to Education Code Section 17071.25(a)(2), in a modernization LPP project funded under the LPP pursuant to Sections 1859.14 and 1859.15.

(c) Increased by changes in projected enrollment in subsequent enrollment reporting years.

(d) Increased for additional facilities not previously modernized with State funds, that become 25 years old, if permanent, or 20 years old, if portable or as a result of audit findings made pursuant to Section 1859.105.

(e) Adjusted as a result of errors or omissions by the district or by the OPSC.

(f) Adjusted as a result of amendments to these Subgroup 5.5 Regulations that affect the eligibility.

(g) For classroom loading standards adopted by the Board for non-severely disabled individuals with exceptional needs and severely disabled individuals with exceptional needs.

(h) As directed by the Board due to a finding of a Material Inaccuracy pursuant to Regulation Section 1859.104.1.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.51, 17071.25, 17073.15 and 17073.20, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section and NOTE, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. New subsection (g) filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
7. New subsection (h) and amendment of NOTE filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

Article 8. New Construction and Modernization Grant Determinations

§ 1859.70. General.

A district seeking New Construction or Modernization funding shall complete and file an *Application for Funding*, Form SAB 50-04 (Revised 09/01), after completing the applicable requirements in Section 1859.20.

A district affected by a reorganization election on or after November 4, 1998 may not file an application for New Construction funding after the notification of the reorganization election until a new calculation of the district's baseline eligibility has been determined on the *Eligibility Determination*, Form SAB 50-03 (Revised 07/01), or the district certifies that the reorganization election will not result in a loss of eligibility for the project for which the district is requesting new construction grants.

A district that is newly created as a result of a reorganization election may file an application for funding after approval of the election has been made by the State Board of Education.

HISTORY

1. New article 8 (sections 1859.70-1859.79.2) and section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
 2. New article 8 (sections 1859.70-1859.79.2) and section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
 3. Amendment filed 7-12-99 as an emergency; operative 7-12-99 (Register 99, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-9-99 or emergency language will be repealed by operation of law on the following day.
- New article 8 (sections 1859.70-1859.72) and section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

6. Certificate of Compliance as to 7-12-99 order, including further amendments, transmitted to OAL 11-5-99 and filed 12-22-99 (Register 99, No. 52).
7. Amendment of section and NOTE filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
8. Amendment filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
10. Amendment of first and second paragraphs filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
12. Amendment of first paragraph filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
13. Amendment of first paragraph filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
14. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
15. Amendment of first paragraph filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.71. Adjustment to the New Construction Grant.

The new construction grant amount, as provided by Education Code Section 17072.10(a), will be adjusted annually based on the change in the Class B Construction Cost Index as approved by the Board each January. The base Class B Construction Cost Index shall be 1.30 and the first adjustment shall be January, 1999.

For any changes or additions to the regulations adopted by the Board in 1999, those changes shall be adjusted in accordance with this Section at the time the regulations are adopted.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17072.10, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.71.1. New Construction Additional Grant for Individuals with Exceptional Needs.

The Board shall provide the following amounts for each pupil included in an approved project for new construction funding:

(a) \$16,573 for each pupil that is a Severely Disabled Individual with Exceptional Needs.

(b) \$11,084 for each pupil that is a Non-Severely Disabled Individual with Exceptional Needs.

The amounts shown shall be adjusted annually in the manner prescribed in Section 1859.71. The additional grant is eligible for any new construction grant augmentation for which the project is otherwise eligible under the law and regulations.

NOTE: Authority cited: Sections 17070.35, 17072.10 and 17074.10, Education Code. Reference: Sections 17072.10 and 17074.10, Education Code.

HISTORY

1. New section filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
3. Amendment of section heading and first and last paragraphs filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).

§ 1859.72. New Construction Additional Grant for an Individual with Exceptional Needs.

New Construction Grant will be increased for the area of therapy rooms used by pupils that are Severely Disabled Individuals with Exceptional Needs. The district may request an increase in the New Construction Grant for therapy area, not to exceed 3,000 square feet, plus 750 square feet per additional Special Day Class classroom needed for Severely Disabled Individuals with Exceptional Needs. The grant amount will be increased by \$150 per square foot for toilet facilities and \$75 per square foot for all other facilities. The amounts shown shall be adjusted annually in the manner prescribed in Section 1859.71.

NOTE: Authority cited: Section 17070.35 and 17072.10, Education Code. Reference: Sections 17072.10, 17072.15, 17072.25 and 56026, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment of section and NOTE filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
7. Amendment of section heading and section filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
8. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).

§ 1859.73. Additional Grant for Multilevel Construction.

The New Construction Grant will be increased for the additional costs resulting from the need to build multilevel facilities by 12 percent for each pupil housed in a multilevel building that will house pupils in all levels of the building if the useable site acreage for the project is less than 75 percent of the site size recommended by the CDE for the master planned project capacity.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17072.10, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.73.1. New Construction Additional Grant for Project Assistance.

New Construction Grant will be increased by \$3,750 for small school districts for the cost necessary for project assistance. The amount will be adjusted annually based on the change in the Class B Construction Cost Index as approved by the Board each January. The base Class B

Construction Cost index shall be 1.37 and the first adjustment shall be January 2001.

This allowance shall only apply to any acceptable *Application for Funding*, Form SAB 50-04 (Revised 09/01) submitted to the OPSC no later than January 1, 2003.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17072.10, Education Code.

HISTORY

1. New section filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Amendment of second paragraph filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
4. Amendment of section heading and last paragraph filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
6. Amendment of second paragraph filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
7. Amendment of second paragraph filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
8. Amendment of second paragraph filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
9. Amendment of last paragraph filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.73.2. Construction Additional Grant for Replaced Facilities.

(a) The New Construction Grant will be increased by the amount(s) in (b) below for the replacement cost of one-story buildings that are demolished at a school in order to increase pupil capacity of that school if all the following conditions are met:

(1) The school must be on MTYRE at the time the Approved Application is accepted.

(2) The site size as determined by the CDE for the existing capacity of the school is less than 75 percent of the recommended CDE site size.

(3) The pupil capacity of the school must be increased by at least the greater of (A) or (B) below:

(A) Twenty percent of the existing pupil capacity (before replacement) of the school. Existing pupil capacity shall be determined by multiplying classrooms intended for grades kindergarten through six by 25, classrooms intended for grades seven through 12 by 27, classrooms intended for Non-Severely Disabled Individuals with Exceptional Needs by 13 and classrooms intended for Severely Disabled Individuals with Exceptional Needs by nine. Classrooms shall not include any classrooms reduced from the Gross Classroom Inventory pursuant to Section 1859.32.

(B) 200 pupils.

(4) The sum of (A) and (B) below is less than the amount determined in (E) below:

(A) Determine the estimated cost of demolition of the one-story buildings to be replaced. The cost estimate shall be subject to review by the OPSC for conformance with the Saylor Current Cost Publication.

(B) Multiply the square footage of the buildings to be replaced by the Current Replacement Cost.

(C) Multiply the New Construction Grants requested in box 2 of the *Application for Funding*, Form SAB 50-04 (Revised 09/01), by .01775 for K-6, .021 for 7-8 and .02472 for 9-12.

(D) Determine the average appraised value of land per acre, including relocation costs, within the attendance boundaries of the school. The appraisal must be consistent with Section 1859.74.1.

(E) Multiply the sums of the products determined in (C) above by the average appraised value of land per acre determined in (D) above.

(5) The CDE has determined that the replacement of the one-story buildings on the existing site with multilevel building(s) would be the

best available alternative and will not create a school with an inappropriate number of pupils in relation to the size of the site.

(6) The one-story buildings to be replaced on the existing site may not be leased facilities.

(7) With the exception of portables acquired with Class Size Reduction funds, the one-story buildings to be replaced on the site may not have been funded for either new construction or modernization funds from Proposition 1A funds within the past five years from the date the Approved Application is accepted.

(b) If the criteria in (a) are met, the New Construction Grant will be increased by \$150 per square foot for toilet facilities and by \$75 per square foot for all other facilities included in the one-story buildings to be replaced adjusted for the following:

(1) The amounts shall be adjusted annually in the manner prescribed in Section 1859.71.

(2) The amounts shall be increased by the percentage authorized in Section 1859.73 if the replacement area will be multilevel building(s).

(3) The amounts shall be increased for excessive cost grants as provided pursuant to Section 1859.83(a) and (d).

The district is eligible for site development in accordance with Section 1859.76 including the demolition of the replacement structures as part of the New Construction Grant for the SFP project.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17071.46, Education Code.

HISTORY

1. New section filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
2. Amendment of subsection (a)(4)(C) filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
3. Amendment of subsection (a)(4)(C) filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
4. Amendment of subsection (a)(4)(C) filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.74. Additional Grant for Site Acquisition Cost.

With the exception of projects that received site acquisition funds under the LPP, the New Construction Grant will be increased for the lesser of one half of the actual cost of the site or one-half of the appraised value of the site acquired as described in (a) and (b) of this Section.

(a) Actual Site Cost

The actual cost of the site shall be the purchase price as shown on the escrow documents or other appropriate documents such as court orders in condemnation or as specifically identified in agreements when the site is transferred in lieu of other legally required payments or fees due to the district. The actual cost shall be adjusted for the following:

(1) Increased by the approved relocation expenses that conform to Title 25, California Code of Regulations, Section 6000, et seq. The reasonable and necessary relocation costs for purchasing fixtures and equipment, personal property, new machinery/equipment and the installation of any improvements at the replacement residence or business location may be included as relocation assistance.

(2) Increased by four percent of the actual amount determined in (a) above, but not less than \$50,000. This amount shall provide an allowance for any appraisal, escrow, survey, site testing, CDE review/approvals and the preparation of the POESA and the PEA.

(3) Increased by the DTSC costs for review, approval, and oversight of the POESA and the PEA.

(b) Appraised Value of the Site

The value determined by an appraisal made or updated no more than six months prior to application submittal to the OPSC for funding. A SFP project which had the site funded as a LPP project shall use the appraised value determined under the LPP. The appraisal may be reviewed by the OPSC for conformance with Section 1859.74.1. The approved appraised value shall be adjusted for the following:

(1) Increased by the approved relocation expenses that conform to Title 25, California Code of Regulations, Section 6000, et seq. The reasonable and necessary relocation costs for purchasing fixtures and equipment, personal property, new machinery/equipment and the installation

of any improvements at the replacement residence or business location may be included as relocation assistance.

(2) Increased by four percent of the appraised value determined in (b) above, but not less than \$50,000. This amount shall provide an allowance for appraisals, escrow, survey, site testing, CDE review/approvals and the preparation of the POESA and the PEA.

(3) Increased by the DTSC costs for review, approval, and oversight of the POESA and the PEA.

The actual site cost or the appraised value of the site shall be reduced, on a prorated basis, by the percentage of the excess acreage of the site that exceeds the master plan site acreage approved by the CDE.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17072.12 and 17251, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section and NOTE, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 1859.74.1. Site Acquisition Guidelines.

To receive a New Construction Additional Grant for site acquisition costs, the district must certify on the *Application for Funding*, Form SAB 50-04 (Revised 09/01), that the appraisal of the property was made utilizing the following criteria:

(a) The land improvements and appurtenances, excluding fixtures, equipment and personal property, were appraised in an as is condition with the following exceptions:

(1) The site shall be appraised as if it were a clean site, safe of all toxic contaminants in accordance with CDE guidelines and pursuant to Title 5, California Code of Regulations commencing with Section 14001.

(2) The site valuation included only proposed site improvements associated with grading the site to a mass graded or super pad condition, defined as a site graded to construction readiness without foundation or paving and proposed utilities stubbed to the site. Any proposed site improvements or utilities not covered by a performance bond equal to 100 percent of the estimated cost of the site improvements and utilities must be completed prior to the close of escrow and detailed separately in the report.

(b) Consideration in the appraisal was made for net useable acreage and severance damages.

(c) The district or its legal counsel has contracted for appraisal services.

(d) The appraiser has certified to the district that the appraisal complies with the Uniform Standards of Professional Appraisal Practices as promulgated by the Appraisal Standards Board of the Appraisal Foundation.

(e) The amount of a court award for a site acquired in condemnation may be used in lieu of the appraised value determined in (a) through (d) above, when specifically approved by the Board.

The district shall be required to submit one appraisal. If the application includes a request for financial hardship as provided in Section 1859.81, the OPSC will review the appraisal for conformance with (a), (b), (c) and (d) prior to a recommendation for SFP funding to the Board.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.35 and 17072.12, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.

2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. Amendment of first paragraph filed 7-12-99 as an emergency; operative 7-12-99 (Register 99, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-9-99 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
6. Certificate of Compliance as to 7-12-99 order, including further amendments, transmitted to OAL 11-5-99 and filed 12-22-99 (Register 99, No. 52).
7. Amendment of first paragraph filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
8. Amendment of first paragraph filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
10. Amendment of first paragraph filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
12. Amendment of first paragraph filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
13. Amendment of first paragraph and subsection (a)(2) filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
14. Amendment of first paragraph filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
15. Amendment of first paragraph filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.74.2. Additional Grant for Hazardous Waste Removal.

With the exception of projects that received site acquisition funds under the LPP, the New Construction Grant will be increased for a site acquired for the allowable costs of hazardous materials/waste removal and/or remediation costs. The allowable costs shall be the lesser of one half of (a) or (b) below;

(a) The costs to implement the RA as determined necessary in the PEA that has been approved by the DTSC subject to the following:

(1) The costs may include the costs for preparation of the RA.

(2) The costs may include the DTSC costs for review and oversight of the preparation and implementation of the RA.

(3) The costs may not include continuous operational and maintenance costs associated with the RA.

(b) The difference in the amounts determined pursuant to Section 1859.74(a) and (b).

In no event can the amount provided in this Section and Section 1859.74 exceed 50 percent of the appraised value of the site as determined in Section 1859.74(b).

NOTE: Authority cited: Sections 17070.35 and 17072.13, Education Code. Reference: Sections 17072.12 and 17251, Education Code.

HISTORY

1. New section filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 1859.74.3. Additional Grant for Incidental Site and Hazardous Waste Removal for Leased Sites.

When a district has requested funding on a vacant leased site pursuant to Section 1859.22 that was never used for school purposes, the New Construction Grant will be increased for the lesser of one half of the amounts allowed in (a) or (b) below:

(a) The sum of all of the following:

(1) The approved relocation expenses that conform to Title 25, Division 1, Chapter 6, Subchapter 1, California Code of Regulations, (Section

6000, et seq.). The reasonable and necessary relocation costs for purchasing fixtures and equipment, personal property, new machinery/equipment and the installation of any improvements at the replacement residence or business location may be included as relocation assistance.

(2) \$50,000. This amount shall provide an allowance for any appraisal, escrow, survey, site testing, CDE review/approvals and the preparation of the POESA and the PEA.

(3) The DTSC costs for review, approval, and oversight of the POESA and the PEA.

(4) The costs to implement the RA as determined necessary in the PEA that has been approved by the DTSC subject to the following:

(A) The costs may include the costs for preparation of the RA.

(B) The costs may include the DTSC costs for review and oversight of the preparation and implementation of the RA.

(C) The costs may not include continuous operational and maintenance costs associated with the RA.

(b) Appraised Value of the Site determined by an appraisal made or updated no more than six months prior to application submittal to the OPSC for funding pursuant to Section 1859.74.1. The appraisal may be reviewed by the OPSC for conformance with Section 1859.74.1.

The appraised value of the site shall be reduced, on a prorated basis, by the percentage of the excess acreage of the site that exceeds the master plan site acreage approved by the CDE.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.71, 17072.12 and 17251, Education Code.

HISTORY

1. New section filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).

§ 1859.74.4. Additional Grant for Hazardous Waste Removal Required on an Existing School Site.

(a) With the exception of projects that received initial site acquisition funds under the SFP, the New Construction Grant may be increased for the necessary hazardous waste materials/waste removal and/or remediation costs on an existing school site where the New Construction Grants will be used if all the following are met:

(1) The New Construction Grant request is for additional school facilities on an existing school site.

(2) The New Construction Grant request does not include a funding request for initial site acquisition costs allowed pursuant to Sections 1859.74 or 1859.74.2.

(3) The existing school site where the New Construction Grant will be expended has a functioning school on the site or the site had a closed school that will again be used as a functioning school.

(4) The hazardous material cleanup costs are required by the DTSC.

(b) If all criteria in subsection (a) are met, the allowable hazardous waste removal cleanup costs shall be one half of all the following:

(1) The costs for preparation of the POESA, the PEA and the RA.

(2) The costs to implement the RA as determined necessary in the PEA that has been approved by the DTSC subject to the following:

(A) The costs may include the DTSC costs for review and oversight of the preparation and implementation of the RA.

(B) The costs may not include continuous operational and maintenance costs associated with the RA.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17072.18, Education Code.

HISTORY

1. New section filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

§ 1859.75. Alternative District-Owned Site.

In order to receive a New Construction Additional Grant for site acquisition as provided in Section 1859.74, the district must:

(a) certify there is no available Alternative District-Owned Site for that project deemed useable for school purposes by the CDE; or,

(b) certify that it intends to sell an available Alternative District-Owned Site and use the proceeds for the purchase of the new site. In this event, the Board will recognize the lesser of:

(1) one-half of the actual cost or the appraised value of the available Alternative District-Owned Site as determined in Section 1859.74, whichever is the lesser, or

(2) one-half of the actual cost or the appraised value of the site purchased for the project as determined in Section 1859.74, whichever is the lesser.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17072.12, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.75.1. Separate Site Apportionment for Environmental Hardship.

(a) A district is eligible for a separate apportionment for site acquisition even if it does not meet the financial hardship criteria contained in Section 1859.81, when all the following requirements are met:

(1) The district has eligibility for grants that equal at least 50 percent of the CDE master plan capacity of the site.

(2) The district has received a contingent site approval letter from the CDE indicating that the proposed site is the best available.

(3) The district has obtained a preliminary appraisal or an appraisal of the property by a qualified appraiser utilizing criteria outlined in Section 1859.74.1. The preliminary appraisal report may be made without access to the site.

(4) The district has provided a letter from the DTSC pursuant to Education Code Section 17072.13 that indicates the time necessary to complete the remediation removal of any hazardous materials/waste on the proposed site as determined necessary by the PEA and required in the RAP, will take at least 180 calendar days to complete.

(b) If the conditions in (a) are met, the district is eligible for a separate apportionment for one half of the following:

(1) The lesser of the appraised value of the site as determined in Section 1859.74.1 or the amount the district reasonably expects to pay for the site including any hazardous materials/waste removal and/or remediation costs for the site.

(2) The estimated relocation expenses that will conform to Title 25, California Code of Regulations, Section 6000, et seq. The reasonable and necessary relocation costs for purchasing fixtures and equipment, personal property, new machinery/equipment, and the installation of any improvements at the replacement residence or business location may be included as relocation assistance.

(3) Four percent of the lesser of the appraised value of the site or the amount the district reasonably expects to pay for the site acquisition including any hazardous materials/waste removal and/or remediation costs for the site, but not less than \$50,000.

(4) The estimated DTSC costs for review, approval and oversight of the POESA and the PEA.

The amount provided in (b) as a separate site apportionment shall be offset from the New Construction Grant amount the district would otherwise be eligible for pursuant to Section 1859.70. A district seeking a separate apportionment for site acquisition shall submit an *Application for Funding*, Form SAB 50-04 (Revised 09/01).

NOTE: Authority cited: Section 17072.13, Education Code. Reference: Sections 17072.13 and 17076.10, Education Code.

HISTORY

1. New section filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

2. Amendment of last paragraph filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.

3. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).

4. Amendment of last paragraph filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.

5. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).

6. Amendment of last paragraph filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).

7. Amendment of last paragraph filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).

8. Amendment of subsection (b)(4) filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

9. Amendment of last paragraph filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.76. New Construction Additional Grant for Site Development Costs.

The New Construction Grant will be increased by 50 percent of the following approved site development and applicable design costs:

(a) Service site development cost, within school property lines for:

(1) Site clearance including the removal of trees, brush, and debris.

(2) Demolition and removal of existing buildings and site improvements which lie in the footprint of a proposed building or proposed site development.

(3) Removal and rerouting of existing utility service which lie in the footprint of a proposed building or proposed site development.

(4) Rough grading including cut and fill, and leveling and terracing operations required in the design of the project.

(5) Soil compaction adhering to common engineering practices and engineered fill that is required by a soils report that is available for review by the OPSC.

(6) On-site drainage facilities including inlets below grade drainage facilities and retention basins.

(7) Erosion control improvements such as plant material, temporary sprinkler systems, jute mesh and straw, due to embankments having a slope of at least two to one and a vertical height greater than six feet.

(8) Outside stairways, handicap ramps and retaining walls due to embankments having a slope of at least two to one and a vertical height greater than six feet.

(9) Relocation of existing portable buildings which lie in the footprint of a proposed building or proposed site development including the cost for set-up and utilities if the portable will be relocated on the same site. If the portable will be moved to another site, only the costs to move the portable to the new location.

(10) Fire code requirements on site that are not a part of the building.

(11) Funding for multilevel parking structures on a new construction project when all the following have been met:

(A) The new construction project will be located on site acreage that is less than 50 percent of the site size recommended by the CDE for the master planned project capacity.

(B) The number of parking stalls to be funded does not exceed 2.25 for each classroom constructed in an elementary or middle school project.

(C) The number of parking stalls to be funded does not exceed six for each high school classroom constructed in a high school project that will serve 9-12 pupils.

(D) The state grant does not exceed \$7,500 per parking stall. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71.

(12) Removal and relocation of portable classrooms on a site eligible for replacement pursuant to Section 1859.82(a) that are available for housing pupils pursuant to Section 1859.35(a).

(b) Off-site development cost on up to two immediately adjacent sides of the site, for the following:

(1) Curbs, gutters and paving of streets not to exceed one-half the mandated local street code requirements. When the existing streets are to be widened inward toward the property line from the existing face of the street, all new street improvements lying within the one-half of mandated street width adjacent to the project.

(2) Sidewalks mandated by local ordinances.

(3) Street lighting, planting areas, street signs, traffic signals, trees or other costs mandated by local ordinances.

(4) City and/or county or special district fees pursuant to active ordinances.

(5) Reasonable cost for storm drains to point of connection.

(6) Funding for safety paths for pedestrian use beyond two immediately adjacent sides of the site necessary for a safe route to the new school site when the following conditions are met:

(A) The school district governing board has made a finding at a public hearing that pedestrian safety concerns require improvements in the form of safety paths to provide access to the school site, and the Department of Education concurs with that finding.

(B) The improvements are limited to the work necessary to install concrete, asphalt, gravel or other paving necessary to provide the safe paths.

(C) The state grant does not exceed \$50,000.

(D) The improvements do not include any cost for the acquisition of land, easements or other rights-of-way.

(E) The SAB has determined that development of additional pedestrian paths is reasonable.

(6) Utility service costs associated with the CDE approved site size that are necessary to serve the master planned capacity of the site as follows:

(1) Water: Installation of water supply line(s) and connection fees from the utility company connection to the meter, meters not provided by the serving utility, or installation of a domestic water system (i.e. well, pump, tank).

(2) Sewage: Installation of main sewage disposal line from the utility company connection to the first building lateral and if applicable, connection fees, installation of a sewage treatment/disposal system and a main disposal line from the treatment system to the nearest building lateral of the collection system.

(3) Gas: Installation of main supply line and connection fees from utility company to meter and connection fee if applicable. Installation of meters not provided by the utility. Connection of a liquefied petroleum system (and tank) from the main supply line to the first building lateral.

(4) Electric: Installation of service from the utility to the building switchboard. Primary electric service runs from the utility company's point of connection to the transformer. Secondary electric service runs from the transformer to the switchboard. Connection fee, transformer pads and protective devices.

(5) Communication systems: Installation of service from the company to the nearest distribution center.

The district must submit a detailed cost estimate for all requests for site development work and any justification documents that will support the work with the *Application for Funding*, Form SAB 50-04 (Revised 09/01).

The Board will approve reasonable and appropriate site development work which meet common engineering practices and industry standards that are consistent with the specific site conditions if the site development costs are consistent with the Saylor Current Construction Costs. The design professional must certify to the district that the site development work does not exceed the minimum requirements to develop the site to meet educational needs and/or standards.

Service site and off-site development costs shall be reduced, on a pro-rated basis, by the percentage of the excess acreage of the site that exceeds the master plan site acreage approved by the CDE.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.35, 17072.12 and 17072.35, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99

or emergency language will be repealed by operation of law on the following day.

2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.

3. Amendment of antepenultimate paragraph filed 7-12-99 as an emergency; operative 7-12-99 (Register 99, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-9-99 or emergency language will be repealed by operation of law on the following day.

4. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.

5. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

6. Certificate of Compliance as to 7-12-99 order, including further amendments, transmitted to OAL 11-5-99 and filed 12-22-99 (Register 99, No. 52).

7. New subsections (a)(11)-(a)(11)(D) filed 3-13-2000; operative 4-12-2000 (Register 2000, No. 11).

8. New subsection (a)(12) and amendment of subsections (c) and (c)(5) filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

9. Amendment of antepenultimate paragraph filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.

10. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).

11. Amendment of section heading and subsection (c)(5) filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.

12. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).

13. Amendment of antepenultimate paragraph filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).

14. Amendment of subsection (c)(5) filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).

15. Amendment of subsection (c)(5) filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

16. Amendment of antepenultimate paragraph filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.77. Reduction in the New Construction Grant.

After the determination of the district's New Construction Grant and New Construction Additional Grant pursuant to Sections 1859.72, 1859.73, 1859.74 and 1859.76, plus Excessive Cost Hardship Grants pursuant to Section 1859.83 and financial hardship funding pursuant to Section 1859.81 have been made, the New Construction Adjusted Grant and any financial hardship funding provided pursuant to Section 1859.81 will be reduced by the alternative fee collected pursuant to Government Code Section 65995.7(a), if a reimbursement election or agreement pursuant to Government Code Section 65995.7 is not in effect.

Any reduction to the New Construction Adjusted Grant amount and any funding provided by Section 1859.81 made pursuant to this Section shall only include those alternative fees collected from residential units to be served by the facilities associated with the New Construction Grant. If the reduction is greater than the New Construction Adjusted Grant and the funding provided by Section 1859.81, the pupils to be housed in the proposed project will be reduced from the district's baseline eligibility and no SFP grants will be made to the district for that project. Any remaining off-set of the alternative fees collected shall be off-set on the next request for a New Construction Grant for other facilities to serve those residential units.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17072.20(b), Education Code; and Section 65995.7, Government Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.

2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.

3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.77.1. New Construction District Matching Share Requirement.

Except in the case of financial hardship provided by Section 1859.81, any increase to the New Construction Grant for New Construction Additional Grants, facility hardship grants as provided in Section 1859.82 or Excessive Cost Hardship Grants as provided in Section 1859.83, shall require a district matching share contribution on a dollar-for-dollar basis.

The district may include as its district matching share any amounts expended on the project for an energy audit made pursuant to Education Code Section 17077.10 and any amounts applied to the project for incentive grants or rebates received by the district from a program funded pursuant to Public Utilities Code Section 381.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17072.30 and 17077.10, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. New second paragraph and amendment of NOTE filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 1859.77.2. Use of New Construction Grant Funds.

New Construction grant funds shall be expended as set forth in Education Code Section 17072.35 and may also be utilized for the cost incurred by the district for the development and implementation of remedial action plan approved by the DTSC pursuant to Education Code Section 17213.

Authorization for use of New Construction Grants may be requested as follows:

(a) A district may request new construction grants that do not to exceed 135 percent of the number of pupils that will be housed in the project based on loading standards pursuant to Education Code Section 17071.25(a)(2) and any loading standards adopted by the SAB by these regulations if the district has adopted a school board resolution that includes the following:

(1) A plan that identifies how the district has housed or will house the excess pupils receiving grants in the project in school buildings as defined in Education Code Section 17368. The plan may not include housing the excess pupils in portables excluded from existing school building capacity pursuant to Education Code Section 17071.30 or housing in facilities to be constructed with district funds if the district has received financial hardship approval pursuant to Section 1859.81.

(2) An acknowledgement that funds for the purposes of housing the excess pupils are being diverted to another project.

(3) An acknowledgement that the State has satisfied its obligation, pursuant to Section 1859.50, to house the pupils receiving grants in the project.

(b) A district may utilize new construction grant eligibility determined at a different grade level than the proposed project that do not exceed 135 percent of the number of pupils that will be housed in the project based on loading standards pursuant to Education Code Section 17071.25(a)(2)

and any loading standards adopted by the SAB by these regulations subject to all of the following:

(1) The district has adopted a school board resolution that includes the following:

(A) A plan that identifies how the district has housed or will house the excess pupils receiving grants in the project in school buildings as defined in Education Code Section 17368. The plan may not include housing the excess pupils in portables excluded from existing school building capacity pursuant to Education Code Section 17071.30 or housing in facilities to be constructed with district funds if the district has received financial hardship approval pursuant to Section 1859.81.

(B) An acknowledgement that funds for the purposes of housing the excess pupils are being diverted to another project.

(C) An acknowledgement that the State has satisfied its obligation, pursuant to Section 1859.50, to house the pupils receiving grants in the project.

(2) The district must use its New Construction Grant eligibility, pursuant to subsections (b) and (d), in the following order:

(A) At the grade level of the proposed project.

(B) At the lowest grade level other than the proposed project.

(C) At the next highest grade level other than the proposed project.

(c) When the priority point mechanism described in Section 1859.91 has not been implemented, a district may request New Construction Grants that exceed 135 percent of the number of pupils that will be housed in the project based on loading standards pursuant to Education Code Section 17071.25(a)(2) and any loading standards adopted by the SAB by these regulations provided all the conditions in subsections (a)(1), (a)(2) and (a)(3) are met.

(d) When the priority point mechanism described in Section 1859.91 has not been implemented, a district may utilize new construction grants eligibility determined at a different grade level than the proposed project that exceed 135 percent of the number of pupils that will be housed in the project based on loading standards pursuant to Education Code Section 17071.25(a)(2) and any loading standards adopted by the SAB by these regulations provided all the conditions in subsections (b)(1) and (b)(2) are met.

The New Construction Grant amount provided shall be determined based on the grant amount provided in Education Code Section 17072.10 for the grade level that generated the eligibility and any New Construction Additional Grant or Excessive Cost Hardship Grant the district qualifies for as provided by these regulations.

NOTE: Authority cited: Section 17072.13, Education Code. Reference: Sections 17072.13 and 17072.35, Education Code.

HISTORY

1. New section filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Amendment filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).

§ 1859.78. Adjustment to the Modernization Grant.

The Modernization Grant amount, as provided by Education Code Section 17074.10(a), will be adjusted annually based on the change in the Class B Construction Cost Index as approved by the Board each January. The base Class B Construction Cost Index shall be 1.30 and the first adjustment shall be January, 1999.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17074.10, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.78.1. Additional Grant for an Individual with Exceptional Needs.

NOTE: Authority cited: Sections 17070.35 and 17074.10, Education Code. Reference: Sections 17071.25, 17074.10 and 56026, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Repealer filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).

§ 1859.78.2. Modernization Additional Grant for Project Assistance.

The Modernization Grant will be increased by \$2,000 for small school districts for the cost necessary for project assistance. The amount will be adjusted annually based on the change in the Class B Construction Cost Index as approved by the Board each January. The base Class B Construction Index shall be 1.37 and the first adjustment shall be January 2001.

This allowance shall only apply to any acceptable *Application for Funding*, Form SAB 50-04 (Revised 09/01) submitted to the OPSC no later than January 1, 2003.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17074.10, Education Code.

HISTORY

1. New section filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
2. Amendment of last paragraph filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
4. Amendment of section heading and last paragraph filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
6. Amendment of last paragraph filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
7. Amendment of second paragraph filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
8. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
9. Amendment of last paragraph filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.78.3. Modernization Additional Grant for Individuals with Exceptional Needs.

The Board shall provide the following amounts for each pupil included in approved project for modernization funding:

- (a) \$7,158 for each pupil that is a Severely Disabled Individual with Exceptional Needs.

- (b) \$4,788 for each pupil that is a Non-Severely Disabled Individual with Exceptional Needs.

The amounts shown shall be adjusted annually in the manner prescribed in Section 1859.71. The additional grant is eligible for any modernization grant augmentation for which the project is otherwise eligible under the law and regulations.

NOTE: Authority cited: Sections 17070.35, 17072.10 and 17074.10, Education Code. Reference: Sections 17072.10 and 17074.10, Education Code.

HISTORY

1. New section filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
3. Amendment of section heading, first paragraph and subsection (b) filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).

§ 1859.79. Modernization Matching Share Requirement.

Except in the case of financial hardship as provided in Section 1859.81, any increase to the Modernization Grant for additional grants for facility hardships as provided in Section 1859.82 or Excessive Cost Hardship Grants as provided in Section 1859.83 shall require a district matching share equal to at least 20 percent of the total project cost which, combined with the State's adjusted grant shall represent 100 percent of the total project cost.

The district may include as its district matching share any amounts expended on the project for an energy audit made pursuant to Education Code Section 17077.10 and any amounts applied to the project for incentive grants or rebates received by the district from a program funded pursuant to Public Utilities Code Section 381.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17074.15 and 17077.10, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. New second paragraph and amendment of NOTE filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 1859.79.1. Modernization Reimbursement.

The Board will not provide Modernization funding for a project if the district entered into a construction contract for that project before August 27, 1998 unless:

- (a) The project met the provisions for funding under the LPP pursuant to Sections 1859.14 or 1859.15; or

- (b) The project was approved on the Year-Round Schools Air Conditioning/Insulation Program unfunded approval list pursuant to Education Code Section 42250.1.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.35, 17074.10 and 42250.1, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99

or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment of first paragraph filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).

§ 1859.79.2. Use of Modernization Grant Funds.

Modernization Grant funds shall be expended as set forth in Education Code Sections 17074.25 and 17070.15(f) and may also be utilized for other purposes as set forth in Education Code Section 100420(c). Modernization funding, with the exception of savings, is limited to expenditure on the specific site where the modernization grant eligibility was generated. The grant may not be used for the following:

(a) New building area with the exception of the following:

(1) Replacement building area of like kind. Additional classrooms constructed within the replacement area will reduce the new construction baseline eligibility for the district.

(2) Building area required by the federal American with Disabilities Act (ADA) or by the Division of the State Architect's (DSA) handicapped access requirements.

(b) New site development items with the exception of:

(1) Replacement, repair or additions to existing site development.

(2) Site development items required by the federal ADA Act or by the DSA's handicapped access requirements.

(c) the evaluation and removal of hazardous or solid waste and/or hazardous substances when the Department of Toxic Substance Control has determined that the site contains dangerous levels of a hazardous substance, hazardous waste, or both that exceed ten percent of the combined adjusted grant and the district matching share for the project.

(d) Leased facilities not owned by another district or a county superintendent.

Modernization Grant funds shall be expended as set forth in Education Code Section 17074.25 and may also be utilized for other purposes as set forth in Education Code Section 100420(c).

Modernization Grant funds may be used on any school facilities on the site. If the classroom facilities on the site include areas that are currently ineligible for modernization, it will not disqualify those facilities from future modernization funding.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.15, 17074.25 and 100420(c), Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section and NOTE, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.79.3. Minimal Requests for Modernization Grant Funds.

Districts seeking a modernization grant must submit an *Application for Funding*, Form SAB 50-04 (Revised 09/01) for at least 101 grants, or the remaining modernization eligibility at the school site if less than .01 grants.

Application for Funding, Form SAB 50-04 (Revised 09/01) requesting Modernization Grant Funds that do not meet the above criteria will not be accepted by the SAB.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17074.25 and 100420(c), Education Code.

HISTORY

1. New section filed 9-12-2000; operative 9-12-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).
2. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
4. Amendment filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
5. Amendment section filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
6. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
7. Amendment filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

Article 9. Hardship Assistance

§ 1859.80. General.

A district shall qualify for hardship assistance by demonstrating one or more of the following:

(a) A financial hardship, as provided in Section 1859.81, which prevents the district from funding all or a portion of the matching share requirement for a SFP grant.

(b) A facility hardship grant as provided in Section 1859.82.

(c) An Excessive Cost Hardship Grant as a result of added construction costs due to unusual circumstances as provided in Section 1859.83.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17075.10 and 17070.15, Education Code.

HISTORY

1. New article 9 (sections 1859.80-1859.83) and section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New article 9 (sections 1859.80-1859.83) and section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New article 9 (sections 1859.80-1859.83) and section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

§ 1859.81. Financial Hardship.

A district is eligible for financial hardship to fund all or a portion of its matching share requirement after demonstrating both of the following:

(a) The district is financially unable to provide all necessary matching funds for an eligible project. To determine this, an analysis shall be made of the district's financial records by the OPSC including data and records maintained by the CDE and the County Office of Education. The analysis shall consist of a review of the district's latest Independent Audit regarding funds available from all capital facility accounts, including, but not limited to, developer fees, funds generated from capital facility certificates of participation, federal grants, redevelopment funds, sale proceeds from surplus property, the appraised value of facilities approved for replacement pursuant to Section 1859.82, bond funds either encumbered, unencumbered or authorized but unsold, and savings from other SFP projects. All funds thus identified that have not been expended or encumbered by a contractual agreement for a specific capital outlay purpose prior to the initial request for financial hardship status shall be deemed available as a matching contribution. The analysis is subject to approval by the Board.

From the funds deemed available as a matching contribution, the district may retain \$19,776 per classroom in each enrollment reporting period for the cost to provide interim housing for the currently unhoused pupils of the district. The amount shown shall be adjusted annually in the

manner prescribed in Section 1859.71. The number of classrooms needed for interim housing for the currently unboxed pupils shall be the sum of the positive numbers determined in (a)(7) as follows:

Determine the current enrollment of the district by grade level as shown on the latest *Enrollment Certification/Projection*, Form SAB 50-01 (Rev. 07/01).

(2) Determine the New Construction Grants apportioned by grade level for all SFP projects and LPP funded under the provisions of Sections 1859.12 or 1859.13 where the district has submitted an *Expenditure Report*, Form SAB 50-06 (Rev. 01/00) indicating that the project is 100 percent complete.

(3) Subtract (a)(2) from (a)(1).

(4) Determine the number of classrooms by grade level reported in Part I, Line 8 on the latest *Existing School Building Capacity*, Form SAB 50-02 (Rev. 07/01).

(5) Multiply the classrooms determined in (a)(4) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe.

(6) Subtract the product determined in (a)(5) from the difference determined in (a)(3) by grade level.

(7) Divide the difference by grade level determined in (a)(6) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe and round up to the nearest whole number.

From the funds deemed available as a matching contribution, the district may also retain \$19,776 per portable toilet unit in each reporting period for the cost to provide necessary interim toilet facilities for the currently unboxed pupils of the district. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71. The number of toilet facilities needed for interim housing shall be the sum of the positive numbers determined in (a)(7) divided by eight rounded up to the nearest whole number.

If the district's available funds, as determined by the OPSC analysis less costs for interim housing, is less than its matching share, the district will be deemed to have met the requirements of this Subsection.

(b) The district has made all reasonable efforts to fund its matching share of the project by demonstrating it is levying the developer fee justified under law or an alternative revenue source equal to or greater than the developer fee otherwise justified under law at the time of request for hardship and the district meets at least one of the following:

(1) The current outstanding bonded indebtedness of the district, at the time of request for financial hardship status, is at least 60 percent of the district's total bonding capacity. Outstanding bonded indebtedness includes that part of general obligation bonds, Mello-Roos Bonds, School Facility Improvement District Bonds and certificates of participation which the district is paying a debt service that was issued for capital outlay school facility purposes.

(2) The district had a successful registered voter bond election for at least the maximum amount allowed under Proposition 39 within the previous two years from the date of request for financial hardship status. The proceeds from the bond election that represent the maximum amount allowed under the provisions of Proposition 39 must be used to fund the district's matching share requirement for SFP project(s).

(3) It is a County Superintendent of Schools.

(4) The district's total bonding capacity at the time of the request for financial hardship status is \$3 million or less.

(5) Other evidence of reasonable effort as approved by the SAB.

If the district's request for financial hardship status is denied by the Board, the district shall be deemed eligible for rental payments of \$2,000 per year per classroom under the Emergency School Classroom Law of 1979 for a two year period. The number of classrooms eligible for the \$2,000 rental payments shall be the sum of the numbers determined in (b)(5)(B) as follows:

(A) Determine the number of pupils by grade level that the district received a New Construction Grant on the *Application for Funding*, Form SAB 50-04 (Rev. 09/01) that were denied financial hardship status.

(B) Divide the number by grade level determined in (b)(5)(A) by 25 for K-6, 27 for 7-12, 13 for Non-Severe and 9 for Severe and round up to the nearest whole number.

If the district meets the financial hardship requirements in this Section, the amount of financial hardship is equal to the district's matching share less funds deemed available in (a).

Once a district has been notified by the OPSC that it meets the requirements of financial hardship in this Section, the district may file an *Application for Funding*, Form SAB 50-04 (Revised 09/01) under the provisions of financial hardship anytime within a period of 180 calendar days from the date of the OPSC notification.

If the district does not submit an *Application for Funding*, Form SAB 50-04 (Rev. 09/01) under the provisions of financial hardship within 180 calendar days of the OPSC notification of approval of financial hardship status, the district must re-qualify for financial hardship status under the provisions of this Section by submittal of a new request for financial hardship status.

If the district submits an *Application for Funding*, Form SAB 50-04 (Rev. 09/01) within 180 calendar days of the OPSC notification of approval of financial hardship and the project(s) has been included on an unfunded list for more than 180 calendar days, a review of the district's funds pursuant to (a) will be made to determine if additional district funds are available to fund the district's matching share of the project(s).

Financial hardship approval status by the OPSC for a separate design and/or site apportionment does not apply to any subsequent funding for the project(s).

NOTE: Authority cited: Sections 17070.35 and 17075.15, Education Code. Reference: Section 17075.10, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment of subsection (b)(5) filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
6. Amendment of last paragraph filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
7. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
8. Amendment of last paragraph filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
10. Amendment of last paragraph filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
11. Amendment of last paragraph filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
12. Amendment filed 12-21-2001; operative 12-21-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 51).
13. Amendment of subsections (a)(1), (a)(4) and (b)(5)(A)-(B) filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
14. Amendment of subsection (b)(5)(A)-(B) filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.81.1. Separate Apportionment for Site Acquisition and Design Costs.

A district that meets the financial hardship criteria in Section 1859.81 is eligible for the following:

(a) For a new construction project, a separate apportionment for site acquisition when all of the following requirements are met:

(1) The district has eligibility for grants that equal at least 50 percent of the CDE master plan capacity of the site.

(2) The district has received a contingent site approval letter from the CDE indicating that the proposed site is the best available.

(3) The district has obtained a preliminary appraisal of the property by a qualified appraiser utilizing criteria outlined in Section 1859.74.1. This report may be made without access to the site.

(b) If the conditions in (a) are met, the Board will apportion all of the following less any district funds available for the project pursuant to Section 1859.81(a):

(1) An amount not to exceed 100 percent of the lesser of the preliminary appraised value of the site as determined by Section 1859.74.1 or the amount the district reasonably expects to pay for the site including any hazardous material clean-up.

(2) The estimated relocation expenses that will conform to Title 25, California Code of Regulations, Section 6000, et seq. The reasonable and necessary relocation costs for purchasing fixtures and equipment, personal property, new machinery/equipment, and the installation of any improvements at the replacement residence or business location may be included as relocation assistance.

(3) Four percent of the lesser of the preliminary appraised value of the site or the amount the district reasonably expects to pay for the site acquisition including any hazardous material clean-up but not less than \$50,000.

(4) The estimated DTSC costs for review, approval, and oversight of the POESA and the PEA.

(c) For new construction projects, the Board will apportion an amount not to exceed 40 percent of the new construction grant less any district funds available for the project pursuant to Section 1859.81(a). For modernization projects, the Board will apportion an amount not to exceed 20 percent of the modernization grant less any district funds available for the project pursuant to Section 1859.81(a). The amount apportioned is an estimate of the funds needed for design, engineering, and other pre-construction project costs.

Qualifying districts may request a separate apportionment for the design and for site acquisition for the same new construction project.

The amount provided as a separate apportionment shall be offset from the New Construction Adjusted Grant or the Modernization Adjusted Grant amount the district would otherwise be eligible for pursuant to Sections 1859.70 and 1859.81 when the district submits an *Application For Funding*, Form SAB 50-04 (Revised 09/01). A district seeking a separate apportionment for site acquisition or design costs shall submit an *Application for Funding*, Form SAB 50-04 (Revised 09/01). If a new construction project received a previous design apportionment, the district may request an additional design apportionment for that project up to the 40 percent maximum design apportionment allowed pursuant to this Section. The *Application for Funding*, Form SAB 50-04 (Revised 09/01) must be for at least 50 percent of the New Construction Grant or at least 80 percent of the Modernization Grant the district requested as a separate design apportionment.

When the Board is accepting applications pursuant to Section 1859.95, the funding of the new construction or modernization grant may be made from funds set aside by the Board for financial hardship. The amount provided as a separate apportionment shall be adjusted at a future date [see *Application for Funding*, Form SAB 50-04 (Rev. 09/01)] to assure that hardship funding for the project does not exceed the amount the district was otherwise eligible to receive.

NOTE: Authority cited: Sections 17070.35, 17072.13 and 17075.15, Education Code. Reference: Sections 17072.20 and 17072.33, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. Amendment of last paragraph filed 7-12-99 as an emergency; operative 7-12-99 (Register 99, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-9-99 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
6. Certificate of Compliance as to 7-12-99 order, including further amendments, transmitted to OAL 11-5-99 and filed 12-22-99 (Register 99, No. 52).
7. Amendment of subsection (b) filed 3-13-2000; operative 4-12-2000 (Register 2000, No. 11).
8. Amendment of section and NOTE filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
9. Amendment of last two paragraphs filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
10. Amendment of subsection (c) and amendment of penultimate paragraph filed 9-12-2000; operative 9-12-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 37).
11. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
12. Amendment of last two paragraphs of subsection (c) filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
13. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
14. Amendment of last two paragraphs filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
15. Amendment of last two paragraphs filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
16. Amendment of subsection (c) filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
17. Amendment of last two paragraphs filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.82. Facility Hardship Grant.

A district is eligible for facility hardship grant funding to replace or construct new classrooms and related facilities if the district demonstrates there is an unmet need for pupil housing or the condition of the facilities, or the lack of facilities, is a threat to the health and safety of the pupils. A facility hardship is available for:

(a) New classrooms and/or subsidiary facilities (corridors, toilets, kitchens and other non-classroom space) or replacement facilities if either (1) or (2) are met:

(1) The facilities are needed to ensure the health and safety of the pupils if the district can demonstrate to the satisfaction of the Board that the health and safety of the pupils is at risk. Factors to be considered by the Board shall include the close proximity to a major freeway, airport, electrical facility, high power transmission lines, dam, pipeline, industrial facility, adverse air quality emission or other health and safety risks, including structural deficiencies required by the DSA to be repaired, traffic safety or because the pupils reside in remote areas of the district and transportation to existing facilities is not possible or poses a health and safety risk.

If the request is for replacement facilities, a cost/benefit analysis must be prepared by the district and submitted to the OPSC that indicates the total costs to remain in the classroom or related facility and mitigate the problem is at least 50 percent of the Current Replacement Cost of the classroom or related facility. The cost/benefit analysis may include ap-

pliable site development costs as outlined in Section 1859.76. If the cost to remain in the classroom or related facility is less than 50 percent of the Replacement Cost, the district may qualify for an excessive cost reimbursement grant for rehabilitation costs pursuant to Section 1859.83(e).

If the request is for replacement facilities that included structural deficiencies, the cost/benefit analysis must also include a report from a licensed design professional identifying the minimum work necessary to obtain DSA approval. The report must contain a detailed cost estimate of the repairs. The report and cost estimate shall be subject to review by the OPSC for conformance with the Saylor Current Construction Cost Publication and, at the OPSC's discretion, the DSA.

(2) The classroom or related facility was lost or destroyed as a result of a disaster such as fire, flood or earthquake and the district has demonstrated satisfactorily to the Board that the classroom or related facility was uninsurable or the cost for insurance was prohibitive.

If the district qualifies for a new or replacement school pursuant to either (1) or (2) above, the district is eligible for a New Construction Grant as a new construction project for the lesser of the pupils housed in the facility based on loading standards pursuant to Education Code Section 17011.25(a)(2) or the latest CBEDS enrollment at the site.

If the district qualifies for replacement facilities on the same site pursuant to either (1) or (2) above, the district is eligible for funding as a new construction project. Replacement facilities shall be allowed in accordance with the square footage amounts provided in the chart in Section (b) below. If the facility eligible for replacement is not shown in the chart in Section (b) below, the replacement facility shall be limited to the square footage replaced. The grant amount provided shall be \$150 per square foot for toilet facilities and \$75 per square foot for all other facilities. Additional grants may be provided for applicable site development costs pursuant to Section 1859.76 and excessive cost grants pursuant to

Section 1859.83. The amounts shown will be adjusted annually in the manner prescribed in Section 1859.71.

Any grants provided pursuant to either (1) or (2) above will be reduced for any space deemed available by the Board in the district or the HSAA that could be used to house some or all of the displaced pupils, fifty percent of any insurance proceeds collectable by the district for the displaced facilities and fifty percent of the net proceeds available from the disposition of any displaced facilities.

(b) A multi-purpose room, toilet, gymnasium, school administration or library/media center, facility that meets all the following:

(1) The facility was lost or destroyed as a result of a disaster, including but not limited to fire, flood or earthquake.

(2) The facility is no longer useable for school purposes as recommended by the California Department of Education and approved by the Board.

(3) The district has demonstrated satisfactorily to the Board that the facility was uninsurable or the cost of insurance was prohibitive.

If the district qualifies, the district is eligible for funding as a new construction project. The funding amount provided shall be \$75 per square foot for library/media center, school administration, gymnasium and multi-purpose facilities, and/or \$150 per square foot for toilet facilities. Additional grants may be provided for applicable site development costs pursuant to Section 1859.76 and excessive cost grants pursuant to Section 1859.83. The amounts shown will be adjusted annually in the manner prescribed in Section 1859.71.

Any grants provided pursuant to (b) above, shall be reduced by fifty percent of any insurance proceeds collectable by the district for the displaced facilities and fifty percent of the net proceeds available from the disposition of any displaced facilities.

The square footage provided, after accounting for all useable facilities on the site, shall not exceed the following:

Facility	Elementary School Pupils	Middle School Pupils	High School Pupils
Multi-Purpose	5.3 sq. ft. per pupil minimum 3,500 sq. ft.	5.3 sq. ft. per pupil minimum 4,500 sq. ft.	6.3 sq. ft. per pupil minimum 7,500 sq. ft.
Mech./Elect.	0.3 sq. ft. per pupil minimum 100 sq. ft.	0.3 sq. ft. per pupil minimum 100 sq. ft.	0.3 sq. ft. per pupil minimum 100 sq. ft.
Food Service	2 sq. ft. per pupil minimum 400 sq. ft. maximum 1,480 sq. ft.	2 sq. ft. per pupil minimum 400 sq. ft. maximum 1,880 sq. ft.	3 sq. ft. per pupil minimum 600 sq. ft. maximum 3,975 sq. ft.
Toilet	3 sq. ft. per pupil minimum 300 sq. ft.	4 sq. ft. per pupil minimum 300 sq. ft.	5 sq. ft. per pupil minimum 300 sq. ft.
Gymnasium	N/A	7 sq. ft. per pupil minimum 5828 sq. ft.	8 sq. ft. per pupil minimum 7280 sq. ft.
Shower/Locker	N/A	4 sq. ft. per pupil minimum 400 sq. ft.	5 sq. ft. per pupil minimum 500 sq. ft.
P.E. Office	N/A	50 sq. ft./coach	50 sq. ft./coach
P.E. Storage	N/A	0.5 sq. ft. per pupil minimum 500 sq. ft.	0.5 sq. ft. per pupil minimum 500 sq. ft.
Bleachers	N/A	0.9 sq. ft. per pupil maximum 1820 sq. ft.	1.3 sq. ft. per pupil maximum 2600 sq. ft.
Mech/Elect	N/A	0.3 sq. ft. per pupil minimum 100 sq. ft.	0.3 sq. ft. per pupil minimum 100 sq. ft.
School Administration	3 sq. ft. per pupil minimum 600 sq. ft.	3 sq. ft. per pupil minimum 600 sq. ft.	4 sq. ft. per pupil minimum 800 sq. ft.
Library/Media Center	2.3 sq. ft. per pupil + 600 sq. ft.	3.3 sq. ft. per pupil + 600 sq. ft.	4.3 sq. ft. per pupil + 600 sq. ft.

A district may request a determination of eligibility for facility hardship funding in advance of project funding.

(c) A district seeking replaced facilities as a result of either (a) or (b) above must submit an *Application For Funding*, Form SAB 50-04 (Revised 09/01) for the replaced facilities:

(1) Within 18 months if the replacement facilities will be located on the same site.

(2) Within 24 months if the replacement facilities will be located on a replacement site.

If an Approved Application for the replaced facility is not accepted within the time periods identified in (c)(1) or (c)(2) above, the Board shall re-review the criteria submitted by the district for replacement of the facility prior to apportionment of the replaced facility.

NOTE: Authority cited: Sections 17070.35 and 17075.15, Education Code. Reference: Sections 17075.10 and 17075.15, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment of subsection (a)(2) and new subsections (c)-(c)(2) filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
6. Amendment of subsection (c) and last paragraph filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Com-

pliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.

7. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
8. Amendment of subsections (a)(2), (b)(3), (c) and (c)(2) filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
10. Amendment of subsection (c) filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
11. Amendment of subsection (c) filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
12. Amendment of subsection (c) filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
13. Amendment of subsection (c) filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.83. Excessive Cost Hardship Grant.

In addition to the SFP New Construction and Modernization Grant, a district is eligible for an additional funding as a result of unusual circumstances that created excessive project costs beyond the control of the district. The excessive cost grant shall be based on any of the following:

- (a) Excessive Cost due to Geographic Location.

A district with a project that is located in a geographic area designated in the Geographic Percentage Chart below is eligible for and may request, as part of its application for a SFP new construction or modernization grant, to have the grant amount increased by the indicated percentage factor and funded as an excessive cost hardship.

GEOGRAPHIC PERCENTAGE CHART

<i>County</i>	<i>% Factor</i>	<i>Description</i>
Alpine	5	The entire county.
Amador,	5	All of Amador County except the portion lying west of a line drawn five miles east of, and paralleling State Highway 49.
Eastern Part		
Butte, Eastern	5	All of Butte County except that portion lying west of a line drawn ten miles east of, and paralleling State Highway 99.
Part		
Calaveras,	5	All of Calaveras County except that portion lying west of State Highway 49.
Eastern Part		
Del Norte	5	The entire county.
El Dorado	15	That portion lying east of a north-south line drawn 25 miles west of the Nevada State Line and north to the county line and south to State Highway 88.
Eastern Part		
El Dorado	5	El Dorado County except the eastern part and the following areas: <ul style="list-style-type: none"> • West of a line drawn six miles east of and paralleling State Highway 49. • Within five miles of either side of U.S. highway 50 from the western county line to a point on the eastern limit of the community of Pollock Pines. • West of a line drawn three miles easterly from and paralleling a certain county road described as the Pleasant Valley Road which connects the community of Aukum with Diamond Springs and with the city of Plymouth.
Fresno,	5	All of Fresno County lying east of a line drawn ten miles east of, and paralleling the west boundary of the Sierra National Forest.
Eastern Part		
Glenn,	5	All of Glenn County except that portion lying east of a line drawn ten miles west of, and paralleling Interstate Highway 5.
Western Part		
Humboldt,	5	That portion of Humboldt County situated within five miles of the Redwood Highway (U.S. 101) except for that portion situated within ten miles of the Redwood Highway from the northern boundary of the community of Trinidad to the southern boundary of the community of Rio Dell.
Redwood Highway		
Humboldt, State Highway 299 and	5	That portion of Humboldt County situated within five miles of State Highway 299 and State route 96, except for those portions situated within ten miles of the Redwood Highway (U.S. 101) from the northern boundary of the community of Trinidad to the southern boundary of the community of Rio Dell.
Vicinity		
Humboldt, Southeastern Part	15	That portion of Humboldt county adjacent to or east of, the road between Harris to Blocksburg to a point ten miles north of Blocksburg.
Humboldt, Residual Area	10	All areas of Humboldt County not classified in other cost groups except for that portion situated within ten miles of the Redwood Highway from the northern boundary of the community of Trinidad to the southern boundary of the community of Rio Dell.
Imperial	5	The entire county.
Inyo, Southeastern Part	20	That portion of Inyo County situated east of the western boundary of the Death Valley National Monument from the northern boundary of said national monument to the southern boundary of the county.
Inyo, Residual Area	5	All of Inyo County except the southeastern part described above.
Kern, Eastern Part	5	That portion of Kern County lying east of a north-south line drawn through the eastern boundary of the town of Tehachapi.
Lake	5	The entire county.
Lassen, Southern Part	10	That portion of Lassen County lying south of an east-west line drawn through a point ten miles north of Susanville.
Lassen, Northern Part	15	All of Lassen County except the southern part described above.
Los Angeles,	*	The entire Santa Catalina Island.
Santa Catalina Island only		
Madera, Central Part	5	That portion of Madera County lying between a line drawn ten miles west of, and paralleling the western boundary of the Sierra National Forest and a line drawn ten miles east of and paralleling the western boundary of the Sierra National Forest.
Madera, Eastern Part	5	All of Madera County except the western part and the central part described above.
Mariposa, Eastern Part	5	All of Mariposa County except that portion lying west of: <ul style="list-style-type: none"> • A line drawn five miles east of, and paralleling State Highway 49 from the northern county line to Mormon's Bar; and • A line drawn ten miles west of, and paralleling the western boundary of the Sierra National Forest from a point due east of Mormon's Bar to the southern county line.
Mendocino, Fort Bragg Area	10	Those portions of Mendocino County lying west of the Southern Redwood Highway Area, and south of the Ten Mile River.

<i>County</i>	<i>% Factor</i>	<i>Description</i>
Mendocino, Northern Redwood Highway Area	5	That portion of Mendocino County situated within five airline miles of the Redwood Highway (U.S. 101) from a point ten miles north of the Willits City Hall to the northern boundary of the county.
Mendocino, Residual Area	10	Those portions of Mendocino County not otherwise classified except that portion situated within ten airline miles of the Redwood Highway (U.S. 101) from a point ten miles north of the Willits City Hall to the southern boundary of the county. (Comprises the Northeastern part of the county and the coastal strip in the northwestern part).
Modoc	15	The entire county.
Mono	20	The entire county.
Monterey, Southern Part	5	All Monterey County except that portion lying north of an east–west line beginning on the coast two miles south of the City of Carmel and extending due east to the eastern boundary of the county.
Nevada	5	That portion of Nevada County not included in the Eastern Part.
Nevada, Eastern Part	15	That portion lying east of a north–south line drawn 25 miles west of the Nevada State Line and north to the county line and south to the county line.
Placer, Eastern Part	15	That portion lying east of a north–south line drawn 25 miles west of the Nevada State Line and north to the county line and south to the county line.
Placer, Northeastern Part	5	All of Placer County except the Eastern Part and the following: <ul style="list-style-type: none"> • Within five miles of either side of State Highway 65 from the southern boundary of the county and the northern limit of the community of Lincoln. • Five miles either side of Interstate 80 from the southern boundary of the county and the northern limit of the community of Penryn. • West of a line drawn five miles east of, and paralleling State Highway 49. • Within five miles of either side of Interstate 80 between the northern limit of the community of Penryn and the northern limit of the community of Colfax.
Plumas	5	The entire county.
Riverside, Eastern Part	20	That portion lying east of a north–south line drawn 50 miles west of the Arizona State Line and north to the county line and south to the county line.
Riverside, Central Part	5	That portion of Riverside County lying east of a north–south line drawn through the intersection of Interstate 10 and Fields Road extending from the southern county line of Riverside County, north to the southern county line of San Bernardino County to the Eastern Part of the County.
San Benito, Southern Part	5	All of San Benito County except that portion lying north of an east–west line drawn across the county from a point two miles south of the community of Paicines.
San Bernardino, Northeastern	5	That portion of San Bernardino County lying north and east of an east–west line drawn two miles north of Oro Grande, extending from the western boundary of the county to its intersection with the northerly extension of, and thence along a line drawn through the following points: A point five miles east of Victorville, the eastern edge of the communities of Running Springs and Camp Angelus then due south to the San Bernardino County line.
San Bernardino, Eastern Part	20	That portion lying east of a north–south line drawn 150 miles west of the Arizona State Line and north to the county line and south to the county line.
San Diego, Northeastern Part	10	That portion of San Diego County lying east of a north–south line drawn ten miles east of the community of Julian, said line extending from the northern boundary of the county to its intersection with an east–west line extending from the eastern boundary of the county to its intersection with the aforesaid north–south line, said east–west line being at its closest point, three miles due north of the community of Mount Laguna.
San Mateo, Southwestern Part	5	That portion of San Mateo County lying more than two miles westerly from the nearest point on Skyline Boulevard and south of an east–west line drawn through a point two miles north of the community of Montara.
Santa Cruz, Northwestern Part	5	That portion of the Santa Cruz County lying northerly and westerly from a line drawn from a point one mile north of Swanton on the coast through a point one mile north of Brookdale and situated more than two miles from the nearest point on the eastern boundary of the county.
Shasta, except Valley Area	5	All of Shasta County except that portion lying south of Shasta Lake and situated within ten miles of Interstate Highway 5.
Sierra	5	The entire county.
Siskiyou, Central Part	15	That portion of Siskiyou County situated within ten miles of U.S. Highway 97 from Grass Lake to the Oregon State Line.
Siskiyou, Salmon River	25	All of the drainage area of the Salmon River (including the North and South Forks) except that portion situated within the Soms Bar Area described below.
Siskiyou, Soms Bar Area	20	Those portions of the drainage areas of the Salmon and Klamath Rivers located within the boundaries of the Junction Elementary School District.

<i>County</i>	<i>% Factor</i>	<i>Description</i>
Siskiyou, Western Part	15	That portion of Siskiyou County lying westerly from a line drawn ten miles west of and parallel to Interstate 5, except the Somes Bar and Salmon River areas described above.
you, Yreka and Residual Area	5	All of Siskiyou County except the Salmon River, Somes Bar and Western areas described above.
Sonoma, Northwestern Part	5	That portion of Sonoma County enclosed by a line following the northern boundary of the county from the Pacific Ocean to a point 15 miles inland, thence southerly to a point two miles west of the community of Los Lomas, thence southerly to a point on the coast two miles south of the community of Fort Ross, thence northerly along the coast line to the northern boundary of the county.
Tehama, Residual Area	5	All of Tehama County except those portions situated within ten miles west of Interstate Highway 5 from the north county line to the southern county line; within ten miles east of Interstate Highway 5 from the north county line southward to a point east of Red Bluff, thence within ten miles east of and paralleling State Highway 99 southward to the county line.
Trinity, Residual Area	15	All of Trinity County except the State Highway 299 area described below.
Trinity, State Highway 299	10	That portion of Trinity County situated within five miles of State Highway 299.
Tulare, Eastern Part	5	That portion of Tulare County lying east of a north-south line drawn through the western limits of the community of Silver City.
Tuolumne, Eastern Part	5	All of Tuolumne County except that portion lying west of State Highway 49.
Yuba, Northeastern Part	5	All of Yuba County except that portion lying west of a line drawn ten miles east of, and paralleling State Highway 65 and that portion lying south of a line drawn three miles north of, and paralleling State Highway 20.

*As specifically approved by the Board.

(b) Excessive Cost for Projects that House No More than 200 Pupils (Small Size Projects).

A New Construction or Modernization Grant will be increased by 12 percent for a project that will house less than 101 pupils, or by four percent if the project will house no more than 200 pupils.

(c) Excessive Cost to Construct a New School Project.

A New Construction Grant for a new elementary, middle or high school on a site with no existing school facilities shall be increased by the difference in the amount provided for the New Construction Grant and the amount shown below, based on the number of classrooms in the project:

<i>Classrooms in project</i>	<i>Elementary School pupils</i>	<i>Middle School pupils</i>	<i>High School School pupils</i>
1	\$160,000	\$674,000	\$1,466,000
2	\$377,000	\$756,000	\$1,525,000
3	\$566,000	\$840,000	\$1,885,000
4	\$717,000	\$932,000	\$2,205,000
5	\$842,000	\$1,028,000	\$2,428,000
6	\$1,021,000	\$1,125,000	\$2,651,000
7	\$1,202,000	\$1,222,000	\$2,874,000
8	\$1,341,000	\$1,328,000	\$3,046,000
9	\$1,341,000	\$1,440,000	\$3,184,000
10	\$1,577,000	\$1,553,000	\$3,321,000
11	\$1,577,000	\$1,666,000	\$3,459,000
12	\$1,660,000		\$3,585,000
13			\$3,709,000
14			\$3,833,000
15			\$3,958,000
16			\$4,082,000
17			\$4,207,000
18			\$4,331,000
19			\$4,455,000
20			\$4,580,000
21			\$4,704,000
22			\$4,828,000

The amounts shown above will be adjusted annually in the manner prescribed in Section 1859.71.

Excessive Cost Grant funds provided under this subsection for a school project shall be offset against future New Construction Grant funds provided for that same school. The amount of the offset shall be determined by dividing the additional New Construction Grant pupil re-

quest by the difference in the New Construction Grant pupil request when the initial Excessive Cost Grant was made and 325 for an elementary school, 324 for a middle school, and 621 for a high school project and multiplying the quotient by the Excessive Cost Grant funds provided for that project.

(d) Excessive Cost Due to Urban Location, Security Requirements and Impacted Site.

A New Construction or Modernization Grant will be increased if site acreage for the project is:

(1) at least 50 percent but less than 75 percent of the site size recommended by the CDE for the master planned project capacity. The New Construction or Modernization Grant will be increased by eight percent.

(2) at least 30 percent but less than 50 percent of the site size recommended by the CDE for the master planned project capacity. The New Construction or Modernization Grant will be increased by 15 percent.

(3) less than 30 percent of the site size recommended by the CDE for the master planned project capacity. The New Construction Grant will be increased by 50 percent.

(4) Less than 30 percent of the site size recommended by the CDE for the master planned project capacity. The modernization Grant will be increased by 25 percent.

(e) Excessive Cost for rehabilitation of facilities the Board has determined are a health and safety risk to the pupils pursuant to Section 1859.82(a)(1) and the cost/benefit analysis to mitigate the problem and remain in the facility is less than 50 percent of the Current Replacement Cost of the facility. If the district qualifies, the district is eligible for funding of rehabilitation costs as a modernization project. The grant amount provided is 80 percent of the amount of the cost estimate required in Section 1859.82(a)(1) that has been reviewed by the OPSC and approved by the Board.

(f) Excessive cost due to handicapped access and fire code requirements:

(1) A modernization grant will be increased by three percent for handicapped access and fire code requirements.

(2) A modernization grant will be increased by \$80,000 for each new two-stop elevator required to be included in the project by the Division of the State Architect (DSA). The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71.

(3) A modernization grant will be increased by \$14,400 for each additional stop of the new elevator required in (2) above. The amount shown shall be adjusted annually in the manner prescribed in Section 1859.71.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment of first paragraph filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
6. Amendment adding second paragraph following the table in subsection (c) filed 4-5-2001; operative 4-5-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 14).
7. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).

Article 10. Fund Release and Priority Points

§ 1859.90. Fund Release Process.

With the exception of an apportionment made pursuant to Section 1859.81.1(c), the OPSC will release State funds that have been apportioned by the Board to the district after submittal, by the district, of the *Fund Release Authorization*, Form SAB 50-05 (Revised 01/01), which is incorporated by reference. A district must submit the *Fund Release Authorization*, Form SAB 50-05 (Revised 01/01), within 18 months of the Apportionment of the SFP grant for the project or the entire New Construction or Modernization Adjusted Grant shall be rescinded without further Board action, and the pupils housed in the project will be added back to the district's baseline eligibility. The district may refile a new application for the project subject to district eligibility and priority funding at the time of resubmittal.

The OPSC will release State funds that have been apportioned by the Board pursuant to Section 1859.81.1(c) to the district within 30 calendar days of the apportionment.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17072.30, 17074.15 and 17076.10, Education Code.

HISTORY

1. New article 10 (sections 1859.90-1859.95) and section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New article 10 (sections 1859.90-1859.95) and section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New article 10 (sections 1859.90-1859.95) and section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
6. Amendment of first paragraph filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be trans-

mitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.

7. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
8. Amendment of first paragraph filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).

§ 1859.91. Implementation of Priority Points Due to Insufficient State Funds.

(a) The OPSC shall report to the Board on a monthly basis the amount of funds available for New Construction Grants and Modernization Grants and the estimated amount of Approved Applications for New Construction Grants and Modernization Grants not yet apportioned. The Board shall implement a priority point mechanism described in (b) for New Construction Grants requests when either of the following occur:

(1) The amount of Approved Applications for New Construction Grants and Modernization Grants not yet apportioned exceed the funds available for New Construction Grants and Modernization Grants.

(2) The funds available for New Construction Grants are \$300 million or less.

(b) Once either (1) or (2) in (a) occurs, the Board shall approve and apportion the funds available for New Construction Grants requests based on the following priority point mechanism:

(1) From the funds available for New Construction Grants, the Board shall establish a final allotment equal to the lesser of \$450 million or the balance of the funds available for New Construction Grants, to be apportioned in accordance with (2) below. After deducting the final allotment, the Board shall divide the remaining funds into seven equal allotments, to be apportioned on a quarterly basis, commencing with the last quarter of calendar year 2000 and ending the second quarter of calendar year 2002. Quarterly apportionments are subject to the following:

(A) The Board shall apportion Approved Applications for New Construction Grants requests received prior to the beginning of the quarter that are Ready for Apportionment, all New Construction Grants requests that were included on an Unfunded List and New Construction Grants requests that meet the criteria of subsection (d), until the funds available for New Construction Grants for that quarter are exhausted. New Construction Grants requests eligible for an apportionment shall be apportioned in the following order:

(1) To projects that meet the criteria of subsection (d) where the Approved Application date adjusted back in time would have qualified the project for an apportionment.

(2) To projects exempt from priority points pursuant to Section 1859.92(e).

(3) To projects having the greatest number of priority points.

(B) If two or more projects have the same number of priority points, those projects shall be first ranked according to the Approved Application date.

(C) No New Construction Grants request will be recommended for apportionment unless the project can be entirely apportioned from the funds available for that quarter.

(D) If the Approved Applications for New Construction Grants received prior to the quarter that are Ready for Apportionment, all New Construction Grants requests that were included on an Unfunded List prior to the quarter and New Construction Grants requests that meet the criteria of subsection (d) are less than the quarterly allotment, plus any funds remaining from the previous quarter(s), the excess funds shall be added to the next quarterly allotment.

(E) If the Approved Applications for New Construction Grants requests received prior to the quarter that are Ready for Apportionment, all New Construction Grants requests that were included on an Unfunded List prior to the quarter and New Construction Grants requests that meet the criteria of subsection (d) are greater than the quarterly allotment, plus any funds remaining from the previous quarter(s), any New Construction

Grants requests not apportioned by the Board shall be placed on an Unfunded List.

(F) All New Construction Grants requests, as described in (A) above, that are Ready for Apportionment in a quarter shall not be apportioned by the Board at the last regularly scheduled Board meeting for that quarter with the exception of New Construction Grants requests that meet the criteria of subsection (b)(1)(A)(1) or (2). Any New Construction Grants request that is Ready for Apportionment in a quarter that meets the criteria of subsection (b)(1)(A)(1) or (2) may be apportioned at any of the regularly scheduled Board meetings during that quarter.

(2) The final allotment shall be apportioned subject to the following:

(A) The Board shall apportion Approved Applications for New Construction Grants received between April 1, 2002 and June 26, 2002 that are Ready for Apportionment, all New Construction Grants requests that were included on an Unfunded List and New Construction Grants requests that meet the criteria of subsection (e), until the final allotment, plus any funds remaining from the previous quarters are exhausted. New Construction Grants requests eligible for an apportionment shall be apportioned in the following order:

(1) To projects that meet the criteria of subsection (e) where the Approved Application date adjusted back in time would have qualified the project for an apportionment.

(2) To projects exempt from priority points pursuant to Section 1859.92(e).

(3) To projects having the greatest number of priority points.

(4) If two or more projects have the same number of priority points, these projects shall be first ranked according to the Approved Application date.

(C) If the Approved Applications for New Construction Grants received between April 1, 2002 and June 26, 2002 that are Ready for Apportionment, all New Construction Grants requests that were included on an Unfunded List and New Construction Grants requests that meet the criteria of subsection (e) are greater than the final allotment, plus any remaining funds from the previous quarter(s), any New Construction Grants requests not apportioned by the Board shall be placed on an Unfunded List.

(D) All New Construction Grants requests, as described in (A) above, that are Ready for Apportionment shall be apportioned at the regularly scheduled Board meeting in August 2002 with the exception of New Construction Grants requests that meet the criteria of subsection (b)(2)(A)(1) or (2). Any New Construction Grants request that is Ready for Apportionment that meets the criteria of subsection (b)(2)(A)(1) or (2) may be apportioned at either the regularly scheduled Board meeting in July or August 2002.

(E) If the Approved Applications for New Construction Grants received between April 1, 2002 and June 26, 2002 that are Ready for Apportionment, all New Construction Grants requests that were included on an Unfunded List and New Construction Grants requests that meet the criteria of subsection (e) are less than the final allotment, plus any remaining funds from the previous quarter(s), the excess funds shall be apportioned on a monthly basis beginning in September 2002 for Approved Applications for New Construction Grants received after June 26, 2002 that are Ready for Apportionment, in descending order, commencing with the project having the greatest number of priority points. This process shall continue until the funds available are exhausted. If two or more projects have the same number of priority points, those projects shall be first ranked according to the Approved Application date.

(c) The Board shall declare that State funds are not available for new facility construction when the New Construction Grants requests Ready for Apportionment exceed the funds available for that purpose. This declaration shall serve as the mechanism for the Board to make the appropriate notifications as required, pursuant to Government Code Section 65995.7(a).

Approved Applications for New Construction Grants requests received during a quarter may, at the discretion of the Board, be considered

for funding available for that quarter or a future quarter if all the following criteria are met:

(1) Either the Executive Officer of the Board, the State Architect, the Director of School Facilities Planning Division within the CDE, or the Chief of the School Property Evaluation and Cleanup Division within the Department of Toxic Substances Control (DTSC) certify to the OPSC that the district's application was delayed for a specified number of calendar days in relation to other similar applications submitted to that agency at the same time.

(2) The Approved Application date adjusted back in time for the number of calendar days the application was delayed is prior to the beginning of the quarter in which the application was received.

(e) Approved Applications for New Construction Grants requests received after June 26, 2002 may, at the discretion of the Board, be considered for funding available for the final allotment if all the following criteria are met:

(1) Either the Executive Officer of the Board, the State Architect, the Director of School Facilities Planning Division within the CDE, or the Chief of the School Property Evaluation and Cleanup Division within the DTSC certify to the OPSC that the district's application was delayed for a specified number of calendar days in relation to other similar applications submitted to that agency at the same time.

(2) The Approved Application date adjusted back in time for the number of calendar days the application was delayed is prior to June 27, 2002.

NOTE: Authority cited: Sections 17072.25 and 17070.35, Education Code. Reference: Section 17072.25, Education Code; and Section 65995.7, Government Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
7. Amendment filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.92. Priority Points For New Construction Projects.

The priority points allowed for a New Construction Grants request shall be based on the following computations rounded up to the nearest whole number. The computation shall be made on a districtwide basis if the district utilized districtwide CBEDS enrollment data reported on the *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01), in effect at the time the district's application for funding was submitted to the OPSC for the project. The computation shall be made on a HSAA basis if the district utilized HSAA CBEDS enrollment data reported on the *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01), in effect at the time the district's application for funding was submitted to the OPSC for the project. Notwithstanding the provisions of Section 1859.41, a district that has previously reported its enrollment on a HSAA basis may calculate both its eligibility and its priority points on a districtwide basis. A project shall receive priority points based on the total of (a), (b) and (c):

(a) Priority points for the percent of unboxed pupils for both of the following:

- (1) Six points for each percent of current unboxed pupils.
- (2) Four points for each percent of projected unboxed pupils.

(b) Priority points for the number of unhoused pupils for both of the following:

- (1) One point for each 100 currently unhoused pupils.
- (2) One point for each 200 projected unhoused pupils.

(c) A maximum of 100 priority points for the following:

(1) Twenty points if the district's CBEDS enrollment at the time of application submittal to the OPSC for funding is less than 2,501.

(2) Twenty points for a County Superintendent of Schools' project that only includes classroom space solely for Non-Severely Disabled Individuals with Exceptional Needs.

(3) Twenty points if the site acreage for the project is less than 50 percent of the site size recommended by the CDE for the master planned pupil capacity.

(4) Twenty points for a project that either used "stock plans" pursuant to Education Code Section 17070.33(b)(6) or re-used plans that were previously used to construct at least two other schools.

(5) Twenty points if the district's CBEDS enrollment at the time of application submittal to the OPSC for funding is less than 301.

(6) Twenty points for a project that uses 20 percent less energy than the Energy Budget as defined and calculated in a manner consistent with the California Energy Code, Part 6, Subchapter 5, Section 141 — Performance Approach: Energy Budgets.

(7) Twenty points for a project that is a new high school serving any grades nine through twelve.

(8) Twenty points for a project that received financial hardship assistance pursuant to Section 1859.81.

(9) Twenty points for a project where the site acquisition qualified and received an apportionment authorized under Section 1859.75.1, Separate Site Apportionment for Environmental Hardship.

(10) One hundred points if the Approved Application was accepted prior to the date the priority point mechanism is implemented by the Board pursuant to Section 1859.91(a)(1) or (a)(2).

(d) The calculation of priority points in (a), (b) and (c) above shall be determined at the time the Approved Application is accepted.

(e) The following projects are exempt from priority points:

(1) A project that received Facility Hardship approval pursuant to Section 1859.82.

(2) A county superintendent of schools' project that includes classroom space for Severely Disabled Individuals with Exceptional Needs.

(3) A county superintendent of schools' project that only includes classroom space solely for community school pupils.

(4) A school district's project that only includes classroom space solely for Severely Disabled Individuals with Exceptional Needs.

(f) If the project received a separate site and/or design apportionment under the provisions of the LPP or pursuant to Sections 1859.75.1 or 1859.81.1, the district's funding priority of the project shall be determined by the Approved Application date for the New Construction Grant request.

