Sir or Madam:

In accordance with your request, we have prepared this estimate. We wish to emphasize that this is an estimate (not a bid or firm amount) and final District charges will be determined by actual cost. This estimate does not include meter fees, Helix Water District Capacity Fees or San Diego County Water Authority Capacity Charges. The current meter fees and/or Helix Water District Capacity Fees and/or San Diego County Water Authority Capacity Charges shall be paid prior to filing a Notice of Completion.

Prior to the start of work, the District will require that you enter into a formal agreement, copies of which are enclosed for your information, which will set forth the District requirements for construction of the water facilities. The District can provide letters stating that financial arrangements have been made after the agreement has been completed.

All work shall be designed and constructed per Water Agencies Standard (W.A.S.) Specifications and Drawings. These standards may be downloaded at www.sdwas.com.

Prior to filing a Notice of Completion on the project, the District will analyze the financial status of the project. If District costs have exceeded the estimate, the Developer will be billed the additional cost which must be received by the District prior to filing the Notice of Completion. If sufficient funds are available to cover District costs on the project, the excess funds will be refunded to the depositor approximately six weeks after the Notice of Completion has been filed by the District.

"The District does not guarantee water service until all water meter and capacity fees are paid."

The members of our Staff are always ready to be of service to you.

Very Truly Yours
