## ITEM 7: WRITTEN DETAILED NARRATIVE INCORRECT REDUCTION CLAIM

### Seriously Emotionally Disturbed Pupils: Out of State Mental Health Services Program State Controller's Office Audit of the County of Los Angeles Dated May 2010

#### Summary of State's Audit and County's Incorrect Reduction Claim

The State Controller's Office (SCO) audited the County of Los Angeles' claims for State-mandated cost reimbursement for costs incurred by the County for Seriously Emotionally Disturbed (SED) pupils placed in out-of-state residential placements for the period of July 1, 2003 through June 30, 2006. The SCO disallowed \$12,422,175 of \$54,952,597 claimed during this 3-year period. According to the Audit Report, the SCO disallowed these costs "because the county claimed ineligible vendor payments for out-of-state placements of seriously emotionally disturbed pupils that are owned and operated for profit and unsupported residential placement and program management costs; applied offsetting revenues toward ineligible direct costs; and did not provide support for portions of program management costs reimbursed by federal state and local funds."

The County of Los Angeles Department of Mental Health (LACDMH) has filed this IRC because there is no basis to permit the disallowance of vendor costs related to *the provision of mental health services* to pupils in out-of-state residential placements, even if owned and operated for profit<sup>1</sup>; this is because the statute upon which the SCO based its disallowance applies only to the AFDC-FC rate payment and not to payments made for mental health services.

The SCO disallowed not only the payment for care and supervision but also the payment for mental health services, even though LACDMH was statutorily required under the Government Code to pay for the mental health treatment services for the pupil regardless of whether his or her out-of-state placement was operated on a for- or not-for-profit basis.

Accordingly, this Incorrect Reduction Claim seeks to have the following costs associated with mental health treatment services provided to SED pupils in out-of-state residential placements reinstated:

- Fiscal Year 2003-04: \$1,546,863 (including \$1,426,010 in direct costs and \$120,853 in indirect costs)
- Fiscal Year 2004-05: \$2,070,991 (including \$1,926,362 in direct costs and \$144,629 in indirect costs)
- Fiscal Year 2005-06: \$2,128,193 (including \$1,973,033 in direct costs and \$155,159 in indirect costs)

---

<sup>1</sup> For purpose of this IRC, LACDMH does not concede the for-profit status of any of its out-of-state placements.

### **Background**

In 1996, the California Legislature enacted Assembly Bill 2726 (Chapter 654, Statutes of 1996). This law which added new fiscal and programmatic responsibilities for counties to provide mental health services to seriously emotionally disturbed (SED) pupils in out-of-state residential placements. (Cal. Government Code section 7576). The legislation provided that counties would have the same fiscal and programmatic responsibilities regardless of the pupil's placement.

On July 9, 1998, the State Department of Mental Health issued DMH Information Notice No. 98-10. The DMH information notice reiterated that county mental health departments were responsible for payment of mental health treatment costs provided by out of state providers.

On May 25, 2000, the Commission on State Mandates found that the enactment of Section I of the Statutes of 1996, Chapter 654, and the resulting amendments to the California Code of Regulations Sections 60100 and 60200 imposed new programs or higher levels of service within an existing program upon counties within the meaning of section 6, article XIII B of the California Constitution and Government Code section 17514.

### **Basis for Incorrect Reduction Claim**

In making the determination that payments made to out-of-state facilities operated for profit were ineligible for State reimbursement under the mandate, and thereby disallowing the mental health treatment costs associated with SED pupils placed in such facilities, the SCO cited its program's parameters and guidelines (Section IV.C.1), which specify that the "mandate is to reimburse counties for payments to service vendors providing mental health services to SED pupils in out of state residential placements *as specified in Government Code section 7576 and Title 2, California Code of Regulations, sections 60100 and 60110.*"

According to the SCO, Title 2, California Code of Regulation section 60100, subdivision (h), requires that out-of-state placements be made only in residential programs that meet the requirements of Welfare and Institutions Code Sections 11460(c)(2) through (c)(3); section 11460, subdivision (c)(3) states:

State reimbursement for an AFDC-FC rate paid on or after January 1, 1993, shall only be paid to a group home organized and operated on a nonprofit basis.

The AFDC-FC rate is for "care and supervision" which is defined by section 11460(b) to cover food, clothing, shelter and like services. It does not include mental health services. However, relying on section 11460(c)(3), the SCO disallowed not only the AFDC-FC rate payment but also the payment for mental health treatment services.

Section 11460(c)(3) is simply, by its own terms, not applicable to payment for mental health services. And the SCO failed in its audit to demonstrate otherwise.

In addition to the plain language of the section 11460(c)(3) which makes it inapplicable to payment for mental health services, the entire statutory scheme supporting LACDMH's mandate claim support LACDMH's claim of an incorrect reduction. The County was mandated under the provisions of the Government Code—section 7570 et seq.—to provide mental health services to special education pupils who needed the services to benefit from their education. In particular, Government Code section 7576 required the County to pay for services for a pupil placed out-of-state irrespective of the for-profit or not-for-profit status of the operator.

Title 2, California Code of Regulations section 60100, subdivision (h), referenced by the SCO as a basis for its disallowance, requires compliance with Welfare and Institutions Code Sections 11460, subdivisions (c)(2) through (c)(3). Importantly, section 11460, subdivision (c), dealing specifically with an AFDC-FC rate payment, was enacted by the Legislature in 1992. (Stats 1992, ch. 722, section 39 (SB 485).)

In 1997, subsequent to the enactment of Welfare and Institutions Code section 11460, subdivision (c), the Legislature in Assembly Bill 2726 amended Government Code Section 7576 (See Exhibit A-1). In passing Assembly Bill 2726, the Legislature specifically stated that the intent of the legislation was to ensure that community mental health agencies would be responsible for the mental health services required under individualized education plans *no matter where the pupil was placed*:

"This bill would specify that, commencing on July 1, 1997, the fiscal and program responsibilities of community mental health services shall be the same regardless of the location of the placement."

*"The people of the State of California do enact as follows:* Section 1. (a) The fiscal and program responsibilities of community mental health agencies shall be the same regardless of the location of placement. Local education agencies and community mental health services shall make out-of-state placements under Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code only if other options have been considered and are determined to be inappropriate. In making these placements, local education agencies and community mental health services shall comply with relevant sections of the Education Code including Section 56365. (Chapter 654, Statutes of 1996)

A legislative analysis of AB 2726 by the Senate Rules Committee notes support for the legislation as follows: "According to the [State] Department of Mental Health, 'this bill is intended as a vehicle to resolve the issues surrounding *final regulations* [emphasis added by LACDMH] for the provision of mental health services to special education pupils who need the services to benefit from their education. The Department of Mental Health has incorporated into this bill specific statutory restrictions on referrals for mental health services. These restrictions are consistent with current emergency regulations which limit referrals to special education pupils who have had severe problems over a long period of time that cannot be ameliorated with counseling provided by schools. *The department has worked with various parties to develop specific statutory revisions that are acceptable to both mental health and education agencies.*" (See Exhibit A-2)

The statutory restrictions of Government Code section 7576 enacted by the Legislature are specific to the fiscal and program responsibilities of community mental health services and do not include any limitation on the responsibility for mental health services for those pupils in out-of-state placements that are operated for profit. The Legislature is charged with knowledge of the provisions of Welfare and Institutions Code section 11460, subdivision (c), and its limited application to an AFDC-FC rate payment; had the Legislature intended a similar restriction be imposed relating to mental health services payment it could have provided for such a restriction. It did not. Indeed, to the contrary, this legislation was intended to ensure community mental health agencies would be responsible for the mental health services required under a pupil's individualized education plans no matter where the pupil was placed.

Similarly, section 56365 of the Education Code which requires local education agencies to make available services provided by nonpublic, nonsectarian schools, as defined pursuant to Section 56034<sup>2</sup>, and nonpublic, nonsectarian agencies, as defined pursuant to Section 56035,<sup>3</sup> has no such restriction on the use of for-profit placements. Instead, it specifies: "These services shall be provided pursuant to Section 56366, and in accordance with Section 300.146 of Title 34 of the Code of Federal Regulations, under contract with the local educational agency to provide the appropriate special educational facilities, special education, or designated instruction and services required by the individual with exceptional needs if no

---

<sup>2</sup> Section 56034 defines a "non public, nonsectarian school" as "a private, nonsectarian school that enrolls individuals with exceptional needs pursuant to an individualized education program and is certified by the department. It does not include an organization or agency that operates as a public agency or offers public service, including, but not limited to, a state or local agency, an affiliate of a state or local agency, including a private, nonprofit corporation established or operated by a state or local agency, or a public university or college. A nonpublic, nonsectarian school also shall meet standards as prescribed by the Superintendent and board.

<sup>3</sup> Section 56035 defines a "non public, nonsectarian agency" as "a private, nonsectarian establishment or individual that provides related services necessary for an individual with exceptional needs to benefit educationally from the pupils' educational program pursuant to an individualized education program and that is certified by the department. It does not include an organization or agency that operates as a public agency or offers public service, including, but not limited to, a state or local agency, an affiliate of a state or local agency, including a private, nonprofit corporation established or operated by a state or local agency, a public university or college, or a public hospital. The nonpublic, nonsectarian agency shall also meet standards as prescribed by the superintendent and board.

appropriate public education program is available." None of these provisions include a reference to for- or not-for-profit status of the service provider. Rather, the provisions are intended to comport with federal IDEA regulations.

Accordingly, to permit the SCO to disallow LACDMH's mandated costs on the basis of the profit status of the service provider would permit a regulation, namely 2 CCR 60100, to contravene clear and express statutory requirements, namely those of Government Code section 7576. This is clearly not allowed; regulations cannot impose requirements that are contrary to statute.

Notably, on July 9, 1998, the State Department of Mental Health issued Information Notice No.: 98-10. This information notice (see Exhibit A-3) reiterated that the passage of Assembly Bill 2726 made county mental health departments fiscally responsible for payment of mental health treatment costs to out-of-state providers:

County mental health departments are also required by this legislation to pay mental health treatment costs which out-of-state providers now break out and bill separately from costs related to education and room and board (see attachment A). Prior to the passage of this bill, local education agencies paid for these services pursuant to [2] California Code of Regulations Section 60200 (c)(3)...

The attachment to this information notice specifically identified the rates for mental health treatment and the "residential daily rates." For Los Angeles County, this attachment listed various facilities, including one (Mental Health Services, Inc. Provo Canyon School) that was disallowed by the SCO.

In its Test Claim Decision, adopted on May 25, 2000, (see Attachment A-3) the Commission also determined that there was a positive obligation for counties to provide mental health services regardless of the location. As cited in the initial Commission decision, in enacting Chapter 654, the Legislature expresses its intent that the "fiscal and program responsibilities of community mental health services shall be the same regardless of the location of placement" and that in doing so, the State shifted both costs and activities associated with the paying and monitoring of mental health services in out of state placements to the County from the Local Education Agency (LEA)."

Further, the Commission found that the decision to place a SED pupil in a residential placement out-of-state, is because the "Individualized Education Plan (IEP) team has determined that no school site, school district, or out-of-home (in-state) residential placement is adequate to provide the necessary special education services to meet the federal FAPE requirement." The Commission goes on to state that it is the LEA that continues to control a

SED pupil's IEP and that the County acts in a responsive manner to the determination of the LEA.

#### Conclusion

For the foregoing reason, section 11460, subdivision (c)(3), if applicable at all, is only applicable to an AFDC-FC rate payment, and it does not support the SCO's disallowance of costs associated with mental health services. Accordingly, the County of Los Angeles claims that the SCO incorrectly reduced its claim for services by \$5,746,047 for direct and indirect costs associated with mental health treatment services to SED pupils in out-of-state.

Exhibit A-1

Chapter 654, Statutes of 1996

**Assembly Bill No. 2726**

**CHAPTER 654**

An act to amend Sections 7576 and 7587 of, and to add Section 7586.6 to, the Government Code, relating to public social services.

[Approved by Governor September 19, 1996. Filed  
with Secretary of State September 19, 1996.]

**LEGISLATIVE COUNSEL'S DIGEST**

AB 2726, Woods. Pupils: mental health services.

Existing law makes the State Department of Mental Health or any community mental health service designated by the department for the provision of mental health services when required in a child's individualized education program.

This bill would establish procedures governing referrals of pupils to community mental health services and the responsibilities of those entities.

This bill would specify that, commencing July 1, 1997, the fiscal and program responsibilities of community mental health services shall be the same regardless of the location of the placement.

The bill would also require that the Superintendent of Public Instruction and the Secretary of Health and Welfare ensure that the State Department of Education and the State Department of Mental Health, by January 1, 1998, enter into a specified interagency agreement, and would express legislative intent that the designated local agencies of these departments enter into interagency agreements.

By imposing requirements upon community mental health services, the bill would constitute a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates that do not exceed \$1,000,000 statewide and other procedures for claims whose statewide costs exceed \$1,000,000.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

*The people of the State of California do enact as follows:*

SECTION 1. (a) The fiscal and program responsibilities of community mental health services shall be the same regardless of the location of placement. Local education agencies and community mental health services shall make out-of-state placements under Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code only if other options have been considered and are determined to be inappropriate. In making these placements, local education agencies and community mental health services shall comply with relevant sections of the Education Code, including Section 56365.

(b) This section shall become operative on July 1, 1997.

SEC. 2. Section 7576 of the Government Code is amended to read:

7576. (a) The State Department of Mental Health, or any community mental health service, as defined in Section 5602 of the Welfare and Institutions Code, designated by the State Department of Mental Health, shall be responsible for the provision of mental health services, as defined in regulations by the State Department of Mental Health, developed in consultation with the State Department of Education, when required in the pupil's individualized education program. A local education agency shall not be required to place a pupil in a more restrictive educational environment in order for the pupil to receive the mental health services specified in the pupil's individualized education program if the mental health services can be appropriately provided in a less restrictive setting. It is the intent of the Legislature that the local education agency and the community mental health service vigorously attempt to develop a mutually satisfactory placement that is acceptable to the parent and addresses the pupil's educational and mental health treatment needs in a manner that is cost-effective for both public agencies, subject to the requirements of state and federal special education law, including the requirement that the placement be appropriate and in the least restrictive environment. For purposes of this section, "parent" is as defined in Section 56028 of the Education Code.

(b) A local education agency, individualized education program team, or parent may initiate a referral for assessment of a pupil's social and emotional status, pursuant to Section 56320 of the Education Code. Based on the results of assessments completed pursuant to Section 56320 of the Education Code, an individualized education program team may refer a pupil who has been determined to be an individual with exceptional needs as defined in Section 56026 of the Education Code and who is suspected of needing mental health services to a community mental health service when a pupil meets all of the criteria in paragraphs (1) to (5), inclusive. Referral packages shall include all documentation required in subdivision (c).

and shall be provided immediately to the community mental health service.

(1) The pupil has been assessed by school personnel in accordance with Article 2 (commencing with Section 56320) of Chapter 4 of Part 30 of the Education Code. Local education agencies and community mental health services shall work collaboratively to ensure that assessments performed prior to referral are as useful as possible to the community mental health service in determining the need for mental health services and the level of services needed.

(2) The local education agency has obtained written parental consent for the referral of the pupil to the community mental health service, for the release and exchange of all relevant information between the local education agency and the community mental health service, and for the observation of the pupil by mental health professionals in an educational setting.

(3) The pupil has emotional or behavioral characteristics that:

(A) Are observed by qualified educational staff in educational and other settings, as appropriate.

(B) Impede the pupil from benefiting from educational services.

(C) Are significant as indicated by their rate of occurrence and intensity.

(D) Are associated with a condition that cannot be described solely as a social maladjustment or a temporary adjustment problem, and cannot be resolved with short-term counseling.

(4) As determined using educational assessments, the pupil's functioning, including cognitive functioning, is at a level sufficient to enable the pupil to benefit from mental health services.

(5) The local education agency has provided counseling, psychological, or guidance services to the pupil pursuant to Section 56363 of the Education Code, and the individualized education program team has determined that the services do not meet the pupil's educational needs, or, in cases where these services are clearly inappropriate, the individualized education program team has documented which of these services were considered and why they were determined to be inappropriate.

(c) When referring a pupil to a community mental health service in accordance with subdivision (b), the local education agency or the individualized education program team shall provide the following documentation:

(1) Copies of the current individualized education program, all current assessment reports completed by school personnel in all areas of suspected disabilities pursuant to Article 2 (commencing with Section 56320) of Chapter 4 of Part 30 of the Education Code, and other relevant information, including reports completed by other agencies.

(2) A copy of the parent's consent obtained as provided in paragraph (2) of subdivision (b).

(3) A summary of the emotional or behavioral characteristics of the pupil, including documentation that the pupil meets the criteria set forth in paragraphs (3) and (4) of subdivision (b).

(4) A description of the counseling, psychological, and guidance services, and other interventions that have been provided to the pupil, including the initiation, duration, and frequency of these services, or an explanation of why a service was considered for the pupil and determined to be inappropriate.

(d) Based on preliminary results of assessments performed pursuant to Section 56320 of the Education Code, a local education agency may refer a pupil who has been determined to be, or is suspected of being, an individual with exceptional needs, and is suspected of needing mental health services, to a community mental health service when a pupil meets the criteria in paragraphs (1) and (2). Referral packages shall include all documentation required in subdivision (e) and shall be provided immediately to the community mental health service.

(1) The pupil meets the criteria in paragraphs (2) to (4), inclusive, of subdivision (b).

(2) Counseling, psychological, and guidance services are clearly inappropriate in meeting the pupil's needs.

(e) When referring a pupil to a community mental health service in accordance with subdivision (d), the local education agency shall provide the following documentation:

(1) Results of preliminary assessments to the extent they are available and other relevant information including reports completed by other agencies.

(2) A copy of the parent's consent obtained as provided in paragraph (2) of subdivision (b).

(3) A summary of the emotional or behavioral characteristics of the pupil, including documentation that the pupil meets the criteria in paragraphs (3) and (4) of subdivision (b).

(4) An explanation as to why counseling, psychological, and guidance services are clearly inappropriate in meeting the pupil's needs.

(f) The procedures set forth in this chapter are not designed for use in responding to psychiatric emergencies or other situations requiring immediate response. In these situations, a parent may seek services from other public programs or private providers, as appropriate. This subdivision shall not change the identification and referral responsibilities imposed on local education agencies under Article 1 (commencing with Section 56300) of Chapter 4 of Part 30 of the Education Code.

(g) Referrals shall be made to the community mental health service in the county in which the pupil lives. If the pupil has been placed into residential care from another county, the community mental health service receiving the referral shall forward the referral

immediately to the community mental health service of the county of origin, which shall have fiscal and programmatic responsibility for providing or arranging for provision of necessary services. In no event shall the procedures described in this subdivision delay or impede the referral and assessment process.

SEC. 3. Section 7586.6 is added to the Government Code, to read:

7586.6. (a) The Superintendent of Public Instruction and the Secretary of Health and Welfare shall ensure that the State Department of Education and the State Department of Mental Health enter into an interagency agreement by January 1, 1998. It is the intent of the Legislature that the agreement include, but not be limited to, procedures for ongoing joint training, technical assistance for state and local personnel responsible for implementing this chapter, protocols for monitoring service delivery, and a system for compiling data on program operations.

(b) It is the intent of the Legislature that the designated local agencies of the State Department of Education and the State Department of Mental Health update their interagency agreements for services specified in this chapter at the earliest possible time. It is the intent of the Legislature that the state and local interagency agreements be updated at least every three years or earlier as necessary.

SEC. 4. Section 7587 of the Government Code is amended to read:

7587. By January 1, 1986, each state department named in this chapter shall develop regulations, as necessary, for the department or designated local agency to implement this act. All regulations shall be reviewed by the Superintendent of Public Instruction prior to filing with the Office of Administrative Law, in order to ensure consistency with federal and state laws and regulations governing the education of disabled children. The directors of each department shall adopt all regulations pursuant to this section as emergency regulations in accordance with Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2. For the purpose of the Administrative Procedure Act, the adoption of the regulations shall be deemed to be an emergency and necessary for the immediate preservation of the public peace, health and safety, or general welfare. These regulations shall not be subject to the review and approval of the Office of Administrative Law and shall not be subject to automatic repeal until the final regulations take effect on or before June 30, 1997, and the final regulations shall become effective immediately upon filing with the Secretary of State. Regulations adopted pursuant to this section shall be developed with the maximum feasible opportunity for public participation and comments.

SEC. 5. Notwithstanding Section 17610 of the Government Code, if the Commission on State Mandates determines that this act

contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code. If the statewide cost of the claim for reimbursement does not exceed one million dollars (\$1,000,000), reimbursement shall be made from the State Mandates Claims Fund.

Notwithstanding Section 17580 of the Government Code, unless otherwise specified, the provisions of this act shall become operative on the same date that the act takes effect pursuant to the California Constitution.

SUBJECT: Pupils: mental health services

SOURCE: Department of Mental Health

DIGEST: This bill establishes procedures governing the  
referral of children with disabilities to county mental  
health departments and delineates the responsibilities of  
those departments. It specifies that, beginning July 1,  
1997, counties shall be responsible for placement costs for  
children placed in other states which are now being paid by  
school districts.

ANALYSIS: Chapter 1747, Statutes of 1984 (AB 3632), and  
Chapter 1274, Statutes of 1985 (AB 682), require county  
mental health departments to provide mental health services  
to special education pupils who need the services to  
benefit from their education. The program has gradually  
grown, and now provides services to around 17,000 pupils  
annually (1993-94 data), including around 1,000 who receive  
residential care funded by counties and the state  
Department of Social Services.

The bill provides that local education agency or  
individualized education program team shall refer a child  
with a disability who is suspected to need mental health  
services. A referral of a child with a disability shall be  
made to a county mental health department when:

1. A child has been assessed by school personnel to  
determine the necessity for mental health services and  
the level of services needed.
2. The local education agency has obtained written parental  
consent for the referral to the county mental health  
department, for the release and exchange of information  
between the local education agency and the county mental  
health department, and for the observation of the child  
by mental health professionals in an education setting.
3. The child has emotional and/or behavioral characteristics  
that prevent him or her from benefiting from special  
education; and these characteristics are observed by  
educational staff in a variety of educational and other  
settings as appropriate.
4. The child's emotional and/or behavioral characteristics  
are associated with a condition that cannot be defined  
solely as a social maladjustment or a temporary

adjustment problem, and cannot be resolved with short-term counseling; the pupil's functioning is at a level sufficient to enable him or her to benefit from mental health services.

5. The local education agency has provided counseling, psychological, or guidance services to the child, as

72

?

□

AB 2726  
Page

3

specified, and the individualized education program team has determined that the services do not meet the child's educational needs, or, in cases where these services are clearly inappropriate, the individualized education program team has documented which of these services were considered and why they were determined to be inappropriate.

These procedures are not intended for use in psychiatric emergencies or other situations requiring immediate response. In these situations, a local education agency may make referrals to other public programs and/or private providers, as appropriate.

The bill further provides that, commencing July 1, 1997, fiscal and program responsibilities of county mental health departments in the placement of children meeting the criteria of this bill shall be the same for placements made outside California as they are for placements made inside California.

The bill requires the Superintendent of Public Instruction and the Secretary of Health and Welfare to ensure that the State Department of Education and the State Department of Mental Health enter into an interagency agreement by January 1, 1998. States legislative intent that the agreement include, but not be limited to, procedures for ongoing joint training, technical assistance for state and local personnel responsible for implementing this chapter, protocols for monitoring service delivery, and a system for compiling data on program operations.

According to the Department of Mental Health:

The program is currently operating under emergency regulations, which, among other things, specify criteria that must be met prior to referring a child for mental health services. Although a work group spent many hours developing draft final regulations, they have never been released for public comment due to concerns that adopting them would have the effect of expanding the number of children that can be referred, thereby resulting in potentially significant costs to county mental health departments.

California Mental Health Directors Association

OPPOSITION: (Verified 8/21/96)

Community Alliance for Special Education  
Protection and Advocacy, Inc. (Unless amended)

ARGUMENTS IN SUPPORT: According to the Department of Mental Health, "this bill is intended as a vehicle to resolve the issues surrounding final regulations for the provision of mental health services to special education

pupils who need the services to benefit from their education. The Department of Mental Health has incorporated into this bill specific statutory restrictions on referrals for mental health services. These restrictions are consistent with current emergency regulations which limit referrals to special education pupils who have had severe problems over a long period of time that cannot be ameliorated with counseling provided by schools. The department has worked with various parties to develop specific statutory revisions that are acceptable to both mental health and education agencies."

ARGUMENTS IN OPPOSITION: Protection and Advocacy, Inc. opposes this bill unless amended to clarify that it is the ultimate responsibility of local education agencies to provide needed service not obtained under this chapter from the Department of Mental Health. Protection and Advocacy,

74

Exhibit B

Claiming Instructions

OFFICE OF THE STATE CONTROLLER

STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2000-14

SERIOUSLY EMOTIONALLY DISTURBED PUPILS:  
OUT-OF-STATE MENTAL HEALTH SERVICES

JANUARY 2, 2001

In accordance with Government Code Section (GC) 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated cost programs. The following are claiming instructions and forms that eligible claimants will use for the filing of claims for Seriously Emotionally Disturbed Pupils: Out of State Mental Health Services (SEDP). These claiming instructions are issued subsequent to the adoption of the program's parameters and guidelines (P's & G's) by the Commission on State Mandates (COSM).

On May 25, 2000, COSM determined that the SEDP program establishes costs mandated by the State according to the provisions listed in the attached P's & G's. For your reference, the P's & G's are included as an integral part of the claiming instructions.

Government Code Section 7576, as amended by Chapter 654, Statutes of 1996, established new fiscal and programmatic responsibilities for counties to provide mental health services to SED pupils placed in out-of-state residential programs.

**Eligible Claimants**

Any county that incurs increased costs as a direct result of this mandate is eligible to claim reimbursement of these costs.

**Filing Deadlines**

**A. Initial Claims**

Initial claims must be filed within 120 days from the issuance date of claiming instructions. Reimbursement claims for the period January 1, 1997, through June 30, 1997, and 1997-98 through 1999-00 fiscal years must be filed with SCO and must be delivered or postmarked on or before **May 2, 2001**. Annually thereafter, having received payment for an estimated claim, the claimant must file a reimbursement claim by January 15 of the following fiscal year. Claims filed after the deadline will be reduced by a late penalty of 10%, not to exceed \$1,000. All initial reimbursement claims will be considered as one claim for the purpose of computing the late claim penalty. If the claims are late, the penalty should be applied to a single fiscal year. The penalty should not be prorated among fiscal years. In order for a claim to be considered properly filed, it must include any specific supporting documentation requested in the instructions. **Claims filed more than one year after the deadline, or without the requested supporting documentation, will not be accepted.**

**B. Estimated Claims**

Unless otherwise specified in the claiming instructions, local agencies are not required to provide cost schedules and supporting documents with an estimated claim if the estimated

amount does not exceed the previous fiscal year's actual costs by more than 10%. The claimant can simply enter the estimated amount on form FAM-27, line (07). However, if the estimated claim exceeds the previous fiscal year's actual costs by more than 10%, the claimant must complete supplemental claim forms to support their estimated costs as specified for the program to explain the reason for the increased costs. If no explanation supporting the higher estimate is provided with the claim, it will automatically be adjusted to 110% of the previous fiscal year's actual costs.

Estimated claims filed with SCO must be postmarked by January 15 of the fiscal year in which costs will be incurred. However, 2000-01 estimated claims must be filed with SCO and postmarked by **May 2, 2001**. Timely filed claims will be paid before late claims.

#### **Minimum Claim Cost**

GC § 17564(a) provides that no claim shall be filed pursuant to § 17561 unless such a claim exceeds \$200 per program per fiscal year. Claims should be rounded to the nearest dollar.

#### **Reimbursement Claims**

Initial reimbursement claims will only be reimbursed to the extent that expenditures can be supported and, if such information is unavailable, claims will be reduced. In addition, ongoing reimbursement claims must be supported by documentation as evidence of the expenditures. Examples of documentation may include, but are not limited to, employee time records that identify mandate activities, payroll records, invoices, receipts, contracts, travel expense vouchers, purchase orders, and caseload statistics.

#### **Audit of Costs**

All claims submitted to SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the P's & G's adopted by COSM. If any adjustments are made to a claim, a "Notice of Claim Adjustment," specifying the claim component adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within 30 days after payment of the claim.

On-site audits will be conducted by SCO as deemed necessary. Accordingly, all documentation to support actual costs claimed must be retained for a period of two years after the end of the calendar year in which the reimbursement claim was filed or amended regardless of the year of costs incurred. When no funds are appropriated for initial claims at the time the claim is filed, supporting documents must be retained for two years from the date of initial payment of the claim. Claim documentation shall be made available to SCO on request.

#### **Retention of Claiming Instructions**

The claiming instructions and forms in this package should be retained permanently in your *Mandated Cost Manual* for future reference and use in filing claims. These forms should be duplicated to meet your filing requirements. You will be notified of updated forms or changes to claiming instructions as necessary.

For your reference, these and future mandated costs claiming instructions and forms can be found on the Internet at [www.sco.ca.gov/ard/local/locreim/index.htm](http://www.sco.ca.gov/ard/local/locreim/index.htm).

### **Address for Filing Claims**

Submit a signed original and a copy of form FAM-27, Claim for Payment, and a copy of all other forms and supporting documents to:

## Parameters and Guidelines

Government Code Section 7576  
Statutes of 1996, Chapter 654

California Code of Regulations, Title 2, Division 9, Chapter 1, Sections 60000-60610  
California Department of Mental Health Information Notice Number 86-29

### *Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services*

#### I. SUMMARY OF MANDATE

Government Code section 7576, as amended by Statutes of 1996, Chapter 654, established new fiscal and programmatic responsibilities for counties to provide mental health services to Seriously Emotionally Disturbed (SED) pupils placed in out-of-state residential programs. In this regard, Title 2, Division 9, Chapter 1 of the California Code of Regulations, sections 60000 through 60610, were amended to further define counties' fiscal and programmatic responsibilities including those set forth under section 60100 entitled "LEA Identification and Placement of a Seriously Emotionally Disturbed Pupil," providing that residential placements for a SED pupil may be made out-of-state only when no in-state facility can meet the pupil's needs, and under section 60200 entitled "Financial Responsibilities," detailing county mental health and LEA financial responsibilities regarding the residential placements of SED pupils.

On May 25, 2000, the Commission on State Mandates (Commission) adopted its Statement of Decision on the subject test claim, finding the following activities to be reimbursable:

- Payment of out-of state residential placements for SED pupils. (Gov. Code, § 7576, Cal. Code Regs., tit. 2, §§ 60100, 60110)
- Case management of out-of-state residential placements for SED pupils. Case management includes supervision of mental health treatment and monitoring of psychotropic medications. (Gov. Code, § 7576, Cal. Code Regs., tit. 2, § 60110.)
- Travel to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's Individualized Education Plan (IEP). (Cal. Code Regs., tit. 2, § 60110.)
- Program management, which includes parent notifications, as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, subdivision 60000-60610. (Gov. Code, § 7576; Cal. Code of Regs., tit. 2, §§ 60100, 60110.)

## II. ELIGIBLE CLAIMANTS

Counties.

## III. PERIOD OF REIMBURSEMENT

Section 17557 of the Government Code, prior to its amendment by Statutes of 1998, Chapter 681, stated that a test claim must be submitted on or before December 31 following a given fiscal year to establish eligibility for that year. This test claim was filed by the County of Los Angeles on December 22, 1997. Statutes of 1996, Chapter 654, was enacted on September 19, 1996 and became effective on January 1, 1997. Therefore, costs incurred in implementing Chapter 654, Statutes of 1996 on or after January 1, 1997, are eligible for reimbursement.

Actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to section 17561, subdivision (d)(1) of the Government Code, all claims for reimbursement of initial years' costs shall be submitted within 120 days of notification by the State Controller of the enactment of the claims bill.

If total costs for a given year do not exceed \$200, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

## IV. REIMBURSABLE ACTIVITIES

The direct and indirect costs of labor, materials and supplies, contracted services, equipment, training, and travel incurred for the following mandate components are eligible for reimbursement:

### A. One-Time Costs

1. To develop policies, procedures and contractual arrangements, necessary to implement a county's new fiscal and programmatic responsibilities for SED pupils placed in out-of-state residential programs.
2. To conduct county staff training on the new policies, procedures and contractual arrangements, necessary to implement a county's new fiscal and programmatic responsibilities for SED pupils placed in out-of-state residential programs.

### B. Continuing Costs

#### 1. Mental Health Service Vendor Reimbursements

To reimburse counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, California Code Regulations, sub divisions 60100 and 60110.

#### 2. Case Management

To reimburse counties for case management of SED pupils in out-of-state residential placements, including supervision of mental health treatment and monitoring of psychotropic medications as specified in Government Code section 7576 and Title 2, California Code of Regulations, sub division 60110, including the costs of treatment

related litigation (including administrative proceedings) over such issues as placement and the administration of psychotropic medication. Litigation (including administrative proceedings) alleging misconduct by the county or its employees, based in negligence or intentional tort, shall not be included.

### 3. Travel

To reimburse counties for travel costs necessary to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's IEP as specified in Title 2, California Code of Regulations, subdivision 60110.

### 4. Program Management

To reimburse counties for program management costs, which include the costs of parent notifications as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, subdivisions 60100 and 60110.

## V. CLAIM PREPARATION AND SUBMISSION

Each claim for reimbursement must be timely filed and identify each cost element for which reimbursement is claimed under this mandate. Claimed costs must be identified to each reimbursable activity identified in Section IV. of these Parameters and Guidelines.

### A. Direct Costs

Direct costs are defined as costs that can be traced to specific goods, services, units, programs, activities or functions.

Claimed costs shall be supported by the following cost element information:

#### 1. Salaries and Benefits

Identify the employee(s), and/or show the classification of the employee(s) involved. Describe the reimbursable activities performed and specify the actual time devoted to each reimbursable activity by each employee, productive hourly rate and related fringe benefits.

Reimbursement for personnel services includes compensation paid for salaries, wages and employee fringe benefits. Employee fringe benefits include regular compensation paid to an employee during periods of authorized absences (e.g., annual leave, sick leave) and the employer's contribution to social security, pension plans, insurance, and worker's compensation insurance. Fringe benefits are eligible for reimbursement when distributed equitably to all job activities which the employee performs.

#### 2. Materials and Supplies

Only expenditures that can be identified as direct costs of this mandate may be claimed. List the cost of the materials and supplies consumed specifically for the purposes of this mandate. Purchases shall be claimed at the actual price after deducting cash discounts, rebates and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged based on a recognized method of costing, consistently applied.

### 3. Contract Services

Provide the name(s) of the contractor(s) who performed the services, including any fixed contract for services. Describe the reimbursable activity(ies) performed by each named contractor and give the number of actual hours spent on the activities, if applicable. Show the inclusive dates when services were performed and itemize all costs for those services.

### 4. Fixed Assets

List the costs of the fixed assets that have been acquired specifically for the purpose of this mandate. If the fixed asset is utilized in some way not directly related to the mandated program, only the pro-rata portion of the asset which is used for the purposes of the mandated program is eligible for reimbursement.

### 5. Travel

Travel expenses for mileage, per diem, lodging, and other employee entitlements are eligible for reimbursement in accordance with the rules of the local jurisdiction. Provide the name(s) of the traveler(s), purpose of travel, inclusive dates and times of travel, destination points, and travel costs.

### 6. Training

The cost of training an employee to perform the mandated activities, as specified in Section IV of these Parameters and Guidelines, is eligible for reimbursement. Identify the employee(s) by name and job classification. Provide the title and subject of the training session, the date(s) attended, and the location. Reimbursable costs may include salaries and benefits, registration fees, transportation, lodging, and per diem.

## B. Indirect Costs

Indirect costs are defined as costs which are incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular department or program without efforts disproportionate to the result achieved. Indirect costs may include both: (1) overhead costs of the unit performing the mandate; and (2) the costs of central government services distributed to other departments based on a systematic and rational basis through a cost allocation plan.

Compensation for indirect costs is eligible for reimbursement utilizing the procedure provided in the OMB A-87. Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) for the department if the indirect cost rate exceeds 10%. If more than one department is claiming indirect costs for the mandated program, each department must have its own ICRP prepared in accordance with OMB A-87. An ICRP must be submitted with the claim when the indirect cost rate exceeds 10%.

## VI. SUPPORTING DATA

For auditing purposes, all costs claimed shall be traceable to source documents (e.g., invoices, receipts, purchase orders, contracts, worksheets, calendars, declarations, etc.) that show evidence of the validity of such costs and their relationship to the state mandated program. All

documentation in support of the claimed costs shall be made available to the State Controller's Office, as may be requested. Pursuant to Government Code section 17558.5, these documents must be kept on file by the agency submitting the claim for a period of no less than two years after the later of (1) the end of the calendar year in which the reimbursement claim is filed or last amended, or (2) if no funds are appropriated for the fiscal year for which the claim is made, the date of initial payment of the claim. All claims shall identify the number of pupils in out-of-state residential programs for the costs being claimed.

#### **VII. OFFSETTING SAVINGS AND OTHER REIMBURSEMENTS**

Any offsetting savings the claimant experiences as a direct result of the subject mandate must be deducted from the costs claimed. In addition, reimbursement for this mandate received from any source, including but not limited to federal funds and other state funds, shall be identified and deducted from this claim.

#### **VIII. STATE CONTROLLER'S OFFICE REQUIRED CERTIFICATION**

An authorized representative of the claimant shall be required to provide a certification of the claim, as specified in the State Controller's Office claiming instructions, for those costs mandated by the State contained herein.

Los Angeles, CA 90012

Dear Ms. Molina:

The State Controller's Office audited the costs claimed by Los Angeles County for the legislatively mandated Seriously Emotionally Disturbed Pupils: Out-of-State Mental Health Services Program (Chapter 654, Statutes of 1996) for the period of July 1, 2003, through June 30, 2006.

The county claimed \$54,952,597 for the mandated program. Our audit disclosed that \$42,530,422 is allowable and \$12,422,175 is unallowable. The costs are unallowable because the county claimed ineligible vendor payments for out-of-state residential placements of seriously emotionally disturbed pupils in facilities that are owned and operated for profit and unsupported residential placement and program management costs; applied indirect cost rates to ineligible and unsupported costs; applied offsetting revenues toward ineligible direct costs; and did not provide support for portions of program management costs reimbursed by federal, state, and local funds. The State paid the county \$39,561,465. Allowable costs claimed exceed the amount paid by \$2,968,957.

If you disagree with the audit findings, you may file an Incorrect Reduction Claim (IRC) with the Commission on State Mandates (CSM). The IRC must be filed within three years following the date that we notify you of a claim reduction. You may obtain IRC information at the CSM's Web site at [www.csm.ca.gov/docs/IRCForm.pdf](http://www.csm.ca.gov/docs/IRCForm.pdf).

If you have any questions, please contact Jim L. Spano, Chief, Mandated Cost Audits Bureau, at (916) 323-5849.

Sincerely,

*Original signed by*

# Audit Report

## Summary

The State Controller's Office (SCO) audited the costs claimed by Los Angeles County for the legislatively mandated Seriously Emotionally Disturbed Pupils: Out-of-State Mental Health Services Program (Chapter 654, Statutes of 1996) for the period of July 1, 2003, through June 30, 2006.

The county claimed \$54,952,597 for the mandated program. Our audit disclosed that \$42,530,422 is allowable and \$12,422,175 is unallowable. The costs are unallowable because the county claimed ineligible vendor payments for out-of-state residential placements of seriously emotionally disturbed pupils in facilities that are owned and operated for profit and unsupported residential placement and program management costs; applied indirect cost rates to ineligible and unsupported costs; applied offsetting revenues toward ineligible direct costs; and did not provide support for portions of program management costs reimbursed by federal, state, and local funds. The State paid the county \$39,561,465. Allowable costs claimed exceed the amount paid by \$2,968,957.

## Background

Chapter 654, Statutes of 1996, added and amended Government Code section 7576 by allowing new fiscal and programmatic responsibilities for counties to provide mental health services to seriously emotionally disturbed (SED) pupils placed in out-of-state residential programs. Counties' fiscal and programmatic responsibilities including those set forth in California Code of Regulations section 60100 which provides that residential placements for a SED pupils may be made out-of-state only when no in-state facility can meet the pupil's needs.

On May 25, 2000, the Commission on State Mandates (CSM) determined that Chapter 654, Statutes of 1996, imposed a state mandate reimbursable under Government Code section 17561 for the following:

- Payment of out-of-state residential placements for SED pupils;
- Case management of out-of-state residential placements for SED pupils. Case management includes supervision of mental health treatment and monitoring of psychotropic medications;
- Travel to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's Individualized Education Plan;
- Program management, which includes parent notifications, as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576.

The program's parameters and guidelines establish the state mandate and define reimbursement criteria. CSM adopted the parameters and guidelines on October 26, 2000. In compliance with Government Code section 17558, the SCO issues claiming instructions for mandated programs, to assist local agencies and school districts in claiming mandated program reimbursable costs.

## **Objective, Scope, and Methodology**

We conducted the audit to determine whether costs claimed represent increased costs resulting from the Seriously Emotionally Disturbed Pupils: Out-of-State Mental Health Services Program for the period of July 1, 2003, through June 30, 2006.

Our audit scope included, but was not limited to, determining whether costs claimed were supported by appropriate source documents, were not funded by another source, and were not unreasonable and/or excessive.

We conducted this performance audit under the authority of Government Code sections 12410, 17558.5, and 17561. We did not audit the county's financial statements. We conducted the audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

We limited our review of the county's internal controls to gaining an understanding of the transaction flow and claim preparation process as necessary to develop appropriate auditing procedures.

## **Conclusion**

Our audit disclosed instances of noncompliance with the requirements outlined above. These instances are described in the accompanying Summary of Program Costs (Schedule I) and in the Findings and Recommendations section of this report.

For the audit period, Los Angeles County claimed \$54,952,597 for costs of the Seriously Emotionally Disturbed Pupils: Out-of-State Mental Health Services Program. Our audit disclosed that \$42,530,422 is allowable and \$12,422,175 is unallowable.

For the fiscal year (FY) 2003-04 claim, the State made no payment to the county. Our audit disclosed that \$11,028,561 is allowable. The State will pay allowable costs claimed that exceed the amount paid, totaling \$11,028,561, contingent upon available appropriations.

For the FY 2004-05 claim, the State paid the county \$19,580,271. Our audit disclosed that \$15,379,320 is allowable. The State will offset \$4,200,951 from other mandated program payments due the county. Alternatively, the county may remit this amount to the State.

For the FY 2005-06 claim, the State paid the county \$19,981,194. Our audit disclosed that \$16,122,541 is allowable. The State will offset \$3,858,653 from other mandated program payments due the county. Alternatively, the county may remit this amount to the State.

### **Views of Responsible Officials**

We issued a draft audit report on December 23, 2009. Wendy L. Watanabe, Auditor-Controller, responded by letter dated January 13, 2010 (Attachment), agreeing with the audit results. This final audit report includes the county's response.

Subsequent to the issuance of the draft report and the county's response to the SED Pupils: Out-of-State Mental Health Services Program audit, we finalized the Handicapped and Disabled Students Program audit. Our Handicapped and Disabled Students Program audit disclosed that the county over-applied Individuals with Disabilities Education Act (IDEA) funds by \$954,297 for FY 2003-04. We applied the excess of IDEA revenues to the SED Pupils: Out-of-State Mental Health Services Program. Hasmik Yaghobyan, SB 90 Coordinator, responded by e-mail on April 13, 2010, agreeing with the revised audit results.

### **Restricted Use**

This report is solely for the information and use of Los Angeles County, the California Department of Finance, and the SCO; it is not intended to be and should not be used by anyone other than these specified parties. This restriction is not intended to limit distribution of this report, which is a matter of public record.

<sup>1</sup> See the Findings and Recommendations section.

## Findings and Recommendations

### FINDING 1—

#### Ineligible vendor costs

The county overstated vendor costs by \$15,021,880 for the audit period.

The county claimed ineligible vendor payments of \$15,001,966 (mental health treatment, and board and care costs) for out-of-state residential placement of seriously emotionally disturbed (SED) pupils in facilities that are owned and operated for profit. Further, the county claimed unsupported residential placement costs of \$19,914.

The program's parameters and guidelines (section IV.C.1) specify that the mandate is to reimburse counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, California Code of Regulations, sections 60100 and 60110.

Title 2, *California Code Regulations*, section 60100, subdivision (h), specifies that out-of-state residential placements shall be made only in residential programs that meet the requirements of Welfare and Institutions Code sections 11460, subdivisions (c)(2) through (3). Welfare and Institutions Code section 11460, subdivision (c)(3), states that reimbursement shall only be paid to a group home organized and operated on a nonprofit basis.

The parameters and guidelines also state that all costs claimed must be traceable to source documents that show evidence of the validity of such costs and their relationship to the state mandated program.

The following table summarizes the unallowable vendor costs claimed:

	Fiscal Year			Total
	2003-04	2004-05	2005-06	
Ineligible placements	\$ (4,158,315)	\$ (5,179,730)	\$ (5,663,921)	\$ (15,001,966)
Unsupported costs	(19,914)	—	—	(19,914)
Total	\$ (4,178,229)	\$ (5,179,730)	\$ (5,663,921)	\$ (15,021,880)

#### Recommendation

We recommend that the county implement policies and procedures to ensure that out-of-state residential placements are made in accordance with laws and regulations. Further, we recommend that the county claim only eligible and supportable residential placement costs.

#### County's Response

The county agreed with the finding.

**FINDING 2—  
Unsupported program  
management costs**

The county claimed unsupported program management costs of \$16,304 for the audit period.

The county claimed unsupported program management costs (shipping charges) of \$16,304 due to clerical errors. For FY 2004-05, the county erroneously claimed \$7,386 for one day's shipping costs when the total unallocated shipping charges for the day was only \$78, none of which was related to the mandated program. Furthermore, for FY 2005-06, the county inadvertently charged total shipping charges of \$14,452 while the program-related portion was only \$5,534. We adjusted program management costs to reflect actual program related shipping charges incurred by the county.

The parameters and guidelines (section IV.C.4) specify that the mandate is to reimburse counties for program management costs, which include the costs of parent notifications as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placements as specified in Government Code section 7576 and Title 2, *California Code of Regulations*, sections 60100 and 60110.

The parameters and guidelines also state that all costs claimed must be traceable to source documents that show evidence of the validity of such costs and their relationship to the state mandated program.

The following table summarizes the unsupported program management costs claimed:

	Fiscal Year		Total
	2004-05	2005-06	
Program management costs	\$ 7,386	\$ 8,918	\$ 16,304

Recommendation

We recommend that the county implement policies and procedures to ensure that claimed program management costs are fully supported by source documentation and steps are taken to minimize the opportunity for clerical errors in the manual process.

County's Response

The county agreed with the finding.

**FINDING 3—  
Overstated indirect costs**

The county overstated indirect costs by \$181,095 for the audit period.

The county applied indirect cost rates to ineligible and unsupported direct costs. Furthermore, the county used an indirect cost rate methodology that is inconsistent with other related mandated cost programs, (i.e., Handicapped and Disabled Students, Handicapped and Disabled Students II, and SED Pupils: Out-of-State Mental Health Services). In some instances the county applied a rate based on costs two years prior, while in other instances, the county applied a rate based on actual claim year costs. The disparate rates were applied to expenses in the same pool of cost, resulting in significant fluctuations in rates from year to year.

We recalculated indirect costs using actual rates applicable to the appropriate fiscal year and applied the rate to eligible costs.

The parameters and guidelines specify that administrative costs incurred in the performance of the mandated activities and adequately documented are reimbursable.

The parameters and guidelines further specify that to the extent that the California Department of Mental Health has not already compensated reimbursable indirect costs from categorical funding sources, they may be claimed.

The following table summarizes the overstated indirect costs claimed:

	Fiscal Year			Total
	2003-04	2004-05	2005-06	
Indirect costs	\$ (290,070)	\$ (266,619)	\$ 375,594	\$ (181,095)

Recommendation

We recommend that the county use a consistent methodology to determine rates that are applied to the same pools of cost, and take steps to ensure that indirect cost rates are applied to eligible costs.

County's Response

The county agreed with the finding.

**FINDING 4—  
Overstated offsetting  
reimbursements**

The county overstated offsetting reimbursements by \$2,797,104 for the audit period.

The county applied offsetting revenues toward ineligible vendor payments (mental health treatment, and board and care costs) for out-of-state residential placement of SED pupils in facilities that are owned and operated for profit. In addition, the county applied the offsetting revenues towards unsupported costs. Lastly, the county did not provide support for portions of program management salary and benefit costs reimbursed by federal, state, and local funds.

We recalculated total revenues by excluding revenues related to ineligible and unsupported costs. In addition, due to lack of support, we fully offset the remaining net program management salary and benefit costs claimed. For FY 2003-04, the county over applied Individuals with Disabilities Education Act (IDEA) funds to its Handicapped and Disabled Students claim. We applied the excess of IDEA revenues to the SED Pupils: Out-of-State Mental Health Services Program.

The parameters and guidelines provide that reimbursement for this mandate received from any source, including but not limited to federal funds and other state funds, shall be identified and deducted from the claim.

Title 2, *California Code Regulations*, section 60100, subdivision (h), specifies that out-of-state residential placements shall be made only in residential programs that meet the requirements of Welfare and Institutions Code sections 11460, subdivisions (c)(2) through (3). Welfare and Institutions Code section 11460, subdivision (c)(3), states that reimbursement shall only be paid to a group home organized and operated on a nonprofit basis.

Welfare and Institutions Code section 15200, subdivision (c)(1), provides the cost sharing mechanism whereby the California Department of Social Services reimburses counties for 40% of the 24-hour out-of-home residential board-and-care costs.

Welfare and Institutions Code section 18355, states, in part, notwithstanding any other provision of the law, 24-hour out-of-home care for seriously emotionally disturbed children who are placed in accordance with Government code, section 7572.5, shall be funded from a separate appropriation in the budget of the California Department of Social Services in order to fund both 24-hour out-of-home care payment and local administrative costs.

The following table summarizes the overstated offsetting revenues:

	Fiscal Year			Total
	2003-04	2004-05	2005-06	
Ineligible vendor costs	\$ 1,096,274	\$ 1,289,337	\$ 1,476,355	\$ 3,861,966
Unsupported program management	(36,249)	(36,553)	(37,763)	(110,565)
Under applied IDEA funds	(954,297)	—	—	(954,297)
Total	\$ 105,728	\$ 1,252,784	\$ 1,438,592	\$ 2,797,104

Recommendation

We recommend that the county implement policies and procedures to ensure that revenues are applied to eligible costs. Further, we recommend that the county identify and apply all applicable offsetting revenues including federal, state, and local reimbursements for program activities, and maintain source documentation to support its claim.

County's Response

The county agreed with the finding.

Mr. Jeffrey V. Brownfield, Chief  
Division of Audits  
State Controller's Office  
300 Capitol Mall, Suite 518  
Sacramento, California 95814

Dear Mr. Brownfield:

**LOS ANGELES COUNTY'S RESPONSE  
TO STATE CONTROLLER'S DRAFT AUDIT REPORT  
SERIOUSLY EMOTIONALLY DISTURBED PUPILS: OUT-OF-STATE MENTAL  
HEALTH SERVICES PROGRAM (SED), CHAPTER 654, STATUTES OF 1996**

The County of Los Angeles has reviewed the State's draft audit report dated December 23, 2009 for SED's program, for the period July 1, 2003 through June 30, 2006. The draft audit report concluded that, of the \$54,952,597 claimed under SED, \$43,484,719 is allowable. The remaining \$11,467,878 is not allowable pursuant to the Parameters and Guidelines adopted by the Commission on State Mandates on May 25, 2000.

The County's response, which is attached hereto, indicates agreement with the audit findings and the actions that the County will take to implement policies and procedures to ensure that the costs claimed under SED are eligible, mandate related, and supported. We also recognize that if the County subsequently provides additional information to support its \$11,467,878 of unallowable costs, or if there are any changes in the laws and regulations, the State will revise the final audit report to include such additional allowable costs.

If you have any questions, please contact Hasmik Yaghobyan at (213) 893-0792 or via e-mail at [hyaghobyan@auditor.lacounty.gov](mailto:hyaghobyan@auditor.lacounty.gov).

Very truly yours,

Wendy L. Watanabe  
Auditor-Controller

**LOS ANGELES COUNTY'S RESPONSE TO  
STATE CONTROLLER'S DRAFT AUDIT REPORT  
SERIOUSLY EMOTIONALLY DISTURBED PUPILS: OUT-OF-STATE MENTAL  
HEALTH SERVICES PROGRAM (SED), CHAPTER 654, STATUTES OF 1996  
JULY 1, 2003 THROUGH JUNE 30, 2006**

**Finding # 1- Ineligible Vendor Costs**

The County claimed ineligible vendor payments of \$15,001,966 (mental health treatment, and board and care costs) for out-of-state residential placement of seriously emotionally disturbed (SED) pupils in facilities that are owned and operated for profit. Further, the County claimed unsupported residential placement costs of \$19,914.

*Recommendation*

We recommend that the County implement policies and procedures to ensure that out-of-state residential placements are made in accordance with laws and regulations. Further, we recommend that the County claim only eligible and supportable residential placement costs.

*County's Response*

We agree with the recommendation. The County will review and establish policies and procedures to ensure that out-of-state residential placements are made in accordance with laws and regulations. The County will also review its claim procedures to ensure that residential placement costs are eligible and supportable.

**Finding # 2- Unsupported Program Management Costs**

The County claimed unsupported program management costs of \$16,304 for the audit period due to clerical errors.

*Recommendation*

We recommend that the County implement policies and procedures to ensure that claimed program management costs are fully supported by source documentation and steps are taken to minimize the opportunity for clerical errors in the manual process.

*County's Response*

We agree with the recommendation. The County will review and establish policies and procedures to ensure that program management costs are supported and contain no clerical errors.

**LOS ANGELES COUNTY'S RESPONSE TO  
STATE CONTROLLER'S DRAFT AUDIT REPORT  
SERIOUSLY EMOTIONALLY DISTURBED PUPILS: OUT-OF-STATE MENTAL  
HEALTH SERVICES PROGRAM (SED), CHAPTER 654, STATUTES OF 1996  
JULY 1, 2003 THROUGH JUNE 30, 2006**

**Finding # 3- Overstated Indirect Costs**

The County overstated indirect costs by \$181,095. The County applied indirect cost rates to ineligible and unsupported direct costs. Furthermore, the County used an indirect cost rate methodology that is inconsistent with other related mandated cost programs.

*Recommendation*

We recommend that the County use a consistent methodology to determine rates that are applied to the same pools of cost, and takes steps to ensure that indirect cost rates are applied to eligible costs.

*County's Response*

We agree with the recommendation. The County will review and establish policies and procedures to ensure that a consistent methodology for determining indirect cost rates applicable to the same pools of eligible costs is used.

**Finding # 4- Overstated Offsetting Reimbursements**

The County overstated offsetting reimbursements by \$3,751,401 for the audit period. The County applied offsetting revenues toward ineligible vendor payments (mental health treatment, and board and care costs) for out-of-state residential placement of SED pupils in facilities that are owned and operated for profit.

*Recommendation*

We recommend that the County implement policies and procedures to ensure that revenues are applied to eligible costs. Further, we recommend that the County identifies and applies all applicable offsetting revenues including federal, state, and local reimbursements for program activities, and maintain source documentation to support its claim.

*County's Response*

We agree with the recommendation. The County will review and establish policies and procedures to ensure that all applicable offsetting revenues (including federal, state, and local reimbursements) are identified, applied to eligible costs, and are supported by source documentation.

<b>(37) CERTIFICATION OF CLAIM</b>					
In accordance with the provisions of Government Code 17561, I certify that I am the officer authorized by the local agency to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Government Code Sections 1090 to 1098, inclusive.					
I further certify that there was no application other than from the claimant, nor any grant or payment received, for reimbursement of costs claimed herein, and such costs are for a new program or increased level of services of an existing program. All offsetting savings and reimbursements set forth in the Parameters and Guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.					
The amounts for this Estimated Claim and/or Reimbursement Claim are hereby claimed from the State for payment of estimated and/or actual costs set forth on the attached statements. I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

<b>(37) CERTIFICATION OF CLAIM</b>						
In accordance with the provisions of Government Code 17561, I certify that I am the officer authorized by the local agency to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Government Code Sections 1090 to 1098, inclusive.						
I further certify that there was no application other than from the claimant, nor any grant or payment received, for reimbursement of costs claimed herein, and such costs are for a new program or increased level of services of an existing program. All offsetting savings and reimbursements set forth in the Parameters and Guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.						
The amounts for this Estimated Claim and/or Reimbursement Claim are hereby claimed from the State for payment of estimated and/or actual costs set forth on the attached statements. I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

(37) CERTIFICATION OF CLAIM							
<p>In accordance with the provisions of Government Code 17561, I certify that I am the officer authorized by the local agency to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Government Code Sections 1090 to 1098, inclusive.</p> <p>I further certify that there was no application other than from the claimant, nor any grant or payment received, for reimbursement of costs claimed herein, and such costs are for a new program or increased level of services of an existing program. All offsetting savings and reimbursements set forth in the Parameters and Guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.</p> <p>The amounts for this Estimated Claim and/or Reimbursement Claim are hereby claimed from the State for payment of estimated and/or actual costs set forth on the attached statements. I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.</p>

**STATE CONTROLLER'S OFFICE ANALYSIS AND RESPONSE  
TO THE INCORRECT REDUCTION CLAIM BY  
LOS ANGELES COUNTY**

**For Fiscal Year (FY) 2003-04, FY 2004-05 and FY 2005-06**

**Seriously Emotionally Disturbed Pupils: Out-of-State Mental Health Services Program  
Chapter 654, Statutes of 1996**

**SUMMARY**

The following is the State Controller's Office's (SCO) response to the Incorrect Reduction Claim (IRC) that Los Angeles County filed on May 7, 2013. The SCO audited the county's claims for costs of the legislatively mandated Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services Program for the period of July 1, 2003, through June 30, 2006. The SCO issued its final report on May 7, 2010 (**Exhibit C**).

The county submitted reimbursement claims totaling \$54,952,597—\$15,391,132 for FY 2003-04 (**Tab 3**); \$19,580,271 for FY 2004-05 (**Tab 4**); and \$19,981,194 for FY 2005-06 (**Tab 5**). Subsequently, the SCO audited the claims and determined that \$42,530,422 is allowable and \$12,422,175 is unallowable. The county claimed unallowable costs primarily because it claimed vendor payments for out-of-state residential placement of SED pupils in facilities that are owned and operated for profit.

The following table summarizes the review results:

Cost Elements	Actual Costs Claimed	Allowable per Audit	Audit Adjustment
<u>July 1, 2003, through June 30, 2004</u>			
Ongoing costs:			
Mental health service:			
Vendor reimbursements	\$ 20,599,592	\$ 16,421,363	\$ (4,178,229)
Case management	400,621	400,621	—
Travel	30,260	30,260	—
Program management	15,968	147,287	(15,968)
Total direct costs	21,177,760	16,999,531	(4,178,229)
Total indirect costs	620,849	330,779	(279,070)
Total direct and indirect	21,798,609	17,330,310	(4,468,299)
Less reimbursements	(6,407,477)	(6,301,749)	105,728
Total program costs	<u>\$ 15,391,132</u>	11,028,561	<u>\$ (4,362,571)</u>
Less amount paid by the State <sup>1</sup>		—	
Allowable costs claimed in excess of (less than) amount paid		<u>\$ 11,028,561</u>

<sup>2</sup> County used incorrect indirect cost rates to compute associated indirect costs.

# **I. SCO REBUTTAL TO STATEMENT OF DISPUTE – CLARIFICATION OF REIMBURSABLE ACTIVITIES, CLAIM CRITERIA, AND DOCUMENTATION REQUIREMENTS**

## **Parameters and Guidelines**

On May 26, 2000, the Commission on State Mandates (Commission) determined that Chapter 654, Statutes of 1996 imposed a state mandate reimbursable under Government Code section 17561 (**Tab 6**). The Commission adopted the program's parameters and guidelines on October 26, 2000 (**Tab 7**), corrected it on July 21, 2006 (**Tab 8**), and amended it on October 26, 2006 (**Tab 9**). The correction clarified out-of-state residential placement costs of SED pupils, stating that vendor reimbursements include mental health services and board-and-care costs. The amendment relates to the closing out of the program after FY 2005-06. Beginning in FY 2006-07, the program becomes part of the consolidated parameters and guidelines that is made up of the Handicapped and Disabled Students, Handicapped and Disabled Students II, and SED Pupils: Out-of-State Mental Health Services Programs.

Following are excerpts from the SED Pupils: Out-of-State Mental Health Services Program's parameters and guidelines that are applicable to the audit period (**Tab 9**).

Section I, SUMMARY OF MANDATE, provides a summary of the mandate. It states:

## **I. SUMMARY OF MANDATE**

Government Code section 7576, as amended by Statutes of 1996, Chapter 654, established new fiscal and programmatic responsibilities for counties to provide mental health services to Seriously Emotionally Disturbed (SED) pupils placed in out-of-state residential programs. In this regard, Title 2, Division 9, Chapter 1 of the California Code of Regulations, sections 60000 through 60610, were amended to further define counties' fiscal and programmatic responsibilities including those set forth under section 60100 entitled "LEA Identification and Placement of a Seriously Emotionally Disturbed Pupil," providing that residential placements for a SED pupil may be made out-of-state only when no in-state facility can meet the pupil's needs, and under section 60200 entitled "Financial

Responsibilities," detailing county mental health and LEA financial responsibilities regarding the residential placements of SED pupils.

On May 25, 2000, the Commission on State Mandates (Commission) adopted its Statement of Decision on the subject test claim, finding the following activities to be reimbursable:

- Payment of out-of state residential placements for SED pupils. (Gov. Code, § 7576, Cal. Code Regs., tit. 2, §§ 60100, 60110)
- Case management of out-of-state residential placements for SED pupils. Case management includes supervision of mental health treatment and monitoring of psychotropic medications. (Gov. Code, § 7576, Cal. Code Regs., tit. 2, § 60110.)
- Travel to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's Individualized Education Plan (IEP). (Cal. Code Regs., tit. 2, § 60110.)
- Program management, which includes parent notifications, as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, subdivision 60000- 60610. (Gov. Code, § 7576; Cal. Code of Regs., tit. 2, §§ 60100, 60110.)

These parameters and guidelines are effective for reimbursement claims filed for costs incurred through the 2005-2006 fiscal year. Commencing with the 2006-2007 fiscal year, reimbursement claims shall be filed through the consolidated parameters and guidelines for *Handicapped and Disabled Students* (04-RL-4282-10), *Handicapped and Disabled Students II* (02-TC-40/02-TC-49), and *Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services* (97-TC-05).

Section III, PERIOD OF REIMBURSEMENT, identifies the reimbursable activities. It states:

### **III. PERIOD OF REIMBURSEMENT**

Section 17557 of the Government Code, prior to its amendment by Statutes of 1998, Chapter 681, stated that a test claim must be submitted on or before December 31 following a given fiscal year to establish eligibility for that year. This test claim was filed by the County of Los Angeles on December 22, 1997. Statutes of 1996, Chapter 654, was enacted on September 19, 1996 and became effective on January 1, 1997. Therefore, costs incurred in implementing Chapter 654, Statutes of 1996 on or after January 1, 1997, are eligible for reimbursement.

Actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to section 17561, subdivision (d)(1) of the Government Code, all claims for reimbursement of initial years' costs shall be submitted within 120 days of notification by the State Controller of the enactment of the claims bill.

If total costs for a given year do not exceed \$200, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

Section IV, REIMBURSABLE ACTIVITIES, identifies the reimbursable activities. It states:

### **IV. REIMBURSABLE ACTIVITIES**

The direct and indirect costs of labor, materials and supplies, contracted services, equipment, training, and travel incurred for the following mandate components are eligible for reimbursement:

#### **A. One-Time Costs**

1. To develop policies, procedures and contractual arrangements, necessary to implement a county's new fiscal and programmatic responsibilities for SED pupils placed in out-of-state residential programs.

2. To conduct county staff training on the new policies, procedures and contractual arrangements, necessary to implement a county's new fiscal and programmatic responsibilities for SED pupils placed in out-of-state residential programs.

**B. Continuing Costs**

1. **Mental Health Service Vendor Reimbursements**

To reimburse counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, California Code Regulations, sub divisions 60100 and 60110. Included in this activity is the cost for out-of-state residential board and care of SED pupils.

2. **Case Management**

To reimburse counties for case management of SED pupils in out-of-state residential placements, including supervision of mental health treatment and monitoring of psychotropic medications as specified in Government Code section 7576 and Title 2, California Code of Regulations, sub division 60110, including the costs of treatment related litigation (including administrative proceedings) over such issues as placement and the administration of psychotropic medication. Litigation (including administrative proceedings) alleging misconduct by the county or its employees, based in negligence or intentional tort, shall not be included.

3. **Travel**

To reimburse counties for travel costs necessary to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's IEP as specified in Title 2, California Code of Regulations, subdivision 60110.

4. **Program Management**

To reimburse counties for program management costs, which include the costs of parent notifications as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, sub divisions 60100 and 60110.

Section VI, SUPPORTING DATA, identifies the supporting data that must be maintained. It states:

**VI. SUPPORTING DATA**

For auditing purposes, all costs claimed shall be traceable to source documents (e.g., invoices, receipts, purchase orders, contracts, worksheets, calendars, declarations, etc.) that show evidence of the validity of such costs and their relationship to the state mandated program. All documentation in support of the claimed costs shall be made available to the State Controller's Office, as may be requested. Pursuant to Government Code section 17558.5, these documents must be kept on file by the agency submitting the claim for a period of no less than two years after the later of (1) the end of the calendar year in which the reimbursement claim is filed or last amended, or (2) if no funds are appropriated for the fiscal year for which the claim is made, the date of initial payment of the claim. All claims shall identify the number of pupils in out-of-state residential programs for the costs being claimed.

Section VII, OFFSETTING REVENUES AND OTHER REIMBURSEMENTS, identifies applicable offset requirements. It states:

**VII. OFFSETTING REVENUES AND OTHER REIMBURSEMENTS**

Any offsetting savings the claimant experiences as a direct result of the subject mandate must be deducted from the costs claimed. In addition, reimbursement for this mandate received from any source, including but not limited to federal funds and other state funds, shall be identified and deducted from this claim.

## **SCO Claiming Instructions**

In compliance with Government Code section 17558, the SCO issues claiming instructions for mandated programs in order to assist local agencies and school districts in claiming reimbursable costs. The SCO issued claiming instructions for Chapter 654, Statutes of 1996 in January 2001 (**Exhibit B**). The county used this version to file its reimbursement claims (**Tabs 3, 4, and 5**).

## **II. COUNTY OVERSTATED COSTS BY CLAIMING UNALLOWABLE OUT-OF-STATE RESIDENTIAL PLACEMENT COSTS**

### **Issue**

The county IRC contests a portion of Findings 1 and 3 in the SCO's final audit report issued May 7, 2014, related to unallowable out-of-state residential placement of SED pupils in for-profit facilities, consisting of treatment costs of \$5,325,405 and the related indirect costs of \$420,642.

The SCO concluded that vendor payments for residential placement costs resulting from the placement of SED pupils in facilities owned and operated for profit are not reimbursable under the state-mandated program.

The county believes that the treatment portion of residential placement costs resulting from the placement SED pupils in facilities owned and operated for profit are eligible and reimbursable under the state-mandated cost program.

### **SCO Analysis**

The county claimed \$5,746,047 in unallowable costs resulting from the out-of-state residential placement of SED pupils in for-profit facilities. These costs are not reimbursable under the SED Pupils: Out-of-State Mental Health Services Program.

The unallowable costs related to vendor payments for residential placement of clients in for-profit facilities involves ten facilities during the audit period as follows:

- For three of the ten residential facilities—Youth Care of Utah, Inc., Logon River Academy, LLC, and Charter Provo Canyon School, LLC—the county claimed vendor payments made to California nonprofit entities. The California nonprofit entities—Aspen Solutions, Inc. and Mental Health Systems, Inc.—contracted with the for-profit facilities located in Utah to provide residential placement services (**Tabs 12, 13 and 14**). The Youth Care of Utah, Logon River Academy, and Charter Provo Canyon School's Utah residential facilities are not organized and operated on a nonprofit basis.
- For three of the ten residential facilities—Aspen Ranch (**Tab 15**), New Leaf Academy and Sunhawk Academy (**Tab 16**)—the county asserted that the for-profit residential facilities had similar arrangements with Aspen Solutions, Inc. The county did not provide any documentation to support the nonprofit status of the three residential facilities. Further, the county did not provide any documentation illustrating the business relationship between the out-of-state residential facilities and the California nonprofit.
- For four of the ten residential facilities—Grove School, New Haven, Inc., Spring Creek Lodge, and Vista Adolescent Treatment Center—the county did not provide any documentation to support the nonprofit status of the four residential facilities.

The program's parameters and guidelines, Reimbursable Activities section IV. B., applicable to the time period specify the following services eligible for reimbursement (**Tab 9**):

1. Mental Health Service Vendor Reimbursements

To reimburse counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, California Code Regulations, sub divisions 60100 and 60110. Included in this activity is the cost for out-of-state residential board and care of SED pupils.

2. Case Management

To reimburse counties for case management of SED pupils in out-of-state residential placements, including supervision of mental health treatment and monitoring of psychotropic medications as specified in Government Code section 7576 and Title 2, California Code of Regulations, sub division 60110, including the costs of treatment related litigation (including administrative proceedings) over such issues as placement and the administration of psychotropic medication. Litigation (including administrative proceedings) alleging misconduct by the county or its employees, based in negligence or intentional tort, shall not be included.

3. Travel

To reimburse counties for travel costs necessary to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's IEP as specified in Title 2, California Code of Regulations, subdivision 60110.

4. Program Management

To reimburse counties for program management costs, which include the costs of parent notifications as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, sub divisions 60100 and 60110.

The parameters and guidelines, as noted in item 1 above, provides reimbursement to counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, *California Code of Regulations*, sections 60100 and 60110.

Title 2, *California Code of Regulations*, section 60100, subdivision (h), specifies that out-of-state residential placements shall be made only in residential programs that meet the requirements of Welfare and Institutions Code section 11460(c)(2) through (3) (**Tab 10**). Welfare and Institutions Code section 11460, subdivision (c)(3), states that reimbursement shall only be paid to a group home organized and operated on a nonprofit basis (**Tab 11**).

The parameters and guidelines do not provide reimbursement for out-of-state residential placement of SED pupils in facilities that are owned and operated for profit.

### County's Response

The County of Los Angeles Department of Mental Health (LADMH) has filed this IRC because there is no basis to permit the disallowance of vendor costs related to the provision of mental health services to pupils in out-of-state residential placements, even if owned and operated for profit; this is because the statute upon which the SCO based its disallowance applies only to the AFDC-FC rate payment and not to payments made for mental health services.

The SCO disallowed not only the payment for care and supervision but also the payment for mental health services, even though LACDMH was statutorily required under the Government Code to pay for the mental health treatment services for the pupil regardless of whether his or her out-of-state placement was operated on a for- or not-for-profit basis.

Accordingly, this Incorrect Reduction Claim seeks to have the following costs associated with mental health treatment services provided to SED pupils in out-of-state residential placements reinstated:

- Fiscal Year 2003-04: \$1,546,863 (including \$1,426,010 in direct costs and \$120,853 in indirect costs)
- Fiscal Year 2004-05: \$2,070,991 (including \$1,926,362 in direct costs and \$144,629 in indirect costs)
- Fiscal Year 2005-06: \$2,128,193 (including \$1,973,033 in direct costs and \$155,159 in indirect costs)

### **SCO's Comment**

Our objective was to determine whether the costs of the county-filed claims are reimbursable under the program's parameters and guidelines adopted by the Commission. We did not assess the appropriateness or need for services provided in light of federal regulations.

The county's IRC submission contains a few statements that were not accurate; these include an incomplete filing and the related indirect costs.

The county's filing does not include the reimbursement claims filed with the SCO. The exhibit includes the claims prepared by the county's mental health department that were submitted to its auditor-controller (**Exhibit D**). We have included the actual claim forms filed with the SCO as part of our response (**Tabs 3, 4 and 5**). These forms were signed by the county's auditor-controller and submitted to the SCO for reimbursement of state-mandated program costs.

Concerning the indirect cost rates, the county claimed 7.7066% for FY 2003-04, 6.8276% for FY 2004-05, and 0.2227% for FY 2005-06 on its filed mandate claims. However, in its filed IRC, the county indicated that its indirect cost rates are 8.4749% ( $\$120,853 \div \$1,426,010$ ) for FY 2003-04, 7.5079% ( $\$144,629 \div \$1,926,362$ ) for FY 2004-05, and 7.864% ( $\$155,159 \div \$1,973,033$ ) for FY 2005-06. Based on our audit of the claims, we found that actual indirect cost rates were 4.8497% for FY 2003-04, 5.0543% for FY 2004-05, and 4.7072% for FY 2005-06. In its response to the draft audit report, the county agreed with the indirect cost rates we determined to be allowable. The county also did not challenge the indirect cost rates in its IRC. The unallowable indirect costs are \$69,157 for FY 2003-04, \$97,364 for FY 2004-05, and \$92,875 for FY 2005-06 rather than \$120,853 for FY 2003-04, \$144,629 for FY 2004-05, and \$155,159 for FY 2005-06 as shown in its IRC.

A comparison of the rates used is shown in the table below.

	Fiscal Year			Total
	2003-04	2004-05	2005-06	
Indirect costs:				
Claimed rates	7.7066%	6.8276%	0.2227%	
IRC rates	8.4749%	7.5079%	7.864%	
Audited rates	4.8497%	5.0543%	4.7072%	
Unallowable direct costs	\$ 1,426,010	\$ 1,926,362	\$ 1,973,033	
Audited rates	4.8497%	5.0543%	4.7072%	
Revised indirect costs	<u>\$ 69,157</u>	<u>\$ 97,364</u>	<u>\$ 92,875</u>	<u>\$ 259,396</u>

A summary of the county arguments are presented in bold below and our response follows:

- A. Title 2, California Code of Regulations, sections 60100 and 60110 are not applicable for payment of mental health services costs. Further, Government Code section 7576 does not place a restriction on the on the type of facility providing community mental health services, even if located out-of-state.**

The parameters and guidelines (section IV.B.1) specify that the mandate is to reimburse counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, California Code of Regulations (CCR), sections 60100 and 60110. Title 2, CCR, section 60100, subdivision (h), specifies that out-of-state residential placements shall be made only in residential programs that meet the requirements of Welfare and Institutions Code section 11460, subdivision (c)(2) through (3). Welfare and Institutions Code section 11460, subdivision (c)(3), states that reimbursement shall only be paid to a group home organized and operated on a nonprofit basis. The program's parameters and guidelines do not provide reimbursement for out-of-state residential placements made outside the regulation.

We do not dispute that Government Code section 7572 requires mental health services to be provided by qualified mental health professionals. As noted in our previous response, the county is prohibited from placing a client in a for-profit facility and the residential placement vendor payments shall be made only to a group home organized and operated on a nonprofit basis. The unallowable treatment and board-and-care vendor payments claimed result from the county placement of clients in prohibited out-of-state residential facilities. Again, the state-mandated program's parameters and guidelines do not include a provision for the county to be reimbursed for vendor payments made to out-of-state residential placements outside of the regulations.

We agree that there is inconsistency between the California law and federal law related to IDEA funds. Furthermore, we do not dispute the assertion that California law is more restrictive than federal law in terms of out-of-state residential placement of SED pupils; however, the fact remains that this is a state-mandated cost program and the county filed a claim seeking reimbursement from the State under the provisions of Title 2, CCR, section 60100.

- B. In regard to special education services, the Education Code section 56366 places no such restriction based on profit status in consideration of the appropriate nonpublic, nonsectarian schools providing educational services.**

We also agree that Education Code sections 56366.1 and 56365 do not restrict local educational agencies (LEAs) from contracting with for-profit schools for educational services. These sections specify that educational services must be provided by a school certified by the California Department of Education.

Nevertheless, the fact remains that this is a state-mandated cost program and the county filed a claim seeking reimbursement from the State under the provisions of Title 2, CCR, section 60100, and Welfare and Institutions Code section 11460, subdivision (c)(3). Residential placements made outside of the regulation are not reimbursable under state-mandated cost program.

### III. CONCLUSION

The SCO audited Los Angeles County's claims for costs of the legislatively mandated SED Pupils: Out-of-State Mental Health Services Program (Chapter 654, Statutes of 1996) for the period of July 1, 2003, through June 30, 2006. The county claimed \$54,952,597 for the mandated program. Our audit disclosed that \$42,530,422 is allowable and \$12,422,175 is unallowable. The costs are unallowable because the county claimed ineligible vendor payments for out-of-state residential

placements of SED pupils in facilities that are owned and operated for profit; claimed unsupported residential placement and program management costs; applied incorrect indirect cost rates to ineligible and unsupported costs; applied offsetting reimbursements toward ineligible direct costs; and did not provide support for portions of program management costs reimbursed by federal, state, and local funds.

The county is challenging the SCO's adjustment totaling \$5,746,047, for the mental health treatment portion of ineligible out-of-state residential placement of SED pupils in facilities that are owned and operated for profit, and the associated indirect costs.

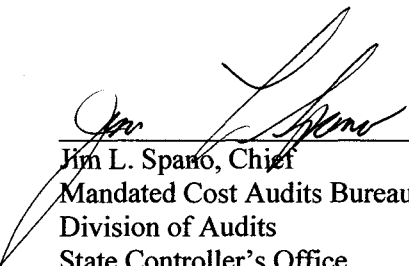

The county is not eligible to receive reimbursement for vendor payments made to ineligible out-of-state residential facilities for the placement of SED pupils. The underlying regulations do not provide for reimbursement of out-of-state residential placements made outside of the regulation. As such, vendor payments to for-profit facilities are not eligible for reimbursement under the state-mandated cost program.

In conclusion, the Commission should find that: (1) the SCO correctly reduced the county's FY 2003-04 claim by \$4,362,571; (2) the SCO correctly reduced the county's FY 2004-05 claim by \$4,200,951; and (3) the SCO correctly reduced the county's FY 2005-06 claim by \$3,858,653.

#### IV. CERTIFICATION

I hereby certify by my signature below that the statements made in this document are true and correct of my own knowledge, or, as to all other matters, I believe them to be true and correct based upon information and belief.

Executed on August 29, 2014, at Sacramento, California, by:

Jim L. Sparto, Chief  
Mandated Cost Audits Bureau  
Division of Audits  
State Controller's Office

STATEMENT OF DECISION PURSUANT  
TO GOVERNMENT CODE SECTION  
17500 ET SEQ.; TITLE 2, CALIFORNIA  
CODE OF REGULATIONS, DIVISION 2,  
CHAPTER 2.5, ARTICLE 7

*(Adopted on May 25, 2000)*

**STATEMENT OF DECISION**

The Commission on State Mandates (Commission) heard and decided this test claim on April 27, 2000 during a regularly scheduled hearing. Leonard Kaye, Paul McIver, Gurubanda Khalsa, and Robert Ulrich appeared for the County of Los Angeles and Daniel Stone appeared for the Department of Finance.

The law applicable to the Commission's determination of a reimbursable state mandated program is Government Code section 17500 et seq., article XIII B, section 6 of the California Constitution and related case law.

The Commission, by a vote of 7-0, approved this test claim.

**BACKGROUND AND FINDINGS**

This test claim alleges reimbursable costs mandated by the state regarding the monitoring and paying for out-of-state residential placements for seriously emotionally disturbed (SED) pupils as detailed in Government Code section 7576, California Code of Regulations sections 60000-60610, and the California Department of Mental Health Information Notice Number 86-29.

Prior law provided that any community mental health agency shall be responsible for the provision of psychotherapy or other mental health services, as defined by regulation, when required in an individual's IEP. Specifically, Government Code section 7576 as amended by Statutes of 1985, Chapter 1247 provided:

"Notwithstanding any other provision of law, the State Department of Mental Health, or any community mental health service designated by the State Department of Mental Health, shall be responsible for the provision of psychotherapy or other mental health services, as defined by regulation by the State Department of Mental Health, developed in consultation with the State Department of Education, when required in the child's [IEP]. This service shall be provided directly or by contracting with another public agency, qualified individual, or a state-certified nonpublic, nonsectarian school or agency. "

Regulations in effect immediately before the enactment of the test claim legislation prohibited county mental health agencies from providing psychotherapy and other mental health services in those cases where out-of-state residential placement was required. Section 60200 provided:

"(b) The local [county] mental health program shall be responsible for:

"(1) Provision of mental health services as recommended by a local mental health program representative and included in an [IEP]. Services shall be provided directly or by contract. . . . *The services must be provided within the State of California.*" (Emphasis added.)

In contrast, LEAs were required to provide mental health services for students placed outside of California under subdivision (c) of section 60200, which provided:

"(c) [LEAs] shall be responsible for:

"(3) *Mental health services when an individual with exceptional needs is placed in a nonpublic school outside of the State of California.*" (Emphasis added.)

Thus, the law in effect immediately before the enactment of the test claim legislation did not require county mental health agencies to pay or monitor the mental health component of out-of-state residential placements for SED pupils.<sup>1</sup>

#### The Test Claim Legislation

The Legislature, in section 1 of Statutes of 1996, Chapter 654, expresses its intent that:

"The *fiscal and program* responsibilities of community mental health services shall be the same *regardless of the location of placement*. . . . [LEAs] and community mental health services *shall make out-of-state placements* . . . *only if other options have been considered and are determined inappropriate*. . . . "<sup>2</sup> (Emphasis added .)

Before the enactment of Chapter 654, counties were only required to provide mental health services to SED pupils placed in out-of-home (in-state) residential facilities. However, section 1 now requires counties to have fiscal and programmatic responsibility for SED pupils

---

<sup>1</sup> Title 2, California Code of Regulations, section 60200, subdivision (c)(3).

<sup>2</sup> Statutes of 1996, Chapter 654.

regardless of placement - i.e., regardless of whether SED pupils are placed out-of-home (in-state) or out-of-state.

Chapter 654 also added subdivision (g) to Government Code section 7576, which provides:

"Referrals shall be made to the community mental health service in the county in which the pupil lives. If the pupil has been placed into residential care from another county, the community mental health service receiving the referral shall forward the referral immediately to the community mental health service of the county of origin which *shall have fiscal and programmatic responsibility for providing or arranging for provision of necessary services. . . .*" (Emphasis added.)

California Code of Regulations, sections 60100 and 60200, amended in response to section 7576, further define counties' "fiscal and programmatic responsibilities" for SED pupils placed in out-of-state residential care. Specifically, section 60100 entitled "LEA Identification and Placement of a Seriously Emotionally Disturbed Pupil" reflects the Legislature's intent behind the test claim statute by providing that residential placements for a SED pupil may be made out-of-state only when no in-state facility can meet the pupil's needs. Section 60200 entitled "Financial Responsibilities" details county mental health and LEA financial responsibilities regarding the residential placements of SED pupils.

In particular, amended section 60200 removes the requirement that LEAs be responsible for the out-of-state residential placement of SED pupils. Subdivision (c) of section 60200 now provides that the county mental health agency of origin shall be "responsible for the provision of assessments and mental health services included in an IEP in accordance with [section 60100]." Thus, as amended, section 60200 replaces the LEA with the *county of origin* as the entity responsible for paying the mental health component of *out-of-state* residential placement for SED pupils.

Therefore, the Commission found that under the test claim legislation and implementing regulations, county mental health agencies now have the fiscal and programmatic responsibility for the mental health component of a SED pupil's IEP whenever such pupils are referred to a community mental health agency by an IEP team.

**Issue 1: Does the Test Claim Legislation Impose a New Program or Higher Level of Service Within an Existing Program Upon County Offices of Education Within the Meaning of Section 6, Article XIII B of the California Constitution by Requiring County Mental Health Agencies to Pay for Out-of-State Residential Placement for Seriously Emotionally Disturbed Pupils?**

In order for a statute or executive order, which is the subject of a test claim, to impose a reimbursable state mandated program, the language: (1) must direct or obligate an activity or task upon local governmental entities; and (2) the required activity or task must be new, thus constituting a "new program," or it must create an increased or "higher level of service" over the former required level of service. The court has defined a "new program" or "higher level of service" as a program that carries out the governmental function of providing services to the public, or a law, which to implement a state policy, imposes unique requirements on local

agencies or school districts that do not apply generally to all residents and entities in the state. To determine if a required activity is new or imposes a higher level of service, a comparison must be undertaken between the test claim legislation and the legal requirements in effect immediately before the enactment of the test claim legislation. Finally, the newly required activity or increased level of service must be state mandated.<sup>3</sup>

The test claim legislation involves the paying and monitoring of the mental health component of out-of-state residential placement for SED pupils. These placements are deemed necessary by an IEP team to ensure that the pupil receives a free appropriate public education. Public education in California is a peculiarly governmental function administered by local agencies as a service to the public. Moreover, the test claim legislation imposes unique requirements upon county mental health agencies that do not apply generally to all residents and entities of the state. Therefore, the Commission found that paying and monitoring of the mental health component of out-of-state residential placements for SED pupils constitutes a "program" within the meaning of section 6, article XIII B of the California Constitution.<sup>4</sup>

Does A Shift of Costs and Activities Between Local Governmental Entities Create a New Program or Higher Level of Service?

The Commission found that immediately before the enactment of the test claim legislation, LEAs were responsible for paying and monitoring the mental health component of out-of-state residential placements for SED pupils. The test claim legislation shifted these responsibilities to county mental health agencies. The Government Code considers both LEAs and county mental health agencies local agencies for purposes of mandates law. Thus, the question arises whether a shift of program responsibilities from one local agency to another constitutes a state mandate. This question was recently addressed in *City of San Jose v. State of California*?

In *City of San Jose*, the issue was whether Government Code section 29550, which gave counties the discretion to charge cities and other local agencies for the costs of booking persons arrested by a city or other local agency into county jails, constituted a state mandate. The City of San Jose (City) contended that because the statute allowed counties to charge cities and other local agencies for booking fees, the statute imposed a new program under article XIII B, section 6. Thus, the City maintained that the *Lucia Mar*<sup>7</sup> decision governed the claim.

---

<sup>3</sup> *County of Los Angeles v. State of California* (1987) 43 Cal.3d 46, 56; *Carmel Valley Fire Protection Dist. v. State of California* (1987) 190 Cal.App.3d 521, 537; *Lucia Mar Unified School Dist. v. Honig* (1988) 44 Cal.3d 830, 835.

<sup>4</sup> *Long Beach Unified School Dist. v. State of California* (1990) 225 Cal.App.3d 155, 172.

<sup>5</sup> *City of San Jose, supra* (1996) 45 Cal.App.4th 1802.

<sup>6</sup> The Commission noted that the *Handicapped and Disabled Students* Test Claim, which also involved a shift of funding and activities from one local agency to another, was decided six years before the *City of San Jose* decision. Therefore, the analysis the Commission relied on in deciding the *Handicapped and Disabled Students* Test Claim is inapplicable to the present test claim.

<sup>7</sup> *Lucia Mar, supra* (1988) 44 Cal.3d 830, involved Education Code section 59300, enacted in 1981. That section required local school districts to contribute part of the cost of educating district students at state schools for the severely handicapped while the state continued to administer the program. Prior to 1979, the school districts had been required by statute to contribute to the education of students in their districts who attended state schools.

The *City of San Jose* court disagreed with the City's contention. The court held that the shift in funding was not from the state to the local agency, but from the county to the city and, thus, *Lucia Mar* was inapposite. The court stated:

"The flaw in the City's reliance on *Lucia Mar* is that in our case the shift in funding is not from the state to the local entity but from the county to the city. In *Lucia Mar*, prior to the enactment of the statute in question, the program was funded and operated entirely by the state. Here, however, at the time section 29550 was enacted, and indeed long before that statute, the financial and administrative responsibility associated with the operation of county jails and detention of prisoners was borne entirely by the county. "<sup>8</sup> (Emphasis added.)

The *City of San Jose* court concluded that:

"Nothing in article XIII B prohibits the shifting of costs between local governmental entities. "<sup>9</sup> (Emphasis added. )

The requirement to provide for and monitor the mental health component of a SED pupil in an out-of-state residential placement was not shifted to county mental health agencies by LEAs - LEAs have no such power. Rather, the shift in activities was performed by the state. *City of San Jose* applies if it can be shown that LEAs initiated the shift of costs to counties. However, this is not the case. Although a shift between local agencies occurred, the state required the shift. Moreover, the shift entailed both costs and activities.

As explained above, the legislation at issue in *City of San Jose* permitted counties to charge cities and other local agencies for the costs of booking persons arrested by a city or other local agency into county jails. The counties, in turn, enacted ordinances that required cities and other local agencies to pay booking fees. Under these facts, the county not the state, imposed costs upon cities and other local agencies. While the state enabled counties with the authority to charge booking fees to cities or other local agencies, the state did not require the imposition of such fees.

The same cannot be said for the test claim legislation. Before the enactment of the test claim legislation, LEAs were required to provide for the mental health component of a SED pupil in an out-of-state residential placement. Under the test claim legislation, the state shifted those responsibilities from LEAs to county mental health agencies. This scenario is different from

---

However, those statutes were repealed following the passage of Proposition 13 in 1978. In 1979, the state assumed full responsibility for funding the schools. At the time section 59300 was enacted in 1981, the state had full financial responsibility for operating state schools.

The California Supreme Court found that the primary financial and administrative responsibility for state handicapped schools rested with the state at the time the test claim statute was enacted. The court stated that "[t]he intent of [section 6] would plainly be violated if the state could, while retaining administrative control of programs it has supported with state tax money, simply shift the cost of the programs to local government. . . ." (Emphasis added.) Thus, the court found that, under the circumstances of the case, the transfer of financial responsibility from the state to local school districts imposed a new program under section 6.

<sup>8</sup> *City of San Jose*, *supra* (1996) 45 Cal.App.4th 1802, 1812.

<sup>9</sup> *Id.* at 1815.

the one in *City of San Jose*, in which the court recounted: "in our case the shift in *funding* is not from the State to the local entity but from county to city. "<sup>10</sup> (Emphasis added.)

Based on the foregoing, the Commission found that *City of San Jose* does not apply to the present test claim. The shift in responsibilities regarding the mental health component of SED pupils in out-of-state residential placements represents a shift performed by the state. In addition, there is a shift of *costs and activities*.

**Issue 2: Does the Requirement That Counties Pay and Monitor the Mental Health Component of Out-of-State Residential Placements for SED Pupils Represent Costs Mandated by the State?**

The Commission noted that the issue of whether federal special education law requires counties to pay and monitor the mental health component of out-of-state residential placements for SED pupils must be addressed to determine whether there are costs mandated by the state.

Overview of Federal Special Education Law - The Individuals with Disabilities Education Act (IDEA)

The Commission noted that the Education for All Handicapped Children Act (Act) of 1975 is the backbone of the federal statutory provisions governing special education.<sup>11</sup> The express purpose of the Act is to assist state and local educational efforts to assure equal protection of the law and that children with disabilities have available special education and related services designed to meet their unique needs.

The Act requires : "that all children with disabilities have available to them a free appropriate public education [FAPE] that emphasizes special education and related services designed to meet their unique needs and prepare them for employment and independent living. "<sup>12</sup> The Act defines FAPE as "special education" and "related services" that: (1) are provided at public expense,\* under public supervision and direction, and without charge; (2) meet the standards of the state educational agency; (3) include an appropriate preschool, elementary, or secondary school education in the state involved; and (4) are provided in conformity with the individualized education program (IEP) required under federal law.

The Commission further noted that every disabled child must have an IEP. The IEP is a written statement developed in a meeting between the school, the teacher, and the parents. It includes the child's current performance, the annual goals and short-term instructional objectives, specific educational services that must be provided, and the objective criteria and evaluation procedures to determine whether the objectives are being achieved. Special education services include both *special education*, defined as specially designed instruction to meet the unique needs of a child with disabilities, and *related services*, defined as such developmental, corrective, and other supportive services as may be require;! to assist a child

---

<sup>10</sup> *City of San Jose, supra* (1996) 45 Cal.App.4th 1802, 1812.

<sup>11</sup> In 1990, Congress changed the title of the Act to the "Individuals with Disabilities Education Act."

<sup>12</sup> *Ibid.*

with disabilities to benefit from special education. The federal definition of a "child with a disability" includes children with serious emotional disturbances.

Are Counties Responsible for Paying and Monitoring the Mental Health Component of Out-of-State Residential Placements for SED Pupils Under Federal Law?

As discussed in the previous section, federal law requires that every child receive a FAPE. The Commission found that SED pupils are no exception to this requirement.<sup>13</sup> The test claim legislation requires counties to be responsible for the mental health component of out-of-state residential placements for SED pupils. A SED pupil's IEP team, which includes a county mental health representative, directs such placements.<sup>14</sup> The purpose of a SED pupil's IEP is to ensure they receive a FAPE in the least restrictive environment. In those cases where out-of-state residential placements are required, it is because an IEP team has determined that no school site, school district, or out-of-home (in-state) residential placement is adequate to provide the necessary special education services to meet the federal FAPE requirement.<sup>15</sup>

The Commission found that when an IEP team recommends an out-of-state residential placement for a SED pupil, the requirement to provide such placement is a federal, not state requirement. Such placements are made to ensure pupils receive a FAPE, not in response to any state program. However, the fact that federal law requires the state to provide a FAPE to all disabled children begs the question: Does federal law require county mental health agencies to pay and monitor the mental health component of out-of-state residential placements for SED pupils?

The Commission found that federal law does not require counties to provide out-of-state placements. The Commission recognized that federal law defines "local educational agency" as:

"A public board of education or other public authority legally constituted within a State for either *administrative control or direction of, or to perform a service function for*, public elementary or secondary schools in a city, county, township, school district, or other political subdivision of a State, or for such combination of school districts or counties as are recognized in a State as an administrative agency for its public elementary or secondary schools. . . . The term includes -

---

<sup>13</sup> The claimant agrees: "As previously noted, of the 1,000 pupils who receive residential care, only a few, about 100, are placed out-of-state. But the rights of the few are no less than the rights of the many. [SED] pupils placed in out-of-state residential program [sic] are also entitled to a [FAPE]." See claimant's Test Claim filing dated December 22, 1997 at page 3.

<sup>14</sup> Education Code section 56345 requires school districts or county offices of education to provide the services that are recommended in the student's IEP.

<sup>15</sup> The Commission noted that title 2, California Code of Regulations, section 60100 provides that when an IEP team member recommends residential placement, the IEP team is expanded to include a county mental health representative. Before determining that residential placement is required, the expanded IEP team must consider other, less restrictive alternatives - such as a full-time behavioral aide in the classroom and/or parent training. The IEP team must document the alternatives considered and why they were rejected. Section 60100 goes on to provide that: "Residential placements for a [SED pupil] may be made out of California only when no in-state facility can meet the pupil's needs."

“(i) an educational service agency . . . ; and

“(ii) any other public institution or agency having administrative control and direction of a public elementary or secondary school. ”<sup>16</sup>

The Commission found that, as the above definition demonstrates, federal law does not consider counties to be “local educational agencies. ”<sup>17</sup> Counties are not legally constituted in the state for “either *administrative control or direction of, or to perform a service function for*, public elementary or secondary schools. ” Under the test claim legislation counties are only providing services *on an individual basis*.

Furthermore, the Commission found that counties are not recognized by the state as an administrative agency having control and direction of a public elementary or secondary school. It is LEAs that continue to control a SED pupil’s IEP. LEAs determine when a county mental health agency representative must join a pupil’s IEP team. The county acts in a responsive manner to the determinations of the LEA, not in a proactive manner. Therefore, the Commission concluded that counties do not have administrative control and direction of public elementary or secondary schools, let alone SED pupils.

Moreover, the Commission recognized that federal law defines public agency to include:

“ [State Educational Agencies-J, LEAs, [educational service agencies (ESA)] , public charter schools that are not otherwise included as LEAs or ESAs and are not a school of an LEA or ESA, and *any other political subdivisions of the State that are responsible for providing education to children with disabilities.* ”<sup>18</sup>  
(Emphasis added.)

The Commission found that the federal definition of “public agency” does not include counties for purposes of this test claim. Since counties are not included in the federal definition of LEAs, the question remains whether counties are “responsible for providing education to children with disabilities. ” To answer this question it is necessary to review the state’s requirements under the test claim legislation. Here, under the test claim legislation, counties are not responsible for providing education to children with disabilities. Rather, the test claim legislation limits counties’ responsibilities to paying for and monitoring the mental health component of out-of-state residential placements of SED pupils. Under the test claim legislation, LEAs continue to be responsible for the educational aspects of a SED pupil’s IEP. This is evidenced by regulation section 60110, subdivision (b)(2), which provides that: “The LEA shall be responsible for providing or arranging for the special education and non-mental health related services needed by the pupil.” Moreover, there is no reference to counties in federal special education law that would support a finding that counties, under the program outlined in the test claim legislation, are required to pay for and monitor out-of-state residential placements of SED pupils. Therefore, the Commission concluded that federal law does not

---

<sup>16</sup> Title 20, United States Code, section 1401, subdivision (15).

<sup>17</sup> The definition of “local educational agency” is identical in the federal regulations. See 34 Code of Federal Regulations, section 300.18.

<sup>18</sup> 34 Code of Federal Regulations, section 300.22.

require counties to pay for and monitor the mental health component of out-of-state residential placements for SED pupils.

### CONCLUSION

Based on the foregoing, the Commission concluded that the test claim legislation, regulations, and information notice impose new programs or higher levels of service within an existing program upon counties within the meaning of section 6, article XIII B of the California Constitution and Government Code section 17514 for the following activities:

- Payment of out-of-state residential placements for SED pupils. (Gov. Code, § 7576; Cal. Code Regs., tit. 2, §§ 60100, 60110.)
- Case management of out-of-state residential placements for SED pupils. Case management includes supervision of mental health treatment and monitoring of psychotropic medications. (Gov. Code, § 7576; Cal. Code Regs., tit. 2, § 60110.)
- Travel to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's IEP. (Cal. Code Regs., tit. 2, § 60110.)
- Program management, which includes parent notifications as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, sections 60000-60610. (Gov. Code, § 7576; Cal. Code of Regs., tit. 2, §§ 60100, 60110.)

California Department of Mental Health Information Notice Number 86-29

Dear Mr. Kaye:

Enclosed are the final Parameters and Guidelines adopted by the Commission on State Mandates on October 26, 2000. The Parameters and Guidelines are effective on October 31, 2000.

Commission staff will begin development of a Statewide Cost Estimate. Please contact Piper Rodrian at (916) 323-5869 with questions.

Sincerely,

  
4 PAULA HIGASHI  
Executive Director

*Seriously Emotionally Disturbed (SED)  
Pupils: Out-of-State Mental Health Services*

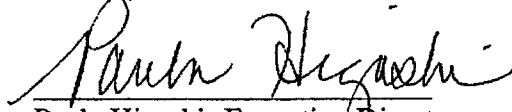

ADOPTION OF PARAMETERS AND  
GUIDELINES PURSUANT TO  
GOVERNMENT CODE SECTION 17557  
AND TITLE 2, CALIFORNIA CODE OF  
REGULATIONS, SECTION 1183.12

*(Adopted on October 26, 2000)*

**PARAMETERS AND GUIDELINES**

The Commission on State Mandates adopted Parameters and Guidelines for the above-entitled matter on October 26, 2000.

This Decision shall become effective on October 31, 2000.

  
Paula Higashi, Executive Director

## **Parameters and Guidelines**

Government Code Section 7576  
Statutes of 1996, Chapter 654

California Code of Regulations, Title 2, Division 9, Chapter 1, Sections 60000-60610  
California Department of Mental Health Information Notice Number 86-29

### ***Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services***

#### **I. SUMMARY OF MANDATE**

Government Code section 7576, as amended by Statutes of 1996, Chapter 654, established new fiscal and programmatic responsibilities for counties to provide mental health services to Seriously Emotionally Disturbed (SED) pupils placed in out-of-state residential programs. In this regard, Title 2, Division 9, Chapter 1 of the California Code of Regulations, sections 60000 through 60610, were amended to further define counties' fiscal and programmatic responsibilities including those set forth under section 60100 entitled "LEA Identification and Placement of a Seriously Emotionally Disturbed Pupil," providing that residential placements for a SED pupil may be made out-of-state only when no in-state facility can meet the pupil's needs, and under section 60200 entitled "Financial Responsibilities," detailing county mental health and LEA financial responsibilities regarding the residential placements of SED pupils.

On May 25, 2000, the Commission on State Mandates (Commission) adopted its Statement of Decision on the subject test claim, finding the following activities to be reimbursable:

- Payment of out-of state residential placements for SED pupils. (Gov. Code, § 7576, Cal. Code Regs., tit. 2, §§ 60100, 60110)
- Case management of out-of-state residential placements for SED pupils. Case management includes supervision of mental health treatment and monitoring of psychotropic medications. (Gov. Code, § 7576, Cal. Code Regs., tit. 2, § 60110.)
- Travel to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's Individualized Education Plan (IEP). (Cal. Code Regs., tit. 2, § 60110.)
- Program management, which includes parent notifications, as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, subdivision 60000- 60610. (Gov. Code, § 7576; Cal. Code of Regs., tit. 2, §§ 60100, 60110.)

## **II. ELIGIBLE CLAIMANTS**

Counties.

## **III. PERIOD OF REIMBURSEMENT**

Section 17557 of the Government Code, prior to its amendment by Statutes of 1998, Chapter 681, stated that a test claim must be submitted on or before December 31 following a given fiscal year to establish eligibility for that year. This test claim was filed by the County of Los Angeles on December 22, 1997. Statutes of 1996, Chapter 654, was enacted on September 19, 1996 and became effective on January 1, 1997. Therefore, costs incurred in implementing Chapter 654, Statutes of 1996 on or after January 1, 1997, are eligible for reimbursement.

Actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to section 17561, subdivision (d)(1) of the Government Code, all claims for reimbursement of initial years' costs shall be submitted within 120 days of notification by the State Controller of the enactment of the claims bill.

If total costs for a given year do not exceed \$200, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

## **IV. REIMBURSABLE ACTIVITIES**

The direct and indirect costs of labor, materials and supplies, contracted services, equipment, training, and travel incurred for the following mandate components are eligible for reimbursement:

### **A. One-Time Costs**

1. To develop policies, procedures and contractual arrangements, necessary to implement a county's new fiscal and programmatic responsibilities for SED pupils placed in out-of-state residential programs.
2. To conduct county staff training on the new policies, procedures and contractual arrangements, necessary to implement a county's new fiscal and programmatic responsibilities for SED pupils placed in out-of-state residential programs.

### **B. Continuing Costs**

#### **1. Mental Health Service Vendor Reimbursements**

To reimburse counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, California Code Regulations, sub divisions 60100 and 60110.

#### **2. Case Management**

To reimburse counties for case management of SED pupils in out-of-state residential placements, including supervision of mental health treatment and monitoring of psychotropic medications as specified in Government Code section 7576 and Title 2, California Code of Regulations, sub division 60110, including the costs of treatment

related litigation (including administrative proceedings) over such issues as placement and the administration of psychotropic medication. Litigation (including administrative proceedings) alleging misconduct by the county or its employees, based in negligence or intentional tort, shall not be included.

3. Travel

To reimburse counties for travel costs necessary to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's IEP as specified in Title 2, California Code of Regulations, subdivision 60110.

4. Program Management

To reimburse counties for program management costs, which include the costs of parent notifications as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, subdivisions 60100 and 60110.

## **V. CLAIM PREPARATION AND SUBMISSION**

Each claim for reimbursement must be timely filed and identify each cost element for which reimbursement is claimed under this mandate. Claimed costs must be identified to each reimbursable activity identified in Section IV. of these Parameters and Guidelines.

### **A. Direct Costs**

Direct costs are defined as costs that can be traced to specific goods, services, units, programs, activities or functions.

Claimed costs shall be supported by the following cost element information:

1. Salaries and Benefits

Identify the employee(s), and/or show the classification of the employee(s) involved. Describe the reimbursable activities performed and specify the actual time devoted to each reimbursable activity by each employee, productive hourly rate and related fringe benefits.

Reimbursement for personnel services includes compensation paid for salaries, wages and employee fringe benefits. Employee fringe benefits include regular compensation paid to an employee during periods of authorized absences (e.g., annual leave, sick leave) and the employer's contribution to social security, pension plans, insurance, and worker's compensation insurance. Fringe benefits are eligible for reimbursement when distributed equitably to all job activities which the employee performs.

