COMMISSION ON STATE MANDATES

Heather Halsey, Executive Director
Commission on State Mandates
980 Ninth Street, Suite 300
Sacramento, CA 95814

RE: 498/83 Graduation Requirements
Grossmont Union High School District
Fiscal Years 2008-09 and 2009-10
Incorrect Reduction Claim #4

Dear Ms. Halsey:

Enclosed is the original and two copies of the above referenced incorrect reduction claim for the Grossmont Union High School District. Each set includes nine binders in two shipping boxes, for a total of six shipping boxes.

The law firm of Dannis Woliver Kelley has been appointed by the District as its representative for this matter:

Christian M. Keiner, Esq.
Dannis Woliver Kelley
555 Capitol Mall, Suite 645
Sacramento, CA 95814
Telephone: 916-978-4040
Facsimile: 916-978-4039
E-mail: ckeiner@dwkesq.com

All interested parties should direct their inquiries to Mr. Keiner with a copy to the District as follows:

Scott Patterson, Deputy Superintendent of Business Services
Grossmont Union High School District
P.O. Box 1043
La Mesa, CA 91944-1043
Voice: (619) 644-8010
Fax: (619) 465-6251
spatterson@guhsd.net

If there any questions, please contact Mr. Keiner.

Sincerely,

Keith B. Petersen

Enclosure: Incorrect Reduction Claim (Original and 2 copies)

C: Scott Patterson, Deputy Superintendent of Business Services
Grossmont Union High School District

Christian M. Keiner. Esq., Dannis Woliver Kelley

COMMISSION ON STATE MANDATES

1. INCORRECT REDUCTION CLAIM TITLE

498/83 Graduation Requirements #4

The District has filed and the Commission has decided three previous incorrect reduction claims for this mandate.

2. CLAIMANT INFORMATION

Scott Patterson
Deputy Superintendent of Business Services
Grossmont Union High School District
P.O. Box 1043
La Mesa, CA 91944-1043
Voice: (619) 644-8010
Fax: (619) 465-6251
spatterson@guhsd.net

3. CLAIMANT REPRESENTATIVE INFORMATION

Claimant designates the following person to act as its sole representative in this incorrect reduction claim. All correspondence and communications regarding this claim shall be forwarded to this representative. Any change in representation must be authorized by the claimant in writing, and sent to the Commission on State Mandates.

Christian M. Keiner. Esq.
Dannis Woliver Kelley
555 Capitol Mall, Suite 645
Sacramento, CA 95814
Telephone: 916-978-4040
Facsimile: 916-978-4039
E-mail: ckeiner@dwkesq.com

BEFORE THE

COMMISSION ON STATE MANDATES

STATE OF CALIFORNIA

INCORRECT REDUCTION CLAIM #4:	No. CSM# _____
Filed By	Chapter 498, Statutes of 1983
	Education Code Section 51225.3
Grossmont Union High School District	Graduation Requirements
	Annual Reimbursement Claim:
Claimant	Fiscal Year 2008-09 (Amended) Fiscal Year 2009-10 (Amended)

INCORRECT REDUCTION CLAIM FILING

PART I. AUTHORITY FOR THE INCORRECT REDUCTION CLAIM

The Commission on State Mandates has the authority pursuant to Government Code Section 17551(d) " . . . to hear and decide upon a claim by a local agency or school district, filed on or after January 1, 1985, that the Controller has incorrectly reduced payments to the local agency or school district pursuant to paragraph (2) of subdivision (d) of Section 17561." Grossmont Union High School District (hereinafter "District" or "Claimant") is a school district as defined in Government Code Section 17519. Title 2, CCR, Section 1185.1, subdivision (a), requires the claimant to file an

incorrect reduction claim with the Commission.

This incorrect reduction claim is timely filed. Title 2, CCR, Section 1185.1, subdivision (c), requires incorrect reduction claims to be filed no later than three years following the date of the Controller's notice to the claimant of a reduction in payment for an annual claim. A Controller's audit report dated June 21, 2016, has been issued. See Exhibit "A." A Controller's claim action notice letter dated July 1, 2016, has been issued for each annual claim that constitutes notice of the field audit findings that resulted in a claim payment reduction. See Exhibit "B." The audit report and claim action letters each and both constitute a final adjudication of the claim and notice of payment reduction.

There is no alternative dispute resolution process available from the Controller's office. The June 21, 2016, audit report transmittal letter states that an incorrect reduction claim should be filed with the Commission if the claimant disagrees with the audit findings.

PART II. PREVIOUS INCORRECT REDUCTION CLAIMS

This District has filed three previous incorrect reduction claims since 1993 and other districts have filed incorrect reduction claims for this mandate program on various issues and subject matter. The claimant is informed and believes that as many as fifty incorrect reduction claims have been filed and decided and these claims are available as public information at the Commission web site. This mandate has also been the subject of litigation in which the Commission on State Mandates has been a party or

otherwise participated.

PART III. STATE CONTROLLER ANNUAL CLAIMS AUDIT RESULTS

The Controller conducted a field audit of the District's amended annual reimbursement claims for Fiscal Years 2008-09 and 2009-10 for the costs of complying with the legislatively mandated program 498/83 Graduation Requirements. The Controller adjusted the amended annual claims for Fiscal Years 2008-09 and 2009-10 as follows:

Fiscal Year	Amount Claimed	Audit Adjustment	SCO Payments	Amount Due <State> District
2008-09 A	$ 7,224,046	$4,312,320	$ 0	$2,911,726
2009-10 A	$13,997,548	$11,273,512	$ 10	$2,724,036
Totals	$21,221,594	$15,585,832	$ 10	$5,635,762

The audit report states that $5,635,752 is due to the District.

PART IV. DISTRICT'S RESPONSE TO THE AUDIT

By letter dated May 5, 2016, the Controller (Jeffrey V. Brownfield, Chief, Division of Audits) transmitted to the District a copy of the draft audit report. By letter dated May 13, 2016, the District responded to the Controller (Jim L. Spano, Chief, Mandated Costs Audits Bureau, Division of Audits) and objected to the proposed adjustments set forth in the draft audit report. A copy of the District's letter of May 13, 2016, is included as an attachment to the final audit report (Exhibit "A") and is incorporated in this claim by reference. The Controller then issued its final audit report on June 21, 2016, without substantial change from the draft audit report.

PART V. BASIS FOR MANDATE PROGRAM REIMBURSEMENT

A. Mandate Legislation

Chapter 498, Statutes of 1983, added Education Code Section 51225.3 which requires that, beginning with the 1986-87 school year, no pupil shall receive a high school diploma without completing at least two courses in science (biological and physical).

B. Test Claim

On April 25, 1985, Santa Barbara High School filed a test claim which was rejected. On November 11, 1985, the test claim was resubmitted. Santa Barbara claimed two additional science teachers in fiscal year 1984-85 and a third additional teacher in fiscal year 1985-86. Santa Barbara High School District also claimed the costs of designing, renovating and constructing science labs, furniture expenses, the costs of supplies and additional teaching staff. The test claimant did not allege any savings and/or fees collected to offset the increased science classroom costs.

On January 22, 1987, the Commission on State Mandates adopted a Statement of Decision finding that the Graduation Requirements test claim constitutes a reimbursable state-mandated program by requiring students, beginning with the 1986-1987 school year, to complete at least two courses in science before receiving a high school diploma. Under prior law, the Education Code only required the completion of one science course.

/

C. Commission on State Mandates Parameters and Guidelines

Date	Chronology
03/23/88	Commission adopts original parameters and guidelines on consent
08/24/88	First Amendment: Commission adopts non-substantive amendment to parameters and guidelines.
01/24/91	Second Amendment: Commission amends parameters and guidelines to specifically require documentation to demonstrate actual need for capital improvements, as directed by Statutes 1990,Chapter 459.
12/09/05	Third Amendment: Commission amends parameters and guidelines to require school districts to reduce a valid reimbursement claim for a new science facility by the amount of state bond funds received, as directed by Statutes 2004, chapter 895, section 17 (AB 2855)
11/06/08	Fourth Amendment: Commission amends parameters and guidelines to replace the actual cost claiming method with a reasonable reimbursement methodology for claiming increased teacher salary costs for staffing the new mandated science class: adds language regarding the reimbursement of teacher salary costs to Section X, Offsetting Savings, consistent with the court's ruling in *San Diego Unified School District v. Commission on State Mandates*, Sacramento County Superior Court Case No. 03CS01401; and, identifies funds appropriated from restricted resources specifically to pay teacher salary costs and instructional materials in Section IX, Offsetting Revenue and Other Reimbursements.
12/18/08	Commission corrects the fourth amended parameters and guidelines to delete references to filing estimated reimbursement claims, because pursuant to Statutes 2008, chapter 6 (AB 8), estimated claims are no longer authorized.
01/23/11	11-PGA-03 filed by the Department of Finance regarding the offset of state general funds to increased science teacher costs. (The offset of state general funding to school districts is not an issue in this incorrect reduction claim.)
09/23/11	The Graduation Requirements Mandate Resolution Committee ("GRMRC") requests that the Commission postpone any further action on the above request to amend the *Graduation Requirements* Parameters

and Guidelines, including the filing of responses to the above Request, since the legality of the underlying statute on which the Request is based is the subject of a Declaratory Relief action currently pending in the Alameda County Superior Court (*California School Boards Association* v. *The State of California*, Case No. RG11554698, filed January 6, 2011).

06/19/12 The Commission grants the GRMRC request to postpone the request to amend the parameters and guidelines pending the decision from the pending court case.

The current (fourth) version of parameters and guidelines (adopted November 6, 2008, and as corrected December 18, 2008), is effective for annual claims filed beginning January 1, 2005, and is attached as Exhibit "C," The reimbursable activities as stated in parameters and guidelines (p. 3):

"V. REIMBURSABLE ACTIVITIES

For each eligible claimant, the following activities are reimbursable:

A. Acquisition (planning, design, land, demolition, building construction, fixtures, and facility rental) of additional space necessary for the mandated additional year of science instruction, providing that space is lacking in existing facilities. However, the acquisition of additional space for conducting new science classes are reimbursable only to the extent that districts can document that this space would not have been otherwise acquired due to increases in the number of students enrolling in high school, and that it was not feasible, or would be more expensive, to acquire space by remodeling existing facilities.

B. Acquisition (planning, purchasing, and placement) of additional equipment and furniture necessary for the mandated additional year of science instruction.

C. Remodeling planning, design, demolition, building construction, fixtures, and interim facility rental) existing space required for the mandated additional year of science instruction essential to maintaining a level of instruction sufficient to meet college admission requirements.

D. Increased cost to school district for staffing the new science class

mandated. Reimbursement for this activity is based on the reasonable reimbursement methodology identified in Section XII of these parameters and guidelines.

Reimbursement is not required for other (non-classroom teacher) science instruction personnel (e.g., laboratory assistants).

E. Increased cost for supplying the new science class mandated with science instructional materials (textbooks, materials, and supplies).

D. Controller's Claiming Instructions

The claiming instructions do not modify the scope of reimbursable activities as stated in the parameters and guidelines. The several pages of the relevant claiming instructions forms for Program 297 indicate revisions dated May, June, September, and October 2009 for FY 2008-09, and August and October 2010, for FY 2009-10. These forms are included in the Controller's June 3, 2016, response (Exhibit "D") to the District's May 13, 2016 public information request. However, because the Controller's claim forms and instructions have not been adopted as regulations, they have no force of law, and therefore, have no effect on the outcome of the claim.

PART VI. STATEMENT OF THE ISSUES

1. THRESHOLD ISSUES

There are three threshold issues of fact and law that will determine the permitted scope and jurisdiction of the audit and findings.

A. Statute of Limitations for Audit

The District asserts that the annual claim for FY 2009-10 was beyond the statute of limitations to start the audit based on when the Controller issued the audit entrance

conference notice letter dated January 6, 2015.

Chronology of FY 2009-10 Annual Claim Action Dates

January 26, 2011	FY 2009-10 annual claim filed by the District
November 29, 2011	SCO payment of $10 for FY 2009-10 (MA13709B)
January 24, 2012	FY 2009-10 amended annual claim filed by the District
November 29, 2014	3-year statute to start the audit expires
January 6, 2015	Audit entrance conference notice letter (Exhibit "A")

Government Code Section 17558.5 (as amended by Statutes of 2004, Chapter 890, Section 18, operative January 1, 2005) states:

> (a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced.

No payment was made for the original or amended FY 2009-10 claim in the fiscal year for which the claim was made. Therefore, the findings are void for FY 2009-10, due to lack of jurisdiction (more than three years) for the audit based on the date of the initial payment of the original claim. The application of "initial" payments to both an original and amended claim may be an issue of first impression for the Commission.

B. Audit Standards

The District asserts that the Controller either used the wrong audit standard for

the audit or has misconstrued the actual nature and scope of the audit. A "performance audit" was not conducted as stated by the Controller and the findings were not based on the legal standard of reasonableness of the costs claimed.

The Controller's June 3, 2016, response to the District's May 13, 2016, public information request states that:

> The SCO conducted its audit under the authority of Government Code sections 12410, 17558.5, and 17561.
>
> The SCO conducted its audit according to generally accepted government audit standards (*Government Audit Standards*, issued by the U.S. Government Accountability Office, December, 2011)

Note that the date of the referenced GAO guide is December 2011, which is after the fiscal years audited. The June 21, 2016, final audit report (p.1, 2) states:

> Objectives, Scope, and Methodology
>
> We conducted *this performance audit* to determine whether costs claimed represent increased costs resulting from the Graduation Requirements Program for the period of July 1, 2008, through June 30, 2010.
>
> The legal authority to conduct this audit is provided by Government Code sections 12410, 17558.5, and 17561. We did not audit the district's financial statements. We conducted this audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.
>
> We limited our review of the district's internal controls to gaining an understanding of the transaction flow and claim preparation process as necessary to develop appropriate auditing procedures. *Our audit scope did not assess the efficiency or effectiveness of program operations.* We did not audit the district's financial statements.

The objectives of our audit were to determine whether costs claimed were *supported by appropriate source documents*, were not funded by another source, and were not unreasonable and/or excessive.

To achieve our audit objectives, we performed the following procedures:

- Reviewed annual claims filed with SCO to identify any mathematical errors and performed analytical procedures to determine any unusual or unexpected variances from year to year.

- Completed an internal control questionnaire and performed a walk-through of the claim preparation process to determine what information was used, who obtained the information and how the information was obtained.

- Assessed whether computer-processed data provided by the district to support claimed cost could be relied upon.

- Reviewed the calculation for increased teacher staffing costs, including documentation supporting elements of calculation.

- Traced claimed costs to the district's accounting records.

- Judgmentally selected a sample of construction costs and performed a test of transactions in order to verify the validity of the costs and ensure costs were mandate related. Requested and reviewed requisitions, invoices, and proof of payment.

- Inquired whether the district realized any offsetting savings or revenues related to mandated costs.

(*Emphasis added*)

There is a contradiction in the scope statements. The first scope statement is that the Controller "conducted this performance audit." The next statement is that the "audit scope did not assess the efficiency or effectiveness of program operations." The third scope statement is that "(t)he objectives of our audit were to determine whether costs claimed were supported by appropriate source documents, were not funded by another

source, and were not unreasonable and/or excessive."

Government Code Section 17558.5

Government Code Section 17558.5 describes the time to commence and finish an audit and is not an audit content or process standard.

Government Code Section 17561

Government Code Section 17561 (d), subdivisions (1) and (2), authorize the Controller to audit initial and subsequent annual reimbursement claims and to "(r)educe any claim that the Controller determines is excessive or unreasonable." This is a distinct scope statement. Adjustments based on lack of documentation are not adjustments based on excessive or unreasonable costs.

Government Code Section 12410

Government Code Section 12410 states: "The Controller shall audit all claims against the state, and may audit the disbursement of any state money, for correctness, legality, and for sufficient provisions of law for payment." However, Section 12410 is found in the part of the Government Code that provides a general description of the duties of the Controller and dates back to 1945. It is not specific to the audit of mandate reimbursement claims. The only applicable audit standard for mandate reimbursement claims is found in Government Code Section 17561(d). The fact that Section 17561(d) specifies its own audit standard (excessive or unreasonable) implies that the general Controller audit standard (correctness, legality, and sufficient provisions of law) does not apply here, it is the case of more specific language circumscribing the

general language. Therefore, the Controller may only reduce a mandate reimbursement claim if it is specifically found that the amounts claimed are unreasonable or excessive under Section 17561(d).

Further, the Controller has not asserted or demonstrated that, if Section 12410 was the applicable standard, the audit adjustments were made in accordance with this standard. There is no allegation in the audit report that the annual claims were in any way illegal. The phrase "sufficient provisions of law for payment" refers to the requirement that there be adequate appropriations prior to the disbursement of any funds. There is no indication that any funds were disbursed for these claims without sufficient appropriations. Thus, even if the standards of Section 12410 were applicable to mandate reimbursement audits, the Controller has failed to put forth any evidence that these standards are not met or even relevant. There is no indication that the Controller is actually relying on the audit standards set forth in Section 12410 for the adjustments to the District's reimbursement claims.

Generally Accepted Government Auditing Standards

The Generally Accepted Government Auditing Standards (GAGAS), commonly referred to as the "Yellow Book,"[1] is for use by auditors of government entities, entities

[1] Generally Accepted Government Auditing Standards

The Generally Accepted Government Auditing Standards (GAGAS), commonly referred to as the "Yellow Book," are published by the United States Government Accountability Office (GAO): http://www.gao.gov/govaud/ybook.pdf.

that receive government awards, and other audit organizations performing Yellow Book audits. These standards apply when required by law, regulation, agreement, contract, or policy. The audit report does not cite any law or agreement or policy that makes the Yellow Book applicable to audits of state mandated costs.

Regardless, the audit report states that the audit was a GAGAS "performance audit." The Yellow Book standards for performance audits are:

> 2.6 A performance audit is an objective and systematic examination of evidence for the purpose of providing an independent assessment of the performance of a government organization, program, activity, or function in order to provide information to improve public accountability and facilitate decision-making by parties with responsibility to oversee or initiate corrective action.
>
> 2.7 Performance audits include economy and efficiency and program audits.
> a. Economy and efficiency audits include determining (1) whether the entity is acquiring, protecting, and using its resources (such as personnel, property, and space) economically and efficiently, (2) the causes of inefficiencies or uneconomical practices, and (3) whether the entity has complied with laws and regulations on matters of economy and efficiency.
> b. Program audits include determining (1) the extent to which the desired results or benefits established by the legislature or other authorizing body are being achieved, (2) the effectiveness of organizations, programs, activities, or functions, and (3) whether the entity has complied with significant laws and regulations applicable to the program.

The audit report made no findings based on the above performance criteria. Rather, a documentation audit was conducted.

C. Documentation Standards

The documentation standards as stated in the parameters and guidelines (p. 2):

> V. REIMBURSABLE ACTIVITIES
>
> To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to

> implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.
>
> Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.
>
> The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

Regarding evidentiary standards for the state agencies, the Controller should have specified in the audit report, and the Commission can still specify, the type of corroborated contemporaneous documentation that would have been prepared in the usual course business, in compliance with state law, or otherwise reasonably available at the time of audit, that would have met the evidentiary standard and which may be missing here. The audit report does not identify how the specific documentation provided by the District does not comply with the parameters and guidelines standards and does not cite any other legally enforceable standards.

/

/

2. DISPUTED AUDIT FINDINGS

FINDING 1 Unallowable acquisition of additional space costs

The audit report states that the District claimed $29,633,952 for 100% of the construction and facility acquisition costs and related indirect costs of $467,692, and disallowed this amount because "the district did not meet the documentation requirements outlined in the program's parameters and guidelines." The issues are: misstatement of the amounts claimed; total disallowance of claimed costs based on lack of relevant documentation to support the criteria for increased costs; an incremental increased cost percentage to determine increased science course enrollment and science classroom-related construction costs; charter school costs; and, the application of the indirect cost rate.

A. Misstated Amounts Claimed by the District

There is a preliminary issue regarding the accurate statement of the amount of construction/acquisition direct costs claimed by the District. The District actually claimed $4,307,034 for FY 2008-09 (amended claim) and $10,509,941 for FY 2009-10 (amended claim):

Facility Costs Claimed	FY 2008-09	FY 2009-10	Total
Per Audit Report (p 4, 5)	$8,614,068	$21,019,884	$29,633,952
Per District Annual Claim	$4,307,034	$10,509,941	$14,816,975
Difference (Overstated)	$4,307,034	$10,509,943	$14,816,977

The amount claimed for FY 2009-10 by the District as stated in the audit report is

fiction. The parameters and guidelines (Part V ("Reimbursable Activities) state that "only actual costs may be claimed" and that "(a)ctual costs are those costs actually incurred to implement the mandated activities." The audit report doubles the claimed amounts for purposes of applying an "incremental increased costs" calculation (discussed in item C below and for offsetting savings in Finding 4). The audit report incorrectly reports about $15 million never claimed by the District. Although this misrepresentation is distilled later by several pages of narrative analysis in the findings, the public users of the audit report will not be served by the misstated amounts.

The audit report (p. 12) states that the purpose of the misstatement of the amounts claimed is "to clarify the presentation of the finding, and to report costs and offsetting revenues consistent with the program's parameters and guidelines and SCO's claiming instructions, we identified the district's total costs." The misstatement instead confuses the claimed costs with contrived amounts. The Commission should direct the Controller to revise the audit report to accurately state the amounts claimed by the District.

B. Noncompliance with Documentation Requirements

Audit Adjustment <$29,633,952> Claimed $14,816,975

This is a threshold finding that disallows all claimed construction and acquisition costs. The audit report (p. 6) states that "(w)e conclude that the entire amount is unallowable because the district did not meet the documentation requirements outlined in the program's parameters and guidelines." This is an ultimate conclusion of two

parts.

1. The audit report agrees that reported expenditures are supported by District documentation

The specific expenditures which are the basis for the claimed costs are supported by thousands of pages of documentation included in the attached copy of the annual claims (Exhibit "F") that meet the requirements for reporting costs (Part. V. Claim Preparation and Submission for Actual Costs) of the parameters and guidelines (p. 3, 4). The audit report makes no cost reductions because the District documentation was not "traceable," not supported by "source documents that show the validity of such costs," nor that the documentation was not "contemporaneous," or without other "evidence corroborating" the source documents. Therefore, the audit report is not disallowing any of the millions of dollars in claimed cost due to lack of documentation to support the construction expenditures.

2. The disallowance is based on documentation of the necessity for the additional science labs and classrooms.

The audit report (p.7) concludes that "the documentation the district provided did not meet the documentation criteria set forth in the program's parameters and guidelines to demonstrate that the additional space was required as a result of the implementation of Education Code section 51225.3." The audit report (p. 7) simply states that from all of the documentation provided "(t)he documents the district provided indicate that its buildings are old/antiquated and more modern science facilities are

needed." The mandate has been in place since 1984 and it is reasonable to expect the need for upgrades and replacement over time either due to deterioration of the facilities or otherwise by the state-defined curriculum. This does not invalidate these costs for mandate reimbursement. Even if it is perceived that the costs are just upgrades to or replacement of existing facilities, these costs would still be subject to mandate reimbursement because of the increased requirement for science courses which is not a one-time requirement, but a continuing mandate. This is the same reason that increased science teacher staffing costs continue to be reimbursable.

The disallowance is based on the threshold question of whether there is documentation to support the necessity of the increased facilities costs, that is, whether the costs are related to construction and acquisition of additional facilities to meet the increased science class curriculum. There are five criteria stated in the parameters and guidelines (VIII. Record Retention, p. 6, 7) for documentation in support of the need for increased facility costs:

> VIII. RECORD RETENTION
>
> A. Actual Costs
>
> For this program, supporting documentation shall include the following:
>
> 1. Documentation of increased units of science course enrollments due to the enactment of Education Code Section 51225.3 necessitating such an increase.
>
> 2. Documentation of lack of appropriately configured and equipped space in existing facilities for the new courses.
>
> 3. Certification by the Board that an analysis of all appropriate science

facilities within the district was conducted, and a determination made that no such facilities existed to reasonably accommodate increased enrollment for the additional science courses required by the enactment of Education Code Section 51225.3. To reasonably accommodate includes:

a. Adjusting attendance boundaries to balance attendance between under-utilized and over-utilized secondary school facilities within the district.

b. Taking advantage of other available secondary school science facilities that are within a secure walking distance of the school.

4. Documentation that the additional space for conducting new science classes is required only when the space would not have otherwise been acquired due to an increase in high school enrollment.

5. Documentation that remodeling existing facilities was not feasible or would have been more expensive than acquiring additional space.

The documentation relevant to this threshold issue is organized in the attached Exhibit "E," the District's "Science Classroom Construction Project File" Volumes 1, 2, and 3.

The several hundred pages are organized as follows:

Part A

1a. The District Master Plan dated March 13, 2002, which includes the following information: enrollment and demographics, education programs, existing facilities, implementation plan and sources of funding.

1b. The architect's "needs study" for each campus

2. Governing board and committee agendas and minutes discussing the projects

3. Oversight committees agendas and minutes

Part B School Bonds

1 Governing board approval agendas and materials

2. School bond financial disclosure

This documentation is the corroborated contemporaneous business records required by (Part V. Reimbursable Activities) of the parameters and guidelines (p. 2) in support of the criteria for construction of new facilities and remodeling of existing facilities (VIII. Record Retention, p. 6, 7) to meet the increased science curriculum.

The audit report does not state any specific findings regarding these criteria. The audit report seems to conclude that the remodeling and construction is merely an "upgrade." The mandate doubled the requirement for science labs and classrooms, but the audit report findings necessarily presume, without foundation, that at that time of the new law the District could have had 200% capacity for all science courses. The audit findings would also assume that other existing (non-science) classrooms at each campus would already have been appropriately configured and equipped space for the new courses. Since the District is high school grades only, all sites are similarly configured and there is no presumption of "under-utilized" facilities. Historical attendance boundaries are based on matching enrollment to existing facilities, so there is no reasonable presumption that any campus is under-utilized in a manner that could be relieved by adjusting attendance borders. Enrollment did not double at the time of the new mandate, or any year since, so normal enrollment growth is not a factor to the need to increase the number of classrooms and labs. Whether remodeling existing facilities was feasible or less expensive than constructing additional space is answered within the contents of the facility study for each campus.

It becomes question of fact for the Commission to determine if the provided documentation is sufficient for the ultimate certification of the need for additional classrooms and labs. There are no studies or reports required of school districts by state law that specifically address the five criteria, although there are relevant state reports such as reports on enrollment. None of the governmental entities that establish the financial accounting standards and reporting requirements that districts are otherwise subject to publish any standards or reporting requirements for state mandate cost accounting. Nor does the Controller, whose particular responsibility for about forty years has been the payment and audit of the mandate annual claims publish forms for use by claimants to address the five criteria. In the absence of government standards, claimants must retroactively rely upon documentation produced in the regular course of business. Uniform compliance would be more likely if the Controller published forms for this purpose, as the Controller has done for other programs within the Controller's payment and audit jurisdiction.

C. Calculation of "Incremental Increased Costs"

Audit Adjustments <$2,959,887> No incremental costs claimed

The complete disallowance of all costs notwithstanding, the audit report asserts that the District's claimed amounts must be doubled and then reduced by an incremental increased cost percentage.

1. There is no legal requirement for districts to use the Controller's incremental increased cost formula

This formula is not published in the claiming instructions nor a requirement of the parameters and guidelines. There is no legal requirement for districts to use this formula contrived by the Controller for this audit. If the Controller applies this methodology to these audits, it would constitute a standard of general application without appropriate state agency rulemaking and is therefore unenforceable (Government Code Section 11340.5). The method is not an exempt audit guideline (Government Code Section 11340.9(e)) and results in a financial penalty against the District. Since the method would be based on an underground regulation, the method could not be used for the audit adjustment (Government Code Section 11425.50) Therefore, the audit report decreased the claimed costs due to lack of documentation in support of a calculation formula for which the claimants were never on notice nor for which no documentation is maintained or developed in the usual course of financial or cost accounting for school districts.

2. The District's 50%-Twice Methodology

The audit report (p. 7) states:

> For the audit period, the district applied an unsupported incremental increase to construction costs to arrive at the reimbursable mandate-related portion. In its calculations, the district used 50% to determine the increased costs related to the implementation of the mandate. The parameters and guidelines (section VIII (A)(1)) require documentation that science course enrollments increased due to the mandate. The district did not provide any documentation to support its percentage.

This is a misstatement of several facts. The District did not use an "incremental increase" factor to calculate increased facility costs. The District used a double

reduction to total costs. The construction costs were funded by a local bond that was matched by state funds. The reimbursable construction costs related to the science classrooms and labs was determined by first separating for each school site the science-related costs from the total project costs (that included other facilities constructed using the same funding). These separated science classroom and lab construction costs were then reduced by 50% to eliminate the costs that would be matched by the state funds. Second, since the mandate doubled the number of science courses, the District then reduced the unmatched amount by another 50% to account for the preexisting requirement for science courses. In sum, the District reported about 25% of the total construction costs related to the science classroom and lab construction as the increased cost of the mandate.

3. The Controller's incremental increased cost methodology

The audit report applied to the total science-related construction costs a percentage increase extrapolated from the One-Quarter Class Load formula. The audit report (p. 7) states that this is "reasonable" because "it is evidence based and consistent with the identification of increased staffing and materials and supplies costs." Using the One-Quarter Class Load formula, the audited incremental increase cost percentages are 40.14% for FY 2008-09 (167/416) and 47% (154.7/329) for FY 2009-10. These percentages are applied to the full cost of the science-related construction and equipment costs, while the annual claims reported half of those costs after the state bond match was deducted. Further, the audited percentages are based on

science classes that do not include the charter school enrollment while the claimed facilities costs include the District facilities used for charter students.

The Quarter Load formula is, by specific action of the Commission, a reasonable reimbursement methodology established in the parameters and guidelines for the purposes of calculating increased annual teacher staffing costs. It was not established by the Commission for the calculation of construction/acquisition costs. The use of the Quarter Load percentages for the construction/acquisition cost calculation is not supported by fact and is contrary to the parameters and guidelines. While it is arguable that the number of science teachers and consumable supples would vary directly with science classroom enrollment, it is not necessarily logical that one-time construction costs and the cost of equipment would vary directly with science classroom enrollment. The mandate annual claims report construction and equipment acquisition costs in the year incurred, but the facilities and equipment are used for many years.

The Controller's determination of incremental increased costs is without factual or legal foundation and should be discarded. There are no incremental increased costs to be deducted from the costs claimed since the District did not claim any"incremental" increased costs. These incremental increased costs only exist in the audit report because the audit doubled the claimed costs in order to reduce them later. Thus, the audit report conjures costs never claimed by the District and then reduces them by an amount in excess of these artificial costs. The Controller's incremental rate is unnecessary and irrelevant.

D. Charter School Costs

Audit Adjustments <$4,798,802> No reduction claimed

This may be a "charter school" mandate issue of first impression for the Commission. The District claimed, and the previous complete disallowance of all costs notwithstanding, the audit report disallowed science classrooms and labs construction costs at the Helix High School schoolsite. The audit report correctly cites that charter schools are not identified as eligible claimants in the parameters and guidelines for the mandated cost program. The test claim legislation does not mandate any duty to charter schools. However, the Helix Charter High School is not claiming the mandated costs. These costs are included in the annual claim submitted by the District.

The District is not claiming Helix Charter High School operating (e.g., increased science teacher staffing) costs. As a matter of law Helix High School is the property of the District, it was not "sold" to the charter school. The charter school utilizes the property pursuant to memoranda of understanding and other written agreements. The District, not the charter school, is responsible for implementing the mandate to have sufficient science classroom and lab facilities. The charter school is not compelled to use the District campus. Regardless, a school district is compelled as a matter of law to provide public education services to all students within its district boundaries. Which is to say, if the charter school is discontinued the District's duty to provide the facilities to resident students will continue.

The District facility costs for the charter school are incorrectly disallowed.

E. "Non-science classrooms and labs" Classroom Construction Costs

Audit Adjustment <$522,202> Claimed $522,202

The District does not dispute this adjustment.

F. Indirect Cost Rate

Audit Adjustment <$467,692> Claimed FY 2009-10 $596,353

The dollar amount for the indirect costs is not an independent finding. It is based on a California Department of Education approved indirect cost rate applied to allowable and eligible direct costs. The District agrees with the indirect cost rate applied by the audit report to the direct costs and the auditor's reliance on the California School Accounting Manual procedures regarding the treatment of capital outlay costs. This adjustment dollar amount is not disputed since it is derivative of the findings for allowable direct costs.

FINDING 2 Overstated textbooks, materials, and supplies costs

The audit report states that the District claimed $890,267 for the direct costs of materials and supplies for the additional science courses, of which the audit report determined $875,031 is unallowable, with the related indirect cost of $19,728.

A Misstated Amounts Claimed by the District

There is a preliminary issue regarding the accurate statement of amounts claimed by the District. The District actually claimed direct costs of $20,349 for FY 2008-09 (amended claim) and $439,429 for FY 2009-10 (amended claim):

/

Materials and Supplies Cost Claimed	FY 2008-09	FY 2009-10	Total
Per Audit Report (p 4, 5)	$ 20,349	$869,918	$890,267
Per District Annual Claim	$ 20,349	$439,429	$459,778
Difference (Overstated)	$ 0	$430,489	$430,459

The amount claimed by the District for FY 2009-10 as stated in the audit report is fiction. The audit report about doubles the amount for FY 2009-10 for purposes of applying offsetting savings in Finding 4. For the reasons stated in the response to Finding 1, the Commission should direct the Controller to revise the audit report to accurately state the amounts claimed by the District.

B. "Overstated" Textbooks, Materials, and Supplies Costs

FY 2008-09 <$1,101> FY 2009-10 No adjustment

For FY 2008-09, the District claimed textbooks, materials, and supplies costs of $20,349, based on the 50% twice reduced method discussed in item D below. The audit evaluated the invoices and reduced the claimed amount by $1,101. This amount is immaterial and not disputed by the District.

C. Non-reimbursable Materials and Supplies Costs

FY 2008-09 No adjustment FY 2009-10 <$860,978>

For FY 2009-10, the District claimed $439,429 (most of which is doubled by the audit report to $875,031) in materials and supplies costs which the audit report (p.15) determined to be non-reimbursable due to lack of specific documentation to support the need for additional space. The claimed costs were for fixtures to equip the additional

science classrooms and labs. Because the classroom construction/ acquisition costs are entirely disallowed by Finding 1, the audit report disallows the fixtures cost here. The District response here is the same as for Finding 1 regarding the documentation to support the need for increased science classrooms and labs.

D. Unsupported Incremental Increased Cost

FY 2008-09 <$4,012> FY 2009-10 <$52,196>

Consistent with Finding 1, in reference to the 50% method used by the District, the audit report (p.15) asserts that "the district applied an unsupported incremental increase to textbooks, materials, and supplies costs." To the contrary, the District did not use an "incremental increased cost" factor to calculate these increased costs.

The District used a double reduction to total costs. Some of the costs were funded by a local bond that was matched by state funds. These total costs were identified by school site and reduced by 50% to eliminate the costs that would be matched by the state funds. This 50%-reduced amount was added to the costs not matched by the bond. Then, the District reduced the matched and unmatched amounts by another 50% to account for the preexisting required number of courses. The specific expenditures which are the basis for the claimed costs are supported by thousands of pages of documentation included in the attached copy (Exhibit "F") of the annual claims that meets the requirements for reporting costs (Part. V. Claim Preparation and Submission for Actual Costs).

As stated in the District response to Finding 1, and applicable here to Finding 2,

there is no legal requirement for claimants to use the Controller's incremental increased cost formula. In the District's claims there are no incremental costs to be deducted from the costs claimed since the District did not claim any incremental increased costs. The Controller's incremental rate method is unnecessary and irrelevant.

FINDING 3 Understated teacher staffing costs

FY 2008-09 No adjustment FY 2009-10 $165,731 increase

The District does not dispute this Finding. The District claimed $2,801,291 for FY 2008-09 and $2,451,824 for FY 2009-10 for increased science teacher staffing direct costs. Both the claimed and audited cost calculations were based on the parameters and guidelines reasonable reimbursement methodology. The difference in the calculation for FY 2009-10 is that the state pupil accounting system changed that year from CBEDS to CALPADS. The District used CBEDS statistics available at the time the claim was prepared and the audit report recalculated the RRM using an average science classroom enrollment derived from CALPADS data.

FINDING 4 Unreported offsetting revenues <$15,247,465>

Notwithstanding the total disallowance of claimed costs in Findings 1 and 2, the audit report disallows $15,247,465 in "claimed" construction, acquisition costs, and equipment costs because "the district funded the net claimed costs for new science classrooms and labs classrooms using local restricted funds." This amount consists of two parts: claiming instructions Form 1 Component A, $14,816,976 for construction/ acquisition costs (see Finding 1), and a portion of Component E, $430,489 for materials

and supplies (see Finding 2). The referenced local funds are the proceeds from the District voter approved Proposition H general obligation bonds. These funds when received were accounted for by the District in restricted accounts as required by state school accounting requirements since they are not general funds that can be used for annual operating expenditures (e.g., salaries, utilities, supplies, etc.). The ultimate audit report (p. 22) conclusion is:

> Based on the district's accounting records, we concluded that a combination of local restricted resources and State bonds fully funded the claimed construction costs for the science classrooms and labs buildings. There was no fiscal impact to the district to construct or remodel its science classrooms and labs buildings. Therefore, any costs claimed and charged against local restricted resources (Proposition H) should have been fully offset by these funds.

The audit report characterizes both the state and local bond proceeds as offsetting revenues. The state and local dollar amounts are both the same (hence the origin of the 50% match method used by the District for reporting costs.)

Bond Funding (Audit Report (p. 23)	FY 2008-09	FY 2009-10	Total
Reported offsetting revenues - State bonds (OPSC)	$4,307,034	$10,940,431	$15,247,465
Unreported offsetting revenues - Local bonds (Proposition H)	$4,307,034	$10,940,431	$15,247,465
Totals	$8,614,068	$21,880,862	$30,494,930

None of these amounts were included in the annual claims as revenue offsets.

A. State OPSC Funding

Audited	$15,247,465	Not claimed/Not applicable

Regarding the state bond revenue, the audit report characterizes this adjustment

as offsetting state revenues from the State Office of Public School Construction not reported by the District. The stated criterion for the adjustment is (p. 22):

> The parameters and guidelines (section IX) identify reimbursement from any source, including but not limited to, federal, state, and block grants. Further, in regard to science classrooms and labs facilities the guidelines also specifically identify state bond funds as an offset.

There was no need to report state bond revenue as a cost offset. The District never claimed the Controller's contrived incremental increased costs and so did not claim offsetting OPSC revenues because after the use of the 50% twice reduction method discussed above in Finding 1, there were no state funding offsets applicable to any of the claimed costs. There are no claimed District costs to which the OPSC funds can be applied.

B. Local Proposition H State Bond Revenues

Audited	$15,247,465	Not claimed/Not applicable

The audit report concluded that the $15,247,465 actually claimed by the District (and totally disallowed by Findings 1 are 2) is either fully offset or funded by local Proposition H revenue bond proceeds and thus not claimable. The audit report (p. 22) cites two Education Code sections:

> Education Code section 15100 authorizes the sale of general obligation bonds, which are secured by statutory obligation, to levy an *ad valorem* property tax sufficient for interest and redemption of the bonds.
>
> Education Code section 15251(a) states that "When collected, all taxes levied shall be paid into the county treasury of the county whose superintendent of schools has jurisdiction over the school district ... and shall be used for the payment of the principal and interest of the bonds and for no other purpose."

There are no audit findings that the ad valorem tax proceeds collected by county were used for purposes other than the repayment by the county of Proposition H bonds. The audit report does not indicate how these citations establish that local bond revenue is mandate reimbursement.

The parameters and guidelines (p. 8) language relevant to funding sources is:

> IX. OFFSETTING REVENUES AND OTHER REIMBURSEMENTS
>
> Any offsetting revenues the claimant experiences in the same program as a result of the same statutes or executive orders found to contain the mandate shall be deducted from the costs claimed. In addition, reimbursement for this mandate from any source, including but not limited to, federal, state, and block grants; total science classrooms and labs teacher salary costs, including related indirect costs, that are funded by restricted resources as identified by the California Department of Education California School Accounting Manual; funds appropriated to school districts from the Schiff-Bustamante Standards-Based Instructional Materials Program (Ed. Code, §§ 60450 et seq., repealed by Stats. 2002, ch. 1168 (AB 1818, § 71, eff. Jan. 1, 2004) and used for supplying the second science classrooms and labs course mandated by Education Code section 51223.5 (as amended by Stats. 1983, ch. 498) with instructional materials; funds appropriated from the State Instructional Materials Fund (Ed. Code, §§ 60240 et seq.) and used for supplying the second science classrooms and labs course mandated by Education Code section 51223.5 (as amended by Stats. 1983, ch. 498) with instructional materials and supplies; and other state funds, shall be identified and deducted from this claim. The State Controller's Office (SCO) will adjust the claims for any prior reimbursements received for the Graduation Requirements program from claims submitted for the period beginning January 1, 2005.
>
> If the school district or county office submits a valid reimbursement claim for a new science classrooms and labs facility, the reimbursement shall be reduced by the amount of state bond funds, if any, received by the school district or county office to construct the new science classrooms and labs facility.

The Controller's conclusion that the claimed costs are fully offset or funded by the local bond revenue is contrary to the parameters and guidelines language for several

reasons:

- The local bond revenue is not an offsetting revenue that results from the law that established the mandate.
- Claims for construction costs shall be reduced by "the amount of any *state bond* funds." Proposition H is *a local bond* and thus not state bond revenue offset to the claim.
- The local bond revenue is not an enumerated reimbursement for the cost of the mandate. The local bond funding is not: a federal or state block grant; a state restricted funding source for science classrooms and labs teacher salary costs as identified CSAM; or, Schiff-Bustamante or other state funds for instructional materials funding.
- The local bond revenue is not otherwise "reimbursement for this mandate from any source" because, unlike state bond revenue, it must be repaid by the District tax base. A "reimbursement" that has to be repaid is not a reimbursement. Local bond obligations are retired by local property taxes. Local property taxes also fund a portion of the District general fund annual operating costs but are not mandate reimbursement. The audit report does not state a legal basis which would allow local property tax proceeds to be considered Government Code state reimbursement of construction costs.
- State-mandated budget and financial reporting standards require bond proceeds to be accounted for in restricted accounts. However, the account code (specified

by the state) used for the bond proceeds is not determinative of the mandate reimbursement issue.

There is enforceable basis cited in the audit report for this adjustment.

PART VII. RELIEF REQUESTED

The District filed its annual reimbursement claims within the time limits prescribed by the Government Code. The amounts claimed by the District for reimbursement of the costs of implementing the Graduation Requirements mandate imposed by Education Code Section 51225.3 and other relevant law, represent the actual costs incurred by the District to carry out this program. These costs were properly claimed pursuant to the Commission's parameters and guidelines. Reimbursement of these costs is required under Article XIIIB, Section 6 of the California Constitution. The disputed Controller's adjustments deny reimbursement without any basis in law or fact. The District has met its burden of going forward on this incorrect reduction claim by complying with the requirements of Section 1185.1, Title 2, California Code of Regulations. Because the Controller has enforced and is seeking to enforce these adjustments without benefit of statute or regulation, the burden of proof is now upon the Controller to establish a legal basis for this action.

The District requests that the Commission make findings of fact and law on each and every disputed adjustment made by the Controller and each and every procedural and jurisdictional issue raised in this claim, and order the Controller to correct the audit report findings therefrom.

PART VIII. CERTIFICATION

By my signature below, I hereby declare, under penalty of perjury under the laws of the State of California, that the information in this incorrect reduction claim submission is true and complete to the best of my own knowledge or information or belief, and that the attached documents are true and correct copies of documents received from or sent by the state agency which originated the document.

BETTY T. YEE
California State Controller

June 21, 2016

Robert Shield, President
Governing Board
Grossmont Union High School District
P.O. Box 1043
La Mesa, CA 91944-1043

Dear Mr. Shield:

The State Controller's Office audited the costs claimed by Grossmont Union High School District for the legislatively mandated Graduation Requirements Program (Chapter 498, Statutes of 1983) for the period of July 1, 2008, through June 30, 2010.

The district claimed $21,221,594 for the mandated program. Our audit found that $5,635,762 is allowable ($5,645,762 less a $10,000 penalty for filing a late claim), and $15,585,832 is unallowable. The costs are unallowable because the district claimed non-reimbursable acquisition of additional space costs; overstated textbooks, materials, and supplies costs; understated teacher staffing costs; and did not report all related offsetting revenue. The State paid the district $10. The State will pay allowable costs claimed that exceed the amount paid, totaling $5,635,752, contingent upon available appropriations.

This final audit report contains an adjustment to costs claimed by the district. If you disagree with the audit finding(s), you may file an Incorrect Reduction Claim (IRC) with the Commission on the State Mandates (Commission). Pursuant to Section 1185, subdivision (c), of the Commission's regulations (*California Code of Regulations*, Title 3), an IRC challenging this adjustment must be filed with the Commission no later than three years following the date of this report, regardless of whether this report is subsequently supplemented, superseded, or otherwise amended. You may obtain IRC information on the Commission's website at www.csm.ca.gov/forms/IRCForm.pdf.

If you have any questions, please contact Jim L. Spano, Chief, Mandated Cost Audits Bureau, by telephone at (916) 323-5849.

Sincerely,

JEFFREY V. BROWNFIELD, CPA

Audit Report

Summary

The State Controller's Office (SCO) audited the costs claimed by Grossmont Union High School District for the legislatively mandated Graduation Requirements Program (Chapter 498, Statutes of 1983) for the period of July 1, 2008, through June 30, 2010.

The district claimed $21,221,594 for the mandated program. Our audit found that $5,635,762 is allowable ($5,645,762 less a $10,000 penalty for filing a late claim), and $15,585,832 is unallowable. The costs are unallowable because the district claimed non-reimbursable acquisition of additional space costs; overstated textbooks, materials, and supplies costs; understated teacher staffing costs; and did not report all related offsetting revenues. The State paid the district $10. The State will pay allowable costs claimed that exceed the amount paid, totaling $5,635,752, contingent upon available appropriations.

Background

Chapter 498, Statutes of 1983, amended section 51225.3 of the Education Code. This section requires that beginning with the 1986-87 school year, no pupil shall receive a high school diploma without completing an additional science course above that which was required prior to the enactment of Chapter 498, Statutes of 1983. One year of science was required prior to Chapter 498/83 and as a result of this legislation, two science courses are now required. The mandate specifies that the curriculum include one course each of biological and physical science.

On January 22, 1987, the Commission on State Mandates (Commission) adopted its Statement of Decision finding that Education Code section 51225.3, as amended by Chapter 498, Statutes of 1983, imposed a reimbursable state mandated program upon school districts, by requiring school districts to provide an additional science course to students prior to their graduation from the twelfth grade.

On March 23, 1988, the Commission adopted the parameters and guidelines that establish the State mandate and define the reimbursement criteria. The parameters and guidelines have been amended several times since its adoption. The most recent amendment adopted November 6, 2008, applies to claims for January 1, 2005, and forward. The amended parameters and guidelines were corrected on December 18, 2008, to delete references to filing estimated claims because estimated claims are no longer authorized.

Objectives, Scope, and Methodology

We conducted this performance audit to determine whether costs claimed represent increased costs resulting from the Graduation Requirements Program for the period of July 1, 2008, through June 30, 2010.

The legal authority to conduct this audit is provided by Government Code sections 12410, 17558.5, and 17561. We did not audit the district's financial statements. We conducted this audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

We limited our review of the district's internal controls to gaining an understanding of the transaction flow and claim preparation process as necessary to develop appropriate auditing procedures. Our audit scope did not assess the efficiency or effectiveness of program operations. We did not audit the district's financial statements.

The objectives of our audit were to determine whether costs claimed were supported by appropriate source documents, were not funded by another source, and were not unreasonable and/or excessive.

To achieve our audit objectives, we performed the following procedures:

- Reviewed annual claims filed with SCO to identify any mathematical errors and performed analytical procedures to determine any unusual or unexpected variances from year to year.
- Completed an internal control questionnaire and performed a walk-through of the claim preparation process to determine what information was used, who obtained the information and how the information was obtained.
- Assessed whether computer-processed data provided by the district to support claimed cost could be relied upon.
- Reviewed the calculation for increased teacher staffing costs, including documentation supporting elements of calculation.
- Traced claimed costs to the district's accounting records.
- Judgmentally selected a sample of construction costs and performed a test of transactions in order to verify the validity of the costs and ensure costs were mandate related. Requested and reviewed requisitions, invoices, and proof of payment.
- Inquired whether the district realized any offsetting savings or revenues related to mandated costs.

Conclusion

Our audit found instances of noncompliance with the requirements outlined above. These instances are described in the accompanying Schedule (Summary of Program Costs) and in the Findings and Recommendations section of this report.

For the audit period, Grossmont Union High School District claimed $21,221,594 for costs of the Graduation Requirements Program. Our audit found that $5,635,762 is allowable ($5,645,762 less a $10,000 penalty for filing a late claim) and $15,585,832 is unallowable.

The State paid the district $10. Our audit found that $5,635,762 is allowable. The State will pay allowable costs claimed that exceed the amount paid, totaling $5,635,752, contingent upon available appropriations.

Views of Responsible Officials

We issued a draft audit report on May 5, 2016. Scott Patterson, Deputy Superintendent of Business Services, responded by letter dated May 13, 2016, disagreeing with the audit results. This final audit report includes the district's response.

Restricted Use

This report is solely for the information and use of Grossmont Union High School District, the San Diego County Office of Education, the California Department of Education, the California Department of Finance, and the SCO; it is not intended to be and should not be used by anyone other than these specified parties. This restriction is not intended to limit distribution of this report, which is a matter of public record.

JEFFREY V. BROWNFIELD, CPA
Chief, Division of Audits

June 21, 2016

Schedule—
Summary of Program Costs
July 1, 2008, through June 30, 2010

Cost Elements	Costs Claimed	Allowable per Audit	Audit Adjustment	Reference [1]
July 1, 2008, through June 30, 2009				
Direct costs:				
Component A: Acquisition of additional space[2]	$ 8,614,068	$ -	$ (8,614,068)	Finding 1
Component D: Increased cost for staffing new science classrooms	2,801,291	2,801,291	-	
Component E: Increased cost for supplying new science classrooms[2]	20,349	15,236	(5,113)	Finding 2
Total direct costs	11,435,708	2,816,527	(8,619,181)	
Indirect costs	95,372	95,199	(173)	Finding 2
Total direct and indirect costs	11,531,080	2,911,726	(8,619,354)	
Less offsetting revenues[2]	(4,307,034)	-	4,307,034	Finding 4
Total program costs	7,224,046	2,911,726	(4,312,320)	
Less amount paid by the state		-		
Allowable costs claimed in excess of (less than) amount paid		$ 2,911,726		
July 1, 2009, through June 30, 2010				
Direct costs:				
Component A: Acquisition of additional space[2]	$ 21,019,884	$ -	$ (21,019,884)	Finding 1
Component D: Increased cost for staffing new science classrooms	2,451,824	2,617,555	165,731	Finding 3
Component E: Increased cost for supplying new science classrooms[2]	869,918	-	(869,918)	Finding 2
Total direct costs	24,341,626	2,617,555	(21,724,071)	
Indirect costs	596,353	116,481	(479,872)	Findings 1, 2, 3
Total direct and indirect costs	24,937,979	2,734,036	(22,203,943)	
Less offsetting revenues[2]	(10,940,431)	-	10,940,431	Finding 4
Less late filing penalty[3]	-	(10,000)	(10,000)	
Total program costs	$ 13,997,548	2,724,036	$ (11,273,512)	
Less amount paid by the state		(10)		
Allowable costs claimed in excess of (less than) amount paid		$ 2,724,026		

Schedule 1 (continued)

Cost Elements	Costs Claimed	Allowable per Audit	Audit Adjustment	Reference [1]
Summary: July 1, 2008, through June 30, 2010				
Direct costs:				
Component A: Acquisition of additional space[2]	$ 29,633,952	$ -	$ (29,633,952)	
Component D: Increased cost for staffing new science classrooms	5,253,115	5,418,846	165,731	
Component E: Increased cost for supplying new science classrooms[2]	890,267	15,236	(875,031)	
Total direct cost	35,777,334	5,434,082	(30,343,252)	
Indirect costs	691,725	211,680	(480,045)	
Total direct and indirect costs	36,469,059	5,645,762	(30,823,297)	
Less offsetting revenues[2]	(15,247,465)	-	15,247,465	
Less late filing penalty[3]	-	(10,000)	(10,000)	
Total program costs	$ 21,221,594	5,635,762	$ (15,585,832)	
Less amount paid by the state		(10)		
Allowable costs claimed in excess of (less than) amount paid		$ 5,635,752		

[1] See the Findings and Recommendations section.

[2] The district did not separately report on its claims direct costs and offsetting revenues. We recategorized the district's direct costs and offsetting revenues into the appropriate claim components based on information the county provided. This recategorization separately identifies the portion of direct costs offset by State bond revenues.

[3] The district filed its FY 2009-10 annual reimbursement claim for $2,560,930 by the due date specified in Government Code section 17560, and amended it to $13,997,548 after the due date. Pursuant to Government Code section 17568, the State assessed a late filing penalty equal to 10% of allowable costs that exceed the timely filed claimed amount, not to exceed $10,000.

Findings and Recommendations

FINDING 1— Unallowable acquisition of additional space costs

The district claimed $29,633,952 ($8,614,068 for fiscal year (FY) 2008-09 and $21,019,884 for FY 2009-10) for Component A - Acquisition of Additional Space cost component during the audit period. The related indirect cost is $467,692. We found that the entire amount is unallowable.

The district claimed the additional space costs, net of adjustments, representing the incremental increase in science course enrollment resulting from the mandated program. We conclude that the entire amount is unallowable because the district did not meet the documentation requirements outlined in the program's parameters and guidelines. In addition, we noted that the district overstated costs by claiming ineligible charter school costs, applying an unsupported incremental increase percentage to determine increased science course enrollment, and including non-science classroom-related construction costs.

As the entire amount claimed for acquisition of additional space is unallowable, we adjusted the corresponding indirect costs. In addition, the district erroneously applied the California Department of Education (CDE) approved indirect cost rate to the construction costs.

For FY 2009-10, the district applied the CDE-approved indirect cost rate to construction costs claimed under the Acquisition of Additional Space cost component. The claimed construction costs are identified as Facilities Acquisition and Construction costs (Function 8500) on the district's expenditure ledger. Further, a significant portion of these costs are also identified as Capital Outlay (object codes 6000-6999). The SCO's claiming instructions for the program identifies costs excluded from the indirect cost distribution base that should be deducted in accordance with the California School Accounting Manual (CSAM). The CSAM, Procedure 915, specifically excludes the application of the indirect rate to Facilities Acquisition and Construction costs (Function 8500) and Capital Outlay costs (object codes 6000-6999); therefore, the indirect cost rate cannot be applied to these costs.

The following table summarizes the audit adjustment:

	Fiscal Year		
	2008-09	2009-10	Total
Noncompliance with specific documentation requirements	$ (8,614,068)	$ (21,019,884)	$ (29,633,952)
Miscalculation of incremental costs resulting in overstated costs	(1,698,694)	(1,261,193)	(2,959,887)
Ineligible charter school costs	(990,148)	(3,808,654)	(4,798,802)
Ineligible non-science classroom construction costs	(186,798)	(335,404)	(522,202)
Total direct cost adjustment[1]	(8,614,068)	(21,019,884)	(29,633,952)
Related indirect costs	-	(467,692)	(467,692)
Audit adjustment	$ (8,614,068)	$ (21,487,576)	$ (30,101,644)

[1]Total adjustment limited to amount claimed.

Noncompliance with Specific Documentation Requirements

For the audit period, the documentation the district provided did not meet the documentation criteria set forth in the program's parameters and guidelines to demonstrate that the additional space was required as a result of the implementation of Education Code section 51225.3.

The district did not provide documentation showing that it analyzed all science facilities and determined, based on that analysis, that no facility existed that could reasonably accommodate the increased enrollment for the additional science class. The documents the district provided indicate that its buildings are old/antiquated and more modern science facilities are needed. The parameters and guidelines state that costs are reimbursable if the district needs additional space for the additional year of science instruction, not to upgrade its facilities to a more modern science complex. In addition, the documentation provided indicated that there is overcrowding at several of the school sites due to construction of new residential areas in the school district's attendance boundaries. Therefore, the district has not met the specific documentation requirements to support that the costs claimed for new science classroom construction would not have been otherwise acquired due to the increase in the number of students enrolling in high school. As a result, we determined that all of the costs claimed are non-reimbursable.

Other Adjustments

Even though the we identified the entire amount claimed as unallowable, we noted other adjustments for the following reasons:

Miscalculation of Incremental Costs Resulting in Overstated Costs

For the audit period, the district applied an unsupported incremental increase to construction costs to arrive at the reimbursable mandate-related portion. In its calculations, the district used 50% to determine the increased costs related to the implementation of the mandate. The parameters and guidelines (section VIII (A)(1)) require documentation that science course enrollments increased due to the mandate. The district did not provide any documentation to support its percentage.

In the absence of any documentation to support the claimed incremental increase, we applied the percentage increase used to compute the increased staffing costs based on the One-Quarter Class Load formula. We believe that the approach is reasonable in that it is evidence based and consistent with the identification of increased staffing and materials and supplies costs. Using the One-Quarter Class Load formula, the increased number of science classes identified is divided by the total number of science class offerings for the fiscal year. We computed the incremental increase using the formula; the percentages are 40.14% (167/416) for FY 2008-09 and 47% (154.7/329) for FY 2009-10. We then applied the incremental increase to construction costs. As a result, we concluded that the district overstated construction costs by $2,959,887 ($1,698,694 for FY 2008-09 and $1,261,193 for FY 2009-10) by using an unsupported increased cost percentage.

The following table summarizes the audit adjustment:

	Fiscal Year 2008-09	Fiscal Year 2009-10	Total
Acquisition of addition space costs	$ 17,228,136	$ 42,039,768	
Incremental increase in science classes	x 40.14%	x 47.0%	
Increased costs	6,915,374	19,758,691	
Less claimed costs	(8,614,068)	(21,019,884)	
Overstated construction costs	$ (1,698,694)	$ (1,261,193)	$ (2,959,887)

Ineligible Charter School Costs

The district claimed science classroom construction costs for Helix Charter High School. Charter schools are not identified as eligible claimants in the parameters and guidelines for the mandated cost program. Charter schools are entities that are separate and distinct from the school district, and they operate based on agreements with school districts or county offices of education. In addition, the parameters and guidelines do not include a provision allowing third parties (i.e., school districts) to claim mandate reimbursement on behalf of charter schools. As a result, we determined that the district claimed ineligible science construction costs for the charter school totaling $4,798,082 ($990,148 for FY 2008-09 and $3,808,654 for FY 2009-10).

Ineligible Non-science Classroom Construction Costs

The district included non-science classroom construction costs in its claims. These non-mandate-related costs include construction of locker rooms (boys' gym), school perimeter fencing, parking lot repaving, and installation of parking lot lights as part of its reimbursement claims. We determined that these costs do not relate to the construction and renovation of science classes totaling $522,202 ($186,798 for FY 2008-09 and $335,404 for FY 2009-10).

Criteria

The parameters and guidelines (section V) state "to be eligible for mandate costs reimbursement ... only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities."

The program's parameters and guidelines (section V (A)) state that:

> ...the acquisition of additional space for conducting new science classes are reimbursable only to the extent that districts can document that the space would not have been otherwise acquired due to increases in the number of students enrolling in high school and that it was not feasible, or would be more expensive to acquire space by remodeling existing facilities.

In addition, the parameters and guidelines (section VIII (A)) require school districts and county offices of education to provide the following supporting documentation:

1. Documentation of increased units of science course enrollments due to the enactment of Education Code section 51225.3 necessitating such an increase.

2. Documentation of lack of appropriately configured and equipped space in existing facilities for the new courses.

3. Certification by the Board that an analysis of all appropriate science facilities within the district was conducted, and a determination made that no such facilities existed to reasonably accommodate increased enrollment for the additional science courses required by the enactment of Education Code section 51225.3. To reasonably accommodate includes:

   a. Adjusting attendance boundaries to balance attendance between under-utilized and over-utilized secondary school facilities within the district.

   b. Taking advantage of other available secondary school science facilities that are within a secure walking distance of the school.

4. Documentation that the additional space for conducting new science classes is required only when the space would not have otherwise been acquired due to an increase in high school enrollment.

5. Documentation that remodeling existing facilities was not feasible or would have been more expensive than acquiring additional space.

The SCO's claiming instructions for the program identify that costs excluded from the indirect cost distribution base should be deducted in accordance with the CSAM. The CSAM, Procedure 915, excludes the application of CDE-approved indirect cost rates to Facilities Acquisition and Construction (Function 8500) and Capital Outlay (object codes 6000–6999) costs.

The parameters and guidelines (section V) state, "the claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate."

In reference to the eligibility of charter schools, the parameters and guidelines (section II) list school districts and county offices of education as eligible claimants. Charter schools are not identified as an eligible claimant and there is no provision that allows school districts and county offices of education to claim costs on behalf of charter schools.

Recommendation

Commencing in FY 2012-13, the district elected to participate in a block grant program, pursuant to Government Code section 17581.6, in lieu of filing annual mandated cost claims. As of FY 2013-14, the Graduation Requirements program was included in the block grant program. If the district chooses to opt out of the block grant program, we recommend that

the district claim only those costs that it incurred as a result of Education Code section 51225.3. In addition, the district should ensure that it obtains and retains all documentation required by the parameters and guidelines before claiming reimbursement.

District's Response

Before addressing each of the individual audit findings, the district made the following general statement regarding the claimed facility construction and fixtures acquisition costs. The district claimed facilities costs in two cost components: 1) Component A - Acquisition of Additional Space and 2) Component E - Increased Cost for Supplying New Science Classrooms.

> All of the amounts claimed for facility construction and fixtures acquisition costs for both fiscal years have been disallowed by the audit. In sum, since the draft audit report does not assert that all of the disallowed claimed costs were excessive or unreasonable, which is the only statutory mandated cost audit standard (Government Code Section 17561(d) (2)), the wrong standard of review was used. An incorrect reduction claim will be needed since most of the adjustments are based on Controller audit policies, the propriety of which can only be determined by appeal to the Commission on State Mandates. The District's incorrect reduction claim will be submitted to the Commission after we receive the final audit report.

The district's response to Finding 1 is as follows:

> The draft audit report disallows the amount of $29,633,952 claimed for construction and acquisition costs and related indirect costs of $467,692, because "the district did not meet the documentation requirements outlined in the program's parameters and guidelines." However, the District actually claimed $4,307,034 for FY 2008-09 (amended claim) and $10,509,941 for FY 2009-10 (amended claim). The draft audit report doubles the claimed amounts for purposes of applying offsetting savings in Finding 4.
>
> Notwithstanding, this total disallowance, there are subsidiary findings regarding charter school costs, the "incremental increase percentage" to determine increased science course enrollment and non-science classroom-related construction costs.
>
> Documentation Requirements <$29,633,952>
>
> The draft audit report asserts that "the documentation the district provided did not meet the documentation criteria set forth in the program's parameters and guidelines to demonstrate that the additional space was required as a result of the implementation of Education Code section 51225.3. This will be a question of fact and law for the Commission.
>
> Incremental Costs <$2,959,887>
>
> The complete disallowance of all costs notwithstanding, the draft audit report asserts that the District's claim for 50% of the construction/acquisition costs, is an incorrect "incremental cost." The draft audit report states that no documentation was provided to support the percentage. The District used 50% because the number of mandated science classes doubled as a matter of law and there is no question of fact remaining.

Instead, the draft audit report applied the percentage increase used to compute the increased staffing costs extrapolated from the One-Quarter Class Load formula. The draft audit report states that this is "reasonable" because "it is evidence based and consistent with the identification of increased staffing and materials and supplies costs." Using the One-Quarter Class Load formula, the audited incremental increase percentages are 40.14% (167/416) for FY 2008-09 and 47% (154.7/329) for FY 2009-10. The audit applies these percentages to the construction costs.

The Quarter Load formula is a reasonable reimbursement methodology established in the parameters and guidelines for the purposes of calculating increased annual teaching costs. It was not approved for use by the Commission for the calculation of construction/acquisition costs. Other than its availability for another purpose, its utility for the construction/acquisition cost calculation is not supported by fact and is contrary to the parameters and guidelines.

Charter School Costs <$4,798,082>

The District claimed, and the draft audit report disallows, science classroom construction costs at the Helix High School schoolsite. The draft audit report correctly cites that charter schools are not identified as eligible claimants in the parameters and guidelines for the mandated cost program. The draft audit report wrongly concludes that the District is acting as a "third party" claiming mandate reimbursement on behalf of a charter school.

The Helix Charter High School is not claiming the costs. These costs are on an annual claim submitted by the District. The District is not claiming Helix Charter High School operating (increased teaching) costs. As a matter of law Helix High School is the property of the District, it was not "sold" to the charter school. The charter school leases the property. The District, not the charter school, is responsible for implementing the mandate to have sufficient science classroom facilities. The District facility costs for Helix High School are incorrectly disallowed.

"Non-science" Classroom Construction Costs <$522,202>

The complete disallowance of all costs notwithstanding, the draft audit report states that the District included non-science classroom construction costs in its claims. Although the specific amounts are not enumerated in the draft audit report, these costs are stated to include construction of locker rooms (boys' gym), school perimeter fencing, parking lot repaving, and installation of parking lot lights as part of its reimbursement claims. The District is in the process of reviewing the invoices related to these items and will respond in the incorrect reduction claim.

Indirect Cost Rate

At this time, the District does not dispute the auditor's reclassification of the construction/acquisition costs as "fixed assets" on Form-1 of the claiming instructions. The net cost effect of this one change is not calculated in the draft audit report.

SCO's Comments

The SCO's finding and recommendation remains unchanged. Our responses are organized in subheadings to correspond to the district's comments as follows:

General comment

The district asserts that the SCO used the wrong standard of review in determining that all claimed costs for facility acquisition were unallowable. The district states that "... the draft report does not assert the disallowed costs were excessive or unreasonable, which is the only statutory mandated cost audit standard (Government Code Section 17561 (d) (2))".

We disagree with the assertion that the wrong standard of review was used in determining unallowable costs. We used the criteria identified in the parameters and guidelines for this program as the basis of our findings. The statement of decision is legally binding on all parties and provides the legal and factual basis for the parameters and guidelines. The support for the legal and factual findings is found in the administrative record for the test claim.

The Commission's statement of decision dated January 22, 1987, determined that Education Code section 51225.3 imposed a reimbursable state mandate upon school districts, which was titled the Graduation Requirements Program. The original parameters and guidelines for the program were established and adopted by the Commission on March 3, 1988. The parameters and guidelines have been amended several times over the years; however, the most recent parameters and guidelines relevant to the audit period were adopted on November 2008, for the reimbursement period beginning January 1, 2005. The district's comment indicates it does not believe it should be in compliance with the parameters and guidelines in order to be reimbursed for the program.

The district also asserts that the draft audit report doubles the district's claimed amounts of $4,307,034 for FY 2008-09 (amended claim) and $10,509,941 for FY 2009-10 (amended claim) "for purposes of applying offsetting savings in Finding 4." As noted in the footnote to the Schedule, the district did not identify the costs and offsetting revenues separately in its claims. On the claim Form 1, line item (10), the claimant is required to identify offsetting revenues. However, the district did not complete this section of the claim for either fiscal year. In supporting schedules for the claims provided to the SCO, the district identified total costs before applying State bonds as an offset. We used this information to correctly identify the costs and associated offsetting revenues. In addition, the district identified acquisition of additional space costs of $8,614,068 for FY 2008-09 and $21,019,884 for FY 2009-10 on Form 2 of its submitted claims. Therefore, to clarify the presentation of the finding, and to report costs and offsetting revenues consistent with the program's parameters and guidelines and SCO's claiming instructions, we identified the district's total costs.

Documentation Requirements

The district states that the issue is a question of fact and law for the Commission to decide and did not provide a comment.

We reiterate that the program's parameters and guidelines (section VIII (A)) require school districts and county offices of education to provide specific documentation to support that the costs claimed for science classes are due to the enactment of Education Code section 51225.3 and not due to increased enrollment at the high school district. As noted in the finding, the documentation provided by the district did not meet the specified criteria. The documentation indicated that construction costs were incurred because the district's buildings were old and there was increased enrollment within the high school district. The district did not provide documentation to support that acquisition costs were incurred due to the enactment of Education Code section 51225.3.

Incremental Costs

The district asserts that it used 50% as its incremental cost percentage because the number of mandated science classes doubled "as a matter of law and there is no question of that fact remaining." We disagree with the district's methodology. The parameters and guidelines state that a claimant is allowed to claim the increased costs only for reimbursable activities. Further, the parameters and guidelines (section VIII (A)(1)) states that required support includes documentation of increased science course enrollments due to the enactment of Education Code section 51225.3 necessitating such an increase. In its response, the district does not dispute the fact that it did not provide supporting documentation regarding increased science course enrollments due to the mandate. It merely indicates that the SCO applied a different methodology.

As noted in the finding, we used information included the One-Quarter Class Load formula to determine the incremental increase in science course enrollments. We believe that this is a reasonable approach rather than concluding that costs were unallowable due to lack of documentation. We used the total science class offerings and the increased science class offerings components from the formula. The formula indicates that the number of class offerings did not double, as the results of the formula showed 40.14% (167/416) for FY 2008-09 and 47% (154.7/329) for FY 2009-10. It is not reasonable to assume that the capacity increased by 50% simply because the statute required an additional science class.

Charter Schools

We disagree with the district's assessment that the audit report "wrongly concludes that the district is acting as a third party claiming mandate reimbursement on behalf of the charter school."

The parameters and guidelines provide the criteria for reimbursable costs for the mandated cost program and do not identify charter schools as an eligible claimant. Further, it is unclear why the district believes it is responsible for implementing the mandate for an entity that is separate and distinct from itself.

Non-science Classroom Construction Costs

As noted in the finding, the audit disclosed that the district included costs in its claims that were not science-related. The district indicates it will respond to this portion of the finding when it files its incorrect reduction claim.

Indirect Costs

The district states:

> At this time, the District does not dispute the auditor's reclassification of the construction/acquisition costs as "fixed assets" on Form-1 of the claiming instructions. The net cost effect of this one change is not calculated in the draft audit report.

To clarify the finding in relation to indirect costs, we offer the following comment. The district indicates that we reclassified construction/ acquisition costs as fixed assets. The draft audit report did not indicate that costs were reclassified. The report disclosed that the district applied the indirect cost rate to costs claimed under the Acquisition of Additional Space cost component. The report also disclosed that the claimed costs were identified as Facilities and Construction costs (Function 8500) and a portion as Capital Outlay costs (object codes 6000-6999). Consistent with the California School Accounting Manual, Procedure 915, and the SCO's claiming instructions, the function code and related object codes are specifically excluded in the application of the indirect cost rate. Therefore, the related indirect costs claimed in FY 2009-10 totaling $467,692 are unallowable.

FINDING 2— Overstated textbooks, materials, and supplies costs

The district claimed $890,267 ($20,349 for FY 2008-09 and $869,918 for FY 2009-10) for Component E - Increased Costs for Supplying New Science Classrooms cost component. We found that $875,031 is unallowable. The related indirect cost on this adjustment is $19,728. The costs are unallowable because the district overstated reported costs, claimed facilities-related materials and supplies costs, and used an unsupported percentage to determine the incremental increased costs resulting from the implementation of the mandate.

The following table summarizes the audit adjustment:

	Fiscal Year 2008-09	Fiscal Year 2009-10	Total
Overstated textbooks, materials and supplies costs	$ (1,101)	$ -	$ (1,101)
Non-reimbursable materials and supplies costs	-	(860,978)	(860,978)
Unsupported incremental increase	(4,012)	(52,196)	(56,208)
Unallowable costs[1]	(5,113)	(869,918)	(875,031)
Related indirect costs	(173)	(19,555)	(19,728)
Audit adjustment	$ (5,286)	$ (889,473)	$ (894,759)

[1]Total adjustment for FY 2009-10 limited to amount claimed.

Overstated textbooks, materials, and supplies costs

For FY 2008-09, the district filed an amended claim reporting total textbooks, materials, and supplies costs of $20,349. The district claimed costs net of an adjustment representing the incremental increase in science course enrollments as a result of the mandated program (50%). The district's accounting records did not support the total expenses used to compute claimed costs. We computed the claimed costs using the actual expenses supported by the district's accounting records. Our computation resulted in an overstatement of $1,101 claimed costs.

Non-reimbursable materials and supplies costs

For FY 2009-10, the district claimed $860,978 in non-reimbursable materials and supplies costs. The amount was claimed by the district net of adjustment representing the incremental increase in science course enrollments as a result of the mandated program. As noted in Finding 1, we found that the district did not meet the specific documentation requirements set forth in the parameters and guidelines to support that the need for additional space resulted from the mandate. The claimed materials and supplies costs were used to furnish and equip the new science buildings. These costs were expensed as part of the new science classrooms in the district's accounting records. As noted in Finding 1, all associated facilities acquisition costs are non-reimbursable.

Unsupported incremental increase

For the audit period, the district applied an unsupported incremental increase to textbooks, materials, and supplies costs to arrive at the reimbursable mandate-related portion. In its calculations, the district used 50% to determine the increased costs related to the implementation of the mandate. The parameters and guidelines (section VIII (A)(1)) require documentation that science course enrollment increased due to the mandate.

In the absence of any documentation provided by the district to support its incremental increase percentage, we computed a percentage based on the One-Quarter Class Load formula. As noted in Finding 1, we computed the incremental increase using the formula; the percentages are 40.14% (167/416) for FY 2008-09 and 47% (154.7/329) for FY 2009-10. We then applied the incremental increase to textbooks, materials, and supplies costs. As a result, we concluded that the district overstated costs by $56,208 by using an unsupported increased cost percentage.

The following table summarizes the overstated costs:

	Fiscal Year 2008-09	Fiscal Year 2009-10	Total
Textbooks, materials, and supplies	$ 40,699	$ 1,739,835	
Incremental increase in science classes	x 40.14%	x 47.0%	
Increased costs	16,337	817,722	
Less claimed costs	(20,349)	(869,918)	
Overstated materials and supplies costs	$ (4,012)	$ (52,196)	$ (56,208)

Criteria

The parameters and guidelines (section V (E)) state that only the increased costs for supplying the new science class mandated with science instructional materials is allowable.

In addition, the parameters and guidelines (section VIII (A)) require school districts and county offices of education provide the following supporting documentation:

1. Documentation of increased units of science course enrollments due to the enactment of Education Code section 51225.3 necessitating such an increase.

2. Documentation of lack of appropriately configured and equipped space in existing facilities for the new courses.

3. Certification by the Board that an analysis of all appropriate science facilities within the district was conducted, and a determination made that no such facilities existed to reasonably accommodate increased enrollment for the additional science courses required by the enactment of Education Code section 51225.3. To reasonably accommodate includes:

   a. Adjusting attendance boundaries to balance attendance between under-utilized and over-utilized secondary school facilities within the district.
   b. Taking advantage of other available secondary school science facilities that are within a secure walking distance of the school.

4. Documentation that the additional space for conducting new science classes is required only when the space would not have otherwise been acquired due to an increase in high school enrollment.

5. Documentation that remodeling existing facilities was not feasible or would have been more expensive than acquiring additional space.

Recommendation

Commencing in FY 2012-13, the district elected to participate in a block grant program, pursuant to Government Code section 17581.6, in lieu of filing annual mandated cost claims. As of FY 2013-14, the Graduation Requirements program was included in the block grant program. If the district chooses to opt out of the block grant program, we recommend that the district use the incremental increase percentage identified in the One Quarter Class Load formula to apply to its textbooks, materials, and supplies costs to derive the increased costs related to the mandated science instructional materials and supplies.

District's Response

The draft audit report states that the District claimed $890,267 for supplying the new science classrooms cost component, of which the draft audit report determined $875,031 is unallowable with the related indirect cost of $19,728. However, the District actually claimed $20,349 for FY 2008-09 (amended claim) and $439,429 for FY 2009-10 (amended claim). The draft audit report doubles the amount for FY 2009-10 for

purposes of applying offsetting savings in Finding 4. The draft audit report states the costs are unallowable because the district overstated reported costs, claimed facilities-related materials and supplies costs, and used an unsupported percentage to determine the incremental increased costs resulting from the implementation of the mandate.

Textbooks, Materials, and Supplies Costs <$1,101>

For FY 2008-09, the District claimed textbooks, materials, and supplies costs of $20,349, based on 50% rate discussed in Finding 1. The audit evaluated the invoices and reduced the claimed amount by $1,101. This amount is not disputed at this time.

Non-reimbursable Materials and Supplies Costs <$875,031>

For FY 2009-10, the District claimed $439,429 (most of which is doubled by the audit to ($869,918) in materials and supplies costs which the audit determined to be non-reimbursable due to lack of specific documentation required by the parameters and guidelines to "support that the need for additional space resulted from the mandate." The claimed costs were for fixtures to equip the new science buildings. Because the classroom construction/acquisition costs are disallowed by Finding 1, the draft audit report disallows the fixtures cost here. The District response here is the same as for Finding 1, and it will be a question of law and fact for the Commission.

Incremental Increase <$56,208>

As is the case for Finding 1, the District used 50% as the "incremental cost." The draft audit report states that no documentation was provided to support the percentage. The draft audit report applied the audited percentage increase used to compute the increased staffing costs based on the One-Quarter Class Load formula (40.14% for FY 2008-09 and 47% for FY 2009- 10). The District response here is the same as in Finding 1 for the incremental increase issue

SCO's Comments

The SCO's finding and recommendation remains unchanged. Our responses are organized in subheadings to correspond to the district's comments as follows:

General Comment

The district asserts that the draft audit report doubles the district's claimed amounts "for purposes of applying offsetting savings in Finding 4." In the footnote to the Schedule, we disclosed that the district did not identify the direct costs and offsetting revenues separately in its claims. As noted in our response to the district's comments for Finding 1, we identified the total costs reported for FY 2009-10 based on information provided in the supporting schedules the district submitted with its claim. These schedules separate the portion of materials and supplies costs that were construction related and general expenses. The district identified the construction related costs as Proposition H (local restricted funds) and the non-construction, general expenses as non-Proposition H (unrestricted funds). For construction costs, the district reduced costs by 50% representing the portion funded by State bonds. However, the district did not report any of

these offsetting revenues on the applicable claim forms (Form 1). To clarify the presentation of the finding and to report direct costs and offsetting revenues consistent with the program's parameters and guidelines and the SCO's claiming instructions, we identified the total costs the district should have reported on its mandated costs claims.

Textbooks, Materials, and Supplies Costs

We have no comment, as the district did not dispute this adjustment.

Non-reimbursable Materials and Supplies Costs

The district identifies the non-reimbursable amount due to the lack of specific documentation as $875,031. The actual construction-related amount identified as non-reimbursable in Finding 2 is $860,978. As noted in the general comment, the construction-related portion of costs identified as Proposition H on supporting schedules was reduced by 50% representing State bonds. However, the district did not separately report the direct costs and revenues on its claims (Form 1). We separated the direct costs and offsetting revenues on the Schedule based on the support submitted with the district's claims.

As noted in our response to the district's comments in Finding 1, the district did not comply with the specific documentation requirements identified in parameters and guidelines (section VIII (A)). The requirements include specific documentation to support that the costs claimed for science classes are due to the enactment of Education Code section 51225.3 and not due to increased enrollment at the high school district. As noted in the finding, the documentation provided by the district did not meet the specified criteria. The documentation indicated that construction costs were incurred because the district's buildings were old and there was increased enrollment within the high school district. The district did not provide documentation to support that acquisition costs were incurred due to the enactment of Education Code section 51225.3.

Incremental Costs

The district indicated that its response was the same as for Finding 1.

To reiterate our response to the district's comments in Finding 1, the parameters and guidelines (section VIII (A)(1)) provide that required support includes documentation of increased science course enrollments due to the enactment of Education Code section 51225.3 necessitating such an increase. The district did not provide supporting documentation regarding increased science course enrollments due to the mandate. In the absence of any documentation provided, we applied the incremental increase in science classes based on the One-Quarter Class Load formula. We believe that this is a reasonable approach given the lack of documentation provided by the district. The formula results in incremental increases in science course offerings as follows: 40.14% for FY 2008-09 and 47% for FY 2009-10.

FINDING 3—Understated teacher staffing costs

The district claimed $2,451,824 for Component D - Increased Cost for Staffing New Science Classrooms cost component for FY 2009-10. The district supported $2,617,555 in costs. Therefore, we found that the district understated costs by $165,731. The related indirect cost adjustment is $7,375.

The following table summarizes the understated teacher staffing costs:

	Fiscal Year 2009-10
Allowable staffing costs	$ 2,617,555
Claimed staffing costs	(2,451,824)
Understated staffing costs	165,731
Indirect cost rate	x 4.45%
Related indirect costs	7,375
Audit adjustment	$ 173,106

For the audit period, the district claimed staffing costs using the Reasonable Reimbursement Methodology (RRM) based on the One-Quarter Class Load formula. The formula requires claimants to use statistical data reported to the California Department of Education (CDE), accumulated in its California Basic Educational Data System (CBEDS).

For FY 2009-10, the district used an unsupported average science class size for its calculation. During this period, the system used to report statistical data was changed to the California Longitudinal Pupil Achievement Data System (CALPADS). Due to this change, the district used an estimated average science class size in its calculation. We recalculated the RRM using an average science class size computed using statistical data from CALPADS.

The following table summarizes our recalculation of the RRM:

One-Quarter Class Load Formula	Fiscal Year 2009-10
1 Secondary enrollment	19,984
2 One quarter class load (divide line 1 by 4)	4,996
3 Average science class size	32.3
4 Increased classes (line 2 divided by line 3)	154.7
5 Number of classes taught per teacher	5
6 Increased science teachers (line 4 divided by line 5)	30.94
7 Average science teacher salary and benefits	$ 84,601
8 Total additional science teacher costs	$ 2,617,555

Criteria

The parameters and guidelines (section VII (A)) allow the use of an RRM to calculate the reimbursable costs for the additional science teachers. In order to take advantage of the RRM, the district must use the One-Quarter Class Load formula to calculate the direct costs of teacher salaries for staffing the new mandated science class. The One-Quarter Class Load formula from the parameters and guidelines (section VII (A)(2)), which identifies the data elements needed and the steps to calculate the increased teacher staffing costs, is as follows:

1. Total regular secondary enrollment for grades 9-12 on the CBEDS Information Day for the claim year is divided by four representing the additional year of science.

2. The number of additional classes the enrollment in (1) divided by the average science class size.

3. The additional teachers are determined by dividing the additional classes in (2) by the classes taught by full-time equivalent teacher (5 class periods).

4. The increased cost is determined by multiplying the number of teachers in (3) by the average annual teacher salary and benefit cost for the school district for the claim year.

The SCO's claiming instructions and the parameters and guidelines allow school districts to recover indirect costs using the CDE-approved indirect cost rate.

Recommendation

Commencing in FY 2012-13, the district elected to participate in a block grant program, pursuant to Government Code section 17581.6, in lieu of filing annual mandated cost claims. As of FY 2013-14, the Graduation Requirements program was included in the block grant program. If the district chooses to opt out of the block grant program, we recommend that the district ensure that it calculates the RRM's increased teacher staffing costs using the statistical data reported to the CDE.

District's Response

During this period, the system used to report statistical data was changed to the California Longitudinal Pupil Achievement Data System (CALPADS), data that was not immediately available to the District for the calculation. The draft audit report recalculated the RRM using an average science class size computed using the statistical data later available from CALPADS. No dispute at this time.

SCO's Comment

The finding and recommendation remain unchanged. The district does not dispute this adjustment.

FINDING 4— Unreported offsetting revenues

For the audit period, the district funded the net claimed costs for new science classrooms using local restricted funds. The facilities costs were claimed under the Component A - Acquisition of Additional Space and Component E - Increased Costs for Supplying New Science Classrooms cost components. All of the facilities costs claimed were charged against local restricted resources; these funds were provided through a local bond measure. Notwithstanding the audit adjustments in Finding 1 and Finding 2, the costs net of State bonds for Component A ($14,816,976) and a portion of Component E ($430,489) are still zero, as the remainder was fully funded with local restricted funds.

The following table summarizes the unreported offsetting revenues:

	Fiscal Year		
	2008-09	2009-10	Total
Component A - Acquisition of additional space costs	$ (4,307,034)	$ (10,509,942)	$ (14,816,976)
Component E - Increased cost for supplying new science classrooms	-	(430,489)	(430,489)
Audit adjustment	$ (4,307,034)	$ (10,940,431)	$ (15,247,465)

The county reduced facilities costs by State bond funds administered by the Office of Public School Construction (OPSC). The OPSC is authorized by the California Department of General Services. The district reduced net facilities costs by 50%, representing offsetting revenues provided by the OPSC for new construction totaling $15,247,465. However, the district did not reduce the remaining facilities costs by local bond proceeds. As noted above, the total facilities costs were charged against local restricted resources. Despite the reductions to direct costs, the net costs are still zero, as the remainder was funded with local bond proceeds. As there are no allowable facilities costs for Component A and a portion of Component E, no corresponding offsetting revenues are identified in the Allowable per Audit column of the Schedule.

In March 2004, the district's voters approved a bond measure, Proposition H, authorizing the district to issue up to $274 million in general obligation bonds for school facility improvements. The ballot measure was entitled "Neighborhood School Repair, Safety and Overcrowding Measure." The purpose of the bond measure is restricted to renovating specific schools within the district. The district included various projects that it would complete with the proceeds received from the bond issuance.

Education Code section 15100 authorizes the sale of general obligation bonds, which are secured by statutory obligation, to levy an *ad valorem* property tax sufficient for interest and redemption of the bonds. The proceeds from the sale of the bonds are restricted to acquiring or improving real property and not for other purposes, as outlined in Proposition H. The district used the bond funds to demolish old science classrooms and construct new science buildings.

We determined that the terms of Proposition H indicate that the funds may be used only for constructing and repairing the district's school sites (Component A). Further, the proposition requires the district's taxpayers to fund the construction projects through additional levies made to their

property taxes. The district's taxpayers have been and are still currently assessed property taxes in amounts specifically for the purpose of retiring the Proposition H bonds. Therefore, the taxpayers are funding both the entire bond principal and interest amounts.

In addition, the district charged a significant portion of the textbooks, materials, and supplies expenses (Component E) against local restricted resources (Proposition H). The bond proceeds were used to furnish and equip the new science classrooms. The district's taxpayers are funding both the bond principal and interest through an *ad valorem* property tax levied on area real estate. Therefore, there was no fiscal impact to the district.

Based on the district's accounting records, we concluded that a combination of local restricted resources and State bonds fully funded the claimed construction costs for the science buildings. There was no fiscal impact to the district to construct or remodel its science buildings. Therefore, any costs claimed and charged against local restricted resources (Proposition H) should have been fully offset by these funds.

Criteria

The parameters and guidelines (section IX) identify reimbursement from any source, including but not limited to, federal, state, and block grants. Further, in regard to science facilities, the guidelines also specifically identify state bond funds as an offset.

Education Code section 15100 authorizes the sale of general obligation bonds, which are secured by statutory obligation, to levy an *ad valorem* property tax sufficient for interest and redemption of the bonds.

Education Code section 15251(a) states that "When collected, all taxes levied shall be paid into the county treasury of the county whose superintendent of schools has jurisdiction over the school district ... and shall be used for the payment of the principal and interest of the bonds and for no other purpose."

Recommendation

Commencing in FY 2012-13, the district elected to participate in a block grant program, pursuant to Government Code section 17581.6, in lieu of filing annual mandated cost claims. As of FY 2013-14, the Graduation Requirements program was included in the block grant program. If the district chooses to opt out of the block grant program, we recommend that the district ensure that it applies all related offsetting revenues to claimed costs.

District's Response

The draft audit report disallows $15,247,465 in claimed construction and acquisition costs and equipment costs. This amount is the cost remaining after the adjustments in Findings 1 and 2. The draft audit report incorrectly characterizes this adjustment as unreported offsetting revenues. However, the draft audit report correctly reports that the District first reduced net facilities costs by 50% representing funds provided by OPSC for construction.

The first stated reason for this total disallowance is: "the facilities costs claimed were charged against local restricted resources; these funds were provided through a local bond measure." State-mandated budget and financial reporting standards require bond proceeds to be accounted for in restricted accounts. The account code for the bond proceeds is not determinative of the mandate reimbursement issue.

Since the District did not claim costs funded by OPSC, there were no remaining claimed costs subject to state or local funding sources as offsetting savings. Claiming the costs funded by the state proceeds and then subtracting the state proceeds would yield the same results, except perhaps, for how the indirect costs were calculated.

The draft audit report alternately asserts that since the District taxpayers are funding the bond principal and interest amounts, the costs to which that funding is applied is not reimbursable, because "there was no fiscal impact to the district." Local bond funds are proceeds from taxes like other property taxes (that are used for general fund expenses). The draft audit report does not state a legal difference.

SCO's Comments

The SCO's finding and recommendation remains unchanged.

The district's response does not accurately address the issues discussed in the finding. Though not shown as an offsetting revenue on its claim forms (Form 1), the district reduced construction costs by State bonds administered by the OPSC in its support submitted with its claims. We corrected the presentation of claimed costs by showing the direct costs and associated offsetting revenues separately on the Schedule. As noted in the finding, the district did not report any offsetting revenues provided by local restricted funds (Proposition H). The purpose of the bond measure is restricted to school construction within the district. The unreported revenues of $15,247,465 represent the portion of construction costs funded by these local bond proceeds. These unreported revenues are in addition to the $15,247,465 in State bond funds provided by the OPSC.

The following table summarizes the offsetting revenues related to non-reimbursable construction costs:

	Fiscal Year 2008-09	Fiscal Year 2009-10	Total
Reported offsetting revenues - State bonds (OPSC) [1]	$ (4,307,034)	$ (10,940,431)	$ (15,247,465)
Unreported offsetting revenues - Local bonds (Proposition H)	(4,307,034)	(10,940,431)	(15,247,465)
Total	$ (8,614,068)	$ (21,880,862)	$ (30,494,930)

[1] The district reported direct costs net of State bonds on its claims.

As previously noted, notwithstanding the disallowance of non-reimbursable construction costs in Finding 1 and Finding 2, the net costs are still zero because they are fully funded through a combination of State and local bond proceeds. Further, no corresponding offsetting revenues are identified in the Allowable per Audit column of the Schedule because there are no allowable construction costs.

In its response, the district states that "The draft report incorrectly characterizes this adjustment as unreported offsetting revenues." This statement is inaccurate in that the local restricted bond proceeds (Proposition H) were not reported in the district's claim forms or in the support submitted with its claims. These local restricted funds should have been reported along with State bonds on the district's claims as an offsetting revenue. As previously noted, no offsetting revenues are shown on the Schedule because there are no allowable facilities costs.

The district states that "The account code for the bond proceeds is not determinative of the mandate reimbursement issue." In addition, the district indicates that "Local bond funds are proceeds from taxes like other property taxes (that are used for general fund expenses)." We disagree; the local restricted funds are bond proceeds provided by the approval of Proposition H. The bond measure restricts the use of bond proceeds to school construction within the district. The language of the bond measure states that funds may only be used for constructing and repairing school sites; therefore, as a matter of law, the bond proceeds are restricted and not for general use. The non-reimbursable construction expenditures identified in Finding 1 and Finding 2 were charged against these local restricted funds (Proposition H). The district did not claim any construction costs that were funded by unrestricted general purpose resources. The parameters and guidelines require that reimbursement from any source should be reported as an offset and deducted from the claim. Allowing the claimed construction costs without applying the restricted proceeds of the local bonds as an offset would result in duplicate reimbursement.

Lastly, the Education Code sections cited in the finding provide the statutory framework for the authorization process of issuing general obligation bonds, the intended purposes of an issuance, and general responsibilities of the parties involved in the process. In regard to Proposition H bonds, the district intended to sell bonds for the purposes of school construction. The district's voters approved of the bond measure that restricts the use of bond proceeds to constructing and repairing school sites. The district used these funds to construct new science buildings and equip the classrooms. The district's taxpayers are funding both the bond principal and interest through an *ad valorem* property tax levied on area real estate.

OTHER ISSUE— Statute of Limitations

The district's response includes a comment regarding the three-year statute of limitations to initiate an audit of the mandated cost claims.

District's Response

> This issue is not a finding of the draft audit report. The annual claim for FY 2009-10 was beyond the statute of limitations to start the audit based on when the Controller issued the audit entrance conference notice letter dated January 6, 2015.

Chronology of Annual Claim Action Dates

January 26, 2011	FY 2009-10 annual claim filed by the District
November 29, 2011	SCO payments of $10 for FY 2009-10 (MA 137098)
January 24, 2012	FY 2009-10 amended claim filed by the District
November 29, 2014	3-year statute to start the audit expires
January 6, 2015	Audit entrance conference notice letter

Government Code Section 17558.5 (as amended by Statutes of 2004, Chapter 890, Section 18, operative January 1, 2005) states:

> (a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. *However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim.* In any case, an audit shall be completed not later than two years after the date that the audit is commenced.

Therefore, the findings are void for FY 2009-10, due to lack of jurisdiction for the audit.

SCO's Comments

The SCO's findings and recommendation remain unchanged. The district believes that the findings for FY 2009-10 are void due to our lack of jurisdiction for the audit. The chronology that the district presents indicates that the SCO made a payment on November 29, 2011. Therefore, the district believes that the statute of limitations to start the audit expired on November 29, 2014.

Although the district quotes Government Code section 17558.5(a) in its response, it emphasizes the second part of the subdivision, which states:

> (a) .... However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim.

Instead, the district should have placed its focus on the first part of Government Code section 17558.5(a), which states:

> (a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later...

As noted in the district's response, it filed an amended claim for FY 2009-10 that was submitted January 24, 2012. The amended claim was actually received by the SCO January 26, 2012. The Government Code section 17558.5(a) states that the claims are subject to audit by the Controller no later than three years of the date that the actual claim was filed or last amended, whichever is later. The audit notification letter was dated January 6, 2015, within the three-year statutory time limit to initiate the audit.

OTHER ISSUE—Public Records Request

The district's response included a public records request.

District's Response

> The District requests that the Controller provide the District any and all written instructions, memoranda, or other writings in effect and applicable to the audit procedures and findings for audits of this mandate program. Government Code Section 6253, subdivision c, requires the state agency that is the subject of the request, within ten days from receipt of a request for a copy of records, to determine whether the request, in whole or in part, seeks copies of disclosable public records in possession of the agency and promptly notify the requesting party of that determination and the reasons therefore. Also, as required, when so notifying the District, the agency must state the estimated date and time when the records will be made available.

SCO's Comments

The SCO responded to the district's request separately from this report.

Sacramento, CA 94250-5874

Re: Graduation Requirements Audit
FY 2008-09 and FY 2009-10
Grossmont Union High School District

Dear Mr. Spano:

This letter is the response of the Grossmont Union High School District to the draft audit report received by e-mail on May 6, 2016, for the above-referenced program and fiscal years transmitted by the letter dated May 5, 2016, from Jeffrey V. Brownfield, Chief, Division of Audits, State Controller's Office.

All of the amounts claimed for facility construction and fixtures acquisition costs for both fiscal years have been disallowed by the audit. In sum, since the draft audit report does not assert that all of the disallowed claimed costs were excessive or unreasonable, which is the only statutory mandated cost audit standard (Government Code Section 17561(d) (2)), the wrong standard of review was used. An incorrect reduction claim will be needed since most of the adjustments are based on Controller audit policies, the propriety of which can only be determined by appeal to the Commission on State Mandates. The District's incorrect reduction claim will be submitted to the Commission after we receive the final audit report.

Finding 1Unallowable acquisition of additional space costs

The draft audit report disallows the amount of $29,633,952 claimed for construction and acquisition costs and related indirect costs of $467,692, because "the district did not meet the documentation requirements outlined in the program's parameters and guidelines." However, the District actually claimed $4,307,034 for FY 2008-09 (amended claim) and $10,509,941 for FY 2009-10 (amended claim). The draft audit report doubles the claimed amounts for purposes of applying offsetting savings in Finding 4.

POST OFFICE BOX 1043
TELEPHONE (619) 644-8000
LA MESA, CALIFORNIA 91944-1043
www.guhsd.net
FAX (619) 465-1349

Notwithstanding, this total disallowance, there are subsidiary findings regarding charter school costs, the "incremental increase percentage" to determine increased science course enrollment and non-science classroom-related construction costs.

Documentation Requirements <$29,633,952>

The draft audit report asserts that "the documentation the district provided did not meet the documentation criteria set forth in the program's parameters and guidelines to demonstrate that the additional space was required as a result of the implementation of Education Code section 51225.3. This will be a question of fact and law for the Commission.

Incremental Costs <$2,959,887>

The complete disallowance of all costs notwithstanding, the draft audit report asserts that the District's claim for 50% of the construction/acquisition costs, is an incorrect "incremental cost." The draft audit report states that no documentation was provided to support the percentage. The District used 50% because the number of mandated science classes doubled as a matter of law and there is no question of fact remaining.

Instead, the draft audit report applied the percentage increase used to compute the increased staffing costs extrapolated from the One-Quarter Class Load formula. The draft audit report states that this is "reasonable" because "it is evidence based and consistent with the identification of increased staffing and materials and supplies costs." Using the One-Quarter Class Load formula, the audited incremental increase percentages are 40.14% (167/416) for FY 2008-09 and 47% (154.7/329) for FY 2009-10. The audit applies these percentages to the construction costs.

The Quarter Load formula is a reasonable reimbursement methodology established in the parameters and guidelines for the purposes of calculating increased annual teaching costs. It was not approved for use by the Commission for the calculation of construction/acquisition costs. Other than its availability for another purpose, its utility for the construction/acquisition cost calculation is not supported by fact and is contrary to the parameters and guidelines.

Charter School Costs <$4,798,082>

The District claimed, and the draft audit report disallows, science classroom construction costs at the Helix High School schoolsite. The draft audit report correctly cites that charter schools are not identified as eligible claimants in the parameters and guidelines for the mandated cost program. The draft audit report wrongly concludes that the District is acting as a "third party" claiming mandate reimbursement on behalf of a charter school.

The Helix Charter High School is not claiming the costs. These costs are on an annual claim submitted by the District. The District is not claiming Helix Charter High School operating (increased teaching) costs. As a matter of law Helix High School is the property of the District, it was not "sold" to the charter school. The charter school leases the property. The District, not the charter school, is responsible for implementing the mandate to have sufficient science classroom facilities. The District facility costs for Helix High School are incorrectly disallowed.

"Non-science" Classroom Construction Costs <$522,202>

The complete disallowance of all costs notwithstanding, the draft audit report states that the District included non-science classroom construction costs in its claims. Although the specific amounts are not enumerated in the draft audit report, these costs are stated to include construction of locker rooms (boys' gym), school perimeter fencing, parking lot repaving, and installation of parking lot lights as part of its reimbursement claims. The District is in the process of reviewing the invoices related to these items and will respond in the incorrect reduction claim.

Indirect Cost Rate

At this time, the District does not dispute the auditor's reclassification of the construction/acquisition costs as "fixed assets" on Form-1 of the claiming instructions. The net cost effect of this one change is not calculated in the draft audit report.

FINDING 2 Overstated textbooks, materials, and supplies costs

The draft audit report states that the District claimed $890,267 for supplying the new science classrooms cost component, of which the draft audit report determined $875,031 is unallowable with the related indirect cost of $19,728. However, the District actually claimed $20,349 for FY 2008-09 (amended claim) and $439,429 for FY 2009-10 (amended claim). The draft audit report doubles the amount for FY 2009-10 for purposes of applying offsetting savings in Finding 4. The draft audit report states the costs are unallowable because the district overstated reported costs, claimed facilities-related materials and supplies costs, and used an unsupported percentage to determine the incremental increased costs resulting from the implementation of the mandate.

Textbooks, Materials, and Supplies Costs <$1,101>

For FY 2008-09, the District claimed textbooks, materials, and supplies costs of $20,349, based on the 50% rate discussed in Finding 1. The audit evaluated the invoices and reduced the claimed amount by $1,101. This amount is not disputed at this time.

Non-reimbursable Materials and Supplies Costs <$875,031>

For FY 2009-10, the District claimed $439,429 (most of which is doubled by the audit to $869,918) in materials and supplies costs which the audit determined to be non-reimbursable due to lack of specific documentation required by the parameters and guidelines to "support that the need for additional space resulted from the mandate." The claimed costs were for fixtures to equip the new science buildings. Because the classroom construction/acquisition costs are disallowed by Finding 1, the draft audit report disallows the fixtures cost here. The District response here is the same as for Finding 1, and it will be a question of law and fact for the Commission.

Incremental Increase <$56,208>

As is the case for Finding 1, the District used 50% as the "incremental cost." The draft audit report states that no documentation was provided to support the percentage. The draft audit report applied the audited percentage increase used to compute the increased staffing costs based on the One-Quarter Class Load formula (40.14% for FY 2008-09 and 47% for FY 2009-10). The District response here is the same as in Finding 1 for the incremental increase issue.

FINDING 3 Understated teacher staffing costs $165,731 increase

The District claimed $2,451,824 for increased staffing for FY 2009-10. The claimed and audited cost calculation is based on the reasonable reimbursement methodology and requires an average science class size statistic for the calculation. During this period, the system used to report statistical data was changed to the California Longitudinal Pupil Achievement Data System (CALPADS), data that was not immediately available to the District for the calculation. The draft audit report recalculated the RRM using an average science class size computed using the statistical data later available from CALPADS. No dispute at this time.

FINDING 4 Unreported offsetting revenues <$15,247.465>

The draft audit report disallows $15,247.465 in claimed construction and acquisition costs and equipment costs. This amount is the cost remaining after the adjustments in Findings 1 and 2. The draft audit report incorrectly characterizes this adjustment as unreported offsetting revenues. However, the draft audit report correctly reports that the District first reduced net facilities costs by 50% representing funds provided by OPSC for construction.

The first stated reason for this total disallowance is: "the facilities costs claimed were charged against local restricted resources; these funds were provided through a local bond measure." State-mandated budget and financial reporting standards require bond proceeds to be accounted for in restricted accounts. The account code for the bond proceeds is not determinative of the mandate reimbursement issue.

Since the District did not claim costs funded by OPSC, there were no remaining claimed costs subject to state or local funding sources as offsetting savings. Claiming the costs funded by the state proceeds and then subtracting the state proceeds would yield the same results, except perhaps, for how the indirect costs were calculated.

The draft audit report alternately asserts that since the District taxpayers are funding the bond principal and interest amounts, the costs to which that funding is applied is not reimbursable, because "there was no fiscal impact to the district." Local bond funds are proceeds from taxes like other property taxes (that are used for general fund expenses). The draft audit report does not state a legal difference.

The remaining stated criteria for the adjustment are similarly inconclusive:

> The parameters and guidelines (section IX) identify reimbursement from any source, including but not limited to, federal, state, and block grants. Further, in regard to science facilities the guidelines also specifically identify state bond funds as an offset.

The draft audit report does not identify any other federal, state, or block grants applicable to this mandate. The state bond funds are not an offset issue since the claimed costs did not include the costs funded by the OPSC.

> Education Code section 15100 authorizes the sale of general obligation bonds, which are secured by statutory obligation, to levy an *ad valorem* property tax sufficient for interest and redemption of the bonds.

The draft audit report does not indicate how this citation affects reimbursement.

> Education Code section 15251(a) states that "When collected, all taxes levied shall be paid into the county treasury of the county whose superintendent of schools has jurisdiction over the school district ... and shall be used for the payment of the principal and interest of the bonds and for no other purpose."

The draft audit report does not indicate how this citation affects reimbursement.

There is no relevant or enforceable legal basis cited in the draft audit report for this adjustment.

Statute of Limitations for Audit

This issue is not a finding of the draft audit report. The annual claim for FY 2009-10 was beyond the statute of limitations to start the audit based on when the Controller issued the audit entrance conference notice letter dated January 6, 2015.

Chronology of Annual Claim Action Dates

January 26, 2011	FY 2009-10 annual claim filed by the District
November 29, 2011	SCO payment of $10 for FY 2009-10 (MA13709B)
January 24, 2012	FY 2009-10 amended claim filed by the District
November 29, 2014	3-year statute to start the audit expires
January 6, 2015	Audit entrance conference notice letter

Government Code Section 17558.5 (as amended by Statutes of 2004, Chapter 890, Section 18, operative January 1, 2005) states:

> (a) A reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. *However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim.* In any case, an audit shall be completed not later than two years after the date that the audit is commenced.

Therefore, the findings are void for FY 2009-10, due to lack of jurisdiction for the audit.

Mr. Jim Spano

May 13, 2016

Public Records Request

The District requests that the Controller provide the District any and all written instructions, memoranda, or other writings in effect and applicable to the audit procedures and findings for audits of this mandate program. Government Code Section 6253, subdivision c, requires the state agency that is the subject of the request, within ten days from receipt of a request for a copy of records, to determine whether the request, in whole or in part, seeks copies of disclosable public records in possession of the agency and promptly notify the requesting party of that determination and the reasons therefore. Also, as required, when so notifying the District, the agency must state the estimated date and time when the records will be made available.

Sincerely,

Scott Patterson, Deputy Superintendent Business Services
Grossmont Union High School District

Re: Audit of Mandated Cost Claims for the Graduation Requirements Program
For the Period of July 1, 2007, through June 30, 2010

Dear Mr. Patterson:

This letter confirms that Elaine Scott contacted Grossmont Union High School District on December 18, 2014, to schedule an audit of the district's legislatively mandated Graduation Requirements Program cost claims filed for fiscal year (FY) 2007-08, FY 2008-09, and FY 2009-10. The audit will be conducted in accordance with generally accepted government auditing standards. Government Code sections 12410, 17558.5, and 17561 provide the authority for this audit. The entrance conference is scheduled for Tuesday, January 20, 2015, at 11:00 a.m. We will begin audit fieldwork after the entrance conference.

Please furnish working accommodations for and provide the necessary records (listed on the Attachment) to the audit staff. If you have any questions, please contact me by phone at (916) 327-0696, or email at cryan@sco.ca.gov.

Sincerely,

BEFORE THE

COMMISSION ON STATE MANDATES

STATE OF CALIFORNIA

IN RE TEST CLAIM ON: Education Code Section 51225.3; Statutes 1983, Chapter 498; Filed on December 10, 1985, By the Santa Barbara Unified School District, Claimant.	NO. CSM 4181 A, 04-PGA-30, 05-PGA-05, 06-PGA-05 *Graduation Requirements* ADOPTION OF PARAMETERS AND GUIDELINES AMENDMENT PURSUANT TO GOVERNMENT CODE SECTION 17557, AND CALIFORNIA CODE OF REGULATIONS, TITLE 2, SECTION 1183.2. (*Adopted on November 6, 2008*) *(Corrected on December 18, 2008)*

CORRECTED PARAMETERS AND GUIDELINES AMENDMENT

On November 6, 2008, the Commission on State Mandates adopted the attached Parameters and Guidelines Amendment for the *Graduation Requirements* program. On December 18, 2008, the adopted Parameters and Guidelines Amendment was corrected to delete references to filing estimated reimbursement claims, because pursuant to Statutes 2008, chapter 6 (AB 8), estimated claims are no longer authorized. The period of reimbursement for this parameters and guidelines amendment begins on January 1, 2005.

Dated: December 18, 2008

Paula Higashi, Executive Director

PARAMETERS AND GUIDELINES AMENDMENT

(CSM 4181 A, 04-PGA-30, 05-PGA-05, 06-PGA-05)

Education Code Section 51225.3

Statutes 1983, Chapter 498

Graduation Requirements

EFFECTIVE FOR REIMBURSEMENT CLAIMS FOR INCREASED COSTS BEGINNING JANUARY 1, 2005

I. SUMMARY OF THE MANDATE

On January 22, 1987, the Commission on State Mandates (Commission) adopted a Statement of Decision finding that the *Graduation Requirements* test claim constitutes a reimbursable state-mandated program by requiring students, beginning with the 1986-1987 school year, to complete at least two courses in science before receiving a high school diploma. Under prior law, the Education Code only required the completion of one science course.

II. ELIGIBLE CLAIMANTS

The eligible claimants are any school district and county office of education as defined in Government Code section 17519, except for community colleges, that incurs increased costs as a result of this mandate.

III. AMENDMENT TO THE PARAMETERS AND GUIDELINES

The parameters and guidelines amendment adopted on November 6, 2008, was adopted pursuant to Government Code sections 17557 and 17518.5, to replace the actual cost claiming method with a reasonable reimbursement methodology for claiming increased teacher salary costs for staffing the new mandated science class. The parameters and guidelines amendment also clarifies the activities of supplying the new science class, acquiring and remodeling additional space, and acquiring additional equipment, which may be claimed using the actual cost claiming method. Finally, this parameters and guidelines amendment adds language regarding the reimbursement of teacher salary costs to Section X, Offsetting Savings, consistent with the court's ruling in *San Diego Unified School District v. Commission on State Mandates*, Sacramento County Superior Court Case No. 03CS01401; and identifies funds appropriated from restricted resources specifically to pay teacher salary costs and instructional materials in Section IX, Offsetting Revenue and Other Reimbursements.

IV. PERIOD OF REIMBURSEMENT

The period of reimbursement for this parameters and guidelines amendment begins on January 1, 2005.

Pursuant to Government Code section 17560, reimbursement for state-mandated costs may be claimed as follows:

1. A school district may, by February 15 following the fiscal year in which costs are incurred, file an annual reimbursement claim that details the costs actually incurred for that fiscal year.
2. In the event revised claiming instructions are issued by the Controller pursuant to subdivision (c) of section 17558 between November 15 and February 15, a school district filing an annual reimbursement claim shall have 120 days following the issuance date of the revised claiming instructions to file a claim.

Reimbursable actual costs for one fiscal year shall be included in each claim. Pursuant to Government Code section 17561, subdivision (d)(1), all claims for reimbursement of initial years' costs shall be submitted within 120 days of the issuance of the State Controller's claiming instructions. If the total costs for a given fiscal year do not exceed $1,000, no reimbursement shall be allowed, except as otherwise allowed by Government Code section 17564.

There shall be no reimbursement for any period in which the Legislature has suspended the operation of a mandate pursuant to state law.

V. REIMBURSABLE ACTIVITIES

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is a document created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating, "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, corroborating documents cannot be substituted for source documents.

The claimant is only allowed to claim and be reimbursed for increased costs for reimbursable activities identified below. Increased cost is limited to the cost of an activity that the claimant is required to incur as a result of the mandate.

For each eligible claimant, the following activities are reimbursable:

A. Acquisition (planning, design, land, demolition, building construction, fixtures, and facility rental) of additional space necessary for the mandated additional year of science instruction, providing that space is lacking in existing facilities. However, the acquisition of additional space for conducting new science classes are reimbursable only to the extent that districts can document that this space would not have been otherwise acquired due to increases in the number of students enrolling in high school, and that it was not feasible, or would be more expensive, to acquire space by remodeling existing facilities.

B. Acquisition (planning, purchasing, and placement) of additional equipment and furniture necessary for the mandated additional year of science instruction.

C. Remodeling (planning, design, demolition, building construction, fixtures, and interim facility rental) existing space required for the mandated additional year of science instruction essential to maintaining a level of instruction sufficient to meet college admission requirements.

D. Increased cost to school district for staffing the new science class mandated. Reimbursement for this activity is based on the reasonable reimbursement methodology identified in Section XII of these parameters and guidelines.

Reimbursement is not required for other (non-classroom teacher) science instruction personnel (e.g. laboratory assistants).

E. Increased cost for supplying the new science class mandated with science instructional materials (textbooks, materials, and supplies).

VI. CLAIM PREPARATION AND SUBMISSION *FOR ACTUAL COSTS*

Each of the following cost elements must be identified for each reimbursable activity identified in Section IV, Reimbursable Activities, of this document. Each claimed reimbursable cost must be supported by source documentation as described in Section V. Additionally, each reimbursement claim must be filed in a timely manner.

A. Direct Cost Reporting

Direct costs are those costs incurred specifically for the reimbursable activities. The following direct costs are eligible for reimbursement.

1. Salaries and Benefits

Report each employee implementing the reimbursable activities by name, job classification, and productive hourly rate (total wages and related benefits divided by productive hours). Describe the specific reimbursable activities performed and the hours devoted to each reimbursable activity performed.

2. Materials and Supplies

Report the cost of materials and supplies that have been consumed or expended for the purpose of the reimbursable activities. Purchases shall be claimed at the actual price

after deducting discounts, rebates, and allowances received by the claimant. Supplies that are withdrawn from inventory shall be charged on an appropriate and recognized method of costing, consistently applied.

3. Contracted Services

Report the name of the contractor and services performed to implement the reimbursable activities. Attach a copy of the contract to the claim. If the contractor bills for time and materials, report the number of hours spent on the activities and all costs charged. If the contract is a fixed price, report the dates when services were performed and itemize all costs for those services.

Beginning in fiscal year 1984-1985, the maximum reimbursable fee for contracted services was $65 per hour, adjusted annually by the GNP Deflator. Those claims which are based on annual retainers shall contain a certification that the fee is no greater than the maximum fee specified in the Controller's claiming instructions. Reasonable expenses will also be paid as identified on the monthly billings of consultants.

4. Fixed Assets and Equipment

Report the purchase price paid for fixed assets and equipment (including computers) necessary to implement the reimbursable activities. The purchase price includes taxes, delivery costs, and installation costs. If the fixed asset or equipment is also used for purposes other than the reimbursable activities, only the pro-rata portion of the purchase price used to implement the reimbursable activities can be claimed.

5. Travel

Report the name of the employee traveling for the purpose of the reimbursable activities. Include the date of travel, destination point, the specific reimbursable activity requiring travel, and related travel expenses reimbursed to the employee in compliance with the rules of the local jurisdiction. Report employee travel time according to the rules of cost element A.1, Salaries and Benefits, for each applicable reimbursable activity.

B. Indirect Cost Rates

Indirect costs are costs that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. After direct costs have been determined and assigned to other activities, as appropriate, indirect costs are those remaining to be allocated to benefited cost objectives. A cost may not be allocated as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been claimed as a direct cost.

Indirect costs include: (a) the indirect costs originating in each department or agency of the governmental unit carrying out state mandated programs, and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs.

School districts must use the J-380 (or subsequent replacement) non-restrictive indirect cost rate provisionally approved by the California Department of Education.

County offices of education must use the J-580 (or subsequent replacement) non-restrictive indirect cost rate provisionally approved by the California Department of Education.

VII. CLAIM PREPARATION AND SUBMISSION: *REASONABLE REIMBURSEMENT METHODOLOGY (Teacher Salary Costs)*

A. Reasonable Reimbursement Methodology for Increased Teacher Salary Costs for Staffing the Mandated Science Class – Direct Costs

The Commission is adopting a reasonable reimbursement methodology to reimburse school districts for all direct costs of teacher salaries for staffing the new mandated science class, as authorized by Government Code section 17557, subdivision (b), and 17518.5, in lieu of filing detailed documentation of actual costs.

1. Reasonable Reimbursement Methodology

The definition of reasonable reimbursement methodology is in Government Code section 17518.5 (as amended by Stats. 2007, ch. 329 (A.B. 1222) as follows:

(a) "Reasonable reimbursement methodology" means a formula for reimbursing local agencies and school districts for costs mandated by the state, as defined in Section 17514.

(b) A reasonable reimbursement methodology shall be based on cost information from a representative sample of eligible claimants, information provided by associations of local agencies or school districts, or other projections of local costs.

(c) A reasonable reimbursement methodology shall consider the variation in costs among local agencies and school districts to implement the mandate in a cost-efficient manner.

(d) Whenever possible, a reasonable reimbursement methodology shall be based on general allocation formulas, uniform cost allowances, and other approximations of local costs mandated by the state, rather than detailed documentation of actual local costs. In cases when local agencies and school districts are projected to incur costs to implement a mandate over a period of more than one fiscal year, the determination of a reasonable reimbursement methodology may consider local costs and state reimbursements over a period of greater than one fiscal year, but not exceeding 10 years.

(e) A reasonable reimbursement methodology may be developed by any of the following:

(1) The Department of Finance.

(2) The Controller.

(3) An affected state agency.

(4) A claimant.

(5) An interested party.

2. One-Quarter Class Load Formula for Claiming the Direct Cost of Teacher Salaries for Staffing the New Mandated Science Class

   The reasonable reimbursement methodology shall consist of the following formula to cover all direct costs:

   The increased teacher costs are calculated based on the number of teachers that teach the additional year of science as follows:

   1. Total regular secondary enrollment for grades 9-12 on the CBEDS Information Day for the claim year is divided by four representing the additional year of science.
   2. The number of additional classes is the enrollment in (1) divided by the average science class size.
   3. The additional teachers are determined by dividing the additional classes in (2) by the classes taught by a full-time equivalent teacher (5 class periods).
   4. The increased cost is determined by multiplying the number of teachers in (3) by the average annual teacher salary and benefit cost for the school district for the claim year.

B. Indirect Cost Rates

Indirect costs are costs that have been incurred for common or joint purposes. These costs benefit more than one cost objective and cannot be readily identified with a particular final cost objective without effort disproportionate to the results achieved. After direct costs have been determined and assigned to other activities, as appropriate, indirect costs are those remaining to be allocated to benefited cost objectives. A cost may not be allocated as an indirect cost if any other cost incurred for the same purpose, in like circumstances, has been claimed as a direct cost.

Indirect costs include: (a) the indirect costs originating in each department or agency of the governmental unit carrying out state mandated programs, and (b) the costs of central governmental services distributed through the central service cost allocation plan and not otherwise treated as direct costs.

School districts must use the J-380 (or subsequent replacement) non-restrictive indirect cost rate provisionally approved by the California Department of Education.

County offices of education must use the J-580 (or subsequent replacement) non-restrictive indirect cost rate provisionally approved by the California Department of Education.

VIII. RECORD RETENTION

A. Actual Costs

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a local agency or school district pursuant to this chapter[1] is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. All documents used to support the reimbursable activities, as described below, must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

For this program, supporting documentation shall include the following:

1. Documentation of increased units of science course enrollments due to the enactment of Education Code Section 51225.3 necessitating such an increase.
2. Documentation of lack of appropriately configured and equipped space in existing facilities for the new courses.
3. Certification by the Board that an analysis of all appropriate science facilities within the district was conducted, and a determination made that no such facilities existed to reasonably accommodate increased enrollment for the additional science courses required by the enactment of Education Code Section 51225.3. To reasonably accommodate includes:
    a. Adjusting attendance boundaries to balance attendance between under-utilized and over-utilized secondary school facilities within the district.
    b. Taking advantage of other available secondary school science facilities that are within a secure walking distance of the school.
4. Documentation that the additional space for conducting new science classes is required only when the space would not have otherwise been acquired due to an increase in high school enrollment.
5. Documentation that remodeling existing facilities was not feasible or would have been more expensive than acquiring additional space.

B. Reasonable Reimbursement Methodology

Pursuant to Government Code section 17558.5, subdivision (a), a reimbursement claim for actual costs filed by a school district pursuant to this chapter[2] is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim is filed or last amended, whichever is later. However, if no funds are appropriated or no payment is made to a claimant for the program for the fiscal year for which the claim is filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the

[1] This refers to Title 2, division 4, part 7, chapter 4 of the Government Code.
[2] This refers to Title 2, division 4, part 7, chapter 4 of the Government Code.

claim. In any case, an audit shall be completed not later than two years after the date that the audit is commenced. Pursuant to Government Code section 17561, subdivision (d)(2), the Controller has the authority to audit the application of a reasonable reimbursement methodology. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

School districts must retain documentation which supports the reimbursement of teacher salary costs, including documentation supporting enrollment, average science class size, total science classes, average teacher salary and benefits, and offsetting revenue funded by restricted resources during the period subject to audit.

IX. OFFSETTING REVENUES AND OTHER REIMBURSEMENTS

Any offsetting revenues the claimant experiences in the same program as a result of the same statutes or executive orders found to contain the mandate shall be deducted from the costs claimed. In addition, reimbursement for this mandate from any source, including but not limited to, federal, state, and block grants; total science teacher salary costs, including related indirect costs, that are funded by restricted resources as identified by the California Department of Education California School Accounting Manual; funds appropriated to school districts from the Schiff-Bustamante Standards-Based Instructional Materials Program (Ed. Code, §§ 60450 et seq., repealed by Stats. 2002, ch. 1168 (AB 1818, § 71, eff. Jan. 1, 2004) and used for supplying the second science course mandated by Education Code section 51223.5 (as amended by Stats. 1983, ch. 498) with instructional materials; funds appropriated from the State Instructional Materials Fund (Ed. Code, §§ 60240 et seq.) and used for supplying the second science course mandated by Education Code section 51223.5 (as amended by Stats. 1983, ch. 498) with instructional materials and supplies; and other state funds, shall be identified and deducted from this claim. The State Controller's Office (SCO) will adjust the claims for any prior reimbursements received for the Graduation Requirements program from claims submitted for the period beginning January 1, 2005.