NOTE: Authority cited: Sections 17070.35, 17072.25 and 100420(d), Education Code. Reference: Sections 17070.33 and 17072.25, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.

2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.

3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 7-29-99 order, including amendment of section and NOTE, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

5. Amendment of first paragraph filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

6. Amendment of section and NOTE filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.

7. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).

8. Amendment of first paragraph filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

§ 1859.93. Modernization Projects.

All modernization applications shall be funded in the order of receipt of an Approved Application for funding until all modernization funds available to the Board have been apportioned.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17074.15, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.

2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.

3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

5. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.

6. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).

§ 1859.94. Hardship Funding.

(a) Hardship assistance provided as a part of a New Construction Grant shall be subject to the same priority point determination as the New Construction Grant.

(b) To the extent that hardship funds are available, the Board may elect to specifically set aside funding for financial hardship grants as provided in Section 1859.81, facility hardship grants as provided in Section 1859.82 or Excessive Cost Hardship Grants as provided in Section 1859.83.

(c) Should a district request hardship funding for either a financial hardship grant pursuant to Section 1859.81, a facility hardship grant pursuant to Section 1859.82 or an Excessive Cost Hardship Grant pursuant to Section 1859.83 and the Board has no funds to allocate for that specific hardship, the district may elect to either:

(1) Accept funding for the project less any hardship funding grants that are not available. When this option is selected, the hardship funding grants not allocated for the project shall be placed on the Unfunded List. If the project was previously placed on the Unfunded List, the project shall retain the original date it was placed on that Unfunded List.

(2) Decline to accept funding for the project. When this option is selected, the project shall be placed on the Unfunded List. If the project was previously placed on the Unfunded List, the project shall retain the original date it was placed on that Unfunded List.

A project or portion of a new construction project not funded as a result of subdivision (c) shall be subject to the Board's priority point mechanism pursuant to Sections 1859.91 and 1859.92.

NOTE: Authority cited: Sections 17075.15 and 17070.35, Education Code. Reference: Section 17075.15, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.

2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.

3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment of subsection (c) filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
6. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
7. Amendment of subsections (c)-(2) filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).

§ 1859.95. Acceptance of Applications When Funding Is Unavailable.

When the Board has no funds to apportion or the application does not qualify for funding because of the Board's priority point mechanism pursuant to Sections 1859.91 and 1859.92, the Board will continue to accept and process applications for eligibility determination. The Board will also accept and process applications for apportionment for purposes of developing an Unfunded List based on the date the application is Ready for Apportionment.

If either the Executive Officer of the Board, the State Architect, the Director of School Facilities Planning Division within the CDE or the Chief of the School Property Evaluation and Cleanup Division within the Department of Toxic Substances Control certify to the OPSC that the district's application was delayed for a specified number of calendar days in relation to other similar applications submitted to that agency at the same time, the application may, at the discretion of the Board, receive a date on the Unfunded List or receive funding pursuant to Section 1859.91 based on the date the application is Ready for Apportionment, adjusted back in time for the number of calendar days the application was delayed.

Applications for New Construction Adjusted Grants for a project where the site was apportioned pursuant to Section 1859.75.1 shall receive a date on the Unfunded List based on the date the environmental hardship site apportionment was made for the project.

With the exception of financial hardship eligibility, a district with an application included on an Unfunded List shall not be required to re-establish eligibility for that application prior to apportionment.

An application for funding included on an Unfunded List is eligible for reimbursement subject to adjustments in the New Construction Grants amount pursuant to Section 1859.77.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
6. Amendment of section and NOTE filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 filed 6-13-2001 (Register 2001, No. 24).
8. Amendment of first paragraph filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
9. Amendment filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

Article 11. Miscellaneous School Facility Program Requirements

§ 1859.100. Restricted On-Going and Major Maintenance Fund.

A district, regardless of size, shall certify on the *Application for Funding*, Form SAB 50-04 (Revised 09/01), that a restricted account within the district's general fund has been established for the exclusive purpose of providing on-going and major repair of its facilities, pursuant to Education Code Section 17070.75.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17070.75, Education Code.

HISTORY

1. New article 11 (sections 1859.100-1859.106) and section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New article 11 (sections 1859.100-1859.106) and section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. Amendment filed 7-12-99 as an emergency; operative 7-12-99 (Register 99, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-9-99 or emergency language will be repealed by operation of law on the following day.
4. New article 11 (sections 1859.100-1859.106) and section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
6. Certificate of Compliance as to 7-12-99 order, including further amendments, transmitted to OAL 11-5-99 and filed 12-22-99 (Register 99, No. 52).
7. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
8. Amendment filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
10. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
12. Amendment filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
13. Amendment of section filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
14. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
15. Amendment filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.101. Districts that are Exempt from the Specified Annual Deposit.

A district, including a county superintendent of schools, that is not required to make a specified annual deposit into the restricted maintenance account as provided in Education Code Section 17070.75 must certify on the *Application for Funding*, Form SAB 50-04 (Revised 09/01), that the district can maintain its facilities with a lesser annual deposit.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17070.75, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. Amendment filed 7-12-99 as an emergency; operative 7-12-99 (Register 99, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-9-99

or emergency language will be repealed by operation of law on the following day.

4. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
6. Certificate of Compliance as to 7-12-99 order, including further amendments, transmitted to OAL 11-5-99 and filed 12-22-99 (Register 99, No. 52).
7. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
8. Amendment filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
9. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
10. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
12. Amendment filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
13. Amendment of first paragraph filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
14. Amendment of first paragraph filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
15. Amendment of section and NOTE filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.102. Maintenance Plan.

A district shall certify on the *Application for Funding*, Form SAB 50-04 (Revised 09/01), that it has developed and implemented an on-going and major maintenance plan in accordance with Education Code Section 17070.75 and 17070.77. In each fiscal year following the fiscal year in which the district received funds as a result of an application funded on or after January 1, 2002, the district shall certify that the plan has been reviewed and updated as required in Education Code Section 17070.77. The certification shall be made on the Deferred Maintenance Five Year Plan, which shall be required annually from those districts receiving such funding.

Any maintenance plan developed in accordance with Education Code Section 17070.75(b)(3) shall be deemed to meet the requirements for an additional basic apportionment as provided under Education Code Section 17585.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.75 and 17070.77, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. Amendment of first paragraph filed 7-12-99 as an emergency; operative 7-12-99 (Register 99, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-9-99 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
6. Certificate of Compliance as to 7-12-99 order, including further amendments, transmitted to OAL 11-5-99 and filed 12-22-99 (Register 99, No. 52).
7. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
8. Amendment of first paragraph filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.

9. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
10. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
12. Amendment filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
13. Amendment of first paragraph filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
14. Amendment of first paragraph filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
15. Amendment of section and NOTE filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.103. Savings.

A district may expend the savings not needed for a project on other high priority capital facility needs of the district. Savings may be declared by the district in writing to the OPSC any time after the release of all funds for the project.

The State's portion of any savings declared by the district or determined by the OPSC by audit must be used to reduce the SFP financial hardship grant of that project or other financial hardship projects within the district for a period of three years from the date the savings were declared by the district or determined by the OPSC audit. The State's portion of any savings from a new construction project may be used as a district matching share requirement, only on another new construction project, and the State's share of any savings from a modernization project may be used as a district matching share requirement, only on another modernization project.

Any interest earned on a financial hardship project will be treated as savings and will be used to reduce the SFP financial hardship grant for that project.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17070.63, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. New third paragraph filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 1859.104. Program Reporting Requirements.

A district receiving funds in accordance with the Act shall submit the following:

(a) An expenditure report from the district on the *Expenditure Report*, Form SAB 50-06 (Revised 01/00), which is incorporated by reference. The program reporting requirements are as follows:

(1) The first expenditure report shall be due one year from the date that any funds were released to the district for the project pursuant to Section 1859.90, or upon completion of the project, whichever occurs first. A project shall be deemed complete when either of the following occur:

(A) When the notice of completion for the project has been filed, all outstanding invoices, claims, change orders have been satisfied and the facility is currently in use by the district.

(B) Three years from the date of the final fund release for an elementary school project or four years from the date of the final fund release for a middle or high school project.

(2) The second and subsequent expenditure reports, if necessary, shall be due annually beginning one year from the first report, or upon comple-

tion of the project, whichever occurs first. The final expenditure report must be made no later than three years from the date of the final fund release for an elementary school project or four years from the date of the final fund release for a middle or high school project.

(b) With the exception of projects that qualify for an apportionment pursuant to Section 1859.75.1, a progress report, in the form of a narrative from the district, shall be due 18 months from the date any funds were released to the district for the project pursuant to Section 1859.90. The progress report shall include information regarding the progress the district has made towards substantial completion of the project. If the funds were received in accordance with Section 1859.81.1(c) or the notice of completion has been filed within 18 months of the release of funds pursuant to Section 1859.90, or the expenditure reports required in (a)(1) or (2) indicate that substantial progress (as defined in Section 1859.105) on the project has occurred, no progress report is required.

(c) A progress report, in the form of a narrative from the district, shall be due 12 months from the date the site acquisition funds were apportioned to the district for the project pursuant to Section 1859.75.1. The progress report shall include information regarding the progress the district has made towards acquiring the site as outlined in Section 1859.105.1 and may contain other evidence of reasonable effort to substantiate progress towards acquiring the site for purposes of an extension of the site apportionment as authorized by Education Code Section 17072.13(c)(2).

NOTE: Authority cited: Sections 17070.35 and 17072.13, Education Code. Reference: Sections 17070.35, 17072.13 and 17076.10, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment of subsection (a) filed 3-13-2000; operative 4-12-2000 (Register 2000, No. 11).
6. Amendment of subsections (a) and (b), new subsection (c) and amendment of NOTE filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 1859.104.1. Material Inaccuracy Penalties.

When the Board makes a finding that a Material Inaccuracy occurred for a New Construction or Modernization Project, the district shall be subject to the following penalties:

(a) If the Material Inaccuracy finding occurred prior to the apportionment, the district shall be:

(1) Prohibited from self-certifying New Construction or Modernization Project information for a period of up to five years from the date the Board made the finding of Material Inaccuracy for the project. A prohibition from self-certification of project information may be less than five years as determined on a case-by-case basis by the Board.

(2) Required to file all New Construction and Modernization projects pursuant to Section 1859.104.2. for the time period required in subsection (a)(1).

(3) Subject to the fee prescribed by Section 1859.104.3.

(b) If the Material Inaccuracy finding occurred after the apportionment but no funds have been released for the project:

(1) The Board shall reduce the project apportionment by the additional funding received beyond the amount the district was entitled to for the project.

(2) The school district shall be prohibited from self-certifying New Construction or Modernization Project information for a period of up to five years from the date the Board made the finding of Material Inaccuracy

for the project. A prohibition from self-certification of project information may be less than five years as determined on a case-by-case basis by the Board.

(3) The school district shall be required to file all New Construction and Modernization Projects pursuant to Section 1859.104.2 for the time period required in subsection (b)(2).

(4) The school district shall be subject to the fee prescribed by Section 1859.104.3.

(c) If the Material Inaccuracy finding occurred after the apportionment and funds were released for the project, the district:

(1) Must repay the additional funding received beyond the amount the district was entitled to for the project with interest within five years from the date the Board made the finding of Material Inaccuracy. Interest shall be assessed as prescribed in Education Code Section 17070.51(b)(1).

(2) Shall be prohibited from self-certifying New Construction or Modernization Project information for a period of up to five years from the date the Board made the finding of Material Inaccuracy for the project. A prohibition from self-certification of project information may be less than five years as determined on a case-by-case basis by the Board.

(3) Shall be required to file all New Construction and Modernization Projects pursuant to Section 1859.104.2 for the time period required in subsection (c)(2).

(4) Shall be subject to the fee prescribed by Section 1859.104.3.

(d) The Board may direct that adjustments to the school district's New Construction or Modernization baseline eligibility be made pursuant to Sections 1859.51 and 1859.61 based on the determination of Material Inaccuracy.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17070.51, Education Code.

HISTORY

1. New section filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.104.2. Self-Certification Prohibition.

If the Board has made a finding of Material Inaccuracy pursuant to Section 1859.104.1, the OPSC may request supporting documentation as it deems appropriate for any application filed after a finding of material inaccuracy for the time prescribed in 1859.104.1(a)(1), (b)(2) or (c)(2).

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17070.51, Education Code.

HISTORY

1. New section filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.104.3. Self-Certification Prohibition Processing Fee.

If the Board has made a finding of Material Inaccuracy pursuant to Section 1859.104.1, the Board shall charge the district an amount of \$100 per hour for the additional hours necessary to process and review the district's applications submitted during the timelines prescribed in 1859.104.2(a)(1), (b)(2) or (c)(2). The maximum hours subject to the fee per application is the greater of 50 hours or one percent of the enrollment of the district as reported in Part A, the continuation high pupils reported in Part B, and the special day class pupils reported in Part C of the latest *Enrollment Certification/Projection*, Form SAB 50-01 (Revised 07/01). The Board will not make a release of funds for any project subject to the fee in this section until the fee has been remitted to the OPSC. All fees collected shall be deposited in the School Facility Fund and available for apportionment as directed by the Board.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Section 17070.51, Education Code.

HISTORY

1. New section filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

§ 1859.105. Program Accountability Progress Audit.

(a) When the district has received funds pursuant to Section 1859.70, the Board shall conduct a review to assure the district has made substantial progress in the completion of the project pursuant to Education Code Section 17076.10(b). The review shall consist of an analysis of the district's progress report in accordance with Section 1859.104(b). Sufficient evidence of substantial progress shall be any of the following:

(1) At least 75 percent of all site development work that is necessary prior to building construction activity is complete.

(2) At least 90 percent of the building construction activities are under contract, unless the building construction activities are delayed as a result of necessary site development work.

(3) All construction activities are at least 50 percent complete.

(4) Other evidence satisfactory to the Board of circumstances beyond the control of the district that precludes substantial progress being made.

(b) When the district has received funds pursuant to Section 1859.81.1(a), the Board shall conduct a review to assure the district has made substantial progress in the completion of the project. The audit shall consist of a review and analysis of the district's progress report in accordance with Section 1859.104(b). Acceptable evidence of substantial progress shall be when the district has completed all of the following:

(1) Obtained the final appraisal of the site.

(2) Completed all California Environmental Quality Act requirements.

(3) Obtained final approval of the site by the CDE.

(4) Provided final escrow instructions or evidence the district has filed condemnation proceedings and intends to request an order of possession of the site.

(c) When the district has received funds pursuant to Section 1859.81.1(c), the Board shall conduct a review to assure the district has made substantial progress in the completion of the project. Sufficient evidence of substantial progress shall be submittal of an Approved Application.

After the Board has received the progress report required in Section 1859.104(b) for items (a) and (b) above, a review and analysis of the report by the OPSC will be made for compliance with this Section within 60 days of the submittal of the report by the district. The OPSC must notify the district within 60 days of the submittal of the report if it intends to recommend to the Board that no substantial progress has been made on the project. If the OPSC does not respond to the district within 60 days of submittal of the report, the OPSC concurs with the district that substantial progress has been made.

Should the OPSC respond within 60 days of submittal of the progress report by the district that no substantial progress has been made or the district fails to submit the progress report within the timelines in Section 1859.104 (b) for items (a) or (b) above or the district has not filed an Approved Application for funds received pursuant to Section 1859.81.1(b), the district must report the final expenditures on the project on the *Expenditure Report Form*, SAB 50-06 (Revised 07/00), to the OPSC within 60 days of the OPSC notification. After receipt of the expenditure report, the OPSC will recommend to the Board that a finding be made that no substantial progress on the project has been made and that the apportionment be reduced, after accounting for the district's matching share, by any funds not yet committed by a contract for the project and any interest earned on State funds for the project. The recommendation will be made at the next regularly scheduled Board meeting. If the expenditure report is not received within the 60 day period, the OPSC will recommend that the apportionment be rescinded and any interest earned on State funds be returned to the State.

If the apportionment is reduced or rescinded as a result of a finding by the Board that no substantial progress has been made on the project, the pupils assigned to the project will be added to the district's baseline eligibility. If the apportionment was reduced, the adjustment to the baseline eligibility shall reflect any funding retained by the district based on the New Construction or Modernization Adjusted Grant funding provided for the project. The district may refile a new application for the project subject to district eligibility and priority funding at the time of resubmittal.

NOTE: Authority cited: Sections 17070.35 and 17072.13, Education Code. Reference: Sections 17070.35 and 17076.10, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99

or emergency language will be repealed by operation of law on the following day.

2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.

3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.

4. Certificate of Compliance as to 7-29-99 order, including amendment of section, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).

5. Amendment of third paragraph of subsection (d) filed 3-13-2000; operative 4-12-2000 (Register 2000, No. 11).

6. Amendment of section and NOTE filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

7. Amendment of subsection (c) and penultimate paragraph filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.

8. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).

9. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.

10. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).

§ 1859.105.1. Program Accountability Environmental Hardship.

(a) When the district has received funds pursuant to Section 1859.75.1, the Board shall conduct a review to assure the district has made progress towards acquisition of the site pursuant to Education Code Section 17072.13(c)(2). The review shall consist of an analysis of the district's progress report in accordance with Section 1859.104(c). Acceptable evidence of substantial progress shall be when the district has completed all of the following:

(1) Obtained the final appraisal of the site.

(2) Completed all California Environmental Quality Act requirements.

(3) Obtained final approval of the site by the CDE.

(4) Provided final escrow instructions or evidence the district has filed condemnation proceedings and intends to request an order of possession of the site.

After the Board has received the progress report required in Section 1859.104(c) a review and analysis of the report by the OPSC will be made for compliance with this Section within 60 days of the submittal of the report by the district. The OPSC must notify the district within 60 days of the submittal of the report if it intends to recommend to the Board that the district has not made progress towards acquiring the site. If the OPSC does not respond to the district within 60 days of submittal of the report, the OPSC concurs with the district that it has made progress to the site acquisition.

Should the OPSC respond within 60 days of submittal of the progress report by the district that no progress has been made towards site acquisition or the district fails to submit the progress report within the timelines in Section 1859.104(c), the OPSC will recommend at the next available Board meeting that the site apportionment for the project be rescinded and that any interest earned on State funds be returned to the State. If the apportionment is rescinded as a result of a finding by the Board that no progress has been made towards acquiring the site, the pupils assigned to the project will be added to the district's baseline eligibility.

(b) The district may request one-year extensions of the site apportionment as authorized by Education Code Section 17072.13(c)(2). Acceptable criteria for approval of an extension are any of the following:

(1) The district has received letters from the DTSC and the CDE that indicate the agency concurs that the district is making reasonable progress towards acquisition of the site.

(2) Other reasonable evidence of effort the district has made towards acquiring the site as approved by the Board.

NOTE: Authority cited: Sections 17070.35 and 17072.13, Education Code. Reference: Sections 17070.35, 17072.13 and 17076.10, Education Code.

HISTORY

1. New section filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).

§ 1859.106. Program Accountability Expenditure Audit.

The projects will be audited to assure that the expenditures incurred by the district were made in accordance with the provisions of Education Code Section 17072.35 for new construction projects and Education Code Section 17074.25 and Section 1859.79.2 for modernization projects. The audit will also assure that the district complied with all site acquisition guidelines as provided in Sections 1859.74, 1859.74.1, 1859.74.2, 1859.74.4, 1859.75 and 1859.75.1.

An adjustment in the SFP grant will be made for the following:

(a) The difference in the value of site and the hazardous waste removal costs that were used to determine the New Construction Additional Grant and the actual amount paid by the district for the site, the relocation cost, the DTSC fee, and the costs for hazardous waste materials removal.

(b) For 50 percent of any insurance proceeds collectable by the district for displaced facilities and 50 percent of the net proceeds available from the disposition of displaced facilities pursuant to Section 1859.82(a) or (b).

(c) The difference in the hazardous waste removal costs that was used to determine the New Construction Additional Grant for Hazardous Waste Removal on an Existing Site and the actual amount paid by the district for the allowable cost for hazardous waste removal.

When the OPSC receives the final expenditure report from the district on *Expenditure Report*, Form SAB 50-06 (Revised 01/00), an audit of the expenditures by the OPSC shall commence within two years of the report. If the district is not notified by the OPSC within the two-year period that an audit will be made, there will be no audit of the project by the OPSC and the expenditures reported by the district shall be deemed appropriate. If the district has been notified that an audit of the expenditures will be made by the OPSC, the OPSC shall complete the audit within six months of the notification, unless additional information requested from the district has not been received.

Districts shall be required to maintain all appropriate records that support all district certifications and expenditures for all costs associated with SFP projects for a period of not less than four years from the date the notice of completion is filed for the project in order to allow other agencies, including, without limitation, the Bureau of State Audits and the State Controller to perform their audit responsibilities.

Should the OPSC conduct an audit of the district certifications or the expenditures for the project and make a finding that some or all of the expenditures were not made in accordance with the provisions of Education Code Section 17072.35 for new construction projects and Education Code Section 17074.25 and Section 1859.79.2 for modernization projects, the OPSC shall recommend to the Board that the apportionment be adjusted based on the audit findings. Upon adoption of the audit findings by the Board, the district must submit a warrant for any amount identified as being owed within 60 days of the Board action. If this does not occur, the OPSC shall initiate collection procedures from the School Fund Apportionment as outlined in Education Code Section 17076.10(c).

Should the CDE make a finding that a project did not meet the standards that were adopted by the CDE pursuant to Education Code Section 17251(b) and (c) when the district had self-certified that the project met those standards pursuant to Education Code Section 17070.50(b), the Board may request that the CDE make a recommendation that the apportionment for the project be adjusted based on the CDE finding. Any adjustment in the apportionment shall be based on the percentage of space on the project that the CDE determined did not meet those standards. Upon adoption of the finding by the Board, the district must submit a warrant for any amount identified as being owed within 60 days of the Board action. If this does not occur, the OPSC shall initiate collection procedures from the School Fund Apportionment as outlined in Education Code Section 17076.10(c).

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.35, 17070.50, 17072.18, 17072.35, 17074.25, 17076.10 and 17251, Education Code.

HISTORY

1. New section filed 12-3-98 as an emergency; operative 12-3-98 (Register 98, No. 49). A Certificate of Compliance must be transmitted to OAL by 4-2-99 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 3-31-99 as an emergency; operative 3-31-99 (Register 99, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-29-99 or emergency language will be repealed by operation of law on the following day.
3. New section refiled 7-29-99 as an emergency; operative 7-29-99 (Register 99, No. 31). A Certificate of Compliance must be transmitted to OAL by 11-26-99 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 7-29-99 order, including amendment of section and NOTE, transmitted to OAL 8-26-99 and filed 10-8-99 (Register 99, No. 41).
5. Amendment of third paragraph filed 3-13-2000; operative 4-12-2000 (Register 2000, No. 11).
6. Amendment filed 6-26-2000; operative 6-26-2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 26).
7. Amendment of section and NOTE filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).

§ 1859.107. Amending and Withdrawal of Applications.

A funding application that received an apportionment under Chapter 12 or Chapter 12.5 may not be rescinded and re-approved under the provisions of any amended law or administrative regulation unless specifically authorized by other applicable law.

A funding application that has received an approval pursuant to Section 1859.95, but has not received an apportionment, may receive an adjustment as allowed under Regulation 1859.71 or 1859.78 at the time the apportionment is made. No other adjustments may be made, including those resulting from changes to the regulations prior to final funding by the SAB. As an alternative, the application may be withdrawn and resubmitted for SAB approval under the provisions of any amended or new regulation that becomes effective prior to the apportionment for the project. The district must first request from the OPSC that the application be withdrawn and removed from the Unfunded List. The district may then resubmit the application to the OPSC under the provisions of the amended or new regulation once it is effective. The resubmitted application will receive a new processing date by the OPSC.

Any application for eligibility determination that has received an approval may be amended to comply with provisions of an amended or new regulation once it is effective. The amended application will receive a new processing date by the OPSC.

A funding application submitted to the OPSC that has not received an approval will receive funding under the provisions of the regulations that were in effect when the application was submitted to the OPSC. At the option of the district, a funding application submitted to the OPSC that has not received an approval may be withdrawn and resubmitted for SAB approval under the provisions of any amended or new regulation once it is effective. The district must request that the application be withdrawn and removed from the OPSC workload list. The resubmitted application will receive a new processing date by the OPSC.

Any application for eligibility determination that has not received an approval may be amended at any time to conform to an amended or new regulation. The application shall retain its OPSC processing date.

Any application for new construction eligibility determination that has received an approval must be amended to conform to Regulation Section 1859.51(l) prior to submittal of an *Application For Funding*, Form SAB 50-04 (Revised 09/01).

Any application for new construction eligibility determination that has not received an approval must be amended to conform to the *Existing Building Capacity*, Form SAB 50-02 (Revised 07/01) and the *Eligibility Determination*, Form SAB 50-03 (Revised 07/01) prior to submittal of an *Application For Funding*, Form SAB 50-04 (Revised 09/01).

Any application for modernization eligibility determination that has received an approval must be amended to conform to Regulation Section

1859.61(g) prior to submittal of an *Application For Funding*, Form SAB 50-04 (Revised 09/01).

Any application for modernization eligibility determination that has not received an approval must be amended to conform to the *Eligibility Determination*, Form SAB 50-03 (Revised 07/01) prior to submittal of an *Application For Funding*, Form SAB 50-04 (Revised 09/01).

Districts that have received an approval of eligibility on a HSAA or Super HSAA are not required to re-establish eligibility under the provisions of Section 1859.41(a).

Districts that have requested eligibility determination on a HSAA or Super HSAA that have not received an approval must comply with the provisions of Section 1859.41(a) prior to submittal of an *Application for Funding*, Form SAB 50-04 (Revised 09/01). The amended eligibility application shall retain its original OPSC processing date.

A district that has received an approval of its eligibility determination on a district-wide, HSAA or Super HSAA basis, but received no New Construction Grants, may re-file on another eligibility determination basis provided it withdraws all previously submitted *Application for Funding*, Form SAB 50-04 (Revised 09/01) requests for New Construction Grants, including those on the Unfunded List.

NOTE: Authority cited: Section 17070.35, Education Code. Reference: Sections 17070.35 and 17070.63, Education Code.

HISTORY

1. New section filed 3-13-2000; operative 4-12-2000 (Register 2000, No. 11).
2. Amendment adding four paragraphs at end filed 7-17-2000 as an emergency; operative 7-17-2000 (Register 2000, No. 29). A Certificate of Compliance must be transmitted to OAL by 11-14-2000 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 7-17-2000 order transmitted to OAL 11-9-2000 and filed 12-27-2000 (Register 2000, No. 52).
4. Amendment filed 1-2-2001 as an emergency; operative 1-2-2001 (Register 2001, No. 1). A Certificate of Compliance must be transmitted to OAL by 5-2-2001 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 1-2-2001 order transmitted to OAL 5-1-2001 and filed 6-13-2001 (Register 2001, No. 24).
6. Amendment of last four paragraphs filed 7-25-2001; operative 7-25-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 30).
7. Amendment of last four paragraphs filed 8-13-2001; operative 8-13-2001 pursuant to Government Code section 11343.4 (Register 2001, No. 33).
8. Amendment filed 4-10-2002; operative 4-10-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 15).
9. Amendment filed 5-2-2002; operative 6-1-2002 (Register 2002, No. 18).

Subgroup 5.6. Regulations Relating to the Federal School Renovation Program (Federal School Repair and Renovation Program)

Article 1. General Provisions and Definitions

§ 1859.200. Purpose.

These regulations implement the Federal School Repair and Renovation Program, which establish a grant program to administer federal funds to Local Education Agencies authorized by Section 1(a)(1), United States Department of Education Consolidated Appropriations Act of 2001 (Public Law 106-554).

NOTE: Authority cited: Sections 15502 and 15503, Government Code; and Section 12300, Education Code. Reference: Section 321, Public Law 106-554.

HISTORY

1. New subgroup 5.6 (articles 1-5, sections 1859.200-1859.220), article 1 (sections 1859.200-1859.202) and section filed 3-15-2002 as an emergency; operative 3-15-2002 (Register 2002, No. 11). A Certificate of Compliance must be transmitted to OAL by 7-15-2002 or emergency language will be repealed by operation of law on the following day.

§ 1859.201. Director of General Services.

The Director of General Services, or the Director's legal designee shall perform all acts necessary to carry out the provisions of these regulations except such functions as are reserved to the Board and to other agencies by law or by Sections 1859.200 through 1859.220 inclusive. The acts to be performed include, but are not limited to, entering into contracts to administer the regulations.

NOTE: Authority cited: Sections 15502 and 15503, Government Code; and Section 12300, Education Code. Reference: Section 321, Public Law 106-554.

HISTORY

1. New section filed 3-15-2002 as an emergency; operative 3-15-2002 (Register 2002, No. 11). A Certificate of Compliance must be transmitted to OAL by 7-15-2002 or emergency language will be repealed by operation of law on the following day.

§ 1859.202. Definitions.

For the purpose of these regulations, the terms set forth below shall have the following meanings, subject to the provisions of the law:

"ADA" means the federal Americans with Disabilities Act of 1990 codified in Section 12101 et seq. Title 42, United States Code.

"Administration Costs" means the costs associated with the preparation and submittal of the Federal Renovation Program application to the State and the costs necessary to assure all state application requirements have been met.

"Apportionment" means a reservation of funds by the Board for eligible Federal Renovation Program applications.

"Board" means the State Allocation Board as established by Section 15490 of the Government Code.

"CBEDS Report" means the enrollment information provided through the California Basic Education Data System by the Local Educational Agency to the California Department of Education.

"Charter School" means a school established in accordance with the provisions of Education Code Sections 47605 through 47608.

"Community School Pupil" means a pupil meeting one or more of the conditions described in Subdivision (b) of Education Code Section 48662 or any of the conditions described in Education Code Section 1981.

"Deferred Maintenance Program (DMP)" means the state deferred maintenance funding authorized by Education Code Sections 17582 through 17588.

"DMP Critical Hardship Unfunded List" means an information list of critical hardship projects authorized by Education Code Section 17587 approved by the Board.

"Federal Renovation Program (FRP)" means the Federal School Repair and Renovation Program authorized by Section 1(a)(1), United States Department of Education Consolidated Appropriations Act of 2001 (Public Law 106-554).

"High Poverty Local Educational Agency" means an LEA that has at least 30 percent of its pupils defined as Poor Children or has at least 10,000 of its pupils defined as Poor Children.

"Impacted LEA" means an LEA that meets the requirements of Section (a)(3) of the United States Department of Education Consolidated Appropriations Act of 2001 (Public Law 106-554).

"Local Educational Agency" means an entity that meets the requirements of Section 14101(18)(A) or (B) of the federal Elementary and Secondary Education Act of 1965.

"Mello-Roos Bonds" means the bonds that are authorized under the provisions of the Mello-Roos Community Facilities Act of 1982, commencing with Government Code Section 53311.

"Office of Public School Construction (OPSC)" means the State office within the Department of General Services that assists the Board as necessary and administers the FRP on behalf of the Director.

"OPSC Deferred Maintenance Program Critical Hardship Workload List" means a list of critical hardship applications authorized by Education Code Section 17587 submitted to the OPSC but not yet included on the DMP Critical Hardship Unfunded List.

"OPSC Modernization Workload List" means a list of SFP modernization projects for which the LEA has submitted all necessary application

(b) The aware of a bid may be made only to a licensed mover having adequate equipment for the purpose and experienced in the moving of similar structures.

§ 1861.17. Option of State to Enter Into Moving Contracts with Vendors or Other Movers.

(a) Except in cases where the Board determines otherwise, any district, to whom portables which are reposing in the district of a former lessee are leased, shall dismantle and move the same at its own expense from where they are situated. However, such district shall receive a credit for such expenses against the rental it would be obliged to pay during the lease period immediately following the moving. In the event the aforesaid credit exceeds the amount of such rental, no reimbursement will be paid the district by the State.

(b) Notwithstanding the foregoing, if the Board deems it more advantageous to the State, it may authorize the Executive Officer, after consultation with the State Traffic Manager, to enter into moving contracts with vendors or other movers for the moving of particular portables (or portables generally) acquired pursuant to Article 5 provided that, in the event it exercises such option, nothing herein shall be construed as preventing the Board from recouping any of the costs of such moving through rentals of said portables to districts affected by this article.

§ 1861.18. Removal of Portable Facilities.

(a) Facilities leased by the Board for location on a particular site shall not be removed for any purpose from said site without the approval of the Board.

§ 1861.19. Storage of Buildings by District Pending Next Lease.

(a) The Executive Officer shall include in any lease agreement with a district otherwise authorized by the Board a provision that the lessee shall allow buildings leased to remain on its premises free of cost to the State, after the expiration of its lease and prior to the time the next lessee of such buildings agrees to remove the same, provided that nothing herein shall be construed to prevent the district on which such buildings are to remain in the interim to use them during such period, if permitted by the terms of the State's agreement therewith.

§ 1861.20. Maintenance and Repair Costs Not Otherwise Provided by District.

(a) Where no district is obligated to provide for the maintenance and repair of portable buildings, or if so obligated fails to do so, the Executive Officer is authorized to expend such sums as he deems appropriate for that purpose from funds appropriated pursuant to this chapter, provided that nothing herein shall be construed to relieve any district from any obligation arising out of any contract entered into pursuant to this chapter.

Article 9. Miscellaneous Provisions

§ 1861.21. Leases Discretionary with Respect to Any Particular School District.

(a) Subject to the provisions of these rules, and in particular to Section 1861.3 thereof, whether a lease shall be entered into with respect to any particular school district, and the provisions of said lease, are within the discretion of the Board.

§ 1861.22. Affidavits of Vendors Regarding Security Interests; Discharge of Same.

(a) No funds shall be authorized by the Executive Officer for the purchase of portable units (including furnishings contained therein) unless the vendor files an affidavit with the Executive Officer in close proximity to the time of the proposed transfer of funds by the State that there are no chattel mortgages, title retentions, security interest, or liens of any kind against such property, recorded or unrecorded, and that he has no knowledge of any that will be given or obtained. In the event that such affidavit cannot be furnished because of the existence of security interests or li-

of any kind, suitable provisions shall be made by the vendor for the release of such security interests prior to or at the time of the payment to such vendors.

§ 1861.23. Insurance.

(a) The Executive Officer may insure in the name of the State, through the insurance adviser of the Department of General Services, portable buildings belonging to the State against vandalism, theft of furnishings, and damage in transit (and against such other risks as he deems advisable, except fire insurance prohibited under the terms of Section 11007 of the Government Code) to such extent and in such amounts as the Executive Officer deems appropriate.

HISTORY

1. Editorial correction of section number (Register 80, No. 26).

§ 1861.24. Actions of the Board to Be Deemed to Embody Provisions of Resolution Forms Approved by It for That Purpose.

(a) Actions of the Board pursuant to Article 5 shall be deemed to incorporate all of the provisions of the resolution form adopted by the Board for the purposes of such action. The Executive Officer shall utilize such resolution form in advising the affected school district of the Board action, but is authorized to modify such form before transmitting it to the district to the extent the specific action of the Board is inconsistent with such form.

HISTORY

1. Editorial correction of section number (Register 80, No. 26).

§ 1861.25. Exceptions.

(a) Exceptions may be made to these regulations where the board finds that the application thereof would be inequitable in practice or would result in an undue hardship on the pupils of the district affected.

Subgroup 8. Children's Center Construction Aid

HISTORY

1. Repealer of Subgroup 8 (Sections 1862-1862.14) filed 12-30-76; effective thirtieth day thereafter (Register 77, No. 1). For prior history see Register 69, Nos. 2, 15, 25, 42, and 50.

Subgroup 8.5. Emergency School Classroom Law of 1979

Article 1. Definitions

§ 1862.50. Definitions.

(a) For the purposes of these regulations, the terms set forth below shall have the following meanings:

Chapter 25. Chapter 25, Part 10, Education Code.

Board. State Allocation Board.

Executive Officer. Executive Officer of the State Allocation Board.

Eligible District Any school district or county superintendent of schools which demonstrates a need for additional classroom facilities in accordance with priorities established by the Board.

Portable Classrooms. Single classroom factory-built buildings which are constructed in accordance with performance specifications adopted by the Board.

Authorized Agent. A person authorized to act on behalf of the governing board of the eligible district in matters relating to an application for lease of portable classrooms.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

HISTORY

1. New Subgroup 8.5 (Sections 1862.50-1862.56) filed 8-23-79; effective thirtieth day thereafter (Register 79, No.34). A Certificate of Compliance must be filed within 120 days or emergency language will be repealed on 12-21-79.

2. Certificate of Compliance transmitted to OAH 12-19-79 and filed 1-17-80 (Register 80, No. 3)

Article 2. Acquisition of Portable Classrooms

§ 1862.51. Acquisition of Portable Classrooms by the Board.

(a) The Board may from time to time as it determines the need in accordance with priorities adopted herein authorize the Office of Procurement of the Department of General Services to acquire portable classrooms the Board deems will be required by eligible school districts for up to the next twelve months.

For each portable classroom so acquired a minimum of furniture and equipment necessary to make the classroom functional may be acquired by the Board. The buildings shall be placed on the school site and connected to the nearest electrical energy source at State expense.

2. Repealer filed 3-13-96 as an emergency; operative 3-13-96 (Register 96, No. 11). A Certificate of Compliance must be transmitted to OAL by 7-11-96 or emergency language will be repealed by operation of law on the following day.

3. Certificate of Compliance as to 3-13-96 order transmitted to OAL 6-14-96 and filed 7-23-96 (Register 96, No. 30).

Article 3. Applications for Lease

§ 1862.52. Form of Application.

(a) Applications for lease of portable classrooms pursuant to Chapter 25, shall contain the following:

A resolution on forms provided by the Board, by the governing board of the eligible district authorizing the filing of an application and the signing of a lease agreement or agreements for such numbers of portable classrooms as the Board may approve. The leases shall contain such terms and conditions as are required by existing law and by these regulations. A completed application on forms provided by the Board.

Layout plans clearly showing the location on the site of the proposed portable classroom buildings as well as the location of existing buildings.

Certification by the authorized agent that the district has hired or will hire a teacher for each portable classroom leased to the district for the term of the lease.

A certification or other evidence, satisfactory to the Board, that the district has no available bond proceeds which could be used for the purchase of classroom facilities.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

HISTORY

1. Amendment filed 10-31-86; effective thirtieth day thereafter (Register 86, No. 44).

Article 4. Lease Agreements

§ 1862.53. Lease Agreements.

Lease agreements executed by the authorized agent of the school district shall be subject to such conditions as may be required by the board in addition to the following:

A year to year renewable term beginning September 1 and ending August 31 of each year.

Lease payments of \$2,000 per year for each portable classroom. The first year rental shall be prorated on a 12 month basis from the date of installation to the following August 31. Payments are to be made upon execution or renewal of each lease.

The district shall be required at its own expense to provide a near flat surface, not exceeding 9 inches in grade from the highest to the lowest point, for placement of each portable classroom. Access to the site shall also be provided by the district at its own expense.

The district shall be responsible to the State for any damages occurring to the portable classrooms and shall keep them insured, at its own expense, to the benefit of the State, at all times against fire and lightning, with extended coverage, and vandalism and malicious mischief, for the full insurable value of the property less any deductible amount for which the district is willing to accept such responsibility. The district shall at its own expense undertake all necessary maintenance repairs, renewal and replacement to ensure that the portable classrooms, furniture and equipment are at all times kept in good repair, working order and condition.

The district shall hold the State of California harmless from any claims asserted against the State by virtue of alleged negligence of the district or third parties in the operation or maintenance of portable classrooms.

Facilities leased by the Board for location on a particular site may not be altered, relocated or removed from the site without approval of the Board, nor shall any interest held by the district under this lease be assignable.

Upon expiration of a lease, the district shall allow buildings covered by such lease to remain in place on the site free of cost to the State for a period not to exceed 120 days, pending removal by the State.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

HISTORY

1. Amendment filed 10-31-86; effective thirtieth day thereafter (Register 86, No. 44).

Article 5. Priorities

§ 1862.54. Priorities.

Portable classrooms shall be approved and made available to those districts in the following order:

(a) A demonstrated need based upon loading all existing classrooms in the district with the average class sizes shown below using a one year projection of the district's current enrollment converted to average daily attendance by a .97 factor:

	Average Class Sizes:		
Kindergarten	55 *	9-12	27
1-8	30	Special Education	10 **

* If the district's kindergarten has traditionally met as single session, load at 27 (provide documentation with application/worksheet).

** Alternative loading utilizing average class sizes shown in Board regulation 1865.34 of Title 2, Div. 2, Ch. 3, Subch. 4, Group 1, may be used.

(b) A demonstrated need based upon approval of a new construction project on a districtwide basis pursuant to the Lease Purchase Law of 1952⁶ Said district shall be eligible to lease at least the same number of

emergency portable classrooms as approved new teaching stations under the Lease-Purchase Program if the need for applications filed pursuant to subdivision (a) has been met for a period of at least 30 days.

(c) A demonstrated need based upon approval of a new construction project on a High School Attendance Area basis pursuant to the Lease-Purchase Law of 1976. Said district shall be eligible to lease at least the same number of emergency portable classrooms as approved new teaching stations under the Lease-Purchase Program provided a determination has been made by the Board that no portable facilities are available in other High School Attendance Areas within the district which could be economically and practicably utilized as emergency classroom facilities and the need for applications filed pursuant to subdivision (b) has been met for a period of at least 30 days.

(d) A district that is not otherwise eligible pursuant to (a), (b), or (c) and agrees to hire an additional teacher for each additional portable classroom placed in the district and the need for applications filed pursuant to subdivision (c) has been met for a period of at least 30 days.

NOTE: Authority cited: Section 15503, Government Code; and Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

HISTORY

1. Amendment filed 8-7-86; effective thirtieth day thereafter (Register 86, No. 32).

Article 6. Miscellaneous Provisions

§ 1862.55. Maintenance and Repair Costs Not Otherwise Provided by District.

(a) Where a district is not obligated to provide for the maintenance and repair of portable buildings, or if obligated and fails to do so, the Executive Officer is authorized to expend such sums as he deems appropriate for that purpose from funds appropriated pursuant to this chapter, provided that nothing herein shall be construed to relieve any district from any obligation arising out of any contract entered into pursuant to this chapter.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

§ 1862.56. Exceptions.

(a) Exceptions may be made to these regulations where the Board finds that the application thereof would be inequitable in practice or would result in an undue hardship on the pupils of the district affected.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

Subgroup 9. School Housing Aid for Rehabilitation and Replacement of Structurally Inadequate School Facilities

Article 1. Definitions

§ 1863.1. Definitions.

(a) In connection with the administration of the provisions of Article 9, Chapter 8, Part 10, Division 1, Education Code, and for the purposes of these regulations, the terms set forth below shall have the following meanings:

(1) The Act. Article 9, Chapter 8, Part 10, Division 1, Education Code.

(2) Application. A request for an apportionment for a specific purpose, or purposes, as provided by the Act and these regulations, on forms prescribed by the State Allocation Board, properly executed, together with such other information as may be required.

(3) Apportionment or Conditional Apportionment. Amount of State funds apportioned by the Board for purposes of the application. This

amount is based on the formula in Section 16330 of the Education Code. The ratio of State and district matching funds will remain fixed for all apportionments for each application as the ratio established when the application is approved.

(4) Assessed Valuation. For the purposes of determining the basic computed State matching ratio of assistance under Section 16330, the modified assessed valuation for the preceding fiscal year as determined in accordance with Sections 41200, et seq. of the Education Code.

(5) Authorized Agent. An official or staff member of the school district or the office of the county superintendent of schools appointed and authorized by resolution of the governing board of the school district to represent that body in all matters pertaining to the Act other than those requiring action by the governing board of the school district.

(6) Board. The State Allocation Board.

(7) District. An applicant school district.

(8) Executive Officer. The Executive Officer of the State Allocation Board.

(9) Facility. All or a portion of any parcel of land, on or off-site improvement, utility, building or other building area, or furniture and equipment.

(10) Project. The purpose or purposes for which a school district has applied for an apportionment or apportionments under the provisions of the Act.

(11) Replacement. The acquisition or construction of a facility or facilities through an apportionment to replace all or a portion of a substandard school.

(12) Rehabilitation. The reconstruction, renovation, alteration and/or conversion of a substandard building.

(13) Sections. All sections referred to herein, unless the context indicates otherwise, shall be deemed to refer to sections of the Education Code.

(14) Substandard Building. A school building which, pursuant to a determination made by the Board, does not comply with the provisions of the Field Act (Sections 39140 through 39156, Education Code) and constitutes a threat to the safety of those using the facility because of structural instability.

(15) Grade Level. For the purposes of Section 16330, the grade level of a project application made by a high school district, including any project which contains grades 7 and 8, shall be deemed to be the high school grade level. The grade level of a project application made by an elementary school district, including any project which contains grades 7 and 8, shall be deemed to be the elementary grade level. The grade level of a project application made by a unified district shall be deemed to be the high school grade level for any project which includes grades 7 or 8 and any grades above, or the elementary school grade level if it contains any combination of grades below grade 9.

(16) Grade Level for the Purposes of Repayment Under Section 16335.2 The grade level for which an application is made, as defined in Subsection (15) preceding, and for which an apportionment is received, shall also be deemed to be the grade level operated by the district, within the meaning of Section 16335.

(17) "Expended" Funds Derived by Applicant From Taxes Levied under Section 39230. If a school district has been an applicant under Article 9 of Chapter 8 of Part 10 of the Education Code and has levied taxes pursuant to Section 39230 for the purpose of matching apportionments under said Article by the State Allocation Board, such funds shall be deemed to have been "expended" within the meaning of Section 39233, though not actually disbursed, so as not to require, pursuant to Subsection 39233(b), their application to reduce any outstanding Article 9 apportionments to the district where:

(i) Such funds are held or encumbered by the district for the purpose of discharging obligations under contracts entered or to be entered into

NOTE: Authority cited: Sections 39015–39018, Education Code. Reference: Section 39017, Education Code.

HISTORY

1. New section filed 4–24–75 as an emergency; effective upon filing (Register 75, No. 17).
Certificate of Compliance filed 8–1–75 (Register 75, No. 31).
2. Amendment of section and NOTE filed 4–29–77; effective thirtieth day thereafter (Register 77, No. 18).

Subgroup 11. Regulations Relating to the Leroy F. Greene State School Building Lease–Purchase Law of 1976

(Chapter 22, Part 10, Division 1, Education Code)

Article 1. Definitions

§ 1865.1. Definitions.

For the purpose of these regulations, the terms set forth below shall have the following meanings, subject to the provisions of the act:

- (a) The Act. Chapter 22, Part 10, of the Education Code.
- (b) Board. The State Allocation Board.
- (c) Executive Officer. The executive officer of the State Allocation Board.
- (d) Application. A request pursuant to the act to lease a project. Such request shall be on forms prescribed by the board, together with such other information as may be required by the executive officer.
- (e) District or Applicant School District. Any school district applying for a project or the county superintendent of schools qualifying as an applicant pursuant to Section 2553 of the Education Code.
- (f) District Representative. One or more individual members of the district's staff appointed by it as "district representative" to file an application with the board on behalf of the district and to act as liaison between the board and the district.
- (g) Agent of the Board. The applicant school district appointed by the board as its agent to perform specifically authorized acts necessary to construct and equip the project.
- (h) Facility. All or a portion of any real property, site improvement, utilities, buildings, or furniture and equipment contained in a project.
- (i) Lease Agreement with Option to Purchase. An agreement between an applicant school district and the State to lease with an option to purchase a project, as defined in the act, from the State.
- (j) Lease–Purchase Project. A project for which the district has or intends to enter into one or more lease agreements with option to purchase on a given site.
- (k) Reconstruction. Reconstruction for the purpose of Section 1721 shall be considered the substantial architectural alteration or modification of a building in order to bring it to modern educational standards.
- (l) Construction. Construction for purposes of Education Code Section 17702.1 shall include the correction of structural deficiencies in a school building previously constructed pursuant to Article 3 of Chapter 2 of Part 23 of Division 3 of Title 2 of the Education Code when it is determined by the Board that such deficiencies constitute a serious health and safety hazard.

NOTE: Authority cited: Section 17705, Education Code. Reference: Section 17702.1, Education Code.

HISTORY

1. New Subgroup 11 (Sections 1865.1–1865.95, not consecutive) filed 2–3–78; effective thirtieth day thereafter (Register 78, No. 5).
2. Amendment of subsections (e) and (g) filed 3–17–80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7–16–80.
Certificate of Compliance filed 6–26–80 (Register 80, No. 26).
4. New subsection (l) filed 5–4–81; effective thirtieth day thereafter (Register 81, No. 19).

Article 2. General Provisions

§ 1865.2. Purpose.

The purpose of these regulations is to prescribe the procedures necessary for the implementation and administration of the Leroy F. Greene State School Building Lease–Purchase Law of 1976 (hereinafter referred to as "the act").

§ 1865.3. What May Be Provided.

The act provides for the construction, reconstruction, or replacement of school facilities by the State Allocation Board under an agreement between a school district and the State.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700–17749, Education Code.

HISTORY

1. Amendment filed 3–17–80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7–16–80.
2. Certificate of Compliance filed 6–26–80 (Register 80, No. 26).

§ 1865.4. Qualifications.

Any school district may qualify to file an application for a lease–purchase project and enter into a lease agreement with option to purchase with the board, providing such applicant school district has sufficient building area entitlement as determined pursuant to the provisions of Article 4 of these regulations to justify the application being filed for new building construction or reconstruction.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700–17749, Education Code.

HISTORY

1. Repealer and new section filed 3–17–80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7–16–80.
2. Certificate of Compliance filed 6–26–80 (Register 80, No. 26).

§ 1865.5. Executive Officer.

The executive officer shall perform all acts necessary to carry out the provisions of the act except such functions as are reserved to the board and to other agencies by law or by these regulations.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700–17749, Education Code.

HISTORY

1. Amendment filed 3–17–80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7–16–80.
2. Certificate of Compliance filed 6–26–80 (Register 80, No. 26).

§ 1865.6. Limitation of State Responsibility.

In approving an application for a lease–purchase project and making funds available therefor, neither the State nor any department or agency thereof shall assume any responsibility not otherwise imposed on it by statute or these regulations.

§ 1865.7. References to Education Code Prior to Recodification of 1976.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700–17749, Education Code.

HISTORY

1. Repealer filed 3–17–80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7–16–80.
2. Certificate of Compliance filed 6–26–80 (Register 80, No. 26).

§ 1865.8. Insurance.

The insurance required by Section 17738 of the act shall be in an amount that will guarantee full replacement or repair of the facilities for which claims are made.

§ 1865.9. Priority Points.

(a) Priority points shall be computed and assigned to applications whenever the board determines that there will be insufficient funds to

meet the estimated needs for all districts in any given fiscal year. Whenever the assignment of priority points is required, applications that are in order for approval shall be considered by the board in sequence according to the number of priority points credited to each application. The board shall from time to time establish the minimum number of priority points necessary to qualify an application for approval consideration by the board. Such minimum shall be based upon the funds available and the estimated needs for the fiscal year.

(b) Priority points shall be computed on a districtwide basis, except for those districts having four or more high school attendance areas (excluding continuation high schools). In such case, points shall be considered on the basis of the attendance area of the project and all attendance areas adjacent thereto.

(c) For the purposes of computing priority points pursuant to the provisions of Section 17716 of the act, all existing building areas except central administration and maintenance facilities, shall be considered.

(d) Priority points for new construction shall be allowed as follows:

(1) Five priority points shall be allowed for each percent of the maximum allowable building area which may be included in an application as new building area (not replacement area).

(2) One priority point shall be allowed for each percent of the maximum allowable building area which may be included in an application as new building area replacing existing inadequate building area.

(3) One priority point shall be allowed for each 5% of increase between the current average daily attendance and the average daily attendance 5 years previously. The current average daily attendance will be based on the enrollment as determined by Section 1865.30(b).

(4) One priority point shall be allowed for each month that the application of the district has been in good order and awaiting approval.

(5) Two priority points shall be allowed for each 30 units of ADA housed.

(6) Priority points shall be allowed for the degree of utilization of the facilities in the district or attendance area by dividing the pupil capacity of all the facilities in the district or attendance area, computed by State aid standards, into the actual average daily attendance of the district or attendance area and multiplying such quotient by 10.

(e) Priority points for reconstruction shall be allowed as follows:

(1) Priority points shall be allowed equal to the quotient resulting from the equation $(30 + y^2) / (30 - y)$, where y equals the age, in excess of thirty years, of the building to be reconstructed, but not to exceed 253 points.

(2) Twenty five (25) points shall be allowed for each year in which the age of the building exceeds 57 years.

(3) One priority point shall be allowed for each percent of the pupils of the District or high school attendance area housed in buildings which are older than 30 years.

(4) Priority points shall be allowed for the degree of utilization of the building to be reconstructed by dividing the pupil capacity of the school computed by State aid standards, into the actual number of pupils in attendance in the school and multiplying such quotient by 100.

(5) One priority point shall be allowed for each month that the application of the district has been in good order and awaiting approval.

(6) Priority points computed pursuant to (1) and (2) above shall be reduced by 50% for any building that has been structurally reconstructed within the past 40 years.

(f) If any computation of priority points results in a fraction of a point that is less than one-half, such fraction shall be disregarded and the number of priority points shall be taken as the next lowest whole number. If such computation results in a fraction of a point which is one-half or more, such fraction shall be disregarded and the number of priority points shall be taken as the next highest whole number.

(g) Approvals and lease agreements made in priority order pursuant to this section shall be limited to that portion of a project pertaining to the acquisition of a site and the preparation of construction plans and specifications. Such approvals shall be limited to not more than 25% of the funds made available for the program.

NOTE: Authority cited: Sections 17705 and 17716, Education Code. Reference: Sections 17705, 17716 and 17721, Education Code.

HISTORY

1. New subsection (d)(6) filed 3-24-86; effective thirtieth day thereafter (Register 86, No. 13). For prior history, see Register 84, No. 41.

§ 1865.10. Priority Points for Construction.

(a) Priority points may be computed and applied in the consideration of approvals for construction funds. Such priority points shall be maintained as a separate series from priority points computed pursuant to Section 1865.9 of these regulations, and shall be identified as "priority points for construction." Any such computation of priority points for construction shall be determined as prescribed by said Section 1865.9, except as follows:

(1) The term "maximum allowable building area" in Section 1865.9(d)(1) shall mean the most recent computation of such area rather than that which applied at the time the application was first approved.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY

1. New section filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.

2. Certificate of Compliance filed 6-26-80 (Register 80, No. 26).

§ 1865.11. Priority Points for Remote Attendance Center.

(a) Upon a finding by the board that an extreme hardship exists as a result of an attendance center of a school district being located in a remote area, in excess of 30 miles from any other attendance center of the district, the board may base the computation of priority points for the remote attendance center in the same manner as if it was a separate school district.

(b) In addition to the provisions of subsection (a), a finding by the board that an extreme hardship exists for an attendance center of a school district due to unique circumstances of topography and emerging population trends, the board may base the computation of priority points for the attendance center in the same manner as if it was a separate school district.

2. Repealer filed 3-13-96 as an emergency; operative 3-13-96 (Register 96, No. 11). A Certificate of Compliance must be transmitted to OAL by 7-11-96 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 3-13-96 order transmitted to OAL 6-14-96 and filed 7-23-96 (Register 96, No. 30).

§ 1865.22. Filing and Review of Applications.

A complete application shall be filed with the executive officer of the board.

NOTE: Authority cited: Sections 17705 and 17717, Education Code. Reference: Section 17717, Education Code.

HISTORY

1. Amendment filed 12-21-84; effective thirtieth day thereafter (Register 84, No. 51).

§ 1865.23. Changes in Application After Original Approval.

An applicant may, after approval of an application but prior to entering into a lease-purchase agreement, request approval of changes within the application.

Article 4. Eligible Facilities

§ 1865.30. Estimated Average Daily Attendance (ADA).

(a) The estimated ADA of a school district or attendance area as required by Section 17740 of the act for determining the allowable building area shall be computed by this section. No estimate will be used unless approved by the executive officer of the board.

(b) For the purpose of estimating ADA, the following definitions shall apply:

(1) "Enrollment" means the graded enrollment of minors of the district as reported to the Department of Education on Form R-30 (or any succes-

[The next page is 249.]

sor form). Comparable enrollment data for the end of the first or sixth school month may be acceptable if verified by the appropriate county superintendent of schools.

Enrollment shall include only those students who actually reside in the school district and any students who reside in the district but attend school in other than the district of residence. Enrollment shall exclude high school pupils who attend continuation classes.

(2) "Projected enrollment" means graded enrollment as determined by the cohort survival method for a period of two years for the elementary grades and for a period of three years for the high school grades.

(3) "Pupil units attending continuation classes" is computed as follows: First determine the average number of pupil hours of attendance in high school continuation classes per school day in the highest three months of the latest 12 months, then divide the average by six. In making this computation, pupil hours during the regular school day in excess of 15 per week shall be included. Pupil hours for evening or Saturday classes shall be excluded. Multiply the final figure obtained in the preceding calculation by a factor which is computed by dividing the "projected enrollment" by the "current enrollment." The result is the "pupil units attending continuation classes."

In the event the district is applying for a continuation high school facility and has students who have not yet been screened and assigned to continuation classes because of lack of suitable space, the district may submit an identified list of such pupils. The average number of pupil hours of high school attendance in continuation classes per school day as computed above may be augmented by the pupil hours obtained by multiplying the number of names on the list by three, or in the event the district can prove that continuation high school pupils attend classes for an average of more than three hours per day, such larger multiplier may be used. When an identified list of prospective continuation high school pupils is used, the number of pupils on such list shall be excluded from the graded enrollment.

(4) "Exceptional children" means those pupils assigned to special education classes as of the latest enrollment, plus a verified count of such pupils who are not attending classes of the district but will become a part of the attendance of the district when approved facilities for such pupils have been completed.

(5) "Estimated average daily attendance" means the projected enrollment multiplied by .97 plus the exceptional children assigned to special education classes, plus the pupil units attending high school continuation classes.

(6) "Housecount" means an enumeration of new housing units that are under construction, i.e. units that have at least reached the stage of foundations in place, and have not yet been completed and occupied, classified by type of housing unit as the board may prescribe. Such housing units shall not include hotel or motel accommodations or other living quarters generally used as transient or short-term accommodations, but may include spaces under construction for mobile homes which the board determines to be essentially for long-term occupancy. The definition of housecount prescribed herein may be modified from time to time as may be necessary to classify new housing units in the most appropriate manner for the purpose of measuring the pupil yield of such units.

(c) The projected enrollment shall be determined by the cohort survival method in accordance with the following and by the use of such forms and instructions as the board may prescribe.

(1) List either the latest enrollment for the end of the first school month or the subsequent sixth school month and the enrollment for the same period for the three preceding years. All applications approved by the board after April 30 of any given year shall be based on the enrollment as of the end of the sixth school month of the most recent year. Such enrollment shall be listed by level for each grade included in the application. High school applications shall also list the four highest grades of component elementary enrollment.

(2) Determine the numerical change in enrollment between each given grade in one year and the next higher grade in the succeeding year for each

period and grade listed in (1) above. With respect to kindergarten enrollment (or first grade enrollment if no kindergarten is maintained), determine the numerical change in kindergarten (or first grade) enrollment between each period listed in (1) above, or alternatively, annual changes in enrollment based on a local census or survey of preschool children conducted according to such procedures as the board may prescribe.

(3) Compute the average annual change in enrollment for each grade maintained at the grade level of the application. The average shall be a weighted average computed by multiplying the most recent annual change in enrollment by three, the next most recent change by two, and the earliest change by one, and dividing the sum of the weighted changes by six.

(4) Progress the latest reported enrollment through the applicable two or three year projection period, modifying the grade progression each year by the average annual change for each grade as computed in (3) above.

(d) From the projected enrollment, compute the estimated average daily attendance as defined in Subsection (b)(5) above.

(e) In the event that there is good reason to believe the number of pupils being added from construction of new housing units exceeds the number implicit in the cohort survival computation and when the land area of the district is less than 75% developed, the board may, at its discretion, modify the estimated average daily attendance as follows:

(1) Determine the graded enrollment one year from the latest reported enrollment by a one-year grade progression, adjusted for dropouts at the high school level.

(2) Determine the enrollment derived from new homes implicit in the cohort survival computation as follows: (i) Subtract the enrollment computed in (1) above from the one-year projection of enrollment as determined by the cohort survival method; (ii) To the remainder, add two percent of the latest enrollment for the end of the first or sixth school month, whichever is applicable. If the foregoing computations result in a negative number, the number shall be deemed to be zero.

(3) Determine the pupil yield per housing unit of housecount, as established by a survey of occupied housing units in the district, for the current year and the two preceding years. The survey shall take into consideration the different pupil yields of multiple and single family housing units or other significant yield characteristics. The current year yield factor for each type of housing unit shall be modified by the average annual difference of the factor for each type for the two preceding years.

(4) In the event that prior year data referred to in (3) is unavailable, the current yield factor shall be modified as the board shall prescribe.

(5) Establish the pupil yield of the housecount by multiplying the number of housing units in the housecount by the applicable yield per housing unit as determined above. Subtract the enrollment from new homes determined in (2) above from the yield of the housecount; the result of this computation is the amount by which the graded enrollment computed under the cohort survival method shall be changed.

(6) The housecount and surveys described in (3) and (4) shall be conducted by the district in accordance with methods, procedures, and standards which are approved by the Office of Local Assistance with respect to each specific case.

(f) Other provisions of this section notwithstanding, high school enrollment of a district or attendance area for the end of the first school month may be used for estimating ADA.

§ 1865.31. Estimated Average Daily Attendance—High School Attendance Area.

(a) As permitted by Section 17741, a district may file an application based upon a high school attendance area rather than a districtwide basis. A high school district or a unified school district filing on a high school level would base its application on enrollment estimated to attend such high school and upon facilities already existing in such high school attendance area. An elementary school district or unified district filing on an elementary level would base its application on the enrollment and exist-

ing facilities of the elementary schools serving the high school attendance area under consideration.

(b) The estimated average daily attendance of a high school attendance area as permitted by Section 17741 of the act for determining the allowable building area, when the district is applying only on a high school attendance area basis as opposed to a districtwide basis, shall be computed in the same manner as that set forth in regulation 1865.30, except that the enrollment used in such computation shall be that of the high school attendance area rather than the entire district and shall be certified by the district.

(c) In those instances where the high school attendance area results in a split in individual attendance areas of the contributing elementary or junior high schools, an assignment of enrolled pupils in such split attendance areas shall be made by the district in a manner satisfactory to the executive officer.

§ 1865.32. Application for Site and/or Plans.

In order to expedite a total school facility, a school district may first apply for a project which includes only the advance purchase of the land and preparation of plans and specifications. The acquisition of the site and the plans preparation shall be based on justification documents for the total school facility.

§ 1865.32.5. Utilization of Existing Facilities.

(a) If the board determines that it will not be economical or practical to utilize all existing facilities of the district, project approval then will be contingent upon the agreement by the district to dispose of any salable interest in any building or site that the board determines cannot be utilized and contribute the net proceeds of the sales to the State School Building Lease-Purchase Fund as rents pursuant to Section 17732 of the act.

(b) Approval of a project applied for pursuant to Section 17741 of the act will be contingent upon the conditions specified in subdivisions (a) and (b) of this section.

Authority cited: Section 17705, Education Code. Reference: Sections 17732 and 17732, Education Code.

HISTORY

1. New section filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.
2. Amendment of subsection (b) filed 5-4-81; effective thirtieth day thereafter (Register 81, No. 19).
3. Amendment filed 12-21-84; effective thirtieth day thereafter (Register 84, No. 51).

§ 1865.33. Computation of Allowable School Building Area.

(a) No project shall be approved, the building area of which, when added to the area of adequate school construction existing in the applicant school district or the applicable high school attendance area if the application is filed on such basis, will provide a total area of school building construction in excess of that computed pursuant to Education Code Sections 17740 through 17749.

(b) All of the existing building area owned or operated by the district regardless of conditions or purpose for which used, shall be reported to the board by the district as prescribed in this regulation. Where an allowable building area is computed on the basis of an attendance area as provided by Section 17741 of the act, the existing building area shall be considered the building area within such attendance area.

(c) Existing adequate building area shall include all existing building area not otherwise excluded by the act or these regulations, building area for which applications have been approved under any state or federal building program, any building area being acquired by any lease-purchase agreement, proposed building area which has been otherwise financed or any building area which has been used to justify any site and/or lease-purchased project under this act. Existing building area shall be included as follows:

(1) The area of any building to which Article 3 of Chapter 2, Part 23 of the Education Code would not apply.

(2) The area of any relocatable structure for temporary use building under lease pursuant to Education Code Sections 39243 or 39246.

(3) The area of any district administration or district maintenance facilities except those constructed pursuant to the Leroy F. Greene State School Building Lease-Purchase Law of 1976.

(d) Existing and proposed building area shall be computed in accordance with the following:

(1) All measurements shall be made from exterior rough wall lines.
(2) Totally enclosed space shall be counted as full area. Among the various types of space to be included shall be areas such as:

- (A) Basement rooms and basement boiler rooms.
 - (B) Heater rooms, including those above the normal floor level.
 - (C) Each floor of multi-story buildings.
 - (D) The area of completely enclosed stairs for each floor level served.
- (3) Certain partially enclosed areas shall be counted as full area and shall include:

(A) Open, covered areas which provide shelter between buildings that are less than 20 feet apart.

(B) Mezzanines open on one or more sides which may easily and readily be used or converted to use as instructional space or passageways.

(C) Each floor of library stacks.

(4) Covered unenclosed space shall be counted as one-half of the actual area. Included in such space are:

(A) Open, covered passages, arcades, shelters, porches, and planting areas.

(B) Open, covered areas which provide shelter between buildings that are 20 feet apart or more.

(C) Overhangs and sun control devices which are so designed and located that they function as, and in lieu of, covered walks or other shelter areas.

(D) Mezzanines for storage purposes.

(5) Areas which shall not be counted include:

(A) Eaves and sun control devices except as specified above.

(B) Unsheltered platforms and steps.

(C) When isolated from building structures, the area of incinerators, pumphouses, transformer vaults, and service yards.

(D) Elevator shafts where constructed in order to comply with Chapter 7 of Division 5 of the Government Code (commencing with Section 4450), relating to facilities for handicapped persons.

(E) That portion of the area below the first floor of a multistory building used exclusively for employee parking, provided the board finds that other means of parking are not economically feasible.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17740-17749, Education Code.

HISTORY

1. New subsection (c)(3) filed 6-26-80; effective thirtieth day thereafter (Register 80, No. 26).
2. Amendments of subsections (b) and (c) filed 5-4-81; effective thirtieth day thereafter (Register 81, No. 19).

§ 1865.34. Allowable School Building Area for Facilities for Exceptional Children.

(a) In conformity with the requirements of Section 17747 of the Education Code, the board establishes allowable building areas for the education of physically handicapped, educationally handicapped, and mentally retarded minors, to be computed as follows:

(1) Divide the number of eligible pupils by the maximum class size established by law for special day classes for the type of pupils to be enrolled and increase the quotient to the next highest integer where a fractional amount is produced.

(2) Multiply the number computed in (1) by the maximum building area allowance shown below when the facility is planned for the following types of exceptional children:

Types of Pupils	Maximum Class Size		Area Allowance—Sq. Ft.		
	Ages 3-8	Ages 9-20	K-8	7-9	9-12
Austistic	6	6	1080	1080	1080
Deaf, Aphasic, Multihandicapped *, or Combination of Deaf & Severely Hard of Hearing	6	8	1235	1335	1360
Blind, Severely Hard of Hearing, or Combination of Blind & Partially Seeing	8	10	1290	1410	1440
Partially Seeing	10	12	1290	1410	1440
Educationally Handicapped	12	12	1080	1080	1080
Trainable Mentally Retarded	12	12	1860	1860	1860
Educable Mentally Retarded	18	18	1373	1635	1680
Orthopedically Handicapped	(See 3) 12	(See 3) 16	2000 (See 4)	2000 (See 4)	2000 (See 4)
Development Centers for Handicapped Pupils	10	10	2000 (See 4)	2000 (See 5)	2000 (See 5)
Deaf-Blind Multihandicapped	3	5	1500 (See 4)	1500 (See 4)	1500 (See 4)

* Other than Deaf-Blind Multihandicapped

(3) When the chronological age span of educable mentally retarded minors is greater than four years, the maximum class size shall be 15 pupils.

(4) When facilities to be constructed will include occupational therapy, physical therapy, and related auxiliary spaces for orthopedically handicapped minors, additional building area allowances for such spaces of up to 5,200 square feet shall be made if the facility is designed for one to three classes and up to 7,000 square feet for four to eight classes.

(5) When facilities are to be constructed for deaf-blind multihandicapped, a one-time additional building area allowance of 500 square feet per school will be made for the initial construction of facilities.

(6) When facilities are to be constructed for blind or partially seeing minors served in an integrated instructional program which is housed in two or more schools, the building area allowance may be allocated among the schools when approved by the Department of Education. No area of instruction shall be allowed which is less than 200 square feet.

(7) When facilities are to be provided for minors having speech defects or disorders, additional building area per school is permitted. This additional area allowance is limited to:

(a) 200 square feet of new building area per school in schools constructed after July 1, 1968, where such schools are designed to permit utilization for remedial and other special services.

(b) 200 square feet of new building area per school in schools constructed between July 1, 1933 and July 1, 1968, where such additional area allowance is used for the construction of a new speech facility.

(c) Conversion of existing facilities or a combination of new construction and conversion of such existing facilities to provide housing for such minors having speech defects or disorders, provided the cost does not exceed the computed cost for 200 square feet of new classroom construction based upon cost standards adopted by the board.

(d) The acquisition of mobile speech therapy facilities, provided the cost does not exceed the combined computed cost for 200 square feet of new classroom construction, based upon cost standards adopted by the board, at all such schools which will be served by the mobile facility.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY

- Amendment filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80. Certificate of Compliance filed 6-26-80 (Register 80, No. 26). Amendment filed 6-1-81 as an emergency; effective upon filing (Register 81, No. 23).
- Order of Repeal of 6-1-81 emergency order filed 6-5-81 by OAL pursuant to Government Code Section 11349.6 (Register 81, No. 23).

§ 1865.35. Allowable Building Area for Small Elementary School Districts.

(a) For the purpose of computing the building area allowance for small elementary school districts in accordance with Section 17743 of the Education Code, the following shall apply:

(1) In an applicant district maintaining any combination of grades kindergarten through 6 with an estimated average daily attendance of less than 300 in such grades:

Estimated ADA in Kindergarten and Grades 1-6	Maximum Total Building Area (Sq. Ft.)
6-25	1,600
26-50	3,800
51-75	5,700
76-100	7,200
101-133	8,415
134-166	10,200
167-199	12,000
200-232	13,360
233-285	15,675
286-299	16,500

(2) In an applicant district maintaining any combination of grades kindergarten through 8 with an estimated average daily attendance of less than 300 in grades kindergarten through 6, there shall be allowed, in addition to the maximum total building area shown above, a maximum area of 75 sq. ft. for each attendance unit in grades 7 and 8.

§ 1865.36. Allowable Building Area for Continuation High Schools.

(a) The estimated average daily attendance for continuation high schools shall be based on those pupil units attending continuation classes (as defined in Section 1865.30(b)(3) of these regulations) which are assigned to the continuation high school.

(b) Building area shall be allowed for the continuation high school in accordance with the following schedule:

Pupil Units of Continuation High School	Square Feet of Building Area
5 to 20	2,300
21 to 40	2,300 + 125 for each pupil unit over 20
41 to 60	4,800 + 120 for each pupil unit over 40
61 to 90	7,200 + 115 for each pupil unit over 60
91 to 120	10,650 + 105 for each pupil unit over 90
121 to 150	13,800 + 90 for each pupil unit over 120
Over 150	16,500 + 60 for each pupil unit over 150

(c) For purposes of this section, a continuation high school must be physically and operationally distinguishable from other schools. If the continuation high school shares space with another type of school, it can

be considered to be a continuation high school within the meaning of this section only if the district can show conclusively that the continuation facilities in fact a separate institution with its own administration, teaching staff and course of study, located in a clearly identifiable building area.

NOTE: Authority cited: Sections 17705 and 17742, Education Code. Reference: Sections 17740-17751, Education Code.

HISTORY

1. Amendment of subsection (b) filed 3-5-90; operative 4-4-90 (Register 90, No. 10). (p. 71.72.50.6.1)

§ 1865.37. Minimum Essential Instructional Facilities.

In the event the existing area of the district as determined pursuant to Section 17742 of the act results in a district being unable to apply for the minimum amount of essential instructional facilities required, the existing area may be reduced, with the approval of the board, by an amount sufficient to permit such essential instructional facilities to be constructed under the act. Such reduction shall be construed as being for the purpose of alleviating any substantial hardship which might otherwise occur.

§ 1865.38. Building Cost Standards.

(a) Pursuant to Section 17717 of the act, the board shall establish allowable school building cost standards which shall be effective until next revised.

(b) No application or bid shall be approved and no funds shall be provided for any construction which exceeds the allowable costs established as provided herein. In the event, however, that it is shown from any studies by the board that actual building costs in an area or portion of an area differ substantially from the allowable costs established for the area, the board may at any time revise the allowable building cost standards for the area or create additional areas and establish appropriate allowable cost standards for such additional areas.

§ 1865.39. Unconventional Sources of Energy.

Where a school district requests an increased cost allowance for the design and construction of facilities which will conserve unreplenishable energy resources pursuant to Section 17718 of the act, a life cycle cost comparison must be submitted to the board. Such cost comparison shall be prepared by a competent authority and provide for the amortization of the increased cost allowance over a period not to exceed the lesser of 30 years or the term of the lease.

§ 1865.40. Reconstruction or Replacement.

(a) No project shall be approved for reconstruction, the cost of which will exceed cost standards established by the board for replacement of the amount of area equivalent to the actual reconstruction area.

(b) Replacement. No building shall be replaced until the board has made a finding that it would not be economical or good practice to reconstruct the school facilities to meet present-day educational and structural standards.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17705, 17716 and 17721, Education Code.

HISTORY

1. Amendment of subsection (a)(1) filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.
2. Certificate of Compliance including amendment filed 6-26-80 (Register 80, No. 26).
3. Amendment filed 10-10-84; effective thirtieth day thereafter (Register 84, No. 41).

§ 1865.41. Site Development.

Site development for new building area may be included as a part of the project and classified as follows:

(1) Utility Services may include but are not limited to facilities required to bring water, sewer, electricity, telephone, and fuel supply ser-

vices to such suitable point on the site as may be necessary for the functioning of a project.

(2) Off-site Development may include but is not limited to such street improvements as are in line with the approved standards of the board and as are determined by the executive officer to be necessary. However, whenever a school building to be constructed pursuant to an apportionment under the act is situated in a city, city and county, or county which requires the construction of any street or road connected with the school premises on which the building is situated, the board shall review the requirement and recommend to the entity in question a plan of construction adequate to meet the needs of the school district and safety of the public. Thereafter, if any different plan of improvement or improvement to higher standards than so recommended is required by such entity, the additional cost shall be borne by the entity as provided in Section 2117 of the Streets and Highways Code.

(3) Service Site Development may include but is not limited to site clearance, rough grading, and drainage which may be required to make a site usable in accordance with standards established by the board.

(4) General Site Development may include but is not limited to any other development of a site, including such items as grading (except rough grading), walks, curbs, roadways, parking areas, fencing, flagpoles, incinerators, hand-surfaced and turfed play areas, landscaping, and playground equipment.

In the event the proposed construction consists of an addition to an existing school plant (whether financed by State Funds or by other means) the countable existing construction area and the existing site development shall be evaluated by the Director of General Services in determining any allowance for general site development.

(b) Site development for reconstruction is limited to replacement of walks or paving which are destroyed as a result of the reconstruction work, and may be required for handicapped requirements. Off-site work and utilities will not be considered unless justification has been submitted that the reconstructed facility cannot be adequately functional without such improvements.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17705, 17716 and 17720, Education Code.

HISTORY

1. Repealer of subsection (a)(3) and new subsections (a)(3), (a)(4), and (a)(4)(A) filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.
2. Amendment filed 10-10-84; effective thirtieth day thereafter (Register 84, No. 41).

§ 1865.42. Furniture and Equipment.

(a) Furniture and equipment may be included as part of the project.

(b) Cost standards for furniture and equipment shall be established on a quarterly basis by the board based upon the kinds, quality, quantities, and costs of furniture and equipment most commonly acquired by school districts for comparable facilities.

(c) Before requesting funds for furniture and equipment for a project, the district shall give full consideration to all usable furniture and equipment existing in the district. The district may apply for funds to provide such furniture and equipment as needed to complete the project within the standards established by the board. The furniture and equipment allowance for replacement or reconstruction projects cannot exceed 50% of the allowance for comparable new facilities unless specifically approved by the board.

(d) An allowance will be calculated for each construction project in accordance with 1865.42(b) and (c) above. The amount so calculated will be authorized as the cash allowance for the project to be expended by the district in furnishing and equipping the project.

(e) Furniture and equipment shall be purchased by the district by competitive bidding where required to do so by the Education Code or other provisions of law. However, even where the district is not otherwise required to purchase the same through competitive bidding, the board may

require the district to do so where it believes that it is likely that such bidding would result in a lower cost than other methods.

§ 1865.43. Repairs, Renewals, and Replacements.

(a) The district shall make all repairs, renewals and replacements necessary to keep the project in good repair, working order and condition at all times. All costs for this purpose will be borne by the district.

(b) In the event the project requires repairs, renewals or replacements as a result of damages from any cause, casualty, or otherwise, the district shall make the same. In such event the board shall contribute any insurance funds available to it for this purpose.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700–17749, Education Code.

HISTORY

1. Repealer and new section filed 3–17–80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7–16–80.
2. Certificate of Compliance filed 6–26–80 (Register 80, No. 26).

Article 5. Project Approvals and Lease–Purchase Agreements

§ 1865.50. Approval of Applications.

The board may approve in whole or in part any application submitted pursuant to the Act. Upon receipt of the application, the executive officer shall review it for proper form and compliance with statutes and regulations of the board. After such review and any necessary corrections, the executive officer shall present the application to the board with recommendations, in whole or in such part as will satisfy the board's policy of approving funds for feasibility studies, site acquisition and/or preparing plans and specifications, and project construction in separate increments, whereupon the board shall consider the application provided it (the application) has sufficient priority to warrant such consideration. If the application meets with the board's approval, it shall grant its approval and shall make an apportionment for the financing of the project from any sources available for such purposes. The apportionment shall be conditioned upon the district subsequently entering into a lease–purchase agreement with the state. After such approval and apportionment of funds, the executive officer of the board shall authorize the district, as the agent of the board, to perform all acts necessary to effectively complete the particular phase of the approved project. Such authorization shall be specifically set forth in writing to the district and shall be conditioned upon the district having entered into or subsequently entering into a lease–purchase agreement with the board either in the form of (1) a lease–purchase for feasibility studies, (2) the lease–purchase of a site and/or plans, or (3) the lease–purchase of an entire project. Failure on the part of the district to enter into such agreement shall invalidate such authorization, and any obligations incurred as a result thereof shall become the sole responsibility of the district. Upon receipt of successive phases of the project, the executive officer shall have the authority to amend the project budget within the apportionment so made or to reduce the total apportionment to conform to the project as bid. The executive officer is authorized to enter into a lease–purchase agreement or agreements with the district on behalf of the board.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700–17749, Education Code.