2. Materials and Supplies

Only expenditures that can be identified as direct costs of this mandate may be claimed. List the cost of the materials and supplies consumed specifically for the purposes of this mandate. Purchases shall be claimed at the actual price after deducting cash discounts, rebates and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged based on a recognized method of costing, consistently applied.

### 3. Contract Services

Provide the name(s) of the contractor(s) who performed the services, including any fixed contract for services. Describe the reimbursable activity(ies) performed by each named contractor and give the number of actual hours spent on the activities, if applicable. Show the inclusive dates when services were performed and itemize all costs for those services.

### 4. Fixed Assets

List the costs of the fixed assets that have been acquired specifically for the purpose of this mandate. If the fixed asset is utilized in some way not directly related to the mandated program, only the pro-rata portion of the asset which is used for the purposes of the mandated program is eligible for reimbursement.

### 5. Travel

Travel expenses for mileage, per diem, lodging, and other employee entitlements are eligible for reimbursement in accordance with the rules of the local jurisdiction. Provide the name(s) of the traveler(s), purpose of travel, inclusive dates and times of travel, destination points, and travel costs.

### 6. Training

The cost of training an employee to perform the mandated activities, as specified in Section IV of these Parameters and Guidelines, is eligible for reimbursement. Identify the employee(s) by name and job classification. Provide the title and subject of the training session, the date(s) attended, and the location. Reimbursable costs may include salaries and benefits, registration fees, transportation, lodging, and per diem.

### B. Indirect Costs

Indirect costs are defined as costs which are incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular department or program without efforts disproportionate to the result achieved. Indirect costs may include both: (1) overhead costs of the unit performing the mandate; and (2) the costs of central government services distributed to other departments based on a systematic and rational basis through a cost allocation plan.

Compensation for indirect costs is eligible for reimbursement utilizing the procedure provided in the OMB A-87. Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) for the department if the indirect cost rate exceeds 10%. If more than one department is claiming indirect costs for the mandated program, each department must have its own ICRP prepared in accordance with OMB A-87. An ICRP must be submitted with the claim when the indirect cost rate exceeds 10%.

## **VI. SUPPORTING DATA**

For auditing purposes, all costs claimed shall be traceable to source documents (e.g., invoices, receipts, purchase orders, contracts, worksheets, calendars, declarations, etc.) that show evidence of the validity of such costs and their relationship to the state mandated program. All

documentation in support of the claimed costs shall be made available to the State Controller's Office, as may be requested. Pursuant to Government Code section 17558.5, these documents must be kept on file by the agency submitting the claim for a period of no less than two years after the later of (1) the end of the calendar year in which the reimbursement claim is filed or last amended, or (2) if no funds are appropriated for the fiscal year for which the claim is made, the date of initial payment of the claim. All claims shall identify the number of pupils in out-of-state residential programs for the costs being claimed.

#### **VII. OFFSETTING SAVINGS AND OTHER REIMBURSEMENTS**

Any offsetting savings the claimant experiences as a direct result of the subject mandate must be deducted from the costs claimed. In addition, reimbursement for this mandate received from any source, including but not limited to federal funds and other state funds, shall be identified and deducted from this claim.

#### **VIII. STATE CONTROLLER'S OFFICE REQUIRED CERTIFICATION**

An authorized representative of the claimant shall be required to provide a certification of the claim, as specified in the State Controller's Office claiming instructions, for those costs mandated by the State contained herein.

ADOPTION OF PARAMETERS AND  
GUIDELINES PURSUANT TO  
GOVERNMENT CODE SECTION 17557  
AND TITLE 2, CALIFORNIA CODE OF  
REGULATIONS, SECTION 1183.12

*(Adopted on October 26, 2000; Corrected on  
July 21, 2006)*

**CORRECTED PARAMETERS AND GUIDELINES**

On October 26, 2000, the Commission adopted the staff analysis and proposed parameters and guidelines for this program. Page 5 of the analysis adopted by the Commission states the following:

Residential Costs

It is the County of Santa Clara's position that the proposed Parameters and Guidelines do not provide reimbursement for "residential costs" of out-of-state placements. Staff disagrees. ***The Commission, in its Statement of Decision for this mandate, found that payment of out-of state residential placements for SED pupils is reimbursable.*** The Commission's regulations require Parameters and Guidelines to describe specific costs that are reimbursable, including one-time and on-going costs, and the most reasonable methods of complying with the mandate.<sup>1</sup> It is staff's position that ***the cost of out-of-state residential placement of SED pupils would reasonably include the board and care of that pupil while they are out-of-state, and therefore, staff finds that residential costs are covered under payment of out-of-state residential placement for SED pupils.*** Staff does not propose any changes to Claimant's Revised Proposed Parameters and Guidelines, since Section IV., entitled "Reimbursable Activities, B. Continuing Costs, 1. Mental Health Service Vendor Reimbursements," already provides for reimbursement to counties for "payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and the California Code Regulations, Title 2, subsections 60100 and 60110." It is staff's position that ***under Section IV., the***

<sup>1</sup> Title 2, California Code of Regulations, section 1183.1 (a) (4).

*term "payments to service vendors providing mental health services to SED pupils in out-of-state residential placements" includes reimbursement for "residential costs" of out-of-state placements. (Emphasis added.)*

In order for the parameters and guidelines to conform to the findings of the Commission, this correction is being issued. The following underlined language is added to Section IV (B), Reimbursable Activities:

1. Mental Health Service Vendor Reimbursements

To reimburse counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, California Code Regulations, sub divisions 60100 and 60110. Included in this activity is the cost for out-of-state residential board and care of SED pupils.

## **Corrected Parameters and Guidelines**

Government Code Section 7576  
Statutes of 1996, Chapter 654

California Code of Regulations, Title 2, Division 9, Chapter 1, Sections 60000-60610  
California Department of Mental Health Information Notice Number 86-29

### ***Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services***

#### **I. SUMMARY OF MANDATE**

Government Code section 7576, as amended by Statutes of 1996, Chapter 654, established new fiscal and programmatic responsibilities for counties to provide mental health services to Seriously Emotionally Disturbed (SED) pupils placed in out-of-state residential programs. In this regard, Title 2, Division 9, Chapter 1 of the California Code of Regulations, sections 60000 through 60610, were amended to further define counties' fiscal and programmatic responsibilities including those set forth under section 60100 entitled "LEA Identification and Placement of a Seriously Emotionally Disturbed Pupil," providing that residential placements for a SED pupil may be made out-of-state only when no in-state facility can meet the pupil's needs, and under section 60200 entitled "Financial Responsibilities," detailing county mental health and LEA financial responsibilities regarding the residential placements of SED pupils.

On May 25, 2000, the Commission on State Mandates (Commission) adopted its Statement of Decision on the subject test claim, finding the following activities to be reimbursable:

- Payment of out-of state residential placements for SED pupils. (Gov. Code, § 7576, Cal. Code Regs., tit. 2, §§ 60100, 60110)
- Case management of out-of-state residential placements for SED pupils. Case management includes supervision of mental health treatment and monitoring of psychotropic medications. (Gov. Code, § 7576, Cal. Code Regs., tit. 2, § 60110.)
- Travel to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's Individualized Education Plan (IEP). (Cal. Code Regs., tit. 2, § 60110.)
- Program management, which includes parent notifications, as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, subdivision 60000- 60610. (Gov. Code, § 7576; Cal. Code of Regs., tit. 2, §§ 60100, 60110.)

## **II. ELIGIBLE CLAIMANTS**

Counties.

## **III. PERIOD OF REIMBURSEMENT**

Section 17557 of the Government Code, prior to its amendment by Statutes of 1998, Chapter 681, stated that a test claim must be submitted on or before December 31 following a given fiscal year to establish eligibility for that year. This test claim was filed by the County of Los Angeles on December 22, 1997. Statutes of 1996, Chapter 654, was enacted on September 19, 1996 and became effective on January 1, 1997. Therefore, costs incurred in implementing Chapter 654, Statutes of 1996 on or after January 1, 1997, are eligible for reimbursement.

Actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to section 17561, subdivision (d)(1) of the Government Code, all claims for reimbursement of initial years' costs shall be submitted within 120 days of notification by the State Controller of the enactment of the claims bill.

If total costs for a given year do not exceed \$200, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

## **IV. REIMBURSABLE ACTIVITIES**

The direct and indirect costs of labor, materials and supplies, contracted services, equipment, training, and travel incurred for the following mandate components are eligible for reimbursement:

### **B. One-Time Costs**

1. To develop policies, procedures and contractual arrangements, necessary to implement a county's new fiscal and programmatic responsibilities for SED pupils placed in out-of-state residential programs.
2. To conduct county staff training on the new policies, procedures and contractual arrangements, necessary to implement a county's new fiscal and programmatic responsibilities for SED pupils placed in out-of-state residential programs.

### **C. Continuing Costs**

#### **1. Mental Health Service Vendor Reimbursements**

To reimburse counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, California Code Regulations, sub divisions 60100 and 60110. Included in this activity is the cost for out-of-state residential board and care of SED pupils.

#### **2. Case Management**

To reimburse counties for case management of SED pupils in out-of-state residential placements, including supervision of mental health treatment and monitoring of psychotropic medications as specified in Government Code section 7576 and Title 2, California Code of Regulations, sub division 60110, including the costs of treatment related litigation (including administrative proceedings) over such issues as placement

and the administration of psychotropic medication. Litigation (including administrative proceedings) alleging misconduct by the county or its employees, based in negligence or intentional tort, shall not be included.

3. Travel

To reimburse counties for travel costs necessary to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's IEP as specified in Title 2, California Code of Regulations, subdivision 60110.

4. Program Management

To reimburse counties for program management costs, which include the costs of parent notifications as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, subdivisions 60100 and 60110.

## **V. CLAIM PREPARATION AND SUBMISSION**

Each claim for reimbursement must be timely filed and identify each cost element for which reimbursement is claimed under this mandate. Claimed costs must be identified to each reimbursable activity identified in Section IV. of these Parameters and Guidelines.

### **A. Direct Costs**

Direct costs are defined as costs that can be traced to specific goods, services, units, programs, activities or functions.

Claimed costs shall be supported by the following cost element information:

1. Salaries and Benefits

Identify the employee(s), and/or show the classification of the employee(s) involved. Describe the reimbursable activities performed and specify the actual time devoted to each reimbursable activity by each employee, productive hourly rate and related fringe benefits.

Reimbursement for personnel services includes compensation paid for salaries, wages and employee fringe benefits. Employee fringe benefits include regular compensation paid to an employee during periods of authorized absences (e.g., annual leave, sick leave) and the employer's contribution to social security, pension plans, insurance, and worker's compensation insurance. Fringe benefits are eligible for reimbursement when distributed equitably to all job activities which the employee performs.

2. Materials and Supplies

Only expenditures that can be identified as direct costs of this mandate may be claimed. List the cost of the materials and supplies consumed specifically for the purposes of this mandate. Purchases shall be claimed at the actual price after deducting cash discounts, rebates and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged based on a recognized method of costing, consistently applied.

3. Contract Services

Provide the name(s) of the contractor(s) who performed the services, including any fixed contract for services. Describe the reimbursable activity(ies) performed by each named contractor and give the number of actual hours spent on the activities, if applicable. Show the inclusive dates when services were performed and itemize all costs for those services.

#### 4. Fixed Assets

List the costs of the fixed assets that have been acquired specifically for the purpose of this mandate. If the fixed asset is utilized in some way not directly related to the mandated program, only the pro-rata portion of the asset which is used for the purposes of the mandated program is eligible for reimbursement.

#### 5. Travel

Travel expenses for mileage, per diem, lodging, and other employee entitlements are eligible for reimbursement in accordance with the rules of the local jurisdiction. Provide the name(s) of the traveler(s), purpose of travel, inclusive dates and times of travel, destination points, and travel costs.

#### 6. Training

The cost of training an employee to perform the mandated activities, as specified in Section IV of these Parameters and Guidelines, is eligible for reimbursement. Identify the employee(s) by name and job classification. Provide the title and subject of the training session, the date(s) attended, and the location. Reimbursable costs may include salaries and benefits, registration fees, transportation, lodging, and per diem.

### B. Indirect Costs

Indirect costs are defined as costs which are incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular department or program without efforts disproportionate to the result achieved. Indirect costs may include both: (1) overhead costs of the unit performing the mandate; and (2) the costs of central government services distributed to other departments based on a systematic and rational basis through a cost allocation plan.

Compensation for indirect costs is eligible for reimbursement utilizing the procedure provided in the OMB A-87. Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) for the department if the indirect cost rate exceeds 10%. If more than one department is claiming indirect costs for the mandated program, each department must have its own ICRP prepared in accordance with OMB A-87. An ICRP must be submitted with the claim when the indirect cost rate exceeds 10%.

## **VI. SUPPORTING DATA**

For auditing purposes, all costs claimed shall be traceable to source documents (e.g., invoices, receipts, purchase orders, contracts, worksheets, calendars, declarations, etc.) that show evidence of the validity of such costs and their relationship to the state mandated program. All documentation in support of the claimed costs shall be made available to the State Controller's Office, as may be requested. Pursuant to Government Code section 17558.5, these documents must be kept on file by the agency submitting the claim for a period of no less than two years after the later of (1) the end of the calendar year in which the reimbursement claim is filed or last amended, or (2) if no funds are appropriated for the fiscal year for which the claim is made, the

date of initial payment of the claim. All claims shall identify the number of pupils in out-of-state residential programs for the costs being claimed.

**VII. OFFSETTING SAVINGS AND OTHER REIMBURSEMENTS**

Any offsetting savings the claimant experiences as a direct result of the subject mandate must be deducted from the costs claimed. In addition, reimbursement for this mandate received from any source, including but not limited to federal funds and other state funds, shall be identified and deducted from this claim.

**VIII. STATE CONTROLLER'S OFFICE REQUIRED CERTIFICATION**

An authorized representative of the claimant shall be required to provide a certification of the claim, as specified in the State Controller's Office claiming instructions, for those costs mandated by the State contained herein.

**Tab 9**

## **Amended Parameters and Guidelines**

Government Code Section 7576  
Statutes of 1996, Chapter 654

California Code of Regulations, Title 2, Division 9, Chapter 1, Sections 60000-60610  
California Department of Mental Health Information Notice Number 86-29

### ***Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services***

#### **EFFECTIVE FOR REIMBURSEMENT CLAIMS FILED FOR COSTS INCURRED THROUGH THE 2005-2006 FISCAL YEAR**

##### **I. SUMMARY OF MANDATE**

Government Code section 7576, as amended by Statutes of 1996, Chapter 654, established new fiscal and programmatic responsibilities for counties to provide mental health services to Seriously Emotionally Disturbed (SED) pupils placed in out-of-state residential programs. In this regard, Title 2, Division 9, Chapter 1 of the California Code of Regulations, sections 60000 through 60610, were amended to further define counties' fiscal and programmatic responsibilities including those set forth under section 60100 entitled "LEA Identification and Placement of a Seriously Emotionally Disturbed Pupil," providing that residential placements for a SED pupil may be made out-of-state only when no in-state facility can meet the pupil's needs, and under section 60200 entitled "Financial Responsibilities," detailing county mental health and LEA financial responsibilities regarding the residential placements of SED pupils.

On May 25, 2000, the Commission on State Mandates (Commission) adopted its Statement of Decision on the subject test claim, finding the following activities to be reimbursable:

- Payment of out-of state residential placements for SED pupils. (Gov. Code, § 7576, Cal. Code Regs., tit. 2, §§ 60100, 60110)
- Case management of out-of-state residential placements for SED pupils. Case management includes supervision of mental health treatment and monitoring of psychotropic medications. (Gov. Code, § 7576, Cal. Code Regs., tit. 2, § 60110.)
- Travel to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's Individualized Education Plan (IEP). (Cal. Code Regs., tit. 2, § 60110.)
- Program management, which includes parent notifications, as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, subdivision 60000- 60610. (Gov. Code, § 7576; Cal. Code of Regs., tit. 2, §§ 60100, 60110.)

These parameters and guidelines are effective for reimbursement claims filed for costs incurred through the 2005-2006 fiscal year. Commencing with the 2006-2007 fiscal year, reimbursement claims shall be filed through the consolidated parameters and guidelines for *Handicapped and Disabled Students* (04-RL-4282-10), *Handicapped and Disabled Students II* (02-TC-40/02-TC-49), and *Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services* (97-TC-05).

## **II. ELIGIBLE CLAIMANTS**

Counties.

## **III. PERIOD OF REIMBURSEMENT**

Section 17557 of the Government Code, prior to its amendment by Statutes of 1998, Chapter 681, stated that a test claim must be submitted on or before December 31 following a given fiscal year to establish eligibility for that year. This test claim was filed by the County of Los Angeles on December 22, 1997. Statutes of 1996, Chapter 654, was enacted on September 19, 1996 and became effective on January 1, 1997. Therefore, costs incurred in implementing Chapter 654, Statutes of 1996 on or after January 1, 1997, are eligible for reimbursement.

Actual costs for one fiscal year shall be included in each claim. Estimated costs for the subsequent year may be included on the same claim, if applicable. Pursuant to section 17561, subdivision (d)(1) of the Government Code, all claims for reimbursement of initial years' costs shall be submitted within 120 days of notification by the State Controller of the enactment of the claims bill.

If total costs for a given year do not exceed \$200, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

## **IV. REIMBURSABLE ACTIVITIES**

The direct and indirect costs of labor, materials and supplies, contracted services, equipment, training, and travel incurred for the following mandate components are eligible for reimbursement:

### **A. One-Time Costs**

1. To develop policies, procedures and contractual arrangements, necessary to implement a county's new fiscal and programmatic responsibilities for SED pupils placed in out-of-state residential programs.
2. To conduct county staff training on the new policies, procedures and contractual arrangements, necessary to implement a county's new fiscal and programmatic responsibilities for SED pupils placed in out-of-state residential programs.

### **B. Continuing Costs**

#### **1. Mental Health Service Vendor Reimbursements**

To reimburse counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, California Code Regulations, sub divisions 60100 and 60110. Included in this activity is the cost for out-of-state residential board and care of SED pupils.

## 2. Case Management

To reimburse counties for case management of SED pupils in out-of-state residential placements, including supervision of mental health treatment and monitoring of psychotropic medications as specified in Government Code section 7576 and Title 2, California Code of Regulations, sub division 60110, including the costs of treatment related litigation (including administrative proceedings) over such issues as placement and the administration of psychotropic medication. Litigation (including administrative proceedings) alleging misconduct by the county or its employees, based in negligence or intentional tort, shall not be included.

## 3. Travel

To reimburse counties for travel costs necessary to conduct quarterly face-to-face contacts at the residential facility to monitor level of care, supervision, and the provision of mental health services as required in the pupil's IEP as specified in Title 2, California Code of Regulations, subdivision 60110.

## 4. Program Management

To reimburse counties for program management costs, which include the costs of parent notifications as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, sub divisions 60100 and 60110.

# V. CLAIM PREPARATION AND SUBMISSION

Each claim for reimbursement must be timely filed and identify each cost element for which reimbursement is claimed under this mandate. Claimed costs must be identified to each reimbursable activity identified in Section IV. of these Parameters and Guidelines.

## A. Direct Costs

Direct costs are defined as costs that can be traced to specific goods, services, units, programs, activities or functions.

Claimed costs shall be supported by the following cost element information:

### 1. Salaries and Benefits

Identify the employee(s), and/or show the classification of the employee(s) involved. Describe the reimbursable activities performed and specify the actual time devoted to each reimbursable activity by each employee, productive hourly rate and related fringe benefits.

Reimbursement for personnel services includes compensation paid for salaries, wages and employee fringe benefits. Employee fringe benefits include regular compensation paid to an employee during periods of authorized absences (e.g., annual leave, sick leave) and the employer's contribution to social security, pension plans, insurance, and worker's compensation insurance. Fringe benefits are eligible for reimbursement when distributed equitably to all job activities which the employee performs.

## 2. Materials and Supplies

Only expenditures that can be identified as direct costs of this mandate may be claimed. List the cost of the materials and supplies consumed specifically for the purposes of this mandate. Purchases shall be claimed at the actual price after deducting cash discounts, rebates and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged based on a recognized method of costing, consistently applied.

## 3. Contract Services

Provide the name(s) of the contractor(s) who performed the services, including any fixed contract for services. Describe the reimbursable activity(ies) performed by each named contractor and give the number of actual hours spent on the activities, if applicable. Show the inclusive dates when services were performed and itemize all costs for those services.

## 4. Fixed Assets

List the costs of the fixed assets that have been acquired specifically for the purpose of this mandate. If the fixed asset is utilized in some way not directly related to the mandated program, only the pro-rata portion of the asset which is used for the purposes of the mandated program is eligible for reimbursement.

## 5. Travel

Travel expenses for mileage, per diem, lodging, and other employee entitlements are eligible for reimbursement in accordance with the rules of the local jurisdiction. Provide the name(s) of the traveler(s), purpose of travel, inclusive dates and times of travel, destination points, and travel costs.

## 6. Training

The cost of training an employee to perform the mandated activities, as specified in Section IV of these Parameters and Guidelines, is eligible for reimbursement. Identify the employee(s) by name and job classification. Provide the title and subject of the training session, the date(s) attended, and the location. Reimbursable costs may include salaries and benefits, registration fees, transportation, lodging, and per diem.

## B. Indirect Costs

Indirect costs are defined as costs which are incurred for a common or joint purpose, benefiting more than one program and are not directly assignable to a particular department or program without efforts disproportionate to the result achieved. Indirect costs may include both: (1) overhead costs of the unit performing the mandate; and (2) the costs of central government services distributed to other departments based on a systematic and rational basis through a cost allocation plan.

Compensation for indirect costs is eligible for reimbursement utilizing the procedure provided in the OMB A-87. Claimants have the option of using 10% of direct labor, excluding fringe benefits, or preparing an Indirect Cost Rate Proposal (ICRP) for the department if the indirect cost rate exceeds 10%. If more than one department is claiming indirect costs for the mandated program, each department must have its own ICRP prepared in accordance with OMB A-87. An ICRP must be submitted with the claim when the indirect cost rate exceeds 10%.

## **VI. SUPPORTING DATA**

For auditing purposes, all costs claimed shall be traceable to source documents (e.g., invoices, receipts, purchase orders, contracts, worksheets, calendars, declarations, etc.) that show evidence of the validity of such costs and their relationship to the state mandated program. All documentation in support of the claimed costs shall be made available to the State Controller's Office, as may be requested. Pursuant to Government Code section 17558.5, these documents must be kept on file by the agency submitting the claim for a period of no less than two years after the later of (1) the end of the calendar year in which the reimbursement claim is filed or last amended, or (2) if no funds are appropriated for the fiscal year for which the claim is made, the date of initial payment of the claim. All claims shall identify the number of pupils in out-of-state residential programs for the costs being claimed.

## **VII. OFFSETTING SAVINGS AND OTHER REIMBURSEMENTS**

Any offsetting savings the claimant experiences as a direct result of the subject mandate must be deducted from the costs claimed. In addition, reimbursement for this mandate received from any source, including but not limited to federal funds and other state funds, shall be identified and deducted from this claim.

## **VIII. STATE CONTROLLER'S OFFICE REQUIRED CERTIFICATION**

An authorized representative of the claimant shall be required to provide a certification of the claim, as specified in the State Controller's Office claiming instructions, for those costs mandated by the State contained herein.

### 2 CA ADC § 60100

§ 60100. LEA Identification and Placement of a Seriously Emotionally Disturbed Pupil.

Term

2 CCR § 60100

Cal. Admin. Code tit. 2, § 60100

Bardays Official California Code of Regulations Currentness

Title 2. Administration

Division 9. Joint Regulations for Pupils with Disabilities

Chapter 1. Interagency Responsibilities for Providing Services to Pupils with Disabilities

Article 3. Residential Placement

§ 60100. LEA Identification and Placement of a Seriously Emotionally Disturbed Pupil.

(a) This article shall apply only to a pupil with a disability who is seriously emotionally disturbed pursuant to paragraph (i) of Section 3030 of Title 5 of the California Code of Regulations.

(b) When an IEP team member recommends a residential placement for a pupil who meets the educational eligibility criteria specified in paragraph (4) of subsection (c) of Section 300.7 of Title 34 of the Code of Federal Regulations, the IEP shall proceed in the following manner:

(1) An expanded IEP team shall be convened within thirty (30) days with an authorized representative of the community mental health service.

(2) If any authorized representative is not present, the IEP team meeting shall be adjourned and be reconvened within fifteen (15) calendar days as an expanded IEP team with an authorized representative from the community mental health service participating as a member of the IEP team pursuant to Section 7572.5 of the Government Code.

(3) If the community mental health service or the LEA determines that additional mental health assessments are needed, the LEA and the community mental health service shall proceed in accordance with Sections 60040 and 60045.

(c) Prior to the determination that a residential placement is necessary for the pupil to receive special education and mental health services, the expanded IEP team shall consider less restrictive alternatives, such as providing a behavioral specialist and full-time behavioral aide in the classroom, home and other community environments, and/or parent training in the home and community environments. The IEP team shall document the alternatives to residential placement that were considered and the reasons why they were rejected. Such alternatives may include any combination of cooperatively developed educational and mental health services.

(d) When the expanded IEP team recommends a residential placement, it shall document the pupil's educational and mental health treatment needs that support the recommendation for residential placement. This documentation shall identify the special education and related mental health services to be provided by a residential facility listed in Section 60025 that cannot be provided in a less restrictive environment pursuant to Title 20, United States Code Section 1412(a)(5).

(e) The community mental health service case manager, in consultation with the IEP team's administrative designee, shall identify a mutually satisfactory placement that is acceptable to the parent and addresses the pupil's educational and mental health needs in a manner that is cost-effective for both public agencies, subject to the requirements of state and federal special education law, including the requirement that the placement be appropriate and in the least restrictive environment.

(f) The residential placement shall be in a facility listed in Section 60025 that is located within, or in the county adjacent to, the county of residence of the parents of the pupil with a disability, pursuant to paragraph (3) of subsection (a) of Section 300.552 of Title 34 of the Code of Federal Regulations. When no nearby placement alternative which is able to implement the IEP can be identified, this determination shall be documented, and the community mental health service case manager shall seek an appropriate placement which is as close to the parents' home as possible.

(g) Rates for care and supervision shall be established for a facility listed in Section 60025 in accordance with Section 18350 of the Welfare and Institutions Code.

(h) Residential placements for a pupil with a disability who is seriously emotionally disturbed may be made out of California only when no in-state facility can meet the pupil's needs and only when the requirements of subsections (d) and (e) have been met. Out-of-state placements shall be made only in residential programs that meet the requirements of Welfare and Institutions Code Sections 11460(c)(2) through (c)(3). For educational purposes, the pupil shall receive services from a privately operated non-medical, non-detention school certified by the California Department of Education.

(i) When the expanded IEP team determines that it is necessary to place a pupil with a disability who is seriously emotionally disturbed in residential care, the community mental health service shall ensure that:

(1) The mental health services are specified in the IEP in accordance with Title 20, United States Code Section 1414(d)(1)(A)(vi).

(2) Mental health services are provided by qualified mental health professionals.

(j) When the expanded IEP team determines that it is necessary to place a pupil with a disability who is seriously emotionally disturbed in a facility listed in Section 60025, the expanded IEP team shall ensure that placement is in accordance with admission criteria of the facility.

Note: Authority cited: Section 7587, Government Code. Sections 10553, 10554, 11462(i) and (j) and 11466.1, Welfare and Institutions Code. #### HISTORY

1. New section refiled 5-1-87 as an emergency; designated effective 5-1-87 (Register 87, No. 30). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8-31-87.

2. Division 9 (Chapter 1, Articles 1-9, Sections 60000-60610, not consecutive) shall not be subject to automatic repeal until the final regulations take effect on or before June 30, 1988 pursuant to Item 4440-131-001(b)(2), Chapter 135, Statutes of 1987 (Register 87, No. 46).

3. Division 9 (Chapter 1, Articles 1-9, Sections 60000-60610, not consecutive) shall not be subject to automatic repeal until the final regulations take effect on or before June 30, 1997, pursuant to Government Code section 7587, as amended by Stats. 1996, c. 654 (A.B. 2726, s4.) (Register 98, No. 26).

4. Division 9 (Chapter 1, Articles 1-9, Sections 60000-60610, not consecutive) repealed June 30, 1997, by operation of Government Code section 7587, as amended by Stats. 1996, c. 654 (A.B. 2726, s4.) (Register 98, No. 26).

5. New article 3 (sections 60100-60110) and section filed 6-26-98 as an emergency; operative 7-1-98 (Register 98, No. 26). A Certificate of Compliance must be transmitted to OAL by 10-29-98 or emergency language will be repealed by operation of law on the following day.

6. Editorial correction restoring prior Histories 1-2, adding new Histories 3-4, and renumbering and amending existing History 1 to new History 5 (Register 98, No. 44).

7. New article 3 (sections 60100-60110) and section refiled 10-26-98 as an emergency; operative 10-29-98 (Register 98, No. 44). A Certificate of Compliance must be transmitted to OAL by 2-26-99 or emergency language will be repealed by operation of law on the following day.

8. New article 3 (sections 60100-60110) and section refiled 2-25-99 as an emergency; operative 2-26-99 (Register 99, No. 9). A Certificate of Compliance must be transmitted to OAL by 6-28-99 or emergency language will be repealed by operation of law on the following day.

9. Certificate of Compliance as to 2-25-99 order, including amendment of section heading, amendment of subsections (b)-(b)(2), (d) and (i)(1) and amendment of Note, transmitted to OAL 6-25-99 and filed 8-9-99 (Register 99, No. 33).

## **Tab 11**

(c) If an amount collected as child or spousal support represents payment on the required support obligation for future months, the amount shall be applied to such future months. However, no such amounts shall be applied to future months unless amounts have been collected which fully satisfy the support obligation assigned under subdivision (a) of Section 11477 for the current months and all past months.

11458. The county may cancel, suspend or revoke aid under this chapter for cause. Upon instructions from the department, the county shall cancel, suspend or revoke aid under this chapter.

Upon request of the department, an immediate report of every suspension of aid shall be made to the department stating the reason for the suspension and showing the action of the county in approving the suspension.

11460. (a) Foster care providers shall be paid a per child per month rate in return for the care and supervision of the AFDC-FC child placed with them. The department is designated the single organizational unit whose duty it shall be to administer a state system for establishing rates in the AFDC-FC program. State functions shall be performed by the department or by delegation of the department to county welfare departments or Indian tribes, consortia of tribes, or tribal organizations that have entered into an agreement pursuant to Section 10553.1.

(b) "Care and supervision" includes food, clothing, shelter, daily supervision, school supplies, a child's personal incidentals, liability insurance with respect to a child, reasonable travel to the child's home for visitation, and reasonable travel for the child to remain in the school in which he or she is enrolled at the time of placement. Reimbursement for the costs of educational travel, as provided for in this subdivision, shall be made pursuant to procedures determined by the department, in consultation with representatives of county welfare and probation directors, and additional stakeholders, as appropriate.

(1) For a child placed in a group home, care and supervision shall also include reasonable administration and operational activities necessary to provide the items listed in this subdivision.

(2) For a child placed in a group home, care and supervision may also include reasonable activities performed by social workers employed by the group home provider which are not otherwise considered daily supervision or administration activities.

(c) It is the intent of the Legislature to establish the maximum level of state participation in out-of-state foster care group home program rates effective January 1, 1992.

(1) The department shall develop regulations that establish the method for determining the level of state participation for each out-of-state group home program. The department shall consider all of the following methods:

(A) A standardized system based on the level of care and services per child per month as detailed in Section 11462.

(B) A system which considers the actual allowable and reasonable costs of care and supervision incurred by the program.

(C) A system which considers the rate established by the host state.

(D) Any other appropriate methods as determined by the department.

(2) State reimbursement for the AFDC-FC group home rate to be paid to an out-of-state program on or after January 1, 1992, shall only be paid to programs which have done both of the following:

(A) Submitted a rate application to the department and received a determination of the level of state participation.

(i) The level of state participation shall not exceed the current fiscal year's standard rate for rate classification level 14.

(ii) The level of state participation shall not exceed the rate determined by the ratesetting authority of the state in which the facility is located.

(iii) The level of state participation shall not decrease for any child placed prior to January 1, 1992, who continues to be placed in the same out-of-state group home program.

(B) Agreed to comply with information requests, and program and fiscal audits as determined necessary by the department.

(3) State reimbursement for an AFDC-FC rate paid on or after January 1, 1993, shall only be paid to a group home organized and operated on a nonprofit basis.

(d) A foster care provider that accepts payments, following the effective date of this section, based on a rate established under this section, shall not receive rate increases or retroactive payments as the result of litigation challenging rates established prior to the effective date of this section. This shall apply regardless of whether a provider is a party to the litigation or a member of a class covered by the litigation.

(e) Nothing shall preclude a county from using a portion of its county funds to increase rates paid to family homes and foster family agencies within that county, and to make payments for specialized care increments, clothing allowances, or infant supplements to homes within that county, solely at that county's expense.

11461. (a) For children or, on and after January 1, 2012, nonminor dependents placed in a licensed or approved family home with a capacity of six or less, or in an approved home of a relative or nonrelated legal guardian, or the approved home of a nonrelative extended family member as described in Section 362.7, or, on and after January 1, 2012, a supervised independent living setting, as defined in subdivision (w) of Section 11400, the per child per month rates in the following schedule shall be in effect for the period July 1, 1989, through December 31, 1989:

Age	Basic rate
0-4.....	\$294
5-8.....	319
9-11.....	340
12-14.....	378
15-20.....	412

(b) (1) Any county that, as of October 1, 1989, has in effect a basic rate that is at the levels set forth in the schedule in subdivision (a), shall continue to receive state participation, as specified in subdivision (c) of Section 15200, at these levels.

(2) Any county that, as of October 1, 1989, has in effect a basic rate that exceeds a level set forth in the schedule in subdivision (a), shall continue to receive the same level of state participation as it received on October 1, 1989.

(c) The amounts in the schedule of basic rates in subdivision (a)

## MANAGEMENT AGREEMENT

This MANAGEMENT AGREEMENT (the "Agreement") is made and entered into as of the 1st day of January, 2003, by and between Aspen Solutions Inc., a California nonprofit mutual benefit company ("ASI"), and Youth Care of Utah, Inc., a Delaware corporation ("Youth"). ASI and Youth are sometimes referred to herein collectively as the "Parties" and individually as a "Party."

### RECITALS

WHEREAS, ASI is engaged in the business of providing certain management and administrative services to providers of health care services;

WHEREAS, Youth is a Delaware corporation whose employees provide therapeutic services in the state of Utah;

WHEREAS, Youth desires to retain ASI to manage and administer certain aspects of Youth's business relating to the therapeutic services provided by Youth; and

WHEREAS, Youth and ASI recognize that Youth has sole and complete responsibility for the provision of professional services.

NOW, THEREFORE, in consideration of the mutual covenants and agreements contained herein, the parties hereto agree as follows:

### ARTICLE 1

#### DUTIES OF ASI

Notwithstanding anything to the contrary in this Agreement, the parties hereto understand and agree that Youth has the sole responsibility for provision of therapeutic services. ASI does not itself provide therapeutic services to the clients of Youth and shall not exercise control over or interfere in any way with the exercise of professional judgment by Youth or Youth's employees in connection with Youth's therapeutic services. The parties agree that the benefits hereunder to Youth do not require, are not payment for, and are not in any way contingent upon the referral or any other arrangement for the provision of any item or service offered by ASI or any of its affiliates or any other providers which may be managed by ASI. The following non-therapeutic services shall be performed by ASI on behalf of Youth:

#### 1.1 General Management and Administration.

1.1.1 ASI shall be responsible for performing, supervising or paying for all business services, resources and other aspects of Youth's business as addressed in greater detail in the remainder of this Article 1.

1.1.2 Providing administrative coordination and support to Youth.

1.2 Financial Services. ASI's responsibilities under this Agreement shall include the following:

1.2.1 Establishing bookkeeping and accounting systems, including the maintenance and supervision of all of Youth's business records and the preparation, distribution and recordation of all bills and statements for services rendered by Youth, and the billing and completion of reports and forms required by insurance companies, governmental agencies and other third party payors, as applicable.

1.2.2 Providing Youth access to any and all books and records maintained by ASI on behalf of Youth upon five (5) business days notice in writing by Youth to ASI.

1.2.3 Preparing and furnishing cost reports as necessary.

1.3 Personnel Services: Payroll and Other Services. ASI's responsibilities under this Agreement shall include:

1.3.1 Recruiting, hiring, compensating, training and discharging all personnel necessary for the performance of the terms of this Agreement who shall be employees of ASI. Supervision of all Youth staff with regards to therapeutic activities shall be the right and responsibility of Youth's director.

## ARTICLE 2

### COMPENSATION

Youth shall pay to ASI those amounts set forth on Exhibit A hereto for services rendered by ASI hereunder. Said compensation shall be paid monthly and shall be due and payable on the fifteenth (15th) day of the month following the month in which service is provided.

## ARTICLE 3

### TERM AND TERMINATION

3.1 Term. The initial term of this Agreement shall commence on the date first written above and shall continue in effect until December 31, 2023 unless sooner terminated pursuant to the provisions of this Agreement. Thereafter, this Agreement shall automatically renew for successive periods of one (1) year each, unless terminated as provided herein.

3.2 Termination With Cause by Either Party. In the event of a material breach of this Agreement by either party, the other party shall provide written notice to the defaulting party (the "Default Notice") specifying the nature of the breach. In the event such breach is not cured to the reasonable satisfaction of the non-defaulting party within thirty (30) days after service of the Default Notice, this Agreement shall automatically terminate at the election of the non-defaulting party upon the giving of a written notice of termination to the defaulting party not later than sixty (60) days after service of the Default Notice; provided, however, that if the nature of the breach is such that it cannot be reasonably cured within thirty (30) days, this Agreement cannot be terminated by the non-defaulting party so long as the defaulting party is taking or has taken

reasonable steps within said thirty (30) day period to cure the breach and such steps are being diligently pursued.

3.3 Termination for Insolvency. Either party may terminate this Agreement immediately and without notice in the event that an application is made by the other party for the appointment of a receiver, trustee or custodian for any of the other party's assets; a petition under any section or chapter of the federal Bankruptcy Code or any similar law or regulation is filed by or against the other party and is not dismissed within sixty (60) days; the other party makes an assignment for the benefit of his creditors; or the other party becomes insolvent or fails generally to pay his debts as they become due.

3.4 Termination for Jeopardizing Client Care. Either party may terminate this Agreement immediately if: (a) the action or inaction of the other party constitutes an immediate and serious threat to the therapeutic services being provided; (b) the non-breaching party has given the other party prior written notice specifying such action or inaction; and (c) the breaching party has not within twenty-four (24) hours after being given such notice corrected the action or inaction. Notwithstanding anything herein to the contrary, during the 24-hour period described in the preceding sentence, Youth shall be entitled to take such other actions as are reasonably necessary to ensure the safety of the clients it provides therapeutic services for.

3.5 Termination for Change in Law. Subject to Section 3.6, either party may terminate this Agreement immediately if any change in the law or regulations governing the parties renders performance of this Agreement unenforceable or illegal by its terms.

3.6 Reformation of Agreement. If any provision in the Agreement is in violation of any law or regulation, the parties will amend, to the extent possible, the Agreement as necessary to correct such offending term or terms, while preserving the underlying economic and financial arrangements between the parties and without substantial economic detriment to either party.

3.7 Books and Records. Within fifteen (15) days of termination under this Article 3, ASI shall return to Youth all books, records and intangible property it has in its possession relating to Youth and its operations.

#### ARTICLE 4

##### COVENANTS OF ASI

4.1 Corporate Status. ASI covenants and agrees that it is presently, and shall remain throughout the initial term of this agreement and each renewal term thereof, a California nonprofit mutual benefit corporation in good standing with the California Secretary of State.

4.2 Insurance. ASI covenants and agrees that it shall maintain in effect during the initial term and each renewal term thereof, adequate comprehensive general liability and other insurance coverage to cover any loss, liability or damage which may result out of the activities of ASI or its officers, agents or employees. Youth shall be entitled to receive not less than thirty (30) calendar days' prior written notice of any reduction or cancellation in such insurance coverage by ASI. Evidence of the policies described above shall be provided to Youth upon request.

## ARTICLE 5

### COVENANTS OF YOUTH

#### 5.1 Corporate Status. Youth covenants and agrees that:

5.1.1 it is presently and shall remain throughout the initial term of this Agreement and each renewal term thereof, a corporation or limited liability company in good standing in the state of its incorporation or organization, as the case may be; and

5.1.2 it shall retain reasonable control over the manner in which it furnishes services.

#### 5.2 Insurance.

5.2.1 Youth covenants and agrees that it shall obtain and maintain in effect throughout the initial term of this Agreement and each renewal term thereof and pay the cost, of such policies of comprehensive general liability insurance and professional liability insurance with coverage in the minimum amount of Three Million Dollars (\$3,000,000) per occurrence and Three Million Dollars (\$3,000,000) in the annual aggregate to insure it and its employees against liability for damages directly or indirectly related to the performance of any services provided, the use of any property and facilities provided by Youth and activities performed by Youth. ASI shall be entitled to receive not less than thirty (30) days written notice of any reduction or cancellation of such insurance coverage by Youth. Evidence of the insurance policies described above shall be provided to ASI upon request.

5.2.2 ASI covenants and agrees that it shall obtain and maintain in effect policies of workers' compensation and other insurance to the extent required by applicable law.

5.3 Cooperation. Youth covenants and agrees that it shall provide ASI access to all records and information and the use of such facilities as is required by ASI to perform its services hereunder subject to all applicable confidentiality laws. Youth further covenants that it shall grant ASI such authority as may be necessary or desirable to ensure ASI's ability to perform its duties hereunder.

5.4 Compliance With Law. Youth represents and warrants that it has not within the past three (3) years been cited for a material violation of any federal, state, local or other statute, law or regulation, and that Youth employees are duly licensed to provide therapeutic services to the extent required by applicable law.

## ARTICLE 6

### RECORDS

6.1 Business Records. All business records, papers and documents of Youth are the property of Youth.

## ARTICLE 7

### ARBITRATION

In the event of any dispute arising out of or relating to this Agreement, any Party will have the right to demand that such dispute be resolved by binding arbitration, pursuant to California Code of Civil Procedure Section 1280 et seq. (the "Arbitration Statute"), including Section 1283.05 regarding discovery. Such Party will serve a written notice to arbitrate pursuant to this Article 7 on the other Party to the dispute. An arbitration hearing will be held before a single arbitrator jointly selected by the Parties. The arbitrator will be selected from a list of retired superior court judges from the Counties of Los Angeles or Orange. If the parties fail within ten (10) calendar days to agree on the appointment of a single arbitrator, then each party will appoint one arbitrator (who need not be a retired superior court judge) within three (3) days thereafter and the two arbitrators will select a third arbitrator (who must be a retired superior court judge) who will serve as the sole arbitrator of the dispute. The arbitrator will decide the dispute in accordance with the procedure set forth in the Arbitration Statute within fifteen (15) days following the conclusion of the hearing. The prevailing party in such action will be entitled to recover all reasonable incurred costs and expenses accorded by the arbitrator, including reasonable attorneys fees and legal costs, incurred by such party in connection with such action. The decision of the arbitrator will be final and binding on both parties for any and all purposes. Judgment upon any award rendered by the arbitrator may be entered in any court of competent jurisdiction. Notwithstanding any other provision of this Agreement, in the case of a dispute involving a claim for equitable relief, a court with equitable jurisdiction may grant temporary restraining orders and preliminary injunctions to preserve the status quo existing before the events that are the subject of the dispute. Any final equitable or other relief will be ordered in the arbitration proceeding.

## ARTICLE 8

### INDEMNIFICATION

8.1 By ASI. ASI shall indemnify, defend, protect and hold Youth and its officers, directors, employees, agents and representatives ("Youth Released Parties") harmless from and against any and all liabilities, losses, damages, claims, causes of action, costs and expenses, including reasonable attorney's fees, (hereinafter each referred to as a "Claim") caused by reason of any injury to person or property resulting from the acts or omissions of ASI or ASI's employees or agents which occur in the course of performance of its duties under this Agreement or by reason of ASI's breach hereof, provided, however, that ASI shall have no responsibility to indemnify, protect and hold any Youth Released Parties harmless from and against any Claim occurring through the negligence of Youth or any of Youth's employees or agents and provided further that such indemnification obligation shall not apply with respect to any Claim covered by either Party's existing insurance policies.

8.2 By Youth. Youth shall indemnify, defend, protect and hold ASI and its officers, directors, employees, agents and representatives ("ASI Released Parties") harmless from and against any and all liabilities, losses, damages, claims, causes of action, costs and expenses, including reasonable attorney's fees, (hereinafter each referred to as a "Claim") caused by reason

of any injury to person or property resulting from the acts or omissions of Youth or Youth's employees or agents which occur in the course of performance of its duties under this Agreement or by reason of Youth's breach hereof, provided, however, that Youth shall have no responsibility to indemnify, protect and hold any ASI Released Parties harmless from and against any Claim occurring through the negligence of ASI or any of ASI's employees or agents.

## **ARTICLE 9**

### **INDEPENDENT CONTRACTOR**

In the performance of the work, duties and obligations described hereunder, it is mutually understood and agreed that each party is at all times acting and performing as an independent contractor with respect to the other and that -no relationship of partnership, joint venture or employment is created by this Agreement. Neither party, nor any other person performing services on behalf of either party pursuant to this Agreement, shall have any right or claim against the other party under this Agreement for social security benefits, workers' compensation benefits, disability benefits, unemployment insurance benefits, health benefits, vacation pay, sick leave or any other employee benefits of any kind. Each party agrees to be responsible for, to pay, and to hold the other party harmless from and indemnify the other party against, all such compensation, social security, workers, compensation, disability, unemployment and other benefits, and tax withholding and similar obligations related to those persons employed or engaged by such party.

## **ARTICLE 10**

### **NOTICES**

All notices required to be given hereunder shall be in writing and shall be deemed delivered if personally delivered or dispatched by certified or registered mail, return receipt requested, postage prepaid, addressed to the parties as follows:

Youth: Youth Care of Utah, Inc.  
17777 Center Court Drive, Suite 300  
Cerritos, California 90703  
Attn: Susan Burden  
Facsimile No. 562-467-5511

ASI: Aspen Solutions, Inc.  
17777 Center Court Drive, Suite 300  
Cerritos, California 90703  
Attn: Ginny Romig  
Facsimile No. 562-467-5574

with a copy to:

Nathaniel Weiner, Esq.

Aspen Education Group, Inc.  
17777 Center Court Drive, Suite 300  
Cerritos, California 90703  
Facsimile No. 562-402-7036

Notice shall be deemed given on the date it is deposited in the mail in accordance with the foregoing. Any party may change the address to which to send notices by notifying the other party of such change of address in writing in accordance with the foregoing.

## ARTICLE 11

### MISCELLANEOUS

11.1 Severability. Any terms or provisions of this Agreement which shall prove to be invalid, void or illegal shall in no way affect, impair or invalidate any other term or provisions herein and such remaining terms and provisions shall remain in full force and effect.

11.2 Attorneys' Fees. In the event that either party to this Agreement shall bring any action at law or in equity to enforce any term, covenant or condition of this Agreement, the prevailing party in such action shall be entitled to recover all costs and expenses, including reasonable attorney's fees, incurred by such party in connection with such action.

11.3 Governing Law. The existence, validity and construction of this Agreement shall be governed by laws of the State of California.

11.4 Assignment. Neither party shall have the right to assign this Agreement without the prior written consent of the other party, provided that any assignment to an entity under common control shall not require such consent. Any attempted assignment of this Agreement in contravention of this Section 11.4 shall be null and void and without any effect whatsoever.

11.5 Successors and Assigns. Subject to the provisions of this Agreement regarding assignment, the terms, covenants and conditions contained herein shall be binding upon and inure to the benefit of the successors and assigns of the parties hereto.

11.6 Waiver. The waiver by either party to this Agreement of any one or more defaults, if any, on the part of the other, shall not be construed to operate as a waiver of any other or future defaults, under the same or different terms, conditions or covenants contained in this Agreement.

11.7 Caption and Headings. The captions and headings throughout this Agreement are for convenience of reference only and shall in no way be held or deemed to be a part of or affect the interpretation of this Agreement.

11.8 No Third Party Beneficiaries. Nothing in this Agreement, express or implied, is intended or shall be construed to confer upon any person, firm or corporation other than the parties hereto and their respective successors or assigns, any remedy or claim under or by reason of this Agreement or any term, covenant or condition hereof, as third party beneficiaries or

otherwise, and all of the terms, covenants and conditions hereof shall be for the sole and exclusive benefit of the parties hereto and their successors and assigns.

11.9 Entire Agreement; Amendments. This Agreement states the entire contract between the parties in respect to the subject matter of this Agreement and supersedes any oral or written proposals, statements, discussions, negotiations or other agreements before or contemporaneous to this Agreement. The parties acknowledge that they have not been induced to enter into this Agreement by any oral or written representations or statements not expressly contained in this Agreement. This Agreement may be modified only by mutual agreement of the parties provided that, before any modification shall be operative or valid, it be reduced to writing and signed by both parties.

IN WITNESS WHEREOF, the parties hereto have executed this Management Agreement on that day and year set forth hereinabove.

YOUTH CARE OF UTAH, INC.

June 12, 2002

Ms. Zoe Trachtenberg  
Los Angeles Department of Mental Health  
AB3632 Residential Placement Unit, 3<sup>rd</sup> Floor  
550 South Vermont Avenue  
Los Angeles, CA 90020

Dear Ms. Trachtenberg:

Please advise the Contracts Division of L.A. County Mental Health that Logan River Academy is under contract with Mental Health Systems, Inc. Therefore, all payments for client's therapy/counseling charges should be made payable to Mental Health Systems, Inc. Please use the following information when preparing payments:

MENTAL HEALTH SYSTEMS, INC.  
P.O. Box 3662  
Logan, UT 84323

Thank you for your help in resolving this matter. If any additional information is needed, I can be contacted at 435-755-8400.

Sincerely,

Kristine Sinner

## AGREEMENT TO PROVIDE MENTAL HEALTH SERVICES

This agreement is executed this 4th day of October 2000, by and between MHS, Inc. ("MHS"), a California non-profit corporation and Logan River Academy ("Logan River") a Utah for-profit limited liability company.

### RECITALS

- A. MHS is certified as a Short-Doyle/Medi-Cal Mental Health Rehabilitation Services Provider, which desires to contract with Logan River to provide care to children and adolescents who have been authorized by certain County Mental Health Departments of California as listed on Exhibit C to receive mental health services;
- B. Logan River has been approved by the certain County Mental Health Departments for the State of California (as listed on Exhibit C) as a provider of services to children and adolescents residing in California and desires to contract with MHS for the purpose of obtaining certain funds distributed by California State Social Services and California County Mental Health Departments;
- C. MHS seeks to contract with qualified professionals to assure that appropriate care is provided to those persons authorized to receive mental health services;
- D. Logan River has agreed to provide the services of qualified professionals to provide care to those persons authorized to receive mental health services.

IT IS THEREFORE AGREED by the parties as follows:

#### 1. Definitions.

- A. Beneficiary shall mean any person authorized by any of the certain County Mental Health Departments of California (as listed on Exhibit C which may be amended from time to time as appropriate and upon mutual agreement of the parties) to receive Mental Health Services and who has been properly placed at Logan River for the provision of services pursuant to Chapter 26.5 of Division 7 of title 1 of the Government Code.
- B. Mental Health Services shall mean all inpatient mental health services.
- C. Covered Services are those services covered by California State Social Service funding or by California County Mental Health Departments, as identified on Exhibit A.
- D. Professional shall mean an employee, or independent contractor of Logan River qualified to provide services as required pursuant to this Agreement.

2. **Provision of Covered Services.**

Logan River will employ Professionals who shall provide Covered Services to Beneficiaries in accordance to this Agreement. Logan River shall insure that Covered Services are rendered in a manner which assures availability, adequacy, and continuity if care to Beneficiaries.

Logan River shall operate continuously throughout the term of this Agreement with at least the minimum number and type of staff which meet applicable State and Federal requirements, and which are necessary for the provision of the services hereunder.

All Covered Services rendered hereunder shall be provided by Logan River under the general supervision of MHS. MHS shall have the right to monitor the kind, quality, appropriateness, timeliness and the amount of Covered Services to be provided, however all decisions pertaining to the Mental Health Services to be rendered to any Beneficiary shall be based on the individual Beneficiary's medical needs as initially determined by Logan River. Logan River shall remain solely responsible for the quality of all Mental Health Services and Covered Services provided.

3. **Compliance with Laws.**

A. **Nondiscrimination.** Logan River shall not discriminate in providing any services based on sex, race, national origin, religion, or disability of any Beneficiary.

B. **Child Abuse Reporting and Related Personnel Requirements.** Logan River, and all persons employed by Logan River, shall comply with all child abuse and neglect laws of the State of Utah and shall report all known or suspected instances of child abuse to an appropriate child protective agency, as mandated by the laws of Utah. Logan River shall assure that any person who enters into the employment as a care custodian of minor children, or who enters into employment as a health practitioner, prior to commencing employment, and as a prerequisite to that employment, shall sign a statement on a form provided by MHS in accordance with the above laws to the effect that such person has knowledge of, and will comply with, these laws. For the safety and welfare of minor children, Logan River shall, to the maximum extent permitted by law, ascertain arrest and conviction records for all current and prospective employees and shall not employ or continue to employ any person convicted of any crime involving any harm to minor children. Logan River shall not employ or continue to employ, or shall take other appropriate action to fully protect all persons receiving services under this Agreement concerning, any person whom Logan River knows, or reasonably suspects, has committed any acts which are inimical to the health, morals, welfare, or safety of minor children, or which otherwise make it inappropriate for such person to be employed by Logan River.

C. **Fair Labor Standards.** Logan River shall comply with all applicable provisions of the Federal Fair Labor Standards Act, and shall indemnify, defend and hold harmless MHS, its officers, employees and agents, from any and all liability, including, but not limited to, wages, overtime pay, liquidated damages, penalties, court costs, and attorney's fees arising under any wage and hour law, including, but not limited to the Federal Fair Labor Standards Act, for services performed by Logan River's employees for which MHS may be found jointly or solely liable.

D. **Licensure.** Logan River certifies that it is licensed as a Residential Treatment Center and that each of its Professionals is licensed and/or certified in good standing to practice his or her profession in the State of Utah. Logan River, its Professionals, officers, agents, employees and subcontractors shall, throughout the term of this Agreement, maintain all necessary licenses, permits, approvals, certificates, waivers and exemptions necessary for the provision of the services hereunder and required by the laws or regulations of the United States, Utah and all other applicable government jurisdictions or agencies. Logan River agrees to immediately notify MHS in the event that Logan River or any Professional has his/her license placed on probation, suspended, or terminated.

4. **Insurance.**

Without limiting Logan River's indemnification as provided herein, at all times during the course of this Agreement, Logan River shall maintain professional liability insurance at least in the amount of [\$1,000,000 per occurrence and \$3,000,000 annual aggregate]. Logan River shall also maintain customary and reasonable workers compensation insurance and general liability insurance. The costs for said policies, deductible amounts, uncovered liabilities, defense costs, loss adjustment expenses and settlements arising out of or from any services provided by Logan River (including those services rendered by Logan River Professionals or personnel who are acting under the direction or supervision of Logan River) shall be payable by Logan River, to the extent not covered by insurance proceeds. The costs for said policies, deductible amounts, uncovered liabilities, defense costs, loss adjustment expenses, and settlements arising out of services provided by MHS shall be payable by MHS, to the extent not covered by insurance proceeds.

Logan River shall provide evidence of such coverage prior to the effective date of this Agreement and thereafter as requested by MHS. Logan River's insurance shall include MHS as an additional insured with respect to the operations which Logan River performs under contract with MHS. It is agreed that any insurance maintained by MHS shall apply in excess of and not contribute with, insurance provided by this policy. Logan River's insurance shall not be canceled, limited or non-renewed until thirty (30) days written notice has been given to MHS at the address first noted in this Agreement.

In the event that any Professional or Logan River is sued as a result of any services provided to a Beneficiary pursuant to this Agreement, Logan River shall immediately notify MHS. Logan River shall notify MHS, in writing, within sixteen (16)

hours of becoming aware of any occurrence of a serious nature, which may expose MHS to liability. Such occurrences shall include, but not be limited to deaths, accidents or injuries to any Beneficiary, or acts of negligence of Logan River or one of its Professionals.

**5. Prohibition on Billing Beneficiaries.**

MHS shall be the sole source of payment to Logan River for those Covered Services rendered to the Beneficiaries for which MHS obtains funding from California State Social Services and/or California County Mental Health Departments. Logan River agrees that in no event shall it seek payment from the Beneficiaries for any Covered Service except in those instances where there is a co-payment amount or for incremental costs, as outlined in the financial policies of Logan River, including medical and ancillary expenses not covered under routine room and board. If Logan River desires to seek such payment from the Beneficiaries for either a co-payment or for incremental costs, Logan River shall seek such payment directly without any involvement from MHS. Logan River agrees that it and not MHS will have full responsibility for Logan River's collection of money for such co-payments or incremental costs.

**6. Total Quality Management/Utilization Review.**

Logan River agrees to cooperate fully with MHS in assuring total quality management and utilization review in accordance with MHS's policies. This includes, but is not limited to, permitting MHS to observe the operation of Logan River and to review the records of individual Beneficiaries, in accordance with all applicable laws, to assure that the care which is provided is appropriate.

**7. Release of Medical Information.**

MHS, as applicable and appropriate, shall obtain from Beneficiaries appropriate authorization for release of medical information by MHS. Logan River, as applicable and appropriate, shall obtain from Beneficiaries appropriate authorization for release of medical information by Logan River.

**8. Indemnification.**

Except as provided herein, MHS agrees to indemnify and hold Logan River, its offices, directors, employees, agents, successors and assigns harmless from and against any claim, damage, loss, expense, liability, obligation, action or cause of action, including reasonable attorney's fees and reasonable costs of investigation, which Logan River may sustain, pay, suffer or incur by reason of any act, omission, or negligence of MHS in performing its obligations under this Agreement.

Immediately after either Party has notice of a claim or potential claim relating either directly or indirectly to any Beneficiary as defined by this Agreement, that party shall give notice to the other of any claim or other matter with respect to which indemnity

may be sought pursuant to this provision, and of the commencement of any legal proceedings or action with respect to such claim, and shall permit the other party at its own expense to assume the handling and defense of any such claim, proceeding or action. Neither party shall pay or settle any claim or action subject to the indemnity hereunder without the prior written consent of the other party. Failure to give such notice, or the payment or settlement without written consent, shall vitiate the indemnity provided herein.

**9. Maintenance of Records.**

Logan River agrees to maintain standard financial and medical records for Beneficiaries for at least a five-year period (or longer if required by law or by any funding source) and to comply with all applicable provisions of federal and state law concerning confidentiality of such records. In the event a Beneficiary chooses another mental health services provider, Logan River shall forward such records to the new mental health services provider upon Logan River's receipt of the Beneficiary's signed consent and authorization in a timely manner at no cost to the Beneficiary or MHS.

**10. Access to Records.**

This Section is included herein because of the possible application of Section 1861(v)(1)(1) of the Social Security Act to this Agreement. If such Section and the regulations promulgated thereunder, then this Section of the Agreement will be deemed not to be a part of this Agreement and will be null and void. Until the expiration of four years after the furnishing of services under this Agreement, Logan River will make available to MHS, the California County Mental Health Departments listed on Exhibit C, U.S. Department of Health and Human Services, and the Controller General this Agreement and all related books, documents, and records. Unless required by law, Logan River shall not otherwise disclose the terms and conditions of this Agreement to any third parties, except to its attorneys or accountants who shall be similarly bound.

**11. Audits.**

Logan River will permit MHS and those California County Mental Health Departments listed on Exhibit C, upon written request and during reasonable business hours, to have access to its business, financial and client records related to services provided to Beneficiaries related to this Agreement for the purpose of auditing Logan River's bills and for conducting quality and utilization review.

**12. Required Notification.**

Logan River shall notify MHS within five days of any of the following occurrences:

- A. Logan River or a Professional's license is suspended, revoked, voluntarily relinquished, or subject to terms of or other restrictions;

- B. Logan River or a Professional is suspended from participation in the Medicare or Medicaid programs;
- C. Logan River's insurance as set forth in Section 5 is terminated or the limits of coverage are decreased for any reason;
- D. When a Professional who is a member of the medical staff has his/her privileges limited or terminated in any manner;
- E. Logan River or a Professional is named in a professional liability action or any other action involving a Beneficiary or related to the services provided by Logan River or its Professionals to any Beneficiary.

**13. Compliance with Medicare and Medicaid/No Referrals.**

The parties to this Agreement expressly acknowledge that it has been and continues to be their intent to comply fully with all federal, state, and local laws, rules and regulations. It is not a purpose, nor is it a requirement, of this Agreement or of any other agreement between the parties, to offer or receive any remuneration of any patient, payment of which may be made in whole or in part by Medicare or Medicaid. Neither party shall make or receive any payment that would be prohibited under state or federal law.

**14. Compensation.**

MHS will pay Logan River in accordance with the procedures and terms set forth in Exhibit B ("Fee Schedule and Compensation Procedure").

Logan River shall only be entitled to compensation from MHS for those services for which MHS has received remuneration from the California State and Social Services or from a California County Mental Health Department. Logan River shall not be entitled to any compensation from MHS for any services for which MHS does not receive remuneration from the California State Social Services or California County Mental Health Department. By the way of illustration and not limitation, MHS may not receive remuneration, and therefore Logan River shall not be entitled to any compensation for the following:

- A. Services rendered prior to receipt of any required advance approval to provide services;
- B. Services which are not Covered Services as set forth on Exhibit A;
- C. Unnecessary services as determined by MHS in accordance with its utilization policies and procedures.

In consideration of the compensation which Logan River receives under this Agreement, Logan River agrees to cooperate with MHS and to amend this Agreement from time to time as MHS may reasonably request in order to comply with various contractual obligations which MHS may need to satisfy in order to receive California State Social Services or California County Mental Health Department funding.

15. Costs.

All costs incurred in the provision of Logan River's services, including but not limited to the Covered Services, shall be born by Logan River and not MHS. Any costs incurred by MHS for the purpose of providing Total Quality Management/Utilization Review as set forth in Section 6, hereto or conducting Audits as set forth in Section 11 hereto shall be born by MHS, provided however, that any additional costs incurred by MHS which result from any delay or complication for which Logan River is responsible shall be born by Logan River. Logan River shall reimburse MHS for all such costs within thirty (30) days of receiving from MHS a written account of all such additional costs.

16. Patient Disputes.

If there are any disputes between MHS and Logan River for itself or its Professionals, the dispute must be discussed directly between Logan River and MHS and at no point shall the Beneficiary become aware of or participate in these discussions.

17. Termination.

The term of this Agreement is one (1) year and shall renew automatically unless terminated in accordance with the provisions of this Section.

A. Either party may terminate this Agreement without cause upon thirty days written notice. In the event that this Agreement is terminated, the parties will work together to bring forth the smooth transition of Beneficiaries' care which, by way of demonstration but not exclusion, may include providing interim services not to exceed sixty (60) days in accordance with all terms of this Agreement.

B. The Agreement shall be terminated automatically upon Logan River having its license suspended or revoked or its ability to participate in the Medicare/Medicaid program, suspended or terminated.

C. Either party may immediately terminate this Agreement with cause if the other party materially breaches this Agreement. Under such circumstances, the non-breaching party may give notice of the breach and the Agreement shall terminate within fifteen (15) days unless the breach is corrected within such time.

**18. Effect of Termination.**

Upon termination, the provisions of Section 4 ("Insurance"), Section 8 ("Indemnification"), Section 10 ("Access to Records"), Section 11 ("Audits"), Section 14 ("Compensation"), Section 15 ("Costs") and Section 16 ("Patient Dispute") shall remain in effect.

**19. Non-Exclusivity.**

Nothing contained herein shall restrict the right of Logan River or Professional to participate in providing services to other patients, regardless of the payor for such services.

**20. Jeopardy.**

In the event the performance by either party hereto of any term, covenant, condition or provision of this Agreement should (i) jeopardize (A) the licensure of either party, any employee or any individual providing services hereunder or any provider owned and/or operated by either party or any corporate affiliate of such party (a "Covered Party"); (B) any Covered Party's participation in or reimbursement from Medicare, Medicaid or other reimbursement of payment programs; or (c) any Covered Party's full accreditation by JCAHO or any successor accrediting agency, or (ii) if the continuance of this Agreement should be in violation of any statute, ordinance, or otherwise deemed illegal or be deemed unethical by any recognized body, agency, or association in the medical or behavioral health care fields (collectively, "Jeopardy Event"), then the parties shall use their best efforts to meet forthwith in an attempt to negotiate an amendment to this Agreement to remove or negate the effects of the Jeopardy Event. In the event the parties are unable to negotiate such an amendment within fifteen (15) days following written notice by either party of the Jeopardy Event, then either party may terminate this Agreement immediately upon written notice to the other party, notwithstanding any severability provisions hereto to the contrary.

**21. Notices.**

All notices required under this Agreement shall be provided in writing as follows:

**MHS:**

Mental Health Systems, Inc.  
9845 Erma Road, Suite 300  
San Diego, CA 92131

**22. Independent Status.**

Logan River is, and shall at all times be deemed to be, an independent contractor and shall be wholly responsible for the manner in which it performs the services or Covered Services required of it by the terms of this Agreement. Logan River is entirely responsible for compensating its Professional and other staff, subcontractors and consultants employed by Logan River. The parties are independent of each other and this Agreement shall not be construed as creating the relationship of employer and employee, or principal and agent, between MHS and Logan River or any of Logan River's Professionals, other employees, agents, consultants or subcontractors. Logan River assumes exclusively the responsibility for the acts of its Professional, employees, agents, consultants and/or subcontractors as they relate to the services and Covered Services to be provided during the course and scope of their employment. Logan River will remain an independent contractor responsible for all taxes and/or payments made by MHS. Nothing contained in this Agreement shall constitute or be construed to be or to create a partnership, joint venture or lease between Logan River and MHS with respect to UHS of Logan River, Inc. or any equity interest in UHS of Logan River, Inc. on the part of MHS.

**23. Assignment.**

This Agreement shall not be subcontracted or assigned except to an affiliate or purchaser of Logan River. If MHS wishes to assign this Agreement, it must notify Logan River in writing and obtain its written consent.

**24. Organization, Power and Authority.**

MHS hereby represents, warrants and covenants that it is a non-profit corporation duly organized, validly existing and in good standing under the laws of the State of California, is qualified or otherwise has met all lawful requirements to transact business in the State of Utah, and has all requisite corporate power and authority to execute and

deliver this Agreement, to perform its obligations under this Agreement, and this Agreement is valid, binding and enforceable in accordance with its terms.

Logan River hereby represents, warrants and covenants that it is a for-profit limited liability company duly organized, validly existing and in good standing under the laws of the State of Delaware, is qualified or otherwise has met all lawful requirements to transact business in the State of Utah, and has all requisite power and authority to execute and deliver this Agreement, to perform its obligations under this Agreement, and this Agreement is valid, binding and enforceable in accordance with its terms

**25. Non-assumption of Liabilities.**

By entering into and performing this Agreement, neither party shall become liable for any of the existing or future obligations, liabilities or debts of the other party.

**26. Rights Cumulative, No Waiver.**

No right or remedy herein conferred upon or reserved to either of the parties hereto is intended to be exclusive of any right or remedy, and each and every right and remedy shall be cumulative and in addition to any other right or remedy given hereunder, or now or hereafter legally existing upon the occurrence of an event of default thereunder. The failure of either party hereto to insist at any time upon the strict observance or performance of any of the provisions of this Agreement or to exercise any right or remedy as provided in this Agreement shall not impair any such right or remedy or be construed by as a waiver or relinquishment thereof. Every right and remedy given by this Agreement to the parties hereto may be exercised from time to time and as often as may be deemed expedient by the parties hereto, as the case may be.

**27. Captions and Headings.**

The captions and headings throughout this Agreement are for convenience and reference only, and the words contained therein shall in no way be held or deemed to define, limit, describe, explain, modify, amplify, or add to the interpretation, construction or meaning of any provision of or the scope or intent of this Agreement nor in any way affect the Agreement.

[Remainder of Page intentionally left blank]

**28. Counterparts.**

This Agreement may be executed in counterparts, each of which will be treated as an original, but all of which together will constitute one and the same instrument.

29. Entire Agreement.

This Agreement contains the entire agreement of the parties and can only be modified by documents signed by both the parties.

Entered into this on the date first noted above.

**AGREEMENT TO PROVIDE  
MENTAL HEALTH SERVICES**

This Agreement is executed this 1st day of July, 1998, by and between Mental Health System, Inc. ("MHS"), a California non-profit corporation and Charter Provo Canyon School, LLC ("Provo Canyon") a Delaware for-profit limited liability company.

**RECITALS**

A. MHS is certified as a Short-Doyle/Medi-Cal Mental Health Rehabilitation Services Provider, which desires to contract with Provo Canyon to provide care to children and adolescents who have been authorized by certain County Mental Health Departments of California as listed on Exhibit C to receive mental health services;

B. Provo Canyon has been approved by the certain County Mental Health Departments for the State of California (as listed on Exhibit C) as a provider of services to children and adolescents residing in California and desires to contract with MHS for the purpose of obtaining certain funds distributed by California State Social Services and California County Mental Health Departments;

C. MHS seeks to contract with qualified professionals to assure that appropriate care is provided to those persons authorized to receive mental health services;

D. Provo Canyon has agreed to provide the services of qualified professionals to provide care to those persons authorized to receive mental health services.

**IT IS THEREFORE AGREED by the parties as follows:**

**1. Definitions.**

A. Beneficiary shall mean any person authorized by any of the certain County Mental Health Departments of California (as listed on Exhibit C which may be amended from time to time as appropriate and upon mutual agreement of the parties) to receive Mental Health Services and who has been properly placed at Provo Canyon for the provision of services pursuant to Chapter 26.5 of Division 7 of Title 1 of the Government Code.

B. Mental Health Services shall mean all inpatient mental health services.

C. Covered Services are those services covered by California State Social Service funding or by California County Mental Health Departments, as identified on Exhibit A.

D. Professional shall mean an employee, or independent contractor of Provo Canyon qualified to provide services as required pursuant to this Agreement.

2. **Provision of Covered Services.** Provo Canyon will employ Professionals who shall provide Covered Services to Beneficiaries in accordance to this Agreement. Provo Canyon shall insure that Covered Services are rendered in a manner which assures availability, adequacy, and continuity of care to Beneficiaries.

Provo Canyon shall operate continuously throughout the term of this Agreement with at least the minimum number and type of staff which meet applicable State and Federal requirements, and which are necessary for the provision of the services hereunder.

All Covered Services rendered hereunder shall be provided by Provo Canyon under the general supervision of MHS. MHS shall have the right to monitor the kind, quality, appropriateness, timeliness and the amount of Covered Services to be provided, however all decisions pertaining to the Mental Health Services to be rendered to any Beneficiary shall be based on the individual Beneficiary's medical needs as initially determined by Provo Canyon. Provo Canyon shall remain solely responsible for the quality of all Mental Health Services and Covered Services provided.

3. **Compliance with Laws.**

A. **Nondiscrimination.** Provo Canyon shall not discriminate in providing any services based on the sex, race, national origin, religion, or disability of any Beneficiary.

B. **Child Abuse Reporting and Related Personnel Requirements.** Provo Canyon, and all persons employed by Provo Canyon, shall comply with all child abuse and neglect laws of the State of Utah and shall report all known or suspected instances of child abuse to an appropriate child protective agency, as mandated by the laws of Utah. Provo Canyon shall assure that any person who enters into employment as a care custodian of minor children, or who enters into employment as a health or other practitioner, prior to commencing employment, and as a prerequisite to that employment, shall sign a statement on a form provided by MHS in accordance with the above laws to the effect that such person has knowledge of, and will comply with, these laws. For the safety and welfare of minor children, Provo Canyon shall, to the maximum extent permitted by law, ascertain arrest and conviction records for all current and prospective employees and shall not employ or continue to employ any person convicted of any crime involving any harm to minor children. Provo Canyon shall not employ or continue to employ, or shall take other appropriate action to fully protect all persons receiving services under this Agreement concerning, any person whom Provo Canyon knows, or reasonably suspects, has committed any acts which are inimical to the health, morals, welfare, or safety of minor children, or which otherwise make it inappropriate for such person to be employed by Provo Canyon.

C. Fair Labor Standards. Provo Canyon shall comply with all applicable provisions of the Federal Fair Labor Standards Act, and shall indemnify, defend and hold harmless MHS, its officers, employees and agents, from any and all liability, including, but not limited to, wages, overtime pay, liquidated damages, penalties, court costs, and attorney's fees arising under any wage and hour law, including, but not limited to the Federal Fair Labor Standards Act, for services performed by Provo Canyon's employees for which MHS may be found jointly or solely liable.

D. Licensure. Provo Canyon certifies that it is licensed as a Residential Treatment Center and that each of its Professionals is licensed and/or certified in good standing to practice his or her profession in the State of Utah. Provo Canyon, its Professionals, officers, agents, employees and subcontractors shall, throughout the term of this Agreement, maintain all necessary licenses, permits, approvals, certificates, waivers and exemptions necessary for the provision of the services hereunder and required by the laws or regulations of the United States, Utah and all other applicable government jurisdictions or agencies. Provo Canyon agrees to immediately notify MHS in the event that Provo Canyon or any Professional has his/her license placed on probation, suspended, or terminated.

4. Insurance. Without limiting Provo Canyon's indemnification as provided herein, at all times during the course of this Agreement, Provo Canyon shall maintain professional liability insurance at least in the amount of [\$2,000,000 per occurrence and \$6,000,000 annual aggregate]. Provo Canyon shall also maintain customary and reasonable workers compensation insurance and general liability insurance. The costs for said policies, deductible amounts, uncovered liabilities, defense costs, loss adjustment expenses, and settlements arising out of or from any services provided by Provo Canyon (including those services rendered by Provo Canyon Professionals or personnel who are acting under the direction or supervision of Provo Canyon) shall be payable by Provo Canyon, to the extent not covered by insurance proceeds. The costs for said policies, deductible amounts, uncovered liabilities, defense costs, loss adjustment expenses, and settlements arising out of services provided by MHS shall be payable by MHS, to the extent not covered by insurance proceeds.

Provo Canyon shall provide evidence of such coverage prior to the effective date of this Agreement and thereafter as requested by MHS. Provo Canyon's insurance shall include MHS as an additional insured with respect to the operations which Provo Canyon performs under contract with MHS. It is agreed that any insurance maintained by MHS shall apply in excess of and not contribute with, insurance provided by this policy. Provo Canyon's insurance shall not be canceled, limited or non-renewed until after thirty (30) days written notice has been given to MHS at the address first noted in this Agreement.

In the event that any Professional or Provo Canyon is sued as a result of any services provided to a Beneficiary pursuant to this Agreement, Provo Canyon shall immediately notify MHS. Provo Canyon shall notify MHS, in writing, within sixteen (16) hours of becoming aware of any occurrence of a serious nature which may expose MHS to liability. Such occurrences shall include, but not be limited to deaths, accidents or injuries to any Beneficiary, or acts of negligence of Provo Canyon or one of its Professionals.

5. **Prohibition on Billing Beneficiaries.** MHS shall be the sole source of payment to Provo Canyon for those Covered Services rendered to the Beneficiaries for which MHS obtains funding from California State Social Services and/or California County Mental Health Departments. Provo Canyon agrees that in no event shall it seek payment from the Beneficiaries for any Covered Service except in those instances where there is a co-payment amount or for incremental costs, as outlined in the financial policies of Provo Canyon, including medical and ancillary expenses not covered under routine room and board. If Provo Canyon desires to seek such payment from the Beneficiaries for either a co-payment or for incremental costs, Provo Canyon shall seek such payment directly without any involvement from MHS. Provo Canyon agrees that it and not MHS will have full responsibility for Provo Canyon's collection of money for such co-payments or incremental costs.

6. **Total Quality Management/Utilization Review.** Provo Canyon agrees to cooperate fully with MHS in assuring total quality management and utilization review in accordance with MHS's policies. This includes, but is not limited to, permitting MHS to observe the operation of Provo Canyon and to review the records of individual Beneficiaries, in accordance with all applicable laws, to assure that the care which is provided is appropriate.

7. **Release of Medical Information.** MHS, as applicable and appropriate, shall obtain from Beneficiaries appropriate authorization for release of medical information by MHS. Provo Canyon, as applicable and appropriate, shall obtain from Beneficiaries appropriate authorization for release of medical information by Provo Canyon.

8. **Indemnification.** Except as provided herein, MHS agrees to indemnify and hold Provo Canyon, its officers, directors, employees, agents, successors and assigns harmless from and against any claim, damage, loss, expense, liability, obligation, action or cause of action, including reasonable attorney's fees and reasonable costs of investigation, which Provo Canyon may sustain, pay, suffer or incur by reason of any act, omission, or negligence of MHS in performing its obligations under this Agreement.

Except as provided herein, Provo Canyon agrees to indemnify and hold MHS, its officers, directors, employees, agents, successors and assigns harmless from and against any claim, damage, loss, expense, liability, obligation, action or cause of action, including reasonable attorney's fees and reasonable costs of investigation, which MHS may sustain, pay, suffer or incur by reason of any act, omission, or negligence of Provo Canyon in performing its obligations under this Agreement.

Immediately after either Party has notice of a claim or potential claim relating either directly or indirectly to any Beneficiary as defined by this Agreement, that party shall give notice to the other of any claim or other matter with respect to which indemnity may be sought pursuant to this provision, and of the commencement of any legal proceedings or action with respect to such claim, and shall permit the other party at its own expense to assume the handling and defense of any such claim, proceeding or action. Neither party shall pay or settle any claim or action subject to the indemnity hereunder without the prior written consent of the other party.

Failure to give such notice, or the payment or settlement without written consent, shall vitiate the indemnity provided herein.

9. **Maintenance of Records.** Provo Canyon agrees to maintain standard financial and medical records for Beneficiaries for at least a five-year period (or longer if required by law or by any funding source) and to comply with all applicable provisions of federal and state law concerning confidentiality of such records. In the event a Beneficiary chooses another mental health services provider, Provo Canyon shall forward such records to the new mental health services provider upon Provo Canyon's receipt of the Beneficiary's signed consent and authorization in a timely manner at no cost to the Beneficiary or MHS.

10. **Access to Records.** This Section is included herein because of the possible application of Section 1861(v)(1)(I) of the Social Security Act to this Agreement. If such Section 1861(v)(1)(I) should not be found applicable to this Agreement under the terms of such Section and the regulations promulgated thereunder, then this Section of the Agreement will be deemed not to be a part of this Agreement and will be null and void. Until the expiration of four years after the furnishing of services under this Agreement, Provo Canyon will make available to MHS, the California County Mental Health Departments listed on Exhibit C, U.S. Department of Health and Human Services, and the Comptroller General this Agreement and all related books, documents and records. Unless required by law, Provo Canyon shall not otherwise disclose the terms and conditions of this Agreement to any third parties, except to its attorneys or accountants who shall be similarly bound.

11. **Audits.** Provo Canyon will permit MHS and those California County Mental Health Departments listed on Exhibit C, upon written request and during reasonable business hours, to have access to its business, financial and client records related to services provided to Beneficiaries related to this Agreement for the purpose of auditing Provo Canyon's bills and for conducting quality and utilization review.

12. **Required Notification.** Provo Canyon shall notify MHS within five days of any of the following occurrences:

A. Provo Canyon or a Professional's license is suspended, revoked, voluntarily relinquished, or subject to terms of probation or other restrictions;

B. Provo Canyon or a Professional is suspended from participation in the Medicare or Medicaid programs;

C. Provo Canyon's insurance as set forth in Section 5 is terminated or the limits of coverage are decreased for any reason;

D. When a Professional who is a member of the medical staff has his/her privileges limited or terminated in any manner;

E. Provo Canyon or a Professional is named in a professional liability action or any other action involving a Beneficiary or related to the services provided by Provo Canyon or its Professionals to any Beneficiary.

13. Compliance with Medicare and Medicaid/No Referrals. The parties to this Agreement expressly acknowledge that it has been and continues to be their intent to comply fully with all federal, state, and local laws, rules and regulations. It is not a purpose, nor is it a requirement, of this Agreement or of any other agreement between the parties, to offer or receive any remuneration of any patient, payment of which may be made in whole or in part by Medicare or Medicaid. Neither party shall make or receive any payment that would be prohibited under state or federal law.

14. Compensation. MHS will pay Provo Canyon in accordance with the procedures and terms set forth in Exhibit B ("Fee Schedule and Compensation Procedure").

Provo Canyon shall only be entitled to compensation from MHS for those services for which MHS has received remuneration from the California State Social Services or from a California County Mental Health Department. Provo Canyon shall not be entitled to any compensation from MHS for any services for which MHS does not receive remuneration from the California State Social Services or California County Mental Health Department. By way of illustration and not limitation, MHS may not receive remuneration, and therefore Provo Canyon shall not be entitled to any compensation for the following:

- A. services rendered prior to receipt of any required advance approval to provide services;
- B. services which are not Covered Services as set forth on Exhibit A;
- C. unnecessary services as determined by MHS in accordance with its utilization policies and procedures.

In consideration of the compensation which Provo Canyon receives under this Agreement, Provo Canyon agrees to cooperate with MHS and to amend this Agreement from time to time as MHS may reasonably request in order to comply with various contractual obligations which MHS may need to satisfy in order to receive California State Social Services or California County Mental Health Department funding.

15. **Costs.** All costs incurred in the provision of Provo Canyon's services, including but not limited to the Covered Services, shall be born by Provo Canyon and not by MHS. Any costs incurred by MHS for the purpose of providing Total Quality Management/Utilization Review as set forth in Section 6, hereto or conducting Audits as set forth in Section 11 hereto shall be born by MHS, provided however, that any additional costs incurred by MHS which result from any delay or complication for which Provo Canyon is responsible shall be born by Provo Canyon. Provo Canyon shall reimburse MHS for all such costs within thirty (30) days of receiving from MHS a written account of all such additional costs.

16. **Patient Disputes.** If there are any disputes between MHS and Provo Canyon for itself or its Professionals, the dispute must be discussed directly between Provo Canyon and MHS and at no point shall the Beneficiary become aware of or participate in these discussions.

17. **Termination.** The term of this Agreement is one (1) year and shall renew automatically unless terminated in accordance with the provisions of this Section.

A. Either party may terminate this Agreement without cause upon thirty days written notice. In the event that this Agreement is terminated, the parties will work together to bring forth the smooth transition of Beneficiaries' care which, by way of demonstration but not exclusion, may include providing interim services not to exceed sixty (60) days in accordance with all terms of this Agreement.

B. The Agreement shall be terminated automatically upon Provo Canyon having its license suspended or revoked or its ability to participate in the Medicare/Medicaid program suspended or terminated.

C. Either party may immediately terminate this Agreement with cause if the other party materially breaches this Agreement. Under such circumstances, the nonbreaching party may give notice of the breach and the Agreement shall terminate within fifteen (15) days unless the breach is corrected within such time.

18. **Effect of Termination.** Upon termination, the provisions of Section 4 ("Insurance"), Section 8 ("Indemnification"), Section 10 ("Access to Records"), Section 11 ("Audits"), Section 14 ("Compensation"), Section 15 ("Costs") and Section 16 ("Patient Disputes") shall remain in effect.

19. **Non-Exclusivity.** Nothing contained herein shall restrict the right of Provo Canyon or Professional to participate in providing services to other patients, regardless of the payor for such services.

20. **Jeopardy.** In the event the performance by either party hereto of any term, covenant, condition or provision of this Agreement should (i) jeopardize (A) the licensure of either party, any employee or any individual providing services hereunder or any provider owned and/or operated by either party or any corporate affiliate of such party (a "Covered Party"); (B) any Covered Party's participation in or reimbursement from Medicare, Medicaid or other reimbursement of payment programs; or (C) any Covered Party's full accreditation by JCAHO or any successor accrediting agency, or (ii) if the continuance of this Agreement should be in violation of any statute, ordinance, or otherwise deemed illegal or be deemed unethical by any recognized body, agency or association in the medical or behavioral health care fields (collectively, "Jeopardy Event"), then the parties shall use their best efforts to meet forthwith in an attempt to negotiate an amendment to this Agreement to remove or negate the effects of the Jeopardy Event. In the event the parties are unable to negotiate such an amendment within fifteen (15) days following written notice by either party of the Jeopardy Event, then either party may terminate this Agreement immediately upon written notice to the other party, notwithstanding any severability provisions hereto to the contrary.

21. **Notices.** All notices required under this Agreement shall be provided in writing as follows:

**Los Angeles County IRC No. 12-9705-I-04**  
**Seriously Emotionally Disturbed Pupils: Out of State Mental Health Services Program**  
**Fiscal Years 2003-04, 2004-05 and 2005-06**  
**Rebuttal to State Controller's Office Comments**

**Introduction**

The following is the County of Los Angeles' rebuttal to the State Controller's Office (SCO) comments on the County's Incorrect Reduction Claim (IRC) contesting the SCO's disallowance of costs associated with the placement of pupils in certain out-of-state residential facilities.

In its comments, the SCO argues the costs are disallowed because the Program's Parameters and Guidelines' reference California Code of Regulation Section 60100, Subsection (h), which states residential placements in out-of-state facilities shall be made only in residential programs meeting the requirements of Welfare and Institutions Code Section 11460, Subsection (c)(2) and (c)(3). In doing so, the SCO assumes the "mandate" depends entirely on the Parameters and Guidelines and not on the underlying legislation. Such an assumption would be incorrect.

The placement of a pupil in an out-of-state residential facility is not a decision that is made lightly. In fact, such placements may only be made when there is no in-state facility that can provide the services and supports necessary to allow a pupil to access and benefit from his or her public education as required by federal law, specifically the Individuals with Disabilities Education Act (IDEA). Pupils placed in such out-of-state facilities need highly specialized services and supports to address mental and emotional, and sometimes physical, challenges. The availability of these specialized services is extremely limited nationwide.

Payment of out-of-state residential placement consists of two components: A "care and supervision" component and a "treatment" component. The County of Los Angeles agrees with the Counties of San Diego and Orange, who have independently filed Incorrect Reduction Claims contesting the disallowance of costs associated with similar out-of-state residential placements, that all costs associated with the placement of pupils in these out-of-state facilities are mandated costs and thus should be reimbursed to counties under this State Mandated Program. However, the County has focused its IRC on the mental health treatment component so as to ensure each component is specifically addressed.

**SCO Comments & County Response**

In its comments, the SCO admits there is "inconsistency" between the California Code of Regulations and the federal law. The SCO also admits the Education Code does not have the same restriction on for-profit facilities.

As discussed in the IRC, a regulation cannot override the statutes it was supposed to implement and cannot operate to prohibit a county from complying with State law. The regulation is not only inconsistent with IDEA, the Government Code, and the Education Code, but it unlawfully restricts the rights of pupils with serious emotional or mental illness to receive a free and appropriate public education (FAPE).

**Los Angeles County IRC No. 12-9705-I-04**  
**Seriously Emotionally Disturbed Pupils: Out of State Mental Health Services Program**  
**Fiscal Years 2003-04, 2004-05 and 2005-06**  
**Rebuttal to State Controller's Office Comments**

IDEA requires a pupil be given the "most appropriate placement." The federal law does not place any restrictions on such placements. Further, as discussed in the IRC, the Legislature in passing Assembly Bill 2726 specifically stated:

*"The people of the State of California do enact as follows: Section 1. (a) The fiscal and program responsibilities of community mental health agencies shall be the same regardless of the location of placement. Local education agencies and community mental health services shall make out-of-state placements under Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code only if other options have been considered and are determined to be inappropriate. In making these placements, local education agencies and community mental health services shall comply with relevant sections of the Education Code including Section 56365."*

The Legislature did not reference the Welfare & Institutions Code, only the Education Code. The Education Code does not prohibit placements in for-profit facilities and, in fact, Section 56365 of the Education Code **requires** local education agencies to make available services provided by nonpublic, nonsectarian schools, as defined pursuant to Section 56034<sup>1</sup>, and nonpublic, nonsectarian agencies, as defined pursuant to Section 56035.<sup>2</sup>

The SCO's response states: "We do not dispute that Government Code section 7572 requires mental health services to be provided by qualified mental health professionals. As noted in our previous response, the county is prohibited from placing a client in a for-profit facility and the residential vendor payments shall be made only to a group home organized and operated on a nonprofit basis."<sup>3</sup> SCO cites no authority for its assertion that the County is *prohibited* from placing a client in a for-profit facility. Welfare and Institutions Code Section 11460, subdivision (3), upon which the SCO relies, says: "State reimbursement for the AFDC-FC group home rate paid on or after January 1, 1993, shall only be paid to a group home organized and operated on a nonprofit basis. While it addresses a requirement for the AFDC-FC group home rate to be paid, it places no prohibition on the placement of a child in a for-profit facility.

More importantly, this provision is limited in its applicability. "Aid to Families with Dependent Children-Foster Care" means "the aid provided on behalf of needy children in foster care under

---

<sup>1</sup> Section 56034 defines a "non public, nonsectarian school" as "a private, nonsectarian school that enrolls individuals with exceptional needs pursuant to an individualized education program and is certified by the department. It does not include an organization or agency that operates as a public agency or offers public service, including, but not limited to, a state or local agency, an affiliate of a state or local agency, including a private, nonprofit corporation established or operated by a state or local agency, or a public university or college. A nonpublic, nonsectarian school also shall meet standards as prescribed by the Superintendent and board.

<sup>2</sup> Section 56035 defines a "non public, nonsectarian agency" as "a private, nonsectarian establishment or individual that provides related services necessary for an individual with exceptional needs to benefit educationally from the pupils' educational program pursuant to an individualized education program and that is certified by the department. It does not include an organization or agency that operates as a public agency or offers public service, including, but not limited to, a state or local agency, an affiliate of a state or local agency, including a private, nonprofit corporation established or operated by a state or local agency, a public university or college, or a public hospital. The nonpublic, nonsectarian agency shall also meet standards as prescribed by the superintendent and board.

<sup>3</sup> See Page 9, section A. of SCO's response filed October 3, 2014.

**Los Angeles County IRC No. 12-9705-I-04**  
**Seriously Emotionally Disturbed Pupils: Out of State Mental Health Services Program**  
**Fiscal Years 2003-04, 2004-05 and 2005-06**  
**Rebuttal to State Controller's Office Comments**

the terms of this division," referring to Division 9, Public Social Services. (Welf. & Inst. Code section 11400(a)). The children placed in out-state-placements under Government Code section 7572.55 were not "needy children" but children entitled to State-mandated mental health services to assure that they received a FAPE.

Consequently, the courts and administrative bodies in applying these various provisions have consistently required public agencies, including the County of Los Angeles, in conjunction with the local education agency to allow the placement of pupils in the exact facilities for which the SCO is disallowing the costs and these courts and administrative bodies have consistently sided with the parents after the parents made unilateral placements of a pupil in a for-profit facility.

The County is a party to these actions only because of the State mandate. This fact was recognized by the Commission as County litigation costs for treatment-related issues such as placement is expressly identified as a reimbursable cost under the "case management" portion of the parameters and guidelines. If the costs of litigation are covered, how can the costs resulting from the litigation – namely payment of the costs associated with the pupil's placement in a for-profit facility – not be?

The SCO interpretation of the regulation -- namely 2 CCR 60100 (h) — which it contents prohibits placement of a seriously emotionally disturbed child in a for-profit facility — contradicts both the Federal IDEA law and the Education Code cited in Government Code Section 7576, which is the basis of the mandate. The SCO relies solely on an argument that because the Parameters and Guidelines reference the regulation (which cites an inapplicable statutory provision), all payments to for-profit facilities are not subject to the mandate. To permit the SCO to disallow mandated costs on the basis of the profit status of the service provider would permit a regulation, namely 2 CCR 60100 (h), to contravene clear and express statutory requirements, namely those of Government Code section 7576. This is clearly not allowed; regulations cannot impose requirements that are contrary to statute and should not be construed to allow the SCO to circumvent the requirement to reimburse the County for legislatively mandated costs.

Further, the SCO does not address the fact that Welfare & Institutions Code Section 11460 (c)(3) is applicable only to the AF-DC rate for care and supervision, not mental health treatment services. The SCO wrongly makes an assumption that even if the regulation, as the SCO construes it, could somehow override both state and federal law regarding the most appropriate placement, such placement in a residential facility would automatically result in the disallowance of **all** costs, including treatment costs. Such a conclusion is clearly contradictory to the Legislature's intent. As discussed in the IRC, in passing Assembly Bill 2726, the Legislature specifically stated that the intent of the legislation was to ensure that community mental health agencies would be responsible for the mental health services required under individualized education plans *no matter where the pupil was placed*:

**Los Angeles County IRC No. 12-9705-I-04**  
**Seriously Emotionally Disturbed Pupils: Out of State Mental Health Services Program**  
**Fiscal Years 2003-04, 2004-05 and 2005-06**  
**Rebuttal to State Controller's Office Comments**

"This bill would specify that, commencing on July 1, 1997, the fiscal and program responsibilities of community mental health services shall be the same regardless of the location of the placement."

This intent was recognized by the Commission in its Test Claim decision, adopted on May 25, 2000.

That the AF-DC rate does not include payment of mental health treatment services is explicitly identified in the Agency Plan for Title IV-E of the Social Security Act Foster Care and Adoption Assistance for the State of California, as identified below.

1355.20(a) 475(4)(A)	<p style="text-align: center;"><b>C. PAYMENTS</b></p> <p>1. Foster care maintenance payments for a child in foster care may cover the cost of (and the cost of providing) food, clothing, shelter, daily supervision, school supplies, a child's personal incidentals, liability insurance with respect to the child, and reasonable travel to the child's home for visitation with family, or other caretakers and reasonable travel for the child to remain in the school in which the child is enrolled at the time of placement. Local travel associated with providing the items listed above is also an allowable expense. In the case of child care institutions, such term must include the reasonable costs of administration and operation of such institutions as are necessarily required to provide the items described in the preceding sentences.</p>	<p>WIC 4684, 11460, 11461, 11462, 11464  MPP 11-401.11, 11-401.12  MPP 11-401.312  MPP 11-402 et. Seq.  MPP 11-402.5, 11-403  MPP 45-200.2, 45-302.21  ACL 97-55 (BASS)  WIC 11460(b)(1)  WIC 11460(b)(2), 11463  * California does not claim Title IV-E funds for administrative reimbursement for mental health or social work costs in the basic rate for FFAs or Group Homes.  ACL 10-12</p>
-------------------------	--	--

Therefore, as the rate referenced in Welfare and Institutions Code Section 11460 (c)(3) clearly does not include the cost of mental health services, the SCO's rationale is not consistent with the regulation or the law it references.

**CONCLUSION**

In placing these pupils in for-profit facilities, the IEP team – in accordance with the State Education Code and the federal IDEA – determined that these facilities represented the "most appropriate placements" that would allow the pupils to access and benefit from their public education. As required by law and as the recipient of the federal funds, the State assumed responsibility for not only the educational components, but the provision of the required services and supports and board and care so that these "most appropriate" placements would be provided to the pupils at no cost to the parents.

As described above, and in the IRC, the SCO's argument is clearly not defensible. Outside of the mandate, the County has no financial responsibility for services to pupils under IDEA or the State Education Code. Therefore, the Commission should find that the SCO's reductions were incorrect and rule in favor of the County.

Fiscal Years 2003-2004, 2004-2005, and 2005-2006  
County of Los Angeles, Claimant

Dear Dr. Kay and Ms. Kanemasu:

The Draft Proposed Decision for the above-captioned matter is enclosed for your review and comment.

#### **Written Comments**

Written comments may be filed on the Draft Proposed Decision by **September 16, 2016**. You are advised that comments filed with the Commission on State Mandates (Commission) are required to be simultaneously served on the other interested parties on the mailing list, and to be accompanied by a proof of service. However, this requirement may also be satisfied by electronically filing your documents. Refer to [http://www.csm.ca.gov/dropbox\\_procedures.php](http://www.csm.ca.gov/dropbox_procedures.php) on the Commission's website for electronic filing instructions. (Cal. Code Regs., tit. 2, § 1181.3.)

If you would like to request an extension of time to file comments, please refer to section 1187.9(a) of the Commission's regulations.

#### **Hearing**

This matter is set for hearing on **Friday, October 28, 2016**, at 10:00 a.m., State Capitol, Room 447, Sacramento, California. The proposed decision will be issued on or about October 14, 2016. Please let us know in advance if you or a representative of your agency will testify at the hearing, and if other witnesses will appear. If you would like to request postponement of the hearing, please refer to section 1187.9(b) of the Commission's regulations.

Sincerely,

Heather Halsey  
Executive Director

12-9705-I-04

County of Los Angeles, Claimant

---

**EXECUTIVE SUMMARY**

**Overview**

This Incorrect Reduction Claim (IRC) challenges the Office of the State Controller's (Controller's) findings and reduction of direct and indirect costs totaling \$5,746,047 (Findings 1 and 3) claimed for fiscal years 2003-2004 through 2005-2006 by the County of Los Angeles (claimant) for the *Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services* program. In Finding 1, costs relating to ineligible vendor payments for out-of-state residential placement of SED pupils in programs that are "owned and operated *for-profit*" were reduced. In Finding 3, the Controller found that the claimant used an indirect cost rate methodology that is inconsistent with other related mandate programs, and recalculated indirect costs using actual rates applicable to the appropriate fiscal year and applied the rate to eligible costs.

As explained herein, staff recommends that the Commission on State Mandates (Commission) deny this IRC.

***Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services Program***

On May 25, 2000, the Commission approved the *Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services*, 97-TC-05 test claim. The test claim statute and regulations were part of the state's response to the federal Individuals with Disabilities Education Act (IDEA) that guaranteed disabled pupils, including those with mental health needs, the right to receive a free and appropriate public education, including psychological and other mental health services, designed to meet the pupil's unique educational needs. The test claim statute shifted to

---

<sup>1</sup> Note that this caption differs from the Test Claim and Parameters and Guidelines captions in that it includes only those sections that were approved for reimbursement in the Test Claim Decision. Generally, a parameters and guidelines caption should include only the specific sections of the statutes and executive orders that were approved in the test claim decision. However, that was an oversight in the Parameters and Guidelines at issue in this case.

counties the responsibility to ensure and fund mental health services required by a pupil's individualized education plan (IEP). The test claim statute and regulations address the counties' responsibilities for out-of-state placement of seriously emotionally disturbed pupils.

Parameters and Guidelines for the *SED* program were adopted on October 26, 2000,<sup>2</sup> and corrected on July 21, 2006,<sup>3</sup> with a period of reimbursement beginning January 1, 1997. The Parameters and Guidelines, as originally adopted, authorize reimbursement for the following costs:

To reimburse counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, California Code Regulations, [sections] 60100 and 60110.<sup>4</sup>

The correction adopted on July 21, 2006 added the following sentence: "Included in this activity is the cost for out-of-state residential board and care of SED pupils." The correction was necessary to clarify the Commission's finding when it adopted the Parameters and Guidelines, that the term "payments to service vendors providing mental health services to SED pupils in out-of-state residential placements" includes reimbursement for "residential costs" of out-of-state placements.<sup>5</sup> Section 60100(h) of the regulations, referenced in the Parameters and Guidelines, required that "[o]ut-of-state placements shall only be made in residential programs that meet the requirements of Welfare and Institutions Code sections 11460(c)(2) through (c)(3)." Welfare and Institutions Code section 11460, as amended by Statutes of 1995, chapter 724, governed the foster care program from 1996 to 2010. During those years, Welfare and Institutions Code section 11460(c)(3) provided that "State reimbursement for an AFDC-FC rate paid on or after January 1, 1993, shall only be paid to a group home *organized and operated on a nonprofit basis*." (Emphasis added.) Thus, the nonprofit rule applicable to out-of-state foster care group homes was made expressly applicable to out-of-state residential placements of SED pupils.

### **Procedural History**

On May 7, 2010, the Controller issued the Final Audit Report for fiscal years 2003-2004 through 2005-2006.<sup>6</sup> On May 7, 2013, claimant filed this IRC.<sup>7</sup> On October 3, 2014, the Controller filed late comments on the IRC.<sup>8</sup> On November 7, 2014, the claimant filed a request for a 30-day

extension to file rebuttal comments, which was granted for good cause. On February 9, 2015, the claimant filed late rebuttal comments.<sup>9</sup> On August 26, 2016, Commission staff issued the Draft Proposed Decision.<sup>10</sup>

### **Commission Responsibilities**

Government Code section 17561(d) authorizes the Controller to audit the claims filed by local agencies and school districts and to reduce any claim for reimbursement of state mandated costs that the Controller determines is excessive or unreasonable.

Government Code Section 17551(d) requires the Commission to hear and decide a claim that the Controller has incorrectly reduced payments to a local agency or school district. If the Commission determines that a reimbursement claim has been incorrectly reduced, section 1185.9 of the Commission's regulations requires the Commission to send the decision to the Controller and request that the costs in the claim be reinstated.

The Commission must review questions of law, including interpretation of the parameters and guidelines, de novo, without consideration of legal conclusions made by the Controller in the context of an audit. The Commission is vested with exclusive authority to adjudicate disputes over the existence of state-mandated programs within the meaning of article XIII B, section 6.<sup>11</sup> The Commission must also interpret the Government Code and implementing regulations in accordance with the broader constitutional and statutory scheme. In making its decisions, the Commission must strictly construe article XIII B, section 6 and not apply it as an "equitable remedy to cure the perceived unfairness resulting from political decisions on funding priorities."<sup>12</sup>

With regard to the Controller's audit decisions, the Commission must determine whether they were arbitrary, capricious, or entirely lacking in evidentiary support. This standard is similar to the standard used by the courts when reviewing an alleged abuse of discretion of a state agency.<sup>13</sup>

The Commission must review the Controller's audit in light of the fact that the initial burden of providing evidence for a claim of reimbursement lies with claimant.<sup>14</sup> In addition, section 1185.1(f)(3) and 1185.2(c) of the Commission's regulations require that any assertions of fact by

the parties to an IRC must be supported by documentary evidence. The Commission's ultimate findings of fact must be supported by substantial evidence in the record.<sup>15</sup>

### **Claims**

The following chart provides a brief summary of the claims and issues raised and staff's recommendation.

<b>Issue</b>	<b>Description</b>	<b>Staff Recommendation</b>
Reduction of costs claimed for vendor payments for board, care, and treatment services for SED pupils placed in out-of-state residential programs that are organized and operated for-profit. (Finding 1.)	The Controller found that costs claimed for board and care and treatment costs for all fiscal years audited was not allowable because, based on the documentation provided by the claimant in this case, the vendor costs claimed were for ten out-of-state <i>for-profit</i> residential programs and, thus, the costs were beyond the scope of the mandate.	<i>Correct</i> – The Parameters and Guidelines and state law required that residential and treatment costs for SED pupils placed in out-of-state residential programs be provided by nonprofit organizations and thus, costs claimed for vendor services provided by out-of-state service vendors that are organized and operated on a for-profit basis are beyond the scope of the mandate and not reimbursable as a matter of law.
Reduction of indirect costs claimed. (Finding 3.)	The Controller found that the claimant used an indirect cost rate methodology that is inconsistent with other related mandate programs. The Controller further found that the claimant, in some instances, applied a rate based on costs two years prior and, in other instances, applied a rate based on actual claim year costs. The disparate rates were applied to expenses in the same pool of costs, resulting in significant fluctuations in rates from year to year. The Controller recalculated indirect costs using actual rates applicable to the appropriate fiscal year and applied the rate to eligible costs.	<i>Correct</i> – The claimant does not address the Controller's reductions relating to the indirect cost rate. Thus, there is no evidence in the record that the Controller's findings are incorrect as a matter of law, or are arbitrary, capricious, or entirely lacking in evidentiary support.

<sup>15</sup> Government Code section 17559(b), which provides that a claimant or the state may commence a proceeding in accordance with the provisions of section 1094.5 of the Code of Civil Procedure to set aside a decision of the Commission on the ground that the Commission's decision is not supported by substantial evidence in the record.