If the school district or county office submits a valid reimbursement claim for a new science facility, the reimbursement shall be reduced by the amount of state bond funds, if any, received by the school district or county office to construct the new science facility.

X. OFFSETTING SAVINGS

Any offsetting savings the claimant experiences in the same program as a result of the same statutes or executive orders found to contain the mandate shall be deducted from the costs claimed.

Pursuant to the court's ruling and judgment in *San Diego Unified School District* action (Sacramento County Superior Court, Case No. 03CS01401), the State Controller, when auditing reimbursement claims under section V of these parameters and guidelines, may require that claimants provide detailed documentation of offsetting savings directly resulting from their provision of the second science course, including savings that offset the salaries of teachers hired for the second science course. The State Controller may not deny reimbursement of costs for teachers' salaries incurred by a school district in providing a second science course pursuant to Education Code section 51225.3, subdivision (a)(1), on the ground that the school district could have offset these costs by

using its authority under Education Code section 44955, subdivision (b), to terminate teachers of other courses provided by the school district, in particular, courses provided pursuant to Education Code section 51225.3, subdivision (a)(2).

XI. STATE CONTROLLER'S REVISED CLAIMING INSTRUCTIONS

Pursuant to Government Code section 17558, subdivision (c), the Controller shall issue revised claiming instructions for each mandate that requires state reimbursement not later than 60 days after receiving the amended parameters and guidelines from the Commission, to assist local agencies and school districts in claiming costs to be reimbursed. The revised claiming instructions shall be derived from the test claim decision and the amended parameters and guidelines adopted by the Commission.

Pursuant to Government Code section 17561, subdivision (d)(2), issuance of the revised claiming instructions shall constitute a notice of the right of the local agencies and school districts to file reimbursement claims, based upon the amended parameters and guidelines adopted by the Commission.

XII. REMEDIES BEFORE THE COMMISSION

Upon request of a local agency or school district, the Commission shall review the claiming instructions issued by the State Controller or any other authorized state agency for reimbursement of mandated costs pursuant to Government Code section 17571. If the Commission determines that the claiming instructions do not conform to the parameters and guidelines, the Commission shall direct the Controller to modify the claiming instructions and the Controller shall modify the claiming instructions to conform to the parameters and guidelines as directed by the Commission.

In addition, requests may be made to amend parameters and guidelines pursuant to Government Code section 17557, subdivision (d), and California Code of Regulations, title 2, section 1183.2.

XIII. LEGAL AND FACTUAL BASIS FOR THE PARAMETERS AND GUIDELINES

The Statement of Decision is legally binding on all parties and provides the legal and factual basis for the parameters and guidelines. The support for the legal and factual findings is found in the administrative record for the test claim. The administrative record, including the Statement of Decision, is on file with the Commission.

BETTY T. YEE
California State Controller

June 3, 2016

Scott Patterson
Deputy Superintendent, Business Services
Grossmont Union High School District
P.O. Box 1043
La Mesa, CA 91944-1043

Dear Mr. Patterson:

Your letter concerning the Graduation Requirements Program, dated May 13, 2016, asks that the State Controller's Office (SCO) provide the district with information related to a Public Records Request. Specifically, you requested "any and all written instructions, memoranda, or other writings in effect and applicable to the audit procedures and findings" for the period of July 1, 2008, through June 30, 2010.

The SCO conducted its audit under the authority of Government Code sections 12410, 17558.5, and 17561. You may access these Government Code sections at http://www.leginfo.ca.gov/calaw.html.

Government Code section 12410 states, "The Controller shall audit all claims against the state, and may audit the disbursement of any state money, for correctness, legality, and for sufficient provisions of law for payment."

Government Code section 17558.5 specifies the SCO's authority to audit mandated cost claims. Government Code section 17561, subdivision (d)(2)(A)(i), states that the SCO may audit the records of any school district "to verify the actual amount of the mandated costs." Government Code section 17561, subdivision (d)(2)(B), states that the SCO may reduce any claim that it determines is excessive or unreasonable.

The SCO conducted its audit according to generally accepted government auditing standards (*Government Auditing Standards,* issued by the U.S. Government Accountability Office, December, 2011). You may access *Government Auditing Standards* at http://www.gao.gov/govaud/govaudhtml/index.html.

Government Auditing Standards, section 1.04 states, "The professional standards and guidance contained in this document…provide a framework for conducting high quality audits with competence, integrity, objectivity, and independence."

Generally accepted government auditing standards require the auditor to obtain sufficient, appropriate evidence to provide a reasonable basis for the findings and conclusions.

The following SCO documents are attached in response to your request:

1. The SCO's State Mandated Costs Claiming Instructions No. 2009-03 for FY 2008-09 dated October 15, 2009, for the Graduation Requirements Program, which excludes the Parameters and Guidelines amended December 18, 2008 **[Attachment 1].**
2. The SCO's State Mandated Costs Claiming Instructions No. 2009-03 for FY 2009-10 dated October 15, 2010, for the Graduation Requirements Program, which excludes the Parameters and Guidelines amended December 18, 2008 **[Attachment 2].**
3. Excerpts of the SCO's School Districts Mandated Cost Manual for FY 2008-09. See the Filing a Claim section, items 8-17, dated November 16, 2009 **[Attachment 3].**
4. Excerpts of the SCO's School Districts Mandated Cost Manual for FY 2009-10. See the Filing a Claim section, items 8-17, dated November 30, 2010 **[Attachment 4].**

Restricted indirect cost rates for K-12 Local Educational Agencies are available from the California Department of Education website at http://www.cde.ca.gov/fg/ac/ic.

In addition, the following documents are available from the Commission on State Mandates' website at http://www.csm.ca.gov:

- Statement of Decision for the Graduation Requirements Program adopted January 22, 1987.
- Parameters and Guidelines for the Graduation Requirements Program adopted March 23, 1988, and most recently amended on December 18, 2008.

If you have any questions, please contact me by telephone at (916) 323-5849.

Sincerely,

JIM L. SPANO, Chief
Mandated Cost Audits Bureau

OFFICE OF THE STATE CONTROLLER

STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2009-03

GRADUATION REQUIREMENTS (AMENDED)

JANUARY 1, 2005 THROUGH JUNE 30, 2005 AND SUBSEQUENT FISCAL YEARS

JUNE 5, 2009

Revised October 15, 2009

In accordance with Government Code (GC) Section 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated programs. The following are claiming instructions and forms for filing claims for the Graduation Requirements program. These claiming instructions are issued subsequent to adoption of the program's Amended Parameters and Guidelines (P's & G's) by the Commission on State Mandates (Commission).

On November 20, 1986, the Commission determined that Education Code 51225.3 as added by Chapter 498, Statutes of 1983, constitutes a reimbursable state mandate. On March 27, 2009, the SCO received Amended P's and G's from the Commission which are included as an integral part of these claiming instructions.

Pursuant to Government Code Section 17571, the Commission directed the SCO to replace the paragraph entitled "Requirements, Limitations, and Exceptions" on page 1 of Claiming Instructions 2009-01, 2009-02, and 2009-03 with the following language:

Requirements, Limitations, and Exceptions

1. Claimants that previously filed reimbursement claims based on actual costs are *not* required to amend or re-file those claims using the reasonable reimbursement methodology of "the one quarter class load method" to calculate the increased science teacher salary costs.
2. Previously filed reimbursement claims that are not re-filed or amended by the claimant pursuant to the amended parameters and guidelines will remain as previously filed and be adjudicated by the Controller according to the parameters and guidelines and claiming instructions in effect at the time of the original filing.
3. Claimants need not have filed original reimbursement claims in order to now file reimbursement claims retroactive to fiscal year 1995-96 pursuant to the amended parameters and guidelines.
4. Amended and future reimbursement claims filed pursuant to the amended parameters and guidelines require the use of the reasonable reimbursement methodology of "the one quarter class load method" to claim the increased science teacher salary costs.

Eligible Claimants

Except for community colleges, any school district and county office of education, as defined in GC Section 17519, that incurs increased costs as a result of this mandate is eligible to claim reimbursement.

Filing Deadlines

A. Reimbursement Claims

Reimbursement claims must be filed within 120 days from the issuance date of the claiming instructions. Costs incurred for compliance with this mandate are reimbursable for the period January 1, 2005 through June 30, 2005 and subsequent fiscal years. Claims must be filed with the SCO and be delivered or postmarked on or before **October 5, 2009.** Claims filed after October 5, 2009, are subject to a late penalty. Claims for 2008-09 must be filed by **February 16, 2010** before a late fee is assessed. **Claims filed more than one year after the deadline will not be accepted.**

B. Late Penalty

1. Initial Claims

Late initial claims are assessed a late penalty of 10% of the total amount of the initial claims without limitation.

2. Annual Reimbursement Claims

Late annual reimbursement claims are assessed a late penalty of 10% of the claim amount; $10,000 maximum penalty.

Minimum Claim Cost

GC Section 17564(a) provides that no claim may be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars **($1,000),** provided that a county superintendent of schools may submit a combined claim on behalf of school districts within their county if the combined claim exceeds **$1,000,** even if the individual school district's claim does not each exceed **$1,000**. The county superintendent of schools will determine if the submission of the combined claim is economically feasible and be responsible for disbursing the funds to each school district. These combined claims may be filed only when the county superintendent of schools is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible school district. All subsequent claims based upon the same mandate will only be filed in the combined form unless a school district provides a written notice of its intent to file a separate claim to the county superintendent of schools and to the SCO at least one hundred and eighty days prior to the deadline for filing the claim.

Reimbursement of Claims

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating: "I certify (or

declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure Section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, these documents cannot be substituted for source documents.

Audit of Costs

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and if the claim was prepared in accordance with the SCO's claiming instructions and the P's & G's adopted by the Commission. If any adjustments are made to a claim, a Notice of Claim Adjustment specifying the activity adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within thirty days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Pursuant to GC Section 17558.5, Subdivision (a), a reimbursement claim for actual costs filed by a claimant is subject to audit by the SCO no later than three years after the date the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim.

All documents used to support the reimbursable activities must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

Retention of Claiming Instructions

All documentation to support actual costs claimed must be retained for a period of three years after the end of the calendar year in which the reimbursement claim was filed or last amended regardless of the year of costs incurred. When no funds were appropriated for initial claims at the time the claim was filed, supporting documents must be retained for three years from the date of initial payment of the claim. Therefore, all documentation to support actual costs claimed must be retained for the same period, and shall be made available to the SCO on request.

Questions, or requests for hard copies of these instructions, should be faxed to LRSDAR at (916) 323-6527 or e-mailed to **LRSDAR@sco.ca.gov** or you may call the Local Reimbursements Section at (916) 324-5729. Future mandated costs claiming instructions and forms can be found on the Internet at **www.sco.ca.gov/ard_mancost.html.**

Address for Filing Claims

Claims should be rounded to the nearest dollar. Submit a signed original and a copy of form FAM-27, Claim for Payment, and all other forms. **To expedite the payment process, please sign the form in blue ink, and attach a copy of the form FAM-27 to the top of the claim package.**

(37) CERTIFICATION OF CLAIM

In accordance with the provisions of Government Code Section 17561, I certify that I am the officer authorized by the school district or county office of education to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Article 4, Chapter 1 of Division 4 of Title 1 of the Government Code.

I further certify that there was no application other than from the claimant, nor any grant(s) or payment(s) received, for reimbursement of costs claimed herein; claimed costs are for a new program or increased level of services of an existing program; and claimed amounts do not include charter school costs, either directly or through a third party. All offsetting savings and reimbursements set forth in the parameters and guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.

The amount for this reimbursement is hereby claimed from the State for payment of actual costs set forth on the attached statements.

I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

PROGRAM 297	GRADUATION REQUIREMENTS JANUARY 1, 2005 THROUGH JUNE 30, 2005 AND SUBSEQUENT FISCAL YEARS Certification Claim Form Instructions for Form FAM-27	FORM FAM-27

(01) Enter the claimant identification number assigned by the State Controller's Office.

(02) Enter claimant official name, county of location, street or postal office box address, city, state, and zip code.

(03) to (08) Leave blank.

(09) If filing a reimbursement claim, enter an "X" in the box on line (09) Reimbursement.

(10) If filing a combined reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.

(11) If filing an amended reimbursement claim, enter an "X" in the box on line (11) Amended.

(12) Enter the fiscal year for which actual costs are being claimed. If actual costs for more than one fiscal year are being claimed, complete a separate form FAM-27 for each fiscal year.

(13) Enter the amount of the reimbursement claim as shown in the attached Form-1 line (11). The total claimed amount must exceed $1,000.

(14) Reimbursement claims must be filed by **February 15** of the following fiscal year in which costs were incurred or the claims must be reduced by a late penalty. Enter zero if the claim is timely filed. Otherwise, enter the penalty amount as a result of the calculation formula as follows:

- Late Initial Claims: FAM-27 line(13) multiplied by 10%, without limitation; or
- Late Annual Reimbursement Claims: FAM-27, line (13) multiplied by 10%, late penalty not to exceed $10,000.

(15) Enter the amount of payment, if any, received for the claim. If no payment was received, enter zero.

(16) Enter the net claimed amount by subtracting the sum of lines (14) and (15) from line (13).

(17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17), Due from State.

(18) If line (16), Net Claimed Amount, is negative, enter that amount on line (18), Due to State.

(19) to (21) Leave blank.

(22) to (36) Reimbursement Claim Data. Bring forward the cost information as specified on the left-hand column of lines (22) through (36) for the reimbursement claim, e.g., Form-1, (03)(a), means the information is located on form Form-1, line (03)(a). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. Indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 7.548% should be shown as 8. **Completion of this data block will expedite the payment process.**

(37) Read the statement of Certification of Claim. The claim must be dated, signed by the agency's authorized officer, and must type or print name, title, telephone number and E-mail address. **Claims cannot be paid unless accompanied by an original signed certification. (To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**

(38) Enter the name, telephone number, and E-mail address of the agency contact person for the claim. If claim is prepared by external consultant, type or print the name of the consulting firm, telephone number, and e-mail address.

SUBMIT A SIGNED ORIGINAL, AND A COPY OF FORM FAM-27, WITH ALL OTHER FORMS TO:

Address, if delivered by U.S. Postal Service:

(11)	Total Claimed Amount	[Line (08) – {line (09) + line (10)}]	

Program 297	GRADUATION REQUIREMENTS JANUARY 1, 2005 THROUGH JUNE 30,2005 AND SUBSEQUENT FISCAL YEARS CLAIM SUMMARY Instructions	FORM 1

(01) Enter the name of the claimant.

(02) Enter the fiscal year in which costs were incurred.

Reasonable Rate Methodology for Activity D.

This formula covers all direct costs based on the number of teachers who teach the additional year of science.

(03) (a) Enter the total regular secondary enrollment for grades 9 through 12 on the CBEDS Information Day for the claim year and divide by four for the additional year of science.

(b) Enter the number of additional classes from line (03)(a) divided by the average science class size.

(c) Enter the result of dividing line (03)(b) by 5, the number of classes taught by a full time equivalent teacher.

(d) Enter the product of multiplying line (03)(c) by the average annual teacher salary and benefit cost for the school district for the year of claim.

(04) Reimbursable Activities. For reimbursable activities A., B., C., and E., enter the total from Form-2, line (05), columns (d) through (h) to Form-1, block (04), columns (a) through (e) in the appropriate row. For reimbursable activity D., enter the total from line (03)(d) to block (04) D., columns (a) and (f). Total each row.

(05) Total Direct Costs. Total columns (a) through (f).

(06) Enter the indirect cost rate from the Restricted Indirect Cost Rates for K-12 Local Educational Agencies (LEAs) Five Year Listing issued by the California Department of Education (CDE) School Fiscal Services Division, for the fiscal year of costs.

(07) Total Indirect Costs. From the Total Direct Costs, line (05)(f), deduct Total Fixed Assets, line (05)(d) and any other item excluded from indirect cost distribution base in accordance with CSAM Procedure 915. Enter zero if there are no exclusions.

(08) Enter the sum of Total Direct Costs, line (05)(f), and Total Indirect Costs, line (07).

Refer to the Amended P's and G's page 8, SECTION IX, OFFSETTING REVENUES AND OTHER REIMBURSEMENTS, and SECTION X, OFFSETTING SAVINGS, for additional information for (09) and (10) below.

(09) Less Offsetting Savings. If applicable, enter the total savings experienced by the claimant as a direct result of this mandate. Submit a detailed schedule of savings with the claim.

(10) Less Other Reimbursements. If applicable, enter the amount of other reimbursements received from any source including, but not limited to, service fees collected, federal funds, and other state funds, which reimbursed any portion of the mandated cost program. Submit a schedule detailing the reimbursement sources and amounts.

(11) Subtract the sum of Offsetting Savings, line (09), and Other Reimbursements, line (10), from Total Direct and Indirect Costs, line (08). Enter the remainder on this line and carry the amount forward to form FAM-27, line (13) for the Reimbursement Claim.

Program 297	MANDATED COSTS GRADUATION REQUIREMENTS JANUARY 1, 2005 THROUGH JUNE 30, 2005 AND SUBSEQUENT FISCALYEARS ACTIVITY COST DETAIL	FORM 2

(01) Claimant

(02) Fiscal Year

(03) Reimbursable Activities: Check only one box per form to identify the activity being claimed.

- ☐ Acquisition of Additional Space
- ☐ Acquisition of Additional Equipment & Furniture
- ☐ Remodeling Existing Space
- ☐ Increased Costs for Staffing New Science Class
- ☐ Increased Costs for Textbooks and Supplies

(04) **Description of Expenses**			**Object Accounts**				
(a) Employee Names, Job Classifications, Functions Performed and Description of Expenses	(b) Hourly Rate or Unit Cost	(c) Hours Worked or Quantity	(d) Salaries and Benefits	(e) Materials and Supplies	(f) Contract Services	(g) Fixed Assets	(h) Travel
(05) Total ☐ Subtotal ☐ Page: ___ of ___							

Program 297	GRADUATION REQUIREMENTS JANUARY 1, 2005 THROUGH JUNE 30, 2005 AND SUBSEQUENT FISCALYEARS ACTIVITY COST DETAIL Instructions	FORM 2

(01) Claimant. Enter the name of the claimant.

(02) Fiscal Year. Enter the fiscal year for which costs were incurred.

(03) Reimbursable Activities. Check the box that indicates the activity being claimed. Check only one box per form. A separate Form 2 must be prepared for each applicable activity.

(04) Description of Expenses. The following table identifies the type of information required to support reimbursable costs. To detail costs for the activity box checked in block (03), enter the employee names, position titles, a brief description of the activities performed, actual time spent by each employee, productive hourly rates, fringe benefits, supplies used, contract services, and travel expenses. **The descriptions required in column (4)(a) must be of sufficient detail to explain the cost of activities or items being claimed.** For audit purposes, all supporting documents must be retained by the claimant for a period of not less than three years after the date the claim was filed or last amended, whichever is later. If no funds were appropriated and no payment was made at the time the claim was filed, the time for the Controller to initiate an audit will be from the date of initial payment of the claim. Such documents must be made available to the SCO on request.

Object/ Sub object Accounts	Columns								Submit supporting documents with the claim
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	
Salaries and Benefits Salaries Benefits	Employee Name/Title Activities Performed	Hourly Rate Benefit Rate	Hours Worked Salaries	Salaries = Hourly Rate x Hours Worked Benefits = Benefit Rate x Salaries					
Materials and Supplies	Description of Supplies Used	Unit Cost	Quantity Used		Cost = Unit Cost x Quantity Used				
Contract Services	Name of Contractor Specific Tasks Performed	Hourly Rate	Hours Worked Inclusive Dates of Service			Cost=Hourly Rate x Hours Worked or Total Contract Cost			Copy of Contract and Invoices
Fixed Assets	Description of Equipment Purchased	Unit Cost	Usage				Cost= Unit Cost x Usage		
Travel	Purpose of Trip Name and Title Departure and Return Date	Per Diem Rate Mileage Rate Travel Cost	Days Miles Travel Mode					Total Travel Cost = Rate x Days or Miles	

(05) Total line (04), columns (d) through (h) and enter the sum on this line. Check the appropriate box to indicate if the amount is a total or subtotal. If more than one form is needed to detail the activity costs, number each page. Enter totals from line (05), columns (d) through (h) to form 1, block (03), columns (a) through (e) in the appropriate row.

Maximum Reimbursable Fee per Hour for Contract Services: FY 2004-05 is **$122.06**; 05-06 is **$132.85**; 06-07 is **$138.05**; and 07-08 is **$147.77**.

Attachment 2

costs for the three years that comprise the base period. The base period means the three fiscal years immediately succeeding the Commission's approval.

Each SD with an established base year entitlement for the program will receive automatic annual payments from the SCO reflective of the program's current year costs. The apportionment amount is adjusted annually for any change in the IPD. If the mandated program was included in SMAS after January 1, 1988, the annual apportionment is adjusted for any change in both the IPD and ADA.

In the event a SD has incurred costs for three consecutive fiscal years but did not file a reimbursement claim in one or more of those fiscal years, the SD may file an entitlement claim for each of those missed years to establish a base year entitlement. An entitlement claim means any claim filed by a SD with the SCO for the sole purpose of establishing a base year entitlement. A base year entitlement may not include any nonrecurring or initial start-up costs.

Initial apportionments are made on an individual program basis. After the initial year, all apportionments are made by November 30th. The amount to be apportioned is the base year entitlement adjusted by annual changes in the IPD for the cost of goods and services to governmental agencies as determined by the State Department of Finance.

In the event the SD determines that the amount of apportionment does not accurately reflect costs incurred to comply with a mandate, the process of adjusting an established base year entitlement upon which the apportionment is based is set forth in GC Section 17615.8 and requires the approval of the Commission.

8. Direct Costs

A direct cost is a cost that can be identified specifically with a particular program or activity. Documentation to support direct costs must be kept on hand unless otherwise specified in the claiming instructions and made available to the SCO on request

It is the responsibility of the claimant to maintain documentation in the form of general and subsidiary ledgers, purchase orders, invoices, contracts, canceled warrants, equipment usage records, land deeds, receipts, employee time sheets, agency travel guidelines, inventory records, and other relevant documents to support claimed costs. The type of documentation necessary for each claim may differ with the type of mandate.

Costs typically classified as direct costs are:

(1) Employee Wages, Salaries, and Benefits

For each of the mandated activities performed, the claimant must list the names of the employees who worked on the mandate, their job classifications, hours worked on the mandate, and rate of pay. The claimant may use a productive hourly rate in-lieu of reporting actual compensation and benefits:

(a) Productive Hourly Rate Options

A SD may use one of the following methods to compute productive hourly rates:

- Actual annual productive hours for each employee;
- The weighted-average annual productive hours for each job title; or
- 1,800* annual productive hours for all employees.

If actual annual productive hours or weighted-average annual productive hours for each job title is chosen, the claimant must maintain documentation of how these hours were computed.

* 1,800 annual productive hours excludes the following employee time:

- o Paid holidays;
- o Vacation earned;

- Sick leave taken;
- Informal time off;
- Jury duty;
- Military leave taken.

(b) Compute a Productive Hourly Rate

1. Compute a productive hourly rate for salaried employees to include actual benefit costs. The methodology for converting a salary to a productive hourly rate is to compute the employee's annual salary and benefits and divide by the annual productive hours.

Table 1: Productive Hourly Rate, Annual Salary + Benefits Method

Formula:	**Description:**
[(EAS + Benefits) ÷ APH] = PHR	EAS = Employee's Annual Salary
	APH = Annual Productive Hours
[($26,000 + $8,099)] ÷ 1,800 hrs = 18.94	PHR = Productive Hourly Rate

- As illustrated in Table 1, if an employee's compensation was $26,000 and $8,099 for annual salary and benefits, respectively, using the Salary + Benefits Method, the productive hourly rate would be $18.94. To convert a biweekly salary to Annual Salary, multiply the biweekly salary by 26. To convert a monthly salary to Annual Salary, multiply the monthly salary by 12. Use the same methodology to convert other salary periods.

2. A claimant may also compute the productive hourly rate by using the Percent of Salary Method.

Table 2: Productive Hourly Rate, Percent of Salary Method

Example:		
Step 1: Benefits as a Percent of Salary		**Step 2:** Productive Hourly Rate
Retirement	15.00 %	**Formula:**
Social Security & Medicare	7.65	[(EAS x (1 + BR)) ÷ APH] = PHR
Health & Dental Insurance	5.25	
Workers Compensation	3.25	[($26,000 x (1.3115)) ÷ 1,800] = $18.94
Total	**31.15 %**	
Description:		
EAS = Employee's Annual Salary		APH = Annual Productive Hours
BR = Benefit Rate		PHR = Productive Hourly Rate

- As illustrated in Table 2, both methods produce the same productive hourly rate.

Reimbursement for personnel services includes, but is not limited to, compensation paid

for salaries, wages, and employee benefits. Employee benefits include employer's contributions for social security, pension plans, insurance, workers compensation insurance and similar payments. These benefits are eligible for reimbursement as long as they are distributed equitably to all activities. Whether these costs are allowable is based on the following presumptions:

- The amount of compensation is reasonable for the service rendered;
- The compensation paid and benefits received are appropriately authorized by the governing board;
- Amounts charged for personnel services are based on payroll documents that are supported by time and attendance or equivalent records for individual employees;
- The methods used to distribute personnel services should produce an equitable distribution of direct and indirect allowable costs.

For each of the employees included in the claim, the claimant must use reasonable rates and hours in computing the wage cost. If a person of a higher-level position performs an activity which normally would be performed by a lower-level position, reimbursement for time spent is allowable at the average salary range for the lower-level position. The salary rate of the person at a higher-level position may be claimed if it can be shown that it was more cost effective in comparison to the performance by a person at the lower-level position under normal circumstances and conditions. The number of hours charged to an activity should reflect the time expected to complete the activity under normal circumstances and conditions. The numbers of hours in excess of normal expected hours are not reimbursable.

(c) Calculating an Average Productive Hourly Rate

In those instances where the P's & G's allow a unit as a basis of claiming costs, the direct labor component of the unit cost should be expressed as an average productive hourly rate and can be determined as follows:

Table 3: Calculating an Average Productive Hourly Rate

	Time Spent	Productive Hourly Rate	Total Cost by Employee
Employee A	1.25 hrs	$6.00	$7.50
Employee B	0.75 hrs	4.50	3.38
Employee C	3.50 hrs	10.00	35.00
Total	5.50 hrs		$45.88
Average Productive Hourly Rate is $45.88 ÷ 5.50 hrs. = $8.34			

(d) Employer's Benefits Contribution

A SD has the option of claiming actual employer's benefit contributions or may compute an average benefit cost for the employee's job classification and claim it as a percentage of direct labor. The same time base should be used for both salary and benefits when computing a percentage. For example, if health and dental insurance payments are made annually, use an annual salary. After the percentage of salary for each benefit is computed, total them.

For example:

Employer's Contribution	% of Salary
Retirement	15.00%
Social Security	7.65%
Health and Dental Insurance	5.25%
Worker's Compensation	0.75%
Total	28.65%

(2) Materials and Supplies

Only actual expenses can be claimed for materials and supplies, which were acquired and consumed specifically for the purpose of a mandated program. The claimant must list the materials and supplies that were used to perform the mandated activity, the number of units consumed, the cost per unit, and the total dollar amount claimed. Materials and supplies in excess of reasonable quality, quantity, and cost are not reimbursable. Materials and supplies withdrawn from inventory and charged to the mandated activity must be based on a recognized method of pricing, consistently applied. Purchases must be claimed at the actual price after deducting discounts, rebates and allowances received by the SD.

(a) Calculating a Unit Cost for Materials and Supplies

In those instances where the P's & G's suggest that a unit cost be developed for use as a basis of claiming costs mandated by the State, the materials and supplies component of the unit cost should be expressed as a unit cost of materials and supplies as shown in Table 1 or Table 2:

Table 1: Calculating a Unit Cost for Materials and Supplies

Supplies	Cost Per Unit	Amount of Supplies Used Per Activity	Unit Cost of Supplies Per Activity
Paper	0.02	4	$0.08
Files	0.10	1	0.10
Envelopes	0.03	2	0.06
Photocopies	0.10	4	0.40
			$0.64

Table 2: Calculating a Unit Cost for Materials and Supplies

Supplies	Supplies Used	Unit Cost of Supplies Per Activity
Paper ($10.00 for 500 sheet ream)	250 Sheets	$5.00
Files ($2.50 for box of 25)	10 Folders	1.00
Envelopes ($3.00 for box of 100)	50 Envelopes	1.50
Photocopies ($0.05 per copy)	40 Copies	2.00
		$9.50

If the number of reimbursable instances is 25, then the unit cost of supplies is $0.38 per reimbursable instance ($9.50 ÷ 25).

(3) Contract Services

The cost of contract services is allowable if the SD lacks the staff resources or necessary expertise, or it is economically feasible to hire a contractor to perform the mandated activity. The claimant must keep documentation on hand to support the name of the contractor, explain the reason for having to hire a contractor, describe the mandated activities performed, give the dates when the activities were performed, the number of hours spent performing the mandate, the hourly billing rate, and the total cost. The hourly billing rate must not exceed the rate specified in the P's & G's for the mandated program. The contractor's invoice or statement must include an itemized list of costs for activities performed.

(4) Equipment Rental Costs

Equipment purchases and leases (with an option to purchase) are not reimbursable as a direct cost unless specifically allowed by the P's & G's for the particular mandate. Equipment rentals used solely for the mandate are reimbursable to the extent that such costs do not exceed the retail purchase price of the equipment plus a finance charge. The claimant must maintain documentation to support the purpose and use of the equipment, the time period for which the equipment was rented and the total cost of the rental. If the equipment is used for purposes other than reimbursable activities, only the pro rata portion of the rental costs can be claimed.

(5) Capital Outlay

Capital outlay for land, buildings, equipment, furniture and fixtures may be claimed if the P's & G's specify them as allowable. If they are allowable, the P's & G's for the program will specify a basis for the reimbursement. If the fixed asset or equipment is also used for purposes other than reimbursable activities for a specific mandate, only the pro rata portion of the purchase price used to implement the reimbursable activities can be claimed.

(6) Travel Expenses

Travel expenses are normally reimbursable in accordance with travel rules and regulations of the local jurisdiction. For some programs, however, the P's & G's may specify certain limitations on expenses, or that expenses can only be reimbursed in accordance with the Department of Personnel Administration (DPA) travel standards. When claiming travel expenses, the claimant must maintain documentation to support the purpose of the trip, the names and addresses of the persons incurring the expense, the date and time of departure and return, a description of each expense claimed, and the cost of transportation, number of private auto miles traveled, and the cost of tolls and parking. Receipts are required for charges over $10.00.

9. Indirect Costs

Indirect costs are: (a) Incurred for a common or joint purpose benefiting more than one cost objective, and (b) not readily assignable to the cost objectives specifically benefited without effort disproportionate to the results achieved. Indirect costs can originate in the department performing the mandate or in departments that supply the department performing the mandate with goods, services, and facilities. To be allowable, a cost must be allocable to a particular cost objective. Indirect costs must be distributed to benefiting cost objectives on bases which produce an equitable result related to the benefits derived by the mandate.

School District's may use the indirect cost rate from the Restricted Indirect Cost rates for K-12 Local Education Agencies (LEA's) Five Year Listing issued by the California Department of Education (CDE), School Fiscal Services Division, for the fiscal year of costs. The amount of indirect costs the claimant is eligible to claim is computed by multiplying the rate by direct costs.

10. Time Study Guidelines

Background

Two methods are acceptable for documenting employee time charged to mandated cost programs: 1) Actual Time Reporting and 2) Time Study. These methods are described below. Application of time study results is restricted. As explained in the Time Study Results section below, the results may be projected forward a maximum of two years or applied retroactively to initial claims, current-year claims, and late-filed claims, provided certain criteria are met.

Actual Time Reporting

Each program's P's and G's define reimbursable activities for the mandated cost program. When employees work on multiple activities, a distribution of their salaries or wages must be supported by personnel activity reports or equivalent documentation that meets the following standards:

- They must reflect an after-the-fact distribution of the actual activity of each employee;
- They must account for the total activity for which each employee is compensated;
- They must be prepared at least monthly and must coincide with one or more pay periods; and
- They must be signed by the employee.

Budget estimates or other distribution percentages determined before services are performed do not qualify as support for actual time reporting.

Time Study

In certain cases, a time study may be used as a substitute for continuous records of actual time spent on multiple activities and/or programs. A time study can be used for an activity when the task is repetitive in nature. Activities that require varying levels of effort are not appropriate for time studies.

Time Study Plan

The claimant must develop a plan before the time study is conducted. The claimant must retain the time study plan for audit purposes. The plan must identify the following:

- Time periods to be studied - The plan must show that all time periods selected are representative of the fiscal year and that the results can be reasonably projected to approximate actual costs;
- Activities to be studied - The time study must separately identify each reimbursable activity defined in the mandated program's P's and G's. If a reimbursable activity identifies separate and distinct sub-activities, these sub-activities also must be treated as individual activities;

  For example, sub-activities (a) and (b) under reimbursable activity (1) of the Agency Fee Arrangements Program relate to salary deduction and payment of fair share and are not separate and distinct activities. It is not necessary to separately study these sub-activities.
- Process used to accomplish each reimbursable activity - Use flowcharts or similar analytical tools and/or written desk procedures to describe the process followed to complete each activity;
- Employee universe - The employee universe used in the time study must include all positions for which salaries and wages are to be allocated by means of the time study;
- Employee sample selection methodology - The plan must show that employees selected are representative of the employee universe and that the results can be reasonably projected to approximate actual costs. In addition, the employee sample size should be proportional to the variation in time spent to perform a task. The sample size should be larger for tasks with significant time variations;
- Time increments to be recorded - The time increments used should be sufficient to recognize the number of different activities performed and the dynamics of these responsibilities. Very large

increments (such as one hour or more) can be used for employees performing only a few functions that change very slowly over time. Small increments (a number of minutes) can be used for employees performing more short-term tasks.

Random-moment sampling is not an acceptable alternative to continuous time records for mandated cost claims. Random-moment sampling techniques are most applicable in situations where employees perform many different types of activities on a variety of programs with small time increments throughout the fiscal year.

Time Study Documentation

Time studies must:

- Be supported by time records that are completed when the activity occurs;
- Report activity on a daily basis;
- Be sufficiently detailed to reflect all mandated activities performed during a specific time period; and
- Coincide with one or more pay periods.

Time records must be signed by the employee and be supported by documentation that validates that the work was actually performed. As with actual time reporting, budget estimates or other distribution percentages determined before services are performed do not qualify as valid time studies.

Time Study Results

Claimants must summarize time study results to show how the time study supports the costs claimed for each activity. Any variation from the procedures identified in the original time study plan must be documented and explained. Current-year costs must be used to prepare a time study. Claimants may project time study results to no more than two subsequent fiscal years. A claimant also may apply time study results retroactively to initial claims, current-year claims, and late-filed claims.

When projecting time study results, the claimant must certify that no significant changes have occurred between years in either (1) the requirements of each mandated program activity; or (2) the processes and procedures used to accomplish the activity. For all years, the claimant must maintain documentation that shows that the mandated activity was actually performed. Time study results used to support claims are subject to the record-keeping requirements for those claims.

11. Offset Against State Mandated Claims

As noted previously, allowable costs are defined as those direct and indirect costs, less applicable credits, considered eligible for reimbursement. When all or part of the costs of a mandated program are specifically reimbursable from local assistance revenue sources (e.g., state, federal, foundation, etc.), only that portion of any increased cost payable from SD funds is eligible for reimbursement under the provisions of GC Section 17561.

Example 1:

As illustrated in Table 5, this example shows how the Offset Against State Mandated Claims is determined for SD receiving block grant revenues not based on a formula allocation. Program costs for each situation equals $100,000.

Table 5: Offset Against State Mandates, Example 1

	Program Costs	Actual Local Assistance Revenues	State Mandated Costs	Offset Against State Mandated Claims	Claimable Mandated Costs
1.	$100,000	$95,000	$2,500	$-0-	$2,500
2.	100,000	97,000	2,500	-0-	2,500
3.	100,000	98,000	2,500	500	2,000
4.	100,000	100,000	2,500	2,500	-0-
5.	100,000 *	50,000	2,500	1,250	1,250
6.	100,000 *	49,000	2,500	250	2,250

* SD's share is $50,000 of the program cost.

Numbers (1) through (4) in Table 5, show intended funding at 100% from local assistance revenue sources. Numbers (5) and (6) show cost sharing on a 50/50 basis with the district. In numbers (1) through (6), included in the program costs of $100,000 are state mandated costs of $2,500. The offset against state mandated claims are the amount of actual local assistance revenues, which exceeds the difference between program costs and state mandated costs. This offset cannot exceed the amount of state mandated costs.

In (1), local assistance revenues were less than expected. Local assistance funding was not in excess of the difference between program costs and state mandated costs. As a result, the offset against state mandated claims is zero and $2,500 is claimable as mandated costs.

In (4), local assistance revenues were fully realized to cover the entire cost of the program, including the state mandated activity; therefore, the offset against state mandated claims is $2,500; and claimable cost is $0.

In (5), the district is sharing 50% of the project cost. Since local assistance revenues of $50,000 were fully realized, the offset against state mandated claims is $1,250.

In (6), local assistance revenues were less than the amount expended and the offset against state mandated claims is $250. Therefore, the claimable mandated costs are $2,250.

Example 2:

As illustrated in Table 6, this example shows how the offset against state mandated claims is determined for SD's receiving special project funds based on approved actual costs. Local assistance revenues for special projects must be applied proportionately to the approved costs.

Table 6: Offset Against State Mandates, Example 2

	Program Costs	Actual Local Assistance Revenues	State Mandated Costs	Offset Against State Mandated Claims	Claimable Mandated Costs
1.	$100,000	$100,000	$2,500	$2,500	$-0-
2.	100,000 **	75,000	2,500	1,875	625
3.	100,000 **	45,000	1,500	1,125	375

** SD's share is $25,000 of the program cost.

In (2), the entire program cost was approved. Since the local assistance revenue source covers

75% of the program cost, it also proportionately covered 75% of the $2,500 state mandated costs, or $1,875.

If in (3) local assistance revenues are less than the amount expected because only $60,000 of the $100,000 program costs were determined to be valid by the contracting agency, then a proportionate share of state mandated costs is likewise reduced to $1,500. The offset against state mandated claims is $1,125. Therefore, the claimable mandated costs are $375.

Federal and State Funding Sources

State school fund apportionments and federal aid for education, which are based on ADA and are part of the general system of financing public schools as well as block grants which do not provide for specific reimbursement of costs (i.e. allocation formulas not tied to expenditures), should not be included as reimbursements from local assistance revenue sources.

12. Notice of Claim Adjustment

All claims submitted to the SCO are reviewed to determine if the claim was prepared in accordance with the claiming instructions. Claimants will receive a *Notice of Claim Adjustment* detailing any adjustments made by the SCO.

13. Audit of Costs

Pursuant to GC Section 17558.5, Subdivision (b), the SCO may conduct a field review of any claim after it has been submitted to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the P's & G's adopted by the Commission. If any adjustments are made to a claim, a Notice of Claim Adjustment specifying the claim activity adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within thirty days after payment of the claim.

14. Source Documents

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. These costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee records, or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification stating: "I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct" and must further comply with the requirements of Code of Civil Procedure Section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, these documents cannot be substituted for source documents.

15. Claim Forms and Instructions

Unless you are filing electronically, a claimant may submit a computer generated report in substitution for Form-1 and Form-2, provided the format of the report and data fields contained within the report are identical to the claim forms included with these instructions. The claim forms provided with these instructions should be duplicated or printed from SCO's Web site and used by the claimant to file reimbursement claims. The SCO will revise the manual and claim forms as necessary.

A. Form-2, Activity Cost Detail

This form is used to segregate the direct costs by claim activity. In some mandates, specific reimbursable activities have been identified for each activity. The expenses reported on this form must be supported by the official financial records of the claimant. All documents used to support the reimbursable activities must be retained by the claimant unless required to be submitted with the claim and must be made available to the SCO on request.

B. Form-1, Claim Summary

This form is used to summarize direct costs by activity and compute allowable indirect costs for the mandate. The direct costs summarized on this form are derived from Form-2 and are carried forward to form FAM-27.

C. Form FAM-27, Claim for Payment

This form contains a certification that must be signed by an authorized officer of the SD's. All applicable information from Form-1 must be carried forward onto this form in order for the SCO to process the claim for payment. An original and one copy of the FAM-27 are required.

Claims should be rounded to the nearest dollar. Submit a signed original and one copy of form FAM-27, Claim for Payment. **To expedite the payment process, please sign the FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.**

16. Retention of Claiming Instructions

The revised claiming instructions in this package have been arranged in alphabetical order by program name. This Manual should be retained for future reference, and the forms should be duplicated to meet your filing requirements. Annually, new or revised forms, instructions, and any other information claimants may need to file claims will be placed on the SCO's Web site located at www.sco.ca.gov/ard_mancost.html.

If you have any questions concerning mandated cost reimbursements, please write to us at the address listed for filing claims, or by e-mail to LRSDAR@sco.ca.gov, or call the Local Reimbursements Section at (916) 324-5729.

17. Retention of Claim Records and Supporting Documentation

Pursuant to Government Code Section 17558.5, (a), a reimbursement claim for actual costs filed by SD's is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for the Controller to initiate an audit will commence to run from the date of initial payment of the claim. In any case, an audit will be completed not later than two years after the date that the audit is commenced.

Attachment 3

OFFICE OF THE STATE CONTROLLER

STATE MANDATED COSTS CLAIMING INSTRUCTIONS NO. 2009-03

GRADUATION REQUIREMENTS (AMENDED)

JANUARY 1, 2005 THROUGH JUNE 30, 2005 AND SUBSEQUENT FISCAL YEARS

JUNE 5, 2009

Revised October 15, 2010

In accordance with Government Code (GC) Section 17561, eligible claimants may submit claims to the State Controller's Office (SCO) for reimbursement of costs incurred for state mandated programs. The following are claiming instructions and forms for filing claims for the Graduation Requirements program. These claiming instructions are issued subsequent to adoption of the program's Amended Parameters and Guidelines (P's & G's) by the Commission on State Mandates (Commission).

On November 20, 1986, the Commission determined that Education Code 51225.3 as added by Chapter 498, Statutes of 1983, constitutes a reimbursable state mandate. On March 27, 2009, the SCO received Amended P's and G's from the Commission which are included as an integral part of these claiming instructions.

Pursuant to Government Code Section 17571, the Commission directed the SCO to replace the paragraph entitled "Requirements, Limitations, and Exceptions" on page 1 of Claiming Instructions 2009-01, 2009-02, and 2009-03 with the following language:

Requirements, Limitations, and Exceptions

1. Claimants that previously filed reimbursement claims based on actual costs are *not* required to amend or re-file those claims using the reasonable reimbursement methodology of "the one quarter class load method" to calculate the increased science teacher salary costs.
2. Previously filed reimbursement claims that are not re-filed or amended by the claimant pursuant to the amended parameters and guidelines will remain as previously filed and be adjudicated by the Controller according to the parameters and guidelines and claiming instructions in effect at the time of the original filing.
3. Claimants need not have filed original reimbursement claims in order to now file reimbursement claims retroactive to fiscal year 1995-96 pursuant to the amended parameters and guidelines.
4. Amended and future reimbursement claims filed pursuant to the amended parameters and guidelines require the use of the reasonable reimbursement methodology of "the one quarter class load method" to claim the increased science teacher salary costs.

Eligible Claimants

Except for community colleges, any school district and county office of education, as defined in GC Section 17519, that incurs increased costs as a result of this mandate is eligible to claim reimbursement.

Filing Deadlines

A. Reimbursement Claims

Reimbursement claims must be filed within 120 days from the issuance date of the claiming instructions. Costs incurred for compliance with this mandate are reimbursable for the period January 1, 2005 through June 30, 2005 and subsequent fiscal years. Claims must be filed with the SCO and be delivered or postmarked on or before **October 5, 2009.** Claims filed after October 5, 2009, are subject to a late penalty. Claims for 2009-10 must be filed by **February 15, 2011** before a late fee is assessed. **Claims filed more than one year after the deadline will not be accepted.**

B. Late Penalty

1. Initial Claims

Late initial claims are assessed a late penalty of 10% of the total amount of the initial claims without limitation.

2. Annual Reimbursement Claims

Annual reimbursement claims must be filed by February 15 of the following fiscal year in which costs were incurred or the claims will be reduced by a late penalty.

Late annual reimbursement claims are assessed a late penalty of 10% of the claim amount; $10,000 maximum penalty.

Minimum Claim Cost

GC Section 17564(a) provides that no claim may be filed pursuant to Sections 17551 and 17561, unless such a claim exceeds one thousand dollars **($1,000),** provided that a county superintendent of schools may submit a combined claim on behalf of school districts within their county if the combined claim exceeds **$1,000,** even if the individual school district's claim does not each exceed **$1,000**. The county superintendent of schools will determine if the submission of the combined claim is economically feasible and be responsible for disbursing the funds to each school district. These combined claims may be filed only when the county superintendent of schools is the fiscal agent for the districts. A combined claim must show the individual claim costs for each eligible school district. All subsequent claims based upon the same mandate will only be filed in the combined form unless a school district provides a written notice of its intent to file a separate claim to the county superintendent of schools and to the SCO at least one hundred and eighty days prior to the deadline for filing the claim.

Reimbursement of Claims

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. Actual costs are those costs actually incurred to implement the mandated activities. Actual costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee time records or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification or declaration stating: "I certify (or declare) under penalty of perjury under the laws of the State of California that the foregoing is true and correct," and must further comply with the requirements of Code of Civil Procedure Section 2015.5.

Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, these documents cannot be substituted for source documents.

Audit of Costs

All claims submitted to the SCO are reviewed to determine if costs are related to the mandate, are reasonable and not excessive, and if the claim was prepared in accordance with the SCO's claiming instructions and the P's & G's adopted by the Commission. If any adjustments are made to a claim, a Notice of Claim Adjustment specifying the activity adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within thirty days after payment of the claim.

On-site audits will be conducted by the SCO as deemed necessary. Pursuant to GC Section 17558.5, Subdivision (a), a reimbursement claim for actual costs filed by a claimant is subject to audit by the SCO no later than three years after the date the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for the Controller to initiate an audit shall commence to run from the date of initial payment of the claim.

All documents used to support the reimbursable activities must be retained during the period subject to audit. If an audit has been initiated by the Controller during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings.

Retention of Claim Documentation

All documentation to support actual costs claimed must be retained for a period of three years after the end of the calendar year in which the reimbursement claim was filed or last amended regardless of the year of costs incurred. If no funds were appropriated for initial claims at the time the claim was filed, supporting documents must be retained for three years from the date of initial payment of the claim. Therefore, all documentation to support actual costs claimed must be retained for the same period, and must be made available to the SCO on request.

Address for Filing Claims

Submit a signed original and a copy of form FAM-27, Claim for Payment, and all other forms and supporting documents. **To expedite the payment process, please sign the form in blue ink, and attach a copy of the form FAM-27 to the top of the claim package.**

(37) CERTIFICATION OF CLAIM

In accordance with the provisions of Government Code Sections 17560 and 17561, I certify that I am the officer authorized by the school district or county office of education to file mandated cost claims with the State of California for this program, and certify under penalty of perjury that I have not violated any of the provisions of Article 4, Chapter 1 of Division 4 of Title 1 of the Government Code.

I further certify that there was no application other than from the claimant, nor any grant(s) or payment(s) received, for reimbursement of costs claimed herein; claimed costs are for a new program or increased level of services of an existing program; and claimed amounts do not include charter school costs, either directly or through a third party. All offsetting savings and reimbursements set forth in the parameters and guidelines are identified, and all costs claimed are supported by source documentation currently maintained by the claimant.

The amount for this reimbursement is hereby claimed from the State for payment of actual costs set forth on the attached statements.

I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

PROGRAM 297	GRADUATION REQUIREMENTS JANUARY 1, 2005 THROUGH JUNE 30, 2005 AND SUBSEQUENT FISCAL YEARS CLAIM FOR PAYMENT INSTRUCTIONS	FORM FAM-27

(01) Enter the claimant identification number assigned by the State Controller's Office.

(02) Enter claimant official name, county of location, street or postal office box address, city, state, and zip code.

(03) to (08) Leave blank.

(09) If filing a reimbursement claim, enter an "X" in the box on line (09) Reimbursement.

(10) If filing a combined reimbursement claim on behalf of districts within the county, enter an "X" in the box on line (10) Combined.

(11) If filing an amended reimbursement claim, enter an "X" in the box on line (11) Amended.

(12) Enter the fiscal year for which actual costs are being claimed.

(13) Enter the amount of the reimbursement claim as shown in the attached Form-1 line (11). The total claimed amount must exceed $1,000.

(14) Initial claims must be filed as specified in the claiming instructions. Annual reimbursement claims must be filed by **February 15** of the following fiscal year in which costs were incurred or the claims must be reduced by a late penalty. Enter zero if the claim is timely filed. Otherwise, enter the penalty amount as a result of the calculation formula as follows:

- Late Initial Claims: FAM-27 line(13) multiplied by 10%, without limitation; or
- Late Annual Reimbursement Claims: FAM-27, line (13) multiplied by 10%, late penalty not to exceed $10,000.

(15) Enter the amount of payment, if any, received for the claim. If no payment was received, enter zero.

(16) Enter the net claimed amount by subtracting the sum of lines (14) and (15) from line (13).

(17) If line (16), Net Claimed Amount, is positive, enter that amount on line (17), Due from State.

(18) If line (16), Net Claimed Amount, is negative, enter that amount on line (18), Due to State.

(19) to (21) Leave blank.

(22) to (36) Reimbursement Claim Data. Bring forward the cost information as specified on the left-hand column of lines (22) through (36) for the reimbursement claim, e.g., Form-1, (03)(a), means the information is located on form Form-1, line (03)(a). Enter the information on the same line but in the right-hand column. Cost information should be rounded to the nearest dollar, i.e., no cents. Indirect costs percentage should be shown as a whole number and without the percent symbol, i.e., 7.548% should be shown as 8. **Completion of this data block will expedite the payment process.**

(37) Read the statement of Certification of Claim. The claim must be dated, signed by the agency's authorized officer, and must type or print name, title, telephone number and E-mail address. **Claims cannot be paid unless accompanied by an original signed certification. (To expedite the payment process, please sign the form FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.)**

(38) Enter the name, telephone number, and E-mail address of the agency contact person for the claim. If claim is prepared by external consultant, type or print the name of the consulting firm, telephone number, and e-mail address.

SUBMIT A SIGNED ORIGINAL, AND A COPY OF FORM FAM-27, WITH ALL OTHER FORMS TO:

Address, if delivered by U.S. Postal Service:

OFFICE OF THE STATE CONTROLLER
ATTN: Local Reimbursements Section
Division of Accounting and Reporting
P.O. Box 942850
Sacramento, CA 94250

Address, if delivered by other delivery service:

Program 297	GRADUATION REQUIREMENTS JANUARY 1, 2005, THROUGH JUNE 30, 2005, AND SUBSEQUENT FISCAL YEARS CLAIM SUMMARY	FORM 1

(01)	Claimant	(02)	Fiscal Year 20___/20___

Reasonable Rate Methodology - Reimbursable Activity D

(03)	(a)	Total regular secondary enrollment for grades 9 -12 on the CBEDS Information Day ÷ 4	
	(b)	Number of additional classes = [Line (03) (a) ÷ Average science class size]	
	(c)	Additional teachers = [Line (03)(b) ÷ 5 (Classes taught by fulltime equivalent teacher]	
	(d)	Increased cost = [Line (03)(c) x Average annual teacher salary and benefit cost for the district]	

Direct Costs	**Object Accounts**					
	(a)	(b)	(c)	(d)	(e)	(f)
(04) Reimbursable Activities	Salaries and Benefits	Materials and Supplies	Contract Services	Fixed Assets	Travel	Total
A. Acquisition of Additional Space						
B. Acquisition of Additional Equipment & Furniture						
C. Remodeling Existing Space						
D. Increased Cost for Staffing		Enter the total from line (03)(d) in columns (a) and (f)				
E. Increased Costs for Textbooks & Supplies						
(05) Total Direct Costs						

Indirect Costs

(06)	Indirect Cost Rate	[Refer to claiming instructions]	%
(07)	Total Indirect Costs	[Line (05)(f) – line (05)(d) – $ ____] x line (06)	
(08)	Total Direct and Indirect Costs	[Line (05)(f) + line (07)]	

Cost Reduction

(09)	Less: Offsetting Savings		
(10)	Less: Other Reimbursements		
(11)	Total Claimed Amount	[Line (08) – {line (09) + line (10)}]	

Program 297	GRADUATION REQUIREMENTS JANUARY 1, 2005, THROUGH JUNE 30, 2005, AND SUBSEQUENT FISCAL YEARS CLAIM SUMMARY INSTRUCTIONS	FORM 1

(01) Enter the name of the claimant.

(02) Enter the fiscal year in which costs were incurred.

Reasonable Rate Methodology for Activity D.

This formula covers all direct costs based on the number of teachers who teach the additional year of science.

(03) (a) Enter the total regular secondary enrollment for grades 9 through 12 on the CBEDS Information Day for the claim year and divide by four for the additional year of science.

(b) Enter the number of additional classes from line (03)(a) divided by the average science class size.

(c) Enter the result of dividing line (03)(b) by 5, the number of classes taught by a full time equivalent teacher.

(d) Enter the product of multiplying line (03)(c) by the average annual teacher salary and benefit cost for the school district for the year of claim.

(04) Reimbursable Activities. For reimbursable activities A., B., C., and E., enter the total from Form-2, line (05), columns (d) through (h) to Form-1, block (04), columns (a) through (e) in the appropriate row. For reimbursable activity D., enter the total from line (03)(d) to block (04) D., columns (a) and (f). Total each row.

(05) Total Direct Costs. Total columns (a) through (f).

(06) Enter the indirect cost rate from the Restricted Indirect Cost Rates for K-12 Local Educational Agencies (LEAs) Five Year Listing issued by the California Department of Education (CDE) School Fiscal Services Division, for the fiscal year of costs.

(07) Total Indirect Costs. From the Total Direct Costs, line (05)(f), deduct Total Fixed Assets, line (05)(d) and any other item excluded from indirect cost distribution base in accordance with CSAM Procedure 915. Enter zero if there are no exclusions.

(08) Enter the sum of Total Direct Costs, line (05)(f), and Total Indirect Costs, line (07).

Refer to the Amended P's and G's page 8, SECTION IX, OFFSETTING REVENUES AND OTHER REIMBURSEMENTS, and SECTION X, OFFSETTING SAVINGS, for additional information for (09) and (10) below.

(09) Less Offsetting Savings. If applicable, enter the total savings experienced by the claimant as a direct result of this mandate. Submit a detailed schedule of savings with the claim.

(10) Less Other Reimbursements. If applicable, enter the amount of other reimbursements received from any source including, but not limited to, service fees collected, federal funds, and other state funds, which reimbursed any portion of the mandated cost program. Submit a schedule detailing the reimbursement sources and amounts.

(11) Subtract the sum of Offsetting Savings, line (09), and Other Reimbursements, line (10), from Total Direct and Indirect Costs, line (08). Enter the remainder on this line and carry the amount forward to form FAM-27, line (13) for the Reimbursement Claim.

Program 297	MANDATED COSTS GRADUATION REQUIREMENTS JANUARY 1, 2005 THROUGH JUNE 30, 2005 AND SUBSEQUENT FISCALYEARS ACTIVITY COST DETAIL	FORM 2

(01) Claimant

(02) Fiscal Year

(03) Reimbursable Activities: Check only one box per form to identify the activity being claimed.

- ☐ Acquisition of Additional Space
- ☐ Acquisition of Additional Equipment & Furniture
- ☐ Remodeling Existing Space
- ☐ Increased Costs for Staffing New Science Class
- ☐ Increased Costs for Textbooks and Supplies

(04) **Description of Expenses**			**Object Accounts**				
(a) Employee Names, Job Classifications, Functions Performed and Description of Expenses	(b) Hourly Rate or Unit Cost	(c) Hours Worked or Quantity	(d) Salaries and Benefits	(e) Materials and Supplies	(f) Contract Services	(g) Fixed Assets	(h) Travel
(05) Total ☐ Subtotal ☐ Page:___of___							

Program 297	GRADUATION REQUIREMENTS JANUARY 1, 2005 THROUGH JUNE 30, 2005 AND SUBSEQUENT FISCALYEARS ACTIVITY COST DETAIL Instructions	FORM 2

(01) Claimant. Enter the name of the claimant.

(02) Fiscal Year. Enter the fiscal year for which costs were incurred.

(03) Reimbursable Activities. Check the box that indicates the activity being claimed. Check only one box per form. A separate Form 2 must be prepared for each applicable activity.

(04) Description of Expenses. The following table identifies the type of information required to support reimbursable costs. To detail costs for the activity box checked in block (03), enter the employee names, position titles, a brief description of the activities performed, actual time spent by each employee, productive hourly rates, fringe benefits, supplies used, contract services, and travel expenses. **The descriptions required in column (4)(a) must be of sufficient detail to explain the cost of activities or items being claimed.** For audit purposes, all supporting documents must be retained by the claimant for a period of not less than three years after the date the claim was filed or last amended, whichever is later. If no funds were appropriated and no payment was made at the time the claim was filed, the time for the Controller to initiate an audit will be from the date of initial payment of the claim. Such documents must be made available to the SCO on request.

Object/ Sub object Accounts	Columns								Submit supporting documents with the claim
	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	
Salaries and Benefits Salaries Benefits	Employee Name/Title Activities Performed	Hourly Rate Benefit Rate	Hours Worked Salaries	Salaries = Hourly Rate x Hours Worked Benefits = Benefit Rate x Salaries					
Materials and Supplies	Description of Supplies Used	Unit Cost	Quantity Used		Cost = Unit Cost x Quantity Used				
Contract Services	Name of Contractor Specific Tasks Performed	Hourly Rate	Hours Worked Inclusive Dates of Service			Cost=Hourly Rate x Hours Worked or Total Contract Cost			Copy of Contract and Invoices
Fixed Assets	Description of Equipment Purchased	Unit Cost	Usage				Cost= Unit Cost x Usage		
Travel	Purpose of Trip Name and Title Departure and Return Date	Per Diem Rate Mileage Rate Travel Cost	Days Miles Travel Mode					Total Travel Cost = Rate x Days or Miles	

(05) Total line (04), columns (d) through (h) and enter the sum on this line. Check the appropriate box to indicate if the amount is a total or subtotal. If more than one form is needed to detail the activity costs, number each page. Enter totals from line (05), columns (d) through (h) to form 1, block (03), columns (a) through (e) in the appropriate row.

Maximum Reimbursable Fee per Hour for Contract Services: FY 2004-05 is **$122.06;** 2005-06 is **$132.85**; 2006-07 is **$138.05**; 2007-08 is **$147.77**; 2008-09 is **$151.67**; 2009-10 is **$150.97.**

Attachment 4

In the event a SD has incurred costs for three consecutive fiscal years but did not file a reimbursement claim in one or more of those fiscal years, the SD may file an entitlement claim for each of those missed years to establish a base year entitlement. An entitlement claim means any claim filed by a SD with the SCO for the sole purpose of establishing a base year entitlement. A base year entitlement may not include any nonrecurring or initial start-up costs.

Initial apportionments are made on an individual program basis. After the initial year, all apportionments are made by November 30th. The amount to be apportioned is the base year entitlement adjusted by annual changes in the IPD for the cost of goods and services to governmental agencies as determined by the State Department of Finance.

In the event the SD determines that the amount of apportionment does not accurately reflect costs incurred to comply with a mandate, the process of adjusting an established base year entitlement upon which the apportionment is based is set forth in GC Section 17615.8 and requires the approval of the Commission.

8. Direct Costs

A direct cost is a cost that can be identified specifically with a particular program or activity. Documentation to support direct costs must be kept on hand unless otherwise specified in the claiming instructions and made available to the SCO on request

It is the responsibility of the claimant to maintain documentation in the form of general and subsidiary ledgers, purchase orders, invoices, contracts, canceled warrants, equipment usage records, land deeds, receipts, employee time sheets, agency travel guidelines, inventory records, and other relevant documents to support claimed costs. The type of documentation necessary for each claim may differ with the type of mandate.

Costs typically classified as direct costs are:

(1) Employee Wages, Salaries, and Benefits

For each of the mandated activities performed, the claimant must list the names of the employees who worked on the mandate, their job classifications, hours worked on the mandate, and rate of pay. The claimant may use a productive hourly rate in-lieu of reporting actual compensation and benefits:

(a) Productive Hourly Rate Options

A SD may use one of the following methods to compute productive hourly rates:

- Actual annual productive hours for each employee;
- The weighted-average annual productive hours for each job title; or
- 1,800* annual productive hours for all employees.

If actual annual productive hours or weighted-average annual productive hours for each job title is chosen, the claimant must maintain documentation of how these hours were computed.

* 1,800 annual productive hours excludes the following employee time:

- Paid holidays;
- Vacation earned;
- Sick leave taken;
- Informal time off;
- Jury duty;
- Military leave taken.

(b) Compute a Productive Hourly Rate

1. Compute a productive hourly rate for salaried employees to include actual benefit costs. The methodology for converting a salary to a productive hourly rate is to

compute the employee's annual salary and benefits and divide by the annual productive hours.

Table 1: Productive Hourly Rate, Annual Salary + Benefits Method

Formula:	**Description:**
[(EAS + Benefits) ÷ APH] = PHR	EAS = Employee's Annual Salary
	APH = Annual Productive Hours
[($26,000 + $8,099)] ÷ 1,800 hrs = 18.94	PHR = Productive Hourly Rate

- As illustrated in Table 1, if an employee's compensation was $26,000 and $8,099 for annual salary and benefits, respectively, using the Salary + Benefits Method, the productive hourly rate would be $18.94. To convert a biweekly salary to Annual Salary, multiply the biweekly salary by 26. To convert a monthly salary to Annual Salary, multiply the monthly salary by 12. Use the same methodology to convert other salary periods.

2. A claimant may also compute the productive hourly rate by using the Percent of Salary Method.

Table 2: Productive Hourly Rate, Percent of Salary Method

Example:		
Step 1: Benefits as a Percent of Salary		**Step 2:** Productive Hourly Rate
Retirement	15.00 %	**Formula:**
Social Security & Medicare	7.65	[(EAS x (1 + BR)) ÷ APH] = PHR
Health & Dental Insurance	5.25	
Workers Compensation	3.25	[($26,000 x (1.3115)) ÷ 1,800] = $18.94
Total	**31.15 %**	
Description:		
EAS = Employee's Annual Salary		APH = Annual Productive Hours
BR = Benefit Rate		PHR = Productive Hourly Rate

- As illustrated in Table 2, both methods produce the same productive hourly rate.

Reimbursement for personnel services includes, but is not limited to, compensation paid for salaries, wages, and employee benefits. Employee benefits include employer's contributions for social security, pension plans, insurance, workers compensation insurance and similar payments. These benefits are eligible for reimbursement as long as they are distributed equitably to all activities. Whether these costs are allowable is based on the following presumptions:

- The amount of compensation is reasonable for the service rendered;
- The compensation paid and benefits received are appropriately authorized by the governing board;

- Amounts charged for personnel services are based on payroll documents that are supported by time and attendance or equivalent records for individual employees;
- The methods used to distribute personnel services should produce an equitable distribution of direct and indirect allowable costs.

For each of the employees included in the claim, the claimant must use reasonable rates and hours in computing the wage cost. If a person of a higher-level position performs an activity which normally would be performed by a lower-level position, reimbursement for time spent is allowable at the average salary range for the lower-level position. The salary rate of the person at a higher-level position may be claimed if it can be shown that it was more cost effective in comparison to the performance by a person at the lower-level position under normal circumstances and conditions. The number of hours charged to an activity should reflect the time expected to complete the activity under normal circumstances and conditions. The numbers of hours in excess of normal expected hours are not reimbursable.

(c) Calculating an Average Productive Hourly Rate

In those instances where the P's & G's allow a unit as a basis of claiming costs, the direct labor component of the unit cost should be expressed as an average productive hourly rate and can be determined as follows:

Table 3: Calculating an Average Productive Hourly Rate

	Time Spent	Productive Hourly Rate	Total Cost by Employee
Employee A	1.25 hrs	$6.00	$7.50
Employee B	0.75 hrs	4.50	3.38
Employee C	3.50 hrs	10.00	35.00
Total	5.50 hrs		$45.88
Average Productive Hourly Rate is $45.88 ÷ 5.50 hrs. = $8.34			

(d) Employer's Benefits Contribution

A SD has the option of claiming actual employer's benefit contributions or may compute an average benefit cost for the employee's job classification and claim it as a percentage of direct labor. The same time base should be used for both salary and benefits when computing a percentage. For example, if health and dental insurance payments are made annually, use an annual salary. After the percentage of salary for each benefit is computed, total them.

For example:

Employer's Contribution	% of Salary
Retirement	15.00%
Social Security	7.65%
Health and Dental Insurance	5.25%
Worker's Compensation	0.75%
Total	28.65%

(2) Materials and Supplies

Only actual expenses can be claimed for materials and supplies, which were acquired and consumed specifically for the purpose of a mandated program. The claimant must list the materials and supplies that were used to perform the mandated activity, the number of units consumed, the cost per unit, and the total dollar amount claimed. Materials and supplies in excess of reasonable quality, quantity, and cost are not reimbursable. Materials and supplies withdrawn from inventory and charged to the mandated activity must be based on a recognized method of pricing, consistently applied. Purchases must be claimed at the actual price after deducting discounts, rebates and allowances received by the SD.

(a) Calculating a Unit Cost for Materials and Supplies

In those instances where the P's & G's suggest that a unit cost be developed for use as a basis of claiming costs mandated by the State, the materials and supplies component of the unit cost should be expressed as a unit cost of materials and supplies as shown in Table 1 or Table 2:

Table 1: Calculating a Unit Cost for Materials and Supplies

Supplies	Cost Per Unit	Amount of Supplies Used Per Activity	Unit Cost of Supplies Per Activity
Paper	0.02	4	$0.08
Files	0.10	1	0.10
Envelopes	0.03	2	0.06
Photocopies	0.10	4	0.40
			$0.64

Table 2: Calculating a Unit Cost for Materials and Supplies

Supplies	Supplies Used	Unit Cost of Supplies Per Activity
Paper ($10.00 for 500 sheet ream)	250 Sheets	$5.00
Files ($2.50 for box of 25)	10 Folders	1.00
Envelopes ($3.00 for box of 100)	50 Envelopes	1.50
Photocopies ($0.05 per copy)	40 Copies	2.00
		$9.50

If the number of reimbursable instances is 25, then the unit cost of supplies is $0.38 per reimbursable instance ($9.50 ÷ 25).

(3) Contract Services

The cost of contract services is allowable if the SD lacks the staff resources or necessary expertise, or it is economically feasible to hire a contractor to perform the mandated activity. The claimant must keep documentation on hand to support the name of the contractor, explain the reason for having to hire a contractor, describe the mandated activities performed, give the dates when the activities were performed, the number of hours spent performing the mandate, the hourly billing rate, and the total cost. The hourly billing rate must not exceed the rate specified in the P's & G's for the mandated program. The contractor's invoice or statement must include an itemized list of costs for activities performed.

(4) Equipment Rental Costs

Equipment purchases and leases (with an option to purchase) are not reimbursable as a direct cost unless specifically allowed by the P's & G's for the particular mandate. Equipment rentals used solely for the mandate are reimbursable to the extent that such costs do not exceed the retail purchase price of the equipment plus a finance charge. The claimant must maintain documentation to support the purpose and use of the equipment, the time period for which the equipment was rented and the total cost of the rental. If the equipment is used for purposes other than reimbursable activities, only the pro rata portion of the rental costs can be claimed.

(5) Capital Outlay

Capital outlay for land, buildings, equipment, furniture and fixtures may be claimed if the P's & G's specify them as allowable. If they are allowable, the P's & G's for the program will specify a basis for the reimbursement. If the fixed asset or equipment is also used for purposes other than reimbursable activities for a specific mandate, only the pro rata portion of the purchase price used to implement the reimbursable activities can be claimed.

(6) Travel Expenses

Travel expenses are normally reimbursable in accordance with travel rules and regulations of the local jurisdiction. For some programs, however, the P's & G's may specify certain limitations on expenses, or that expenses can only be reimbursed in accordance with the Department of Personnel Administration (DPA) travel standards. When claiming travel expenses, the claimant must maintain documentation to support the purpose of the trip, the names and addresses of the persons incurring the expense, the date and time of departure and return, a description of each expense claimed, and the cost of transportation, number of private auto miles traveled, and the cost of tolls and parking. Receipts are required for charges over $10.00.

9. Indirect Costs

Indirect costs are: (a) Incurred for a common or joint purpose benefiting more than one cost objective, and (b) not readily assignable to the cost objectives specifically benefited without effort disproportionate to the results achieved. Indirect costs can originate in the department performing the mandate or in departments that supply the department performing the mandate with goods, services, and facilities. To be allowable, a cost must be allocable to a particular cost objective. Indirect costs must be distributed to benefiting cost objectives on bases which produce an equitable result related to the benefits derived by the mandate.

School District's may use the indirect cost rate from the Restricted Indirect Cost rates for K-12 Local Education Agencies (LEA's) Five Year Listing issued by the California Department of Education (CDE), School Fiscal Services Division, for the fiscal year of costs. The amount of indirect costs the claimant is eligible to claim is computed by multiplying the rate by direct costs.

10. Time Study Guidelines

Background

Two methods are acceptable for documenting employee time charged to mandated cost programs: 1) Actual Time Reporting and 2) Time Study. These methods are described below. Application of time study results is restricted. As explained in the Time Study Results section below, the results may be projected forward a maximum of two years or applied retroactively to initial claims, current-year claims, and late-filed claims, provided certain criteria are met.

Actual Time Reporting

Each program's P's and G's define reimbursable activities for the mandated cost program. When employees work on multiple activities, a distribution of their salaries or wages must be supported by personnel activity reports or equivalent documentation that meets the following standards:

- They must reflect an after-the-fact distribution of the actual activity of each employee;
- They must account for the total activity for which each employee is compensated;
- They must be prepared at least monthly and must coincide with one or more pay periods; and
- They must be signed by the employee.

Budget estimates or other distribution percentages determined before services are performed do not qualify as support for actual time reporting.

Time Study

In certain cases, a time study may be used as a substitute for continuous records of actual time spent on multiple activities and/or programs. A time study can be used for an activity when the task is repetitive in nature. Activities that require varying levels of effort are not appropriate for time studies.

Time Study Plan

The claimant must develop a plan before the time study is conducted. The claimant must retain the time study plan for audit purposes. The plan must identify the following:

- Time periods to be studied - The plan must show that all time periods selected are representative of the fiscal year and that the results can be reasonably projected to approximate actual costs;
- Activities to be studied - The time study must separately identify each reimbursable activity defined in the mandated program's P's and G's. If a reimbursable activity identifies separate and distinct sub-activities, these sub-activities also must be treated as individual activities;

  For example, sub-activities (a) and (b) under reimbursable activity (1) of the Agency Fee Arrangements Program relate to salary deduction and payment of fair share and are not separate and distinct activities. It is not necessary to separately study these sub-activities.
- Process used to accomplish each reimbursable activity - Use flowcharts or similar analytical tools and/or written desk procedures to describe the process followed to complete each activity;
- Employee universe - The employee universe used in the time study must include all positions for which salaries and wages are to be allocated by means of the time study;
- Employee sample selection methodology - The plan must show that employees selected are representative of the employee universe and that the results can be reasonably projected to approximate actual costs. In addition, the employee sample size should be proportional to the variation in time spent to perform a task. The sample size should be larger for tasks with significant time variations;
- Time increments to be recorded - The time increments used should be sufficient to recognize the number of different activities performed and the dynamics of these responsibilities. Very large increments (such as one hour or more) can be used for employees performing only a few functions that change very slowly over time. Small increments (a number of minutes) can be used for employees performing more short-term tasks.

Random-moment sampling is not an acceptable alternative to continuous time records for mandated cost claims. Random-moment sampling techniques are most applicable in situations where employees perform many different types of activities on a variety of programs with small time increments throughout the fiscal year.

Time Study Documentation

Time studies must:

- Be supported by time records that are completed when the activity occurs;
- Report activity on a daily basis;
- Be sufficiently detailed to reflect all mandated activities performed during a specific time period; and
- Coincide with one or more pay periods.

Time records must be signed by the employee and be supported by documentation that validates that the work was actually performed. As with actual time reporting, budget estimates or other distribution percentages determined before services are performed do not qualify as valid time studies.

Time Study Results

Claimants must summarize time study results to show how the time study supports the costs claimed for each activity. Any variation from the procedures identified in the original time study plan must be documented and explained. Current-year costs must be used to prepare a time study. Claimants may project time study results to no more than two subsequent fiscal years. A claimant also may apply time study results retroactively to initial claims, current-year claims, and late-filed claims.

When projecting time study results, the claimant must certify that no significant changes have occurred between years in either (1) the requirements of each mandated program activity; or (2) the processes and procedures used to accomplish the activity. For all years, the claimant must maintain documentation that shows that the mandated activity was actually performed. Time study results used to support claims are subject to the record-keeping requirements for those claims.

11. Offset Against State Mandated Claims

As noted previously, allowable costs are defined as those direct and indirect costs, less applicable credits, considered eligible for reimbursement. When all or part of the costs of a mandated program are specifically reimbursable from local assistance revenue sources (e.g., state, federal, foundation, etc.), only that portion of any increased cost payable from SD funds is eligible for reimbursement under the provisions of GC Section 17561.

Example 1:

As illustrated in Table 5, this example shows how the Offset Against State Mandated Claims is determined for SD receiving block grant revenues not based on a formula allocation. Program costs for each situation equals $100,000.

Table 5: Offset Against State Mandates, Example 1

	Program Costs	Actual Local Assistance Revenues	State Mandated Costs	Offset Against State Mandated Claims	Claimable Mandated Costs
1.	$100,000	$95,000	$2,500	$-0-	$2,500
2.	100,000	97,000	2,500	-0-	2,500
3.	100,000	98,000	2,500	500	2,000
4.	100,000	100,000	2,500	2,500	-0-
5.	100,000 *	50,000	2,500	1,250	1,250
6.	100,000 *	49,000	2,500	250	2,250

* SD's share is $50,000 of the program cost.

Numbers (1) through (4) in Table 5, show intended funding at 100% from local assistance revenue sources. Numbers (5) and (6) show cost sharing on a 50/50 basis with the district. In numbers (1) through (6), included in the program costs of $100,000 are state mandated costs of $2,500. The offset against state mandated claims are the amount of actual local assistance revenues, which exceeds the difference between program costs and state mandated costs. This offset cannot exceed the amount of state mandated costs.

In (1), local assistance revenues were less than expected. Local assistance funding was not in excess of the difference between program costs and state mandated costs. As a result, the offset against state mandated claims is zero and $2,500 is claimable as mandated costs.

In (4), local assistance revenues were fully realized to cover the entire cost of the program, including the state mandated activity; therefore, the offset against state mandated claims is $2,500, and claimable cost is $0.

In (5), the district is sharing 50% of the project cost. Since local assistance revenues of $50,000 were fully realized, the offset against state mandated claims is $1,250.

In (6), local assistance revenues were less than the amount expended and the offset against state mandated claims is $250. Therefore, the claimable mandated costs are $2,250.

Example 2:

As illustrated in Table 6, this example shows how the offset against state mandated claims is determined for SD's receiving special project funds based on approved actual costs. Local assistance revenues for special projects must be applied proportionately to the approved costs.

Table 6: Offset Against State Mandates, Example 2

	Program Costs	Actual Local Assistance Revenues	State Mandated Costs	Offset Against State Mandated Claims	Claimable Mandated Costs
1.	$100,000	$100,000	$2,500	$2,500	$-0-
2.	100,000 **	75,000	2,500	1,875	625
3.	100,000 **	45,000	1,500	1,125	375

** SD's share is $25,000 of the program cost.

In (2), the entire program cost was approved. Since the local assistance revenue source covers 75% of the program cost, it also proportionately covered 75% of the $2,500 state mandated costs, or $1,875.

If in (3) local assistance revenues are less than the amount expected because only $60,000 of the $100,000 program costs were determined to be valid by the contracting agency, then a proportionate share of state mandated costs is likewise reduced to $1,500. The offset against state mandated claims is $1,125. Therefore, the claimable mandated costs are $375.

Federal and State Funding Sources

State school fund apportionments and federal aid for education, which are based on ADA and are part of the general system of financing public schools as well as block grants which do not provide for specific reimbursement of costs (i.e. allocation formulas not tied to expenditures), should not be included as reimbursements from local assistance revenue sources.

12. Notice of Claim Adjustment

All claims submitted to the SCO are reviewed to determine if the claim was prepared in accordance with the claiming instructions. Claimants will receive a *Notice of Claim Adjustment* detailing any adjustments made by the SCO.

13. Audit of Costs

Pursuant to GC Section 17558.5, Subdivision (b), the SCO may conduct a field review of any claim after it has been submitted to determine if costs are related to the mandate, are reasonable and not excessive, and the claim was prepared in accordance with the SCO's claiming instructions and the P's & G's adopted by the Commission. If any adjustments are made to a claim, a Notice of Claim Adjustment specifying the claim activity adjusted, the amount adjusted, and the reason for the adjustment, will be mailed within thirty days after payment of the claim.

14. Source Documents

To be eligible for mandated cost reimbursement for any fiscal year, only actual costs may be claimed. These costs must be traceable and supported by source documents that show the validity of such costs, when they were incurred, and their relationship to the reimbursable activities. A source document is created at or near the same time the actual cost was incurred for the event or activity in question. Source documents may include, but are not limited to, employee records, or time logs, sign-in sheets, invoices, and receipts.

Evidence corroborating the source documents may include, but is not limited to, worksheets, cost allocation reports (system generated), purchase orders, contracts, agendas, training packets, and declarations. Declarations must include a certification stating: "I certify under penalty of perjury under the laws of the State of California that the foregoing is true and correct" and must further comply with the requirements of Code of Civil Procedure Section 2015.5. Evidence corroborating the source documents may include data relevant to the reimbursable activities otherwise in compliance with local, state, and federal government requirements. However, these documents cannot be substituted for source documents.

15. Claim Forms and Instructions

Unless you are filing electronically, a claimant may submit a computer generated report in substitution for Form-1 and Form-2, provided the format of the report and data fields contained within the report are identical to the claim forms included with these instructions. The claim forms provided with these instructions should be duplicated or printed from SCO's Web site and used by the claimant to file reimbursement claims. The SCO will revise the manual and claim forms as necessary.

A. Form-2, Activity Cost Detail

This form is used to segregate the direct costs by claim activity. In some mandates, specific reimbursable activities have been identified for each activity. The expenses reported on this form must be supported by the official financial records of the claimant. All documents used to support the reimbursable activities must be retained by the claimant unless required to be submitted with the claim and must be made available to the SCO on request.

B. Form-1, Claim Summary

This form is used to summarize direct costs by activity and compute allowable indirect costs for the mandate. The direct costs summarized on this form are derived from Form-2 and are carried forward to form FAM-27.

C. Form FAM-27, Claim for Payment

This form contains a certification that must be signed by an authorized officer of the SD's. All applicable information from Form-1 must be carried forward onto this form in order for the SCO

to process the claim for payment. An original and one copy of the FAM-27 are required.

Submit a signed original and one copy of form FAM-27, Claim for Payment. **To expedite the payment process, please sign the FAM-27 with blue ink, and attach a copy of the form FAM-27 to the top of the claim package.**

Use the following mailing addresses:

If delivered by
U.S. Postal Service:

Office of the State Controller
Attn: Local Reimbursements Section
Division of Accounting and Reporting
P.O. Box 942850
Sacramento, CA 94250

If delivered by
Other delivery services:

Office of the State Controller
Attn: Local Reimbursements Section
Division of Accounting and Reporting
3301 C Street, Suite 700
Sacramento, CA 95816

16. Retention of Claiming Instructions

The revised claiming instructions in this package have been arranged in alphabetical order by program name. This Manual should be retained for future reference, and the forms should be duplicated to meet your filing requirements. Annually, new or revised forms, instructions, and any other information claimants may need to file claims will be placed on the SCO's Web site located at www.sco.ca.gov/ard_mancost.html.

If you have any questions concerning mandated cost reimbursements, please write to us at the address listed for filing claims, or by e-mail to LRSDAR@sco.ca.gov, or call the Local Reimbursements Section at (916) 324-5729.

17. Retention of Claim Records and Supporting Documentation

Pursuant to Government Code Section 17558.5, (a), a reimbursement claim for actual costs filed by SD's is subject to the initiation of an audit by the Controller no later than three years after the date that the actual reimbursement claim was filed or last amended, whichever is later. However, if no funds were appropriated or no payment was made to a claimant for the program for the fiscal year for which the claim was filed, the time for the Controller to initiate an audit will commence to run from the date of initial payment of the claim. In any case, an audit will be completed not later than two years after the date that the audit is commenced.

All documents used to support the reimbursable activities must be retained during the period subject to audit. If the Controller has initiated an audit during the period subject to audit, the retention period is extended until the ultimate resolution of any audit findings. Supporting documents must be made available to the SCO on request.

1 Introduction

1.1 Introduction

MISSION STATEMENT:

"Through excellence in teaching and in partnership with parents and the community our mission is to graduate life-long learners who are productive members of a global society."

This Long Range Facilities Master Plan seeks to upgrade District facilities to support educational programs and to meet the needs of students, employees, parents and the school community. It is a decision-making guide to be used by the Board of Trustees, District staff and the wider community to ensure that the physical improvements required are initiated and completed in a timely manner, consistent with the needs, priorities, growth and development of the community in which the school is located.

During its 60+ years of operation, the Grossmont Union High School District has met many challenges and has successfully provided a high quality education to thousands of students. As the District enters the beginning of the 21st century, the new challenges are to:

1. Furnish adequate space for a growing population
2. Refurbish school sites that are in need of major repair and
3. Provide facilities that are designed to meet the educational needs of current and near future generations.

1.2 History

"The Grossmont Union High School District is a suburban high school district encompassing approximately 470 square miles in eastern San Diego County. Major cities located in the Grossmont attendance area are El Cajon , La Mesa, Lemon Grove, Santee, and the unincorporated areas of Spring Valley, Alpine, Lakeside, Dulzura and Jamul. The Pacific Ocean, Mexico, and the Laguna Mountains area are all approximately a 30 to 40 minute drive from the District's office. The District is also adjacent to major community and four-year colleges/ universities. Teachers and students earn degrees, credentials, and enrich their education by attending nearby Grossmont and Cuyamaca Community Colleges, and six colleges/universities which provide undergraduate and post-graduate opportunities: University of California, San Diego; California State University, San Diego; California State University, San Marcos; University of San Diego; Point Loma College; and National University.

The Grossmont District serves over 23,500 students, grades 9-12, and employs 2,000 people – 1000 certificated. Sixty-five percent of the students are Caucasian, and thirty-five percent come from Hispanic, African-American, Asian, Middle Eastern, Filipino, Pacific Islander, Native American and a variety of other backgrounds.
Students are drawn from eight elementary/junior high school districts. They attend eleven comprehensive high schools (Grossmont, Helix, El Cajon Valley, Mount Miguel, El Capitan, Granite Hills, Monte Vista, Santana, Valhalla, West Hills, and Steele Canyon); one continuation school (Chaparral); an extensive alternative education effort, and Special Education program. The District also supports a very comprehensive adult school and Regional Occupational Program (ROP) which are among the largest in California.

The Grossmont Union High School District provides a quality educational program for its students and has a reputation for excellence in education throughout the state. In the past, District high schools have received many Golden Bell awards from the California School Boards Association exemplifying outstanding programs in mathematics, humanities, and languages. This past year, Valhalla High School and Helix Charter High School were designated California Distinguished Schools by the State Department of Education."

(Prepared: July, 2001, Office of the Superintendent)

1.3 Support Services

There are many departments that support the educational mission of the district. They do this by providing the necessary day to day, curriculum, business, operations and transportation needs. The following is a synopsis of the support services needed by the district.

Superintendent's Office

The Superintendent and his staff act as the supervising authority for the Grossmont Union High School District. From their central location at District Offices they are able to interact with the students, parents, committee members, elected officials, representatives of businesses / corporations and the general public.

Instructional Material & Technology

Libraries
Audiovisual Materials and Textbooks
Technology-Related Services

Student Services

Health Services
Guidance and Counseling
Speech

Student Support Services

This group has several programs to manage. They are responsible for student expulsions, conferences with the parents and facilitating the expulsion panel hearings. They process Interdistrict Transfers, Summit Referrals/Challenges and Gateway referrals. They provide a space for the District Probation Officer. The Safe Schools Program, Drug Free Program and the Interquest Program are all operated within this department.

Business Services

Business Services is centrally located in the District Office Facility and includes the following:

Transportation

The District provides student transportation by means of district-owned school buses or by school buses under contract to the District. In order to provide this service the District has its own service center and parking for the vehicles.

Additional Services:

a. Home School
b. Extracurricular
c. Special Ed
d. Vehicular Maintenance
e. Bus Driver Instruction
f. Liason to DMV & CHP

Fiscal Services/Payroll / Audit
Fiscal Services is responsible for all accounting activities of the District including attendance, accounts payable, inventories, general ledger, & misc.

Facilities Planning
This department is charged with organizing the planning, design and construction of all the district facilities. The department is also charged with finding ways to fund school construction and reconstruction. It also operates the developer fee program.

Operations, Safety & Special Projects
This department works with all schools and programs as it handles the large task of maintaining operations and safety. It is currently involved in resolving the issues of ADA compliance. The group is also responsible for the Aquatics Program; a program which is used by all the high schools and the community as well.

Maintenance
The staff of this department maintains the facility at every location within the District. They have repair shops which are centrally located in order to assist each campus. The staff from this department works closely with Business Services and Facilities Planning in the careful management of the entire District.

Food Services
This department supervises all Food Service operations and facilities within the District. This includes food preparation and distribution at 11 schools and 6 other District sites.

Purchasing
Purchasing works with every school and department in the District and is located in the District Offices for easy access to common spaces. They provide all centralized purchasing of products, goods and services district-wide.

Payroll
The Payroll Department is in charge of processing all payroll, time sheets, deductions and absence reports for 3,500 employees. Additionally they publish benefit/retirement information to the County and retirement agencies as needed.

Print Shop
The Print Shop provides printing services, both offset and high speed copier, to all district offices, schools and departments.

Risk Management / Safety
Risk Management oversees the Districts' insurance programs; workers'comp, liability and automotive coverage. It oversees implementation of state required safety programs, Haz Mat programs, provides on-site consultation to school site regarding these topics.

Warehouse

This department handles the distribution of all products coming to, or leaving a District facility. They record by computer entry the movement of all products noting when it is received, issued, stored, shipped, transferred or salvaged.

Human Resources

Human Resouces monitors personnel needs for the District. They are interactive with all operations at the District Office, each school site and all the satellite locations.

Information / Tech Services

This department provides essential support to the schools and District Office. They service equipment or programs located at every office or department in the District. They provide voice, video and data network support and installation. The staff is responsible for equipment assessment, evaluation-testing, surveys and collection. They also operate the library and media collection services.

Instructional Resources

Internal Audit

This department performs internal audit functions throughout the District. It makes analyses of systems to determine the effectiveness of internal controls, accuracy of record keeping, safeguarding of assets, compliance with Board policy and state requirements. It report its findings and recommendations to the District management.

Special Education District Office

This department has speech pathologists, psychologists and program specialists available to work with the students needing attention.

1.4 Evolution of a School District

Most of the Grossmont Union High School District (GUHSD) schools and major additions were built in the 1950's and 1960's during the peak growth of the East County region. Seven schools, more than 60 percent of GUHSD schools, were built over 40 years ago. Of the remaining schools, two are over 25 years old, the threshold established by the state to qualify for modernization.

The three major problems with the District's school buildings:

1. They are old
2. They are undersized and do not meet CDE minimum essential facilities
3. They are out of date for the current educational programs and the needs of the community

How old are they? The oldest schools, Grossmont and Helix, are over 50 years old. A majority of the balance of the schools are more than 40 years old, built during the 1950's. Being old means that they do not meet current structural, health and safety standards with electrical and mechanical systems failing quickly and requiring replacement.

How out of date are they? The District will not be able to meet the proposed California state standards for science and technology without some major renovations and upgrades of support facilities as well as classrooms. Students will have difficulty achieving the same level of academic skill as students who attend schools where they can plug in computers without blowing circuits, where there is running water for science experiments and where the teacher has the ability to enhance the lessons with a variety of teaching materials.

How small are they? The District's 11 schools were originally built to hold approximately 20,000 students. The current enrollment (October 2001) is 23,639. Not only does the District not have enough permanent classrooms, there are not enough support facilities in toilet rooms, drinking fountains, libraries, science labs or parking for the population at every school. The District also loses valuable outdoor athletic space at each school as existing blacktops and fields are covered with portable classrooms.

The deterioration of these aging schools is obvious:

- Paint is peeling.
- Wood is rotting.
- Roofs are leaking.
- Flooring materials are worn.
- Water and sewer lines are failing.
- Heating and air conditioning systems need replacing.
- Electrical systems are unsafe, inadequate and need total revision.
- Restrooms are inferior and require complete replacement.
- Foundations and paving materials are cracking.

These facilities need to be modernized and renovated.

The existing GUHSD schools were built using the State Allocation Board (SAB) / Office of Local Assistance (OLA) (now the Office of Public School Construction, OPSC), State bonds and District matching funds. Over the years, the matching funds have come from a multitude of sources; the general fund, special reserves, developer fees and redevelopment funds. In the 1970's a developer fee collection system was established to provide partial funding of relocatable classrooms and renovation required to increase school facility capacities.

In the past, the addition of large quantities of relocatables were used to relieve the overcrowding throughout the District. Today these facilities are 30-40 years old and are desperately in need of replacement.

This attempt to house the growing numbers of students has been insufficient. In the last 9 years, the GUHSD student population has grown by 20% and added 3,775 more students to the District's system. This is the equivalent of 2 new high schools. This enrollment increase has resulted in overcrowding at 80% of the schools. As a result, many schools lack adequately sized libraries, science labs, restrooms, classrooms and support facilities. Schools have sacrificed libraries, multipurpose rooms, conference rooms and storage areas, and converted them to classroom space in order to meet the need. Even with these measures, campuses are still overcrowded. Limited space is forcing teachers to work daily with class sizes that are so large, it is difficult to receive a comprehensive quality education.

Although the District was approved for "Digital High School" funding and improvements, the upgrades were focused in specific areas and are not sufficient to meet the demands of the required technological infrastructure and electrical power needs. Supplemental funds will be required to provide for these items.

The GUHSD has structured an implementation plan to provide reasonable compliances with the requirements of the American Disabilities Act (ADA). The expenses involved in satisfying the minimum requirements are provided by the District's General Fund. Additional barriers will still need to be removed and the modernization efforts to accomplish this will require even more funds.

1.5 Maintenance of Existing Facilities

GUHSD maintains approximately 2.3 million square feet of school facilities. Approximately 1.6 million square feet of these facilities are more than 30 years old and approximately one million square feet are more than 40 years old. The increasing age of the schools has burdened the District with extensive and costly capital improvements.

An analogy, in the words of the District.....

"The GUHSD facilities are the equivalent of 1,500 homes each have 1,600 square feet to maintain. These homes have housed 30-40 residents a day with only one or two adults to watch over them with limited funding for upkeep. The furnishings and finishes are worn out."

Priority for Repairs

- The highest priority for repairs are those items which, if left undone will adversely affect the health, safety and security of all students, staff and visitors.
- The second priority for repairs is to ensure and accommodate the delivery of the curriculum to the students.
- The third priority for repairs is for projects that do not directly affect the curriculum. (Aesthetic concerns are postponed for years because the aesthetic improvements do not directly affect delivery of the curriculum.)

Individual school sites complete their own daily maintenance, cleaning, landscape upkeep and minor repairs. This work is completed by the on-site custodial staff or grounds personnel. When repairs require specialists who have greater construction knowledge that are beyond the abilities of the site staff, a work order is sent to the Buildings and Grounds Department of Maintenance. The staff of the Maintenance Department will then plan and implement the requested work. Some work is contracted to labor forces outside the District. Over the last decade maintenance positions have been reduced by 20 percent due to budget constraints. Student body populations have grown by 20% and building areas requiring maintenance have increased by 10%.

During the recession of the early 1990's the Governing Board of GUHSD, like many other school districts, elected to spend its limited dollars on the immediate needs of the school district, keeping the dollars in the classroom to ensure the delivery of the curriculum to the students.

All available dollars were spent in support of classroom instruction including books, supplies and teaching-related materials as well as salaries for teachers, counselors and nurses.

The funds provided to the District for upkeep by the State of California Deferred Maintenance Program has varied from year to year. In the early 1990's bonds were depleted and state funds were limited; the State Allocation Board was not able to match the deferred funds budgeted by the GUHSD for maintenance.

The District does not have adequately funded proactive mitigation implementation programs for asbestos abatement, upgrades required by the Americans with Disabilities Act (ADA) or issues identified by the Office for Civil Rights. Compliance with these issues is very costly. The District is currently attempting to comply with the basic requirements for site access under the ADA as well as issues identified by the OCR in order to comply with both retroactively.

1.6 Construction of New Facilities

The Maintenance, Operations and Facilities Department manages and coordinates architectural and engineering services, construction contract work and the purchasing of materials or equipment integral to new construction projects. The staff facilitates construction documents through the Division of the State Architect (DSA), and manages bidding of new construction work per the requirements of the California Public Contract Code.

Steele Canyon High School, opened in the Fall of 2000, is the most recent example of the efforts by the Maintence, Operations & Facilities Department to produce new schools. The staff works closely with a team of architects, engineers and educators to develop a campus ready to serve the needs of the students, teachers and administrators of today.

1.7 Resolving the Problems

The resulting status of the GUHSD schools:

- Ten million dollars are needed for the back log of maintenance projects that have been deferred.
- Millions of dollars are required for the renovation and upgrading of facilities that have never been modernized.
- Millions of dollars are required to build a new high school to replace temporary classrooms and overcrowded campuses throughout the district. Current growth eligibility has been approved for a new school with capacity for 1,800 students. In addition, classrooms, libraries and science labs are needed to meet the high school curriculum.

Funding sources need to be identified for facility improvements, a schedule needs to be adopted and the work needs to be initiated. Facilities in poor condition should not inhibit the performance of the District's students.

1.8 Process

In order to satisfy the facility needs of Grossmont Union High School District's expanding student enrollment along with its aging facilities, the Governing Board has decided to implement a Long Range Facilities Master Plan (LRFMP). The plan includes a comprehensive inventory of the repairs, upgrades and future construction needs at all campuses over the next 10 years. The groups involved in accomplishing this task include community members; city and county planning agencies; district educational, financial and planning staff; parents and students. It is this community participation which will help to ensure the success of the proposed plan.

The most critical priorities, as determined by representatives of the GUHSD Facility Steering Committee are as follows:

- Safety/Code Items
- Power Upgrades
- HVAC Upgrades/Replacement
- Upgrade Restrooms
- New Permanent Classrooms
- New and Upgraded Science Labs
- New and expanded Libraries
- Career Centers/Career Paths
- Lighting Replacement/EnergyEfficient Upgrades
- Security Lighting
- Replace Window Systems

- Data Systems/Technology
- Replace Flooring/Carpet
- Remove Lead Paint/Asbestos
- Repaint Interior/Exterior
- New Furniture
- Upgrade Site Access/New ADA Signage
- Site Specific Discretionary Items

1.9 Governing Board

The facilities should enhance the educational program of Grossmont Union High School District, not restrict it.

All students should be learning in modernized schools with air conditioning, new flooring, new lighting, clean and bright bathrooms, new paint, new white boards, adequate power and network wiring in every classroom. These standards should be true of the existing schools and each future campus. A construction plan for upgrading facilities working in conjunction with the educational program will encourage academic excellence in the years ahead.

The District, represented by the Governing Board, started the evaluation process of the GUHSD schools through a facilities assessment. This evaluation, identified in Section 4, will enable the Board of Education to determine the condition of each of the campuses. The Board will then be able to prioritize and estimate the costs associated with the needed improvements. The District will also be able to utilize this assessment & the LRFMP for many purposes, one of which will be to review the available funding sources to determine how to best maximize District funds and needs.

More than 50 percent of California schools are greater than 30 years old and exhibit conditions similar to those found at GUHSD. The state is using bonds to resolve the state modernization crises. The age and condition of the GUHSD facilities qualify for partial modernization funding by the State of California. The question remains, however, " How will GUHSD fund the remainder of the projects when the state's contribution falls short of the critical needs?"

1.10 Long Range Facilities Master Plan (LRFMP)

"In an era of school restructuring, fiscal limitations, heightened community interest in educational improvement, and technological advancements, effective school facility utilization becomes imperative. Planning for school facilities should be based on a vision of change, involve collaborative approached with the community, be creative and imaginative, as well as cost effective.."

Schools for the Twenty-first Century, California State Dept of Education, 1990

The concept of Long Range Facilities Master Planning has been used previously at the GUHSD. An earlier plan, completed in 1988, provided recommendations based on projected enrollment growth, remodeling or replacement of structures, modernization of existing facilities and replacement of aging equipment. The report also provided projection needs for new schools. Many of these proposed projects have been accomplished. It is now time to prepare a similar plan for the next ten years.

At the September 10, 1998 meeting, the Governing Board reviewed an initial report on the development of a Long Range Facilities Master Plan (LRFMP). The report defined how the District's facilities are constructed, maintained and modernized. The report also defined what a Long Range Facilities Master Plan (LRFMP) is, its purpose and how a LRFMP could help the District.

This report also indicates that initiation of a district-wide program for modernization needed to be implemented immediately as nine schools (LPP) qualify for Modernization. Seven out of the nine have already been approved for planning grants through the state modernization program.

A LRFMP is a continuing process that results in the creation of an evolving document. Both the process and the document are designed to ensure that a school and community-based plan is created through a consensus of participants. The purpose of the plan is to develop and communicate an efficient process to change the District school facilities to better accommodate and support its current and future educational programs and community needs on a regularly updated basis. It will serve as a guide for assessing the needs for facility improvements and the implementation of capital investments, including the justification for developer fees or the sale of bonds to fund the proposed projects. It will also assess the variety of federal, state, and local funding sources and other financing options available to

the District. An implementation plan will be developed which will address the scope of projects that may be financially reasonable to accomplish with available funds during the ten year period.

The LRFMP process started with the formation of site planning committees (SPC) at each high school and the formation of a Facilities Steering Committee (FSC) of educators, specialists, parents and community members. The role of the FSC was to review GUHSD's educational goals, high school facilities program, and provide site based direction in the evaluation of the school's facilities. This program will be used as a standard benchmark for assessing all existing schools and the design of all future schools. A LRFMP will give the current seven school modernization projects direction and provide a working document for the next ten years for facility improvements and funding of the projects. A needs assessment has been established and created with priorities and cost estimates for each campus. A plan for future facility needs with capital improvements and estimates have been established. State funding of modernization projects requires District matching funds. Funding to implement the determined facility needs and capital improvements will require alternative sources of funding. A public-supported local bond measure and campaign may be needed.

Summary

A Long Range Facilities Master Plan will:

- *Develop a more visionary approach to meeting long-term school facilities needs*
- *Strengthen the linkage between facilities planning and educational programs*
- *Enhance collaboration between schools and communities for school facilities planning*
- *Develop innovative approaches to school facilities planning and design.*

1.11 Facilities Steering Committee (FSC)

Establishment of Facilities Steering Committee

As part of the Long Range Facilities Master Plan (LRFMP) process the Governing Board has established a District Facilities Steering Committee (FSC) to review school site needs, requests and to provide district-wide direction to prioritize the projects.

The committee will be responsible to integrate the District's Educational Services Division's educational programs and facility requirements into the LRFMP. The FSC will also be responsible for integrating the demographic studies and enrollment forecasts recently prepared for the boundary committee into facility growth planning and prioritization. The FSC will ensure that the site recommended priorities are reasonable and meet the District's educational goals.

The committee will focus on where the greatest facility needs are for the District. The goal of the committee will be to ensure that construction and modernization needs of the District are met in a fair and timely manner. The committee is composed of school administrators, District administrators and parents representing each school site.

The Governing Board recommended that a committee be created consisting of 14 voting members. The 14 voting members would be 12 citizens. They would be selected by each high school principal to represent each comprehensive high school area. The 13th member would ensure representation of Special and Alternative Education's interests districtwide, and would be a citizen selected by Educational Services. The 14th voting member would be a representative of Business Services. Educational Services will provide staff resources so that facility priorities are driven by curriculum. Business Services will provide staff resources to assist in the facilities implementation recommendations. The primary purpose of the committee will be to assist the District to carry out the development of the District LRFMP. In addition the FSC will integrate the Deferred Maintenance Program, the American's with Disabilities Act (ADA) implementation program, the Office of Civil Rights (OCR) Title 9 implementation program and the Digital High School standards into the assessment survey. Finally the committee needs to review the defined scope of work. The needs will then be prioritized within the limits of each proposed project in the District.

Special thanks to the.....

1.12 Site Committees

Each campus created a Site Committee to analyze their own individual needs. The members of the committee have varying backgrounds, but all have immediate knowledge of the campus. The volunteers for this committee are principals, teachers, administrators, security staff, parents, and others who occupy the campus daily.

The architects and engineers of the Consultant Teams assembled questionnaires about each campus. These questionnaires were distributed to the Site Committees to be completed prior to the architect's assessment of the campus. Each architect scheduled a meeting with the various Site Committees for the purpose of discussing the questionnaires prior to the completion of their review of the campus.

The Site Committee ordered their list of needs based on their own priorities. These lists have been duplicated in the following section.

The Site Committees also participated in prioritizing the list compiled by the Facilities Steering Committee.

The FSC survey represents a list of needs found to be common at all campus locations.

2 demographics

2.1 Forecast Enrollment: SANDAG 2020 Housing and Population Projections

One key component of a comprehensive facility master plan is the District's projected enrollment. Three criteria are required to forecast enrollment for planning purposes. They are the current District enrollment, a reliable housing and population data source, and the known capacity of the district. The master plan should be able to answer if, when and how many classrooms are required to adequately house future students. Two of these elements, capacity and current enrollment, can come directly from District records.

The District currently has a capacity for 21,780 students following the Education Code Section 17071.10 guidelines assuming (1) no classrooms are used for support functions such as Resource Specialist Programs or language labs, (2) Special Day Class (SDC) classrooms are loaded at 13 for non-severe, and 9 for severe, students per classroom, and (3) each school has a six percent capacity for overcrowding. As of October 2001, the District's enrollment was 23,639 students. (See Table 2.1A)

The third element for projecting enrollment, a reliable data source, can come directly from the San Diego Association of Governments (SANDAG). SANDAG provides regional housing and population forecasts, and the most recent is the SANDAG 2020 Forecasts. It spans the 25-year period from 1995 to the year 2020. In addition to providing the data by city jurisdiction and the county, SANDAG makes it available by school district. By taking the housing and population forecast data for each of the seven feeder elementary school districts in the Grossmont Union High School boundary, the anticipated correlating high school enrollment projections can be determined. The segregated data will help identify which part of the District will have the growth and which part will not. The eleven comprehensive high schools in the district serve specific feeder elementary school districts; therefore the projected increase in high school enrollment can be linked to specific schools and a determination of how many new classrooms required to accommodate the growth can be made.

Chart 2.1 A

The chart below shows the enrollment projection information in table 2.2-A. It is evident that the regions of the Grossmont Union High School District that will experience significant growth are the same areas that encompass the Cajon Valley, La Mesa Spring Valley and the Alpine elementary school districts. These regions of the District have the only available land for development, namely, Rancho San Diego, Blossom Valley and Alpine.

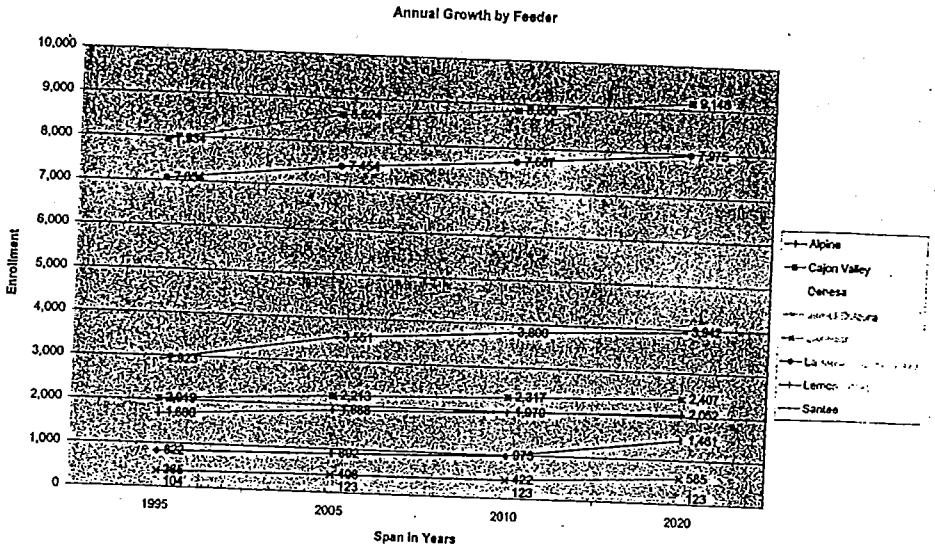

Chart 2.1 B

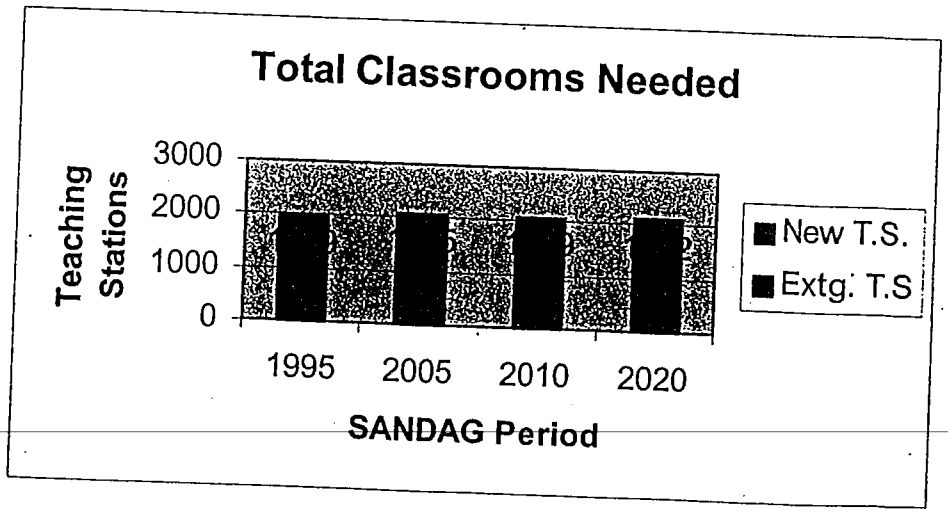
The chart below shows the existing number of teaching stations in blue. The red columns show how many more teaching stations are required. The top number is the total number of teaching stations needed (existing & new) to meet the project growth.



The recently completed Steele Canyon High School has a capacity of approximately 2,000 students. It is approximately ½ full and can more than adequately accommodate the anticipated growth from the Rancho San Diego community. The enrollment growth in the Blossom Valley and Alpine communities will continue to impact Granite Hills High School, El Cajon Valley and Valhalla High School.

In March 1999 the District filed an eligibility application with the State Allocation Board based on the high school attendance area encompassing the Alpine and Blossom Valley communities. It was found that the District was eligible for 1,765 high school student grants. The results of filing on a high school attendance area corroborate the SANDAG 2020 Forecast projections.

A new high school located in the Alpine or Blossom Valley region will more than adequately address the new development in that part of the District. It should come on line by the 2004 school year to give the District the maximum benefit to relieve overcrowding at Granite Hills and El Cajon Valley High Schools. During the interim, relocatable classrooms will be required to house the students at both locations.

2.3 Ethnicity

The Grossmont Union High School District has a diverse ethnic composition. The District's 2001/2002 enrollment exceeds 23,000 students, and the predominant ethnic group is White/Non Hispanic. Sixty four percent of the students district wide are in this ethnic group. The Hispanic population is the next largest group at just under twenty percent. The African American student population is at seven percent followed by the Filipino (two percent), Asian (two percent), American Indian (two percent) and Pacific Islander (0.69%).

Ten years ago the demographic mix was essentially the same. The White/Non Hispanic and the Hispanic populations were the predominant ethnic groups. However, a significant gain in the African American, and Hispanic populations between 1991 and 2001 has resulted in an approximate nine percent decrease in the White/Non Hispanic segment of the student body.

On a school site by school site basis, the District's ethnic diversity is much more defined and reflective of the immediate neighborhood community serving those schools. Perhaps the most ethnically diverse school is Mount Miguel High School. It has the lowest percentage of White/Non Hispanic student of all the schools and the highest number of the students in the remaining ethnic categories: Hispanic, African American, Filipino, Asian, American Indian and Pacific Islander. (Source: FY 2002 Profiles Report: GUHSD). With regard to ethnic diversity, Mount Miguel is followed by Monte Vista High School, El Cajon Valley High School, and Helix High School in that order.

The remaining high schools have higher than sixty six percent White/ Non Hispanic populations and a range between eleven and eighteen percent of Hispanic populations. The exception is Santana High School. It has an eighty five percent White/Non Hispanic population and an eight percent Hispanic population. The remaining ethnic groups at Santana High are at or below two percent.

The following pages from the FY 2002 Profiles report illustrate the ethnic diversity of the District.

DEMOGRAPHICS

ETHNIC DIVERSITY (CBEDS)

FY 2002

Over the past ten years, the ethnic composition of the District has changed to reflect an increasingly diverse East County.

Dramatic increases in the percentage of Hispanic and African American students over the last 10 years characterize the bulk of this change.

2.4 Income Profiles

The District does not collect family income information from its students. It does, however, receive information from the County of San Diego and the State of California that identifies the number of students that receive Aid To Families With Dependent Children (AFDC). The information is needed to determine those students that qualify for free and reduced lunch. It is also required if the District is to participate in specific funding programs such as Community Development Block Grant funds.

Approximately seventeen percent of the total student population qualifies to receive free and reduced lunch. El Cajon Valley, Mount Miguel and Monte Vista High Schools have the highest number of students that qualify for the program. The following pages from the FY 2002 Profiles report show the AFDC distribution in the District.

3 Education Programs

Mission Statement

"Through excellence in teaching and in partnership with parents and the community our mission is to graduate life-long learners who are productive members of a global society."

3.0 Educational Priorities

The Grossmont Union High School District Superintendent established educational priorities that will impact all participants in the educational system. Staff is charged with helping develop all students by:

- Conduct an entrance and exit assessment of all students comparable to state-selected assessments
- Establish and maintain consistent course standards, assessments to verify achievement of those standards, and documented course entrance expectations
- Develop and implement a comprehensive and integrated technology plan
- Develop a financially sound five-year fiscal plan
- Improve facilities & upgrade classrooms to support the district's educational plan
- Attract and retain the highest quality employees
- Update textbooks and instructional materials
- Develop a rational, equitable, and stable funding plan for extra- and co-curricular activities for students
- Measure and improve efficiency of central office services
- Increase parent and family involvement and support

3.1 Strategic Educational Plan

The Strategic Educational Plan was approved by the Governing Board on July 15, 1999. It provides a two-year plan of activities that will guide all future educational efforts of the GUHSD. The students are now required to attain the performance standards described by the "EDLRs" for graduation. This will only happen if the entire team, parents, staff and students, is committed to meeting this standard for every individual.

An EDLR is an Essential District-wide Learner Result (EDLR) that can be use by the Governing Board to measure district-wide student performance.

"EDLRs" coincide with existing graduation requirements, state standards, and Expected School-wide Learner Results (ESLRs).

EDLRs support the Board priorities for exit standards for all students. In addition, the development of a common core curriculum to achieve EDLRs directly supports the Board priorities for consistent course standards and assessments to verify achievement.

Special Education and English Language Learners will also need to meet the established EDLRs to graduate. Special Education students will receive assistance through the accommodations and modifications that exist within each student's Individual Education Plan (IEP). English Language Learners will receive assistance through primary language support whenever possible. Severely Handicapped students will receive a certificate of attendance and will meet alternative assessment standards.

The elevation of educational standards will require the District and the schools to closely examine their curriculum, instructional practices and facility conditions to make sure that improvement in student achievement is achievable.

3.2 Facility Priorities

District-wide Policies & Educational Specifications should direct the focus of Facility Priorities. Facility Priorities based on the District's Educational Plan:

- The first priority is to provide facilities for *Core Courses & Career Centers.*
  - Science classes and their attendant lab facilities are the only core curriculum that requires a specialized space.
  - All other core courses can be implemented in a district standard classroom as standardized in the District technology plan adopted in 1999.
  - Equity in science labs should be provided district-wide with each campus having a minimum of 1 science lab per 300 students which provides approximately 7 science labs per campus.

- The second priority is to make facility provisions for courses focusing on *Career Major-Pathways* and to provide *Library Equity* at each campus.
  - Some Career Path courses may require a specialized space. Special space needs will be identified on a campus-by-campus basis.

- All other Career Path courses can be implemented in a district standard classroom per the technology plan adopted in 1999.
- Libraries, adequately sized per CDE quidelines, with on-line resources available via each classroom and the library.

- *Specialized Courses & Electives* (courses not articulated into a career path) would have the least priority.

The following performance standards:

> *".....will define the essential knowledge and skills which must be demonstrated prior to being awarded a diploma from the Grossmont Union High School District beginning with the graduating class or 2004. Most standards are taught, tested, or accomplished within the courses which meet the regular graduation credit requirements."*

Essential Districtwide Learner Results (EDLRs)

The following performance standards define the essential knowledge and skills which must be demonstrated prior to being awarded a diploma from the Grossmont Union High School District (GUHSD).

Beginning with the graduating class of 2004, all graduates of the Grossmont Union High Shool District will be:

Effective Readers
Who receive a passing score on the California High School Exit Exam

Competent Writers
Who receive a passing score on the California High School Exit Exam

Beginning with the graduating class of 2005, all graduates of the Grossmont Union High Shool District will be:

Articulate Speakers
Who score "4" or better on the GUHSD Speech Rubric

Quantitative Problem Solvers
Who meet or exceed a score of 70 percent or better on the GUHSD Geometry Program Assessment, or pass the Standardize Testing & Reporting (STAR) Standards-Based Assessment, Geometry level or higher.

HMC

Prepared for Life-Long Learning
Who assess, apply and connect learning to their Career Plan and personal goals as evidenced by successful completion of a Senior Project or Senior Exhibit.

In addition, the governing board supports the District staff encouraging participation in and facilitiating the expansion of service learning and Internship Opportunities for students. Service Learning and/or Internship will not be a requirement for graduation at this time.

3.3 Career Paths

All high schools within the Grossmont Union High School District are providing a unique program which helps students to have a special focus during the last two years of high school. The District has incorporated the concept of a "high school career majors". This will encourage students to be actively engaged in their selected high school course of study by linking their school work to experiences outside the school itself, and to student's future opportunities for education, training and careers.

Human & Public Service - Works with Technology, People, Computers, Customers and Public Agencies.

- Elementary& Secondary Teacher
- Police Officer
- Firefighter
- Cosmetologist
- Hotel / Motel Manager
- Retail Sales
- Interior Designer
- Caterer
- Court Reporter
- Counselor
- Chef
- Flight Attendant
- Manicurist
- Child Care Provider
- Real Estate Manager
- Chauffeur
- Elder Care Worker
- Nutritionist
- Fashion Designer
- Life Guard
- Travel Agent
- Social Worker
- Community Service Officer
- Police Detective
- Dispatcher
- Judge
- Lawyer
- Correction Officer
- Dietary Assistant
- Customer Service Rep.
- Urban Planner

Science, Engineering & Industrial Technology - Works with Technology, People, Computers, Machines, Chemicals, Minerals, and Construction.

- Biomedical Engineer
- Geologist & Geophysicist
- Marine Biologist
- Survey & Mapping Scientist
- Electrical & Electronic Technician
- Industrial Engineer
- Hazardous Materials Technician
- Aircraft Technician
- Industrial Production Manager
- Mechanical Engineer
- Mechanical Engineer Technician
- Engineer Technician
- Life Science Technician
- Chemical Engineer
- Nuclear Technician
- Civil and Traffic Engineer
- Architect
- Printer/Graphic Technician
- Physicist & Astronomer
- Aircraft Pilot and Flight Engineer
- Carpenter
- Drafter
- Auto Technician
- Interior Designer
- Manufacturing Technician

Health - Works with Technology, People, Computers, Patients, and Chemicals.

- Chiropractor
- Registered Nurse
- Dental Assistant
- Dental Hygienist
- Dentist
- E.E.G. Technician
- E.K.G. Technician
- Emergency Medical Technician
- Home Health Aide
- Certified Nursing Assistant
- Family Practitioner
- Licensed Vocational Nurse
- Medical Records Technician
- Medical Secretary
- Medical Lab Technician

Partnerships

San Diego County Employers

Each school has it's own personality. One unique aspect of each campus resides in the career paths and partnerships found at each campus. The community has joined with GUHSD in an attempt to provide students with an exposure to jobs related to the pathways of their choice.

3.4 Campus Majors

3.5 Education Services

Adult Education

- After school Adult education
- English as a Second Language
- Citizenship programs
- Foothills
  Basic adult education, GED preparation, parent education, typing certificates, food handler training, home school for instructors that teach senior classes in sixteen local convales cent care centers

Alternative Education

- Chaparral Continuation High School
- Challenge Program
  Serves students who are on expulsion or suspended expulsion
- Gateway Community Day School
  Serves expelled students and other at-risk students.
- Substance Abuse Program
- Community Day School Program
- Phoenix Program
- Home Choice Program
  This program works with over a hundred students and their parents to provide guidance and assistance in the home schooling methods.

Aquatics

Non-curriculum programming and maintenance of 9 large (25-meter) public pools

Correctional Ed

Provide educational programs in four county detention facili ties for adult inmates through a contract with the San Diego Sheriff's Office

GATE

Gifted and Talented Education program to help identified students achieve their full potential. Participant are identified throught criteria developed in the areas of intellectual, creative, or leadership ability; high achievement; and cultural, linguistic or economic diversity.

- *Intellectual Ability* - Students who demonstrate exceptional intellectual development.
- *High Achievement* - Students who consistently score exceptionally high on achievement tests.
- *Specific Academic Ability* - Students who function at highly advanced academic levels in particular academic/ ability areas.

Health Occupation Center

This program provides quality health occupation instruction through funding by ROP and Adult Education for the District. The Program works closely with hospitals, clinics, physicians, laboratories, pharmacies, veterinary facilities, dental offices, and emergency medical facilities throughout the county.

Home Study/Special Ed Independent Study/Itinerant Program

- *Home Study* - This program provides teachers in the homes of students who are on extended medical leaves.
- *Special Ed Independent Study* - Teachers within this program work with students off-campus or on-site to provide guidance in independent study. This alternative program offers course content which parallels the course content offered in the traditional classroom instruction. Written assignment contracts are developed for each participant with time limits for the completion of assignments.
- *Itinerant Program* - Teachers work as liaisons for the chronically health-impaired students and are on assignment to every campus within the District.

Phoenix Program

This program serves students, who for a variety of reasons, cannot afford to attend school on a daily basis.

School to Work Transition Program

This program is structured to provide each student with the information, counseling and educational offerings which will compliment the career of his or her choice. Teachers will help the student to identify and acquire marketable skills for the student's selected career.

- *East County Career Center*
  Helps people get jobs. The GUHSD staff and partner staff of EDD (California Employment Development Dept.) & Grossmont College serve over 6,000 job seekers a year.
- *School to Career*
  Community Resources Program and College New Program

Special Education

Special education uses an individualized program for each disabled student's exceptional needs. Course studies and proficiency standards are adjusted as needed for each student.
A disabled student is one who has a physical or mental impairment that substantially limits one or more major life activities, including learning.

