Re: **Draft Proposed Decision, Schedule for Comments, and Notice of Hearing**
Health Fee Elimination, 09-4206-I-22
Education Code Section 76355, Statutes 1984, Chapter 1 (1983-1984 2nd Ex. Sess.)
(AB2X 1) and Statutes 1987, Chapter 1118 (AB 2336)
Fiscal Years 2003-2004, 2004-2005, and 2005-2006
Long Beach Community College District, Claimant.

Dear Mr. Petersen and Ms. Kanemasu:

The draft proposed decision for the above-named matter is enclosed for your review and comment.

Written Comments

Written comments may be filed on the draft proposed decision by **May 22, 2015**. You are advised that comments filed with the Commission on State Mandates (Commission) are required to be simultaneously served on the other interested parties on the mailing list, and to be accompanied by a proof of service. However, this requirement may also be satisfied by electronically filing your documents. Please see <http://www.csm.ca.gov/dropbox.shtml> on the Commission's website for instructions on electronic filing. (Cal. Code Regs., tit. 2, § 1181.3.)

If you would like to request an extension of time to file comments, please refer to section 1187.9(a) of the Commission's regulations.

Hearing

This matter is set for hearing on **Friday, July 24, 2015**, at 10:00 a.m., State Capitol, Room 447, Sacramento, California. The proposed decision will be issued on or about July 10, 2015. Please let us know in advance if you or a representative of your agency will testify at the hearing, and if other witnesses will appear. If you would like to request postponement of the hearing, please refer to section 1187.9(b) of the Commission's regulations.

Sincerely,

A handwritten signature in black ink, appearing to read "Heather Halsey".

Heather Halsey
Executive Director

INCORRECT REDUCTION CLAIM
DRAFT PROPOSED DECISION

Former Education Code Section 72246 (Renumbered as 76355)¹
Statutes 1984, Chapter 1 (1983-1984 2nd Ex. Sess.); Statutes 1987, Chapter 1118

Health Fee Elimination

Fiscal Years, 2003-2004, 2004-2005, and 2005-2006

09-4206-I-22

Long Beach Community College District, Claimant

EXECUTIVE SUMMARY

Overview

This analysis addresses reductions made by the State Controller's Office (Controller) to reimbursement claims filed by Long Beach Community College District (claimant) totaling \$676,727 for fiscal years 2003-2004 through 2005-2006 under the *Health Fee Elimination* program. The Controller's audit reduced the claims by the following amounts:

- \$74,504 for fiscal year 2003-2004 based on asserted faults in the development and application of the indirect cost rate. The claimant developed the indirect cost rate proposal based on the OMB Circular A-21 methodology, but did not obtain federal approval. The Controller recalculated indirect costs using the FAM-29C methodology allowed in the claiming instructions.
- \$639,989 for fiscal years 2003-2004, 2004-2005 and 2005-2006 based on offsetting health service fee revenue authorized to be charged, rather than the amount collected by claimant. The Controller recalculated authorized health fee revenue by using student enrollment data that the claimant reported to the Chancellor's Office and health service fee waivers that the claimant's records supported.

Health Fee Elimination Program

Prior to 1984, former Education Code section 72246 authorized community college districts that voluntarily provided health supervision and services, direct and indirect medical and hospitalization services, or operation of student health centers to charge almost all students a health service fee not to exceed \$7.50 for each semester or \$5 for each quarter or summer session, to fund these services.² In 1984, the Legislature repealed the community colleges' fee

¹ Statutes 1993, chapter 8.

² Former Education Code section 72246 (Stats. 1981, ch. 763) [Low-income students, students that depend upon prayer for healing, and students attending a college under an approved apprenticeship training program, were exempt from the fee.]

authority for health services.³ However, the Legislature also reenacted section 72246, to become operative on January 1, 1988, in order to reauthorize the fee, at \$7.50 for each semester (or \$5 per quarter or summer semester).⁴

In addition to temporarily repealing community college districts' authority to levy a health services fee, the 1984 enactment required any district that provided health services during the 1983-1984 fiscal year, for which districts were previously authorized to charge a fee, to maintain health services at the level provided during the 1983-1984 fiscal year for every subsequent fiscal year until January 1, 1988.⁵ As a result, community college districts were required to maintain health services provided in the 1983-1984 fiscal year without any fee authority for this purpose until January 1, 1988.

In 1987, the Legislature amended former Education Code section 72246, operative January 1, 1988, to incorporate and extend the maintenance of effort provisions of former Education Code section 72246.5, which became inoperative by its own terms as of January 1, 1988.⁶ In addition, Statutes 1987, chapter 1118 restated that the fee would be reestablished at not more than \$7.50 for each semester, or \$5 for each quarter or summer semester.⁷ As a result, beginning January 1, 1988, all community college districts were required to maintain the same level of health services they provided in the 1986-1987 fiscal year each year thereafter, with a limited fee authority to offset the costs of those services. In 1992, section 72246 was amended to provide that the health fee could be increased by the same percentage as the Implicit Price Deflator whenever that calculation would produce an increase of one dollar.⁸

Procedural History

On December 13, 2004, the transmittal letter for claimant's fiscal year 2003-2004 reimbursement claim was signed. On January 17, 2006, the transmittal letter for claimant's fiscal year 2004-2005 reimbursement claim was signed. On June 26, 2007, the transmittal letter for claimant's fiscal year 2005-2006 reimbursement claim was signed. On June 26, 2009, the Controller's audit report was issued. On September 24, 2009, the claimant filed this IRC.⁹ On November 26, 2014, the Controller submitted comments on the IRC.¹⁰ On May 1, 2015, Commission staff issued the draft proposed decision on the IRC.

⁹ Exhibit A, Incorrect Reduction Claim, p. 1.

¹⁰ Exhibit B, Controller's Comments on IRC, p. 1.

Commission Responsibilities

Government Code section 17561(b) authorizes the Controller to audit the claims filed by local agencies and school districts and to reduce any claim for reimbursement of state-mandated costs that the Controller determines is excessive or unreasonable.