## **Staff Analysis**

### **A. The Controller's Reduction of Costs Claimed for Vendor Services Provided by Out-Of-State Residential Programs That Are Organized and Operated on a For-Profit Basis Is Correct as a Matter of Law.**

In Finding 1, costs relating to ineligible vendor payments for out-of-state residential placement of SED pupils in programs that are “owned and operated *for-profit*” were reduced. The claimant agrees with other counties that have independently filed IRCs contesting the disallowance of costs associated with out-of-state residential board and care costs. In this case, however, the claimant states that its focus is on the reductions to mental health treatment services. In this respect, claimant acknowledges that the mental health treatment services were provided by for-profit companies, but argues that the law does not restrict the program selected to provide mental health treatment services and does not require that the program be organized on a nonprofit basis.

Staff finds that the Controller's reduction of costs claimed for vendor services provided by out-of-state residential programs that are organized and operated on a for-profit basis is correct as a matter of law. The Parameters and Guidelines for this program track the regulatory language and state that reimbursement is authorized for payments to service vendors providing mental health services to SED pupils placed in out-of-state residential facilities, as specified in California Code of Regulations, title 2, section 60100. Section 60100(h) states that out-of-state residential programs shall meet the requirements in Welfare and Institutions Code section 11460(c)(2) through (3) and 11460(c)(3) specifies that “State reimbursement for an AFDC-FC rate paid on or after January 1, 1993, shall only be paid to a group home *organized and operated on a nonprofit basis.*” The July 21, 2006 correction to the Parameters and clarifies that “mental health services” provided to these students includes residential board and care. Thus, reimbursement for the mandated activity of “providing mental health services” in out-of-state facilities includes both treatment and board and care, which is conditioned on the providers meeting the requirements of Welfare and Institutions Code section 11460(c)(3), to be organized and operated on a nonprofit basis. The law does not support the claimant's position that the mental health treatment portion of the out-of-state “residential program” be excluded from the requirement that the “program” be organized and operated on a nonprofit basis.

### **B. There Is No Evidence That the Controller's Reduction of Indirect Costs Based on the Indirect Cost Rate Applied by the Claimant Is Incorrect as a Matter of Law, or Is Arbitrary, Capricious, or Entirely Lacking in Evidentiary Support.**

In Finding 3, the Controller found that the claimant used an indirect cost rate methodology that is inconsistent with other related mandate programs. The Controller further found that the claimant, in some instances, applied a rate based on costs two years prior and, in other instances, applied a rate based on actual claim year costs. The disparate rates were applied to expenses in the same pool of costs, resulting in significant fluctuations in rates from year to year. The Controller recalculated indirect costs using actual rates applicable to the appropriate fiscal year and applied the rate to eligible costs. The claimant does not address the Controller's reductions relating to the indirect cost rate.

Thus, there is no evidence in the record that the Controller's findings are incorrect as a matter of law, or are arbitrary, capricious, or entirely lacking in evidentiary support.

**Conclusion**

Staff finds that the Controller's reductions are correct as a matter of law and not arbitrary, capricious, or entirely lacking in evidentiary support.

**Staff Recommendation**

Staff recommends that the Commission adopt the Proposed Decision to deny this IRC, and authorize staff to make any technical, non-substantive changes following the hearing.

Don Saylor, County Supervisor	

<sup>16</sup> Note that this caption differs from the Test Claim and Parameters and Guidelines captions in that it includes only those sections that were approved for reimbursement in the Test Claim Decision. Generally, a parameters and guidelines caption should include only the specific sections of the statutes and executive orders that were approved in the test claim decision. However, that was an oversight in the Parameters and Guidelines at issue in this case.

## **Summary of the Findings**

This IRC challenges the Office of the State Controller's (Controller's) findings and reduction of direct and indirect costs totaling \$5,746,047 (Findings 1 and 3) claimed for fiscal years 2003-2004 through 2005-2006 by the County of Los Angeles (claimant) for the *Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services* program.

In Finding 1, costs relating to ineligible vendor payments for out-of-state residential placement of SED pupils in programs that are "owned and operated *for-profit*" were reduced. The claimant agrees with other counties that have filed IRCs contesting the disallowance of costs associated with out-of-state residential board and care costs. In this case, however, the claimant states that its focus is on the reductions to mental health treatment services. In this respect, claimant that the mental health treatment services were provided by for-profit companies, but argues that the law does not restrict the program selected to provide mental health treatment services and does not require that the program be organized on a nonprofit basis.

The Commission finds that the Controller's reduction of costs claimed for vendor services provided by out-of-state residential programs that are organized and operated on a for-profit basis is correct as a matter of law. The Parameters and Guidelines for this program track the regulatory language and state that reimbursement is authorized for payments to service vendors providing mental health services to SED pupils placed in out-of-state residential facilities, as specified in California Code of Regulations, title 2, section 60100. Section 60100(h) states that out-of-state residential programs shall meet the requirements in Welfare and Institutions Code section 11460(c)(2) through (3) and 11460(c)(3) specifies that "State reimbursement for an AFDC-FC rate paid on or after January 1, 1993, shall only be paid to a group home *organized and operated on a nonprofit basis*." The July 21, 2006 correction to the Parameters and Guidelines clarifies that "mental health services" provided to these students includes residential board and care. Thus, reimbursement for the mandated activity of "providing mental health services" in out-of-state facilities includes both treatment and board and care, which is conditioned on the providers meeting the requirements of Welfare and Institutions Code section 11460(c)(3), to be organized and operated on a nonprofit basis. The law does not support the claimant's position that the mental health treatment portion of the out-of-state "residential program" be excluded from the requirement that the "program" be organized and operated on a nonprofit basis.

In Finding 3, the Controller found that the claimant used an indirect cost rate methodology that is inconsistent with other related mandate programs. The Controller further found that the claimant, in some instances, applied a rate based on costs two years prior and, in other instances, applied a rate based on actual claim year costs. The disparate rates were applied to expenses in the same pool of costs, resulting in significant fluctuations in rates from year to year. The Controller recalculated indirect costs using actual rates applicable to the appropriate fiscal year and applied the rate to eligible costs. The claimant does not address the Controller's reductions relating to the indirect cost rate. Thus, there is no evidence in the record that the Controller's findings are incorrect as a matter of law, or are arbitrary, capricious, or entirely lacking in evidentiary support.

Therefore, the Commission denies this IRC.

- 02/09/2015 Claimant filed late rebuttal comments.<sup>22</sup>
- 08/26/2016 Commission staff issued the Draft Proposed Decision.<sup>23</sup>

## II. Background

### A. Seriously Emotionally Disturbed Pupils: Out-of-State Mental Health Services Program

On May 25, 2000, the Commission approved the *Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services*, 97-TC-05 test claim as a reimbursable state-mandated program.<sup>24</sup> The test claim statute and regulations were part of the state's response to the federal Individuals with Disabilities Education Act, or IDEA, that guaranteed to disabled pupils, including those with mental health needs, the right to receive a free and appropriate public education, including psychological and other mental health services, designed to meet the pupil's unique educational needs.<sup>25</sup> As originally enacted, the statutes shifted to counties the

<sup>18</sup> Exhibit A, IRC, pages 51-53 (Letter from Wendy L. Watanabe to Jeffrey V. Brownfield, dated January 13, 2010).

<sup>19</sup> Exhibit A, IRC, page 37. On June 17, 2013, in response to a Commission notice of incomplete filing, claimant resubmitted the claim form, specifying county as the claimant on the claim certification. Exhibit A reflects the completed test claim filing.

<sup>20</sup> Exhibit A, IRC, page 1.

<sup>21</sup> Exhibit B, Controller's Late Comments on the IRC, page 1.

<sup>22</sup> Exhibit C, Claimant's Late Rebuttal Comments to Controller's Late Comments on the IRC.

<sup>23</sup> Exhibit D, Draft Proposed Decision.

<sup>24</sup> Exhibit B, Controller's Late Comments on the IRC, pages 42-51.

<sup>25</sup> Former Government Code sections 7570, et seq., as enacted and amended by Statutes 1984, Chapter 1747; Statutes 1985, Chapter 1274; California Code of Regulations, title 2, sections 60000-60610 (emergency regulations filed December 31, 1985, effective January 1, 1986 (Register 86, No. 1) and refiled June 30, 1986, effective July 12, 1986 (Register 86, No. 28).

responsibility and funding of mental health services required by a pupil's individualized education plan (IEP), but required that all services provided by the counties be provided *within* the State of California.<sup>26</sup> In 1996, the Legislature amended Government Code section 7576 to provide that the fiscal and program responsibilities of counties for SED pupils shall be the same regardless of the location of placement, and that the counties shall have fiscal and programmatic responsibility for providing or arranging the provision of necessary services for SED pupils placed in out-of-state residential facilities.<sup>27</sup> In the Test Claim Statement of Decision the Commission found that:

Before the enactment of Chapter 654, counties were only required to provide mental health services to SED pupils placed in out-of-home (in-state) residential facilities. However, section 1 now requires counties to have fiscal and programmatic responsibility for SED pupils regardless of placement – i.e., regardless of whether SED pupils are placed out-of-home (in-state) or out-of-state.

Chapter 654 also added subdivision (g) to Government Code section 7576, which provides:

“Referrals shall be made to the community mental health service in the county in which the pupil lives. If the pupil has been placed into residential care from another county, the community mental health service receiving the referral shall forward the referral immediately to the community mental health service of the county of origin, which shall have fiscal and programmatic responsibility for providing or arranging for provision of necessary services. . . .” (Emphasis added.)

California Code of Regulations, sections 60100 and 60200, amended in response to section 7576, further define counties' “fiscal and programmatic responsibilities” for SED pupils placed in out-of-state residential care. Specifically, section 60100 entitled “LEA Identification and Placement of a Seriously Emotionally Disturbed Pupil” reflects the Legislature's intent behind the test claim statute by providing that residential placements for a SED pupil may be made out-of-state only when no in-state facility can meet the pupil's needs. Section 60200 entitled “Financial Responsibilities” details county mental health and LEA financial responsibilities regarding the residential placements of SED pupils.

In particular, amended section 60200 removes the requirement that LEAs be responsible for the out-of-state residential placement of SED pupils. Subdivision (c) of section 60200 now provides that the county mental health agency of origin shall be “responsible for the provision of assessments and mental health services included in an IEP in accordance with [section 60100].” Thus, as amended, section 60200 replaces the LEA with the county of origin as the entity responsible

---

<sup>26</sup> Former California Code of Regulations, title 2, section 60200.

<sup>27</sup> Statutes 1996, chapter 654.

for paying the mental health component of out-of-state residential placement for SED pupils.<sup>28</sup>

As relevant here, the Commission concluded that the following new costs were mandated by the state:

- Payment of out-of-state residential placements for SED pupils. (Gov. Code, § 7576; Cal. Code Regs., tit. 2, §§ 60100, 60110.)
- Program management, which includes parent notifications as required, payment facilitation, and all other activities necessary to ensure a county's out-of-state residential placement program meets the requirements of Government Code section 7576 and Title 2, California Code of Regulations, sections 60000-60610. (Gov. Code, § 7576; Cal. Code of Regs., tit. 2, §§ 60100, 60110.)<sup>29</sup>

Parameters and Guidelines for the *SED* program were adopted on October 26, 2000,<sup>30</sup> and corrected on July 21, 2006,<sup>31</sup> with a period of reimbursement beginning January 1, 1997. The Parameters and Guidelines, as originally adopted, authorize reimbursement for the following costs:

To reimburse counties for payments to service vendors providing mental health services to SED pupils in out-of-state residential placements as specified in Government Code section 7576 and Title 2, California Code Regulations, [sections] 60100 and 60110.<sup>32</sup>

The correction adopted on July 21, 2006 added the following sentence: "Included in this activity is the cost for out-of-state residential board and care of SED pupils." The correction was necessary to clarify the Commission's finding when it adopted the Parameters and Guidelines, that the term "payments to service vendors providing mental health services to SED pupils in out-of-state residential placements" includes reimbursement for "residential costs" of out-of-state placements.<sup>33</sup>

Thus, the Parameters and Guidelines authorize reimbursement for payments to out-of-state service vendors providing board and care and treatment services for SED pupils "*as specified in*

<sup>30</sup> Exhibit B, Controller's Late Comments on the IRC, page 54 (Parameters and Guidelines adopted October 26, 2000).

<sup>31</sup> Exhibit B, Controller's Late Comments on the IRC, page 67 (Parameters and Guidelines corrected July 21, 2006).

<sup>32</sup> Exhibit B, Controller's Late Comments on the IRC, page 56 (Parameters and Guidelines adopted October 26, 2000).

<sup>33</sup> Exhibit B, Controller's Late Comments on the IRC, page 67 (Parameters and Guidelines corrected July 21, 2006).

Government Code section 7576 and Title 2, California Code Regulations, [sections] 60100 and 60110.” Former section 60100(h) required that “[o]ut-of-state placements shall only be made in residential programs that meet the requirements of Welfare and Institutions Code sections 11460(c)(2) through (c)(3).” Welfare and Institutions Code section 11460, as amended by Statutes of 1995, chapter 724, governed the foster care program from 1996 to 2010. During those years, Welfare and Institutions Code section 11460(c)(3) provided that “State reimbursement for an AFDC-FC rate paid on or after January 1, 1993, shall only be paid to a group home *organized and operated on a nonprofit basis*. (Emphasis added.) Thus, the nonprofit rule applicable to out-of-state foster care group homes was made expressly applicable to out-of-state residential placements of SED pupils.

The Parameters and Guidelines also contain instructions for claiming costs. Section V. of the Parameters and Guidelines require that claimed costs for fiscal years 2000-2001 through 2005-2006 “shall be supported by” cost element information, as specified. With respect to claims for contract services, claimants are required to:

Provide the name(s) of the contractor(s) who performed the services, including any fixed contract for services. Describe the reimbursable activity(ies) performed by each named contractor and give the number of actual hours spent on the activities, if applicable. Show the inclusive dates when services were performed and itemize all costs for those services.<sup>34</sup>

Section VI. of the Parameters and Guidelines requires documentation to support the costs claimed as follows:

For auditing purposes, all costs claimed shall be traceable to source documents (e.g., invoices, receipts, purchase orders, contracts, worksheets, calendars, declarations, etc.) that show the evidence and validity of such costs and their relationship to the state mandated program. All documentation in support of the claimed costs shall be made available to the State Controller’s Office, as may be requested...[T]hese documents must be kept on file by the agency submitting the claim for a period of no less than two years after the later of (1) the end of the calendar year in which the reimbursement claim is filed or last amended, or (2) if no funds are appropriated for the fiscal year for which the claim is made, the date of initial payment of the claim.<sup>35</sup>

On October 26, 2006, the Commission consolidated the Parameters and Guidelines for *SED, Handicapped and Disabled Students*, CSM 4282 and 04-RL-4282-10, and *Handicapped and Disabled Students II*, 02-TC-40/02-TC-49, for costs incurred commencing with the 2006-2007 fiscal year.

Statutes 2011, chapter 43 (AB 114) eliminated the mandated programs for *Handicapped and Disabled Students*, CSM 4282 and 04-RL-4282-10, *Handicapped and Disabled Students II*, 02-

---

<sup>34</sup> Exhibit B, Controller’s Late Comments on the IRC, page 72 (Parameters and Guidelines corrected July 21, 2006).

<sup>35</sup> Exhibit B, Controller’s Late Comments on the IRC, pages 72-73 (Parameters and Guidelines corrected July 21, 2006).

TC-40/02-TC-49, and *Seriously Emotionally Disturbed (SED) Pupils: Out-of-State Mental Health Services*, 97-TC-05, by transferring responsibility for SED pupils to school districts, effective July 1, 2011.<sup>36</sup> Thus on September 28, 2012, the Commission adopted an amendment to the Parameters and Guidelines ending reimbursement for these programs effective July 1, 2011.

B. The Audit Findings of the Controller

The Controller issued the Draft Audit Report dated December 23, 2009, and provided a copy to the claimant for comment.<sup>37</sup>

In a three-page letter dated January 13, 2010, the claimant responded directly to the Draft Audit Report, agreeing with its findings, and accepted its recommendations.<sup>38</sup> The first page of this three-page letter contains the following statement:

The County's response, which is attached hereto, indicated agreement with the audit findings and the actions that the County will take to implement policies and procedures to ensure that the costs claimed under SED are eligible, mandate related, and supported.<sup>39</sup>

The letter also affirmatively agreed with each finding in the Draft Audit Report.<sup>40</sup>

On May 7, 2010, the Controller issued the Final Audit Report.<sup>41</sup> The Controller audited and reduced the reimbursement claims for various reasons. The claimant disputes the reductions of direct and indirect costs totaling \$5,746,047 for all fiscal years in issue (Findings 1 and 3). In Finding 1, costs relating to ineligible vendor payments for out-of-state residential placement of SED pupils in programs that are "owned and operated *for-profit*" were reduced.<sup>42</sup> The Controller found unallowable costs claimed for ten residential facilities:

- For three of the facilities (Youth Care of Utah, Logan River Academy, and Charter Provo Canyon School), the county claimed payments made to Mental Health Systems, Inc., and Aspen Solutions Inc., both California nonprofit corporations. However, the Controller found the costs not allowable because all three of these facilities that the nonprofit

<sup>40</sup> Exhibit A, IRC, pages 53-54 (Letter from Wendy L. Watanabe to Jeffrey V. Brownfield, dated January 13, 2010).

<sup>41</sup> Exhibit A, IRC, page 37 (Final Audit Report).

<sup>42</sup> Exhibit A, IRC, page 45 (Final Audit Report).

corporations contracted with to provide the out-of-state residential placement services are organized and operated as for-profit facilities.<sup>43</sup>

- For three of the facilities (Aspen Ranch, New Leaf Academy and SunHawk Academy), the county asserted that the for-profit facilities has similar contractual arrangements with Aspen Solutions, Inc., (a nonprofit business incorporated in California). The county, however, did not provide any documentation to support the nonprofit status of the residential facilities providing the treatment services, or provide documentation illustrating a business relationship between the residential facilities and the California nonprofit entity.<sup>44</sup>
- For four of the facilities (Grove School, New Haven, Spring Creek Lodge, and Vista Adolescent Treatment Center), the county did not provide any documentation in support of their nonprofit status.<sup>45</sup>

In Finding 3, the Controller found that the claimant used an indirect cost rate methodology that is inconsistent with other related mandate programs. The Controller further found that the claimant, in some instances, applied a rate based on costs two years prior and, in other instances, applied a rate based on actual claim year costs. The disparate rates were applied to expenses in the same pool of costs, resulting in significant fluctuations in rates from year to year.<sup>46</sup> In comments on the IRC, the Controller further explains the finding as follows:

The county's filing does not include the reimbursement claims filed with the SCO. The exhibit includes the claims prepared by the county's mental health department that were submitted to its auditor-controller (Exhibit D.) We have included the actual claim forms filed with the SCO as part of our response (Tabs 3, 4, and 5). These forms were signed by the county's auditor-controller and submitted to the SCO for reimbursement of state-mandated costs.

Concerning the indirect cost rates, the county claimed 7.7066% for FY 2003-04, 6.8276% for FY 2004-05, and 0.2227% for FY 2005-06 on its filed mandate claims. However, in its filed IRC, the county indicated that its indirect cost rates are 8.4749% ( $\$120,853 \div \$1,426,010$ ) for FY 2003-04, 7.5079% ( $\$144,629 \div \$1,926,362$ ) for FY 2004-05, and 7.864% ( $\$155,159 \div \$1,973,033$ ) for FY 2005-06. Based on our audit of the claims, we found that actual indirect cost rates were 4.8497% for FY 2003-04, 5.0543% for FY 2004-05, and 4.7072% for FY 2005-06.<sup>47</sup>

<sup>43</sup> Exhibit B, Controller's Late Comments on the IRC, page 13.

<sup>44</sup> Exhibit B, Controller's Late Comments on the IRC, page 13.

<sup>45</sup> Exhibit B, Controller's Late Comments on the IRC, page 13.

<sup>46</sup> Exhibit A, IRC, page 47.

<sup>47</sup> Exhibit B, Controller's Late Comments on the IRC, page 15.

Although the claimant agreed with the Draft Audit Report, the claimant now contends that the Controller's reductions are incorrect and that all costs should be reinstated.<sup>48</sup> The claimant states that payment for out-of-state residential placement consists of two components; care and supervision, and mental health treatment services. The Controller reduced costs for both components. The claimant agrees with the Counties of San Diego and Orange, who have also filed IRCs contesting the disallowance of costs associated with the first component.<sup>49</sup> In this case, however, the claimant states that its focus is on the reductions to the second component of mental health treatment services.

The claimant argues Welfare and Institutions Code section 11460 applies only to the AFDC-FC rate payment for care and supervision, and not to payments made for mental health treatment services. The claimant acknowledges that Code of Regulations, title 2, section 60100(h) requires that out-of-state placements be made only in residential programs that meet the requirements of Welfare and Institutions Code section 11460(c)(2) though (c)(3), and that subdivision (c)(3) provides that "State reimbursement for an AFDC-FC rate . . . shall be paid to a group home organized and operated on a nonprofit basis." However, the claimant asserts that the nonprofit limitation in section 11460(c)(3) does not apply to mental health treatment services. Rather, the AFDC-FC rate is defined in section 11460(b) to cover the costs for "care and supervision;" i.e., food, clothing, shelter, and like services and not mental health treatment services. The claimant also cites in rebuttal comments that the "Agency Plan for Title IV-E of the Social Security Act Foster Care and Adoption Assistance for the State of California," states that "California does not claim Title IV-E funds for administrative reimbursement for mental health or social work costs in the basic rate for FFAs or Group Homes."<sup>50</sup>

The claimant asserts that the test claim statute (Statutes 1996, chapter 654) specifically stated the legislative intent to ensure that community mental health agencies would be responsible for the mental health services required under IEPs, no matter where the pupil is placed, and contained no limitation on the placement of pupils in out-of-state residential facilities. The Legislature is charged with knowledge of Welfare and Institutions Code section 11460 and had the Legislature intended to restrict the mental health services payment to nonprofit entities only, it could have done so in AB 2726. Following the enactment of AB 2726, the State Department of Mental Health (DMH) issued Information Notice No. 98-10 on July 9, 1998, which stated that "County mental health departments are also required by this legislation to pay mental health treatment costs which out-of-state providers now break out and bill separately from costs related to education and room and board." The claimant states that the attachment to this notice identified the rates for mental health treatment and the residential daily rates. For Los Angeles County, the

<sup>48</sup> Exhibit A, IRC; Exhibit C, Claimant's Late Rebuttal Comments to Controller's Late Comments on the IRC.

<sup>49</sup> County of San Diego IRC, 10-9705-I-01 and 13-9705-I-05, decided May 26, 2016. County of Orange IRC, 11-9705-I-02 and 12-9705-I-03, scheduled for hearing on September 23, 2016.

<sup>50</sup> Exhibit C, Claimant's Late Rebuttal Comments to Controller's Late Comments on the IRC, page 4.

attachment lists various facilities, including Mental Health Services, Inc. (Provo Canyon School), which was disallowed by the Controller in this case.<sup>51</sup>

Moreover, school districts had no restrictions on the use of for-profit placements when school districts were responsible for providing mental health treatment services under prior law. The Education Code was consistent with federal law, which currently contains no restriction.

The claimant states that section 60100(h) of the regulations as interpreted by the Controller, therefore, is inconsistent with federal law, the Government Code, and the Education Code, in that it unlawfully restricts the rights of pupils with serious emotional or mental illness to receive a free and appropriate public education. The courts and administrative bodies applying these provisions have consistently required counties to allow the placement of pupils in the exact facilities for which the Controller has disallowed costs. The claimant further asserts that the courts have consistently sided with the parents who unilaterally place a pupil in a for-profit facility.

The claimant does not address the Controller's reductions relating to the indirect cost rate.

#### B. State Controller's Office

It is the Controller's position that the audit adjustments are correct and that this IRC should be denied. The Controller found that the unallowable costs resulting from the out-of-state residential placement of SED pupils in for-profit facilities are correct because the Parameters and Guidelines only allow vendor payments for SED pupils placed in a group home organized and operated on a nonprofit basis.<sup>52</sup> The Controller asserts that the unallowable direct and indirect costs for mental health services treatment payments claimed result from the claimant's placement of SED pupils in prohibited for-profit out-of-state residential facilities.<sup>53</sup>

The Controller does not dispute the assertion that Government Code section 7572 requires mental health services to be provided by qualified mental health professionals, that there is inconsistency between the federal law and California law related to IDEA funds, or that California law is more restrictive than federal law in terms of out-of-state residential placement of SED pupils. The Controller also does not dispute that the Education Code does not restrict local educational agencies from contracting with for-profit schools for educational services. However the Controller maintains that under the mandated program, costs incurred at out-of-state for-profit residential programs are not reimbursable.<sup>54</sup>

The Controller also reduced indirect costs on the ground that the claimant overstated the indirect cost rate. The Controller found that the claimant used an indirect cost rate methodology that is inconsistent with other related mandate programs. The Controller further found that the claimant, in some instances, applied a rate based on costs two years prior and, in other instances,

applied a rate based on actual claim year costs. The disparate rates were applied to expenses in the same pool of costs, resulting in significant fluctuations in rates from year to year.<sup>55</sup>

#### **IV. Discussion**

Government Code section 17561(d) authorizes the Controller to audit the claims filed by local agencies and school districts and to reduce any claim for reimbursement of state mandated costs that the Controller determines is excessive or unreasonable.

Government Code Section 17551(d) requires the Commission to hear and decide a claim that the Controller has incorrectly reduced payments to a local agency or school district. If the Commission determines that a reimbursement claim has been incorrectly reduced, section 1185.9 of the Commission's regulations requires the Commission to send the decision to the Controller and request that the costs in the claim be reinstated.

The Commission must review questions of law, including interpretation of the parameters and guidelines, de novo, without consideration of legal conclusions made by the Controller in the context of an audit. The Commission is vested with exclusive authority to adjudicate disputes over the existence of state-mandated programs within the meaning of article XIII B, section 6.<sup>56</sup> The Commission must also interpret the Government Code and implementing regulations in accordance with the broader constitutional and statutory scheme. In making its decisions, the Commission must strictly construe article XIII B, section 6 and not apply it as an "equitable remedy to cure the perceived unfairness resulting from political decisions on funding priorities."<sup>57</sup>

With regard to the Controller's audit decisions, the Commission must determine whether they were arbitrary, capricious, or entirely lacking in evidentiary support. This standard is similar to the standard used by the courts when reviewing an alleged abuse of discretion of a state agency.<sup>58</sup> Under this standard, the courts have found that:

When reviewing the exercise of discretion, "[t]he scope of review is limited, out of deference to the agency's authority and presumed expertise: 'The court may not reweigh the evidence or substitute its judgment for that of the agency. [Citation.]'"... "In general...the inquiry is limited to whether the decision was arbitrary, capricious, or entirely lacking in evidentiary support..." [Citations.] When making that inquiry, the " "court must ensure that an agency has adequately considered all relevant factors, and has demonstrated a rational

---

<sup>55</sup> Exhibit A, IRC, page 47 (Final Audit Report).

<sup>56</sup> *Kinlaw v. State of California* (1991) 54 Cal.3d 326, 331-334; Government Code sections 17551, 17552.

<sup>57</sup> *County of Sonoma v. Commission on State Mandates* (2000) 84 Cal.App.4th 1264, 1280, citing *City of San Jose v. State of California* (1996) 45 Cal.App.4th 1802, 1817.

connection between those factors, the choice made, and the purposes of the enabling statute.” [Citation.]’ ”<sup>59</sup>

The Commission must review the Controller’s audit in light of the fact that the initial burden of providing evidence for a claim of reimbursement lies with claimant.<sup>60</sup> In addition, section 1185.1(f)(3) and 1185.2(c) of the Commission’s regulations requires that any assertions of fact by the parties to an IRC must be supported by documentary evidence. The Commission’s ultimate findings of fact must be supported by substantial evidence in the record.<sup>61</sup>

**A. The Controller’s Reduction of Costs Claimed for Vendor Services Provided by Out-Of-State Residential Facilities That Are Organized and Operated on a For-Profit Basis Is Correct as a Matter of Law.**

1. During all of the fiscal years at issue, the Parameters and Guidelines and state law required that SED pupils placed in out-of-state residential programs be placed in nonprofit facilities and, thus, costs claimed for vendor services provided by out-of-state service programs that are organized and operated on a for-profit basis are beyond the scope of the mandate.

Reimbursement claims filed with the Controller are required as a matter of law to be filed in accordance with the parameters and guidelines adopted by the Commission.<sup>62</sup> Parameters and guidelines provide instructions for eligible claimants to prepare reimbursement claims for the direct and indirect costs of a state-mandated program.<sup>63</sup> Parameters and guidelines are regulatory in nature and “APA valid, and absent a court ruling setting them aside, are binding on the parties.”<sup>64</sup>

As indicated above, the Parameters and Guidelines for this program track the regulatory language and state that reimbursement is authorized for payments to service vendors providing mental health services to SED pupils placed in out-of-state residential facilities, as specified in California Code of Regulations, title 2, section 60100. Section 60100(h) states that out-of-state residential programs shall meet the requirements in Welfare and Institutions Code section 11460(c)(2) through (3) and 11460(c)(3) specifies that “State reimbursement for an AFDC-FC rate paid on or after January 1, 1993, shall only be paid to a group home *organized and operated on a nonprofit basis.*” The July 21, 2006 correction to the Parameters and Guidelines clarifies

<sup>61</sup> Government Code section 17559(b), which provides that a claimant or the state may commence a proceeding in accordance with the provisions of section 1094.5 of the Code of Civil Procedure to set aside a decision of the Commission on the ground that the Commission’s decision is not supported by substantial evidence in the record.

<sup>62</sup> Government Code sections 17561(d)(1); 17564(b); and 17571.

<sup>63</sup> Government Code section 17557; California Code of Regulations, title 2, section 1183.7.

<sup>64</sup> *Clovis Unified School District v. Chiang* (2010) 188 Cal.App.4th 794, 801; *California School Boards Association v. State of California* (2009) 171 Cal.App.4th 1183, 1201.

that “mental health services” provided to these students includes residential board and care. Thus, reimbursement for the mandated activity of “providing mental health services” in out-of-state facilities includes both treatment and board and care, and is conditioned on the providers meeting the requirements of Welfare and Institutions Code section 11460(c)(3), to be organized and operated on a nonprofit basis. In this case, costs were reduced because the Controller found that the out-of-state services for some students were provided by for-profit companies, and that the claimant did not provide documentation to verify that costs were incurred for services provided by nonprofit organizations for other students.

Claimant acknowledges that the services were provided by for-profit companies.<sup>65</sup> Claimant argues, however, that neither the test claim statute nor federal law contained a limitation on the placement of out-of-state SED pupils, and that the nonprofit limitation in Welfare and Institutions Code section 11460(c)(3) does not apply to mental health treatment services. Rather, the AFDC-FC rate is defined in section 11460(b) to cover only the costs for care and supervision (i.e., food, clothing, shelter, and like services). The claimant also relies on DMH Information Notice 98-10 issued to counties following the enactment of the test claim statute, which states in part that “[c]ounty mental health departments are also required by this legislation to pay mental health treatment costs which out-of-state providers now break out and bill for separately from costs related to education and room and board (see Attachment A [which identifies the “DMH Daily Rate” and “Residential Daily Rate” for out-of-state residential treatment agencies approved for Los Angeles County]).”<sup>66</sup>

The Commission finds that the Controller’s reduction of costs is correct as a matter of law. As indicated above, the test claim statute was enacted to shift to counties the responsibility to ensure and fund mental health services required by a pupil’s IEP when a seriously emotionally disturbed pupil is placed in an out-of-state residential facility. Section 1 of the bill that enacted the statute states that the fiscal and program responsibilities of community mental health services shall be the same regardless of the location of placement of the pupil. The test claim statute added subdivision (g) to Government Code section 7576 to provide that the county of origin shall have “fiscal and programmatic responsibility for providing or arranging for provision of necessary services.”

Section 60100(d) of the regulations was amended to implement this change in law, and specifically required the IEP team to document the pupil’s educational and mental health treatment needs that support the recommendation for residential placement. Section 60100(d) further states that “this documentation shall identify the special education and mental health services *to be provided by a residential facility listed in Section 60025* that cannot be provided in a less restrictive environment pursuant to [federal law].” (Emphasis added.) Section 60110(b) states that the residential plan shall include provisions, as determined by the pupil’s IEP, for the care, supervision, mental health treatment, psychotropic medication monitoring, if required, and education of a SED pupil. Section 60100(e) states that the community mental health service case manager, in consultation with the IEP team’s administrative designee, shall identify a mutually satisfactory placement that is acceptable to the parent *and addresses the pupil’s education and*

---

<sup>65</sup> Exhibit C, Claimant’s Late Rebuttal Comments to Controller’s Late Comments on the IRC, page 5.

<sup>66</sup> Exhibit A, IRC, page 23.

*mental health needs.* Section 60100(h) then states that residential placement may be made out of California only when no in-state facility can meet the pupil's needs and only when the requirements of subdivisions (d) and (e) have been met [i.e., that the residential facility addresses and provides the pupil's mental health needs]. Further, section 60100(h) expressly states that "[o]ut-of-state placements shall be made only in residential programs that meet the requirements of Welfare and Institutions Code Sections 11460(c)(2) through (c)(3)." As stated above, Welfare and Institutions Code section 11460(c)(3) specifies that "State reimbursement for an AFDC-FC rate paid on or after January 1, 1993, shall only be paid to a group home *organized and operated on a nonprofit basis.*"

It is correct that the costs for care and supervision and mental health treatment services were billed separately, as asserted by the claimant and indicated in the DMH Information Notice 98-10. Payments to the facilities for board and care costs are based upon rates established by the Department of Social Services in accordance with sections 18350 through 18356 of the Welfare and Institutions Code.<sup>67</sup> And, pursuant to Welfare and Institutions Code section 18355, the home care payment and local administrative costs for out-of-state residential placements were funded from a *separate* appropriation in the budget of the Department of Social Services. The provision of mental health treatment services, on the other hand, was historically the responsibility of the Department of Mental Health, and appropriations for the program were made by the Legislature based on cost sharing formulas between state and counties under the California community mental health provisions of the Short-Doyle Act and the Bronzan-McCorquodale Act.<sup>68</sup> Thus, the services were billed separately because they were historically managed and funded under different parts of the State Budget.

However, nowhere in the law does it support the claimant's position that the mental health treatment portion of the out-of-state "residential program" be excluded from the requirement that the "program" be organized and operated on a nonprofit basis. The plain language of section 60100 of the regulations expressly requires that the "residential programs," which by law must include the provision of mental health services, shall meet the requirements in Welfare and Institutions Code section 11460(c)(3) and be organized and operated on a nonprofit basis.

Moreover, during the regulatory process for the adoption of California Code of Regulation section 60100, comments were filed by interested persons with concerns that referencing Welfare and Institutions Code section 11460 in section 60100 of the regulations to provide that "[o]ut-of-state placements shall only be made in residential programs that meet the requirements of Welfare and Institutions Code sections 11460(c)(2) through (c)(3)" was not clear since state

<sup>67</sup> See also, former title 2, California Code of Regulations, section 60200(e).

<sup>68</sup> The cost sharing formula for funding the provision of mental health services under the Short-Doyle Act was required by former Welfare and Institutions Code section 5651 (Statutes 1985, chapter 1274), and former California Code of Regulations, title 2, section 60200 (Register No. 87, No. 30). In 1991, the Legislature enacted realignment legislation that repealed the Short-Doyle Act and replaced the sections with the Bronzan-McCorquodale Act (Stats. 1991, chapter 89, §§ 63 and 173). Beginning in fiscal year 2001-2002, Statutes 2002, chapter 1167 and Statutes 2004, chapter 493, required the state to pay the full share of allowable mental health treatment costs for Handicapped and Disabled and SED pupils.

reimbursement for special education residential placements is not an AFDC-Foster Care program. The Departments of Education and Mental Health responded as follows:

Board and care rates for children placed pursuant to Chapter 26.5 of the Government Code are linked in statute to the statutes governing foster care board and care rates. The foster care program and the special education pupils program are quite different in several respects. This creates some difficulties which must be corrected through statutory changes, and cannot be corrected through regulations. Rates are currently set for foster care payments to out-of-state facilities through the process described in WIC Sections 11460(c)(2) through (c)(3). The rates cannot exceed the current level 14 rate *and the program must be non-profit, and because of the requirements contained in Section WIC 18350, placements for special education pupils must also meet these requirements.* The Departments believe these requirements are clearly stated by reference to statute, but we will handbook WIC Sections 11460(c)(2) through (c)(3) for clarity.<sup>69</sup>

In addition, the departments specifically addressed the issue of “out-of-state group homes which are organized as for profit entities, but have beds which are leased by a non-profit shell corporation.” The departments stated that the issue may need further legal review of documentation of group homes that claim to be nonprofit, but nevertheless “[t]he statute in WIC section 11460 states that state reimbursement shall only be paid to a group home organized and operated on a non-profit basis.”<sup>70</sup>

Legislation was later introduced to address the issue of payment for placement of SED pupils in out-of-state for profit facilities in light of the fact that the federal government eliminated the requirement that a facility be operated as a non-profit in order to receive federal funding. However, as described below, the legislation was not enacted and the law applicable to the reimbursement claims at issue in this IRC remained unchanged.

In the 2007-2008 legislative session, Senator Wiggins introduced SB 292, which would have authorized payments to out-of-state, for-profit residential facilities that meet applicable licensing requirements in the state in which they operate, for placement of SED pupils. The committee analysis for the bill explained that since 1985, California law has tied the requirement for a SED pupil placed out-of-home pursuant to an IEP, to state foster care licensing and rate provisions. However, the analysis notes that the funds for placement of SED pupils are not AFDC-FC funds. California first defined the private group homes that could receive AFDC-FC funding as non-profits to parallel the federal funding requirement. Because of the connection between foster care and SED placement requirements, this prohibition applies to placements of SED pupils as well. The committee analysis further recognized that the federal government eliminated the

---

<sup>69</sup> Exhibit X, Final Statement of Reasons for Joint Regulations for Pupils with Disabilities, page 127 (emphasis added).

<sup>70</sup> Exhibit X, Final Statement of Reasons for Joint Regulations for Pupils with Disabilities, page 128.

requirement that a facility be operated as a nonprofit in order to receive federal funding in 1996.<sup>71</sup> However, the bill did not pass the assembly.<sup>72</sup>

In 2008, AB 1805, a budget trailer bill, containing identical language to SB 292 was vetoed by the Governor.<sup>73</sup> In his veto message he wrote, "I cannot sign [AB 1805] in its current form because it will allow the open-ended reimbursement of claims, including claims submitted and denied prior to 2006-07. Given our state's ongoing fiscal challenges, I cannot support any bill that exposes the state General Fund to such a liability."<sup>74</sup>

Subsequently, during the 2009-2010 legislative session, Assembly Member Beall introduced AB 421, which authorized payment for 24-hour care of SED pupils placed in out-of-state, for-profit residential facilities. The bill analysis for AB 421 cites the Controller's disallowance of \$1.8 million in mandate claims from San Diego County based on the placement of SED pupils in out-of-state, for-profit residential facilities. The analysis states that the purpose of the proposed legislation was to incorporate the allowance made in federal law for reimbursement of costs of placement in for-profit group homes for SED pupils.<sup>75</sup> Under federal law, for-profit companies were originally excluded from receiving federal funds for placement of foster care children because Congress feared repetition of nursing home scandals in the 1970s, when public funding of these homes triggered growth of a badly monitored industry.<sup>76</sup> The bill analysis suggests that the reasoning for the current policy in California, limiting payments to nonprofit group homes, ensures that the goal of serving children's interests is not mixed with the goal of private profit. For these reasons, California has continually rejected allowing placements in for-profit group home facilities for both foster care and SED pupils.<sup>77</sup> The authors and supporters of the legislation contended that out-of-state, for-profit facilities are sometimes the only available placement to meet the needs of the child, as required by federal law.<sup>78</sup> The author notes the discrepancy between California law and federal law, which allows federal funding of for-profit

<sup>78</sup> Exhibit X, Assembly Committee on Appropriations, analysis of AB 421, May 20, 2009, page 2.

group home placements.<sup>79</sup> However, the bill did not pass the Assembly and therefore did not move forward.<sup>80</sup>

Thus, during the entire reimbursement period for this program, reimbursement was authorized only for out-of-state residential programs organized and operated on a nonprofit basis. Although the claimant contends that state law conflicted with federal law during this time period, there is no law or evidence in the record that the nonprofit requirement for out-of-state residential programs conflicts with federal law or results in a failure for a pupil to receive a free and appropriate education. Absent a decision from the courts on this issue, the Commission is required by law to presume that the statutes and regulations for this program, which were adopted in accordance with the Administrative Procedures Act, are valid.<sup>81</sup>

Accordingly, pursuant to the law and the Parameters and Guidelines, reimbursement is required only if the out-of-state service vendor operates on a nonprofit basis. As indicated above, the Parameters and Guidelines are binding.<sup>82</sup> Therefore, costs claimed for out-of-state service vendors that are organized and operated on a for-profit basis are beyond the scope of the mandate.

2. Claimant's reference to decisions issued by the courts and administrative bodies allowing placement in for-profit residential programs is misplaced.

The claimant argues that:

[t]he courts and administrative bodies in applying these various provisions have consistently required public agencies, including the County of Los Angeles, in conjunction with the local education agency to allow the placement of pupils in the exact facilities for which the SCO is disallowing the costs and these courts and administrative bodies have consistently sided with the parents after the parents made unilateral placements of a pupil in a for-profit facility.<sup>83</sup>

While the claimant does not specify which decisions it is referring to in its assertion, the Commission's recently adopted decisions for *SED* IRCs 10-9705-I-01 and 13-9705-I-05 addressed this issue and analyzed decisions issued by the Office of Administrative Hearings (OAH) and the United States Supreme Court raised by the claimants in those IRCs.

The OAH decision relied upon by claimants in those IRCs, involved a *SED* pupil who was deaf, had impaired vision and an orthopedic condition, was assessed as having borderline cognitive ability, and had a long history of social and behavioral difficulties. His only mode of communication was American Sign Language. The parties agreed that the National Deaf

<sup>80</sup> Exhibit X, Complete Bill History, AB 421.

<sup>81</sup> California Constitution, article III, section 3.5; *Robin J. v. Superior Court* (2004) 124 Cal.App.4th 414, 425.

<sup>82</sup> *Clovis Unified School District v. Chiang* (2010) 188 Cal.App.4th 794, 801; *California School Boards Association v. State of California* (2009) 171 Cal.App.4th 1183, 1201.

<sup>83</sup> Exhibit C, Claimant's Late Rebuttal Comments to Controller's Late Comments on the IRC, page 4.

Academy would provide the student with a free and appropriate public education, as required by federal law. The facility accepted students with borderline cognitive abilities and nearly all service providers are fluent in American Sign Language. However, the school district and county mental health department took the position that they could not place the student at the National Deaf Academy because it is operated by a for-profit entity. OAH found that the state was not prohibited from placing the student at this out-of-state for-profit facility because the facility was the only one identified as an appropriate placement.<sup>84</sup> Upon appeal, the District Court affirmed the OAH order directing the school district and the county mental health department to provide the student with compensatory education consisting of immediate placement at the National Deaf Academy and through the 2008-2009 school year.<sup>85</sup>

The claimants in the other IRCs on this program also relied on the U.S. Supreme Court decision in *Florence County School District Four v. Carter*,<sup>86</sup> for the proposition that local government will be subject to increased litigation with the Controller's interpretation. In the *Florence* case, the court held that parents can be reimbursed under IDEA when they unilaterally withdraw their child from an inappropriate placement in a public school and place their child in a private school, even if the placement in the private school does not meet all state standards or is not state-approved. Although the court found that parents are entitled to reimbursement under such circumstances only if a federal court concludes both that the public placement violated IDEA and the private school placement was proper under IDEA, the court's decision in such cases is *equitable*. "IDEA's grant of equitable authority empowers a court 'to order school authorities to reimburse parents for their expenditures on private special education for a child if the court ultimately determines that such placement, rather than a proposed IEP, is proper under the Act.'"<sup>87</sup> Unlike the court's equitable powers under IDEA, the reimbursement requirements of article XIII B, section 6, must be strictly construed and not applied as an "equitable remedy to cure the perceived unfairness resulting from political decisions on funding priorities."<sup>88</sup>

In this case, the claimant has provided no documentation or evidence that the costs claimed were incurred as a result of a court order finding that no other alternative placement was identified for a SED pupil during the audit years in question. Thus, the Commission does not need to reach the issue of whether reimbursement under article XIII B, section 6 would be required in such cases. Therefore, these decisions do not support the claimant's right to reimbursement.

Accordingly, the Commission finds that the Controller's reduction of costs for vendor service payments for treatment and board and care for SED pupils placed in out-of-state residential

<sup>86</sup> *Florence County School District v. Carter* (1993) 510 U.S. 7.

<sup>87</sup> *Florence County School District*, *supra*, 510 U.S. 5, 12 (citing its prior decision in *School Comm. of Burlington v. Department of Ed. of Mass.* (1985) 471 U.S. 359, 369.)

<sup>88</sup> *County of Sonoma v. Commission on State Mandates* (2000) 84 Cal.App.4th 1264, 1281 (citing *City of San Jose v. State* (1996) 45 Cal.App.4th 1802, 1817).

programs organized and operated for-profit, is consistent with the Commission's Parameters and Guidelines and is correct as a matter of law.

3. The documentation in the record supports the Controller's findings that services were provided by for-profit residential programs.

The claimant makes no argument disputing the Controller's findings that the facilities providing treatment and board and care services for its SED pupils are for-profit. In fact, the claimant acknowledges that fact.<sup>89</sup>

Specifically, the Controller found that the county claimed vendor costs for Aspen Solutions, Inc., and Mental Health Systems, Inc., California nonprofit entities but that these nonprofit entities contracted with for-profit facilities where the out-of-state placements occurred (Youth Care of Utah, Logan River Academy LLC, and Charter Provo Canyon Schools, LLC). Copies of the contracts for the provision of mental health services to SED pupils between Aspen Solutions Inc., and Youth Care of Utah Inc. (Youth Care contract),<sup>90</sup> Mental Health Services, Inc. (MHS), and Logan River Academy, LLC (Logan River contract),<sup>91</sup> and Mental Health Services, Inc., and Charter Provo Canyon School (Charter Canyon contract),<sup>92</sup> are in the record. These agreements demonstrate that the vendor payments to the nonprofit entities were for services provided by for-profit programs.

In the Youth Care contract, Youth Care of Utah, Inc., is described as a Delaware corporation and the contract states:

Youth has the sole responsibility for provision of therapeutic services.  
ASI...shall not exercise control over or interfere in any way with the exercise of professional judgment by Youth or Youth's employees in connection with Youth's therapeutic services.<sup>93</sup>

In the Logan River contract, Logan River Academy is described as a Utah for-profit limited liability company providing mental health services "to children and adolescents residing in California and desires to contract with MHS for the purpose of obtaining certain funds

---

<sup>89</sup> Exhibit C, Claimant's Late Rebuttal Comments to Controller's Late Comments on the IRC, page 5.

<sup>90</sup> Exhibit B, Controller's Late Comments on the IRC, page 88 (Tab 12, Contract between Aspen Solution Inc., and Youth Care of Utah, Inc.).

<sup>91</sup> Exhibit B, Controller's Late Comments on the IRC, pages 98-99 (Tab 13, Contract between Mental Health Services, Inc., and Logan River Academy, LLC).

<sup>92</sup> Exhibit B, Controller's Late Comments on the IRC, page 111 (Tab 14, Contract between Mental Health Services, Inc. and Charter Provo Canyon School).

<sup>93</sup> Exhibit B, Controller's Late Comments on the IRC, page 88 (Tab 12, Contract between Aspen Solution Inc., and Youth Care of Utah, Inc.).

distributed by California State Social Services and California County Mental Health Departments.”<sup>94</sup>

In the Provo Canyon contract, Charter Provo Canyon School, LLC is described as a Delaware for-profit limited liability company providing mental health services “to children and adolescents residing in California and desires to contract with MHS for the purpose of obtaining certain funds distributed by California State Social Services and California County Mental Health Departments.”<sup>95</sup>

Therefore, reimbursement is not required for the costs incurred for Youth Care of Utah, Logan River Academy, and Charter Provo Canyon School.

The claimant similarly claimed that it had contractual agreements with Aspen Solutions, Inc., for placement of SED pupils in three other facilities: Aspen Ranch, New Leaf Academy, and SunHawk Academy. However, the claimant did not provide any documentation to support the nonprofit status of the programs that provided the services, or show the business relationship between the programs and the California nonprofit organization.<sup>96</sup> In addition, the claimant did not provide any documentation in support of the programs’ nonprofit status for Grove School, New Haven, Spring Creek Lodge, and Vista Adolescent Treatment Center.<sup>97</sup> Section VI. of the Parameters and Guidelines requires the claimant to provide documentation to support the costs claimed as follows:

For auditing purposes, all costs claimed shall be traceable to source documents (e.g., invoices, receipts, purchase orders, contracts, worksheets, calendars, declarations, etc.) that show the evidence and validity of such costs and their relationship to the state mandated program. All documentation in support of the claimed costs shall be made available to the State Controller’s Office, as may be requested...[T]hese documents must be kept on file by the agency submitting the claim for a period of no less than two years after the later of (1) the end of the calendar year in which the reimbursement claim is filed or last amended, or (2) if no funds are appropriated for the fiscal year for which the claim is made, the date of initial payment of the claim.<sup>98</sup>

Thus, the claimant did not comply with the documentation requirements of the Parameters and Guidelines, or meet its burden of proof to verify that the costs claimed for Aspen Ranch, New Leaf Academy, SunHawk Academy, Grove School, New Haven, Spring Creek Lodge, and Vista Adolescent Treatment Center were within the scope of the mandate.

---

<sup>94</sup> Exhibit B, Controller’s Late Comments on the IRC, page 99 (Tab 13, Contract between Mental Health Services, Inc., and Logan River Academy, LLC).

<sup>95</sup> Exhibit B, Controller’s Late Comments on the IRC, page 111 (Tab 14, Contract between Mental Health Services, Inc. and Charter Provo Canyon School).

<sup>96</sup> Exhibit B, Controller’s Late Comments on the IRC, page 13.

<sup>97</sup> Exhibit B, Controller’s Late Comments on the IRC, page 13.

<sup>98</sup> Exhibit B, Controller’s Late Comments on the IRC, pages 72-73.

Accordingly, the evidence in the record supports the Controller's finding that the services were provided by for-profit entities and are outside the scope of the mandate.

**B. There No Evidence That the Controller's Reduction of Indirect Costs Based on the Indirect Cost Rate Applied by the Claimant Is Incorrect as a Matter of Law, or Is Arbitrary, Capricious, or Entirely Lacking in Evidentiary Support.**

The Controller also reduced indirect costs on the ground that the claimant overstated the indirect cost rate. The Controller found that the claimant used an indirect cost rate methodology that is inconsistent with other related mandate programs. The Controller further found that the claimant, in some instances, applied a rate based on costs two years prior and, in other instances, applied a rate based on actual claim year costs. The disparate rates were applied to expenses in the same pool of costs, resulting in significant fluctuations in rates from year to year.<sup>99</sup> In comments on the IRC, the Controller explains the finding as follows:

Concerning the indirect cost rates, the county claimed 7.7066% for FY 2003-04, 6.8276% for FY 2004-05, and 0.2227% for FY 2005-06 on its filed mandate claims. However, in its filed IRC, the county indicated that its indirect cost rates are 8.4749% ( $\$120,853 \div \$1,426,010$ ) for FY 2003-04, 7.5079% ( $\$144,629 \div \$1,926,362$ ) for FY 2004-05, and 7.864% ( $\$155,159 \div \$1,973,033$ ) for FY 2005-06. Based on our audit of the claims, we found that actual indirect cost rates were 4.8497% for FY 2003-04, 5.0543% for FY 2004-05, and 4.7072% for FY 2005-06.<sup>100</sup>

Thus, the Controller recalculated indirect costs using actual rates applicable to the appropriate fiscal year and applied the rate to eligible costs.

Although the claimant seeks reinstatement of all costs reduced in Findings 1 and 3, the claimant does not address the Controller's reductions relating to the indirect cost rate in its narrative. Thus, there is no evidence in the record that the Controller's findings are incorrect as a matter of law, or are arbitrary, capricious, or entirely lacking in evidentiary support.

**V. Conclusion**

Based on the foregoing, the Commission denies this IRC.

Incorrect Reduction Claim

*Seriously Emotionally Disturbed Pupils: Out-of-State Mental Health Services,*  
12-9705-I-04

Government Code Section 7576, as amended by Statutes 1996, Chapter 654

California Code of Regulations, Title 2, Division 9, Chapter 1, Sections 60100 and 60110

Fiscal Years: 2003-04, 2004-05, and 2005-06

Los Angeles County, Claimant

Dear Ms. Halsey:

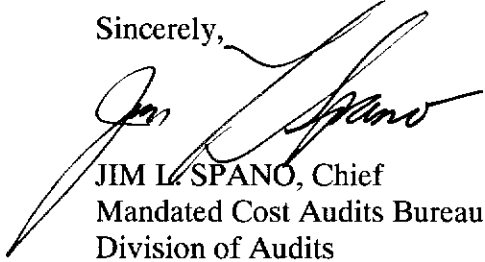

The State Controller's Office (SCO) has reviewed the Commission on State Mandates' (Commission) draft proposed decision dated August 26, 2016, for the above incorrect reduction claim filed by Los Angeles County. We support the Commission's conclusion and recommendation.

The Commission supported the SCO adjustments for reductions related to the out-of-state residential placement of seriously emotionally disturbed pupils in facilities that are owned and operated for profit, and the related indirect costs. The program's parameters and guidelines and the underlying state regulation do not support mandate reimbursement for residential placements in for-profit facilities.

Heather Halsey, Executive Director  
August 29, 2016

**Commission on  
State Mandates**

September 15, 2016

Heather Halsey, Executive Director  
Commission on State Mandates  
980 Ninth Street, Suite 300  
Sacramento, CA 95814

Dear Ms. Halsey:

**SERIOUSLY EMOTIONALLY DISTURBED STUDENTS:  
OUT-OF-STATE MENTAL HEALTH SERVICES 12-9705-I-04**

On behalf of the County of Los Angeles (County), I am submitting the following comments to the draft proposed decision in the above matter. The County disagrees with the conclusions and recommendations in the draft proposed decision.

The County is entitled to the full amount of the costs claimed in its Incorrect Reduction of Claim filing for the reasons stated in the County's filing and in the related documents filed by the County in this action. The County is entitled to reimbursement for mental health services to pupils by out-of-state providers whether or not the vendor is operated on a "for profit" or "not for profit" basis.

The County also requests that the Commission consider the correct standard for reviewing the evidence and making its decision on the merits of this matter.

The draft proposed decision sets forth a judicial standard of review that requires the Commission to determine whether the Controller's reduction of costs is correct as a matter of law and is not "arbitrary, capricious or entirely lacking in evidentiary support." Draft Proposed Decision, p. 3. The Commission does not cite any statutory or regulatory authority for this standard. Although this standard is one that an appellate court may apply to its review of a Commission decision, this deferential standard of review does not apply to the administrative body (here, the Commission) that is hearing evidence. It is contrary to the statutes and regulations that define the Commission's quasi-judicial power and the hearing procedures contained in Government Code §§ 17500, *et seq.*, and California Code of Regulations (CCR), Title 2, Chapter 2.5, Article 7. The Commission must hear the matter *de novo*.

The evidentiary hearing authority found in Article 7 and in the Government Code contradicts (and does not support) the use of an "abuse of discretion" standard during the Commission's hearing. Both the Government Code and Article 7 envision a robust hearing procedure allowing for an independent review of the facts and law – which is

clearly more than a review that provides such a high level of deference to agency. The Commission's hearing procedures are detailed and provide for the presentation of evidence, presence of witnesses, issuance of subpoenas, representation and argument at Commission hearings.

In *Kolender v. San Diego County Civil Service Commission* (2005) 132 Cal.App.4<sup>th</sup> 1150, 1156-1158, the Sheriff contended that the Civil Service Commission should have reviewed his department's actions in disciplining an employee under a "substantial evidence" standard rather than conducting an independent review of the facts and law. *Id.* The appellate court disagreed. In determining the appropriate standard to be applied by the Civil Service Commission in reviewing the Sheriff's decision, the court observed that there was no statute or regulation specifying the applicable standard of review and that the Civil Service Commission could affirm, modify or revoke the Sheriff's disciplinary order. *Id.*, 1156. The court also found that the Civil Service Commission had the authority to hold a full evidentiary hearing to ascertain the basis of the Sheriff's charges, that the parties could subpoena witnesses, that the witnesses were sworn, and that the parties had the right to be represented by counsel. The court also observed that the Civil Service Commission had the authority to review documents, hear the arguments of the parties, and use its own judgment to reach conclusions that differed from the Sheriff's disciplinary order. *Id.*, 1156-1157. The court, therefore, found that the Civil Service Commission's authority was more consistent with an independent review rather than with the "substantial evidence" review advocated by the Sheriff. Otherwise, "there would be no need for the statute to authorize the Commission's adjudicatory review, and the Commission could simply exist to rubberstamp the Sheriff's disciplinary orders." *Id.*, 1157.

Similarly here, the Commission on State Mandates conducts a full evidentiary review. It conducts a quasi-judicial proceeding that includes the submission of evidence, sworn testimony of witnesses, issuance of subpoenas, representation and argument at hearing. The Commission hears the arguments of the parties and makes its own decision as to the propriety of any reduction made by the State Controller based on the law and the evidence. See Government Code §§11527, 17551; 2 CCR, Title 2, Chapter 2.5, Title 7, §§1185.1(a), 1187.5, 1187.7, 1187.8. This procedure should not be a "rubberstamp" of the Controller's audit findings, and the Commission is not restricted by an "abuse of discretion" standard. The Commission's review must be an independent review, rather than a determination of whether the Controller "abused its discretion."<sup>1</sup>

---

<sup>1</sup> The County also joins in, and incorporates by this reference, the arguments made by Orange County in its Comments in the proposed decision for Incorrect Reductions of Claim Nos. 11-9705-1-02 and 12-970-1-03, set for hearing on September 23, 2016.

Heather Halsey, Executive Director  
September 15, 2016  
Page 3

Accordingly, the County requests that the draft proposed decision be rewritten taking into account the Commission's authority to make an independent determination of the Controller's actions in this matter and the position of the County as reflected in the Incorrect Reduction of Claim filing and the related documents on file with the Commission.

Sincerely,

A handwritten signature in cursive script that reads "Robin Kay, Ph.D.".

Robin Kay, Ph.D.  
Acting Director

**CHAPTER 43**

An act to amend Sections 1240, 1622, 2558.46, 8201, 8208, 8263.2, 8263.4, 8447, 8499, 42127, 42238.146, 44955.5, 56325, and 69432.7 of, to amend and renumber Section 60422.3 of, to amend and repeal Sections 56139 and 56331 of, to amend, repeal, and add Sections 8203.5, 41202, and 76300 of, to add Sections 41202.5, 41210, 41211, 42251, and 46201.3 to, and to repeal and add Section 42606 of, the Education Code, to amend Section 7911.1 of the Family Code, to amend Sections 7572, 7582, 7585, 12440.1, and 17581.5 of, to amend and repeal Sections 7572.5, 7572.55, 7576, 7576.2, 7576.3, 7576.5, 7586.5, 7586.6, and 7586.7 of, and to repeal Section 7588 of, the Government Code, and to amend Sections 5651 and 11323.2 of, to amend and repeal Sections 5701.3 and 5701.6 of, to add and repeal Section 18356.1 of, and to repeal Chapter 6 (commencing with Section 18350) of Part 6 of Division 9 of, the Welfare and Institutions Code, relating to education finance, and making an appropriation therefor, to take effect immediately, bill related to the budget.

[Approved by Governor June 30, 2011. Filed with  
Secretary of State June 30, 2011.]

**LEGISLATIVE COUNSEL'S DIGEST**

**AB 114, Committee on Budget. Education finance.**

(1) Existing law requires a county superintendent of schools to certify in writing whether or not the county office of education is able to meet its financial obligations for the current and 2 subsequent fiscal years. Existing law requires a county superintendent of schools to approve, conditionally approve, or disapprove the adopted budget for the school districts under his or her jurisdiction and to determine whether the adopted budget is consistent with a financial plan that will enable the district to satisfy its multiyear financial commitments.

This bill would require the budgets of a county office of education and a school district for the 2011–12 fiscal year to project the same level of revenue per unit of average daily attendance as it received in the 2010–11 fiscal year, and would delete the certification requirement regarding the 2 fiscal years subsequent to the 2011–12 fiscal year. The bill would prohibit the Superintendent of Public Instruction from requiring a county office of education to do otherwise.

(2) Existing law requires a revenue limit to be calculated for each county superintendent of schools, adjusted for various factors, and reduced, as specified. Existing law reduces the revenue limit for each county superintendent of schools for the 2011–12 fiscal year by a deficit factor of 19.892%.

This bill instead would set the deficit factor for each county superintendent of schools for the 2011–12 fiscal year at 20.041%.

(3) The Child Care and Development Services Act, administered by the State Department of Education, provides that children who are 10 years of age or younger, children with exceptional needs, children 12 years of age or younger who are recipients of child protective services or at risk of abuse, neglect, or exploitation, children 12 years of age or younger who are provided services during nontraditional hours, children 12 years of age or younger who are homeless, and children who are 11 and 12 years of age, as funding permits, as specified, are eligible, with certain requirements, for child care and development services.

This bill would instead provide that children from infancy to 13 years of age and their parents are eligible, with certain requirements, for child care and development services.

(4) Existing law requires that a child who is 11 or 12 years of age and who is otherwise eligible for subsidized child care and development services, except for his or her age, be given first priority for enrollment, and in cases of programs operating at full capacity, first priority on the waiting list for a before or after school program, as specified. Existing law also requires contractors to provide each family of an otherwise eligible 11 or 12 year old child with information about the availability of before and after school programs located in the family's community.

This bill would instead provide that the preferred placement for children who are 11 or 12 years of age and who are otherwise eligible for subsidized child care and development services is in a before or after school program. The bill would specify criteria for the provision of subsidized child care services for children who are 11 and 12 years of age.

(5) Existing law, effective July 1, 2011, requires the State Department of Education to reduce the maximum reimbursable amounts of the contracts for the Preschool Education Program, the General Child Care Program, the Migrant Day Care Program, the Alternative Payment Program, the CalWORKs Stage 3 Program, and the Allowance for Handicapped Program by 15%, as specified.

This bill would instead provide that the reduction in the maximum reimbursable amounts of the contracts for the programs listed above would be 11% or whatever proportion is necessary to ensure that expenditures for these programs do not exceed the amounts appropriated for them, including any reductions made subsequent to the adoption of the annual Budget Act.

(6) Existing law requires that the cost of state-funded child care services be governed by regional market rates, and establishes a family fee schedule reflecting specified income eligibility limits. Existing law revises the family fee schedule that was in effect for the 2007–08, 2008–09, 2009–10, and 2010–11 fiscal years to reflect an increase of 10% to existing fees, and requires the State Department of Education to submit an adjusted fee schedule to the Department of Finance for approval in order to be implemented by July 1, 2011.

This bill would delete the provision requiring the fee schedule to reflect a 10% increase in family fees.

(7) Under existing law (Proposition 98), the California Constitution requires the state to comply with a minimum funding obligation each fiscal year with respect to the support of school districts and community college districts. Existing statutory law specifies that state funding for the Child Care and Development Services Act is included within the calculation of state apportionments that apply toward this constitutional funding obligation.

This bill would, commencing July 1, 2011, specify that funds appropriated for the Child Care and Development Services Act do not apply toward the constitutional minimum funding obligation for school districts and community college districts, with the exception of state funding for the part-day California state preschool programs and the After School Education and Safety Program.

The bill would make related changes in the calculation of the minimum funding obligation required by Proposition 98.

(8) Existing law prescribes the percentage of General Fund revenues appropriated for school districts and community college districts for purposes of the provisions of the California Constitution requiring minimum funding for the public schools.

This bill would state that specified sales and use tax revenues transferred pursuant to certain provisions of the Revenue and Taxation Code are not General Fund revenues for these purposes. The bill would provide that its provisions would be operative for the 2011–12 fiscal year and subsequent years only if one or more ballot measures approved before November 17, 2012, authorize those revenues to be so treated, and provide funding for school districts and community college districts in an amount equal to that which would have been provided if the tax revenues were General Fund revenues.

The bill would require, if the aforementioned provisions of law are rendered inoperative because the ballot measure or measures are not approved, that by December 17, 2012, the Director of Finance, in consultation with the Superintendent of Public Instruction, determine the amount by which the minimum amount of moneys required to be applied by the state for the support of school districts and community college districts was reduced pursuant to the operation of the aforementioned provisions of law for the 2011–12 fiscal year. Following the determination of this amount, the bill would appropriate an amount equal to 17.8% of that amount from the General Fund to the Superintendent for each of the 2012–13 to 2016–17, inclusive, fiscal years in accordance with a specified priority order, and would appropriate 2.2% of that amount from the General Fund to the Chancellor of the California Community Colleges for each of the 2012–13 to 2016–17, inclusive, fiscal years, in accordance with a specified priority order.

(9) Existing law requires the county superintendent of schools to determine a revenue limit for each school district in the county, and requires the amount of the revenue limit to be adjusted for various factors. Existing

law reduces the revenue limit for each school district for the 2011–12 fiscal year by a deficit factor of 19.608%.

This bill instead would set the deficit factor for each school district for the 2011–12 fiscal year at 19.754%.

(10) Under existing law, county offices of education receive certain property tax revenues. Existing law requires a revenue limit to be calculated for each county superintendent of schools, and requires the amount of the revenue limit to be adjusted for various factors, including the amount of property tax revenues a county office of education receives.

This bill would require the Superintendent of Public Instruction for the 2011–12 fiscal year to determine the amount of excess property taxes available to county offices of education, and would require the auditor-controller of each county to distribute those amounts to the Supplemental Revenue Augmentation Fund within the county exclusively to reimburse the state for the costs of providing trial court services and costs until those moneys are exhausted. By imposing additional duties on local agency officials, this bill would impose a state-mandated local program.

(11) Existing law requires the Superintendent of Public Instruction to allocate, for the 2010–11 and 2011–12 fiscal years, a supplemental categorical block grant to a charter school that begins operation in the 2008–09, 2009–10, 2010–11, or 2011–12 fiscal year. Existing law requires that this supplemental categorical block grant equal \$127 per unit of charter school average daily attendance as determined at the 2010–11 2nd principal apportionment for schools commencing operations in the 2008–09, 2009–10, or 2010–11 fiscal year and at the 2011–12 2nd principal apportionment for schools commencing operations in the 2011–12 fiscal year. Existing law prohibits a locally funded charter school that converted from a preexisting school between the 2008–09 and 2011–12 fiscal years, inclusive, from receiving these funds.

This bill instead would provide that, to the extent funds are provided, for the 2010–11 to the 2014–15 fiscal years, inclusive, a supplemental categorical block grant would be allocated to charter schools commencing operations during or after the 2008–09 fiscal year. The bill would provide that a locally or direct funded charter school, not just a locally funded charter school, that converted from a preexisting school between the 2008–09 and 2014–15 fiscal years, inclusive, would be prohibited from receiving these funds.

The bill would provide that for, the 2010–11 to the 2014–15 fiscal years, inclusive, the supplemental categorical block grant received by eligible charter schools would equal \$127 per unit of charter school average daily attendance for charter schools commencing operations during or after the 2008–09 fiscal year, as specified.

(12) Existing law authorizes the governing board of a school district to terminate the services of any certificated employees of the district during the time period between 5 days after the enactment of the Budget Act and August 15 of the fiscal year to which that Budget Act applies if the governing board of a school district determines that its total revenue limit per unit of

average daily attendance for the fiscal year of that Budget Act has not increased by at least 2% and if in the opinion of the governing board it is therefore necessary to decrease the number of permanent employees in the district.

This bill would make this provision inoperative from July 1, 2011, to July 1, 2012, inclusive.

(13) Existing law sets forth the minimum number of instructional days and minutes school districts, county offices of education, and charter schools are required to offer.

This bill, for the 2011–12 school year, would reduce the minimum number of required instructional days and minutes by up to 7 days, and would reduce the revenue limit for each school district, county office of education, and charter school, as specified. The bill would require implementation of this reduction by a school district, county office of education, and charter school that is subject to collective bargaining to be achieved through the bargaining process, provided that the agreement has been completed and reductions implemented no later than June 30, 2012. These provisions would be operative only for the 2011–12 school year and only if the Director of Finance determines that the state revenue forecast does not meet a specified amount.

(14) Existing law requires school districts, county offices of education, and special education local plan areas to comply with state laws that conform to the federal Individuals with Disabilities Education Act (IDEA), in order that the state may qualify for federal funds available for the education of individuals with exceptional needs. Existing law requires school districts, county offices of education, and special education local plan areas to identify, locate, and assess individuals with exceptional needs and to provide those pupils with a free appropriate public education in the least restrictive environment, and with special education and related services as reflected in an individualized education program (IEP). Existing law requires the Superintendent of Public Instruction to administer the special education provisions of the Education Code and to be responsible for assuring provision of, and supervising, education and related services to individuals with exceptional needs as required pursuant to the federal IDEA.

Existing law authorizes referral, through a prescribed process, of a pupil who is suspected of needing mental health services to a community mental health service. Existing law requires the State Department of Mental Health or a designated community mental health service to be responsible for the provision of mental health services, as defined, if required in a pupil's IEP.

This bill would make these provisions concerning referral for mental health services inoperative as of July 1, 2011, would repeal them as of January 1, 2012, and would make other related conforming changes.

(15) Existing law, for the 2008–09 to the 2014–15 fiscal years, inclusive, provides that the governing board of a school district is not required to provide pupils with instructional materials by a specified period of time following adoption of those materials by the State Board of Education.

This bill would make a technical, nonsubstantive change in this provision by changing its section number.

(16) Existing law, the Ortiz-Pacheco-Poochigian-Vasconcellos Cal Grant Program (Cal Grant Program), establishes the Cal Grant A and B Entitlement Awards, the California Community College Transfer Entitlement Awards, the Competitive Cal Grant A and B Awards, the Cal Grant C Awards, and the Cal Grant T Awards under the administration of the Student Aid Commission, and establishes eligibility requirements for awards under these programs for participating students attending qualifying institutions.

Existing law imposes requirements on qualifying institutions, requiring the commission to certify by October 1 of each year the institution's latest 3-year cohort default rate as most recently reported by the United States Department of Education. Existing law provides that an otherwise qualifying institution that did not meet a specified 3-year cohort default rate would be ineligible for new Cal Grant awards at the institution. Under the Cal Grant Program, for the 2012–13 academic year and every academic year thereafter, an otherwise qualifying institution with a 3-year cohort default rate that is equal to or greater than 30% is ineligible for initial or renewal Cal Grant awards at the institution, except as specified.

This bill instead would specify that an otherwise qualifying institution with a 3-year cohort default rate that is equal to or greater than 30% is ineligible for initial and renewal Cal Grant awards at the institution, except as specified.

(17) Existing law establishes the California State University under the administration of the Trustees of the California State University. Existing law authorizes the trustees to draw from funds appropriated to the university, for use as a revolving fund, amounts necessary to make payments of obligations of the university directly to vendors. Existing law requires the trustees to contract with one or more public accounting firms to conduct systemwide and individual campus annual financial statement and compliance audits. Existing law further requires that at least 10 individual campus audits be conducted annually on a rotating basis, and that each campus be audited at least once every 2 years.

This bill would require the annual audits to be conducted in accordance with generally accepted accounting principles. The bill would delete the requirements that at least 10 individual campus audits be conducted annually on a rotating basis, and that each campus be audited at least once every 2 years. The bill would require that the statements of net assets, revenues, expenses, changes in net assets, and cashflows be included as an addendum to the annual systemwide audit.

(18) Existing law requires the governing board of each community college district to charge each student a fee, and sets that fee at \$36 per unit per semester.

This bill would raise the fee to \$46 per unit per semester if the Director of Finance determines that the state revenue forecast does not meet a specified amount.

(19) Under the California Constitution, whenever the Legislature or a state agency mandates a new program or higher level of service on any local government, the state is required to provide a subvention of funds to reimburse the local government, with specified exceptions. Existing law provides that no local agency or school district is required to implement or give effect to any statute or executive order, or portion thereof, that imposes a mandate during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if specified conditions are met, including that the statute or executive order, or portion thereof, has been specifically identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. Existing law provides that only certain specified mandates are subject to that provision.

This bill would specify that 2 additional mandates relating to community college districts are included among those that are subject to the provision.

(20) The Administrative Procedure Act, among other things, sets forth procedures for the development, adoption, and promulgation of regulations by administrative agencies charged with the implementation of statutes.

This bill would authorize the State Department of Social Services and the State Department of Education, notwithstanding the procedures required by the Administrative Procedure Act, to implement the provisions of the bill that relate to the Child Care and Development Services Act through all-county letters, management bulletins, or other similar instructions.

(21) This bill would provide that the implementation of the provisions of the bill related to the provision of child care services would not be subject to the appeal and resolution procedures for agencies that contract with the State Department of Education for these purposes.

(22) This bill would express the intent of the Legislature that specified funding in the Budget Act of 2011 related to educationally related mental health services would be exclusively available only for the 2011–12 and 2012–13 fiscal years.

(23) This bill would express the intent of the Legislature that the State Department of Education and appropriate departments within the California Health and Human Services Agency modify or repeal regulations pertaining to the elimination of statutes pursuant to this bill related to mental health services provided by county mental health agencies. The bill would require the State Department of Education and appropriate departments within the California Health and Human Services Agency to review regulations to ensure appropriate implementation of educationally related mental health services required by the federal Individuals with Disabilities Education Act and of certain statutes enacted pursuant to this bill. The bill would authorize the State Department of Education and appropriate departments within the California Health and Human Services Agency to utilize the statutory process for adopting emergency regulations in implementing certain statutes enacted pursuant to this bill.

(24) This bill would make conforming changes, correct some cross-references, and make other technical, nonsubstantive changes.

(25) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

(26) Existing law requires the State Department of Education to award grants to school districts, county superintendents of schools, or entities approved by the department for nonrecurring expenses incurred in initiating or expanding a school breakfast program or a summer food service program.

This bill would make an appropriation of \$1,000 for purposes of these grants.

(27) The funds appropriated by this bill would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

(28) This bill would declare that it is to take effect immediately as a bill providing for appropriations related to the Budget Bill.

Appropriation: yes.

*The people of the State of California do enact as follows:*

SECTION 1. Section 1240 of the Education Code is amended to read:

1240. The county superintendent of schools shall do all of the following:

(a) Superintend the schools of his or her county.

(b) Maintain responsibility for the fiscal oversight of each school district in his or her county pursuant to the authority granted by this code.

(c) (1) Visit and examine each school in his or her county at reasonable intervals to observe its operation and to learn of its problems. He or she annually may present a report of the state of the schools in his or her county, and of his or her office, including, but not limited to, his or her observations while visiting the schools, to the board of education and the board of supervisors of his or her county.

(2) (A) For fiscal years 2004–05 to 2006–07, inclusive, to the extent that funds are appropriated for purposes of this paragraph, the county superintendent, or his or her designee, annually shall submit a report, at a regularly scheduled November board meeting, to the governing board of each school district under his or her jurisdiction, the county board of education of his or her county, and the board of supervisors of his or her county describing the state of the schools in the county or of his or her office that are ranked in deciles 1 to 3, inclusive, of the 2003 base Academic Performance Index (API), as defined in subdivision (b) of Section 17592.70, and shall include, among other things, his or her observations while visiting the schools and his or her determinations for each school regarding the status of all of the circumstances listed in subparagraph (J) and teacher misassignments and teacher vacancies. As a condition for receipt of funds, the county superintendent, or his or her designee, shall use a standardized

template to report the circumstances listed in subparagraph (J) and teacher misassignments and teacher vacancies, unless the current annual report being used by the county superintendent, or his or her designee, already includes those details for each school.

(B) Commencing with the 2007–08 fiscal year, to the extent that funds are appropriated for purposes of this paragraph, the county superintendent, or his or her designee, annually shall submit a report, at a regularly scheduled November board meeting, to the governing board of each school district under his or her jurisdiction, the county board of education of his or her county, and the board of supervisors of his or her county describing the state of the schools in the county or of his or her office that are ranked in deciles 1 to 3, inclusive, of the 2006 base API, pursuant to Section 52056. As a condition for the receipt of funds, the annual report shall include the determinations for each school made by the county superintendent, or his or her designee, regarding the status of all of the circumstances listed in subparagraph (J) and teacher misassignments and teacher vacancies, and the county superintendent, or his or her designee, shall use a standardized template to report the circumstances listed in subparagraph (J) and teacher misassignments and teacher vacancies, unless the current annual report being used by the county superintendent, or his or her designee, already includes those details with the same level of specificity that is otherwise required by this subdivision. For purposes of this section, schools ranked in deciles 1 to 3, inclusive, on the 2006 base API shall include schools determined by the department to meet either of the following:

(i) The school meets all of the following criteria:

(I) Does not have a valid base API score for 2006.

(II) Is operating in fiscal year 2007–08 and was operating in fiscal year 2006–07 during the Standardized Testing and Reporting (STAR) Program testing period.

(III) Has a valid base API score for 2005 that was ranked in deciles 1 to 3, inclusive, in that year.

(ii) The school has an estimated base API score for 2006 that would be in deciles 1 to 3, inclusive.

(C) The department shall estimate an API score for any school meeting the criteria of subclauses (I) and (II) of clause (i) of subparagraph (B) and not meeting the criteria of subclause (III) of clause (i) of subparagraph (B), using available test scores and weighting or corrective factors it deems appropriate. The department shall post the API scores on its Internet Web site on or before May 1.

(D) For purposes of this section, references to schools ranked in deciles 1 to 3, inclusive, on the 2006 base API shall exclude schools operated by county offices of education pursuant to Section 56140, as determined by the department.

(E) In addition to the requirements above, the county superintendent, or his or her designee, annually shall verify both of the following:

(i) That pupils who have not passed the high school exit examination by the end of grade 12 are informed that they are entitled to receive intensive

instruction and services for up to two consecutive academic years after completion of grade 12 or until the pupil has passed both parts of the high school exit examination, whichever comes first, pursuant to paragraphs (4) and (5) of subdivision (d) of Section 37254.

(ii) That pupils who have elected to receive intensive instruction and services, pursuant to paragraphs (4) and (5) of subdivision (d) of Section 37254, are being served.

(F) (i) Commencing with the 2010–11 fiscal year and every third year thereafter, the Superintendent shall identify a list of schools ranked in deciles 1 to 3, inclusive, of the API for which the county superintendent, or his or her designee, annually shall submit a report, at a regularly scheduled November board meeting, to the governing board of each school district under his or her jurisdiction, the county board of education of his or her county, and the board of supervisors of his or her county that describes the state of the schools in the county or of his or her office that are ranked in deciles 1 to 3, inclusive, of the base API as defined in clause (ii).

(ii) For the 2010–11 fiscal year, the list of schools ranked in deciles 1 to 3, inclusive, of the base API shall be updated using the criteria set forth in clauses (i) and (ii) of subparagraph (B), subparagraph (C), and subparagraph (D), as applied to the 2009 base API and thereafter shall be updated every third year using the criteria set forth in clauses (i) and (ii) of subparagraph (B), subparagraph (C), and subparagraph (D), as applied to the base API of the year preceding the third year consistent with clause (i).

(iii) As a condition for the receipt of funds, the annual report shall include the determinations for each school made by the county superintendent, or his or her designee, regarding the status of all of the circumstances listed in subparagraph (J) and teacher misassignments and teacher vacancies, and the county superintendent, or his or her designee, shall use a standardized template to report the circumstances listed in subparagraph (J) and teacher misassignments and teacher vacancies, unless the current annual report being used by the county superintendent, or his or her designee, already includes those details with the same level of specificity that is otherwise required by this subdivision.

(G) The county superintendent of the Counties of Alpine, Amador, Del Norte, Mariposa, Plumas, and Sierra, and the City and County of San Francisco shall contract with another county office of education or an independent auditor to conduct the required visits and make all reports required by this paragraph.

(H) On a quarterly basis, the county superintendent, or his or her designee, shall report the results of the visits and reviews conducted that quarter to the governing board of the school district at a regularly scheduled meeting held in accordance with public notification requirements. The results of the visits and reviews shall include the determinations of the county superintendent, or his or her designee, for each school regarding the status of all of the circumstances listed in subparagraph (J) and teacher misassignments and teacher vacancies. If the county superintendent, or his

or her designee, conducts no visits or reviews in a quarter, the quarterly report shall report that fact.

(I) The visits made pursuant to this paragraph shall be conducted at least annually and shall meet the following criteria:

- (i) Minimize disruption to the operation of the school.
- (ii) Be performed by individuals who meet the requirements of Section 45125.1.

(iii) Consist of not less than 25 percent unannounced visits in each county. During unannounced visits in each county, the county superintendent shall not demand access to documents or specific school personnel. Unannounced visits shall only be used to observe the condition of school repair and maintenance, and the sufficiency of instructional materials, as defined by Section 60119.

(J) The priority objective of the visits made pursuant to this paragraph shall be to determine the status of all of the following circumstances:

(i) Sufficient textbooks as defined in Section 60119 and as specified in subdivision (i).

(ii) The condition of a facility that poses an emergency or urgent threat to the health or safety of pupils or staff as defined in district policy or paragraph (1) of subdivision (c) of Section 17592.72.

(iii) The accuracy of data reported on the school accountability report card with respect to the availability of sufficient textbooks and instructional materials, as defined by Section 60119, and the safety, cleanliness, and adequacy of school facilities, including good repair as required by Sections 17014, 17032.5, 17070.75, and 17089.

(iv) The extent to which pupils who have not passed the high school exit examination by the end of grade 12 are informed that they are entitled to receive intensive instruction and services for up to two consecutive academic years after completion of grade 12 or until the pupil has passed both parts of the high school exit examination, whichever comes first, pursuant to paragraphs (4) and (5) of subdivision (d) of Section 37254.

(v) The extent to which pupils who have elected to receive intensive instruction and services, pursuant to paragraphs (4) and (5) of subdivision (d) of Section 37254, are being served.

(K) The county superintendent may make the status determinations described in subparagraph (J) during a single visit or multiple visits. In determining whether to make a single visit or multiple visits for this purpose, the county superintendent shall take into consideration factors such as cost-effectiveness, disruption to the schoolsite, deadlines, and the availability of qualified reviewers.

(L) If the county superintendent determines that the condition of a facility poses an emergency or urgent threat to the health or safety of pupils or staff as defined in district policy or paragraph (1) of subdivision (c) of Section 17592.72, or is not in good repair, as specified in subdivision (d) of Section 17002 and required by Sections 17014, 17032.5, 17070.75, and 17089, the county superintendent, among other things, may do any of the following:

- (i) Return to the school to verify repairs.

(ii) Prepare a report that specifically identifies and documents the areas or instances of noncompliance if the district has not provided evidence of successful repairs within 30 days of the visit of the county superintendent or, for major projects, has not provided evidence that the repairs will be conducted in a timely manner. The report may be provided to the governing board of the school district. If the report is provided to the school district, it shall be presented at a regularly scheduled meeting held in accordance with public notification requirements. The county superintendent shall post the report on his or her Internet Web site. The report shall be removed from the Internet Web site when the county superintendent verifies the repairs have been completed.

(d) Distribute all laws, reports, circulars, instructions, and blanks that he or she may receive for the use of the school officers.

(e) Annually, on or before August 15, present a report to the governing board of the school district and the Superintendent regarding the fiscal solvency of a school district with a disapproved budget, qualified interim certification, or a negative interim certification, or that is determined to be in a position of fiscal uncertainty pursuant to Section 42127.6.

(f) Keep in his or her office the reports of the Superintendent.

(g) Keep a record of his or her official acts, and of all the proceedings of the county board of education, including a record of the standing, in each study, of all applicants for certificates who have been examined, which shall be open to the inspection of an applicant or his or her authorized agent.

(h) Enforce the course of study.

(i) (1) Enforce the use of state textbooks and instructional materials and of high school textbooks and instructional materials regularly adopted by the proper authority in accordance with Section 51050.

(2) For purposes of this subdivision, sufficient textbooks or instructional materials has the same meaning as in subdivision (c) of Section 60119.

(3) (A) Commencing with the 2005–06 school year, if a school is ranked in any of deciles 1 to 3, inclusive, of the base API, as specified in paragraph (2) of subdivision (c), and not currently under review pursuant to a state or federal intervention program, the county superintendent specifically shall review that school at least annually as a priority school. A review conducted for purposes of this paragraph shall be completed by the fourth week of the school year. For the 2004–05 fiscal year only, the county superintendent shall make a diligent effort to conduct a visit to each school pursuant to this paragraph within 120 days of receipt of funds for this purpose.

(B) In order to facilitate the review of instructional materials before the fourth week of the school year, the county superintendent in a county with 200 or more schools that are ranked in any of deciles 1 to 3, inclusive, of the base API, as specified in paragraph (2) of subdivision (c), may utilize a combination of visits and written surveys of teachers for the purpose of determining sufficiency of textbooks and instructional materials in accordance with subparagraph (A) of paragraph (1) of subdivision (a) of Section 60119 and as defined in subdivision (c) of Section 60119. If a county superintendent elects to conduct written surveys of teachers, the county

superintendent shall visit the schools surveyed within the same academic year to verify the accuracy of the information reported on the surveys. If a county superintendent surveys teachers at a school in which the county superintendent has found sufficient textbooks and instructional materials for the previous two consecutive years and determines that the school does not have sufficient textbooks or instructional materials, the county superintendent shall within 10 business days provide a copy of the insufficiency report to the school district as set forth in paragraph (4).

(C) For purposes of this paragraph, “written surveys” may include paper and electronic or online surveys.

(4) If the county superintendent determines that a school does not have sufficient textbooks or instructional materials in accordance with subparagraph (A) of paragraph (1) of subdivision (a) of Section 60119 and as defined by subdivision (c) of Section 60119, the county superintendent shall do all of the following:

(A) Prepare a report that specifically identifies and documents the areas or instances of noncompliance.

(B) Provide within five business days of the review, a copy of the report to the school district, as provided in subdivision (c), or, if applicable, provide a copy of the report to the school district within 10 business days pursuant to subparagraph (B) of paragraph (3).

(C) Provide the school district with the opportunity to remedy the deficiency. The county superintendent shall ensure remediation of the deficiency no later than the second month of the school term.

(D) If the deficiency is not remedied as required pursuant to subparagraph (C), the county superintendent shall request the department to purchase the textbooks or instructional materials necessary to comply with the sufficiency requirement of this subdivision. If the department purchases textbooks or instructional materials for the school district, the department shall issue a public statement at the first regularly scheduled meeting of the state board occurring immediately after the department receives the request of the county superintendent and that meets the applicable public notice requirements, indicating that the district superintendent and the governing board of the school district failed to provide pupils with sufficient textbooks or instructional materials as required by this subdivision. Before purchasing the textbooks or instructional materials, the department shall consult with the district to determine which textbooks or instructional materials to purchase. All purchases of textbooks or instructional materials shall comply with Chapter 3.25 (commencing with Section 60420) of Part 33. The amount of funds necessary for the purchase of the textbooks and materials is a loan to the school district receiving the textbooks or instructional materials. Unless the school district repays the amount owed based upon an agreed-upon repayment schedule with the Superintendent, the Superintendent shall notify the Controller and the Controller shall deduct an amount equal to the total amount used to purchase the textbooks and materials from the next principal apportionment of the district or from another apportionment of state funds.

(j) Preserve carefully all reports of school officers and teachers.

(k) Deliver to his or her successor, at the close of his or her official term, all records, books, documents, and papers belonging to the office, taking a receipt for them, which shall be filed with the department.

(l) (1) Submit two reports during the fiscal year to the county board of education in accordance with the following:

(A) The first report shall cover the financial and budgetary status of the county office of education for the period ending October 31. The second report shall cover the period ending January 31. Both reports shall be reviewed by the county board of education and approved by the county superintendent no later than 45 days after the close of the period being reported.

(B) As part of each report, the county superintendent shall certify in writing whether or not the county office of education is able to meet its financial obligations for the remainder of the fiscal year and, based on current forecasts, for two subsequent fiscal years. The certifications shall be classified as positive, qualified, or negative, pursuant to standards prescribed by the Superintendent, for the purposes of determining subsequent state agency actions pursuant to Section 1240.1. For purposes of this subdivision, a negative certification shall be assigned to a county office of education that, based upon current projections, will not meet its financial obligations for the remainder of the fiscal year or for the subsequent fiscal year. A qualified certification shall be assigned to a county office of education that may not meet its financial obligations for the current fiscal year or two subsequent fiscal years. A positive certification shall be assigned to a county office of education that will meet its financial obligations for the current fiscal year and subsequent two fiscal years. In accordance with those standards, the Superintendent may reclassify a certification. If a county office of education receives a negative certification, the Superintendent, or his or her designee, may exercise the authority set forth in subdivision (c) of Section 1630. Copies of each certification, and of the report containing that certification, shall be sent to the Superintendent at the time the certification is submitted to the county board of education. Copies of each qualified or negative certification and the report containing that certification shall be sent to the Controller at the time the certification is submitted to the county board of education.

(i) For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, each county office of education budget shall project the same level of revenue per unit of average daily attendance as it received in the 2010–11 fiscal year and shall maintain staffing and program levels commensurate with that level.

(ii) For the 2011–12 fiscal year, the county superintendent shall not be required to certify in writing whether or not the county office of education is able to meet its financial obligations for the two subsequent fiscal years.

(iii) For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, the Superintendent, as a condition on approval of a county office of education

budget, shall not require a county office of education to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the county superintendent to certify in writing whether or not the county office of education is able to meet its financial obligations for the two subsequent fiscal years.

(2) All reports and certifications required under this subdivision shall be in a format or on forms prescribed by the Superintendent, and shall be based on standards and criteria for fiscal stability adopted by the state board pursuant to Section 33127. The reports and supporting data shall be made available by the county superintendent to an interested party upon request.

(3) This subdivision does not preclude the submission of additional budgetary or financial reports by the county superintendent to the county board of education or to the Superintendent.

(4) The county superintendent is not responsible for the fiscal oversight of the community colleges in the county, however, he or she may perform financial services on behalf of those community colleges.

(m) If requested, act as agent for the purchase of supplies for the city and high school districts of his or her county.

(n) For purposes of Section 44421.5, report to the Commission on Teacher Credentialing the identity of a certificated person who knowingly and willingly reports false fiscal expenditure data relative to the conduct of an educational program. This requirement applies only if, in the course of his or her normal duties, the county superintendent discovers information that gives him or her reasonable cause to believe that false fiscal expenditure data relative to the conduct of an educational program has been reported.

SEC. 2. Section 1622 of the Education Code is amended to read:

1622. (a) On or before July 1 of each fiscal year, the county board of education shall adopt an annual budget for the budget year and shall file that budget with the Superintendent of Public Instruction, the county board of supervisors, and the county auditor. The budget, and supporting data, shall be maintained and made available for public review. The budget shall indicate the date, time, and location at which the county board of education held the public hearing required under Section 1620.

(b) The Superintendent of Public Instruction shall examine the budget to determine whether it (1) complies with the standards and criteria adopted by the State Board of Education pursuant to Section 33127 for application to final local educational agency budgets, (2) allows the county office of education to meet its financial obligations during the fiscal year, and (3) is consistent with a financial plan that will enable the county office of education to satisfy its multiyear financial commitments. In addition, the Superintendent shall identify any technical corrections to the budget that must be made. On or before August 15, the Superintendent of Public Instruction shall approve or disapprove the budget and, in the event of a disapproval, transmit to the county office of education in writing his or her recommendations regarding revision of the budget and the reasons for those recommendations. For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127,

the Superintendent, as a condition on approval of a county office of education budget, shall not require a county office of education to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the county superintendent to certify in writing whether or not the county office of education is able to meet its financial obligations for the two subsequent fiscal years.

(c) On or before September 8, the county board of education shall revise the county office of education budget to reflect changes in projected income or expenditures subsequent to July 1, and to include any response to the recommendations of the Superintendent of Public Instruction, shall adopt the revised budget, and shall file the revised budget with the Superintendent of Public Instruction, the county board of supervisors, and the county auditor. Prior to revising the budget, the county board of education shall hold a public hearing regarding the proposed revisions, which shall be made available for public inspection not less than three working days prior to the hearing. The agenda for that hearing shall be posted at least 72 hours prior to the public hearing and shall include the location where the budget will be available for public inspection. The revised budget, and supporting data, shall be maintained and made available for public review.

(d) The Superintendent of Public Instruction shall examine the revised budget to determine whether it complies with the standards and criteria adopted by the State Board of Education pursuant to Section 33127 for application to final local educational agency budgets and, no later than October 8, shall approve or disapprove the revised budget. If the Superintendent of Public Instruction disapproves the budget, he or she shall call for the formation of a budget review committee pursuant to Section 1623. For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, the Superintendent, as a condition on approval of a county office of education budget, shall not require a county office of education to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the county superintendent to certify in writing whether or not the county office of education is able to meet its financial obligations for the two subsequent fiscal years.

(e) Notwithstanding any other provision of this section, the budget review for a county office of education shall be governed by paragraphs (1), (2), and (3) of this subdivision, rather than by subdivisions (c) and (d), if the county board of education so elects, and notifies the Superintendent of Public Instruction in writing of that decision, no later than October 31 of the immediately preceding calendar year.

(1) In the event of the disapproval of the budget of a county office of education pursuant to subdivision (b), on or before September 8, the county superintendent of schools and the county board of education shall review the recommendations of the Superintendent of Public Instruction at a regularly scheduled meeting of the county board of education and respond to those recommendations. That response shall include the proposed actions to be taken, if any, as a result of those recommendations.

(2) No later than October 8, after receiving the response required under paragraph (1), the Superintendent of Public Instruction shall review that response and either approve or disapprove the budget of the county office of education. If the Superintendent of Public Instruction disapproves the budget, he or she shall call for the formation of a budget review committee pursuant to Section 1623.

(3) Not later than 45 days after the Governor signs the annual Budget Act, the county office of education shall make available for public review any revisions in revenues and expenditures that it has made to its budget to reflect the funding made available by that Budget Act.

SEC. 3. Section 2558.46 of the Education Code is amended to read:

2558.46. (a) (1) For the 2003–04 fiscal year, the revenue limit for each county superintendent of schools determined pursuant to this article shall be reduced by a 1.195 percent deficit factor.

(2) For the 2004–05 fiscal year, the revenue limit for each county superintendent of schools determined pursuant to this article shall be reduced by a 0.323 percent deficit factor.

(3) For the 2003–04 and 2004–05 fiscal years, the revenue limit for each county superintendent of schools determined pursuant to this article shall be reduced further by a 1.826 percent deficit factor.

(4) For the 2005–06 fiscal year, the revenue limit for each county superintendent of schools determined pursuant to this article shall be reduced further by a 0.898 percent deficit factor.

(5) For the 2008–09 fiscal year, the revenue limit for each county superintendent of schools determined pursuant to this article shall be reduced by a 7.839 percent deficit factor.

(6) For the 2009–10 fiscal year, the revenue limit for each county superintendent of schools determined pursuant to this article shall be reduced by an 18.621 percent deficit factor.

(7) For the 2010–11 fiscal year, the revenue limit for each county superintendent of schools determined pursuant to this article shall be reduced by an 18.250 percent deficit factor.

(8) For the 2011–12 fiscal year, the revenue limit for each county superintendent of schools determined pursuant to this article shall be reduced by a 20.041 percent deficit factor.

(b) In computing the revenue limit for each county superintendent of schools for the 2006–07 fiscal year pursuant to this article, the revenue limit shall be determined as if the revenue limit for that county superintendent of schools had been determined for the 2003–04, 2004–05, and 2005–06 fiscal years without being reduced by the deficit factors specified in subdivision (a).

(c) In computing the revenue limit for each county superintendent of schools for the 2010–11 fiscal year pursuant to this article, the revenue limit shall be determined as if the revenue limit for that county superintendent of schools had been determined for the 2009–10 fiscal year without being reduced by the deficit factors specified in subdivision (a).

(d) In computing the revenue limit for each county superintendent of schools for the 2011–12 fiscal year pursuant to this article, the revenue limit shall be determined as if the revenue limit for that county superintendent of schools had been determined for the 2010–11 fiscal year without being reduced by the deficit factors specified in subdivision (a).

(e) In computing the revenue limit for each county superintendent of schools for the 2012–13 fiscal year pursuant to this article, the revenue limit shall be determined as if the revenue limit for that county superintendent of schools had been determined for the 2011–12 fiscal year without being reduced by the deficit factor specified in subdivision (a).

SEC. 4. Section 8201 of the Education Code is amended to read:

8201. The purpose of this chapter is as follows:

(a) To provide a comprehensive, coordinated, and cost-effective system of child care and development services for children from infancy to 13 years of age and their parents, including a full range of supervision, health, and support services through full- and part-time programs.

(b) To encourage community-level coordination in support of child care and development services.

(c) To provide an environment that is healthy and nurturing for all children in child care and development programs.

(d) To provide the opportunity for positive parenting to take place through understanding of human growth and development.

(e) To reduce strain between parent and child in order to prevent abuse, neglect, or exploitation.

(f) To enhance the cognitive development of children, with particular emphasis upon those children who require special assistance, including bilingual capabilities to attain their full potential.

(g) To establish a framework for the expansion of child care and development services.

(h) To empower and encourage parents and families of children who require child care services to take responsibility to review the safety of the child care program or facility and to evaluate the ability of the program or facility to meet the needs of the child.

SEC. 5. Section 8203.5 of the Education Code is amended to read:

8203.5. (a) The Superintendent shall ensure that each contract entered into under this chapter to provide child care and development services, or to facilitate the provision of those services, provides support to the public school system of this state through the delivery of appropriate educational services to the children served pursuant to the contract.

(b) The Superintendent shall ensure that all contracts for child care and development programs include a requirement that each public or private provider maintain a developmental profile to appropriately identify the emotional, social, physical, and cognitive growth of each child served in order to promote the child's success in the public schools. To the extent possible, the department shall provide a developmental profile to all public and private providers using existing profile instruments that are most cost efficient. The provider of any program operated pursuant to a contract under

Section 8262 shall be responsible for maintaining developmental profiles upon entry through exit from a child development program.

(c) Notwithstanding any other provision of law, “moneys to be applied by the state,” as used in subdivision (b) of Section 8 of Article XVI of the California Constitution, includes funds appropriated for the Child Care and Development Service Act pursuant to Chapter 2 (commencing with Section 8200) of Part 6, whether or not those funds are allocated to school districts, as defined in Section 41302.5, or community college districts.

(d) This section is not subject to Part 34 (commencing with Section 62000).

(e) This section shall remain in effect only until July 1, 2011, and as of that date is repealed, unless a later enacted statute, that is enacted before July 1, 2011, deletes or extends that date.

SEC. 6. Section 8203.5 is added to the Education Code, to read:

8203.5. (a) The Superintendent shall ensure that each contract entered into under this chapter to provide child care and development services, or to facilitate the provision of those services, provides support to the public school system of this state through the delivery of appropriate educational services to the children served pursuant to the contract.

(b) The Superintendent shall ensure that all contracts for child care and development programs include a requirement that each public or private provider maintain a developmental profile to appropriately identify the emotional, social, physical, and cognitive growth of each child served in order to promote the child’s success in the public schools. To the extent possible, the department shall provide a developmental profile to all public and private providers using existing profile instruments that are most cost efficient. The provider of any program operated pursuant to a contract under Section 8262 shall be responsible for maintaining developmental profiles upon entry through exit from a child development program.

(c) This section is not subject to Part 34 (commencing with Section 62000) of Division 4 of Title 2.

(d) This section shall become operative on July 1, 2011.

SEC. 7. Section 8208 of the Education Code is amended to read:

8208. As used in this chapter:

(a) “Alternative payments” includes payments that are made by one child care agency to another agency or child care provider for the provision of child care and development services, and payments that are made by an agency to a parent for the parent’s purchase of child care and development services.

(b) “Alternative payment program” means a local government agency or nonprofit organization that has contracted with the department pursuant to Section 8220.1 to provide alternative payments and to provide support services to parents and providers.

(c) “Applicant or contracting agency” means a school district, community college district, college or university, county superintendent of schools, county, city, public agency, private nontax-exempt agency, private tax-exempt agency, or other entity that is authorized to establish, maintain,

or operate services pursuant to this chapter. Private agencies and parent cooperatives, duly licensed by law, shall receive the same consideration as any other authorized entity with no loss of parental decisionmaking prerogatives as consistent with the provisions of this chapter.

(d) “Assigned reimbursement rate” is that rate established by the contract with the agency and is derived by dividing the total dollar amount of the contract by the minimum child day of average daily enrollment level of service required.

(e) “Attendance” means the number of children present at a child care and development facility. “Attendance,” for the purposes of reimbursement, includes excused absences by children because of illness, quarantine, illness or quarantine of their parent, family emergency, or to spend time with a parent or other relative as required by a court of law or that is clearly in the best interest of the child.

(f) “Capital outlay” means the amount paid for the renovation and repair of child care and development facilities to comply with state and local health and safety standards, and the amount paid for the state purchase of relocatable child care and development facilities for lease to qualifying contracting agencies.

(g) “Caregiver” means a person who provides direct care, supervision, and guidance to children in a child care and development facility.

(h) “Child care and development facility” means any residence or building or part thereof in which child care and development services are provided.

(i) “Child care and development programs” means those programs that offer a full range of services for children from infancy to 13 years of age, for any part of a day, by a public or private agency, in centers and family child care homes. These programs include, but are not limited to, all of the following:

- (1) General child care and development.
- (2) Migrant child care and development.
- (3) Child care provided by the California School Age Families Education Program (Article 7.1 (commencing with Section 54740) of Chapter 9 of Part 29 of Division 4 of Title 2).
- (4) California state preschool program.
- (5) Resource and referral.
- (6) Child care and development services for children with exceptional needs.
- (7) Family child care home education network.
- (8) Alternative payment.
- (9) Schoolage community child care.
- (j) “Child care and development services” means those services designed to meet a wide variety of needs of children and their families, while their parents or guardians are working, in training, seeking employment, incapacitated, or in need of respite. These services may include direct care and supervision, instructional activities, resource and referral programs, and alternative payment arrangements.

(k) “Children at risk of abuse, neglect, or exploitation” means children who are so identified in a written referral from a legal, medical, or social service agency, or emergency shelter.

(l) “Children with exceptional needs” means either of the following:

(1) Infants and toddlers under three years of age who have been determined to be eligible for early intervention services pursuant to the California Early Intervention Services Act (Title 14 (commencing with Section 95000) of the Government Code) and its implementing regulations. These children include an infant or toddler with a developmental delay or established risk condition, or who is at high risk of having a substantial developmental disability, as defined in subdivision (a) of Section 95014 of the Government Code. These children shall have active individualized family service plans, shall be receiving early intervention services, and shall be children who require the special attention of adults in a child care setting.

(2) Children ages 3 to 21 years, inclusive, who have been determined to be eligible for special education and related services by an individualized education program team according to the special education requirements contained in Part 30 (commencing with Section 56000) of Division 4 of Title 2, and who meet eligibility criteria described in Section 56026 and, Article 2.5 (commencing with Section 56333) of Chapter 4 of Part 30 of Division 4 of Title 2, and Sections 3030 and 3031 of Title 5 of the California Code of Regulations. These children shall have an active individualized education program, shall be receiving early intervention services or appropriate special education and related services, and shall be children who require the special attention of adults in a child care setting. These children include children with mental retardation, hearing impairments (including deafness), speech or language impairments, visual impairments (including blindness), serious emotional disturbance (also referred to as emotional disturbance), orthopedic impairments, autism, traumatic brain injury, other health impairments, or specific learning disabilities, who need special education and related services consistent with Section 1401(3)(A) of Title 20 of the United States Code.

(m) “Closedown costs” means reimbursements for all approved activities associated with the closing of operations at the end of each growing season for migrant child development programs only.