- Physically / Visually Handicapped
- Learning Handicapped
- Severely Emotionally Disturbed
- Speech / Language Therapy
- Psychological Services
- Nonpublic School Placements
- Vocational Education for the Handicapped
- Adapted Physical Education
- Health Services - LVN

Pregnant Teens Program

Students from the entire District are served by this program. Students receive instruction at all levels of required courses. The program also provides instruction in prenatal care, child development, family planning, nutrition, health care skills and assists in directing the students to support information and resource

ROP

ROP is a state-funded occupational training program that provides free job training instruction for San Diego County residents who are 16 years of age or older. Students complete classes acquiring skills which qualify them for entry level jobs in their field of interest.

Truck / Bus Professional Driving, ROP

This program is structured to provide specialized instruction and training for professional drivers and diesel mechanics entering the transportation industry. As a part of instruction, these courses reinforce and apply basic academic skills in reading, writing, mathematics, speaking and listening in the context of a career.

Viking Center

This is a school program for students of the District who are severely handicapped. Generally half of this student population have fragile health conditions.

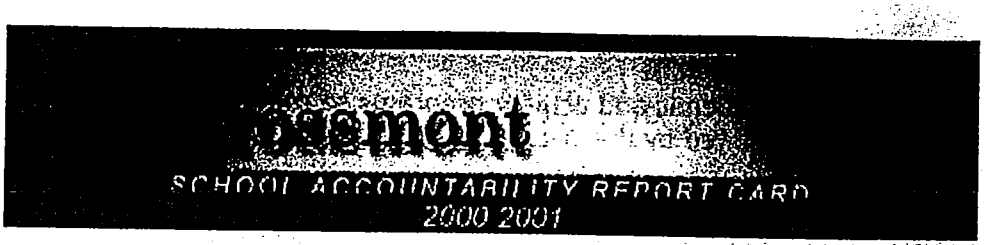
3.6 Individual Schools Educational Program

The preceding pages identified the District's mission statement and educational priorities. The Essential District wide Learner Results were also outlined. The remaining pages in this section identify how each individual school is implementing these adopted standards.

The information is taken directly from each school's 2000-2001 School Accountability Report Card (SARC). With the exception of Helix Charter High School, a full version of the SARC reports are available at the Grossmont Union High School District web site: www.guhsd.net. A complete copy of the Helix Charter High School SARC can be obtained by contacting the school.

The recommended site and facility improvements for each school (see Section 4) were evaluated in context with the adopted educational priorities and EDLERS. The Facilities Steering Committee and the individual school site advisory committees coordinated the recommended building improvements with each school's educational program so that the delivery of the educational program is consistent with the teaching environment.

The next logical step in this process will be for the District to develop educational specifications. This will ensure that a new school or a modernized school will have teaching stations and supporting operations that are consistent with the educational program.



LETTER FROM THE PRINCIPAL

Brad Lichtman

Dear Parents and Community:

Thank you for taking the time to learn about Grossmont High School. As we approach our eightieth birthday and the dawn of a new century, we can look back proudly on a grand tradition of excellence. For the better part of the twentieth century, our graduates have not only made an indelible mark on San Diego's East County, but the greater region and beyond, to the State and national levels. Our staff and administration are committed to providing the highest quality learning experience for our students. To that end, we offer a comprehensive academic program which meets the diverse needs of all students, whether in preparation for post-secondary education or the world of work and career. Additionally, our students may choose to participate in the full range of co-curricular and extra-curricular activities, enabling them to grow and express themselves in the most constructive and productive manner.

In addition to this publication, you may consider reviewing our El Requerdo yearbook, the Foothills Echoes student newspaper, OBRA short stories and poetry, or an edition of the Grapevine, our PTSA/Principal's newsletter.

Please make arrangements to visit our school by calling for an appointment. We enjoy talking with new residents and showing our campus. We highly value open dialogue with all stakeholders in our community. We look forward to seeing you.

Brad Lichtman
Principal

GROSSMONT

INSTRUCTIONAL PROGRAM

We offer a full range of academic and activity programs to meet the needs of all students, and are fully accredited by the Western Association of Schools and Colleges (WASC).

Our college preparatory courses fulfill the requirements necessary for admission to universities and colleges anywhere in the U.S. In addition, we have high quality programs in technology, applied academics, art, music, drama, athletics, and other areas.

SCHOOL INSTRUCTIONAL PROGRAMS

CURRICULUM AND GRADUATION REQUIREMENTS

In each subject area, teachers strive to provide a curriculum that meets current demands as described in California curriculum frameworks, college guidelines, and the accreditation standards of the Western Association of Schools and Colleges. Teachers generally have considerable flexibility in planning their courses. However, major changes in courses and instructional programs typically must be reviewed and approved by District councils of teachers within the relevant discipline before being adopted by the Governing Board.

All students graduating from our school must complete the following:

- 4 years of English
- 3 years of Math
- 2 years of Science
- 1 year each of World History and U.S. History
- 1 semester each of Geography, American Government, Economics, and Life Management Skills
- 2 years of Physical Education
- 1 year of Visual/Performing Arts or Foreign Language
- Technology Foundation Requirement
- Minimum Competency Requirements

ESSENTIAL DISTRICTWIDE LEARNER RESULTS (EDLRS)

In addition, beginning with the graduating class of 2004, all graduates of the Grossmont Union High School District will be:

Effective Readers

Who receive a passing score on the California High School Exit Exam.

Competent Writers

Who receive a passing score on the California High School Exit Exam.

Beginning with the graduating class of 2005, all graduates of the Grossmont Union High School District will be:

Articulate Speakers

Who score "4" or better on the GUHSD Speech Rubric.

Quantitative Problem Solvers
Who meet or exceed a score of 70% or better on the GUHSD Geometry Program Assessment, or pass the Standardized Testing and Reporting (STAR) Standards-Based Assessment, Geometry level or higher.

Prepared for Life-Long Learning
Who assess, apply, and connect learning to their Career Plan and personal goals as evidenced by successful completion of a Senior Project or Senior Exhibition.

In addition, the Governing Board supports the District staff encouraging participation in and facilitating the expansion of Service Learning and Internship Opportunities for students. Service Learning and/or Internship will not be a requirement for graduation at this time.

PROGRAMS TO MEET DIVERSE NEEDS
Following are examples of the programs and services we offer to supplement basic instruction. Some services are provided off campus.

- Academic Tutorial Assistance for English and Limited English Speakers
- Adaptive Physical Education*
- Advanced Placement/Honors
- AVID (Advancement Via Individual Determination)
- Concurrent Enrollment in Adult School and Community College Programs
- Cuyamaca College Upreach Program
- English as a Second Language
- Gifted and Talented Education
- Hearing Impaired*
- Home Schooling Options
- Homestead Program*
- Inclusion*
- Physically Disabled*
- Psychological Services*
- PTSA Tutorial Services
- Regional Occupational Program (ROP)
- Resource Specialist Program*
- Services for Severely Emotionally Disturbed*
- Severely Handicapped*
- Sheltered Academic Classes for Limited English Speaking Students
- Special Day Classes*
- Speech Therapy*
- Study Skills Programs
- Work Experience Classes
- Work Training Center
- 504 Accommodation Plans
- Special Education Programs and Services

Helix Charter High School
School Accountability Report Card 2000-2001

A Message from the Principal

Dear Friends and Community:

The Helix Charter High school staff is continually developing innovative ways to better prepare our student body for the rapidly evolving work environment that they will face in the 21st century. We regularly examine our school data, look at reform documents, and evaluate our students in terms of their readiness for the world of work. In this process we have developed exit standards in coordination with our community. Furthermore, we have developed new graduation requirements beginning with the graduating class of 2003. Our graduates, more than ever before must prove through authentic tasks that they have met our standards.

As a charter school it is our objective to offer our students a unique learning opportunity. They will be able to benefit from a longer more flexible school day with smaller class size and increased opportunities to learn on and off the campus. We are offering parents and community members on-going significant opportunities to become more directly involved in the education of their children.

Our professional development is driven by our need to institutionalize our new graduation requirements though the creation of career paths, continue to standardize our curriculum, develop our instruction of literacy in all classes and foster a deeper relationship with parents. Being a charter school makes it possible for Helix Charter High School to assume greater autonomy of its budget and expenditures, and increase its stewardship of human and material resources, which will ultimately enable us to improve the learning of all students.

This document will provide you with important information concerning the programs and facilities of Helix Charter High School.

DR. DOUG SMITH, PRINCIPAL

2000 Helix Charter High School's Exit Standards

Highlander's Plan for Success

THE GRADUATES OF HELIX HIGH SCHOOL WILL BE...

1. Constructive THINKERS who can:
- solve realistic complex problems
- use existing information to make reasonable recommendations and predictions
- use logical, analysis in practical contexts
- determine the validity of complex information

2. Effective COMMUNICATORS who can:
- gather and understand information form a variety of perspectives and formats
- synthesize and evaluate information and defend the conclusions
- clearly present information and decision-making
- participate in dialogue and decision-making

3. Informed DECISION MAKERS who can:
- objectively evaluate themselves
- develop plans for achieving academic and/or career goals
- demonstrate personal responsibility for life choices
- assess, evaluate, and reflect upon work

4. Functional PRODUCERS who can:
- effectively use appropriate technology
- create appropriate products for specific audiences and markets
- participate as team members

THE GRADUATES OF HELIX WILL WORK TOWARD BECOMING...

5. SELF-DIRECTED learners who can:
- select and use appropriate learning methods
- demonstrate initiative, creativity, and curiosity
- apply learned skills to new situations
- demonstrate ongoing growth and development

6. INVOLVED citizens who can:
- participate as contributing members of a democratic society
- cooperatively resolve conflicts
- demonstrate concern for the environment
- appreciate cultural and linguistic diversity
- work collaboratively as members of diverse communities

7. HEALTHY people are:
- understand the benefits of lifelong commitment to health and fitness
- practice goof health, nutrition, and fitness in an effort to achieve a healthy lifestyle

Program of Study and Vision for All Students

Helix is a college prepatory charter high school dedicated to supporting each student in the attachment of his or her highest academic potential. The educational focus is designed to foster each individual's capacity for self-development and personal responsibility that will prepare the student for success in adult life, college and career. Helix will provide the academic background and experience that will prepare students to perform successfully in college without remediation. All Helix graduates will be prepared to enter college either right after high school of later in life if the need arises.

All students will enjoy a range of educational choices developed to give them flexibility in designing a personal program of study. The following provides guidelines for development of requirements for designing a program of study. Students needs and interests vary, so the time students take to complete their program of study will vary. Some students will take more than 4 years to graduate, some will take fewer.

Each student's program of study has two equally important components that are intended to help graduates enter adulthood well-prepared. One component if for all students to acquire the background and preparation necessary for them to enter college upon graduation. The other components if for all students to obtain some experience in the world of work while attending Helix. Every student will show how his or her program of study has a focused component on the work world with an employer/employee type experience that leads to expertise or certification.

Graduation Process

Graduation for Helix is completed in a two-step process – Division I and Division II. Students who are beginning high school enter Division I. The program of study in Division I will focus on student demonstration of literacy and numeracy. Additionally, every student will develop a statement of educational purpose that will reveal personal responsibility and determination for his for her own educational direction. Division I requirements may be accomplished by course completion or demonstration of competency. Completion of Division I will typically take place at or near the end of the second year at Helix. Some students may need more time to complete Division I and others may need less.

Students fulfilling Division I requirements enter Division II. The program of study in Division II will further develop student literacy and numeracy in depth and breadth. Every student will complete, as part of Division II requirements, an option program and a senior project. Division II requirements may be accomplished by course completion or demonstration of competency. Completion of Division II will typically take place at the end of the fourth year at Helix. Some students may need more time to complete Division II, and others may need less. Any student completing all Division I and II requirements is entitled to graduate from Helix High School.

Division I Course or Competency Requirements:

- English ¾
- Geometry ½
- World History ½
- One year of science
- Physical Fitness
- Tech. Discovery/Fundamentals ½
- SAT-9 Testing scores at or above average in reading, language and mathematics (based on 97/98 norm)
- Student-led presentation, which demonstrates personal reflection education growth, career option analysis, and commitment to program of study for the completion of Division II requirements
- Minimum of 100 credits (120+ credits recommended).

(Probationary Completion: in special cases an individual not meeting a single Division I Requirement at the recommendation of the Division I Evaluation Team, will be allowed to move to Division II on probation.)

GRADUATION POLICY

Division II Requirements:

Helix High School offers students' options for completing Division II requirements and graduation that they believe will meet their educational goals.

Option 1, Career Path Completion: students choosing this option will complete a career path as a means to graduation. All career path curriculum at Helix High School will incorporate academic core requirements and career specific electives. Career path completion will lead directly to qualification for the UC and CSU system entry into the workforce.

Option 2, Focused Elective Program: students choosing this option will select/develop and complete a focused elective program satisfying Helix High School's certification and employee/employer requirements as well as all requirements for entrance into the UC and CSU system.

Option 3, Individually Designed Programs: this option exists for those students, who are highly motivated and interested in a rigorous program of study, which includes off-campus specialized training/college courses and career development. Completion of this program will lead directly to qualification for the UC and CSU system into the workforce.

Option 4, SDSU Early Entrance Programs: highly motivated and qualified students have the option of completing graduation requirements while simultaneously completing their first year of university study at San Diego State University.

Additionally...

- All Helix High School graduates either through their program of study, certification, or direct assessment will demonstrate technological competency.
- All Helix High School graduates, either through their program of study, certification, or direct assessment will em3onstrate fitness competency.
- All Helix High School graduates will complete an employee/employer experience connected to either their career path focused elective program.
- All Helix High School graduates will complete a Senior Project as a culminating demonstration of the school wide Expected Student Learning Results (ESLRs).

Division II courses or demonstrating of competencies in the following areas must be completed to satisfy the requirements; English (two course), mathematics (one course), US History, Economics/US Government, Science (one course), and Fine Arts (one course).

Operational Definitions

Career Paths
Career paths focus on academic and elective courses within a general career field. They will integrate at least two core academic subjects (English, Math, Science, Social Studies) and other a sequential elective program on campus. Career paths will provide opportunities that allow all students necessary program and course selections to meet UC and CSU entrance requirements.

Employee/Employer Experience
Internships, work experience and selected courses will satisfy this requirements provided they are connected to the students program of study and meet the work-based competencies (Examples – Internship with Scripps Institute, part-time career –related job, ROP woodworking course).

GRADUATION POLICY

Work Based Competencies

- Communication and Literacy: the student demonstrates ability to speak, listen, read, and write to function successfully at the worksite.
- Organizing and Analyzing Information: the student gathers, organizes and evaluates the meaning of documents and information.
- Problem Solving: the student identifies problems, understands their context and develops solutions.
- Using Technology: the student identifies and applies appropriate technologies.
- Completing Entire Activities: the student participates fully in a task or project from initiation to completion, using appropriate time-management skills.
- Acting Professionally: the student meets workplace standards on attendance, punctuality, dress-code, confidentiality, flexibility, and self control.
- Interacting with Others: the student works professionally and respectfully with a diversity of co-workers, supervisors, and customers, resolving conflicts in a constructive manner.
- Taking Responsibility for Career and Life Choices: the student balances demands of work, school and personal life and takes responsibility for developing his or her own personal and professional growth.

Focused Elective Program

A focused elective program in a sequence of at least three courses, which provide increasing depth and breadth of learning, in a chosen career area. Focused elective programs must be approved.

Sample Focused Elective Programs

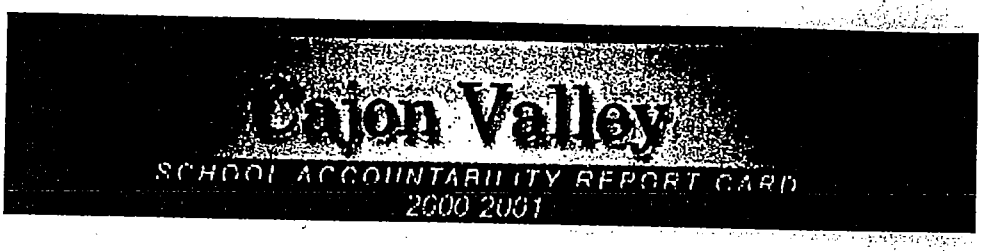
Broadcast & Journalism Drama Telecommunications Journalism	Music Concert Band Symphonic Band AP Music Theory
Cabinet Making Construction Technology ROP Cabinet Making ROP Advanced Cabinet Making	Art Art AP Art History AP Studio Art

Senior Project

All Seniors will...

- Produce or perform a project that is substantially challenging and requires a development in themselves of new understanding and skills.
- Provide a portfolio documenting the process of the project.
- Write an 8-10 page documented research paper on a specific topic related to their project area.

Prepare and deliver an 8-10 minute presentation to a board consisting of teachers and community members.



LETTER FROM THE PRINCIPAL

William V. Melton

Dear Parents and Community:

The mission of El Cajon Valley High School is to empower all of our students to be lifelong learners by promoting a powerful, integrated and rigorous meaning-centered curriculum, relevant to the real world.

This is a very exciting time in the life of El Cajon Valley High School. We are now in our third year of redesigning our curriculum and instruction to better meet the needs of your students. We are definitely headed in the right direction as evidenced by achieving our SAT9 Academic Performance Index API score this year.

The over-arching goal of this school is to raise student achievement scores by:

- Improving attendance
- Maximizing options
- Promoting a positive image of the school
- Developing a support structure relevant to students needs

Our new vision Statement reflecting the redesign of our school is as follows: El Cajon Valley High School is a harmonious educational environment that increases student achievement by integrating rigorous, relevant core curriculum, facilitating collaboration, offering diverse career pathways, establishing connections within the community, sustaining a student, parent/guardian and teacher support system and strengthening accountability and assessment. El Cajon Valley High School is a place with excellent teachers who engage students as creative learners and thinkers and where learning is valued and meaningful, thereby creating lifelong learners and responsible citizens prepared for the 21st century

William V. Melton

EL CAJON VALLEY

INSTRUCTIONAL PROGRAM

We offer a full range of academic and activity programs to meet the needs of all students, and are fully accredited by the Western Association of Schools and Colleges (WASC).

Our college preparatory courses fulfill the requirements necessary for admission to universities and colleges anywhere in the U.S. We have high quality programs in vocational education, athletics, art, music, drama, and other areas.

SCHOOL INSTRUCTIONAL PROGRAMS

CURRICULUM AND GRADUATION REQUIREMENTS

In each subject area, teachers strive to provide a curriculum that meets current demands as described in California curriculum frameworks, college guidelines, and the accreditation standards of the Western Association of Schools and Colleges. ESSENTIAL DISTRICTWIDE LEARNER RESULTS (EDLRS)

In addition, beginning with the graduating class of 2004, all graduates of the Grossmont Union High School District will be:

Effective Readers
Who receive a passing score on the California High School Exit Exam.

Competent Writers
Who receive a passing score on the California High School Exit Exam.

Beginning with the graduating class of 2005, all graduates of the Grossmont Union High School District will be:

Articulate Speakers
Who score "4" or better on the GUHSD Speech Rubric.

Quantitative Problem Solvers
Who meet or exceed a score of 70% or better on the GUHSD Geometry Program Assessment, or pass the Standardized Testing and Reporting (STAR) Standards-Based Assessment, Geometry level or higher.

Prepared for Life-Long Learning
Who assess, apply, and connect learning to their Career Plan and personal goals as evidenced by successful completion of a Senior Project or Senior Exhibition.

In addition, the Governing Board supports the District staff encouraging participation in and facilitating the expansion of Service Learning and Internship Opportunities for students. Service Learning and/or Internship will not be a requirement for graduation at this time.

PROGRAMS TO MEET DIVERSE NEEDS
Following are examples of the programs and services we offer to supplement basic instruction. Some services are provided off campus.

- Adaptive Physical Education
- Advanced Placement/Honors
- AVID (Advancement Via Individual Determination)
- Title I

- Seven Colleges offer Outreach Programs
- Severely Handicapped*
- Spanish for Spanish Speakers
- Special Day Classes*
- Speech Therapy*
- Work Training Center*
- Special Education Programs and Services

LETTER FROM THE PRINCIPAL

Martin Griffin

Dear Parents and Community:

Peace and all good things be yours! We at Mount Miguel High School believe that ALL STUDENTS CAN LEARN! The faculty and staff are dedicated to providing excellence in education in an environment that is conducive to learning.

In order to be successful at teaching all students and to prepare for teaching in a standards based educational system, we are committed to continuous school improvement. This process requires us to consistently study our curriculum and instruction, reflect on its effectiveness, plan for success, and act on plans. This process causes us to continually monitor and adjust.

Mount Miguel High School, like all schools across the nation, is facing many changes. Educators are being asked to teach to standards - national standards, State standards, District standards and school site standards. Our students will be assessed and matriculated based upon their meeting these standards. Our core belief is that all students can learn. We know that our students can meet success and challenge a curriculum at the same time; they are challenging the same curriculum at a pace that is best for them. We are also developing support programs to assist in the acceleration of students in need of additional help. Our goal is to take our students where they are and move them to academic success.

It is truly good for us to be here at Mount Miguel High School! The Matadors are truly on the move, striving for excellence and success! Go Matadors!

Sincerely yours,
Martin D. Griffin

MOUNT MIGUEL

INSTRUCTIONAL PROGRAM

We offer a full range of academic and activity programs to meet the needs of all students, and are fully accredited by the Western Association of Schools and Colleges (WASC).

Our college preparatory courses fulfill the requirements necessary for admission to universities and colleges anywhere in the U.S. We have high quality programs in vocational education, athletics, art, music, drama, science and other areas.

SCHOOL INSTRUCTIONAL PROGRAMS

CURRICULUM AND GRADUATION REQUIREMENTS
In each subject area, teachers strive to provide a curriculum that meets current demands as described in California curriculum frameworks, college guidelines, and the accreditation standards of the Western Association of Schools and Colleges. Teachers generally have considerable flexibility in planning their courses. However, major changes in courses and instructional programs typically must be reviewed and approved by District councils of teachers within the relevant discipline before being adopted by the Governing Board.

All students graduating from our school must complete the following:

- 4 years of English
- 3 years of Math
- 2 years of Science
- 1 year each of World History and U.S. History
- 1 semester each of Geography, American Government, Economics, and Life Management Skills
- 2 years of Physical Education
- 1 year of Visual/Performing Arts or Foreign Language
- Technology Foundation Requirement
- Minimum Competency Requirements

ESSENTIAL DISTRICTWIDE LEARNER RESULTS (EDLRS)

In addition, beginning with the graduating class of 2004, all graduates of the Grossmont Union High School District will be:
Effective Readers
Who receive a passing score on the California High School Exit Exam.
Competent Writers
Who receive a passing score on the California High School Exit Exam.

Beginning with the graduating class of 2005, all graduates of the Grossmont Union High School District will be:
Articulate Speakers
Who score "4" or better on the GUHSD Speech Rubric.
Quantitative Problem Solvers
Who meet or exceed a score of 70% or better on the GUHSD Geometry Program

Assessment, or pass the Standardized Testing and Reporting (STAR) Standards-Based Assessment, Geometry level or higher.

Prepared for Life-Long Learning

Who assess, apply, and connect learning to their Career Plan and personal goals as evidenced by successful completion of a Senior Project or Senior Exhibition.

In addition, the Governing Board supports the District staff encouraging participation in and facilitating the expansion of Service Learning and Internship Opportunities for students. Service Learning and/or Internship will not be a requirement for graduation at this time.

LETTER FROM THE PRINCIPAL

Nancy Peterson

Dear Parents and Community:

The staff and administration at El Capitan High School are committed to providing a positive and safe learning environment for all students. Since its opening, El Capitan has taken great pride in its accomplishments of rigorous academic achievements and extracurricular programs. El Capitan values not only high academic and behavioral standards, but encourages diverse perspective within a framework of respect. The staff will continue to build on past successes to create an educational environment where students can reach their full potential as individuals. It is the goal of the administration, with the support of an outstanding staff, to continue to work on improving relevant curricula, create programs which stress high levels of integrated skills and a mastery of technology, and expand a positive working relationship with our parents, community members, and local client schools.

The results of standardized test scores indicate that our students are consistently improving their skill levels. With a team effort of parents, community members, client schools, and staff members, we can meet the challenge of preparing our students to compete in the global marketplace. The opportunities are endless. As a current recipient of a Digital High School grant, technology is implemented across the curriculum to assist students in today's technology-driven society to be accomplished learners.

We constantly seek input from our parents and students as we work together to enhance our strengths and address areas of concerns. The education of our students needs to be a strong team effort of parents, students, community members, client schools, and staff members of El Capitan High School.

Nancy Peterson, Principal

LETTER FROM THE PRINCIPAL

Georgette Torres

Dear Parents and Community:

Granite Hills High School will focus on four main goals: Improving Student Achievement, Improving Client Services, Implementing Digital High School, and continuing to ensure School Safety. Our stakeholders have also incorporated the District EDLRs (Essential Districtwide Learner Results) into our school's ESLRs (Expected Schoolwide Learner Results). Graduates of the Class of 2004 and 2005 will have additional graduation requirements, and our staff has developed support programs to make sure all students will meet these requirements.

This year we are an official International Baccalaureate (IB) affiliate school. The International Baccalaureate program will offer a range of course study in six academic subject areas, course study in the Theory of Knowledge, independent research and analysis in an extended essay, and a community service requirement. Many diverse and prestigious educational institutions worldwide recognize this program and the education provided. Our first IB graduates will be in June 2004. In addition to the Freshman Academy, this year we have implemented the Sophomore Academy. The academies are schools within schools where additional support is given to freshmen and sophomores that have not yet realized their academic potential. A team of cooperative and collaborative teachers designs curriculum and meet regularly to plan and design activities for their students.

Students will complete SAT 9 testing, Golden State Exam tests, and Advanced Placement testing during the month of May. Every year we increase the number of students taking the Golden State and Advanced Placement exams. Granite Hills strives to improve overall student attendance every month because consistent attendance at school improves learning and grades for students.

This year, we will continue with our series of popular technology courses offered to the community. Part of our Digital High School grant, our Technology Mentors (trained staff and administrators) will teach classes in PowerPoint, Word 2000, and Internet access. There is now at least one Internet connected computer in every classroom for student use. Students and staff have heavily used and appreciate our State-of-the-art Technology Research Lab. Classes can also utilize two portable laptop labs. A telephone is now available in every classroom, and email accounts are being set up for all teachers. In addition to improving teacher/parent communication, these two features add to our overall school safety plan. Officer Tom Lloyd joins us as our School Resource Officer from the El Cajon Police Department. The curricular and facilities improvements at Granite Hills during the last five years have greatly enhanced our program. We will continue to explore new programs and improve our curriculum through grant writing and visiting successful programs in other schools. We look forward to working with you to meet the educational needs of our community.

Georgette Torres

LETTER FROM THE PRINCIPAL

Barbara Nowak

Dear Parents and Community:

The Monte Vista High School staff is committed to providing a quality comprehensive program designed to meet the diverse needs and interests of students. A wide variety of academic core, elective, and vocational courses are available to prepare students for college and the world of work. Through participation in sports, co-curricular programs, and extracurricular activities, our students develop positive interpersonal and leadership skills.

To maintain high standards and expectations for student achievement and to improve instruction, our certificated staff members attend District staff development workshops as well as conferences sponsored by educational organizations outside the District. Common Planning Time days are scheduled throughout the school year to provide time for staff members to research new programs, evaluate current practices, and to develop future plans. Our goal is to prepare students to think, learn, research, organize, analyze information, and work with others to solve problems.

To provide relevant educational experiences for all students, Monte Vista increases each year the number of multicultural titles in its library collection and the number of computers available for Internet library research. Monte Vista is the recipient of a Digital High School Grant. Every classroom will have Internet access and be equipped with computers by March, 2002. Monte Vista staffs with a credentialed teacher a 36-station Computer Resource Center which is used by all disciplines to integrate technology into the curriculum. The Homework Center in the library is open after school from 3:00pm to 6:00pm Monday through Thursday. A credentialed teacher and tutors are available to tutor students and assist with online research projects.

Monte Vista also offers a strong, comprehensive selection of Honors/Advanced Placement courses in English, Mathematics, Social Science, and Science. Monte Vista is a community of learners dedicated to maintaining a safe, positive environment where teachers can teach and students can learn. Our parents participate in PTSA, AVID, Bilingual Parents Committee, Senior Grad Night Committee, Parent Human Relations Committee, and parent booster organizations. By working together to provide academic and emotional support, teachers and parents create a positive climate for academic achievement and personal growth.

The Monte Vista Monarchs are proud of their traditions, academic achievement, athletic accomplishments, and school spirit. We are committed to continue serving the community as an outstanding comprehensive high school.

LETTER FROM THE PRINCIPAL

Karen H. Degischer

Dear Parents and Community:

The mission of Santana High School is to provide opportunities for all students to acquire knowledge and wisdom, to develop skills and attitudes, to become lifelong learners and contributing members of our society. This mission Statement, along with the Essential District wide Learner Results, provides the academic focus for our students. As you read our report card, you will see how we will achieve this mission.

Santana has been operating on the quarter system for the past six years in order to improve academic performance by students. Students are enrolled in three classes at a time, completing them before taking the next three classes; therefore, each completes six classes over the course of a year, as would students on a traditional schedule. Tutorials are offered before school, at the end of the day, and after school to help students who have been absent, who are in need of additional instruction, or to make up work or tests. Under the quarter system we have an average class size of 28 students per class, a significant reduction over traditional high schools in GUHSD. Additionally, we have improved grades in all academic areas, significantly increased our daily attendance, and accommodated more students being eligible for extracurricular activities.

We are proud of the accomplishments of our students who have been admitted to top universities such as UC Berkeley, UCLA, UCSD, USD, UC Davis, NYU and Annapolis. The quarter system supports students in the following ways:

- Teacher office hours before and after school allow students to receive the needed tutorial help from the teacher with whom they have for each class.
- Students can accelerate in academic areas; i.e., a student can take two years of a foreign language in one-year if (s)he chooses.
- Students having difficulty can repeat the course they have failed the same year instead of waiting a year.
- Students are more focused as a result of taking fewer concentrated courses at a time.

Santana High School offers a wide range of academic programs, including one of the most comprehensive selections of Advanced Placement/Honors courses in the District as well as numerous industrial/technology courses. Career paths are offered in the areas of Engineering and Technology, Arts, Communication and Media, and Health and Human Services. We are a Digital High School, which provides technology in every classroom plus training and support for students and staff. In addition to our broad academic offerings, we provide a wide range of extracurricular and athletic programs for both male and female students. We offer our students the opportunity to extend what they learn in the classroom through productions, competitions, and exhibitions.

I hope you experience as much pride in Santana High School as do the students and staff who are on the campus every day. Santana is an excellent school in an outstanding District. I feel very fortunate to be associated with a school that has been recognized as one of California's finest.

Karen H. Degischer

LETTER FROM THE PRINCIPAL

Larry Martinsen

Dear Parents and Community:

The vision of the staff and administration at Valhalla High School includes quality instruction and curriculum designed to meet the diverse needs and interests of all students. There also exists at Valhalla an ongoing commitment on the part of all stakeholders to continually assess the core curriculum to assure that, through academic offerings, the standards established by the State of California, the Essential Districtwide Learner Results, and the Valhalla Expected Schoolwide Learner Results along with our school Core Values are met.

Valhalla has received numerous awards for stellar academic programs including two California State Golden Bell Awards, Outstanding California High School Science Program, and recognition as a California Distinguished School in 2001. Our strong academic program is enhanced by a comprehensive offering of electives in co-curricular areas (Performing Arts, Yearbook, etc.), related career studies (engineering, culinary arts, computer technology, etc.) and extra-curricular (athletics) opportunities.

During the spring of 2000-01 school year our set of Core Values was reviewed and revised by staff, students, parents, and community representatives to reflect the vision and needs of the twenty-first century. This list of values, aligned with the District EDLRs, the Valhalla ESLRs, and the school's mission Statement represent the nurturing environment that we value as staff and community. These values have been reproduced and appear in all classrooms and other appropriate locations throughout the school.

Larry Martinsen, Principal

VALHALLA

INSTRUCTIONAL PROGRAM

Valhalla High School offers a full range of academic and activity programs designed to meet the diverse needs of all our students. Valhalla High School is fully accredited by the Western Association of Schools and Colleges (WASC).

Valhalla enjoys an enviable position among the District's schools when student performance on advance placement exams, CLAS results, SAT/ACT test scores, and Golden State Exam participation are measured. In all areas, Valhalla students consistently score above the District, County and State averages; and above the national average on appropriate tests.

Our college preparatory, honors, and advanced placement courses fulfill the requirements necessary for admission to universities and colleges throughout the United States. We have high quality programs in humanities, visual and performing arts, science, technology, career opportunities, and athletics.

SCHOOL INSTRUCTIONAL PROGRAMS

- Special Study Skills Program
- Work Experience Program

LETTER FROM THE PRINCIPAL

James D. Peabody

Dear Parents and Community:

The staff at West Hills High School and the Grossmont District are proud to provide you with a glimpse of the school and its programs. The data in this report card shows we are meeting our mission of graduating life-long learners who think critically, solve problems resourcefully, communicate thoughtfully, and contribute positively to society. The data included:

- Our writing scores have been the highest in the Grossmont District twelve of the last fourteen years due to the rigorous West Hills Writing Program taught in all of our English Classes.
- We also are the most successful school in the District at getting students to complete advanced courses in mathematics. Eighty-nine percent of our graduates complete Geometry and over seventy percent complete Algebra II.
- Over the last few years we have had the highest percentage gain of any school in the county on students passing Advanced Placement Exams. Over 30 percent of our junior and seniors take at least one AP exam. In addition, we had more students take AP exams in the field of Social Science then any other school in the Grossmont District.
- Thirty-eight percent of our students complete the requirements to attend the University of California and forty of our seniors decided to attend a U.C. school.
- Our freshmen class was very successful on their first attempt on the California High School Exit Exam. Sixty-four percent passed the math portion compared to 55% for the Grossmont District and seventy-two percent passed the English section.
- Our campus is clean, attractive and safe. We had the best safety ranking of any school in the Grossmont District by leading in eleven of thirteen safety indicators.
- The school has an enrollment of over 800 students whose families chose to come to the school from outside the West Hills High School attendance area.

In addition to the support from the Grossmont District we have developed a close working relationship with the City of Santee, the Santee School District and the parents of our students. Through cooperative efforts we are building an educational environment for all of the children and young adults in our community. We appreciate the leadership of our partners and hope that once you get to know the school you too will want to be involved in our mission.

James D. Peabody
Principal

WEST HILLS

INSTRUCTIONAL PROGRAM

We offer a full range of academic, activity, and community based classes that meet the needs of all students. We are fully accredited by the Western Association of Schools and Colleges (WASC). They will be validating our accreditation again next year. Our college preparatory courses fulfill all of the requirements necessary for admission to the universities and colleges within the United States. In addition, we have exemplary programs in industrial technology, athletics, music, drama, and computer technology including an Academy of Information Technology.

SCHOOL INSTRUCTIONAL PROGRAMS

CURRICULUM AND GRADUATION REQUIREMENTS

In each subject area, teachers strive to provide a curriculum that meets current demands as described in California curriculum frameworks, college guidelines, and the accreditation standards of the Western Association of Schools and Colleges. Teachers generally have considerable flexibility in planning their courses. However, major changes in courses and instructional programs typically must be reviewed and approved by District councils of teachers within the relevant discipline before being adopted by the Governing Board.

All students graduating from our school must complete the following:

- 4 years of English
- 3 years of Math
- 2 years of Science
- 1 year each of World History and U.S. History
- 1 semester each of Geography, American Government, Economics, and Life Management Skills
- 2 years of Physical Education
- 1 year of Visual/Performing Arts or Foreign Language
- Technology Foundation Requirement
- All Expected District wide Learner Results

ESSENTIAL DISTRICTWIDE LEARNER RESULTS (EDLRS)

In addition, beginning with the graduating class of 2004, all graduates of the Grossmont Union High School District will be:

Effective Readers

Who receive a passing score on the California High School Exit Exam.

Competent Writers

Who receive a passing score on the California High School Exit Exam.

Beginning with the graduating class of 2005, all graduates of the Grossmont Union High School District will be:

Articulate Speakers

Who score "4" or better on the GUHSD Speech Rubric.

Quantitative Problem Solvers
Who meet or exceed a score of 70% or better on the GUHSD Geometry Program Assessment, or pass the Standardized Testing and Reporting (STAR) Standards-Based Assessment, Geometry level or higher.

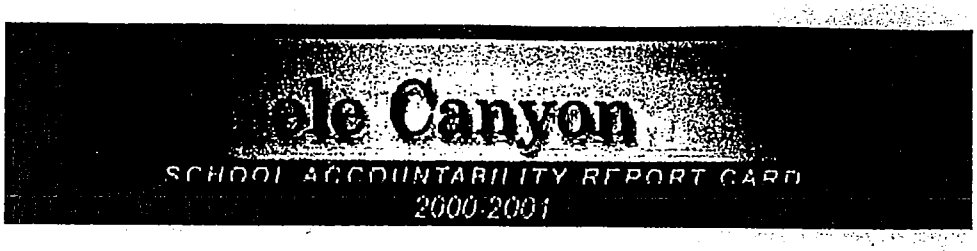
Prepared for Life-Long Learning
Who assess, apply, and connect learning to their Career Plan and personal goals as evidenced by successful completion of a Senior Project or Senior Exhibition.

In addition, the Governing Board supports the District staff encouraging participation in and facilitating the expansion of Service Learning and Internship Opportunities for students. Service Learning and/or Internship will not be a requirement for graduation at this time.

PROGRAMS TO MEET DIVERSE NEEDS

Following are examples of the programs and services we offer to supplement basic instruction. Some services are provided off campus.

- Accommodations for ADD/ADHD (Attention Deficit Order)
- Adaptive Physical Education*
- Advanced Placement/Honors
- AVID (Advancement Via Individual Determination)
- Career Employment Center
- Gifted and Talented Education
- Grossmont College On and Off Campus Program
- Health Occupation Training (ROP)
- Hearing Impaired*
- Home Schooling Options
- Homestead Program*
- Mainstreaming*
- On Campus At Risk Program
- Physically Disabled*
- Psychological Services*
- Regional Occupational Program (ROP)
- Resource Specialist Program*
- Services for Severely Emotionally Disturbed*
- Services for Non-Severely Handicapped*
- Severely Handicapped*
- Special Day Classes*
- Speech Therapy*
- Title IX
- Work Training Center*
- Twenty-nine Active Special Interest Clubs
- Special Education Programs and Services



LETTER FROM THE PRINCIPAL

Terrie Pennock

Dear Parents and Community:

Steele Canyon was founded on the belief that all students can learn and are entitled to a rigorous and relevant curriculum. It is our belief that our success as a community of learners is measured by our deeds. To that end, we promote the following school values: take care of yourself, take care of each other, take care of this place.

Steele Canyon's schedule models a university style format. Students are required to complete six classes during the school year as at other sites; however they do so by completing three courses per term (semester). This allows for smaller class size, project based instruction and accelerated learning.

Student success under a university style system begins with positive attendance. Steele Canyon had one of the highest attendance rates in the District and received monetary attendance incentives for all but two months during the 2000-2001 school year. We have received it every month to date this year.

Our students will complete SAT 9 testing, Golden State Exam tests, the California High School Exit Exam (CAHSEE) in the spring term and we will add Advanced Placement testing next year. This year over 230 students took the PSAT in October as ninth and tenth graders.

Unlike most other high schools, Steele Canyon does not offer beginning computer classes; instead technology is infused into our curriculum, enabling students to apply it to further learning. As a high technology school, we offer advanced classes through ROP such as Multi-Media Production and 3-Design/Animation. Further advanced classes will be offered as we establish our career paths.

We are proud to be breaking new ground in the development of challenging and relevant curriculum that will prepare students for the rigors of a technological society. We look forward to working with you to meet the needs of both our students and the community.

Terrie Pennock - Principal

STEELE CANYON

INSTRUCTIONAL PROGRAM

We offer a full range of academic and activity programs to meet the needs of all students, and are fully accredited by the Western Association of Schools and Colleges (WASC).

Our college preparatory courses fulfill the requirements necessary for admission to universities and colleges anywhere in the U.S. In addition, we have high quality programs in technology, applied academics, art, music, drama, athletics, and other areas.

SCHOOL INSTRUCTIONAL PROGRAMS

CURRICULUM AND GRADUATION REQUIREMENTS

Our curriculum aligns with the Grossmont Union High School District's Essential District-wide Learner Results (EDLR's) and State of California Standards. In most cases students are not advanced to the next level of instruction until they have shown competency and have met standards that have been calibrated throughout each discipline. Steele Canyon offers no courses below the college preparatory level. The rigor built into our requirements ensures that students will be afforded several options including post/secondary education/training or successful entrance into the world of work.

Our students must complete 238 credits, (18 credits more than other District schools), including a third year science requirement and successful completion of an advisory class. In addition, all tenth graders must complete a Division 1 Portfolio Exhibition and twelfth graders must complete a Senior Project utilizing technology as part of their graduation requirement.

All students graduating from our school must complete the following:

- 4 years of English
- 3 years of Math
- 3 years of Science
- 4 years of Social Science
- 2 years of Exercise and Nutritional Safety (ENS)
- 1 year of Visual/Performing and 2 years of Arts or Foreign Language
- Minimum Competency Requirements (EDLRS & CAHSEE)
- 4 years of Advisory Class **ESSENTIAL DISTRICTWIDE LEARNER RESULTS (EDLRS)**

In addition, beginning with the graduating class of 2004, all graduates of the Grossmont Union High School District will be:

Effective Readers

Who receive a passing score on the California High School Exit Exam.

Competent Writers

Who receive a passing score on the California High School Exit Exam.

Beginning with the graduating class of 2005, all graduates of the Grossmont Union High School District will be:

Articulate Speakers
Who score "4" or better on the GUHSD Speech Rubric.
Quantitative Problem Solvers
Who meet or exceed a score of 70% or better on the GUHSD Geometry Program Assessment, or pass the Standardized Testing and Reporting (STAR) Standards-Based Assessment, Geometry level or higher.
Prepared for Life-Long Learning
Who assess, apply, and connect learning to their Career Plan and personal goals as evidenced by successful completion of a Senior Project or Senior Exhibition.

In addition, the Governing Board supports the District staff encouraging participation in and facilitating the expansion of Service Learning and Internship Opportunities for students. Service Learning and/or Internship will not be a requirement for graduation at this time.

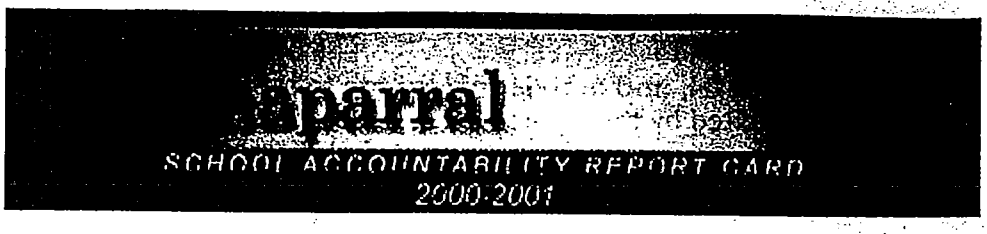
- Tutorial Classes (after school)
- Work Training Center*
- *Special Education Programs and Services



LETTER FROM THE PRINCIPAL

Dr. Mark Lindsay

Dear Parents and Community Members:

Chaparral High School is the "hub" of the Grossmont District's Alternative Education Program. Students come to Chaparral for a chance at a new beginning. They are here to focus on their education, their growth toward adulthood, and their future. Since each student accomplishes these goals in a different way, we offer several paths for students to attain them.

Students that attend our school have their transcripts analyzed to ensure that they follow a path appropriate to their immediate and long-range needs. As students become oriented to the school, and attend five to seven classes, they are given the opportunity to take a battery of aptitude tests to determine areas of interest and talent. They are then exposed to a short curriculum of job-ready skills including completing an application, dressing for success, and interviewing. Once students have completed this series, they are eligible to participate in several job-shadowing experiences. If a student should find a particular field of interest, he/she can become an intern in that field and receive course credit.

If the day program at Chaparral is not meeting the student's needs, the student can be placed in other alternative programs. The first of these is a six to eight-week Independent Study program. This program can serve as a bridge to a full class schedule for those students who have not been attending school on a regular basis. In addition, we offer a Graduate Equivalency Diploma preparation course that allows students to prepare for their GED examination. Students may also opt for an ongoing Independent Study Program through Phoenix High School.

We know there is no right way for all students to reach their goals and have success in school. Understanding this, we are here to provide alternatives and to ensure success for those who may see the world differently, or choose to accept the challenges of education in a different environment. Our goal is student success.

D. Mark Lindsay, Ed.D.
Principal

CHAPARRAL

INSTRUCTIONAL PROGRAM

We offer academic, vocational, and activity programs to meet the needs of our students, and are fully accredited by the Western Association of Schools and Colleges (WASC). Chaparral's program is designed so that students may graduate at one of the Grossmont District's comprehensive high schools or at Chaparral. Our college preparatory courses fulfill the requirements necessary for admission to universities and colleges anywhere in the U.S.

SCHOOL INSTRUCTIONAL PROGRAMS

CURRICULUM AND GRADUATION REQUIREMENTS

In each subject area, teachers strive to provide a curriculum that meets current demands as described in California curriculum frameworks, college guidelines, and the accreditation standards of the Western Association of Schools and Colleges. Teachers generally have considerable flexibility in planning their courses. However, major changes in courses and instructional programs typically must be reviewed and approved by District councils of teachers within the relevant discipline before being adopted by the Governing Board.

All students graduating from our school must complete the following:

Who assess, apply, and connect learning to their Career Plan and personal goals as evidenced by successful completion of a Senior Project or Senior Exhibition.

In addition, the Governing Board supports the District staff encouraging participation in and facilitating the expansion of Service Learning and Internship Opportunities for students. Service Learning and/or Internship will not be a requirement for graduation at this time.

ALTERNATIVE OPTIONS FOR MEETING CREDIT REQUIREMENTS
R.O.P. Construction is an occupational education program designed to provide on-the-job training and related instruction for students preparing for a job or career in the building industry. Students will be trained for jobs such as framing, installing drywall, and general construction.

A general group of business courses is offered in our new "Carl Perkins" lab. Students learn the use of computers in business applications, including spreadsheets, databases, and communications.

Art classes teach students varied art mediums from the basic principles of art to mural painting. Reconnecting Youth is an elective course offered to help students to get back on track with attendance, academies, and behavioral issues.

PROGRAMS TO MEET DIVERSE NEEDS

- Work Training Center*
- *Special Education Programs and Services

HOMESTEAD PROGRAM

Homestead program serves special education students with severe behavior/emotional needs who may also demonstrate significant learning disabilities. The program is located in Santee and offers a highly structured behavior management system with the opportunity for frequent staff contact, intervention, and support. Individual and small group student counseling services are available. Homestead is designed as an adjustment program with a primary goal of having students return to their local high school site.

FRONTIER DAY TREATMENT

Frontier Day Treatment program is operated jointly by County Mental Health and the Grossmont Union High School District. It serves 7th through 12th grade students who have been assessed by County Mental Health through AB 2726 as needing day treatment services. Individual, group, and family counseling are an integral part of the students' school day along with required courses for middle school and high school graduation. Psychiatric services are also provided at the center which is located next to *Homestead* in Santee.

WORK TRAINING CENTER

Work Training Center (WTC) is located in El Cajon, and provides vocational and educational services to qualified students in the Grossmont High School District. It offers a regionalized transition program for students with developmental disabilities ages 18-21. WTC also has a district resource program where students with mild or severe needs can work on their vocational skills and abilities.

RESOURCE SPECIALIST PROGRAM (RSP)

This program serves students who the individualized education program (IEP) team has determined require the services of a special education teacher for *up to half of the school day* in order to benefit from their educational program. A maximum of 28 students may be assigned to each full-time resource specialist program (RSP) teacher. RSP services are available at all of the district's comprehensive high school sites. Depending on the particular needs of the student, RSP services may include:

* ***Consultation*** with general education teachers to assist in developing instructional accommodations and behavioral interventions which allow students with special education needs to benefit from their general education classes.

* ***Monitoring*** of special education students through appointments, weekly progress reports, and/or school-home communication.

* ***Instructional support*** provided by the resource specialist or instructional aide to help special education students progress in their general education classes by assisting with the understanding of assignments and information being presented, and modifying work to accommodate students' special needs.

* ***Team teaching*** in which the resource specialist and a general education instructor teach a class together that includes both general and special education students.

* ***Special education classes*** taught by the resource specialist with the assistance of an instructional aide for students who need individualized instruction and small group structure along with curriculum and instructional modifications.

DESIGNATED INTSTRUCTION & SERVICES

Designated instruction and services (DIS) are *specialized related services* which have been determined by the individualized education program (IEP) team to be necessary for the student to benefit from his or her educational program. These services are availabe at all of the comprehensive high schools and special education centers (see DIS Personnel Directory at bottom of this section). Designated instruction and services are listed on the IEP and are reviewed yearly at the annual review meeting. The IEP team also determines the frequency, duration and location of each service.

* ***Adapted Physical Education (APE)*** provides individualized physical education activities for students who cannot be served by the general or modified physical education program. Adaptive PE services are provided every other year on each high school campus.

Kim Adler All sites except those listed below (Cell: 247-7228)
John Odom Valhalla 401-4200
Carolyn Stathas West Hills 596-3600
VanHook Don: Helix 644-8200

* ***Audiological Services*** such as aural rehabilitation, monitoring of hearing levels

and auditory equipment are provided to students as required on their IEP through the East County SELPA audiologist. East County SELPA Audiologist: 590-3920

* ***Health and Nursing Services*** such as tube feeding, catheterizations, etc. are monitored by our district nurses. In addition, they provide training for the staff that perform these services. Our district nurses oversee the LVN's that administer medications and monitor blood sugar levels at local sites. When needed, the district nurses complete health assessments (including vision and hearing screenings) on studentís referred for initial special education evaluations or reevaluations of students already receiving services.

Snyder, Marilyn: (4-8115, X284) (01, 02, 04, 05, 10, 11, Chap., Hstd.) (Cell: 247-7028)

* ***Independent Study*** serves those special education students who have not been successful in being integrated in the traditional school day format. It is a short-term program and courses are limited to basic academic graduation requirements. The Independent Study teacher meets with students in small groups once a week, on or off-campus. Students are normally enrolled in two classes at a time and when a student successfully completes 70 hours of instruction in each class, credit is issued and a new course can be given. The student continues to be enrolled at his/her home school with the goal being to reintegrate at a logical sequence in the year.

401-4300 ext. 244
Lucy Ling
Terry Underwood

* ***Individual Home/Hospital Instruction*** may be provided at home or in a hospital for students who cannot be served through an on-school site special education program due to physical and/or emotional needs. Placement for special education students on Home/Hospital Instruction is an IEP decision. The program is normally considered if the student is expected to be absent from school for a minimum of four weeks; or if the condition is chronic; or there is an injury causing permanent damage. If placement is for medical reasons, a doctor needs to complete the *Physician's Statement Form*. In addition, a student may be placed on Home/Hospital Instruction if the IEP team decides that the student, due to emotional or behavioral reasons, needs this setting. Students can receive up to 5 hours of instruction per week. This placement is reviewed every semester.

* ***Orientation and Mobility*** is provided for students that have been identified as needing this service by the IEP team. These services can range from direct instruction for the visually impaired on how to use a cane to providing consultation services to a special education teacher on how to instruct a student in the use of public transportation. Lorna Berliner (Pager 982-2722)

* ***Physically Handicapped (PH-DIS)*** services are available for students who have significant physical or health problems which adversely affect educational performance and require more support and intervention than can be provided through a 504 Accommodation Plan. These students usually remain in the general education program with services provided by the PH-DIS Liaison. Services may include: monitoring of progress in classes with consultation services to staff, tutoring, special materials and/or equipment, modification of school day, special transportation, no grade penalty for health related absences if make-up is done in a timely manner, and facilitation of a referral to *Individual Home Instruction* if the studentís physical condition appears to require a long period of time away from the comprehensive high school campus.

Powell, Tim (05, 06, 08, 09) (Cell: 247-6928)

* ***Physical and/or Occupational Therapy*** are normally provided by *California Childrenís Services (CSS)* for those students who are active to that service. For some students, their PT/OT needs are met by a private therapist with whom Grossmont District has contracted services. Physical therapists and occupational therapists can assess students and provide consultation services to our teachers to meet the student's needs as identified by the IEP team.

* ***Speech and Language*** services are available to assist students in developing improved communication and language skills. Speech and language pathologists are assigned to all schools and special education programs in the district. Services are determined by the IEP team and may include assessment, consultation, collaboration with teachers or direct therapy for articulation, receptive/expressive language, voice, or fluency.

* ***Vocational Services and Projects*** The Grossmont District Special Education Career Center (SECC) assists students with disabilities who require vocational services not available at their local school. SECC manages the Transition Partnership Project (TPP), Work Ability Program, and the
Community Work Experience Program for students with severe disabilities. SECC also offers an afternoon Work Adjustment Class.

Special Education Career Center (SECC) department staff provide:
* job coaching
* job development
* vocational screening
* referral to community agencies and services such as Regional Occupation Programs, Department of Rehabilitation, and San Diego Regional Center for the Developmentally Disabled

The Special Education Career Center is located at 230 Jamacha Road, El Cajon, CA 92019, 401-4344. Any vocational services provided to a special education student by the SECC are listed on the IEP.

401-4344
Bob Endres, Glen Maxion, Bonnie Sumner

SPECIAL DAY CLASS

Students with educational needs that require special education services for *more than half of their school day* are served through the special day class (SDC) program. The same services offered through the resource specialist program (RSP) are available from the special day class teacher on a more comprehensive level with special education being provided in three or more of the student's classes during the school day.

There are special day class programs available at all ten Grossmont District high schools with some schools offering additional "regional" programs for students needing highly specialized educational services and instruction.

CHAPARRAL SPECIAL EDUCATION PROGRAM

Chaparral Special Day Class program is designed to serve special education students who have demonstrated significant adjustment difficulties on their general high school campus and have been referred to Chaparral High School as an alternative placement by the IEP team. Students in the special education program at Chaparral move through a structured level system designed to help them acquire appropriate school behaviors and decision making skills so that they may return to their comprehensive high school campus. Chaparral High School is located in El Cajon.

4.0 Analysis of Sites

The District contracted with consultants to prepare a facilities needs analysis at each school site. The facility needs were identified by the following sources:

- Inventory of school site by consultants
- Analysis of school site based on the School Board criteria
- Code / legal requirements
- School Site Committee
- Facility Steering Committee
- Five-year Deferred Maintenance Plan
- District Technology Plan
- Analysis of demographics reports, enrollment forecasts and existing school capacities
- ADA requirements
- OCR requirements

The analysis documented the needs at each school site. Costs for the improvements required at each site were identified and summarized in the estimate associated with each site

4.1 Executive Summary

With the successful passage of a bond in 2002, the Grossmont Union High School District will receive much-needed General Obligation Bond proceeds. These funds will enable the District to modernize 15 schools and build one new high school to support the educational program, upgrade the facilities and accommodate the anticipated growth over the next 8-10 years. This Implementation Plan document has a two-fold purpose. First, it establishes a master program outline to define the scope of work and relative priorities of the Grossmont Union High School District Facility Program. Second, it is a guideline to evaluate, over time, the forward progress and costs expended during the preparation and execution of the projects at each of the District's sites.

Perhaps the most critical issue facing the District is the age of it's facilities and the current overcrowded conditions on three-quarters of the campuses. The School Facilities Needs Analysis Study completed by Schoolhouse Services on June8, 2001 anticipates a growth of 572 students district-wide, in the next 5 years. This does not seem significant in a district with enrollments of over 29,000 students except that the study indicates there are only enough facilities for 21,834 students. The enrollment numbers include the alternative and adult programs as well.

Twelve of the fifteen District schools have been identified as being eligible for state modernization funding. To date only El Cajon High School has received and used these funds to upgrade their facilities. Even with this upgrade project, however, El Cajon HS has buildings and facilities that qualify for additional state renovation funds. To become a part of this state program, the district is required to match funds approved. This has never been possible in the past and has resulted in aging facilities that require extensive upgrades.

Two years ago the District contracted several architectural firms to review and identify with Site Committees, issues that required renovation on each campus. It then established a Facilities Steering Committee, a broad based group including District staff, site representatives, teachers and community members, which evaluated numerous factors and recommended a strategy, submitted in this book, to address growth and the large number of aging schools.

Key issues were reviewed with respect to phasing, priorities and cost. Phasing issues considered strategies of sequencing projects over time to minimize impact on the instructional programs, sites, staff and community. Phasing also includes addressing critical issues on each campus as soon as the bond is passed. Subsequent phasing for modernization and construction will require documentation and agency review and approvals. The phasing plan addresses schools with the most critical needs, including the oldest buildings, first, and then phasing the work district-wide for equity. After

several site reviews it was determined that all schools had some major issues, even the newer ones.

All unit costs identified within the past two years have been updated and include escalation costs tied to the year in which each of the schools is proposed for renovation. Other expenditures include interim housing, engineering costs, program management, bond issuance costs, and a district-wide contingency.

Prioritizing Issues

- School security; lighting & systems
- New classrooms to replace relocatable classrooms
- State-of-the-art High School science Labs
- Larger and state-of-the-art Library/Media Centers
- Career Centers
- Upgraded HVAC/Windows & energy savings
- Lighting replacement & energy savings
- Power Upgrades
- Removal of hazardous materials
- Repainting interior and exterior of all buildings
- New Furniture
- Replacement of flooring/carpet
- Major toilet room renovations and additions
- Technology wiring and infrastructure
- Code compliance and accessibility issues
- New School to reduce overcrowding
- Site additions as required to support educational programs

4.2 Grossmont High School

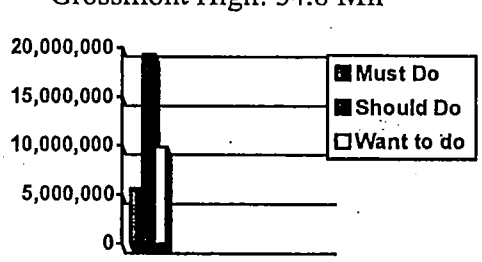
SUMMARY

Grossmont High School opened in 1939 and is the district's oldest school. It is located on a 69-acre site, has just over 219 thousand square feet of building space and has 80 classrooms of which 5 are relocatable structures. The District's Special Education administration offices and the main District Offices, including transportation, maintenance, planning and operations are on the school's campus. The October 2001 CBEDS shows that the school's current enrollment is 2,148 students. The facilities survey prepared for this master plan update shows that approximately 35 million dollars is needed to upgrade the school.

Grossmont High School is eligible for approximately 5 million dollars of modernization funds under the state school building program. However the District cannot gain access to the funding without the necessary matching dollars.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of 34.8 Million dollars out of 375 Mill District need
    - Must do: 5.6 Mil
    - Should Do: 19.4 Mill
    - Want to do: 9.8 Mill



- **Typical Improvement Issues:**
  - Code Required Upgrades: Doors, Hardware, Thresholds, Access, Signage
  - Fire Alarm and Communication Upgrades
  - System Upgrades such as Security Lighting & Parking Lot Lighting
  - Furniture & Equipment, Bleachers
  - Classroom Modernization: Flooring, Ceiling Tiles, Wall Surfaces, Teaching Walls, Interior Painting
  - Restroom Improvements
  - Science Lab Improvements
  - Site Upgrades such as, Drainage, Irrigation & Landscaping
  - Re-roofing, Air-conditioning and Electrical Upgrades

List of Priorities by Site Committee

1. Convert old Gym to Theater
2. Paint interior of all buildings
3. Replace old windows at Art & Science & Old Main Classrooms
4. Install phones in every classroom
5. Install TV and CATV wiring in all classrooms
6. Install air conditioning in every classroom
7. Code Upgrades
8. Power Upgrades
9. Digital HS Improvements

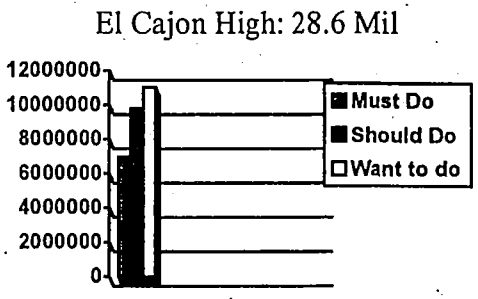
4.4 El Cajon High School

SUMMARY
El Cajon Valley High School was constructed in 1955 and is one of the district's older schools. It is situated on 47 acres, has 83 classrooms of which 12 are relocatables, and has over 197 thousand square feet of building area. The October 2001 CBEDS has the school's enrollment listed at 2,308 students. The facility survey prepared for this master plan show that the school would need over 27 million dollars worth of improvements to upgrade its facilities.

El Cajon Valley is eligible for 3 million dollars of modernization funds under the state school building program. However the District cannot gain access to the funding without the necessary matching dollars.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of 28.6 Million dollars out of 375 Mill District need
    - Must do: 6.9 Mil
    - Should Do: 11 Mill
    - Want to do: 10.7 Mill



- **Typical Improvement Issues:**
  - Code Required Upgrades: Doors, Hardware, Thresholds, Access
  - Fire Alarm and Communication Upgrades
  - System Upgrades such as Security Lighting & Parking Lot Lighting
  - Furniture & Equipment, Bleachers
  - Classroom Modernization, and Science Room Renovation
  - Non DSA Approved Relocatable Replacements and Bathroom Upgrades
  - Site Upgrades such as, Drainage, Irrigation & Storm Systems
  - Re-roofing, Air-conditioning and Electrical Upgrades

List of Priorities by Site Committee

1. Upgrade existing restrooms - complete remodel
2. Upgrade door hardware
3. Replace drinking fountains
4. Replace gym bleachers
5. New classroom furniture
6. New ice machine for Girls Locker Room
7. Replace windows
8. Paint
9. Air conditioning all classrooms
10. Replace master clock system
11. Upgrade power - more outlets
12. Upgrade site electrical feeders
13. Code Upgrades

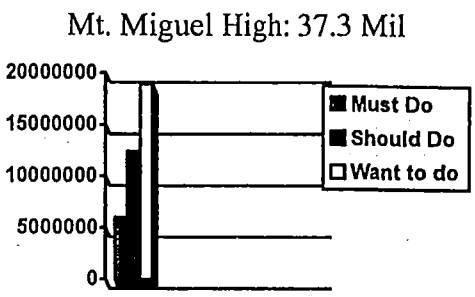
4.5 Mt. Miguel High School

SUMMARY
Mount Miguel High School was constructed in 1957. It is situated on 44 acres, has 83 classrooms of which 12 are relocatables, and has over 190 thousand square feet of building area. The October 2001 CBEDS has the school's enrollment listed at 2,112 students. The facility survey prepared for this master plan show that the school would need over 37 million dollars worth of improvements to upgrade its facilities.

Mount Miguel is eligible for over 4.9 million dollars of modernization funds under the state school building program. However the District cannot gain access to the funding without the necessary matching dollars.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of 37.3 Million dollars out of 375 Mill District need
    - Must do: 5.8 Mil
    - Should Do: 14.0 Mill
    - Want to do: 17.5 Mill



- **Typical Improvement Issues:**
  - Code Required Upgrades: Doors, Hardware, Thresholds, Access
  - Fire Alarm and Communication Upgrades
  - System Upgrades such as Security Lighting & Parking Lot Lighting
  - Furniture & Equipment, Bleachers
  - Classroom Modernization
  - Site Upgrades such as, Drainage, Irrigation & Storm Systems
  - Re-roofing, Air-conditioning and Electrical Upgrades

List of Priorities by Site Committee

1. Boiler – Radiant Heat (AC) Upgrade/Replace
2. Electrical Upgrade
3. Lockers – New (Paint)
4. Lighting in Classrooms
5. Ceilings in Classrooms
6. Flooring in Classrooms Tile/Carpet
7. Restrooms Remodel/Upgrade
8. Stadium Bleachers Replaced
9. Exterior Lighting
10. Track at Stadium Refurbished

4.6 El Capitan High School

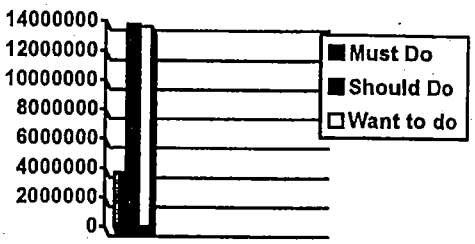
SUMMARY

El Capitan High School was constructed in 1959. It is situated on 50 acres, has 77 classrooms of which 13 are relocatables, and has over 188 thousand square feet of building area. The October 2001 CBEDS has the school's enrollment listed at 2,134 students. The facility survey prepared for this master plan show that the school would need over 31 million dollars worth of improvements to upgrade its facilities.

El Capitan is eligible for 5 million dollars of modernization funds under the state school building program. However the District cannot gain access to the funding without the necessary matching dollars.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of 30 Million dollars out of 375 Mill District need
    - Must do: 3.0 Mil
    - Should Do: 15.3 Mill
    - Want to do: 11.8 Mill



- **Typical Improvement Issues:**
  - Code Required Upgrades: Doors, Hardware, Thresholds, Access
  - Fire Alarm and Communication Upgrades
  - System Upgrades such as Security Lighting & Parking Lot Lighting
  - Furniture & Equipment, Bleachers
  - Classroom Modernization, and Science Room Renovation
  - Site Upgrades such as, Drainage, Irrigation & Storm Systems
  - Re-roofing, Air-conditioning and Electrical Upgrades

List of Priorities by Site Committee

1. Multi Purpose Facility
2. Upgrade Science Labs
3. HVAC/Window Systems/Energy Savings
4. Replace Flooring/Carpet
5. Safety/Code Entrance
6. Repair Interior/Exterior
7. Lighting Replacement/Energy Savings
8. New Furniture
9. Renovate Toilet Rooms
10. Security Lighting
11. Site Discretionary Items
12. New Classroom to Replace Relos
13. Power Upgrade
14. Upgrade Libraries
15. Career Centers
16. Remove Lead Paint/Asbestos
17. Technology Wiring/Infrastructure
18. New School #12

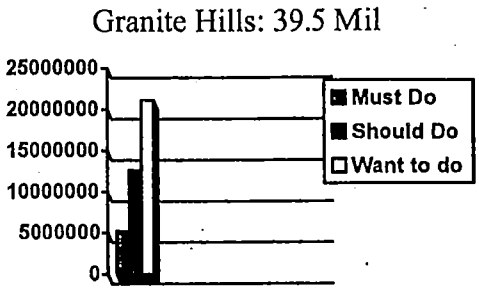
4.7 Granite Hills High School

SUMMARY
Granite Hills High School was constructed in 1960 and is one of the district's older and most crowded schools. It is located on a 65-acre site, has 102 classrooms, of which 47 are relocatables, and has over 198 thousand square feet of building area. The October 2001 CBEDS shows that the school's enrollment is at 2,788 students. The facilities survey shows that over 38 million dollars is needed to upgrade the school.

Granite Hills is eligible for over 5.2 million dollars of modernization funds under the state school building program. However the District cannot gain access to the funding without the necessary matching dollars.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of 39.5 Million dollars out of 375 Mill District need
    - Must do: 5.2 Mil
    - Should Do: 14.5 Mill
    - Want to do: 19.8 Mill



- **Typical Improvement Issues:**
  - Code Required Upgrades: Doors, Hardware, Thresholds, Access
  - Fire Alarm and Communication Upgrades
  - System Upgrades such as Security Lighting & Parking Lot Lighting
  - Furniture & Equipment, Bleachers
  - Classroom Modernization
  - Science Lab Improvements
  - Site Upgrades such as, Drainage, Irrigation & Storm Systems
  - Re-roofing, Air-conditioning and Electrical Upgrades

List of Priorities by Site Committee

1. HVAC/Window Systems/Energy Savings
2. Repair Interior/Exterior

4.8 Monte Vista High School

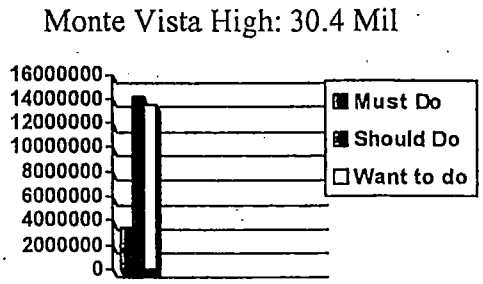
SUMMARY

Monte Vista High School was constructed in 1961. It sits on a 45-acre site, has 78 classrooms, nine of which are relocatables, and has over 182 thousand square feet of building area. The October 2001 CBEDS shows that the school has 2,143 students.

The facilities survey that was prepared for the school shows that over 30 million dollars will be required to upgrade the site. The school is eligible for approximately 4.7 million dollars of modernization funds under the state school building program. However the District cannot gain access to the funding without the necessary matching dollars.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of 30.4 Million dollars out of 375 Mill District need (8.2%)
    - Must do: 3.6 Mil
    - Should Do: 14.2 Mil
    - Want to do: 12.6 Mil



- **Typical Improvement Issues:**
  - Code Required Upgrades: Doors, Hardware, Thresholds, Access, Signage
  - Fire Alarm and Communication Upgrades
  - System Upgrades such as Security Lighting & Parking Lot Lighting
  - Furniture & Equipment, Bleachers
  - Classroom Modernization: Flooring, Ceiling Tiles, Wall Surfaces, Teaching Walls, Interior Painting
  - Restroom Improvements
  - Science Lab Improvements
  - Site Upgrades such as, Drainage, Irrigation & Landscaping
  - Re-roofing, Air-conditioning and Electrical Upgrades

List of Priorities by Site Committee

4.9 Santana High School

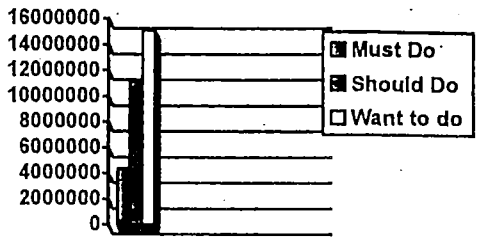
SUMMARY
Santana High School was constructed in 1965. It sits on a 42-acre site, has 74 classrooms, 26 relocatables and over 204 thousand square feet of building area. The October 2001 CBEDS shows that the school has 1,886 students.

The facilities survey that was prepared for the school shows that over 30 million dollars will be required to upgrade the site. The school is eligible for over 4.2 million dollars of modernization funds under the state school building program. However the District cannot gain access to the funding without the necessary matching dollars.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of 30.6 Million dollars out of 375 Mill District need
    - Must do: 4.4 Mil
    - Should Do: 11.1 Mil
    - Want to do: 15.1 Mil

Santana High: 30.6 Mil



- **Typical Improvement Issues:**
  - Code Required Upgrades: Doors, Hardware, Thresholds, Access, Signage
  - Fire Alarm and Communication Upgrades
  - System Upgrades such as Security Lighting & Parking Lot Lighting
  - Furniture & Equipment, Bleachers
  - Classroom Modernization
  - Restroom Improvements
  - Science Lab Improvements
  - Site Upgrades such as, Drainage, Irrigation & Landscaping
  - Re-roofing, Air-conditioning and Electrical Upgrades

List of Priorities by Site Committee

1. Code Upgrades
2. Air Conditioning
3. New Performing Arts Center with Drama Classroom
4. Power Upgrades
5. Flooring
6. Paint Interior Clasrroms
7. Technology Upgrades

4.10 Valhalla High School

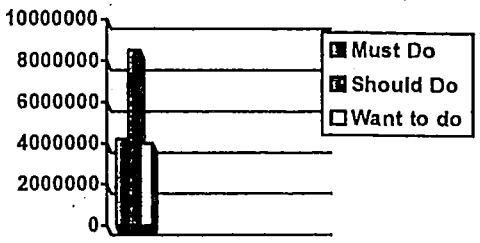
SUMMARY
Valhalla High School was constructed in 1974. It has 76 classrooms, of which 10 are relocatables, and is situated on a 68-acre site. The school has over 206 thousand square feet of building area. The Viking Center, a special education facility for severely handicapped children, shares the property with the high school. The facilities needs survey shows that over 16 million dollars is needed to upgrade Valhalla High School.

Valhalla is eligible for over 4.8 million dollars of modernization funding under the state school building program, but the school cannot gain access to the money without the necessary matching dollars.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of 17.3 Million dollars out of 375 Mill District need
    - Must do: 4.3 Mil
    - Should Do: 9.1 Mill
    - Want to do: 3.8 Mill

Valhalla High: 17.3 Mil



- **Typical Improvement Issues:**
  - Code Required Upgrades: Doors, Hardware, Thresholds, Access
  - Upgrade Intercom and Fire Alarm Systems
  - System Upgrades such as Security Lighting & Parking Lot Lighting
  - Classroom Furniture
  - Classroom Modernization
  - Restroom Improvements
  - Improve Site Drainage
  - Upgrade Site Electrical and Bell Systems

List of Priorities by Site Committee

1. Library and Culinary Arts Completion
2. Construction of New Band Room
3. Move Weight Room into Existing Band Room
4. Science Expansion and upgrades
5. Waterproof and Reconfigure for Storage and Classrooms
6. Reconfigure traffic Patters and Parking Lots
7. Code Required upgrades

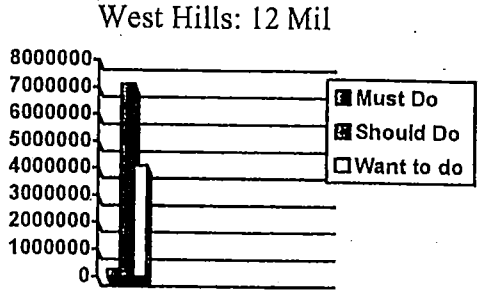
4.11 West Hills High School

SUMMARY
West Hills High School was constructed in 1987 and is one of the district's newest schools. As such it is not eligible for modernization under the state school building program. The school is located on a 76-acre site and over 211 thousand square feet of building area. It has 84 classrooms, of which 10 are relocatables. The October 2001 CBEDS shows that the enrollment at the site is 2,315 students.

The facilities need survey prepared for this school has identified over 11 million dollars worth of needs.

Long Range Facilities Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of 12 Million dollars out of 375 Mill District need (3%)
    - Must do: 0.244 Mil
    - Should Do: 7.5 Mill
    - Want to do: 4.4 Mill



- **Areas expected to be covered by the bond are:**
  - Code Required Upgrades: Doors, Hardware, Thresholds
  - System Upgrades such as Security Lighting & Parking Lot Lighting
  - Furniture & Equipment, Basketball Backstops
  - Renovate the Auto Shop Building
  - Science Lab Improvements
  - Site Upgrades such as, Drainage, Irrigation & Storm System
  - Add Ancillary Parking Area

List of Priorities by Site Committee

1. Basketball Backstops
2. Storage for Stage Props
3. P. E. Classroom
4. Revise Goyer PAC-Access to Toilet Rooms
5. Upgrade Stage Prop Doors
6. Corridor Access to Training Room
7. Support Area for Wrestling, Weightlifting & Dance
8. Permanent Walls between Support Rooms & Gym
9. Remove Fireplace at Library
10. Library Stack
11. Textbook Storage
12. Reconfigure Home Economics
13. Revise Science Classroom Casework
14. Renovate Auto Shop Building
15. Add Pool, Team Room, Toilet/Dressing Rooms & Bleachers
16. Add Concession Facility, Toilet Rooms & Bleachers
17. Add Athletic Equipment Storage at Field Areas
18. Relocate Bike Racks, Trash & Recycling Dumpsters w/Screen Wall
19. Upgrade Site Drainage, Irrigation & Storm Systems
20. Add Ancillary Parking Area
21. Relocate "Live-on" Security Trailer
22. Security Lighting from Park to Stadium
23. Renovate Greenhouse Ventilation

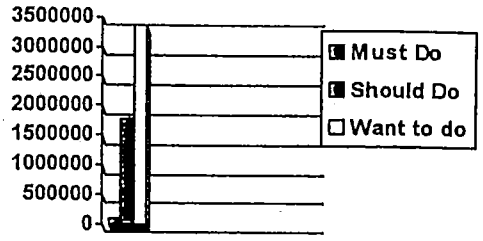
4.12 Steele Canyon High School

SUMMARY
Steele Canyon is the District's newest high school and is not eligible for modernization under the state school building program. The school is located on a 46-acre site. It has 72 classrooms, of which 22 are relocatables. The October 2001 CBEDS shows that the enrollment is at 1,944 students. The school was constructed to accommodate over 2,000 students, and it is adding a grade level per year until a full 4-year program is in effect. The result is that the school is operating at a little over half capacity.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of ~~6.3~~ 5.2 Million dollars out of 379 Mill District need ~~(7.32%)~~
    - Must do: 80 Thousand
    - Should Do: 1.8 Mill
    - Want to do: 3.3 Mill



- **Major areas identified in the LRFMP Survey:**
  - Upgrade Telephone Systems
  - Athletic Field Improvements
  - Track Improvements
  - Lighting and Fencing Improvements
  - 25 Meter Pool (identified by the site staff)

List of Priorities by Site Committee

1. Bleacher @ Football & Track
2. Stadium Scoreboard
3. Dugout/Batting Cages at Baseball & Softball Fields
4. Bleachers at Baseball, Softball & Pool
5. 25 Meter Pool w/Diving Pool & Support Facilities
6. Stadium Lighting

4.13 Chaparral High School

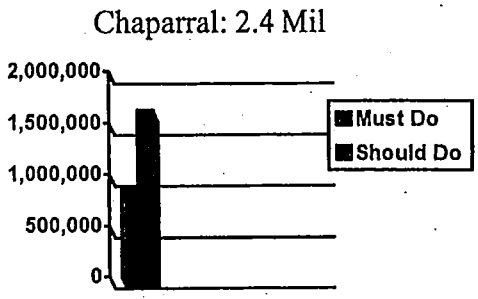
SUMMARY

Chaparral High School. It was built in 1973; has 24 classrooms, over 24,000 square feet of building area and is eligible for approximately 278,755 state modernization funding. The school cannot gain access to the funding until the District can make its local match contribution.

Approximately 55 students annually attend the Viking Center.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of 2.4 Million dollars
    - Must do: $865,537
    - Should Do: 1.6 Million dollars



- **Major Areas Identified in the LRFMP Survey:**
  - Code Required Upgrades: Doors, Hardware, ADA improvements
  - HVAC Improvements
  - Telephone & Wiring Upgrades
  - Lighting
  - Site Electrical, and Computer Data
  - Painting
- **List of Priorities by Site Committee**
  1. Restroom Upstairs
  2. Covered Eating Area
  3. Paved parking Upstairs
  4. Back door to Classrooms
  5. Science lab Updating – Green Houses
  6. Covered R.O.P. area – Additional R.O.P. classes
  7. A.D.A. compliance issues – front of school
  8. Need CATV

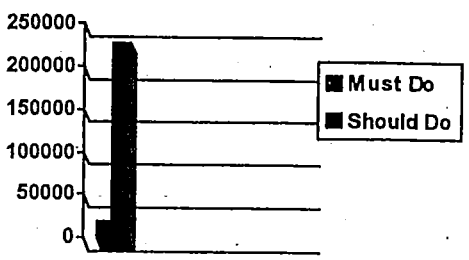
4.14 Homestead/Frontier Facility

SUMMARY
The Homestead & Frontier site is unique in that it is a joint use program between the County of San Diego and the Grossmont Union High School District. It services the special education needs of the District. Because the land is leased and not owned by the District, Frontier and Homestead are not eligible for state modernization funding. To be eligible for funds, the term of the lease would have to be for at least 40 years.

Homestead has 8 teaching stations, is housed in over 9,000 square feet of building area. Frontier has 3 teaching stations and administration office and is housed in over 4,000 square feet of building area. All the buildings on the 2.87-acre site are relocatable.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of $247,470 dollars
    - Must do: $19,403
    - Should Do: $228,067



- **Major areas identified in the LRFMP Survey:**
  - ADA Path of Travel
  - New Classroom Furniture
  - Modernization of Classrooms
  - Close Existing Patio to Replace Wood Shop
  - Painting

List of Priorities by Site Committee

4.16 Work Training Center

SUMMARY

The Work Training Center offers a unique learning environment for the District's special education community. It incorporates hands on job skills training with education courses.

The facilityhas several small classrooms but only 5 that meet the state standard of 960 square feet. The building was constructed in 1974, and the structure is over 24,000 square feet in area. The 2001/2002 school year enrollment is 52 students.

The center is eligible for 263,000 of state modernization funding; however access cannot be attained until the District can provide local matching funds.

Long Range Facility Master Plan Highlights:

- **Long Range Facility Master Plan Survey**
  - Identified Need of $634,000 Million dollars

Budget $350,000	Phase 4	Phase 5

5 Implementation Plan

5.1 Implementation

This Long Range Facilities Master Plan Update focuses on the specific facility needs (modernization, reconstruction and new construction) of the District, where as the 1988 Master Plan focused on forecast enrollment and the need for new or expanded facilities. The recommendations identified in the 1988 plan were taken and a new school was constructed; also where necessary, portable classrooms at existing schools were used to increase capacity.

Limited financial resources have precluded the District from making significant inroads in the modernization of existing schools. The last general obligation bond approved by the voters occurred 15 years ago and there has been no significant infusion of funds for modernization and classroom reconstruction since. The years of significant enrollment increases and wear and tear have taken their toll on the school buildings. In the mid 1990's an attempt to pass a general obligation bond failed to attain the sixty-six plus percent approval rate.

The District does collect developer impact fees, but these fees - by law - can only be used for new construction. Likewise, the District receives a limited amount of redevelopment dollars, but these funds have already been earmarked to assist in the payment of two certificates of participation. The combined debt service of these notes is approximately 1.8 million dollars per year. As a result, the District has been using deferred maintenance dollars, and where absolutely necessary, general fund dollars to reconstruct its facilities.

To implement this Long Range Facilities Master Plan Update the following recommendations are made:

1. Strive to place a general obligation bond on the 2002 ballot. The bond should be of a sufficient size to accommodate the needs (at least the must do's and the should do's) at all schools, and have sufficient funds for the construction of a new school that serves the Alpine/Blossom Valley attendance areas.

2. Continue to fund the deferred maintenance program at its maximum level.

3. Apply for school construction funds such as the State School

Facilities Program, the new Federal Renovation Program, and other categorical grants (i.e. Digital High School Grants, etc.)

4. Strive to place a general obligation bond on the 2004 regular election ballot if a 2002 bond is not successful.

If the board is successful in adopting a resolution calling for a bond for the November 2002 general election, and if the bond vote is successful at the polls, staff is prepared to present a site-by-site implementation plan to make the improvements identified in Section 4 happen. Should this be the case, staff will coordinate with the principals and the school site counsels the implementation of the phasing plan(s).

5.2 Existing District Policies

Administrative Regulation 7110 AR:
***The Superintendent shall g... ...l specifications for school design to su... ... ...

- Unless otherwise justified, classrooms at new school sites shall be not less than 960 square feet or shall provide not less than 32 square feet per student, with conduit/cabling and outlets related to planned and potential educational functions.

- Specialized classrooms shall be designed to reflect the function planned for that portion of the educational program, such as small-group instruction and special education.

- Laboratories shall be designed for the planned curriculum, allowing for storage, ventilation, teacher preparation areas, proper outlets and power sources, safety equipment, proper hazardous material management, and room to move around fixed learning stations.

- Gymnasiums and show/locker areas shall be designed to accommodate multiple use activities in accordance with the planned enrollment, with the gymnasium secured from other parts of the campus for evening, weekend and public use purposes.

- Auxiliary areas such as multipurpose cafeterias, administrative offices and library/media centers shall be adequately sized, allow adaptation for changing technology and communication systems and provide security for technology and media equipment.

- Lighting shall be designed to provide comfortable and adequate levels of illumination in each educational space.

- Hearing conditions shall complement the educational functions by good sound control.

- Rest rooms shall be sufficient to accommodate the maximum planned enrollment and located on campus to allow for supervision.

- Schools planned for mulitrack, year-round operation shall have additional space for associated storage, supplies and planning.

- Plans shall also comply with the American with Disabilities Act and its implementing regulations, which require that facilities be designed and constructed so that they are readily accessible to and usable by individuals with disabilities.

Board Policy 7110 BP:

The Superintendent shall develop and maintain a master plan for District facilities. This plan shall describe the District's anticipated school facilities needs and priorities. It shall also identify funding sources and time lines for building. The plan shall be reviewed at regular intervals specified within the plan.

The plan shall be based on an assessment of the District's short- and long-term facility needs, giving consideration to:

- Current and projected school enrollments for each grade level, based on residential housing growth patterns in accordance with city/county general plans and other demographic factors.
- The District's educational goals
- Current and projected educational program requirements
- Student safety and welfare
- An evaluation of existing buildings and needs for modernization and renovation
- State planning standards and local zoning requirements
- The community's social, ec[illegible] stics
- Estimated costs associated with meeting the District's facility needs

The Superintendent shall ensure that staff, parents, students and business and community representatives are kept informed of the need for facilities construction or modernization. The Superintendent shall maintain procedures to provide for the input of District staff, parents, students and community representatives in the planning process.

5.3 School Site Improvements

Twelve of the fifteen District schools have been identified as being eligible for state modernization funding. The consensus of the Facilities Steering Committee was that every campus should get an equal amount of work completed as soon as a bond is passed. Also part of Phase 1 is the purchase of land and a new high school campus in the Alpine Blossom Valley. All documents will be submitted to the State Allocation Board for funding.

The chart on the following page, titled *State Facility Program with District Match Requirements,* shows how much money the District is eligible to receive for both modernization and growth.

The minimum the District will be reimbursed by the State of California for the new high school is approximately $28,000,000. Modernization grants and matches will account for another $43,858,000 plus.

With the majority of the District's campuses needing repair and renovation, phasing and project size has been a major concern during the development of a schedule. Issues addressed were as follows:

Phasing Issues

- The oldest school needs to renovated first.
- Schools need to be grouped to affect the smallest number of students in a region. Nearby campuses where there is no construction during one of the phases need to be available for temporary/ interim housing.
- El Cajon High School has received one modernization to date and should be part of the last group of schools.
- Existing schools will be downsized to accommodate a maximum of 2,000 students after the new high school is completed. This downsizing will reduce the need for interim housing on the Phase 4 projects.
- Projects at each site will be planned in sequential phases within a set duration. This will result in a greater impact to the instructional programs (but for a shorter duration) and need for more interim housing. This approach, however, will be more cost effective and time efficient from a construction and project standpoint.
- Students will be housed at their own sites during construction when possible.
- Interim housing will be located on school sites.

- Hazardous abatement, toilet renovations, roof replacement, HVAC upgrades, field improvements and site utility projects can be scheduled during the summer to reduce the impact on the education program.
- New construction projects that do not impact existing buildings will be planned for during infrastructure construction but will not be constructed until the District has received funding for both the growth and modernization projects.
- Classroom renovations will be phased to give the contractor access to entire buildings for renovation.
- Unexpected issues during renovation should be anticipated and will require adjustment and changes to both the schedule and the costs.

6.1 Sources of Funding

Grossmont Union High School District has researched a variety of funding sources which may prove helpful in accomplishing the proposed projects. Some sources have already provided assistance in the past.

A summary of the various funding mechanisms follows.

Developer Fees

Grossmont Union High School District has established eligibility and intends to apply for state funding [illegible] the criteria for need and local funding effort, the number new [illegible] after January 1, 2000. It is justified in levying [illegible] square foot on residential deelopemnt and if funding for new schools from the stae Allocation Board is not available, the District is justified in levying a Level 3 fee of $2.10 per square foot. The attached table, on the last page, identifies the developer fee cash flow & projections from fiscal year 98/99 to fiscal year 08/09.

School Contruction Funding

A. School Facility Program (SFP) -1998

- Qualifying public school districts may participate in various building programs under the State School Facilities Program. Programs include new construction, modernization and emergency relocatable classrooms.

  - GUHSD has qualified for approximately $160 million in Modernization. Schools 01-09 are all eligible for a portion of this funding. Additionally Chaparral, Work Training Center and Viking Center facilities also qualify for assistance through this program.

  - GUHSD is also eligible for a new 1,765 student high school facility with a 50% match providing $13-$30 million dollars toward the completion of the project.

of school buildings. Currently that amount is approximately $1.2 million. Although the Deferred Maintenance Program has been fully funded and the repair and replacement of materials and systems is being accomplished in a timely manner, it is impossible to expect these facilities to last indefinitely. Complete modernization of the facilities need to be scheduled in the immediate future.

Redevelopment Agency Pass-Through

- Various Redevelopement agencies contributed funds to GUHSD through redevelopment programs which was scheduled in the District. These funds are used to pay the 1991 Certificates of Participation which were established for the West Hills High School - new construction, and the modernization projects at Granite Hills and El Cajon Valley High Schools. The COP repayment schedule is more than redevelopement funds received to date and developer fees are obligated to pay the difference.

Federal Emergency Management Administration (FEMA)

- In 1993, FEMA was able to assist the District when school structures suffered heavy rain damage.

Educational Technology

- GUHSD received funding for development of technology through the State Lease Purchase Program.

Mello Roos Community Facilities Act

- School districts are allowed to form a Mello-Roos Community Facilities District (CFD) to issue bonds for the purposes of school site acquisition and construction subject to 67% voter approval. The Mello-Roos provide a method for local governments to fund public facilities and certain services, particularly for newly developing areas. Currently there are no Mello Roos Districts in GUHSD.
- Mello-Roos may be used to finance:
  - -construction
  - -expansion
  - -rehabilitation
  - -acquisition of real property

Federal Renovation Act

- The United States Department of Education has provided over $100M in federal funding to the State of California for the renovation and repair of school facilities. The district is eligible for up to $500,000 of this money. Charter Schools and Private Schools within the GUHSD district are also eligible to tap into the funds. This is a one time only funding opportunity that is due to expire in 24 months.

Increased Graduation Requirements

1.DISTRICT NEEDS and ANALYSIS STUDIES

HMC
ARCHITECTS

listen | think | work | create

· The interior finishes and millwo[illegible]iginal. Many of the cabinets are in disrepair and are not utilized [illegible] of a lack of accessibility. Flooring is original vinyl and needs to be re[illegible]aced. The District has replaced slate chalkboards with white boards; however a majority of the white boards have permanent writing or surface damage and need to be replaced. The poor condition of windows and finishes, as stated in the core classroom assessment, is typical throughout the campus.

3.1.4.b Large Classroom >1000 sq. ft

4.b.1. Science Classrooms:

· Classrooms have three varying layouts for teaching. The Chemistry classroom is separated into two different areas, an elevated seating section for lectures and an experiment area. This classroom has a demonstration cabinet at the front of the classroom.

· The Biology classroom utilizes the same area for both lecture and experiments. This classroom has a demonstration cabinet at the front of the classroom. Lab tables are available for conducting experiments and student note taking.
The tables are moved for different arrangement options. Currently, students sit at both sides of the tables, limiting the use of the table surface for experiments.

· General Science classrooms have tables and chairs for students and a display for teachers. These classrooms lack sufficient demonstration space and area for adequate student participation.

· In general, the classrooms lack sufficient space. Additional wall space is needed for display areas. Classrooms are being utilized for additional storage, due to a lack of adequate storage space, creating hazard areas within the classrooms. The wiring for technology is contained in surface mounted panduit located on the walls.

4.b.2. Art Classrooms:

· Classroom storage/prep availability is limited, therefore, teachers use the offices/storage rooms as prep areas. There is an undersized office and/or storage room attached to each classroom for instructor use only. There is insufficient sinks spaced in each art classroom.

· New technology and updated art equipment are needed in classrooms. Significant upgrades should include: graphic computer workstations, storage facilities, work areas and a demonstration area for instruction.

Sufficient lighting is lacking in these classrooms. The use of lighting tubes or skylights would allow for natural day lighting, thus limiting the use of electrical lighting.

3.1.4.c. Physical Education:

4.c.1. Boys Physical Education Building:

· The building was built in 1955 and much of the building remains unchanged. Locker and shower areas have terrazzo flooring and benches that are in acceptable condition. The showers are not used during regular P.E. and the lockers have 12 x 12 storage areas with tall clothes lockers below. This area has a musty odor due to the lack of sufficient ventil[illegible] allow for appropriate ventilation. The curren[illegible] allow for proper supervision during the transi[illegible]perio

· The team room needs additional lighting and proper ve metal lockers do not allow enough storage for gear and shower area does not accommodate the school's teams w showerheads.

· Equipment storage is limited and the district has built a area in the room.

· The coach's office and dressing room is inadequate in si of staff members designated to the space. Thus coaches room. The location of this room does not allow for adeq the lockers and showers. Wiring for office technology is mounted panduit located on the walls.

· Additional facilities in the building include a weight ro to other schools in the district this facility is outdated. T machines due to a lack of sufficient space. Ceiling fans a provide ventilation for the room. The coaches have an of weight room for assessments and conferences, as teams the room.

4.b.2. Girl's Physical Education Building:

· Built the same year as the boy's with the same finishes building also lacks a layout for proper supervision durir

· The girls do not currently have a team locker room, wh violation. This addition needs to be addressed.

· Coach's offices are secluded away students areas which appropriate visual supervision in the shower/locker area

4.c.3. Gymnasium:

· The gymnasium seats approximately 900 students. Blea manual recessed stadium seating. The current bleachers

· The gym floor has been resurfaced recently and is in de facility currently lacks sufficient restroom facilities.

· Storage is inadequate for the equipment used in the gy sports use the gym during the school year along with su

· The gym is currently cooled by opening the doors, whi ample air movement for the facility.

3.1.4.d. Computer Labs

4.d.1. Math/English/Science Computer Labs:

· Since technology has outdated these classrooms, signif to accommodate computer workstations are needed. Tl building have been updated with raised computer acces

R N P

HMC ARCHITECTS

listen | think | work | create

• Moving from east to west, the in- arts (automotive, wood shop, drafting), culinary arts, arts (pri o, photography, basic arts, and ceramics), food service buildings, and the chiller plant are located on the highest tier with additional prefabricated metal storage structures located in the back of these structures. The main classrooms, science labs, library and administration buildings are located in the middle, with the athletic (gym, lockers, pool) and music/dance buildings on the lowest level. The agriculture program and athletic fields are located on this level, to the west and south perimeter of the main campus.

1.1.10. Functional/Education Program

1.1.10.a Core Instruction:

• Classrooms: Most classrooms have an average of 850-880 square feet and are equipped with dry erase boards, tack boards, and pull-down projection screens. With the exception of relocatables, most classrooms have an adjacently located teacher's office.
Classrooms suffer from a malfunctioning floor radiant heating system. The pipes are old and are prone to fail. Maintenance staff has been removing portions of the slab, replacing the pipes, and refilling the holes. Patches of tile, which may be asbestos based, were removed in several classrooms across campus due to this problem. There is no individual control over the heating system, so some classrooms can be uncomfortable and none can be adjusted. Both the heating and cooling of each room fluctuates. Chilled water fan coil units in several classrooms sit in the corner of the rooms. A chiller plant distributes A/C through ducts and air handler units, which are haphazardly hung from the ceiling and penetrate through various walls in the classrooms. All systems function with varying degrees of success and create an excess of distracting noise when classes are in session. Most of the classroom buildings are still fitted with original jalousie windows (walls and clerestories), which allow conditioned air to escape the building. This also creates a security issue since the units can be broken into. The rooms themselves do not have enough storage. Most supplies and books are stored in various areas within the classroom itself. Almost all of the door hardware and thresholds on the classrooms are not ADA compliant.
There are several relocatable classrooms that have been added to the campus over the years. The 1400 building is actually a series of portables. Some of these rooms are showing signs of deterioration. The floor tiles are suffering from water damage, possibly from under the building, causing tiles to warp and exposing the wood structure below. The acoustic ceiling tile is also warping and falling apart from the moisture damage.

• Teachers' Prep Rooms: These are typically offices located adjacent to each classroom, with the exception of the relocatables.
1.1.10.b Special Programs:

• Special Education: The Special Education program is located in what was originally a clothing/sewing classroom. Currently, there are two classes being held simultaneously in the same classroom with approximately 10-15 students per class. There is no real division visually or acoustically between these students, which causes major distractions.

• Restroom: For a program such as Special Education, in which ADA compliance is critical, this restroom facility is highly deficient. For the amount of students in this program, only one unisex restroom is adequate. This room is non-compliant with ADA codes (i.e. turn radius, grab bars, door width, hardware, and sink height). There is not enough room for the students to transfer, or enough room for faculty who ne- i students (the majority of whom cannot use tl ...es area is not available, which is also necessary fo- -culty with the best care. This classroom and restroom were ne accommodate Special Education needs, and it is recomm program be relocated to a new location where all of the for the program are adequately met.

• Health Office: The Health Office consists of a Nurse's (treatment office, a single, unisex rest area with three cot: occupancy toilet (not ADA compliant). There is little sto supplies. Originally, there were both male and female cc but the male side was apparently converted to a records should be given to restoration of the original configurati compliance.

• Psychologist: There is one office for the resident psych

1.1.10.c Support Classrooms:

• Science Classrooms: All science classrooms are located 900 building. There are eight dedicated science rooms, si classrooms and two science labs. There are four science service these spaces, one of which was built into a demo portion of a wall was removed. The science lab, science prep room requirements will be re-evaluated. Most of th with their original jalousie windows (clerestories), whicl to escape the building. This also creates a security issue easily broken into.

• Computer Labs: There are four main computer labs (3 and one smaller lab in the 500 building. Two of these roc by the library. Most of these labs are too small, with an a square feet. Most of the rooms are still fitted with origin (clerestories), which allow conditioned air to escape the windows, however, have been sealed, and wall window to protect the computer equipment.
1.1.10.d Performing and Visual Arts:

• Auditorium: There is no auditorium or outdoor perfor

• Band Room: The 300 building originally housed both Room. Since then, the Choral Room has been converted Band Room walls on the north side are canted for sound panels are currently not being used. Behind this wall lie practice rooms. Most of these rooms are currently being instrument, or record storage.

• Dance Room: The Dance Studio, which has been modi Room, has mirrors extending the full length of at least tv are equipped with removable roll-up padding. The pract used for storage, including an IDF.

1.1.10.e Industrial Arts:

• Automotive, Wood Shop & Drafting: These large work with side classrooms and adequate machinery for their r (i.e. hydraulic lift in auto shop, drill press and table saw

HMC
ARCHITECTS

listen | think | work | create

3.1.4. Functional/Education C[illegible]

3.1.4.a. Core Classrooms: 900-9[illegible] sq. ft.

4.a.1. Buildings 10, 20, 40, 50, 70, 80, 140:

· The classrooms were originally designed for general instruction which did not require specialized equipment or space. New technology developments have made these buildings outdated therefore, significant upgrades are necessary to accommodate computer workstations and flexible classroom arrangements. In most classrooms, a small attached office and/or storage area is being used by teachers as a prep area. There is also a limited amount of general storage in each classroom.

· The original steel frame single-pane windows need to be replaced. The ceilings are perforated, glued-on acoustical tile, and the flooring is generally V.A.T. (Vinyl Asbestos Tile). Both are in need of replacement. The pendent lighting is the original lighting provided in 1961 and is also in need of replacement.

· Each classroom has one or more recently updated telephone and data line connections. The wiring for technology is contained in surface-mounted conduit located on the walls.

4.a.2. Building 130:

· Building 130 is the Home Economics facility for the school. The two rooms that get the most use are the cooking classroom and the sewing classroom. The cooking room equipment is well beyond its useful life, and the cabinetry is in poor condition, both need replacement. The sewing room is in much better condition. There are some small poorly built, and inaccessible changing rooms here, presumably for student use. The third room is designed as a living room with an attached kitchen and pantry. It has a sliding glass door leading to an enclosed patio. This room seems to be in acceptable condition, but the usefulness of this room may be questioned.

4.a.3. Building 160:

· This was once the Industrial Arts building, and is now the Technical Training facility. Most of this building was recently remodeled and is in relatively good condition, however, the office space is filled with many boxes due to the lack of storage units.

· The large open space is used to teach basic automobile mechanics. The classroom is used for testing these techniques. The outdated equipment is a safety hazard. Parts storage is not adequate leaving many potentially hazardous objects exposed to students. Office space is limited and is commonly used as storage for expensive items. The ceiling in the shop area is glue on tile with pendent halogen lighting. Acoustical ceiling tile is found throughout the rest of the building. The original steel frame single-pane windows need to be replaced.

4.a.4. Relocatables 170, 180, 190, 201, 203, 205, 210 & 220:

· These relocatables, installed in the late 1960's are well beyond their useful life. For modernization they would need to be fully gutted, re-roofed, and re-sided.

4.a.5. Relocatables (Bungalows) 150, 200 & [illegible]

· These are the oldest relos on the campus and the on[illegible] have any architectural character. They are not well-st[illegible] due to their small size but, depending on their struct[illegible] might be suitable for other functions such as an alum[illegible] offices, support facilities for staff, or some kind of au[illegible] program(s), perhaps as a field house. Though old an[illegible] decisions about the future of these buildings should [illegible] their usefulness dismissed.

4.a.6. Relocatables 165, 240 & 241:

· For their age these relos are in fair condition but do[illegible] renovations. They are on the boarder of being "savab[illegible] investment probably may make them obsolete.

4.a.7. Relocatables 250, 251, 252, 253, 254, 255 & 256:

· Installed in the early 1990's these relos are in accept[illegible] new ceiling, carpets, paint & data upgrades to bring [illegible]

4.a.8. Relocatables 257, 258, 259 & 260:

· These are the newest relos on the campus. They wer[illegible] 1990's and have limited wear. With a small amount o[illegible] could be lasting.

4.a.9. Weight Room Relocatable:

· This relocatable is in acceptable condition but may b[illegible] athletic department's needs. The room has its own co[illegible]

4.a.10. Relocatable 99 Social Science:

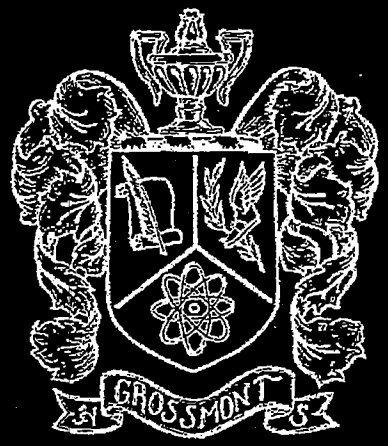
· This relo appears to be used solely as an office. Accc[illegible] employees constructed this relo on site over the cours[illegible] 1970. It is not DSA approved, and with no drawings [illegible] approval could be difficult. It is in fine condition cons[illegible] limited to office space.

3.1.4.b Large Classroom <1000 sq. ft

4.b.1. Science Classrooms:

· The science classrooms are inadequate in size, numb[illegible] science rooms in building 60 are a mix of mis-matche[illegible] old assignments, and store items, leaving insufficient[illegible] that is there is generally outdated or is not designed f[illegible] There is a lack of sufficient learning stations, prep are[illegible] and storage.

· The science rooms in the 230 building are better thar[illegible] still nee to be updated. The addition of second hand f[illegible] and recliners suggests that the space is not being usec[illegible]



HMC
ARCHITECTS

listen | think | work | create

the buildings. The window seals are co[illegible]ue to water damage and mold. On the South facing side of most of th[illegible]gs there is an existing louvered shade structure that should be replaced or refurbished. Ceiling fans and/or A.C. window units currently cool the rooms, as central air conditioning systems do not exist in any of the buildings. The ceilings are perforated, glued-on acoustical 12 x 12 tile with pendent mount lighting. Lighting and ceiling tile needs to be replaced in all of the buildings. Each classroom has one or more updated telephone and data connections, but it is not adequate for recent technology. The wiring for recent upgrades is located in surface mounted panduit.

· Most of the interior finishes and millwork are original. Some of the cabinets are in disrepair and cannot be utilized. Limited accessibility prevents many of the cabinets from proper use. The flooring is original vinyl tile and needs to be replaced. The district has replaced the chalkboards with white boards, but many of the white boards have permanent markings or surface damage and need to be replaced.

3.1.4.b. Large Classroom >1000 sq. ft

4.b.1. Science Classroom's:

· There are two different layouts for the Science classrooms. Lecture room 325 is separated into two distinct areas. One area is for student work and the other end of the room is for lectures using a demonstration table. This classroom has adequate space, but the facilities, as previously mentioned, are outdated.

· The Biology, Physics and Chemistry classrooms are set up as one combined area. The student worktables face the demonstration table, so interactive and lecture teaching styles must be combined. This does not suit a high school level science program. The worktables are permanent fixtures that do not allow for proper student management during challenging experiments.

· Four classrooms located in the Science building have one demonstration table for the teacher and regular desks for students. These classrooms do not allow for adequate student interaction.

· The classrooms, in general, do not have sufficient space for participation and storage. Wall space is needed for display purposes, but is being used for extra experiment tables. Storage items have been moved to the floor creating hazardous areas.

4.b.2. Art Classrooms:

· The Art building is attempting to encompass a variety of art forms. The large classrooms are set up for teaching and participation in one location. Student worktables are not permanent, but there is inadequate space for proper instruction. Technology for computer graphic arts and equipment for ceramic arts, such as a kiln, do not have adequate space for proper use. The photography lab is extremely small and the equipment is outdated. Lighting is essential for any classroom, but daylight is a desired addition for color related classes.

· The Art building has also given up three regular size classrooms to daycare/ nursery. These rooms have been transformed into playtime and napping areas with tiny furniture and modular soundproof walls. The space is clearly not adequate for high school art classes and will need to be re-transformed back into art classes for the demands of a large campus. The classrooms are also inadequate for day care. There is only one staff restroom per these three separate

not exist on this campus. This situation needs to [illegible]

3.1.4.d. Physical Education:

4.b.1. Boy's Physical Education Building:

· The Boy's P.E. building was built in 1958 and some mod recently complete in the team room. The building envelo condition. The showers, drying area and locker room hav flooring. The terrazzo is in decent condition, but should b shower areas. The locker room has a musty odor due to l Ventilated lockers would alleviate some of the odor, but a conditioning system would eliminate the problem entirel

· The team room has a fresh coat of paint and new lockers fresh face, but the lockers are inadequate for clothing and first aide room is currently being used as storage to allow use the team room.

· Equipment storage is limited, therefore, the first aide roc for overflow. The instructor's office and dressing room ar overflow for equipment storage.

· Staff for Boy's P.E. is combined into one small space, whi considering the number of staff required for each team an of the common staff area does not allow for visual control during transition periods.

4.b.2. Girl's Physical Education Building:

· The Girl's P.E. building was built in 1948 and no major w completed since. The flooring and walls are terrazzo finis condition. The locker room is adequate in size, but the loc clothing and gear storage, thus larger lockers are needed. large, but the fixtures are in need of repair.

· The Recreation room is a great size, but does not contain equipment for the classes. A sound system for dance, etc. classroom is very small compared to an average physical is currently used partially for storage.

· Equipment storage is limited to one room, which is inad flexibility.

· A team room does not exist in the girl's physical educatic Title 9 violation and needs to be addressed immediately.

· The Trainer's room serves a dual purpose for coaching st cannot contain or functionally operate for all staff membe space. The staff does not have visual control of the entire l area from the trainer's room. The staff shower area and re used as overflow storage.

4.c.3. Gymnasium:

· The new gymnasium, attached to the band room, was built approximately 850 students for an event. The seating is man

HMC
ARCHITECTS

listen | think | work | create

· Throughout the rest of the buil ld glue-up ceiling tiles, colorless walls, and wood wall panels created ook. This narrow building is filled with random compartments a rd-to-access facilities with no directional signage. Despite an addition to the building in 1976 that blends fairly well on the exterior, the interior is still aesthetically dated.

· This building is the hub for exposed and congested conduits and pipes which branch off to the rest of the campus via covered walkway roofs.

4.a.2. Building 1600: Cafeteria

· The cafeteria kitchen is adequate in size for its current use, as it serves only a portion of the student population. As an ideal cafeteria serving the entire population, however, the kitchen and dining area would need to be increased significantly. The restroom, locker area, and some kitchen facilities are not accessible. The break room is sufficient in size and the serving area has adequate circulation in its current configuration.

· The student population has grown significantly since the Cafeteria was built. The facilities are currently inadequate to facilitate the entire population and would work best as a warming kitchen to a central campus kitchen. The existing cafeteria eating space is large enough to house most of the students that use this amenity, but not the entire population. It is currently used as two large tutoring spaces.

3.1.4.b. Core Classrooms: 900-960 sq. ft.

4.b.1. Buildings 10, 100, 200: Classrooms

· The classrooms were originally designed as non-specific classes without specialized equipment or space. New technology has outdated these buildings, therefore, significant upgrades accommodating computer workstations and flexible classroom arrangements are necessary. Typically, there is an undersized office and/or storage room attached to each classroom for instructor use only. Classroom availability is limited, so teachers use the offices/storage rooms as prep areas and storage rooms. There is also a limited amount of general storage in each classroom.

· The original steel frame single-paned windows need to be replaced. The ceilings are perforated, glued-on acoustical tile, the flooring is generally V.A.T. (Vinyl Asbestos Tile) and both are in need of replacement. The pendant lighting is original and is also in need of replacement.

· Each classroom has one or more recently updated telephone and data connections. The wiring for technology is contained in surface mounted conduit located on the walls.

4.b.2. Building 300: Library and Classrooms

· The library is small for a student body of its size. There is not adequate stack space to accommodate the number of required volumes. Reading space, study areas, storage, meeting space and technology support facilities also lack adequate space. The building is old and is in need of typical renovations in the library and adjacent classrooms including: new HVAC system, carpet, ceiling work, and redesign of the spaces.

4.b.3. Building 1300: Classrooms and Lecture F

· These classrooms are primarily used for bc gula facilities. The classrooms are in fairly adequate in shaj use more storage and a typical upgrade. One restroon Education is currently used for storage as well, which The lecture hall functions well for large classroom gatl

3.1.4.c. Large Classroom (>1,000 sq. ft.)

4.c.1. Building 400: Science Classrooms

· The Science classrooms are inadequate in quantity a facilities and equipment are generally aging rapidly o for science laboratory use. There is lack of learning sta demonstration area, and a general lack of storage.

4.c.2. Building 500: Fine Arts, Home Economics, and (

· Building 500 is the Home Economics and Fine Arts f There is only one classroom designed for Home Econ specifically designed for Art and Photography and Co larger and three smaller classrooms are used for gene the rest of the campus, there is significant wear and ag cooking room equipment is beyond its useful life, and apart; both of these items need replacement. There ar rooms (some not accessible) for Home Economics and currently used primarily for storage due to the lack of rooms are used and need a remodel to bring them bac (offices, changing rooms, etc.).

4.c.3. Building 1100: Weight Room/Autoshop

· Over the years, the Autoshop has decreased in size a increased in size. The size and access to the Autoshop doors seem to be adequate for the level of interest.

· The Weightrooms are more than adequate in size wi classroom. The offices for the teachers and coaches sh the dressing rooms are used mostly for storage.

4.c.4. Building 1140: Drafting/Wood Shop/Screen Prir

· This building is a conglomeration of instructional sp courses that use large equipment. The spaces are larg adequate, but at an elevated level.

· These facilities need to be modernized to replace br skylights, scratched VCT flooring, and HVAC. Stairs for storage need to be repainted to replace chipped pa

4.c.5. Building 1200: Electronics

· This single classroom building functions well for its the younger buildings on the campus, it has been mo of storage.

"The things that are taught in schools are not an education, but the means of education."

–Ralph Waldo Emerson

3.1.3.	Total Enrollment	2,098
3.1.4.	Site Acreage	45 Acres
3.1.5.	Total Plan Sq. Ft.	182,574 square feet
3.1.6.	Principal	Paul Wargo
3.1.7.	Classrooms Available	78: 18 Standard (>950sf), 60 Non Standard (<950sf)
3.1.8.	Year Built/Renovated	1961

3.1.9. Overview

3.1.9.a Campus Organization:

· The campus is organized such that the buildings are located on the northwest portion of the property, on a grade higher than the remainder of the site. The buildings encompass approximately ¼ of the site. Entry on the site is on the east side from Sweetwater Springs Blvd. Student and staff parking are on the northwest portion of the site. Sports fields and open-area take up the central and southern portions of the site.

· The buildings are arranged in a linear fashion, slightly rotated around the administration building. The majority of the classroom buildings are on the north side of the site. The administration and Special Program buildings are on the central axis. The Athletic, Arts and Shop buildings are towards the south, closest to the sports fields. Relocatable buildings are located on the north and west sides of the site, along the rear-access road.

· Buildings are generally single story, wood-framed buildings, connected by covered walkways.

3.1.10. Functional/Education Program

3.1.10.a Core Instruction:

· Classrooms: The classrooms were designed for row seating and vary in size from 750 sq ft to 970 sq ft. Most of the classrooms appear substandard in size. Some of the rooms have poor acoustics and lighting. Jalousie windows are used in the majority of the buildings. Student storage is of external lockers along the buildings.

· Teachers' Prep Rooms: There are offices (125 sq ft) and (250 sq ft) adjacent to most classrooms, but the sizes ap classroom prep. There is one staff lounge for teachers. sq ft) conference room for group meetings.

3.1.10.b Special Programs:

· Special Day Learning Disabled: Located in a relocatab accessible ramps and an adjacent office for staff.

· Health Office: The health office is located in the Admi appears to be adequately sized. It consists of a separat office, nurse's office, tow separate rooms and two singl rooms. The toilet rooms are not ADA accessible.

· Extended Student Learning and Language

· Phoenix Program

· Psychologists: Located in a relocatable building.

· Speech Therapy: Located in a relocatable building.

· Resource Occupancy Program (ROP): 1360 sq ft class Resource Center.

3.1.10.c Support Classrooms:

· Science Classrooms: There are nine dedicated scienc sciences, two biology, one physical science, and one lif physical and life science labs are adequately sized, eac workrooms. There appear to be insufficient science la meet the District's requirements.

· Computer Labs: There are four full-sized computer l rooms (470-560 sq ft) used as labs. Some of the labs ar processing, as well as for computer-aided drafting and

R N P

HMC ARCHITECTS

listen | think | work | create

Rooms 805 and 806 pose similar pr' s they were also divided from a single larger vocational classroom

Classrooms in relocatable buildings are equipped with white boards and removable projection screens. The walls are finished with tackable wall surface, and the ceilings are lay-in acoustical tile. The floor finish is either carpet or VCT. Windows in these rooms are also of minimal area, and are tinted single-glazed in aluminum frame.
Most classrooms have poor acoustics and appear to be deficient in the quality and quantity of natural light. The majority of classrooms also lack sufficient storage. Significant improvements can be made to update and upgrade the classrooms to provide a more comfortable learning environment for students and staff.

· Teachers' Prep Rooms: Offices (ranging from a little over 100 sq ft to over 300 sq ft) are located within many of the academic buildings that may function as teacher prep rooms or small meeting rooms. However, most are used for storage; it is apparent that teachers, including academic department heads, utilize their classroom for class preparation.
Some classrooms, particularly those located in relocatable classroom buildings have offices located within the classroom. These spaces can be utilized for preparation separate from the classrooms, however, these offices reduce valuable classroom space.

3.1.10.b Special Programs:

· Special Education for the Learning Disabled: Special education classes for the disabled are held in rooms 701, 705, and 704. Building 700 formerly housed many of the vocational shops for the campus; the casework from these original functions remains and is in fair condition. Casework, countertops, and built-in sinks do not appear to be ADA accessible, which presents a severe issue for students who use these rooms. Room 704 functions as a resource classroom, conducive to one-on-one tutoring and small group learning. The space has a raised platform, which may be a physical barrier for some students.
Two toilet rooms are directly adjacent to Rooms 701 and 705. The toilet room at Room 705 was converted from a boys' restroom. The toilet room at Classroom 701 is enclosed with partial-height walls within the footprint of Room 701. Although some effort has been put forth to make these toilets accessible, they do not appear to be completely compliant with ADA. A special education teacher noted that the toilet rooms were difficult for wheelchair-bound students to navigate. It is apparent that significant facility upgrade for special education classrooms are necessary to accommodate students with disabilities.

· Adult Education: Santana High School also includes Santana Adult Center, as part of Grossmont Adult School. Offices for the Adult School are located at the south end of relocatable classroom Building 1300. The 1,000 sq ft of offices include reception area, principal's office, counseling office, conference room, and book room. Also included is the correctional education office, which coordinates education in correctional facilities. They are housed in a 450 sq ft trailer (900T) in the student parking lot on the north side of campus.
The Adult School offers a wide variety of classes that are help throughout the campus from 1:30 PM to 10:00 PM, Monday through Thursday, and from 8:00 AM to 4:00 PM on Friday. Included in the curriculum are arts, crafts, music, photography, computer classes, GED test preparation, fitness, machinery and welding, and auto body. The Regional Occupation Program (ROP) also holds classes on the campus. These courses include accounting, automobile body and mechanics, masonry, culinary arts, drafting and plumbing.

· The majority of the adult education classes sh campus and utilize special classrooms for pro programs, vocational programs, culinary arts, puter photography. The Adult School has some spaces that are for its programs. The relocatable annex building at the n the parking lot contains two classrooms. Trailer 506T on campus is dedicated to parenting classes that take place mornings. The ROP plumbing education program uses l formerly a plastics classroom.

· Psychologist: The school Psychologist Office is located the relocatable Building 1300. At a little over 100 sq ft, th crowded and uncomfortable. With one small window ar space functions poorly as an office for patients and a psy site four to five days of the week. Acoustics in the office privacy of the space. The location of the Psychologist's C from similar administrative services, such as the Counsel Community Resource Office.

· Speech Therapy: The Speech Therapy Office is located end of relocatable Building 1300. At less than 80 sq ft an small window, the office is crowded and uncomfortable. acoustically isolated and thus functions poorly for admir therapy.

3.1.10.c Support Classrooms:

· Science Classrooms: Building 200 houses science classe Curriculum includes biology, chemistry, physics, oceano physiology. There are a total of seven science classrooms five are adequate as science lab classrooms. Room 204 is lecture hall with cast-in-place concrete tiers, prohibiting functioning as a laboratory. Additionally, the room does ADA accessibility requirements. Room 201 is 992 sq ft ar science classroom with no access to a prep room. The cu functioning science labs is half of the standard for a scho The functioning science labs are furnished with moveabl and lab stations, which include countertop, sink, gas acc the perimeter. Typically, the teaching or demonstration t Building 200 contains 5 prep rooms for science labs, total which is adequate for the current area of lab classrooms. distributed throughout the building, with each functioni direct access to a prep room.

Based on the original plans and the most recent class sch the courses being taught in the labs do not match their o use. This may be an issue for some curriculum, particula requires fume hoods, chemical resistant surfaces, and ga

· Computer Labs: Four computer labs are housed in Buil the course listings for the campus, computer curriculum office and accounting software, as well as web site desigr Of the existing labs, two are of adequate area and station quantity of full-sized computer labs is half of what is sta this size. At little over 500 sq ft, Room 105A is particular linear, allowing a limited quantity of computer stations. of Room 110, where VCT occurs, the computer labs have ideal.