HISTORY

1. Amendment filed 3–17–80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7–16–80.
2. Certificate of Compliance including amendment filed 6–26–80 (Register 80, No. 26).

1865.51. Apportionment.

(a) In addition to complying with any other requirements of these regulations or the act, the board, at the time of making an apportionment, shall:

- (1) Approve a total estimated cost and a budget for the project.

(2) Prescribe the purposes for which an apportionment may be expended.

(3) Prescribe the manner, terms, and conditions for releasing the apportionment to the district.

(b) Notwithstanding anything to the contrary in these regulations, the board shall have power to modify any apportionment or resolution of apportionment where it determines good cause exists therefor.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700–17749, Education Code.

HISTORY

1. Repealer of subsections (a)(4)–(5) filed 3–17–80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7–16–80.
2. Certificate of Compliance filed 6–26–80 (Register 80, No. 26).

§ 1865.52. Rental Payment.

The rental payments required by Section 17732 of the act will become due and payable on September 15 following the date the lease–purchase agreement is executed and on each successive September 15th thereafter during the life of this agreement. The payment may be in the form of a contribution toward the cost of an ongoing project or as a direct remittance. An Annual Certification of Funds Available for Rents shall be submitted by each district prior to August 15 each year. The payment required for a district desiring to exercise an option to purchase shall be the total cost of the project less any rental payments made or to be made from sources identified in Section 17732(c) and (d) of the act.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700–17749, Education Code.

HISTORY

1. Repealer and new section filed 3–17–80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7–16–80.
2. Certificate of Compliance filed 6–26–80 (Register 80, No. 26).

Article 6. Project Budget

§ 1865.60. Contents of Project Budget.

(a) The project budget prescribed by the board shall be set up in such a manner as to contain all costs attributable to the project, categorized as follows: Sites; Plans; Construction; Tests; Inspection; Furniture and Equipment; and Contingencies. Within these major categories the following limitations shall apply:

(1) Sites:

(A) The board shall not authorize the expenditure of any funds for real property in excess of the fair market value of such property.

(B) Relocation assistance costs to landowners or persons displaced pursuant to Sections 7260 et seq. of Chapter 16, Division 7, Title I of the Government Code, referred to as the "Relocation Assistance Law," in conjunction with an acquisition of a site for which an application for a lease–purchase project is made, shall be administered by the district affected in accordance with the requirements of said sections.

(2) Plans:

(A) Fees for architectural and engineering services, including architectural supervision, shall not exceed the standards established by the board.

(B) The board shall require that each architectural contract contain a clause to the effect that the architect shall be responsible for making, without additional cost to the district, any changes or redesigning made necessary as a result of the bids exceeding the cost standards established by the board.

(C) Any other plan fees or changes required by law.

(3) Construction: Costs shown for construction shall not exceed the cost standards established by the board.

(4) Tests: The amount for tests shall be limited to the actual costs of tests which are required by Title 21 of the California Administrative Code or other applicable provisions of law, or which are in accordance with good or accepted practice.

(5) Inspection: The amount for inspection shall be limited to such amounts as is required to insure that the project is completed in accordance with plans and specifications and any other legal requirements.

(6) Furniture and Equipment: The amount for furniture and equipment shall be limited to that determined pursuant to Section 1865.42 hereof.

(7) Contingencies:

(A) An amount may be included for contingencies which shall not exceed such maximums as the board may prescribe for any class of application or value of facilities in a project budget.

(B) Contingency funds may be used only after specific approval by the executive officer for items of construction or other approved project costs where the cost increase or the item required is necessary for the completion of a facility which has been approved by the board.

NOTE: Authority cited: Section 17705, Education Code. Reference: Section 17729, Education Code.

HISTORY

- 1. New subsection (a)(2)(C) filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.
2. Certificate of Compliance filed 6-26-80 (Register 80, No. 26).
3. Amendment of subsection (a)(2)(A) filed 5-4-81; effective thirtieth day thereafter (Register 81, No. 19).

§ 1865.61. Revision of a Project Budget.

(a) The executive officer may revise any item within a project budget, upward or downward, provided that no such revision results in an increase in the total amount of the project budget approved by the board.

(b) The executive officer may reduce any apportionment as may be necessary to reflect any revision made pursuant to (a) above.

Article 7. Disposition of Property

§ 1865.70. Disposition of School Buildings or Land.

Whenever a district disposes by sale or lease of any land or buildings no longer needed for school purposes, the net proceeds therefrom shall be remitted to the state, as rental payments pursuant to Education Code Section 17732. Such payment(s) shall be applied to the outstanding balance of any approved projects in the order(s) of approval.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY

- 1. Repealer and new section filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.
2. Certificate of Compliance filed 6-26-80 (Register 80, No. 26).

§ 1865.70.5. Justification of Surplus School Site.

Whenever disposition of a surplus school site is required as a condition of approval of a project and an apportionment of funds pursuant to Education Code Section 17760 et seq., the existence of the surplus school site shall be deemed to be justified in accordance with the provisions of Education Code Section 17762 while the disposition process is occurring.

NOTE: Authority cited: Sections 17705 and 17763, Education Code. Reference: Section 17762, Education Code.

HISTORY

- 1. New section filed 7-28-82; effective thirtieth day thereafter (Register 82, No. 31).

§ 1865.71. Disposition of Excess Improvements Acquired with Site Purchase.

(a) Excess improvements acquired with a site purchase shall be offered for sale prior to the advertising of a project for construction bids, in accordance with the method and manner prescribed for the sale of personal property under Section 39520 et seq. of the Education Code. The net proceeds received from any such disposition shall be deposited in the County School Lease-Purchase Fund as a credit against the cost of the project.

(b) When facilities acquired with a site purchase have been offered for sale pursuant to Section 39520 et seq. of the Education Code and no acceptable bids are received prior to the time the construction project is ready to be advertised for construction bids, the district shall adopt a resolution making a finding that the property is of insufficient value to defray the costs of arranging a subsequent sale as provided by Section 39521(b) of the Education Code and proceed to demolish such property using funds approved in the project for this purpose.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY

- 1. Amendment of subsection (a) filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.
2. Certificate of Compliance filed 6-26-80 (Register 80, No. 26).

Article 8. Lease-Purchase of Sites and Plans

§ 1865.75. Advance Purchase of Sites and Preparation of Plans.

(a) Except as otherwise provided by the act or these regulations, the provisions of these regulations shall apply to applications for sites and/or plans and specifications made pursuant to Section 17720 of the act.

(b) Nothing contained in the regulations shall be construed to prohibit the executive officer from entering into a lease agreement with option to purchase for a site and/or plans pursuant to Regulation 1865.32 without construction, even though such items may constitute only a part of the project as approved by the board. A lease-purchase agreement or agreements may be subsequently entered into by the executive officer for the balance of the project.

Article 9. Environmental Impact Requirements

§ 1865.80. CEQA Requirements.

These requirements are set forth in the following sections of Title 14, of the California Administrative Code.

SECTION NUMBERS

Table with 2 columns: SECTION NUMBERS and corresponding values. Subgroup 12. State School Deferred Maintenance**Article 1. Definitions****§ 1866. Definitions.**

(a) In connection with the administration of the provisions of Sections 39618 to 39621, inclusive, of Article 1, Chapter 4, Part 23, Division 3, Title 2, Education Code and for the purpose of these regulations, the terms set forth below shall have the following meanings:

(1) The Act, Sections 39618 through 39621, above.

(2) Application. A request to the State Allocation Board for approval of a five year plan of maintenance needs of a school district and for an apportionment of funds from the State School Deferred Maintenance Fund, as provided by the Act and these regulations.

(3) Apportionment. Amount of State funds apportioned by the Board for purposes of the application. This amount is based on the formula specified in Section 39619(b) of the Education Code.

(4) Board. The State Allocation Board.

(5) District or Applicant School District. Any School district applying for an apportionment, as provided by the Act and these regulations, or the county superintendent of schools qualifying as an applicant pursuant to Section 2553 of the Education Code.

(6) Executive Officer. The Executive Officer of the State Allocation Board.

(7) Five Year Plan of Maintenance Needs. The district's plan in priority order reflecting the district's total deferred maintenance needs, to accomplish the major repair or replacement workload annually over a five year period using the format to be supplied by the Executive Officer of the Board.

(8) Repair. Involves the work necessary to restore deteriorated or damaged plumbing, heating, air conditioning, electrical, roofing and floor systems. The exterior and interior painting of school buildings, asphalt paving the inspection, sampling and analysis of building materials to determine the presence of asbestos-containing materials, the encapsulation or removal of asbestos-containing materials or such other items as may be approved by the State Allocation Board, to such condition that the school buildings may be effectively utilized for their designated purposes.

(9) Replacement. The work necessary to replace those school building systems itemized in subparagraph 8, above, which are either worn out or obsolete to the extent that they no longer effectively perform their functions.

(10) Critical Project. A project at one school in the five-year plan which if not completed in one year could result in serious damage to the remainder of the facility or would result in a risk of injury or illness to the pupils attending the facility. The Board shall have the authority to approve more than one critical project in a district's five-year plan, for completion in the same year, if the Board, after reviewing the additional critical project(s), has made a determination that approval of such additional critical project(s) is justified in order to abate a risk of injury or illness to the pupils attending the facility. A critical project for a district with only one school may also include additional major repair or replacement work deemed essential for the basic utilization and functioning of the school.

Section 1 Reporting Requirements and SFP Audit Overview

1.1 OVERVIEW

These progress and expenditure reporting guidelines were developed by the Office of Public School Construction (OPSC) to assist school districts in meeting program reporting requirements for the School Facilities Program (SFP). Under the Leroy F. Greene School Facilities Act of 1998, the State Allocation Board (SAB) is given the authority to audit expenditure reports and district records in order to assure funds received under this act are expended in accordance with program requirements (as specified in Education Code 17076.10). The OPSC, as the SAB's administrative arm, is charged with conducting SFP progress and expenditure audits. The OPSC's oversight responsibilities focus on verifying a project funded through the SFP progresses in a timely manner, applicable state laws were followed, and expenditures made by school districts comply with the Education Code Sections 17072.35 and 17074.25 and Regulation Sections 1859.77.2 (New Construction) and 1859.79.2 (Modernization).

School districts are advised they will be required to submit two types of reports after receiving SFP funds: a Substantial Progress Checklist (SPC) and Expenditure Reports (Regulation Section 1859.104). It should be noted that certain projects may require evidence of progress at more than one point in the project's life cycle. This occurs when a project receives separate design and/or separate site funding prior to receiving full project funding. Each phase of funding generates a separate requirement to submit evidence of progress within 18 months from the date the related funds were released (Environmental Hardship funding requires evidence within 12 months of the State apportionment). An *Expenditure Report* (Form SAB 50-06) and Detailed Listing of Project Expenditures are due one year from the date any funds were released to the district, or upon completion of the project, whichever occurs first. Subsequent expenditure reports are due annually until the project is complete, at which time the district shall submit a final expenditure report.

SFP Regulation Sections 1859.105, 1859.105.1 and 1859.106 specify that OPSC audit staff review substantial progress documentation and expenditure reports submitted by participating districts. All projects will be monitored by the audit staff for timely submittal of substantial progress and expenditure reports. When the SPC or Expenditure Report is submitted, a project will be audited to verify compliance with requirements set forth in Regulation Sections 1859.105 and 1859.106. Furthermore, all Environmental Hardship projects will be reviewed to assure the district has made progress in acquiring the site in accordance with Regulation Section 1859.105.1 (see Section 2.2 – Progress Review for more information).

This page is intentionally blank.

Section 2 Substantial Progress Audit

2.1 SUBSTANTIAL PROGRESS AUDIT REPORTING REQUIREMENTS

As stated in the preceding Overview, the specific type of substantial progress evidence required for a project and the timeline for submitting that evidence is determined by the phase of funding the project received. Certain projects may require evidence of progress at more than one point in their life cycle. This occurs when projects have received separate design or site monies prior to receiving full project (adjusted grant) funding. The specific requirements for each funding phase are summarized in the following table:

► Substantial Progress Timelines and Required Evidence

Funding Phase	Due Date for Submitting Evidence of Progress	Specific Type(s) of Evidence Required
Separate Design (Financial Hardship project only)	18 months from date of Fund Release	<p>One of the following:</p> <ul style="list-style-type: none"> • Submittal of a complete adjusted Grant funding Application package (including Form SAB 50-04) to the Office of Public School Construction (OPSC). • Submittal of a district certification that complete plans and specifications have been submitted to the Division of the State Architect (DSA). • Submittal of a complete Separate Site funding application package (including Form SAB 50-04) to the OPSC (Regulation Section 1859.75.1). <p>Or:</p> <ul style="list-style-type: none"> • Submittal of a narrative of evidence, satisfactory to the State Allocation Board (SAB) detailing why complete plans have not been submitted to the DSA.
Separate Site (Financial Hardship project only)	18 months from date of Fund Release ¹	<p>Submittal of a progress checklist (or narrative) certifying that all of the following have been achieved:</p> <ul style="list-style-type: none"> • Obtained the final site appraisal. • Completed all California Environmental Quality Act (CEQA) requirements. • Obtained final California Department of Education (CDE) site approval. • Obtained final escrow instructions or evidence the district has filed condemnation proceedings and intends to request an order of possession of the site. <p>Or:</p> <ul style="list-style-type: none"> • Submittal of a narrative of evidence, satisfactory to the SAB, detailing the circumstances (beyond district control) that precluded progress from being achieved. (For separate site funding applications submitted after September 30, 2003)
Separate Site (Environmental Hardship project only)	12 months from the apportionment date or anniversary of conversion from Separate Site Financial Hardship, and on each subsequent anniversary if necessary	<p>Submittal of one of the following:</p> <ul style="list-style-type: none"> • A progress checklist (or narrative) satisfying the same criteria set forth for Separate Site (Financial Hardship) funding. • A request for an extension (which is supported in written letters of concurrence from the Department of Toxic Substances Control and the CDE). • Other reasonable evidence of effort the district has made to acquire the site (Regulation Section 1859.75.1)
Adjusted Grant	18 months from the date of the Fund Release ²	<p>Submittal of a progress checklist (or narrative) certifying one of the following:</p> <ul style="list-style-type: none"> • 75 percent of site development work necessary prior to construction is complete. • 90 percent of the work in the plans and specifications is under contract. • 50 percent of the work in the plans and specifications is complete (Regulation Section 1859.105(a). <p>Or:</p> <ul style="list-style-type: none"> • Submittal of a narrative of evidence, satisfactory to the SAB, detailing the circumstances (beyond district control) that precluded progress from being achieved.

¹ If toxic substance issues are delaying site preparation progress, the district may convert the site apportionment to an environmental hardship apportionment. Environmental hardship projects may request annual extensions with appropriate substantiation.

² The progress reporting requirement for adjusted grant funding can be suspended if one of the following occur before the reporting deadline:

The district submits a Notice of Completion for the project. If more than one construction contractor is involved in the project, a Notice of Completion is required for each construction contract.

The district submits an *Expenditure Report* (Form SAB 50-06), which shows that the project is at least 90 percent complete.

If a district receives Separate Design, Separate Site, and Adjusted Grant apportionments, it will be required to submit evidence of progress for each of these types of funding. For each type, the school district will receive up to two substantial progress reminder letters. For all SFP apportionments, except Separate Site apportionments for Environmental Hardships, school districts will receive the letters at 12 and 15-month intervals after the related funds have been released. For Environmental Hardship projects, the OPSC will send the letters at 8 and 10-month intervals after funds have been apportioned. Each reminder letter will have an attached Substantial Progress Checklist (SPC).

Submitting a complete and acceptable SPC will fulfill the requirement to submit a narrative of evidence (progress report), as required in Regulation Section 1859.104.

Districts may submit a narrative in the form of a letter, but are encouraged to use the SPC to help insure completeness and accuracy. In cases where a funding application serves as evidence of progress, no narrative is required, but a SPC may still be submitted as a mechanism to alert the OPSC audit staff that the funding application has been submitted.

2.2 PROGRESS REVIEW

Within 60 days of receiving a timely SPC (or narrative), the OPSC is required to review the evidence submitted. The district will be notified if OPSC staff intends to recommend to the SAB that the evidence does not demonstrate substantial progress. If the OPSC does not respond to the district within the 60-day timeline, substantial progress will be considered to be approved. The OPSC may elect to perform an in-depth progress review on certain projects. In such cases, additional documentation will be requested to substantiate certifications made on an SPC (or narrative). The documentation that may be required is summarized in the following table:

► Additional Substantial Progress Evidence for In-Depth Reviews

Type of Funding Received	Additional Documentation That May Be Requested
Separate Design (Financial Hardship)	<ul style="list-style-type: none"> • DSA notice of receipt of plans or printout of project tracking screen from the DSA website (in cases where the district has certified DSA submittal on the SPC).
Separate Site (Financial Hardship)	<ul style="list-style-type: none"> • Final site appraisal letters. • Documentation of CEQA compliance (State clearinghouse approval letter, Negative Declaration, Categorical Exemption, etc.). • Final escrow documents. • Copy of final CDE site approval letter.
Separate Site (Environmental Hardship)	<ul style="list-style-type: none"> • Same evidence requested for Separate Site Financial Hardship. • Copies of letters from CDE and DTSC confirming that the district is making reasonable progress towards acquiring a site.
Adjusted Grant	<ul style="list-style-type: none"> • Copies of construction contracts. • Copies of progress billings, certificate/application for payment with attached Continuation sheet. • Cost estimate.

2.3 SUBSTANTIAL PROGRESS AUDIT RESPONSE

If it has been determined through the Substantial Progress Audit that no substantial progress has been made, or the district has neglected to submit a progress report, the audit staff will take the following actions (per Regulation Section 1859.105):

- ▶ A letter will be sent to the district within 60 days of receipt of the district's SPC (or narrative), or within 60 days of the substantial progress deadline if no SPC has been received, informing the district that the SAB's substantial progress requirement has not been met.
- ▶ The letter will request final expenditure reports (Form SAB 50-06 and Detailed Listing of Project Expenditures) and supporting contracts, agreements, warrants, and invoices from the district. The request will stipulate that this documentation will be due within 60 days.

If the district has not failed substantial progress, but still wishes to close the project (i.e. rescind or reduce to costs incurred), it may request this in writing. The OPSC will respond with a letter requesting that the district submit the final expenditure reports and supporting invoices within 60 days.

When a finding of no substantial progress is made, and the district reports project expenditures within the specified 60 days, an expenditure audit will be performed and the project will be closed to costs incurred. If the district does not submit a final expenditure report within 60 days, but previously submitted a Form SAB 50-06 and Detailed Listing of Project Expenditures, the project will be closed to costs incurred based on the expenditure report(s) on file. If the district does not submit a final expenditure report within 60 days and no previous expenditure reports were filed, the project will be rescinded and all funds previously released to the district, plus any interest accrued on the State's funds, must be returned to the State (Regulation Section 1859.104(c)). The district must submit a warrant for any amount due within 60 days of the project being reduced to costs incurred, or the amount due will be collected through a school fund apportionment offset. Once the closeout and collection process is complete, the appropriate number of pupils will be added back to the district's baseline eligibility.

Rescinded projects will have the entire pupil count that was previously deducted and assigned to the project, returned to the district's baseline eligibility. When projects are reduced to costs incurred, the per pupil grants not utilized in the amount reported on the expenditure reports will be returned to the district's baseline eligibility. To determine the number of students to be returned to the district's baseline eligibility, the project's total grant amount (district and State share), excluding site acquisition costs, will be divided by the number of students applied towards the project to obtain a dollar amount applied to each student. The amount reported by the district on the expenditure reports, excluding costs funded from a site acquisition apportionment, will be divided by the dollar amount applied to each student to produce the number of students assigned to the project. The difference between the pupils originally assigned to the project less the number of students assigned to the eligible expenditures when the project is reduced to costs incurred is the number of pupils added back to the district's baseline eligibility. Please see example below:

Project Totals:

Total Grant Amount (district and State share):.....\$208,000.00
 Number of Pupils Assigned:40
 Total Reported on Expenditure Reports:\$65,000.00

Calculations:

Total Grant Amount *divided by* Number of Pupils Assigned *equals* Grant Amount per Pupil:

$$\frac{\$208,000.00}{40 \text{ Pupils}} = \$5,200.00 \text{ per Pupil}$$

$$\frac{\$65,000.00}{\$5,200.00 \text{ per Pupil}} = 12.50 \text{ Pupils; however, pupils applied to a project must be rounded to the appropriate whole number (13 in this example).}$$

$$40 - 13 = 27 \text{ Pupils added back to district's baseline eligibility}$$

Section 3 Expenditure Audit

3.1 EXPENDITURE AUDIT REPORTING REQUIREMENTS – GENERAL

School districts are required to submit an *Expenditure Report* (Form SAB 50-06 and a Detailed Listing of Project Expenditures) one year after receiving the initial fund release for the project. Subsequent expenditure reports are due annually until the project is complete (Regulation Section 1859.104(a)).

Ten months after issuing a project's initial fund release, audit staff will notify the district in writing that an expenditure report is due and must be submitted within one year of the project's initial fund release date. If the district has not submitted an expenditure report within the one-year time period, the audit staff will notify the district it must submit a Form SAB 50-06 and Detailed Listing of Project Expenditures within 60 days. If the district does not submit the Form SAB 50-06 and Detailed Listing of Project Expenditures, the audit staff will prepare a board item to advise the SAB the district has not complied with Regulation Section 1859.104.

If the district has complied with the expenditure reporting requirements, the audit staff will track fund release dates and district expenditure report dates to determine when the project is ready for the Final Expenditure Audit. The project is placed on the expenditure audit workload list when it is complete. A project is ready for audit review when one of the following occurs:

- ▶ The final Form SAB 50-06 indicating 100% of the project is complete and the Detailed Listing of Project Expenditures are submitted by the district; or
- ▶ Three years for an elementary school (grades K–6) project, or four years for a middle school (grades 7–8) or high school (grades 9–12) project, have elapsed since the date of the final fund release pursuant to Regulation Section 1859.104(a)(1)(B).

The OPSC has two years from the 100 percent complete report submittal date, or three or four years (as applicable) after the final fund release date to commence the final expenditure audit. Once the district is notified an expenditure audit is started, the audit staff has six months to complete the audit, unless additional information requested from the district has not been received. If the audit staff does not begin the final expenditure audit within two years of receiving the final expenditure report, or if the final expenditure audit is not completed within six months from the date the district was notified, no expenditure audit will be performed and all expenditures reported shall be deemed appropriate (see Regulation Section 1859.106).

3.1.1 Expenditure Audit Reporting Requirements – Specific Guidelines

When a school district submits the required Form SAB 50-06 and a Detailed Listing of Project Expenditures, it is important for the district to have all information as correct and accurate as possible. Specifically, the Form SAB 50-06 should reflect the sum of the State's share of the grant, the district's share of the grant, any interest earned, less project expenditures. Project savings will be recognized if project expenditures are less than the State's share of the grant, plus district's share of the grant, plus interest earned, less total project expenditures (see Section 3.12 – Project Savings for more details on audit of project savings). If there are multiple Forms SAB 50-06 reported for a project, the most current Form SAB 50-06 must include all expenditures reported previously, plus expenditures incurred in the current reporting period.

The Detailed Listing of Project Expenditures should reflect all expenditures by warrant numbers, warrant dates, warrant payees, warrant amounts, and specific descriptions of the expenditures, as required on the Form SAB 50-06. The description of expenditures must be as detailed as possible in order for the audit staff to verify all project expenditures are applicable to the project and the expenditures have been applied to their proper cost categories. This will assist the audit staff to expedite the audit of the project.

3.2 PRELIMINARY EXPENDITURE AUDIT

All Expenditure Reports will be subject to an initial expenditure audit prior to 100 percent completion which consists of a review of the Form SAB 50-06 and Detailed Listing of Project Expenditures to assure:

- ▶ The form is filled out correctly (i.e. form signed by the district representative; correct application number).
- ▶ The "percent completed" box is filled in.
- ▶ There is a date construction actually began.
- ▶ The Notice of Completion of project is provided (if applicable).
- ▶ Each project cost reported includes the warrant date, vendor name, warrant number, warrant amount and a brief description for each expenditure.

If the *Expenditure Report* (Form SAB 50-06 and Detailed Listing of Project expenditures) are filled out correctly and reported expenditures appear to be eligible for State funding, the project will be tracked until 100 percent completion. If the expenditures reported do not agree with the supporting documentation or if the expenditures are considered ineligible, the audit staff may conduct a more thorough in-depth review of the project. The audit staff will notify the district if either the Form SAB 50-06 or Detailed Listing of Project Expenditures is unacceptable or incomplete.

3.3 EXPENDITURE AUDIT

An expenditure audit will be performed on all complete projects. The audit consists of verifying the amount reported on the Form SAB 50-06 and that it agrees with the expenditures reported on the Detailed Listing of Project Expenditures. A verification will be made of the amounts reported for the district's share, State's share, interest earned, etc. If the project attained any savings, interest reported for the project will be verified, through a certification made by the county office, to properly calculate the savings amount.

The Detailed Listing of Project Expenditures will be verified to assure costs are categorized correctly based on the description/purpose. The expenditures reported for each project category are compared to historic averages to identify possible problem areas. If the expenditures fall outside the expected parameters, additional documentation will be requested from the district to verify that the expenditures were not reported in error. The district will have thirty days to submit the requested documentation. If no documentation is submitted, or the documentation submitted does not explain the anomaly, the project may convert to an in-depth expenditure audit. If the submitted documentation is reviewed and the expenditures are found to be appropriate, there will be no audit adjustment (see Sections 3.10, 3.10.1, and 3.10.2 for more detail on eligible and ineligible SFP expenditures).

3.4 IN-DEPTH FINAL EXPENDITURE AUDIT

Some projects will be selected for an In-Depth Final Expenditure Audit, which consists of a more detailed examination of the expenditures reported on the Form SAB 50-06 and Detailed Listing of Project Expenditures, as well as verification of the certifications made by the district on the Forms SAB 50-04, 50-05, 50-07, 50-08, and 50-09. Districts that are unable to substantiate program certifications may be subject to material inaccuracy penalties prescribed in Regulation Section 1859.104.1. The project audit will be accomplished by requiring districts to submit documentation as appropriate, such as, but not limited to, specific warrants, contracts and/or agreements related to construction, inspection, construction tests, and architectural services, or other supporting documentation substantiating certifications made on the Forms SAB 50-04 and 50-05. The audit staff has the discretion to perform on-site Expenditure Audits and Post-Occupancy Audits in order to verify district's claims. See sections 3.10, 3.10.1 and 3.10.2 for more detail on eligible and ineligible SFP expenditures.

Modernization projects will be reviewed to assure modernization funds are not being used to increase the new building area except in the case of replacement area of like kind, or if required by the federal Americans with Disabilities Act (ADA), or by the DSA handicapped access requirements. Modernization projects will also be reviewed to assure modernization funds are not being used for site costs, with the exception of replacement, repair or additions to existing site development. Also, the audit review will establish that the removal of hazardous or solid waste costs, established by the DTSC, did not exceed 10 percent of the combined adjusted grant and the district matching share

for the project. If the modernization funding grant was used to modernize leased facilities, the audit review will verify that funds were used only for work on facilities owned by another school district or county office of education. 50-year-old modernization projects will be audited using the standards for regular modernization projects, with the exception that utility costs may be deemed allowable. Utility costs for water, sewage, gas, electric, and communication systems may be allowed as prescribed in Regulation Section 1859.78.7.

New Construction projects will be reviewed to ensure the number of classrooms in the project was not decreased. New Construction projects will also be reviewed to determine whether the district increased the number of classrooms by more than 150 percent of the original pupils assigned to the project. If the district spent beyond the total grant amount, the pupils above the 150 percent threshold will be reduced from the district's new construction eligibility baseline.

Post-occupancy reviews will be performed in conjunction with the Division of the State Architect and California Department of Education to verify the district performed the work as requested in the Application for Funding (Form SAB 50-04). For New Construction projects, the number of classrooms built will be compared to the number of classrooms requested on the Form SAB 50-04. If the project is a Use of Grants project, verification of the type of project constructed will be made, including identifying the use of any savings achieved on the project. For modernization projects, the architect's cost estimate will be reviewed and compared to the actual work done in the modernization of particular facilities.

In addition, the audit staff will verify the following specific certifications made by the district on the Forms SAB 50-04 and 50-05:

- ▶ The district's applicable matching share was deposited in the County School Facility Fund.
- ▶ The district deposited at least 3 percent of its unrestricted General Fund (of which an amount equal to ½ percent of this amount can be the district's contribution to its deferred maintenance fund) into the Routine Restricted Maintenance Account (Education Code Section 17070.75(b)).
- ▶ The district competitively bid the construction contracts.
- ▶ The district met all relevant Disabled Veteran Business Enterprise (DVBE) requirements.
- ▶ The district used the Qualifications Appraisal standards, as outlined in Government Contract, Code Section 4526, when contracting with the architect, engineers, site surveyors, etc.
- ▶ The State's prevailing wage requirements were met.
- ▶ The district complied with the State's Public Contract Code requirements governing Force Account labor.

3.5 IN-DEPTH FINAL EXPENDITURE AUDIT FOR SITE PURCHASES

New construction projects may be eligible for site acquisition funds under the SFP. For projects receiving funds for a site purchase, audit review will include the verification and examination of site expenditures and a determination if the site grant was appropriate and met provisions set forth in Regulation Sections 1859.74, 1859.74.1, and if applicable, 1859.74.2 and 1859.75.1. Projects initially approved under the LPP for planning and/or site and later converted to SFP projects will be audited using the SFP guidelines.

Districts will be eligible for approved hazardous material removal work and associated DTSC oversight fees up to 50 percent of the appraised as a clean site value of the property (see regulation section 1859.74.2, 1859.74.3, 1859.74.4, and 1859.75.1).

For all sites requiring DTSC review, the audit staff will obtain invoices from the district in order to verify the costs reported for the Response Action (RA). The Phase One Environmental Site Assessment and Preliminary Environmental Assessment costs are distinct from the RA costs, and are not considered part of the project's 50 percent "cap" established by the SAB for site cleanup. The expenditure audit may result in an increase/decrease of the additional grant amount for hazardous material removal, remediation costs, and DTSC oversight fees pursuant to Regulation Section 1859.106.

In order to verify compliance with the requirements of the Toxics Regulations and to assure all costs reported for this grant were indeed for hazardous waste removal, the audit staff will obtain invoices from the district for all costs reported for any Additional Grants for Hazardous Waste Removal. Additionally, for both Hazardous Waste Removal and Environmental Hardship Grants, the audit staff will verify that all fees and cleanup costs are related to the site for which the expenditures are being reviewed.

Relocation assistance expenditures will also be audited based on criteria set forth in Title 25, California Code of Regulations Section 6000, et seq. Additional documentation such as contracts, invoices, appraisal reports, court documents, legal contracts, legal billings, etc., will be requested from the district and a thorough review of these expenditures will be performed. The relocation expenditures are approvable if they are reasonable and necessary for purchasing fixtures and equipment, personal property, new machinery/equipment and the installation of improvements at the replacement residence or business location of the displaced tenants and/or property owners as stated in Regulation Section 1859.74(a)(1) (see Sections 3.10, 3.10.1, and 3.10.2 for more detail).

For projects which did not proceed to the adjusted grant phase within 18 months of the fund release date for Separate Site (12 months from the apportionment date for Environmental Hardship, unless time extensions were approved by the SAB), an item will be presented at the next available SAB meeting to advise the SAB the district did not request an adjusted grant for the project.

3.6 JOINT-USE PROJECT AUDIT

The type of joint-use project will differentiate the appropriate audit criteria used. For a Type 1 and 2 Joint-Use projects, the audit staff will verify that contracts were executed after April 29, 2002 and that the project was approved by the DSA and CDE. Type 1 projects may only be approved as facilities used to improve academic achievement, provide teacher education, and childcare facilities. Type 2 projects may only be approved for a multipurpose room, gymnasium, childcare facility, or library. The audit staff will also verify that Utility costs, Service Site Costs, and Offsite costs, if applicable, are part of the new construction project and not the Joint-Use project (see Regulation Sections 1859.122 and 1859.122.1).

For a Type 3 Joint-Use project, the audit staff will verify that the contract was executed after April 29, 2002, the project was approved by the DSA and CDE, and that the preliminary plans were complete and approved by the CDE when the project application was submitted. A Type 3 Joint-Use project may only be approved to improve pupil academic achievement, provide teacher education, multipurpose room, gymnasium; library, or childcare facility. The audit staff will authorize site support and utility costs for these types of stand-alone projects. However, off-site costs will be disallowed for this type of project.

The agreements between the district and the Joint-Use partner(s) will be verified to ensure that the agreement has at least the following Provisions:

- ▶ Shared responsibility between the Joint-Use partners and school district involved (does not include the SAB).
- ▶ Shared responsibility for funding of the operational costs of the project after the project is complete.
- ▶ Specifying the responsibilities regarding the operation and staffing of the project.
- ▶ Identify specific criteria to ensure the safety of the pupils during regularly scheduled school hours.
- ▶ Specifying the Joint-Use facility will be made available for at least 20 hours per week.

If the project is a type 1 or 2 joint-use project, the district has the same timeframe as that of a regular SFP project to meet the substantial progress requirements (see Section 2.1). If a type 3 joint-use project, the district has one year to submit DSA and CDE approved plans and DSA approved specifications to the OPSC, otherwise the project will be rescinded. If this one year requirement is met, the type 3 project will be subject to the 18 month substantial progress requirement.

The audit also verifies that any expenditures above the State and joint-use partner's matching share was funded by the joint-use partner(s) applicant school district. Districts must ensure that if the district combines the Joint-Use project with a regular SFP expenditure project, all costs are pro-rated between the various projects.

A verification will be made to ensure that any funds used by the Joint-use partner to match the State's funds would not have otherwise been available to the district (see Regulation Section 1859.127).

3.7 CRITICALLY OVERCROWDED SCHOOLS

If the district receives an advanced site and design apportionment, and if the district does not convert to a SFP project within the 4 years given to the district to submit a Form SAB 50-04, or 5 years if the district is granted a 12 month time extension to submit a Form SAB 50-04, the project will be rescinded or closed to costs incurred. If the district does not convert to a SFP project, expenditure reports must be submitted to close the project to costs incurred. If no expenditure reports are submitted, the Critically Overcrowded School (COS) project will be rescinded and all State funds, plus interest accrued, will be reimbursed to the State. When expenditure reports are submitted, the COS project will be reduced to costs incurred.

When a COS project converts to a SFP project, it will be subject to all SFP progress and auditing standards. A substantial progress report will be required at 18 months from the date the SFP funds were released. Annual expenditure reports will be required beginning one year from the date of the first fund release until the project is complete. The project is also considered complete when 3 years elapse from the date of the final fund release for an elementary project, or 4 years for a middle or high school project, at which time final expenditure reports must be submitted. Once complete, the project will be audited using the SFP expenditure audit criteria.

3.8 CHARTER SCHOOLS

Similar to a COS project, when a Charter School project converts to a SFP project, it will be subject to all SFP progress and auditing standards. A substantial progress report will be required at 18 months from the date the SFP fund release was made. Annual expenditure reports will be required beginning one year from the date of the first fund release until the project is complete. The project is also considered complete when 3 years elapse from the date of the final fund release for an elementary project, or 4 years for a middle or high school project, at which time final expenditure reports must be submitted. Once complete, the project will be audited using the SFP expenditure audit criteria (see requirements in Article 14 of the regulations):

3.9 LABOR COMPLIANCE

For SFP projects subject to AB 1506, the district must submit at the time of the OPSC audit the following:

- ▶ Copy of the Department of Industrial Relations approved Labor Compliance Program (LCP) to which the project(s) conformed.
- ▶ If applicable, a copy of the third party provider contract.

The district must also be prepared to submit upon OPSC request, the following:

- ▶ All bid invitation and contracts that must contain language alluding to Labor Code Section 170 through 1780 compliance and verification.
- ▶ Evidence that a pre-job conference was conducted with the contractor and subcontractor and that the district enforced the requirements as set in Labor Code Section 1770 through 1780.
- ▶ Evidence of weekly submittals of certified copies of payroll for all contractors and subcontractors.

Labor Code Section 1771.7 provides that a district may elect to contract with an outside entity, or use its own employees to implement and administer the LCP. If the district intends to use its employees, it must meet the requirements as detailed in the Public Contract Code and account for, in the SFP audit, the following:

- ▶ The name of the district employee performing the LCP duties.
- ▶ The salary and benefits of the employee including transportation costs.
- ▶ A specific breakdown of hours spent by project subject to the LCP requirements.

3.10 ALLOWABLE EXPENDITURES UNDER THE SFP – GENERAL

The statutory language governing the SFP apportionments is very broad in scope for both new construction and modernization projects. Statutory language for new construction, such as “a grant for new construction may be used for any and all costs to adequately house new pupils . . .”, and for SFP modernization, such as “a modernization apportionment may be used for an improvement to extend the useful life of or to enhance the physical environment of the school . . .”, indicate there is a lack of defined cost allowances when determining eligibility of some project expenditures. This section, Section 3.10.1, and Section 3.10.2 will offer guidelines for determination of eligible expenditures. As a general rule, any project cost will be allowed, with limitations in some cases, which can reasonably be attributed to the project in accordance with applicable regulations and law.

Education Code Section 17072.35 provides direction relative to what new construction grants may be used for:

“A grant for new construction may be used for any and all costs necessary to adequately house new pupils in any approved project, and those costs may only include the cost of design, engineering, testing, inspection, plan checking, construction management, site acquisition and development, demolition, construction, acquisition and installation of portable classrooms, landscaping, necessary utility costs, utility connections and other fees, equipment including telecommunication equipment to increase school security, furnishings, and the upgrading of electrical systems or the wiring or cabling of classrooms in order to accommodate educational technology. A grant for new construction may also be used to acquire an existing government or privately owned building, or a privately financed school building, and for the necessary costs of converting the government or privately owned building for public school use.”

Other pertinent regulations contained in Article 8 (of the SFP regulations) provide further information relative to appropriate uses of SFP new construction funding which should be referred to during the course of a final expenditure audit.

Education Code Section 17074.25 provides guidelines relative to eligible SFP modernization expenditures and states:

“A modernization apportionment may be used for an improvement to extend the useful life of, or to enhance the physical environment of, the school. The improvement may only include the cost of design, engineering, testing, inspection, plan checking, construction management, demolition, construction, the replacement of portable classrooms, necessary utility costs, utility connection and other fees, the purchase and installation of air-conditioning equipment and insulation materials and related costs, furniture and equipment, including telecommunication equipment to increase school security, fire safety improvements, playground safety improvements, the identification, assessment, or abatement of hazardous asbestos, seismic safety improvements, and the upgrading of electrical systems or the wiring or cabling of classrooms in order to accommodate educational technology. A modernization grant may not be used for costs associated with acquisition and development of real estate or for routine maintenance and repair.”

Education Code Section 17074.10(d) also specifies the Legislature did not intend modernization funding be used on administrative and overhead costs.

Other regulations contained in Article 8, New Construction and Modernization Grant Determinations), provides further information relative to appropriate uses of SFP modernization funding that will be referred to during the course of a final expenditure audit.

3.10.1 Allowable Expenditures under the SFP – Specific Guidelines

Districts are advised the SFP does not have set fee schedules or allowances for the categorized project expenditures. The SFP, with few exceptions, has no limitations on the fees associated with architects or construction managers, etc. However, the districts are responsible for completing the project as certified on the Application for Funding (SAB 50-04). Furthermore, there are no set allowances for project components other than those noted below.

The following general guidelines shall be utilized in reviewing an SFP new construction or modernization project (assumes it is a non-financial hardship project). With some exceptions, as noted, allowable project expenditures are as follow:

SFP Allowable Expenditures

- 1) **Site Costs (not applicable to modernization):**
 - A) Purchase Price of Property – An allowable expenditure provided the site was not previously funded under the Lease-Purchase Program, and the expenditure reported is the lesser of the appraised value (submitted within six month of a complete SFP funding application) or actual purchase price. The costs for toxics cleanup and removal, as well as DTSC oversight fees associated with the cleanup are allowable expenditures. Excess DTSC costs and costs for Hazardous Waste Removal beyond the 50 percent of the appraised value cap are not allowable costs and must be funded by the district; no additional apportionments will be made to fund these costs.
 - B) Appraisal Fees
 - C) Escrow Fees
 - D) Survey Costs
 - E) DTSC Phase One Environmental Assessment Fees, Response Action costs, and Preliminary Endangerment Assessment Fees
 - F) Relocation Assistance – Allowable expenditures as long as expenditures conform to Title 25, California Code of Regulations, Section 6000, et. seq. Any reasonable and necessary relocation costs for purchasing fixtures and equipment, personal property, new machinery/equipment and the installation of any improvements at the replacement residence or business location may be included as eligible relocation expenditures. Specifically, these costs include: rental assistance; last resort housing costs; down-payment assistance; any costs the district is required to pay through a court finding such as goodwill, cost of land, etc.; moving expenses; “in-lieu” of business expenses; business moving costs; furniture and equipment costs if the business is unable to relocate; and reasonable relocation consultant fees.
 - G) Development of Phase One Environmental Assessment and Preliminary Endangerment Assessments
 - H) Legal Fees Associated with Securing a Site
- 2) **Planning Costs**
 - A) Architect’s Fee for Plans
 - B) DSA Plan Check Fee
 - C) CDE Plan Check Fee
 - D) Energy Analysis Fee
 - E) Preliminary Site Tests
 - F) Consultant Fees – Allowable expenditure, as long as expenditures are related to the project.
 - G) Advertising for Construction Bids
 - H) School District “third party provider” or own forces labor compliance program costs.
- 3) **Construction Costs**
 - A) Utility Services (see Regulation Section 1859.76(c) for more information). 50-year-old Modernization projects are also eligible to receive funding for utility costs (see Regulation Section 1859.78.7).
 - B) Off-Site Development (see Regulation Section 1859.76(b) for more information).
 - C) Service Site Development (see Regulation Section 1859.76(a) for more information).
 - D) General Site Development
 - E) Building Construction
 - F) Modernization Costs – Allowable expenditures including the following, but subject to the limitations in Section 3.10.2 – Ineligible SFP Expenditures, items C through F:
 - 1) Any new building area included in a modernization project which replaces “like kind” area.
 - 2) New site development expenditures for replacement, repair or additions to existing site development work.
 - 3) Removal of hazardous waste the DTSC has declared safe which does not exceed ten percent of the total modernization project cost.
 - G) Construction Management Fees
 - H) Demolition Costs – Allowable expenditure if the cost is attributable to replacement of “like kind” building area for modernization projects (see Regulation Section 1859.79.2(a)), no cost limitations for new construction projects.
 - I) Force Account Labor – Allowable if it complies with the Public Contract Code and is specific to the project (note: may also be a planning cost).
 - J) Interim Housing – Allowable expenditures with no cost limitations for modernization projects. Also eligible for new construction projects that are additions to an existing site where classrooms temporarily are inaccessible or unsafe to house students.
 - K) Unconventional Energy
 - L) Construction Tests
 - M) Inspections
 - N) Furniture and Equipment
 - O) Construction Supervision/Security
 - P) Legal Costs – Allowable if directly attributable to project.
 - Q) Energy Conservation Costs.
 - R) Joint-Use project expenditures, see the following table:

► **Joint Use Project Expenditures**

Type of Joint-Use Project	Eligible For Site Acquisition?	Eligible for Site Development?
Type 1	No, as part of the Joint-Use project. Yes, as part of the New Construction project.	Must be part of the New Construction project.*
Type 2	No, as part of the Joint-Use project. Yes, as part of the New Construction project.	Must be part of the New Construction project.*
Type 3	No	Yes, for Service Site and Utilities. No off-site costs allowed.

* Site development will be allowed in project if work shown to be germane only to Joint-Use project.

3.10.2 Ineligible SFP Expenditures

The following costs shall be disallowed during an SFP final expenditure audit:

► **Ineligible SFP Expenditures**

- A) Administrative and overhead, unless related to eligible Labor Compliance Program costs (see Section 3.9)
- B) District force account labor which does not comply with the Public Contract Code.
- C) Modernization expenditures for:
 - 1) New building area which does not replace building area of "like kind."
 - 2) New site development modernization not for replacement, repair or additions to existing site development work.
 - 3) Removal of hazardous waste from a modernization project the DTSC has declared unsafe which exceeds ten percent of the total modernization apportionment.
 - 4) Costs incurred on leased facilities not owned by another district or county superintendent.
- D) Acquisition and development of real estate.
- E) Demolition costs not attributable to replacement of "like kind" building area.
- F) Any expenditures which are not reasonably attributed to the project.
- G) Relocation costs not conforming to Title 25, California Code of Regulations, Section 6000, et seq. (see Regulation Section 1859.74(a)(1)).
- H) Expenditures associated with a "use of grant" (see Regulation Section 1859.77.2) SAB approval that were not constructed as specified in the original approval.
- I) Campus supervision going beyond construction site security (such as campus security and administrative overhead).
- J) Financial Hardship project expenditures exceeding the district's grant eligibility for the project plus interest earned on State funds.
- K) New construction expenditures associated with interim housing.
- L) Relocation costs not considered reasonable such as: goodwill not court ordered; the difference between the salvage value and new value of furniture and equipment costs, if the business vendor retains the furniture and equipment.
- M) Legal costs not directly attributable to the project.
- N) Expenditures associated with facility hardship SAB approvals which were not constructed as originally approved (see Regulation Section 1859.82).
- O) Type 1 and 2 Joint-Use site development costs (also refer to Joint-Use chart in Section 3.10.1).
- P) Site Acquisition costs related to Joint-Use (also refer to Joint-Use chart in Section 3.10.1).

3.11 EXPENDITURE AUDIT RESPONSE

Once the expenditure and/or in-depth expenditure audit(s) have been completed, the audit staff will notify the school district of its findings and as appropriate, prepare an SAB item or issue an administrative journal recommending the project be closed. Notification to the district will be in the form of an Expenditure Review letter with the Review of Project Financing and Expenditures attached. In addition to reporting any audit findings, the OPSC will inform the district if the audit staff will prepare a SAB item for the next available board or an administrative journal to close the project. The SAB item may request an increase or decrease of the project's SFP grant for various site costs and/or a reduction in the SFP grant for other project costs considered ineligible (per Regulation Section 1859.106).

The district will have 30 calendar days to respond to the audit staff's findings. If additional documentation is submitted within the 30 days, the audit staff will revise the audit findings, if necessary, and repeat the process of sending the audit findings to the district. If the district does not respond within 30 days or accepts the audit findings, an item will be presented at the next available SAB, or an administrative journal will be prepared to close the project.

3.12 PROJECT SAVINGS

For an applicant district that declares savings on a SFP project, and the savings amount has been verified through the OPSC expenditure audit, Regulation Section 1859.103 states that "A district may expend the savings not needed for a project on other high priority capital facility needs of the district . . .". The regulation further prescribes that the ". . . State's portion of any savings from a new construction project or a Joint-Use Project may be used as a district matching share requirement, only on another new construction project, and the State's share of any savings from a modernization project may be used as a district matching share requirement, only on another modernization project". In considering both of these regulation references, the district is free to apply the savings achieved on a construction project towards the district's high priority capital facility needs of like kind projects (State share of savings), including reducing the district's contribution on a future project of like-kind.

The district is limited as to how savings are used for financial hardship projects according to Regulation Section 1859.103. The savings achieved on a project, including interest accrued, must be used to reduce the financial hardship contribution on that project, or on future financial hardship projects. The district will have three years from the date savings was determined through the SFP Expenditure audit to apply savings to reduce the financial hardship contribution on a future project. If the district does not apply the savings within three years, the district must reimburse the savings, including interest, to the SAB. The expenditure amount reported above the district and State share, including interest, will be used to reduce the project's financial hardship contribution.

Savings will be pro-rated appropriately based on the funding of the project. For example, if a project is funded 50 percent by the State and 50 percent by the district, for every dollar remaining in savings, 50 percent is considered the State's share of savings, and 50 percent is considered the district's share of savings.

If the district had savings but did not report the use of savings at the time of project closeout, the district will be required to submit annual savings expenditure reports, using the Detailed Listing of Project Expenditures – Savings (located on the OPSC website) until all savings are spent. For financial hardship projects that have unexpended savings, the district will be required to submit annual savings expenditure reports for three years. At the end of the three-year period, if the savings are not fully expended, the district must reimburse to the State any unapplied savings, including interest accrued.

OPSC audit staff will review the savings expenditure reports for accuracy and to verify the costs are considered eligible per section 3.10, 3.10.1, 3.10.2, and as prescribed in Regulation Section 1859.103 and 1859.106. The savings expenditure reports will be verified to ensure that the construction projects receiving the savings funding are appropriate, and that warrant numbers, warrant dates, warrant amount, and the description/purpose are appropriate.

- ▶ Introduction
- ▶ Things to Know
- ▶ Where to Begin

INTRODUCTION

This guidebook was developed by the Office of Public School Construction (OPSC) to assist school districts in applying for and obtaining "grant" funds for the new construction and modernization of schools under the provisions of the Leroy F. Greene School Facilities Act of 1998 (Senate Bill 50). It is intended to be an overview of the program for use by school districts, parents, architects, the Legislature, and other interested parties on how a district or county superintendent of schools becomes eligible and applies for State funding. This guidebook provides direction on accessing the processes leading to project approvals, insight to the various features of the School Facility Program (SFP), and includes suggestions on how to make the funding system as efficient as possible. However, it is not meant to be a step-by-step discussion of every conceivable application process or project type. For complete project specific information be sure to review the SFP Regulations located on the OPSC Web site at www.opsc.dgs.ca.gov and, most importantly, contact your OPSC project manager. The OPSC project managers are assigned by county, and a complete listing of project manager assignments, including telephone numbers and E-mail addresses, are also included on our Web site.

THINGS TO KNOW

Included in this edition are the changes to the SFP as a result of Assembly Bill (AB) 14 (Goldberg), AB 1506 (Wesson), AB 401 (Cardenas), the AB 16 (Hertzberg) change that was not included in the December 2002 edition (urban adjustment factor) and the clarification of types of parking structures that are eligible for additional grants for site development costs.

AB 14 included a pilot program to fund charter school facilities construction (Chapter 6), changed how students enrolled in charter schools are reported for eligibility in the SFP, increased the cap on site acquisition and response action costs, and allows the California Schools for the Deaf and Blind to apply for SFP modernization funding. AB 1506 requires that the State Allocation Board (SAB) receive a written finding from the local school board that a labor compliance program (LCP) has been initiated and enforced prior to the release of funds for SFP a project. AB 401 allows a district, under certain circumstances, to receive funding representing one half the appraised value of a district-owned site when that site will be used for school construction. The last change to the SFP as a result of AB 16 impacts a project's eligibility for increased costs that may be uniquely associated with "urban construction".

Some program changes are in the regulation process and not yet effective. These changes include modifying the three year SFP new construction eligibility lock-in for small school districts to allow for the capture of increases to the district's enrollment while preserving their protection against a loss of eligibility due to enrollment decreases (AB 16); and, the substantial progress measures for separate site apportionments has been expanded to include other evidence satisfactory to the SAB.

As this edition of the School Facility Program Guidebook is being written, the OPSC and the SAB Implementation Committee are proposing amendments to the regulations regarding requests for pupil grants that exceed the capacity of the project and to use grant eligibility at a grade level other than the proposed project (Use of Grants). At the January 22, 2003, SAB meeting emergency regulations were approved that modify the existing regulations.

Existing regulations with the listed modifications will apply for applications with plans submitted to the Division of the State Architect on or before January 22, 2003. Applications are restricted to pupil grant requests that do not exceed 135 percent of the project capacity and do not include a multi-track year round enrollment (MTYRE) housing plan. For more information contact the district's OPSC project manager.

WHERE TO BEGIN

Chapter 1, School Facility Program Overview and Chapter 2, The State Allocation Board, the Office of Public School Construction, and Other Involved Agencies will provide general information. After reviewing these chapters, the reader may want to review Chapter 4, Application for Eligibility, because establishing eligibility is the first step in filing an application for either new construction or modernization funding. The remaining chapters can be reviewed as the topics arise.

Chapter 1

School Facility Program Overview

In this chapter. . .

- ▶ Introduction
- ▶ Funding for the School Facility Program
- ▶ Implementation of the School Facility Program

INTRODUCTION

The School Facility Program (SFP) began in late 1998 and is a significant change over previous State facilities programs. The State funding is provided in the form of per pupil grants, with supplemental grants for site development, site acquisition, and other project specific costs when warranted. This process makes the calculation of the State participation quicker and less complicated. In most cases, the application can be reviewed, the appropriate grants calculated, and SAB approval received in 60–90 days regardless of project size.

In addition to a less complicated application process, the SFP provides greater independence and flexibility to the school district to determine the scope of the new construction or modernization project. There is considerably less project oversight by State agencies than in previous State programs. In return, the program requires the school district to accept more responsibility for the outcome of the project, while allowing the district to receive the rewards of a well managed project. All State grants are considered to be the full and final apportionment by the SAB. Cost overruns, legal disputes, and other unanticipated costs are the responsibility of the district. On the other hand, all savings resulting from the district's efficient management of the project accrue to the district alone. Interest earned on the funds, both State and local, also belongs to the district. Savings and interest may be used by the district for any other capital outlay project in the district. See Chapter 13, Additional SFP Requirements and Features for more information on project savings.

The SFP provides a funding source in the form of grants for school districts to acquire school sites, construct new school facilities, or modernize existing school facilities. The two major funding types available are "new construction" and "modernization".¹ The new construction grant provides funding on a 50/50 State and local match basis. The modernization grant provides funding on a 60/40 basis. Districts that are unable to provide some or all of the local match requirement and are able to meet the financial hardship provisions may be eligible for additional State funding (see Chapter 10, Financial Hardship).

IMPLEMENTATION AND EVOLUTION OF THE SCHOOL FACILITY PROGRAM

Senate Bill 50 (Greene) was chaptered into law on August 27, 1998, establishing the SFP. The legislation required that regulations be approved and in place for accepting and processing applications as soon as Proposition 1A was approved by the voters the following November. The School Facility Program continues to evolve through legislative changes. Assembly Bill (AB) 16 and AB 14 provided for significant changes requiring regulations be approved and in place for accepting and processing applications as soon as Proposition 47 was approved by the voters in November 2002. These changes included funding for Charter school facilities, Critically Overcrowded Schools, Joint Use Projects. Some of the changes that impacted new construction funding include the suspension of Priority Points, an additional grant for energy efficiency, and several changes that impact the determination of eligibility. Some of the changes that impacted modernization funding include the change of the funding ratio between the State and the school district from 80 percent State and 20 percent District to 60 percent State and 40 school district, and additional grants for energy efficiency and the modernization of buildings 50 years old or older.

¹ Education Code Sections 17072.10 and 17074.10 establishes the new construction grant and modernization grant respectively.

Information on each category of funding can be found in the following chapters:

► SFP Component	Chapter	Page
New Construction	5	19
Modernization	9	49
Financial Hardship	10	57

Helpful Hint:

A listing of school districts who have received funding is available on the OPSC Web site at www.opsc.dqs.ca.gov.

FUNDING FOR THE SCHOOL FACILITY PROGRAM

Funding for projects approved in the SFP comes exclusively from statewide general obligation bonds approved by the voters of California. The first funding for the program was from Proposition 1A, approved in November 1998. That bond for \$ 9.2 billion contained \$6.7 billion for K–12 public school facilities. The second funding for the program is from Proposition 47, approved in November 2002. It is a \$13.2 billion bond, the largest school bond in the history of the State. It contains \$11.4 billion for K–12 public school facilities.

A future bond is currently proposed for March 2004.

Chapter 2

The State Allocation Board, the Office of Public School Construction, and Other Involved Agencies

In this chapter. . .

- ▶ State Allocation Board
- ▶ Office of Public School Construction
- ▶ Other Agencies Involved

STATE ALLOCATION BOARD

Created in 1947 by the State Legislature, the State Allocation Board (SAB) is responsible for determining the allocation of State resources including proceeds from General Obligation Bond Issues and other designated State funds used for the new construction and modernization of public school facilities. The SAB is also charged with the responsibility for the administration of the State Relocatable Classroom Program, the Deferred Maintenance Program, and many other facilities related programs. Handbooks on these programs may be found on the OPSC Web site at www.opsc.dgs.ca.gov. Printed copies may be obtained by contacting the OPSC directly.

The SAB meets monthly typically at the State Capitol. At each meeting the SAB reviews and approves applications for eligibility and funding, acts on appeals, and adopts policies and regulations as they pertain to the programs that the SAB administers.

Members

The SAB is comprised of ten members:

- ▶ The Director of the Department of Finance or designee (Traditional SAB Chair)
- ▶ The Director of the Department of General Services or designee
- ▶ The Superintendent of Public Instruction or designee
- ▶ One person appointed by the Governor
- ▶ Three State Senators; appointed by the Senate Rules Committee (two from the majority party and one from the minority party)
- ▶ Three State Assembly Members; appointed by the Speaker of the Assembly (two from the majority party and one from the minority party)

The current SAB members are:

- ▶ Steve Peace, Director, Department of Finance
- ▶ Clothilde Hewlett, Interim Director, Department of General Services
- ▶ Jack O'Connell, Superintendent of Public Instruction
- ▶ David Sickler, Governor Appointee
- ▶ Dede Alpert, Senator
- ▶ Bob Margett, Senator
- ▶ Tom Torlakson, Senator
- ▶ John Dutra, Assembly Member
- ▶ Marco Firebaugh, Assembly Member
- ▶ Tony Strickland, Assembly Member

The current SAB officers are:

- ▶ Luisa M. Park, Executive Officer
- ▶ Bruce B. Hancock, Assistant Executive Officer
- ▶ Karen McGagin, Deputy Executive Officer

SAB Implementation Committee

The SAB Implementation Committee is an informal advisory body established by the SAB to assist the SAB and the OPSC with policy and legislation implementation. The committee membership is comprised of organizations representing the school facilities community which meets approximately once a month depending upon the workload. The SAB Assistant Executive Officer is the chair of the committee. Committee membership as well as the time and location of future meetings can be found on the OPSC Web site at www.opsc.dgs.ca.gov.

OPSC Mission:

"As Staff to the State Allocation Board, the Office of Public School Construction facilitates the processing and approval of applications and the awarding of funding available to qualifying school districts. These actions result in school districts having safe and adequate school facilities for their children in an expedient and cost-effective manner."

Helpful Hint:

The Directory of California provides information regarding project and county assignments, including telephone numbers, and other contact information.

OFFICE OF PUBLIC SCHOOL CONSTRUCTION

The OPSC serves the 1,000 plus K–12 public school districts in California. As staff to the SAB, the OPSC is responsible for allocating State funding for eligible new construction and modernization projects to provide safe and adequate facilities for California public school children. The OPSC is also responsible for the management of these funds and the expenditures made with them. It is also incumbent on the OPSC to prepare regulations, policies, and procedures for approval by the SAB that carry out the mandates of the law.

OPSC Responsibilities

The OPSC is charged with the responsibility of verifying that all applicant school districts meet specific criteria based on the type of eligibility or funding which is being requested and to work with school districts to assist them throughout the application process. The OPSC ensures that funds are allocated properly and in accordance with the law and decisions made by the SAB. Since November of 1988, the OPSC has processed over \$26.2 billion dollars in State apportionments to the SAB. The programs, funding, and approvals over that period are shown in Appendix 5, Summary of Bond and Deferred Maintenance Allocations.

The OPSC prepares agendas for the SAB meetings. These agendas keep the SAB members, districts, staff, and other interested parties apprised of all actions taken by the SAB. The agenda serves as the underlying source document used by the State Controller's Office for the appropriate release of funds. The agenda further provides a historical record of all SAB decisions, and is used by school districts, facilities planners, architects, consultants, and others wishing to track the progress of specific projects, the availability of funds, and SAB regulations.

Management of the Office of Public School Construction

The OPSC is directed by an Executive Officer who is appointed by the Governor. The appointee also serves as the Executive Officer to the SAB. A Deputy Executive Officer is selected by the Executive Officer subject to the approval of the Director of General Services. The Deputy oversees the daily operation of the office. An Assistant Executive Officer is appointed by the SAB. Although not technically a member of the OPSC management, the Assistant Executive Officer works directly with the OPSC management team and acts as liaison between the SAB and the OPSC.

OTHER AGENCIES INVOLVED

School districts planning to construct or modernize existing schools require the assistance of several local, State, and federal agencies. It is essential that those dealing with the school construction process have an understanding of the role each agency plays. The three primary State agencies that will be referred to in this guidebook, in addition to the SAB and the OPSC, are the Division of the State Architect (DSA), the California Department of Education (CDE) School Facilities Planning Division (SFPD), and the Department of Toxic Substances Control (DTSC). District representatives may also come into contact with many other agencies. A listing of some of the agencies that might be involved in a school project and their role is provided in Appendix 2, Potential State Agency Involvement.

The agency information provided in this chapter is meant as a tool for school district representatives to become familiar with the primary State agencies involved in the school construction process. The OPSC encourages district representatives to contact each agency to obtain more information about their procedures and processes. To contact the agencies listed below, please see Appendix 1, State Agency Contact Information.

Department of General Services, Division of the State Architect

The primary role of the DSA in the school construction process is to review plans and specifications to ensure that they comply with California's building codes with an emphasis on structural and seismic safety. The review commences when the school district's architect submits working drawings to the DSA. The DSA reviews the working drawings to assure that the proposed structures meet codes and requirements for structure (seismic), fire and life safety, and universal design compliance.

California Department of Education, School Facilities Planning Division

The role of the SFPD is to review and approve school district sites and construction plans. The SFPD review begins when a school district plans to acquire a new school construction site. Prior to approving a site for school purposes, the SFPD reviews many factors, including, but not limited to, environmental hazards, proximity to airports, freeways, and power transmission lines. The review of construction plans by the SFPD focuses mainly on the educational adequacy of the proposed facility and whether the needs of students and faculty will be met. See Chapter 3, Project Development Activities.

Department of Toxic Substances Control

The role of the DTSC in the school construction process begins with the SFPD's site approval process. The DTSC will assist the district with an assessment of any possible contamination, and, if necessary, with the development and implementation of a mitigation plan.

Department of Industrial Relations

The Department of Industrial Relations (DIR) was established to improve working conditions for California's wage earners, and to advance opportunities for profitable employment in California. The role of DIR in the school construction process is to enforce labor laws relating to contractors and employers.

The Labor Code¹ now requires, prior to receiving a SFP fund release, a district to make a certification that a labor compliance program (LCP), that has been approved by the DIR, for the project apportioned under the SFP has been initiated and enforced if both of the following conditions exist:

- ▶ The district has a project which received an apportionment from the funding provided in Proposition 47² or from the potential 2004 State bonds³; and,
- ▶ The construction phase of the project commences on or after April 1, 2003, as signified by the date of the Notice to Proceed.

¹ Refer to the Labor Code Section 1771.7

² Kindergarten–University Public Education Facilities Bond Act of 2002

³ Kindergarten–University Public Education Facilities Bond Act of 2004

The DIR provides a guidebook to assist districts in developing a LCP and has model LCP's available for view on its Web site at www.dir.ca.gov. The DIR also provides public works contract information regarding:

- ▶ LCP's and the Labor Code
- ▶ Classification and Scope of Work
- ▶ Prevailing Wage Determination and Special Determination for a Specific Project
- ▶ Verification of the Status of an Individual Apprentice or an Apprenticeship Program

Questions regarding these matters and LCP approval may be directed to DIR at 415.703.4810.

Chapter 3

Project Development Activities

In this chapter. . .

- ▶ Introduction
- ▶ Establishing Eligibility
- ▶ Selecting Professional Services
- ▶ Project Responsibilities
- ▶ Cost Reduction
- ▶ Joint Use Projects
- ▶ Reusable Plans
- ▶ Project Financing
- ▶ Site Selection

INTRODUCTION

The School Facility Program (SFP) provides funding to projects that are essentially through the design phase and are ready to begin construction. With the exception of certain advanced planning and site applications for financial or environmental hardship situations, applications for funding require plans approved by the Division of the State Architect (DSA) and by the California Department of Education (CDE). Applications for new construction funding may also require CDE approval of the project site. In most cases, a great deal of time, money, and effort has already been expended before the project ever reaches the Office of Public School Construction (OPSC). Most of the tasks involved in this chapter are not a part of the SFP and are not under the jurisdiction of the State Allocation Board (SAB). However, it is important that the district representative is aware of the options and requirements that may affect the district's project.

ESTABLISHING ELIGIBILITY

One of the first steps a district should consider in the school construction process is establishing eligibility for SFP funding on either a district-wide or high school attendance area basis. This will provide the district with the information needed to determine the possibility and scope of State funding assistance, the types of facilities needed, and the appropriate project site size. See Chapter 4, Application for Eligibility for more information about establishing eligibility.

SELECTING PROFESSIONAL SERVICES

The SFP grants include funding for many professional services related to the development of the school project. Some of the most obvious and commonly used services are provided by architects, civil and structural engineers, and construction managers. Under law, these professional services are different than the services provided by general contractors, painters, site grading subcontractors, and similar construction related work. Unlike construction contracts, professional service contracts are obtained through a qualifications based selection process rather than a competitive bid process.

Because the design professional or other service provider will be engaged long before the application for project funding is submitted to the OPSC, it is critical district representatives are aware that professional services used on projects funded through the SFP must be obtained by a competitive selection process. Failure to do so can jeopardize the project funding.

The Competitive Selection Process

The SFP requires that applicant districts certify that contracts for the services of any architect, structural engineer, or other design professional that were entered into, on or after November 4, 1998 for work on the project were obtained through a competitive process. The term competitive does not mean that the selection has been bid, but rather that a formal qualifications based selection process has occurred that lead to the professional services contract¹.

¹ Chapter 11, commencing with Section 4525 of Division 5 of Title 1 of the Government Code.

Neither the SAB nor the OPSC is qualified to interpret the Government Code requirements pertaining to the selection of professional services. The district is advised to seek legal counsel assistance to ensure that the process used fully complies with this requirement as well as other legal requirements² such as Disabled Veterans Business Enterprise requirements, and the Public Contract Codes.

Eventually, the district will be required to certify that professional design services on the project were selected using a competitive process. This certification is made on the Application for Funding (Form SAB 50-04).

Compliance

The competitive selection requirement applies to a new construction or modernization project if:

- ▶ it is funded under the SFP, and
- ▶ professional services of an architect, structural engineer, or other design professional were used to complete the work in the project, and
- ▶ contracts for those services were signed on or after November 4, 1998.

Compliance with this requirement is very important. The law specifically mandates that the SAB shall not apportion funds to a district unless the competitive process for professional services has been used. If, during an audit at the project completion, it is determined that the competitive process was not used, the entire project grant could be found to have been made illegally.

Districts who are unfamiliar with the process of hiring an architect should be aware that the American Institute of Architects (AIA) California Council has sample contracts available to assist districts. For more information, please contact the AIA at 916.448.9082.

PROJECT RESPONSIBILITIES

During the planning, design, and construction of a school facilities project, many individuals and firms come together to contribute to the project in specific ways. Unless responsibility is assigned by law, the decision about who should perform a given task generally rests with the district as owner. Frequently, however, the district may not be aware of the difference between the types of responsibilities, or even of the need to assign responsibilities and tasks related to the project. This lack of clarity may lead to a situation where a task is assigned to more than one individual or firm, creating a duplication of effort which can be wasteful and counterproductive.

As a result of this situation, a small working group was formed by the Joint Committee on School Facilities to address the issue. The Services Matrix is the result of the group's discussions (see Appendix 4, Services Matrix). District representatives may wish to consult the matrix to determine the responsibilities assigned to a project and to avoid duplication of effort.

COST REDUCTION

The SAB has developed cost reduction guidelines to assist school districts in reducing project construction costs. In April 2000, the SAB made available the Cost Reduction Guidelines. The guidelines are a compilation of hundreds of ideas introduced and discussed at a series of statewide meetings. The input into these guidelines comes from various sources, such as school district representatives, State agencies, architects, building industry representatives, construction managers, and consultants. The guidelines provide districts with ideas and new methods to contain and reduce costs and to maximize the return on expenditures. Along with cost reduction guidelines, other incentives within the program, such as the retention of savings, exist to promote efficiency in design and construction of school facility projects. (See Chapter 13, Additional SFP Requirements and Features for more information on project savings.)

² CEOA and Planning per Public Resources Code Section 21151.2.

Helpful Hint:

The SAB publication on cost reduction is available on the OPSC Web site.

JOINT USE PROJECTS

The language in the law which creates the SFP requires that the applicant school district consider the joint use of core facilities. The SAB's Cost Reduction Guidelines contains a number of suggestions as to how a district might investigate such joint use possibilities. Grants received under the new construction program may be used to fund school facilities related joint use projects. Typical joint use projects include multipurpose rooms, libraries, gymnasium, or any other type of facility that can be used by both the district and the community.

Proposition 47 provides funding for Joint Use projects, specific criteria to access this funding was included in AB16 (Hertzberg) (see Chapter 8, Joint Use Projects for more information).

REUSABLE PLANS

The SFP requires the SAB to develop recommendations regarding the use of cost-effective, efficient, and reusable facility plans. Many districts have found that reusing some part or all of a school plan previously constructed in the district or in another district can lead to efficiencies in both the time required to prepare construction plans and the cost of constructing the facility. Such plan reuse is not always feasible, and, even when possible, may require considerable redesign work for the new site; however, in many circumstances the advantages can be significant.

To assist districts with exploring the feasibility of plan reuse for their new construction project, the SAB and the OPSC have developed an Internet-based "catalog" of plans that can be searched and browsed by anyone. The link on the OPSC Web site "Prototype School," contains floor plans, renderings, and vital statistics for a number of projects ranging from complete schools to single classrooms and support buildings. Districts are encouraged to download information on any of the projects on the OPSC Web site without charge. Districts may then contact the architects responsible for the original projects to pursue adaptation of the facilities to their individual needs. Arrangements for use of the plans are made by the district with the design professional. Of course, all plans on the OPSC Web site are copyrighted by the designers or firms that submitted them. The SAB and OPSC do not participate in anyway except as a clearinghouse for plans of school facilities.

PROJECT FINANCING

A district has several different options available to meet its 50 percent funding requirement for new construction and 40 percent funding requirement for modernization projects. Some financing mechanisms the district may consider are:

- ▶ General obligation bond funds
- ▶ Mello-Roos
- ▶ Developer fees
- ▶ Proceeds from the sale of surplus property
- ▶ Federal grants

Once a district has received a SFP apportionment and is ready for funds to be released on a project, they will need to certify on the Fund Release Authorization (Form SAB 50-05) that their contribution to the project has already been expended, is on deposit, or will be expended prior to the notice of completion for the project. (See Chapter 13, Additional SFP Requirements and Features for more information on the fund release process.)

SITE SELECTION

The SFP provides that in addition to the basic grant for a new construction project, the district may also receive up to 50 percent of the cost of site acquisition (see Chapter 5, *New Construction Funding* or Chapter 10, *Financial Hardship*). In most cases, the district must have completed the process of identifying the site and must have approval of the site by the CDE prior to applying for site acquisition funding. Some separate site applications for financial or environmental hardships do not need this approval at the time of application. See further discussion under those topics in Chapter 5, *New Construction Funding*. The identification and approval process falls under the jurisdiction and responsibility of agencies other than the SAB and the OPSC, and is therefore outside the scope of this guidebook. However, because the processes required can be a major factor in a timely application submittal for project funding, district representatives should be aware of some of the basic requirements for site selection as follows:

Identifying a Site

Selecting a site for a new construction project to be funded under the SFP is primarily a local process. The SAB has guidelines and regulations relating only to the funding limits related to site acquisition³. The CDE is given the authority in law to develop standards for school site acquisition related to the educational merit and the health and safety issues of the site. The CDE uses these standards to review a site and to determine if the site is an appropriate location for a school facility. The CDE approval is a requirement before the application for funding can be submitted to the OPSC and subsequently to the SAB for funding.

Site Approval

There are many components that make up the review and approval of a proposed school site. The CDE publication, *School Site Selection and Approval Guide*, addresses these components more completely than this guidebook can. Therefore, the district representative considering an application for a site under the SFP should consult the CDE or their publications. Contact information can be found in Appendix 1, *State Agency Contact Information*.

³ SFP Regulations Sections 1859.74 through 1859.76.

Chapter 4

Application for Eligibility

In this chapter . . .

- ▶ Introduction
- ▶ New Construction Eligibility
- ▶ Modernization Eligibility

Helpful Hint:

Applications for eligibility may be filed in advance of applications for funding.

INTRODUCTION

The School Facility Program (SFP) provides State funding assistance for two major types of facilities construction projects: new construction and modernization. The process for accessing the State assistance for this funding is divided into two steps: an application for eligibility and an application for funding. Applications for eligibility are approved by the State Allocation Board (SAB) and this approval establishes that a school district or county office of education meets the criteria under law to receive assistance for new construction or modernization. Eligibility applications do not result in State funding. In order to receive the funding for an eligible project, the district representative must file a funding application with the Office of Public School Construction (OPSC) for approval by the SAB. See Chapter 5, *New Construction Funding* and Chapter 9, *Modernization Funding* for information on submitting applications for funding.

Applications for eligibility may be filed in advance of an application for funding, or the eligibility and funding requests may be filed concurrently at the preference of the district. In either case, an application for eligibility is the first step toward funding assistance through the SFP. The process must be done only once. Thereafter, the district need only update the eligibility information if additional new construction and modernization funding applications are submitted.

After the application for eligibility is reviewed by the OPSC, it is presented to the SAB for approval. The SAB's action establishes that the district has met the criteria set forth in law and regulation to receive State funding assistance for the construction of new facilities or the modernization of existing facilities. Throughout this chapter, references to the district also include a county office of education unless otherwise noted.

The discussions in this chapter are intended to describe the basic processes a district will encounter and use for establishing eligibility. Every possible situation cannot be dealt with in this overview. When preparing an application, the district representative should always contact the OPSC project manager to be sure that the district's approach is correct and will result in the most eligibility possible for State assistance. To learn more about the SFP program, visit the OPSC Web site at www.opsc.dgs.ca.gov.

NEW CONSTRUCTION ELIGIBILITY

The underlying concept behind eligibility for new construction is straightforward. A district must demonstrate that existing seating capacity is insufficient to house the pupils existing and anticipated in the district using a five-year projection of enrollment. Once the new construction eligibility is determined, a "baseline" is created that remains in place as the basis of all future applications. The baseline is adjusted for changes in enrollment and for facilities added, and may be adjusted for other factors such as errors and omissions or amendments to the Regulations. For a complete list of adjustments, refer to SFP Regulation Section 1859.51. Except for these updates, the establishment of the eligibility baseline is a one-time process.

Establishing Eligibility on a District-Wide or High School Attendance Area

Districts generally establish eligibility for new construction funding on a district-wide basis. For most districts this is the most beneficial method, and the vast majority of applications are filed in this manner. However, under certain circumstances, the district may have more eligibility if the applications are made on a High School Attendance Area

HSAA) basis using one or several attendance areas. This circumstance occurs when the building capacity in one HSAA prevents another from receiving maximum eligibility. For example, one attendance area may have surplus classroom capacity while another does not have the needed seats to meet the current and projected student enrollment. If the district were to file on a district-wide basis, there might be little or no overall eligibility, even though the students in one attendance area are “unhoused” by the definitions established in the SFP. In this case, by filing on a HSAA, the eligibility would increase to allow construction of adequate facilities for the unhoused students.

The district may file using one high school attendance area, or at the district’s option, it may combine two or more adjacent HSAAs, commonly called a “Super Attendance Area.” In either case, the attendance areas must serve an existing, operating high school, and the district must demonstrate that at least one HSAA has negative eligibility at any grade level. Continuation or proposed high schools may not be used for this purpose. Once a district receives funding using a high school attendance area as the basis of its eligibility, it must continue to file future new construction applications on that basis for five years.

Eligibility Process

The SAB has adopted three forms to assist districts in collecting the information needed to establish eligibility. The following outlines the three-step process a district uses to establish new construction eligibility:

► Process for Establishing New Construction Eligibility

Step	Documentation	Purpose
1	Enrollment Certification/Projection (Form SAB 50-01)	Used to collect information about the district’s current and historical enrollment and to project that data five years into the future.
2	Existing School Building Capacity (Form SAB 50-02)	Used to record all the teaching stations in the district that are adequate to house students.
3	Eligibility Determination (Form SAB 50-03)	Used to compare the information from the first two forms and to determine if the district is eligible for new construction or modernization grants.

The forms referred to in the table can be downloaded from the OPSC Web site at www.opsc.dgs.ca.gov in a format that allows them to be printed as blank forms or completed on the computer and printed for submission to the OPSC. A replica of the forms can be viewed in Appendix 3, SFP Required Forms. An Excel spreadsheet titled SAB 50-01, 02, 30 Excel Combined Worksheets is also available on the OPSC Web site that will perform all the required calculations.

Step One – Enrollment Projections

It may take several years to take a new construction project from the initial determination of need to final completion of construction and occupancy. Because of this, the SFP provides a projection of enrollment five years into the future to determine eligibility for funding. The Enrollment Certification/Projection (Form SAB 50-01) is used to make this projection. This form assists the district with determining future needs, planning, arranging State and local funding, and constructing the project before the children to be served arrive. The method of projecting enrollment into the future involves using current and historical California Basic Educational Data System (CBEDS) enrollment data for the district. The data collected is then projected into the future for five years using a method known as a Cohort Survival Projection. A district can obtain CBEDS data from the California Department of Education (CDE).

A district may file on a HSAA basis utilizing one or more HSAA. If the district chooses to file an application on this basis the current and three previous years enrollment data in the HSAA or HSAAs (see section on High School Attendance Areas in this chapter) will be needed to be included on the Form SAB 50-01.

Once the district enters the required current and historical enrollment figures, the projection is done automatically on the Excel version of this form. In addition to the five-year projection used in the SFP, the form will also produce a one-year projection for the State Relocatable Classroom Program.

Supplemental Enrollment Figures. A district may supplement the current and historical enrollment figures by the pupils that will occupy dwelling units included in approved subdivision maps or valid tentative subdivision maps for developments to be located in the district or HSAA. The enrollment projection form factors these additional students into the enrollment projection. If the district requests this supplement, the district representative will need the following:

- ▶ Approval dates of the maps by the city or county planning commission.
- ▶ The number of units to be built in the subdivision.
- ▶ A yield factor from the various types of housing in the subdivision. As an alternative, the district may accept a state-wide average yield factor for calculation purposes. This factor is specified in the instructions on the Form SAB 50-01.