(n) “Cost” includes, but is not limited to, expenditures that are related to the operation of child care and development programs. “Cost” may include a reasonable amount for state and local contributions to employee benefits, including approved retirement programs, agency administration, and any other reasonable program operational costs. “Cost” may also include amounts for licensable facilities in the community served by the program, including lease payments or depreciation, downpayments, and payments of principal and interest on loans incurred to acquire, rehabilitate, or construct licensable facilities, but these costs shall not exceed fair market rents existing in the community in which the facility is located. “Reasonable and necessary costs” are costs that, in nature and amount, do not exceed what an ordinary prudent person would incur in the conduct of a competitive business.

(o) “Elementary school,” as contained in former Section 425 of Title 20 of the United States Code (the National Defense Education Act of 1958, Public Law 85-864, as amended), includes early childhood education programs and all child development programs, for the purpose of the cancellation provisions of loans to students in institutions of higher learning.

(p) “Family child care home education network” means an entity organized under law that contracts with the department pursuant to Section 8245 to make payments to licensed family child care home providers and to provide educational and support services to those providers and to children and families eligible for state-subsidized child care and development services. A family child care home education network may also be referred to as a family child care home system.

(q) “Health services” include, but are not limited to, all of the following:

(1) Referral, whenever possible, to appropriate health care providers able to provide continuity of medical care.

(2) Health screening and health treatment, including a full range of immunization recorded on the appropriate state immunization form to the extent provided by the Medi-Cal Act (Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code) and the Child Health and Disability Prevention Program (Article 6 (commencing with Section 124025) of Chapter 3 of Part 2 of Division 106 of the Health and Safety Code), but only to the extent that ongoing care cannot be obtained utilizing community resources.

(3) Health education and training for children, parents, staff, and providers.

(4) Followup treatment through referral to appropriate health care agencies or individual health care professionals.

(r) “Higher educational institutions” means the Regents of the University of California, the Trustees of the California State University, the Board of Governors of the California Community Colleges, and the governing bodies of any accredited private nonprofit institution of postsecondary education.

(s) “Intergenerational staff” means persons of various generations.

(t) “Limited-English-speaking-proficient and non-English-speaking-proficient children” means children who are unable to benefit fully from an English-only child care and development program as a result of either of the following:

(1) Having used a language other than English when they first began to speak.

(2) Having a language other than English predominantly or exclusively spoken at home.

(u) “Parent” means a biological parent, stepparent, adoptive parent, foster parent, caretaker relative, or any other adult living with a child who has responsibility for the care and welfare of the child.

(v) “Program director” means a person who, pursuant to Sections 8244 and 8360.1, is qualified to serve as a program director.

(w) “Proprietary child care agency” means an organization or facility providing child care, which is operated for profit.

(x) “Resource and referral programs” means programs that provide information to parents, including referrals and coordination of community resources for parents and public or private providers of care. Services frequently include, but are not limited to: technical assistance for providers, toy-lending libraries, equipment-lending libraries, toy- and equipment-lending libraries, staff development programs, health and nutrition education, and referrals to social services.

(y) “Severely disabled children” are children with exceptional needs from birth to 21 years of age, inclusive, who require intensive instruction and training in programs serving pupils with the following profound disabilities: autism, blindness, deafness, severe orthopedic impairments, serious emotional disturbances, or severe mental retardation. “Severely disabled children” also include those individuals who would have been eligible for enrollment in a developmental center for handicapped pupils under Chapter 6 (commencing with Section 56800) of Part 30 of Division 4 of Title 2 as it read on January 1, 1980.

(z) “Short-term respite child care” means child care service to assist families whose children have been identified through written referral from a legal, medical, or social service agency, or emergency shelter as being neglected, abused, exploited, or homeless, or at risk of being neglected, abused, exploited, or homeless. Child care is provided for less than 24 hours per day in child care centers, treatment centers for abusive parents, family child care homes, or in the child’s own home.

(aa) (1) “Site supervisor” means a person who, regardless of his or her title, has operational program responsibility for a child care and development program at a single site. A site supervisor shall hold a permit issued by the Commission on Teacher Credentialing that authorizes supervision of a child care and development program operating in a single site. The Superintendent may waive the requirements of this subdivision if the Superintendent determines that the existence of compelling need is appropriately documented.

(2) For California state preschool programs, a site supervisor may qualify under any of the provisions in this subdivision, or may qualify by holding an administrative credential or an administrative services credential. A person who meets the qualifications of a program director under both Sections 8244 and 8360.1 is also qualified under this subdivision.

(ab) “Standard reimbursement rate” means that rate established by the Superintendent pursuant to Section 8265.

(ac) “Startup costs” means those expenses an agency incurs in the process of opening a new or additional facility prior to the full enrollment of children.

(ad) “California state preschool program” means part-day and full-day educational programs for low-income or otherwise disadvantaged three- and four-year-old children.

(ae) “Support services” means those services that, when combined with child care and development services, help promote the healthy physical, mental, social, and emotional growth of children. Support services include, but are not limited to: protective services, parent training, provider and staff

training, transportation, parent and child counseling, child development resource and referral services, and child placement counseling.

(af) “Teacher” means a person with the appropriate permit issued by the Commission on Teacher Credentialing who provides program supervision and instruction that includes supervision of a number of aides, volunteers, and groups of children.

(ag) “Underserved area” means a county or subcounty area, including, but not limited to, school districts, census tracts, or ZIP Code areas, where the ratio of publicly subsidized child care and development program services to the need for these services is low, as determined by the Superintendent.

(ah) “Workday” means the time that the parent requires temporary care for a child for any of the following reasons:

(1) To undertake training in preparation for a job.

(2) To undertake or retain a job.

(3) To undertake other activities that are essential to maintaining or improving the social and economic function of the family, are beneficial to the community, or are required because of health problems in the family.

(ai) “Three-year-old children” means children who will have their third birthday on or before December 2 of the fiscal year in which they are enrolled in a California state preschool program.

(aj) “Four-year-old children” means children who will have their fourth birthday on or before December 2 of the fiscal year in which they are enrolled in a California state preschool program.

(ak) “Local educational agency” means a school district, a county office of education, a community college district, or a school district on behalf of one or more schools within the school district.

SEC. 8. Section 8263.2 of the Education Code is amended to read:

8263.2. (a) Notwithstanding any other law, effective July 1, 2011, the department shall reduce the maximum reimbursable amounts of the contracts for the Preschool Education Program, the General Child Care Program, the Migrant Day Care Program, the Alternative Payment Program, the CalWORKs Stage 3 Program, and the Allowance for Handicapped Program by 11 percent or by whatever proportion is necessary to ensure that expenditures for these programs do not exceed the amounts appropriated for them, including any reductions made subsequent to the adoption of the annual Budget Act. The department may consider the contractor’s performance or whether the contractor serves children in underserved areas as defined in subdivision (ag) of Section 8208 when determining contract reductions, provided that the aggregate reduction to each program specified in this subdivision is 11 percent or by whatever proportion is necessary to ensure that expenditures for these programs do not exceed the amounts appropriated for them, including any reductions made subsequent to the adoption of the annual Budget Act.

(b) Notwithstanding any other law, effective July 1, 2011, families shall be disenrolled from subsidized child care services, consistent with the priorities for services specified in subdivision (b) of Section 8263. Families shall be disenrolled in the following order:

(1) Families whose income exceeds 70 percent of the state median income (SMI) adjusted for family size, except for families whose children are receiving child protective services or are at risk of being neglected or abused.

(2) Families with the highest income below 70 percent of the SMI, in relation to family size.

(3) Families that have the same income and have been enrolled in child care services the longest.

(4) Families that have the same income and have a child with exceptional needs.

(5) Families whose children are receiving child protective services or are at risk of being neglected or abused, regardless of family income.

SEC. 9. Section 8263.4 of the Education Code is amended to read:

8263.4. (a) The preferred placement for children who are 11 or 12 years of age and who are otherwise eligible for subsidized child care and development services shall be in a before or after school program.

(b) Children who are 11 or 12 years of age shall be eligible for subsidized child care services only for the portion of care needed that is not available in a before or after school program provided pursuant to Article 22.5 (commencing with Section 8482) or Article 22.6 (commencing with Section 8484.7). Contractors shall provide each family of an eligible 11 or 12 year old with the option of combining care provided in a before or after school program with subsidized child care in another setting, for those hours within a day when the before or after school program does not operate, in order to meet the child care needs of the family.

(c) Children who are 11 or 12 years of age, who are eligible for and who are receiving subsidized child care services, and for whom a before or after school program is not available, shall continue to receive subsidized child care services.

(d) A before or after school program shall be considered not available when a parent certifies in writing, on a form provided by the department that is translated into the parent's primary language pursuant to Sections 7295.4 and 7296.2 of the Government Code, the reason or reasons why the program would not meet the child care needs of the family. The reasons why a before or after school program shall be considered not available shall include, but not be limited to, any of the following:

(1) The program does not provide services when needed during the year, such as during the summer, school breaks, or intersession.

(2) The program does not provide services when needed during the day, such as in the early morning, evening, or weekend hours.

(3) The program is too geographically distant from the child's school of attendance.

(4) The program is too geographically distant from the parents' residence.

(5) Use of the program would create substantial transportation obstacles for the family.

(6) Any other reason that makes the use of before or after school care inappropriate for the child or burdensome on the family.

(e) If an 11 or 12 year old child who is enrolled in a subsidized child development program becomes ineligible for subsidized child care under subdivision (b) and is disenrolled from the before or after school program, or if the before or after school program no longer meets the child care needs of the family, the child shall be given priority to return to the subsidized child care services upon the parent's notification of the contractor of the need for child care.

(f) This section does not apply to an 11 or 12 year old child with a disability, including a child with exceptional needs who has an individualized education program as required by the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.), Section 504 of the federal Rehabilitation Act of 1973 (29 U.S.C. Sec. 794), or Part 30 (commencing with Section 56000) of Division 4 of Title 2.

(g) The savings generated each contract year by the implementation of the changes made to this section by the act amending this section during the 2005–06 Regular Session shall remain with each alternative payment program, child development center, or other contractor for the provision of child care services, except for care provided by programs pursuant to Article 15.5 (commencing with Section 8350). Each contractor shall report annually to the department the amount of savings resulting from this implementation, and the department shall report annually to the Legislature the amount of savings statewide resulting from that implementation.

SEC. 10. Section 8447 of the Education Code is amended to read:

8447. (a) The Legislature hereby finds and declares that greater efficiencies may be achieved in the execution of state subsidized child care and development program contracts with public and private agencies by the timely approval of contract provisions by the Department of Finance, the Department of General Services, and the State Department of Education and by authorizing the State Department of Education to establish a multiyear application, contract expenditure, and service review as may be necessary to provide timely service while preserving audit and oversight functions to protect the public welfare.

(b) (1) The Department of Finance and the Department of General Services shall approve or disapprove annual contract funding terms and conditions, including both family fee schedules and regional market rate schedules that are required to be adhered to by contract, and contract face sheets submitted by the State Department of Education not more than 30 working days from the date of submission, unless unresolved conflicts remain between the Department of Finance, the State Department of Education, and the Department of General Services. The State Department of Education shall resolve conflicts within an additional 30 working day time period. Contracts and funding terms and conditions shall be issued to child care contractors no later than June 1. Applications for new child care funding shall be issued not more than 45 working days after the effective date of authorized new allocations of child care moneys.

(2) Notwithstanding paragraph (1), the State Department of Education shall implement the regional market rate schedules based upon the county

aggregates, as determined by the Regional Market survey conducted in 2005.

(3) Notwithstanding paragraph (1), for the 2006–07 fiscal year, the State Department of Education shall update the family fee schedules by family size, based on the 2005 state median income survey data for a family of four. The family fee schedule used during the 2005–06 fiscal year shall remain in effect. However, the department shall adjust the family fee schedule for families that are newly eligible to receive or will continue to receive services under the new income eligibility limits. The family fees shall not exceed 10 percent of the family’s monthly income.

(4) Notwithstanding any other law, the family fee schedule that was in effect for the 2007–08, 2008–09, 2009–10, and 2010–11 fiscal years shall be adjusted to reflect the income eligibility limits specified in subdivision (b) of Section 8263.1 for the 2011–12 fiscal year, and shall retain a flat fee per family. The revised family fee schedule shall begin at income levels at which families currently begin paying fees. The revised family fees shall not exceed 10 percent of the family’s monthly income. The State Department of Education shall first submit the adjusted fee schedule to the Department of Finance for approval in order to be implemented by July 1, 2011.

(5) It is the intent of the Legislature to fully fund the third stage of child care for former CalWORKs recipients.

(c) With respect to subdivision (b), it is the intent of the Legislature that the Department of Finance annually review contract funding terms and conditions for the primary purpose of ensuring consistency between child care contracts and the child care budget. This review shall include evaluating any proposed changes to contract language or other fiscal documents to which the contractor is required to adhere, including those changes to terms or conditions that authorize higher reimbursement rates, that modify related adjustment factors, that modify administrative or other service allowances, or that diminish fee revenues otherwise available for services, to determine if the change is necessary or has the potential effect of reducing the number of full-time equivalent children that may be served.

(d) Alternative payment child care systems, as set forth in Article 3 (commencing with Section 8220), shall be subject to the rates established in the Regional Market Rate Survey of California Child Care Providers for provider payments. The State Department of Education shall contract to conduct and complete a Regional Market Rate Survey no more frequently than once every two years, consistent with federal regulations, with a goal of completion by March 1.

(e) By March 1 of each year, the Department of Finance shall provide to the State Department of Education the State Median Income amount for a four-person household in California based on the best available data. The State Department of Education shall adjust its fee schedule for child care providers to reflect this updated state median income; however, no changes based on revisions to the state median income amount shall be implemented midyear.

(f) Notwithstanding the June 1 date specified in subdivision (b), changes to the regional market rate schedules and fee schedules may be made at any other time to reflect the availability of accurate data necessary for their completion, provided these documents receive the approval of the Department of Finance. The Department of Finance shall review the changes within 30 working days of submission and the State Department of Education shall resolve conflicts within an additional 30 working day period. Contractors shall be given adequate notice prior to the effective date of the approved schedules. It is the intent of the Legislature that contracts for services not be delayed by the timing of the availability of accurate data needed to update these schedules.

(g) Notwithstanding any other provision of law, no family receiving CalWORKs cash aid may be charged a family fee.

SEC. 11. Section 8499 of the Education Code is amended to read:

8499. For purposes of this chapter, the following definitions shall apply:

(a) “Block grant” means the block grant contained in Title VI of the Child Care and Development Fund, as established by the federal Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (P.L. 104-193).

(b) “Child care” means all licensed child care and development services and license-exempt child care, including, but not limited to, private for-profit programs, nonprofit programs, and publicly funded programs, for all children up to and including 12 years of age, including children with exceptional needs and children from all linguistic and cultural backgrounds.

(c) “Child care provider” means a person who provides child care services or represents persons who provide child care services.

(d) “Community representative” means a person who represents an agency or business that provides private funding for child care services, or who advocates for child care services through participation in civic or community-based organizations but is not a child care provider and does not represent an agency that contracts with the State Department of Education to provide child care and development services.

(e) “Consumer” means a parent or person who receives, or who has received within the past 36 months, child care services.

(f) “Department” means the State Department of Education.

(g) “Local planning council” means a local child care and development planning council as described in Section 8499.3.

(h) “Public agency representative” means a person who represents a city, county, city and county, or local educational agency.

SEC. 12. Section 41202 of the Education Code is amended to read:

41202. The words and phrases set forth in subdivision (b) of Section 8 of Article XVI of the Constitution of the State of California shall have the following meanings:

(a) “Moneys to be applied by the State,” as used in subdivision (b) of Section 8 of Article XVI of the California Constitution, means appropriations from the General Fund that are made for allocation to school districts, as defined, or community college districts. An appropriation that is withheld,

impounded, or made without provisions for its allocation to school districts or community college districts, shall not be considered to be “moneys to be applied by the State.”

(b) “General Fund revenues which may be appropriated pursuant to Article XIII B,” as used in paragraph (1) of subdivision (b) of Section 8 of Article XVI, means General Fund revenues that are the proceeds of taxes as defined by subdivision (c) of Section 8 of Article XIII B of the California Constitution, including, for the 1986–87 fiscal year only, any revenues that are determined to be in excess of the appropriations limit established pursuant to Article XIII B for the fiscal year in which they are received. General Fund revenues for a fiscal year to which paragraph (1) of subdivision (b) is being applied shall include, in that computation, only General Fund revenues for that fiscal year that are the proceeds of taxes, as defined in subdivision (c) of Section 8 of Article XIII B of the California Constitution, and shall not include prior fiscal year revenues. Commencing with the 1995–96 fiscal year, and each fiscal year thereafter, “General Fund revenues that are the proceeds of taxes,” as defined in subdivision (c) of Section 8 of Article XIII B of the California Constitution, includes any portion of the proceeds of taxes received from the state sales tax that are transferred to the counties pursuant to, and only if, legislation is enacted during the 1995–96 fiscal year the purpose of which is to realign children’s programs. The amount of the proceeds of taxes shall be computed for any fiscal year in a manner consistent with the manner in which the amount of the proceeds of taxes was computed by the Department of Finance for purposes of the Governor’s Budget for the Budget Act of 1986.

(c) “General Fund revenues appropriated for school districts,” as used in paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means the sum of appropriations made that are for allocation to school districts, as defined in Section 41302.5, regardless of whether those appropriations were made from the General Fund to the Superintendent of Public Instruction, to the Controller, or to any other fund or state agency for the purpose of allocation to school districts. The full amount of any appropriation shall be included in the calculation of the percentage required by paragraph (1) of subdivision (b) of Article XVI, without regard to any unexpended balance of any appropriation. Any reappropriation of funds appropriated in any prior year shall not be included in the sum of appropriations.

(d) “General Fund revenues appropriated for community college districts,” as used in paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means the sum of appropriations made that are for allocation to community college districts, regardless of whether those appropriations were made from the General Fund to the Controller, to the Chancellor of the California Community Colleges, or to any other fund or state agency for the purpose of allocation to community college districts. The full amount of any appropriation shall be included in the calculation of the percentage required by paragraph (1) of subdivision (b) of Article XVI, without regard to any unexpended balance of any appropriation. Any

reappropriation of funds appropriated in any prior year shall not be included in the sum of appropriations.

(e) “Total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B,” as used in paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means the sum of appropriations made that are for allocation to school districts, as defined in Section 41302.5, and community college districts, regardless of whether those appropriations were made from the General Fund to the Controller, to the Superintendent of Public Instruction, to the Chancellor of the California Community Colleges, or to any other fund or state agency for the purpose of allocation to school districts and community college districts. The full amount of any appropriation shall be included in the calculation of the percentage required by paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI, without regard to any unexpended balance of any appropriation. Any reappropriation of funds appropriated in any prior year shall not be included in the sum of appropriations.

(f) “General Fund revenues appropriated for school districts and community college districts, respectively” and “moneys to be applied by the state for the support of school districts and community college districts,” as used in Section 8 of Article XVI of the California Constitution, shall include funds appropriated for the Child Care and Development Services Act pursuant to Chapter 2 (commencing with Section 8200) of Part 6 and shall not include any of the following:

(1) Any appropriation that is not made for allocation to a school district, as defined in Section 41302.5, or to a community college district regardless of whether the appropriation is made for any purpose that may be considered to be for the benefit to a school district, as defined in Section 41302.5, or a community college district. This paragraph shall not be construed to exclude any funding appropriated for the Child Care and Development Services Act pursuant to Chapter 2 (commencing with Section 8200) of Part 6.

(2) Any appropriation made to the Teachers’ Retirement Fund or to the Public Employees’ Retirement Fund except those appropriations for reimbursable state mandates imposed on or before January 1, 1988.

(3) Any appropriation made to service any public debt approved by the voters of this state.

(g) “Allocated local proceeds of taxes,” as used in paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means, for school districts as defined, those local revenues, except revenues identified pursuant to paragraph (5) of subdivision (h) of Section 42238, that are used to offset state aid for school districts in calculations performed pursuant to Sections 2558, 42238, and Chapter 7.2 (commencing with Section 56836) of Part 30.

(h) “Allocated local proceeds of taxes,” as used in paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means, for community college districts, those local revenues that are used to offset state aid for community college districts in calculations performed

pursuant to Section 84700. In no event shall the revenues or receipts derived from student fees be considered “allocated local proceeds of taxes.”

(i) For the purposes of calculating the 4 percent entitlement pursuant to subdivision (a) of Section 8.5 of Article XVI of the California Constitution, “the total amount required pursuant to Section 8(b)” shall mean the General Fund aid required for schools pursuant to subdivision (b) of Section 8 of Article XVI of the California Constitution, and shall not include allocated local proceeds of taxes.

(j) This section shall remain in effect only until July 1, 2011, and as of that date is repealed, unless a later enacted statute, that is enacted before July 1, 2011, deletes or extends that date.

SEC. 13. Section 41202 is added to the Education Code, to read:

41202. The words and phrases set forth in subdivision (b) of Section 8 of Article XVI of the Constitution of the State of California shall have the following meanings:

(a) “Moneys to be applied by the State,” as used in subdivision (b) of Section 8 of Article XVI of the California Constitution, means appropriations from the General Fund that are made for allocation to school districts, as defined, or community college districts. An appropriation that is withheld, impounded, or made without provisions for its allocation to school districts or community college districts, shall not be considered to be “moneys to be applied by the State.”

(b) “General Fund revenues which may be appropriated pursuant to Article XIII B,” as used in paragraph (1) of subdivision (b) of Section 8 of Article XVI, means General Fund revenues that are the proceeds of taxes as defined by subdivision (c) of Section 8 of Article XIII B of the California Constitution, including, for the 1986–87 fiscal year only, any revenues that are determined to be in excess of the appropriations limit established pursuant to Article XIII B for the fiscal year in which they are received. General Fund revenues for a fiscal year to which paragraph (1) of subdivision (b) is being applied shall include, in that computation, only General Fund revenues for that fiscal year that are the proceeds of taxes, as defined in subdivision (c) of Section 8 of Article XIII B of the California Constitution, and shall not include prior fiscal year revenues. Commencing with the 1995–96 fiscal year, and each fiscal year thereafter, “General Fund revenues that are the proceeds of taxes,” as defined in subdivision (c) of Section 8 of Article XIII B of the California Constitution, includes any portion of the proceeds of taxes received from the state sales tax that are transferred to the counties pursuant to, and only if, legislation is enacted during the 1995–96 fiscal year the purpose of which is to realign children’s programs. The amount of the proceeds of taxes shall be computed for any fiscal year in a manner consistent with the manner in which the amount of the proceeds of taxes was computed by the Department of Finance for purposes of the Governor’s Budget for the Budget Act of 1986.

(c) “General Fund revenues appropriated for school districts,” as used in paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means the sum of appropriations made that are for

allocation to school districts, as defined in Section 41302.5, regardless of whether those appropriations were made from the General Fund to the Superintendent, to the Controller, or to any other fund or state agency for the purpose of allocation to school districts. The full amount of any appropriation shall be included in the calculation of the percentage required by paragraph (1) of subdivision (b) of Article XVI, without regard to any unexpended balance of any appropriation. Any reappropriation of funds appropriated in any prior year shall not be included in the sum of appropriations.

(d) “General Fund revenues appropriated for community college districts,” as used in paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means the sum of appropriations made that are for allocation to community college districts, regardless of whether those appropriations were made from the General Fund to the Controller, to the Chancellor of the California Community Colleges, or to any other fund or state agency for the purpose of allocation to community college districts. The full amount of any appropriation shall be included in the calculation of the percentage required by paragraph (1) of subdivision (b) of Article XVI, without regard to any unexpended balance of any appropriation. Any reappropriation of funds appropriated in any prior year shall not be included in the sum of appropriations.

(e) “Total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B,” as used in paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means the sum of appropriations made that are for allocation to school districts, as defined in Section 41302.5, and community college districts, regardless of whether those appropriations were made from the General Fund to the Controller, to the Superintendent, to the Chancellor of the California Community Colleges, or to any other fund or state agency for the purpose of allocation to school districts and community college districts. The full amount of any appropriation shall be included in the calculation of the percentage required by paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI, without regard to any unexpended balance of any appropriation. Any reappropriation of funds appropriated in any prior year shall not be included in the sum of appropriations.

(f) “General Fund revenues appropriated for school districts and community college districts, respectively” and “moneys to be applied by the state for the support of school districts and community college districts,” as used in Section 8 of Article XVI of the California Constitution, shall include funds appropriated for part-day California state preschool programs under Article 7 (commencing with Section 8235) of Chapter 2 of Part 6 of Division 1 of Title 1, and the After School Education and Safety Program established pursuant to Article 22.5 (commencing with Section 8482) of Chapter 2 of Part 6 of Division 1 of Title 1, and shall not include any of the following:

(1) Any appropriation that is not made for allocation to a school district, as defined in Section 41302.5, or to a community college district, regardless of whether the appropriation is made for any purpose that may be considered to be for the benefit to a school district, as defined in Section 41302.5, or a community college district. This paragraph shall not be construed to exclude any funding appropriated for part-day California state preschool programs under Article 7 (commencing with Section 8235) of Chapter 2 of Part 6 of Division 1 of Title 1 or the After School Education and Safety Program established pursuant to Article 22.5 (commencing with Section 8482) of Chapter 2 of Part 6 of Division 1 of Title 1.

(2) Any appropriation made to the Teachers' Retirement Fund or to the Public Employees' Retirement Fund except those appropriations for reimbursable state mandates imposed on or before January 1, 1988.

(3) Any appropriation made to service any public debt approved by the voters of this state.

(4) With the exception of the programs identified in paragraph (1), commencing with the 2011–12 fiscal year, any funds appropriated for the Child Care and Development Services Act, pursuant to Chapter 2 (commencing with Section 8200) of Part 6 of Division 1 of Title 1.

(g) "Allocated local proceeds of taxes," as used in paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means, for school districts as defined, those local revenues, except revenues identified pursuant to paragraph (5) of subdivision (h) of Section 42238, that are used to offset state aid for school districts in calculations performed pursuant to Sections 2558, 42238, and Chapter 7.2 (commencing with Section 56836) of Part 30.

(h) "Allocated local proceeds of taxes," as used in paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution, means, for community college districts, those local revenues that are used to offset state aid for community college districts in calculations performed pursuant to Section 84700. In no event shall the revenues or receipts derived from student fees be considered "allocated local proceeds of taxes."

(i) For purposes of calculating the 4-percent entitlement pursuant to subdivision (a) of Section 8.5 of Article XVI of the California Constitution, "the total amount required pursuant to Section 8(b)" shall mean the General Fund aid required for schools pursuant to subdivision (b) of Section 8 of Article XVI of the California Constitution, and shall not include allocated local proceeds of taxes.

(j) This section shall become operative on July 1, 2011.

SEC. 14. Section 41202.5 is added to the Education Code, to read:

41202.5. (a) The finds and declares as follows:

(1) The Legislature acted to implement Proposition 98 soon after its passage by defining "total allocations to school districts and community college districts from General Fund proceeds of taxes" to include the entirety of programs funded under the Child Care and Development Services Act (Chapter 2 (commencing with Section 8200) of Part 6 of Division 1 of Title 1).

(2) In *California Teachers Assn. v. Hayes* (1992) 5 Cal.App.4th 1513, the Court of Appeal permitted the inclusion of child care within the Proposition 98 minimum funding guarantee but left open the possibility of excluding particular child care programs that did not directly advance and support the educational mission of school districts.

(b) It is the intent of the Legislature to clarify that the part-time state preschool programs and the After School Education and Safety Program fall within the Proposition 98 guarantee and to fund other child care programs less directly associated with school districts from appropriations that do not count toward the Proposition 98 minimum guarantee.

(c) Notwithstanding any other provision of law, for purposes of making the computations required by subdivision (b) of Section 8 of Article XVI of the California Constitution in the 2011–12 fiscal year and each subsequent fiscal year, both of the following apply:

(1) For purposes of paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution, the term “General Fund revenues appropriated for school districts and community college districts, respectively, in fiscal year 1986–87” does not include General Fund revenues appropriated for any program within Chapter 2 (commencing with Section 8200) of Part 6 of Division 1 of Title 1, with the exception of the part-day California state preschool programs set forth in Article 7 (commencing with Section 8235) and the After School Education and Safety Program in Article 22.5 (commencing with Section 8482). The Director of Finance shall adjust accordingly “the percentage of General Fund revenues appropriated for school districts and community college districts, respectively, in fiscal year 1986–87,” for purposes of applying that percentage in the 2011–12 fiscal year and each subsequent fiscal year in making the calculations required under paragraph (1) of subdivision (b) of Section 8 of Article XVI of the California Constitution.

(2) General Fund revenues appropriated in the 2010–11 fiscal year or any subsequent fiscal year for any program within Chapter 2 (commencing with Section 8200) of Part 6 of Division 1 of Title 1, with the exception of the part-day California state preschool programs set forth in Article 7 (commencing with Section 8235) and the After School Education and Safety Program in Article 22.5 (commencing with Section 8482), are not included within the “total allocations to school districts and community college districts from General Fund proceeds of taxes appropriated pursuant to Article XIII B” for purposes of paragraph (2) or (3) of subdivision (b) of Section 8 of Article XVI of the California Constitution.

SEC. 15. Section 41210 is added to the Education Code, to read:

41210. (a) The revenues transferred pursuant to Section 6015.15 and 6201.15 of the Revenue and Taxation Code are not “General Fund revenues” as that term is used in Section 8 of Article XVI of the California Constitution.

(b) This section shall be operative for the 2011–12 fiscal year and subsequent years so long as one or more ballot measures approved before November 17, 2012, authorize the determination in subdivision (a) and provide funding for school districts and community college districts in an

amount equal to that which would have been provided if the revenues referenced in subdivision (a) were General Fund revenues for purposes of Section 8 of Article XVI of the California Constitution.

SEC. 16. Section 41211 is added to the Education Code, to read:

41211. The following shall apply if Section 41210 is rendered inoperative because the ballot measure or measures described in subdivision (b) of that section are not approved:

(a) Before December 17, 2012, the Director of Finance, in consultation with the Superintendent, shall determine the amount of funding that would have been provided in the 2011–12 fiscal year to school districts and community college districts if the revenues described in subdivision (a) of Section 41210 were General Fund revenues for purposes of Section 8 of Article XVI of the California Constitution.

(b) For each of the 2012–13 to 2016–17, inclusive, fiscal years, 17.8 percent of the amount determined in subdivision (a) is appropriated from the General Fund to the Superintendent and shall be distributed in the following priority:

- (1) To reduce amounts deferred under Section 14041.6.
- (2) To repay obligations to school districts and county offices of education under Section 6 of Article XIII B of the California Constitution.
- (3) To use for other one-time purposes as provided by statute enacted after the effective date of this section.

(c) For each of the 2012–13 to 2016–17, inclusive, fiscal years, 2.2 percent of the amount determined in subdivision (a) is appropriated from the General Fund to the Chancellor of the California Community Colleges and shall be distributed in the following priority:

- (1) To reduce amounts deferred under Section 84321.6.
- (2) To repay obligations to community college districts under Section 6 of Article XIII B of the California Constitution.
- (3) To use for other one-time purposes as provided by statute enacted after the effective date of this section.

(d) For the 2011–12 fiscal year and subsequent fiscal years, the computations required by Section 8 of Article XVI of the California Constitution shall include the amount determined in subdivision (a).

SEC. 17. Section 42127 of the Education Code is amended to read:

42127. (a) On or before July 1 of each year, the governing board of each school district shall accomplish the following:

- (1) Hold a public hearing on the budget to be adopted for the subsequent fiscal year. The budget to be adopted shall be prepared in accordance with Section 42126. The agenda for that hearing shall be posted at least 72 hours prior to the public hearing and shall include the location where the budget will be available for public inspection.

(A) For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, each school district budget shall project the same level of revenue per unit of average daily attendance as it received in the 2010–11 fiscal year and shall maintain staffing and program levels commensurate with that level.

(B) For the 2011–12 fiscal year, the school district shall not be required to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(2) Adopt a budget. Not later than five days after that adoption or by July 1, whichever occurs first, the governing board shall file that budget with the county superintendent of schools. That budget and supporting data shall be maintained and made available for public review. If the governing board of the district does not want all or a portion of the property tax requirement levied for the purpose of making payments for the interest and redemption charges on indebtedness as described in paragraph (1) or (2) of subdivision (b) of Section 1 of Article XIII A of the California Constitution, the budget shall include a statement of the amount or portion for which a levy shall not be made.

(b) The county superintendent of schools may accept changes in any statement included in the budget, pursuant to subdivision (a), of the amount or portion for which a property tax levy shall not be made. The county superintendent or the county auditor shall compute the actual amounts to be levied on the property tax rolls of the district for purposes that exceed apportionments to the district pursuant to Chapter 6 (commencing with Section 95) of Part 0.5 of Division 1 of the Revenue and Taxation Code. Each school district shall provide all data needed by the county superintendent or the county auditor to compute the amounts. On or before August 15, the county superintendent shall transmit the amounts computed to the county auditor who shall compute the tax rates necessary to produce the amounts. On or before September 1, the county auditor shall submit the rate computed to the board of supervisors for adoption.

(c) The county superintendent of schools shall do all of the following:

(1) Examine the adopted budget to determine whether it complies with the standards and criteria adopted by the state board pursuant to Section 33127 for application to final local educational agency budgets. The county superintendent shall identify, if necessary, any technical corrections that are required to be made to bring the budget into compliance with those standards and criteria.

(2) Determine whether the adopted budget will allow the district to meet its financial obligations during the fiscal year and is consistent with a financial plan that will enable the district to satisfy its multiyear financial commitments. In addition to his or her own analysis of the budget of each school district, the county superintendent of schools shall review and consider studies, reports, evaluations, or audits of the school district that were commissioned by the district, the county superintendent, the Superintendent, and state control agencies and that contain evidence that the school district is showing fiscal distress under the standards and criteria adopted in Section 33127 or that contain a finding by an external reviewer that more than three of the 15 most common predictors of a school district needing intervention, as determined by the County Office Fiscal Crisis and Management Assistance Team, are present. The county superintendent of schools shall either conditionally approve or disapprove a budget that does

not provide adequate assurance that the district will meet its current and future obligations and resolve any problems identified in studies, reports, evaluations, or audits described in this paragraph.

(d) On or before August 15, the county superintendent of schools shall approve, conditionally approve, or disapprove the adopted budget for each school district. If a school district does not submit a budget to the county superintendent of schools, the county superintendent of schools shall, at district expense, develop a budget for that school district by September 15 and transmit that budget to the governing board of the school district. The budget prepared by the county superintendent of schools shall be deemed adopted, unless the county superintendent of schools approves any modifications made by the governing board of the school district. The approved budget shall be used as a guide for the district's priorities. The Superintendent shall review and certify the budget approved by the county. If, pursuant to the review conducted pursuant to subdivision (c), the county superintendent of schools determines that the adopted budget for a school district does not satisfy paragraph (1) or (2) of that subdivision, he or she shall conditionally approve or disapprove the budget and, not later than August 15, transmit to the governing board of the school district, in writing, his or her recommendations regarding revision of the budget and the reasons for those recommendations, including, but not limited to, the amounts of any budget adjustments needed before he or she can conditionally approve that budget. The county superintendent of schools may assign a fiscal adviser to assist the district to develop a budget in compliance with those revisions. In addition, the county superintendent of schools may appoint a committee to examine and comment on the superintendent's review and recommendations, subject to the requirement that the committee report its findings to the superintendent no later than August 20. For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, the county superintendent, as a condition on approval of a school district budget, shall not require a school district to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the school district to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(e) On or before September 8, the governing board of the school district shall revise the adopted budget to reflect changes in projected income or expenditures subsequent to July 1, and to include any response to the recommendations of the county superintendent of schools, shall adopt the revised budget, and shall file the revised budget with the county superintendent of schools. Prior to revising the budget, the governing board shall hold a public hearing regarding the proposed revisions, to be conducted in accordance with Section 42103. In addition, if the adopted budget is disapproved pursuant to subdivision (d), the governing board and the county superintendent of schools shall review the disapproval and the recommendations of the county superintendent of schools regarding revision

of the budget at the public hearing. The revised budget and supporting data shall be maintained and made available for public review.

(1) For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, each school district budget shall project the same level of revenue per unit of average daily attendance as it received in the 2010–11 fiscal year and shall maintain staffing and program levels commensurate with that level.

(2) For the 2011–12 fiscal year, the school district shall not be required to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(f) On or before September 22, the county superintendent of schools shall provide a list to the Superintendent identifying all school districts for which budgets may be disapproved.

(g) The county superintendent of schools shall examine the revised budget to determine whether it (1) complies with the standards and criteria adopted by the state board pursuant to Section 33127 for application to final local educational agency budgets, (2) allows the district to meet its financial obligations during the fiscal year, (3) satisfies all conditions established by the county superintendent of schools in the case of a conditionally approved budget, and (4) is consistent with a financial plan that will enable the district to satisfy its multiyear financial commitments, and, not later than October 8, shall approve or disapprove the revised budget. If the county superintendent of schools disapproves the budget, he or she shall call for the formation of a budget review committee pursuant to Section 42127.1, unless the governing board of the school district and the county superintendent of schools agree to waive the requirement that a budget review committee be formed and the department approves the waiver after determining that a budget review committee is not necessary. Upon the grant of a waiver, the county superintendent immediately has the authority and responsibility provided in Section 42127.3. Upon approving a waiver of the budget review committee, the department shall ensure that a balanced budget is adopted for the school district by November 30. If no budget is adopted by November 30, the Superintendent may adopt a budget for the school district. The Superintendent shall report to the Legislature and the Director of Finance by December 10 if any district, including a district that has received a waiver of the budget review committee process, does not have an adopted budget by November 30. This report shall include the reasons why a budget has not been adopted by the deadline, the steps being taken to finalize budget adoption, the date the adopted budget is anticipated, and whether the Superintendent has or will exercise his or her authority to adopt a budget for the school district. For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, the county superintendent, as a condition on approval of a school district budget, shall not require a school district to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the school district to

demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(h) Not later than October 8, the county superintendent of schools shall submit a report to the Superintendent identifying all school districts for which budgets have been disapproved or budget review committees waived. The report shall include a copy of the written response transmitted to each of those districts pursuant to subdivision (d).

(i) Notwithstanding any other provision of this section, the budget review for a school district shall be governed by paragraphs (1), (2), and (3) of this subdivision, rather than by subdivisions (e) and (g), if the governing board of the school district so elects and notifies the county superintendent in writing of that decision, not later than October 31 of the immediately preceding calendar year. On or before July 1, the governing board of a school district for which the budget review is governed by this subdivision, rather than by subdivisions (e) and (g), shall conduct a public hearing regarding its proposed budget in accordance with Section 42103.

(1) If the adopted budget of a school district is disapproved pursuant to subdivision (d), on or before September 8, the governing board of the school district, in conjunction with the county superintendent of schools, shall review the superintendent's recommendations at a regular meeting of the governing board and respond to those recommendations. The response shall include any revisions to the adopted budget and other proposed actions to be taken, if any, as a result of those recommendations.

(2) On or before September 22, the county superintendent of schools will provide a list to the Superintendent identifying all school districts for which a budget may be tentatively disapproved.

(3) Not later than October 8, after receiving the response required under paragraph (1), the county superintendent of schools shall review that response and either approve or disapprove the budget. If the county superintendent of schools disapproves the budget, he or she shall call for the formation of a budget review committee pursuant to Section 42127.1, unless the governing board of the school district and the county superintendent of schools agree to waive the requirement that a budget review committee be formed and the department approves the waiver after determining that a budget review committee is not necessary. Upon the grant of a waiver, the county superintendent has the authority and responsibility provided to a budget review committee in Section 42127.3. Upon approving a waiver of the budget review committee, the department shall ensure that a balanced budget is adopted for the school district by November 30. The Superintendent shall report to the Legislature and the Director of Finance by December 10 if any district, including a district that has received a waiver of the budget review committee process, does not have an adopted budget by November 30. This report shall include the reasons why a budget has not been adopted by the deadline, the steps being taken to finalize budget adoption, and the date the adopted budget is anticipated. For the 2011–12 fiscal year, notwithstanding any of the standards and criteria adopted by the state board pursuant to Section 33127, the county superintendent, as a condition on approval of a

school district budget, shall not require a school district to project a lower level of revenue per unit of average daily attendance than it received in the 2010–11 fiscal year nor require the school district to demonstrate that it is able to meet its financial obligations for the two subsequent fiscal years.

(4) Not later than 45 days after the Governor signs the annual Budget Act, the school district shall make available for public review any revisions in revenues and expenditures that it has made to its budget to reflect the funding made available by that Budget Act.

(j) Any school district for which the county board of education serves as the governing board is not subject to subdivisions (c) to (h), inclusive, but is governed instead by the budget procedures set forth in Section 1622.

SEC. 18. Section 42238.146 of the Education Code is amended to read:

42238.146. (a) (1) For the 2003–04 fiscal year, the revenue limit for each school district determined pursuant to this article shall be reduced by a 1.198 percent deficit factor.

(2) For the 2004–05 fiscal year, the revenue limit for each school district determined pursuant to this article shall be reduced by a 0.323 percent deficit factor.

(3) For the 2003–04 and 2004–05 fiscal years, the revenue limit for each school district determined pursuant to this article shall be further reduced by a 1.826 percent deficit factor.

(4) For the 2005–06 fiscal year, the revenue limit for each school district determined pursuant to this article shall be reduced by a 0.892 percent deficit factor.

(5) For the 2008–09 fiscal year, the revenue limit for each school district determined pursuant to this article shall be reduced by a 7.844 percent deficit factor.

(6) For the 2009–10 fiscal year, the revenue limit for each school district determined pursuant to this article shall be reduced by a 18.355 percent deficit factor.

(7) For the 2010–11 fiscal year, the revenue limit for each school district determined pursuant to this article shall be reduced by a 17.963 percent deficit factor.

(8) For the 2011–12 fiscal year, the revenue limit for each school district determined pursuant to this article shall be reduced by a 19.754 percent deficit factor.

(b) In computing the revenue limit for each school district for the 2006–07 fiscal year pursuant to this article, the revenue limit shall be determined as if the revenue limit for that school district had been determined for the 2003–04, 2004–05, and 2005–06 fiscal years without being reduced by the deficit factors specified in subdivision (a).

(c) In computing the revenue limit for each school district for the 2010–11 fiscal year pursuant to this article, the revenue limit shall be determined as if the revenue limit for that school district had been determined for the 2009–10 fiscal year without being reduced by the deficit factors specified in subdivision (a).

(d) In computing the revenue limit for each school district for the 2011–12 fiscal year pursuant to this article, the revenue limit shall be determined as if the revenue limit for that school district had been determined for the 2010–11 fiscal year without being reduced by the deficit factors specified in subdivision (a).

(e) In computing the revenue limit for each school district for the 2012–13 fiscal year pursuant to this article, the revenue limit shall be determined as if the revenue limit for that school district had been determined for the 2011–12 fiscal year without being reduced by the deficit factors specified in subdivision (a).

SEC. 19. Section 42251 is added to the Education Code, to read:

42251. (a) The Superintendent shall make the following calculations for the 2011–12 fiscal year:

(1) Determine the amount of funds that will be restricted after the Superintendent makes the deduction pursuant to Section 52335.3 for each county office of education pursuant to subdivision (e) of Section 2558 as of June 30, 2012.

(2) Divide fifty million dollars (\$50,000,000) by the statewide sum of the amounts determined pursuant to paragraph (1). If the fraction is greater than one it shall be deemed to be one.

(3) Multiply the fraction determined pursuant to paragraph (2) by the amount determined pursuant to paragraph (1) for each county office of education.

(b) The auditor-controller of each county shall distribute the amounts determined in paragraph (3) of subdivision (a)

to the Supplemental Revenue Augmentation Fund created within the county pursuant to Section 100.06 of the Revenue and Taxation Code. The aggregate amount of transfers required by this subdivision shall be made in two equal shares, with the first share being transferred no later than January 15, 2012, and the second share being transferred after that date but no later than May 1, 2012.

(c) The moneys transferred to the Supplemental Revenue Augmentation Fund in the 2011–12 fiscal year shall be transferred by the county office of education to the Controller, in amounts and for those purposes as directed by the Director of Finance, exclusively to reimburse the state for the costs of providing trial court services and costs until those moneys are exhausted.

SEC. 20. Section 42606 of the Education Code is repealed.

SEC. 21. Section 42606 is added to the Education Code, to read:

42606. (a) To the extent funds are provided, for the 2010–11 to the 2014–15 fiscal years, inclusive, the Superintendent shall allocate a supplemental categorical block grant to a charter school that began operation during or after the 2008–09 fiscal year. These supplemental categorical block grant funds may be used for any educational purpose. Commencing in the 2011–12 fiscal year, a locally or direct funded charter school that converted from a preexisting school between the 2008–09 and 2014–15 fiscal years, inclusive, is not eligible for funding specified in this section. A charter school that receives funding pursuant to this subdivision shall not

receive additional funding for programs specified in paragraph (2) of subdivision (a) of Section 42605, with the exception of the program funded pursuant to Item 6110-211-0001 of Section 2.00 of the annual Budget Act.

(b) (1) For the 2010–11 fiscal year, the supplemental categorical block grant shall equal one hundred twenty-seven dollars (\$127) per unit of charter school average daily attendance as determined at the 2010–11 second principal apportionment for charter schools commencing operations during or after the 2008–09 fiscal year. A locally funded charter school that converted from a preexisting school during or after the 2008–09 fiscal year is not eligible for funding specified in this section.

(2) For the 2011–12 to the 2014–15 fiscal years, inclusive, the supplemental categorical block grant shall equal one hundred twenty-seven dollars (\$127) per unit of charter school average daily attendance as determined at the current year second principal apportionment for charter schools commencing operations during or after the 2008–09 fiscal year. In lieu of this supplemental grant, a school district shall provide new conversion charter schools that commenced operations within the district during or after the 2008–09 fiscal year, one hundred twenty-seven dollars (\$127) per unit of charter school average daily attendance as determined at the current year second principal apportionment. This paragraph does not preclude a school district and a new conversion charter school from negotiating an alternative funding rate. Absent agreement from both parties on an alternative rate, the school district shall be obligated to provide funding at the one hundred twenty-seven dollars (\$127) per average daily attendance rate.

SEC. 22. Section 44955.5 of the Education Code is amended to read:

44955.5. (a) During the time period between five days after the enactment of the Budget Act and August 15 of the fiscal year to which that Budget Act applies, if the governing board of a school district determines that its total revenue limit per unit of average daily attendance for the fiscal year of that Budget Act has not increased by at least 2 percent, and if in the opinion of the governing board it is therefore necessary to decrease the number of permanent employees in the district, the governing board may terminate the services of any permanent or probationary certificated employees of the district, including employees holding a position that requires an administrative or supervisory credential. The termination shall be pursuant to Sections 44951 and 44955 but, notwithstanding anything to the contrary in Sections 44951 and 44955, in accordance with a schedule of notice and hearing adopted by the governing board.

(b) This section is inoperative from July 1, 2002, to July 1, 2003, inclusive, and from July 1, 2011, to July 1, 2012, inclusive.

SEC. 23. Section 46201.3 is added to the Education Code, to read:

46201.3. (a) For the 2011–12 school year, the minimum number of instructional days and minutes school districts, county offices of education, and charter schools are required to offer as set forth in Sections 41420, 46200, 46200.5, 46201, 46201.5, 46202, and 47612.5 shall be reduced by up to seven days.

(b) Implementation of the reduction in the number of instructional days offered by a school district, county office of education, and charter school that is subject to collective bargaining pursuant to Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code shall be achieved through the bargaining process, provided that the agreement has been completed and reductions implemented no later than June 30, 2012.

(c) The revenue limit for each school district, county office of education, and charter school determined pursuant to Article 3 (commencing with Section 2550) of Chapter 12 of Part 2 of Division 1 of Title 1, Article 2 (commencing with Section 42238) of Chapter 7 of Part 24 of Division 3, and Article 2 (commencing with Section 47633) of Chapter 6 of Part 26.8 of Division 4 shall be reduced by the product of 4 percent and the fraction determined pursuant to paragraph (2).

(1) Subtract the revenue forecast determined pursuant to subdivision (a) of Section 3.94 of the Budget Act of 2011 from eighty-six billion four hundred fifty-two million five hundred thousand dollars (\$86,452,500,000).

(2) Divide the lesser of two billion dollars (\$2,000,000,000) or the amount calculated in paragraph (1) by two billion dollars (\$2,000,000,000).

(d) This section does not affect the number of instructional days or instructional minutes that may be reduced pursuant to Section 46201.2.

(e) The revenue limit reductions authorized by this section, when combined with the reductions applied under subdivision (c) of Section 3.94 of the Budget Act of 2011, may not be applied so as to reduce school funding below the requirements of Section 8 of Article XVI of the California Constitution based on the applicable revenues estimated by the Department of Finance pursuant to Section 3.94 of the Budget Act of 2011.

(f) This section shall be operative on February 1, 2012, only for the 2011–12 school year and only if subdivision (c) of Section 3.94 of the Budget Act of 2011 is operative.

SEC. 24. Section 56139 of the Education Code is amended to read:

56139. (a) The Superintendent is responsible for monitoring local educational agencies to ensure compliance with the requirement to provide mental health services to individuals with exceptional needs pursuant to Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code and to ensure that funds provided for this purpose are appropriately utilized.

(b) The Superintendent shall submit a report to the Legislature by April 1, 2005, that includes all of the following:

(1) A description of the data that is currently collected by the department related to pupils served and services provided pursuant to Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code.

(2) A description of the existing monitoring processes used by the department to ensure that local educational agencies are complying with Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code, including the monitoring performed to ensure the appropriate use of funds for programs identified in Section 64000.

(3) Recommendations on the manner in which to strengthen and improve monitoring by the department of the compliance by a local educational agency with the requirements of Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code, on the manner in which to strengthen and improve collaboration and coordination with the State Department of Mental Health in monitoring and data collection activities, and on the additional data needed related to Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code.

(c) The Superintendent shall collaborate with the Director of Mental Health in preparing the report required pursuant to subdivision (b) and shall convene at least one meeting of appropriate stakeholders and organizations, including a representative from the State Department of Mental Health and mental health directors, to obtain input on existing data collection and monitoring processes, and on ways to strengthen and improve the data collected and monitoring performed.

(d) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 25. Section 56325 of the Education Code is amended to read:

56325. (a) (1) As required by subclause (I) of clause (i) of subparagraph (C) of paragraph (2) of subsection (d) of Section 1414 of Title 20 of the United States Code, the following shall apply to special education programs for individuals with exceptional needs who transfer from district to district within the state. In the case of an individual with exceptional needs who has an individualized education program and transfers into a district from a district not operating programs under the same local plan in which he or she was last enrolled in a special education program within the same academic year, the local educational agency shall provide the pupil with a free appropriate public education, including services comparable to those described in the previously approved individualized education program, in consultation with the parents, for a period not to exceed 30 days, by which time the local educational agency shall adopt the previously approved individualized education program or shall develop, adopt, and implement a new individualized education program that is consistent with federal and state law.

(2) In the case of an individual with exceptional needs who has an individualized education program and transfers into a district from a district operating programs under the same special education local plan area of the district in which he or she was last enrolled in a special education program within the same academic year, the new district shall continue, without delay, to provide services comparable to those described in the existing approved individualized education program, unless the parent and the local educational agency agree to develop, adopt, and implement a new individualized education program that is consistent with federal and state law.

(3) As required by subclause (II) of clause (i) of subparagraph (C) of paragraph (2) of subsection (d) of Section 1414 of Title 20 of the United States Code, the following shall apply to special education programs for individuals with exceptional needs who transfer from an educational agency located outside the State of California to a district within California. In the case of an individual with exceptional needs who transfers from district to district within the same academic year, the local educational agency shall provide the pupil with a free appropriate public education, including services comparable to those described in the previously approved individualized education program, in consultation with the parents, until the local educational agency conducts an assessment pursuant to paragraph (1) of subsection (a) of Section 1414 of Title 20 of the United States Code, if determined to be necessary by the local educational agency, and develops a new individualized education program, if appropriate, that is consistent with federal and state law.

(b) (1) To facilitate the transition for an individual with exceptional needs described in subdivision (a), the new school in which the individual with exceptional needs enrolls shall take reasonable steps to promptly obtain the pupil's records, including the individualized education program and supporting documents and any other records relating to the provision of special education and related services to the pupil, from the previous school in which the pupil was enrolled, pursuant to paragraph (2) of subsection (a) of Section 99.31 of Title 34 of the Code of Federal Regulations.

(2) The previous school in which the individual with exceptional needs was enrolled shall take reasonable steps to promptly respond to the request from the new school.

(c) If whenever a pupil described in subdivision (a) was placed and residing in a residential nonpublic, nonsectarian school, prior to transferring to a district in another special education local plan area, and this placement is not eligible for funding pursuant to Section 56836.16, the special education local plan area that contains the district that made the residential nonpublic, nonsectarian school placement is responsible for the funding of the placement, including related services, for the remainder of the school year. An extended year session is included in the school year in which the session ends.

SEC. 26. Section 56331 of the Education Code is amended to read:

56331. (a) A pupil who is suspected of needing mental health services may be referred to a community mental health service in accordance with Section 7576 of the Government Code.

(b) Prior to referring a pupil to a county mental health agency for services, the local educational agency shall follow the procedures set forth in Section 56320 and conduct an assessment in accordance with Sections 300.301 to 300.306, inclusive, of Title 34 of the Code of Federal Regulations. If an individual with exceptional needs is identified as potentially requiring mental health services, the local educational agency shall request the participation of the county mental health agency in the individualized education program. A local educational agency shall provide any specially designed instruction

required by an individualized education program, including related services such as counseling services, parent counseling and training, psychological services, or social work services in schools as defined in Section 300.34 of Title 34 of the Code of Federal Regulations. If the individualized education program of an individual with exceptional needs includes a functional behavioral assessment and behavior intervention plan, in accordance with Section 300.530 of Title 34 of the Code of Federal Regulations, the local educational agency shall provide documentation upon referral to a county mental health agency. Local educational agencies shall provide related services, by qualified personnel, unless the individualized education program team designates a more appropriate agency for the provision of services. Local educational agencies and community mental health services shall work collaboratively to ensure that assessments performed prior to referral are as useful as possible to the community mental health service agency in determining the need for mental health services and the level of services needed.

(c) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 27. Section 60422.3 of the Education Code is amended and renumbered to read:

60049. (a) Notwithstanding subdivision (i) of Section 60200, Section 60422, or any other provision of law, for the 2008–09 to the 2014–15 fiscal years, inclusive, the governing board of a school district is not required to provide pupils with instructional materials by a specified period of time following adoption of those materials by the state board.

(b) Notwithstanding subdivision (a), this section does not relieve school districts of their obligations to provide every pupil with textbooks or instructional materials, as provided in Section 1240.3.

(c) This section does not relieve school districts of the obligation to hold a public hearing or hearings pursuant to subparagraphs (A) and (B) of paragraph (1) of subdivision (a) of Section 60119.

(d) This section shall become inoperative on July 1, 2015, and, as of January 1, 2016, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2016, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 28. Section 69432.7 of the Education Code is amended to read:

69432.7. As used in this chapter, the following terms have the following meanings:

(a) An “academic year” is July 1 to June 30, inclusive. The starting date of a session shall determine the academic year in which it is included.

(b) “Access costs” means living expenses and expenses for transportation, supplies, and books.

(c) “Award year” means one academic year, or the equivalent, of attendance at a qualifying institution.

(d) “College grade point average” and “community college grade point average” mean a grade point average calculated on the basis of all college work completed, except for nontransferable units and courses not counted in the computation for admission to a California public institution of higher education that grants a baccalaureate degree.

(e) “Commission” means the Student Aid Commission.

(f) “Enrollment status” means part- or full-time status.

(1) “Part time,” for purposes of Cal Grant eligibility, means 6 to 11 semester units, inclusive, or the equivalent.

(2) “Full time,” for purposes of Cal Grant eligibility, means 12 or more semester units or the equivalent.

(g) “Expected family contribution,” with respect to an applicant, shall be determined using the federal methodology pursuant to subdivision (a) of Section 69506 (as established by Title IV of the federal Higher Education Act of 1965, as amended (20 U.S.C. Sec. 1070 et seq.)) and applicable rules and regulations adopted by the commission.

(h) “High school grade point average” means a grade point average calculated on a 4.0 scale, using all academic coursework, for the sophomore year, the summer following the sophomore year, the junior year, and the summer following the junior year, excluding physical education, reserve officer training corps (ROTC), and remedial courses, and computed pursuant to regulations of the commission. However, for high school graduates who apply after their senior year, “high school grade point average” includes senior year coursework.

(i) “Instructional program of not less than one academic year” means a program of study that results in the award of an associate or baccalaureate degree or certificate requiring at least 24 semester units or the equivalent, or that results in eligibility for transfer from a community college to a baccalaureate degree program.

(j) “Instructional program of not less than two academic years” means a program of study that results in the award of an associate or baccalaureate degree requiring at least 48 semester units or the equivalent, or that results in eligibility for transfer from a community college to a baccalaureate degree program.

(k) “Maximum household income and asset levels” means the applicable household income and household asset levels for participants, including new applicants and renewing recipients, in the Cal Grant Program, as defined and adopted in regulations by the commission for the 2001–02 academic year, which shall be set pursuant to the following income and asset ceiling amounts:

#### CAL GRANT PROGRAM INCOME CEILINGS

	Cal Grant A, C, and T	Cal Grant B
Dependent and Independent students with dependents*		
Family Size		

Six or more	\$74,100	\$40,700
Five	\$68,700	\$37,700
Four	\$64,100	\$33,700
Three	\$59,000	\$30,300
Two	\$57,600	\$26,900
Independent		
Single, no dependents	\$23,500	\$23,500
Married	\$26,900	\$26,900

\*Applies to independent students with dependents other than a spouse.

#### CAL GRANT PROGRAM ASSET CEILINGS

	Cal Grant A, C, and T	Cal Grant B
Dependent**	\$49,600	\$49,600
Independent	\$23,600	\$23,600

\*\*Applies to independent students with dependents other than a spouse.

The commission shall annually adjust the maximum household income and asset levels based on the percentage change in the cost of living within the meaning of paragraph (1) of subdivision (e) of Section 8 of Article XIII B of the California Constitution. The maximum household income and asset levels applicable to a renewing recipient shall be the greater of the adjusted maximum household income and asset levels or the maximum household income and asset levels at the time of the renewing recipient's initial Cal Grant award. For a recipient who was initially awarded a Cal Grant for an academic year before the 2011–12 academic year, the maximum household income and asset levels shall be the greater of the adjusted maximum household income and asset levels or the 2010–11 academic year maximum household income and asset levels. An applicant or renewal recipient who qualifies to be considered under the simplified needs test established by federal law for student assistance shall be presumed to meet the asset level test under this section. Prior to disbursing any Cal Grant funds, a qualifying institution shall be obligated, under the terms of its institutional participation agreement with the commission, to resolve any conflicts that may exist in the data the institution possesses relating to that individual.

(l) (1) "Qualifying institution" means an institution that complies with paragraphs (2) and (3) and is any of the following:

(A) A California private or independent postsecondary educational institution that participates in the Pell Grant Program and in at least two of the following federal campus-based student aid programs:

- (i) Federal Work-Study.
- (ii) Perkins Loan Program.
- (iii) Supplemental Educational Opportunity Grant Program.

(B) A nonprofit institution headquartered and operating in California that certifies to the commission that 10 percent of the institution's operating budget, as demonstrated in an audited financial statement, is expended for purposes of institutionally funded student financial aid in the form of grants, that demonstrates to the commission that it has the administrative capacity to administer the funds, that is accredited by the Western Association of Schools and Colleges, and that meets any other state-required criteria adopted by regulation by the commission in consultation with the Department of Finance. A regionally accredited institution that was deemed qualified by the commission to participate in the Cal Grant Program for the 2000–01 academic year shall retain its eligibility as long as it maintains its existing accreditation status.

(C) A California public postsecondary educational institution.

(2) (A) The institution shall provide information on where to access California license examination passage rates for the most recent available year from graduates of its undergraduate programs leading to employment for which passage of a California licensing examination is required, if that data is electronically available through the Internet Web site of a California licensing or regulatory agency. For purposes of this paragraph, “provide” may exclusively include placement of an Internet Web site address labeled as an access point for the data on the passage rates of recent program graduates on the Internet Web site where enrollment information is also located, on an Internet Web site that provides centralized admissions information for postsecondary educational systems with multiple campuses, or on applications for enrollment or other program information distributed to prospective students.

(B) The institution shall be responsible for certifying to the commission compliance with the requirements of subparagraph (A).

(3) (A) The commission shall certify by October 1 of each year the institution's latest three-year cohort default rate as most recently reported by the United States Department of Education.

(B) For purposes of the 2011–12 academic year, an otherwise qualifying institution with a 2008 trial three-year cohort default rate reported by the United States Department of Education as of February 28, 2011, that is equal to or greater than 24.6 percent shall be ineligible for initial and renewal Cal Grant awards at the institution, except as provided in subparagraph (F).

(C) For purposes of the 2012–13 academic year, and every academic year thereafter, an otherwise qualifying institution with a three-year cohort default rate that is equal to or greater than 30 percent, as certified by the commission on October 1, 2011, and every year thereafter, shall be ineligible

for initial and renewal Cal Grant awards at the institution, except as provided in subparagraph (F).

(D) (i) An otherwise qualifying institution that becomes ineligible under this paragraph for initial and renewal Cal Grant awards may regain its eligibility for the academic year following an academic year in which it satisfies the requirements established in subparagraph (B) or (C), as applicable.

(ii) If the United States Department of Education corrects or revises an institution's three-year cohort default rate that originally failed to satisfy the requirements established in subparagraph (B) or (C), as applicable, and the correction or revision results in the institution's three-year cohort default rate satisfying those requirements, that institution shall immediately regain its eligibility for the academic year to which the corrected or revised three-year cohort default rate would have been applied.

(E) An otherwise qualifying institution for which no three-year cohort default rate has been reported by the United States Department of Education shall be provisionally eligible to participate in the Cal Grant Program until a three-year cohort default rate has been reported for the institution by the United States Department of Education.

(F) An institution that is ineligible for initial and renewal Cal Grant awards at the institution under subparagraph (B) or (C) shall be eligible for renewal Cal Grant awards for recipients who were enrolled in the ineligible institution during the academic year before the academic year for which the institution is ineligible and who choose to renew their Cal Grant awards to attend the ineligible institution. Cal Grant awards subject to this subparagraph shall be reduced as follows:

(i) The maximum Cal Grant A and B awards specified in the annual Budget Act shall be reduced by 20 percent.

(ii) The reductions specified in this subparagraph shall not impact access costs as specified in subdivision (b) of Section 69435.

(G) Notwithstanding any other law, the requirements of this paragraph shall not apply to institutions with 40 percent or less of undergraduate students borrowing federal student loans, using information reported to the United States Department of Education for the academic year two years prior to the year in which the commission is certifying the three-year cohort default rate pursuant to subparagraph (A).

(H) By January 1, 2013, the Legislative Analyst shall submit to the Legislature a report on the implementation of this paragraph. The report shall be prepared in consultation with the commission, and shall include policy recommendations for appropriate measures of default risk and other direct or indirect measures of quality or effectiveness in educational institutions participating in the Cal Grant Program, and appropriate scores for those measures. It is the intent of the Legislature that appropriate policy and fiscal committees review the requirements of this paragraph and consider changes thereto.

(m) "Satisfactory academic progress" means those criteria required by applicable federal standards published in Title 34 of the Code of Federal

Regulations. The commission may adopt regulations defining “satisfactory academic progress” in a manner that is consistent with those federal standards.

SEC. 29. Section 76300 of the Education Code is amended to read:

76300. (a) The governing board of each community college district shall charge each student a fee pursuant to this section.

(b) (1) The fee prescribed by this section shall be thirty-six dollars (\$36) per unit per semester, effective with the fall term of the 2011–12 academic year.

(2) The board of governors shall proportionately adjust the amount of the fee for term lengths based upon a quarter system, and also shall proportionately adjust the amount of the fee for summer sessions, intersessions, and other short-term courses. In making these adjustments, the board of governors may round the per unit fee and the per term or per session fee to the nearest dollar.

(c) For the purposes of computing apportionments to community college districts pursuant to Section 84750.5, the board of governors shall subtract, from the total revenue owed to each district, 98 percent of the revenues received by districts from charging a fee pursuant to this section.

(d) The board of governors shall reduce apportionments by up to 10 percent to any district that does not collect the fees prescribed by this section.

(e) The fee requirement does not apply to any of the following:

(1) Students enrolled in the noncredit courses designated by Section 84757.

(2) California State University or University of California students enrolled in remedial classes provided by a community college district on a campus of the University of California or a campus of the California State University, for whom the district claims an attendance apportionment pursuant to an agreement between the district and the California State University or the University of California.

(3) Students enrolled in credit contract education courses pursuant to Section 78021, if the entire cost of the course, including administrative costs, is paid by the public or private agency, corporation, or association with which the district is contracting and if these students are not included in the calculation of the full-time equivalent students (FTES) of that district.

(f) The governing board of a community college district may exempt special part-time students admitted pursuant to Section 76001 from the fee requirement.

(g) (1) The fee requirements of this section shall be waived for any student who, at the time of enrollment, is a recipient of benefits under the Temporary Assistance to Needy Families program, the Supplemental Security Income/State Supplementary Program, or a general assistance program or has demonstrated financial need in accordance with the methodology set forth in federal law or regulation for determining the expected family contribution of students seeking financial aid.

(2) The governing board of a community college district also shall waive the fee requirements of this section for any student who demonstrates

eligibility according to income standards established by regulations of the board of governors.

(3) Paragraphs (1) and (2) may be applied to a student enrolled in the 2005–06 academic year if the student is exempted from nonresident tuition under paragraph (3) of subdivision (a) of Section 76140.

(h) The fee requirements of this section shall be waived for any student who, at the time of enrollment, is a dependent, or surviving spouse who has not remarried, of any member of the California National Guard who, in the line of duty and while in the active service of the state, was killed, died of a disability resulting from an event that occurred while in the active service of the state, or is permanently disabled as a result of an event that occurred while in the active service of the state. “Active service of the state,” for the purposes of this subdivision, refers to a member of the California National Guard activated pursuant to Section 146 of the Military and Veterans Code.

(i) The fee requirements of this section shall be waived for any student who is the surviving spouse or the child, natural or adopted, of a deceased person who met all of the requirements of Section 68120.

(j) The fee requirements of this section shall be waived for any student in an undergraduate program, including a student who has previously graduated from another undergraduate or graduate program, who is the dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center and the Pentagon or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if that dependent meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either of the following applies:

(1) The dependent was a resident of California on September 11, 2001.

(2) The individual killed in the attacks was a resident of California on September 11, 2001.

(k) A determination of whether a person is a resident of California on September 11, 2001, for purposes of subdivision (j) shall be based on the criteria set forth in Chapter 1 (commencing with Section 68000) of Part 41 of Division 5 for determining nonresident and resident tuition.

(l) (1) “Dependent,” for purposes of subdivision (j), is a person who, because of his or her relationship to an individual killed as a result of injuries sustained during the terrorist attacks of September 11, 2001, qualifies for compensation under the federal September 11th Victim Compensation Fund of 2001 (Title IV (commencing with Section 401) of Public Law 107-42).

(2) A dependent who is the surviving spouse of an individual killed in the terrorist attacks of September 11, 2001, is entitled to the waivers provided in this section until January 1, 2013.

(3) A dependent who is the surviving child, natural or adopted, of an individual killed in the terrorist attacks of September 11, 2001, is entitled to the waivers under subdivision (j) until that person attains the age of 30 years.

(4) A dependent of an individual killed in the terrorist attacks of September 11, 2001, who is determined to be eligible by the California

Victim Compensation and Government Claims Board, is also entitled to the waivers provided in this section until January 1, 2013.

(m) (1) It is the intent of the Legislature that sufficient funds be provided to support the provision of a fee waiver for every student who demonstrates eligibility pursuant to subdivisions (g) to (j), inclusive.

(2) From funds provided in the annual Budget Act, the board of governors shall allocate to community college districts, pursuant to this subdivision, an amount equal to 2 percent of the fees waived pursuant to subdivisions (g) to (j), inclusive. From funds provided in the annual Budget Act, the board of governors shall allocate to community college districts, pursuant to this subdivision, an amount equal to ninety-one cents (\$0.91) per credit unit waived pursuant to subdivisions (g) to (j), inclusive. It is the intent of the Legislature that funds provided pursuant to this subdivision be used to support the determination of financial need and delivery of student financial aid services, on the basis of the number of students for whom fees are waived. It also is the intent of the Legislature that the funds provided pursuant to this subdivision directly offset mandated costs claimed by community college districts pursuant to Commission on State Mandates consolidated Test Claims 99-TC-13 (Enrollment Fee Collection) and 00-TC-15 (Enrollment Fee Waivers). Funds allocated to a community college district for determination of financial need and delivery of student financial aid services shall supplement, and shall not supplant, the level of funds allocated for the administration of student financial aid programs during the 1992–93 fiscal year.

(n) The board of governors shall adopt regulations implementing this section.

(o) This section shall be inoperative and is repealed on January 1, 2012, only if Section 3.94 of the Budget Act of 2011 is operative.

SEC. 30. Section 76300 is added to the Education Code, to read:

76300. (a) The governing board of each community college district shall charge each student a fee pursuant to this section.

(b) (1) The fee prescribed by this section shall be forty-six dollars (\$46) per unit per semester, effective with the fall term of the 2011–12 academic year.

(2) The board of governors shall proportionately adjust the amount of the fee for term lengths based upon a quarter system, and also shall proportionately adjust the amount of the fee for summer sessions, intersessions, and other short-term courses. In making these adjustments, the board of governors may round the per unit fee and the per term or per session fee to the nearest dollar.

(c) For the purposes of computing apportionments to community college districts pursuant to Section 84750.5, the board of governors shall subtract, from the total revenue owed to each district, 98 percent of the revenues received by districts from charging a fee pursuant to this section.

(d) The board of governors shall reduce apportionments by up to 10 percent to any district that does not collect the fees prescribed by this section.

(e) The fee requirement does not apply to any of the following:

(1) Students enrolled in the noncredit courses designated by Section 84757.

(2) California State University or University of California students enrolled in remedial classes provided by a community college district on a campus of the University of California or a campus of the California State University, for whom the district claims an attendance apportionment pursuant to an agreement between the district and the California State University or the University of California.

(3) Students enrolled in credit contract education courses pursuant to Section 78021, if the entire cost of the course, including administrative costs, is paid by the public or private agency, corporation, or association with which the district is contracting and if these students are not included in the calculation of the full-time equivalent students (FTES) of that district.

(f) The governing board of a community college district may exempt special part-time students admitted pursuant to Section 76001 from the fee requirement.

(g) (1) The fee requirements of this section shall be waived for any student who, at the time of enrollment, is a recipient of benefits under the Temporary Assistance to Needy Families program, the Supplemental Security Income/State Supplementary Program, or a general assistance program or has demonstrated financial need in accordance with the methodology set forth in federal law or regulation for determining the expected family contribution of students seeking financial aid.

(2) The governing board of a community college district also shall waive the fee requirements of this section for any student who demonstrates eligibility according to income standards established by regulations of the board of governors.

(3) Paragraphs (1) and (2) may be applied to a student enrolled in the 2005–06 academic year if the student is exempted from nonresident tuition under paragraph (3) of subdivision (a) of Section 76140.

(h) The fee requirements of this section shall be waived for any student who, at the time of enrollment, is a dependent or surviving spouse who has not remarried, of any member of the California National Guard who, in the line of duty and while in the active service of the state, was killed, died of a disability resulting from an event that occurred while in the active service of the state, or is permanently disabled as a result of an event that occurred while in the active service of the state. “Active service of the state,” for the purposes of this subdivision, refers to a member of the California National Guard activated pursuant to Section 146 of the Military and Veterans Code.

(i) The fee requirements of this section shall be waived for any student who is the surviving spouse or the child, natural or adopted, of a deceased person who met all of the requirements of Section 68120.

(j) The fee requirements of this section shall be waived for any student in an undergraduate program, including a student who has previously graduated from another undergraduate or graduate program, who is the dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center and the Pentagon or the crash of United

Airlines Flight 93 in southwestern Pennsylvania, if that dependent meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either of the following applies:

- (1) The dependent was a resident of California on September 11, 2001.
- (2) The individual killed in the attacks was a resident of California on September 11, 2001.

(k) A determination of whether a person is a resident of California on September 11, 2001, for purposes of subdivision (j) shall be based on the criteria set forth in Chapter 1 (commencing with Section 68000) of Part 41 of Division 5 for determining nonresident and resident tuition.

(l) (1) “Dependent,” for purposes of subdivision (j), is a person who, because of his or her relationship to an individual killed as a result of injuries sustained during the terrorist attacks of September 11, 2001, qualifies for compensation under the federal September 11th Victim Compensation Fund of 2001 (Title IV (commencing with Section 401) of Public Law 107-42).

(2) A dependent who is the surviving spouse of an individual killed in the terrorist attacks of September 11, 2001, is entitled to the waivers provided in this section until January 1, 2013.

(3) A dependent who is the surviving child, natural or adopted, of an individual killed in the terrorist attacks of September 11, 2001, is entitled to the waivers under subdivision (j) until that person attains 30 years of age.

(4) A dependent of an individual killed in the terrorist attacks of September 11, 2001, who is determined to be eligible by the California Victim Compensation and Government Claims Board, is also entitled to the waivers provided in this section until January 1, 2013.

(m) (1) It is the intent of the Legislature that sufficient funds be provided to support the provision of a fee waiver for every student who demonstrates eligibility pursuant to subdivisions (g) to (j), inclusive.

(2) From funds provided in the annual Budget Act, the board of governors shall allocate to community college districts, pursuant to this subdivision, an amount equal to 2 percent of the fees waived pursuant to subdivisions (g) to (j), inclusive. From funds provided in the annual Budget Act, the board of governors shall allocate to community college districts, pursuant to this subdivision, an amount equal to ninety-one cents (\$0.91) per credit unit waived pursuant to subdivisions (g) to (j), inclusive. It is the intent of the Legislature that funds provided pursuant to this subdivision be used to support the determination of financial need and delivery of student financial aid services, on the basis of the number of students for whom fees are waived. It also is the intent of the Legislature that the funds provided pursuant to this subdivision directly offset mandated costs claimed by community college districts pursuant to Commission on State Mandates consolidated Test Claims 99-TC-13 (Enrollment Fee Collection) and 00-TC-15 (Enrollment Fee Waivers). Funds allocated to a community college district for determination of financial need and delivery of student financial aid services shall supplement, and shall not supplant, the level of funds allocated for the administration of student financial aid programs during the 1992–93 fiscal year.

(n) The board of governors shall adopt regulations implementing this section.

(o) This section shall become operative on January 1, 2012, only if Section 3.94 of the Budget Act of 2011 is operative.

SEC. 31. Section 7911.1 of the Family Code is amended to read:

7911.1. (a) Notwithstanding any other law, the State Department of Social Services or its designee shall investigate any threat to the health and safety of children placed by a California county social services agency or probation department in an out-of-state group home pursuant to the provisions of the Interstate Compact on the Placement of Children. This authority shall include the authority to interview children or staff in private or review their file at the out-of-state facility or wherever the child or files may be at the time of the investigation. Notwithstanding any other law, the State Department of Social Services or its designee shall require certified out-of-state group homes to comply with the reporting requirements applicable to group homes licensed in California pursuant to Title 22 of the California Code of Regulations for each child in care regardless of whether he or she is a California placement, by submitting a copy of the required reports to the Compact Administrator within regulatory timeframes. The Compact Administrator within one business day of receiving a serious events report shall verbally notify the appropriate placement agencies and within five working days of receiving a written report from the out-of-state group home, forward a copy of the written report to the appropriate placement agencies.

(b) Any contract, memorandum of understanding, or agreement entered into pursuant to paragraph (b) of Article 5 of the Interstate Compact on the Placement of Children regarding the placement of a child out of state by a California county social services agency or probation department shall include the language set forth in subdivision (a).

(c) The State Department of Social Services or its designee shall perform initial and continuing inspection of out-of-state group homes in order to either certify that the out-of-state group home meets all licensure standards required of group homes operated in California or that the department has granted a waiver to a specific licensing standard upon a finding that there exists no adverse impact to health and safety. Any failure by an out-of-state group home facility to make children or staff available as required by subdivision (a) for a private interview or make files available for review shall be grounds to deny or discontinue the certification. The State Department of Social Services shall grant or deny an initial certification or a waiver under this subdivision to an out-of-state group home facility that has more than six California children placed by a county social services agency or probation department by August 19, 1999. The department shall grant or deny an initial certification or a waiver under this subdivision to an out-of-state group home facility that has six or fewer California children placed by a county social services agency or probation department by February 19, 2000. Certifications made pursuant to this subdivision shall be reviewed annually.

(d) Within six months of the effective date of this section, a county shall be required to obtain an assessment and placement recommendation by a county multidisciplinary team for each child in an out-of-state group home facility. On or after March 1, 1999, a county shall be required to obtain an assessment and placement recommendation by a county multidisciplinary team prior to placement of a child in an out-of-state group home facility.

(e) Any failure by an out-of-state group home to obtain or maintain its certification as required by subdivision (c) shall preclude the use of any public funds, whether county, state, or federal, in the payment for the placement of any child in that out-of-state group home, pursuant to the Interstate Compact on the Placement of Children.

(f) (1) A multidisciplinary team shall consist of participating members from county social services, county mental health, county probation, county superintendents of schools, and other members as determined by the county.

(2) Participants shall have knowledge or experience in the prevention, identification, and treatment of child abuse and neglect cases, and shall be qualified to recommend a broad range of services related to child abuse or neglect.

(g) (1) The department may deny, suspend, or discontinue the certification of the out-of-state group home if the department makes a finding that the group home is not operating in compliance with the requirements of subdivision (c).

(2) Any judicial proceeding to contest the department's determination as to the status of the out-of-state group home certificate shall be held in California pursuant to Section 1085 of the Code of Civil Procedure.

(h) The certification requirements of this section shall not impact placements of emotionally disturbed children made pursuant to an individualized education program developed pursuant to the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.) if the placement is not funded with federal or state foster care funds.

(i) Only an out-of-state group home authorized by the Compact Administrator to receive state funds for the placement by a county social services agency or probation department of any child in that out-of-state group home from the effective date of this section shall be eligible for public funds pending the department's certification under this section.

SEC. 32. Section 7572 of the Government Code is amended to read:

7572. (a) A child shall be assessed in all areas related to the suspected disability by those qualified to make a determination of the child's need for the service before any action is taken with respect to the provision of related services or designated instruction and services to a child, including, but not limited to, services in the areas of occupational therapy and physical therapy. All assessments required or conducted pursuant to this section shall be governed by the assessment procedures contained in Article 2 (commencing with Section 56320) of Chapter 4 of Part 30 of Division 4 of Title 2 of the Education Code.

(b) Occupational therapy and physical therapy assessments shall be conducted by qualified medical personnel as specified in regulations

developed by the State Department of Health Services in consultation with the State Department of Education.

(c) A related service or designated instruction and service shall only be added to the child's individualized education program by the individualized education program team, as described in Part 30 (commencing with Section 56000) of Division 4 of Title 2 of the Education Code, if a formal assessment has been conducted pursuant to this section, and a qualified person conducting the assessment recommended the service in order for the child to benefit from special education. In no case shall the inclusion of necessary related services in a pupil's individualized education plan be contingent upon identifying the funding source. Nothing in this section shall prevent a parent from obtaining an independent assessment in accordance with subdivision (b) of Section 56329 of the Education Code, which shall be considered by the individualized education program team.

(1) If an assessment has been conducted pursuant to subdivision (b), the recommendation of the person who conducted the assessment shall be reviewed and discussed with the parent and with appropriate members of the individualized education program team prior to the meeting of the individualized education program team. When the proposed recommendation of the person has been discussed with the parent and there is disagreement on the recommendation pertaining to the related service, the parent shall be notified in writing and may require the person who conducted the assessment to attend the individualized education program team meeting to discuss the recommendation. The person who conducted the assessment shall attend the individualized education program team meeting if requested. Following this discussion and review, the recommendation of the person who conducted the assessment shall be the recommendation of the individualized education program team members who are attending on behalf of the local educational agency.

(2) If an independent assessment for the provision of related services or designated instruction and services is submitted to the individualized education program team, review of that assessment shall be conducted by the person specified in subdivision (b). The recommendation of the person who reviewed the independent assessment shall be reviewed and discussed with the parent and with appropriate members of the individualized education program team prior to the meeting of the individualized education program team. The parent shall be notified in writing and may request the person who reviewed the independent assessment to attend the individualized education program team meeting to discuss the recommendation. The person who reviewed the independent assessment shall attend the individualized education program team meeting if requested. Following this review and discussion, the recommendation of the person who reviewed the independent assessment shall be the recommendation of the individualized education program team members who are attending on behalf of the local agency.

(3) Any disputes between the parent and team members representing the public agencies regarding a recommendation made in accordance with paragraphs (1) and (2) shall be resolved pursuant to Chapter 5 (commencing

with Section 56500) of Part 30 of Division 4 of Title 2 of the Education Code.

(d) Whenever a related service or designated instruction and service specified in subdivision (b) is to be considered for inclusion in the child's individualized educational program, the local education agency shall invite the responsible public agency representative to meet with the individualized education program team to determine the need for the service and participate in developing the individualized education program. If the responsible public agency representative cannot meet with the individualized education program team, then the representative shall provide written information concerning the need for the service pursuant to subdivision (c). Conference calls, together with written recommendations, are acceptable forms of participation. If the responsible public agency representative will not be available to participate in the individualized education program meeting, the local educational agency shall ensure that a qualified substitute is available to explain and interpret the evaluation pursuant to subdivision (d) of Section 56341 of the Education Code. A copy of the information shall be provided by the responsible public agency to the parents or any adult pupil for whom no guardian or conservator has been appointed.

SEC. 33. Section 7572.5 of the Government Code is amended to read:

7572.5. (a) If an assessment is conducted pursuant to Article 2 (commencing with Section 56320) of Chapter 4 of Part 30 of Division 4 of Title 2 of the Education Code, which determines that a child is seriously emotionally disturbed, as defined in Section 300.8 of Title 34 of the Code of Federal Regulations, and any member of the individualized education program team recommends residential placement based on relevant assessment information, the individualized education program team shall be expanded to include a representative of the county mental health department.

(b) The expanded individualized education program team shall review the assessment and determine whether:

(1) The child's needs can reasonably be met through any combination of nonresidential services, preventing the need for out-of-home care.

(2) Residential care is necessary for the child to benefit from educational services.

(3) Residential services are available that address the needs identified in the assessment and that will ameliorate the conditions leading to the seriously emotionally disturbed designation.

(c) If the review required in subdivision (b) results in an individualized education program that calls for residential placement, the individualized education program shall include all of the items outlined in Section 56345 of the Education Code, and shall also include:

(1) Designation of the county mental health department as lead case manager. Lead case management responsibility may be delegated to the county welfare department by agreement between the county welfare department and the designated county mental health department. The county

mental health department shall retain financial responsibility for the provision of case management services.

(2) Provision for a review of the case progress, the continuing need for out-of-home placement, the extent of compliance with the individualized education program, and progress toward alleviating the need for out-of-home care, by the full individualized education program team at least every six months.

(3) Identification of an appropriate residential facility for placement with the assistance of the county welfare department as necessary.

(d) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 34. Section 7572.55 of the Government Code is amended to read:

7572.55. (a) Residential placements for a child with a disability who is seriously emotionally disturbed may be made out-of-state only after in-state alternatives have been considered and are found not to meet the child's needs and only when the requirements of Section 7572.5, and subdivision (e) of Section 56365 of the Education Code have been met. The local education agency shall document the alternatives to out-of-state residential placement that were considered and the reasons why they were rejected.

(b) Out-of-state placements shall be made only in a privately operated school certified by the California Department of Education.

(c) A plan shall be developed for using less restrictive alternatives and in-state alternatives as soon as they become available, unless it is in the best educational interest of the child to remain in the out-of-state school. If the child is a ward or dependent of the court, this plan shall be documented in the record.

(d) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 35. Section 7576 of the Government Code is amended to read:

7576. (a) The State Department of Mental Health, or a community mental health service, as described in Section 5602 of the Welfare and Institutions Code, designated by the State Department of Mental Health, is responsible for the provision of mental health services, as defined in regulations by the State Department of Mental Health, developed in consultation with the State Department of Education, if required in the individualized education program of a pupil. A local educational agency is not required to place a pupil in a more restrictive educational environment in order for the pupil to receive the mental health services specified in his or her individualized education program if the mental health services can be appropriately provided in a less restrictive setting. It is the intent of the Legislature that the local educational agency and the community mental health service vigorously attempt to develop a mutually satisfactory placement that is acceptable to the parent and addresses the educational and

mental health treatment needs of the pupil in a manner that is cost effective for both public agencies, subject to the requirements of state and federal special education law, including the requirement that the placement be appropriate and in the least restrictive environment. For purposes of this section, “parent” is as defined in Section 56028 of the Education Code.

(b) A local educational agency, individualized education program team, or parent may initiate a referral for assessment of the social and emotional status of a pupil, pursuant to Section 56320 of the Education Code. Based on the results of assessments completed pursuant to Section 56320 of the Education Code, an individualized education program team may refer a pupil who has been determined to be an individual with exceptional needs, as defined in Section 56026 of the Education Code, and who is suspected of needing mental health services to a community mental health service if the pupil meets all of the criteria in paragraphs (1) to (5), inclusive. Referral packages shall include all documentation required in subdivision (c), and shall be provided immediately to the community mental health service.

(1) The pupil has been assessed by school personnel in accordance with Article 2 (commencing with Section 56320) of Chapter 4 of Part 30 of Division 4 of Title 2 of the Education Code. Local educational agencies and community mental health services shall work collaboratively to ensure that assessments performed prior to referral are as useful as possible to the community mental health service in determining the need for mental health services and the level of services needed.

(2) The local educational agency has obtained written parental consent for the referral of the pupil to the community mental health service, for the release and exchange of all relevant information between the local educational agency and the community mental health service, and for the observation of the pupil by mental health professionals in an educational setting.

(3) The pupil has emotional or behavioral characteristics that satisfy all of the following:

(A) Are observed by qualified educational staff in educational and other settings, as appropriate.

(B) Impede the pupil from benefiting from educational services.

(C) Are significant as indicated by their rate of occurrence and intensity.

(D) Are associated with a condition that cannot be described solely as a social maladjustment or a temporary adjustment problem, and cannot be resolved with short-term counseling.

(4) As determined using educational assessments, the pupil’s functioning, including cognitive functioning, is at a level sufficient to enable the pupil to benefit from mental health services.

(5) The local educational agency, pursuant to Section 56331 of the Education Code, has provided appropriate counseling and guidance services, psychological services, parent counseling and training, or social work services to the pupil pursuant to Section 56363 of the Education Code, or behavioral intervention as specified in Section 56520 of the Education Code, as specified in the individualized education program and the individualized

education program team has determined that the services do not meet the educational needs of the pupil, or, in cases where these services are clearly inadequate or inappropriate to meet the educational needs of the pupil, the individualized education program team has documented which of these services were considered and why they were determined to be inadequate or inappropriate.

(c) If referring a pupil to a community mental health service in accordance with subdivision (b), the local educational agency or the individualized education program team shall provide the following documentation:

(1) Copies of the current individualized education program, all current assessment reports completed by school personnel in all areas of suspected disabilities pursuant to Article 2 (commencing with Section 56320) of Chapter 4 of Part 30 of Division 4 of Title 2 of the Education Code, and other relevant information, including reports completed by other agencies.

(2) A copy of the parent's consent obtained as provided in paragraph (2) of subdivision (b).

(3) A summary of the emotional or behavioral characteristics of the pupil, including documentation that the pupil meets the criteria set forth in paragraphs (3) and (4) of subdivision (b).

(4) A description of the counseling, psychological, and guidance services, and other interventions that have been provided to the pupil, as provided in the individualized education program of the pupil, including the initiation, duration, and frequency of these services, or an explanation of the reasons a service was considered for the pupil and determined to be inadequate or inappropriate to meet his or her educational needs.

(d) Based on preliminary results of assessments performed pursuant to Section 56320 of the Education Code, a local educational agency may refer a pupil who has been determined to be, or is suspected of being, an individual with exceptional needs, and is suspected of needing mental health services, to a community mental health service if a pupil meets the criteria in paragraphs (1) and (2). Referral packages shall include all documentation required in subdivision (e) and shall be provided immediately to the community mental health service.

(1) The pupil meets the criteria in paragraphs (2) to (4), inclusive, of subdivision (b).

(2) Counseling and guidance services, psychological services, parent counseling and training, social work services, and behavioral or other interventions as provided in the individualized education program of the pupil are clearly inadequate or inappropriate in meeting his or her educational needs.

(e) If referring a pupil to a community mental health service in accordance with subdivision (d), the local educational agency shall provide the following documentation:

(1) Results of preliminary assessments to the extent they are available and other relevant information including reports completed by other agencies.

(2) A copy of the parent's consent obtained as provided in paragraph (2) of subdivision (b).

(3) A summary of the emotional or behavioral characteristics of the pupil, including documentation that the pupil meets the criteria in paragraphs (3) and (4) of subdivision (b).

(4) Documentation that appropriate related educational and designated instruction and services have been provided in accordance with Sections 300.34 and 300.39 of Title 34 of the Code of Federal Regulations.

(5) An explanation of the reasons that counseling and guidance services, psychological services, parent counseling and training, social work services, and behavioral or other interventions as provided in the individualized education program of the pupil are clearly inadequate or inappropriate in meeting his or her educational needs.

(f) The procedures set forth in this chapter are not designed for use in responding to psychiatric emergencies or other situations requiring immediate response. In these situations, a parent may seek services from other public programs or private providers, as appropriate. This subdivision does not change the identification and referral responsibilities imposed on local educational agencies under Article 1 (commencing with Section 56300) of Chapter 4 of Part 30 of Division 4 of Title 2 of the Education Code.

(g) Referrals shall be made to the community mental health service in the county in which the pupil lives. If the pupil has been placed into residential care from another county, the community mental health service receiving the referral shall forward the referral immediately to the community mental health service of the county of origin, which shall have fiscal and programmatic responsibility for providing or arranging for the provision of necessary services. The procedures described in this subdivision shall not delay or impede the referral and assessment process.

(h) A county mental health agency does not have fiscal or legal responsibility for costs it incurs prior to the approval of an individualized education program, except for costs associated with conducting a mental health assessment.

(i) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 36. Section 7576.2 of the Government Code is amended to read:

7576.2. (a) The Director of the State Department of Mental Health is responsible for monitoring county mental health agencies to ensure compliance with the requirement to provide mental health services to disabled pupils pursuant to this chapter and to ensure that funds provided for this purpose are appropriately utilized.

(b) The Director of the State Department of Mental Health shall submit a report to the Legislature by April 1, 2005, that includes the following:

(1) A description of the data that is currently collected by the State Department of Mental Health related to pupils served and services provided pursuant to this chapter.

(2) A description of the existing monitoring process used by the State Department of Mental Health to ensure that county mental health agencies are complying with this chapter.

(3) Recommendations on the manner in which to strengthen and improve monitoring by the State Department of Mental Health of the compliance by a county mental health agency with the requirements of this chapter, on the manner in which to strengthen and improve collaboration and coordination with the State Department of Education in monitoring and data collection activities, and on the additional data needed related to this chapter.

(c) The Director of the State Department of Mental Health shall collaborate with the Superintendent of Public Instruction in preparing the report required pursuant to subdivision (b) and shall convene at least one meeting of appropriate stakeholders and organizations, including a representative from the State Department of Education, to obtain input on existing data collection and monitoring processes, and on ways to strengthen and improve the data collected and monitoring performed.

(d) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 37. Section 7576.3 of the Government Code is amended to read:

7576.3. (a) It is the intent of the Legislature that the Director of the State Department of Mental Health collaborate with an entity with expertise in children's mental health to collect, analyze, and disseminate best practices for delivering mental health services to disabled pupils. The best practices may include, but are not limited to:

(1) Interagency agreements in urban, suburban, and rural areas that result in clear identification of responsibilities between local educational agencies and county mental health agencies and result in efficient and effective delivery of services to pupils.

(2) Procedures for developing and amending individualized education programs that include mental health services that provide flexibility to educational and mental health agencies and protect the interests of children in obtaining needed mental health needs.

(3) Procedures for creating ongoing communication between the classroom teacher of the pupil and the mental health professional who is directing the mental health program for the pupil.

(b) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 38. Section 7576.5 of the Government Code is amended to read:

7576.5. (a) If funds are appropriated to local educational agencies to support the costs of providing services pursuant to this chapter, the local educational agencies shall transfer those funds to the community mental health services that provide services pursuant to this chapter in order to reduce the local costs of providing these services. These funds shall be used

exclusively for programs operated under this chapter and are offsetting revenues in any reimbursable mandate claim relating to special education programs and services.

(b) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 39. Section 7582 of the Government Code is amended to read:

7582. Assessments and therapy treatment services provided under programs of the State Department of Health Care Services, or its designated local agencies, rendered to a child referred by a local education agency for an assessment or a disabled child or youth with an individualized education program, shall be exempt from financial eligibility standards and family repayment requirements for these services when rendered pursuant to this chapter.

SEC. 40. Section 7585 of the Government Code is amended to read:

7585. (a) Whenever a department or local agency designated by that department fails to provide a related service or designated instruction and service required pursuant to Section 7575, and specified in the pupil's individualized education program, the parent, adult pupil, if applicable, or a local educational agency referred to in this chapter, shall submit a written notification of the failure to provide the service to the Superintendent of Public Instruction or the Secretary of California Health and Human Services.

(b) When either the Superintendent or the secretary receives a written notification of the failure to provide a service as specified in subdivision (a), a copy shall immediately be transmitted to the other party. The Superintendent, or his or her designee, and the secretary, or his or her designee, shall meet to resolve the issue within 15 calendar days of receipt of the notification. A written copy of the meeting resolution shall be mailed to the parent, the local educational agency, and affected departments, within 10 days of the meeting.

(c) If the issue cannot be resolved within 15 calendar days to the satisfaction of the Superintendent and the secretary, they shall jointly submit the issue in writing to the Director of the Office of Administrative Hearings, or his or her designee, in the Department of General Services.

(d) The Director of the Office of Administrative Hearings, or his or her designee, shall review the issue and submit his or her findings in the case to the Superintendent and the secretary within 30 calendar days of receipt of the case. The decision of the director, or his or her designee, shall be binding on the departments and their designated agencies who are parties to the dispute.

(e) If the meeting, conducted pursuant to subdivision (b), fails to resolve the issue to the satisfaction of the parent or local educational agency, either party may appeal to the director, whose decision shall be the final administrative determination and binding on all parties.

(f) Whenever notification is filed pursuant to subdivision (a), the pupil affected by the dispute shall be provided with the appropriate related service

or designated instruction and service pending resolution of the dispute, if the pupil had been receiving the service. The Superintendent and the secretary shall ensure that funds are available for the provision of the service pending resolution of the issue pursuant to subdivision (e).

(g) This section does not prevent a parent or adult pupil from filing for a due process hearing under Section 7586.

(h) The contract between the State Department of Education and the Office of Administrative Hearings for conducting due process hearings shall include payment for services rendered by the Office of Administrative Hearings which are required by this section.

SEC. 41. Section 7586.5 of the Government Code is amended to read:

7586.5. (a) Not later than January 1, 1988, the Superintendent of Public Instruction and the Secretary of the Health and Human Services Agency jointly shall submit to the Legislature and the Governor a report on the implementation of this chapter. The report shall include, but not be limited to, information regarding the number of complaints and due process hearings resulting from this chapter.

(b) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 42. Section 7586.6 of the Government Code is amended to read:

7586.6. (a) The Superintendent of Public Instruction and the Secretary of the Health and Human Services Agency shall ensure that the State Department of Education and the State Department of Mental Health enter into an interagency agreement by January 1, 1998. It is the intent of the Legislature that the agreement include, but not be limited to, procedures for ongoing joint training, technical assistance for state and local personnel responsible for implementing this chapter, protocols for monitoring service delivery, and a system for compiling data on program operations.

(b) It is the intent of the Legislature that the designated local agencies of the State Department of Education and the State Department of Mental Health update their interagency agreements for services specified in this chapter at the earliest possible time. It is the intent of the Legislature that the state and local interagency agreements be updated at least every three years or earlier as necessary.

(c) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 43. Section 7586.7 of the Government Code is amended to read:

7586.7. (a) The Superintendent of Public Instruction and the Secretary of the Health and Human Services Agency jointly shall prepare and implement within existing resources a plan for in-service training of state and local personnel responsible for implementing the provisions of this chapter.

(b) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 44. Section 7588 of the Government Code is repealed.

SEC. 45. Section 12440.1 of the Government Code is amended to read:

12440.1. (a) The trustees, in conjunction with the Controller, shall implement a process that allows any campus or other unit of the university to make payments of obligations of the university from its revolving fund directly to all of its vendors. Notwithstanding Article 5 (commencing with Section 16400) of Chapter 2 of Part 2 of Division 4 of Title 2, or any other law, the trustees may draw from funds appropriated to the university, for use as a revolving fund, amounts necessary to make payments of obligations of the university directly to vendors. In any fiscal year, the trustees shall obtain the approval of the Director of Finance to draw amounts in excess of 10 percent of the total appropriation to the university for that fiscal year for use as a revolving fund.

(b) Notwithstanding Sections 925.6, 12410, and 16403, or any other law, the trustees shall maintain payment records for three years and make those records available to the Controller for postaudit review, as needed.

(c) (1) Notwithstanding Section 8546.4 or any other law, the trustees shall contract with one or more public accounting firms to conduct a systemwide annual financial statement audit in accordance with generally accepted accounting principles (GAAP), as well as other required compliance audits without obtaining the approval of any other state officer or entity.

(2) The statement of net assets, statement of revenues, expenses, changes in net assets, and statement of cashflows of each campus shall be included as an addendum to the annual systemwide audit. Summary information on transactions with auxiliary organizations for each campus shall also be included in the addendum. Any additional information necessary shall be provided upon request.

(d) The internal and independent financial statement audits of the trustees shall test compliance with procurement procedures and the integrity of the payments made. The results of these audits shall be included in the biennial report required by Section 13405.

(e) As used in this section:

(1) "Trustees" means the Trustees of the California State University.

(2) "University" means the California State University.

SEC. 46. Section 17581.5 of the Government Code is amended to read:

17581.5. (a) A school district or community college district shall not be required to implement or give effect to the statutes, or a portion of the statutes, identified in subdivision (c) during any fiscal year and for the period immediately following that fiscal year for which the Budget Act has not been enacted for the subsequent fiscal year if all of the following apply:

(1) The statute or a portion of the statute, has been determined by the Legislature, the commission, or any court to mandate a new program or higher level of service requiring reimbursement of school districts or

community college districts pursuant to Section 6 of Article XIII B of the California Constitution.

(2) The statute, or a portion of the statute, or the test claim number utilized by the commission, specifically has been identified by the Legislature in the Budget Act for the fiscal year as being one for which reimbursement is not provided for that fiscal year. For purposes of this paragraph, a mandate shall be considered specifically to have been identified by the Legislature only if it has been included within the schedule of reimbursable mandates shown in the Budget Act and it specifically is identified in the language of a provision of the item providing the appropriation for mandate reimbursements.

(b) Within 30 days after enactment of the Budget Act, the Department of Finance shall notify school districts of any statute or executive order, or portion thereof, for which reimbursement is not provided for the fiscal year pursuant to this section.

(c) This section applies only to the following mandates:

(1) School Bus Safety I (CSM-4433) and II (97-TC-22) (Chapter 642 of the Statutes of 1992; Chapter 831 of the Statutes of 1994; and Chapter 739 of the Statutes of 1997).

(2) County Treasury Withdrawals (96-365-03; and Chapter 784 of the Statutes of 1995 and Chapter 156 of the Statutes of 1996).

(3) Grand Jury Proceedings (98-TC-27; and Chapter 1170 of the Statutes of 1996, Chapter 443 of the Statutes of 1997, and Chapter 230 of the Statutes of 1998).

(4) Law Enforcement Sexual Harassment Training (97-TC-07; and Chapter 126 of the Statutes of 1993).

(5) Health Benefits for Survivors of Peace Officers and Firefighters (Chapter 1120 of the Statutes of 1996 and 97-TC-25).

(d) This section applies to the following mandates for the 2010–11, 2011–12, and 2012–13 fiscal years only:

(1) Removal of Chemicals (Chapter 1107 of the Statutes of 1984 and CSM 4211 and 4298).

(2) Scoliosis Screening (Chapter 1347 of the Statutes of 1980 and CSM 4195).

(3) Pupil Residency Verification and Appeals (Chapter 309 of the Statutes of 1995 and 96-384-01).

(4) Integrated Waste Management (Chapter 1116 of the Statutes of 1992 and 00-TC-07).

(5) Law Enforcement Jurisdiction Agreements (Chapter 284 of the Statutes of 1998 and 98-TC-20).

(6) Physical Education Reports (Chapter 640 of the Statutes of 1997 and 98-TC-08).

(7) 98.01.042.390-Sexual Assault Response Procedures (Chapter 423 of the Statutes of 1990 and 99-TC-12).

(8) 98.01.059.389-Student Records (Chapter 593 of the Statutes of 1989 and 02-TC-34).

SEC. 47. Section 5651 of the Welfare and Institutions Code is amended to read:

5651. The proposed annual county mental health services performance contract shall include all of the following:

(a) The following assurances:

(1) That the county is in compliance with the expenditure requirements of Section 17608.05.

(2) That the county shall provide services to persons receiving involuntary treatment as required by Part 1 (commencing with Section 5000) and Part 1.5 (commencing with Section 5585).

(3) That the county shall comply with all requirements necessary for Medi-Cal reimbursement for mental health treatment services and case management programs provided to Medi-Cal eligible individuals, including, but not limited to, the provisions set forth in Chapter 3 (commencing with Section 5700), and that the county shall submit cost reports and other data to the department in the form and manner determined by the department.

(4) That the local mental health advisory board has reviewed and approved procedures ensuring citizen and professional involvement at all stages of the planning process pursuant to Section 5604.2.

(5) That the county shall comply with all provisions and requirements in law pertaining to patient rights.

(6) That the county shall comply with all requirements in federal law and regulation pertaining to federally funded mental health programs.

(7) That the county shall provide all data and information set forth in Sections 5610 and 5664.

(8) That the county, if it elects to provide the services described in Chapter 2.5 (commencing with Section 5670), shall comply with guidelines established for program initiatives outlined in that chapter.

(9) Assurances that the county shall comply with all applicable laws and regulations for all services delivered.

(b) The county's proposed agreement with the department for state hospital usage as required by Chapter 4 (commencing with Section 4330) of Part 2 of Division 4.

(c) Any contractual requirements needed for any program initiatives utilized by the county contained within this part. In addition, any county may choose to include contract provisions for other state directed mental health managed programs within this performance contract.

(d) Other information determined to be necessary by the director, to the extent this requirement does not substantially increase county costs.

SEC. 48. Section 5701.3 of the Welfare and Institutions Code is amended to read:

5701.3. (a) Consistent with the annual Budget Act, this chapter shall not affect the responsibility of the state to fund psychotherapy and other mental health services required by Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code, and the state shall reimburse counties for all allowable costs incurred by counties in providing services pursuant to that chapter. The reimbursement provided pursuant to

this section for purposes of Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code shall be provided by the state through an appropriation included in either the annual Budget Act or other statute. Counties shall continue to receive reimbursement from specifically appropriated funds for costs necessarily incurred in providing psychotherapy and other mental health services in accordance with this chapter. For reimbursement claims for services delivered in the 2001–02 fiscal year and thereafter, counties are not required to provide any share of those costs or to fund the cost of any part of these services with money received from the Local Revenue Fund established by Chapter 6 (commencing with Section 17600) of Part 5 of Division 9.

(b) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 49. Section 5701.6 of the Welfare and Institutions Code is amended to read:

5701.6. (a) Counties may utilize money received from the Local Revenue Fund established by Chapter 6 (commencing with Section 17600) of Part 5 of Division 9 to fund the costs of any part of those services provided pursuant to Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code. If money from the Local Revenue Fund is used by counties for those services, counties are eligible for reimbursement from the state for all allowable costs to fund assessments, psychotherapy, and other mental health services allowable pursuant to Section 300.24 of Title 34 of the Code of Federal Regulations and required by Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code.

(b) This section is declaratory of existing law.