VI. CONSOLIDATED AGENDA (Continued)

C. Business Services (Continued)

9. Ratification of Agreement (A-5308) With Johnson Consulting Engineers, Inc., to Provide Services for the Evaluation and Design of the Main Electrical Systems at Various Sites Throughout the District; and Authorization for Superintendent or Designee to Execute Same

10. Approval of Monthly Budget Summary for Period Ending June 30, 2004, and Report of the Unaudited Actuals for the 2003-2004 Fiscal Year **(Two Separate Documents)**

11. Approval of Agreement (A-5309) With Matalon Architecture and Planning for Architectural and Engineering Services for Relocatable Buildings at El Cajon Valley High School; and Authorization for Superintendent or Designee to Execute Same

12. Approval of Agreement (A-5303), Joint Powers Agreement With Helix Water District, the City of El Cajon, the City of La Mesa, and the County of San Diego; and Authorization for Superintendent or Designee to Execute Same

13. Approval to Amend Agreement (A-5257a) With Lozano Smith for Legal Services; and Authorization for Superintendent or Designee to Execute Same

14. Approval of Agreement (A-5310) With Sprint PCS for the Placement of Cellular Telephone Transmission Equipment; and Authorization for Superintendent or Designee to Execute Same

15. Report of the Chief Financial Officer Regarding Public Disclosure of District Investments for the Period Ending June 30, 2004

16. Approval of Amendment to Agreement (A-5261a) With the City of La Mesa for Cablecast Videotaped Governing Board Meetings; and Authorization for Superintendent or Designee to Execute Same

17. Approval of Agreement (A-5091R2) With Apple Computer, Inc., to Allow Information and Technology Services to Continue to be a Self-Service Provider; and Authorization for Superintendent or Designee to Execute Same

18. Adoption of Resolution (2004-36) to Delete and Add Authorized Agents to Sign Checks on the Grossmont, El Cajon Valley, Mount Miguel, El Capitan, Granite Hills, Santana, Valhalla and West Hills Student Body Checking Accounts

19. Adoption of Resolution (2004-37) Identifying the 2004-2005 Estimated Gann Limit Appropriations Limits and the 2003-2004 Appropriations Limitation Recalculation as Prescribed in Statutory Law

20. Adoption of Resolution (2004-38) Declaring Categorical Exemptions From California Environmental Act (CEQA)

21. Authorization to Exercise First Renewal Option Under Bid #2940, Low Voltage Structure Districtwide

22. Authorization for County Auditor and Assistant Superintendent, Business Services, to Reissue Outdated Warrant

23. Award/Rejection of Bid #2967, Printing of Adult School Schedules, to the Lowest Responsive Bidder Meeting District Specifications

24. Acceptance of Projects Listed as Complete; and Authorization to File Notice of Completions

25. Approval of the Designation of Assistant Superintendent of Business Services as Custodian of Records in Compliance With Governmental Code Section 53060; and Authorization for Superintendent or Designee to Execute Same

26. Approval of the Citizens' Bond Oversight Committee Bylaws

27. Acceptance of Donations; and Authorization to Send Letters of Appreciation on Behalf of the Governing Board

D. Superintendent (Terry Ryan)

1. Adoption of Resolution (2004-33) in Support of the City of Lemon Grove's General Obligation Bond to Build a Library for the Lemon Grove School District

2. Adoption of Resolution (2004-35) in Support of the Provision of Special Education Mental Health Services

23. Adoption of Resolution (2005-37) Which Allows for a Temporary Transfer of Funds From the County Treasurer's Office
24. Adoption of Resolution (2005-38) Authorizing the Transfer of Monies Between Funds for Fiscal Year 2005-2006
25. Adoption of Resolution (2005-39) Authorizing the Transfer of Monies Between the Special Reserve and the General Fund for Fiscal Year 2005-2006
26. Adoption of Resolutions (2005-45 and 2005-46) Designating Authorized Agents to Receive Mail and Pick Up Warrants at the County Office of Education and to Sign Payroll Payment Order
27. Adoption of Resolution (2005-43) Authorizing Leasing of Portable Buildings Districtwide Through Cooperative Purchase Utilizing Bid #2003-1 Awarded by La Habra City School District; and Authorization for Superintendent or Designee to Execute Same
28. Award/Rejection of Bid #2984, Site Preparation Work, Mount Miguel High School, to the Lowest Responsive Bidder Meeting District Specifications
29. Acceptance of Donations; and Authorization to Send Letters of Appreciation on Behalf of the Governing Board

IX. ITEMS PULLED FROM CONSOLIDATED MOTION TO BE VOTED ON SEPARATELY –

VIII.A.3 – MSC (Wills/Schreiber) to approve the School Improvement Site Plans for School Year 2005-2006 for the following school sites: Chaparral High School; El Cajon Valley High School; El Capitan High School; Grossmont High School; Monte Vista High School; Mount Miguel High School; Santana High School; Steele Canyon High School; Valhalla High School; and West Hills High School. The motion carried 4/0.

X. ORGANIZATIONAL BUSINESS/COMMUNICATION

A. Board Member Reports

Member Schreiber reported that she had enjoyed attending graduations at Grossmont Middle College High School, El Capitan High School, and Grossmont High School. She stated that she had the pleasure to attend the Golden Bee Awards at Chaparral High School. She also attended the JROTC Awards ceremony where Ms. Schreiber received an appreciation award, on behalf of the Superintendent and Governing Board, for their support of the JROTC program. Member Urdahl reported that he had participated in graduation ceremonies at Monte Vista, El Cajon Valley, and Valhalla High Schools.

GROSSMONT UNION HIGH SCHOOL DISTRICT
BUSINESS SERVICES DIVISION

Citizens' Bond Oversight Committee

Summary of the Meeting

September 15, 2004

Members Present: Jim Davis, Harold Hilliker, Bruce Husson, Phil Jankola, Chuck Muse, Ron Pennock, Bill Wells
District Staff Present: Bob Cornelius, Assistant Superintendent/Business Services; Patty Floyd, Director/Fiscal Services; Tom Silva, Director/Facilities; Esther Moosbrugger, Internal Auditor; Sharron Brown, Executive Secretary/Business Services
Bob Cornelius called the meeting to order at 6:10 PM

1.0 WELCOME/INTRODUCTIONS

After introductions, Bob Cornelius indicated that the organizational meeting of the oversight committee is to formalize the operating structure with regards to the legal requirements for the audit of expenditures as set forth in the language of Prop H ballot statement.

2.0 ELECTION OF OFFICERS

The meeting was turned over to Lauri LaFoe, District Council from Lozano Smith. Lauri opened the floor to volunteers/nominations for officers.

Phil Jankola nominated Bruce Husson for President, motion seconded by Jim Davis. All members approved motion. Bruce accepted the nomination.

Harold Hilliker nominated Ron Pennock for Vice President, motion seconded by Bruce Husson. All members approved motion. Ron accepted nomination.

Lauri explained the role of the secretary to the oversight committee. Lauri indicated the secretary does not need to be a member of the committee. Bruce pointed out the by-laws state the District shall provide secretarial services. Members requested that Sharron continue to provide secretarial support. Bob indicated that GUHSD would provide secretarial support to provide agenda's, minutes, etc. That support may not be specifically Sharron.

Bruce took over leading the meeting as President.

3.0 LEGAL STATUS OF THE CBOC

Lauri LaFoe explained the purpose of the Citizens' Bond Oversight Committee. The committee is charged with oversight of expenditures related to the bond money. The oversight committee can make recommendations to the Governing Board but the Board will make all decisions. The oversight committee is required by law to report to the Governing Board on an annual basis. It is planned that bonds will be issued approximately every two years with the next offering in 2006. However, the issuance of bonds will be dictated by assessed value of property within the district. First bonds, just over $60 million, were sold in late June. The oversight committee will make sure all bond revenue is spent in accordance with Proposition H. Members will be involved in auditing the expenditures. The oversight committee could conceivably be in place for 30 Ð 40 years. Lauri explained Prop 39 and explained that as a result, the District is required to have an oversight committee.

4.0 STATUS REPORT

Bob reported on what has been done so far. All involved need to make sure bond proceeds are spent efficiently and effectively. Bob indicated with the sale of bonds approximately $28 million is set aside in an irrevocable escrow account to cover the debt service on Steele Canyon and West Hills High School. The remaining $32 million along with redevelopment money, developer fees, and deferred maintenance money will be used for design and implementation of projects. Bob explained that San Diego County Treasurer is our banker. Everything will pass in and out of the County Treasurer. We do earn interest on the money in this account though it is at a fairly low interest rate.

The District has hired architects and consultants that have been working throughout the summer. HMC Group is the master architect, RNP is the support architect and Erickson Hall is the construction manager. A component of the Erickson Hall contract would allow the firm to manage some of the first set of bond projects. As the design process continues we will talk more about these firms. Over the summer teams from HMC & RNP went out to each site to analyze, take pictures and measurements. The structural part of sites is quite good. There are areas of need simply due to the age of some of our facilities. Many sites have no air conditioning; most need electrical upgrades and roof repair. Along with looking at the basic structure the sites were assessed for space utilization. Some buildings may need to be redesigned. The architects looked at traffic patterns, parking lots, food services building, admin buildings as well as the portables. An Education Spec team, including site teachers, administrators and the architects, was created to look at the needs for the classrooms of the future. The architects are beginning the fundamental design work so that we may get in line for the State matching funds. Bob feels that the bond money will take care of 75 to 80% of the needed projects.

There is massive planning time involved in developing the plans. Bob indicated he hopes to have a general construction sequence plan by the next meeting in December.

We face internal issues as well community issues that should be considered in the design of our sites. Safety issues are paramount.

Class size reduction impacts the district negative $1 million vs. funding the state gives us.

Bob talked about the reorganization of the Planning, Building and Maintenance departments under an Executive Director. With a new Maintenance Manager there will be maintenance teams that will be more focused on projects. Maintenance money is 2% of the general fund budget this year. Next year we need to increase our contribution to 3% of the general fund. This additional percentage amounts to approximately $850,000. This has not been an issue for us in prior years since we did not participate in the State Matching Funds program. Because of limited staff and limited funds for the area of maintenance, health and safety issues at our school sites have been the first priority.

Ron suggested breaking up into sub-committees with each group focused on specific areas. Bob indicated this would be duplicating the steps we are requiring the consultants/architects to complete. Chuck stated he felt this was not the role of the oversight committee as per the guidelines in the bylaws. Bill stated he felt if the committee gets involved in particular projects it would create a conflict with the purpose of the creation of the oversight committee. Phil agreed with the potential for conflict if committee members get too involved in the details of projects.

5.0 BOND MONEY

Patty talked about the disbursement of the bond proceeds. The County Treasurer has $32.8 million on deposit for

GUHSD, with the remaining $28.6 million in an escrow account for paying off the Certificate of Participation (COP's). Esther and Patty met with staff at Cajon Valley, Oceanside and Grossmont Cuyamaca Community College. These districts have successfully passed bonds. Patty and Esther reviewed how these districts are tracking the financial side of the bond, the software being used, information each district is presenting the their oversight committees. Patty's goal is to provide reports to the CBOC that meets the committee needs as well as generating the reports required by the state.
Esther wants to gain the confidence of the community by making sure the money is being spent as intended.
Esther indicated that External Auditors would perform annual audits.

6.0 OTHER

Date was set for next meeting: December 8, 2004 from 5:30 until 8:00. The meeting will be held in Conference Room 2 at the District Offices.
Bruce made a suggestion that the bylaws be altered to have the President or Vice President approve a draft of meeting minutes prior to minutes being sent to all members of committee. Lauri suggested that instead of changing the bylaws operational guidelines could be established to have one of the officers' review and approve draft of minutes prior to next meeting.
Committee members can either call or e-mail Bob with any questions they have.
Support staff contact information will be provided to committee members.
Lauri let committee members know that she represents Grossmont Union High School District, not the CBOC. She indicated that all legal questions would have to come to her through Bob.
Lauri was asked about the liability issues for the committee members. Lauri said she would look into the matter and issue an opinion to the District.
MEETING ADJORNED AT 8:10 PM

NEXT MEETING: WEDNESDAY, DECEMBER 8, 2004, 5:30 Ð 8:00
CONFERENCE ROOM 2

GROSSMONT UNION HIGH SCHOOL DISTRICT
BUSINESS SERVICES DIVISION

Citizens' Bond Oversight Committee

Summary of the Meeting

December 8, 2004

Members Present: Jim Davis, Bruce Husson, Phil Jankola, Chuck Muse, Ron Pennock, Bill Wells

Members Absent: Harold Hilliker

District Staff Present: Bob Cornelius, Assistant Superintendent/Business Services; Patty Floyd, Director/Fiscal Services; Jerry Vincer Executive Director, School Construction & Building Services; Esther Moosbrugger, Internal Auditor; Natalie Schuff, Bond Accountant; Sharr Brown, Executive Secretary/Business Services

Bruce Husson called the meeting to order at 5:35 PM

1.0 INTRODUCTIONS

Introductions were made around the room. New additions to District staff involved in the Bond: Jerry Vincent, Executive Director of School Construction & Building Services; Natalie Schuff, Bond Accountant.

2.0 ANNOUNCEMENTS/APPROVAL OF AGENDA & MINUTES

Bruce asked for all members to take a moment and review the minutes from the September meeting. Chuck Muse motioned for approval of the minutes; Jim Davis seconded the motion. Minutes approved 6 ayes, 0 noes, 1 absent.

3.0 PUBLIC COMMENTS

No public comments made.

4.0 FINANCIAL UPDATE

Patty Floyd introduced Natalie Schuff and gave a recap of Natalie's background and qualifications. Natalie comes to GUHSD from Corky Mc Millin. Natalie is a graduate of Granite Hills High School. Natalie and Esther met with the Bond Accountant at Oceanside to review the processes used by Oceanside.

Patty passed out a Bond Project Financial summary. She explained how Fiscal Services makes the determination as to the legitimacy of a particular project as part of the Bond Measure. Each approved project will be assigned a different project number for tracking purposes. Project numbers and project names will be expanded on the financial reports as time goes on. The Assessment Services phase of projects is nearly complete. The Program Management section of the budget is with Erickson-Hall. This part of the agreement will be billed on an hourly basis. Once the projects are defined the Construction Management part of the Erickson-Hall contract begins. Erickson-Hall will be involved in the bid specs, planning, etc. They will work with us on the first 25 million dollars of bond projects as Construction Manager. To date the largest bond related expense has been the assessment process.

Percentage of completion on projects can be seen as invoices are received and posted. You will see the cost to date vs. budget. This will give you an indication as to where you are in terms of percentage of completion.

5.0 PROJECT STATUS

Jerry Vincent informed the committee the Master Plan of projects should be ready by late January. The Master Plan will be the map of a 5 to 10 year program. As the assessment is completed the projects will be much more specific as to the school site, building, room.

Bob indicated that at this point in time projects are being driven by need as well as health and safety issues. Roofing has been a critical issue. Bob said that we might be completing roof repairs out of deferred maintenance money to take care of the immediate problem. The major roofing repair/replacement will then be done as part of the modernization project. The Aquatics projects were done because we had the opportunity to close the pool for the period of time required to complete the needed repairs.

Jerry stated he anticipates the infrastructure work will go out to bid by April. This bid will be for multiple prime setting with abatement, demolition, low voltage, high voltage. Jerry intends to look at the budget and bid packets on a timetable that allows for review and Board approval so projects can begin the day after school is out.

The District has an outreach program so that we may, to the best of our ability, work with local vendors and contractors in an effort to keep as much of the money as possible in our community.

A question was asked as to the Governing Board's participation in the approval process of projects. Bob told the committee the GUHSD Governing Board does not approve individual bond projects. The Board does approve the overall plan.

Jerry presented a PowerPoint status report which was shown at the November 18, 2004 Board Meeting. During the presentation Jerry emphasized the importance of submitting the documentation needed to secure state funds. The state matching money is one of the most critical issues. We need to get in line as quickly as possible. The Bond Ballot Measure states we will maximize State funding. Once plans are ready they will go to DSA together and come out together. The plans will then go to the state together and come out together, funded. From the time of funding we will have 18 months to go to bid. We will then have another 18 months to be substantially complete. Jerry intends to submit in plans in blocks starting with 5 schools, then 4 schools, then remaining sites.

There was discussion about demographics and enrollment projections and how our District will be impacted. Jerry indicated we have

various computer programs which provides the most current information available to help in the decision making process as to the needs of a particular school.

6.0 OTHER

Bruce indicated when Oversight Committee members are approached by media Bob and Jerry should be the point people to field the questions.

We have a variety of sources of money including bond proceeds, state funds, redevelopment agency money, deferred maintenance and developer fees. All of these have different rules of use attached to them. The Oversight Committee is responsible for the tracking of Prop H money.

Jim conveyed his appreciation to Bob for his diligence. All committee members are anxious to see the Master Plan.

7.0 NEW BUSINESS

No new business.

NEXT MEETING: WEDNESDAY, February 23, 2005 5:30 – 7:30
CONFERENCE ROOM 2

MEETING ADJORNED AT 7:30 PM

GROSSMONT UNION HIGH SCHOOL DISTRICT

May 11, 2005

DRAFT

Members Present: Jim Davis, Harold Hilliker, Bruce Husson, Phil Jankola, Chuck Muse, Ron Pennock, Bill Wells

Members Absent: None

District Staff Present: Bob Cornelius, Assistant Superintendent/Business Services; Patty Floyd, Director/Fiscal Services; Jerry Vincent, Executive Director, School Construction & Building Services; Natalie Schuff, Bond Accountant; Sharron Brown, Executive Secretary/Business Services

Bruce Husson called the meeting to order at 5:35 PM

1.0 INTRODUCTIONS

Introductions were made around the room.

2.0 ANNOUNCEMENTS/APPROVAL OF AGENDA & MINUTES

Bruce asked for all members to take a moment and review the minutes from the December meeting. Chuck Muse motioned for approval of the minutes; Jim Davis seconded the motion. Minutes approved 7 ayes, 0 noes.

3.0 PUBLIC COMMENTS

No public comments made.

4.0 FINANCIAL UPDATE

Patty Floyd and Natalie Schuff passed out a Transaction Detail Report and a Budget Development Report. Patty reviewed each of the reports for the committee. The Transaction Detail Report is broken down by site and by purpose, either modernization or assessment. The Budget Development Report lists the proposed budget for 2005/2006. Patty indicated a Monthly Budget Update is presented at each Board Meeting. This monthly report includes the Bond accounts.

As projects are started the committee would like to see reports indicating the budget for each project, budget revisions to date, expenditures to date, cost to complete, with percentage of completion.

5.0 PROJECT STATUS

Jerry Vincent informed the committee that several bids had opened in the last week. The bids opened include wet utilities and infrastructure. As the bids are awarded the budgets will be set up and the tracking the committee would like to see will be available. There was discussion about how the roofs held up through the rainy season. We had leaks throughout the District. Some of the roofing issues are being addressed at this point with Deferred Maintenance funds. The roof leaks prompted questions relating to mold and whether we are doing anything for mold remediation. Jerry indicated he is planning for this in the project budgets. His planning is based on expecting the worst. Jerry is working on bids for yearly unit pricing to work on mold and dry rot problems, allowing for this type of work in the project timeline.

There are several other projects going on, some are bond related and some are not. We are working on the El Capitan Field, Helix Track, and Steele Canyon lighting. Approximately 47 projects will be going on that are not bond related. The committee discussed the need for a workshop/tour of school sites, possibly on a Saturday, to view the progress.

Jerry indicated he plans to do video and digital photo documentation of all projects. Each month all work will be verified prior to releasing payments to vendors.

Jim asked about ADA compliance issues. Bob indicated he would be meeting with the Judge next week to give an update. The biggest issues we face at this point are our underground and multiple story buildings.

An overview of the GUHSD website relating to the Bond and the Oversight Committee was given by Jerry. The website shows the tentative meeting dates, agendas, minutes and various bond related PowerPoint presentations. Jerry also reviewed the Prop H area of the website which has frequently asked questions. At this point Jerry reviewed the Facilities Master Plan update which is on the website. Jerry reviewed the timelines indicated in the presentation. He indicated that we want to get to Office of Public School Construction (OPSC) by the end of the month. The State Architect is behind on processing. Jerry would like to get everything in to them by July. He feels the state may run out of money by October. It is very important for us to be in line for the state funding as it could mean up to $120 million.

A schedule of groundbreaking ceremonies will be developed by Jerry.

Bruce reminded the committee to refer all questions relating to projects to Bob.

6.0 DISCUSSION REGARDING ANNUAL REPORT

There is a requirement, as per the Bylaws and Operational Guidelines, to review and report on the expenditures of taxpayers' money for school construction. A report is to be presented on an annual basis to the Governing Board. Bruce Husson, President of the Oversight Committee, will present the annual report at the July Board Meeting. Bruce indicated Prop 39 specifies the requirements for the annual report. Bruce would like input from the other committee members on the presentation. It was suggested that Bob would work with the members on pulling together the documents to be included in the presentation. The committee members will then audit the report and respond with edits. Then, if the need arises, the members can meet to review the presentation. Jim Davis motioned to accept this action, Ron Pennock seconded the motion, and the motion was approved by all members.

The members would like information on the Prop 39 requirements. A check list of the requirements will be sent with the draft presentation as a way of verification that the criteria are met. Jim indicated he would like to see some of the committee philosophy included in the report. Bruce indicated he will draft a foreword to be included in the report. It was decided that a draft would go out to the committee in early June with edits to be returned within 5 days.

The first financial audit, which will be conducted by an outside audit firm, will cover 13 months. The first bond sale took place in June 2004. Therefore the first audit period will cover June 1, 2004 through June 30, 2005. The auditors will begin the first phase of the audit process during the week of May 23, 2005. We will be using the audit firm that is conducting the District's regular annual audit. There will be a separate report relating to the bond. Future audit periods will cover twelve (12) months, beginning on July 1, 2005 through June 30, 2006. This will coincide with the District's regular audit period, which covers our fiscal year.

7.0 MEETING DATE SCHEDULE

The committee reviewed the tentative meeting schedule as posted on the District website. Bruce has a conflict with the August 17, 2005 date. The committee members decided to change the meeting date to August 16, 2005 at 5:30. The rest of the dates posted on the website through February 2006 are acceptable. Bruce can schedule interim meetings as needed.

8.0 OTHER

Bill Wells indicated he would be interested in joining the local taxpayers association. Bob agreed to help Bill look into the process of joining the association.

Bob informed the committee that Sharron Brown is no longer his secretary. Bob indicated that it would be appropriate for his new secretary, Catherine Melick, to assume the duties as secretary to the committee at the next meeting.

Ron commented on how pleased he is with the Administrative staff at the District. Jerry commented how instrumental Fiscal Services and Purchasing have been to the success of what has been accomplished to date.

NEXT MEETING: TUESDAY, August 16, 2005 5:30 - 7:30

CONFERENCE ROOM 2

MEETING ADJORNED AT 7:15 PM

FINAL REPORT OF THE COMMUNITY BUDGET ADVISORY COMMITTEE

THURSDAY JUNE 16, 2005

TO: The GUHSD Governing Board

FROM: THE COMMUNITY BUDGET ADVISORY COMMITTEE

PURPOSE OF THE COMMITTEE

The purpose of the Committee was initially established by the GUHSD Governing Board by Resolution dated February 10, 2005. The Committee subsequently restated the Resolution into a Mission Statement.

MISSION STATEMENT AS DEFINED BY THE COMMITTEE

To review the District's current budget and multi-year budget projections and to assist the District in making appropriate budgetary recommendations in order to ensure financial solvency; to enhance transparency in the District's financial activities, reporting and record keeping.

FINANCIAL SOLVENCY

We define Financial Solvency as the result of a communicated planned budget process whereby Revenues are determined and known as to which are short term and those predictable amounts as on-going; Expenses are base lined –fully understood and controlled given defined purposes and scopes; Reserves reflect realistic contingencies, accounting for timing considerations and may be beyond State legal minimums -if reality warrants and the Governing Board concurs.

PURPOSE OF THE FINAL REPORT

The purpose of this report is

1) to advise the Board that we have met our Mission and
2) to provide the Board with the Committee's analysis while
3) encouraging the Board to seize the opportunity for further investigation, administration reporting and continued public input on our specific recommendations for action.

This Final Report is based solely upon *our* review of various financial records, requested information and independent research. ***We are not auditors. We are not consultants.*** We do appreciate those members of the public who met with us after the Interim Report was published, providing comment and questions for clarification. The information presented should provide the Governing Board relevant facts for its consideration in conjunction with the required adoption of any Budgets going forward.

COMMITTEE OVERVIEW/PROCESS & METHODOLOGY/MEMBERS

A. OVERVIEW

The Committee held eight duly "Noticed" public meetings. We requested and received materials and clarification in the course of our discussions to narrow our focus to address the Board's purposes in establishing this Community Committee. You will note that we have determined our Mission Statement from your purposes and our perspective. We deem ourselves to be independent and objective.

Previously we advised you of our need to hold a public hearing on our work to the Interim report date. We did so on Tuesday May17, 2005 @ 6:30 PM. We received public input and clarifying questions. Fortunately, there developed a free exchange of questions and answers/promises to provide follow up information between the public (Messrs. Aaron Landau, Brian Wilbur, Jason Lee, Mike Ritter and Ms Nicki Summers), the Superintendent, Dr. Ryan, Dr. Bob Cornelius and Ms Patty Floyd. Mr. Leonel Sanchez of the Union Tribune was also in attendance. Despite the temptation, we avoided using the media as a substitute for an open, face-to-face public process.

Frankly, we remain disappointed in the lack of public/parent "involvement," journalistic coverage and academic community interest in our efforts and processes - despite our meetings being "publicly noticed." Given what is at stake for the District/Students, we would have hoped for more direct professional-solution oriented involvement by all vested interested parties. We specifically requested that the Superintendent not attend any of our meetings beyond the first meeting where we confirmed the resources and process needed to proceed. We did so in order to convey our independence and avoid the potential appearance of influence.

Finally, one theme we have established is "enhancing communications and transparency recognizing that the algorithm of public education finances and methodologies have changed." We believe that this will assist members and organizations within the District Community to base discussions on mutually available facts and data.

B. FULL COMMITTEE PROCESS AND METHODOLOGY

All meetings are "noticed' and subject to the Brown Act.

As the agendas and minutes reflect, we focused our efforts within five areas with a committee member assigned to take the "point" as follows:

Ken Sobel-Revenue/General Research
Phil Jankola-Expenses
Ernest Ewin-Reserves
Mark Lewis-Communication
Ron Pennock- Ancillary items

C. COMMUNITY COMMITTEE MEMBERS

The Committee Members and their relevant biographical information is as follows:

† Ernest Ewin, Chairman

Member La Mesa City Council; Chrm Prop "R" Citizens Bond Oversight Committee for the Grossmont Cuyamaca Community College District; Member, Board of Directors, Metropolitan Transit System (MTS); Member, Board of Directors, Metro Reusable Water JPA; Chairman, Harry Griffen Park Joint Powers; Board Member of the Grossmont College Foundation; Past service to the GUHSD includes Prop H Steering Committee and BRC-Finance items; Presently a local Realtor; Former Local Banking Executive; Resident of East County since 1951

† Phil Jankola

Retired County Administrator and Budget Analyst; Member, Prop "H" Bond Oversight Committee; Past member, GUHSD Blue Ribbon Commission; Parent of a senior attending Granite Hills High School

† Mark Lewis

Mayor, City of El Cajon; Chair, City of El Cajon Redevelopment Agency; Member, SEIU; Member, SANDAG; Member, Board of Directors, Metropolitan Transit System (MTS); Former Councilmember, City of El Cajon

† Ron Pennock

32 years professional experience in the Land Title Insurance business; Former police officer; Chairman, GUHSD Blue Ribbon Commission; Chairman, GUHSD Prop H Bond Committee, Member, GUHSD Bond Oversight Committee; Chairman, East County Construction Council; Member, Political Policy Committee of the Building Industry Committee; Chairman, El Cajon Condo Conversion Task Force, Graduate, El Capitan High School; Grossmont Community College, and San Diego State University; Parent of three GUHSD graduates; Founding member of the El Cajon Hotspurs Soccer Club; Past coach, wrestling and baseball

† Ken Sobel-Vice Chairman
President, Grossmont College Foundation; Vice-Chairman, Grossmont/Cuyamaca College District Bond Oversight Committee; Immediate Past Chairman, La Mesa/ Spring Valley School District Bond Oversight Committee; Former Vice-President and Founding Member, La Mesa Parks and Recreation Foundation; Immediate Past President, La Mesa Athletic Council; President, Grossmont High School ("GHS") Athletic Booster Club; GHS Assistant Athletic Director; Recipient, California PTSA Volunteer of the Year Award (Spring Valley Middle School and GHS); ROSE Award recipient, La Mesa/Spring Valley School District; Project Coordinator: GHS: Raised $1,000,000 for artificial turf field & track; LM/SV: Raised over $2,000,000 for new athletic fields & facilities at various schools; Member of GUHSD Blue Ribbon Commission: Member, Steering Committee; Member of Sub-Committee on Revenue; Chairman of Sub-Committees on Extended Curricular Programs and District Transportation; AV Rated Attorney in Private Practice since 1980; Licensed in California and Arizona; Parent of recent GHS graduate (Alex, 2003), and son, Nick, a junior at Grossmont High School

We have included a tabbed binder including an Appendix listing of the various sources and materials we reviewed. The materials include the following:

† GUHSD, Formation of a Community Budget Advisory Committee
† Members, Community Budget Advisory Committee
† Purpose, Community Budget Advisory Committee
† Financial Impact of the Collective Bargaining Process on GUHSD Budget
† GUHSD Process for Communications
† San Diego County Office of Education Response—First Interim Report, 2004-05
† GUHSD First Interim Report, 2004-05
† San Diego County Office of Education Response—Second Interim Report, 2004-05
† GUHSD Second Interim Report, 2004-05
† GUHSD, Financial Analysis for the Forecasted Multi-year Projection by Vavrinek, Trine, Day & Co. LLP, March 3, 2005
† GUHSD Annual Financial Report, June 30, 2004
† Comprehensive Review, Phase II
† Master Schedule Review (Fiscal Crisis & Management Assistance Team)
† California Department of Education News Release: District Program Improvement
† Blue Ribbon Commission Report

GENERAL BACKGROUND INFORMATION

We acknowledge the continued current state of District contract negations but continue to believe that our purpose is best served by recognizing the more common ground as to financial issues. That said, as we noted in our Interim Report presentation, the financial and educational challenge to the District is neither unique nor isolated to this County or District. We cited the

recent Rand Corporation Report (5/2/05), which describes the California school funding woes and concomitant declining student performance level. We have provided a copy as *Exhibit "A"*

OTHER LOCAL DISTRICTS AND THE BUDGET CRISIS

Similar financial and budget problems have been widely reported in San Diego County. For example, please refer to the San Diego City Schools website, www.sandi.net, recent San Diego Union articles, e.g., "Declining enrollment hits city schools in the wallet," SDU-T, 4/07/2005, and the budget reductions in the Sweetwater Union High School District; see SDU-T article, 4/20/05: "South County high school board slashes budget again."

In addition, the reader may also wish to consider the articles published by the AFT regarding public employee and teacher salaries. The 2003 Survey of Salary Trends reports that a 3.3% increase in 2002-03 salary was "dwarfed by staggering increases in the cost of health insurance benefits – which spiked an astounding 13 percent, the Bureau of Labor Statistics reports." The 2004 Survey notes that "[public employees] salaries are at a standstill – a result of continuing budget pressures plaguing the states..." and that "states still are struggling to rebound from the nation's economic slump," and that "states have significantly reduced salary increases...to 0.45% in 2003-2004."

In light of the foregoing, we are certainly not alone when it comes to finance and budget issues.

GUHSD STARTING POINTS AND OVERVIEW

The initial starting points included an analysis of the recent District Audits, and an analysis of the District's Budget and Financial Statements. This process, within the context of San Diego County Office of Education oversight, cannot be underestimated. It is key, and encapsulates the key issue facing this District. Does the District have an understanding of its finances and that further ***deficit spending is not an option***? How does the District navigate the narrow financial straits and improve student performance to weather "The Perfect Storm," as described in Exhibit B.

Thereafter, each of five areas' (Revenue, Expenses, Reserves, Communication & Ancillary Items) were discussed along with clarifying materials. We have quickly narrowed our focus to the realities of key components and required legal oversight.

We asked ourselves:

A) Is the financial information requested and provided accurate and reliable to the extent that 3rd parties have performed their due diligence?
B) Are there legal reporting requirements that the District must now perform; ones that we can rely upon those results?
C) Are there circumstances that have arisen beyond the scope and since the BRC made its report?

D) What is financial solvency?

AUDITS

The 2003-2004 District Audit was prepared by Vavrinek, Trine, Day & Co., LLP, an accounting firm with specialized expertise in public schools and school districts. The audit was carefully reviewed by the Committee.

The audit disclosed no "material weakness" involving the internal control over financial reporting and its operation.

There were some instances of "reportable conditions" which essentially relate to non-compliance but do not arise to the level of a material weakness. Those generally relate to time documentation for employees applicable to Special Education, Title II, and Medi-Cal programs, which are categorical programs. The District is taking steps to bring those matters into compliance.

BUDGETS AND FINANCIAL STATEMENTS: REVIEW BY SAN DIEGO COUNTY OFFICE OF EDUCATION (SDCOE)

The committee carefully reviewed and analyzed the SDCOE's interim reports of January 3, 2005, and March 29, 2005, as a starting validation point. The SDCOE reports analyze the financial and operational condition of the District, and such analysis is authorized by State law. The information provided by SDCOE is evaluated and ratified by the committee.

The SDCOE provides oversight of 42 school districts in San Diego, including GUHSD. Such oversight is mandated by Education Code Section 4213, et. seq. (generally known as "AB 1200"). Administrative regulations adopted pursuant to the Education Code establish a mandatory 3% contingency reserve, which is calculated upon the gross expenditures of the District.

Revenue Chair, Mr. Sobel, conferred with Victoria Carreon, the consultant for SDCOE. The meeting confirmed the information and data set forth in the first and second interim reports of January 3, 2005, and March 29, 2005.

Additional information gleaned is as follows:

1. District continues to get a positive report.

2. District would likely get a qualified or negative report if submitted budget or the actual end of year resulted in a negative contingency. Such an outcome would trigger a number of actions by SDCOE including a Receivership-type situation.

3. District experienced a deficit during the 2003-2004 fiscal year, and is currently in deficit for 2004-2005, although the extent to such deficit currently is somewhat of a "moving target" until fiscal year end (i.e., June 30, 2005).

4. Major components in 2003-2004 Loss:
   a. Spike in health care costs (+$1 mil.)
   b. State NEGATIVE COLA (Ca. took back 1.2%)
   c. Cuts in Categorical Programs
   d. Costs > Projected Costs

5. Major components in '04-'05 Loss:
   a. Carryover expense
   b. Enrollment projection off (+300 v. +3 = -297)
   c. Staffing Plan Faulty (Refer to FCMAT report)
      (i) Too many classes/teachers
      (ii) Value adjustment (Units/$)
   d. Example: revenue based on ADA of 5 periods; teachers work 5 period with 1 prep. period per day; student takes 6 classes; teacher paid "6/5th", or 20% on top of regular pay plus benefits.

REVENUE SUB-COMMITTEE PROCESS

The following specific review process was undertaken by the Revenue Sub-Committee, Chaired by Ken Sobel:

1. Review and analyze critical books and records of GUHSD.

2. Committee discussions regarding "big picture" concerning budget, finance and transparency.

3. Interview sessions:
   a. Meet and confer with Victoria Carreon Consulting Business Advisory Services, San Diego County Office of Education and author or SDCOE letters dated January 3, 2005 and March 29, 2005; Meet and confer with Patty Floyd, GUHSD Fiscal Services Director; Meet and confer with Bob Cornelius, Assistant Superintendent, GUHSD business services, Patty Floyd, Phil Jankola, Member of "Baby Blue" and Expense Sub-Committee Chairman.
   b. Meet and confer with Superintendent Terry Ryan (5/05/05)
   c. Review FCMAT Reports re: Master Schedule and related issues.
4. Review selected Budget items identified as "categorical".

REVENUE ANALYSIS

Reviewed Sources of Revenues- can they be increased?

A. Based upon review of relevant documents, interviews with the individuals identified above, and with committee discussions (5 separate two-hour discussions), and review of the BRC findings/conclusions/recommendations of 2002, the following observations are made:

Documentation

GUHSD Annual Financial Report/Audit dated June 30, 2004.

The report is comprehensive, complete and establishes that the District's Financial Statement, and all material respects are in conformity with accounting principles generally accepted in the United States of America. (Independent Auditor's Report, 6/30/2004 at p. 2)

The actual deficit in revenue against Expenditure in the amount of $4.467 million (2003-2004).

B. Revenues are broken down into four (4) categories:

a. Revenue limit sources
b. Federal Sources
c. Other State Sources
d. Other Local Sources.

Generally, the revenue limit sources are based upon Attendance (ADA).

EXPENSES

The Committee Reviewed Major Categories of Expenses. We asked ourselves what percentages/ amounts are fixed and what are variable? What legal requirements require specific minimums be maintained such as 3% of General operating Budget for maintenance as required by Senate Bill 50 (introduced 2/25/97) and Chaptered under Ed. Code Section 17070. Please refer to Blue Ribbon Commission Report, pp 92 – 93. These items remain "key" in the Expenses analysis.

A. Availability of Certain Categorical Funds for Program Improvement

In our initial evaluation of the budget, certain conclusions and recommendations were based upon items in the budget that were identified as "categorical." The working definition of the Committee with respect to "categorical" programs is based upon the premise that such funds/revenue is limited by Federal or State law or regulation (i.e.,

"external" control) i.e., that any expenses against such revenue were limited by "scope" of the applicable regulation.

Further research and evaluation suggests that there may be certain budget items previously identified as "categorical" under the above definition, that in reality are only subject to "internal policy" of the Board, written or unwritten, but otherwise would be available for other School/District uses subject to board approval. It is imperative that we identify all of the budget items that may be subject solely to "internal" categorical restriction, so that current district needs can be met. Of course, such expenditures still must be subject to the governing principle that care must be taken in determining what expenditures can be made when the revenue sources in future years to support future claims are either unavailable or uncertain.

In any event, these "internal" categorical items may include, but are not necessarily limited to the following:

1. 1.1 million power school/student system
2. 700,000 health/benefit category
3. Portion of books/supplies budget item

B. A Clear and Transparent Budget Process

One additional way the district could provide a clearer, more transparent budget process to all concerned parties is to create a database that lists all mandated and non- mandated activities at the subprogram level. It would also include the District's required match and any overmatch by revenue source. Such a data base should clearly show where the Board has financial flexibility.

The data base would have four categories: Mandated Programs/ Mandated Service Levels (MMSL); Mandated Programs/ Discretionary Service Levels (MDSL); Discretionary Programs/ Mandated Service Levels (MDSL); Discretionary Programs/Discretionary Service Levels (DDSL).

MMSL are subprogram activities where the District Board has limited direct authority to eliminate or reduce the service level. An activity is considered mandatory if the function and service level are required by either Federal, State statue, court ruling or District Charter. A service level is considered mandated if the legislation/ regulation dictates caseload size, staffing requirements or timeliness of service.

MDSL subprograms are activities which are required by law (Federal, State, Court ruling or District Charter) but the service level is left to the discretion of the District Board.

DMSL subprograms are activities which the District is not required to operate. However, if the District chooses to operate these programs, the law generally stipulates the service level as a condition of funding.

DDSL subprograms are activities which the District is not required to operate and for which the service level is optional.

RESERVES

Revenue–Expenses = Reserves Adjustment//Surplus or Deficit/Encumbered but not expended.

The Committee process reviewed the Board's written policy regarding reserves, focusing upon the San Diego County Office of Education communications dated January 3, 2005, and March 29, 2005, addressing Deficit Spending. California Education code section 33128 establishes the minimum reserves requirement.

By reviewing the current composition of the "Reserves" one can address a number of key questions about the process. There have been questions raised by individuals outside of the Committee regarding specific balances at static points in time. These are best addressed within the context of time period sequences and hopefully by attending future Budget Study Sessions. Any amounts in the Reserves are **not** available for incurring additional on-going expenses. With the exception of "Insurance Benefits" and "Undesignated", the other funds are spoken for/pre-designated. The funds earmarked "Student System" reflects an amount set aside previously to be applied to a new system to replace Power School.

The Balances in the line item "Undesignated" at year-end will basically reflect the financial performance results. We look forward to a public disclosure and explanation as to the sources of any account performance variances reflected in the "Undesignated" component of Reserves.

We believe that the readers will soon see an additional category to reflect current year's budgeted Maintenance amounts, not spent. With the passage of Prop H under Prop 39 (55% provision), the district is now required to expend/ set aside 3% yearly for maintenance (2005-06 reflects an additional $700,000 from 2004 levels) to meet this requirement.

Amounts in the Reserves need to be continually documented by a separate exhibit to the Monthly Financials so as to avoid the confusion that the funds are available for on-going expenditures.

BUDGETS/DEFICITS

GUHSD experienced a deficiency (Expenditures over Revenues) as follows:

a. 2002 - 2003 Actuals: ($1.722 million)
b. 2003 - 2004 Actuals: ($4.467 million)
c. 2004 - 2005 Projection as of 3/29/05: ($3.236 million)

Under current projections, the District's deficit spending will produce an unappropriated balance of an estimated $311,849 over the ***minimum*** 3% contingency required by law. As with our own

household budgets when we don't have enough income to cover our expenses, we seek ways to increase revenue (get a second job, new job that pays more, temporary loan) cut our discretionary expenses (eat out less, don't buy the dirt bikes) and hope we don't get seriously ill. There is an eventual "pay the Piper" reckoning when living beyond one's means.

COMMUNICATIONS

Requested and Reviewed the District's summary of how it communicates with the public. The District provided the following summary:

> "The Grossmont Union High School District (GUHSD) communicates with members of the public in the following ways:
>
> † Utilization of the District's automatic telephone caller.
> † The establishment of two telephone message lines where parents can call and receive updated district voice recorded messages.
> † School newspapers
> † School Accountability Report Cards
> † Bulletins and newsletters
> † Posting of graduation requirements
> † Posting of Blue Ribbon Commission reports
> † Posting of a variety of issues on the District website (www.guhsd.net) such as news events and updates, Governing Board meeting agendas and minutes, District curricular programs and sporting events, Collective Bargaining reports.
> † Utilization of public announcements on San Diego radio stations: 760.KFMB, KSON 97.3, XLTN 104.5 (Spanish-speaking station), KLTN 104.5 (Spanish-speaking station), KSNDM, local artist, KGB FM 101.5, classic rock, KFMB
> † Utilization of public announcement son television, KGTV – Channel 10, XETV – Channel 6, NBC – Channel 39, KPBS, and on Instructional Television
> † Utilization of print and electronic media: San Diego Union Tribune, East County Herald news, The East county Californian, The View of San Diego, Internet Newspaper, La Prensa (Hispanic newspaper), Voice and Viewpoint (African-American newspaper).
> † Utilization of large public events where parents and members of the community are present.
> † Football announcements, program announcements and other District events
> † Community organizations (Rotary, Lions, Kiwanis, etc.)"

ANCILLARY ITEMS

In the course of our meeting discussions, issues of importance have been cataloged. We have listed those as follows: To not address them would be intellectually dishonest.

ISSUES/CONCERNS/CHALLENGES/REQUESTS

1. PROP "H" Repair/Renovate/Construct on School Sites:
(for Bond text please go to Appendix List)

We believe that there is an expectation on the part of the taxpayers (and Law 3%) that the General fund budget will be used to maintain school facilities as on-going maintenance (no deferred Maintenance). We expect that an attitude of care and respect will be a by-product of the Bond expenditures and that the facilities never be allowed to deteriorate to the levels that were prior to Prop H being approved by the voters/taxpayers.

We believe that anticipated cost savings attributed to efficiencies associated with repairs and renovations should be directed towards current maintenance items not to the General Fund. However, savings realized may be more from minimizing operational expense *increases* vs. direct *reductions/savings.* Prop H Bond expenditures are not to be viewed as freeing up monies for use for salaries, programs or wish list items.

However, it is critical that the District specifically identify the sources of funds used to pay COPs, the amount of such revenues that will be then available once all COPs are retired by bond proceeds or special fee assessments, the restrictions, if any, upon the use of such proceeds, a commitment to use such proceeds for repair or maintenance, and finally, whether such permutations may result in "unrestricted" income for educational purposes.

Also, the District should carefully consider additional permanent improvements as it relates to energy usage on a lease finance basis to maximize the utility of bond funds for other purposes? Recent e.g., see article, San Diego Union, 4/05: "14 S.D. Unified buildings get solar panels."

2. Fully document and breakdown the 3.93% State COLA; but, when talking about salary increase reflect the 1.4% automatic upward adjustment based upon "Step/Column" years of service/education. In other words, all parties should present compensation issues in terms of the "Total Compensation package" so as to accurately determine budgetary increase impacts in all categories including automatics.

3. Spiraling Health Care Costs: 10-12% x 3 years. Whatever is agreed to needs to be reflected in the "Total Compensation Package values. It should be reflected that currently, a significant portion of the healthcare premiums are paid for by the District. A join effort needs to be looking for programs that provide good coverage but may be available at a lower cost.

4. State may shift about $1.5 million of retirement costs to school districts? District needs to identify now how this or like reductions will be addressed in the future.

5. Declining enrollment impacts in each of the next 10 years needs to be realistically addressed by all community parties (Santee crisis): See article 4/7/05 *(Related issue of spending Prop. H on schools in light of declining enrollment)*

6. Disclose the Financial Consequences Related to Student Performance: GUHSD is one of about 15% of School Districts statewide recently identified for Program Improvement relating to "NO CHILD LEFT BEHIND."("NCLB").What is the cost/benefit of increasing student performance? See Exhibit B, "The Perfect Storm." What are the financial risks if performance is not improved?

7. Unfunded/Under-funded State Mandated Programs: The net effect upon the district is currently estimated to be $6,088,000 (primarily special education). We are not judging the merits of these programs. There needs to be a unified effort of members of the GUHSD Community addressing this impact starting with elected representatives in Sacramento.

8. Offering More Classes than Reimbursed: Financial times and circumstances dictate that the District not provide more programs than the State of California funding covers. Currently that is 6 periods a day. Can additional revenue sources be identified? [Question: Whether GUHSD students can take college courses at Grossmont College (e.g. Grossmont Middle College) vs. AP courses in High School?]

9. School Sites: Has a reasonable review of Feeder School districts been undertaken so as to evaluate current school sites use and continuance **before** Prop H and maintenance funds are allocated?

10. Busing and Transportation Costs: We believe that serious efforts be undertaken with other local districts for mutual efficiencies

11. Absenteeism: Alternatives and efforts to decrease to a zero tolerance is critical. Annual cost/revenue lost is estimated to be $2.8 million.

12. Review and update the recommendations of the BRC. Please!

13. Reserves Methodologies: Need to be viewed exactly for what they are as necessary by definition-per category/line item and not subject to negotiations.

14. Deficit Spending: Recent legal changes take this past reality/strategy out of the equation. PERIOD!

15. Improving Student Performance (#6) and reducing Absenteeism (#11) will be enhanced by the "Paradigm Shift," as described in Exhibit C and related material from the Blue Ribbon Commission Report.

RECOMMENDATIONS

1. Establish an ACTION Committee on efficiencies and waste with teacher, staff administration representatives chaired by a representative of the public/taxpayer. Establish or revitalize community groups to assist and participate with shared governance philosophy.

2. Enhance Communications Systems. The Web site needs to be rebuilt professionally with the objectives of transparency, timely updates and enhanced communications having abilities and capabilities to interact with the public. We note that this process of revision has begun.

3. Simple Financial/Budget Statements. We believe that many of the misunderstandings and impasses result from not communicating simple financial statements with the abilities to drill down as needed. Utilizing the Web is an effective system if used and understood by the general public. There are disagreements as to whether funds are "hidden" or were not properly represented. We did not see this. The Board receives monthly financial reports. We believe that Parties with questions need to avail themselves of district informational opportunities such as the Budget Study Sessions. The Public needs to be more actively invited to attend.

4. Revenue Recommendations

   a. Third Party/Private Fund Raising: GUHSD Umbrella Foundation
      i. Alumni Database/GHS Pilot Project
      ii. The "Big" Grossmont:
      iii. Proper Staffing and Funding leads to Greater Gain

   b. Re-Examine Tardy/Absentee Policy

   c. Extended Curricular/Co-Curricular Program Enhancement; See Exhibit C, "The Paradigm Shift."

   d. Sell/Lease Surplus Property.

   e. Explore and present the Parcel Tax as an option for additional revenues to fund specific classes/activities.

   f. Consolidation of East County School Districts and/or consolidation of specific programs: transportation, special education, etc. Consider "EAST COUNTY SUMMIT" to deal with these issues.

   g. ZERO TOLERANCE FOR UNFUNDED MANDATES.

   h. Holistic approach to sharing future revenues: build 3 year budgets with consensus from all constituent groups, i.e. how much can be spent on material v. salary...better to employ more at a lower salary (younger/less credentialed) v. higher salary (older/more credentialed).

5. Public taxpayers have a right to know bargaining positions. All parties to bargaining should be willing to provide written back up to substantiate claims and positions at the onset. No "spaghetti" approach of throwing out statements to see what sticks. If the

media is going to receive financially referenced text, it should be accompanied by back up materials. It would greatly assist this Committee in cross verification.

6. All new and on-going District programs should be evaluated within a total cost recovery/revenue assurance basis/going-forward approach.

7. Expenses are generally ongoing and any increases should be viewed as part of a new going forward fixed total. Future impacts must be taken into account. If funding sources cannot be substantiated for the next two years, the increase should be subject to reversal or not go forward at all.

8. Revenues have a reliable component and need to negotiated from a position of transparency. Temporary funding items are not eligible for long-term expense/financial commitments.

9. Trades and Vocational Educational training programs need to be given a priority along with the College Prep programs. This is an opportunity to return to the community a skill set that can provide stability in the employment base as well as taxpaying contributors. These programs also encourage continued school attendance by students not interested in the norm for college prep. We suggest developing a two-year test program to monitor the effect on attendance (hence ADA) of this focus.

11. Before Prop H funds are expended further and after quickly reviewing demographics, would a campus such as El Cajon, for example, be suited as a vocational and technology hub campus?

CONCLUSIONS

Within the context of the District's recent significant deficit spending to fund ongoing programs with declining year-end balances, serious strategic planning and multi-year budgeting is absolutely essential to maintain the future fiscal stability and the financial integrity of GUHSD. Future costs of doing business are not only subject to rising inflation and interest rates, but also to supply and demand. The state and federal economies most likely will continue to limp along. Volatile costs related to energy, health care, transportation and construction materials are here to stay. Current revenues will for the most part remain flat at best. We cannot wait in the middle of Sacramento's current political quagmire for a hasty financial fix. Nor can we rationally expect assistance from Washington given their all too familiar situation. All facets of the District including but not limited to the Board, administration, employee bargaining units, teachers, classified employees, students, parents and concerned citizens must cooperatively explore innovative, outside the envelope, creative programmatic solutions to control costs and enhance revenues. The District's future is now!

1. We find that the financial methodologies/reports (we reviewed) and the concurrence of independent auditors, as well as the San Diego County Board of Education, are reliable.

2. We find that sources of revenue are extremely tight and well defined. Times have changed and all reasonable means of providing needed, unfunded courses/programs should be explored and explained to the community.

3. We find that immediate action is warranted in order to find outside revenue sources (third party fundraising) and to increase extended curricular activity/ vocational /trades education in order to improve attendance, retention and student performance.

4. Develop a better website that is comprehensive, user friendly and enables the District and related entities to fully and effectively communicate with **all** community members all relevant information concerning the District, secondary education, and to provide transparent financial information (noted some development recently initiated).

5. We need to utilize multiple modalities to communicate our methodology and goals of educating the students keeping in mind the finalized impact upon the district.

6. Please continue to review the findings and points of the BRC but ensure that the teachers, staff and parents have input in the progress reports

Lastly, we commend the developing current approach of the District Administration in seeking community input on the issues confronting this District, including budget and finance. Revenues are too unpredictable to allow site discretion to continue without fully understanding the long and short term effect of each and every taxpayer dollar spent. An increase in expenditures this year-any year- may stay with the District for years to come when revenues may slacken off.

In view of significant under-funding of public education, spiraling costs, unfunded mandates and shifting regulations limiting school choices, proven private sector principles need to be employed to ensure future financial solvency. All of this said, we believe that future budget balancing strategies and multi-party negotiating positions should reconsider the past practice of placing the compensation/employment risk on the newest teachers/employees-who may in fact be among the best. We call upon all parties to periodic negotiations to seek ways to identify and focus on common causes for the sake of the students.

A Genda

VII. **CONSOLIDATED MOTION (Continued)**

B. Human Resources (Continued)

19 7. Adoption of Resolution (2004-06) Recognizing May 12, 2004, as Day of the Teacher

20 8. Adoption of Resolution (2004-12) Recognizing May 24, 2004, as Day of the Administrator

21 9. Adoption of Resolution (2004-09) Recognizing May 17-21, 2004, as Classified School Employee Week

22 10. Ratification and Approval of Adoption of Resolution (2004-13) on the Impact of Repealing Social Security Penalties on Teachers

23 11. Approval of Certification for Employment of Noncredentialed Coaches

C. Information and Technology Services (Warren Williams, Assistant Superintendent)

same 1. Ratification and Approval of Employment of Consultants in Compliance With Government Code Section 53060; and Authorization for Superintendent or Designee to Execute Necessary Agreements

D. Business Services (Bob Cornelius, Assistant Superintendent)

same 1. Ratification and Approval of Employment of Business Consultant in Compliance With Government Code Section 53060; and Authorization for Superintendent or Designee to Execute the Necessary Document(s)

same 2. Ratification and Approval of Revisions to the 2003-2004 Budget:
a. Transfer Funds Between Major Budget Categories
b. Transfers Affecting Revenue and Expenses
c. Transfers Affecting the Fund Balance **(Separate Document)**

24 3. Ratification of Authorization to Seek Bids, RFP's and/or RFQ's for All Projects Identified, Approved, and Prioritized for Funding Under Proposition H

25 4. Ratification and Approval of Contractual and Encumbered Purchase Orders and Paid Warrants

26 5. Ratification and Approval of Maintenance, Service, and Licensing Agreements and Warranties; and Authorization for the Superintendent or Designee to Execute Same

27 6. Approval to Renew Agreement (A-4694R8) with SixTen Associates to Prepare and File Mandated Cost Claims for 2004-2005; and Authorization for Superintendent or Designee to Execute Same

28 7. Ratification and Approval of the El Cajon Adult Center Distance Learning Program Checking Account and Adoption of Resolution (2004-07) to Approve Authorized Signatories on Such Account

29 8. Approval of Monthly Budget Summary for the Period Ending February 29, 2004 **(Separate Document)**

30 9. Approval of Change Order for the Helix Charter High School Relocatable Project

31 10. Authorization for County Auditor and Assistant Superintendent, Business Services, to Reissue Outdated Warrants

32 11. Authorization to Exercise Third Renewal Option Under Bid #2893, Districtwide Rubbish Removal & Recycling Service; and Authorization for Superintendent or Designee to Execute Same

33 12. Authorization to Participate on an On-Going Basis in the State of California, Department of Motor Vehicles Employer Testing Program; and Authorization for Superintendent or Designee to Execute Same

34 13. Authorization to Enter into a Contract with San Diego County Air Pollution Control District for Installation and Reimbursement of Expenses to Retrofit Eleven School Buses with Diesel Particulate Filters

35 14. Authorization to Seek Bids for Refinishing of Gymnasium, Dance, Wrestling and Recreation Room Floors Districtwide

36 15. Adoption of Resolution (2004-04) of the Grossmont Union High School District Authorizing the Borrowing of Funds for Fiscal Year 2004-2005 and the Issuance and Sale of One or More Series of 2004 Tax and Revenue Anticipation Note Therefor in an Amount Not to Exceed $5,000,000 and Participation in the San Diego County and School District Tax and Revenue Anticipation Note Program and Requesting the Board of Supervisors of the County to Issue and Sell Said Notes; and Authorization for Superintendent or Designee to Execute All Necessary Documents

37 16. Adoption of Resolution (2004-08) to Establish a Building Fund and Debt Service Fund (21-31) for the Purpose of Receiving, Holding, Investing and Disbursing of Funds From the Proceeds of Proposition H and For the Receipt of Levied Taxes

38 17. Adoption of Resolution (2004-11) Authorizing Election Under Public Contract Code Section 22030 To Become Subject to Uniform Public Construction Cost Accounting Procedures; and Authorization for Superintendent or Designee to Execute Same

Agenda

CONSOLIDATED AGENDA (Continued)

B. Human Resources (Continued)

13. Approval of Retirement Incentive for Grossmont Union High School District Management Employees for the 2003-2004 School Year

C. Information and Technology Services (Warren Williams, Assistant Superintendent)

1. Approval of Employment of Consultant in Compliance With Government Code Section 53060; Authorization for Superintendent or Designee to Execute Necessary Agreements

D. Business Services (Bob Cornelius, Assistant Superintendent)

2. Ratification and Approval of Revisions to the 2003-2004 Budget:

   a. Transfer Funds Between Major Budget Categories
   b. Transfers Affecting Revenue and Expenses
   c. Transfers Affecting the Fund Balances **(Separate Document)**

3. Ratification and Approval to Adopt Resolution (2004-24) Authorizing the District to "Recapture" Restricted Ending Balances From June 30, 2003, as Allowed by Senate Bill (SBX1 18)

4. Ratification and Approval of Contractual and Encumbered Purchase Orders and Paid Warrants

5. Ratification and Approval of Maintenance, Service, and Licensing Agreements and Warranties; and Authorization for the Superintendent or Designee to Execute Same

6. Ratification of Agreement (A-5223R1) With Elite Show Services, Inc., to Provide Security Services to All District Sites as Needed; and Authorization for Superintendent or Designee to Execute Same

7. Approval to Offer and Administer a Student Accident Insurance Program Through a Company Named "Student Insurance" for the 2004-2005 School Year; and Authorization for Superintendent of Designee to Execute Same

8. Approval of Monthly Budget Summary for the Period Ending April 30, 2004 **(Separate Document)**

9. Approval of Grant Agreement (A-5300) With County of San Diego for All-Weather Track, Helix Charter High School; and Authorization for Superintendent or Designee to Execute Same

10. Approval of Agreement (A-5299) With Special District Financing & Administration for the Preparation of the Annual School Facilities Needs Assessment and Related Student Generation Rate Analysis; and Authorization for Superintendent or Designee to Execute Same

11. Approval to Amend and Renew Agreement (A-4826R1b) for Student Transportation Services; and Authorization for Superintendent or Designee to Execute Same

12. Adoption of Resolution (2004-26) Establishing Procedure in Event of Tie Vote Between Candidates in Forthcoming Board Election; and Confirmation of Previously-Adopted Policy of Board's Desire to Not Pay Costs of Candidates' Statements and Other Materials Sent to Voters

13. Adoption of Resolution (2004-28) Calling for the State Board of Education to Deny the Petition Without Review For Reorganization by Unification of the Area of Alpine Union School District with Grossmont Union High School District

14. Adoption of Resolution (2004-29) Allowing the Performance of Emergency Work Due to Power Outage, Granite Hills High School

15. Adoption of Resolution (2004-27) Approving Adopted Budget as the District's Official Budget for 2004-2005 **(Separate Document)**

16. Authorization to Exercise First Renewal Option Under Bid #2950, Dairy Products for All District Cafeterias; and Authorization for Superintendent or Designee to Execute Same

17. Authorization for the Superintendent or Designee to Execute Agreements With Private Parties for Transportation of Special Education Students

18. Authorization for County Auditors and Assistant Superintendent, Business Services, to Reissue Outdated Warrants

19. Authorization to Appoint Seven Members to the Citizens' Bond Oversight Committee

Agenda

VIII. CONSOLIDATED AGENDA (Continued)

C. Business Services (Bob Cornelius, Assistant Superintendent)

1. Ratification and Approval of Employment of Business Consultants in Compliance With Government Code Section 53060; and Authorization for Superintendent or Designee to Execute the Necessary Agreement(s)

2. Ratification and Approval of Revisions to the 2004-2005 Budget:

   a. Transfer Funds Between Major Budget Categories
   b. Transfers Affecting Revenue and Expense
   c. Transfers Affecting the Fund Balance **(Separate Document)**

3. Ratification and Approval of Contractual and Encumbered Purchase Orders and Paid Warrants

4. Ratification of Award of Bid #2986, Demolition for Site Infrastructure for Grossmont, Helix Charter, El Cajon Valley, and Granite Hills High Schools, to the Lowest Responsive Bidder Meeting District Specifications

5. Award/Rejection of Bid #2985, Roofing Removal and Replacement at Helix Charter and Granite Hills High Schools, to the Lowest Responsive Bidder Meeting District Specifications

6. Award/Rejection of Bid #2987, Athletic Track Replacement at Helix Charter High School, to the Lowest Responsive Bidder Meeting District Specifications

7. Award/Rejection of Bid #2989, Electrical Housing and Power Upgrades at Granite Hills High School, to the Lowest Responsive Bidder Meeting District Specifications

8. Award/Rejection of Bid #2990, Electrical Housing and Power Upgrades at Helix Charter High School, to the Lowest Responsive Bidder Meeting District Specifications

9. Award/Rejection of Bid #2991, Electrical Housing and Power Upgrades at El Cajon Valley High School, to the Lowest Responsive Bidder Meeting District Specifications

10. Award/Rejection of Bid #2992, Refinishing of Gymnasium, Dance, Wrestling, and Recreation Room Floors Districtwide, to the Lowest Responsive Bidder Meeting District Specifications

11. Award/Rejection of Bid #2988, Ball Field Lighting and Power Upgrade at Mount Miguel High School, to the Lowest Responsive Bidder Meeting District Specifications

12. Approval of the Monthly Budget Summary for the Period Ending May 31, 2005 **(Separate Document)**

13. Approval of Symetra Life Insurance Company as a Tax Sheltered Annuity; and Authorization for Superintendent or Designee to Execute Same

14. Authorization to Seek Bids for Time and Material Rates for Asbestos Abatement, Decontamination Work, and Removal of Debris Generated During a Response Action

15. Authorization to Seek Bids for Pool Chemicals Districtwide

16. Authorization to Award Bids Received During the "Dry Period" Between July 8, 2005 and September 7, 2005, Subject to Ratification by the Governing Board at the Earliest Board Meeting Subsequent to Bid Evaluation

17. Acceptance of Donations; and Authorization to Send Letters of Appreciation on Behalf of the Governing Board

IX. ITEMS PULLED FROM CONSOLIDATED MOTION TO BE VOTED ON SEPARATELY – No Items

X. ORGANIZATIONAL BUSINESS/COMMUNICATION

A. Board Member Reports

Vice President Wills (no report) Member Urdahl reflected on his time as a Board Member and his commitment to the parents and students of this District. Mr. Urdahl then made the following statement: "I would like now to go on record that what I would like to hear in a public forum is a timeline of what to expect in the future from the Bond Oversight Committee. For example: How often will the meetings be held? How will these meetings be noticed? How often will the website be updated? What information will be on the website? In conclusion, it is my hope that the District provides this committee with any and all information that they need or request to do their job correctly and efficiently." Member Nehring reported that he is looking forward to visiting and inspecting the sites that are in the process of remodeling and revitalization. He outlined some of the Governor's budget proposals and what they could mean for public schools and the people of East County. Member Schreiber reported that she had met with District administration regarding the continued commitment to an improved nutritional and physical education programs for students. Ms. Schreiber said that she appreciated the collaboration and partnerships with our feeder schools and with businesses in our community. Student Board Member Sarah Anderson reported that she is looking forward to working with the Board and representing the ASB Executive Council. President Jim Kelly congratulated the Superintendent on the extension of his contract and stated that Dr. Ryan is a dedicated Superintendent who cares about all of the students and employees.

A. Items for Future Board Meeting Agendas or Weekly Board Reports – No Items

XI. COMMUNICATION ON ITEMS NOT ON THE AGENDA – No Speakers

3. MSC (Schreiber/Wills) to approve Member Schreiber's recommendation to hold a Governance Workshop on May 31, 2006. MSC (Kelly/Schreiber) to table this recommendation until after the November election. The motion to table passed 3/2. (Member Urdahl and Schreiber voted no.)

IX. CONSOLIDATED AGENDA (ONE MOTION TO APPROVE ITEMS A. THROUGH C.)

MSC (Nehring/Wills) to approve the Consolidated Motion (Consent Agenda). The motion carried 5/0.

GROSSMONT UNION HIGH SCHOOL DISTRICT

Business Services Division

Special Governing Board Meeting: **June 29, 2006**

Topic:

Re-appointment of Six Members to the Citizens' Bond Oversight Committee For a Second Consecutive Two-Year Term

Issue and Plan:

On March 2, 2004, voters of the Grossmont Union High School District approved Proposition H, a $274 million bond. Pursuant to this approval and Education Code 15278, the Governing Board of the District appointed an independent Citizens' Bond Oversight Committee. The purpose of the Citizens' Bond Oversight Committee (CBOC) is to receive and review copies of annual, public performance and financial audits; and to review and report on the proper expenditure of taxpayers' money for school construction. The CBOC shall advise the public as to whether the District is in compliance with the requirements of Section 1 of Article XIIIA of the California Constitution.

The seven members were originally appointed as follows:

1. Ron Pennock-Representing the business community located within GUHSD
2. Charles Muse-Representing senior citizens
3. Bruce A. Husson-Representing taxpayers' association
4. William Wells-Representing parent/guardian of a child enrolled in GUHSD
5. Harold Hilliker-Representing members of a parent teacher organization
6. James R. Davis-Representing the GUHSD community-at-large
7. C. Phillip Jankola-Representing the GUHSD community-at-large

Following the resignation of Bruce Husson, a vacancy in the taxpayers' association slot occurred. Walter Heiser, an active member of the San Diego County Taxpayers' Association, was appointed to fill that slot on September 2, 2005, and his initial two-year term will expire on September 2, 2007.

The terms of the remaining six members expire on June 30, 2006; all remaining members have agreed to serve a consecutive second two-year term, expiring June 30, 2008, in accordance with the Proposition H ballot measure. (Please see attached Bylaws and Operational Guidelines for the Measure H Citizens' Oversight Committee.)

Fiscal Impact:

There is no fiscal impact. All CBOC members serve without compensation.

Recommended Action:

Authorization to Appoint Members to the Citizens' Bond Oversight Committee for a Second Consecutive Two-Year Term Expiring June 30, 2008: Ron Pennock, Charles Muse, William Wells, Harold Hilliker, James R. Davis, and C. Phillip Jankola.

Submitted/Recommended By:

Scott H. Patterson
Deputy Superintendent
Business Services

Approved for Submission to the Governing Board:

Terry Ryan, Superintendent

GROSSMONT UNION HIGH SCHOOL DISTRICT

15. Approval to Renew Agreement (A-4694R14) With SixTen and Associates to Prepare and File Mandated Cost Claims for 2010-2011; and Authorization for Superintendent or Designee to Execute Same
16. Approval of Change Order #10, Bid # GU-09.01.HLSB, Helix HS Science Building, Helix High School, Awarded to the Lowest Responsive Bidder, Jaynes Corporation; and Authorization for Superintendent or Designee to Execute Same
17. Acceptance of Donations and Authorization to Send Letters of Appreciation on Behalf of the Governing Board

X. ITEMS PULLED FROM CONSOLIDATED MOTION TO BE VOTED ON SEPARATELY – No Items

XI. ORGANIZATIONAL BUSINESS/COMMUNICATION

A. Board Member Reports

Member Kelly – no report. Member Woods noted that he was pleased to be able to honor all teachers, classified employees and administrators in the District. Member Schreiber reported that she had attended the ribbon cutting ceremony for the science building at Santana H.S, and had the pleasure of touring the new science building at ECVHS with the SEED committee. She also reported that she was honored to participate as a judge for Steele Canyon Charter senior projects. Member Hoy reported that he had also attended the Santana science building ribbon cutting ceremony and the tour of the ECVHS science building. He also reported that he had attended a presentation to the El Capitan band program by the Lord Mayor of Westminster. President Shield thanked the confidential staff for their support of the Governing Board.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 5:05 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Recommendation to Governing Board Regarding Need for Follow-On Bond	▪ CBOC Chairman Panknin stated that he wanted to formulate a proposal to present to the CBOC on how to voice their opinion to the Governing Board regarding the need for a follow-on bond. ▪ CBOC Chairman Panknin stated that he believed that the CBOC should only comment on projects remaining from Proposition H program, and ways to fund the projects. ▪ CBOC Chairman Panknin stated that the CBOC's recommendation should only concern the completion of Proposition H projects and the funding needed to complete them.

	▪ CBOC Chairman Panknin requested that Mr. Kiesling the plan to remove old portables at Granite Hills and replace them with classroom space at a new high school site at the July 30 CBOC meeting. ▪ CBOC Chairman Panknin stated that he believed two things should be addressed in a recommendation to the Governing Board: confirmation that the figure presented to complete Proposition H projects is accurate, and that the dollar amount presented will be enough to complete all Proposition H projects. ▪ CBOC Chairman Panknin requested that staff present information supporting the statement that $176 million is an accurate figure to complete Proposition H. ▪ Member Lear stated that the recommendation should state that the CBOC is reviewing the projects not being completed within the Proposition H program, and that the CBOC supports a bond of $176 million to finish those projects. He stated that the recommendation should not state whether or not the CBOC believes that a bond should be put on the ballot.
6.0 Major Maintenance Plan	▪ Mr. Kiesling stated that staff had hired a consultant who would give input on the maintenance plan. He stated that further information would be available within two or three weeks.
7.0 Other Business	▪ No discussion or action.
8.0 Future Agenda Items 8.1 Homestead	▪ Mr. Patterson stated that he, Mr. Kiesling, and Superintendent Collins had toured the facility to determine what, if any, interim steps should be taken to get Homestead through the fiscal year, including minor maintenance and work on the grounds. He stated that a task

	force made up of facilities and Homestead staff members had been created to investigate the larger issue of what would happen next. ▪ Mr. Patterson stated that planning would take a few months, and then will be implemented so that it will be in place August 2009. ▪ Mr. Patterson stated that he would have further information regarding Homestead at the end of October.
8.2 Performance Review	▪ CBOC Chairman Panknin stated that Mr. Goshorn will be completing this Performance Audit at El Capitan High School.
8.3 Construction Subcommittee Responsibilities	▪ Subcommittee Chair Brant stated that the Construction Oversight Subcommittee will review their list of responsibilities and bring their revisions to the July 30 CBOC meeting.
9.0 Adjournment	▪ The meeting was adjourned at 6:45 p.m.

Grossmont Union High School District

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments	▪ None.
5.0 Homestead Update	▪ Mr. Kiesling stated that MarySue Glynn had been hired as the new Director of Special Education, and that District staff would follow her recommendations on the future of the Homestead site. He stated that students would be moved from the current site. ▪ Mr. Kiesling stated that he would report on the future of Homestead at the October Steering & Planning Subcommittee meeting.
6.0 Maintenance Plan	▪ Subcommittee Chair Brant presented District staff with information from the

6.0 Maintenance Plan (Continued)	ICOC at San Diego Unified School District regarding their maintenance plan. Mr. Kiesling pointed out that the plan at San Diego Unified School District took six years to create. ▪ Mr. Kiesling stated that there is never enough funding to cover deferred maintenance costs for school campuses. ▪ Mr. Kiesling stated that staff presents an annual report to the Governing Board regarding the general condition of facilities in the District and gives a recommendation on what should be done to repair them. ▪ Mr. Kiesling stated that restricted maintenance funds are set aside for general operating maintenance, including day-to-day repairs and preventative maintenance. ▪ Mr. Kiesling stated that deferred maintenance funds are the next level, which would fund anything beyond its useful life in terms of replacement, including roofs, pavement, and electrical systems. He stated that with old buildings, deferred maintenance does not go far. ▪ Mr. Kiesling stated that the third type of maintenance funding comes from bond measures, which would modernize and replace outdated buildings. ▪ Mr. Kiesling introduced Mr. Gary Paulsen, who was asked to review the District's current maintenance program, including campuses and facilities, and Mr. Paulsen presented a report of his findings. ▪ Mr. Paulsen explained preventative maintenance to the Subcommittee and stated that the District had been reactive in its maintenance, rather that proactive. He stated that preventative maintenance could be improved at the District. ▪ Mr. Paulsen stated that he proposed that the District adopt maintenance software which would standardize communications between multiple parties. ▪ Mr. Kiesling stated that the Governing Board had not adopted a maintenance plan, as required in the Proposition H bond language. ▪ CBOC Chairman Panknin requested that

6.0 Maintenance Plan (Continued)	District staff create a plan that the CBOC could recommend to the Governing Board.
7.0 Boundary Realignment	▪ No discussion or action.
8.0 Annual Report Update	▪ CBOC Chairman Panknin stated that the Communications Subcommittee is currently drafting three versions of the CBOC Annual Report, taking into account three separate scenarios: Proposition U does not pass, Proposition U passes, and the Governing Board decision is made on the $65 million reserve split.
9.0 October Elections	▪ Subcommittee Chair Brant presented the current CBOC election protocol, and stated that elections for Chair and Vice Chair would be held at the October 29 meeting for one-year terms. She stated that nominations would be taken off the floor. ▪ CBOC Chairman Panknin requested that the Subcommittee remind the Committee of the protocol at their September 24 meeting.
10.0 Other Business	▪ GUHSD Governing Board Member Hoy thanked the CBOC for their work.
11.0 Future Agenda Items 11.1 Performance Audit	▪ No discussion or action.
12.0 Adjournment	▪ The meeting was adjourned at 5:00 p.m.

Grossmont Union High School District

Steering & Planning Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Monday, October 20, 2008

Grossmont Union High School District Office; Conference Room 1

4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Elections	▪ Subcommittee Chair Brant reviewed the CBOC member terms and election protocol. She mentioned that CBOC Member Nash stated that she was not interested in a nomination for Chair or Vice Chair. ▪ Subcommittee Chair Brant stated that the election will take place at the end of the October 29 CBOC meeting.
6.0 Proposition H Closing Report	▪ CBOC Chairman Panknin suggested that the CBOC create a final report to close the Proposition H program. He suggested that Mr. Goshorn draft a detailed report on how funds had been expended that the CBOC can sign off on.

6.0 Proposition H Closing Report (Continued)	▪ Mr. Kiesling stated that the target date for the end of expenditures and wrapping up projects is 2012. Mr. Patterson stated that funds would be committed by summer 2009. ▪ Member Lear suggested that the report should include information stating whether or not funds had been expended for projects consistent with the mandates of Proposition H. ▪ Mr. Patterson stated that there will be two milestones in the timeline of the report: when funds are committed and when they are spent. ▪ Member Lear stated that if a preliminary report is created once all funds are committed, it would be easy to attach additional information to the report once funds have been expended to complete the report. ▪ Mr. Patterson stated that preliminarily, summer 2009 would be a good time to begin the preliminary report. ▪ Mr. Patterson stated that the Audit & Finance Subcommittee had a discussion with the District's External Auditor to ask that they ensure that no bond funds had been expended for teacher and administration salaries in order to add more content to the Performance Audit. CBOC Chairman Panknin requested that the information be added to the closing report as well. ▪ The Subcommittee agreed that the CBOC should review and comment on bond funds as well as state matching funds. ▪ Subcommittee Chair Brant stated that the Subcommittee would revisit this topic in April, have a preliminary draft of the report in May to be edited in June. She stated that the majority of the work would be done in the preliminary report, with final additions after all funds are expended in 2012. ▪ CBOC Member Heiser stated that various staff members who work directly with Proposition H projects have a percentage of their salaries paid for out of Proposition H funds. He stated that he would like for Mr. Goshorn to verify that the correct

6.0 Proposition H Closing Report (Continued)	percentage is being charged to Proposition H based on the amount of time they devote to the program. ▪ CBOC Member Heiser stated that the Performance Audit is required to be completed annually, and that it has been done by a financial auditor that can't certify the things that are being requested by the Audit & Finance Subcommittee. ▪ CBOC Chairman Panknin requested that CBOC Member Heiser present his concerns and strategy at the October 29 CBOC meeting so that Mr. Goshorn is advised of the situation, and that if, after reviewing the draft audit, the Subcommittee is not happy with the results, they can task Mr. Goshorn to do a separate audit so that effort is not duplicated unnecessarily. ▪ CBOC Member Heiser pointed out that the California Constitution stated that performance audits can be completed by anyone requested by the District.
7.0 Maintenance Plan	▪ Mr. Kiesling presented information predicting the amount of deferred maintenance in the District. He stated that a Gafcon staff member analyzed the maintenance requirements at each facility based on age, and that there was $127 million worth of backlog after completing Proposition H. ▪ Mr. Kiesling stated that funds are set aside for deferred maintenance, which is matched by the state. He stated that at the November Subcommittee meeting he will have more information regarding Proposition U and how it will affect deferred maintenance, depending on whether or not it passes. ▪ CBOC Chairman Panknin stated that the CBOC will ensure that the GUHSD Governing Board will adopt a deferred maintenance plan, which is within the scope of the Committee. ▪ Mr. Kiesling stated that he would provide an update at the Subcommittee's November meeting.

8.0 Other Business	▪ No discussion or action.
9.0 Future Agenda Items	▪ Maintenance Plan ▪ Homestead/Frontier Report
10.0 Adjournment	▪ The meeting was adjourned at 5:00 p.m.

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Maintenance Plan	▪ Mr. Kiesling presented and explained a report on deferred maintenance to the Subcommittee. ▪ Mr. Kiesling stated that when Proposition U work is completed, staff would then evaluate how many projects need to be completed using deferred maintenance funds. ▪ The Subcommittee requested that the CBOC's support of the $45 million reserve funds being distributed to modernization projects be reiterated to the Governing Board at their next meeting.

6.0 Annual Report Update	▪ CBOC Chairman Panknin stated that the Communications Subcommittee met and discussed the content of the 2008 Annual Report. ▪ The Subcommittee discussed which information should be included in the maintenance section of the Report. ▪ Mr. Patterson stated that the results of Proposition U would be certified by December 2. ▪ CBOC Chairman Panknin stated that the current CBOC would continue to oversee Proposition U, and that this information would be included in the Chairman's letter in the Annual Report.
7.0 Staff Report	▪ Mr. Patterson stated that at the December 11 Governing Board meeting members would be sworn in and officers would be elected. He stated that Board Members would be assigned to Subcommittees as well. ▪ Mr. Patterson stated that the Dr. Woods, the new Governing Board member, had attended an orientation and was advised of information regarding Propsition U. ▪ Mr. Patterson stated that the District had been dealing with a dispute with HMC regarding fair value for work. He stated that the core issue was whether or not they did the extent of the work that was billed to the District.
8.0 Other Business 8.1 Bond Update	▪ Subcommittee Chair Brant stated that the final ballots were in the process of being counted and that the result would be certified by December 2.
9.0 Future Agenda Items 9.1 January – Homestead/Frontier	▪ Plan regarding Homestead/Frontier ▪ Viking Center ▪ Attendance Log

of the

Proposition H Citizens' Bond Oversight Committee

Monday, March 16, 2009

Grossmont Union High School District Office; Conference Room 1

4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:05 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin *Staff Present:* Dena Johnson, Bob Kiesling, Scott Patterson, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ No comments.
5.0 Selection of New CBOC Member	▪ Mr. Patterson provided information on Timothy Brindley, the newest member of the CBOC, and the member selection process. ▪ CBOC Chairman Panknin suggested that CBOC Member Nichols be asked if he would like to remain on the CBOC after he is no longer eligible to serve as a Parent-at-Large. CBOC Chairman Panknin suggested that his own membership change to Parent-at-Large and Member Nichols could remain on the Committee as a Community Member-at-Large.

5.0 Selection of New CBOC Member (Continued)	▪ CBOC Chairman Panknin suggested that this be brought forward at the April 20 Subcommittee meeting for review.
6.0 Soil Cleanup Update	▪ Mr. Kiesling stated that testing had been conducted that week at Granite Hills High School, though the results hadn't been received. ▪ Mr. Kiesling stated that the Department of Toxic Substance Control (DTSC) mentioned that if butadiene was no longer found in the soil that construction could resume. He stated that detected levels of the substance would need to be monitored to ensure it would not increase. ▪ Mr. Kiesling stated that testing and cleanup would cost several hundred thousand dollars. He pointed out that the arsenic found at Granite Hills High School would need to be cleaned up before construction could move forward. Mr. Kiesling stated that construction hadn't stopped at other construction sites due to toxic substances. ▪ Mr. Kiesling offered to present an update on this information at the April 20 Subcommittee meeting.
7.0 Viking Center Update	▪ Subcommittee Chair Brant stated that she had heard that the Viking Center project had been put on hold and requested clarification on the issue. ▪ Mr. Kiesling stated that although the design process was continuing, the new Director of Special Education had a different idea of how to deliver the program. He stated that she would be presenting her proposal for the program at a future Governing Board meeting. ▪ Mr. Kiesling stated that the only current issue at Viking Center is the marginal air conditioning system. He stated that the rest of the facility is functional, including doors that had been widened so that beds could be rolled out of the facility in case of an emergency.

8.0 Proposition U Update	▪ Mr. Kiesling presented a handout with information on the Proposition U program. ▪ Mr. Kiesling stated that staff had kept the Program Management Operations (PMO) costs below 6%, though it was previously at 4% prior to hiring Gafcon. ▪ It was stated that in addition to Gafcon, PMO costs included the Master Architect, DSA Closeout Consultant, labor compliance, legal and system costs, as well as Project Managers. ▪ Mr. Kiesling stated that the PMO costs added up to around $2 million a year. ▪ Mr. Patterson stated that he would bring a listing of all PMO cost elements for the Subcommittee to review. Mr. Kiesling pointed out that this information was provided in 2008 and suggested that it be presented on a yearly basis. ▪ CBOC Chairman Panknin requested that staff find similar cost information from other school districts in order to compare. ▪ CBOC Chairman Panknin stated that by the end of 2009 he would like to have a one-page information sheet with a chronological listing of Proposition H and U projects with an end-date to be presented to the public in the Annual Report. ▪ The Subcommittee requested that a draft listing of projects be presented at their April 20 meeting.
9.0 Steele Canyon Pool	▪ Subcommittee Chair Brant stated that she had met with Dianne Jacob and spoke with her regarding the consolidation of three East County-area pools into a joint-use facility. She stated that instead of building a pool at Steele Canyon Charter High School, the YMCA, and for Grossmont/Cuyamaca schools, it was suggested that one pool be built at the YMCA for all to use. ▪ Mr. Patterson explained that this had been proposed in the past but not all parties were interested. He stated that though it would save money, the school would not have been happy with having an off-site pool for student use.

10.0 New School Site Selection Status	▪ Ms. Johnson gave an update on the status of the new high school. She stated that the EIR had been drafted, evaluated, presented to the public, commented on, and questions and comments were being answered and put into the final EIR. ▪ Ms. Johnson stated that District staff would work to gain community support on staff's recommendation for a preferred site. ▪ Ms. Johnson stated that staff had found an environmentally preferred site, but that they could not comment on it until all information is compiled. She stated that a matrix would be created to show all information on the sites, and would be presented to the Subcommittee at a future meeting.
11.0 Other Business	▪ No discussion or action.
12.0 Future Agenda Items	▪ Update on School Site Selection ▪ Soil Cleanup Update ▪ PMO Comparative Analysis ▪ Update on Graphic Timeline
13.0 Adjournment	▪ The meeting was adjourned at 4:50 p.m.

Grossmont Union High School District

Monday, April 20, 2009

Grossmont Union High School District Office; Conference Room 1

4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:05 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin *Staff Present:* Dena Johnson, Bob Kiesling, Debbie Murray, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with the correction to item 5.0 as presented by Subcommittee Chair Brant. Seconded and motion passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 School Site Selection Update	▪ Ms. Johnson explained where the District was in the EIR process. She stated that at that time, the staff was working on their recommendation for the future school site. She stated that the recommendation would be brought before the Governing Board on June 11. ▪ CBOC Chairman Panknin requested that the recommendation be brought before the CBOC so that they may create a recommendation as well.

5.0 School Site Selection Update (Continued)	▪ Ms. Johnson stated that staff would meet with tribal representatives as well as the Alpine Planning Group regarding the site selection. ▪ Ms. Johnson stated that a notice would be sent to affected homeowners in June, and that a committee would be created with representatives from each tribe to oversee the treatment of artifacts found on the site. She stated that artifacts had been found on each site. ▪ Ms. Johnson presented a matrix of information to the Subcommittee on the findings at each possible school site. She stated that staff had not made any decisions on the site selection at that time.
6.0 Soil Cleanup Update	▪ Ms. Murray stated that the issue with butadiene in the soils at school sites was becoming a non-issue, and that the District would have closure on the issue by the end of April. ▪ Ms. Murray stated that construction would begin at Granite Hills High School on July 1 after the arsenic has been removed from the soil and the public comment period was over. ▪ Ms. Murray stated that an undocumented burn ash pit was found at Grossmont High School and that testing at the site didn't find as much contamination as was previously anticipated.
7.0 PMO Cost Chart Update	▪ Mr. Kiesling presented information regarding the PMO cost. ▪ Ms. Wright stated that staff had discussed converting PMO cost to Proposition U at some point in the future, and that Proposition H was budgeted through 2011-12. She stated that as information is updated and projects are closed out, it may shift to Proposition U sooner.

8.0. Graphic Timeline Update	▪ Mr. Kiesling presented the graphic timeline to the Subcommittee. ▪ Ms. Murray stated that projects listed in 2009 were in design and that they would be constructed in 2010. ▪ Ms. Murray stated that the District had been reviewing educational standards and were looking at all facilities in the District. She stated that after all standards have been reviewed, staff would meet with the Superintendent. ▪ Ms. Murray stated that staff had been visiting each site and reviewing all programs. She stated that she would present this information to the Subcommittee at their May meeting.
9.0 Third Party Review	▪ Mr. Kiesling stated that he would be speaking with Tony Fulton regarding the third party review. He stated that the review would include what was covered in their last review, as well as an update. ▪ Mr. Kiesling stated that the review wouldn't begin until summer, and that it would be brought to the May Board meeting for approval. He stated that it would take 2-3 months to complete.
10.0 Member Capacity Changes	▪ CBOC Chairman Panknin stated that he had spoken with CBOC Member Nichols, who had stated that he would like to remain on the CBOC until the end of his term in fall. ▪ **Subcommittee Chair Brant moved that the Subcommittee present to the CBOC for approval the changing of CBOC Member Nichols' member capacity from Parent-at-Large to Community Member-at-Large, and CBOC Chairman Panknin's member capacity from Community Member-at-Large to Parent-at-Large. Member Lear seconded. Motion passed unanimously.**
11.0 Viking Center Update	▪ Subcommittee Chair Brant stated that she would like to make a proposal that the Viking Center project resume as previously scheduled unless there were specific needs that were keeping it from continuing.

11.0 Viking Center Update (Continued)	▪ Mr. Kiesling stated that the Superintendent requested that it be reviewed as part of the educational standards in order to find out the needs of the program. He stated that the Director of Special Education, Mary Sue Glynn, would weigh in on the needs of the program. ▪ Mr. Kiesling pointed out that the District was spending a lot of money sending students out of the District for school, and that staff wanted to bring them back into District schools and facilities. ▪ Mr. Kiesling stated that for the CBOC's purposes of reviewing projects, the Viking Center project was on hold until further direction is given.
12.0 Other Business	▪ No discussion or action.
13.0 Future Agenda Items	▪ Educational Standards ▪ School Site Selection Update
14.0 Adjournment	▪ The meeting was adjourned at 4:57 p.m.

3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Motion seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Educational Standards	▪ Ms. Murray gave a presentation on the District's Educational Standards to the Subcommittee. ▪ Ms. Murray stated that staff was looking to develop at least three academies per school campus, with around 300 students per academy. ▪ Ms. Murray stated that staff had visited each campus to find out how the facility could be changed to meet the educational needs of the future. ▪ Ms. Murray pointed out that staff was looking to locate a learning center on each

5.0 Educational Standards (Continued)	campus for fifth-year seniors to attend. ▪ Ms. Murray stated that staff would be meeting with Special Education Director Mary Sue Glynn to discuss the future of Viking Center. ▪ Ms. Murray stated that she would give an update on the educational standards for each campus at the June Subcommittee meeting. ▪ Ms. Murray stated that the master plan would be updated to include the educational standards.
6.0 Graphic Timeline Update	▪ Mr. Kiesling stated that an update to the graphic timeline would be available once the educational standards are completed.
7.0 Member Capacity Change	▪ Mr. Patterson pointed out that Chairman Panknin's and CBOC Member Nichols' member capacity changes had been approved by the Governing Board.
8.0 Site Selection Update	▪ Ms. Johnson stated that the Alpine Planning Group and the Viejas, Barona, and Sycuan tribes were planning on weighing in on a desired site for the new high school. ▪ Ms. Johnson presented a three-page explanation of each possible site and discussed each with the Subcommittee. ▪ Ms. Johnson pointed out that the state matching funds listed on the document were subject to eligibility and availability. Mr. Patterson clarified that the District would not receive the funds until after construction is complete. ▪ Mr. Kiesling stated that if the state does not have money to distribute, the District would be on a waiting list to receive the funds. ▪ Mr. Kiesling mentioned that an archeologist must be present throughout the project to remove, catalog, and curate the artifacts found on the sites. He stated that Viejas mentioned that they would be interested in cooperating with the District with this process. ▪ Member Lear stated that for financial reasons he believed that Chocolate Summit

8.0 Site Selection Update (Continued)	would not be a good recommendation for the CBOC to make to the Governing Board. ▪ The Subcommittee created the following recommendation to be presented at the May 27 CBOC meeting: *The Subcommittee recommended that the Chocolate Summit options one and two be taken out of the running due to economic reasons, infrastructure issues, traffic, safety, fire, and the proximity to the middle school.*
9.0 Other Business	▪ No discussion or action.
10.0 Future Agenda Items	▪ Educational Standards
11.0 Adjournment	▪ The meeting was adjourned at 5:00 p.m.

Grossmont Union High School District

Steering & Planning Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Monday, June 22, 2009

Grossmont Union High School District Office; Conference Room 1

4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:04 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin *Staff Present:* Bob Kiesling, Debbie Murray, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Educational Standards *(Debbie Murray)*	▪ Ms. Murray presented a draft of the educational standards and gave an overview of the scope for each campus. ▪ Ms. Murray explained that each project manager provided a project list which became the basis of the Proposition U bond language. ▪ Ms. Murray discussed her report on educational standards to the Subcommittee. ▪ Ms. Murray described the various career pathways each campus would have as a result of Proposition U construction.

5.0 Educational Standards (Continued)	▪ Ms. Murray stated that the educational standards would be presented to the Governing Board at their July 9 meeting. ▪ Ms. Murray mentioned that she had been working on coordinating a project fair to be held at the end of summer for parents and members of the community to attend to learn more about each school's future construction projects and give feedback. She stated that the architects would create a display for each campus, which could then be brought back to the school site for further display after the fair. ▪ CBOC Chairman Panknin requested that more information on the Proposition U project fair be brought to the July CBOC meeting.
6.0 Graphic Timeline Update	▪ Mr. Kiesling mentioned that the graphic timeline would not be updated until after the educational standards had been completed, and that he would like the Subcommittee to review it at a future meeting.
7.0 Deferred Maintenance Plan Update	▪ Mr. Kiesling stated that the state had begun to allow school districts to eliminate their contribution to their deferred maintenance programs. He stated that the state would make a contribution to the program but at a lesser level, and that it would be abandoning all requirements for the program until the budget is back to normal. ▪ Mr. Kiesling stated that the District would continue to contribute to the deferred maintenance program. ▪ Mr. Kiesling stated that staff would be proposing to the Governing Board that the funds from deferred maintenance that had previously been added to the Proposition H program be removed. ▪ Mr. Kiesling stated that he would also bring the issue to the Audit & Finance Subcommittee. ▪ Mr. Kiesling mentioned that an update on preventative maintenance would be brought before the Subcommittee by October.

8.0 Other Business	▪ No discussion or action.
9.0 Future Agenda Items	▪ Funding Plan ▪ Deferred Maintenance (October)
10.0 Adjournment	▪ The meeting was adjourned at 5:00 p.m.

of the

Proposition H Citizens' Bond Oversight Committee

Thursday, July 17, 2008

Grossmont Union High School District Office; Conference Room 2

5:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Nichols at 5:13 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Phil Marsh, Larry Nichols
3.0 Approval of Minutes *(Chair)*	▪ The minutes from the May 27 Subcommittee meeting were moved to be approved as presented. Seconded and passed. ▪ The minutes from the July 8 Subcommittee meeting were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None
5.0 Reduced Responsibility Scope for Subcommittee	▪ The Subcommittee reviewed and discussed the priorities of responsibilities from the May 27 meeting. ▪ Subcommittee Chair Nichols stated that he would like to combine points 1 and 5 to create 4 total points. ▪ The Subcommittee agreed on priorities for the Subcommittee Responsibilities list and stated that they would bring them before the CBOC at their July 30 regular meeting for approval.

6.0 Discuss Millwork Cost Savings	▪ Member Marsh presented information on millwork from the walk through of Grossmont High School's modernized classrooms held on July 8. ▪ Member Marsh stated that his primary goal was to maximize bond revenues, and that he would like to test out his millwork plan on a smaller project before implementing it on the new science classrooms in case it isn't as effective as expected. ▪ Ms. Murray stated that there is a millwork project at West Hills High School with cabinetry to be installed in each classroom. She suggested that Member Marsh review data and plans on this project. ▪ Ms. Murray stated that the next opportunity to review millwork savings would be in phase 2B modernization at Mount Miguel High School. ▪ Mr. Kiesling stated that his experience with separate contractors installing cabinetry at San Diego Unified School District was not as they had hoped it would be. He pointed out that if cabinetry is installed incorrectly, the wrong size, or not delivered on time the entire project may be delayed and can eliminate any cost savings. ▪ Mr. Kiesling stated that the Subcommittee would have a better idea of how separating millwork from a modernization project will provide cost savings once they test it on a smaller project.
7.0 Other Business	▪ Mr. Goshorn stated that he had been in contact with Ms. Wright and Mr. Kiesling to set up dates to meet and review data for the performance audit. ▪ Subcommittee Chair Nichols stated that he would like to walk through the school site mid-August because teachers will be around to give feedback but class would not be in session. ▪ Mr. Goshorn stated that he would like to complete the performance audit in three visits: learn procedures and processes with Mr. Kiesling and Ms. Wright, review files, contracts and reports, and walk through the school site.

7.0 Other Business (Continued)	▪ Mr. Goshorn stated that he would be reviewing current phase 2B projects.
8.0 Future Agenda Items	▪ Review Data from West Hills High School
9.0 Adjournment	▪ The meeting was adjourned at 6:23 p.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Tuesday, August 26, 2008

Grossmont Union High School District Office; Conference Room 2

5:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Nichols at 5:02 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Phil Marsh, Larry Nichols
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and approved.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Organizational Chart	▪ Mr. Kiesling reviewed the Facilities Management Organizational Chart with the Subcommittee, and explained the function of each position. ▪ Mr. Kiesling pointed out the percentages of staff salaries that are paid for out of Proposition H funds. He stated that it was found that if a staff member was spending the majority of their time in direct contact with Proposition H work, Proposition H could be charged for that amount of time. ▪ Mr. Kiesling suggested that if salaries were an issue of concern, the Subcommittee should request that the auditors pay special attention to the issue.

5.0 Organizational Chart (Continued)	▪ Member Marsh recommended that the issue be brought to the Audit & Finance Subcommittee for review.
6.0 Performance Audit at El Capitan High School	▪ Subcommittee Chair Nichols presented Mr. Goshorn's draft of the El Capitan High School performance audit and gave a summary of the work he had completed. ▪ Subcommittee Chair Nichols stated that he joined Mr. Goshorn at El Capitan High School for a walk through and met with their weekly coordination committee in a construction trailer. ▪ Mr. Kiesling answered questions for the Subcommittee and gave information regarding fingerprinting regulations and DSA inspections.
7.0 Millwork Project	▪ Member Marsh stated that the first test case on his breakout of millwork project was completed as an audit, and suggested that staff use the model on Mount Miguel High School Phase 2B projects.
8.0 Other Business	▪ Mr. Kiesling pointed out that five projects would be out to bid in October on different schedules. ▪ Mr. Kiesling stated that CM multi prime will be used for construction on science classroom buildings. He stated that they would be taking hard bids with prequalification for all science building projects. ▪ Mr. Kiesling stated that anyone who prequalifies can bid on a job. He stated that construction would begin roughly two weeks after the project's board date. ▪ Mr. Kiesling stated that the District would be doing lease-lease back at Monte Vista High School. He stated that it had never been done in the District before, and that it works similar to CM multi prime in that trade contracts are bid separately. He stated that the District will get a guaranteed maximum price, and that savings will be shared between the District and the CM firm.

8.0 Other Business (Continued)	▪ Mr. Kiesling stated that the District would be running a Request for Qualifications, and that there would be a selection committee to review qualifications and interview firms. ▪ Mr. Kiesling pointed out that staff would go to the Governing Board two times for approvals – once to advise them of the lease-lease back method and again in October with the selection of the firm. ▪ Mr. Dunbar presented the change orders through July 31 to the Subcommittee. He pointed out that all sites had items on the list with totals reflected at the bottom of the report. ▪ Member Nichols stated that he would present the change order report to the CBOC at their August 27 meeting. ▪ Mr. Kiesling stated that staff would continue to update the bid information page.
9.0 Future Agenda	▪ None.
10.0 Adjournment	▪ The meeting was adjourned at 6:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Nichols at 6:03 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Phil Marsh, Larry Nichols
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Review of El Capitan Performance Audit	▪ Subcommittee Chair Nichols presented Mr. Goshorn's draft of the El Capitan High School project review. ▪ Mr. Kiesling pointed out that the only error he found in the report was with a staff member's name. ▪ Mr. Kiesling stated that the architect is usually hired again for construction administration. He stated that the architect investigates any alleged errors or omissions in design in the field, and that DSA requires the architect to sign off on final projects. ▪ Ms. Wright pointed out that the architect is the sole interpreter of documents and arbiter

5.0 Review of El Capitan Performance Audit (Continued)	of disputes in the field. ▪ Subcommittee Chair Nichols stated that Mr. Goshorn would present the El Capitan High School Audit Report at the September 24 CBOC meeting.
6.0 Change Order Report	▪ Ms. Wright presented the change order report to the Subcommittee. ▪ Mr. Kiesling explained to the Subcommittee how architects are charged for errors and omissions. ▪ Mr. Kiesling described the process in which change orders are finalized and approved by District staff and the Governing Board. ▪ Member Marsh requested that future change order reports be sorted by type rather than chronology in order to see if there are any trends with the change orders at each site. ▪ Member Marsh requested that future change order reports contain information on architects.
7.0 Construction Update	▪ Ms. Wright stated that 240 classrooms had been modernized in Phase 2B, and that Phase 3A bidding for El Cajon Valley High School and Granite Hills High School was in process. ▪ Ms. Wright stated that architect selection for Phase 3BR had been completed and that design would begin.
8.0 Other Business	▪ No discussion or action.
9.0 Future Agenda	▪ Attend on-site construction committee meetings. ▪ Lease-lease back information.
10.0 Adjournment	▪ The meeting was adjourned at 7:00 p.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Tuesday, January 27, 2009

Grossmont Union High School District Office; Conference Room 2

5:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Nichols at 5:10 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Larry Nichols *Members Absent:* Phil Marsh *Staff Members Present:* Bob Kiesling, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with the corrections presented by Subcommittee Chair Nichols. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Change Order Report	▪ Ms. Wright presented and explained the change order report to the Subcommittee. ▪ Ms. Wright stated that staff had been trying to identify trends that could be corrected for future projects to keep the number of change orders low. ▪ Ms. Wright stated that they had been tracking error and omission rates for architecture firms that exceed the threshold. ▪ Ms. Wright stated that she would find

5.0 Change Order Report (Continued)	further information on the section labeled "missing change orders". ▪ Ms. Wright explained that at Mount Miguel High School the architect had misplaced the utility box in the plans to the outside of the building when it was meant to be inside. Mr. Kiesling stated that Precision Electric did the project according to the plans although the architect made the error. ▪ Ms. Wright stated that staff will soon create a change order log for Phase 3A science classroom buildings. ▪ Ms. Wright reviewed the bids on science classrooms with the Subcommittee and explained that though potential savings are shown, change orders would probably come in. ▪ Ms. Wright stated that Phase 2B work was substantially complete and that the District had prequalified contractors for Phase 3A projects.
6.0 Construction Update	▪ Ms. Wright stated that the Governing Board approved the documents for lease/leaseback at Monte Vista High School, and that staff had been working with the contractor on the guaranteed maximum price. She stated that the final price will go before the Board in March. ▪ Ms. Wright stated that Granite Hills High School projects had been stalled pending soil issues being worked out with the Department of Toxic Substance Control (DTSC). She stated that there is an option to hold the bid until June in hopes that the issues with the naturally occurring arsenic and butadiene would be resolved. ▪ Mr. Kiesling explained that butadiene was first found at Granite Hills High School first, and that staff would work with the DTSC on a plan as to what needs to be done for further testing and cleanup.
7.0 Labor Contracts	▪ Mr. Kiesling explained that the District pays prevailing wages on construction projects, and that it is related to state regulations and unions.

8.0 Staff Report 8.1 Proposition U Program Plan	▪ Ms. Wright stated that a presentation would be provided to the CBOC outlining the Proposition U program at their January 28 meeting, including a strategy for recommendations staff had made on each component. She stated that staff identified the oldest campuses, greatest needs, status of Proposition H work, and composed a schedule for Proposition U.
8.2 HMC Claim Settlement	▪ Mr. Kiesling stated that the dispute with HMC was regarding the billing of early projects. He stated that the District met with HMC and settled the claim, which was approved by the Governing Board. ▪ Mr. Kiesling stated that the District had stopped and restarted their work, and the issue was related to how the bill was calculated for the work once it had restarted.
9.0 Other Business	▪ Mr. Kiesling stated that the American Institute of Architects would give the name of a new member for the CBOC by Wednesday, January 28 or the District would find another organization to appoint a member to the CBOC. ▪ Mr. Nichols stated that CBOC Member Marsh seemed to have indicated that he wouldn't be returning for a second term, leaving only two people on the Subcommittee.
10.0 Future Agenda Items	▪ The Subcommittee discussed where and how they would hold future meetings. ▪ Member Ashman requested a website or a reference guide to explain acronyms provided to the CBOC to help further understand documents and information.
11.0 Adjournment	▪ The meeting was adjourned at 6:06 p.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Tuesday, March 24, 2009

Grossmont High School; Turner Construction Management Trailer

9:00 a.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Nichols at 9:00 a.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Timothy Brindley, Larry Nichols, Sharon Smith Member Smith left at 9:35 a.m. *Staff Present:* Steve Dow, Sean Dunbar
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Soil Contamination Update	▪ Mr. Dow stated that four school sites had butadiene vapors in their soil. Granite Hills High School had both butadiene and arsenic in their soil. He stated that all projects had continued except at Granite Hills due to the additional cleanup and remediation required at that site. ▪ Mr. Dow stated that the results from the most recent soil tests were with DTSC at that time and that the District would receive comments by the end of March. ▪ Mr. Dunbar stated that the butadiene levels at Grossmont High School had been low

5.0 Soil Contamination Update (Continued)	and that construction was able to continue at a slower rate. He stated that the final plan to deal with the contaminants would be provided by DTSC by the end of April. ▪ Mr. Dunbar pointed out that a burn ash pit was found at Grossmont High School. Mr. Dow stated that it was found while digging for the building pad, and that it was located at the edge of the construction area. ▪ Mr. Dow stated that DTSC tested the burn ash pit and found lead in the area. He stated that the area was outside of the building footprint and mostly out of the area where work would be conducted. ▪ Mr. Dow stated that Debbie Murray had been working on creating a mitigation plan. He stated that staff would discuss this with DTSC and hoped to move forward with the plan by the end of that week. ▪ It was explained to the Subcommittee that there was a change order for import and export of soil, which was not due to contamination but due to water in the soil. Mr. Dow stated that it would be very difficult to dry wet soil to the point that it could be used in the project. ▪ Mr. Dow explained that the moisture in the soil was naturally occurring and that DTSC required that the replacement soil meet their guidelines. He pointed out that 24 days were lost while finding DTSC-approved soil. ▪ It was mentioned that 7600 yards of unsuitable soils were removed for the Physical Education building. ▪ Mr. Dow explained that staff had met with DSA, who had agreed to over-the-counter submittal reviews. He stated that they should all be on schedule.
6.0 Construction Update	▪ Mr. Dunbar pointed out that Phase 2B projects had been winding down. He stated that the work at Mount Miguel High School had been progressing well, and that Valhalla High School Phase 2B work was in the final stages of negotiating the lease-leaseback project. ▪ Mr. Dunbar stated that all other Phase 2B projects had been closing out.

7.0 Change Order Report	▪ Mr. Dunbar offered to track project allowances for the Subcommittee to review at a future meeting. It was mentioned that an allowance log had been kept for projects. ▪ It was explained that two types of soils were found to replace the wet soil at Grossmont High School. One met DTSC guidelines though there was not enough to fill the entire area, and the other failed contract testing in that it was corrosive but had high volumes available. The plan was to have the corrosive soil be placed at the bottom of the area with the top five feet consisting of the clean soil so that pipes would not need to be wrapped to prevent corrosion. ▪ It was pointed out that the subcontractor had put the clean soil at the bottom of the required area and the corrosive on top. ▪ Mr. Dow explained how the District had been handling the issue with the pipes and corrosive soil. He stated that staff was trying to lower the cost this issue might create.
8.0 Other Business	▪ No discussion or action.
9.0 Future Agenda Items	▪ The Subcommittee expressed interest in meeting once again at Grossmont High School.
10.0 Adjournment	▪ The meeting was adjourned at 9:40 a.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Tuesday, April 21, 2009

Grossmont High School; Turner Construction Management Trailer

9:00 a.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Nichols at 9:10 a.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Timothy Brindley, Larry Nichols, Sharon Smith *Members Absent:* Ron Ashman *Staff Present:* Sean Dunbar, Bob Kiesling, Debbie Murray, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with the following change: Removal of the last bullet point in Item 5.0. Motion seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Construction Update	▪ Ms. Murray stated that the soil contamination issues and mitigation plans would not cause further delays (except at Granite Hills High School), but would create an added cost. ▪ Ms. Murray stated that after further testing was conducted at the sites affected by butadiene, the substance was found to be undetectable and not above DTSC levels.

5.0 Construction Update (Continued)	▪ Ms. Murray stated that asbestos was found in the concrete in the burn ash pit at Grossmont High School. She stated that a supplemental report was being created to submit to DTSC, that a removal action work plan would be created, and that it shouldn't cause an impact on construction. ▪ Ms. Murray stated that construction has been scheduled to begin at Granite Hills High School on July 1.
6.0 Change Order Report	▪ Subcommittee Chair Nichols stated that the Subcommittee would present the change order report to the CBOC at their April 29 meeting.
6.1 Revised Format for Future Reports	▪ Subcommittee Chair Nichols requested that the Change Order Report, augmented with information on allowances, be included in CBOC agenda packets for the April 29 meeting.
7.0 Contractor Allowances	▪ Mr. Dunbar presented the allowance log to the Subcommittee from the sites under construction at that time. ▪ Ms. Wright pointed out that allowances are included as part of the basic bid package. ▪ The Subcommittee learned the process in which allowances are closed out, and that all allowances need to be approved.
8.0 Other Business	▪ Mr. Kiesling stated that residents of the area near Valhalla High School had filed a temporary restraining order against the District. He stated that they wanted the District to mitigate issues, such as noise from school bells, lights, and visibility into their yards from the location of the new science building. ▪ Mr. Kiesling explained the lease/lease-back method to the Subcommittee. He stated that the buildings at Santana High School and Monte Vista High School have identical design and square footage and would be good comparisons between the different delivery methods, though there were issues at Monte Vista that made their costs rise.

8.0 Other Business (Continued)	▪ Ms. Murray gave further information on the import of two different soils to replace the wet soil at Grossmont High School, and stated that the pipes would have been wrapped to protect them from corrosive soil, no matter the order they were brought in.
9.0 Future Agenda Items	▪ No discussion or action.
10.0 Adjournment	▪ The meeting was adjourned at 10:00 a.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Tuesday, May 26, 2009

Mount Miguel High School; Cafeteria

9:00 a.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Nichols at 9:07 a.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Timothy Brindley, Larry Nichols, Sharon Smith *Staff Present:* Sean Dunbar
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with the grammar edits provided by Subcommittee Chair Nichols. Motion seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Discussion of Mount Miguel High School Phase 2B Owner's Meeting	▪ Mr. Dunbar stated that the CM multi prime construction manager for the Mount Miguel Phase 2B project is CW Driver. He stated that there are subcontractors for 16 different packages on the project. ▪ Member Ashman requested information on the cost per square foot for each campus. Mr. Dunbar stated that he would provide this information before the July Subcommittee meeting. ▪ The Subcommittee discussed Phase 2B flooring and vapors brought up through concrete.

6.0 Construction Update	▪ Mr. Dunbar pointed out that Phase 3A construction was underway, as well as Phase 2B projects at Mount Miguel High School and Valhalla High School. ▪ Mr. Dunbar stated that some school sites would be starting smaller projects, and that there would be a couple of bid openings and site walks in the near future.
7.0 Change Order Report	▪ The Subcommittee discussed allowances and change orders with Mr. Dunbar. ▪ Mr. Dunbar stated that allowance funds were used at Grossmont High School for the issue with the soils.
8.0. Other Business	▪ Subcommittee Chair Nichols explained the process in which Mr. Goshorn would conduct his project review/audit. He stated that Mr. Goshorn would review bids awarded, contracts, documentation, and expenditures. ▪ Subcommittee Chair Nichols stated that Chairman Panknin requested that the Subcommittee suggest a site or project for the 2009 audit. Member Smith suggested that the audit be conducted at Grossmont High School. ▪ Subcommittee Chair Nichols stated that he would like to request that Mr. Goshorn review the progress to-date, including budget and expenditures, at the Work Training Center. ▪ The Subcommittee stated that they would recommend to the CBOC that Mr. Goshorn conduct his annual project review/audit on Phase 3A construction at Grossmont High School and a smaller review of progress at Work Training Center.
9.0 Future Agenda Items	▪ Project Review/Audit Update
10.0 Adjournment	▪ The meeting was adjourned at 9:37 a.m.

G.P. - Oversight Agendas and Minutes

Communications Sub- Committee

2008-09

Grossmont Union High School District

Communications Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Monday, September 8, 2008

Grossmont Union High School District Office; Conference Room 2

4:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Panknin at 4:32 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Elana Levens-Craig, Jim Panknin
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Annual Report	▪ The Subcommittee discussed the contents of the 2008 Annual Report. ▪ Chairman Panknin suggested that the report keep a similar format to the 2007 report. He suggested that three formats be created – Prop U passes, Prop U doesn't pass, and the Governing Board decision on the $65 million reserve. ▪ Chairman Panknin requested that the report be printed in light blue this year, and that the website color change as well to match. ▪ Chairman Panknin suggested including an architectural rendering of a completed science building.

5.0 Annual Report (Continued)	▪ Member Levens-Craig suggested including information on the organizations that had been designated to appoint CBOC members. ▪ Chairman Panknin was tasked with writing three versions of the Chairman's letter. ▪ Mr. Goshorn was tasked with creating a Proposition H planning timeline, a possible Proposition U timeline, and writing a section on Proposition H costs. ▪ Chairman Panknin suggested creating a section of the report to explain the modular school in Alpine, describing that it will be an annex to Granite Hills High School. ▪ Member Levens-Craig was tasked with writing information on the new science classrooms and when they would be completed. ▪ Chairman Panknin suggested including a side bar on the back page with information on the long range facilities master plan. ▪ Member Levens-Craig suggested a section with reference information, including the URL to the Proposition H website.
6.0 Other Business	▪ The next Subcommittee meeting will be held on Thursday, November 13, at 4:00 p.m.
7.0 Future Agenda Items	▪ None.
8.0. Adjournment	▪ The meeting was adjourned at 5:23 p.m.

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Tuesday, August 26, 2008

Grossmont Union High School District Office; Conference Room 2

6:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 6:05 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Marcie Findley, Walter Heiser, Carol Nash
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Introduction and Orientation of New Subcommittee Member	▪ New CBOC member Marcie Findley was introduced to the Subcommittee. Subcommittee Chair Heiser explained the Subcommittee's responsibilities to Member Findley.
6.0 Review and Discussion of Most Recent Financial Information	▪ Mr. Kiesling presented the Master Program Budget Report to the Subcommittee to be reviewed. He stated that since the Subcommittee's June 17 meeting, revenue was increased and redistributed to school sites. Most of those funds were additional state funds which are increased yearly based on inflation.

6.0 Review and Discussion of Most Recent Financial Information (Continued)	▪ Mr. Kiesling requested that the Subcommittee present the report to the CBOC at their July 30 meeting stating that the Subcommittee reviewed and approved the data. ▪ Mr. Kiesling stated that he would bring the Master Program Budget Report to the Subcommittee on a quarterly basis. ▪ Mr. Kiesling explained how schools are grouped together to maximize eligibility for state matching funds. ▪ Mr. Patterson pointed out that if there are programmatic changes, the state runs out of funding, or if a state-level bond isn't passed, it would have a major impact on funds available to the District. ▪ Mr. Kiesling stated that staff set aside more reserve funds to cover any projects that will need to be completed if Proposition U does not pass, including replacing aged air conditioning units in non-modernized classroom buildings. ▪ Mr. Kiesling stated that phase 3B-R will be in the design phase, and that staff will not spend money until the Governing Board decides how the reserve will be used. ▪ Mr. Kiesling stated that the architects will have completed an estimated $50,000 worth of work by November. ▪ Mr. Kiesling stated that if Proposition U passes, the first set of funds would not be available until 2009. He stated that if $45 million were to be reallocated to Proposition H modernization projects, there would be enough funds to work with until Proposition U funds would be available. ▪ Mr. Kiesling stated that with existing funds, the oldest and most needy schools receive funds first, though there are variances. He explained that Grossmont High School has the highest amount of dollars allocated to their projects because the site is older and in need of more work. He stated that Mount Miguel was repaired by a project with Caltrans, and that a science building that burned down had been replaced. ▪ Mr. Patterson stated that when Ms. Wright gives her program manager report to the

6.0 Review and Discussion of Most Recent Financial Information (Continued)	Governing Board at their meeting, she will update them on the projected increase on total funding and budget so they are kept updated. ▪ **Member Nash moved that the Subcommittee has reviewed and concurred with the budget adjustments made by staff as reflected in the FACS Report dated August 26, 2008. Subcommittee Chair Heiser seconded. All in favor.**
7.0 Other Business	▪ Mr. Patterson explained that the sale of the last tranche of bonds closed at the end of July. He pointed out that the underwriter was required to purchase a percentage of the bonds because it was a difficult market the day they entered. ▪ Mr. Patterson explained that they were able to get the proceeds at an average interest rate of around 5.2%. He stated that they had targeted about 5.1%. ▪ Mr. Patterson explained that the contract was extended with Vavrinek, Trine, & Day to conduct the annual audit of the District and Proposition H for the 2007-2008 fiscal year. He stated that they had already conducted field work in the Spring, and will return to the District in September to complete the audit, including the Proposition H performance and financial audits. ▪ Mr. Patterson stated that the audit is due to the state by December 15. ▪ Subcommittee Chair Heiser requested that the Subcommittee meet with the auditors before they complete their audit.
8.0 Future Agenda Items	▪ Begin initial discussion with auditors with regard to last fiscal year's financial and performance audits. ▪ Review and discussion of most recent financial information.
9.0 Adjournment	▪ The meeting was adjourned at 7:03 p.m.

Audit and Finance Sub-Committee

2008-09

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Wednesday, September 17, 2008

Grossmont Union High School District Office; Conference Room 2

6:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 6:03 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Marcie Findley, Walt Heiser, Carol Nash
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Review of Most Recent Financial Information	▪ Mr. Dunbar presented the FACS report and explained the changes made since the Subcommittee's August 26 meeting. ▪ Mr. Dunbar stated that the report would be updated with new information on a monthly basis. He stated that the state eligible funds had been added to the overall budget. ▪ Mr. Patterson pointed out that the use of the $45 million reserve funds had not been approved at the Governing Board meeting, but were assumed to be distributed towards modernization of existing classrooms. He stated that the Governing Board did not object to the presentation given by staff regarding this assumption for purposes of planning and program implementation.

5.0 Review of Most Recent Financial Information (Continued)	▪ Mr. Dunbar pointed out that the expenditures listed on the FACS report are updated twice monthly. ▪ Mr. Dunbar pointed out that there will be more accurate budget surplus projections for Grossmont, Granite Hills, and Santana High Schools, because Phase 2B work is complete. He stated that this occurred because change orders were managed well. ▪ Mr. Patterson pointed out that only 90% of the budget is put into design, and the remaining 10% is held for change orders and bad bidding climates. He stated that if things go well with a project, the 10% can become a surplus. ▪ Mr. Patterson stated that if there is an under-run, program management decides where the funds will go. There are also over-runs which can balance the under-runs. ▪ Mr. Patterson suggested that the Subcommittee present the FACS report to the CBOC at their September 24 meeting.
6.0 Review of Audit Procedures	▪ Subcommittee Chair Heiser pointed out that the Auditor, Ms. Angie Zamora, would be at the District Office the week of September 29, and suggested that the Subcommittee hold a meeting to ask questions and discuss the audit process. ▪ Mr. Patterson explained the timing of the District audit. He stated that the Auditors conduct field audits in Spring, on-site office work in September, and then create a draft presented to the District late Fall.
7.0 Other Business	▪ Mr. Patterson stated that the District selected a team of underwriters for Proposition U, should it pass. ▪ Mr. Patterson stated that the District received 18 proposals from firms, and with the assistance of the District's financial advisor, they were reviewed and narrowed down to nine firms to be interviewed. ▪ Mr. Patterson stated that four firms were selected: Citigroup, De La Rosa and Company, Merrill Lynch, and Stone and Youngberg. He stated that each firm's

7.0 Other Business (Continued)	participation in each deal is contingent on their performance in the prior deal. He stated that each firm gets a proportion of the deal based on performance. The senior underwriter would get the biggest proportion. ▪ Mr. Patterson explained that the firms are compensated with a certain amount of dollars per bond sold. ▪ Mr. Patterson pointed out that small and medium-sized districts had traditionally relied on single firms.
8.0 Future Agenda Items	▪ Discussion with Auditor.
9.0 Adjournment	▪ The meeting was adjourned at 6:53 p.m.

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Wednesday, October 1, 2008

Grossmont Union High School District Office; Conference Room 1

5:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 5:32 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Marcie Findley, Walt Heiser, Carol Nash
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Review of Audit Procedures	▪ Ms. Angie Zamora, the District's external auditor from Vavrinek, Trine, and Day, introduced herself to the Subcommittee. ▪ Ms. Zamora pointed out that there are two parts to the bond audit – financial and performance. She stated that her staff was currently working on the financial audit, reviewing expenditures, ensuring that they were recorded within a proper time period, and that the expenditures were appropriate according to the bond language. ▪ Ms. Zamora stated that a first draft may be complete at the end of October, and will be given to Ms. Floyd and Mr. Patterson for review.

5.0 Review of Audit Procedures (Continued)	▪ Ms. Zamora stated that the main difference between this year's and previous audits is the volume of expenditures. She stated that she had not seen anything at that point that would suggest the expenditures were not in accordance with the ballot measure. ▪ Ms. Zamora stated that during the audit, she reviews the program as a whole, district procedures throughout the bid process, change orders, and review files to see that projects paid out of Fund 21 are included in the ballot measure text. ▪ Mr. Kiesling stated that the percentages of salaries that are paid for out of Proposition H funds depend on the volume of work the employee is involved with in the program. ▪ Subcommittee Chair Heiser stated that he would like to see more detail in the performance audit regarding the review of percentages of salaries paid for out of Proposition H funds, as well as an explanation as to why it is acceptable to charge these salaries to the program. ▪ Mr. Kiesling offered to run the dollar value of Proposition H projects versus non-Proposition H projects to get a better idea of how much time was spent working on bond-related projects. ▪ Subcommittee Chair Heiser requested that a statement be included in the performance audit with an explanation as to why the expenditures are consistent with the ballot measure text. ▪ Ms. Zamora stated that she would speak with the engagement partner regarding the addition of a text explanation to the performance audit, and will draft wording if possible. ▪ Mr. Kiesling suggested tasking Mr. Goshorn with a more detailed analysis of staff salary percentages to ensure that they are compliant. ▪ Ms. Zamora stated that she would title the section regarding staff salaries, "program salaries and benefits." ▪ Ms. Zamora stated that she would forward a copy of the first draft to Ms. Floyd for the CBOC to review.

6.0 Other Business	▪ No Discussion or action.
7.0 Future Agenda Items	▪ Review FACS Report ▪ **Member Nash moved to request the Chair of the CBOC to task Mr. Goshorn with a more detailed analysis to verify the percentage and amounts of money being spent out of Proposition H with respect to administrative salaries and benefits. Member Findley seconded. All in favor.**
8.0 Adjournment	▪ The meeting was adjourned at 6:15 p.m.

1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 6:03 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Marcie Findley, Walter Heiser, Carol Nash
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Review of Most Recent Financial Information	▪ The Subcommittee reviewed the FACS report presented by Mr. Dunbar. ▪ Mr. Dunbar pointed out that the decrease in the projected Phase 2B surplus was due to additional expenditures from smaller projects. ▪ Mr. Dunbar explained that the Phase 3A bids for El Cajon Valley High School came in under budget. ▪ Mr. Patterson mentioned that a budget adjustment was required to continue work on the EIR. ▪ Subcommittee Chair Heiser requested that the CBOC receive a copy of the FACS report Level 0.

6.0 Further Discussion Regarding Audit Process	▪ Subcommittee Chair Heiser stated that he had attended the October 20 Steering & Planning Subcommittee meeting and discussed the possibility of Mr. Goshorn conducting an in-depth compliance audit. ▪ Subcommittee Chair Heiser stated that it was decided to allow the External Auditor complete the Performance Audit as planned, and if the data presented was insufficient, Mr. Goshorn would be tasked with drafting a more detailed audit in spring 2009. ▪ Mr. Patterson pointed out that the Steering & Planning Subcommittee agreed that it would not be efficient to pay for two audits to be conducted unless the data from one was insufficient. ▪ Subcommittee Chair Heiser stated that the he had reviewed a constitutional provision adopted after Proposition 39 had passed which doesn't designate who is qualified to complete the audit, and only mentioned that it be completed on an annual basis. ▪ Mr. Patterson stated that a draft of the audit is expected by the end of October.
7.0 Other Business	▪ No discussion or action.
8.0 Future Agenda Items	▪ Review and Discussion of Draft Annual Audit
9.0 Adjournment	▪ The meeting was adjourned at 6:30 p.m.