Government Code Section 17551(d) requires the Commission on State Mandates (Commission) to hear and decide a claim that the Controller has incorrectly reduced payments to the local agency or school district. If the Commission determines that a reimbursement claim has been incorrectly reduced, section 1185.9 of the Commission's regulations requires the Commission to send the decision to the Controller and request that the costs in the claim be reinstated.

The Commission must review questions of law, including interpretation of parameters and guidelines, de novo, without consideration of conclusions made by the Controller in the context of an audit. The Commission is vested with exclusive authority to adjudicate disputes over the existence of state-mandated programs within the meaning of article XIII B, section 6.¹¹ The Commission must also interpret the Government Code and implementing regulations in accordance with the broader constitutional and statutory scheme. In making its decisions, the Commission must strictly construe article XIII B, section 6 and not apply it as an "equitable remedy to cure the perceived unfairness resulting from political decisions on funding priorities."¹²

With regard to the Controller's audit decisions, the Commission must determine whether they were arbitrary, capricious, or entirely lacking in evidentiary support. This standard is similar to the standard used by the courts when reviewing an alleged abuse of discretion of a state agency.¹³

The Commission must also review the Controller's audit in light of the fact that the initial burden of providing evidence for a claim of reimbursement lies with the claimant.¹⁴ In addition, sections 1185.1(f)(3) and 1185.2(c) of the Commission's regulations require that any assertions of fact by the parties to an IRC must be supported by documentary evidence. The Commission's ultimate findings of fact must be supported by substantial evidence in the record.¹⁵

¹⁴ *Gilbert v. City of Sunnyvale* (2005) 130 Cal.App.4th 1264, 1274-1275.

¹⁵ Government Code section 17559(b), which provides that a claimant or the state may commence a proceeding in accordance with the provisions of section 1094.5 of the Code of Civil Procedure to set aside a decision of the Commission on the ground that the Commission's decision is not supported by substantial evidence in the record.

Claims

The following chart provides a brief summary of the claims and issues raised and staff's recommendation.

Issue	Description	Staff Recommendation
Statutory deadline applicable to the audit of claimant's 2003-2004 reimbursement claim.	At the time the underlying reimbursement claim was filed, Government Code section 17558.5 stated: "A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim."	<i>The audit was timely initiated</i> – Staff presumes that the plain language of section 17558.5 is valid and enforceable, and finds that because the fiscal year 2003-2004 reimbursement claim was not paid, the statutory deadline to initiate an audit had not passed.
Reduction of costs based on asserted flaws in the development of indirect cost rates.	Claimant asserts that the Controller incorrectly reduced indirect costs claimed, because the claimant did not obtain federal approval for its indirect cost rate proposal. Claimant argues that there is no requirement that an indirect cost rate be federally approved.	<i>Correct</i> – Claimant did not comply with the parameters and guidelines, claiming instructions, and the OMB Circular A-21 when calculating indirect costs, because it did not obtain federal approval of its rates. The Controller recalculated the indirect cost rate using the Form FAM 29-C which is expressly authorized in the claiming instructions. Therefore, this reduction is correct as a matter of law and not arbitrary, capricious, or entirely lacking in evidentiary support.
Reduction of costs based on understated offsetting revenues from student health fees authorized	Claimant asserts that the Controller incorrectly reduced costs claimed because only the fee revenue collected is required to be deducted from the costs claimed.	<i>Correct</i> – This issue has been conclusively decided by <i>Clovis Unified School District v. Chiang</i> (2010) 188 Cal.App.4th 794, in which the court held that local government could choose not

to be charged.		to exercise statutory fee authority to its maximum extent, but not at the state's expense. Thus, the reduction is correct as a matter of law. In addition, the Controller's calculation of authorized health service fees, based on enrollment data provided by the claimant and health service fee waivers that the claimant's records supported, is not arbitrary, capricious, or entirely lacking in evidentiary support.
----------------	--	--

Staff Analysis

A. The Controller Met the Statutory Deadlines for the 2003-2004 Fiscal Year Audit Imposed by Government Code Section 17558.5.

The 2003-2004 reimbursement claim transmittal letter was signed on December 13, 2004, but was not paid. The audit entrance conference was conducted on October 16, 2008. The Controller issued its final audit report on June 26, 2009.

Government section 17558.5(a) requires a valid audit to be initiated no later than three years after the date that the reimbursement claim is filed or last amended.¹⁶ This section also provides that if no funds are appropriated or no payment is made “to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim.”¹⁷ Statutes 2002, chapter 1128, which amended section 17558.5, is a duly enacted statute and must be presumed valid and constitutional. Staff finds that the Controller timely initiated the audit of the 2003-2004 reimbursement claim.

Staff further finds that the audit of the reimbursement claims at issue in this case was timely completed. Effective January 1, 2005, when the audit period in this case was still pending, Government Code section 17558.5 was amended to require for the first time that “In any case, an audit shall be completed not later than two years after the date that the audit is commenced;” which in this case would be no later than October 16, 2010.¹⁸ The Controller issued its final audit report on June, 26, 2009, before the two year deadline to complete the audit.

B. The Controller's Recalculation and Reduction of Indirect Costs Claimed is Correct as a Matter of Law and Not Arbitrary, Capricious or Entirely Lacking in Evidentiary Support.

¹⁶ Government Code section 17558.5 as amended by Statutes 2002, chapter 1128.

¹⁷ *Id.*

¹⁸ Statutes 2004, chapter 890.

The Controller reduced indirect costs claimed for fiscal year 2003- 2004 by a total of \$74,504 because claimant utilized the OMB Circular A-21 method for claiming indirect costs but did not obtain federal approval of its indirect cost rate as required by the OMB Circular A-21. The Controller recalculated the indirect cost rate using the state Form FAM-29C in accordance with the claiming instructions, reducing the indirect cost rate to 17.00 percent for fiscal year 2003-2004.

Staff finds claimant did not comply with the requirements in the parameters and guidelines, claiming instructions, or the OMB Circular A-21 when developing and applying its indirect cost rate for fiscal year 2003-2004, since it did not obtain federal approval of the rate. Therefore, the reduction is correct as a matter of law. Staff further finds that the Controller’s recalculation of indirect costs using the Form FAM 29C is not arbitrary, capricious, or entirely lacking in evidentiary support since that method is expressly authorized in the claiming instructions and results in rates higher than the seven percent default rate.