(c) This section shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 50. Section 11323.2 of the Welfare and Institutions Code is amended to read:

11323.2. (a) Necessary supportive services shall be available to every participant in order to participate in the program activity to which he or she is assigned or to accept employment or the participant shall have good cause for not participating under subdivision (f) of Section 11320.3. As provided in the welfare-to-work plan entered into between the county and participant pursuant to this article, supportive services shall include all of the following:

(1) Child care.

(A) Paid child care shall be available to every participant with a dependent child in the assistance unit who needs paid child care if the child is 10 years of age or under, or requires child care or supervision due to a physical, mental, or developmental disability or other similar condition as verified by the county welfare department, or who is under court supervision.

(B) To the extent funds are available paid child care shall be available to a participant with a dependent child in the assistance unit who needs paid child care if the child is 11 or 12 years of age.

(C) Necessary child care services shall be available to every former recipient for up to two years, pursuant to Article 15.5 (commencing with Section 8350) of Chapter 2 of Part 6 of Division 1 of Title 1 of the Education Code.

(D) A child in foster care receiving benefits under Title IV-E of the federal Social Security Act (42 U.S.C. Sec. 670 et seq.) or a child who would become a dependent child except for the receipt of federal Supplemental Security Income benefits pursuant to Title XVI of the federal Social Security Act (42 U.S.C. Sec. 1381 et seq.) shall be deemed to be a dependent child for the purposes of this paragraph.

(E) The provision of care and payment rates under this paragraph shall be governed by Article 15.5 (commencing with Section 8350) of Chapter 2 of Part 6 of Division 1 of Title 1 of the Education Code. Parent fees shall be governed by subdivisions (g) and (h) of Section 8263 of the Education Code.

(2) Transportation costs, which shall be governed by regional market rates as determined in accordance with regulations established by the department.

(3) Ancillary expenses, which shall include the cost of books, tools, clothing specifically required for the job, fees, and other necessary costs.

(4) Personal counseling. A participant who has personal or family problems that would affect the outcome of the welfare-to-work plan entered into pursuant to this article shall, to the extent available, receive necessary counseling or therapy to help him or her and his or her family adjust to his or her job or training assignment.

(b) If provided in a county plan, the county may continue to provide case management and supportive services under this section to former participants who become employed. The county may provide these services for up to the first 12 months of employment to the extent they are not available from other sources and are needed for the individual to retain the employment.

SEC. 51. Section 18356.1 is added to the Welfare and Institutions Code, to read:

18356.1. This chapter shall become inoperative on July 1, 2011, and, as of January 1, 2012, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2012, deletes or extends the dates on which it becomes inoperative and is repealed.

SEC. 52. Notwithstanding the rulemaking provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code), the State Department of Social Services or the State Department of Education may implement Section 4, Sections 7 to 11, inclusive, and Section 50 of this act, through all-county letters, management bulletins, or other similar instructions.

SEC. 53. Notwithstanding any other law, the implementation of Section 4, Sections 7 to 11, inclusive, and Section 50 of this act is not subject to the appeal and resolution procedures for agencies that contract with the State Department of Education for the provision of child care services or the due process requirements afforded to families that are denied services specified in Chapter 19 (commencing with Section 18000) of Division 1 of Title 5 of the California Code of Regulations.

SEC. 54. It is the intent of the Legislature that funding provided in provisions 18 and 26 of Item 6110-161-0001 and provision 9 of Item 6110-161-0890 of Section 2.00 of the Budget Act of 2011 for educationally related mental health services, including out-of-home residential services for emotionally disturbed pupils, required by the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.) shall be exclusively available for these services only for the 2011–12 and 2012–13 fiscal years.

SEC. 55. (a) It is the intent of the Legislature that the State Department of Education and the appropriate departments within the California Health and Human Services Agency modify or repeal regulations that are no longer supported by statute due to the amendments in Sections 24 to 26, inclusive, Section 32 to 44, inclusive, Sections 47 to 49, inclusive, and Section 51 of this act.

(b) The State Department of Education and the appropriate departments within the California Health and Human Services Agency shall review regulations to ensure the appropriate implementation of educationally related mental health services required by the federal Individuals with Disabilities Education Act (20 U.S.C. Sec. 1400 et seq.) and Sections 24 to 26, inclusive, Section 32 to 44, inclusive, Sections 47 to 49, inclusive, and Section 51 of this act.

(c) The State Department of Education and the appropriate departments within the California Health and Human Services Agency may adopt regulations to implement Sections 24 to 26, inclusive, Section 32 to 44, inclusive, Sections 47 to 49, inclusive, and Section 51 of this act. The adoption, amendment, repeal, or readoption of a regulation authorized by this section is deemed to address an emergency, for purposes of Sections 11346.1 and 11349.6 of the Government Code, and the State Department of Education and the appropriate departments within the California Health and Human Services Agency are hereby exempted, for this purpose, from the requirements of subdivision (b) of Section 11346.1 of the Government Code. For purposes of subdivision (e) of Section 11346.1 of the Government Code, the 180-day period, as applicable to the effective period of an emergency regulatory action and submission of specified materials to the Office of Administrative Law, is hereby extended to one year.

SEC. 56. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.

SEC. 57. There is hereby appropriated one thousand dollars (\$1,000) from the General Fund to the State Department of Education for purposes

of funding the award grants pursuant to Section 49550.3 of the Education Code to school districts, county superintendents of schools, or entities approved by the department for nonrecurring expenses incurred in initiating or expanding a school breakfast program or a summer food service program.

SEC. 58. This act is a bill providing for appropriations related to the Budget Bill within the meaning of subdivision (e) of Section 12 of Article IV of the California Constitution, has been identified as related to the budget in the Budget Bill, and shall take effect immediately.

County of Stanislaus and County of Los Angeles; Claimants.

Dear Ms. Todd and Mr. Shelton:

We are in the process of analyzing and preparing the draft staff analysis for the *Handicapped and Disabled Students II* test claim. In order to complete our analysis, we are requesting the Final Statement of Reasons filed as part of the formal rulemaking record for the Joint Regulations for Pupils with Disabilities (Cal. Code of Regs., tit. 2, div. 9, ch. 1, arts. 1-9, §§ 60000-60610), on June 26, 1998, as emergency regulations with the Office of Administrative Law. The Certificate of Compliance for the emergency regulations was filed on August 9, 1999 (Register 99, No. 33).

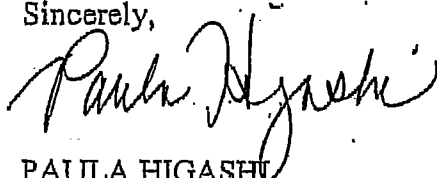

The hearing on this consolidated test claim is tentatively scheduled for either May 26, 2005, or July 28, 2005. Therefore, please submit the Statement of Reasons to our office by February 9, 2005.

Ms. Zoey Todd  
Mr. Gerald Shelton  
January 26, 2005

## EXHIBIT A

### FINAL STATEMENT OF REASONS

## JOINT REGULATIONS FOR HANDICAPPED CHILDREN

## GOVERNMENT CODE, TITLE 2, CHAPTER 26.5

## DIVISION 9. JOINT REGULATIONS FOR HANDICAPPED CHILDREN

a) Description of the Public Problem, Administrative Requirement, or Other Condition or Circumstance the Regulations Are Intended to Address

These proposed regulations implement, interpret, and make specific Chapter 26.5 (commencing with Section 7570) of Division 7 of Title 1 of the Government Code relating to interagency responsibilities for providing services to children with disabilities.

The intent of these proposed regulations is to assure conformity with the federal Individuals with Disabilities Education Act or IDEA, (20 U.S.C. Sections 1400 et seq.), its implementing regulations, including Sections 76.1 et seq., and 300.1 et seq. of Title 34 of the Code of Federal Regulations. These proposed regulations are supplemental to, and in the context of, federal and state laws and regulations relating to interagency responsibilities.

Chapter 26.5, Section 7587, mandated the development of regulations for each state department named in this chapter. Due to the interagency nature of the proposed regulations, it was necessary for the state departments to collaborate on the development of the proposed regulations. In addition, the legislature mandated that proposed regulations were to be developed with the maximum feasible opportunity for public participation and comments. During the development of these proposed regulations there have been various work groups and advisory bodies who have made regulatory suggestions.

Besides the legislative mandate, the California Department of Education (CDE) was party to the Butterfield vs. Honig law suit in 1989. The resulting decision made the CDE responsible for insuring that the terms of the Butterfield vs. Honig agreement were considered in the development of the proposed regulations for Chapter 26.5 of the Government Code.

Before the United States Office of Special Education Programs (OSEP) would accept the CDE state plan they required that regulations guaranteeing occupational therapy and physical therapy services to eligible disabled pupils be proposed. Concerns of OSEP are reflected in a CDE Program Advisory dated September 6, 1991, and also in the proposed regulations.

Current statute addresses, in part, interagency responsibilities for providing services to children with disabilities. These proposed regulations are necessary to clarify consistent procedures and criteria in the administration of related services to insure that effected state and local agencies and interested persons are informed of these procedures.

These proposed regulations reflect the change in name of the federal legislation from Education for all Handicapped Children Act of 1975 to Individuals with Disabilities Education Act of 1990 or IDEA. At this time, a change in nomenclature pursuant to IDEA alters the title to "Children with Disabilities" and deletes all references to "individuals with exceptional needs."

Emergency regulations were adopted in 1986 under the title, Division 9, Joint Regulations for Handicapped Children, Chapter 1, Interagency Responsibilities for Providing Services to Handicapped Children. The Legislature granted extensions of this emergency regulatory authority in the budget act annually to allow for the development of the permanent regulations until this year.

The proposed regulations reflect changes in California statute affecting Government Code Chapter 26.5 pursuant to: Chapter 1747, Statutes of 1984; Chapter 1274, Statutes of 1985; Chapter 1133, Statutes of 1986; Chapter 677, Statutes of 1989; Chapter 182, Statutes of 1990; Chapter 223, Statutes of 1991; and Chapter 654, Statutes of 1996. These proposed regulations also include concerns expressed by the public users of the program regarding past program implementation.

These proposed regulations also reflect changes in Chapter 6 of the Welfare and Institutions Code: Chapter 1274, Statutes of 1985; Chapter 1294, Statutes of 1989; Chapter 46, Statutes of 1990; Chapter 737, Statutes of 1990.

The extensive duplication of statute throughout these proposed regulations is necessary due to the interagency nature of these proposed regulations. Many staff members at the various state and county departments have little knowledge of statutes that pertain to other departments. The audience for these proposed regulations also includes parents and advocates who may use these proposed regulations as the basis for a complaint and due process.

b) Specific Purpose of the Regulations and Factual Basis for Determination that Regulations Are Necessary

ADOPTION OF TITLE 2, DIVISION 9, CHAPTER 1, CALIFORNIA CODE OF REGULATIONS

Chapter 1. Interagency Responsibility for Providing Services to Children With Disabilities

Article 1. General Provisions

SECTION 60000 SCOPE

This section identifies the individuals to whom the provisions of this chapter apply and clarifies that the provisions of this chapter are intended to function in conjunction with state and federal laws and regulations regarding children with disabilities.

These proposed regulations reflect the federal Education for all Handicapped Children Act of 1975 (PL 94-142) as changed by the Individuals with Disabilities Education Act of 1990 and as reauthorized in 1997 (PL 105-17).

## SECTION 60010 EDUCATION DEFINITIONS

The provisions of this section establish definitions for the terms used by the Department of Education. These definitions are necessary to insure that the terminology in the proposed regulations is consistent and will be understandable to pupils who are eligible for services, their parents and the state and local agency personnel responsible for providing the services.

Subsection (a) clarifies the meaning of simple or common words found in the chapter, the application of which may otherwise be confusing. This definition is included to assist the local agencies and the public in understanding these proposed regulations.

Subsection (b) clarifies the term "administrative designee" for non-education agency personnel having a responsibility to participate in the individualized education program (IEP) team meeting. This definition is also included to assist the public in understanding the specific role of the professional who is responsible for educational decisions.

Subsection (c) defines the meaning of the term "assessment" and references those sections of the Education Code that govern the assessment of children identified as pupils with a disability. This definition is included to assist community mental health service staff in understanding the nature of an educational assessment.

Subsection (d) defines the meaning of the term "assessment plan" and references that section of the law specifying the conditions to be observed and the procedures to be followed in the development of the assessment plan. This definition is included to alert non-education agencies before they assess a pupil that they are subject to education's procedural requirements when preparing assessment plans for related services pursuant to this chapter.

### Final Modification:

Following the public hearing, in Section 60010(d), the references to sections of Title 34 of the Code of Federal Regulations were deleted as they were not necessary. The appropriate reference is to Education Code Section 56321.

Subsection (e) clarifies the term "confidentiality" to alert all professionals that implementation of the law requires each agency to conform with the confidentiality rules of the other agencies. These confidentiality rules provide not only for protection of information but also for access to information under certain circumstances. Professional staff in the fields of education, health, mental health and social services currently are familiar with the provisions of confidentiality governing their own separate areas of responsibility. The definition serves to inform all agency professional staff of their new, broader, procedural responsibilities in the area of confidentiality. Medical and clinical records are included in this list of records to be kept confidential to conform with confidentiality requirements in the Welfare and Institutions Code that pertain to these records.

Subsection (f) defines the term "county superintendent of schools" to conform with the Education Code. The county superintendent has responsibilities under this Chapter. This definition is included to inform non-education agencies about the specific role of this administrator.

Subsection (g) clarifies that the term "day" in this Chapter means calendar day rather than work day. This definition is included to inform non-education agencies of the educational definition of "day."

Subsection (h) defines the term "designated instruction and services" and clarifies the differences between "designated instruction and services" and "related services." These phrases are sometimes used interchangeably. This definition is included because the use of the two terms has greatly confused both non-educational professionals and lay persons.

Subsection (i) defines the term "individualized education program" or "IEP." The term references those pertinent code sections that must be adhered to when preparing an IEP. This clarification is necessary to assist non-education agencies in understanding their responsibilities under Chapter 26.5, Division 7 of Title 1 of the Government Code.

#### Final Modification:

The citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

Subsection (j) is essential to define the term "individualized education program team" or "IEP team" for interagency coordination. This definition is included to assist non-education agency personnel in understanding the nature of the IEP team.

#### Final Modification:

The citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

Subsection (k) defines the term "local education agency" or "LEA." This term clarifies for non-education agencies, the local education entities responsible for providing special education and related services.

Subsection (l) clarifies the term "local interagency agreement." Education Code, Section 56220 requires that local education agencies develop interagency agreements to define the process for coordination of services to pupils with disabilities. This definition is included to clarify the need for a written document and to briefly define the interagency process.

Subsection (m) clarifies the term "necessary to benefit from special education" to insure that the primary focus of related services is the pupil's school performance. This definition is included to inform non-education professionals and lay persons about the goal of related services under special education statutes.

Subsection (n) clarifies the term "nonpublic, nonsectarian agency" as defined for educational purposes. This definition is included because the term has had a different meaning in the mental health and social services programs.

Subsection (o) defines the term "nonpublic, nonsectarian school." This definition is included because the term is specific to education law.

Subsection (p) defines the term "parent" according to the statutory change in Government Code, Section 7579.5, to reflect the surrogate parents' responsibilities and clarify that they may legally sign a consent for services. This definition is included to assist non-education agency staff in understanding the educational definition of parent and to assure that pupils have appropriate educational representation at their IEP meeting.

Subsection (q) defines the term "pupil with a disability" by clarifying that it is a synonym of "child with a disability" and the plural "children with disabilities" as defined in the Individuals with Disabilities Education Act, formerly Education of the Handicapped Act. This change in nomenclature applies only to pupils who have IEPs, formerly known as "individuals with exceptional needs." This definition is included to inform non-education agencies about the specified conditions under which a pupil may be designated as a pupil with a disability.

#### Final Modification:

The citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

Subsection (r) defines the term "qualified" as it is used to describe appropriate personnel providing special education services within their scope of practice. It is consistent with Title 5, Division 1, Chapter 3, Section 3001(x) of the California Code of Regulations. This regulation clarifies that graduate students and interns may provide services if they are properly registered and supervised.

#### Final Modification:

The citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

Subsection (s) defines the term "related services" and references the federal law that further defines it, since this is an education term not used by other agencies. Related services also includes the term "designated instruction and services" which education agencies use to describe special education services which assist pupils with disabilities in benefiting from special education.

Final Modification:

The citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

Subsection (t) defines the term "special education." This definition includes related services and references the pertinent section of the Education Code. This clarification is necessary to inform those local agencies which have the responsibility to provide related services that these services must only be included on the pupil's IEP if they are required in order for the child to benefit from his special education program.

Final Modification:

The citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

Subsection (u) defines the term "special education local plan" to clarify for non-education agencies, the scope of services to be provided within the service area.

Final Modification:

The citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

Subsection (v) identifies the area covered by the local plan as the "special education local plan area (SELPA)" within which the special education services are provided. This is the governmental agency financially responsible for assuring the provision of services.

Final Modification:

The citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

## SECTION 60020 MENTAL HEALTH DEFINITIONS

Subsection (a) clarifies the meaning of "community mental health service" as some county mental health departments have contracted with private providers to provide treatment and assessment.

Subsection (b) defines "county of origin" as used by mental health personnel to describe the funding source for children with disabilities receiving mental health services. This definition is included for non-mental health programs where there may be a different criteria for identifying a funding source.

### Final Modification:

Following the public hearing, this definition is being amended for clarity and consistency.

Subsection (c) defines the term "expanded IEP team" and clarifies this team's requirement to assess a pupil in all areas of suspected disability and to implement the placement of children identified as seriously emotionally disturbed in residential placements. This definition is included because local education agencies have been found to be out of compliance for failure to properly constitute an expanded IEP team, and to emphasize that this is a shared agency responsibility.

Subsection (d) defines "host county." The function of the host county is to provide services for children whose "county of origin" is elsewhere. This definition is included for the benefit of local education agencies because it is a mental health term.

Subsection (e) specifies that the "local mental health director" is the responsible agent of the community mental health service.

Subsection (f) clarifies that "medication monitoring" is a service that is provided pursuant to IEPs. It is also necessary to differentiate this service from the actual payment for the medications because this is not an allowable service under the special education pupils program as it is a strictly medical, and not an educational, service.

Subsection (g) defines the term "mental health assessment." This term clarifies for other agency personnel the nature and scope of mental health assessments as defined by the California Code of Regulations. Section 7576 of Chapter 26.5 of the Government Code requires such clarification.

Subsection (h) defines the term "mental health assessment plan." This definition is necessary to ensure that mental health assessments are conducted in a manner consistent with the requirements of the Education Code.

Subsection (i), which defines the term "mental health services," clarifies the nature and scope of such services, including assessments. Section 7576 of Chapter 26.5 of the Government Code requires such clarification.

Subsection (j), which defines the term "qualified mental health professional," identifies all mental health professionals who may provide mental health services and recommend mental health as a related service on the IEP. It clarifies that properly supervised MFCC and MSW interns may provide mental health services prior to licensure and that some services can be provided by a mental health rehabilitation specialist. It was also necessary to explain that the term "licensed practitioner of the healing arts" refers to a subset of the group defined in this subsection.

## SECTION 60025 SOCIAL SERVICES DEFINITIONS

This Section is essential to assist education agencies and mental health programs to achieve a common understanding of terms used by the Department of Social Services in authorizing payment for residential placements for children.

Subsection (a) defines the term, "care and supervision". The public problem is that there are four different agencies involved in this program with potentially four different uses of this term. The specific purpose for the definition is to clearly define the term for the users of the regulations as it applies to CDSS ratesetting requirements for payment purposes. The factual basis for the definition is that the definition of "care and supervision" is consistent with the statutory definition in Welfare and Institutions Code Section 11460.

Subsection (b) defines the term, "certified family home." The public problem is that there are four different agencies involved in this program with potentially four different uses of this term. The specific purpose for the definition is to clearly define the term for the users of the regulations as it applies to CDSS ratesetting requirements for payment purposes. The factual basis for the definition is that the definition of "certified family home" is consistent with the statutory definition in Welfare and Institutions Code Section 11400(c).

Subsection (c) defines the term, "certified, license-pending home." The public problem is that there are four different agencies involved in this program with potentially four different uses of this term. The specific purpose for the definition is to clearly define the term for the users of the regulations as it applies to CDSS ratesetting requirements for payment purposes, as well as for licensing purposes. The factual basis for the definition is the definition of "certified family home" is as set forth in Welfare and Institutions Sections 361.2(h), 727(b), and 16507.5(b), and Health and Safety Code 1502(a).

Subsection (d) is necessary to specify the meaning of a community care facility which is consistent with Health and Safety Code Section 1502(a). The public problem is that there are four different agencies involved in this program with potentially four different uses of this term. The specific purpose for the definition is to clearly define the term for the users of the regulations as it applies to CDSS ratesetting requirements for payment purposes, as well as for licensing purposes. The factual basis for the definition is the definition of "Community care facility" as set forth in Health and Safety Code Section 1502(a).

Subsection (e) defines, "Community treatment facility" as these are new facilities that the demanding population served by this program may need to utilize. It is also necessary to clarify that secure containment, restraint and seclusion are no longer illegal in group homes if they have this designation. The public problem is that there are four different agencies involved in this program with potentially four different uses of this term. The specific purpose for the definition is to clearly define the term for the users of the regulations as it applies to CDSS ratesetting requirements for payment purposes, as well as for licensing purposes. The factual basis for the definition is the definition of "Community treatment facility" is as set forth in Welfare and Institutions Section 4094, and in Health and Safety Code 1502(a)(8).

Subsection (f) defines "foster family agency". The public problem is that there are four different agencies involved in this program with potentially four different uses of this term. The specific purpose for the definition is to clearly define the term for the users of the regulations as it applies to CDSS ratesetting requirements for payment purposes, as well as for licensing purposes. The factual basis for the definition is that the definition of "foster family agency" is consistent with the statutory definitions in Welfare and Institutions Code Section 11400(g), and in Health and Safety Code Section 1502(a)(4).

Subsection (g) defines "foster family home." The public problem is that there are four different agencies involved in this program with potentially four different uses of this term. The specific purpose for the definition is to clearly define the term for the users of the regulations as it applies to CDSS ratesetting requirements for payment purposes, as well as for licensing purposes, where applicable. The factual basis for the definition is that the definition of "foster family home" is consistent with the statutory definition in Health and Safety Code 1502(a)(5), and for small family homes and homes of relatives Education Code Section 56155.5(b), and Welfare and Institutions Code Section 11402(a). Small family homes and the homes of relatives will rarely be used for placement of these children, but for the few cases that may be able to be placed in these homes they are included in this section.

Subsection (h) defines the term, "group home." The public problem is that there are four different agencies involved in this program with potentially four different uses of this term. The specific purpose for the definition is to clearly define the term for the users of the regulations as it applies to CDSS ratesetting requirements for payment purposes, as well as for licensing purposes. The factual basis for the definition is that the definition of "group home" is consistent with the statutory definition in Welfare and Institutions Code Sections 11400(h) and 17736(b), and Title 22, CCR, Section 80001(g)(1).

Subsection (i) defines the term, "licensed children's institution", for the mental health and social services agencies pursuant to Education Code Section 56155.5. "Licensed children's institutions" is the term used in the Education Code which most approximates the Social Services terms and is currently in use in the education community. The public problem is that there are four different agencies involved in this program with potentially four different uses of this term; this definition helps to clarify what is meant by this term for the purposes of this section. The factual basis for the definition is that the definition of "licensed children's institution" is consistent with the statutory definition in Education Code Section 56155.5.

Subsection (j) defines the term, "small family home." The public problem is that there are four different agencies involved in this program with potentially four different uses of this term. The specific purpose for the definition is to clearly define the term for the users of the regulations as it applies to ODSS ratesetting requirements for payment purposes, as well as for licensing purposes. The factual basis for the definition is that the definition of "small family home" is consistent with the statutory definition in Health and Safety Code Section 1502(a)(6).

## Article 2. Mental Health Related Services

### SECTION 60030 LOCAL MENTAL HEALTH AND EDUCATION INTERAGENCY AGREEMENT

Education Code Section 56220 (d) requires that local education agencies describe the process for coordinating services with other public agencies that are funded to serve pupils with disabilities. This description is not required to be submitted to the Superintendent of Public Instruction but is required to be a written statement.

This section sets forth the processes and procedures for determining which agency is responsible for services but will not be legally binding on the parties in excess of the requirements of Chapter 26.5 of the Government Code. This section does not preclude the parties to this local interagency agreement from increasing the scope of the agreement to meet the needs of the community.

This section on local interagency agreements has been expanded because experience in the field has shown that many local interagency agreements are not effective. The proposed requirements update the language to reflect recent changes in the Individuals with Disabilities Education Act of 1990 (reauthorized in 1997) and in state law.

Subsection (a) specifies the participants in the local interagency agreement.

Subsection (b) facilitates the implementation of this Chapter by requiring a review of the interagency agreement annually but allowing more frequent revisions as necessary. These proposed regulations require annual reviews because this program is dynamic and had numerous additional statutory changes. It is necessary for the parties to the local interagency agreement to meet and discuss the necessary changes to the local interagency agreement.

#### Final Modification:

Following the public hearing, text of Section 60030(b) was amended to read "according to a schedule developed at the local level between the agencies but no less frequently than every three years." "July 1 of each year" was deleted. Also, "The content of the agreement will remain in effect until the agencies mutually agree upon any revisions" was added to Section 60030(b) as suggested by testimony.

Subsection (c) (provisions 1 through 17) expands and clarifies the topics for inclusion in the required local interagency agreements. These provisions make clear to the parties, the essential components for a local interagency agreement to implement Chapter 26.5 of the Government Code. Practitioners in the field have indicated that the components should be specific in their content.

Local agencies must document and specify the separate and distinct roles of each agency responsible to plan for and provide services to pupils with disabilities pursuant to Section 7572 of the Government Code. The proposed provisions which are required for inclusion in the agreements are topics found to be most misunderstood between the two agencies. The Department of Education and the Department of Mental Health staff have found that those local agencies that included in their agreement such items as assessment, exchange of information, and participation in developing the individualized education program, etc. experienced fewer problems and greater cooperation and coordination.

Local agencies must develop their own agreements based upon the proposed 17 provisions. This provides them the opportunity for flexibility to address specific local problems and needs.

(c)(1) This regulation requires stronger interagency agreements in order to improve local agencies' ability to adhere to the timelines required by law. Recent court cases such as "Butterfield vs. Honig" have underscored the necessity for clearly articulated responsibilities with regard to timelines. Local mental health programs and local education agencies (LEAs) have complained about a lack of clarity with regard to timelines, and disputes and fair hearings have resulted.

(c)(2) Avoiding the interagency dispute resolution process at the state level through resolution of such disputes at the local level will enable services to be provided more quickly and preserve mental health staff and resources for treatment instead of litigation preparation. This provision should assist local interagency cooperation.

#### Final Modification:

Following the public hearing and in response to testimony, subsection (c)(2) is amended for clarity and consistency.

(c)(3) The local mental health service must be given a complete referral package by the local education agency in order to accurately assess a pupil. This provision clarifies what exactly must be in the referral package for it to be complete.

#### Final Modification:

Following the public hearing and in response to testimony (Testifier 7 [(b)]), Section 60030(c)(3) is amended to clarify time lines by deleting the "timely" references, and substituting a specific time line.

(c)(4) The field has identified problems associated with large numbers of probation and social service placed children who have special education and mental health needs. This provision addresses these problems by assigning responsibility to facilitate new referrals when a child with a disability is residentially placed by an agency other than education or mental health and is intended to prevent eligible pupils from being denied services due to their parent's residency in another county.

Final Modification:

Following the public hearing and in response to testimony (Testifier 7 [(b)]), Section 60030(c)(4) is amended to clarify time lines by deleting the "timely" reference and replacing it with a specific time line.

(c)(5) This regulation ensures that an assessment plan and its implementation are coordinated. This provision is added in consideration of the decision in the "Butterfield vs. Honig" court case. It is expected that this provision will prevent similar complaints in other counties.

(c)(6) This regulation ensures the adequate participation of the mental health professionals at the IEP team meetings and is intended to facilitate interagency cooperation and collaboration.

Final Modification:

The term "the" was added before "IEP team meetings" to improve clarity of Section 60030(c)(6).

(c)(7) This regulation requires that adequate notice of scheduled IEPs be provided representatives of local mental health service so that their participation at IEP meetings is facilitated. The field has advised the Department that LEAs sometimes fail to advise the local mental health service of upcoming IEP meetings or give such notice too close to the meeting time for local mental health to attend.

Final Modification:

Following the public hearing and in response to testimony (Testifier 7 [(b)]), Section 60030(c)(7) is amended to clarify time lines by deleting the "adequate" reference and replacing it with a specific time line.

(c)(8) This regulation ensures that the interagency process for developing the IEP is in accordance with Education Code and is explained clearly for workers in the field.

Final Modification:

The citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

(c)(9) This regulation requires services to be delivered as soon as possible in accordance with federal regulations in order to avoid compliance complaints or lawsuits.

(c)(10) Related services must be provided when school is not in session during vacation periods when they are determined to be necessary by the IEP team. Transportation services are also required to continue during the summer if required by the IEP. The transportation requirement has been included in this regulation due to input regarding the necessity for it from the superior counties, who face geographic barriers and who have poor public transportation systems.

Final Modification:

Section 60030(c)(10) was revised to read "Description of the length and duration of mental health services and transportation beyond the traditional school year including the extended year program."

(c)(11) This regulation requires that children with disabilities will be able to access their related services in accordance with federal accessibility requirements codified in the Americans with Disabilities Act.

(c)(12) This regulation ensures that schools will provide necessary space and staff support on school campuses for the delivery of related services. Due to class size reduction, space, in particular, on school campuses is a scarce resource.

(c)(13) In accordance with the Department's policy of allowing family participation and choice in their treatment, this regulation requires that pupils with disabilities and their parents be provided more than one option for their special education services. The phrase "continuum of placement options" and the requirement for non-residential, and therefore less restrictive, intervention options are also intended to facilitate family choices in treatment.

(c)(14) This regulation ensures a monitoring system for services on the IEP that are provided by a contractor. The use of contractors is increasing in response to the administration's "California competes" policy, and the need to provide oversight over such contractors is, therefore, increasing as well.

(c)(15) This regulation facilitates the timely completion of assessments through the development of a resource list of contract assessors. This provision is added in consideration of the "Butterfield vs. Honig" decision, and has also been identified by the field as necessary due to increasing community mental health utilization of contract assessors and contract

providers of other mental health services. It is anticipated that local agencies will have fewer compliance complaints if they include this provision in their interagency agreements.

(c)(16) This regulation ensures that the purpose for which a child is placed in a residential facility is to accomplish educationally related mental health treatment goals rather than to merely address dysfunctional family dynamics.

(c)(17) This regulation is intended to enhance the ability of education and mental health staff to understand and cooperate with one another because the required cross training teaches an appreciation of the differing perspectives and roles that characterize these different professions.

Final Modification:

"Mutual staff development for" was added and "The cross training of" was deleted from Section 60030(c)(17).

SECTION 60040 REFERRAL TO COMMUNITY MENTAL HEALTH SERVICES FOR RELATED SERVICES

The proposed regulations for Government Code, Chapter 26.5, Section 7572(c) included in this section are intended to ensure that a complete referral package is prepared by the LEA and forwarded to the community mental health service in a timely manner. This section requires local education agencies to include the necessary components of a referral from the education agency to a mental health program. The requirements in this section conform with Chapter 654, Statutes of 1996.

Subsection (a) clarifies who is responsible for the initiation of referrals for mental health services. For the purposes of Chapter 26.5 related services, it is necessary for a referral to be made by the LEA, IEP team or the parent.

Subsection (a)(1) clarifies that a pupil must have been assessed for special education by qualified education personnel in order to be eligible for related mental health services.

Subsection (a)(2) specifies the requirements that an LEA must comply with in order to refer a pupil to the community mental health service. A consent for referral, release and exchange of information, and permission for observation of the pupil by mental health must all be signed by the parent before a mental health referral can be made in order to protect the parent and pupils right to confidentiality.

Subsections (a)(3) (A, B, C, and D) require a pupil to have significant emotional or behavioral characteristics that are observed by qualified educational professionals in educational and other settings which impede their ability to benefit from special education in order for the pupil to meet eligibility criteria for mental health referral. This subsection also excludes students from mental health referral who are only socially maladjusted or who are experiencing temporary adjustment problems which could respond to short term counseling.

These restrictions are necessary to focus services upon a population that needs them and can benefit from them and to ensure that less restrictive interventions are attempted with the pupil prior to mental health involvement.

Final Modification:

Following the public hearing and in response to testimony (Testifier 29 [(a)(3)(d)], Section 60040(a)(3)(D) is being amended and new Section 60040(a)(3)(E) adopted to add clarity regarding the meaning of the term "short-term counseling."

Following the 15-day renote, Section 60040(a)(3)(E) is amended to correct an inadvertent error to the second usage of the word cannot to "can" in this section.

Subsection (a)(4) requires a LEA to document that a pupil has sufficient cognitive functioning to benefit from mental health services before they may refer them to mental health. This is to prevent wasting scarce mental health resources on pupils who will not experience any increase in educational benefit as a result. In the past it has been common practice for community mental health services to exclude pupils from program eligibility who had an onset of their mental health problems prior to 30 months. This excluded developmentally disabled, and autistic children from receiving services on the basis of their diagnosis. This is contrary to IDEA which mandates that pupils must be considered for services on a case by case basis and not solely by their diagnosis. This practice is also inconsistent with the legal precedent set by the "Rachel H." case which has included the developmentally disabled in mainstream classes and schools, and, as a result, more pupils with developmental disabilities are requesting services from the special education pupils program. Programs currently exist in San Francisco and Ventura counties specifically designed for autistic children in spite of the past practice of exclusion utilized by many counties, and these programs are effectively ameliorating these pupils problems. These programs invalidate the argument in support of excluding all developmentally disabled and autistic pupils from the program because they lack the cognitive capacity to benefit from services.

Subsection (a)(5) requires a LEA to attempt and document less restrictive interventions with a pupil before referring them for mental health intervention. This section clarifies that a LEA is expected to provide assessments and designated instructional services within the educational system unless these interventions are clearly insufficient, as in the case of a pupil who experiences a psychotic break. In this latter case the LEA is required to document the reasons for not attempting less restrictive interventions in the mental health referral. The Department hopes to strengthen and encourage the use of the least restrictive effective intervention through these requirements.

Subsections (b) (1-4) explain the documentation which the LEA must provide the community mental health service when they refer a pupil. This documentation includes the IEP, assessments, and information from other agencies that the LEA possesses, the parents' consent for treatment, the less restrictive interventions attempted; and a description of the behaviors that make the pupil eligible for mental health treatment.

Subsections (c)(1 and 2) allow a LEA to make a referral to a community mental health service before the education assessments are completed provided that the information on these assessments documents that the pupil meets the eligibility requirements established in subsections (a)(2-4) and provided that the LEA has attempted less restrictive and reasonable accommodations to the student by utilizing related educational services and designated instruction and services such as school counseling, guidance, resource special programs, and psychological services. This section is an attempt to address complaints that parent advocates and protection and advocacy raised in the work group that a "double timeline" exists for pupils who need mental health services because they have to wait up to 65 days (15 days for an assessment plan and 50 for an assessment) for the LEA and for the community mental health service to assess pupils. For children who obviously require mental health intervention 130 days is a long time to wait and these subsections allow concurrent referral and therefore will shorten this period of time when appropriate.

Subsection (d), identifies the components of a complete referral package when the referred pupil has not already been determined to be eligible for special education but is merely suspected of being eligible. It is necessary to provide information which is as complete as possible in this instance to the community mental health service. This will facilitate the process for determining the need for a mental health assessment and other mental health services.

Subsection (d)(1), specifies that the results of the educational assessments and any relevant reports from other agencies treating the pupil should be included in the referral package from a LEA to a community mental health service.

Subsection (d)(2), requires the inclusion of parental consent as is required by state and federal law.

Subsection (d)(3), clarifies that the LEA must provide documentation of the pupil's behavioral characteristics that qualify him or her for mental health treatment and is necessary so that community mental health services are not burdened with assessing pupils who are clearly ineligible for services.

Subsection (d)(4), requires that the LEA justify the referral for mental health services by documenting why the less restrictive interventions which have been attempted by education have failed to ameliorate the pupil's behavioral and emotional problems. This is necessary to ensure the pupils right to be taught in the general population as much as possible and to not overburden the community mental health service with pupils who can benefit from less stigmatizing school services.

Subsection (e) emphasizes that the special education pupils program is not a crisis intervention program and that it will be necessary for parents and LEAs to make referrals to a county's usual crisis service network in the case of psychiatric emergencies. This is necessary to allow time for the required procedures to be followed before providing services so that they will be appropriate and meet the pupil's educational needs. It also clarifies for parents that this is an educational and not medical program.

Subsection (f) requires a community mental health service to accept referrals which meet the standards set by Subsections (a) and (c) and is necessary to clarify for community mental health services that a lack of resources or long waiting lists are not acceptable reasons for not accepting appropriate referrals.

Subsection (g) explains the responsibility of the county of origin to provide or arrange for the pupil's IEP designated mental health services and pay for them. It also describes the responsibility of the host county to immediately forward referrals it receives for assessment or treatment of pupils placed there by another county. Resolving inter-county disputes when pupils are placed out-of-county is a problem for this program well documented in the field. Placements made by probation and social service departments from other counties are particularly problematic in this regard as they frequently do not notify either the school district or SELPA in the sending or the receiving county. Without the clear delineation of responsibilities for this circumstance, program eligible pupils might not receive the services they are entitled to and compliance complaints or requests for mediation and fair hearing could increase as a result.

#### Final Modification:

Following the public hearing and in response to testimony, subsection (g) is amended for clarity and consistency with Government Code Section 7576(g). This amendment is necessary to clarify that the procedures relating to transfer of refer and provision of treatment to and from host counties and counties of origin do not extend time lines. In addition, the subsection was amended to clarify the meaning of the word "immediately."

### SECTION 60045 ASSESSMENT TO DETERMINE THE NEED FOR MENTAL HEALTH SERVICES

This Section provides the detailed instructions that are necessary for the implementation of Government Code, Chapter 26.5, Section 7572 with regard to the components of the assessment plan and assessment.

Subsection (a) clarifies the responsibility of community mental health services when conducting assessments and specifies the time constraints for making the decision to conduct or not conduct mental health assessments. This subsection was requested by local education agencies and community mental health services to prevent misunderstandings resulting from unclear expectations.

#### Final Modification:

Following the public hearing and in response to testimony (Testifier 14 [(g)]), subsection (a) is being amended to modify the determination from 15 to 5 days.

Subsection (a)(1) requires the community mental health service to notify parents and the LEA should the community mental health service deem a mental health assessment to be unnecessary. This requirement is consistent with the Department's philosophy of parent

participation in treatment decisions because the documented refusal may inform parent's of less restrictive interventions which the LBA can attempt to help the pupil.

Subsection (a)(2) directs the community mental health service to obtain the parent's signature on the mental health assessment plan. This requirement is consistent with "consent for treatment" requirements for any mental health treatment.

Final Modification:

Following the public hearing and in response to testimony (Testifier 20 [(j)]), Section 60045(a)(2) is amended to clarify the time period.

Subsection (b) clarifies the time constraints for mental health assessment plans, and ensures that parents will be provided with information about what to expect from the mental health assessment process. It also establishes a standard for community mental health services regarding the components which must be included in the mental health assessment. This subsection is intended to facilitate the assessment process, ensure that community mental health services abide by timelines and ensure that all effected parties are informed when community mental health services agree to assess a pupil.

Final Modification:

Following the public hearing and in response to testimony (Testifier 15 [(e)]), Section 60045(b) is amended to include a consent form.

Subsection (c) is intended to ensure that, if the assessment process is impeded by the lack of parental permission, the LBA or the IEP team shall be advised. This avoids the inappropriate assignment of blame on the community mental health service, and may facilitate obtaining the parental consent or an understanding of why such consent was not granted. This provision may also facilitate a clarification to the parent and pupil of what this lack of consent means in terms of service eligibility.

Subsection (d) is necessary to establish a process to arrive at the date of the IEP meeting which signals the end of the assessment period. It clarifies that the timeline begins the moment that the community mental health receives parental consent to assess, not the moment that the parent signs such consent. This subsection is consistent with Section 56344 of the Education Code.

Final Modification:

Following the public hearing and in response to testimony (Testifier 14 [(i)]), Section 60045(d) is amended to clarify the time period.

Subsection (e) is intended to ensure that all parties are alerted to the community mental health service's problem with complying to mandated timelines midway through the IEP process. If the assessment cannot be completed, a waiver of the timeline may be requested of the parent but this subsection clearly establishes that this extension is at the sole discretion of the parent.

Final Modification:

The post-hearing amendment to subsection (e) is necessary to clarify that the extension of time lines is only acceptable if a parent agrees.

Subsections (f)(1) and (f)(2) ensure that the parents and members of the IEP team are appraised of the community mental health service assessor's service recommendations prior to the IEP meeting so that they can have the assessor attend the meeting to discuss them if they disagree. Section (f)(2) provides clarification that this recommendation will be the recommendation of the LEA staff present at the meeting. These requirements are also explained in Section 7572(d)(1) of Chapter 26.5 of the Government Code, but the statute has been repeated here as the statute alone has been unable to prevent frequent disagreements between LEA staff and mental health staff at IEPs regarding mental health recommendations. The Department's purpose in repeating this statute is to decrease the adversarial nature of such IEPs by putting the relevant statutory requirement in the more frequently referred to proposed regulations. Collaboration may be facilitated by clearly delineating the professional boundaries of the different staff members in the proposed regulations.

Subsection (g) requires the written assessment report to be provided to the IEP team so that, if the assessor is unable to attend the meeting, the other members of the team will be able to add the recommended mental health services to the pupil's IEP.

Subsection (h) ensures that the community mental health service from the pupil's county of origin reassesses the pupil every three years or whenever there is a substantial change in mental health services or a transfer of placement. This is necessary so that services remain appropriate to the changing needs of this population.

Final Modification:

Following the public hearing and in response to testimony (Testifier 20 [(1)]), Section 60045(h) is amended to clarify that the referrals and assessments are to be done in accordance with the requirements of this section.

SECTION 60050. INDIVIDUALIZED EDUCATION PROGRAM FOR MENTAL HEALTH SERVICES

Subsections (a)(1 - 4), revise many community mental health services' practice of listing services before goals and objectives in order to conform with the practices of the LEAs. This change is necessary to enable the mental health IEP recommendations to be consistent with the form utilized by the schools on IEPs. The previous inversion of the LEA order by the

community mental health services was confusing to contract and other service providers in the field and it is the Department's intention for this change to facilitate a more efficient coordination of services.

Subsection (a)(5) implements Section 7572 of Chapter 26.5 of the Government Code and is also consistent with other related California laws. This section requires a signed consent for treatment consistent with current practice and Health and Safety Code. This subsection is necessary because local education agencies were not aware of the statutes which require mental health programs to have signed consents for treatment which are separate from signed IEPs.

Subsection (b) is consistent with Education Code 56221(b)(2) which requires that an IEP be held any time that there is a change in related services from what was written at the last IEP meeting. It is also necessary to inform the parents and schools of this change so that they can consider if other, school-based services will be required by the pupil to assist him or her with this change. Community mental health services also requested this provision to document the end of their responsibility for the treatment of a pupil and for any associated risk.

#### Final Modification:

The post-hearing amendments made to Section 60050(b) in response to testimony have provided for notice to families prior to termination of services.

### SECTION 60055 TRANSFERS AND INTERIM PLACEMENTS

This section conforms with and implements Education Code Section 56325 which ensures that special education pupils continue to receive services after they transfer into a new school district or SELPA. This section is intended to address implementation problems in these situations reported by the field in which eligible pupils were denied services due to an inter-county transfer.

Subsection (a) requires the LEA to refer the pupil to the local community mental health service when they move into a new SELPA or county and have mental health services on an existing IEP. This requirement will help ensure the continuation of services pursuant to Education Code 56325 to children with existing IEPs when they move.

Subsection (b) requires local mental health programs to continue 30 day interim services to a pupil with a disability who has been made eligible in one SELPA and moves to another.

Subsection (c) requires that an IEP be convened in the new county to assess what mental health services the pupil continues to need to benefit from his or her special education. This provision will also allow the host county to consider the fit between the pupil's need and the services that they have to offer and will allow the county of origin to negotiate with the host county for scarce resources if necessary. Since counties vary considerably in resources and service philosophy the field felt that this reappraisal was necessary when a pupil is residentially placed outside his or her county of origin.

### Article 3. Residential Placement

#### SECTION 60100 PLACEMENT OF A PUPIL WITH A DISABILITY WHO IS SERIOUSLY EMOTIONALLY DISTURBED

##### Final Modification:

The post-hearing amendment to the title is necessary to clarify the LEA as the entity that determines SED status necessary for residential placement eligibility. "With a Disability" is deleted and word order is changed to clarify the regulation title subject and to correct grammar.

Subsection (a) implements Section 7572.5 of Chapter 26.5 of the Government Code. The duplication of the phrase, "a pupil with a disability who is seriously emotionally disturbed", is necessary to prevent the use of the proposed regulations out of context and to emphasize that, for residential placement to be considered, the pupil must be deemed seriously emotionally disturbed by the LEA.

##### Final Modification:

Following the public hearing, subsection (b) is being amended. The post-hearing amendment is necessary to bring the regulation into compliance with Section 7572.5(a), California Government Code and for clarity. Also, the citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

Subsection (b)(1) requires a representative of the local community mental health service to be assigned to participate on the IEP team. It has been the Department's experience in developing interagency agreements that tasks are seldom completed or even initiated unless a person with delegated authority is assigned to the task. The term authorized means that, rather than a contract provider, a community mental health case manager with the authority to make placement decisions is on the expanded IEP team.

##### Final Modification:

Following the public hearing and in response to testimony (Testifier 14 [(a)]), Section 60100(b)(1) is amended to bring the regulation into compliance with timelines pursuant to the California Education Code.

Subsection (b)(2) emphasizes the necessity for an authorized mental health representative to be on the expanded IEP team before this team may make placement recommendations. It requires the IEP team to reconvene if this representative is not present and establishes a timeline for this eventuality in order to ensure that coordination with local mental health can be effected.

Subsection (b)(3) provides community mental health departments with an opportunity to assess a pupil prior to making a placement recommendation if the pupil is unknown to them.

Subsection (c) implements Section 7572.5 (b)(1) of Chapter 26.5 of the Government Code. It clarifies the mandate that all combinations of less restrictive educational and mental health services shall be attempted and documented, or at least considered, before taking action on a recommendation for residential placement. Not only must the IEP team document the specific alternative interventions considered but also the reason for their rejection.

Subsection (d) requires the expanded IEP team to document the reasons why the services for the pupil cannot be provided elsewhere. Documentation is needed to provide the federally required audit trail to establish that other less restrictive programs were considered.

#### Final Modification:

The citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

Subsection (e) specifies that the responsibility for finding the least restrictive, cost effective residential placement alternative is the mental health case manager's. This subsection also clarifies that the mental health case manager must consult with the IEP team's administrative designee when making this determination. The need for a consultation was indicated by the field where conflicts concerning the assignment of financial responsibility for the placements have been a major problem in program implementation. This subsection also borrows some language from AB 2726 at the recommendation of Protection and Advocacy in the work group in order to be in compliance with the recent amendments to Chapter 26.5 pursuant to AB 2726.

Subsection (f) articulates the Department's policy preference for the location of the residential placement to be within or adjacent to the county of the parent's residence unless that is clearly impossible to achieve. This subsection provides a process to treat the pupil in the least restrictive environment and to thereby facilitate the goal of family reunification. It is anticipated that proximity of the family to the pupil will assist in obtaining this goal. Documentation is also required by this subsection to ensure compliance with Section 300.552(a)(3) of the Code of Federal Regulations which articulates that residential placements should be made as close to the pupils' home as possible. In addition, this subsection also cross references the type of placements in which pupils will be placed according to the definitions contained in Section 60025.

Subsection (g) implements Section 18350 of the Welfare and Institutions Code and specifies the type of residential facilities and their educational components that may be funded pursuant to this Chapter. Terms such as "licensed or certified" are essential to conform with the terms currently in use by the Department of Social Services.

Subsection (h) to clarify that placements made out of the state of California will be non-medical and non-detention, and must be certified by the Department of Education. This requirement is necessary to alert members of the IEP team that they must carefully choose placements made out of the state of California and ensure that the residential facility is approved by the State Department of Social Services and the educational facility is approved by the State Department of Education. There is a need for clarification of this issue in these proposed regulations because the Community Care Facilities Act which governs the Social Services' 24-hour out-of-home placements pursuant to Welfare and Institutions Code, Chapter 6, Section 18350, sets the standard for facilities funded through the Department of Social Services and their local agencies. Welfare and Institutions Code Sections 11460(c)(2) through (c)(3) contain the requirements for the funding of placement by CDSS that are made in out-of-state facilities.

Subsection (i)(1) assures that the specific services and the expected duration they will be required by the pupil are properly written on the IEP to conform with all other IEPs and pursuant to Education Code Section 56345(a)(5). It was determined by the field that a regulatory process is necessary to ensure that community mental health services meet the education requirements described in the written IEPs.

#### Final Modification:

Following the public hearing and in response to testimony (Testifier 14 [(a)]), Section 60100(i)(1) is amended to reflect federal law.

Subsection (i)(2) ensures that the provision of mental health services is by qualified personnel to prevent the recurrence of services being provided by unqualified persons by some contracted agencies in the past.

Subsection (j) requires the IEP team's adherence to the licensed children's institution admission criteria when making their residential placements. The adoption of this section is necessary to specify that the IEP team's recommendations for residential placement must be in accordance with the governing regulations and statutes for the various types of community care facilities for children licensed by the California Department of Social Services. These facilities include group homes, foster family agencies and community treatment facilities as specified in Section 60025(h).

#### SECTION 60110. CASE MANAGEMENT FOR A PUPIL WITH A DISABILITY WHO IS SERIOUSLY EMOTIONALLY DISTURBED AND IS IN A RESIDENTIAL PLACEMENT

This section implements Section 7572.5 (c)(1-3) of Chapter 26.5 of the Government Code and clarifies the case management responsibilities of local mental health regarding SED pupils in residential placement.

Subsection (a) requires the community mental health service directors to appoint a case manager to facilitate the residential placement of the child.

Subsection (b) addresses the frequent urgency to complete the placement of a child. The mental health program case manager responsible for coordinating placement activities must process necessary paperwork quickly when formulating a placement plan. The IDEA requires that the placement must occur as soon as possible and the Butterfield versus Honig decision reiterated this requirement.

Subsection (b)(1) establishes that the residential placement plan must provide for all of the needs of the pupil as specified on the IEP, not merely those related to mental health.

#### Final Modification:

Following the public hearing and in response to testimony (Testifier 7 [(j)]), Section 60110(b)(1) is amended to clarify the mental health case manager's responsibility to arrange for any necessary medication.

Following the 15-day renote and in response to testimony (Santa Clara County), an amendment is made to subsection (b)(1) by adding the word "monitoring" after psychotropic medication to clarify the meaning. This amendment is required to bring the subsection into conformity with the definition of "medication monitoring," found in Section 60020(f). Therefore, an additional public availability would not be required.

Subsection (b)(2) clarifies that, although the mental health case manager must plan for the pupil's educational needs, the LEA is ultimately responsible for arranging a way to meet the specific educational needs and any other non-mental health needs of a pupil who is residentially placed.

Subsection (b)(3) requires that the expanded IEP team adhere to the admission, continuing stay and discharge criteria of community treatment facilities. The adoption of this section is necessary to ensure that appropriate placements are made in a community treatment facility. There are many requirements that are unique to a community treatment facility which is a secure facility.

Subsections (c)(1-10) clarify the term "case management" for local education agency personnel and the expanded duties for mental health staff. This language specifies those activities that must be performed by the designated community mental health service case manager in order to meet the responsibilities of the participating agencies.

Subsection (c)(1) specifies the need to convene an IEP meeting to discuss appropriate residential placements pursuant to this Chapter. In the past there has been confusion in the field relating to medical placements.

Subsection (c)(2) implements Government Code Chapter 26.5, Section 7572.5 and federal law relating to the least restrictive environment. The subsection also requires the consultation with the IEP administrative designee to assure that the education agency is in agreement with the placement.

Subsections (c)(3-6) assure that the case managers complete payment authorizations and contracts, plan for the child's return to the community and facilitate enrollment in school.

Subsection (c)(7) outlines the case manager's responsibility to notify the LEA regarding transportation needs.

Subsections (c)(8-10) require contacts as required between the pupil and their case manager in order to provide monitoring of the child's placement, to determine that the residential treatment service remains appropriate, and to complete a case review within six months and at six month intervals after this initial review.

Subsection (c)(11) requires a presentation by the case manager to the interagency placement committee as the case manager will be most familiar with the case and best able to explain the necessity of this placement to the committee.

#### Article 4. Financial Provision for Mental Health Services, Special Education and Residential Placement

This Article describes the services for which financial support is a necessity.

#### SECTION 60200 FINANCIAL RESPONSIBILITIES

This Section sets forth the financial responsibilities of each agency providing special education instruction, related services, or residential placement. This is necessary as interagency coordination is complex and the staff of each agency often question who is financially responsible for providing services to children with disabilities. This section implements Section 18350 et seq. of Chapter 6 of the Welfare and Institutions Code.

Subsection (a) clarifies the purpose of this article.

Subsection (b) informs all agencies that parents are not to be charged for services received as a result of an IEP pursuant to Chapter 26.5 or IDEA.

Subsection (c) defines for all users and providers, the financial responsibilities of the community mental health service from the pupil's county of origin for providing mental health related services to pupils with disabilities. This section is inclusive of all IEP related mental health services provided in or out of California whether provided by the community mental health service or by contract. This differs from past program practice when related mental health services were required to be provided within the state of California or paid for by the LEA when in another state. This former prohibition against community mental health service payment for mental health services and case management outside the state of California did not have statutory authority. Chapter 26.5 of the Government Code is silent on the issue of out-of-state related mental health services, such as may be provided in residential placements in other states. This proposed regulation emphasizes the change from past practice by making the community mental health service from the county of origin financially responsible for related mental health services out of state as well as within the

state. It also clarifies that the county of origin and not the host county mental health service is financially and programatically responsible. Disputes over these responsibilities have frequently been problematic in the field, especially when pupils are residentially placed by agencies other than mental health or education, and sometimes result in eligible pupils not receiving services. This proposed regulation is intended to resolve this problem.

Subsections (c)(1-2) articulate the responsibilities of the host county to make their provider network known and available to the county of origin and to negotiate over scarce resources. The county of origin may negotiate a rate with a provider of their choosing not on the host counties provider network. This specificity in financial requirements and mechanisms is detailed to prevent failures to provide services to eligible pupils who are placed out of county.

Subsection (d) defines for all users and providers, the financial responsibilities of local education agencies related to the child's IEP and the placement of a child with a disability in a nonpublic, nonsectarian school, both in and out of California.

Subsection (d)(1) is specific to outpatient services and requires that transportation will be provided to these services by the LEA according to the IEP pursuant to Education Code Section 56221(b)(5).

#### Final Modification:

The citations to federal law in the regulations were updated to reflect the 1997 revisions to the Individuals with Disabilities Education Act (IDEA, Title 20, United States Code Section 1400 et seq.) and their implementing regulations (Title 34, Code of Federal Regulations, Section 300 et seq.).

Subsection (d)(2) specifies that the financial responsibility for transportation of the child to and from the child's residential placement site is the LEA's. The field is supportive of this regulation as it will resolve a frequent source of dispute.

Subsection (d)(3) assigns financial responsibility for related services provided by a contract NPS, SELPA, or LEA to the contracting LEA. This subsection also clarifies that education will no longer be paying for related mental health services when a child is placed outside of the state of California as they have in the past by stipulating that the LEA is only responsible for non-mental health related services.

Subsection (e) assigns the responsibility for authorizing payment for board and care to the community mental health service. It is the responsibility of the community mental health service to determine that the residential placement meets all of the criteria established in Sections 18350 through 18356 of the Welfare and Institutions Code. These sections of code also refer to Section 11460 of the Welfare and Institutions Code which state that rates will be established by CDSS, and outline certain requirements in order for facilities to be eligible for payment.

Subsection (f) establishes a process for payments in accordance with Section 18351 of the

Welfare and Institutions Code and specifies that county welfare bears the financial responsibility for this payment.

#### Article 5 Occupational Therapy and Physical Therapy

This Article is necessary to implement Section 7570, 7571, 7572, and 7575 of the Government Code, Chapter 26.5. These regulations reflect field input from a task force composed of parents, educators, therapists and state agencies' representatives.

#### SECTION 60300 CALIFORNIA CHILDREN SERVICES (CCS) MEDICAL THERAPY PROGRAM DEFINITIONS

This section is proposed to be adopted to provide definitions of the terms used by the California Children Services (CCS) program in describing the Medical Therapy Program in order that persons regulated may clearly understand these terms. The California Department of Education and CCS often times use different terminology to describe similar functions, such as use of "assessment" in education and "evaluation" in CCS terminology. This section is necessary in order to avoid confusion as to the meaning of a term used in CCS and to provide clear definitions to assist educators, parents, and therapists in delivering services to pupils with disabilities who are in public schools. Many of the functions that are required by IDEA and the California Education Code are new to CCS personnel. Since the California Education Code is clearer and more specific than the IDEA, references are made to the California Education Code.

Subsection (a) defines the term "assessment for medically necessary occupational therapy and physical therapy" which is necessary for conforming with Section 56320, et seq., of the Education Code and clarifying that CCS provides occupational therapy and physical therapy that is medically necessary as defined for the CCS program in Title 22, Section 41518.

Subsection (b) defines "assessment plan" which is necessary for meeting CCS's informed consent requirement and describes the CCS requirement to determine or redetermine medical eligibility for the Medical Therapy Program prior to referring a child for an assessment for the need for therapy. This section also conforms with the requirement of Section 56321 of the Education Code and IDEA for an "assessment plan" which is a new requirement for CCS.

Subsection (c) defines "assessment report for therapy" which is necessary to conform with the requirement of Section 56327 of the Education Code for an assessment report. This is a new requirement for CCS. The assessment report for therapy will convey assessment results to the IEP team to enable the team to coordinate services for the pupil.

Subsection (d) defines the term "California Children Services Panel" which is necessary to clearly identify that this group of medical providers has been approved because they meet CCS program standards for participation. This means that the providers have been determined by the CCS program to have the level of expertise necessary to treat the child's medical therapy program eligible condition.

Subsection (e) defines the term "dependent county agency" which is necessary to differentiate between local CCS programs that are administered jointly with the state rather than those administered solely by the county.

Subsection (f) defines the term "documented physical deficit" which is necessary to substantiate a pupil's eligibility for the medical therapy program. Requiring the substantiation of a suspected deficit on the special education referral will assist local education agencies in determining whether to refer a case to CCS.

#### Final Modification:

Subsection (f) is being amended following the public hearing to clarify the local education agency as the entity responsible for recording a pupil's motor dysfunction on the referral and for making referrals to CCS.

Subsection (g) defines the term "independent county agency" which is necessary to differentiate between local CCS programs that are administered solely by the county rather than administered jointly with the state.

Subsection (h) is necessary to define the term "medical therapy conference" as an interdisciplinary team meeting where the pupil's occupational therapy or physical therapy treatments are planned.

Subsection (i) defines the term "medical therapy conference team" which is necessary to identify the members who make up the team. This subsection also provides for the addition of other participants who, with parental consent, may assist in, or with, coordination of the pupil's medical case management.

Subsection (j) defines the term "medical therapy program eligible conditions" which is necessary to make clear which medical diagnoses are eligible for the CCS Medical Therapy Program services.

Subsection (k) (1-4) defines the term "medical therapy services" which is necessary to specify the range of services included in the term and that these services include treatment, consultation, and monitoring activities. This subsection also clearly explains what activities are included in each of the services.

Subsection (l) defines "medical therapy unit" which is necessary to identify where a medical therapy unit can be located and where the full scope of medical therapy services can be provided.

Subsection (m) defines "medical therapy unit satellite" which is necessary to identify the satellite as an extension of the medical therapy unit. The medical therapy unit satellite is limited in the provision of medical therapy services as it does not host medical therapy conference team meetings or comprehensive evaluations. Some Medical Therapy Units may have more than one satellite located in various public schools within the county.

Subsection (n) defines "medically necessary occupational therapy and physical therapy services" which is necessary for specifying that the CCS program will only approve services when it is determined to benefit the pupil's medical therapy program eligible condition.

Subsection (o) defines "necessary equipment" which is necessary to clarify which agency is responsible for providing the equipment for delivery of medically necessary occupational therapy and/or physical therapy by Medical Therapy Unit/satellite staff to pupils with Medical Therapy Program eligible conditions.

Subsection (p) defines "necessary space" which is necessary to clarify which agency is responsible for providing the space/facilities needed for the delivery of occupational therapy and/or physical therapy by Medical Therapy Unit/satellite staff to pupils with Medical Therapy Program eligible conditions.

Subsection (q) defines "occupational therapy and physical therapy" which is necessary to specify who can provide or supervise provision of occupational therapy and physical therapy services to pupils with a Medical Therapy Program eligible condition.

Subsection (r) defines "therapy plan" which is necessary to conform with the requirements of Education Code Section 56345 for related services on an IEP and the requirements of medical necessity of the CCS program in accordance with Title 22, Section 41518.

#### SECTION 60310 LOCAL INTERAGENCY AGREEMENTS BETWEEN CALIFORNIA CHILDREN SERVICES AND EDUCATION AGENCIES

This section is proposed to require cooperation and coordination between the local California Children's Services programs and local education agencies for the development and implementation of a local interagency agreement. The purpose of the local interagency agreement is to set forth the processes and procedures for coordinating the services for which each agency is responsible under the requirements of Chapter 26.5 of the Government Code.

Education Code Section 56220 (d) requires that local education agencies describe the process for coordinating services with other public agencies that are funded to serve pupils with disabilities. This description is not required to be submitted to the Superintendent of Public Instruction but is required to be a written statement.

Subsection (a) is necessary to ensure that liaisons are designated by both County Superintendent of Schools and/or SELPA director and the county CCS program in order to share responsibility for ensuring that the local education and CCS programs cooperate and provide needed therapy services to pupils in special education programs.

Subsection (b) is necessary to accommodate the divergent configurations of special education local plan areas that may span multiple counties while CCS is county-specific; and to define a process for collaborative decision making.

Subsection (c) is necessary to insure the development and implementation of the local interagency agreement. This plan requires that participants from the administration of both local agencies meet and jointly agree to the requirements and any other provisions of the local interagency agreement.

Subsection (c)(1) is necessary to specify in the local interagency agreement that one person in each agency will be responsible for coordinating the provisions of the agreement.

Subsection (c)(2) is necessary to assure the referral of appropriate candidates for occupational therapy and/or physical therapy to the CCS medical therapy program.

Subsection (c)(3) is necessary to include the exchange of "educational and medical" information between the LEA and county CCS programs. This provision is necessary to make specific the types of information to be exchanged and assure that the parents consent will be obtained pursuant to 56321(c) of the Education Code and Title 34, Code of Federal Regulations, Section 300.500.

Subsection (c)(4) is necessary to require the LEA to give adequate notice to CCS of IEP team meetings regarding all pupils served by the CCS medical therapy unit.

Subsection (c)(5) is necessary to enable the LEA to convene an IEP meeting when the services provided by CCS to the pupil may be changed. This subsection is required to ensure that services on an IEP will not be discontinued or changed without the participation of the IEP team and the parents pursuant to Education Code Section 56346. The Program Advisory from the Department of Education dated September 6, 1991, numbered SPB 91/92-03, was required by OSEP to bring California Department of Education into compliance in its state plan for special education.

Subsection (c)(6) is necessary to ensure that at the time the local interagency agreement is developed that information is included describing the method of the CCS program's participation in the IEP.

Subsection (c)(7) is necessary to comply with Section 56321 of the Education Code which requires that related services are a part of the IEP. It also complies with Section 56341 of the Education Code when therapy services on an IEP are amended. In the past, procedures have not been timely and participation in IEP meetings has been inconsistent.

Subsection (c)(8) is necessary to ensure that the interagency agreement will specify who has responsibility for the pupil's transportation when the pupil's educational placement is in a different location than the medical therapy unit and/or medical unit satellite.

Subsection (c)(9) is necessary to ensure communication will occur between the LEA and the county CCS program about proposed new, relocated or remodeled facilities. In the past, unilateral construction, relocation, and remodeling has occurred without proper notification to all the participants resulting in canceled therapy sessions, inconvenience to parents and staff, and the use of inappropriate facilities for providing therapy.

Subsection (c)(10) is necessary to ensure that the interagency agreement will clarify that CCS has priority for the use of the therapy space but to also make provision for allowing the space to be used by the local education agency when CCS is not on-site. When both agencies have therapists employed, it is important to maintain coordination in the use of the medical therapy unit and/or medical therapy unit satellite.

Subsection (c)(11) is necessary to include a provision in the interagency agreement to allow cross-training and coordination of staff development for both agencies which has been requested by both agencies to ensure mutual understanding.

Subsection (c)(12) is necessary to ensure that the interagency agreement will include methods of resolving conflicts prior to escalation of conflicts to the state level.

Subsection (c)(13) is necessary to ensure that the interagency agreements requires an annual review of the local interagency agreement and to keep it current with changes in program needs.

Subsection (d) outlines three additional requirements of local interagency agreements.

Subsection (d)(1) is necessary to ensure that the agreement identifies the local education agency(ies) responsible for providing space and equipment for a particular CCS medical therapy unit and/or medical therapy unit satellite.

Subsection (d)(2) is necessary to ensure that the agreement identifies the local education agency(ies) that have fiscal and administrative responsibility for providing and maintaining space and equipment for a particular medical therapy unit and/or medical therapy unit satellite.

Subsection (d)(3) is necessary to ensure that the agreement identifies the process to change the fiscal and/or administrative responsibility between local education agency(ies) for providing space and equipment for a particular medical therapy unit and/or medical therapy unit satellite.

#### SECTION 60320 - REFERRAL AND ASSESSMENT

This section is necessary to clarify the application of procedures when the LEA makes a referral to the CCS program for an assessment based on the pupil's documented physical deficit as required by the Education Code and the Code of Federal Regulations.

Subsection (a) is necessary to change the emphasis from a referral for a specific service to a referral for assessment in an area of suspected disability, in conformity with the Title 34, Code of Federal Regulations, Section 300.532(f). There has been conflict between parents who request a specific service for their disabled pupil and local education agencies that believe that the child can be served with alternative methods. The proposed changes require that there be a deficit documented on the referral for special education assessment rather than a request for specific service.

Subsection (b) is necessary to assure that an assessment will be conducted in the area of suspected disability to determine if the service is needed as required by Title 34, Code of Federal Regulations, Section 300.532, even if the pupil is not eligible for CCS or has not been referred to CCS.

Subsection (c) requires that referrals received by the LEA be recorded and sent to CCS, accompanied by 1) a consent form signed by the parents which will allow for the exchange of information between the agencies; 2) the pupil's medical diagnosis and medical information to substantiate a medical therapy program eligible condition; and 3) an application for the CCS program that will assist CCS in making a determination of eligibility for services. The language of this section is necessary to ensure that the CCS program has the necessary information to determine medical eligibility.

Subsection (d) is necessary to clarify requirements for the CCS program to follow up if adequate information is not received to determine program medical eligibility and to notify the LEA that the county CCS program is unable to determine medical eligibility based on the information in the referral and that the patient will be referred for a complete neurological examination to determine eligibility.

#### Final Modification:

Subsection (d)(1) and subsection (e) are being amended following the public hearing to include the parent as part of the notification process as this is current CCS policy and procedure.

Subsection (e) is necessary to ensure that local education agencies are notified within five days when a referred pupil's diagnosis does not qualify them for the CCS medical therapy program in order to avoid delays in the development of an assessment plan by the LEA.

#### Final Modification:

Subsection (d)(1) and subsection (e) are being amended following the public hearing to include the parent as part of the notification process as this is current CCS policy and procedure.

Subsection (f) is necessary to describe the responsibilities of the county CCS program to notify the LEA and the parent of its determination of medical eligibility for the medical therapy program. This section is necessary to ensure that the time lines for performing therapy assessments are understood by all affected individuals.

Subsection (g) is necessary to monitor compliance with time lines to avoid further due process hearings, complaints, and citations from the Office of Civil Rights. This subsection gives both agencies responsibilities for tracking the progress of a referral, assessment, and IEP.

Subsection (h) is necessary for defining the role of county CCS programs in providing assessment information to the IEP team when it has been determined that the pupil requires medically necessary occupational therapy and/or physical therapy.

Subsection (i) is necessary to assure that all agencies are complying with the IDEA of 1990.

Final Modification:

Subsection (i) is being amended following the public hearing to clarify that the completed assessment report for therapy will be provided to LEA and the parent as this is current CCS policy and procedure.

SECTION 60323 MEDICAL THERAPY PROGRAM RESPONSIBILITIES

This section is proposed to delineate the processes and responsibilities of the medical therapy program.

Subsection (a) is necessary to describe who is responsible for assessing the medical necessity of occupational therapy and/or physical therapy and what is the basis for this determination.

Subsection (b) is necessary to ensure that therapy plans are reviewed for appropriate content by the medical therapy conference team.

Final Modification:

Subsection (b) is being amended following the public hearing to clarify which services are included in the therapy plan, but only those performed by CCS occupational and physical therapists.

Subsection (c) is necessary to ensure that therapy plans are approved by the medical therapy conference team and that all medical therapy prescriptions are subject to review by the medical therapy conference team physician.

Subsection (d) is necessary to identify that only physicians of the appropriate specialty and approved by the CCS program may write medical therapy prescriptions for pupils eligible for the medical therapy program.

Subsection (e) is necessary to explain how medical necessity will be determined when there is no medical therapy conference available.

Subsection (f) is necessary to specify that medical therapy services can only be provided by or under the supervision of a registered occupational therapist and/or licensed physical therapist. Also, it delineates therapy services that will not be provided by the Medical Therapy Program staff.

## SECTION 60325 INDIVIDUALIZED EDUCATION PROGRAM FOR THERAPY SERVICES

This section is proposed to specify the steps that are required in the IEP process that are specific to the coordination of CCS and LEA for the provision of medically necessary occupational therapy and/or physical therapy services. This section is necessary to ensure consistency with other IEP processes.

Subsection (a) (1-5) is necessary to comply with the Education Code Section 56345 (a)(1-6) so that all information provided by county CCS programs to IEP teams will be complete and consistent, containing information on the pupils' level of function and the services that will be provided.

### Final Modification:

Subsection (a)(4) is being amended following the public hearing to reiterate the responsibilities and requirements of the Medical Therapy Program.

Subsection (b) is necessary to ensure CCS participation in the IEP process.

Subsection (c) is necessary to define conditions and the time frame under which the IEP team must be notified by the county CCS program that changes are being made to related services so that the IEP team can be convened to make the needed modifications to the affected pupil's IEP.

Subsection (d) is necessary to define the circumstances under which the IEP team shall be convened. This subsection is necessary to conform with the Education Code Section 56343.

Subsection (e) is necessary to ensure an IEP team review determine if there is a need for an alternative service when a pupil is not eligible for services from CCS or if the service is no longer considered medically necessary.

Subsection (f) is necessary to ensure services that are determined necessary by the IEP team are included into the IEP and are provided by qualified personnel pursuant to Title 5, California Code of Regulations, Section 3051.6 and are noted on the IEP.

## SECTION 60330 SPACE AND EQUIPMENT FOR OCCUPATIONAL THERAPY AND PHYSICAL THERAPY

This section is being proposed to clearly identify the responsibility of the LEA to provide space and equipment for medical therapy units and/or medical therapy unit satellites for the provision of medical therapy services to pupils in a public school environment.

Subsection (a) is necessary to identify specific functions of the medical therapy unit and/or medical therapy unit satellite that requires space and equipment. It clearly identifies that the specific amount of space and equipment is determined jointly according to county CCS program need.

Subsection (b) is necessary to assure that CCS has priority for the space and equipment in the medical therapy unit and/or medical therapy unit satellites but that the use of the space and equipment can be negotiated for use by the LEA when CCS staff is not present.

Subsection (c) is necessary to ensure that any decision about space and equipment, including the new construction, relocation, remodeling, and equipping of the medical therapy unit and medical therapy unit satellites must be mutually decided.

#### Article 6. Home Health Aide

#### SECTION 60400 SPECIALIZED HEALTH AIDE

This section is being proposed to identify when the State Department of Health Services is responsible for providing the services of a home health aide in the school to pupils with disabilities.

Subsection (a) (1-2) is necessary to clearly specify that the State Department of Health Services is responsible for the provision of home health aide services or services provided by specially trained personnel in the school to pupils with disabilities who are eligible for Medi-Cal.

Subsection (b) is necessary to define "life supporting medical services" so that those who are regulated shall understand what is meant by this term.

Subsection (c) is necessary to acknowledge that the State Department of Health Services shall determine the appropriate level of care that pupils with disabilities who are eligible for Medi-Cal may receive in the school.

#### Article 7. Exchange of Information Between Education and Social Services

This article is essential to describe the participation of the Department of Social Services in Chapter 26.5 of the Government Code.

#### SECTION 60505 COMMUNITY CARE FACILITIES

This section is essential to implement Section 7579 and 7580 of Chapter 26.5 of the Government Code.

Subsection (a) is essential to make specific the content of written information to be exchanged between the Department of Social Services and the Department of Education. It is required that the Department of Social Services biannually provide a rates list of group homes and foster family agencies to the Department of Education to comply with the requirement for consultation and exchange of information pursuant to Section 7580 of Chapter 26.5 of the Government Code. This subsection is proposed as a result of the use of the emergency regulations which were found to be unworkable and impractical because they gave substantial responsibility to Community Care Licensing at the local level but never communicated this

to the local level. Lists of proposed licensees, half of which are never granted licenses, are not useful to school districts. The emergency regulation requirements were ignored by the field as they imposed a significant burden on the Department of Social Services. Biannual rates lists of actual licensees are useful to school districts to assist in the placement of children. The responsibility for the exchange of information has been changed to the state level which then is made available to the local level through the education system.

Subsection (b) is essential to notify agencies other than education, that the Superintendent of Public Instruction has a responsibility to inform counties of the residential options in their counties. This is a responsibility described in the Education Code Section 56156 which corresponds with the consultation requirements of Government Code Section 7580.

Subsection (c) is essential to notify county superintendents to provide special education local plan administrators with the list of currently licensed children's institutions pursuant to Education Code 56156 that will coordinate with the list available from the Department of Social Services.

Subsection (d) is essential to provide notification of special education contact persons to directors of licensed children's institutions. This information should be available at any time from the special education local plan area administrators to facilitate communication and appropriate placements.

Subsection (e)(1) is essential to describe the types of educational information special education local plan areas are responsible to provide for the group or small family homes and to communicate with the social services agencies regarding the scope of the educational services.

Subsection (e)(2) is essential to notify the licensees that the local education agencies may not be able to respond immediately to appropriately meet the needs of a large number of new disabled students. The emergency regulations required a 15 day notification of the available special education services for the applicants for a Community Care license. This requirement is deleted because it imposed an unnecessary burden on the field and was beyond the scope of the statute.

#### Final Modification:

Following the public hearing and in response to testimony, subsection (e)(2) is being amended for clarity and consistency with Government Code Section 7580.

#### SECTION 60510 PRIOR NOTIFICATION

This section is essential to implement Section 7579 of Chapter 26.5 of the Government Code. It was inadvertently omitted from the emergency regulations. This omission is now being corrected with the following subsections by request of the field. Nothing in this section will hinder or prohibit the residential placement of a child with a disability.

Subsections (a)(1-8) are essential to effect a notification from an agency other than education to the local education agency prior to the residential placement of a pupil with disabilities in a licensed, or certified, license-pending home and before an educational placement is assured. Appropriate educational programs may not be available in all locations in California. This process for prior notification has been successfully implemented by the Department of Developmental Services for its Regional Centers. This information is available to the placing agents and will expedite the appropriate educational and residential placement of the child with a disability. The lack of information has been a serious problem in making appropriate educational placements and was requested by the field.

Subsection (b)(1) is essential to inform educational administrators of their responsibility to provide information to other agencies regarding the availability of residential and educational services and to affirm the authority of the IEP team. This has been a communication problem between agencies resulting in children being placed in rural areas in which services are unavailable or too far from the residence for the children to access.

Subsection (b)(2) is essential to prevent the unilateral placement of children in inappropriate or more restrictive educational settings which may provide an appropriate residential setting. This has been a significant and very costly problem for pupils with disabilities who are seriously emotionally disturbed and has resulted in some out of state placements.

Subsection (b)(3) is essential to affirm the authority of the IEP team and to prevent the public agency other than education from unilaterally making the decision regarding the child's special education placement.

#### Article 8. Procedural Safeguards

This Article is required by Sections 56501-56507 of the Education Code and Section 7586 of the Government Code and is essential to set forth the procedures of the procedural safeguards for agencies other than education that may be involved in hearings. The changes in this section from the emergency regulations are technical and non-substantive.

#### SECTION 60550 DUE PROCESS HEARINGS

The changes in this section reflect the deletion of the Office of Administrative Hearings from the hearing process. The due process hearings are now conducted by a contract agency.

Subsection (a) is essential to describe the situation in which a due process hearing is applicable pursuant to Education Code Section 56500 et seq.

Subsection (b) is essential to describe the steps in the mediation process and the right to waive mediation pursuant to Section 56503 of the Education Code.

Subsection (c) is essential to notify parents and all agencies that an impartial hearing officer will conduct the hearing pursuant to Section 56505 of the Education Code should mediation be waived or fail to resolve the dispute.

Subsection (d) is essential to inform staff of all agencies of their responsibilities for preparing documentation and providing testimony supporting their position in a due process hearing.

Subsections (e)(1-2) are essential to clarify the responsibilities of the hearing officer. Previous experience in the implementation of the emergency regulations for Chapter 26.5 of the Government Code has proven that the language of the Government Code, Section 7575 must be included in the regulations.

#### Final Modification:

Subsection (e) is being amended following the public hearing to clarify the responsibilities of the hearing officer.

Subsection (f) is essential to clarify that the hearing decision is the final administrative decision.

Subsection (g) specifies that the Department of Social Services' statutes and regulations relating to revocation and temporary suspension of a community care facility supersede all other department's regulations contained in this chapter. Specifically, CDSS has the authority to initiate, continue, and complete a revocation or temporary suspension action, pursuant to Health and Safety Code Sections 15050 and 15050.5, even if a stay put order is requested pursuant to 20 U.S.C. Section 1415(e). The adoption of this subsection is necessary to prevent an issuance of a stay put order in instances where a parent disagrees with a CDSS action to revoke or temporarily suspend or revoke a CCF license resulting in removal of their child from a particular facility and files a due process hearing, to enjoin the "change in educational placement" (stay put order) as prescribed in Section 56505(d) of the Education Code (pursuant to 20 U.S.C. Section 1415(e)). In such cases the stay put process interferes with CDSS responsibility to protect the health and safety of children in care. A temporary suspension order may only issue where the action is urgent and necessary to protect the health and safety of clients from physical or mental abuse, or other substantial threat to the client's safety. (See *Habrun v. State Department of Social Services* (1983) 145 Cal. App.3d 318.) The grounds for issuance of a Temporary Suspension Order usually focus on physical or sexual abuse of clients, the failure of a facility to maintain a fire clearance and criminal activity. A revocation is initiated on similar, yet not expedited, bases. This issue was litigated in *Corbett v. Regional Center of the East Bay, Inc.* (N.D.Ca. 1988) 699 F. Supp. 230. The District Court stated that the CDSS possessed the authority to continue with a licensing revocation against a group home although the court issued a stay put order concerning a client in care. The court stated that the CDSS had the authority to proceed with the revocation action based on legitimate health and safety concerns. (Corbett, at p. 232.) The inability of the CDSS to temporarily suspend a facility's license would infringe upon the integrity of the licensing program by allowing children to reside in facilities that represent an immediate threat to the child's health and safety. In addition, because only facilities that house SED children would be subject to application of a stay put order for both revocations and TSOs, SED children would be treated differently and subject the State to claims of violation of equal protection and violations under Americans with Disabilities Act and federal and state Fair Employment and Housing (discrimination based on disability).

Subsection (h) specifies that the Department of Social Services, Community Care Licensing's community treatment facility regulations concerning discharge of a pupil, supersede all other department's regulations contained in this chapter. The adoption of this section is necessary to prevent an issuance of stay put order in instances where a parent disagrees with the IEP's assessment recommending a change in the educational placement and files a due process hearing (stay put order) as prescribed in Section 56505(d) of the Education Code. The IEP team is involved in determining when a child is clinically appropriate for discharge and that the level of care and services of a community treatment facility are no longer necessary. The stay put process violates the Constitutional and Due Process rights of the children who are placed in a secured facility. When children are placed in a secured facility they must be afforded due process protection as set forth in *In re Roger S.* and *In re Michael* and their progeny. These rights of children which protect them from unreasonable restraint and deprivation of personal liberty supersede the parental right to direct the education of their children. Therefore, the stay put procedure has no bearing on the discharge of a child in a secure facility who otherwise does not meet the continued stay criteria. Furthermore, the Department of Education does not have jurisdiction to make these determinations.

Subsection (i) is essential to clarify that the California Department of Education is financially responsible to contract for the mediator and hearing officer.

#### SECTION 60560 COMPLIANCE COMPLAINTS

This section is separated from the due process section because of its unique function and the recent revision in the California Code of Regulations, Section 4650 et seq, of Title 5.

This section is essential to clarify the provisions of procedural safeguards and to alleviate the confusion in the field about due process procedures and the complaint process. This section is essential to implement Section 7585 of Chapter 26.5 of the Government Code.

Subsection (a) references the California Code of Regulations in order to provide an essential explanation to all state and local agencies providing related services to pupils with disabilities the conditions under which a compliance complaint is filed and resolved.

#### Final Modification:

Following the public hearing and in response to testimony, subsection (a) is being amended for clarity and consistency.

#### Article 9. Interagency Dispute Resolution

#### SECTION 60600 APPLICATION OF PROCEDURES

This Section is essential to specify the procedures that are necessary when there is a disagreement between agencies. There have been major disagreements between the state agencies and their local counterparts as to the operation of Section 7575 and 7576 of the Government Code.

Subsection (a) is essential to clarify for the Education and Health and Welfare Agencies and their local counterparts that these procedures apply to the resolution of agency disputes concerning the provision of services on a pupil's IEP. They also apply when the decision of the hearing officer or mediator is disputed by the effected agencies.

Subsection (b) is essential to define "dispute" as it applies to interagency responsibilities and to delineate the materials necessary to be included in the request for interagency dispute resolution.

Subsection (c) is essential to inform the educational staff that if an education agency places services on a child's individualized education program that are the responsibility of another agency, the education agency is then responsible for providing those services.

#### SECTION 60610 RESOLUTION PROCEDURE

Subsection (a) is essential because the federal government does not allow interagency dispute resolutions to interfere with the delivery of the special education and related services which are on the pupil's individualized education program.

Subsection (a)(1) is essential to ensure that the pupil is provided with as much continuity of care as is possible during the pendency of the dispute resolution by requiring the agency that had been delivering the disputed service to continue or resume providing it to the pupil. This regulation also ensures that funding for the service will be provided.

Subsection (a)(2) is essential to assign responsibility for provision of services during dispute resolution to the LEA if no agency had been providing the service.

Subsection (a)(3) is essential to allow arrangements other than those specified in (a)(1) or (a)(2) to be made by mutual agreement between the involved agencies.

Subsection (b) is essential so that all participating agencies and the public are alerted that disputes must be resolved in a timely manner.

Subsection (c) is essential to clarify for all participating agency staff, the financial responsibility of each agency once the dispute has been settled. This language was requested by education, health, and social service agency staff in order to delineate agency financial responsibilities as a component of the dispute resolution.

Subsection (d) is essential to inform all involved parties of their responsibility to notify the other parties of the conclusion of the dispute resolution. This has been a compliance issue and is included by request of all agencies.

Subsection (e) is essential to set forth timelines for the completion of the dispute resolution process as required by the Individuals with Disabilities Education Act of 1990. This subsection was included as a result of experience gained in the use of the emergency regulations by agencies that were involved in the dispute resolution process and were not notified of the resolution in a timely manner.

c) Identification of Documents Upon Which Department Is Relying

AB 3632, Chapter 1747, Statutes of 1984

d) Testimony and Response

These regulations were considered at a public hearing on September 9, 1998 in Sacramento. The public hearing was preceded by a 45-day public comment period from July 24, through September 9, 1998. Oral and/or written testimony was received from the following:

1. Phoebe Graubard, Attorney at Law  
Phoebe Graubard Law Office
2. Paul McIver, L.C.S.W.  
County of Los Angeles, Department of Mental Health  
Children and Family Services Bureau
3. Ann Miller Ravel, County Counsel  
Rima H. Singh, Deputy County Counsel  
County of Santa Clara, Office of the County Counsel
4. Robert L. Nolan, M.D.
5. Lourene Happoldt, Director of Special Services

NOTE: In the summary of the testimony, the testifiers are identified by the preceding numbers. In the cases where the testifiers commented on more than one issue, the comments are labeled by the testifier's number followed by a letter (ex. 13a, 13b, etc.)

#### Section 60000

##### 1) Comment:

60000 - Testifier 14. [(a)] (Feldman) requests that the final regulations be delayed until the federal regulations under the Individuals with Disabilities Education Act (IDEA) are adopted.

##### Response:

The Health and Human Services Agency and the State Superintendent of Public Instruction are under a Writ of Mandamus to promulgate the regulations by September 1999. To date, the United States Department of Education has not distributed regulations under IDEA. In addition, there is no indication that when the federal rules are published whether they will necessitate changes in the Chapter 26.5 regulations. Therefore, the Departments believe that it is prudent to move ahead to finalize the Special Education Pupil Program Regulations, as proposed.

Section 60010

2) Comment:

60010 - Testifier 10. [(a)] (Warboys) states that the definition of "necessary to benefit from special education" in section (m) should not be narrowly limited to the goals and objectives specified in the individualized education program (IEP). Testifier Warboys states that often a child's needs are not specifically incorporated into a written IEP objective, particularly needs and services that enable a child to participate in the least restrictive environment. The proposed regulation should be expanded to include services that assist a child in progressing toward the goals and objectives in the IEP or that address an IEP-related need.

Response:

The Departments believe that section 60010(m) as written is consistent with special education law. For example, Education Code Section 56031 defines "special education", in part, as "specially designed instruction . . . to meet the unique needs of individuals with exceptional needs, whose educational needs cannot be met with modification of the regular instruction program, and related services . . . that may be needed to assist these individuals to benefit from specially designed instruction." Following, Education Code Section 56345 requires as an element of the IEP "the specific educational instruction and related services required by the pupil." It is the responsibility of the IEP team to ensure that the IEP includes goals and objectives that address instruction and related services required by the pupil. The inclusion of such is the basis to measure the effectiveness of special education and related services.

3) Comment:

60010 - Testifier 14. [(b)] (Feldman) states that section (m) is attempting to define a term that is the definition of related services. As a result the regulation is "defining" a definition.

Response:

The Departments believe that section 60010(m) as written is necessary to assist those providing services under this Division understand the conditions that are required for the continuation of interagency services to pupils with disabilities. Government Code Section 7572(d) requires an assessment to determine if the pupil requires services to benefit from special education. Without a definition of the term "necessary to benefit from special education" there would be a lack of clarity and consistency of the test that must be applied relative to the provision of mental health, physical therapy and occupation therapy services under Chapter 26.5 of the Government Code.

4) Comment:

60010 - Testifier 15. [(a)] (Gibeaut) recommends that section (q) should emphasize that pupils with mental retardation or autism are specifically included within the definition of a "pupil with a disability." Testifier Gibeaut states that it is his understanding that children with

developmental disabilities have been denied mental health services under AB 3632 because of the nature of their disability. Testifier Gibeaut recommends that definition in section (q) be expanded to read: "persons with developmental disabilities," as defined under specific provisions of the California Education Code, California Code of Regulations, Title 20 of the United States Code and Title 34 of the Code of Federal Regulations.

Response:

The Departments believe that the definition of "pupil" or "pupil with a disability" in section 60010(q) is in full alignment with the eligibility requirements of state and federal law. State and federal special education law do not include "developmental disability" as a specific condition that renders a child eligible for special education. The definition of "developmental disability" is unique to other service delivery systems at both the state and federal level. Some of the diagnostic impressions under the term "developmental disability" are specific disabling conditions that may find a pupil eligible for special education services. Mental retardation and autism are two of these diagnostic impressions. These disabling conditions, in themselves, do not necessarily render a pupil ineligible to receive services under these regulations. Mr. Gibeaut may be confused, however, with the requirement found in Section 60040(a)(4) that the pupil's functioning, including cognitive functioning is at a level sufficient to enable the pupil to benefit from mental health services.

5) Comment:

60010 - Testifier 20. [(a)] (Weinberg) recommends that section (a) [sic] should be amended to read "'Necessary to benefit from special education' means a service that assists the pupil with a disability in progressing toward the goals and objectives listed in the IEP or in addressing an identified IEP-related need in accordance with subsection (d) of Section 7572 and paragraph (2) of subsection (a) of Section 7575 of the Government Code." Testifier Weinberg states that the justification for this change is that a student's IEP may not have goals and objectives written for all the student's identified needs. For example, a student might require mental health services in order to remain in a less restrictive environment or simply to attend school. There may not be any specific goals or objectives related to these needs; they may simply be described under the present levels of performance.

Response:

The Departments believe that section 60010(m) as written is consistent with special education law. For example, Education Code Section 56031 defines "special education", in part, as specially designed instruction . . . to meet the unique needs of individuals with exceptional needs, whose educational needs cannot be met with modification of the regular instruction program, and related services. . . . that may be needed to assist these individuals to benefit from specially designed instruction." Following, Education Code Section 56345 requires as an element of the IEP "the specific educational instruction and related services required by the pupil." It is the responsibility of the IEP team to ensure that the IEP includes goals and objectives that address instruction and related services required by the pupil. The inclusion of such is the basis to measure the effectiveness of special education and related services. It

would not be appropriate to include, on the IEP, goals and objectives that are not related to instruction or related educational services.

6) Comment:

60010(i) - Testifier 13. [(a)] (Mentink) commented in the following manner: "Section 60010. (i) This subdivision should also reference Educ. Code Sec. 56345.1 and 20 U.S.C. Sec. 1414(d)(1)(A)(vii). Rationale: Besides the elements specified in Section 56345 and section 300.341 through 300.349 (reference to the federal regulations could probably end at 300.346) state and federal laws require a statement of transition services in every IEP for children over 16 and for children over 14 in the case of federal law."

Response:

The Departments agree with the intent of Mr. Mentink's suggestion. Due to the fact that federal regulations have not been issued to clarify the 1997 amendments to the Individuals with Disabilities Education Act (IDEA), it would be prudent to limit reference to law, in the instance that law defines terms. For purposes of the term "individualized education program," IDEA does, in fact, define this term. Therefore, the Departments propose that section 60010(i) be amended to read "Individualized education program, hereinafter 'IEP,' means a written statement developed in accordance with Section 7575 of the Government Code, Sections 56341 and 56342 of the Education Code and Sections 300.340 through 300.350 of Title 34 of the Code of Federal Regulations, which contains the elements specified in Section 56345 of the Education Code and Section 300.347 of Title 34 of the Code of Federal Regulations."

7) Comment:

60010(j) - Testifier 13. [(b)] (Mentink) commented in the following manner: "(j) This subdivision should reference Title 20 U.S.C. Sec. 1414(d)(1)(B) instead of 34 C.F.R. Sec. 300.344. Rationale: Section 300.344 does not include the 1997 amendments to the federal statute requiring the participation, for example, of at least one regular education teacher on the IEP team."

Response:

The Departments agree with Mr. Mentink's suggestion. Therefore, the Departments propose that section 60010(j) be amended to read "Individualized education program team, hereinafter 'IEP team,' means a group which is constituted in accordance with Section 56341 of the Education Code and 20 USC Section 1414(d)(1)(B)."

8) Comment:

60010(m) - Testifier 13. [(c)] (Mentink) commented in the following manner: "(m) Instead of the language 'toward the goals and objectives listed in the IEP' the subdivision should read 'toward the any goals and or objectives listed in the IEP.'"

"Rationale: This amendment will avoid the confusion likely if a student is required to show that he/she requires a related service to progress toward the goals and objectives [all of them, plural] listed in the IEP. A child may be able to make progress toward some of his goals or objectives without provision of a related service. This fact should not be interpreted to prohibit the provision of a related service if it is required to assist the child to progress toward one or more of the goals or objectives listed in the IEP."

Response:

The Departments believe that section 60010(m), as written, is consistent with special education law. For example, Education Code Section 56031 defines "special education", in part, as "specially designed instruction . . . to meet the unique needs of individuals with exceptional needs, whose educational needs cannot be met with modification of the regular instruction program, and related services . . . that may be needed to assist these individuals to benefit from specially designed instruction." Following, Education Code Section 56345 requires, as an element of the IEP, "the specific educational instruction and related services required by the pupil." These sections of law encourage, rather than prohibit, related services if such services are necessary for the student to benefit from special education instruction. In addition, Education Code Section 56343 requires the IEP team to review the progress of the pupil and make any necessary revisions. The intent of this law is not to disrupt needed services to pupils with disabilities, but review and adjust, as necessary, services that will provide an educational benefit.

9) Comment:

60010(m) - Testifier 13.(d) (Mentink) commented in the following manner: "(m) An additional sentence must be added to subdivision (m) as follows.

"In addition, 'necessary to benefit from special education' shall also mean a service that assists the pupil with a disability in accessing and participating in the educational activities of his school placement from which the student will not benefit as a result of his/her disability.

"Rationale: Goals and objectives are not written for every aspect of a special education pupil's day. This fact cannot prevent the provision of related services to enable the child to participate in and benefit from those aspects of his/her placement. Transportation is the most obvious example. An IEP goal is not written that 'the pupil shall get to school each day' for each of the tens of thousands of special education pupils who receive transportation as a related service. Intermittent catheterization or tracheotomy suctioning are related health care services which are not directly related to achievement of a goal in spelling or math but they are vital to the child being at school where these other goals and objectives are addressed. These services are provided notwithstanding the fact that the child's educational goals do not include elimination of urine or breathing.

"Similarly, IEP goals are often not written for other activities that it is simply assumed the child will be able to do or be assisted in doing so that he can access and participate in the

special and/or regular education instruction he/she receives. A special education pupil's program is more than the time spent in specialized settings. Pursuant to federal law, special education is to take place in general education classrooms and utilizing regular education curriculum unless, even with supplementary aids and services, education cannot be achieved satisfactorily. (20 U.S.C. Sec. 1412(a)(5)(A).) The general education teachers of special education pupils who spend part or all of the day in regular education settings often require the consultative services of special educators. This consultation transforms regular education into special education. Mental health services may be required for a student to simply stay in attendance or stay on campus. Physical therapy may be required for a child to ambulate about the classroom and school. Occupational therapy may be required for a child to engage in motor activities necessary to the development of other skills beyond the basic motor skills.

"The 'necessary to benefit' standard cannot be limited to specified IEP goals or to a direct relationship to specified IEP goals. IEP meetings and IEP documents would become an unwieldy process if every understood aspect of a special education pupil's access to and participation in his/her school and school life had to be anchored to a specific IEP goal or objective. IEP teams are simply not going to do this. But where related services are required for a child to, for example, under the amended IDEA (see 20 USC Sec. 1414(d)), participate in the regular curriculum and regular nonacademic and extracurricular activities, the law will require these services notwithstanding the absence of a specific IEP goal or objective."

Response:

Mr. Mentink has gone to great lengths to provide examples of supports that students may need to succeed in education programs. However, the Departments believe that section 60010(m) as written is consistent with special education law. Education Code Section 56031 defines "special education", in part, as "specially designed instruction . . . to meet the unique needs of individuals with exceptional needs, whose educational needs cannot be met with modification of the regular instruction program, and related services . . . that may be needed to assist these individuals to benefit from specially designed instruction." In addition, Education Code Section 56345 requires, as an element of the IEP, "the specific educational instruction and related services required by the pupil." It is the responsibility of the IEP team to ensure that the IEP includes goals and objectives that address instruction and related services required by the pupil. The inclusion of such is the basis to measure the effectiveness of special education and related services. While other supports may be necessary to enable students to participate in special education, these services, in themselves, are not necessary considered to be instruction or related services. The determination, of such, is the responsibility of the IEP team and must be part of the IEP, if deemed by the members.

10) Comment:

60010(q) - Testifier 13.[(e)] (Mentink) commented in the following manner: "(q) This subdivision should be amended to say 'from birth through 21-22 years of age[.]'"

"Rationale: The subdivision limits eligibility to children from birth through age 21 but also extends eligibility to those who meet the requirements of Education Code Sec. 56026, which

extends eligibility to individuals up to the age of 22 and in certain cases beyond their 22nd birthday. In that state law has extended eligibility to this age, these regulations cannot rely on the maximum federal age of 21 to limit eligibility for these related services. [20 U.S.C. Sec. 1402(8)(B); *Town of Burlington v. Department of Education*, 736 F.2d 773 (1st Cir., 1984); *David D. v. Dartmouth School Committee*, 775 F.2d 411 (1st Cir., 1985); *Geis v. Board of Education*, 774 F.2d 575 (3d Cir., 1985); *California School for the Blind v. Hong*, 736 F.2d 538 (9th Cir., 1984); *Doe v. Angrig*, 651 F.Supp. 424 (D. Mass., 1987).]

Response:

Both state and federal special education law limit the outer age of eligibility through age 21. State law [Education Code Section 56026(b)(4)(A)] does allow special education services for students who become 22 years of age during the months of January to June, inclusive, while participating in a special education program. However, for purposes of definition, the language proposed in the regulations is consistent with state and federal special education law.

11) Comment:

60010(q) - Testifiers 2. [(a)] (McIver) and 27 (McIver) recommended the following changes:

"Sections 60010, 'Education Definitions' and 60020, 'Mental Health Definitions', are consistent in their use of the term 'pupil'. However, Section 60010(q) should be amended to read 'Pupil' or 'Pupil with a disability' means those children, birth through 17, and adults, 18 through 22 to be consistent with Education Code 56026(c) and to clearly delineate that children and some adults are fully eligible and entitled to participate in Special Education and related services."

Response:

The Departments concur with the commentor regarding the concept expressed, but not the specific language he proposed to address this issue. While Education Code 56026 establishes exceptional circumstances that enable a California pupil to complete their last semester of study after age 22, this is established in California Education Code and need not be duplicated in these proposed regulations. The Departments have determined that, by removing the word "children" from the proposed regulation, the language becomes more consistent with the stated ages of eligible special education pupils and will allow children as well as some adults to participate in Special Education and related services.

Final Modification:

q) "'Pupil' or 'Pupil with a disability' means those children students, birth through 21 years of age..."

12) Comment:

60010(s) - Testifier 13.[(f)] (Mentink) commented in the following manner: "(s) All references to section in Title 20 of the United States Code must be checked because they do not reflect the new location of certain provisions of IDEA following the 1997 amendments. The reference to Section 1401(a)(17) is now 1401(22). Moreover, the drafters of these regulations must also consider that many references to sections of Title 34 of the Code of Federal Regulations will become obsolete following finalization of the new IDEA regulations."

Response:

The Departments generally agree with Mr. Mentink's comments. This however, requires a two part response. First, the Departments propose to amend section (s) to read "'Related services' means those services that are necessary for a pupil with a disability to benefit from his or her special education program in accordance with 20 USC Section 1401(22)." Second, the United States Department of Education has not distributed regulations under the 1997 IDEA. Once these regulations have been distributed to the states, adjustments can be made in these proposed rules. Until that time, the Departments believe that it is prudent to move ahead to finalize the Special Education Pupil Program Regulations, as proposed.

13) Comment:

60010(u) - Testifier 13.[(g)] (Mentink) commented in the following manner: "(u) References to sections 56170 through 56172 are erroneous and should probably be replaced by reference to section 56200 through 56218."

Response:

The Departments agree with Mr. Mentink's comments. Therefore, the Departments propose to amend section (u) to read "'Special education local plan' means a plan developed in accordance with sections 56200 through 56218 of the Education Code which identifies each participating LEA's roles and responsibilities for the provision of special education and related services within the service area."

14) Comment:

60010(v) - Testifier 13.[(h)] (Mentink) commented in the following manner: "(v) See comment to subsection (u) above re section 56170."

Response:

The Departments agree with Mr. Mentink's comments. Therefore, the Departments propose to amend section (v) to read "'Special education local plan area,' hereinafter 'SELPA,' means the service area covered by a special education local plan, and is the governance structure created under any of the planning options of Section 56200 of the Education Code."

15) Comment:

60010(reference) - Testifier 13. [(i)] (Mentink) commented in the following manner: "Any changes to code section numbers must be reflected in the Reference section."

Response:

The Departments agree with Mr. Mentink's comment.

Section 60020

16) Comment:

60020(b) - Testifier 13. [(j)] (Mentink) commented in the following manner: "Section 60020. (b) This definition must be completely changed as follows:

"'County of origin' for mental health services is the county in which the parent of a pupil with a disability resides. If the rights of the parent to make educational decisions on behalf of the child have been terminated or when, after due diligence, the parent cannot be located or refuses to participate in educational decision making on behalf of the child, and if the child has been made a ward or dependent of the court or a conservatee, the county of origin shall be the county in which this legal status currently exists.

"Rationale: Any reference to adoptee must be removed. It cannot be the intent of the drafters that an adopted child's county of origin is the county where that status was first established.

"There is no authority for distinguishing between natural and adopted children; it is, in fact, contrary to law. Any implication that the county of origin of wards, dependents or conservatees is anything other than the parents' county of residence, where the parents continue to make educational decisions on behalf of the child must be corrected. The second sentence seems to carve out wards, dependents, adoptees, and conservatees, notwithstanding that their parents may be living in a different county than where that status was first established, notwithstanding that status may have been established many years ago, and notwithstanding that the parents may retain complete control of educational decisions for the child. Assigning service responsibility to a remote and irrelevant county will only confuse and delay the provision of needed services.

"The purpose of the amendment above is to assure that the county of origin is not a county which does not currently have some degree of jurisdiction over and responsibility for the child."

Response:

The Departments partially concur and partially disagree with the comments. Section 60010(k) of these proposed regulations defines the Local Education Agency as the analog to

the mental health definition of "county of origin." The specifics of which education agency has responsibility for a child are established in Education Code Sections 48204(a), 56041, which establish concepts such as the "district of residence" and "educational responsibility" for pupils in different circumstances.

Government Code Chapter 26.5 Section 7570 is the statutory basis of this proposed regulation. It requires the following:

"Ensuring maximum utilization of all state and federal resources available to provide children and youth with disabilities...with a free appropriate public education...shall be the joint responsibility of the Superintendent of Public Instruction and the Secretary of Health and Welfare."

Because of this statutory requirement, county mental health departments must utilize adoption assistance and Medi-Cal when possible, and the county where the adoptee's status is established administers these programs. In addition, this regulation does not deny the right of an adoptee to participate in this program if they are eligible. Their parents are also not denied their parental right to represent their child's educational interests. Therefore, this regulation is consistent with Family Code § 8616.

This subsection only establishes which county has fiscal and programmatic responsibility to provide the necessary mental health services. The same timelines apply to services delivered to adoptees, regardless of the county of origin, and this proposed regulation in no way abridges these temporal requirements.

The Special Education Pupil's Program is a voluntary one, therefore inquiries regarding their adoption status are not a violation of an adoptee's right to privacy since the adoptee is not required to participate in the program, and, is not, therefore, required to reveal their adoptee status.

Finally, these proposed regulations do not allow denial of, or delay in, services to children who are receiving those services or assessments in a host county.

#### Final Modification:

"County of origin" for mental health services is the county in which the parent of a pupil with a disability resides. If the pupil is a ward or dependent of the court, an adoptee receiving adoption assistance, or a conservatee, the county of origin is the county where this status was first established by the local court currently exists. For the purposes of this program the county of origin shall not change for pupils who are between the ages of 18 and 22.