Audit & Finance Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Wednesday, November 19, 2008

Grossmont Union High School District Office; Conference Room 2

5:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 5:30 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Marcie Findley, Walt Heiser, Carol Nash *Staff Present:* Sean Dunbar, Patty Floyd, Sarita Hammons, Bob Kiesling, Scott Patterson
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Review and Discussion of FACS Report	▪ The Subcommittee discussed and reviewed the 10-31-08 FACS report. ▪ Mr. Dunbar stated that the budget surplus had decreased to $322,000 due to continued expenditures in closing out Phase 2B. ▪ Mr. Dunbar pointed out that projects at Helix Charter High School had continued to exceed their budget due to a construction manager transition. ▪ Mr. Dunbar stated that Phase 2B will continue to close out through February 2009, though it was originally supposed to

5.0 Review and Discussion of FACS Report (Continued)	be completed in November 2008. ▪ Mr. Dunbar stated that figures from the El Cajon Valley High School science classrooms would begin to be entered into the FACS report, and that the report is updated twice monthly. ▪ Subcommittee Chair Heiser stated that he would like to ensure that information on the FACS report is as accurate as possible, and that budgets are not unrealistically distorted one way or another. ▪ Mr. Patterson stated that Proposition H funds must be accounted for separate from Proposition U funds. He stated that if a surplus came from Proposition H work, the funds would be put towards additional Proposition H projects.
6.0 Review and Discussion of Draft Annual Audit	▪ Subcommittee Chair Heiser pointed out that the draft annual audit was lacking a multi-year comparison. Ms. Floyd mentioned that Angie Zamora, the District's auditor, stated that it could be included as requested. ▪ Member Nash pointed out that the line item titled, "Salaries and Benefits," had higher numbers than in the 2006-2007 audit, and requested further information on the number of full-time staff salaries that are paid for out of Proposition H funds. ▪ Member Nash pointed out that the audit stated that site construction costs had been reduced by 50%. Mr. Patterson explained that this may be a reflection of the phasing of projects. He stated that the prior year had a higher figure due to infrastructure work. ▪ Subcommittee Chair Heiser requested that a short glossary be included in the audit to explain terminology that the public may not understand. ▪ Mr. Patterson explained labor compliance to the Subcommittee and stated that the District is required to ensure that contractors pay prevailing wages. ▪ Ms. Floyd reviewed the manner in which portions of staff members' salaries may be paid for out of Proposition H funds. ▪ Subcommittee Chair Heiser stated that he would like the auditor to explain why it is

6.0 Review and Discussion of Draft Annual Audit (Continued)	consistent with Proposition H to charge salaries to the program. He stated that he would like it to be a part of the compliance report, and that he didn't see any greater detail on this information than last year's audit. Ms. Floyd pointed out that the auditor drafted the audit based on the agreed-upon procedures, and that if further work is required, the cost would increase. ▪ Mr. Patterson explained how the District's financial system, Escape, works and that the audit is based on this information. ▪ Ms. Floyd pointed out that District staff presents financial updates to the Governing Board on a monthly basis for approval. She stated that the last board-approved budget is the one included on the annual audit. ▪ Subcommittee Chair Heiser stated that he believed more detail and analysis in the compliance/performance audit would be helpful. He stated that though he did not believe it would be possible to include more detailed information in the audit as previously requested, the Subcommittee should consider tasking Mr. Goshorn with drafting an additional compliance review if necessary as part of the CBOC's responsibility to taxpayers. ▪ Ms. Floyd pointed out that the audit is typically due to the state in December and that the District audit would be presented to the Governing Board in January. ▪ Mr. Patterson pointed out that the District would solicit proposals for the next audit engagement in January, and that it may be an opportunity to redefine the agreed-upon procedures. Subcommittee Chair Heiser agreed that the Subcommittee should give input on the agreed-upon procedures and requirements to be included in the engagement letter for the next audit. ▪ Subcommittee Chair Heiser stated that the Subcommittee would review the audit at their next Subcommittee meeting, then present it to the CBOC for their input. He stated that after the CBOC approves the audit, it would be presented to the Governing Board in February.

7.0 Other Business	▪ No discussion or action.
8.0 Future Agenda Items	▪ Review of FACS Report ▪ Further Consideration of Annual Audit ▪ Discussion of and recommendations regarding the agreed upon procedures for the compliance audit for the next fiscal year.
9.0 Adjournment	▪ The meeting was adjourned at 6:45 p.m.

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Wednesday, January 14, 2009

Grossmont Union High District Office; Conference Room 2; 5:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 5:33 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Marcie Findley, Walter Heiser, Carol Nash *Staff Members Present:* Sean Dunbar, Patty Floyd, Bob Kiesling, Andi Loree, Debbie Murray, Scott Patterson
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Discussion and Review of Financial Audit for Fiscal Year 2007/08	▪ The Subcommittee reviewed and discussed the 2007-2008 Financial Audit. ▪ Subcommittee Chair Heiser stated that the 2007-2008 Audit would be presented to the CBOC at their January 28 meeting, and presented to the Governing Board at their February 12 meeting. ▪ Mr. Patterson pointed out that a multi-year comparison had been added to the audit, as requested by the Subcommittee. ▪ Member Nash pointed out the minor changes made to the financial audit.

6.0	Discussion and Review of "Performance" (Compliance) Audit for Fiscal Year 2007/08	▪ Ms. Loree pointed out that a change was made to the language in the 2007-2008 performance audit in regards to expenditures for salaries and benefits. ▪ Mr. Patterson stated that the auditors recommended that time documentation be prepared for future audits so that salaries and benefits could be reviewed in more detail. ▪ Member Nash requested that staff create a time-keeping system that is consistent from year to year which is not burdensome on District staff. ▪ Mr. Patterson mentioned that staff could choose one week per month to sample the portions of staff time spent working on bond-related projects. ▪ Mr. Patterson stated that the glossary would be added to the online version of the audit. ▪ Subcommittee Chair Heiser mentioned that an explanation on salaries and benefits was not included in the audit, including the Attorney General's statement deeming it appropriate to expend the funds in that manner. o Ms. Floyd pointed out that an independent audit firm would not include information from the Attorney General because they follow state audit guidelines. ▪ Mr. Patterson stated that supplementary information could be posted online along with the audit. He stated the CBOC could decide when to post the audit online at their January 28 meeting. ▪ **Member Findley moved that the Subcommittee recommend to the CBOC that the audit be accepted with the understanding that there will be supplementary information posted on the website. Member Nash seconded. Motion passed unanimously.**
7.0	Discussion and Review of "Performance" (Compliance) Audit for Fiscal Year 2008/09	▪ Mr. Patterson presented a draft prepared by Ms. Loree with agreed-upon procedures for the next audit engagement. Ms. Loree pointed out that an item was added to cover the testing of salaries and benefits, and asked for the Subcommittee's input on

7.0 Discussion and Review of "Performance" (Compliance) Audit for Fiscal Year 2008/09 *(Continued)*	appropriate language. ▪ Mr. Patterson pointed out that if a new firm is selected as the District's auditor, they may be able to suggest other methods to certify if the salaries and benefits are reasonable. ▪ Member Nash asked that information on the selection of an audit firm be brought back to the Subcommittee for review. ▪ The Subcommittee discussed language to be used in the RFP for selecting the District auditor. ▪ Ms. Loree pointed out that more detailed information on the items sampled during the audit could be found in the audit working papers. ▪ Mr. Patterson stated that a three-year contract, the option of two one-year contracts, and a termination provision would be proposed for the selected auditor. He stated that if the Subcommittee wanted to make a change in the future to the agreed-upon procedures, the agreement could be amended. ▪ Mr. Patterson stated that there will be a panel to screen the proposals, as well as a panel to make the selection. Member Nash volunteered to sit on the panels.
8.0 Review and Discussion of FACS Report	▪ Mr. Dunbar presented the FACS report to the Subcommittee and explained changes made to the document since their last Subcommittee meeting. ▪ Mr. Dunbar stated that Phase 2B had been closing out and that Phase 3A science building bids had been opened well below architect estimates. ▪ Ms. Wright stated that though the bid openings had been positive, they wouldn't necessarily reflect change orders. She stated that constructability reviews had been conducted which may help keep change orders low. ▪ Mr. Patterson stated that the Governing Board approved the reallocation of the $45 million reserve to Proposition H modernization projects. ▪ Mr. Patterson stated that staff had been in the process of reanalyzing the District's

8.0 Review and Discussion of FACS Report *(Continued)*	eligibility for state matching funds. He stated that the state had frozen payments to public entities on state matching funds due to budget issues.
9.0 Other Business	▪ No discussion or action.
10.0. Future Agenda Items	▪ Review and Discussion of FACS Report ▪ Update on RFP for Auditor Selection
11.0 Adjournment	▪ The meeting was adjourned at 6:40 p.m.

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Wednesday, March 18, 2009

Grossmont Union High School District Office; Conference Room 2

5:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 5:30 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Marcie Findley, Walter Heiser, Carol Nash *Staff Present:* Sean Dunbar, Patty Floyd, Bon Kiesling, Andi Loree, Debbie Murray, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 District Auditor Selection	▪ Member Nash reported that Nigro, Nigro, and White had been selected as the District's auditor. ▪ Ms. Floyd stated that the auditors would be at the District office for an interim audit on March 30, and that they would be reviewing ASB funds, school site cash collections, attendance records, and preliminary work for the annual audit. ▪ Ms. Loree stated that the first two-week period of time documentation by District

5.0 District Auditor Selection (Continued)	staff who have a percentage of their salaries charged to Proposition H had completed, and that two more testing periods were planned before the end of the school year. ▪ Ms. Loree pointed out that the RFP became part of the auditor contract. ▪ Ms. Loree stated that she would request that Christy White, the District's principal auditor, attend the April Subcommittee meeting.
6.0 Presentation of Financial and Performance Audits for Fiscal Year 2007-2008 Update	▪ Member Nash reported that she had presented the 2007-2008 annual audit to the Governing Board at their April meeting. She stated that she had presented information regarding salaries included in the audit and charged to Proposition H, as well as the selection of the new audit firm.
7.0 Review and Discussion of FACS Report	▪ Ms. Wright presented and discussed the FACS report to the Subcommittee. ▪ Ms. Wright explained that the program total was reduced after staff removed projects that were funded out of state project savings rather than Proposition H funds. These projects included lunch shelters, video surveillance, aquatics, and site discretionary dollars. ▪ Ms. Wright pointed out that the interim housing listed on the report would begin to be charged to Proposition U after June 2010. ▪ Ms. Wright stated that a new assumption reflecting the program would be brought to the Subcommittee in June, and that they would be able to separate Proposition H and Proposition U projects and expenditures at that time. ▪ Ms. Wright pointed out a slight deficit in the Phase 2B budget. She stated that the projected surplus in Phase 3A had decreased due to environmental issues and contaminated soils. ▪ Mr. Patterson pointed out that the consultant had been working on the District's behalf to ensure that they were maximizing the amount of state matching

7.0 Review and Discussion of FACS Report (Continued)	funds the District could receive. ▪ Subcommittee Chair Heiser requested that a column be added to the FACS report showing a change in forecasted deficit and surplus. Mr. Patterson suggested creating a separate page to show changes since the previous month.
8.0 Other Business	▪ Member Nash mentioned that the April CBOC meeting would be her last. She stated that she asked that FEI notify their members of the vacancy via newsletter or email, and to announce it at their March 19 meeting in order to find a replacement who lives within the District. ▪ Mr. Patterson discussed the sale of the first tranche of Proposition U bonds to the Subcommittee, which had been scheduled for sale the first week of April. He stated that the District had secured and maintained their AA rating. ▪ Mr. Patterson pointed out that the District has four underwriters for Proposition U: De La Rosa, Stone & Youngberg, Merrill Lynch, and Citigroup.
9.0 Future Agenda Items	▪ Review and Discuss FACS Report ▪ Discussion with New District Auditor ▪ Report on Results of Bond Sale
10.0 Adjournment	▪ The meeting was adjourned at 6:05 p.m.

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Wednesday, April 22, 2009

Grossmont Union High School District Office; Conference Room 2

5:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 5:30 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Marcie Findley, Walter Heiser, Carol Nash *Staff Present:* Sean Dunbar, Patty Floyd, Bob Kiesling, Andi Loree, Scott Patterson *Others Present:* James Hawley & Christy White of Nigro, Nigro, & White
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with the correction to item 2.0 provided by Member Findley. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Discussion with District Auditor – Christy White	▪ Ms. White introduced herself and James Hawley, who is the Audit Manager. She stated that Nigro, Nigro, and White specializes in school district auditing and that have experience with conducting Proposition 39 audits. ▪ Ms. White discussed and explained the components of the Proposition 39 required performance and financial audits.

5.0 Discussion with District Auditor – Christy White (Continued)	▪ Ms. White pointed out that the State Controller's Office had recently reviewed audit procedures in a community college district and reported that their performance audit did not result in meaningful enhancement of transparency of how funds had been spent. ▪ Ms. White pointed out the differences between performance audits based on agreed-upon procedures and full performance audits. She stated that audits based on agreed-upon procedures would review expenditures, bid procedures, contracts, and that all is in compliance with the public contract code. Ms. White stated that the full performance audit would evaluate internal controls of the department, audit and fraud risk assessment, analytical procedures, and a site walk to ensure work has actually been performed, among other procedures. ▪ Ms. White pointed out that there is an option in between the two she had explained, which would be a step up from conducting the audit solely based on agreed-upon procedures. ▪ Ms. White stated that the amount of work, as well as the cost, associated with conducting a full performance audit would be about twice as much as the audit based on agreed-upon procedures. ▪ Ms. White clarified that financial audits would be conducted in the same manner as they had been in the past. She pointed out that reviewing the tax rate structure is not in the scope of the audit. ▪ Ms. Loree stated that staff had included an item related to benefits and salaries in the agreed-upon procedures. She stated that the procedures were standard for bond audits. ▪ Ms. Floyd pointed out that an amendment to the current contract with Nigro, Nigro, and White would need to be made in order to request a full performance audit. ▪ Ms. White stated that the audit would begin in June or July. ▪ Member Nash stated that she believed it was worth the extra expenditure to conduct a full performance audit.

5.0 Discussion with District Auditor – Christy White (Continued)	▪ **Subcommittee Chair Heiser moved that the Subcommittee recommend to the CBOC as to Proposition H that the auditor be asked to conduct a full financial audit as in past years, and what's referred to as a full performance audit, which would be more extensive than past years, for Proposition H only. Member Nash seconded, motion passed unanimously.** ▪ **Subcommittee Chair Heiser moved that the Subcommittee recommend to the CBOC as to Proposition U that there be a full financial audit for the current fiscal year, but the performance audit be based on agreed-upon procedures due to the limited amount of activity under Proposition U. Member Findley seconded, motion passed unanimously.**
6.0 Review & Discussion of FACS Report	▪ Mr. Dunbar pointed out that the two FACS reports presented were from the last two reporting periods. He stated that that Phase 2B projects had been winding down, and that Phase 3A construction was underway. ▪ Mr. Kiesling pointed out that project managers are conservative on their estimates of Phase 2B surpluses. ▪ Mr. Dunbar stated that Phase 3A surplus forecasts had remained consistent and that the report was beginning to show contract amounts. ▪ Mr. Kiesling stated that Phase 3A project are all 12-month contracts. He stated that the District had begun awarding contracts in December and finished in February.
7.0 Report on Sale of Proposition U Bonds	▪ Mr. Kiesling presented a letter regarding the bond sale to the Subcommittee. He stated that the bond sale of $60 million from Proposition U went well, and that the first contracts would be awarded on June 11. ▪ Mr. Patterson stated that the four underwriters worked well together and that there were no plans to change the proportions of compensation during the next bond sale.

8.0 Other Business	▪ No discussion or action.
9.0 Future Agenda Items	▪ Discussion of Performance Audit ▪ Review and Discussion of FACS Report ▪ Future Meeting Dates
10.0 Adjournment	▪ The meeting was adjourned at 6:45 p.m.

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Monday, May 18, 2009

Grossmont Union High School District Office; Superintendent's Office Conference Room

5:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 5:30 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Marcie Findley, Walter Heiser, Carol Nash *Staff Present:* Sean Dunbar, Bob Kiesling, Debbie Murray, Scott Patterson
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Review & Discussion of FACS Report	▪ Mr. Dunbar presented the April 30 and March 31 FACS reports to the Subcommittee. ▪ Mr. Dunbar pointed out changes on the FACS report due to interim housing and final invoices being processed from earlier construction phases. ▪ Mr. Dunbar mentioned that the Phase 2B surplus had been increasing, and projects in that phase had been closing out.

6.0 Full Performance/Compliance Audit Update	▪ The Subcommittee discussed the April 22 audit presentation from the representatives from Nigro, Nigro, and White, as well as the report to the CBOC at the April 29 meeting. ▪ Mr. Patterson pointed out that the amendment to the audit contract had been approved by the Governing Board.
7.0 Other Business	▪ Mr. Patterson read the biography of Robert Mathews, Member Nash's replacement as FEI's representative on the Committee. He stated that Mr. Mathews would attend the May 27 CBOC meeting to be introduced, as well as the June 11 Board meeting to have his membership ratified.
8.0 Future Agenda Items	▪ Discussion of FACS Report ▪ Progress Report for Performance Audit ▪ Introduction of New Subcommittee Member
9.0 Adjournment	▪ The meeting was adjourned at 6:03 p.m.

Citizens' Bond Oversight Committee
Summary of Meeting
July 25, 2007

1.0 Meeting Called to Order

The meeting was called to order at 5:03 p.m. by Chairman Bill Wells.

2.0 Roll Call

The following members were present:

Daniel Bartholomew, Mendy Brant, Harold Hilliker, Fred Lear, James Panknin, Ron Pennock, Bill Wells, and Rick Winet.

The following members are excused as absent:

Walter Heiser, Phillip Marsh, Chuck Muse.

3.0 Approval of Minutes

Chairman Wells moved that the minutes be accepted as presented. Seconded. Passed.

4.0 Public Comments

4.1 Items on Agenda

- Barbara Killian –
  - Ms. Killian spoke in support of the modernization of existing schools as well as a district-wide demographic study.
    - Chairman Wells pointed out that there is an enrollment projection study (including patterns of enrollment) on the website. http://www.guhsd.net/documents/Enroll_Report_65007RevIDraft.pdf

4.2 Items not on agenda

None.

5.0 Chair Report

- Chairman Wells explained that The San Diego Taxpayers' Association presentation of Best Practices for an Independent Oversight Committee would be discussed at 11.2. He asked that the members review all financial forms in agenda packet, which will not be reviewed tonight as usual.
- Chairman Wells thanked Priscilla Schreiber for attending.

5.1 CBOC Members Upcoming Term Dates

- In September, Members Bartholomew, Heiser, and Winet's first terms expire. Member Brant contacted each, and Members Heiser and Winet would like to return for a second term. Member Bartholomew would like to leave at the end of this term.

- A motion to appoint Members Heiser and Winet to a second term and to accept Member Bartholomew's term expiration will be brought before the GUHSD Governing Board at its August meeting.
- Member Pennock asked if there is a requirement to open the available positions to the public. Chairman Wells explained that it is at the discretion of the Governing Board. He will make a report that three members' terms are ending, and the Board will make a decision on the process in which the vacancy is filled. There were no objections to presenting it to the Board in this way.

5.2 Review of Brown Act Requirements

- Subcommittees are regulated by the Brown Act. Members were asked to contact Sarita Hammons in advance of changes in meeting times and places. All Subcommittee meetings are required to have agendas publicly posted seventy-two hours in advance.
- If there is a site visit conducted with a majority of the Subcommittee present, this constitutes a meeting under the Brown Act and a notice needs to be posted.

6.0 Governing Board Update

- No presentation was given due to Scott Patterson's absence.

7.0 Project Status Tracking Schedule

- The Project Status Tracking Schedule was included in the agenda packet as Exhibit 7.0 (available to the public via CBOC website as an agenda attachment).

7.1 Headache Report

- The Headache Report was included in the agenda packet as Exhibit 7.1 (available to the public via CBOC website as an agenda attachment).

8.0 Program Financial Reports

8.1 Program Expenditure Review

- The Program Expenditure Review was included in the agenda packet as Exhibit 8.1 (available to the public via CBOC website as an agenda attachment).

8.2 Detail of Expenditures

- The Detail of Expenditures was included in the agenda packet as Exhibit 8.2 (available to the public via CBOC website as an agenda attachment).

8.3 FACs Report

- The FACs Report was included in the agenda packet as Exhibit 8.3 (available to the public via CBOC website as an agenda attachment).

8.4 Program Management Organization % of Total

- The Program Management Organization % of Total was included in the agenda packet as Exhibit 8.4 (available to the public via CBOC website as an agenda attachment).

8.5 Change Order Rate

- The Change Order Rate was included in the agenda packet as Exhibit 8.5 (available to the public via CBOC website as an agenda attachment).

9.0 Subcommittees

- Subcommittee Reports will be postponed until the August meeting.

9.1 Audit & Finance Subcommittee Report

9.2 Construction Oversight Subcommittee Report

9.3 Public Relations Subcommittee Report

9.4 Steering & Planning Subcommittee Report

10.0 Old Business

None.

11.0 New Business

11.1 Recommendation on CBOC Consultant

- Chairman Wells, Member Lear, and Mr. Patterson interviewed four fims that replied to the RFP. It was a consensus that Colbi Technologies, Inc., would be the best fit for the CBOC's needs. They are recommending to the CBOC that they notify the Governing Board of the recommendation that the contract be awarded to Colbi Technologies.
- Member Lear explained the interview process. The four firms who were interviewed were Colbi Technologies, gafcon, Pag-West, and Vanir.
  - There was a set of eight questions, prepared by Mr. Kiesling and approved by the interview panel.
  - The traits they were looking for were competence, independence, and cost containment. Colbi Technologies has a history of meeting those parameters.
  - Larry Goshorn was introduced as the Consultant from Colbi Technologies. He will be present at all CBOC meetings, as well as requested Subcommittee meetings.
- Mr. Goshorn can assist with annual reports, website, and public relations. If in-depth information is needed for specific reports or projects, he will be able to assist.

- The Consultant will cost $50,000.
- Feedback from outside sources stated that he makes honest and independent decisions, even if it goes against popular opinion.
- Mr. Goshorn was excused from the meeting.
- Chairman Wells moved that the CBOC will make a recommendation to the GUHSD Governing Board to hire Colbi Technologies, Inc. as the CBOC Consultant. Member Hilliker Seconded. Member Bartholomew Opposed. Passed 10-1.

11.2 Taxpayers Association Best Practices and CBOC Role

- The San Diego Taxpayers' Association suggested the CBOC to take a more active role in presenting their opinions to the Governing Board as to how all Prop H funds should be spent.
  - This may also include not only recommendations on how projects are implemented, but whether it is appropriate for a particular project to move forward or not.
- Member Panknin explained that at the July Audit & Finance Subcommittee meeting, Phil Nerhood, Chair of the Reports & Audit Subcommittee for the San Diego Unified School District Independent Citizens' Oversight Committee, suggested that the CBOC be proactive on weighing in on projects. When the funding is depleted, Mr. Nerhood explained that the Committee should be able to explain the shortfalls to the public, and help the Governing Board prioritize what should and shouldn't be completed.
- Member Hilliker stated that he believed it was clearly presented at the June meeting that the Governing Board would like to hear the CBOC's opinions.
- Chairman Wells explained that the CBOC will need to create a recommendation of priorities of projects, including addressing the Alpine High School issue.
  - Member Brant explained the findings of the GUHSD Bond Advisory Commission's Repair & Renovation Subcommittee's report of priorities for each school site.
- Member Panknin proposed a plan to move forward.
  - Identify what will be completed with the existing funding and make a report.
  - Prioritize the projects in place and those in danger.
  - Make a plan to complete these projects
- Chairman Wells explained that the CBOC will need to decide whether or not they will formally change their scope, and then make a decision as to when they will go to the Governing Board with their recommendations. If there is something a CBOC Member feels needs to be addressed, they should bring it to the Committee for a vote to decide if it should be brought to the Governing Board.
- Member Pennock moved that the CBOC should continue with the guidelines laid out under Prop 39 and as suggested by the San Diego

Taxpayers' Association and others as it pertains to the independence of the group and its oversight. Member Bartholomew seconded. Passed unanimously.

11.3 Bond Advisory Commission Recommendation Tracking (Guest: Jim Perkins)

- Mr. Perkins handed out Exhibit 11.3, which is available to the public via CBOC website as an agenda attachment. The following points were presented:
  - Mr. Perkins believes GUHSD should explore a bond extension. SDUSD and PUSD area currently looking into this.
  - He believes the CBOC should go forward with the scope changes transparently and communicate this to stakeholders.
  - Should create a District-owned database including a needs list and facilities plan, to be owned and operated by the Program Management group. The Program Manager can give updates at meetings, and they will have one source of information that everyone has access to.
  - The CBOC should investigate all cost savings possible. The industry standard is less than 10% for change orders.
  - The BAC believes the managing of cash flow analysis should be completed in more detail.
  - Non-Prop H projects should not use any available money for Prop H projects.
  - Not enough money has been set aside for ongoing maintenance issues at existing facilities.

12.0 Staff Report

- Mr. Kiesling explained the Program Management firm selection process. The cost of this is not yet determined. The firm will provide full-time, on-site support staff to keep track of dollars and schedules. Mr. Kiesling is estimating it will cost several million dollars over the life of the program.
  - Mr. Kiesling explained that the Program Manager will add definition to the program. He explained that this issue was outlined at a previous CBOC meeting, and although it will cost quite a bit, hiring this Program Manager will save money in the long-term.
    - Member Hilliker stated that this was brought up at a previous meeting and that the CBOC was against it.
    - Chairman Wells thinks it is appropriate to inform the Governing Board that the CBOC would like to express their opinions before large financial decisions are made. The CBOC would like to hear about these changes first.
    - Member Heiser is on the Program Manager interview and selection panels.

- Mr. Kiesling explained the BAC Final Report Recommendations Matrix to the CBOC, Exhibit 12.0 (available to the public via CBOC website as an agenda attachment).
    - This matrix will be presented to the Governing Board at their August 15 meeting.
    - Mr. Kiesling explained a checkmark indicates it will be brought back to the CBOC for their input. This matrix is the vehicle that will assist the CBOC in making recommendations for projects to the Governing Board. The format needs approval from the CBOC, not the individual recommendations.
    - Member Panknin moved that the CBOC adopt the format of the GUHSD Bond Advisory Commission Final Report Recommendations Matrix. Member Brant seconded. Passed Unanimously.

13.0 Other Business

- Member Pennock explained that the Construction Oversight Subcommittee plans on holding a meeting to discuss Phase 1 with school site planners, and reporting this information to the CBOC at the August meeting.
- Chairman Wells offered to speak with the Governing Board regarding the recommendations of the BAC, and that the CBOC would like to give their opinion on the validity of what was presented.

14.0 Future Agenda Items

None.

15.0 Adjournment

The meeting was adjourned at 7:34 p.m.

Citizens' Bond Oversight Committee
Summary of Meeting
August 29, 2007

1.0 Meeting Called to Order

- The meeting was called to order at 5:05 p.m. by Chairman Bill Wells.

2.0 Roll Call

Members Present:	Mendy Brant, Walter Heiser, Fred Lear, Phillip Marsh, Chuck Muse, James Panknin, and Bill Wells. Ron Pennock (arrived at 5:10 p.m.)
Members Excused as Absent:	Harold Hilliker, Rick Winet
Members Absent:	Daniel Bartholomew

3.0 Approval of Minutes

- Member Brant moved to approve the July minutes. Seconded by Member Panknin.

Yes:	Mendy Brant, Walter Heiser, Fred Lear, Phillip Marsh, James Panknin, Ron Pennock, Bill Wells (7)
Abstain:	Member Muse (1)

Motion passed.

4.0 Public Comments

--Items on Agenda – None.
--Items Not on Agenda – None.

5.0 Chair Report

- Chairman Wells stated that he would not give a report in order to allow more time for other agenda items.

6.0 Governing Board Update

6.1 Approval to Negotiate and Execute Agreement with gafcon/Harris to Provide Prop H Program Management Services *(Aug 15)*

- The Agreement with gafcon/Harris to provide Prop H Program Management services was approved by the GUHSD Governing Board at their August 15 meeting.
- Mr. Kiesling introduced the representatives present: Randall Duncan (Harris & Associates) and Erik Reuter (gafcon). Mr. Reuter will be the full-time Program Manager.

6.2 Approval of Agreement with Colbi Technologies, Inc. to Serve as Consultant to CBOC *(Aug 15)*

- Mr. Patterson stated the agreement with Colbi Technologies, Inc, was approved by the GUHSD Governing Board at their August 15 meeting. Larry Goshorn from Colbi Technologies, Inc, will be the CBOC Consultant.

6.3 Re-Appointment of CBOC Members *(Aug 15)*

- Members Heiser and Winet have been reappointed to their positions on the CBOC. Member Bartholomew's term expiration has been accepted.

6.4 Potential Appointment of FEI to Open CBOC Member Position *(Aug 15)*

- This item was withdrawn from the Governing Board meeting agenda; therefore, no action was taken. This item will be reviewed with the CBOC before it is brought back to the Governing Board.

6.5 Review of BAC Recommendation Tracking Matrix *(Aug 15)*

- Mr. Patterson explained that no action was taken on this item at the Governing Board meeting. He pointed out that there will be several action items being brought for consideration at the September 6 Governing Board meeting.

7.0 Project Status Tracking Schedule

- The Project Status Tracking Schedule was included in the agenda packet as Exhibit 7.0 (available to the public via CBOC website as an agenda attachment).

7.1 Headache Report

- The Headache Report was included in the agenda packet as Exhibit 7.1 (available to the public via CBOC website as an agenda attachment).

8.0 Program Financial Reports

8.1 Program Expenditure Review

- The Program Expenditure Review was included in the agenda packet as Exhibit 8.1 (available to the public via CBOC website as an agenda attachment).

8.2 Detail of Expenditures

- The Detail of Expenditures was included in the agenda packet as Exhibit 8.2 (available to the public via CBOC website as an agenda attachment).

8.3 Program Management Organization Percentage of Total

- The Program Management Organization Percentage of Total was included in the agenda packet as Exhibit 8.3 (available to the public via CBOC website as an agenda attachment).

8.4 Change Order Rate

- The Change Order Rate was included in the agenda packet as Exhibit 8.4 (available to the public via CBOC website as an agenda attachment).

9.0 Subcommittees

9.1 Audit & Finance Subcommittee Report

- The Audit & Finance Subcommittee met August 21. The minutes, included in the agenda packet as Exhibit 9.1, are a draft summary of the meeting and have not been approved; they are included for informational purposes only.

9.1.1 Discussion with the District External Auditor

- The Subcommittee met with the District External Auditor, Angie Zamora, to briefly review the audit process from the last fiscal year, and to discuss the process for this upcoming year's audit. Ms. Zamora will return to the District as part of her periodic visit for the current audit, and will attend Subcommittee's September 20 meeting.

9.1.2 Prop H Program Funding – Other Sources/Uses

- Member Heiser reviewed the presentation given to the Subcommittee by Mr. Patterson regarding other sources and uses of Prop H funding. He discussed the use of matching funds for non-Prop H projects.
- Member Heiser explained that by applying matching funds to non-Prop H projects there is a benefit to Prop H in the form of $11.1 M.
- At the Subcommittee meeting, Mr. Patterson and Mr. Kiesling agreed that before any further matching funds are expended on non-Prop H projects, it would be brought to the Subcommittee or the CBOC first.

9.2 Construction Oversight Subcommittee Report

- Member Pennock reviewed the developments of their July Helix site visit. In September, the Subcommittee will meet with Mr. Kiesling's staff and site staff from various schools.
- Member Marsh presented a draft of a Problem Tracking Sheet, which can be accessed by the public on the CBOC website as Exhibit 9.2. This form can assist in addressing any issues that may arise at a school site with Prop H related construction.
  - In the future, the form would be available online and completed electronically. Member Marsh would like to test this form on Helix High School.
  - District staff members, as well as the Program Manager, will review this Tracking Sheet and give feedback at a future meeting.

- After discussion with the Audit & Finance Subcommittee members, it was agreed that the Construction Oversight Subcommittee will monitor Change Orders in the future.

9.3 Public Relations Subcommittee Report

- Member Panknin stated that the Public Relations Subcommittee did not meet in July. They will meet in September, and will be discussing the Annual Report and the website with Mr. Goshorn.

9.4 Steering & Planning Subcommittee Report

9.4.1 CBOC Bylaws (Handout)

- Member Brant reported that the bylaws were reviewed with Larry Goshorn. The Subcommittee agreed that this draft, with minor changes, should be brought to CBOC for review before being brought before the Governing Board for approval.
  - Mr. Patterson apologized for not distributing the revisions in advance, as staff were still formatting it and entering correct information.
  - The changes made to the bylaws were explained to the CBOC. The CBOC discussed these changes with District staff.
  - Mr. Patterson pointed out that many changes were based in Prop 39 bond language.
  - The CBOC discussed potential changes to membership eligibility.
- Member Muse moved that 4.04 be removed from the proposed Bylaws. Seconded by Member Marsh. Approved unanimously.
- Member Panknin moved that the CBOC recommend to the Governing Board that 4.03 will not apply to any presently-appointed member. Seconded by Member Lear.
  Yes: M. Brant, F. Lear, C. Muse, J. Panknin, R. Pennock, B. Wells (6)
  No: Member Heiser (1)
  Abstain: Member Marsh (1)
  Motion passed.
- The CBOC discussed the date of the Organizational Meeting when elections of officers should take place.
- Chairman Wells moved to request that the Governing Board give the CBOC 30 days time to edit the Bylaws and then present them to the Board. Seconded by Member Lear. Passed unanimously.

9.4.2 New Construction vs. Modernization of Science Classrooms

- Mr. Patterson explained that this issue first arose during Mr. Kiesling's presentations to the Governing Board. The District will be moving forward with building new science classrooms, although this is a deviation from the bond language which specified that the classrooms would be modernized.
    - This change will have a beneficial effect on State Matching Funds generated; the District will receive another $10M of state dollars from new construction.
- Modernizing science classrooms would require reconfiguring interior walls, which may be load-bearing, many classrooms are too small. Additionally, acid-resistant piping and vent hoods would have to be installed. The savings is not very large, but it does save money.
- Mr. Kiesling explained that the staff is looking at constructing two-story buildings for school sites where space is an issue.
- Portables will be removed from these sites, which will provide space for the new buildings.
- Member Panknin moved that the CBOC accept Mr. Patterson's report and inform the Governing Board that the CBOC recommends that they approve new construction on science classrooms instead of modernization. Seconded by Member Lear.

  Yes: M. Brant, W. Heiser, F. Lear, P. Marsh, C. Muse, J. Panknin, B. Wells (7)

  No: R. Pennock (1)

  Motion passed.

9.4.3 Potential Appointment of FEI to Open CBOC Member Position

- Mr. Patterson explained this as a proposal to have the Governing Board appoint FEI as an organization to the open CBOC member position. This Board item was withdrawn from the August 15 agenda.
    - Rather than have the Governing Board interview and select an individual, they would instead appoint a representative from this organization. This is an attempt to try to visibly fulfill the requirements of Prop H membership. The designation of a member of this organization would ensure a member with financial expertise.
- The CBOC discussed the criteria for selecting a member of an organization to join the CBOC.
- The CBOC discussed possible East County organizations to become involved with the CBOC as an alternative to FEI.

There was a concern that the representative from this organization would not live within the District boundaries.

- It was clarified that the member position would be taken by a representative of the organization, and this person would be the only member of the organization responsible for attending CBOC meetings.
- Chairman Wells moved that the CBOC make a recommendation to the Governing Board to fill the empty member position with either an individual, or an organization which would provide an individual, with financial expertise. The CBOC further requests that this person live within the District boundaries. Seconded by Member Panknin. Passed Unanimously.

10.0 Old Business *(Chair)*

- None.

11.0 New Business *(Chair)*

11.1 Plan of Action Regarding BAC Recommendations

- Mr. Wells explained that the BAC Matrix is a recommended tracking device. He requested a Special Meeting to be held within the next two weeks.
- CBOC and District staff discussed the format and which materials to review prior to the Special Meeting.

11.2 Voice of San Diego Article

- No action or discussion due to time limitations.

12.0 Staff Report

- None.

13.0 Future Agenda Items

- None.

14.0 Adjournment

The meeting adjourned at 7:15 p.m.

Citizens' Bond Oversight Committee
Special Meeting
Summary of Meeting
September 13, 2007

1.0 Meeting Called to Order

- The meeting was called to order by Chairman Wells at 5:00 p.m.

2.0 Roll Call

- A quorum was represented as follows:

Committee Members Present: Mendy Brant, Walter Heiser, Fred Lear, Chuck Muse, James Panknin, Bill Wells, Rick Winet. Ron Pennock arrived at 5:55 p.m.

Committee Members Absent: Harold Hilliker, Phillip Marsh

- Members of the Committee, Program Managers, District staff, and members of the public were introduced.

3.0 Public Comments

--Items on Agenda – None.
--Items not on Agenda – None.

4.0 CBOC Bylaws Amendments Approved September 6, 2007

- No changes were made to the draft of the bylaws presented at the August 29 CBOC meeting. The amendments to the CBOC bylaws were adopted as presented. As a result of these changes, Chairman Wells and Member Hilliker are no longer eligible to serve on the CBOC.
- Chairman Wells officially resigned; Member Muse, as Vice-Chair, will act as President until one is elected.

5.0 Setting Priorities for Existing Schools – Mid Course Adjustments

5.1 Scope of Work Control Mechanisms

- Mr. Patterson explained that the tracking forms the Program Managers have created will help provide the CBOC with a report on the status and origin of different recommendations and projects.
- Member Pennock explained that the Construction Oversight Subcommittee will be looking for patterns of problems or issues with contractors.

5.2 BAC Recommendations Regarding Existing Schools

- Exhibit 5.2 can be accessed by the public via the CBOC website as an agenda attachment.

- Mr. Goshorn listed the projects that the Bond Advisory Commission requested the CBOC to review and comment on.
- Member Brant offered to present the Repairs & Renovations Subcommittee Final Report and their findings to the CBOC at their October meeting.
- At the October 31 CBOC meeting, the Program Mangers will present a report on their evaluation of the status of Prop H specified work at existing schools.
- The CBOC discussed the $65M reserve, and when the decision would be made whether or not to build a new high school.

5.3 CBOC Discussions and Possible Action Items

- No further discussion or actions regarding setting priorities for existing schools.

6.0 Define a Realistic 12th High School – Insure Continued Progress

6.1 12th High School Planning Data

- Mr. Patterson stated that the best way to learn about planning already completed for the 12th high school is through the monthly update given to the Governing Board. There is a budgeted amount to determine what types of geological and cultural mitigation might be done, which wouldn't be performed until the Governing Board chose one site.

6.2 BAC Recommendations Regarding 12th High School

- Governing Board President Schreiber explained that this item was tabled at the Governing Board meeting to allow time for staff to answer the Governing Board's questions, as well as to allow time for the CBOC to weigh in on the item.
- Mr. Patterson explained that the previous demographic study was commissioned by the District and delivered in May-June 2006. The direction that District staff took from the Governing Board, through no specific action, was to investigate the nature of demographic studies, including the differences between population studies and public school enrollment, and bring this information to the next few Governing Board meetings.
- Member Heiser moved that the CBOC recommend the Governing Board to act on the Bond Advisory Commission recommendation to fund a demographic study. Member Brant seconded. Passed unanimously.

6.3 CBOC Discussions and Possible Action Items

- No further discussion or actions.

7.0 The Prop H Partnership – Establish Appropriate and Effective Oversight

7.1 Prop H Program Management

- A Presentation was given by gafcon/Harris representatives Randall Duncan – Launch Manager, and Erik Reuter – Program Manager, regarding Prop H Program Management. This presentation can be accessed as Exhibit 7.1 by the public via the CBOC website as an agenda attachment.
- Mr. Duncan and Mr. Reuter reviewed samples of various reports which will be used in the future to track program progress and BAC Subcommittee recommendations.
- Mr. Duncan stated that these reports will be presented at future CBOC meetings, and that the goal is to post a basic summary of these reports on the CBOC website.
    - The Program Managers will produce the information found on the reports, and it will be given to Mr. Goshorn to be posted to the website.
    - Mr. Patterson pointed out that in the future, useful reports can be accessed from both the GUHSD and CBOC websites.

7.2 CBOC Public Relations Status (Subcommittee Report)

- Mr. Panknin reported that the Public Relations Subcommittee would like to have a "stoplight report" created, similar to one of the reports presented in 7.1, but in a more simple form to be posted to the CBOC website.
- The Subcommittee would like to recommend to the Governing Board a timeline for the Annual Report, based on a calendar year cycle. The Subcommittee would like the presentation of the Annual Report to the Governing Board to be an event at a Special Meeting, possibly held in a newly renovated classroom so the community would have an opportunity to see a successfully completed project.
- The Annual Report has potential to be presented to different organizations in the community. It will be very visual and explain projects that are currently in progress.
- The Annual Report will be discussed further at the September 26 CBOC meeting.

7.3 BAC Recommendations Regarding Prop H Partnership (Attachment)

- Mr. Goshorn reviewed the BAC Final Report Recommendations matrix prepared by District staff and divided it into four sections:
    - Recommendations acted upon by the Governing Board and not part of the CBOC's purview
    - Prop H partnership and management of the overall program (green)
    - Recommendations regarding existing schools (blue)

        - Recommendations regarding the twelfth high school (yellow)
    - Mr. Patterson explained that the Repairs & Renovations Bond Advisory Commission Subcommittee has established priorities for projects at existing schools. They surveyed school staff and the results reflected the unique nature of each campus, especially in relation to age.
    - Member Brant stated that she believed the best thing to do is to review the Final Report from the Repairs & Renovations Subcommittee. The Subcommittee toured every school site, spoke with each Principal and MSF, and solicited priorities. It was confirmed that each priority was included in the Bond language.
    - Mr. Patterson explained that the tracking system the Program Managers have been working on will track whether or not there are board actions tied to a recommendation, or tasks for the staff to take on.
    - At the October 31 CBOC meeting, the Program Managers will present a progress update on the tracking system. It will include the items from the BAC recommendations that are complete, underway, or coming up for bid soon.
    - The CBOC discussed the potential task of re-aligning school boundaries and what the result would be, as well as what would be saved if a campus was closed.

7.4 CBOC Discussions and Possible Action Items

- No further discussion or action.

8.0 Future Agenda Items

- Recommendation to create an event to present the Annual Report to the Governing Board.
- Discussion of the 3rd Party Review

9.0 Adjournment

- The meeting was adjourned at 6:45 p.m.

Citizens' Bond Oversight Committee
Summary of Meeting
September 26, 2007

1.0 Meeting Called to Order

- The meeting was called to order by Chairman Muse at 5:00 p.m.

2.0 Roll Call

- A quorum was represented as follows:

Committee Members Present: Walter Heiser, Fred Lear, Phil Marsh, Chuck Muse, Jim Panknin, Ron Pennock. Phil Marsh left at 6:10 p.m.
Committee Members Absent: Mendy Brant, Rick Winet

3.0 Approval of Minutes

- The August 29 CBOC meeting minutes were moved, seconded, and approved as presented.
- The September 13 CBOC Special meeting minutes were moved, seconded, and approved as presented with additions given by Larry Goshorn. These additions are incorporated in the approved minutes posted on the CBOC website.

4.0 Public Comment

--Items on Agenda – None.
--Items not on Agenda – None.

5.0 Chair Report

- Chairman Muse presented an update on the potential process for filling CBOC vacancies. The GUHSD Governing Board is requesting that FEI be asked to appoint a member. The processes for the other CBOC member vacancies will be submitted to the Governing Board for their approval.

6.0 Governing Board Update

6.1 Third Party Review Presentation (Sept 6)

- The Third Party Review was prepared and presented by AF Consultants, and was posted on the GUHSD website in August.

6.2 GUHSD BAC Finance Subcommittee Recommendation #8: Availability of Funds (Sept 6)

- This recommendation was approved by the Governing Board 5/0.

6.3 GUHSD BAC Finance Subcommittee Recommendation #9

- This item was withdrawn from the agenda at the Governing Board meeting. The Governing Board would like to receive updates from the gafcon/Harris Program Mangers at regular Board meetings.

6.4 GUSHD BAC Facilities & Curriculum Subcommittee Recommendation #1: Demographic Study

- No action was taken on this item at the Governing Board meeting. It was referred back to staff to compile further information for future consideration.

7.0 Project Status Report

7.1 Tracking Schedule

- The Tracking Schedule can be accessed by the public via the CBOC website as an agenda attachment.
- Mr. Kiesling reviewed the Tracking Schedule with the CBOC. He stated that bids came in for Granite Hills High School below their estimates, and there were several bidders. He stated that he is comfortable that there is good participation in the program.
- Member Panknin asked about the status of the FACs Report. Mr. Patterson explained that the Program Managers will be looking at this report before it is brought back to the CBOC.

7.2 Headache Report

- The Headache Report can be accessed by the public via the CBOC website as an agenda attachment.
- Mr. Kiesling explained the three items on the Headache Report. Staff were not comfortable with the appearance of wall-patching in the modernized classrooms, and they have reviewed the cost of replacing the wall board in lieu of patching. They determined it would be cost-effective to replace the wall boards.
- Staff is keeping a close eye on rising costs of construction.

8.0 Program Management Reports

- With approval from the Acting Chair, this section was re-titled from "Program Financial Reports" to "Program Management Reports."

8.1 Program Management Tracking Tool

- Mr. Duncan handed out a Power Point presentation printout, which can be accessed by the public via the CBOC website as an agenda attachment.
- The findings of the Program Managers' research will be part of a status report given at the October CBOC meeting. Mr. Duncan stated that their action plan is beginning to take shape. He suggested that at the October CBOC meeting, there be a tour of a finished modernized classroom at Grossmont High School.

- The Program Management Tracking Tool can be accessed by the public via the CBOC website as an agenda attachment.
- This database includes the recommendation, which is recapped in the recommend data block. There is space for the Program Managers to comment on the progress of the project.
- The sub-headings in the database are labeled according to their numbering and titling within the reports the recommendation originated from.
    - Steve Dowe with the gafcon/Harris team explained how the database was created and how each recommendation is labeled and tracked.
- Mr. Duncan discussed the work that the Program Managers have been doing. He explained that they have been reviewing every document guiding the program, the roles and responsibilities of all persons involved, created a program procedures manual, and are presently working on new contracts to be in sync with this manual.
- Mr. Duncan explained that they are trying to establish a total need for the program.
- Member Panknin asked for a report from the Program Managers on a monthly basis with which projects will definitely be completed, which will not be completed, and which projects are in jeopardy.

8.2 Program Expenditure Review

- A copy of the Program Expenditure Review can be accessed by the public via the CBOC website as an agenda attachment.

8.3 Detail of Expenditures

- A copy of the Detail of Expenditures can be accessed by the public via the CBOC website as an agenda attachment.

8.4 Program Management Organization Percentage of Total

- A copy of the Program Management Organization Percentage of Total can be accessed by the public via the CBOC website as an agenda attachment.

8.5 Change Order Rate

- A copy of the Change Order Rate can be accessed by the public via the CBOC website as an agenda attachment.

9.0 Subcommittees

9.1 Audit & Finance Subcommittee Report

- Member Heiser stated that the District's Auditors, Vavrinek, Trine, & Day, LTD., attended the Audit & Finance Subcommittee meeting held on September 20. One of the auditors, Ms. Angie Zamora, answered the Subcommittee's questions. She informed the Subcommittee that the audit was proceeding smoothly. She stated that as of their meeting, they did not

find anything unusual, and no adjustments were needed. The Audit was still in progress, and was going along well.

- The Subcommittee obtained the Letter of Engagement from the District to the Auditors, which lists the procedures for the District Audit. The Subcommittee has a copy, and will study it further.

9.2 Construction Oversight Subcommittee Report

- Member Pennock explained that the Subcommittee met with Mr. Kiesling, the Program Managers, and Facilities Planners on September 24, and discussed issues or patterns developing with construction at school sites. They discussed phasing, the bid process, and allowed all present to give their input on any issues that should be reviewed by the Subcommittee.
- The Program Managers discussed the manual that they are putting together. At future meetings, the Subcommittee would like to talk with contractors, DSA inspectors, and HMC.

9.3 Public Relations Subcommittee Report

9.3.1 Annual Report

- The Public Relations Subcommittee would like the CBOC to recommend to the Governing Board to have the presentation of the Annual Report, which showcases Phase 2B construction in an open house setting, with the location to be determined by staff and Program Managers. This presentation would be given in February 2008. Member Lear moved that this occur. Member Heiser seconded. Approved unanimously.
- Member Pennock mentioned that the East County Californian would like a monthly report of any CBOC updates. Member Panknin explained that he would put Mr. Goshorn in contact with this newspaper for further discussion.
- A draft of the Annual Report will be presented at the October CBOC meeting.

9.3.2 CBOC Website Update Status

- At the November CBOC meeting, the Public Relations Subcommittee and Mr. Goshorn will present their ideas for the CBOC Website update.

9.4 Steering & Planning Subcommittee Report

- Member Lear explained that the Steering & Planning Subcommittee met on September 17, and that they spoke with Mr. Patterson regarding Deferred Maintenance. The Subcommittee believed it was a major issue.
- Mr. Patterson and District staff believed it may be more cost-effective to demolish the Viking Center and re-build instead of modernizing the facility. Mr. Patterson explained that staff will present options to the Subcommittee for their consideration, much like they did with the debate on modernizing versus new construction of science classrooms. He

explained that the problem is that the budget presented in the Bond measure is less than it would require to successfully and correctly complete either scenario.

- Member Lear shared that the Subcommittee discussed the potential re-alignment of school boundaries.
  - Members of the CBOC stated that they believed this may be beyond the scope of the Committee.
- The Steering & Planning Subcommittee was charged with the duty of creating a slate of officers for voting at the October CBOC meeting.

9.4.1 Draft CBOC Subcommittee Responsibilities

- Mr. Goshorn created a draft of responsibilities for each Subcommittee to review.
- Member Lear explained that at the Subcommittee meeting they discussed the San Diego Unified School District's subcommittees, which are similar to the subcommittees of the CBOC.
- Mr. Goshorn handed out the draft responsibilities, which can be accessed by the public via the CBOC website as an agenda attachment.
  - Chairman Muse asked that each Subcommittee review these responsibilities and return their changes to Ms. Hammons by Monday, October 15. It will be included on the October agenda.

10.0 Old Business

10.1 Draft Memo from CBOC Chair to Governing Board Regarding Demographic Study

- The Draft Memo from CBOC Chair to Governing Board can be accessed by the public via the CBOC website as an agenda attachment.
- This memo will be sent to the Governing Board.

11.0 New Business

11.1 Third Party Review

- December 1 is the target date for an update on the status of accomplishing the recommendations of this report.

11.2 New School Status Update

- Mr. Kiesling explained that the EIR is still in progress. He stated that the next step is to issue a notice of preparation – an official notice that this document is being prepared. This allows a commenting period of either 30 or 45 days. This involves a public meeting, established in the Alpine community, to allow members of the public to voice their opinions. The comments will be collected and incorporated. They are continuing with site layouts, and met with community members on sites. They met with

property owners, started some investigations on soil conditions, waste dumps, and background investigation on the sites.

12.0 Staff Report

- All members stated that they are able to attend the October 31 CBOC meeting.

13.0 Other Business

13.1 Appointment of Vice Chair

- Chairman Muse appointed Member Panknin to the position of Vice Chair until the October CBOC meeting elections.
- If any member had a desire to fill an office position, they were instructed to notify the Steering & Planning Subcommittee so that they may be included on the slate for elections in October.

14.0 Future Agenda Items

- Member Marsh moved via note to Chairman Muse, that each of the individual CBOC members weigh in on the Alpine school to assist the Board in addressing the concerns of the taxpayers for the entire district.
  - This motion will be discussed further at the October CBOC meeting.

14.1 GUHSD BAC Repairs & Renovations Subcommittee Report Presentation (October, M. Brant)

14.2 Election of Officers (October)

14.3 Viking Center Modernization (October)

15.0 Adjournment

- The meeting was adjourned at 6:47 p.m.

Grossmont Union High School District

Proposition H Citizens' Bond Oversight Committee

Wednesday, November 28, 2007

Grossmont Union High School District Office; Conference Room 2

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order at 5:01 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Walter Heiser, Elana Levens-Craig, Phillip Marsh, Carol Nash, Larry Nichols, Jim Panknin, Rick Winet. *Members Absent:* Fred Lear, Chuck Muse, Ron Pennock
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as corrected. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ No comments.
5.0 Chair Report *(Chair)* 5.1 Introduction of New Members	▪ Chairman Panknin introduced and welcomed new CBOC members. o Elana Levens-Craig was appointed as a representative of PTA/PTO groups. o Carol Nash was appointed by Financial Executives International. o Larry Nichols was interviewed and selected as a Parent-at-Large member.

5.1.1 Subcommittee Appointments	▪ Elana Levens-Craig was appointed to the Communications Subcommittee. ▪ Carol Nash was appointed to the Audit & Finance Subcommittee. ▪ Larry Nichols was appointed to the Construction Oversight Subcommittee.
5.2 Brown Act Review *(L. Goshorn)*	▪ Mr. Goshorn presented a review of the Brown Act to the CBOC. o The CBOC, as well as all subcommittees, are subject to the Brown Act. Ad Hoc committees are an exception as long as they have less than a quorum of the full committee and are not a standing subcommittee.
6.0 Governing Board Update *(S. Patterson)*	
6.1 RFP for Demographic Study *(Nov 8)*	▪ Mr. Patterson stated that this Board item originated from a CBOC recommendation, supporting a recommendation from the BAC regarding a long-range demographic study. On November 8, the GUHSD Governing Board unanimously approved the issuance of an RFP for a year-by-year enrollment trends forecast. The selection process will take place in January. ▪ The demographic study will be a projection of the entire district and region of district.
6.2 Ratification of FEI and PTA/PTO CBOC Representatives *(Nov 8)*	▪ Carol Nash and Elana Levens-Craig were appointed by their organizations, and their memberships were ratified by the Governing Board on November 8.
6.3. Selection of Parent-At-Large CBOC Representative *(Nov 8)*	▪ Larry Nichols was interviewed and selected by the Governing Board on November 8.
7.0. Program Status Report *(R. Duncan)*	
7.1 Program Manager Report	▪ Mr. Duncan explained the Program Manager Report, which included financial information relevant to the Proposition H program. ▪ Mr. Duncan explained the results of the Site Committee meeting, held at El Capitan

7.1 Program Manager Report *(Continued)*	High School, and included parents, community members, and District staff. Those who attended the meeting gave their input on the future priorities of projects in the Proposition H program. o The CBOC will receive advance notice of any future Site Committee meetings. ▪ Chairman Panknin requested that a "Stoplight Report" be included in future Program Manager Reports, explaining which projects will be completed, are in danger of not being completed, and will definitely not be completed. Mr. Duncan explained that the Program Managers are currently working on creating such a report. ▪ The CBOC gave their input on the content of future financial reports.
8.0 Audit & Finance Subcommittee Report *(W. Heiser)*	▪ Audit & Finance Subcommittee Chair Heiser explained the FACs report, which was presented by Mr. Duncan at their Subcommittee meeting. The Subcommittee will receive more specific financial information and present a summary-level report to the CBOC in the future. ▪ Member Heiser reported that the Subcommittee received a draft of the Annual Bond Audit. It will be reviewed by the Subcommittee, presented to the CBOC in January, and then brought before the Governing Board for their acceptance in February.
9.0 Communications Subcommittee Report *(J. Panknin)*	▪ Communications Subcommittee Chair Panknin stated that the Subcommittee will be meeting with the Union-Tribune Editorial Board. ▪ The Subcommittee is currently drafting the Annual Report. After the Annual Report is complete, the Subcommittee will begin creating the new CBOC website.
10.0 Construction Oversight Subcommittee Report *(R. Pennock)*	▪ Construction Oversight Subcommittee Member Marsh discussed with the CBOC

10.0 Construction Oversight Subcommittee Report *(Continued)*	the process in which they should bring complaints from school site staff, teachers, and community members forward to the CBOC. Mr. Kiesling explained that questions and complaints can be brought forward to either the Subcommittee, the CBOC, or District staff directly. ▪ Mr. Duncan stated that he had a copy of the form created by Member Marsh which could help address any issues related to construction. This will be discussed at the next Construction Oversight Subcommittee meeting.
11.0 Steering & Planning Subcommittee Report *(M. Brant)* 11.1 Mission Statement	▪ Steering & Planning Subcommittee Chair Brant stated that at their November meeting, the Subcommittee discussed the Subcommittee Responsibilities list. Member Pennock was present and discussed with the Steering & Planning Subcommittee the tasks and responsibilities for the Construction Oversight Subcommittee. The list was edited at the meeting, and presented to the CBOC. o Member Heiser requested that the task of reviewing professional fees be removed from the Audit & Finance Subcommittee's list of responsibilities. o **Member Panknin moved to adopt the Subcommittee Responsibilities as presented by the Steering & Planning Subcommittee, including Member Heiser's amendments. Member Marsh seconded. Approved unanimously.** ▪ Member Brant stated that the Subcommittee reviewed the CBOC Mission Statement at their November meeting, and presented it to the CBOC for approval. They would like for it to be included in the Annual Report. o "The mission of the CBOC is to independently review the planning and execution of the Proposition H bond program to validate to the public and Board of Education that

11.2 Mission Statement *(Continued)*	bond funds are spent within the intent of the bond measure." o **Member Nichols moved to adopt the CBOC Mission Statement as presented by the Steering & Planning Subcommittee. Member Heiser seconded. Approved unanimously.**
12.0 Old Business *(Chair)* 12.1 Annual Report	▪ Chairman Panknin presented a draft of the Annual Report to the CBOC. He asked the CBOC for their input on the content and layout of the Report. ▪ Mr. Goshorn stated that it would be printed with two colors, green and black, and the online version would include full-color pictures. ▪ The Annual Report will be circulated throughout the District, online in a PDF format with extended details linked to the document, and emailed to parents. ▪ The CBOC gave their input on the content, and corrected errors on the draft. Mr. Goshorn requested that any further corrections be emailed to him before December 6 to be included in the final draft.
13.0 New Business *(Chair)*	▪ No discussion or actions.
14.0 Staff Report *(S. Patterson, B. Kiesling)*	▪ Mr. Kiesling explained that the Superintendent has been visiting each school site with Facilities Planners regarding facilities issues. Mr. Kiesling suggested that the CBOC invite him to a future meeting to discuss the Proposition H program.
15.0 Future Agenda Items *(Chair)* 15.1 Resource Volunteers for Subcommittees	▪ Steering & Planning Subcommittee – Amendments to CBOC Bylaws for Election Protocol ▪ Audit & Finance Subcommittee – Draft Audit Report
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 7:25 p.m

Grossmont Union High School District

Proposition H Citizens' Bond Oversight Committee

Wednesday, January 30, 2008

Grossmont Union High School District Office, Conference Room 2

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order at 5:03 p.m. by Chairman Jim Panknin.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Walter Heiser, Fred Lear, Elana Levens-Craig, Phillip Marsh, Chuck Muse, Carol Nash, Larry Nichols, James Panknin, Ron Pennock *Members Absent:* Rick Winet
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Chair Report *(Chair)* 5.1 CBOC Website Demo	▪ Mr. Goshorn and Chairman Panknin presented the new CBOC website. Chairman Panknin explained features of the new website, and the CBOC gave input on content to be modified or deleted. ▪ The website was designed by Mr. Goshorn and Mr. Mike Johnson from the District's Information and Technology Services department. It was created by Mr. Johnson, and will be maintained by Ms. Hammons.

5.2 February 21 CBOC Board Presentation	▪ The presentation of the Annual Report and Annual Audit to the GUHSD Governing Board will be held in a new classroom at El Cajon Valley High School at 5:00 p.m. on February 21. ▪ Each CBOC member will receive a binder with a script and a copy of the Power Point presentation. ▪ The Communications Subcommittee will rehearse the presentation at their February 7 meeting.
6.0 Governing Board Update *(S. Patterson)*	
6.1 RFP for Construction Management Firms *(December 13, 2007)*	▪ District staff requested that the Governing Board allow them to hire additional Construction Management support. Staff has already conducted interviews and selections. ▪ Mr. Kiesling pointed out that it would not cost more money to have additional firms, as there would only be one firm working on each project. He stated that it would introduce a healthy dose of competition.
6.2 Selection and Negotiation with Energy Management Firms *(January 17, 2008)*	▪ Energy Management Firms will be able to look at buildings and make recommendations on how to save energy, as well as direct architects to design with energy features in the building.
7.0. Program Status Report *(R. Duncan)*	
7.1 Program Manager Report	▪ Mr. Duncan presented and explained the Program Manager Report to the CBOC. He stated that several site committee meetings would be held in the next two months. They are noticed in newspapers and anyone is invited to attend. ▪ Mr. Duncan explained that staff is in the midst of working on "Sharepoint 360", which is a database created to share information at a single point. The CBOC website can link directly to the information provided on this database. ▪ Mr. Duncan listed the current work in design and construction.

8.0 Audit & Finance Subcommittee Report *(W. Heiser)* 8.1 CBOC Annual Audit Report	▪ The Audit & Finance Subcommittee presented the Annual Audit report. Member Nash stated that she believed the Audit followed what is dictated by state law for these matters, and that it seemed as though everything was in order. The CPA firm expressed an unqualified opinion, which is something she stated she would expect. ▪ **Member Heiser moved on behalf of the Audit & Finance Subcommittee that the document labeled as Second Draft, with additional material that is forthcoming in terms of making a Final Draft, be recommended to the Governing Board to be accepted and approved. Member Nash seconded. Passed unanimously.**
9.0 Communications Subcommittee Report *(J. Panknin)* 9.1 Meeting with Union-Tribune Editorial Board 9.2 Annual Report	▪ The Communications Subcommittee and Ms. Catherine Martin, District Director of Public Relations and Fundraising, met with Don Severens from the Union-Tribune to establish a relationship with the CBOC. ▪ Chairman Panknin and Mr. Goshorn presented the Annual Report to the CBOC, who gave input on the presentation.
10.0 Construction Oversight Subcommittee Report *(R. Pennock)* 10.1 El Capitan High School Teachers' Meeting and El Cajon Valley High School Public Meeting	▪ Member Pennock described the meetings at the school sites, and complimented Dena Johnson on her work at the meetings. ▪ Mr. Duncan explained that the intent of holding the site committee meetings is to prioritize the remainder of the buildings.

11.0 Steering & Planning Subcommittee Report *(M. Brant)*	▪ **Member Brant moved to change "Board of Education" in the CBOC Mission Statement to "Governing Board". Member Lear seconded. Passed unanimously.**
11.1 Viking Center Recommendation	▪ Member Brant introduced the information presented to the Steering & Planning Subcommittee by District staff regarding Viking Center. She explained the status of the facility and the state it is currently in. ▪ Ms. Quirk presented information to the CBOC regarding Viking Center, and the research done behind possible options for remodeling or rebuilding the facility. ▪ A committee was created and began meeting last fall to discuss options for the facility. Three choices were modernization of the existing facility, building a new facility, and dispersal of students throughout the district to either three locations or their home schools. The committee came to the conclusion to build a new facility. ▪ Viking Center staff spent time analyzing their needs. To disperse the students to their home school sites, it would take equivalent staff at each location, which would require hiring five times the amount of staff members. ▪ No other district has a similar program; the students are served in either a specialized classroom setting at a comprehensive site, or in non-public schools. ▪ Member Pennock suggested speaking with surrounding districts to see if they would share a facility and costs. ▪ Ms. Quirk discussed with the DSA the rating of the building, which was deemed educational rather than medical. ▪ Ms. Quirk recommended to the CBOC to demolish the existing facility and build a new building on the same site. ▪ Mr. Patterson explained that the modernization of Viking Center is a part of Phase 2B. The contracting process in Phase 2B saved about 6 million dollars on bids for the other schools. Staff would like to

11.1 Viking Center Recommendation (Continued)	dedicate 1.4 million from those savings to this project. He stated that by rebuilding the facility, there would be marginal savings in maintenance costs. ▪ **Member Brant moved that the CBOC support District staff's recommendation to rebuild Viking Center. Member Lear seconded. Members Heiser and Nichols abstained. All others in favor. Motion passed.** ▪ Mr. Patterson offered to follow up with programmers to see if there is a market with other districts to contribute. Chairman Panknin stated that this item would be brought before the GUHSD Governing Board on February 21.
11.2 Resource Volunteers	▪ **Member Brant moved to recommend that the criteria for Resource Volunteers be as follows: Contact specialists or previous CBOC applicants that have backgrounds in the following areas – Construction, Finances, and Communications – to see if they might be interested in volunteering. If so, then the individual chairs of those subcommittees would interview and select those individuals that best meet the needs of that subcommittee. Their terms would be to serve at the pleasure of the subcommittee as long as needed. Chairman Panknin seconded.** ▪ Chairman Panknin gave a brief background of Resource Volunteers. It was discussed that the last meeting, and was brought to the Governing Board, who supported the idea. Resource Volunteers are non-voting Subcommittee members that can help with projects being worked on at that level. He stated that several highly qualified candidates were not selected to be on the CBOC, and his intent is to speak with those people first, if they are interested, to see if they would fulfill the CBOC's needs. Resource Volunteers would be on the Communications, Construction Oversight, and Audit & Finance Subcommittees. He stated that the intent of the recommendation

11.2 Resource Volunteers (Continued) 11.3 Attendance Log	was to formalize the process. ▪ Member Marsh suggested adding specialists into the motion as possible candidates for Resource Volunteers. Member Brant amended her motion to include specialists or previous CBOC applicants. Chairman Panknin approved the amendment. ▪ **Motion passed unanimously.** ▪ Member Brant stated that an Attendance Log is being kept and maintained by Ms. Hammons to keep track of CBOC members and absences.
12 Old Business *(Chair)*	▪ No discussion or action.
13 New Business *(Chair)*	▪ No discussion or action.
14 Staff Report *(S. Patterson, B. Kiesling)* 14.2 Demographic Study Status Update 14.3 Upcoming Bids	 ▪ Mr. Patterson stated that five firms responded to the RFP. Two firms dropped out. The selection will be brought before the Governing Board on February 21. ▪ Landscaping at Monte Vista High School ▪ Infrastructure and Interim Housing at Mount Miguel High School ▪ Emergency Generators – non Prop H
15 Future Agenda Items *(Chair)*	▪ Superintendent Facilities Vision – Invite the Superintendent to the meeting when he is prepared to give this presentation.
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 7:45 p.m.

Grossmont Union High School District

Proposition H Citizens' Bond Oversight Committee

Wednesday, March 26, 2008

Grossmont Union High District Office; Conference Room 2

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Chairman Jim Panknin at 5:10 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: o *Members Present:* Mendy Brant, Walter Heiser, Fred Lear, Elana Levens-Craig, Phil Marsh, Carol Nash, Larry Nichols, Jim Panknin. Ron Pennock arrived at 5:12 p.m. o *Members Excused Absent:* Chuck Muse, Rick Winet
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded. Member Heiser abstained; all others in favor. Motion passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Chair Report *(Chair)*	
5.1 Superintendent Collins' Comments	▪ Chairman Panknin stated that there will be an agenda item reserved for GUHSD Superintendent Robert Collins on each CBOC meeting agenda.
5.2 San Diego County Taxpayers Association Study	▪ Member Lear stated that the Steering & Planning Subcommittee reviewed and discussed the findings of the San Diego

5.2 San Diego County Taxpayers Association Study (Continued)	County Taxpayers Association study surveying oversight committees throughout San Diego County. He mentioned that he was surveyed, and spent 45 minutes speaking with the interviewer. The survey responses were numerical ratings, along with a narrative explanation of the response. ▪ Member Lear stated that he was troubled by the results of the survey, and felt as though a mistake was made. He stated that he believed the District staff ratings were unusually low and inconsistent with their actual performance. ▪ Members Heiser, Brant, Lear, and Marsh stated that they were surveyed. ▪ Member Marsh stated that he was surveyed in May or June of 2007 and, at the time, requested a written copy of the results. He pointed out that he received his copy two weeks prior to the CBOC meeting. Member Marsh suggested sending a response to the San Diego County Taxpayers Association. ▪ Member Heiser stated that he believed that it was the first time they conducted a survey of oversight committees, so he was not sure if the delay was typical. He stated that he was interviewed almost a year ago, and that he was not surveyed with a numerical system. He stated that he would speak with Lani Lutar about the delay in presenting the results. ▪ Member Marsh suggested that the CBOC recommend that the Taxpayers Association re-interview the CBOC now that most members have been on the Committee at least a year, showing improvement within the program without getting rid of the old results. ▪ Chairman Panknin stated that the CBOC could use the data to improve in certain areas. ▪ **Member Lear moved to have Member Heiser, as a member of the CBOC, contact the San Diego County Taxpayers Association with respect to this report and ask that someone show him the survey data. The CBOC would then review how it was compiled and ensure it**

5.3 San Diego County Taxpayers Association Study (Continued)	**was accurate. Member Brant seconded.** ▪ Chairman Panknin requested that the motion be tabled until Member Heiser and the Steering & Planning Subcommittee have a chance to review and discuss the data. ▪ **The motion was rescinded.** The Steering & Planning Subcommittee will review it and create a strategy to bring back to the CBOC. ▪ Chairman Panknin stated that the first 22 pages of the document is good education on what an oversight committee should be doing and requested that it be included in CBOC information binders for future members.
6.0 Governing Board Update *(S. Patterson)* 6.1 Feasibility Study for Follow-On Bond	▪ The Tramotola agreement was approved by the Governing Board.
6.2 Agreement with Orrick, Herrington as Bond and Disclosure Council	▪ The agreement approving Orrick, Herrington as bond council for the final sale of the election of 2004 bonds was approved.
7.0 Program Manager Report *(K. Wright)* 7.1 February Progress Report	▪ Mr. Kiesling introduced Ms. Katy Wright from gafcon/Harris. She was previously an employee at the Sweetwater Union School District when the gafcon/Harris team was there, and is now a member of their team. ▪ Ms. Wright presented the Program Status Report as presented to the Governing Board. o 30 classrooms have been completed. 70 more will be completed over the next three months, and 50 more by the end of the year. o The change order rate is well within the industry standards. o The Sharepoint portal has gone live, which will be a vital communication tool with the public as well as staff. The FACS report will provide live data on a monthly basis.

7.1 February Progress Report (Continued)	○ There will be Site Committee meetings at Valhalla and El Capitan High Schools. There will also be Ribbon Cutting Ceremonies within the next month. Member Levens-Craig requested that CBOC members be given a week's notice before these meetings occur. ▪ Member Pennock requested an organizational chart from District staff explaining how gafcon/Harris and the District work together. Chairman Panknin asked that this be brought to the April 30 CBOC meeting.
7.2 Sharepoint	▪ Ms. Murray presented the new Sharepoint Proposition H Construction website to the CBOC. ▪ The website is both an informational website as well as a document control center. Plans, budgets, contracts, and other documents related to the bond are stored within its database. Staff can selectively pull out information and simplify them for members to review. ▪ Ms. Murray showed the progress chart for each school site, which will be updated weekly. ▪ The Proposition H Construction website is linked from the GUHSD and CBOC webpages. ▪ Mr. Kiesling pointed out that the website allows users have selective access to the full site. For example, staff can set up architectural standards and give the architects a password to access that information.
8.0 Audit & Finance Subcommittee Report *(C. Nash)*	
8.1 Resource Volunteers	▪ The Subcommittee is still in the process of recruiting a Resource Volunteer. Member Nash informed the group that the Subcommittee will be reviewing the possible upcoming bond sale and requested a Resource Volunteer with related experience.

8.2 Financial Display for the CBOC Website	▪ Member Nash reported on the modifications made to the document at the Subcommittee meeting, such as explaining abbreviations and breaking the graph into different categories. ▪ **Member Lear moved that the CBOC accept the Financial Status Display and ask Mr. Goshorn to provide it to District staff for publication. Chairman Panknin seconded.** ▪ Member Heiser stated that the display suggests that the new high school would be built because it is labeled as a budgeted expenditure. ▪ Chairman Panknin stated that the Audit & Finance Subcommittee should continue to review the Financial Status Display until all areas are clearly explained. ▪ Member Heiser suggested breaking down the state matching funds on the funding side of the graph into two categories: new school state matching funds and existing modernization matching funds. ▪ **Motion tabled.** The Audit & Finance Subcommittee will review this data and return with a recommendation.
9.0 Communications Subcommittee Report *(J. Panknin)* 9.1 Outreach Report	▪ Chairman Panknin stated that he would be presenting the CBOC Annual Report at the Santee Rotary Club, Alpine Boulder Oaks auditorium, and El Cajon City Council. Member Winet will present at the La Mesa – Spring Valley School District Board meeting, and Members Brant and Levens-Craig will be presenting at the Foothills Council meeting. ▪ Chairman Panknin requested that notice of presentations of the Annual Report be sent to the Communications Subcommittee as well as Ms. Hammons so that they can be posted on the CBOC website as an upcoming event.
9.2 Website Review	▪ Chairman Panknin asked that each Subcommittee decide what will be included

9.2 Website Review (Continued)	on their page of the CBOC website, and notify Mr. Goshorn and Ms. Hammons of this information so updates can be made.
9.3 Resource Volunteer	▪ Beth Accomondo-Weidinger is the new Resource Volunteer for the Communications Subcommittee. She was an applicant for the parent-at-large membership, is a parent of a student at Mount Miguel High School, and gives theater reviews for KPBS.
10.0 Construction Oversight Subcommittee Report *(R. Pennock)*	▪ Member Marsh stated that the Subcommittee reviewed change orders and the bidding process, and discussed the possibility of standardizing components in buildings by having the District directly purchase those components and provide them to the contractors for installation. ▪ In the future, the Subcommittee will review the list of subcommittee responsibilities to decide what they will be able to handle.
11.0 Steering & Planning Subcommittee Report *(M. Brant)*	
11.1 Election Protocol	▪ The Subcommittee reviewed the Election Protocol, taking into account the discussion at the February 27 CBOC meeting. They added "…or the balance of their appointments" to the text. This would allow for anyone to be able to serve in the role of Chair or Vice Chair. ▪ Member Nichols modified the text to state: "…shall serve the lesser of their one year term, or the balance of their appointments." ▪ **Member Lear moved that the Election Protocol be accepted into the CBOC Operational Guidelines as presented by the Subcommittee, including Member Nichols' modifications. Chairman Panknin seconded. Motion passed unanimously.**
11.2 Motions for Operational Guidelines	
11.2.1. Handouts	▪ The Subcommittee recommended that any exhibits or handouts to be included in the CBOC agenda packet should be given to

11.2.1 Handouts (Continued)	the Support Secretary by the close of business the Thursday before the CBOC meeting.
11.2.2. Attendance	▪ The Subcommittee recommended that the Attendance Log be presented to the CBOC and Subcommittees on a quarterly basis – March, June, September & December. The quarterly attendance report shall be published with the CBOC agenda. In addition, the report will, on those months it is included, be brought before the Steering & Planning Subcommittee for any possible recommendations as long as inclusion is mandatory.
11.2.3. Governing Board Participation	▪ The Subcommittee recommended that if a member of the Governing Board is present, they be acknowledged at the beginning of the meeting. ▪ **Member Nichols moved to support the Steering & Planning Subcommittee recommendations for Operational Guidelines. Member Marsh seconded. Motion passed unanimously.**
11.3 Tracking of Prop H Ballot Items	▪ The Subcommittee is continuing to validate this document, and will return with a report to the CBOC after their next Subcommittee meeting.
12.0 Staff Report	▪ Mr. Kiesling explained the process in which two new members will be selected for the membership positions opening this summer. District staff will identify organizations to hold seats on the CBOC and select their members. ▪ The two membership openings are for members of a business organization and senior citizens' organization. Recommendations for possible organizations were given by Members Pennock and Muse, whose term endings will create these vacancies. ▪ Member Levens-Craig suggested speaking with an active mobile home park association, which may have a large percentage of senior citizens. She also

12.0 Staff Report (Continued)	suggested the East County Chamber of Commerce to be selected as the business organization. ▪ Member Brant requested that the member be a resident within the District. ▪ Member Pennock explained that he spoke with Mr. Kiesling and recommended that the business organization be within the construction industry. Member Pennock recommended that the District seek out membership from the East County Construction Council. ▪ Member Lear stated that the Steering & Planning Subcommittee discussed the member vacancies, and recommended that the District advertise, interview, and select the member representing the Senior Citizens' Organization in the same way as the at-large member appointments. ▪ **Chairman Panknin moved to forward Member Pennock's recommendation for the East County Construction Council to appoint a member to represent the business membership capacity, and the Steering & Planning Subcommittee's recommendation that the Senior Citizens' Organization membership appointment to be advertised, interviewed, and selected by the Governing Board. Member Lear seconded. Member Heiser abstained. Motion passed 8/1.**
13.0 Old Business *(Chair)*	▪ No discussion or action.
14.0 New Business *(Chair)*	▪ Member Pennock stated that he would be requesting that the Governing Board bring back the Blue Ribbon Commission at their next meeting. His intent was that six years ago the Commission, after two years of research, presented 103 recommendations for efficiency. He believed that many of those recommendations may still be valid.

15.0 Future Agenda Items *(Chair)*	▪ None.
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 7:00 p.m.

Next Meeting: Wednesday, April 30, 2008

4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Chair Report *(Chair)*	
5.1 Form 700	▪ The members of the CBOC are required return a completed Form 700 to District staff before April 1.
5.2 Report on February 21 Special Board Meeting	▪ Chairman Panknin stated that the presentation of the Annual Report and

	Annual Audit were received well by the GUHSD Governing Board. He was asked to repeat this presentation at the March 13 Governing Board meeting.
5.3 Union-Tribune Opinion Editorial	▪ An edited version of the "Chairman's Letter" included in the Annual Report was published on Saturday, February 23 as an Opinion Editorial in the Union-Tribune.
6.0 Governing Board Update *(S. Patterson)*	
6.1 Demographic Study (February 21)	▪ The Governing Board approved the agreement with Davis Demographics to perform a demographic study on the District. It will be a multi-year study, past 2020, and will be conducted at the District level as well as by region of the District. The results are due by contract in early May.
6.2 Construction Management Firms (February 21)	▪ The Governing Board approved contracts with two more construction management firms.
6.3 Viking Center (February 21)	▪ The Governing Board approved the proposal for new construction at Viking Center.
7.0 Program Manager Report *(R. Duncan)*	
7.1 Program Manager Report	▪ Chairman Panknin requested that for future meetings, the CBOC only be provided with the Executive Summary from the Financial Status report, as well as the Power Point presentation handed out at the CBOC Meeting. ▪ Mr. Duncan stated that there will be Site Committee meetings scheduled in March and that the CBOC will be notified when these meetings have been scheduled. ▪ Mr. Duncan reviewed the Financial Status reports with the CBOC. ▪ Mr. Duncan complimented the District Facilities Planners and Fiscal Services for their cooperation and collaboration with Program Management.

7.2 Program Director Transition	▪ Mr. Duncan stated that there are ribbon cutting ceremonies scheduled for Helix Charter, El Capitan, and Grossmont (700 building). He invited the CBOC to attend these ceremonies. ▪ Mr. Duncan stated that a minimum of 351 classrooms being modernized, and that the long range facilities master plan will determine a final number. ▪ Mr. Kiesling explained that Mr. Duncan's role has been as the program's Launch Manager. When the District first selected the gafcon/Harris team, the proposal was for the Launch Manager to put systems and reports together for three to six months. After the Launch period, a Program Director would take over. ▪ Ms. Katy Wright will serve as the Program Director. Mr. Kiesling stated that Mr. Duncan will be available by telephone for assistance during the transition. Ms. Wright will coordinate future Site Committee meetings. ▪ **Member Lear moved that the minutes note that the work that Mr. Duncan has done has been exceptional. The CBOC is pleased with what they have received. They would like to commend him for the work that he and gafcon/Harris have done. Member Marsh seconded. Passed unanimously.**
8.0 Audit & Finance Subcommittee Report *(W. Heiser)*	▪ Member Nash stated that the Audit & Finance Subcommittee received and reviewed the final Audit Report. They presented it to the Governing Board at the Special Board Meeting on February 21. The Governing Board accepted the Annual Audit. ▪ Mr. Patterson stated that new bonds are coming up for sale in May or June. He is asking that the underwriters attend a future Subcommittee meeting. ▪ The Subcommittee is reviewing Mr. Goshorn's financial reports for posting on the CBOC website.

8.1 Resource Volunteers	▪ Member Nash stated that she contacted FEI and has been waiting for a response from them for a Resource Volunteer. She will also contact the previous CBOC applicants provided by Ms. Hammons.
9.0 Communications Subcommittee Report *(J. Panknin)*	▪ Chairman Panknin thanked Catherine Martin for her assistance with the Union-Tribune opinion editorial. Member Lear stated that he was impressed with the assistance she gave with the opinion editorial.
9.1 Annual Report Presentation Binder	▪ Chairman Panknin stated that each CBOC member has their own presentation binder for the Annual Report. He explained that the script was designed for the presentation at the Governing Board meeting, but encouraged each member to personalize their script and tailor it to the group they are presenting to. ▪ He stated that the Governing Board suggested the CBOC present the Annual Report to Lions and Rotary Clubs. ▪ Chairman Panknin stated that the presentation includes a CD with the Power Point presentation and suggested each member to practice their presentation. ▪ Chairman Panknin will be presenting the Annual Report at the March 13 Governing Board meeting. He will also be giving a presentation on April 8.
9.2 Website Q&A	▪ Chairman Panknin stated that he has been reviewing the CBOC website and found problems. The next Communications Subcommittee meeting is on Thursday, March 6. He requested that the members review the website and send him any problems they might find.
10.0 Construction Oversight Subcommittee Report *(R. Pennock)*	▪ The Subcommittee toured a building under construction at Grossmont High School and did not find any problems at that site. ▪ Member Marsh stated that he would like to make projects coming up to bid more easily

10.0 Construction Oversight Subcommittee Report (Continued)	accessible through the CBOC website. He stated that Mr. Kiesling is taking the lead on this project and would like the bid page to resemble the San Diego Unified School District's Prop MM webpage. He would like to be able to refer contractors to the website. ▪ Member Pennock stated that he had contacted previous CBOC applicants in search of Resource Volunteers. Those who were interested were unable to attend the February 26 Subcommittee meeting. He is also open to any CBOC member who would like to participate in his Subcommittee.
10.1 Change Orders	▪ The Subcommittee reviewed current change orders and noted that the percentages presented were acceptable. Mr. Kiesling will present the change orders on a monthly basis to the Subcommittee.
10.2 Charter School Site Maintenance and Modernization	▪ Mr. Kiesling explained that the charter schools are District facilities that are operated by charters, but still belong to the District. He stated that District staff ensures that the charters are maintaining the facilities in an adequate manner. ▪ For maintenance and repairs, the charter can hire District staff, contract the work, or maintain it with their own staff. The facilities are inspected once a year to ensure that facilities don't run down to the point where they are unusable by the District in the future. ▪ Both charter schools in the District are eligible for bond money since they are District-owned.
10.3 E-Rate	▪ Member Pennock explained that E-Rate is a federally funded program, and that the District is receiving all that they are eligible for. The Subcommittee did not have any concerns and did not find any problems with this.

11.0 Steering & Planning Subcommittee Report *(M. Brant)* 11.1 Policy Recommendations	▪ Member Brant explained that the Election Protocol had been edited. **Member Brant moved to accept the Election Protocol and enter them into the Operational Guidelines.** ▪ Member Brant stated that the topic of proxy voting had come up at the last election. She stated that the committee could use teleconference technology so that a member who would like to enter a vote, but is unable to attend a meeting, would be able to call and participate in the discussion before voting. ▪ Member Brant stated that agenda items are required to be submitted to the Chair two Mondays before the CBOC meeting. This will ensure that the items are included on the agenda within Brown Act requirements. ▪ Member Brant stated that handouts and exhibits for CBOC meetings can be handed out at the regular meeting, but the preference is that they be submitted to the Chair or the Support Secretary by the Thursday before the CBOC meeting. ▪ **Member Pennock moved to accept the Steering & Planning Subcommittee's recommendations. Member Nichols seconded.** ▪ Member Marsh stated that he had issues with the Election Protocol as presented by Member Brant regarding the eligibility to Chair the CBOC. The CBOC discussed the Election Protocol. ▪ Member Brant agreed to return to the Steering & Planning Subcommittee with their recommendations for Operational Guidelines for review. ▪ **Member Lear moved that the CBOC establish protocol with Operational Guidelines. Member Brant seconded. Member Marsh abstained. Motion passed.** ▪ **Member Lear moved to approve the Steering & Planning Subcommittee recommendations for Operational**

11.1 Policy Recommendations (Continued)	**Guidelines, with the amendment of "should" in place of "must" in recommendation number two. Member Nichols seconded. Motion passed.**
11.0 Staff Report 12.1 Upcoming Bids 12.2 Budget	▪ Mr. Kiesling stated that he would bring notice of upcoming bids to the Construction Oversight Subcommittee. ▪ Mr. Patterson gave a brief overview of the State budget and how it affects the District. He stated that it does not have an impact on matching funds or funds within the program.
12.0 Old Business *(Chair)*	▪ Member Lear asked District staff what program is housed at Homestead. Mr. Patterson explained that it is a school designed for a category of Special Education student, SED (Seriously Emotionally Disturbed). He explained that other districts house these programs within their existing schools. ▪ Member Pennock asked if the program can be moved to the Chaparral campus. Mr. Patterson stated that staff has been looking at all options for the facility.
13.0 New Business *(Chair)*	▪ No discussion or action.
14.0 Future Agenda Items *(Chair)*	▪ *Steering & Planning Subcommittee:* Homestead
15.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 6:37 p.m.

Grossmont Union High School District

Proposition H Citizens' Bond Oversight Committee

Wednesday, April 30, 2008

Grossmont Union High District Office; Conference Room 2

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Chairman Panknin at 5:01 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Elana Levens-Craig, Carol Nash, Larry Nichols, Jim Panknin, Ron Pennock, Rick Winet Walter Heiser arrived at 5:05 p.m. Ron Pennock left at 5:25 p.m. *Members Absent:* Phil Marsh, Chuck Muse
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Chair Report *(Chair)* 5.1 Superintendent Collins' Comments	▪ Superintendent Collins stated that he spent the past five months touring schools and facilities, reviewing the data and opinions surrounding building a high school in Alpine, and reviewing Proposition H work. He stated that he was prepared to make a recommendation regarding these issues to the Governing Board. He stated that he would not be asking them to take action on

5.1 Superintendent Collins' Comments (Continued)	his recommendation at the May 8 meeting. ▪ Superintendent Collins stated that he believed that the issues revolve around four main items. o For various reasons, such as inflation, certain aspects of Proposition H will not be completed. He stated that he believed that the Proposition H projects need to be completed, and that there is an obligation to complete Proposition H and those projects outlined in the bond. o Proposition H was never envisioned to modernize or rehabilitate entire schools. He stated that he did not believe that half of a school should be modernized while the other half remained untouched. He stated that he didn't believe it was fair to teachers, parents, or the community. o He stated that the schools built in the 1950s and 1960s were not built well. The schools were built without multipurpose rooms, band rooms, or air conditioning. One school had to choose between a pool or a gymnasium, and another has weight rooms in tents on the campus. Some properties are not fully paved. He stated that he believed it was not fair to the community or the students. o He stated that he weighed both sides of the argument regarding building a high school in Alpine. He stated that he would make a recommendation regarding the high school in Alpine at the May 8 Governing Board meeting. He stated that there are students living in the Alpine area, and although the population may grow in the future, a school designed

5.1 Superintendent Collins' Comments (Continued)	for a larger amount of students can't be built. Superintendent Collins stated that a large school can be designed, but built in modules, based on a small learning community model. ▪ Superintendent Collins stated that he believed it was in the best interest of homeowners throughout the county to have schools modernized. He stated that those buying homes tend to compare schools in different areas, and that the District needs to be competitive. ▪ Superintendent Collins stated that at some point, the District will have to review the program scope. He stated that he would like to see that Proposition H projects are completed, to ensure that all students and teachers are in modern buildings. ▪ Member Pennock asked if it was state law to conduct three EIRs. He stated that he believed only one site made sense, and the others had problems. Mr. Kiesling explained that there is one EIR evaluating three sites, and that each site has advantages and disadvantages. He stated that staff is giving the Governing Board the opportunity to evaluate each site against the others. Staff will make a recommendation on a preferred site, and if the Board does not select the preferred site, staff would review the others. o Mr. Goshorn explained that the law does not require that the District study three sites specifically, but to investigate alternatives.
6.0 Governing Board Update *(S. Patterson)* 6.1 CBOC Vacancy Plan (April 10)	▪ Mr. Patterson explained that Members Muse and Pennock will be termed out in June. He stated that in order to ensure a smooth transition, he brought forward a proposal to the Governing Board on the process of selecting new members, which was approved 5/0.

6.1 CBOC Vacancy Plan (Continued)	▪ Organizations will be designated to fulfill the Business Organization and Senior Citizens' Organization memberships on the CBOC. After researching various organizations and receiving recommendations from Members Muse and Pennock, it was recommended to the Board that the East County Construction Council be selected to fulfill the requisite Business Organization membership, and that the East County Action Network be selected to fulfill the Senior Citizens' Organization membership. Each organization would designate a member to sit on the CBOC. ▪ Each member will attend the June CBOC meeting as an observer, and will participate as an official member at the July CBOC meeting.
7.0 Program Status Report *(K. Wright)* 7.1 Program Manager Report	▪ Ms. Wright presented the monthly program update for the CBOC, with data as of March 31. ▪ 55 classrooms have been completed and are in use. A total of 79 rooms have been modernized. The change order rates have increased slightly to 4.2% in March, and are being monitored. This is related to unforeseen conditions, such as termite damage and field conditions. ▪ The landscaping bid came in at $190,000 under estimate. ▪ The FACS system has been revised, and the Proposition H Construction website is continuously being updated.
8.0 Audit & Finance Subcommittee Report *(W. Heiser)* 8.1 FACS Report	▪ The Subcommittee reviewed the FACS report at their April 15 meeting. Mr. Kiesling explained that the FACS report is available online at the Proposition H Construction website. ▪ Mr. Kiesling stated that the FACS report shows where funds are leftover from certain

8.1 FACS Report (Continued)	projects, and where other projects will need more funds. Staff has cleaned up the infrastructure projects, and money left in those accounts can be reallocated into another project. ▪ Mr. Patterson stated that at the next Subcommittee meeting, the FACS report will be compared to an updated version and changes will be highlighted for the Subcommittee to review.
8.2 Financial Status Display	▪ Member Heiser explained that the Financial Status Display is a brief overview of the financial status of Proposition H, which is posted on the Proposition H Construction website. It shows a general summary of funding and expenditures with regard to Proposition H overall, as well as state matching funds. The second page in the display defines and explains the terms used in the financial display.
8.3 Executive Summary of Bond Financing and Sale Presentation	▪ Member Heiser described the presentation on bond financing and sales, given by Bruce Kerns, the underwriter on the Proposition H bonds. Mr. Kerns explained the various aspects taken into account when bonds are sold, such as insurance, bond ratings, and timing. Member Heiser stated that there are complicated factors in deciding when to sell the bonds. ▪ The Subcommittee did not make a recommendation as to when it would be appropriate to sell the bonds. It will be discussed further at the May Subcommittee meeting and will be reported to the CBOC as a recommendation. ▪ Mr. Patterson explained that the current schedule is assuming a 2008 sale, and staff will be asking the Board for approval at their June 12 meeting.
8.4 Subcommittee Website Content	▪ Member Heiser stated that the Subcommittee briefly discussed the content of their Subcommittee webpage, and decided that they would like all past audits linked on their page.

9.0 Communications Subcommittee Report *(J. Panknin)* 9.1 Annual Report Presentations	▪ Chairman Panknin stated that he presented the Annual Report to the Santee Rotary Club, the Alpine community, and the El Cajon City Council, and that he would be presenting the Annual Report at the Santee Chamber of Commerce on May 1. ▪ Member Levens-Craig stated that she and Member Brant were presenting the report at the Foothills Council PTA meeting on May 6. ▪ Member Winet presented the report at the April 15 La Mesa-Spring Valley School District Governing Board meeting, and in May was planning on presenting the report to the La Mesa City Council.
10.0 Construction Oversight Subcommittee Report *(R. Pennock)*	▪ Member Nichols noted that there was not a meeting held in April.
11.0 Steering & Planning Subcommittee Report *(M. Brant)*	▪ Member Brant stated that the Subcommittee was reviewing the issues surrounding the Homestead site. She stated that by May or June the Subcommittee will have more definitive answers regarding this situation. ▪ Member Heiser stated that he attended the Steering & Planning Subcommittee meeting, and that he followed up with the San Diego Taxpayers' Association regarding their study on oversight committees. He was contacted and notified that there was an error in the data, which was a duplicate of Sweetwater School District's data. The results will be recalculated, sent to Member Heiser, and updated on the Taxpayers' Association website.
11.1 Prop H Ballot Item Tracking Report	▪ Mr. Kiesling explained that the matrix in the report showed school sites and bond language in general terms. The green areas indicated where bond language specifically calls for a project to be completed. The white areas are not in the scope of the corresponding sites. A blue-boxed area indicates where the bond doesn't list the

11.1 Prop H Ballot Item Tracking Report (Continued)	project in the school-specific listing. These are either mistakes, not included in the bond language though it should have been, or is covered by state, DSA, or other guidelines. ▪ Mr. Kiesling explained that the Subcommittee asked staff to return with an explanation in writing that explains the case for each project outlined in blue, giving the CBOC a chance to approve each project. The report would then be brought before the Governing Board, who would have the final say in adding to the scope. ▪ Member Brant stated that some of the projects outlined in blue were listed in the general language of the bond, but not in the school-specific listings.
12.0 Staff Report 12.1 Feasibility Study	▪ Mr. Patterson explained that this study was commissioned to survey the electorate on the prospect of a follow-on bond measure. 600 responses of statistically valid information were received. The results of this study will most likely be included in Superintendent Collins' remarks at the May 8 Governing Board meeting.
12.2 May 8 Superintendent Report to Governing Board	▪ Mr. Patterson explained that staff would present the Governing Board briefing to the CBOC at their May 28 meeting.
13.0 Old Business *(Chair)*	▪ Mr. Kiesling pointed out that the complete version of the San Diego Taxpayers' Association study can be found on their website.
14.0 New Business *(Chair)*	▪ Member Lear asked what the CBOC thought of indemnification or insurance for errors and omissions. Member Heiser stated that the other oversight committee that he serves on has coverage, and that he felt that the CBOC should have something similar, either through an insurance policy or agreement with the District.

14.1 Consultant Performance Review	▪ Member Lear mentioned that on previous boards he had served on had that protection. ▪ Member Nash pointed out that the CBOC does not make decisions, only recommendations to Staff and the Governing Board. ▪ Mr. Patterson stated that he would consult the District Risk Manager, who has a rich background in insurance, as he may have awareness of this issue. ▪ Chairman Panknin stated that Mr. Goshorn's contract includes a budget to complete a performance review. ▪ Mr. Goshorn explained that the intent of the performance review is to research specific projects identified by the CBOC in more depth. He would review budgets, expenditures, change orders, and walk the site to review the items listed in the bond, quality of construction, and individual projects in more detail. It would involve several meetings with the subcommittees, District staff, and time to develop and a report to present to the CBOC and subcommittees. ▪ Chairman Panknin requested that the Construction Oversight subcommittee recommend sites or projects to be reviewed. The projects to be reviewed will be announced at the May 28 CBOC meeting.
15.0 Future Agenda Items *(Chair)*	▪ No discussion or actions.
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 6:32 p.m.

Grossmont Union High School District

Proposition H Citizens' Bond Oversight Committee

Wednesday, May 28, 2008

Grossmont Union High District Office; Conference Room 2

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Chairman Panknin at 5:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Walter Heiser, Elana Levens-Craig, Phil Marsh, Chuck Muse, Carol Nash, Jim Panknin o Larry Nichols arrived at 5:04 p.m. o Fred Lear arrived at 5:06 p.m. o Ron Pennock arrived at 5:08 p.m.
3.0 Approval of Minutes *(Chair)*	▪ **The minutes were moved to be approved as presented with the following change to agenda item 9.1:** ***"Member Levens-Craig stated that she and Member Brant were presenting the report at the Foothills Council PTA meeting on May 6."*** **Seconded, Member Marsh abstained, all others in favor. Motion passed.**
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Chair Report *(Chair)* 5.1 Superintendent Collins' Report to the Governing Board	▪ Superintendent Collins explained the main points of his presentation to the GUHSD Governing Board at their May 8 meeting. ▪ Superintendent Collins presented figures of

5.1 Superintendent Collins' Report to the Governing Board (Continued)	existing work, either completed or underway. He pointed out that Proposition H was not envisioned to completely modernize all GUHSD campuses. ▪ Superintendent Collins stated that there is a strong interest from the community to create a career technology educational program. He stated that the schools in the District need to be competitive, and that there should be equity and parity for teachers, students, and staff members. ▪ Superintendent Collins stated that he recommended a Proposition 39 bond for the November 2008 election. The scope of this bond would include the completion of the original scope of Proposition H, continuing to modernize classrooms, building a strong career technology program, and building the first phase of a new high school serving 800-1200 students. ▪ Superintendent Collins stated that he wanted to engage the Alpine community in the design and construction of high school modules for 400 students. ▪ Superintendent Collins stated that he recommended that 20 million dollars be allocated toward purchase of land and infrastructure for the new high school, and that the remaining 45 million dollars be released into phase 3b-r in Proposition H. ▪ Ms. Wright listed the accomplishments of the Proposition H program. She explained that if 45 million dollars were to be released to the program, approximately 150 more classrooms would be completed. ▪ Chairman Panknin stated that the Steering and Planning Subcommittee drafted a letter supporting the Superintendent's recommendation to split the reserve funds. ▪ Releasing 45 million dollars to create additional classrooms will not attract additional state funds because the District has exhausted all eligibility for the current phase of construction. ▪ Ms. Wright presented diagrams of school campuses and examples of additional work that would be completed with the release of 45 million dollars.

5.2 San Diego County Taxpayers' Association Report Corrections	▪ Member Heiser stated that the San Diego Taxpayers' Association found an error in the data included in their report on ICOC program performance. Data from another school district was inserted in the GUHSD section, which was corrected and updated on their website. ▪ The San Diego Taxpayers' Association surveyed seven members of the CBOC, and asked questions on a numerical scale. ▪ **Member Lear moved that the CBOC accept the updated report from the San Diego Taxpayers' Association. A letter will be transmitted to the Governing Board with the updated report as an attachment to show that the CBOC investigated the findings because they were troubled by the initial report. Member Heiser seconded. Passed unanimously.** ▪ Chairman Panknin stated that he would present the changes to the Governing Board at their June 12 meeting.
6.0 Governing Board Update	▪ Mr. Kiesling stated that at the June 12 Governing Board meeting, a presentation will be given on the Feasibility Study, Demographic Study, and staff will present an update on the Long Range Facilities Master Plan.
7.0 Program Manager Report *(K. Wright)* 7.1 April Status Update	▪ No discussion or actions.
8.0 Audit & Finance Subcommittee Report *(W. Heiser)* 8.1 Recommendation Regarding Bond Sale Timing	▪ Member Heiser stated that the Subcommittee received a detailed presentation from the Bond Underwriter, Bruce Kerns. Based on his presentation, as well as a discussion with Mr. Patterson and Mr. Kiesling, at their May 14 meeting the Subcommittee concurred with staff's

8.1 Recommendation Regarding Bond Sale Timing (Continued)	recommendation for the sale of existing Proposition H bonds. ▪ Mr. Kiesling pointed out that staff would make their recommendation at the June 12 Governing Board meeting. ▪ **Member Heiser moved that the CBOC adopt the presented concurrence in the staff's recommendation to sell the next series of bonds in July 2008. Member Brant seconded. Passed unanimously.**
9.0 Communications Subcommittee Report *(J. Panknin)*	
9.1 Annual Report Presentation Strategy for Summer	▪ Chairman Panknin stated that the Subcommittee is planning on presenting the Annual Report to Lion's Clubs, Rotary Clubs, Optimists, and community groups. He requested that CBOC members send any other organizations interested in viewing the presentation to either himself or Member Levens-Craig to schedule a date for a presentation.
9.2 High School Roadshow – Back to School Presentations	▪ Chairman Panknin stated that the Subcommittee is planning on presenting a mid-year report at each school site in the fall. They would present site-specific information regarding projects that will be completed within the Proposition H program. ▪ Member Brant suggested that the Back to School presentation be given at the PTA Back to School breakfast, held before school begins. ▪ Member Levens-Craig mentioned that she is looking into presenting the Back to School report at each school's first PTA meeting.
9.3 Spanish Annual Report	▪ Chairman Panknin pointed out that many schools in the District have a high percentage of Spanish-speaking parents and community members, and that the Subcommittee is considering creating a copy of the 2008 Annual Report in Spanish, with limited printed copies, a copy on the CBOC website, and a presentation given in Spanish as well. Mr. Kiesling stated that the

9.3 Spanish Annual Report (Continued)	District has translators that can be used. ▪ Member Levens-Craig mentioned that she would speak with the Registrar of Voters to find out information on how many Spanish-speaking households are in the area to determine the need for the Spanish Annual Report. ▪ Mr. Kiesling pointed out that at San Diego Unified School District, the Oversight Committee published their Annual Reports in both Spanish and English although there were other languages represented within the District.
9.4 Website Content	▪ Member Levens-Craig stated that the Subcommittee discussed ways to make the website more understandable to the general public as well as ways to promote the Annual Report presentation to the public. ▪ A link will be added to each web page so that visitors can request a presentation of the Annual Report. ▪ Each Subcommittee page will include a paragraph which will explain their responsibilities, and include a link to the Annual Report request page.
10.0 Construction Oversight Subcommittee Report *(R. Pennock)*	▪ At their May 27 meeting, Member Nichols was voted unanimously as Chairman of the Construction Oversight Subcommittee. ▪ The Subcommittee reviewed their list of tasks and responsibilities and will bring their modifications and suggestions to a future CBOC meeting.
10.1 Performance Review Recommendation	▪ Member Marsh stated that the Subcommittee was in agreement that they would not pick a project arbitrarily for Mr. Goshorn to review. The review will be conducted in August on a project to be chosen at a later date.
11.0 Steering & Planning Subcommittee Report *(M. Brant)*	
11.1 Ballot Item Tracking Report	▪ Mr. Kiesling explained that he modified the bond matrix by inserting a blue box around

11.1 Ballot Item Tracking Report (Continued)	each category that staff believed should be included in the bond by inference. He included a justification for each item on that listing, and reviewed each project listed in blue with the Subcommittee. ▪ Mr. Kiesling explained that there were safety projects that needed to be completed to bring buildings up to current codes and to be approved by DSA. Other projects included updating the technology and drinking fountains on newly modernized classroom buildings. ▪ The Subcommittee recommended that the CBOC approve the staff's interpretation of the bond language to include these projects. ▪ **Member Lear moved that the CBOC approve the staff's interpretation of the bond language to include the projects outlined in blue as presented in the Ballot Item Tracking Report. Member Brant seconded. Passed unanimously.** o Member Lear mentioned that this report would be sent to the Governing Board via weekly memo from District staff for their information.
11.2 Attendance Policy	▪ Member Brant stated that the Subcommittee agreed that when documenting attendance there will no longer be a distinction between excused and non-excused absences, and that as a courtesy, a member who will not be attending a meeting or will require a teleconference set-up should contact the Support Secretary in advance. ▪ The Attendance Policy will be added to the CBOC's Operational Guidelines, and a copy will be included in the June agenda packet. ▪ Member Lear stated that the Subcommittee will present the attendance report on a quarterly basis.
12.0 Staff Report	
12.1 Membership	▪ Mr. Kiesling explained that staff will be recommending that an organization hold the open seat on the CBOC, as done with

12.1 Membership (Continued)	Financial Executives International, East County Action Network, and East County Construction Council. The organization will provide new members as each term ends. ▪ Chairman Panknin stated that Mr. Patterson suggested that the new membership organization provide a member with experience in architecture.
13.0 Old Business *(Chair)* 13.1 Indemnification	▪ Member Heiser stated that the issue was brought forward at a previous meeting regarding insurance or indemnity plan for CBOC members in terms of liability. He stated that the members of the oversight committee he serves on for the Grossmont Healthcare District are covered. ▪ Chairman Panknin stated that he will ask that Mr. Patterson present more information on this at the June 25 meeting.
14.0 New Business *(Chair)* 14.1 Staff Report on $65 Million Reserve	▪ Chairman Panknin pointed out that the CBOC should make a recommendation on whether or not to support the Superintendent's recommendation regarding the 65 million dollar reserve. ▪ **Member Lear moved to accept the recommendation as presented by the Steering & Planning Subcommittee in Exhibit 14.1. Member Muse seconded.** ▪ Member Heiser stated that he was concerned that if another bond does not pass, the CBOC would still be supporting 20 million dollars to be used toward a new high school. ▪ **Member Heiser requested to amend the motion to state that "the remaining 20 million will be allocated toward the new school." Amendment was accepted. Motion passed unanimously.**
14.2 Facilities Management Organization Chart	▪ Mr. Kiesling handed out a copy of the Proposition H Organization Chart, which was previously approved by the Governing

14.2 Facilities Management Organization Chart (Continued)	Board. It shows that the Program Manager reports to the Executive Director of Proposition H. They also work directly with the CBOC and Superintendent.
15.0 Future Agenda Items *(Chair)*	▪ Report on Indemnification
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 7:00 p.m.

Grossmont Union High School District

Proposition H Citizens' Bond Oversight Committee

Wednesday, June 25, 2008

Grossmont Union High District Office; Conference Room 2

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Chairman Panknin at 5:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Elana Levens-Craig, Phil Marsh, Chuck Muse, Carol Nash, Jim Panknin *Members Absent:* Walter Heiser, Larry Nichols, Ron Pennock o Member Levens-Craig left at 5:35 p.m.
3.0 Approval of Minutes *(Chair)*	▪ **The minutes were moved to be approved as presented. Seconded, Member Lear abstained, motion passed.**
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Chair Report *(Chair)*	▪ Chairman Panknin stated that the July 10 Governing Board meeting will include a workshop to discuss a potential future bond measure, as well as the splitting of the 65 million dollar reserve. ▪ Chairman Panknin stated that the Governing Board accepted the letter and recommendation presented by the CBOC concurring with the Superintendent's recommendation regarding the 65 million dollar reserve.

5.0 Chair Report (Continued)	▪ Chairman Panknin stated that the Governing Board's deadline to decide on whether or not to go forward with the follow-on bond measure will be July 31. ▪ Chairman Panknin tasked the Steering & Planning Subcommittee with drafting a recommendation for the Governing Board regarding whether or not to move forward with the follow-on bond measure. ▪ Chairman Panknin pointed out that the CBOC's role is limited to Proposition H. He stated that he would like for the recommendation to either concur with staff regarding what they believe the remaining projects will be for the Proposition H program, how much it will cost, and if that is the best avenue to finish the program or not. The recommendation would be brought before the CBOC for approval, then the Governing Board prior to making their decision regarding a follow-on bond.
6.0 Governing Board Update *(S. Patterson)*	
6.1 Demographic Study (June 12)	▪ Discussion moved to agenda item 12.1
6.2 Feasibility Study (June 12)	▪ Discussion moved to agenda item 12.2
6.3 Long Range Facilities Master Plan (June 12)	▪ Discussion moved to agenda item 12.3
6.4 CBOC Outgoing Members (June 12)	▪ Mr. Patterson stated that at the June 12 Governing Board meeting, Members Muse and Pennock were honored as founding, inaugural members of the CBOC. He stated that their service was appreciated, and that he was glad they were recognized publicly.
6.5 Introduction of New Members (June 12)	▪ Mr. Patterson presented information on the two new CBOC members. Marcie Findley is a member of the East County Action Network, and will be fulfilling the membership requirement of an active member in a Senior Citizens' Organization. Nick Priest is a representative from the East County Construction Council, fulfilling the Business Organization membership requirement. ▪ Both members will attend an orientation

	session, and their first meeting will be the July 30 regular CBOC meeting.
6.6 Bond Sale Resolution (June 12)	▪ Mr. Patterson explained that staff will move forward with the sale of the remaining bonds. The sale is scheduled to occur on July 15.
7.0 Program Manager Report *(K. Wright)* 7.1 May Status Report	▪ Ms. Wright stated that 104 classrooms had been completed to date in Phase 2B, and that 62 more would be completed within the next month. ▪ Ms. Wright stated that Phase 2B is 70% complete. She stated that as soon as science classrooms are out of DSA in early fall, construction will begin. Demolition and underground work at Granite Hills High School will begin in the summer. ▪ Ms. Wright pointed out that change orders are a little over four percent, and that the primary cause is owner-requested changes in the scope. She mentioned that the Sharepoint website is regularly updated.
8.0 Audit & Finance Subcommittee Report *(W. Heiser)* 8.1 CBOC Consultant Contract	▪ Member Nash stated that the Audit & Finance Subcommittee discussed the renewal of the Colbi Technologies contract at their June 17 meeting. It is a one-year contract with four one-year options. She stated that she would like to have a recommendation from the CBOC regarding the renewal of the Colbi Technologies contract. ▪ Mr. Goshorn was asked to leave the room while the CBOC discussed the renewal of the Colbi Technologies contract. ▪ Chairman Panknin stated that he supported renewing the contract, and that he was pleased with Mr. Goshorn's work. ▪ **Member Lear moved to renew the contract with Colbi Technologies. Chairman Panknin seconded. Motion passed unanimously.**

8.2 Indemnification or Insurance for CBOC Members for Errors and Omissions	▪ Mr. Patterson stated that District staff researched whether or not CBOC members are covered for liability. He introduced Jim Kroviak, District Risk Manager, who was asked to give a brief presentation. ▪ Mr. Kroviak explained that all CBOC members are covered under the blanket policy of the District, from various points of view. He stated that CBOC members have the same protection as District staff. ▪ Mr. Kroviak stated that CBOC Members are covered for property damage, bodily injury, libel and slander, professional liability, and wrongful acts, among other things. ▪ Mr. Kroviak stated that Members are covered for defense, but would not have protection if their actions were illegal.
9.0 Communications Subcommittee Report *(J. Panknin)*	
9.1 Back-to-School Report	▪ Chairman Panknin stated that Mr. Goshorn had been working on the mid-year review, which will be presented to PTA groups and schools at the beginning of the academic year.
9.2 CBOC Website	▪ No discussion or action.
10.0 Construction Oversight Subcommittee Report *(L. Nichols)*	▪ Member Marsh stated that he would be scheduling a walk-through of the recently modernized classrooms at Grossmont High School so that he and a Resource Volunteer can take an inventory of the millwork in each classroom and take photographs. He requested that Mr. Goshorn attend the walk-through as well. ▪ Member Marsh explained that the intent of the walk-through is to provide an estimate to the CBOC of how much money could have been saved on the Grossmont High School modernization projects using his proposed method.
10.1 Consultant Project Review	▪ Member Marsh explained that the Subcommittee reviewed information regarding the project performance review

	with Mr. Goshorn and decided that El Capitan High School would be the best place for the review. He stated that Mr. Goshorn had sent them the supporting documentation, which had been signed by Construction Subcommittee Chair Nichols. ▪ **Member Marsh moved to approve the document labeled exhibit 10.1, selecting El Capitan as the location for the project performance review. Member Nash seconded. Motion passed unanimously.**
11.0 Steering & Planning Subcommittee Report *(M. Brant)*	▪ Member Brant mentioned that a copy of the CBOC Operational Guidelines was sent to CBOC members for their records. ▪ Member Brant stated that the next Steering & Planning Subcommittee meeting would be held on Monday, July 14, at 5:00 p.m.
12.0 Staff Report 12.1 Demographic Study *(A. Grulich)*	▪ Mr. Alan Grulich was introduced to the CBOC as the Director of Assessment for the District, who presented the results of the demographic study conducted by Davis Demographics. ▪ The study was based on past enrollment, future residential developments, birthrate, and references to SANDAG's previous demographic study. ▪ Davis Demographics reported that the birthrate has been in decline until recently. ▪ Davis Demographics concluded that in the foreseeable future, the District can anticipate a decline of about 3200 students. When Davis included SANDAG's data, which was more optimistic, there was still a District-wide drop in enrollment. ▪ The demographic study showed that there would not be a significant change in enrollment in the Alpine area. ▪ The report shows data up to the 2021-2022 academic year. The SANDAG report shows data at 2010, 2020, and 2030, which cannot provide a complete comparison with the Davis Demographics study.

12.1 Demographic Study (Continued)	▪ Although the SANDAG report shows an increase specific to the Alpine zip code in 2030, it will only be about 300 students within a 20 year period. ▪ Mr. Grulich concluded that the District can expect declining enrollment in the future. ▪ Mr. Patterson explained that the decline in enrollment will be spread throughout the District, and, hopefully, it will begin to increase again in about ten years. ▪ Mr. Patterson stated that there may be a need for the first stages of a facility in the Alpine area. ▪ Mr. Patterson suggested that school boundaries be reviewed to rebalance school populations, to see that portables are replaced and core classrooms are modernized. ▪ Chairman Panknin stated that the CBOC will discuss this information at the July 30 regular CBOC meeting.
12.2 Feasibility Study *(S. Patterson)*	▪ Sidewalk Strategies and True North conducted a bond feasibility study, which was presented to the Governing Board at their June 10 meeting. ▪ The survey provided data showing how the electorate is likely to act if presented with a follow-on bond measure. The sample size was 600, which was statistically significant. ▪ Those surveyed were presented various issues which they ranked as being important or not. If they stated it was not important, their reason was categorized. ▪ Education, facilities, career preparation, technology, ADA, HVAC, and repair of deteriorated athletic facilities ranked high with voters. ▪ Pollsters presented positive arguments to those surveyed and support stayed at about the same level. When presented with negative arguments, support remained at the same level. ▪ Mr. Patterson stated that from his perspective, it would be feasible to have a follow-on bond measure on the November ballot. He stated that there was surprisingly strong support for the measure.

12.2 Feasibility Study (Continued)	▪ Mr. Patterson stated that the cost of the feasibility study was $29,000 paid for out of non-general fund, non-Proposition H dollars.
12.3 Long Range Facilities Master Plan *(K. Wright)*	▪ Ms. Wright presented an update on the Long Range Facilities Master Plan to the CBOC, which included financial information and the number of classrooms that can be completed within the Proposition H program, which is less than half of the classrooms in the District. ▪ Ms. Wright stated that if the Governing Board elects to allocate the 45 million dollars towards Proposition H modernization projects, 150 more classrooms can be modernized. ▪ Proposed work on the new high school would include acquiring property and infrastructure work. ▪ Ms. Wright presented the needs of the District in the future, including career technology programs and continued computer system upgrades. ▪ Ms. Wright stated that if the Master Plan is implemented, several projects will be completed, including the remainder of work in the Proposition H program, modernization of an additional 200 classrooms, the creation of a career technology program, and construction of multipurpose rooms. ▪ Chairman Panknin pointed out that the CBOC's scope includes Proposition H only, and that the committee should not make recommendations on anything beyond the program.
13.0 Old Business *(Chair)*	▪ No discussion or action.
14.0 New Business *(Chair)*	▪ Member Lear thanked Members Muse and Pennock for their service on the CBOC.

15.0 Future Agenda Items *(Chair)*	▪ Discussion on recommendation to the Governing Board regarding a potential follow-on bond measure.
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 6:07 p.m.

G.P. - Oversight Agendas and Minutes

Public Relations Sub-Committee

2007-08

Citizens' Bond Oversight Committee

Public Relations Subcommittee

Summary of Meeting

September 10, 2007

1.0 Meeting Called to Order

- The meeting was called to order by Subcommittee Chair Jim Panknin at 5:00 p.m.

2.0 Roll Call

- A quorum was represented as follows:

  Committee Members Present: Jim Panknin, Rick Winet

3.0 Approval of Minutes

- The minutes were moved to be approved as presented. Seconded & passed.

4.0 Public Comments

- Items on Agenda- None.
- Items not on Agenda- None.

5.0 New Business

5.1 Annual Report

- Subcommittee Chair Panknin explained that he would like the Subcommittee to create a very visual Annual Report for the public. He provided the Subcommittee and District staff with a handout of ideas to discuss for this Report.

5.1.1 Timeline

- Mr. Patterson explained that the timeline for the Annual Report depends on when the CBOC establishes their year; by default they use the calendar year. He pointed out that last year there was an effort to bring the Annual Report and Audit together and present them at the same time. It may be most realistic to present the Annual Report in February, after the Audit has been presented to the Governing Board.
- Mr. Goshorn pointed out that last year's Annual Report was presented as a fiscal year review.
- Subcommittee Chair Panknin suggested that the Annual Report be formatted as a calendar year review. He suggested that the Audit & Finance Subcommittee Chair present the Audit report in January, and the Public Relations Subcommittee present the Annual Report in February.
- Subcommittee Chair Panknin suggested making the presentation of the Annual Report an event. He stated that it can be held as a Special Governing Board meeting, held at a school with recent construction completed, and parents, PTA, and members of the community can be invited to attend.

Subcommittee Chair Panknin recommended to take this to the CBOC for approval.

- Mr. Patterson stated that last year the Annual Report was presented later than expected, and agreed that presenting the Annual Report, as well as the Audit, sooner would be advised.
- Subcommittee Chair Panknin requested that Mr. Patterson select a school site to hold the Annual Report presentation in order to showcase the construction that has been recently completed. Mr. Patterson explained that Grossmont High School and El Cajon Valley High School will have newly modernized classrooms completed at that time.
- Subcommittee Chair Panknin explained that part of what will be presented in this report will be the CBOC recommendations on the BAC final report, or at least highlighting the fact that there is not enough money to continue forward. He would like to include what will definitely be built, what is in jeopardy, and what will most likely not be completed without further funding.

5.1.2 Subcommittee/Consultant Roles in Developing Report

- Mr. Goshorn stated that in past projects he has worked on with other Districts, he has taken notes at meetings and created a draft of a presentation for the members. It usually requires several drafts before a final product is complete.
- Mr. Goshorn explained that the intent of this Report is to establish an identity and to communicate that there is a revitalization going on within the CBOC.
- Subcommittee Chair Panknin explained that he would like to meet once a month, though Mr. Goshorn is not expected to attend each meeting to work on the Annual Report. Mr. Goshorn suggested working with Microsoft Word to track changes in the document.
- Mr. Goshorn suggested that the Subcommittee begin to think about distribution of the Annual Report, including an online PDF format and copies placed in school offices and local newspapers.

5.1.3 Review of Content Ideas from Previous Meetings

- The Subcommittee discussed the examples of possible items to include in the Annual Report, which were presented by Subcommittee Chair Panknin. They agreed a shorter report, around four pages, would be appropriate.
- Subcommittee Chair Panknin suggested the Subcommittee create a slogan for use in the Annual Report. The Subcommittee discussed potential slogans to be used.
    - Member Winet suggested a slogan which included the idea of investing in the schools. He explained that

because it is a local bond, the money stays within the community, and that it is an investment in the community, including the schools. The investment increases property value as well. Member Winet explained that there is a direct correlation between improved schools and property value in the community.

- Mr. Goshorn pointed out that in the past two years, there has been a letter from the Chair, and that "investing in the community" might be a good topic for this letter.
  - Subcommittee Chair Panknin requested that Member Winet draft a letter regarding investing in the schools for the Annual Report.
- Subcommittee Chair Panknin explained that he would like to include a logo to help develop the CBOC personality through this Report.
  - Mr. Goshorn explained that an effective logo would include people working, pouring concrete, and doing real construction work. He explained that part of the idea of an investment would include building things with it. The people who are building are usually local craftsmen, living in the community, and receiving wages from this investment. Member Winet stated that he believed it is the right message to send.
- Mr. Goshorn explained that this Report will help establish an identity for the CBOC, showing who they are, and what they're committed to.
- Other items discussed regarding the Annual Report included the following: comments from the CBOC perspective regarding the Third Party Review results, a short report from the Audit & Finance Subcommittee regarding the projects they are working on (including review of the Audit), invitation of public support, the URL for the CBOC website, information regarding meetings, and several pictures.
- Subcommittee Chair Panknin would like to include a report card in the Report. He would like the CBOC to give a grade on the progress of Prop H projects. It would be a report on the District, not the CBOC.
- Subcommittee Chair Panknin explained the "Stoplight Report" which is used by the Grossmont-Cuyamaca College District. Green represented good/complete, yellow represented projects in jeopardy, and red represented projects that were not funded. He would like to see it on the website, whether or not there is room for it in the Annual Report.
- Subcommittee Chair Panknin explained his ideas for text in the Report, including discussion on the new high school, the BAC final report, how the CBOC has improved, work with the San

Diego County Taxpayers' Association, and the hiring of the CBOC Consultant and Program Managers.