C. The Controller’s Reduction for Understated Offsetting Revenues is Correct as a Matter of Law and not Arbitrary, Capricious, or Lacking in Evidentiary Support.

The Controller reduced costs claimed for the three fiscal years by a total of \$639,989 because claimant understated its offsetting fees by reporting only the fee revenue collected, and not the fee revenue authorized to be charged.

After the claimant filed its IRC, the Third District Court of Appeal issued its opinion in *Clovis Unified School Dist. v. Chiang*, which specifically addressed the Controller’s practice of reducing claims of community college districts by the maximum fee amount that districts are statutorily authorized to charge students, whether or not a district chooses to charge its students those fees. As cited by the court, the “Health Fee Rule” states in part:

Eligible claimants will be reimbursed for health service costs at the level of service provided in the 1986/87 fiscal year. The reimbursement will be reduced by the amount of student health fees authorized per the Education Code [section] 76355.¹⁹

The court in *Clovis Unified* upheld the Controller’s use of the Health Fee Rule to reduce reimbursement claims based on the fee districts are authorized to charge. In making its decision the court noted that the concept underlying the state mandates process that Government Code sections 17514 and 17556(d) embody is:

To the extent a local agency or school district “has the authority” to charge for the mandated program or increased level of service, that charge cannot be recovered as a state-mandated cost.²⁰

The court also noted that, “this basic principle flows from common sense as well. As the Controller succinctly puts it, ‘Claimants can choose not to require these fees, but not at the state’s expense.’”²¹ Since the *Clovis* case is a final decision of the court addressing the merits of

¹⁹ *Clovis Unified School Dist. v. Chiang* (2010) 188 Cal.App.4th 794, 811.

²⁰ *Id.* at p. 812.

²¹ *Ibid.*

the issue presented here, the Commission, under principles of stare decisis, is required to apply the rule set forth by the court.²²

Therefore, staff finds the Controller's adjustment is correct as a matter of law. Staff further finds that the Controller's calculation of the claimant's total authorized offsetting fee revenue is not arbitrary, capricious, or entirely lacking in evidentiary support since the Controller used the enrollment data available and reported by the claimant.

Conclusion

Pursuant to Government Code section 17551(d), staff finds that the audit of the 2003-2004 reimbursement claim was timely, and that the reductions to the following costs are correct as a matter of law, and not arbitrary, capricious, or entirely lacking in evidentiary support:

- \$74,504 for fiscal year 2003-2004 because claimant developed the indirect cost rate proposal based on the OMB Circular A-21 methodology, but did not obtain federal approval.
- \$639,989 for fiscal years 2003-2004, 2004-2005 and 2005-2006 based on offsetting health service fee revenue authorized to be charged, rather than the amount collected by claimant.

Staff Recommendation

Staff recommends that the Commission adopt the proposed statement of decision to deny the IRC, and authorize staff to make any technical, non-substantive changes following the hearing.

Long Beach Community College District,
Claimant.

Case Nos.: 09-4206-I-22

Health Fee Elimination

DECISION PURSUANT TO
GOVERNMENT CODE SECTION 17500 ET
SEQ.; CALIFORNIA CODE OF
REGULATIONS, TITLE 2, DIVISION 2,
CHAPTER 2.5. ARTICLE 7

(Adopted July 24, 2015)

PROPOSED DECISION

The Commission on State Mandates (Commission) heard and decided this incorrect reduction claim (IRC) during a regularly scheduled hearing on July 24, 2015. [Witness list will be included in the adopted decision.]

The law applicable to the Commission's determination of a reimbursable state-mandated program is article XIII B, section 6 of the California Constitution, Government Code section 17500 et seq., and related case law.

The Commission [adopted/modified] the proposed decision to [approve/partially approve/deny] the IRC at the hearing by a vote of [vote count will be included in the adopted decision].

Summary of the Findings

This analysis addresses reductions made by the State Controller's Office (Controller) to Long Beach Community College District's (claimant's) reimbursement claims for fiscal years 2003-2004, 2004-2005, and 2005-2006 under the *Health Fee Elimination* program. Over the three fiscal years in question, the Controller reduced costs totaling \$676,727. The Controller found that claimant incorrectly calculated the indirect cost rate for the 2003-04 fiscal year and under reported offsetting health service fee revenue authority for the three fiscal years at issue.

Pursuant to Government Code section 17551(d), the Commission concludes that the audit of the 2003-2004 reimbursement claim was timely, and that the following reductions are correct as a matter of law and are not arbitrary, capricious, or entirely lacking in evidentiary support:

- \$74,504 in indirect costs claimed for fiscal year 2003-04 is correct because claimant used the OMB Circular A-21 methodology, but did not obtain federal approval for its indirect cost rate proposals.
- \$639,989 in offsetting fees due to claimant's reporting of offsetting revenue collected, rather than the amount authorized to be charged.

Accordingly, the Commission denies this IRC.

COMMISSION FINDINGS

I. Chronology

- 12/13/2004 Transmittal letter for claimant's fiscal year 2003-2004 reimbursement claim was signed.²³
- 01/17/2006 Transmittal letter for claimant's fiscal year 2004-2005 reimbursement claim was signed.²⁴
- 06/26/2007 Transmittal letter for claimant's fiscal year 2005-2006 reimbursement claim was signed.²⁵
- 10/16/2008 The audit entrance conference was conducted.²⁶
- 06/26/2009 The Controller, Division of Audits, issued its final audit report.²⁷
- 09/24/2009 Claimant filed this incorrect reduction claim.²⁸
- 11/26/2014 The Controller filed comments on the incorrect reduction claim.²⁹
- 05/01/2015 Commission staff issued the draft proposed decision.

II. Background

Health Fee Elimination Program

Prior to 1984, former Education Code section 72246 authorized community college districts that voluntarily provided health supervision and services, direct and indirect medical and hospitalization services, or operation of student health centers to charge almost all students a health service fee not to exceed \$7.50 for each semester or \$5 for each quarter or summer session, to fund these services.³⁰ In 1984, the Legislature repealed the community colleges' fee authority for health services.³¹ However, Legislature also reenacted section 72246, to become

²⁷ Exhibit A, Incorrect Reduction Claim, p. 50.

