RE: CSM-4419
Claim of San Ramon Valley Fire Protection District
1990 California Fire Incident Reporting System
New CFIRS Manual

Dear Mr. Lehman:

In light of the recent appointment of a new Department Director, subsequent organizational changes, and pressings demands on our reduced staff, I respectively request a continuance of the hearing for this claim.

Due to the far reaching implications inherent in this issue, we need additional time to prepare an adequate and appropriate response for the Commission's consideration.

Your understanding and favorable reply to this request for postponement will be most appreciated.

Sincerely,

A handwritten signature in cursive script that reads "David D. Walizer".