#### 17) Comment:

60020(b) - Testifier 29. [(a)] (McCaustland) made the following comment:

"'County of Origin' is spelled out with regards to mental health services. I believe that the county of origin should also be defined specifically with the educational definition. School districts frequently clash over district responsibility, especially when a child is hospitalized, turns 18 years of age, is a dependent or ward of the court. Specific clarification with the school districts would be most helpful."

Response:

Please see response to comment 16) of this section of the Statement of Reasons.

18) Comment:

60020(b) - Testifier 20.[(b)] (Weinberg) suggested the following changes:

"Proposed regulation:

"County of origin" for mental health services is the county in which the parent of a pupil with a disability resides. If the pupil is a ward or dependent of the court, an adoptee, or conservatee, the county of origin is the county where this status was first established by the local court. For the purposes of this program the county of origin shall not change for pupils who are between the ages of 18 and 22.

Recommended Changes:

"County of origin" for mental health services is the county in which the parent of a pupil with a disability resides. If the pupil is a ward or dependent of the court, an adoptee, or conservatee the county of origin is the county where this status was first established by the local court. For the purposes of this program the county of origin shall not change for pupils who are between the ages of 18 and 22.

Justification:

The State Department of Mental Health has determined that adoptee status is irrelevant and that all persons in California have a right to privacy under the state constitution, Article I §1. Furthermore, Family Code § 8616 states that "the child and the adoptive parents shall sustain towards each other the legal relationship of parent and child and have all the rights and are subject to all the duties of that relationship."

Response:

Please see response to comment 16) of this section of the Statement of Reasons.

19) Comment:

60020(b) - Testifier 10.[(b)] (Warboys) suggested:

"We are very concerned about the shift of both the programmatic and fiscal responsibility for mental health services as well as the categories of children included in this proposed regulation. As you are certainly aware, the shifting of these responsibilities inevitably creates delays and logistical problems in the completion of assessments and the provision of appropriate services. (How will community mental health services in each of the 58 counties be able to work with LEAs and community mental health services in 57 other counties? Will counties of origin request that children travel to them for mental health assessments and services? Will host county LEAs be required to provide transportation to the county of origin? Furthermore, children who reside in the same county, or even within the same family, may receive different levels of service based solely on their "county of origin." Shifting only the fiscal responsibility or deleting the county of origin provision would greatly reduce the possibility of delays and logistical problems of completing timely assessments and providing appropriate services for children. At a minimum, the proposed regulation should be limited, as described below, and revised to clarify that mental health assessment or services shall not be delayed or denied because of a child's county of origin.

Additionally, there simply is no logic to the categories of children included in Section 60020(b). The requirement that the mental health needs of any child who is an adoptee must be served by the county where the adoption took place is not only illogical, but also discriminatory. Within the category of "adoptees" are many different types of adoptions and many of those adoptive parents are receiving no assistance of any type from the county where the adoption took place. If the intent of this section is to shift responsibility for mental health services to a county that is paying adoption assistance benefits or some other form of aid on behalf of a child with special need, then this proposed regulation should be more narrowly crafted to apply solely to those adoptive situations. Additionally, we believe that no LEA has the authority to even inquire regarding whether a child is an adoptee as a condition of commencing an assessment regarding special education needs or providing special education services.

We also question the logic of carving out "adoptees, conservatees, wards and dependents of the court", but not children who are in subsidized guardianships and are not court dependents. The fiscal concerns seemingly would be similar whether a child is an adopted child receiving adoption assistance or a non-court dependent child in a subsidized guardianship.

Our last concern regarding this provision is the definition of the "county of origin" as the county where the child's status as an adoptee, dependent, ward or conservatee was first established. In some cases the county in which the adoption, wardship or dependency was first established might not be the county that is responsible for paying for placement or other services arising from the adoption, dependency or wardship. If the intent is to shift the fiscal responsibility for mental health services to the county having the current fiscal responsibility for the child's Medi-Cal and/or out-of-home placement costs, then the regulation should be revised to reflect that intent.

Response:

Please see response to comment 16) of this section of the Statement of Reasons.

20) Comment:

60020(g) - Testifier 15.[(b)] (Gibeaut) suggested:

"Mental health assessment" should be defined to expressly include a formal diagnosis, which is the cornerstone of professional mental health assessment and treatment. A diagnosis from the psychiatric Diagnostic and Statistical Manual is essential for the expanded IEP team to be fully informed about the pupil's mental health needs. Problem behaviors are often symptoms of underlying mental disorders. Formal diagnosis has the following benefits in the school setting:

Correcting false attributions (e.g., that the child is "spoiled" or the behavior is the result of poor parenting);

Providing a basis for evaluating appropriateness of mental health services (e.g., matching treatment to specific conditions, based on current mental health research and knowledge); and

Offering a basis for support services to the parent, including referral to the appropriate self-support/advocacy organization.

We suggest that the definition be changed to read as follows:

"'Mental health assessment' is a service designed to provide formal, documented evaluation or analysis of the nature of the emotional or behavioral disorder, including formal diagnosis."

Response:

The Departments do not concur in the testifier's proposed changes. Section 60030(c)(3) and Section 60040 of these proposed regulations establish minimum requirements regarding what reports and information must be included in an appropriate referral package from the LEA to a community mental health service. If these requirements are not met, then the assessment would be invalid and inappropriate. The proposed regulations ensure that LEAs include enough documentation in their referrals to community mental health services to enable the provision of an appropriate assessment and to facilitate a pupil's access to a free and appropriate public education.

Mental health assessments pursuant to an IEP often become part of the cumulative file of the pupil assessed. While the Education Code does provide limited confidentiality, mental health files at county mental health agencies are subject to greater confidentiality requirements by Welfare and Institutions Code Section 5328. Mental Health diagnoses can result in social stigma if educational personnel, untrained in these issues, should unwittingly share this information with inappropriate parties. Most community mental health services do complete

a 5 axis DSM IV diagnosis as part of their assessment, but for the above reasons it is usually not included in the assessment that is presented at the IEP team meeting. The damage that can result to the pupil far outweighs the possible benefit. Also, the main purpose of the mental health assessment is for the community mental health service to recommend appropriate mental health services that enable the student to benefit from their education. This purpose can be accomplished without referencing the DSM IV diagnosis. Therefore, no change will be made in the regulations in response to this comment.

21) Comment:

60020(g) - Testifier 12.[(a)] (Brogan) proposed the following changes:

"The Commentor suggests that the following phrase be added to the subsection: "The content of this evaluation may vary depending on currently available reports."

Response:

The Departments do not concur. Minimum requirements are specified in Sections 60030(c)(3) and 60040 and do not have to be repeated here. Please see response to comment 20) of this section of the Statement of Reasons.

22) Comment:

60020(i) - Testifier 13.[(b)(2)] (Mentink) proposed the following changes:

"(i) The definition of Mental Health Services should include vocational and socialization services and crisis management.

"Rationale:

The new regulatory definition of Mental Health Services departs significantly from the previous definition in the emergency regulations. The previous definition referenced Title 9 C.C.R. Sec. 542 and 543. Vocational and socialization services were provided under Section 542 and crisis management services were provided under Section 543. Those services are no longer listed under the new proposed definition. These services were part of the AB 3632 mental health entitlement for 12 years under the previous emergency regulations without adverse fiscal impact and we request that they not be terminated."

Response:

The provision of vocational services is assigned to the State Department of Rehabilitation by Government Code Section 7577.

Crisis service provision is delegated to be "from other public programs or private providers, as appropriate" by these proposed regulations in Section 60040(e) because crisis services are a medical as opposed to educational service. They are, therefore, excluded under both the

Tatro and Clovis decisions. These precedents apply because "medical" specialists must deliver the services. A mental health crisis team involves specialized professionals. Because of the cost of these professional services, providing these services would be a financial burden that neither the schools nor the local mental health services are intended to address in this program.

The hospital costs of crisis service provision are explicitly excluded from this program in the Clovis decision for the same reasons.

Additionally, the IEP process is one that responds slowly due to the problems inherent in convening the team. It is, therefore, a poor avenue for the provision of crisis services. While the need for crises services can be a predictable requirement over time, the particular medical requirements of the service are better delivered through the usual local mechanisms established specifically for this purpose.

23) Comment:

60020(j) - The following changes were suggested by Testifier 15.[(c)] (Gibeaut):

"We question whether "recreational therapist" should be included within the definition of "qualified mental health professional", unless recreation therapists are licensed to provide mental health assessments. The other professionals included within the definition have the ability to conduct mental health assessments, including formal clinical diagnosis."

Response:

The Departments concur with the California Mental Health and Developmental Disabilities Training Center. Section 7572 (c) of the Government Code requires that: "Psychotherapy and other mental health assessments shall be conducted by qualified mental health professionals as specified in regulations developed by the State Department of Mental Health..." Therefore, changes will be made in the regulation to exclude recreation therapists.

This section is entitled "mental health definitions" and has the specific purpose of clarifying mental health terminology. The section is, therefore, limited in its scope and intentionally makes no comment on school personnel qualifications or lack thereof. To make such comments here would be inappropriate as it would exceed the scope of the section. Therefore, no change will be made to the regulations in response to the comment from the Fullerton School District.

Final Modification:

"Qualified mental health professional" includes the following licensed practitioners of the healing arts: a psychiatrist; psychologist; clinical social worker; marriage, family and child counselor; recreation therapist; registered nurse; mental health rehabilitation specialist; and others who have been waived under Section 5751.2 of the Welfare and Institutions Code. Such individuals may provide mental health services, consistent with their scope of practice.

24) Comment:

60020(j) - The following changes were suggested by Testifier 2. [(a)] (Happoldt/Valdez):

"Section 60025(j) [(sic, Section 60020(j))] should be amended to add, 'nothing in this definition should be construed as impugning the qualifications of a credentialed school psychologist, school social worker, school counselor or school nurse to provide services within the school setting and within the scope of their credentials.'"

Response:

Please see the second part of response to comment 23) of this section of the Statement of Reasons.

Section 60025

25) Comment:

60025 - Testifiers 2. [(2)(b)] (McIver) and 27. (McIver) commented in the following manner: "Section 60025, 'Social Services Definitions', is replete with references to 'children', and should be amended to the use of 'Pupil'. More significantly, however, are the exclusive terms 'certified family home', 'certified, license-pending home', 'community care facility', 'community treatment facility', 'foster family agency', 'foster family home', 'group home', 'licensed children's institution', and 'small family home'. All of these categories are exclusive to the residential care of children."

Response:

Because different terms are used by different governmental entities and may not have the same meaning to all parties, separate definition sections were created in the regulations. The Social Services Definitions Section is provided to define terms as used by the California Department of Social Services (CDSS) and the county social services departments to describe not only types of placements, but also for payment purposes. For children placed in out-of-home care pursuant to a court order, board and care costs under the foster care program may be paid until the age of 18. If a child is completing high school or a vocational program, the board and care costs may be paid under the foster care program until age 19. Foster care payments are established according to statute contained in Welfare and Institutions Code Sections 11460 through 11467.

The issues raised by the testifier are not as much issues that the regulations do not address, as they are problems with the statute. As the testifier points out, Chapter 26.5 of the Government Code permits the payment of board and care costs through age 22. Therefore, some of the pupils being served are actually adults. Section 18350 of the Welfare and Institutions Code sets forth the guidelines for the payment of board and care costs for children placed pursuant to Chapter 26.5. Throughout this Section references are made to "children" and not to "pupils". The Section also states that payments shall be made based on

rates established in accordance with Welfare and Institutions Code Sections 11460 through 11467. As these Sections establish board and care rates for foster care payments, they are also filled with references to "children". The definitions in the Social Services Definition Section make references to statute, and accurately reflect what is contained in statute regarding placements and payment. It would be possible to use the term "pupil/children", but that seems somewhat confusing and really doesn't address the larger problem.

#### Sections 60025 and 60100(g)

#### 26) Comment:

60025 and 60100(g) - Testifiers 2.[(c)] (McIver) and 27. (McIver) commented in the following manner: "In order to meet the needs of all eligible SED pupils, whose IEP calls for out of home placement, there must be provisions for placement of young adults, ages 18 through 22. In some instances, when it is appropriate, a residential care agency may seek a waiver from Community Care Licensing to enable an adult to remain in a child/adolescent facility, but it is not always appropriate and waivers are frequently denied. Occasionally, the need for out of home placement is not identified until the pupil is 17 years old and most residential care agencies will not admit a 17½ year old to their program when they prefer younger clients that may be able to remain in placement long enough to fully benefit from the program. An adult, age 18, may not be admitted at any time to a child/adolescent facility.

"In order to rectify this problem, there must be provisions in the regulations to include adult residential care facilities, such as board and care homes, transitional living centers, or other 'group home-like' facilities that are licensed and designed to serve young adults. Failure to include such facilities in the continuum of services denies the 18 to 22 year old SED pupil his or her right to a 'free appropriate public education', in violation of Federal and State law, and invites the probability of litigation to address the issue. To avoid this unpleasant and costly process, I propose that the regulations be amended to include adult residential care facilities."

#### Response:

The Departments concur that a waiver is required to enable an adult to remain in a children's residential facility. Although you are not disputing this process, the Departments concur that the regulations fail to address a residential placement option for young adults. There is no licensing regulation to preclude the placement of a these young adult into an adult residential facility.

However, because funding for board and care costs for pupils placed pursuant to Chapter 26.5 is linked statutorily to foster care payments, placements for pupils in an adult residential facility are not eligible for reimbursement by county social services. These placements may be paid by other funds, but because they would not be reimbursable in the usual manner, it was decided to only include placements into facilities for children (foster family homes, group homes for children, etc.) in the definitions. This does not preclude county mental health agencies from placing these young adults into adult residential facilities in order to meet their

needs, but because of the statutory tie to foster care payments, placements into adult facilities are not reimbursable by county social services and must be funded by either education or mental health funding.

#### Section 60030

##### 27) Comment:

60030 - Testifier 17. [(a)] (Cromer) states that section 60030(c)(3) fails to define "timely" delivery of a completed referral package to the community mental health services ("CMH"). Testifier Cromer states that by failing to define "timely," each special education local plan area (SELPA) can interpret "timely" themselves resulting in inconsistency in the number of days a district will take to submit an application to CMH. Continuing, testifier Cromer states that when a student receives services will depend upon what SELPA they live in. Testifier Cromer concludes by stating that merely identifying a number of days a district has to complete a packet and deliver it to CMH eliminates any question to the definition of "timely" and provides for students to receive services within the same time frames.

##### Response:

The Departments believe that the language as written for section 60030(c)(3) provides sufficient guidance for SELPAS and CMH to ensure that pupils receive services within lawful requirements. To insert a specific deadline fails to acknowledge that differing conditions and may, in fact, delay the referral process.

The development of local interagency agreements, may in fact, specify a time frame for the submission of information. The Departments note, with curiosity, that Ms. Cromer did not provide a quantitative recommendation for her suggestion.

##### 28) Comment:

60030 - Testifier 21. [(a)] (Frampton) states that section (c)(3) fails to define the "timely" delivery of a completed referral package to the community mental health services. Testifier Frampton states that by failing to define "timely," there will be a great deal of misunderstanding and acrimony between the agencies. A specific time frame would facilitate communication rather than cause finger pointing. The expectation and responsibilities of each party need to be clarified.

##### Response:

The Departments believe that the language as written for section (c)(3) provides sufficient guidance for SELPAS and CMH to ensure that pupils receive services within lawful requirements. To insert a specific deadline fails to acknowledge that differing conditions and may, in fact, delay the referral process.

The development of local interagency agreements, may in fact, specify a time frame for the submission of information. The Departments note, with curiosity, that Ms. Frampton did not provide a quantitative recommendation for her suggestion.

29) Comment:

60030(a) - The following changes were suggested by testifier 14.[(d)] (Feldman):

"We object because there is no timeline for development of the interagency agreement. We suggest that a six-month timeline be adopted."

Response:

The Departments do not concur with this comment because the Departments have determined that a six-month timeline is too short a time to allow for negotiation between departments and legal review of the interagency agreements by county counsel.

Additionally, the appropriate interval for the establishment of interagency agreements varies greatly among the 58 counties in California, depending on the size of the county, the number of special education pupils, the agencies' budget sizes, and the complexity of the fiscal arrangements between agencies. For this reason, the Section 7586.6(b) of the Government Code, which this regulation implements, requires that "designated local agencies of the State Department of Education and the State Department of Mental Health update their interagency agreements for services specified in this chapter at the earliest possible time." This phrase allows for the same local variation with regard to timelines that the proposed regulation allows, rather than establishing an arbitrary regulatory limit, which may impose a burden on local government.

Also, many county agencies have existing interagency agreements. Subsection 60030(b) of these proposed regulations provides for annual review and more frequent amendment of these agreements as appropriate. Therefore no change will be made to the regulations due to this comment.

30) Comment:

60030(b) - Testifier 12.[(b)(1)] (Brogan) requests a revision to Section (b) that local interagency agreements be reviewed "according to a schedule developed at the local level between the agencies" instead of by July 1 of each year.

Response:

The Departments agree with Mr. Brogan's amended language. This revision will provide flexibility to community mental health and local education agencies in reviewing interagency agreements on an "as necessary basis but no less frequently than every three years".

31) Comment:

60030(b) - Testifier 12. [(b)(2)] (Brogan) requests that the following language be added to Section (b): "The content of the agreement will remain in effect until the agencies mutually agree upon any revisions."

Response:

The Departments agree with Mr. Brogan's recommendation to add language to state that the interagency agreement will be in full force subsequent to any agreed-upon revisions.

32) Comment:

60030(c)(2) - Testifier 13. [(1)] (Mentink) commented in the following manner: "Section 60030.. (c)(2) This subsection should be amended as follows:

"Resolving interagency disputes at the local level, including procedures for the continued provision of appropriate services during the resolution of any interagency dispute pursuant to Government Code Sec. 7585(f). For purposes of this subdivision only, the term 'appropriate' means any services identified in a pupil's IEP or services the pupil actually was receiving at the time of the interagency dispute."

"Rationale: The Government Code contains this protection for pupils during the process of interagency dispute resolution, but unless the interagency agreement specifies a mechanism to ensure continuing provision of services, this protection is unlikely to be implemented. Further definition of the term 'appropriate' in this subdivision is necessary so that the term 'appropriate' is not used offensively against the student to justify a refusal to continue services because, in the opinion of the providing agency, the services had become 'inappropriate'. IEP-identified services or services the agency was actually providing at the time an interagency dispute arises are presumed appropriate."

Response:

The Departments agree with Mr. Mentink's comments. Therefore, the Departments propose to amend Section 60030(c)(2) to read "Resolving interagency disputes at the local level, including procedures for the continued provision of appropriate services during the resolution of any interagency dispute, pursuant to Government Code Section 7585(f). For purposes of this subsection only, the term 'appropriate' means any services identified in a pupil's IEP, or any service the pupil actually was receiving at the time of the interagency dispute;".

33) Comment:

60030(c)(3) - Testifier 12. [(b)(3)] (Brogan) requests that the following language be substituted for existing language in Section (c)(3): "A timely referral process that complies with requirements of each agency and describes the content of the referral and ensures the maintenance of confidentiality."

Response:

The Departments believe that Mr. Brogan's recommended language is less clear than what is proposed. In addition Mr. Brogan's suggested amendment does not specifically link the referral package to the requirements for referral to community mental health services for related services under Chapter 26.5 of the Government Code.

34) Comment:

60030(c)(4) - Testifier 12. [(b)(4)] (Brogan) requests that the following language be substituted for existing language in Section (c)(4): "Describes how LEA's and Community Mental Health Agency will provide services to transfer students between counties and SELPAs who have been previously identified under AB2726."

Response:

The Departments believe that Mr. Brogan's recommended language is less clear than what is proposed.

35) Comment:

60030(c)(3), (c)(4), and (c)(7) - The following changes were proposed by Testifier 7. [(b)] (Burchill):

"Although references are made to paragraph (a) of Section 56321 and Section 56344 of the Education Code with reference to compliance with timelines, our experience has been that timelines are frequently ignored while information is being exchanged between mental health and education. A student with serious needs for mental health services can be placed in limbo for months - up to a year. We believe it is necessary to state time lines where they exist.

Recommendation: Delete use of 'timely' and 'adequate' language and replace with mandatory or reasonable time lines."

Response:

The Departments concur with this recommendation and have made the following amendments to subsections 60030(c)(3), (c)(4), and (c)(7) and Section 60045(a).

Final Modification:

(c) The local interagency agreement shall identify a contact person for each agency and include, but not be limited to, a delineation of the procedures for:

(3) Timely delivery Delivery of a completed referral package to the community mental health service pursuant to subsection (d) of Section 60040 as well as and timely exchange of any other relevant pupil information in accordance with procedures ensuring confidentiality within five (5) business days;

(4) ~~Timely notification by the A~~ host county to notify the community mental health service of the county of origin within two (2) working days when a pupil with a disability is placed within the host county by courts, regional centers or other agencies for other than educational reasons;

(7) ~~Adequate~~ At least ten (10) working days prior notice to the community mental health service of all IEP team meetings, including annual IEP reviews, when the participation of its staff is required. ~~A time frame for giving notice shall be addressed;~~

Code Section 60040(a) was also amended as follows to address the commentor's concern:

(a) An LEA, IEP team, or parent may initiate a referral for assessment of a pupil's social and emotional status pursuant to Section 56320 of the Education Code. Based on the results of assessments completed pursuant to Section 56320, an IEP team may refer a pupil who has been determined to be an individual with exceptional needs or is suspected of being an individual with exceptional needs as defined in Section 56026 of the Education Code and who is suspected of needing mental health services to a community mental health service when a pupil meets all of the criteria in paragraphs (1) through (5) below. Referral packages shall include all documentation required in subsection (b) and shall be provided immediately within five (5) working days of the LEA's receipt of parental consent for the referral of the pupil to the community mental health service.

36) Comment:

60030(c)(6) - Testifier 12. [(b)(5)] (Brogan) requests that the following language be substituted for existing language in Section (c)(6): "Notwithstanding Government Code Section 7572 (d) and (e) and 7572.5, a description of the participation of other public agencies in IEP meetings in accordance with I.D.E.A."

Response:

The Departments believe that Mr. Brogan's recommended language has some merit, but it limits the requirements contained in relevant sections of Chapter 26.5 of the Government Code. As an alternative, we recommend that the language in Section 60030(c) be changed to "The participation of qualified mental health professionals at the IEP team meetings pursuant to subsections (d) and (e) of Section 7572 and Section 7772.5 of the Government Code".

37) Comment:

60030(c)(8) - Testifier 13. [(m)] (Mentink) commented in the following manner: "(c)(8) The phrase 'initiation, type, frequency or duration of these services should be amended as follows: 'the initiation, type, frequency or, location, and duration of these services in accordance with Section 56341 of the Education Code and Section 300.504 of Title 34 Code of Federal Regulations Title 20 U.S.C. Sec. 1414(d)(1)(vi):"

"Rationale: The IDEA has been amended at section 1414(d)(1)(vi) to require that frequency, location, and duration of services be specified. The use of 'or' in between frequency and duration is inappropriate as is omission of the location of services and the proper citation."

Response:

The Departments agree with Mr. Mentink's comments. Therefore, the Departments propose to amend Section 60030(c)(8) to read "The development, review or amendment of the portions of the IEP relating to mental health services, including the goals and objectives of mental health services in accordance with Title 20 USC Section 1414(d)(1)(A)(vi)."

38) Comment:

60030(c)(9) - Testifier 7.[(c)] (Burchill) proposed the following changes:

"It has not been our experience that school districts and mental health professionals have memorized the Code of Federal Regulations or is the Code likely to be handy during the IEP meeting. Parents are rarely familiar with federal regulations. This can result in long implementation delays in the delivery of related mental health services from the date of the IEP.

Recommendation: For the sake of clarity, either the federal code section language cited should be included or specific time lines should be provided.

Response:

The Departments do not concur with the commentor. As for the comment, which suggested citing the federal regulation language, this is not necessary, as the intent of the federal regulation is already included. The phrase "as soon as possible following the development of the IEP" Therefore, no change will be made to the regulation as proposed by the commentor.

39) Comment:

60030(c)(10) - Testifier 12.[(b)(6)] (Brogan) requests that the following language be substituted for existing language in Section (c)(10): "Description of the length and duration of mental health services and transportation beyond the traditional school year including the extended year program."

Response:

The Departments agree with Mr. Brogan's amended language. This revision more accurately describes period of the year that education services are provided to students with disabilities.

40) Comment:

60030(c)(10) - The following changes were suggested by testifier 20. [(c)] (Weinberg):

"The local interagency agreement shall include, but not be limited to, a delineation of the procedures for:

(10) the continuation of mental health services and transportation during school vacation pursuant to IEP."

Recommended Changes:

(10) The continuation of mental health services and transportation during school vacations pursuant to the IEP.

Justification:

(c) (10) An "s" is needed at the end of vacation to make the sentence grammatically correct."

Response:

The Departments amended this regulation in response to testifier 12 [Comment 39]] and the word "vacation" no longer appears in this section.

41) Comment:

60030(c)(11) - The following changes were proposed by testifier 7. [(d)] (Burchill):

Our Copy of the 1998 'California Special Education Programs -A Composite of Laws, Education Code- Part 30', Section 60200, states this as being Article 4, 'financial provision of 24-hour Out-of-Home Placement.' This code section reference is incorrect. If Authority exists elsewhere for an entity, other than education, to be responsible for this related service; this should be stated clearly.

Recommendation:

Responsibility for transportation should be included in the local agreements with education identified as the party responsible for this related service.

Response:

The Departments do not concur with this comment.

Both Section 60030(c)(11) and the referenced Sections 60200 (d)(1), and 60200(d)(2) clearly identify education as the party responsible for transportation. The Composite of Laws for California's Special Education Programs did not include the new emergency regulations, which became effective on July 1, 1998 after the Composite had been printed and distributed. There will be no amendment to the regulations pursuant to this comment since the expressed concerns have been addressed.

42) Comment:

60030(c)(13) - The following changes were suggested by testifier 20.[(d)] (Weinberg):

"Proposed regulation:

(c) The local interagency agreement shall...include, but not be limited to, a delineation of the procedures for:

(13) The identification of a continuum of placement options.

Recommended Changes:

(13) the identification of a continuum of placement options, including the development of additional mental health resources, when needed. These options may include....

Justification:

(c) (13) In some cases it is not sufficient to simply identify already existing resources, since the resources that exist are not adequate to address the need. Therefore, it may be necessary to develop new resources."

Response:

The Departments do not concur with this comment.

The proposed regulations allow community mental health services the discretion to either contract for resources or develop them utilizing their own staff and infrastructure. To require community mental health services to develop resources without funding this effort would be unfair to local agencies, and would rob them of the local control that fosters the efficient and cost effective delivery of mental health services.

Additionally, the proposed regulations encourage community mental health services to develop programs with education staff input which satisfy local concerns. This encouragement is provided at the beginning of Section 60030(c) which indicates that the local

interagency agreement includes but is not limited to a delineation of procedures for, among upon other requirements, the provision of mental health services. No change will be made to the regulations pursuant to this comment.

43) Comment:

60030(c)(17) - Testifier 12.[(b)(7)] (Brogan) requests that the following language "Mutual staff development for" . . . be substituted for proposed language "The cross training of" . . . in Section (c)(17).

Response:

The Departments agree with Mr. Brogan's amended language. This revision clarifies that inservice training is to be provided to local education agency and community mental health staff.

44) Comment:

New 60030(c)(18) - The following changes were suggested by testifier 20.[(e)] (Weinberg):

Proposed Regulation:

(c) The local interagency agreement shall...include, but not be limited to, a delineation of the procedures for: (The provisions under (c) are (1) through (17). As currently proposed, there is no section (c) (18).)

Recommended Changes:

(c) (18) Systematically seeking out all individuals with exceptional needs, or those suspected of having exceptional needs, ages 3 through 21, who have emotional or behavioral characteristics that impede them from benefiting from educational services.

Response:

The Departments do not concur with this comment.

The client-find responsibilities in this program are the responsibility of the local education agencies (districts, SELPAs and county offices of education). Education Code 56300 establishes this by requiring these LEAs to:

"...actively and systematically seek out all individuals with exceptional needs."

Section 60030 of these proposed regulations pertains to the interagency agreement between education and mental health, and a reiteration of the local education agency's responsibility in this section is, therefore, not necessary. Consequently, no change will be made to the regulations pursuant to this comment.

45) Comment:

60040 - Testifier 12.[(c)] (Brogan) and 26. (Brogan) proposed the following changes:

"In the section that deals with County Mental Health, the entire section related to a referral and assessment process has been deleted. [By the Commentor]. In its place has been statements in the listing of what needs to be included in a local interagency agreement in terms of how that referral process should work in a timely and efficient manner and how eligibility issues should be addressed."

Response:

The Departments do not concur with these comments. The Departments disagree with Mr. Brogan's proposal to eliminate the section that specifies procedures for referring students with disabilities to community mental health. The Departments believe that this section is necessary to provide guidance by delineating the roles and responsibilities of local education agencies and community mental health in referring and accepting students with disabilities for evaluating the need for mental health services.

In addition, Government Code Section 7587 requires that:

"...each state department named in this chapter shall develop regulations, as necessary; for the department or designated local agency to implement this act."

The above section is referring to the State Department of Mental Health as it is one of the department's named in Chapter 26.5 of the Government Code. The State Department of Mental Health has determined that Section 60040 of these proposed regulations is necessary to ensure appropriate referral from LEAs to community mental health services. Many of the requirements delineated in this section implement state and federal law. The commentor's proposed replacement of this section by a subsection in the interagency agreement section is not sufficient to accomplish this purpose because such agreements may not violate the law. Therefore, the commentor's suggested deletion of this section will not be made, and these proposed regulations will not be changed as a result of this comment.

Also, please see response to comment 46) of this section of the Statement of Reasons.

46) Comment:

60040 - Testifier 18.[(c)] (Holle) recommended the following changes:

When Medi-Cal and/or Healthy Families' funds are used to evaluate or provide services to special education children, the use of such funds triggers additional obligations to the involved children and their families:

Medi-Cal: Children covered by full-scope Medi-Cal are entitled under federal law to comprehensive mental health care under the Early and Periodic Screening, diagnosis, and

Treatment (EPSDT) program for Medicaid-eligible children under age 21. 42 U.S.C. § 1396d(a)(4)(B); 1396d(a)(4)(B), 1396d(r). Children are entitled to diagnostic and treatment services "to correct or ameliorate defects and physical and mental illnesses and conditions discovered by the screening service, whether or not such services are covered under the State plan." 42 U.S.C. § 1396d(r)(5). [w]hether or not such services are covered" means any medical or remedial service the state could elect to include in its Medicaid plan for adults if it chose to do so. HCFA, State Medicaid Manual, § 5110 (Apr. 1990).

Response:

The Departments do not concur with these comments.

What Ms. Holle is calling a screen is actually a special education pupil's program eligibility assessment. If a child's parent desires a screen for Medi-Cal or EPSDT supplemental services, they must request this medical service from a community mental health service provider. These regulations pertain only to special education pupils program services provided pursuant to Chapter 26.5 of the Government Code. Because of this limitation, broadening the regulatory requirements to include those imposed by Medi-Cal requirements would be confusing and inappropriate.

Mental health services provided pursuant to Chapter 26.5 of the Government Code are required by Section 7570 of the Government Code to be specifically focused on assisting special education pupils in achieving benefit from their education. Section 7570 of the Government Code defines this educational focus by jointly assigning the Superintendent of Public Instruction and the Secretary of Health and Welfare the responsibility to provide:

"...related services as defined in Title 20, Section 1401(17) of the United States Code, and designated instruction and services, as defined in Section 56363 of the Education Code, to children and youth with disabilities."

These services must be specified in the individualized education program and be available when the instruction and services are necessary for the pupil to benefit educationally from his or her instructional program. Services that are medical as opposed to educational in nature are excluded by the definition of related services in Title 20, Section 1401(22) of the United States Code (where the renumbered definition for related services is now located). This section states in pertinent part:

"... medical services shall be for diagnostic and evaluation purposes only."

Medi-Cal eligible children's parents may request community mental health services for an assessment for supplemental mental health services if these are necessary, but these services are distinct from the educational requirements for a free and appropriate public education. Supplemental services provided due to any Medi-Cal and EPSDT services which do not provide educational benefit should not be listed on the pupil's Individualized Educational Program which is designed to assist them in attaining academic achievement.

Mental health services for purposes other than providing educational assistance must be accessed through the current community mental health provider that deliver Medi-Cal and EPSDT services because these services are separate from the requirement for a free and appropriate public education.

In addition to those arguments, the fact that Medi-Cal, Healthy Families, and EPSDT requirements are established in the other cited law and regulation means that to repeat them in these regulations would be duplicative. Since these programs are separate, no change will be made to these proposed regulations pursuant to this comment.

The inclusion of the Healthy Families Program into these regulations is beyond the scope of the statute. MRMIB which administers the Health Families Program is not an agency responsible for the provision of "related services" for pupils eligible for special education pupils. Also, please see response to comment 45) of this section of the Statement of Reasons.

47) Comment:

60040 - Testifier 18.[(d)] (Holle) recommended the following changes:

Federal Medicaid obligations are imposed on the state as a condition of receiving federal Medicaid monies. Schweiker v. Gray Panthers, 453 U.S. 34, 36-37, 101 S. Ct. 2633, 2636 (1981). The state in turn transfers those obligations to the county Mental health services (MHPs). County MHPs are the managed care entities responsible for delivering mental health services to Medi-Cal beneficiaries including to the Medi-Cal pupils referred to the counties for assessment and services. Welfare & Institutions Code § 5775-5780 and 14680-14685.

Response:

Please see response to comments 45) and 46) of this section of the Statement of Reasons.

48) Comment:

60040 - Testifier 18.[(e)] (Holle) recommended the following changes:

(1) When a Medi-Cal child is referred for an assessment, that referral is a "screen" which triggers an obligation to provide whatever mental health diagnostic and treatment service the child may need independent of the obligation to provide mental health related services under the IEP.8 That may mean an obligation to provide mental health services even if it is determined that such services are not needed to enable a pupil with a disability to benefit from special education in accord with proposed § 60050.

Response:

Please see response to comments 45) and 46) of this section of the Statement of Reasons.

49) Comment:

60040 - Testifier 18.[(g)] (Holle) recommended the following changes:

"The obligations under Medi-Cal to children include an informing obligation - namely, an obligation to advise Medi-Cal children and their families about the kinds of mental health services available to them through EPSDT. Congress, when enacting the Medicaid EPSDT provisions, directed that states take "aggressive action" to inform the families of recipients about EPSDT. 135 Cong. Rec. S13234 (Dec. 12, 1989); Federal regulations and the State Medicaid Manual require that families be informed of the specific services covered by EPSDT and where and how to obtain those services. 42 CFR Section 441.56(a) (1984); HCVA, State Medicaid Manual, Section 5121.C (Apr. 1990)."

Response:

Please see response to comments 45) and 46) of this section of the Statement of Reasons.

50) Comment:

60040 - Testifier 10.[(c)] (Warboys) states section (a) limits the persons who make a referral for assessment of a pupil's social or emotional status to a local education agency, individualized education program team, or parent. Testifier Warboys continues that Education Code Section 56029 defines "Referral for Assessment as any written request for assessment . . . by a parent, teacher or other service provider." Testifier Warboys states that the definition is too narrow and should comport with current statute.

Response:

There is a difference in the process of referral for assessment for special education services, as cited by Mr. Warboys in his reference to Education Code Section 56029 and a referral, once a student has been deemed eligible for special education services, to community mental health for an assessment of the student's social or emotional status. Therefore, the Departments believe that section 60040(a) as written is consistent with Government Code Section 7576(b). This section specifies referrals from local education agencies to community mental health for an assessment of a pupil's social or emotional status. This section of law specifies that only a local education agency, individualized education program team, or a parent may initiate a referral for assessment of a pupil's social or emotional status.

51) Comment:

60040 - Testifier 20.[(f)] (Weinberg) recommends that section (a) be amended to read "A LEA, IEP team, parent, or other individual may initiate a referral for assessment of a pupil's social and emotional status pursuant to Section 56320 of the Education Code. Based on the results of assessments completed pursuant to Section 56320, an IEP team may refer a pupil who has been determined to be an individual with exceptional needs or is suspected of being an individual with exceptional needs as defined in Section 56026 of the Education Code and who is suspected of needing mental health services to a community mental health service

when a pupil meets all of the criteria in paragraphs (1) through (5) below. Referral packages shall include all documentation required in subsection (b) and shall be provided immediately (not to exceed 5 days from the parent's signed consent pursuant to [a][2]) to the community mental health service." Testifier Weinberg justifies her testimony by stating that the proposed regulation is narrower regarding who may initiate a referral for assessment of a pupil's social and emotional status than Education Code Section 56029, and California Code of Regulations Section 3021(a). Also, testifier Weinberg states that the term "immediate" used in the proposed regulation is not defined, therefore, by substituting five days for the term, "immediate" is appropriate and does not add too much additional time to an already extended time line.

Response:

There is a difference in the process of referral for assessment for special education services, as cited by Ms. Weinberg in her reference to Education Code Section 56029 and a referral, once a student has been deemed eligible for special education services, to community mental health for an assessment of the student's social or emotional status. Therefore, we believe that section (a) as written is consistent with Government Code Section 7576 (b). This section specifies referrals from local education agencies to community mental health for an assessment of a pupil's social or emotional status. This section of law specifies that only a local education agency, individualized education program team, or a parent may initiate a referral for assessment of a pupil's social or emotional status.

The Departments agree, however, with Ms. Weinberg in regard to the replacement of the term "immediate" with a quantifiable day limit. Therefore, the Departments propose to amend Section 60040(a) to read "A LEA, IEP team, or parent may initiate a referral for assessment of a pupil's social and emotional status pursuant to Section 56320 of the Education Code. Based on the results of assessments completed pursuant to Section 56320, an IEP team may refer a pupil who has been determined to be an individual with exceptional needs or is suspected of being an individual with exceptional needs as defined in Section 56026 of the Education Code and who is suspected of needing mental health services to a community mental health service when a pupil meets all of the criteria in paragraphs (1) through (5) below. Referral packages shall include all documentation required in subsection (b) and shall be provided within five (5) days to the community mental health service." The Departments do not agree with Ms. Weinberg's suggestion that the "referral trigger" is the date the parent signs a consent for referral. All of the requirements in Sections 60040(a)(1) through (a)(5) must be met before a pupil can be referred to community mental health for assessment purposes.

52) Comment:

60040(a). Testifier 14.[(e)] (Feldman) suggested the following changes:

"This section sets the pre-condition of a district social/emotional assessment before an IEP team may refer a pupil for a Mental Health Assessment. This conflicts with IDEA, which requires simultaneous assessment of the pupil in all areas of suspected need. It also

discriminates against a pupil who needs Mental Health services as compared to a pupil who needs any other related service since there are no pre-conditions for obtaining assessment for speech and language, occupational therapy, physical therapy, behavioral plans, etc.

We object to section 60040(a)(D), 60040(a)(4), section 60040(b)(3) and section 60040(d)(3) and (4) because you are asking the local LEA to provide documentation of determinations which are within the purview of a Mental Health assessment as defined in section 60020(g). Understand that we are not objecting to the criteria we are objecting to the expertise of the LEA assessor. Mental Health should be making these decisions.

Response:

The Departments do not concur with this comment.

A school psychologist is able to make the determinations required by Sections 60040(a)(3)(D), 60040(a)(4), 60040(b)(3) and 60040(d)(3).

There are also pre-conditions for obtaining occupational therapy, and physical therapy through this program, which are similar to the mental health requirements. In California, the local mental health department provides specialty mental health services, which is a separate entity from the local education agency. Similarly, medically necessary occupational and physical therapy are provided by an agency separate from the LEA, California Children's Services.

For a California pupil to access these specialized services a separate evaluation from the educational evaluation is required. The California Children's Services' evaluation procedures for occupational and physical therapy are described in Sections 60300 through 60400 of these regulations and implement Government Code Section 7572(b) and (d). In contrast, students needing services provided by school employees and/or contractors may obtain these services after the completion of the initial assessment by education.

The statutory requirement for a separate mental health evaluation is in Government Code, Section 7572(c) and (d). These sections require that:

(c) "Psychotherapy and other mental health assessments shall be conducted by qualified mental health professionals as specified in regulations developed by the state Department of Mental Health..." and

(d) "A related service or designated instruction and service shall only be added to the child's individualized educational program by the individualized educational program team...if a formal assessment has been conducted pursuant to this section, and a qualified person conducting the assessment recommended the service in order for the child to benefit from special education."

Therefore, no change will be made to this proposed regulation as a result of this comment.

53) Comment:

60040(a)(3) - Testifier 29. [(b)] (McCaustland) made the following comment:

"The child may have behavioral characteristics that meet the criteria listed but these problems might not be mental health related. I.e. the child might have ADHD or neurological based problems such as aggressiveness, being unable to remain in class, being unable to socialize appropriately. These behaviors can be addressed using Section 504 or the Hughes Bill yet most school districts will refer to mental health and state that the child has met those behavioral characteristics as stated in this section. Again, this is not specific."

Response:

The Departments do not concur with this comment.

This subsection allows mental health services to exclude pupils from services when services are deemed to be inappropriate. This inappropriateness may be based on the fact that certain pupils such as those who suffer solely from social maladjustment are not amenable to mental health intervention. This excluded population is specified in the proposed regulations in Section 60040(a)(3)(D). This section of the proposed regulations also specifically excludes pupils suffering from a temporary disability.

A mental health service is also able to exclude a referral on the basis that less restrictive interventions such as those provided under Section 504 of the Rehabilitation Act or a functional analysis and Behavioral Intervention Plan as specified in the Hughs Act have not been provided. Section 60040(b)(4) and allows mental health this discretion. However, they do not specifically require such interventions because they are not always appropriate in a specific pupil's case. Such exceptions to the rule are allowed as specified by Section 60040(d)(4) of these proposed regulations. Such determinations need to be made on a case by case basis, and for this reason, the proposed regulations do not define less restrictive interventions as "services under Section 504 of the Rehabilitation Act or a functional analysis and Behavioral Intervention Plan as specified in the Hughs Act." Furthermore, appropriate treatment for certain children with ADHD, neurologically based aggression, and/or social deficits may include mental health intervention through the special education pupils program.

Additionally, local continuums of care within the schools may be able to provide less restrictive interventions through mechanisms other than Section 504 of the Rehabilitation Act or a functional analysis and Behavioral Intervention Plan. Depending on local interagency agreements, these alternative interventions may be sufficient to satisfy the least restrictive intervention requirement that must occur prior to referral to the local mental health service.

In order to allow case by case and local discretion, no change will be made to the proposed regulation in response to this comment.

54) Comment:

60040(a)(3)(C) - Testifier 29. [(c)] (McCaustland) made the following comment:

"The characteristics are significant etc.... This is not specific regarding rate of occurrence and intensity. This could be further defined as occurring at least weekly over three months or physical assault or property damage that posed a safety risk to others."

Response:

The particular mix of available educational and mental health service services that are available to treat a pupil may vary from region to region. By leaving it to the region's discretion to interpret significance at the local level, these proposed regulations facilitate appropriate referral to local mental health services. The interagency agreement requirements of Section 60030(a), and (c)(3) of these proposed regulations will facilitate discussion regarding what frequency of which particular behaviors constitute appropriate local criteria for mental health referral through the special education pupils program.

To narrowly define significance would also fail to indicate that significance is a product of both a particular behavior's frequency and intensity. Its sum, therefore, depends on the particular behavior, its intensity, and its frequency. In order to allow case by case and local discretion, no change will be made to the proposed regulation.

55) Comment:

60040(a)(3)(D) - Testifier 29. [(d)] (McCaustland) made the following comment:

"Social maladjustment is not specifically described and this leads to lots of confusion among school districts, attorneys, parents, et al. Specific conduct disordered behaviors should be mentioned either in the definitions or here so that others can understand what exactly are socially maladjusted behaviors. I personally have experienced trying to explain to a parent that molesting a sibling because of being molested is more than just a mental health issue and revolves around criminal behavior."

The difficulty I have experienced is the vagueness of the regulations and anything that can be done to shore those up would be greatly appreciated. Another for instance is when the pupil must demonstrate over a long period of time and there is no mention of what is considered a long period of time. This is used as a two-edged sword in either prolonging eligibility or shortening eligibility time frame.

Response:

The Departments partially concur with the commentor and partially disagree.

The phrase "the pupil must demonstrate over a long period of time" is not included in these proposed regulations, but is a part of Education Code, Section 3030(i) which defines

individuals with exceptional needs. Former emergency regulations required behaviors to be observed for over 6 months before a pupil could be referred to mental health, but this has been deleted. The term "temporary" is not defined and is left to local discretion due to local variations in school counseling and mental health resources and responsibilities.

The significance of social maladjustment must be determined individually, but the Departments agree that added clarity regarding the meaning of this term and the phrase "short-term counseling" would be helpful. The proposed regulation has been amended as follows to add this clarity:

Final Modification:

(D) Are associated with a condition that cannot be described solely as a social maladjustment as demonstrated by a pupil's involvement with the juvenile justice system or substance abuse and the absence of a treatable mental disorder.

(E) Are associated with a condition that cannot be described solely as or a temporary adjustment problem and that can not be resolved with short-term less than three months of counseling.

56) Comment:

60040(a)(4) - Testifier 13.[(n)] (Mentink) commented in the following manner: "Section 60040. (a)(4) This subdivision should be amended as follows:

"As determined using educational assessments, the pupil's functioning, including cognitive functioning, is, or with reasonable accommodation would be, at a level sufficient to enable the pupil to benefit from mental health services.

"Rationale: This proposed regulation and the statute on which it is based discriminate in the provision of publicly funded services on the basis of the nature and degree of disability (in this case the level of intelligence) without any acknowledgment of a duty to provide reasonable accommodations. Section 504 of the Rehabilitation Act of 1973, the ADA, and section 11135 of the California Government Code are clearly violated by this failure. Psychotherapy and other mental health services are provided to persons with mental retardation by providers who specialize in these services for regional center clients. One of the services listed for persons with developmental disabilities by the statutes governing the regional center system is mental health services. (Welfare and Institutions Code § 4512(b).) The Legislature clearly recognizes that persons with cognitive impairments, including mental retardation, may need and can benefit from mental health services. Public services must be made physically accessible to persons with physical or sensory deficits. Publicly funded mental health services must be made accessible to people who have other functional impairments. These regulations are the last opportunity to cure the potential discriminatory effect of the statute."

Response:

The Departments believe that section 60040(a)(4), as written, is in complete alignment with the provisions of Government Code Section 7576(b)(4). This section of law requires the pupil with the disability to meet, among other criteria, that his or her level of cognitive functioning is sufficient to benefit from mental health services. The purpose of regulations is to clarify law. Regulations cannot create law or contradict existing law. The Department also believes that the regulation, as written, allows accommodations to be provided and does not restrict mental health services based solely on a diagnostic impression. The key determinate relative to Government Code Section 7576(b)(4) is a pupil's level of cognitive functioning. Neither the law nor the regulation automatically excludes people with developmental disabilities from being referred to community mental health for assessment purposes.

57) Comment:

60040(a)(4) - Testifier 29. [(e)] (McCaustland) made the following comment:

"The pupil's cognitive functioning is not specifically determined nor outlined in a referral IEP. An IQ, when known and available, is given but this does not relate to cognitive functioning. Thus, who and how is it determined that a pupil has a sufficient cognitive level to benefit from counseling?"

Response:

\*Also, please see comment 59) below.

These proposed regulations implement Government Code Section 7576(b)(4). The purpose of assessing cognitive function is to focus limited specialty mental health resources on a population that has the ability to receive educational benefit from them. The proposed reasonable accommodations described by the commentator are actually community standard mental health practice, and therefore, need not be additionally specified.

Specific eligibility parameters for developmentally disabled pupils are not stated in terms of IQ or any other one factor because both cognitive functioning and the ability to benefit from therapy are based on the interaction of a number of factors. The terms IQ and "cognitive functioning" actually encompass many specific abilities. In order to assess if a pupil's cognitive functioning is sufficient to enable him or her to benefit from treatment, the referral documentation may be reviewed. The extent of the pupil's ability to benefit from mental health treatment can be partly assessed by evidence of some benefit being received from the less restrictive interventions that the LEA has attempted with them.

An additional factor that must also be weighed is whether a pupil with a developmental disability has a concomitant mental disability that is amenable to mental health intervention. The pupil must also possess enough social ability to form relationships as demonstrated by the school records contained in their referral for mental health assessment. The pupil's

ability to benefit from mental health services should, therefore, be determined on a case by case basis, not by utilizing any one arbitrary test.

58). Comment:

60040(a)(4) - The following changes were suggested by Testifier 20.[(g)] (Weinberg):

"Proposed Regulation:

(a) (4) As determined using educational assessments, the pupil's functioning, including cognitive functioning, is at a level sufficient to enable the pupil to benefit from mental health services.

Recommended Changes:

(a) (4) As determined using educational assessments, the pupil's functioning, including cognitive functioning, is at a level sufficient to enable the pupil to benefit from mental health services, assuming reasonable accommodations are provided, when necessary.

Justification:

So as to not discriminate against those with cognitive deficits, reasonable accommodations need to be provided if they will allow such persons to benefit from mental health services. Reasonable accommodations might include, for example, making examples more concrete, working with the client in the actual setting that produces problems or conflict, etc.

Response:

Please see response to comment 57) of this section of the Statement of Reasons.

59). Comment:

60040(a)(4) - The following changes were suggested by testifier 15[(d)] (Gibaut):

This provision could be read as conditioning AB 3632 services on whether the pupil's "functioning, including cognitive functioning, is at a level sufficient to enable the pupil to benefit from mental health services," yet it provides no criteria for determining whether the "condition" has been met. As it now reads, the provision is vague and could serve as a basis for discriminating against pupils who have more profound challenges (e.g., pupils with severe speech/language deficits, significant retardation). That persons with substantial deficits have nevertheless benefited from, for example, psychotherapy is not a recent discovery. Thus, this provision should either be substantially revised or eliminated altogether.

Response:

Please see response to comment 57) of this section of the Statement of Reasons.

60) Comment:

60040(a)(5) - Testifier 29. [(f)] (McCaustland) made the following comment:

"In my experience, the school districts do not adequately state that counseling, et. al. services have been provided and state that ad hoc counseling of 15-30 minutes once a month does not meet the child's needs. The school should outline that they have provided direct counseling for a minimum of three months, weekly or bi-weekly and this is insufficient or inappropriate in meeting the needs of the pupil. Likewise, who determines what is an adequate amount of counseling? The IEP team comprised of school personnel has a conflict in determining this factor alone."

Response:

The Departments do not concur with the commentor.

The parent is also a member of the IEP team, therefore, it is not only school personnel who decide that the school has attempted sufficient less restrictive intervention with a particular pupil prior to referring the pupil for assessment by the community mental health service.

Additionally, when a community mental health service begins to assess a pupil, if a record review indicates that the school has failed to provide appropriate less restrictive interventions, mental health has the discretion to require that such interventions be attempted by the school prior to offering any mental health services. Section 60040(a)(5), (c)(2) and (d)(4) of the proposed regulations provide justification for a community mental health service to return the referral unless there is compelling justification for this lack. Therefore, LEA personnel must not serve only LEA purposes, but must also consider the needs of the pupil, and whether the community mental health service will accept that these needs were addressed by the LEA with less restrictive interventions.

Such an assessment result serves both the requirements of these proposed regulations and those of the Individuals with Disabilities Education Act. The specifics of what these less restrictive interventions are, will vary from school district to school district, therefore, no specific requirement will be imposed in these proposed regulations regarding this issue.

The interagency agreement process required by Section 60030(c)(3) will facilitate discussion between LEAs and community mental health services regarding what less restrictive interventions LEAs should attempt prior to referring pupils for specialty mental health services. These discussions will provide a forum for the consideration of the local mental health policy perspective. These local discussions and standards are preferable to a standard statewide requirement because they can be tailored to fit local needs and resources. For these reasons, there will be no change made to the regulations due to this comment.

61) Comment:

60040(b) - The following changes were suggested by Testifier 20.[(h)] (Weinberg):

"Proposed Regulation:

(b) When referring a pupil to a community mental health service in accordance with subsection (a), the LEA or the IEP team shall provide the following documentation....

Recommended Changes:

When referring a pupil who has been determined to be an individual with exceptional needs to a community mental health service in accordance with subsection (a), the LEA or the IEP team shall provide the following documentation:

Justification:

The regulation is somewhat confusing without the recommended clarifying phrase added.

Response:

The Departments do not concur with this comment.

Section 60010(q) specifies that the word pupil as used in these proposed regulations includes "individuals with exceptional needs as defined in Section 56026 of the Education Code." For this reason, the recommended change is unnecessary, and there will be no amendment of the proposed regulations because of this comment.

62) Comment:

60040(f) - Testifier 14.[(f)] (Feldman) suggested the following changes:

We suggest that you need to add the phrase "in accord with the timelines set forth in section 56321 of the California Education Codes."

Response:

The Departments do not concur with this comment.

Section 60040(f) of these proposed regulations refers to the community mental health services' acceptance of an appropriate referral. The timelines articulated in Section 56321 of the California Education Code refer to timelines associated with the assessment of a pupil. Therefore, these timelines don't apply to this regulation, and would be confusing if inserted here.

The commentor's proposed timeline reference to Section 56321 of the California Education Code is provided in the proposed regulations in Sections 60045(b) and 60045(d), which pertain to mental health assessment timelines. For this reason, there will be no amendment of the proposed regulations due to this comment.

63) Comment:

60040(g) - Testifier 13.[(o)] (Mentink) commented in the following manner: "(g) The following sentence should be added to the end of this subsection:

"In no event shall the procedures described in this subdivision delay or impede the referral and assessment process."

"Rationale: As long as this section is so closely mirroring Government Code Sec. 7576, it should not omit the last sentence of Section 7576(g)."

Response:

The Departments agree with Mr. Mentink's comment. Therefore, the Departments propose to amend section (g) to read "If the community mental health service receives a referral for a pupil with a different county of origin, the community mental health service receiving the referral shall forward the referral within one (1) working day to the county of origin, which shall have programmatic and fiscal responsibility for providing or arranging for provision of necessary services. The procedures described in this section shall not delay or impede the referral and assessment process."

64) Comment:

60040(g) - Testifier 13.[(p)] (Mentink) commented in the following manner: "(g) We recognize Section 7576(g) states that the county of origin shall have programmatic and fiscal responsibility for providing or arranging for provision of necessary services. Notwithstanding this ultimate responsibility, the final regulations must require that the host county facilitate the receipt of services by children whose county of origin is other than the host county. We strongly recommend the following additional sentences at the end of subsection (g) as already amended above:

"If the community mental health service receives a referral for a pupil with a different county of origin, the community mental health service receiving the referral shall forward the referral immediately to the county of origin, which shall have programmatic and fiscal responsibility for providing or arranging for provision of necessary services. In no event shall the procedures described in this subdivision delay or impede the referral and assessment process. Notwithstanding that the county of origin shall retain programmatic and fiscal responsibility, necessary services, including case management, shall, at the option of the county of origin, be provided by the community mental health service of the host county or by a provider from the host county's provider network. Necessary services shall be directly provided by the host county unless it is clearly

feasible for the community mental health service of the county of origin to do so appropriately and without delay.

"Rationale: County of residence for purposes of educational service responsibility will change, pursuant to Education Code §§ 56155 and 56156.5, when the pupil is placed in an LCI in the host county by a court, regional center, or other noneducational public agency. As proposed, this regulation will require the local education agency to work with a different community mental health service, potentially, for each child in a given LCI. For the benefit of the education agencies and, more importantly, the pupils and the continuity of these pupils' special education and related services, the LEA should have to deal with as few community mental health services as possible. The Initial Statement of Reasons for these regulations (page 6) states: 'The function of the host county is to provide services for children whose 'county of origin' is elsewhere'. Unless the regulation more clearly states that host counties have this service responsibility, the proposed language will allow host counties to deny services to children living in these counties and refer parents and LEAs to often distant counties for the provision of services."

Response:

The Departments believe that section 60040(g) as proposed with the amendment suggested by Mr. Mentink in comment 63) above is consistent with Government Code Section 7576(g). As previously stated regulations cannot conflict with existing law. To accept the language proposed by Mr. Mentink would be contrary to the provisions of Government Code Section 7576(g) that requires the county of origin to have fiscal and programmatic responsibility for providing or arranging services. The emphasis placed on the word "arranging" suggests that services can be provided in the locale where the pupil resides in such instances that it would not be feasible for the county of origin to deliver these services.

65) Comment:

60040(g) - Testifier 10.[(d)] (Warboys) suggested the following changes:

"This proposed regulation should specify the time frame within which the Host County must forward the referral to the county of origin. It should also make clear that the county of origin must still complete its assessment within 15 days from the day that the host county received the original referral. In the absence of these requirements, a parent's right to a prompt assessment of the child's social and emotional needs could be improperly delayed due to failure of the two county mental health agencies to take appropriate action. Similarly, proposed regulation Section 60200 (c)(1) should be redrafted to make it clear that the transfer of responsibility from the host county to the county of origin does not alter the obligation to meet the timelines for referral, assessment and delivery of service."

Response:

Please see comments 66).

The State Department of Mental Health concurs with the comments that the proposed regulations should be amended to clarify that the procedures relating to transfer of referral and provision of treatment to and from host counties and counties of origin do not extend timelines:

The last comment by Mr. Mentink, however, interferes with the autonomy of the county of origin, and the State Department of Mental Health does not concur with it. The proposed regulation allows the county of origin to choose how to deliver appropriate and timely services. Individual situations vary so widely that it is necessary to allow counties this autonomy so they can appropriately respond to the demands that arise.

The proposed subsection has also been amended to clarify the meaning of the word "immediately," as follows:

Final Modification:

(g) If the community mental health service receives a referral for a pupil with a different county of origin, the community mental health service receiving the referral shall forward the referral immediately within one (1) working day to the county of origin, which shall have programmatic and fiscal responsibility for providing or arranging for provision of necessary services. The procedures described in this subsection shall not delay or impede the referral and assessment process.

66) Comment:

60040(g) - The following changes were suggested by testifier 20.[(i)] (Weinberg):

"Proposed Regulation:

If the community mental health service receives a referral for a pupil with a different county of origin, the community mental health service receiving the referral shall forward the referral immediately to the county of origin, which shall have programmatic and fiscal responsibility for providing or arranging for provision of necessary services.

Recommended Changes:

If the community mental health service receives a referral for a pupil with a different county of origin, the community mental health service receiving the referral shall forward the referral immediately to the county of origin, which shall have programmatic and fiscal responsibility for providing or arranging for provision of necessary services. In no event shall the procedures described in this subdivision delay or impede the referral and assessment process.

Justification:

It needs to be made absolutely clear that the procedures described in this section do not in any way extend time lines or delay services.

Response:

Please see response to comment 65) of this section of the Statement of Reasons.

Section 60045

67) Comment:

60045 - Testifier 12. [(d)] (Brogan) proposed the following changes:

"In the section that deals with County Mental Health, the entire section related to a referral and assessment process has been deleted. In its place has been statements in the listing of what needs to be included in a local interagency agreement in terms of how that referral process should work in a timely and efficient manner and how eligibility issues should be addressed

Response:

Please see comment 68) below.

The Departments do not concur with these comments.

With regard to Mr. Brogan's comment, the special education pupils program procedures are complex due to the statutory requirements of state and federal law. It is necessary to provide sufficient guidance to local agencies regarding these legal referral and assessment requirements. Because of the legal basis of the strict referral and assessment program procedures, local interagency agreements may not abridge or amend them. No change to the proposed regulations will be made in response to this comment for these reasons.

With regard to Ms. Holle's comment, this program is not funded as a Medi-Cal/Medicaid service. Medi-Cal eligibility is not necessary for pupils to be considered eligible for this program. Educational need is the eligibility criteria for the special education pupils program. In the context of Chapter 26.5 of the Government Code, treatment by community mental health services is only provided when educationally necessary, and is considered a special education related service. Mental health services provided in this program are defined in Section 60020 (i) and are limited to:

"...mental health assessments and the following services when delineated on an IEP in accordance with Section 7572 (d) of the Government Code: psychotherapy as defined in Section 2903 of the Business and Professions Code provided to the pupil individually or in a group, collateral services, medication monitoring, intensive day treatment, day rehabilitation, and case management."

Hospitalization is specifically excluded as a service under this program by the Clovis decision. Medications, other biologicals and lab work, are specifically excluded by Section 60020 (f) from medication monitoring services. Subsection (e) also clarifies that:

"...a parent may seek services from other public programs or private providers, as appropriate."

Government Code Section 7576 articulates that the special education pupils program excludes crisis limitations and the appropriate avenue for parents to take when they need emergency services for their child.

Some medical services are specifically excluded by statute, and some by case law, EPSDT can not be automatically considered a part of this program's educational services. Many students eligible for services under Chapter 26.5 of the Government Code are not Medi-Cal eligible. Medi-Cal statute, regulation are articulated elsewhere to repeat it here would be duplicative and confusing. For all these reasons, no change will be made to the proposed regulation in response to these comments.

68) Comment:

60045 - Testifier 18.[(i)] (Holle) recommended the following changes:

"In contrast to other Medi-Cal/Medicaid services, the State through the county programs must not only cover needed EPSDT services but must actually arrange for needed corrective treatment."

Response:

Please see response to comment 67) of this section of the Statement of Reasons.

69) Comment:

60045 - Testifier 20.[(k)(2)] (Weinberg) recommends that section (e) be amended to read "The mental health assessment shall be completed within the required fifty (50) day time limit specified in Section 56344 of the Education Code. If the pupil is not available for assessment, the local mental health service shall, no later than twenty-five (25) days prior to the IEP meeting, document the reason that the pupil is not available and notify the LEA. If, for any other reason, the local community mental health service cannot complete the assessment within the required fifty (50) day time limit, the community mental health service shall notify the LEA no later than twenty-five (25) days prior to the IEP meeting and, upon notification, the LEA shall arrange for the completion of the mental health assessment within the time remaining in the original fifty (50) day time period." Testifier Weinberg justifies her testimony by stating that assessment time lines should not be extended, since current state law requires that they must be completed within the 50 day statutory time line and that allowing time line extensions subverts the intent of the Individuals with Disabilities Education Act.

Response:

The Departments appreciate and agree with the general view of Ms. Weinberg relative to the necessity of the completion of assessment and the development of an individualized education program within fifty (50) days. The Departments also believe that there should be no exceptions to this requirement, unless a parent specifically requests an extension. Therefore, the Departments propose to amend section 60045(e), to read "The mental health assessment shall be completed in sufficient time to ensure that an IEP meeting is held within fifty (50) days from the receipt of the written parental consent for the assessment. This time line may only be extended upon the written request of the parent."

70) Comment:

60045(a) - Testifier 14. [(g)] (Feldman) suggested the following changes:

"We are suggesting that section 60045 be amended to delete from sub-section

(a) the words 'such an assessment is necessary,' and add the words

'if the referral packet is complete.'

We are then suggesting that sub-section (1) be deleted in its entirety. The regulations require that an IEP team make a recommendation for a referral for mental health services. Yet, the new regulations give the mental health agency the discretion to refuse to provide the assessment. In essence, this gives the mental health agency the unilateral authority to refuse to implement an approved, valid IEP.

Finally, subsection (2) should be amended to delete the words 'and return the referral' and add the words 'which shall immediately supply the needed documentation.' The current proposed language of sub-section (2) penalized the child for the district's failure."

Response:

Please see comment 71) below.

The Departments do not concur with most of these comments, but do concur that 15 days is too long to determine and has amended these proposed regulations to decrease this time period to five days.

However, statutory justification to deem a referral inappropriate is provided in Government Code Section 7576(b)(3), which establishes characteristics that pupils must have for them to be eligible for referral to mental health for assessment. If these criteria are clearly not met, community mental health services are allowed to return the referral. This section requires documented evidence that a pupil has "emotional or behavioral characteristics" which "impede the pupil from benefiting educationally", are "intense and frequent" and which "cannot be described solely as a social maladjustment or temporary adjustment problem."

Government Code Section 7576(b)(4) allows a referral to be deemed inappropriate and returned if "...educational assessments" document that a pupil lacks sufficient cognitive function to "benefit from mental health services."

Government Code Section 7576(b)(5) requires LEAs to attempt less restrictive interventions or document why these have not been attempted. Mental health may, therefore, refuse to assess a pupil if the LEA has not attempted less restrictive interventions and sufficient justification for this lack has not been provided. Community mental health services can appropriately make these determinations prior to assessment if there is clear evidence to justify them contained in the referral packet.

As both of the commentators point out, an incomplete referral packet from the LEA also makes mental health assessment impossible, and therefore, justifies not assessing a pupil until this can be done appropriately. For this reason, no change will be made to the proposed regulations in response to these comments.

Final Modification:

(a) Within ~~(15)~~ five (5) days of receipt of a referral, pursuant to subsections (a), (c) or (g) of Section 60040, the community mental health service shall review the recommendation for a mental health assessment and determine if such an assessment is necessary.

71) Comment:

60045(a) - Testifier 13. [(e)(1)] (Mentink) proposed the following changes:

"Subsection (a) should be completely rewritten as follows:

'Within 15 days of receipt of a referral, pursuant to subsections (a), (c) or (g) of Section 60040, the community mental health service shall review the referral recommendation for a mental health assessment and determine if the referral includes the documentation required by Section 7576(c).' ~~such an assessment is necessary.~~

~~(1) If no mental health assessment is determined to be necessary, or the referral is inappropriate, the reasons shall be documented by the community mental health service. The community mental health service shall immediately notify the parent and the LEA.~~

~~(2) If the referral is determined to be incomplete, the reasons shall be documented by the community mental health service. The community mental health service shall immediately notify the LEA and return the referral.~~

Rationale:

There is no statutory authority for the community mental health service to determine that, following a properly documented referral, an assessment is unnecessary. Government Code Section 7572 provides: "A child shall be assessed in all areas related to the suspected

disability..." As to the question of who must suspect; Section 7576(b) provides that it is the IEP team who suspects the child of needing mental health services. The referral must include the documentation required under Section 7576(c). But there is no legal authority for characterizing the referral for assessment as a "recommendation" for assessment [in the same sentence] which the community mental health service then purportedly has an opportunity to review and reject as unnecessary, as this proposed regulation attempts to do.

Response:

Please see response to comment 70) of this section of the Statement of Reasons.

72) Comment:

60045(a)(1) - Testifier 17.[(b)] (Cromer) suggested the following changes:

"The legislative intent in the passage of IDEA was to provide more voice for the parents. To allow CMH in effect, veto power to an IEPT determination that a mental health assessment is needed, flies in the face of Federal law and legislative intent and limits the parents rights under 20 U.S.C. 1415 (b)(1) which states in pertinent part:

"the procedures require by this section shall include - (1) an opportunity for the parents of a child with a disability to . . . participate in meetings with respect to the identification, evaluation . . . and the provision of a free & appropriate public education of such child . . ."

Additionally, may I direct your attention to the letter to the Speaker of the House of Representatives, June 30, 1995, page 4 which states in pertinent part:

"Family involvement is at the heart of the IDEA. Our proposal will more fully involve parents in the decisions about where and how their child is educated. For example, our proposal would require parents to be involved in the decision regarding their child's educational placement . . . We also want to reduce unnecessary lawsuit that create emotional and financial burdens for parents and school districts . . ."

Thus, a provision that allows CMH to unilaterally "veto" the determination of the IEPT's decision that the child requires a mental health assessment violates the parent's right to participate in meetings regarding evaluation of their child.

Moreover, fiscally, this provision will open the floodgates to a multitude due process filings. I remember hearing that the passage of IDEA 97 was an attorney's retirement package. Clearly, as proposed, 60045(a)(1) is an attorney's retirement package as I am certain that upon rejection of a CMH referral every advocate and attorney will immediately initiate due process. The parents will then obtain their own evaluation and it will require a due process to determine who is correct, a CMH employee who has never had contact with the student or an expert who has assessed them and all the members of the IEPT.

Even if the LEA is found to be the prevailing party, this will cost the state and LEA's substantial costs in due process and attorney fees. And the most important question, what happens to the student who is not being served during this time period? Certainly many students will decompensate; what will be the resulting liability of the LEA?"

Response:

The Departments do not concur with these comments.

Statutory justification to deem a referral unnecessary is provided in Government Code Section 7576(b)(3) which establishes characteristics that pupils must have for them to be eligible for referral to mental health for assessment. This section requires documented evidence that a pupil has "emotional or behavioral characteristics" which "impede the pupil from benefiting educationally", are intense and frequent and which "cannot be described solely as a social maladjustment or temporary adjustment problem."

Government Code Section 7576(b)(4) allows a referral to be deemed inappropriate and returned if "...educational assessments" document that a pupil lacks sufficient cognitive function to "benefit from mental health services."

Government Code Section 7576(b)(5) requires LEAs to attempt less restrictive interventions or document why these have not been attempted. Mental health may, therefore, refuse to assess a pupil if the LEA has not attempted less restrictive interventions and has not provided sufficient justification for not doing so. Community mental health services can appropriately make these determinations prior to assessment if there is clear evidence to justify them contained in the referral packet.

The proposed regulations provide guidance regarding the specifics of when an assessment is not necessary in Section 60040. Community mental health services provide specific expertise regarding what individuals are amenable to what locally available mental health treatment services and programs. Due process protections in this program, however, ensure that this determination is not made without parental recourse to dispute it and to have input. Therefore, no change will be made to the regulation in response to these comments.

73) Comment:

60045(a)(1) - Testifier 6.[a] (Dasaro) proposed the following changes:

"The regulatory statement, 'if no mental health assessment is determined to be necessary' is vague. When would a mental health assessment be determined to be unnecessary? It seems to me that if a school district spends five hours of staff time preparing the text of a referral, it would be rude to believe that the assessment is unnecessary. I would think it wise to specifically spell out examples when a referral and subsequent assessment are unnecessary."

Response:

Please see response to comment 72) of this section of the Statement of Reasons.

74) Comment:

60045(a)(2) - The following changes were suggested by testifier 20.[(j)] (Weinberg):

"Proposed Regulation:

(2) If the referral is determined to be incomplete, the reasons shall be documented by the community mental health service. The community mental health service shall immediately notify the LEA and return the referral.

Recommended Changes:

(2) If the referral is determined to be incomplete, the reasons shall be documented by the community mental health service. The community mental health service shall immediately (within 5 days) notify the LEA and return the referral.

Justification:

Fifteen days is too much time for a community mental health service to have to let an LEA know its referral package is incomplete. Five days should be sufficient time to do this. Otherwise, it simply adds too much time to the assessment timeline.

Response:

Rather than decreasing the time available to mental health to complete an assessment, this proposed amendment increases it. The proposed regulations require mental health to return the education referral immediately. This is sooner than the fifteen days later that the above justification states the proposed regulations allow, and fewer than the five days later that the above-recommended change would allow. Therefore the proposed regulations accomplish the commentor's purpose, as stated in the above rationale, more expediently than the suggested amendments. For this reason, there will be no change made to the proposed regulations in response to this comment. The Departments have determined, however, that the term "immediately" is not defined in these regulations and has replaced this term with the phrase, "within one working day," to clarify our original intent.

Final Modification:

(2) If the referral is determined to be incomplete, the reasons shall be documented by the community mental health service. The community mental health service shall immediately notify the LEA within one (1) working day and return the referral.

75) Comment:

60045(b) - The following changes were suggested by testifier 15.[(e)] (Gibeau):

We are concerned with the efficient use of mental health resources and the avoidance or minimizing of duplication effort. We offer the following two scenarios which occur occasionally in the process of AB 3632 mental health assessment and service:

When a current mental health assessment and service plan, conducted by qualified mental Health professionals, already exists. The AB 3632-funded mental health service providers should not duplicate this process. For example, a pupil was receiving evaluation and treatment in a psychiatric unit at a university hospital at the time the IEP team made an AB 3632 referral. The pupil's local mental health agency approached this mental health assessment as if no data base already existed. The pupil traveled to the mental health agency's psychiatrist for three assessment sessions, despite the fact that the pupil saw his hospital psychiatrist daily (and had done so for a number of weeks). The parents were required to have 3 hours of psychosocial assessment interviewing, although the hospital social worker had already performed such an assessment and met weekly with the parents. The hospital team provided its formal documents. Offered its medical chart for perusal, and invited the AB 3632 team members to visit the pupil at the hospital and observe his functioning in the classroom, peer recreation, and other hospital-based settings. Nevertheless, the AB 3632 team conducted a second, parallel and redundant, evaluation.

A pupil with autism and schizophrenia had been treated for many months by a board-certified child psychiatrist (a university professor with many years of experience). The pupil was referred for AB 3632 services, and the mother was told that she must relinquish the current treating psychiatrist and utilize the AB 3632-contracted one, or her son would lose all AB 3632 services. The mother did not want to disrupt the psychiatric care her child was already (receiving which was funded by the family's medical insurance.

In our view, AB 3632 services should be complementary to mental health services secured through the family's own resources. Said a different way, the purpose of AB 3632 resources is to supplement the family's resources, not supplant them. AB 3632 should not function as an "all-or-nothing" service "package". Rather, it should fill in the gaps and serve a coordinating, integrating function between school and mental health services. Accordingly, we suggest that subsections (b) and (f) be modified as follows:

That the following be added to end of subsection (b):

"the plan shall include a review and summary of the pupil's mental health assessments and interventions conducted in the past year, if the parent authorizes the disclosure of such information. The mental health assessor shall provide written justification for repeating any component of an existing assessment, explaining why that assessment component is believed to be invalid, unreliable, inappropriate, or otherwise inadequate."

Response:

Please see comments 76) through 79) below.

The Departments do not concur with Mr. Feldman's, Mr. Mentink's or Mr. Pasaro's comments that community mental health services must provide mental health assessment to every student referred by an IEP team. The justification for the Department's opinion may be found in the responses to Section 60045(a) and 60045(a)(1) above.

Additionally, mental health needs to notify the LEA of the receipt of all referral packages and this measure insures that the receipt of the referral and community mental health progress towards assessment is verified. This measure should not be deleted, as Mr. Feldman suggests, for this reason.

That community mental health services must adhere to the fifteen-day assessment plan deadline is stated in the Section 60045(b) of the current proposed regulations which does not distinguish between complete and incomplete referral packages and which requires community mental health services to:

"...provide the plan to the parent, within 15 days of receiving the referral from the LEA, pursuant to Section 56321 of the Education Code.

Additionally, Section 60045(d) of the current proposed regulations insures that, regardless of any LEA delays in providing the missing elements of a referral packet,

"The LEA shall schedule the IEP meeting to be held within fifty (50) days from the receipt of the written consent pursuant to Section 56344 of the Education Code."

The Departments do not concur with the comments by Mr. Pasaro, but has amended the proposed regulations to clarify that it is the assessment plan which must include certain elements and not the assessment itself. The reason the regulation does not refer to the assessment itself in this subsection is that the parent, at this point in the process, has the discretion to approve or deny the assessment plan. It is, therefore, premature to say that community mental health services will act on the assessment plan that they have offered to the parent for approval.

Also, a review of the records by community mental health services is not duplicative in the sense that Mr. Pasaro mentioned because the reviewers bring a new and expert perspective to the review that makes it distinct from that provided by the LEA. The special education program in California involves local mental health specifically to provide pupils with the benefits of this expertise.

The Departments also do not concur with the comment made by Mr. Gibeaut. Choosing to accept or repeat existing assessments must remain at the discretion of the community mental health service because, oftentimes, hospital and private psychiatric assessments do not have the educational focus that this program requires. If they do have this focus, as the first

example Mr. Gibeaut cited appear to, nothing in the current proposed regulations compels the community mental health service to reassess. Additionally, non-Department of Mental Health contracted mental health professionals may lack knowledge of the local resources available within the community mental health services treatment continuum. For this reason they may fail to recommend the least restrictive intervention as the law requires and their recommendation may, therefore, be inappropriate. Consequently, there will be no change made to the proposed regulations in response to this comment.

The Departments concur with Mr. Burchill's comment that a consent form should be included in the assessment plan that is provided to the parent and has amended the proposed regulations to clarify this and other measures as follows:

Final Modification:

(b) If a mental health assessment is determined to be necessary, the community mental health service shall notify the LEA, develop a mental health assessment plan, and provide the plan and a consent form to the parent, within fifteen (15) days of receiving the referral from the LEA, pursuant to Section 56321 of the Education Code. The assessment plan shall include, but is not limited to, the review of the pupil's school records and assessment reports and observation of the pupil in the educational setting, when appropriate.

76) Comment:

60045(b) - Testifier 14. [(h)] (Feldman) suggested the following changes:

"This section should be amended to delete the initial phrase "if a mental health assessment is determined to be necessary." The reasoning for this deletion is stated immediately above. For the same reason the phrase "shall notify the LEA" should be deleted. There should also be a provision added to this section which makes it clear that the failure of the district to provide Mental Health with a complete packet does not excuse Mental Health from the 15-day timeline. The reason for this requested change is that in our suggested amendment to section 60045 9a) (2), the district is required to immediately provide the missing pieces of the packet. We also point out that the California Education Code provides for no extensions of timelines without parental consent. Thus, for all other assessments, timelines run from the referral date regardless of the difficulty in obtaining information. To set a different standard for Mental Health is discriminatory.

Response:

Please see response to comment 75) of this section of the Statement of Reasons.

77) Comment:

60045(b) - Testifier 6. [(b)] (Dasaro) proposed the following changes:

"The last sentence in the paragraph goes on to say 'the plan shall include, but is not limited to, the review of records, etc...' I believe that you mean assessment in place of plan? I would propose that Mental health review the records and observe the student in the educational setting; but an assessment should be completed by a mental health service provider, including a written report of their findings in addition to the review of education. To have a Mental Health service provider review existing documentation would merely be a duplication of services. Given the demands from section 60050 (a) (1-5) it seems a mental health service provider would have to assess the student. If not, how would they determine what to put in the IEP for mental health services and how would they measure progress.

Response:

Please see response to comment 75) of this section of the Statement of Reasons.

78) Comment:

60045(b) - Testifier 7. [(e)] (Burchill) proposed the following changes:

This section refers to the plan developed by MH and sent to the parent. In order to be consistent and respond to (c) & (d) of the next sections that refer to parental consent, it would be helpful to include that the consent forms should be provided with the plan given to parents.

Recommendation: Add "a parental consent form" to the list of information that MH will provide the family.

Response:

Please see response to comment 75) of this section of the Statement of Reasons.

79) Comment:

60045(b) - Testifier 13. [(e)] (Mentink) proposed the following changes.:

(b) To be consistent with the amendment immediately above, [to Section 60045(a)] this subsection should be amended as follows:

If a mental health assessment is determined to be necessary, (The community mental health service shall....

Response:

Please see response to comment 75) of this section of the Statement of Reasons.

80) Comment/Response:

60045(b)(4) - Testifier 2. [(b)] (McIver): please see Comment 102).

81) Comment:

60045(d) - Testifier 14. [(i)] (Feldman) suggested the following changes:

"Our objection to this section is related to our previously stated objection of section 60040 (a). The regulation that gives a mental health agency another 50 day timeline (65 days or more if you count the assessment plan timeline) to conduct their assessment and hold another IEP after the initial IEP again institutionalizes the "double timeline" concept for the provision of mental health services to needy student. For students needing residential treatment, another 15 days could be added to the timeline so that an expanded IEP team could be convened to discuss the need for residential treatment. Arguably, the timelines for most needy students to receive services would be more than doubled compared to other students and other special education services.

Response:

The Departments concur with the commentor that the term "immediately" is not defined in these regulations. However, the Departments have determined that the recommended change of "immediately" to "within three days" would delay the IEP team meeting for an unacceptable period of time. In order to clarify the intent of this regulation, the Departments have replaced immediately by the phrase "within one working day."

Final Modification:

(d) Upon receipt of the parent's written consent for a mental health assessment, the community mental health service shall ~~immediately~~ contact the LEA within one (1) working day to establish the date of the IEP meeting. The LEA shall schedule the IEP meeting to be held within fifty (50) days from the receipt of the written consent pursuant to Section 56344 of the Education Code.

82) Comment:

60045(d) - The following changes were suggested by testifier 20. [(k)] (Weinberg):

"Proposed Regulation:

(d) Upon receipt of the parent's written consent for a mental health assessment, the community mental health service shall immediately contact the LEA to establish the date of the IEP meeting.

**Recommended Changes:**

Upon receipt of the parent's written consent for a mental health assessment, the community mental health service shall immediately (within 3 days) contact the LEA to establish the date of the IEP meeting.

**Justification:**

The term 'immediate' is not defined. The definition provided here (i.e., within 3 days) is needed so that timelines do not become excessive and children harmed because of being without needed services.

**Response:**

Please see response to comment 81) of this section of the Statement of Reasons.

**83) Comment:**

60045(e) - Testifier 18.[(f)] (Holle) recommended the following changes:

"The obligations under Medi-Cal include an obligation to provide services with 'reasonable promptness.' 42 U.S.C. Section 1396(a)(8); Doe v. Chiles, 136 F.3d 709 (11th Cir. 1998); Sobky v. Smoley, 855 F.Supp. 1123 (E.D. Cal. 1994). This may mean that Medi-Cal beneficiaries may be entitled to receive services more promptly than the time periods allowed under special education rules, particularly where there is an exigent need.

**Response:**

Please see comments 84) and 85) below:

The Departments do not concur with these comments.

Special education time lines are established in consideration of the necessity for an IEP team meeting. They must, therefore be respected. Medi-Cal beneficiaries may indeed be entitled to receive services more promptly than the time periods allowed under special education rules as Ms. Holle points out, but they must receive these medical services in the manner clarified by Government Code, Section 7576 (f):

"from other public programs or private providers, as appropriate,"

A crisis is one example of an "exigent need" as mentioned by Ms. Holle. Such needs are explicitly excluded from services provided by this program as is further clarified by Government Code, Chapter 26.5, Section 7576 (f) which states:

"The procedures set forth in this chapter are not designed for use in responding to psychiatric emergencies or other situations requiring immediate response. In these situations, a parent may seek services from other public programs or private providers, as appropriate."

All related services through this program are educational in nature as defined in Government Code, Chapter 26.5, Section 7570, and may only be added to an IEP by an IEP team pursuant to Government Code, Chapter 26.5, Section 7572 (d). For these reasons, no change will be made to the regulations due to this comment.

With regard to Mr. Mentink's comment, Government Code Section 7576(b) ensures that California pupils are provided an assessment which includes "social or emotional status" by the LEA within one 65 day timeline. Pursuant to Education Code 56324(a) psychological assessments are provided by a credentialed school psychologist. Mental health treatment interventions such as counseling and special day treatment classes are also routinely provided by LEAs. Community mental health services provide a specialized related service that is in addition to the mental health assessment and treatment already provided by the LEA.

The posthearing amendment is necessary to clarify that the extension of time lines is only acceptable if a parent agrees. Such extensions are sometimes necessary in order to arrive at a meeting time with is acceptable to the parent and allows them to attend the IEP team meeting. In this event, there is insufficient reason to compel the LEA to complete the assessment, as Mr. Warboy suggests in Comment 93).

84) Comment:

60045(e) - Testifier 10. [(e)] (Warboys) suggested the following changes:

"We object to the portion of Section 60045(c) [sic actual section is 60045(e)] that states that local mental health service must notify the LEA within 25 days if the mental health service is not going to complete their assessment within 50 days. Under the current law all assessments must be completed within the 50-day statutory timeline. The proposed regulation should not include a provision that states or implies that an agency lawfully may fail to meet this deadline. If the intent of this regulation is to shift responsibility for completing the mental health assessment within the original 50 day time period from mental health to the LEA, upon notification that local mental health service will fail to complete the assessment in a timely manner, then the regulation should specifically say this. If this is the case, the regulation should be amended by adding the sentence: Upon receipt of such a notification from the local mental health service, the LEA shall arrange for the completion of the mental health service, the LEA shall arrange for the completion of the mental health assessment within the time remaining in the original 50 day time period.

Response:

Please see response to comment 83) of this section of the Statement of Reasons.

85) Comment:

60045(e) - Testifier 13. [(r)] (Mentink) proposed the following changes.:

"(e) This subsection should be deleted."

Rationale:

Under AB 3632, California already treats special education pupils whose related service needs include mental health services differently than its children with other disabilities in terms of the maximum time allowed for assessment to determine needs. By assigning responsibility for mental health services to a noneducational agency and by giving the second agency an additional 65 days on top of the 65 days the education agency has to determine whether a child qualifies for special education. California tolerates a 130-day assessment period based solely on category of need. This is already a violation of federal law which requires that the meeting to develop the IEP be held within 30 days of determining the child's eligibility for special education. 34 C.F.R. Sec. 300.343(c). See *Jose P. v. Ambach*, 669 F.2d 865 (2d Cir., 1982): where state statute was silent on time for assessment, court imposed a 30-day duty to assess and 60-day duty to make placement; see also *Mrs. W. v. Tirozzi*, 832 F.2d 748 (2d Cir., 1987): where a child was newly referred for special education assessment, court found delay of 36 days to be too long and ordered reimbursement for private services.

Proposed subsection (e) further amplifies the unlawful delays in the provision of needed services. Parents can always waive rights. This procedure need not be codified by regulation. Doing so appears to create the option of notifying the parties of the imminent failure to complete assessments pursuant to time lines in lieu of meeting them."

Response:

Please see response to comment 83) of this section of the Statement of Reasons.

86) Comment:

60045(f) - Testifier 10.[(g)] (Warboys) suggested the following changes:

This section fails to make any reference to the process that will be followed if a parent chooses to obtain an independent assessment. The section should include provisions describing the procedure, including timelines, that the LEA and local mental health will follow in reviewing the independent assessment and, possibly, reconsidering the original mental health service recommendations.

Response:

Please see comments 87) through 89) below.

The Departments do not concur with Mr. Gibeaut.

While collaboration with other mental health providers is positive, the current proposed regulations do not impede this from occurring. Mr. Gibeaut's proposed amendment give control of the mental health treatment provider who may not realize the continuum of care possibilities within the community mental health service system of care. A non-county

employee is also not required to be sensitive to county fiscal concerns. Because they are not public employee's, private health care provider's are free to ignore the intent of the legislature as expressed by Government Code 7576 which states in pertinent part:

"It is the intent of the Legislature that the local education agency and the community mental health service vigorously attempt to develop a mutually satisfactory placement that is acceptable to the parent and addresses the pupil's educational and mental health treatment needs in a manner that is cost-effective for both public agencies subject to the requirements...that the placement be appropriate and in the least restrictive environment."

The two public agencies must be allowed to provide treatment coordination as the IEP directs, and a private provider is not required to be on this team as are the parent, the LEA and the community mental health service.

Nothing in the proposed regulations precludes a parent from receiving privately funded psychiatric services in combination with other, IEP directed services. Therefore, there will be no amendment made to the proposed regulations in response to Mr. Gibeaut's comment.

The Departments concur with the grammatical correction by Mr. Mentink, and partially concur with the suggestion that parents need to be ensured of time to review a community mental health services assessment and treatment recommendation. The Departments disagree with the amount of time Mr. Feldman and Mr. Mentink propose, however, and has amended the regulations as follows to address these concerns.

#### Final Modification:

(f) The community mental health service assessor shall review and discuss ~~their~~ the mental health service recommendation with the parent and appropriate members of the IEP team. The assessor shall also make a copy of the mental health service assessment report available to the parent at least two days prior to the IEP meeting.

#### 87) Comment:

60045(f) - Testifier 13. [(e)(4)] (Mentink) proposed the following changes.:

This subsection should be amended as follows:

"(f) The community mental health service assessor shall review and discuss ~~their~~ [assessor is singular] his/her mental health service recommendation with the parent and appropriate members of the IEP team prior to the IEP team meeting. The assessor shall also make a copy of his/her mental health service assessment report available to the parent at least two business days prior to the IEP meeting pursuant to Title 34 C.F.R. Sec. 300.562(a).

Rationale:

Parents are entitled to these assessment reports prior to the IEP meeting and mental health assessment reports should be treated in the same way as other assessment reports. The specificity of two business days assures that the language is not interpreted to mean, as often happens, two minutes prior to the IEP meeting. These important reports must be read and considered in advance of the meeting in order for parents to participate intelligently in this important decision-making process. It is a waste of public resources to have parents not prepared to consent to a plan and request that the team reconvene for that purpose after they have had an opportunity to thoroughly read and consider the reports.

Response:

Please see response to comment 86) of this section of the Statement of Reasons.

88) Comment:

60045(f) - Testifier 14. [(j)] (Feldman) suggested the following changes:

"This section should be amended to provide the following phrase "and shall provide the parents with a copy of the assessment at least five days before the IEP" this is consistent with the new IDEA requirement that the parents receive copies of reports upon completion."

Response:

Please see response to comment 86) of this section of the Statement of Reasons.

89) Comment:

60045(f) - The following changes were suggested by testifier 15. [(e)] (Gibeaut):

"We suggest that subsection..(f) be modified as follows:

"The community mental health service assessor shall review and discuss their mental health service recommendation with the parent and relevant non-department of Mental Health-contracted qualified mental health professionals, with the parent's consent."

The regulations should mandate cooperation and collaboration between AB 3632-contracted mental health professionals and other mental health professionals already serving the child.

Response:

Please see response to comment 86) of this section of the Statement of Reasons.

90) Comment:

60045(f)(1) - The following changes were suggested by testifier 20. [(m)] (Weinberg):

Proposed Regulation:

(f) (1) If the parent disagrees with the assessor's mental health service recommendation, the community mental health service shall provide the parent with written notification that they may require the assessor to attend the IEP team meeting to discuss the recommendation. The assessor shall attend the meeting if requested to do so by the parent.

Recommended Changes:

(f) (1) If the parent disagrees with the assessor's mental health service recommendation, the community mental health service shall provide the parent with written notification that they may require the assessor to attend the IEP team meeting to discuss the recommendation. The assessor shall attend the meeting if requested to do so by the parent. The parent has the right to obtain, at public expense, an independent educational assessment in accordance with Education Code Section 56329(b).

Justification:

This section fails to make any reference to the process that will be followed if a parent seeks an independent educational evaluation.

Response:

It would be misleading to parents to only quote part of Education Code Section 56329 (b) in the regulations as this commentor recommends. The second paragraph of Education Code Section 56329 (b) states that:

..."the public education agency may initiate a due process hearing pursuant to Chapter 5 (commencing with Section 56500) to show that its assessment is appropriate. If the final decision resulting from the due process hearing is that the assessment is appropriate, the parent still has the right for an independent educational assessment, but not at public expense."

Parents may only be entitled to an assessment at public expense, therefore, if the assessment of the public agency is deemed inappropriate in a fair hearing. Without this determination, the parents must pay for the independent assessment themselves. It is important not to promise parents a free service in the regulations when the law may require them to pay for it. There will be no change made to the regulations in response to this comment for this reason.

91) Comment:

60045(f)(2) - Testifier 21.[(b)] (Frampton) suggested the following changes:

"Additionally, I believe that there are provisions in Assessment to Determine the Need for Mental Health Services, (60045), which suggest that CMH can operate independent of educational input. My understanding is that the purpose of this legislation is to help facilitate parent participation in the IEP process. However, it appears that, conversely, this legislation assures CMH of a unilateral role in determining a child's placement or termination of placement. This flies in the face of my understanding of IDEA. I do not believe that CMH can operate independent of the IEP team. This provision also threatens the viability of the stay put provision.

Response:

Please see comment 92) below.

In California, local mental health departments are involved in the special education pupils program in order to provide expertise regarding diagnosis and treatment. Mental health can best determine what local mental health resources are available and what children are likely to benefit from the interventions. Compelling the LEA staff to accept the initial opinion of the assessor is meant to facilitate treatment in the event of a disagreement between the public staff. It ensures that treatment will begin, rather than be delayed by a stalemate, and it honors the expertise of the mental health assessors. It does not preclude the IEP team from working together in future IEP team meetings to assess whether the intervention is enabling the pupil to benefit from their education. Therefore, there will be no change to the regulation as a result of this comment.

92) Comment:

60045(f)(2) - Testifier 10.[(f)] (Warboys) suggested the following changes:

"We recognize that this proposed regulation simply repeats Government Code Section 7572(d)(1), but we are writing to voice our objection over the failure of this proposed regulation to make any attempt to reconcile the conflict between this provision of California law and federal law and regulations. In our view, the requirement that the LEA's IEP members must adopt the recommendation of the mental health assessor regardless of their own views and other conflicting information, including possible independent assessments provided by the parent, is a blatant violation of the role of the IEP team, as defined in federal law. Some effort should have been made to mitigate the impact of this provision."

Response:

Please see response to comment 91) of this section of the Statement of Reasons.

93) Comment:

60045(g)(5), (b)(4), and (c)(2) - Testifier 2.[(b)] (McIver) and testifier 5.[(b)] (Happoldt/Valdez) suggested the following changes:

"Amend subsections of Section 60045 (g) (5) (b) (4) and (c) (2) [sic], actual Section is 60040 and actual subsections are (a)(5) (b)(4) and (c)(2)] by deleting the phrase 'determined to be inappropriate' and replacing it with 'not adequate.'"

Response:

The Departments do not concur with the commentor.

Chapter 26.5 of the Government Code entitles a special education pupil access to a "free and appropriate public education." When an intervention is "not adequate" to remediate a learning disability, that inadequacy prevents a pupil from having access to public education. Thus, that intervention fails the program eligibility test of appropriateness. It is important to emphasize this by utilizing the language that expresses the program standard. Ultimately, a pupil's education is either appropriate or inappropriate, and "not adequate" does not express the importance of this educational determination as clearly as the proposed regulation. Upon this determination, eligibility for more restrictive community mental health services is based. Therefore, no change will be made in the regulations pursuant to this comment.

94) Comment:

60045(g) - Testifier 7.[(f)] (Burchill) proposed the following changes:

"It is unclear whether the assessor will be required to attend the IEP meeting ONLY when the parent disagrees with the assessment. Is there any legal authority that prevents the mental health assessor from not being required to attend the IEP meeting any time that a parent or LEA requests they be present? The reason that this is important is that parents may not understand the assessment or the implications the assessment may have on their child's IEP and educational placement until the time of the IEP. Without specified authority to NOT require attendance of the MH assessor at the IEP meeting, it would seem that either a parent or school district could require mental health be present.

Recommendation:

Delete this section and replace with, "The parent shall be provided with written notification that they may require the assessor to attend the IEP meeting. The school district may also require the assessor attend the IEP meeting."

Response:

Please see comments 95) and 96) below.

The Departments concur with some of the comments pertaining to this section, but not with all of them.

For example, the parent may compel the assessor to attend the IEP team meeting, but the LEA may not. Government Code Section 7572 (d) (1) provides that:

"when the proposed recommendation of the person has been discussed with the parent (added emphasis) and there is disagreement on the recommendation pertaining to the related service, the parent shall be notified in writing and may require the person who conducted the assessment to attend the individualized education program team meeting to discuss the recommendation."

The LEA is required to invite the assessor to attend the meeting by Government Code Section 7572 (e), but the authority for not requiring the mental health assessor's presence at the IEP team meeting is found under the same section which states in pertinent part:

"...If the responsible public agency representative cannot meet with the individualized education program team, then the representative shall provide written information concerning the need for the service pursuant to subdivision (d). Conference calls, together with written recommendations, are acceptable forms of participation. If the responsible public agency representative will not be available to participate in the individualized education program meeting, the local education agency shall ensure that a qualified substitute is available to explain and interpret the evaluation pursuant to subdivision (d) of Section 56341 of the Education Code."

This statute, therefore, gives the mental health assessor the authority not to attend the IEP team meeting by providing for this eventuality. This provision in law is necessary because 26.5 assessors are a scarce resource in many counties. Compelling assessors to attend every IEP team meeting in statute or regulation could, therefore, result in students experiencing unacceptable delays in receiving assessments because of the commentator's proposed requirement.

Oftentimes education members of the IEP such as school psychologists or other special education staff are able to explain the mental health assessment and treatment recommendations to the parent. If this explanation is not clear, or it becomes apparent to the parent upon understanding the assessment that they disagree with it, the parent has the option to postpone the IEP team meeting and ask that it be reconvened with mental health participation which it is their right to require.

Additionally, nothing prevents local mental health staff from participating in the IEP team meeting if they desire to do so, and they often do. To compel them to always do so, however, is not required in statute, and may sacrifice other special education pupils' right to a timely mental health assessment. Therefore, no change will be made in the regulations pursuant to this comment.

In response to Mr. Burchill's second comment (item 7g), while subsection (g) does not include a timeline, subsection (d) does, and it controls throughout Section 60045 of the proposed regulations. The statute that is cited in subsection (g) explains the content of the report. Subsection (d), as amended, of these proposed regulations establishes the timeline for the completion of the mental health assessment. It both cites the applicable Education Code and includes a statement of the timeline in this citation as follows:

"Upon receipt of the parent's written consent for a mental health assessment, the community mental health service shall immediately contact the LEA within one (1) working day to establish the date of the IEP meeting. The LEA shall schedule the IEP meeting to be held within fifty (50) days from the receipt of the written consent pursuant to Section 56344 of the Education Code."

For this reason, there will be no change made to Section 60045(g) of the proposed regulations in response to these comments.

95) Comment:

60045(g) - Testifier 7. [(g)] (Burchill) also proposed the following changes:

"The Section referred to does not include a time line when the assessment must be completed. In our experience, these assessments can be delayed for months with IEPs held without important mental health assessment information or representation from mental health."

Recommendation:

Include required time line language (not reference to code section) for completion of mental health assessment in this section."

Response:

Please see response to comment 94) of this section of the Statement of Reasons.

96) Comment:

60045(g) - Testifier 13. [(e)(5)] (Mentink) proposed the following changes.:

"This subsection should be rewritten as follows:

"(g) The community mental health service shall provide to the IEP team, including the parent, a written assessment report in accordance with Education Code Section 56327 at least two business days prior to the IEP team meeting."

Rationale:

The misperception that the IEP team consists of everyone representing the various agencies involved with the child and other than the parent continues to persist and should be clarified here. The "two business days" amendment makes this subsection consistent with subsection (f)."

Response:

Please see response to comment 94) of this section of the Statement of Reasons.

97) Comment:

60045(h) - The following changes were suggested by testifier 20.[(1)](Weinberg):

Proposed Regulation:

(h) For pupils with disabilities receiving services under this Chapter, the community mental health service of the county of origin shall be responsible for preparing statutorily required IEP reassessments.

Recommended Changes:

(h) For pupils with disabilities receiving services under this Chapter, the community mental health service of the county of origin shall be responsible for preparing statutorily required IEP reassessments. In no event shall the procedures described in this subdivision delay or impede the referral and assessment process.

Justifications:

It needs to be made absolutely clear that the procedures described in this section do not in any way extend time lines or delay services.

Response:

The Departments partially concur with the commentor that it must be made clear that delays in referral and assessment are not acceptable, but has amended the regulations as follows to address her concerns.

Final Modification:

(h) For pupils with disabilities receiving services under this Chapter, the community mental health service of the county of origin shall be responsible for preparing statutorily required IEP reassessments in compliance with the requirements of this Section.

98) Comment:

60045(i) - Testifier 18.[(j)] (Holle) recommended the following changes:

"We recommend that proposed Section 60045 be amended to add the following subsection:

(i) The community mental health service may have obligations to pupils who are covered by full-scope Medi-Cal or Healthy Families beyond those set forth in this Article including obligations triggered by the referral and assessment provided for in this Article. This Article does not limit the Medi-Cal and Healthy Family rights, including right to services, informing, case management, and notice, of pupils covered by Medi-Cal or Healthy Families."

Response:

The Departments do not concur with this comment.

The referral and assessment procedures delivered pursuant to Chapter 26.5 of the Government Code are expressly for educational purposes. There is nothing in these proposed regulations which denies available Medi-Cal or Healthy Family benefits to eligible children. For this reason, there will be no addition made to the proposed regulation.

Section 60050

99) Comment:

60050(a) - Testifier 14.[(k)] (Feldman) suggested the following changes:

"We are suggesting that all section 60050(a) after the comma on line 3 be deleted and that in its place the following phrase should be added "an IEP shall be developed in accordance with the requirements of section 614 (d)." education code. The language as written in the proposed regulations does not encompass all of the Federal IEP requirements and thus, is out of compliance with the federal mandate."

Response:

The Departments do not concur with this comment.

Pursuant to Education Code 56324(a), a credentialed school psychologist provides psychological assessments. Mental health treatment interventions, such as counseling and special day treatment classes are also routinely provided by LEAs. Government Code Section 7576(b) ensures that California pupils are provided an assessment which includes "social or emotional status" by the LEA, and this assessment complies with Education Code Section 614.

Community mental health services provide a specialized related service that is in addition to the mental health assessment and treatment already provided by the LEA. For this reason, Section 60050(a) of the proposed regulations pertains only to California requirements for the mental health portion of the IEP.

Additionally, Section 60050(a)(4) of the proposed regulations has been amended to comply with the requirements of the federal Individuals with Disabilities Education Act.

Therefore, no change needs to be made to this proposed regulation.

100) Comment:

60050(a)(4) - Testifier 13.[(f)] (Mentink) proposed the following changes.:

"This subsection should be amended as follows.

"The initiation, location, duration and frequency of the mental health services.

"Rationale: This amendment is necessary so as not to conflict with the recently amended IDEA (20 USC Sec. 1414(d)(1)(vi))."

Response:

The Departments disagree with the commentor and therefore no changes are proposed to this section.

101) Comment:

60050(b) - Testifier 13.[(v)] (Mentink) proposed the following changes.:

"(b) This subsection must be entirely deleted and completely rewritten as follows:

"If a community mental health service wishes to terminate or change an IEP specified mental health service, such community mental health service shall give written prior notice which meets all the requirements of Title 20 U.S.C. Sec. 1415(b) and (c) to the parents of the affected child. The child's IEP-specified mental health service shall continue until the parent has given written consent to the termination or change or until such time as any dispute regarding the proposed termination or change is resolved pursuant to Education Code Section 56501 et seq.

"Rationale:

There can be no 'termination' of IEP-specified services which is then followed by an IEP meeting to discuss and document this change. Mental health cannot simply terminate IEP specified services unilaterally and neither can the education agency. Mental health is bound by the same provisions when it provides a special education related service."

Response:

Please see comments 102) through 105) below.

The Departments do not concur with the comment made by Ms. Holle. While the responsibility to notify Medi-Cal beneficiaries is well established in the statute, regulations and case law pertaining to Medi-Cal, these proposed regulations pertain specifically to services delivered pursuant to Chapter 26.5 of the Government Code. For this reason, it would be unnecessarily duplicative for these regulations to reiterate the responsibilities of community mental health providers. In addition to this, many special education pupils receiving mental health services through this program are not Medi-Cal eligible. These pupils are not entitled to Medi-Cal benefits. The Departments do not concur that these proposed regulations should be made unnecessarily complex by repeating other regulations.

The Departments concur with the concern that services could be terminated without prior notification of the parents or the educational entities involved. The necessity for this regulation, however, is to prevent pupils who have dropped out of treatment from remaining the responsibility of county mental health department's when these department's, through no fault of their own, are unable to assist the pupil because the pupil will not attend appointments. In this eventuality, it becomes necessary for the IEP team to convene to offer other services that the pupil and/or his or her family may be willing to participate in to address the pupil's unmet mental health treatment needs. For this reason, the State Department of Mental Health has amended the proposed regulations to allow for prior notification as follows.

Final Modification:

"(b) Upon completion or termination of IEP specified mental health services is mutually agreed upon by the parent and the community mental health service, or when the pupil is no longer participating in treatment, the community mental health service shall notify the parent and the LEA which shall schedule an IEP team meeting to discuss and document this proposed change if it is acceptable to the IEP team."

102) Comment:

60050(b) - Testifier 7.[(h)] (Burchill) proposed the following changes:

"In order to meet this requirement for the IEP, during the IEP meeting, it is necessary for a representative from mental health, who can represent the needs of the child, be present during the IEP meeting. It is not uncommon for the entire mental health portion of a child's IEP to not be discussed in detail or developed during the IEP meeting because mental health does not attend the IEP meeting. Mental Health's sending follow up information to be tacked onto the IEP after the meeting has concluded IEP is not acceptable."

**Recommendation:**

Under (a) add: mandatory IEP meeting attendance of a representative from mental health who is familiar with the student."

**Response:**

Please see response to comment 101) of this section of the Statement of Reasons.