A supplement to the enrollment projection for proposed housing units is not available for county superintendent applications.

Small districts with current enrollment of less than 300 should be aware that they have an option for reporting their enrollment differently if it has decreased by more than 50 percent from the previous year enrollment. (For more information on using this option please refer to the Form SAB 50-01, Part A.)

Step Two – Existing School Building Capacity

The second part in determining the district's eligibility for new construction assistance is to document the capacity of the school district at the time the first application for eligibility is filed under the SFP. This capacity calculation is done only once. Districts may file capacity information on a district-wide basis or using a HSAA.

The Calculation of Capacity. The Existing School Building Capacity (Form SAB 50-02) is used to capture the information needed for the calculations, and the accompanying instructions give a detailed guide of how to complete the form. The Form SAB 50-02 is essentially a record of all the district's facilities. The SFP Regulations provide instructions on what spaces are to be included or excluded in the calculation of the district capacity¹. It is important to understand that any project funded with local sources must be counted as existing capacity if the contract for construction of the project is signed before the original application for eligibility determination is made. There is an exception provided for projects if the contracts were signed between August 27, 1998 and November 18, 1998, and if the project did not have eligibility under the Lease-Purchase Program (LPP).

The process of calculating the districts' existing school building capacity is as follows:

1. The district completes a gross inventory of all spaces constructed or reconstructed to serve as an area to provide pupil instruction. The grade level of each classroom is also identified.
2. The gross inventory is adjusted by excluding certain spaces that are not considered available teaching stations under law or regulation. The classrooms remaining in the inventory are multiplied by a loading factor of 25 for elementary and 27 for middle and high school classrooms to determine the pupil capacity.
3. A final calculation is done to increase the capacity by a specified amount if the district does not have a substantial number of students enrolled in year round education. High school districts are not subject to this adjustment. The district may request a waiver from this adjustment from the CDE, School Facilities Planning Division.
4. A last adjustment occurs for those districts that receive Multi-Track Year Round Education Operational Grants from the CDE. This increases the district capacity and reduces the final eligibility for the district in a number equivalent to the operational grants the district has most recently received from the CDE.

¹ SFP Regulations, Section 1859.30, "Gross Classroom Inventory".

Helpful Hint:

All of the OPSC worksheets are available on the OPSC Web site at www.opsc.dgs.ca.gov.

On-Site Reviews. The district must submit records of the teaching stations existing in the district or HSAA as part of the inventory process. These records generally consist of the following:

- ▶ Diagrams of the facilities at each site in the district. These diagrams need not be highly detailed, but must include all permanent and relocatable classrooms at the site. Many districts use simple “fire-drill” maps for this purpose. The diagrams must be submitted with the application.
- ▶ Documentation supporting any exclusion claimed from the gross inventory. For instance, if the district claims that a portable is excluded because it has been leased for less than five years, a copy of the lease must be in the district’s possession as supporting documentation.

The district may wish to use an OPSC Site Analysis Worksheet to assist with recording all the classrooms in the gross inventory as well as recording the reasons for exclusions, if any. This document is not mandatory but may make the inventory process easier. It also streamlines the OPSC review of the eligibility application.

Step Three – Determining Eligibility

The last part in the new construction eligibility determination process is done on the Eligibility Determination (Form SAB 50-03). The existing school building capacity calculated in part two is subtracted from the enrollment projection in the first part. The number of pupils left, if any, are considered “unhoused” for the purposes of the SFP. They represent the district’s eligibility for new construction grant entitlement.

Eligibility Application Approval. Once the district has completed steps one through three, they are ready to submit the eligibility application package. The OPSC will conduct a preliminary review of the package to ensure that it is complete prior to adding the application to the workload list. A more detailed review will be completed prior to presentation to the SAB that may include an on-site visit to review the information included in the site diagrams. When the review is complete and the OPSC has validated the eligibility calculations, an item is presented to the SAB for consideration of approval.

In some cases, the OPSC may find that an application lacks required information. If this is the case, the district is asked to provide the needed information within a specified time. If the district is unable to comply, the application may be returned unprocessed. If this occurs, the district may resubmit the application at any time after the needed information is available.

Districts should review the SFP Application Submittal Requirements worksheet, located on the OPSC Web site, to ensure all required information is included with their application.

MODERNIZATION ELIGIBILITY

Establishing eligibility for modernization in the SFP is more simplified than new construction. Applications are submitted on a site by site basis, rather than district-wide or HSAA, as is the case for new construction. To be eligible, a permanent building must be at least 25 years old and a relocatable building must be at least 20 years old. In either case, the facility must not have been previously modernized with State funding. The district must also show that there are pupils assigned to the site who will use the facilities to be modernized. If the facility is currently unused, such as a closed school, it may also be eligible for modernization funding if the district intends to reopen it and assign students immediately.

Application Process

The SAB has adopted a single form to calculate modernization eligibility, the Form SAB 50-03. This is the same form used for new construction applications. It may be downloaded from the OPSC Web site in a format that allows it to be printed as a blank form or completed on a computer and printed for submission to the OPSC. A replica of the form can be viewed in Appendix 3, SFP Required Forms.

In order to complete the Form SAB 50-03, the district representative will need a completed site diagram for the applicable school which contains the following information:

- ▶ The number of permanent classrooms.
- ▶ The number of portable classrooms.
- ▶ The ages of all permanent and portable classrooms.

The instructions on the Form SAB 50-03 will guide the district through the process of calculating the eligibility at that site for modernization. If all the buildings are over 25/20 years old for permanent/relocatable buildings respectively and eligible for modernization, the grant eligibility is simply the number of children that are or can be housed at a site, whichever is less. However, for cases where there is a mixture of classrooms that are under and over the modernization age limits, two optional calculation methods are provided. One option is to count those facilities that are over the age requirement and the children that can be housed in them. The second option is to develop a ratio based on either the square footage or the number of classrooms by comparing the square footage of overage to underage buildings or the number of overage to underage classrooms on the site. The ratio is then applied to the number of children enrolled at the site. If the district selects the option using a ratio of square footage, it will be necessary to provide the square footage information on the site diagrams as well.

Eligibility Application Approval

Once the district has completed part three of the Form SAB 50-03, they are ready to submit the modernization eligibility application package. The OPSC will conduct a preliminary review of the package to ensure that it is complete before adding it to the workload list. A more detailed review will then be completed that may include an on-site visit to review the information included on the site diagrams. When the review is complete and the OPSC has validated the eligibility calculations, an item is presented to the SAB for consideration of approval.

In some cases, the OPSC may find that an application lacks required information. If this is the case, the district is asked to provide the needed information within a specified time. If the district is unable to comply, the application may be returned unprocessed. If this occurs, the district may resubmit the application at any time after the needed information is available. When the application is resubmitted it will be added to the workload list with the new receipt date.

Districts should review the SFP Application Submittal Requirements worksheet, located on the OPSC Web site, to ensure all required information is included with their application.

Helpful Hint:

Did you know that the OPSC provides the current workload list on its Web site?

This page is intentionally blank.

Chapter 5

New Construction Funding

In this chapter. . .

- ▶ Introduction
- ▶ Available New Construction Funding
- ▶ Funding Process
- ▶ Preparing an Application
- ▶ New Construction Grant Amounts
- ▶ New Construction Grant
- ▶ Supplemental Grants
- ▶ District Project Contribution
- ▶ SAB Approval Process
- ▶ Fund Release

INTRODUCTION

After a district has established eligibility for a project as described in Chapter 4, the district may request funding for the design and construction of the facility. In most circumstances, the funding is approved after the district has acquired or identified a site for the project and after the plans for construction are approved by the Division of the State Architect (DSA) and the California Department of Education (CDE).

The funding for new construction projects is provided in the form of grants. The grants are made up of a new construction grant (pupil grant) and a number of supplemental grants. A brief description follows:

New Construction Grant — intended to fund design, construction, testing, inspection, furniture and equipment, and other costs closely related to the actual construction of the school buildings. This amount is specified in law based on the grade level of the pupils served.

Supplemental Grants — special grants are intended to recognize unique types of projects, geographic locations and special project needs. These grants are based on formulas set forth in the School Facility Program (SFP) Regulations. There are many possible supplemental grants. All of them are discussed later in this chapter. Two of the most common are:

- ▶ **Site Acquisition Grant** – Funding for site purchase, relocation, escrow, and certain other site acquisition related costs.
- ▶ **Site Development Grant** – The cost related to preparing a site for construction, including grading and drainage. This grant also includes funding for certain off-site development items such as sidewalks, curbs and gutters, streets, and related improvements.

Each new construction project is reviewed and appropriate grants are applied by the Office of Public School Construction (OPSC). All new construction grants are matched equally by the district with local funding sources. In some cases, districts unable to contribute some or all of the local match may be eligible for financial hardship. A district that intends to request financial hardship assistance, must obtain financial hardship status prior to submitting an application for funding. See Chapter 10, Financial Hardship for more information on this subject. Once the grants are determined for a project, a request is sent to the State Allocation Board (SAB) for a funding apportionment. After the apportionment is approved, the district may enter into a contract for the construction of the facility, if it has not already done so, and receive a release of the funds.

In some cases, when a district has been approved for financial hardship assistance, the district may request a separate site or design apportionment. In this situation, the request may be made before plans are completed and approved by the DSA. Site and design funding is discussed later in this chapter. In addition, see Chapter 10, Financial Hardship for more information.

This chapter explains the funding application process, typical requirements, and how to determine the new construction grant amount. It is important to understand that the discussion in this chapter focuses on the most common situations. There are many variations that may apply to specific projects that can not be covered in this brief overview. As always, the district representative should meet with the OPSC project manager and discuss the district's plan in detail.

AVAILABLE NEW CONSTRUCTION FUNDING

There are several types of funding requests that can be made under the new construction program. The district may request site and design apportionment separately when they meet Financial Hardship requirement or as a combined application when appropriate.

New Construction Adjusted Grant

A new construction adjusted grant is intended to provide the State's full share for all necessary project costs including the New Construction Grant (pupil grants), site acquisition, site utilities, off-site, and service site development. The new construction adjusted grant also includes applicable supplemental grants and adjustments as described later in this chapter. This grant is approved only after the site has been approved and the plans are also complete and fully approved.

Separate Design

Districts that qualify for financial hardship status may receive a separate apportionment for design costs. Design funding is intended to allow a district to hire an architect and prepare project plans for DSA approval. When the plans are complete and approved, the district may request the remaining new construction funding. The new construction adjusted grant will be reduced by the design apportionment previously made for the project.

Separate Site

Districts that qualify for financial hardship status may receive a separate apportionment for site acquisition. The site funding is intended to allow a district to acquire a site for the project. When the district is ready to request the remaining new construction funding, the new construction adjusted grant will be reduced by the site apportionment previously made for the project.

Separate Site – Environmental Hardship

If the Department of Toxic Substances Control (DTSC) certifies by letter that the time necessary to complete the remediation or removal of hazardous waste on the site to be acquired will exceed 180 days, the district may qualify as an environmental hardship. This means that the district is eligible for a separate apportionment for site acquisition, even though the district does not qualify as a financial hardship. More information is available in the SAB regulations and through the OPSC project manager.

FUNDING PROCESS

After the district submits an eligibility application (see Chapter 4, Application for Eligibility) the process of applying for funding is as follows:

- ▶ the district submits a funding application package;
- ▶ the OPSC reviews the package;
- ▶ the SAB approves the apportionment;
- ▶ the district requests a fund release and makes expenditures;
- ▶ the district submits reports on expenditures;
- ▶ the OPSC audits.

The application for new construction funding is made on a single form, the Application for Funding (Form SAB 50-04). The form serves as a vehicle to collect the information necessary to calculate the amount of grants applicable to the project, and also is a certification from the district regarding compliance with requirements of the law and the SFP regulations. The district may submit the Form SAB 50-04 after the district has received approval by the CDE and the DSA of the proposed new construction project and the project site when applicable. In most cases, the

district has determined its eligibility for new construction grants on the Eligibility Determination (Form SAB 50-03) before applying for funding. However, if the district has not established eligibility for the project previously, it may submit the eligibility package with the funding package.

The funding application is reviewed by the OPSC for completeness and placed on a statewide workload list in date received order. District representatives can view the workload list on the OPSC Web site at www.opsc.dgs.ca.gov. The applications for funding are then processed in date order for presentation to the SAB for consideration of an apportionment.

In some cases, the OPSC may find that an application lacks required information. The district is asked to provide the needed information within a specified time. If the district is unable to comply, the application may be returned unprocessed, and the district may resubmit the application at any time once the needed information is available.

When the SAB has no funds to apportion, the SAB will continue to accept and process applications based on the date the application is ready for apportionment. The applications will be placed on an unfunded list. An application for funding that is placed on an unfunded list is eligible for apportionment pending the availability of future funding. If the application is approved for a separate site apportionment for Environmental Hardship, the project will receive a date on the unfunded list based on the date the environmental hardship site apportionment was made for the project.

PREPARING AN APPLICATION

A complete application package is an essential element of the process of receiving funding for the district's projects. The information provided is the basis for determining the grant amounts that the district will receive. The following discussion outlines the major elements of a complete application for a new construction adjusted grant. Note that the same information is not necessary for all application types.

New Construction and Modernization funding applications require the Form SAB 50-04 and must be based on a previous eligibility approval or must have the eligibility application as a part of the package (see Chapter 4, Application for Eligibility). Also, please note that districts requiring financial hardship assistance must receive that status before filing a funding application (see Chapter 10, Financial Hardship for further information). The table below delineates the supporting documents necessary for each type of new construction funding request.

► New Construction Funding Required Documents

Document	Type of Funding			
	Design Only	Site Only	Site and Design	Construction
Appraisal of property to be acquired when appropriate*		⊙	⊙	⊙
Final escrow closing statement or court order (estimated escrow if financial hardship)		⊙	⊙	⊙
California Department of Education approval of site*		⊙	⊙	⊙
Final Division of the State Architect plan approval				⊙
California Department of Education approval of plans				⊙
Cost estimate for site development†				⊙
Plan‡ and cost estimate for off-site development, when funding is requested				⊙

* If this document has been submitted previously, it need not be resubmitted.

† SFP Regulation Section 1859.76, "Additional Grant for Site Development Costs".

‡ Plan must be approved by the local entity, see *Architectural Submittal Guidelines* for further information.

Helpful Hint:

When a district seeks SFP funding, the law stipulates that a district must hold title or an acceptable lease to all property acquired, constructed, or improved.

Application for Funding (Form SAB 50-04)

The Form SAB 50-04 serves as a vehicle for districts to request funding for design, site and/or construction for all new construction projects. The form provides the OPSC with specific project information to determine the new construction adjusted grant including, but not limited to the type of application; the grade level of the project; the number of pupils the project will house; whether or not a site is being acquired; and if any additional or supplemental grants are being requested. To complete the Form SAB 50-04 and to make the required certifications, the district representative will need at least the following supporting information:

Appraisal, Escrow Closing Statement, CDE Site Approval

An appraisal, escrow closing statement or court order, and CDE site approval letter are required if the application includes site purchase. If not, only the CDE approval letter may be required. The documents are described in detail under the heading "Site Acquisition" in the section titled "Supplemental Grants".

DSA-Approved Plans and Specifications

All new construction plans and specifications must be approved by the DSA.

Cost Estimate for Site Development

A detailed cost estimate is required if the district is requesting additional grants for site development in its new construction funding application. For more information, please refer to the heading "Site Development" in the section titled "Supplemental Grants", discussed later in this chapter.

District Certifications

As previously mentioned, the Form SAB 50-04 is also an official certification to a number of SFP requirements. The form and the instructions to the form provide specific detail about the certifications; however, some of the issues to which the district representative will have to certify are as follows:

- ▶ The district has established a "Restricted Maintenance Account" (see Chapter 13, Additional SFP Requirements and Features for more information).
- ▶ Contracts for the services of an architect, structural engineer, or other design professional which were signed after November 4, 1998 were obtained pursuant to a qualifications based competitive process (see Chapter 3, Project Development Activities).
- ▶ The district will fund their share of the project.
- ▶ If this request is for a large new construction or a large modernization project, the district has consulted with the career technical advisory committee established pursuant to Education Code Section 8070 and it has considered the need for vocational and career technical facilities to adequately meet its program needs in accordance with Education Code Sections 51224, 51225.3(b) and 52336.1.
- ▶ If the district is requesting an Additional Grant for Energy Efficiency pursuant to SFP Regulation Sections 1859.71.3 or 1859.78.5, the increased costs for the energy efficiency components in the project exceeds the amount of funding otherwise available to the district.
- ▶ The district has or will initiate and enforce a Labor Compliance Program that has been approved by the Department of Industrial Relations, pursuant to Labor Code Section 1771.7, if the project is funded from Proposition 47 and the Notice to Proceed for the construction phase of the project will be issued on or after April 1, 2003.

Finally, to reduce the need to submit extensive supporting documentation, the OPSC will ask that the architect of record or other design professional certify to the following:

- ▶ The date that the DSA approved the plans and specifications.
- ▶ That the cost estimate as submitted to the DSA for the work in the plans and specifications is at least 60 percent of the total grant provided by the total State and district matching share.

CDE Approval of Final Plans

The plans submitted to the OPSC must have the approval of the CDE. The final plan approval letter from CDE must accompany the funding application.

NEW CONSTRUCTION GRANT AMOUNTS

The SFP was designed as a per-pupil grant program where each pupil, depending on the grade level, would receive a specific dollar amount. The new construction adjusted grant, at minimum, will consist of the new construction grant, which is prescribed in law relative to the grade level of the pupils. The grant can be increased by certain supplemental grants for which the district may be eligible. The following are the types of grants:

- ▶ New Construction Grant (pupil grants)
- ▶ Supplemental Grants

NEW CONSTRUCTION GRANT

The new construction grant is intended to provide the State's share for necessary project costs including, but not limited to, funding for design, costs related to the approval of the plans and specifications by all required agencies, the construction of the buildings, general site development, educational technology, unconventional energy, change orders, tests, inspections, and furniture and equipment. The new construction grant does not provide for site acquisition, site utilities, off-site, and service site development as these costs vary due to location, size, topography, etc. The OPSC will review and determine these costs on a case-by-case basis, as discussed later in this chapter.

The new construction grant is based on the number of pupils in the project. There are a number of ways that the district can determine how many pupils will be assigned to a project, and therefore what the new construction grant will be. The most obvious way is by first determining the grade level of the project and then the number of classrooms to be included. Under the SFP, K–6 classrooms are loaded with 25 pupils, 7–12 classrooms are loaded with 27 pupils, severe classrooms are loaded with 9 pupils, and non-severe classrooms are loaded with 13 pupils. Assuming that the district has enough eligibility, it might decide to construct a ten classroom addition along with bathrooms and other support facilities at an existing elementary school. The ten classrooms will house 250 children using the loading standards specified in the program. If the district has already established eligibility for at least that number of elementary students using the Form SAB 50-03, the district could request 250 grants for the project.

There may be a situation where the district may wish to ask for less grants than the classroom capacity of the project. For instance, the project described in the previous paragraph may be of relocatable construction and may be estimated to cost less than the amount of grants that would be generated by 250 students. The district may elect either of the following strategies:

- ▶ The district may reduce the grant request to fewer grants, yet still enough to completely fund the State share of the project. The advantage is that the district will retain the unused grants for a future project, perhaps at another site.
- ▶ The district may ask for all 250 grants, and use the grant amount not only to construct classrooms at the site, but also to construct other facility needs of the district at the site, such as administration, multi-purpose rooms, gymnasium, etc.
- ▶ The district may ask for all 250 grants, and use the savings from the project for other capital facilities projects in the district, provided the project is not receiving financial hardship assistance. The advantage to the district is that the project is built as planned, while other facilities needs are also met within the State funding for the original project. In this case, the district must ensure that the amount spent on the work in the plans and specifications for the original project equals at least 60 percent of the total State and local share of the project grants. With this condition met, the district may use the savings on other district projects.

There are many variations on these approaches to determining grant amounts for a particular project. It is important that the district consult with the OPSC project manager to be sure that a specific approach is possible and within the guidelines of the law and regulations.

New Construction Grant Calculation

The new construction grant is determined by multiplying the pupils assigned to the project by the pupil grant established in law. The new construction grant is adjusted by the SAB annually (each January) based on the change in the Marshall Swift Class B Construction Cost Index. The current amounts are as follows:

► New Construction Basic Grant Amount

Classification	Basic Grant Amount	Comments
Elementary Pupil	\$ 5,840	
Middle School Pupil	\$ 6,177	(Include grade six pupils if part of a 6–8 grade school.)
High School Pupil	\$ 8,086	
Special Day Class – Non-Severe	\$12,449	
Special Day Class – Severe	\$18,614	

The Special Day Class grant allowances are established at a level higher than basic new construction grant allowances as a means to cover building cost items such as enhanced or added electrical and plumbing fixtures, more accessible doors and grab bars, extra sinks, casework, restrooms, changing areas, living skills space and other facilities for students with exceptional needs.

SUPPLEMENTAL GRANTS

Supplemental grants are intended to recognize unique types of projects, geographic locations and special project needs. These grants are based on formulas set forth in the School Facility Program (SFP) Regulations. There are many possible supplemental grants as follows:

- ▶ Fire Code Requirements
- ▶ Energy Efficiency
- ▶ Special Education – Therapy
- ▶ Multilevel Construction
- ▶ Project Assistance
- ▶ Replacement with Multi-Story Construction
- ▶ Site Acquisition
- ▶ Site Development
- ▶ Geographic Location
- ▶ Small Size Projects
- ▶ New School Projects
- ▶ Urban Locations, Impacted Sites, Security Requirements

The following is a brief explanation of the supplemental grants:

Fire Code Requirements

The New Construction grant will be increased for each pupil in a project that includes an automatic fire detection and alarm system. The current increase is as follows:

▶ New Construction Grant Increase	
Classification	Grant Increase
Elementary Pupil	\$30
Middle School Pupil	\$39
High School Pupil	\$29
Special Day Class—Non-Severe	\$60
Special Day Class--Severe	\$90

The New Construction grant will be increased for each pupil in a project that includes an automatic sprinkler system. The current increase is as follows:

▶ New Construction Grant Increase	
Classification	Grant Increase
Elementary Pupil	\$ 94
Middle School Pupil	\$112
High School Pupil	\$127
Special Day Class— Non-Severe	\$206
Special Day Class--Severe	\$307

The amounts shown above are the 50 percent State share and are adjusted annually in the same manner as the New Construction Grant.

Energy Efficiency

A supplemental grant is available to districts with projects that have increased costs associated with plan design and other project components for school facility energy efficiency. The facilities in the proposed new construction project must exceed the nonresidential building energy efficiency standards as specified in Title 24, Part 6 of the California Code of Regulations by 15 percent.

Special Education – Therapy

The New Construction grant will be increased for the area of therapy rooms, not to exceed 3,000 square feet, plus 750 square feet per additional Special Day Class classroom needed for severely disabled individuals with exceptional needs. The current unit cost per square foot of therapy area is as follows:

- ▶ \$195 per square foot for toilet facilities
- ▶ \$107 per square foot for other facilities

The amounts shown above are the 50 percent State share and are adjusted annually in the same manner as the new construction grant.

Multilevel Construction

The SFP recognizes that districts face additional costs to construct multilevel school facilities on small sites. A supplemental grant is available for projects in densely populated areas, where site acquisition costs are high and land is scarce, to provide funds to alleviate and mitigate the impact of these small sites. If the useable site acreage for the project is less than 75 percent of the site size recommended by the CDE for the master planned project capacity, the new construction grant can be increased by 12 percent for each pupil housed in a multilevel building that will house pupils in all levels of the building.

Project Assistance

The SAB may provide additional project grants for project assistance to small school districts with enrollment of 2,500 pupils or less. The current additional grant of \$3,997 may be used for costs associated with the preparation and submission of the SFP eligibility and funding applications, including costs related to support documentation such as site diagrams. The grant amount will be adjusted each year using the Class B index.

Replacement with Multistory Construction

As part of a SFP new construction project, a school district may demolish a single story facility and replace it with a multistory facility on the same site. In addition to the new construction grant allowance, the SAB will provide a supplemental grant to fund 50 percent of the replacement cost of the single story facility(s) to be replaced provided that the school is on a multitrack year-round education schedule, the site size is less than 75 percent of the recommended CDE site size, the pupil capacity at the site will be increased, the cost of the demolition and replacement is less than the cost of providing a new facility at a new site to house the increased pupil capacity, and the project has CDE approval.

Site Acquisition

The site acquisition grant can be used to acquire and develop new school sites or, under some circumstances, to reimburse or credit the district for a portion of the site acquisition costs originally borne by the district or in specific circumstances the current appraised value. Eligible costs for site acquisition are:

- ▶ Fifty percent of the lesser of the actual cost or the appraised value of the site.
- ▶ Fifty percent of the relocation cost.
- ▶ Two percent of the value of the site determined above, with a minimum of \$25,000.
- ▶ Fifty percent of certain costs related to the DTSC review and oversight.
- ▶ Hazardous waste removal (within one and one half times the appraised value).

Note that if the district intends to use a site that was acquired in a priority one project under the Lease-Purchase Program (LPP), the OPSC will use the appraised value of the site as established under the LPP for the appraised value of the site under the SFP. The SFP apportionment will be offset by the LPP apportionment. A project that received site acquisition funds under the LPP as a priority two project is not eligible for site acquisition funds under the SFP.

Independent Appraisal Requirement. The district is required to submit one site appraisal with the Form SAB 50-04. A California licensed and duly-qualified appraiser must issue a current appraisal report for the proposed site using the Uniform Standards of Professional Appraisal Practice. The appraisal must be impartial and prepared for the district or its legal counsel.

The site must be appraised as if it were a clean site, safe from all contaminants in accordance with SFP Regulation Section 1859.74.1, CDE guidelines, and Title 5, California Code of Regulations. The appraisal report must evaluate both the gross and net usable acreage and any severance damages.

Site improvements associated with grading the site to a mass graded or construction-ready condition without foundation or paving and proposed utilities stubbed to the site may be included in the appraisal. Other site improvements must be finished before close of escrow or 100 percent covered by a performance bond.

The appraisal date of valuation, or an update, may not predate by more than six months of the district's funding application to the OPSC. An SFP project which had the site funded as a LPP project shall use the value funded under the LPP.

DTSC Costs. Site acquisition costs may include up to 50 percent of the cost for the review, approval and oversight of the Phase One Environmental Site Assessment (POESA) and the Preliminary Endangerment Assessment (PEA). Note that these costs are prior to the actual clean-up costs, if any. Those costs may be included under some circumstances. See the paragraph entitled "Hazardous Waste Removal" below.

Hazardous Waste Removal. Site acquisition costs may be increased by up to one-half of the costs associated with the removal or remediation of hazardous waste on the site to be acquired. These costs may include the actual implementation of the response action required in the PEA, the cost of the preparation of the Response Action, and the cost for the DTSC review and oversight of the preparation and implementation of the Response Action. The increase in site acquisition may not exceed the difference between one and one half times the appraised value of the site as if no contamination existed and the actual cost of the contaminated site.

Relocation Expenses. Reasonable and necessary costs to relocate residential occupants and businesses from the proposed new school site, including purchasing fixtures and equipment, personal property, new machinery and equipment, and the installation of any improvements at the replacement residences or business locations are permitted as site acquisition costs.

Incidental Site and Hazardous Waste Removal for Leased Sites. If the application for funding includes a vacant leased site that was never used for school purposes, the site acquisition costs may be increased by up to one-half of the costs associated with the removal or remediation of hazardous waste on the site to be leased. These costs may include approved relocation expenses, the actual implementation of the Response Action required in the PEA, the cost of the preparation of the Response Action, and the cost for the DTSC review and oversight of the preparation and implementation of the Response Action. The increase in site acquisition may not exceed one and one half times the appraised value of the site determined by an appraisal made or updated no more than six months prior to the date the application was submitted to the OPSC.

Acquiring Title. Title to all property acquired, constructed, or improved with funds made available under the SFP must be held by the school district to which the SAB grants the funds. The title to the site need not be actually held by the district before funding; however, one of the following must be demonstrated:

- ▶ Purchase will be made from one or more private parties, companies, developers, or other entities, as evidenced by an escrow showing the pending transfer of ownership to the district.
- ▶ Court orders, especially orders of condemnation through the county court where the proposed new site lies, which include a Final Judgment, Stipulated Judgment and Order of Immediate Possession to allow occupancy, or Prejudgment Possession.
- ▶ An escrow for the transfer of property in lieu of other legally required payments or fees due to the district. (Example: Districts sometimes obtain proposed new school site parcels from developers, with all or part of the "purchase" price comprised of the district forbearing from collecting school mitigation fees from the developers.)

Funding on Leased Land. The district may utilize leased sites with governmental agencies for certain specified periods of time. To receive new construction grants for facilities that are or will be located on real property leased by the district, the property must be leased from the federal government for a period of 25 years or another governmental agency for a period of 40 years. If the lease is with a governmental agency other than the federal government, a 30-year lease may be considered if there are no other educationally adequate sites available under a 40-year lease, the cost per year for a 30-year lease is not greater than a 40-year lease, or the district can provide satisfactory evidence to the SAB that a shorter term lease is necessary.

Site Development

In addition to the new construction grant, the SFP provides a supplemental grant for the purpose of developing the site where the project is to be located. Fifty percent of the site development costs are available for both new sites and for existing sites where additional facilities are being constructed. These development costs fall under three categories:

- ▶ Service site development improvements are performed within school property lines and may include eligible site clearance, rough grading, soil compaction, drainage, erosion control and multilevel, single level subterranean or under building parking structures. This portion of the site preparation is accomplished prior to the general site development and construction of buildings.
- ▶ Off-site improvements are located along the perimeter of two sides of the site including street grading and paving, storm drainage lines, curbs, gutters, sidewalks, and street lighting. These improvements are commonly dedicated for public use. If a district is requesting off-site improvements, the local entities having jurisdiction of areas where the off-site development is proposed must approve the related plans and specifications. These approved plans and specifications must be submitted to the OPSC at the time the application for funding is submitted.
- ▶ Utility service developments include improvements of water, sewer, gas, electric, and telephone from the closest existing utility connection.

It is important to understand that site development costs have restrictions on their use. The district representative should consult the SFP regulations and the OPSC project manager if he or she is unsure if a particular item is an allowable cost before including the work in the project.

If a district is requesting a supplemental grant associated with site development on the Form SAB 50-04, verification must be submitted to support the request. To assist in gathering the supporting detail, the OPSC has developed a Site Development Worksheet for Additional Grants that is located on the OPSC Web site. The district may use this worksheet or similar method to submit this information to the OPSC.

Geographic Location

A supplemental grant is available to districts with projects that are located in areas of California that are remote, difficult to access, or lack a pool of contractors. A district may qualify and request an augmentation to the new construction grant due to their geographic location¹.

Small Size Projects

A supplemental grant is available to districts with projects that house no more than 200 pupils. The grant is intended to provide additional funds for core facilities and to make up for the lack of economies of scale when districts build small projects. The new construction grant can be increased by 12 percent for a project that will house less than 101 pupils, or by four percent if the project will house over 100, but no more than 200 pupils.

New School Projects

Districts that will construct an entirely new school on a site without existing facilities may qualify for a supplemental grant. This grant is intended to provide funds to construct core facilities such as multipurpose rooms, gymnasiums, libraries, kitchens, etc., for projects that have a minimal amount of classrooms, but not enough to generate a sufficient new construction grant to build these essential facilities. Please refer to the OPSC Web site for the current grant amounts.

¹ SFP Regulation Section 1859.83, "Excessive Cost Hardship Grant".

Urban Locations, Security Requirements and Impacted Sites

Districts with projects in urban locations on impacted sites may request a supplemental grant if all of the following conditions are met:

- ▶ The useable site acreage for the project is 60 percent or less of the site size recommended by the CDE for the net school building capacity for the project plus any existing enrollment at the site, if any.
- ▶ At least 60 percent of the classrooms in the project construction plans are in multistory facilities.
- ▶ For new construction of a new school site, the value of the site being acquired is at least \$750,000 per useable acre. This condition does not apply to new construction additions to existing school sites.

Urban locations on impacted sites are generally in areas of high property values or high population density, creating an environment difficult for districts to acquire ample real property, which causes increased project costs uniquely associated with urban construction. Districts with projects on these impacted sites are also faced with extra security requirements. The supplemental grant provides funds for security fences, watchpersons, increased premiums for insurance for contractors, and storage or daily delivery of construction materials to prevent theft and vandalism. If a district requests grants due to these circumstances, the OPSC will verify the district's eligibility pursuant to the CDE Final Plan Approval letter and by OPSC's review of the project construction plans and site appraisal.

If the above criteria are met, the urban supplemental grant is calculated on a sliding scale as follows:

▶ New Construction Urban Grant Adjustment

If...

the useable acres are 60 percent of the CDE recommended site size, as described above...

Then...

the urban grant adjustment is 15 percent of the New Construction Grant and of the funding for additional grants for replaced facilities*, small size projects† and new school projects‡, and

a 1.166 percent increase to the urban grant adjustment for each percentage decrease in the CDE recommended site size below 60 percent.

For new construction of a new school site, the adjustment shall not exceed 50 percent of the cost avoided with the purchase of site smaller than the CDE recommended site size for the number of the pupil grants requested in the application. § This limit does not apply to new construction additions to existing school sites.

* SFP Regulation Section 1859.73.2, "New Construction Additional Grant for Replaced Facilities"

† SFP Regulation Section 1859.83(b), "Excessive Cost for Projects that House No More than 200 Pupils (Small Size Project)"

‡ SFP Regulation Section 1859.83(c), "Excessive Cost to Construct a New School Project"

§ SFP Regulation Section 1859.83(d)(2)(A), "Excessive Cost Due to Urban Location, Security Requirements and Impacted Site"

DISTRICT PROJECT CONTRIBUTION

Every new construction application is a joint funding effort between the local school district and the State through the SFP. The State grant is discussed in the section entitled "New Construction Grant Amounts", earlier in this chapter. The total State grant represents 50 percent of the total project cost, with the district contributing the remaining 50 percent of the total project cost. The district contribution may come from virtually any source. The sole exception is that when savings from another SFP project is used as a match, the savings must be from a new construction project only. This restriction exists due to legal requirements pertaining to the bond funds, which the State uses as a program-funding source.

The district need not have the entire 50 percent local contribution on deposit at the time that the project apportionment is made. However, when the project fund release is requested, the district must certify that the district's matching share has been deposited in the County School Facility Fund; has been expended by the district for the project; or will be expended by the district prior to the Notice of Completion for the project. Thus the district has considerable flexibility in how the local share is arranged and contributed. The district representative should be aware, however, that regardless of when the share is contributed to the project, at closeout the district must be able to show that 50 percent of the expenditures on the project were from local sources. If the district is unable to demonstrate the 50 percent expenditure requirement has been met, the apportionment will be reduced.

Unable to Meet the Contribution

Districts that are unable to contribute the 50 percent local share of a project can pursue financial assistance through the financial hardship provisions of the SFP. Districts must submit financial data to the OPSC for pre-approval of financial hardship status (see Chapter 10, Financial Hardship) before submitting a funding application. In addition, this pre-approval enables districts to request a separate apportionment for site acquisition and/or design costs, if necessary, any time after the application for eligibility determination has been filed and before its financial hardship status expires.

Effects of Reorganization

Districts who are affected by a reorganization election on or after November 4, 1998, may not file a funding application for new construction until after the notification of the reorganization election. If the district had established new construction eligibility prior to reorganization, it must adjust the baseline eligibility on the Eligibility Determination (Form SAB 50-03) prior to filing new applications. Alternatively, the district can choose to certify that the reorganization does not result in a loss of eligibility for the project requesting funding. Districts that are newly created by the result of a reorganization can submit a funding application after approval of the election by the CDE.

SAB APPROVAL PROCESS

The applications for funding are presented to the SAB for approval in the order of their OPSC receipt date. The SAB approval (action) can either be an apportionment or "unfunded" approval, depending on the availability of funds for new construction.

FUND RELEASE

After the funding application is apportioned by the SAB, the next step in the process is the actual fund release to the County School Facilities Fund for use by the district.

The SFP grant is processed for release when the district submits a Fund Release Authorization (Form SAB 50-05). The Form SAB 50-05 submitted by the district is an important document that cannot be altered or modified by the OPSC. Therefore, an improperly completed Form SAB 50-05 will be returned with a letter of explanation to the school district for correction.

When a properly executed form is received, the OPSC sends a School Facilities Fund Release notification to the district representative and county office of education. The notification indicates the type of grant released, amount, school district, application number, school name, and date processed.

It is important to understand that a Form SAB 50-05 must be submitted within 18 months of the SFP grant apportionment by the SAB, or the entire new construction or modernization grant will be rescinded without further SAB action. If this should happen, the pupils housed in the project will be added back to the district's eligibility and the district may re-file the application at any future time.

The Form SAB 50-05 can be downloaded from the OPSC Web site. A replica of the form can be found in Appendix 3, SFP Required Forms. The properly executed Form SAB 50-05 should be submitted to:

Office of Public School Construction
Accounting
1130 K Street, Suite 400
Sacramento, CA 95814

Chapter 6

Charter School Facilities

In this chapter...

- ▶ Introduction
- ▶ Eligibility
- ▶ Application Process
- ▶ Preparing An Application
- ▶ Funding Criteria
- ▶ Preliminary Apportionment Components
- ▶ Apportionment Conversion
- ▶ Project Reductions/Increases
- ▶ Fund Release
- ▶ Closeout

INTRODUCTION

Article 12 in Assembly Bill (AB) 14, establishes a pilot program to provide charter schools with funding to construct new facilities, to be known as the "Charter School Facilities Program" (CSFP). With the successful passage of Proposition 47, this program received \$100 million in bond funding. The CSFP permits a charter school or school district filing on behalf of a charter to apply for a preliminary apportionment (reservation of funds) for new construction projects. To qualify for funding a charter must be deemed financially sound by the California School Finance Authority (CSFA).

The preliminary apportionment for a CSFP project must be converted within a four-year period to a new construction adjusted grant apportionment meeting all the School Facilities Program (SFP) New Construction program criteria required for such an apportionment, unless a single one-year extension is granted.

ELIGIBILITY

A charter school or school district on behalf of a charter school must have SFP new construction eligibility as described in Chapter 4 from the school district in which the charter is physically located. A charter school applying on its own behalf may apply once it has notified the superintendent and governing board of the district, where it is physically located, of its intent to apply in writing 30 days prior to submitting the preliminary application to OPSC. The notice to the district shall include the number of pupils the charter intends to request on the preliminary application.

An Application for Charter School Preliminary Apportionment (Form SAB 50-09) may be submitted to the OPSC through Monday, March 31, 2003 for projects to be funded from the November 5, 2002 bond or 60 calendar prior to and 120 calendar after the 2004 election authorizing the funding. If funds remain after the initial submittal period or funds become available through over reservation of preliminary apportionment or lease payments, the SAB may establish additional application periods.

APPLICATION PROCESS

The applicant will need to submit an Application for Charter School Preliminary Apportionment, Form SAB 50-09, and an Enrollment Certification/Projection, Form SAB 50-01, for the school district and all other supporting documents (i.e., supporting historical documents for allowances requested on application). A Existing School Building Capacity, Form SAB 50-02 and Eligibility Determination, Form SAB 50-03 will not need to be submitted unless the school district has not established New Construction eligibility under the SFP. If the eligibility has not been established, the eligibility will need to be calculated prior to acceptance of the preliminary application.

Once the OPSC receives the preliminary application, an initial review will ensure that the school district has eligibility and that the eligibility requested is commensurate with the project being built. In addition the allowance requested on the application will be subject to review. In conjunction, the CSFA will be determining the financial soundness of the applicant. For further information regarding the criteria for financial soundness please contact CSFA at www.treasurer.ca.gov/csfa.

For additional detail, please review the General and Specific Instructions on the Form SAB 50-09 and the Application Submittal Requirements available on the OPSC Web Site.

PREPARING AN APPLICATION

A complete application is an essential element in the process of receiving a preliminary apportionment for the charter school or district's project. The information provided is the basis for determining the apportionment amounts that the charter school or district on behalf of the charter school will receive. All applications must be based on a previous SFP new construction eligibility approval or must have the eligibility application as a part of the package (see Chapter 4, Application for Eligibility). The Application for Charter School Preliminary Apportionment (Form SAB 50-09) serves as a vehicle for charter schools or districts on behalf of charter schools to request a preliminary apportionment for a new construction project. The form provides the OPSC with the general project information to determine the future new construction adjusted grant; the grade level of the project, the number of SFP pupils the project will serve, whether or not a site is to be acquired, and if any supplemental grants are requested.

Once the OPSC receives the preliminary application, an initial review will ensure that the school district has eligibility and that the eligibility requested is commensurate with the project being built. In conjunction, the CSFA will be determining the financial soundness of the applicant. For further information regarding the criteria for financial soundness please contact CSFA at www.treasurer.ca.gov/csfa.

For additional detail, please review the General and Specific Instructions on the Form SAB 50-08 and the Application Submittal Requirements available on the OPSC Web Site.

FUNDING CRITERIA

The State Allocation Board shall provide preliminary apportionments to the financially sound applicants approved by CSFA using the following criteria:

- ▶ Representative of the various geographical regions of the State.
- ▶ Representative of urban, rural, and suburban regions of the State.
- ▶ Representative of large, medium, and small charter schools throughout the State.
- ▶ Representative of the various grade levels of the pupils served by charter school applications.

Within each category above, preference is to be given to charters in overcrowded school districts, charters in low-income areas, and not-for-profit charters. A preference points calculation system, based on the criteria set above, will be used in determining the projects that will be funded from each category. If more than one application is received that has the same criteria within a category, the SAB will fund based on which project has the highest preference points.

PRELIMINARY APPORTIONMENT COMPONENTS

The methodology for determining the CSFP preliminary apportionment State share amount will be based primarily upon the criteria established for Critically Overcrowded School Facilities (Chapter 7). The grants provided at the preliminary apportionment shall consist of the following:

- ▶ Pupil base grant amount
- ▶ Multilevel Construction Grant Amount
- ▶ Site Acquisition
- ▶ Site Development
- ▶ Project Increase
- ▶ Inflation Factor

This amount shall then be the recommended preliminary apportionment for the proposed CSFP project presented to the SAB for a reservation of funds.

The CSFP Pupil Grant will be calculated by multiplying the SFP pupils assigned to the project by the pupil grants established in law and the increase for Fire Code requirements. The CSFP pupil grants will be adjusted by the SAB annually (each January) based on the change in the Marshall Swift Class B Construction Index. The current CSFP grant amounts are as follows:

► CSFP Grant Amounts	
Classification	CSFP Pupil Grants
Elementary	\$ 5,870
Middle School	\$ 6,214
High School	\$ 8,116
Special Day Class—Non-Severe	\$12,509
Special Day Class--Severe	\$18,703

If a district requests a preliminary apportionment include a reservation for multilevel classroom construction, the CSFP pupil base grant will be increased by 12 percent to reserve the maximum allowance.

The preliminary apportionment for the estimated site acquisition shall be determined by the submittal of an appraisal or preliminary appraisal, when available. In addition, a separate allowance is available for toxic sites. The appraisal or preliminary appraisal should be made or updated no more than six months prior to the application submittal to the OPSC. In cases where a specific site has not been identified for the project, the median cost of the consummated sales transactions within the general location multiplied by the proposed net useable acreage to be acquired shall determine the property value reservation. The proposed acquisition acreage amount must be compatible with CDE standards and before determining the median cost, the information for recorded sale transactions should be expressed in a per acre amount. Additionally the property value will be increased by four percent for title, escrow and survey fees. An allowance for estimated relocation and DTSC costs may be included. The reservation will be based on either the State's default allowance of twenty-one percent of the property value or actual or historical cost information.

If the request for a preliminary apportionment includes estimated site development costs the allowance shall be determined based upon either the State default amount of \$70,000 per proposed net useable acre, actual, or historical cost. The estimate site development cost shall be the amount for anticipated service-site, off-site and/or utilities for the project.

A district may request estimated excessive hardship costs for Geographic Location, New Small School Project or Urban Location, Security Requirements and Impacted Site

The preliminary apportionment consisting of all applicable estimated allowances shall be increased by 12 percent in anticipation of cost increase in future years. The inflator factor is based upon the average per year Marshall Swift Class B Construction Cost Index.

APPORTIONMENT CONVERSION

Within a four-year period, a charter school must convert the preliminary apportionment to a final apportionment. A final apportionment request includes an Application for Funding (Form SAB 50-04) and all other documentation required for a complete new construction adjusted grant application under the SFP provisions. At the time the project is converted, the pupil request cannot exceed the number of pupils requested at the time of preliminary apportionment.

The preliminary apportionment for a CSFP project must be converted within a four-year period to a new construction adjusted grant apportionment meeting all the School Facilities Program (SFP) New Construction program criteria required for such an apportionment, unless a single one-year extension is granted.

PROJECT REDUCTIONS/INCREASES

Once an application is submitted for a final apportionment, the project costs may be adjusted per the following:

► Project Cost Adjustments

If...	Then...
Preliminary apportionment sufficient to do project...	project cost remain the same and final apportionment Board item will reflect preliminary apportionment amounts.
Preliminary apportionment was more than needed...	the overpayment shall be adjusted to reflect actual project costs on the final apportionment SAB item and the difference shall be returned to the unrestricted account to be used for other charter school facility purposes.
Preliminary apportionment was insufficient...	and unrestricted funds remain in the account, a district may receive a project increase for eligible costs. Should funds not be available at the point of project conversion the preliminary apportionment amount will be the full and final apportionment. A district may elect to monitor the funds and wait until funds become available to convert the apportionment, provided it is before the four-year deadline.

FUND RELEASE

The CSFP provisions for a preliminary apportionment do not authorize any fund releases prior to submitting an application for final apportionment. Therefore, once a preliminary apportionment is received, all charter schools or districts on behalf of charter schools will need to ensure they can cover any costs incurred prior to filing an application for final apportionment.

To learn more about the CSFP program visit the OPSC Web site at www.opsc.dgs.ca.gov.

CLOSEOUT

When a COS project converts to a final apportionment, it will be subject to all SFP progress and auditing standards. A substantial progress report will be required at 18 months from the date the final apportionment was made. Annual expenditure reports will be required beginning one year from the date of the first fund release until the project is complete. The project is considered complete when 3 years elapse from the date of the final fund release for an elementary project, or 4 years for a high school project, or when the school district declares the project complete, at which time final expenditure reports must be submitted.

To learn more about the COS program, contact your OPSC project manager or visit the OPSC Web site at www.opsc.dgs.ca.gov.

Chapter 7

Critically Overcrowded School Facilities

In this chapter. . .

- ▶ Introduction
- ▶ Project Eligibility
- ▶ Source Schools
- ▶ Preparing an Application
- ▶ Preliminary Apportionment Components
- ▶ Apportionment Conversion
- ▶ Project Increases
- ▶ SAB Approval Process
- ▶ Substantial Progress
- ▶ Fund Release
- ▶ Closeout

INTRODUCTION

The Critically Overcrowded School Facilities (COS) program was created by AB 16 (Hertzberg) in 2002 and is a significant addition to the School Facilities Program (SFP). The COS program permits school districts with critically overcrowded school sites, as determined by the California Department of Education (CDE), to apply for a preliminary apportionment (reservation of funds) for new construction projects to relieve overcrowding. The COS program's preliminary apportionment serves only as a reservation of funds for future State assistance in the form of grants. The preliminary apportionment for a COS project must be converted within a four-year period to a new construction adjusted grant apportionment meeting all the SFP New Construction program criteria required for such an apportionment, unless a single one-year extension is granted.

PROJECT ELIGIBILITY

A district with SFP new construction eligibility established as described in Chapter 4 and critically overcrowded school sites included on a list of source schools as determined by the CDE may apply for a preliminary apportionment for projects to relieve overcrowding. For information regarding the CDE Source School List contact Mr. Fred Yeager at 916.327.7148 or visit the CDE Web site at www.cde.ca.gov.

An Application for Preliminary Apportionment (Form SAB 50-08) may be submitted to the OPSC between November 5, 2002 and May 1, 2003 for projects to be funded with the proceeds of the November 5, 2002 bond or 60 days prior to and 120 days after the 2004 direct primary election or the 2004 statewide general election as appropriate for projects to be funded with those bond proceeds. A Critically Overcrowded School Facilities project must:

- ▶ Relieve overcrowding by increasing the pupil capacity of the district and may be either a stand alone new school project or an addition to an existing school site.
- ▶ Identify at least 75% of the proposed pupil occupancy of the project as coming from a source school(s).
- ▶ Be located within either the attendance area or a one-mile radius of an elementary source school ; or, for a secondary source school, within the attendance area or a three-mile radius. The CDE may grant a variance from the distance maximums if the district can demonstrate that the variance is necessary to adequately provide facilities for the identified source school pupils.

SOURCE SCHOOLS

To qualify as a source school a school site utilizing the 2001/2002 California Basic Educational Data System (CBEDS) enrollment must have pupil density greater than 115 pupil per acre for grades Kindergarten to six and 90 pupils per acre for grades seven to twelve. The CDE is responsible for determining and maintaining the list of source schools. A district may report their school site information to the CDE by submitting SFPD Form 4.16 (Certification of School Site Net Useable Acres). For a copy of the SFPD Form 4.16 and additional information regarding the CDE source school list, please visit the School Facilities section of the CDE Web site at www.cde.ca.gov.

Once included on the CDE source school list, determine a source school's pupil eligibility or Qualifying Pupils, by subtracting the school's site density at 150 percent of the CDE recommended pupils per acre from its latest CBEDS enrollment. The remainder is the number of Qualifying Pupils at the source school site, which may be used to meet the project eligibility requirements above. The source school Qualifying Pupils eligibility amounts will be tracked separately and adjusted for changes in future enrollment, site density, preliminary apportionments and rescinded apportionments.

PREPARING AN APPLICATION

A complete application is an essential element in the process of receiving a preliminary apportionment for the district's project. The information provided is the basis for determining the apportionment amounts that the district will receive. All applications must be based on a previous SFP new construction eligibility approval or must have the eligibility application as a part of the package (see Chapter 4, Application for Eligibility). Please note district's requesting financial hardship assistance must receive that status prior to filing an application (see Chapter 10, Financial Hardship). The Form SAB 50-08 serves as a vehicle for districts to request a preliminary apportionment for a new construction project. The form provides the OPSC with the general project information to determine the future new construction adjusted grant; the grade level of the project, the number of SFP and source school Qualifying Pupils the project will serve, whether or not a site is to be acquired, and if any supplemental grants are requested. To complete the Form SAB 50-08 the district representative will need some of the following information.

- ▶ Appraisal, Preliminary Appraisal, or Median Cost valuation of the property to be acquired.
- ▶ Relocation and Department of Toxic Substance Control cost documents.
- ▶ Cost Estimate for site development and approved site development and off-site plans (to substantiate actual or historical cost submittals).
- ▶ A copy of the certified CDE Source School List pages or CDE Source School certification letter.
- ▶ Copy of the latest information for the Source School(s) submitted approximately October 15th of each year to the California Department of Education to complete the California Basic Education Data System (CBEDS).

For additional detail, please review the General and Specific instructions on the Form SAB 50-08 and the Application Submittal Requirements available on the OPSC Web site.

PRELIMINARY APPORTIONMENT COMPONENTS

A COS preliminary apportionment is intended to provide the estimated future State's share for all necessary project costs including site acquisition, site development and supplemental allowances. A district may request a preliminary apportionment for the following:

- ▶ COS Pupil Grants (New Construction Grant (per pupil) plus the increase for Fire Code requirements)
- ▶ Multilevel Classroom Construction
- ▶ Site Acquisition
- ▶ Site Development
- ▶ Project Increases
- ▶ Financial Hardship
- ▶ Inflation Factor

The COS Pupil Grant is calculated by multiplying the SFP pupils assigned to the project by the per-pupil grants established in law and the increase for Fire Code requirements. The COS Pupil Grants are adjusted by the SAB annually (each January) based on the change in the Marshall Swift Class B Construction Index. The current COS grant amounts are as follows:

► **Current Grant Amounts**

Classification	COS Pupil Grant
Elementary	\$ 5,870
Middle School	\$ 6,214
High School	\$ 8,116
Special Day Class – Non-Severe	\$12,509
Special Day Class – Severe	\$18,703

If a district requests a preliminary apportionment that includes multilevel classroom construction, the New Construction Grant will be increased by 12 percent to reserve the maximum allowance.

The preliminary apportionment for the estimated site acquisition shall be determined by the submittal of an appraisal or preliminary appraisal, when available. The appraisal or preliminary appraisal should be made or updated no more than six months prior to the application submittal to the OPSC. In cases where a specific site has not been identified for the project; the median cost of the consummated sales transactions within the general location area multiplied by the proposed net useable acreage to be acquired shall determine the property value reservation. The proposed acquisition acreage amount must be compatible with CDE standards; and, before determining the median cost, the information for recorded sale transactions should be expressed in a per acre amount. In addition the property value will be increase by four percent for title, escrow and survey fees by one-half for hazardous material/waste removal and remediation cost. An allowance for estimated relocation and DTSC costs may be requested, this will be based on either the State's default allowance of twenty-one percent of the property value, actual, or historical cost information.

If the request for a preliminary apportionment includes estimated site development costs, the allowance shall be determined based upon either the State's default amount of \$70,000 per proposed net useable acre, actual, or historical cost. The estimated site development cost shall be the amount for anticipated service-site, off-site and/or utilities for the project.

A district may request estimated excessive hardship costs for Geographic Location, New Small School Project or Urban Location, Security Requirements and Impacted Site.

If the district has a valid financial hardship status for the COS project, the estimated State share amount shall be doubled to provide a reservation for the estimated district's matching share assistance. When the financial hardship review has determined that the district has contribution amounts, the preliminary apportionment amount will be reduced by that amount. However, before the preliminary apportionment is converted to a final apportionment, the district must re-qualify financial hardship status to determine its eligibility and contribution amount.

The preliminary apportionment consisting of all applicable estimated allowances shall be increased by 12 percent in anticipation of cost increase in future years. The inflator factor is based upon the average per year increase to the Marshall Swift Class B Construction Cost Index.

APPORTIONMENT CONVERSION

Converting a preliminary apportionment to a final apportionment request includes an Application for Funding (Form SAB 50-04) and all other documentation required for a complete new construction adjusted grant application under the SFP provisions (See Chapter 5, New Construction Funding). In addition, the pupils requested on the Form SAB 50-04 must be no less than 75 percent of and cannot exceed the number of pupils requested on the Form SAB 50-08. When a district converts the preliminary apportionment to a final apportionment the project must still be supported by SFP new construction eligibility; however, the Source School(s) Qualifying Pupil eligibility will not be re-evaluated. A school district requesting financial hardship status must qualify for that status and have all Capital Project Fund monies analyzed to determine if the school district is able to contribute toward its project.

PROJECT INCREASES

When an application for final apportionment is made, that preliminary apportionment may be adjusted for increases only if there are sufficient reserve funds available in the COS facilities account to fund the increases. If reserve funds are not available, the increase amount will be placed on a "Final Apportionment unfunded list" until such time that funds may become available within the COS facilities account to apportion the increases. However, if funds do not become available and the maximum timeframe of five years has expired, the original preliminary apportionment becomes a full and final apportionment.

SAB APPROVAL PROCESS

If funds are insufficient to fully fund all of the preliminary applications received during an application filing period, the SAB shall first apportion to those projects that would house pupils from source schools with the highest density levels relative to the CDE standard.

SUBSTANTIAL PROGRESS

Prior to converting a preliminary apportionment to a final apportionment the district must report annually to the SAB on the progress of the COS project. The local governing school board must hold a public hearing annually discussing the progress toward completing the project. Included in the first annual report to the SAB, the district shall certify that the CDE has determined there is at least one approvable and adequate site for the COS project within the identified general location area. If the school district cannot certify to the approvable site, then the preliminary apportionment will be rescinded.

At the end of the fourth year, if a school district is unable to submit its application for final apportionment, it may apply for a single one-year extension provided that the COS project has a CDE contingent or final site approval and the final construction plans have been submitted to DSA for review and approval; or other evidence satisfactory to the SAB that substantial progress has been made towards completing the requirements for filing an application for final apportionment.

FUND RELEASE

The COS provisions for a preliminary apportionment do not authorize any fund releases prior to submitting an application for final apportionment. Therefore, once a preliminary apportionment is received, all districts, including financial hardship districts, will need to ensure they can cover any costs incurred prior to filing an application for final apportionment.

CLOSEOUT

When a COS project converts to a final apportionment, it will be subject to all SFP progress and auditing standards. A substantial progress report will be required at 18 months from the date the final apportionment was made. Annual expenditure reports will be required beginning one year from the date of the first fund release until the project is complete. The project is considered complete when 3 years elapse from the date of the final fund release for an elementary project, or 4 years for a high school project, or when the school district declares the project complete, at which time final expenditure reports must be submitted.

To learn more about the COS program, contact your OPSC project manager or visit the OPSC Web site at www.opsc.dgs.ca.gov.

Chapter 8 Joint Use Projects

In this chapter...

- ▶ Introduction
- ▶ Project Eligibility
- ▶ Funding Process
- ▶ Preparing an Application
- ▶ Joint Use Grant Amounts
- ▶ Joint Use Partner Project Contribution
- ▶ Fund Release

INTRODUCTION

Assembly Bill (AB) 16 created a Joint Use Program under the School Facility Program (SFP). AB 16 provides \$50 million dollars for Joint Use projects from the 2002 Bond and another \$50 million dollars from the 2004 bond if approved by the voters. Under AB 16, there are three types of Joint Use projects, which are referred to as a Type I, a Type II, and a Type III Joint Use project.

A Type I Joint Use project is part of a SFP new construction project in which the applicant district and a higher education partner have agreed to construct facilities to:

- ▶ Improve pupil academic achievement
- ▶ Provide teacher education
- ▶ Provide childcare facilities

A Type II Joint Use project is part of a SFP new construction project that will increase the size, create extra cost, or does both beyond that necessary for school use, of the:

- ▶ Multipurpose room
- ▶ Gymnasium
- ▶ Library
- ▶ Childcare Facility

A Type III Joint Use project combines elements of both other types. It differs in that the project is not a part of a SFP new construction application as is required for Type I and II Joint Use projects. The Type III application may only be for a project on an existing school site that does not have the type of facility requested or the existing facility is found to be inadequate. Like a Type I application, if the Joint Use partner is an institution of higher education, the project may be for:

- ▶ Improve pupil academic achievement
- ▶ Provide teacher education

In addition, the Type III application may be for the construction of one of the following stand-alone projects:

- ▶ Multipurpose room
- ▶ Gymnasium
- ▶ Library
- ▶ Childcare Facility

The funding for Joint Use projects is provided in the form of grants. With the exception of a Type II (Extra Cost), the grants are made up of a base grant and a number of supplemental grants. For a Type II (Extra Cost) project, the grant is a straight dollar amount based upon the cost estimate. The State share for a Joint Use project is 50 percent of the eligible project costs, with the Joint Use Partner matching 50 percent of the eligible project costs.

The District must have Joint Use eligibility and square footage eligibility (except for a Type II, Extra Cost) for the type of project they are applying for, before they can request Joint Use funding. This chapter explains the eligibility requirements for each type of Joint Use project, the funding application process, and how to determine the Joint Use grant. This chapter focuses on the most common situations. Individual projects may have variations that are not covered in this chapter. The district representative is encouraged to contact the OPSC project manager to discuss specific project details.

PROJECT ELIGIBILITY

Before a District can submit an application for funding, the project must have project eligibility. Project eligibility is different for all three types of Joint Use projects.

Type I Project Eligibility

To qualify as a Type I Joint Use project, the district must meet the following criteria:

- ▶ The construction contract was executed after April 29, 2002
- ▶ The project is part of a new construction application
- ▶ The district has entered into an approvable Joint Use Agreement that meets the criteria of Education Code 17077.42
- ▶ The Joint Use Partner is an institution of Higher Education
- ▶ The Project has Square Footage Eligibility
- ▶ The facility will be located at the site of the new construction application
- ▶ The project does one of three things:
 - Improves Pupil Academic Achievement
 - Provides Teacher Education
 - Provides Childcare Facilities
- ▶ The project has DSA approval of the plans
- ▶ The project has CDE approval of the plans

Type II Project Eligibility

To qualify as a Type II Joint Use project, the district must meet the following criteria:

- ▶ The construction contract was executed after April 29, 2002
- ▶ The project is part of a new construction application
- ▶ The district has entered into an approvable Joint Use Agreement that meets the criteria of Education Code 17077.42
- ▶ The Joint Use Partner is a governmental agency, an institution of Higher Education, or a nonprofit organization
- ▶ The Project has Square Footage Eligibility (except a Type II, Extra Cost)
- ▶ The facility will be located at the site of the new construction application
- ▶ The project increases the size, creates extra cost, or does both for the:
 - Multipurpose room
 - Library
 - Gymnasium
 - Childcare facility
- ▶ The project has DSA approval of the plans
- ▶ The project has CDE approval of the plans

Type III Project Eligibility

To qualify as a Type III Joint Use project, the district must meet the following criteria:

- ▶ The construction contract was executed after April 29, 2002
- ▶ The district has entered into an approvable Joint Use Agreement that meets the criteria of Education Code 17077.42
- ▶ The Project has Square Footage Eligibility
- ▶ The facility will be located at an existing public K–12 school site
- ▶ The project is one of the following:
 - Facility that Improves Academic Achievement
 - Facility that Provides Teacher Education
 - Multipurpose room
 - Library
 - Gymnasium
 - Childcare facility
- ▶ The Joint Use Partner is a governmental agency, an institution of Higher Education, or a nonprofit organization if the facility is a multipurpose room, library, gymnasium, or childcare facility
- ▶ The Joint Use Partner is an institution of Higher Education if the facility improves academic achievement or provides teacher education
- ▶ The school does not have the type of facility or the existing facility is inadequate
- ▶ The project has preliminary plans
- ▶ The project has CDE approval of the preliminary plans

FUNDING PROCESS

Applications will be accepted for the first funding cycle from November 5, 2002 through May 31, 2003. Applications will be accepted for the second funding cycle from June 1, 2003 through May 31, 2004 subject to approval of a statewide bond slated for Spring 2004. If funds remain after this funding cycle, subsequent filing periods will be from June 1 through May 31st each subsequent year.

Type I Joint Use projects shall be funded first, Type II Joint Use projects shall be funded second, and Type III Joint Use projects shall be funded last. The district may submit more than one application for each type. The district's first application within each type of Joint Use project shall be ranked and funded with other district's first applications in date-received order. The district's second application will then be ranked and funded with other district's second applications in date-received order, and so on within each type of Joint Use project, until funds are exhausted.

The following demonstrates the necessary steps for Joint Use Funding:

- ▶ The district submits an application for funding package
- ▶ The OPSC reviews the package
- ▶ The SAB approves and apportions the project in July
- ▶ The district submits DSA approved plans within one year from the date of apportionment (Type III only)
- ▶ The district requests a fund release and makes expenditures
- ▶ The district submits reports on expenditures
- ▶ The OPSC audits

The district must apply for Joint Use funding on the Application for Joint-Use Funding, Form SAB 50-07. The Form SAB 50-07 not only provides the OPSC with the specific Joint Use information such as type of Joint Use project and square footage eligibility, but it also serves as a certification by the district that they meet specific criteria of the law and regulations.

The funding package will be reviewed by the OPSC for completeness and placed on a statewide workload list. District representatives can view the workload list on the OPSC Web site at www.opsc.dgs.ca.gov. If during the initial review, it is determined that information is missing, the district will be notified and given a timeframe to respond to the OPSC's request. In the event the OPSC does not receive the requested information within the given timeframe, the application will be returned to the district. The district may resubmit the application at anytime within the filing period, when they have all the components of a complete application.

Applications will be approved until there are no funds available. In this instance, all applications that do not receive funding will be returned to the district, and the district may resubmit the application in subsequent filing periods.

PREPARING AN APPLICATION

The following chart lists the supporting documents for each type of Joint Use project that must be submitted with the Application for Joint-Use Funding, Form SAB 50-07:

Document	Type of Funding		
	Type I	Type II	Type III
Joint Use Agreement	⊙	⊙	⊙
DSA Approved Plans	⊙	⊙	
Preliminary Plans			⊙
California Department of Education preliminary plan approval			⊙
California Department of Education plan approval	⊙	⊙	⊙
Cost estimate for site development	⊙	⊙	⊙
Cost estimate for facility being built*		⊙	

*If the project is for a Type II, Extra Cost

JOINT USE GRANT AMOUNTS

With the exception of a Type II project for Extra Cost, the Joint Use grant will consist of a base grant for toilet and non-toilet facilities, which can be increased by certain supplemental grants. As of the date of this guidebook, the base grant is \$ 195 per square for toilet area and \$107 per square foot for non-toilet area. The grant amounts will be adjusted each year using the Class B index. Each project has a maximum state contribution of \$1 million for an elementary school, \$1.5 million for a middle school, and \$2 million for a high school.

Supplemental Grants

The district can increase the Joint Use grant with certain supplemental grants. The following is a brief explanation of the supplemental grants under the Joint Use Program:

Site Development. A supplemental grant is provided for the purpose of developing the site where the project is located. If the Joint Use project is linked to a new construction project and site development costs are not covered under the new construction application because the site development is specific to the Joint Use project, the district may apply for the site development under the Joint Use project. If the Joint Use project is a stand-alone project, the district may apply for applicable site development costs that pertain to the Joint Use facility. Fifty percent of the following site development costs may be available for Joint Use projects:

- ▶ Service site development improvements are performed within school property lines and may include site clearance, rough grading, soil compaction, drainage, and eligible erosion control. This portion of the site preparation is accomplished prior to the general site development and construction of buildings.
- ▶ Utility service development includes improvements of water, sewer, gas electric, and telephone from the closest existing utility connection to the project site meter or major building lateral location.

Off-site development is not an allowable expenditure under the Joint Use Program.

Geographic Location. A supplemental grant is available to projects located in areas of California that are remote, difficult to access, or lack a pool of contractors. The augmentation to the Joint Use grant due to their geographic location can be found in Regulation Section 1859.83 (a).

Small Size Projects. A supplemental grant is available to districts with projects that house no more than 200 pupils. The grant is intended to provide additional funds for core facilities and to make up for the lack of economies of scale when districts build small projects. The Joint Use grant can be increased by 12 percent if the new construction project it is linked to houses less than 101 pupils, or four percent if the new construction project it is linked to will house over 100, but no more than 200 pupils. If the project is a Type III Joint Use project, the district is entitled to an eight percent increase to the grant.

Urban Locations, Impacted Sites, Security Requirements. Districts with projects in urban locations, on impacted sites, or in areas with security issues, may request a supplemental grant. Contact your project manager for qualifying information.

Project Assistance. For a Type III Joint Use project, the SAB may provide additional project grants for project assistance to small school districts with enrollment of 2,500 pupils or less. The additional grant of \$3,997 (as of the date of this guidebook) may be used for costs associated with the preparation and submission of the funding application. The grant will be adjusted each year using the Class B index.

Type I Joint Use Grant. A Type I Joint Use project must have square footage eligibility. The first step in determining the grant is to determine the square footage eligibility. The square footage eligibility for a Type I joint Use project is based upon the number of pupils that will receive services in the facility, multiplied by the square footage that is allocated for that type of facility in the Chart of Square Footages, located in Regulation Section 1859.124.1.

Once the square footage eligibility for a Type I is established, the grant can be determined. The base grant is calculated by adding the following:

- ▶ \$195 for Toilet Square footage in the facility
- ▶ \$107 for Non-toilet Square footage in the facility
- ▶ 50% of applicable supplemental grants

If the district is building area beyond their square footage eligibility, the OPSC will prorate the grant by determining the percentage of the whole facility that represents the joint use project, and the grant will be determined using that percentage.

Type II Joint Use Grant (Increased Size). A Type II Joint Use project that increases size must have square footage eligibility. The first step in determining the grant is to determine the square footage eligibility. The square footage eligibility for a Type II Joint Use project that increases the size of the project is calculated by first determining what size facility the district is entitled to based upon the CBEDS and the Chart of Square Footages, located in Regulation Section 1859.124.1. Then simply subtract this amount from the actual square footage being built, and the difference is the square footage eligibility.

Once the square footage eligibility for a Type II is established, the grant can be determined. The first step in determining the grant is to take the square footage eligibility and divide it by the total square footage of the facility

being built. This will determine the percentage of the whole Joint Use facility that the increased size represents. The base grant then is calculated by multiplying this amount by:

- ▶ \$195 for Toilet Square footage in the facility
- ▶ \$107 for Non-toilet Square footage in the facility

In addition to the above, the project may be eligible for 50 percent of applicable supplemental grants.

Type II Joint Use Grant (Extra Cost). There is no square footage eligibility for a Type II that contains Extra Cost of the facility. The grant for a Type II Extra Cost can be determined by taking 50 percent of the construction cost of the whole Joint Use facility and any applicable service site development costs, and subtracting the base grant amounts of \$195 for toilet area in the project and \$107 for non-toilet area in the project. The difference is the extra cost.

Type II Joint Use Grant (Increased Size and Extra Cost). In some instances, a Type II project may be for both increased size and extra cost. The grant for a Type II project that increases the size and contains extra cost shall be calculated in the following manner:

- ▶ Start with the architect's cost estimate to construct the facility.
- ▶ Subtract the cost to build the standard size facility that the district would be entitled to based upon the Chart of Square Footages. Since this project is built beyond the standard size facility, first divide the square footage determined from the Chart of Square Footage, by the total Joint Use facility. This amount will determine the percentage of the whole facility that represents the standard size facility the district would otherwise be eligible for. Once this amount is determined, multiply this amount by the toilet facility area and by \$195 and by the non-toilet facility area and by \$107. This amount then becomes the amount to build the standard size facility.
- ▶ The difference is the grant amount for increased size and extra cost.
- ▶ Add any applicable service site costs.

Type III Joint Use Grant. A Type III Joint Use project cannot have an existing facility or the existing facility must be inadequate. A facility is considered inadequate when the square footage of the existing facility is less than 60 percent of the square footage entitlement shown in the Chart of Square Footages in Regulation Section 1859.124.1. A Type III Joint Use project must have square footage eligibility. If the existing facility meets the test of being inadequate, or there is not an existing facility, then the square footage eligibility for a Type III Joint Use project is the amount determined using the Chart of Square Footages.

Once the square footage eligibility for a Type III is established, the grant can be determined. The base grant is calculated by adding the following:

- ▶ \$195 for Toilet Square footage in the facility
- ▶ \$107 for Non-toilet Square footage in the facility
- ▶ 50% of applicable supplemental grants

If the district is building area beyond their square footage eligibility, the OPSC will prorate the grant by determining the percentage of the whole facility that represents the Joint Use project, and the grant will be determined using that percentage.

JOINT USE PARTNER PROJECT CONTRIBUTION

The total State grant represents 50 percent of the total project cost, with the Joint Use partner providing the remaining 50 percent of the total project cost. By law, the district may not contribute the Joint Use partner share. The district need not have the entire 50 percent Joint Use partner contribution on deposit at the time that the project approval is made. However, when the project fund release is requested, the district must certify that the Joint Use partner's matching share has been deposited in the County School Facility Fund; has been expended by the district for the project; or will be expended by the district prior to the Notice of Completion for the project. The district representative should be aware that regardless of when the share is contributed to the project, at closeout the district must be able to show that 50 percent of the expenditures on the project were from funds provided by the Joint Use partner. If the district is unable to demonstrate the 50 percent expenditure requirement has been met, the apportionment will be reduced.

If there are project costs beyond the eligible project costs, those cost can be paid by the district, Joint Use partner, or any other local source.

FUND RELEASE

After the funding application is approved and apportioned by the SAB, the next step in the process is the fund release to the County School Facilities Fund for use by the district.

The Joint Use grant is processed for release when the district submits a Fund Release Authorization (Form SAB 50-05). The Form SAB 50-05 submitted by the district is an important document that cannot be altered or modified by the OPSC. Therefore, an improperly completed Form SAB 50-05 will be returned with a letter of explanation to the school district for correction.

When a properly executed form is received, the OPSC sends a School Facilities Fund Release notification to the district representative and county office of education. The notification indicates the type of grant released, amount, school district, application number, school name, and date processed.

It is important to understand that a Form SAB 50-05 must be submitted within 18 months of the Joint Use grant apportionment by the SAB, or the grant will be rescinded without further SAB action. The only exception to this is if the Joint Use project is a Type III. If it is a Type III Joint Use project, the district has one year from the apportionment date to submit final DSA approved plans. Once the DSA approved plans are received by the OPSC, the district will have 18 months from that date to submit the Form SAB 50-05, or the grant will be rescinded without further SAB action.

The Form SAB 50-05 can be downloaded from the OPSC Web site. The properly executed Form SAB 50-05 should be submitted to:

Office of Public School Construction
Accounting
1130 K Street, Suite 400
Sacramento, CA 95814

Chapter 9

Modernization Funding

In this chapter . . .

- ▶ Introduction
- ▶ Available Modernization Funding
- ▶ Funding Process
- ▶ Preparing an Application
- ▶ Modernization Grant Amounts
- ▶ Modernization Grant
- ▶ Supplemental Grants
- ▶ District Project Contribution
- ▶ SAB Approval Process
- ▶ Fund Release

INTRODUCTION

The School Facility Program (SFP) provides funding assistance to school districts for the modernization of school facilities. The assistance is in the form of grants approved by the State Allocation Board (SAB), and requires a 40 percent local contribution. A district is eligible for grants when students are housed in permanent buildings 25 years old or older and relocatable classrooms 20 years old or older and the buildings have not been previously modernized with State funds. The grant amount is increased and funding for specific utility upgrades is allowed if permanent buildings to be modernized are 50 years old or over. See Chapter 4, *Application for Eligibility*.

The modernization grant (pupil grant) amount is set in law and is based on the number of students housed in the over-age facilities. In addition to the basic grant amount, a district may be eligible for supplemental grants depending on the type and location of the project. In some cases, districts unable to contribute some or all of the local match may be eligible for financial hardship. See Chapter 10, *Financial Hardship* for more information on this subject. Once the grants are determined for a project, a request is sent to the SAB for a modernization adjusted grant apportionment.

The modernization grant can be used to fund a large variety of work at an eligible school site. Air conditioning, insulation, roof replacement, as well as the purchase of new furniture and equipment are just a few of the eligible expenditures of modernization grants. A district may even use the grants to demolish and replace existing facilities of like kind. However, modernization funding may not be spent for construction of a new facility, except in very limited cases generally related to universal design compliance issues, or for site development.

This chapter explains the funding application process, typical requirements, and how to determine the modernization adjusted grant amount. It is important to understand that the discussion in this chapter focuses on the most common situations. There are many variations that may apply to specific projects that can not be covered in this brief overview. As always, the district representative should meet with the Office of Public School Construction (OPSC) project manager and discuss the district plan in detail.

AVAILABLE MODERNIZATION FUNDING

There are two types of funding applications which may be made under the modernization program:

Modernization Adjusted Grant

A modernization adjusted grant is intended to provide the State's full share for all necessary project costs. In a typical project, a modernization adjusted grant includes the modernization grant (pupil grant) and any applicable supplemental grants as described in this chapter under "Supplemental Grants".

Separate Design

A separate design apportionment is available for districts that qualify for financial hardship. This apportionment represents 25 percent of the modernization grant¹. Separate design funding is intended to allow a district to hire an architect to prepare the project plans for Division of the State Architect (DSA) approval. When the plans are complete

¹ SFP Regulation Section 1859.81.1, Separate Apportionment for Site Acquisition and Design Costs

and approved, and the district is ready to request the remaining modernization adjusted grant, it will be reduced by the design apportionment previously made.

FUNDING PROCESS

After applying for and receiving approval of modernization eligibility, the process of applying for funding is as follows:

- ▶ the district submits a funding application package;
- ▶ the OPSC reviews the package;
- ▶ the SAB approves the apportionment;
- ▶ the district requests a fund release and makes expenditures;
- ▶ the district submits reports on expenditures to the OPSC;
- ▶ the OPSC audits.

The application for modernization funding is made on a single form, the Application for Funding (Form SAB 50-04). The form serves as a vehicle to collect the information necessary to calculate the amount of grants applicable to the project, and also is a certification from the district regarding compliance with requirements of law and the SFP Regulations. The district is ready to submit the application for funding after receiving approval by the California Department of Education (CDE) and the DSA of the plans for the proposed modernization project. In most cases, the district has determined its eligibility for modernization grants on the Eligibility Determination (Form SAB 50-03) before applying for funding. However, if the district has not established eligibility for the project previously, it may submit the eligibility application with the funding application (see Chapter 4, Application for Eligibility).

The funding application is reviewed by the OPSC for completeness and placed on a workload list by date order received. District representatives can view the status of projects from the workload list that can be found on the OPSC Web site at www.opsc.dgs.ca.gov. The funding applications are then processed in date order for presentation to the SAB for consideration of apportionment. Note that at this time, the OPSC will reduce the funding request by the amount of previous apportionments to the project made under the SFP or Lease-Purchase Program (LPP).

In some cases, the OPSC may find that an application lacks required information. If this is the case, the district is asked to provide the needed information within a specified time. If the district is unable to comply, the application may be returned unprocessed. If this occurs, the district may resubmit the application at any time after the needed information is available. When the application is resubmitted it will be added to the workload list with the new receipt date.

When the SAB has no funds to apportion the OPSC will continue to accept and process applications based on the date the application is received. The SAB will approve the application for placement on an unfunded list. An application for funding that is placed on an unfunded list is eligible for reimbursement pending the possible availability of future funding.

PREPARING AN APPLICATION

A complete application package is an essential element of the process of receiving funding for the district's project. The information provided is the basis for determining the grant amounts that the district will receive. The following discussion outlines the major elements of a complete application. This information is not necessary for a separate design funding request, unless noted.

All applications require a complete Form SAB 50-04 and must be based on a previous eligibility approved or must have the eligibility approved as part of the package (see Chapter 3, Project Development Activities). Eligibility for 50-year old buildings is not separate from the other eligibility at the site. If the district is requesting increased funding for pupils housed in 50-year old buildings, site diagrams with the ages and square footages of those buildings must be provided with the application package. Also, please note that districts requiring financial hardship assistance must receive that status before filing a funding application (see Chapter 10, Financial Hardship). To complete the Form SAB 50-04 and to make the required certifications, the district representative will need at least the following supporting information.

Final DSA Approved Plans and Specifications

A complete set of DSA approved plans and specifications is required for the modernization project. The submittal may be on CD-ROM or "Zip Drive" readable by AutoCAD® or a hard copy of the plans may be submitted. It is acceptable to submit the specifications on a diskette that is IBM compatible.