²⁸ Exhibit A, Incorrect Reduction Claim, p. 1.

²⁹ Exhibit B, Controller's Comments on IRC, p. 1.

³⁰ Former Education Code section 72246 (Stats. 1981, ch. 763) [Low-income students, students that depend upon prayer for healing, and students attending a college under an approved apprenticeship training program, were exempt from the fee.].

³¹ Statutes 1984, 2nd Extraordinary Session 1984, chapter 1, section 4 [repealing Education Code section 72246].

operative on January 1, 1988, to reauthorize the fee at \$7.50 for each semester (or \$5 per quarter or summer semester).³²

In addition to temporarily repealing community college districts' fee authority, Statutes 1984, chapter 1 required any district which provided health services during the 1983-1984 fiscal year, for which it districts were previously authorized to charge a fee, to maintain the health services at the level provided during the 1983-1984 fiscal year for every subsequent fiscal year until January 1, 1988.³³ As a result, community college districts were required to maintain health services provided in the 1983-1984 fiscal year without any fee authority for this purpose until January 1, 1988.

In 1987, the Legislature amended former Education Code section 72246, operative January 1, 1988, to incorporate and extend the maintenance of effort provisions of former Education Code section 72246.5, which became inoperative by its own terms as of January 1, 1988.³⁴ In addition, Statutes 1987, chapter 1118 restated that the fee would be reestablished at not more than \$7.50 for each semester, or \$5 for each quarter or summer semester.³⁵ As a result, beginning January 1, 1988 all community college districts were required to maintain the same level of health services they provided in the 1986-1987 fiscal year each year thereafter, with a limited fee authority to offset the costs of those services.³⁶ In 1992, section 72246 was amended to provide that the health fee could be increased by the same percentage as the Implicit Price Deflator whenever that calculation would produce an increase of one dollar.³⁷

On November 20, 1986, the Commission determined that Statutes 1984, chapter 1 imposed a reimbursable state-mandated new program upon community college districts. On August 27, 1987, the Commission adopted parameters and guidelines for the *Health Fee Elimination* program. On May 25, 1989, the Commission adopted amendments to the parameters and guidelines for the *Health Fee Elimination* program to reflect amendments made by Statutes 1987, chapter 1118.

The parameters and guidelines generally provide that eligible community college districts shall be reimbursed for the costs of providing a health services program, and that only services specified in the parameters and guidelines and provided by the community college in the 1986-1987 fiscal year may be claimed.

³² Statutes 1984, 2nd Extraordinary Session 1984, chapter 1, section 4.5.

³⁵ Education Code section 72246 (as amended, Stats. 1987, ch. 1118).

³⁶ In 1992, section 72246 was amended to provide that the health fee could be increased by the same percentage as the Implicit Price Deflator whenever that calculation would produce an increase of one dollar. (Education Code section 72246 (as amended, Stats. 1992, ch. 753). In 1993, former Education Code section 72246, was renumbered as Education Code section 76355. (Stats. 1993, ch. 8).

³⁷ Education Code section 72246 (as amended, Stats. 1992, ch. 753). In 1993, former Education Code section 72246, was renumbered as Education Code section 76355. (Stats. 1993, ch. 8).

Controller's Audit and Summary of the Issues

The claimant submitted reimbursement claims totaling \$869,531 for costs incurred in fiscal years 2003-2004, 2004-2005, and 2005-2006. The Controller's audit reduced the claims by \$676,727 and determined that \$192,807 was allowable as follows:

- Reduction of \$74,504 for fiscal year 2003-2004 based on asserted faults in the development and application of the indirect cost rate. The claimant developed the indirect cost rate proposal based on the OMB Circular A-21 methodology, but did not obtain federal approval for its proposal. The Controller recalculated indirect costs using the FAM-29C methodology allowed in the claiming instructions.³⁸
- Reduction of \$639,989 for fiscal years 2003-2004, 2004-2005, and 2005-2006 based on offsetting health service fee revenue authorized to be charged, rather than the amount collected by claimant. The Controller recalculated authorized health fee revenue by using student enrollment data that the claimant reported to the Chancellor's Office and health service fee waivers that the claimant's records supported.³⁹

III. Positions of the Parties

Long Beach Community College District

Claimant asserts that the Controller's reduction of \$74,504 in overstated indirect costs on the basis that "the District's indirect cost was not federally approved"⁴⁰ is incorrect. Claimant argues that the claiming instructions are "a statement of the Controller's interpretation and not law..."⁴¹ Claimant also asserts that there is no requirement in law that claimant's indirect costs be claimed by the manner specified by the Controller,⁴² and the Controller did not make findings that claimant's rate was excessive or unreasonable.⁴³ Claimant also asserts that a reduction of \$639,989, based on understated authorized health service fees was incorrect, because the parameters and guidelines require claimants to state offsetting savings "experienced," and claimant did not experience offsetting savings for fees that it did not charge to students.⁴⁴ The claimant also challenged the validity of the audit as to the 2003-2004 fiscal year based on the statutory deadlines applicable to the audit.⁴⁵

⁴⁴ Exhibit A, Incorrect Reduction Claim, pp. 14-15.

⁴⁵ Exhibit A, Incorrect Reduction Claim, p. 17-18.

State Controller's Office

The Controller argues that the IRC should be denied. The Controller asserts that claimant overstated its indirect costs for fiscal year 2003-04 because claimant used the federal OMB Circular A-21, but did not obtain federal approval for its indirect cost rate proposal, as required by the Controller's claiming instructions and by OMB Circular A-21. The Controller asserts that its recalculation of claimant's indirect cost rate using the state Form FAM-29C was reasonable.

The Controller further found that claimant understated its authorized health service fees for the audit period by \$639,989. Using enrollment and exemption data, the Controller recalculated the health fees that claimant was authorized to collect, and reduced the claim by the amount not stated as offsetting revenues.⁴⁶ The Controller argues that, "to the extent community college districts can charge a fee, they are not required to incur a cost."⁴⁷

The Controller asserts that because the claimant has not received payment for the 2003-2004 fiscal year claim, the requirements of Government Code section 17558.5(a) were met when it initiated its audit on October 16, 2008.⁴⁸

IV. Discussion

Government Code section 17561(b) authorizes the Controller to audit the claims filed by local agencies and school districts and to reduce any claim for reimbursement of state mandated costs that the Controller determines is excessive or unreasonable.