**103) Comment:**

60050(b) - Testifier 17.[(c)] (Cromer) suggested the following changes:

"Pursuant to 34 CFR 300.504-505 there is a requirement the family to be noticed of any proposed change in placement. Thus, to adopt this provision, providing for CMH to unilaterally terminate a child's mental health services and then notifying the Individual Education Plan Team ('IEPT') violates both 34 CFR 300.504-505 as well as 20 U.S.C. 1415(b)(1)...

In addition to the notification of 'procedures available,' the Federal regulations require that this notice must also include:

(2) a description of the action proposed or refused by the agency, an explanation of why the agency proposes or refuses to take the action, and a description of any options the agency considered and the reasons why those options were rejected;

(3) a description of each evaluation procedure, test, record, or report the agency uses as a basis for the proposal or refusal; and

(4) a description of any other factors which are relevant to the agency's proposal or refusal.  
34 C.F.R. 300.505(A)

The language "upon completion or termination of IEPT specific mental health services..." [Emphasis added] allows CMH to terminate CMH services without any input from the educational arena or, the parents, violating IDEA. One cannot loose (sic) sight of the fact the mental health services are being provided as an educational need."

**Response:**

Please see response to comment 101) of this section of the Statement of Reasons.

104) Comment:

60050(b) - Testifier 14. [(1)] (Feldman) suggested the following changes:

"Should be deleted in its entirety: It is contrary to state and federal law. IEP services cannot be terminated without an IEP meeting at which parental consent is obtained or a due process hearing results in a hearing officer making a decision to terminate services."

Response:

Please see response to comment 101) of this section of the Statement of Reasons.

105) Comment:

60050(b) - Testifier 18. [(h)] (Holle) recommended the following changes:

Community mental health services have "the obligation under Medi-Cal to provide notices of action when services or eligibility for services are denied or when services are terminated."

Response:

Please see response to comment 101) of this section of the Statement of Reasons.

Section 60055

106) Comment:

60055(a) - The following changes were proposed by testifier 12. [(e)(1)] (Brogan):

(a) Whenever a pupil who has been receiving mental health services, pursuant to an IEP, transfers into a school district from a school district in another county, the responsible LEA administrator or IEP team shall refer the pupil to the local community mental health service to determine appropriate mental health services agency.

Response:

The Departments do not concur with this comment.

Government Code Section 7570 makes the Superintendent of Public Instruction and the Secretary of Health and Human Services Agency responsible for:

"Ensuring maximum utilization of all state and federal resources available to provide children and youth with disabilities...with a free and appropriate education."

It is essential that transfers of pupils with active IEP driven mental health services occur

efficiently so that eligible pupils do not experience a delay in mental health services at a time when the stress of moving makes such services even more vital. The local school administrator may be unaware of the move of a single pupil to another district. The IEP team, specifically the parent and the mental health treatment provider are more likely to have personal interest in assuring the efficient transfer of a pupil into a new district. Mental health services from the different counties are more familiar with each other than a school administrator is likely to be. The proposed regulation facilitates a transfer, in compliance with Government Code Section 7570, by allowing the IEP team to perform the function of referral rather than depending only on the LEA administrator to perform this function. For this reason, there will be no amendment of the proposed regulations due to this comment.

107) Comment:

60055(a) - Testifier 14.[(m)] (Feldman) suggested the following changes:

"Should be amended to delete the phrase "IEP" team". There is no authority in special education law that allows the IEP team to perform this function."

Response:

Please see response to comment 106) of this section of the Statement of Reasons.

108) Comment:

60055(b) - Testifier 14.[(n)] (Feldman) suggested the following changes:

"Should be amended to add the phrase 'any new assessments' after the word services. Delete all of the words after the word "and" on line three and add the phrase "to develop a mental health IEP pursuant to Section 60050(a) of these regulations and Section 56325 of the California Education Code."

Response:

Please see comment 109) below.

The Departments do not concur with these comments.

This subsection of the proposed regulations is necessary in order to prevent a pupil's condition from deteriorating in the allowable thirty-day wait for a new IEP to determine local services that can meet his or her educational needs. The amendments suggested by Mr. Feldman add nothing except a requirement to review any new assessments, which has no basis in statute, to justify a new mental health IEP. By requiring this, Mr. Feldman removes the option of allowing the new community mental health service to simply implement the current IEP, which is the most efficient, and probably most appropriate, course of action. Therefore, no change will be made to the proposed regulations in response to this comment.

109) Comment:

60055(b) - Testifier 12. [(e)(2)] (Brogan) recommends that this entire subsection be deleted:

Response:

Please see response to comment 108) of this section of the Statement of Reasons.

Section 60100

110) Comment:

60100 - Testifier 1. [(1)] (Graubard) requests clarification regarding changes in law regarding the appointment of relating to the appointment of surrogate parents for children who are dependents or wards of the court.

Response:

The Departments believe that Ms. Graubard's comment is a question regarding information provided on page 4 of the Initial Statement of Reasons for Section 60010(p). Ms. Graubard appears to have mistyped the section number for Section 60010 of the proposed regulations as Section 60100. Secondly, Ms. Graubard's comment does not specifically pertain to the proposed regulations. The answer to Ms. Graubard's questions can be found in Government Code section 7579.5 and its legislative history.

111) Comment:

60100 - Testifier 3. [(c)] (Ravel) recommends that the regulations require local education agency (LEA) or State financial responsibility where a pupil is placed unilaterally by parents in a for-profit out-of-state group home and the pupil's parents qualified for retroactive reimbursement pursuant to the Carter decision. Testifier Ravel continues that in such cases, the community mental health service cannot certify payment for the placement pursuant to Welfare and Institutions Code section 18351 or sections 11460 through 11466 because no rate has been established by the State Department of Social Services and the group home is not a non-profit facility. Testifier Ravel states that the community mental health program has no responsibility for the residential component of such a placement, but there is no entity identified by the State to whom the payment request should be directed.

Response:

The Departments believe that these regulations, as written, meet the test of law. Government Code, Section 7581 states that "the residential and noneducational costs of a child placed in a medical or residential facility by a public agency, other than a local education agency, or independently placed in a facility by the parent of a child, shall not be the responsibility of the state or local education agency, but shall be the responsibility of the placing agency or parent" (emphasis added).

112) Comment:

60100 - Testifier 14.[(o)] (Feldman) recommends that the title of this section should be amended to insert the word " . . . IEP TEAM," since the section deals with IEP team responsibilities.

Response:

The Departments support adding "LEA IDENTIFICATION" as the entity that determines SED status necessary for residential placement eligibility. In addition, "...WITH A DISABILITY" is deleted and word order is changed to clarify the regulation title subject and to correct grammar.

113) Comment:

60100 - Testifier 14.[(p)] (Feldman) recommends that section (b) should amended accordingly: (1) add the word "member" after the word "team" in line one; (2) delete the phrase "is considering a"; (3) change the word "recommendation" to "recommends"; and (4) delete the word "for". Testifier Feldman states that the purpose of these changes is to bring the regulations into compliance with Government Code Section 7572.5(a).

Response:

The Departments agree with Mr. Feldman's comment and is amending the regulations.

114) Comment:

60100 - Testifier 14.[(q)] (Feldman) recommends that section (b)(1) should amended to: (1) delete all of the words on line one prior to the word "and"; and (2) after the word code on line 2, add the words "shall be convened within thirty days." Testifier Feldman states that the purpose of these changes is to bring the regulations into compliance with the time lines for calling IEP meetings in accordance with the requirements of the California Education Code.

Response:

While the Departments do not fully understand Mr. Feldman's point of reference, the Departments do agree with the general intent of his comment. Therefore, the Departments propose that section 60100(b)(1) should be amended to read "An expanded IEP team shall be convened within thirty (30) days with an authorized representative of the community mental health service."

115) Comment:

60100 - Testifier 14.[(t)] (Feldman) recommends that section (d) should amended to add the sentence "the parent shall be invited to participate in all meeting (sic) where placement is to

be discussed". Testifier Feldman states that such language is a requirement of the new Individuals with Disabilities Education Act.

Response:

The Departments believe that the language as written for section 60100(d) meets the requirements of state and federal education law. Section 60100(d) discusses a possible recommendation made by the expanded IEP team. Section 60100(b) establishes the requirement that an IEP team must convene to consider recommendations for possible residential placement. By definition, the IEP team must include a parent in accordance with section 60010(j).

116) Comment:

60100 - Testifier 12. [(f)(1)] (Brogan) requests that the title of this Section "PLACEMENT OF A PUPIL WITH A DISABILITY WHO HAS BEEN IDENTIFIED AS SERIOUSLY EMOTIONALLY DISTURBED" be revised to "PLACEMENT OF A PUPIL WITH A DISABILITY WHO HAS BEEN IDENTIFIED AS EMOTIONALLY DISTURBED BY THE LEA".

Response:

The Departments agree with Mr. Brogan's comment. The title has been changed to clarify that it is the local education agency that has responsibility for determining the disabling condition of the special education student. In the past, community mental health felt that diagnostic impressions were under their purview.

117) Comment:

60100(b) - Testifier 12. [(f)(2)] (Brogan) requests that the word "educational" be inserted in Section (b) for purposes of determining eligibility.

Response:

The Departments agree with Mr. Brogan's amended language. This revision will clarify that it is the educational eligibility that is the determinant for special education services including referral for mental health services under the provisions of Chapter 26.5 of the Government Code.

118) Comment:

60100(b)(2) - Testifier 14. [(r)] (Feldman) suggested the following changes:

(This Section). "Should be deleted since the thirty day timeline cited above gives the Mental Health Representative time to schedule attendance at the IEP meeting."

Response:

Illness and situations such as car accidents, floods, earthquakes, etc. can cause the mental health representative to miss a meeting even if he or she has planned to attend. These situations sometimes occur in spite of the best planning. Regulations are, therefore, necessary to provide IEP teams with an appropriate way to proceed in these situations. Therefore, there will be no change made to the regulations in response to this comment.

119) Comment:

60100(b)(3) - Testifier 14.[(s)] (Feldman) suggested the following changes:

"Should be amended to delete the entire first phrase down to the comma on line 2. This language should be replaced with the phrase "if an AB 3632 Mental Health Assessment has not previously been done". The reason for this suggested change is that the Education Code provides for a thirty-day timeline for an IEP meeting when the parent has not requested or consented to an additional assessment. Your proposed language would allow the LEA or Mental Health to delay a placement decision beyond the thirty-day timeline."

Response:

Please see comment 120) below.

The Departments do not concur with the comments that the LEA and the community mental health service can only reassess a pupil if an assessment has not previously been done or if it is not recent and relevant. Education Code Section 56321 allows for the reassessment of a pupil when

"...conditions warrant, or if a pupil's parent or teacher requests."

For this reason, the proposed changes will not be adopted.

120) Comment:

60100(b)(3) - The following changes were suggested by testifier 20.[(n)] (Weinberg):

Proposed Regulation:

(b)(3) If the community mental health service or the LEA determines that additional mental health assessments are needed, the LEA and the community mental health service shall proceed in accordance with Sections 60040 and 60045.

Recommended Changes:

(b)(3) If the pupil's assessments are not recent or relevant the community mental health service or the LEA may determine that additional mental health assessments are needed, and

the LEA and the community mental health service shall proceed in accordance with Sections 60040 and 60045.

Justification:

It must be clear that the only rationale for initiating additional assessment of the pupil is if the assessments are not recent or relevant and, therefore, there is not adequate information for making a determination about the pupil's need for residential placement."

Response:

Please see response to comment 119) of this section of the Statement of Reasons.

121) Comment:

60100(c) - Testifier 7. [(i)] (Burchill) proposed the following changes:

"It is unclear who is responsible to provide and pay for the above behavioral services. We are under the impression that education is responsible, however, we have observed that some educators believe that mental health or regional center is responsible. The student is close to crisis at this point and should not have to wait for critical intervention services while agencies point fingers at one another.

Recommendation:

Under (c), state the entity financially responsible to provide or pay for categories of behavioral intervention services necessary to prevent residential placement of the student."

Response:

The Departments do not concur with these comments.

Mr. Burchill's comment attempts to simplify fiscal responsibility more than is possible given the complexity and interaction of various children's programs today. A child may need a behavioral aide for reasons related to developmental disability, mental health, or education. By requiring education to always provide this service; the commentor's proposal could hamper local agencies from "ensuring maximum utilization of all state and federal resources available" as is required by Government Code Section 7570. For this reason, Mr. Burchill's proposal has not been adopted.

Mental health services, other than those identified in an IEP, for purposes other than providing educational assistance must be accessed through the community mental health services because statutory provision for these services are separate from the requirement for a free and appropriate public education.

Response:

Illness and situations such as car accidents, floods, earthquakes, etc. can cause the mental health representative to miss a meeting even if he or she has planned to attend. These situations sometimes occur in spite of the best planning. Regulations are, therefore, necessary to provide IEP teams with an appropriate way to proceed in these situations. Therefore, there will be no change made to the regulations in response to this comment.

119) Comment:

60100(b)(3) - Testifier 14.[(s)] (Feldman) suggested the following changes:

"Should be amended to delete the entire first phrase down to the comma on line 2. This language should be replaced with the phrase "if an AB 3632 Mental Health Assessment has not previously been done". The reason for this suggested change is that the Education Code provides for a thirty-day timeline for an IEP meeting when the parent has not requested or consented to an additional assessment. Your proposed language would allow the LEA or Mental Health to delay a placement decision beyond the thirty-day timeline."

Response:

Please see comment 120) below.

The Departments do not concur with the comments that the LEA and the community mental health service can only reassess a pupil if an assessment has not previously been done or if it is not recent and relevant. Education Code Section 56321 allows for the reassessment of a pupil when

"...conditions warrant, or if a pupil's parent or teacher requests."

For this reason, the proposed changes will not be adopted.

120) Comment:

60100(b)(3) - The following changes were suggested by testifier 20.[(n)] (Weinberg):

"Proposed Regulation:

(b)(3) If the community mental health service or the LEA determines that additional mental health assessments are needed, the LEA and the community mental health service shall proceed in accordance with Sections 60040 and 60045.

Recommended Changes:

(b)(3) If the pupil's assessments are not recent or relevant the community mental health service or the LEA may determine that additional mental health assessments are needed, and

the LEA and the community mental health service shall proceed in accordance with Sections 60040 and 60045.

Justification:

It must be clear that the only rationale for initiating additional assessment of the pupil is if the assessments are not recent or relevant and, therefore, there is not adequate information for making a determination about the pupil's need for residential placement."

Response:

Please see response to comment 119) of this section of the Statement of Reasons.

121) Comment:

60100(c) - Testifier 7.[(1)] (Burchill) proposed the following changes:

"It is unclear who is responsible to provide and pay for the above behavioral services. We are under the impression that education is responsible, however, we have observed that some educators believe that mental health or regional center is responsible. The student is close to crisis at this point and should not have to wait for critical intervention services while agencies point fingers at one another.

Recommendation:

Under (c), state the entity financially responsible to provide or pay for categories of behavioral intervention services necessary to prevent residential placement of the student."

Response:

The Departments do not concur with these comments.

Mr. Burchill's comment attempts to simplify fiscal responsibility more than is possible given the complexity and interaction of various children's programs today. A child may need a behavioral aide for reasons related to developmental disability, mental health, or education. By requiring education to always provide this service; the commentator's proposal could hamper local agencies from "ensuring maximum utilization of all state and federal resources available" as is required by Government Code Section 7570. For this reason, Mr. Burchill's proposal has not been adopted.

Mental health services, other than those identified in an IEP, for purposes other than providing educational assistance must be accessed through the community mental health services because statutory provision for these services are separate from the requirement for a free and appropriate public education.

Response:

Response:

Please see response to comment 119) of this section of the Statement of Reasons.

121) Comment:

60100(c) - Testifier 7. [(i)] (Burchill) proposed the following changes:

"It is unclear who is responsible to provide and pay for the above behavioral services. We are under the impression that education is responsible, however, we have observed that some educators believe that mental health or regional center is responsible. The student is close to crisis at this point and should not have to wait for critical intervention services while agencies point fingers at one another.

Recommendation:

Under (c), state the entity financially responsible to provide or pay for categories of behavioral intervention services necessary to prevent residential placement of the student."

Response:

The Departments do not concur with these comments.

Mr. Burchill's comment attempts to simplify fiscal responsibility more than is possible given the complexity and interaction of various children's programs today. A child may need a behavioral aide for reasons related to developmental disability, mental health, or education. By requiring education to always provide this service, the commentator's proposal could hamper local agencies from "ensuring maximum utilization of all state and federal resources available" as is required by Government Code Section 7570. For this reason, Mr. Burchill's proposal has not been adopted.

Mental health services, other than those identified in an IEP, for purposes other than providing educational assistance must be accessed through the community mental health services because statutory provision for these services are separate from the requirement for a free and appropriate public education.

The inclusion of the Healthy Families Program into these regulations is beyond the scope of the statute. MRMIB which administers the Healthy Families Program is not an agency responsible for the provision of "related services" for pupils eligible for special education.

In addition to those arguments, the fact that Medi-Cal, Healthy Families, and EPSDT requirements are established in the other cited law and regulation means that to repeat them in these regulations would be duplicative. Since these programs are separate, no change will be made to these proposed regulations pursuant to this comment.

125) Comment:

60100(h) - Testifier 17.[(d)] (Cromer) suggested the following changes:

Adoption of this provision establishes a requirement of "no" in-state facility accepting a particular student before a student can be placed in an out of state facility. A mere perusal of the in state NPS book shows 181 pages of facilities, most pages with 2 facilities on a page and some of which are day programs, that all searches would potentially include. That list does not include the group homes that could be looked to as potential placements for the student. A provision that "no" in-state facility accept a child may mean as many as 300 referrals. That converts to a lot of time in preparing packets and sending out packets all of which cost money. How long will it take for 300 facilities to decline a student. Clearly, a student whose IEPT has determine (sic) the need for residential placement will certainly decompensate in the length of time it will take for a CMH agency to receive a denial from all California facilities and then begin looking for an out of state placement.

Many of these students are already suicidal. I shutter (sic) to consider the cost to the SEA and LEA if just one of them is successful at their suicide attempts while waiting for "no" California facility to accept them. Consider the potential for resulting lawsuits while we wait for "no" in state facility to accept the child.

The Supreme Court addressed the substantive requirements of a FAPE under the IDEA and concluded that a FAPE requires provision of "personalized instruction with sufficient support services to permit the child to benefit educationally from that instruction." 468 U.S. at 203. The Court stated that this instruction must be "specially designed to meet the unique needs of the handicapped child," that both the instruction and services must comport with the child's IEP (458 U.S. at 188-89), and that the individualized program be "reasonably calculated to enable the child to receive educational benefits" (458 U.S. at 207). There are many students for which there is no facility in California that can meet their unique educational needs. That will leave the LEA vulnerable in a due process (sic).

Additionally, this provision fails to address the "I" in an IEP and take the individual needs of each student into consideration. It forces parents and the SED student to wait and (sic) unstated period of time while this over burdensome process is followed to provide them much needed services.

Response:

Please see comment 126) below.

The Departments do not concur with these comments.

Both of these comments overstate the difficulties of an in-state residential program search. Ms. Cromer states that this subsection requires that out-of-state placement is only allowed if "no in state facility will accept the student." Similarly, Ms. Frampton states that she believes this subsection states that "CMH must evaluate and investigate the plausibility of placement in every single in state facility before out of state facilities can accept referrals."

The actual subsection language is more specific, and the search for an appropriate facility under the proposed regulations would be narrower than the comments indicate. Section 60100(h) of the proposed regulations reads in pertinent part:

(h) Residential placements for a pupil with a disability who is seriously emotionally disturbed may be made out of California only when no in-state facility can meet the pupil's needs...

If a pupil who is seriously emotionally disturbed has problems severe enough to warrant consideration for out-of-state placement, the group homes that can meet the pupil's needs in California are actually quite limited in number. In-state level 13 and 14 beds total approximately 1,300. At any given time there are only a few beds available statewide at these rate classification levels. This is significant because these are the rate classification levels that must have a mental health treatment program in order to qualify for this level of payment.

Government Code Section 7572.55(a) is similarly less demanding than the commentator's believe in its requirements for an in state search before out-of-state placement's may be considered. It states in pertinent part:

"Residential placements for a child with a disability who is seriously emotionally disturbed may be made out-of-state only after in-state alternatives have been considered and are found not to meet the child's needs..."

Oftentimes community mental health services offer from one to three in-state alternatives when out-of-state placement is being considered due to the severity of the pupil's needs, and the restricted pool of rate classification level 13 and 14 group homes in California. If the community mental health service can offer evidence of a diligent search and any in-state alternative, they have satisfied both the statute and the current proposed regulations. Therefore, there will be no amendment to the proposed regulations due to these comments.

126) Comment:

60100(h) -Testifier 21.[(c)] (Frampton) suggested the following changes:

"In regards to Placement of a Pupil With a Disability Who is Seriously Emotionally Disturbed, (60100), it appears that CMH must evaluate and investigate the plausibility of placement in every single in-state facility before out of state facilities can accept referrals. The amount of time and manpower that it would take for the investigation of all in state facilities for even one child would be prohibitive. What happens to the child during the time that this might take? And what would be the risk to the child if the child was a danger to himself or others, or in a very emotionally precarious situation? It appears that this provision is unrealistic. It also appears that it would cause parents to have to seek legal help in order to facilitate placement if their child was at risk."

Response:

Please see response to comment 125) of this section of the Statement of Reasons.

127) Comment:

60100(h) - Testifier 3. [(a)] (Ravel) comments "Section 60100, subdivision (h) pertaining to out-of-state placements requires that out-of-state placements shall only be made in residential programs that meet the requirements of WIC sections 11460(c)(2) through (c)(3)... To my knowledge the State has never set any rates for out-of-state facilities as required by WIC Section 11460(c)(2). You should note that the reference to WIC subdivision creates an ambiguity because subdivision (c)(3) refers to AFDC-FC. Obviously, State reimbursement for sepcial education purposes is not an AFDC-FC program. Therefore, the regulations should clearly state that the requirement for the group home to be non-profit applies to special education residential placements, is that is the State's intent."

Response:

Board and care rates for children placed pursuant to Chapter 26.5 of the Government Code are linked in statute to the statutes governing foster care board and care rates. The foster care program and the special education pupils program are quite different in several respects. This creates some difficulties which must be corrected through statutory changes, and cannot be corrected through regulations. Rates are currently set for foster care payments to out-of-state facilities through the process described in WIC Sections 11460 (c)(2) through (c)(3). The rates cannot exceed the current level 14 rate and the program must be non-profit, and because of the requirements contained in Section WIC 18350, placements for special education pupils must also meet these requirements. The Departments believe these requirements are clearly stated by reference to statute, but we will handbook WIC Sections 11460 (c)(2) through (c)(3) for clarity.

128) Comment:

60100(h) - Testifier 3. [(b)] (Ravel) comments "that the application of subdivision (c)(3) should be clarified by regulation with regard to out-of-state group homes which are organized as for profit entities, but have beds which are leased by a non-profit shell corporation. The regulation should state that the group home must be non-profit, and that the leasing of beds by a non-profit corporation or entity may not qualify for payment."

Response:

The statute in WIC Section 11460 states that state reimbursement shall only be paid to a group home organized and operated on a non-profit basis. The Departments would prefer to have its legal staff review the documentation of group homes who claim to be non-profit and have some type of leasing arrangement prior to determining whether or not an entity should be considered non-profit. Staff would also need to determine whether regulations are the appropriate forum in which to place more specific information regarding non-profit entities.

129) Comment:

60100(i)(1) - Testifier 14. [(u)] (Feldman) suggested the following changes:

Should be amended to add the phrase "and location". This is a requirement of the new IDEA.

Response:

Please see comment 130) below.

In response to this comment, an amendment is made to this section to reflect IDEA by citing the federal law. This amendment was made available to the public pursuant to Section 113468(c) of the Government Code.

Final Modification:

(1) The mental health services are specified in the IEP in accordance with Title 20, USC 1414(d)(1)(A)(vi).

130) Comment:

60100(i)(1) - Testifier 13. [(w)] (Mentink) proposed the following changes.:

"(1) The subsection should be rewritten as follows:

The initiation, location, duration and frequency of mental health services are specified in the IEP."

Response:

Please see response to comment 129) of this section of the Statement of Reasons.

Section 60110

131) Comment:

60110 - Testifier 7. [(k)] (Burchill) requests that section (c) should clearly define and discuss the roles and financial expectations of the local education agency, mental health and the student's family before the student is placed in a residential placement.

Response:

The Departments believe that section 60110(c)(3) discusses financial responsibility for residential placement. This section of the regulations only addresses residential placement.

132) Comment:

60110(a) - The following changes were proposed by testifier 12. [(g)(2)] (Brogan):

"Add the term 'mental health' before case manager and case management in this section."

Response:

The Departments do not concur with this comment.

Section 7570 of the Government Code establishes that health and welfare agencies, including the state and county departments of mental health, provide related services and designated instruction and services as defined in State and Federal Education Code. As such, the case management service that they provide is an educational one. Therefore, it would be misleading to call such case management, mental health case management. For this reason, no change will be made to the regulations in response to this comment.

133) Comment:

60110(b)(1) - Testifier 7. [(j)] (Burchill) proposed the following changes:

"Medication is frequently part of the mental health treatment plan or related to a student's health condition. We have found that there can be confusion about who is responsible to ensure that medications are available and taken, as prescribed, when a student is placed in a residential NPS.

Recommendation:

Add... 'mental health treatment, medication and education of a pupil'..."

Response:

The Departments concur with the commentor that clarification regarding the mental health case manager's responsibility to arrange for any prescribed medication is important, but has amended the proposed regulation in a different manner as follows:

Final Modification:

(1) The residential placement plan shall include provisions, as determined in the pupil's IEP, for the care, supervision, mental health treatment, psychotropic medication monitoring, if required, and education of a pupil with a disability who is seriously emotionally disturbed.

134) Comment:

60110 Title and (b)(3) - The following changes were proposed by testifier 12. [(g)(1) and (g)(4)] (Brogan):

"Add the phrase 'as identified by the LEA' after the phrase 'seriously emotionally disturbed' in this section."

Response:

The Departments do not concur with this comment.

Section 60100(a) of the proposed regulations clarifies that the LEA determines this status. It accomplishes this by referencing California Code of Regulations, Section 3030(i), which pertains to a special education qualifying category determined by the LEA. It would be redundant to repeat this phrase here. For this reason, there will be no change made to the regulations due to this comment.

135) Comment:

60110(b)(2) - The following changes were proposed by testifier 12. [(g)(3)] (Brogan):

"(2) The LEA shall be responsible for providing or arranging for the only special education and non-mental health related services needed by the pupil as identified by the IEP."

Response:

The Departments do not concur with this comment.

Pupils in residential placement are among the most vulnerable. Often, they have physical disabilities that require the LEA to contract with local providers to treat because these disabilities do not have a California Children's Services eligible medical condition. They may also have a wide range of other related, but no less essential, services that need to be provided for. This proposed regulation is necessary to establish a provider and payor of last

resort for these related services. The commentor's proposed amendment could leave the most vulnerable of the special education pupils without the related services that they need in order to benefit from their education.

Therefore no amendment to the proposed regulations will be made in response to this comment.

136) Comment:

60110(b)(3) - The following changes were proposed by testifier 12. [(g)(4)] (Brogan):

"(3) When the expanded IEP team determines that it is necessary to place a pupil with a disability who is seriously emotionally disturbed as identified by the LEA in a community treatment facility, the case manager shall ensure that placement is in accordance with admission and, continuing stay, and discharge criteria of the community treatment facility."

Response:

The Departments do not concur with this comment.

The language that is deleted by the commentor is essential because the special education pupils program allows eligible pupils to receive services through age 21. There are special provisions in the community treatment facility regulations for pupils who have reached majority and are being treated in a community treatment facility due to the secure nature of this treatment. It is important that the case manager insure that a special education pupil is advised of his or her rights at the age of 18. At this age, a case manager is required by the Individuals with Disabilities Education Act to advise the pupil that parental rights will be transferred to him or her if he or she desires. In a community treatment facility, this may mean that the pupil chooses to no longer be deprived of liberty by remaining in the placement. This provision will not be deleted from the proposed regulations for this reason.

137) Comment:

60110(c) - Testifier 7. [(1)] (Burchill) proposed the following changes:

"The responsibilities of everyone need to be clearly defined to ensure the student is provided what they need consistent with their IEP and well being. This section provides the case manager an opportunity to identify each agency's and the family's roles and financial responsibilities. In our experience, parents have received bills from the NPS for mental-health-related prescriptions and other items. Financial expectations should be clear at the outset."

Recommendation:

Under this section, clearly define and discuss the roles and financial expectations of the LEA, mental health and the student's family before the student is placed."

Response:

Please see comment 143) below.

The Departments do not concur with these comments.

Most financial responsibilities are delineated in Section 60200 of these proposed regulations, which is more appropriate than doing so here because Section 60200 is entitled "financial responsibilities." The program restriction against paying for medication is clarified by Section 60020(f) which states in pertinent part:

"Medication monitoring" includes all medication support services with the exception of the medications or biologicals themselves and laboratory work..."

For these reasons there will be no change made to the regulations in response to these comments.

138) Comment:

60110(c)(2) - Testifier 14[(v)] (Feldman) suggested the following changes:

Should be amended to add the phrase "and the full participation of the parents" after the word "designee" on line one. This is a requirement of the new IDEA.

Response:

The Departments do not concur with this comment. The current proposed Section 60110(c)(2) requires that a residential placement be,

"...acceptable to the parent and addresses the pupil's educational and mental health needs...subject to the requirements of state and federal special education law."

Therefore, the proposed regulations must satisfy the IDEA's requirement for the full participation of the parent and an amendment to them is unnecessary.

139) Comment:

60110(c)(8) and (c)(9) - Testifier 7.[(m)] (Burchill) proposed the following changes:

It is not clear whether the case manager from mental health assigned to conduct quarterly visits to the residential facility will be reporting back to the LEA ONLY mental health-related IEP issues or IEP issues that may be unrelated to mental health. If the mental health case manager is required to evaluate components of the pupil's IEP, other than mental health, it would be important for them to collaborate with the LEA before and after each visit.

Recommendation:

Clarify expectations of mental health case manager.

Response:

The Departments do not concur with this comment.

It is clear from the proposed regulations thus far, that the responsibility of the community mental health service is only for mental health issues and that their expertise is in that area and not issues related solely to educational problems. Nowhere in these proposed regulations is it stated that the mental health case manager is required to evaluate other components of the pupil's IEP. Therefore, no change will be made to this regulation.

140) Comment:

60110(c)(10) - The following changes were proposed by testifier 12.[(g)(5)] (Brogan):

"(10) To schedule and attend the next expanded IEP team meeting with the expanded IEP team's administrative designee within six months of the residential placement of a pupil with a disability who is seriously emotionally disturbed and every six months thereafter as long as the pupil remains in residential placement."

Response:

The Departments concur with this comment but has amended the proposed regulation in a different manner as follows:

Final Modification:

(10) To schedule and attend the next expanded IEP team meeting with the expanded IEP team's administrative designee within six months of the residential placement of a pupil with a disability who is seriously emotionally disturbed and every six months thereafter as long as the pupil remains in residential placement.

141) Comment:

60110(c)(11) - Testifier 13.[(x)] (Mentink) proposed the following changes:

"The reference to Welfare and Institutions Code § 4094.5(e)(1) will confuse persons not familiar with special education as to what the applicable criteria are for eligibility as Seriously Emotionally Disturbed. The special education definition is fairly clear (see 5 CCR Sec. 3030(i) and 34 C.F.R. Sec. 300.7(b)(9)). However, this subsection refers to W&I Code Sec. 4094.5(e)(1) which requires that a child be certified as SED as defined in W&I Code Sec. 5699.2. Section 5699.2 requires that the child be described in W&I Code Sec. 5600.3 as seriously emotionally disturbed. Section 5600.3 requires that for a child to be SED, he/she

must have a mental disorder as identified in the most recent edition of the DSM. This is not a requirement of special education law or the special education law definition of SED."

Response:

Please see comment 142) below.

The Departments do not concur with this comment.

This Section of the proposed regulations is only applicable to children being considered for placement in a community treatment facility. A community treatment facility is a secure residential facility that provides mental health treatment services to children in a sub-acute setting. Because the community treatment facility is secure, it has decisive admission criteria, which includes certification that a child is seriously emotionally disturbed. The reason for the reference to Section 4094.5(e)(1) of the Health and Safety Code is to clarify that the IPC must authorize placement of any child to a community treatment facility. Therefore, the purpose of this section is to specify that the case manager is responsible for presenting a child's case to the Interagency Placement Committee to explain the necessity of the placement to the committee. For these reasons, there will be no change to the proposed regulations in response to these comments.

142) Comment:

60110(c)(11) - The following changes were proposed by testifier 14.[(w)] (Feldman):

"We are very concerned with the language of section (c)(11). We are not familiar with Section 4094.5 of the Welfare & Institutions Code. However, IDEA places responsibility and discretion with regard to placement on the LEA. AB 3632 expands the IEP team to include Mental Health but does not in any way remove the responsibility and discretion from the LEA. Thus, we do not agree that a "County Interagency Placement Committee" has any authority with regard to the issue of placement."

Response:

Please see response to comment 141) of this section of the Statement of Reasons.

143) Comment:

60110(c)(12) - Testifier 18.[(m)] (Holle) recommended the following changes:

~~EPSDT case management under Medi-Cal includes the obligation to assist Medi-Cal recipients "in gaining access to needed medical, social, educational, and other services."~~ 42 U.S.C. § 1396n(g)(2). Obligations under Healthy Families have not yet been defined. We therefore recommend adding the following under proposed § 60110(c):

(12) For pupils covered by full-scope Medi-Cal, to assist the pupil in gaining access to needed medical, social, educational, and other services.

Response:

The Departments do not concur with this comment.

Medi-Cal eligible children's parents may request community mental health services for an assessment for supplemental mental health services if these are necessary, but these services are distinct from the educational requirement for a free and appropriate public education. Supplemental services provided due to any Medi-Cal and EPSDT services which do not provide educational benefit should not be listed on the pupil's Individualized Educational Program which is designed to assist them in attaining academic achievement.

Mental health services for pupils who are Medi-Cal eligible, for purposes other than providing educational assistance must be accessed through the current community mental health providers that deliver Medi-Cal and EPSDT services because these services are separate from the requirement for a free and appropriate public education.

Medi-Cal and EPSDT requirements are established in the other cited law and regulations, to repeat them in these regulations would be duplicative. To avoid this duplication and the confusion of separate requirements, these proposed regulations will not be changed pursuant to this comment.

The inclusion of the Healthy Families Program into these regulations is beyond the scope of the statute. MRMIB which administers the Healthy Families Program is not an agency responsible for the provision of "related services" for pupils eligible for special education.

Section 60200

144) Comment:

60200 - Testifier 3. [(d)] (Ravel) recommended the following changes:

"The regulations should address the issue of and clarify that community mental health agencies are not responsible for the payment of the drug and alcohol treatment component of residential placements. This is a continued source of litigation in due process proceedings. Addressing the issues set forth above would greatly minimize the time spent by public agencies on disputes and litigation concerning out-of-state placements."

Response:

The Departments do not concur with the commentor.

The Department of Drug and Alcohol Programs has statute and regulation that outlines their departmental responsibilities to provide specific services. It would be unnecessary and duplicative to restate these responsibilities in these proposed regulations. Therefore, no change will be made to the proposed regulations in response to this comment.

145) Comment:

60200(c) - Testifier 12. [(h)(1)] (Brogan) proposed the following changes:

"(c) The community mental health service of the county of origin shall be responsible for the provision of assessments and mental health services included in an IEP in accordance with local interagency agreements and Sections 60045, 60050, and 60100. Mental health services shall be provided either directly by the community mental health service or by contractors. All services shall be delivered in accordance with Section 523 of Title 9 of the California Code of Regulations."

Response:

The Departments do not concur with this commentor's recommendation that a revised Section 60030, pertaining to interagency agreements can sufficiently replace Section 60045 of these proposed regulations. Assessment requirements are complex in this program because many of them stem from federal law. Without Section 60045, the proposed regulations would not provide sufficient guidance to local agencies regarding appropriate mental health assessment procedures.

The basis of procedures in federal law also means that assessment requirements may not be amended by local agreements between agencies. Therefore, there will be no change made to the proposed regulations in response to this comment.

146) Comment:

60200(c)(1) - Testifier 10. [(h)] (Warboys) suggested the following changes:

"This proposed regulation should make it clear that identification of a funding source may not prevent or delay the delivery of needed mental health or other related services. The section should include reference to the statutory language, "in no case shall inclusion of necessary related services in a pupil's IEP be contingent upon identifying the funding source." In addition, this language or similar language should be included in other sections describing the obligation to identify and provide needed mental health services, such as Sections 60030(c)(13), 60040, 60100(e) and 60110(c)."

Response:

Please see comment 148) below.

The Departments do not concur with these proposed changes.

Government Code Section 7572(d) has already established that, "...in no case shall inclusion of necessary related services in a pupil's IEP be contingent upon identifying the funding source." Repeating this requirement in Sections 60030(c)(13), 60040, 60100(e), 60110(c) and 60200(c)(1) of these proposed regulations as Mr. Warboys recommends would, therefore, be unnecessarily duplicative.

Mr. Brogan's suggested change would defeat the purpose of this proposed regulation. This purpose is to address the practice of some community mental health services of categorically excluding out-of-county children from programs with limited space. If this suggestion were adopted, counties could simply keep available space in these programs filled with local children and, thereby, continue to exclude out-of-county children categorically by stating "there is no available space in this program." The necessity for, and intent of, this proposed regulation is to compel host counties to consider out-of-county children for these limited resources on a case by case basis.

Time lines for the mental health assessment portion of this program are established in Section 60045 of these proposed regulations and control throughout. There is no reason to have to restate them here as Ms. Weinberg suggests.

Therefore, no change will be made to the proposed regulations in response to these comments.

147) Comment:

60200(c)(1) - Testifier 12. [(h)(2)] (Brogan) proposed the following changes:

(1) The host county shall be responsible for making its provider network available and shall provide the county of origin a list of appropriate providers used by the host county's managed care plan who are currently available to take new referrals. Counties of origin shall negotiate with host counties to obtain access to limited available resources, such as intensive day treatment and day rehabilitation.

Response:

Please see response to comment 146) of this section of the Statement of Reasons.

148) Comment:

60200(c)(1) - The following changes were suggested by testifier 20. [(o)] (Weinberg):

"Proposed Regulation:

(1) The host county shall be responsible for making its provider network available and shall provide the county of origin a list of appropriate providers used by the host county's managed care plan who are currently available to take new referrals. Counties of origin shall negotiate with host counties to obtain access to limited resources, such as intensive day treatment and day rehabilitation.

Recommended Changes:

(1) The host county shall be responsible for making its provider network available and shall provide the county of origin a list of appropriate providers used by the host county's managed care plan who are currently available to take new referrals. Counties of origin shall negotiate with host counties to obtain access to limited resources, such as intensive day treatment and day rehabilitation. In no event shall the procedures described in this subdivision delay or impede the referral and assessment process.

Justification:

It needs to be made absolutely clear that the procedures described in this section do not in any way extend the time lines or delay services."

Response:

Please see response to comment 146) of this section of the Statement of Reasons.

149) Comment:

60200(d)(2) - Testifier 6.[(c)] (Dasaro) proposed the following changes:

"Ed. Code 56221 (b)(5) discusses the issue of transportation being coordinated with regular home to school transportation. To require the local LEA to pay for the transportation of a pupil to and from the residential placement is a blatant generalization of this particular code regulation. Mental health should continue to coordinate and pay for transportation to and from the residential placement. At times specialized transportation is required (we had a student who needed two escorts to transfer her from Colorado to Sacramento in a police plane. The cost was extremely high and the precautions a bit dramatic). It would seem that if mental health paid for the transportation they would also be more accountable to their regulatory agencies. Transportation cost should be for the parent's visits only - not the student - not mental health workers.

Response:

The Departments do not concur with this comment.

Residential placement pursuant to Chapter 26.5 of the Government Code is for educational purposes and, many residential placements contain an on-site nonpublic school. Therefore, it is not a generalization of statute to require the LEAs to provide transportation from this on-site school to home for visits and vacations pursuant to Education Code Section 56221. This code does not provide for transporting or paying for parents to travel, but such arrangements can be specified, as needed, on an individualized education plan.

This comment also presumes that community mental health services have been paying for pupil transportation to and from residential placement in the past. This has not been the case.

Community mental health services have been responsible for arranging this transportation pursuant to the case management responsibilities delineated in Section 60110(c)(7), but LEAs have been financially responsible for this service, except in exceptional circumstances documented on individual IEPs, for the last 13 years.

Community mental health services have paid, and will continue to pay, for the transportation of mental health staff when this is necessary to perform statutorily required case management duties such as those described in Section 60110(c)(8). However, since pupil transportation is established as the responsibility of the LEA in Education Code Section 56221, no change will be made in the regulations pursuant to this comment.

150) Comment:

60200(d)(3) - Testifier 12.[(h)(3)] (Brogan) proposed the following changes:

"(3) The Special education instruction, ~~non-mental health related services~~, and including designated instruction and services agreed upon in the nonpublic, nonsectarian school services contract or a public program arranged with another SELPA or LEA.

Response:

The Departments do not concur with the commentor's proposed change.

Establishing financial responsibility for related services is necessary to insure that an eligible student receives them. Specifically, California Children's Services provide medically necessary occupational therapy and physical therapy to children with an eligible physically handicapping condition. Such a pupil may, however, satisfy educational criteria for special education related services. In this case, it must be clear that the LEA is responsible to provide the related services necessary for this pupil to benefit from his or her education. For this reason there will be no change made to these proposed regulations in response to this comment.

151) Comment:

60200(f) - Testifier 12.[(h)(4)] (Brogan) proposed the following changes:

"(f) Upon receipt of the authorization from the community mental health service, pursuant to subsection (e), including documentation that the pupil is eligible for residential placement as a educationally identified seriously emotionally disturbed pupil, the county welfare department shall issue payments in accordance with Section 18351 of the Welfare and Institutions Code to providers of residential placement."

Response:

The Departments do not concur with the commentor regarding the necessity of this additional language. Section 60100(a) of these proposed regulations establishes that residential

placement is only available to "...a pupil with a disability who is seriously emotionally disturbed pursuant to paragraph (i) of Section 3030 of Title 5 of the California Code of Regulations."

Section 3030(i) establishes special education eligibility criteria for the subset "seriously emotionally disturbed" of the special education eligible "individuals with exceptional needs." This controlling reference, therefore, clarifies that the LEA must determine this status. Therefore, there will be no change made to the proposed regulations in response to this comment.

#### Section 60300

##### 152) Comment:

Testifier 4. (Nolan) and testifier 9. [(a)] (Nolan) state an objection to this section in that this regulation mandates additional costs on the CCS program. The testifiers also state that the regulations are not in compliance with provision of Article III B, Section 6 of the California Constitution, and California Government Code, Chapter 4, Article 1, sections 17550 et seq. And in particular Government Code section 17561, insofar as the regulations are not accompanied by the cited appropriate for the mandated costs, nor the citation of the item of appropriation in the Budget bill or in any other bill that is intended to serve as the source from which the Controller may pay the claims of such local CCS county agencies.

##### Response:

The Departments disagree with the comments and believe that the regulations, as proposed, are in full compliance with law and the Administrative Procedure Act (APA). Funding for the services to be provided through the regulations included in R-52-91 was included in the 1998 Budget Act (Chapter 324, Statutes of 1998). The funding is in Items 4260-101-0001, 4260-101-0890, and 4260-111-0001. These items do not specifically identify the dollars particular to this regulation package. The detail can be found in the May 1998 Medi-Cal Estimate and the May 1998 CCS Estimate which is part of the May 1998 Family Health Estimate. These estimates are public documents submitted to the Legislature on May 15, 1998 and are the basis for the Governor's Budget. These funds will appear in the base appropriations for the CCS program in future years. The estimated costs to the county CCS programs (approximately \$805,000 statewide/year) will be made through the normal CCS funding process. According to the Department of Finance, these costs are not reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Section 17500 et seq. of the Government Code (which sets forth the mandate claiming process).

##### 153) Comment:

60300(f) - Testifier 13.[(y)] (Mentink) commented in the following manner: "Section 60300.(f) This subsection should be clarified. The Department of Education does not make referrals of pupils to CCS. If the subsection refers to the act of referring a child, it should say: 'local or responsible education agency' in place of 'Department of Education.' If,

however, the reference is to a referral form developed by the Department of Education, it makes some sense. However, the drafters should make sure that there is such a form and that it is being used by all local education agencies."

Response:

The Departments agree that clarification is necessary and will amend the regulation. The amended regulation text reads "Documented physical deficit" refers to a pupil's motor dysfunction recorded on the referral for special education and related services by the Local Education Agency and documented in the pupil's CCS medical record.

154) Comment:

60300(h) - Testifier 11.[(a)] (Haining) and testifier 24. (Haining) stated that the medical therapy conference is not just a meeting but a physician visit with other health professionals in attendance to discuss with the child and their family the amount and duration of therapy, and whereby the physician makes the ultimate decision.

Response:

The Departments disagree with this comment. The physician plays an integral role in the medical therapy conference, but is part of a team making decisions for an individual child. The role of the physician is further clarified in Section 60323 of this regulation package.

155) Comment:

60300(i) - Testifier 11.[(b)] (Haining) and testifier 24 (Haining) stated that the medical conference team cannot be mandated in school regulation.

Response:

The Departments disagree with this comment. These are joint regulations to establish how DOE, DHS, Department of Mental Health (DMH) and Department of Social Services (DSS) will coordinate and cooperate in providing services to children with special health care needs and who are also eligible for special education services to make certain that the children receive all appropriate and needed services. Government Code section 7587 requires the Department of Health Services to promulgate regulations that are consistent with federal and state laws governing the education of children. It is the intent of the Departments to promulgate regulations specific to the medical therapy program (MTP) which will be in Title 22, California Code of Regulations (CCR). However, the intent of this definition is not to limit the scope of participants in the medical therapy conference (MTC) or to prevent counties from establishing their own models for the extended team, but to identify core members of the MTC team. It is these core members of the MTC team who must provide information to the Individualized Education Program (IEP) team, so the IEP team can decide which services the LEA must provide to meet the child's special education needs.

156) Comment:

60300(j) - Testifier 13.[(z)] (Mentink) commented in the following manner: "(j) This subsection should be amended to expand the list of CCS eligible conditions which could generate the need for occupational or physical therapy.

"Rationale: Other than Section 7575(b)(1) dealing with physician referrals to CCS, we cannot identify legal authority for the use in subsection (j) of the term 'neuromuscular, musculoskeletal, or muscular diseases' to limit the range of conditions which are CCS eligible.

"Government Code 7575 states:

"Notwithstanding any other provision of law....[CCS] shall be responsible for the provision of medically necessary occupational therapy and physical therapy, as specified in Article 5 (commencing with Section 123800) of....the Health and Safety Code, by reason of medical diagnosis and when contained in the child's individualized education program."

"Article 5 also includes section 123830 which defines 'handicapped child' for CCS medical eligibility purposes as: 'a physically defective or handicapped person under the age of 21 years who is in need of services. The director shall establish those conditions coming within the definition of 'handicapped child'....' The director did this at Title 22 CCR Sec. 41800. The list of 20 or more conditions in section 41800 appears broader than the term 'neuromuscular, musculoskeletal, or muscular diseases' and broader than the list of conditions in proposed subsection (j)(1)-(3). Some of the conditions listed in Section 41800 may not be conditions for which occupational or physical therapy are ever prescribed. However, all such conditions on this list for which occupational and/or physical therapy are required are eligible conditions if the therapy is required to assist a pupil to 'benefit from special education' [see 20 U.S.C. Sec. 1401(22)], or, with regard to occupational therapy, to improve, develop, or restore functions impaired or lost through illness, injury or deprivation or improve the ability to perform tasks for independent [see Title 34 C.F.R. Sec. 300.16(b)(5)1.

"This subsection should include all the language in current proposed regulation but should be amended as follows:

"(j) 'Medical therapy program eligible condition' are those diagnoses that make a pupil eligible for medical therapy services and include all those conditions listed in Section 41800 of Title 22 of the California Code of Regulations and the following diagnosed neuromuscular, musculoskeletal....."

Response:

The Departments disagree with this comment. The conditions identified in this section have been established by the CCS program under statutory authority of the Health and Safety Code

(HSC) Section 123830 and 123860. HSC section 123875 states that children shall be deemed medically eligible for therapy services based upon the need for medically necessary PT or OT services as stated in section 123830. The Departments have determined that only the neuromuscular, musculoskeletal and muscle diseases identified in these regulations are eligible for therapy in the MTP. The Departments have not been given the authority to expand the eligibility for therapy services beyond what is currently CCS program policy. Section 7575 of the Government Code also states that the Department of Health Services (CCS) retains the authority to determine medical necessity for PT and OT services.

157) Comment:

60300(j) - Testifiers 11.[(c)] (Haining) and 24. (Haining) stated that this definition should be deleted because it is not the responsibility of the schools. The commentor recommended that this section indicate that the California Children's Services (CCS) program will establish eligibility criteria and inform the schools when changes are made.

Response:

The Departments disagree with this comment. The conditions that are eligible for therapy services provided in the public school setting must be included in the interagency regulations so that other agencies that provide services to children in the public schools will have some indication of which children should be referred to the CCS program for eligibility determination and an assessment of their need for medically necessary physical therapy and occupational therapy.

158) Comment:

60300(k) - Testifier 11.[(d)] (Haining) and Testifier 24. (Haining) stated that this definition does not allow for the use of the medically accepted category of "PRN" (as needed), negates the role of the physician in prescribing interventions, and would deny children services that are not school specific.

Response:

The Departments disagree with this comment. The designation "PRN" is a description of the frequency of services and is not an intervention. Its use can be applied to any of the interventions identified in these regulations. These regulations do not limit the physician in determining frequency of these interventions.

159) Comment:

60300(l) - Testifier 12.[(i)(1)] (Brogan) proposed amendments to section 60300(l) without a stated rationale.

Response:

The Departments disagree with the proposed amendments. The HSC section 123950 requires that CCS provide services in the public school setting and the Government Code section 7575(d) states that the LEA shall provide the necessary space and equipment so the services can be provided in the most effective and efficient manner. The MTU is necessary as a location where medically necessary therapy services are provided. Medically directed services require that there be specialized equipment and dedicated environment in order to provide effective treatment to children. These services are equivalent to those provided in hospital out-patient clinics. Though some of the services can be provided as consultation in the classroom, the majority of the services are the provision of direct therapy and cannot be appropriately provided in the classroom setting. Therefore, the proposed amendment would require a change in current statutes and is beyond the scope of these regulations.

160) Comment:

60300(m) - Testifier 12. [(i)(2)] (Brogan) proposed to delete section 60300(m) without a stated rationale.

Response:

The Departments disagree with this comment. The definition of an MTU satellite is necessary to differentiate between the services that can be provided at an MTU and the limited scope of services that can be provided at the satellite. Since the satellite is an integral part of service delivery to children in their school environment and a supplement to the MTU, it must be retained in these regulations.

161) Comment:

60300(n) - Testifier 11. [(e)] (Haining) and Testifier 24. (Haining) stated that this definition could be interpreted as providing for maintenance therapy which has not been an MTU mandate.

Response:

The Departments disagree with the interpretation that these regulations will require CCS to provide "maintenance therapy". In a manner, CCS does provide on-going therapy through consultation (instruction) provided to parents, LEA staff and other involved parties. This is done through home, community or classroom programs that are performed by care givers in those settings and not by the therapists. Implementing these programs does not require the skilled expertise of a physical therapist or occupational therapist and therefore does not significantly increase the cost of services in comparison to the benefit to the child's outcome. The therapist designs the program, instructs the care giver and checks the competency in implementing the program. These types of programs are standard for any outpatient therapy service and provide community support for the child. Consultation is defined as one of the medical therapy services provided by CCS and should not be confused with treatment services that are also defined in the regulations.

however, the reference is to a referral form developed by the Department of Education, it makes some sense. However, the drafters should make sure that there is such a form and that it is being used by all local education agencies."

Response:

The Departments agree that clarification is necessary and will amend the regulation. The amended regulation text reads "Documented physical deficit" refers to a pupil's motor dysfunction recorded on the referral for special education and related services by the Local Education Agency and documented in the pupil's CCS medical record.

154) Comment:

60300(h) - Testifier 11.[(a)] (Haining) and testifier 24. (Haining) stated that the medical therapy conference is not just a meeting but a physician visit with other health professionals in attendance to discuss with the child and their family the amount and duration of therapy, and whereby the physician makes the ultimate decision.

Response:

The Departments disagree with this comment. The physician plays an integral role in the medical therapy conference, but is part of a team making decisions for an individual child. The role of the physician is further clarified in Section 60323 of this regulation package.

155) Comment:

60300(i) - Testifier 11.[(b)] (Haining) and testifier 24 (Haining) stated that the medical conference team cannot be mandated in school regulation.

Response:

The Departments disagree with this comment. These are joint regulations to establish how DOE, DHS, Department of Mental Health (DMH) and Department of Social Services (DSS) will coordinate and cooperate in providing services to children with special health care needs and who are also eligible for special education services to make certain that the children receive all appropriate and needed services. Government Code section 7587 requires the Department of Health Services to promulgate regulations that are consistent with federal and state laws governing the education of children. It is the intent of the Departments to promulgate regulations specific to the medical therapy program (MTP) which will be in Title 22, California Code of Regulations (CCR). However, the intent of this definition is not to limit the scope of participants in the medical therapy conference (MTC) or to prevent counties from establishing their own models for the extended team, but to identify core members of the MTC team. It is these core members of the MTC team who must provide information to the Individualized Education Program (IEP) team, so the IEP team can decide which services the LEA must provide to meet the child's special education needs.

156) Comment:

60300(j) - Testifier 13.[(z)] (Mentink) commented in the following manner: "(j) This subsection should be amended to expand the list of CCS eligible conditions which could generate the need for occupational or physical therapy.

"Rationale: Other than Section 7575(b)(1) dealing with physician referrals to CCS, we cannot identify legal authority for the use in subsection (j) of the term 'neuromuscular, musculoskeletal, or muscular diseases' to limit the range of conditions which are CCS eligible.

"Government Code 7575 states:

"Notwithstanding any other provision of law....[CCS] shall be responsible for the provision of medically necessary occupational therapy and physical therapy, as specified in Article 5 (commencing with Section 123800) of....the Health and Safety Code, by reason of medical diagnosis and when contained in the child's individualized education program."

"Article 5 also includes section 123830 which defines 'handicapped child' for CCS medical eligibility purposes as: 'a physically defective or handicapped person under the age of 21 years who is in need of services. The director shall establish those conditions coming within the definition of 'handicapped child'....' The director did this at Title 22 CCR Sec. 41800. The list of 20 or more conditions in section 41800 appears broader than the term 'neuromuscular, musculoskeletal, or muscular diseases' and broader than the list of conditions in proposed subsection (j)(1)-(3). Some of the conditions listed in Section 41800 may not be conditions for which occupational or physical therapy are ever prescribed. However, all such conditions on this list for which occupational and/or physical therapy are required are eligible conditions if the therapy is required to assist a pupil to 'benefit from special education' [see 20 U.S.C. Sec. 1401(22)], or, with regard to occupational therapy, to improve, develop, or restore functions impaired or lost through illness, injury or deprivation or improve the ability to perform tasks for independent [see Title 34 C.F.R. Sec. 300.16(b)(5)1.

"This subsection should include all the language in current proposed regulation but should be amended as follows:

"(j) 'Medical therapy program eligible condition' are those diagnoses that make a pupil eligible for medical therapy services and include all those conditions listed in Section 41800 of Title 22 of the California Code of Regulations and the following diagnosed neuromuscular, musculoskeletal....."

Response:

The Departments disagree with this comment. The conditions identified in this section have been established by the CCS program under statutory authority of the Health and Safety Code

(HSC) Section 123830 and 123860. HSC section 123875 states that children shall be deemed medically eligible for therapy services based upon the need for medically necessary PT or OT services as stated in section 123830. The Departments have determined that only the neuromuscular, musculoskeletal and muscle diseases identified in these regulations are eligible for therapy in the MTP. The Departments have not been given the authority to expand the eligibility for therapy services beyond what is currently CCS program policy. Section 7575 of the Government Code also states that the Department of Health Services (CCS) retains the authority to determine medical necessity for PT and OT services.

157) Comment:

60300(j) - Testifiers 11.[(c)] (Haining) and 24. (Haining) stated that this definition should be deleted because it is not the responsibility of the schools. The commentor recommended that this section indicate that the California Children's Services (CCS) program will establish eligibility criteria and inform the schools when changes are made.

Response:

The Departments disagree with this comment. The conditions that are eligible for therapy services provided in the public school setting must be included in the interagency regulations so that other agencies that provide services to children in the public schools will have some indication of which children should be referred to the CCS program for eligibility determination and an assessment of their need for medically necessary physical therapy and occupational therapy.

158) Comment:

60300(k) - Testifier 11.[(d)] (Haining) and Testifier 24. (Haining) stated that this definition does not allow for the use of the medically accepted category of "PRN" (as needed), negates the role of the physician in prescribing interventions, and would deny children services that are not school specific.

Response:

The Departments disagree with this comment. The designation "PRN" is a description of the frequency of services and is not an intervention. Its use can be applied to any of the interventions identified in these regulations. These regulations do not limit the physician in determining frequency of these interventions.

159) Comment:

60300(l) - Testifier 12.[(i)(1)] (Brogan) proposed amendments to section 60300(l) without a stated rationale.

Response:

The Departments disagree with the proposed amendments. The HSC section 123950 requires that CCS provide services in the public school setting and the Government Code section 7575(d) states that the LEA shall provide the necessary space and equipment so the services can be provided in the most effective and efficient manner. The MTU is necessary as a location where medically necessary therapy services are provided. Medically directed services require that there be specialized equipment and dedicated environment in order to provide effective treatment to children. These services are equivalent to those provided in hospital out-patient clinics. Though some of the services can be provided as consultation in the classroom, the majority of the services are the provision of direct therapy and cannot be appropriately provided in the classroom setting. Therefore, the proposed amendment would require a change in current statutes and is beyond the scope of these regulations.

160) Comment:

60300(m) - Testifier 12. [(1)(2)] (Brogan) proposed to delete section 60300(m) without a stated rationale.

Response:

The Departments disagree with this comment. The definition of an MTU satellite is necessary to differentiate between the services that can be provided at an MTU and the limited scope of services that can be provided at the satellite. Since the satellite is an integral part of service delivery to children in their school environment and a supplement to the MTU, it must be retained in these regulations.

161) Comment:

60300(n) - Testifier 11. [(e)] (Haining) and Testifier 24. (Haining) stated that this definition could be interpreted as providing for maintenance therapy which has not been an MTU mandate.

Response:

The Departments disagree with the interpretation that these regulations will require CCS to provide "maintenance therapy". In a manner, CCS does provide on-going therapy through consultation (instruction) provided to parents, LEA staff and other involved parties. This is done through home, community or classroom programs that are performed by care givers in those settings and not by the therapists. Implementing these programs does not require the skilled expertise of a physical therapist or occupational therapist and therefore does not significantly increase the cost of services in comparison to the benefit to the child's outcome. The therapist designs the program, instructs the care giver and checks the competency in implementing the program. These types of programs are standard for any outpatient therapy service and provide community support for the child. Consultation is defined as one of the medical therapy services provided by CCS and should not be confused with treatment services that are also defined in the regulations.

162) Comment:

60300(o) and (p) - Testifier 12.[(i)(3)] (Brogan) recommended the deletion of this section without a stated rationale.

Response:

The Departments disagree with this comment. This definition is necessary to clarify Government Code section 7575(d) which states that the LEA will provide the necessary space and equipment for CCS to provide therapy services, and integral to explaining the role of the MTU in Section 60300(l) of these regulations.

163) Comment:

60300(q) - Testifier 12.[(i)(4)] (Brogan) recommended the addition of section 60300(q) to define educationally necessary occupational and physical therapy.

Response:

The Departments disagree with this comment. The definition of "educationally necessary OT/PT" would not clarify this section.

Section 60310

164) Comment:

Testifier 4. (Nolan) and testifier 9.[(a)] (Nolan) state an objection to this section in that this regulation mandates additional costs on the CCS program. The testifiers also state that the regulations are not in compliance with provision of Article III B, Section 6 of the California Constitution, and California Government Code, Chapter 4, Article 1, sections 17550 et seq. And in particular Government Code section 17561, insofar as the regulations are not accompanied by the cited appropriate for the mandated costs, nor the citation of the item of appropriation in the Budget bill or in any other bill that is intended to serve as the source from which the Controller may pay the claims of such local CCS county agencies.

Response:

The Departments disagree with the comments and believe that the regulations, as proposed, are in full compliance with law and the Administrative Procedure Act (APA). Funding for the services to be provided through the regulations included in R-52-91 was included in the 1998 Budget Act (Chapter 324, Statutes of 1998). The funding is in Items 4260-101-0001, 4260-101-0890, and 4260-111-0001. These items do not specifically identify the dollars particular to this regulation package. The detail can be found in the May 1998 Medi-Cal Estimate and the May 1998 CCS Estimate which is part of the May 1998 Family Health Estimate. These estimates are public documents submitted to the Legislature on May 15,

1998 and are the basis for the Governor's Budget. These funds will appear in the base appropriations for the CCS program in future years. The estimated costs to the county CCS programs (approximately \$805,000 statewide/year) will be made through the normal CCS funding process. According to the Department of Finance, these costs are not reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Section 17500 et seq. of the Government Code (which sets forth the mandate claiming process).

165) Comment:

60310(c)(1) - Testifier 12 [(j)(1)] (Brogan) recommended that section 60310(c)(1) be included to state that the Interagency Agreement include the differentiation between medically and educationally necessary occupational therapy and physical therapy.

Response:

The Departments disagree with this comment. The process for determining if a service is medically necessary already exists in these regulations. Placing such a section in a local Interagency Agreement would result in as many processes for determining the differences in therapy types as there would be Interagency Agreements. One of the purposes of these regulations is to ensure consistency in services to children throughout California.

166) Comment:

60310(c)(2) - Testifier 13. [(aa)] (Mentink) commented in the following manner: "Section 60310. (c)(2) This subsection should be amended as follows:

"Referring pupils, birth to twenty-one years of age, who may have or are suspected of having a neuromuscular, musculoskeletal, or other physical impairment or qualifying condition who may require....

"Rationale: This amendment would make this subsection consistent with the recommendation for amendment of section 60300(j)."

Response:

The Departments disagree with this comment. The conditions identified in this section have been established by the CCS program under statutory authority of the Health and Safety Code (HSC) Sections 123830 and 123860. HSC section 123875 states that children shall be deemed medically eligible for therapy services based upon the need for medically necessary PT or OT services as stated in section 123830. The Departments have determined that only the neuromuscular, musculoskeletal and muscle diseases identified in these regulations are eligible for therapy in the MTP. The Departments have not been given the authority to expand the eligibility for therapy services beyond what is currently CCS program policy. Section 7575 of the Government Code also states that the Department of Health Services (CCS) retains the authority to determine medical necessity for PT and OT services.

167) Comment:

60310(c)(2) - Testifier 12.[(j)(2)] (Brogan) recommended that section 60310(c)(2) be deleted without a stated rationale.

Response:

The Departments disagree with this comment. This section is necessary so that a Local Interagency Agreement includes a process by which the LEA will refer children potentially eligible for the MTP.

168) Comment:

60310(c)(3) - Testifier 12.[(j)(3)] (Brogan) recommended amendments to section 60310(c)(3) without a stated rationale.

Response:

The Departments disagree with this comment and believe that the recommended amendment is vague and does not define "timely process". Consent to treat a pupil is a legal requirement that is identified throughout statutes governing education, government and health services. Exchange of information between agencies is required in Government Code section 7572(e) and is necessary for communication and coordination between agencies. The process is described in greater detail throughout this regulation package.

169) Comment:

60310(c)(4) and (5) - Testifier 12.[(j)(4)] (Brogan) recommended an amendment to sections 60310(c)(4) and (c)(5) without a stated rationale.

Response:

The Departments disagree with these comments. The proposed use of "reasonable" lacks the clarity necessary for regulatory purposes or to specifically meet timelines necessary for the LEA to hold an IEP meeting and include CCS in the process as a related service provider. The Departments determined that the task described in this subsection of the regulations was "reasonable".

170) Comment:

60310(c)(5) - Testifier 13-[(bb)] (Mentink) commented in the following manner: "(c)(5) This subsection should be amended as follows:

"Giving 10 days notice to the LEA and the parent of an impending a proposed change in the CCS medical therapy program services which may necessitate result in a change in the IEP;

"Rationale: The term 'impending' implies that the change is inevitable, i.e., CCS has made a decision. In special education law, changes to the IEP are only proposed changes until they are noticed, described, explained, discussed at an IEP, subject to appeal, and are ineffectual until there is agreement of the parties or a hearing officer's decision changing the IEP. (See 20 U.S.C. Sec. 1415(b)(c) and (j).)"

Response:

The Departments disagree with this comment. The term "impending" is used because it is likely that the physician will determine that a change in CCS therapy services is medically necessary or that the decision has already been made. Government Code section 7575(a) and HSC section 123875 provided the CCS program the authority to determine medical necessity. The impending change is referring to the CCS therapy plan and not the IEP. The IEP team must determine if they feel the change is significant enough to call an IEP team meeting to modify the plan according to Education Code section 56343(a). If the IEP team subsequently determines that the services which CCS is no longer providing are necessary for the child to benefit from his/her special education program, then the LEA is responsible for providing the service. This is the method that the Government and the Education Codes have utilized to insure compliance with federal special education statutes.

171) Comment:

60310(c)(5) - Testifier 11. [(f)] (Haining) and Testifier 24. (Haining) stated that this section would require a change to the IEP when therapy is changed.

Response:

The Departments disagree with this comment. Section 56343(a) of the Education Code states that the IEP team may meet when the pupil receives any subsequent formal assessment such as a CCS evaluation for therapy services. If CCS changes the therapy plan, the IEP team must determine if this is significant enough to call an IEP. According to Government Code section 7575(a)(2) and these regulations, any therapy service that is included on the IEP that is not deemed medically necessary by CCS is the responsibility of the LEA. That is why the IEP team must decide if a change to the IEP is warranted and to decide if those services may still be necessary for a child to benefit from his/her special education program. In order to do this, the IEP team needs to be notified when these changes may occur.

172) Comment:

60310(c)(6) - Testifier 12. [(j)(5)] (Brogan) recommended that section 60310(c)(6) include a reference to the Government Code and the Individuals with Disabilities Education Act (IDEA) without a stated rationale.

Response:

The Departments disagree with Mr. Brogan's recommendation and believe that section 60310(c)(6) of the regulations only applies to interagency agreements between education agencies and CCS and is not relevant to mental health or any other agency that is party to this regulation package.

173) Comment:

60310(c)(7) - Testifier 12.[(j)(6)] (Brogan) recommends that section 60310(c)(7) address mental health services and related state and federal law and regulations.

Response:

The Departments disagree with this comment. This section of the regulations only applies to interagency agreements between education agencies and CCS and is not relevant to mental health or any other agency that is party to this regulation package.

174) Comment:

60310(c)(13) - Testifier 12.[(j)(7)] (Brogan) recommends that section 60310(c)(13) include the review of the local interagency agreement by local agencies on an "as needed" basis by those local agencies.

Response:

The Departments disagree with this comment. This regulation adds specificity to insure the interagency agreement is reviewed annually. The Department of Health Services (DHS) and the California Department of Education (CDE) jointly developed this subsection of the regulations to insure that local agencies would communicate annually to discuss whether any changes may be needed in the interagency agreement, and to update if needed. The suggested language that LEAs will develop timelines for review independently does not ensure a reasonable time line, and leaves the process open-ended. DHS and CDE determined that annually would be a reasonable period of time period between reviews.

175) Comment:

60310(d)(1) - Testifier 12.[(j)(8)] (Brogan) recommended that "[A] description of the joint responsibility" be added to this section.

Response:

The Departments disagree with this comment. The Government Code section 7575(d) states that the LEA shall provide necessary space and equipment for provision of medically necessary PT and OT services provided by CCS. It does not include language that states it is a joint responsibility. This change would require a change in the statute and is beyond the scope of these regulations.

176) Comment:

60310(d)(2) and (3) - Testifier 12. [(j)(9)] (Brogan) recommends that sections 60310(d)(2) and (d)(3) be deleted without a stated rationale.

Response:

The Departments disagree with this comment. The Departments are not obligated to consider amending these sections in the absence of a stated rationale from Mr. Brogan. These sections have been determined to be necessary components of the local interagency agreement.

Section 60320

177) Comment:

Testifier 4. (Nolan) and testifier 9. [(a)] (Nolan) state an objection to this section in that this regulation mandates additional costs on the CCS program. The testifiers also state that the regulations are not in compliance with provision of Article III B, Section 6 of the California Constitution, and California Government Code, Chapter 4, Article 1, sections 17550 et seq. And in particular Government Code section 17561, insofar as the regulations are not accompanied by the cited appropriate for the mandated costs, nor the citation of the item of appropriation in the Budget bill or in any other bill that is intended to serve as the source from which the Controller may pay the claims of such local CCS county agencies.

Response:

The Departments disagree with the comments and believe that the regulations, as proposed, are in full compliance with law and the Administrative Procedure Act (APA). Funding for the services to be provided through the regulations included in R-52-91 was included in the 1998 Budget Act (Chapter 324, Statutes of 1998). The funding is in Items 4260-101-0001, 4260-101-0890, and 4260-111-0001. These items do not specifically identify the dollars particular to this regulation package. The detail can be found in the May 1998 Medi-Cal Estimate and the May 1998 CCS Estimate which is part of the May 1998 Family Health Estimate. These estimates are public documents submitted to the Legislature on May 15, 1998 and are the basis for the Governor's Budget. These funds will appear in the base appropriations for the CCS program in future years. The estimated costs to the county CCS programs (approximately \$805,000 statewide/year) will be made through the normal CCS funding process. According to the Department of Finance, these costs are not reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Section 17500 et seq. of the Government Code (which sets forth the mandate claiming process).

178) Comment:

60320 - Testifier 12. [(k)] (Brogan) recommends that Section 60320, in its entirety, be removed from the proposed regulations.

Response:

The Departments disagree with Mr. Brogan's proposal to eliminate the section that specifies procedures for referring students with disabilities to California Children's Services (CCS). The Departments believe that this section is necessary to provide guidance by delineating the roles and responsibilities of local education agencies and CCS in referring and accepting students with disabilities for evaluating the need for occupational and/or physical therapy.

179) Comment:

60320 - Testifier 13.[(cc)] (Mentink) commented in the following manner: "Section 60320. Introduction: This section creates multiple steps in the referral, eligibility determination, and assessment processes which intolerably delay assessment by CCS for OT or PT services. The determination of medical eligibility prior to assessment cannot act as another time consuming stage in addition to the existing steps of 15 days for presentation of an assessment plan and 50 days for conduct of the assessments. Moreover, the finding that insufficient medical documentation has been submitted can be used simply to buy more time to complete an assessment that is otherwise required to be completed in a specified number of days. For these reasons, this section should be amended as follows.

"(a) This subsection must be amended as follows:

"Pupils referred to the LEA for assessment of fine or gross motor or physical skills shall, within 15 days, be considered for assessment either by the LEA or by CCS depending on the information contained in the referral and the pupil's documented physical deficit pursuant to Section 7572 of the Government Code.

Rationale: The determination of whether the child's needs rise to the level of potentially requiring CCS assessment and intervention, and, therefore, whether the child will be referred by the LEA to CCS must be made within the time an assessment plan is due the parent pursuant to Government Code Section 7572(a) and Education Code Sections 56320(f) and 56321(a). The parent has the right to know, by looking at the assessment plan required by these statutes, who is going to be assessing what, and he/she has a right to know this within 15 days of the referral to the LEA for assessment."

Response:

The Departments disagree with this comment. The CCS program cannot provide services to a child until he/she meets medical eligibility criteria as per CCR, Title 22, Section 42140. Determination of medical eligibility for the MTP must occur before a therapy assessment can begin in the MTU. Medical eligibility cannot be determined without a physician's medical report documenting the presence of a MTP-eligible medical condition. The suggested time line is too limiting on this process. The referral and assessment process is delineated elsewhere in this section. Those processes include the CCS program's need to communicate with the parent and LEA to inform them of the medical eligibility process.

180) Comment:

60320(c)(3) - Testifier 13. [(dd)] (Mentink) commented in the following manner: "(c)(3) This subsection must be amended as follows:

"Parental permission for exchange of information between agencies and parental permission for assessment by CCS;

"Rationale: Without assuring that this written permission is already in the hands of CCS at the time of referral for assessment, the actual assessment may be further delayed by having to obtain such consent after the determination of an eligible condition but before assessment can begin."

Response:

The Departments disagree with the proposed amendment to the regulation. Assessments at the MTP of the need for medically necessary occupational therapy or physical therapy cannot be performed until the pupil has been found medically eligible for the program.

181) Comment:

60320(d) - Testifier 13. [(ee)] (Mentink) commented in the following manner: "(d) This subsection must be substantially amended as follows:

"Upon receipt of a referral, CCS shall provide the parent with the proposed therapy assessment plan within 15 days of the date of the referral of the child by the LEA to CCS. The parent shall review the assessment plan and, if appropriate, provide written consent to the assessment. Upon receipt of the parent's written consent to assessment, medical eligibility shall be the first issue determined as part of the assessment of a child for special education related services. If CCS determines that a referred child does not have a medically eligible condition, the assessment of the child shall cease and written notice of the child's medical ineligibility, which notice contains all the information required under Title 20 United States Code Section 1415(b) and (c), shall be sent to the LEA and to the parent immediately. If medical eligibility cannot be determined by medical records submitted, CCS shall:

"Rationale: This subsection creates a third assessment stage when two (parent to LEA and LEA to CCS) are already too many in California. CCS receives a referral and first determines whether the child has an eligible condition and, if so, then develops an assessment plan and obtains consent and conducts the assessment. There is no time line for the CCS determination of whether the child has an eligible condition. There must be one referral and one assessment by CCS which determines first whether there is an eligible condition and, if so, then continues on immediately to determine the child's therapy needs. Time lines must be specified for this process."

Response:

The Departments disagree with this comment. The assessment process begins with medical eligibility determination, because in accordance with HSC section 123875, medical necessity for therapy services cannot be determined without first determining if the child's stated diagnosis is eligible for the services. A process has been delineated in this regulation package that meets the federal statutory requirements. CCS notifies the LEA and parent when the eligibility process will necessitate an LEA request for an extension of the 50 day time line as permitted in federal law if they wish for CCS to participate as a related service in the IEP process.

182) Comment:

60320(d)(1) - Testifier 13.[(ff)] (Mentink) commented in the following manner: "(d)(1) This subsection should be amended as follows:

"Notify the LEA and the parent within 15 days of the receipt of the referral;

"Rationale: Often, a parent has more of his/her child's medical records than does a school district. The referral and assessment process to a noneducation agency by an education agency after having received a referral from the parent to assess in all areas of suspected disability (Ed. Code Sec. 56320(f)) already drags out the process of identification of all of a child's needs to an intolerable length. This subsection unnecessarily further lengthens this process by having CCS notify only the LEA of the insufficient medical records. Now the LEA must contact the parent which can take another day or two or three. If the notification of insufficient medical records went directly to the parent and LEA at the same time, the parent could begin to address the problem immediately rather than waiting for a school district official to get around to contacting him or her."

Response:

The Departments concur with the suggested change in the regulations as it is already part of the CCS program policies and procedures. The regulations should be amended to read: "Notify the parent and LEA within 15 days of the receipt of the referral."

183) Comment:

60320(d)(2) - Testifier 13.[(gg)] (Mentink) commented in the following manner: "(d)(2) This subsection must be amended as follows:

"Seek additional medical information from the parent and the LEA; and

"Rationale: Although it may be obvious, as written, this subsection does not specify where CCS is supposed to be going to secure the additional medical information."

Response:

The Departments disagree with this comment. The recommended change is too limiting for the needs of CCS to establish a medical diagnosis eligible for the program as required in HSC Section 123875. CCS needs to be able to request medical documentation from an examining physician, as well as from the LEA or parent.

184) Comment:

60320(e) - Testifier 13.[(hh)] (Mentink) commented in the following manner: "(e) This subsection must be amended as follows:

"If CCS determines that the pupil is ineligible because the pupil's medical condition is not a medical therapy program eligible condition, CCS shall notify the parent and the LEA within five days of the determination....

"Rationale: The LEA has no incentive to pass this information along quickly to the parent because the parent may then begin the process of pursuing the LEA for the therapy he/she had sought from CCS. Nor should notification of the parent have to go through channels which delay the parent in initiating due process against CCS challenging the CCS determination."

Response:

The Departments concur with the suggested change to the regulations since this procedure is already being followed by the CCS program. The regulations should read "If CCS determines that the pupil is ineligible because the pupil's medical condition is not a medical therapy program eligible condition, CCS shall notify the parent and the LEA within five days of the determination of eligibility status for the medical therapy program."

185) Comment:

60320(f) - Testifier 13.[(ii)] (Mentink) commented in the following manner: "(f) This subsection must be amended as follows:

"If CCS determines the pupil has a medical therapy program eligible condition, CCS shall ~~propose a therapy assessment to the parents and obtain written consent for the~~ proceed with the remainder of the assessment of the need for medically-necessary occupational therapy or physical therapy. This assessment for therapy shall be implemented completed not more than 15 days following the determination of whether the pupil has a medical therapy program eligible condition and in no case more than 50 days from receipt of parental consent for the assessment.

"Rationale: Consistent with the amendments recommended above, the referral by the LEA to CCS will include parental consent, will generate an assessment plan from CCS, and will result in one assessment which first determines eligibility and then, if the child is eligible,

proceeds to determine service needs. The process will have specified time lines. The term 'implemented' could be interpreted to mean 'begun' or 'initiated' which would leave the time line for completion of the assessment indefinite."

Response:

The Departments disagree with this proposed amendment to the regulations because of the need for obtaining consent for treatment from the parent(s) and therapy prescription from the physician which are outside of the control of the Medical Therapy Program staff.

186) Comment:

60320(f) - Testifiers 11.[(g)] (Haining) and 24. (Haining) stated that the time frame required for implementation of the assessment plan is unreasonably short.

Response:

The Departments disagree with this comment. The Departments believe that 15 days is a reasonable time frame to start the process of contacting the family, obtaining consent from the parent(s) and scheduling the necessary appointments.

187) Comment:

60320(h) - Testifier 14.[(x)] (Feldman) stated that this section does not provide for the parent to receive a copy of the CCS assessment report.

Response:

The Departments disagree with this comment. This section clearly states that the parent shall receive a copy of the assessment report.

188) Comment:

60320(i) - Testifier 13.[(jj)] (Mentink) and testifier 14.[(??)] (Feldman) stated that this section should reference the requirements of IDEA.

Response:

The Departments disagree with these comments. The CCS due process system in Title 22 Chapter 13 beginning with Section 42700 meets all current requirements under 20 USC Sections 1415(b) and (c). However, as a result of the review of the regulation text the Departments decided to amend this subsection to include the requirement that the completed assessment report for therapy be provided to the LEA and the parent in order to state what is already current CCS policy and procedure. The language was amended to provide an understanding of the process. The amended regulation text will read "When CCS determines a pupil does not need medically-necessary physical therapy or occupational therapy, the LEA

and the parent shall be provided with the completed assessment report for therapy and a statement which delineates the basis for the determination.

Section 60323

189) Comment:

Testifier 4. (Nolan) and testifier 9. [(a)] (Nolan) state an objection to this section in that this regulation mandates additional costs on the CCS program. The testifiers also state that the regulations are not in compliance with provision of Article III B, Section 6 of the California Constitution, and California Government Code, Chapter 4, Article 1, sections 17550 et seq. And in particular Government Code section 17561, insofar as the regulations are not accompanied by the cited appropriate for the mandated costs, nor the citation of the item of appropriation in the Budget bill or in any other bill that is intended to serve as the source from which the Controller may pay the claims of such local CCS county agencies.

Response:

The Departments disagree with the comments and believe that the regulations, as proposed, are in full compliance with law and the Administrative Procedure Act (APA). Funding for the services to be provided through the regulations included in R-52-91 was included in the 1998 Budget Act (Chapter 324, Statutes of 1998). The funding is in Items 4260-101-0001, 4260-101-0890, and 4260-111-0001. These items do not specifically identify the dollars particular to this regulation package. The detail can be found in the May 1998 Medi-Cal Estimate and the May 1998 CCS Estimate which is part of the May 1998 Family Health Estimate. These estimates are public documents submitted to the Legislature on May 15, 1998 and are the basis for the Governor's Budget. These funds will appear in the base appropriations for the CCS program in future years. The estimated costs to the county CCS programs (approximately \$805,000 statewide/year) will be made through the normal CCS funding process. According to the Department of Finance, these costs are not reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Section 17500 et seq. of the Government Code (which sets forth the mandate claiming process).

190) Comment:

60323(a) - Testifier 7. [(n)] (Burchill) stated that inclusion of "functional status" in the determination of medical necessity reflects a bias against students who are mentally retarded and is discriminatory. The commentor requested that the term be deleted or defined in exact terms.

Response:

The Departments disagree with this comment. The term "functional status" is a term that is commonly used and understood by providers of rehabilitative services. It refers to a specific child's ability to perform certain motor tasks and is a baseline by which goals and objectives for services can be developed, measured and monitored.

191) Comment:

60323(b) - Testifier 7.[(o)] (Burchill), in the context of the requirement that the Medical Therapy Conference team reviews the therapy plan to ensure the inclusion of measurable goals and objectives to be performed by PTs and OTs during treatment services as well as activities to be performed by parents or LEA staff to maintain or prevent loss of function, questioned the exclusion of CCS occupational and physical therapists, as providers of a related service, from providing services to maintain or prevent loss of function. The commentor recommended that the list of those responsible to carry out a student's functional goals and objectives and perform those activities necessary to maintain or prevent loss of function be revised to include the occupational and/or physical therapist.

Response:

The Departments agree with the need to change this regulation. A change would ensure that the Departments' intent to also have CCS Occupational Therapists and Physical Therapists perform these services is more clearly stated. The regulation should be amended to read: "The Medical Therapy conference shall review the therapy plan to ensure the inclusion of measurable functional goals and objectives for services to be performed by occupational therapists and physical therapists, as well as activities that support the goals and objectives to be performed by parents or LEA staff to maintain or prevent loss of function.

192) Comment:

60323(d) - Testifier 7.[(p)] (Burchill) requests the exclusion of the term, "functional status" by reference to comments provided in relation to section 60323(a).

Response:

The Departments disagree with this comment. The term "functional status" is a term that is commonly used and understood by providers of rehabilitative services. It refers to a specific child's ability to perform certain motor tasks and is a baseline by which goals and objectives for services can be developed, measured and monitored.

Section 60325

193) Comment:

60325(Title) - Testifier 12.[(l)(1)] (Brogan) requested that the title be changed to read "Medical Therapy Services and Individualized Education" from "Individualized Education Program for Therapy Services".

Response:

The Departments disagree with the proposed change to the regulations. The change in the title does not accurately reflect the language in this section. This section describes how CCS will provide information to the IEP team for consideration for inclusion in the IEP.

194) Comment:

60325 - Testifier 4. [(a)] (Nolan) states an objection to this section in that this regulation mandates additional costs on the California Children Services program. Testifier 4. [(a)] also states that the regulations are not in compliance with the provisions of Article III B, section 6 of the California Constitution, and California Government Code, Chapter 4, Article 1, sections 17550 et seq. and in particular Government Code section 17561, insofar as the regulations are not accompanied by the cited appropriation for the mandated costs, nor the citation of the item of appropriation in the Budget Bill or in any other bill that is intended to serve as the source from which the Controller may pay the claims of such local CCS county agencies.

Response:

The Departments disagree with the comments and believe that the regulations, as proposed, are in full compliance with law and the Administrative Procedure Act (APA). Funding for the services to be provided through the regulations included in R-52-91 was included in the 1998 Budget Act (Chapter 324, Statutes of 1998). The funding is in Items 4260-101-0001, 4260-101-0890, and 4260-111-0001. These items do not specifically identify the dollars particular to this regulation package. The detail can be found in the May 1998 Medi-Cal Estimate and the May 1998 CCS Estimate which is part of the May 1998 Family Health Estimate. These estimates are public documents submitted to the Legislature on May 15, 1998 and are the basis for the Governor's Budget. These funds will appear in the base appropriations for the CCS program in future years. The estimated costs to the county CCS programs (approximately \$805,000 statewide/year) will be made through the normal CCS funding process. According to the Department of Finance, these costs are not reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Section 17500 et seq. of the Government Code (which sets forth the mandate claiming process).

195) Comment:

60325 - Testifier 9. [(a)] (Nolan, Borders and Thomas) states that there is a serious shortage of qualified physical and occupational therapists to provide MTU services as county employees. The testifiers state that their county lacks both the personnel and financial resources to implement the additional prescribed requirements and it may be impossible to fully implement them (e.g., additional therapy services, staff attendance at IEP meetings, prescribed deadlines and other procedural requirements). The testifiers state that their county has adopted methods of participating in the IEP process without burdensome regulations. The testifiers continue to state that there are less burdensome methods for achieving increased interagency cooperation, but that they were not consulted in the draft of the regulations and written questions submitted more than two months ago at the CCS training sessions have not been answered. They state that these regulations do not adequately address operational difficulties that counties such as theirs can expect to experience in their implementation. The testifiers object to the provision which could make CCS responsible for Medical Therapy services by virtue of their inclusion in a child's IEP and include language requiring CCS services to "pupils". Such provisions seem to be in conflict with the California Health and

Safety Code and portions of federal law that make education agencies responsible for special education and related services, not health agencies such as CCS. CCS benefits and services should not be subject to the IEP hearing process because that conflicts with well established CCS program regulations. Since these regulations as drafted are in part unnecessary, burdensome, and in conflict with existing federal and state laws and regulations on the same subject matter, alternative methods of achieving improved interagency communication without such liabilities should be developed and submitted for public review.

Response:

The Departments disagree with these comments and believe that the regulation, as proposed, are in full compliance with state and federal law. Section 7572(e) of the Government Code requires participation of California Children's Services (CCS) in the development of the individualized education program (IEP) when discussing the need for medically necessary occupational or physical therapy. The law does not take into consideration the availability of resources as a determinate regarding the degree to which an agency participates in the provision of special education and related services to children with disabilities. With respect to comments submitted by Dr. Nolan, Ms. Borders and Ms. Thomas, that they "object to the provisions which could make CCS responsible for Medical Therapy services by virtue of their inclusion in a child's IEP and include language requiring CCS services to 'pupils,' this is the law as found in Chapter 26.5 of the Government Code. In addition, pursuant to Education Code Section 56500, CCS is considered a "public education agency." This section defines a "public education agency" in part as "a district, special education local plan area, or county office, depending on the category of local plan elected by the governing board of a school district . . . or any other public agency providing special education or related services" (emphasis added). Therefore, the Departments believe this section is necessary to specify the responsibilities of CCS in participating in the development of an IEP regarding the necessity and provision of medically necessary occupational or physical therapy services.

196) Comment:

60325(a)(2) - Testifiers 11.[(h)] (Haining) and 24. (Haining) stated that the wording of the subsection allowed for maintenance therapy and suggested that, for most children, prevention of loss of function is not possible. The commentor requested that the wording be confined to, "The proposed functional goal to achieve a measurable change in function."

Response:

The Departments disagree with this comment. As per comments on Section 60300(n) & 60310(c)(5), instruction services by therapists to nonprofessionals so they may perform activities in the home and classroom that do not require the skilled expertise of a PT or an OT are essential in the overall rehabilitation of the child. It is especially imperative that this information is relayed to the IEP team for inclusion in the IEP to assure this function is performed in the classroom.

The Departments disagree with this comment and believe that this regulation, as proposed, is necessary for the MTP to provide medically necessary occupational and physical therapy.

to children with disabilities. It is the responsibility of the individualized education program (IEP) team, consistent with State and federal special education law, to determine the necessity for such related services to assist a child with a disability to benefit from special education. It is not within the purview of these regulations to be so restrictive as to limit decisions made by the IEP team.

197) Comment:

60325(a)(4) - Testifier 13, [(kk)] (Mentink) commented in the following manner: "Section 60325. (a)(4) The subsection should be amended as follows:

"The proposed initiation, location, frequency, and duration of the services, and

"Rationale: The IDEA has been amended at section 1414(d)(1)(vi) to require that frequency, location, and duration of services be specified."

Response:

The Departments disagree with this comment. The MTP program services according to Health and Safety Code, Section 123950 are to be provided in the school. However, as a result of review of the regulation text, the Departments decided to amend this subsection to reiterate the responsibilities and requirements of the MTP. The amended regulation text reads "The proposed initiation, frequency, and duration of the services to be provided by the medical therapy program; and."

198) Comment:

60325(a)(4) - Testifier 14, [(l)] (Feldman) stated that the section does not conform to IDEA.

Response:

Please see response to Comment 197).

199) Comment:

60325(b) - Testifier 12, [(l)(2)] (Brogan) proposes amending section 60325(b) to exclude the specific reference to participation by CCS in the IEP team and presented amendment language that would provide for a description of the participation of "other public agencies" in IEP meetings in accordance with IDEA.

Response:

The Departments disagree with this proposed change to the regulations. Section 60325(b) only applies to the relationship between CCS and LEAs and is not applicable to mental health or any other agency that is part of this regulation package.

200) Comment:

60325(c) - Testifier 13.[(II)] (Mentink) commented in the following manner: "(c) The subsection must be amended by adding two sentences at the end of it as follows:

"The written notice described in this subdivision shall contain all the information required under Title 20 United States Code Section 1415(b) and (c). No change in any CCS service provided as a special education related service pursuant to an IEP shall become effective without parental consent or the order of a hearing officer following a special education due process proceeding initiated by CCS, and wherein CCS shall bear the burden of proof regarding the appropriateness of any change in services.

"Rationale: No other special education service can be unilaterally changed in a child's IEP without the notice specified by federal law. No other special education service can be changed in an IEP without parental consent or the order of a hearing officer following a due process hearing. The rules are no different for CCS when it is operating under an IEP pursuant to these Government Code provisions. See Government Code Sec. 7586."

Response:

The Departments disagree with this comment. CCS has the authority to determine medical necessity and may change the therapy plan when it is deemed medically necessary by the CCS program. The decision lies with the IEP team to decide to either call an IEP and propose a change or decide that the LEA will provide the services CCS was formerly providing.

201) Comment:

60325(c) - Testifier 7.[(q)] (Burchill) stated that the requirement that CCS notify the IEP team and parent in writing within five days of a decision to increase, decrease, or discontinue services for pupils receiving therapy services is inconsistent with the notice provisions specified in section 60310.

Response:

The Departments disagree with the proposed change to the regulation. Education Code Section 56343 states that an IEP team may meet when a pupil receives any subsequent formal assessment (such as a CCS reevaluation for therapy services). This is an IEP team decision. There is no inconsistency between Section 60310 and Section 60325. The reference to the 10-day time line in 60310 is to notify the LEA when there may be a change in the therapy plan because a child is scheduled at a MTC or has a physician appointment and a change to the therapy plan is to be proposed to the physician. The 5-day time line referred to in Section 60325 is a requirement for CCS to notify the LEA and parent when the therapy plan has actually been changed and the IEP team needs to consider an IEP team meeting if the related services provided by CCS have been included in the IEP.

202) Comment:

60325(d). - Testifier 13. [(mm)] (Mentink) commented in the following manner: "(d) This subsection should be amended as follows:

"The IEP team shall be convened by the LEA pursuant to discuss the proposed termination, reduction, increase, or change in the nature of CCS-provided services resulting from operation of subsection (c) of this section when there is an annual or triennial review or a review requested by the parent or other authorized persons.

"Rationale: There must be an IEP team meeting to discuss what is proposed by CCS following the written notice specified by federal law. The proposed change is simply an item for discussion and potential consent of the parent. Absent this consent or absent CCS initiating due process against a nonconsenting parent and carrying its burden of proof of demonstrating the change in circumstances justifying a change in services, services as specified in the IEP must continue uninterrupted as required by law. The last clauses of subsection (d) are not needed. There is sufficient authority in other statutes and regulations for the requirement that there must be an IEP team meeting annually and at the triennial review and when requested by the parent."

Response:

The Departments disagree with this comment. CCS has the authority to determine medical necessity and may change the therapy plan when it is deemed medically necessary by the CCS program. The decision lies with the IEP team to decide to either call an IEP and propose a change or decide that the LEA will provide the services CCS was formerly providing.

203) Comment:

60325(e). - Testifier 13. [(nn)] (Mentink) commented in the following manner: "(e) This subsection should be amended by adding two sentences at the end as follows:

"During the pendency of the IEP team meeting and assessments described in this subsection, CCS shall continue to provide all services specified in the IEP or incorporated by reference into the IEP, except those which the parent has given his or her consent to change or which have been terminated or modified by order of a special education hearing officer. Nothing in this subsection shall prevent an LEA from agreeing, or a hearing officer from ordering an LEA to provide the services specified in the IEP or incorporated by reference therein in lieu of CCS and pending the IEP meeting and assessments described in this subsection.

"Rationale: It is a good practice for the LEA to conduct assessments to determine whether the child continues to need some or all of these services for solely educational reasons should CCS ultimately prevail in a due process hearing on the medical necessity standard. These assessments by the LEA should begin as soon as possible following CCS's proposed changes to the IEP so as to ensure no interruption of educationally necessary services should it be

determined by a hearing officer that a child's medical condition or medical need for services has changed. The presumption that the services previously provided by CCS are educationally necessary (if they were not they would never have been in an IEP) is likely unaffected by CCS's determination that the child no longer has a CCS eligible condition or that the services are no longer medically necessary. In any case, the services must continue to be provided by CCS absent parental consent or a hearing officer's decision. And, unless, the hearing officer also determines there is no educational need for the service, the presumption that the service continues to be educationally necessary prevails and the LEA must begin to provide them."

Response:

The Departments disagree with this comment. The CCS program is responsible as per CCR, Title 22, Section 41518 to determine medical necessity for services which it provides. The IEP team does not determine which services the CCS program provides.

204) Comment:

60325(e) - Testifiers 11.[(i)] (Haining) and 24 (Haining) stated that this section would allow for duplication of services and that there is no difference between medically indicated therapy and "educational" therapy.

Response:

The Departments disagree with this comment. The LEA has the responsibility to determine the overall plan of services for a child to assist him/her "to benefit from the special education program". The related services provided by the CCS program are only one component of the services that may be needed by a child. This section describes the LEA's responsibility in this area, not focusing on any specific service.

The Departments believe that this regulation, as proposed, is necessary for the individualized education program (IEP) team to determine the need for medically necessary occupational and physical therapy services in order for the pupil to benefit from special education. Government Code Section 7572 (e) states, in part, whenever a related service . . . is to be included in the child's individualized educational program, the local education agency shall invite the responsible public agency representative to meet with the individualized education program team to determine the need for the service and participate in developing the individualized education program."

205) Comment:

New 60325(g) - Testifier 13.[(oo)] (Mentink) commented in the following manner: "(g) A new subsection (g) should be added as follows: \_\_\_\_\_"

"(g) When the IEP team members representing the LEA determine that OT or PT services are not necessary for the pupil to benefit from special education, if the parent disagrees with that determination, the LEA shall provide the parent a written notice of the decision to deny these services which contains all the information specified by Title 20 United States Code Sec. 1415(b) and (c).

"Rationale: This added subsection clarifies the procedures for and responsibility of the LEA to give the notice required by federal law where it denies continued provision of these services."

Response:

The Departments disagree with this comment. There are already requirements for the IEP team to notify parents contained in Section 56321 and 56329 of the Education Code.

Section 60330

206) Comment:

60330 - Testifier 12.[(m)] (Brogan) proposes the elimination of the entire section without a stated rationale.

Response:

The Departments disagree with this comment. The Departments believe that we are not obligated to consider amending these sections in the absence of a stated rationale from Mr. Brogan. However, this section is necessary to ensure there is identification of responsibility for the provision of space and equipment for a Medical Therapy Unit in a public school.

Section 60400

207) Comment:

60400 - Testifier 13.[(pp)] (Mentink) commented in the following manner: "Section 60400. Introduction: The title of this regulation does not make sense. It is limited to home health aides, but for reasons described below should be amended to: 'Home Health Aides And Other Health Care Personnel'"

"(a) This subsection does not make sense and should be amended as follows:

"The Department of Health Services shall be responsible for providing the services of ~~a home health aide or other health care personnel~~ when the LEA considers a less restrictive placement from home to school for a pupil for whom both of the following conditions exist:

"Rationale: It is clear from subsection (a)(2) that some of these children may 'require' the personal assistance of a nurse or other specially trained adult. Subsection (b) even specifies 'daily skilled nursing care.' The Department surely would not provide a 'home health aide' to a child who required the services of a nurse. The title of this regulation as well as the text must be amended to clarify that it will not be home health aides only who will be assigned to these cases, especially when the child's care requires a nurse."

Response:

The Departments disagree with the comment. The addition of "other health care personnel" is unnecessary because subsection 60400(c) permits DHS to determine the appropriate health care personnel to provide services to an individual child while the child is in school.

208) Comment:

60400 - Testifier 12.[(n)] (Brogan) proposes rewriting subsection 60400(a) to require appointment of a liaison by each county agency of DHS and by the County Superintendent of Schools or SELPA Director.

Response:

The Departments disagree with the testifier. The language proposed offers no connection to anything else in this section and does not clarify the purpose of this section.

209) Comment:

60400 - Testifier 7.[(r)] (Burchill) requested the revision of this section that describes the Medi-Cal program's responsibilities to provide Home Health Aide services in the school.

Response:

The Departments disagree with this comment. Home Health Aide is defined in CCR, Title 22, Section 7624; there is no distinction between children eligible for full scope Medi-Cal and those eligible for EPSDT benefits; the IEP team should determine the services the child needs to benefit from special education. Eligibility for services by other agencies (e.g., Medi-Cal or CCS) is not done at that time.

Section 60505

210) Comment:

60505(a) - Testifier 12.[(o)] (Brogan) proposes to delete section 60505(a) that states that the Department of Social Services shall provide the Superintendent of Public Instruction a current rates list of group homes and foster family agencies. The proposed draft to replace section 60505(a) states that each county department of Social Services shall appoint a liaison in order to facilitate the provision of services as described in subdivisions (a), (b), (d) and (e) of

Section 7573 of the Government Code, and also in subdivisions (a), (b), and (d) of Section 7575 of the Government Code.

Response:

The Departments disagree with this comment. Government Code Section 7573 does not contain any subdivisions. Government Code Section 7575 states that "the Superintendent of Public Instruction shall insure that local education agencies provide special education and those related services and designated instruction and services contained in a child's individualized education program that are necessary to benefit educationally from his or her instructional program." Government Code Section 7575 discusses the provision of medically necessary occupational therapy and physical therapy by reason of medical diagnosis and when contained in the child's individualized education program. It is unclear why Mr. Brogan would want to strike the current section 60505(a) and replace it with the proposed language. Section 60505(a) is intended to provide the Superintendent of Public Instruction with information regarding programs for possible placement in out-of-home care. One section of the Government Code cited by Mr. Brogan deals with local education agencies providing the education and related services the child needs, and the other citation are concerned with the provision of medical services. The relationship of these citations to the contents of section 60505(a) is not apparent. Therefore, while the Departments thank Mr. Brogan for the suggested language, we would prefer to leave section 60505(a) as written.

211) Comment:

60505(e) - Testifier 13.[(rr)] (Mentink) commented in the following manner: "(e)(2) This subsection should be deleted and the text of subsection (e)(1) incorporated into the body of subsection (e)."

"Rationale: This subsection clearly sends a message to facility operators not to accept any difficult children who may tax the existing program structure, funding, or staff of the SELPA. Again, children taking up residence in a SELPA with their parents are entitled to a program which is individually designed to meet their unique needs whether it fits the SELPA's current instructional personnel service units, facilities, funding, and staff or not. Children placed in residential facilities are entitled to no less individualized IEPs."

Response:

The Departments disagree with this comment and believe that section 60505(e)(2) as proposed is necessary and in alignment with Government Code Section 7580.

212) Comment:

60505(e)(1) - Testifier 13. [(qq)] (Mentink) commented in the following manner: "Section 60505 (e)(1) This subsection should be amended as follows:

"The types and locations of the existing public and state certified nonpublic nonsectarian special education programs available within the SELPA, and a statement that if a child presents with needs which are not appropriately addressed in any of the SELPA's existing public or nonpublic programs, an existing program would have to be modified or a new program developed and the SELPA Director should be notified as soon as possible of the needs of any such child,"

"Rationale: This subsection implies to facility licensees that what the SELPA has is the sum total of the entitlement to appropriate and least restrictive educational programming for children placed in facilities in the SELPA. Clearly, the SELPA would have the duty to modify an existing program or a (sic) develop a new one for a child with unique needs that were not appropriately addressed by any existing program if the child moved into the SELPA with his parents. Children who enter the SELPAs in ways other than in the company of their parents are entitled to no less in the way of individualized educational programming."

Response:

While the Departments appreciate the concern expressed by Mr. Mentink, the Departments believe what Mr. Mentink proposes is an extension of the requirements found in Chapter 26.5 of the Government Code. It does not appear that there is any authority to write rules to satisfy Mr. Mentink's concerns.

Section 60550

213) Comment:

60550 - Testifier 4. (Nolan) states an objection to this section in that this regulation mandates additional costs on the California Children Services program. Testifier Nolan also states that the regulations are not in compliance with the provisions of Article III B, section 6 of the California Constitution, and California Government Code, Chapter 4, Article 1, sections 17550 et seq. And in particular Government Code section 17561, insofar as the regulations are not accompanied by the cited appropriation for the mandated costs, nor the citation of the item of appropriation in the Budget Bill or in any other bill that is intended to serve as the source from which the Controller may pay the claims of such local CCS county agencies.

Response:

The Departments disagree with the comments and believe that the regulations, as proposed, are in full compliance with law and the Administrative Procedure Act (APA). Funding for the services to be provided through the regulations included in R-52-91 was included in the 1998 Budget Act (Chapter 324, Statutes of 1998). The funding is in Items 4260-101-0001, 4260-101-0890, and 4260-111-0001. These items do not specifically identify the dollars particular to this regulation package. The detail can be found in the May 1998 Medi-Cal Estimate and the May 1998 CCS Estimate which is part of the May 1998 Family Health Estimate. These estimates are public documents submitted to the Legislature on May 15, 1998 and are the basis for the Governor's Budget. These funds will appear in the base appropriations for the CCS program in future years. The estimated costs to the county CCS programs (approximately \$805,000 statewide/year) will be made through the normal CCS funding process. According to the Department of Finance, these costs are not reimbursable by the State pursuant to Section 6 of Article XIII B of the California Constitution and Section 17500 et seq. of the Government Code (which sets forth the mandate claiming process).

214) Comment:

60550 - Testifier 9.[(d)] (Nolan, Borders and Thomas) states that CCS benefits and services should not be subject to the IEP hearing process because that conflicts with well established CCS program regulations. Since these regulations, as drafted, are in part unnecessary, burdensome, and in conflict with existing federal and state laws and regulations on the same subject matter, alternative methods of achieving improved interagency communication without such liabilities should be developed and submitted for public review.

Response:

The Departments disagree with this comment and believe that the regulation, as proposed, is in full compliance with state and federal law. Section 7586 of the Government Code states that "all state departments, and their designated local agencies shall be governed by the procedural safeguards required in Section 1415 of Title 20 of the United States Code."

215) Comment:

60550(d) - Testifier 13.[(ss)] (Mentink) commented in the following manner: "Section 60550. (d) This subsection should be amended as follows:

"Each agency which is identified by the State Superintendent of Public Instruction or designee or parent as a potentially responsible party and which has been....

"Rationale: It is not the Superintendent or her designee (the Special Education Hearing Office) who names the parties to a hearing. It is the parent, when the parent is initiating due process, who specifies who the hearing is against."

Response:

The Departments disagree with this comment. While the Departments appreciate the concern expressed by Mr. Mentink, section 60550(d) outlines the responsibility of the State Superintendent of Public Instruction for the exercise of due process at the state level. Obviously, all action taken by the State Superintendent of Public Instruction will include all parties relevant to resolution of disagreements between a parent and a public agency.

216) Comment:

60550(e) - Testifier 13.[(tt)] (Mentink) commented in the following manner: "(e) This subsection is very unclear and should be amended to specify what is meant by 'shall rule according to Government Code Section 7575(a)'."