Cost Estimate

A complete construction cost estimate signed by the architect or design professional is required for the modernization project. The construction cost as submitted to the DSA must equal at least 60 percent of the total project cost (district and State share).

CDE Plan Approval Letter

The CDE must approve plans for modernization projects before they can be considered for funding under the SFP. The district should contact the School Facilities Planning Division (SFPD) of the CDE as early as possible in the planning process.

District Certifications

As previously mentioned, the Form SAB 50-04 is also an official certification to a number of SFP requirements. The form and the instructions to the form provide specific detail about the certifications; however, some of the issues to which the district representative will have to certify are as follows:

- ▶ The district has established a "Restricted Maintenance Account" (see Chapter 13, Additional SFP Requirements and Features for more information).
- ▶ The facilities to be modernized were not previously modernized under the LPP.
- ▶ Contracts for the services of an architect, structural engineer, or other design professional which were signed after November 4, 1998 were obtained pursuant to a qualifications based competitive process (see Chapter 3, Project Development Activities for more information).
- ▶ The property to be modernized using SFP funds is either owned by the district or county superintendent or it is leased from another governmental entity. If the property is leased, the lease is for at least 40 years from a non-federal governmental agency or 25 years from a federal governmental agency. The cost of the lease is not an eligible cost under the SFP.
- ▶ If this request is for a large new construction or a large modernization project, the district has consulted with the career technical advisory committee established pursuant to Education Code Section 8070 and it has considered the need for vocational and career technical facilities to adequately meet its program needs in accordance with Education Code Sections 51224, 51225.3(b) and 52336.1.
- ▶ If the district is requesting an Additional Grant for Energy Efficiency pursuant to SFP Regulation Sections 1859.71.3 or 1859.78.5, the increased costs for the energy efficiency components in the project exceeds the amount of funding otherwise available to the district.
- ▶ The district has or will initiate and enforce a Labor Compliance Program that has been approved by the Department of Industrial Relations, pursuant to Labor Code Section 1771.7, if the project is funded from Proposition 47 and the Notice to Proceed for the construction phase of the project will be issued on or after April 1, 2003.

Finally, to reduce the need to submit extensive supporting documentation, the OPSC will ask that the architect of record or other design professional certify to the following:

- ▶ The date that the DSA approved the plans and specifications.
- ▶ The number of classrooms demolished and not replaced and the number of classrooms constructed. (This is necessary to verify that no new construction, except the replacement of demolished facilities, is done with modernization funds.)
- ▶ That the cost estimate for the work in the plans and specifications as submitted to the DSA is at least 60 percent of the total grant provided by the State's and district's matching share.

MODERNIZATION GRANT AMOUNTS

The modernization grant is based on the number of pupils assigned to the project. This number may simply be the number of students enrolled at the site where the modernization will occur. This is usually true when all of the buildings at the site are 25 years or older for permanent buildings and 20 years or older for relocatable structures. In cases where only some of the buildings at the site are over age, and therefore eligible for modernization, the number of pupils assigned to the modernization project will probably be less than the total pupils on the site. The Form SAB 50-04 will assist the district in determining the proper number of pupils to be included in the application. When this number is determined, it is then possible to calculate the modernization grant amount as described in the next section. The following are the types of grants:

- ▶ Modernization Grant
 - Modernization Grant for 50-Year-Old Buildings
- ▶ Supplemental Grants

MODERNIZATION GRANT

The pupil grant amount is intended to provide the State's share for all essential project costs, which include but are not limited to funding for design, the modernization of the building, education technology, unconventional energy, tests, inspections, and furniture and equipment. To calculate the district's modernization share, multiply the modernization grant by 0.6667.

Modernization Grant Calculation

The modernization grant for each pupil housed in buildings to be modernized is established by law². The grant amount is adjusted every year in January, based on changes to the Class B construction cost index, by action of the SAB. As of January 2003, the modernization grants, which represent the State's 60 percent share of the project, are as follows:

▶ Modernization Grant Amount

Classification	Modernization Grant Amount	Comments
Elementary Pupil	\$2,523	
Middle School Pupil	\$2,669	(Include grade six pupils if part of a 6–8 grade school.)
High School Pupil	\$3,494	
Special Day Class – Non-Severe	\$5,378	
Special Day Class – Severe	\$8,038	

▶ Modernization Grant for 50-Year-Old Buildings

Classification	Basic Grant Amount
Elementary	\$ 3,504
Middle School	\$ 3,706
High School	\$ 4,852
Special Day Class – Non-Severe	\$ 7,469
Special Day Class – Severe	\$11,169

² Education Code Section 17074.10.

A modernization grant request must be for at least 101 pupil grants, or the remaining modernization eligibility at that school site if less than 101 grants are available.

SUPPLEMENTAL GRANTS

The supplements are intended to recognize special costs associated with projects of a certain type or located in certain areas. The district also uses the Form SAB 50-04 to supply information related to the supplemental grants. There are many possible supplemental grants as follows:

- ▶ Project Assistance
- ▶ Fire Code Requirements
- ▶ Energy Efficiency
- ▶ Site Development for 50-Year-Old Buildings
- ▶ Geographic Location
- ▶ Small Size Projects
- ▶ Urban Locations, Impacted Sites, Security Requirements
- ▶ Rehabilitation
- ▶ Handicap Access and Fire Code Compliance
- ▶ Elevators

The following is a brief explanation of the supplemental grants:

Project Assistance

The SAB may provide additional project grants for project assistance to small school districts with enrollment of 2,500 pupils or less. The current additional grant of \$2,131 may be used for costs associated with the preparation and submission of the SFP eligibility and funding applications, including costs related to support documentation such as site diagrams. The grant amount will be adjusted each year using the Class B index. The district can find the current amount on the OPSC Web site.

Fire Code Requirements

The Modernization grant will be increased for each pupil in a project that includes an automatic fire detection and alarm system. The current increase is as follows:

▶ Modernization Grant Increase	
Classification	Grant Increase
Elementary Pupil	\$118
Middle School Pupil	\$146
High School Pupil	\$143
Special Day Class—Non-Severe	\$251
Special Day Class—Severe	\$376

The amounts shown above are the 80 percent State share and are adjusted annually in the same manner as the Modernization Grant.

Energy Efficiency

A supplemental grant is available to districts with projects that have increased costs associated with plan design and other project components for school facility energy efficiency. The facilities in the proposed project must exceed the nonresidential building energy efficiency standards as specified in Title 24, Part 6 of the California Code of Regulations by 10 percent.

Site Development for 50-Year-Old Buildings

A supplement grant is provided for the purpose of upgrading existing utilities as necessary for the modernization of 50 year or older permanent buildings. Sixty percent of the estimated utility costs, up to a maximum of twenty percent of the Modernization Grants (pupil grant), are available. Allowable utility cost fall under five categories³:

- ▶ Water
- ▶ Sewage
- ▶ Gas
- ▶ Electric
- ▶ Communication systems

It is important to understand that site development costs have restrictions on their use. The district representative should consult the SFP regulations and the OPSC project manager if he or she is unsure if a particular item is an allowable cost before including the work in the project.

If a district is requesting a supplemental grant associated with site development on the Form SAB 50-04, verification must be submitted to support the request. To assist in gathering the supporting detail, the OPSC has developed a Site Development Worksheet for Additional Grants that is located on the OPSC Web site. The district may use this worksheet or similar method to submit this information to the OPSC.

Geographic Location

A supplemental grant is available to districts with projects that are located in areas of California that are remote, difficult to access, or lack a pool of contractors. A district may qualify and request an augmentation to the modernization grant because of their geographic location.

Small Size Projects

A supplemental grant is available to districts with projects that house no more than 200 pupils. The grant is intended to provide additional funds to modernize core facilities and to make up for the lack of economies of scale for small projects. The modernization grant can be increased by 12 percent for a project that will house less than 101 pupils, or by four percent if the project will house over 100, but no more than 200 pupils.

Urban Locations, Security Requirements and Impacted Sites

Districts with projects in urban locations on impacted sites may request a supplemental grant if:

- ▶ The useable site acreage for the project is 60 percent or less of the site size recommended by the CDE based on current CBEDS Report at the site at the time of the CDE final plan approval for the modernization project.

Urban locations on impacted sites are generally in areas of high population density. Districts with projects on these impacted sites are also faced with extra security requirements. The supplemental grant provides funds for security fences, watchpersons, increased premiums for insurance for contractors, and storage or daily delivery of

³ SFP Regulation Section 1859.78.7, "Modernization Additional Grant for Site Development Necessary for 50 Years or Older Permanent Buildings".

construction materials to prevent theft and vandalism. If a district requests grants due to these circumstances, the OPSC will verify the district's eligibility pursuant to the CDE Final Plan Approval letter.

If the above criterion is met, the urban supplemental grant is calculated on a sliding scale as follows:

► Modernization Urban Grant Adjustment

If...

the useable acres are 60 percent of the CDE recommended site size, as described above...

Then...

the urban grant adjustment is 15 percent of the Modernization Grant and of the funding for small size projects*, and

a 0.333 percent increase to the urban grant adjustment for each percentage decrease in the CDE recommended site size below 60 percent.

* SFP Regulation Section 1859.83(b), "Excessive Cost for Projects that House No More than 200 Pupils (Small Size Project)"

Rehabilitation

A district may apply for the rehabilitation of facilities that the SAB has determined are an imminent health and safety risk to the pupils, if the cost/benefit analysis to mitigate the problem and remain in the building is less than 50 percent of the current replacement cost. If the district qualifies, the district is eligible for funding of rehabilitation costs as a modernization project.

Handicap Access and Fire Code Compliance

A district may receive an additional three percent increase in the modernization grant for handicap access and fire code requirements. The OPSC must be able to verify this request from the plans and specifications.⁴

Elevators

If the DSA requires 2-stop elevators in the modernization project, the modernization grant will be increased by \$67,387 for each two stop elevator. The district must attach the DSA letter that requires the elevators be included in the project for handicap access compliance. The modernization grant will be increased by \$12,128 for each additional stop required.⁵ The grant amount will be adjusted annually using the Class B index.

DISTRICT PROJECT CONTRIBUTION

Every modernization application is a joint funding effort between the local school district and the State through the SFP. The State grant is discussed in the section entitled "Modernization Grant", earlier in this chapter. The total State grant represents 60 percent of the total project cost, with the district contributing the remaining 40 percent of the necessary funding.

The district contribution may come from virtually any source. The sole exception is that when savings from another SFP project are used as match, it must be from a modernization project only. This restriction exists due to legal requirements pertaining to the bond funds, which the State uses as a program-funding source.

The district need not have the entire 40 percent local contribution on deposit at the time that the project approval is made. However, at the time of the project fund release, the district must certify that the district's match-

⁴ SFP Regulation Section 1859.83(f), "Excessive Cost Hardship Grant".

⁵ SFP Regulation Section 1859.83(f), (1) and (3), "Excessive Cost Hardship Grant".

ing share has been deposited in the County School Facility Fund; has been expended by the district for the project; or will be expended by the district prior to the Notice of Completion for the project. Thus the district has considerable flexibility in how the local share is arranged and contributed. The district representative should be aware, however, that regardless of when the share is contributed to the project, the district must be able to show at closeout that 40 percent of the expenditures on the project were from local sources. If the district is unable to demonstrate the 40 percent expenditure requirement has been met, the apportionment will be reduced.

Unable to Meet the Contribution

Districts that are unable to contribute all of the 40 percent local share of a project, can pursue financial assistance through the financial hardship provisions of the SFP. Districts must submit financial data to the OPSC for "pre-approval" of financial hardship status (see Chapter 10, Financial Hardship) before submitting a funding application. In addition, this "pre-approval" enables districts to request a separate apportionment for design costs, if necessary.

SAB APPROVAL PROCESS

The SAB approval can either be an apportionment or "unfunded" approval, depending on the availability of funds for modernization. If there are no funds available, the project will be placed on a list of unfunded projects to await possible future funding.

FUND RELEASE

After the funding application is apportioned by the SAB, the next step in the process is the actual fund release to the County School Facilities Fund for use by the district.

The SFP grant is processed for release when the district submits a Fund Release Authorization (Form SAB 50-05). The Form SAB 50-05 submitted by the district is an important document that cannot be altered or modified by the OPSC. Therefore, an improperly completed Form SAB 50-05 will be returned with a letter of explanation to the school district for correction.

When a properly executed form is received, the OPSC sends a School Facilities Fund Release notification to the district representative and county office of education. The notification indicates the type of grant released, amount, school district, application number, school name, and date processed.

It is important to understand that a Form SAB 50-05 must be submitted within 18 months of the SFP grant apportionment by the SAB, or the entire new construction or modernization adjusted grant will be rescinded without further SAB action. If this should happen, the pupils housed in the project will be added back to the district's eligibility and the district may re-file the application at any future time.

The Form SAB 50-05 can be downloaded from the OPSC Web site. A replica of the form can be found in Appendix 3, SFP Required Forms. The properly executed Form SAB 50-05 should be submitted to:

 Sacramento, CA 95814

to the

Chapter 10 Financial Hardship

In this chapter. . .

- ▶ Introduction
- ▶ Qualifying for Financial Hardship Assistance
- ▶ Financial Hardship Assistance Request
- ▶ Approval of Financial Hardship Assistance
- ▶ Renewal of Financial Hardship Assistance

INTRODUCTION

Financial hardship assistance is available for those districts that cannot provide all or part of their funding share of a School Facility Program (SFP) project. In order to receive financial hardship assistance, a district must have made all reasonable efforts to raise local funding and must also demonstrate that it is unable to contribute all or a portion of the matching share requirement.

If the district meets the financial hardship criteria, it is eligible for financial assistance for new construction or modernization projects. It may also be eligible for a separate apportionment for the following:

- ▶ For new construction or modernization projects, an early apportionment for design costs.
- ▶ For new construction projects, an early apportionment for site acquisition.

A district seeking financial assistance must have an approved financial hardship status prior to submitting an Application for Funding (Form SAB 50-04) for either a new construction or modernization grant request. In order to obtain this approval the district must provide verification that a reasonable effort was made to meet the district's matching share requirement, and must have confirmation from the Office of Public School Construction (OPSC) that the district is unable to contribute the entire matching share requirement. When this is accomplished, the OPSC will recommend that the district be approved as a financial hardship and will send a 'pre-approval' letter to the district.

QUALIFYING FOR FINANCIAL HARDSHIP ASSISTANCE

To apply for financial hardship, send a letter to the OPSC Financial Hardship Audit Unit stating why the district is requesting financial hardship. Along with the letter, the district must submit the documents listed below:

▶ Documentation for Financial Hardship Application

Legal Requirement	Financial Documentation Required
Levy maximum developer fee allowed	School Board Resolution regarding developer fees
Demonstrate local effort to raise revenues	Evidence of least one of the following: <ul style="list-style-type: none"> • Debt level at 60 percent of bonding capacity • Total district bonding capacity less than \$5 million • The district had a successful registered voter bond election for at least the maximum allowed under Proposition 39 within the previous 2 years. • Other evidence which demonstrates that all reasonable local efforts have been made as approved by the SAB

continued on following page. . .

► Documentation for Financial Hardship Application ...

Legal Requirement

Financial inability to contribute the match

Financial Documentation Required

Evidence that facility funds are not available:

- Financial Hardship Project Worksheet
- Financial Hardship Worksheet
- Latest independent audit reports
- Encumbrances
- Expenditure reports
- Listing of the district's unused sites
- Forms SAB 50-01 and SAB 50-02 for "interim housing" allowance calculation for new construction projects only

If the financial hardship package is incomplete, a letter will be sent to the district requesting the necessary documentation to make the request complete. If the requested information is not submitted in a timely manner, the request will be returned unprocessed. The district may re-file the request whenever the missing documents become available.

County offices of education do not need to provide documentation regarding developer fees or evidence of reasonable effort to raise local funds.

FINANCIAL HARDSHIP ASSISTANCE REQUEST

In order to qualify for financial hardship assistance, the school district must demonstrate that it has made all reasonable efforts at the local level. The district must also provide evidence that it is unable to pay all or a portion of the district's share of the project. The process of providing the required evidence is discussed in this section.

Evidence of Reasonable Effort to Fund Matching Share

As previously mentioned, the law requires that a district seeking financial hardship assistance must demonstrate that all reasonable efforts have been made to raise local revenues for the SFP match requirement. The State Allocation Board (SAB) has adopted regulations that set criteria to determine that this requirement is met. The district must be levying developer fees at the maximum rate justified by law and must verify it meets at least one of the following:

Bonding Capacity and Indebtedness Threshold. The current outstanding indebtedness of the district, at time of financial hardship request, is at least 60 percent of the district's total bonding capacity. A district with a total bonding capacity of less than \$5 million meets this requirement regardless of the level of indebtedness. Outstanding indebtedness includes General Obligation Bonds, Mello-Roos Bonds, School Facility Improvement District Bonds and Certificates of Participation (COPs) that was issued for capital outlay school facility purposes, on which the district is paying a debt service.

The required documentation needed is a certification from the county auditor controller stating the district's assessed valuation, outstanding indebtedness, and remaining bonding capacity.

Voter Bond Election. The district had a successful registered voter bond election for at least the maximum amount allowed under Proposition 39 within the previous two years from the date of request for financial hardship status. The proceeds from the bond election that represent the maximum amount allowed under the provisions of Proposition 39 must be used to fund the district's matching share requirement for SFP project(s).

The required documentation needed:

- Copy of ballot issue.
- Original bond election estimates that support the amount of bond for which the district sought election.
- Date of election; amount of bond; purpose of bond; percent of "Yes" vote on bond.
- Copy from County Auditor-Controller certifying the district's current bonding capacity and outstanding indebtedness.

County Superintendent of Schools. A county superintendent of schools automatically meets the reasonable effort. The County Superintendent must then complete a financial review to determine the level of financial assistance needed.

Other Evidence of Reasonable Effort. If the district does not meet the reasonable effort requirements outlined above, it may present to the SAB other evidence of reasonable efforts to fund its matching share. This can be done using a School District Appeal Request (Form SAB 189). This form and instructions for completing the form are available on the OPSC Web site. In addition to the completed Form SAB 189, the district must also submit updated Financial Hardship Worksheets for each fund within the Capital Project Funds and the latest independent audit report. If the hardship justification is approved by the SAB, the district may then file its request for financial hardship using the approved SAB item as evidence of having met the reasonable effort test to fund its matching share for its projects. The district must then submit all of the requested financial documents necessary for a final financial hardship review, as described in the table "Documentation for Financial Hardship Application" on page 55.

Financial Review

The OPSC will conduct an analysis of the district's financial information to verify that the district is unable to provide all or a portion of the necessary matching funds for an eligible project. The analysis will include the applicant's financial records including those maintained by the California Department of Education (CDE) and the county office of education. The review will determine whether available non-operational funds and savings from other SFP projects are sufficient to fund all or a portion of the matching share requirements on a project. See Regulation Section 1859.81 for more information on the financial review.

Financial Hardship Project Worksheet. This is used by the OPSC to estimate the district's share of the project. The district must submit a separate Financial Hardship Project Worksheet for each project for which it is requesting financial assistance. The worksheet can be found on the OPSC Web site.

Financial Hardship Worksheet. This worksheet is used by the OPSC to determine the amount of the cash contribution to be provided by the district. These worksheets are based on the latest independent audit report and then brought current to application date with subsequent transactions that have occurred in the funds. Detail of the expenditures made for the subsequent events must accompany this worksheet. If this is not submitted, all of the expenditures shown will be disallowed and deemed as "funds available".

On the worksheet, the district will identify restricted funds such as class size reduction, as well as the purpose for any restrictions on funds, and will identify all bonds and COPs authorized and sold to date of financial hardship request. If the district has unsold bonds or COPs, possible restrictions on the use of these funds should be noted.

Latest Independent Audit Report. The district's latest independent audit report is used by the OPSC to verify the financial condition of the district. The district must submit the entire audit report.

Developer Fee Information

The district must be levying developer fees at the maximum rate justified under law or have an alternative revenue source equal to or greater than the developer fee otherwise justified.¹ As evidence, please include a copy of the resolution from the district's school board authorizing the levying of the fee. If the district is not levying the maximum fee allowed by law in accordance with current statute, include a copy of the district's recent Implementation Study and/or the Needs Analysis to support the amount being levied or justification for an alternative revenue source.

If the district entered into an agreement with a city, county, or other government entity regarding developer fees, please submit a copy of that agreement. In addition, please submit documents showing the amount of fees that could have been collected during the time frame of the agreement versus the amount that was actually collected and shown as revenue for the district.

¹Education Code Section 17075.10.

If the district received any benefit, building, land, etc., in lieu of developer fees please submit documentation regarding the "in lieu" received and the value of the developer fees that were negated due to the "in lieu" agreement(s). If the district did not enter into agreements regarding developer fees, please submit a statement to that effect.

The current developer fees can be found on the OPSC Web site at www.opsc.dgs.ca.gov. Developer fee amounts are adjusted every even numbered year at the January State Allocation Board (SAB) meeting based on an index specified in law. In order to maintain financial hardship eligibility, districts must implement the new developer fee within six months after an index change.

Encumbrances. The district must provide contracts and all other documentation supporting any encumbrances or obligations the district is claiming. All funds identified that have not been expended or encumbered by a contractual agreement for a specific capital outlay purpose prior to the initial request for financial hardship status shall be deemed available as a matching contribution.

Interim Housing Deduction from Available District Funding. From the funds available as a matching housing contribution, the district may retain \$19,776 per classroom in each enrollment reporting period for the cost to provide interim housing for the currently unhoused pupils of the district. In addition, from the fund available as a matching contribution, the district may also retain \$19,776 per approvable portable toilet unit in each reporting period for the cost to provide interim toilet facilities for the currently unhoused pupils of the district. This amount is adjusted annually. The current amount can be found on the OPSC Web site.

Expenditure Reports. The district must submit expenditure reports, Summary of Expenditures and Construction Progress (Form SAB 184) and Detailed Listing of Warrants Issued by the District (Form SAB 184A), for each project for which the district is requesting financial hardship. If no funds have been spent on a project, the district must submit a statement to that effect. The OPSC will review any prior apportionment and the expenditures reported. All expenditures above and beyond a prior apportionment will be considered as a matching contribution. The SAB will not reimburse the district for expenditures made prior to the financial hardship approval.

Listing of the District's Unused Sites. The district must submit a listing of the district's unused sites and intended use. If the district has no unused sites, submit a statement to that effect.

APPROVAL OF FINANCIAL HARDSHIP ASSISTANCE

Once the financial hardship review is complete, the OPSC will send a letter to the district stating the available funds and expenditures that will be considered available for match purposes. If the district disagrees with the OPSC's findings, the district may submit additional information for consideration. Once the district has been approved for financial hardship (has a pre-approval letter), the district may submit its Form SAB 50-04, for the projects and specific phases listed in the financial hardship approval letter.

When a district is approved for financial hardship, the approval is valid for six months. If, within the six months, the district wishes to submit additional applications or phases of a previously approved project, it must have a pre-approval letter for those additional specific projects or subsequent phases prior to filing the Form SAB 50-04. To obtain pre-approval within the six months, the district must submit a Financial Hardship Project Worksheet for the project along with expenditure reports. The district does not need to update other financial information unless the six month period is past.

If the district's request for financial hardship status is denied by the Board, the district may be eligible for rental payments of \$2,000 per year per classroom under the Emergency School Classroom Law of 1979 for a two year period when relocatable classroom buildings are available and the district provides financial documentation satisfactory to the Board that it is unable to afford the full rental amount.

Subsequent Financial Hardship Request

Once a district receives funding as a financial hardship, the district should be aware that for a period of three years, all capital facilities funding received by the district from any source will be considered available for the matching share on a future financial hardship request. The exceptions are:

- ▶ Approved interim housing expenditures;
- ▶ Funding to pay for multiyear encumbrances approved at the initial financial hardship approval;
- ▶ Funding that is transferred into a Special Reserve Fund and is used for the purpose of the Federal Renovation Program;

RENEWAL OF FINANCIAL HARDSHIP ASSISTANCE

If the district does not submit an Application for Funding (Form SAB 50-04) within six months of the OPSC notification of approval of financial hardship status, the district must re-qualify for financial hardship status by submitting a new request for financial hardship status.

The district will need to update its financial information by providing all required documentation as listed in the table "Documentation for Financial Hardship Application" on page 55 .

Financial Hardship Review for Financial Hardship Projects on Unfunded List

If a district's project(s) has been included on an unfunded list for more than 180 calendar days, a review of the district's funds will be made to determine if additional district funds are available to fund the district's matching share of the project(s).

Chapter 11

Facility Hardship Grant

In this chapter...

- ▶ Introduction
- ▶ Eligibility for Facility Hardship Grants
- ▶ Application and Approval Process
- ▶ Interim Housing

INTRODUCTION

Under very limited circumstances, a need to replace or construct new facilities may exist for reasons other than enrollment growth. For instance, a classroom or support facility may no longer be safe to occupy due to a structural failure or other severe health threat. To address these unusual situations, the State Allocation Board (SAB) has developed a facility hardship grant. The purpose of the grant is to assist districts with funding where it has been determined that the district has a critical need for pupil housing because the condition of the facilities, or the lack of facilities, presents an imminent threat to the health and safety of the pupils.

By definition a facility hardship is an unusual, often unique situation. It is difficult to describe a "normal" process since each request must be reviewed and analyzed on a case-by-case basis. This chapter outlines the process but by no means addresses all possible facility hardship situations. When a significant and serious threat exists to the health and safety of students or staff in any public school environment or if an existing facility has been destroyed by natural disaster, the district should contact the Office of Public School Construction (OPSC) project manager for guidance.

ELIGIBILITY FOR FACILITY HARDSHIP GRANTS

To be eligible for a facility hardship grant the district must demonstrate that one of two conditions exists: facilities must be replaced due to an imminent health and safety threat, or existing facilities have been lost to fire, flood, earthquake or other disaster. If the district is able to qualify for a facility hardship grant under one of these two conditions, there must also be an unmet need to repair or replace the facility to accommodate projected enrollment. In other words, the facility to be replaced must be needed to house students under the standards of the School Facility Program.

Replacement Due to Imminent Health or Safety Hazard

In this case, existing facilities must be replaced to ensure the health and safety of the pupils because of circumstances such as the following:

- ▶ An imminent hazard exists because the existing facilities are in close proximity to a major freeway, airport, electrical facility, high power transmission lines, dam, pipeline, industrial facility, adverse air quality emission source; or
- ▶ The existing facilities have serious structural deficiencies, which must be repaired or corrected as specified by the Division of the State Architect (DSA); or
- ▶ There are existing traffic safety problems; or
- ▶ The pupils live in a remote area and transportation to existing facilities is not possible or poses a serious threat to the health and safety of the pupils; or
- ▶ Other situations exist which pose a threat to the health and safety of the pupils.

A facility hardship approval to replace facilities is limited to the most severe instances of need. Clear demonstration that the health and safety of the children is in jeopardy is needed.

Documentation. Typical supporting documentation should be in the form of written statements reports by a qualified expert or specialist appropriate for the specific area of concern. This documentation must be them reviewed and written concurrence provided by the appropriate experts representing local or State agencies that have jurisdiction relating to the problem area. For example, air quality threats might involve a medical doctor or other certified professional on staff at the county or State Department of Health; traffic problems might be supported by the California Highway Patrol, and so forth. If structural deficiencies are the basis of safety concerns, a licensed structural engineer's report illustrating that the structure is out of compliance with codes in place at the time of original construction with DSA's concurrence will be required. In any case, the statement provided to the OPSC must indicate how the problem poses an immediate threat to the health and safety of the children. Refer to Appendix 2, Potential State Agency Involvement for possible contact information.

Cost/Benefit Analysis. If the district has substantiated a health and safety issue and wishes to replace existing facilities, a cost/benefit analysis must be prepared and submitted to the OPSC. The analysis should include only the minimum work necessary to mitigate the identified health or safety problems and compare these with the cost to replace the facility. The cost/benefit analysis may include applicable site development costs.

If the request is for replacement facilities that are needed as a result of structural deficiencies, the cost/benefit analysis must also include a report from a licensed design professional identifying the minimum work necessary to obtain the DSA's approval. The cost/benefit analysis must include a narrative of the structural deficiencies and a description of the repair approach required to perform the minimum work necessary to obtain DSA's approval to mitigate the facility's threat to the health and safety of the students and staff. The analysis must also include a detailed cost estimate for the minimum work necessary described in the narrative. "Soft costs" such as architect fees, testing and inspection may be included in the cost estimate as a separate line item but should not be included in the cost/benefit analysis. The analysis and detailed cost estimate must be signed by the authoring licensed design professional. The OPSC requires the district to submit the DSA's concurrence with the report.

If the total cost to mitigate the health or safety problem and remain in the facility exceeds 50 percent of the Current Replacement Cost of the facility, it can be considered for abandonment and replacement. However, if the cost to remain in the facility is less than 50 percent of the Current Replacement Cost, the district may qualify for Rehabilitation. A qualifying Replacement project will receive 50 percent of the eligible cost. A Rehabilitation project will receive 60 percent of eligible costs. For more information, refer to Chapter 9, Modernization Funding.

Facilities Lost or Destroyed as a Result of a Disaster

A district may apply for the replacement of school facilities that were lost or destroyed as a result of a disaster, such as fire, flood or earthquake, for the following facility types:

- ▶ Classroom or related facility
- ▶ Library/media center
- ▶ Multipurpose room
- ▶ School administration
- ▶ Gymnasium
- ▶ Toilet

Qualifying facilities must be required to ensure the health and safety of the pupils and must no longer be useable for school purposes as recommended by the California Department of Education and approved by the SAB. The district is also required to demonstrate satisfactorily to the State Allocation Board (SAB) that the facility was uninsurable or the cost of insurance was prohibitive.

Documentation. Supporting documentation for facility hardship requests for the replacement of lost or destroyed facilities would include the following:

- ▶ Photos and written verification from the appropriate expert that documents the loss or the extent of damage to the school facility.
- ▶ Copy of the district's insurance policy that documents the level and type of coverage provided.
- ▶ Written verification from the district's insurance carrier that documents the amount of funds that the district has and/or will recover as a result of the disaster.
- ▶ If the facility is damaged, as opposed to entirely destroyed, the district must submit a licensed structural engineer's report, as outlined in this chapter, illustrating the extent of the damage and that the facility poses an immediate threat to the health and safety of the students and staff. The district would also be required to submit a cost/benefit analysis, as outlined in this chapter, signed by the authoring licensed design professional. The OPSC requires the district submit the DSA's concurrence with the report.

APPLICATION AND APPROVAL PROCESS

In addition to the documentation supporting the health and safety issue and the cost/benefit analysis, as applicable, all facility hardship requests must also include the following:

- ▶ An Application for Funding (Form SAB 50-04) completed as applicable to make the initial request for conceptual approval by the State Allocation Board for the specific facility hardship type.
- ▶ A School District Appeal Request (Form SAB 189) that summarizes the district's request for a facility hardship including how the condition presents an imminent threat to the health and safety of the students and staff.
- ▶ A plot diagram that indicates the overall site layout, the facilities designation of the buildings and square footage. The diagram should indicate the specific structures at the school site for which the facility hardship request is being submitted.

After the analysis of the report(s) and review of the cost by the OPSC, an item will be prepared for presentation to the SAB for consideration of conceptual approval. If the SAB approves the district's request for new or replacement facilities, the district is eligible for funding as a new construction project. The district can then proceed with hiring an architect in order to complete plans, obtain DSA approval, and apply for funding grants. A district that receives a conceptual approval has 18 months, or 24 months if a new replacement school site is required, to submit a complete funding application (including DSA plan approvals, cost estimates, etc.). Funding for a Facility Hardship is subject to the availability of funds.

INTERIM HOUSING

To remove students from unsafe situations as soon as possible, districts eligible for facility hardship are encouraged to apply for relocatable classrooms under the OPSC's State Relocatable Classroom Program. In some instances, the SAB may consider reduced rental payments during the life of the emergency situation. For additional information regarding this program, please access the OPSC Web site at www.dgs.opsc.ca.gov for the State Relocatable Handbook and to obtain names of contacts that can assist you.

Chapter 12 Program Accountability

In this chapter...

- ▶ Introduction
- ▶ Progress Report
- ▶ Expenditure Report
- ▶ Expenditure Audit

INTRODUCTION

The School Facility Program (SFP) has significantly increased program flexibility and responsibility at the local level, while reducing the State's oversight role. In general, the State's fiscal concerns are limited to verifying that the expenditures and certifications of program requirements made by the district for the project comply with the law, that the district followed applicable State requirements pertaining to construction and to verify that the project progresses in a timely manner as specified in statute. To assist with this oversight, a district is required to submit expenditure reports and evidence of progress during the construction of the project. On a project that requires less than a year to complete, only an expenditure report is required.

PROGRESS REPORT

The SFP requires that an approved project be constructed within certain time frames. To ensure that this happens, evidence of progress is generally due after funds are released to the district for the project¹. The specific evidence required and the timeframe for submitting such evidence depends on the type of funding received. The possible types of funding include Separate Design (Financial Hardship), Separate Site (Financial Hardship), Separate Site (Environmental Hardship), and/or Adjusted Grant. The table below defines the specific criteria for meeting the substantial progress requirement and indicates the filing time requirements based on the type of funding received.

▶ Substantial Progress Reports

Funding Received	Due Date for Submitting Evidence of Progress	Evidence of Progress Required
Separate Design (Financial Hardship project only)	18 months from Fund Release	<p><i>One of the following:</i></p> <ul style="list-style-type: none"> • Submittal of a complete Adjusted Grant funding application package to the OPSC. • Submittal of a district certification that complete plans and specifications have been submitted to the Division of the State Architect (DSA). • Submittal of a complete Separate Site funding application package to the OPSC. <p><i>Or:</i></p> <ul style="list-style-type: none"> • Submittal of a narrative of evidence, satisfactory to the SAB, detailing why complete plans have not been submitted to the DSA.

continued on following page...

¹ In cases where separate site environmental hardship funds are involved, the due date is based on the apportionment date instead of the fund release date.

► Substantial Progress Reports...

Funding Received	Due Date for Submitting Evidence of Progress	Evidence of Progress Required
Separate Site (Financial Hardship)	18 months from Fund Release*	<p data-bbox="836 451 1228 507"><i>Submittal of a progress report certifying that all of the following have been achieved:</i></p> <ul data-bbox="836 513 1260 756" style="list-style-type: none"> <li data-bbox="836 513 1077 538">• Obtain the final site appraisal. <li data-bbox="836 544 1228 600">• Complete all California Environmental Quality Act (CEQA) requirements. <li data-bbox="836 607 1260 663">• Obtain final California Department of Education (CDE) site approval. <li data-bbox="836 669 1260 756">• Obtain final escrow instructions or evidence the district has filed condemnation proceedings and intends to request an order of possession of the site. <p data-bbox="836 762 861 787"><i>Or:</i></p> <ul data-bbox="836 793 1268 880" style="list-style-type: none"> <li data-bbox="836 793 1268 880">• Submittal of a narrative of evidence, satisfactory to the SAB, detailing the circumstances (beyond district control) which precluded progress from being achieved.
Separate Site (Environmental Hardship)	12 months from the apportionment date or anniversary of conversion from Separate Site Financial Hardship, and on each subsequent anniversary if necessary.	<p data-bbox="836 901 1085 926"><i>Submittal of one of the following:</i></p> <ul data-bbox="836 932 1268 1081" style="list-style-type: none"> <li data-bbox="836 932 1268 988">• A progress report satisfying the same criteria set forth for Separate Site (Financial Hardship) funding. <li data-bbox="836 994 1268 1050">• A request for an extension (which is supported by written letters of concurrence from the DTSC and the CDE). <li data-bbox="836 1056 1268 1081">• Other reasonable evidence of effort the district has made.
Adjusted Grant	18 months from Fund Release†	<p data-bbox="836 1102 1268 1127"><i>Submittal of a progress report certifying one of the following:</i></p> <ul data-bbox="836 1133 1268 1284" style="list-style-type: none"> <li data-bbox="836 1133 1268 1189">• 75 percent of site development work necessary prior to construction is complete. <li data-bbox="836 1195 1212 1251">• 90 percent of construction activities have been contracted for. <li data-bbox="836 1257 1236 1284">• 50 percent of construction activities are complete. <p data-bbox="836 1290 861 1315"><i>Or:</i></p> <ul data-bbox="836 1321 1268 1408" style="list-style-type: none"> <li data-bbox="836 1321 1268 1408">• Submittal of a narrative of evidence, satisfactory to the SAB, detailing the circumstances (beyond district control) which precluded progress from being achieved.

* If toxic substance issues are delaying site progress, the district may convert the site apportionment to an Environmental Hardship apportionment. Environmental hardship projects may request annual extensions with appropriate substantiation.

† The progress-reporting requirement for Adjusted Grant funding can be suspended if one of the following occur before the reporting deadline:

- The district submits a Notice of Completion for the project. If more than one construction contractor is involved in the project, a Notice of Completion is required for each construction contract.
- The district submits an Expenditure Report (Form SAB 50-06), which shows that the project is substantially close to 100 percent completion.

Substantial Progress Audit

Upon receipt of the substantial progress report, the OPSC will analyze the information and will notify the district within 60 days if it intends to recommend to the SAB that the evidence submitted does not demonstrate substantial progress. If the OPSC does not respond to the district within 60 days of submittal, the OPSC concurs with the district that substantial progress has been made.

EXPENDITURE REPORT

Throughout the construction period of a project, the district will file one or more expenditure reports. The first expenditure report is due one year after the first fund release or upon completion of the project, whichever occurs first. Additional expenditure reports are due annually from the date the first report is due until the project is complete. A project is considered complete when either of the following occur:

- ▶ The notice of completion for the project has been filed.
- ▶ Three years from the date of the final fund release for an elementary school project or four years from the date of the final fund release for a middle or high school project.

Preparing the Expenditure Report

A district submits a record of project expenditures by using the Expenditure Report (Form SAB 50-06). This form allows the district to report all expenditures from district and State funds in summary form. To support the Expenditure Report, the Office of Public School Construction (OPSC) has developed an Expenditure Worksheet which is available on the OPSC Web site at www.opsc.dgs.ca.gov. The district is encouraged to use this worksheet to gather and record the expenditure detail and to accompany the Form SAB 50-06.

EXPENDITURE AUDIT

Within two years of receipt of the final expenditure report from the district, the OPSC must initiate an audit of the expenditures. The purpose of the expenditure audit is to assure that project expenditures have been made in accordance with the laws and regulations that govern the SFP. If the district is not notified by the OPSC within that time frame that an audit will be made, the expenditures submitted by the district and certifications made on the Forms SAB 50-04 and SAB 50-05 will be accepted. If the OPSC has notified the district that an audit will be made, the OPSC must complete the audit within six months, unless additional documentation requested from the district has not been received.

Eligible Expenditures

The following table lists those expenditures that are typically eligible costs under the SFP:

▶ Eligible Expenditures		
Expenditure	New Construction	Modernization
Acquisition and Installation of portable classrooms	⊙	
Acquisition and conversion of an existing government or privately-owned building, or privately-financed school building	⊙	
Construction	⊙	⊙
Construction management	⊙	⊙
Demolition	⊙	⊙
Design	⊙	⊙
Engineering	⊙	⊙
Fire safety improvement		⊙
Furniture and Equipment (including telecommunication equipment to increase school security)	⊙	⊙

continued on following page

▶ Eligible Expenditures ...		
Expenditure	New Construction	Modernization
Identification, assessment, or abatement of hazardous asbestos		⊙
Inspection	⊙	⊙
Landscaping	⊙	
Necessary utility costs	⊙	⊙
Plan checking	⊙	⊙
Playground safety improvements		⊙
Purchase and installation of air-conditioning equipment and insulation materials and related costs		⊙
Replacement of portable classrooms		⊙
Seismic safety improvements		⊙
Site acquisition	⊙	
Site development	⊙	⊙*
Testing	⊙	⊙
Upgrading of electrical systems or the wiring or cabling of classrooms in order to accommodate educational technology		⊙
Utility connection and other fees	⊙	⊙

* For 50 years or older modernization projects utilities work only, for permanent facilities, per Regulation Section 1859.78.7.

Site Closeout Reviews

Based on recent changes in the law, districts that receive funding for "clean sites" will be audited based on Regulation Section 1859.74, in which the district may be entitled to 50 percent of the lesser of the appraised or actual purchase price of property. Districts that purchase sites that require hazardous waste removal substantiated by a Response Action, will be eligible to receive 50 percent of one and one-half times the value of the site to monitor and clean the site. Additional costs beyond this new cap will be subject to provisions contained in section 1879.74.2 and following.

Ineligible Expenditures

District representative should be aware that some expenditures are not permitted under the SFP. If the district representative is uncertain about a specific expenditure, the OPSC audit staff can assist the district accordingly.

The following is a list of the expenditures that may potentially be disallowed during an SFP final expenditure audit:

- ▶ Administrative and overhead costs.
- ▶ District force account labor that does not comply with the Public Contract Code.
- ▶ Modernization expenditures for:
 - New building area that does not replace building area of "like kind."
 - New site development that is not for replacement, repair or additions to existing site development work.
 - Removal of hazardous waste from a modernization project that exceeds ten percent of the total modernization apportionment.
 - Costs on leased facilities unless owned by another district or county superintendent.
 - Acquisition and development of real estate.
 - Demolition costs not attributable to replacement of "like kind" building area.

- ▶ Any expenditure that cannot be reasonably attributed to a project.
- ▶ Relocation costs that do not conform to Title 25, California Code of Regulations, Section 6000, et. seq. (see Regulation Section 1859.74(a)(1)).
- ▶ Expenditures associated with a “use of grant” (see Regulations Section 1859.77.2) State Allocation Board (SAB) approval that were not constructed as specified in the original approval.
- ▶ Campus supervision that goes beyond construction site security.
- ▶ Expenditures on a financial hardship project that exceed the district’s grant amount plus interest for the project.
- ▶ Interim housing expenditures associated with a new construction project.
- ▶ Relocation costs such as goodwill that is not court ordered, and the difference between the salvage value and new value of furniture and equipment costs when the business vendor retains the furniture and equipment.
- ▶ Legal costs not directly attributable to the project.
- ▶ Expenditures associated with facility hardship SAB approvals that were not constructed as originally approved (see Regulation Section 1859.82).

Chapter 13

Additional SFP Requirements and Features

In this chapter. . .

- ▶ Introduction
- ▶ General Information
- ▶ Project Savings
- ▶ Restricted Maintenance Account

INTRODUCTION

There are a number of topics related to the School Facility Program (SFP) that do not fit neatly into one of the other program chapters. These topics are gathered here for easy reference. They may apply to new construction, critically overcrowded school facilities, joint use, and modernization or only to one program, as noted in the discussion.

GENERAL INFORMATION

Class B Index

The grant amounts in the SFP are adjusted each January based on the change in the Class B Index. This index is developed using cost data published by the Marshall Swift Company relating to buildings of primarily steel and concrete construction.

SAB Appeal Process

In some cases a school district's application may appear to be outside the standards of the SFP and the Office of Public School Construction (OPSC) is unable to recommend approval. When this occurs, a district can appeal directly to the State Allocation Board (SAB) using a School District Appeal Request (Form SAB 189). On this form, the district states why the SAB should grant the district's appeal based on law, regulation, or SAB policy.

Prior to the item being scheduled for SAB consideration, the OPSC will review and analyze the appeal as to legal issues, program impact, funding ramifications, and public policy considerations. Based on the evidence submitted by the district, the OPSC may support the district's request, deny the request, or provide alternative recommendations to the SAB. In any case, all of the recommendations made by OPSC to the SAB will be based on supporting laws, regulations, or legal opinions. Districts generally have a representative available at the SAB meeting to provide testimony, if needed. This process applies to all applications.

PROJECT SAVINGS

Districts that do not receive financial hardship assistance may retain project savings achieved by utilizing cost saving measures and efficient project management. A district may utilize these project "savings" for other high priority facility capital outlay purposes in the district.

Savings for Non-Financial Hardship Districts

Districts may expend the savings for any of its high priority capital facility needs. A district may also use the savings as a part of the match for other SFP projects, with the only requirement being that the district's share of the savings must be used towards a project of like kind. For example, the State's share of the savings on a new construc-

tion project may only be used to match another new construction project, and the State's share of the savings from a modernization project may only be used to match another modernization project.

Savings for Financial Hardship Districts

Any savings from a project that received financial hardship assistance must be used to reduce the financial hardship grant of that project or any other financial hardship project within the district. If the district has no other financial hardship project, the savings must be remitted to the State.

RESTRICTED MAINTENANCE ACCOUNT

The SFP requires participating school districts to assure that a State funded project is kept in good repair. To meet this requirement, school districts must establish and maintain a restricted account within the district's general fund for ongoing and major maintenance of school buildings. The district must deposit no less than 3 percent of the district's general fund budget each fiscal year for a period of 20 years after receiving funds through the SFP.

Unified districts with an average daily attendance (ADA) of 1,200 or less, elementary districts with ADA of 900 or less and high school districts with an ADA of 300 or less may be permitted to deposit less than the maximum 3 percent by certifying that the district can reasonably maintain its facilities with a lesser dollar level maintenance account.

The school district must annually certify that it has publicly approved an ongoing and major maintenance plan that outlines the use of the funds deposited into the restricted account.

Appendix 2 Potential State Agency Involvement

INTRODUCTION

This listing is only a sample of potential State agency involvement. There are many other agencies throughout the state that may become involved in the school construction process.

► Potential State Agency Involvement List

Agency Name/Contact Information	Role
California Energy Commission www.energy.ca.gov ▶ Bright School Program 916.654.4053	Helps schools identify ways to reduce energy use in school facilities.
Department of General Services Office of Small Business Certification and Resources www.pd.dgs.ca.gov/smbus ▶ Disabled Veteran Business Enterprise Participation Program 916.375.4940	Provides a listing of certified DVBE firms. Note: The DVBE Program administered by the Department of General Services does not apply to school district's contracts.
Department of Health Services www.dhs.ca.gov ▶ California Indoor Air Quality Program 510.540.2476	Provides assistance and training to school districts that have air quality problems.
Department of Transportation www.dot.ca.gov ▶ District Transportation Planning Division 916.327.3859	Determines whether a school is likely to have an impact on the state transportation system or any of its facilities.
Office of Emergency Services Hazard Mitigation www.oes.ca.gov ▶ Public Assistance 916.845.8200	Provides funds for school construction projects that reduce or eliminate future damage from disasters (seismic retrofit, modernization, flood control). Administer both federal and state funding for repair and replacement of eligible facilities damaged by a disaster event.
Office of Planning and Research www.opr.ca.gov ▶ State Clearinghouse 916.322.2318 state.clearinghouse@opr.ca.gov	Distributes state required environmental documentation to various governmental agencies for review and comment as part of the CEQA process.

Appendix 3 School Facility Program Required Forms

The following forms are used in conjunction with the School Facility Program. It is the user's responsibility to check the OPSC's Web site (SAB Forms) for the most current version of the form as older versions of the form may not be accepted.

- ▶ Enrollment Certification/Projection (Form SAB 50-01)
- ▶ Existing School Building Capacity (Form SAB 50-02)
- ▶ Eligibility Determination (Form SAB 50-03)
- ▶ Application for Funding (Form SAB 50-04)
- ▶ Fund Release Authorization (Form SAB 50-05)
- ▶ Expenditure Report (Form SAB 50-06)
- ▶ Application for Joint-Use Funding (Form SAB 50-07)
- ▶ Application for Preliminary Apportionment (Form SAB 50-08)

This page is intentionally blank.

Appendix 4 Services Matrix

INTRODUCTION

During the planning, design, and construction of a school facilities project, many individuals and firms come together to contribute to the project in specific ways. Unless responsibility is assigned by law, the decision about who should perform a given task generally rests with the school district as owner. A lack of clarity regarding responsibilities may lead to a situation where a task is assigned to more than one individual or firm, creating a duplication of effort which can be wasteful and counterproductive.

The Services Matrix is the work of a small group formed by the Joint Committee on School Facilities. District representatives may wish to consult the matrix to determine all of the responsibilities to be assigned on a project and to avoid duplication of effort.

The Services Matrix attempts to accomplish four principle objectives:

- ▶ Identify those tasks in a typical school construction or renovation project which must be performed by specific team members.
- ▶ Identify the tasks which cannot be performed by certain team members.
- ▶ Identify tasks which may be assigned to any of several team members at the owner's discretion.
- ▶ Provide the owner with a tool for use in making decisions about task assignments and preparing contracts for services.

The Services Matrix addresses a project which has a construction manager as one team member. In projects where this is not the case, the tasks assigned to the construction manager could typically be performed by either the architect, Inspector of Record, or the owner.

▶ Services Matrix: Pre-Design Phase

Task	Responsible Party

Preface

About this Handbook This handbook contains topics relating to the State Relocatable Classroom Program. These topics help organize the program's process and make it easier to locate specific information. The first topic is an "Overview" of the key points of the program. It also includes a description of the administering body of the law. The remaining topics follow the program's application process.

About the Format Information is presented topically, eliminating the use of numbered section references. First, locate the topic you want using the Table of Contents. Then, you can quickly locate specific information on a particular topic by scanning key labels provided in the left margins.

The symbols used throughout this handbook have the following meanings:

- Bullets indicate lists of items or topics.
 - Examples and exhibits generally follow topic discussions.
-

Updates To obtain the latest version of this handbook you may download it from the Internet (at no cost):

- <http://www.opsc.dgs.ca.gov>

STATE RELOCATABLE CLASSROOM PROGRAM HANDBOOK

This page is intentionally blank.

Overview

Introduction The State Relocatable Classroom Program provides classroom facilities to School Districts and County Superintendents of Schools to house the districts' kindergarten through 12th grade student population. This handbook provides guidelines necessary to prepare an application under the provisions of the State Relocatable Classroom Law, Chapter 14, Part 10, Section 17085. (Previously Chapter 25, Part 10, Section 17785), Barclays California Code of Regulation, Section 1862.50.

Eligibility Criteria/Priority of Placement On April 28, 1999, the State Allocation Board (SAB) revised the current eligibility criteria for funding priority levels to be consistent with the School Facility Program (SFP). The priority levels determine the order in which buildings will be approved for placement. The priority levels for placement are:

Priority Level	Criteria
A	<p>Facility Hardship: eligibility based on the district having a SAB approved Lease-Purchase Program (LLP) hardship project, or a SFP facility hardship project; or,</p> <p>Standard Eligibility: eligibility based on the standard eligibility formula using basic teaching station loading standards "and a one year projection for Average Daily Attendance (ADA) as determined by the <i>Enrollment Certification Projection</i>, Form SAB 50-01 ; or,</p> <p>the district application for State Relocatable Classroom(s) may be based on "the number of teaching stations approved (but not yet constructed) pursuant to the SFP."</p>
B	Eligibility based on unhoused community day pupils.
C	Eligibility based on the district agreeing to hire an additional teacher for the relocatable classroom.
D	Eligibility based on interim housing needs during a modernization project.
E	<p>Eligibility based on:</p> <ul style="list-style-type: none"> • licensed child day care programs; or • recreation and enrichment activity programs for school-age children on a school site.

Time Limit for Delivery The following conditions shall apply to all applications for relocatable classroom(s):

- Districts must submit the completed site and building plans to the Division of State Architect (DSA) within 60 days of receiving the manufacturer's building plans from the OPSC or the building may be reassigned to another district.
- Districts must accept delivery of the relocatable classroom(s) within 60 days after it is deemed available by the OPSC or the building assignment may be reallocated.

California Environmental Quality Act (CEQA) Districts must certify compliance with the California Environmental Quality Act (CEQA) on the *Application to Lease State Relocatable Classroom(s)*, Form SAB 25-2.

Multi-Track Year-Round Education (MTYRE) Districts other than high school districts must certify on the *Application to Lease State Relocatable Classroom(s)*, Form SAB 25-2, that it meets the Multi-Track Year-Round Education (MTYRE) requirement addressing the feasibility of the district to proceed on a MTYRE calendar by the California Department of Education. Specific guidelines and requirements for MTYRE may be obtained from the:

Waiver and Review Committee
 California Department of Education
 School Facilities Planning Division
 P.O. Box 944272
 Sacramento, CA 94244-2720

Tel: 916.327.5462

Application Process

Introduction	To lease relocatable classrooms, the district provides initial information verifying eligibility. In addition, the district must certify that it meets the conditions as outlined on the <i>Application to Lease State Relocatable Classroom(s)</i> (Form SAB 25-2).
Documents Required before SAB Approval	The following documents are required to prepare an application for SAB approval of a relocatable classroom: <ul style="list-style-type: none"> • <i>Enrollment Certification/Projection</i>, Form SAB 50-01 • <i>Eligibility Worksheet</i>, Form SAB 25-1 • <i>Application to Lease State Relocatable Classroom(s)</i>, Form SAB 25-2
Documents Required after SAB Approval	The following documents are required after SAB approval: <ul style="list-style-type: none"> • <i>Site Readiness Certification</i>, Form SAB 25-3 • <i>Certification for Reimbursement</i>, Form SAB 25-4
Placement Process after SAB Approval	When relocatable classrooms are available and the OPSC has a completed application package, an item will be presented to the SAB for approval. After approval of the application, the district: <ul style="list-style-type: none"> • Selects an architect, who performs the following: <ul style="list-style-type: none"> ▶ Develops site plans for DSA approval. ▶ Obtains the manufacturer's building plans. ▶ Submits site and building plans to DSA within 60 days of obtaining manufacturer's building plans. ▶ Delivers a copy of the DSA approved site and building plans to the OPSC and the building manufacturer or mover. ▶ Assists the District with the selection of a site inspector. ▶ Sends the <i>Verified Report</i>, Form DSA-6 and <i>Building Inspector Qualification Record</i>, Form SSS-5 for DSA approval. ▶ Issues a final, 100 percent complete, <i>Verified Report</i>, Form DSA-6 for the DSA and sends copy to the OPSC. ▶ Signs "Notice of Completion" for the DSA and the OPSC. • Selects a site inspector (with the architect's assistance). • Contracts for electrical services, if applicable. • Purchases furniture and equipment. • Accepts delivery of the classrooms within 60 days of plan approval or building availability.

**Placement Process after
SAB Approval...**

- Signs "Notice of Completion."
 - Obtains insurance for building.
 - Submits Inspector of Record's 100 percent complete final *Verified Report* (Form DSA-6) to the OPSC.
 - Signs lease agreement that was issued to the district by the OPSC and returns it for final processing.
 - Occupies the building.
 - Requests reimbursement for eligible costs on *Certification for Reimbursement*, Form SAB 25-4.
-

Preparing for Delivery

Introduction The district is responsible for obtaining the architectural and on-site inspection services needed for delivery and placement of the relocatable classroom(s). The costs associated with the electrical hook-up, fire alarm hook-up and DSA plan check are reimbursable up to a maximum of \$9,450.00 per classroom. The district is responsible for the insurance and normal maintenance of the relocatable classroom(s). These costs are not reimbursable by the SAB.

Site Preparation The district, at its own expense, must make the following site preparation prior to the delivery of the relocatable classroom(s):

- Prepare a location on the school site that is cleared and graded with the elevation of a 30' × 50' pad within 9" of level in any direction. Buildings must be placed a *minimum of four feet apart*.
- Determine that the site has a minimum soil bearing capacity of 1,000 pounds per square foot.
- Build a pad at least 30' × 50', turf-free with at least 2 percent drainage to prevent water from ponding beneath and around relocatable(s).
- Place the relocatable(s) in location(s) clear of any sprinkler systems to reduce the problems of deterioration, dry rot or rust. Any damage to the relocatable(s) resulting from unsuitable placement is a *maintenance responsibility of the district*.
- Ensure the location and access allow for maneuvering space of, or the entry turnaround and exit for, a large truck and trailer (85 feet clearance at front or back). Any damages to the district's property or to the site caused by inadequate maneuvering space for the delivery of a relocatable classroom(s) is the *responsibility of the district*.
- Furnish a hard surfaced walkway in compliance with Title 21, Chapter 1, Subchapter 2, of the California Administrative Code "Access Public Building by Persons with Disabilities."
- Connection of the building to an adequate fire alarm system in accordance with current law.

Delivery to Site Relocatable classroom(s) will be delivered and installed by the building manufacturer or mover when the site plans have been approved by the DSA. The plans must indicate the building location, handicap access, fire alarm connection, and electrical service. Any deviations from the approved plan must be made by a change order approved by the DSA.

1665

This page is intentionally blank.

District Responsibilities

Utility Costs	The completion of design and construction of the electrical and fire alarm connection is the responsibility of the school district; however, the districts will be reimbursed for the electrical hook-up cost in accordance with SAB policy. See page 11 for reimbursement amounts.
Lease Payments	The district must make lease payments of \$4,000 per year for each relocatable classroom delivered. The lease will start once the State contractor or manufacturer has completed set-up of the building and has submitted a <i>Verified Report</i> , Form DSA-6 to the OPSC, but not more than 30 days after delivery of the building to the site.
Hardships	The SAB policy allows school districts that have a Lease-Purchase Program hardship project or a School Facility Program facility hardship project to be eligible for a rental decrease of \$2000 per year. The reduced rental payment applies only to currently leased relocatable classroom(s) located on the site where the "hardship" project is approved. Districts must submit a written request for the reduced rent accompanied with an approved Facility Hardship (FH) SAB item.
Maintenance	Pursuant to the terms of the lease, districts shall at their own expense undertake all necessary maintenance, repair, renewal, and replacement costs to ensure the relocatable classroom(s) are in good repair and working order at all times.
Insurance	Districts are required to keep the property adequately insured at all times at their own expense, with extended coverage for vandalism and malicious mischief. The State must be listed as beneficiary against fire. Insurance effective date must commence on the date the manufacturer has completed delivery and set-up of the building.
Conditions of Occupancy	The classroom(s) may not be occupied until the completion of the installation as evidenced by issuance of the architect and Inspector of Record's final, 100 percent complete <i>Verified Report</i> , Form DSA-6.

STATE RELIABLE CLASSROOM PROGRAM HANDBOOK
10 | STATE RELIABLE CLASSROOM PROGRAM HANDBOOK

This page is intentionally blank.

Reimbursements

District's Responsibilities The district is responsible for obtaining the architectural and on-site inspection services needed to place the Relocatable Classroom(s). The cost associated with the site preparation, electrical hook-up, plumbing connection, DSA plan checking, insurance, and maintenance are also the district's responsibility. The district will be reimbursed up to \$9,450.

Documentation Required for Reimbursement The district must provide the following documentation for reimbursement:

- *Certification for Reimbursement*, Form SAB 25-4.
- The Architect's final 100 percent completed *Verified Report*, Form DSA-6.
- The Inspector of Record's final 100 percent completed *Verified Report*, Form DSA-6.

Reimbursement Amounts The district may be reimbursed for the following costs per classroom:

Item	Reimbursement Amount
DSA/ORS Plan Checking Fees	up to \$ 450
Eligible Architect Fees	up to \$2,000
Eligible Electrical Hook-Up Costs	up to \$3,500
Eligible Fire Alarm Hook-Up Costs	up to \$1,000
Eligible On-Site Inspector Fees	up to \$ 500
Furniture and Equipment	up to \$2,000

Total reimbursement is limited to \$9,450 per classroom.

Reimbursement requests must be submitted to the OPSC within 90 days of delivery or the district will be deemed ineligible for reimbursement.

This page is intentionally blank.

Special Circumstances

Building Alterations Relocatable classroom(s) may not be altered or modified in any way.

Relocating a Classroom If the district has a greater need for a relocatable classroom(s) at another school within its jurisdiction, it may relocate the classroom(s) *at its own expense*. However, the district must notify the OPSC, in writing, *prior* to relocating the building. In addition, the district must obtain the DSA approval for the new site.

A copy of the architect and inspector's final, 100 percent complete, *Verified Report*, Form DSA-6 must be provided to the OPSC for the new site.

Returning a Classroom To return a relocatable classroom(s) the district must send a letter to the OPSC stating the current site of building(s), address, and the OPSC building number(s) to be returned along with the date the district wishes to return the classroom(s).

The costs associated with relocatable classroom(s) return will be borne by the State; however, site restoration costs after termination of use of facilities are the responsibility of the district. The district is required to restore the relocatable classroom(s) to a "like new" condition and must assure that the relocatable classroom(s) is totally accessible to the moving contractor. If the moving contractor arrives at the site and the relocatable classroom(s) are not accessible (85 feet clearance at front or back), the school district will be responsible for any additional costs attributable to the move.

The State shall be allowed to leave the relocatable classroom(s) on the district site until such time as the State needs to remove them for delivery to another district.

District Pre-Purchase The SAB policy dated July 22, 1987, allows eligible districts to purchase a relocatable classroom with their own funds when adequate funds are not available to the SAB. These costs may be authorized for reimbursement by the SAB when funds are subsequently made available. Contact the OPSC, State Relocatable Classroom Program Team, for details.

**District Purchase or "Buyout"/
Base Purchase Price Table**

Education Code Section 17089.2 allows school districts and County Superintendents of Schools to purchase State Relocatable Classrooms that were under lease on or prior to December 1, 1991, either by outright purchase or by a nine (9) year interest free installment payment plan. Installment payments shall be a minimum of \$2,500 for the first year, \$2,750 minimum for the second year, and not less than \$3,000 for the third through ninth year, or until paid off. The purchase price to be paid by the district for each relocatable classroom is determined by utilizing the SAB's base purchase price reduced by the rental payments made by the district (see table below). Under no circumstance shall the purchase cost to the district be less than \$4,000 per relocatable classroom. Contact the OPSC State Relocatable Classroom Program Team for additional details.

School Year	Base Price	School Year	Base Price
09/80-08/81	\$32,500	09/86-08/87	\$35,500
09/81-08/82	\$33,000	09/87-08/88	\$36,000
09/82-08/83	\$33,500	09/88-08/89	\$36,500
09/83-08/84	\$34,000	09/89-08/90	\$37,000
09/84-08/85	\$34,500	09/90-08/91	\$37,500
09/85-08/86	\$35,000	09/91-12/01/91	\$38,000

Documentation Required for "Buyout"

The district must provide the following documentation:

- *Application to Purchase State Relocatable Classroom(s)*, Form SAB 25-46
- *Application to Purchase State Relocatable Classroom(s) Attachment A*, Form SAB 25-46A

Furniture and Equipment

Introduction Included with the relocatable classrooms are allowances for furniture and equipment to accommodate one teacher and up to 27 students.

Ordering Furniture and Equipment Upon approval of the State Relocatable Classroom Application by the SAB, the district is authorized to order furniture to adequately equip a classroom. The OPSC will reimburse the district up to \$2,000 per relocatable classroom for furniture and equipment which is included in the total reimbursement of \$9,450 per building (Refer to page 11 for more information regarding reimbursements).

This page is intentionally blank.

Forms

The following forms are used in conjunction with the State Relocatable Classroom Program. It is the user's responsibility to check the OPSC's Web site (**SAB Forms**) for the most current version of the form as older versions of the form may not be accepted.

- SAB 25-1 – Eligibility Worksheet
 - SAB 25-2 – Application to Lease State Relocatable Classroom(s)
 - SAB 25-3 – Site Readiness Notification
 - SAB 25-4 – Certification for Reimbursement
 - SAB 25-46 – Application to Purchase State Relocatable Classroom(s)
 - SAB 25-46A – Application to Purchase State Relocatable Classroom(s) Attachment A
 - DSA-6 – Verified Report (available from the Division of the State Architect)

Planning Phase (Phase P)

Eligibility Overview

Introduction

This section focuses on the preparation of application packages for Phase P approval and/or apportionment. Eligibility is determined with the following elements:

- projected enrollment
- existing adequate area
- eligible area for new construction or modernization.

Documentation Required

Application packages must include the following four forms in order to be considered a complete submittal:

- *Projected Average Daily Attendance* (Form SAB 411)
- *Classroom Loading Summary* (Form SAB 600S) (one for each existing school)
- *Justification Document - New Construction and Modernization/Reconstruction* (Form SAB 600)
- *Application For Apportionment* (Form SAB 506) (one for each project)

The application package and forms are available through the Office of Public School Construction (OPSC) or via the internet at www.dgs.ca.gov/opsc/forms.htm.

It is the goal of the OPSC to process the application to the State Allocation Board, (SAB) for approval within 60 days of receipt. Please contact the Eligibility Supervisor if your application does not get processed in this timeframe.

Application Submittals

Districts should not submit an application unless it is complete or it may be returned to the district.

Districtwide vs. High School Attendance Area

A unified school or high school district may file an application for new construction or modernization under a High School Attendance Area (HSAA) basis.

In this Section

This section discusses the following topics/subtopics:

TOPIC/SUBTOPIC	SEE PAGE
Eligibility Overview	1-1
Projected Average Daily Attendance (Form SAB 411)	1-2
New Housing Development Augmentation	1-2
Classroom Loading Summary (Form SAB 600S)	1-3
• <i>Student Loading Standards</i>	1-6

• <i>Type of Project Requested</i>	1-12
Phase P Fund Release	1-14
Guidelines for Architectural Services	1-14

Projected Average Daily Attendance - Form SAB 411

Introduction

The applicant district must provide historical and current enrollment data that allows for an estimate of the district's future pupil population. The projection is used in the preparing of the *Justification Document- New Construction and Modernization/Reconstruction* (Form SAB 600) for determining the district's eligibility under the Lease-Purchase Program. The district's enrollment is certified on the *Projected Average Daily Attendance* (Form SAB 411) using either California Basic Education Data System (CBEDS) or sixth month of school year (Spring) enrollment data. The enrollment reported may only include those students who attend in the school district.

In addition to reporting historical enrollment information, the Form SAB 411 permits the district to record information impacting the district's enrollment resulting from prison construction or new housing development construction.

Availability

The Form SAB 411 is currently available on the Internet at www.dgs.ca.gov/opsc/forms/htm and is capable of computing the district's projected enrollment. If the district does not have access to the Internet, please contact the OPSC Eligibility Supervisor for a copy of the excel version of the Form SAB 411 program on a 3 1/2 inch diskette.

For those districts which cannot access the internet nor have access to the excel program on an IBM compatible computer, please contact OPSC for a paper copy of the Form SAB 411.

Projected ADA

The Form SAB 411 provides the following three projection of Average Daily Attendance (ADA):

1. One year projection (utilized for State Relocatable Classroom Program).
2. 3/4 year projection (for either 100% or 50/50 State funded projects).
3. 5/6 year projection (for either 50/50 state funded projects or Advance Site and Plans applications). ☺

New Housing Development Augmentation

Introduction

Commonly called the House Count Augmentation, the district estimates the number of students (student yield factor) to be generated by a new housing development and these students are factored into the enrollment projection of the district. See the Application Package for additional details.

SAB Yield Factor

The SAB yield factor for housecount purposes are as follows:

DISTRICT TYPE	YIELD FACTOR
Elementary School District	.5
High School District	.2
Unified School District	.7

Alternative Yield Factor

The district may, as an option, use its own student yield factor to determine the impact of new housing developments in the district. The factor must be supported by a student yield factor report that is less than one (1) year old. Please leave this item blank if you wish to use the SAB Yield Factor.

Housing Unit Defined

A housing unit is any residential unit for which a construction permit has been issued for street and utility improvements. In addition, any fully constructed unit that has never been occupied qualifies as a housing unit for augmentation purposes.

Housing Unit Documentation

The district must submit the following documentation:

- A development map, identifying the portion of the development that will be under construction within the next year and the number of housing units involved. A development map must be on an 8 ½ by 11 sheet of paper, identify each housing unit in the development and identify the portion of the development to be under construction within the next year. This will support the number of units stated in the district's cover letter for the specific development.
- A cover letter summarizing the information from all the maps
(see sample in the Eligibility Package) ☞

Classroom Loading Summary - Form SAB 600S

Introduction

All teaching stations are deemed chargeable unless excluded by law, regulation or SAB policy.

The applicant district must provide information about the number of existing classrooms in the district. This information will be used to determine the student capacity of the district's existing classroom. Additional space is provided on the Form SAB 600S to identify other facilities that may not be included in the district's inventory of classrooms such as leased portable classrooms or class size reduction classrooms.

Standard Classrooms

Any teaching station that is at least 800 square feet and was originally designed as a teaching station is considered a standard classroom. In the case where the SAB modernized a facility under the Lease-Purchase Program, the number of teaching stations may have been reduced in accordance with provisions in the Law.

Small Classrooms

Teaching stations that are less than 600 square feet are not considered a part of the district's inventory of classrooms. Standard classrooms that have been redesigned to be less than 800 square feet for purposes of Class Size Reduction Programs, Resource Specialist Programs or for other purposes may be evaluated as if the redesign did not occur.

District Owned Portable Classrooms

Portable classrooms owned by the district are to be counted as part of the district's inventory of classrooms.

Resource Specialist Program	Resource Specialist Program (RSP) classrooms which were constructed under the Lease-Purchase Program as a result of a RSP allowance are not part of the district's inventory of classrooms. Teaching stations that were converted to RSP use are considered classrooms.
Class Size Reduction	The district may exclude teaching stations acquired or constructed for Class Size Reduction (CSR) purposes when justified by the <i>Class Size Reduction Classroom Exclusion</i> (Form SAB 526 CSR).
Cross Loading of Classrooms	<p>The district will only be required to house students at the grade levels served by a school site; however, the facilities must be fully utilized before consideration will be given to fund the construction of teaching stations for that grade group.</p> <p>Example: The K-6 schools were loaded on the Form SAB 600S with students as currently utilized. The results indicate that there are two empty 1-3 grade classrooms and a need for four 4-6 grade classrooms. The two empty classrooms must be loaded with 4-6 grade students to maximize the use of all the teaching stations. Therefore, the district has a net need of two 4-6 grade classrooms. The empty classrooms will not be loaded with 7-8, 9-12 or continuation students as they are not normally served at these sites.</p>
Portable Abandonment/ Replacement	<p>Portable classrooms may be abandoned by either a structural report process or by the use of the 20 year rule.</p> <p>If the district has owned and/or leased a portable classroom for at least 20 years, the district may elect to abandon the building without a structural review. Please clearly identify the portable classroom to be abandoned on the Form SAB 600S for the appropriate school.</p> <p>See <i>Appendix 9, Abandonment and/or Rehabilitation, Page 9-1</i>, for the structural abandonment and replacement process.</p>
Abandonment of Permanent Structures	Under certain circumstances a district may be able to abandon structurally adequate, as well as structurally inadequate, facilities. See <i>Appendix 9, Abandonment and/or Rehabilitation</i> for the structural abandonment process.
Portable Classroom Exclusion	<p>Lease, lease-purchase and lease-with-option-to-buy portable classrooms are excluded from the district's inventory of teaching stations for the initial five (5) years of the agreement. This exclusion may be extended for either an additional five (5) year or a two (2) year exclusion period depending on the following criteria:</p> <ul style="list-style-type: none"> • An additional five-year exclusion may be granted if the continued use of the leased portable is supported by additional growth in ADA. Additional growth is determined by dividing the difference between the original projection of enrollment and five-year current projected enrollment by 30. The quotient gives the number of leased portable classrooms supported by additional growth. The five-year exclusion is not available to lease-purchase and lease-with-option-to-buy portable classrooms. • Two-year exclusion may be granted if the portable classroom is not supported for continued use under the five-year exclusion provisions. The two-year exclusion may be granted provided the exclusion is necessary to maintain eligibility for a project

Continued on the next page

Portable Classroom Exclusion (Cont.)

previously approved. This exclusion may not be used to support a new project that has not yet been approved by the SAB.

Note: The maximum extension for a leased portable classroom is five years. The maximum extension for a lease-purchase or leased-with-option-to-buy portable classroom is two years.

Portable Classrooms Not Eligible for Exclusion

The following are examples of portable classrooms that are not eligible for exclusion from the district's inventory of teaching stations:

- A portable classroom that received an approval for continued use by the SAB is considered a part of the district's inventory of teaching stations until the SAB has approved the abandonment of the facility.
- Portable classrooms leased or lease-purchased at less than fair market value do not qualify for exclusion. Fair market value is determined to be the rental fee for State Relocatable Classroom Program, unless otherwise determined by the SAB on an individual case basis.

State Relocatable Classroom

Portable classrooms leased under the provisions of the State Relocatable Classroom Program, Education Code Section 17085, commencing with Chapter 14, are excluded from the district's inventory of teaching stations. If the district elects to purchase one of these buildings, then the district portable is owned.

If the district elects to time-purchase one of these buildings, the building would be excluded for up to 5 years from the date the SAB approves the time-purchase.

State Day Care

Portable classrooms leased pursuant to "Migrant Portable Education Program", Education Code, Chapter 6, Part 10, Article 5 are not considered a part of the district's inventory of teaching stations.

Pre-School/Child Day-Care/Regional Occupation Program/Adult Education

Classrooms that have been continually used for the preceding five years at least 50 percent of the time for operation of pre-school programs as defined in Education Code Section 17042 (B)(2) are excluded from the district's classroom inventory. In order to be eligible for this exclusion, the classroom must be located at a school that operates on a multi-track year-round schedule.

Buildings purchased for use as adult education, child care or Regional Occupation Programs with special override taxes, federal funds, local or State funds are also eligible for exclusion.

Cost Sharing Program (Mello-Roos)

A district may seek reimbursement (Education Code Section 17018.5) for facilities it constructed under the Community Facilities Act of 1982, the district may exclude those teaching stations but only for purposes of determining eligibility for reimbursement. ☺

STUDENT LOADING STANDARDS

State Loading Standards

The State Loading Standards for students in each grade group for both modernization and new construction applications are as follows:

GRADE GROUP	LOADING STANDARD IN ADA PER CLASSROOM
K single (Double)	29 (55)
1-3	29
4-6	33
7-8 (lab)	30 (26)
9-12 (lab)	28 (24)
Continuation	15
Elementary SDC	<i>(see Education Code for loading standards)</i>
Secondary SDC	<i>(see Education Code for loading standards)</i>

District Loading Standards

The district may reduce the Student Loading Standards by up to three (3) ADA provided the district has historical documentation adopted by the district's board on or before July 1, 1992 that includes a student/ teacher ratio lower than the above Standards. The district may not reduce the loading standards for Continuation High School or Special Day Classrooms.

Special Day Classroom (SDC)

The loading standard for SDC classrooms is in accordance with Education Code Section 17047 *(see Education Code for loading standards)*.

Small Classroom

Any classrooms that are between 600 and 800 square feet are loaded at 20 ADA for all grade levels except continuation high schools and special day classes. Those classrooms are loaded per the schedule.

ROP or Adult Education Classrooms

Teaching stations constructed with Bond funds specifically approved for either Regional Occupation Program (ROP) or Adult Education purposes are not deemed a part of the district's inventory of classrooms. As an alternative, the District Representative may certify that the ROP or Adult Education facility was constructed with funds generated from the ROP or Adult Education programs. The certification must specifically identify the funding source for the facility to be excluded.

**Student Capacity of Facilities Constructed with Local Funds
Student Capacity of**

The SAB allowable building area for a project funded by the SAB is the building area approved for funding by the SAB. For those facilities constructed with local funds, the SAB allowable building area is the SAB building area generated by the ADA capacity of the facility constructed.

The student capacity of schools or additions to existing schools constructed with local funds after January 1, 1993, shall be determined by dividing the area of the construction by the square footage standards for the grade level housed in the facility. For purposes of this

Continued on the next page

**Facilities Constructed
with Local Funds
(Cont.)**

section, the date of the first contract in the project shall determine if the area was constructed after January 1, 1993.

The student capacity of area in excess of the 110% of a project constructed under the state program shall determined in the same way.

Justification Document - Form SAB 600

Introduction

The *Justification Document-New Construction and Modernization/Reconstruction* (Form SAB 600) combines the information from the Form SAB 411 and the Form SAB 600S to determine the district's eligibility for building new classrooms or modernizing existing buildings. ☺

MULTI-TRACK YEAR-ROUND EDUCATION ADJUSTMENT

Introduction

The Multi-Track Year Round Education (MTYRE) adjustments on the Form SAB 600 is the larger of the following:

1. The number of students that received Operational Grant funding from the CDE.
2. The Substantial Enrollment Requirement (SER) for a district to be considered a MTYRE district.
3. The sum of all the 20% capacity adjustment for projects that were approved as MTYRE projects.

The Waiver and Review Committee is responsible for classifying districts as MTYRE as well as considering waiver from being MTYRE district and recommending waiver of the project from being constructed to operate on a MTYRE basis. Please submit your request to:

Waiver and Review Committee
School Facilities Planning Division
California Department of Education
560 J Street, Suite 165
Sacramento, CA 95814

If the district is only submitting requests for modernization projects, this section does not apply and need not be completed.

Operational Grant

Districts that operate MTYRE schools may request Operational Grant funding from the CDE. Should the district receive funding, the number of students reported by the CDE must be reduced from the district's eligibility to construct new facilities. The reduction is permanent even if the district does not apply for or receive grants in subsequent years.

Substantial Enrollment Request (SER)

A district must either meet the SER requirement of Education Code Section 17017.6 or 17017.7, as appropriate, or agree to an eligibility reduction as follows:

DISTRICT TYPE	APPLICATION TYPE	ELIGIBILITY REDUCTION
Elementary and Unified	Districtwide	6% of the K-6 current enrollment
	High School Attendance Area	8% of the current enrollment of the district
High School	Districtwide	6% of the current enrollment of the district
	High School Attendance Area	<ul style="list-style-type: none"> • 8% of the K-12 current enrollment of the district and the feeder districts, or • 20% of the project ADA

20% Capacity Adjustment

A project is considered to operate on a MTYRE basis when the district agrees to increase the student capacity of the project by 20%. The district may request a waiver from this requirement through the Waiver and Review Committee.

ALLOWANCE AREA

Project ADA

The project ADA is the number of unhoused ADA assigned to the project before the 20% capacity adjustment requirement. Please note that this is different than the project capacity.

Resource Specialist Program (RSP)

Each project is entitled to building area to serve the needs of RSP students based on the number of unhoused K-12 students, excluding special day classroom students and continuation high pupil units. The allowable building area for each site is computed pursuant to Education Code Section 17047 (see *Education Code for loading standards*).

Relocatable Bonus (3B)

If at least 10% of the total building area is relocatable, the allowable building area for the project may be increased by three square feet per unhoused ADA. A relocatable building is defined in Education Code Section 17042.5 (b).