Government Code Section 17551(d) requires the Commission to hear and decide a claim that the Controller has incorrectly reduced payments to the local agency or school district. If the Commission determines that a reimbursement claim has been incorrectly reduced, section 1185.9 of the Commission's regulations requires the Commission to send the statement of decision to the Controller and request that the costs in the claim be reinstated.

The Commission must review questions of law, including interpretation of the parameters and guidelines, *de novo*, without consideration of legal conclusions made by the Controller in the context of an audit. The Commission is vested with exclusive authority to adjudicate disputes over the existence of state-mandated programs within the meaning of article XIII B, section 6.⁴⁹ The Commission must also interpret the Government Code and implementing regulations in accordance with the broader constitutional and statutory scheme. In making its decisions, the Commission must strictly construe article XIII B, section 6 and not apply it as an "equitable remedy to cure the perceived unfairness resulting from political decisions on funding priorities."⁵⁰

⁴⁶ Exhibit A, Incorrect Reduction Claim, p.61.

⁴⁷ Exhibit B, Controller's Comments on IRC, p. 20.

⁴⁸ Exhibit B, Controller's Comments on IRC, p. 22.

⁴⁹ *Kinlaw v. State of California* (1991) 54 Cal.3d 326, 331-334; Government Code sections 17551, 17552.

⁵⁰ *County of Sonoma, supra*, 84 Cal.App.4th 1264, 1280, citing *City of San Jose v. State of California* (1996) 45 Cal.App.4th 1802, 1817.

With regard to the Controller’s audit decisions, the Commission must determine whether they were arbitrary, capricious, or entirely lacking in evidentiary support. This standard is similar to the standard used by the courts when reviewing an alleged abuse of discretion of a state agency.⁵¹ Under this standard, the courts have found that:

When reviewing the exercise of discretion, “[t]he scope of review is limited, out of deference to the agency’s authority and presumed expertise: ‘The court may not reweigh the evidence or substitute its judgment for that of the agency. [Citation.]’” ... “In general ... the inquiry is limited to whether the decision was arbitrary, capricious, or entirely lacking in evidentiary support. . . .” [Citations.] When making that inquiry, the “ ‘ ‘court must ensure that an agency has adequately considered all relevant factors, and has demonstrated a rational connection between those factors, the choice made, and the purposes of the enabling statute.’ ”⁵²

The Commission must review also the Controller’s audit in light of the fact that the initial burden of providing evidence for a claim of reimbursement lies with the claimant.⁵³ In addition, sections 1185.1(f)(3) and 1185.2(c) of the Commission’s regulations require that any assertions of fact by the parties to an IRC must be supported by documentary evidence. The Commission’s ultimate findings of fact must be supported by substantial evidence in the record.⁵⁴

A. The Controller Met the Statutory Deadlines for the 2003-2004 Fiscal Year Audit Imposed by Government Code Section 17558.5.

The claimant asserts that the audit of the 2003-2004 claim was not timely initiated under Government Code section 17558.5, based on the filing date of the claim (December 13, 2004), and the date that the audit entrance conference took place (October 16, 2008)⁵⁵. The claimant further argues that the clause in section 17558.5, which delays the commencement of the time for the Controller to audit to the date of initial payment when no payment has been made, “is void because it is impermissibly vague,” and that the filing date of the claim should control.⁵⁶

⁵¹ *Johnston v. Sonoma County Agricultural* (2002) 100 Cal.App.4th 973, 983-984. See also *American Bd. of Cosmetic Surgery, Inc. v. Medical Bd. of California* (2008) 162 Cal.App.4th 534, 547.

⁵² *American Bd. of Cosmetic Surgery, Inc, supra*, 162 Cal.App.4th at pp. 547-548.

⁵³ *Gilbert v. City of Sunnyvale* (2005) 130 Cal.App.4th 1264, 1274-1275.

⁵⁴ Government Code section 17559(b), which provides that a claimant or the state may commence a proceeding in accordance with the provisions of section 1094.5 of the Code of Civil Procedure to set aside a decision of the Commission on the ground that the Commission’s decision is not supported by substantial evidence in the record.

⁵⁵ Exhibit A, Incorrect Reduction Claim, p. 17.

⁵⁶ Exhibit A, Incorrect Reduction Claim, p. 20.

The Controller does not dispute the filing date of the 2003-2003 claim, but asserts that the claim was not paid.⁵⁷ The Controller concludes that the audit was timely initiated because section 17558.5 provides for a timely audit to be initiated after payment is made.⁵⁸

Section 17558.5, as applicable to the fiscal year claim here at issue, requires a valid audit to be initiated no later than three years after the date that the reimbursement claim is filed or last amended. However, the section also plainly provides that if no funds are appropriated or no payment is made “to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim.”⁵⁹

The Commission finds that the Controller timely initiated the audit of the 2003-2004 reimbursement claim. The fiscal year 2003-2004 reimbursement claim was filed on December 13, 2004, but was not paid, based on the evidence in the record.⁶⁰ Statutes 2002, chapter 1128, which amended Government Code section 17558.5, is a duly enacted statute and must be presumed valid and constitutional.⁶¹ Article III, section 3.5 of the California Constitution states that an administrative agency has no power “[t]o declare a statute unenforceable, or refuse to enforce a statute, on the basis of it being unconstitutional unless an appellate court has made a determination that such statute is unconstitutional...”

Therefore, the time to initiate an audit, in this case, had not commenced to run and the audit initiated no later than October 16, 2008 was timely.

The Commission further finds that the audit of the reimbursement claims at issue in this case was timely completed. Effective January 1, 2005, before the audit in this case was initiated, Government Code section 17558.5 was amended to require for the first time that “an audit shall be completed not later than two years after the date that the audit is commenced,” which in this case would be no later than October 16, 2010.