Response:

The Departments agree that section 60550(e) is unclear and propose that this section be amended to read "The hearing officer shall be knowledgeable in the laws governing administrative hearings. In addition the hearing officer shall be knowledgeable about the provisions of Chapter 26.5 of the Government Code and applicable laws relevant to special education, community mental health and California Children's Services."

217) Comment:

60550(e) - Testifier 8.[(entire letter)] (Johnson) requested that the regulation be amended to require the hearing officer to be knowledgeable of the CCS program in order to render a decision that is in the best interest of the child.

Response:

The Departments generally agree with Ms. Johnson's comment. Therefore, in order to ensure that hearing officers are knowledgeable in all pertinent administrative, legal and program areas covered by Chapter 26.5 of the Government code, we propose that section (e) be amended to read "The hearing officer shall be knowledgeable in the laws governing administrative hearings. In addition the hearing officer shall be knowledgeable about the provisions of Chapter 26.5 of the Government Code and applicable laws relevant to special education, community mental health and California Children's Services. For hearings related to ...."

Section 60560

218) Comment:

60560 - Testifier 13.[(uu)] (Mentink) commented in the following manner: "Section 60560. (a) This subsection should be amended as follows:

"Allegations of failure by an LEA, Community Mental Health Service, or CCS to comply with these regulations, or with the terms of an IEP, including service or therapy plans attached to or incorporation by reference into the IEP, or with any other provisions of state or federal law, shall be resolved pursuant to Chapter 5.1, commencing..."

"Rationale: It should be made clear that all agencies governed by Government Code Sections 7570 through 7588 are subject to this complaint process. In addition, these regulations are not the entire universe in terms of the special education laws (as well as IEPs) that the various state and local agencies must comply with. If only violations of these regulations are within the jurisdiction of this compliance complaint process, it would be unclear what process should be followed for all other complaints involving noncompliance not covered by these regulations".

Response:

The Departments agree with the intent of Mr. Mentink's comment. Therefore, the Departments propose to amend section 60560(a) to read "Allegations of failure by an LEA, Community Mental Health Service, or CCS to comply with these regulations, shall be resolved pursuant to Chapter 5.1, commencing with Section 4600, of Division 1 of Title 5 of the California Code of Regulations." This proposed amendment is limited to the requirements of Chapter 26.5 of the Government Code and the proposed regulations. The Departments do not believe, however, that we have the authority to include language that may be construed to mandate agencies to comply with elements of the individualized education program (IEP) that may transcend Chapter 26.5 services. In this instance, other sections of law and regulation provide for compliance complaints.

219) Comment:

60560 - Testifier 9.[(a)] (Nolan, Borders and Thomas) states that there is a serious shortage of qualified physical and occupational therapists to provide MTU services as county employees. The testifiers state that their county lacks both the personnel and financial resources to implement the additional prescribed requirements and it may be impossible to fully implement them (e.g., additional therapy services, staff attendance at IEP meetings, prescribed deadlines and other procedural requirements). The testifiers state that their county has adopted methods of participating in the IEP process without burdensome regulations. The testifiers continue to state that there are less burdensome methods for achieving increased interagency cooperation, but that they were not consulted in the draft of the regulations and written questions submitted more than two months ago at the CCS training sessions have not been answered. They state that these regulations do not adequately address operational difficulties that counties such as theirs can expect to experience in their implementation. The testifiers object to the provision which could make CCS responsible for Medical Therapy services by virtue of their inclusion in a child's IEP and include language requiring CCS services to "pupils." Such provisions seem to be in conflict with the California Health and Safety Code and portions of federal law that make education agencies responsible for special education and related services, not health agencies such as CCS. CCS benefits and services should not be subject to the IEP hearing process because that conflicts with well established

CCS program regulations. Since these regulations as drafted are in part unnecessary, burdensome, and in conflict with existing federal and state laws and regulations on the same subject matter, alternative methods of achieving improved interagency communication without such liabilities should be developed and submitted for public review.

Response:

The Departments disagree with comments made regarding compliance complaints. It could not be easily ascertained from written comments from Dr. Nolan or the written testimony of Dr. Nolan, Ms. Borders and Ms. Thomas of their concern regarding compliance complaints. In any regard, the Departments believe that the regulations, as proposed, are in full compliance with state and federal law.

220) Comment:

60560 - Testifier 14. [(z)] (Feldman) states that the following language "allegations of failure to comply with these regulations," in section (a) raised the question of whether or not the California Department of Education (CDE) has the authority to investigate complaints related to all federal and state special education requirements. Testifier Feldman suggests to include regulatory language that gives the CDE clear authority to investigate complaints and enforce corrective actions if warranted against the community mental health and California Children's Services for violations of either federal or state law. Testifier Feldman concludes by stating that federal statutes require any state agency providing special education services under Part B to comply with all federal IDEA mandates.

Response:

The Departments disagree with the comment and believe that the language proposed for section 60560(a) is in alignment with the Individuals with Disabilities Education Act. Section 60560(a) purposely limits complaint procedures to the requirements set forth in these regulations to provide interagency services to pupils with disabilities. There is no authority to regulate services other than those required by Chapter 26.5 of the Government Code. Therefore, complaint procedures must be limited to the scope of these regulations.

Section 60600

221) Comment:

60600 - Testifier 9. [(a)] (Nolan, Borders and Thomas) states that there is a serious shortage of qualified physical and occupational therapists to provide MTU services as county employees. The testifiers state that their county lacks both the personnel and financial resources to implement the additional prescribed requirements and it may be impossible to fully implement them (e.g., additional therapy services, staff attendance at IEP meetings, prescribed deadlines and other procedural requirements). The testifiers state that their county has adopted methods of participating in the IEP process without burdensome regulations. The testifiers continue to state that there are less burdensome methods for achieving increased

interagency cooperation, but that they were not consulted in the draft of the regulations and written questions submitted more than two months ago at the CCS training sessions have not been answered. They state that these regulations do not adequately address operational difficulties that counties such as theirs can expect to experience in their implementation. The testifiers object to the provision which could make CCS responsible for Medical Therapy services by virtue of their inclusion in a child's IEP and include language requiring CCS services to "pupils." Such provisions seem to be in conflict with the California Health and Safety Code and portions of federal law that make education agencies responsible for special education and related services, not health agencies such as CCS. CCS benefits and services should not be subject to the IEP hearing process because that conflicts with well established CCS program regulations. Since these regulations as drafted are in part unnecessary, burdensome, and in conflict with existing federal and state laws and regulations on the same subject matter, alternative methods of achieving improved interagency communication without such liabilities should be developed and submitted for public review.

Response:

The Departments disagree with comments made regarding compliance complaints. It could not be easily ascertained from written comments from Dr. Nolan or the written testimony of Dr. Nolan, Ms. Borders and Ms. Thomas of their concern regarding compliance complaints. In any regard, the Departments believe that the regulations, as proposed, are in full compliance with state and federal law.

222) Comment:

60600(b) - Testifier 13.[(vv)] (Mentink) commented in the following manner: "Section 60600. (b) This subsection must be amended as follows:

"....when the service is contained in the IEP, mediation agreement, or due process hearing decision. The IEP of a pupil...., a copy of the decision rendered by mediation agreement negotiated through the mediator or decision of the hearing officer, shall...."

"Rationale: These amendments simply make the language describing these documents consistent with what actually occurs. Mediators do not write or even make decisions. Mediators simply facilitate the process of the parties negotiating a settlement agreement."

Response:

The Departments agree with Mr. Mentink's comment. Therefore, the Departments propose to amend section 60600(b) to read "A dispute over the provision of services means a dispute over which agency is to delivery or to pay for the services when the service is contained in the IEP, mediation agreement, or due process hearing decision. The IEP of a pupil with a disability, and, when appropriate, a copy of the mediation agreement negotiated through the mediator or decision of the hearing officer shall accompany the request for a state interagency dispute resolution."

## Section 60610

### 223) Comment:

60610 - Testifiers 11. [(j)] (Haining) and 24. (Haining) state that CCS has been able to maintain a cost effective program by assessing the needs and providing the therapy services through their own MTUs. However, the regulations would force CCS to pay for therapy services outside of these usual means if there is a waiting list. In one SELPA the educators have in the past initiated therapy services without having the child participate in a CCS MTU clinic on the prescription of a non-paneled physician as they perceived a need for the child to begin therapy was urgent. It is unusual for therapy services to be of such urgency as an outpatient that they need to have uninterrupted services. With this new interpretation CCS could be liable for providing therapy at as much as two to three times the amount it pays in the MTU. Testifier Haining concludes by stating that there is no funding mechanism to pay for this added burden.

### Response:

The Departments agree with the commentor that it may be possible that the CCS Medical Therapy Program could reimburse for additional therapy services as the result of a fair hearing decision. The additional funding necessary to reimburse for these services is now included in the CCS budget.

The Departments believe that the regulation as proposed, is in full compliance with state and federal law. The individualized education program (IEP) determines the need for occupational and physical therapy in order for a pupil to benefit from special education. State and federal law does not allow the denial of services by placing children on waiting lists. Costs and/or the availability of resources are not to be a barrier for purposes of providing special education and related services. In the instance that CCS does not have the necessary resources to meet the needs of a pupil eligible for the MTP, it is incumbent upon the program to take necessary actions to ensure that pupils with disabilities receive services to which they are entitled in a timely manner.

### General Comments

### 224) Comment:

Sections 60040, 60045, 60055(a) - Testifier 12. [(??)] (Brogan) comments that... "Attached is a comprehensive revision to the Proposed Interagency Regulations which continues this effort. The changes reflected in this document are based on the following principles. The SELPA Admisistrators support all students having access to high quality services from a variety of public agencies, all services must be integrated into the student's program, since 1986 when the original law was passed, many communities have, or will be designing, multi-agency wrap-around services for youth and families to meet this goal...."

Response:

With the elimination of Sections 60040 and 60045, there is elimination of some guidance and uniformity in these areas. Also, these sections do not appear to be redundant with information provided in other sections. The proposed changes by the testifier to Section 60055(a) have some merit in that the change from mental health services to mental health agency would make sense from a wrap around perspective. If the referral to the mental health agency is to a wrap agency, it would be inappropriate for the IEP Team to decide on the service array prior to the convening of the child and family team process. However, not all mental health agencies are wrap agencies, the agency may not provide the services the pupil/child needs, and thus the LEA may be out of compliance by not ensuring that the child/pupil got the services he or she needs. Therefore, the proposed change may not be in some children's best interest and is better left as it currently reads. Also, many of the proposed changes eliminate timelines. The timelines would lend some needed standards and uniformity across LEAs.

225) Comment:

Fiscal Impact/Local Mandate Statement - Testifier 27. [(a)] (McIver) commented at the public hearing in the following manner: "Now, I would also be remiss if I didn't take the occasion to mention, too, that in the proposed regulations and statement of reasons circulated with the proposed regulations, it cites that the departments have determined that the proposed regulations impose a mandate on the local mental health service agencies to serve eligible special ed pupils. And the fiscal impact statement also cites that some additional costs will result for community mental health services based on the shift in fiscal responsibility for out-of-state placed pupil's case management and mental health cost from local education to local mental health.

"Now, while there is a shift in cost, there is not a shift in money. And it cites that the cost increase estimated at \$2.4 million, which is no doubt an underestimate of the cost, may be accessed through the mandates claiming process. And to date, this claiming process has not been timely or successful. We were led to believe that this would be an undisputed case because there is agreements from the departments that there is no dispute about the mandate claim. However, there's been a reversal of that at the state; and our test claim for reimbursement has been stalled. And I would suggest that unless this issue is resolved either through the mandates claiming process or through clarification in the regulations, that these regulations should not be approved."

Response:

The Departments do not agree with this comment.

The Departments met the provisions of Government Code Sections 11346.5(a)(5), (a)(6), 11346.9(a)(2), and 17561, in the following manner:

- a) Made a determination that the regulations impose a mandate on local agencies.

- b) Made a determination that the mandate is reimbursable.
- c) The Departments prepared an estimate of the cost.
- d) The Budget Act citation for reimbursement of these expenses is 4440-295-001, (7) 98.01.174.784-Services to Handicapped Students (Chap. 1747, Stats. of 1984).
- (e) There is 1998-99 Budget Act funding to cover reimbursement expenses.

1998-99 Budget Act	\$37,695,000
Chapter 780/98	22,608,000
Chapter 306/97 (carryover)	3,443,391
Chapter 748/96 (carryover)	77,472
<b>TOTAL</b>	<b>\$63,823,863</b>

It is beyond the scope of this rulemaking to specifically address issues regarding the testifier's dispute with the mandates claiming process.

No change will be made to the regulations in response to this general comment.

226) Comment:

Supports Contra Costa Testimony - Testifier 28. [(a)] (Backlund) testified at the public hearing in the following manner: "Hi, I came today from Stanislaus County; and I want to express support and -- for the concerns expressed by the Contra Costa County submission and that's what I mainly --"

Response:

Please see response to Contra Costa County's comments throughout this section of the Statement of Reasons.

227) Comment:

Testifier 9. [(entire letter)] (Nolan, Borders and Thomas) provide general comments that the process outlined in the regulations is burdensome without offering any rationale or suggestion for changes. They also state that they currently have methods of communication and coordination. They do not identify the specific sections of the regulations that they say are in conflict with the Health & Safety Code. The commentors also broadly suggest that CCS benefits and services would be subject to the special education hearing process without identifying a specific cite in the regulations that would require this.

Response:

1. The Departments find that no alternative would be more effective in carrying out the purposes for which these regulations are proposed or would be as effective or less burdensome.

The testifier does not specifically address how or which regulations are burdensome, nor does the testifier provide alternative processes for the Departments to consider.

2. While the testifier states their organization currently has methods of communication and coordination in place the testifier does not provide which or how regulations conflict with their current processes nor does the testifier present their organizations' processes to be considered as alternatives therefore the Departments are unable to respond more specifically to the testifiers comment.
3. The testifier et al list regulation sections for which an inclusive statement of conflict to unspecified section of the Health and Safety Code and specific federal laws. The Departments are unable to discern from the testifier's comments what is the conflict for the specific regulations and are unable to respond specifically.
4. In response to the testifiers et al suggestion that CCS benefits and services would be subject to the special education (fair) hearing process, Sections 60550 and 60560 set forth the process which would apply to those CCS services included in the IEP.

228) Comment:

Testifier 19. [(a)] (Mandac) has concerns about the regulations, as a whole, incorporating a medical program like CCS into education.

Response:

The Departments disagree and believe that the regulations do not "merge" the programs, but lay out a process for interagency cooperation and communication that will allow compliance with federal mandates for the provision of physical therapy and occupational therapy in the public school setting.

229) Comment:

Testifier 22. (Nolan) states that the proposed regulation package has sections that are in conflict with, inconsistent with or duplicative of a) Title 22, subdivision 7, sections 41510-42720, b) California Health and Safety Code starting with sections 123800, c) 20 United States Code starting with sections 1400, d) California Government Code sections 11349-11349.6, e) United States Constitution Article VI, and f) the present State Interagency Agreement between the Department of Health Services, CCS and the Department of Education.

Response:

The Departments disagree. The testifier does not state which part of the regulations are in conflict with the provided citations, therefore the Departments cannot reply in a specific manner to the comments. The Departments developed this regulation package to implement requirements of the Government Code Chapter 26.5 commencing with Section 7570. This section of the Government Code was passed in response to the Federal laws in part c) of the comment, and all of the other citations he mentioned in his comment were taken into consideration by the Departments during the regulation development process with the exception of the referral to the United States Constitution which has no bearing in this matter. The interagency agreement mentioned in the comment is subject to change with any changes to the statutes or regulations.

230) Comment:

Testifier 22. (Nolan) states that the Departments have not provided any alternatives to the proposed regulations.

Response:

The commentor does not present any alternatives that the Departments can address specifically. However, since the regulations are necessary in order to implement Chapter 26.5 of the Government Code starting with section 7570, the Departments do not see any alternative to the regulatory process. These regulations are the most efficient in method and content in order to carry out the requirements of the statutes.

231) Comment:

Testifier 22. (Nolan) states that the necessity of the proposed regulations has not been demonstrated.

Response:

The necessity of the regulations has been stated in the Initial Statement of Reasons and subsequent to the public hearing process, the Final Statement of Reasons including the final modifications will be part of the rulemaking file and available for public review in Sacramento at the Department of Health Services, 714 P Street, Room 1000 or the Department of Social Services, 744 P Street, Room 750.

232) Comment:

Testifier 25. (Nolan) made many general comments identical to his written testimony [Testifier 4. (Nolan)].

Response:

The Departments disagree with the commentor's statement that the regulations will shift the responsibility for some PT and OT services from DOE to DHS. CCS will continue to provide therapy services to MTP eligible children that are deemed medically necessary by the CCS program as stated in HSC Section 123875.

The Departments disagree with the commentor's statement that alternative methods of achieving the goals of the regulations were not covered. The regulation promulgation process was an interagency endeavor from the beginning and a number of alternatives were discussed and the regulations are the result of many hours of analysis of the subject matter and interagency negotiation. They are the most feasible approach that brings the involved departments into compliance with federal requirements and allows the departments to remain within programmatic guidelines. The public hearing is the appropriate venue for the public to review the results of this process.

The Departments disagree with the commentors statement that the hearing officer appointed by the DOE may make medical eligibility determinations for children enrolled in public schools. Government Code Section 7575(a)(1-2) reserves the authority to make medical necessity determinations for the CCS MTP and HSC Section 123875 also gives this authority to CCS. The statutes also direct the hearing officers to be knowledgeable of special education law which includes the interagency responsibilities in Section 7575.

The Departments agree with the commentor's statement that CCS will be responsible for providing non-medically necessary services that the hearing officer directs them to provide, and this could be a financial burden to the CCS program. For this reason additional funds were budgeted for CCS.

The Departments disagree with the commentor's statement that the jurisdiction of the CCS program has been shifted to the IEP. Services not deemed medically necessary by the CCS program and included in the child's IEP will be the responsibility of the LEA as per Section 7575 of the Government Code.

The Departments cannot comment on the statement that there is conflict between the regulations and sections of the Government Code. No specific conflict has been noted by the oral commentor.

The Departments disagree with the commentor's statement that there is a shift of responsibility for related therapy services. The CCS MTP will provide medically necessary PT and OT services when determined by the physician as it always has. Services not deemed medically necessary by the CCS program and included in the child's IEP will be the responsibility of the LEA as per Section 7575 of the Government Code.

The Departments disagree with the commentor's statement that the regulations would expand the CCS program's medical eligibility criteria and that the regulations are inappropriately placed. The CCS program determines which diagnoses are eligible for medically necessary

therapy services, and these diagnoses are what appears in the regulations. While Title 22 would be and continues to be an appropriate placement for items relating solely to the CCS program or DHS, these regulations are an interagency endeavor required by Government Code Section 7587.

The Departments disagree with the commentor's interpretation that there is no provision in law that allows the other agencies involved in the interagency promulgation process to develop regulations that govern CCS. The Government Code requires each department to develop regulations to implement the requirements of Government Code Sections 7570-7587 as did the implementation language of AB 2726. The requirement was that regulations be developed and approved by all departments involved in the provision of services to children who are eligible for special education services in the public schools. Therefore, rather than set up an adversarial, non-effective process and develop regulations independently of each other, the Departments agreed to work cooperatively as an interagency group to develop regulations that would govern how the agencies would interact with each other at the state and local level on issues related to children in the public schools.

Once again, the Departments disagree with the commentor's statement that there is no authority for the agencies involved to promulgate regulations, nor the necessity for the regulations in their present form. The regulations are a requirement of Government Code Section 7587. The procedures set forth in the regulations are clear and provide consistency for procedures between agencies at both the state and local levels. The commentor has not shown evidence that the procedures are complicated or burdensome and has not proposed any alternatives to the methods described in the regulations that would meet federal statutory requirements.

The Departments thank the commentor for his praise of the program's reputation for making appropriate medical necessity decisions as provided for in statute in HSC Section 123875.

The Departments disagree with the commentor's statement that there will be a problem with referring to children as "pupils" since in the definition in this regulations package they are identified as children 0-21, which is within the CCS mandate for treatment of children in the CCS program. The CCS program will not be providing additional therapy services as identified by the commentor, and continues to provide only medically necessary therapy services as required in Government Code Section 7575(a)(1-2). The commentor has not provided evidence or support that the regulations place CCS in a subordinate position to DOE. The regulations are for all Departments to comply with, not just CCS. The commentor has not provided support for his allegations that CCS will be providing educational services in direct conflict with fiscal provisions of Title V.

The Departments disagree with the commentor's statement that there is conflict between the HSC and these regulations and has provided no evidence to support his statement.

The Departments disagree with the commentor's statement that the Departments have not issued a statement of reasons as to why the regulations are presented in their current state. A statement of reasons accompanied this regulations packet and was available at the public hearing.

The commentor's statement regarding training sessions held for implementation of the emergency regulations have no bearing on the regulatory writing or adoption process.

233) Comment:

Testifier 16. [(entire letter)] (Cox) commented as follows:

"California introduced into law the AB 3632 program effective July 1, 1986; with final regulation adopted July 1, 1997(sic), under AB 2726. The purpose of AB 2726 is to provide mental health services for only those children who are certified under the Individuals with Disabilities Education Act (IDEA) for special education. Mental health assessment and possible, subsequent service is generated by the Individualized Education Program (I.E.P.) Team as a related service on I.E.P.

The importance of mental health services for consumers of the San Diego Regional Center with developmental disabilities cannot be emphasized enough. Among people with developmental disabilities including mental retardation, 40%-70% have diagnosable mental disorders and need psychiatric care (APA, 1990).

A review of the literature suggests that up 83% of women and 32% of men with developmental disabilities suffer sexual abuse at some point in their lives (Wisconsin Council on Developmental Disabilities, 1991). It is likely that individuals who have developmental disabilities are at greater than average risk for experiencing repeated traumatization (Herman J.L., 1992). Therefore, the positive changes in language for individuals with developmental disabilities between the emergency regulations and AB 2726, particularly as they relate to referral to community mental health services are encouraging. For example, some of the revisions in criteria for referrals are as follows:

The pupil has emotional or behavioral characteristics (change from "behavioral" only) that: are "significant" (change from "severe").

"Impede the pupil from benefiting" from educational services (change from "adversely affect pupils educational performance").

Are associated with a condition that "cannot be described solely as a social maladjustment" (change from "defined solely as a behavior disorder").

These are positive changes that will assist in the assessment of the pupil's "level of functioning" and hopefully lead to a clearer interpretation of the criterion for referral to mental health departments that states: "The pupil's level of functioning, including cognitive functioning, is at a level sufficient to enable the pupil to benefit from mental health services".

Historically, this criterion has led to almost automatic denial of services for consumers of Regional Center with IQ scores of 70 or below. Service providers have increasingly recognized that individuals with mental retardation (MR) can have a wide range of psychiatric disorders, but still assume that MR precludes participation in counseling and psychotherapy. Such beliefs are unfounded, as demonstrated by numerous studies that reflect the effectiveness of individual and group therapy (Fletcher, 1993; Nezu, & Gill-Weiss, 1992.; Tomasulo, 1992).

Although, erroneous assumptions and biases have limited the availability of counseling and psychotherapy for people with MR, another issue must be addressed and that is the availability and experience of service providers. The County of San Diego, Department of Mental Health Services is still experiencing a hiring freeze and yet the referrals for mental health services continue to mount; often the Department is unable to meet the 50 day time line set down by AB 2726. Not only are they lacking adequate staff, but they have no therapists experienced in working with individuals with MR or any developmental disability. There is a strong possibility that an increase in trained staff would see an increase in the number of special education students accepted for mental health, which would be a real asset to the SDRC.

Response:

The Departments have determined that these comments recommend no specific revision in the proposed regulations:

It is beyond the scope of regulations to address local funding and labor deficits.

It is the intention of these proposed regulations to focus on dually diagnosed developmentally disabled pupils who can benefit from services. This "ability to benefit" is the product of many discrete abilities. In sum, it includes many individual capacities that no single specific test can accurately measure. Specific IQ eligibility limits would prevent this individual assessment regarding the appropriateness of mental health intervention, and, consequently, could produce the inappropriate denial of services that the commentor references. A comprehensive assessment by community mental health services is the best tool to measure a developmentally disabled pupil's ability to benefit from mental health treatment. Therefore, there will be no change made to the proposed regulations due to this comment.

234) Comment:

Testifier 18. [(a)] (Holle) recommended the following changes:

"The schools ("LEA's") as well as AB 3632 partner County Mental Health are entitled to federal Medicaid reimbursement<sup>2</sup> for services delivered to children who are eligible for full scope Medi-Cal.<sup>3</sup> CCS is the case manager for Medi-Cal recipients with respect to services needed because of the CCS eligible condition including therapy services delivered through Medical Therapy Units or MTUs.<sup>4</sup> Children who are covered by Healthy Families plans are entitled to receive services from county mental health departments based on diagnoses of

seriously emotionally disturbed or having a serious mental disorder pursuant to Welfare & Institutions Code § 5600.3 when services are needed beyond what is available under the plan.<sup>5</sup> County mental health departments are entitled to federal reimbursement for delivering such services.<sup>6</sup> We assume that when a child covered by a Healthy Families plan is determined to need a mental health service as provided in proposed 2 CCR § 60050, the county will seek federal reimbursement for those services. In addition, children covered by Healthy Families plans who have CCS eligible conditions are eligible to receive services for those eligible conditions through CCS.<sup>7</sup>

---

<sup>2</sup> 42 U.S.C. § 1396b(c): Medicaid Act does not restrict or limit payments for otherwise covered services when those services are provided pursuant to a child's IEP or, for infants and toddlers, an individualized family service plan. See the California Department of Health Services emergency regulation package R-693E which promulgated regulations authorizing Local Educational Agencies or LEAs to request reimbursement for the federal match for Medi-Cal coverable services delivered by LEA practitioners. In California federal Medicaid covers about 50% of covered Medi-Cal Services. See 22 Cal. Code Reg. (CCR) § 51190.3 and 51491 (LEA) practitioners eligible for reimbursement), 51360 and 51535.5 (reimbursable LEA services).

<sup>3</sup> Children who receive full-scope Medi-Cal include children who receive Medi-Cal categorically linked to the receipt of SSI, children who qualify for Medi-Cal under one of the Federal Poverty Level Programs; etc. Excluded are children who qualify for emergency Medi-Cal only.

<sup>4</sup> 22 CCR § 51013.

<sup>5</sup> Insurance Code § 12693.61; 10 CCR § § 2699.6700(a)(12), 2699.6700(d).

<sup>6</sup> Insurance Code § 12693.61(b).

<sup>7</sup> Insurance Code § 12693.62; 10 CCR § 2699.6700(c).

Response:

There is no need to address additional rights with respect to other state programs also having statutes and regulations providing for beneficiary rights. It would be duplicative to reiterate those provisions.

Mental health services provided pursuant to Chapter 26.5 of the Government Code are required by Section 7570 of the Government Code to be specifically focused on assisting special education pupils in achieving benefit from their education. Section 7570 of the Government Code defines this educational focus by jointly assigning the Superintendent of Public Instruction and the Secretary of Health and Welfare the responsibility to provide:

"...related services as defined in Title 20, Section 1401(17) of the United States Code, and designated instruction and services, as defined in Section 56363 of the Education Code, to children and youth with disabilities."

These services must be specified in the individualized education program and be available when the instruction and services are necessary for the pupil to benefit educationally from his or her instructional program. Services that are medical as opposed to educational in nature are excluded by the definition of related services -) of Title 20, Section 1401(22) of the United States Code (where the renumbered definition for related services is now located). This section states in pertinent part:

"... medical services shall be for diagnostic and evaluation purposes only."

Medi-Cal eligible children's parents may request community mental health services for an assessment for supplemental mental health services if these are necessary, but these services are distinct from the educational requirements for a free and appropriate public education. Supplemental services provided due to any Medi-Cal and EPSDT requirements which do not provide educational benefit should not be listed on the pupil's Individualized Educational Program which is designed to assist them in attaining academic achievement.

This program is not considered a Medi-Cal/Medicaid service. Medi-Cal eligibility is not necessary for pupils to be considered eligible for this program. Educational need is. In the context of Chapter 26.5 of the Government Code, community mental health services are considered an educationally necessary related service. Mental health services provided in this program are defined in Section 60020 (i) and are limited to:

"...mental health assessments and the following services when delineated on an IEP in accordance with Section 7572 (d) of the Government Code: psychotherapy as defined in Section 2903 of the Business and Professions Code provided to the pupil individually or in a group, collateral services, medication monitoring, intensive day treatment, day rehabilitation, and case management."

Mental health services for purposes other than providing educational assistance must be accessed through the current community mental health providers that deliver Medi-Cal and EPSDT services because the services are separate from the concept of a free and appropriate public education. These requirements are established in the other cited law and regulations and would be duplicative here. No change will be made to these proposed regulations.

The inclusion of the Healthy Families Program into these regulations is beyond the scope of the statute. MRMIB which administers the Healthy Families Program, is not an agency responsible for the provision of "related services" for pupils eligible for special education.

235) Comment:

Testifier 18. [(b)] (Holle) also recommended the following changes:

"The AB 3632 regulations fail to address the additional rights pupils may have when the related services at issue are funded by Medi-Cal, Healthy Families, or by CCS. While CCS programs routinely provide CCS notices of action in connection with denials or terminations, that is not the case with county mental health programs even when the services are funded

through Medi-Cal thereby entitling the Medi-Cal beneficiary to rights and notices under that program in addition to any notices that may be provided through the child's status as a special education pupil."

Response:

The Departments do not concur with the commentor that these proposed regulations must provide for "rights and notices under that program in addition to any notices that may be provided through the child's status as a special education pupil." The inclusion of the Healthy Families Program into these regulations is beyond the scope of the statute. MRMIB, which administers the Healthy Families Program, is not an agency responsible for the provision of "related services" for pupils eligible for special education. In addition, the Medi-Cal beneficiaries rights are provided for in other statutes and regulations; therefore, it would be duplicative if restated here. No change made to the proposed regulations in response to this comment.

The Departments partially concur with the commentor that families should be notified prior to the termination of services. The amendments made to proposed Section 60050(b) in response to other comments have provided for such notice in the final modification.

236) Comment:

Testifier 23. [(entire testimony)] (Jorden) recommended the following changes:

"These regulations are the same old thing that we've been dealing with over the last few years, and what SEACO (Special Education Administrators from County Offices) would like to see happen is we would like for counties to develop their programs together that—to be freer of any of the—of many of the restrictions that are placed by Mental Health.

Our relationship with Mental Health in most counties is not a positive relationship, and we believe it's due to the regulations and rules that require Mental Health to take certain actions; and we believe that each county can develop their own regulations, and it would be best for students, and be best for parents—and our concern is for the students, and the parents, rather than the public agencies."

Response:

The Departments do not concur with this comment. Government Code Section 7587 requires that:

"...Each state department named in this chapter shall develop regulations, as necessary, for the department or designated local agency to implement this act."

The State Department of Mental Health is one of the department's named in Chapter 26.5 of the Government Code, to which the above section is referring, and has determined that explicit regulations regarding the mental health referral requirements are necessary.

For these reasons, there will be no change made to the regulations as a result of this comment.

237) Comment:

Testifier 26. [(entire oral testimony)] (Brogan) proposed the following changes:

" . . . We have written a statement of rationale . . . Attached to this memo is a comprehensive revision to those proposed interagency regulations which continues that effort and support . . ."

Response:

Responses to this commentor's specific proposed revisions are made in the text of this document in the sections where the revisions were made in this commentor's written submission, which was labeled "Item 12." No changes to the proposed regulations were made in response to these verbal comments.

238) Comment:

Testifier 21. [(d)] (Frampton), suggested the following changes:

"The above concerns regarding this legislation are based on my understanding that the IEP process needs to be focused on educational needs and also must focus on an individualized program, that is, one that is unique to each individual child.

Response:

The current regulations allow for a focus on individualized education programs. Also, there is no specific change in the regulations recommended by this commentor. For these reasons, there will be no change to the regulations in response to this comment.

239) Comment:

Testifier 30. [(a)] (Camp) suggested the following change:

"We would like to reiterate a conclusion in the regulatory package, which is that 'some additional costs will result for community mental health services based on the shift in fiscal responsibility for out-of-state placed pupil's case management and mental health costs from local education to mental health.' (Fiscal Impact Statement, page 7). We believe that this statement is accurate. We are concerned that the state agencies involved have entered a challenge to this finding with the State Mandate claiming agency. This challenge will delay

even more than usual the reimbursement process associated with the mandates claiming process.

The estimate of 2.4 million is, in addition, inadequate to meet the new costs of this new mandate. Our most recent information is that the number of children in this placement has increased to approximately 140, and that the costs may be more than 4 million for the case management and mental health costs newly shifted to local mental health.

We believe strongly that this finding continue to be included in the regulatory package, and that the costs should be updated to reflect current expenditure patterns."

Response:

The State Department of Mental Health's fiscal analysis of the out-of-state mental health program costs is an estimate only, and the Departments do not agree with the commentor's estimate. The Departments defer to the State Mandates Commission with regard to whether these increased costs are due to a state mandate. There will be no change made to the State Department of Mental Health's fiscal analysis in response to this comment.

e) Local Mandate Statement

The Departments (California Departments of Education; Mental Health; Health Services (California Children Services and Medi-Cal Programs); and Social Services) have determined that the regulations impose a mandate on local mental health service agencies to serve eligible special education pupils. These may require state reimbursement under Section 1756 of the Government Code. These regulations also impose a mandate on school districts to serve special education pupils in the least restrictive manner possible and to refer pupils who appear to need mental health services to the community mental health service. Additional expenditures for medical therapy services which are not reimbursable by the State will be financed from the county share of CCS.

f) Statement of Potential Cost Impact on Private Persons or Businesses and of Alternatives Considered

The Departments have determined that there is no fiscal impact on private persons or businesses. However, the regulations may increase California's ability to compete with providers from other states since the proposed regulations will cause mental health agencies to more actively seek in-state providers of residential services.

The Departments have determined that no alternative considered would be more effective in carrying out the purpose for which the regulations are proposed or would be as effective and less burdensome to affected persons than the proposed action.

g) 15-Day Renotice Statement

Pursuant to Government Code Section 11346.8, a 15-day renotice and complete text of modifications made to the regulations were made available to the public following the public hearing. The renotice period was from April 21, 1999 through May 6, 1999. Testimony was received from the following testifiers:

- Paul L. McIver, County of Los Angeles, Department of Mental Health (McIver)
- Jeanne C. Davis, Special Education Local Plan Area Administrators (Davis)
- Ann Miller Ravel and Rima Singh, County of Santa Clara, Office of the County Counsel (Ravel)

General Comments

1. Comment:

Testifier Ravel states that the April 21, 1999 proposed changes and letter were received on April 26, 1999. The testifier contends that this does not provide adequate time for response. (Ravel)

Response:

The Departments met the statutory mandate, as provided in Section 11346.8(c) of the Government Code. Proposed changes to the regulations were made available to the public from April 21, 1999 to May 6, 1999.

2. Comment:

Ms. Davis suggested that the "term 'work day' be replaced by 'business day' throughout the document." (Davis)

Response:

The terms "work day" and "business day" mean the same; using the terms interchangeably does not change the intent of the language. The Departments recommend no change to the proposed regulations.

Section 60010(i)

3. Comment:

Ms. Davis requested that the struck language in Section 60010(i) relating to "qualified individuals" be reinstated. (Davis)

Response:

There was no reference to "qualified individuals" in Section 60010(i). We are unable to determine which section the commentor wanted to reinstate.

Section 60030(b)

4. Comment:

Ms. Davis requested the following change to Section 60030(b): "Substitute four years for the three-year schedule of reviews." (Davis)

Response:

The Departments do not concur with this comment. The Departments believe that local interagency agreement(s) need to be reviewed according to a schedule developed by the local agencies and that at a minimum, the review schedule should not exceed three years to ensure that local agreements are revised when necessary to comply with the law. The commentor mentions that the local plan revision cycle mandated by Education Code Section 56200 is four years; therefore, to maintain consistency, the commentor has suggested a four-year review cycle for interagency agreements. However, we find no four-year local plan revision referenced in Education Code Section 56200. The Departments recommend no change to Section 60030(b).

Section 60030(c)(7)

5. Comment:

Ms. Davis requested a change to Section 60030(c)(7) to restore the term "adequate" to allow flexibility in scheduling meetings. (Davis)

Response:

The Departments do not concur. The Departments believe the existing language is clear and concise. The term "adequate" is unclear and could cause confusion and/or inconsistent application of this provision.

Section 60030(c)(10)

6. Comment:

Ms. Davis suggests that the language of the Individuals with Disabilities Education Act of 1997 (IDEA) be used in Section 60030(c)(10) to align this requirement with those of the IDEA. (Davis)

Response:

The Departments do not feel that it is necessary to restate the requirements of the IDEA in this section. Section 60030(c)(8) clearly states that the requirements of Title 20, U.S. Code Section 1414(d)(1)(A)(vi) must be included in the IEP relating to mental health services. Title 20, U.S. Code Section 1414(d)(1)(A)(vi) is the section of the IDEA which specifies that the IEP should include a description of the frequency, length, duration, and location of services to be provided.

Section 60040(a)(3)(E)

7. Comment:

Ms. Davis requested that "school" be deleted from the statement in Section 60040(a)(3)(E) which reads "... less than three months of school counseling." (Davis)

Response:

The Departments do not concur with this request. When necessary, schools should be able provide necessary school counseling and document that revealing emotional or behavioral characteristics can not be resolved with school intervention. The reference to "school counseling" is appropriate because local educational agencies would not likely have information on counseling services provided to a pupil other than those provided at the school.

Section 60100(b)

8. Comment:

"Under Article 3, Section 60100(b) the proposed language is unclear. (1) reads 'an expanded IEP team shall be convened within thirty (30) days with an authorized representative of the community mental health service.' Then (2) reads, 'if an authorized representative is not present, the IEP team meeting shall be adjourned and be reconvened with fifteen (15) calendar days as an expanded IEP team with an authorized representative....'

"Does this mean the expanded IEP team reconvenes in 30 days? In 15 days? Both? Having had considerable experience in the past 12 years in this area, I can assure you that the most common circumstance in which the consideration of residential placement occurs is when there is no previous history of assessment or provision of services by Mental Health, and assessment is necessary and appropriate. In such cases, Mental Health proceeds with Section 60040 and 60045.

"Language similar to (b)(2) was included in the previous Emergency Regulations from 1986 to 1996, and rarely, if ever, were IEP meetings reconvened within 15 days. Almost without exception, the referral and assessment procedures in 60040 and 60045 were utilized. Section

(b)(1) ensures that the Expanded IEP Team reconvenes with a reasonable and appropriate amount of time.

"To simplify and clarify this section, I propose the deletion of (b)(2)." (McIver)

Response:

The Departments do not concur with this comment. It is important that all authorized representatives participate in the IEP discussion and development. The additional fifteen days does not necessarily extend the timeline and is a valuable use of time if it means that all authorized representatives have an opportunity to participate in the IEP.

Section 60110(b)(1)

9. Comment:

Testifier Ravel proposes a change to Subsection (b)(1). The testifier states that the regulation text creates an ambiguity regarding services provided under this Subsection in conjunction with Section 60200. Section 60200 provides that community mental health agency are required to pay for services cited in 60110(b). Psychotropic medications are not part of the current case management responsibilities. Therefore, a change is required that indicates that psychotropic medication monitoring is provided. (Ravel)

Response:

In response to this comment from a post-hearing amendment, a change was made to (b)(1) by adding the word "monitoring" after psychotropic medication to clarify the meaning.

Section 60100(b)(2)

10. Comment:

Ms. Davis suggested that Section 60100(b)(2) be omitted because the section is inconsistent with Section 60100(b)(1) and the thirty-day period required in Section 60100(b)(1) should be sufficient. (Davis)

Response:

The Departments do not concur with this comment. It is important that all authorized representatives participate in the IEP discussion and development. The additional fifteen days does not necessarily extend the timeline and is a valuable use of time if it means that all authorized representatives have an opportunity to participate in the IEP.

Section 60100(c)

11. Comment:

Ms. Davis requests that examples of less restrictive alternatives be included in Section 60100(c). (Davis)

Response:

The Departments do not concur. The expanded IEP team members are experts who will consider all of the types of services available. It is not necessary to list some types of services which are available. In addition, because the commentors list of alternative services available is exemplary and not inclusive, the partial list may cause confusion. The test of Section 60100(c) is clearer without the examples.

Section 60200

12. Comment:

Ms. Davis suggests that Subdivision (g) be added to Section 60200 to specify the method for reimbursing local educational agencies when the community mental health agency will not pay for the service. (Davis)

Response:

The Departments do not concur. Government Code Section 7585(f) and Section 60200(c) explain the responsibilities for mental health services. It is not necessary to repeat the information in a new subdivision.

## BILL ANALYSIS

SB 292

Page 1

Date of Hearing: June 17, 2008

ASSEMBLY COMMITTEE ON HUMAN SERVICES  
 Jim Beall, Jr., Chair  
 SB 292 (Wiggins) - As Amended: June 11, 2008

SENATE VOTE : Not relevantSUBJECT : Seriously emotionally disturbed children: out-of-home placement

SUMMARY : Authorizes payments for 24-hour care of a child classified as seriously emotionally disturbed and placed out-of-home in an out-of-state, for-profit residential facility pursuant to special education provisions. Specifically, this bill :

- 1) Authorizes payments to out-of-state, for-profit residential facilities that meet applicable licensing requirements in the state in which they are located for 24-hour, out-of-home care of a seriously emotionally disturbed child placed there pursuant to an Individualized Education Program (IEP) IF:
  - a) The county or Local Education Agency (LEA) has placed the child in the for-profit facility pursuant to a due process hearing decision, mediation or settlement agreement; or
  - b) After a thorough search, no other comparable private nonprofit or public residential facility has been identified that is willing to accept placement and capable of meeting the child's needs. Requires the agency or agencies responsible for the child's placement to document search efforts and the reason no other placement can be identified.
- 2) Specifies that the provisions described above are not intended to change existing procedures, protections or requirements regarding the placement of children in out-of-state facilities.
- 3) Requires the Department of Mental Health (DMH) to annually provide information to Senate and Assembly budget committees on:

SB 292

Page 2

- a) The number of in-state and out-of-state placements of children with serious emotional disturbances in nonprofit and for-profit residential facilities;
  - b) The average lengths of stay of those children in each type of facility; and
  - c) The number of those children who were dependents, wards or voluntarily placed in foster care at the time of their placement pursuant to an IEP.
- 4) Deems allowable mental health treatment and out-of-home care expenses for 24-hour care of a child classified as seriously emotionally disturbed and placed out-of-state in a for-profit residential facility as reimbursable to counties for time up to January 1, 2009. Specifies that the state Controller may still dispute whether claims for costs exceed what is allowable.

EXISTING LAW:Regarding special education and mental health services

- 1) Entitles every child to a free, appropriate public education (FAPE) in the least restrictive environment (LRE) that can meet his or her needs. Requires school districts to provide, as necessary, related services and a continuum of alternative placements and to conduct Individualized Education Program (IEP) meetings for individuals with exceptional needs.
- 2) Authorizes out-of-home residential placements, pursuant to an IEP, when necessary for a child classified as seriously emotionally disturbed (SED) to benefit from educational services. Requires designation of the county mental health department as the lead case manager and requires regular

review of such placements.

- 3) Requires that payments for 24-hour out-of-home care pursuant to an IEP for a child classified as SED be made to privately operated residential facilities licensed in accordance with the Community Care Facilities Act and based on rates established by Aid to Families with Dependent Children-Foster Care (AFDC-FC) provisions. Funds that care and costs of local administration in a separate appropriation in the Department of Social Services' budget.

SB 292

Page 3

Regarding out-of-state placements pursuant to an IEP

- 4) Requires that out-of-state placements pursuant to an IEP be made only in a privately operated school certified by the Department of Education (CDE), and that a plan be developed for using a less restrictive, in-state alternative (unless in child's best interest to stay out-of-state).
- 5) Requires LEAs to document efforts to locate a nonpublic school (NPS) in California before contracting with an out-of-state NPS. Requires out-of-state NPSs to be certified or licensed to provide special education in their own state and that IEP teams report to the Superintendent within 15 days of placement in any out-of-state NPS and LEAs indicate the anticipated date for the child to return to the state.
- 6) Requires local mental health departments to report information to the Department of Mental Health (DMH) regarding each out-of-state residential placement of an SED child pursuant to an IEP, including provisions for case management, supervision and family visitation.
- 7) For a dependent child, requires the court to state on the record that in-state placements could not meet the child's needs before approving an out-of-state placement pursuant to an IEP.

Regarding Aid to Families with Dependent Children-Foster Care

- 8) Authorizes state AFDC-FC payments to group homes organized and operated as nonprofits. Specifies limited circumstances when counties, after exhausting options, can match federal funds and place children also eligible for regional center services in for-profit facilities.

FISCAL EFFECT : Unknown

COMMENTS :

AB 3632 and history of prohibition on state funding of for-profit facilities:

AB 3632 (W. Brown), Chapter 1747, Statutes of 1984, established a program to reimburse group homes that provide care for children classified as seriously emotionally disturbed (SED) who

SB 292

Page 4

are placed out-of-home pursuant to an Individualized Education Program (IEP). As a result, since 1985 California law (Welfare & Institutions Code section 18350) has tied the requirements for these placements to state foster care licensing and rate provisions. The funds for placements of children classified as SED are not actually foster care (AFDC-FC) funds. They are instead in a separate appropriation in the budget of the Department of Social Services (DSS).

California does not allow AFDC-FC funding of group home placements in for-profit facilities. As a result of the connection between foster care and SED placement requirements, this prohibition has also applied to placements of children classified as SED. California first defined the private group homes eligible to receive AFDC-FC funding as exclusively nonprofits in 1992, to parallel a federal funding requirement from the 1980 Adoption Assistance and Child Welfare Act, P.L. 96-272. Although the federal government eliminated this requirement for federal funding in 1996, California did not make

parallel changes to its law then or since.

In 2006, AB 1462 (Adams), Chapter 65, Statutes of 2007, carved out a narrow exception to allow California counties to match federal funding of for-profit placements for a small number of foster youth who are also eligible for disability-related services and have extraordinary needs such that there are no other placement options. Among other requirements, AB 1462 limited these placements to 12 months each and no more than 5 children per county at a time.

Purpose of this bill: The author notes, as above, that California law was never changed to reflect the changes in federal law that allowed federal funding of for-profit group home placements. The author also states that "some out-of-state providers are owned by for-profit entities, usually hospital/behavioral health corporations, but are operated via a subsidiary contract with a not-for-profit agency. Currently, county contracts for services to [SED] clients are with the non-profit entities exclusively. Some counties have been placing children in these facilities for some time believing that, so long as the contracted agency was non-profit, this was in compliance with the letter and the intent of federal and state law. However, in 2005, an unpublished administrative law judge decision in a Special Education due process hearing found that these facilities do not meet the definition of non-profit,

---

SB 292  
Page 5

because they are a subsidiary of a for-profit company... This decision prompted the State Controller's Office to dispute counties' eligibility for mandate reimbursement for these out-of-state placements..."

The author and supporters also say that out-of-state, for-profit facilities are sometimes the only available placements to meet a child's needs in compliance with federal education law. For example, in a hearing decision the author provided, an administrative law judge found that a child's needs for mental health and communication-related services meant that a Florida-based, for-profit facility was the only one that could provide the child with a Free Appropriate Public Education (FAPE).

Supporters state that this bill would provide more placement possibilities for youth who are SED and "cut the time spent in looking for facilities." One county says that without this bill it would "lose millions of dollars in state reimbursement" for treatment, board and care as "sometimes the most appropriate, least restrictive setting for a particular student is only available out-of-state." June 10th amendments to this bill clarified and more narrowly tailored its provisions.

---

Estimates of relevant placement numbers: December, 2007 data from CDE reflects 45 California-certified non-public schools outside of California that served 862 students. Of these 45 schools, 13 were affiliated with a licensed children's residential institution and classified by CDE as for-profit. A total of 243 California children were attending out-of-state non-public schools with affiliated licensed children's residential institutions that CDE classified as for-profit. Additional data from the Departments of Mental Health or Social Services might confirm or clarify how many children classified as SED are residentially placed pursuant to IEPs.

The use of for-profit facilities: Some historical news articles state that the federal government's original exclusion of for-profit companies from receiving foster care funds was in part because Congress feared repetition of nursing home scandals in the 1970s, when public funding triggered growth of a badly monitored institutional care industry. California's current policy of limiting payments to nonprofit group homes continues to ensure that the goal of serving children's interests is not

---

SB 292  
Page 6

mixed with the goal of private profit. Opponents state that nonprofits are also generally subject to more oversight, including that of a financially disinterested board.

The restrictiveness, licensing and oversight of out-of-state facilities: All children have the right to receive FAPE in the least restrictive environment that can meet their needs. Protection and Advocacy observes that "while all residential educational placements are highly restrictive, out-of-state placements are the most restrictive because children in facilities far from home are isolated from regular interactions with family, friends, and other children without disabilities." \_

CDE monitors some education-related services at out-of-state nonpublic schools that serve California students. Existing regulations implementing case management-related statutes require quarterly onsite contacts between local mental health case managers and students residentially placed by IEP. However, neither CDE nor DSS conduct certification, monitoring or complaint investigation of the residential component of placements at issue. Some county mental health agencies report taking on additional oversight responsibility not required by statute.

By contrast, California law implementing the Interstate Compact on the Placement of Children requires that contracts with out-of-state group homes for placement of foster children include provisions for DSS to investigate any threat to health and safety for facilities to report incidents to DSS. DSS or its designee performs inspections to certify that facilities meet all licensure requirements of group homes within California or have been granted a waiver of a specific standard. California law also requires a county social worker or a social worker in the other state to visit a foster child in an out-of-state group home at least once a month. This more stringent oversight of foster care placements might be attributable at least in part to the state's heightened responsibility for dependent children in its custody (unlike most children placed pursuant to an IEP whose parents retain parental rights). Still, the lack of equivalent standards applicable to facilities with children placed pursuant to IEPs may be problematic.

Opponents raise concerns about the safety and quality of out-of-state placements, "especially when such facilities charge

SB 292

Page 7

significantly less than facilities that operate on a nonprofit basis." The U.S. Government Accountability Office (GAO) recently released reports entitled "Residential Programs: Selected Cases of Death, Abuse and Deceptive Marketing" (April, 2008) and "Improved Data and Enhanced Oversight Would Help Safeguard the Well-Being of Youth with Behavioral and Emotional Challenges" (May, 2008) that discuss residential facilities which house children placed by a range of government agencies or privately. One report highlights the lack of uniform standards (e.g. some state agencies' do not monitor psychotropic medication or inconsistently address use of seclusion or restraint). It also cautions that programs shut down in one state for maltreatment or a negligent death could open anew in other states.

Stakeholders' suggestions for amendments: Protection and Advocacy opposes this bill unless amended to, among other changes, also allow for the use of in-state, for-profit facilities that would be less restrictive than their out-of-state counterparts. The Alliance of Child and Family Services recommends more detailed data collection and efforts to identify and remove barriers that prevent the availability of more placement resources within California.

Technical amendments agreed to by the author :

- 1) Strike "Except as provided in WIC 18350.5" from WIC 18350(b) and place the same phrase instead at the beginning of WIC 18350(c);
- 2) In recognition that there are multiple sources of data on the placements of children classified as SED which can vary, insert "and State Department of Education" after "Mental Health" in Section 18350.5(d) on page 4, line 13; and
- 3) Strike "made pursuant to" in Section 18350.5(d) on page 4, line 13 and insert instead "that may be affected by," after "placements and before "this section".

DOUBLE REFERRAL . This bill has been double-referred. Should this bill pass out of this committee, it will be referred to the Assembly Education Committee.

AB 421 (Beall) - As Amended: May 4, 2009

Policy Committee: Human  
ServicesVote:6 - 0  
Education 9 - 0

Urgency: Yes State Mandated Local Program:  
Yes Reimbursable: Yes

SUMMARY

This bill authorizes payments for 24-hour care of a child classified as seriously emotionally disturbed (SED) and placed out-of-home in an out-of-state, for-profit residential facility. Specifically, this bill:

- 1)Authorizes payments for SED children in for-profit, out-of-state facilities if the county or local education agency (LEA) has placed the child pursuant to a due process hearing decision, mediation or settlement agreement; or if after a thorough search, no other comparable private non-profit or public residential facilities has been identified that is willing to accept the placement or is capable of meeting the child's needs.
- 2)Requires the Department of Mental Health (DMH) to provide information to the Legislature each year on the number of in-state and out-of-state placements of SED children, the average lengths of stay for those children, and the number of children who were dependents, wards or voluntarily placed in foster care at the time of their placement.
- 3)Deems that allowable mental health treatment and out-of-home care expenses for residential care of an SED child in an out-of-state, for-profit facility are retroactively reimbursable to the counties until January 1, 2011.
- 4)Removes the current rate cap for children placed in out-of-state, for-profit facilities.

AB 421  
Page 2

FISCAL EFFECT

- 1)The State Controller's Office recently disallowed \$1.8 million in mandate claims from San Diego County based on the fact that the claims were for payments to out-of-state, for-profit residential placements for seriously emotionally disturbed children. This legislation allows for retroactive payments, thus the state would be required to pay that claim.
- 2)It is likely that other counties will also have disallowed claims. If so, the cost for allowing retroactive payments for these placements could exceed \$10 million.
- 3)Under current law, the state will reimburse counties for monthly grant payments up to the maximum group home rate in foster care. This legislation removes that rate cap. Therefore, if the rate increases by five percent for the approximately 250 children placed in out of state facilities it would cost in excess of \$850,000 GF per year.
- 4)Costs to DMH in excess of \$75,000 GF for the workload associated with collecting data and providing the Legislature with the required annual report.

COMMENTS

1)Rationale . The author notes that California law was never changed to reflect the changes in federal law that allowed federal funding of for-profit group home placements. The author also states that "some out-of-state providers are owned by 'for-profit' entities, usually hospital/behavioral health corporations. Some 'non-profit' residential providers are operated by the parent company through a subsidiary contract. In a good faith effort to comply with the state law, counties

contract for services for some SED students with the 'non-profit' entities." According to the author, "Counties placed students in these facilities believing that, so long as the contracted company was 'not-for-profit' this was in compliance with the letter and the intent of federal and state law. Counties have historically been reimbursed by the state for the costs of these placements, and therefore had no reason to believe they did not comply with state law."

However, the author notes, in 2005, an unpublished administrative law judge decision in a special education due

AB 421  
Page 3

process hearing found that these facilities do not meet the definition of non-profit, because they are a subsidiary of a for-profit company. "This decision prompted the State Controller's Office to dispute counties' eligibility for mandate reimbursement for these out-of-state placements."

The purpose of this bill is to expand state law to incorporate allowances that are made in federal law for for-profit group home placements for SED children. The author and supporters contend that out-of-state, for-profit facilities are sometimes the only available placements to meet a child's needs in compliance with federal education law.

2)Background . The federal government's original exclusion of for-profit companies from receiving foster care funds was in part because Congress feared repetition of nursing home scandals in the 1970s, when public funding triggered growth of a badly monitored institutional care industry. California's current policy of limiting payments to nonprofit group homes continues to ensure that the goal of serving children's interests is not mixed with the goal of private profit. Nonprofits are also generally subject to more oversight, including that of a financially disinterested board. For these reasons, over the years, California has continuously rejected opening up placements in for-profit group home facilities for both foster children and SED children, except for one narrow exception.

In 2006, AB 1462 (Adams; Chapter 65, Statutes of 2007), carved out a narrow exception to allow California counties to match federal funding of for-profit placements for a small number of foster youth who are also eligible for disability-related services and have extraordinary needs such that there are no other placement options. Among other requirements, AB 1462 limited these placements to 12 months each and no more than 5 children per county at a time. Counties are not allowed to use state General Fund for to pay for the placement of these children in for-profit facilities.

3)Seriously Emotionally Disturbed Children . Children who have been diagnosed with serious emotional disturbances generally require special education and mental health treatment services to meet their educational needs. Children who are identified as seriously emotionally disturbed (SED) generally require

AB 421  
Page 4

out-of-home placement in order to benefit from an educational program that meets their specific needs. These children are generally placed by county mental health agencies. The board and care costs for the children placed in non-profit facilities are paid through the Department of Social Services (DSS) budget. DSS estimates that the average monthly caseload in 2008-09 will be 1,903 children. The average monthly grant cost for those children is approximately \$5,600.

DSS, in their budget document, contends that the cost for children placed in for-profit facilities is entirely borne by the California Department of Education (CDE). Data collected by the Legislative Analyst's Office on this issue for this committee suggests that there are likely close to 250 children placed in out-of-state for-profit facilities (163 from Los Angeles County alone.)

4)Special Education a State-Mandated Program . Chapter 1747, Statutes of 1984 (AB 3632, W. Brown), and related statutes

established the Special Education Pupils Program, commonly known as the AB 3632 program, and shifted the responsibility for providing special education related mental health services from local educational agencies (LEAs) to counties. County mental health agencies are required to coordinate and/or provide mental health services (either directly or through contracts) for a child's educational benefit after an initial assessment and referral from an LEA. In addition, the AB 3632 program is a reimbursable state-mandated program. This means that costs to local government in excess of federal and state funds provided for this program generally must be reimbursed by the state through the mandate claims process.

The Commission on State Mandates adopts "parameters and guidelines" for each mandate that set forth rules determining what specific costs will be reimbursed by the state. The State Controller's Office (SCO) regularly conducts audits to ensure that claims paid by the state to reimburse local government agencies are consistent with the commission's parameters and guidelines for that mandate.

5)Unpaid County AB 3632 Mandate Claims . The latest data available shows that there is close to \$500 million in unpaid AB 3632 mandate claims. Of that amount, almost \$80 million is for out-of-state mental health services. This legislation addresses a small subsection of this population and the

AB 421  
Page 5

disallowed claims discussed in this bill are a small fraction, less than one percent, of the total money owed to counties for AB 3632 services.

6)Related Legislation . SB 292 (Wiggins) in 2008, a substantially similar bill, authorized payments for 24-hour care of a child classified as seriously emotionally disturbed (SED) and placed out-of-home in an out-of-state, for-profit residential facility. That bill was initially held on this committee's suspense file. The bill was then withdrawn from this committee and placed on the Assembly third reading file, where it was never taken up.

Also in 2008, AB 1805 (Committee on Budget), a budget trailer bill, contained identical language to SB 292. That bill was vetoed by the governor. In his veto message he wrote, " I cannot sign [AB 1805] in its current form because it will allow the open-ended reimbursement of claims, including claims submitted and denied prior to 2006-07. Given our state's ongoing fiscal challenges, I cannot support any bill that exposes the state General Fund to such a liability."

Analysis Prepared by : Julie Salley-Gray / APPR. / (916)  
319-2081

BILL NUMBER: AB 1805  
VETOED DATE: 09/30/2008

To the Members of the California State Assembly:

I am returning Assembly Bill 1805 without my signature.

I strongly support providing care to children with serious emotional disturbances, including the provision of care in whichever facility can best address their needs. While I support the intent and policy behind this bill, I cannot sign it in its current form because it will allow the open-ended reimbursement of claims, including claims submitted and denied prior to 2006-07. Given our state's ongoing fiscal challenges, I cannot support any bill that exposes the state General Fund to such a liability.

I would support legislation that clarifies and narrows state reimbursement for these important services to a specified time period and would ask the Legislature to work with my Administration in January to address this important issue.

For this reason, I am unable to support this bill.

Sincerely,

Arnold Schwarzenegger

## COMPLETE BILL HISTORY

BILL NUMBER : A.B. No. 421

AUTHOR : Beall

TOPIC : Seriously emotionally disturbed children: out-of-home placement.

## TYPE OF BILL :

Inactive  
Urgency  
Non-Appropriations  
2/3 Vote Required  
State-Mandated Local Program  
Fiscal  
Non-Tax Levy

## BILL HISTORY

2010

Feb. 2 From committee: Filed with the Chief Clerk pursuant to Joint Rule 56.

Jan. 31 Died pursuant to Art. IV, Sec. 10(c) of the Constitution.

2009

May 28 In committee: Set, second hearing. Held under submission.

May 20 In committee: Set, first hearing. Referred to APPR. suspense file.

May 5 Re-referred to Com. on APPR.

May 4 Read second time and amended.

Apr. 30 From committee: Amend, do pass as amended, and re-refer to Com. on APPR. (Ayes 9. Noes 0.) (April 22).

Apr. 15 From committee: Do pass, and re-refer to Com. on ED. Re-referred. (Ayes 6. Noes 0.) (April 14).

Apr. 13 From committee chair, with author's amendments: Amend, and re-refer to Com. on HUM. S. Read second time and amended. Re-referred to Com. on HUM. S.

Mar. 16 Referred to Coms. on HUM. S. and ED.

Feb. 24 From printer. May be heard in committee March 26.

Feb. 23 Read first time. To print.

BEFORE THE  
OFFICE OF ADMINISTRATIVE HEARINGS  
SPECIAL EDUCATION DIVISION  
STATE OF CALIFORNIA

In the Matter of:

STUDENT,

Petitioner,

v.

RIVERSIDE UNIFIED SCHOOL  
DISTRICT and RIVERSIDE COUNTY  
DEPARTMENT of MENTAL HEALTH,

Respondents.

OAH CASE NO. N 2007090403

DECISION

Administrative Law Judge Judith L. Pasewark, Office of Administrative Hearings, Special Education Division, State of California (OAH), heard this matter by written stipulation and joint statement of facts presented by the parties, along with written argument and closing briefs submitted by each party.

Heather D. McGunigle, Esq., of Disability Rights Legal Center, and Kristelia Garcia, Esq., of Quinn Emanuel Urquhart Oliver & Hedges, represented Student (Student).

Ricardo Soto, Esq., of Best Best & Krieger, represented Riverside Unified School District (District).

Sharon Watt, Esq., of Filarsky & Watt, represented Riverside County Department of Mental Health (CMH).

Student filed his first amended Request for Due Process Hearing on September 25, 2007. At the pre-hearing conference on December 7, 2007, the parties agreed to submit the matter on a written Joint Stipulation of Facts, and individual written closing arguments. The documents were received, the record closed, and matter was submitted for decision on December 31, 2007.

EXHIBIT B

## ISSUE

May the educational and mental health agencies place Student in an out-of-state for-profit residential center under California Code of Regulations section 60100, subdivision (h), and California Welfare and Institutions Code section 11460, subdivision (c)(2) and (3), when no other appropriate residential placement is available to provide Student a FAPE?

## CONTENTIONS

All parties agree that Student requires a therapeutic residential placement which will meet his mental health and communication needs pursuant to his October 9, 2007 Individual Educational Plan (IEP). The District and CMH have conducted a nation-wide search and have been unable to locate an appropriate non-profit residential placement for Student.

Student contends that, as the District and CMH's searches for an appropriate non-profit residential placement have been exhausted, the District and CMH are obligated to place Student in an appropriate out-of-state for-profit residential program in order to provide Student with a free and appropriate public education (FAPE).

Both the District and CMH contend that they do not have the authority to place Student at an out-of-state for-profit residential program.

## JOINT STIPULATION OF FACTS<sup>1</sup>

1. Student is 17 years old and resides with his Mother (Mother) within the District in Riverside County, California. Student's family is low-income and meets Medi-Cal eligibility requirements.

2. Student is deaf, has impaired vision and an orthopedic condition known as Legg-perthes. Student has been assessed as having borderline cognitive ability. His only effective mode of communication is American Sign Language (ASL). Student also has a long history of social and behavioral difficulties. As a result, Student is eligible for special education and related services and mental health services through AB2726/3632 under the category of emotional disturbance (ED), with a secondary disability of deafness.

3. Student requires an educational environment in which he has the opportunity to interact with peers and adults who are fluent in ASL. Student attended the California

---

<sup>1</sup> The parties submitted a Stipulated Statement of Undisputed Facts and Evidence which is admitted into evidence as Exhibit 67, and incorporated herein. The stipulated facts have been consolidated and renumbered for clarity in this decision. As part of the same document, the parties stipulated to the entry of the joint Exhibits 1 through 66, which are admitted into evidence.

School for the Deaf, Riverside (CSDR) between January 2005 and September 2006, while a resident of the Monrovia Unified School District.

4. CSDR does not specialize in therapeutic behavior interventions. In January 2005, CSDR terminated Student's initial review period due to his behaviors. CSDR removed Student from school as suicide prevention because Student physically harmed himself. At that time, both CSDR and Monrovia USD believed Student to be a danger to himself and others. They, therefore, placed him in home-hospital instruction.

5. Between June 2005 and October 2005, Student's behaviors continued to escalate. Student was placed on several 72-hour psychiatric holds for which he missed numerous days of school. On one occasion, Student was hospitalized for approximately two weeks. On another occasion, he was hospitalized at least a week.

6. Pursuant to a mental health referral, on September 14, 2006, Monrovia USD and Los Angeles County Department of Mental Health (LACDMH) met, and determined that Student had a mental disturbance for which they recommended residential placement.<sup>2</sup> At that time, Amy Kay, Student's ASL-fluent therapist through LACDMH's AB2726 program, recommended a residential placement at the National Deaf Academy (NDA). Ms. Kay specifically recommended that Student be placed in a residential placement at NDA due to his need for a higher level of care to address his continuing aggressive and self-injurious behaviors. Additionally, the rehabilitation of these behaviors would be unsuccessful without the ability for Student to interact with deaf peers and adults. Ms. Kay further indicated that the use of an interpreter did not provide an effective method for Student to learn due to his special needs.

7. On August 5, 2006, NDA sent Student a letter of acceptance into its program. Monrovia USD and LACDMH, however, placed Student at Willow Creek/North Valley Non-public School. This placement failed as of March 2007, at which time both Monrovia USD and LACDMH indicated they were unable to find a residential placement for Student that could meet his mental health and communication needs. They did not pursue the residential treatment center at NDA because of its for-profit status.

8. Student and his mother moved to the District and Riverside County in April 2007.

9. On April 20, 2007, the District convened an IEP meeting to develop Student's educational program. The District staff, CMH staff, staff from CSDR, Student, his mother and attorney attended and participated in the IEP meeting. The IEP team changed Student's primary disability classification from emotional disturbance to deafness with social-emotional overlay. The parties agreed to this change in eligibility as CSDR required that

---

<sup>2</sup> As noted in Student's prior IEP, Student also required an educational environment which provided instruction in his natural language and which facilitated language development in ASL.

deafness be listed as a student's primary disability in order to be admitted and no other appropriate placements were offered. The IEP team offered placement at CSDR for a 60-day assessment period, individual counseling, speech and language services through CSDR, and individual counseling through CMH. The IEP team also proposed to conduct an assessment to determine Student's current functioning and to make recommendations concerning his academic programming based upon his educational needs.

10. CSDR suspended Student within its 60-day assessment period. CSDR subsequently terminated Student when, during his suspension, Student was found in the girl's dormitory following an altercation with the staff.

11. On May 23, 2007, the District convened another IEP meeting to discuss Student's removal from CSDR. The IEP team recommended Student's placement at Oak Grove Institute/Jack Weaver School (Oak Grove) in Murrieta, California, with support from a deaf interpreter pending the assessment agreed to at the April 2007 IEP meeting. CMH also proposed conducting an assessment for treatment and residential placement for Student.

12. On August 3, 2007, the District convened an IEP meeting to develop Student's annual IEP, and to review the assessments from CSDR and CMH. District staff, Oak Grove staff, CMH staff, Student's mother and attorney attended the IEP meeting. Based upon the information reviewed at the meeting, the IEP team proposed placement at Oak Grove with a signing interpreter, deaf and hard of hearing consultation and support services from the District, and individual counseling with a signing therapist through CMH. Mother and her attorney agreed to implementation of the proposed IEP, but disagreed that the offer constituted an offer of FAPE due to its lack of staff, teachers and peers who used ASL.

13. On October 9, 2007, the District convened another IEP meeting to review Student's primary disability. District staff, Oak Grove staff, CMH staff, Student's mother and attorney attended the IEP meeting. At this meeting, the IEP team once again determined Student's primary special education eligibility category as emotional disturbance with deafness as a secondary condition. The IEP team recommended placement in a residential treatment program, as recommended by CMH. Placement would remain at Oak Grove with a signing interpreter pending a residential placement search by CMH. Mother consented to the change in eligibility and the search for a residential placement. Mother also requested that Student be placed at NDA.

14. CMH made inquiries and pursued several leads to obtain a therapeutic residential placement for Student. CMH sought placements in California, Florida, Wyoming, Ohio and Illinois. All inquiries have been unsuccessful, and Student has not been accepted in any non-profit residential treatment center. At present CMH has exhausted all leads for placement of Student in a non-profit, in-state or out-of-state residential treatment center.

15. Student, his mother and attorney have identified NDA as an appropriate placement for Student. NDA, located in Mount Dora, Florida, is a residential treatment center for the treatment of deaf and hard-of-hearing children with the staff and facilities to

accommodate Student's emotional and physical disability needs. NDA also accepts students with borderline cognitive abilities. In addition, nearly all of the service providers, including teachers, therapists and psychiatrists are fluent in ASL. The residential treatment center at NDA is a privately owned limited liability corporation, and is operated on a for-profit basis. The Charter School at NDA is a California certified non-public school. All parties agree that NDA is an appropriate placement which would provide Student a FAPE.

16. Student currently exhibits behaviors that continue to demonstrate a need for a residential treatment center. Student has missed numerous school days due to behaviors at home. As recently as December 11, 2007, Student was placed in an emergency psychiatric hold because of uncontrollable emotions and violence to himself and others.

#### LEGAL CONCLUSIONS

1. Under *Schaffer v. Weast* (2005) 546 U.S. 49 [126 S.Ct. 528], the party who files the request for due process has the burden of persuasion at the due process hearing. Student filed this due process request and bears the burden of persuasion.

2. A child with a disability has the right to a free appropriate public education (FAPE) under the Individuals with Disabilities Education Act (IDEA or the Act) and California law. (20 U.S.C. § 1412(a)(1)(A); Ed. Code, § 56000.) The Individuals with Disabilities Education Improvement Act of 2004 (IDEIA), effective July 1, 2005, amended and reauthorized the IDEA. The California Education Code was amended, effective October 7, 2005, in response to the IDEIA. Special education is defined as specially designed instruction provided at no cost to parents and calculated to meet the unique needs of a child with a disability. (20 U.S.C. § 1401(29); Ed. Code, § 56031.)

3. In *Board of Education of the Hendrick Hudson Central School District, et. al. v. Rowley* (1982) 458 U.S. 176, 201 [102 S.Ct. 3034, 73 L. Ed.2d 690] (*Rowley*), the Supreme Court held that "the 'basic floor of opportunity' provided by the IDEA consists of access to specialized instruction and related services which are individually designed to provide educational benefit to a child with special needs." *Rowley* expressly rejected an interpretation of the IDEA that would require a school district to "maximize the potential" of each special needs child "commensurate with the opportunity provided" to typically developing peers. (*Id.* at p. 200.) Instead, *Rowley* interpreted the FAPE requirement of the IDEA as being met when a child receives access to an education that is "sufficient to confer some educational benefit" upon the child. (*Id.* at pp. 200, 203-204.) The Court concluded that the standard for determining whether a local educational agency's provision of services substantively provided a FAPE involves a determination of three factors: (1) were the services designed to address the student's unique needs, (2) were the services calculated to provide educational benefit to the student, and (3) did the services conform to the IEP. (*Id.* at p.176; *Gregory K. v. Longview Sch. Dist.* (9th Cir. 1987) 811 F. 2d 1307, 1314.) Although the IDEA does not require that a student be provided with the best available education or services or that the services maximize each child's potential, the "basic floor of opportunity"

of specialized instruction and related services must be individually designed to provide some educational benefit to the child. De minimus benefit or trivial advancement is insufficient to satisfy the *Rowley* standard of "some" benefit. (*Walczak v. Florida Union Free School District* (2d Cir. 1998) 142 F.3d at 130.)

4. Under California law, "special education" is defined as specially designed instruction, provided at no cost to parents, that meets the unique needs of the child. (Ed. Code, § 56031.) "Related services" include transportation and other developmental, corrective, and supportive services as may be required to assist a child to benefit from special education. State law refers to related services as "designated instruction and services" (DIS) and, like federal law, provides that DIS services shall be provided "when the instruction and services are necessary for the pupil to benefit educationally from his or her instructional program." (Ed. Code, § 56363, subd. (a).) Included in the list of possible related services are psychological services other than for assessment and development of the IEP, parent counseling and training, health and nursing services, and counseling and guidance. (Ed. Code, § 56363, subd. (b).) Further, if placement in a public or private residential program is necessary to provide special education and related services to a child with a disability, the program, including non-medical care and room and board, must be at no cost to the parent of the child. (34 C.F.R. § 300.104.) Thus, the therapeutic residential placement and services that Student requests are related services/DIS that must be provided if they are necessary for Student to benefit from special education. (20 U.S.C. § 1401(22); Ed. Code, § 56363, subd. (a).) Failure to provide such services may result in a denial of a FAPE.

5. A "local educational agency" is generally responsible for providing a FAPE to those students with disabilities residing within its jurisdictional boundaries. (Ed. Code, § 48200.)

6. Federal law provides that a local educational agency is not required to pay for the cost of education, including special education and related services, of a child with a disability at a private school or facility if that agency made a free appropriate public education available to the child and the parents elected to place the child in such private school or facility. (20 U.S.C. § 1412(a)(10)(C)(i).)

7. Under California law, a residential placement for a student with a disability who is seriously emotionally disturbed may be made outside of California only when no in-state facility can meet the student's needs and only when the requirements of subsections (d) and (e) have been met. (Cal. Code Regs., tit. 2, § 60100, subd. (h).) An out-of-state placement shall be made only in residential programs that meet the requirements of Welfare and Institutions Code sections 11460, subdivisions (c)(2) through (c)(3).

8. When a school district denies a child with a disability a FAPE, the child is entitled to relief that is "appropriate" in light of the purposes of the IDEA. (*School Comm. of the Town of Burlington v. Dept. of Educ.* (1985) 471 U.S. 359, 374 [105 S.Ct. 1996].) Based on the principle set forth in *Burlington*, federal courts have held that compensatory education is a form of equitable relief which may be granted for the denial of appropriate

special education services to help overcome lost educational opportunity. (See e.g. *Parents of Student W. v. Puyallup Sch. Dist.* (9th Cir. 1994) 31 F.3d 1489, 1496.) The purpose of compensatory education is to "ensure that the student is appropriately educated within the meaning of the IDEA." (*Id.* at p. 1497.) The ruling in *Burlington* is not so narrow as to permit reimbursement only when the placement or services chosen by the parent are found to be the exact proper placement or services required under the IDEA. (*Alamo Heights Independent Sch. Dist. v. State Bd. of Educ.* (6th Cir. 1986) 790 F.2d 1153, 1161.) However, the parents' placement still must meet certain basic requirement of the IDEA, such as the requirement that the placement address the child's needs and provide him educational benefit. (*Florence County Sch. Dist. Four v. Carter* (1993) 510 U.S. 7, 13-14 [114 S.Ct. 361].)

#### *Determination of Issues*

9. In summary, based upon Factual Findings 2, 3, and 6 through 16, all parties agree that the placement in the day program at Oak Grove NPS with an interpreter cannot meet Student's unique educational needs because it does not sufficiently address his mental health and communication needs and does not comport with his current IEP. All parties agree that Student requires a therapeutic residential placement in order to benefit from his education program. Further, all parties agree that the nationwide search by the District and CMH for an appropriate non-profit residential placement with a capacity to serve deaf students has been exhausted, and Student remains without a residential placement. Lastly, all parties agree that the National Deaf Academy can meet both Student's mental health and communication needs. Further, the charter school at NDA is a California certified NPS.

10. The District and CMH rely upon Legal Conclusion 7 to support their contentions that they are prohibited from placing Student in an out-of-state for-profit residential placement, even if it represents the only means of providing Student with a FAPE.

11. As administrative law precedent, CMH cites *Yucaipa-Calimesa Joint Unified School District and San Bernardino County Department of Behavioral Health (Yucaipa)*, OAH Case No. N2005070683 (2005), which determined that the District and County Mental Health were statutorily prohibited from funding an out-of-state for-profit placement. The *Yucaipa* case can be distinguished from the one at hand. Clearly, the ruling in *Yucaipa*, emphasized that the regulation language used the mandatory term "shall," and consequently there was an absolute prohibition from funding a for-profit placement. The ALJ, however, did not face a resulting denial of FAPE for Student. In *Yucaipa*, several non-profit placement options were suggested, including residential placement in California, however, the parent would not consider any placement other than the out-of-state for-profit placement. In denying Student's requested for-profit placement, the ALJ ordered that the parties continue to engage in the IEP process and diligently pursue alternate placements. In the current matter, however, pursuant to Factual Findings 12 through 14, CMH has conducted an extensive multi-state search, and all other placement possibilities for Student have been exhausted. Pursuant to Factual Finding 15, NDA is the only therapeutic residential placement remaining, capable of providing a FAPE for Student.

12. "When Congress passed in 1975 the statute now known as the Individuals with Disabilities Act (IDEA or Act), it sought primarily to make public education available to handicapped children. Indeed, Congress specifically declared that the Act was intended to assure that all children with disabilities have available to them. . . appropriate public education and related services designed to meet their unique needs, to assure the rights of children with disabilities and their parents or guardians are protected. . . and to assess and assure the effectiveness of efforts to educate children with disabilities." (*Hacienda La Puente Unified School District v. Honig* (1992) 976 F.2d 487, 490.) The Court further noted that the United States Supreme Court has observed that "in responding to these programs, Congress did not content itself with passage of a simple funding statute. . . Instead, the IDEA confers upon disabled students an enforceable substantive right to public education in participating States, and conditions federal financial assistance upon a State's compliance with the substantive and procedural goals of the Act." (*Id.* at p. 491.)

13. California maintains a policy of complying with IDEA requirements in the Education Codes, sections 56000, et seq. With regard to the special education portion of the Education Code, the Legislature intended, in relevant part, that every disabled child receive a FAPE. Specifically, "It is the further intent of the Legislature to ensure that all individuals with exceptional needs are provided their rights to appropriate programs and services which are designed to meet their unique needs under the Individuals with Disabilities Education Act." (Ed. Code, § 56000.)

14. California case law explains further, "although the Education Code does not explicitly set forth its overall purpose, the code's primary aim is to benefit students, and in interpreting legislation dealing with our educational systems, it must be remembered that the fundamental purpose of such legislation is the welfare of the children." (*Katz v. Los Gatos-Saratoga Joint Union High School Dist.* (2004) 117 Cal.App. 4th 47, 63.)

15. Pursuant to Legal Conclusion 6, a district is not required to pay for the cost of education, including special education and related services, of a child with a disability at a private school or facility if the district made a free appropriate public education available to the child. All parties concur, in Factual Findings 12 through 15, that the District has been unable to provide a FAPE to Student because no appropriate placement exists except in an out-of-state for-profit residential program.

16. Assuming the District's interpretation of section 60100, subdivision (h) of Title 2 of the California Code of Regulations is correct, it is inconsistent with the federal statutory and regulatory law by which California has chosen to abide. California education law itself mandates a contrary response to Welfare and Institutions Code section 11460, subdivision (c)(3), where no other placement exists for a child. Specifically, "It is the further intent of the Legislature that this part does not abrogate any rights provided to individuals with exceptional needs and their parents or guardians under the federal Individuals with Disabilities Education Act." (Ed. Code, § 56000, subd. (e) (Feb. 2007).) A contrary result

would frustrate the core purpose of the IDEA and the companion state law, and would prevent Student from accessing educational opportunities.<sup>3</sup>

17. Regardless of whether the District and CMH properly interpreted Legal Conclusion 7, Student has ultimately been denied a FAPE since May 23, 2007, when he was terminated from attending CSDR, as indicated in Factual Findings 10 through 16. Pursuant to Factual Findings 6 and 16, Student's need for therapeutic residential placement with ASL services continues. As a result of this denial of FAPE, Student is entitled to compensatory education consisting of immediate placement at the National Deaf Academy through the 2008-2009 school years. The obligation for this compensatory education shall terminate forthwith in the event Student voluntarily terminates his attendance at NDA after his 18th birthday, or Student's placement is terminated by NDA.

#### ORDER

The District has denied Student a free appropriate public education as of May 23, 2007. The District and CMH are to provide Student with compensatory education consisting of immediate placement at the National Deaf Academy and through the 2008-2009 school year. The obligation for this compensatory education shall terminate forthwith in the event Student voluntarily terminates his attendance at NDA after his 18th birthday, or Student's placement is terminated by NDA.

#### PREVAILING PARTY

Pursuant to California Education Code section 56507, subdivision (d), the hearing decision must indicate the extent to which each party has prevailed on each issue heard and decided. Student has prevailed on the single issue presented in this case.

---

<sup>3</sup> Further, there appears to be no argument that had Mother completely rejected the District's IEP offer, and privately placed Student at NDA, she would be entitled to reimbursement of her costs from the District, if determined that the District's offer of placement did not constitute a FAPE. By all accounts, Student's low income status prevented placement at NDA, and therefore precluded Student from receiving a FAPE via reimbursement by the District.

RIGHT TO APPEAL THIS DECISION

The parties to this case have the right to appeal this Decision to a court of competent jurisdiction. If an appeal is made, it must be made within 90 days of receipt of this Decision. (Ed. Code, § 56505, subd. (k).)

Dated: January 15, 2008

Office of Administrative Hearings.

JS - 6

UNITED STATES DISTRICT COURT  
CENTRAL DISTRICT OF CALIFORNIA - EASTERN DIVISION

RIVERSIDE COUNTY DEPARTMENT  
OF MENTAL HEALTH,

Plaintiff,

v.

ANTHONY SULLIVAN et al,

Defendants.

CASE NO. EDCV 08-0503-SGL (RCx)

ORDER AFFIRMING ADMINISTRATIVE  
LAW JUDGE'S DECISION

**CONSOLIDATED CASES:**

MONICA VALENTINE,

Plaintiff,

v.

RIVERSIDE UNIFIED SCHOOL  
DISTRICT et al,

Defendants.

RIVERSIDE UNIFIED SCHOOL  
DISTRICT,

Plaintiff,

v.

ANTHONY SULLIVAN et al,

Defendants.

At its core, the case before the Court presents a simple question: Is a school district excused from its duty under the federal Individuals with Disabilities Education Act ("IDEA") to provide a free, appropriate public education ("FAPE") where certain state administrative code provisions prohibit the reimbursement of expenses associated with placement at an out-of-state for-profit facility but where that facility is the only one identified as an appropriate placement? As set forth below, the Court rejects arguments that the ALJ exceeded the scope of her authority, that California law prohibits the recommended placement, and that a limited waiver made by the student does not preclude the remedy imposed and, in the end, the Court concludes that such a funding structure does not excuse the school district from its duty.

## I. INTRODUCTION

This case arises from a dispute regarding the provision of educational services to a disabled individual, defendant Anthony Sullivan ("Sullivan"). Plaintiffs Riverside County Department of Mental Health ("DMH") and Riverside Unified School District ("RUSD") seek the reversal of the January 15, 2008, decision of Administrative Law Judge Judith L. Pasewark ("ALJ"), Office of Administrative Hearings, Special Education Division, State of California ("OAH"), in *Anthony Sullivan v. Riverside Unified School District and Riverside County Department of Mental Health*, and ask the Court to find that Sullivan was not entitled to an order directing placement at the National Deaf Academy ("NDA") under the Individuals with Disabilities Education Act ("IDEA"), 20 U.S.C. § 1400 *et seq.*, or California special education law, California Education Code section 56000 *et seq.* See Administrative Record ("A.R.") 780-89.

Sullivan filed his First Amended Request for Due Process Hearing on September 25, 2007. A.R. 780. At the pre-hearing conference on December 7, 2007, the parties agreed to have the matter decided by the ALJ without oral argument based stipulation facts, stipulated evidence, and written closing arguments. *Id.* Ultimately, in the decision that is the subject of the current appeal, the ALJ decided that defendant had been denied a free, appropriate public education ("FAPE"), and ordered immediate placement

1 of defendant at an out-of-state residential facility. In a separate decision (which is also  
 2 the subject of the present appeal), the ALJ denied a motion for reconsideration based  
 3 on an issue of waiver.

4 Upon review of the ALJ's decision, the ALJ's Order Denying Motion for  
 5 Reconsideration, the pleadings, and the administrative record, the Court **AFFIRMS** the  
 6 ALJ's decisions.

## 7 **II. FACTUAL BACKGROUND**

8 At the time of the administrative hearing, Sullivan was seventeen years old and  
 9 resided with his mother, Monica Valentine ("Valentine"), within the RSUD in Riverside  
 10 County, California.<sup>1</sup> His family was considered low-income. Sullivan is deaf, has  
 11 impaired vision, and an orthopedic condition affecting the hip known as legg-perthes.  
 12 His only effective mode of communication is American Sign Language ("ASL"). He has  
 13 also been assessed as having borderline cognitive ability and a long history of social  
 14 and behavioral difficulties. As a result, Sullivan was eligible for special education and  
 15 related services and mental health services under the category of emotional disturbance  
 16 ("ED"), with a secondary disability of deafness.

17 Sullivan requires an education environment in which he has an opportunity to  
 18 interact with peers and adults who are fluent in ASL. Between January, 2005, and  
 19 September, 2006, he was a resident of the Monrovia Unified School District ("MUSD")  
 20 and attended the California School for the Deaf, Riverside ("CSDR"). CSDR did not  
 21 specialize in therapeutic behavior interventions. Sullivan was removed from CSDR for  
 22 suicide prevention because he physically harmed himself and was placed in home-  
 23 hospital instruction. Between June, 2005, and October, 2005, Sullivan was placed on  
 24 several 72-hour psychiatric holds.

---

25  
 26  
 27 <sup>1</sup> As part of the Request for Due Process Hearing, the Parties filed a joint  
 28 Stipulated Statement of Undisputed Facts and Evidence to the ALJ. A.R. 731 - 738.  
 The facts presented here are contained in the Parties' joint stipulation, which was relied  
 upon by the ALJ. See A.R. 781 - 784.

1 On September 14, 2006, MUSD and the Los Angeles County Department of  
2 Mental Health ("LACDMH") held a meeting and recommended residential placement for  
3 Sullivan. It was recommended that Sullivan be placed at National Deaf Academy  
4 ("NDA") because of his need for a higher level of care to address his continuing  
5 aggressive and self-injurious behaviors and to interact with deaf peers and adults  
6 without the use of an interpreter. On August 5, 2006, Sullivan was accepted by NDA,  
7 but was instead placed at Willow Creek/North Valley Non-public School. The placement  
8 failed in March, 2007; MUSD and LACDMH indicated they were unable to find a  
9 residential placement for Sullivan that could meet his mental health and communication  
10 needs. As explained more fully below, NDA was not considered an option for MUSD  
11 and LACDMH because of NDA's for-profit status.

12 In April 2007, defendants moved into Riverside County and RUSD. On April 20,  
13 2007, RUSD convened an Individual Education Plan ("IEP") meeting. The IEP team  
14 changed Sullivan's primary disability classification from ED to deafness with social-  
15 emotional overlay to enroll him in CSDR for a 60-day assessment period, which was the  
16 only appropriate placement. CSDR terminated Sullivan's placement for poor behavior  
17 within the 60-day assessment period.

18 On May 23, 2007, RUSD convened another IEP meeting to discuss Sullivan's  
19 termination from CSDR. It was recommended that Sullivan be placed at Oak Grove  
20 Institute/Jack Weaver School ("Oak Grove") and have support from a deaf interpreter.  
21 On August 3, 2007, RUSD convened another IEP meeting to develop an annual IEP.  
22 The IEP team proposed placement at Oak Grove with a signing interpreter, deaf and  
23 hard-of-hearing consultation, and support services provided by RUSD and DMH.  
24 Sullivan, his mother, and his attorney agreed to the proposed IEP, but disagreed that  
25 the offer constituted a FAPE due to Oak Grove's lack of staff, teachers, and peers who  
26 used ASL.

27 On October 9, 2007, RUSD convened another IEP and it was determined that  
28 Sullivan's primary special education eligibility category should be changed back to ED

1 with deafness as a secondary condition. It was recommended by the IEP team that  
 2 Sullivan be placed in a residential treatment program and, until a proper residential  
 3 placement was found, he would remain at Oak Grove. DMH made inquiries to find a  
 4 proper non-profit residential placement for Sullivan, including schools in California,  
 5 Florida, Wyoming, Ohio, and Illinois, but was unsuccessful.

6 Sullivan, his mother, and his attorney all identified NDA as an appropriate  
 7 placement for Sullivan. NDA is a residential treatment center for the treatment of deaf  
 8 and hard-of-hearing children with the staff and facilities to accommodate Sullivan's  
 9 emotional and physical disability needs. NDA also accepts students with borderline  
 10 cognitive abilities. Also, nearly all of the service providers, including teachers,  
 11 therapists and psychiatrists are fluent in ASL. The Charter School at NDA is a  
 12 California certified non-public school and is operated on a for-profit basis. All parties  
 13 agree that NDA is an appropriate placement and would provide Sullivan with a FAPE.

14 Notwithstanding this agreement, the RSUD and DMH took the position that they  
 15 could not place Sullivan at NDA because it is operated by a for-profit entity. Sullivan  
 16 filed for a due process hearing to resolve the issue.

### 17 **III. THE ALJ'S DECISION**

18 As noted previously, the matter was submitted to the ALJ by stipulation. The  
 19 parties stipulated to a single issue, which was articulated as:

20 Must RUSD and RCDMH place Anthony at the  
 21 National Deaf Academy or other appropriate therapeutic  
 22 residential placement that can meet both his mental health  
 23 and communication needs, regardless of whether the facility  
 24 is run on a for-profit basis, in the absence of existing  
 25 alternatives?

26 A.R. 724. In articulating this issue, the parties noted their agreement on a number of  
 27 key points: (1) Sullivan's current placement at Oak Grove did not constitute a FAPE;  
 28 (2) Sullivan required therapeutic residential placement; (3) despite a nationwide search,

1 no appropriate non-for-profit residential placement could be found; and (4) placement at  
2 NDA, would constitute a FAPE.

3 On January 15, 2008, the ALJ issued her decision in favor of Sullivan. A.R. 788.  
4 She found that Sullivan had been denied a FAPE since May 23, 2007, when he was  
5 removed from CSDR, that his need for therapeutic residential placement with ASL  
6 service continued, and that he was "entitled to compensatory education consisting of  
7 immediate placement at the National Deaf Academy." A.R. 788.

8 On January 28, 2008, RUSD submitted a Motion for Reconsideration of Decision  
9 and Order. A.R. 791-97. The motion challenged the propriety of the remedy ordered by  
10 the ALJ – immediate placement at NDA, in light of the fact that such a remedy was not  
11 sought by the parties' stipulation, and in light of the fact that Sullivan had agreed to  
12 waive all claims for a compensatory education for the period April, 2007, through  
13 October 9, 2007. The existence of a waiver was not disputed by Sullivan. The ALJ, on  
14 February 20, 2008, denied the Motion for Reconsideration. A.R. 818-20.

15 In response, Plaintiffs filed the instant action.

#### 16 **IV. THE IDEA**

17 THE IDEA guarantees all disabled children a FAPE "that emphasizes special  
18 education and related services designed to meet their unique needs and prepare them  
19 for further education, employment, and independent living." 20 U.S.C. § 1400(d)(1)(A).  
20 A FAPE is defined as special education and related services that: (1) are available to  
21 the student at public expense, under public supervision and direction, and without  
22 charge; (2) meet the state education standards; (3) include an appropriate education in  
23 the state involved; and (4) conform with the student's IEP. 20 U.S.C. § 1401(9).

24 "Special education" is defined as instruction specially designed to meet a  
25 disabled student's unique needs, at no cost to parents, whether it occurs in the  
26 classroom, at home, or in other settings. 20 U.S.C. § 1401(29); Cal. Educ. Code  
27 § 56031. "Related services" include developmental, corrective, and supportive services,  
28 such as speech-language services, needed to assist a disabled child in benefitting from

1 education, and to help identify disabling conditions. 20 U.S.C. § 1401(26); Cal. Educ.  
2 Code § 56363.

3 The primary tool for achieving the goal of providing a FAPE to a disabled student  
4 is the IEP. *Van Duyn ex rel. Van Duyn v. Baker School Dist.* 5J, 502 F.3d 811, 818 (9th  
5 Cir. 2007). An IEP is a written statement containing the details of the individualized  
6 education program for a specific child, which is crafted by a team that includes the  
7 child's parents and teacher, a representative of the local education agency, and,  
8 whenever appropriate, the child. 20 U.S.C. § 1401(14), § 1414(d)(1)(B). An IEP must  
9 contain: (1) Information regarding the child's present levels of performance; (2) a  
10 statement of measurable annual goals; (3) a statement of the special educational and  
11 related services to be provided to the child; (4) an explanation of the extent to which the  
12 child will not participate with non-disabled children in the regular class; and (5) objective  
13 criteria for measuring the child's progress. 20 U.S.C. § 1414(d)(1)(A).

14 The IDEA contains numerous procedural safeguards to ensure that the parents  
15 or guardians of a disabled student be kept informed and involved in decisions regarding  
16 the child's education. 20 U.S.C. § 1415. As part of this procedural scheme, the local  
17 educational agency must give parents an opportunity to present complaints regarding  
18 the provision of a FAPE to the child. 20 U.S.C. § 1415(b)(6). Upon the presentation of  
19 such a complaint, the parent or guardian is entitled to an impartial due process  
20 administrative hearing conducted by the state or local educational agency. 20 U.S.C.  
21 § 1415(f).

## 22 **V. JUDICIAL REVIEW OF ADMINISTRATIVE DECISIONS**

23 The IDEA provides that a party aggrieved by the findings and decisions made in  
24 a state administrative due process hearing has the right to bring an original civil action  
25 in federal district court. 20 U.S.C. § 1415(i)(2). The party bringing the administrative  
26 challenge bears the burden of proof in the administrative proceeding. *Schaffer ex rel.*  
27 *Schaffer v. Weast*, 546 U.S. 49, 62 (2005). Similarly, the party challenging the  
28 administrative decision bears the burden of proof in the district court. *Hood v. Encinitas*

1 *Union Sch. Dist.*, 486 F.3d 1099, 1103 (9th Cir. 2007).

2 The standard for district court review of an administrative decision under the  
3 IDEA is set forth in 20 U.S.C. § 1415(i)(2), which provides as follows:

4 In any action brought under this paragraph the court --

5 (i) shall receive the records of the administrative

6 proceedings; (ii) shall hear additional evidence at the request

7 of a party; and (iii) basing its decision on the preponderance

8 of the evidence, shall grant such relief as the court

9 determines is appropriate.

10 20 U.S.C. § 1415(i)(2)(C). Thus, judicial review of IDEA cases is quite different from  
11 review of most other agency actions, in which the record is limited and review is highly  
12 deferential. *Ojai Unified Sch. Dist. v. Jackson*, 4 F.3d 1467, 1471 (9th Cir. 1993).  
13 Courts give "due weight" to administrative proceedings, *Board of Educ. of the Hendrick*  
14 *Hudson Central Sch. Dist. Westchester County v. Rowley*, 458 U.S. 176, 206 (1982),  
15 but how much weight is "due" is a question left to the court's discretion, *Gregory K. v.*  
16 *Longview Sch. Dist.*, 811 F.2d 1307, 1311 (9th Cir. 1987). In exercising this discretion,  
17 the Court considers the thoroughness of the hearing officer's findings and award more  
18 deference where the hearing officer's findings are "thorough and careful." *Capistrano*  
19 *Unified Sch. Dist. v. Wartenberg*, 59 F.3d 884, 891 (9th Cir. 1995).

20 A hearing officer's findings are treated as "thorough and careful when the officer  
21 participates in the questioning of witnesses and writes a decision contain[ing] a  
22 complete factual background as well as a discrete analysis supporting the ultimate  
23 conclusions." *R.B., ex rel. F.B. v. Napa Valley Unified Sch. Dist.*, 496 F.3d 932, 942 (9th  
24 Cir. 2007) (internal quotation marks and citations omitted).<sup>2</sup>

---

25  
26 <sup>2</sup> Plaintiffs contend that the Court, when reviewing purely legal questions such as  
27 those at issue here, must subject the ALJ's decision to *de novo* review. Plaintiffs'  
28 contention is not without support. See *Paul K. ex rel. Joshua K. v. Hawaii*, 567  
F.Supp.2d 1231, 1234 (D. Hawai'i 2008) (setting forth standard of review in IDEA case  
by stating, *inter alia*, "[s]tatutory interpretation is reviewed de novo," and collecting

## VI. CHALLENGES TO THE ALJ DECISIONS

Plaintiffs oppose the decisions of the ALJ on three grounds: (1) First, they argue that the remedy the ALJ ordered was beyond the scope of the order to which the parties stipulated, and thus, should not have been decided by the ALJ; (2) next, California law is an absolute bar to a placement at NDA; and (3) finally, that Sullivan waived his rights to a compensatory education for the time period April, 2007, through October 9, 2007.

In the end, the Court rejects each of these challenges.

### A. The Remedy Ordered by the ALJ was Proper

Plaintiffs assert that the ALJ overstepped her authority by awarding compensatory education to Sullivan. Essentially, plaintiffs contend that the ALJ was limited by the stipulation before her to the issue of the duty of plaintiffs regarding placement of Sullivan in light of certain California Administrative Code provisions.

The ALJ rejected plaintiffs' argument in her February 20, 2008, Order Denying Motion for Reconsideration. The ALJ found that "[n]one of the documents filed in this matter indicate that Student's Request for Due Process Hearing had been restructured as a request of Declaratory Relief only." A.R. 820. The Court agrees with the ALJ's assessment.

When the ALJ ordered that Sullivan be placed at NDA, she ordered the natural remedy that flowed from her determination that Sullivan was denied a FAPE and that the California Administrative Code provisions relied upon by plaintiffs did not excuse them from providing one. All the parties agreed that Sullivan was not receiving a FAPE, and they agreed that NDA was the only facility, despite a nationwide search that could provide him with a FAPE. Upon the presentation of the issue to the ALJ, the parties should have understood that any affirmative response by the ALJ would result in an order setting forth an appropriate remedy.

The suggestion that the ALJ was limited to sending the issue back to the parties

---

cases). Nevertheless, because the Court's own analysis would lead it to the same conclusion as that reached by the ALJ, the Court need not resolve this issue.

1 for another IEP process is absurd in light of the agreement as to the only appropriate  
2 placement. Sullivan would be forced to litigate an issue that he was entitled to a  
3 particular placement when an ALJ had already effectively determined the issue. Such  
4 an outcome is horribly inefficient; it would be a waste of administrative and judicial  
5 resources, and would result in a wholly avoidable delay in the only appropriate  
6 placement identified for Sullivan.

7 Accordingly, this Court finds that the issue of a compensatory education was  
8 presented to the ALJ and she did not overstep her authority by granting Sullivan a  
9 remedy after finding that he had been denied a FAPE.

10 **B. California Law Does Not Prohibit Placement at NDA and Does Not Excuse**  
11 **Compliance with the IDEA**

12 The heart of the present appeal is represented by plaintiffs' argument regarding  
13 funding for Sullivan's placement at NDA. As alluded to earlier, the difficulty in placing  
14 Sullivan at that facility is in its for-profit status.

15 The Court begins with Cal. Adm. Code tit. 2, § 60100(h), relating to "Interagency  
16 Responsibility for Providing Services to Pupils with Disabilities" in the area of  
17 "Residential Placement" such as that considered for Sullivan:

18 (h) Residential placements for a pupil with a disability who is  
19 seriously emotionally disturbed may be made out of  
20 California only when no in-state facility can meet the pupil's  
21 needs and only when the requirements of subsections (d)  
22 and (e) have been met. Out-of-state placements shall be  
23 made only in residential programs that meet the  
24 requirements of Welfare and Institutions Code Sections  
25 11460(c)(2) through (c)(3). For educational purposes, the  
26 pupil shall receive services from a privately operated  
27 non-medical, non-detention school certified by the California  
28 Department of Education.

1 Id. This provision has many requirements, but no party contends that the student is not  
2 “seriously emotionally disturbed,” that there is an “instate-facility [that] can meet [his]  
3 needs,” that the requirements of subsection (d) (relating to documentation for residential  
4 placement) have not been met, or that the requirements of subsection (e) (relating to a  
5 mental health service case manager assessment) have not been met. Rather, plaintiffs  
6 focus on the requirement that out-of-state placements meet the requirements of Cal.  
7 Welfare & Inst. Code § 11460(c)(2)-(3) have not been met.

8 In relevant part, § 11460(c)(2)-(3) provides that “(3) State reimbursement for an  
9 AFDC-FC rate paid on or after January 1, 1993, shall only be paid to a group home  
10 organized and operated on a nonprofit basis.”<sup>3</sup>

11 Reading these statutes together, the Court, like the ALJ, can discern no outright  
12 prohibition under California law on Sullivan’s placement at NDA. To be sure,  
13 § 60100(h) speaks in terms of conditions precedent to out-of-state placements when it  
14 provides as follows: “Out-of-state placements **shall be made only** in residential  
15 programs that meet the requirements of Welfare and Institutions Code Sections  
16 11460(c)(2) through (c)(3),” but the subsection upon which plaintiffs focus, subsection  
17 (c)(3) does not set forth a requirement so much as a limitation upon reimbursement for  
18 the costs of such placement.<sup>4</sup> This is especially so when viewed in light of § 60000,  
19 which provides that the intent of the chapter of the Administrative Code in which  
20 § 60100 appears “is to assure conformity with the federal Individuals with Disabilities  
21 Education Act or IDEA.” That section provides guidance on interpretation of the Code  
22 provisions that follow it:

---

23  
24 <sup>3</sup> The parties cite to subsection (c)(2) and (c)(3), but the “for-profit” non-  
placement provision is found only in subsection (c)(3).

25 <sup>4</sup> This incorporation of the requirements makes much more sense as to  
26 subsection (c)(2), which sets forth certain conditions relating to the operations of the  
27 facility. Plaintiffs do not argue that these requirements have not been met; their  
28 argument is that they are prohibited from placing Sullivan at NDA because of its for-  
profit status.

Thus, provisions of this chapter shall be construed as supplemental to, and in the context of, federal and state laws and regulations relating to interagency responsibilities for providing services to pupils with disabilities.

*Id.*

Plaintiffs reliance on *Yucaipa-Calimesa Joint Unified School District and San Bernardino County Department of Behavioral Health*, OAH Case No. N2005070683 (2005), does not compel a contrary result. The ALJ properly distinguished that case on the grounds that other acceptable placements were identified for the student. No such alternative placements have been identified for Sullivan, and therefore the cited case is unpersuasive.

What was apparent to the ALJ, and what is apparent to this Court, is that whatever funding limitations plaintiffs may face, the duty under the IDEA to provide to Sullivan a FAPE is clear and cannot be diminished. Equally clear from the record before the ALJ, and before this Court, is that Sullivan can receive a FAPE through placement at NDA, and that no other alternative placement has been identified.

**C. Sullivan's Waiver Was Limited and Does not Affect the ALJ-Ordered Remedy**

The waiver was limited to the time period of April, 2007, through October 9, 2007. Rights for the time period thereafter are expressly reserved. DMH Compl., Exh. D. ("Parent does not waive any claims of any kind from October 9, 2007 forward.").

The compensatory education ordered by the ALJ only applied to the period from the date of her decision, January 15, 2008, through the 2008- 2009 school year, several months after the Defendants' waiver expired. A.R. 788. The ALJ's order of compensatory education was a prospective equitable remedy that did not require RUSD and DMH to provide any compensation for the time period before January 15, 2008.

**VI. CONCLUSION**

1 Accordingly, and for the foregoing reasons, the Court **AFFIRMS** the ALJ's  
2 January 15, 2008, decision requiring RUSD and DMH provide Sullivan with a  
3 compensatory education consisting of immediate placement at the National Deaf  
4 Academy. The Court also **AFFIRMS** ALJ's February 20, 2008 Order Denying Motion for  
5 Reconsideration.

6 Counsel for defendants shall lodge a proposed judgment that complies with Fed.  
7 R. Civ. P. 54(a) within five days of the entry of this Order. A motion for attorney fees  
8 may be filed in accordance with the schedule previously set by the Court.

9 **IT IS SO ORDERED.**