- Subcommittee Chair Panknin explained that the Annual Report would be the basis of a twenty-minute Powerpoint presentation. He would like to use this presentation as a form of public outreach for support.

5.2 Website

5.2.1 Subcommittee/Consultant Roles with Website Maintenance and Development

- Mr. Goshorn explained that the Subcommittee should ask the Program Managers to create a Stoplight Report for the CBOC website.

5.2.2 Critical Review of Website

- The Subcommittee reviewed the current CBOC website and discussed potential changes, including regular updates, press releases, and organization.
- Subcommittee Chair Panknin suggested that there be a separate page for CBOC member information. He also suggested that the website be updated at least on a monthly basis. Mr. Goshorn explained that all content should be up-to-date, as well as relay a message of stability by including sufficient details which do not need to be updated often.

6.0 Future Agenda Items

- Discussion with Arkan Somo from the Grossmont-Cuyamaca District.

7.0 Adjournment

- The meeting was adjourned at 6:20 p.m.

Citizens' Bond Oversight Committee

Public Relations Subcommittee

Summary of Meeting

October 4, 2007

1.0 Meeting Called to Order

- Meeting was called to order by Subcommittee Chair Jim Panknin at 5:07 p.m.

2.0 Roll Call

- A quorum was represented as follows:
  Subcommittee Members Present: Jim Panknin, Rick Winet

3.0 Approval of Minutes

- The minutes were moved to be approved as presented. Seconded & Approved.

4.0 Public Comments

- Items on Agenda - None
- Items not on Agenda - None

5.0 Chair Report

- None

6.0 Guest Speaker: Arkan Somo, Grossmont-Cuyamaca Community College District Communications Subcommittee

- Subcommittee Chair Panknin introduced Arkan Somo, Chairman of the Communications Subcommittee for the CBOC at Grossmont-Cuyamaca Community College District. Mr. Somo served more than four years on the Committee, and was the Chair for 3 years. He provided the Subcommittee with various information and suggestions regarding the Annual Report and business within the Public Relations Subcommittee.
  - Mr. Somo stated that all CBOC-related emails should go through the Oversight Committee to keep it independent, and that the CBOC should report facts, keep an eye on how the District spends bond-related funds.
  - Mr. Somo stated that the Subcommittee at Grossmont-Cuyamaca was titled "Communications" because "Public Relations" sounded too political. He suggested that the Public Relations Subcommittee change their name to Communications as well.
  - Mr. Somo stated that the Communications Subcommittee's main task was to prepare the Annual Report. At one point, they shared a mid-year report with the community because costs were escalating and bids were for double the amount budgeted. He did not want to wait until February to present the report, so it was suggested to his CBOC to explain to the taxpayers that the program wasn't moving forward as anticipated.
  - Mr. Somo stated that their Annual Report was presented at the Governing Board meeting every year in February or March, after the Audit was

completed. The Chair of each Subcommittee, as well as the Chair of the CBOC, would present a status report. Their CBOC only had three subcommittees.
    - The Construction Subcommittee would focus on the progress of projects, as well as issues of compliance. The Audit Subcommittee would discuss the Audit. The Communications Subcommittee would present the Annual Report.
  - The Grossmont-Cuyamaca Community College District's Annual Report was distributed via press release, website, and mailed to persons on the District's database. Individual CBOC members would distribute paper copies to other organizations or committees in which they were involved.
- Subcommittee Chair Panknin stated that as the Annual Report is drafted, he will send a copy to Mr. Somo for review.

7.0 Annual Report

- Mr. Goshorn handed out a draft of content for the Annual Report. He proposed an addition of a letter from the Chair.
- The topics which will be published in the Annual Report include: the assignment of a CBOC member through FEI, CBOC actions regarding the BAC recommendations, the Third Party Review, hiring of the Program Managers and Consultant, a roster of CBOC members, their correct member assignments, new members from this calendar year, term expiration dates, a timeline graphic which will explain the phases of the program, CBOC accomplishments in 2007, where the project is currently and where the shortfalls may be, creation of Subcommittees, and the Stoplight report.
- Member Winet will draft a paragraph regarding investing in schools and the community.
- Subcommittee Chair Panknin explained that the Annual Report can also be used as a recruitment tool by including a contact for more information on membership.
- The format of the Annual Report will be different from the format presented last year. The Subcommittee would like to have the image of the Annual Report express change in the Committee since last year.
- The Annual Report will be posted online and will have links to any graphs, charts, or information referenced in the Report.

Mr. Goshorn explained the printing and distributing process for the Annual Report. Templates were presented for the Report, which would be similar to the new layout of the website, as well as CBOC letterhead. He presented a potential logo for the CBOC, and explained printing options such as colors, pages, and PDF formats. The Subcommittee would like to create a slogan to be used as well.

8.0 Recommendations for CBOC Website

- The Subcommittee would like the website to reflect the CBOC performing their responsibilities.
- Mr. Goshorn will meet with Bruce Nelson from the District's I&TS department to discuss the logistics of updating and supporting the website. He will bring a

template to the next Subcommittee meeting to be approved. He would like to attempt to acquire a separate domain name for the CBOC website, though still held on the District server, to establish the Committee's independence and distinguish it from the District website.

- The website, once updated, will include a member roster, board policy, ballot measure text, bylaws, annual reports, prop H financial status, separate pages for Subcommittee information, minutes, upcoming meeting dates, and agendas.
- Mr. Goshorn will present a draft layout for the CBOC website at the November 1 meeting.

9.0 Meeting with Union-Tribune Editorial Board

- At the September CBOC meeting, Member Lear suggested the Subcommittee meet with the Union-Tribune Editorial Board. The Subcommittee agrees that this would be helpful in establishing the CBOC's independence from the District.

10.0 Review Draft Subcommittee Responsibilities

- The draft of responsibilities for the Public Relations Subcommittee was reviewed. The Subcommittee added the following responsibilities: development and maintenance of CBOC website, and coordinating outside communications with the District.
- **Member Winet moved that the Subcommittee change their name from Public Relations to Communications. Subcommittee Chair Panknin seconded. Passed unanimously.**

11.0 Other Business

- None

12.0 Future Agenda Items

- Finalizing Draft of Annual Report

13.0 Adjournment

- The meeting was adjourned at 7:15 p.m.

G.P. - Oversight Agendas and Minutes

Steering and Planning Sub-Committee

2007-08

Citizens' Bond Oversight Committee

Steering & Planning Subcommittee

Summary of Meeting

August 20, 2007

1.0 Meeting Called to Order

- The meeting was called to order at 4:05 p.m. by Subcommittee Chair Mendy Brant.

2.0 Roll Call

- A quorum was represented as follows:
  Members Present: Fred Lear, Mendy Brant, Bill Wells

3.0 Approval of Minutes

- The minutes were moved to be approved as presented. Seconded and passed.

4.0 Public Comments

--Items on Agenda – None.

--Items not on Agenda – None.

5.0 Prop 39

--Do we have all components?

- A handout of Prop 39 text is available to the public via the CBOC website as an agenda attachment, labeled Exhibit 5.0.
- It was pointed out that Prop 39 is the law which created the structure for the Prop H bond measure. The language of Prop H should be consistent with, but may go further than, Prop 39.
- Mr. Goshorn explained that Prop 39 requirements cannot be changed without a state election.

6.0 CBOC Bylaw Review & Update

6.1 Guest Speaker: Larry Goshorn from Colbi Technologies, Inc to assist w/bylaws

- Mr. Goshorn asked questions of the Subcommittee to gain information on the need to update the bylaws.
- Mr. Patterson explained that the process he recommends is to review the changes with the Subcommittee, which would then be brought to the CBOC for review with the Subcommittee's recommendations. When there is an agreement on the changes with the CBOC, it would then be taken to the Board for approval.
- The Subcommittee discussed potential changes to the bylaws regarding attendance, minutes, and elections.
- Member Wells moved to accept the current revisions to the bylaws including the corrections suggested by Member Lear. Member Brant seconded. Passed unanimously.

- Mr. Patterson stated that the bylaws would be updated and brought to the CBOC for review.

7.0 Role & Responsibilities of CBOC Consultant

--Determination of Duties

- Member Wells stated that he believed the BAC Recommendations could be broken down to a more understandable form. He also suggested holding a Special Meeting of the CBOC.
- Member Wells moved to recommend to the CBOC to immediately form an action plan to address the BAC recommendations. Member Lear seconded. Passed unanimously.

--Demographic Study

- Mr. Patterson pointed out that it is a significant enough project to put out an RFP.
- Member Wells stated that he believed the CBOC needs to have an independent opinion on this study. He explained that this topic would be brought up at the August CBOC meeting.

--Other

- No action or discussion.

8.0 Staff Proposal to Perform New Construction vs. Modernization of Science Classrooms

- Mr. Patterson presented information regarding the staff's proposal to perform new construction versus modernization of science classrooms to the Subcommittee.
  - Mr. Patterson explained that the construction of new classrooms would generate more total matching funds from the state than modernization. The District has already utilized all its eligibility for modernization dollars.
  - Mr. Kiesling added that it would be less expensive to build new classrooms, enough to be worth pursuing the $10M state matching funds.
  - Mr. Patterson explained that each year the eligibility for matching funds will change depending on enrollment.
- Member Lear moved to make the following recommendation to the CBOC at the August meeting: Proceed with the recommendation from staff to build new construction versus modernization. Subcommittee Chair Brant seconded. Passed unanimously.

9.0 Viking Center Modernization

- Discussion on the modernization of Viking Center was tabled until the September Subcommittee meeting.

10.0 Potential Appointment of FEI to Open CBOC Member Position

- The Subcommittee discussed the potential appointment of FEI as an organization to the open CBOC member position.

- Subcommittee Chair Brant moved to recommend to staff that they make a presentation to the CBOC regarding the potential appointment of FEI as a member to the open CBOC member position. Seconded by Member Lear. Passed unanimously.

11.0 Other Business

- No action or discussion.

12.0 Adjournment

- The meeting was adjourned at 5:20 p.m.

Next meeting: Monday September 17, 2007 at 4:00 p.m.

Citizens' Bond Oversight Committee

Steering & Planning Subcommittee

Summary of Meeting

September 17, 2007

1.0 Meeting Called to Order

- The meeting was called to order at 4:05 p.m. by Subcommittee Chair Mendy Brant.

2.0 Roll Call & Approval of Minutes

- A quorum was represented as follows:
  Subcommittee Members Present: Mendy Brant, Fred Lear

- The minutes were moved to be approved as presented. Seconded and passed.

3.0 Public Comments

- Items on Agenda: None.
- Items not on Agenda: None.

4.0 Deferred Maintenance

- Discussion of the District's Plan
  - Mr. Patterson explained that the District is required to submit a five-year plan to the State if they would like to generate deferred matching funds. The District pays up to one-half of one percent of the total general fund for deferred projects, and the State matches that amount. The State asks the District to create a five-year fiscal year plan by category, including asbestos, electrical, floor covering, HVAC, painting, paving, plumbing, roofing, and wall systems.
  - Subcommittee Chair Brant stated that she would like to speak with Construction Subcommittee Chair Ron Pennock regarding which Subcommittee would handle this topic.

5.0 Revisit of the Mission Statement

- Subcommittee Chair Brant stated that there is a need to create a mission statement for the CBOC and that each subcommittee should give their input. Mr. Patterson stated that he believed it would be more helpful for the future to have responsibilities assigned to each subcommittee, which would form into one CBOC mission statement.
- Mr. Goshorn pointed out that if there is a clear definition of the responsibilities of each subcommittee, it helps staff and individual subcommittees determine if they're working on a specific project, and how that relates to the overall responsibilities of the CBOC.
- Mr. Patterson stated that the subcommittees of the CBOC do not exactly mirror the subcommittees at San Diego Unified School District, those they are close enough to use what they have already created in terms of drafting tasks for the

subcommittees. The tasks created at SDUSD would assist Mr. Goshorn in creating guidelines for subcommittee responsibilities.

- Member Lear asked that the list of responsibilities for each subcommittee be completed by the September 26 CBOC meeting, and be handed out as an addendum to the agenda packet.

6.0 Viking Center

- Mr. Patterson explained that this topic was brought forward in the Bond Advisory Commission's Repairs & Renovations Subcommittee final report as a high priority for the District. He stated that this is difficult because there are aspects of the facility that are more medical than educational, and the District is accustomed to building educational facilities. It will be more costly to modernize than the original program planning had indicated.
    - There have been short-term projects completed, such as widening doorways to accommodate medical beds in case of an emergency. The HVAC was also failing, though Mr. Kiesling explained that this has been repaired as well.
    - The bond measure states that the existing facility should be modernized, but there may come a time where the Subcommittee is approached with a proposal to build a new facility, as was the situation with the science classrooms. The District will eventually ask the CBOC to weigh in on this decision.
- Janea Quirk, Facilities Planner for Viking Center, offered to show Member Lear the site so he can familiarize himself with it.
- Subcommittee Chair Brant stated that at the next Steering & Planning Subcommittee meeting she would like to discuss any findings on this issue, as well as make a presentation at the October CBOC meeting, where she will be presenting the Repairs & Renovations Subcommittee final report as well.

7.0 Re-Alignment of School Boundaries

- Subcommittee Chair Brant discussed school boundaries being realigned. She stated that the Repairs & Renovations Subcommittee of the BAC reviewed this information. In their report, it was stated that teachers are experiencing declining enrollment in the Alpine area. She would like to look at re-aligning school boundaries in conjunction with the demographic study, to see if there is a need to build a high school in Alpine. If there is not a need for an additional high school, she would like to see those students who would potentially attend the new high school, attend El Capitan High School. She would like to balance student populations at schools with declining enrollment.
- Member Lear suggested that it is not within the CBOC's purview to change school boundaries.
    - Mr. Patterson explained that the only way for it to be within the purview of the CBOC is if it is a tool used to weigh in on the expenditure of limited funds, or to help make decisions on future projects.
- Subcommittee Chair Brant explained that she would like to have this possibility reviewed before building the high school.

8.0 Other Business

- Mr. Patterson explained that CBOC Chairman Muse is the Acting Chair of the committee, which is consistent with its bylaws. Election of officers will take place at the October 31 CBOC meeting. CBOC Chairman Muse would like to appoint a Vice Chair at the September CBOC meeting to be in office until the election at the October meeting.
- The Subcommittee discussed the methods for selecting new members to fill the member vacancies on the CBOC.
- *Future Agenda Items:*
    - Update on Deferred Maintenance plan from District staff.

9.0 Adjournment

- The meeting was adjourned at 5:00 p.m.

Citizens' Bond Oversight Committee

Steering & Planning Subcommittee

Summary of Meeting

October 15, 2007

1.0 Meeting Called to Order

- The meeting was called to order at 4:00 p.m. by Subcommittee Chair Mendy Brant.

2.0 Roll Call

- A quorum was represented as follows:
  Members Present: Fred Lear, Mendy Brant, Chuck Muse

3.0 Approval of Minutes

- The minutes were moved to be approved as presented. Seconded and passed.

4.0 Public Comments

--Items on Agenda – None.

--Items not on Agenda – None.

5.0 Viking Center Report

- The Subcommittee discussed which Subcommittee should be tasked with the progress of the Viking Center renovations/rebuilding.
- Mr. Kiesling explained that District staff had begun researching an option for the Viking Center, which would disperse the students to various schools in their areas, instead of consolidating them into one building. This would put the students in settings closer to what they would be facing in their community. He explained that the Special Education staff were pleased with this alternative. The options for Viking Center will be analyzed and staff will return with a presentation or a recommendation.
  - The Subcommittee discussed the possible options for the Viking Center to be remodeled, rebuilt, or have the students dispersed.
  - Mr. Kiesling and Mr. Patterson will bring more information to the November Subcommittee meeting regarding this topic.

6.0 Election Process

- The Subcommittee discussed potential candidates as nominated via email by CBOC members. At the time of the meeting, there were not any candidates for President, and two candidates for Vice President – Walter Heiser and Jim Panknin. Member Muse stated that he would not like to remain as President as his member term ends before the term of President will end.
- The Subcommittee decided to post the slate, and on the evening of the election, accept nominations for President.
- Member Lear moved to have a secret ballot for the election of CBOC officers at the October CBOC meeting. Seconded and passed unanimously.

- The ballot presented at the CBOC meeting will have a space for write-in candidates for the office of President. Members Heiser and Panknin will be printed in the space for Vice President.

7.0 Mission Statement

- The Subcommittee reviewed a draft of the Mission Statement presented by Mr. Goshorn. The Subcommittee also reviewed the Best Practices presentation given by the San Diego Taxpayers' Association in June in order to assist their creation of a draft of the Mission Statement.
- Member Lear moved to approve the Mission Statement as written in the presentation in the San Diego Taxpayers' Association Best Practices presentation to the CBOC in June. Seconded and passed.
- The Subcommittee discussed changes to the draft of tasks and responsibilities for each Subcommittee.
    - The Public Relations Subcommittee requested that their name be changed to the Communications Subcommittee.
    - Member Muse presented changes to the responsibilities for the Audit & Finance Subcommittee.
    - The Subcommittee adjusted their responsibilities to include the Construction Oversight Subcommittee in various tasks.
        - The Subcommittee assigned deferred maintenance as a task for the Construction Oversight Subcommittee.

8.0 Other Business

- Subcommittee Chair Brant explained that the member elected to the office of President will be sitting on the Steering & Planning Subcommittee.

9.0 Future Agenda Items

- Report on the Viking Center

10.0 Adjournment

- The meeting was adjourned at 5:00 p.m.

Grossmont Union High School District

Monday, November 19, 2007

Grossmont High School Library; 4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order at 4:05 p.m. by Member Lear.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: o *Members Present:* Fred Lear, Jim Panknin, Mendy Brant (arrived at 4:10 p.m.)
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ No comments.
5.0 Viking Center Report	▪ Mr. Kiesling explained that District staff had been reviewing an option to keep Viking Center at one location; they are contacting various organizations throughout the state for examples of facilities which are run similarly to Viking Center. ▪ Viking Center, once rebuilt, would be both an educational and medical facility. ▪ Mr. Kiesling and Mr. Patterson explained the cost differences between repairing the existing facility and replacing it completely.

5.0 Viking Center Report *(Continued)*	▪ An update will be presented at the January Subcommittee meeting.
6.0 Mission Statement 6.1 Recommendations from CBOC	▪ Subcommittee Chair Brant read a draft of the CBOC Mission Statement to the Subcommittee: o "The mission of the CBOC is to independently review the planning and execution of the Proposition H bond program to validate to the public and Board of Education that bond funds are spent in accordance with the bond measure." ▪ The Subcommittee discussed the proposed Mission Statement, and agreed to the following change: o "The mission of the CBOC is to independently review the planning and execution of the Proposition H bond program to validate to the public and Board of Education that bond funds are spent *within the intent* of the bond measure." ▪ **Member Panknin moved to bring the Mission Statement forward to the CBOC for approval. Member Lear seconded. Approved Unanimously.**
7.0 CBOC Subcommittee Responsibilities 7.1 Construction Oversight/Steering & Planning Changes	▪ The Subcommittee discussed the tasks and responsibilities that were moved from the Steering & Planning Subcommittee to the Construction Oversight Subcommittee with Construction Oversight Subcommittee Chair Ron Pennock. ▪ Construction Oversight Subcommittee Chair Pennock explained his subcommittee's need for more members, as well as non-CBOC volunteers with construction expertise. ▪ Mr. Patterson suggested that subcommittees have non-voting volunteer

	members who would participate at meetings, with backgrounds and experience in various fields related to the Bond measure. He suggested that the CBOC consider filling the next vacancy on the committee with a member who has a background in construction. ▪ The Subcommittee discussed which tasks and responsibilities should be assigned to the Construction Oversight Subcommittee and the Steering & Planning Subcommittee.
8.0. Election Protocol 8.1. Bylaw Amendments 8.2. Proxy Voting 8.3. Proper Wording	▪ Subcommittee Chair Brant stated that she would like to add election protocol to the CBOC Bylaws. ▪ The item was tabled until a future meeting.
9.0 Other Business 9.1 Alpine High School	▪ Subcommittee Chair Brant stated that she would like the Committee to begin thinking about where the CBOC stands on this issue. ▪ Member Panknin stated that he didn't believe it was an issue for the CBOC to handle at this point; gafcon/Harris is currently reviewing information on the program that would need to be included in this decision. ▪ Mr. Kiesling suggested that the CBOC wait to review the demographic study once it is completed, as well as any information regarding a future bond measure before making any statements or decisions regarding the Alpine High School.
10.0 Future Agenda Items	▪ None.
11.0 Adjournment	▪ The meeting was adjourned at 5:10 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order at 4:00 p.m. by Subcommittee Chair Brant.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear (left at 4:45 p.m.), Jim Panknin (arrived at 4:02 p.m.)
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Viking Center Report	▪ Mr. Kiesling stated that this topic, after recommendation from the Subcommittee, will be brought before the CBOC at the January meeting. After the CBOC makes a recommendation, it will be brought before the GUHSD Governing Board. ▪ Ms. Quirk gave a presentation on the District's recommendation for rebuilding the Viking Center. o The District found that keeping all students from Viking Center in one location would work best

5.0 Viking Center Report	for the facility and students. ○ Ms. Quirk recommended to the Subcommittee that they support the decision to build a new facility in its entirety. ▪ Mr. Kiesling stated that the building would be classified as an educational facility, not a medical facility. The building would be built to educational standards with medical components. ▪ The Subcommittee discussed the possibility of using design plans from other facilities in the county or state for the new facility. Mr. Kiesling explained to the Subcommittee that most other school districts house smaller groups of students than Viking Center, and that Staff hasn't found any facilities similar to Viking Center so far. ▪ Member Panknin stated that he would like to see a cost comparison between decentralizing the student population of Viking Center and building one new facility for all students. ▪ Ms. Quirk stated that from an educational standpoint it is not beneficial to move the students to other school sites. ▪ Mr. Patterson stated that the starting budget was not adequate to renovate the facility. He asked the Subcommittee if they would give a recommendation for the $1.4 million increase to build a new facility. ▪ Ms. Quirk stated that she would present a financial comparison, as well as other information relevant to the decision, to the CBOC at their January meeting. ▪ **Member Lear moved to recommend to the CBOC to tear down and rebuild Viking Center. Subcommittee Chair Brant seconded. Member Panknin abstained. Motion approved.**
6.0 Attendance Log	▪ Subcommittee Chair Brant explained that Ms. Hammons would be maintaining an attendance log for the CBOC, which will be included as part of the monthly packet to the Steering & Planning Subcommittee.

7.0 Mission Statement Word Change	▪ **Member Lear moved to change the phrase "Board of Education" in the CBOC Mission Statement to "Governing Board". Member Panknin seconded. Motion approved unanimously.**
8.0. Protocol for Running Business of CBOC 8.1. Submitting Agenda Items for CBOC Meetings 8.2. Exhibits and Handouts from Non-Staff 8.3. Governing Board Member Participation at CBOC Meetings	▪ No discussion or action.
9.0 Adopt Election Protocol 9.1 Amendment to Bylaws 9.2 Proxy Voting	▪ No discussion or action.
10.0 Matrix Report	▪ Mr. Goshorn handed out and explained his matrix report. It was presented at the January Communications Subcommittee meeting, who asked that it be forwarded to this Subcommittee. He explained that the categories classified for each project were taken from the BAC report, ballot text, HMC, and the construction website. ▪ Member Panknin stated that any deviations from the original ballot text need to be justified. He stated that before the matrix is uploaded to the new CBOC website, which will be live on February 21, District staff and Mr. Goshorn will need to agree on its accuracy. ▪ Subcommittee Chair Brant stated that she would meet with Mr. Kiesling and Mr. Goshorn to verify the accuracy of the matrix.

11.0 Extension of Subcommittees 11.1 Ad-Hoc Non-Voting Members	▪ Member Panknin stated that the non-voting members would be Resource Volunteers for the Subcommittees, and that the Subcommittees which would need Resource Volunteers would be Audit & Finance, Communications, and Construction Oversight. ▪ Member Panknin proposed that the Subcommittees speak with prior CBOC applicants. He suggested that the Subcommittee Chairs review applicants, and discuss with their Subcommittees. Each Subcommittee Chair would bring their recommendation to the February CBOC meeting to be approved by the Committee. ▪ The Subcommittee agreed that the term for each Resource Volunteer would be decided by the Volunteer and the Subcommittee Chair, working with the Subcommittee for as long as they are needed.
12.0 Other Business	▪ None.
13.0 Future Agenda Items	▪ Protocol for Running Business of CBOC ▪ Adopt Election Protocol
14.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 5:20 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order at 4:00 p.m. by Subcommittee Chair Mendy Brant.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Protocol for Running Business of CBOC 5.1 Submitting Agenda Items for CBOC Meetings	▪ Member Panknin stated that any subcommittee-specific agenda item, as well as any routine item, to be brought before the CBOC at their regular meeting should be given to the Chair or the CBOC Support Secretary two Mondays before the regular meeting. ▪ Member Panknin stated that at the discretion of the Chair, agenda items can be submitted as late as 72 hours prior to the CBOC meeting, within the requirements of the Brown Act.

5.2 Exhibits and Handouts From Non-Staff Members	▪ The Subcommittee agreed that any exhibits or handouts to be included in the CBOC agenda packet should be given to the Support Secretary by the close of business the Thursday before the CBOC meeting. ▪ Member Panknin suggested that these operational guidelines created from these recommendations be compiled into one exhibit to be presented at the February 27 CBOC meeting.
5.3 Governing Board Member Participation at CBOC Meetings	▪ It was agreed that the CBOC Chair would have a set of guidelines to run the regular meeting. The Chair would treat the members of the Governing Board as members of the public, and would let them know this ahead of time. Their presence would be acknowledged at the beginning of the meeting.
6.0 Adopt Election Protocol	
6.1 Amendment to Bylaws	▪ Member Lear suggested creating a list of operational guidelines for the CBOC instead of amending bylaws. ▪ The Subcommittee discussed the changes to Subcommittee Chair Brant's draft of the Election Protocol. ▪ **Member Lear moved to recommend to the full CBOC that they adopt Subcommittee Chair Brant's draft as amended as operational guidelines for purposes of elections. Member Panknin seconded. Passed unanimously.**
6.2 Proxy Voting	▪ The Subcommittee discussed what would be considered proxy voting, and the amount of information a member of the CBOC should have before placing a vote. ▪ Subcommittee Chair Brant suggested the prohibition of proxy voting be recommended to the CBOC as an operational guideline. ▪ The Subcommittee discussed giving the option of members participating in the meeting and voting telephonically. They agreed that the member would need to participate in the discussion to be able to vote.

6.3 Proxy Voting (Continued)	▪ **Member Lear moved that no proxy voting should be allowed, and that if a member is absent from a meeting and would like to participate in a vote, they will be allowed to do this telephonically as long as they participate in the discussion. They must make prearrangements for this. Member Panknin seconded. Passed unanimously.**
7.0 CBOC Tracking of Prop H Ballot Items (B. Kiesling) 7.1 Status Update	▪ Subcommittee Chair Brant stated that the progress on this project is still ongoing. She stated that she met with a member of the Bond Advisory Commission, as well as with Mr. Kiesling, and reviewed the list provided by Mr. Goshorn. ▪ Mr. Kiesling stated that it is still in draft form as it will require more time to validate. It has been given to District staff for review and comments.
8.0. Other Business	▪ None.
9.0 Future Agenda Items	▪ Homestead – When should the Subcommittee address this? o Mr. Kiesling offered to present information to the Subcommittee at their April meeting. ▪ Deferred Maintenance o Mr. Kiesling stated that more information will be available after Phase 3C money is allocated. He offered to give an early overview in April, though further information would not be available until the end of the year.
10:0 Adjournment	▪ The meeting was adjourned at 5:09 p.m.

Grossmont Union High School District

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:05 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: o *Members Present:* Mendy Brant, Fred Lear o *Members Excused Absent:* Jim Panknin
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Protocol for Running Business of CBOC 5.1 Review Election Protocol	▪ Subcommittee Chair Brant mentioned that CBOC Member Marsh had an issue with the Election Protocol following the CBOC bylaws in regard to Officer terms. ▪ Member Lear suggested removing the phrase that stated that the Officer would be required to fulfill the one-year term. ▪ Subcommittee Chair Brant stated that in the Bylaws there is not mention of how long

5.1 Review Election Protocol (Continued)	one is required to serve as an Officer. ▪ Member Lear suggested a change to the Election Protocol: "...shall serve one-year terms or the balance of their appointments." The change was noted on the Election Protcol.
5.2 Motion to Forward	
5.2.1 Attendance	▪ The Subcommittee discussed including an Attendance Log in the minutes or agenda packets for the CBOC to review. ▪ Mr. Patterson stated that in other situations, he had seen committees present the Attendance Log on a quarterly basis. ▪ **Member Lear moved to present the Attendance Log to the CBOC and Subcommittees on a quarterly basis – March, June, September & December. The quarterly attendance report shall be published with the CBOC agenda. In addition, the report will, on those months it is included, be brought before the Steering & Planning Subcommittee for any possible recommendations as long as inclusion is mandatory. Subcommittee Chair Brant seconded. Passed unanimously.**
5.2.2 Exhibits and Handouts	▪ The Subcommittee agreed to include the recommendation brought forward at the February 19 Subcommittee meeting in the Operational Guidelines handout for presentation to the CBOC: o "The Subcommittee agreed that any exhibits or handouts to be included in the CBOC agenda packet should be given to the Support Secretary by the close of business the Thursday before the CBOC meeting."
5.2.3 Governing Board Member Participation at CBOC Meetings	▪ Member Lear stated that he felt as though the motion regarding Governing Board Member participation might be offensive to Governing Board Members. He stated that he did not agree that they should be included in the Operational Guidelines. ▪ Subcommittee Chair Brant stated that they

5.2.3 Governing Board Member Participation at CBOC Meetings (Continued)	will be included as a part of the Chairman's Guidelines. She suggested removing the line stating that they would be treated as members of the public. ▪ **Member Lear moved to amend the February 19 motion regarding Governing Board Member participation at CBOC meetings to be written as follows: "Should a member of the Governing Board be present, they would be acknowledged at the beginning of the meeting." Subcommittee Chair Brant seconded. Passed unanimously.**
6.0 CBOC Tracking of Prop H Ballot Items 6.1 Status Update	▪ Mr. Kiesling stated that he was awaiting review and comments from his staff regarding the ballot item tracking handout. ▪ Subcommittee Chair Brant stated that there were items on the original handout that were not in the ballot language, and that she met with Barb Killian from the Bond Advisory Commission, as well as Mr. Goshorn and Mr. Kiesling to review each item. ▪ Mr. Kiesling stated that the tracking sheet would be ready for review at the Subcommittee's April 21 meeting. He stated that some items will need explanation, and some will be straightforward.
7.0 Steering & Planning Page Content on the CBOC Website	▪ The Subcommittee discussed the content of the CBOC website. Subcommittee Chair Brant suggested that agendas and minutes be included on the Steering & Planning Subcommittee page of the CBOC website.
8.0. Other Business	▪ Subcommittee Chair Brant read excerpts from a letter sent by the Foothills Council PTA President sent to the Ninth District PTA and Santana regarding the 65 million dollar set-aside and heat days. ▪ Mr. Patterson explained that although some classrooms have air conditioning, all

8.0. Other Business (Continued)	students are treated the same, and if there is a heat day, all students are sent home if they can not be moved to another room where they can operate. ▪ Mr. Kiesling stated that the letter is incorrect in assuming that there is not any money left. ▪ Subcommittee Chair Brant asked if heat days are made up at the end of the school year. Mr. Patterson explained that students are still meeting the number of instructional minutes in the school year, so they do not need to be made up. ▪ Mr. Patterson stated that the Governing Board asked about the two CBOC members' terms that are coming to an end in June. He stated that District staff helps navigate the structure of selecting replacement members. He stated that staff is planning on making a recommendation to seek out organizations to hold a seat on the CBOC, who will then select a member to sit on the Committee. ▪ Member Lear stated that he did not believe the Senior Citizens' Organization membership would lend itself to this kind of selection process as well as the Business Organization membership would. He suggested advertising, interviewing, and selecting the Senior Citizens' Organization membership with the same method as the At Large members. ▪ Mr. Patterson stated that the intention is to have the members selected soon so that they can attend the June 25 CBOC meeting as observers. They would then be assigned to Subcommittees, and would attend Subcommittee meetings, as well as the CBOC meeting, in July. ▪ Subcommittee Chair Brant presented a newspaper article stating that there was declining enrollment in Alpine to the Subcommittee. ▪ Mr. Patterson stated that the Demographic Study results would be ready in May.

9.0 Future Agenda Items	▪ Prop H Tracking ▪ Homestead Update ▪ Deferred Maintenance Update ▪ San Diego County Taxpayers' Association Study regarding Bond performance. o Mr. Kiesling asked if the data presented seemed accurate. o Member Lear suggested resurveying CBOC members. He believed a lot of positive things had happened in the past six months. o Member Lear explained how they conducted the survey over the phone.
10.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 5:10 p.m.

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:05 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 CBOC Tracking of Prop H Ballot Items Update	▪ Mr. Kiesling presented a revised version of Mr. Goshorn's draft of the CBOC Proposition H Ballot Tracking chart. Mr. Kiesling explained that sections of the chart outlined in blue represented the projects in which the bond language would need to be interpreted to include that project for various reasons. ▪ Mr. Kiesling proposed that each box be explained and that staff recommend to the CBOC that the changes be made as noted. He stated that he would like to interpret the bond language to explain and incorporate those projects.

5.0 CBOC Tracking of Prop H Ballot Items Update (Continue)	▪ Mr. Kiesling pointed out that when renovating an outdated classroom, technology would need to be updated at the same time. ▪ The process of making these changes includes staff recommending that the projects be incorporated, which would be passed along to the board for their approval. ▪ Subcommittee Chair Brant stated that there are projects mentioned in the first paragraph of the general language of the bond, but not on the list of projects for a particular school. ▪ The Subcommittee will be presented with a brief written explanation for each project. Chairman Panknin requested that it be brought before the CBOC and placed on the May 28 agenda. ▪ Mr. Kiesling stated that some projects not directly listed under a school site can be paid for with state matching funds. ▪ Mr. Patterson pointed out that the ballot measure stated the projects that it "will include," but does not place a limit to what work should be done. ▪ Mr. Kiesling gave examples of projects not listed in the ballot measure, but necessary for modernization, such as asbestos removal at Valhalla High School, and any projects completed at Foothills Adult School since none were listed in the ballot text. ▪ Mr. Kiesling and Mr. Patterson explained the projects represented by blue-lined boxes on the tracking sheet. ▪ **Member Lear moved to approve the plan to have Mr. Kiesling return to the Subcommittee with an explanation. Subcommittee Chair Brant seconded. All in favor.**
6.0 Homestead Update	▪ Mr. Kiesling stated that the District is considering rebuilding Homestead in its existing location. A land-swap was planned with the county, where the District would have owned the land, but the swap did not go through as planned. Purchasing the land from the county is an option because it is up for sale; the Homestead site would then be reconfigured, and students would be placed

6.0 Homestead Update (Continued)	in a temporary facility. A business park will also be built in the area, and Homestead would have to be a part of it. ▪ Mr. Kiesling stated that he would estimate the cost of the land to be near two million dollars. ▪ Mr. Patterson stated that the Superintendent would like to do a programmatic review before a final decision is made. He stated that he would give an update on Homestead at the Subcommittee's May 19 meeting.
7.0 Deferred Maintenance	▪ Mr. Kiesling handed out a full maintenance plan. There is limited preventative maintenance being done, but staff is performing routine maintenance on facilities. ▪ Mr. Kiesling stated that the key is to establish an inspection process and to review the maintenance backlog of items that need to be fixed. He stated that it is important to identify what the major maintenance requirements will be and lifecycle costs. ▪ Mr. Kiesling stated that the District may have to issue a new bond periodically to maintain facilities, because the cost is too great for a normal budget. Staff will have to figure out when to start those projects and how to fit them in with the bond measure and other sources of funding. ▪ Member Lear asked Mr. Kiesling if three percent is enough funding for deferred maintenance. Mr. Kiesling stated that it was not enough to complete large projects. ▪ Chairman Panknin requested that a long-range funding cycle estimate be created and brought to the Subcommittee each month.
8.0. Steering & Planning Content on CBOC Website	▪ No discussion or actions.

9.0 Review and Discussion of San Diego County Taxpayers' Association Study	▪ CBOC Member Heiser stated that he expressed the concerns from the CBOC to the San Diego County Taxpayers' Association. The man responsible for the survey stated that he didn't think the data was incorrect, but agreed to recalculate the data. The Taxpayers' Association is currently planning on conducting this survey every other year. ▪ Four members of the CBOC were interviewed for the survey. ▪ Member Lear thanked CBOC Member Heiser for the report, and requested that further information be brought before the Subcommittee at their May 19 meeting.
9.1 Resurveying CBOC Members	▪ No Discussion or action.
10.0 CBOC Financial Status Display	▪ Mr. Kiesling recommended that this item only be brought before one subcommittee. The Subcommittee agreed to have the Audit & Finance Subcommittee review the information.
11.0 Other Business	▪ Member Lear asked District staff how new CBOC members will be selected. Mr. Patterson stated that the Governing Board approved East County Construction Council and the East County Action Network as two organizations to have membership seats on the CBOC. The new members will be introduced to the Governing Board at their June 12 meeting, and will attend the June CBOC meeting as observers as well as be assigned to Subcommittees. Their first official meeting will be July 30.
11.1 Demographic Study Update	▪ Mr. Patterson stated that the firm was originally tasked to present their findings at the May 8 Governing Board meeting, but will now present at the June meeting. ▪ Chairman Panknin requested that the CBOC be allowed to question the demographic study consultants at the June CBOC meeting. Mr. Patterson suggested that Chairman Panknin ask the Governing Board at their May meeting.

12.0 Future Agenda Items	▪ Consultant Budget and Performance Review. ▪ Attendance Log
13.0 Adjournment	▪ The meeting was adjourned at 5:30 p.m.

1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:05 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with the following correction: *Item 5.0 – "Mr. Kiesling explained that sections of the chart outlined in blue represented the projects in which the bond language would need interpretation to include that project for various reasons."* Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Homestead Update	▪ Superintendent Collins stated that the Homestead facility has numerous problems, including poor condition of three portable buildings. ▪ Superintendent Collins stated that he had fundamental concerns with the programmatic aspect of Homestead. He explained that students come from

5.0 Homestead Update (Continued)	throughout East County to this facility, and that he believed there should be a program at their home school site or another type of facility closer to home. ▪ Superintendent Collins explained the cost per year for non-public school students and transportation. ▪ Superintendent Collins stated that staff would develop a plan over the next year to ensure there is a fair and appropriate free program for the students at Homestead. ▪ A complete presentation will be given to the Subcommittee by the end of Summer.
6.0 Performance Review – Construction Issues at El Capitan High School	▪ Member Panknin stated that the Construction Oversight Subcommittee has been tasked to select a site or project for Mr. Goshorn to review. Their recommendation will be presented to the CBOC at the May 28 meeting.
7.0 Proposition H Ballot Item Tracking	▪ Mr. Kiesling handed out an explanation sheet for the Ballot Item Tracking Report. Each project on the tracking report that was not listed specifically in the Proposition H ballot text was outlined in blue, with a corresponding number and explanation. ▪ The Subcommittee reviewed each item outlined in blue on the Ballot Item Tracking Report with Mr. Kiesling. ▪ Subcommittee Chair Brant recommended that the Subcommittee forward the document to the CBOC, to be reviewed by Mr. Kiesling at the May 28 meeting. ▪ Mr. Kiesling pointed out that this information can be presented to the GUHSD Governing Board via Weekly Board Report as a memo. ▪ The Subcommittee agreed to forward the tracking document to the CBOC for their review and acceptance.
8.0 Deferred Maintenance Update	▪ Mr. Kiesling stated that the plan is not deferred maintenance, and should be instead called a Major Maintenance Plan. He stated that in the bond language, deferred maintenance should be eliminated

8.0 Deferred Maintenance Update (Continued)	by using bond funds, as well as funding from other sources. ▪ Mr. Kiesling stated that the CBOC should oversee the major maintenance plan. ▪ Member Panknin stated that the plan should identify the District's need. It should state how much funding will be required and at what time it will be needed. ▪ Member Panknin requested an update from staff at each Subcommittee meeting.
9.0 Attendance Log – Defining Excused Absences	▪ The Subcommittee agreed that there should not be a distinction between excused and unexcused absences. ▪ Member Panknin stated that as a courtesy, the absent member should call the Support Secretary in advance to notify her of the absence. ▪ Member Lear suggested that the policy on absences be written into the CBOC's Operational Guidelines.
10.0 ICOC Report Corrections	▪ Mr. Kiesling presented the changes to the ICOC Report. ▪ Mr. Patterson stated that the report is a tool that can be used to improve staff performance. He expressed his appreciation to the CBOC for recognizing that the report did not look accurate. ▪ The Subcommittee agreed to draft a letter to present to the Governing Board regarding the incorrect data and the changes that were made. It will be brought before the CBOC at the May 28 meeting.
11.0 Superintendent Collins' Recommendation to the GUHSD Governing Board	▪ Mr. Kiesling presented a list of buildings that would be completed if 45 million dollars from the reserve were reallocated towards the modernization program. ▪ Member Panknin stated that the data would be brought before the CBOC at the May 28 meeting, and that he would like District staff to present which buildings and projects would be completed and which would not. ▪ The Subcommittee agreed that they would support the Superintendent's proposed split

11.0 Superintendent Collins' Recommendation to the GUHSD Governing Board (Continued)	of the 65 million dollar reserve. ▪ Mr. Kiesling pointed out that the new high school would not be eligible for state matching funds until after it gets DSA approval for the plans and construction begins.
12.0 Steering & Planning Subcommittee Webpage Content	▪ Member Panknin stated that the Communications Subcommittee will be writing the content for the Subcommittee web pages, to be approved at each Subcommittee meeting. It will include a brief description of each Subcommittee and what their tasked responsibilities.
13.0 Other Business	▪ Mr. Patterson stated that CBOC Members Pennock and Muse will be invited to the June 12 Governing Board meeting to recognize their service on the CBOC. He stated that Rick Winet tendered his resignation, effective immediately. ▪ Mr. Patterson stated that an organization will be recommended to fill Mr. Winet's vacant membership position, and that staff had been looking at the American Institute of Architects to fill the seat. The selection process will be brought before the Governing Board at their June 12 meeting. ▪ Mr. Patterson explained that the new CBOC members would have their orientation in June, observe the June 25 CBOC meeting, and take their seats on July 30. ▪ Member Lear asked that the item be brought before the CBOC on May 28 to discuss a recommendation on whether to have the open membership seat be filled by a member-at-large or an organization.
14.0 Future Agenda Items	▪ The July Subcommittee meeting will be held on Monday, July 14.
15.0 Adjournment	▪ The meeting was adjourned at 5:40 p.m.

G.P. - Oversight Agendas and Minutes

Construction Oversight Sub-Committee

2007-08

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Monday, September 24, 2007

Granite Hills High School; Room 22

3:00 - 5:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order at 3:10 p.m. by Subcommittee Chair Ron Pennock.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: o *Members Present:* Phillip Marsh (arrived at 3:30 p.m.), Ron Pennock
3.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ No comments.
4.0 Problems/Issues with School Site Construction	▪ District Facilities Planners were introduced, and their work sites were listed: o Dena Johnson – El Capitan, Granite Hills, Health Occupations, and Steele Canyon o Debbie Murray – Chaparral, Grossmont, Helix, Homestead, and West Hills o Janea Quirk – Mount Miguel, Santana, Valhalla, and Viking Center o Scott Wilkins – El Cajon Valley, Foothills, Monte Vista, and Work Training Center ▪ Mr. Randall Duncan and Mr. Erik Reuter from gafcon/Harris introduced themselves

4.0 Problems/Issues with School Site Construction *(Continued)*	and explained what they, as Program Managers for the CBOC, have been working on. ▪ Subcommittee Chair Pennock asked each Facilities Planner what their challenges were with the Prop H program. Each stated that the lack of original planning has posed challenges, but that they were not working with the program when it began. ▪ Ms. Johnson stated that staff has been proactive in solving problems as they are discovered. ▪ Mr. Duncan stated that eventually new contracts will be created to replace current contracts. He stated that gafcon/Harris will be reviewing every part of the Proposition H program and will give the Subcommittee relevant information in a format they are comfortable with. ▪ The Subcommittee discussed the pros and cons of General Contractor bidding. ▪ Mr. Kiesling stated that two bids recently came in under budget. He stated that the majority of contracts have had five to seven bidders. ▪ Mr. Kiesling stated that the Subcommittee can help District staff by reporting any issues they might find. ▪ Subcommittee Chair Pennock stated that he would like to have a weekly column in the East County Californian regarding Construction at each school site. Mr. Kiesling suggested that Mr. Pennock work with the Public Relations Subcommittee to create this. ▪ Mr. Duncan offered to give the Subcommittee a tour of school construction sites during meetings and explain what is being done at each site so the Subcommittee can give constructive criticism, as well as report back to the CBOC and voters. ▪ Member Marsh stated that he would like the gafcon/Harris Program Managers to find patterns in any problems that may arise. ▪ Mr. Kiesling stated that he would give the Subcommittee a broad view of any information they would like to review. He can present in-depth information as requested.

5.0 Other Business	▪ Mr. Duncan explained that all charts, graphs, and financial information is presented on a monthly basis to the CBOC, and anything the Subcommittee would like to review beyond that can be raised at the Subcommittee meeting. ▪ Member Marsh stated that he would be interested in visiting school construction sites if the visit was scheduled as part of the Subcommittee meeting. Mr. Reuter stated that he would facilitate this for the Subcommittee.
6.0 Future Agenda Items	▪ None.
7.0 Adjournment	▪ The meeting was adjourned at 5:00 p.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Tuesday, February 26, 2008

Grossmont Union High School District Office; Conference Room 2;
Tour of Grossmont High School
5:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Ron Pennock at 5:10 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Phil Marsh, Ron Pennock; Larry Nichols arrived at 5:25 p.m.
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Tour of Grossmont High School	▪ The Subcommittee met with Steve Dow, Jason Falco, and Keith Houk, who gave the Subcommittee a tour of the 700 building at Grossmont High School. ▪ The modernized 700 building will include seven classrooms, one office, and a mechanical room. The building is expected to be completed during the District's Spring Break. ▪ Mr. Dow showed the Subcommittee a classroom under construction. He explained that there was not any dry rot or termite

5.0 Tour of Grossmont High School (Continued)	damage when the room was stripped down to the studs. ▪ Mr. Kiesling stated that the buildings are only checked for mold if there is suspicion of it being present. ▪ Mr. Kiesling stated that all buildings being modernized are demolished to the studs. ▪ Mr. Dow stated that it is a continual learning process for staff during construction at each building. ▪ Mr. Kiesling stated that teachers in the modernized buildings give their input on the design and function of the room. If many give the same complaints, changes are made in future classrooms.
6.0 Change Orders	▪ Mr. Kiesling presented a handout regarding change orders. ▪ Subcommittee Chair Pennock stated that he would like to review the change order process and would like to be notified of any unusual exceptions in the future. ▪ Mr. Kiesling pointed out that although the classrooms being modernized are similar there are small differences which would create variation in architectural design. He stated that once the architect goes over 2% of errors, the District looks into recouping each dollar over that amount. ▪ Mr. Kiesling reviewed the monthly report on change orders presented to the GUHSD Governing Board. The report presents the change orders that were approved in the previous month. o The Subcommittee requested to review this report on a monthly basis before the Subcommittee meeting. ▪ Member Marsh requested a Subcontractor list from Mr. Kiesling. He would like to know who is working for the prime, and would like to recommend other Subcontractors for projects.

7.0 Charter School Site Maintenance and Modernization	▪ Subcommittee Chair Pennock stated that he spoke with Larry Goshorn regarding the use of Proposition H funds on charter schools, which Mr. Goshorn stated was appropriate. ▪ Mr. Kiesling explained that the charter schools use District facilities, though the charter school is responsible for maintenance on the facility. Both schools have chosen to use their own staff to maintain the campuses. The obligation of the District is to inspect the schools and ensure they are properly maintained. The charters are responsible for the costs of maintenance at the school sites.
8.0 E-Rate	▪ Mr. Kiesling explained E-Rate as a federal program which gives reduced rates on electronics for schools. He stated that the District participates in this program, and that Guiselle Carreon and Jack Blaylock are in charge of this. ▪ Mr. Kiesling stated that wherever electronic components are installed in modernized classrooms, the District is eligible. ▪ Subcommittee Chair Pennock stated that he would speak with Mr. Blaylock regarding this program.
9.0 Other Business	▪ Member Marsh stated that the signs outside the school sites do not list which projects have been completed, which might lead subcontractors to believe that all projects listed will come up for bid in the future. He also reviewed the District website and could not find the link to the bid listings. ▪ Member Marsh stated that the San Diego Unified School District's website bid listing was very easy to find and would like to see the GUHSD website bid page formatted in a similar way. ▪ Member Marsh suggested creating a link titled "Contractors" with a pre-qualification page so that those who express interest will know if they qualify to bid. ▪ Subcommittee Chair Pennock requested that Mr. Kiesling review the San Diego

9.0 Other Business (Continued)	Unified School District's website and bring his comments to the March 25 Subcommittee meeting. ▪ Mr. Kiesling stated that there was a budget set aside for administrative costs at the beginning of the program. At the end of the program it will total 19 million dollars. Currently, the costs are running under budget. ▪ Member Marsh suggested that the Subcommittee hold meetings at 5:30 p.m. each Tuesday before the regular CBOC meeting. A motion for adjournment will occur at 7:00 p.m. at each meeting unless business is expected to require more time. ▪ Member Marsh asked Mr. Kiesling how often subcontractors are replaced. Mr. Kiesling stated that typically they have not been replaced, but District staff always calls the subcontractor to ensure they are aware that the prime is removing them. ▪ Member Marsh asked Mr. Kiesling how he would rate labor compliance problems in the District. Mr. Kiesling stated that he could not think of any problems.
10.0 Future Agenda Items	▪ Subcontractor List ▪ Review Subcommittee Responsibility List
11.0 Adjournment	▪ The meeting was adjourned at 6:50 p.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Tuesday, March 25, 2008

Grossmont Union High School District Office; Conference Room 2

5:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Pennock at 5:40 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Phil Marsh, Larry Nichols, Ron Pennock
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with Member Marsh's corrections: *The meeting should be adjourned at 7:00 p.m. unless we make a statement at the beginning of the meeting that business will require us to stay beyond 7:00 p.m.* Subcommittee Chair Pennock abstained. All others in favor. Minutes were approved.
4.0 Public Comments --Items Not on Agenda	▪ None.
5.0 Bid Process	▪ Mr. Kiesling stated that the Sharepoint website has the capability of allowing visitors, such as bidders, to view certain areas of the site with the use of a password provided by staff. ▪ Mr. Kiesling stated that currently there weren't any projects up for bids. ▪ Member Marsh stated that he believed cost savings would come in small amounts. ▪ Member Marsh suggested that the District purchase standardized parts at a lower

5.0 Bid Process (Continued)	price, and then request that the prime contractors provide the installation. Mr. Kiesling stated that cabinets would be a good candidate for this type of project because the architects specify standard sizes in their designs.
6.0 Website	▪ Member Marsh stated that he no longer has concerns with the bid page on the District's website.
7.0 Major Issues since February Meeting	▪ Mr. Kiesling stated that a subcontractor had complained that he was not paid for his work. He stated that staff would deal with the situation, and then bring it before the CBOC.
8.0. Subcontractor List	▪ Member Marsh stated that he would like to review a list of subcontractors so that he can attempt to attract the interest of additional subcontractors. ▪ Mr. Kiesling explained that all information on subcontractors is received by Guiselle Carreon in the Purchasing department on paper. Member Marsh requested that an electronic database of subcontractors be created. ▪ Mr. Kiesling explained that each trade contractor hires subcontractors depending on how complicated the project is.
9.0 Change Orders	▪ The Subcommittee requested that a list of change orders be presented for review at each meeting. ▪ Mr. Kiesling stated that the change orders were doing well throughout the program. ▪ Mr. Kiesling stated that change orders are presented monthly to the Governing Board, and once a change order goes above 10%, it must be reported. ▪ Mr. Kiesling stated that he would bring the report that is presented to the Governing Board to the Subcommittee at each meeting.
10.0 Other Business	▪ Subcommittee Chair Pennock explained that his term will expire in June, and that he

10.0 Other Business (Continued)	had been working with staff to suggest an organization to hold his membership seat and appoint a member to the CBOC. He recommended the East County Construction Council so that the member would have construction expertise. ▪ Member Marsh explained that his membership position is as a community member-at-large, and stated that if the demand from the CBOC and the Subcommittee become greater, he may have to become a Resource Volunteer rather than a CBOC member. ▪ Member Nichols requested that budgets, including square foot costs, be brought before the Subcommittee. ▪ Ms. Wright explained that she coordinates the planning and construction schedules, ensures timely reporting, and makes sure that the systems established are honored and in place. ▪ Member Marsh requested the square footage cost to be brought to the next Subcommittee meeting. He offered to suggest a format for staff to use, if necessary. ▪ Mr. Kiesling stated that he would attempt to calculate the square footage cost by building. ▪ Subcommittee Chair Pennock asked if it was possible to have wood shop students help build for Proposition H projects. Mr. Kiesling explained that usually the issue will be raised if it is a project they are requesting to participate in.
11.0 Future Agenda Items	▪ Percentage of standardization in new science classrooms ▪ Change orders ▪ Subcommittee responsibilities ▪ Price per square foot from Mr. Kiesling
12.0 Adjournment	▪ The meeting was adjourned at 7:00 p.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Tuesday, May 27, 2008

Grossmont Union High School District Office; Conference Room 2

5:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Pennock at 5:30 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Phil Marsh, Larry Nichols, Ron Pennock
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda	▪ None.
5.0 Change Order Report Review	▪ Ms. Wright introduced Mr. Sean Dunbar, responsible for gathering and analyzing data for the Proposition H program, to the Subcommittee. ▪ Mr. Dunbar reviewed the total change order percentage rate and reason codes with the Subcommittee. He explained that change orders are tracked down to the dollar value per site as well as explained by reason codes, such as architect errors and unforeseen conditions. ▪ Mr. Dunbar explained how change orders break down by site. He stated that change orders were currently at approximately four percent overall. ▪ Ms. Wright explained that the change in

5.0 Change Order Report Review (Continued)	plans during phase 2b modernization, remodeling classrooms down to the studs rather than surface modernization, represent the owner-requested change orders at El Cajon Valley High School and Grossmont High School. This change was incorporated into plans for phase 2b modernization at all other school sites being modernized. ▪ Member Nichols requested a detailed, specific log of change orders similar to the exhibit presented to the Subcommittee in February by Mr. Randall Duncan.
6.0 Function/Purpose of Construction Subcommittee	▪ The Subcommittee reviewed the listing of Subcommittee tasks and responsibilities and rated each item based on the amount of impact the Subcommittee would make on each item. ▪ The Subcommittee will review this listing at their next meeting, reducing the listing to six priorities to define their responsibilities.
6.1 Committee Chair	▪ **Member Marsh moved to appoint Member Larry Nichols as Subcommittee Chair. Chairman Pennock seconded. Motion passed unanimously.**
7.0 Selection of Site for Consultant Project Performance Review	▪ Mr. Goshorn explained that the CBOC should review projects on a broader scale, and every once in a while review specifics at a closer level. ▪ Mr. Kiesling presented a list of current construction projects to the Subcommittee. He explained that the goal of conducting a project performance review is to give detailed explanations as to why selected issues exist, so that the Subcommittee and the CBOC can answer questions and give recommendations, if necessary. ▪ Mr. Goshorn presented examples of performance reviews he had completed for oversight committees at other districts. He stated that he can review scheduling, planning, how bids are grouped together, projects the Subcommittee or CBOC may not understand, and ways to achieve savings. He stated that the goal is to have

7.0 Selection of Site for Consultant Project Performance Review (Continued)	the CBOC be comfortable that the program is going well. ▪ Mr. Kiesling explained that there would not be many construction projects completed over the summer. Ms. Wright pointed out that construction on science classes will begin in the fall. ▪ The Subcommittee agreed to postpone selection of a project to be reviewed by Mr. Goshorn for at least one more month. ▪ Mr. Goshorn explained that his contract includes a budget to complete one project performance review a year. ▪ Member Marsh requested a copy of the RFP from which Mr. Goshorn was hired.
8.0. Other Business	▪ Mr. Kiesling presented price per square foot information to the Subcommittee. ▪ Mr. Dunbar explained that staff arrived at the price per square foot presented to the Subcommittee, ranging from 145 to 200 dollars per square foot, by reviewing buildings currently being modernized, including contract amounts, and change orders. The price did not include the cost of interim housing. ▪ Mr. Kiesling stated that each building is required to include ADA upgrades, which does not count in the price per square foot, though it is a large expense depending on whether or not a school is on flat or hilly terrain.
10.0 Future Agenda Items	▪ Site selection for project performance review ▪ Review of Subcommittee responsibilities ▪ Millwork plans for future construction projects
11.0 Adjournment	▪ The meeting was adjourned at 6:49 p.m.

G.P. - Oversight Agendas and Minutes

Communications Sub-Committee

2007-08

Citizens' Bond Oversight Committee

Communications Subcommittee

Summary of Meeting

November 1, 2007

1.0 Meeting Called to Order

- The meeting was called to order by Subcommittee Chair Jim Panknin at 5:03 p.m.

2.0 Roll Call

- A quorum was represented as follows:
  Members Present: Jim Panknin, Rick Winet

3.0 Approval of Minutes

- The minutes were moved to be approved as presented. Seconded & passed.

4.0 Public Comments

- Items on Agenda – None.
- Items not on Agenda – None.

5.0 Annual Report

- The Subcommittee discussed the content of Mr. Goshorn's draft of the Annual Report.
  - The Annual Report will include a timeline for the overall program, organized by phase. Each phase will have a simple explanation with various shading on the graphs.
  - The Subcommittee agreed upon a two-color printing format, with three-dimensional graphs.
    - The online version of the Annual Report will have pictures in full color.
  - At their December 6 meeting, the Subcommittee will review a four-page draft of the Annual Report, with placeholders for pictures to be selected at a later date.
  - Subcommittee Chair Panknin stated that he would like to present the Annual Report in a newly-modernized classroom, giving an opportunity to showcase the improvements and explain the challenges from the CBOC's perspective.
    - At the time of the presentation of the Annual Report, two school sites will have completed classrooms – El Cajon Valley and Grossmont. Subcommittee Chair Panknin suggested that as classrooms are completed on other school sites, the CBOC present the Report at those school sites.
  - The PDF version, posted online, will include links to further information on the content of the Report.
  - The Annual Report will explain shortfalls in the program, give membership information, explain the scope of each Subcommittee, and show the details of a modernized classroom.

        - Membership information will include past members as well as newly ratified memberships.
    - The Subcommittee discussed types of pictures to be included in the Annual Report.
- Subcommittee Chair Panknin requested that Mr. Goshorn have a draft prepared for presentation at the November 28 CBOC meeting.
- Subcommittee Chair Panknin and Member Winet will draft the Chair Report for the first page of the Annual Report, CBOC Member Brant and Mr. Goshorn will complete the list of Subcommittee Responsibilities to be added to the Report, and Mr. Kiesling and Mr. Goshorn will draft the reports regarding construction and phases.
- The Subcommittee discussed the draft of the Mission Statement presented by CBOC Member Brant.
    - CBOC Member Brant stated that she would continue to edit the Mission Statement at the Steering & Planning Subcommittee on November 19.

6.0 Future Agenda Items

- Annual Report

7.0 Adjournment

- The meeting was adjourned at 6:25 p.m.

Grossmont Union High School District

Communications Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Thursday, December 6, 2007

Grossmont Union High School District Office; Conference Room 2

5:00 – 6:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	The meeting was called to order at 5:00 p.m.
2.0 Roll Call *(Recording Secretary)*	A quorum was represented as follows: *Members Present:* Elana Levens-Craig, Jim Panknin *Members Absent:* Rick Winet Member Levens-Craig left the meeting at 6:02 p.m.
3.0 Approval of Minutes *(Chair)*	The minutes were moved to be approved as presented *(E. Levens-Craig)*. Seconded *(J. Panknin)* and approved unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	No public present.
5.0 Annual Report	Copies of the Draft Annual Report were distributed. The Subcommittee discussed the Annual Report with Mr. Goshorn. Member Levens-Craig stated that she would like time to review the updated draft of the Annual Report, and that she believes "simple is better."

5.0 Annual Report *(Continued)*	The Subcommittee agreed to simplified language which describes the phases on page two ("Prop H Planning") The Subcommittee agreed to show that the EIR has been funded, but that the translucent area on the chart would denote that which is not funded. The translucent section on the timeline will be labeled for the new High School beginning January 2006 and ending December 2008 as "Preliminary Planning". The Subcommittee agreed that a paragraph should be added stating that more money has been added to the program, altering the total to $394M. Mr. Goshorn offered to email Member Levens-Craig a draft of the Annual Report for her to review and edit. Member Levens-Craig requested that revisions be received prior to the Subcommittee meeting so as to be prepared with revisions at meetings. Mr. Goshorn stated that he would add an "Additional Funding" category, with information provided by Mr. Patterson. The Prop H Status will include an interactive report posted on the CBOC webpage which will list schools currently under construction. The Subcommittee modified and clarified the language of the Annual Report. The audits will also be added to the report.
6.0 Future Agenda Items	-Review of Annual Report Final Draft
7.0 Adjournment	The meeting was adjourned at 7:10 p.m.

Grossmont Union High School District

Communications Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Thursday, January 3, 2008

Grossmont Union High School District Office; Conference Room 2

5:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order at 5:05 p.m. by Subcommittee Chair Jim Panknin.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: o *Members Present:* Elana Levens-Craig, Jim Panknin o *Members Absent:* Rick Winet
3.0 Approval of Minutes *(Chair)*	▪ The approval of minutes was tabled until the February 7 Subcommittee meeting.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None
5.0 Annual Report	▪ All changes and comments received from the CBOC were incorporated into the current draft of the Annual Report. ▪ Mr. Goshorn stated that he is seeking new photos for the back page of the report. He will create a website so that District staff can upload photos they would like to see in the Annual Report. ▪ Mr. Goshorn explained that the final product will have better quality photos and color. He suggested changing the color

5.0 Annual Report *(Continued)*	format of the photos from three-color to black and white photos. He explained that the online version will be in PDF format with embedded text and full-color photos. ▪ Mr. Goshorn suggested that District staff upload before-and-after photos, photos of construction and the finished product. ▪ Mr. Goshorn adjusted the graph to indicate phases programmed in a solid cylinder with a shadow, as well as transparent non-programmed phases. ▪ The Subcommittee discussed the use of the word "setback" in the report, and various suggestions for possible replacements for this term. ▪ Member Levens-Craig stated that she did not know if the word "capital" should be removed from the first sentence of the second page. The Subcommittee discussed replacing the word with "aggressive and complex building program." ▪ The Subcommittee discussed the addition of the CBOC Mission Statement and meeting time into the report. ▪ The Annual Report will be distributed to offices at school campuses, and emailed to community stakeholders list, staff, parents, and press. ▪ CBOC Member Brant suggested presenting the Annual Report at Foothills Council PTA/PTO meetings. ▪ Subcommittee Chair Panknin stated that the presentation of the Annual Report will include a script for the speaker, as well as several photos. He would like to put this information into a notebook with a CD of photos for each CBOC member so they can present the report at any other meetings as necessary. The Annual Report will be presented to the CBOC on January 30, and presented to the GUHSD Governing Board in February in a newly renovated classroom.

6.0 CBOC Website Layout	▪ Mr. Goshorn presented a proposal for a "Stoplight Report". He stated that this work-status report would be presented on the CBOC Website. Mr. Goshorn turned the bond text into a database, and researched how the District and gafcon/Harris categorized the projects. Since the language was different for each school site, he created 28 categories that fairly represent the bond language. ▪ Subcommittee Chair Panknin stated that he would like to review this report to find the projects being completed that are not listed in the bond language. ▪ Mr. Goshorn stated that he would like the Subcommittee to review the format of the report, and that he would work with District staff, as well as the Program Managers, to come to an agreement of what was programmed and what is completed. ▪ Mr. Goshorn handed out a display for the program Financial Status for the website. He requested that the Subcommittee review the format, and stated that the information included in the charts and graphs were not accurate. Mr. Kiesling stated that he did not like the diagonal graphs and preferred that they sit horizontally. ▪ Subcommittee Chair Panknin stated that it should be included on the CBOC website, but that the Audit & Finance Subcommittee review it for content.
7.0 Meeting with Union-Tribune Editorial Board	▪ The Communications Subcommittee will meet with the Union-Tribune Editorial Board at 9:00 a.m. on January 10. Ms. Martin offered to attend as well. ▪ Subcommittee Chair Panknin stated that at the meeting, he would like the Subcommittee to introduce themselves, as well as explain their mission for the year to establish the CBOC's independence. ▪ Subcommittee Chair Panknin stated that he would like to formally invite Don Severens to the presentation of the Annual Report.

8.0. Other Business	▪ None.
9.0 Future Agenda Items	▪ Review of the Stoplight Report ▪ Presentation of Annual Report o Plan for presenting the Annual Report to schools, PDF version of report, and distribution.
10.0 Adjournment	▪ The meeting was adjourned at 6:25 p.m.

Grossmont Union High School District

5:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order at 5:01 p.m. by Subcommittee Chair Jim Panknin.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Elana Levens-Craig, Jim Panknin, Rick Winet. Member Levens-Craig left at 6:05 p.m.
3.0 Approval of Minutes *(Chair)*	▪ The December 6 and the January 3 meeting minutes were moved to be approved as accepted. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda.	▪ None.
5.0 Union-Tribune Editorial	▪ Subcommittee Chair Panknin handed out a draft of his opinion editorial to be published in the San Diego Union-Tribune. ▪ Ms. Martin stated that the online version of the editorial will include a link to the Annual Report on the CBOC website. ▪ Ms. Martin stated that Don Sevrens from the Union-Tribune was invited to the presentation of the Annual Report, and that the opinion editorial would need to be submitted to him by February 18.

5.0 Union-Tribune Editorial (Continued)	Mr. Patterson suggested that the editorial include information regarding the Annual Audit, stating that it is complete and the results have been reviewed by the CBOC. ▪ Member Levens-Craig suggested that support staff contact information be included in the editorial. ▪ It was suggested that the online version of the editorial include a link to the CBOC website and the Annual Report.
6.0 Annual Report Rehearsal	▪ Subcommittee Chair Panknin stated that each CBOC member would have their own Annual Report presentation binder, which would include a script for the presentation, printed copies of each slide, and a CD with the power point presentation on it. ▪ Subcommittee Chair Panknin presented the Annual Report. ▪ Member Winet suggested that the financial information in the presentation be clarified so that it is easier to understand. ▪ Subcommittee Chair Panknin stated that he would like to take questions on the Annual Report after the presentation is complete. He suggested that each presenter tailor their presentation to themselves and the group being presented to. He would like that they follow the script in their own words. ▪ Mr. Kiesling suggested that the script include a section pointing out the new CBOC mission statement.
7.0 CBOC Website	▪ Mr. Goshorn handed out information regarding the CBOC website and presented proposed changes to the Subcommittee. ▪ Mr. Goshorn stated that the website is currently functioning, and will be moved to the new official website, cboc.guhsd.net, on February 21. ▪ Mr. Goshorn stated that he met with Mr. Kiesling and CBOC Member Brant regarding the work status section of the financial reports to be included on the CBOC website. The information in this section cannot be included on the website

7.0 CBOC Website (Continued)	without being labeled as a draft until approved by staff and the CBOC. ▪ Subcommittee Chair Panknin stated that within the mission and purpose of the CBOC, if a project is not called for in the bond, it should be approved by the CBOC and reported. ▪ Subcommittee Chair Panknin stated that the Construction Oversight and Steering & Planning Subcommittees should review these reports and follow up on them to make a recommendation. ▪ Mr. Goshorn stated that the Financial Reports section of the CBOC website will be noted as "under construction" until the reports are approved by the CBOC.
8.0. Other Business	▪ Ms. Martin stated that the day after the Annual Report presentation, the opinion editorial will be sent to the weekly newspapers to be published as well.
9.0 Future Agenda Items	▪ None.
10.0 Adjournment	▪ The meeting was adjourned at 6:30 p.m.

1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Panknin at 5:04 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Jim Panknin, Rick Winet *Members Excused Absent:* Elana Levens-Craig *Resource Volunteer:* Beth Accomondo-Weidinger
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Annual Report Outreach Strategy	▪ Subcommittee Chair Panknin stated that he contacted all city councils in the area except La Mesa. He stated that he was scheduled to present the Annual Report at the El Cajon City Council on April 8. Santee City Council did not request to view a presentation, but accepted handouts of the Report.

5.0 Annual Report Outreach Strategy (Continued)	▪ Subcommittee Chair Panknin invited Ms. Accomondo-Weidinger to attend the March 13 Governing Board meeting to view the Annual Report presentation. ▪ Ms. Accomondo-Weidinger explained that her son is a student at Mount Miguel High School, and offered to assist with a presentation at the Mount Miguel PTA meeting. She suggested presenting to the ELAC and PASS organizations in the future. ▪ Ms. Accomondo-Weidinger suggested creating a Spanish version of the Annual Report, as well as using a translator to present the Report to Spanish-speaking parents. Subcommittee Chair Panknin stated that he would bring this idea to the CBOC at their March 26 meeting. ▪ Member Winet suggested presenting the Annual Report to Governing Boards at feeder school districts. ▪ Subcommittee Chair Panknin requested that as members of the Subcommittee scheduled presentations, they notify Ms. Hammons so that they are added to the CBOC website.
6.0 Website Content	▪ The Subcommittee discussed modifications and additions to the content and layout of the CBOC website, including images, links, events, and general text. ▪ The Financial Status content of the website was still under review by the Audit & Finance Subcommittee.
7.0 Other Business	▪ No discussion or actions.
8.0 Future Agenda Items	▪ Annual Report Presentations ▪ CBOC Website Review
9.0 Adjournment	▪ The meeting was adjourned at 6:15 p.m.

Grossmont Union High School District

Communications Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Thursday, May 8, 2008

Grossmont Union High School District Office; Conference Room 2

4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Panknin at 4:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Elana Levens-Craig, Jim Panknin *Members Absent:* Rick Winet, Resource Volunteer Beth Accomondo-Weidinger
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Annual Report Presentations	▪ Member Levens-Craig and CBOC Member Brant presented the Annual Report to the Foothills Council at their May 6 meeting. Subcommittee Chair Panknin presented the Annual Report at the Santee Chamber of Commerce. ▪ Subcommittee Chair Panknin suggested that the Subcommittee create a mid-year report to be presented in the fall. He mentioned that Poway School District produces a quarterly report, and that the CBOC may

5.0 Annual Report Presentations (Continued)	benefit from continually updating the Annual Report. ▪ Subcommittee Chair Panknin stated that he would like to present the Annual Report at each school site after classes begin in fall, with information specific to each site. ▪ Member Levens-Craig suggested adding information on the Sharepoint Proposition H Construction website. ▪ Subcommittee Chair Panknin stated that he would like the Communications Subcommittee to present the Annual Report at Rotary Clubs, Lions Clubs, Chambers of Commerce, and other community organizations this summer. ▪ Member Levens-Craig suggested bringing the suggestion of creating a Spanish-language Annual Report before the CBOC. ▪ Subcommittee Chair Panknin stated that the Subcommittee would recommend to the CBOC that an updated presentation be created for fall for each school site.
6.0 CBOC Website	▪ The Subcommittee discussed the content and layout of the CBOC Website. ▪ The Subcommittee requested the creation of a link which would allow members of the public to request a presentation of the Annual Report. ▪ Member Levens-Craig offered to write short paragraphs explaining each Subcommittee for their web pages. ▪ The Subcommittee agreed that an image would be more effective than a link on the Financial Status page. ▪ Subcommittee Chair Panknin stated that the front page of the CBOC website should include information on the science classrooms once the project begins.

7.0 Other Business	▪ No discussion or action.
8.0 Future Agenda Items	▪ Update on Annual Report Presentations ▪ High School Road Show Presentations ▪ Website
9.0 Adjournment	▪ The meeting was adjourned at 4:40 p.m.

Grossmont Union High School District

Communications Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Thursday, June 12, 2008

Grossmont Union High School District Office; Conference Room 2

4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Panknin at 4:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Elana Levens-Craig, Jim Panknin
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and approved.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ Ms. Martin stated that Superintendent Collins presented his career technology education plan at the SEED meeting. She requested that Subcommittee Chair Panknin attend their next monthly meeting so that he can answer questions regarding Proposition H.
5.0 Annual Report Presentations	▪ Member Levens-Craig stated that the mid-year update to the Annual Report should include school site-specific information. ▪ Subcommittee Chair Panknin stated that he would like to explain the proposed modular high school concept at their mid-year presentations and point out that the Proposition H bond language did not state that the new high school had to be a full-sized school site. ▪ Subcommittee Chair Panknin stated that he would like to present the cost to complete

5.0 Annual Report Presentations (Continued)	Proposition H at the mid-year update presentations. He stated that he would like to present the Proposition H which would not be completed with the funds available, and include the slides from Ms. Wright's Master Plan presentation. ▪ The Subcommittee requested that this updated information be completed by the end of August. ▪ Member Levens-Craig suggested that the Subcommittee present this information at PTA meetings before school starts. ▪ Ms. Martin suggested that the Subcommittee have one or two answers to key questions prepared before presenting the mid-year report, such as the percentage complete of particular phases and percentage of classrooms currently modernized. ▪ Member Levens-Craig requested that Mr. Goshorn create a draft of the mid-year report. ▪ Mr. Goshorn stated that the presentation would cover background information from the Annual Report, include a slide with updated information, and end with site-specific details. ▪ Member Levens-Craig suggested that the original presentation be shortened by 5-7 minutes, which can be used on site-specific information. ▪ Subcommittee Chair Panknin requested that the report include information regarding what will and will not be completed within the Proposition H program. ▪ Mr. Goshorn stated that he would provide a first draft of the mid-year report by July 9, and the Subcommittee agreed that they would hold their July meeting after reviewing the draft.
6.0 CBOC Website	▪ The Subcommittee requested that changes be made to the CBOC website, including text content, Subcommittee descriptions, and creation of folders on Subcommittee pages. ▪ The Subcommittee stated that they would

6.0 CBOC Website (Continued)	review the website once again in the fall. ▪ Mr. Goshorn suggested recording an audio presentation of the Annual Report or mid-year report to be uploaded onto the CBOC website.
7.0 Other Business	▪ Member Levens-Craig stated that she had been researching Spanish-speaking statistics, and that the registrar of voters did not have any data on this. Mr. Goshorn suggested reviewing District and census information.
8.0 Future Agenda Items	▪ Back-To-School Report
9.0 Adjournment	▪ The meeting was adjourned at 4:50 p.m.

G.P. - Oversight Agendas and Minutes

Audit and Finance Sub-Committee

2007-08

Citizens' Bond Oversight Committee

Audit & Finance Subcommittee

Summary of Meeting

July 10, 2007

1.0 Meeting Called to Order

The meeting was called to order at 5:00 p.m. by Subcommittee Chair Walter Heiser.

2.0 Roll Call

A quorum was represented as follows:

Members Present: Chuck Muse, Walter Heiser, Jim Panknin

3.0 Approval of Minutes

Subcommittee Chair Heiser moved that the minutes be approved. Seconded & Passed.

4.0 Public Comments

--Items on Agenda

None.

--Items not on Agenda

None.

5.0 Chair Report

None.

6.0 Staff Report

- Mr. Kiesling stated that the CBOC Support Services Consultant interviews will be held on Wednesday, July 11. Four firms will be interviewed. The Interview Panel will present their recommendation of the selection at the July CBOC meeting. If the CBOC agrees with this selection, then the Consultant's contract will be brought to the GUHSD Governing Board for approval.
    - Interview & Selection Panel: Scott Patterson, Bill Wells, and Fred Lear.
- The Program Manager interviews will be held on Tuesday, July 31st, though the date is not yet confirmed.
    - Interview & Selection Panel: Priscilla Schreiber (Representative of the Governing Board), Walter Heiser (Representative of the CBOC), Scott Patterson (Representative of District Staff), Lou Smith (Representative from outside the District), and Jim Perkins (Representative from outside the District).

7.0 New Business

7.1 Role of the Audit & Finance Subcommittee: Presentation by Phil Nerhood Regarding the Role of Audit & Finance Subcommittees in Other Oversight Committees

- Phil Nerhood was introduced as the Chair of the Reports & Audits Subcommittee for the San Diego Unified School District's (SDUSD) Independent Citizens' Oversight Committee (ICOC).
- Mr. Nerhood gave examples of how the SDUSD ICOC kept within their budget, such as reducing the acreage on new construction.
    - Most of the items in the GUHSD Prop H bond text are classified as modernization. There aren't any specific dollar totals attached to projects in the bond text, though there is reference to building a new high school.
- Mr. Nerhood explained that the CBOC represents the taxpayer.
    - Changes that cause budget overruns need to be explained to the citizens. The CBOC should be prepared to explain to the taxpayer why all of the bond funds were expended yet not all projects promised were completed. The CBOC can ask the District why these financial issues are happening.
- Member Muse explained to Mr. Nerhood that the CBOC is currently redefining their role regarding whether or not they should make recommendations to the Board.
    - Mr. Nerhood explained that since the Oversight Committee represents the taxpayer, it is their responsibility to make sure the District is spending appropriately.
- Mr. Nerhood explained the Total Indicated Cost Report (TIC Report), which was based on reasonable assumptions, and estimated how much more or less they would be spending based on these assumptions. There was a reasonable high and low, and it was tracked over years.
- The Reports & Finance Subcommittee at SDUSD had monthly meetings, and were the ones to present the numbers to the Oversight Committee.
- Mr. Nerhood explained that the Committee members and District staff should work as a team, yet the Committee should stay independent. The Audit & Finance Subcommittee should ask the financial questions. The SDUSD Reports & Finance Subcommittee received monthly financial statements, reviewed them, and made a point to understand them. The Oversight Committee received the same information, but it was discussed more in-depth on a Subcommittee level, and then given as a report at the ICOC meetings.
- The Reports & Finance Subcommittee looked for how numbers changed from month to month. In analyzing financial reports, it was helpful to look at trends. If something changed, they wanted the justification for the change.
- Mr. Nerhood explained that they had independent audits for the District and Prop MM. They received a Compliance Audit and a Financial Audit. The Auditor reviewed a draft of these with Mr. Nerhood before they were brought to the Subcommittee. After the

Subcommittee reviewed it, they brought it to the ICOC. The Auditor monitored funds and expenditures to ensure that Prop MM wasn't charged for non-bond projects. They were able to direct the Auditor to specific problems.

7.2 Audit & Finance Subcommittee's Involvement in Annual Audit Process Regarding Prop H Funds and Expenditures

--Overview of Budget Process

- Member Panknin requested a report of which projects would be completed, which are in danger, and which won't be completed, so they can decide what to do and what to tell the public so they aren't surprised when or if the District asks for another bond.
- Member Panknin believed the Committee needs a simpler format for financial information, such as a synopsis. He stated that the information needs to come to the Subcommittee first, and then put into a format that they can take to the CBOC. Then it is necessary to inform the public of the progress, since they are working for the public.

--Review of Last Year's Audit

- The Subcommittee would like to look at previous audit and determine which areas may be considered "high risk."
- Mr. Patterson explained that the Consultant, once hired, can complete a more detailed audit. The District audit level doesn't focus on specific projects in the way the Consultant can.
- Mr. Patterson suggested to the Subcommittee that they interview the Auditor. The Auditor's contract has been extended for two years.
- The same Auditor does both the Prop H and District audits; having two separate Auditors is expensive and can be complicated when comparing their audits.
- The Auditor will be contacted to attend the August Subcommittee meeting to meet with the members.

7.3 Review of Change Order Procedures

- Most Districts would have the Construction Oversight Subcommittee review this information. The Audit & Finance subcommittee would be able to look at it from a different perspective. The Audit & Finance Subcommittee would like to speak with Ron Pennock, Chair of the Construction Oversight Subcommittee to discuss who would like to review this information.
- Further discussion was postponed until after the Construction Oversight Subcommittee has their first meeting.

7.4 State Matching Funds Policy: Should They Only Be Used For Prop H Projects?

- The Subcommittee discussed the presentation given by Tom Cavanaugh from the firm of School Advisors at the May CBOC meeting.
- The Subcommittee discussed whether or not the CBOC should take the position that State Matching Funds only be used for Prop H projects.
  - Subcommittee Chair Heiser asked if this would leave more money for Prop H projects. Mr. Patterson explained that the money taken from State Matching Funds which are used on non-Prop H projects, is replaced with money from other sources.
  - Member Muse wasn't certain that it was in the purview of the CBOC to dictate how State Matching Funds are spent.
  - The Subcommittee requested a presentation of this information at the August meeting – how the State Matching Funds are used for non-Prop H projects.

7.5 Adequacy of the Format in Which Financial Information Regarding Prop H Expenditures are Provided to the CBOC.

- Discussion on this topic was postponed until after the State Matching Funds presentation from Mr. Patterson and Mr. Kiesling at the August meeting.

8.0 Other Business

- Mr. Patterson explained the FAC's Report, and that eventually financial information such as this can be published on the CBOC website. This will be fully rolled out once the Program Manager is hired.
- Member Panknin asked if there was an original budget for Prop H funds, and what changes have been made.
  - Member Muse explained that originally there wasn't a budget indicating how much would be spent on specific phases.
  - Mr. Patterson explained that the closest information to this would be the Long Range Facilities Master Plan, which doesn't include total project costs.

9.0 Future Agenda Items

- Presentation regarding total funding plans and use of non-Prop H dollars by Scott Patterson.
- Discussion with Auditor
- How to plan for shortfalls. Do we have enough money, and if not, why?
- What projects came out of Phase 3BR

10.0 Adjournment

The meeting was adjourned at 7:15 p.m.

Next Meeting: Tuesday, August 21st @ 5:00 p.m.

Citizens' Bond Oversight Committee

Audit & Finance Subcommittee

Summary of Meeting

August 21, 2007

1.0 Meeting Called to Order

The meeting was called to order by Subcommittee Chair Walter Heiser at 5:05 p.m.

2.0 Roll Call

A quorum was represented as follows:

Members Present: Chuck Muse, Walter Heiser, Jim Panknin

3.0 Approval of Minutes

Subcommittee Chair Heiser moved that the minutes be approved. Seconded & Passed.

4.0 Public Comments

--Items on Agenda

None.

--Items not on Agenda

None.

5.0 Discussion with District's External Auditor, Angie Zamora

- Ms. Zamora is a Supervisor with Vavrinek, Trine, Day, & Co., LLP (VTD), and explained the audit process with the Subcommittee.
- The firm audits over 200 school districts in the state of California; Ms. Zamora works on 3 bond audits.
    - The Auditors receive guidance from the state on what should be included on the Financial Audit and the Performance Audit.
    - The Performance Audit is dependent on the District's standards.
        - "Performance Audit" refers to compliance with requirements on the ballot measure. It does not render any judgments beyond this criteria.

5.1 Discussion and Review of Last Year's Audit

- It was her opinion that the financial information was presented to the CBOC fairly last year, as no adjustments were necessary.
- The Performance Audit showed that all information was aligned correctly with the ballot text.
- The Auditors review invoices from the District as received from Construction Managers, purchase orders, contracts, expected dates of completion, payments made against it, and official bond documents from trustees.

- Last year, a draft of the audit was given to District staff before it was brought before the CBOC.

5.2 Discussion and Explanation of This Year's Audit Process

- The Auditors visit the District three to four times a year for an internal control review. While auditing the District, they are also paying attention to bond expenditures. In September, they will return and review bond expenditures since their last audit date in May.
- The Auditors review CBOC meeting minutes and makes note of what projects are being approved or documented as being discussed, which is used as a timeline for the projects.
- A draft of the audit can be given to the CBOC, but Ms. Zamora stated that it was her understanding that the GUHSD Governing Board receives the audit.
- Member Panknin asked that Ms. Zamora send a draft copy of the audit to the Subcommittee when they are at a mid-point of the audit process. The Subcommittee would like to review this information and report it to the CBOC before it is presented to the Governing Board for approval.
- The Subcommittee may work with the District audit committee and ask questions about the audit process.
- Ms. Zamora explained that the Engagement Letter is what the District and Auditors used as an outline of what they will be focusing on during the actual audit.
    - This letter mentions reviewing anything over $100,000, and at least 10% of total expenditures.
- The District recently renewed their contract with VTD for two years with an option of one more year. By law, the firm must rotate partners every six years, though VTD suggests this happen every five years.
- Member Panknin stated that in the future it may be helpful to look at projects under $100,000.
- Ms. Zamora will be present at the September Subcommittee meeting, and the Engagement Letter will be discussed further at this time.

6.0 Role of the Subcommittee and the CBOC with Respect to Anticipated Shortfalls in Prop H Funding

- The Subcommittee discussed the role of the CBOC regarding setting priorities and weighing in on the building of the twelfth high school.
- Subcommittee Chair Heiser stated that there is general language that can be construed by the CBOC to permit them to give comments about these issues.
- Mr. Kiesling pointed out that at the end of the July CBOC meeting, the decision was made to move forward unless the Governing Board stated otherwise.
- Member Muse stated that the direction that should be taken is relative to what will be completed and what will not, specifically referring to Prop H funds being spent exclusively on revitalizing the district rather than building the new high school.

- Member Panknin stated that he believed the construction of the new high school is something the CBOC needs to carefully research and discuss.
- Mr. Kiesling explained that he discussed with CBOC Chairman Wells the possibility of creating an ad hoc committee to address the Bond Advisory Commission Recommendations, and return with a recommendation to the CBOC.
- The Subcommittee discussed the BAC Recommendation to pursue another bond.
- Mr. Kiesling suggested that the Subcommittee comment on how to fund the shortfalls.
- The $65M reserve prompted the District to re-tailor the program schedule. Phase 3B-R takes into account these funds that are temporarily unavailable. Mr. Patterson explained that many projects are contingent on this reserve.
- Subcommittee Chair Heiser stated that he would like to identify which projects will not be completed at each school site.
    - Mr. Patterson explained that before this can be done, it is important to ensure that each school site receives a fair share of the remaining Prop H funds and State Matching funds.
    - Mr. Kiesling suggested that the principals of each school can reprioritize their remaining bond projects.
    - Mr. Patterson pointed out that the management of projects have a sequence to follow, and that it would be difficult to jump to the answer on the new high school. Per the BAC recommendations, the decisions do not have to be made immediately, but they eventually lead to pursuing a following bond measure. Mr. Patterson explained that although it is not the CBOC's role to decide whether or not there should be another bond, if one is pursued, they can make a recommendation on how to proceed.
- Member Panknin clarified that the Subcommittee's role would be primarily dealing with funding and finance issues, though this role may evolve over time.
- Subcommittee Chair Heiser stated that in the near future the Subcommittee will need to comment on the Prop H funding, but they may want to wait until the Program Manager is hired.
- Mr. Patterson and Mr. Kiesling offered to present and explain the Total Program Cost Estimate at the September Subcommittee meeting.

7.0 Prop H Funding – Other Sources/Uses

- Mr. Patterson and Mr. Kiesling gave a presentation and handed out Exhibit 7.0, which is available to the public via the CBOC website as an agenda attachment.
- Mr. Patterson explained that the installation of video cameras at school sites used State Matching funds, not Prop H dollars. This prompted the question of whether the money should only be used on Prop H projects since Prop H begat the money.
- Mr. Patterson pointed out that the District is bringing more dollars into the program than taking out.
- Mr. Patterson explained the Upper San Diego River Improvement Project (USDRIP), which generated redevelopment fees. This money can be used in the area that it was generated – Lakeside. The covered walkways project was supplemented with those dollars.

- Mr. Patterson and Mr. Kiesling explained that the District will bring $18.5M into the program, and only $7.6 was taken out; an approximately $11M benefit to the program.
- Mr. Patterson and Mr. Kiesling explained that if all State Matching funds were used on Prop H projects, it would limit the District's ability to use deferred maintenance funding on Prop H projects.
- Mr. Patterson stated that not all site discretionary funds have been spent. He, nor Mr. Kiesling, can think of any future projects which will be funded or supplemented with State Matching funds, though there are deferred maintenance projects planned.
- Mr. Patterson pointed out that if the recommendation came forward to do another project similar to the lunch shelters, it would be brought to the CBOC before being proposed to the Governing Board because the CBOC has changed their scope to be more involved with these decisions.
- Subcommittee Chair Heiser stated that he plans to report this information at the August CBOC meeting.

8.0 Other Business

- The Subcommittee discussed the potential appointment of FEI to the open member position on the CBOC.
    - It was discussed that it is the Governing Board's purview to select members for the CBOC. There was enough concern from the CBOC to request this item be withdrawn from the agenda to bring back to the CBOC to explain the rationale and hear any comments before bringing this item back to the Governing Board.
    - Subcommittee Chair Heiser is an example of a CBOC member appointed as a representative of an organization, although he was approved as an individual.
    - Mr. Kiesling stated that he believed the CBOC would benefit from a member with expertise in this field.

9.0 Future Agenda Items

- Letter of Engagement Review and Discussion
- Interim Update on Audit with Angie Zamora
- Review of Total Program Cost Estimates

10.0 Adjournment

The meeting was adjourned at 6:35 p.m.

Citizens' Bond Oversight Committee

Audit & Finance Subcommittee

Summary of Meeting

September 20, 2007

1.0 Meeting Called to Order

The meeting was called to order at 4:00 p.m. by Subcommittee Chair Walter Heiser.

A quorum was represented as follows:

Members Present: Chuck Muse, Walter Heiser

Members Absent: Jim Panknin

3.0 Approval of Minutes

Subcommittee Chair Heiser moved that the minutes be approved. Seconded & Passed.

4.0 Public Comments

--Items on Agenda

None.

--Items not on Agenda

None.

5.0 Audit Process and Progress Report from District External Auditor Angie Zamora

- Ms. Zamora explained that the auditors were close to finishing the District financial audit, which included Prop H funds. She stated that the performance audit was near completion, though there were still expenditures to review as a part of the year closing. She stated that a draft of the audit would be available to the Subcommittee no earlier than in three weeks. The draft will be presented to Mr. Patterson or Ms. Floyd, and will be made available to the Subcommittee through them.
- Ms. Zamora stated that at that time, there hadn't been any disagreements with the principles in the District's accounting.
- Ms. Zamora gave an example of an adjustment, and how the Auditors would recommend to the District for the adjustment to be made. At that time, there was not a need for adjustments.
- Ms. Zamora explained that the Auditors review change orders, but not in relation to the dollar of the project. It is not part of the engagement to make an assessment on these dollar amounts, except to ensure is within the scope of work.
- The Prop H audit is completed in conjunction with the District audit. The Auditors review a sample of transactions within the bond funds.

6.0 Independent Proposition H Bond Program Performance Review

- Subcommittee Chair Heiser explained that he received a copy of the District Staff Response to the Third Party Review, prepared by Mr. Kiesling, from the San

Diego County Taxpayers' Association. He requested that this material be included with the agenda materials for the September CBOC meeting.

7.0 Other Business

- Member Muse suggested to Subcommittee Chair Heiser that an explanation of the Letter of Engagement be mentioned in the Subcommittee Report at the September CBOC meeting.
- Subcommittee Chair Heiser explained that he will ask Mr. Kiesling questions at the CBOC meeting regarding the Response to the Third Party Review.
- Mr. Goshorn offered to give his feedback on the draft of the Audit when it is presented.

8.0 Future Agenda Items

- Review of Draft Audit

9.0 Adjournment

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order at 5:15 p.m. by Subcommittee Chair Walter Heiser.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: o *Members Present:* Walter Heiser, Carol Nash, Jim Panknin o Member Panknin left at 6:25 p.m.
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded & passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ No comments.
5.0 Introduction of New CBOC/Subcommittee Member Carol Nash	▪ Member Nash introduced herself and gave a summary of her professional background. ▪ Subcommittee Chair Heiser reviewed the Subcommittee's tasks, as well as the purpose of subcommittees for the CBOC.
6.0 Review of New Format for Proposition H Financial Status Reports	▪ Mr. Duncan distributed copies of financial status reports. He gave a background of the progress in developing and tuning-up the FACs report. ▪ Mr. Duncan explained that the updated format would be incorporated into the new

6.0 Review of New Format for Proposition H Financial Status Reports *(Continued)*	format of the monthly financial reports. He proposed that it be presented to the CBOC on a summary level. ▪ Mr. Duncan explained what the program management team is currently working on and what changes will appear in the November report. ▪ The Subcommittee discussed with District staff and Mr. Duncan the data included in the FACs report. ▪ Mr. Kiesling stated that staff is planning to distribute the financial status reports early in the month to be reviewed by individual members, as well as subcommittees, before the monthly CBOC meeting. ▪ Mr. Patterson suggested that more detailed financial information be reviewed by the Subcommittee, and a brief overview be presented at the CBOC meeting. ▪ Mr. Duncan explained the depth of the levels of information presented in the FACs report to the Subcommittee. Member Panknin suggested that District staff report any insights on financial information that they might have found to the Subcommittee on a monthly basis. This information would then be formulated into a two-minute report to the CBOC.
7.0 Other Business	▪ Mr. Patterson presented a draft of the CBOC Audit to the Subcommittee. He gave a review of the Prop 30 and Prop H requirements which stated that the CBOC must be audited annually. ▪ Mr. Patterson explained the differences between the Performance Audit (which ensures that the bond funds are expended within the purpose of the bond measure) and the Financial Audit. ▪ Mr. Patterson proposed that the Subcommittee review the draft of the audit and address it at the January Subcommittee meeting before it is presented to the CBOC and GUHSD Governing Board. ▪ Mr. Patterson stated that the Audit is historically presented at the same time as

7.0 Other Business *(Continued)*	the District Audit in January. He suggested that the CBOC present their Audit report at the February Governing Board meeting so that the CBOC has an opportunity to review it before it is presented. ▪ Mr. Patterson stated that he would notify the Governing Board that the CBOC Audit was complete and would be presented at their February meeting so that it would be recorded as on-schedule.
8.0 Future Agenda Items	▪ Review draft of the CBOC Audit ▪ Review Financial Status report format and data
9.0 Adjournment	▪ The meeting was adjourned at 6:40 p.m.

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Tuesday, January 22, 2008

Grossmont Union High School District Office; Conference Room 2

6:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order at 6:00 p.m. by Subcommittee Chair Heiser.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Walter Heiser, Chuck Muse, Carol Nash*
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Member Nash seconded. Member Muse abstained. Approved.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Review and Discussion of Proposition H Audit Draft	▪ Member Nash asked why the Audit is not comparative from June 2006 to June 2007. She stated that it is standard to have comparative years included. Ms. Floyd offered to speak with the District Auditor, Ms. Angie Zamora, regarding this. ▪ The Subcommittee discussed the draft of the Annual Audit with District staff, and asked questions to clarify what the audit presented. ▪ Mr. Patterson explained that page 6 of the Draft Audit would be updated to convert to a system where program budgets for the fiscal year will be compared to the actual

5.0 Review and Discussion of Proposition H Audit Draft *(Continued)*	for the fiscal year. ▪ **Member Muse moved to present the audit to the CBOC for approval. Member Nash seconded. Approved unanimously.**
6.0 Review and Discussion of Draft Financial Status Display for the New CBOC Website	▪ Mr. Goshorn explained his draft of the Financial Status Display for the new CBOC website. The Communications Subcommittee requested that it be created for presentation on the new CBOC website with general information for the public to review, showing overall management of the bond program. ▪ Mr. Goshorn explained that this information would be updated once or twice a year, and as the program unfolds, it would show changes. ▪ Member Nash stated that it would be helpful to have the numbers in the Financial Status Display match the cost of the program. ▪ Subcommittee Chair Heiser stated that he would like to postpone any recommendation from the Subcommittee to the CBOC until the website is completed, and until the Subcommittee can see what it adds to the overall picture. ▪ Subcommittee Chair Heiser stated that conceptually it may be beneficial to have financial information on the CBOC website, but did not feel prepared to approve the draft presented. He asked District staff to work with Mr. Goshorn and Mr. Duncan to continue to develop this display.
7.0 Other Business	▪ Subcommittee Chair Heiser requested that Member Nash present the Annual Audit to the GUHSD Governing Board at the Special Board Meeting on February 21. Subcommittee Chair Heiser gave details of the presentation to the Subcommittee. ▪ Mr. Duncan presented to the Subcommittee the FACs Report 2.0. He explained that it was labeled as a draft because the final

7.0 Other Business *(Continued)*	budgets from year-end closing have not been completed. ▪ Mr. Duncan explained that the $65 million currently in reserve, if re-allocated to existing projects, would be returned in the same ratio it was removed. ▪ Mr. Duncan stated that he would give the Subcommittee a copy of the FACs report by the tenth day of each month. ▪ Subcommittee Chair Heiser stated that he would be out of the country for six weeks. He requested that the Subcommittee meet in his absence. He appointed Member Nash as Acting Chair while he is away.
8.0 Future Agenda Items	▪ None.
9.0 Adjournment	▪ The meeting was adjourned at 7:30 p.m.

Grossmont Union High School District Office; Conference Room 1

6:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Acting Subcommittee Chair Carol Nash at 6:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Chuck Muse, Carol Nash *Members Excused as Absent:* Walt Heiser
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Interview Resource Volunteer Candidates	▪ Acting Chair Nash stated that she will send Subcommittee information to FEI in order to recruit a resource volunteer. She will also review a list of prior CBOC applicants to be contacted. o If they are interested, and the Subcommittee could benefit from their background and expertise, Acting Chair Nash will ask that these candidates attend a Subcommittee meeting.

6.0 Other Business	▪ Mr. Patterson explained that Mr. Duncan had completed finalizing budgets with his analysis of the Prop H program. He stated that the actual expenditures will be updated on a routine basis. ▪ Mr. Patterson offered to contact the Bond Underwriter and have him attend the April Subcommittee meeting to give an update on the bond sale.
7.0 Future Agenda Items	▪ Financial Status Display for Website ▪ Bond Underwriter ▪ Mr. Goshorn to attend April meeting
8.0 Adjournment	▪ The meeting was adjourned at 6:20 p.m.

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Thursday, March 20, 2008

Grossmont Union High School District Office; Conference Room 2

5:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by acting Subcommittee Chair Nash at 5:31 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: o *Members Present:* Chuck Muse, Carol Nash. o *Members Excused Absent:* Walter Heiser
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Review Financial Status Display	▪ Mr. Goshorn explained that the intent of the display presented to the Subcommittee was to have financial information to post on the CBOC website, and to communicate the levels of involvement of the CBOC in this information. ▪ He stated that all up-to-date information would be provided via links to the District-maintained Prop H Construction website. ▪ Acting Subcommittee Chair Nash stated that she believed the abbreviations on the

	graphs might confuse those who do not know what they mean. Mr. Goshorn stated that he would spell out words in future drafts. ▪ Acting Subcommittee Chair Nash stated that she did not believe state matching funds should be included that are still uncertain. Mr. Goshorn stated that he included them in the display because they are an important funding source, and was included in the ballot language. Acting Subcommittee Chair Nash stated that she would like to see more disclousre about the availabilty of state matching funds. ▪ Mr. Goshorn stated that he would look into including a page on the CBOC website of definitions or frequently asked questions. ▪ Mr. Kiesling pointed out that there are two charts showing similar data being created. He suggested adding to one chart instead of creating a second from scratch. He stated that the CBOC should list what they would want to see on the status display, and the District would maintain it as one chart linked from the CBOC website. ▪ Mr. Patterson stated that the two charts can be merged and accessed on the Proposition H construction website. ▪ Mr. Patterson suggested using two tones of the same color for each side of the chart, such as green and orage. It would be simple and easy to read. He also suggested that an "as of" date be included as well. ▪ Mr. Kiesling stated that the Financial Status Display would be updated monthly. ▪ Mr. Goshorn stated that he would spell out all abbreviations, change the order of the graphs, include an "as-of" date, and change the colors of the bars. ▪ The Subcommittee will present this Financial Status Display to the CBOC at their March 26 meeting.
6.0 Review FACS	▪ The Subcommittee reviewed the FACS report with Ms. Wright for the period ending February 29. ▪ Ms. Wright stated that there were not any

	significant changes since the Subcommittee last reviewed the FACS report. She stated that the Facilities Planners and Area Project Managers would be validating their information and preparing their estimates. ▪ Mr. Kiesling pointed out that the budget in Column F is locked in. ▪ Mr. Patterson stated that on the new Proposition H Construction website, the link is titled "Monthly Financial Report," which includes summary pages. The charts Mr. Goshorn is currently working on will be included on this page. The website will also include a link titled "Budget vs. Actuals". This would link to the FACS levels zero and one. Mr. Patterson suggested including a similar link on the CBOC website. ▪ The FACS report can be accessed from the Proposition H Construction website and the Monthly Financial Status Report. ▪ Mr. Patterson presented a handout of the new Sharepoint Proposition H Construction Website. The CBOC website, in the future, will have a link to this once it has gone live. ▪ Member Muse asked if the websites tracked how many hits it has received. Mr. Kiesling stated that the previous website did. He stated that although the CBOC website may not be viewed very often, the views it does receive are fairly important. ▪ Mr. Patterson stated that the FACS report will be brought to the Subcommittee monthly and that staff will highlight any changes. ▪ The Subcommittee agreed that levels zero and one included a sufficient amount of information for monthly Subcommittee meetings, but would like to include Subcommittee Chair Heiser in making that decision.
7.0 Update on Resource Volunteer Candidates	▪ Acting Subcommittee Chair Nash stated that she sent in a request to FEI requesting a Resource Volunteer, but had not heard back from them yet. She stated that there was some confusion as to whether or not the

	Volunteer was required to live within the District boundaries. She stated that FEI was holding their Board meeting that night, where they will bring the matter forward. ▪ Acting Subcommittee Chair Nash stated that she attempted to contact a previous CBOC applicant to see if she was willing to become a Resource Volunteer, but did not hear back from her.
8.0. Other Business	▪ None.
9.0 Future Agenda Items	▪ Bond Underwriter to present Bond Financing information.
10.0 Adjournment	▪ The meeting was adjourned at 6:20 p.m.

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Tuesday, April 15, 2008

Grossmont Union High School District Office; Conference Room 2

6:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 6:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Walter Heiser, Carol Nash *Members Excused Absent:* Chuck Muse
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Bond Financing Presentation by Bruce Kerns	▪ Bruce Kerns is the Managing Director of Public Finance at Stone andYoungberg. He is an underwriter and financial advisor with Proposition H. Mr. Kerns has acted as the underwriter in the two previous bond sales – 2004 and 2006. Mr. Kerns explained spending rules and regulations from the IRS, the District's credit rating, assessed valuation, the tax base, bond insurance, and the process of selling bonds. ▪ Mr. Patterson and Mr. Kerns agreed that the possible sale of bonds this June would be recommended.

5.0 Bond Financing Presentation by Bruce Kerns (Continued)	▪ Mr. Patterson pointed out that the CBOC is not necessarily required to weigh in on the sale of bonds, though they may make a recommendation. ▪ Subcommittee Chair Heiser stated that he would like the Subcommittee to make a recommendation regarding summer bond sales before the June 12 Governing Board meeting.
6.0 Review and Discuss Most Recent Proposition H Financial Information	▪ Mr. Kiesling and Mr. Patterson explained the FACS Report to the Subcommittee. ▪ Mr. Kiesling pointed out that information was being added into the report as estimates of projects costs became available. ▪ The Subcommittee discussed adjustments to budgets for various construction phases. Mr. Kiesling explained that the scope on some projects have been expanded, which would then change the budget for that project.
7.0 Review and Discuss Draft of the Financial Status Display for the CBOC Website	▪ Mr. Goshorn stated that there have been modifications made on the draft of the Financial Status Display for the CBOC website, including explanations of abbreviations on the graph. ▪ Mr. Kiesling presented Natalie Schuff's draft of the Financial Status Report and explained the differences between hers and Mr. Goshorn's graphs. Subcommittee Chair Heiser stated that he preferred Ms. Schuff's graph that separated state matching funds from other funding. ▪ The Subcommittee discussed adding footnotes to explain state matching fund eligibility and phase 3C-NS, and units of measurement on the graph in millions of dollars. ▪ The Subcommittee changed "secured to date" to "received to date". ▪ The Subcommittee agreed to post the graphs on the Financial Status page, with a link to "more information," connecting to the second page of information.

8.0. Discuss Content for Audit & Finance Subcommittee Page on the CBOC Website	▪ The Subcommittee requested a link to the CBOC Audit archive on their Subcommittee webpage.
9.0 Other Business	▪ No discussion or action.
10.0 Future Agenda Items	▪ Recommendation on bond sales. ▪ Review of FACS report
11.0 Adjournment	▪ The meeting was adjourned at 8:00 p.m.

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Wednesday, May 14, 2008

Grossmont Union High School District Office; Conference Room 2

6:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 6:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Walter Heiser, Chuck Muse, Carol Nash
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ Sean Dunbar was introduced to the Subcommittee as Program Controls Manager for gafcon/Harris.
5.0 Discuss and Make Recommendation Regarding Timing of New Prop H Bond Sales	▪ Subcommittee Chair Heiser handed out a recommendation from the Subcommittee regarding the June 2008 bond sale to be reviewed by members of the staff. ▪ Subcommittee Chair Heiser proposed that the recommendation be brought before the CBOC at their next regular meeting to be adopted as a recommendation. o Mr. Patterson suggested that the Subcommittee's recommendation should be prefaced with a statement explaining that although it is not tasked within the ballot measure for the CBOC

5.0 Discuss and Make Recommendation Regarding Timing of New Prop H Bond Sales (Continued)	to do so, they received a presentation of information regarding the sale of bonds and that they recommend that District staff move forward with the sale. ▪ Mr. Kiesling pointed out that the statement may be a concurrence rather than a recommendation. ▪ **Member Nash moved to bring the Subcommittee's concurrence of issuing the bonds at the District's recommendation to the May CBOC Meeting. Member Muse seconded.** o Mr. Patterson explained that the bond sale will take place in July, though June is written on the concurrence. Subcommittee Chair Heiser amended the document to reflect this information. ▪ **All in favor. Motion passed.**
6.0 Review and Discuss Most Recent Prop H Financial Information	▪ A copy of the FACS report was handed out to the Subcommittee. ▪ Mr. Dunbar explained that on a monthly basis he reviews with each planning team – the planner and the project manager – their budgets, remaining funds, progression of projects, and what funds can be considered a savings to be rolled into a future phase or phase 3b-r, if any. ▪ Mr. Dunbar explained that each month when updating the FACS report, he reviews information as close as possible to ensure the schedule is on time, and that nothing falls behind, and keeps an eye on change orders. ▪ Subcommittee Chair Heiser stated that he was curious to know where staff arrived at the total of more than six million dollars for the new science buildings. o Mr. Kiesling explained that the size of the buildings will be different than originally projected and that some buildings will have restrooms added to them. o Mr. Kiesling stated that because they are new buildings, there

6.0 Review and Discuss Most Recent Prop H Financial Information (Continued)	isn't data to compare them to because the other projects were modernization. Staff will use cost estimates from the architect, construction manager, and if concerned will obtain an estimate from someone who has built a similar structure before in another district. ▪ Mr. Patterson explained that once the budget is established for the scope to be completed, it is not changed. ▪ The FACS report will be reviewed each month with changes highlighted for comparison. ▪ Mr. Patterson explained that data is extracted from their financial database and input into the FACS every two weeks.
7.0 Review and Discuss CBOC Consultant's Budget and Expenditures	▪ Subcommittee Chair Heiser presented a copy a bill from Colbi Technologies, Inc. with a listing of work completed by Larry Goshorn for the Subcommittee to review, which included the amount expended so far this fiscal year, and funds yet to be expended. ▪ Colbi Technologies charges by the hour at various rates, plus compensation for mileage. ▪ Mr. Kiesling explained that Mr. Goshorn's task is to assist the CBOC with anything they need done. The District provides this technical assistance, which was listed in the bond. The bill is submitted on a monthly basis and paid out of District funds. ▪ One of the largest amounts charged on the bill was for the Annual Report, including printing charges. ▪ Subcommittee Chair Heiser requested to view a copy of Mr. Goshorn's contract at the next Subcommittee meeting.
8.0 Discussion of Need for Indemnification or Insurance for CBOC Members for Errors and Omissions	▪ Subcommittee Chair Heiser explained that the issue of indemnification or insurance for CBOC members for errors and omissions was raised at the April CBOC meeting. He stated that his primary source of

8.0 Discussion of Need for Indemnification or Insurance for CBOC Members for Errors and Omissions (Continued)	information on this topic would the Grossmont Healthcare District Oversight Committee, which he also serves on, but that he hadn't yet received the information. ▪ Member Muse stated that because the CBOC is part of a public agency, members should be immune from any liability from individuals. ▪ Mr. Patterson explained that the San Diego Unified School District did not have insurance. ▪ Member Muse stated that he believed that if acting within the scope of duties as a CBOC member, the member would be immune from liability. He suggested that there may be protection for Governing Board members that could be extended to cover CBOC members. ▪ Mr. Patterson explained that the Board may be able to adopt an indemnification policy to cover CBOC members. ▪ Mr. Patterson stated that he asked the District Risk Manager, Jim Kroviak, to advise him on the subject, and that more information will be brought to the next Subcommittee meeting.
9.0 Other Business	▪ No discussion or actions.
10.0 Future Agenda Items	▪ Review FACS Report ▪ Discussion on Consultant's Contract and Budget ▪ Indemnification or Insurance ▪ August Subcommittee Meeting: Recap of Bond Sale
11.0 Adjournment	▪ The meeting was adjourned at 6:50 p.m.

Grossmont Union High School District

Audit & Finance Subcommittee

of the

Proposition H Citizens' Bond Oversight Committee

Tuesday, June 17, 2008

Grossmont Union High School District Office; Conference Room 2

6:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Heiser at 6:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Walter Heiser, Chuck Muse, Carol Nash
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Review and Discuss FACS Report	▪ Mr. Kiesling pointed out that the FACS report is included in each monthly status report. ▪ Mr. Dunbar explained that project managers and teams have revisited their original budgets and change orders, and have found small amounts in their budgets that may be surpluses. ▪ Mr. Kiesling stated that the majority of phase 2B projects will be completed by November. ▪ Mr. Dunbar stated that the majority of expenditures are on phase 2B projects. Other current changes in the FACS report data include adjustments in phase 1A and

5.0 Review and Discuss FACS Report (Continued)	2A, design in phase 3A, and progress with the EIR. ▪ Mr. Dunbar stated that expenditures will continue and then decrease slightly as project scopes are completing. He stated that the first set of phase 2B projects will finish and phase 3A will begin this fall. ▪ Mr. Patterson pointed out the program reserve, which is not allocated specifically to any projects. He stated that it will be monitored continually, and a 7% reserve may be established for the rest of the program. ▪ Mr. Patterson stated that the Governing Board may make a decision on July 10 regarding splitting the $65 million reserve into $45 million for modernization and $20 million for the new high school. He pointed out that if $45 million is allocated to modernization, designs would be taken back to architects to enlarge the scope. ▪ Mr. Kiesling pointed out that the next big project going to bid is for the eight science classroom buildings which will bid independently of each other. He stated that Valhalla High School, Mount Miguel High School, and Viking Center will be on their own schedules. ▪ Mr. Kiesling stated that if phase 3BR goes to plan, bidding will begin fall 2009. ▪ Mr. Patterson reviewed change orders with the Subcommittee and pointed out that those in phase 2B are higher than average due to owner requested change orders, which included demolishing walls down to the studs instead of patching in the modernized classrooms. ▪ Mr. Kiesling pointed out that the Construction Oversight Subcommittee reviews change order information on a regular basis. ▪ Mr. Patterson stated that the Governing Board, by resolution, delegated authority to District staff to approve change orders. He pointed out that change orders are brought before the Governing Board in advance when they are above 10% or $100,000 on an individual basis.

6.0 Review and Discuss CBOC Consultant Budget and Expenditures	▪ Mr. Goshorn handed out a copy of the Colbi Technologies, Inc. proposal that was sent in response to the RFP for a consultant. He stated that the proposal was incorporated into the contract. ▪ Tasks listed in the proposal included meeting support, assistance with the CBOC website, performance audits, assistance in drafting, producing, and distributing the annual report, and assigned special tasks. The contract was awarded for $69,000. ▪ Mr. Goshorn stated that the contract began in August 2007, and that it is currently under budget. He stated that this is predominantly because he had not conducted any performance audits, though the Construction Oversight Subcommittee requested that he review El Capitan High School, which will begin in July. ▪ Mr. Goshorn stated that his contract covers a 12-month period, with an option to extend each year. ▪ Subcommittee Chair Heiser pointed out that the cost of the CBOC consultant does not come from Proposition H funds. ▪ Mr. Kiesling recommended that unless the CBOC believes they will need more or less assistance from Mr. Goshorn, the contract remain the same. ▪ Subcommittee Chair Heiser pointed out that the CBOC only orders the services they need from Mr. Goshorn. ▪ Mr. Goshorn stated that his rates are valid for the first year, and that he proposed to hold the rates steady for another year. ▪ Subcommittee Chair Heiser pointed out that on the hourly rate schedule, different Colbi Technologies staff members are charged at different rates. Mr. Goshorn stated that clerical staff assisted with artwork for the CBOC website, and preparation and page layout for the annual report. ▪ Member Muse pointed out a markup on reimbursements. He stated that travel is reimbursable, and that he attempts to coordinate meetings with others in the area. ▪ Subcommittee Chair Heiser stated that the Subcommittee will report this information

6.0 Review and Discuss CBOC Consultant Budget and Expenditures (Continued)	to the CBOC and request their feedback as to whether more or less time will be required of Mr. Goshorn in the future. ▪ Mr. Patterson pointed out that staff would like for Mr. Goshorn's contract to be renewed at the July 10 Governing Board meeting. ▪ **Subcommittee Chair Heiser moved to recommend to the CBOC that the contract be renewed in similar terms as previous on an as-needed basis, with details to be worked out through negotiations, attention paid to the hourly rate, and that the District be advised on mark-up on reimbursements. Member Nash seconded. All in favor.**
7.0 Discussion of Indemnification or Insurance for CBOC Members for Errors or Omissions	▪ Mr. Patterson stated that the CBOC's duties are covered under District insurance in connection with being "a committee of a governing board." ▪ Mr. Patterson stated that this information would be presented to the CBOC at their June 25 meeting, and that he may bring the District Risk Manager to give further information.
8.0 Other Business	▪ No action or discussion.
9.0 Future Agenda Items	▪ Review and Discuss Recent Financial Information.
10.0 Adjournment	▪ The meeting was adjourned at 7:10 p.m.

Gold Plate - Oversight Agendas and Minutes

Please Note: Back-up Documentation and Attachments are Available at the Grossmont Union High School District Office (1100 Murray Drive, El Cajon, CA) in the Lobby or Upon Request or Can be Viewed at www.guhsd.net/board/

A. Governing Board (No Items)

B. Educational Services

1. Public Hearing on Resolution (2008-06) to Access Funds Under the Pupil Textbook and Instructional Materials Incentive Act

2. Adoption of Resolution (2008-06) to Access Funds Under the Pupil Textbook and Instructional Materials Incentive Act for the 2007-2008 School Year

C. Human Resources (No Items)

Minutes

B. Student Matters

Clerk Robert Shield reported that the Governing Board, in closed session, reviewed the findings of fact, the conclusion of law and any written objection to the same, which were presented by staff on student matters. The Governing Board then took action in public session to approve the recommendations. Separate action was taken on each item:

1. MSC (Shield/Urdahl) to approve the Stipulated/Suspended Expulsions in cases # 157 through 178. The motion passed 5/0.
2. MSC (Shield/Kelly) to approve the Suspended Expulsions in case # 33. The motion passed 5/0.
3. MSC (Shield/Hoy) to approve to Revoke Student Expulsions in cases # 55 through 61. The motion passed 5/0.
4. MSC (Shield/Schreiber) to approve to Lift Student Expulsions in cases # 62 through 69. The motion passed 5/0.

C. Approval of Agenda

MSC (Kelly/Hoy) to approve the July 12, 2007, agenda including the following corrections and deletions. The motion carried 5/0.

Corrections:

CORRECTIONS:

VI. D. – The minutes from the June 14, 2007, meeting have been corrected as follows: The action for item #VIII.C.5. is corrected to read: *Motion Withdrawn*

VIII.D.2. – Adoption of Resolution #2008-07 was incorrectly referenced under the "Plan" section and is corrected to read *Resolution #2008-07.*

DELETIONS:

IX.A.9. – Approval of West Hills High School's School Improvement Site Plan for School Year 2007-2008.

D. Approval of Minutes of the Regular Governing Board Meeting of June 14, 2007

MSC (Urdahl/Kelly) to approve the minutes of the June 14, 2007, Regular Governing Board meeting. The motion carried 5/0.

E. Approval of Minutes of the Special Governing Board Meeting of June 20, 2007

MSC (Hoy/Urdahl) to approve the minutes of the June 20, 2007, Special Governing Board meeting. The motion carried 5/0.

F. Approval of Minutes of the Special Governing Board Meeting of June 27, 2007

MSC (Schreiber/Kelly) to approve the minutes of the June 27, 2007, Special Governing Board meeting. The motion carried 5/0.

VII. INFORMATIONAL REPORTS / DISCUSSIONS

A. Student Board Representative Board Report – No Report

B. Special Reports

1. Report on School Site Safety

   Director Larry Pear presented a report on School Site Safety including the efforts of the District to secure additional funding to continue with the School Resource Officers program on campus.

2. Report on Transportation to Athletic Events

   Director Larry Pear and Director Craig Beaver presented a report on student transportation policies and procedures to athletic events.

3. Report From Bill Wells, Chairman of the Citizens' Bond Oversight Committee (CBOC)

   Chairman Bill Wells presented the monthly report and activities of the CBOC.

Minutes

4. Report on Student Attendance and Transfer Trends

Director Alan Grulich, presented a report on student attendance and transfer trends within the District and including feeder districts.

5. Report on Proposition H From Executive Director Facilities Management Bob Kiesling

Executive Director Bob Kiesling provided a Prop H update, including a proposed tracking format for the GUHSD Bond Advisory Commission recommendations presented to the Governing Board at the June 14, 2007, meeting.

6. Quarterly Report of District Legal Costs

Deputy Superintendent Scott Patterson presented the quarterly summary of legal costs incurred March 1, 2007 through May 31, 2007.

7. Report on Ratification of All Actions Taken Pursuant to Resolution (2006-78)

Deputy Superintendent Scott Patterson presented a report on ratification of all actions taken pursuant to Resolution 2006-07.

VIII. ACTION ITEMS / PUBLIC HEARINGS

A. Governing Board – No Items

B. Educational Services

1. Public Hearing on Resolution (2008-06) to Access Funds Under the Pupil Textbook and Instructional Materials Incentive Act

   President Schreiber called the public hearing to order and called speakers forward. Hearing no speakers, the hearing was closed.

2. MSC (Hoy/Shield) to adopt Resolution (2008-06) to Access Funds Under the Pupil Textbook and Instructional Materials Incentive Act for the 2007-2008 School Year. The motion passed 5/0.

C. Human Resources – No Items

D. Business Services

1. MSC (Hoy/Kelly) to approve the Monthly Budget Overview for the Period Ending May 31, 2007. The motion passed 5/0.

2. MSC (Kelly/Schreiber) to adopt Resolution (2008-07) Reauthorizing Delegation of Authority in Regard to Bidding and Management of Proposition H and Other Capital Improvement Projects. The motion passed 5/0.

IX. CONSOLIDATED AGENDA (ONE MOTION TO APPROVE ITEMS A. THROUGH C.)

MSC (Kelly/Hoy) to approve the Consolidated Motion (Consent Agenda). The motion passed 5/0.