Here, the audit was completed when the final audit report was issued on June 26, 2009, well before the two year deadline of October 16, 2010, to complete the audit.

Based on the foregoing, the Commission finds that the audit of the District’s reimbursement claims is not barred by the statutory deadlines in section 17588.5.

⁵⁷ Exhibit B, Controller’s Comments on IRC, p. 22.

⁵⁸ Exhibit B, Controller’s Comments on IRC, p. 22.

⁵⁹ Government Code section 17558.5, as amended by Statutes 2002, chapter 1128.

⁶⁰ The Legislature deferred payment for this mandated program in fiscal years 2003-2004 and 2004-2005 by appropriating \$1,000 for the program. (Stats. 2003, ch. 157, and Stats. 2004, ch. 208, Item 6870-295-0001, schedule 1.) The Fourth District Court of Appeal in *CSBA v. State of California* (2011) 192 Cal.App.4th 770, 791, concluded that “the Legislature’s practice of nominal funding of state mandates [an appropriation of \$1,000] with the intention to pay the mandate in full with interest at an unspecified time does not constitute a funded mandate under the applicable constitutional and statutory provisions.”

⁶¹ *Kraus v. Trinity Management Services, Inc.* (2000) 23 Cal.4th 116, 129.

B. The Controller's Recalculation and Reduction of Indirect Costs Claimed is Correct as a Matter of Law and Not Arbitrary, Capricious or Entirely Lacking in Evidentiary Support.

The Controller reduced indirect costs claimed by a total of \$74,504 for fiscal year 2003-04. Claimant used the OMB Circular A-21 to calculate its indirect cost rate, using expenditures from the prior year's CCFS-311 Annual Financial and Budget Report, but claimant failed to obtain federal approval as required by the claiming instructions and the OMB Circular A-21. The Controller recalculated indirect costs for fiscal year 2003-04 using the state Form FAM-29C allowed in the claiming instructions.⁶²

Claimant disputes the Controller's findings that the indirect cost rate proposal was incorrectly applied, charging that the Controller's conclusions were without basis in the law.

1. The parameters and guidelines expressly require claimants to claim indirect costs in the manner described in the Controller's claiming instructions, which in turn provide for an indirect cost rate developed in accordance with federal OMB Circular A-21 guidelines or the state Form FAM-29C.

If the Commission approves a test claim and determines there are costs mandated by the state, parameters and guidelines are required to be adopted to determine the amount to be subvended.⁶³ Parameters and guidelines, in addition to identifying the reimbursable activities, provide instructions for eligible claimants to prepare reimbursement claims for the direct and indirect costs of a state-mandated program.⁶⁴ The Commission's adoption of parameters and guidelines is quasi-judicial and, therefore, the parameters and guidelines are final and binding on the parties unless set aside by a court pursuant to Government Code section 17559.⁶⁵ Claimants are required as a matter of law to file reimbursement claims in accordance with the parameters and guidelines.⁶⁶ Moreover, the parameters and guidelines cannot be amended by the Commission absent the filing of a request to amend the parameters and guidelines by a local government or state agency pursuant to Government Code section 17557. In this case, the parameters and guidelines for the *Health Fee Elimination* program have not been challenged, and no party has requested they be amended. The parameters and guidelines are therefore binding and must be applied to the reimbursement claims here.

⁶² Exhibit A, Incorrect Reduction Claim, p.58.

⁶³ Government Code section 17557.

⁶⁴ Government Code section 17557; California Code of Regulations, title 2, section 1183.7.

⁶⁵ *California School Boards Assoc. v. State of California* (2009) 171 Cal.App.4th 1183, 1200, which stated the following: "[U]nless a party to a quasi-judicial proceeding challenges the agency's adverse findings made in that proceeding, by means of a mandate action in superior court, those findings are binding in later civil actions." [Citation omitted.]

⁶⁶ Government Code sections 17561(d)(1); 17564(b); and 17571. See also, *Clovis Unified School Dist. v. Chiang* (2010) 188 Cal.App.4th 794, 799, finding that the parameters and guidelines are regulatory.

Section VI of the parameters and guidelines provide that “*indirect costs may be claimed in the manner described by the State Controller in his claiming instructions.*”⁶⁷ Claimant argues that the word “may” in the indirect cost language of the parameters and guidelines is permissive, and that therefore the parameters and guidelines do not require that indirect costs be claimed in the manner described by the Controller.⁶⁸

Claimant’s argument is unsound: the parameters and guidelines plainly state that “indirect costs may be claimed in the manner described by the State Controller in his claiming instructions.” The interpretation that is consistent with the plain language of the parameters and guidelines is that “indirect costs may be claimed,” or may not, but if a claimant chooses to claim indirect costs, the claimant must adhere to the parameters and guidelines and claim indirect costs in the manner described in the Controller’s claiming instructions.

Claimant also argues that because the claiming instructions “were never adopted as law, or regulations pursuant to the Administrative Procedure Act, the claiming instructions are merely a statement of the Controller’s interpretation and not law.”⁶⁹ The parameters and guidelines, which were duly adopted at a Commission hearing and are regulatory in nature, require compliance with the claiming instructions. As indicated above, the parameters and guidelines, never having been challenged or amended at the request of the parties, are binding.

The claiming instructions specific to the *Health Fee Elimination* mandate, are found in the School Mandated Cost Manual which is revised each year and which also contains claiming instructions applicable to all school and community college mandated programs. The cost manual issued by the Controller’s Office in September 2004, governs the reimbursement claim filed for the 2003-04 fiscal year reimbursement claim in this case.⁷⁰ This cost manual allows claimants to use the OMB Circular A-21 methodology with federal approval or the FAM-29C:⁷¹

A community college has the option of using a federally approved rate, utilizing the cost accounting principles from *Office of Management and Budget Circular A-21* “Cost Principles for Educational Institutions,” or the Controller’s methodology outlined in the following paragraphs.

The Controller allows the following methodology for use by community colleges in computing an indirect cost rate for state mandates. The objective of this computation is to determine an equitable rate for use in allocating administrative support to personnel that performed the mandated cost activities claimed by the community college. This methodology assumes that administrative services are provided to all activities of the institution in relation to the direct costs incurred in the performance of those activities. *Form FAM-29C* has been developed to assist the community college in computing an indirect cost rate for state mandates. . . .