Grades K-6

Use the following building area allowances for K-6 ADA:

IF projected K-6 ADA for the district is...	THEN the K-6 allowable building area is computed for ...																						
Less than 300 (small school formula)	<p>The entire district at:</p> <table border="1"> <thead> <tr> <th>ADA</th> <th>Allowance (sq. ft.)</th> </tr> </thead> <tbody> <tr><td>6-25</td><td>1,712</td></tr> <tr><td>26-50</td><td>4,066</td></tr> <tr><td>51-75</td><td>6,099</td></tr> <tr><td>76-100</td><td>7,704</td></tr> <tr><td>101-133</td><td>9,005</td></tr> <tr><td>134-166</td><td>10,914</td></tr> <tr><td>167-199</td><td>12,840</td></tr> <tr><td>200-232</td><td>14,296</td></tr> <tr><td>233-285</td><td>16,773</td></tr> <tr><td>286-299</td><td>17,655</td></tr> </tbody> </table>	ADA	Allowance (sq. ft.)	6-25	1,712	26-50	4,066	51-75	6,099	76-100	7,704	101-133	9,005	134-166	10,914	167-199	12,840	200-232	14,296	233-285	16,773	286-299	17,655
ADA	Allowance (sq. ft.)																						
6-25	1,712																						
26-50	4,066																						
51-75	6,099																						
76-100	7,704																						
101-133	9,005																						
134-166	10,914																						
167-199	12,840																						
200-232	14,296																						
233-285	16,773																						
286-299	17,655																						
300 or more	59 square feet per project ADA.																						

Grades 7-8 New School and Additions

The building area allowance for grades 7-8 is computed at 80 square feet per unhoused ADA.

Grades 9-12 New School

The building area allowance for grades 9-12 is computed in accordance with Education Code Sections 17046 and 17046.7 (see Education Code for loading standards).

Special Day Classrooms (SDC)

The building area allowance for assigned SDC for each project is computed in accordance with Education Code Section 17047 (see Education Code for loading standards).

Continuation High School New School

The building area allowance for continuation high school pupil units is computed as follows:

PUPIL UNITS	ALLOWANCE (SQ. FT.)
5-20	2,300
21-40	2,300 + 125 per pupil unit over 20
41-60	4,800 + 120 per pupil unit over 40
61-90	7,200 + 115 per pupil unit over 60
91-120	10,650 + 105 per pupil unit over 90
121-150	13,800 + 90 per pupil unit over 120
Over 150	16,500 + 60 per pupil unit over 150

**Grades 7-9 or 7-10
New School and
Additions**

The building area allowance for middle schools grades 7-9 or 7-10 is computed in accordance with Education Code Section 17045.

Grades K-6 Additions

Use the following building area allowance for K-6 ADA:

IF the projected K-6 ADA for the district is ...	THEN the K-6 allowable building area is computed for ...
Less than 300 (small school formula)	Utilizing the small school formula, determine the building area permitted by the district as if they did not have an existing school. Determine the average square footage per ADA and apply this value to the unhoused K-6 ADA assigned to the project.
300 or more	59 square feet per project ADA

Grades 9-12 Additions

Utilizing the 9-12 formula, determine the building area permitted for the existing ADA capacity of the school plus the ADA assigned. Determine the average square footage per ADA and apply this value to the unhoused ADA assigned to the project.

**Continuation High
School Additions**

Utilizing the continuation high school formula, determine the building area permitted for the existing pupil unit capacity plus the new pupil units assigned. Determine the average square footage per pupil unit and apply this value to the unhoused continuation pupil units assigned to the project.

**Modernization Bank
Area Allowance**

The district must assign projected ADA to under 30 year old classrooms before assigning projected ADA to qualifying 30 year or older classrooms.

Each projected ADA, housed in classrooms that are at least 30 years old, generate a bank of modernization bank of building area. The allowable area per ADA is as follows:

SCHOOL	ALLOWABLE (SQ. FT.)
Elementary	59
Middle	80
High	92
Continuation	92
County Supt.	108

Utilization of Modernization Bank	Once the district's modernization bank of building area is determined, the district may allocate the area to any school building in the district that qualifies to be modernized. The district must modernize all building areas of the first qualifying building before selecting the next qualifying building.
Eligible building area	Buildings eligible to be modernized are permanent buildings that were constructed or modernized at least 30 years ago or portable buildings that were constructed or modernized at least 20 year ago.
Portable classrooms	If the district elects to modernize a portable classroom, the portable classroom will be eligible for abandonment 20 years from the date of the notice of completion on the modernization work.
Insufficient Modernization Bank	Should the available modernization bank be insufficient to modernize the next entire building, the district must elect to either fund the excess building area or choose to not modernize the building. ☹

Application For Apportionment - Form SAB 506

Introduction	<p>All school districts participating in the State School Building Lease Purchase Program must file a <i>Application for Apportionment</i> (Form SAB 506). This document is submitted for a new application as well as amendments to applications previously filed. A separate application must be filed for each project.</p> <p>The Form SAB 506 is self explanatory, however, if you need assistance completing it, contact the OPSC Eligibility Supervisor. The following information has been provided for items on the form needing further clarification.</p>
District Representative	<p>The district's board must identify one or more persons to serve in the capacity of District Representative to:</p> <ol style="list-style-type: none"> 1. File applications with the SAB. 2. Act as a liaison between the district and the SAB. 3. Sign contracts, agreements and change orders that have been approved by the district's governing body.
Facilities	<p>A project is required to have enough classrooms to adequately house the ADA assigned. In the event that the district is not constructing the required number of standard classrooms in the project, the district must certify that the district has reviewed its educational plan with CDE and they jointly agree that the facilities have adequate teaching station equivalents to serve the ADA assigned to the project. The Facility shall be loaded at the State approved capacity even if the district subsequently determines that the school design is inadequate to house the ADA assigned to the project.</p>

Administrative Cost Allowance

Pursuant to Education Code Section 17019.5, an administrative cost allowance is provided to small districts. These funds may be used for any cost associated with the administration of the project.

Applications approved by the SAB after January 1, 1998, are eligible for the following allowance:

TYPE	ALLOWANCE
New Construction	\$6,958
Modernization or Reconstruction	\$1,674

Project Budget

This value is formula driven and designed to provide an estimate of the total project budget. The specific area cost allowance and approved architect's estimate are used to establish the project budget for purposes of the construction phase approval. The bid(s) and other approved project adjustments will determine the final project budget. ☞

TYPE OF PROJECT REQUESTED

Priorities

The district may file an application for any of the several types of applications authorized under the Lease-Purchase Program. In each case, the district may agree to fund at least 50% of the eligible project cost, generally known as Priority for Funding Level 1. As an alternative, the district may request 100% State funding of the eligible project cost, generally known as Priority for Funding Level 2. For new construction types of applications, in order to receive priority 1 or 2, the district must also meet the Year Round district and Year Round project requirements.

New Construction

This type of application is for the construction of new facilities based on the district's increasing student population.

Modernization

This type of application is for the educational renovation of buildings. The allowable cost is limited to 25% of the replacement cost of the building being modernized.

Abandonment/ Replacement

This type of application is solely for the purpose of abandoning and replacing existing facilities. The abandonment and replacement requirements and procedures are found in *Appendix 9, Abandonment and/or Rehabilitation, Page 9-1.*

Cost Sharing

This type of application, pursuant to Education Code Section 17018.5, permits a district to be reimbursed for a facility that was constructed with funds generated under the Mello-Roos Community Facilities Act of 1982. The maximum State contribution on these applications is up to 75% of the eligible cost of the project.

Joint Use

A district may choose to apply for a separate library, gymnasium, or multi-use building pursuant to specified funding provisions, or increase the building area of a school project in order to accommodate community needs. Community funding is required for additional building area beyond the needs of the school district in either case.

Reconstruction

A district may reconstruct a building if all the following conditions are met:

- The building is eligible for modernization funding.
- The building's existing ADA capacity will be increased by at least 10% or by five teaching stations whichever is less. The district must have the unhoused ADA to comply with this requirement.
- The resulting ADA capacity of the school site would not generate more building area than currently exists at the site.
- The cost to reconstruct the building is equal to or less than 75% of the replacement cost of the building.

If the reconstruction work is part of a larger modernization project, please identify the project as a modernization project.

Rehabilitation

The district may request the rehabilitation of a building if all of the following conditions are met:

- The building is eligible for modernization funding.
- The cost to rehabilitate the building does not exceed 75% of the replacement cost of the building.
- The building does not meet the structural safety requirements of the Field Act for the year in which the building was constructed.

These types of applications may be presented to the SAB for consideration on a case-by-case basis. If the rehabilitation work is part of a larger modernization project, please identify the project as a modernization project.

Seismic Retrofit Project

The district may request seismic retrofit funding if it has a school that meets all of the following:

1. The facility is structurally adequate and eligible for modernization funds under the Lease-Purchase Program.
 2. All classrooms in the district or high school attendance area which do not require seismic structural improvements have been fully loaded before any unhoused pupils were assigned to a project requesting seismic funding.
 3. The district has submitted a report from a licensed structural engineer which identifies minimum work necessary to address the seismic structural improvements necessary to avert probable earthquake damage. The report must also include a statement that the facility meets the structural requirements in existence when the facility was originally constructed.
 4. The district has submitted a letter from the Division of the State Architect which concurs with the findings in the structural report addressed above.
 5. An accounting of all capital facilities funding potentially available to the district, including any Federal or local funding and State funds other than those provided through the SAB now or during the life of the project. ☺
-

Phase P Fund Release

Introduction Once the district or County Superintendent has received an approval and apportionment of funds for an application, funds will be released to the district upon receipt of the following:

1. Executed Lease-Purchase Agreement.
2. Certification of an executed Architect Agreement.
3. Certification of California Environmental Quality Act (CEQA) compliance.

Lease-Purchase Agreement The district or County Superintendent must enter into a 40 year Lease-Purchase Agreement with the State of California.

Architect Agreement Certification The district must certify on the *Architect Agreement Certification* (Form SAB 533A) that there is an executed Architect Agreement which complies with the requirements of the SAB.

California Environmental Quality Act (CEQA) The district or County Superintendent must certify that they have satisfied the documentation requirements relating to CEQA on the Form SAB 490. ☒

Guidelines for Architectural Services

Introduction The SAB has established guidelines relating to Architect Agreements that include errors and omissions insurance as well as the maximum allowable fee.

Selection of Architect The district should solicit qualifications based proposals from several architects. Refer to Government Code Section 4526 et. seq. for more information.

The district is expected to negotiate the best possible terms and conditions for the architectural services.

Errors and Omissions Insurance It is the responsibility of the district to ensure that general practice architectural errors and omissions insurance coverage of at least \$500,000 is provided and paid for by the architect.

Furthermore, it is the responsibility of the architect to ensure that each consultant or sub-consultant is covered by a minimum of \$500,000 errors and omissions insurance.

SAB Architect Fee Schedule The following is the maximum eligible SAB architect fee schedule under the Lease-Purchase Program:

CONTRACT AMOUNT	NEW CONSTRUCTION PERCENTAGE RATE	MODERNIZATION PERCENTAGE RATE
First \$500,000	9 %	12 %
Next \$500,000	8 ½ %	11 ½ %
Next \$1,000,000	8 %	11 %
Next 4,000,000	7 %	10 %
Next \$4,000,000	6 %	9 %
Excess of \$10,000,000	5 %	8 %
Performance Specification Portables	4 %	NA

Final Determination	The final determination for the architect fee is made at the time of the bid approval. Adjustments to this fee will be calculated if approvable change orders arise.
Performance Specification Portables	A project in which the architect provides the performance specification but is not responsible for insuring DSA approval of the plans results in a reduced architect fee of 4% of the contract amount. If the portables are a part of a bid which includes work by which the architect does get DSA approval, please contact OPSC for the method of computing the final allowable architect fee.
Additive Change Orders	A fee is calculated per contract to include the cost of all approved additive change orders with the exception of items resulting from errors and omission on the part of the architect.
Separately Bid Work	<p>If the OPSC requires the district to bid the Service-Site Development work separately, the architect fee will be calculated separately for that bid in accordance with the agreed upon fee.</p> <p>If the district elects to bid work, excluding OPSC required separately bid the Service-Site Development work, the district must fund the additional architect fees beyond the maximum fee schedule allowed.</p>
Construction Management Project	The eligible architect fee shall be computed based on each trade contract, Construction Management (CM) fee and CM general conditions. In addition, the estimated architect fee must be computed for the sum of all the trade contracts, CM fee and general conditions as if it were one construction contract. The district must reduce the building cost allowance for the project for the additional architect fee resulting from a Construction Management project.
Budgetary Constraints	<p>The architect must exercise his best judgement in determining the balance between the size, type and quality of construction to achieve a satisfactory solution within the project's construction allowance.</p> <p>It is the responsibility of the architect to design a project within SAB cost standards. If a construction bid exceeds these standards, the architect is responsible for making the necessary changes in the DSA approved plans, specifications and bid documents at no additional cost to the client.</p>
Termination of Client/Architect Agreement	<p>The termination of an architectural agreement must be done in accordance with the terms of the client architect agreement. It is the district's responsibility to ensure that allowable termination scenarios are specified in the agreement.</p> <p>If the contract termination is challenged by the architect, the district must defend the termination under the provisions of the agreement at no cost to the State.</p> <p>Furthermore, the OPSC will consider the amount of compensation agreed under the original contract to be the maximum for the project. Thus, if the amount owed to the original architect plus the amount owed to a new architect to complete the project exceeds the amount of the original contract, the district will be required to fund the additional amount. ☺</p>

Site Selection Phase (Phase S)

Introduction

The selection of a school site is critical to both a safe and supportive environment for the curriculum and learning process. The eligible size of property to be acquired is limited to the minimum land area necessary to conduct an adequate educational program.

Criteria

The following criteria will be considered by the CDE, School Facilities Planning Division when selecting a site:

- safety
- location
- environment
- soils
- topography
- size and shape
- accessibility
- public services
- utilities
- land/development costs
- availability
- political implications.

Role of the California Department of Education

The CDE, School Facilities Planning Division, is required to review and recommend approval of all new school sites and additions to school sites regardless of the funding source. To ensure that the best possible site selection is made with a balance of educational and financial considerations, the district must comply with the following procedures:

- The district must identify a minimum of three (3) approvable sites to be reviewed with the School Facilities Planning Division. These sites must be identified on the CDE Form, *Approval Procedures and Site Report, SFPD 4.0*. If the School Facilities Planning Division finds that one of the three proposed sites is not approvable, another approvable site must be added to the list for consideration.
- If there are not three approvable sites in the area in which the new school is to be located, the School Facilities Planning Division must state this fact in a site review letter addressed to the OPSC.

The final selection of the proposed site must be approved and certified by the CDE.

In this Section

This section discusses the following topics/subtopics:

TOPIC/SUBTOPIC	PAGE
Site Ownership Certification - Form SAB 509	2-2
Real Property Appraisals	2-2
Site Purchase	2-3
Relocation Assistance	2-7

Site Ownership Certification - Form SAB 509

Introduction	This document is a certification made by the district representative that the school district holds legal title to the site contained in the application. The title must be free of any liens and encumbrances which would adversely affect the use of the site for school purposes. All land related to a project is subject to a 40-year lease-purchase agreement between the State and the school district.
District Owned Site	For those projects being constructed on a district owned site, the <i>Site Ownership Certification</i> , Form SAB 509, is required prior to the Construction (Phase C) SAB approval.
Sites Not Previously District Owned	For those projects which include the acquisition of real property not previously owned by the district, a grant deed to the property or the <i>Site Ownership Certification</i> (Form SAB 509) is required prior to the Construction (Phase C) SAB approval.
County Superintendent of Schools Building Project	In the event a facility is to be constructed by a County Superintendent of Schools on property owned by a school district, it is not necessary for the county to acquire land. In lieu of the site ownership certification, a 40-year ground lease agreement from the district to the county must be executed. In addition, the district that is leasing the site to the County Superintendent of Schools must provide the Form SAB 509.

Real Property Appraisals

Definition	A real property appraisal is a written estimate of the fair market value of a real property.
Appraisal Specifications	Appraisal specifications must comply with those established by the Appraisal Institute.
Appraisal Options	<p>To ensure that site acquisition conforms to law and that fair market value is properly determined, the district must comply with the SAB real property appraisal process.</p> <p>Either one or two appraisals may be obtained to meet site acquisition requirements. A comparison of appraisal options is provided in the table below:</p>

COMPARISON OF APPRAISAL OPTIONS	
One Appraisal	Two Appraisals
<ul style="list-style-type: none"> • One appraisal per parcel. • The appraisal must be reviewed by the OPSC. • For valuations approved by OREDS, the appraisal fee is an eligible project cost. 	<ul style="list-style-type: none"> • Two appraisals per parcel. • Appraisal fees are eligible project. • OPSC must review the appraisals only in the event that the valuation(s) are relatively disparate.

Appraisal Costs

The costs associated with the preparation of required appraisals are eligible State funded expenditures.

Updates

Updates to an appraisal are permissible under the following circumstances:

CIRCUMSTANCE A
The valuation date of the appraisals will exceed 60 days at the time of the district's request for a site apportionment and no more than 150 days at the time of the site apportionment. However, an appraisal exceeding 60 days at the time of the site apportionment may be updated. The appraisal update is an eligible project expenditure.
CIRCUMSTANCE B
Upon the initiation of eminent domain proceedings, the appraisal update is an eligible project expenditure.
CIRCUMSTANCE C
A court has ordered an updated appraisal due to a condemnation action. Only the appraisal which the site apportionment was based will be updated and considered an eligible project expenditure. Appraisals cannot be updated as a basis for negotiation toward a stipulated judgement.

Time Extension

When a settlement cannot be successfully negotiated and the district has not filed condemnation proceedings within the 60 day (single parcel) or 90 day (multiple parcel) time limit, a written time extension must be requested by the district and obtained from the OPSC Executive Officer. If a written extension is not granted, the SAB will hold the district responsible for any increased costs exceeding the approved appraised value. ☹

Site Purchase

Introduction

Eminent domain gives a public entity the right to acquire land for public use. Site acquisition is a local responsibility.

The district and its legal counsel carry the burden of negotiating the acquisition, complying with statutory requirements, and bringing the acquisition of the real property to a successful conclusion. It is desirable that the district consult with its legal counsel before taking steps to acquire real property. Legal counsel often insists on early consultation so that each action will give maximum support to the district's case should condemnation proceedings be necessary.

Acquisition of real property may be accomplished through:

- a negotiated settlement, or
- condemnation proceedings.

Negotiated Settlement within the Appraised Valuation

A negotiated settlement culminates when the property owner accepts an offer within the amount of an approved appraisal. This settlement represents the SAB cost standard for the acquisition.

Negotiation Deadlines

To ensure that the site acquisition is completed in an expeditious manner, the following deadlines must be adhered to:

- A settlement must be negotiated or condemnation filed within 60 days (single parcel) or 90 days (multiple parcels) of the SAB site acquisition apportionment.
- A time extension may be granted if a written request is made to the OPSC Executive Officer prior to the expiration of the original 60 or 90 day deadline. There must also be good reason to believe that a successful negotiation can be achieved.

Negotiated Settlement above the Appraised Valuation

Under rare circumstances, a settlement may be negotiated above the approved appraised valuation at an amount authorized by the SAB. Authorization to negotiate a settlement above the approved appraised valuation may be warranted if satisfactory evidence from a relevant source is provided. This evidence may include:

- the owner's appraisal;
- another current appraisal;
- recent court awards for similar properties;
- probable testimony in a potential trial;
- opinion of district's legal counsel;
- potential trial costs.

Usually, any evidence will be evaluated by the OPSC. However, an independent appraiser (party other than the original appraiser) may evaluate evidence provided that prior authorization is obtained from the OPSC Executive Officer.

In all instances, the evaluation of the evidence accomplishes one of the following:

- The evidence is unsubstantiated. Therefore, negotiation above the approved appraised valuation will not be permitted.
- The evidence is fully substantiated. Since the increase in the appraised value is warranted, a negotiated settlement up to a maximum amount requested by the property owner may be authorized.
- The evidence is partially substantiated. Since a partial increase in the appraised value is warranted, the negotiated settlement may not exceed the maximum finding of the evaluation.

Limitations

Any increase resulting from a substantiated appraisal is limited to the larger of the following limitations:

- No monetary limit will be specified for real property provided that the negotiated purchase price does not exceed \$100,000.00.
- The negotiated purchase price may not exceed the approved appraised valuation by more than 10 percent.

Note: All offers of negotiated settlement exceeding the approved appraised valuation are subject to approval by the SAB.

Condemnation Proceedings

The acquisition of private real property through condemnation can be achieved through the following legal actions:

LEGAL ACTION	DEFINITION
Stipulated Judgement	Occurs when an agreement to sell a property is negotiated with the assistance of the Court.
Order of Immediate Prejudgment Possession	Allows a government to take legal possession of a real property prior to the Court's interlocutory or final judgement of the property value.
Interlocutory Judgement	Occurs when the Court makes a decision on the request to condemn a property. The decision is followed by a final judgement of the property value.

Stipulated Judgement Proceedings

When the district pursues a settlement by means of a stipulated judgement, the summons and complaint, and lis pendens issued by the Court must be submitted to the OPSC. These terms are defined as follows:

TERM	DEFINITION
Summons	A notification to the property owner to appear in court.
Complaint	Explains the nature of the proceeding to the court.
Lis Pendens	Notice to the public that a title to real property is pending litigation.

An agreement to a stipulated judgement may be negotiated within the approved appraised value of the property. However, if an agreement cannot be reached in this manner, negotiations above the appraised value of the property may be authorized. In this instance, the procedures delineated in negotiating a settlement above the appraised evaluation must be enforced.

Order of Immediate Prejudgment Possession

An Order of Immediate Prejudgment Possession allows the district to take legal possession of a real property prior to the Court's interlocutory or final judgement. The action of immediate possession irrevocably sets the date of the property's valuation.

Continued on the next page

Order of Immediate Prejudgment Possession, (Cont.)

Before the district may file an Order of Immediate Prejudgment Possession with the Court, the OPSC Executive Officer must authorize the action under any of the following prescribed circumstances:

CIRCUMSTANCE A
<ul style="list-style-type: none"> • Acquisition is necessary to stop ongoing or eminent development of the property which will have a substantial effect on the value. • If an acquisition involves more than three parcels under different ownership and at least two-thirds of the parcel owners have indicated a willingness to agree to a negotiated settlement, then immediate possession may be authorized for the remaining parcels. <p>Note: In the above mentioned situation, development of the property may occur upon receipt of final DSA approved construction plans. Written authorization must be obtained from the OPSC Executive Officer prior to any development or improvement.</p>
CIRCUMSTANCE B
<p>If the demolition, removal or replacement of structures or other facilities existing on the property will require an unusual amount of time to complete and therefore cause an unacceptable delay in the project, immediate possession may be authorized. However, the district must certify that acceptable final plans have been submitted to the DSA and that DSA approval will be granted shortly after the demolition or removal is completed.</p>
CIRCUMSTANCE C
<p>The final plans have been approved by the DSA.</p>

Any request by the district for immediate possession which does not meet the immediate possession prescribed circumstances previously discussed must be accompanied by a school board resolution agreeing to fund any amount of a court award exceeding the approved appraised value.

In all cases, the counsel representing the district in the condemnation proceedings must provide the OPSC Executive Officer with a brief written summary of the property owner's claims. The summary must stipulate that there are no known claims by the property owner which would be likely to cause the Court to award a substantial increase (more than 50 percent) above the approved appraised value.

Deposits with the Court

When the district is authorized by the OPSC Executive Officer to take immediate possession of a given parcel, site funds apportioned are released to the district for deposit with the Court.

The date of deposit establishes the property valuation date.

Interlocutory Judgement Proceedings

If a settlement cannot be negotiated with the aid of the Court in a stipulated judgement, then the Court makes a decision on the request to condemn a property. The Court's condemnation decision is followed by the final judgement.

Final Judgement

The final judgement is the Court’s final determination of the value of the property. It is the district’s responsibility to submit to the OPSC a certified copy of the judgement bearing the Court’s seal. When such documents are received, the OPSC can submit to the SAB a request for an increase in the site apportionment to meet any judgement above the high appraisal. ☺

Relocation Assistance

Introduction

Any person, business, farm operation, or nonprofit organization displaced as a result of a real property acquisition may receive financial assistance to relocate. Relocation assistance is administered by the SAB in accordance with the State relocation guidelines adopted by the California Commission of Housing and Community Development.

Relocation Criteria

Those entities eligible for relocation assistance include any person, business, farm operation or nonprofit organization occupying the subject property at the time the first written offer to purchase the property was made. In addition, any entity being relocated shall:

- receive fair and equitable treatment; and
- not suffer disproportionate injuries from a program designed for the public’s use;
- not be required to relocate unless adequate replacement housing is available.

Types of Relocation Reports

Upon the district making its first written offer to purchase real property and the displacement of occupants is evident, either a relocation plan or a statement of exemption or relocation entitlement report must be prepared as follows:

TYPE OF REPORT	DESCRIPTION
Relocation Plan	<p>The relocation plan is the primary relocation report. This report must be prepared on any project which involves the displacement of one or more residential occupants.</p> <p>The purpose of the plan is to provide an assessment of who or what will be relocated, how the relocation will be accomplished, and how much it will cost. The plan serves to assure that an orderly relocation can be accomplished and that an adequate supply of comparable replacement housing is available.</p>
Statement of Exemption	<p>This report must be prepared on any project not involving the displacement of residential occupants.</p> <p>The statement contains a description of all parcels and all improvements, covenants and/or leases covered by the project. When it is anticipated that a project will involve any moving expenses, the statement must contain budget estimates of the moving costs and overhead.</p>
Relocation Entitlement	<p>This report must be prepared on any project involving the displacement of any person, business, farm operation or nonprofit organization.</p> <p>The purpose of the report is to provide an estimate of the actual costs of purchasing or renting replacement housing.</p>

Preparation/Submittal of Relocation Reports

Preparation of the relocation report is left to the discretion of the district. The following relocation reports must be completed and submitted to the OPSC in a timely manner:

TYPE OF REPORT	DEADLINE FOR SUBMITTAL
Relocation Plan or Statement of Exemption	Prior to or during the appraisal stage of the project.
Relocation Entitlement	Prior to or on the date site acquisition negotiations take place. This report must be submitted prior to the initiation of a relocation assistance fund release.

Forms SAB 506A/SAB 506B (Cost Estimates)

All costs related to the relocation of displaced entities must be identified on the Form SAB 506A and Form SAB 506B cost estimates.

SITE CATEGORY	
SUB-CATEGORY	DESCRIPTION
Site Support	Identifies all costs related to the development of relocation reports and determination of relocation claims (see Section 3, Site Support Costs, page 3-4).
Relocation Assistance	Actual costs related to the displacement of any persons, businesses, farm operation or nonprofit organization in conjunction with the acquisition of real property.

Required Fund Release Documents

The following chart identifies the documents that are required to release relocation assistance costs:

ITEM	DESCRIPTION
Evidence to Clear Title	Verification that the district holds clear title to the subject real property.
Certification of Conformance	District certification that regulations pursuant to the Relocation Assistance Law have been adopted or that a party/entity specified in Government Code, Section 7261.5, has been contracted for performance of services under the law.
Relocation Entitlement Report	Complete report identifying the actual costs involved in the displacement of all affected parties.
Claims	<p>All documents used to justify expenses incurred by claimants. A summary of these claims must also accompany the itemized claims.</p> <p>Justification may include:</p> <ul style="list-style-type: none"> • invoices related to moving expenses, storage costs, insurance valuation, the reasonable expenses related to the search of a replacement site, etc.; and/or • incidental expenses including legal, escrow fees, closing/related costs, surveys, appraisals, plat maps, etc. <p>These claims must be submitted to the OPSC on a continuous basis. All claims are subject to the approval of the OPSC Executive Officer.</p>

Fund Release Advances

The district may request an advance fund release of up to 80 percent of the relocation assistance budgeted at the site acquisition stage of the project. However, the advance may not exceed \$250,000.00.

All advance fund release requests must be made in writing and specify the amount of the proposed advance. 🗑️

Development of Cost Estimates: Forms SAB 506A and SAB 506B

Introduction

This topic focuses on the preparation of the *Estimated Project Cost Detail*, Form SAB 506A, and the *Summary of Estimated Costs*, Form SAB 506B. The cost estimate details the expenditures associated with the following categories:

- A. Site
- B. Plans
- C. Construction
- D. Tests
- E. Inspection
- F. Furniture and Equipment
- G. Contingencies

The cost estimates are used to develop a construction budget in preparation for the Construction (Phase C) SAB recommendation.

Form SAB 506A

The form *Estimated Project Cost Detail*, Form SAB 506A, provides a detailed breakdown of all project costs. This form should be expanded to support the scope of the project as depicted on the project plans.

Form SAB 506B

The *Summary of Estimated Costs* (Form 506B) provides a summation of the costs detailed on the Form SAB 506A.

Cost Itemization

All items listed on the cost estimate should be clearly itemized by unit size, quantity and unit cost. Lump sums are not permitted.

Overhead and Profit

All costs associated with overhead and profit must be integrated into the unit cost itemization.

Updates

Upon submittal of DSA approved plans, new cost estimates must be prepared if those previously submitted are older than 90 days along with the *Certification of Changes to Final Plans and Specifications* (Form SAB 390) to explain changes.

Required Signatures

The cost estimates must contain the original signatures of a licensed architect or structural engineer.

A. Site

Description

The eligible costs and fees associated with the *site* classification are defined as follows:

ITEM	DESCRIPTION
Purchase Price of Property	The eligible costs associated with the acquisition of real property.
Appraisals	Costs associated with securing real property appraisals and necessary updates as mandated.
Escrow Fees	All charges normally included in the escrow agreement such as: <ul style="list-style-type: none"> • escrow charges • title insurance • loan fees <i>Note: Property taxes are ineligible.</i>
Surveys	If required, the costs for a certified survey must include: <ul style="list-style-type: none"> • grades and lines of streets, pavements, and adjoining properties; • right-of-way, restrictions, easements, boundaries and contours of the building site; • locations, dimensions and floor elevations of existing buildings; • other improvements and trees; • full information as to available service and utility lines, both public and private
Site Support (85%)	See <i>Site Support Costs, on page 3-4.</i>
Relocation Assistance	Actual costs related to the displacement of any person, business, farm operation, or non-profit organization in conjunction with the acquisition of real property (see <i>Section 2, Relocation Assistance, page 2-7.</i>)
Other	Justified fees which may include, but are not limited to, the following: <ul style="list-style-type: none"> • court costs • legal services (i.e., review of contracts, legal documents) • condemnation proceedings

SITE SUPPORT COSTS

Introduction

Site support costs provide funds for the:

- preparation of environmental impact documents,
- development of relocation reports,
- determination of relocation claims,
- negotiation of site purchases.

Eligible State Funded Costs

The State will fund a maximum of 85 percent of the amount expended on eligible site support costs. The State funded portion will be deducted from the project's building cost allowance prior to issuing an authorization to bid the project.

Loan Option/ Repayment

The balance (15 percent) of the eligible costs must be funded by the district. The district may request an advance from the State not to exceed 15 percent.

The advance must be repaid as follows:

- Payments shall be equal to one-half of one percent of the district's prior fiscal year General and Adult Education Funds budgets, exclusive of amounts budgeted for capital outlay or debt services, to a maximum of \$100,000.00 per year.
- Payments including interest are due on January 1, of each year until the advance is repaid. The first payment is due January 1, following the fiscal year in which the warrant is issued for the site support costs.

Note: The interest rate shall be established pursuant to Education Code Section 16334.

Required Document for Loan Option

The following document is required prior to release of *site support* loaned funds:

FORM	DESCRIPTION
SAB 507	District Resolution Certifying to Repay Additional Apportionment to the State Lease-Purchase Fund

Site support costs approved in the application shall be authorized for payment at Site (Phase S) SAB approval. ☞

B. Plans

Description

The eligible costs and fees associated with the *plans* classification are defined as follows:

ITEM	DESCRIPTION
Architect Fees	Fees as negotiated in the Architect's Agreement but not to exceed the SAB Architect Fee Schedule (see <i>Section 1, Architect Agreement, page 1-14</i>)
DSA/ORS Plan Check Fee	Fees as determined by the Division of the State Architect for the review of plans as required by law. Refer to Title 24, Part 1, Chapter 4 of the California Code of Regulations.
CDE Plan Check Fee	Fees as determined by the California Department of Education, School Facilities Planning Division, as required by law.
Energy Analysis Fee	Fees as determined by the SAB (see <i>Calculation of Energy Consultant Fee, page 3-23</i>).
Preliminary Tests	Includes the following costs: <ul style="list-style-type: none"> • soil tests, foundation tests, exploratory borings, and similar testing required prior to construction; • site investigation and reports pertaining to toxic and solid waste hazards where required by Education Code Section 17213.
Administrative Cost Allowance	An Administrative Cost Allowance is available to small districts only.
Other	Other plan costs such as: <ul style="list-style-type: none"> • advertising construction bids • printing limited to twenty-five plan sets for bidding and construction purposes • termite/dry rot inspection as necessary • asbestos/lead inspection as necessary

C. Construction

Description

Every new construction project receives an allowance to construct the building and provide for the full site development of a school site. The State's cost standard for site development is based on the current *Lee-Saylor Construction Cost Manual*. The eligible costs associated with the construction classification include the broad categories of building construction, site development, energy conservation, and supplemental funding for multi-story construction.

BUILDING COST STANDARDS

Introduction

The SAB has established cost standards for the construction of eligible school building facilities. The building construction cost standards may not be exceeded.

Building Types B & D

The following chart describes the building types utilized under the State School Building Lease-Purchase Program:

BUILDING TYPE *		
COMPONENT	CLASS B	CLASS D
Floors/Roofs	<ul style="list-style-type: none"> • reinforced concrete on steel decking; or • formed slabs resting on the frame; or • poured to become an integral part of frame • composed of prefabricated panels which may be mechanically stressed 	<ul style="list-style-type: none"> • supported on wood or steel joists or trusses • ground floor may be concrete slab • upper floors may be concrete plank, steel deck or wood
Exterior Walls	<ul style="list-style-type: none"> • masonry or reinforced concrete, metal, glass, or stone 	<ul style="list-style-type: none"> • closely-spaced wood; or steel studs • skeleton wood frame on which some form of curtain wall is applied (includes pre-engineered pole buildings), • load-bearing or non-bearing (non-bearing walls may be supported by columns, bents, or arches constructed of concrete, steel or wood)
Interior Partitions	<ul style="list-style-type: none"> • masonry, reinforced concrete or gypsum • light-weight & movable partitions are used as non-bearing walls 	<ul style="list-style-type: none"> • no specific attribute

*Building cross sections must be provided for both new and modernization projects to verify building type.

Base Cost Standards

The Class B and Class D base building cost standards are identified on the schedule which follows. Please note, each building area is priced at the facility classification most nearly represented in the plans.

FACILITY CLASSIFICATION		UNIT COST PER SQUARE FOOT	
		CLASS B	CLASS D
TEACHING STATIONS	Arts and crafts, high school & intermediate	\$81.78	\$78.86
	Business machines	81.21	78.31
	Homemaking	92.14	88.85
	Kindergarten	82.24	79.30
	Music, high school & intermediate	91.90	88.62
	Science, General	85.98	82.91
	Science laboratory (above grade 6)	117.33	113.14
	Shop, high school & intermediate	85.94	82.87
	Standard, elementary	81.16	78.26
	Standard, high school & intermediate	77.68	74.91

Continued on the next page

Base Cost Standards,
continued

FACILITY CLASSIFICATION		UNIT COST PER SQUARE FOOT	
		CLASS B	CLASS D
NON-TEACHING STATIONS	Administrative spaces	\$91.23	\$87.97
	Corridor, enclosed	71.55	68.99
	Corridor, covered	35.96	34.68
	Gymnasium	111.26	107.29
	Kitchen	136.63	131.75
	Food Service	79.71	76.86
	Library	88.29	85.14
	Multi-purpose, Type I	91.61	88.34
	Multi-purpose, Type II	78.48	75.68
	Performing Arts Facility	116.32	112.17
	Resource Specialist Program (RSP)	83.10	80.14
	Shower/Locker	101.15	97.54
	Staff Workroom	87.19	84.08
	Storage, Mechanical and Janitor	67.73	65.31
OTHER FACILITIES	Toilets	187.12	180.44
	Warehouses and Agricultural	40.45	39.01
	Employee parking basements	40.45	NA
	District Maintenance	68.35	65.91
	Other	87.19	84.08

FACILITY CLASSIFICATION		ABBREV.	UNIT COST PER SQUARE FOOT	
			CLASS B	CLASS D
NON-SEVERE HANDICAP	Specific Learning Disability	SLD	\$83.10	\$80.14
	Mildly Mentally Retarded	MMR	83.10	80.14
	Severe Disorder of Language	SD	92.51	89.21
SEVERE HANDICAP	Visually Handicapped	VH	89.38	86.18
	Orthopedically and Other Health Impaired	OOH	83.10	80.14
	Autistic	AUT	89.38	86.18
	Severely Emotionally Disturbed	SED	89.38	86.18
	Severely Mentally Retarded	SMR	89.38	86.18
	Developmentally Handicapped	DH	89.38	86.18

Special Day Complex

A special day complex consists of at least one special day class teaching station as well as a medical therapy unit. In addition to instruction space, the teaching station and/or medical therapy unit may include toilets, showers, changing areas, large equipment storage and daily living skills space.

The medical therapy unit may also include clinic/administrative areas, waiting areas for out patients and clients and space for physical and occupational therapy activities.

The Class B and Class D base building cost standards for a special day class complex are identified on the schedule as follows:

FACILITY CLASSIFICATION		ABBREV.	UNIT COST PER SQUARE FOOT	
			CLASS B	CLASS D
SEVERE HANDICAP	Severely Mentally Retarded	SMR	\$90.50	\$87.26
	Orthopedically and Other Health Impaired	OOH	88.70	85.54
	Developmentally Handicapped	DH	94.08	90.72
	Deaf-Blind/Multi	DBM	94.08	90.72

Note: The cost standard for toilet and shower areas located within a Special Day Complex are calculated according to the *Base Cost Standards* (see pages 3-7 & 3-8).

Adjustment Indices

The following adjustment factors, where applicable, are made to the base building cost allowance:

TYPE OF ADJUSTMENT	BUILDING TYPE	
	CLASS B	CLASS D
Construction Cost Index Factor	✓	✓
Geographic Area Index Factor	✓	✓
Small Building Index Factor	✓	✓
Urban (Dollar Amount)	✓	✓
Security Allowance (Dollar Amount)		✓

Construction Cost Index

The current construction cost index for Class B or Class D, as applicable, is applied to the base building cost allowance and are provided by Marshal & Swift.

The final allowance is determined utilizing the indices in effect at the time the project is first bid.

Geographic Area Adjustment

An adjustment factor for the geographic area in which a project is located is applied to the base building cost allowance (see *Appendix 11, Geographic Adjustment Factors*).

Small Building Index

An adjustment factor is applied to projects containing less than 12,000 square feet of building area. Use the following chart to determine the appropriate small building adjustment:

BUILDING AREA (SQUARE FEET)	MULTIPLIER	BUILDING AREA (SQUARE FEET)	MULTIPLIER
Under 800	1.15	6,400 – 7,199	1.07
800 – 1,599	1.14	7,200 – 7,999	1.06
1,600 – 2,399	1.13	8,000 – 8,799	1.05
2,400 – 3,199	1.12	8,800 – 9,599	1.04
3,200 – 3,999	1.11	9,600 – 10,399	1.03
4,000 – 4,799	1.10	10,400 – 11,199	1.02
4,800 – 5,599	1.09	11,200 – 11,999	1.01
5,600 – 6,399	1.08	12,000 or more	none

Urban Adjustment

An urban adjustment is applied to the building cost allowance accordingly:

CLASS B	CLASS D
An urban adjustment factor of 24 percent will be applied to the Class B building cost allowance for those projects located in areas of high property values and high population density.	An urban adjustment factor of one percent will be applied to the building cost allowance in areas of high population density.
<p>In either case, the district must provide justification describing the necessity of this adjustment. The circumstances which would warrant this adjustment include:</p> <ul style="list-style-type: none"> existing site is less than 75 percent of the CDE's recommended site size, extent of development on surrounding property, and existence and extent of traffic congestion. 	

The architect must provide a list of costs he anticipates the contractor will add to his bid for unique urban costs such as remote warehouse costs, material transportation to the site, security costs, employee parking costs, etc.

Security Adjustment

In areas where high crime rates exist, a security allowance may be provided for those Class D construction projects requiring security fencing, other protective structures and a watchperson. These items must be described in the plans and/or specifications. The district must provide justification describing the necessity of these security measures. The circumstances which would necessitate this adjustment include:

- Lack of site space for contractor to work and store materials;
- High risk of vandalism and theft (materials must be delivered to and from the site daily);
- Twenty-four hour, seven day, around the clock watchperson is required;
- Union agreement of basic trades requires contractor to provide parking for trades men, and;
- Increased premiums for insurance during construction in high density areas.

Final Adjustment to the Building Cost Allowance

A final cost allowance is determined as an outcome of OPSC’s review of the final plans. The allowance is adjusted according to the construction cost index in effect as of the date of the issuance of the bid authorization. The allowance is adjusted for the final time based on the construction cost index in effect as of the date of the bid opening. ☺

DEMOLITION

Description

Costs associated with the removal of building(s) which stand in the footprint and /or inhibits access to the proposed building are considered demolition costs. All itemized demolition costs will be given individual funding consideration. ☺

INTERFACING

Allowable Costs

Eligible interfacing costs include those costs associated with the connection of electrical, intercom, fire alarm and communication systems of an existing building to a new building area. All itemized interfacing costs will be given individual funding consideration. ☺

MULTI-STORY REPLACEMENT OF FACILITIES

Introduction

The district is eligible for replacing single-story school building(s) with one or more multi-story structures if the existing school site is less than 50 percent of the recommended site size as determined by the CDE, School Facilities Planning Division. The request for the replacement of single-story facilities at a project site must be made prior to the construction apportionment (Phase C).

Replacement of Portable Facilities

There are additional requirements for portable facilities replaced with multi-story structure(s):

- A district-owned portable 20 years of age or older may be either moved or replaced,
- A district owned portable less than 20 years of age must be moved,
- If a portable is moved to another site, the relocation costs are eligible expenditures and the portable building area will be included in the calculation of the districts "existing adequate area".

Note: Proceeds from a sale of a portable facility are considered available rent.

Multi-Story Replacement Facility

When a single-story facility is replaced with one or more multi-story buildings, not more than one-third of the final project area may represent the area of the replaced single-story facility.

Cost Standards/Area Assessment

The area being replaced as part of a project is subject to State cost standards (see *Building Cost Standards, pages 3-6 through 3-11*). This area will be considered in the district's calculation of "existing adequate area".

UTILITY SERVICES

Introduction

Utility service development include improvements of water, sewer, gas, electric and telephone. These improvements provide service from the closest existing utility connection to the project site meter or major building lateral location. Connection fees associated with the utility connection are also eligible project cost.

Eligible Utility Services Expenditures

The following utility services may be included as eligible project expenditures:

SERVICE	DESCRIPTION
Water	<ul style="list-style-type: none"> The installation of a main supply line (domestic water only) from the utility company connection to the meter. Meters not provided by the serving utility. Installation of a domestic water system, to include a well, pump and necessary appurtenances (except a pump house), from the main supply line to the first building lateral. Connection fee (funds deferred for invoice verification).
Sewage	<ul style="list-style-type: none"> The installation of main sewage disposal line from the utility company connection to the first building lateral. The installation of a sewage treatment/disposal system and a main disposal line from the treatment system to the nearest building lateral of the collection system. Connection fee (funds deferred for invoice verification).
Gas	<ul style="list-style-type: none"> The installation of main supply line from utility company to the meter. The installation of meters not provided by the serving utility. Connection of a Liquefied Petroleum Gas (LPG) system from the main supply line to the first building lateral (including storage tank costs if purchased). Connection fee (funds deferred for invoice verification).
Electric	<ul style="list-style-type: none"> The installation of service from the serving utility to the building switchboard. Primary electric service runs from the utility company's point of connection to the transformer. Secondary electric service runs from the transformer to the switchboard. Distribution panels or switch gear are considered building cost items. Transformers, transformer pads and protective bollards. Connection fee (funds deferred for invoice verification).
Telephone	<ul style="list-style-type: none"> The installation of service from the serving telephone company to the nearest distribution center.

Additions to Existing Schools

For additions to existing schools, all utility services must connect to the nearest available site source. If it is necessary to do otherwise, a registered engineer must certify that the existing lines will not adequately support the new facilities and that new routing is therefore required.

Connection Fees

Connection fees that are eligible must be delineated on the cost estimate. At the time of bid approval, these connection fees will be deferred and released upon invoice verification. An itemized invoice issued by the serving utilities must be submitted to the assigned OPSC project manager for review and release of these funds to the district.

Ineligible Utility Services

The following items are not eligible as utility service improvements:

- Any oversized installation beyond school needs;
- Line installation that is not part of shortest connection from serving utility to school site connection;
- Any portion of a utility that can be supplied by a utility company without charge;
- All heating systems and school communication systems, including public address systems;
- Cable television;
- Fences, or other protective structures relating to utility systems on school grounds;
- Any:
 - a) electrical, water or gas service beyond the meter,
 - b) sewer service beyond the building lateral,
 - c) telephone service beyond the distribution center, (building cost).

In all cases, items deemed "ineligible" but included in the plans and specifications must be in the Form SAB 506A and 506B cost estimates. ☞

CAPITAL DEVELOPMENT FEES

Introduction

Public utility agencies have the authority to levy user fees for the cost of capital development facilities to provide service to schools. Capital development facilities fees may be included in a project as eligible costs but are limited to facilities which provide power, water, light, heat, communications, garbage services, drainage, flood control, or the collection, treatment, and disposal of sewage.

Note: Capital development fees are not connection fees.

State Funding Limitations

State funding for capital development fees is only available for service capacities that meet the needs of the lease-purchase project. Capital development fees levied by a local agency are reduced on a dollar-for-dollar basis for those service capacities constructed as part of the lease-purchase project.

Reimbursement agreements for service capacities beyond the need of the State funded project are not eligible for funding under the Lease-Purchase Program.

Required Documents

All requests for the funding of capital development fees as a component of a lease-purchase project must include the following information:

- written evidence from the serving utility that the capital facilities fee does not exceed amounts charged to comparable non-public users (i.e., county/city ordinance). In addition, any fee assessed to the district must not exceed the proportionate share of the public utility facilities benefiting the lease-purchase project (i.e., per acre assessment);
- a written statement prepared by the serving utility itemizing all fees levied against the lease-purchase project; and
- for service to be provided after March 24, 1988: . . ." a written agreement which summarizes the negotiations between the district and serving utility company". The district cannot enter into an agreement until authorized by the Executive Officer of the State Allocation Board. ☞

OFF-SITE DEVELOPMENT

Introduction

Off-site improvements located along the perimeter of the site include street grading and paving, storm drainage lines, curbs, gutters, sidewalks, and street lighting. These improvements are commonly dedicated for public use.

Eligible Off-Site Development

Development of a site, including existing improvements, may not exceed the State's established standards. Any off-site development may not be performed on more than two sides immediately adjacent to the site. The following are off-site development State standards:

IMPROVEMENT	STATE STANDARDS
Paving of streets, curbs & gutters (includes existing improvements)	One-half of the width of a standard residential street not to exceed 20 feet from the top face of curb to centerline of street less any existing paving. Note: For roadways of a width or standard greater than those of a normal subdivision, the ineligible improvement costs may be funded by local municipality (Street and Highway Code, Section 2117) or may be included as general site development improvements for the project.
Sidewalks	Five foot width of sidewalk Note: Any portion of a sidewalk in excess of the five foot width is not eligible as an off-site development improvement but may be funded as a general site development improvement.
Street lighting, planting areas, street signs, traffic signals, street trees	Eligible only when mandated by local ordinance or is currently so developed.

Note: Local entities having jurisdiction of areas where the off-site development is proposed, must approve the related plans and specifications.

Rough Grading

When off-site development includes rough grading, the eligible portion of the off-site street improvements may be included in service site development costs when designed to balance cut and fill quantities. The cost estimate must specify the quantities needed to provide a balance of cut and fill.

Ineligible Off-Site Development

Any ineligible off-site development costs that are included in the plans and specifications must be included in the Form SAB506A and Form SAB506B cost estimates. Costs relating to off-site development improvements including rough grading which benefit adjacent properties without those properties equitably sharing in the cost are ineligible for State funding. Therefore, the associated costs (i.e., planning, testing, inspection services, etc.) are not eligible.

SERVICE SITE DEVELOPMENT/FIRE CODE REQUIREMENTS

Introduction

Service site development improvements are performed within school property lines and may include site clearance, rough grading, soil compaction, drainage and eligible erosion control. This portion of the site preparation is accomplished prior to the general site development and the construction of buildings.

Eligible Service-Site Development

Eligible service site development improvements are described in the following table:

IMPROVEMENT	DESCRIPTION
Site Clearance	Removal of trees, brush, debris, etc. Also includes demolition.
Demolition	Demolition and removal of existing buildings and site improvements which lie in the footprint of a proposed building or general site development improvements.
Removal/Relocation of Utility Service	Removal and rerouting of existing utility service which lie in the footprint of a proposed building or proposed parking lot.
Rough Grading	Grading of required contours, including cut and fill, leveling and terracing operations. May include off-site cut and fill operations (see <i>Off-Site Development, Rough Grading, page 3-15</i>).
Soil Compaction	Soil compaction adhering to common engineering practices. Engineered fill required by soils report must be submitted for review.
On-Site Drainage Facilities	Inlets, below grade drainage facilities and retention basins. Note: Does not include the surface drainage of football fields and running tracks.
Erosion Control/ Embankment Improvements	For embankments having a slope of 2:1 and a vertical height greater than six feet, erosion control improvements such as plant material, sprinkler systems, jute mesh and straw are eligible. Stairways, handicap ramps and retaining walls are also eligible.
Portable Facilities Relocation	Relocation of existing portable buildings which lie in the footprint of a proposed building or proposed parking lot to a permanent site. A portable building may be moved to a permanent on-site location one time only during construction. Note: The replacement of general site development items which were displaced as a result of a building relocation may be funded as general site development above the general site development allowance. These costs are approved by the SAB on a case-by-case basis.

Continued on the next page

Eligible Service-Site Development, (cont)

IMPROVEMENT	DESCRIPTION
Fire Code Requirements	<p>All-weather fire service roads and site access gates necessary to meet the State Fire Marshal requirements and which do not provide a dual use. An all-weather fire service road is defined as not exceeding 20 feet in width and composed of two inches of asphalt concrete over a maximum of six inches of aggregate base. Hydrants and related water supply lines required by DSA are an eligible service site cost.</p> <p>Note: Sprinkler systems and serving connection lines are building costs. Full school sprinkler systems are eligible in conjunction with an independent water system (well) when designed in lieu of hydrant systems.</p>

Bid Options for Service Site

The following options for bidding service site development contracts are:

NEW SCHOOL	
CIRCUMSTANCE	ACTION
Estimated Site development not exceeding \$100,000.	Site development work may be bid in concert with building contract. The total bid may not exceed the project's cost allowance established prior to the bid.
Estimated Site development in excess of \$100,000 or 10% of the estimated building cost, whichever is larger.	Site development is required to be bid independently of building contract.

ADDITIONS TO EXISTING SCHOOL		
CIRCUMSTANCE	OPTION A	OPTION B
Site development in excess of \$100,000.	Site development bid independently of building contract.	Site development bid in concert with building contract. The bid may not exceed the project's allowance established prior to the bid.

**Development
Separate Bids**

When the service site development is bid independently of the building contract, the work must be designed as a wholly separate contract rather than as an alternate to the building contract.

When bid separately, site development may include utility and off-site development, service site development and general site development. The general site development will be prorated to the amount of the separate bid to compute the remainder of the general site development allowance.

**Ineligible Service Site
Development**

Any excess or ineligible service site work included in the plans and specifications must be included in the Form SAB 506A and Form SAB 506B cost estimates. ❌

General Site Development

Introduction

General site development items encompass the exterior finishing detail of the site. This development is normally performed on-site. However, when elected by the district, general site improvements may include excess off-site or service site development work.

**Eligible General Site
Development Items**

General site development improvements are described in the following table and are deemed eligible project costs not to exceed the SAB general site development allowance.

IMPROVEMENT	DESCRIPTION
Finish grading	Final design grade.
Roads/driveways, walks, stairs, ramps, parking area, curbs and gutters	On-site facilities for vehicle and foot traffic.
Turfed/paved play area, permanent playground equipment, outdoor classrooms and places of assembly, tennis and handball courts, baseball fields, construction and surface drainage of football fields and running tracks	Outdoor instruction and play facilities. Paved, covered outdoor areas are counted and allowed as open corridor areas.
Concrete V-gutters	Drainage of on-site parking lots and field or bark areas
Planting/sprinkling, aesthetic terracing	Landscaping of building frontages, courtyards, and parking areas.
Sprinkling system, topsoil and turf	Outdoor teaching stations and play areas.
Construction/surface drainage	Football fields and running track.
Fencing, outdoor walls/screens, shelters not providing rain protection, flagpoles, utility enclosures, incinerators, pump houses, outdoor safety lighting and on-site fire lines and hydrants	Protective and service facilities.

Note: All general site items designed in excess of the computed allowance must be wholly funded by the district.

General Site Development Allowance

All new construction projects are eligible for a general site development allowance. The allowance is generated from a standardized calculation derived from the established building allowance for the project and the net gross site acreage, excluding any street easements, as recommended by the CDE.

The general site development allowance derived from the established building allowance is determined as follows:

GRADE LEVEL	ALLOWANCE
High Schools (9-12 and 10-12)	Five percent of the building allowance.
All other grades	Eight percent of the building allowance.

The portion of the allowance based on the gross site acreage, excluding any easements, is determined by the following circumstances:

CIRCUMSTANCE	ALLOWANCE
A A new school wherein site acreage is acquired as part of the project application or a new school built on a district-owned site.	\$15,000.00 per acre portion thereof.
B Addition of building(s) to an school located on a district-owned site or acquisition of additional acreage at a district-owned site.	\$15,000.00 per acre not to exceed existing the difference between the capacity of the existing facility and the master-planned capacity of the school. When not included in any prior project as master planned allowance.
C Acquisition of additional acreage at a district-owned site wherein the existing acreage and proposed acreage additions less than 75 percent of that recommended by the CDE.	Special consideration will be given to those projects wherein a need for additional general site development improvements is justified. In this instance, the <i>general</i> site development must be bid separate from any other project contract as case-by-case general site.

Additional Funding for Multi-Story Construction

Introduction

For those schools located in a densely populated urban area where site acquisition costs are high, incentives in the form of a supplemental allowance and replacement of facilities are available:

INCENTIVE	DESCRIPTION
Supplemental Allowance	Provides additional funding to alleviate the problems of a small school site. <i>(see Supplemental Allowance, page 3-21).</i>
Replacement of Facilities on sites with less than 50% of site size recommended by CDE.	Replaces single-story facilities with multi-story structures provided the replacement area does not represent more than 1/3 of the total project area. If the replacement area represents more than 1/3 of the total project area, the SAB would consider the request on a case-by-case basis. <i>(see Multi-Story Replacement of Facilities, page 3-12).</i>

Required Documents

In order to receive additional funding for Multi-Story construction, the following documents are required:

FORM	DESCRIPTION	Supplemental Funding	Replacement of Facilities
<input type="checkbox"/> SAB 506	Application for Apportionment	✓	✓
<input type="checkbox"/> None	Letter Appraisal	✓	
<input type="checkbox"/> SAB 502	Supplemental Funding Calculation	✓	
<input type="checkbox"/> SAB 600	Lease-Purchase Justification Document Showing growth eligibility. Current (within year of application).	✓	✓

Supplemental Allowance

Introduction

A supplemental allowance is available to those projects wherein the actual pupil density of the project site exceeds that recommended by the CDE, School Facilities Planning Division.

Eligible Supplemental Funding Expenditures

The following table describes eligible supplemental funding expenditures:

TYPE	DESCRIPTION
Enhancements	Construction items which will enhance the project in such a way as to mitigate the small site size.
Additional Building Area	Building area funded solely with the "Supplemental Funding" allowance.
Miscellaneous Items	These items may include but are not limited to: <ul style="list-style-type: none"> • fire safety (sprinkler and fire alarms) • handicapped access • playground apparatus • duct shafts, utility tunnels and pipe conduit chases • security features

Form SAB 502

Use of the *Supplemental Funding Calculation* (Form SAB 502) will determine the amount of supplemental funding available to a project.

Letter Appraisals

For purposes of establishing an approximate cost for the acquisition of real property and completing the Form SAB 502 the district must submit two letter appraisals for each parcel to be acquired.

Form SAB 600

The *Lease-Purchase Justification Document*, Form SAB 600, must identify all building area to be funded with the supplemental allowance calculation of the district's adequate building area.

Justification Letter

The district must provide a justification letter detailing the allocation of the supplemental funding allowance in relieving the effect resulting from a less than adequate site size.

Final Project Plans

All items to be funded from the supplemental funding allowance must be clearly identified on the plans. These enhancements must be noted on the plans as "supplemental funding" items.

Cost Estimates

A delineation of all items to be funded with the supplemental funding allowance must be identified on the cost estimates (Forms SAB 506A and SAB 506B). In addition, separate cost estimates identifying *only* the supplemental funding allowance expenditures must be submitted.

Deferment of Supplemental Funding Allowance

The district may opt to defer a portion of the supplemental funding allowance for specific expenditures to be completed subsequently to the project's main construction contract. These items and the associated costs must be identified prior to the acceptance of main construction bid. ☹

Energy Conservation

Introduction

The SAB provides a supplemental allowance to those projects promoting the use of cost effective energy conservation measures and renewable resource technologies.

Eligibility

A life-cycle cost comparison of the costs and benefits of a proposed project intergrating alternative energy measures with those of a proposed project including conventional energy measures will be reviewed by the OPSC to determine the district's eligibility for a supplemental energy conservation allowance. The supplemental energy conservation allowance is the difference between the cost of the alternate and conventional systems.

Required Documents

In order to determine energy conservation eligibility, the following documents are required.

ITEM	DESCRIPTION
Plans	Drawings depicting the projects energy conservation measures.
Life-cycle cost comparison analysis	A life-cycle cost analysis supporting the district's application for the supplemental allowance.
Form SAB 506B (Cost Estimate)	The requested supplemental energy conservation allowance must be identified in the "construction" category in the cost estimate.
1A Diagram	The 1A diagram must identify the building areas in which the use of energy conservation measures are proposed.
Consultant Contract/ District Certification	Evidence of the district's contractual agreement with the energy conservation consultant for services rendered relative to the project. Evidence may include a District Board resolution or legal agreement between the consultant and the district.

Note: It is advised that the energy conservation documents be submitted at the design development stage (Phase P) of the project. However, these documents must be submitted before final plans have been approved by DSA to be eligible for funding.

Calculation of Energy Consultant Fee

The school district is expected to negotiate an agreement with the energy consultant which is most favorable to the State in regard to compensation for professional services. The maximum schedule of fees calculated are based on the total amount of the approved proposed energy conservation measure as follows:

APPROVED SUPPLEMENTAL ALLOWANCE	FEE (%) (NOT CUMULATIVE)
Up to 50,000	7.5
50,001 — 100,000	6.5
100,001 — 200,000	5.5
200,001 — 300,000	5.0
300,001 — no limit	4.5

For example, an approved supplemental energy conservation allowance of \$200,500 would be calculated at a fee not to exceed five percent. The fee totals \$10,025.

The energy analysis consultant fees must be identified in part B. Plans, Energy Analysis Fee category on the Forms SAB 506A and SAB 506B cost estimates.

Calculation of Architect Fees

Since the energy conservation system is included in the plans and specifications the architect fee is calculated based on the amount of the construction contract which included the energy conservation measures. Upon the OPSC's approval of the energy analysis and the establishment of an energy conservation allowance, a recommendation to apportion energy analysis consultant fees will be made to the SAB at Construction (Phase C) approval.

Apportionment of Energy Analysis Consultant Fees

Final energy analysis fees will be released with the construction contract, after the Construction (Phase C) and bid approval. An estimated amount for energy consultation fee is calculated in the Planning (Phase P) approval and available to the district for energy analysis fees.

Fund Release of Final Energy Analysis Consultant Fees

Upon the OPSC's approval of the supplemental energy conservation allowance, a recommendation to apportion the allowance will be made to the SAB at the time of the construction apportionment (Phase C).

Apportionment of Energy Conservation Allowance

Since the energy conservation measures are included in the building construction contract, these funds are released with the construction contract. ☺

DEFERRED ITEMS

Description Eligible construction items that are not included in the plans and specifications and are to be performed at a later date may be deferred for the future. In order for a reservation of funds to be made, these items must be clearly identified on the cost estimates and plans. An itemized invoice issued by the vendors who provide the work for these deferred items must be submitted to the OPSC for review. The OPSC will make a determination of whether or not the costs are eligible for State Funding. ☞

D. Tests

Description The school district, in accordance with Title 24, Part 1 of the California Code of Regulations, is responsible for all necessary tests during the project's construction phase. Verification of costs must be submitted to the OPSC at time of audits.

Tests performed during construction may include soil compaction/fill tests, materials testing, etc. ☞

E. Inspection

Description In accordance with Title 24, California Code of Regulations (CCR), inspection services are required during the construction of all facilities. The school district, must solicit proposals from several DSA certified inspectors known by reputation as being well qualified and experienced in the construction of public schools. The district is responsible for negotiating an agreement with the inspector in regard to compensation for professional services economical for cost reimbursement.

Inspector's Salary The estimate for the inspector's salary must be in accordance with prevailing wages for comparable services. Inspection costs will be approvable for a period not exceeding the legal duration of the construction contract. The contract period is terminated upon the filing of the Notice of Completion.

Additional inspectors fees may be approved for those contracts in which a time extension was granted through the OPSC change order process.

Inspection fees are allowed for the legal duration of the construction contract(s) as approved by the Office of Public School Construction plus an additional 35 calendar days for work the district has deemed incomplete at the close of the construction contract period.

Inspector's Role The inspector shall act under the direction of the project architect or registered engineer in assuring compliance with the approved plans and specifications. The inspector must inspect every part of the work. In no case, shall the inspector have or assume any duties which would prohibit continuous inspection.

Note: A school district official/employee may not provide inspection services for their own school project regardless of qualifications. ☞

F. Furniture and Equipment

Introduction

A furniture and equipment allowance is provided to each project to adequately equip all spaces and functions within the facility with the proper movable furniture and equipment items. The furniture and equipment allowance is generated by the eligible building area and facility classifications.

Preliminary Allowance

The following chart is used to determine a preliminary estimate at Construction (Phase C) for the furniture and equipment allowance. The final allowance will be determined by the OPSC upon approval of the bid.

GRADES SERVED	ALLOWANCE PER SQUARE FOOT
K - 6, K - 8	\$5.00
6 - 8, 7 - 8, and 7 - 9	6.00
9 - 12, 10 - 12	7.00
Continuation High	8.00
Special Education	10.00

Final Maximum Allowance

The maximum furniture and equipment allowance, as established at the bid approval, is as follows:

- New construction applications are limited to 100 percent of the calculated allowance.
- Modernization, reconstruction and replacement of abandoned facilities applications are limited to 50 percent of the calculated allowance.*

* The allowance provided for modernization, reconstruction and the replacement of abandoned facilities is limited to 50 percent of the maximum allowance because inventory remains from the original facilities.

Central Kitchens	<p>An allowance is provided to those projects including a central kitchen which services at least two satellite serving kitchens in addition to its central kitchen site.</p> <p>In order to receive a central kitchen allowance, the district must provide:</p> <ul style="list-style-type: none"> • identification of the schools which house the satellite serving kitchens; and • the number of pupils to be served by the central kitchen.
Furniture and Equipment Cost Index	<p>Once the preliminary or final furniture and equipment allowance has been determined apply the current furniture and equipment cost index factor. The furniture and equipment cost index factor is adjusted quarterly.</p>
Furniture and Equipment Included in the Contract	<p>If the construction contract includes eligible furniture and equipment items, the district must submit an itemization of proposed purchases and the associated unit costs. The cost of these items will be transferred from the furniture and equipment allowance to the project's construction allowance. In addition, the architect fee, calculated at eight percent of the cost of these items, will be reduced from the furniture and equipment allowance.</p>
Ineligible Expenditures	<p>Built-in or fixed equipment (fixtures) and supplies are not considered movable furniture and equipment items, and are generally funded with the building construction allowance. In addition, furniture and equipment funds may not be utilized for the purchase of equipment for adult education, community use, or for intramural or inter-school sports as distinguished from the required physical education program of the district.</p>
Audit of Furniture and Equipment Expenditures	<p>Upon completion of the project, an audit of the district's furniture and equipment expenditures is conducted wherein any ineligible expenditures are reduced from the project. If prior to the final audit, the district has not completed purchasing all the furniture and equipment necessary for the project, the district must submit a list of purchase orders or encumbrances for the balance of the unexpected furniture and equipment items. This action will reserve funds for future furniture and equipment expenditures.</p>
OPSC Review	<p>Upon the district's request, the OPSC will conduct a courtesy review of the district's anticipated furniture and equipment purchases. 🗨️</p>

G. Contingencies

Calculations of Contingencies

Contingencies in the project budget provide a means for financing eligible unforeseen costs necessary to complete the project.

The contingency amount is calculated at 1½ percent of Item C, the construction category, as delineated on the cost estimate. In addition, an amount of \$2,000 is allocated to this category.

Eligible Expenditures

Upon a bid approval and authorization by the OPSC Executive Officer, expenditures from the contingency fund are allowable under the following circumstances:

TYPE OF EXPENDITURE	CIRCUMSTANCE
Non-Construction	<p>For cost increases <i>not</i> involving changes to a construction contract (i.e., inspection, tests, etc.), a transfer of funds to the budget item requiring the increase may be requested when:</p> <ul style="list-style-type: none"> • Prior to 90 percent construction completion (building), the District Representative must submit a written statement requesting a transfer of funds from the contingency fund to the specific budget item requiring the increase. • After 90 percent construction completion (building), funds will be automatically transferred based on the project's expenditure reports as submitted to the OPSC.
Construction	<p>For cost increases involving the construction contract (i.e., site development, building construction, etc.), a formal change order must be submitted to the OPSC (see <i>Section 7, Change Orders, page 7-1</i>).</p>

Ineligible Expenditures

The contingency fund is not available for any expenditures deemed ineligible such as:

ITEM	DESCRIPTION
New Construction (Building)	<p>Cost increases associated with the building portion of the construction contract that exceed the difference between the "bid allowance" and the "acceptable low bid" as established at the time of the bid approval.</p>
General Site Development	<p>Cost increases associated with general site development that exceed the general site development allowance as established by law and as calculated at the time of the bid approval.</p>

Construction Plans - Not Yet Approved By DSA

Introduction

The non-DSA approved construction plans are intended to supply sufficient information concerning quantities and types of work and materials to adequately support the cost estimate. These plans are used to develop a construction budget in preparation for the construction funding (Phase C) SAB recommendation after submittal of the DSA approved final plans and specifications to the OPSC.

It is important for the district and architect to involve the various local entities in the design phase, including planning commission, utility companies and local fire marshal.

Required Plan Components

The following components reflect the minimum essential detail to be provided in the construction plans:

COMPONENT	DESCRIPTION
Title Sheet	<ul style="list-style-type: none"> • For purposes of determining the SAB geographic index, a vicinity map showing city location in relation to adjacent cities and major highways must be included. Refer to <i>Appendix 11, Geographic Adjustment Factors</i>. • Index to plans identifying all components of the plan set. • Legends/labels identifying all building areas. In addition, building area not included in the contract (N.I.C) must be noted. • North arrow and scale to be included on all plan layout sheets. • Site plan indicating location of existing and proposed facilities.
Civil Drawings	<p>Civil drawings should indicate existing conditions and proposed changes in the site contour. A layout of the proposed installation of utilities services, on-site and off-site development should be included. Utility service connections may also be shown on plumbing and electrical site plans.</p>
Architectural Drawings	<ul style="list-style-type: none"> • Complete dimensions of all buildings areas, including corridors, both interior and exterior. Building measurements are taken from the exterior rough wall line to the center line of interior walls and partitions. Covered unenclosed corridors are measured from the exterior rough wall line to the edge of any paving or the edge of the overhang, whichever is less. • All building area must be labelled with the appropriate facilities classification (see <i>Building Cost Standards charts, pages 3-6 through 3-11</i>). • Numeric designation for all areas calculated at the actual area. • Alpha designation for all areas calculated at less than the actual area, (i.e., covered unenclosed spaces). • Relocatable plans in sufficient detail to verify compliance with SAB standards.

Note: It is vital that the construction plans accurately represent the scope of the proposed buildings so that any incongruities may be identified and addressed in the early stages of the project.

Where to Submit Plans In addition to submitting construction plans to DSA, the district must submit a set of non-DSA approved construction plans to each of the following:

AGENCY	SEND TO
Office of Public School Construction	On Autocad 14 format Office of Public School Construction 1130 K Street, Suite 400 Sacramento, CA 95814 (916) 445-3160
California Department of Education	California Department of Education School Facilities Planning Division Walk-in: 560 J Street, Suite 565 Sacramento, CA 95814 Mail-in: P.O. Box 944272 Sacramento, CA 94244-2720 (916) 322-2470

Relocatables

Relocatable classrooms are either built on-site or in a factory.

The relocatable classroom design (plans and specifications) must meet the OPSC requirements and be approvable by the DSA.

MANUFACTURED RELOCATABLES	RELOCATABLES BUILT ON-SITE
DSA approval, is not necessary prior to the entire project's receiving a Phase C approval. Performance plans and specifications are provided to the accepted bidder who then secures DSA approval.	DSA approval must be secured prior to a Construction (Phase C) approval.

Assistance

The OPSC offers a pre-plan review service to assist districts and architects in preparing project plans, specifications and cost estimates for review by the OPSC. Consult your OPSC project manager to arrange for this service. ☺

3A Diagrams: Diagrams of Existing and/or Proposed Facilities

Introduction

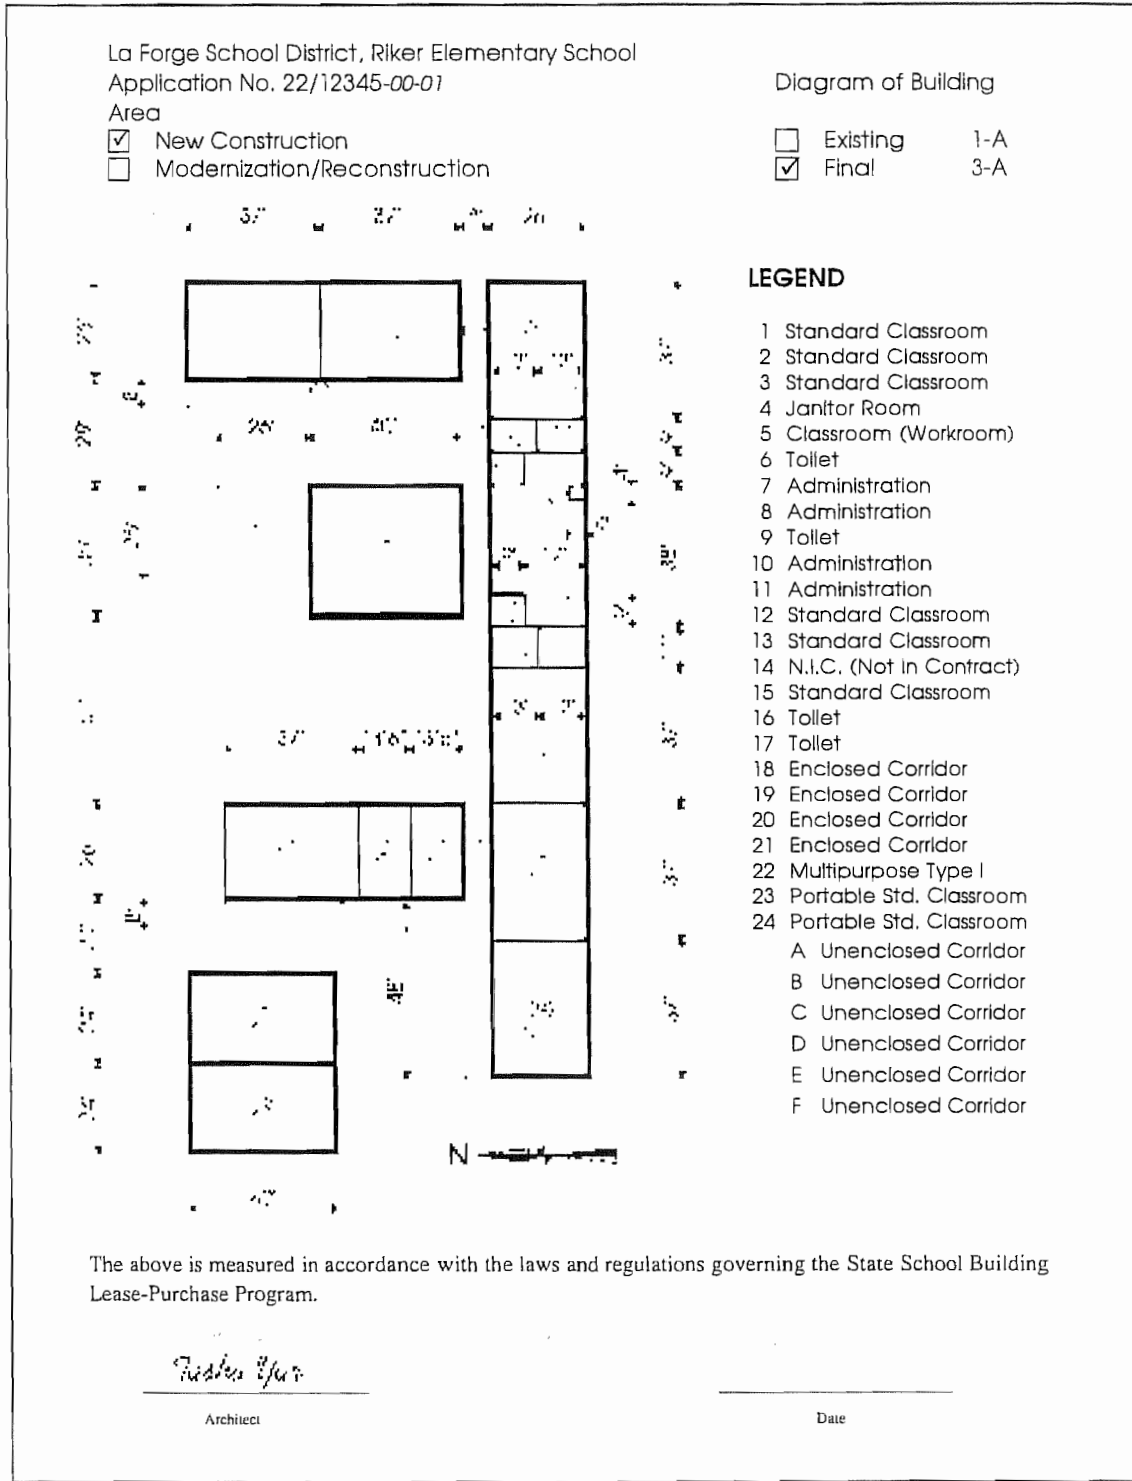

The 3A diagrams depict all existing and proposed facilities located on the project site. The 3A diagrams must accurately reflect the buildings as dimensioned in the plans.

3A Diagram Components

The major components of the 3A diagrams are described below:

COMPONENT	DESCRIPTION
Plot Plan	Indicates location of new buildings included in the project and their relationship to existing structures.
Site Summary	Provides an itemization of all buildings/building area located on the project site.
Building Diagram	<p>Complete dimensioning of all proposed buildings, including corridors, both interior and exterior. Building measurements are taken from the exterior rough wall line to the center line of interior walls and partitions.</p> <ul style="list-style-type: none"> • All proposed building area must be labelled in accordance with the appropriate facilities classifications (see <i>Example 1: 3A, Diagram page 4-4</i>). • Numeric designation for all areas calculated at the actual area. • Alpha designation for all areas calculated at less than the actual area.
Area Computation	<p>Indicates area computation detail and Sheet summary of proposed facilities (see <i>Example 2: 3A Diagram Computation Calculations Detail page 4-5</i>).</p> <p>The information on the computation is used to develop SAB building cost allowances.</p>

Non-DSA Approved Final Specifications

Introduction	Specifications must accompany the non-DSA approved final plan submittal for each contract. The OPSC does not dictate the contents of the specifications; however, certain items must be addressed.
Submittal	Specifications must be submitted with the plans on CD Rom or Zip disk. If this is not possible, submit the specifications on diskette with separate sub-files for each division.
Specification Components	<p>The following components must be included in the specifications and submitted with the non-DSA approved plans to the OPSC:</p> <ul style="list-style-type: none"> • Bid Form • Construction Contract • Bonds • Substitution of Securities
Cash Allowance Incentives	Cash allowance incentives (i.e., bonus for early contract completion) are not permitted.
Time and Materials	Items and/or labor approved and funded by the SAB may not be accomplished on a time and materials basis.
Use of District Personnel	The use of school district personnel to install and fabricate materials is prohibited. ☹

BID FORM

Introduction

The bid form delineates the scope and terms of the contract. The format of the bid form is left to the discretion of the district. A prototype of the bid form is included in the project specifications and submitted with the non-DSA approved final plan package.

Required Elements

The following elements are required in the bid form:

ELEMENT	DESCRIPTION/REQUIREMENT
Identification	Indicate school name, location and general scope of the project.
Statement of Good Faith	<p>The following language is suggested:</p> <p>"The undersigned hereby promises and agrees to furnish all labor, materials, equipment, mechanical workmanship, transportation, and services for the erection and completion of said work, in strict accordance with the plans and specifications".</p> <p>The bidder is legally bound to perform all of the work for a stated lump sum.</p>
Base Bid	Contractor's cost to include the full scope of the project not including alternates.
Alternates	<p>For New Construction: Limited to two deductive alternates with not more than ten building construction items. The alternates may not change.</p> <p>For Modernization/Reconstruction: Limited to five alternates, additive or deductive, with not more than 20 building construction items. Alternates must be building cost items only. The building area of the project.</p>
Time of Completion	The number of calendar days necessary to complete the contract. The specified time for completion must be reasonable for the scope of the project.
Liquidated Damages	The amount per day to be deducted from the contract sum for construction delays beyond the expressed date of completion. Unusually harsh penalties for minor delays in meeting the contract terms are not acceptable.

Continued on the next page

**Required Elements
(Cont.)**

ELEMENT	DESCRIPTION/REQUIREMENT
Bid Bond	Contractors submitting bids must provide a bid bond in the amount of ten percent of the base bid, to insure the contractor's intent to culminate the contract. In lieu of the bond, the contractor may provide a cashier's check amounting to ten percent of the base bid. The bid bond must be issued by an admitted surety (an insurance organization authorized by the Insurance Commissioner to transact business of insurance in the State of California).
Notice of Bid Acceptance/Bid Life	It is recommended that a written notice of bid acceptance be issued within 60 days after the date of bid opening. At that time, the successful bidder must sign the construction contract and furnish the required bonds within five days of the notice of award.
Addenda	The bid form must indicate any addenda. The receipt of the addenda must be acknowledged by the bidder.
Designation of Subcontractors	The bidder must designate the names and location of the place of business of each subcontractor.