A. Educational Services (Mike Lewis, Assistant Superintendent)

1. Ratification and Approval of Employment of Instructional Consultant(s) in Compliance With Government Code Section 53060; and Authorization for Superintendent or Designee to Execute Necessary Agreements
2. Approval of Representatives to the Grossmont Athletic Conference; and Authorization to Forward List to the California Interscholastic Federation (CIF); and Authorization for Superintendent or Designee to Execute Same

AWARDS/RECOGNITIONS/SPECIAL REPORTS OR PRESENTATIONS

1. Recognition of Curtis McKenzie, Granite Hills High School Teacher, For GUHSD Education Innovator For the Month of July
2. Recognition of Mike Leyva, Chaparral High School Teacher, For GUHSD Education Innovator For the Month of August
3. Recognition of Azita Mahmoudi, Grossmont High School Teacher, for GUHSD Education Innovator For the Month of September
4. Recognition of Steve Paz, Chaparral High School Resource Officer, California School Resource Officer of the Year
5. Recognition of Saundra Renee Steveson, LVN, Work Training Center, Classified Employee of the Year, San Diego County Office of Education

All comments from the public on agenda items are heard for a total of 30 minute and, if necessary, are continued at the conclusion of the business meeting. Whether members of the public wish to speak to an agenda item on non- agenda item, persons who wish to speak shall file a "Speaker Card" - a gold card for items on the agenda and blue card for nonagenda items.

V. COMMUNICATIONS FROM THE PUBLIC

A. Procedures for Receiving Comments From the Public on Topics that Fall Under the Subject Jurisdiction of the Governing Board

1. Board Agenda Topics: Opportunity for members of the public to address the Governing Board on any item described in this Notice (Government Code section 54954.3). An individual speaker may not exceed a total of three minutes on all items.

2. Topics NOT ON the Agenda: Persons wishing to address the Board on any item(s) NOT ON the agenda may do so at the end of the meeting under item XI, *Comments from the Public on Topics Not On the Agenda.*

VI. PROCEDURAL

A. Public Report of Action Taken (if any) in Closed Session in Accordance With Government Code 54957.1/54957.9

A. Student Board Representative Board Report

Student Board Representative Naomi Ocen-Odoge reported on end-of-year activities at the school sites and ASB sponsored events. Naomi reported that the Golden Apple Awards event had gone well this year, and that the ASB Executive Council has selected two new student Board representatives to be approved at the next Governing Board meeting.

B. Special Reports

1. Proposition H and Beyond

Superintendent Collins and Prop H Project Manager Katy Wright presented a report outlining the continued need to upgrade District facilities and the necessity to continue the long-term progress of

Prop H. In the Superintendents report, his recommendations included a proposal for a new bond under Proposition 39 for the November 2008 General Election.

2. Monthly Report by Jim Panknin, Chairman of Proposition H Citizens' Bond Oversight Committee (CBOC)

Jim Panknin, CBOC Chairperson, presented information regarding the CBOC committee. Mr. Panknin reported to the Board that the Taxpayer Association had corrected two errors in their report and that they had a favorable opinion of the Prop H oversight.

3. Quarterly report to the Governing Board of the District Legal Costs by Deputy Superintendent, Scott Patterson

Deputy Superintendent, Scott Patterson, presented a summary of legal costs for the quarterly period January 1, 2008, to March 31, 2008, as well as year-to-date from July 1, 2007, to March 31, 2008.

4. Report on Williams Settlement Visits to El Cajon Valley and Mount Miguel High Schools

Director of Curriculum Mary Beth Kastan reported that the SDCOE visited two schools regarding the Williams settlement and we received a positive review at both sites.

VIII. ACTION ITEMS / PUBLIC HEARINGS

A. Educational Services

1. MSC (Schreiber/Shield) to approve the Helix Charter High School Reauthorization (with the deletion of lines 507 through 516, on page 14). The motion passed unanimously.

2. MSC (Hoy/Schreiber) to approve to enter into a Memorandum of Understanding with Grossmont/Cuyamaca College District and the Grossmont Union High School District to established an Early College High School. The motion passed unanimously.

B. Business Services

1. MSC (Schreiber/Kelly) to approve the Monthly Budget Overview for the period ending March 31, 2008. The motion passed unanimously.

2. MSC (Schreiber/Hoy) to ratify all actions taken pursuant to Resolution (2007-75). The motion passed unanimously.

C. Human Resources

1. MSC (Schreiber/Urdahl) to adopt the resolution implementing certificated layoff (Terminating Services of Particular Certificated Employees), considering and acting upon adopting, the recommended decision of the Administrative Law Judge, and providing direction to issue notifications to employees whose services are terminated, pursuant to Education Code Sections 44949 and 44955. The motion passed unanimously.

IX. CONSOLIDATED AGENDA (ONE MOTION TO APPROVE ITEMS A. THROUGH C.)

MSC (Hoy/Schreiber) to approve the Consolidated Motion (Consent Agenda). Motion passed unanimously.

A. Educational Services (Mike Lewis, Assistant Superintendent)

1. Ratification and Approval of Employment of Instructional Consultant(s) in Compliance With Government Code Section 53060; and Authorization for Superintendent or Designee to Execute Same
2. Approval of Long-Distance Student Travel

Agenda

AWARDS/RECOGNITIONS/SPECIAL REPORTS OR PRESENTATIONS

1. Recognition of Chaparral High School Teacher, Angela Deamude, for Being Selected as the GUHSD Education Innovator For the Month of June
2. Recognition of the Granite Hills Varsity Softball Team, 2008 CIF-SDS Division I Champions
3. Recognition of the Grossmont Varsity Baseball Team, 2008 CIF-SDS Division II Champions
4. Recognition of the Santana Varsity Softball Team, 2008 CIF-SDS Division III Champions
5. Recognition of the Steele Canyon Varsity Boys' Track Team, 2008 CIF-SDS Division I Champions
6. Recognition of Outgoing CBOC Members Ron Pennock and Charles Muse
7. Recognition of Naomi Ocen-odge (Santana High School), Student Board Representative, and Hannah Escalante (Grossmont High School), Alternate Student Board Representative for the 2007-2008 School Year
8. Introduction of Carly Cody (Valhalla High School), as Student Representative to the Governing Board, and Kelsey Hjalmarson Grossmont High School), as Alternate Student Board Representative for the 2008-2009 School Year

V. COMMUNICATIONS FROM THE PUBLIC

All comments from the public on agenda items are heard for a total of 30 minutes, a maximum of 3 minutes per speaker and, if necessary, are continued at the conclusion of the business meeting. BB9323 Speaker Cards Whether the speaker is speaking to an agenda item or an item not on the agenda, the speaker shall file a speaker card (a gold card for items ON the agenda and a blue card for items NOT ON the agenda) indicating his or her name and the agenda time or subject he or she wishes to address and present it to the Board secretary prior to the approval of the agenda. If a member of the public wishes to speak to an item at the time the item comes up for action, please indicate that on the Speaker Card and you will be given an opportunity to speak prior to the action being taken.

A. Procedures for Receiving Comments From the Public on Topics that Fall Under the Subject Jurisdiction of the Governing Board

1. Board Agenda Topics: Opportunity for members of the public to address the Governing Board on any item described in this Notice (Government Code section 54954.3). An individual speaker may not exceed a total of three minutes on all items.
2. Topics NOT ON the Agenda: Persons wishing to address the Board on any item(s) NOT ON the agenda may do so at the end of the meeting under item XI, *Comments from the Public on Topics Not On the Agenda.*

VI. PROCEDURAL

A. Public Report of Action Taken (if any) in Closed Session in Accordance With Government Code 54957.1/54957.9

B. Student Matters Pursuant to Education Code Section 49073-49079 (Action)
1. Suspended Expulsions of Students in Case #19
2. Stipulated/Suspended Expulsions of Students in Cases # 151 Through # 164
3. Revoke Suspended Expulsions of Students in Cases # 30 Through # 38
4. Lift Student Expulsions in Cases # 30 Through # 45

C. Approval of Agenda

D. Approval of the Minutes of the Special Governing Board Meeting of May 15, 2008

E. Approval of the Minutes of the Special Governing Board Meeting of May 28, 2008

F. Approval of the Minutes of the Regular Governing Board Meeting of May 8, 2008

VII. INFORMATIONAL REPORTS / DISCUSSIONS

A. Student Board Representative Board Report

B. Special Reports

1. Monthly Report by Jim Panknin, Chairman of Proposition H Citizens' Bond Oversight Committee (CBOC)
2. Report to the Governing Board Regarding Prop H Status by Katy Wright, Program Manager
3. Report to the Governing Board on the District Facilities Master Plan Update
4. Report to the Governing Board Regarding District Demographic Study
5. Report to the Governing Board on Baseline Survey of Voters Regarding a Local School Bond Measure

B. Special Reports

1. Monthly Report by Jim Panknin, Chairman of Proposition H Citizens' Bond Oversight Committee (CBOC)

   Mr. Panknin, on behalf of the Proposition H Citizen's Bond Oversight Committee (CBOC) supports Superintendent Collin's recommendation on the allocation for the $65 million reserved by the Governing Board last year.

   The CBOC Steering & Planning Subcommittee reviewed the Superintendent's recommendation on May 19, 2008. The recommendation will allocate $45 million to be used for the modernization of additional classrooms; this work is expected to modernize 150 additional classrooms. The remaining $20 million will be allocated toward the new school.

   The CBOC reviewed the recommendation on May 28, 2008. The proposed allocation is consistent with the language and intent of Proposition H. The CBOC supports the recommendation and further recommends that the Board take action to implement as soon as possible to allow planning for Phase 3BR and the new school to proceed.

   Mr. Panknin also reported on corrections that had been made to the San Diego County Taxpayers Association published report entitled "Bond-Financed Facilities Projects and Independent Citizens' Oversight Committees in San Diego County" regarding GUHSD.

2. Report to the Governing Board Regarding Prop H Status by Katy Wright, Program Manager

3. Report to the Governing Board on the District Facilities Master Plan Update

   The District periodically updates the Facilities Master Plan to guide its efforts in upgrading and maintaining the district's facilities. This also serves as a basis for funding decisions including any follow-on general obligation bond measures after proposition H.

4. Report to the Governing Board Regarding District Demographic Study

   Representatives of Davis Demographics & Planning, Inc., provided a report on the Demographics Study authorized by the Governing Board at the February 21, 2008 meeting.

5. Report to the Governing Board on Baseline Survey of Voters Regarding a Local School Bond Measure

   Representatives of Tramutola LLC and True North Reasearch provided a report on the results of the Baseline Survey of Voters as a component of the Feasibility Analysis of a General Obligation Bond Measure to Improve District Facilities approved by the Governing Board at March 13, 2008 meeting. The study conclusion was positive for placing a bond measure in November 2008 ballot.

6. MSC (Hoy/Shield) to ratify the designation of Marcie Findley as the East County Action Network (ECAN) Representative and Nick Priest as the East County Construction Council (ECCC) to fill vacancies created by expired term of two (2) members of the Citizens' Bond Oversight Committee; Establish the First Term for Marcie Findley and Nick Priest as July 2008 through July 2010. The motion passed 4/0/1 (Member Kelly absent).

7. Report on School Resource Officers by Director Larry Pear

VIII. ACTION ITEMS / PUBLIC HEARINGS

A. Educational Services

1. MSC (Hoy/Schreiber) to ratify and approve Agreement (A-5413R2) With the City of El Cajon for the Use of School Resource Officers for the 2008-2009 School Year. The motion passed unanimously.

Citizens' Bond Oversight Committee

Summary of Meeting

July 26, 2006

1.0 Meeting Called to Order

The meeting was called to order by acting chair, Ron Pennock

2.0 Roll Call

Committee Members Present: Harold Hilliker, Chuck Muse, Ron Pennock, Jim Davis (via telephone)

Committee Members Absent: Walter Heiser (out of the country), Phil Jankola (ill), Bill Wells (emergency at work)

3.0 Approval of Minutes

Minutes from the June 28, 2006, meeting were approved.

4.0 Public Comment

Public comment was made in support of expanding the number of persons on the committee as well as staggering the terms of the members.

5.0 Chair Report:

Chairman, Ron Pennock, confirmed that meetings are established for the last Wednesday of each month at 5 p.m.; at a location to be determined location. Dates and locations were determined as follows:

August 30	Monte Vista
September 27	Santana High School
October 25	Grossmont High School
November 29	El Capitan High School
December	To be determined

6.0 Superintendent's Report

Superintendent Terry Ryan will continue to work with staff to improve CBOC's website. Superintendent Ryan also reported that a member of the CBOC was seriously ill.

7.0 Board of Ed. Update

7.1 Scott Patterson reported that six CBOC members were re-appointed at a special board meeting on June 29, 2006, as follows:

Name	Capacity	Term
Ron Pennock	Business Community	Two-year term through June 2008
Charles W. Muse	Senior Citizens	Two-year term through June 2008
William Wells-	Parent/Guardian	Two-year term through June 2008
Harold Hilliker-	Parent-teacher Org.	Two-year term through June 2008
James R. Davis-	Community-at-Large	Two-year term through Jun 2008
C. Phillip Jankola	Community-at-Large	Two-year term through Jun 2008

7.2 Bob Kiesling was appointed as the new Executive Director, Facilities Management, on July 13. Mr. Patterson reported that the District is very pleased to have his expertise and that we look forward to Mr. Kiesling joining the District on August 7. Mr. Patterson also commended Larry Johnson for the work he has accomplished in the interim; Mr. Johnson will remain on board for a one-week "cross-over" period to work with Bob.

7.3 An enrollment projections report was received by Grossmont's Governing Board. The consultant contracted by the District reports a general decline in enrollment throughout the District, specifically a 1.5 – 2% decline per year over a five year period. Most schools in California are also experiencing this decline. This report was presented to the Governing Board as an informational item

8.0 Prop H. Bond Requirements Matrix

Staff has been developing tools to manage and run the bond program. Those same tools will be presented to the CBOC to enhance understanding of the Prop H construction progress.

The **Prop H. Bond Requirements Matrix** contains the bond elements in summary form and the school sites at which the elements will be performed.

9.0 Facility Planners by Site

The Facility Planners function as project managers. This matrix shows at a glance who is responsible for which school and what projects are underway at that site. If a principal has a question about the status of a construction project, the principal will know to go directly to the Facility Planner.

10.0 Project Tracking Sheet

The intent of the Project Tracking Sheet is to outline all of the projects we intend to do for each fiscal year from its inception to the point where it is bid, awarded, and handed off to the construction manager.

€ **A project number** is assigned to each project as follows: **07** (06/07 fiscal year); the next two digits are the cost accounting number for the school

(99 indicates multiple-site projects; this number is followed by the sequence number. A letter "H" at the end of the number indicates that it is a Prop H project.

- € The **Bid Numbers** are assigned by the procurement department
- € **Project Manager** is either listed, or, in the case of multiple sites, a lead is assigned;
- € **AOR** (Architect of Record)—the company and lead is provided.
- € **Design Status**
- € **Construction Manager**
- € **Bid Date**
- € **Board Date**
- € **Prime Contractor**
- € **Construction Costs** indicates the projected range of the cost of construction, or, if awarded, the amount of award
- € **Start Date** (NTP) –Notice to Proceed

After a bid is awarded, it is shown in a white-on-black text box. A white background indicates it is in process and the Governing Board has approved the award; light grey indicates that it is in the bid and award process; and dark grey indicates it is in design.

11.0 Program and Expenditure Review Formats (preliminary) *We are developing a series of charts and graphs to assist us in our review of expenditures.*

Page 2 GUHSD Prop H Percentages—These bar charts reflect the actuals-to-date with the hard/soft costs delineated compared to the total program target with hard/soft costs delineated.

Page 3 Actual expenditures by type

Page 4 Removes construction costs and shows the actual expenditure distribution by type

Page 5 Multi-year plan; matrix will show what we are budgeted to do and will show next to it what has actually been expended. The overall plan will always equal $400 million

Page 6 Expenditures by location

Page 7 Removes COPS payoff and shows distribution of expenditures

Page 8 District expenditures by bond element—Includes COPS and the infrastructure utilities

Page 9 Expenditures by bond element, excluding COPS pay off.

12.0 School of Focus: El Capitan

Dena Johnson, Facility Planner for El Capitan High School, presented a booklet of information spotlighting a number of projects: The highlighted projects include indoor bleacher replacement, removal of deteriorated covered walkways, infrastructure (wet utilities, electrical) and general building construction.

Upcoming projects at El Capitan include the repair and renovation of deteriorated classrooms, upgrading fire alarms and heating and air conditioning systems, renovations of deteriorated restrooms, and plans to expand and upgrade science labs

13.0 Other Business
None

14.0 Adjournment
The meeting was adjourned at 7:00 p.m.

Citizens' Bond Oversight Committee

Summary of Meeting

August 30, 2006

1.0 Meeting Called to Order

The meeting was called to order by member Bill Wells. *(Due to the fact that Chairman Jim Davis appeared via telephone, and the excused absence of Vice-chair Pennock, the committee agreed that Member Wells would serve the role of meeting chair.)*

2.0 Roll Call

Committee Members Present: Harold Hilliker, Chuck Muse, Walter Heiser, Jim Davis (via telephone), and Bill Wells

Committee Members Absent: Ron Pennock (out of state)

3.0 Approval of Minutes

Minutes from the July 26, 2006, meeting were approved.

4.0 Public Comment

None

5.0 Chair Report

None

6.0 Superintendent's Report

- Dr. Ryan confirmed that it was the committee's decision that meetings continue on the schedule determined previously, i.e., the last Wednesday of each month.

- Dr. Ryan reported that the opening of school was highly successful. He praised staff for the work that was accomplished to achieve this. In speaking about Monte Vista, specifically, he noted that a large amount of ADA and electrical work is being accomplished and that the elevation of the campus presents a tremendous challenge.

- Mr. Wargo, principal of Monte Vista, was asked for his comments as to the opening of school. He complimented the contractors and the crew. He shared photos taken July 27 and was amazed at the progress. He feels the crew was easy to get along with and very cooperative and responsive. Mr. Wargo is quite happy with how school opened.

- Dr. Ryan reported that he has developed a plan to communicate with principals and other staff at sites as to architectural and construction plans. Facility Planners have been beneficial in facilitating communication between construction crews, architects, district staff and school site personnel. Dr. Ryan continues to work with staff on the development of an air conditioning plan; *sodding plan, athletic facilities plan, and a plan for unused cafeteria space.

  *In response to CBOC query about water use, Dr. Ryan reported that the district is exploring the possibility of utilizing ground water for irrigation purposes at sites where it may be feasible. He stated that we would continue to develop landscape designs that incorporate good practices in water conservation.

- Dr. Ryan presented a board member's request that the CBOC board amend their bylaws to set forth minimal attendance requirements. Members of the committee plan to discuss this prior to the governing board making an amendment to the bylaws.

7.0 Board of Education Report

7.1 Homestead Relocatables

Scott Patterson, Deputy Superintendent, Business Services, indicated that a status report was presented to the Board of Education on July 27, 2006, wherein it was discussed that the district will lose its lease for the land as of July 2007. The plan is to relocate the facility adjacent to West Hills. Other sites were considered, but West Hills was determined to be the most feasible. The board report was shared with CBOC. Highlights of the report include:

--Will be funded out of Developer fees and State Facility Funds.
Although this is a Prop H calls for the repair and renovation of the Homestead facility, we are able to fund it through other resources, thus preserving Prop H monies.

--Preliminary Site Planning has taken place and we are in the process of obtaining CEQA approvals. We expect occupancy to occur in August of 2007.

7.2 Balanced Budget Plan

As general information Mr. Patterson reported that, per State law, the Board of Education adopted its budget on June 15, 2006. Subsequently, the new state budget was adopted, and the District identified additional resources, enabling us to eliminate deficit spending. The deficit spending was initially projected due to a projected decrease in student enrollment.

7.3 CBOC Membership

On August 23, Mr. Patterson reported to the Board of Education that there are two vacancies on the Citizens' Bond Oversight Committee, both in the "Community-at-Large" category. The CBOC's bylaws provide for seven members, and after discussion, there was agreement on the need for staggered terms. The Board of Education voted to affect the following change to the bylaws:

4.01 ". . . provides for a term of one or two years without compensation and for no more than two consecutive years."

This allows for the appointment of new members to an initial one-year term, which will lend continuity to the board by staggering terms.

The Board of Education also granted authority for the selection process to begin: The District began to broadly advertise in newspapers, newsletters, and with other districts on August 24 with a closing date of September 15. The Board of Education will call a special board meeting on September 19 for the purpose of selecting members to fill the vacancies.

8.0 School Site Discretionary Funding Proposal

Bob Kiesling reported on a proposal which was set forth in a point paper he distributed. The intent of the proposal is to get discretionary money into the hands of site principals. Using a portion of state matching funds, (appx. *$3 million overall; distributed to the schools) principals would have the ability to make capital improvements; however, the principal's plan for spending the money would need the approval of the Facilities Department.

*This represents approximately .075% of $400 million, which is the approximate combined total of bond and state matching funds.

This proposal was reviewed by legal counsel to ensure that this is a legal use of state matching funds. The State provides matching funds on the basis of the total cost of the modernization or new-construction project.

Although some members of the committee were reluctant to take a formal position on this matter, a motion was put forth by Mr. Hilliker and seconded by Mr. Wells to forward a recommendation to the Board of Education that the CBOC is not opposed to the use of the money as set forth in the position paper.
The motion did not carry: 2/3

Following this vote, Chairman Davis asked that the meeting minutes reflect his belief that it is prudent to give some sort of money to the principals that would give them the flexibility to take care of some of the needs on their campuses. Mr. Davis' concern is that it detract from the Prop H. Program.

9.0 Prop H Tracking Sheet

The tracking sheet was distributed. Some discussion revolved around the installation of the video surveillance cameras. Chairman Jim Davis indicated that there is an organization called the National Law Enforcement Technology and Corrections Center, which has an office in San Diego. The District can request that they assist us in ensuring that what we are ordering is state of the art. Dr. Ryan indicated he will continue to work with Chief Diamond of the El Cajon Police Dept. to ensure that our equipment is congruent with that of the enforcement agencies.

10.0 Program Expenditure Review

Scott Patterson presented the updated information. He reiterated that these charts are a planning and reporting tool that district staff is using to create a roadmap for the expenditure of Prop H Funds. He highlighted a revision on page three in which the Program Management and Master Architect's fees has been reduced from 6% to 4%. Staff is dedicated to the idea of being as streamlined in the management portion as possible in order to get more money into construction.

11. School of Focus—Monte Vista. Large campus-

Construction Highlights include:

Replacement of indoor bleachers to meet ADA requirements—complete
Complete removal of a portion of the deteriorated covered walkways
Ongoing work in the infrastructure phase: Wet Utilities, Electrical and General Building
General construction is occurring, including the installation of "doghouses"
Installation of the video surveillance system
Ongoing modernization work

12. Other Business—

CBOC Member Question:

How was the original list of projects determined?

Answer:

Originally a Facilities Master Plan was developed. This plan included the categories "must do," "should do," and "would like to do." When the bond measure was developed, most of the "must does" were included as well as some of the "should-dos." We are now in the process of programming all the plans into the budget.

Since the development of the Facilities Master Plan, things continue to get older and we need to address the ADA lawsuit. Therefore, through the years the scope has increased. Priority #1 became electrical/safety issues, followed by replacing/repairing very old gas and water lines, and the development of increased capacity for greater electrical draw (technology and air conditioning systems).

13. **Adjournment**

The meeting was adjourned at 7:00 p.m. The next CBOC meeting is set for Wednesday, September 27 at 5 p.m. at Santana High School.

Agenda item for September:

--Election of Officers

--Discussion to determine the number members to constitute the CBOC, including a date-certain for this decision to be finalized

--Development of "Town Hall Meetings" at different schools to be increase transparency and address questions of the community/parents/staff and other interested parties.

Citizens' Bond Oversight Committee

Summary of Meeting

September 27, 2006

1.0 Meeting Called to Order

Meeting called to order by Vice-President, Ron Pennock, who served as chair for the initial part of the meeting.

2.0 Introduction of New Members

New members, Rick Winet and Daniel Bartholomew introduced themselves, as did the remaining members of the CBOC.

3.0 Roll Call

Committee Members Present:	Daniel Bartholomew, Walter Heiser, Harold Hilliker, Chuck Muse, Ron Pennock, and Rick Winet
Committee Members Absent:	Bill Wells (recovering from surgery)

4.0 Approval of Minutes

Minutes from the August 30, 2006, meeting were approved.

5.0 Public Comment

None

6.0 School of Focus: Santana

A handout on the continuing infrastructure projects at Santana was distributed. Highlights include the installation of electrical and wet utility upgrades as well as ADA-related improvements (totaling $6.5 million), installation of a video surveillance system, and replacement of roofs on the 600 building and pool house. A landscape and irrigation package will go to bid next week.

Highlights for future work include the repair and renovation of classrooms, restrooms, gymnasium, and cafeteria facilities, as well as the expansion of science labs.

A presentation was given regarding the installation of the video surveillance system. Larry Siminak, Network Specialist II, and Jack Blaylock, Director of Technical Services, were on hand to assist with the presentation and answer questions. Highlights of the presentation included:

- Plans call for the installation of 20 – 25 cameras per site. Exterior cameras will be mounted on rooftops or on 30-foot high poles. Interior cameras will be installed in the gym, finance office, and the front

administration offices throughout the district. (Use of indoor area cameras still subject to negotiation with employee bargaining groups.)

- Cameras will be installed and brought on-line in three phases. Projected costs for all three phases are $2.1 million. State matching funds provide the funding source for the surveillance system.
- Signs will be installed to indicate that video is being taken.
- The cameras will serve not only as an investigative tool, but as a deterrent.
- Site administrators, school resource officers, and MSFs will have access through their computers to view, playback, pan and tilt cameras. They will receive nine hours of training.
- Cameras can store up to 20 days of recording.
- The IT & S Department will maintain and administer the system. Data can be converted onto a CD or other storage device as needed.
- The District is in the process of confirming that the system is fully congruent with local law enforcement agency equipment.
- Member Ron Pennock reported that he has spoken with Rt. El Cajon Police Chief, Jim Davis, who indicated he would be happy to meet with staff to facilitate training.
- Member Muse expressed concern that there should be more video cameras located in the interior of the schools.

7.0 Election of Officers

Member Hilliker presented a slate nominating Bill Wells as President and Chuck Muse as Vice-president. No other nominations were presented, and Wells and Muse were unanimously elected to the offices of president and vice-president respectively.

In the absence of Bill Wells, Chuck Muse took over as chairman of the meeting.

8.0 Chair Report

None.

9.0 Superintendent's Report

9.1 Athletic Fields Analysis

Although not under the purview of the CBOC, Dr. Ryan presented information on the district's athletic fields, due to the high community interest in this area. Upon completion of the athletic fields analysis, renderings will be developed along with rough cost projections. These projects will be coordinated by our Facilities Management Dept. In conjunction with this effort, the district is in the process of identifying alumni for donations to school foundations.

9.2 Landscaping Restoration Plans

Landscape restoration is underway on the campuses at which infrastructure is occurring. As part of the overall design, lunch shelters are being constructed.

Dr. Ryan indicated that Member Pennock is in the process of obtaining title reports for all of our campuses to determine water rights. Upon receipt of the report, the District will then determine if there is enough underground flow to make irrigation feasible.

10. Board of Education Update

10.1 September 19—Appointment of Two New Members

Daniel Bartholomew and Rick Winet were selected to fill two vacancies on the CBOC at a Special Board of Education meeting on September 19, 2006. They will serve an initial one-year term.

10.2 Proposal for School Site Discretionary Funding

At the upcoming Board of Education meeting (Oct. 12), a proposal will be brought forward which will to identify school site funding for facility needs.

There are currently no monies for discretionary funding for facilities. This plan will enable schools to have some control over their own destiny, and can be used to supplement a Prop H project or to carry out a stand-alone project. Projects will need to be done to district standards with the guarantee that it will be fully-funded. A recommendation will be given to the board that one-half the funding be allocated via a fixed basis for each site and the other portion of funding on a $75.00/student basis. Mr. Patterson affirmed that, at September's CBOC meeting, the committee had reservations about supporting this measure because they did not feel they had jurisdiction over non Prop-H funds.

10.3 Final Third Week Enrollment

Please see corresponding handout. These figures form the basis by which teachers and other resources are allocated to our schools and are indicative as to how much money will be generated in ADA. Although the district anticipated a decline in enrollment from fiscal year 2005/06, we actually experienced an increase of 61 students. Dr. Ryan pointed out that this is due in part to a very aggressive Student Drop-out Recovery program as well the recruitment students to Mt. Miguel. The recruitment efforts have led to an increase of 200 students for Mt. Miguel, and the drop-out recovery efforts yielded an additional 300 students.

However, we can still expect a future decline. Member Winet cited a report that there is a 25% countywide decline in elementary school enrollment. Member Pennock expressed concern that if the demographics might not bear out the erecting of a new school.

12.0 Prop H Project Tracking Schedule

The Prop H Project Schedule currently includes some Non Prop H projects—The CBOC committee members want to ensure that the projects listed on the tracking

sheet are, in fact Prop H funded projects. Additionally, the committee has asked for a list of closed projects, open projects with cost estimates, expenditures, and projected completion dates.

13.0 Program Expenditure Review

The Program Expenditure Review Charts provide a snapshot of where we are in relation to the program plan budget. These charts include the expenditure of Prop H Funds as well as the State Matching Funds which are allocated to support Prop H projects (apprx. $400 Million). An additional chart has been included—page three "Expenditures by Month."

14.0 New Business

14.1 "Town Hall Meeting" Concept

This topic will be deferred to a future agenda when Bill Wells would be present to bring this concept to discussion.

14.2 Formation of Subcommittees

Several suggestions were made for subcommittees or ad hoc committees:

- *Annual Report Committee*
  The CBOC plans to prepare their annual in conjunction with the Prop H Financial Audit. The financial audit should be ready to present to the GUHSD Governing Board by January 2007.
- *Budget Presentations Committee*
- *Construction Committee*

14.3 Public Input at CBOC Meeting

The committee confirmed that public input could be accepted at any time during the meeting.

15.0 Other

A draft of the Construction Newsletter was distributed. The newsletter is the forum for the committee to communicate with the public.

16.0 Future Agendas

- Town Hall Meeting Concept (Chairman Bill Wells to bring forward)
- Committee discussion as to what information they want to receive in order to best understand information and perform oversight.

17.0 Adjournment

Acting Chair, Chuck Muse, adjourned the meeting at 8:10 p.m.

Prop H Citizens' Bond Oversight Committee

Summary of Meeting

October 25, 2006

1.0 Meeting Called to Order

Meeting called to order by President, Bill Wells, who served as chair for the meeting.

Mr. Wells reported that an incorrect meeting date was noted on the posted agenda. He made a motion to correct the date of the posted notice from September 27, 2006, to read "October 25, 2006." The motion was seconded and passed unanimously.

3.0 Roll Call

A quorum was represented as follows:

Committee Members Present: Daniel Bartholomew, Harold Hilliker, Chuck Muse, Ron Pennock, Rick Winet, and Bill Wells

Committee Members Absent: Walter Heiser (excused)

4.0 Approval of Minutes

Minutes from the September 27, 2006, meeting were approved with the following corrections:

Under item 7.0, Election of Officers, Member Pennock asked that the record reflect one abstention.

Under item 10.3 Final Third Week Enrollment, Member Bartholomow indicated that an incorrect percentage (25%) was recorded wherein it should have read:

Member Winet cited a report that there is a **15%** countywide decline in elementary school enrollment

5.0 Public Comment

5.1 Mrs. Holland, a parent of a West Hills student, spoke out against moving the Homestead program to the West Hills High School campus

In an effort to respond to Ms. Holland's concerns, the CBOC unanimously agreed to move up Agenda Item No. 12.2

12.2 Homestead

- Bill Wells reiterated that the repair and renovation of Homestead is included in the bond language and, therefore, it is under the CBOC's purview to ensure that the provisions of the ballot measure are met.

- Deputy Superintendent Scott Patterson stated that the current Homestead facility is so dilapidated that, in any case, the buildings would need to be replaced

- **Funding**: Scott Patterson reported that the District is able to utilize Developer Fee Funds to accomplish the Homestead renovations. Dev fees are earmarked for special projects—for the construction or reconstruction of school facilities, which are identified as the needs arise. By utilizing these funds, the District is able to preserve bond funds for other projects.

  Mr. Patterson further clarified that the CBOC has the responsibility of ensuring that items called out for in the ballot are accomplished, i.e., we owe the voters the **scope** of what is called for in Prop H. While there is the prohibition of using prop h monies for what is not on the ballot, there is, however, the ability to use other funds to accomplish the scope of work called for under the ballot measure.

- **Public Concern**: Supt. Ryan reported that a Community Outreach Forum has been scheduled for November 8, at West Hills High School.

5.0 Public Comment—Cont.

5.2 Ernie Ewin shared the following with the committee:

- He was very pleased to see the district Construction Newsletter
- He shared some literature regarding the role of an oversight committee and encouraged the committee to review Prop 39 language.
- He would like to ensure that as much construction jobs as possible remain local, that all invoices were paid within 30 days, and that subcontractors are paid in a timely manner.
- Lastly, he pointed out that there are three Prop 39 oversight committees in the east county, and he suggested that Grossmont's Prop H CBOC always label itself clearly.

5.3 Maury Landau stated his concern that that Grossmont's CBOC not become political. His comments generated discussion among board members.

5.0 Chair Report

None.

6.0 Superintendent's Report

- The *Prop H Construction News* letter was distributed. Dr. Ryan stated that it is electronically distributed on a monthly basis by way of internet posting as well as via direct e-mail to 25,000 east county homes. Printed copies are distributed as inserts in the Daily Californian on a quarterly basis. The costs of printing and distribution are paid out of general funds.

- *The Foothills Echoes*, the student-produced Grossmont High School newsletter was distributed. It contained an article giving the students' perspective on the interim housing.

- The Superintent shared that has been working closely with the architects to ensure that all the classrooms receive air condining.. To this end, a definition of "classroom" has to be made, i.e., does that include libraries, gyms, etc.? Dr. Ryan is directing principals to have this discussion with staff. After a determination is made as to what spaces will receive air-conditioning, a timeline and cost projection will be developed.

- Landscape restoration is underway.

- Dr. Ryan has invited principals to attend weekly construction committee meetings, so that their concerns can be addressed.

7.0 Prop H Financing Overview

Bruce Kerns of Stone & Youngberg. Handout disbursed. Estimate: $274 M over six separate bond issues; averaging just under $28.00 per $100,000 assessed valuation. Actual: accelerated issuance of bonds, i.e., four issues instead of six. This is to the district's benefit—lower interest rates that the ten year average. Also, the district's tax base is growing faster than what was used for analysis (increased property values). This yields more money available earlier for completion of projects. Taxes will be lessened over the course of the bond. In no case, however, would the tax rate increase above $30./100K.

We have accelerated the program by two years at this point. This is reviewed annually to see if the bond issuance rate needs to be accelerated.

8.0 Board of Education Update

8.1 *School Site Discretionary Dollars*

Per board action on October 12, 2006, $3.5 million has been allocated to sites. District staff is in the process of putting ground rules and procedures for utilizing these funds. The plan was positively received by both the governing board and school sites.

8.3 *Video Surveillance Camera Presentation*

A video surveillance camera presentation, similar to the one the CBOC saw at its September meeting, was presented to the governing board on October 12, 2006, by Bob Kiesling, Executive Director, Facilities Management.

9.0 Project Status Tracking Schedule

Mr. Kiesling reported that all non-Prop H projects have been removed from tracking schedule. However, please note that there will continue to be some projects that are called for under the Prop H ballot measure, but will be funded out of non-Prop H monies.

The CBOC can expect to receive a revised page two at its next meeting. This is due to the fact that budgets have now been will be developed will allow the architects to resume design work.

10.0 Program Expenditure Review

The report was distributed.

- On page two, note the addition of a cumulative expenditure line.
- One page three, note expenditures by month;
- A detailed report relating to the summary on page ten also provided. Member Winet believes that the detail is a good tool for the CBOC to review information.

Committee Member Question:

Is there phased construction timelines?

Answer:

Per Scott Patterson, we have preliminary phasing, and are in the process of attaching budgets to it. Staff plans to bring a phased timeline to the next CBOC meeting.

Committee Member Question:

How should committee members handle the fact that there may not be a 12th high school.

Answer:

Terry Ryan indicated that Scott Paterson and Bob Kiesling would work with the committee regarding this.

Scott Patterson went on to explain the formation of the Design Task Force at each high school. This is a site-based committee which will incorporate both community and staff members into the decision-making process.

Mr. Patterson proposed we add a "significant concerns" update with which to keep the CBOC apprised of potential problems.

11.0 School of Focus

Mat Gates reported the following progress at Grossmont High School:

- The installation of complete new wet utilities as well as increased conduit capabilities was completed over summer
- In preparation for modernization, a switch-over to new electrical services will take place this year
- New electrical service is also being installed for the Transportation yard, which is adjacent to the Grossmont campus. This service will also power interim housing. These temporary buildings will house 900 students during the modernization phase of construction.
- Modernization will occur in two phases, with the neediest classrooms being addressed first, followed by the more specialized classrooms.
- New bleachers have been ordered and should be installed by January.
- The "old gym" and its possible designation as a historical building continues to be discussed.

12.0 New Business

12.1 Liability Issues

- Mat Gates reported that Erickson-Hall is responsible for safety, as well as those with whom they contract. The construction management team requires all teams go through instructional trainings. Additionally, there are teams that review the sites from a safety perspective. These teams are particularly active when school is in session, and they are aggressive in eliminating any potential hazards

- Site facility managers (MSFs) and the District Risk Manager review each site on an ongoing basis.

- Scott Patterson also pointed out that the District is part of a joint risk pool (JPA) and that, in the event of an accident, the district would be responsible for first $50,000 and the pool covers the rest.

13.0 Other Business

13.1 Members of the committee agreed to meet in a central location, Grossmont District office. The committee will discuss holding a Saturday tour of the construction sites.

13.2 The committee agreed that, due to the winter break schedule, they would not hold a meeting in December, but would resume regular meetings on the last Wed. of each month at the district office beginning January 2007.

13.3 Chairman Bill Wells commented that he believes staff is doing a good job, but that "marketing" is not occurring. He asked the committee to begin developing ideas to communicate effectively and positively with the community.

14.0 Future Agenda Items

Mr. Wells asked that committee members send agenda items to him via e-mail no later than a week prior to the meeting.

15.0 Adjournment

Chairman Wells thanked the GUHSD staff for presenting such valuable information to the committee, and he adjourned the meeting at 7:10 p.m.

Next Meeting: Wednesday, November 27 2006, at 5:00 p.m., GUHSD Office

Citizens' Bond Oversight Committee

Summary of Meeting

November 29, 2006

1.0 Meeting Called to Order

The meeting was called to order at 5:10 p.m., by Chairman Bill Wells.

2.0 Roll Call

Committee Members Present: Daniel Bartholomew, Walter Heiser, Chuck Muse, Ron Pennock, Bill Wells and Rick Winet

Committee Members Absent: Harold Hilliker (excused)

3.0 Approval of Minutes

Minutes from the October 25, 2006, meeting were approved.

4.0 Public Comment

Dan Steinbock presented a speaker card; his comments were deferred to "New Business."

5.0 Chair Report

No report was provided.

6.0 Superintendent's Report

No report was provided.

7.0 Board of Education Update

A report was given to the GUHSD Board of Education on November 9, 2006, stating that a Public Community Forum took place on November 8 regarding the relocation of the Homestead campus to a site adjacent to the West Hills High School. Comments on both sides of the issue were presented, and significant resistance to proposed location was evident.

County Supervisor Dianne Jacob offered an extension of Homestead's current lease for another year—to July 2008. She also represented that the County of San Diego will work closely with the district to identify a permanent location for the Homestead/Frontier program.

The District will bring forth the lease extension to the GUHSD Board of Education for approval at its meeting on December 14.

CBOC Member Bartholomew questioned whether there was a loss of money associated with the aborted move. Mr. Patterson reported that we expect there will be some loss in the form of building design; however Mr. Kiesling is investigating the possibility of utilizing the designs when the move ultimately occurs. As has been previously reported, the Homestead relocation will be funded by Developer Fees.

8.0 Prop H Project Tracking Schedule

- Four projects indicate a "Notice of Completion" date. After the time has expired for submission of any liens, the jobs will be closed out.
- The projects listed on page two are expected to go out to bid in early spring, with construction anticipated in June. Designs are currently under review with DSA.
- Schedule now includes projects that are listed on the bond measure, regardless of how they are funded.
- Board Member Requests:
  --Member Heiser would like a "Percent Complete" column added as well as a
  --Member Wells would like a column to indicate whether each completed project is on track from a budgetary standpoint.

9.0 Program Expenditure Review

The Program Expenditure Review was distributed to committee members. Mr. Patterson directed the committee's attention to page two which denotes that expenditures are up to $22.8 M this fiscal year. Page three shows the monthly expenditures which add up to the $22.8 M.

The district is investigating the possibility of placing some of our bond proceeds in a GIC for 12 – 18 months because the County Treasury Pool is expected to have a lower rate. The GIC would be through the County Treasurer's Office, but outside of the investment pool. It would include a drawdown schedule, and would provide a higher interest yield than had the funds been left in the pool.

10.0 Old Business

10.1 **Report on Repair of Walkway Overhangs**

Mat Gates reported that we've begun re-roofing the walkways at Santana and are in the process of re-stuccoing some of the previously-repaired walkways on the El Capitan and Monte Vista High School campuses.

Member Pennock commended Mr. Gates for his efforts to ensure increased liability protection.

11.0 New Business

11.1 **Baseline Program Schedule,.**

Scott Patterson introduced Thom Clark of HMC, the District's Master Architect. Mr. Clark distributed a draft of the Baseline Program Schedule. The chart shows complete phasing.

- Phase 2B is the first phase of modernization.
- Phase 3A is the new construction phase, which includes science labs and restrooms (as needed).
- Phase 3 B picks up the remaining classroom modernization.

By February there will be 13 sites that will be in design. Following that period, bidding and construction will be staggered.

Mr. Clark also explained that the break in the schedule during the period of August – November 2006 was in order for the management team to develop a total program plan. Design work has resumed.

Member Requests:

- To have a preliminary schedule available on the District's website or other mass communication
- As more project schedules become solidified, have more detailed timelines available to the public on a site by site basis
- Create a link on the website for public questions or input

11.2 **Twelfth High School Status**

Key Considerations:

a) Need

The district population trend shows a 7.5 – 10% decline which holds true in the Blossom Valley/Alpine area.

b) Impact on Existing Schools

- It will take significant resources form the bond dollars to purchase land and construct a new high school. Specifically, that would force us not to complete new construction at existing schools.
- This construction program consists of Prop H and state matching dollars. In the new construction arena, the State requires enrollment numbers be updated annually until the project actually beings. Thus, if enrollment is declining, state funding is decreasing as well.
- Mr. Patterson stated that although construction of the twelfth high school is in the bond measure, in the face of changing facts, this should be reviewed.

Member Questions:

Question : What is the "break-even" point?

Answer: Mr. Patterson stated that we would need to see an upward trend coupled with a gain of 1,000 to 1,500 students.

Question: How does the construction of a new high school affect science labs?

Answer: Mr. Patterson pointed that there will be a significant impact to new construction at current high schools if we begin to work on the 12th HS. There are only so much new construction state eligibility dollars available, therefore placing the construction of science labs on current campuses in jeopardy.

Question: Could the District buy land, hold off on building a new high school, and still build science classrooms?

Answer: Mr. Patterson said he believed that was feasible but would require further review.

Member Requests

- Member Winet requests a copy of the demographics study; specifically, as it relates to the Alpine/Blossom Valley area.
- Member Bartholomew requested an analysis of district capacity.
- Member Pennock requested a legal basis (opinion) with which the committee can state that, due to a change in circumstances, the District shouldn't build a new high school.
- Member Pennock requested an estimate on cost of constructing a "small school."

c) Operations

- Opening the doors of a high school requires an investment in significant overhead—fixed costs, staff, lights, etc., which will come out of the revenue stream of the district. Districts receive funds based on the number of students served, not the number of schools.. Therefore, to operate a new high school with declining enrollment you have a lessened income stream and greater expenses.

Public Comment

- Don Steinbock, Science Chair from Monte Vista High School and Mike Holcomb, Science Chair from Grossmont High School, presented information to the CBOC.

Highlights of their presentation included:

--The District appears to be in support of increasing the graduation requirement for science to three years. Present facilities are not able to accommodate that direction.

--California Code of Regulations, Title 2, Section 1811(g)(2) requires that science laboratories provide 54 ft^2/pupil. Districtwide examples include: Grossmont--32 ft^2/pupil; Monte Vista--29 ft^2/pupil; and Granite Hills--25 ft^2/pupil.

--Limited space limits teacher collaboration, which studies prove increase student learning

--Safety issues need to be addressed, i.e., centralized storage of chemicals, installation of proper eyewash, shower, chemical hood, goggle cabinet, and student storage areas, as well as the safety issues created by the overcrowded environment.

Mr. Steinbock and Mr. Holcomb request that the CBOC keep science labs in mind as the decision on the twelfth high school approaches.

Mr. Steinbock and Mr. Holcomb were commended for their passion for teaching and their concern for students.

- Maury Landau spoke about the possibility of starting foundations and/or looking into the possibility of putting forth another bond to complete the work.

11.3 **CBOC Communication**
The Prop H Construction newsletter is published monthly, with an expanded version of it is published quarterly. Mr. Wells wrote an article for an upcoming edition outlining the CBOC's role.

11.4 **Headache Report**
The headache report was distributed. It included information on issues associated with various Prop H projects, including rising costs of materials and an increase in copper and brass thefts.

11.5 **Model Classroom**
By May 2007, a "model classroom" will be established which will provide a mock-up of how a classroom will look after modernization.

12.0 Other Business
None.

13.0 Future Agenda Items
- Bid Process
  --Equity to East County Builders
  --Process & Criterion
  --Notification, Analyzation, & Selection
- Formation of Subcommittees
- Financial Information Formats

14.0 Adjournment
Chair, Bill Wells, adjourned the meeting at 7:35 p.m.

Next Meeting: January 31, GUHSD District Office, Conference Room 2.

Citizens' Bond Oversight Committee

Summary of Meeting

January 31, 2007

1.0 Meeting Called to Order

The meeting was called to order at 5:05 p.m., by Chairman Bill Wells.

2.0 Roll Call

Committee Members Present: Daniel Bartholomew, Walter Heiser, Harold Hilliker, Chuck Muse, Ron Pennock, Bill Wells and Rick Winet

3.0 Approval of Minutes

Minutes from the November 29, 2006, meeting were approved.

4.0 Public Comment

- Mark Ferguson spoke in favor of building a 12th high school in Alpine. He contended that SANDAG projects a 50% growth by the year 2020.
- Burton Ewert, a resident of Alpine spoke in favor of building a 12th high school. He said that there is a large population of unhoused students.
- Barbara Lowe, resident of Alpine, asked where the CBOC receives the financial information. Ms. Lowe also concerned about the must do, should do, and want to do; she also did not see a timeline for any projects, (i.e., 12th high school) on the District's website.
- Todd Neilson, Alpine resident, is wondering what the CBOC's role is in ensuring that the "contract" is fulfilled.

5.0 Chair Report

Mr. Wells reported that the CBOC is to be expanded and that the Board of Education will approve the selection process at its February 8 board meeting.

6.0 Superintendent's Report

No report was provided.

7.0 Board of Education Update

- Mr. Patterson reported that on December 13, 2006, the Board of Education approved the extension of the lease for Homestead site. The County of San Diego

has extended the lease through July 2008 and has offered their assistance in locating a new site.

- On January 11, 2007, the Board voted to expand the CBOC. See handout delineating the categories and terms of the committee.

  Also at its January meeting, the board approved a slight increase in developer fees for both residential and commercial building: from 14 to 16 cents for commercial building and from 97 cents to one dollar for residential construction.

8.0 Prop H Project Tracking Schedule

- In response to a committee member's request, Mr. Kiesling added a "% complete" column and a key on the left corner, which indicates whether there are any problems (i.e., late completion for Transportation Power upgrade). Mr. Kiesling also reported that, in general, there is satisfaction with the contractors.
- We expect to have a "model classroom" constructed in April or May that the members of the will be able CBOC to view.

9.0 Program Expenditure Review

Mr. Patterson pointed out that we have spent approximately $30 million this fiscal year to date (December 31, 2006). Detailed backup by program element was distributed for committee review.

Member Heiser requested a breakout to indicate the portion of the construction detail that is for COPs payoff.

10.0 Old Business

10.1 **Sunk Cost of West Hills/Homestead Cancellation**

A total of $345,000 has been expended on the canceled West Hills/Homestead project. This amount includes utility permits, DSA submissions, architect fees, environmental consultation, building and electrical design. If we retain the portable as the method of construction, we could save an estimated $80,000 of the $345,000; therefore, the total cost for changing sites would be approximately $285,000. This expenditure is out of developer fees and represents no loss of Prop H money.

11.0 New Business

11.1 **Audits of Proposition H**

Scott Patterson reported that the independent auditing firm of Vavrinek, Trine & Day gave us a "clean" financial audit and that the performance audit indicated

that we were in compliance. There were no findings or recommendations made by the firm.

- **Action:**
  Moved (Hilliker)/Seconded (Bartholomew)/Passed (Unanimously) to accept the Financial and Performance Audit and forward it to the Board of Education.

11.2 **CBOC Annual Report**
Committee members will form a subcommittee and the complete annual report by next meeting (February 28).

11.3 **Outline of Feb. 3 Presentation to GUHSD Board of Education**
A Board of Education Workshop is scheduled for February 3, 2007, at Foothills Adult Center. The full-day session from 8:00 a.m. – 4:00 p.m. The first .three hours are devoted to strategic planning for the District's Educational Program. Beginning at 11:30 a.m., the discussion will focus on the 12th high school and related issues. An outline of that discussion was distributed.

11.4 **Local Contractor Statistics**

Bob Kiesling reported that 92% of Prop H Construction contracts have gone to firms located in San Diego County and that 56% have been awarded to East County firms. The remaining 8% of work has gone to firms located outside the county.

Mr. Keisling also reported that the district is actively outreaching to local contractors in the open bid process. Both he and Mat Gates of Erickson Hall plan to attend a local CMAA meeting scheduled for February, and they will present an outline of upcoming projects.

11.5 **Subcommittees**

- Discussion:
  --Member Pennock would like subcommittees to report back to the group in order to take more effective action.
  --Member Bartholomew suggested that this occur after the four new members are appointed.
  --Committee members suggested the formation of a Financial Subcommittee and Annual Report Subcommittee

- **Action:**
  --Moved/Seconded/Passed (Unanimously) to form an Annual Report Subcommittee consisting of Dan Bartholomew, Bill Wells, and Ron Pennock

12.0 Other Business
None.

13.0 Future Agenda Items
- Subcommittees
- Acceptance of annual report
- Report on board action re 12th high school

14.0 Adjournment
Chair, Bill Wells, adjourned the meeting at 7:00 p.m.

Next Meeting: February 28, 2007, GUHSD District Office, Conference Room 1

Citizens' Bond Oversight Committee

Summary of Meeting

February 28, 2007

1.0 Meeting Called to Order

The meeting was called to order at 5:15 p.m., by Chairman Bill Wells.

2.0 Roll Call

Committee Members Present: Daniel Bartholomew, Walter Heiser, Chuck Muse, Ron Pennock, Bill Wells and Rick Winet

Committee Members Absent: Harold Hilliker

3.0 Approval of Minutes

Minutes from the January 31, 2007, meeting were approved.

4.0 Public Comment

- Barbara Lowe raised concerns about the source of payment for vandalism repair, field upgrades at Steele Canyon, and why bleachers were be replaced at Mt. Miguel instead of upgraded.

- All other public comment was deferred to its corresponding agenda item.

5.0 Chair Report

At the request of Governing Board President, Priscilla Schreiber, CBOC Chairman, Bill Wells, asked the committee for instances in which they had asked for information from staff and what the response had been. The committee indicated that staff had been responsive to their requests. In addition, the CBOC determined that each month staff would send a copy of the CBOC agenda packet to Governing Board members in order to keep the board apprised of the progress of construction projects and oversight of funds.

6.0 Superintendent's Report

Superintendent Ryan reported that he is continuing to consider the proper blend of utilizing in-house employees and consultants in the management of Prop H. Dr. Ryan sees the advantage in having a Grossmont employee at the helm running the program. He pointed out that Bob Kiesling, Grossmont's Director of Facilities Management, in addition to being an engineer, comes to us with vast experience in construction projects. Furthermore, we are utilizing the construction firm of Erickson Hall in the role of construction manager, and architectural firm, HMC, is serving as our Master Architect.

7.0 Board of Education Update

- Mr. Patterson reported that on February 3, a half-day workshop for the Governing Board was held. The topic was the 12th High School and overall Prop H program planning.
- At its January 11, 2007, Governing Board meeting, the Board approved the process by which four new CBOC Community-at-Large members would be solicited, interviewed, and selected.
- The Bond Advisory Commission is meeting and gathering data regarding the 12th High School. District staff is supporting those requests for information and meetings.
- The RFP for the Third Party Review should be complete within the next few days. The District anticipates bringing the contract forward for Board approval on April 19, and expects the cost to be approximately $10,000.
- Additional Public Comment was heard at this time.

  Bill Weaver spoke as to why he believes the people of Alpine are seeking to have a high school built in their community. He sees the school being built in a spirit of partnership with the District. There was discussion between the CBOC, the public, and staff as to the history of the development of the long-range Master Plan, what the Alpine community believes it has been promised, and what it believes should be done for the safety of students throughout the district.

8.0 Prop H Project Tracking Schedule

- The Project Tracking Schedule was included in the agenda packets. Mr. Kiesling pointed out that a "NOC" (Notice of Completion) column has been added.
- The "Headache Report" was distributed.

9.0 Program Expenditure Review

The Program Expenditure Review and detailed backup by program element was distributed for committee review in their agenda packets. Mr. Patterson reported that the pace of expenditures will pick up substantially when summer work occurs.

Natalie Schuff, Bond Accountant, was commended for her fine work.

10.0 Old Business

10.1 CBOC Annual Report

The Annual Report subcommittee met and made recommendations on the report relating to responsibilities and objectives. It was moved, seconded, and approved unanimously that a special meeting be held on Monday, March 5, 2007, at 5:00 p.m., in Conference Room 2, during which time the annual report will be finalized.

11.0 New Business

11.1 **Audits of Proposition H**
Scott Patterson reported the need to approve a successor contract for Prop H External audits.

- **Action:**
  Moved (Muse)/Seconded (Heiser)/Passed (Unanimously) to recommend that a two-year contract with VTD & Co to prepare the Prop H Audits be submitted to the Governing Board for approval.

12.0 Other Business
None.

13.0 Future Agenda Items
- Developer Fees Overview

14.0 Adjournment
Chair, Bill Wells, adjourned the meeting at 7:30 p.m.

Next Meeting: March 28, 2007, GUHSD District Office, Conference Room 2

Citizens' Bond Oversight Committee

Summary of Meeting

March 28, 2007

1.0 Meeting Called to Order

The meeting was called to order by Chairman Bill Wells.

1.1 New members were introduced: Phil Marsh, a builder of school projects; Fred Lear, a long time resident who managed the El Cajon courthouse and oversaw the construction of its regional center; and Mendy Brant; an interior designer and past president of Foothills PTA.

2.0 Roll Call

Committee Members Present:	Daniel Bartholomew, Mendy Brant, Walter Heiser, Harold Hilliker, Fred Lear, Phil Marsh, Chuck Muse, Ron Pennock, Bill Wells and Rick Winet
Committee Members Absent:	James Panknin

3.0 Approval of Minutes

Minutes from the February 28, 2007, meeting were approved as corrected.

4.0 Public Comments

Bill Weaver relayed concerns on behalf of the Alpine Bond Advisory Commission.

5.0 Chair Report

5.1 Request for Monthly CBOC Reports to Governing Board

Bill Wells presented the CBOC annual report at the March 8 meeting of the Governing Board. The board requested that a CBOC representative give them an update on a monthly basis.

5.2 CBOC Support Services

The Governing Board is in support of the CBOC obtaining the services of a consultant to provide assistance in the areas of public communication/ website management and project review. This consultant would report directly to the CBOC. Specific services could include: preparation of the annual report, coordination of project review (scope, budget and accomplishment); public communications and website maintenance.

Member Heiser moved to adopt a request to the Governing Board to search for a consultant to provide support service to the CBOC; seconded by Harold Hiliker; passed unanimously.

Next steps: Form a selection committee; review resumes, make selection.

6.0 Superintendent's Report

6.1 Video Camera System Status

On behalf of Superintendent Ryan, Scott Patterson reported that Phases 2 and 3 of the districtwide video camera installations are complete. It was noted that after the cameras are installed, training needs to occur. Subsequent to that, a "follow-up phase" will take place to correct problems that have arisen over the course of the installation.

There are approximately 20 video cameras on each campus, and the feed goes to four people at each site, including the School Resource Officer (SRO). Data is stored for a week and can be viewed at the district office. School principals and staff report a high degree of satisfaction with the cameras.

The cost of video camera installation is approximately $175,000 per site and the cameras have a seven-to-ten year lifespan. This project was funded by a combination of state facilities funds, redevelopment funds, and other capital funding sources.

Member Heiser requested a legal opinion or citation regarding the appropriate use of state matching funds with respect to bond projects.

6.2 AR 3311 Revision—Advertised Bids

Guiselle Carreon, Purchasing Director, presented a brief overview of the revised Administrative Regulation 3311.

- The competitive bid amount is currently $69,000. This is the bid limit for goods or services, and we are bound to conduct competitive procurement above this dollar amount.
- The Public Works limit is $15,000.
- A change to the Protest by Bidders procedure; previously it was to occur within five days after award of bid; now is five days after bid opening. This will encourage the resolution of conflicts prior to award of contract.

7.0 Board of Education Update *(S. Patterson)*

7.1 Chairman Wells presented the CBOC Annual Report and Prop H Audits at the March 8 Governing Board Meeting.

7.2 On March 8 the Governing Board granted authorization to proceed with an EIR at three of the four sites under discussion for the 12th High School

7.3 Also on March 8, the Board approved the renewal of the Prop H external audit contact June 30, 2007 and 2008 not to exceed $7K per year.

The Governing Board approved the solicitation of proposals for a third party to conduct a performance review of Prop. A selection committee consisting of Mendy Brant, Larry Urdahl and Scott Patterson was formed to review the submitted package. One response to the RFP was received, and the committee will, therefore, meet to review the package, interview the responsive party and determine if that applicant is appropriate. If the party is deemed appropriate, the panel will then recommend that the Governing Board enter into an agreement with them.

8.0. Project Status Tracking Schedule

Bob Kiesling presented the Project Status Tracking Schedule, which was included in the packets

8.1 Headache Report

Mr. Kiesling noted that there was no change since the previous (last month's) headache report was presented.

9.0 Program Expenditure Review

- $35.4M has been expended through February 28 for fiscal year 2006/07
- The cumulative total of $104.0M was expended for all Prop H Projects as of February 28.
- $2.2 M was expended during the month of February. It is anticipated that monthly expenditures will remain stable for the remainder of this fiscal year, but will spike in the summer when construction on Phase 2B begins.

Member Question:	Mr. Heiser asked for a description as to why change orders occur.
Answer:	Mr. Kiesling indicated that change orders occur due to unforeseen conditions
Committee Request:	Create an aggregate change order chart for the program in order to examine trends.

10.0 Old Business

10.1 Subcommittees

Member Winet moved and Member Heiser seconded that we adopt the following subcommittees: Construction Oversight, Audits & Finance, Public Relations, and Steering & Planning. The motion passed unanimously.

Members volunteered to populate the subcommittees as follows:

Construction Oversight
Ron Pennock, Harold Hilliker and Phillip Marsh

Audit & Finance
Walter Heiser and Chuck Muse

Public Relations
James Panknin, Rick Winet and Dan Bartholomew

Steering & Planning
Mendy Brant, and Fred Lear and Bill Wells

11.0 New Business

The Developer Fees Overview was deferred to the April meeting.

12.0 Other Business

- **Form 700/Conflict of Interest**
  The District has reviewed the list of designated positions in the Conflict of Interest Codes and has determined that the members of the CBOC are considered "commission members" per California Code of Regulations, Title II and Title V.

  Each member was asked to complete a Form 700, Statement of Economic Interests. The original forms will be maintained in a confidential area of the district office and a copy will be forwarded to the Clerk of the Board of Supervisors

13.0 Future Agenda Items

- Review of legal opinions regarding COPs payments
- Use of State Facility Funds
- Role of members and protocol of meetings for the CBOC
  (Member Heiser suggested that the San Diego Taxpayer's Association could make a presentation to the committee)

14.0 Adjournment

Chairman Wells adjourned the meeting at 7:30 p.m.

Citizens' Bond Oversight Committee

Summary of Meeting

April 25, 2007

1.0 Meeting Called to Order

The meeting was called to order at 5:00 p.m., by Vice-president Chuck Muse, who served as the meeting chairman in the absence of Bill Wells. New member, Jim Panknin, introduced himself. He is a retired Marine pilot who currently serves as a board member for the Airport Authority as well as on the Santee Schools Foundation.

2.0 Roll Call

A quorum was represented as follows:

Committee Members Present:	Daniel Bartholomew, Mendy Brant, Walter Heiser, Harold Hilliker, Fred Lear, Phil Marsh, Chuck Muse, Jim Panknin, Ron Pennock, and Rick Winet
Committee Members Absent:	Bill Wells, excused

3.0 Approval of Minutes

Member Hilliker moved that the minutes be accepted as presented; member Brant seconded motion; passed unanimously.

4.0 Public Comment

No public comment.

5.0 Chair Report

No chair report.

6.0 Board of Education Update

6.1 GUHSD Bond Advisory Commission (BAC) Report & Recommendations

A status report was brought before the Governing Board on April 16. Recommendations by the Finance Subcommittee included funding additional program management services and website management. Staff has been asked to provide a response and recommendation to items two – five at the May 10 meeting.

Recommendation one is to place $65M in to a "sinking fund." The Board will consider this recommendation at the May 10 meeting also.

6.2 Support Services for CBOC

At its April 19 meeting the Governing Board gave approval for staff to solicit the services of a profession firm to support the CBOC

6.3 Agreement for Performance Review of the Prop H Program

AF Consulting was selected to conduct the Third-party Review of the Prop H Program. Their contract was approved by the board on April 19. It is anticipated that it will take 90 days for the firm to review materials, prepare the report, and present it to the Governing Board and CBOC.

6.4 Professional Website and Communications Consultant

The Board gave approval for the District to seek the services of a communication/website consultant.

Mr. Patterson also reported that Bill Wells gave the monthly CBOC update to the Governing Board at the April meeting. He shared documents and expenditure reports that had been distributed at the March CBOC meeting. Members of the CBOC suggested the development of an Executive Summary as a tool for the chairman to report information from the latest CBOC meeting.

7.0 Project Status Report

Bob Kiesling reported that, in accordance with the committee's request, Columns J and K have been added—Change Order-Cumulative and Change Order %, respectively.

Mr. Kiesling pointed out that two items had change orders above 10%. These were due to unforeseen circumstances.

7.1 Headache Report

The headache report was distributed. Of note was the theft of copper and metal. After having received significant media coverage, which led to increased awareness of this issue, a task force was appointed by law enforcement to investigate this.

8.0 Program Financial Reports

8.1 Program Expenditure Review

Natalie Schuff, Bond Accountant, reported that expenditures to date totaled $107.5 M and that expenditures for the month of March totaled $3.6 M. She pointed out that on page two of the expenditure report, a new bar has been added, which is the projected expenditures for fiscal year 2007-08.

Member Bartholomew indicated that he would like to see total plan vs. expenditure on a site-by-site basis on page 8 of the report. Staff responded that this information would be provided via the FACS system.

8.2 Detail of Expenditures

Detail was included in agenda packet. *(Available to the public via CBOC website as an agenda attachment.)*

8.3 Program Management Organization % of Total

Scott Patterson reported that the typical cost of managing a construction program is in the 6.8% range. The GUHSD team determined that, in an effort to funnel the maximum amount of dollars to actual construction, we would employ a 4% program management target. However, we have been running at 2.4% and, therefore, we can add more management support. Additional support will provide stronger controls and more formalized reporting, and we can expect that monthly program management reporting will become standard practice.

8.4 Change Order Rate

Exhibit 8.4 was included in the Agenda packet. *(Available to the public via CBOC website as an agenda attachment.)*

9.0 New Cost Controls System Reporting

The new Facilities Accounting Control System (FACS) reporting format was introduced to the committee. It contains the budget and expenditure by project. At present, it only contains current projects. Future and past projects will be input.

The cost of architect fees was questioned. Mr. Kiesling pointed out that drawings are made in advance in order to maximize district state matching money, and there seemed to be a conscious decision to do just that. In addition, architects are asked to do things apart from design work (i.e., investigations). Architects fees are typically 10% of construction costs.

10.0 Old Business

10.1 Developer Fees Overview

Agenda item deferred to a future meeting.

10.2 Legal Opinions

Member Heiser indicated that he accepted that the legal opinions supported the paying off of the COPs.

10.3 Subcommittee Meeting Schedule/Structure

Acting Chair, Chuck Muse, appointed the following Subcommittee Chairs:

Construction Oversight	Ron Pennock
Audit & Finance	Walter Heiser
Public Relations	Jim Panknin
Steering & Planning	Mendy Brant

Members of the public may be invited to attend subcommittee meetings, to add their expertise and provide input; however, they will not have voting privileges. Subcommittee meetings fall under the Brown Act and will be publicly noticed. They should take place at the District Office or on district property. Ad Hoc (temporary) committees are not subject to the rules of the Brown Act.

11.0 New Business

11.1 Role of the CBOC

After discussion the CBOC voted unanimously (*moved by Member Pennock; seconded by Member Hilliker*) to conduct a joint CBOC/GUHSD Governing Board meeting during which a representative from the San Diego Taxpayer's Association will be invited to present on Best Practices for an Independent Oversight Committee.

11.2 RFP and Selection Process for CBOC Consultant

The consultant, at the direction of the CBOC, will handle both project investigation and CBOC communication. Bob Kiesling will coordinate the RFP process. Bill Wells, Fred Lear, and Scott Patterson will comprise the selection committee.

11.3 SDCTPA Letter to Governing Board

The letter dated April 9 from the San Diego Taxpayer's Association along with Governing Board President Priscilla Schreiber's response dated April 13 was distributed to the committee.

11.4 State Matching Funds

Tom Cavanagh of School Advisors will attend the May 30, 2007, CBOC meeting to address the committee's questions and concerns.

12.0 Staff Report

- Model Classroom—One of the classrooms at Grossmont High School has been designated as a model of a modernized classroom. It will include new air-conditioning, windows, paint, cabinetry, flooring, etc. It is anticipated that it will be available for viewing in mid-May, and that the members of the CBOC and

Governing Board as well as school principals, will be able to view the room. The classroom will also serve as a "spec" for contractors.

It was also reported that approximately 50% of district classrooms will be modernized in this phase of construction; there may or may not be enough money to complete the remaining 50%.

- Bond elements by site/phase/and budget—see chart. Will bring this chart back to the next CBOC meeting.

- Facility Planner, Debbie Murray, gave a tour of the CBOC and Construction websites. The CBOC asked that a "comment" section be added to their site.

13.0 Future Agenda

- Tom Cavanagh of School Advisors will attend the May 30 CBOC meeting to address the committee's questions and concerns

- Role of the CBOC & joint CBOC/GUHSD Governing Board meeting with presentation by San Diego Tax Payer's Association

- Developer Fees Overview

Reminder to e-mail agenda items to Chairman Bill Wells; the deadline for submitting items for next month's meeting is May 21.

14.0 Adjournment

Meeting was adjourned at 7:05 p.m.

Citizens' Bond Oversight Committee
Summary of Meeting
May 30, 2007

1.0 Meeting Called to Order
The meeting was called to order at 5:05 p.m. by Chairman Bill Wells.

2.0 Roll Call
A quorum was represented as follows:

Committee Members Present: Mendy Brant, Walter Heiser, Phillip Marsh, Chuck Muse, James Panknin, and Bill Wells

Committee Members Absent: Daniel Bartholomew, Harold Hilliker, Fred Lear, Ron Pennock, and Rick Winet

3.0 Approval of Minutes
Chairman Wells moved that the minutes be accepted as presented.

4.0 Public Comments
--Items on Agenda
- None.

--Items not on Agenda
- GUHSD Board President Schreiber was thrilled about model classroom; however, she expressed some concerns about the Viking Center.

5.0 Chair Report
- Chairman Wells stated that the Bond Advisory Commission (BAC) will give their presentation at this point in the agenda. (7.0)

7.0 Presentation by Mark Price, Chairman of GUHSD Bond Advisory Commission

- Mr. Price shared the following with the committee:
  - The Bond Advisory Commission was formed in February 2007, and four subcommittees were created:
    - *Facilities/Curriculum*
    - *Finance*
      - Exhibit 6.0
    - *Repair/Renovation*
    - *Site Selection*
  - Mr. Price clarified that only recommendations 1-5 have been brought to the Board.
  - All committee reports should be posted on their website by Thursday, May 31, 2007. Mr. Kiesling stated that the website link is located under the link to the Prop H website. Mr. Price explained that each committee has its own page with related information.

- The final report will be given to the Board on June 14th at their regular meeting.

6.0 Governing Board Update

- Mr. Patterson requested that Mr. Tom Cavanaugh, who traveled from Ontario to attend, give his presentation on State Matching Funds (12.1)

12.1 State Matching Funds Overview

- Tom Cavanaugh – Firm of School Advisors – Helps districts maximize/optimize local funds to generate state matching funds.
  - Two pieces of the program:
    1. Modernization/Renovation- Buildings are age-qualified (25 years or older), as well as portables (20 years or older). There are some facilities that are 50 yrs + that would be approved for additional funding. There is a matching requirement to receive money which can be leveraged from any source the district has (bond money, developer fees, etc.).
    2. New Construction- Unlike Modernization, eligibility needs to be reestablished annually.
  - A percentage of the funding designated for a school has to be used at that site. The state requires the district demonstrate that the minimum amount of money was spent there, and the rest could be spent elsewhere.
  - There are two audits, one cursory and one in-depth, to ensure the money was spent per state guidelines.
  - If you want to tear something down instead of renovating it for cost reasons, you can apply for New Construction, but it has to create additional capacity at the site.
  - New Construction must create new capacity. Building new science labs adds to the capacity because it's adding open seats.
  - If the district chooses to build new classes instead of renovating, this could impact the matching funds available for the new high school.
  - For matching funds, 40% is needed for Modernization, and 50% is needed for New Construction.

6.1 Prop H Update

- Slides of the presentation given to the GUHSD Governing Board were included in the agenda packet (available to the public via CBOC website as an agenda attachment).
- We are waiting for Mount Miguel to become 50 years old before starting any projects at that site (increased funding).
- Phase 3A- Design phase will start soon, and the EIR process is underway for the New School.

- Approximately 25 classrooms per campus will be modernized in Phase 2B, and each campus has a different, specific number, which is roughly half of the classrooms per site. General classrooms (math, language, English, etc.) will be modernized first, and specialty classes (art, science, etc.) are done at a later date.
- The number of restrooms being renovated is associated with the buildings being renovated. The gym restrooms are being renovated as a part of the bleacher project, which is ADA required with a deadline.

6.2 Staff Response to GUHSD Bond Advisory Commission Recommendations 2-5

- Response was included in agenda packet as Exhibit 6.2 (available to the public via CBOC website as an agenda attachment).

6.3 GUHSD Bond Advisory Committee Recommendation #1

- See Exhibit 6.3 – The action that occurred after the recommendations from the committee. This will be supplemented with other actions after the 6/14/07 Board meeting.
  - This was an agenda item at the May 10th Board meeting.
  - Funding for the program manager comes from Prop H funds.
  - The recommendation to set aside $65M enables us to set aside future funding and begin near-term aspects of the program.

8.0 Project Status Tracking Schedule

- The Project Status Tracking Schedule was included in agenda packet as Exhibit 8.0 (available to the public via CBOC website as an agenda attachment).

8.1 Headache Report

- The leak at Helix originated in the basement of the 1400 building in the back. The drain for the outdoor pump was inadvertently tied into an old, capped storm drain system. For two years rain was being pumped into a "dead" line which created a sink hole. All damages stayed on the site.
- Copper theft has slowed down, but it still is an issue.

9.0 Program Financial Reports

9.1 Program Expenditure Review

- Natalie Schuff reported that $40.3M has been expended this year. The budget for next year is almost $70M. For future years, the dashed line shows the $65M reserve that will not be spent until after December 31, 2008.

9.2 Detail of Expenditures

- Detail of Expenditures was included in agenda packet as Exhibit 9.2 (available to the public via CBOC website as an agenda attachment).

9.3 FACs Report *(S. Patterson)*

- FACs Report was included in agenda packet as Exhibit 9.3 (available to the public via CBOC website as an agenda attachment).
- This tool will be used to manage and report the program, which will be useful for the Audit & Finance subcommittee.
- The budget on the presented report is generic, and will be modified after seeing the unique characteristics.

9.4 Program Management Organization % of Total

- The Program Management budget is running below target. The industry average is in the 6-8% range. If we meet the target, we'll be doing well with the overall cost of running the program.

9.5 Change Order Rate *(B. Kiesling)*

- This is being brought back to the Audit & Finance subcommittee with more details. 10% is maximum rate for state allowance.

10.0 Subcommittees

10.1 The Brown Act

- All subcommittees are subject to the Brown Act. Notice must be given before meetings.

10.2 Audits and Finance Subcommittee Report *(W. Heiser)*

- **Review and Disbursement of Financial Information**
  - Walter Heiser, Chairman of the Audit & Finance Subcommittee, will poll the members of the CBOC as to how much financial information they would like to receive.

- **Recommendation for Separate Performance Review of Architect, Engineering, and Design Fees**
  - Member Heiser moved to have a separate performance review for of architect, engineering, and design fees. Member Brant seconded. Motion passed unanimously.

- **Addition of Third Member to Subcommittee**
  - Member Heiser announced that Member Panknin has volunteered to be part of the subcommittee. Chairman Wells appointed Member Panknin to the Audit & Finance subcommittee.

10.3 Construction Oversight Subcommittee Report

- No meeting was held.

10.4 Public Relations Subcommittee Report *(J. Panknin)*

- **Press Release**
  - Meetings are the first Thursday of the month at 6:00 p.m.
  - Perhaps meet with Catherine Martin (District PR person) after meetings with significant matters.
- **Editorial**
  - The P.R. subcommittee would like to continue forward with an editorial, but later this summer once there is a consultant on board, and after meeting with the Taxpayers Association.
- **Committee Report**
  - The P.R. subcommittee plans to prepare next year's Annual Report. At their last meeting they reviewed samples of different reports. At a future meeting they will be working on the format.

10.5 Steering & Planning Subcommittee Report *(M. Brant)*

- Members Brant & Lear and Chairman Wells walked every site in the district a few weeks ago. The subcommittee is currently researching ways for their meetings to be effective. Once Member Lear returns in June, the subcommittee will meet and get some groundwork done based on the Bond Advisory Commission's Repair/Renovation committee report.

11.0 Old Business

11.1 Joint CBOC/GUHSD Governing Board Meeting – June 27, 2007 *San Diego Taxpayers Association Presentation of Best Practices for an Independent Oversight Committee*

- Presentation at 6:00 p.m.

11.2 Developer Fee Review

- Chairman Wells deferred this topic until July's meeting.

11.3 Status Report on RFP for CBOC Consultant *(B. Kiesling)*

- The RFP closes on June 18, 2007, and the selection committee will meet that week. Two CBOC members will be appointed to the selection committee, and the date and time will be established soon. The selection will be submitted to the GUHSD Governing Board at the next meeting and they will start after that.

12.0 New Business

- None.

13.0 Staff Report

- **Third Party Review Status Report** ***(B. Kiesling)***

  AF Consultants plans to review two random past projects in detail, to determine if anything needs future investigation. The review, currently in its second week, should take 90 days.

14.0 Other Business

- None

15.0 Future Agenda Items

- Chairman Wells asked that Members email him with future agenda items.

16.0 Adjournment

Meeting was adjourned at 7:40 p.m.

Citizens' Bond Oversight Committee
Summary of Meeting
June 27, 2007

1.0 Meeting Called to Order
The meeting was called to order at 5:17pm by Chairman Bill Wells.

2.0 Roll Call
A quorum was represented as follows:

Committee Members Present: Mendy Brant, Harold Hilliker, Fred Lear, Chuck Muse, and Bill Wells. Phillip Marsh arrived at 5:25pm.

Committee Members Absent: Daniel Bartholomew, Walter Heiser, Jim Panknin, Ron Pennock, Rick Winet

3.0 Approval of Minutes
Chairman Wells moved that the minutes be accepted as corrected. Passed. Members Hilliker and Lear abstained.

4.0 Public Comments
--Items on Agenda
- None

--Items not on Agenda
- None

5.0 Chair Report
None.

6.0 Governing Board Update
Mr. Kiesling introduced Harvey Goodfriend and Lani Lutar from the San Diego Taxpayers' Association, who would be giving a presentation at the joint meeting with the GUHSD Governing Board.

6.1 GUHSD BAC Final Report (June 14)
The board accepted the recommendations as a completed project. The BAC recommended the CBOC take over the implementation of the recommendations.

6.2 2007-2008 District Budget Adoption – Roving Custodial Crew (June 14)
- The budget was presented to the Board and approved, and included the Roving Custodial Crew. This is a long-term maintenance plan intended to keep the facilities up to standard once construction is completed. This crew will have higher-level equipment to maintain facilities.

7.0 Project Status Tracking Schedule

The Project Status Tracking Schedule was included in the agenda packet as Exhibit 7.0 (available to the public via CBOC website as an agenda attachment).

7.1 Headache Report

- Helix High School - repairs on the leak are underway.
- Copper theft has slowed down.

8.0 Program Financial Reports

$4M was pulled out of this month's graph, which were site discretionary funds.

8.1 Program Expenditure Review

- June 30 is the end of the Fiscal Year, and expenditures will be close to $110M. Next year almost $70M will be expected for expenditures.
- The Program Expenditure Review was included in the agenda packet as Exhibit 8.1 (available to the public via CBOC website as an agenda attachment).

8.2 Detail of Expenditures

- The Detail of Expenditures was included in the agenda packet as Exhibit 8.2 (available to the public via CBOC website as an agenda attachment).

8.3 FACs Report

- The FACs Report was included in the agenda packet as Exhibit 8.3 (available to the public via CBOC website as an agenda attachment).
- District staff members are currently working on updating the FACs system to track bond expenditures.
- Member Lear asked why we are paying for the EIR process if someone else is selling it to us. He wondered if the seller should be paying.
    - Mr. Kiesling explained that since we are the ultimate user of that site, we have to design the EIR to accommodate our potential use.
    - Some land owners want to sell and others do not. Since the district has the power of Eminent Domain, if a package is put together that works for a school site, then the district can use that power.
    - Land bought via Eminent Domain has advantages for the seller.
- Member Marsh asked if there is a way to select a favorite site before starting the EIR process, so the process can be completed as necessary.
    - Mr. Kiesling stated that there is not an official favorite.

8.4 Program Management Organization % of Total

- The target was set at 4% of the total program; the blue line shows that it is at 2.5%.
- Chairman Wells suggested that at the next meeting the committee discuss the future CBOC Consultant's involvement with the budget.

8.5 Change Order Rate

- This has a10% maximum. Last month's handout showed a total of 4.5% for this fiscal year. The total program to date is a cumulative of 5.27%.

9.0 Subcommittees

9.1 Audits and Finance Subcommittee Report

- No Report.

9.2 Construction Oversight Subcommittee Report

- No Report.

9.3 Public Relations Subcommittee Report

- No subcommittee members were present.
- The subcommittee had their meeting on June 7th, where they discussed the following:
  - Annual Report- Will be created after the Consultant is hired.
  - Executive Summaries- To be drafted after each CBOC meeting, specifically for the purpose of aiding Chairman Wells with his report at Board meetings.
  - Press Releases- There is a need to develop a system for these, which will be worked on in conjunction with the Consultant.
- Enclosed a report on declining enrollments from the San Diego County Office of Education, which will be useful for future discussions.

9.4 Steering & Planning Subcommittee Report

- Main points that were discussed-
  - Creation of a Mission Statement with CBOC input.
  - Discussing a definition of the role of the CBOC – how involved should the CBOC be with giving recommendations to the Board? What does the Board see as their role? They will have a better understanding of this after receiving input from the Taxpayer's Association presentation at the joint meeting with the GUHSD Governing Board.
  - Define this role in light of the Bond Advisory Commission (BAC) recommendations.
  - Improvements that can be made to the CBOC based on the Taxpayers' Association presentation.
  - Attendance policy for CBOC created to ensure there is always a quorum present.

10.0 Old Business

- None

11.0 New Business

- On July 11, Chairman Wells, Member Lear, and district staff will meet with and interview four firms in order to hire the new Consultant.

12.0 Staff Report

--Third Party Review Status Report

- The selection process will be brought to the next CBOC meeting to be approved.

13.0 Other Business

- The Committee should think about how much should be recommended to the Board by the CBOC.
- It is the Governing Board's decision whether to build the high school or not.

14.0 Future Agenda Items

- Chairman Wells asked that any future agenda items be emailed to him.
- The BAC Final Report will be discussed at the next few meetings.

15.0 CBOC/GUHSD Governing Board Joint Meeting – San Diego Taxpayers Association Presentation of Best Practices for an Independent Oversight Committee

- To begin after adjournment of CBOC meeting.

16.0 Adjournment

Meeting was adjourned at 6:00 p.m.

G.P. - Oversight Agendas and Minutes

Public Relations Sub-Committee

2006-07

Citizens' Bond Oversight Committee

Public Relations Subcommittee

Summary of Meeting

May 3, 2007

1.0 Meeting Called to Order

The meeting was called to order at 6:00 p.m., by subcommittee chair Jim Panknin.

2.0 Roll Call

A quorum was represented as follows:

Subcommittee Members Present: Daniel Bartholomew, Jim Panknin, Rick Winet
Subcommittee Members Absent: None

3.0 Public Comment

No public comment.

4.0 Chair Report

No chair report.

5.0 New Business

5.1. **Member Introductions**

- Jim Panknin is a pilot who performed community relations for Miramar while serving in the U.S. Marines. He is currently on the San Diego Airport Authority. He has a daughter attending Santana High School.
- Dan Bartholomew has experience in corporate communications and strategic planning.
- Rick Winet works for KUSI and has 25 years experience in television. He has three children who currently attend Murdock Elementary, Grossmont High School, and SDSU. Rick also serves on the La Mesa/Spring Valley School Board.

5.2 **Roundtable Discussion of Public Relations Strategies**

- Public Disclosure--Provide detailed information on the website; subcommittee to check the website regularly for content. Jim believes the GUHSD-CBOC website is currently on par with some of the better ones.

- Request a "stop light report" that clearly shows the status of each project.
- Press release after each regular CBOC meeting.
- Parent-link phone calls to all parent's homes when appropriate
- Disbursement of "Modernization newsletter"; obtain back issues of Prop H Newsletters from Tracy McDonald.
- Develop plan to speak at city council meetings in order to share the news of modernization - progress of the community schools. Create schedule of meetings/speakers.
- Request that Catherine Martin, District Public Relations Officer, attend the subcommittee meetings. Work with Ms. Martin to utilize local newspapers and feature the schools within the readership area.
- Plan to begin writing letters to the editor of the San Diego Union-Tribune.
- Become part of the monthly board reporting process, either through direct contribution of materials or by attending (physical presence).

5.3 **Annual Report**

It will be the responsibility of the committee to prepare the annual report. Mr. Panknin suggested the release of the report be made an event that will occur annually on one of the high school campuses.

Samples of annual reports from a variety of school districts were reviewed (Grossmont Cuyamaca Community College, San Diego Unified, Oakdale School District; Orange County School District). Mr. Panknin will e-mail these examples to subcommittee members. Members asked to review and make recommendations as to what essential elements should be included in an annual review (timeline; report card; bios w/terms, etc.).

6.0 Other Business

None.

7.0 Future Agenda Items

- Subcommittee meetings to occur on the first Thursday of the month on a regular basis.
- Annual Report—Brainstorm content; develop format.
- Formalize the press release process; request Catherine Martin attend. Seek CBOC approval for press release, editorial piece, and report on ideas.
- Items for June CBOC Meeting:

Report of Subcommittee
Press Release
Editorial
Committee Report

Include a copy of the final annual report as a handout in conjunction with the subcommittee's board item.

8.0 Adjournment

The meeting was adjourned at 7:15 p.m.

Citizens' Bond Oversight Committee

Public Relations Subcommittee

Summary of Meeting

June 7, 2007

1.0 Meeting Called to Order

The meeting was called to order at 6:00 p.m. by Subcommittee Chair Jim Panknin.

2.0 Roll Call

A quorum was represented as follows:

Committee Members Present: Jim Panknin, Daniel Bartholomew, Rick Winet

Committee Members Absent: None

3.0 Public Comments

- Items on Agenda- None.
- Items not on Agenda- None.

4.0 Chair Report

- Update of last meeting's topics: Press Release, Editorial, Annual Report.
  - Press Release- Chairman Wells stated at the CBOC meeting that this will be postponed until there is a mechanism in place.
  - Editorial- The editorial will be prepared after the CBOC Consultant is hired.
  - Annual Report- The consultant will be doing this with the subcommittee's input.
- The consultant will be hired and approved at the July 14 Board meeting. The Consultant will attend the CBOC meeting at the end of July.
- Subcommittee Chair Panknin proposed to cancel the July meeting because it is close to a holiday and the consultant will not have been hired yet.

5.0 Other Business

5.1 Review of Annual Reports

- The subcommittee brainstormed various methods of visually showing progress of projects and methods to compile an annual report.
- Exhibit 5.1 was provided at the meeting for members to review, and can be found on the CBOC website in Agenda Attachments.
- Mr. Kiesling suggested that the PR subcommittee compile a summary or outline of key topics for Chairman Wells to use as a guide for his monthly GUHSD Governing Board Meeting presentation.

- This would begin in September after the consultant has been hired and the PR subcommittee has their next meeting.
- A structured report format would provide consistent reports to the Governing Board, would be created at the end of a calendar month and compiled with updates from all subcommittees as well as information from CBOC meetings.

6.0 Future Agenda Items

- Press Release Mechanism
- Annual Report timeline
- Website Improvements for the consultant to oversee
- Executive Summary (based on what the committee decides)

Next Meeting: Thursday, August 2, 2007, at 6:00 p.m.

7.0 Adjournment

The meeting was adjourned at 6:30 p.m.

Steering and Planning Sub-Committee

2006-07

Citizens' Bond Oversight Committee

Steering & Planning Subcommittee

Summary of Meeting

June 27, 2007

1.0 Meeting Called to Order

The meeting was called to order at 4:07 pm by subcommittee chair Mendy Brant.

2.0 Introductions

None.

2.1 Appoint a Secretary

None.

3.0 Mission – What do we want to accomplish?

- The Subcommittee reviewed information given to Subcommittee Chair Brant by Dorothy Leonard, which contained information from San Diego Unified.
- The discussion of this information provided the following suggestions/key points:
  - The role of the CBOC must be defined before much can be decided. How much input should the CBOC give to the Governing Board? This will be brought to the CBOC and the Governing Board for their suggestions and comments.
  - Mr. Kiesling believed the Taxpayers' Association would want the CBOC to be active participants in the decision-making process.
  - Member Wells believed the subcommittees should break apart the Bond Advisory Commission (BAC) Final Report and look at the information and recommendations given. The statistics may be skewed.
  - The CBOC should be viewed as an independent entity.
  - Member Wells suggested that the subcommittee should wait until after the presentation from the Taxpayers' Association before they make their decision on the role of the CBOC. This decision should be made, though, before school starts in fall.
  - The number one priority for this subcommittee should be to create a plan of action and a Mission Statement. The Mission Statement can be created in conjunction with the new Consultant.
  - Four firms will be interviewed as candidates for the CBOC Consultant on July 11th at 8:00 a.m. The final choice will be brought before the CBOC and the Governing Board at their July meetings, and they will begin working by August.
  - The Consultant will provide non-emotional, independent analysis.
  - Subcommittee Chair Brant suggested that the district could realign the school boundaries for El Capitan High School as a possible solution to building a new high school in Alpine.
- Mr. Patterson had a list of five possible goals for the subcommittee:
  - Establish and define the role of the CBOC.
  - Define this role in relation to the recommendations from the BAC.

- Determine what improvements are necessary to comply with the Taxpayers' Association recommendations
- Establish an attendance policy – the CBOC can supplement the bylaws.

4.0 Responsibilities

GROSSMONT UNION HIGH SCHOOL DISTRICT

Business Services Division

Special Governing Board Meeting: **August 23, 2006**

Topic:

Proposition H Citizen's Bond Oversight Committee (CBOC) Membership:

a. Current Open Positions
b. Committee Size
c. Staggering of Membership Terms
d. Selection Process

Issue:

a. Currently the committee is comprised of seven member positions. Two positions are now vacant due to the recent unfortunate passing of Mr. Philip Jankola and the resignation of Mr. James Davis effective at the end of September 2006. Both of those members served as "Community-At-Large."

b. The Bylaws of the CBOC provide for ". . . at least seven (7) members who shall be appointed by the Board . . . ." Recent discussions at both the board and committee levels have posed the question about expansion of the committee size to gain additional expertise and flexibility in the oversight function.

c. The Bylaws of the CBOC also state that members shall be appointed " . . . to serve for a term of two years without compensation and for no more than two consecutive terms. . . ." Absent resignations or other withdrawals by members, this bylaw can create the effect of turning over the entire membership at once, thereby preventing a smooth, continuous, and orderly operation of the committee.

d. A selection process for committee membership should be confirmed.

Plan:

The Board of Education will deliberate and provide direction to staff to implement all required actions regarding committee membership count, staggering of terms, and filling of vacancies.

Membership Count

The committee membership count may be established at any number of seven or greater without a change to the Bylaws.

Terms

Terms may be staggered with a slight change to the Bylaws implemented to conform as new members are appointed or as existing members are appointed to permissible additional consecutive terms.

Current language:

"4.01 The Committee shall consist of at least seven (7) members who shall be appointed by the Board to serve a term of two years without compensation and for no more than two consecutive terms."

Suggested language:

"4.01 The Committee shall consist of at least seven (7) members who shall be appointed by the Board to serve terms of one or two years without compensation and for no more than two consecutive terms."

Selection Process for Filling of Vacancies

Staff can facilitate a process that provides for a well-advertised and thorough request for qualified applicants to ensure the most effective oversight function. This will involve a call for applications through advertisement in publications of general circulation for a period of no less than two (2) weeks; a paper screening process as necessary to determine the most qualified applicants, and a final interview and selection by the Board of Education.

The Bylaws require that members of the Committee shall include at least:

1. One member who is active in a business organization representing the business community within the District.
2. One member who is active in a senior citizen's organization
3. One member who is active in a bona fide taxpayer organization
4. One member who is a parent or guardian of a child enrolled in the District
5. One member who is both the parent and guardian of a child enrolled in the District and who is active in a parent-teacher organization, such as the PTA or a schoolsite council.

More than one member may be appointed for each category. In addition, members may be appointed outside of these categories and have been referred to as "Community at Large" members.

Fiscal Impact:
None. All CBOC members serve on a voluntary basis without compensation.

Recommended Action:
1. The Board of Education establish the number of member positions that will comprise the CBOC from this point forward. (Requires no change to the Bylaws.)
2. Approve a change to the Bylaws as suggested above to effect the staggering of member terms by appointing all new members in this current appointment round to an initial term of one year that might be followed by a successive two year term if so determined by the Board.
3. Approve the selection process outlined above.
4. District staff to initiate the selection process for new members to fill the two current vacancies plus the number of new member positions added above seven, if any.

Submitted/Recommended By:

Scott Patterson, Deputy Superintendent
Business Services

Approved for Submission to the Governing Board:

Terry Ryan, Superintendent

Agenda

IV. AWARDS/RECOGNITIONS/SPECIAL REPORTS OR PRESENTATIONS (Continued)

3. Recognition of El Cajon Valley High School Teacher, Jim McLaughlin, as Recipient of the GUHSD Education Innovator for the Month of January

4. Recognition of El Cajon Valley High School's AVID Program for Being Awarded National Demonstration School Status

GUHSD Bond Advisory Commission Update

February 9, 2007 Issue: 1

Welcome to the GUHSD Bond Advisory Commission Update

Dear Friend,
I am writing to provide an update on the status of Grossmont Union High School District's (GUHSD) Bond Advisory Commission. This Commission has been formed as an advisory panel to the GUHSD Board of Trustees.

This e-mail update will strive to keep you informed of the progress of the Commission as well as alert you to important meetings and events.

In their effort to pass Proposition H, the GUHSD made promises to the communities within the district. These promises include the repair and renovation of the existing schools as well as the building of a twelfth high school. It is the goal of the Commission to help the District keep their promises. Our motto and, with any luck, the motto for the GUHSD will be **"Promises Made - Promises Kept."**

I look forward to working with you.

Respectfully,

Mark Price

Next Meeting
The next meeting of the Commission will be:
February 20, 2007
7:00 pm
Alpine Elementary School

Current News

On Wednesday, February 8, 2007 at the meeting of the Grossmont

San Diego Union - 02/01/07 - In 2004 the

Union High School District Board of Trustees the Trustees voted to create a 12th High School Commission. The goal of the Commission is to provide the Board with recommendations on how to proceed with the building of a twelfth high school in the Grossmont District.

The Commission will meet at least once a month in February, March, April & May of 2007 (see meeting schedule below).

The Commission will consist of three Subcommittees; Facilities & Curriculum, Finance and Site. The Subcommittees would meet as needed at least twice per month (February through May). The work and research will be done at the Subcommittee level and the Chair and Vice Chair of each Subcommittee, as members of the Commission, will report Subcommittee results at the Commission meeting. The Commission will vote recommendations to be sent back to the Subcommittees and the Commission will be responsible to vote for the final recommendation or set of recommendations to be presented to the GUHSD Board in late May or early June 2007.

The purpose of the first Commission meeting (February 20, 2007) will be to outline the goals of the Commission and the general goals and responsibilities of the Subcommittees. The public will be invited and asked to sign-up for the Subcommittee(s) of interest. The Subcommittee Chairs will announce their individual Subcommittee goals and meeting schedule. There will be no limit to the membership of the Subcommittees. The Subcommittee Chair and Vice Chair will be responsible for the developing of the Subcommittee recommendations to the Commission. (Subcommittee recommendations are recommendations to the Commission; it is the Commission that will take the final Subcommittee recommendations and formalize a final set of recommendations for the GUHSD Board of Trustees.)

SUBCOMMITTEES

Grossmont Union High School District placed a bond (Proposition H) on the ballot. It became the first bond to be passed by the voters in the Grossmont District since 1967. The bond included dollars for two main purposes; the renovation and repair of the existing 11 high schools and the construction of a 12th high school in the Alpine area.

Since the passage of the bond the Grossmont District has been extremely active in their efforts to address the needs itemized in the bond. The repairs and the renovations are in process and land for the 12th high school has been pursued. We have reached a point in the District where important decisions must be made. Many of the costs for the repair and renovations have been higher than originally projected and many additional needs have been proposed.

In our effort to address these needs and meet the obligations of the Bond we have not provided enough attention to the building of the 12th high school. As a result, at the February 8th meeting of the GUHSD Board of Trustees, we will discuss and take action on the formation of a 12th High School Commission.

The purpose of the Commission will be to investigate all options for the 12th high school and present their recommendations to the GUHSD Board of Trustees at the June 2007

Facilities & Curriculum Subcommittee

Facilities & Curriculum Subcommittee

The Facilities & Curriculum Subcommittee will work with the community to determine the type of school and variety of curriculum possibilities which would best serve their needs. There has been a great deal of discussion in the Alpine area regarding a full and comprehensive high school. One goal of the Subcommittee will be to define full and comprehensive. The Subcommittee would also discuss further the above-mentioned joint and shared-use opportunities.

Finance Subcommittee

meeting. Strong, competent professionals, if approved, will facilitate the Commission. All with experience in the areas in which they will be asked to serve. The Commission will consist of three subcommittees: Finance, Site and Facilities & Curriculum...

(Sub Committee information to the left)

... I am very excited about this Commission. Alpine has been promised a high school for many years. They were originally promised what is now called Steele Canyon High School. The community has been extremely patient and trusting of the Grossmont District and it is imperative that we make good on our Bond promises.

The Alpine community was very active and played an important role in the passage of our Bond and it is only right that we follow-through with all aspects of that Bond. We need to address the repairs, renovations and the 12th high school.

I began work on a high school for Alpine when my daughter was in grade school. My wife and I had great hopes that the school would be built prior to her starting the 9th grade. Our daughter was not looking forward to the long (1 ½ hour) bus trips twice a day. We were not looking forward to the hassles associated with a child attending a school such a great distance away from our home and community. Our daughter will graduate high school

The Finance Subcommittee will investigate all possible funding options for the 12th high school as well as the remaining repairs and renovations as outlined in the Bond. They will be instructed to review ongoing bond expenditures and investigate all available State matching funds as well as any other possible sources. They will present to the Commission all possible funding sources and options.

Repair & Renovation Subcommittee

The Repair & Renovation Subcommittee will work with the long list of needed repairs and renovations as listed in the Bond. They will prioritize those remaining items and, working with the Finance Subcommittee and District staff, will attempt to place a cost on each of the repairs and renovations.

Site Subcommittee

The Site Subcommittee will be tasked to look at the 4 sites presently before the Board and any and all other possible sites. They will narrow the list and make a recommendation to the Commission. Grossmont has been very vocal in their desire to build a 12th high school with many shared and joint-use opportunities. Some of the discussed possibilities are ball fields, swimming pool, library and performance center. There has also been talk of a possible satellite opportunity working with the Grossmont Cuyamaca Community College District or our local universities. The Site Subcommittee will need to recommend property large enough to meet the needs of these possibilities.

this year and we still don't have a high school in Alpine. It is time to change that. It is time to meet the needs of one of our communities. It is time to make good on our promises.

Sincerely,

Larry Urdahl
Vice President
Grossmont Union High District

BOND COMMITTEE

G.P. - Oversight Agendas and Minutes

Bond Oversight Committee

2005-06

Citizens' Bond Oversight Committee

Summary of Meeting

August 16, 2005

Committee Members Present Harold Hilliker, Bill Wells, Chuck Muse, Jim Davis, Ron Pennock

Committee Members Absent: Phil Jankola

District Staff Present Robert Cornelius, Assistant Superintendent; Patty Floyd, Director, Fiscal Services; Jerry Vincent, Executive Director, School Construction & Business Services; Natalie Schuff, Bond Accountant; Esther Moosburger, Internal Auditor, Mat Hall, Erickson-Hall; Catherine Melick, Executive Secretary, Business Services

1.0 Introductions

The meeting was called to order by Ron Pennock, acting President of the Citizens' Bond Oversight Committee. Introductions were made:

1.1 Mat Gates, Project Manager for much of the Prop H construction. He works out of the bond trailer on the Grossmont High School campus.

1.2 Jerry Vincent, Executive Director, School Construction & Building Services; he is responsible for overseeing and coordinating all phases of the construction work under Prop H, as well as the supervision of the Maintenance and Operations Department of the District

1.3 Esther Moosbruger, Internal Auditor; she reported that she is awaiting the annual bond funds audits and that she will review them for compliance when they become available.

1.4 Natalie Schuff, Bond Accountant; she handles the day-to-day Prop H fund accounting for the district. She reviews all bills and ensures that they are aligned with the contracts. She resolves any mathematical errors that may have occurred on the billings.

1.5 Patty Floyd, Director of Fiscal Services; she ensures that Ms. Schuff has all the resources she needs to be able to report to the state. Ms. Floyd reported that the external auditors should be able to report in mid-October.

1.6 Bob Cornelius, Assistant Superintendent, Business Services; works with the team. Dr. Cornelius reported that we are at the end of our first year and have sold the bonds. The audit is timed to align with the fiscal audit. Once we are in possession of the audit and financials, we should experience better reporting. We have spent 20 million and have had 23 bids. We are accomplishing much and are working to be good stewards of

the tax payers' dollar. Dr. Cornelius indicated that the committee should have an opportunity to approve the audit and take a look at the Master Plan at a future meeting.

Action: Per Ron Pennock's request, Dr. Cornelius will provide the committee with the audit guide page as well as the template for what the audit will look like.

1.7 Bill Wells serves on the Planning Commission for the City of El Cajon; Jerry Vincent reported no problems regarding planning issues with the City of El Cajon. Mr. Wells indicated that he would be happy to help in this capacity, if the need should arise.

1.8. Harold Hilliker, business owner and member of the Resource Conservation District of San Diego. He has contacts on the Lakeside Water District.

1.9 Jim Davis, retired Chief of Police, City of El Cajon; Mr. Davis is able to help with security questions.

1.9.1 Committee Member asked if the District has been required to pay on Traffic Fees. Mr. Vincent reported that the current construction has no bearing on traffic; therefore, no fees have been assessed.

1.9.2 Harold Hilliker and Jim Davis had questions regarding security issues.

Action: Jerry Vincent indicated that he will report on security cameras, lighting, etc.

1.10 Ron Pennock serves as Chairman for the East County Construction Council. Mr. Pennock can assist with contacts.

1.11 Chuck Muse is a board member of the Helix Water District and the Grossmont Water Conservation Garden.

1.12 Catherine Melick, Executive Secretary, Business Services; she supports Dr. Cornelius and the Business Services Division. She serves as recording secretary for this committee, i.e., publish and post agendas, maintain minutes, and support committee as needed.

2.0 Announcements/Approval of Agenda and Minutes

The minutes of the meeting of May 11, 2005, were approved.

3.0 Approval of Annual Report

3.1 It was noted that Bill Well's name and biography was omitted from the report.

3.2 Once the financial audit report is received from the auditors, it will be sent to GUHSD's Governing Board. Thereafter, the audit will be submitted for review by the CBOC. It is anticipated that we might receive it around the first of October. A special CBOC meeting will be called at that time.

3.3 Motion to approve the annual report exclusive the financial audit, and with the addition of Bill Well's name and biography, was made by Harold Hilliker and seconded by Chuck Muse. Motion passed unanimously.

4.0 Public Comments (Discussion)

4.1 No members of the public were present for comment or discussion.

4.2 Jerry Vincent reported that he has received some general questions from the public, i.e., concern over tearing down the old gym, etc.

Action: Jerry Vincent will relay on pertinent concerns from the public to the Chairman of the CBOC.

5.0 Status of Board Vacancy

5.1 Dr. Cornelius reported that he contacted a tax payers' association, and a Professor Walter Heiser's name was given as a candidate; however, no completed, signed application was received.

- € Bill Wells has joined the San Diego Tax Payers' Association.
- € Jim Davis moved we send a letter to the San Diego Tax Payers' Association that, absent from hearing from them by August 26, 2005, we plan to appoint Bill as the tax payer association member representative. Bill Wells seconded the motion; it passed unanimously.

***Action*:** Dr. Cornelius' office to prepare and send a letter so stating.

5.2 Chairman Vacancy—The committee would like to meet within 30- 45 days; the vacancy to be filled by a tax payers' association member should be filled by that time. Ron Pennock to serve as acting chair until one is elected by the full committee.

5.3 Discussion evolved around forming a financial subcommittee, developing a timeline and construction subcommittee, and the need for additional technical information. Mr. Hilliker reminded the committee that knowledge, prepping, and oversight are all part of the committee's role; however, operations is not the purpose of the committee.

6.0 Financial Update

Please see attachments 6.0–A and 6.0–B.

7.0 Meeting Schedule

Ron Pennock stated that he would like to meet more often than quarterly; Dr. Cornelius indicated that we would need to get board approval because quarterly meetings are set forth in the board-approved bylaws.

Jerry Vincent suggested that we have construction update meetings with light agendas so that more information can be given regarding the specifics of how projects were progressing.

8.0 Other

8.1 Topics for next meeting:

- € Audit
- € Selection to Fill Vacancy

8.2 Roundtable

- € Bill Wells applauds Jerry Vincent and his crew for the very good job they are doing.
- € Jim Davis and Ron Pennock commend the District for its excellent use of money; Mr. Davis said that it appears GUHSD has "stretched money as much as it can be." Mr. Davis suggested that we attempt to track "saved" money throughout the project.
- € The committee suggested that a one-page press release be developed in order to market the good work that we do.

9.0 Tour of Construction Sites

9.1 Helix
9.2 Granite Hills
9.3 El Cajon Valley
9.4 Grossmont

10.0 Adjournment

It was moved and seconded to adjourn the meeting; motion passed unanimously.

Next Meeting—Wednesday, November 16, 5:30 p.m., Conference Room 2

Grossmont Union High School District

Citizens' Bond Oversight Committee

Wednesday, November 16, 2005
Conference Room 2
5:30 - 7:30 p.m.

Grossmont Union High School District
Citizens' Bond Oversight Committee
November 16, 2005

Meeting was cancelled due to lack of quorum

Citizens' Bond Oversight Committee

Summary of Meeting

January 19, 2006

Committee Members Present	Jim Davis, Walter Heiser, Phil Jankola, Chuck Muse, Bill Wells
Committee Members Absent:	Harold Hilliker, Ron Pennock
District Staff Present	Robert Cornelius, Assistant Superintendent; Patty Floyd, Director, Fiscal Services; Mat Gates, Erickson-Hall; Catherine Melick, Executive Secretary; Esther Moosburger, Internal Auditor, Jerry Vincent, Executive Director, School Construction & Business Services;
Community/Others	Priscilla Schreiber, GUHSD Governing Board Member; Bruce Seaman, President, Grossmont Education Association; Georgette Torres, Principal, Granite Hills High School; Janie Wright, Manager of School Facilities; Granite Hills High School

1.0 Welcome & Introductions

Jim Davis, acting chair, introduced the committee to those present. He noted that this was the committee's first off-site meeting.

2.0 Approval of Agenda and Minutes

Minutes of the August 16, 2005, meeting were approved. No quorum was present at the previously-scheduled November 16, 2005, meeting and, therefore, no minutes were entered.

3.0 Address Concerns Presented to Committee

Jim Davis reported that members of the teachers union (GEA) have distributed materials to the community that stated . . . "Superintendent Ryan's lack of oversight on the Prop H bond has led to faulty construction resulting in additional costs to taxpayers." The committee invited Bruce Seaman, President of GEA, to attend tonight's meeting in order to have his concerns addressed first hand.

Mr. Seaman specified his two major concerns in an e-mail to Terry Ryan as follows:

Issue #1

"The contractors failed to do the proper engineering specifications for new water supply on the Helix campus then failed to get proper permits from the Helix Water Department. I understand there have been several attempts by the contracting companies to correct the

situation and still have no construction timeline in place or permits. The major summer infrastructure construction window was missed and all the other trenches have been filled-in, sidewalks a(n)d landscaping replaced. The campus will have to be dug up again to replace the old water supply. Rumor has it now, the 53 year water pipes won't be replaced now and the project cancelled."

- Jerry Vincent reported that Helix Water District had given preliminary (90%) approval. The district is in an ongoing process of applying for state matching funds for our modernization projects. In order to compete for these funds, the district must be able to prove that 50% of project money is contracted prior to receiving state allocations. The district is, therefore, bound to complete the project. Jerry reported that the process has been very complete, and appropriate engineering was done. Although plans did go out to bid without final sign-off, this was in order to secure the state matching funds. The plans for seven schools are now completely signed off, and the district is in a position to receive up to 47.5 million dollars by the end of summer.
- Mr. Vincent also reported that both Helix Water District and SDG&E do not allow other utilities in their trenches. The public utilities bring in their inspectors to review the work. Virtually all school sites did not have a valid blueprint as to where things were located underground. Utility planners have worked closely with our construction contractors in order to mitigate this.
- Mr. Vincent reported that he has not specific knowledge as to a 53 year-old pipe not being replaced. He stated that as they encounter asbestos clay pipe in their trench work, they are removing it and replacing it. He believes, however, that some of the clay pipes, which are very fragile from an earthquake standpoint, yet don't erode, may have been disconnected and "abandoned in place" by Helix Water District.

Issue #2

"Failed to plan and meet the correct engineering specifications for the drainage connection to the community metropolitan sanitary drainage pipes. The new campus run-off drainage system has been just about completed (6 months late) but isn't connected to anything. There is a plan to start building this large sewer box underneath Yale & University Ave. during the holiday break which will close off any access to the upper administration faculty parking lot. Very doubtful this will be completed when we come back on January 4th."

- Mat Gates reported that the goal is to place main lines in the ground and to make connections that are efficient. As the site modernizations progress, final connections to buildings will occur. Backhoes and minor trenching for points of connection will be visible as this is part of the regular course of events that occur in construction.
- Mr. Gates also reported that there were several areas that were covered up because the cobble was so dense it required larger earth-moving equipment than was initially anticipated. Hence, the construction crew began the dig, determined the need for larger equipment, covered it up for safety, and resumed the job. Mat pointed out that it is imperative there be daily updates between the construction crew and administrative staff, and that the information is shared with the school site staff.

- Mr. Gates reported that the large storm sewer box is complete and connected. Helix Water District and the City of La Mesa required the installation of a new interceptor. (An interceptor is what intercepts water runoff, and "scrubs" and cleans it prior to its connection to the City.) The City has signed-off on the sewer box.
- Because Helix Charter School has a unique summer schedule, the contractor did require unanticipated time in the school year during which to complete the infrastructure. However due to the efforts of the construction crew, there were no daily delays, and, because of this, no fines or penalties were incurred.

Mr. Seaman brought forward some additional concerns that had been expressed to him:

Issue #3
Is there a problem with the electrical infrastructure at Helix Charter School?

- Mr. Vincent reported that Helix had antiquated oil-filled switches that leaked. One of the first projects undertaken was to switch out that existing high voltage system. It is now a lower voltage (480) system, which is deemed to be safe.

Issue #4
It was reported that people at Monte Vista were walking on the roofs with HazMat suits and that at Santana there were "particles" flying from the roofs.

- Mr. Vincent reported that the roofing company requires its employees to wear the HazMat suits at all times.
- The roofing company will only work on a "hot roof" (one that has asbestos tiles) during times when students are not present.

Mr. Seaman indicated that the concerns he brought forward were addressed to his satisfaction. Mr. Davis encouraged Bruce to communicate with members of the committee prior to publishing future concerns. He wants to know about and deal with community and staff issues as they arise.

4.0 Public Comments (Discussion)
There was no additional public discussion

5.0 Financial Update
Patty Floyd reported that although the bond accountant, Natalie Schuff was on maternity leave after giving birth to a boy, she had prepared a report. The financial update, which reported project expenditures through November 30, 2005, was distributed and questions were answered. In response to questions by the committee, the following points were made:

- Mr. Vincent explained that, at this point, we are under budget. There have been 27 bids to date and we are completing projects at 3 – 4% under estimates overall.

- We have received $7.5 million in state matching funds; we expect to be approved for an additional $13 million in late-January. We anticipate receiving a total of $70 million in state matching funds for modernization.
  - These allocation funds are project specific, and money is only allocated after we've contracted for 50% of the anticipated total cost of the project.
- Bonds will be up for sale again in June.

A motion was made and seconded to accept the Financial Update; the motion passed unanimously.

6.0 Election of Committee Chair *(replacing outgoing chair)*

A nomination was made and seconded to elect Jim Davis as Chair of the Citizens' Bond Oversight Committee; no other nominations were presented. Mr. Davis was unanimously elected as Committee Chair.

Mr. Davis would entertain the possibility of amending bylaws to better delineate the term of office for committee officers.

7.0 Presentation of Audit

Dr. Cornelius reviewed the structure of the audit. It is completed annually, in December, for the fiscal year ending the previous June. The audit itself will become available in January of ensuing years. Dr. Cornelius suggested that the annual report be completed at this time so it will be tied to the audit cycle.

- Ms. Floyd pointed out that the auditors have suggested the audit be given to the oversight committee and the committee, in turn, will present it to the governing board.

- The audit presents as a "clean" audit per Prop 38 guidelines. All purchases and expenditures have been double-checked for validity. It was pointed out that the District's general fund paid for the costs of the audit.

- Walter Heiser noted salaries and benefits in the amount of $37,050. Ms. Floyd pointed out that it is for the bond accountant, Natalie Schuff. Ms. Schuff is a full-time employee of the district whose majority of time is spent on bond projects. Only that portion of her time that is actually spent on bond accounting is charged against the bond funds. However, if there is nonbond work that she performs, that work is charged against the general budget. In addition, there are some employees in accounts payable and fixed assets who perform bond-related work, yet this work is not charged against the bond account. Once the bond project is completed bond accountant's position will be dissolved.

Dr. Heiser also raised a concern as to the payment of previous debt ($28 million transfer out for the Certificates of Participation). He acknowledged that the language in the Prop H ballot did allow for this, his concern, however, is whether there is the constitutional authority for this provision.

A motion was made to receive the audit; motion was seconded and passed unanimously.

February agenda items:

Retirement of Debt—Legal opinion (District counsel will attend)
In Depth Review of Audit Questions (Committee members to call Patty Floyd prior to February's meeting with specific questions; she will contact auditors for answers. Additionally, committee members requested a glossary of audit terminology to explain the line items.)

8.0 Construction Update

Jerry Vincent reported that, at the request of the Governing Board, he is developing a detailed update of construction progress. In addition, he is working towards a "Spring/Summer Update" on the district's construction website.

- Mr. Vincent further reported that 18 sets of close-out documents, punch lists and walk throughs are currently with the State Architect's Office.
- Infrastructure renovations (water, power, storm drain, gas, etc.) are being planned for Monte Vista, El Capitan, and Santana High Schools. Sites that had infrastructure work last summer will begin classroom construction.
- Georgette Torres reported that their administration office no longer leaks. She and her staff are delighted!
- Ms. Torres also reported that Mark and Mat (Granite Hills Construction Site Managers) have done a great job meeting with staff. The beginning of the year was tumultuous and noisy, but the teaching staff communicated with construction staff when they needed to have quiet periods for delivery of instruction. Janie Wright sends out updates regularly to keep staff apprised of the situation. Daily updates were delivered at the beginning of the year; now just on an as-needed basis. Communication has been the key!
- Mr. Vincent indicated that construction staff has worked diligently over winter break, and even utilized minimum days to maximize the time that they are able to perform construction.
- Committee member Bill Wells asked about the concrete that was poured over the summer. Jerry Vincent reported that the construction manager is ensuring that the quality of the work is maintained. In addition, there are five State (DSA) Inspectors working on behalf of the district. Both the inspection costs and the costs of the inspectors are being paid via Prop H funds.
- Mr. Vincent reported that there has been only one episode of major vandalism and that, overall, there have been very few episodes of vandalism and theft. However, there have been recent issues regarding wiring, and the electrical company has hired their own security.

- Mr. Vincent mentioned that he routinely sets up meetings with parents and community members so that he can keep them apprised of the progress of construction.

9.0 Committee Meeting Schedule & Logistic

A motion was made and seconded to meet bimonthly with the option of monthly meetings as construction warrants. The motion was unanimously approved.

9.1 Updated financial information will be mailed to committee members prior to scheduled meetings.

9.2 The next committee meeting is scheduled for February 15.

9.3 The location will be determined as construction warrants.

10. Other

Comment and suggestions were made regarding publicity:

- Possibility of quarterly mass mailing to the members of the community.
- Possibility of Governing Board/Prop H joint brochure.
- Use of whiteboards on the campuses.

February agenda items:

Community Information and Involvement—Develop vehicles to give information to the community and forums to generate questions and interest.

11. Adjournment

Next Meeting:
Wednesday, February 15, 2006; 5:30 – 7:30 p.m.
El Cajon Valley High School; Room 110

Citizens' Bond Oversight Committee

Summary of Meeting

February 15, 2006

Committee Members Present:	Jim Davis, Ron Pennock, Walter Heiser, Chuck Muse, Bill Wells
Committee Members Absent:	Harold Hilliker, Phil Jankola
District Staff Present:	Robert Cornelius, Assistant Superintendent; Patty Floyd, Director, Fiscal Services; Catherine Melick, Executive Secretary; Esther Moosburger, Internal Auditor, Jerry Vincent, Executive Director, School Construction & Business Services; Lauri LaFoe, Attorney
Community/Others	Larry Urdahl, GUHSD Governing Board Member; Ron Dautremont, El Cajon Valley High School; Johnna Kohler, Manager of School Facilities; ECVHS; Corey Blaker, Performing Arts Dept. Chair, ECVHS; Mat Gates, Erickson-Hall Construction; Kathy Lord and Thom Clark, HMC Architects; Chris Knell, Harley Ellis Devereaux

1.0 Welcome & Introductions

Jim Davis, CBOC chair, introduced the committee to those present.

2.0 Approval of Agenda and Minutes

The minutes of the January 19, 2006, meeting were approved.

3.0 Public Comments

Corey Blaker, Department Chair for El Cajon Valley High School's Performing Arts, expressed concern on behalf of his department regarding air conditioning. While there is an understanding that a new Performing Arts Building will be a part of Phase IV of the construction projects, staff reports the need for air conditioning in the interim. Jerry Vincent indicated he look into this.

4.0 Retirement of Debt—Legal Opinion

Attorney Laurie LaFoe addressed the questions that were raised by member Walter Heiser. Please see attachment 4.0 for his questions and Ms. LaFoe's response. See attachment 4.1 for Attorney General's opinion in support of response to Issue #3.

Ms. LaFoe indicated that she has provided her e-mail address to committee members and that they were welcome to e-mail questions directly to her.

5.0 Financial Update

Patty Floyd distributed the Financial Update (through January 31, 2006).

5.1 Audit Questions

Questions were raised regarding architects.

What do "architects' fees" consist of? Kathy Lord, of HMC Architects responded:

There is a sliding fee schedule as determined by the state. For modernization it can be up to 12% of the construction costs. Of the money received by architects, approximately 40 - 43% goes to consultants, as well as structural, mechanical, electrica,l and civil engineering work.

The audit indicates a budget of $31 million for architects' fees. What period of time does this cover? Jerry Vincent responded:

This is the budgeted amount over the life of the project, i.e., nine years. The duties of school architects not only encompass design, but requires a higher level of observation and expertise than private work.

What was the selection process for architects? Jerry Vincent responded:

RFQs, and interviews throughout the district. Mr. Vincent updates the list of architectural firms on an annual basis.

6.0 Construction Update

A PowerPoint presentation was given by Jerry Vincent. A copy of the slides was distributed to committee members and those present. *(This slide show can be viewed at www.guhsd.net/ construction/presentations.php.)*

7.0 Community Information and Involvement

Formal discussion tabled for a future meeting.

8.0 Committee Meeting Schedule & Logistic

A joint workshop with Grossmont District's Governing Board was requested. A date will be developed this meeting. GUHSD Governing Board member, Larry Urdahl, indicated his support of this plan.

9.0 Other

9.1 The annual report needs to be developed for the year ending June 2006.

9.2 It was suggested that the board determine the format they would like to receive audit and phasing reports,

9.2 Chuck Muse indicated that he would like to explore what would be required to produce and distribute quarterly reports to the community.

9.2 Ron Pennock announced that CBOC chair, Jim Davis, had been selected as El Cajon's Citizen of the Year.

9.3 Jim Davis indicated that he continues to be impressed with the planning and process for obtaining matching funds.

10.0 Adjournment

The meeting was adjourned.

Citizens' Bond Oversight Committee
Summary of Meeting
May 22, 2006

Committee Members Present:	Walter Heiser; Harold Hilliker, Phil Jankola, Ron Pennock, Bill Wells
Committee Members Absent:	Jim Davis, Chuck Muse
District Staff Present:	Terry Ryan, Superintendent; Patty Floyd, Acting Assistant Superintendent, Business Services; Catherine Melick, Executive Secretary; Esther Moosburger, Internal Auditor; Natalie Schuff, Prop H Bond Accountant; Dena Johnson, Debbie Murray, and Scott Wilkins, Facilities Planners;
Community/Others	Priscilla Schrieber, GUHSD Governing Board Member; Scott Patterson, incoming Deputy Superintendent, Business Services (GUHSD); Larry Johnson, Consultant; Mat Gates, Dave Erickson, and Neda Alghurabally, Erickson-Hall Construction; Kathy Lord and Thom Clark, HMC Architects

1.0 Welcome & Introductions

In the absence of CBOC chair Jim Davis, Ron Pennock, vice-chair called the meeting to order and made introductions.

Scott Patterson was introduced as the new Deputy Superintendent, Business Services. Mr. Patterson indicated that he was interested in learning all he could about Prop H, and he is looking forward to working with the committee. He previously worked on Prop MM with San Diego Unified.

Larry Johnson was introduced as the consultant who is heading the Facilities Department in the absence of an Executive Director. *(The District expects to advertise the vacated position and form a selection committee as soon as Mr. Patterson has the opportunity to analyze the Executive Director's role.)* Mr. Johnson is a former Director of Facilities for Vista Unified School District and has worked with community colleges for many years. He has served as a consultant for the past ten years, and this is the twelfth high school for which he has provided this service.

Facilities Planners **Dena Johnson, Debbie Murray,** and **Scott Wilkens**, were introduced. These three facilities planners, along with **Janea Quirk**, the fourth planner, facilitate communication between the district and the school sites.