[¶]

⁶⁷ Exhibit A, Incorrect Reduction Claim, p. 33.

⁶⁸ Exhibit A, Incorrect Reduction Claim, p. 10.

⁶⁹ Exhibit A, Incorrect Reduction Claim, pp. 10-11.

⁷⁰ Exhibit B, Controller’s Comments on IRC, pp. 25-29.

⁷¹ Exhibit B, Controller’s Comments on IRC, p. 26.

The [FAM-29C] computation is based on total expenditures as reported in “California Community Colleges Annual Financial and Budget Report, Expenditures by Activity (CCFS-311).” Expenditures classified by activity are segregated by the function they serve. Each function may include expenses for salaries, fringe benefits, supplies, and capital outlay. OMB Circular A-21 requires expenditures for capital outlays to be excluded from the indirect cost rate computation.⁷²

If the claimant uses the OMB Circular A-21 methodology, federal approval of the indirect cost rate is required. The OMB Circular A-21 establishes principles for determining costs applicable to grants, contracts, and other agreements between the federal government and educational institutions. Section G(11) of the OMB Circular A-21 governs the determination of indirect cost rates and requires the federal approval of a proposed rate by the “cognizant federal agency,” which is normally either the Federal Department of Health and Human Services or the Department of Defense’s Office of Naval Research.⁷³

Therefore, the Commission finds that the parameters and guidelines expressly require claimants to claim indirect costs in the manner described in the Controller’s claiming instructions, which in turn provide that an indirect cost rate may be developed in accordance with federal OMB guidelines or the state Form FAM-29C.

2. Claimant did not comply with the requirements of the parameters and guidelines, claiming instructions, and the OMB Circular in developing and applying its indirect cost rate for 2003-2004. Therefore, the Controller’s reduction is correct as a matter of law and the recalculation of the indirect cost rate using the Fam-29C was not arbitrary, capricious, or entirely lacking in evidentiary support.

Here, claimant used a valid methodology, the OMB Circular A-21, but failed to obtain federal approval for that rate as required in the OMB Circular A-21, and the claiming instructions. Therefore, the reduction of costs is correct as a matter of law.

The Commission further finds that the Controller’s recalculation of indirect costs using the Fam-29C is not arbitrary, capricious or entirely lacking in evidentiary support. The methodology is expressly allowed by the claiming instructions. The Controller’s allowable rate was 17.00 percent for fiscal year 2003-2004.⁷⁴

Accordingly, the Commission finds that the Controller’s reduction is correct as a matter of law and the recalculation of the indirect cost rate using the state Form FAM-29C rate was not arbitrary, capricious, or entirely lacking in evidentiary support.

C. The Controller’s Reduction for Understated Offsetting Revenues is Correct as a Matter of Law, and Not Arbitrary, Capricious, or Entirely Lacking in Evidentiary Support.

⁷² Exhibit B, Controller’s Comments on IRC, p. 26.

⁷³ Exhibit X, OMB Circular A-21.

⁷⁴ Exhibit A, Incorrect Reduction Claim, p. 58.

The Controller reduced costs for the three fiscal years by \$639,989 because claimant understated its offsetting health service fee authority and instead claimed only fees collected.⁷⁵ These reductions were made on the basis of the fee authority available to the claimant, multiplied by the number of students subject to the fee, less the amount of offsetting revenue claimed.

Claimant disputes the reduction, arguing that the relevant Education Code provisions permit, but do not require, a community college to levy a health services fee, and that the parameters and guidelines require a community college to deduct from its reimbursement claims “[a]ny offsetting savings that the claimant experiences as a direct result of this statute....”⁷⁶ The Claimant argues that “[i]n order for the district to ‘experience’ these ‘offsetting savings’ the District must actually have collected these fees.”⁷⁷ Claimant concluded that “[s]tudent fees actually collected must be used to offset costs, but not student fees that could have been collected and were not.”⁷⁸

The Commission finds that the issue of offsetting revenue from student health fees has been resolved by the *Clovis Unified* decision, and that the reduction is correct as a matter of law.

After claimant filed its IRC, the Third District Court of Appeal issued its opinion in *Clovis Unified*, which specifically addressed the Controller’s practice of reducing claims of community college districts by the maximum fee amount that districts are statutorily authorized to charge students, whether or not a district chooses to charge its students those fees. As cited by the court, the Health Fee Rule states in pertinent part:

Eligible claimants will be reimbursed for health service costs at the level of service provided in the 1986/87 fiscal year. The reimbursement will be reduced by the amount of student health fees authorized per the Education Code [section] 76355.⁷⁹ (Underline in original.)

The Health Fee Rule relies on Education Code section 76355(a), which provides in relevant part:

(a)(1) The governing board of a district maintaining a community college may require community college students to pay a fee in the total amount of not more than ten dollars (\$10) for each semester, seven dollars (\$7) for summer school, seven dollars (\$7) for each intersession of at least four weeks, or seven dollars (\$7) for each quarter for health supervision and services, including direct or indirect medical and hospitalization services, or the operation of a student health center or centers, or both.

(a)(2) The governing board of each community college district may increase [the health service fee] by the same percentage increase as the Implicit Price Deflator for State and Local Government Purchase of Goods and Services. Whenever that

⁷⁵ Exhibit A, Incorrect Reduction Claim, p. 14.

⁷⁶ Exhibit A, Incorrect Reduction Claim, p. 14.

⁷⁷ Exhibit A, Incorrect Reduction Claim, p. 15.

⁷⁸ Exhibit A, Incorrect Reduction Claim, p. 15.