CONSTRUCTION CONTRACT

Introduction

The construction contract is the agreement between the successful bidder and the district. The contract delineates the terms and scope of the project. A prototype of the construction contract must be included in the project specifications and submitted with the non-DSA approved final plans package.

Required Elements

The OPSC requires the following elements be included in the construction contract:

ELEMENT	DESCRIPTION
Identity of Project	Indicate school name and location.
Contract Amount	The full amount to be paid to the contractor for the scope of the work agreed upon in accordance with the provisions of the general conditions.
Time of Completion	The number of calendar days necessary to complete the contract. The specified time for completion must be reasonable for the scope of the project.
Liquidated Damages	The amount per day to be deducted from the final contract sum for construction delays beyond the expressed date of completion. Unusually harsh penalties for minor delays in meeting the contract terms are not acceptable.
Signatures	<p>A signature block must be included for all of the following:</p> <ul style="list-style-type: none"> • District's authorized agent, or quorum of the District's Board of Trustees • Contractor • District's legal counsel
Liability	<p>Contracts between the school district and its General Contractor or Builder etc., must contain the following language:</p> <p>"The Contractor agrees that the State of California, including the State Allocation Board, is not liable for any damages of any kind arising out of this contract, and that the Contractor's sole remedy is against the District and only the District is liable for any injury the Contractor may suffer under this contract."</p>

BONDS

Introduction

The project specifications must include a facsimile of both the faithful performance bond and the labor and materials bond to be provided by the successful bidder.

Faithful Performance Bond

The bond of faithful performance assures that the contractor will perform each and all of the conditions set forth in the construction contract. The bonding must be equal to 100 percent of the construction contract sum and must be issued by an admitted surety (an insurance organization authorized by the Insurance Commissioner to transact business of insurance in the State of California).

Labor and Materials Bond

The labor and materials bond assures that the contractor and subcontractors will provide the labor and materials necessary to complete the terms of the contract. The bonding must be equal to 50 percent of the construction contract sum and must be issued by an admitted surety (an insurance organization authorized by the Insurance Commissioner to transact business of insurance in the State of California). ☞

SUBSTITUTION OF SECURITIES

Introduction

An option for the substitution of securities by the contractor must be included in the project specifications. Failure to provide this option shall void any provisions for performance retentions in the contract.

Terms of Security Substitution

The contractor may choose to have the District deposit ten percent of the contract amount in lieu of the district withholding any monies from progress payments. Normally, only 90 percent of each payment is released and the balance of ten percent is retained by the district. The substitution of securities guarantees 100 percent of each progress payment.

The substitution of securities by the contractor may be satisfied by any of the following:

- cash
 - real property holdings
 - other assets
-

Security Deposits

Securities in the amount withheld may be deposited with the following:

- District
- State or Federally chartered bank

Upon satisfactory completion of the contract, the security deposit plus any interest will be returned to the contractor. ☞

Preparing for Construction (Phase C) Approval:

Introduction

As part of the project's final design stage, the final plans and accompanying documents are developed by the project architect for each contract. The documents are used to establish a final construction budget.

The construction (Phase C) of the application provides funds which allow the district to initiate the construction of the school facilities.

Required Documents

The following documents are required to prepare an application for a Construction (Phase C) approval:

DSA APPROVED FINAL PLAN PACKAGE	
DOCUMENT NUMBER	DOCUMENT NAME
<input type="checkbox"/> none	DSA Approved Final Plans
<input type="checkbox"/> none	DSA Approved Final Specifications
<input type="checkbox"/> SAB 506A	Final Project Cost Detail
<input type="checkbox"/> SAB 506B	Final of Estimated Costs
<input type="checkbox"/> SAB 390	Certification of Changes to Final Plans and Specifications
<input type="checkbox"/> none	Addenda (if applicable)

In this Section

This section discusses the following topics:

TOPIC	PAGE
DSA Approved Final Plans and Specifications	5-2
Certification of Changes to Final Plans and Specifications, Form SAB 390	5-3
Addenda	5-3
Construction (Phase C) Apportionment	5-4

DSA Approved Final Plans and Specifications

Introduction

The components of the DSA approved final plans and specifications are usually identical to those of the non-DSA approved final plans and specifications. (see *Required Documents, DSA Approved Final Plan Package, page 5-1*).

The DSA approved final plans and specifications must be submitted to OPSC for review. After review, a construction apportionment (Phase C) will be recommended to the SAB, as appropriate.

Separate Contracts

The SAB does not approve partial construction (Phase C) apportionments. When a project is comprised of more than one contract a construction apportionment will not be recommended to the SAB until the DSA approved plans and specifications for the entire project have been reviewed by the OPSC.

DSA Approval

The DSA plan approval is verified by an approved stamp which has been initialled by the Structural safety Section, Access Compliance Section, State Fire Marshal and includes an approval date.

As submittal of specifications are required by the OPSC to be on diskette, the specifications must include a certification from the district architect that the exact specifications on the diskette have been approved by the DSA. The certification must include the dates of approval and the appropriate DSA number(s) for structural safety, access compliance and fire safety.

Since the final plans and specification must be submitted electronically, the district must certify that the plans have been approved by the DSA.

3A Diagrams

The 3A diagrams are required at this submittal only if changes have occurred in the proposed building area and teaching station designations.

Where to Submit Plans Package

The DSA approved final plans and specifications must be submitted to:

SEND TO	FORMAT
Office of Public School Construction 1130 K Street, Suite 400 Sacramento, CA 95814 (916) 445-3160	Plan: CD ROM or Zip drive readable by AutoCAD 14 Specifications: Diskette with Certification

Certification of Changes to Final Plans and Specifications, Form SAB 390

Introduction The DSA approved final plan package submitted to the OPSC must contain the *Certification of Changes to Final Plans and Specifications* (Form SAB 390).

The purpose of this form is to certify any changes made to the DSA approved final plans since the non-DSA approved final plans package submittal. Any changes reported on the Form SAB 390 must be supported by revised cost estimates *Estimated Project Cost Detail* (Form SAB 506A) and *Summary of Estimated Costs* (Form SAB 506B).

In addition, changes to the DSA approved plans and specifications by means of addenda must be accompanied by the Form SAB 390.

Certification The project architect is responsible for completing this certification. This certification addresses changes made to the following:

- Building area
- Teaching station designations
- Utility services, service site development, off-site development, and general site development

If no changes were made to the plans, a statement must be made to this effect on the Form SAB 390. ☺

Addenda

Introduction Any changes made to the DSA approved final plans or specifications must be accomplished by means of addenda and must be submitted to OPSC, along with Form SAB 390, for review.

Reviewing Agencies All addenda, except those affecting the management of the contract, must be approved by the DSA. However, the OPSC will accept non-DSA approved addenda at this stage of the project. DSA approval must be obtained prior to a construction fund release.

The OPSC must also review all addenda to determine the affect the addenda may have on the project. ☺

Construction (Phase C) Apportionment

Introduction

Upon review of the DSA approved final plan package as outlined in *Required Documents, page 5-1*, the OPSC will notify the district as to the projects final allowance and will prepare a recommendation to the SAB that the project application be approved and apportioned for construction (Phase C) funding.

Sites Not Previously District Owned

For those projects which include the acquisition of real property not previously owned by the district, a grant deed to the property or the *Site Ownership Certification (Form SAB 509)* is required prior to the construction (Phase C) SAB recommendation.

Fund Release

Construction (Phase C) funds will be released when an acceptable bid has been approved by the SAB and the district submits a *Construction Contract Certification (Form SAB 599)*. (see *Section 6, Phase C Fund Release, page 6-4*). ☛

Preparing for Bid/Bid Approval

Introduction

When a project has obtained its construction (Phase C) apportionment, the district is authorized to proceed through the bid process.

Upon the district's receipt of an acceptable bid, and its subsequent submittal to OPSC, a recommendation to approve the bid will be presented to the SAB.

Required Documents

The following documents are required to prepare a bid approval:

DOCUMENT #	DOCUMENT NAME
<input type="checkbox"/> SAB 515	Summary of Bids
<input type="checkbox"/> none	Addenda
<input type="checkbox"/> SAB 506B	Summary of Estimated Costs

In This Section

This section includes the following topics:

TOPIC	SEE PAGE
Authorization to Advertise for Construction Bids	6-2
Post-Bid Opening Documents	6-3
Notice of Approval of Low Bid, Form SAB 513A	6-3
Construction (Phase C) Fund Release	6-4

Authorization to Advertise for Construction Bids

Introduction

When a project receives a construction apportionment, the district is authorized to advertise for construction bids.

Bid Authorization Components

The OPSC's notification to the district of the final project allowance acknowledges specific items related to the bid and advises the district of particular obligations:

ITEM	OPSC ACKNOWLEDGMENTS
Addenda	Any addenda received by OPSC to date.
Bid Allowance	The construction cost allowance.
Project Area	The project's building area.
Deferred Construction Items	Those construction items deferred from the bid allowance for future release.

ITEM	DISTRICT OBLIGATIONS
DVBE Provisions	Compliance with Disabled Veteran's Business Enterprises Contract Participation Goals (see <i>Appendix 12, Disabled Veteran's Business Enterprises Contract Participation Goals, Page 12-1</i>).
Bid Life	Sixty-day bid life. (Recommended).
Submittal of Bid Documents	The district must bid project within one year of the construction apportionment (Phase C).

Re-Bid

Rejection of any or all bids must be reviewed by the OPSC. The district must secure its own legal counsel's opinion should it choose to reject any bid. In the event of a failed bid the OPSC is available to assist and provide expertise which may assist in a successful re-bid of the project. ☺

Post-Bid Opening Documents

Introduction When the district has received bids, its governing board holds bids under submission. In addition, the district specifies the bid it intends to accept subject to SAB approval.

Required Documents The following documents are required prior to the OPSC initiating a bid approval:

DOCUMENT	DESCRIPTION
Summary of Bids	The district utilizes the <i>Summary of Bids</i> , Form SAB 515 to notify the OPSC of all bids received.
Bid Form	The bid form completed by the low bidder.
Addenda	Addenda as specified on the bid form that were not previously submitted to the OPSC.
Summary of Estimated	An updated <i>Summary of Estimated Costs</i> (Form SAB 506B) noting the actual bid costs as well as all eligible previous or future work not included in this bid.

Notice to School District of Low Bid Approval - Form SAB 513A

Introduction The OPSC evaluates the bid documentation submitted by the district for compliance to program requirements.

Upon the OPSC acceptance of the appropriate bid documentation (see Topic *Post-Bid Opening Documents, above*), the lowest bid is acceptable when it is within the project's established construction allowance. The project's construction allowance is updated to reflect the construction cost index as of the date of the bid opening.

When the low bid is deemed to be acceptable, the OPSC will recommend to the SAB that the contract be approved.

Form SAB 513A Upon SAB bid approval, the OPSC will issue a completed *Notice to School District of Low Bid Approval* (Form SAB 513A) to the district. This notice specifies the following:

- Successful bidder; and
- Terms of the contract, including the acceptable contract amount; and
- Delineates the conditions for the contract's award. ☞

Construction (Phase C) Fund Release

Introduction

The district is authorized to execute the construction contract and related documents once the *Notice to School District of Low Bid Approval* (Form SAB 513A) is received from the OPSC.

The construction fund release will be generated upon the district's submittal of the *Construction Contract Certification* (Form SAB 599). All remaining funds will be released with the exception of deferred items and contingencies.

Certification of Required Documents

The following documents are required to be certified to the OPSC on the *Construction Contract Certification* (Form SAB 599) prior to the release of construction funds:

DOCUMENT	DESCRIPTION	
Executed Construction	A fully executed contract including the elements identified in <i>Section 4, Construction Contract, page 4-9</i> .	
Executed Bonds	Fully executed and notarized: <ul style="list-style-type: none"> • Performance Bond issued by an admitted surety (see <i>Section 4, Bonds, page 4-10</i>). • Labor and Materials Bond issued by an admitted surety (see <i>Section 4, Bonds, page 4-10</i>). 	
District Certification	If a district contribution is specified on the <i>Notice of Approval of Low Bid (Form SAB 513A)</i> a certification that the specified contribution has been deposited in the district's Lease-Purchase State School Building fund is required.	
District's Acceptance Award of Contract	IF the contract ...	THEN ...
	is signed by an authorized signatory on the Form SAB 506	a school board resolution or certified board minutes indicating the district's award of the contract to the successful lowest bidder is necessary.
	is signed by the Board of Trustees	a school board resolution or certified board minutes is not necessary.

**Items Deferred For
Future Release**

Once the district has provided acceptable documentation of those items deferred from a construction contract and a final allowance is established by the OPSC, funds may be released (see *Deferred Items, page 3-24*).

Contingencies

Contingency funds are released as expenditures are justified (see *G. Contingencies, Eligible Expenditures, page 3-27*). ❏

Change Orders

Introduction

Once a project is under construction any changes or alterations to the DSA approved plans and specifications can be accomplished only through the "change order" process. The change order must be submitted to the OPSC for review in order to be eligible for funding.

Approval Criteria

In order for a change order to be approved, at least one of the following criteria must be met:

- The change is necessary for the health, welfare, and/or safety of the children.
 - The change is required by the DSA/Office of Regulation Services.
 - The change is necessary to complete the project as approved by the SAB.
-

Restrictions

Under the following circumstances, changes or alterations will not be approved:

- SAB cost standards are exceeded.
 - Performance is subsequent to the filing of the "notice of completion".
 - Performance is subsequent to acceptance by the governing body of the district.
 - Items in the change order were included as a deductive alternate in the construction contract and the alternate was accepted by the district.
-

Modernization

All executed change orders shall be submitted as they occur. In addition, the DSA approved change orders will be required at close-out audit.

Any non-building cost change orders must be submitted for review and approval prior to funding.

Any unexpended building cost allowance not supported by expenditure reports shall be returned to the State.

Change orders may not exceed 25% of the current replacement value. The district may fund any excess up to 50% of the current replacement value.

Components

It is suggested that change orders be prepared according to the American Institute of Architects (AIA) Change Order G701 document. Change orders must include the following components:

COMPONENT	DESCRIPTION/REQUIREMENT
Application Number	Identify project's application number as assigned by OPSC.
School District/ School Name	Identify school district and name of project.
Contractor	Identify the contractor.
Documentation	A detailed description of the change required.
Justification	Provide a reason why changes are necessary.
Requester	Party requesting change.
Change in Price	Identify dollar amount of each item (add/deduct).
Architect's Statement	Architect must certify all of the following: <ul style="list-style-type: none"> • The changes are necessary; and • The district has reviewed and accepted the change; and • The request is valid; and • Approval is recommended and that costs do not exceed State allowances.
Signatures	The following signatures are required: <ul style="list-style-type: none"> • Contractor • School District • Architect • DSA

Preliminary Approval Preliminary approvals from the OPSC are required on any item exceeding \$100,000.00.

Maximum Funding Funding of approved change orders for the following categories is limited to:

CATEGORY	MAXIMUM FUNDING
Utility Services, Off-Site Development, Fire Code Requirements, Service-Site Development or Demolition	Amount justified.
General Site Development	Balance of Allowance established prior to bid (see Section 3, <i>General Site Development</i> , page 3-18).
New Construction (Building)	Project's bid savings (difference between bid allowance and approved contract).
Multi-Story Construction	Allowance established prior to bid (see Section 3, <i>Additional Funding for Multi-Story Construction</i> , page 3-20).

Architect Fees Architect fees will be calculated for all approved additive contract change order items with the exception of items resulting from errors and omissions on the part of the architect. Architect fees for change orders will be calculated based on the fees negotiated by the district but not to exceed the maximum SAB Fee schedule. ☺

Close-out Audit of Expenditures

Introduction

A close-out audit is initiated when project expenditures have been reported by the district. A report is due within 90 days of the contract completion date and the final report is due within 90 days of the last expenditure. Failure to report could result in all project costs being declared ineligible.

Form SAB 184A

All project expenditures incurred must be reported in detail on the *Detailed Listing of Warrants issued by the District* (Form SAB 184A). The Description/Purpose column is used to explain the purpose of the expenditures in order to expedite the close-out process. This form is available through OPSC's Home Page on the Internet and can be sent to us via Internet e-mail.

Form SAB 184

The totals obtained from the Forms SAB 184A are summarized on *Summary of Expenditures and Construction Progress* (Form SAB 184). This form is also available through OPSC's Home Page on the Internet www.dgs.ca.gov/opsc/ and can be sent to us via Internet e-mail.

Required Documentation

The following documents, when applicable, are to be submitted with Forms SAB 184 and SAB 184A:

- *Notice to Proceed* from the architect to each contractor.
- Recorded copy of *Notice of Completion* for each contract.
- Final billing(s) from all contractors.
- Executed *Self-Certification of Interim Housing* (Form SAB 282) (*Modernization projects only*).
- Architect's final billing and any architect billings showing reimbursable costs
- Final Escrow Statement for each site parcel acquired (if site was purchased with state funds).
- Copies of invoices for any expenditures reported under the Construction Category on the SAB 184A which have not been authorized for a fund release on the *Standard Fund Release* (Form SAB 521). These invoices may be for deferred construction items such as utility costs or general site.
- Copies of DSA approved Change orders if they were not previously submitted to OPSC.

Exhibit "A"

When a close-out audit of project expenditures reported by the district has been completed by the OPSC, a Review of Project Financing and Expenditures (Exhibit A) report, will be issued. This report summarizes total eligible State-funded project costs.

The district is required to review the Exhibit A and respond to any inquiries made by the OPSC within 30 days.

Assistance

For assistance in preparing expenditure reports, contact the OPSC Fiscal Services Section, Lease-Purchase Audit Unit, Carolyn Harmon at (916) 322-0315 or via charmon@dgs.ca.gov.

Closing Action

When the close-out audit process is complete, the OPSC performs a closing action consisting of one of the following:

IF...	THEN...
...the final eligible State funded costs are within the eligible costs authorized by the SAB	...the closing action will be executed administratively.
...the final eligible costs are in excess of the eligible costs authorized by the SAB	...the closing action will require SAB approval.

Once the final closing action has been completed, no additional expenditures will be recognized.

**Release of Funds/
Refund**

Any funds due to the district as a result of the closing action will be disbursed.

If the closing action determines that a refund is due to the State, a request will be made to the district for the refund.

Field Audit

Some projects will be subject to a field audit prior to the issuance of an Exhibit A. Once a district receives a closing journal or a closing SAB agenda item, the project is considered closed by the OPSC and the district should refer to its own record retention policy for guidance in how long to retain the project records. ☺

Appendix 1 - 50/50 Program

Introduction A school district contributing at least 50 percent of the eligible project cost may file a 50/50 program application.

Determining Eligibility The district may use either the three /four year projection of ADA or the accelerated five /six year projection of ADA to determine the eligibility for a 50/50 application.

The SAB requires that the district self-certify the eligibility for these applications. All self-certified applications are subject to audit and the Lease-Purchase Law provisions on material inaccuracy.

District Contribution The district must contribute at least 50 percent of the entire project cost. The district's share may not be generated from funds administered by the SAB or the California School Finance Authority. For example, funds collected from the sale or lease of surplus property which are considered "available rent" under the law, may not be used as the district's source of funds.

Questions regarding funding source concerns should be directed to the Fiscal Services Section.

Calculation of District Contribution The district's share of a 50/50 project application include:

- 50 percent of all the eligible project costs including site acquisition;
- 100 percent of all project costs that exceed the SAB cost standards;
- 100 percent of all project costs incurred to construct unapproved building areas; including costs for planning, construction, testing and inspection.

Deposit of District Contribution At the time of each apportionment and prior to a subsequent fund release, the district will be required to deposit into the districts' lease-purchase fund an amount equal to the State's apportionment.

The *Application for Apportionment* (Form SAB 506) provides that the district certify that the district currently has access to sufficient funds to fund its share of the entire project cost. Current available funds include bonds authorized but not sold, but do not include developer fees that are not yet collected. ☹

Appendix 2 - Cost Sharing

Introduction

The cost sharing program allows the SAB to share in the costs of certain projects constructed pursuant to the Mello-Roos Community Facilities Act of 1982. Application for the cost sharing program is made after the construction of a project is completed.

The cost to be shared by the SAB is equal to the costs which would have been allowed if the project was approved prior to construction. The shared cost is reduced for depreciation and further limited to a maximum of 75 percent of all eligible project costs, or the principal amount of any outstanding callable bonds and other debts incurred to finance the project.

Establishing Cost Sharing Eligibility

Project eligibility is determined on the *Justification Document - New Construction and Modernization/Reconstruction* (Form SAB 600) utilizing the standard three and four year enrollment projection.

In order to file a cost sharing application, a project must meet all of the following criteria:

- constructed pursuant to the Mello-Roos Community Facilities Act of 1982;
- the Notice of Completion for the project was filed after February 10, 1986;
- meets all State School Building Lease-Purchase Program area entitlements and cost standards;
- constructed pursuant to a low bid in a bidding process acceptable to the SAB;
- met all DSA access handicap compliance, health and State Fire Marshal requirements in effect at the time of construction;
- approved by the CDE, School Facilities Planning Division including the Office of Special Education, if applicable;
- the Mello-Roos funding source must be callable within six months of issuance.

Cost Sharing Limitations

The maximum amount of the State's contribution is limited to one of the following, whichever is less:

- 75 percent of the eligible project costs; or
 - the principal amount of any outstanding callable bonds and other debts incurred to finance the project under the Mello-Roos Community Facilities Act of 1982, as of the date the SAB approves the project. Any claim for "other debts" must be specifically approved by the SAB; or
 - the eligible project costs as determined by the SAB, less five (5) percent depreciation each year (excluding all site acquisition costs). The depreciation period begins on the date the "notice of completion" is filed and ends on the date the application is approved by the SAB. The five percent depreciation rate is calculated on a daily basis; or
 - the amount realized by the district in exercising at least one of the actions as outlined in the "Financial Plan". ☺
-

Financial Plan

As a condition of a cost sharing project approval, the district must submit a financial plan. The plan addresses the cost sharing by the State in one or more of the following actions:

- a reduction in the amount of bonds authorized by the Mello-Roos Community Facilities District;
- a reduction in the amount of any special tax which is levied within the Mello-Roos Community Facilities District;
- a reduction in the amount of outstanding bonds or provision for the retirement of outstanding bonds;
- a reduction in the period of time during which a special tax is levied within the Mello-Roos Community Facilities District.

Lease-Purchase Agreement

Upon SAB approval of a cost sharing project, the district must enter into an Lease-Purchase Agreement.

Appendix 3 - Restricted Maintenance Account

Introduction

Districts are required to establish a restricted account within the district's general fund for the exclusive purpose of providing funding for annual ongoing maintenance and routine repair to ensure that State School Building Lease-Purchase projects are at all times kept in good repair and working order. Districts are required to establish a restricted maintenance account prior to the initial approval of a State School Building Lease-Purchase project. All costs for necessary repairs, renewals, and replacements must be borne by the school district.

Projects Subject to the Requirement

With the exception of the County Superintendent of Schools, a restricted maintenance account must be established for those district's whose average daily attendance exceeds:

ADA	DISTRICT TYPES
900	Elementary School
1200	Unified School
300	High School

Four types of on-going maintenance meet the criteria:

TYPE	DESCRIPTION
Breakdown	The emergency maintenance to equipment necessary to continue normal school functions.
Operating	Work necessary for a component to function and operate properly (i.e., lubrication, belt replacement, tune-up, replacement of lighting ballasts).
Preventative	Regularly scheduled maintenance based on life-cycle projection of various components.
Overhaul	Periodic major repair or replacement of operating parts and components of equipment.

Types of Maintenance Required Action The district must earmark each fiscal year, for the life of the lease agreement, an amount equal to two percent of the district's current year general fund and adult education budget, less amounts budgeted for capital outlay and debt service.

Note: Annual verification of this action must be made no later than September 30, beginning with the fiscal year following the fiscal year that the project is initially approved.

Establishing Restricted Maintenance Account When this restricted account is established it must be used exclusively for this purpose.

Limitation This account *is not* part of the deferred maintenance fund and money deposited in this fund *does not* represent the matching share requirement for any deferred maintenance apportionments. ☹

Appendix 4 - Transfer of Apportionment

Introduction

The SAB policy allows for the transfer of an apportionment from one Lease-Purchase project to another.

The School District shall initiate a request for the transfer of an apportionment on the *School District Appeal Request* (Form SAB 189).

Policy

The following is the policy for transferring an apportionment to another application.

1. A transfer is allowed for a Construction (Phase C) apportionment only.
2. The entire Construction (Phase C) apportionment may be transferred to any other project (i.e., either new construction or modernization) as long as the receiving project has or is obtaining a Construction (Phase C) approval at the same board and has the same or a higher funding priority. If the funds transferred are:
 - insufficient to fund the entire Construction (Phase C) of the receiving project, the district must fund the difference with other funds. The unfunded state share will be included on a "unfunded approval" list for future reimbursement.
 - more than is needed for the project, the excess apportionment will be returned to the State program at bid time.
3. The time limit on the apportionment for the original project will continue on the receiving project; any requests for an extension of the time limit for the receiving project must be made in accordance with the SAB Time Limit on Apportionments policy. Requests for transfer of an apportionment will be processed by the OPSC within 60 days of receipt. If the transfer of apportionment request is not addressed by the SAB within 60 days of receipt, the transfer of apportionment approval when ever addressed will include an additional time extension for any processing time in excess of 60 days.
4. After the transfer of apportionment is approved, the original project may not be reconsidered for a "new" Construction (Phase C) approval for at least the same number of days that the Construction (Phase C) apportionment was in place, less any time for processing in excess of 60 days.
5. The "new" Construction (Phase C) approval on the original project will not be granted until the district has provided evidence that the DSA approval of the plans and specifications for the project are still in effect.
6. Requests for transfer of an apportionment must be made within the original time limit of the original project.
7. The original project may not be downgraded for purposes of funding priority after the transfer of apportionment is made.
8. The original project must be rescinded if that project does not have full eligibility entitlement after the transfer of apportionment is approved by the SAB. ☹

Appendix 5 - Seismic Retrofit

Introduction

A district may qualify for funding to address seismic structural improvements (i.e. seismic retrofit) of a facility that qualifies for modernization funding to avert future earthquake damage.

Filing

All requests for seismic retrofit must be made to the OPSC on the *School District Appeal Request* (Form SAB 189) and include all normal application documents required as a modernization project. If seismic retrofitting of a facility is approved by the SAB, the project will include the seismic work and the modernization work as one project.

Processing

All requests for seismic retrofit shall receive processing priority by the OPSC.

Eligibility Criteria

An eligible facility must meet all of the following criteria:

1. All classrooms in the district or high school attendance area that do not require seismic structural improvements must be fully loaded before any unhoused ADA may be assigned to a project requesting seismic funds.
2. The teaching stations in the structure to be seismically retrofit must be fully loaded with unhoused ADA.
3. The district has submitted a report from a licensed structural engineer that identifies the minimum work necessary to address the seismic structural improvements necessary to avert future earthquake damage.
4. The report must include a statement that the facility is structurally adequate as it meets the structural requirements in existence when the facility was originally constructed. If the facility is structurally inadequate, the district may apply for abandonment and/or rehabilitation of the facility (see *Appendix 9, Abandonment and/or Rehabilitation, Page 9-1*).
5. The district must submit a letter from the DSA that concurs with the findings in the structural report addressed above.
6. The district has submitted, and the OPSC has agreed with, a detailed cost estimate prepared by a licensed structural engineer of the minimum repairs necessary to address the seismic structural improvements outlined in the structural report. The cost estimate shall only include the construction costs (i.e., do not include planning or non-building items such as utilities or general site development) of the structural work identified in the report.

SAB Consideration

If the district meets the eligibility criteria, the SAB will accept one of the following options presented by the district:

1. Seismic retrofitting of the facility if the cost noted in item 6 above is 50 percent or less of the current replacement cost of the facility.
2. Replacement of the facility if the cost noted in item 6 above is greater than 50 percent and the district will accept a replacement allowance limited to 75 percent of the replacement cost and the district is requesting to fund at least 50 percent of the eligible project cost.

The SAB will not accept an application for demolition of the facility since the facility is deemed to be structurally adequate.

Eligible Project Costs

In addition to the normal modernization costs and the seismic work identified in the structural report, the project may include the reasonable cost necessary to prepare the structural report and cost estimates used to justify the seismic project.

Funding

Districts may request funding either as a funding priority one or two for seismic retrofitting or replacement of the facility. All projects approved will be deemed "seismic" and funded with specific funds set aside for this purpose by the SAB. The application for seismic funds must include an accounting of all capital facilities funds as well as federal, state and local funds that may be available to assist to finance the project. The SAB shall review the available funding sources and may require that all or a portion of these funds be used to finance the project. ☺

Appendix 6 - Reimbursement

Introduction

The following policies apply to expenditures or commitments, regardless of funding source, made after April 24, 1994. Expenditures or commitments made prior to that date shall be subject to the reimbursement policy in effect at the time.

Exception

Projects constructed with Mello-Roos Community Facilities District funds that are eligible under the Cost Sharing Policy (Education Code Section 17018.5) are exempt from this policy.

Eligibility

Reimbursement will only be made for eligible costs as determined by the SAB. If there is a question about the eligibility of a particular item, contact the OPSC in writing prior to incurring the obligation.

All expenditures to be reimbursed must meet all SAB eligibility standards and policies.

Planning

Expenditures for planning made up to four years prior to the initial approval of the project are eligible for reimbursement.

Site Acquisition

The value of the site that would be considered for reimbursement will be the lesser of the appraised value at the time of acquisition or the actual cost of the site. Expenditures for site acquisition are eligible for reimbursement under the following conditions:

STATE FUNDING LEVEL	POLICY
Greater than 50%	Only if the project receives a Phase S unfunded approval prior to the expenditure being made.
50% or less	<p>Expenditures made up to four years prior to an initial project approval. If the land cost exceeds 50% of the project cost (including land cost), the amount in excess of 50% will not be eligible for reimbursement unless the district receives a Phase S approval prior to the acquisition of the site.</p> <p>In the case of donated land, the amount included will be the appraised value on the date of acquisition, and the acquisition must be within four years of the initial project approval.</p>

Construction

Expenditures or commitments for construction made:

- Prior to an initial project approval will not be reimbursed.
- After the project receives a Construction (Phase C) unfunded approval are eligible for reimbursement.

Site Development

Site preparation costs incurred up to eight months prior to the Construction (Phase C) approval are eligible for reimbursement. Expenditures incurred within eight months of the time the project could have received a Construction (Phase C) unfunded approval are also eligible.

State or Federal Funded Projects

School facilities built or modernized with any state funding other than SAB program or federal funding sources are not eligible for reimbursement.

Tax-exempt or Taxable Borrowing

Expenditures financed with tax-exempt or taxable borrowing will be reimbursed up to the approved costs of the outstanding principal or SAB approved cost, whichever is less (i.e., lesser of the financed amount principal or approved cost).

The State funds must be used in one of the following manners:

1. Retire the entire debt.
2. Partially retire the debt.
3. Used for capital facility purposes consistent with the provisions of the debt instrument. Until the State funds are used, they cannot be lent or pledged as security for any loan.

Mello-Roos Community Facilities District (CFD)

Reimbursement for expenditures made from Mello-Roos Bonds must either be returned to the Mello-Roos District taxpayers or used for other eligible school construction projects consistent with the provisions of the CFD formation documents.

Unapproved Expenditures

If a district takes action which generates a cost liability in excess of the Board's cost standards, the district shall be responsible for that excess and may be responsible for 15% of the amount within the Board standards. ☹

Appendix 7 - Hardship Status

Introduction

An abandonment and/or replacement project does not necessarily qualify the project for hardship status. On the other hand, a hardship application must be an abandonment and/or replacement project.

District Entitlements

District's that receive an approval by the SAB for a hardship status will be entitled to:

- Priority for processing by the OPSC and the DSA.
- Construction (Phase C) approval when the final plans and specifications have been accepted by DSA for review.
- First priority for portable classrooms under the State Relocatable Program and the SAB's reduced rental payment to \$2,000 per year per structure.
- First priority for funding as either a priority one or two project. The funding priority order would be 1) hardship priority one, 2) priority one, 3) hardship priority two and 4) priority two. If the SAB sets aside specific funds only for "hardship" projects in one or both of the funding priorities, the projects will be funded based on those priorities and in accordance with the earliest date the project receives hardship status for a specific phase.
- Qualify for replacement area utilizing either the standard eligibility process or the Minimum Essential Facilities building area, (*See Minimum Essential Facilities Guidelines, on next page*).

Qualification

The district has unhoued ADA as a result of any of the following:

1. The loss of facilities as a result of a natural disaster such as fire, flood or earthquake.
2. The continued use of the facility poses a life or safety hazard as evidenced by all of the following:
 - The facility qualifies for replacement and/or rehabilitation under the abandonment policy.
 - An appropriate state level health or safety agency, or a local public health or safety agency supported by an appropriate state level agency, has made a finding that a threat to life and safety exists at the facility in question (DSA concurrence letter of the structural report will meet this requirement).
3. A one-school school district as shown in the latest edition of the California Public School Directory and meets all of the following:
 - The district has entitlement for new construction area.
 - The district has a fully funded modernization project that will be completed in concert with the new construction area on the same site; thus, a savings will be realized by both the state and the district.
 - The final plans for both the modernization and new construction area have been approved by DSA.
4. A case-by-case determination by the SAB that a life and safety hazard exists. In these cases, the OPSC will make a recommendation to the SAB based on the merits of the documentation submitted by the district to support the life and safety issue.

Appropriate State or Local Agency Modernization Projects

An appropriate state or local health or safety agency must be one that has expertise in the area in question. For example, if there is a life and safety issue as a result of traffic on an interstate, the state level agency finding should come from the California Highway Patrol or the Department of Transportation, not the Department of Health.

Financial Requirement If a district has a modernization project on a site where the district has met the new construction hardship requirements, that modernization project shall also receive hardship status.

Districts requesting 50/50 funding will be placed on the priority one hardship list and districts requesting 100% state funding will be placed on a priority two hardship list.

Any district that qualifies for hardship status may receive priority one status and be funded at 100% if the district meets all of the following criteria:

- The district has submitted an accounting of all capital facility funding, including any federal, state or local funding that could be used to fund the project. The SAB will review the funding source and may require that some or all of any available funding be used to off-set the state's portion of the project.
- A letter from the CDE that concurs with the financial accounting statement presented by the district.
- The district may be required to demonstrate that there are no other facilities available to house displaced pupils.

Minimum Essential Facilities Guidelines

Once the district has qualified for Hardship status, the district may replace the facility by either utilizing the building area generated by the unhoused ADA or utilizing the SAB Minimum Essential Facilities building area. The district may utilize the total replacement square footage authorized for any purpose as long as the minimum needs of each category is met, as determined by the CDE. The following is the SAB Minimum Essential Facilities allowable building area:

Space	Elementary	Intermediate	High
Gymnasium	N/A	7 sq. ft. per ADA min. 5,828 sq. ft.	8 sq. ft. per ADA min. 7,280 sq. ft.
Shower Locker	N/A	4 sq. ft. per ADA min. 400 sq. ft.	5 sq. ft. per ADA min. 500 sq. ft.
P.E. Office	N/A	50 sq. ft. per coach	50 sq. ft. per coach
P.E Storage	N/A	0.5 sq. ft. per ADA min. 500 sq. ft.	0.5 sq. ft. per ADA min. 500 sq. ft.
Bleachers	N/A	0.9 sq. ft. per ADA max.. 1,820 sq. ft.	1.3 sq. ft. per ADA max. 2,600 sq. ft.
P.E. Mech./Elect.	N/A	0.3 sq. ft. per ADA min. 100 sq. ft.	0.3 sq. ft. per ADA min. 100 sq. ft.
Space	Elementary	Intermediate	High
Multi-Purpose Type I	N/A min. 900 sq. ft.	3 sq. ft. per ADA min. 900 sq. ft.	3 sq. ft. per ADA min. 900 sq. ft.
Multi-Purpose Mech./Elect.	0.3 sq. ft. per ADA min. 100 sq. ft.	0.3 sq. ft. per ADA min. 100 sq. ft.	0.3 sq. ft. per ADA min. 100 sq. ft.
Food Service or Kitchen	2 sq. ft. per ADA min. 400 sq. ft. max. 1,480 sq. ft.	2 sq. ft. per ADA min. 400 sq. ft. max. 1,880 sq. ft.	3 sq. ft. per ADA min. 600 sq. ft. max. 3,975 sq. ft.

Continued on next page

**Minimum Essential
Facilities Guidelines
(Cont.)**

Space	Elementary	Intermediate	High
Exercise Room	N/A	3 sq. ft. per ADA min. 3,600 sq. ft.	3 sq. ft. per ADA min. 3,600 sq. ft.
P.E. Storage	N/A	0.5 sq. ft. per ADA min. 500 sq. ft.	0.5 sq. ft. per ADA min. 500 sq. ft.
P.E. Mech./Elect.	N/A	0.3 sq. ft. per ADA min. 100 sq. ft.	0.3 sq. ft. per ADA min. 100 sq. ft.
Space	Elementary	Intermediate	High
Administration	3 sq. ft. per ADA min. 600 sq. ft.	3 sq. ft. per ADA min. 600 sq. ft.	4 sq. ft. per ADA min. 800 sq. ft.
HVAC/ Mech./Elect.	3 sq. ft. per ADA min. 600 sq. ft.	4 sq. ft. per ADA min. 800 sq. ft.	5 sq. ft. per ADA min. 1,000 sq. ft.
Toilet	3 sq. ft. per ADA min. 300 sq. ft.	4 sq. ft. per ADA min. 300 sq. ft.	5 sq. ft. per ADA min. 300 sq. ft.
Library	2 sq. ft. per ADA	3 sq. ft. per ADA	4 sq. ft. per ADA
Exterior Walk and Corridors	6 sq. ft. per ADA	6 sq. ft. per ADA	8 sq. ft. per ADA
Teaching Stations	31 sq. ft. per ADA	37 sq. ft. per ADA	39 sq. ft. per ADA

Note: The allowance for Gymnasium, Multi-Purpose Type I and Exercise Room area mutually exclusive. The district will only receive the area appropriate to the actual education program being conducted at the school as determined by the CDE. ☹

Appendix 8 - Construction Management

.....

This section is under construction. Please use the following links to refer to existing construction management policies.

- *Revised implementation of Education Code Section 17719.3 Construction Management - November 30, 1994*
- *Amendment to the Construction Management policy - September 25, 1996*

Appendix 9 - Abandonment and/or Rehabilitation

Introduction

At various SAB meetings, policies were developed to address the replacement or rehabilitation of structurally inadequate and adequate facilities. As a result of changes to law and amendments to these policies by the SAB, these policies became very complicated and difficult to administer. The OPSC and the SAB Implementation Committee have revised these policies and they were adopted by the SAB on June 25, 1997.

Filing

All requests for abandonment or rehabilitation must be made to the OPSC on the *School District Appeal Request* (Form SAB 189) and include all normal application documents required for either a new construction or modernization application. Any documentation necessary to support the request should also be included. All requests for either abandonment or rehabilitation of facilities shall receive processing priority by the OPSC.

If the abandonment or rehabilitation eligibility is based on new construction entitlement, the application will be treated as a new construction application. If the eligibility is based on modernization entitlement, the application will be treated as a modernization application.

Funding

Districts may request funding either as priority one or two for the replacement or rehabilitation of facilities. If the district is approved for abandonment of facilities lost as a result of a fire or flood, the State's share of the project will be reduced by all available insurance.

Interim Housing Facilities

The district may qualify for an interim housing allowance for any facility approved for replacement or rehabilitation in accordance with the SAB Interim Housing policy for modernization projects.

Disposition of Abandoned Facilities

It is the intent of the SAB that any facilities that are approved for abandonment cannot be used as a "school building" as defined in Education Code Section 17283. Portable classrooms abandoned under the "20 year rule" must be removed from service within 180 days after the filing the notice of completion for the project that replaced the classrooms. Any facilities approved for abandonment and replacement may be disposed in any of the following methods:

- Destroyed – The demolition cost may be included in the cost of the project.
- Sold – Sales proceeds will be used to reduce the eligible costs of the project.
- Reuse (portable facilities) – Restrict the use to storage on non-school site.
- Other – As specified by the SAB.

Determination of Reduced Allowance

When determining the reduced percentage allowance (i.e., 75 percent, etc.), the SAB will include in the eligible cost of the project the approved percentage (i.e., 75 percent, etc.) of what would have normally been allowed as eligible cost if a 100 percent allowance was provided. This percentage will apply to all cost categories including site acquisition.

Reduced Allowance Example

The district has abandoned 10,000 square feet and requests replacement under the 75 percent rule. If the district's replacement area is 9,600 square feet (or anything under 10,001 square feet) and the total eligible cost for this area is \$1.2 million, the eligible cost of the Lease-Purchase project to be split 50/50 is 75 percent of \$1.2 million or \$900,000. If the district's replacement area is 11,500 square feet (even though the district has entitlement for only 10,000 square feet) and the total eligible cost is \$1.6 million, the eligible cost of the Lease-Purchase project to be split 50/50 is $(10,000/11,500) \times 75 \text{ percent} \times \1.6 million or \$1,043,478.

Structurally Inadequate Facilities

Criteria	<p>The SAB will consider the abandonment and replacement, or rehabilitation of structurally inadequate facilities provided all of the following criteria have been met:</p> <ol style="list-style-type: none"> 1. The district has submitted a report from a licensed structural engineer that identifies the structural deficiencies of the building and the minimum work necessary to bring the building into structural compliance based on the structural requirements in effect when the building was originally constructed. The report must include a statement that the building is unsafe for occupancy when compared with the structural requirements in existence when the building was originally constructed unless the repairs noted in the structural report are implemented. 2. The district has submitted a letter from the DSA that concurs with the findings in the structural report addressed above. 3. The district has submitted and the OPSC has agreed with a detailed cost estimate prepared by the licensed structural engineer of the repairs necessary for continued use as a school building. The cost estimate shall only include the construction cost (note: do not include planning or non-building items such as utilities or general site development) of the structural repairs necessary to bring the building back to the structural requirements in existence when the building was originally constructed.
New Construction Replacement Qualification	<p>If the cost of repairs necessary for continued use as a school building exceeds 50% of the current replacement cost of the building, the SAB will consider the replacement of the building. Use current SAB building cost allowances to determine replacement cost. All replacement area is limited to new building area entitlement.</p> <p>The current replacement cost for portable structures is based upon \$35 per square foot and may be adjusted for the appropriate indices.</p>
New Construction Rehabilitation Qualification	<p>If the structure does not qualify for replacement, the SAB will consider the rehabilitation of the building based on the minimum work necessary to bring the building into structural compliance based on the structural requirements in effect when the building was originally constructed. The rehabilitation cost of the project may be increased for the cost to modernize the building if it qualifies for modernization.</p>
Multiple Building Rehabilitation	<p>If the structurally inadequate area contains more than one building, the area that may be included in the project for rehabilitation shall be limited, as much as possible by:</p> <ul style="list-style-type: none"> • The area of the buildings being proposed for rehabilitation; • The building configuration on the site; • The eligible area entitlement based on the capacity of the school where the inadequate facilities are located; • Any necessary requirement by the CDE.

**Modernization
Replacement
Qualification**

When the district does not have new construction building area entitlement and the cost of repairs necessary for continued use as a school building exceeds 50 percent of the current replacement cost of the building, it may still qualify for replacement. Use current SAB building cost allowances to determine replacement cost. All of the following conditions must be met:

- The building being abandoned qualifies for modernization.
- The district agrees that the eligible replacement area is limited to the eligible modernization area entitlement.
- The ADA capacity of the constructed facility must be at least equal to the ADA capacity of the original facility.
- The district agrees to fund at least 50 percent of the total eligible project cost.
- The district accepts an eligible replacement cost allowance limited to 75 percent of the permanent replacement cost (*see Determination of Reduced Allowance, page 9-1*).

**Modernization
Rehabilitation
Qualification**

When the district does not have new construction building area entitlement and the cost of repairs necessary for continued use as a school building does not exceed 50 percent of the current replacement cost of the building, it may still qualify for rehabilitation. Use current SAB building cost allowances to determine replacement cost. All of the conditions noted in the Modernization Replacement Qualifications must be met.

**Rehabilitation
Alternative**

In lieu of rehabilitation of the facility under either the new construction or modernization process, a district may request, on a case-by-case basis, a reduced cost allowance, based on the rehabilitation costs and replace the area with new construction.

Structural Report Cost

If the structural report required to justify replacement or rehabilitation results in an approved project, the reasonable cost to prepare the structural report and cost estimate may be included as an eligible project cost as "other planning cost".

Demolition

If the structural reports support abandonment and DSA concurs with the report, but the district has no entitlement for either replacement or rehabilitation, the district is not eligible for replacement or rehabilitation. However, the district may file a separate application for only the demolition costs of the inadequate facility. The project may include necessary planning and asbestos removal costs and funded as either a priority one or two project.

If the district has entitlement for either replacement or rehabilitation, the demolition costs may be included as an eligible project cost. ☺

Structurally Adequate Facilities

Introduction

Under certain conditions, the SAB will consider the abandonment of structurally adequate facilities pursuant to the provisions of Education Code Section 17042(c). This section permits the SAB to exclude certain area from the "area of adequate school construction" if it is determined that the exclusion is for the benefit of the pupils affected. Each request for abandonment will be addressed on a case-by-case basis.

Criteria

General criteria that may support the district's request for abandonment are as follows:

1. The safety of the pupils is at risk as a result of the location of the building or school relative to a major freeway, airport, electrical facility, dam, pipeline or industrial facility.
2. The health of the pupils is at risk as a result of air quality and location of the school to industrial facilities.
3. The facility was lost or destroyed as a result of a natural disaster such as fire, flood or earthquake. District may only apply for the lost facility that is not recoverable by insurance. It is generally understood that all districts are required to have adequate insurance and, therefore, replacement of facilities lost would be unusual.

A cost benefit analysis of the total cost to remain in the facility and mitigate the problems outlined in items 1, 2 and 3 above versus the cost to acquire new replacement facilities. The analysis may include the proceeds from the sale of the abandoned school or building, or any other costs savings/expenses that may be germane to the specific request. The cost comparisons are only for purposes of this analysis and in no way obligate the SAB to fund any of the mitigation cost claimed by the district.

The documentation to support the above criteria may be in any form and will be weighed independently based on the specific circumstances of the request. Examples of acceptable documentation could include reports from other governmental agencies, private companies or qualified individuals.

SAB Consideration

The SAB will consider abandonment if the mitigation costs exceed 50 percent of new replacement area. Replacement area will be limited to new area entitlement after the facility in question has been deemed non-chargeable.

As an alternative, the district may meet the new area entitlement if the building/school qualifies for modernization and the district meets all of the following conditions:

- The district is requesting 50/50 funding for the project.
- The district agrees that the eligible replacement area is limited to the eligible modernization area entitlement.
- The ADA capacity of the constructed facility must be at least equal to the ADA capacity of the original facility.
- The district accepts an eligible replacement cost allowance limited to 75 percent of the permanent replacement cost (*see Determination of Reduced Allowance, page 9-1*).

The SAB will consider funding all or a portion of the mitigation measures on a case-by-case basis if the mitigation costs does not exceed 50 percent of new replacement area. ☺

Portable Facilities

Non-Classroom Facilities	Portable non-classrooms facilities must meet either the structurally inadequate or structurally adequate guidelines for abandonment and/or replacement. For purposes of computing the current replacement value of the portable facility, the building cost allowance is \$35 per square foot, adjusted for the appropriate indices. The area entitlement generated from the abandonment of these facilities shall be replaced at the \$35 per square foot building cost allowance and may not be used to construct permanent building area.
20 Year Rule for Classroom Facilities	If the district has owned and/or leased a portable classroom for 20 years or more and the structure has not been previously modernized or used to generate modernization eligibility, the district may request to have the portable classroom abandoned. The portable classroom must be replaced as part of a lease-purchase application.
Alternative for Classroom Facilities	If the district is unable to abandon the portable classroom facility under the "20 year rule", the facility must meet either the structurally inadequate or structurally adequate guidelines for abandonment and/or replacement. For purposes of computing the current replacement value of the portable facility, the base building cost allowance is \$35 per square foot, adjusted for the appropriate indices.
Replacement as Relocatable Classroom	The abandoned portable classroom must be replaced with a portable classroom. The building replacement allowance for the replacement shall be limited to \$35 per square foot, adjusted for the appropriate indices. Area generated by the abandoned portable must first be used to replace the portable classroom. The remaining area may be included in the lease-purchase application at the full allowance for permanent facilities.
Replacement as Permanent Classroom	The district may request to replace an abandoned portable classroom with a permanent classroom. The district must agree to finance the added building cost allowance of the replacement classroom that exceeds the \$35 per square foot, adjusted for the appropriate indices, with either general obligation bonds or Mello-Roos Community Facilities Act bonds. Area generated by the abandoned portable must first be used to replace the portable classroom. The remaining area may be included in the lease-purchase application at the full allowance for permanent facilities.
Replacing Portable Classroom in Multiple Applications	<p>Each project approved for a district, where the district's eligibility included the abandonment of portable classrooms, must include a portion of the portable replacement area. This area must be in addition to the 30% relocatable requirement. To determine the minimum number of replacement portable classrooms to be included in the project, determine the ratio of all portables excluded to the number of new classrooms needed in the district. Apply this same ratio to the number of classrooms in the project. The result is the number of replacement portables to be included in each project.</p> <p>The district may elect to replace more portable classrooms within the first project to be constructed and, thereby, reduce the number of replacement portable classrooms in a lower priority project. ☺</p>

Appendix 10- Environmental Impact Documents (EID)

Introduction

Prior to the release of the planning and site acquisition funds, a set of environmental impact documents (EID) must be prepared. The district has sole responsibility for meeting all California Environmental Quality Act (CEQA) requirements as administered by the State of California, Office of Planning and Research (OPR)/State Clearinghouse. The OPSC verifies that the CEQA requirements have been addressed.

Every application requires either a:

- categorical exemption,
- negative declaration, or
- environmental impact report (EIR).

California Environmental Quality Act (CEQA) Publications

Title 14 of the California Administrative Code (CAC), incorporates the *CEQA: Statutes and Guidelines (Stock No. 7540-931-1022-0)* of the Office of Planning and Research/State Clearinghouse. This publication may be obtained at a nominal cost from:

Department of General Services
Publications Section
P.O. Box 1015
North Highlands, CA 95660
(916)574-2200

Additional information maybe found on the State Clearinghouse Web page at <http://ceres.ca.gov/planning/sch/index.html>

Categorical Exemption

Introduction

The *CEQA: Statutes and Guidelines* of the OPR provide certain categorical exemptions from the preparation of an EIR:

- replacement of existing facilities;
- minor additions to existing facilities;
- addition to existing facilities.

Replacement (Class 2)

The Class 2 exemption applies to the replacement of an existing structure where the new structure will be located on the same site as the structure replaced. The replacement structure will have the same purpose and capacity, including but not limited to:

- replacement of existing schools to provide earthquake resistant structures which do not increase the capacity by more than 50 percent; and/or
- replacement of existing utility systems and/or facilities involving negligible or no expansion of capacity.

Minor Additions to Schools (Class 14)

The Class 14 exemption applies to additions to existing schools when the addition does not increase the original student capacity by more than 25 percent or ten classrooms, whichever is less. The addition of relocatable classrooms is included in this exemption.

Existing Facilities (Class 1)

The Class 1 exemption applies to minor alterations to existing public structures involving negligible expansion of use beyond that which previously existed. The addition may not result in an increase of more than:

- 50 percent of the floor area of the structure before the addition, or 2,500 square feet, whichever is less; or
- 10,000 square feet if the following conditions exist:
 - 1) the project is located in an area where all public services and facilities are available to allow for maximum development permissible in the general plan; and
 - 2) the area in which the project is located is not environmentally sensitive.

Notice of Exemption

When claiming a categorical exemption, the Notice of Exemption must cite the appropriate subsection of the CEQA: *Statutes and Guidelines*. The "notice" must include evidence of filing with the district's county clerk. ☞

Negative Declaration

Introduction

A negative declaration is a document describing the project and contains a finding that the project has no significant environmental effect. The steps for preparing a negative declaration are similar to the initial procedures used for preparing an environmental impact report (EIR).

District CEQA Officer's Responsibilities

The district's CEQA officer is responsible for preparing the following documents:

ITEM	DOCUMENT
A	Initial environmental study to include responses.
B	District certification of persons/organizations consulted for comment prior to the district's adoption of the negative declaration.
C	Evidence that the site has been investigated for previous or current use as a hazardous or solid waste disposal site, hazardous substance release site or site which contains pipelines which carry hazardous substances, materials, or hazardous wastes.
D	<ul style="list-style-type: none"> • District certification of availability of the negative declaration for public comment; and • District's statement of responses to public comments.
E	Certification of negative declaration submittal to the OPR/State Clearinghouse (including date). This can be evidenced by either the district's letter of certification or OPR/State Clearinghouse environmental document transmittal form complete with clearinghouse number.
F	Closing letter from the OPR/State Clearinghouse acknowledging compliance with OPR review requirements.
G	Notice of Determination stamped by the county clerk.

Environmental Impact Report

Introduction

The purpose of an environmental impact report is to identify the significant effects of a project on the environment, and alternatives to the project. In addition, the manner in which those significant effects can be mitigated or avoided is addressed. This report provides public agencies and the general public with detailed information about the effect a proposed project is likely to have on the environment.

District CEQA Officer's Responsibilities

The district's CEQA officer is responsible for preparing the following documents:

ITEM	DOCUMENT
A	Initial Environmental Study to include responses.
B	District certification of persons/organizations consulted prior to the district filing the notice of completion.
C	Evidence that the site has been investigated for previous or current use as a hazardous or solid waste disposal site, hazardous substance release site or site which contains pipelines which carry hazardous substances, materials, or hazardous wastes.
D	Evidence that the State Clearinghouse has received a notice of completion of the draft EIR.
E	<ul style="list-style-type: none"> • District certification of availability of EIR for public comment; and • Record of public comments; and • District's statement of responses to public comment. • If no public comments, district statement that no comments were received.
F	Closing letter from the State Clearinghouse.
G	When necessary, district's statement of overriding consideration warranting the project's approval.
H	District certification of completion of final EIR
I	Notice of Determination certified by the county clerk and State Clearinghouse.

**Multiple Projects
Addressed in a Single**

Provided a series of projects are essentially similar in their environmental impact, a single environmental impact report may be sufficient. One report may suffice in the following instances:

- the development of a school is ultimately planned; or
- the phased construction of a school is planned; or
- several schools are planned at various locations.

Projects within the scope of the original environmental impact report which are filed within one year of the original EIR, as accepted by the county clerk, may be exempt from the preparation of additional environmental impact documents.

**Time Lapse of
Approval of Original
EIR**

When more than one year has elapsed since the approval of the EIR as accepted by the county clerk, significant changes may have occurred either in the CEQA guidelines or the environmental setting. Therefore, the district's CEQA officer must review the proposed project for the following conditions and take the appropriate action:

- Environmental conditions have not changed since the preparation of the original EIR.
 - Environmental conditions have substantially changed since the preparation of the original EIR or a significant environmental impact has arisen which was not considered in the original EIR. ☹
-

Appendix 11 Geographic Adjustment Factors

Apply the following geographic adjustment factors to the base schedule of unit costs.

COUNTY	FACTOR	DESCRIPTION
Alameda	1.05	The entire county.
Alpine	1.10	The entire county.
Amador, Western Part	1.05	That portion of Amador County lying west of a line drawn five (5) miles east of, and paralleling State Highway 49.
Amador, Eastern Part	1.10	All of Amador County except the Western Part described above.
Butte, Western Part	1.05	That portion of Butte County lying west of a line drawn ten (10) miles east of, and paralleling State Highway 99.
Butte, Eastern Part	1.10	All of Butte County except the Western Part described above.
Calaveras, Western Part	1.05	That Portion of Calaveras County lying west of State Highway 49.
Calaveras, Eastern Part	1.10	All of Calaveras County except the Western Part described above.
Colusa	1.05	The entire county.
Contra Costa	1.05	The entire county.
Del Norte	1.10	The entire county.
El Dorado, Western Part	1.05	Those portions of El Dorado County lying within any of the following areas: <ul style="list-style-type: none"> • west of a line drawn six (6) miles east of and paralleling State Highway 49. • within five (5) miles of either side of U.S. Highway 50 from the western county line to a point on the eastern limit of the community of Pollock Pines. • west of a line drawn three (3) miles easterly from and paralleling a certain county road described as the Pleasant Valley Road which connects the community of Aukum with Diamond Springs and with the city of Plymouth.
El Dorado, Eastern Part	1.10	All of El Dorado County except the Western Part described above.

Continued on the next page

COUNTY	FACTOR	DESCRIPTION
Fresno, Western Part and Eastern Foothill Part	1.05	That portion of Fresno County lying: <ul style="list-style-type: none"> • west of a line drawn ten (10) miles west of, and parallel to State Highway 99; and • between a line drawn ten (10) miles west of, and paralleling the west boundary of the Sierra National Forest and a line drawn ten (10) miles east of, and paralleling the west boundary of the Sierra National Forest.
Fresno, Eastern Part	1.10	All of Fresno County lying east of a line drawn ten (10) miles east of, and paralleling the west boundary of the Sierra National Forest.
Fresno, Central Part	1.00	All of Fresno County except the portions described above.
Glenn, Eastern Part	1.05	That portion of Glenn County lying east of a line drawn ten (10) miles west of, and paralleling Interstate Highway 5.
Glenn, Western Part	1.10	All of Glenn County except the Eastern part described above.
Humboldt, Eureka Area	1.05	That portion of Humboldt County situated within ten (10) miles of the Redwood Highway (U.S. 101) from the northern boundary of the community of Trinidad to the southern boundary of the community of Rio Dell.
Humboldt, Redwood Highway	1.10	That portion of Humboldt County situated within five (5) miles of the Redwood Highway (U.S. 101) except for that portion of the Redwood Highway which is within the Eureka area described above.
Humboldt, State Highway 299 and Vicinity	1.10	That portion of Humboldt County situated within five (5) miles of State Highway 299 and State Route 96, except for those portions which are within the Eureka area described above.
Humboldt, Southeastern Part	1.20	That portion of Humboldt county adjacent to, or east of, the road between Harris to Blocksburg to a point ten (10) miles north of Blocksburg.
Humboldt, Residual Area	1.15	All areas of Humboldt County not classified in other cost groups.
Imperial	1.10	The entire county.
Inyo, Southeastern Part	1.25	That portion of Inyo County situated east of the western boundary of the Death Valley National Monument from the northern boundary of said national monument to the southern boundary of the county.
Inyo, except Southeastern Part	1.10	All of Inyo County except the southeastern part described above.
Kern, Eastern Part	1.10	That portion of Kern County lying east of a north-south line drawn through the eastern boundary of the town of Tehachapi.

Continued on the next page

COUNTY	FACTOR	DESCRIPTION
Kern, Central Valley Part	1.00	That portion of Kern County lying west of a north-south line drawn through the east boundary of Glennville, north of an east-west line drawn five (5) miles north of Wheeler Ridge, and east of a line drawn five (5) miles west of, and parallel to, Interstate Highway 5.
Kern, Western, Southern, and Central Foothill Part	1.05	All of Kern County except the eastern and central valley parts described above.
Kings, Western Part	1.05	That portion of Kings county lying west of a line drawn five (5) miles west of and parallel to Interstate Highway 5.
Kings, Eastern Part	1.00	All of Kings County except the western part described above.
Lake	1.10	The entire county.
Lassen, Southern Part	1.15	That portion of Lassen County lying south of an east-west line drawn through a point ten (10) miles north of Susanville.
Lassen, Northern Part	1.20	All of Lassen County except the southern part described above.
Los Angeles, Northeastern Part	1.05	That portion of Los Angeles County lying north and east of the following described line: <ul style="list-style-type: none"> • An east-west line drawn three (3) miles south of Scheideck from the western county line east to its intersection with a north-south line drawn four (4) miles west of Acton; thence south along said north-south line to its intersection with an east-west line drawn five (5) miles south of Acton; thence along said east-west line to its intersection with the eastern county line.
Los Angeles, Southwestern Part	1.00	Includes all of Los Angeles County except the northeastern part described above.
Madera, Western Part	1.00	That portion of Madera County lying west of a line drawn ten (10) miles west of, and paralleling the western boundary of the Sierra National Forest.
Madera, Central Part	1.10	That portion of Madera County lying between a line drawn ten (10) miles west of, and paralleling the western boundary of the Sierra National Forest and a line drawn ten (10) miles east of and paralleling the western boundary of the Sierra National Forest.
Madera, Eastern Part	1.10	All of Madera County except the western part and the central part described above.
Marin	1.05	The entire county.

CVBE

Continued on the next page

COUNTY	FACTOR	DESCRIPTION
Mariposa, Western Part	1.05	That portion of Mariposa County lying west of: <ul style="list-style-type: none"> • a line drawn five (5) miles east of, and paralleling State Highway 49 from the northern county line to Mormon's Bar; and • a line drawn ten (10) miles west of, and paralleling the western boundary of the Sierra National Forest from a point due east of Mormon's Bar to the southern county line.
Mariposa, Eastern Part	1.10	All of Mariposa County except the western part described above.
Mendocino, Southern Redwood Highway Area	1.05	That portion of Medocino County situated within ten (10) airline miles of the Redwood Highway (U.S 101) from a point ten (10) miles north of the Willits City Hall to the south boundary of the county.
Mendocino, Northern Redwood Highway Area	1.10	That portion of Mendocino County situated within five (5) airline miles of the Redwood Highway (U.S 101) from a point ten (10) miles north of the Willits City Hall to the northern boundary of the county.
Mendocino, Fort Bragg Area	1.15	That portions of Mendocino County lying west of the Southern Redwood Highway Area, and south of the Ten Mile River.
Mendocino, Residual Area	1.15	Those portions of Mendocino County not otherwise classified. (Comprises the northeastern part of the county and the coastal strip in the northwestern part).
Merced	1.00	The entire county.
Modoc	1.20	The entire county.
Mono	1.25	The entire county.
Monterey, Northern Part	1.05	That portion of Monterey County lying north of an east-west line beginning on the coast two (2) miles south of the City of Carmel and extending due east to the eastern boundary of the county.
Monterey, Southern Part	1.10	All of Monterey County except the northern part described above.
Napa	1.05	The entire county.
Nevada	1.10	The entire county.
Orange	1.00	The entire county.

Continued on the next page

COUNTY	FACTOR	DESCRIPTION
Placer, Southwestern Part	1.00	That portion of Placer County which is either: <ul style="list-style-type: none"> • within five (5) miles of either side of State Highway 65 from the southern boundary of the county and the northern limit of the community of Lincoln; or • five (5) miles of either side of Interstate Highway 80 from the southern boundary of the county and the northern limit of the community of Penryn.
Placer, Central Part	1.05	That portion of Placer County which is either: <ul style="list-style-type: none"> • west of a line drawn five (5) miles east of, and paralleling state Highway 49; or • within five (5) miles of either side of Interstate Highway 80 between the northern limit of the community of Penryn and the northern limit of the community of Colfax; • except the southwestern part described above.
Placer, Northeastern Part	1.10	All of Placer County except the southwestern part and central part described above.
Plumas	1.10	The entire county.
Riverside, Northwestern Part	1.00	City of Riverside and vicinity. Includes that portion of Riverside County lying north of an east-west line drawn ten (10) miles south of the city of Riverside from the western county line to the intersection of a southerly extension of a north-south line drawn through the eastern city limits of Redlands.
Riverside, Eastern Part	1.10	That portion of Riverside County lying east of a north-south line drawn through the intersection of Interstate 10 and Fields Road extending from the southern county line of Riverside County, north to the southern county line of San Bernardino County.
Riverside, except Northwestern and Eastern Parts	1.05	All of Riverside County except the northwestern and eastern parts as described above.
Sacramento	1.00	The entire county.
San Benito, Northern Parts	1.05	That portion of San Benito County lying north of an east-west line drawn across the county from a point two (2) miles south of the community of Paicines.
San Benito, Southern Parts	1.10	All of San Benito County except the northern part described above.

Continued on the next page

COUNTY	FACTOR	DESCRIPTION
San Bernardino, Northeastern Part	1.10	That portion of San Bernardino County lying north and east of an east-west line drawn two (2) miles north of Oro Grande, extending from the western boundary of the county to its intersection with the northerly extension of, and thence along a line drawn through the following points: A point five (5) miles east of Victorville, the eastern edge of the communities of Running Springs and Camp Angelus then due south to the San Bernardino County line.
San Bernardino, Southwestern Part	1.00	San Bernardino metropolitan area. That portion of San Bernardino County lying south of the San Bernardino National Forest and west of a north-south line drawn through the eastern city limits of Redlands.
San Bernardino, except above	1.05	All of San Bernardino County except the northeastern part and the southwestern part described above.
San Diego, Western Part	1.00	That portion of San Diego County lying generally west of a line beginning at a point on the north boundary line of San Diego County where the range line between ranges 1E and 2E intersect said boundary line, southerly along aforesaid range line 24 miles, more or less, to northwest corner of Township 13S, thence easterly six (6) miles to the northeast corner of same Township, thence southerly along the range line between ranges 2F and 3E to the intersection of this line with the United States-Mexico boundary line.
San Diego, Northeastern Part	1.15	That portion of San Diego County lying east of a north-south line drawn ten (10) miles east of the community of Julian, said line extending from the northern boundary of the county to its intersection with an east-west line extending from the eastern boundary of the county to its intersection with the aforesaid north-south line, said east-west line being at its closest point, three (3) miles due north of the community of Mount Laguna.
San Diego, Central Part	1.05	All of San Diego County except the western part and the northeastern part described above.
San Francisco	1.05	The entire county.
San Joaquin	1.00	The entire county.
San Luis Obispo	1.05	The entire county.
San Mateo, Southwestern Part	1.10	That portion of San Mateo County lying more than two (2) miles westerly from the nearest point on Skyline Boulevard and south of an east-west line drawn through a point two (2) miles north of the community of Montara.
San Mateo, Metropolitan Area	1.05	All of San Mateo County except the southwestern part described above.

Continued on the next page

COUNTY	FACTOR	DESCRIPTION
Santa Barbara, Southern Part	1.00	That portion of Santa Barbara County lying south of the southern boundary of the San Rafael Primitive Area from Gaviota Pass to the eastern boundary of Santa Barbara County.
Santa Barbara, Northern Part	1.05	All of Santa Barbara County except the southern part described above.
Santa Clara	1.05	The entire county.
Santa Cruz, Northwestern Part	1.10	That portion of Santa Cruz County lying northerly and westerly from a line drawn from a point one (1) mile north of Swanton on the coast through a point one (1) mile north of Brookdale and situated more than two (2) miles from the nearest point on the eastern boundary of the county.
Santa Cruz, Southeastern Part	1.05	All of Santa Cruz County except the northwestern part described above.
Shasta, Valley Area	1.05	That portion of Shasta County lying south of Shasta Lake and situated within ten (10) miles of Interstate Highway 5.
Shasta, except Valley Area	1.10	All of Shasta County except the Valley Area described above.
Sierra	1.10	The entire county.
Siskiyou, Somes Bar Area	1.25	Those portions of the drainage areas of the Salmon and Klamath Rivers located within the boundaries of the Junction School District.
Siskiyou, Salmon River Area	1.30	All of the drainage area of the Salmon River (including the North and South Forks) except that portion situated within the Somes Bar Area described above.
Siskiyou, Western Part	1.20	That portion of Siskiyou County lying westerly from a line drawn ten (10) miles west of and parallel to Interstate Highway 5, except the Somes Bar and Salmon River areas described above.
Siskiyou, Central Part	1.20	That portion of Siskiyou County situated within ten (10) miles of U.S. Highway 97 from Grass Lake to the Oregon State Line.
Siskiyou, Yreka and Residual Portions	1.10	All of Siskiyou County except the Somes Bar, Salmon River, and western part described above.
Solano	1.05	The entire county.
Sonoma, Northwestern Part	1.10	That portion of Sonoma County enclosed by a line following the northern boundary of the county from the Pacific Ocean to a point fifteen (15) miles inland, thence southerly to a point two (2) miles west of the community of Los Lomas, thence southerly to a point on the coast two (2) miles south of the community of Fort Ross, thence northerly along the coast line to the northern boundary of the county.
Sonoma, except Northwestern Part	1.05	All of Sonoma County except the northwestern part described above.

Continued on the next page

COUNTY	FACTOR	DESCRIPTION
Stanislaus	1.00	The entire county.
Sutter	1.05	The entire county.
Tehama, Valley Area	1.05	Those portions of Tehama County situated within ten (10) miles west of Interstate Highway 5 from the north county line to the southern county line; within ten (10) miles east of Interstate Highway 5 from the north county line southward to a point east of the city of Red Bluff, thence within ten (10) miles east of and paralleling State Highway 99 southward to the county line.
Tehama, except Valley Area	1.10	All of Tehama County except the Valley Area described above.
Trinity, State Highway 299	1.15	That portion of Trinity County situated within five (5) miles of State Highway 299.
Trinity, Residual Area	1.20	All of Trinity County except the State Highway 299 area described above.
Tulare, Central Part	1.05	That portion of Tulare County lying east of a line drawn ten (10) miles west of, and paralleling the boundaries of the Kings Canyon and Sequoia National Parks and Sequoia National Forest and lying west of a north-south line drawn through the western limits of the community of Silver City.
Tulare, Eastern Part	1.10	That portion of Tulare County lying east of a north-south line drawn through the western limits of the community of Silver City.
Tulare, Western Part	1.00	All of Tulare County except the central and eastern parts described above.
Tuolumne, Western Part	1.05	That portion of Tuolumne County lying west of State Highway 49.
Tuolumne, Eastern Part	1.10	All of Tuolumne County except the western part described above.
Ventura, Northern Part	1.05	That portion of Ventura County lying north of an east-west line drawn three (3) miles south of Schiedeck from the western county line to the eastern county line.
Ventura, Southern Part	1.00	All of Ventura County except the northern part described above.
Yolo, Eastern Part	1.00	That portion of Yolo County lying south of Cache Creek and east of a north-south line drawn through the western city limits of Woodland.
Yolo, Western Part	1.05	All of Yolo County except the eastern part described above.

Continued on the next page

COUNTY	FACTOR	DESCRIPTION
Yuba, Southwestern Part	1.05	That portion of Yuba County lying west of a line drawn ten (10) miles east of, and paralleling State Highway 65 and that portion of Yuba County lying south of a line drawn three (3) miles north of, and paralleling State Highway 20.
Yuba, Northeastern Part	1.10	All of Yuba County except the southwestern part described above.

Appendix 12

Disabled Veteran Business Enterprise (DVBE) Contract Participation Goal

Introduction	State Allocation Board (SAB) policy requires a participation goal of not less than three percent disabled veteran business enterprise(s).
Lease-Purchase Projects Subject to DVBE Contract Participation Goal	<p>All State School Building Lease-Purchase projects funded <i>in whole or in part</i> must comply with the disabled veteran business enterprise (DVBE) contract participation goal. Subject projects also include:</p> <ul style="list-style-type: none"> • 50/50 program, • cost sharing, • district-funded projects where State reimbursement will be pursued.
Contracts Subject to DVBE Contract Participation Goal	<p>All contracts in a State School Building Lease-Purchase project are subject to DVBE contract participation goals. Subject contracts contained in an application include, but are not limited to:</p> <ul style="list-style-type: none"> • surveys • appraisals • tests • architectural services • consultant services • construction • inspection • furniture and equipment
Contracts Not Subject to DVBE Contract Participation Goal	Contracts that have an estimated cost of \$10,000.00 or less need <i>not</i> comply with DVBE contract participation goal provision.
Compliance with DVBE Contract Participation Goal	<p>A bidder is deemed responsive if at least one of the following DVBE contract participation goals is met:</p> <ul style="list-style-type: none"> • The bidder is a disabled veteran business enterprise and committed to performing not less than three percent of the dollar amount of the contract with his or her own forces. • The bidder is committed to using disabled veteran enterprise(s) for not less than three percent of the dollar amount of the contract. • The bidder demonstrates an effort to identify, solicit and potentially utilize DVBE subcontractors or suppliers.
District Responsibilities	<p>Prior to the award of any contract subject to the DVBE contract participation goal the district must include the following in all bids:</p> <ul style="list-style-type: none"> • Prime Bidder Certification of Disabled Veteran Business Enterprise Participation • Prime Bidder Good Faith Effort Work Sheet
DVBE Contract Review	<p>The DVBE documents must be reviewed by the school district for compliance with DVBE contract participation goal.</p> <p>Districts are required to determine compliance with the DVBE contract participation goal. The district is required to certify the contract amount and DVBE participation on <i>School District Summary of Bids/Proposals (Form SAB 515)</i>. ☒</p>

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, November 30, 1994

REVISED IMPLEMENTATION OF EDUCATION CODE
SECTION 17719.3 Construction Management

PURPOSE OF REPORT

To present a revised policy to implement Education Code Section 17719.3, (Construction Management).

DESCRIPTION

At the June 28, 1989 State Allocation Board (SAB) meeting, a policy regarding the use of construction management services was approved and subsequently implemented by the Office of Local Assistance. This policy was ambiguous, difficult to administer and did not address certain provisions of the Lease Purchase Law. As a result, a revised policy has been developed which addresses these concerns.

The State Allocation Board Implementation Committee and the Office of Local Assistance (OLA) staff support this revision to proposed policy.

BOARD POLICY

The original June 28, 1989 SAB policy did not specifically address the issues contained in the attached policy modification.

RECOMMENDATION

- 1.) Adopt the attached revised policy for all types of contracts for construction management services not yet approved by the Office of Local Assistance.
- 2.) Provide that the Qualifications Section of this policy shall apply to construction management services provided by internal district staff. A policy on the use of internal district staff for construction management services is also being presented to the Board as a separate item in this agenda.

BOARD ACTION

In considering this Item, the Board approved staff's recommendations, with the understanding that it be an "interim policy". This policy will be accepted as the final Construction Management (External) Policy in March 1995, if no new information or alteration is required at that time.

Implementation of Education Code
Section 17719.3 Construction Management

GENERAL

To revise the SAB policy regarding Education Code Section 17719.3 which authorizes school districts to contract, as specified, for Construction Management Services to assist in the development and/or implementation of a project under the Leroy F. Greene State School Building Lease-Purchase Law of 1976

CONSTRUCTION MANAGEMENT

This policy recognizes the two levels of services available to assist a school district in the development and/or implementation of the construction of new school facilities or modernization projects constructed under the authority of the Leroy F. Greene State School Building Lease Purchase Law of 1976.

The definition of services contained herein follow the general outline of recommended services as described in the Construction Management Association of America (CMAA) Manual titled Standards of Practice and as copyrighted in 1988. The use of copyright phrases or descriptions as outlined below and as contained in the CMAA Manual have been granted by the National CMAA Headquarters.

The following list of services, with a clear delineation of pre-construction versus construction phase services, is more specific to California Public Schools and California Bidding Laws than the referenced CMAA documents. This clearer separation should make the OLA review and District requirements easier for all involved.

- I. CONSTRUCTION MANAGEMENT (PRE-CONSTRUCTION PHASE) - Services provided in association with Pre-construction activities that relate to organization and development of the project prior to the start of construction by either Multi-Prime (trade contractors) or a General Contractor.**

Construction Management consists of providing responsible reporting, documentation, recommendations and supervision of the following services: pre-construction scheduling, review and recommendations during the design development stages from the schematic phase to the completion of working drawings, conceptual and periodic estimates, budget assessment and cost containment advice, value engineering studies and recommendations, and Construction Manager reviews. **(Refer to detailed list of services provided.)**

- II. CONSTRUCTION MANAGEMENT (CM) (CONSTRUCTION PHASE) - Services provided in association with Construction Management activities that relate to projects constructed by either Multi-Prime, (trade contractors), or a General Contractor and commence between bid preparation and bid opening and continues thirty five (35) calendar days beyond the final filing of the notice or notices of completion. It continues through any warranty periods.**

Construction Management consists of the supervision of all activities that are connected with the construction of the project. Construction Management provides responsible reporting and documentation that starts prior to the contractors' pre-construction conference and includes responsibility for performance of the site construction services provisions (general conditions items including supervision and administration of the project), conducting construction progress meetings, providing progress reports, processing contractors requests for information (RFI's), reviewing and recommending the approval or disapproval of change orders and payments to the contractor, maintaining record keeping to assist the District in negotiations, mediation or arbitration of claims or disputes **(Refer to detailed list of services provided.)**

CONSTRUCTION MANAGEMENT SERVICES PROVIDED

A. PRE-CONSTRUCTION PHASE

1. Construction Management Plan. The Construction Manager will prepare a Management Plan for the Project which will establish the general basis for the sequence of contracting for construction of the Project and the attendant design effort required. In preparation for the Construction Management Plan, the Construction Manager will evaluate the local construction market, the District's resources, the District's schedule and budget goals of the Project, develop various alternative approaches, and make recommendations to the District. Upon approval by the District of the Construction Management Plan, the Construction Manager will prepare the Construction Management Plan in final form. This document will indicate the project rationale and recommend the strategy for purchasing construction, the various bid packages for the Project and a Master Project Schedule.
2. Master Project Schedule. The Construction Manager will develop a Master Project Schedule which will contain key milestones to be accomplished by the Project participants, including a schedule of the Architect's and Consultant's design activities.
3. Project Budget. To assist the project architect during the design phase, the Construction Manager will provide a plan and budget for all items that will be required for the project. These include such things as reproduction of the drawings and specifications for bidding, various other office and administrative costs and the cost for required services at the site. The Construction Manager will review the Program of Requirements, the District's schedule goals, and existing budget data. The Construction Manager will make a report of the budget to the District indicating: (1) shortfalls or surpluses in the budget, and (2) recommendations for cost reductions, value engineering, or revisions to the Program of Requirements.
4. Cost Management Procedures. The Construction Manager will implement and maintain cost management procedures throughout the design phase. When design or programmatic changes are made and approved by the District, these changes will be recorded and the cost effect will be documented.
5. Construction Management Review. The Construction Manager will provide input to the District and Architect(s) relative to value, sequencing of construction (phases), means and methods, duration of construction of various building methods, and constructability.
6. Coordination Review. The Construction Manager will review the Architect(s) 50%, and 90% contract document submissions and provide written comments on the coordination of the various disciplines, including civil, structural, architectural, mechanical, electrical, HVAC, plumbing, and landscape.
7. Coordinate Design Comments. The Construction Manager will provide coordination between the Architect(s) and the District in an effort to obtain the proper flow of information. The Construction Manager will coordinate the design reviews during the Construction Document phase and will compile and expedite the District's comments to the design team.
8. 50% Construction Document (CD) Estimate. The Construction Manager will provide a 50% CD Estimate in Cost Model format at completion of 50% of the CD phase. This 50% CD Estimate will be accompanied by a report to the District and Architect(s) identifying variances with the original budget.
9. 90% Construction Document (CD) Estimate. The Construction Manager will arrange for a 90% CD Estimate in Cost Model format at the conclusion of the 90% CD phase. The 90% CD Estimate will be accompanied by a report to the District and Architect(s) identifying variances.
10. Cost Adjustment Sessions. Should significant variance be detected in the 50% or 90% Construction Document Estimates, the Construction Manager will conduct cost adjustment sessions with the Architect(s) and the District. At the conclusion of these sessions, the Construction Manager, in conjunction with the District, will request commitments from the Architect(s) for design adjustments to the documents in an effort to maintain the project budget.