2.0 Approval of Agenda and Minutes

The minutes of the February 15, 2006, meeting were approved as corrected.

3.0 Public Comments

No public comment on agenda items.

4.0 Changes in Members—District, Prop H

This item was deferred until the next meeting. The committee requested that legal counsel be present in order to ensure that legalities are met with regard to possible expansion of membership. In addition, a determination needs to be made as to which members would seek reappointment to a second term.

5.0 Current Structure of Proposition H Implementation Team

Dr. Ryan reviewed the four defined roles of the facilities planners; overall the planners will strengthen the district's internal support staff.

Position 1: Serves as the Project Manager, runs in-house projects, attends construction meetings

Position 2: Web design and point of contact, interfaces with staff and architects, downloads all information provided related to the schedule from architects and construction managers, represents GUHSD for specifically-designated schools at construction meetings

Position 3: Documentation, bookkeeping and payroll as it relates to labor compliance, and coordination of facility usage

Position 4: Coordinates warranties, new equipment, as-builts, drawings, project closings, provides training, programs marquees at school sites and attends construction meetings

6.0 Allocation of Proposition H Resources Plan & Timeline

Per Kathy Lord of HMC, timelines are being followed closely due to state fund allocation requirements. $25 million will be authorized for release this summer for Santana and El Capitan High Schools. Ms. Lord indicated that a portion of her firm deals exclusively with eligibility.

Question: What are the services rendered for the architects' fees?
Answer: Plans, design and construction documents, bidding and construction.

Question: Are we on target?
Answer: The dollar amounts matched by the state are higher than what was originally projected. Also, will receive refunds from SDG&E for efficiency in utilities.

Question: How has the cost of materials increase affected the budgets.
Answer: We have been very conservative and cautious in our estimates; escalated costs were included in the budget forecast.

7.0 Status

7.1 Project Status Report and Report on Timelines

One year ago bids were just opening up on the first four sites (Grossmont, Helix, El Cajon Valley, and Granite Hills). Current projects now include:

- Infrastructure at El Capitan, Monte Vista, and Santana
- Tracking four modernization projects and a new facility for Homestead/Frontier
- Installation of surveillance cameras on 12 campuses;
- Re-roofing at Foothills, El Capitan, Santana, and Mt. Miguel
- Power upgrade Grossmont High School
- WTC staff and student restroom upgrades, and
- ADA compliant bleachers at Grossmont, Granite Hills, and Valhalla High Schools. *(Terry Ryan requested that an ADA compliance report be presented to this body at a future meeting.)*

Question: Who advertises bids?
Answer: The District puts out the bid; Erickson Hall packages the bid in order to attract local contractors and answers any questions a contractor might have. Bids are advertised through ABC, AGC, and trade papers.

Question: What percentage of contractors are East County Contractors?
Answer: Mat Gates estimated that approximately 90% of the contractors who have performed work thus far are situated in San Diego County; he believes approximately 60% are East County contractors. *Ron Pennock requests a formal report addressing the composition of the contractors*

8.0 Unanticipated Problems

8.1 *Wet Utilities Replacement Requirement*
In the course of last summer's infrastructure construction (four schools) it became apparent that there was a greater need for water pipe and storm drain replacement than was originally planned. It wasn't until the trenches were dug that the extent of the shortcomings became obvious. It is more cost-effective to modernize and repair these items now than to redig the trenches and repair/replace pipes and irrigation systems at a later date.

Question: Why are we leaving bare ground?
Answer: Irrigation, quad restoration, landscape, and hardscape plans will be developed this summer. Synthetic grass, sod and hydraseed will be utilized depending on the requirements of the individual areas. Synthetic grass is better in high traffic areas—stays dry and holds up. Irrigation and other systems will be on timers, which will save the district money in the long run.

9.0 Phase II Project Update

- Infrastructure is being put in place at El Capitan, Monte Vista, and Santana High Schools over the summer

- Quad restoration and modernization will begin at Grossmont, Helix, El Cajon Valley, and Granite Hills High Schools. One complete building will be renovated at a time, with classes being moved to interim relocatables. It is anticipated that it will take approximately four months for a building to be completely renovated. Interim housing will have air-conditioning.

10.0 Misc. Project Update

- Roofing projects at Mt. Miguel, El Capitan, Santana, and Foothills Adult School

- Power upgrade at Grossmont High School

11.0 Communication Update

- The Athletic Facilities Master plan is being developed. Funding will come from a variety of sources, i.e., bond, Title IX, county matching fund, etc. A systematic, organized system of communication is being developed to work with the variety of contributors .

- An electronic newsletter has been developed. It is accessible at www.guhsd.net/construction. It will be updated on a regular basis. In addition, hard copies of the newsletter will be distributed to the east county community.

13.0 District Office Update

The office currently occupied by District staff is not earthquake safe, and we have begun to seek another facility (47,000 sq.ft.). The District is, however, committed to saving the façade of the current district office, if feasible. Classrooms that are currently located in a wing of the building will be moved immediately.

The district is investigating the utilization of redevelopment money to relocate the district office (within the City of El Cajon)

14.0 Future Meetings

Committee members expressed the desire to have monthly meetings and to bring in more community members. A meeting in June will take place at El Capitan High School, the July meeting will be a joint CBOC meeting, and the August meeting will take place at Santana High School.

15.0 Other

Member Walter Heiser indicated that the website has improved. Other members stated that they are looking forward to being able to show the community the "actual" building that is occurring as opposed to the infrastructure.

16.0 Adjourn

Citizens' Bond Oversight Committee
Summary of Meeting
June 28, 2006

Committee Members Present:	Harold Hilliker, Chuck Muse, Ron Pennock, Bill Wells
Committee Members Absent:	Jim Davis, Phil Jankola, Walter Heiser
District Staff Present	Terry Ryan, Superintendent; Scott Patterson, Deputy Superintendent, Business Services; Patty Floyd, Executive Director, Fiscal Services; Catherine Melick, Executive Secretary; Business Services; Esther Moosbrugger, Internal Auditor; Natalie Schuff, Prop H Bond Accountant; Dena Johnson, Debbie Murray, Janea Quirk, and Scott Wilkins, Facilities Planners
Community/Others	Jim Kelly, GUHSD Governing Board President; Priscilla Schreiber, GUHSD Governing Board Member; Pat Price, Principal, El Capitan High School; Larry Johnson, Consultant; Mat Gates, Dave Erickson, and Nedda Alghurabally, Erickson-Hall Construction; Kathy Lord, HMC Architects; Alex Bowie, District Counsel; and Lionel Sanchez, San Diego UT

1.0 Welcome & Introductions

In the absence of CBOC chair Jim Davis, Ron Pennock, and vice-chair called the meeting to order. A moment of silence was observed in memory of Wendell Cutting. Introductions were made around the room.

2.0 Approval of Agenda and Minutes

The minutes of the May 22, 2006, meeting were approved.

3.0 Public Comments

No public comment on agenda items

4.0 Financial Update

The Financial Update was distributed to committee members. District staff will continue to develop tools that clearly communicate budget and expenditure information to committee members.

4.1 Review of Bond Sales

Two main components of a bond sale are the financing and the construction implementation pieces. The CBOC's role is to ensure that the tax payers' interests are served by the efficient use of the debt instruments used in this process. The District sold $125 million in bonds with an underlying credit rating of Aa3 on June 1, 2006. Bond insurance was purchased to raise the rating, thus creating a savings of $2,297,000. Funds are deposited in the County treasury.

The anticipated earnings rate will be between 4% - 5%, depending on the rise in interest rates

5.0 CBOC Committee Membership

5.1 Review GUHSD Citizens' Bond Oversight Committee Bylaws

Attorney Alex Bowie reviewed the CBOC bylaws and reported that he believes them to be in order.

5.2 Review Laws Regarding CBOC Structure

Attorney Bowie believes the basis for the structure of the CBOC committee is fine. There are five "slots" currently: community business person, senior citizen, tax payers' association member, and parent/PTA member.

5.3 Discuss Expansion of Committee Membership

Attorney Bowie indicated that if the CBOC board were to recommend expansion, the recommendation would need the governing board approval. Mr. Bowie opined that he would recommend that it not be too large—that a determination should be made as to what expertise, if any, is missing from the committee composition.

The CBOC members had varying opinions as to expansion of the committee. At present, the committee recommended that each of its members commit to attend each meeting, and they will defer the decision on expansion until such time as the Deputy Superintendent Patterson and the soon-to-be-appointed Executive Director, Facilities Management have had an opportunity to become completely familiar with the Prop H projects.

5.4 Establish Which CBOC Members Will Seek Reappointment

Superintendent Terry Ryan indicated that he spoke with each member individually, and that each member has agreed to serve an addition two-year term. Should the committee wish to stagger terms the bylaws would require amendment.

5.5 Develop Calendar for 2006 – 2007

The committee determined that monthly meetings will be held on the last Wednesday of each month (beginning July 26) through the end of the calendar year.

6.0 Presentation by Gafcon Company—Overview of Services

Joe Minner, Program/Project manager for Grossmont/Cuyamaca Community College District and Dennis Walters, Director of Operations, presented an overview of their services to the committee. Their services include:

- Staff augmentation
- Oversight Committee Guidance
- Program (Costs, Schedules, and Time)/Project Management, Communication, Labor Compliance, etc.

7.0 Construction Update

A matrix showing the overview of bond work to be conducted during Summer 2006 -07 was distributed to committee members.

8.0 Review Current GUHSD Organizational Chart

A draft of the current organizational chart was presented by Scott Patterson. *(See Attachment 8.0.)* It is expected that a recommendation will be given to the governing board on July 13, 2006, for the appointment of the new Executive Director, Facilities Management.

9.0 Review Legal Opinions (2) Regarding Certificates of Participation

Attorney Bowie reviewed the previous opinions rendered regarding the retirement of the certificates of participation. He concurs with the previous opinions—that it is both legally permissible and financially wise.

10.0 Plan Agenda for July 18, 2006, Joint CBOC/GUHSD Governing Board Meeting

The CBOC agreed to defer this meeting until after the new Executive Director, Facilities Management is appointed and familiarized with the Prop H construction projects.

11.0 Other

A brief presentation of the Construction Update Website was given by Debbie Murray, Facilities Planner. Member Pennock requested a copy of the e-mail responses to the website. In addition, he suggested that the newsletter might be issued by the CBOC.

12.0 Adjournment

The meeting was adjourned.

BOND COMMITTEE

Grossmont Union High School District

Proposition H/U Citizens' Bond Oversight Committee

Wednesday, July 29, 2009

Grossmont High School, 500 Building - Library

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1:0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Vice Chair Walter Heiser at 5:03 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Mendy Brant, Tim Brindley, Marcie Findley, Walter Heiser, Fred Lear, Elana Levens-Craig, Rob Mathews Sharon Smith arrived at 5:18 p.m. Elana Levens-Craig left at 6:15 p.m. *Members Absent:* Larry Nichols, Jim Panknin *Staff Present:* Patty Floyd, Larry Goshorn, Bob Kiesling, Joe Mercado, Debbie Murray, Scott Patterson, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed 8/0.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Chair Report *(Chair)*	▪ No discussion or action.
6.0 Governing Board Update *(S. Patterson)* 6.1 New High School EIR and Site Selection Approval (June 11)	▪ Mr. Patterson stated that the EIR had been certified and that Lazy A Ranch was unanimously approved as the new high school site. He stated that the next step would be the appraisal and purchase of the

	property, as well as design.
6.2 Award of Synthetic Turf/Track Projects: El Cajon Valley, West Hills, Granite Hills, Mount Miguel, Santana, Monte Vista (June 11)	▪ Mr. Patterson stated that El Cajon Valley High School and West Hills High School would have both a synthetic field and a track installed. He stated that the other schools would only have a track installed.
6.3 Award of Synthetic Turf/Track Projects: Steele Canyon Track; Chaparral Field (June 25)	▪ Mr. Patterson stated that the contracts for a track at Steele Canyon and a field at Chaparral were awarded. He stated that the track at Steele Canyon had poor drainage.
6.4 Ed Specs and Proposition U Program Plan Presentation (July 9)	▪ Mr. Patterson mentioned that Ms. Murray had presented the educational standards to the Governing Board.
6.5 Designation of Robert Mathews as FEI Representative (July 9)	▪ Mr. Patterson stated that Member Mathews' membership had been ratified at the meeting and that he would return to the September Board meeting to be introduced to the Board.
6.6 Facilities Installation for Homestead Relocation (Plus Program) (July 9)	▪ Mr. Patterson stated that the contracts had been approved to relocate the Homestead program. He stated that the program would disperse to various sites, including Monte Vista, El Cajon Valley, Chaparral, and El Capitan. ▪ Mr. Patterson stated that not all programs would be relocated at first since the Frontier Day Treatment Center and Community Day School would need space that isn't at a comprehensive school site.
6.7 Approval for New High School Architect (IBI Group) (July 9)	▪ Mr. Patterson stated that IBI Group had been selected as the architectural firm for the new high school. He stated that they are based in Irvine and that they would team with Sprotte Watson, which is a local firm. ▪ Mr. Patterson stated that they would have to work with the Alpine and tribal communities in the design process. ▪ Mr. Patterson mentioned that 17 firms put in a bid, which was narrowed down to five by the interview screening panel. ▪ Mr. Patterson stated that the architects could design the school and that the land could be prepared for construction, but that construction on the high school would not begin until the enrollment trigger point has been met.

6.7 Approval for New High School Architect (IBI Group) *(Continued)*	▪ Mr. Patterson stated that the Viejas and Sycuan communities would be directly impacted by the development of the land. He stated that there are representatives from the tribes to advise the District as to what to do with any artifacts that are found.
6.8 Report on Renovation/ Modernization of District Office (July 9)	▪ Mr. Patterson stated that some dollars from the bond would go toward renovating the District office due to the fact that the Special Education department would need to be relocated to the main office. He stated that they currently are housed on the Grossmont High School campus and that the space they're currently in could be turned back into classrooms. ▪ Mr. Patterson stated that the modernization of the District office ties into modernization at Grossmont High School and that it would begin within six months. ▪ Mr. Patterson stated that in addition to bond funds, redevelopment project dollars would also be utilized.
7.0 Program Manager Report 7.1 Construction Progress Report *(K. Wright)*	▪ Ms. Wright stated that the typical progress report was not presented to the Board because staff put a focus on the educational specifications. ▪ Ms. Wright introduced Mr. Joe Mercado, Senior Program Controls Manager, who will handle financial reporting, improving quality, and scheduling. ▪ Ms. Wright discussed the images in her presentation and gave an update on construction in progress. ▪ Ms. Wright pointed out that the removal of soils has begun at Granite Hills High School and that because of issues with the contractor, the project had converted to lease/lease back. ▪ The Committee discussed the lifecycle of turf fields. Mr. Patterson explained that by installing new tracks, the investment made in the artificial turf fields would be protected.

7.2 Proposition U Program *(D. Murray)*	▪ Ms. Murray presented the Proposition U program plan to the Committee. She stated that the process began in January and that several meetings were held in order to coordinate with school sites, staff, and architects. ▪ Ms. Murray stated that the programming included Career Technical Education (CTE) pathways which would be intertwined with core curriculum. She stated that approximately 300 students would be on each pathway. ▪ Ms. Murray mentioned that each school site requested three CTE pathways, including visual and performing arts. Ms. Murray described performing arts complexes that had been planned. ▪ Ms. Murray pointed out that staff had been working with MarySue Glynn to focus on the goals for special education. She stated that each campus would have a cluster that would include elements to teach skills the students would need for the future. ▪ Ms. Murray stated that the educational specifications would be a guideline for architects as to the District's standards. ▪ Ms. Murray pointed out that one of the goals of the program plan would be to have students who attend school outside the District return to District facilities, including Viking Center. ▪ Ms. Murray explained how the Proposition U bond language is tied to projects and how they were represented in her report. ▪ Mr. Patterson pointed out that the planned budget for Proposition U construction was very conservative. ▪ Ms. Murray stated that a public fair would be held at Grossmont High School in order to present this information to the community. She mentioned that each architect would have a booth and display of the campus, which could be returned to the school sites after the fair to be used at open houses.
8.0 Audit & Finance Subcommittee Report *(W. Heiser)*	▪ Member Heiser stated that Mr. Kiesling presented a preliminary report to the Subcommittee on the financial status

8.0 Audit & Finance Subcommittee Report *(Continued)*	summary. He stated that it would be brought before the Subcommittee at their next meeting, and then to the following CBOC meeting.
8.1 FACS Report	▪ Member Heiser pointed out that there was a forecasted surplus in Phase 3A projects.
9.0 Communications Subcommittee Report *(J. Panknin)*	▪ No discussion or action.
10.0 Construction Oversight Subcommittee Report *(L. Nichols)*	▪ Member Brindley stated that the Subcommittee had met at El Cajon Valley High School to conduct a site walk and view the progress of the science classroom building. ▪ Member Brindley pointed out that there was an issue with the fire sprinklers not being approved by DSA which generated a change order, as well as DSA classifying them as laboratories instead of classrooms. Mr. Kiesling stated that this would be squared away with DSA. ▪ Member Brindley stated that the butadiene issue had been resolved, and that false positives were detected. Mr. Kiesling clarified that nothing permanently hazardous was found, and that secondary testing at the sites came with no findings.
10.1 Performance Review Update	▪ Mr. Goshorn stated that the performance review was in progress and that a final draft had been submitted. He stated that the report would be reviewed by the Subcommittee at their August 11 meeting, and then brought before the CBOC at the August 26 meeting. ▪ Mr. Goshorn mentioned that he reviewed two projects – Grossmont High School and Work Training Center. He stated that he reviewed the FACS Report data, internal controls as well as other processes.
11.0 Steering & Planning Subcommittee Report *(M. Brant)*	
11.1 Deferred Maintenance Update	▪ Mr. Kiesling stated that deferred maintenance funding from the state had

11.1 Deferred Maintenance Update *(Continued)*	been cut in half. He pointed out that the District had promised to boost Proposition H by putting $12 million from deferred maintenance to attempt to include projects not covered in the bond measure. ▪ Mr. Patterson clarified that the state had pulled back its state matching on deferred maintenance, which means fewer dollars would be available. ▪ Mr. Patterson pointed out that the District budget would have to be rebalanced over the following months. ▪ The Committee discussed deferred maintenance with staff and how it would be funded in the future. ▪ Mr. Kiesling pointed out that the Steering & Planning Subcommittee review information regarding deferred maintenance on a regular basis with staff.
12.0 Staff Report 12.1 Third Party Review Update	▪ Mr. Kiesling stated that the District engaged Tony Fulton from AF Consultants to conduct the Third Party Review. He stated that the process was just beginning and that the report should be available by late September/early October. ▪ Member Heiser requested a preliminary report by September.
13.0 Old Business *(Chair)*	▪ No discussion or action.
14.0 New Business *(Chair)*	▪ Mr. Kiesling thanked Member Brindley for sitting in on architect interviews.
15.0 Future Agenda Items *(Chair)* 15.1 Proposition U Project Fair 15.2 Facilities Lifecycle Management Program 15.3 Total Program Budget Realignment	▪ Mr. Patterson stated that Mark Young, the District's Financial Advisor, would attend the August 26 CBOC meeting and make a brief presentation on tax rates and unexpected changes in assessed valuation.
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 6:48 p.m.

Grossmont Union High School District

Proposition H/U Citizens' Bond Oversight Committee

Wednesday, August 26, 2009

Grossmont High School, 500 Building - Library

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Chairman Panknin at 5:03 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Mendy Brant, Timothy Brindley, Marcie Findley, Walter Heiser, Fred Lear, Elana Levens-Craig, Rob Mathews, Larry Nichols. Sharon Smith arrived at 5:25 p.m. *Staff Present:* Patty Floyd, Larry Goshorn, Dena Johnson, Bob Kiesling, Debbie Murray Scott Patterson, Scott Wilkins, Katy Wright *Others Present:* Yehudi Gaffen, Steve Schwartz, Mark Young
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Chair Report *(Chair)*	▪ Chairman Panknin stated that he would invite various speakers to attend future CBOC meetings to present information on topics such as building techniques and lifecycle management processes.
5.1 Prior CBOC Member Harold Hilliker	▪ The committee recognized former CBOC Member Harold Hilliker, who passed away in August.

6.0 Governing Board Update *(S. Patterson)*	▪ No discussion, as the Governing Board did not hold a meeting in August.
7.0 Program Manager Report *(K. Wright)* 7.1 Construction Status Report	▪ Ms. Wright stated that approximately $80 million worth of work was in progress. ▪ Ms. Wright pointed out that the physical education building at Grossmont High School had been finished and would be available for use at the beginning of the school year. ▪ Ms. Wright described work on new tracks and turf fields throughout the District. ▪ Ms. Wright mentioned issues at Santana High School, including being 60 days behind schedule. ▪ Ms. Wright stated that Phase 1 design work had begun, and that Ms. Murray had been working on Career Technical Education grants. ▪ Ms. Murray stated that on October 3 the District would be hosting a public gathering in order to display the educational specifications for each school site. ▪ Member Levens-Craig mentioned that Mr. Kiesling, Ms. Murray, and Ms. Wright would be speaking with the Foothills Council PTA at their September meeting in order to publicize the event.
8.0 Audit & Finance Subcommittee Report *(W. Heiser)* 8.1 Mark Young – Financial Advisor	▪ Member Heiser introduced Mark Young, District Financial Advisor, to the committee. ▪ Mr. Young presented information on finances, tax rate, general obligation property tax, and voter approval on Proposition U. ▪ Mr. Young stated that the first issue of Proposition U bonds had been sold in April 2009 for $60 million. He stated that the District maintained a strong AA

8.1 Mark Young – Financial Advisor (Continued)	credit rating. ▪ Mr. Young discussed assessed valuation and how it affects the tax rate with the committee. ▪ Mr. Patterson pointed out that due to changes in the assessed valuation, staff would be reprogramming construction projects to occur a longer period of time.
8.2 FACS Report	▪ Mr. Kiesling presented revenue vs. expenditure charts in lieu of the FACS report. ▪ Ms. Murray stated that state matching funds would not be received for the new high school until the design is complete. She stated that Proposition H would fund the site development and infrastructure, and that Proposition U would fund the actual building. ▪ Ms. Murray stated that the interest rate on the charts had been adjusted to reflect current market rates. ▪ Ms. Murray pointed out that deferred maintenance had been decreased to reflect the lack of state and local funding. She stated that it was removed from the Proposition H program in order to fund District non-bond projects. ▪ Ms. Murray mentioned that Phase 3A had decreased due to bid savings realized on all projects, and that the surplus had been reallocated to the program reserve. ▪ Ms. Murray stated that Proposition U funds would cover the program management organization beginning June 2010. ▪ Mr. Kiesling stated that he would bring the revenue vs. expenditure chart to the CBOC for review on a quarterly basis. ▪ The CBOC discussed with staff the revenue vs. expenditure charts. ▪ Staff explained the new phase naming process. ▪ Mr. Patterson stated that staff planned to present the charts to the Governing Board at their September 10 meeting, and then have it published on the website.

9.0 Communications Subcommittee Report *(J. Panknin)*	▪ Chairman Panknin stated that the Subcommittee would be meeting in September to review the project plan matrix in order to create a handout that can be used prior to the publishing of the 2009 annual report. He stated that the Subcommittee would begin drafting the annual report as well.
10.0 Construction Oversight Subcommittee Report *(L. Nichols)* 10.1 Project Review *(L. Goshorn)*	▪ Mr. Goshorn stated that construction projects were on schedule at Grossmont High School and that savings had been projected with Phase 3A work. ▪ Mr. Goshorn pointed out that the Work Training Center was a unique facility. He stated that the design was approved by DSA, though the discussion of the program at the site may change the design. ▪ Chairman Panknin requested that a full report be given at the September 30 CBOC meeting.
11.0 Steering & Planning Subcommittee Report *(M. Brant)*	▪ Member Brant mentioned that the Subcommittee had reviewed the attendance log.
11.1 Elections	▪ Member Brant stated that she would be in contact with the CBOC to receive nominations for Chair and Vice Chair. She pointed out that elections would be held at the October 28 meeting.
11.2 Membership Terms	▪ Member Brant pointed out that the first terms would be ending for Member Levens-Craig and Member Nichols in November.
12.0 Staff Report 12.1 Recommendation of September 09 Board Meeting for SDCTA to be the "Designated Organization" to Appoint a CBOC Member	▪ Mr. Patterson stated that staff would recommend to the Governing Board to designate the San Diego County Taxpayers' Association as an organization to select a member to serve on the CBOC, and then ask the Board to

12.1 Recommendation of September 09 Board Meeting for SDCTA to be the "Designated Organization" to Appoint a CBOC Member (Continued)	ratify the appointment of Penny Halgren to the committee. ▪ **Chairman Panknin moved that the CBOC support staff's recommendation to designate the San Diego County Taxpayers' Association as an organization to select a member to serve on the CBOC. Member Lear seconded. Motion passed unanimously.**
12.2 Gafcon Program Management	▪ Mr. Kiesling stated that the lawsuit between Gafcon and Harris and Associates was announced to the Steering & Planning Subcommittee at their August 17 meeting. ▪ Mr. Kiesling explained that the District received a notification from Harris that they were pulling employees off the job site effective August 14. He stated that staff replied with a letter asking for a 30-day extension so that the transition would be smoother. He stated that the extension was accepted by both parties and that it would expire on September 14. ▪ Mr. Kiesling pointed out that the lawsuit does not involve the District, but that it does impact District projects. ▪ Mr. Kiesling stated that Mr. Gaffen proposed to replace the employees who would no longer be working on the project. ▪ Mr. Kiesling mentioned that the yearly contract with Gafcon would be up for renewal at the end of September. ▪ The Subcommittee proposed that the CBOC recommend to staff that the contact with Gafcon be extended 60-90 days until after the third party review and performance audit have been completed and reviewed. ▪ Member Lear pointed out that the Subcommittee discussed the matter with staff at their meeting, and that he believed a memo could be sent to the Governing Board recommending they extend the contract and not renew it until after the two reports are complete.

12.2 Gafcon Program Management (Continued)	▪ Mr. Kiesling stated that part of the proposal on the table was to discuss the future of the FACS report. ▪ Mr. Kiesling pointed out that the District has a contract with Gafcon, and that Gafcon subcontracted with Harris. ▪ Member Heiser pointed out that review of the performance audit would not give sufficient information on the quality of work performed by Gafcon. ▪ Mr. Kiesling pointed out that Gafcon and Harris were selected as a team during the interview process. ▪ Chairman Panknin stated that he did not support the Subcommittee recommendation due to the fact that he believed it was beyond the scope of the CBOC. ▪ Member Levens-Craig pointed out that the ballot text stated that the CBOC should review and comment on bond measure-related staffing. ▪ Mr. Goshorn described the work and processes that go into the updating and ongoing maintenance of the FACS report to the CBOC. ▪ Mr. Patterson pointed out that Harris used a commercially available product to create the FACS report, but that techniques and guidelines were developed through Harris that they were unwilling to turn over to Gafcon. ▪ Chairman Panknin requested that staff return at a future meeting with a recommendation that the committee can act on.
13.0 Old Business *(Chair)*	▪ No discussion or action.
14.0 New Business *(Chair)*	▪ No discussion or action.
15.0 Future Agenda Items *(Chair)*	▪ No discussion or action.
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 7:23 p.m.

Grossmont Union High School District

Proposition H/U Citizens' Bond Oversight Committee

Wednesday, September 30, 2009

Grossmont High School, 500 Building - Library

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Chairman Panknin at 5:07 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Tim Brindley, Marcie Findley, Penny Halgren, Fred Lear, Elana Levens-Craig, Rob Mathews, Jim Panknin *Members Absent:* Mendy Brant, Larry Nichols, Sharon Smith *Staff Present:* Patty Floyd, Larry Goshorn, Bob Kiesling, Debbie Murray, Joe Mercado, Scott Patterson *Others Present:* Steve Cornell
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Chair Report *(Chair)* 5.1 Introduction of New CBOC Member Penny Halgren	▪ Member Halgren introduced herself to the Committee and staff. She was appointed by the San Diego County Taxpayers' Association, and has a background in finance. Member Halgren is on the Governing Board at the La Mesa Spring Valley School District.

5.2 Farewell to Walter Heiser	▪ Former CBOC Member Heiser's service on the CBOC was recognized, though he was unable to attend the meeting.
5.3 Presentation on Design/Build – Steve Cornell	▪ Steve Cornell gave a presentation on design build to the CBOC. He is involved with the airport authority's terminal-two expansion. Mr. Cornell discussed different delivery methods they researched and why they chose design build for their projects. ▪ Mr. Cornell described different construction approaches and the process the airport authority went through to select theirs. ▪ Mr. Kiesling explained the difference between lease-lease back and design build.
6.0 Governing Board Update *(S. Patterson)*	
6.1 12th High School Appraisals (September 10)	▪ Mr. Patterson stated that the Governing Board had approved three appraisals for the land that would need to be purchased for the 12th high school site.
6.2 Recognition of Walter Heiser (September 10)	▪ Mr. Patterson stated that there was a nice recognition for former CBOC Member Walter Heiser at the Governing Board meeting.
6.3 Designation of San Diego County Taxpayers' Association to CBOC (September 10)	▪ Mr. Patterson stated that the Governing Board officially designated the San Diego County Taxpayers' Association to appoint a representative on the CBOC.
6.4 Ratification of Penny Halgren as San Diego County Taxpayers' Association Representative (September 10)	▪ Mr. Patterson stated that the Governing Board ratified Member Halgren's membership.
6.5 Approval of Aquatic Facilities Architect – Trittipo Architecture (September 10)	▪ Mr. Patterson pointed out that three pools would be completed under Proposition U. He stated that this is a specialty architecture field and that Trittipo was selected and approved.

7.0 Program Manager Report *(K. Wright)* 7.1 September Progress Report	▪ Mr. Kiesling presented the progress report to the CBOC. He discussed images in the report of projects in progress and completed at school sites. ▪ Mr. Kiesling stated that about 80% of Homestead had moved onto four different campuses as part of the Plus Program. ▪ Mr. Kiesling discussed briefly the butadiene and arsenic problems at Granite Hills High School that set the project back a year. ▪ Mr. Kiesling mentioned that 18 air handling units were replaced at Valhalla High School. He stated that the project was completed in two months and that was a lease-lease back contract. ▪ Mr. Kiesling stated that portables were put in at Chaparral, including one for the Plus Program ▪ Mr. Kiesling stated that he believed El Cajon Valley High School's science classroom building would be completed in December. ▪ Mr. Kiesling stated that design work was in progress for Viking Center after being on hold for a year. ▪ Mr. Kiesling stated that the program at Work Training Center was being reevaluated and that it would still be modernized, though the educational programming would be different. ▪ Mr. Kiesling discussed the property acquisition process on five properties. He stated that two properties had agreed to sell. ▪ Mr. Kiesling stated that meetings had been held with the Alpine community to receive input on design and educational planning. He stated that after all input has been received, design could begin. ▪ Mr. Kiesling stated that the Viejas tribe had been speaking with other tribes in the area to fund a museum on the site for the artifacts found during construction. He stated that an archaeologist would be required to be present during rough and final grading on the site.

7.1 September Progress Report (Continued)	▪ Mr. Patterson stated that the trigger point for construction on the new high school would be based on enrollment figures at the time the District is ready to release the invitation for bids for construction. He stated that this would most likely occur in October 2010. ▪ Mr. Kiesling discussed recently installed tracks and fields.
8.0 Audit & Finance Subcommittee Report	▪ Member Mathews stated that the selection of a Subcommittee Chair would be on the Subcommittee's October meeting agenda. ▪ Chairman Panknin appointed Member Halgren to the Audit & Finance Subcommittee. ▪ Member Findley stated that the next Audit & Finance Subcommittee meeting would be held on Thursday, October 22 at 5:30 p.m.
9.0 Communications Subcommittee Report *(J. Panknin)* 9.1 CBOC Booth at the October 3 Community Event	▪ Ms. Murray pointed out that the event would be held on Saturday, October 3, from 9:00 a.m. to 12:00 p.m. ▪ Ms. Murray stated that the Superintendent would sit at a table with the education specifications, and that the CBOC would have a table next to it. She pointed out that each school site would have a booth with site-specific information. ▪ Ms. Murray mentioned she would provide Chairman Panknin, Member Lear, and Member Levens-Craig with an information sheet to use to answer questions at the event. ▪ Member Levens-Craig mentioned that the District would be sponsoring a breakfast with the East County Chamber of Commerce and that the event would be discussed there as well. ▪ Member Mathews requested that a copy of the information sheet provided for the event be distributed to the CBOC.

9.2 Fall Report	▪ Chairman Panknin stated that the Subcommittee had been working on a fall handout which would include a matrix of Proposition U projects. He stated that the report would explain the background and history of Propositions H and U, and give directions to the District and CBOC websites.
9.3 Annual Report Timeline	▪ Chairman Panknin stated that the Subcommittee had begun working on the annual report and that a final draft would be available to the CBOC at the December meeting for final approval.
10.0 Construction Oversight Subcommittee Report *(L. Nichols)*	
10.1 Grossmont High School and Work Training Center Project Review Presentation *(Larry Goshorn)*	▪ Mr. Goshorn presented the Work Training Center and Grossmont High School project reviews to the CBOC. ▪ Mr. Goshorn stated that the total Proposition H budget at Work Training Center was $4.9 million, and that $800,000 had been spent at the time he drafted the report. ▪ Mr. Goshorn stated that he found that multiple people were tracking financial information and held meetings to reconcile everything to be added to the FACS report. ▪ Mr. Goshorn recommended that the CBOC continue to review information on state matching funds, especially as it once again becomes available on the state level again. ▪ Mr. Goshorn pointed out that about half of the budget had been expended for the Grossmont High School construction projects as of May 1. He stated that the various phases were all on schedule. ▪ Mr. Goshorn mentioned that there are audit reports that are required to be submitted to the state for state matching funds. He pointed out that those reports are based on warrants, and that he hadn't seen any data systems in place for it. ▪ Mr. Patterson stated that the District had been submitting reports on projects, though the District hadn't yet undergone

10.2 Grossmont High School and Work Training Center Project Review Presentation (Continued)	an audit. He mentioned that staff would report back to the CBOC after an audit has been completed. ▪ Chairman Panknin requested that Mr. Goshorn present a short version of his report to the Governing Board at their October 8 meeting.
10.3 Modernized Classroom Cost Per Square Foot Information	▪ Member Brindley stated that the Subcommittee met at Santana High School and walked the site of the new science classroom building. He stated that there were typical issues with a contractor on the project, who had since been replaced.
11.0 Steering & Planning Subcommittee Report *(M. Brant)*	
11.1 October Elections	▪ Chairman Panknin mentioned that elections would be held at the October 28 meeting for Chair and Vice Chair. He pointed out that the CBOC currently did not have a Vice Chair. ▪ Chairman Panknin requested that nominations and interest in serving as Chair or Vice Chair be emailed to Member Brant.
11.2 November/December Meeting Date	▪ **Chairman Panknin moved that future November and December CBOC meetings be combined and held on the first Wednesday of December. Member Lear seconded. Passed unanimously, 8/0.**
11.3 Controls Workshop	▪ Mr. Patterson pointed out that Gafcon's suggested that a workshop would be beneficial for all who work within the program to learn where there are gaps and redundancies in order to be more efficient. He stated that Gafcon presented a principle in Colbi Technologies to assist with this workshop. ▪ Mr. Patterson stated that the contract prohibited seeking Colbi Technologies from seeking work in the District unless the conflict of interest is waived by the District. He stated that the issue was

11.3 Controls Workshop (Continued)	brought before the Subcommittee as the workshop would be held before the CBOC meeting. ▪ Mr. Patterson pointed out that the Subcommittee recommended that a direct contract be made with Colbi Technologies for the workshop. ▪ Member Lear clarified that the Subcommittee discussed the issue in depth, and that it was a $1,000 contract. He stated that the Subcommittee wanted Mr. Goshorn and Colbi Technologies to be clearly independent from any conflict with respect to program management.
12.0 Staff Report	▪ Mr. Patterson pointed out that the District had a direct contract with Harris and Associates. He stated that the contractual relationship had ended between Harris and Gafcon, and that Gafcon staff would begin replacing the departing staff from Harris. ▪ Mr. Kiesling stated that a number of people had been interviewed and replacements had been selected. He stated that they would be transitioning throughout October. ▪ Mr. Kiesling pointed out that Gafcon hadn't picked up the equivalency of the FACS report, which is produced by Harris, and that the contract with Harris would continue to be extended until staff is comfortable with the report that Gafcon produces. ▪ Mr. Kiesling mentioned that the contract with Gafcon had been extended 90 days as recommended by the CBOC.
13.0 Old Business *(Chair)*	▪ No discussion or action.
14.0 New Business *(Chair)*	▪ No discussion or action.
15.0 Future Agenda Items *(Chair)*	▪ Guest Speaker: Lifecycle Management
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 6:48 p.m.

Grossmont Union High School District

Proposition H/U Citizens' Bond Oversight Committee

Wednesday, October 28, 2009

Grossmont High School, 500 Building - Library

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Chairman Panknin at 5:03 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Mendy Brant, Tim Brindley, Marcie Findley, Penny Halgren, Elana Levens-Craig. Rob Mathews, Larry Nichols, Jim Panknin, Sharon Smith *Members Absent:* Fred Lear Member Ashman arrived at 5:34 p.m. *Staff Present:* Patty Floyd, Larry Goshorn, Bob Kiesling, Joe Mercado, Scott Patterson, Katy Wright *Others Present:* Wayne Harvey
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with the correction to the spelling of Member Mathews' name. Seconded, Member Brant abstained, approved 8/1/0.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ No public comment. ▪ Member Levens-Craig gave a description of the Got Plans! fair and mentioned that it was highly attended. ▪ Member Levens-Craig announced that ten Israeli foreign exchange students had arrived earlier that day. She stated that they would be hosted at five schools and that students from the District would join them for four days in New York City, four days in Washington DC, and ten days in Israel.

5.0 Chair Report *(Chair)* 5.1 Wayne Harvey, San Diego Regional Airport Authority: Lifecycle Management	▪ Mr. Harvey was introduced to the Committee and gave a presentation on lifecycle management. ▪ Mr. Harvey defined a sustainable facility as being sustainable environmentally as well as maintainable over a long period of time. He stated that it focuses on the entire life of any facility from inception. ▪ Mr. Harvey pointed out that around 25% of what is spent on a facility is paid upfront before it is occupied for furnishing, outfitting, testing, design, and construction. ▪ Mr. Harvey stated that a facility ages from the first day it is in use. He described the various stages of deterioration over the years a facility is in use. ▪ Mr. Harvey discussed information on sinking funds. ▪ Mr. Kiesling pointed out that the District, on an annual basis, conducts a facility improvement inspection to assess the conditions for teaching and learning. ▪ Mr. Harvey discussed the facilities control index, which gives the facility a grade, telling where it is at in its lifecycle in relation to its age. ▪ Mr. Harvey stated that he thought it would be beneficial to have the maintenance team be a part of the process while the facility is being built. ▪ Mr. Harvey presented information on commissioning programs and stated that if a building is commissioned it would save money in the future. He stated that by commissioning the facility, it would be ensuring that everything is operating as it should. ▪ Mr. Goshorn pointed out that the idea of commissioning is not a new concept. He stated that it is something that should be done but rarely is. ▪ Mr. Kiesling stated that staff agreed that commissioning is a good idea, and that it is necessary for the District's new facilities. ▪ Mr. Harvey pointed out that a large amount of money could be saved by retro-commissioning, which is done on any building at any time in its life.

6.0 Governing Board Update *(S. Patterson)* 6.1 Introduction of Rob Mathews as FEI Representative to CBOC (October 8)	▪ Mr. Patterson stated that Member Mathews was introduced to the Governing Board at the October 8 meeting.
6.2 Re-designation of Elana Levens-Craig as PTSA Representative (October 8)	▪ Mr. Patterson stated that Member Levens-Craig's membership was confirmed and re-designated for a second term.
6.3 Approval to Advertise for Community-at-Large CBOC Representative (October 8)	▪ Mr. Patterson mentioned that it had been approved to advertise for the membership vacancy left from Member Nichols' term ending. He stated that there had been 13 applicants and that a screening committee consisting of two CBOC members and one Board member would narrow the field down to three applicants to be interviewed at the November 12 Board meeting.
6.4 Acceptance of Offers by Owners to Sell Property to District (October 8)	▪ Mr. Patterson stated that the Board had accepted the offers to sell the property.
6.5 Ratification of Renewal Agreement with Colbi Technologies for CBOC Support (October 8)	▪ Mr. Patterson stated that the contract with Colbi Technologies had been renewed.
7.0 Program Manager Report *(K. Wright)* 7.1 Board Report	▪ Ms. Wright presented the monthly Board report to the Committee. ▪ Ms. Wright stated that the Mount Miguel High School Phase 2B modernization would be complete in April 2010. ▪ Ms. Wright stated that El Cajon Valley High School Phase 3A science classrooms would be the first ones completed, and that El Capitan would finish shortly after. ▪ Ms. Wright pointed out that the Phase 3A science classroom project at Granite Hills High School would finish in July 2010 due to the delay brought on by issues with contaminated soils at that site. ▪ Ms. Wright pointed out that Phase 3A science classrooms would complete at Monte Vista High School in April 2010 and Santana High School in March 2010. ▪ Ms. Wright stated that a field was installed at Chaparral High School and that drainage issues had been addressed.

7.1 Board Report (Continued)	▪ Ms. Wright mentioned that there had been discussion at the Board meeting regarding the future of Viking Center and Work Training Center. She stated that the program had been put on hold so that Special Education staff could reevaluate the programming at those locations. She mentioned that staff wanted the modernization of those facilities to match the curriculum. ▪ Mr. Kiesling stated that final clearance was giving on the butadiene, and that the District was cleared with the Department of Toxic Substances Control. He pointed out that the butadiene ended up being a non-issue.
7.2 New High School Status	▪ Ms. Wright stated that design, public outreach, and land acquisition had commenced for the new high school. She stated that a public meeting was being held in Alpine that night (October 28) to continue to gather public input. ▪ Ms. Wright stated that the Board took action on two parcels of land and that staff had been working on the others involved. She stated that appraisals had been underway for the balance of properties.
8.0 Audit & Finance Subcommittee Report *(R. Mathews)*	
8.1 FACS Report	▪ Member Mathews discussed the FACS report with the Committee, pointing out the changes from the last two months. ▪ Ms. Wright pointed out that the increase in expenditures was due to the volume of work. She stated that projected savings were lower because of corrections to records. ▪ Ms. Wright pointed out that nearly $10 million in bid savings had been previously moved to the program reserve.
8.2 Annual Audit	▪ Member Mathews pointed out that the audit was still in draft form and that it was going through the final review stages. ▪ Member Mathews stated that procedures related to staff salaries being properly accounted for were reviewed and found to be without exceptions.

8.2 Annual Audit (Continued)	▪ Member Mathews stated that there was a preliminary audit finding regarding projects under $30,000 and the appearance of bid splitting. He stated that the auditors had received the staff's response the day of the Subcommittee meeting, and that it would be reviewed and added into the audit report. ▪ Member Mathews stated that the Subcommittee would review the audit again with staff at their next meeting and then bring it before the CBOC at a future meeting.
9.0 Communications Subcommittee Report *(J. Panknin)*	▪ Chairman Panknin presented an updated draft of the annual report and asked for suggestions from the CBOC as to content and format.
10.0 Construction Oversight Subcommittee Report *(L. Nichols)*	▪ Member Nichols stated that the Subcommittee had met at Santana High School and that they attended the Owner's meeting. He stated that the group in the meeting had seemed unhappy with a contractor on the project. ▪ Member Nichols stated that as observers once a month, the Subcommittee had a hard time getting a sense of whether those concerns were justified, and have concerns on when the project would be completed. ▪ Ms. Wright pointed out that the contractor was on three different sites and that they would not be pulled from the project at Santana High School. ▪ Mr. Patterson pointed out that the contractor had been prequalified for the project. He stated that the only way the District would not use the lowest responsible bid is with a lease-lease back project. ▪ Member Ashman suggested that by going with the lowest bid and providing the contractor with three jobs, they might have been spread too thin.
10.1 Joint Meeting with Steering & Planning	▪ Member Nichols stated that the Subcommittee was interested in holding a joint meeting with the Steering & Planning Subcommittee in order to review the District's maintenance program.

10.2 Chairman Selection	▪ It was announced that Member Brindley would replace Member Nichols as Chair of the Construction Oversight Subcommittee.
11.0 Steering & Planning Subcommittee Report *(M. Brant)* 11.1 Recognition of Debbie Murray 11.2 Bus Site Tour	▪ **Member Brant moved that the CBOC accept the Steering & Planning Subcommittee's recommendation that Debbie Murray be singled out for commendation with respect to the community event on October 3 at both the regular CBOC meeting and the November 12 Governing Board meeting. Member Levens-Craig seconded, motion passed unanimously.** ▪ Member Brant stated that the Steering & Planning Subcommittee recommended that staff organize a bus tour for the CBOC, Governing Board, and public to visit school sites to view ongoing construction, as well as the new high school location. ▪ Chairman Panknin pointed out that it would be a publicly-noticed meeting and that it had been done previously when he began his first term on the CBOC. ▪ Member Ashman extended an invitation for the CBOC to attend Construction Oversight Subcommittee meetings at school sites to see construction in progress as well.
12.0 Staff Report	▪ Mr. Patterson thanked the CBOC on behalf of Debbie Murray for recognizing her work.
13.0 Old Business *(Chair)*	▪ Member Smith asked for an update on the ongoing situation with Gafcon and Harris & Associates. Mr. Patterson clarified that the District's contract with Harris had been extended another 30 days so that the transition of personnel and the FACS report would be complete.
14.0 New Business *(Chair)*	▪ Member Nichols thanked the committee for their hard work during his term on the CBOC. He recommended that the CBOC create an orientation for new members

14.0 New Business (Continued) 14.1 Elections	separate from the one given by staff in order to give specific information on the recent history of the CBOC, specifically from the Subcommittee to which they would be assigned. ▪ Member Brant read the election protocol to the Committee and requested nominations from the floor. o **Member Levens-Craig nominated Chairman Panknin to be Chair of the CBOC for another term.** o **Member Findley nominated Member Brant to be Vice Chair of the CBOC. Member Brant declined the nomination.** o **Member Brant nominated Member Levens-Craig for Vice Chair.** ▪ **Chairman Panknin was elected Chair of the CBOC for a third term unanimously.** ▪ **Member Levens-Craig was elected Vice Chair of the CBOC for a first term unanimously.**
15.0 Future Agenda Items *(Chair)*	▪ Brown Act Review ▪ Guest Speaker on Optimization ▪ Educational Technology (January/February)
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 6:47 p.m.

Grossmont Union High School District

Proposition H/U Citizens' Bond Oversight Committee

Wednesday, December 2, 2009

Grossmont High School, 500 Building - Library

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Chairman Panknin at 5:03 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Tim Brindley, Marcie Findley, Fred Lear, Rob Mathews, Jim Panknin, Jeff Wilson Members Ashman and Smith arrived at 5:25 p.m. Member Lear left at 6:00 p.m. *Members Absent:* Penny Halgren, Elana Levens-Craig *Staff Present:* Patty Floyd, Larry Goshorn, Bob Kiesling, Ken Leighton, Joe Mercado, Debbie Murray, Scott Patterson, Katy Wright *Others Present:* Kipp Baratoff, Tony Fulton
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with the grammatical changes presented by Member Findley. Motion seconded, Member Lear abstained, and all others were in favor. Motion passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Chair Report *(Chair)* 5.1 Introduction of New CBOC Member Jeff Wilson	▪ Member Wilson introduced himself to the Committee. He oversees construction

5.1 Introduction of New CBOC Member Jeff Wilson (Continued)	for Jack in the Box and has a child who attends Monte Vista High School. ▪ Chairman Panknin appointed Member Wilson to the Construction Oversight Subcommittee.
5.2 Guest Speaker – Kipp Baratoff	▪ Mr. Baratoff gave a presentation on green building. He presented various techniques for constructing a sustainable building. ▪ Mr. Baratoff mentioned ways to recycle water and maximize performance in a building. ▪ Mr. Baratoff pointed out that many utility companies are excited about buildings being built more efficiently.
5.3 Third Party Review – Tony Fulton	▪ Mr. Fulton presented the third party review to the Committee. He pointed out that he previously conducted a review in 2007 for the District. ▪ Mr. Fulton stated that he noticed that improvements have been made based on the recommendations from the 2007 report, including the addition of the consultant, program management, and improvements on website development and dissemination of project information. ▪ Mr. Fulton pointed out that the report made recommendations on dealing with allowances and contingencies, lease-lease back contracts, negotiating contractor savings with lease-lease back, and that the CBOC should be briefed on lease-lease back methodology. ▪ Mr. Fulton stated that the report recommended that Mr. Goshorn conduct more project reviews, and that either the project management or CBOC consultant conduct a post-performance report so the District can discover which contractors and architects performed well, as well as close out documents on the project. ▪ The Committee discussed the recommendations in the third party review with staff. ▪ Chairman Panknin stated that he would be introducing Mr. Fulton at the

5.3 Third Party Review – Tony Fulton (Continued)	December 10 Board Meeting to present the third party review. ▪ Chairman Panknin requested that the Construction Oversight Subcommittee review the recommendations in the report related to lease-lease back; the Audit & Finance Subcommittee review the lease-lease back recommendations from a financial point of view; and the Steering & Planning Subcommittee review recommendations for the CBOC and the policy and procedure manual. ▪ Mr. Kiesling stated that staff would be replying to each recommendation individually.
6.0 Governing Board Update *(S. Patterson)* 6.1 Selection and Appointment of New CBOC Member (November 12)	▪ Mr. Patterson stated that Member Wilson was interviewed and selected by the Board out of 11 other applicants.
6.2 Resolution Rendering Zoning Ordinance Inapplicable to New High School Property (November 12)	▪ Mr. Patterson stated that the Board has the authority to do this and that the resolution was passed.
7.0 Program Manager Report *(K. Wright)* 7.1 Monthly Board Report	▪ Ms. Wright stated that the science buildings were nearing completion at many sites. ▪ Ms. Wright pointed out that Mount Miguel High School was continuing work on Phase 2B modernization. ▪ Ms. Wright stated that the guaranteed maximum price for the Granite Hills High School science classrooms would be brought to the Board at their December 10 meeting. She pointed out that the project was converted to lease-lease back after the soil issues at the site caused a delay in construction. ▪ Ms. Wright stated that Viking Center and Work Training Center were both back in the design process after discussion on programming. She stated that it was proposed that the Viking Center be moved permanently to another

7.1 Monthly Board Report (Continued)	place on the same campus: a new building would be constructed, the students would be moved, and a different facility would be built after the old is torn down. ▪ Ms. Wright stated that the District had started outreach in the Alpine area, as well as land acquisition and conceptual efforts. She pointed out that the Alpine high school would be built for a student population of 800 and that other facilities on the site would include a performing arts center, administration buildings, a gym, and parking. ▪ Ms. Wright mentioned that concepts of sustainability would be incorporated into the design. ▪ Ms. Wright stated that the Viejas tribe had offered to fund the construction of a museum on the Alpine high school site to curate the artifacts found during construction.
8.0 Audit & Finance Subcommittee Report *(W. Heiser)*	▪ Member Mathews pointed out that the Subcommittee had reviewed the annual audit and that they would review the District's response to the audit finding at their meeting on December 9. ▪ Chairman Panknin stated that the audit would be presented to the Committee on January 27 and to the Governing Board on February 11.
9.0 Communications Subcommittee Report *(J. Panknin)*	
9.1 Mid Year Handout	▪ Chairman Panknin mentioned that the goal was to have printed copies of the Quick Reference Sheet available at the December 10 Board meeting. ▪ Chairman Panknin requested that any final changes be sent to Mr. Goshorn. He pointed out that the report would be edited in the future as projects change.
9.2 Annual Report	▪ Chairman Panknin requested a photo of the Construction Oversight Subcommittee to be included in the annual report.

9.2 Annual Report (Continued)	▪ Chairman Panknin requested that edits to the annual report be sent to Member Levens-Craig. ▪ Mr. Goshorn stated that he would have the final draft of the annual report translated into Spanish. Chairman Panknin asked that Mr. Goshorn check the amount of page hits on the 2008 Spanish annual report.
10.0 Construction Oversight Subcommittee Report *(L. Nichols)*	▪ Member Brindley stated that the Construction Oversight Subcommittee did not have a report as their meeting did not have a quorum.
11.0 Steering & Planning Subcommittee Report *(M. Brant)*	▪ Member Brant presented a plant to Ms. Murray in appreciation for her hard work on the October 3 Community Event.
11.1 Bus Site Tour	▪ Member Brant stated that the site tour would include Grossmont High School, El Cajon Valley High School, and the Alpine high school site, and would be held on either January 23 or 30. ▪ The Committee discussed which day to hold the site tour and agreed that January 30 would work for the majority of the Committee. ▪ Mr. Kiesling pointed out that the tour would begin at Grossmont High School. He stated that the science classroom building project is about 30% completed at that site, and that it is 100% at El Cajon Valley High School. He stated that the tour would be from 9:00 a.m. – 12:00 p.m. ▪ Member Brant stated that an RSVP from members of the public would be encouraged in order to ensure there are enough buses to accommodate all in attendance. ▪ Mr. Kiesling stated that the Board would be invited to attend as well.
12.0 Staff Report	▪ No discussion or action.

13.0 Old Business *(Chair)* 13.1 Brown Act Review	▪ Mr. Goshorn gave a presentation reviewing the main points of the Brown Act, including quorums, public attendance, agendas and postings, serial meetings, actions, and public access.
14.0 New Business *(Chair)*	▪ Member Brindley pointed out that prior CBOC Member Larry Nichols requested that an ad hoc committee be created to conduct an introduction to the Committee for new CBOC members. He stated that he would like to discuss it at a future meeting. ▪ Member Brindley stated that he would like to have a discussion with staff and the Committee on a sinking fund.
15.0 Future Agenda Items *(Chair)*	▪ 2008-2009 Audit Report Presentation ▪ 2009 Annual Report Presentation
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 6:55 p.m.

Grossmont Union High School District

Proposition H/U Citizens' Bond Oversight Committee

Wednesday, January 27, 2010

Grossmont High School, 500 Building - Library

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Chairman Panknin at 5:05 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Mendy Brant, Tim Brindley, Marcie Findley, Penny Halgren, Fred Lear, Elana Levens-Craig, Rob Mathews, Jim Panknin Sharon Smith arrived at 5:34 p.m. *Members Absent:* Jeff Wilson *Staff Present:* Larry Goshorn, Bob Kiesling, Joe Mercado, Debbie Murray, Scott Patterson, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with corrections to the meeting attendance as presented by Member Ashman. Motion seconded and passed 9/0.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Chair Report *(Chair)* 5.1 Quick Reference Sheets	▪ Chairman Panknin suggested that the CBOC hand out the quick reference sheets to the community and any interested organizations.

5.1 Quick Reference Sheets (Continued)	▪ The Committee agreed to revise the section regarding CTE opportunities in future publications to include verbiage including all students using the pathways as an opportunity to develop a post-secondary plan.
6.0 Governing Board Update *(S. Patterson)*	▪ No report was given.
7.0 Program Manager Report *(K. Wright)* 7.1 Monthly Board Report	▪ Ms. Wright presented and discussed the monthly Board report. ▪ Ms. Wright stated that the El Cajon Valley High School science classroom building had been completed and that the ribbon cutting ceremony would be held on Monday, February 1, at 7:30 a.m. ▪ Ms. Wright explained how change orders are handled and tracked. ▪ Ms. Wright mentioned that the land acquisition process for the new high school was progressing; the District had concluded negotiations on one parcel, and appraisals were ongoing with the remaining three parcels. ▪ Ms. Wright stated that planning was continuing for Phase 3BR. ▪ Ms. Wright mentioned that it would not be likely that the District would receive state funding in the near future. ▪ Ms. Wright stated that Proposition H design would continue followed by identification of project priorities for Board approval. ▪ Chairman Panknin assigned the review of the program cash flow to the Audit & Finance Subcommittee. ▪ Ms. Wright stated that the El Cajon Valley High School science building had been commissioned and that it had been useful in detecting issues. She stated that staff had been working on proposals for commissioning the balance of the new science classrooms.

8.0 Audit & Finance Subcommittee Report *(R. Mathews)* 8.1 FACS Report	▪ Member Mathews discussed the FACS report with the Committee, comparing the October and December reports. ▪ Member Mathews pointed out that as projects are completed, and if they are fortunate enough to have a surplus, the funds are put into reserves. Mr. Patterson stated that additional projects are planned as reserves are made known and secured.
8.2 2008-2009 Annual CBOC Audit Presentation	▪ Member Mathews presented the 2008-2009 audits to the Committee. ▪ Member Mathews pointed out that there had been one finding regarding projects and bids under $30,000 that appeared to be bid splitting, and that staff had provided a response to the finding. ▪ Mr. Patterson discussed bid splitting and the audit finding with the Committee. ▪ Member Halgren stated that she would present the audit to the Governing Board at their February 11 meeting. ▪ Member Ashman pointed out an error between two numbers in the audit, which was noted for correction. Member Halgren stated that she would make note of this correction for her presentation.
9.0 Communications Subcommittee Report *(J. Panknin)* 9.1 2009 Annual Report Presentation	▪ Chairman Panknin presented the 2009 annual report to the Committee. The Committee provided suggestions and feedback for the presentation to the Governing Board. ▪ Member Levens-Craig requested that the grammatical edits she provided be incorporated into the annual report. ▪ Ms. Wright pointed out that she would provide a new graphic for the report prior to publication.
10.0 Construction Oversight Subcommittee Report *(T. Brindley)*	▪ Member Brindley stated that the Subcommittee had been in the process of discussing their responsibilities and how best to fulfill them.

10.0 Construction Oversight Subcommittee Report (Continued)	▪ Member Brindley mentioned that the Subcommittee had discussed having Mr. Goshorn do a project review on the comparison between the lease-lease back and hard bid Phase 3A science building projects. ▪ Member Brindley stated that the Subcommittee had been discussing deferred maintenance and future involvement with the Steering & Planning Subcommittee regarding the issue. He suggested that the Construction Oversight Subcommittee attend the next Steering & Planning Subcommittee meeting for a briefing. ▪ Mr. Goshorn gave background information on prequalifying contractors and bidding requirements. He mentioned that lease-lease back is a popular method because the company can be selected without the traditional bidding process.
11.0 Steering & Planning Subcommittee Report *(M. Brant)*	▪ Member Brant stated that the high school construction site tour would be held on Saturday, January 30, from 9:00 a.m. to 12:00 p.m. and that it would begin at Grossmont High School. ▪ Member Brant mentioned that the Construction Oversight Subcommittee would attend the February Steering & Planning Subcommittee meeting. ▪ Member Brant requested suggestions for future new member orientations held by CBOC Members.
12.0 Staff Report	
12.1 Cash Forecasts and Project Priorities	▪ Cash forecasts and project priorities were discussed in the monthly Board report by Ms. Wright.
12.2 Staff Response to Third Party Review	▪ Chairman Panknin stated that staff had made comments on the recommendations presented in the third party review report. He pointed out that there were recommendations for the CBOC as well, and that he would like to discuss which recommendations to implement.

12.2 Staff Response to Third Party Review (Continued)	▪ Ms. Wright reviewed the third party review recommendations with the Committee and the responses provided by District staff.
13.0 Old Business *(Chair)* 13.1 CBOC Discussion and Possible Recommendation to the Governing Board Regarding the Third Party Review	▪ The Committee discussed the recommendations presented in the third party review report. ▪ Member Lear mentioned that at the January Steering & Planning Subcommittee meeting, it was requested that the chart presenting PMO cost be clarified. ▪ Chairman Panknin requested that staff provide information on lease-lease back and PMO to the CBOC. ▪ Chairman Panknin pointed out a recommendation regarding Mr. Goshorn conducting more project reviews. ▪ Mr. Goshorn stated that his budget is based on conducting at least three reviews, and that past reviews have come in under budget. ▪ The Committee agreed that one project review per quarter would be preferred and requested that Mr. Goshorn bring a proposal to the February 24 meeting. ▪ The Committee discussed closeout procedures with staff. Chairman Panknin requested that a report be created when Proposition H has been completed as an overall project closeout document.
14.0 New Business *(Chair)*	▪ Member Lear stated that he appreciated Ms. Pitones' work and accuracy on Committee and Subcommittee meeting minutes. All Members concurred.
15.0 Future Agenda Items *(Chair)*	▪ Green Building
16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 6:44 p.m.

Grossmont Union High School District

Proposition H/U Citizens' Bond Oversight Committee

Wednesday, February 24, 2010

Grossmont High School, 500 Building - Library

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Chairman Panknin at 5:04 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Tim Brindley, Marcie Findley, Fred Lear, Jim Panknin Rob Mathews arrived at 5:06 p.m. Penny Halgren arrived at 5:10 p.m. Ron Ashman arrived at 5:14 p.m. *Members Absent:* Elana Levens-Craig, Sharon Smith, Jeff Wilson *Staff Present:* Larry Goshorn, Bob Kiesling, Joe Mercado, Scott Patterson, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with the following corrections: *Agenda Item 13.1, 5th bullet:* Change "and" to "have." *Agenda Item 14.0:* "Member Lear stated that he appreciated Ms. Pitones' work and accuracy on Committee and Subcommittee meeting minutes. All Members concurred." ▪ Motion seconded and passed unanimously 6/0.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.

5.0 Chair Report *(Chair)* 5.1 Form 700 5.2 Annual Report and Annual Audit Governing Board Presentations	▪ Chairman Panknin reminded the Committee that the Form 700 deadline for return would be Monday, March 15. ▪ Chairman Panknin commended Member Halgren on her presentation of the 2008-2009 annual audit.
6.0 Governing Board Update *(S. Patterson)* 6.1 Acceptance of Offer by Owner to Sell Property (February 11) 6.2 IP Clock/Speakers at Steele Canyon High School (February 11)	▪ Mr. Patterson stated that the Governing Board had accepted a deal on the final residential parcel of land. ▪ Mr. Patterson pointed out that this item was not approved by the Board and that the unsuccessful low bidder had attended the meeting and mentioned that his bid was lowest though he had been disqualified for not providing DVBE information. ▪ Mr. Patterson stated that the item was withdrawn so that staff could return with a recommendation on rebidding the item. He pointed out that there were necessary scope changes to make which would delay the project, and that the changes would have been done through change orders if the bid had been approved.
7.0 Program Manager Report *(K. Wright)* 7.1 Monthly Board Report	▪ Ms. Wright presented and discussed the monthly Board report. ▪ Ms. Wright mentioned that the Phase 3A science classroom building at El Cajon Valley High School had been completed and opened on February 1. ▪ Ms. Wright mentioned the months of completion for each science classroom project and gave information on the Mount Miguel High School Phase 2B modernization project. She pointed out that Viking Center and Work Training Center were both still in the design phase.

7.1 Monthly Board Report (Continued)	▪ Ms. Wright mentioned that the CTE grant for El Capitan High School's agriculture program had been approved, though it remained unfunded. ▪ Mr. Patterson pointed out that the grants had been submitted and scored highly enough to move forward in the process and that they had not been rejected.
8.0 Audit & Finance Subcommittee Report *(R. Mathews)* 8.1 FACS Report	▪ Member Mathews reviewed the FACS report with the Committee. He pointed out changes from month to month on the forecasted surplus and/or deficit. ▪ Member Mathews mentioned that the Steele Canyon IP speaker project's scope had been changed, and that more money was forecasted for the project. ▪ Member Mathews pointed out that Steele Canyon High School's Phase 3BR track and field project had received funds from the County of San Diego through Dianne Jacob's office. ▪ Member Mathews mentioned that the committee had discussed the new high school location and how much money would be spent on the project prior to the enrollment trigger being met. ▪ The Committee discussed the enrollment trigger for construction on the new high school and the work to be completed prior to the trigger being met. ▪ Mr. Kiesling pointed out that grading and infrastructure work on the new high school site would begin after October, after enrollment data is available. ▪ Mr. Kiesling pointed out that design would need to be completed before the trigger is met. ▪ Member Mathews mentioned that the Subcommittee had reviewed the District's cash flow situation and stated that the Subcommittee would report more information on this at a future CBOC meeting.

9.0 Communications Subcommittee Report *(J. Panknin)* 9.1 Golden Watchdog Award	▪ Chairman Panknin stated that the Golden Watchdog Award nominations would be due on Friday, March 6 and that he had been working with Mr. Kiesling and Ms. Wright to submit a combined nomination for the District and the CBOC. ▪ Mr. Kiesling reviewed a handout presenting an outline of the information provided on the nomination.
10.0 Construction Oversight Subcommittee Report *(T. Brindley)*	▪ Member Brindley mentioned that the Construction Oversight Subcommittee had attended the Steering & Planning Subcommittee and reviewed information on deferred maintenance. ▪ Mr. Kiesling explained how Proposition H was created and pointed out that projects had later been prioritized after polling the community and taxpayers on which projects should be completed first. He mentioned that gyms had been at the bottom of the list of priorities after the survey had been completed. ▪ Mr. Kiesling pointed out that Proposition H listed more projects than could be completed with the money provided. ▪ Member Brant stated that open forums had been held at each school site for parents and community members to give feedback on project priorities for the campus, and that the Bond Advisory Commission reviewed priorities with school site staff as well. ▪ Member Lear pointed out that the Subcommittee had agreed to postpone discussion on deferred maintenance until staff could provide more information in summer 2010.
11.0 Steering & Planning Subcommittee Report *(M. Brant)* 11.1 Third Party Review Discussion and Recommendation	▪ Member Brant mentioned that staff requested more time before discussing the recommendations presented in the third party review.

11.1 Third Party Review Discussion and Recommendation (Continued)	▪ Member Brindley mentioned that the Construction Oversight Subcommittee had tasked Mr. Goshorn with reviewing the lease-lease back Phase 3A projects. Mr. Goshorn stated that he had been planning on bringing his work plan to the March Construction Oversight Subcommittee meeting. ▪ Member Lear suggested that the third party review be discussed at the March Steering & Planning Subcommittee meeting with staff and then brought before the CBOC for recommendation at the March 31 meeting. ▪ The Committee discussed the frequency of Mr. Goshorn's project reviews and discussed program management organization. Chairman Panknin requested that staff provide information on the program management as well as an organizational chart to the March 31 CBOC meeting.
12.0 Staff Report 12.1 Steele Canyon Clock/Speaker Project 12.2 Lease-Lease Back	▪ Discussion on this item was held during agenda item 6.2. ▪ Mr. Kiesling stated that a review of lease-lease back and been given to the Committee in December 2000, and discussed lease-lease back with the Committee. ▪ Mr. Goshorn mentioned that he would conduct a project review comparing three different lease-lease back projects. ▪ Mr. Kiesling listed the various projects in the District using the lease-lease back method.
13.0 Old Business *(Chair)*	▪ No discussion or action.
14.0 New Business *(Chair)*	▪ No discussion or action.
15.0 Future Agenda Items *(Chair)*	▪ Organizational Structure History Information

16.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 6:28 p.m.

Grossmont Union High School District

Proposition H/U Citizens' Bond Oversight Committee

Wednesday, April 28, 2010

Grossmont High School, 500 Building - Library

5:00 - 7:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Chairman Panknin at 5:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Mendy Brant, Marcie Findley, Penny Halgren, Elana Levens-Craig, Rob Mathews, Jim Panknin, Sharon Smith, Jeff Wilson Member Halgren arrived at 5:30 p.m. *Members Absent:* Tim Brindley, Fred Lear *Staff and Others Present:* Superintendent Collins, Cindy Douglas, Larry Goshorn, Dena Johnson, Bob Kiesling, Mike Lewis, Joe Mercado, Scott Patterson, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with the following changes: **Item 3.0:** *"Member Mathews"* changed to *"Member Ashman"* **Item 11.1:** *"Mr. Patterson and Mr. Kiesling assured the Committee that they would be notified and consulted prior to any work on the new high school site if the enrollment trigger has not been met."* Motion seconded, Members Mathews and Brant abstained, passed 6/0/2.

4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ Members of the public introduced themselves to the Committee.
5.0 Staff Report	▪ Mr. Patterson stated that the District would not be using a La Mesa-Spring Valley School District facility for the Homestead/Frontier program as originally considered. ▪ Chairman Panknin tasked the Audit & Finance Subcommittee with reviewing funding related to the Homestead/Frontier project. ▪ Mr. Kiesling pointed out that the Homestead/Frontier project would be funded with developer fees. The Committee discussed funding for the Homestead/Frontier relocation and Work Training Center modernization with staff.
5.1 New High School	▪ Mr. Lewis discussed the process through which the new high school had been designed for the instructional program and facility. ▪ Mr. Lewis and Ms. Douglas presented the "Big Picture" model with the Committee, including the philosophy behind it and the design of the facility. ▪ Ms. Douglas discussed the advisory structure as well as innovative opportunities for students, including internships, projects, college coursework, certification courses, and travel for credit. ▪ Ms. Johnson presented the physical plan for the high school and described how it matched with the instructional program. ▪ Ms. Johnson discussed the components of Phase 1 of construction, which would include the wellness building, multipurpose facility, parking, and two "pods" of classrooms. She described extra features that could be constructed with fundraising or cost savings, including a performing arts complex and fields.

5.1 New High School *(Continued)*	▪ Mr. Patterson presented the budget for construction of the new high school. He stated that staff would propose to the Board that the budget be adjusted to include funds from program reserves for Phase 1.
5.2 Project Priorities	▪ Ms. Wright stated that staff did not originally foresee a change in the state funding situation and that the situation was not as dire as originally projected. ▪ Ms. Wright stated that Phase 3BR projects were in design and would go to DSA for review. ▪ Chairman Panknin suggested that the Committee discuss the cash constraints with staff at the June 30 meeting. ▪ Ms. Wright stated that staff would provide an update on the state funding situation on a monthly basis.
6.0 Governing Board Update *(S. Patterson)*	
6.1 M.A. Stevens Lawsuit (April 15)	▪ Mr. Patterson stated that staff reviewed the details of the lawsuit with the Board.
6.2 Rescind Motion to Name 12th High School After Ronald Reagan (April 15)	▪ Mr. Patterson pointed out that there was originally a motion to name the new high school after Ronald Reagan, and that the motion was rescinded.
6.3 Approval for Superintendent to Establish Committee for Naming Suggestions (April 15)	▪ Mr. Patterson stated that after the motion was rescinded to name the high school it was approved that the Superintendent would establish a naming committee.
6.4 Resolution Determining that Inadequate Science Facilities Exist (April 15)	▪ Mr. Patterson pointed out that this resolution established the right to claim reimbursement from the state. He stated that this was an action to preserve the District's place in line to claim costs.
6.5 Upcoming Board Items	▪ Mr. Patterson pointed out that this agenda item was created as requested by the Committee and that future agenda would contain information on upcoming Board items.

7.0 Program Manager Report *(K. Wright)* 7.1 Monthly Board Report	▪ Ms. Wright stated that Grossmont and Helix High Schools' science classroom buildings were expected to be completed in May, and that Granite Hills was originally projected to be completed in September though now it is expected to be complete in August. ▪ Ms. Wright pointed out that Valhalla High School's science classrooms would be completed in May. ▪ Ms. Wright stated that the Viking Center and Work Training Center were in the design and development stage. ▪ Ms. Wright mentioned that the District made offers on three parcels of land for the new high school. ▪ Ms. Johnson thanked Member Ashman for assisting the District with the RFQ review and selection.
8.0 Audit & Finance Subcommittee Report *(R. Mathews)* 8.1 FACS Report and Financial Status Summary Reports	▪ Member Mathews stated that the Subcommittee discussed the cash position and reviewed the Proposition H and U FACS reports with staff.
9.0 Communications Subcommittee Report *(J. Panknin)* 9.1 Golden Watchdog Award	▪ Chairman Panknin mentioned that the District and CBOC were finalists for the "It's About Time" Golden Watchdog Award. He stated that the award dinner would be held on May 20.
10.0 Construction Oversight Subcommittee Report *(T. Brindley)*	▪ Member Ashman stated that Members Smith and Brindley toured the Valhalla High School science classroom building, which was near completion.
11.0 Steering & Planning Subcommittee Report *(M. Brant)*	▪ Member Brant stated that the Subcommittee was continuing to review the District's maintenance assessment plan. She mentioned that staff would return with more detailed information at

11.0 Steering & Planning Subcommittee Report *(Continued)*	a future Subcommittee meeting. ▪ Member Brant pointed out that the entire Subcommittee would end their second term at the same time. She requested that members interested in serving on the Steering & Planning Subcommittee begin attending meetings to become familiarized with the information reviewed at the meetings. ▪ Members Findley and Levens-Craig volunteered to attend future subcommittee meetings.
12.0 Old Business 12.1 Permits for Well Drilling	▪ Mr. Kiesling stated, in response to Member Ashman's question at the March 31 CBOC meeting, that staff had reviewed this and mentioned that the well that the District will be drilling would have a permit.
13.0 New Business	▪ Ms. Wright presented the Program Management quarterly report, which included a comprehensive schedule and budget update. She mentioned that the report is posted on the construction website. ▪ Ms. Wright pointed out that the report was originally produced on a monthly basis, but that staff decided that it would be more meaningful and comprehensive if produced on a quarterly basis. She stated that the executive summary of the report would be distributed to the Committee as the reports are published on a quarterly basis.
14.0 Future Agenda Items *(Chair)* 14.1 Construction Management Trends *(May 26)*	▪ Mr. Kiesling stated that this item would be brought to the Audit & Finance Subcommittee.
15.0 Adjournment *(Chair)*	▪ The meeting was adjourned at 6:45 p.m.

Grossmont Union High School District

Steering & Planning Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Monday, August 17, 2009

Grossmont Union High School District Office; Conference Room 1

4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear. Jim Panknin present via teleconference. *Staff Present:* Debbie Murray, Bob Kiesling, Scott Patterson, Katy Wright *Others Present:* Timothy Brindley, Yehudi Gaffen, Walter Heiser
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 October CBOC Elections	▪ Subcommittee Chair Brant pointed out that CBOC Member Heiser's term would be ending and that his last meeting would be August 26. ▪ CBOC Member Heiser stated that Lani Lutar from the San Diego Coutny Taxpayers' Association was aware of the upcoming vacancy and had been working on finding his replacement.

5.0 October CBOC Elections (Continued)	▪ Mr. Patterson mentioned that the San Diego County Taxpayers' Association had not yet been officially designated by the Governing Board as an organization to appoint a member. He stated that it would be brought before the Board at their September 10 meeting. ▪ Mr. Patterson stated that once the Taxpayers' Association has been designated, they would appoint a member to the Committee and the Board would ratify the membership. ▪ Subcommittee Chair Brant mentioned that officer elections would be held in October. She stated that she would contact the CBOC to ask for nominations for President and Vice President. ▪ Subcommittee Chair Brant pointed out that CBOC Member Levens-Craig's and CBOC Member Nichols' terms would be ending in October. She stated that she would contact them and ask if they would be interested in serving another two-year term. ▪ CBOC Member Brindley suggested that the subcommittee in which the new member would be appointed give a briefing on the information they review as well as the issues typically brought before the subcommittee so the new member can be brought up-to-date.
6.0 Construction Subcommittee Meeting Update – Work Training Center	▪ Subcommittee Chair Brant stated that she had attended the Construction Oversight subcommittee's meeting and that they had discussed Mr. Goshorn's project review of Grossmont High Schol and Work Training Center. ▪ Subcommittee Chair Brant discussed the information that was presented to the Construction Oversight Subcommittee at their meeting regarding Work Training Center and the cost of the project. She stated that the project budget went from $400,000 to $4 million. ▪ Mr. Kiesling clarified that the cost of Phase 1 was $400,000 and that the original total budget was close to $3.5 million.

6.0 Construction Subcommittee Meeting Update – Work Training Center (Continued)	▪ Mr. Kiesling pointed out that the Construction Oversight Subcommittee would give a full report of this information during their report to the CBOC at the August 26 meeting.
7.0 Proposition U Project Fair	▪ Ms. Murray stated that the Proposition U Project Fair would be held on Saturday, October 3, at 9:00 a.m. She stated that Catherine Martin would send out information to the community and Chamber of Commerce.
8.0 Attendance Log	▪ The attendance log was presented to the Subcommittee. She pointed out that these are received on a quarterly basis and that there did not seem to be any problems with attendance.
9.0 Other Business	▪ Mr. Patterson mentioned that Gafcon/Harris was hired as program management. He stated that the two companies had discontinued their business relationship effective in September and that Harris would no longer be a part of program management. ▪ Mr. Patterson pointed out that there are staff members from both companies working on the Propostion H/U program. He stated that staff would be working with Mr. Gaffen in order to ensure a smooth transition. ▪ Mr. Patterson stated that the District has a contract with Gafcon, who had subcontracted with Harris. ▪ Mr. Gaffen stated that three Harris staff members had been working on the program and that Gafcon would attempt to retain one of the employees. He stated that he would ensure enough transition overlap to ensure the change would not impact the program. ▪ Mr. Patterson stated that staff had intended to continue and extend the contract with Gafcon. ▪ Member Lear suggested that staff continue on current terms with Gafcon and wait until the Third Party Review

9.0 Other Business (Continued)	has been published and reviewed prior to extending the contract. ▪ Member Lear proposed that the contract, by agreement, be extended 60-90 days. ▪ CBOC Chairman Panknin suggested that the CBOC comment on a recommendation brought forward by staff. ▪ **Subcommittee Chair Brant moved that Member Lear's recommendation be brought forward to the CBOC as follows:** ***The Subcommittee proposes that the CBOC recommend to staff that the contact with Gafcon be extended 60-90 days until after the Third Party Review has been completed and reviewed.*** **Member Lear seconded, passed unanimously.** ▪ CBOC Member Heiser pointed out that another CBOC member would need to be appointed to the Audit & Finance Subcommittee and that a Chair would need to be selected after his term ends. ▪ Member Lear suggested that the new member from the San Diego County Taxpayers' Association be appointed to the Audit & Finance Subcommittee.
10.0 Future Agenda Items	▪ Deferred Maintenance (October) ▪ Elections ▪ Member Vacancies
11.0 Adjournment	▪ The meeting was adjourned at 4:43 p.m.

4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin *Staff Present:* Bob Kiesling, Debbie Murray, Scott Patterson, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Membership 5.1 Reappointment of Elana Levens-Craig	▪ Subcommittee Chair Brant mentioned that CBOC Member Levens-Craig has stated that she would like to serve a second term on the CBOC.
5.2 New CBOC Member Application Process	▪ Subcommittee Chair Brant stated that CBOC Member Nichols did not request a second term. She pointed out that his last meeting would be the October 28. ▪ The Subcommittee agreed that the new member vacancy not be advertised requesting specific experience in construction.

5.2 New CBOC Member Application Process (Continued)	▪ The new member will be selected at the November 12 Governing Board meeting.
6.0 Elections	▪ Subcommittee Chair Brant stated that no member had volunteered to be nominated for Vice Chair or Chair. She stated that CBOC Member Findley had nominated Members Smith and Mathews for the positions. ▪ Subcommittee Chair Brant stated that if there she does not receive nominations prior to the October 28 meeting, they would be taken off the floor.
7.0 Funding Plan	▪ Mr. Patterson stated that the funding plan would be updated and brought before the Audit & Finance Subcommittee and CBOC on a quarterly basis.
8.0 Gafcon Dialogue	▪ Mr. Kiesling mentioned that a direct contract with Harris had been extended for another month, ending October 19, and that their employees would be pulled from the Proposition H/U project. ▪ Mr. Kiesling pointed out that Gafcon would replace Harris employees as they leave. ▪ Mr. Kiesling stated that the contract with Gafcon had been extended for 90 days. ▪ Mr. Kiesling stated that Gafcon had been working on perfecting a version of the FACS report, as the current report had been created by Harris.
9.0 CBOC November/December Meeting Dates	▪ Subcommittee Chair Brant requested that a date for the November/December meeting be set. She stated that the meeting would normally fall on the day before Thanksgiving, and mentioned that in 2008 the meeting was held the first week of December. ▪ CBOC Chairman Panknin proposed to hold all future November/December CBOC meetings on the first Wednesday of December rather than the last Wednesday of those months so that each

9.0 CBOC November/December Meeting Dates (Continued)	year is consistent. ▪ The Subcommittee agreed to this proposal and stated that it would be brought before the CBOC as a recommendation from the Subcommittee.
10.0 Gafcon/Controls Workshop	▪ Mr. Patterson pointed out that staff had been working on creating a controls function within program management. He stated that Gafcon proposed to hold a workshop for program management to learn where there are redundancies and gaps. ▪ Mr. Patterson stated that Gafcon offered to bring in a principle with Colbi Technologies to assist with this workshop. ▪ Mr. Patterson pointed out that there is a provision in the CBOC Consultant contract with Colbi Technologies for conflicts of interest. He stated that it could be waived with approval from the District and that staff would like to provide the waiver to Gafcon. ▪ Mr. Patterson stated that it would be a $1000 contract to bring in the one staff member for the workshop. ▪ Member Lear suggested that the CBOC or the District pay for the contract rather than Gafcon. ▪ The Subcommittee approved unanimously staff's recommendation to directly contract with Colbi Technologies for the controls workshop to be held Thursday, September 24.
11.0 Other Business	▪ Mr. Patterson stated that the San Diego County Taxpayers' Association had been designated by the Governing Board to appoint a member to the CBOC. He pointed out that Penny Halgren's membership had been ratified.
12.0 Future Agenda Items	▪ Update on Controls Workshop ▪ Election Nominations ▪ October 3 Community Fair

13.0 Adjournment	▪ The meeting was adjourned at 4:53 p.m.

Grossmont Union High School District

Steering & Planning Subcommittee

4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin *Staff Present:* Bob Kiesling, Debbie Murray, Katy Wright *Others Present:* CBOC Member Timothy Brindley Chairman Panknin left at 4:35 p.m.
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Elections	▪ Subcommittee Chair Brant mentioned that she hadn't received nominations for the offices of CBOC President and Vice President since the September Subcommittee meeting. ▪ Subcommittee Chair Brant stated that CBOC Member Levens-Craig mentioned that she was interested in the office of Vice President. Chairman Panknin stated that he would be willing to serve one last term as President if no others were nominated.

5.0 Elections (Continued)	▪ Subcommittee Chair Brant suggested that a new operational guideline or an amendment to the bylaws be created to establish a term limit for the officer positions. Chairman Panknin and Member Lear stated that they didn't believe it was needed.
6.0 Gafcon Dialogue	▪ Mr. Kiesling stated that Harris staff had been transitioning out with replacements brought in by Gafcon. He stated that there had been a two-week turnover with each new staff member, and that they were continuing to work on the new version of the FACS report.
7.0 Deferred Maintenance Plan	▪ Ms. Murray presented a handout on projected deferred maintenance, with information on the maintenance backlog and how Propositions H and U affect it. ▪ Ms. Murray pointed out that many buildings would be either modernized to the full extent or torn down and replaced. ▪ Mr. Kiesling mentioned that staff would present to theGoverning Board an annual report on the condition of the District's facilities once Proposition U has been completed. He stated that as buildings wear out over time, the Board would have an opportunity to add additional funds towards deferred maintenance. ▪ Ms. Murray stated that she had been working with the grants manager and other consultants to find extra funds to put into the program. ▪ The Subcommittee discussed joint-use District facilities with staff. Mr. Kiesling pointed out that many District facilities are currently used by the community and that they are charged on four levels: free, cost recovery, non-profit, and market rate use.
8.0 October 3 Community Event	▪ Ms. Murray stated that the event went well and that the members of the Governing Board thought highly of it. ▪ **Member Lear moved that the Steering & Planning Subcommittee**

8.0 October 3 Community Event (Continued)	**recommend to the CBOC that Debbie Murray be singled out for commendation with respect to the community event on October 3, at both the regular CBOC meeting and the November 12 Governing Board meeting. Subcommittee Chair Brant seconded. Passed unanimously.**
9.0 Bus Site Tour	▪ Member Lear mentioned that over two years ago, staff put together a public meeting that included a bus tour of the school sites to see construction progress. He suggested that another tour be arranged to view ongoing construction at various sites as well as the new high school location. ▪ Chairman Panknin requested that this be recommended to the CBOC at their October 28 meeting.
10.0 Other Business	▪ No discussion or action.
11.0 Future Agenda Items	▪ No discussion or action.
12.0 Adjournment	▪ The meeting was adjourned at 4:37 p.m.

1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:14 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Jim Panknin *Members Absent:* Fred Lear *Staff and Others Present:* Bob Kiesling, Ken Leighton, Penny McGrew, Scott Patterson, Debbie Murray *CBOC Members Present:* Tim Brindley
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 CBOC Meeting Location	▪ Subcommittee Chair Brant mentioned that a new location had been proposed by Grossmont High School staff to hold the CBOC meetings. ▪ Chairman Panknin requested that the meetings remain in the Grossmont High School Library.
6.0 Bus Site Tour Update	▪ Subcommittee Chair Brant suggested that the high school construction site tour be held on a Saturday, as it was in the past.

6.0 Bus Site Tour Update (Continued)	▪ The Subcommittee requested that the Committee be polled to find availability on January 23 or January 30. ▪ The Subcommittee discussed sites to be toured by the Committee. ▪ The Subcommittee requested that an RSVP system be set up to learn of community interest in the high school construction site tour in order to have sufficient space on District-provided buses.
7.0 CBOC Recognition of Debbie Murray	▪ Subcommittee Chair Brant mentioned that Ms. Murray was recognized for her work on the October 3 Community Event at both the CBOC meeting and the Governing Board meeting.
8.0 December Subcommittee Meeting	▪ The Subcommittee scheduled a Subcommittee meeting for Tuesday, January 19, and noted that they would not hold a meeting in December.
9.0 Other Business	▪ Mr. Kiesling presented the final draft of the Third Party Review to the Subcommittee. ▪ Chairman Panknin suggested that the final draft of the Third Party Review be sent via email to the CBOC for their review and preparation prior to the December 2 meeting. ▪ Mr. Kiesling mentioned that after the report is finalized by the CBOC, it would then be presented to the Board. ▪ Chairman Panknin suggested that Mr. Fulton present a brief summary of the Third Party Review to the Board at the December 10 meeting. ▪ Staff gave a brief overview of the findings and recommendations presented in the Third Party Review. ▪ The Subcommittee discussed the findings in the Third Party Review report.
10.0 Future Agenda Items	▪ Homestead Update

11.0 Deferred Maintenance Joint Meeting with Construction Oversight Subcommittee	▪ Ms. Murray presented and discussed an update version of the deferred maintenance spreadsheet. ▪ Ms. Murray pointed out that the report presented information on both the deferred maintenance plan as well as an assessment of what work would remain after Propositions H and U are completed and how to care for the current facilities. ▪ Ms. Murray discussed deferred maintenance with the Subcommittee. ▪ Ms. Murray stated that the plan would be put together building by building. ▪ Chairman Panknin requested that completed projects be removed from the list so it could be used as a scorecard listing remaining projects. ▪ The Subcommittee discussed deferred maintenance and sinking funds with staff.
12.0 Adjournment	▪ The meeting was adjourned at 5:20 p.m.

Grossmont Union High School District

Steering & Planning Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Monday, January 25, 2010

Grossmont Union High School District Office; Bond Trailer Conference Room

4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 4:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin *Staff Present:* Bob Kiesling, Debbie Murray, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Motion seconded; Member Lear abstained; motion passed 2/0/1.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Bus Site Tour Update	▪ The Subcommittee discussed the schedule for the high school construction site tour on January 30.
6.0 Maintenance Plan Update	▪ Chairman Panknin recommended that a lifecycle management plan be created to better understand the lifecycle costs of the District's modernization and new construction. ▪ Mr. Kiesling reviewed the three sources of funding for maintenance: ongoing maintenance funds, ongoing state funds, and deferred maintenance.

6.0 Maintenance Plan Update (Continued)	▪ Mr. Kiesling pointed out that the state had been giving less deferred maintenance funds than they had in the past, and that the District is temporarily not required to provide their share of the matching funds. ▪ Member Lear stated that he would not support a motion that would request a certain amount of funds be put aside for future maintenance needs. He stated that he would prefer the Committee draft of a document advising the Governing Board of future needs, recognizing the current fiscal situation, and recommending that when the economy improves serious attention be put on the issue. ▪ Chairman Panknin requested that the issue of lifecycle management be put on the February CBOC agenda. ▪ The Subcommittee agreed that the issue of lifecycle management be presented in a joint meeting with the Construction Oversight Subcommittee.
7.0 CBOC Member Orientation	▪ Subcommittee Chair Brant pointed out that CBOC Member Wilson had received an orientation from District staff, and suggested that the CBOC create a packet of information for future CBOC member orientations. ▪ Chairman Panknin suggested that future CBOC member orientations conducted by CBOC members be a casual discussion. ▪ Mr. Kiesling described to the Subcommittee the format and information provided at orientations conducted by District staff. ▪ Member Lear suggested that a summary of Committee activity from the past few years be created to provide at future orientations.

8.0 Third Party Review Response	▪ Mr. Kiesling stated that staff had made comments on the recommendations presented in the Third Party Review. ▪ Chairman Panknin recommended that the CBOC discuss and review the staff responses at the January 27 meeting. ▪ Ms. Wright reviewed and discussed staff responses to the recommendations in the Third Party Review report. ▪ Member Lear requested that staff provide additional data in explanatory form with respect to PMO overheads as related on page 16 of third party review. Staff agreed to provide this information.
9.0 Viking Center and Work Training Center Update	▪ Mr. Kiesling mentioned that since the November Subcommittee meeting, the District had decided to leave the Viking Center in its current location. He stated that the design would be presented to the staff and others involved with the Viking Center for review and possible changes. ▪ Mr. Kiesling pointed out that staff would review the design of the Work Training Center facility. He mentioned that the Superintendent envisions special projects for the Work Training Center to be brought before the Governing Board in the future.
10.0 Homestead Update	▪ Mr. Kiesling stated that about half of the students had been moved from the original Homestead location into the Plus Program at four campuses. ▪ Mr. Kiesling mentioned that staff had considered looking at a closed school site in the La Mesa-Spring Valley School District for relocation of other students in the program. ▪ Mr. Kiesling stated that funds used for the Homestead project were developer fees rather than Proposition H funds.
11.0 Attendance Log	▪ Member Lear suggested that Chairman Panknin decide on any action based on member attendance at CBOC and Subcommittee meetings.

12.0 Other Business	▪ Chairman Panknin presented the 2009 Quick Reference Sheet to the Subcommittee
12.0 Other Business (Continued)	▪ Chairman Panknin mentioned that he would invite members of the San Diego County Taxpayers' Association to the high school construction site tour on January 30.
13.0 Future Agenda Items	▪ Deferred Maintenance ▪ PMO
14.0 Adjournment	▪ The meeting was adjourned at 5:15 p.m.

Grossmont Union High School District

Steering & Planning Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Tuesday, February 16, 2010

Grossmont Union High School District Office; Conference Room 1

5:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brant at 5:30 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Fred Lear, Jim Panknin Jim Panknin left at 6:20 p.m. *Staff Present:* Bob Kiesling, Debbie Murray, Scott Patterson, Katy Wright *CBOC Members Present:* Ron Ashman, Tim Brindley, Sharon Smith
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with amendments to agenda item 8.0 as provided by Member Lear. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ Mr. Christopher Andrews requested information on the future of performing arts facilities on the El Cajon Valley High School campus. Subcommittee Chair Brant provided a 2009 Quick Reference Sheet and Mr. Kiesling pointed out that construction information is available on the District website.

5.0 Maintenance Plan Update 5.1 Lifecycle/Sinking Fund	▪ Mr. Kiesling presented information to the Subcommittee on the District's maintenance plan. ▪ Ms. Murray stated that the maintenance plan was a short-term plan to eliminate maintenance needs. She pointed out that eventually the report would provide information specific to every building on each site, including exact explanations and conditions of the buildings, lifecycle expectancies of HVAC units, and component lists for each campus. ▪ Ms. Murray stated that staff had been working on obtaining validated assessments of each campus. She pointed out that this was last completed in 2004 and that the report would most likely be brought to the Subcommittee in May 2010. ▪ Ms. Murray mentioned that the District would be assessing how much had been spent on utilities and would address components of energy savings. ▪ Mr. Kiesling stated that facilities would be assessed and that the report would be brought before the Governing Board on an annual basis. He stated that the Board would then be able to decide whether or not more money should be added to the maintenance program. ▪ Mr. Kiesling mentioned that a funding plan would be developed by June 2010. ▪ Subcommittee Chair Brant asked staff if the closing of a school site would be considered in order to save money. Mr. Kiesling stated that this would not be likely to happen, but that other facilities might be if needed. ▪ Mr. Kiesling mentioned that a boundary review was being conducted and that El Capitan, Granite Hills, and Steele Canyon High Schools would be the schools most likely to be impacted by the opening of the new high school in Alpine.

5.1 Lifecycle/Sinking Fund (Continued)	▪ Ms. Murray pointed out that ADA upgrades in several gyms throughout the District had been required by DSA. She stated that gyms at each school site would be the projects most likely to be unfunded as projects are prioritized and identified at each campus. ▪ The Subcommittee discussed deferred maintenance and the possibility of a sinking fund with staff. ▪ CBOC Chairman Panknin pointed out that the Steering & Planning Subcommittee had been reviewing information on deferred maintenance for several years. ▪ Member Lear pointed out that staff had previously requested more time to create their plan and report on deferred maintenance, and suggested that the Subcommittee allow them to complete their report. ▪ Subcommittee Chair Brant invited the members of the Construction Oversight Subcommittee to attend the May, June, and July Steering & Planning Subcommittee meetings in order to review future reports provided by staff.
6.0 Third Party Review Response	▪ Member Lear suggested that the discussion on the third party review be carried over until the March Subcommittee meeting.
7.0 High School Construction Site Bus Tour	▪ Subcommittee Chair Brant thanked staff for putting in time on Saturday, January 30 for the high school construction site tour. She stated that she appreciated the presentations given by staff, and that it was very informative and impressive.
8.0 Other Business	▪ No discussion or action.
9.0 Future Agenda Items	▪ Maintenance Plan Updates in May, June, and July. ▪ Third Party Review Discussion

Grossmont Union High School District

Steering & Planning Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Thursday, March 18, 2010

Grossmont Union High School District Office; Conference Room 1

4:30 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by CBOC Chairman Jim Panknin at 4:39 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Fred Lear, Jim Panknin *Members Absent:* Mendy Brant Member Lear left at 5:35 p.m. *Staff Present:* Bob Kiesling, Debbie Murray, Scott Patterson, Katy Wright *CBOC Members Present:* Ron Ashman, Tim Brindley
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Maintenance Plan Update	▪ Mr. Kiesling stated that staff did not have an update on the District's maintenance plan.

6.0 New School Construction Trigger	▪ The Subcommittee discussed the amount of work that would be completed before the enrollment trigger is met. ▪ Mr. Kiesling pointed out in the Proposition U bond language that District enrollment is required to be at a certain level prior to awarding construction contracts and that the project must be designed and through DSA at the time the enrollment is measured for the project. ▪ Mr. Kiesling mentioned that the project would be put on hold if the trigger is not met. ▪ Member Lear requested a list of work that would be done for the new high school prior to the trigger being met. ▪ Mr. Kiesling stated that the new high school project would include funds from both Proposition H and Proposition U. ▪ Mr. Kiesling stated that the District had planned on using the lease-lease back method when building the new high school.
7.0 Other Business	▪ Mr. Kiesling presented the Program Management Organization budget list and discussed it with the Subcommittee. ▪ Mr. Patterson discussed the previous lack of program management and changes to the program since Gafcon/Harris was hired in 2007. ▪ Mr. Patterson pointed out that employees with a percentage of their salaries charged to Proposition H/U have their work time certified, which is presented in the annual Proposition H/U audit report. ▪ Mr. Kiesling presented the program management organizational chart and pointed out the positions held by District and Gafcon employees. ▪ The Subcommittee discussed the cost difference between District and Gafcon employees. ▪ Chairman Panknin requested that the program management organization information be presented at the March 31 CBOC meeting.

7.0 Other Business (Continued) 7.1 Form 700	▪ CBOC Member Brindley mentioned that Mr. Goshorn had presented a proposal for future project reviews at the Construction Oversight Subcommittee meeting. He stated that the first review would compare two lease-lease back projects with a similar, non lease-lease back project. ▪ Ms. Wright provided a copy of the program management plan to Chairman Panknin. ▪ Chairman Panknin pointed out that the Form 700 was due to District staff by Monday, March 15.
9.0 Future Agenda Items *May* – Maintenance Assessment *June* – Maintenance Funding Plan *July* – Joint Meeting with Construction Oversight Regarding Maintenance Plan	▪ No discussion or action.
10.0 Adjournment	▪ The meeting was adjourned at 5:47 p.m.

Grossmont Union High School District

Steering & Planning Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Monday, April 26, 2010

Grossmont Union High School District Office; Conference Room 1

4:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Mendy Brant at 4:09 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Mendy Brant, Jim Panknin *Members Absent:* Fred Lear *CBOC Members Present:* Elana Levens-Craig *Staff Present:* Bob Kiesling, Debbie Murray, Scott Patterson, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Maintenance Plan Update 5.1 Maintenance Assessment	▪ Ms. Murray mentioned that an assessment of each campus had been conducted since the last Subcommittee meeting in order to create a complete list of the District's maintenance needs. ▪ Ms. Murray requested an additional 30 days to create a comprehensive report to be presented July 2010.

5.1 Maintenance Assessment (Continued)	▪ Ms. Murray stated that the data from the facilities assessment would be used to calculate the total deferred maintenance.
6.0 Golden Watchdog Award Update	▪ CBOC Chairman Panknin mentioned that the Proposition H/U program was selected as a finalist for the San Diego County Taxpayers' Association's "It's About Time" award, and that the award dinner would be held on Thursday, May 20.
7.0 May 13 Board Meeting Facilities Presentation	▪ Mr. Kiesling discussed an outline of the topics that would be discussed at the April 28 CBOC meeting and May 13 Governing Board meeting regarding the new high school. ▪ Mr. Kiesling stated that staff would not present the Proposition H/U project priorities due to the fact that there had been new developments, including the possibility of receiving state matching funds. ▪ Mr. Kiesling stated that the presentation would discuss the education plan, facility plan, budget ramifications, and the boundary study. He pointed out that the boundary study would not be discussed at the April 28 CBOC meeting. ▪ Mr. Kiesling stated that staff would discuss Superintendent Collins' vision for each component of Special Education and their facilities. ▪ Mr. Kiesling discussed the educational specifications for the new high school to Subcommittee Chair Brant. ▪ Subcommittee Chair Brant discussed school boundaries in Blossom Valley.
8.0 Project Priorities	▪ Mr. Kiesling presented the project priorities to the Subcommittee. He mentioned that staff had originally believed there would not be a chance of receiving state matching funds and that there now might be an opportunity to receive funds in the near future. ▪ Mr. Kiesling stated that projects would continue to be designed and sent for DSA approval.

8.0 Project Priorities (Continued)	▪ Mr. Kiesling reviewed the projects that had a chance of being impacted by the lack of state matching funds. ▪ Subcommittee Chair Brant requested an update on state matching funds at the May Subcommittee meeting.
9.0 Other Business	▪ Ms. Wright presented the quarterly Proposition H and U report which included schedules and change orders. The Subcommittee requested that the executive summary of the report be presented to the CBOC at their April 28 meeting. ▪ Mr. Kiesling gave an update on the Alpine high school land acquisition process.
10.0 Future Agenda Items	▪ State Funding Update ▪ Future Subcommittee Members
11.0 Adjournment	▪ The meeting was adjourned at 4:45 p.m.

Construction Oversight Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Tuesday, August 11, 2009

Grossmont Union High School District; Bond Trailer

9:00 a.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Nichols at 9:19 a.m.
2.0 Roll Call *(Recording Secretary)*	▪ Not enough members were present to make a quorum. *Members Present:* Tim Brindley, Larry Nichols *Members Absent:* Ron Ashman, Sharon Smith *Staff Present:* Steve Dow, Sean Dunbar, Larry Goshorn, Bob Kiesling, Katy Wright *Others Present:* Mendy Brant, Carmen Vann
3.0 Approval of Minutes *(Chair)*	▪ The minutes were unable to be approved due to lack of quorum.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Discussion of Grossmont High School Owner's Meeting	▪ Subcommittee Chair Nichols mentioned an issue surrounding the replacement of the electrical contractor at Grossmont High School and the backlog of things to be done to resolve this issue. ▪ Mr. Dow stated that the previous project inspector had been replaced due to quality of work. Ms. Wright pointed out that he was replaced with the full support of the architect as well as DSA. ▪ The Subcommittee discussed construction issues with staff that had been brought up at the owner's meeting.

6.0 Construction Update	▪ Ms. Wright presented a handout containing images from current construction projects throughout the District. ▪ Ms. Wright mentioned that the Granite Hills High School Phase 3A science classroom project would begin in September. ▪ Ms. Wright stated that track and field construction projects would be completed by the beginning of the school year. ▪ Ms. Wright discussed a contractor who had originally bid on the Granite Hills High School Phase 3A project and had agreed to a time extension on their bid that expired in June. She stated that the project had since been converted to lease/lease back with Erickson Hall. ▪ Ms. Wright stated that staff gave the notice to proceed on arsenic removal and excavation of soils at Granite Hills High School. She stated that the architect was changing as well at that campus.
7.0 Change Order Report	▪ Mr. Dunbar presented the change order report to the Subcommittee and discussed change orders and allowances. ▪ Mr. Dunbar pointed out that change orders had been low since the last time the report was reviewed and that not all projects had been updated on the report.
8.0 Project Review Update	▪ Mr. Goshorn presented and gave an overview of a draft of the Grossmont High School and Work Training Center project reviews. ▪ Mr. Goshorn stated that he reviewed best practices, regulatory requirements, project funding, and the budget schedule, as well as compared completed work against bond language for the Work Training Center review. He stated that he reviewed internal logs, change order tracking, and financial reports that are presented to the CBOC. ▪ Mr. Goshorn stated that he believed the budget for the Work Training Center had changed from $400,000 to $4 million and that there would be a significant renovation of the facility.

8.0 Project Review Update (Continued)	▪ The Subcommittee discussed the function of the facility and that the HVAC would need to be replaced due to the fact that it was over 35 years old. ▪ The Subcommittee discussed the Work Training Center project with Mr. Goshorn and staff. ▪ Ms. Wright stated that the design plans for Work Training Center reflect what the previous Director of Special Education had wanted, and that the current Director has been reevaluating the program. ▪ Ms. Wright stated that staff would evaluate the program based on programming at the site and that they would look at other options, including best use of modernization dollars. ▪ The Subcommittee discussed the Work Training Center site and possible changes to the location. ▪ Mr. Goshorn stated that he reviewed the same items for the Grossmont High School project review as he did for the Work Training Center. ▪ Mr. Goshorn stated that he had interviewed Mr. Dunbar and Mr. Dow, as well as walked through the Grossmont High School campus while conducting his review. ▪ Mr. Goshorn mentioned that he discussed the future of state funding with Ms. Debbie Murray. ▪ Mr. Goshorn stated that he found a good set of internal controls, and that there was a good method of handling and documenting invoice disputes. ▪ Mr. Goshorn reviewed costs, allowances, and change orders at Grossmont High School with the Subcommittee.
9.0 Other Business	▪ No discussion or action.
10.0 Future Agenda Items	▪ Deferred Maintenance Program – October ▪ Cost per Square Foot for Phase 2B
11.0 Adjournment	▪ The meeting was adjourned at 10:46 a.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Wednesday, September 23, 2009
Santana High School, Room 1405
11:30 a.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Larry Nichols at 11:32 a.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Tim Brindley, Larry Nichols *Members Absent:* Sharon Smith *Staff Present:* Sean Dunbar, Joe Mercado
3.0 Approval of Minutes *(Chair)*	▪ The July 8 minutes were moved to be approved as presented. Seconded and passed unanimously. ▪ The August 11 minutes were moved to be approved as presented. Member Ashman abstained. Seconded and passed.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Discussion of Santana High School Owner's Meeting	▪ The Subcommittee discussed the Santana High School construction schedule and possible weather-related delays. ▪ Subcommittee Chair Nichols pointed out that there weren't any subcontractors in attendance at the owner's meeting.

6.0 Change Order Report	▪ Mr. Dunbar presented and discussed the change order report with approved change orders through August 31 for Phase 3A science classrooms. ▪ Mr. Dunbar pointed out that there wasn't data for the Granite Hills High School project as it had just started. ▪ Mr. Dunbar mentioned that Grossmont High School would soon have more potential allowances and change orders as the project progressed. ▪ The Subcommittee discussed the change order log with Mr. Dunbar. ▪ Mr. Dunbar pointed out that only board-approved change orders would be reflected in the report. ▪ Mr. Dunbar clarified that "off site" meant off the designated work area. ▪ Mr. Dunbar mentioned that change orders for projects using the lease-lease back method should remain low due to the fact that they have owner's contingency funds that would be tapped into by the contractors.
7.0 Construction Update	▪ Mr. Dunbar mentioned that the construction project at Valhalla High School was close to being right on schedule and that Monte Vista High School's Phase 3A construction was two weeks ahead of schedule.
8.0 Modernized Classroom Cost per Square Foot Information	▪ Mr. Dunbar presented a report with information on the cost per square foot in modernized classrooms. ▪ Mr. Dunbar pointed out that the project at Valhalla High School was not typical Phase 2B work. He stated that it would be difficult to interpret the cost per square foot on this project. ▪ Mr. Dunbar stated that Granite Hills High School's project tends to stand out due to the higher bid and lower square footage. ▪ Subcommittee Chair Nichols requested that the report be included in the CBOC agenda packets.

9.0 Report on Deferred Maintenance Plan	▪ The Subcommittee discussed the role of the CBOC in relation to the deferred maintenance plan. ▪ It was pointed out that deferred maintenance was a task assigned to the Steering & Planning Subcommittee. ▪ Member Ashman stated that he believed information on deferred maintenance needed to be shared with the public, including through the annual report. ▪ Member Brindley pointed out that funds should be saved over time so that there would not be maintenance issues in the future. ▪ Member Brindley stated that he believed the CBOC would need to learn if the District had a maintenance plan that shows they would not need another bond. ▪ Member Ashman pointed out that the Proposition H bond language mentioned that the deferred maintenance problem was supposed to be eliminated by the end of Proposition H.
10.0 Subcommittee Structure	▪ Subcommittee Chair Nichols stated that his last meeting with the CBOC would be in October, and that he would not be requesting a second term. ▪ Subcommittee Chair Nichols described the duties of Subcommittee Chair and gave insight on the prior structure of the Subcommittee. ▪ Member Ashman suggested that the Subcommittee hold a joint meeting with the Steering & Planning Subcommittee. ▪ Subcommittee Chair Nichols stated that at the October Subcommittee meeting, a new Chair would be selected.
11.0 Other Business	▪ Subcommittee Chair Nichols pointed out that at a previous meeting the Subcommittee requested feedback from the District regarding Work Training Center and other options for the program and building. ▪ Mr. Dunbar pointed out that Mike Talle

11.0 Other Business (Continued)	would be walking the site with the same concerns and might gain data from the visit. ▪ The Subcommittee discussed the tax rate.
12.0 Future Agenda Items	▪ Maintenance Program ▪ Subcommittee Structure
13.0 Adjournment	▪ The meeting was adjourned at 12:53 p.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Wednesday, October 21, 2009

Santana High School, Room 1405

11:30 a.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Nichols at 11:30 a.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Tim Brindley, Larry Nichols *Members Absent:* Sharon Smith *Staff Present:* Sean Dunbar, Penny McGrew, Joe Mercado *Others Present:* CBOC Member Elana Levens-Craig
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved with the change of the word "subcontractors" to "contractors" in item 5.0. Motion seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Discussion of Owner's Meeting	▪ The Subcommittee discussed the Santana High School construction schedule with staff. Member Brindley pointed out that the original date of completion was in December but had been moved to January.

5.0 Discussion of Owner's Meeting (Continued)	▪ The Subcommittee discussed the conflict with the construction schedule and completion date. ▪ Subcommittee Chair Nichols suggested that the Subcommittee, for their November meeting, return to Santana High School for an update, or El Cajon Valley High School to see the Phase 3A project near completion.
6.0 Change Order Report	▪ No report was provided for discussion. ▪ The Subcommittee discussed with staff the types of reports they would like to review at future Subcommittee meetings.
7.0 Construction Update	▪ Mr. Dunbar stated that Phase 2B modernization projects were still underway, and that construction at Foothills Adult had been closed and completed. ▪ Mr. Dunbar pointed out that the Phase 2B project at Valhalla High School was in the close-out process. ▪ Mr. Dunbar mentioned that Mount Miguel High School had the biggest Phase 2B project underway and that several buildings had been completed. He stated that construction was originally projected to be complete in June and that now it may be finished as early as April or May. ▪ Mr. Dunbar stated that the programming effort had been completed for Viking Center and that it was in the design phase. ▪ Mr. Dunbar stated that all Phase 3A construction had been progressing. He stated that El Cajon Valley High School was leading in progress and that the exterior of the building was complete. ▪ Mr. Dunbar stated that the Phase 3A project at Granite Hills High School was underway and currently working on grading. ▪ Mr. Dunbar stated that staff had been hoping to have Phase 3BR plans ready to be sent to DSA by January.

7.0 Construction Update (Continued)	▪ Mr. Dunbar pointed out that Phase 3A science classrooms would be completed by the first quarter of 2010, and that the project at Granite Hills High School would continue until summer 2010. ▪ Mr. Dunbar pointed out that there had been progress on the new high school as well, and that relocation fees had been negotiated for two homes.
8.0 Subcommittee Chair Selection	▪ Subcommittee Chair Nichols stated that his term would end after the October 28 CBOC meeting. Member Brindley volunteered to serve as Subcommittee Chair.
9.0 Other Business	▪ Member Brindley stated that he had attended the October 19 Steering & Planning Subcommittee meeting and that a spreadsheet was provided for review and discussed by Debbie Murray. ▪ Member Brindley mentioned that Ms. Murray had presented a version of the maintenance plan to the Steering & Planning Subcommittee. He stated that it covered everything but deferred maintenance. ▪ The Subcommittee discussed the possibility of future recommendations on deferred maintenance. ▪ The Subcommittee agreed that a joint meeting with the Steering & Planning Subcommittee would be helpful in order to review a more detailed report on Deferred Maintenance.
9.1 Work Training Center Update	▪ Mr. Dunbar pointed out that no decision had been made at that time on the future of the Work Training Center.
10.0 Future Agenda Items	▪ Joint Meeting with Steering & Planning Subcommittee: Deferred Maintenance.
11.0 Adjournment	▪ The meeting was adjourned at 12:20 p.m.

Construction Oversight Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Thursday, December 17, 2009

Grossmont Union High School District Office; Conference Room 2

5:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brindley at 5:00 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Tim Brindley, Jeff Wilson *Members Absent:* Sharon Smith *Staff Present:* Bob Kiesling, Penny McGrew, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Review of Subcommittee Responsibilities for 2010	▪ The Subcommittee reviewed and discussed the Subcommittee Responsibilities list with staff. ▪ Mr. Kiesling mentioned that the Subcommittee Responsibilities list had been created by CBOC Consultant Larry Goshorn, and revised by each Subcommittee as needed. ▪ Mr. Kiesling offered to provide a "headache report" at future

5.0 Review of Subcommittee Responsibilities for 2010 (Continued)	Subcommittee meetings to give information on construction-related issues. ▪ Mr. Kiesling mentioned that previous CBOC member Phil Marsh would contact contractors to learn of any issues from their perspective and bring the information back to the Subcommittee meetings. ▪ Member Ashman pointed out that there were tasks assigned to the Construction Oversight Subcommittee that had been duplicated on the scope of the Steering & Planning Subcommittee. He suggested that those tasks be reviewed and completed during joint meetings. ▪ Mr. Kiesling reminded the Subcommittee that Mr. Goshorn could be tasked with project reviews to investigate projects and issues that the Subcommittee might not have time for. ▪ Mr. Kiesling mentioned that staff would be able to provide copies of various reports and schedules for review at future meetings if requested. ▪ Subcommittee Chair Brindley described the previous Subcommittee meeting format to Member Wilson. He mentioned that meetings were held at different high school construction sites, and that they had attended and observed construction owner's meetings. ▪ Subcommittee Chair Brindley suggested visiting each site as Phase 3A construction nears completion. ▪ Mr. Kiesling advised the Subcommittee that the CBOC would be invited to all future ribbon-cutting ceremonies for the Phase 3A science classroom buildings. ▪ Subcommittee Chair Brindley requested that Mr. Goshorn attend the January Subcommittee meeting in order to continue the discussion on Subcommittee responsibilities and discuss the Subcommittee's priorities for the future. ▪ Member Ashman mentioned that he would discuss the history of the Subcommittee responsibility list with

5.0 Review of Subcommittee Responsibilities for 2010 (Continued)	previous CBOC member Ron Pennock prior to the January Subcommittee meeting.
6.0 Other Business	▪ Mr. Kiesling introduced Ms. McGrew to the Subcommittee. ▪ The Subcommittee requested that Ms. McGrew provide the School Weekly Activity Report (SWAR) at future meetings. ▪ The Subcommittee reviewed the Change Order report with staff and discussed architect errors. ▪ Subcommittee Chair Brindley requested that future Change Order reports include a key for the acronyms the Subcommittee may not be familiar with.
7.0 Future Agenda Items	▪ Staff Report on Lease - Lease Back ▪ Review of Subcommittee Responsibilities with CBOC Consultant Larry Goshorn
8.0 Adjournment	▪ The meeting was adjourned at 6:30 p.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Tuesday, January 26, 2009

Grossmont Union High School District Office; Conference Room 2

5:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
1.0 Meeting Called to Order *(Chair)*	▪ The meeting was called to order by Subcommittee Chair Brindley at 5:10 p.m.
2.0 Roll Call *(Recording Secretary)*	▪ A quorum was represented as follows: *Members Present:* Ron Ashman, Tim Brindley, Sharon Smith, Jeff Wilson *Staff Present:* Larry Goshorn, Bob Kiesling, Penny McGrew, Katy Wright
3.0 Approval of Minutes *(Chair)*	▪ The minutes were moved to be approved as presented. Seconded and passed unanimously.
4.0 Public Comments --Items on Agenda --Items Not on Agenda	▪ None.
5.0 Discussion of Third Party Review Recommendations	▪ Ms. Wright discussed the staff response to the recommendations presented in the third party review. ▪ Ms. Wright mentioned that the Audit & Finance and Steering & Planning Subcommittees requested more time to review and discuss the report prior to making a recommendation. ▪ Subcommittee Chair Brindley stated that the Subcommittee would review the recommendations and give feedback at a future Subcommittee meeting.

6.0 Review of Subcommittee Responsibilities	▪ Mr. Goshorn gave background information on the creation of the Subcommittee Responsibilities document, and stated that the goal of the Subcommittee Responsibilities list was to outline the primary elements to be reviewed by each subcommittee. ▪ Mr. Goshorn pointed out that the responsibilities listed were set up as general guidelines, and that it was left to each Subcommittee to assess the responsibilities and projects to be examined in further detail. ▪ The Subcommittee discussed their assigned responsibilities. ▪ Mr. Kiesling pointed out that the Subcommittee could task Mr. Goshorn with monitoring the quality of projects through his project reviews. ▪ Mr. Goshorn mentioned that one recommendation in the third party review suggests that he conduct more projects reviews. He stated that he would like to set up a preliminary plan on the frequency of these reports. ▪ Subcommittee Chair Brindley pointed out that Mr. Kiesling recommended that Mr. Goshorn compare two Phase 3A projects – one using the traditional bid method and the other using lease-lease back, in a project review. ▪ Mr. Goshorn gave background information on the lease-lease back method and discussed the differences with the traditional bidding method. ▪ Member Ashman requested more information on the definition of a project. ▪ The Subcommittee discussed each item in their list of responsibilities with Mr. Goshorn and staff. ▪ The Subcommittee discussed how projects are typically defined and bundled together and the planning process with staff. ▪ Member Wilson requested that staff provide the headache report at each Subcommittee meeting. ▪ Subcommittee Chair Brindley stated that

6.0 Review of Subcommittee Responsibilities (Continued)	he believed it would be beneficial to visit owner's meetings as individuals in order to visit more sites within one month. ▪ Mr. Kiesling offered to provide an overview on the planning of the master plan, design status and strategies, and construction. ▪ Mr. Goshorn stated that he would develop a work plan for the next project review and that the review would be completed in summer 2010. ▪ Member Ashman pointed out that Proposition H tasked the CBOC with ensuring deferred maintenance was retired when the program was retired. He stated that Proposition U doesn't mention this information. ▪ Mr. Kiesling stated that the Steering & Planning Subcommittee review deferred maintenance with staff at each meeting. He suggested that the Subcommittees conduct another joint meeting. ▪ Mr. Kiesling stated that in the future a proposal would be created by the Steering & Planning Subcommittee to bring forward to the CBOC, and then recommended to the Board, regarding deferred maintenance. ▪ **Member Smith moved that the Subcommittee task Mr. Goshorn with reviewing the lease-lease back science classroom project. Member Wilson seconded.** o ***Revised motion:*** **Member Smith moved that the Subcommittee request Mr. Goshorn to provide a proposal to conduct a project review on the lease-lease back science classroom project, starting at the appropriate time. Revised motion seconded and passed 3/1.** ▪ **Member Smith moved that if a Construction Oversight Subcommittee member is interested in contributing to the deferred maintenance discussion they participate on their own at the Steering & Planning**

6.0 Review of Subcommittee Responsibilities (Continued)	**Subcommittee meeting, allowing that Subcommittee to staff the issue, and that it should not be added to the Construction Oversight Subcommittee's responsibilities. Member Wilson seconded for discussion.** ▪ Subcommittee Chair Brindley stated that he believed it was not necessary to vote on the second motion, as it is the task of the entire CBOC. ▪ Member Smith clarified that the intent of her motion was to prevent duplication of work between Subcommittees. o **Revised Motion: Member Smith moved that deferred maintenance not be added to the Construction Oversight Subcommittee's list of responsibilities, and that it remain on the Steering & Planning's task list. Motion was not seconded, did not pass.** ▪ Subcommittee Chair Brindley requested that each member be prepared with input on the list of responsibilities for the next Subcommittee meeting.
7.0 Change Order Report	▪ Ms. McGrew presented the change order report for December and January, with changes highlighted. She pointed out that the lack of change was most likely due to the holiday season. ▪ Ms. McGrew pointed out that the initials previously listed on the report had been changed to full names in order to clarify the information as previously requested by the Subcommittee.
8.0 Construction Update	▪ Mr. Kiesling provided a brief construction update. He mentioned that the high school construction site bus tour would be held on Saturday, January 30. ▪ Ms. Wright presented the School Weekly Activities Report (SWAR) to the Subcommittee. She mentioned that the report is updated on a weekly basis. ▪ Ms. Wright stated that Phase 3A science classroom buildings were under

8.0 Construction Update (Continued)	construction and that El Cajon Valley High School's science building would be opening for students on Monday, February 1. ▪ Ms. Wright stated that because of previous soil issues, the Phase 3A science classroom project at Granite Hills High School had been delayed and that it would be completed by the end of summer 2010. ▪ Ms. Wright mentioned that Viking Center design was once again underway after being on hold due to programming issues. ▪ Ms. Wright stated that Mount Miguel High School was continuing work on Phase 2B modernization. ▪ Ms. Wright stated that design and land acquisition process was ongoing for the new high school.
9.0 Other Business	▪ The headache report was presented to the Subcommittee. ▪ Ms. Wright mentioned that the fiber cement panels for siding on the science classrooms was an issue due to a quality discrepancy on the architects specifications. ▪ Ms. Wright stated that the size of the line for the fire sprinklers had to be increased due to DSA requirements. ▪ Ms. Wright pointed out that the state had been unable to provide the funds that the District qualified for. She stated that this would require the District to prioritize which projects in Propositions H and U would be completed first. ▪ Ms. Wright stated that weather had been an ongoing problem at Granite Hills High School, and that the built in rain delay may be exceeded. ▪ Ms. Wright mentioned that a claim was initiated by a contractor who said the bid documents weren't clear for El Cajon Valley High School. She stated that the claim had been assessed by the program management team, and would be rejected.

10.0 Future Agenda Items	▪ Subcommittee Responsibilities ▪ Headache Report
11.0 Adjournment	▪ The meeting was adjourned at 7:10 p.m.

Grossmont Union High School District

Construction Oversight Subcommittee

of the

Proposition H/U Citizens' Bond Oversight Committee

Tuesday, March 16, 2010

Grossmont Union High School District Office; Conference Room 1

5:00 p.m.

MINUTES

Agenda Items	Assignments/Understandings