⁷⁹ *Clovis Unified School Dist. v. Chiang, supra*, 188 Cal.App.4th 794, 811.

calculation produces an increase of one dollar (\$1) above the existing fee, the fee may be increased by one dollar (\$1).⁸⁰

The court in *Clovis Unified* upheld the Controller’s use of the Health Fee Rule to reduce reimbursement claims based on the fees districts are *authorized* to charge. In making its decision the court notes that the concept underlying the state mandates process that Government Code sections 17514 and 17556(d) embody is:

To the extent a local agency or school district “has the authority” to charge for the mandated program or increased level of service, that charge cannot be recovered as a state-mandated cost.⁸¹

The court also notes that, “this basic principle flows from common sense as well. As the Controller succinctly puts it, ‘Claimants can choose not to require these fees, but not at the state’s expense.’”⁸² Additionally, in responding to the community college districts’ argument that, “since the Health Fee Rule is a claiming instruction, its validity must be determined *solely* through the Commission’s P&G’s,”⁸³ the court held:

To accept this argument, though, we would have to ignore, and so would the Controller, the fundamental legal principles underlying state-mandated costs. We conclude *the Health Fee Rule is valid*.⁸⁴ (Italics added.)

Thus, pursuant to the court’s decision in *Clovis Unified*, the Health Fee Rule used by the Controller to adjust reimbursement claims filed by claimants for the *Health Fee Elimination* program is valid. Since the *Clovis* case is a final decision of the court addressing the merits of the issue presented here, the Commission, under principles of stare decisis, is required to apply the rule set forth by the court.⁸⁵ In addition, the *Clovis* decision is binding on the claimant under principles of collateral estoppel.⁸⁶ Collateral estoppel applies when (1) the issue necessarily decided in the previous proceeding is identical to the one that is currently being decided; (2) the previous proceeding terminated with a final judgment on the merits; (3) the party against whom collateral estoppel is asserted is a party to or in privity with a party in the previous proceeding; and (4) the party against whom the earlier decision is asserted had a full and fair opportunity to

⁸⁰ Education Code section 76355(d)(2) (Stats. 1993, ch. 8 (AB 46); Stats. 1993, ch. 1132 (AB 39); Stats. 1994, ch. 422 (AB 2589); Stats. 1995, ch. 758 (AB 446); Stats. 2005, ch. 320 (AB 982)) [Formerly Education Code section 72246(e) (Stats. 1987, ch. 118)].

⁸¹ *Clovis Unified School Dist. v. Chiang, supra*, 188 Cal.App.4th 794, 812.

⁸² *Ibid.*

⁸³ *Ibid.* (Original italics.)

⁸⁴ *Clovis Unified School Dist. v. Chiang, supra*, 188 Cal.App.4th 794, 812.

⁸⁵ *Fenske v. Board of Administration* (1980) 103 Cal.App.3d 590, 596.

⁸⁶ The petitioners in the *Clovis* case included Clovis Unified School District, El Camino Community College District, Fremont Unified School District, Newport-Mesa Unified School District, Norwalk-La Mirada Unified School District, Riverside Unified School District, San Mateo Community College District, Santa Monica Community College District, State Center Community College District, and Sweetwater Union High School District.

litigate the issue.⁸⁷ Here, the claimant was in privity with parties to the *Clovis* action, and under principles of collateral estoppel, the court's decision is binding on the claimant with respect to these reimbursement claims.⁸⁸

The Commission further finds that the Controller's recalculation of offsetting revenues authorized to be charged, using student enrollment data that claimant reported to the California Community College Chancellor's Office and student waiver data supported by claimant's records, was not arbitrary, capricious, or entirely lacking in evidentiary support. The Controller calculated the offsetting revenue using student enrollment and Board of Governors Grant (BOGG) recipient data obtained from the California Community Colleges Chancellor's Office.⁸⁹ For all terms, except Spring 2006, the number of enrolled students was reduced by the number of BOGG recipients, in order to calculate the number students who could have been charged a health fee.⁹⁰ This number was then multiplied by the authorized health service fee rate to determine the total authorized health service fee.⁹¹ The CCCCCO data is based on student data that the claimant reported. This data is a public record maintained by the claimant in the normal course of business, and claimant has provided no other documents to support the offsetting health service fee revenue authorized for this program.

Accordingly, the Commission finds that the Controller's reduction for understated offsetting revenues is correct as a matter of law, and not arbitrary, capricious or entirely lacking in evidentiary support.

V. Conclusion

Pursuant to Government Code section 17551(d), the Commission finds that the audit of the 2003-2004 reimbursement claim was timely, and that the reductions to the following costs are correct as a matter of law, and not arbitrary, capricious, or entirely lacking in evidentiary support:

- \$74,504 for fiscal year 2003-2004 because claimant developed the indirect cost rate proposal based on the OMB Circular A-21 methodology, but did not obtain federal approval.

⁸⁷ *Roos v. Red* (2006) 130 Cal.App.4th 870, 879-880.

⁸⁸ *Ibid.* Collateral estoppel applies when (1) the issue necessarily decided in the previous proceeding is identical to the one that is currently being decided; (2) the previous proceeding terminated with a final judgment on the merits; (3) the party against whom collateral estoppel is asserted is a party to or in privity with a party in the previous proceeding; and (4) the party against whom the earlier decision is asserted had a full and fair opportunity to litigate the issue.

⁸⁹ Exhibit A, Incorrect Reduction Claim, p. 61.

⁹⁰ Exhibit A, Incorrect Reduction Claim, pp. 61-62. The BOGG recipients were not deducted for Spring 2006 because, effective January 31, 2006 the exemption for the fee for BOGG recipients was removed in what was formerly Education Code section 76355(3)(c). [Education Code section 76355(c)(3) (Stats. 2005, ch. 320 (AB 982)).]

⁹¹ Exhibit A, Incorrect Reduction Claim, p. 61-62.

- \$639,989 for fiscal years 2003-2004, 2004-2005 and 2005-2006 based on offsetting health service fee revenue authorized to be charged, rather than the amount collected by claimant.

Based on the foregoing, the Commission denies this IRC.

DECLARATION OF SERVICE BY EMAIL

I, the undersigned, declare as follows:

I am a resident of the County of Solano and I am over the age of 18 years, and not a party to the within action. My place of employment is 980 Ninth Street, Suite 300, Sacramento, California 95814.

On May 1, 2015, I served the:

Draft Proposed Decision, Schedule for Comments, and Notice of Hearing

Health Fee Elimination, 09-4206-I-22

Education Code Section 76355, Statutes 1984, Chapter 1 (1983-1984 2nd Ex. Sess.)