11. Conditions of Construction. The Construction Manager in a General Contractor project will advise the District as to the form and content of the Invitation to Bid, the form of Proposal, the General Conditions, the Supplementary Conditions and the Special Conditions for the contract for construction. The Construction Manager will submit to the Architect his or her General Recommendations and make suggestions for their inclusion into the Construction Documents.
12. Bidding Procedures. In cooperation with the Architect(s) and the District's Purchasing Office, the Construction Manager will develop and expedite bidding procedures for bid document issuance, bidder tracking and receipt of proposals.
13. Public Relations Activities. The Construction Manager will assist the District and Architect(s) in public relations activities including preparation of the Project information, and attending internal and public meetings as required, including site meetings and quarterly District Bond Committee meetings as required by the district.
14. Generate Bidder Interest. The Construction Manager should maintain contact with potential bidders on a regular basis throughout the bid period. This includes bonded major subcontractors and suppliers as well as General Contractors, if applicable. A telephone campaign will be conducted to stimulate and maintain interest in bidding on the project.
15. Bid Advertisements. The Construction Manager will assist the District and the Architect in preparing and placing notices and advertisements to solicit bids on the Project.
16. Prepare and Expedite Bid Document Delivery. In conjunction with the District and Architect(s), the Construction Manager will coordinate and expedite the preparation and delivery of Bid Documents and addenda to the bidders which may include:
 - a. Prepare summaries of work Bid Packages;
 - b. Arranging to secure documents from Architect(s);
 - c. Arranging for printing, binding and wrapping;
 - d. Arranging for delivery; and
 - e. Follow-up calls to the bidders
17. Pre-Bid Conference(s). In conjunction with the District and Architect, the Construction Manager will assist with pre-bid conference(s). These conferences will be a forum for the District, the Construction Manager, and Architect(s) to present the project requirements to the bidders, including prequalification requirements as appropriate.
18. Coordination and Inquiries The Construction Manager will coordinate communications related to Bidder inquiries and seek resolution for the appropriate party and provide timely forwarding of such information to the bidders.
19. Addenda Review. The Construction Manager will provide a review of each addendum during the Bid Phase for time, cost, or constructability impact, and make appropriate comments or recommendations.
20. Bid Evaluation. The Construction Manager will assist the District in prequalification, the bid opening, evaluation of the bids for completeness, full responsiveness and price, including alternate prices and unit prices, and will make a formal report to the District regard to the potential award of a contract.
21. Construction Contract(s). The Construction Manager will assist the District in the preparation of the construction contract(s).

B. CONSTRUCTION PHASE SERVICES

1. Pre-Construction Conference(s) The Construction Manager will conduct, in conjunction with the District and the Architect(s), pre-construction orientation conference(s) for the benefit of the successful Contractor(s) and will serve to orient the Contractor(s) to the various reporting procedures and site rules prior to the commencement of actual construction.
2. Contract Administration. The Construction Manager will administer the construction contract as provided in the General Conditions of the contract for construction.

3. Submittal Procedures. The Construction Manager will establish and implement procedures for submittals, change orders, payment requests and other procedures; and maintain logs, files, and other necessary documentation.
4. Job Site Meetings. The Construction Manager will coordinate regular job-site progress meetings with the (multiple) prime Contractor(s)/Subcontractor(s), and will work with the architect to ensure that the Architect(s) record, transcribe and distribute minutes to all attendees, the District, and all other appropriate parties.
5. Coordination of Technical Inspection and Testing. The Construction Manager will coordinate with the District's certified inspector all testing required by the Architect(s) or other third parties. All inspection reports will be provided to the Construction Manager on a regular basis.
6. Construction Observation. The Construction Manager will observe the progress of the work and advise the District of any deviations, defects or deficiencies the Construction Manager observes in the work. The Construction Manager's observation duties shall include reasonable diligence to discover work that is not in compliance with the Contract Documents. These observations will not, however, cause the Construction Manager to be responsible for those duties and responsibilities which belong to the Architect(s), the district inspector or the Contractor(s). These include, but are not limited to, the Architect(s)'s obligation to produce clear, accurate drawings and specifications and the Contractor(s) responsibilities for the techniques and sequences of construction and safety precautions incidental thereto, and for performing the construction work in accordance with the Contract Documents.
7. Non-Conforming Work. The Construction Manager will, in conjunction with the Architect(s) and inspector, review contractor's recommendations for corrective action on observed nonconforming work. The Construction Manager will make recommendations to the District, the Architect(s), and inspector in instances where the Construction Manager observes work that, in his opinion, is defective or not in conformance with the Contract Documents.
8. Exercise of Contract Prerogatives. When appropriate, the Construction Manager will advise the District and make recommendations to the District for exercising the District's contract prerogatives, such as giving the Contractor notice to accelerate the progress when the schedule goals are in jeopardy due to Contractor failings, withholding payment for cause and other prerogatives when required in an effort to achieve contract compliance.
9. Master Construction Schedule. The Construction Manager will continue to update and maintain the Master Construction Schedule and distribute the updated Master Schedule to the District, Architect(s) and other appropriate parties.
10. Construction Progress Review. The Construction Manager will review the progress of construction with the Contractor, observe work in place and that materials are properly stored on a monthly basis, and evaluate the percentage complete of each construction activity as indicated in the construction schedule.
11. Monthly Contractor Payment. The Construction Manager will review and make recommendations pertaining to monthly payments to the prime Contractor(s). This activity will be an integral part of the monthly progress report updates. However, if it should later be found that a contractor has failed to comply with the provisions of his contract with the District in any way or detail such failures and subsequent compliance will be the sole responsibility of the Contractor(s).
12. Evaluate Proposal Cost. The Construction Manager will evaluate the Contractor(s) proposal cost and will make a formal recommendation to the District regarding acceptance of the proposal for a Change Order.
13. Negotiation of Change Order Costs and Time Extensions. The Construction Manager will assist the district and the Architect in negotiating Change Order costs and time extensions.
14. Change Order Reports. The Construction Manager shall prepare and distribute Change Order reports on a monthly basis throughout the construction phase. This report will provide information pertaining to proposed and executed change orders and their effect on the contract price as of the date of the report.

5. Contractor Claims. The Construction Manager will be given copies of all notices of claims by Contractors against the District for any alleged cause. The Construction Manager will perform a preliminary evaluation of the contents of the claim, and make recommendations to the District.

16. Project Status Reports. The Construction Manager will prepare and distribute a Project Status Report as requested by the district as well as the Verified Reports required by Title 24.

17. Equipment Instruction Manuals. The Construction Manager will be the recipient of all written material such as operations and maintenance manuals, warranties and guarantees for all equipment installed in the project. All equipment instruction material shall be reviewed and delivered to appropriate District personnel.

18. As-Built Documents. The Construction Manager will perform coordination and expediting functions in connection with the Architect and Contractor's obligation to provide "as-built" documents.

19. Training Sessions. The Construction Manager will coordinate and schedule training sessions for the District's personnel and will assure that the Contractor's obligation in providing this training is fulfilled.

20. Administration of the Project. The Construction Manager will:
 - a. Provide full-time on-site administration of the project.
 - b. Assist the Inspector in observing the materials and equipment being incorporated into the work to assure that they are handled, stored and installed properly and adequately and are in compliance with the Contract Documents for the project. Report to the District regarding these activities.
 - c. Assist the Inspector in observing the Contractor's work to verify that all authorized changes are properly incorporated in the project. Report to the District regarding these activities.
 - d. Identify problems encountered in accomplishing the work and recommend appropriate action to the District to resolve these problems with a minimum effect on the timely completion of the project.
 - e. Not issue instructions contrary to the agreement between District and Contractor, or between the District and Architect. All changes to the agreement between the District and the Contractor shall be by change order executed by the District. Communication between the Construction Manager and the Contractor with regard to inspection shall not in any way be construed as binding the District, or releasing the Contractor from fulfillment of any of the terms of his contract. The Construction Manager's construction administration activities:
 1. Shall not relieve the Contractor of his obligation to perform the work in strict conformity with the agreement between District and Contractor, the Contract Documents in strict conformity with all other applicable laws, rules and regulations; or Construction Manager liable for, or and insurer of, the performance of the Contractor; or
 2. Shall not make the Construction Manager liable for, or an insurer of, the performance of the Contractor; or
 3. Shall not require the Construction Manager to have control or charge of or advise on or issue directions concerning aspects of the construction means, methods, techniques or sequences, in connection with the work; or
 4. Shall not require the Construction Manager to be responsible for the acts or omissions of the Architect(s), the Contractor(s) or Subcontractor(s), or other persons performing the work; or the failure of any of them to carry out the work in accordance with the Contract Documents.
 - f. Assist the Architect and Inspector with monitoring certified payroll for the entire project.

21. The Construction Schedule. The Construction Manager will initialize the detailed Construction Schedule Report utilizing appropriate means. The critical path method should be the preferred method of Analysis. This information will be the basis for all future reports reflecting actual project progress during the construction phase. The contractor(s) shall provide their detailed schedule in accordance with the Contract Documents and this will be used to establish the master schedule.
22. Monthly Construction Schedule Updates. The Construction Manager will prepare and distribute construction schedule updates as appropriate. After an evaluation of the actual progress as observed by the Construction Manager, scheduled activities will be assigned percentage-complete values in conjunction with the Contractor. The report will reflect actual progress as compared to schedule progress noting variances (if any) as negative float. This report will also be the basis for determining implementation of certain District prerogatives concerning progress of the project, when required.
 - a. Recovery Schedule. If requested by the District, the Construction Manager shall assist the Contractor(s) in preparing a Recovery Schedule. This Recovery Schedule will reflect the corrective action and extraordinary efforts to be undertaken by the Contractor(s) to recapture lost time. This Recovery Schedule will be distributed to the Contractor(s), the District, Architect(s) and other appropriate parties.
 - b. Claims Analysis. If requested by the District, the Construction Manager will analyze the claims for extension of time and will prepare an impact evaluation report which will reflect the actual impact to the schedule. The report will also provide a narrative including a recommendation for action to the district.
 - c. Evaluate Claim Cost. If requested by the District, the Construction Manager will prepare estimates based on the alleged cause of claims submitted by the Contractor(s) and will prepare alternate estimates based on varying scenarios of the claim cause. These estimates will be transmitted to the District and will be used in claim rulings and negotiations.
 - d. Contractor Claims Negotiations. If requested by the District, the Construction Manager will negotiate claims with the contractor on behalf of the District. The Construction Manager will make a recommendation to the District concerning settlement or other appropriate action.
 - e. Construction Schedule. Upon the District's transmission of a Notice of Award to the successful Contractor(s), the Construction Manager will review the Contractor's development of its detailed construction schedule within the framework of the submitted Preliminary Provisional Schedule. The Construction Manager will distribute the Construction Schedule to the Contractor(s), the District, the Architect(s) and other appropriate parties.
 - f. Schedule of Values. The Construction Manager will review and reconcile each Contractor's Schedule of Values for each of the activities included in the Construction Schedule.
 - g. Final Completion. The Construction Manager, in conjunction with the Architect(s) and the inspector will at the conclusion of all corrective action of all punch list items, make a final comprehensive review of the project, make a report to the District which will indicate whether the Construction Manager and the Architect(s) find the work performed acceptable under the Contract Documents and the relevant project data, and make recommendations as to final payment and the notice of completion to the Contractor(s).

C. POST-CONSTRUCTION SERVICES

1. Occupancy Permit. The Construction Manager will assist the District in obtaining the occupancy permit. This task may encompass accompanying governmental officials (Fire Marshal, DSA, Health Department, etc.) during inspections of the facility, assisting in preparing and submitting proper documentation to the appropriate approving agencies, assisting in final testing and other necessary and reasonable activities.
2. Final Project Report. At the conclusion of the project, the Construction Manager will prepare final project accounting and closeout reports of all above indicated report systems. These reports will summarize, for historical purposes, any items which are not self-explanatory .

QUALIFICATIONS

Candidates providing pre-construction and construction phase Construction Management (CM) services must meet all the following criteria:

1. Must be an individual or firm or partnership or corporation or association or other legal entity licensed or registered under California law or employing licensed or registered Architect, Engineer, or General Contractor licensed under California Law that will have responsibility for projects.
2. Must provide evidence to the school district that the entity, and its personnel carrying out on-site responsibilities, have expertise and experience in project design review and evaluation, construction supervision, bid evaluation, project scheduling, cost benefit analysis, claims review and negotiation, and general management and administration of a construction project.
3. All construction contractors shall be required to post a 100% performance bond for their contract.
4. Each construction contractor shall post a labor and material bond in the amount of 100% their contract.
5. The CM firm shall not be a bidder on any individual construction contract in the project.
6. All construction work shall be bid and awarded in no more than two bid phases, in accordance with normal requirements for General Contractors for site and construction phases. For new construction projects, all construction contracts representing the lowest responsible bidder, shall be submitted to Office of Local Assistance as one package. The Form SAB 515 (Summary of all bids) and the required Minority/Women and Disabled Veteran Business Enterprise (M/W/DVBE) documentation, shall be attached to each successful contract listing the three lowest bidders and the bid amounts for each construction contract. A bid phase summary shall be submitted with each bid phase package listing only the low bidders, their contract amounts, the CM fee and General and Special Conditions assigned to each bid phase, summed as a total committed cost.
7. The CM firm shall certify in writing that all of the contracts contained in the submittal represent all the work in the plans and specifications for the total project or that some of the work has been deferred for the future. In the event the contracts and the work deferred for future does not represent 100% of the work and/or exceed the Board's Cost Standards, the additional necessary work must be offset by reduction in the CM fees.

SELECTION OF CM

During the selection process of a CM, the district should solicit proposals from several firms known by reputation, as well qualified and experienced in the management of the design and construction of public schools. Emphasis should be placed on selection of the firm with the best possible qualifications.

The school district is expected to negotiate an agreement with the firm which is most favorable in regards to compensation for the professional service, within the maximum fees allowed. Agreement by the district to pay the maximum allowable fee without meaningful negotiations is not in keeping with the district's obligation to minimize the cost of the project.

When the district selects a CM firm, it must assure that the firm meets the M/W/DVBE provisions in accordance with SAB policy prior to execution of the contract. The owner, to whom the CM is responsive, is the school district. In all transactions between the districts and the selected firm, the district shall act on its own behalf (see contract section). Additionally, contracting for CM services must be executed prior to specific phase of the Project as follows:

PRE-CONSTRUCTION SERVICES - Prior to Phase P, previously Phase I, approval or the completion of the preliminary phase or prior to the initial development of the final plans.

POST CONSTRUCTION SERVICES - Prior Phase C, previously Phase I, approval.

MAXIMUM ALLOWABLE FEES

The school district, as Owner, is expected to negotiate an agreement with the CM firm which is most favorable to the owner with regard to compensation for their professional service, within the maximum fee allowed. The fee must be commensurate with the service provided after execution of the CM contract. Agreement by the district to pay the minimize the cost of the project. The amount of the maximum allowable fees is dependent upon scope, type, and duration of services but cannot exceed the maximum allowable fees without meaningful negotiations is not in keeping with the district's obligation to following schedules:

Maximum Schedule for Construction Management Fees (Combined Pre-Construction and Construction Phases)

1. Eight percent of any portion of the first five hundred thousand dollars of the computed building cost of the project.
2. Seven and one-half percent of any portion of the next five hundred thousand dollars of the computed building cost of the project.
3. Seven percent of any portion of the next one million dollars of the computed building cost of the project.
4. Six percent of any portion of the next four million dollars of the computed building cost of the project.
5. Five percent of any portion of the next four million dollars of the computed building cost of the project.
6. Four percent of any portion of the computed building cost of the project in excess of ten million dollars.

The computed building cost shall be the final building allowance less savings determined at bid approval. No additional fees will be allowed for change orders.

In no event may the calculated fee determined in the schedule above exceed the following:

- 50 percent for pre-construction services that include the bidding phase.
- 37 and 1/2 percent for pre-construction services that do not include the bidding phase.
- 50 percent for the construction phase, that does not include the bidding phase.
- 62 and 1/2 percent for the construction phase that includes the bidding phase.

The calculation of the estimated fee may be made utilizing estimates of the building cost prior to the development of the final allowance by the OLA. The fee is a reduction in the Building Allowance for the project. The final adjustment in the estimated fee will be made at bid time to reflect the actual maximum allowable Building Cost.

Pre-Construction fees will be released at Phase P approval. Construction phase fees will be released at Bid approval.

COST ALLOWANCES NEW CONSTRUCTION) AND MODERNIZATION

This Policy shall not cause the cost of a new construction Lease/Purchase project to exceed the cost standards established by the SAB.

The final building cost will include CM fees and costs of general conditions.

To obtain project savings the following will be required:

1. Require all bids in all bid package categories (all trades) to be opened at the same date and time thereby prohibiting the staggering of bids. (Growth only)

2. Allow two deductive alternates with no more than 10 building items each for the entire project. (Growth only)
3. Do not allow individual bid package category rebids except under one or more of the following circumstances AND ONLY IF FIRST APPROVED BY THE OLA:
 - a. If, through no fault or lack of concerted effort of the District, CM or Architect, no bid is received in a category.
 - b. If no bidder is responsive to the Minority/Women/Disabled Veterans Business Enterprise (M/W/DVBE) bid requirements.
 - c. If the project, after bids are received, is within the SAB allowable budget and it is apparent that inadequate coverage has resulted in an exorbitantly high bid in a category.

Should the aforementioned circumstance occur, and provided that OLA concurs that it is in the State's best interest to do so, then a category may be rebid USING THE EXACT SAME BID DOCUMENTS AND WORK SCOPE AS PER THE ORIGINAL BID.

Except as noted above, the District must reject all bids and require ALL packages for the entire project to be rebid.

4. If the project, when bid, exceeds SAB cost standards but does not exceed 110% of the allowable building costs and if the District chooses not to rebid the project but proceeds with the project, then the project would be subject to the same SAB policies in effect at that time under conventional general contract bid projects which exceed State cost standards.

GENERAL AND SPECIAL CONDITIONS

Broad categories of General and Special conditions may be allowed on multi-prime projects as follows:

- Mobilization
- Temporary utilities, structures, fences
- Material handling equipment
- Trucks, safety, small tools, fuel, scaffolding
- Insurance, comprehensive, builders risk
- On site project administration

No general conditions will be allowed for the CM for a General Construction Contract. The district will be required to submit a specific list of all General and Special Conditions which must be approved by the OLA prior to inclusion in the project. The approvable General Conditions are a reduction in the Building Cost for the project. The General and Special Conditions shall not exceed the following fee schedule based on the building cost (see fee schedule): Special or extenuating circumstances which exceed the allowance may be appealed to the SAB as appropriate on a case by case basis.

<u>Building Cost</u>	<u>Non-Graduating Fee</u>
From \$1 TO \$200 THOUSAND	15.0%
over \$200 THOUSAND TO \$500 THOUSAND	10.0%
over \$500 THOUSAND TO \$1 MILLION (M)	8.0%
over \$1M TO \$2M	6.5%
over \$2M TO \$5M	5.5%
over \$5M TO \$50M	5.0%
over \$50M TO \$100M	4.5%

These maximums shall be negotiated downward for services provided by the district.

CALCULATION OF ARCHITECT FEES

The approvable construction management fees and the general and special condition costs shall be deemed "construction contracts" for purposes of determining the appropriate architect fee for the project. For those projects with multi-prime contracts, the architect fee shall be based on each contract separately.

PROJECTS WHICH EXCEED THE SAB COST ALLOWANCE

If the aggregate of all acceptable bids exceed the Board's cost allowance as adjusted for CM fees and general conditions, the project is subject to existing board policies relating to bids which exceed the SAB cost standards. If the project is required to be rebid as a result of high bids, the Construction Manager will be required to assist the district and architect in reducing the scope of the project with no additional compensation.

CONTRACTS FOR CM

The district may utilize standard forms of agreements available from the Construction Management Association of America or the American Institute of Architects in either case, the district should rely on its legal counsel to insure that proper language is included in the agreement to meet the needs of the district. In addition, the district may utilize a model contract developed by the SAB.

In order for the SAB to approve funding for the contract, it must include, at a minimum the following:

1. The fee does not exceed that which is approvable by the SAB.
2. A provision for the assessment of adequate liquidated damages in the event the construction time requirement in the CM contract is exceeded and it is further determined that the delay is caused by the Construction Manager.
3. A provision for a 10% retention of CM fees.
4. The Construction Manager shall purchase and maintain insurance for protection from claims under workers' or workmen's compensation acts; claims for damages, because of bodily injury, including personal injury, sickness, disease or death from claims arising out of the performance of this Agreement and caused by negligent acts of omission for which the Construction Manager are legally liable.
5. The CM firm must provide evidence that it meets the minimum level of errors and omissions insurance or other bonding requirements as may be required by the SAB.

Once the district has selected a CM firm, the district will be required to submit a copy of the proposed contract, including MNV/DVBE documentation, and a certification that the terms and conditions of the contract are in accordance with the SAB guidelines.

The OLA shall review the CM contract and submittals within 15 business days of receipt. If a written response with an approval, rejection for modifications or clarification is not issued within that time period, the contract for the services shall be deemed acceptable. The OLA review of this contract for funding should not be construed as an agreement to the terms and conditions found in the contract.

REPORT OF THE EXECUTIVE OFFICER
State Allocation Board Meeting, September 25, 1996

AMENDMENT TO THE CONSTRUCTION MANAGEMENT POLICY

PURPOSE OF REPORT

Amend the existing construction management policy.

DESCRIPTION

Several school districts have indicated they have received Proposition 203 funds for a number of projects and will be unable to meet the 365 day time limit on apportionment without the assistance of construction management services.

The existing construction management policy provides that construction management contracts for post construction services must be executed prior to the Phase C approval of the project. No time line was addressed in that policy for the "construction phase" services.

It is proposed that the time be adjusted to permit the district to enter into a construction management contract for construction phase services and post construction services to just prior to the bid opening date. The other provisions of the construction management policy would still apply.

STAFF COMMENTS

At the direction of the State Allocation Board, the Legislative Implementation Committee is currently reviewing the construction management policy and is in the process of preparing an issue paper for the board.

RECOMMENDATION

Approve multi-prime construction management contracts for construction phase services and the post construction phase services provided they are executed prior to opening of bids and the Phase C was funded by Proposition 203 or later bond measures.

BOARD ACTION

In considering this Item, the Board adopted staff recommendation but advised that districts could request an extension of the 365 day time limit policy through the appeal process.

Article 1. Definitions

1865.1. Definitions. For the purpose of these regulations, the terms set forth below shall have the following meanings, subject to the provisions of the act:

- (a) **The Act.** Chapter 22, Part 10, of the Education Code.
- (b) **Board.** The State Allocation Board.
- (c) **Executive Officer.** The executive officer of the State Allocation Board.
- (d) **Application.** A request pursuant to the act to lease a project. Such request shall be on forms prescribed by the board, together with such other information as may be required by the executive officer.
- (e) **District.** The applicant school district.
- (f) **District Representative.** One or more individual members of the district's staff appointed by it as "district representative" to file an application with the board on behalf of the district and to act as liaison between the board and the district.
- (g) **Agent of the Board.** The applicant school district shall be appointed by the board as its agent to perform specifically authorized acts necessary to construct and equip the project.
- (h) **Facility.** All or a portion of any real property, site improvement, utilities, buildings, or furniture and equipment contained in a project.
- (i) **Lease Agreement with Option to Purchase.** An agreement between an applicant school district and the State to lease with an option to purchase a project, as defined in the act, from the State.
- (j) **Lease-Purchase Project.** A project for which the district has or intends to enter into one or more lease agreements with option to purchase on a given site.
- (k) **Reconstruction.** Reconstruction for the purpose of Section 17721 shall be considered the substantial architectural alteration or modification of a building in order to bring it to modern educational standards.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

History: 1. New Subgroup 11 (Sections 1865.1-1865.95, not consecutive) filed 2-3-78; effective thirtieth day thereafter (Register 78, No. 5).

Article 2. General Provisions

1865.2. Purpose. The purpose of these regulations is to prescribe the procedures necessary for the implementation and administration of the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (hereinafter referred to as "the act").

1865.3. What May Be Provided. The act provides for the use of the proceeds of State general obligation bonds to finance a project for the construction, reconstruction, or replacement of school facilities by the State Allocation Board under an agreement between a school district and the State.

1865.4. Qualifications. Any school district may qualify to file an application for a lease-purchase project and enter into a lease agreement with option to purchase with the board, providing the following requirements have been met:

(a) That the applicant school district has first held a successful election pursuant to Section 17722 of the act.

(b) That the applicant school district has sufficient building area entitlement as determined pursuant to the provisions of Article 4 of these regulations to justify the application being filed for new building construction or reconstruction.

(c) That the applicant school district has sufficient lease-purchase capacity within the limitations set forth in Education Code Section 17725 for the project.

1865.5. Executive Officer. The executive officer shall perform all acts necessary to carry out the provisions of the act except such functions as are reserved to the board and to other agencies by law or by these regulations and shall provide such staff assistance to the board as may be necessary.

1865.6. Limitation of State Responsibility. In approving an application for a lease-purchase project and making funds available therefor, neither the State nor any department or agency thereof shall assume any responsibility not otherwise imposed on it by statute or these regulations.

1865.7. References to Education Code Prior to Recodification of 1976. Reference in any document, instruction, procedure, or policy action to any part of the Education Code prior to any recodification in 1976 shall be deemed applicable to the corresponding provisions of such recodified code.

1865.8. Insurance. The insurance required by Section 17738 of the act shall be in an amount that will guarantee full replacement or repair of the facilities for which claims are made.

Article 3. Application Procedure

1865.21. Form of Application. A district desiring to obtain a project pursuant to the act shall file documents substantially as follows:

(a) A resolution of the governing board of the applicant district authorizing the application.

(b) An application in proper form.

(c) A statement of the estimated cost of the project certified by a licensed architect or structural engineer.

(d) Layout plans showing the entire construction project.

(e) Such other documentation as may be required by the executive officer.

(Register 78, No. 5-24-78)

1865.22. Filing and Review of Applications. Applications with required accompanying documents shall be filed with the executive officer of the board.

1865.23. Changes in Application After Original Approval. An applicant may, after approval of an application but prior to entering into a lease-purchase agreement, request approval of changes within the application.

Article 4. Eligible Facilities

1865.30. Estimated Average Daily Attendance (ADA). (a) The estimated ADA of a school district or attendance area as required by Section 17740 of the act for determining the allowable building area shall be computed by this section. No estimate will be used unless approved by the executive officer of the board.

(b) For the purpose of estimating ADA, the following definitions shall apply:

(1) "Enrollment" means the graded enrollment of minors of the district as reported to the Department of Education on Form R-30 (or any successor form). Comparable enrollment data for the end of the first or sixth school month may be acceptable if verified by the appropriate county superintendent of schools.

Enrollment shall include only those students who actually reside in the school district and any students who reside in the district but attend school in other than the district of residence. Enrollment shall exclude high school pupils who attend continuation classes.

(2) "Projected enrollment" means graded enrollment as determined by the cohort survival method for a period of two years for the elementary grades and for a period of three years for the high school grades.

(3) "Pupil units attending continuation classes" is computed as follows: First determine the average number of pupil hours of attendance in high school continuation classes per school day in the highest three months of the latest 12 months, then divide the average by six. In making this computation, pupil hours during the regular school day in excess of 15 per week shall be included. Pupil hours for evening or Saturday classes shall be excluded. Multiply the final figure obtained in the preceding calculation by a factor which is computed by dividing the "projected enrollment" by the "current enrollment". The result is the "pupil units attending continuation classes".

In the event the district is applying for a continuation high school facility and has students who have not yet been screened and assigned to continuation classes because of lack of suitable space, the district may submit an identified list of such pupils. The average number of pupil hours of high school attendance in continuation classes per school day as computed above may be augmented by the pupil hours obtained by multiplying the number of names on the list by three, or in the event the district can prove that continuation high school pupils attend classes for an average of more than three hours per day, such larger multiplier may be used. When an identified list of prospective continuation high school pupils is used, the number of pupils on such list shall be excluded from the graded enrollment.

(4) "Exceptional children" means those pupils assigned to special education classes as of the latest enrollment, plus a verified count of such pupils who are not attending classes of the district but will become a part of the attendance of the district when approved facilities for such pupils have been completed.

(5) "Estimated average daily attendance" means the projected enrollment multiplied by .97 plus the exceptional children assigned to special education classes, plus the pupil units attending high school continuation classes.

(6) "Housecount" means an enumeration of new housing units that are under construction, i.e. units that have at least reached the stage of foundations in place, and have not yet been completed and occupied, classified by type of housing unit as the board may prescribe. Such housing units shall not include hotel or motel accommodations or other living quarters generally used as transient or short-term accommodations, but may include spaces under construction for mobile homes which the board determines to be essentially for long-term occupancy. The definition of housecount prescribed herein may be modified from time to time as may be necessary to classify new housing units in the most appropriate manner for the purpose of measuring the pupil yield of such units.

(c) The projected enrollment shall be determined by the cohort survival method in accordance with the following and by the use of such forms and instructions as the board may prescribe.

(1) List either the latest enrollment for the end of the first school month or the subsequent sixth school month and the enrollment for the same period for the three preceding years. All applications approved by the board after April 30 of any given year shall be based on the enrollment as of the end of the sixth school month of the most recent year. Such enrollment shall be listed by level for each grade included in the application. High school applications shall also list the four highest grades of component elementary enrollment.

(2) Determine the numerical change in enrollment between each given grade in one year and the next higher grade in the succeeding year for each period and grade listed in (1) above. With respect to kindergarten enrollment (or first grade enrollment if no kindergarten is maintained), determine the numerical change in kindergarten (or first grade) enrollment between each period listed in (1) above, or alternatively, annual changes in enrollment based on a local census or survey of preschool children conducted according to such procedures as the board may prescribe.

(3) Compute the average annual change in enrollment for each grade maintained at the grade level of the application. The average shall be a weighted average computed by multiplying the most recent annual change in enrollment by three, the next most recent change by two, and the earliest change by one, and dividing the sum of the weighted changes by six.

(Register 78, No. 1-24-78)

(4) Progress the latest reported enrollment through the applicable two or three year projection period, modifying the grade progression each year by the average annual change for each grade as computed in (3) above.

(d) From the projected enrollment, compute the estimated average daily attendance as defined in Subsection (b) (5) above.

(e) In the event that there is good reason to believe the number of pupils being added from construction of new housing units exceeds the number implicit in the cohort survival computation and when the land area of the district is less than 75% developed, the board may, at its discretion, modify the estimated average daily attendance as follows:

(1) Determine the graded enrollment one year from the latest reported enrollment by a one-year grade progression, adjusted for dropouts at the high school level.

(2) Determine the enrollment derived from new homes implicit in the cohort survival computation as follows: (i) Subtract the enrollment computed in (1) above from the one-year projection of enrollment as determined by the cohort survival method; (ii) To the remainder, add two percent of the latest enrollment for the end of the first or sixth school month, whichever is applicable. If the foregoing computations result in a negative number, the number shall be deemed to be zero.

(3) Determine the pupil yield per housing unit of housecount, as established by a survey of occupied housing units in the district, for the current year and the two preceding years. The survey shall take into consideration the different pupil yields of multiple and single family housing units or other significant yield characteristics. The current year yield factor for each type of housing unit shall be modified by the average annual difference of the factor for each type for the two preceding years.

(4) In the event that prior year data referred to in (3) is unavailable, the current yield factor shall be modified as the board shall prescribe.

(5) Establish the pupil yield of the housecount by multiplying the number of housing units in the housecount by the applicable yield per housing unit as determined above. Subtract the enrollment from new homes determined in (2) above from the yield of the housecount; the result of this computation is the amount by which the graded enrollment computed under the cohort survival method shall be changed.

(6) The housecount and surveys described in (3) and (4) shall be conducted by the district in accordance with methods, procedures, and standards which are approved by the Office of Local Assistance with respect to each specific case.

(f) Other provisions of this section notwithstanding, high school enrollment of a district or attendance area for the end of the first school month may be used for estimating ADA.

1865.31. Estimated Average Daily Attendance—High School Attendance Area.

(a) As permitted by Section 17741, a district may file an application based upon a high school attendance area rather than a districtwide basis. A high school district or a unified school district filing on a high school level would base its application on enrollment estimated to attend such high school and upon facilities already existing in such high school attendance area. An elementary school district or unified district filing on an elementary level would base its application on the enrollment and existing facilities of the elementary schools serving the high school attendance area under consideration.

(b) The estimated average daily attendance of a high school attendance area as permitted by Section 17741 of the act for determining the allowable building area, when the district is applying only on a high school attendance area basis as opposed to a districtwide basis, shall be computed in the same manner as that set forth in regulation 1865.30, except that the enrollment used in such computation shall be that of the high school attendance area rather than the entire district and shall be certified by the district.

(c) In those instances where the high school attendance area results in a split in individual attendance areas of the contributing elementary or junior high schools, an assignment of enrolled pupils in such split attendance areas shall be made by the district in a manner satisfactory to the executive officer.

1865.32. Application for Site and/or Plans. In order to expedite a total school facility, a school district may first apply for a project which includes only the advance purchase of the land and preparation of plans and specifications. The acquisition of the site and the plans preparation shall be based on justification documents for the total school facility.

1865.33. Computation of Allowable School Building Area.

(a) No project shall be approved, the building area of which, when added to the area of adequate school construction existing in the applicant school district or the applicable high school attendance area if the application is filed on such basis, will provide a total area of school building construction in excess of that computed pursuant to Education Code Sections 17740 through 17749.

(b) All of the existing building area owned or operated by the district except for central administration or maintenance facilities, regardless of conditions or purpose for which used, shall be reported to the board, by the district as prescribed in this regulation. Where an allowable building area is computed on the basis of an attendance area as provided by Section 17741 of the act, the existing building area shall be considered the building area within such attendance area.

(c) Existing adequate building area shall include all existing building area not otherwise excluded by the act or these regulations, building area for which applications have been approved under any state or federal building program, any building area being acquired by any lease-purchase agreement, proposed building area which has been otherwise financed or any building area which has been used to justify any site and/or plans lease-purchased project under this act. Existing building area shall be excluded as follows:

(Register 78, No. 5—2-4-79)

(1) The area of any building to which Article 3 of Chapter 2, Part 23 of the Education Code would not apply.

(2) The area of any building, the construction or reconstruction of which has occurred more than 30 years prior to the date of the application.

(d) Existing and proposed building area shall be computed in accordance with the following:

(1) All measurements shall be made from exterior rough wall lines.

(2) Totally enclosed space shall be counted as full area. Among the various types of space to be included shall be areas such as:

(A) Basement rooms and basement boiler rooms.

(B) Heater rooms, including those above the normal floor level.

(C) Each floor of multi-story buildings.

(D) The area of completely enclosed stairs for each floor level served.

(3) Certain partially enclosed areas shall be counted as full area and shall include:

(A) Open, covered areas which provide shelter between buildings that are less than 20 feet apart.

(B) Mezzanines open on one or more sides which may easily and readily be used or converted to use as instructional space or passageways.

(C) Each floor of library stacks.

(4) Covered unenclosed space shall be counted as one-half of the actual area. Included in such space are:

(A) Open, covered passages, arcades, shelters, porches, and planting areas.

(B) Open, covered areas which provide shelter between buildings that are 20 feet apart or more.

(C) Overhangs and sun control devices which are so designed and located that they function as, and in lieu of, covered walks or other shelter areas.

(D) Mezzanines for storage purposes.

(5) Areas which shall not be counted include:

(A) Eaves and sun control devices except as specified above.

(B) Unsheltered platforms and steps.

(C) When isolated from building structures, the area of incinerators, pumphouses, transformer vaults, and service yards.

(D) Elevator shafts where constructed in order to comply with Chapter 7 of Division 5 of the Government Code (commencing with Section 4450), relating to facilities for handicapped persons.

(E) That portion of the area below the first floor of a multistory building used exclusively for employee parking, provided the board finds that other means of parking are not economically feasible.

1865.34. Allowable School Building Area for Facilities for Exceptional Children. (a) In conformity with the requirements of Section 17747 of the Education Code, the board establishes allowable building areas for the education of physically handicapped, educationally handicapped, and mentally retarded minors, to be computed as follows:

(1) Divide the number of eligible pupils by the maximum class size established by law for special day classes for the type of pupils to be enrolled and increase the quotient to the next highest integer where a fractional amount is produced.

(2) Multiply the number computed in (1) by the maximum building area allowance shown below when the facility is planned for the following types of exceptional children:

Types of Pupils	Maximum Class Size		Area Allowance—Sq. Ft.		
	Ages 3-8	Ages 9-20	K-8	7-9	9-12
Deaf or Aphasic	6	8	1235	1335	1380
Blind or Severely Hard of Hearing	8	10	1290	1410	1440
Partially Seeing	10	12	1290	1410	1440
Educationally Handicapped	12	12	1080	1080	1080
Educable Mentally Retarded	18	18	1373	1635	1680
Trainable Mentally Retarded	{ See (3)	See (3)			
Orthopedic or Cerebral Palsied	12	12	1980	1980	1980
	{ 12	16	2000	2000	2000
Development Centers for Handicapped Pupils			See (4)	See (4)	See (4)
	{ 10	10	2000	2000	2000
			See (4)	See (4)	See (4)

(3) When the chronological age span of educable mentally retarded minors is greater than four years, the maximum class size shall be 15 pupils.

(4) When facilities are to be constructed for orthopedically handicapped, cerebral palsied minors, or development centers for handicapped pupils, additional building area allowances shall be made for elementary schools to provide adequate space for occupational therapy, physical therapy, and related auxiliary services of up to 5,200 square feet if the facility is designed for one to three classes and up to 7,000 square feet for four to eight classes. Facilities constructed for junior and senior high schools shall be allowed additional building area of up to 600 square feet for auxiliary services.

(5) When facilities are to be constructed for blind or partially seeing minors served in an integrated instructional program which is housed in two or more schools, the building area allowance may be allocated among the schools when approved by the Department of Education. No area of instruction shall be allowed which is less than 200 square feet.

(6) When facilities are to be provided for minors having speech defects or disorders, 200 sq. ft. of additional building area per school is permitted.

1865.35. Allowable Building Area for Small Elementary School Districts. (a) For the purpose of computing the building area allowance for small elementary school districts in accordance with Section 17743 of the Education Code, the following shall apply:

(Register 78, No. 8-24-78)

(1) In an applicant district maintaining any combination of grades kindergarten through 6 with an estimated average daily attendance of less than 300 in such grades:

<i>Estimated ADA in Kindergarten and Grades 1-6</i>	<i>Maximum Total Building Area (Sq. Ft.)</i>
6-25	1,600
26-50	3,800
51-75	5,700
76-100	7,200
101-133	8,415
134-166	10,200
167-199	12,000
200-232	13,360
233-285	15,675
286-299	16,500

(2) In an applicant district maintaining any combination of grades kindergarten through 8 with an estimated average daily attendance of less than 300 in grades kindergarten through 6, there shall be allowed, in addition to the maximum total building area shown above, a maximum area of 75 sq. ft. for each attendance unit in grades 7 and 8.

1865.36. Allowable Building Area for Continuation High Schools.

(a) The estimated average daily attendance for continuation high schools shall be based on those pupil units attending continuation classes (as defined in Section 1865.30(b) (3) of these regulations) which are assigned to the continuation high school.

(b) Building area shall be allowed for the continuation high school in accordance with the following schedule:

<i>Pupil Units of Continuation High School</i>	<i>Square Feet of Building Area</i>
21 to 40	4,800
41 to 60	4,800 + 120 for each pupil unit over 40
61 to 90	7,200 + 115 for each pupil unit over 60
91 to 120	10,650 + 105 for each pupil unit over 90
121 to 150	13,800 + 90 for each pupil unit over 120
Over 150	16,500 + 60 for each pupil unit over 150

(c) For purposes of this section, a continuation high school must be physically and operationally distinguishable from other schools. If the continuation high school shares space with another type of school, it can be considered to be a continuation high school within the meaning of this section only if the district can show conclusively that the continuation facility is in fact a separate institution with its own administration, teaching staff, and course of study, located in a clearly identifiable building area.

1865.37. Minimum Essential Instructional Facilities. In the event the existing area of the district as determined pursuant to Section 17742 of the act results in a district being unable to apply for the minimum amount of essential instructional facilities required, the existing area may be reduced, with the approval of the board, by an amount sufficient to permit such essential instructional facilities to be constructed under the act. Such reduction shall be construed as being for the purpose of alleviating any substantial hardship which might otherwise occur.

1865.38. Building Cost Standards. (a) Pursuant to Section 17717 of the act, the board shall establish allowable school building cost standards which shall be effective until next revised.

(b) No application or bid shall be approved and no funds shall be provided for any construction which exceeds the allowable costs established as provided herein. In the event, however, that it is shown from any studies by the board that actual building costs in an area or portion of an area differ substantially from the allowable costs established for the area, the board may at any time revise the allowable building cost standards for the area or create additional areas and establish appropriate allowable cost standards for such additional areas.

1865.39. Unconventional Sources of Energy. Where a school district requests an increased cost allowance for the design and construction of facilities which will conserve unreplenishable energy resources pursuant to Section 17718 of the act, a life cycle cost comparison must be submitted to the board. Such cost comparison shall be prepared by a competent authority and provide for the amortization of the increased cost allowance over a period not to exceed the lesser of 30 years or the term of the lease.

1865.40. Reconstruction or Replacement. (a) Any building which has not been constructed or reconstructed less than 30 years prior to the date of approval of the project applied for under the act may be eligible for reconstruction or replacement provided the allowable cost for such reconstruction or replacement is reduced to compensate for any work done to the building in the 30 years preceding the application. The amount to be deducted from the allowable cost shall be the actual cost of the work performed depreciated on the basis of 1/30 for each year which has elapsed since the performance of said work.

(1) **Reconstruction.** No project shall be approved for reconstruction, the cost of which will exceed cost standards established by the board for replacement of the amount of area equivalent to the adjusted reconstructed area. The adjusted reconstructed area shall be computed by multiplying the estimated units of average daily attendance to be housed in the reconstructed building times the allowable building area per attendance unit as computed in accordance with the act.

(Register 78, No. 8—2-4-78)

(2) **Replacement.** No building shall be replaced until the board has made a finding that it would not be economical or good practice to reconstruct the school facilities to meet present-day educational and structural standards.

1865.41. Site Development. (a) Site development may be included as a part of the project and classified as follows:

(1) **Utility Services** may include but are not limited to facilities required to bring water, sewer, electricity, telephone, and fuel supply services to such suitable point on the site as may be necessary for the functioning of a project.

(2) **Off-site Development** may include but is not limited to such street improvements as are in line with the approved standards of the board and as are determined by the executive officer to be necessary. However, whenever a school building to be constructed pursuant to an apportionment under the act is situated in a city, city and county, or county which requires the construction of any street or road connected with the school premises on which the building is situated, the board shall review the requirement and recommend to the entity in question a plan of construction adequate to meet the needs of the school district and safety of the public. Thereafter, if any different plan of improvement or improvement to higher standards than so recommended is required by such entity, the additional cost shall be borne by the entity as provided in Section 2117 of the Streets and Highways Code.

(3) **Service Site Development** may include but is not limited to any other development of a site, including such items as grading (except rough grading), walks, curbs, roadways, parking areas, fencing, flagpoles, incinerators, hard-surfaced and turfed play areas, landscaping, and playground equipment.

1865.42. Furniture and Equipment. (a) Furniture and equipment may be included as part of the project.

(b) Cost standards for furniture and equipment shall be established on a quarterly basis by the board based upon the kinds, quality, quantities, and costs of furniture and equipment most commonly acquired by school districts for comparable facilities.

(c) Before requesting funds for furniture and equipment for a project, the district shall give full consideration to all usable furniture and equipment existing in the district. The district may apply for funds to provide such furniture and equipment as needed to complete the project within the standards established by the board. The furniture and equipment allowance for replacement or reconstruction projects cannot exceed 50% of the allowance for comparable new facilities unless specifically approved by the board.

(d) An allowance will be calculated for each construction project in accordance with 1865.42(b) and (c) above. The amount so calculated will be authorized as the cash allowance for the project to be expended by the district in furnishing and equipping the project.

(e) Furniture and equipment shall be purchased by the district by competitive bidding where required to do so by the Education Code or other provisions of law. However, even where the district is not otherwise required to purchase the same through competitive bidding, the board may require the district to do so where it believes that it is likely that such bidding would result in a lower cost than other methods.

1865.43. Repairs, Renewals, and Replacements. (a) The board hereby interprets Section 17705(e) of the Education Code, authorizing it to render services in connection with a project, to permit it to pay the costs of repairs, renewals and replacements thereof, if a district fails to make the same at its own expense as required by Section 17714, Education Code. For this purpose, the board shall charge the district a contingent amount in advance to protect it against any such failure on the part of the district, or an amount which represents the actual cost of the board performing such services in the event of such failure. The board shall in either event incorporate such charges as part of the lease payments, and adjust the latter from time to time as may be necessary for this purpose, to take effect during the fiscal year following that in which such adjustment is made. Said amounts so withheld shall be expended only for the purposes for which withheld and upon specific authorization by the board. Interest earned by the state attributable to such amounts shall be deemed to augment the same.

(b) The board interprets Section 17726, Education Code, to permit the transfer out of the State School Building Lease-Purchase Fund of such amounts as may be necessary to fund such repairs, renewals, or replacements. Suitable adjustment of lease payments shall be made during or at the termination of a lease so that a district will not in any case pay an amount incorporated in the lease payments which exceeds the cost to the board of providing such repairs, renewals, or replacements.

(c) Notwithstanding the foregoing, upon exercising of the district's option to purchase the project, the district shall be entitled to the remaining balance of the funds withheld pursuant to this section solely as a credit against such option price.

Article 5. Project Approvals and Lease-Purchase Agreements

1865.50. Approval of Applications. Upon receipt of the application, the executive officer shall review it for proper form and compliance with statutes and regulations of the board. After such review and any necessary corrections, the executive officer shall present the application to the board with recommendations, whereupon the board shall consider the application. If the application meets with the board's approval, it shall grant its approval and make a reservation of funds for the financing of the project from any sources available for such purposes. This reservation shall be known as an apportionment and shall be conditioned upon the district subsequently entering into a lease-purchase agreement with the state. After such approval and reservation

(Register 78, No. 6—2-4-78)

of the funds, the executive officer of the board shall authorize the district, as the agent of the board, to perform all acts necessary to obtain construction bids for the project. Such authorization shall be specifically set forth in writing to the district and shall be conditioned upon the district having entered into or subsequently entering into a lease-purchase agreement with the board either in the form of (1) the lease-purchase of a site and/or plans, or (2) the lease-purchase of an entire project. Failure on the part of the district to enter into such agreement shall invalidate such authorization, and any obligations incurred as a result thereof shall become the sole responsibility of the district. Upon receipt of bids, the executive officer shall have the authority to amend the project budget within the apportionment so made or to reduce the total apportionment to conform to the project as bid. The executive officer is authorized to enter into a lease-purchase agreement or agreements with the district on behalf of the board.

1865.51. Apportionment. (a) In addition to complying with any other requirements of these regulations or the act, the board, at the time of making an apportionment, shall:

- (1) Approve a total estimated cost and a budget for the project.
- (2) Prescribe the purposes for which an apportionment may be expended.
- (3) Prescribe the manner, terms, and conditions for releasing the apportionment to the district.
- (4) Specify that the rate of interest to be utilized in computing the annual lease payments shall be the rate which has been fixed by the board and is in effect at the time of execution of the lease-purchase agreement.
- (5) Fix the rate of interest to be used in computing annual lease payments immediately following each sale of general obligation bonds.

(b) Notwithstanding anything to the contrary in these regulations, the board shall have power to modify any apportionment or resolution of apportionment where it determines good cause exists therefor.

1865.52. Lease Payment. (a) At the time the lease-purchase agreement is executed with the district, the executive officer shall establish a schedule of annual lease payments to be charged over the life of the agreement. The schedule will also set forth the purchase price, should the district elect to exercise the option to purchase.

(b) The board is empowered to unilaterally adjust the lease payments from time to time in order to insure that revenue from such lease payment is sufficient to cover redemption payments and interest charges on funds used by the board to finance to project, or other costs incurred or incurable pursuant to the act including amounts specified by Section 1865.43 of these regulations.

Article 6. Project Budget

1865.60. Contents of Project Budget. (a) The project budget prescribed by the board shall be set up in such a manner as to contain all costs attributable to the project, categorized as follows: Sites; Plans; Construction; Tests; Inspection; Furniture and Equipment; and Contingencies. Within these major categories the following limitations shall apply:

(1) **Sites:**

(A) The board shall not authorize the expenditure of any funds for real property in excess of the fair market value of such property.

(B) Relocation assistance costs to landowners or persons displaced pursuant to Sections 7260 et seq. of Chapter 16, Division 7, Title I of the Government Code, referred to as the "Relocation Assistance Law", in conjunction with an acquisition of a site for which an application for a lease-purchase project is made, shall be administered by the district affected in accordance with the requirements of said sections.

(2) **Plans:**

(A) Fees for architectural and engineering services, including architectural supervision, shall not exceed the customary amounts.

(B) The board shall require that each architectural contract contain a clause to the effect that the architect shall be responsible for making, without additional cost to the district, any changes or redesigning made necessary as a result of the bids exceeding the cost standards established by the board.

(3) **Construction:** Costs shown for construction shall not exceed the cost standards established by the board.

(4) **Tests:** The amount for tests shall be limited to the actual costs of tests which are required by Title 21 of the California Administrative Code or other applicable provisions of law, or which are in accordance with good or accepted practice.

(5) **Inspection:** The amount for inspection shall be limited to such amounts as is required to insure that the project is completed in accordance with plans and specifications and any other legal requirements.

(6) **Furniture and Equipment:** The amount for furniture and equipment shall be limited to that determined pursuant to Section 1865.42 hereof.

(7) **Contingencies:**

(A) An amount may be included for contingencies which shall not exceed such maximums as the board may prescribe for any class of application or value of facilities in a project budget.

(B) Contingency funds may be used only after specific approval by the executive officer for items of construction or other approved project costs where the cost increase or the item required is necessary for the completion of a facility which has been approved by the board.

(Reglater 78, No. 8-14-78)

1865.61. Revision of a Project Budget. (a) The executive officer may revise any item within a project budget, upward or downward, provided that no such revision results in an increase in the total amount of the project budget approved by the board.

(b) The executive officer may reduce any apportionment as may be necessary to reflect any revision made pursuant to (a) above.

Article 7. Disposition of Property

1865.70. Disposition of Replaced Facilities. (a) Property, real or personal, replaced through an application for a lease-purchase project approved by the board shall be disposed of pursuant to these regulations in a manner approved by the executive officer of the board. The net proceeds received from any such disposition shall be expended, subject to approval by the executive officer of the board, either:

(1) For capital outlay purposes which would otherwise be eligible for a project pursuant to the act; or

(2) For the demolition of any facilities replaced by a project approved pursuant to the act or pursuant to Chapter 8 (commencing with Section 16000), Part 10, Division 1, Title 1 of the Education Code; or

(3) For any other purpose approved by the board.

1865.71. Disposition of Excess Improvements Acquired With Site Purchase. (a) Excess improvements acquired with a site purchase shall be offered for sale prior to the advertising of a project for construction bids, in accordance with the method and manner prescribed for the sale of personal property under Section 39520 et seq. of the Education Code. The net proceeds received from any such disposition shall be expended in the manner prescribed in the preceding Section 1865.70 of these regulations.

(b) When facilities acquired with a site purchase have been offered for sale pursuant to Section 39520 et seq. of the Education Code and no acceptable bids are received prior to the time the construction project is ready to be advertised for construction bids, the district shall adopt a resolution making a finding that the property is of insufficient value to defray the costs of arranging a subsequent sale as provided by Section 39521 (b) of the Education Code and proceed to demolish such property using funds approved in the project for this purpose.

Article 8. Lease-Purchase of Sites and Plans

1865.75. Advance Purchase of Sites and Preparation of Plans.

(a) Except as otherwise provided by the act or these regulations, the provisions of these regulations shall apply to applications for sites and/or plans and specifications made pursuant to Section 17720 of the act.

(b) Nothing contained in the regulations shall be construed to prohibit the executive officer from entering into a lease agreement with option to purchase for a site and/or plans pursuant to Regulation 1865.32 without construction, even though such items may constitute only a part of the project as approved by the board. A lease-purchase agreement or agreements may be subsequently entered into by the executive officer for the balance of the project.

Article 1. Definitions

1862.50. Definitions.

(a) For the purposes of these regulations, the terms set forth below shall have the following meanings:

Chapter 25. Chapter 25, Part 10, Education Code.

Board. State Allocation Board.

Executive Officer. Executive Officer of the State Allocation Board.

Eligible District. Any school district or county superintendent of schools which demonstrates a need for additional classroom facilities in accordance with priorities established by the Board.

Portable Classrooms. Single classroom factory-built buildings which are constructed in accordance with performance specifications adopted by the Board.

Authorized Agent. A person authorized to act on behalf of the governing board of the eligible district in matters relating to an application for lease of portable classrooms.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

HISTORY:

1. New Subgroup 8.5 (Sections 1862.50-1862.56) filed 8-23-79; effective thirtieth day thereafter (Register 79, No.34). A Certificate of Compliance must be filed within 120 days or emergency language will be repealed on 12-21-79.

Article 2. Acquisition of Portable Classrooms

1862.51. Acquisition of Portable Classrooms by the Board.

(a) The board may from time to time as it determines the need in accordance with priorities adopted herein authorize the Office of Procurement of the Department of General Services to acquire portable classrooms for lease to eligible districts. For each portable classroom so acquired a minimum of furniture and equipment necessary to make the classroom functional may be acquired by the Board. The buildings shall be placed on the school site and connected to the nearest electrical energy source at state expense.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

Article 3. Applications for Lease

1862.52. Form of Application.

(a) Applications for lease of portable classrooms pursuant to Chapter 25, shall contain the following:

A resolution on forms provided by the Board, by the governing board of the eligible district authorizing the filing of an application and the signing of a lease agreement or agreements for such numbers of portable classrooms as the Board may approve. The leases shall contain such terms and conditions as are required by existing law and by these regulations.

A completed application on forms provided by the Board.

Layout plans clearly showing the location on the site of the proposed portable classroom buildings as well as the location of existing buildings. Existing buildings shall be identified and shall show the State Architect approval number if constructed pursuant to the Field Act (Sections 39140 to 39156).

A certification by the authorized agent that the district has hired or will hire a teacher for each portable classroom leased to the district for the term of the lease.

A certification or other evidence, satisfactory to the Board, that the district has no available bond proceeds which could be used for the purchase of classroom facilities.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

Article 4. Lease Agreements

1862.53. Lease Agreements.

(a) Lease agreements executed by the authorized agent of the school district shall be subject to such conditions as may be required by the board in addition to the following:

A year to year renewable term beginning September 1 and ending August 31 of each year.

Lease payments of \$2,000 per year for each portable classroom. The first year rental shall be prorated on a 12 month basis from the date of installation to the following August 31. Payments are to be made upon execution or renewal of each lease.

The district shall be required at its own expense to provide a near flat surface, not exceeding 9 inches in grade from the highest to the lowest point, for placement of each portable classroom. Access to the site shall also be provided by the district at its own expense.

The district shall be responsible to the State for any damages occurring to the portable classrooms and shall keep them insured, at its own expense, to the benefit of the State, at all times against fire and lightning, with extended coverage, and vandalism and malicious mischief, for the full insurable value of the property less any deductible amount for which the district is willing to accept such responsibility. The district shall at its own expense undertake all necessary maintenance repairs, renewal and replacement to ensure that the portable classrooms, furniture and equipment are at all times kept in good repair, working order and condition.

The district shall hold the State of California harmless from any claims asserted against the State by virtue of alleged negligence of the district or third parties in the operation or maintenance of portable classrooms.

Facilities leased by the Board for location on a particular site may not be altered, relocated or removed from the site without approval of the Board, nor shall any interest held by the district under this lease be assignable.

Upon expiration of a lease, the district shall allow buildings covered by such lease to remain in place on the site free of cost to the State for a period not to exceed 120 days, pending removal by the State.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

Article 5. Priorities

1862.54. Priorities.

(a) Portable classrooms shall be made available to those districts the pupils of which will benefit most, based upon the following:

A demonstrated need based upon loading all existing classrooms in the district with the average class sizes shown in Board Regulations 1810.1 and 1811 (g) of Title 2, California Administrative Code, using the latest enrollment of the district converted to equivalent average daily attendance by a .97 factor.

A certification from the district that it has hired or will hire for the lease period a teacher for each portable classroom to be leased.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

Article 6. Miscellaneous Provisions**1862.55. Maintenance and Repair Costs Not Otherwise Provided by District.**

(a) Where a district is not obligated to provide for the maintenance and repair of portable buildings, or if obligated and fails to do so, the Executive Officer is authorized to expend such sums as he deems appropriate for that purpose from funds appropriated pursuant to this chapter, provided that nothing herein shall be construed to relieve any district from any obligation arising out of any contract entered into pursuant to this chapter.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

1862.56. Exceptions.

(a) Exceptions may be made to these regulations where the Board finds that the application thereof would be inequitable in practice or would result in an undue hardship on the pupils of the district affected.

NOTE: Authority cited: Sections 17785-17795, Education Code. Reference: Sections 17785-17795, Education Code.

Title 2, CCR, Register 80-12

§ 1865.3

§ 1865.32.5

§ 1865.43

§ 1865.50

§ 1865.70

Article 1. Definitions

1865.1. Definitions.

For the purpose of these regulations, the terms set forth below shall have the following meanings, subject to the provisions of the act:

- (a) The Act. Chapter 22, Part 10, of the Education Code.
- (b) Board. The State Allocation Board.
- (c) Executive Officer. The executive officer of the State Allocation Board.
- (d) Application. A request pursuant to the act to lease a project. Such request shall be on forms prescribed by the board, together with such other information as may be required by the executive officer.
- (e) District or Applicant School District. Any school district applying for a project or the county superintendent of schools qualifying as an applicant pursuant to Section 2553 of the Education Code.
- (f) District Representative. One or more individual members of the district's staff appointed by it as "district representative" to file an application with the board on behalf of the district and to act as liaison between the board and the district.
- (g) Agent of the Board. The applicant school district appointed by the board as its agent to perform specifically authorized acts necessary to construct and equip the project.
- (h) Facility. All or a portion of any real property, site improvement, utilities, buildings, or furniture and equipment contained in a project.
- (i) Lease Agreement with Option to Purchase. An agreement between an applicant school district and the State to lease with an option to purchase a project, as defined in the act, from the State.
- (j) Lease-Purchase Project. A project for which the district has or intends to enter into one or more lease agreements with option to purchase on a given site.
- (k) Reconstruction. Reconstruction for the purpose of Section 17721 shall be considered the substantial architectural alteration or modification of a building in order to bring it to modern educational standards.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY:

1. New Subgroup 11 (Sections 1865.1-1865.95, not consecutive) filed 2-3-78; effective thirtieth day thereafter (Register 78, No. 5).
2. Amendment of subsections (e) and (g) filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.

Article 2. General Provisions

1865.2. Purpose.

The purpose of these regulations is to prescribe the procedures necessary for the implementation and administration of the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (hereinafter referred to as "the act").

1865.3. What May Be Provided.

The act provides for the construction, reconstruction, or replacement of school facilities by the State Allocation Board under an agreement between a school district and the State.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY:

1. Amendment filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.

1865.4. Qualifications.

Any school district may qualify to file an application for a lease-purchase project and enter into a lease agreement with option to purchase with the board, providing such applicant school district has sufficient building area entitlement as determined pursuant to the provisions of Article 4 of these regulations to justify the application being filed for new building construction or reconstruction.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY:

1. Repealer and new section filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.

1865.5. Executive Officer.

The executive officer shall perform all acts necessary to carry out the provisions of the act except such functions as are reserved to the board and to other agencies by law or by these regulations.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY:

1. Amendment filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.

1865.6. Limitation of State Responsibility.

In approving an application for a lease-purchase project and making funds available therefor, neither the State nor any department or agency thereof shall assume any responsibility not otherwise imposed on it by statute or these regulations.

1865.7. References to Education Code Prior to Recodification of 1976.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY:

1. Repealer filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.

1865.8. Insurance.

The insurance required by Section 17738 of the act shall be in an amount that will guarantee full replacement or repair of the facilities for which claims are made.

TITLE 2**OFFICE OF LOCAL ASSISTANCE
(STATE ALLOCATION BOARD)****§ 1865.9
(p. 71.72.48.1)****(Register 82, No. 12—3-12-89)****1865.9. Priority Points.**

(a) Priority points shall be computed and assigned to applications whenever the board determines that there will be insufficient funds to meet the estimated needs for all districts in any given fiscal year. Whenever the assignment of priority points is required, applications that are in order for approval shall be considered by the board in sequence according to the number of priority points credited to each application. The board shall from time to time establish the minimum number of priority points necessary to qualify an application for approval consideration by the board. Such minimum shall be based upon the funds available and the estimated needs for the fiscal year.

(b) Priority points shall be computed on a districtwide basis, except for those districts having four or more high school attendance areas (excluding continuation high schools). In such case, points shall be considered on the basis of the attendance area of the project and all attendance areas adjacent thereto.

(c) For the purposes of computing priority points pursuant to the provisions of Section 17716 of the act, all existing building areas except central administration and maintenance facilities, shall be considered.

(d) Priority points shall be allowed as follows:

(1) Five priority points shall be allowed for each percent of the maximum allowable building area which may be included in an application as new building area (not replacement area).

(2) One priority point shall be allowed for each percent of the maximum allowable building area which may be included in an application as new building area replacing existing inadequate building area.

(3) One priority point shall be allowed for each percent of the maximum allowable building area which may be included in an application as reconstruction of an existing building, originally constructed at least 30 years prior to the date of approval of the reconstruction project.

(4) One priority point shall be allowed for each 5% of increase between the current average daily attendance and the average daily attendance 5 years previously. The average daily attendance will be based on the active enrollment report (R-30) filed with the Department of Education as of the end of the first school month.

(5) One priority point shall be allowed for each month that the application of the district has been in good order and awaiting approval.

(e) If any computation of priority points results in a fraction of a point that is less than one-half, such fraction shall be disregarded and the number of priority points shall be taken as the next lowest whole number. If such computation results in a fraction of a point which is one-half or more, such fraction shall be disregarded and the number of priority points shall be taken as the next highest whole number.

(f) Approvals and lease agreements made in priority order pursuant to this section shall be limited to that portion of a project pertaining to the acquisition of a site and the preparation of construction plans and specifications. Such approvals shall be limited to not more than 25% of the funds made available for the program.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY:

1. New section filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.

1865.10. Priority Points for Construction.

(a) Priority points may be computed and applied in the consideration of approvals for construction funds. Such priority points shall be maintained as a separate series from priority points computed pursuant to Section 1865.9 of these regulations, and shall be identified as "priority points for construction". Any such computation of priority points for construction shall be determined as prescribed by said Section 1865.9, except as follows:

(1) The term "maximum allowable building area" in Section 1865.9(d) (1) shall mean the most recent computation of such area rather than that which applied at the time the application was first approved.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY:

1. New section filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.

Article 3. Application Procedure

1865.21. Form of Application.

A district desiring to obtain a project pursuant to the act shall file documents substantially as follows:

(a) A resolution of the governing board of the applicant district authorizing the application.

(b) An application in proper form.

(c) A statement of the estimated cost of the project certified by a licensed architect or structural engineer.

(d) Layout plans showing the entire construction project.

(e) Such other documentation as may be required by the executive officer.

(Register 62, No. 12—3-23-69)

(4) Progress the latest reported enrollment through the applicable two or three year projection period, modifying the grade progression each year by the average annual change for each grade as computed in (3) above.

(d) From the projected enrollment, compute the estimated average daily attendance as defined in Subsection (b) (5) above.

(e) In the event that there is good reason to believe the number of pupils being added from construction of new housing units exceeds the number implicit in the cohort survival computation and when the land area of the district is less than 75% developed, the board may, at its discretion, modify the estimated average daily attendance as follows:

(1) Determine the graded enrollment one year from the latest reported enrollment by a one-year grade progression, adjusted for dropouts at the high school level.

(2) Determine the enrollment derived from new homes implicit in the cohort survival computation as follows: (i) Subtract the enrollment computed in (1) above from the one-year projection of enrollment as determined by the cohort survival method; (ii) To the remainder, add two percent of the latest enrollment for the end of the first or sixth school month, whichever is applicable. If the foregoing computations result in a negative number, the number shall be deemed to be zero.

(3) Determine the pupil yield per housing unit of housecount, as established by a survey of occupied housing units in the district, for the current year and the two preceding years. The survey shall take into consideration the different pupil yields of multiple and single family housing units or other significant yield characteristics. The current year yield factor for each type of housing unit shall be modified by the average annual difference of the factor for each type for the two preceding years.

(4) In the event that prior year data referred to in (3) is unavailable, the current yield factor shall be modified as the board shall prescribe.

(5) Establish the pupil yield of the housecount by multiplying the number of housing units in the housecount by the applicable yield per housing unit as determined above. Subtract the enrollment from new homes determined in (2) above from the yield of the housecount; the result of this computation is the amount by which the graded enrollment computed under the cohort survival method shall be changed.

(6) The housecount and surveys described in (3) and (4) shall be conducted by the district in accordance with methods, procedures, and standards which are approved by the Office of Local Assistance with respect to each specific case.

(f) Other provisions of this section notwithstanding, high school enrollment of a district or attendance area for the end of the first school month may be used for estimating ADA.

1865.31. Estimated Average Daily Attendance—High School Attendance Area.

(a) As permitted by Section 17741, a district may file an application based upon a high school attendance area rather than a districtwide basis. A high school district or a unified school district filing on a high school level would base its application on enrollment estimated to attend such high school and upon facilities already existing in such high school attendance area. An elementary school district or unified district filing on an elementary level would base its application on the enrollment and existing facilities of the elementary schools serving the high school attendance area under consideration.

(b) The estimated average daily attendance of a high school attendance area as permitted by Section 17741 of the act for determining the allowable building area, when the district is applying only on a high school attendance area basis as opposed to a districtwide basis, shall be computed in the same manner as that set forth in regulation 1865.30, except that the enrollment used in such computation shall be that of the high school attendance area rather than the entire district and shall be certified by the district.

(c) In those instances where the high school attendance area results in a split in individual attendance areas of the contributing elementary or junior high schools, an assignment of enrolled pupils in such split attendance areas shall be made by the district in a manner satisfactory to the executive officer.

1865.32. Application for Site and/or Plans.

In order to expedite a total school facility, a school district may first apply for a project which includes only the advance purchase of the land and preparation of plans and specifications. The acquisition of the site and the plans preparation shall be based on justification documents for the total school facility.

1865.32.5. Utilization of Existing Facilities.

(a) No project shall be approved for any district until the board has first made a determination that the applicant district will utilize all existing facilities to the extent economically and practically feasible. Sufficient justification must be provided by the district to permit the board to make such determination.

(b) If the board determines that it will not be economical or practical to utilize all existing facilities of the district, project approval then will be contingent upon the agreement by the district to sell those facilities that will not be utilized and contribute the net proceeds of the sales to the State School Building Lease-Purchase Fund as rents pursuant to Section 17732 of the act.

(c) Approval of a project applied for pursuant to Section 17741 of the act will be contingent upon the conditions specified in subdivisions (a) and (b) of this section.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY:

1. New section filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.

1865.33. Computation of Allowable School Building Area.

(a) No project shall be approved, the building area of which, when added to the area of adequate school construction existing in the applicant school district or the applicable high school attendance area if the application is filed on such basis, will provide a total area of school building construction in excess of that computed pursuant to Education Code Sections 17740 through 17749.

(b) All of the existing building area owned or operated by the district except for central administration or maintenance facilities, regardless of conditions or purpose for which used, shall be reported to the board by the district as prescribed in this regulation. Where an allowable building area is computed on the basis of an attendance area as provided by Section 17741 of the act, the existing building area shall be considered the building area within such attendance area.

(c) Existing adequate building area shall include all existing building area not otherwise excluded by the act or these regulations, building area for which applications have been approved under any state or federal building program,

(Register 62, No. 12—3-22-66)

any building area being acquired by any lease-purchase agreement, proposed building area which has been otherwise financed or any building area which has been used to justify any site and/or plans lease-purchased project under this act. Existing building area shall be excluded as follows:

(1) The area of any building to which Article 3 of Chapter 2, Part 23 of the Education Code would not apply.

(2) The area of any building, the construction or reconstruction of which has occurred more than 30 years prior to the date of the application.

(d) Existing and proposed building area shall be computed in accordance with the following:

(1) All measurements shall be made from exterior rough wall lines.

(2) Totally enclosed space shall be counted as full area. Among the various types of space to be included shall be areas such as:

(A) Basement rooms and basement boiler rooms.

(B) Heater rooms, including those above the normal floor level.

(C) Each floor of multi-story buildings.

(D) The area of completely enclosed stairs for each floor level served.

(3) Certain partially enclosed areas shall be counted as full area and shall include:

(A) Open, covered areas which provide shelter between buildings that are less than 20 feet apart.

(B) Mezzanines open on one or more sides which may easily and readily be used or converted to use as instructional space or passageways.

(C) Each floor of library stacks.

(4) Covered unenclosed space shall be counted as one-half of the actual area. Included in such space are:

(A) Open, covered passages, arcades, shelters, porches, and planting areas.

(B) Open, covered areas which provide shelter between buildings that are 20 feet apart or more.

(C) Overhangs and sun control devices which are so designed and located that they function as, and in lieu of, covered walks or other shelter areas.

(D) Mezzanines for storage purposes.

(5) Areas which shall not be counted include:

(A) Eaves and sun control devices except as specified above.

(B) Unsheltered platforms and steps.

(C) When isolated from building structures, the area of incinerators, pump-houses, transformer vaults, and service yards.

(D) Elevator shafts where constructed in order to comply with Chapter 7 of Division 5 of the Government Code (commencing with Section 4450), relating to facilities for handicapped persons.

(E) That portion of the area below the first floor of a multistory building used exclusively for employee parking, provided the board finds that other means of parking are not economically feasible.

1865.34. Allowable School Building Area for Facilities for Exceptional Children.

(a) In conformity with the requirements of Section 17747 of the Education Code, the board establishes allowable building areas for the education of physically handicapped, educationally handicapped, and mentally retarded minors, to be computed as follows:

(1) Divide the number of eligible pupils by the maximum class size established by law for special day classes for the type of pupils to be enrolled and increase the quotient to the next highest integer where a fractional amount is produced.

(2) Multiply the number computed in (1) by the maximum building area allowance shown below when the facility is planned for the following types of exceptional children:

Types of Pupils	Maximum Class Size		Area Allowance—Sq. Ft.		
	Ages 3-8	Ages 9-20	K-8	7-9	9-12
Autistic	6	6	1080	1080	1080
Deaf, Aphasic, Multihandicapped *, or Combination of Deaf & Severely Hard of Hearing	6	8	1235	1335	1360
Blind, Severely Hard of Hearing, or Combination of Blind & Partially Seeing	8	10	1290	1410	1440
Partially Seeing	10	12	1290	1410	1440
Educationally Handicapped	12	12	1080	1080	1080
Trainable Mentally Retarded	12	12	1860	1860	1860
Educable Mentally Retarded	18	18	1373	1635	1680
Orthopedically Handicapped	(See 3) 12	(See 3) 16	2000 (See 4)	2000 (See 4)	2000 (See 4)
Development Centers for Handicapped Pupils	10	10	2000 (See 4)	2000 (See 5)	2000 (See 5)
Deaf-Blind Multihandicapped	3	5	1500 (See 4)	1500 (See 4)	1500 (See 4)

* Other than Deaf-Blind Multihandicapped

(3) When the chronological age span of educable mentally retarded minors is greater than four years, the maximum class size shall be 15 pupils.

(4) When facilities to be constructed will include occupational therapy, physical therapy, and related auxiliary spaces for orthopedically handicapped minors, additional building area allowances for such spaces of up to 5,200 square feet shall be made if the facility is designed for one to three classes and up to 7,000 square feet for four to eight classes.

(5) When facilities are to be constructed for deaf-blind multihandicapped, a one-time additional building area allowance of 500 square feet per school will be made for the initial construction of facilities.

(6) When facilities are to be constructed for blind or partially seeing minors served in an integrated instructional program which is housed in two or more schools, the building area allowance may be allocated among the schools when approved by the Department of Education. No area of instruction shall be allowed which is less than 200 square feet.

(7) When facilities are to be provided for minors having speech defects or disorders, additional building area per school is permitted. This additional area allowance is limited to:

(a) 200 square feet of new building area per school in schools constructed after July 1, 1968, where such schools are designed to permit utilization for remedial and other special services.

(b) 200 square feet of new building area per school in schools constructed between July 1, 1933 and July 1, 1968, where such additional area allowance is used for the construction of a new speech facility.

(c) Conversion of existing facilities or a combination of new construction and conversion of such existing facilities to provide housing for such minors having speech defects or disorders, provided the cost does not exceed the computed cost for 200 square feet of new classroom construction based upon cost standards adopted by the board.

TITLE 2

**OFFICE OF LOCAL ASSISTANCE
(STATE ALLOCATION BOARD)**

**§ 1865.36
(p. 71.72.50.5)**

(Register 82, No. 12—3-22-80)

(d) The acquisition of mobile speech therapy facilities, provided the cost does not exceed the combined computed cost for 200 square feet of new classroom construction, based upon cost standards adopted by the board, at all such schools which will be served by the mobile facility.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY:

1. Amendment filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.

1865.35. Allowable Building Area for Small Elementary School Districts.

(a) For the purpose of computing the building area allowance for small elementary school districts in accordance with Section 17743 of the Education Code, the following shall apply:

(1) In an applicant district maintaining any combination of grades kindergarten through 6 with an estimated average daily attendance of less than 300 in such grades:

<i>Estimated ADA in Kindergarten and Grades 1-6</i>	<i>Maximum Total Building Area (Sq. Ft.)</i>
6-25	1,600
26-50	3,800
51-75	5,700
76-100.....	7,200
101-133.....	8,415
134-166.....	10,200
167-199.....	12,000
200-232.....	13,360
233-285.....	15,675
286-299.....	16,500

(2) In an applicant district maintaining any combination of grades kindergarten through 8 with an estimated average daily attendance of less than 300 in grades kindergarten through 6, there shall be allowed, in addition to the maximum total building area shown above, a maximum area of 75 sq. ft. for each attendance unit in grades 7 and 8.

1865.36. Allowable Building Area for Continuation High Schools.

(a) The estimated average daily attendance for continuation high schools shall be based on those pupil units attending continuation classes (as defined in Section 1865.30(b) (3) of these regulations) which are assigned to the continuation high school.

(b) Building area shall be allowed for the continuation high school in accordance with the following schedule:

<i>Pupil Units of Continuation High School</i>	<i>Square Feet of Building Area</i>
21 to 40	4,800
41 to 60	4,800 + 120 for each pupil unit over 40
61 to 90	7,200 + 115 for each pupil unit over 60
91 to 120	10,650 + 105 for each pupil unit over 90
121 to 150	13,800 + 90 for each pupil unit over 120
Over 150	16,500 + 60 for each pupil unit over 150

(c) For purposes of this section, a continuation high school must be physically and operationally distinguishable from other schools. If the continuation high school shares space with another type of school, it can be considered to be a continuation high school within the meaning of this section only if the district can show conclusively that the continuation facility is in fact a separate institution with its own administration, teaching staff, and course of study, located in a clearly identifiable building area.

1865.37. Minimum Essential Instructional Facilities.

In the event the existing area of the district as determined pursuant to Section 17742 of the act results in a district being unable to apply for the minimum amount of essential instructional facilities required, the existing area may be reduced, with the approval of the board, by an amount sufficient to permit such essential instructional facilities to be constructed under the act. Such reduction shall be construed as being for the purpose of alleviating any substantial hardship which might otherwise occur.

1865.38. Building Cost Standards.

(a) Pursuant to Section 17717 of the act, the board shall establish allowable school building cost standards which shall be effective until next revised.

(b) No application or bid shall be approved and no funds shall be provided for any construction which exceeds the allowable costs established as provided herein. In the event, however, that it is shown from any studies by the board that actual building costs in an area or portion of an area differ substantially from the allowable costs established for the area, the board may at any time revise the allowable building cost standards for the area or create additional areas and establish appropriate allowable cost standards for such additional areas.

1865.39. Unconventional Sources of Energy.

Where a school district requests an increased cost allowance for the design and construction of facilities which will conserve unreplenishable energy resources pursuant to Section 17718 of the act, a life cycle cost comparison must be submitted to the board. Such cost comparison shall be prepared by a competent authority and provide for the amortization of the increased cost allowance over a period not to exceed the lesser of 30 years or the term of the lease.

1865.40. Reconstruction or Replacement.

(a) Any building which has not been constructed or reconstructed less than 30 years prior to the date of approval of the project applied for under the act may be eligible for reconstruction or replacement provided the allowable cost for such reconstruction or replacement is reduced to compensate for any work done to the building in the 30 years preceding the application. The amount to be deducted from the allowable cost shall be the actual cost of the work performed depreciated on the basis of 1/30 for each year which has elapsed since the performance of said work.

(1) Reconstruction. No project shall be approved for reconstruction, the cost of which will exceed cost standards established by the board for replacement of the equivalent amount of area with new construction.

TITLE 2**OFFICE OF LOCAL ASSISTANCE
(STATE ALLOCATION BOARD)****§ 1865.42
(p. 71.72.50.7)****(Register 80, No. 12—3-22-80)**

(2) Replacement. No building shall be replaced until the board has made a finding that it would not be economical or good practice to reconstruct the school facilities to meet present-day educational and structural standards.

NOTE: Authority cited: Section 17705, Education Code. Reference: Sections 17700-17749, Education Code.

HISTORY:

1. Amendment of subsection (a) (1) filed 3-17-80 as an emergency; effective upon filing (Register 80, No. 12). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 7-16-80.

1865.41. Site Development.

(a) Site development may be included as a part of the project and classified as follows:

(1) Utility Services may include but are not limited to facilities required to bring water, sewer, electricity, telephone, and fuel supply services to such suitable point on the site as may be necessary for the functioning of a project.
